Chapter 311: Cultivation!

Half an hour later in the hall, Su Yi saw nearly a hundred people of the Hunting Tiger Tribe led by Elder Hu Bu. They were all looking suspiciously at Su Yi.

Su Yi first spoke, informing everyone of the reason, "Let everyone come, there is a set of techniques to be passed on to everyone which was left by the previous generation's Divine Demonic Sect Leader."

Last night, Su Yi had something on his mind. The Divine Demonic Sect disciples have temporarily settled in. At this point, the Divine Demonic Sect needs to grow quickly and strengthen its power.

But for now, the only thing Su Yi can think of is to give the true techniques of Demonic Spirit Truth Interpretation, Heavenly Tiger Art, Mighty Desolate Verse, etc. to the disciples of the Divine Demonic Sect.

After Su Yi obtained the formula of the Demonic Spirit Truth Interpretation from Shangguan Xi Wei, he determined that the current cultivation methods of the Ancient Spirit Village, Hunting Tiger Tribe, and Mighty Bear Tribe are incomplete.

Although these three cultivation methods can still be cultivated, they are far inferior to the real "Demonic Spirit Truth Interpretation", "Mighty Desolate Verse", and "Heavenly Tiger Art".

"What was the skill left behind by the previous generation Divine Demonic Sect master?"

As Su Yi spoke, everyone in the room was moved to tears. Elder Hu Bu, with eyes full of expectation, stepped forward and asked Su Yi.

Looking at everyone, Su Yi gave a slight smile. His hands clenched, and his eyes closed slightly.

Suddenly, when Su Yi opened his eyes again, a ray of light sparkled in his deep eyes. In a moment, his aura surged like the undulating waves, overwhelming.

"Roar"

In the next moment, there was a huge phantom tiger hovering over Su Yi's physical body. Its roar shook their ears as a powerful aura filled the atmosphere, and Su Yi's hair waved wildly in the wind as if it were thunder rumbling in the air.

"Heavenly Tiger Art!"

When this scene appeared, Elder Hu Bu was suddenly shocked, and the faces of the other children of the Hunting Tiger Tribe turned to a look of shock.

They could all feel that this was definitely the Hunting Tiger Tribe's "Heavenly Tiger Art" that they cultivated, but its imposing aura was much stronger than their own rendition.

This is the complete "Heavenly Tiger Art"!

Su Yi collected his breath and looked at the expressions of everyone with a smile.

The true "Heavenly Tiger Art" is what the Hunting Tiger Tribe has been cultivating. After completely mastering the art, the descendants of the tribe are expected to make further progress.

Three days later, Su Yi found the Mighty Bear Tribe.

"Boom!"

In the hall, Su Yi's handprint condensed. His eyes shone brightly, a swirl of light radiating out and a terrifying aura emanating an ancient charm, as if capable of suppressing the four sides and radiating outwards in all directions.

From Su Yi, a strong aura emanated outward, accompanied by an ancient pressure.

"Mighty Desolate Verse", this is the Mighty Bear Tribe's "Mighty Desolate Verse"!

Elder Xiong Liu was shaking, his eyes revealing shock. Clearly, the energy flowing through Su Yi's body was the Mighty Bear Tribe's Mighty Desolate Verse, yet it was much more powerful than the one he cultivated.

"The complete Mighty Desolate Verse has been delivered to the Mighty Bear Tribe today!"

Su Yi gave a slight smile as he recited the complete version of "Mighty Desolate Verse" to the children of the Mighty Bear Tribe for their cultivation.

On the seventh day, Su Yi finally found the descendants of the Ancient Spirit Village.

These days, Su Yi has sought out the Hunting Tiger Tribe and the Mighty Bear Tribe, and news of it has already reached the Ancient Spirit Village.

Some people were curious and were stealthily observing the situation and tried to pry out information.

Now that they have seen Su Yi, they can almost certainly guess how it will end up already.

"I heard that the previous generation Sect Leader of the Divine Demonic Sect left a complete version of the 'Mighty Desolate Verse' and 'Heavenly Tiger Art'. Could it be that the 'Demonic Spirit Truth Interpretation' we cultivate is incomplete too?" someone whispered in discussion. These days they have been curiously inquiring and have come to know many pieces of news.

Elder Shangguan Xu also closely looked at Su Yi, his eyes filled with anticipation.

"The complete 'Demonic Spirit Truth Interpretation' is with everyone today."

Listening to the murmuring talks and looking at Elder Shangguan Xu, Shangguan Yan, and Shangguan Yu's gaze, Su Yi opened his mouth and said that the complete 'Demonic Spirit Truth Interpretation' of course had to be given to the villagers of the Ancient Spirit Village.

"Demonic Spirit Truth Interpretation" is more difficult to cultivate than "Heavenly Tiger Art" and "Mighty Desolate Verse", in relation to the soul.

Su Yi spent five days to hand out copies of "Demonic Spirit Truth Interpretation" to everyone.

"I need to retreat and cultivate for a period of time!"

Elder Shangguan Xu opened his mouth with excitement, as if he had found a treasure.

After getting the complete Demonic Spirit Truth Interpretation, he was most clear on what he had obtained, and would need to retreat for a period of time to digest it.

It is not surprising that Elder Xiong Liu, Elder Hu Bu, and the people from the Hunting Tiger Tribe and the Mighty Bear Tribe have all closed themselves off for training and are attempting to understand the complete Heavenly Tiger Art and Mighty Desolate Verse.

The villagers of the Ancient Spirit Village all excitedly chose to seclude themselves and cultivate.

Suddenly, this place became much quieter, only leaving the figures of the demon beasts like Serene Void Brutal Heavenly Leopard and Fire-Eyes Beast Tiger.

Su Yi gave everyone the complete Demonic Spirit Truth Interpret, Heavenly Tiger Art, and Mighty Desolate Verse. He knew that he was in Cang Lan City, so he didn't pay it much regard.

The Demonic Spirit Truth Interpretation, Heavenly Tiger Art, and Mighty Desolate Verse are valuable but have no great use for Cang Lan City. The Demon Emperor Chi Qin would not benefit much from taking them.

However, Su Yi was not unconcerned with the idea of Demon Emperor Chi Qin cultivating the Heavenly Tiger Art and other techniques. After all, Demonic Spirit Truth Interpretation and Heavenly Tiger Art, if the Demon Emperor Chi Qin wants to get involved, taking them out is enough to get precious rewards.

Su Yi was gambling and had a conversation with Chi Qin. Twenty years later, the Divine Demonic Sect will repay the favor of sheltering them with a fountain of gratitude even though they have reached Cang Lan City. But if Chi Qin finds the Divine Demonic Sect to be mediocre, would Chi Qin still keep his promise?

On the contrary, it made Chi Qin feel that the Divine Demonic Sect was not simple, and perhaps in this Cang Lan City, the disciples of the Divine Demonic Sect might be even safer.

"Brother Su Yi, keep fighting!"

What a coincidence. Chi Zu is here again, ready to continue the battle with Su Yi and sharpen her own skills.

In the last battle, Chi Zu was injured, but managed to gain a lot from it. Only it itself knows what benefits it received.

Okay, let's do this! Su Yi nodded.

The last battle was very beneficial for Su Yi.

Still at the old place, one person and one beast engaged in a fierce duel. The violent and intense battle even attracted many demon beasts to watch, their fierce gazes shaking all those who were present.

In the end, Chi Zu obviously lost, with Su Yi not taking it easy on him. Aside from not using those powerful hidden cards, he used all his strength.

"I'm delighted that I've gained a lot from the two battles. I feel the signs of a breakthrough. So when I go into seclusion for some time, I'll be ready to fight again after reaching the Third Grade of the Demonic Spirit Realm!" Chi Zu is very happy, as he have gained a lot and was now prepared to make the breakthrough.

"I am also going into seclusion for a period of time while waiting for you."

Su Yi had made a decision - hearing that many powerful Demon Clan members were looking for the disciples of the Divine Demonic Sect, and with nowhere else to go in Cang Lan City, he could take the opportunity to hide and cultivate for a while.

...

Chapter 312: Let Go of Everything!

After leaving Man City, Su Yi was on the run all the way, unable to help himself.

Although progress has not been slow on the way, he really has not taken the time to stop and meditate.

As night fell, after briefing Serene Void Brutal Heavenly Leopard, Da Bao, Xiao Ling and others on some precautions, Su Yi went straight to a hilltop and looked for a small cave, intending to begin his cultivation.

Without any means at hand and no worry about the disciples of the Divine Demonic Sect, Su Yi knew that even if he wanted to do something against the Demon Emperor Chi Qin, it would be useless.

If the Demon Emperor Chi Qin really plans to be disadvantageous for the Divine Demonic Sect, any arrangement will be of no help.

