

## Sky&Earth 41

### Chapter 41: Silencing the Witness

Childish tricks! Wang Quan Des expression changed only slightly and his face remained calm. He waved his hand and a powerful wave of Yuan Qi surged out from his palm and fiercely collided with the beast bone.

During this collision, aura rippled outward violently like the waves of the sea.

**BANG! BANG! BANG!**

The rocks in the surroundings were shattered, trees were split, and the ground cracked accompanied with a thunderclap.

Bastard, this is not going to end well now! But at this time, just when the middle-aged man of the mercenary group threw out his beast bone with all his might, the look on Su Yis face changed. He kept his body low and ran away like a flying arrow and dived straight into the escape route he had prepared some time ago.

Su Yis escape route was a patch of dense forest beside the valley, where the sky was blocked out by the lush leaves and thorny bushes were everywhere.

Su Yi knew very well that he was still not strong enough. Him escaping on the open road? Dream on!

As expected, the moment Su Yis body dashed out, the middle-aged man made his way straight towards Su Yi. He had long noticed a youth was hiding in the vicinity, thats why he made such a flashy move in front of Wang Quan De. If he was able to capture this youth, he may be able to turn this situation around.

Run. There was only one word in Su Yis mind. That mercenary leader had actually locked onto him, what he could do now was only to run away with everything he got and hope that Wang Quan De was able to catch up soon, only that way he could be free.

Among the thorny and dense undergrowth, Su Yi twisted and turned, this way of desperate yet planned running was the accumulation of experience after countless similar situations.

Su Yis cultivation had reached the Yuan Soul Realm, he unleashed all his might, and with a feeling of limitless strength, he dashed into the dense forest, crossing several tens of meters in the blink of an eye.

The middle-aged man thought that he could just turn around and catch that youth with a surprise attack, and then he would be able to threaten Sacred Mountain.

But he had never expected the youth to react this fast, and to even escape via such a tricky path, this made him slightly shocked.

But theres still a huge difference in cultivation level and the mercenary leader was also someone who had survived for a long time in the Forest of Demons. He swiftly made his chase, Yuan Qi flowed around him like a mini tornado, blowing apart any vegetation in his way, and was just a step away from catching Su Yi.

Boom! A wave of energy struck at the feet of the middle-aged man, sending bits and pieces of rocks into the air. The huge impact made the middle-aged man stumble forward, allowing Su Yi to run quite a distance further.

The expression of the middle-aged man changed greatly. He had no hesitation, only by capturing the youth in front of him could he have the chance to survive.

Hence without a second thought, the middle-aged man chased after Su Yi with everything he got.

While Su Yi's speed could be said to be very fast for his level, but the middle-aged man's cultivation level far exceeded Su Yi's. He may not be able to leap and catch Su Yi instantly in this dense forest, but his speed was still lightning-fast.

Bam!

Just as Su Yi was in a life-or-death situation, Wang Quan De's attack hit again making the middle-aged man stumble yet another time.

Three people chasing after one another, gradually, there was a bit of distance from the main battle and only the sounds of shouts and explosions could be heard from far away.

Rascal, I'll see to where else you can still run! The middle-aged man glared coldly. With a final burst, his face contorted. He extended his hand with a formed hand seal and tagged Su Yi's shoulder.

In an instance, the power of the hand seal clutched onto Su Yi's shoulder like braces, halting Su Yi's escape in the blink of an eye, unable to take another step forward, even his Yuan Qi seemed like it had been frozen.

Even though Su Yi had hidden a dagger in his long sleeve, Su Yi realized it was for naught as he could not move at all.

When the middle-aged man caught Su Yi, his face beamed with happiness. Before he even turned around, he had already shouted, Stop or else I will kill this kid!

You regard yourself too high! But at the same time, Wang Quan De had already appeared behind the man like a ghost. Without even a single sound, his hand grabbed onto the middle-aged man's neck.

At that moment, as though he felt something, the middle-aged man was shocked like he had seen a ghost. His face full of disbelief, he said, How could it be like this?

Having only just entered the Yuan True Realm, how would you be a match for me? These words fell beside the middle-aged man's ear and then his neck gave off a sound of a crack.

Crack!

The middle-aged man's body slumped down lifelessly onto the forest floor, his eyes wide open with disbelief.

From where the hand seal landed on Su Yi's shoulder, blood seeped out. Raising his eyes to look at the Wang Quan De in front of him, Su Yi's eyes were full of caution, he had just gotten out from lions' den to go into the crocodiles' jaws.

I never thought that a chance would come so quickly. Looking at Su Yi, Wang Quan De smiled coldly.

You did it on purpose? Su Yi's face fell. How could he not understand now that this mercenary leader had never been a match for Wang Quan De since the very beginning?

If Wang Quan De had really wanted to kill that middle-aged man, the man would have never been a match for him.

And why Wang Quan De did this on purpose was to create a chance, to have the mercenary leader chase Su Yi far away so that they could be away from the eyes of everyone.

All this implied that Wang Quan De wanted to do something which could not be seen.

You really are a quite smart kid, but too bad, what a pity! Wang Quan De smiled, a shapeless aura spiraled out from him and covered Su Yi's body, a hand grabbed onto Su Yi's shoulder and at the same time bringing along the corpse of the mercenary leader, their figures dashed deep within the forest.

Wang Quan De wants to silence me! Su Yi was imprisoned by a shapeless power, but in this urgent situation, he was not panicking, rather, he became even calmer.

Su Yi contemplated in his heart, if this Wang Quan De wanted to silence him, other than because of the engagement between him and Liu Ruoxi, there should be nothing else.

His body was still frozen. Held by Wang Quan De's hand, Su Yi could not move a muscle, even his Yuan Qi was frozen.

This is the power of the strong! I am still far too weak, just like a fish on the chopping block, waiting for anyone to kill! Su Yi felt it first-hand that he was like a fresh fish on the chopping block, waiting for someone to slice him apart. In this world where cultivation was everything, strength was the only answer which would always be correct.

After a while, in the depths of the forest, a figure soared into the air. Su Yi could feel that after Wang Quan De made a few leaps, they seemed to be somewhere high.

And as expected, when Su Yi was thrown onto the floor by Wang Quan De. They were on the edge of a cliff, clouds drifted around them. The cliff was high enough to reach even the clouds.

Wang Quan De threw the middle-aged man's corpse off the high cliff.

Destroying the body to leave no evidence, I sure am in deep trouble this time! Su Yi smiled bitterly in his heart, but he still held firm. Wang Quan De brought the mercenary's body here and threw it off was so as to not leave any traces behind which could be found by others.

Chapter 42: If I do not die, I will step onto Sacred Mountain

Su Yi struggled to get up. He cautiously looked at Wang Quan De and asked, What on earth do you want?

Su Yi was very clear that if Wang Quan De just wanted to kill him, he would have already done so straight away. Then, just like how he disposed of the mercenary leader, he would have thrown his corpse off the side of a cliff and all evidence would have been destroyed. There was no need to go through all this trouble.

So, this Wang Quan De must have some other intentions.

Wang Quan De looked at Su Yi, slightly surprised. He said with a low voice, Hand over the techniques that you have cultivated and all the treasure on you! Maybe then I will let you live, or else, you will die for sure.

So thats the case!

Su Yis eyes shook. So it was like this. Wang Quan De really had some other intentions.

But, Su Yi knew that the mysterious sphere of light should not have been revealed. Perhaps Wang Quan De was suspicious about his cultivation technique, the Supreme Chaotic Yuan Technique.

What I am cultivating is the Su Familys Purple Yuan Technique. You can take it if you want it, but I dont think that experts of Sacred Mountain would care about it and for treasure, what treasure do I even have on me? All I have are some Yuan Spirit elixirs. If you want it, you can have it, for what reason do you even go through all this trouble, being filial to Dharma Protector Wang is a must. Su Yi grinned and said, his expression leaving no clues.

Rascal, dont act anymore, my patience has its limits!

Dharma Protector Wang looked at Su Yi while sneering.

How could a rascal trick him so easily with his words? Back then, during the test when the Yuan Testing Stone was destroyed, he already had his suspicions.

A fine and dandy Yuan Testing Stone, refined by the experts of Sacred Mountain, even if there was a theoretical possibility that it would malfunction, but it would not be destroyed in such a manner. There must be some sort of treasure on this rascal.

