

Sky&Earth 161

Chapter 161: Coming To The Rescue.

Rumble rumble

A group of Ice-Cold Wild Wolves pounced forward as the bloody smell from its blood-dripping mouth assailed the nostrils with incomparable fierceness. Bringing along with a violent and frosty aura, they directly sprang onto the young girl.

Such a group of Ice-Cold Wild Wolves with their auras surging had caused the nearby temperature to abruptly drop as if the surrounding air had fallen into an icy cave.

Swish! Inside the young girl's hand, a long crimson whip appeared which created a whizzing sound as it whipped towards the few Ice-Cold Wild Wolves that had pounced forward first.

Crack The long crimson whip emitted a radiance while its ferocious power felt very oppressive.

The young girl seemed to be using her full strength as she instantly whipped two Ice-Cold Wild Wolves away.

Howl

However, an even more powerful Ice-Cold Wild Wolf at the back of the group directly held the whip down with its sharp claws.

The expression of the young girl changed. Xuan Qi surged while the aura on her body was like a fluctuating bloody fog, causing the power of the long crimson whip to rise with a blood-stained glow spreading along it, smacking that Ice-Cold Wild Wolf away.

Howl! The howl of the wolf was terrifying as a whiff of powerful freezing aura swept through.

Then, an Ice-Cold Wild Wolf in the Demonic Spirit Realm leaped out. Its sharp claws were like hooks, directly slashing towards the young girl.

A tint of imposingness flashed within the young girl's eyes. Scurrying, she maneuvered the long crimson whip to wrap around the claws of that Ice-Cold Wild Wolf and pulled hard, trying to jerk the Ice-Cold Wild Wolf into flinging away.

Howl! But the Ice-Cold Wild Wolf was much stronger than what the young girl had expected. Its body flew in mid-air while it took advantage of the moment it had landed to burst out with frightening power. The frosty aura spread through the long crimson whip, causing the body of the young girl to stagger backward.

Crack That Ice-Cold Wild Wolf was fearsome and vicious as it opened its blood-dripping mouth, trying to swallow that young girl directly.

The frosty aura and bloody smell assailed the nostrils, which could make people retch and even faint.

The expression of the young girl changed considerably. She hastily lifted her legs and leaped with Xuan Qi surging under her feet as the delicate and beautiful figure abruptly jumped to a low altitude. The hair behind her back fluttered as she stepped on top of the head of the Ice-Cold Wild Wolf in the Demonic Spirit Realm.

The young girl's figure was quick and swift as she avoided the blood-dripping mouth and directly leaped forward, trying to take the chance to escape.

Howl! But at the same time, the second Ice-Cold Wild Wolf in the Demonic Spirit Realm pounced forward with a frosty chilling light glowing on its sharp claws looking as though it could freeze everything.

The young girl had no way to escape. Her pearly white teeth firmly bit onto her tender lips as she condensed a hand seal. The Xuan Qi within her body fluctuated to its peak and transformed into the print of a fist, directly clashing with the center of the Ice-Cold Wild Wolf's sharp claws.

Boom! An explosion sound burst out, and the figure of the young girl directly flew away, crashing harshly onto the ground.

Crack A chilling light swept past as the first Ice-Cold Wild Wolf in the Demonic Spirit Realm seized the chance to slash its sharp claws onto the back of the shoulder of the young girl. Fresh blood abruptly spilled everywhere.

The back of the dress of the young girl had ripped. Several wounds that were horribly mangled and deep enough to see the bone were discovered on her snow-white skin which was too horrible to be seen.

Pu The young girl spewed out fresh blood as her body also promptly crashed heavily onto the ground. With her cultivation, it was indeed impossible to contend against this group of Ice-Cold Wild Wolves.

Howl There was only gore and ruthlessness in the eyes of the Ice-Cold Wild Wolves. An Ice-Cold Wild Wolf in the Demonic Spirit Realm opened its blood-dripping mouth wide to swallow the young girl into its mouth.

The expression of the young girl became extremely imposing. However, at the moment, she no longer had the strength to contend against it. It seemed like she was about to die here.

Chirp! At this crucial moment, a sharp cry pierced through the clouds and shattered the rocks. A huge ferocious bird spread its wings and dived down. Its aura was shockingly hot as it burnt the empty sky. With speed like that of a sudden clap of thunder which left no time for covering one's ears, its sharp claws reached out and grabbed onto the shoulder of the Ice-Cold Wild Wolf in the Demonic Spirit Realm.

Howl! The Ice-Cold Wild Wolf in the Demonic Spirit Realm felt something was wrong as it roared and quickly dodged. However, it was too late. Its shoulder was torn with several cracks as though a flame had burnt past it. Within the mangled wound, there was a layer of burnt skin as it roared out in agony.

Howl! The remaining Ice-Cold Wild Wolves were furious while their entire bodies glowed with a whistling frosty aura and intertwining lights. Their auras were fearsome as they raised their heads to glare at the several ferocious birds flying in the sky.

Roar At the same time, there were tremors within the forest in front of them. Beasts roared like thunder and with shocking momentum as several enormous beasts rushed out.

The unexpected arrival of this unforeseen event had made the young girl feel surprised.

After that, the pale face of the young girl changed considerably as her eyes could not believe what she had seen.

On the back of the White Jade Swallow, she saw a young man sitting on it while his black hair fluttered and his robe flickered, exhibiting some divineness and robustness.

It is him!

How could she forget about this young man? To think that this young man was actually not dead and had even suddenly appeared at this moment. It also seemed like this group of powerful beasts were also brought by him.

Get lost! On the back of the White Jade Swallow, Su Yi glanced at the several Ice-Cold Wild Wolves on the ground and shouted. His voice was sharp and resolute.

Who are you human? Do you have a death wish?! The gazes of the several Ice-Cold Wild Wolves were astounded. The leading two Ice-Cold Wild Wolves did not seem to have the intention of retreating, especially the Ice-Cold Wild Wolf that got scratched by Flaming Beast Bird as it was furious and raised its head to roar.

Foul beasts. Kill! Su Yi's expression became dark while a chilling gaze swept past.

Roar! Chirp! A tiger roared from the forest and a ferocious bird trilled. The Fire-Eyes Beast Tiger, Flaming Beast Bird, Silver Spirit Demonic Butterfly and the rest directly pounced, instantly sweeping towards that group of Ice-Cold Wild Wolves.

Su Yi also leaped from the back of the White Jade Swallow and then dived down. Xuan Qi surged beneath his feet as an aura was released.

Howl! An Ice-Cold Wild Wolf in the Demonic Xuan Realm Third Grade howled aggressively. A frosty aura surged on its entire body as it directly pounced towards Su Yi.

Su Yi arched his eyebrows. Without retreating, a hand reached out as he initiated the Hundred Transformation Steps and directly grabbed onto the forelimb of the claw that the Ice-Cold Wild Wolf had extended out.

The expression of the Ice-Cold Wild Wolf changed as it was shocked while trying to break free.

But the Ice-Cold Wild Wolf found that no matter how much it struggled, it was unable to break free. Its resistance was useless as the human had firmly grabbed onto its forelimb. The pain was unbearable as though its bone was going to break.

Go and die! Su Yi deeply growled while grabbing onto the forelimb of the Ice-Cold Wild Wolf like he was flinging a rock, and directly hurled the wolf upwards, crashing it onto a nearby huge rock. It was simply overbearing!

Bang! The sound of flesh splitting open rang out, and the huge rock cracked.

After a painful wail from the Ice-Cold Wild Wolf, its entire flesh was mangled badly like a pool of blood as it directly stuck onto the cracked huge rock, unquestionably dead.

Howl

An explosion sound rang through the surroundings like thunder as beasts kept roaring. The group of Ice-Cold Wild Wolves was wailing terribly.

Fire-Eyes Beast Tiger, Snow Jade Ape, Flaming Beast Bird, Fiery Red Demonic Mink, Golden Python and the rest were beasts in the Demonic Spirit Realm. Additionally, they were still improving recently as their cultivation had skyrocketed.

These Ice-Cold Wild Wolves were completely not their opponent as they were nearly killed instantly by Fire-Eyes Beast Tiger and the rest.

The two leading Ice-Cold Wild Wolves in the Demonic Spirit Realm First Grade had been directly smacked down by the Fire-Eyes Beast Tiger and Snow Jade Ape.

Chapter 162: Rendering Good For Resentment!

Su Yi directly walked towards the young girl who at the moment, couldn't even climb up and was lying on the ground with an appearance of 14-15 years old. Her original white and tender skin which had a tint of pink on her snow-white skin as if water could be squeezed out from it was now as white as paper.

However, while that body with a thin waist and four slender limbs laid on the floor, the figure appeared even more alluring. Besides the young girl who had ransacked him, who else could it be?

The young girl in the red dress glanced at Su Yi with a smile that was squeezed out from her ashen face. With a weak breath, she said: It's great that you are not dead. I knew that you would be alright. It's true that what goes around comes around! Su Yi's face was no longer pale as his facial features were remarkably dimensional on his face. Under the thin and long sword-like brows, his eyes were sparkling with light as the corner of his lips slightly curved up in a smile.

But, in the eyes of the young girl, the smile had unknowingly given her goosebumps.

What are you going to do? The smile on the young girl's face vanished as she glared at Su Yi with a warning and stated: If you dare to lay a finger on me, I will never let you off. As her eyes stared towards Su Yi, for some unknown reasons, it made Su Yi's heart be in a trance as if it was covered up in a layer of frost while the blood in his body had also unknowingly started to fluctuate.

