Chapter 461: Seeking Wealth and Danger!

"There are too many demon beasts, we can't stop them!"

"We are no match for the demon beasts of Demonic Spirit Realm level!"

"..."

Someone spoke to the group of young men and women standing at the forefront, many of whom possessed exceptional temperament and uncommon aura. Their eyes were full of hope and expectation, as though they had found a savior.

"This is very abnormal, something must have happened!"

A young man spoke, his gaze sharp and his clothes stirring slightly.

...

At night, the atmosphere is quiet.

Many figures appear listless, with dimmed eyes in the darkness of the night.

A young man, around twenty-one or twenty-two years old, with an inner disciple emblem on his body, had a pale complexion. He showed a reverent and respectful attitude in front of another youth who seemed to be of a similar age.

He is Futeng Guang, who has been in seclusion for meditation and cultivate.

With his current cultivation, he is comparable to some direct disciples. He thought that his outstanding performance in the Battlefield of Ten Thousand Swords would be enough for him to become a direct disciple.

Who knew that upon entering the Battlefield of Ten Thousand Swords, they would encounter hordes of unstoppable demon beasts.

If he hadn't been quick to hand over the space bag, the consequences would have been unimaginable.

Senior brother, that's how things happened. Everywhere, demon beasts were robbing space bags, and we were no match for them," Futeng Guang respectfully said to the young man in front of him.

On the fair and indifferent face of the young man in the dim moonlight, the faint glow of his eyes and the darkness of his long eyelashes cast a thick shadow below his eyes, giving him a delicate and feminine appearance. Despite the solemn waves in his bright black eyes, he didn't even look at Futeng Guang as he calmly and indifferently spoke, 'They only target the space bags without deliberately killing anyone. It seems that either the sect intentionally arranged this to increase the difficulty of the Grand Swordsmanship Competition, or there are capable people secretly involved. Either way, it seems that this year's Grand Swordsmanship Competition will be different from the past.'

As the words fell, the man's lips below his straight nose turned crimson, and his tall and slender figure was accentuated by his white clothes. Though he appeared slim, he was far from fragile. His black eyes gazed calmly at the stars twinkling in the night sky.

Futeng Guang secretly looked up and glanced at the young man in front of him, as if he wanted to say something, but hesitated to speak.

"Just say what you want to say. After all, you are my cousin. After this trip, you should be able to become a direct disciple of the Fifteenth Sword Peak. There's no need for reservation," said the young man in white, as if he could read everything from Futeng Guang's face.

"Senior brother, Su Yi also entered the Battlefield of Ten Thousand Swords."

Upon hearing this, Futeng Guang's courage grew significantly. He immediately looked at the young man in white and said, "However, we haven't received any news about that kid. But since he entered, he has offended many people and even snatched some inner disciples' space bags."

"Su Yi... He's the one who crippled Teng Ming and severely injured Ba Yi and others, right?"

The young man in white said lightly, "There won't be no one at the Fifteenth Sword Peak. If there's a chance, let's meet there."

...

In the early morning, the dawn illuminated and the mist was hazy.

"Phew..."

A breath of stale air spewed out of Su Yi's mouth, causing his robe to flutter. His breathing was vigorous and strong, and his face regained its healthy redness.

Feeling everything inside his body, Su Yi smiled contentedly.

The flesh of the demon beast of the Demonic Spirit Realm level is indeed of great benefit. Over the course of the night, Su Yi not only recovered his energy expenditure, but his vitality also noticeably increased.

Situ Muyang, Xu Jiahui, and Zhang Qing also woke up. After retracting their hand seals and opening their eyes, it was evident from the smiles on their faces that all three of them had gained a lot from the experience.

Liu Ji, Wang Fan, and Qing Chao, on the other hand, were still shrouded in light, with fluctuations of energy from the surroundings emanating from them.

"These three guys, are they preparing for a breakthrough...?"

Su Yi stood up and looked at the three from afar. Judging from the commotion, it appeared that Liu Ji and the others were all in the midst of a breakthrough, having derived benefits from the flesh of the demon beast. It was highly likely that they were going to step into the Yuan Xuan Realm.

Breakthroughs are unpredictable, with varying lengths of time. It's hard to say when a real breakthrough will occur.

Su Yi didn't want to linger in this place. This was the lair of the Wolf-headed Demon Bat, which guarded the Dark Spirit Fruit Tree. The direct disciples should have already entered the Battlefield of Ten Thousand Swords and it was likely that people from other places would also come looking for the Dark Spirit Fruits. It wouldn't be wise to stay here for too long.

However, under these circumstances, with Liu Ji and the others in the midst of a breakthrough, any disturbance could derail their progress. At best, it would set them back, and at worst, it could lead them down a dangerous path.

Fortunately, the three of them all had breakthroughs in quick succession. Three new auras emerged, and Liu Ji and the others stepped into the Yuan Xuan Realm.

The breakthroughs of the three individuals were swift, and they derived great benefits from the flesh of the demon beast.

For them, who were at the Yuan Soul Realm cultivation level, consuming so much flesh from Demonic Spirit Realm level five demon beasts was a great nourishment.

