

## Sky&Earth 31

Chapter 31: Liu Zong Yuan's Thoughts

The curtains fell upon the Sacred Mountain Disciple Selection in the City of Man.

Although there were still a few challenge matches at the end where some youths of suitable age can choose to challenge a person who had passed the test, if they won the match, they would be able to gain the spot to Sacred Mountain.

Afterward, there were a few matches, the targets were He San, Song Wu Qiu and the rest of the lot, but sadly none of them had any success with the matches.

Furthermore, these challenge matches no longer sparked any enthusiasm in the spectators.

The reason was simple, the match between Su Yi and Ji Chao was too unexpected and mind-blowing, it had already deeply shocked the entire city.

The match between Su Yi and Ji Chao ended in both sides being seriously injured and knocked out. They were brought back to the Su Estate and the Liu Estate respectively.

This match could only be declared a draw in the end.

This conclusion had deeply stunned each spectator in the City of Man.

At the beginning, Su Yi had won through playing tricks, though the spectators were stunned, they could still understand.

But the final match, everyone witnessed it with their own eyes.

The second time, Su Yi played no tricks. He went head-to-head with Ji Chao, with his cultivation level of Yuan Soul Realm First Grade, and managed to end the match against Ji Chao who was in the Yuan Soul Realm Ninth Grade with both sides being severely injured and there were no victors.

Ji Chao, a disciple of Sacred Mountain, a prodigious existence, King Grade Talent, already at the Peak of the Yuan Soul Realm Ninth Grade, a step away from the Yuan Xuan Realm.

Su Yi, was only a playboy and a rich good-for-nothing three years ago, his talent not even worth to be mentioned.

But now, after three years, Su Yi returned severely injuring Su Wei with a single strike yesterday and today with only two moves, forced Ji Chao to fight with everything he had and even then, there were no victors, this had amazed the entire city.

Just Yuan Soul Realm First Grade and he was already able to fight with a cultivator from Sacred Mountain who was at the Peak of Yuan Soul Realm Ninth Grade to a draw, how could Su Yi's talent be trash?!

Too strong, this little kid Su Yi did not lose face for the City of Man, from now on, I can't hate him anymore!

Su Yi was so handsome! That kid from Sacred Mountain was so arrogant, saying that the City of Man was trash, now I think he had just gotten a slap in the face!

Peak of Yuan Soul Realm Ninth Grade and not being able to have any advantage over Su Yi, a Yuan Soul Realm First Grade, Su Yi is way too strong!

Twilight, the rays of the sun was blood-red, painting the entire city.

The entire City of Man was still immersed in that heated fight, everyone was discussing the match between Su Yi and Ji Chao.

Liu Estate, Study Room.

Liu Zong Yuan squinted his eyes and gazed outside at the sky, half-painted by night, he seemed to be thinking about something.

Head of the House, I have just received news that Ji Chao has no life-threatening worries and have already regained consciousness, but his injuries are not light. An old man hurried into the room.

Whew.

Liu Zong Yuan let out a long breath of relief, his face slightly more relaxed.

I would never have thought that kid Su Yi would be so strong, Ji Chao actually did not get any advantage over him. The old mans heart seemed to be still in slight shock and could not help but open his mouth.

If that was a real fight to the death, Ji Chao would not have been an opponent for him. It seems that living in the Forest of Demons for three years, that kid is no longer the same as before. Liu Zong Yuan raised his eyes slightly, light shining in them.

But what a pity it is that Su Yi only has the talent of an errand boy. The old man said slightly regretful.

Being able to fight as an equal with a cultivator at the Peak of the Yuan Soul Realm Ninth Grade from Sacred Mountain, this kind of person, how could he only have the talent of an errand boy. Liu Zong Yuan smiled slightly, if a person with Yuan Soul Realm First Grade cultivation could fight equally with a cultivator from Sacred Mountain at the Peak of Yuan Soul Realm Ninth Grade only has the talent of an errand boy, then this type of errand boys talent must be so rare in the world to the point that it would be pitiful.

Head of the House, do you mean that-

Hearing those words, the old mans eyes shined and said, Is that kid Su Yi hiding something?

Whether or not he is hiding something I do not know, but Im certain that there is definitely a secret in Su Yi. Liu Zong Yuan stated confidently.

The old mans expression slightly changed and asked, Then what about the engagement between Ruoxi and Su Yi? Back then, it was an agreement made between Head of the House and the Old Master Su, now that Ji Chao had not gotten any advantage

Su Yi, that little kid has been different from the rest since young. Actually, it is not that I do not like him, it is just that-

After being silent for a moment, seeming to be pondering about something, Liu Zong Yuan suddenly grinned slightly and said, Ah well, anyways I cannot do anything about this now, might as well wash my hands of this matter.

Head of the House, if you do not do anything about his, I am afraid that the Old Master Su will not let this go so easily. The old man was stunned for a second, his heart was clear that the Old Master Su Yun Tian was not someone which you can plot against that easily.

I am not talking about this.

Liu Zong Yuan smiled mysteriously and said. Based on that kid, Su Yi's personality, it suits my intentions, anyways I cannot do anything about Liu Ruoxi anymore, might as well let them decide on this matter by themselves in the future.

The old man hearing this was slightly surprised, but then he said worryingly, Head of the House, I am afraid Sacred Mountain would not agree to this.

Since Ji Chao did not gain any advantages, I think that Dharma Protector Wang would not say anything more about this matter, and for the future, we would have to see what actions Su Yi take. Anyways he was the one who created this trouble, things are getting more and more interesting now.

Liu Zong Yuan looked outside the window again at the scarlet red sky, the corner of his mouth curved up slightly and he mumbled to himself, Su Lin Feng, you won against me back then, if you have the skills, have your son win over my daughter now.

Su Estate,

Now there was a strange atmosphere in the air of the Su Estate. There was astonishment, happiness, and worry.

Everyone was happy and astonished at Su Yi's performance today, defeating a disciple from Sacred Mountain, how astonishing is that.

You must know that this was the very first time Su Yi had won glory and honor for the Su Family and gained so much face.

But what the Su Family was worried about was the fact that Su Yi was still in a coma after being seriously injured.

This is not a good thing, this is madness, offending the people from Sacred Mountain, in the future when Su Wei is at Sacred Mountain, I am afraid that people would make things difficult for him. There were some who had worries like this.

After all, Su Wei still had to go to Sacred Mountain to cultivate, there was no doubt that Su Yi had completely offended Dharma Protector Wang today, and this also meant that he had offended Sacred Mountain, the road ahead for Su Wei would be a tough one at Sacred Mountain.

There were constantly quite a few people in Su Yi's yard, this was also the time when there was the most number of visitors since Su Yi had returned home.

Old Master, how is Su Yi?

In front of the bed, there were elderly and women worrying, and they asked Old Master Su Yun Tian.

All of you should go back, if there is any news, I would naturally tell you. Do not add to the trouble here. Old Master Su Yun Tian waved his sleeve and looked seriously at the Su Yi who was in a coma.

Yes, Old Master!

The Old Master had spoken. No one dared to say anything more and left.

In the entire room, all that was left were the Old Master Su Yun Tian, Su Jing Ting and the very worried Su Wan Er.

Father, how is Su Yi? Su Jing Ting asked. He had taken some elixirs and looked a lot better.

Puh!

As soon as Su Jing Ting finished his words, a mouthful of blood sprayed out from Su Yun Tians mouth.

Father!

Old Master!

Chapter 32: Wang Quan De's thoughts

The expressions of Su Wan Er and Su Jing Ting became grim as they rushed to Old Master Su Yun Tians side.

Father, you are injured?

Su Jing Tings face grew solemn and very worried. Since young, he had viewed Su Yun Tian as his biological father. Everything he has now was all given to him by the old man in front of him.

No doubt that Wang Quan De is from Sacred Mountain. He is very strong. Do not worry, I am fine. Su Yun Tian shook his head and looked at Su Jing Ting. He said, Stand guard over for a moment. I want to help Su Yi recover. I am afraid that those so-called outstanding doctors in the city would be unable to help much.

But, Father, you are already injured. If you still use your Yuan Qi to help Su Yi recover, I am afraid that your injuries will worsen. Furthermore, you are preparing to make a Breakthrough. If you help Su Yi now, the consequence would be dire. I think you should let me do it instead!

Su Jing Ting knew that his father was injured quite heavily. If he used his own Yuan Qi to help Su Yi recover, it would definitely aggravate the injuries.

His fathers cultivation had not progressed for a very long time. If he gets injured anymore, the effects will be disastrous. He may never be able to breakthrough to the next realm.

You are also injured, furthermore, I am afraid that your cultivation is still not enough. Just protect me. Wan Er, you should leave too. Su Yun Tian had already decided. Nothing was more important than his grandson.

Su Jing Ting understood his fathers personality. Although he was unwilling in his heart, his face was solemn. He didnt persist anymore.