Su Yi's eyes secretly moved faintly. This young girl could certainly change her face faster than flipping through a book.

But no matter what, he had to take revenge today.

Little bitch, you still dare to threaten me? I have said before that you better not land into my hands. I am going to rape you first and then kill you. Then rape you again and kill Su Yi's expression was dark. Back then, the young girl had harmed him horribly and robbed him of everything. He must take this revenge regardless of anything.

You dare Pu The young girl coldly glanced at Su Yi. But her injuries were too severe that she vomited out blood while her eyes became dark and she fainted.

Hey, don't pretend to die. Do you honestly think that by pretending to be dead, you will be fine? Su Yi felt very gloomy. Shortly after checking, he confirmed that the young girl had indeed fainted due to her injuries being too severe.

Two hours later, inside a natural cave, Su Yi hugged the young girl like a soft jade in his arms.

The young girl was still unconscious. Su Yi gently placed her onto a flat rock as the wound on her shoulder had mangled so severely that bones could be detected. Bright red blood had stained her entire back.

I cannot let you die so easily, or else it would be letting you off too lightly. Su Yi mumbled.

Previously when he had stayed in the Forest of Demons for three years, he often had this kind of wounds on his body, so he was able to deal with this situation with ease. Moreover, the present was not the same as the past as he had no shortage of medicinal herbs with him now.

Su Yi checked on the state of the young girls injuries. Fresh red blood had stained her entire back. He tore open the back of her dress and saw that the flesh had mangled so severely that bones could be detected. He secretly sighed as it was already fortunate that the young girl was not split into half by that Ice-Cold Wild Wolf.

He took out some medicinal herbs from the mysterious space and ground it into powder.

I am not saving you because I want to, but because I dont want you to die so early! Su Yi softly mumbled as he ripped off a piece of clean cloth from his shirt and gently wiped the surrounding of the wound on the young girls back, revealing that white, tender and radiant skin.

Only, presently, Su Yi did not have the heart to admire that jade-like skin as he sprinkled the powdered herb onto the back of the young girl. Then, he gently flipped her over and stuffed a stalk of recovery elixir into her mouth.

The young girl was still unconscious, and her complexion was remarkably white. Even the hair on her sideburns was tainted with blood. However, on that pair of tender lips, was a natural scarlet color while her body emitted a unique fragrance. Although at the moment her eyes were closed, it still brought a special kind of attractiveness.

Su Yi quietly watched while he involuntary kept glancing at her. He secretly sighed as this girl was still so young, yet she was already such a femme fatale. After a few more years, she would be even more ravishing.

But the most vicious is a womans heart! Hatred brew inside Su Yis heart as he remembered being deceived by this girl and almost dying in her hands.

The more he thought about it, the angrier he got. Su Y then insolently searched the body of the young girl, taking out numerous interspatial bags.

After checking through the interspatial bags one by one, none of them had seals on them. These were precisely the interspatial bags that had been, ransacked from Su Yis body.

Inside the interspatial bags, the enormous amount of Yuan Stones were there without any losses. Among them, even the Ling Bao Pavilions black card was still there.

Only, there was one more interspatial bag that had a seal on. Su Yi guessed that it must be the young girls and impolitely kept it on his body.

After he finished everything, Su Yi once again sized up the young girl. There was an aura fluctuating around her body, meaning that the recovery elixir and the powdered herb must be working their effect. Her life should not be in danger anymore, barely escaping from death.

Except inside Su Yi's heart, he kept having the feeling that all of these were too good for the young girl.

This girl had robbed him of everything, almost causing him to die. On the contrary, he had now saved her. It was unexpectedly rendering good for resentment.

Forget it, since I am the bigger person. Dead or alive, it is all up to the heavens to decide. Su Yi planned to leave since he felt that he had already been very gracious.

However, when he walked to the opening of the cave, he once again halted his footsteps.

He turned back to glance at the young girl who had not yet awakened. They were still within the Grand Beast Canyon and furthermore, the cave was not completely safe as a beast could come in at any time.

With the state of the girl now, she could be a dessert for any beast that happened to come in.

After all, she is a girl. Moreover, she is a beautiful girl too.. Moments later, Su Yi returned to the cave, planning to leave only when the young girl had woken up.

He made Golden Python, Spectral Mouse and the rest to do whatever they want inside the cave, separating them to train while also providing protection.

Su Yi sat cross-legged inside the cave and summoned out the mysterious space, operating with ease as he opened the young girl's interspatial bag.

Yuan Stones, elixirs, Spiritual Herbs The interspatial bag was big, having many Yuan Stones and even Mirage Grade High-Level Elixirs. There were also numerous medicinal herbs and Spiritual Herbs. All of these added together was admittedly a great harvest, enough to make Su Yi satisfied.

Only, inside the interspatial bag, there were no martial arts techniques and even cultivation techniques.

However, for Su Yi, cultivation techniques were insignificant.

Su Yi only needed to cultivate the Supreme Chaotic Yuan Technique and the Heavens Taming Incantation as these would be enough for him.

As for martial arts techniques, at the moment, Su Yi did not have any need for it as all of the martial arts techniques with Su Yi were in the king grade, and there was also an emperor grade martial art that he was unable to practice.

Inside the interspatial bag, there were many women's clothing and feminine supplies. Su Yi curiously flipped through them as all of them had a faint, delicate fragrance.

This is a little pervy. Su Yi secretly scolded himself. After placing everything back to their original place, he walked out of the mysterious space.

Glancing at the young girl beside him, Su Yi reckoned that she would still need some time before she could wake up. So, he started to cultivate the Heavens Taming Incantation to train his spiritual soul.

The next day, Su Yi once again helped the girl to change medication and stuffed another stalk of recovery elixir into her mouth.

This can be considered as doing something good too. Su Yi mumbled to himself. He initially had wanted to seek revenge on the young girl, but who knew that he would end up taking care of her.

For the subsequent three days, Su Yi would help the young girl to change medication once a day.

The wound on the young girl's back where bones could be detected had miraculously exceedingly recovered as it had started to patch together.

The breathing of the young girl had already stabilized while her complexion had also returned to its peaceful state as if she was sound asleep.

Indeed she is good-looking, comparable to Liu Ruoxi. Su Yi mumbled in his heart.

Chapter 163: Treasure Land!

While mumbling, Su Yi turned his body around, planning to continue to cultivate the Heavens Taming Incantation.

He had no idea when the young girl would wake up while he could also be considered as acting kind person this time.

Following that, Su Yi's eyebrows secretly slightly arched as though he had found out something as a hidden glint swept past his eyes.

Crack

All of a sudden, at this moment, the young girl who was lying down opened her eyes. With speed akin to lightning, a hand was directly clasped towards Su Yi's throat.

At this instant, the unconscious young girl exploded out with a strong aura while her hair drifted in the air as her tightly shut eyes abruptly opened with some bloody radiance flashing within them.

Sure enough, she has already woken up!

Simultaneously, Xuan Qi surged beneath Su Yi's feet as he rapidly retreated backward.

Crack

His neck could feel a sharp aura scraping past it, causing his skin to sting. Nevertheless, Su Yi had fortunately avoided the attack.

Ah

A delicate shriek rang out as the young girl who had suddenly blasted out an attack, uncontrollably screamed painfully as the wound on her back had torn apart. Her complexion changed, and she nearly teared up from the pain.

The young girl then powerlessly sat back down, her aura declining.

Roar!

My lord

The Fire-Eyes Beast Tiger and Snow Jade Ape were guarding the entrance when the Golden Python had felt the fluctuating aura inside the cave and went in.

Only, the three enormous bodies were now stuck at the entrance of the cave, unable to come in.

Im fine.

Su Yi stepped back and reached the entrance, standing right before the three beasts.

With a vigilant glance, he kept his gaze on the young girl as he knew that the young girl was very mighty. Although she was severely injured, he did not know whether or not she was pretending. Therefore, it was better to stay far away from her.

Howl

Fire-Eyes Beast Tiger, Golden Python, and Snow Jade Ape could feel the atmosphere in the cave and knew that the girl had attacked their lord.

Shortly, all three pairs of brass bell-like fearsome eyes firmly glared onto the young girl, while a ferocious light and bloody smell assailed the nostrils.

Most likely, with just one command from Su Yi, Fire-Eyes Beast Tiger and the rest would be enough to flip this cave upside down and tear apart that young girl.

The back of the young girl had ripped apart in excruciating pain, and bloodstains had once again sipped out. She then glanced towards Su Yi too.

Seeing that Su Yi was standing right before the three beasts and that they were respectful to him, the expression of the young girl changed exceedingly as her eyes became wide with shock!

Getting nothing rewarded in return for being kind!

Su Yi felt extremely wronged. It truly was getting nothing rewarded in return for being kind. From the beginning, he should have let the girl survive or perish on her own.

He had kind-heartedly given her treatment, yet she had returned his kindness with hostility.

Luckily Su Yi had found out about it quickly, or else he would have ended up in the hands of this vicious woman again.

Are you a disciple from the Demon Subjugating School? Looking at the three beasts behind Su Yi, the young girl could still remember that when the young man had suddenly appeared earlier, there were many beasts right by his side too. She speculated that the young man might be a disciple from one of the ten big powers, the Demon Subjugating School.

