

Sky&Earth 221

Chapter 221: Group Of Beasts!

At this moment, the emotions within Shangguan Xi Wei's eyes were also not collected as the demonic core wasn't an average item. If they could get it, then the outing this time would absolutely be a worthwhile trip.

Brother Yi Su, what is your opinion?

Shangguan Yu asked Su Yi as all of them knew that currently, the strongest one on the scene was Su Yi, which had unknowingly become the core of the group.

At this moment, the others were also looking at Su Yi. Their hearts were excited, nervous, and hopeful at the same time, as their gazes had gushed red. It was hard to calm their hearts.

Are you sure that it is a beast in the Demonic Void Realm that is going to die of old age? Su Yi lowered his head and asked Su Tian Que seriously.

It should not be wrong. That beast in the Demonic Void Realm is going to die of old age and is releasing the last of its might. Su Tian Que answered sternly.

Su Yi lifted his head and glanced in the direction of that frightening commotion. He mulled over the thoughts and then glanced at Shangguan Xi Wei as he inquired: What is your opinion?

The demonic core is a precious treasure. If there is truly a chance to get it, then we should fight for it.

Shangguan Xi Wei nodded her head as the demonic core had also caused her to be unable to stay calm.

Hearing this, Su Yi nodded his head and then looked at Shangguan Yan and the rest as he said: We must be careful, and there must not be any carelessness.

Understood.

A young man full of vigor and vitality rubbed his palms together. If they could really get that demonic core, then they would strike rich.

Afterward, all of them took off and started going up the mountain.

Howl

Inside the mountain and the forest, the ground moved and the mountain shook as though a myriad of beasts were rioting. Groups of mountains quivered while sky-high trees snapped. The scene was outrageously dreadful.

Chirp

In the night sky, densely packed ferocious birds were spreading their wings as they blotted up the empty sky while emitting radiance. Their cries were sharp and piercing to the ear.

Four hours later, the group of people met with a small bunch of beasts that were scattered apart. Fortunately, the beasts on the outer perimeter had low cultivations.

Strangely, at the moment, the bodies of these beasts were trembling as they revealed dreadful expressions, completely ignoring Su Yi and the rest as if they only cared about scattering in all directions and escaping.

It seemed as though the commotion was right before them, but in actual fact, it was very far away.

There was a mountain after another mountain with seemingly boundless of mountains and forests. The thick and broad ancient trees were like huge umbrellas rising on this ancient mountain as the tree crown reared high into the sky.

Everyone cast their Yuan Qi as they went up the hill and down the valley. They had depleted quite a lot of energy as all of them were panting heavily. They finally approached the vicinity of the origin of the commotion.

Howl

Around the vicinity, the cultivations of the beasts scattering in all directions were much stronger and bigger in size, appearing in massive amounts.

However, at this moment, all of these beasts were shivering while revealing fear in their eyes, not daring to get close as they slowly retreated.

When they saw humans coming over, their fearsome eyes shone as they stared while exhibiting a fierce intent.

Boom!

The Supreme Chaotic Yuan Technique on his body circulated as a whiff of an overbearing and majestic aura unknowingly emitted and abruptly spread out while Su Yi stared at those beasts from afar that were waiting for a chance to take action.

Howl

Those beasts abruptly roared and lay prone as they trembled, no longer daring to get close.

When looking at these changes, Shangguan Xi Wei and the rest were secretly surprised and shocked.

Su Yi continued in deeper, feeling that the roar from the start was getting closer, just right in front of him, not far away.

Only, as they went in farther, the front was gradually getting quieter as the atmosphere unknowingly exhibited a sort of oppression.

Why is it so quiet?

Everyone could feel that something was wrong. The outside was like a riot with many beasts moving together, yet the closer they got to the place, it was instead getting quieter, which was extremely unusual.

That beast is going to die and should have shocked the surroundings. No beasts will dare to come here anymore. Su Tian Qie responded.

The group of people continued forward. The front was a mess with rocks burst into pieces and snapped sky-high trees.

Quickly look

All of a sudden, Shangguan Yan spoke as he glanced towards the front.

Several hundred zhang away, right under a waterfall with the rumbling of water and water droplets splashing around.

Under the shine of the moonlight, a massive object was lying on the ground. Looking from afar, it was like a small mountain in front of the waterfall.

That is

When the gazes of all the people unitedly glanced over, and right under the waterfall, a probably four to five zhang tall beast was lying on the ground with thick scales on its body. There were no more fluctuations of life as though its life force had depleted. However, that traces of remaining might still unknowingly made the surrounding air to tense up.

Demonic Void Realm

Everybody was excited. That was a beast in the Demonic Void Realm, and right now, it was already dead. A demonic core that was almost at their fingertips.

It seems like an Iron Armor Demonic Rhinoceros. I know this beast as I have heard about it before.

The expression of Shangguan Xi Wei secretly changed as she recognized the faraway beast. With an astonished face, she said: Although the bloodline of the Iron Armor Demonic Rhinoceros is not high, almost impossible to break through to the Demonic Void Realm, this Iron Armor Demonic Rhinoceros in the Yao Luo Mountain is very special. There is a report in the villages record of our Ancient Spirit Village that this Iron Armor Demonic Rhinoceros has lived for a very long time. Rumor has it that it has eaten a treasure and therefore reached the Demonic Void Realm.

Iron Armor Demonic Rhinoceros!

Su Yi also knew of this beast. Although its bloodline was not considered high, its battle strength was exceptional with overwhelming power.

Sadly, although this Iron Armor Demonic Rhinoceros had gained a great opportunity and reached the Demonic Void Realm, however, since its bloodline was not high, it was unable to advance any further as there would always be a time limit.

Until that day, its life force had depleted with ashes to ashes, dust to dust.

Everything will be meaningless without becoming a genuinely strong cultivator!

Su Yi had an insight. A cultivator could live much longer than an ordinary person, but without becoming a genuinely strong cultivator, everything would be meaningless. Not mentioning about the lifespan, where strength was respected, only with strength could it represent everything. Only a genuinely strong cultivator could control everything.

The demonic core is inside its body!

Everyone was joyful. Sure enough, this was a beast in the Demonic Void Realm with a demonic core in its body.

Somethings wrong

Suddenly, Su Yi's eyes moved, as under his keen and mighty spiritual power along with his vigilant perception, he could feel that something was wrong.

It was as though at the surroundings, something was hiddenly watching, unknowingly seeping out a type of danger.

Quickly retreat. Quick!

Without any hesitation, Su Yi urgently cried out and momentarily retreated.

What's wrong?

Even though Shangguan Xi Wei, Shangguan Yu and the rest felt strange, they still closely followed after Su Yi and stormily retreated.

An Iron Armor Demonic Rhinoceros died of old age with a demonic core in its body, most likely, it has also attracted some strong beasts' attention in the area. They will definitely not let it go.

Su Yi spoke as he recalled a matter.

There were many beasts in this Yao Luo Mountain, so naturally, there would be many strong beasts too.

A demonic core was a treasure while similarly for the beasts, it was also a treasure.

Presently, the Iron Armor Demonic Rhinoceros had died of old age, so the strong beasts in the area would not miss it.

Hearing this, the people in the group half-believed in it, and were half-doubtful while they urgently stormily retreated.

Everyone retreated for a total of several hundred zhang before they stopped. They stood on high ground as they watched the waterfall in the front.

Chirp

Almost at the same time, a cry sounded from mid-air as on the top of that waterfall, a ferocious bird spread its wings that were a dozen meters long and dived down with a violent wind, directly grabbing towards that Iron Armor Demonic Rhinoceros that was lying on the ground.

Howl

From the four sides of that waterfall, four massive beasts had also successively abruptly appeared. Between the roars, they directly pounced onto the ferocious bird that was diving down.

Chapter 222: A Bloody Battle!

When the ferocious bird saw that, its fearsome expression became imposing as it flapped its wings and rapidly scaled horizontally, avoiding the joint attack of the four beasts.

The ferocious bird dodged with a violent wind sweeping under its wings. However, in an instant, the four beasts had directly fought together.

Howl

Rumbling

Beasts roared like thunder. A demonic wolf, a demonic lizard, a fearsome beast that appeared like a tiger and a bear, and an ape instantly tangled together in a fight.

While in mid-air, the ferocious bird also refused to be outdone as it spontaneously spread its wings and dived down to join in the tangled fight, trying to take the chance to steal the corpse of the Iron Armor Demonic Rhinoceros.

But, whenever a beast got close to the corpse of the Iron Armor Demonic Rhinoceros, it would suffer the joint attacks of the rest of the beasts as nobody could prevail.

Roar!

The ape roared and giant fists pounded on its chest as it angrily stared at the surroundings with a frightening momentum!

Howl!

The demonic wolf howled to the moon with sharp teeth!

The fearsome beast that appeared like a tiger and a bear was savage with endless powerful force while emitting a monstrous bloody aura!

The demonic lizard had a rapid speed and thick scales with a scorching aura emanating all around its body!

Roar!

The ape roared and rushed forward, trying to fight for the corpse of the Iron Armor Demonic Rhinoceros to get its demonic core. A glow sparkled on its giant fist like stars twinkling in the night as the radiance spread, yet the aura was fierce and frightening.

Within the palm of the ape, a glow swept out like a light pillar and clashed onto the body of the demonic lizard who was blocking in front of it.

The demonic lizard opened its mouth, and a monstrous brilliant light spat out, directly blocking that light pillar from the palm.

Swish!