In this period of time, Su Yi has come to truly realize that real strength is everything.

Although Su Yi is currently in Cang Lan City, he has never been 100% at ease with the Demon Emperor Chi Qin.

Now that the disciples of the Divine Demonic Sect have been brought into Cang Lan City, it would be difficult to get them out without any harm.

Su Yi knew, unless he could quickly rise and become a strong person, strong enough to make the Demon Emperor Chi Qin fear, otherwise, it would be a big trouble when the time comes.

On this journey, Su Yi fought with many young ones, including Hu Chi, Xiong Zhan, the Golden Ancient Scorpion from the Demon Clan, and Chi Zu. These encounters allowed Su Yi to gain insight into his own abilities and increased his appreciation for the Supreme Chaotic Yuan Technique.

But this is still far from enough to contend with the super strong enemies who destroyed the Divine Demonic Sect. He must step onto the Sacred Mountain and seek justice one day, but with the present level of cultivation, it is still far away, far from enough.

This forced Su Yi to work hard and quickly rise up!

"Cultivate the Divine Demonic Ancient Verse, Three Sabres of the Raging Dragon, Wrath of the Eight Wastelands, etc."

In the small mountain cave, Su Yi muttered to himself. Taking advantage of the time he had, he should cultivate the Divine Demonic Ancient Verse. He hadn't mastered the third move of the Three

Sabres of the Raging Dragon yet, and he had only managed to learn one kick of the Wrath of the Eight Wastelands.

He can only stay in Cang Lan City now, he can't leave.

Su Yi feels that rather than thinking too much, it is better to calm down and cultivate diligently, improve strength, and take action, so as not to waste time.

If a strong person knew that Su Yi had only cultivated for such a short amount of time, and he already had the cultivation base of the First Grade of the Yuan Spirit Realm, but he still wasn't satisfied, the person must think that he is too crazy.

Soon, Su Yi returned to peace and devoted himself to cultivating, staying neither flustered nor agitated, with an open mind.

Su Yi has laid a good foundation and succeeded in cultivating the Heavenly Tiger Art, Mighty Desolate Verse and Demonic Spirit Truth Interpretation.

However, this is only the basics, the basis of cultivating the Divine Demonic Ancient Verse.

Heavenly Tiger Art, Demonic Spirit Truth Interpretation, and Mighty Desolate Verse are just a part of the vast Divine Demonic Ancient Verse.

It is said that if one cultivates the Divine Demonic Ancient Verse to its pinnacle, it can shock Heaven and Earth and make the gods and ghosts cry!

Heaven and Earth are shocked, the gods and ghosts weep; these words are enough to prove the power and vastness of the Divine Demonic Ancient Verse!

Su Yi sat cross-legged and began to cultivate the Divine Demonic Ancient Verse; his hands formed seals and a fusing light emanated from his body.

Heavenly Tiger Art, Mighty Desolate Verse, and Demonic Spirit Truth Interpretation are the foundations of the Divine Demonic Ancient Verse.

"Heavenly Tiger Art" is for "power", "Mighty Desolate Verse" is for "strength", and "Demonic Spirit Truth Interpretation" is for "spirit".

"The image of the celestial demon is also the image of all beasts, the image of all beasts is the image of creation, the image of creation is heaven and earth and man"

Su Yi immersed himself in contemplation and cultivation, his aura faintly fluctuating, as if there was a mysterious energy emanating from him, both eerie and virtuous!

In no time, Su Yi's eyes opened, a light radiating from them, like lightning, as if thousands of spiritual beasts were flashing in his eyes.

This is just the beginning of the cultivate, and it has already shown the power and mystery of the Divine Demonic Ancient Verse!

It is difficult to cultivate the Divine Demonic Ancient Verse; the conditions are enough to make one marvel, with almost perverse demands on the physical body and soul.

Especially for the conditions of the soul, the conditions are absolutely extreme.

But Su Yi exactly satisfied these abnormal conditions, as if this Divine Demonic Ancient Verse was tailor-made for him.

Su Yi immersed himself in cultivation and enlightenment, forgetting everything and calming his mind, with only understanding remaining.

At first, Su Yi was unable to cultivate because he was unable to store qi in his body, not because he was foolish or naive.

On the contrary, Su Yi was able to cultivate the Supreme Chaotic Yuan Technique, and even Hundred Transformations Step. His genius and remarkable intelligence are obvious, and even the mysterious person who was at the bottom of the deep abyss was shocked by him.

As time went by slowly, Su Yi was completely immersed in a peculiar state of contemplation, letting go of everything and only cultivating, which was also a kind of perseverance and tenacity.

It is very difficult to cultivate the Divine Demonic Ancient Verse, even for people with a great talent, it is hard to cultivate successfully within a short period of time. But for martial artists, this kind of cultivation and enlightenment is actually a kind of enjoyment.

Su Yi was oblivious to the passage of time, deeply immersed in it.

Su Yi's body glowed with energy, a bewitching yet untainted air of mysticism emanating from within. His flesh quivered and shimmered with different lights and radiated a mysterious power as it refined within him.

These energies were not evil, so they sowed the seed in Su Yi's body, as if it had life, gradually taking root and sprouting, vigorously growing.

In the cave, Su Yi sitting cross-legged, glowing, appeared as if made of warm jade.

As time passed, the cave was also quietly, with no demon beasts coming to disturb.

Ten days, fifteen days, twenty days

Su Yi's demonic aura was becoming increasingly thick, his body was becoming more transparent, surrounded by a brilliant light, like clouds and mists, bathed in mysterious power.

If there was a strong person here at this moment, they would definitely be shocked. Is this still just a teenage boy in the first grade of the Demonic Spirit Realm? The aura emanating from him is actually capable of reaching such heights.

25 days, one month

Time passes, and everything in Cang Lan City was as usual, at least on the surface there was no ripple.

...

Chapter 313: Strange Phenomenon Appears in Heaven and Earth!

But there was much commotion in the Demon Woods.

News has spread; the battle so intense it seemed like the end of the world, and startled many people.

This news is even spreading quickly across the entire continent.

"The Divine Demonic Sect still exists in the world!"

"The Divine Demonic Sect has descendants! Is this true or false?"

In this world, when powerful cultivators get news, they are all shocked.

For a while, the Divine Demonic Sect's blood-soaked land was no longer peaceful, and at times there was a subtle presence descending, with powerful people coming to search.

In the small cave, Su Yi forgot everything else, forgetting he was in Cang Lan City, forgetting the Divine Demonic Sect, forgetting Barbarian City, forgetting the injuries on his grandfather's body; all that was left was cultivating the Divine Demonic Ancient Verse.

A hint of demonic energy lingered in the air. In Su Yi's breath, a faint wave of energy flowed through his mouth and nose, creating a special rhythm.

This energy, accompanied by a monstrous aura, yet not of evil nature, had an invisible pressure that gradually enveloped Su Yi.

Finally, these energies were condensed around Su Yi's body, forming a dragon-like pattern.

"Very strange, especially strange!"

In the small cave far away where Su Yi cultivates in seclusion, two figures silently appeared on top of the towering mountain peaks - they were the Demon Emperor Chi Qin and the old man in the yellow robe.

The old man in yellow robe is also obviously a Demon Emperor. He looks into the cave, and if he can see everything through the cave, his eyes tremble and say, "This boy is human, but the smell on his body seems to have something to do with our demon clan!"

"From what I know, when the Divine Demonic Sect originally rose, it had some connection with us. This kid might really be the new leader of the Divine Demonic Sect." Chi Qin spoke up, he had heard some rumors about the Divine Demonic Sect.

"A lot of people outside are looking for the Divine Demonic Sect, and a lot of powerful human cultivators have come. I didn't expect to cause such a stir!" said the old man in the yellow robe.

"We took a walk around and no one will suspect that Cang Lan City is involved for the time being," Chi Qin said.

The old man in the yellow robe smiled slightly, knowing that his brother's mind was extraordinary. Obviously, people from the Divine Demonic Sect were in Cang Lan City, but he deliberately revealed himself, to avoid suspicions from nearby people.

Looking into the cave, the old man in yellow robe moved his eyes for a moment and said, "I heard that Chi Zu has entered seclusion again, is he going to break through again?"

"It should be a breakthrough again."

Chi Qin nodded, but his brows creased slightly as he said, "Still, he can't compare to this kid. This kid is too mysterious; I can't see through him either"

"Boom!"

As Chi Qin's voice had yet to completely die down, the sky and earth outside the small cave suddenly rang with a thunderous roar.

"Hula La La"

The energy of this world was also fluctuating rapidly in an instant.

With the sound of this thunder roaring, there was energy from heaven and earth coming from all around!