Of course, the most important thing was the benefit that Liu Ji and the others gained from the Spiritual Essence from Su Yi's mysterious space. The flesh of the demon beasts was only a catalyst.

The three of them broke through and stepped into the Yuan Xuan Realm, brimming with joy. They stood up and bowed to Su Yi, tears welling up in their eyes.

All three of them knew very well that, were it not for Su Yi, they would never have had such an opportunity. They had entered the coveted Yuan Xuan Realm with ease, without having to exert any effort whatsoever.

"No need to be polite, we should set off now."

Su Yi smiled faintly, also happy for Liu Ji and the others. On the Thirty-Sixth Sword Peak, they had also received care from Liu Ji and the others. It was a pity that there were a dozen or so outer disciples on the Thirty-Sixth Sword Peak, and a few had been missing and not encountered.

Situ MUYANG watched from the side, his eyes flickering. He could see that Su Yi had always been taking care of Liu Ji, Zhang Qing, Xu Jiahui, and the others.

That ferocious guy may be harsh to others, but when it comes to treating his own, he is generous and protective.

"We'd better leave here early."

Later, Su Yi, Situ MUYANG, Xu Jiahui, and others said that it was not suitable to stay here for long.

"Those direct disciples should be on their way to search for the Dark Spirit Fruits."

Situ MUYANG said and couldn't help but give Su Yi a disdainful look. So many Dark Spirit Fruits on a single tree. They were all plucked out by Su Yi now. It was likely that when those direct disciples arrived, they would fall apart one by one.

"Where are we going?" Zhang Qing asked.

"There is a place to go."

With a mysterious smile, Su Yi then commanded the leader of the Wolf-headed Demon Bats to gather all the Wolf-headed Demon Bats and leave for a while, finding a place to temporarily stay for ten to fifteen days. They would come back once the direct disciples who were searching for the Dark Spirit Fruits had left.

"This is not difficult."

The Wolf-headed Demon Bat replied in its own language that as long as there was a cave, it could temporarily settle in it.

After a moment, the pack of Wolf-headed Demon Bats spread their wings and left in a grand and majestic manner.

"Let's set off too!"

With a smile in his eyes, Su Yi watched as the grand pack of Wolf-headed Demon Bats departed. He turned to Situ MUYANG, Xu Jiahui, Zhang Qing, and others standing by his side and said:

Chapter 462: What About the Dark Spirit Fruits?

"Squeak..."

The Dark Golden Demon Falcon screeched, spread its wings and took off, carrying everyone into the sky.

The leader of the Wolf-headed Demon Bats followed closely behind.

Deep within the Battlefield of Ten Thousand Swords, the leader of the Wolf-headed Demon Bats, a fifth-grade Peak Demonic Spirit Realm demon beast, was around. Su Yi had decided to bring it along as an extra measure of security.

During the times of danger, the leader of the Wolf-headed Demon Bats could assist and protect Xu Jiahui and several others, including Zhang Qing, whose strength was not sufficient.

"Where are we going?"

On the back of the Dark Golden Demon Falcon, Situ MUYANG asked Su Yi.

"Going to search for opportunities."

Su Yi informed them of his plan and through the mouths of many leaders of different sizes and expressions, he had learned much information.

There were some reliable, as well as unreliable sources of information, but Su Yi wanted to try and search for it anyway, because he might just make a discovery.

The sun is high up in the sky, shining upon the mountains.

On the ancient land, towering mountains, dense forests, deep gorges and cliffs abound.

"Let's set off and search for opportunities!"

On the back of the Dark Golden Demon Falcon, Su Yi stood tall with a straight posture, with his sword intersected behind his back. He was handsome with his purple robe fluttering in the wind, and he added a touch of fierceness to his proud and wicked temperament.

"Some places are dangerous, so be careful." Situ MUYANG had to remind Su Yi.

"What's there to fear? Wealth and glory come from taking risks." Su Yi chuckled.

Later, Su Yi asked the leader of the Wolf-headed Demon Bats, hoping to learn more about the situation from his level of cultivation.

"Master, I do know of some places not far from here, but they are guarded by demon beasts stronger than me. It's likely that they contain spiritual medicine, otherwise those beasts wouldn't be guarding them," said the Wolf-headed Demon Bat.

"How strong are those demon beasts?" Su Yi's eyes flickered as he asked, wanting to know whether the information was reliable.

"Those few demon beasts rarely come out, and they are estimated to have the cultivation level of six levels of the Demonic Spirit Realm."

The Wolf-headed Demon Bat said that although it had reached The Peak of the Fifth Grade of the Demonic Spirit Realm, the difference in strength between one level of cultivation was like two different levels, making it very wary.

"Then let's depart and head to the nearest one first."

Su Yi estimated that he still had a chance. One must take risks to gain rewards.

So, these few figures and two demon beasts plunged into the vast mountains.

Dusk, mountains.

"Roar..."

Wolf howls resounded, blood thirst surged.

"Bat, dare you come and offend me as well!"

From a mountain cave in a gorge, a deep and muffled roar in the language of beasts sounded out. A huge and scale-covered pangolin demon beast, emanating black light, dashed out and spat out a beam of light towards a Wolf-headed Demon Bat in the air.

"Roarrrr..."