In mid-air, that ferocious bird dived down, trying to take the chance to get close to the corpse of the Iron Armor Demonic Rhinoceros.

Boom!

However, the fearsome beast that appeared like a tiger and a bear soared up into the sky and leaped out with a claw directly slashing out. A chilling light sparkled with a sharp aura as though tearing through the empty space as it smacked towards that ferocious bird.

The color of the ferocious birds complexion changed as it did not dare to be careless. A sharp claw reached out as it rapidly spread its wings, directly confronting the beast.

The moment the two claws collided, there was clang like the clashing of metals ringing out.

The intense battle erupted in an instant with incomparable intensity. The fierce aura swept through everywhere, causing the surrounding beasts dared not to get close.

These beasts are the strongest existence in this area

Shangguan Xi Wei spoke as her delicate face lost color. She had never expected that so many strong beasts would suddenly appear. If they were to really approached the corpse of the Iron Armor Demonic Rhinoceros just now, most likely, they would immediately be the targets of these strong beasts.

Gulp gulp

Shangguan Yan and the rest also had lingering fear in their hearts as they looked at the several strong beasts while sucking in cold air.

Earlier, they had almost could not avoid it.

Those beasts have yet to reach the Demonic Void Realm. All of them are in the Demonic True Realm Ninth Grade. That ape seems to have reached the peak of the Demonic True Realm Ninth Grade for a very long time. No matter which one of them is to get the demonic core of that Iron Armor Demonic Rhinoceros, there will be an increased chance to breakthrough to the Demonic Void Realm, which none of them are willing to give up. Luckily we have retreated quickly, or else there will be trouble.

Su Tian Que said as it watched the intense battle in front while continuously clicking its tongue. Fortunately, it had run away fast.

Su Yi rolled his eyes at Su Tian Que. This fellow definitely was not the so-called peacock.

Else, why would a genuine peacock at this moment, be so frightened of those beasts in the Demonic True Realm to this degree?

Currently, Su Yis heart was also secretly imposing. At the moment, with so many beasts in the Demonic True Realm and furthermore at the Demonic True Realm Ninth Grade snatching the demonic core of the Iron Armor Demonic Rhinoceros, there would be no chance for him totally.

Even if it was only one strong beast in the Demonic True Realm Ninth Grade, Su Yi reckoned that if, he was to fight with full strength while risking his life and also summoning out Fire-Eyes Beast Tiger and the rest from the mysterious space, there would also not be any chances.

Sitting by watching the demonic core that was, right before him yet he could not obtain it, this type of feeling, was intolerable to Su Yis heart.

Bang bang bang

In a short time, the intense battle in front had already instantly turned white-hot. The demonic lizard, was simultaneously attacked by the ape and the beast that appeared like a tiger and a bear. It let out a loud and furious roar as its tail was torn-off with blood dripping like a river, in a very miserable state.

Crack

The demonic wolf took the chance and attacked. With hook-like claws, it directly landed onto the back of the demonic lizard, tearing through a giant crack on its tough and scaly huge back as blood spurted out from the wound.

However, the wound was not too deep to the point where bones could be detected, proving the toughness of the body of the demonic lizard.

The demonic lizard shrieked while revealing unwillingness and anger in its fearsome eyes, yet the first thing it did was to turn around and madly flee.

It had already sustained severe wounds and could no longer get the demonic core. Leaving with its life was a much better choice.

There was always a rivalry between it and the other beasts. If at that moment it still did not flee, after a while, when these beasts struck it when it was down, it would surely be fraught with grim possibilities.

While watching the demonic lizard leaving with grave injuries, the remaining beasts did not give chase as their goal was only the demonic core of the Iron Armor Demonic Rhinoceros, needing it to step into the Demonic Void Realm to then become the king of this area.

The intense killing battle was still ongoing while the surrounding mountain collapsed and ground cracked. Sand flew, and rocks rolled with beasts roaring like the clanging of thunder.

Swish

Finally, the ferocious bird in mid-air found an opportunity. Its sharp claws reached out like a rocket with momentum similar to the thunderclap as it grabbed onto the fearsome beast that appeared like a tiger and bear.

The fearsome beast had rough skin and thick flesh with glow still emitting on its body, yet it was nevertheless pierced through by the ferocious birds sharp claws with fresh blood dripping, revealing its white bones.

Howl

At the same time, the wolf kept howling as it got injured by the ape. A leg got almost directly pulled apart while its notably big body was held within the apes hands and harshly thrown onto the large boulder before the waterfall with endlessly roars as the boulder cracked. It actually got directly killed.

Roar

The fearsome beast that appeared like a tiger and a bear angrily roared as it crazily exploded. With blood dripping on its back showing its thick white bones, a glow was spurted out from its mouth like a series of sharp blades, charging towards the ferocious bird.

The ferocious bird was unafraid as it spread its wings to avoid it. Only, the glow of the sharp blades was akin to lightning and the bird could not avoid in time. It was hit so many times, that many of the feathers on its body also fell off.

Wu wu!

The ape charged out as it abruptly leaped from a huge rock and directly pounced over. The moment its giant palm reached out as if like a bow shooting out of the arrow, it tightly caught the ferocious bird in its hands.

Chirp

The ferocious bird whined while revealing fearful expression. Its wings flapped, trying to charge up to the high altitude immediately.

But it was too late. The ape, had long been prepared for it as it had already succeeded. A trace of horrifying momentum exploded out as it directly pulled the ferocious bird down and harshly threw it from the low-altitude to the top of the waterfall.

Rumbling..

The ground moved, and the mountain shook. The waterfall surged as though the mountain had collapsed and the ground had cracked.

Following with a shriek from the ferocious bird, it followed along the mountain and rolled down with endless water droplets pouring. The body of the ferocious bird snapped with many cracking sounds of crushing bones emitted from its entire bones. Its feathers flew around as it then got buried under the collapsing mountain.

The several strong beasts were now only left with the ape and the already severely injured fearsome beast that appeared like a tiger and a bear. The rest were two dead, and one fled.

Chapter 223: Feigning Death!

The ape had no intention of letting the fearsome beast that appeared like a tiger and a bear go as its fearsome eyes stared over while brandishing its giant palm and directly smacking over.

Roar!

The fearsome beast that appeared like a tiger and a bear roared as its body suddenly leaped out, not missing the chance to snatch the corpse of the Iron Armor Demonic Rhinoceros.

Wu wu!

A glow emitted out as the ape roared. The light in its palm abruptly exploded with escalating might as though it was an ultimate skill of the ape as it tried to finish the battle quickly and end its opponent.

Bang!

A deep and low explosion sound emanated as the palm of the ape smacked onto the skull of the fearsome beast that appeared like a tiger and a bear, causing it to directly shattered. Without uttering any sounds, it had already fallen onto the ground.

So powerful!

From afar, Shangguan Yan and the rest of the youngsters from the Ancient Spirit Village watched the gory battle, while the hairs on their bodies stood up with their heart turning cold.

They are trying to fight for the demonic core of the Iron Armor Demonic Rhinoceros!

Su Yi observed the front as he could clearly understand the beast language from within that intense battle.

That several strong beasts had come for the demonic core of the Iron Armor Demonic Rhinoceros.

And right now, from that group of strong beasts, only the ape remained.

That is the Brutal Mountain Fierce Ape with overwhelming strength. It is going to get the demonic core!

Shangguan Xi Wei spoke while the astonished expression in her eyes did not disperse. If no accident was to happen, then the demonic core of the Iron Armor Demonic Rhinoceros was going to land into the hands of the Brutal Mountain Fierce Ape.

Although all of them wished to get it, they knew that with their strengths, they were not its opponent.

If only we can get that demonic core. Su Tian Que revealed a delicate glow in its eyes.

Why not you go lure that ape away while I take the demonic core? Su Yi looked at Su Tian Que and said.

Why aren't you the one to go?!

Su Tian Que rolled its eyes at Su Yi. Telling it to lure that ape away was totally an act of courting death.

At this moment, the ape from afar was also walking towards the corpse of the Iron Armor Demonic Rhinoceros. It thumped its chest and roared, revealing expression of joy. With this demonic core, it would be able to advance further.

The ape reached the side of the Iron Armor Demonic Rhinoceros and glanced at the corpse. Then, it was about to reach its hands out to dig the demonic core.

Boom!

Roar!

All of a sudden, at this place, an unforeseen event suddenly occurred. On the body of the Iron Armor Demonic Rhinoceros that had died, a whiff of powerful aura abruptly exploded out as the corpse instantly shone and rapidly moved.

Crack

A sharp horn like a long thunder spear pierced through the apes chest and erupted out a frightening aura that shook one side of the mountain and forest.

The ape had felt danger at the last moment and revealed expression of fear while its fearsome pupil shrank. However, everything was too late.

Wu wu

With unwillingness and anger in its last roar, the body of the ape then powerlessly fell down.

Roar!

The roar was like a terrifying thunder as the corpse of the Iron Armor Demonic Rhinoceros lying on the ground suddenly came back to life. The enormous body stood like a small mountain with an appearance like a cow and a leopard that looked hideous. On its forehead, was a total of two zhang long sharp horn, emitting a chilly glow. It was this horn that had killed the ape.

What is going on? The Iron Armor Demonic Rhinoceros is not dead!

Not dead, this Iron Armor Demonic Rhinoceros is not dead!

The changes at this moment had made Shangguan Yan and the rest that was watching from afar to be dumbfounded and extremely horrified!