This land energy was strange, bearing a great pressure, as if coming from ancient times, then gathering towards the inside of the cave.

"What's the matter?"

The sudden commotion caught the old man in yellow robes off guard. The intimidating atmosphere even seemed to have an effect on him.

Chi Qin's eyes fixed on the cave in an instant, and the oppressive energy around them condensed and headed toward the cave.

Inside the cave at this moment, there was only one young man who was in seclusion.

"It was the little guy that caused this, as expected." Chi Qin was also surprised.

"How is that possible? That human kid is only of the first-grade cultivation in the Yuan Spirit Realm, why would he have caused such a disturbance!"

The old man in the yellow robe couldn't believe it. How could a human boy of only one level of the Yuan Spirit Realm cause such a commotion?

"Roaring"

Just as the yellow-robed old man was incredulous and astonished, the heavens and earth suddenly converged with dark clouds.

The energy between heaven and earth was becoming increasingly intense, and the thick demon Qi was pervading, almost gushing out from between heaven and earth.

The thick black clouds were gathering more and more, lightning crisscrossing the sky, and then thunder roaring, the loud boom of thunder resonating through the heavens and earth.

Such a change immediately caught the attention of the entire Cang Lan City.

Many demon beasts emerged, their fierce eyes gazing in the direction of the emptiness from which a feeling of trembling and palpitations came.

The weaker demon beasts were even crushed and crawling on the ground.

The earth trembled, mountains and rivers shook, huge waves surged to the sky, and a terrible aura descended from heaven and earth, covering the entire Cang Lan City.

Within and outside of Cang Lan City, countless Demon Beasts were shocked, trembling deep down in their hearts!

"Ouch"

Eight beasts appeared, roaring and approaching the small mountain hole where Su Yi was meditating.

These eight beasts are the Golden Python, Fire-Eyes Beast Tiger, Da Bao, Xiao Ling, and others.

For some unknown reason, they seem to have not been repressed by the terrible pressure and commotion here.

Eight beasts of different sizes, guarding in front of Su Yi's small cave and automatically protecting Su Yi!

"This is an anomaly, a heavenly and earthly anomaly, this youngster has caused a heavenly and earthly anomaly!"

On the mountaintop, the old man in the yellow robe was astonished by what he saw; this was not a normal commotion, this was an omen from Heaven and Earth.

The earth quakes, the sky collapses and the mountains shake, thunder and lightning resound, this is an extraordinary phenomenon in Heaven and Earth!

"Unusual phenomena arise in heaven and earth, something extraordinary must emerge!"

Chi Qin's gaze finally began to waver, his eyes glinting and his face replaced with shock.

"With the strength of that human boy, even if he breaks through, he can't cause any commotion, let alone an extraordinary spectacle of heaven and earth!"

The old man in the yellow robe was stunned and said, "Could it be that the kid has cultivated a Heavenly Grade Martial Art Technique?"

Rumor has it that when the Heavenly Grade Martial Art Technique has been born, it will be accompanied by strange phenomena in the heavens and earth. The old man in the yellow robe was somewhat suspicious.

"It is unlikely, even with the best talent from the Yuan Spirit Realm, it is impossible to cultivate a Heavenly Grade Martial Art Technique!"

Chi Qin is very sure that Yuan Spirit Realm cultivator is absolutely impossible to cultivate into the Heavenly Grade Martial Art Technique. No matter how good the talent is, it is impossible.

Chi Qin was struck with surprise and sank into deep thought for a while. His eyes then glinted with understanding as he said, "Maybe the young boy has cultivated the legendary Heavenly Grade Martial Skill!"

"Heavenly Grade Martial Skill!"

The old man in the yellow robe was shocked; even though he was a demon, he also knew what the Heavenly Grade Martial Skill represented in human martial artists.

Rumor has it that when the Heavenly Grade Martial Skill comes into the world, the mountains will collapse and the ground will split, accompanied by flashes of lightning and loud thunder!

"No, that kid has already arrived in Demonic Spirit Realm, how can he just complete the Heavenly Grade Martial Skill now!"

The old man in yellow robe shook his head, astonished; he murmured, "Could it be that he had given up his previous cultivation method and cultivated from the beginning again?"

"It would be even worse if he did so!"

Chi Qin said, "What kind of perseverance is needed to give up one's cultivation method and restart everything from the very beginning? This young human can succeed with such perseverance. Once he grows up, he will be even more terrible!"

...

Chapter 314: It's Not a Heavenly Phenomenon, It's a Thunderbolt!

"Booming"

Above the small cave, thunder roared incessantly, and eeriness filled the air.

The energy was like a whirlpool, spiraling more and more wildly, raging into the cave.

"Roarr"

Within Cang Lan City, the roars of beasts were non-stop, deafeningly loud, accompanied by thunderous claps which shook the heavens and earth, piercing through the clouds.

Many powerful demon beasts were startled and followed the energy source, looking towards the mountain top.

Many of those of the Divine Demonic Sect who has been in seclusion have already awakened.

There are also some people who are cultivating are also awakened. Under this amazing movement, they come one after another, trembling and palpitating under the pressure, and looking at the small cave in horror.

"What's the matter?"

Elder Shangguan Xu and Elder Hu Bu stood side by side, trembling in awe at the sudden silence.

Dark clouds covered this part of the sky, lightning was ravaging. What a fearsome sight!

Chi Qin and the old man in the yellow robe paid no attention to any changes, their eyes were fixed intently on the cave, feeling the oppressive force inside, which was even more terrifying.

"There are changes!"

Looking far into the small cave, the old man in yellow robes suddenly shrank his gaze and, out of the blue, opened his mouth with a sudden tremor in his heart.

"Tock tock tock"

Suddenly, the mountain top where the little cave was situated trembled like a volcanic eruption, blasting out countless rocks that shot through the clouds.

Dust flying, mountains breaking and ground splitting!

When this mountain top exploded, a terrifying breath spread all around, carrying surging demonic energy to the heavens.

At the same time, there was a burst of light from the mountain top, and a figure wrapped in heavenly and earthly energy, with a demonic aura surrounding it, lifting its body and suspending its body in mid-air while sitting cross-legged.

The figure was surrounded by dazzling light, like a divine radiance.

It is not hard to see that the figure was carrying a sword, fifteen or sixteen years old, with black long hair spread over the shoulder, and closed eyes, but could not hide his unique temperament, with a hint of arrogance and a little bit of evil.

This evil has nothing to do with the demonic energy emanating from this figure; it comes from within the figure itself.

Who else besides Su Yi could be this figure?

"Rumbling"

When Su Yi appeared, in an instant, the sky suddenly turned dark, and the black clouds spread, quietly covering the world, causing the earth to suddenly plunge into darkness.

When the dark clouds appeared, the old man in a yellow robe and Chi Qin's eyes both narrowed immediately.

"Boom"

In the void, an inexplicable tremor shook, and an invisible, astonishing pressure spread, causing people's souls to quiver uncontrollably.

The demon beasts of Cang Lan City seemed to have sensed something, and all the beasts suddenly fell silent, trembling on the ground!

"Chi chi"

Dark black clouds churning, lightning flashing, illuminating the dark heavens and earth.

This piercing thundercloud, perched in mid-air, emanated an imposing thunder and lightning that stirred the hearts of all beasts and sent a chill down their spines.

"No, this isn't an otherworldly phenomenon; it's a disaster!"

Suddenly, Chi Qin could not help but tremble and exclaimed. His eyes were staring at the figure of a teenager sitting across his knees in the distant sky. His eyes fluctuated violently.

"Ci la la"

However, before Chi Qin could finish speaking, a moment later, brilliant lightning bolts pierced through the dark thunderclouds, striking down directly on Su Yi, with terrifying intensity.

This was a disaster, not ordinary thunder and lightning, but a punishment from heaven.

"Rumble"

In an instant, the dazzling thunder and lightning burst forth from Su Yi as the center, endlessly and fiercely.

Thunder and lightning from all directions were crazily descending, imposing awe-inspiring pressure, carrying with it the heaviness of heaven and earth, as if wanting to destroy everything.

"What is going on here!"

"Be careful, Su Yi!"

All disciples of the Divine Demonic Sect raised their heads to look at the horrible lightning that rained down, gulping down their saliva and inhaling a chill breath of air for Su Yi!

Just as everyone was taking a deep breath for Su Yi, the fearful lightning that could destroy everything stopped just an inch from Su Yi's head.

Lightning flashed across the sky, dazzling the eyes. One glance and one's heart began to tremble.

But at this moment, the terrible thunder and lightning which carried the pressure stopped one foot above Su Yi.

Thunder and lightning felt something, cowering in fear.