Afterward, this Su Yi had defeated Ji Chao with his Yuan Soul Realm First Grade cultivation level.

Especially the terrifying aura given off by Su Yi at the end, it could never be an average martial technique. That allowed him to confirm that there was indeed something strange about Su Yi.

A tiny Su Family in a tiny remote city, how would they have such a disciple? That martial technique was far better than Ji Chaos King Grade martial technique.

How would a small Su Family be able to take out such a martial technique? The only explanation is that this Su Yi has some treasure on him, or he may have met some lucky encounter and gotten a shocking martial technique.

How would I dare to lie to Dharma Protector Wang! Su Yi lowered his head and acted as if he was shocked, but in his heart, he was already very grim. Looks like this Wang Quan De has completely locked onto him today.

Are you going to hand it over yourself or are you going to force me to search you? I can assure you that in front of me, there is nothing you can hide, do not refuse a toast so as to drink a forfeit.

Wang Quan De coldly stared at Su Yi, a smile crept onto his face. His expression became kinder, and he said, Actually if you honestly hand over everything, I can let you go alive, and maybe even on the account of your honesty, I could personally take you in as my disciple, consider it as fate. And in the future, there will be no one on Sacred Mountain that will dare to make things difficult for you. Also, after becoming my disciple, there is a possibility of marriage between you and Liu Ruoxi which will be perfectly justifiable.

This old fox, you are still lacking in this skill.

Looking at Wang Quan Des fake smile, Su Yi sneered at him in his heart. Without considering that he himself did not know how to take out that mysterious sphere of light, even if he was to hand over the Supreme Chaotic Yuan Technique and the mysterious sphere of light in his mind, he would only die faster. How could Su Yi not understand this simple logic?

If Dharma Protector Wang were to take me in as a disciple, I would be eternally grateful.

Su Yi beamed with delight and emotionally took a few steps back.

Suddenly, with a look of determination in Su Yis eyes, he clenched his teeth and jumped off the tall hanging cliff.

Whether or not he handed over the Supreme Chaotic Yuan Technique, Su Yi knew that he was still going to die. Jumping off this cliff is also a path to death, but if there is a miracle, at least he could still barely survive.

Furthermore, rather than dying at the hands of Wang Quan De, he might as well die by his own hands.

Rascal, you are still too young!

As soon as Su Yi moved, Wang Quan Des voice was already beside Su Yis ear. A shapeless strength crushed down on Su Yi, locking him in place.

Refusing a toast to take a forfeit!

A cold smile came from Wang Quan Des mouth. His body like lightning, instantly appeared beside Su Yi, a hand grasped onto his shoulder, chaining Su Yi in place.

BOOM!

At the same time, Su Yi felt an enormous wave of Yuan Qi gushing into his body like it was trying to squash his meridians and internal organs to straightaway explode. There was also an obscure power rushing through his mind like it was searching for something.

But as soon as that wave of power entered his mind, Su Yi could feel that the mysterious sphere of light obscuring itself, no longer having any movements.

Eh?

After a few breaths, Wang Quan De was a bit confused. After searching Su Yis body, he had only found a jade bottle with Yuan Spirit elixirs in it. You do not even need to open it to know that there were only low-grade elixirs.

This was not what Wang Quan De was looking for. Not even taking a look, he threw it off the cliff and continued searching Su Yis body carefully for something, but other than a dagger, he found nothing else.

Brat, where did you hide the treasure?

Wang Quan Des expression changed, his face had already darkened to its limits and he threw Su Yi back onto the ground again. He had wasted so much time, how could he leave with no rewards.

Puh!

Su Yi's mouth sprayed out some blood. A powerful Yuan Qi reverberated inside him until his Qi and his blood were churning. He struggled to get up. He had completely gotten rid of his amiable attitude, and no longer needed to bluff. His eyes stared coldly at Wang Quan De, he said, Good, what an excellent Sacred Mountain, what an excellent Dharma Protector of Sacred Mountain. Behind the amiable and kind face is a nature of betraying for the sake of benefits, how my horizons have expanded!

Brat, hand over the treasure and martial techniques, do not test my patience! Wang Quan De coldly stared at Su Yi, this kid must have a huge secret.

With your shameless and wicked actions, are you not afraid of retribution? Su Yi looked at Wang Quan De and said. The so-called Sacred Mountain, the so-called paradise and holy land for cultivators, at this moment, Su Yi saw its true nature and had no more hope for it.

Retribution? The strong prey on the weak, this is natural selection, survival of the fittest! This has always been nature's law. If you want to blame something, then blame that you, kid, is too naive, too weak, hehe Wang Quan De sneered. The strong prey upon the weak, this was the only rule that never changes in this world.

Haha, that's right, the strong preys upon the weak, this has always been the law of nature!

Su Yi laughed, there was agony in his laughter. When he finished laughing, the corner of his mouth which was stained with blood added a touch of savagery to his expression. His cold yet determined eyes stared at Wang Quan De, he said, The strong prey upon the weak! Today if I, Su Yi, does not die, there will be a day when I step onto Sacred Mountain and rip you into a thousand pieces!

#### Chapter 43: Golden Titanic Python

What big words you have, kid. Your ignorance is why you have no fear. Stepping on Sacred Mountain, haha! Wang Quan De chuckled. Stepping onto Sacred Mountain, not many people in the world dares to say such words.

If I do not die today, I will hack you into a thousand pieces! If Sacred Mountain hinders me, then I will just flatten it to the ground! If Sacred Mountain dares to hold me back, then I will just bathe it with blood! said Su Yi coldly. A shade of crimson red appeared in his eyes for a moment, causing the temperature of the surrounding drop quite a bit.

Being stared coldly by Su Yi, for some unknown reason, Wang Quan De trembled, and could not help but shiver slightly.

Brat, less nonsense! Hand over your techniques and treasure or else I will let you unable to cry for mercy nor beg for death! Wang Quan De's heart grew slightly heavy, he did not know why this kid actually gave him a feeling of insecurity. Looks like no matter what, this kid must die today.

I have already said, I have only cultivated the Su Family's Purple Yuan Technique, if you want it, take it. For treasure, where on earth would I get any treasure, if you want to kill me, why bother to look for an excuse, just make your move, Su Yi coldly said. If he does not say anything, who else could take away the Supreme Chaotic Yuan Technique. Wang Quan De seemed to have looked for it just now but he did not discover the mysterious sphere of light in his mind, naturally he could not find it even after some time.

Looking at Su Yi, Wang Quan De really started to doubt whether he had seen wrongly, but during the battle between this kid and Ji Chao that day, the aura that had burst out, he had seen it himself. It could not have been faked.

Hooowl!

Suddenly, there was a loud roar of a beast from far away.

Wang Quan De raised his eyes and looked behind him, his expression changed. That was the sound of the Cloud-Piercing Wolf Eagle. Looks like the mercenaries have all died and it was coming here.

At the same time, Su Yi clenched his teeth and used all his strength. Now that Wang Quan Des concentration was not on him, the Yuan Qi within him flowed and like an arrow which had left the bow, he dived off the towering cliff.

If you are looking for death, I shall help you!

Wang Quan Des eyes filled with killing intent, his body lunged forward. No matter how fast Su Yi was, how could he have a chance when he was in his control. Wang Quan De simply threw a punch and it landed heavily on Su Yis leaping back.

Boom!

A low and dull sound of an explosion came from Su Yis back and following it, Su Yi sprayed out a mouthful of blood. His internal organs felt like they had been blown apart, his view turned pitch black and he lost all his consciousness. His body then fell through the air like a bird which had its wings broken, falling straight down the cliff.

HOWL!

The Cloud-Piercing Wolf Eagle had arrived, its speed was extremely fast, and it appeared nearby in the air.

Wang Quan Des eyes were gloomy, his face had darkened completely with rage. He had done so much, yet he received nothing. He originally thought he could get some powerful treasure. The greater the expectations, the greater the disappointment.

Dharma Protector Wang!

The Cloud-Piercing Wolf Eagle hovered in the air above, the man who was in-charge of the test at the City of Man hurried down. He saw only Wang Quan De on the cliff, he asked surprisedly, Where is that mercenary leader and Su Yi?

Sigh, I was too late. They have all died, Wang Quan Des grim face was replaced by a sigh.

Su Yi had also died?!