Everyone initially thought that the ape was going to get the demonic core, but who knew that at the final moments, the Iron Armor Demonic Rhinoceros actually came back to life again and killed that strong Brutal Mountain Fierce Ape.

Didn't you say that the Iron Armor Demonic Rhinoceros was dead?

Su Yi glanced at the Iron Armor Demonic Rhinoceros that had come back alive with a face full of shocked too and questioned Su Tian Que.

It is feigning its death, trying to lure out the opponents that are having thoughts about it. It purposely pretends to die, so that it can round up its enemies with one swoop at the last moment to kill them as it does not want to let its demonic core, to be caught by the other beasts!

Su Tian Que's expression was also shocked as it did not expect that the Iron Armor Demonic Rhinoceros would actually come out with this scheme of fabricating its own death.

Then right now, is that Iron Armor Demonic Rhinoceros dead or not dead?

Su Yi sucked in a cold air. This Iron Armor Demonic Rhinoceros was too extremely wicked. It actually faked its death to lure all of its opponents, trying to round them all up in one swoop.

I estimate that it must also be on its last breath

Su Tian Que responded, however, before its words could fully land, its small eyes abruptly became wide as it cried: Not good, that fellow has discovered us.

A few tiny little humans actually also dare to come here for my demonic core. Courting death!

The Iron Armor Demonic Rhinoceros spoke in the human tongue as it fiercely stared far away in the direction where Su Yi and the rest were. Its enormous body glowed in the dark as it directly charged over.

The ground where the enormous Iron Armor Demonic Rhinoceros passed by would shake while its momentum was fierce!

Not good, quickly run!

Su Yi urgently cry. Whether or not this Iron Armor Demonic Rhinoceros was about to really die, at least right now, they were still not its opponent.

Run, quickly run!

Shangguan Xi Wei was briefly stunned before she instantly tenderly shouted.

This time, we are in trouble!

Shangguan Yan and the rest of the youngsters from the Ancient Spirit Village returned to their senses while every one of them immediately ran away with frightful complexion.

This Iron Armor Demonic Rhinoceros is too wicked. It actually feigns its death!

Su Tian Que threw out remarks, yet that small legs ran away very quickly. While tucking its tail, its short wings flapped as it madly fled.

Su Yi also ran away, not daring to stay for even a brief moment. With everyone's cultivation, they definitely could not afford to provoke this Iron Armor Demonic Rhinoceros.

Tiny little humans, it is impossible to escape from me!

Although the body of the Iron Armor Demonic Rhinoceros was enormous, its speed was remarkably terrifying fast.

An Iron Armor Demonic Rhinoceros in the Demonic Void Realm, even though its life force had depleted, with its last breath, it was still not something that Su Yi and the rest could be compared to at the Yuan Xuan Realm.

Especially the cultivation of Shangguan Xiu and the rest at the scene were still far too weak.

Boom!

The ground moved, and the mountain shook. The sky-high trees swayed as the enormous Iron Armor Demonic Rhinoceros instantly caught up while the group of the people absolutely could not shake it off.

You guys quickly flee. Run!

Everything was under Su Yi's detection. Initially, he was running at the front, but he abruptly stopped and allowed the youngsters from the Ancient Spirit Village to run away first.

Then how about you? Quickly run! Shangguan Xi Wei also stopped as her delicate face changed drastically.

Listen to me. I have a way to stop it for a moment. You must quickly bring everyone away and escape!

There was no time to delay. Su Yi knew distinctly that the people from the Ancient Spirit Village were not its opponent. Anyway, since he also could not escape, he much rather thinks of an idea to stop it for a while in order for the people from the Ancient Spirit Village to get away.

You must watch out for your safety!

Knowing that there was no time to delay, Shangguan Xi Wei's pearly white teeth tightly bit onto her red lips as she waved her hands for everyone to catch up.

Everyone quickly escapes!

Su Yi softly cry while his gaze focused onto the Iron Armor Demonic Rhinoceros that was charging over here with rage.

Brother Yi Su, you must watch out for your safety!

Shangguan Yan, Shangguan Yu and the rest knew that even if they stayed with him, they would not be able to help him at all. All of them prayed that Yi Su honestly had a way to escape.

Run ah

Su Tian Que flapped its short wings while running away like a storm and flashing like lightning. However, no matter how people looked at it, that amusing appearance would make them want to laugh.

Howl

That Iron Armor Demonic Rhinoceros had already charged over as its entire body was, filled with blade-like iron armor scales with a fierce aura. That four hoofs were like a stone pillar while its fearsome eyes emitted out a chilly glow.

Boom!

Su Yi had an imposing expression as he secretly gritted his teeth. At this instant, facing against the Iron Armor Demonic Rhinoceros, the Supreme Chaotic Yuan Technique in his body abruptly circulated as a whiff of immense and mighty aura swept out!

Chapter 224: Getting Swallowed!

When the whiff of immense and mighty aura swept out from Su Yi's body, the body of the Iron Armor Demonic Rhinoceros that was dashing over like a small mountain also abruptly stagnated as its feet roughly skidded on the ground for several zhang. The fierce glint in its eyes, was replaced by shock.

Su Yi stood straight while his skinny figure was like the chain of mountains as his robe slightly fluttered, and his hair danced with no reason. There was a slight crimson color fluctuating within his eyes.

The Iron Armor Demonic Rhinoceros looked at Su Yi with astounding gaze that kept having rippling waves of doubt. It stared thoroughly at Su Yi as though it was probing something.

Not right, you are a human. On your body there might be a treasure or a cultivating technique that is related to my demon race

The Iron Armor Demonic Rhinoceros stared at Su Yi as it spoke. While thoroughly feeling the aura on Su Yi's body, it determined that he was not apart of the demon race and was a human while there might be a type of treasure on him that was related to the demon race.

Su Yi's heart was shocked. He had always been worried that the aura of the Supreme Chaotic Yuan Technique could not be able to frighten off those powerful beasts. It seemed like it was indeed the case. With his cultivation of Yuan Xuan Realm Second Grade, how could he be able to frighten off those strong beasts in the Demonic Void Realm and the Demonic Emperor Realm?

I can feel that you have some secrets on your body. Perhaps, by eating you, it can prolong my slim chance of survival!

The astonished expression in the Iron Armor Demonic Rhinoceros's eyes was replaced by happiness as it revealed expectancy. Its fearsome crimson eyes surged with greed.

Not good

Su Yi's complexion changed exceedingly as he initially thought that he could frighten the Iron Armor Demonic Rhinoceros for a while with the Supreme Chaotic Yuan Technique to bring some time for everyone. Then he would escape.

However, Su Yi had never expected that not only was the Iron Armor Demonic Rhinoceros not frightened by it, but it had gained interest in him too.

Run

Without any hesitation, Su Yi turned around and speedily ran away.

Facing a strong beast in the Demonic Void Realm that even if its life force had depleted, Su Yi had no plans on attacking it as he knew that it was a waste of his efforts, utterly futile.

Chi!

Su Yi's speed was fast. Under the Hundred Transformation Steps, there was as though a chain of afterimages.

Howl

Only, that Iron Armor Demonic Rhinoceros was even faster. Its enormous body scaled over whereas, its large hoof was like an impregnable fortress, blocking before Su Yi.

Su Yi turned around. The back hoof of the Iron Armor Demonic Rhinoceros had already swept over with twinkling glow.

Swish!

It was absolutely too late to avoid it. He pulled out the Yuan Weapon saber on his back while Yuan Qi surged through his meridians and converged onto the saber. The second art of Three Sabres of the Raging Dragon, Tyrant Dragon Whirlwind Slash, directly slashed out from Su Yi's hand.

Swish The sharp glow of the saber whirled with radiance as though an arc of lightning, like a crescent moon as it slashed across under the belly of the Iron Armor Demonic Rhinoceros while faintly bringing a ray of a virtual figure like a dragon flashing by before disappearing.

Boom! The saber contained a terrifyingly sharp and frantic mighty pressure as if a raging dragon was dancing while the surrounding sand flew and rocks rolled.

Dang dang dang In an instant, the glow of the saber clashed with the large hoof of the Iron Armor Demonic Rhinoceros with sparks of fire. A raging wind blasted everywhere, causing the surrounding ground to crack.

Pu chi

However, under the short contact, Su Yi was directly blown away and spewed out blood from his mouth. The blood in his body surged as he crashed heavily onto the ground.

Under the glow of the saber, there was only a faint mark on the large hoof of the Iron Armor Demonic Rhinoceros, which immediately recovered to its previous state with no signs of damage.

Boom!

Su Yi wanted to get up and quickly escape, but it was too late. A large hoof directly stepped down like a myriad of big mountains falling down.

Pu

The Yuan Weapon that Su Yi tightly held in his hand had already unknowingly fallen somewhere while his body was massively, crushed. He no longer had the power to struggle as he spewed out another mouthful of blood.

Howl

The Iron Armor Demonic Rhinoceros roared, and the surroundings quivered like a frightening thunder in the dark night. Then the large hoof flipped as it directly swallowed Su Yi into its mouth.

The Iron Armor Demonic Rhinoceros no longer chased after Shangguan Xi Wei and the rest that were running away as it turned around and left.

Not good, Brother Yi Su is swallowed by that Iron Armor Demonic Rhinoceros!

Brother Yi Su!

Shangguan Yan, Shangguan Yu, and the rest fled while they kept turning back their heads to look. From afar, they coincidentally saw the scene where Su Yi, was swallowed by that Iron Armor Demonic Rhinoceros. They momentarily shockingly yelled as their bodies trembled.