All eyes trembled, looking at the shocked faces, their gaze stunned and transfixed at the figure of the young boy sitting beneath the thunder and lightning.

At this moment, a strange light shone from that young man's body, inside and out.

This brilliant, hazy light emits a strong and compelling aura, as if it could isolate space and disperse a dazzling red glow.

"Boom!"

At this moment, an imposing and domineering aura burst forth from that young man's body, as if a sovereign could not be provoked.

The thunderbolt loomed, and the rumbling thunder never ceased, but the brilliant lightning dared not come again, dared not approach that blurry glow.

This is the power of lightning, the lightning bolt, the power of heaven's punishment!

However, at this moment, facing Su Yi's body, it dared not get close!

This scene, seen by so many eyes at the moment, shocked everyone.

"This"

The old man in the yellow robe in the distant mountain peak was dumbfounded, his face showing an unprecedented look of shock.

Chi Qin was shocked too, with eyes wide open and mouth agape.

This is the heavenly lightning, the power of heaven's law of punishment, yet it is so dreaded that it dare not descend, as if it were scared to punish that boy!

When Chi Qin thought of this, his heart leapt with excitement!

"Boom!"

Around Su Yi, the mysterious light glowed from within and spread outwards. As if feeling the thunder and lightning in the void, a red glow surged out, with an unparalleled aura of destruction surging out like a warning and a roar!

Under this tyrannical destructive power, the brilliant thunder and lightning started to tremble and retreat continuously.

"Shih!"

At that very moment, Su Yi's tightly shut eyes suddenly opened, and his pair of originally deep and bright eyes shone brightly.

In a split second, an appalling breath emanating with ancient charm filled Su Yi's body. It was like the ebb and flow of raging waves, as if it could suppress the four corners and spread out in this space.

Staring at the lightning in the sky, Su Yi seemed to have just woken up, feeling the terrifying lightning, her eyes trembling with fear.

"Lightning tribulation is this a lightning tribulation?!"

Su Yi trembled, recalling the dread he had felt when the Blood Spiritual Ginseng experienced its lightning tribulation.

The stillness at this moment was even more powerful when he experienced it in person.

This is fate, it's a lightning tribulation!

...

Chapter 315: Cultivation Success!

In the midst of thunder and lightning, Su Yi could feel that this lightning tribulation was caused by himself, and its target was him.

For this period of time, he had been in seclusion cultivating the Divine Demonic Ancient Verse. Now, lightning tribulation had appeared, and Su Yi's heart quivered.

"Is it the Divine Demonic Ancient Verse?"

Su Yi was trembling, hearing the legends about Heavenly Grade Martial Skills being able to draw unusual sightings from Heaven and Earth. But even though the Divine Demonic Ancient Verse was a legendary Heavenly Grade Martial Skill, he had never heard of Heavenly Grade Martial Skills being able to draw calamities.

But this was a lightning tribulation, Su Yi knew that if he avoided the lightning tribulation, it would be unfavorable for himself. No matter what the reason was, it would declare his failure.

Just like Blood Spiritual Ginseng from before, although knowing that all kinds of powerful people were searching for it, it still had to step out and face the challenges.

Feeling the brilliant lightning flashing across the sky, Su Yi could feel that this lightning seemed to be greatly beneficial to himself.

However, the power inside the body at this moment was from the mysterious space, which just spread out and blocked the thunder and lightning from coming down.

"Withdraw!"

Su Yi shouted in his heart, restraining the power within the mysterious space, and allowing the thunder and lightning to fall. He must overcome this ordeal himself!

The thunder and lightning roared, making people's hearts race and their hair stand on end.

But Su Yi could feel that the thunder and lightning had huge benefits for himself and could not be avoided.

It seemed as if Su Yi's thoughts had been detected, and the oppressive force of destruction within the mysterious space dissipated and vanished.

"Cheerah!"

When the domineering and destructive pressure within Su Yi's body dissipated, the dark cloud that was rooted in the void suddenly turned like a storm of amnesty, and began to surge wildly.

"Hula-la!"

Stagnant thunder and lightning came in a moment, between the rising of the void wind and clouds. Thick black clouds mixed with thunder and lightning roared, and streaks of thunder and lightning constantly struck Su Yi's body in an instant.

The entire space was dimly lit amid dazzling thunder and lightning, as if the world had fallen into silence and darkness, only the eerie lightning shuttling through.

"Boom"

One after another, fearsome thunderbolts kept crashing down, ruthlessly striking onto Su Yi's body. Much scattered thunder and lightning exploded and destroyed the ground and the surrounding hills. The earth shook and the mountain collapsed.

All people were breathless in anticipation, breathlessly horrified to the point of standing on end and trembling constantly.

Amidst all the startled eyes, bolts of brilliant lightning crashed down.

Su Yi was covered in arcs of electricity, 'sizzling' arcs covered his body, the sound of thunderous lightning filled his ears, and in a moment his clothes were destroyed by the electricity.

All of this, it all just ended here.

That lightning could destroy everything, but when it descended upon Su Yi, it only destroyed his clothes in an instant, hardly having any effect on his physical body.

Electric arc weaving, instead, made Su Yi's physique appear even more sparkling and translucent. From a distance, one could see Su Yi's pores on his body, even absorbing lightning power.

Lightning flashes between Su Yi's flesh and bones, accompanied by the aura of a demon.

Within Su Yi's body, there was a mysterious power that had planted the seed and it was growing vigorously.

At this moment, the thunder and lightning seemed to be the catalyst for Su Yi to sit cross-legged in the void, lifted up by a mysterious force, his body crystal clear and glowing like precious jade.

In Su Yi's body, arcs crackled and resonated with his limbs, turning into a loud sound. Every single bone, each piece of flesh, skin, and every cell trembled.

That's the feeling of "Heavenly Tiger Art"!

It's the atmosphere of "Mighty Desolate Verse"!

"It's the atmosphere of 'Demonic Spirit Truth Interpretation'!"

The disciples exclaimed, looking at the terrifying scene. From Su Yi's body, in the arc coverage, they felt the breath of the "Heavenly Tiger Art", "Mighty Desolate Verse" and "Demonic Spirit Truth Interpretation".

The thunder and lightning right now seem to be tempering, refining together "Heavenly Tiger Art", "Mighty Desolate Verse", and "Demonic Spirit Truth Interpretation".

Within Su Yi, accompanied by thunder and lightning, "might", "power," and "spirit" three kinds of imposing manner completely blend together and merge into the bones, making all mysteries unfathomable.

"Incredible, the Demonic Spirit Realm actually attracted a lightning tribulation. This human is way too dazzling. If we don't kill him, it will become a great disaster for our demon clan one day!"

The elderly man in the yellow robe was shocked at the sight before him. He had cultivated for so many years and he had never heard or seen such a dazzling young boy.

Once such a young man grows up, how many of the demon clan will be able to suppress him in the future?

"Look first, don't interfere!"

Chi Qin's eyes flickered, and his expression was complex. This human teenager was indeed too dazzling. If he continues to grow, it will be terrible.

But now is not the time to interfere, this is fate, no one dares to provoke the punishment of heaven and earth, he also dares not.

Disturbing it was equal to being against the will of heaven.

It is even possible to force out even more terrifying numbers of disasters!

Once one has provoked someone's bad luck, it is inviting karma and will bring great suffering upon oneself.

"Click!"

Suddenly, it seemed that the power within Su Yi had reached its peak, lightning was radiating from him and a halo of light was emanating from him.

In an instant, a burst of breath rushed to the sky, straight through the clouds!

"Bang bang bang"

Around the four corners of the earth, the ground shook and the mountains swayed, the world moved like a wave, and space trembled.

The whole of Cang Lan City was also affected, with cracks spreading across the ground in all directions.

From Su Yi's body, a hazy radiance spread out, and energy condensed together to form a huge phantom of a demon beast lingering in the void.

Under the gaze of many eyes, the gigantic Demon Beast straddled the void, half of its body entrenched in thick thunderclouds, like an ancient dragon; a vast and mighty pressure spread out, making people's hairs stand on end!

"Roar!"

The beast roared like thunder, its shadow raged, and then changed shape, the dragon's shadow dissipated, transforming into a huge bird of prey, like a phoenix, covering the sky, diving down.

Suddenly, the vicious birds transformed, becoming strange beasts from ancient times, with arcs encircling the sky and standing tall in the heavens, terrifyingly looking down upon all, even making the Demon Emperor Chi Qin tremble in fear!

""

Thousands of phantom monsters appeared and disappeared within a moment, although they were all phantoms, they looked vivid, even with a monstrous air around them, as if they had come from ancient times, and were continuously displayed in the void.

In the vast sky, sometimes unknowingly, the sound of thunder and lightning has disappeared, fading away quietly.