Reportedly, the people from the Demon Subjugating School could control some beasts, and they were very mighty.

Since you have woken up, then we shall never meet again. Goodbye!

Su Yi ignored the young girl and planned to leave.

Anyway, the girl had already woken up. It was better to leave her further away, lest he was to get involved again.

Once the girl had recovered, Su Yi knew that it would be hard to contend against her.

Hey, wait

Seeing that Su Yi had wanted to leave, the young girl shouted for Su Yi to stop.

What?

Su Yi turned his head around, slightly arching his eyebrows as he lightly glanced at the young girl.

I was too rash. Thank you for saving my life. Last time it was my fault, and also this time, it is all thanks to you for saving me. I will surely repay you for your kindness in the future. The young girl answered sincerely as her big eyes sparkled with full of gratitude.

No need for repayment. Not meeting again is already good enough for me. How could Su Yi believe in this girl again when he had already seen her ability to change her face faster than flipping through a book.

Last time, this girl also had a face full of seriousness like a female bodhisattva, while almost causing him to die. Su Yi would not be fooled by her again.

When the words landed, Su Yi once again turned around to leave.

Hey, hold on for a while. My wounds are so severe, and this should still be the inside of the Grand Beast Canyon, right? If you leave me behind here, I will be in danger when a beast comes. The young girl shouted towards Su Yi with a face filled with grievances.

With that enchanting face and a celestial-like temperament, most likely if any man were to see it, they would inevitably care for and pity her.

None of my business. Compared to when you first threw me away over there, you are in a much better condition. If there are no beasts, when your injuries have healed, you can naturally leave. If there are beasts, it will be regarded as the Heavens, seeking out to destroy you and I also cannot save you. Whether you are dead or alive, it all solely depends on whether you are a good or a bad person.

Su Yi faintly spoke, returning the words the girl had previously said to him.

Compared to that vicious girl, Su Yi felt that he was already a much better person.

I know that I was wrong previously, and I also appreciate that you are still able to save me this time. The young girl glanced at Su Yi with a face full of sincerity.

Perhaps within this speech of sincerity, there was some truthfulness to it.

The young girl had already checked herself and knew that Su Yi had helped her to put on medication, while her body was perfectly intact. Even within her body, there was a leftover power from the recovery elixir.

Otherwise, with such a severe wound, she would have been fraught with grim possibilities.

No need to thank me. Saving you was only to take back what was mine. Su Yi impolitely replied. This girl really could pretend. With such a pitiful appearance, only a handful of men in the world would not be soft-hearted to her.

But if they had indeed become soft-hearted towards this girl, they would be the biggest fools.

Its okay since that was yours from the beginning. I was still thinking about how to give it back to you in the future. The young girl responded earnestly.

No need. I have already gotten it back by myself. Su Yi did not want to speak too much as this girl could change her face very fast. It would be wise to keep a distance between them.

After ending the conversation, Su Yi turned around to leave, not wanting to have any relations with the girl. He brought Fire-Eyes Beast Tiger and the other two to leave the cave.

Seeing that Su Yi was certainly leaving, the eyes of the young girl moved as she gnashed her teeth and spoke aloud: Hey, don't go. I will give you a big present. I know of a place that unmistakably has precious treasures, treasures that are beyond your imagination.

Do you think I will believe in you? Su Yi's voice traveled from outside the cave, as though he did not believe in it.

I am not lying to you. I have come here alone to the Grand Beast Canyon to search for that treasure land. I was chased by that group of Ice-Cold Wild Wolves this time because I had almost found its location. That is absolutely a treasure land. It will definitely have precious treasures that are beyond anyone's imagination. The young girl exclaimed seemingly urgent, hoping that Su Yi would believe in her.

Only, the sound echoed around the cave as Su Yi's figure had disappeared from the entrance of the cave. With no reply, the expression of the young girl turned dark.

What precious treasure

Just when the young girl was a little sad and depressed, Su Yi, who had left, had abruptly returned.

Su Yi carefully sized up the young girl. Unquestionably, the precious treasures that were beyond anyone's imagination had perked Su Yi's interest.

Chapter 164

Fire-Eyes Beast Tiger and the other two beasts followed tightly behind Su Yi while staring at the young girl with an utter warning glance in their fearsome eyes.

Looking at Su Yi who had returned, a glint secretly flashed past the young girl's eyes as her enchanting pale face revealed a smile while saying: Shall we make a deal?

Su Yi's index finger touched his chin as he mulled over it and asked the young girl: What's the deal?

I will still need a few more days to recover. During that time, you will guard over me, and we will go to that treasure land together. The treasure in there will be split evenly between us. How about it? The young girl stared at Su Yi with her big beautiful eyes. Along with that enchanting temperament, it was very tantalizing.

What if you suddenly attack me when you have fully recovered or leave to find the treasure by yourself? Su Yi faintly laughed. It was better to take precautions when facing this girl since there was nothing that the girl would not be able to do.

You have so many beasts in the Demonic Spirit Realm behind you that even I cannot deal with, so why would you be afraid of me attacking you? It should be me that is afraid of you attacking me and also stealing all of the treasures for yourself when the time comes.

Furthermore, with so many beasts by your side, it is impossible for me to escape. Indeed, I cannot give you any reassurance, but I swear that when the time comes, I will unconditionally bring you along. If you believe in me, after a few days when I have fully healed, we will go and find that treasure together. If you do not believe in me, then we can go our separate ways now! The young girl spoke with a determined expression.

Su Yi was deep in thought while staring at the young girl. He honestly did not know whether she was telling the truth or lying.

However, it was indeed uncommon for such a young girl to survive in the Grand Beast Canyon alone for so long. There must be a motive for her to come here.

As for the precious treasure that was beyond anyones imagination, it was impossible for Su Yi to not be interested.

Deal. But if you are lying to me, I will make sure that you regret it! After contemplating for a moment, Su Yi then glanced towards the young girl and nodded his head.

Even though the girl was powerful, Su Yi thought that since he had the Golden Python and the rest with him, it was certainly enough to handle the young girl.

Relax, I will definitely not lie to you. Furthermore, you are my savior. Seeing that Su Yi had nodded his head, the young girl smiled with her eyes while she pouted her scarlet lips with unsuspecting temptation as she asked: I still do not know what your name is.

Yi Su. Su Yi answered.

My name is Mo Yue, the Mo for no and the Yue for moon. Mo Yue smiled while pouting, which was very enchanting.

Go heal your wounds first. Su Yi nodded his head and kept glancing at Mo Yue.

Oh, my interspatial bag should be with you, right? All of the things inside the interspatial bag shall be yours. But can you return my dresses and feminine supplies to me? If you want to keep some as a keepsake, I can give them to you some other time, and it is also fine even if you want my intimate clothing. Mo Yue glanced at Su Yi, with laughter in her eyes. Her pair of scarlet lips looked as though they were sweetly smiling and talking as if she was purposely taunting him, which was so peerlessly seductive.

Where does this witch come from? Su Yi secretly frowned, but his expression did not change.

I will return it to you and nevermind about intimate clothing since I have no interest in them. Su Yi lightly said as he threw over Mo Yues interspatial bag.

Thank you.

Mo Yue smiled and afterward, she blinked her eyes towards Su Yi with her long curly lashes, and big sparkling eyes as she spoke: The medication you applied for me, is there any more left? The effect seems to be quite good.

There is still a little more. Su Yi nodded his head.

Then can you help me to apply one more time? Sending Buddha to the west, helping people to the end.

Mo Yue lightly smiled as her black eyebrows curved and eyelashes curled along with her bright eyes, exhibiting a beauty that could not be tainted by the world.

This sort of beauty had momentarily caused Su Yi to be secretly in a trance.

This kind of girl at such a young age could already make so many pretty girls lose their beauty. She was like a witch, yet she was also like an elf.

Following after her words had landed, Mo Yue turned her body and gently leaned on the rock. Her legs were long and slender while one of her legs bent, outlining an incomparably enchanting curve with a lazy appearance that undeniably, still unveiled some childishness, yet was already utterly alluring.

Gulp

For an unknown reason, Su Yi's throat felt a little hot as he secretly swallowed a mouthful of saliva.

The moment when the girl changed her face, it was like a witch, savage and ruthless that was downright sinister.

However, at the moment, it was also utterly alluring like it was untainted by the world as the two types of temperament merged into one body.

What's wrong? Are you still afraid that I will attack you? I, however, cannot win against your beasts. Mo Yue softly laid down while she gently lifted her snow-white wrists as her delicate hands pulled the tattered clothes on her back open, revealing the wound that had burst apart. Her eyebrows secretly grimaced as she did not turn her head and said faintly to Su Yi.

Su Yi was briefly stunned. He hesitated for a moment and glanced at Mo Yue. Even though he did not want to go over, his feet had disobediently walked over.

When he reached Mo Yue's side, Su Yi secretly became vigilant and tried to wipe away the powdered herb that he had previously applied.

Mmm mmm.

Mo Yue leaned softly. Although Su Yi was very gentle, her back was in excruciating pain while she occasionally grimaced and softly groaned.

But, when such a sound traveled into Su Yi's ears, it caused him to scowl.

The sound had unknowingly, made Su Yi's tongue dry and mouth parched as if a fire was seemingly burning inside his body.

Mmm. Mmm

Mo Yue did not sense Su Yi's strange reaction as she kept groaning softly.