The Wolf-headed Demon Bat directly activated the Bloodthirsty Enchantment Barrier, causing a surge of bloodthirsty aura and faintly emitting the sound of ghosts and gods wailing.

"Wuwu!"

Why would this pangolin demon beast fear the Wolf-headed Demon Bat? It is in the sixth level of the Demonic Spirit Realm, and it is also the overlord of this area. It exudes a surging aura, causing sand and stones to form a tornado that rises into the sky.

"Hulala..."

Under this aura, the entire canyon shook, space rippled and boiled, the aura was overwhelming, and the scene was terrifying, dispersing the bloodthirsty aura.

However, suddenly, this pangolin demon beast seemed to sense something, suddenly changing color, with fierce and uneasy eyes.

"Wrath of the Eight Wastelands, Oppress the Mountains and Rivers with a Single Foot!"

"Three Sabres of the Raging Dragon, Kingly Overlord Slash!"

"Boom!"

With a loud roar accompanied by a burst of immense aura and a blaze of red light, the figure of Su Yi appeared. His shining eyes sparkled like lightning, and the hunting clothing fluttered. The black hair flew and danced, his momentum carrying a raging thunder.

At the same time, following this was a spiral of elemental energy under Su Yi's feet, like a storm sweeping across, causing the earth to tremble and the air to thunder without end!

There is also the sword light shining like lightning, dragging a long red thunderbolt and bursting out. The erupting red light swept like volcanic eruption. It was as if there was a shadow of a red dragon vaguely visible, causing the rocks below to crack inch by inch, the fissures exploding, and boulders turning into dust. The terrifying aura covered the sky and the earth.

The demon beast pangolin's eyes were horrified, completely enveloped by the sky-covering crimson sword light. The immense and unparalleled fierce and domineering power swept through and made its beast soul tremble in fear and horror.

"Bang, bang, bang..."

The sword light fell, and Su Yi's figure also landed, immediately stomping heavily on the back of the pangolin demon beast with one foot.

The pitiful pangolin demon beast rushed into the ground, and cracks like spider webs spread out in all directions on the ground as thick as an arm, causing rocks to crumble.

A majestic and domineering aura arrived, causing the pangolin demon beast to spew blood. Its scales were shattered and its body was covered in bloodstains, with its mouth wide open and eyes trembling violently. It couldn't help but roar and growl, unable to resist.

After a moment, the mountain cave was filled with beautiful colors and the fragrance of medicine wafted through the air. A light green Lingzhi mushroom bloomed with radiance and clarity, making people unable to resist salivating in desire.

"Green Jade Lingzhi, what a precious treasure!"

Su Yi was delighted. This was the Green Jade Lingzhi, extremely rare and could be used as a material for refining high-quality pills.

Most importantly, it is rumored that this Green Jade Lingzhi can enhance one's spiritual power.

Things that can enhance spiritual power are incredibly rare and hard to come by.

No wonder this demon beast of the sixth level in the Demonic Spirit Realm doesn't go out much, it is definitely a valuable treasure.

Su Yi didn't hesitate and carefully put away the Green Jade Lingzhi.

In the next few days, a group of people appeared in the depths of the Battlefield of Ten Thousand Swords. They sought out some formidable demon beasts and eventually departed triumphantly.

This group of people attracted powerful demon beasts with a Wolf-headed Demon Bat, and then someone suddenly appeared and launched surprise attacks that hit the mark every time, with 100% success rate.

During these past few days, a major incident occurred.

Many direct disciples found the location of the original Dark Spirit Fruit Tree, only to discover that there was no longer any trace of it. Even the Wolf-headed Demon Bat rumoured to guard the Dark Spirit Fruit Tree was nowhere to be found.

"There are traces of a recent battle nearby, so it shouldn't have been long ago!"

"There are traces of Wolf-headed Demon Bat inside the cave, so it hasn't been long since they left!"

"There are scales and feathers up ahead, as well as broken bones. There are also partially burnt firewood and furnaces, as if someone was barbecuing and eating meat nearby!"

Soon, some people investigated and found many clues and signs.

"Someone must have taken the lead and obtained the Dark Spirit Fruits. Look for it and find out who it is!"

"It is a must to obtain the Dark Spirit Fruits, we must find that person!"

"..."

In an instant, various orders were issued and all the direct disciples began searching for the person who obtained the Dark Spirit Fruits.

At this moment, Su Yi is hiding in a mysterious space, transplanting various elixirs obtained such as the Green Jade Lingzhi and others, with a smile on his face resembling that of a miser.

"Worth the trip!"

Finally, looking at the gains of these days, Su Yi was very satisfied.

After exiting the mysterious space, Su Yi found Wolf-headed Demon Bat and Situ Muiyang, among others.

"We all have a share of those spiritual herbs. After we leave the Battlefield of Ten Thousand Swords, I will distribute them according to each person's contribution."

Su Yi spoke to everyone and patted Situ Muiyang's shoulder. He was even more polite and said, "We agreed to share good fortune and difficulties together. When we leave the Battlefield of Ten Thousand Swords, we won't forget your contribution."

Chapter 463: Ambushed!

"It's all you putting in the effort, actually I haven't been much help."