Thousands of demon beasts' phantom images appeared, surging and manifesting, overwhelming with their might, deafening the heavens and earth.

It's as if the supreme ruler of the demon clan was descending!

"Roar!"

In Cang Lan City, all the demon beasts crawled on the ground, trembling in fear and quivering in terror.

In countless gazes, Su Yi's silhouette was standing in the void, levitating by mysterious forces.

The slender figure slowly emerged, slender and upright, carrying a sword, hazy all over, dazzlingly brilliant.

The overwhelming momentum emanating from within, the monstrous aura that could break through the sky and suppress everything, sweeping all directions!

In the depths of Su Yi's eyes, two beams of light shot out like lightning, piercing through the sky. It was like a divine sword, capable of piercing the heavens, and shocking the soul. He murmured to himself, "The Divine Demonic Ancient Verse, it worked!"

...

Chapter 316: You Have to Respect Me!

"This guy is not just any ordinary human being! He can withstand lightning tribulation!"

Su Tian Que's small figure appeared not far away, its dripping eyes staring at the Su Yi in mid-air full of shock, yet underneath this lightning tribulation, it seemed to not have that much pressure on it.

As Su Yi's voice fell, everything around him fell silent and the mysterious power surrounding him disappeared, causing Su Yi's body to suddenly fall from the sky.

"No!"

In an instant, Su Yi's expression changed suddenly, and a gust of spirit Qi rushed out from his foot around one meter away from the ground.

"Push"

Su Yi stepped back and stumbled several steps, then he managed to steady himself, and the sword behind him fell to the ground.

"Roarr!"

Chi Zu appeared and ran straight to Su Yi.

"Brother Su Yi, what kind of technique have you cultivated? It is powerful enough to cause a lightning tribulation to obstruct you!"

Chi Zu spoke in the beast language and with a red light radiating from its body.

Chi Zu had just completed his cultivation and was drawn in by the terrifying sound. Upon seeing Su Yi, there was a look of shock in his eyes.

"I cultivated a technique and unwittingly gained something I never expected would cause such a commotion!"

Su Yi was astonished as well, not expecting that the successful cultivate of the Divine Demonic Ancient Verse would bring about a lightning tribulation blocking his way. No wonder it was said that the Divine Demonic Ancient Verse could shock Heaven and Earth and cause gods and ghosts to weep.

"Oh, your cultivation case has been strengthened a lot!"

Feeling the aura of Chi Zu, Su Yi wasn't too surprised. Before Chi Zu went into seclusion, he had already said he was preparing to make a breakthrough and advance further.

"Compared to you, I'm too far behind. Have you also made a breakthrough?"

Chi Zu felt helpless; he had thought that once he broke through, he would be able to win against Su Yi.

Although it was somewhat unfair, because, after this cultivation, his strength had reached the third grade of the Demonic Spirit Realm, Chi Zu was too eager to win

Feeling Su Yi's breath at this moment, Chi Zu guessed that his plans had failed and this guy had obviously taken another step forward.

"Just make a little bit of progress, step by step."

Su Yi smiled, feeling the full and powerful Yuan energy in his dantian vortex, as well as the overflowing soul power in his mind. He had not expected to succeed in cultivating the Divine

Demonic Ancient Verse, and there was an unexpected surprise too. Now he had even broken through two grades, and he had arrived at the third grade of the Yuan Spirit Realm.

But recently, such a rapid breakthrough has made Su Yi rather worried. He has been suppressing himself and consolidating his cultivation, fearing that too fast a breakthrough would affect his foundation, yet every time he breaks through, he cannot stop it.

"Ow!"

"Master!"

"Hey, Brother Su Yi!"

Fire-Eyes Beast Tiger, Da Bao, Xiao Ling, Shangguan Yu, Shangguan Xu, Xiong Zhan, Hu Chi, and more ran up and surrounded Su Yi.

"Let this young man stay, one day he may become a great trouble!"

The old man in the yellow robe, still shocked by what he saw in the far away sky above the mountain peak, said to Chi Qin, "You need to make a decision soon, kill him, or be a friend with him!"

Chi Qin's eyes moved, gazing far away at Su Yi surrounded by the crowds and demon beasts, his gaze also fell on Chi Zu's body.

Looking at Chi Zu and Su Yi, and that group of special demon beasts, Chi Qin's eyes flickered with emotion and he was in deep thought, his facial expression continuously changing, not easy to make out.

"This human is very special, and very close to the demon clan. It is said that the rise of the Divine Demonic Sect had a great connection with the demon clan too."

Chi Qin whispered and smiled faintly at the old man in the yellow robe, "What if one day we meet with an unexpected misfortune? Chi Zu still needs some time to grow. What should it do?"

The old man in the yellow robe was confused, and asked Chi Qin, "You mean"

Chi Qin sighed softly, her gaze flickering but not saying anything explicitly. "Let nature take its course"

The old man in a yellow robe heard the words, his eyes twinkling with a hint of light. He said no more.

He knew that his elder brother was paving the way for Chi Zu, and his elder brother had high expectations of Chi Zu. Upon seeing that this young human was extraordinary, he made up his mind.

"With such a commotion, it would definitely not be concealed from the people around, some of them should already be on their way here to investigate the situation. Let us go and deal with it." Chi Qin finished speaking with a slight smile and left.

The old man in the yellow robe listened and, looking at the human teenager far away, whispered lightly, "Humans, can we really trust them? I hope that my big brother hasn't made a mistake."

After he finished speaking, the old man in the yellow robe also left, his figure disappearing into nothingness.

"What kind of means have been cultivated, and why does it feel like the Demonic Spirit Truth Interpretation?"

"I feel it like the Mighty Desolate Verse!"

"It has the air of Heavenly Tiger Art!"

In the crowd, Shangguan Yu, Xiong Zhan, Hu Chi, and others surrounded Su Yi.

They felt the huge commotion caused by Su Yi just now had a familiar breath of theirs, the same as the techniques they had cultivated.

However, that aura made them tremble in fear and be inexplicably oppressed.

"Related to it!"

Su Yi nodded, not hiding anything, with Chi Zu standing beside him, he didn't avoid the topic either.

"Hey, Su Yi, can you please pay attention?"

Su Tian Que wobbled and waddled in, with a red gold meatball-like crown on top of his head that glistened like a beautiful red gemstone. He scuttled along, his five short legs shaking with each step.

"Su Tian Que, don't forget I'm your elder brother, show me some respect! Do you want to have a duel with me?"

Su Yi glanced at Su Tian Que. This bald-headed meat chicken hasn't taken himself seriously as the older brother. Just recently, he has made a lot of progress, so it is the perfect time to test and see what level Su Tian Que had reached.

"Ok, I respect you, you are my big brother, but haven't you noticed something is missing from your body? Many little girls are looking at you." Su Tian Que spread his fluffy fur with wings which were no longer so bald, and gave Su Yi a pale white glance with schadenfreude.

"Missing"

Upon hearing this, Su Yi could feel that Shangguan Xi Wei and the other women were standing far away, each of them lowering their heads and whispering something while sneaking glances at him. This made Su Yi feel very strange, so he lowered his head to inspect himself.

"Fuck"

Su Yi was startled when he saw it, and his eyes widened in shock. He wished he could find a peak to hide in. His clothes had been destroyed by the thunder and lightning. No wonder none of the female disciples from the Divine Demonic Sect came over.

"Wait a minute."

Su Yi was very upset, so he immediately hid behind Chi Zu and asked Shangguan Yan for clothes to cover his body.

...

Chapter 317: Diligent Learning.

"Haha haha haha haha."

Amidst everyone's hearty laughter, Hu Chi took the lead and handed Su Yi a robe from his spatial bag.

"I'm really embarrassed now!"

Su Yi was feeling flustered as he dressed, thinking of being seen by so many people, especially the female disciples of the Divine Demonic Sect. He wondered how he would face other people in the future.

Everything calmed down, and the oppressive atmosphere of Cang Lan City dissipated.

Inside and outside Cang Lan City, all the demon beasts were in shock, completely unaware of what had happened. They can only guess that the City Lord must have gotten some kind of benefit to cause such a huge commotion.

In the next few days, Su Yi was out early and late, and intended to avoid the female disciples of the Divine Demonic Sect, which was really embarrassing.

Eventually, Chi Zu couldn't resist and challenged Su Yi to another battle.

The result speaks for itself, Chi Zu was badly defeated.

Su Yi has already held back, after all this is within Cang Lan City, and he must leave some face for Chi Zu, this is not a fight to the death.

At night, the bright moonlight decorated the night sky.

"Roaring" Around Cang Lan City, the sound of fierce beasts roaring could be heard from time to time.