She would also occasionally slightly squirmed her enchanting and alluring body. Her waist slightly moved, causing the outline of her body to look even more impressive and tempting.

Su Yi was close to her, and he was precisely at the age full of vigor. With such a witch-like girl, he was immediately thrown in a torturous state.

Can you stop yelling?! Su Yi finally could no longer bear it and shouted towards Mo Yue.

Then you should be gentler. It is painful. Mo Yue softly remarked while the tone of her voice was also sluggish.

I am already being very gentle. Su Yi rolled his eyes, but he still became even gentler.

When he finished wiping off the remaining powdered medicinal herb, Su Yi discovered that the wound on her back had nearly healed up. Only because of that sudden outburst earlier, it had torn open some slits as blood had sipped out.

Taking out the medicinal herbs and operating with ease, he milled it into powder and once again applied it onto Mo Yue's back.

Mmm. Mmm

The powdered herb brought a little sting when applied onto wounds, causing Mo Yue to grimace once again as she lightly bit her scarlet lips. A soft groaning sound was also emitted from her throat.

Most importantly, the witch girl would occasionally clench her legs together and squirm her body while a faint, delicate fragrance from her body directly assailed Su Yi's nose.

Bear, bear with it!

Amidst such a scene, Su Yi almost could not hold on as his face was flushed red. The area under his belly was already blazing hot as he forcibly bore with it.

Done.

After he finished applying the powdered herb, Su Yi rapidly turned his body around to leave. If he stayed there for any longer, he would not be able to hang on.

You have touched my back for so long, including the times when I am unconscious. Were there any feelings? After the medication was applied, Mo Yue gently sat up as she pulled her dress while glancing at Su Yi. Blinking her big eyes, she slightly smiled as she questioned him.

Chapter 165: Fortifying Arm Strength.

Su Yi was momentarily stunned. This girl truly was

Who will have the mood to touch you? I was only applying medication for you! Su Yi was gloomy. However, his ear had involuntarily become red for no reason.

Ke ke

Looking at the appearance of Su Yi, Mo Yue giggled uncontrollably and responded: Although you were applying medication for me, you had also undeniably touched me. I am an unsullied virgin with a body that is as clean as ice and as pure as jade. Since you've touched me, aren't you supposed to take responsibility?

Su Yi felt extremely helpless as this girl was just like a witch. Which part of her looked as clean as ice and as pure as jade?

Most importantly, Su Yi just realized that he got teased by her.

At any rate, he was a reincarnated person. To be teased by a little girl, Su Yi felt a little wronged as he pursed his lips while answering: If you sincerely want me to take responsibility, then I will reluctantly accept it. But I already have a fiancée so you can only be the second wife. Additionally, your skin is not bad, or you can let me touch it again.

Seeing that Su Yi had suddenly shifted the topic around and teased her, Mo Yue's gaze secretly faintly moved, but her expression did not change as she continued to smile while her body sat slightly straighter.

Though she was sitting down, the witch's figure still appeared curvy and exquisite. When she smiled, it was as if like a celestial who was untainted by the world. She continued to reply to Su Yi:

Next time when you apply the medication, you can continue to touch. However, is it true that you have a fiancée? None of your business. Su Yi responded as his mind involuntarily recalled that figure from the beginning. He had not seen her for several years, and he wondered how she was doing.

I was merely asking. If you don't want to say, then it's fine. But I want to know, is your fiancée prettier or am I prettier? Mo Yue smilingly asked while blinking her eyes.

She is prettier than you. Su Yi arched his eyebrow as he responded faintly.

Fine. I want to change my clothes and then heal myself. You should go out first, and if you dare to peek at me changing, you will be dead! Mo Yue's expression abruptly became cold without a reason.

Su Yi's eyebrow arched slightly. This girl indeed changed her face faster than flipping a book.

You will heal yourself first. I won't enter here to disturb you for these few days, so call me if there is anything. Su Yi stated and then left the cave.

If there is a chance in the future, I want to see how pretty that fiancée of yours is! Watching Su Yi back, Mo Yue pursed her lips with an adorable beauty.

Outside the cave was an endless chain of mountains.

From the words of the Fire-Eyes Beast Tiger, Golden Python, and the Snow Jade Ape, Su Yi found out that Fiery Red Demonic Mink and the rest had been going around to train in these few days. Even Da Bao and Xiao Ling had secretly followed after them.

Su Yi had no idea how much truth there was in Mo Yue's words, but since he had chosen to believe in her, then he could only wait for these few days.

Continue to cultivate! Muttering in his heart, Su Yi put down the 500-kilogram broken sword from his back.

Hu hu Holding the sword in his right hand without activating his Yuan Qi, Su Yi used his physical strength to swing the 500-kilogram broken sword.

Now that he had broken through to the Yuan Xuan Realm, Su Yi could swing the 500-kilogram broken sword in his hand while only using his physical strength without feeling exhausted.

The Thirteen Swords of the Roaring Gale required a strong cultivator in the Yuan Emperor Realm to be able to cultivate it.

And before cultivating it, he still needed an at least 5000-kilogram sword to train his body.

However, Su Yi did not give up as he continued to follow the guidelines of The Thirteen Swords of the Roaring Gale to train his arm strength.

A 5000-kilogram heavy sword with just his physical strength alone, Su Yi was still unable to lift it. This 500-kilogram broken sword was precisely suitable for him to fortify the power of his arm and wrist.

Su Yi alternated between his two hands while swinging the sword, only stopping to rest when his muscles were screaming in pain.

Su Yi inserted the 500-kilogram sword into the ground of rocks while he was sweating like a pig with bean-sized drops of sweat dripping from his forehead as he panted heavily.

Staring at the 500-kilogram broken sword in front of him, Su Yi had always found it strange. For such an unremarkable broken sword, it was unknown what material it was cast that had caused it to be so heavy, and it had also come from that mysterious lady's interspatial bag. For such an average item, that lady did not seem to have taken a fancy to it.

With no answers, Su Yi did not get entangled with it as he could not explain simply by examining it. Then he sat cross-legged to meditate and recover his strength.

As for the Heavens Taming Incantation, since Mo Yue had awakened, Su Yi did not plan on exposing his identity of a Soul Tamer.

For the next few consecutive days, Su Yi would train the Three Sabres of the Raging Dragon and the rest of the martial arts techniques every day, while also fortifying his arm strength with the 500-kilogram broken sword.

On the evening of the third night, the Fiery Red Demonic Mink, Spectral Mouse, White Jade Swallow and the rest had all returned together with wounds on their bodies.

We met with some opponents, and their strengths were not weak. Luckily, we had fled away quickly. Spectral Mouse shamefully said.

Apart from being powerful, if it wasn't for me, you would have long been tortured to death. The Silver Spirit Demonic Butterfly spoke. Both of its wings had traces of blood as it had gone through a vicious battle.

It was so scary! That dragon was too mighty. When I become stronger, I will go back and deal with it again. Da Bao and Xiao Ling drilled out from within the Flaming Beast Eagles wings as they had been hiding there.

It's okay as long as you guys are alright. Go recover yourselves. Su Yi said while taking out some recovery elixirs for the Silver Spirit Demonic Butterfly, Spectral Mouse and the rest to cultivate. Suffering from little wounds were normal to become stronger quickly.

During the fourth day, Su Yi continued to cultivate martial arts techniques and fortify his arm strength.

During these days, he would inadvertently glance towards the cave, wondering when Mo Yue would come out.

Throughout all these times, Su Yi was also wondering why Mo Yue hadn't asked him to change the medication. His heart couldn't help but look forward to it.

Unfortunately, for the past few days, no sounds could be heard from Mo Yue who was inside the cave, only the fluctuations of aura spreading from the cave allowed him to know that she had been inside recovering hence he did not disturb her.

On the morning of the fifth day, with the same pattern as always, Su Yi who sat cross-legged stopped meditating as he exhaled a breath and stretched his waist, feeling refreshed.

To think that you would break through to the Yuan Xuan Realm this fast. The last time I saw you, you seemed very weak! Mo Yue's voice traveled from the cave as her beautiful figure walked out.

After several days of recovering, Mo Yue's complexion at the moment had regained its rosy hue. She had also changed into a pale blue long dress with a yellow belt tied on her waist, making her

waistline to appear even thinner than an arm grip. Her long hair leaned on her tiny waist, emitting a unique and delicate fragrance. Her eyes cleverly moved, revealing a faint slyness like an elf in this ancient chain of mountains.

Su Yi lifted his head as he watched Mo Yue. Sensing her aura and complexion while adding onto the fact that she had recovered to the extent as if nothing had happened within just a few days, this girl was definitely not simple.

Whats wrong? Do you suddenly feel that I am prettier than your fiance? Mo Yue glanced at Su Yi as her eyes moved with laughter in them. Her pair of scarlet lips appeared as though it was sweetly smiling and talking.

Su Yi arched his eyebrow while staring at Mo Yue and said: Now that you have mostly recovered, shouldnt you bring me to the treasure land? Certainly, but I have to warn you that you must not be imprudent. Mo Yue slightly smiled and replied.

Chapter 166: Demonic Core!

Where is the place? Su Yi questioned as he was secretly on guard. This girl was not simple, yet she had not succeeded previously, affirming that the place must be extremely unsafe.

Can it be that you are afraid? Mo Yue shot a smile at Su Yi. Although her body was still immature, it was already an exquisite figure. Her snow-white skin gleamed with an alluring luster when caged by the sunlight. It was unclear whether she was a sacred elf or a seductive witch.

