

The God of Sky and Earth

Chapter 3: I don't mind crippling you

Behind Su Yi, a young man around 17 to 18 years old appeared. His stern and righteous face made him look very handsome, his head full of lush black hair, but underneath his head was a pair of long and narrow eyes, inside them existed something which did not allow others to look down on him. There was a disturbance in the air behind his back, obviously, he was the one who ambushed Su Yi.

Su Wei, what the hell are you doing!

Fatty Wang initially prepared to clench his teeth and fight with all his might, but when he saw the youth in front of him, his face changed.

Su Yi stood up, staring at the man in front of him as his face sank slightly. The cold gleam of his blade in his sleeves silently disappeared.

Naturally, Su Yi knew who this youth was, and was very, very familiar with him. The youths father was adopted by the Old Master and had changed his surname to Su since young.

So, in a way, Su Wei was still Su Yis cousin and had quite the talent since young.

From the aura that he gave off during the attack, Su Wei was already in the Yuan Soul Realm.

Talent like this was extremely rare in the entire city.

Looking at Su Yi, Su Wei smiled slightly. That little brat actually managed to dodge his attack just now.

In Su Weis imagination, if the brat died in his hand just now, he could just make an excuse saying that it was an unfortunate accident that happened when they were sparring. Even if he was punished heavily, it would still be all worth it.

After all, he was now the best among youngsters of the Su Family. He was Su Familys future and hope.

But looking at this jinx in front of him who hadnt died, and actually survived for three years in that sort of place, this was the last thing that Su Wei wanted to see.

As the Su Familys eldest grandson, Su Wei had always thought that he should be the one who inherited the Su Family.

But just because his father was adopted, in the eyes of the old generation of the Su Family, even if his mother came from the Su Family and his talent far surpasses the jinx, his position was not equal to this jinx in front of him.

Especially in the heart of the Old Master. This jinx had made such a large mess, yet the Old Master still did not care about any consequences and protected him, this goes to show how much the Old Master cared about Su Yi.

Originally, he thought that the jinx would surely perish in the forest if he lived there for three years. He did not expect the jinx to be so lucky and managed to come back alive.

These three years were the best three years of Su Wei's life. He was already the best in his generation, but this made him even more worried.

Because he was very clear, that once the jinx returned, his position and all he had right now in the Su Family, would slowly disappear, just like the reflection of the moon on the surface of a pond.

No matter how hard he worked in the future to help the Su Family gain something, it might eventually fall into the hands of this jinx. ALL new chapters on nov(e)lbin(.)com

How could all this not make him burn with jealousy? He could not even be compared to a piece of trash like this who only knew how to make trouble for the family.

In his thin eyes, cold burning rage emerged, but afterward, Su Wei slowly exhaled, a smile was put back on his face.

Facing Su Yi, Su Wei erased traces of his hate, and faked happiness instead, and said, It has been three years since we last met. Little brother Su Yi has finally returned and seeing that you had managed to survive in that hell, you are bound to have good fortune in the future. Seeing you again had ignited my flames of passion to spar with you, and it seems that you have also improved quite a bit, please forgive me for my sudden actions!

Su Wei, how is that called sparring? It is so obvious that you are trying to kill him! Fatty Wang shouted, overflowing with anger.

During this moment, Su Yi tidied up his robe, raised his eye slightly, and casually replied, No problem.

Hehe, then all is good. It seems that Su Bai Han has just gone to the city gate in vain. I have heard that Su Bai Han and the rest are trying to hinder you at the city gate, but with your skills, you would obviously not meet them head on and enter the city way ahead of time. Even though it is a bit shameful, but it is still better than losing your life, furthermore-

Su Wei looked at Su Yi, his face showing signs of sarcasm which he did not even try to hide.

Su Wei stopped talking for a moment, he was smiling and not at the same time, and continued speaking, Furthermore cousin Su Yi did not only lose his face but also the dignity of the entire Su Family, that sounds more like it.