Situ Muiyang felt a little embarrassed. During the past few days, the most he had done was to help Su Yi lure out those demon beasts, but Su Yi was the one who dealt with all of them.

As he spent more time with him, Situ Muiyang also realized that it was actually quite nice to be around this terrifying guy. Everything was full of novelty and excitement.

Although it was adventurous, it was also exciting.

As Situ Muiyang looked at this fierce young man in front of him, he found himself disliking him less and less.

He even started to like and admire him a little bit. This feeling was quite subtle.

"You certainly contributed. You lured away so many demon beasts. As we agreed, we share good fortune and hardships!" Su Yi said earnestly.

Situ MUYANG smiled wryly and didn't say anything else. He asked, "So where do we go now?"

During these past few days, even though Su Yi was the one taking action every day, the thrilling scenes of facing so many powerful demon beasts also deeply tested Situ MUYANG. As a result, he became even more eager for what was to come next.

"There aren't any spirit medicines nearby. Let's go to that dangerous place!"

After pondering for a while, Su Yi's eyes lit up. The Dark Golden Demon Falcon, the leader of the Wolf-headed Demon Bats, and all the other demon beast leaders had mentioned a dangerous place that was rumored to be extremely difficult.

"Roar..."

"Master, that dangerous place is very strange. It's not necessarily easy to find and the entrance appears and disappears." The leader of the Wolf-headed Demon Bats informed Su Yi that the dangerous place was full of mysteries and dangers.

"Master, that dangerous place is said to be extremely perilous. Almost all living creatures that go in never come out, and very few people have managed to come back alive." The Dark Golden Demon Falcon spoke up. Although it didn't know as much as the leader of the Wolf-headed Demon Bats, it had also heard a lot. After all, there was only this one place within the Battlefield of Ten Thousand Swords, so anything that happened there was spread around quickly.

"Even humans don't know about that place. The entrance appears and disappears, but it's too dangerous. The atmosphere inside is terrifying, so even if living creatures discover the entrance, they don't dare to go in. All living creatures who have entered before have never been seen coming out!" The Wolf-headed Demon Bat's heart trembled with fear as it mentioned that mysterious place.

"Even the Divine Sword School doesn't know about it, so it must have something special. Maybe it really is a great opportunity."

Su Yi muttered to himself and pondered on the information he had received from the leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon. It was not difficult to know that the dangerous place was indeed very perilous and that almost all living creatures who entered never made it out.

"Go check the situation and then decide what to do."

After a moment, Su Yi made a decision and planned to go check the situation before making any further plans.

From the mouths of the leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon, Su Yi carefully learned about the situation of that dangerous place.

The dangerous place is very mysterious and seems to have appeared more often recently. It regularly has an entrance, which is one of the reasons why even the Divine Sword School is unaware of it.

As for whether the entrance to that dangerous place has ever appeared before, the leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon are not sure. At least they both don't know.

Although the entrance appears and disappears from time to time, it also has a rough area, all of which appears in the nearby mountains.

"Swoosh swoosh..."

The group rode on the Dark Golden Demon Falcon and headed towards the mountain range of the entrance to that dangerous place.

Although the distance was not close, with the speed of the Dark Golden Demon Falcon, it didn't take much time.

The mountains stretch one after another. This is an ancient forest, with towering trees connected to each other, as if forming a canopy that touches the sky. The branches and leaves spread out, flourishing and verdant, like waves in the sea.

The tall trees stand upright, appearing solemn and magnificent under the quiet canopy.

This place is too big. When the figures of Su Yi, Situ Muyang, Xu Jiahui and others arrived, it seemed as if they were immediately swallowed up by this ancient forest.

All around were deep mountains and dense forests, with towering trees and a wide variety of vegetation.

"Master, we are nearby, and there are also some powerful demon beasts around!"

The Wolf-headed Demon Bat reminded Su Yi that it had a good understanding of this area.

"The entrance is hard to come by, but if we come across it, we will definitely know." Su Yi decided to explore the area first and see if there were any gains to be made.

After half an hour, Su Yi did indeed make a discovery. However, it was not a good one, but a surprise attack from a demon beast. It was a strange beast that resembled a monkey, with sharp fangs, a body covered in green light, and hooked claws. It swooped down from the towering tree and attacked Xu Jiahui who was at the back.

"Whoosh..."

The strange beast's hooked claws were caught directly, and there was a radiant light on its fingertips. It was incredibly sharp and distorted the airwaves with a fierce and powerful force.

Silent and deadly, this strange beast possessed the talent of surprise attacks. It killed without a sound, striking suddenly with a speed as fast as lightning.

Su Yi felt something, but the help arrived too late as the speed of the beast was too fast.

"Be careful!"

A white light skimmed across as Situ Muyang's figure appeared behind Xu Jiahui. He punched with all his strength, generating a powerful explosion, blocking the attack.

"Splurt..."

"Bang!"

The impact almost destroyed everything. Situ MUYANG was directly shocked and pushed back, his body falling to the ground, and a mouthful of blood was spit out.

"Roar!"

The sword gleamed like lightning, with a crimson light permeating all around. Vaguely, there seemed to be the sound of a dragon roaring.