It is better to be safe. Say it, what does that place contain and what kind of existence is it? Su Yi asked.

Lets talk while we walk. Mo Yue responded. Her expression finally revealed some seriousness.

I have received news that there is an old nest of a Blazing Heavenly Dragon at the peak of the Demonic Void Realm Ninth Grade not far away ahead. If we can kill that Blazing Heavenly Dragon, we can get its demonic core, which is a precious treasure! On the way from Mo Yues words, Su Yi finally knew what Mo Yue had wanted to do.

Goodbye After listening to Mo Yue, Su Yi glanced at her before unhesitatingly turning his body around to leave.

Su Yi knew that with his and Mo Yues strength, wanting to kill a Blazing Heavenly Dragon at the peak of the Demonic Void Realm Ninth Grade to get its demonic core was simply a suicide mission.

A demonic core was a core that would only form inside the body of a beast that had reached the Demonic Void Realm.

A core that was at the peak of the Demonic Void Realm Ninth Grade, while also existed inside a beast with an extremely high bloodline like the Blazing Heavenly Dragon, had immeasurable value.

The demonic core of a Blazing Heavenly Dragon at the peak of the Demonic Void Realm Ninth Grade was unquestionably a precious treasure.

Su Yi indeed desired to have that treasure.

But faced with such a situation, Su Yi did not want to commit suicide. Even though the treasure was very tempting, his life was more important.

Dont leave that fast. I have accurate information that the Blazing Heavenly Dragon is heavily injured and is already at deaths door with no hope of recovery. It might even be dead now. Mo Yue stated.

Are you sure? Su Yi abruptly turned his head as he glanced at Mo Yue and questioned.

I am sure. Mo Yue was very positive as her news, could not be wronged.

If that is so, why dont you go there yourself? Su Yi was suspicious. Presuming that the Blazing Heavenly Dragon was already at deaths door, and might even be dead, then why didnt Mo Yue go there by herself?

Of course I want to go by myself. I had gone there alone previously and got chased by that group of Ice-Cold Wild Wolves. If you did not save me, I might have been dead by now. Mo Yue stared at Su Yi as she smiled sweetly showing her shiny white teeth. With her scarlet lips, she embarrassingly continued: I did find the old nest of that Blazing Heavenly Dragon, but that Blazing Heavenly Dragon had unknowingly kept a group of Ice-Cold Wild Wolves as followers. I cannot deal with so many Ice-Cold Wild Wolves by myself.

Havent those Ice-Cold Wild Wolves been killed? Su Yi maintained a skeptical attitude since the words of this girl could not be believed whole-heartedly.

That is only a part of it. A group of Ice-Cold Wild Wolves can range from a few hundred to more than a thousand. The Ice-Cold Wild Wolves that had chased after me earlier was only a small part of the group. I reckon that the strongest alpha of the Ice-Cold Wild Wolves should be reaching the Demonic True Realm. Mo Yue responded.

Demonic True Realm Can you defeat that alpha wolf? Su Yis mouth twitched. That Ice-Cold Wild Wolf in the Demonic True Realm would equivalent to a strong cultivator in the Yuan True Realm. He was only at the Yuan Xuan Realm First Grade, so it was utterly impossible for him to defeat it.

Uh that alpha wolf, I also cant. Mo Yue awkwardly laughed. Glancing at Fire-Eyes Beast Tiger and the rest of the beasts behind Su Yi, she blinked her eyes and said: But you have so many beasts. Maybe that alpha wolf has not reached the Demonic True Realm yet. We will have a higher chance if we attack together. Furthermore, you seem to have a way to deal with the beasts, right?

Su Yi momentarily opened his eyes wide as he stared at Mo Yue and responded: You want to tie a white wolf with bare hands, right? You want me and my beasts to deal with that group of Ice-Cold Wild Wolves while you hide in the back. Su Yi rolled his eyes. This girl was too calculative and manipulative.

Su Yi was not going to participate in such a risky matter. He was not stupid.

Of course not. We are going to join forces. You must know that a beast like the Blazing Heavenly Dragon has a hobby of collecting all kinds of exotic treasures. The old nest that it resided at is a treasure land, positively hiding precious treasures. As long as we can deal with that group of Ice-Cold Wild Wolves, we can get its demonic core and the treasures!

Mo Yue looked towards Su Yi with an incomparably enchanting smile as though she was naturally born with seduction while saying: Money comes from danger. I can guarantee that the news I received is true, but if you do not dare to go, then its fine. I will merely think of other ideas or ask

for help from a powerful cultivator. If you want to go, then we will join forces together, and the chances will be higher. Once we succeed, we will strike rich.

Su Yi mulled over the thought. Supposing that the alpha wolf was in the Demonic True Realm, then they would be in trouble as it would be hard to deal with it. He also had no idea if the Supreme Chaotic Yuan Technique would be able to frighten off a beast in the Demonic True Realm.

However, if the alpha wolf had not reached the Demonic True Realm, although adding the Golden Python and the rest would still not be enough, with his Supreme Chaotic Yuan Technique, there might be a chance. Anyway, he only needed to get the treasures and the demonic core of the Blazing Heavenly Dragon.

So what do you think? Money comes from danger. There might even be numerous shocking treasures within the Blazing Heavenly Dragons collection! Mo Yue faintly smiled. Her bright eyes were full of smiles as she watched Su Yi's expression.

Okay. But we will split it 7:3 where I get the seven because when we attack, you are only one person while I will be doing the most. Su Yi gritted his teeth. Later, he would be going with the Golden Python, Fire-Eyes Beast Tiger, Silver Spirit Demonic Butterfly, and the rest.

Besides, Mo Yue was only one person. Once they attacked, he would naturally fork out more, thus splitting it evenly between them would not be fair.

Nevertheless, the news was mine. For this news, I had to pay a huge price. Mo Yue responded.

And I have saved your life. Or else your news would be useless. Replied Su Yi.

Mo Yue glanced at Su Yi as she pursed her lips and said: You take six and I will take four. Or else the deal is off!

Deal. Su Yi nodded his head and revealed a slight smile. 6:4 was already not bad as he had already calculated in his heart that Mo Yue would not accept 7:3.

You sure do know how to calculate. You selfish person! Seeing that Su Yi had nodded his head, Mo Yue glared at Su Yi. Afterward, her face continued to show a smile as usual, like an elf, but with a witch's seduction.

Several hours later, Mo Yue stood far away before an enormous mountain peak as her long dress fluttered slightly. Her tiny waist seemed thinner than an arm grip and soft as if it was boneless. Her entire person appeared immaculate as she pointed to a mountain peak in front of her and stated: We have reached. It is right over there.

So cold! Su Yi glanced at the remote enormous mountain peak. Looking from afar, it was as tall as the clouds, standing majestically. Only, the surrounding air emanated a chilling aura, causing his Chaotic Yuan Demonic Body to feel a little cold. He secretly surged his Yuan Qi to become warmer.

Chapter 167: Somebody Had Gotten Ahead!

As the nest of those Ice-Cold Wild Wolves is in the front and they like the cold, so the place we are at feels like an ice cave. Mo Yue spoke.

Blazing Heavenly Dragon and the Ice-Cold Wild Wolves

Su Yi muttered softly in his heart, feeling that something was not right.

The Blazing Heavenly Dragon was a fire element beast that liked hot areas. Most of their old nests were around the volcanic zones, which were more suitable for their self-cultivation.

However, the habits and the accustomed nature of the Ice-Cold Wild Wolf and the Blazing Heavenly Dragon were exclusively opposite.

Why would the Blazing Heavenly Dragon keep such a group of beasts like the Ice-Cold Wild Wolves to be its followers which, might even affect its cultivation?

Su Yi felt that the matter was abnormal and did not tally with common sense. But, he could not figure out anything. Maybe he was just presuming too much.

That group of Ice-Cold Wild Wolves, how many are there? Su Yi questioned. Only by knowing yourself and your enemies would there be higher chances of winning.

Probably hundreds of them or perhaps even more. Mo Yue spoke as she did not know the exact numbers.

Su Yi frowned. Presently even the exact number of the Ice-Cold Wild Wolves was unknown. Getting to the Blazing Heavenly Dragons demonic core and treasures would prove to be tricky.

Do you have any plans? Mo Yue glanced at Su Yi. All of the ideas she could think of, had been used. Otherwise, she would not have been chased by the Ice-Cold Wild Wolves previously.

Spirit Butterfly and Jade Swallow, you guys go ahead and observe the situation. Do not get too close. Su Yi contemplated for a while and said towards the White Jade Swallow and Silver Spirit Demonic Butterfly.

Roar!

Howl

Just when Su Yi's words had landed, from the vacant sky behind him came the roar of the beasts.

Quickly hide and conceal your presence!

Su Yi said and immediately concealed his presence while turning around to look behind him.

Following Su Yi's gaze, there were several enormous ferocious birds spreading their wings in the sky and heading over.

The several ferocious birds were like black clouds covering the empty sky. Their fearsome eyes were like brass bells while there were several figures on their backs.

Roar

The one leading was a ferocious beast covered in yellow scales that resembled a lion and a tiger that could soar high up in the empty sky, dashing through the air. Its momentum was vicious while on its back was an elder in his fifties.