Su Yi inhaled slightly, the visitor was not at all friendly, but if he could not even deal with this kind of small play, then he would have lived his past life in vain and should just reincarnate again.

Su Yi smiled, his face looking helpless, and nonchalantly said, You wanted to kill me just now, but what a pity that the attempt failed. You want to become the next head of the family, that is understandable, but you can rely on your own ability to fight for it fairly. I would have to say that your actions now have not only made me pissed but also appears to be very childish. If you cannot even fight for it in the light, it is sad to say that you stand no chance of becoming the heir.

Listening to Su Yis words, this direct and merciless speech with underlying sarcasm was basically challenging everything that Su Wei just said.

The smile on Su Weis face also gradually changed into an expression which was neither angry nor happy.

Su Wei expected that after Su Yis experience in the Forest of Demons for three years, even if he did not die, he would have been tortured to the extent where he would run back home with his tail between his legs pathetically. That would have been the best-case scenario.

He did not expect at all that the jinx would still be as arrogant as he was three years ago, and still looked down on him.

Su Weis face sank, his eyes filled with glimmers of cold light, he said, Su Yi, other than depending on the Old Master, what else do you have? Talking about talents, you are basically a piece of trash. Who in the entire City of Man does not know that you, Su Yi, is only a jinx who only knows how to depend on the Su Familys protection? What right do you have to talk to me as an equal?!

Su Wei, dont you go overboard!

Fatty Wang hollered. He stared at Su Wei but there were obvious signs of fear.

Fatty Wang was clear about the fact that Su Wei was now the leader of the younger generations in the Su Family, and long before now there were already rumors about him completing the Foundation Building Stage and have already stepped into the Yuan Soul Realm. So, he simply would not be able to fight against Su Wei.

Hearing Fatty Wangs words, Su Wei treated it as nothing. He did not bother with him. He only followed Su Yi closely with his eyes.

Seems that it was quite tough to have kept your grievances in you. Three years ago, when you were in front of me, your attitude was polite and respectful. When I was not around for these three years, you have gotten far braver, Su Yi softly said, his face emotionless, like he did not even care about what Su Wei had just said.

But Su Yis words had actually pierced into Su Weis heart like a needle.

Three years ago, when he was still in Foundation Building stage, although the jinx in front of him was trash, with the Old Masters backing, and also with him being the rightful heir of the family, he did not dare to offend him.

But it was different now. This jinx was now despised by everyone. He had also succeeded in stepping into the Yuan Soul Realm, and being the first among his generation, he was looked upon favorably by quite a few elders of the family.

Bloodlust began seeping out of his eyes. The aura of his body started moving, and his fists were clenched tightly. Su Wei wanted to kill him.

It is Young Master Su Yi? Young Master Su Yi has really returned!

Young Master Su Wei too!

The commotion attracted the attention of the guards in front of the Su Familys gate. Instantaneously, people rushed over to take a look.

Su Wei glanced at the side, his teeth clenched hard, the bloodlust in his lean eyes began to change into coldness.

Su Wei looked at Su Yi, his face cold and said: Su Yi, a lot has changed in these three years. You may still be alive but you are just a useless piece of garbage. On the other hand, I am not who I was three years ago. The trouble you caused still exists. If you are lucky, you would receive the protection of the family and live like a dog in his kennel for the rest of your life, but if you are unlucky, then two days later, there would be a competition to choose a few among the younger generation of the Su Family to join the Sacred Mountains selection test. If you are around at that time, I do not mind crippling you on the spot. At that time, no one would be able to protect you. Of course, with your abilities, lets not talk about having the right to enter the stage, you would not even have the courage to enter the stage!

Finishing what he was saying, Su Wei turned and left. Today, he had already missed the chance to get rid of the trash, finding a chance in the future would not be too late.

Young Master Su Wei.

Receiving the bows of the Su Family's guards, Su Wei's face was gloomy and ignored them.