Su Wan Ers eyes gazed at Su Yi who was in a coma worryingly and then followed behind Su Jing Ting out of the room.

When Su Jing Ting and Su Wan Er left, the Old Master supported Su Yi into sitting while crossing his legs. After putting an elixir into Su Yis mouth, he also sat with his legs crossed behind Su Yi.

Whoosh.

The hand seal was completed. Su Yun Tians robe fluttered as Yuan Qi gushed out. Then he placed his palm lightly on Su Yis acupoints on his back and channeled Yuan Qi in.

Eh?

He exclaimed. When Yuan Qi was channeled into Su Yis body, he finally understood what was so special about Su Yi.

He had done a check-up on Su Yi before. Though there were no significant problems, still he could not store any Yuan Qi.

But now the Old Master Su Yun Tian could clearly feel how strong Su Yis physical body was. His tendons, bones, muscles and even skin had a huge difference when compared to a normal person. His smooth, jade-like skin was actually strong beyond comparison. Just like a mighty beast.

What startled Su Yun Tian, even more, were the meridians inside Su Yis body. It was apparently far wider and thicker than a cultivator of the same cultivation level by who knows how many times.

This implies that the circulation and gathering of Yuan Qi in his body were many times stronger than a cultivator with the same cultivation level as him. Naturally, the offensive power would also be far stronger. This should be one of the main reasons why he could fight evenly with Ji Chao.

And now, the Old Master Su Yun Tian could roughly confirm that Su Yi must have experienced something in the Forest of Demons during the past three years.

In comatose condition, Su Yi felt as if his entire body was being enveloped by warm currents. He could feel indescribable comfort.

And in his mind, it seemed like there was a lot of information being transferred to it at once, flooding his mind.

Night. The moon and the stars glimmered brilliantly in contrast to the dull and dark firmament.

Liu Estate. A peaceful yard. This was where the experts of Sacred Mountain had been resting. No one dared to come over and disturb them.

On the bed, Ji Chao sat crossed legged, his breathing faint and his face deathly pale.

The weakened Ji Chaos right hand was covered with bandages and soaked with blood. That was the injury caused by Su Yis fist. It had nearly crushed his bone completely.

Granduncle, that kid is very aberrant and way too strange.

Ji Chaos heart was filled with dread as he recalled the aura of Su Yis final punch during the day.

The aura which burst out of Su Yi at the end was sharp and tyrannical, imposing and destructive. It made his heart palpitate with fear. he had never felt such a horrifying aura before.

Indeed, it is very bizarre. Hes in Yuan Soul Realm First Grade, how could he fight evenly with you. Wang Quan De was deep in thought.

Granduncle, is that brat dead yet? If not, we must absolutely reject that engagement. A disciple of Sacred Mountain is not someone he is worthy of. Ji Chao told Wang Quan De. On his pale white face, a cold killing intent was still visible in his eyes.

Even until now, Ji Chao could not imagine, a trash with the talent of an errand boy could actually make him pay such a heavy price. If this matter traveled back to the Sacred Mountain, he would become the laughing-stock there.

I know you also have your eyes on Liu Ruoxi. But you should remember, with your position in Sacred Mountain now, you do not stand much of a chance.

Wang Quan De looked at Ji Chao. The thoughts of this grandnephew, how could he not know? After being silent for a while, gears turned in his head. He slightly raised his eyes and a streak of light flashed across them. He continued saying, For the engagement, naturally that is impossible, just that, at this current moment it is not possible to say anything about it, but-

His voice stopped, Wang Quan De smiled coldly. Soon, the smile disappeared, he said, If that kid died, then that would be the end of it but if he is still alive, then we can only take him back to Sacred Mountain.

Granduncle, if we bring that brat back to Sacred Mountain, wouldnt it be even more troublesome then? Ji Chao was confused. He did not understand what his granduncle was planning.

What do you know? At that time I will have my own arrangements for him. Honestly, I hope that kid doesnt die. This is an opportunity for me, Wang Quan De. If I can improve a bit more, then with my relationship with the Clan, I can easily become a Dharma Protector of the Inner Mountain! Wang Quan De said, his voice deep. Anticipation filled his eyes and so did a cold light.

The first blush of the day came. Misty Fog rose in between the dark blue mountain peaks. The green mountain tops looked like a scene straight out of a painting.

As the red sun rose, the remaining fog which had not dissipated, shrouded the mountains like a faint yarn blanket.

The green mountains far away were arranged in rows, like the rising waves of an ocean, towering and strong, grandiose and beautiful.

Whoosh, whoosh!

On a mountaintop, there was a graceful figure so beautiful that even moon would shy away from her beauty. Her lotus-like hands twisted and turned the hilt of the sword. Light reflected off the precious sword in her hands as it turned together with the swaying of her exquisite figure.

This graceful figure had red, fiery clothes. Her body was slender and graceful as a swallow, accompanied by the whooshing sounds of the air splitting. The precious sword moved as quick as lightning. The light reflected by the sword flashed, and together with the greenery in the surroundings and the fire-like clothes, it was like a scene from the fairyland.

Gradually, the precious sword in the ladys hand turned faster and faster, swirling all the fallen petals and broken rocks on the ground into the air. A faint dainty smell of flowers drifted through the air as the broken rocks formed a storm.

At this moment, the sword in the hands of the lady in red clothes seemed to be flickering like the white tongue of a snake, yet it also seemed like a dragon soaring into the sky. Sometimes, as graceful and gentle as a swallow, while the other times as fast as lightning.

If someone were to be present, their jaws would be wide agape seeing such a young lady having such skills. Even in this world, it would be as rare as the feathers of a phoenix or horns of a qilin.

Chapter 33: The tree which is taller than the forest, will be felled by the wind

Only after a long while did the girl in red clothes sheath her sword and stop. At a young age of 15-16 years old, her eyes shone with energy, her skin as white as snow, her charm incomparable. She was truly an absolute beauty.

It has been three years. I wonder whether that bastard has returned to the city alive.

Gazing at the sky, the girl's eyebrow furrowed, she pouted and mumbled softly, Bastard, you better not have died in that forest. I wish to teach you a lesson myself one day.

Wait, why would I not want him to die in that forest? Why did the figure of that bastard suddenly pop out in my mind?

The girl continued mumbling to herself for a long time and wondered, Shouldn't I wish more than anything else for that bastard to have died in the Forest of Demons?

I just want to handle that bastard personally, that's all. Afterward, the girl seemed to have found an answer for herself and smiled gently. That beautiful face seemed to radiate with a glow. Even though she was only 15-16 years old, but she already stood out so much with her beauty. Who knows how beautiful she would be and how many calamities would strike because of her looks after two years?

Dawn sliced apart the night sky like a blade.

Su Estate, when Su Yi, who was sitting with his legs crossed spat out a mouthful of stale blood, only then did he finally regain consciousness.

Feeling two warm auras on his back, currently being channeled into his body continuously, Su Yi's eyes gradually began to open.

My grandson, how do you feel now?

A familiar voice traveled into Su Yi's ears. The two warm auras on his back also disappeared.

Su Yi gradually turned around. When he saw the familiar figure behind him, the expression on his pale white face could not help but change greatly.

In Su Yi's view, he saw his grandfather Su Yun Tian, but now he could see that the long hair of his grandfather was white like silver yarn. His initially old face looked to have aged again for more than ten years, and it was pale and deathly white.

Grandfather!

Su Yi cried and struggled to turn around.

Don't shout, I am fine, just a bit tired. Old Master Su Yun Tian's face leaked out a smile. He looked at Su Yi and asked, How do you feel? Is there anywhere that feels uncomfortable?

Hearing his words, Su Yi examined his body. Though his injuries were heavy, there seemed to be no big problems, rather than that there were two powerful Yuan Qi flowing through his meridians which did not seem to belong to him. It should be the doing of his grandfather.

Grandfather, I am fine now, but you should have never done this for me!

Su Yi quickly understood that his grandfathers sudden change was because of him.

On the chest area of Su Yun Tians clothes were some blood stains. This also made Su Yi realize that his grandfather should also be injured, most likely because of that hit from Wang Quan De.

Numerous feelings crept into his heart. Since young, he had always made his grandfather worry for him, now he had even made his grandfather sacrifice so much for him.

Then all is good, all is good, as long as you are fine. Grandfather is already old, I cant live for much longer anyway. But you are different, you are the future of the Su Family, you are my beloved grandson.

Hearing Su Yis words, Su Yun Tian was delighted, Su Yi was finally fine.

Grandfather.

Su Yis heart pained, he felt so guilty.

Grandson, did something happen during the past three years when you were in the Forest of Demons or did you meet some kind of opportunity? Afterward, Su Yun Tian asked. The terrifying aura which Su Yi gave out at the end of the fight yesterday and what he had felt when curing Su Yi, after these three years, Su Yi was no longer the Su Yi of the past.

