Well without further ado, here is the first chapter of 2018, enjoy!

The faces of the High Elders of the Su Family cramped up. As the eldest grandson of the Su Family, he represented the face of the family, but now, this act of him getting off the stage like a crawling dog brought quite a lot of honor to the family.

Isnt that Su Yi?

He is still a piece of trash. There is no way for him to match up with the rest of the Young Masters!

Seeing Su Yis way of exit, many people sent mocking gazes his way.

My good nephew, Su Yis way of exit is really quite the surprise!

This manner of exit is, unique.

He Yi Kuan, Mo Lai and Song Ming, the three of them looked at Su Jing Ting. Their words brought a hint of teasing, but there was no evil intent. It was just pure teasing.

This-, my nephew always likes to take an alternative path, Su Jing Ting said, slightly awkward and helpless.

Liu Zong Yuan remained silent, but his gaze, whether intentionally or not, fell on Su Yi who had already left the platform.

So, he is the Su Yi who my female junior Liu Ruoxi talked about.

Behind Dharma Protector Wang, among the few haughty youths, there was a young lady around 16-17 years old. Her eyes fell upon Su Yi and could not help but examine him a tad more.

The soft lips of the lady were cherry red in color, her eyebrows delicate. She was around 16-17 years old. Her lush black hair was tied back into a bun, through it a hairpin with flower engravings and at the hairpins tip hung a tassel. The bangs in front of her forehead drifted in the wind freely, absolutely stunning. Standing in the middle of the crowd, there were quite a number of young men looking at her discreetly.

Su Yi acted like he did not know that people were staring at him after he landed on the ground., He casually walked to the center of the stage and stood together with all the young men and ladies.

His eyes scanned the area and found out that the Song Family, Mo Family, He Family and the Su Family, each family had the same number of participants, but the Liu Family had a few more than the other four big families.

Su Yi, just you wait. Later on, if you dare, dont you run away!

After the test, there will be hell to pay!

When the time comes, whoever runs away is a coward!

Mo Bu Fan, He San, Song Wu Qiu, the three of them were finally standing together with Su Yi. They stared at him, their eyes spitting fire as they warned him discreetly.

Okay, after the test, I will be waiting for you three little brats, Su Yi felt so helpless. Even though he did not want to bother with these three kids, but continually being pestered like this was not a way either. Looks like it has to be like old times, teach them a good lesson and they will become much more well-behaved.

Whoosh!

As Su Yi finished his words, on the platform, a man around 30 years old beside Dharma Protector Wang, stood up. A light shone beneath his feet and when he gently touched the surface, he shot up into the air.

Boom!

In an instant, there was a movement of light underneath the mans feet. An intimidating aura suddenly exploded in the area.

Under the surprised gazes of the people, a faint figure of a leopard around 3 meters in length appeared under the mans feet, its teeth baring, claws extended and eyes leaking out a ferocious gaze. It was as if it was real.

The man waved his sleeve and moved. His feet stepped on the faint leopard. With a dull sound of breaking the air, he slowly landed on the square, facing towards the dozens of young boys and girls and the faint figure of the leopard under his feet also disappeared after that.

Yuan Qi Materialization, he is a Yuan Spirit Realm expert!

Oh my god, thats a Yuan Spirit Realm expert!

Seeing what that man just did, the spectators were shocked, their eyes trembling. Some were filled with jealousy, others filled with yearning and respect.

Yuan Qi Materialization, that was a sign of a Yuan Spirit Realm expert. It was enough to prove that the man was already an expert of the Yuan Spirit Realm.

Every realm before the Yuan Soul Realm was just the beginning. When you reach the Yuan Soul Realm, that would be the time when you could be considered a real martial artist.

After the Foundation Building Stage, it is the Yuan Soul Realm, then it is the Yuan Xuan Realm.

After the Yuan Xuan Realm, it is the Yuan Spirit Realm.