Its them

When he glanced at the rows of people, Su Yi instantly recognized them. Back then, when the people had surrounded him for the Blood Spiritual Ginseng, there was such a group of people seemingly from the Raging Dragon Mercenary Alliance.

The people from the Raging Dragon Mercenary Alliance.

Staring at the group of people in the empty sky, the complexion of Mo Yue had also abruptly secretly changed.

That group of people did not seem to have notice Su Yi and the rest as they directly soared across the sky.

They should be heading towards the old nest of the Blazing Heavenly Dragon. Mo Yues complexion changed drastically.

You know them? Su Yis eyes secretly moved while he asked Mo Yue.

No. I only know that those are the people from the Raging Dragon Mercenary Alliance. Mo Yue said. Her expression became slightly grave as she continued: Their motive should be the same as us.

You mean, the people from the Raging Dragon Mercenary Alliance have also come here for the Blazing Heavenly Dragons demonic core? Su Yi was astonished. If this batch of strong cultivators from the Raging Dragon Mercenary Alliance had also come here for the Blazing Heavenly Dragons demonic core and its treasures, then with his strength including the Golden Python and the rest, it was unquestionably lacking.

Should be. Mo Yue seemed sure as she replied while nodding her head.

Hearing this, Su Yi frowned.

Initially, the group of Ice-Cold Wild Wolves would already be hard to handle, yet now there were also strong cultivators from the Raging Dragon Mercenary Alliance. Most likely, there was nothing much for him to do here.

Howl

Suddenly from the depths of the empty sky in front, came the immense howling of wolves with vigorous fluctuations of energies and frosty auras emitting over.

Howl!

Then, a frightening roar of a beast traveled over like the howling of a dragon as though lightning had blasted out from the sky.

Along with a roar like that of a dragon howling, Mo Yues expression changed slightly as her gaze closely watched the mountain peak that had risen over the clouds.

Can it be the Blazing Heavenly Dragon?! Su Yis eyes trembled. The howling which sounded like a dragon was too mighty. Even while being separated by such a vast distance, the sound of its roar could still deafen the ears, causing peoples souls to quiver.

Rumble

Howl

Immediately, frightening roars of the beasts sounded with powers colliding came over from the front. The intensity of the fierce battle could even be felt, when being separated by the distant empty sky.

Su Yis gaze was closely attached to the distant front. There was a glow of energy that shot through the sky, spreading like an arch in the sky.

So fierce. An unquestionably strong cultivator is attacking!

Su Yi's eyes moved. He had seen numerous strong cultivators before and had recently witnessed the battle between strong cultivators in the Demonic Emperor Realm and the Yuan Emperor Realm. Unquestionably, there were strong cultivators fighting fiercely.

Do you want to go over and have a look? Mo Yue glanced at the front. Her eyes did not have the same astonished look like Su Yi as her eyes sparkled with a glint of slyness.

You guys will wait here for me.

Su Yi nodded his head while gritting his teeth. Afterward, he made the Golden Python and the rest to wait here.

With the cultivation of the Golden Python and the rest, including Da Bao and Xiao Ling, judging from the fierce battle at the front, most likely they did not even have the capability to join.

My lord, it is dangerous at the front. Golden Python, Spectral Mouse and the rest were worried about Su Yi as they could feel the extent of the fierce battle in front. All of them were extremely frightened.

I will be careful. You guys will wait here. Su Yi had decided. At least he could go over and look at the situation. Anyway, since he had already arrived, even if he could not get the Blazing Heavenly Dragons demonic core, he must at least witness it.

Lets go and be careful, do not get too close. Hide your presence well, or else we will be caught by them. Mo Yue stated. Immediately, she and Su Yi walked towards the front.

A moment later, in front of the majestic cloud-like peak of the enormous mountain.

Behind a large rock at a small mountain top, Su Yi and Mo Yue bent their bodies and lowered their heads, watching the sky and the ground in front of them while being dumbfounded.

On the ground, around 500 Ice-Cold Wild Wolves had filled the mountain peak as they raised their heads and howled with frightening might, shooting out ice pillars of light.

In the sky, there were eight large bodies of the Ice-Cold Wild Wolves stepping on air, encircling over ten strong human cultivators in the Yuan Void Realm, fighting fiercely without pausing.

The one leading was the hugest Ice-Cold Wild Wolf. Its body was over ten-zhang long, covered with frost-like snow crystals on its entire body. Under the bright rays of light, it glimmered with gruesome chilly aura with its mouth filled with sharp teeth.

That is the alpha wolf, right? Su Yi was stunned. For it to have such an aura, it must be the alpha wolf of that group of Ice-Cold Wild Wolves.

The big and frightening battle was peerlessly vigorous. The over ten strong cultivators in the Yuan Void Realm had already parted.

The beast mounts that they had sat on were already surrounded and attacked by the Ice-Cold Wild Wolves.

Why are there so many Ice-Cold Wild Wolves? I thought you said that the problems were not big?!

Su Yi's complexion abruptly changed color as he glared at Mo Yue.

This Mo Yue still said that there were not many Ice-Cold Wild Wolves and the alpha wolf might not have reached the Demonic True Realm. However, what he saw now was precisely the opposite.

Su Yi could not help but rejoice secretly. Fortunately, he had not carelessly rushed in, or else even if they wanted to flee, they would not be able to.

Chapter 168: Blazing Heavenly Dragon In The Demonic Emperor Realm!

I also did not expect this. The truth is, previously I could not even get close before I was found out and chased by the Ice-Cold Wild Wolves. Currently, Mo Yue was also dumbstruck. That was beyond her expectations. Surprisingly, there were so many Ice-Cold Wild Wolves in this group. Most importantly, they actually had so many powerful Ice-Cold Wild Wolves.

Foul beasts. You are looking for death!

A low and deep cry resounded as the elder sitting on the beast that resembled a tiger and a lion violently shouted. The mount roared as its massive body pounced forward with sharp hook-like claws, tearing several Ice-Cold Wild Wolves on the ground into pieces.

Bang bang!

Tremendous raging wind energy assaulted over, shaking off several Ice-Cold Wild Wolves.

The complexion of the elder in his fifties became dark. With a wave of his hand, a surge of Yuan Qi rushed out like a wind storm sweeping through, causing dozens of Ice-Cold Wild Wolves to be flung onto the rocks at the cliff, becoming a bloody fog.

Human, this is the Grand Beast Canyon. It should be you guys who are seeking death! The alpha wolf furiously roared. It could already speak the human language as it had stepped into the Demonic Void Realm.

When the cry landed, the body of the alpha wolf had a gruesome frosty aura as if the surroundings, were covered in snow. In one leaped, it had dashed in the air for dozens of zhang with its sharp hook-like claws slashing towards the elder in his fifties.

I will spare your life if you become my mount and obey me!

The elder in his fifties knew that his mount was not an opponent of the alpha wolf. Afraid that it would be affected by the ripples, with a loud cry, he leaped into the air while Yuan Qi radiance wrapped around his fist, directly contending against the claws of the alpha wolf.

Bang!

With a deep explosion sound, the energy light glowed along with the frost, ragingly surging like the explosion clang of a thunderstorm.

Crack

Although the alpha wolf was very mighty, the elder in his fifties was already in the Yuan Emperor Realm. It was abruptly blown back as fresh blood spilled from its big blood-dripping mouth.

It got injured in just one strike. The eyes of the alpha wolf secretly revealed fear.

I will first kill you!

The elder in his fifties coldly laughed as he took advantage of this chance and rushed towards the alpha wolf on air with turbulent momentum.

Howl

At this moment, the dragon-like howl once again roared out, shaking the heavens and rocking the earth, resounding throughout the world.

The loud cry caused the figure of the elder in his fifties to stagnate while he glanced towards the peak of the mountain that had risen over the clouds.

There was an enormous cave coated by frost in its surroundings with ice cones hanging upside down covering the entrance of the cave. Under the flickering radiance of the light, it was difficult to see clearly.

Boom!

Following the roar of the dragon-like howl from deep within the cave, a monstrous light radiated out with a scorching aura sweeping through.

In the next instant, a massive figure charged out from the cave bringing along with numerous ice cones that shot towards the sky and then automatically dissipated in the void sky.

Howl

The roar was like thunder as a dozen zhang long dragon scaled onto the empty sky. Its entire body was in flames, causing the chilly atmosphere in the surroundings to scatter and dissipate.

The frosty land immediately transformed into scorching heat.

The dragon scaled the sky. The flames on its body were like waves trying to submerge its body. Its crimson eyes were as though there was a volcano contained within them. Strangely, on top of the dragons head, clusters of small flames were pulsing while its scales furled.

The dragon also had a pair of flapping crimson wings. The flames were like the eruption of volcanoes, blotting out the sky and covering the earth as it swept through.

Howl.. With the appearance of such a dragon, the group of Ice-Cold Wild Wolves instantly roared and retreated as if they could not handle such a vigorous high heat aura.

The powerful cultivators of the Ice-Cold Wild Wolves and humans fighting fiercely in the sky were also dumbfounded.

Especially those powerful human cultivators as they had seemingly felt something while their expressions secretly changed drastically.

The dragon scaled the sky. An indistinct pressure spread around the void sky, causing both humans and beasts to tremble.

Blazing Heavenly Dragon, is that the Blazing Heavenly Dragon?

Su Yi was shocked as his gaze unbearably quivered!