Grandfather, I-

Su Yi spoke and then stopped, he knew what his grandfather wanted to ask, regarding the matter of the mysterious sphere of light in his mind, Su Yi naturally had nothing to hide in front of his grandfather.

But only after having something will others be envious of you, and with what he had experienced when he was in a coma, Su Yi felt that the mysterious sphere of light in his mind was far more mysterious and complicated than what he once thought, maybe the lesser his grandfather knew, the better.

Actually, grandfather does not want to know about anything, but you have to remember, having something good would mean that others will be envious of you. No matter what, some things would be better if you keep it hidden. Before you have absolute strength, do not attract too much attention from others. The tree which is taller than the forest will be felled by the wind, you must keep this in your heart. Su Yun Tian thought that Su Yi did not wish to say what happened to him, so he reminded Su Yi earnestly.

[T.N note: the tree which is taller than the forest will be felled by the wind means that the person who has something precious or is a lot better than everyone else, will be the target of envy and criticism]

Grandson understands, I will take note of this!

Su Yi looked at his grandfather who seemed to have aged more than ten years overnight, his eyes became moist. Everything was because of him. He said, Grandfather, there will be a day that I will become one of the strongest and find a strong elixir for Grandfather to extend your life and increase your cultivation. My talent is better than what people called the errand boys talent. I will substantiate it with my actions!

Hahahaha!

Su Yun Tian guffawed, his face may have a deathly shade of pale white, but his smile was brighter than anything else. He said, Errand boys talent, could a person with the talent of an errand boy be a match for a disciple from Sacred Mountain with cultivation level of the Peak of the Yuan Soul Realm Ninth Grade with only Yuan Soul Realm First Grade? Curse that person, how could my grandson, Su Yun Tians grandson, only have the talent of a piece of trash! I always knew that my grandson could never be a piece of trash!

Grandfather, how is Ji Chao, did I lose? Su Yi asked worriedly. He had fallen unconscious and did not know what happened to Ji Chao, was he the one that lost?

That kid is nowhere better than you, he had also fallen unconscious, there was no victor. Su Yun Tian was ecstatic. After his check, he could be more and more assured that his grandson was more than what they called the talent of an errand boy.

Father!

Old Master!

Hearing Old Master Su Yun Tians loud laughter, Su Jing Ting and Su Wan Er who had been standing guard outside the door had been alerted and rushed in.

Brother!

Seeing the conscious Su Yi, Wan Er was delighted. But seeing Su Yis pale face, her heart still pained and was full of worry.

Father, you-

When Su Jing Ting saw Su Yun Tians state, he got shocked. This was what he was most worried about.

Okay, let Su Yi recover on his own properly. No one is allowed to disturb him. Su Yun Tian cut Su Jing Tings words short and got off the bed. He threw a white jade bottle to Su Yis side, and told Su Yi, Here are some Yuan Spirit Elixirs, take them and recover quickly.

Patting Su Yis shoulders, Old Master Su Yun Tian was delighted, but one can see that his old body looked very unstable when he got up. He must be in a very weak state.

Su Jing Ting supported the Old Master, his face solemn and left the room.

Brother, it is good that you are okay. You had scared the daylights out of me this time! Su Wan Er looked at Su Yi, her eyes bloodshot. She had not slept for an entire night due to being worried. Now she could be slightly more at ease.

Of course, I would be fine. You should quickly go and rest. Su Yi shifted his gaze from his grandfathers back to Su Wan Er. It was not hard for him to see that this girl had not slept for the entire night. Although a cultivator would have no problems, Wan Er was only a normal human, and with her being worried all night long, it would be hard for her to bear all these.

Okay Brother, you should also hurry up and heal your wounds, you must recover quickly!

Wan Er nodded and left. She knew that her brother needed to heal his wounds and Old Master also had left his instructions already.

When she walked to the door, Wan Er smiled slightly, turned her head, faced Su Yi and said, Brother, in my heart, no one can compare to you! You are the best and the strongest in Wan Er's heart!

Finishing her words, Wan Er closed the door and left.

#### Chapter 34: Elixirs

Su Yi grinned but the moment Su Wan Er shut the doors, the expression on Su Yi's face also disappeared straight away.

Strength, I have to become stronger, I need more strength!

Both his hands clenched. Just today, Su Yi could feel the reality of the situation on how important strength was in the world.

If he had enough strength, when would it ever be Sacred Mountains turn to throw their weight around and bully others?

If he had enough strength, how would his Uncle and Grandfather be injured?

Facing Sacred Mountain, Su Yi understood that if Wang Quan De really fought with his grandfather, his grandfather Su Yun Tian would most likely lose in the end.

He could only watch with his eyes wide open while his grandfather falls, unable to do anything.

And now, his grandfather was heavily injured. He had sacrificed so much for him.

Su Yi swore in his heart, he could not allow things to go on like this. He must become stronger as soon as possible, he could not allow anyone to harm his loved ones!

Supreme Chaotic Yuan technique, that mysterious sphere of light, what origins do they have?

Su Yi mumbled to himself. Whether or not he could become strong may be all down to the Supreme Chaotic Yuan Technique.

Originally, it was hard for him to hold out against Ji Chaos final attack back then, but somehow, a strange power burst out from that mysterious sphere of light, which caused his final move Overlords Fist to be like how it had been engraved in his mind.

Su Yi could still remember clearly the feeling when he had used Overlords Fist, it felt like all his meridians and internal organs in his body were bursting, pushing all the Yuan Qi from the whirlpool of Yuan Qi in the Dantian into a single fist. It felt like it triggered some sort of mysterious power of the heaven and earth. That aura was overwhelming and fierce, majestic yet destructive.

At that instance, Su Yi felt that he was a supreme emperor who did not tolerate any provocations. He must destroy anything and everything that dares to challenge his authority.

After he fell unconscious, within that horrifying scene, where it seemed that faint figures of colossal beasts filled the universe, that powerful figure which stood fast like a god or a Buddha, shocking the hearts of all.

Recalling about it now, it was all like a dream.

But Su Yi was very clear that it was definitely not a dream.

In that space where colossal beasts were everywhere, there's also the azure dragon, white tiger, vermilion bird and black turtle, the four sacred beasts.

[T.N: The azure dragon, white tiger, vermilion bird and the black turtle are the four mythological symbols of China]

All of that was too shocking, even if he told someone, no one would believe it.

After he went into the coma, within that blazing hot aura, Su Yi knew very well that another huge piece of information appeared in his mind.

That was the complete Supreme Chaotic Yuan Technique.

The Supreme Chaotic Yuan Technique came from that mysterious sphere of light, and Overlords Fist came from the Supreme Chaotic Yuan Technique.

Su Yi was deep in thought. From the fight between him and Ji Chao, who had come from Sacred Mountain, he could be more certain that the Supreme Chaotic Yuan Technique which he had received from the mysterious sphere of light was something extraordinary.

Looks like all hopes of him becoming strong were on the Supreme Chaotic Yuan Technique now.

Recover and gain insights from the Supreme Chaotic Yuan Technique!

Su Yi made a decision in his heart. For now, the most important thing was to recover.

After examining everything in his body, Su Yi realized that although his injuries looked bad, his physical body did not have anything too serious.

This was all due to the forging of his body for the last three years.

He did not suffer an inhumane life for the past three years in vain. This also proved how strong the Supreme Chaotic Yuan Technique was.

Whatever General Grade Talent and King Grade Talent, Su Yi did not care about any of those now. For there's no talent that could match up to the arduous training of that his body had gone through.

Elixirs!

Su Yi picked up the jade bottle beside him. It had been left behind by his grandfather before he left.

Su Yi did not feel that elixirs were unfamiliar because he could not cultivate back then, his grandfather had made him eat many types of random stuff, but the expensive elixirs were in the end, all wasted on him. He still could not store any Yuan Qi.

But Su Yi was very interested in the alchemists who could concoct elixirs. If he was able to concoct elixirs, that would definitely be a great thing!

But from what Su Yi knew, those who could concoct elixirs were way too rare. Anyone of them was like a feather of a phoenix or a horn of a qilin. They were all fought amongst the various great powers to become distinguished guests.

In the entire city, from what he heard, it seems that there was only the Liu Family's alchemist.

Su Yi still remembered back when he could not store any Yuan Qi, his grandfather, Old Master Su Yun Tian had even gone to the Liu Estate personally, paid a heavy price to invite the alchemist for him to take a look at his condition to no success.

Opening the jade bottle, Su Yi took out three elixirs. All of them around the size of a thumb, giving off a thick medicinal smell, enticing ones saliva.

Yuan Spirit Elixir. Su Yi recognized the elixirs in the jade bottle, it was a type of healing elixir.