I am going to save Brother Yi Su!

Shangguan Yan, Shangguan Ye, and Shangguan Yu suddenly stopped and unsheathed their swords, turning around to chase after the Iron Armor Demonic Rhinoceros.

They had already forgotten that they were totally not the opponent of that Iron Armor Demonic Rhinoceros.

You guys are not the opponent of that Iron Armor Demonic Rhinoceros. Quickly retreat while I go save him!

Shangguan Xi Wei's delicate face lost color while her expression changed drastically. After berating Shangguan Yan and the rest to leave first, she immediately chased after the Iron Armor Demonic Rhinoceros.

Su Tian Que also stopped in its steps. It turned its head around and looked at the Iron Armor Demonic Rhinoceros that had swallowed Su Yi. Instantly, its small eyes flashed and emerged with a red glow.

Foul beast, I am going to fight it out with you!

A crisped voice traveled out as Su Tian Que flapped its short wings. Its small eyes emerged with a fiery red glow while its short legs were remarkably fast as its speed abruptly boosted explosively, chasing after the Iron Armor Demonic Rhinoceros with speed completely surpassing Shangguan Xi Wei and the rest.

Looking at Su Tian Que that had chased over, Shangguan Xi Wei was briefly stunned before she immediately followed after.

Only, after a short moment, both the figures of the Iron Armor Demonic Rhinoceros and Su Tian Que had disappeared when she climbed over the mountain and down the dale.

Shangguan Xi Wei's expression became imposing as she stood on a fork road. With a pale complexion and teary eyes, her pearly white teeth tightly bit onto her red lips with a slight trace of blood sipping out.

Su Yi could only see darkness around him while the surrounding was shaky. His aura drooped while he hardly had the strength to get up.

There was a layer of thick and sticky fluid on the surrounding, gushing towards Su Yi like a tide.

The sticky fluid emitted a faint green glow seemingly with a power of corrosion that could corrode his robe.

Most importantly, this fluid could also corrode Yuan Qi away.

This is the inside of the stomach of the Iron Armor Demonic Rhinoceros!

Su Yi's heart trembled, knowing that he had been swallowed by the Iron Armor Demonic Rhinoceros.

Luckily, this Iron Armor Demonic Rhinoceros was unlike those tigers, wolves, and other beasts that would chew their food before swallowing, if not, he would have directly become meat paste now.

However, at the moment, the glowing sticky fluid made Su Yi be at a loss of what to do.

The sticky fluid surged and enveloped, corroding everything.

Su Yi could evidently feel that the last Yuan Qi emitting out from his body was getting corroded at an alarming rate.

Once his Yuan Qi, was entirely corroded, then he would be out of luck.

Su Yi struggled while casting the last of his Yuan Qi.

But inside of this sticky fluid, Su Yi was at a loss of what to do.

The sticky fluid was like the superglue that could bind everything together causing Su Yi to find it tough to move.

No, I still cannot die!

Su Yi struggled as he still did not want to die and exploded out with all of his might.

However, presently, everything was as if restricted. Even though Su Yi could use his Yuan Qi, it was oppressed.

The spiritual power in his mind was also seemingly affected by a kind of influence inside the sticky fluid, making Su Yi unable to converge, and therefore, unable to cast his power of a Soul Tamer.

Even when Su Yi wanted to summon out the mysterious space, it also did not work as though inside the sticky fluid, everything had been segregated.

Chapter 225: The Might Of The Broken Sword!

The sticky fluid shone with a faint green glow that was terrifying, slowly corroding everything.

Can it be that I am really going to die this time?

After facing so many dangerous situations with the threats of deaths, even stepping one foot into the gate of hell many times, Su Yi had never given up and could always turn the situation around.

This time, however, it gave Su Yi a feeling that he had no means to struggle. Would he be buried inside the stomach of the Iron Armor Demonic Rhinoceros?

Little foul beast, you are looking for death!

A crisped and loud cry traveled into Su Yi's ear while that voice was very familiar.

Howl!

Bang bang bang!

Roars and explosion sounds of energies kept transmitting over.

Su Tian Que!

Su Yi was dumbfounded. That was Su Tian Que's voice. Su Tian Que had given chase.

The outside kept trembling as though the mountain had collapsed, and the ground cracked. Roars filled the sky as though they were in an intense battle.

Inside the sticky fluid, Su Yi was like a piece of floating wood inside the raging sea, getting dizzy from the ripples.

You are courting death!

The furious shout of the Iron Armor Demonic Rhinoceros deafened the ears, causing Su Yi, who was enveloped in the sticky fluid to feel a stinging pain in his eardrums.

Su Tian Que seems to be suppressed, and at a disadvantage!

Listening to the commotion on the outside, Su Yi could feel that Su Tian Que seemingly could not defeat it, unable to do anything to the Iron Armor Demonic Rhinoceros.

No, I still do not want to die. I have to lend a helping hand to Su Tian Que!

Within Su Yi's eyes, a light was gushing out as in his heart had never given up.

Broken sword!

At present, since his Yuan Weapon had already dropped, the only weapon that could be used was the 500-kilogram broken sword.

Inside the sticky fluid, it was exceedingly difficult for Su Yi to raise his hand. He then finally clenched the broken sword tightly in his hand after much effort.

While right now, under the corrosion of the sticky fluid, Su Yi's Yuan Qi was already not enough while the robe on his body had already corroded.

Crack

With much difficulty in raising his hand, Su Yi wanted to use the broken sword to pierce through the sticky fluid.

However, the sticky fluid was too strong. As though it could feel his movement, the sticky fluid kept winding around both of his arms and the 500-kilogram broken sword tightly, seemingly having an intelligence of its own.

No matter how much Su Yi struggled, hardly anything worked against it. The winding got tighter and tighter while corroding everything and swallowing his Yuan Qi at the same time.

Risk it!

Su Yi deeply roared in his heart. If he could not escape by today, then he would be in deep trouble. The Supreme Chaotic Yuan Technique circulated to the extreme with all of his might as the last strand of Yuan Qi gushed out from his Yuan Qi Whirlpool within his Dantian while he waved the sword.

Hong!

All of a sudden, at this moment, there was a brilliant light sparkling abruptly on the 500-kilogram broken sword for an unknown reason while a trace of monstrous sword force instantly gushed out.

Suddenly from within that broken sword, a surging power also spread into Su Yi's body, making the wilted Su Yi to instantly seemingly recovered to his peak. That type of surging power was something that he had never felt before.

Simultaneously, his eyes became a blur as he felt a trace of gruesome killing intent charging over along with the surging power as though he could see the scene with a river of blood and bone stacking up before his eyes.

The killing intent was too frightening, as if it wanted to destroy everything.

Presently with the toughness of Su Yi's body, the assault of the killing intent directly made his physical body trembled as though he was going to be crushed into powder by the engulfing killing intent.

Pu

Su Yi uncontrollably spewed out blood as he absolutely could not bear it.

But at this moment, the mysterious space that Su Yi previously could not summon out emanated a light inside his mind as a whiff of immense and mighty aura swept out and fluctuated, causing the killing intent to disperse.

Hong hong!

The killing intent disappeared while the sword light was still like the clang of the wind and thunder. The frightening aura was seemingly like a monstrous beast that was awakening.

Crack

The sword force was monstrous with a blinding sword light like the dazzling sun ascending in this sticky fluid. The frightening sword light exploded, crumbling the surrounding sticky fluid inches by inches like tofu.

Howl

In an instant, the Iron Armor Demonic Rhinoceros on the outside let out a violent shriek with exceedingly astonished eyes.

Su Yi was stunned. He had never expected that the 500-kilogram broken sword, which never had any movement to suddenly erupted out such a frightening commotion.

However, it was only an instant as he unhesitantly clenched the broken sword tightly and slashed as though storming through the enemy's den.

Crack

Everywhere the sword light had passed, the inside of the Iron Armor Demonic Rhinoceros would directly be sliced open into a bloody fog, opening a path in the mangled flesh and blood.

An obscure yet glowing, light ball about the size of a fist was whirling within the bloody fog in front.

The demonic core of the Iron Armor Demonic Rhinoceros

Su Yi's eyes moved. That was the demonic core of the Iron Armor Demonic Rhinoceros.

Not good

All of a sudden, Su Yi's complexion shockingly changed as the incomparably sharp sword glow had not completely scattered and directly crushed the demonic core.

At the same time, the body of the Iron Armor Demonic Rhinoceros directly broke into pieces from the inside to the outside.

Bang bang bang

A sword glow charged out from the inside to the outside along with a monstrous bloody fog.

Under the night scene, the bloody radiance bloomed like the fireworks.

Howl

Such a despairing roar lastly resounded in the darkness before dawn.

A bunch of raging flames emitted like the round fiery sun while the flames screamed like a sea of fire, seemingly blotting out the sky and covering the earth, trying to engulf the entire land.

When Su Yi was slashing the Iron Armor Demonic Rhinoceros, the first thing he saw was that within that shocking fireball, currently, there was a tiny figure shrouded in a magma-like fire.

That figure was about the size of a rooster with a long neck and a pointed mouth. A crimson-gold meatball seemed to be on top of its head like a comb. It had a pair of short legs with five parted claws. On its set of short wings, there was a layer of feathers peeking with a crimson color. Presently, within that small eyes, it as though contained a scorching sea of fire. Who else could it be other than Su Tian Que?