Su Yi made a move as he slashed out with the Three Sabres of the Raging Dragon Emperor Slash. The red sword light erupted like a volcanic eruption, and suddenly burst out overwhelmingly.

In the fierce and ferocious eyes of the strange and fierce beast, it was also completely engulfed by the overwhelming red sword light. The unparalleled and powerful momentum swept over, making it astonished. Its body shone, radiant and dazzling, a beam of energy column flew out, resisting the sword light.

"Rumble..."

Sand and stones flew around, and even towering trees were broken. That powerful sword light was actually resisted and blocked.

"Roar..."

The leader of the Wolf-headed Demon Bats pounced down and directly used his trump card, the Bloodthirsty Enchantment Barrier. Instantly, a pervasive and terrifying aura of blood and killing rushed out, spreading in all directions.

"Roar..."

The strange beast roared, its entire body covered with a blue crystal-like glow, which was soon engulfed by the rolling aura of blood and killing.

The aura of blood and killing swept over, drowning everything and causing many towering trees to wither.

But as everything dissipated, the figure of the leader of the Wolf-headed Demon Bats emerged, his gaze somewhat stunned. Surprisingly, the strange beast had escaped from his Bloodthirsty Enchantment Barrier without leaving a trace and with utter silence.

"Escaped!"

Su Yi's expression changed as that strange beast was very peculiar.

"Are you alright?"

Xu Jiahui arrived by Situ MUYANG's side, gratefully helping him up. If Situ MUYANG hadn't intervened just in time, one can only imagine the dire situation she would have been in.

"Not dead, just injured. That demon beast is very strong and very peculiar, I don't even know what it is." With Xu Jiahui's help, Situ MUYANG stood up, his face pale. He had been severely injured with just one move and hadn't even got a clear look at the demon beast.

"Be careful, that demon beast is not easy to deal with."

Chapter 464: Is the Chance Really Gone?

Su Yi arrived by Situ MUYANG's side and handed him a healing pill. The demon beast from earlier was very powerful and most importantly, it was elusive and good at hiding. This made Su Yi very cautious. While he was not afraid for himself, he had to worry about people like Xu Jiahui around him.

Situ MUYANG didn't hesitate and placed the healing pill from Su Yi directly into his mouth. After all, his space bag was all with Su Yi.

The group continued on their journey, being extra cautious after the surprise attack.

Especially Zhang QING and Liu Ji, who previously felt absolutely safe with Su Yi around, now felt fearful and had to be even more careful.

Fortunately, it seemed that the savage beast had moved further away and didn't appear again, for the next while.

After more than half an hour, Su Yi found a high-level spirit medicine in a crevice. It was almost ripe and of significant value. He carefully pulled it up with the roots and happily put it into the space bag.

"Whimper..."

Suddenly, a dazzling white light flashed and a colossal creature rushed out. Its huge blood-red mouth was opening and closing, emanating a strong smell of blood, as it charged towards Su Yi, ready to swallow him whole.

"Boom!"

Almost at the same time, Su Yi shook his arm and clenched his five fingers into a fist. A terrifying surge of elemental energy erupted like a volcano from within his fist, causing a bright red light and his fist seemed to expand.

"Buzz!"

Above the crisp sound of wind and thunder, there came a ringing sound from a fist strike, just like a thunderbolt, booming with a supreme power. The tremendous pressure of a conqueror awakening and the arrival of a monarch resounded through the entire space.

In the next moment, a fist collided with the fierce beast's huge blood-red mouth. The fist roared, and the surrounding space seemed to fluctuate with a kind of energy. Suddenly, an extremely violent force exploded inside the beast's monstrous mouth.

"Bang! Bang!" The tremendous gusts of wind formed waves of air that went shooting away like a storm. Wherever the storm passed, it produced a series of muffled, astonishing roars that sounded like thunderclaps exploding.

Su Yi stumbled slightly and took a step back, causing the ground beneath his feet to crack.

The fierce beast, on the other hand, was directly overturned, and its huge blood-red mouth was shattered and sprinkled with blood mist.

With a wave of his sleeve, Su Yi released a burst of Qi that filled the air, isolating the blood mist outside.

"Splash..."

Accompanied by the spraying of blood mist, a white giant python fell in front of Su Yi's eyes, already dead and its bones decayed.

This fierce and intimidating scene not only frightened Zhang Qing but also shook him to the core.

Observing the corpse of the giant python in front of him, Su Yi concluded that the python had a cultivation level of fourth stage in the Demonic Spirit Realm, based on their previous fight. Indeed, wherever there were spirit medicines in the Battlefield of Ten Thousand Swords, there were demon beasts guarding them, making it difficult to obtain.

"It's a pity that this giant python won't be eaten."

This giant python had the fourth stage cultivation level in the Demonic Spirit Realm and its blood and meat were valuable supplements. Although Su Yi felt a little reluctant to leave it behind, the area was not safe, as there were still other strange beasts around, such as the one that attacked him earlier.

Finally, Su Yi had to give up and pack over a hundred pounds of python meat into his space bag. Meat from demon beasts at this level was a precious commodity, and it was not easy for it to spoil.

Several people continued on the road, searching for the entrance to the dangerous place that was most likely to appear.