From what Su Yi knew about this world, the elixirs were ranked into seven grades: Heavenly Grade, Earth Grade, Xuan Grade, Yellow Grade, Star Grade, Mirage Grade, Moon Grade. Every grade was also separated into three levels: Beginning Level, Middle Level, and High Level pills.

Rumours have it that for elixirs of the Xuan Grade, you just have to take one of them and you will be able to become significantly stronger.

Yuan Spirit Elixir, although it barely eligible to be called a Moon Grade Beginning Level Elixir, its price was already unaffordable for normal people.

Looking at the elixir in his hand, Su Yi knew that after he consumes it, there will be some effects.

But since his injuries had almost been fully healed, after thinking a while, Su Yi decided not to consume these Yuan Spirit elixirs and just recover by cultivating.

These elixirs are not cheap. Once I have the chance, I will return these elixirs to grandfather.

These expensive elixirs, Su Yi knew that bringing them about was not a smart thing to do. While his injuries had almost been fully healed, he had used too much Yuan Qi and needed to recover them as soon as possible.

Su Yi knew where he could recover with the fastest speed, but he did not have the strength to go outdoors now.

Anyways, this was the Su Estate and his grandfather had already instructed that no one was allowed to disturb him.

After thinking a while, Su Yi started to form a hand seal and sat on his bed with his legs crossed, strange and complex hand seals started to form one after another.

And as soon as Su Yi completed his series of hand seals, a faint light fluctuated in between his eyebrows, like a rippling heavenly light. It spread through his entire body and enclosed him in an instant.

Blinding light expanded, covering the entire room. Luckily it was broad daylight, which made it harder for people outside to find anything strange.

In the room, once everything had cleared up, Su Yi was already in a mysterious space.

Eh? What happened here?!

When Su Yi appeared in this space, he took a 180-degree turn, the space which was originally around 10 meters in radius had now increased by three times to around 30 meters in radius due to some reason.

Not only has this space expanded, even the energy in this space was getting thicker and thicker, making the surroundings blurry and gave off a faint glow.

What happened?

Su Yi was shocked. This space had suddenly expanded so much and the energy inside was also so thick to the point of it being scary.

### Chapter 35: Chaotic Yuan Demonic Body

Was it-

Suddenly, Su Yi recalled something.

Yesterday, when he was taking the test at the plaza, somehow the mysterious sphere of light reacted like it was engulfing the Yuan Testing Stone, causing it to become dust in the end.

Has the sphere of light absorbed the energy in the Yuan Testing Stone and caused the space to enlarge and the energy here to become even more abundant than before?

Su Yi pondered, other than this reason he really could not think of any other reasons.

But no matter what, it was a good thing.

Being in the Forest of Demons for three years, he had been seriously injured for who knows how many times and in the end he always had to enter this space to be able to recover.

And Su Yi understood the changes of this mysterious space would make his speed of recovery to be even faster than before.

These Yuan Spirit Elixirs aren't needed anymore. Su Yi smiled, put away the jade bottle to the side and then sat down with his legs crossed. He initiated the Supreme Chaotic Yuan Technique and began to control his breathing.

In this space, Su Yi began to ponder about the complete Supreme Chaotic Yuan Technique which he had received.

Time gradually passed, and from who knows when, Su Yi's body was shrouded in a dazzling light, assimilating with this mysterious space.

Now the abundant energy in this space was a bit too much.

As Su Yi used the Supreme Chaotic Yuan Technique, there were movements of energy in the space and they slowly flowed into his body.

I really did not think that he would be awakened so fast, well and right.

Within the depths of the Liu Estate, Wang Quan De had a look of astonishment in his eyes but it turned into coldness immediately.

Su Yi had also woken up, looks like it really isn't clear who won between Ji Chao and him.

What happened in the past three years, Su Yi seems to be nothing like he was back then!

The various big families and powers received the news and were surprised.

In the Su Estate, due to the Old Masters order, no one was able to go near Su Yi by even half a step.

Hence even after knowing Su Yi had woken up, no one dared to go to where Su Yi was.

And this suited Su Yi perfectly. Currently, in that mysterious space, the light which had enveloped Su Yi's body was growing brighter and brighter. His originally pale face now already had some color on it.

Pitter-patter

Inside Su Yi, the Yuan Qi flowed along his meridians giving off the sound of trembling water.

If there was someone else there, he would be shocked immediately.

How thick and powerful does the Yuan Qi have to be and how wide must the meridians be to give out sounds of trembling water.

Inside the whirlpool of Yuan Qi in his Dantian, Su Yi's Yuan Qi which had neared complete exhaustion was now being filled up again.

While Su Yun Tian had left quite a bit of Yuan Qi in Su Yi's body, those Yuan Qi was originally just flowing around in Su Yi's meridians.

But now that Su Yi had used the Supreme Chaotic Yuan Technique, those Yuan Qi flowed together with the energy from this space, also becoming Su Yi's own Yuan Qi.

With the abundant energy in his mysterious space, Su Yi's recovery speed was unthinkable.

Father, the people from Sacred Mountain are here to bring Su Yi back to Sacred Mountain, what do you think? Su Estate, Su Yun Tian's quarters. In the peaceful yard, Su Jing Ting hurried over into the room, his face slightly serious.

Have Su Yi go to Sacred Mountain.

Su Yun Tian contemplated and after a moment he asked Su Jing Ting, Jing Ting, what is your opinion?

Su Yi had offended that Wang Quan De and a grudge has been formed with Ji Chao. If he enters Sacred Mountain, it would only be a matter of time before someone would use underhanded tactics on him.

Su Jing Ting seems to have his worries since long ago. His eyebrows furrowed slightly and said to Su Yun Tian, Furthermore with Liu Ruoxi's position in Sacred Mountain, if Su Yi goes there, I am afraid there would be even more trouble, this isn't something which the Su Family can mix in.

I am not afraid of the underhanded tactics. Since young, who have been able to plot against Su Yi. Su Yi has even survived three years in the Forest of Demons. A smile crept up Su Yun Tian's pale face, he was very happy.

Hearing the Old Master's words, Su Jing Ting felt a bit helpless and did not know whether to cry or laugh.

Indeed, when talking about sly tricks and underhanded methods, from young till now, Su Yi would be an expert in this field. But these tricks should not worry the people at Sacred Mountain.

But, your concerns are correct, if Su Yi goes to Sacred Mountain now, it may not be a good thing. Su Yun Tian became worried afterward, his eyes slightly still.

Then father's intentions are to prevent Su Yi from entering Sacred Mountain? Su Jing Ting raised his eyebrows and asked.

No.

Old Master Su Yun Tian shook his head and said to Su Jing Ting, The decision made three years ago was not wrong, then let us just continue to have Su Yi decide for himself when the time comes.

In the mysterious space, energy was abundant.

When Su Yi halted his hand seal, the aura around his body calmed. After opening his eyes, his already radiant face was full of shock, like he had learned something unimaginable.

So, this is the completed Supreme Chaotic Yuan Technique!

Su Yi only broke out of his daze after a long time. He understood now what was the completed Supreme Chaotic Yuan Technique.

After he had fallen unconscious yesterday, he had received a huge amount of information within that dreamlike space, that was the complete Supreme Chaotic Yuan Technique.

Su Yi had been learning the technique just now when he was recovering from his injuries.

The technique was not your average strong technique. Su Yi knew that the forging of his physical body during the past three years was only the First Level, it was the Chaotic Yuan Demonic Body of the Supreme Chaotic Yuan Technique.

The Chaotic Yuan Demonic Body has seven levels in total, the first level was Indestructible Vajra Body, the second level was Heavenly Yuan Demonic Soul.

The first level, Indestructible Vajra Body, as Su Yi understood it, it was the cultivation of the physical body.

The second level, Heavenly Yuan Demonic Soul seemed to be the cultivation of the soul.

But from the third level up, Su Yi still could not understand them, their names were also weird.

And Overlords Fist also did exist in the Supreme Chaotic Yuan Technique. It seemed to be a martial arts technique of the Supreme Chaotic Yuan Technique.

While recovering, Su Yi found out about another martial arts technique from the Supreme Chaotic Yuan Technique, the name was Wrath of the Eight Wastelands.

[T.N: -Wrath of the Eight Wastelands. (Eight Wastelands) actually meant the furthest lands from the Central Plains of China in the eight directions. North, South, East, West, Northeast, Northwest, Southeast and Southwest directions. A more appropriate meaning would be Wrath of All Under the Heaven but Wrath of the Eight Wastelands sounds better to me]

I am rich, hehe.

Su Yi grinned. He knew very well what he had just received. The Supreme Chaotic Yuan Technique was no doubt better than whatever technique Ji Chao cultivated at Sacred Mountain. Just that move, Overlords Fist, was terrifying enough. And he had already cultivated his physical body for three years just to step into the first level of the Chaotic Yuan Demonic Body.