The looks of the man changed greatly and hurried to the edge of the cliff, looking down below. Blurry fog was everywhere, and it was so deep that you could not see the bottom. He said to Wang Quan De, This kid Su Yi may be troublesome alive, but since he has died in our hands, shall we go down and search for his body?

It is so deep that one cannot see the bottom, even I dare not to go down so easily. This is the Forest of Demons, there might be some powerful beasts down there, give it up.

Wang Quan De shook his head and asked, Have the remaining people been taken care of? We must hurry back, there can be no more accidents.

Just a mob of people, there were quite a few who had escaped but the remaining were all taken care of. Some of our people were injured but none died, The man replied.

Then all is good. Lets return immediately to Sacred Mountain, Wang Quan De said, he looked one last time over the edge and then leaped onto the Cloud-Piercing Wolf Eagle and left.

Inside a chaotic valley, where the surroundings had been trampled flat, fresh blood flowed along the ground, painting a gruesome picture over the area.

After some time, there were beasts cautiously probing out of the surrounding trees. Seeing the ground covered with corpses, they turned aggressive and rushed forward in a cluster, feasting upon the fallen.

HOWL!

A mighty beast roared. Like a hybrid between a wolf and an ape, it was savage beyond comparison. Razor-sharp fangs filled its mouth, its aura was very powerful and frightened back many weaker beasts munching on the corpses on the ground.

A vast and deep abyss, filled with fog which hid everything inside.

Below the towering cliff, so deep that no one could see the bottom, a pitiful scene could be seen.

Currently, on top of a gigantic tree, a body laid there with bloody back, skin torn apart, and flesh scattered around.

If not for the skin of this body now radiating a faint glow, one might just mistake it for a dead corpse.

Hiss

Beneath the cliff, a Golden Titanic Python several metres long was lurking around. Each scale on its body was golden and was as big as a baby, currently looking at the body on top of the tree. Its bright red tongue flickering in and out, its eyes showing a look of fierceness.

The Golden Titanic Python seemed to be very interested in the figure on top of the tree, and yet it had felt some sort of aura, making it hesitate and not daring to approach it, leaving a trace of fear in its eyes.

Although the figure on the top of the tree seemed to be unconscious, aura moved within its body, Yuan Qi flowed on its own. Its breathing was weak, but it had an air of tyranny and authority around it.

Hiss

The Golden Titanic Python seemed to fear the aura around the body. It kept hesitating and dared not approach. For a long time, it did not dare act and was just lying in wait among the roots, closely monitoring that body.

When Su Yi regained his senses, he only felt that his entire body was bursting with agonizing pain, especially on the back, a searing pain seemed to pierce through his heart like ten thousand arrows.

He could not muster any strength in his body, his head felt dizzy and his vision blurry, he was as weak as he could be.

When he opened his eyes, Su Yi's vision was still blurry, gradually it cleared up. After taking a clear look at his surroundings, his eyes shone with happiness.

I am not dead!

Su Yi was ecstatic, though the pain on his body was extreme, it was also proof that he was not dead. It seemed that after he had taken a heavy hit of Wang Quan De and fell unconscious, he had fallen beneath the cliff and miraculously landed on the canopy of this tree.

Wang Quan De, there will be a day where I will step onto Sacred Mountain and rip you into a thousand pieces! Su Yi said coldly in his heart. He was not dead, this was the will of the Heavens, then this grudge has to be settled properly.

Ahh!

Su Yi cried out in agony, now there was a more realistic problem placed in front of Su Yi, his body had been seriously injured to point where he could not be any weaker, he did not even have the strength to turn his body.

Feeling the injuries within his body, him not dying this time truly had to be considered a miracle.

Su Yi knew that luckily, Wang Quan De was careless and did not care enough to search for his body and with his strong body, he had managed to dodge this bullet.

If Wang Quan De was to add just a bit more strength, he would really be dead now.

Chapter 44: Yuan Spirit Elixirs

Su Yi struggled to get up, he wanted to sit and heal his injuries.

But his body refused to move. Su Yi could only wait helplessly until he had recovered slightly.

After Su Yi regained consciousness, the aura which was emanating from him also dissipated.

The Golden Titanic Python which was laying in wait at the foot of the tree seemed to have felt it, a fierce look appeared in its eyes, it really wanted to go up.

But this Golden Titanic Python still remembered the scary aura that was being emanated from the body and kept on hesitating cowardly.

Just when this python seemed to have made its decision and started approaching the top of the tree with its bright red tongue flickering in and out, the air of tyranny emanated out once again from within Su Yi's body.

In an instant, the Golden Titanic Python was filled with dread, instinctually backing off a bit, it continued lying in wait patiently for any changes.

Time gradually passed, and luckily underneath the towering cliff, Su Yi need not worry about anyone approaching him. That Wang Quan De should have already thought that he was long dead.

Executing the Supreme Chaotic Yuan Technique, Su Yi was healing himself.

Su Yi's injuries this time were too severe, many times more serious than the injuries he suffered last time when he fought with Ji Chao.

Only after a full four hours did Su Yi feel that his body felt slightly more comfortable.

Opening his eyes, Su Yi struggled to get up and wanted to sit up straight, at least he had to summon the space within the mysterious sphere of light.

Within that space, his speed of recovery was increased by quite a bit.

Argh!

Su Yi struggled to get up, but his entire body felt like it had split apart, the pain was incomparable.

Tolerating the wrenching pain within the body, Su Yi gradually sat up, the intense pain made his face twist slightly.

Hiss

Once Su Yi stopped his cultivation, that Golden Titanic Python raised its head once again, looking straight at Su Yi, its eyes showed fierceness, but it was full of fear as well.

Whoosh

Suddenly, seeing Su Yi sitting up, the Golden Titanic Python retreated, silently slithering into the crevice between the rocks behind it, leaving no traces behind. Only within the crevice, a pair of beastly eyes secretly observed Su Yi.

After struggling for half a day, Su Yi sat up after much hardship, his face pale white.

As long as I am not dead, then I will have a chance. Wang Quan De, I, Su Yi, hereby swear that there will be a day when I would step on Sacred Mountain and rip you to shreds! Su Yi's eyes grew cold.

Eh, it's the Yuan Spirit Elixirs!

Suddenly, Su Yi was delighted. Not far from where he was, a jade bottle silently hung in between the branches.

That was the jade bottle that his grandfather gave him a few days back. Inside were three Yuan Spirit Elixirs in total, afterward, it was found by Wang Quan De.

Wang Quan De did not care about such low-grade elixirs and threw the jade bottle off the cliff.

But Su Yi never imagined that this jade bottle had also landed somewhere not far from him.

Back then because his injuries had almost fully recovered, Su Yi decided not to consume the Yuan Spirit Elixirs and had planned to return them to his grandfather.

His injuries were just too serious, but now these Yuan Spirit Elixirs were not far away, this made Su Yi overjoyed.

If he consumed the Yuan Spirit Elixirs and enter that space within the mysterious sphere of light once again, at that time he should be able to recover more with less effort than usual.

Ahhh

Moving his body, he felt like his entire body was splitting apart again.

On the top of the canopy, Su Yi was also scared of falling down. If that happened, he would not know whether there will be any more miracles, so he had to be extra careful.

After much difficulty, the jade bottle was finally in Su Yi's hands. Currently, Su Yi's head was filled with sweat after obtaining the jade bottle.

Feeling that the surroundings were secure, Su Yi did not feel the need to climb up the rocks.

With the state Su Yi's body was in, even moving ever so slightly was arduous. He could not climb up even if he must.

Though this may be beneath the towering cliff and looked safe, this was the Forest of Demons, there may be some unexpected dangers.

Su Yi did not dare be careless. It was better to recover as fast as possible.

Opening the jade bottle, the smell of medicine rushed into his nose, it was all the smell of the Yuan Spirit Elixirs.

Something's not right

But at this moment, Su Yi's face looked really confused. He felt that the smell of the Yuan Spirit Elixirs was not right.

It was not the smell of the Yuan Spirit Elixirs going bad, rather, it was a medicinal smell which was completely different.

Because he had come in contact with the Yuan Spirit Elixirs two days ago, Su Yi could still remember the smell of the elixirs clearly, so the moment he opened the jade bottle, he could feel the difference.

As he was confused, Su Yi immediately took out the three Yuan Spirit Elixirs within the jade bottle.

Eh, what's this?!