The aura of the Blazing Heavenly Dragon, compared to when he had first met the Nine Lives Cat Demons and the other beasts in the Demonic Emperor Realm, was unquestionably the same.

Where had it resembled a state like the peak of Demonic Void Realm Ninth Grade? It did not even resemble a beast that was at death's door.

Not good, that Blazing Heavenly Dragon has broken through to the Demonic Emperor Realm! Almost simultaneously, the startled voice of Mo Yue uncontrollably sounded as her gaze appeared even more shocked than Su Yi's.

Didn't you say that the Blazing Heavenly Dragon was at death's door? Su Yi turned his head and glared at Mo Yue. There were indeed no truths from this girl's mouth. Fortunately, the Raging Dragon Mercenary Alliance had suddenly appeared, if not he would have been very miserable now.

I am also not sure. But I dare confirm that this Blazing Heavenly Dragon was recently heavily wounded by that Flying Tiger, Cheng Jian. Mo Yue was serious. At this point, there were utterly no lies.

I thought you did not know that guy? Su Yi rolled his eyes at Mo Yue.

I honestly do not know him. What I only know are his name and that he is from the Raging Dragon Mercenary Alliance. That person is famous within the Forest of Demons! Mo Yue exclaimed.

Cheng Jian, you still dare to come to this king's lair. This time, you are seeking death!

In the empty sky, the Blazing Heavenly Dragon spoke to Cheng Jian with a deep and low voice like a dragon howl that could deafen the ears.

Glancing at the Blazing Heavenly Dragon, Cheng Jian's gaze was also secretly shocked as he said: To think that you have escaped and even took the chance to break through to the Demonic Emperor Realm!

It is all thanks to you. However, you are going to die today! The Blazing Heavenly Dragon coldly glanced at Cheng Jian.

Oh, really? You should have just broken through not long ago and seems like you haven't gone through the Changing Shape Tribulation, right? Then today you are still going to die!

Cheng Jian spoke while staring at the Blazing Heavenly Dragon. He seemed to be secretly wary as he gently lifted his hand. A seven-foot long spear appeared in his hand.

The long spear was not a normal item as it emitted a crimson brilliance, while sharp aura swept out from within the long spear, shaking the surrounding empty sky!

Although I have recently stepped into the Demonic Emperor Realm, it is enough to deal with you. You are seeking death!

Staring at Cheng Jian, the Blazing Heavenly Dragon growled as though it did not want to waste any more time. After a low and deep roar, both of its wings flapped as a gruesome scorching flame raged out from its body, forming into waves of fire that overwhelmingly poured towards Cheng Jian.

The waves of fire covered half of the sky as the frighteningly extreme high temperature caused the surrounding void sky to fume up in white smoke. The high heat had caused Su Yi and Mo Yue who were hiding behind a rock to also be able to feel its frightening temperature while the hairs on their bodies stood on end.

So powerful!

Trembling gazes were exhibited from the people as they secretly felt their throats were burning. The attack of the Blazing Heavenly Dragon had such a horrifying momentum.

Foul beast!

Cheng Jian loudly yelled as the surface of his body was coated with a layer of solidified Yuan Qi light shield while the long spear in his hand was glowing.

The next instant, Cheng Jian's figure went forward without retreating along with an explosive aura. His long spear stabbed forward with light gushing out, tearing through a crack in the gruesome flames that were pouring over, directly jabbing towards the Blazing Heavenly Dragon.

Howl!

Glancing at Cheng Jian, the Blazing Heavenly Dragon deeply roared, and a scarlet flaming light pillar gushed out from its hideous mouth, clashing towards Cheng Jian's long spear.

Crack

Under such a clash, it had exploded in mid-air in the blink of an eye.

There was no explosion sound like what the people had expected. However, the monstrous fiery glow was like that of a volcano in the air, directly erupting. The frightening and scorching heat energy all of a sudden surged everywhere like a hurricane.

Chapter 169: Money Came From Risk!

Rumble!

Simultaneously when the scorching heat energy surged and swept through, Cheng Jian had also taken action. The Xuan Qi beneath his feet was like swirling clouds as his figure appeared to transform into lightning, instantly traversing before the Blazing Heavenly Dragon's body and rapidly shot out the long spear.

Whoosh

Before the long spear, scorching hot flames swept through like a fire dragon was breathing flame as the frightening scorching heat energy burnt the empty sky.

Facing such a strike, the fearsome eyes of the Blazing Heavenly Dragon sank as scorching hot smoke spread out from its nostrils. After a low and deep explosive snort, its gigantic tail directly swept out.

Although the body of the Blazing Heavenly Dragon was massive, its speed was incomparably agile as it directly rammed into the long spear.

Dang dang

The long spear and the gigantic tail of the Blazing Heavenly Dragon clashed. Flares from the furling scales on the gigantic tail of the Blazing Heavenly Dragon splashed, ringing with a clear and crisp sound of metal in mid-air.

The long spear swiped past, leaving only a faint greyish-white trace on the scales of the Blazing Heavenly Dragon.

The trace only remained for an instant before completely disappearing.

The Blazing Heavenly Dragon did not seem to fear Cheng Jians attack as its ferocious head continued to hang tall, its tongue flicking from its blood-dripping mouth while a scorching flame was instantly spat out from it.

The scorching flame made Cheng Jians expression to turn dark.

Open!

His brows slightly frowned as Cheng Jian shook his sleeves. A surging Yuan Qi energy transformed into a handprint shot out like a hurricane making the scorching flame to dissipate directly.

The Blazing Heavenly Dragon seemingly did not mind when it saw that its attack had no impact.

Its gigantic tail swiped out while its eyes became wide. The furling scales on the tail were like countless sharp knives, letting out a wu wu sound as it pierced through the empty sky, swiping towards Cheng Jian.

Cheng Jian wanted to retreat, but it was too late. Looking at the Blazing Heavenly Dragons attack, a fire element Yuan Qi was condensed into a light shield before Cheng Jian, blocking in front of him.

Ka!

The gigantic tail swung onto the light shield made of fire element Yuan Qi, creating numerous tiny cracks on the light shield that rang with a ka ka sound. Afterward, the shield turned into a sprinkle of flames.

Fiery Dance Of The Raging Dragon!

A loud cry sounded from Cheng Jians mouth. The long spear in his hand appeared dazzling as if it had been awakened and erupted with a gruesome scorching hot aura.

Looking from a distance, the strike, was like an awakening fire dragon, bringing along an immense momentum as it struck towards the Blazing Heavenly Dragon.

Howl!

The Blazing Heavenly Dragon furiously roared. Its body released rolling waves of fire as its aura was monstrous.

Up in the sky, following along the exchange between the Blazing Heavenly Dragon and Cheng Jian, the strong cultivators from the Raging Dragon Mercenary Alliance and numerous Ice-Cold Wild Wolves had once again started to fight.

Rumble rumble

A fierce battle that was equally matched!

Naturally, the most vigorous battle was between Cheng Jian and the Blazing Heavenly Dragon.

The Blazing Heavenly Dragons body was massive, but its speed was incomparably fast.

Even though it had just broken through to the Demonic Emperor Realm not long ago, its attacks were overwhelmingly mighty and frantic!

Although Cheng Jian seemingly kept retreating as though he did not have the upper hand.

However, after all, he had been in the Yuan Emperor Realm for a period of time. His aura was stable, and even though he did not seem to have the upper hand, he was also not at a disadvantage.

Glancing at the on-going fierce battles with continuous thunderous roars of the beasts and monstrous auras, Su Yi was secretly tongue-tied.

Especially the fierce battle between Cheng Jian and the Blazing Heavenly Dragon. Just based on the ripples of energy that swept over, it was enough to make cultivators from the Yuan True Realm unable to endure them!

This is troublesome. The strength of both sides, are equally matched, so it is impossible to know who will succeed within a short time. Even if the winner is unveiled, if both sides do not have a hidden card, then both will suffer! Mo Yue stared at the battle in the sky as she said to Su Yi after sizing it up thoroughly.

Impossible to know who will succeed within a short time

Su Yi glanced at the battle. Both sides, appeared to be equally matched. A glint flashed in his eyes as though he had settled on something, but it was tough to decide.

What are you thinking? Noticing Su Yi's look, Mo Yue questioned.

Money comes with risk. Taking a gamble!

Su Yi abruptly lifted his head as a glow could be seen within his eyes as though he had decided on something. Glancing at Mo Yue, he asked: Are you interested in going on a walk inside the old nest of the Blazing Heavenly Dragon? If we are in luck, there might even be rewards.

What, you want to go to the old nest of the Blazing Heavenly Dragon now?!

Listening to Su Yi's words, Mo Yue was undeniably stunned.

The Blazing Heavenly Dragon was right in front of them, and there were still many Ice-Cold Wild Wolves around the area. Wasn't this seeking for death?

There must be no more beasts inside the old nest of the Blazing Heavenly Dragon at this moment. The brave will get much more than the cowards.

Su Yi sniggered as his gaze moved.

He no longer wanted the demonic core of the Blazing Heavenly Dragon.

However, it was reported that the Blazing Heavenly Dragon loved to collect treasures, and naturally, it would have hidden them inside its nest.

Presently, it was hard to tell who would win from the big battle between the Blazing Heavenly Dragon and Cheng Jian. Su Yi wondered that if they could sneak into the nest and everything could go smoothly, it would actually be the safest option. Money came from risk!