"Chi la"

In the moonlight, in between the mountains and forests, flashed through a ghost-like figure.

Su Yi was cultivating the Hundred Transformations Step. His figure moved without stirring the dust or shaking the stones, truly reaching the point of being unpredictable in its transformations.

The Hundred Transformations Step is an Emperor Grade Body Technique, strictly speaking, not even something comparable to a regular Emperor Grade Martial Technique.

Within Hundred Transformations Step, there are several small levels.

Practicing the Hundred Transformations Step method can make one's movements smaller and faster.

If taken a step further, the variations are unpredictable, and with fighting against an opponent, your moves will become dazzlingly complex, which makes it impossible for the opponent to distinguish clearly.

At first, Su Yi had already cultivated the unpredictable change, but it was still quite immature, and his cultivation level also affected the effectiveness of the Hundred Transformations Step.

This is like using the same sword, but naturally the effect of a child swinging it and an adult swinging it is different.

Hundred Transformations Step, if one is able to cultivate it to the highest level, they would be able to condense their vital energy wings and fly like a huge eagle soaring through the sky.

As a Martialist, the powerful Martialists of the Yuan Spirit Realm can form Yuan Qi under their feet and condense Animal Phantom Imagery to soar the sky.

Some more powerful cultivators could condense phantoms of ferocious birds and beasts for flight, however, it would consume a lot of energy and would be difficult to sustain for a long period of time.

Su Yi had yet to research how to condense a Yuan Qi spirit form and solidify a beastly phantom.

At this moment, his cultivation base has already reached the Third Grade of Yuan Spirit Realm, and recently in Cang Lan City, he has nothing else to do, so he wants to cultivate in this area.

But compared to this, Su Yi wants to try and go further on Hundred Transformations Step.

The last level of the Hundred Transformation Steps can help to condense dual wings, allowing him to soar high in the sky and go far away.

At the bottom of the ten thousand feet cliff, Su Yi wanted to continue cultivating the Hundred Transformations Step.

Unfortunately, at the bottom of the steep cliff, Su Yi was never able to condense dual-energy wings.

The mysterious old man also said that it would be like a fool's dream to try and fly with wings in the Yuan Soul Realm, so Su Yi gave up.

Now Su Yi has reached the Third Grade of the Yuan Spirit Realm and wants to try again.

According to the Hundred Transformations Step's cultivate information, in order to condense the wings, it is necessary to open up dozens of special meridians in the back, let the Yuan Qi flow in a whirl in these meridians, and finally form two wings with Yuan Qi. The process is extremely complicated and requires strong Yuan Qi support.

In the past few days, Su Yi has been studying the Hundred Transformations Step, and there has been some progress.

After all, Su Yi is already very familiar with the Hundred Transformations Step, but there is still a distance to reach the point of condensing wings.

In a few days, Su Yi also attempted to condense into a beast form at the same time, which is the symbol of the Yuan Spirit Realm.

He didn't have a teacher to instruct him, but there were three elders present: Shangguan Xu, Xiong Liu, and Hu Bu.

Although Su Yi has been too ashamed to meet people these days, he still plucked up his courage to find three elders and ask them about the problem of condensing beast form.

The three elders' attitudes towards Su Yi became increasingly positive. Every time they saw Su Yi, they could barely contain the shock in their hearts, and unreservedly accepted Su Yi's teachings.

"Congeal beast form, seemingly simple, actually rather complex, the more powerful the beast form, the harder it is to congeal!"

"Shape the beast form at your feet by gathering Yuan Qi and opening several meridians in the soles of your feet, then add research on demon beasts and you will be successful!"

"To be able to condense what kind of beast form, you must have enough understanding of that demon beast. What's more important is, you need a drop of the demon beast's blood!"

The three elders informed Su Yi that in order to condense the beast form, it may seem simple but is actually very complex.

For example, if you want to coalesce a phantom of a Cold Waves Golden-Red Beast, you must be very familiar with the Cold Waves Golden-Red Beast.

What's more important is that a drop of the blood of Cold Waves Golden-Red Beast is necessary for success.

Su Yi memorized and humbly asked for advice, including some other cultivation questions.

It's not easy to find such an opportunity, so naturally, Su Yi wouldn't miss it.

The three elders originally had a vague and hesitant attitude towards Su Yi, and his identity as the Divine Demonic Sect's sect leader made them unsure of how to choose.

Recently, Su Yi brought out their long-dreamed-of "Demonic Spirit Truth Interpretation", "Mighty Desolate Verse", and "Heavenly Tiger Art".

And the terrifying commotion a few days before has been making them more and more uncertain.

Regardless if they admit it or not, Su Yi has the identity as the Sect Leader of the Divine Demonic Sect. At present, he was humbly learning from them, this made the three elders have a mysterious feeling of accomplishment.

Taking this into consideration, Su Yi was also someone whom they had guided directly and so had a direct connection with them, thereby he was not counted as an outsider anymore.

After realizing this, the three elders finally didn't feel that anything was wrong in their hearts.

Su Yi asked a lot of questions from three elders and got answers which greatly benefited him.

"Coalescing into a beast form requires the blood of Demon Beasts."

Feeling the demon beasts around him, Su Yi thought of Su Tian Que.

If Su Tian Que was truly a peacock, how great it would be! But looking at Su Tian Que's current state, Su Yi had no choice but to give up and not even consider it.

Su Yi also thought about going to Chi Zu, but when he thought about it more carefully, he felt it was not suitable.

As for Fire-Eyes Beast Tiger, White Jade Swallow Bird, and Serene Void Brutal Heavenly Leopard, Su Yi thought them over but it wasn't very suitable either.

Elder Shangguan Xu said that the more powerful the beast form, the harder it was to condense. Su Yi indeed wanted to condense a powerful beast form.

...

Chapter 318: Are You Going to Lay Eggs?!

Although Fire-Eyes Beast Tiger and White Jade Swallow Bird have obtained inheritance and changed significantly.

But Su Yi thought about it and decided to wait and see if he could meet a better demon beast in the future.

Anyway, now he needs to cultivate the Hundred Transformations Step. If he can cultivate it to perfection, then it would be even better than condensing a beast form.

Finally, Su Yi put all his thoughts into the Hundred Transformations Step, hoping to go further.

Su Yi carefully comprehended the cultivation information of Hundred Transformations Step in his mind. He had already connected dozens of special meridians on his back. In order to condense wings, the dozens of special meridians on his back are the foundation.

Vitality bursts out from these dozens of passages and meridians, causing a revolving counterstrike, and finally coalescing into a pair of wings.

This process is extremely complicated, and requires formidable vitality to support it.

But this isn't a problem for Su Yi, all he needs is time.

"Hula"

A faint crimson light flickered in the background, as if a surge of energy had appeared behind it.

This vortex was like the spinning of a helicopter propeller, propelling Su Yi with a force that lifted his toes off the ground, causing his body to sway unsteadily and stagger.

"Bang!"

Su Yi ran straight into a big tree, his face came into close contact with the trunk, and his nose and face were instantly swollen.

"No, there's a problem with the path of qi flowing through the meridians!"

Su Yi paid no attention to his bruised and swollen face, pondering the problem that had just arisen.

Yuan Qi bursts out from dozens of acupoints and meridians in his back, not missing even one; what should have condensed behind should be wings, not eddies.

"Continue!"

Soon, Su Yi continued to comprehend and cultivate the Hundred Transformations Step, and if he could cultivate the wings from this step, he would be able to fly.

That will be of great help to him. No matter it is dealing with enemies or facing a crisis, it will be of utmost importance.

This made Su Yi determined to cultivate the complete Hundred Transformations Step.

"If you rush, you won't reach your goal. Controlling your vigor and rushing blindly will lead to failure."

Su Tian Que appeared, leaning slantingly against the tree trunk.

His short wings covered with fur were like arms crossed behind the body, and his eyes stared at Su Yi, who was falling continuously in front of him, with a faint gaze.

"Do you understand martial arts and physical techniques?" Su Yi got up, looking at Su Tian Que with anticipation in his eyes.

"I don't understand, but from my memories I've seen people displaying various martial arts techniques. Ultimately, all of these forms have the same principle."

Su Tian Que pursed his lips and had a look of old-fashioned sternness as he instructed Su Yi.

Su Yi thought what Su Tian Que said makes sense.

One day later.

Twilight was beautiful, the sunset was like a piece of red leaves covering the sky and falling to the dusty ground, spreading over hills and plains.

Under the sunset, Cang Lan City turned dark purple, like a giant ancient monster in this vast mountain range.

The sunset falls behind the western mountains, and with the last remnant of the evening glow fading away, the sky and earth gradually become dark.

At the mountain peak, far off in the distance, a faint red light glittered like a tiny flame rising up into the air.