Regarding how strong his physical body was, Su Yi knew firmly in his heart. If not, he would never go head-to-head with Ji Chaos cultivation level of Peak Yuan Soul Realm Ninth Grade.

But this was still the power of only the first level of the Chaotic Yuan Demonic Body. If this was cultivated all the way to the seventh level, how would it be then, Su Yi dared not imagine, but just thinking about it filled him with anticipation.

I seem fine now.

Feeling within his body that though the Yuan Qi whirlpool in his Dantian was not so full that it was at its limit, it could be considered abundant. The injuries on his body had also almost fully healed.

Being able to recover so fast, Su Yi knew that all of this had to do with the mysterious space and also with the Supreme Chaotic Yuan Technique.

Its still not too safe, I better go out first.

After all, he was still in the Su Estate, Su Yi did not dare be in this mysterious space for too long. Picking up the jade bottle beside him which contained Yuan Spirit Elixirs, he then immediately kept this space.

### Chapter 36: Decision

When Su Yi left the mysterious space, the rays of the setting sun shone within the room from outside the window.

Su Yi walked out of his room. When he saw who waiting outside, he inhaled deeply.

Brother. Wan Er had stood guard outside the door the entire time. Though she saw light radiating from the room, she did not disturb Su Yi. Now that she saw Su Yi did not have any more heavy injuries and his face had regained some color, she was ecstatic.

Silly girl, go rest already. Once Su Yi saw Wan Er, he knew that Wan Er had stood guard outside the door the entire time and did not have any rest. Both her eyes were bloodshot which showed that this girl had not rested for almost two days and one night and this pained Su Yis heart.

I am fine. As long as brother is fine then all is well. Wan Er smiled. A smile that could move peoples hearts, and then said, The Head of the House had come by, he seemed to have something to discuss with you. He said to go look for him after you have woken up.

Uncle?

Su Yis eyebrow raised slightly.

Since young, Su Yi was not sure of how he felt about his Uncle.

Since young, in Su Yis memories, this Uncle was very, very strict and Su Yi had even been severely punished several times by him when he was young due to his mischievous prank nature.

Even three years ago, his exile to the Forest of Demons, this Uncle was also the first to raise his hand in agreement.

Honestly, in his heart, Su Yi had more or less distanced himself from him.

So, back then even when he was in front of his Uncle, him not holding anything back against Su Jiao and Su Wei was also partially because of this.

When Su Yi arrived in the Inner Courtyard to see Su Jing Ting, the sky was already gradually darkening into the night.

How are your injuries? Looking at Su Yi, Su Jing Ting could not help but be slightly surprised. From Su Yis aura, Su Yi seemed to have almost fully recovered. Wasnt this recovery speed a bit too fast?

Not much left. Su Yi shrugged. Yesterday at the plaza, this Uncle was directly standing in front of him to protect him, his heart felt a little grateful for that.

Sacred Mountain had sent people over. You have withstood two blows from Ji Chao, they can make an exception and bring you to Sacred Mountain. If you want to go, you would have to set off tomorrow morning. If you do not want to go, then you need not take notice of this. Holding in his surprise, Su Jing Ting said to Su Yi, his eyes constantly observing for Su Yi's reaction on his face.

Sacred Mountain.

Su Yi was also slightly surprised, that Wang Quan De allowed him to go to Sacred Mountain, it was almost certain that there aren't any good intentions there.

In his mind, Su Yi felt conflicted. He already had no intention to go to Sacred Mountain, and he also had no good feelings about Sacred Mountain.

Su Jing Ting looked at Su Yi and said slowly, Some things you must decide yourself. You are part of the bloodline of the Su Family, you are a part of the Su Family. The Old Master had traded blows with Wang Quan De yesterday and had already received internal injuries. He has been forcing himself to hang in there last night, even helping to heal you without a care for anything else, adding an injury to another injury. In the best-case scenario, it would be hard for him to improve any further. If it was the worst-case scenario-

His voice stopped for a moment, Su Jing Ting looked at Su Yi straight in the eyes and said deeply, Worst-case scenario, I am afraid that the Old Master would only be able to hang on for a few more years. Everything was due to this mess!

Is what you are saying real!

Su Yi stared intensely at Su Jing Ting, both his fists clenched tightly.

Though he knew his grandfather had sacrificed so much for him, Su Yi had never thought the consequences would be so severe.

Do you really think I would joke with you about this?!

Su Jing Ting stared at Su Yi and said with a low voice.

Su Yi did not say anything, both his fists tightly clenched. His nails had already dug into his flesh, but it was as though he could not feel any pain.

Whether you are going to Sacred Mountain or not, you decide for yourself. But remember that, if you were to go to Sacred Mountain, the days ahead will not be easy, now go Su Jing Ting waved his sleeve.

Su Yi's eyes were bloodshot and left slowly.

It was already deep in the night. The torches of the Su Estate shone brightly.

Young Master Su Yi!

On the way back, the attitudes of the guards and servants of the Su Family turned 180 degrees. They were very polite and respectful.

Su Yi nodded, his thoughts were not clear and unknowingly he had arrived outside his grandfather's yard.

Seeing the peaceful yard under the shroud of the black night, Su Yi halted.

Adding one injury to another, maybe grandfather is still recovering.

If not for myself, grandfather would never have traded blows with Wang Quan De and would have no need to help me heal my injuries. If it was as Uncle said, Even in the best case scenario, grandfather would not be able to improve anymore, or worse, he would only have a few more years to live.

Grandfather.

Su Yi mumbled. If it was really like that, then how could he face his grandfather?

Su Yi was filled with guilt and self-blame. If time could rewind, who cares about any errand boys talent, why should he care so much about it and why should he remind the Liu Family about some engagement. If he didnt do all those things, everything would be different now.

But time could not rewind, nor there was a medicine for regret in this world, Su Yi knew this in his heart.

I need to become strong, then one day, I will find the elixirs in the legends. I will also heal grandfather completely and have grandfathers cultivation improve again!

After a while, Su Yi raised his eyes and gazed at the bright moon hanging in the sky. His eyes shone, filled with resolution.

Facing the yard, Su Yi kneeled on both knees and respectfully kowtowed three times, then he turned and left. His figure vanished in the curtain of the night.

This child.

The room in the yard, a window slightly opened. Su Yun Tian gazed at the back of the thin figure who was walking away through the tiny gap. The figure was unusually upright under the gentle light of the moon. A smile appeared on his face.

This night, the City of Man was very lively, especially in the various big families.

The Song Family, He Family and more. Next morning they would have people able to leave for Sacred Mountain. To these families, it was definitely a huge event and naturally, the various expectations and reminders would also be present.

Early morning, the darkness before the dawn had just passed.

Whoo

Su Yi who was on the bed stopped his breathing and exhaled deeply. His face was rosier than before like before he was injured.

You are going to Sacred Mountain?

After a moment, when Wan Er brought breakfast to Su Yis room and knew that Su Yi had decided to go to Sacred Mountain, she was so shocked that her mouth was agape.

Thats right, I will go to Sacred Mountain. Best-case scenario, it would be only for one or two years, and even at worst it would only take three or four years and I would return home. Remember to take care of yourself when you are in the Su Estate. Su Yi caressed Wan Ers head. Grandfathers injuries

are very serious, I must become strong fast and help grandfather search for the legendary high-grade elixirs.

But Brother, if you go to Sacred Mountain, those people will definitely not be kind to you. Wan Er had heard about the situation at the plaza during the test and Liu Ruoxi was still at Sacred Mountain, and now that Su Yi wanted to go to Sacred Mountain, she could not help but worry.

Rest assured, it is nothing special. Su Yi grinned at Wan Er. Even after thinking carefully, although he knew that once he entered Sacred Mountain, there would be many troubles coming his way, his heart was firm. That Wang Quan De and Ji Chao alone are already going to make life hard for him, why should he care whether or not the entire Sacred Mountain would make it harder? For Su Yi really need to increase his strength as soon as possible

## Chapter 37

From the current situation, apart from going to Sacred Mountain, there was nothing better which he can do to increase his strength.

If I can become significantly stronger soon, maybe Ill have a better chance of obtaining high-grade elixir at Sacred Mountain. So what if I go to Sacred Mountain. I have already survived alone for three years in that Forest of Demons, there is nothing to fear, thought Su Yi

Brother Wan Er was still worried.

Wait for me to return. If in the future there is someone in the Su Family which bullies you, then go and look for Fatty Wang, he is trustworthy and reliable. Su Yi interrupted Wan Er.

Wan Er was very worried, to the point of almost crying, but she still hurried Su Yi to finish his breakfast and then quickly packed for Su Yi.

When Su Yi reached the main gate of the Su Estate, Su Jing Ting, many elders and people of the Su Family were already waiting.

When they saw Su Yi, the looks in their eyes were filled with shock. Su Jing Ting was also not an exception. He was very surprised. He could see that Su Yis injuries were even better by a lot compared to last night.