But when he saw those three Yuan Spirit Elixirs, Su Yi was even more confused.

The three Yuan Spirit Elixirs were the same as the three Yuan Spirit Elixirs back then, but now the luster of the elixirs was far brighter than before.

The thick medicinal smell and faint movement of aura were also much stronger than a few days ago.

In this world, elixirs were ranked into seven grades: Heavenly Grade, Earth Grade, Xuan Grade, Yellow Grade, Star Grade, Mirage Grade, Moon Grade. Every grade was also separated into Beginning Level, Middle Level and High Level, these three levels.

Yuan Spirit Elixirs were only Moon Grade, Beginning Level elixirs.

But the Yuan Spirit Elixirs which Su Yi was currently holding in his hands, no matter how he felt, compared to what he saw a few days ago, this elixir appeared to have been upgraded an entire level, like it had been purified and remade.

Su Yi was deep in thought. He could not understand how this had happened.

This was too abnormal. The Yuan Spirit Elixirs were always on him, how would they have changed like this. It was as if they had been upgraded by an entire level, was it that Yuan Spirit Elixirs could upgrade themselves?

Of course, Su Yi knew that Yuan Spirit Elixirs could not automatically upgrade themselves.

But from what he could see now, and the truth was placed in front of him, the Yuan Spirit Elixirs have been upgraded by an entire level.

Unless

Su Yi carefully pondered and was very confused, then his eyes shone. These Yuan Spirit Elixirs were indeed always on him, but in the middle, it was touched by Wang Quan De and had also been thrown down the cliff by Wang Quan De.

Su Yi could naturally confirm that this was not done by Wang Quan De.

Thinking until here, Su Yi's eyes shook. The Yuan Spirit Elixirs had never left his side. But when he was recovering a few days ago in the Su Estate, he brought it with him over into the mysterious space within the sphere of light.

Unless this has something to do with the mysterious space?

His eyes were slightly shining. Su Yi suspected that the changes of the Yuan Spirit Elixirs may have some relation to the mysterious space.

Though, it was quite unimaginable. When Su Yi thought a bit more, the mysterious space itself was already unimaginable. The more he thought, the more he felt that there was that possibility.

Hiss

Suddenly, there was a sound.

Who is it?

Su Yi was seriously injured, his head felt heavy and his legs weak, but his basic cautiousness was still there, and he instantly detected the direction of the sound.

A Golden Titanic Python around thirty meters in length suddenly appeared. Its entire body was covered with lustrous golden scales, each one the size of a baby. It was coiled in wait at the roots of the tree, a bright red tongue was flickering in and out of its mouth non-stop, its eyes fierce, closely staring at himself.

Strictly speaking, Su Yi could feel that this Golden Titanic Python was closely staring at the three Yuan Spirit Elixirs in his hand.

Demonic Xuan Realm!

Su Yi suddenly did not know whether to laugh or to cry. Currently, he could feel from the aura which was being given off by the Golden Titanic Python, based on his experience of living in the Forest of Demons for three years, this was definitely a Demonic Xuan Realm beast.

Chapter 45: Stalemate with the Python

Demonic Xuan Realm Beast. There's no doubt it was equal to a cultivator of the Yuan Xuan Realm.

And beasts normally have some innate talent in them, such as enormous strength, tough skin with hard flesh amounting to a strong defense, speed as swift as the wind or maybe relentlessness like no other.

So normally, at the same cultivation level, a beast would be slightly stronger than a human.

Su Yi could also feel that this Demonic Xuan Realm beast was not your average Demonic Xuan Realm beast, it was already touching the border of the Demonic Spirit Realm.

Is this a joke?

Su Yi resigned, his eyes turned serious and exhibited caution. He knew that even at his best, he would also not be able to take on this Golden Titanic Python.

Furthermore, he had zero combat capability now. He could not even move a muscle and could only wait silently to become a delicious meal for this python.

s

The Golden Titanic Python aggressively stared at Su Yi. It was originally hiding in wait, but smelling the medicinal fragrance of the Yuan Spirit Elixirs in Su Yi's hands, it could not bear to hide any longer.

It hesitated at first, but it was now gradually approaching Su Yi, its eyes closely following the Yuan Spirit Elixirs in his hands, although the snake still approached really slowly due to caution.

You filthy beast, don't come near me or I will pull you down together with me!

Su Yi said to that Golden Titanic Python while he purposefully shook the branches beneath him, but with Su Yi's current strength, the branches only shook very slightly due to its size.

The Golden Titanic Python seemed to be unable to understand Su Yi's words, or maybe it just couldn't be bothered with Su Yi. It continued to coil itself around the tree, gradually slithering up to Su Yi.

I did not perish in Wang Quan De's hands, am I going to die in the jaw of this snake now? Su Yi was in despair, just after he had thought that the lady luck and miracles were watching over him as he did not die even after being thrown from a tall cliff.

But now it seems that the lady of miracles was looking after this snake instead. What great luck this snake has, to have a delicious meal sent from the sky as it was laying under the cliff.

Ha!

Though Su Yi knew that he could not avoid this Golden Titanic Python, but he was not someone who would give up straight away in the face of death, that was not him. The Yuan Qi in him may be weak and little, but he still initiated the Supreme Chaotic Yuan Technique, no matter what happens, he must fight with his all against this gigantic snake.

When Su Yi initiated the Supreme Chaotic Yuan Technique, a majestic and tyrannical presence flowed around him, causing the Golden Titanic Python to suddenly halt. Fear could be seen in its fierce eyes as it moved no further.

Eh?

Su Yi had also felt that something was wrong. How come this Golden Titanic Python suddenly stopped in its tracks with fear lurking in its eyes?

Is this because of the Supreme Chaotic Yuan Technique?

Su Yi pondered and stopped performing his Supreme Chaotic Yuan Technique.

When he stopped performing the technique, the Golden Titanic Python tilted its head up and its eyes stared straight at Su Yi. With the reduction in pressure, the snake seemed to want to approach although with hesitation.

Hmm.

Su Yi's eyebrows furrowed as he initiated the Supreme Chaotic Yuan Technique once again.

Fear could be seen clearly in the eyes of the python as it got more worked up. Its head, which had just tilted up, bowed down immediately as it waited from afar, not daring to move even an inch closer.

This snake fears the Supreme Chaotic Yuan Technique!

Su Yi's eyes were filled with glee, for this could save his life. Somehow, this Golden Titanic Python stifled with fear when he activated the Supreme Chaotic Yuan Technique.

Though Su Yi did not know why the snake feared the technique, he gladly accepted it for this was like a gift that had descended from the heavens.

Su Yi immediately initiated the Supreme Chaotic Yuan Technique and gradually healed his wounds, although his eyes continued to monitor the python, for he did not dare to be careless.

Under the presence emanated from the Supreme Chaotic Yuan Technique, the Golden Titanic Python looked at Su Yi from afar and did not dare to move forward. The two sides seemed to have entered a stalemate.

I must recover as soon as possible.

This stalemate lasted for an hour before Su Yi's eyes furrowed once again.

He did not know when this stalemate would end nor how long he could keep this up for.

Su Yi only knew that he must heal his wounds as fast as possible. Although it was not convenient to enter the mysterious space, he could at least consume the elixirs to speed up his recovery.

An elixir which had been leveled up mysteriously by almost an entire level was thrown directly into Su Yi's mouth.

The elixir melted as it slipped down his throat, and converted into a warm, rich and dense energy. It gradually seeped into his bones and every cell of his body.

At first, this seeping of energy gave Su Yi an indescribable pain, but shortly after, he started to feel much more comfortable, like a long-awaited downpour enriching the dried earth after a long drought.

There was always a pure energy within an elixir, but as the Supreme Chaotic Yuan Technique continued performing, the energy was turned into Yuan Qi within his body and entered the Ocean of Yuan Qi within the Dantian.

Su Yi's recovery was a lot quicker after consuming the Yuan Spirit Elixir, as the Supreme Chaotic Yuan Technique seemingly had an effect of making injuries heal quicker.

But because of the Golden Titanic Python, Su Yi did not dare to fully focus on recovering. He had to keep an eye out for any sudden movements of that python.

This stalemate continued for another four hours. The Golden Titanic Python feared that presence on Su Yi's body and did not dare approach, but it had no intentions of leaving.

Su Yi also felt dejected, he was injured as serious as he could be, but he still could not fully focus on recovering.