Following Su Wei back with his eyes, Su Yi had a grin on his face, and without a care for what Su Wei had just said, he opened his mouth, Honestly speaking, with your current abilities after entering the Yuan Soul Realm for such a short period of time, I fear that you are still not qualified to cripple me. Two days later, I will give you a chance just as you have wished!

Hearing the casual words behind him, while moving forward, Su Wei's footsteps were stunned slightly and his face cramped.

He thought that his warning would be enough to force the trash to live with his tail in between his legs, but no, the trash still looked down on him as per usual.

Two days later, no one can save you!

Su Wei clenched his fist tightly, his eyes overflowing with cold light as he took strides into the Su Family's gate.

Young Master Su Yi, it really is you!

Several guards from the Su Family's gate came in front of Su Yi. They looked respectful and polite, but they did not bow, a big difference in their attitude towards Su Wei.

Examining the shabby Su Yi in front of them, the guards looked at Su Yi with contempt. The jinx left the house with nothing, although he came back alive, he looked so pathetic that he was no better than the beggars on the streets.

Regarding the gazes of the guards, Su Yi saw them all, but he only smiled and did not bother himself with them.

Su Yi, are you really going to spar with Su Wei 2 days later? Have you also stepped into the Yuan Soul Realm?

Fatty Wang walked in front of Su Yi, his face stern and there were hints of astonishment.

Fatty Wang knew that Su Yi's talent was not even an equal to his. For these three years he could not count how many pills and herbs he had taken, and under the supervision of his father, he did not know how much he had suffered because of training, and yet he had not even reached the Foundation Building Stage. Has this person in front of him not only managed to survive in the Forest of Demons for three years but has also succeeded in reaching the Foundation Building Stage and even stepped into the Yuan Soul Realm?

Uuh

Su Yi shook his head, slightly awkward and said, No.

Hearing that, Fatty Wang was not at all surprised. He had trained day and night for the past three years and he had not even reached the Foundation Building Stage. If this person has already stepped into the Yuan Soul Realm, then it would be too much of a blow for him to take.

Chapter 4: Wan Er has grown up

Watch out for Su Wei, it is plain as day that he wants to kill you, and perhaps its not only for the position of the heir but also for Liu Ruoxi. That jerk is a sly one.

Fatty Wang looks at Su Yi, his gaze expressing his condolences for Su Yi. Honestly speaking, he really did admire him for his work 3 years ago, other than this guy in front of him, no one in the city would ever dare to do such a thing.

No worries, he is still not enough to beat me.

Su Yi smiled, not too bothered about Su Wei.

Afterwards, Fatty Wang told Su Yi that 3 days later, the strong cultivators from Sacred Mountain would be choosing some youths to enter the Sacred Mountain.

Fatty Wang did not say much more, as he did not have the right to enter the Sacred Mountain. Su Yi was not even an equal to him, how would he have the right?

Furthermore, even if this guy has the right, Liu Ruoxi was currently the fairy of Sacred Mountain, even after giving him ten more leopards galls, he may still be afraid to go to Sacred Mountain, if not Liu Ruoxi would tear him to pieces alive when he reaches there.

The news of Su Yi returning home spread like a wildfire in the entire Su Family and caused a huge commotion.

His clothes did not cover his entire body, and his bones were like twigs, how tragic!

He was all skin and bones and returned in rags!

That is the Forest of Demons you know, it is a miracle that he was able to even return alive!

He was really lucky, staying in that Forest for 3 years and he still managed to return!

Various conversations spread through the entire huge estate of the Su, but no one went to see Su Yi. No one wanted to go near that jinx.

And at this moment, Su Yi was resting in the rocking chair of a small yard.

The once luxurious courtyard was not only left with silence, its majesty faded into the past.

Young Master Su Yi, you have finally returned! Oh thank god, I have been waiting for countless days. The bed sheets have all been washed and changed, and I have cleaned your room every day, waiting for your return.

A girl who was much younger than Su Yi was currently ecstatic, and kept on chattering on non-stop.