When one reaches the Yuan Spirit Realm, Yuan Qi can materialize and that represents that you are among one of the strong.

In the entire City of Man, those who could reach the Yuan Spirit Realm could be counted with one hand.

Only the respective Heads of the large families were Yuan Spirit Realm.

On top of the platform, seeing that mans Yuan Qi materializing, Su Jing Ting, Liu Zong Yuan and the rest could not help but have a change in their facial expressions.

Though they may also be in the Yuan Spirit Realm, that man was only slightly more than 30 years old and any one of themselves was already over 40 and even nearing 50.

The faint figure of a leopard beneath the mans feet was a sign that he had long since entered the Yuan Spirit Realm and may even be at Yuan Spirit Realm Third Grade. How could this sight not shock the heads of the big families?

Now, the heads of the big families, the upper echelon, all wished even more for the younger generations of their families to be able to enter Sacred Mountain.

Yuan Qi Materialization, Yuan Spirit Realm!

Su Yi's eyes also fell upon the man. Yuan Spirit Realm, that was already enough to be among the strong.

The test is simple. Have your hand firmly grasp the Yuan Testing Stone. Do not think of anything else and send your Yuan Qi into the stone with all your might. At that time, we will be able to see your talent!

The man landed and his eyes swept over that bunch of young men and ladies and with no one having a clue how he did it, in his palm appeared a stone which was as tall as half a human body.

The white stone was like white jade. It had a shape of a stone wall and was crystal clear, the man placed it on the stone platform which was already prepared in the center on the stage.

He has an interspatial bag! Su Yi was slightly surprised. This man definitely has an interspatial bag.

Inside an interspatial bag was an isolated space. Even though its value was not equal to its price, the cheapest interspatial bag was still not something any Yuan Spirit Realm expert could buy.

Sacred Mountain must not be as simple as it looks.

Seeing the man, Su Yi now had an even greater desire to enter Sacred Mountain.

This man simply having an interspatial bag, Su Yi was not at all suspicious. Thinking about it, he knew that Sacred Mountain must be filthy stinking rich. When he enters Sacred Mountain, he may even be able to reap some rewards.

But the upper echelon of the respective big families, their eyes were instead on that Yuan Testing Stone.

The Yuan Testing Stone was not an average simple item. Even in the entire city, it would be hard to have it. Hence, it was also hard to check the talents of the younger generations.

The testing starts now. Line up and proceed one by one.

The man did not bother much with the astonished gazes and had everyone started preparing for the test.

In front of the expert from Sacred Mountain, these youths who were normally proud in the city were now nervous and acted very cautiously.

A young man from the Liu Family approached first. After greeting the man with a bow respectfully, he followed the mans instructions. He lifted his hand and grasped the Yuan Testing Stone. Yuan Qi flowed in his body. From the center of his palm, a wave of Yuan Qi rushed into the stone.

As the young man began his test, the loud noises and chatter of the surroundings begin to die down and all the gazes fell upon the center of the stage.

On top of the platform, the upper echelon of the Liu Family including Liu Zong Yuan were all very nervous in their hearts. This young man had performed exceptionally well in the family from young, but they did not know whether it was enough to have a chance to make it into the Sacred Mountain.

Boom!

As Yuan Qi rushed in, the Yuan Testing Stone which was on top of the stone table began giving off a light. Like it was being dragged by something, a very intimidating aura rushed out suddenly, forcing the surrounding youths to back off involuntarily, almost falling.

At the same time, four different colors of light: gold, green, black and cyan, gushed out of the stone, but it was fast and faded away in a flash.

The Yuan Testing Stone begin to calm down afterward.

The stage of Refining the Void and forming the Path. Metal, Wood, Water and Earth, four types of Yuan Qi. Average talent. Not qualified to enter Sacred Mountain!

As the Yuan Testing Stone calmed down, the voice of the man also began to travel and resonate in the entire venue.