But until dusk, besides discovering a few medicinal herbs, the group didn't make any other findings.

"The entrance to the dangerous place changes all the time, and each appearance is different. Also, the timing is uncertain, and we may not be able to find it even if we want to," said the Wolf-headed Demon Bat. It also mentioned that this area had been searched thoroughly, but according to its knowledge, the entrance could not be found easily and would depend on our luck.

"Is it really that I don't have that kind of luck?"

Su Yi murmured, also understanding that things like this depended on luck and could not be forced.

"Let's eat barbecue and search again tomorrow. If we still can't find it, then forget about it."

Later, Su Yi spoke and asked the Dark Golden Demon Falcon and Wolf-headed Demon Bat to keep an eye out, especially around the area where they were. The python meat in the space bag must not go to waste.

After washing and preparing the meat, they started roasting it on the fire pit. After an hour, the mouth-watering aroma of the barbecue drifted for ten miles, permeating the ancient mountain range.

Situ Muyang, Zhang Qing, Xu Jiahui, and the others were already familiar with each other. They had long dispensed with formalities and were now wolfing down the food eagerly.

Su Yi ate the meat voraciously, not to mention that the flesh of this python was really delicious.

Of course, the Dark Golden Demon Falcon and Wolf-headed Demon Bat were guarding by the side, and they were not forgotten. Su Yi threw each of them a big piece of meat, causing them to salivate and eat voraciously.

After finishing the barbecue, Zhang Qing, Xu Jiahui, and the others sat confidently and began to refine the benefits contained in the flesh and blood of the demon beast.

Situ Muyang, who was already injured, started to use his energy to heal himself.

Su Yi, however, didn't dare to relax. That demon beast that had launched a strange attack during the day made Su Yi remain vigilant and sit cross-legged with his spiritual power closely monitoring the surroundings and his soul force spreading out.

Dark Golden Demon Falcon, the leader of the Wolf-headed Demon Bats also perched high up. Its sharp pupils emitted a radiant glimmer as it scanned the surrounding area like a radar.

As time slowly passed by, in this ancient mountain range, there were several figures shrouded in a glow, flickering and emitting a wave of energy.

...

At the Divine Sword School, many powerful figures gathered on the mountaintops.

The bright moon hung high in the sky, casting its moonlight.

"The Dark Spirit Fruits should be ripe by now. They are lucky to have arrived just in time for the Dark Spirit Fruits to mature."

"Yeah, we don't know if those people will be able to get their hands on the Dark Spirit Fruits. With dozens of Dark Spirit Fruits up for grabs, it's probably going to be a fierce competition!"

"The Wolf-headed Demon Bat guarding the Dark Spirit Fruits is not easy to deal with. Getting hold of the Dark Spirit Fruits will not be an easy task!"

"This is all part of training. However, with the strength of Liu Yunchuan and his companions, there shouldn't be any major issues."

"Getting hold of the Dark Spirit Fruits is surely their lucky break. It is destined to provide them with a more solid foundation than others of the same level. Their future is limitless!"

"..."

Strong figures with expectant smiles exuded powerful auras, all of them hoping that their disciples would be able to obtain the Dark Spirit Fruits.

"This time there was an unexpected incident at the Heavenly Stairs. I hope it doesn't cause any chaos at the Battlefield of Ten Thousand Swords as well."

A senior-looking elder couldn't help but worry that if there were problems at the Heavenly Stairs, there may be unforeseen events happening inside the Battlefield of Ten Thousand Swords as well.

"The Battlefield of Ten Thousand Swords will definitely not have any problems. Everything is meant to toughen up the younger generation. I'm actually curious which individuals will show exceptional performance this time!"

An elder spoke with eyes shining bright, resembling stars.

"Those disciples Yun Lingfeng, Liu Yunchuan, and Gu Chenyou are destined for greatness."

A middle-aged person spoke and said that direct disciples like Yun Lingfeng and Liu Yunchuan are destined for glory and cannot be compared to ordinary disciples.

Although it's called the Grand Swordsmanship Competition, in reality, the ones that truly caught people's attention, and the ones that the high-level members of the Divine Sword School paid attention to, are only the direct disciples Yun Lingfeng and Liu Yunchuan.

Chapter 465: Entrance Appears!

Late at night, it's quiet and peaceful.

"Boom!"

Suddenly, from deep in the mountain range, there was a burst of light that shone like the rising sun, illuminating all directions.

A tremendous aura also immediately spread out.

This aura carries an inexplicably terrifying momentum, bursting out of the bounds of time and space.

"Whoosh, whoosh..."

Under this immense aura, the figures suddenly opened their eyes and all looked towards the direction where the aura was spreading.

There, the dazzling light was like divine radiance, as if a miracle was being revealed, but the pressure from the immense aura was still daunting and terrifying.

"Roarrrr..."

The leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon growled deeply, their eyes trembling in secret. Under the aura that spread from far away, both their souls were inexplicably shaken.

"Master, that is the entrance to the perilous area!"

The Wolf-headed Demon Bat exclaimed in its animal language, as they stumbled upon the entrance to the perilous area that was rumoured about. They were shocked to find it was indeed real.

"Swoosh swoosh..."