What a pity, what a pity. That is a demonic core, yet you actually crush it

When Su Tian Que saw Su Yi, on the contrary, it was not happy while its gaze did not even land on Su Yi but onto the crushed demonic core of the Iron Armor Demonic Rhinoceros.

The crushed fist-sized demonic core was now transforming into a group of black and obscured liquid, drifting and floating in the air.

The liquid coagulated and did not scatter while shining with an ascending energy fog.

The surrounding fire glow on Su Tian Que immediately disappeared as its figure directly rushed out and opened its mouth to swallow the crushed demonic core.

Demonic coreprecious treasure

Su Yi's eyes moved as his figure subconsciously ran out. He was initially closer than Su Tian Que. Seeing that it was opening its mouth to swallow that energy, he could not let the glutton kept it all to itself as he opened his mouth too and sucked, directly swallowing it.

Whoosh

The liquid from the crushed demonic core, was simultaneously swallowed into the two peoples mouth in the battle between a human and a beast.

Su Yi only absorbed one-third of the crushed demonic core, whereas Su Tian Que had gained an advantage, swallowing most of it.

Only, when the liquid of the crushed demonic core went into his body, it had no response at first while the taste was a little bitter and stinky.

However, after a few seconds, the liquid of the demonic core transformed into surging energy inside Su Yi's body that directly assaulted out.

The surging energy was too overly intense, many times more powerful than the Spiritual Essence Su Yi drank back then in the mysterious space. His internal organs, bones, and muscles were as though going to be ripped apart under the assault, causing him to be in so much pain to the extent of wishing for death.

Quickly refine the energy of the demonic core!

Su Tian Que greatly shouted to Su Yi. That small figure had already emitted a scorching radiance as if its body was, covered by layers of naked flames that were ragingly burning while wrapping that small figure inside it.

Chapter 226: A Scary Breakthrough!

Ah

Su Yi shrieked as the turbulent surging energy from the crushed demonic core was as though going to burst his body directly.

If, it wasn't for Su Yi's robust physique, his body would have directly exploded.

The energy within the liquid of the demonic core could even be called insane as it was much more terrifying than any elixirs and treasures that Su Yi had taken before.

This insane-like energy was too turbulent.

It made the meridians, muscles, and internal organs inside his body to feel as though it was going to be ripped apart, while that sort of tearing pain was excruciating to the extreme.

Listening to Su Tian Que's shout, Su Yi instantly sat cross-legged and circulated the Supreme Chaotic Yuan Technique to directly refine the insane energy of the demonic core within his body.

Rumbling

The insane surging energy inside his body assaulted as though a myriad of fierce beasts were galloping.

Whoosh

Following as the Supreme Chaotic Yuan Technique started to circulate, it began to absorb and refine that surging energy.

Under the circulation of the Supreme Chaotic Yuan Technique, the insane surging energy fortified and flowed in his meridians, where it then began to transform into pure Yuan Qi.

Although he had begun to refine the insane surging energy, the speed of the refining was far from counter-weighting against the assault that he was suffering.

Su Yi's entire body trembled, and his face had spasmed to the point of hideous while dense cold sweats on his forehead kept dripping non-stop.

An average person would have found it hard to endure the tearing pain from the frightening assault of the energy inside his body.

Fortunately, Su Yi was unlike the average as he forcibly contended against it while gritting his teeth.

The inside of his body kept twitching from the severe pain, causing him to suffer an untold misery as he did not expect the liquid from the crushed demonic core to be this terrifying.

However, right now, there were no other ways. Su Yi could only focus wholly on refining it, or else the surging energy would sooner or later burst his body.

This is the energy of the demonic core, a precious treasure. Since I have absorbed it, then I shall refine it!

Su Yi secretly gritted his teeth. Although the energy of the demonic core was terrifying, once he refined it, he would be able to gain immense benefits.

Even the Iron Armor Demonic Rhinoceros was killed by him, so how could he be unable to refine some demonic core!

Nevertheless, since he had taken the energy of the demonic core, Su Yi did not want to think about it anymore except to grind his teeth and persevere as there were also no other ways.

Thus, as he endured the intense pain from his physical body, Su Yi's mind was gradually becoming peaceful while he sat cross-legged, refining the energy of the demonic core.

Anyway, since there were no other choices, Su Yi might as well calmed his heart and gritted his teeth to endure the pain from the assaulting energy while in his mind, he began to gain enlightenment on cultivation.

Along the way, with all kinds of training, dangerous situations, fortifying, and experiences, currently, everything was replaying inside Su Yi's mind as he began to gain insights.

Gradually, Su Yi silently sank into a strange kind of enlightenment.

Presently, if a powerful cultivator was here and saw Su Yi in this sort of state, the person would be very shocked.

Typically, a cultivator that had not reached the Yuan True Realm would find it extremely hard to enter such enlightenment.

Even a cultivator with an identity of a Soul Tamer would also find it hard to enter such a state.

Enlightenment, gaining insights to cultivation. Su Yi with his cultivation of Yuan Xuan Realm, had nonetheless, entered such state, which was unimaginable!

In actual fact, this had a connection with Su Yi's talent.

At the same time, because Su Yi had come with the knowledge of his previous lives as well as adding on that his heart was always on cultivating, he was able to put everything down for cultivation and whole-heartedly desired to become a strong cultivator.

At a certain degree to say, towards cultivating, Su Yi was a very determined and strong-willed person.

Therefore, it caused Su Yi to be able to enter the state of enlightenment with only the cultivation of Yuan Xuan Realm.

To be able to enter into enlightenment, there would be immense benefits for cultivating!

At the top of a mountain, the youngsters from the Ancient Spirit Village stood together with an expression of grief.

They had already gone back to find the traces of that Iron Armor Demonic Rhinoceros for one day and one night, yet they still could not find it.

Brother Yi Su clearly knew that he could not defeat it, yet he still wanted to block that Iron Armor Demonic Rhinoceros for us. Counting everything, we have owed him two lives! The corner of Shangguan Yans eyes were wet as he felt very grievous.

All of us owe Yi Su two lives!

Shangguan Yu and Shangguan Ye also felt very sad as they glanced afar while their eyes also started to become lifeless.

The rest of the youngsters did not say anything as all of them were very sad too.

There will be many strong beasts the farther we go in. We should go back first and request the strong cultivators in our village to find that Iron Armor Demonic Rhinoceros!

Shangguan Xi Weis pearly white teeth gently bit on her slightly parted red lips. Her eyes were covered with tear stains while that fair face looked very haggard.

She knew distinctly in her heart that even if the strong cultivators from the village were to come, everything was, also already done for.

As he wanted to save everyone, he got buried inside the mouth of the Iron Armor Demonic Rhinoceros.

If we were to go back like this, then what about the meat of the beast?

Shangguan Xiu asked while she was also feeling very sorrowful. She had a pleasant opinion of Su Yi and had asked the most questions towards him. However, after all, every one of them had come here to hunt to bring back the meat of the beast required for the gathering.

We will go back to the place from yesterday where the beasts have killed each other. There are many corpses left behind, and since the commotion from yesterday had shocked the entire area, most of the beasts with low cultivations will not dare to get close. Bringing those back will be more than enough!

Shangguan Xi Weis dark eyebrows secretly knitted together as she glanced afar while her eyes silently became blurred.

Brother Yi Si, we have let you down that even your bones also cannot be found. Please forgive us. Once we return to the village, we will definitely request for the strong cultivators in our village to come, so thatso that at least we can find your bones in order to give you a proper burial!

Shangguan Yan looked at a distant place and spoke with both of his fists clenched tightly with a face full of guilt.

Su Yi closed his eyes tightly as his body was, enveloped inside a blinding glow with a faint obscured black brilliant light.

The glow was clearly black, yet it gave people a remarkably blinding and vivid feeling.

Following as the time passed by, the surging energy inside Su Yi's body that brought the intense pain gradually slowed down.

Only, that sort of slowing down did not bring much effect for him because the energy from the demonic core was too overly surging.

Inside his Yuan Qi Whirlpool within his Dantian, strands of pure Yuan Qi gushed in which was refined from the energy of the demonic core.

Strands of pure Yuan Qi that was refined, converged together in his Yuan Qi Whirlpool within his Dantian, causing the aura on Su Yi's body to continuously escalate until the stage of fullness and inflated.

Rumbling

Following as the Yuan Qi in his Yuan Qi Whirlpool within his Dantian got more and more abundant, the Yuan Qi in his Dantian spun faster and faster as though forming a hurricane while giving out a deep and low rumble rumble sound like the wind and thunder.

Yuan Qi kept flooding in while getting fuller and inflated. In the end, the Yuan Qi Whirlpool could no longer store it.

Bang

At a particular moment, the Dantian inside Su Yi let out a deep explosion sound while his Yuan Qi Whirlpool abruptly stagnated as though it had exploded. Then the Yuan Qi Whirlpool spun in another direction and spread, transforming into real air.

Chapter 227: Must Find Them!

Yuan Xuan Realm Third Grade!

When he felt the broke through, Su Yi suddenly opened both of his eyes. Although the surging power was still assaulting his body and was unbearably painful, it nevertheless could not stop his mouth from curling up into a smile.

He had broken through another grade this quickly at such a fast rate.

Also, at this moment, Su Yi's complexion once again abruptly changed while the smile from before instantly sunk.

Not good

Su Yi bitterly laughed as his complexion changed color. There was still a massive amount of energy from the demonic core that was yet to be refined but following with Su Yi's breakthrough, it indistinctly as though implicated the surrounding heaven and earth energy.