But Su Jing Tings surprise left no traces and he regained his calm in a flash.

Rather, it was Su Weis gaze which was had many emotions, and at the same time, hostility.

Especially after seeing that Su Yi seemed to be fine already, his expression was even uglier. His injury the day before yesterday had not seen any recovery, but this kid has actually almost fully recovered.

I have decided to go to Sacred Mountain, but can I ask Uncle for a favor? Su Yi walked in front of Su Jing Ting and said seriously.

What is it? Su Jing Ting was slightly stunned. Ever since young, this kid had never spoken like this to him.

Wan Er is forever my, Su Yis sister, and I hope that after I go to Sacred Mountain, she will still be my sister!

Su Yi said to Su Jing Ting. The only thing he was worried about was that little girl, Wan Er. she does not know how to cultivate and was just a normal person.

Back when Su Yi himself was unable to cultivate, he did not pay much attention to Wan Er. Su Yi was still thinking that after he stepped into the higher realms, he would definitely think of a way for Wan Er to become a cultivator.

If it was like this then at least in the future Wan Er would have some ability to protect herself.

Su Jing Ting looked at Su Yi and after a few moments, he raised his eyes and shouted to everyone in the surroundings, Everyone! Listen up! Su Wan Er is the Young Lady of the Su Family from today onwards!

Yes, Head of the House!

The guards and servants in the surroundings found nothing strange about this. This matter had long since spread around the house.

Rather it was the elders and members of the family which were a bit surprised. The Head of the House had actually spoken about this personally.

Are you satisfied? Su Jing Ting asked Su Yi.

Thank you very much, Uncle. Su Yi nodded.

Go, there is not much time left. Su Jing Ting said.

On the vast plaza in front of the main gate of the Liu Estate, there was a huge beast around 30 meters in length, both wings folded. The bright feathers on its entire body had a luster on it, elegant like a statue yet at the same time, giving off a dangerous and powerful aura.

This should be a demonic beast, so strong!

This is the mount of Sacred Mountain. That day I saw it myself that the people from Sacred Mountain rode on this demonic beast here!

This kind of mount should be already in the Demonic Xuan Realm!

I think it should least be in Demonic Spirit Realm!

Outside the main gate of the Liu Family, there were quite a few spectators. Looking at such a huge beast, they were in awe of it.

When Su Yi and Su Wei were brought by Su Jing Ting and several other High Elders of the Su Family to the Liu Estate, the He Family, Song Family, the Mo Family, and so on so forth had also arrived.

Everyones eyes were on Su Yi with a rosy face. He looked nothing like someone who had been seriously injured the day before yesterday and could not help but be astounded.

When He San, Song Wu Qiu, and Mo Bu Fan saw Su Yi, they looked like they had no intentions to kill Su Yi.

Instead, the fight between Ji Chao and Su Yi that day still left a lingering fear in their hearts. They rejoiced that they did not fight Su Yi or else their outcomes would be absolutely worse.

Now looking at Su Yi, Song Wu Qiu, He San, and Mo Bu Fan were also a lot friendlier. At least this jinx had won some face over for the city the day before yesterday. They were also not pleased with Ji Chaos arrogance.

Is my good nephew fine now?

Mo Lai, He Yi Kuan, and Song Ming saw Su Yi and went forward to greet him very politely, but in their hearts, they wanted to take a look at Su Yi carefully, the injuries from that day were so serious that he fell into a coma, did he really recover so fast?

Thank you for uncles concern. Those were only superficial injuries, I am already fine now. Su Yi nodded and smiled.

This is way too incredible!

Seeing that Su Yi had really almost recovered completely, they were speechless.

Su Yi, Su Yi

There was a cry and Su Yi turned his head, searching for the source of the cry. A familiar fatty appeared in front of him, it was Wang Shang Wu, Fatty Wang.

Are you also going to Sacred Mountain? Fatty Wang squeezed out of the crowd. Looking at Su Yi preparing to go to Sacred Mountain, he was very surprised.

The day before yesterday he had completely offended the people from Sacred Mountain. If he went to Sacred Mountain wasnt he just asking for torture?

Of course. Su Yi smiled.

Then you best watch out. Fatty Wang was helpless. Looking at Su Yi he smiled bitterly and was also delighted, he said, I went to the Su Estate yesterday, but they said you were still recovering so I couldnt enter, but seeing how you look now, it is good that you are fine.

Su Yi patted Fatty Wang shoulder. About this good friend of his who had accompanied him from his childhood, he knew in his heart very well. He smiled gently and asked, Can you help me out with something?

Do you want to lend money, I only have so much on me, you should take them all. Fatty Wang did not say a second word and took out his purse. In the past when Su Yi asked him for help, most of the time it was to lend money.

This reaction may seem ordinary, but it warmed Su Yis heart.

It is not about lending money, I hope that you can take care of Wan Er for me like a biological sister, can you do it? Su Yi looked at Fatty Wang and asked without any hints of joking.

No worries, I will take care of her as if she is your wife. Fatty Wang looked at Su Yi and nodded seriously.

Su Yi rolled his eyes and glanced at Fatty Wang, he did not talk back, but said, Fatty Wang, one day if I were to become strong, you are still my brother, my best brother in my life!

This-

Fatty Wang couldn't believe that Su Yi could become strong at first, but his performance that day on the plaza had him starting to believe, he said grinning, Relax, whether or not you become strong, you will always be my brother.

Of course, Fatty Wang wouldn't know that because of this sentence, in the future, when Fatty Wang was insulted, Su Yi commanded a vast army and led a group of experts. In his rage, slaughtered three major sects, shocking the entire continent, but this was to be talked about at a later date.

Excellent!

Su Yi grinned and patted Fatty Wang's shoulder.

When you go to Sacred Mountain, be careful of Liu Ruoxi and also, that Ji Chao would also make life difficult for you, you have to be careful. Fatty Wang poked his head forward and whispered into Su Yi's ear.

Su Yi did not say anything but at this moment, his heart felt warm, very warm.

Chapter 38: Passing through the Forest of Demons

Dharma Protector Wang.

Outside of the Liu Estate, Dharma Protector Wang and Liu Zong Yuan walked out. The various families that had gathered, all welcomed them heartily, hoping that Wang Quan De would take care of the people from their family.

Wang Quan De stood outside the main gate of the Liu Estate. Crowded by everyone, he smiled, although his eyes seemed to be searching for someone in the crowd, and only after they landed on Su Yi did he regain his calmness.

Get on. Sit in the middle and gently grab onto the feathers on its back.

Some experts from Sacred Mountain had Liu Yanni, He San and Mo Bu Fan jump onto the beast.

You should go, I will take care of Wan Er as if she was my own sister. Fatty Wang said to Su Yi.

Su Yi waved his hands, looking very free and easy. He went in front of the beast and jumped onto it like He San and Song Wu Qiu.

This beast should already be very strong!

Su Yi sat on the beast. Feeling the strong aura emanating from this beast, he fell into deep thought.

Inside the Forest of Demons, though there were uncountable beasts, being able to tame such a mighty beast to become a mount was enough to prove that Sacred Mountain was not mediocre.

One day, if I am able to tame a stronger beast to become my mount, it should be quite cool. Su Yi mumbled in his heart.

Whoosh!

As Su Yi was mumbling in his heart, the few arrogant youths from Sacred Mountain gathered Yuan Qi in their feet, and with a flashing light, they landed on the back of the mount elegantly and easily together. Facing He San, Liu Yanni and the rest, they all had an air of arrogance around them.

But when these disciples of Sacred Mountain saw Su Yi, their arrogant faces could not help but cramp up slightly.

Especially when they saw how Su Yi seemed to be totally fine. His face was already rosy and his expression calm, they were flabbergasted.

You have to know that even when Ji Chao had consumed a lot of elixirs from Sacred Mountain, he had only recovered slightly.

Ji Chao was also on the mount currently. When he saw Su Yi, his expression was very complex, his hostility not at all hidden.

A young lady, around 16-17 years old, whether it was intentionally or unintentionally stood beside Su Yi. Her gaze fell on Su Yi's body, a trace of a smile can be found on her face.

Su Yi looked back at the girl, her soft lips as red as cherries, her eyebrows seemed to be from a painting. A young age of only 16-17 years old, but her beauty was already outstanding, especially those thin, long legs and the high rise on her chest, that thin and delicate waist outlined a body line that would move the hearts of people, making them unable to resist glancing at her twice.

Have we met somewhere in the past? Why are you looking at me like that? Su Yi remembered this lady. She was a disciple of Sacred Mountain. She was smiling at him, but Su Yi had no idea who she was.

I do not know you, but I have heard of you.

The lady gently smiled. Looking at Su Yi she said, I am called Li Ling, if there is a chance in the future, you can also call me Senior.