On closer inspection, a faint red glow rose, like a red radiance.

Behind Su Yi, a pair of pale crimson wings, although still relatively immature, had already truly congealed and formed!

Light crimson wings, condensed from inner energy, formed behind, extending about ten feet in length, thin as cicada wings, with graceful curvature.

"Hula-la-la"

Su Yi's body soared with double wings flapping, the dust whirled around and the sand and stones flew, yet his body grew higher and higher.

"Success, success!"

Su Yi was filled with excitement and surprise; this was the first time he had succeeded, and finally he had managed to form wings.

"Bang!"

Just after three seconds, the surprise and excitement influenced his inner energy.

In a split second, Su Yi's body fell straight down before he had time to react, landing bottom-up on the floor.

"Haha!"

Not far away, Su Tian Que laughed heartily, almost clapping his hands.

"Are you going to lay eggs?!"

Su Yi got up, fiercely glared at Su Tian Que, but was actually very happy in his heart, at least it had been a success.

"Only a bird can lay eggs!"

Su Tian Que glared at Su Yi with a disappointed expression.

Su Yi ignored Su Tian Que and continued cultivating.

He has finally achieved tangible results, so he must not miss this chance and practice more.

One night passed.

When the morning sun shone on the ground, Su Yi's figure hovered in the void with crimson wings slowly fluttering behind him. The wings glowed with radiance and curved gracefully.

"Wow"

Su Yi flapped his wings, soaring through the sky as he experienced true flight, sometimes high in the air and sometimes low, careening left and right like a morning bird.

"Finally, I made it!"

After a moment, Su Yi's wings stirred lightly behind him, allowing his body to hover in the low sky, his eyes filled with indescribable joy and shock.

Incredibly, he was able to fly. It was unimaginable, but now he has actually done it!

"This martial arts technique seems quite complex, but it seems like something is still missing"

Su Tian Que squinted his eyes and gazed into the sky at Su Yi from a distance. He had a hint of surprise in his eyes.

"Is it true?"

Su Yi gazed at the wings coalescing behind him, feeling them carefully.

Although the Hundred Transformations Step has formed wings, it has unpredictable changes and endless changes, but it seems to be slightly lacking something.

But Su Yi pondered, he had just managed to condense his wings successfully, so it must be that he still needed to practice.

He is only in the third grade of the Yuan Spirit Realm, It's already very lucky to barely cultivate the Hundred Transformations Step. It's probably impossible for him to display the true power of the Emperor Grade Body Technique "Hundred Transformation Step".

After sitting cross-legged and taking a few hours to adjust his breathing, Su Yi resumed his cultivation.

With Su Yi's current level of cultivation, even if he didn't eat for months, it wouldn't have any effect.

Outside, there were strong Demon Beasts searching for people from the Divine Demonic Sect. While Su Yi was in Cang Lan City, this period of time allowed him to pursue cultivation in peace.

So, during this period of time, Su Yi wanted to cultivate some of the martial arts techniques he had but had not yet fully succeeded in, so that he could succeed in cultivating all of them during this period of time.

He has made some progress on The Hundred Step Calculation, and now Su Yi plans to cultivate the Three Sabres of the Raging Dragon.

At the outset, Su Yi obtained both Three Sabres of the Raging Dragon and Thirteen Swords of the Roaring Gale.

Three Sabres of the Raging Dragon is a General Grade Martial Art Technique of the fire attribute, and Thirteen Swords of the Roaring Gale is the wind attribute, but it reaches the level of the Emperor Grade Martial Technique.

Although Su Yi possessed the wind attribute, he was still unable to cultivate the Roaring Gale's Thirteen Swords at first.

Thirteen Swords of the Roaring Gale have tremendous speed and power, but its cultivation requires tremendous discipline.

...

Chapter 319: Rampage Shadow Shatter the Nine Yaos!

One must temper his body with a ten-thousand-pound heavy sword and then gradually increase it, in addition, and having a spiritual force surpassing his same-level peers, so he will be able to unleash the power of the Thirteen Swords of the Roaring Gale.

It is said that to cultivate this Emperor Grade Martial Technique, one needs to be of the Yuan Emperor Realm level.

Even the best geniuses with the best natural aptitude have to reach the level of Yuan Void Realm, otherwise don't even think about it.

At first, Su Yi had tried and failed, so he ended up training in the Three Sabres of the Raging Dragon.

Although Three Sabres of the Raging Dragon only has three moves, Su Yi had only managed to cultivate the first two moves, 'Raging Dragon Slash' and 'Tyrant Dragon Whirlwind Slash', and had yet to successfully cultivate the third move.

At the top of the mountain, Su Yi wielded a large sword.

Su Yi didn't even know how many Spirit Weapon-level greatswords he has changed on his journey.

If this were in Man City, Su Yi wouldn't even dare to think of having so many Spirit Weapon-level greatswords in his hands.

"Whew"

The great sword swings wildly with a rapid speed, as if etching shallow and deep grooves in the air.

"The sharpness of the knife is its benefit; one needs skillful body movement to jump beyond the distance; with quick eyes and nimble hands, the knife is like a fierce tiger, with power like a raging dragon"

This is the secret of Three Sabres of the Raging Dragon, the most important of which is to be imposing, bold, vigorous and harmonious while being balanced and powerful. The movements should be swift as the wind.

"Buzz"

As Su Yi waved his greatsword, it brought forth a flash of blade and shadow.

Gradually resounding with the loud and piercing sounds of thunder and wind, like the roar of dragons and tigers, it carries a monumental momentum, like that of thousands of horses galloping away.

After a moment, Su Yi drew his Spirit Weapon sword and a crimson fire-attribute aura surged out instantly, filling it with ferocity.

When this skill was activated, fire-attribute energy that was almost tangible emanated from the void around Su Yi.

In an instant, winding around the blade, a fierce storm emerged, with energy swirling in all directions.

Not far away, Fire-Eyes Beast Tiger, Su Tian Que, Serene Void Brutal Heavenly Leopard, White Jade Swallow Bird, Spectral Mouse, Da Bao, Xiao Ling, and many other demon beasts, were all watching Su Yi.

They felt the energy surging through Su Yi's body, as if they had sensed something, their eyes fixed steadfastly ahead.

After the activation of the skill, the blazing fire-attribute Qi continuously radiated from Su Yi's body, emitting a blazing yet dazzling radiance, as if it was spreading into a small storm of blazing heat around Su Yi.

A fierce and fierce force erupted from it, causing the air around to distort.

At this moment, a crimson brilliance also enveloped the Spirit Weapon in Su Yi's hand.

The energy was infused into Yuan Weapon, causing a layer of eerie red to appear on its surface, as if flames were about to spread out and molten metal was flowing on the tip of the blade.

"Roaring Dragon Emperor Slash!"

In an instant, Su Yi let out a low roar, and slashed viciously with his sword.

The crimson light was like a volcano erupting fiercely, spreading a fearsome scarlet breath over the sky and land.

A streak of light trailed a long, red lightning bolt and burst out.

In that instant, the demon beasts in the distance were startled, their ominous eyes were completely enveloped in a sea of scarlet blade lights.

"Ow"

In the blade of light, there seemed to be an illusion of a red dragon appearing and disappearing. The ground cracked along the way, a large crack opened up in the middle, and the void shook. "Bang!"

Ten meters away, the light clashed against a giant rock weighing thousands of pounds, and its energy reverberated like the rumbling of a mountain collapsing.

A wave of energy like a dragon-inspired storm ripples from the clash of swords and huge stones, spreading out and surging up to the clouds.

The huge rock was blasted apart, deep pits exposed all around, everything was destroyed, and the terrifying destructive power left Fire-Eyes Beast Tiger dumbstruck and speechless.

"Success!"

Su Yi was pale in color, but his face was smiling, and the third move of the Raging Dragon finally succeeded in training.

Three days later.

Su Yi, who activated the Hundred Transformations Step, hovered in the air with a pair of wings, shimmering with light.

His whole body was filled with a red glow, and the luster was filled with a primitive majesty.

Right after the light shone brightly from beneath his feet, an incomparable radiance covered his legs with a powerful aura.

The rays spread quickly, and on the feet, there were mysterious ancient patterns flowing, with fresh runes emerging, and a mighty breath pervading.

In this moment, Su Yi's eyes shone like lightning, sharp and intimidating, and his whole aura changed.

Like a god or demon being resurrected, his robes fluttering and his long black hair flying backwards, a mysterious aura of rage filled the air, making him appear powerful and terrifying.

Su Yi's feet shone brightly at this moment, becoming very special; his aura was even stronger, making people tremble.

"Roar!"

Such an aura made the distant Fire-Eyes Beast Tiger, Golden Python, and others want to creep when they looked at Su Yi in shock.