If it continued like this, he did not know how goddamn long it would take before being able to fully recuperate. But, what he feared even more so was that the Golden Titanic Python would stop fearing him and suddenly rush over to him, what would he do if that happened?

With his current ability, even if he was in his peak condition, he still had no way to fight the python.

Lala

Suddenly there was this sort of sound softly coming from the direction of the cliff.

But the Golden Titanic Python was very sensitive to this sound and it suddenly raised its head, and the color of its eyes changed as if it was very anxious. After briefly taking a look at Su Yi, the snake immediately retreated swiftly. Slithering along the stone wall as it quickly disappeared into the dense fog.

Has it finally left?

Su Yi sighed in relief as he stretched out his neck to take a look below as the branches blocked his field of view.

Furthermore, there was a dense fog all around him. At most, he could only see 3 meters ahead of him.

Hesitating for a short while, he clenched his teeth and made his decision.

I must recover quickly!

That snake may return. He must make the preparations for it. At least under this towering cliff, there shouldn't be anyone who would still come down here.

Hand seals started to form as a soft glow started to form in between Su Yi's eyebrows. The light rippled across the branches and enveloped Su Yi's entire body in a flash.

The blinding light blanketed the canopy and the area under the towering cliff, but this light did not go far as it was blocked by the dense fog.

When Su Yi's figure started to become clear once again, he had already arrived in the mysterious yet familiar space.

The space that was originally around 10 meters in radius had already expanded to around 30 meters in radius.

The spiritual energy inside was dense to the point that the surroundings were blurry from the faint glow, creating an impression that it had separated this space from the outside.

Is it really the work of this space?

Su Yi had brought along the remaining two Yuan Spirit Elixirs, placed the jade bottle on the floor and removed its cork.

I must hurry and recover.

Su Yi did not dare to waste any time at all. He was already inside a rich-energy area, he must make use of this opportunity to recover as much as possible. No one knew when that Golden Titanic Python would return.

Chapter 46: Battle between the Python and the Ape

Executing the Supreme Chaotic Yuan Technique within that mysterious space, the rich natural energies of heaven and earth helped Su Yi to recover as fast as possible back to his peak condition.

Currently, the First Level of the Chaotic Yuan Demonic Body, Indestructible Vajra Body, was exerting its full effects on the recovery of Su Yi's heavily damaged body.

This feeling made Su Yi feel that he was experiencing what the people in his previous world called regeneration. He could clearly feel his entire body recovering.

From within the complete Supreme Chaotic Yuan Technique, Su Yi knew that that the forging of his physical body during the past three years was only for the First Level of the Chaotic Yuan Demonic Body, Indestructible Vajra Body. The Second Level was Heavenly Yuan Demonic Soul.

The first level, Indestructible Vajra Body was the cultivation of the physical body. The second level, Heavenly Yuan Demonic Soul was the cultivation of the soul.

Currently, Su Yi had some expectations. Since the Indestructible Vajra Body could make his physical body so much stronger than those in the same cultivation level as him, then when he reaches the realm of Heavenly Yuan Demonic Soul, that would also be able to strengthen his soul significantly.

As Su Yi performed the Supreme Chaotic Yuan Technique to heal his injuries, the mutated Yuan Spirit Elixirs within his body which he had consumed earlier was now spreading to every fibre of his being, turning into a rich and dense type of energy and becoming more effective compared to the usual Yuan Spirit Elixirs

Beneath the towering cliff, the dense fog made the surroundings blurry.

Within a huge cave, the Golden Titanic Python furred and its scales gave off flashes of light. Its tongue continuously flickering in and out of the mouth. It was furiously staring at a several meters tall giant green ape in front of it.

Filled with spirit, the eyes of this giant green ape were giving off a faint green glow. Its mouth was full of sharp fangs. It was staring eye-to-eye with the Golden Titanic Python, both sides not giving up a single step.

!

Rearing upwards, the Golden Titanic Python hisses loudly. Its narrow eyes were closely following the movements of the Gigantic Green Ape.

Strictly speaking, what the Golden Titanic Python was closely looking at was the palm of the Gigantic Green Ape which was currently holding two eggs.

The palm-sized eggs had rune-like markings on it and its entire surface was glossy and smooth.

Roar!

The Gigantic Green Ape beat its chest with its one free hand while roaring. Strange liquid with fragments of eggshells was flowing out of its mouth. It seemed to have already eaten a few eggs.

!

The Golden Titanic Python could not hold back any longer and it shot itself towards the ape. Its entire body was glistening and giving off a powerful aura.

The Giant Green Ape gave off a deep roar. Its face contorted with rage. Its shoulders shook as that gigantic body instantly leaped into the air. The sole of its feet gently lifted off the ground as if it was flying. While airborne, its sharp claws lunged towards the Golden Titanic Python.

As the ape lifted off the ground, the sound of an explosion resonated through the cave.

The eyes of the python changed slightly because of that strong presence. In an instant, a golden stream of light shot out from its mouth and turned into something like a streak of golden lightning and with a light as sharp as a saber and sword, it flew straight at the Giant Green Ape.

The Giant Green Ape clawed. Light also spurted out from its palm. The two lights collided as an explosion sounded through the air and afterward, the claw continued its path towards the Golden Titanic Python.

At this moment, the Golden Titanic Python was already in the air and its gigantic tail swiftly lashed out and hit the back of the ape heavily.

The ape felt that something was not right and emitted a green solid-looking light from its back, covering as much of its body as possible.

Bam!

The tail of the Golden Titanic Python slammed fiercely against the ape's back. The gigantic figure of the green ape stuttered forward and the green light seemed to be unable to withstand such a heavy blow as it gave off tiny sounds of cracking.

Humph!

The ape groaned as its body fell to the ground. It seemed to have taken serious damage.

ROAR!!!

The green ape was enraged. It threw the two golden eggs in its hand to the side and beat its chest with both of its hands. A faint green light swirled in its eyes and with a terrifying swiftness, it pounced on the python.

!

Seeing the golden eggs being thrown to the ground and cracks appearing on the glossy eggshell, the Golden Titanic Python became as ruthless and enraged as it could ever be. Not giving the ape any chance to breathe, it lunged at the green ape.

Bang! Boom! Bang!

Two gigantic beasts with similar strength fought each other. Sounds of terrifying loud smashes and explosions burst out from the cave. Boulders shattered and the earth trembled.

This battle of the gigantic beasts lasted for quite a long time before everything started to quieten down.

Finally, the Golden Titanic Python slithered out of the cave. Injuries painted its body. Agony could be seen in its eyes. It reared its head as if it had remembered something and slowly slithered towards the top of the cliff.

At the cliff, in the midst of the dense fog, there was a brilliant, holy looking light.

The humongous tree was currently enveloped in a glaring light with a dense rich energy flowing out from it.

From who knows when, sounds started radiating from the top of the cliff wall and many beasts had appeared.

One by one, the beasts had appeared on top of the stone, gazing upon the glaring light which had enveloped the tree. Their eyes showing respect and fear. Their bodies trembled slightly and one by one they bowed down as if facing an emperor.

Within the crevices between the rocks, a Golden Titanic Python appeared with its body blanketed in injuries.

#### Chapter 47: Strange Phenomenon

Looking at the beasts which had appeared all of a sudden in the surroundings, the wild eyes of the Golden Titanic Python were nailed to the light enveloping the tree. The aura which was leaked from the light filled its eyes with shock. Unconsciously, it lowered its head slightly as its body went closer to the ground. Respect and amazement can be seen from the snake.

But as if something cheering him, the Golden Titanic Python lifted its head up once again and after kowtowing like how a human would, it moved towards the light, slowly dragging its injury-riddled body towards the roots of the tree.

The beasts in the surroundings were confused upon seeing this sight. One by one, eyes filled with astonishment fell upon the snake.

The Golden Titanic Python gradually made its way forward. The aura of the light filled it with fear and respect, but at this moment, it seemed to have some kind of reason which fuelled its unwavering will to continue forward. It clenched its jaw and finally made it into the light.

On the edges of the wall of the cliff, a huge tiger, a small fiery-red mink, and a white bird walked forth. Seeing the Golden Titanic Python entering the light, they, who had hesitated before made their decisions and started walking towards the light.

A human baby sized black mouse quietly followed behind the tiger and the mink.