Following along with the surrounding heaven and earth energy flooding towards Su Yi, it spurred the energy of the demonic core inside his body while an unforeseen event abruptly occurred.

The unexpected arrival of the unforeseen event caused Su Yi to be stunned, yet he was not foreign to it.

Back then, when he first took the Spiritual Essence in the mysterious space, he had also met with such a situation.

The surrounding heaven and earth energy that got indistinctively implicated along with the unrefined energy inside his body directly flooded into the Qi Ocean of his Dantian as it instantly got compressed again and again.

Then a strange scene happened. When the energy of the demonic core flooded in along with the heaven and earth energy, it got speedily refined by the Supreme Chaotic Yuan Technique and gushed into the Yuan Qi Whirlpool within his Dantian like a flood.

Presently, everything was seemingly speeding up.

The insane surging energy of the demonic core got rapidly refined along with the indistinctive heaven and earth energy, turning into Yuan Qi while madly filling and flooding into Su Yi's Yuan Qi Whirlpool within his Dantian.

It was incomparably frenzied as though the fuse of the bomb got lighted.

The aura on Su Yi's body kept successively rising while inside the Yuan Qi Whirlpool within his Dantian, it was as if a hurricane was sweeping through.

If all of this were to be seen by somebody, they would be incomparably shocked!

Bang

In a short time, the Whirlpool in his Dantian once again let out an explosion sound while the area of the Yuan Qi Whirlpool within his Dantian kept getting wider with fluctuating frenzied Yuan Qi and turbulent energy.

That was not the end as the shocking scene was still on-going, unable to stop

Bang!

Bang!

Another short moment, inside the Dantian Whirlpool, it once again gave out another two explosion sounds as the aura on Su Yi's body climbed onto a new step.

Everything was like the momentum of splitting the bamboo and the thunderclap

Yuan Xuan Realm Sixth Grade!

Su Yi was stunned as he clearly felt the over and over strengthening while the pleasant sensation was beyond comparison.

However, this type of feeling made Su Yi incomparably worried.

Whoosh

The indistinctive heaven and earth energy was still flooding in as if it was endless along with the energy of the demonic core inside Su Yi as they implicated one another and became frantic.

Yuan Qi was still sweepingly flooding into his Yuan Qi Whirlpool.

Massive amounts of Yuan Qi charged into the Yuan Qi Whirlpool while Su Yi continued to get stronger as the aura on his body was still continuing to increase at a terrifying speed.

Though this type of increasing gave Su Yi an incomparable feeling of satisfaction.

It had instead caused Su Yi to be absolutely worried!

Such continuous breakthroughs was definitely not a good thing.

The last time was also like this, and Su Yi had forcibly stopped it.

A towering skyscraper must be built up from the flat ground while everything must be, done gradually. If it continues like this, there would be more harm and no gains for him. Whats more, it was when he was still working on his foundations.

It cannot go on like this, and must be stopped!

Su Yi gritted his teeth and roared in his heart. He forcefully controlled the Yuan Qi within his body and the energy of the demonic core with the Supreme Chaotic Yuan Technique circulating. He wanted to cut off the implication with himself and the energy from the outside while forcefully compressing the Yuan Qi that had charged into the Yuan Qi Whirlpool within his Dantian.

The process was very hard, as though he was torturing himself.

Trying to cut off everything and forcefully stop the breakthrough was like trying to make the flood flow back.

Nonetheless, Su Yi was still going to forcefully cut it as he could not keep breaking through like this.

Whoosh

Su Yi began to separate and cut off the surrounding heaven and earth energy forcefully. The increasing aura on his body was also compressed by force.

However, the pain was the most excruciating agony that Su Yi had ever suffered as if the inside of his body were being ripped and assaulted by many frightening energies at the same time while his physical body was about to explode at any time.

If, it wasnt for his physique that was way more robust than people, he would not be able to bear it.

At this moment if, a strong cultivator was here, the person would probably be very flabbergasted.

As a cultivator, it was near impossible for anybody when faced with breaking through, to resist the temptation that was beyond comparison.

Yet, Su Yi resisted it. No one could compare to that tenacious and determination!

After a long time, everything then became peaceful.

The heaven and earth energy got forcefully cut off by Su Yi while the energy from the demonic core inside his body, which he no longer refined it, was separated with force by Su Yi.

Pu

Such separation was much harder than the last time, while Su Yi had to pay a price as he directly spewed out a mouthful of blood.

He evidently had just broken through, yet at the moment, his complexion was pale.

But, he no longer continued to break through while the corner of his mouth curled up in a smile as he then began to close his eyes to meditate.

The sky entered the night with remaining radiance from the setting sun as it covered the endless enormous mountains.

Inside the dense forest, currently, there were around 20 young men and women gathering together.

The one leading was a boy around the age of 15-16 years old, which was riding on a giant ferocious tiger.

The ferocious tiger had a fierce momentum as its body shone while the light within its eyes was incomparably frightening!

Hu Du, what do we do now? We have already searched for two days, yet we still cannot find the people from the Ancient Spirit Village. They haven't gone back, right?

A youth asked the boy that was riding on the tiger.

They had come here to find the people from the Ancient Spirit Village, but they had already been on the Yao Luo Mountain for two days, yet there were still no signs of the people from the Ancient Spirit Village.

They must still be here. Perhaps they are inside trying to kill some beasts with higher cultivation. We must not let them go this time. Continue to search!

The boy called Hu Du yelled while the corner of his mouth lifted in a cold smile. He had finally made preparations to come to the Yao Luo Mountain, so how could he let them off that easily?

At night with the moon in the sky, spilling moonlight.

Brother Xiong Lie, where are the people from the Ancient Spirit Village? How come we haven't seen anyone of them yet?

Inside the mountain forest, a group of over 20 young men and women were gathering around the bonfire.

Behind these young men and women, presently, there were also many beasts' mounts.

Amongst them, there was a fearsome huge bear with shining eyes, emitting a frightening and fierce aura.

The moonlight shrouded with a layer of haze.

Su Yi once again closed his eyes to meditate. A layer of light was enveloping his body, emitting strands of scorching heat aura.

There was still much energy of the demonic core that was unrefined.

He could feel that the leftover energy and the energy which was compressed, later sunk into his blood, flesh, bones, meridians, and his internal organs as though it had disappeared.

While for his cultivation, originally, Su Yi was about to step into the peak of Yuan Xuan Realm Sixth Grade and was going to continue to breakthrough. But it got forcefully cut off and separated.

And right now, Su Yi was still trying to compress the aura.

The time had gone by for a total of one night before everything had entirely calmed down, and the aura on his body had gradually become peaceful.

Chapter 228: Expanding Once Again!

Rumble!

The aura on his body had entirely become quiet. Around Su Yi, who was sitting cross-legged, a whiff of aura that was many times stronger than before emitted out and spread from within his body as though awakening, bringing along a trace of immense and mighty with an air of destruction permeated.

Crack

Suddenly, both of his eyes opened. In his eyes, two blinding glow that seemed as though real, shot out at the same time.

Only, the glow flashed and past before his eyes and then gradually subsided into the firmed and brooding eyes.

Yuan Xuan Realm Sixth Grade!

When he first felt the inside of his body and the transformation, Su Yi's face gradually flushed with shocked and had a little hard time coming back to his senses.

However, his shock was not entirely because he had now reached the cultivation of the Yuan Xuan Realm Sixth Grade.

After he cut off from breaking through continuously, he was already around the peak of Yuan Xuan Realm Sixth Grade. Instead, because of Su Yi's tremendous perseverance as he kept forcefully compressed the Yuan Qi in his body and aura, his cultivation was suppressed and suspended at the early stages of the Yuan Xuan Realm Sixth Grade in the end.

Only, as he had continuously broken through from the initially later stages of Yuan Xuan Realm Second Grade until the Yuan Xuan Realm Sixth Grade now, how could Su Yi not be shocked from continually breaking through four grades?

The higher the cultivation, the harder it was to breakthrough.

Back then, when he had drunk the Spiritual Essence for the first time, he had only broken through from the Yuan Soul Realm Third Grade to the Yuan Soul Realm Sixth Grade, continually breaking through for three grades.

But, that was only at the Yuan Soul Realm.

And right now, Su Yi had broken through from the Yuan Xuan Realm Second Grade to the Yuan Xuan Realm Sixth Grade.

Just based on breaking through from the Yuan Xuan Realm Second Grade to the Yuan Xuan Realm Third Grade only, the span between them was not something that the Yuan Soul Realm could compare.

Su Yi was even more shocked that although he had continuously broken through four grades, he could still feel that there was surging energy from the demonic core inside his body that was unrefined.

The energy from the demonic core seeped within his bones, muscles, and all of his limbs inside his body, as though it could charge out and erupt at any time.

Only, at the moment, the energy had now seeped into his body. Even though it was still extremely massive, it no longer surged as if it got forcefully suppressed by Su Yi.

Su Yi felt that the amount of the massive energy from the demonic core, that was refined by him was not even two or three-tenths of it whereas a large part of it, had not been refined.

He had only refined two or three-tenths of it, yet it could already allow him to continuously broke through for four grades in the Yuan Xuan Realm. How frightening was this energy?!

When feeling the inside of his body, a slight smile emerged on his face that had a shocked expression.

Inside the Yuan Qi Whirlpool within his Dantian, the full Yuan Qi Whirlpool was much bigger than when he was at Yuan Xuan Realm Second Grade. Not by twice or triple times or even ten times. Instead, it was more than that.