Then let's leave that in the future. Su Yi slightly curled his lips. It is better to distance myself from these people of Sacred Mountain, thought Su Yi. Just by having a small conversation with Li Ling, the rest of the disciples from Sacred Mountain were already glaring at him scornfully.

Farewell, everyone.

Wang Quan De jumped onto the mount, smiling as he bid farewell with Liu Zong Yuan and the rest. He moved his arm and with the unknown signal received by the beast, it suddenly roared, stretched its wings and rose into the air.

**ROAR!!!!**

The beast roared, extended its wings and flew. Its body covered with luscious feathers. A strong aura moved and as it flapped its wings the air current was like a tornado as it shot off into the air.

On the back of the beast, Su Yi's body shook as he held on tight onto the feathers of the beast.

The humongous beast extended its wings, looking fiercer than ever as it flew off into the air.

This commotion shook the entire city. Those who lifted their heads were full of jealousy.

Everyone knew that once you enter Sacred Mountain, you will be considered as the strong, even the weakest could become the highest authority in an area.

The beasts soared across the sky swiftly.

Su Yi's robe fluttered in the wind. He could hear the roaring of the air current around him, slamming into his face until it hurt. Only after a while did he gradually get used to it.

From the City of Man to Sacred Mountain, with the speed of Cloud-Piercing Wolf Eagle, we would be able to reach in ten days time. In the middle of the journey, we will be passing through the most dangerous corner of the Forest of Demons and Domain of Chaos. Though for us, Sacred Mountain, we should be relatively safer. Whether its the beast from Forest of Demons or the people from the Domain of Chaos, they would not dare to do anything in front of Sacred Mountain. On the back of the beast, Wang Quan De told everyone. Speaking about Sacred Mountain, a look of pride shown on his face.

Whether it be the Forest of Demons or the Domain of Chaos, in front of Sacred Mountain, none of them would dare to do anything. They did not dare offend Sacred Mountain.

Only being able to arrive after ten days, huh?

Su Yi raised his eyebrow. This so-called Cloud-Piercing Wolf Eagle, its speed was extremely fast, probably able to travel several thousand kilometers in a single day without any problems. But only being able to arrive after ten days, this distance was not your usual one.

Everyone should rest up.

Wang Quan De said these words. His eyes swept over Su Yi, and then he sat while crossing his legs at the front of the beast, no longer bothering with the rest.

ROAR!!!

As the Cloud-Piercing Wolf Eagle was soaring through the air, there was an occasional deafening roar.

Everyone began to sit down with their legs crossed and started meditating.

The ten days of time may not be short, but to cultivators, it was not long as well.

The Cloud-Piercing Wolf Eagle could not fly day and night without rest either, every day and night it also had to rest two times.

On the beast, Su Yi sat for three days and was also meditating while performing the Supreme Chaotic Yuan Technique, gaining insights in his mind about the entire Supreme Chaotic Yuan Technique.

Now we are in the Forest of Demons, there are many different types of beasts here and even powerful beasts. Everyone should be careful. Do not be careless. After three days, within a mountain ridge, Wang Quan De told everyone, After resting for four hours, we shall continue on our journey.

Su Yi leaped off the beast and stretched his body. Three days after performing the Supreme Chaotic Yuan Technique, he had already long recovered completely.

I think that when you arrive at Sacred Mountain, many people will be interested in you. Li Ling walked past Su Yi, gently smiling. Her smile absolutely charming.

Mountains continued as far as the eye could see and mountain peaks high above the clouds.

Growl!

Within the depths of the mountains, from time to time there would be low roars of beasts.

Within a valley, there were tens of figures standing together, all of them had an air of blood around them like it was visible yet not. This air of bloodlust would be hard to exist if not for constant killing all year round.

Leader, I saw people riding a Cloud-Piercing Wolf Eagle as a mount, their background should not be simple, should we do this job?

In a valley, a fit man around thirty years old, looking sharp and clever, but having an air of ferociousness around him, asked his leader, a middle-aged man wearing short clothes, looking around forty years old.

### Chapter 39: Mercenary Group

The middle-aged man wore short clothes and had an average physique. His wide face and two eyes beamed with spirit. He looked like he was contemplating something and asked, How many of them were there? Did you see clearly where they are from?

I do not know where they are from, but there are quite a few newbies. Those who have some ability should not be too many. I guess it should be some sect which sent their disciples here for some experience. The intelligent looking man glanced at the middle-aged man and said, Leader, this is a big chance for us! Those who can ride a Cloud-Piercing Wolf Eagle must have some treasure on them. We have already come out for half a month and there have not been many results. We cannot afford to miss this chance.

The middle-aged man was pondering. Those who could ride a Cloud-Piercing Wolf Eagle, their background must not be simple. If they were unable to eat them completely, there would be a lot of trouble in the future.

Leader, rewards are found through risks. Those who brought out newbies to train, they should not be too strong, or else they wouldnt come to the Forest of Demons. The intelligent looking man said. He seemed to be very eager for this.

Okay, everyone ready up, lets do this!

The middle-aged man clenched his teeth and made his decision.

Forest of Demons, what a familiar feeling.

In the bottom of the valley, Su Yi stretched his body. This was a familiar place for him.

Theres something weird around though.

Looking around, Su Yi suddenly felt something strange. After three years within the Forest of Demons, this kind of feeling was way too familiar.

He consciously backed off a few steps, lending the terrain of the valley. After going near to a gigantic boulder where one could retreat and attack with ease, he examined the surroundings carefully.

Outside the valley, there was only a small path, with cliffs overseeing it, and the forest was lush with tall trees everywhere.

Su Yi frowned, if someone were to ambush them here, this would definitely be a spot to die.

But after thinking about it, Su Yi felt that such ambush wasn't too likely, there shouldn't be any sane person who would be willing to make such move against Sacred Mountain.

But Su Yi did not dare to relax, he hid himself near the boulder.

The atmosphere in the surrounding area was way too weird. There were actually no flutters and chirping of birds running away when a massive beast such as Cloud-Piercing Wolf Eagle landed. There should have been such movements unless someone had already scared them away before they had landed.

Within the valley, everyone got off the beast and stretched themselves.

The people walked around the area and started meditating with their legs crossed, waiting quietly for the beast to rest up.

The people were not the ones who were the most exhausted, it was the Cloud-Piercing Wolf Eagle.

Careful!

Suddenly, the meditating Dharma Protector Wang seemed to have discovered something, his closed eyes shot wide open and gave off a light and he stood up in a flash.

The few people from Sacred Mountain who were behind Wang Quan De also became serious and responded quickly. The few disciples from Sacred Mountain also changed their carefree attitude in a second and readied themselves.

What's the matter?!

Is there danger?!

He San, Song Wu Qiu, Mo Bu Fan and the rest all became frantic. When have they ever experienced something like this?

On the small path in front of them, there was a sudden sound of trembling. Everyone's gaze turned in that direction.

Around the valley, among the lush tall trees, there were sounds of leaves being disturbed. There was movement throughout the forest.

It's a mercenary group.

Su Yi frowned. He was very familiar with this style. This was the usual style of mercenary groups in the Forest of Demons.

Within the Forest of Demons, there were many mercenary groups. The small ones consisted of tens of people, while the large ones reached hundreds, searching for herbs, hunting beasts to obtain furs, skins and rare materials inside the forest as a way of life.

But there were also some mercenary groups who did not care much about morals. In the Forest of Demons, robbing, taking, tricking, killing, all these were usual occurrences.

In conclusion, within the Forest of Demons, strength was the law.

Swoop! Swoop!

All of a sudden, from all directions, many figures dashed out one after another. Fierce and aggressive auras filled the air. There were at least forty to fifty figures which had dashed out.

Several other figures walked out, their auras were relatively strong.

In the middle was a middle-aged man in short clothes, his aura was fierce, and his eyes were full of spirit as he stared at everyone in the valley.

The middle-aged man was looking at Wang Quan De and the rest, but when he saw the emblem on Wang Quan De and the rest of the mens robes, his expression changed.

Hehe, Leader, there are some nice girls here, this is a good haul! Beside the middle-aged man, there were people looking at Liu Yanni, Li Ling and the rest of the ladies. Their eyes shone and their faces ecstatic, lust lurked in their eyes.

Hand over all the treasures that you have, leave the women, or else we will not be polite!

Someone hollered and sneered. There is so few of them and they even brought along some newbies. How would they be a match for them? This trip was very rewarding.

You do not know your place. You dare to be so audacious in front of Sacred Mountain!

Beside Wang Quan De, the expression of the man who was in charge of testing the candidates talents a few days ago was sharp. His gaze coldly swept over the surroundings. Facing the tens of figures which had surrounded them, he did not seem to care much.

Sacred Mountain!

When these two words came out, the tens of figures who had been sneering and mocking instantly got a shock.

Those two words, Sacred Mountain, were like a hundred thousand mountains instantly crushing on everyones hearts.