A butterfly with wings as white as pure white jade, around 3 meters in size flapped its wings and followed behind the black mouse.

As for the other beasts, they looked at each other and while they had the desire to step forth, they feared what laid ahead of them and did not have the courage to enter the light.

Within the mysterious space, Su Yi was sitting with his legs crossed. Time slowly went by as the skin which was once painted with injuries regained its healthy jade-like glow. Rosiness replaced the paleness of his face. The Xuan Qi within his meridians let out the sound of flowing water.

Within his mind, Su Yi continued to gain insights about the Supreme Chaotic Yuan Technique. In order to become strong, to be able to step upon Sacred Mountain one day and mince that Wang Quan De into a thousand pieces, Su Yi knew that his only hope laid within the Supreme Chaotic Yuan Technique and the mysterious space.

But cultivation was something which could not be rushed and what was most important now was to raise his cultivation and have a firm grasp on his skills. Until now Su Yi still had not been able to refine the Overlords Fist which he learned by himself and the Wrath of the Eight Wastelands which he had acquired.

Hence, while he was recovering from his injuries, Su Yi was also gaining insights about the refining method for the Wrath of the Eight Wastelands.

Overlords Fist was a Kempo, though extraordinary. It was also simple and overwhelming.

And this Wrath of the Eight Wastelands was a leg-based martial technique and compared to the simple and overwhelming power of the Overlords Fist, it was slightly more complex, but it still had the same overwhelming aura.

Being fully engrossed in gaining insights, Su Yi totally forgot the fact that Golden Titanic Python was still somewhere outside.

Within his Sea of Yuan Qi, the originally drained Yuan Qi was becoming abundant once again. Sounds of deafening thunder and violent winds complemented the revitalization of his Sea of Yuan Qi.

Boom!

Once the Sea of Yuan Qi within Su Yi became filled up once again, the Yuan Qi whirlpool spiraled and rampaged as if there was a typhoon. The roaring sounds of thunder and wind were continuous and with a final burst, it completely exploded within Su Yi. His aura at that instant rose immensely.

His aura rampaged around the mysterious space and only after a while did everything calm down.

This commotion caused Su Yi to snap out from his state of being engrossed in gaining insights. He took apart his hand seal and halted his rhythmic breathing.

His eyes opened and the light within them was glaringly bright. Like lightning, it burst out and died down immediately. Sharp yet deep was the light which burst out from his eyes.

I wonder how many days have already passed. Luckily, now I have recovered.

The very instant Su Yi felt what has changed within his body, he became slightly happy. He had almost fully recovered and most importantly, his cultivation seemed to have progressed quite a bit. Su Yi felt that he had broken through to the next grade.

Is this Yuan Soul Realm Second Grade? Su Yi raised his eyebrows. This breakthrough gave him an indescribable feeling of satisfaction.

But afterward, Su Yi's eyebrow furrowed and recalled that he was still in dangerous waters. That Golden Titanic Python was still lurking outside.

F\*ck, what happened here?!

Suddenly, Su Yi was dumbfounded. With one look, all he could see was that this space which was around 30 meters in radius was now filled to the brim with beasts as far as he could see. Even the Golden Titanic Python which he was worried about was now right in front of him.

Not good.

It was an instinct and together with his three years of training, Su Yi subconsciously leaped back with a burst of speed.

After Su Yi retreated back, he was confused. He could only see the horde of beasts in front of him was covered with a light and this light seemed to have originated from the deep depths of this mysterious space as if it had descended from the heavens and fell upon these beasts.

The eyes of the beasts were now all shut tight, their bodies glowing. The light which encased them seemed to be full of life as if they were wrapped up in a heavenly light.

Su Yi cautiously looked at the horde of beasts in front of him. A humongous tiger, a fiery-red mink, a white bird, a black mouse as big as a human baby, a three-meter wide butterfly with pure white jade wing and that Golden Titanic Python were all within his mysterious space. What in the world was this?

What made Su Yi surprised the most was that there were still two faintly golden eggs, roughly the size of a palm, currently also being encased by the light from the mysterious space.

What has happened here?!

Su Yi was shocked. He had no idea what had happened.

It was at that moment, the light from above began to gradually dissipate into nothingness.

Once the light which had enveloped the beasts disappeared, one by one they woke up. Their eyes opened, their gaze filled with ruthlessness, their aura overpowering.

So strong! They are all in Demonic Xuan Realm. No, That Golden Titanic Python seemed to have made a breakthrough! When the beasts woke up, their bodies, big or small stood up straight. Their auras released without limits. Su Yi was once again stunned.

Currently, the aura of each beast present there was at least of the Demonic Xuan Realm and the aura of the Golden Titanic Python seemed to be much stronger than before. It seemed to have made a breakthrough in cultivation.

Howl!

!

The beast roared and when they looked at Su Yi as if they met an emperor. They genuflected themselves, their eyes filled with respect and awe.

What is this?

When Su Yi looked at the horde of beasts in front of him which did not attack him but instead lowered themselves to the ground. He was extremely dumbfounded.

Su Yi's worldview was completely shattered. This kind of sight was unimaginable. These beasts should be ruthless and cruel, but now they did not treat him as prey, but as an object of respect and admiration.

Could it be?

Su Yi pondered as if he recalled something.

Chapter 48

Looking at the docile beasts in front of him, Su Yi recalled the scene which he had just seen earlier. Something seemed to have happened to the beasts in this mysterious space when they were enveloped by the light.

Maybe all this had something to do with the mysterious space.

Seeing the shocked Su Yi, the beasts lifted their heads and looked at him. Their eyes filled with respect and curiosity.

Breathing in deeply and calming the shock in his heart, Su Yi started to snap out of his daze.

Observing the beasts in front of him, there was a huge tiger, a fiery-red mink, a white bird, a black mouse the size of a baby, a jade-white butterfly three meters large and the Golden Titanic Python.

There were altogether six beasts and the one with the strongest aura was still the Golden Titanic Python.

Now, the aura of the Golden Titanic Python seemed to have entered the Demonic Spirit Realm.

You guys may be able to understand me. If so, just nod!

Looking at the beasts and seeing them gaze at him. Su Yi could not help but ask them the question.

Beasts were considered demonic beasts, but it was only after a beast had entered the Demonic Void Realm that they were considered a true member of the demon clan. Only then were they considered as true demonic beasts.

Rumors had it that beasts which had entered the Demonic Void Realm were even able to speak the human tongue.

And the beasts which had entered the Demonic Emperor Realm, let's not talk only about Demonic Beasts, but once any demon entered the Demonic Emperor Realm, it would be able to turn into a human form.

But now, Su Yi just wanted to know whether these six beasts understood his words.

Howl!

Chirp! Chirp!

Following Su Yi's words, the six beasts let out a roar. They did not nod but rather it seemed like they replied.

They really do understand me.

Su Yi was stunned for a moment, but then he did not think too much of it.

Demonic Xuan Realm beasts were stronger than the cultivators of the same cultivation level. Naturally, their intelligence would not be too far apart either.

Though Su Yi was surprised that these beasts could understand his words, he did not find it all too strange.

Why did you guys come in? Su Yi asked the beasts.

Hearing his words, the six beasts looked at each other and did not know whether to nod or to shake their heads.

Oops, I forgot that you guys aren't able to speak the human tongue, Su Yi was slightly stunned but then he smiled bitterly. These beasts could understand him, but they had no way to speak to him.

The Golden Titanic Python's tongue flickered in and out of its mouth. Its eyes closely followed Su Yi. It moved its tail and brought the two golden eggs not far away in front of Su Yi, its eyes pleading for something.

These eggs are yours? Seeing that the Golden Titanic Python did not have its initial hostility towards him, Su Yi was not as cautious as before, but he still did not let his guard down.

The Golden Titanic Python nodded its head, showing that he fully understood what Su Yi was saying.

What do you want me to do? Su Yi gazed at the two faintly golden eggs which were on the floor. He was confused, he did not know the intentions of this snake.

The Golden Titanic Python continued to flicker its tongue, and its tail repeatedly moved the golden eggs towards Su Yi's feet.

Are you trying to let me eat them? Su Yi was dazed for a moment. Could it be that this snake wanted to have me eat these two eggs? The nutrition level of snake eggs seemed to be extremely high and furthermore, these were the eggs of a Golden Titanic Python, the nutritional level must be through the roof.