Su Yi's figure flew out, and the vital energy under his feet stirred as his body disappeared in an instant from the original spot.

After a moment, a space crack similar to a space teleportation gate appeared on the quiet gap of the canyon, and divine radiance filled the surroundings.

Inside the crack, it was dim and profound, with no bottom in sight. Faintly, the sounds of ghosts and gods crying and howling emanated from it, while beastly roars shook the hearts and souls of those nearby.

"This is it. This is the entrance. It won't last for long, and those who enter won't come out."

The Wolf-headed Demon Bat said in the beast language, "Faced with such a vast aura, even my heart is full of awe and I dare not approach it."

"Roarrrr..."

Inside the entrance crack, a continuous roar of beasts could be faintly heard, causing Su Yi to furrow his eyebrows and feel that the aura was indeed extraordinary.

"Are we really going in?" Situ Muyang hesitated, feeling that the vast aura emanating from inside was indeed different from usual, secretly feeling fearful.

Zhang Qing, Liu Ji, Xu Jiahui, Wang Fan, and Qing Chao remained silent and stood behind. The closer they got to the entrance, the more their hearts trembled for no reason.

"Fortune favors the brave, and we have truly come across an entrance. This is fate and an opportunity that cannot be missed!"

After pondering for a while, Su Yi gritted his teeth and made a firm decision.

If we had not found this entrance, it would have been one thing, but now that it has appeared, it is an opportunity that cannot be missed, as if it were fate. The Divine Sword School is not even aware of this entrance, so there may be something good hidden inside.

"This looks very dangerous inside," Xu Jiahui expressed her concern and reminded Su Yi.

"You all can decide for yourselves, I plan on going in to take a look."

Su Yi spoke with a serious expression to everyone and said, "The dangers inside this entrance are unknown, and life or death is uncertain. I have no confidence in myself, and everything is unpredictable, so there is no way to ensure the safety of others."

"The same goes for all of you. Whether you want to come in or not, it's your choice. If you don't want to come in, then you are free to go your separate ways."

Su Yi spoke to the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats, "The dangers inside this entrance are unknown. Although the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats are both remarkable, if I can't even handle it myself, then you both can't be of much help either."

As soon as he finished speaking, Su Yi took a step forward and walked directly into the spatial rift.

The entrance appeared bottomless, shrouded in divine mist and radiating blinding light. As Su Yi's figure entered, it was as if he had disappeared without a trace, swallowed up by the abyss.

Su Yi's figure vanished without a trace, leaving no evidence behind.

The leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon's fierce eyes gleamed, looking as if they were both pondering with gritted teeth. Then, they followed suit and entered into the entrance.

Xu Jiahui and Zhang Qing didn't hesitate much. Although they were wary, they followed suit and also entered without much thought.

Liu Ji, Qing Chao, and Wang Fan followed closely behind.

"Seeking wealth and status amidst danger, who fears who!"

On Situ Liuyun's baby-faced appearance, there's a hint of an old but domineering taste. He pouted and followed suit into the entrance.

Inside the entrance, there was a dimly lit passage, with the surrounding light being faint.

Only a faint glimpse of flickering light, like ghostly fires, accompanied by the sound of beastly roaring, sent chills down people's spines.

This passage isn't tangible, but it isn't illusionary either; it's like a mixture of reality and illusion, with an immeasurable, eerie sensation.

As Su Yi's figure stepped out, he immediately felt a vast pressure hitting him head-on, seemingly penetrating through time, diffusing from the ancient past.

"Swoosh, swoosh..."

The figures of the Wolf-headed Demon Bats leader, Dark Golden Demon Falcon, Xu Jiahui, Zhang Qing, Situ Muiyang, etc., appeared in order behind Su Yi, feeling the immense pressure within the passage, all of them being suppressed.

"Have you all arrived?"

Su Yi turned around and smiled wryly.

"Let's go. I really want to see what's inside here."

Situ Muiyang said, "Since we're already here, I am actually quite looking forward to it."

The dimly-lit passage seemed to be bottomless, and everyone proceeded with caution.

"Ah..."

Not long after, Xu Jiahui let out a piercing scream, startling everyone.

"What happened?" Su Yi asked, focusing his attention.

"So many bones!"

Xu Jiahui's face turned pale as she looked towards one side, where there was a pile of white bones.

Judging from the bones, they were human bones, and the sight of a skull made Xu Jiahui let out an instinctive scream.

"Be careful."

Su Yi said to everyone, "This passage is also very mysterious and gives off an eerie aura."

The group proceeded cautiously, with the two beasts, as they encountered more and more bones along the passage, including many large animal bones and even some animal carcasses that had not yet completely dried out.

"This is the old cow. Rumor has it that it entered this entrance and I didn't expect it to have really died inside!"

The leader of the Wolf-headed Demon Bats made a discovery that the body of a demon cow had already withered and lost its vitality.

It recognized this old cow, whose strength was not below its own, surpassing it in many ways, yet it had entered this place and died in this passage. This made the heart of the Wolf-headed Demon Bat even more apprehensive.

Everyone was speechless, holding their breath, and the atmosphere was so tense and stifling that it reached its limit.