Chapter 20: Liu Yann

After hearing those words, the face of the young man from the Liu Family instantaneously withered down, devoid of life, his pride shattered into pieces, nothing remained from his initial haughtiness.

He could not believe that he had only an average talent, but he had to face reality and retreated with his head hanging down.

On the platform, the expressions of the Liu Familys upper echelon changed, some were disappointed and regretful while others worried.

That youth in the Liu Family had performed very well, or else he would not have the chance to participate in this test.

But today's test had just shown that he had only an average talent, this just goes to show how hard it was to enter Sacred Mountain.

On the platform, several youths from Sacred Mountain saw the results from the test, and their faces showed an obvious look of disdain. There's no intention to hide their expressions.

At his age, being able to enter the Refining the Void and Forming the Path is passable, but the Yuan Qi in his body has too many attributes, the more he cultivates, the more it would affect his cultivation negatively.

Seeing the test beneath the platform, Dharma Protector Wang smiled and said that to Liu Zong Yuan who was beside him.

Liu Zong Yuan nodded his head, he was slightly regretful about the results, but he could understand Dharma Protector Wang's words.

Yin, Yang and the five elements are the sources of heaven, earth, and all other things. Yin and Yang complement each other, causing all matter to grow from them. All matter shall have Yin in them and embrace Yang, only by having both Yin and Yang can a path be formed for all things.

Amongst the five elements, wood is burgeoning, fire is burning hot, earth is heavy and solid, metal is harsh and fearsome, and water is cold and moisturizing. Follow the latest novels [on no/velbin\(.\)com](http://on.no/velbin(.)com)

When a person is born, he or she would naturally have all five elements.

But to a cultivator, having Yuan Qi with five attributes is extremely unfavorable.

Yuan Qi with five attributes is harder to cultivate as more progress is made. It is the same concept as being too greedy would cause indigestion.

Hence, usually, the fewer attributes the Yuan Qi have, the easier it is to cultivate as one progresses further.

The youth from the Liu Family may already be at Refining the Void and Forming the Path and could almost enter the Foundation Building Stage.

But there are too many attributes in his Yuan Qi, causing it also to be more chaotic.

Therefore, with this kind of talent, it could only be considered very average, and there is not much room for improvement in the future.

So, this level of talent is far away from being qualified to enter Sacred Mountain.

Four Yuan Qi attributes, I wonder how many I have.

In the crowd, Su Yi also knew that for Yuan Qi attributes, it was not the case of the more, the better. Instead, it was the opposite.

The more attributes there are in the Yuan Qi, the easier it is for the Yuan Qi to become chaotic, and there would be a tremendous trouble on cultivation in the future.

Next, Liu Yanni!

Beside the Yuan Testing Stone, the man announced once again.

All those who had gotten a place to participate in the test had long already submitted their name card, on it was their age, name and others detail to make the process testing their talent easier.

[T.N Note: The name card, in this case, is not the business card you are thinking of, it is a bigger piece of paper like a papyrus scroll, link to images is here: <https://kknews.cc/culture/e9zo2q.html>]

Once the man finished his words, a young lady around 17-18 years old walked forth.

Su Yi naturally knew this girl; she was the cousin of Liu Ruoxi.

Only Su Yi did not imagine that not meeting her for three years, Liu Yanni already became such a beauty. That fine and elegant body emphasized by her tight clothes, a beautiful body line which could shake the hearts of people were shown.

On her waist shone a sparkling pearl belt, as it curled around, it further stood out that thin waist like a willow, seeming like it was not even as thick as a fist, the strands of hair beside her cheeks gently caressed her face in the gentle breeze adding to her seductive appearance, her eyes shone like crystals, as if they were exuding a form of seduction.

The throats of some young men in the surroundings were now parched and their tongues dry, their eyes could not bear to come off that gentle and beautiful body line.

Su Yi looked at Liu Yanni, his eyes involuntarily glancing at her repeatedly.