Hearing Su Yi's words, the Golden Titanic Python immediately changed its attitude and curled up its tail, protecting the two eggs within the coil. Its eyes looked at Su Yi with caution, like it was on guard against a bandit.

And the other beasts were also surprised and looked at each other.

Im just joking. Do you want me to take a look at these two eggs? Su Yi gently smiled and asked the snake.

The eyes of the snake were filled with delight and it repeatedly nodded its head.

Su Yi crouched down and began examining the two eggs, but he still had his guard up against this horde of beasts.

It seemed to have cracked.

Carefully examining the two golden eggs, their glossy surface seemed to be smooth and glowing, but they had multiple small cracks as if they had been dropped on the ground before, however much of it had already closed up. The original cracks should not be so shallow.

There's still vitality in these eggs, they seem to still be alive.

Su Yi discovered that within these two golden eggs, there were signs of movement. There were lives inside of them.

Su Yi was also surprised. Within these two eggs, there was also a strange power moving around. The aura given off was extremely powerful.

What made Su Yi more surprised was that the strong aura emanated from these two eggs seemed to have some kind of connection with him. The connection was very strong, but this strong connection seemed to have calmed down afterward.

Do you want me to do something? Su Yi carefully placed the two eggs in his hands onto the floor. He looked at the Golden Titanic Python and asked. He was also very curious about these two eggs.

The Golden Titanic Python kept on nodding, his eyes pleading for something.

Su Yi's eyebrows furrowed as he examined the two eggs. He could not understand what the Golden Titanic Python wanted him to do.

Suddenly, the Golden Titanic Python slithered up to where Su Yi was once seated and kept on pointing towards the jade bottle which contained the Yuan Spirit Elixirs with its tongue. Then, it turned around and looked at the two eggs.

Could it be?

Su Yi's eyes squinted slightly and asked the Golden Titanic Python, Are you trying to say that these two eggs are injured and you want me to use the elixirs to heal them?

!

The Golden Titanic Python nodded its head, its eye gleaming with joy.

This-

Su Yi was shocked. It was not that he could not bear using these two Yuan Spirit Elixirs. If he could become friendly with this initially hostile Golden Titanic Python with just the two Yuan Spirit Elixirs, then that was definitely a good thing.

But the problem was that these two eggs were not beasts or creatures. How could they consume the elixirs?

Furthermore, when Su Yi just checked the two eggs, other than those minor cracks, there seemed to be no other injuries. He could even feel a powerful aura swirling within.

Woo, woo!

The Golden Titanic Python slithered beside the two eggs and coiled its body around them. Its eyes were full of pain and sadness as it gave out a cry of lamentation.

Su Yi looked at the Golden Titanic Python. There was no doubt that these two eggs were the offspring of the snake.

It may be that the golden eggs were seriously damaged and the Golden Titanic Python wanted to use the elixirs to save its children.

Let me try, but I do not know whether it will work. Nevertheless, I will do my best.

Such a scene touched Su Yi's heart as he promised the snake.

Hearing Su Yi's words, the eyes of the Golden Titanic Python beamed and instantly it shifted the two eggs in front of Su Yi and looked at him gratefully.

F\*ck, is it really like this?!

Chapter 49: Submittance of a Thousand Beasts

F\*ck, is it really like this?!

At this moment, Su Yi shouted in shock.

In Su Yi's palms were the two Yuan Spirit Elixirs which had just fallen out of the jade bottle. They gave off a faint glow and a rich energy could be felt moving in them.

What Su Yi was so shocked about was that these Yuan Spirit Elixirs when compared to before they entered the mysterious space, they were once again upgraded by a huge amount.

No matter what was it, the medicinal fragrance or the glow of the elixirs, they were on a whole new level compared to the Yuan Spirit Elixirs from before they had entered the space as if they had reached a level of completion.

Im rich, hehe!

Su Yi grinned. His eyes already formed a thin line.

Now, Su Yi could confirm that within this mysterious space, not only could it raise his cultivation and recovery speed, but it could also raise the quality of elixirs.

For example, if he were to buy a batch of low-quality elixirs and put it inside the mysterious space and once their quality improves, the prices of the improved elixirs would be incomparable to the original prices of the elixirs. After selling them, his profit would be enormous.

He would also be able to improve the level of any elixirs which he required and then consume them. The effects would be much, much better than before.

Thinking about that, how could Su Yi not be ecstatic. This was an enormous find!

Within the mysterious space, the few beasts were surprised as they looked at Su Yi which suddenly started grinning from eye to eye and they curiously observed Su Yi.

He, its nothing, nothing at all.

Su Yi snapped out of his delusions and looked at the beasts which were staring at him with a strange look in their eyes. He chuckled and then his expression became serious. He firmly grasped one of the Yuan Spirit Elixirs and Yuan Qi started to move within his palm.

As the Yuan Qi moved, Su Yi's eyes slowly began to close.

Then, the Yuan Qi which was flowing in Su Yi's palm began to emit a warm aura.

Su Yi could still remember back when he was being tested by Sacred Mountain, he had four Yuan Qi attributes and one of them was the fire attribute.

Naturally a fire Yuan Qi attribute would be able to give off heat.

But Su Yi had never tried using just one of the attributes within his Yuan Qi. He did not expect it to really work.

As the fire attribute within his Yuan Qi began to flow out by itself, it gave off a warm aura which gradually became hotter and hotter and the Yuan Spirit Elixirs within his palm began to melt into a pool of Spirit Essence.

In the next moment, Su Yi's eyes shot wide open. He opened his palm, the Yuan Spirit Elixir which had melted into Spirit Essence was crystal clear and gave off a bright glow.

At the same time, Su Yi took an egg and rubbed the Spirit Essence in his palm all over the cracks of the egg and let the essence gradually seep into the cracks.

With the Spirit Essence, the cracks of the eggs seemed to have life and began to absorb all the essence as if there was something within the eggshell consuming the Spirit Essence.

It took a whole hour before the Spirit Essence which was formed from the twice-upgraded Yuan Spirit Elixirs fully seeped into the golden egg.

How strange, Su Yi examined the golden egg once again. The cracks on the egg had actually healed to the extent where it could almost not be detected anymore. Though, if you look very closely you could still see it but compared to before, it had already recovered a lot.

It seemed to have worked.

Su Yi beamed with delight and brought the golden egg which had been rubbed with Spirit Essence in front of the Golden Titanic Python.

!

Feeling the changes of the eggs' aura, the Golden Titanic Python was incomparably ecstatic and looked at Su Yi with unmeasurable gratefulness.

Now, let us continue.

Seeing as it really does work, Su Yi repeated the process once again and rubbed the Spirit Essence from the second Yuan Spirit Elixir onto the second egg.

The other beasts stood at the side quietly waiting with curious gazes.

Finishing everything, Su Yi heaved a sigh of relief.

Saying that Su Yi's heart did not pain to use those two Yuan Spirit Elixirs would absolutely be a lie. They were originally given to him by his grandfather. He himself could not bear to use them. Furthermore, those Yuan Spirit Elixirs had already been upgraded twice. The value of them was even higher than before!

But seeing that the originally dangerous situation had resolved itself peacefully and the auras within the two golden eggs also seemed to have some sort of a connection with him, Su Yi bore the

heartache and in addition, he found out another property of what the mysterious space could do. So, he felt better as well.

The eyes of the Golden Titanic Python were now overflowing with gratefulness.

We should go out now, Su Yi told the beasts.

The beasts nodded their heads, their eyes filled with respect and admiration.

Su Yi found it very strange. He could not understand why these beasts would respect and admire him so much. Could it be another function of this mysterious space?

After a brief clean-up, Su Yi initially wanted to the Golden Titanic Python to bring the two eggs along as they leave, but the snake kept shaking its head and tried to tell Su Yi something.

After a while, Su Yi understood that the snake wanted to leave the eggs in this space.

Okay then, Su Yi pondered for a short while and then nodded his head in agreement. With those two eggs on him, he would not need to be afraid of the snake doing something to him once they left the space.

If those six beasts turned on him the moment they left the mysterious space, then Su Yi knew very well that he would be a goner. He had no way to fight back.

But Su Yi's worries were excessive. After keeping the mysterious space, the six beasts were either jumping, flying, sitting or circling Su Yi. They did not show any signs of betrayal and remained respectful.

Eh?