Even the spiritual power inside his mind had also tremendously increased.

Slightly clenching his fists tightly, Su Yi could feel a surging energy galloping inside his body that could be used by him at any time.

Such a feeling had enabled him to feel that if he was to face with the Serene Void Brutal Heavenly Leopard in the Demonic Xuan Realm Fifth Grade now, he could crush it as though it was nothing, as he could surpass and directly suppress it!

There seem to be changes again.

Su Yi deeply muttered. Not only had the Yuan Qi in his body improve, but his physique, spiritual power, and other places also had an improvement.

He could also feel that the mysterious space in his mind had changed too.

Glancing at his surroundings, Su Yi then realized that the entire area was a peak of a cliff with ancient sky-high trees around and jagged rocks full of dragon-like tree vines.

Not far away, there was still scattered bones and blood traces which was left by the Iron Armor Demonic Rhinoceros that got killed.

At the top of the cliff, a light emerged on the empty sky.

Presently, it should be morning as the sun had just risen. On the light, there was a layer of thick, misty, and hazy white smoke fluctuating.

Su Yi found Su Tian Que at his side, not far away from him. Currently, the small figure was enveloped in a naked flames-like light circle, emitting scorching aura while spreading an uneven radiance that was very obscured.

He could not confirm what was the origin of Su Tian Que and as for the identity of a peacock, Su Yi naturally did not believe in it as rumors had it that there were no longer any peacocks in this world.

However, he could definitely confirm that this fellow must have some background that was at least not too simple.

This place seemed to be safe for the time being with no beasts around the area, whereas he also had no idea how long he had stayed here. Su Yi's eyes twitched as he summoned out the mysterious space.

This is

Inside the mysterious space, Su Yi lifted his head and was dumbfounded.

At the moment, the entire space had a sort of holy light rippling visually, faintly fluctuating with a whiff of immense and mighty aura as though it had descended from the Ancient.

However, what made Su Yi really surprised was that the space with an originally 500 zhang area had now expanded by more than twice.

Looking over, the area inside the mysterious space was already not small.

Within the already 1000 zhang space, the heaven and earth energy was still rich as the surrounding was hazy while emitting a faint radiance.

Only, back then when the space was 500 zhang, there was fog of energy floating around that, could not be dispersed as it drifted in the air.

And right now, that energy had weakened a lot, even though it was still very rich, far better than the seemingly treasure land of heaven of peace and happiness as usual.

My lord!

Beast language transmitted over as beast one by one surrounded over.

Swish swish

Two golden light-like tiny figures swept out similar to two yellow glows as they directly landed on Su Yi's shoulders and started to be affectionate. They were precisely Da Bao and Xiao Ling.

The other beasts were also exactly Fire-Eyes Beast Tiger, Golden Python, Fiery Red Demonic Mink, Flaming Beast Bird and the rest that had always been cultivating inside the mysterious space.

Su Yi lifted his head and swept his gaze past every beast. He revealed a smile when he felt their auras.

From the auras of all beasts, every one of them had broken through by a large margin.

You guys Demonic Xuan Realm!

Su Yi glanced to the side while his heart uncontrollably thumped when he felt the auras of Da Bao and Xiao Ling.

Presently, the auras on Da Bao and Xiao Ling had clearly reached the Demonic Xuan Realm First Grade.

Gulp gulp

Su Yi's throat was a little hot as he swallowed his saliva.

Everyone knew that the beasts were very different from humans.

Although beasts were naturally born with a robust body or a talent with either a fast speed or hard physique.

The Heaven was very fair as usually the cultivation speed of the beasts were much slower than humans.

For Yuan Xuan Realm, a typical human cultivator with an alright talent would need to cultivate for ten years.

But for a beast to reach the Demonic Xuan Realm, they would need at least more than 20 years.

However, at the moment, feeling the auras on Da Bao and Xiao Ling, they were obviously in the Demonic Xuan Realm First Grade.

But, Su Yi had witnessed the moment when Da Bao and Xiao Ling were born, meaning that the time they spent on cultivating was only a few months.

Chapter 229: Broken Sword!

A beast from the moment they were born, would need over 20 years before they could reach the Demonic Xuan Realm, yet Da Bao and Xiao Ling had obviously reached it within a few months. How could Su Yi not be astonished?!

My lord, we have broken through to the Demonic Xuan Realm. That spiritual root is a treasure.

Da Bao and Xiao Ling said in beast language while flicking their tongues and affectionately winding around Su Yi with excitement.

They had eaten the spiritual root of the Blood Spiritual Ginseng and gained tremendous benefits from refining it, allowing them to break through to the Demonic Xuan Realm.

Good.

Su Yi praised them and then thought about the situation. Even though Da Bao and Xiao Ling had gained benefits from the spiritual root of the Blood Spiritual Ginseng, the biggest reason for their growth must most probably have a connection to this mysterious space.

Back then, when Golden Python, Fiery Red Demonic Mink, White Jade Swallow and the rest had gained benefits from the inheritance of the mysterious space, they had become different after that.

As for Da Bao and Xiao Ling, when they were still inside the egg, the mysterious space seemed to have bestowed them the benefits.

Hence, Su Yi was wondering that although this time it was because of the spiritual root of the Blood Spiritual Ginseng, the most crucial reason for Da Bao and Xiao Ling to be able to reach the Demonic Xuan Realm so fast was still because of this mysterious space.

Su Yi swept his gaze around and saw that the Blood Spiritual Ginseng was still at the same old place with half section of its roots plunged into the soil as its body emitted a glow while the leaves on its head gave out a radiance.

Spiritual Essence

Su Yi recalled his precious Spiritual Essence and immediately went over to take a look. Afterward, he was reassured.

The pool of Spiritual Essence had expanded a little along with the space.

However, on an overall, the remaining Spiritual Essence from before was still there.

The Blood Spiritual Ginseng had kept its promise and did not steal the Spiritual Essence to drink.

The Spiritual Herbs inside the mysterious space had also grown up healthily while emitting a radiance.

The elixirs that Su Yi, had placed inside the mysterious space previously, had advanced and improved a lot too.

You guys will continue to cultivate in seclusion for a period of time. When it is alright for you guys to go out, I will bring you out.

Su Yi explained to Fire-Eyes Beast Tiger and the rest after tidying up and taking another Yuan Weapon saber from the mysterious space.

At the moment, it was not suitable for Fire-Eyes Beast Tiger and the rest to reveal themselves as he was still at the heaven of peace and happiness, so they could only continue to cultivate in here.

After keeping the mysterious space, Su Yi sized up the surroundings and picked up the 500-kilograms broken sword that was, dropped not far away.

Eh, it become heavier!

When he lifted the broken sword, Su Yi was momentarily shocked as the initially 500-kilogram broken sword was now actually three times heavier than before.

As he was formerly at Yuan Xuan Realm Second Grade while he had now reached the Yuan Xuan Realm Sixth Grade, Su Yi thought that under the situation of not initiating his Yuan Qi, the strength of his brute force should have increased a lot.

However, currently, as he held the 500-kilograms broken sword, he still felt that strenuous effort like before.

Su Yi reckoned that at the moment, the 500-kilograms broken sword had unknowingly grown to about 1500 kilograms.

In the situation that he did not initiate his Yuan Qi, even holding it in his hand was a strenuous effort.

This is definitely not a broken sword!

Though it was baffling that the broken sword had become heavier, Su Yi was not that much surprised.

He could still remember clearly that when he was killing the Iron Armor Demonic Rhinoceros inside the frightening sticky fluid, it was because of the sudden eruption of this broken sword with a monstrous sword force and blinding sword glow that had directly slashed the Iron Armor Demonic Rhinoceros which allowed him to be saved at a critical moment.

At that moment when the broken sword erupted, Su Yi could still remember that terrifying power and killing intent that had swept over. That power was remarkably mighty as it poured into his body. But, the most horrifying thing was that terrifying killing intent.

When he recalled that killing intent, Su Yi still had a lingering fear in his heart as though it was showing up vividly before his eyes.

That whiff of gruesome killing intent along with the surging power charged over as though he could see the scene of blood flooding into a river and bone stacking up before his eyes.

That sort of killing intent was too scary as if it wanted to destroy everything, almost directly causing his body to explode into powder at that time.

Afterward, that killing intent abruptly disappeared and left behind that trace of tremendous power.

Su Yi thoroughly examined the broken sword in his hand. It still had the same ordinary appearance of wholly broken while he could not perceive anything.

But Su Yi was extremely sure that when he killed the Iron Armor Demonic Rhinoceros, it was this broken sword that had erupted a frightening commotion.

After carefully examining for about an hour and trying every single method, the broken sword was still quiet, making Su Yi give up.

However, Su Yi was very sure that this broken sword was not ordinary. Perhaps next time when he met with another opportunity, he could discover its secrets.

Holding onto the broken sword with its added weight, Su Yi strenuously waved it a few times with a smile on his face.

The added weight was not a problem for him as it was perfectly suitable for him to make preparations to cultivate the Emperor Grade martial technique.

Whoosh

At one side, the scorching heat aura surging with fluctuations had movement.

Su Yi glanced over. Scorching hot aura fluctuated around Su Tian Que's body with flames whistling as if it had woken up as it flapped its short wings with a type of holy light-like crimson-gold color flowing on its entire body.