Only three years had passed, that little girl back then had already become such a beauty, it really was a case of once a lady grows up, she can change completely, the Liu Yanni back then definitely did not have such a figure.

As Su Yi observed her, Liu Yanni had already arrived in front of the Yuan Testing Stone, her fair and long palm had already firmly grasped the surface of the stone, and Yuan Qi surged into it.

Boom!

Inside the calm Yuan Testing Stone let out a strong aura, the people in the area had already prepared and were not affected anymore.

In an instant, three colors of light shone, red, green and black with red being the brightest and having a hint of crimson.

The light shone for quite a bit more time than the previous youth, and they were also more glaring.

Liu Yanni, Yuan Soul Realm Second Grade, three Yuan Qi attributes, fire, water, and earth, General Grade Talent, qualified to enter Sacred Mountain. The man spoke again, his voice a lot kinder than before.

Liu Yanni is already Yuan Soul Realm Second Grade?! And she also has General Grade Talent?!

This is not surprising, Liu Yanni is the same as Su Wei of the Su Family, she had long entered the Yuan Soul Realm!

Liu Yanni is also able to enter Sacred Mountain; the Liu Family is going to become prosperous!

After the mans announcement, the crowd became wild with excitement.

Many young men were still staring at Liu Yannis seductive figure, their eyes passionate but there was more respect in them.

Fire, water, and earth, three types of attributes, cultivation level is also not bad, but it is slightly regretful that fire is the main attribute and water restricts fire. If the water attribute was the wood attribute, wood begets fire, her talent would be able to be considered as Commander Grade Talent, and if her Spiritual Soul Energy is very strong, there may even be a chance of going even higher. On top of the platform, Dharma Protector Wang also slightly nodded his head and explained the difference between talents, General Grade Talent is already able to enter Sacred Mountain.

In the days to come, when Yanni this little girl is at Sacred Mountain, I would still need to request Dharma Protector Wang to take care of her. Liu Zong Yuans face brought a smile; he was also ecstatic at this moment.

City Master Liu is too polite. Dharma Protector Wang gently smiled and did not brush him off; this was Liu Ruoxis father, not an average city master.

Congratulations to the Liu Family!

Congratulations!

The respective heads and the upper echelon of the families were all congratulating the Liu Family and were also jealous.

Being able to enter Sacred Mountain, what this signifies everyone knew deep in their hearts.

Beside the Yuan Testing Stone, Liu Yanni bowed and thanked the man, then she retreated, her face smiling, moving the hearts of people even more.

General Grade Talent, this is already not bad.

According to what Su Yi knew, talents were classified into Mortal Grade, Fine Grade, General Grade, Commander Grade, King Grade, Emperor Grade and the final was the legendary Heavenly Grade.

Legends say that those with Heavenly Grade Talent when they were born, the skies and earth would become abnormal, and they were destined to challenge the heavens and look down upon all life.

But the Heavenly Grade seems to be only a thing of the legends.

Su Yi remembers that Liu Ruoxi seems to be an Emperor Grade Talent, in this case, compared to Liu Yanni, Liu Ruoxi's talent was still better than hers by several grades.

Next, Liu Hui.

Afterward, the trail of person continued going up for the test.

But in the remaining youths of the Liu Family, there were no more above average talents.

Song Wu Qiu, cultivation level of Refining the Void and Forming the Path, Earth, Metal and Fire, three Yuan Qi attributes, General Grade Talent!

Mo Bu Fan, cultivation level of Refining the Void and Forming the Path, Earth, Metal and Fire, three Yuan Qi attributes, General Grade Talent!

Mo Ting, cultivation level of Refining the Void and Forming the Path, Water, Earth and Wood, three Yuan Qi attributes, General Grade Talent!

He San, cultivation level of Refining the Void and Forming the Path, Metal, Earth, and Wood, three Yuan Qi attributes, General Grade Talent!

In the next hour, one by one the results of the tests of the youths were shown, some celebrated while others were depressed and worried.