Once Su Yi looked at the stone wall in front of him, there was a sea of beasts. Although the weakest was only Yuan Soul Realm, there were hundreds, maybe even over a thousand of these beasts.

Su Yi's expression changed. He had no idea what was going on and how did he attract so many beasts.

Howl!

Chirp! Chirp!

The tiger roared, the bird screeched, and the mouse cried out.

The sounds shook the entire place and echoed around Su Yi.

Roar!

Grumble!

Following the roars and cries of the beasts with Su Yi, the hundreds of beasts on the rock wall roared together in response and genuflected themselves as if they were facing an emperor.

The tiger, black mouse, red mink, the huge butterfly and the bird stood at Su Yi's left and right.

Su Yi was shocked. Are these beasts submitting to me? What is happening?

The Golden Titanic Pythons tongue flickered and then it gently tugged on the corner of Su Yis tattered clothes.

Do you want me to follow you? Su Yis eyebrows furrowed and asked the snake. He was not really sure about the snakes motives.

Hearing Su Yis words, the Golden Titanic Python nodded its head hard. It was obvious that it was ecstatic.

#### Chapter 40: Danger Midway

Demon Spirit Realm! When the huge Cloud-Piercing Wolf Eagles aura burst out, the face of the middle-aged man in short clothes changed tremendously. A Cloud-Piercing Wolf Eagle in the Demon Spirit Realm is extremely hard to go against. Furthermore, this Cloud-Piercing Wolf Eagle seemed to be rather high in its Demon Spirit Realm cultivation.

ROAR!!! The Cloud-Piercing Wolf Eagle roared and began its merciless slaughter. Stretching its wings and roaring, creating a violent gust as it charged into the mercenary group, ripping several mercenaries to shreds instantly, splattering blood all over the ground.

This sudden turn of events made even these mercenaries, who slaughtered constantly trembled involuntarily, hairs standing on their ends.

ROAR!!! The Cloud-Piercing Wolf Eagle did not stop its attack., Its roars were deafening, resounding in the entire valley. So loud that even from a distance away, there were sounds of beasts roaring in response.

The Cloud-Piercing Wolf Eagle flapped its wings and dived again, beginning its offense once more as its sharp teeth and metallic claws ripped and tore like a killing machine.

Not good, retreat!

Its way too strong, hurry and retreat!

There were people who had already started to run away as they panicked.

You do not know your place, die! The looks in the eyes of the youths from Sacred Mountain became merciless, and they also began their attacks. Yuan Qi materialized under their feet into figures of beasts. The beasts roared and begin their attack together with the youths. All of them were Yuan Spirit Realm cultivators.

Do not panic, join hands and counterattack! hurry! The middle-aged man recovered from his shock. Being able to form a mercenary group in the Forest of Demons, other than having exceptional power, he also had experience in commanding people.

Grab those few newbies, grab more of them! The middle-aged man shouted. Although the ability of people from Sacred Mountain was not average, there were also some Yuan Spirit Realm cultivators in the mercenary group. They may be slightly lower skilled, but it was not to the point that they would throw their hands in the air and run away.

Furthermore, in this situation, if they managed to grab onto a few newbies from Sacred Mountain, then the situation should also be able to change from a dangerous one to a better one.

Everyone work together, do not panic! Hearing the shouts from the middle-aged man, the originally panicking mercenary group regained much of their discipline and order.

Leader, we will take care of this Cloud-Piercing Wolf Eagle!

Two Yuan Spirit Realm cultivators went to block the Cloud-Piercing Wolf Eagle, the remaining men of the mercenary groups locked onto the group of young men and ladies.

Measly thieves! The youths from Sacred Mountain all had cold looks in their eyes. Aura flowed around their body, weapons were drawn. Though they may be young, they were definitely not something these mercenaries could match up to.

Rather, it was He San, Mo Bu Fan, Song Wu Qiu, Liu Yanni and the rest of the young men and ladies from the City of Man who was panicking.

Courting death! Wang Quan De made his move. Yuan Qi flowed, his figure shot out. A hand seal formed and the few mercenaries that dared to charge their way were instantly blown back, landing heavily far away.

ROAR!!! The Cloud-Piercing Wolf Tiger roared, though it was being tied down by two Yuan Spirit Realm cultivators, it took an opportunity to open its huge mouth, biting onto two unlucky mercenaries not far away.

Fresh blood dripped from its razor-sharp fangs, dyeing the floor with blood, causing people to shiver at the sight of it.

This scene was even more frightening to He San, Liu Yanni and the rest.

Capture those newbies, they must be captured alive! The middle-aged man hollered, the situation was urgent. Only by capturing hostages could they resolve this crisis. They would not need to worry about any massacre by Sacred Mountain.

When the middle-aged man finished his words, looking at Wang Quan De killing quite a few brothers of the mercenary group, Yuan Qi appeared under his feet. The sole of his feet touched the ground and a bone of a beast an arm-thick appeared in his hand.

This bone had been repeatedly sharpened till it was razor-sharp, but by channeling Yuan Qi in, the bone of the beast glowed. The bone seemed to exude the presence of a fierce beast it used to be a part of as he charged towards Wang Quan De to block him.

Barely passable. Wang Quan De also seemed a bit surprised at this middle-aged mans strength. Meeting a cultivator of such skill in the Forest of Demons was not your everyday occurrence. He smiled coldly, a shock ran through his arm and he met the man head-on.

Rumble!!!

The battle was chaotic, the Yuan Spirit Realm cultivators of Sacred Mountain seemed to have a silent agreement as they formed a circle around the youths they brought along, protecting each one of them by their side.

In addition, Li Ling and the rest of the disciples from Sacred Mountain were not weak and did not have much trouble while fighting the mercenaries, rather, the number of mercenaries alive was dropping fast.

Behind the boulder, Su Yi hid in a corner, observing the entire battle.

Currently, Su Yi could see it the clearest, though the mercenary group had the advantage in numbers, in quality they were nothing like Sacred Mountain.

But, it was also not that easy for the people from Sacred Mountain.

Every one of these mercenaries lived and survived through by the sharp edges of sabers. They were in front of absolute strength, obviously, they could not match up to Sacred Mountain.

But the people from Sacred Mountain had to protect quite a few youths. And these youths, even if they were the disciples of Sacred Mountain and their strength was not normal, but in a real battle, their experience was far from enough.

These disciples from Sacred Mountain were starting to be unable to hold out against the mercenaries.

This caused the Yuan Spirit Realm cultivators to split their attention in order to protect them.

Hence, though it may seem like Sacred Mountain had gotten the upper hand, but the truth was that the battle had started to enter a stalemate.

Su Yi crouched, he knew where to hide. In this chaos, no one would notice him.

Stomp, stomp!

Not far away, the leader of the mercenary group could not stand against Wang Quan De and was beaten back.

At the same time, the middle-aged man put one foot back to hold his ground, cracks appeared underneath his feet. The bone of the beast in his hands glowed again and faintly, it exuded a presence of fierceness that was different from before, as if the beast had been resurrected. Violent winds howled and thunder was heard from the bone. It was like the roar of a beast and it was used to obstruct Wang Quan De again.

Humph! Wang Quan De gave a cold grunt, without any hesitation, powerful Yuan Qi burst out from within his body. A strong aura spiraled around the place, blowing away the rocks and grass in the surroundings. A palm slammed against the bone.

BOOM!!!

The glowing bone in the hands of the middle-aged man dulled and due to the strong impact, he was beaten back again.

The situation does not look good. Currently, the face of Su Yi who was hiding behind the boulder became slightly ugly in a moment.

While the mercenary leader was getting beaten back continuously, but the fact that he's still alive indicated that he still has a trump card in his sleeve.

Let me see exactly how strong the Sacred Mountain is! Being beaten back continuously while his brothers falling one by one, the middle-aged man was also infuriated. Hollering, his Yuan Qi surged, strands of black Yuan Qi swirled around him like a snake, finally gathering within the beast's bone in his hand.

ROAR!!! In this instance, the bone shined, and one could actually hear actual roars of the beast now. Its aura exploded, shocking the air and causing a terrifying commotion.

Go! The middle-aged man shouted, throwing the beast bone in his hand straight towards Wang Quan De. In that instance, the beast bone was giving off a glaring light and it was like a streak of lightning as it shot towards Wang Quan De with a menacing aura.