Following as the fire-like radiance gradually subsided, Su Tian Que with the appearance of a featherless meat chicken emerged clearly with light shining in its small eyes as it flapped its short wings twice with an exceedingly happy expression.

It seems to have changed slightly

Looking at Su Tian Que, Su Yi felt that there seemed to be some changes to the aura on its body compared to before while the feathers on its body had at least appeared a little more shining.

However it was still a featherless meat chicken.

But as he looked at Su Tian Que now, his heart felt a trace of warmth flowing passed. Glancing at that featherless appearance, it appeared even more handsome and tall.

Su Yi knew Su Tian Que's personality very distinctly, which was wicked like hob meat[1] that was, keen on gaining petty advantages.

Hob meat() Meaning that the person is remarkably selfish, unreasonable, importunate, and shameless.

But this time, Su Tian Que clearly knew that it was not its opponent, yet it still gave chase and fought with the Iron Armor Demonic Rhinoceros causing Su Yi to feel very warm in his heart.

Eh, this brat, you have broken through, and it seems like you have broken through quite a lot!

When Su Tian Que saw Su Yi and felt the indistinctive aura that was emitting from his body currently, surprise gushed out from within its small glistening eyes.

Only broken through by a few grades. Su Yi nodded his head and slightly smiled.

Su Tian Ques eyes twitched and rolled its eyes at Su Yi. This fellow had actually broken through by so many grades. Truly a freak.

Nevertheless, your gut is quite big. With just the cultivation of Yuan Xuan Realm, you actually directly ate the demonic core Su Tian Que then rolled its eyes at Su Yi again.

Didnt you also swallowed that demonic core?

Su Yi also rolled his eyes at Su Tian Que. The torturous pain from swallowing the energy of the demonic core caused Su Yi to have lingering fear in his heart as he almost did not make it, considering it as narrowly escaping from death.

That is me. It is me, and not you as you are only at the Yuan Xuan Realm. Under normal circumstances, by directly swallowing the demonic core, even if you die 100 times, it is still not enough!

Su Tian Que glared at Su Yi and rolled its eyes as it was so angry that its teeth were aching.

That fellow had actually crushed the demonic core, ruining such a treasure.

Most importantly, the energy from the demonic core should be exclusively for it.

Who would have guessed that the fellow would charge over again and directly threw his life away to swallow a small part of the energy from the demonic core?

Chapter 230: Grant You One Side Of The World!

However, you are also remarkably lucky that the effect is already no longer its original one or two-tenths as the demonic core, is crushed by you and you have also only swallowed a small part of it. Otherwise, you might not be here anymore.

Su Tian Que rolled its eyes and looked at Su Yi. The demonic core, was crushed, which had greatly diminished its effect while it also knew that Su Yi had only swallowed a small portion of it. Therefore, he was able to endure it and even gained tremendous benefits from it.

It was absolutely coincidental and by chance. If not, with Su Yis cultivation of Yuan Xuan Realm, directly taking the demonic core was entirely courting death.

Is that so

Listening to Su Tian Ques words, Su Yi uncontrollably secretly sucked in a cold breath as he had surely escaped a crisis.

The demonic core converged most of the energy of the Iron Armor Demonic Rhinoceros in the Demonic Void Realm. That was the Demonic Void Realm which with his cultivation of the Yuan Xuan Realm, it was like the difference between heaven and earth.

This fluke was entirely coincidental while also based on his luck.

How much have you recovered?

Afterward, Su Yi questioned Su Tian Que with full of expectation. This fellow had swallowed much more energy of the demonic core than him. Feeling its aura, it had seemingly also gained quite a lot of benefits.

A demonic core in the Demonic Void Realm that is incomplete, how much can I even recover?

Su Tian Que rolled its eyes at Su Yi and then with a stern expression, it continued: I will need to re-cultivate. I think that I will perhaps remember everything when I have re-cultivated and recovered.

Then you can slowly re-cultivate.

Su Yi arched his eyebrow. This fellow had always been so mysterious.

Relax. The moment I have recovered, I will grant you one side of the world! Su Tian Que glanced at Su Yi and said in a generous and overbearing tone.

Hehe

Su Yi took a few glances at Su Tian Que and faintly laughed again.

Su Yi, what is the meaning of your laughter? Do you not believe me?!

I believe. Why will I not believe you.

But I feel that you completely do not believe in me and is mocking me.

Impossible, why will I mock a peacock!

Then where are you going? Most likely, those fellows from the Ancient Spirit Village have left. Too bad, the meat of this Iron Armor Demonic Rhinoceros is a little sour and smelly, or else it can be roasted to eat.

Wait for me! Oh ya, the broken sword on your back seems unusual. Is it this broken sword that has killed the Iron Armor Demonic Rhinoceros

The voices of a human and a chicken echoed around while their figures gradually disappeared.

Early in the morning where thousands of mountains began to awake, within the blue and vast sky, the milky white clouds spread while the glow of the morning sun poured down onto the myriads of mountains.

Everywhere around were towering peaks and steep cliffs.

Ancient sky-high trees filled the mountains while unknown mixed trees and shrubs followed one after another continuously with various colors, and forms converged together into one ink scroll.

The figures of Su Yi and Su Tian Que appeared on top of a cliff, sizing up the surroundings.

We should have been delayed for about three days. They must have gone back, so where shall we go now? Su Tian Que said.

Get down the mountain and return to the Ancient Spirit Village.

Su Yi replied as they had refined the demonic core for three days and adding on, the day they had used to come here, four days had passed. The initially six remaining days for the big competition of the two tribes and one village was now left with two days while this was related to whether or not

he could receive the benefit for his spiritual power. Su Yi wished to return to the Ancient Spirit Village.

Without a flying beast mount, it will probably take at least a month to walk back.

Su Tian Que frowned. Inside here, ridges and peaks were everywhere. If they were going to climb the mountain and wade through rivers to get back to the Ancient Spirit Village, it is impossible to get back earlier than one month while also getting themselves super tired.

Finding a flying beast to go back.

Su Yi arched his eyebrow. Without a flying beast mount, it was indeed impossible to return to the Ancient Spirit Village within two days.

Inside this Yao Luo Mountain, there was no lack of beasts while although finding a flying mount beast was perhaps a little troublesome, it was not too difficult.

In the morning with the clouds shrouded around the misty mountain forest.

The over twenty youngsters from the Mighty Bear Tribe were all robust and muscular with shiny eyes, yet their expressions were a little disappointed.

There are only two days left for the big competition. Brother Xiong Lie, why not we go back first? Maybe the people from the Ancient Spirit Village have already gone back.

A young man from the Mighty Bear Tribe said to Xiong Lie. All of them had searched for a long time, yet they still did not discover any traces of the people from the Ancient Spirit Village. Instead, they had met with a group of extraordinary beasts, causing some of them to be injured.

Count that brat lucky!

Xiong Lie's mouth twitched with eyes full of anger. After searching for such a long time and coming prepared, he had to return without accomplishing anything. It could be, imagine how he was feeling.

Brother Xiong Lie, the people from the Hunting Tiger Tribe have also come. What are they doing coming to the Yao Luo Mountain at this moment?

A young girl was surprised. Yesterday, they had seen the people from the Hunting Tiger Tribe from afar and was shocked that why would so many people from the Hunting Tiger Tribe be at the Yao Luo Mountain at this time.

This, I do not know. Maybe they have come here to train.

Xiong Lie responded. Although they also did not like the Hunting Tiger Tribe, they had come out here entirely for the people from the Ancient Spirit Village, so they did not seek trouble with the Hunting Tiger Tribe yesterday.

Lets prepare to go back!

Afterward, Xiong Lie nodded his head. There were two more days to the big competition, therefore they must hurriedly rush back as they could not miss it.

Su Yi went down the mountain. There were thorns everywhere which considerably delayed their journey, wasting their time while were also quite dangerous.

Su Yi secretly released the aura of the Supreme Chaotic Yuan Technique causing the average beasts not daring to get close, which had greatly lessened many hidden dangers for Su Yi.

Between the chain of mountains, there were many ferocious beasts.

Chirp

At the empty sky, a cry seemingly pierced through the clouds and shattered the rocks.

Su Yi raised his head and saw many enormous figures of ferocious birds sweeping passed.

Being separated by a vast distance, he was unable to distinguish which kind of beasts they were, but Su Yi could feel that their auras were very fierce. Since those ferocious birds did not land down, he also had no ways to deal with them.

On the way down the mountain, Su Yi also saw some beasts that were battling. Amongst them, there was also a beast in the Demonic Spirit Realm that was incomparably fierce.

Su Yi avoided them from afar. The battle of the beasts might lure an even stronger beast over as this was the Yao Luo Mountain, so it would be better to avoid it.

At a mountain stream between the chain of mountains, many figures of youngsters had gathered together with exceptional auras.

Hu Du, we cant find anyone from the Ancient Spirit Village. Instead, we have discovered Xiong Lie from the Mighty Bear Tribe. What is he doing coming over to the Yao Luo Mountain at this time?

Someone spoke. Yesterday evening, they had seen many people from the Mighty Bear Tribe from afar and were secretly surprised.

Reportedly, Xiong Lie is also defeated by the outsider, Yi Su that brat. Possibly he has come here for the people from the Ancient Spirit Village too!

Hu Du was not that old, but he had an extremely high position inside this group. His gaze secretly turned while he was remarkably smart too.

However, there are still two more days for the big competition. Have the people from the Ancient Spirit Village gone back?

Within the group of people that had come, some of them had become deflated as they had come prepared with hearts full of expectation.