The young girl had a small face and thin eyebrows, even though she was wearing very shabby clothes, but her petite figure and radiant skin could not be covered.

Su Yi had his hands behind his head, leaned against the rocking chair and grinned while looking at the young girl. *Tôp novel updates on [n/\(o\)/v/elb/in\(.\)com](http://n/(o)/v/elb/in(.)com)*

3 years have passed, the once small girl has also grown up, the initial stage of growing up to have a fine curvy body was already starting to tempt others, Su Yi said in his heart, If a few more years had passed, she would be a fine beauty.

The girl was called Wan Er, both her parents had died, and Su Yi met her accidentally on the streets 10 years ago. He pitied the lonely girl, brought her home and gave her the name Wan Er, and kept her at his side.

In Su Yi's heart, he had always treated her as if she was his real younger sister, but the little girl was stubborn and only viewed herself as a maid.

Young Master, what are you looking at? Hurry up and go take a bath, look at you, when have you suffered so much? How could the Old Master be so heartless to send you to the Forest of Demons, I heard that the place was the same as hell itself.

When Wan Er saw how pathetic Su Yi looked, almost like a beggar, she was heartbroken, and tears started forming in her eyes and was almost going to flow down her face.

Initially, she cried and begged to follow Su Yi, but she was not allowed to, and for these 3 years she was counting the days down until when she could see him again.

Im fine, look at me, havent I returned alive and well?

Su Yi has not been afraid of much since young, but one of the things he was afraid of was Wan Er's tears. He could only stand up and go to bathe.

In the room, Wan Er had long prepared everything that was needed for a bath, she had also specially put sweet-smelling flower petals in the wooden tub and the scent spread out in all directions.

Young Master, let me help you remove your clothes.

Wan Er removed Su Yi's clothes very naturally, and the tears in her eyes could not help it but trickle down from the side of her cheeks.

Young Master, you have suffered so much over these years.

Wan Er cried, her tears wet her eyes, she could only see scars of all shapes and sizes on Su Yi's back, colouring his back with different colours.

Some scars have already healed completely, but even just by looking from the scars themselves, she could tell that the bones definitely could be seen when he was injured.

Wan Er could bear it no longer, tears drenched her face, her heart pained with sadness.

How could she not guess it, that what the Young Master has experienced in the past 3 years was far beyond what she could imagine.

Silly girl, what is there to cry about.

Su Yi turned around and smiled. He wiped off the tears at the corners of her eyes, and said: You should go out first, I can wash myself.

Young Master, I have always helped you wash yourself in the past, do you not want me anymore?

Wan Er's face suddenly became very nervous, in the past, when the Young Master was bathing, she was always at his side tending to him, even though for most of the time, her eyes were shut and the Young Master only asked her to pass the towel.

Silly girl, you are already all grown up, men and women should not be too close, if you continue to serve me when I am bathing and this matter spreads, how could you find a decent guy to marry in the future.

Su Yi laughed, thinking back about how 3 years ago he still allowed this girl to serve him when he was bathing, he could only scold himself in his heart that he was a beast.

But I have not made any plans to marry, my entire life is to serve Young Master.

Wan Er looked at the now turned-around Su Yi, gazing at his figure, he was much taller than he was 3 years ago, and the skinny-looking physique now with the robe removed, she could see that his body was tanned copper brown, his muscles were like fists, tough and robust, and seemed to pack a ton of explosive strength.

Actually Young Master, I think it is better if you bathe by yourself.

Girls naturally mature earlier than boys. A red blush crept up Wan Er's face and she shot out of the room, closing the door in the process.

Su Yi shook his head, and then looked at his densely scarred back. This was what he reaped from the past 3 years.

The Su estate was gigantic, there was the inner courtyard, the outer courtyard, the North Wing, South Wing, East Wing, West Wing and so on and so forth.

There were already quite a few people in the main Su Family, and then there were still some people from the branch families, including the guards, servants, maids, etc. Just the people who normally lived in the Su Estate had already numbered more than a thousand.