The middle-aged man who was the leader panicked, his face losing all its color.

Friends from Sacred Mountain, this is all just a misunderstanding, we shall leave now!

The middle-aged man instantly changed expression and smiled. He would have never in his life imagined that the people who had arrived were actually people from Sacred Mountain.

A lowly mob dares to rob Sacred Mountain. Well since you have come, then you dont need to leave!

Wang Quan De casually swept his gaze over the figures, a cold smile formed on his face.

Hearing his words, the faces of the people from the mercenary group changed and backed off.

Friends from Sacred Mountain, this is the Forest of Demons, we did not mean to offend you, why do you need to force others? The middle-aged man in short clothes slightly furrowed his eyebrows.

It is the lot of you who do not have eyes, now you must pay the price! Wang Quan De calmly said. He did not intend to let them off.

Friend, do we really have to suffer massive losses to both sides? I do not think you will gain anything out of this.

The face of the middle-aged man grew slightly more hostile. He had been around in the Forest of Demons for a very long time. As the leader of a mercenary group, if he bent his knees to others too much, how would he be able to make others submit to him in the future?

Furthermore, with his cultivation level, even in the entire Forest of Demons, he would definitely be one of the strongest.

You overestimate yourself!

Wang Quan De sneered. Looking at the figures in the surroundings, a cold light flashed in his eyes.

Wolf Eagle, kill! When he finished his words, Wang Quan De waved his sleeve, killing intent overflowed from his eyes.

Howl! The Cloud-Piercing Wolf Eagle who had been resting in the valley suddenly roared and moved, stretching its wings. Its entire body shined and an incomparably strong aura burst through the place like a tornado in a flash.

Chapter 40: Danger Midway

Demon Spirit Realm! When the huge Cloud-Piercing Wolf Eagles aura burst out, the face of the middle-aged man in short clothes changed tremendously. A Cloud-Piercing Wolf Eagle in the Demon Spirit Realm is extremely hard to go against. Furthermore, this Cloud-Piercing Wolf Eagle seemed to be rather high in its Demon Spirit Realm cultivation.

ROAR!!! The Cloud-Piercing Wolf Eagle roared and began its merciless slaughter. Stretching its wings and roaring, creating a violent gust as it charged into the mercenary group, ripping several mercenaries to shreds instantly, splattering blood all over the ground.

This sudden turn of events made even these mercenaries, who slaughtered constantly trembled involuntarily, hairs standing on their ends.

ROAR!!! The Cloud-Piercing Wolf Eagle did not stop its attack., Its roars were deafening, resounding in the entire valley. So loud that even from a distance away, there were sounds of beasts roaring in response.

The Cloud-Piercing Wolf Eagle flapped its wings and dived again, beginning its offense once more as its sharp teeth and metallic claws ripped and tore like a killing machine.

Not good, retreat!

Its way too strong, hurry and retreat!

There were people who had already started to run away as they panicked.

You do not know your place, die! The looks in the eyes of the youths from Sacred Mountain became merciless, and they also began their attacks. Yuan Qi materialized under their feet into figures of beasts. The beasts roared and begin their attack together with the youths. All of them were Yuan Spirit Realm cultivators.

Do not panic, join hands and counterattack! hurry! The middle-aged man recovered from his shock. Being able to form a mercenary group in the Forest of Demons, other than having exceptional power, he also had experience in commanding people.

Grab those few newbies, grab more of them! The middle-aged man shouted. Although the ability of people from Sacred Mountain was not average, there were also some Yuan Spirit Realm cultivators in the mercenary group. They may be slightly lower skilled, but it was not to the point that they would throw their hands in the air and run away.

Furthermore, in this situation, if they managed to grab onto a few newbies from Sacred Mountain, then the situation should also be able to change from a dangerous one to a better one.

Everyone work together, do not panic! Hearing the shouts from the middle-aged man, the originally panicking mercenary group regained much of their discipline and order.

Leader, we will take care of this Cloud-Piercing Wolf Eagle!

Two Yuan Spirit Realm cultivators went to block the Cloud-Piercing Wolf Eagle, the remaining men of the mercenary groups locked onto the group of young men and ladies.

Measly thieves! The youths from Sacred Mountain all had cold looks in their eyes. Aura flowed around their body, weapons were drawn. Though they may be young, they were definitely not something these mercenaries could match up to.

Rather, it was He San, Mo Bu Fan, Song Wu Qiu, Liu Yanni and the rest of the young men and ladies from the City of Man who was panicking.

Courting death! Wang Quan De made his move. Yuan Qi flowed, his figure shot out. A hand seal formed and the few mercenaries that dared to charge their way were instantly blown back, landing heavily far away.

ROAR!!! The Cloud-Piercing Wolf Tiger roared, though it was being tied down by two Yuan Spirit Realm cultivators, it took an opportunity to open its huge mouth, biting onto two unlucky mercenaries not far away.

Fresh blood dripped from its razor-sharp fangs, dyeing the floor with blood, causing people to shiver at the sight of it.

This scene was even more frightening to He San, Liu Yanni and the rest.

Capture those newbies, they must be captured alive! The middle-aged man hollered, the situation was urgent. Only by capturing hostages could they resolve this crisis. They would not need to worry about any massacre by Sacred Mountain.

When the middle-aged man finished his words, looking at Wang Quan De killing quite a few brothers of the mercenary group, Yuan Qi appeared under his feet. The sole of his feet touched the ground and a bone of a beast an arm-thick appeared in his hand.

This bone had been repeatedly sharpened till it was razor-sharp, but by channeling Yuan Qi in, the bone of the beast glowed. The bone seemed to exude the presence of a fierce beast it used to be a part of as he charged towards Wang Quan De to block him.

Barely passable. Wang Quan De also seemed a bit surprised at this middle-aged mans strength. Meeting a cultivator of such skill in the Forest of Demons was not your everyday occurrence. He smiled coldly, a shock ran through his arm and he met the man head-on.

Rumble!!!

The battle was chaotic, the Yuan Spirit Realm cultivators of Sacred Mountain seemed to have a silent agreement as they formed a circle around the youths they brought along, protecting each one of them by their side.

In addition, Li Ling and the rest of the disciples from Sacred Mountain were not weak and did not have much trouble while fighting the mercenaries, rather, the number of mercenaries alive was dropping fast.

Behind the boulder, Su Yi hid in a corner, observing the entire battle.

Currently, Su Yi could see it the clearest, though the mercenary group had the advantage in numbers, in quality they were nothing like Sacred Mountain.

But, it was also not that easy for the people from Sacred Mountain.

Every one of these mercenaries lived and survived through by the sharp edges of sabers. They were in front of absolute strength, obviously, they could not match up to Sacred Mountain.

But the people from Sacred Mountain had to protect quite a few youths. And these youths, even if they were the disciples of Sacred Mountain and their strength was not normal, but in a real battle, their experience was far from enough.

These disciples from Sacred Mountain were starting to be unable to hold out against the mercenaries.

This caused the Yuan Spirit Realm cultivators to split their attention in order to protect them.

Hence, though it may seem like Sacred Mountain had gotten the upper hand, but the truth was that the battle had started to enter a stalemate.

Su Yi crouched, he knew where to hide. In this chaos, no one would notice him.

Stomp, stomp!

Not far away, the leader of the mercenary group could not stand against Wang Quan De and was beaten back.

At the same time, the middle-aged man put one foot back to hold his ground, cracks appeared underneath his feet. The bone of the beast in his hands glowed again and faintly, it exuded a presence of fierceness that was different from before, as if the beast had been resurrected. Violent winds howled and thunder was heard from the bone. It was like the roar of a beast and it was used to obstruct Wang Quan De again.

Humph! Wang Quan De gave a cold grunt, without any hesitation, powerful Yuan Qi burst out from within his body. A strong aura spiraled around the place, blowing away the rocks and grass in the surroundings. A palm slammed against the bone.

**BOOM!!!**

The glowing bone in the hands of the middle-aged man dulled and due to the strong impact, he was beaten back again.

The situation does not look good. Currently, the face of Su Yi who was hiding behind the boulder became slightly ugly in a moment.

While the mercenary leader was getting beaten back continuously, but the fact that he's still alive indicated that he still has a trump card in his sleeve.

Let me see exactly how strong the Sacred Mountain is! Being beaten back continuously while his brothers falling one by one, the middle-aged man was also infuriated. Hollering, his Yuan Qi

surged, strands of black Yuan Qi swirled around him like a snake, finally gathering within the beast's bone in his hand.

ROAR!!! In this instance, the bone shined, and one could actually hear actual roars of the beast now. Its aura exploded, shocking the air and causing a terrifying commotion.

Go! The middle-aged man shouted, throwing the beast bone in his hand straight towards Wang Quan De. In that instance, the beast bone was giving off a glaring light and it was like a streak of lightning as it shot towards Wang Quan De with a menacing aura.