The moment his words landed, Su Yi's figure crept out while completely hiding his presence, heading towards the mountain peak where the nest of the Blazing Heavenly Dragon was.

The guts of this fellow is surely big. Interesting!

Mo Yue stared blankly at him. Later, her eyes flitted with light shining in them. A smile hung on her lips as she was no longer doubtful. Deep within her eyes, slyness had incited.

Rumble!

Howl

The surrounding ongoing battle shook the heaven and rocked the earth as a gruesome scorching heat filled the empty sky.

At the bottom, were rather bone-chilling frost auras.

In this region, roars of beasts rang out like thunder and explosion sounds kept continuously blasting.

The ground moved, and the mountains shook while the raging wind energy swept all around.

Su Yi carefully hid within the shrubs of the forest and the cracks of the rocks while heading towards the entrance of the cave on the peak of the mountain.

Mo Yue followed behind Su Yi. Her presence was hidden flawlessly without showing any indications.

Just like this, the two small figures had arrived at the peak of the mountain without anyone noticing.

The closer they went to the entrance of the cave, the colder the temperature got.

The surrounding was a barren land while the ground and the rocks, were covered with ice that was difficult to melt.

Su Yi did not dare to use his Yuan Qi. Most likely, once a tiny presence was revealed, the Blazing Heavenly Dragon that was fighting fiercely would instantly notice him.

Fortunately, Su Yi's physical body was no trivial matter. His five fingers were like a knife as it would leave faint traces on the rock-hard ice so that he would not slip while slowly climbing up.

Initially, it was difficult for Mo Yue to proceed as her hands and legs would often slip. After glancing at Su Yi's actions, her eyes secretly moved as she blindly copied his movements and followed closely after him.

The fierce battle from afar was peerlessly intense!

But no one had thought that there were two tiny figures sneaking into the cave.

While pulling onto a half-broken ice cone, Su Yi finally climbed into the cave.

Hu hu

His eyebrows were full of frosty fog hanging on it. The icy aura was no trivial matter, but Su Yi did not dare to initiate his Xuan Qi to defend against the cold.

Without Xuan Qi in his body to get rid of the icy aura, at the moment, Su Yi was also shivering from the cold.

Chapter 170: Found The Treasure!

If he did not have the Indestructible Vajra Body of the Chaotic Yuan Demonic Body, Su Yi would most likely not even be able to get close to the place.

This cave was the perennial habitat of that group of Ice-Cold Wild Wolves. The surrounding frost had already reached the stage where it would be difficult to melt.

Undoubtedly, it was impossible for a normal human being to get close as they would directly be, frozen into ice before even getting close.

Quickly go in. I will bring you to find the treasures. Make haste! Mo Yue had also climbed into the cave while her dress fluttered. Her skin was sparkling with white radiance as her eyes cleverly moved, revealing some slyness. At the moment, she looked more like a witch than someone with the temperament of being untainted by the world.

Undeniably, it is me who brought you here. Su Yi rolled his eyes. Fortunately, he had great luck, and had not hastily rushed in, or else he would have been dead.

Doesn't matter if it was me, or you that brought us here. Right now Cheng Jian is fighting with the Blazing Heavenly Dragon and we do not have enough time. Quickly go find the treasures or else, whether it is Cheng Jian or the Blazing Heavenly Dragon that finds us, we will be doomed either way!

A smile was on Mo Yue's face. Unmistakably, they were taking advantage of others fighting while they sneaked in here for the treasures, yet she had said it so seriously like a female bodhisattva.

Even more shameless than me. Su Yi was speechless. This girl was surely even more shameless than him, but what she had said was correct. They indeed needed to make haste.

The two of them did not dare to delay any longer as they followed along the cave, going in deeper.

It was unknown how long the cave was while the four sides of the cave, were covered in a thick layer of ice.

Numerous ice cones were hanging upside down in the cave, emitting a subtle glow.

Within the thick ice, many white bones could occasionally be seen, making people broke out with goosebumps.

This is unusual. The Blazing Heavenly Dragon is a fire element beast. This cave is not suitable to be its nest at all. Su Yi frowned. Although the cave was enormous enough for the dragon, it was too cold, and it was getting even colder the further they went in.

So cold! Mo Yue had been shivering from the cold since long ago, but she did not dare to use her Xuan Qi to protect against the cold and hugged her arms as she kept shivering.

Mo Yue secretly glanced at Su Yi. In her heart, she found it strange that even though that fellow's cultivation was lower than her, yet at the moment, he appeared to be not affected by the cold at all.

This fellow is not simple!

Mo Yue secretly mumbled. That was sufficient to prove that the physical body of the fellow was robust.

Eh

It was unknown how far they had gone in, but the frost in the cave was getting weaker as if the aura had drastically decreased.

At the same time when Su Yi was doubtful, the surrounding frost in the cave had dissipated after they walked for another hundred zhang.

There is no more frost!

In front of Su Yi and Mo Yue, there was a cave entrance with a slanted road that seemed to lead towards the bottom of the mountain.

The cave was pitch black. However, there was a scorching aura that was vaguely spreading out.

Is this a volcano?

Su Yi secretly frowned. Previously, he had needed to find a volcano inside the Forest of Demons to train his Indestructible Vajra Body, hence his first reaction was whether the bottom of this mountain contained a volcano.

Lets go down and see. This cave is cold on the outside and hot on the inside, perfectly suitable to be the nest for the Blazing Heavenly Dragon. Mo Yue stated as her dark eyebrow arched slightly. Her eyes were a little excited as this proved that it could be the nest of the Blazing Heavenly Dragon.

At the same time, a glint secretly flashed past her eyes as she was deeply aware of the real motive that she had come here.

If the rumors were true, then this was absolutely a big chance for her!

Lets go in!

Su Yi did not hesitate. Since he had ventured till here, there was no reason for him to not go in.

The two of them carefully entered the cave. There was no longer frost inside, hence it became dimmer.

In the entire cave, it was pitch black with seemingly no end causing people to be frightful!

Facing such darkness with no end in sight, even though Su Yi and Mo Yue were cultivators with better eyesight than ordinary people, it was hard for them to perceive anything.

Luckily, deep within the cave, unknowingly at when or where, flares would flicker, thus allowing Su Yi and Mo Yue to continue to walk in deeper.

Inside the cave was dead silence.

There were no sounds at all. It was so quiet that even their heartbeats, could be heard distinctly.

And, as they followed the path, the aura inside was getting hotter and hotter.

Under such circumstances, they had already ventured for over a hundred zhang while that scorching aura had made Su Yi and Mo Yue to sweat like a pig.

The bean-sized sweat on their foreheads dripped along their faces, making their clothes wet.

Ah

All of a sudden, Mo Yue tenderly shrieked. The hand that was holding onto the wall retracted quickly like lightning. The temperature inside the cave was too unbearable for her.

Su Yi turned his head back, warning her to be careful with his eyes.

Su Yi could still contend against the temperature since, after all, he had previously fortified his physical body inside a volcano.

Dragon scale!

Suddenly, Su Yi found a palm-sized scale that resembled copper which was incomparably tough. It was precisely the scale from the Blazing Heavenly Dragon that might have fallen off.

A scale of the Blazing Heavenly Dragon in the Demonic Emperor Realm was very costly and could be regarded as a treasure. It was a favorite for the Tool Refiners, sufficient to refine high-quality weapons, armor, etc.

Su Yi insolently took the scale of the Blazing Heavenly Dragon and put it inside his interspatial bag.

Are there anymore

After dozens of step, Su Yi found another scale of the Blazing Heavenly Dragon.

The terrain in front was also getting vast while the temperature kept rising.

The surrounding rocks on the wall were also gradually changing into a crimson color, illuminating the surrounding with dazzling lights.

I truly cannot go on and cannot bear it any longer!

Mo Yue was panting as the bean-sized sweat had caused her hair to be wet and her face to flush red.

Whoosh

She absolutely could no longer endure it as she released Yuan Qi from within her body. A faint scarlet Yuan Qi fluctuated from within her body, momentarily scattering the scorching aura, allowing her to feel much better.

Be careful.

Su Yi frowned. Fortunately, they had not met with any beasts inside the cave. Otherwise, once they used Yuan Qi, they would instantly be found out.

The terrain was now flat, no longer entering deeper.

As if the place they were at was the deepest part of the mountain, it was another region inside that seemed like a single realm.

There is a fire

The temperature kept rising as the heat was incomparably hot. Between the rocks and the walls, a naked flame would appear occasionally.

Su Yi also started to surge his Yuan Qi as it was absolutely too hot. Otherwise, the bottom of his shoes and his shirt would begin to catch on fire.

Quickly look

All of a sudden, Mo Yue shouted as she couldnt help but be shocked.

Su Yis gaze had long since been attracted towards the front with ripples violently fluctuating within his eyes.

Right in front of them, rays of light permeated with all kinds of glows twinkling along with dense fluctuating energy.

In the depths of this scorching hot underground, a pile of different kinds of elements of Yuan Stones was stacked into a small mountain, emitting rays of light and permeating fluctuations of energy.

There were also numerous weapons. Some of the weapons had light twinkling and fluctuations of mysterious patterns as they emanated a sharp aura. They did not seem to be normal items.

Within the shimmering light, there were several oddly shaped items piled up together.

Fiery Diamond Stone!

Blue Dark Iron!

Icy Sky Rock!

This seems to be the horn of the Frantic One-Horned Demonic Cow