Outside the silent courtyard stood a few figures, they looked hesitant, like they were trying to see something.

Fifth Chamberlain, are we really going to enter? I have heard that the jinx Su Yi is back, and over the past few years, we have made a lot of things difficult for Wan Er, who knows whether she has complained about us, would we have trouble?

A servant around 20+ years old opened his mouth, and he was the same as the other servants beside him. He kept looking around the courtyard, his face troubled.

For the past 3 years, they have bullied Wan Er quite a bit.

In front of these servants was a middle-aged man around 30 years old. He was not tall, but his attire was bright and fresh while his figure was burly.

The middle-aged man turned and looked at the servant who just spoke, he grunted coldly, Humph! It is good that he has returned, I heard that the person returned looking so pathetic that one could not bear to look at him straight, I think that he should have learnt his lesson after living in the Forest of Demons for the past 3 years. We can use this chance and beat him down a bit to make our lives better in the future.

After finishing what he said, the Fifth Chamberlain gathered his courage and walked into the courtyard with his head held high and his chest out.

The servants behind saw what was happening and followed him inside the courtyard.

They put their trust in Fifth Chamberlain, at least he had reached the Foundation Building Stage and was almost entering the Yuan Soul Realm, anyways they could not really suffer a loss.

Wan Er was in the courtyard tidying up the place, she remembered the scene which she just saw. It was her first time looking at a mans body up close, and Su Yis body was far different from the bodies of the guards who she saw training with their tops off. The feeling was completely different, the more she thought about it, the more flushed her face got.

Fifth Chamberlain, what are you guys doing here?

When she saw the Fifth Chamberlain with the other servants approaching her, Wan Er consciously took a few steps back.

Seeing Wan Ers flushed face, Fifth Chamberlain could not help himself but get stunned by that captivating face.

He had his eyes on the girl for quite a long time, but this girl had to be the personal maid of that good-for-nothing Young Master, so her identity was a bit special.

For the past 3 years he had tried many ways to tempt and threaten her to no success, when he wanted to wait a while longer before he obtained her with brute force, who knew that this jinx would suddenly return.

Recalling about how he had made life difficult for the girl during the past few years, the Fifth Chamberlain was also slightly worried. Today, he came over because of two reasons. One, was that someone asked him to come over to take a look. Two, he could not stop worrying, and he wanted to also see for himself how the jinx ended up after 3 years living in the Forest.

Wan Er, I have told you last time that I would give you half a month, it is already about time. When you first entered the Su Family, you were not registered, I have the authority to kick out of the house.

The Fifth Chamberlain looked at Wan Er with a slightly burning gaze, the little girl was becoming a finer young lady as each moment passed. She was like an unripe green apple, she may bring a bit of sourness, but there was a unique taste to it. He was afraid that if he didnt possess her as quickly as he could, she would escape his control and become someone elses plaything.

Fifth Chamberlain, do not cross the line, I have been Young Master Su Yis maid since young, who in the Su Family does not know that you do not have the authority to kick me out, furthermore, Young Master Su Yi has returned, if you do not leave now, the Young Master will not let you go that easily later!

Wan Er stared at the Fifth Chamberlain, a pair of eyes brown like the autumn lake, hidden beneath the fine and curvy eyelashes, her red petite lips were slightly pursed and her teeth bit into her soft lips, amidst her stubbornness, there was an air of pride.

Haha, are you talking about that jinx? Do you really think that good-for-nothing Young Master has the ability to protect you? I will tell you honestly, the Su Family has changed. If you are smart, then you know what to do, follow me and you will have good days ahead of you, if not, hehe

Fifth Chamberlain smiled coldly, the Young Master was a thing of the past, now he is only garbage. He returned like a loser to the family, what could be expected from him.

That jinx had caused such a large mess, even though he came back, but who knows for sure what will be of him in the end.

He may only be a chamberlain, but he had no need to worry about such a useless Young Master.

What an audacious slave. If not what would you do?