"Wrath of the Eight Wastelands, Rampage Shadow Shatter the Nine Yaos!"

In a low growl, Su Yi kicked out, thundering towards the sky, his footprints shimmering like lightning.

In the blink of an eye, it's like infinite footprints kicking out, the light converging, like a small sun exploding.

"Incomparable tyranny, devastating majesty!"

"Boom, boom, boom"

The sky roared. Beneath the footsteps of the peak, space distorted, brilliant energy burst forth, its might tremendous.

The four corners of the earth collapsed, and the void trembled, thus destroying all.

"Roaring"

When these sprawling footprints emerged, the golden pythons below were trembling with fear, roaring in response.

After everything calmed down, Su Yi's wings faded away and shrank, his body stumbled as he landed and his face was pale like ash.

"Success!"

But at the moment, Su Yi's pale face was with an uncontrollable smile.

This is the Wrath of the Eight Wastelands obtained from the Supreme Chaotic Yuan Technique, which also has three levels.

The first level was called Oppress the Mountains and Rivers with a Single Foot, which was successfully cultivated by Su Yi from the beginning. Now, this is the second level and within several days, Su Yi has gained harvest.

Just as Su Yi had predicted, the Wrath of the Eight Wastelands consumed a tremendous amount of energy; the first level had already consumed a great deal, and the second level was even more so.

With his current triple cultivation of the Yuan Spirit Realm Three Grade, he could only barely activate the impact of Rampage Shadow Shatter the Nine Yaos once at its peak.

Given this situation, Su Yi didn't even consider the third level of Wrath of the Eight Wastelands; he was afraid that he wasn't qualified enough to cultivate it.

Su Yi was most clear about the power of Wrath of the Eight Wastelands, which was a technique from the Supreme Chaotic Yuan Technique.

Especially the second level of Wrath of the Eight Wastelands at this moment. It is not an exaggeration to say that it is far more powerful than the third move of Three Sabres of the Raging Dragon, which is one of the most important trump cards on his own body now.

...

Chapter 320: Ready to Go!

Of course, there is one more card left to be played, which Su Yi has been hiding-- the identity of Soul Tamer.

Recently, Su Yi has made great strides and reached the Yuan Spirit Realm, and now he is in the Yuan Spirit Realm Three Grade. Especially after cultivating the Divine Demonic Ancient Verse, Su Yi feels that he has improved a lot in terms of soul power, but he doesn't have the opportunity to show it off, nor does he want to reveal it.

Especially after the successful cultivation of the Divine Demonic Ancient Verse, Su Yi also looked forward to it, seeing if it is strong like what is said in the cultivation information.

Soul Tamer can coalesce the lingering spirits, summon them forth, and be used by the Soul Tamer - powerful as they are, they can even summon ancient powerful souls to appear.

But the Divine Demonic Ancient Verse's Heavenly Demon Figure can let the Soul Tamer not only use the remnant soul, but also be fused with it, as if allowing himself to become as strong as when the remnant soul was still a living person.

The most terrifying thing isn't just this, cultivating the Heavenly Demon Figure, if one possesses enough talent, after merging with a remnant soul, they will be able to comprehend the power of a remnant soul and make it their own in the future.

If an ancient beast is summoned, if one can comprehend it, then one will gain the power of the ancient beast. Then, he will be able to control the power of the ancient beast at any time. How powerful and terrible that would be!

Su Yi only dared to cultivate the Divine Demonic Ancient Verse within Cang Lan City. If it were some other place, not inside the Demon Woods, Su Yi would probably be too afraid to cultivate the Divine Demonic Ancient Verse so openly.

Clean up a bit and the daylight has already reached its end. Another day has passed.

Su Yi sat cross-legged on the ground with his palms pressed together and breathing deeply.

Lately, he has gotten used to this kind of cultivation, and he doesn't intend to go back home.

The Serene Void Brutal Heavenly Leopard, along with the Golden Python, were guarding Su Yi nearby.

Da Bao and Xiao Ling were not far away from Su Yi, as if they were cultivating their breathing technique. The disciples of the Divine Demonic Sect such as Shangguan Yan, Xiong Zhan, Hu Chi, Shangguan Xi Wei etc., had recently been in closed-door cultivation.

Their tribe was massacred, their homes razed to the ground, and a deep pain pierced the hearts of those in the Divine Demonic Sect.

They constantly strive to become strong, seeking revenge for their people one day. After mastering the Demonic Spirit Truth Interpretation, Mighty Desolate Verse and Heavenly Tiger Art, they cultivated with all their hearts and souls.

"Whoa"

It was late at night, and Su Yi slowly opened his tightly shut eyes, exhaling a deep breath.

After draining himself by cultivating martial arts, Su Yi recovered after a brief period of rest and breathing.

Su Yi could feel the surging Yuan Qi in his dantian, and Supreme Chaotic Yuan Technique had obvious advantages in restoring Yuan Qi, something that ordinary techniques weren't able to compare with.

"How long are you planning to stay here? This place is so boring."

Su Tian Que's voice came. Illuminated by the moonlight, his small body was covered with a thin sheen of luster, glimmering radiantly.

For this period of time, Su Tian Que was very frustrated as there was no spiritual medicine to eat in Cang Lan City and also had no way to bake demon beasts to eat. Not to mention Su Yi had warned him not to cause trouble in Cang Lan City or else they wouldn't be able to protect it and themselves. He himself was also afraid of causing trouble.

"Leaving in two days!"

Su Yi stood up and stretched, with a plip-plop sound coming from his bones. His deep eyes glowed a faint crimson in the night.

"In two days"

Su Tian Que was astonished, looking at Su Yi and asking, "What should be done about the Divine Demonic Sect?"

"They should be safe here for the moment." After stretching his waist, Su Yi stood idle with his hands behind his back and slightly bowed his head, pondering something. Then he looked up, with a glimmer in his eyes. He had already made his decision before cultivating the Divine Demonic Ancient Verse, and now everything was almost ready. It was time to leave; otherwise, he would not be able to take the disciples of the Divine Demonic Sect away when the time came.

"That's great, finally I can leave." Su Tian Que was excited and delighted, fluttering his wings with excitement.

"Roar!"

The Golden Python, Serene Void Brutal Heavenly Leopard, Da Bao and Xiao Ling came forward and heard Su Yi's words. They wanted to leave together.

Su Yi shook his head and said, "Stay here and hone your skills. Hopefully, when I return, you all will have progressed even further!"

The next morning, Su Yi went to look for the Demon Emperor Chi Qin.

Su Yi told the Demon Emperor Chi Qin of his plans to go away for some time alone.

Chi Qin, the Demon Emperor, was surprised and perplexed by Su Yi's decision and said with some doubt, "I've heard that some people around haven't been able to find the disciples of the Divine Demonic Sect and have left. But this is the Demon Woods, and for a human like you, with your current cultivation level, leaving wouldn't be too easy."

"Thank you for your care, Demon Emperor, but my heart is already set. On behalf of the disciples of the Divine Demonic Sect, I now entrust them to you. Your great kindness will be rewarded one day!" Su Yi bowed in respect.

Chi Qin looked at Su Yi, seemingly pondering something, her eyes were uncertain.

"Alright, but you have to return early. After all, the disciples of the Divine Demonic Sect are humans, and even if they stay out of sight in Cang Lan City, the news might spread, which would be troublesome. So, I can't protect the disciples of the Divine Demonic Sect for you forever. Give me a definite time," Chi Qin said to Su Yi solemnly after a moment.

Su Yi said after pondering for a while, "At most five years, within five years, I must come back!"

In five years, Su Yi didn't know what level he would reach, but he hoped that he could make a new breakthrough. Otherwise, it would not be easy to take the disciples of the Divine Demonic Sect away from Cang Lan City.

"Five years"

Chi Qin stared at Su Yi, as if pondering something, then nodded and said, "Alright, I'm giving you five years."

"Thank you, the Demon Emperor. I also have one more thing to ask for," Su Yi said.

"Kid, you have quite a few things to say, let's hear it!" Chi Qin was surprised. If it was an ordinary human kid, the kid would be too scared to even gasp in his presence and start trembling by now. But Su Yi in front of him seemed unmoved, neither submissive nor arrogant, and even faintly made him feel a strange sense of suppression.

Chi Qin's heart filled with a bitter smile; indeed, Su Yi in front of him was not an ordinary human.

"I have several demon beasts who always follow me; their cultivation levels are not high, but they are quite extraordinary. The Demon Emperor, please take care of them for me!" Su Yi spoke; this is the Demon Woods, humans shouldn't come here, but the Golden Python, Fire-Eyes Beast Tiger, and other demon beasts do.