Su Yi released his mind, and his spiritual power had been probing around, remaining alert to everything.

"Roar!"

Suddenly, a change occurred in the passage ahead, and a red light suddenly filled the empty space.

"Swoosh..."

A terrifying monster, with scales all over its body and raging flames exuding out of it, fiercely pounced on Su Yi and his companions. It had a wolf's head, a tiger's back and a scorpion's tail. Its imposing aura was overwhelming and intimidating.

"Be careful!"

Su Yi shouted loudly and punched out with tremendous force, his aura surging and the red light dazzling. He was already prepared for this moment.

"Boom!"

The passage echoed with a dull thud, the vicious monster's silhouette being shattered and turned into fragments before disappearing completely, yet leaving no trace of blood.

"It's an illusion, not a real creature!"

Su Yi was amazed to find that the ferocious and brutal demon beast was not a living creature, but only an illusion or shadow.

"Roar..."

Suddenly, before Su Yi could even process his surprise, the passageway shook once again.

Chapter 466: Lingering Soul!

The just-disappeared and shattered ferocious beast's shadow reappeared, bringing a fierce aura as it attacked once more.

Although this ferocious and strange beast is a phantom, it appears as tangible, and the bloody smell emanating from its gaping jaws is intimidating.

"This is too strange," said Su Yi as he frowned, drawing his sword in his other hand. The sword glimmered as he swung it down directly.

As the sword passed, radiance emanated from it, and the ferocious and strange beast was immediately cut open, split into two by the sword.

"Roar..."

A stunning scene appeared as the ferocious and strange beast, split into two by a sword, directly restored and coalesced in the midst of several horrified gazes, then continued to attack once more.

"This is a remnant soul, unless it is completely destroyed, it cannot be dealt with!"

Situ Muyang exclaimed as he discerned the clues: the ferocious and strange beast was actually a remnant soul energy.

"Boom!"

With no time to hesitate, Su Yi's sword light brushed out, Three Sabres of the Raging Dragon descended, the sword light was like lightning, and sliced the ferocious and strange beast into pieces.

But soon, the void fluctuated, and the ferocious and strange beast remnant soul appeared again, roaring like thunder, with a terrifying and empty look.

As a Soul Tamer, Su Yi naturally has an understanding of remnant souls, and it is not easy to completely destroy these remnant soul energies.

But there is a way to deal with these remnant souls, and that is the extremely strong and yang cultivation method, which is the natural enemy of these remnant souls.

These remnant souls also have attributes that are antagonistic to each other. For example, a fire-attribute remnant soul can be suppressed by a water-attribute attack.

"Roar..."

Soon, the ferocious and strange beast condensed again, with a terrifying but empty gaze, and continued to attack.

"Boom!"

With his robe fluttering and a red light radiating, a vast and overwhelming energy emerged from Su Yi's body at this moment, as he immediately activated the Supreme Chaotic Yuan Technique.

"Roar..."

The ferocious beast, which was rushing to attack, seemed to have sensed something at this moment. As Su Yi activated the Supreme Chaotic Yuan Technique, the empty and void gaze of the beast instinctively showed a tremor of fear, while its phantom body also trembled.

Soon, the ferocious beast's empty and vicious eyes transformed into an instinctual expression of fear and shock. It let out a low roar, and its phantom body came to a halt, hovering in mid-air and not daring to move forward.

"Roar..."

The empty and savage pupils stared at Su Yi in astonishment, causing the fierce beast to gradually retreat.

"What's going on?"

Situ MUYANG was surprised and quite intrigued by what he saw.

"This fellow is too mysterious!"

At this moment, Situ MUYANG could also sense the aura emanating from Su Yi's body - a devastatingly powerful and awe-inspiring force that had made the lingering soul of the creature hesitant to approach any further.

Xu Jiahui and Zhang Qing are still shaken by the experience, their heartstrings taut.

Under the release of Su Yi's Supreme Chaotic Yuan Technique at that moment, the leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon trembled and instinctively knelt down trembling in fear.

Su Yi relaxed slightly, as he had expected. Although just lingering souls, those beastly shadows were still demon beasts, and thus the Supreme Chaotic Yuan Technique was able to suppress them all the same.

"Be extremely careful, let's continue!"

Su Yi spoke and activated the Supreme Chaotic Yuan Technique to clear the way, then continued forward.

"Roarrrr!"

The passage boiled, shining with light as the space trembled, and the roar of beasts sounded like thunder.

As Su Yi and the others approached, phantom demon beast images emerged one by one in front of them. With fierce and ominous gazes, they loomed with instinctual auras of bloodlust.

As these phantom demon beast appeared, they rushed towards Su Yi and the others. However, as they sensed the aura of Su Yi's Supreme Chaotic Yuan Technique on him, they immediately halted and retreated in fear.

"Roarrrr..."

The ground was littered with bones and covered the pathway, while phantom demon beast images roared above, revealing their snowy fangs and emanating a strong bloody stench.

The aura of these phantom demon beast images was so formidable that it reached a terrifying level, even surpassing that of the leader of the Wolf-headed Demon Bats. Fortunately, the Supreme Chaotic Yuan Technique was able to suppress it.

Xu Jiahui and Zhang Qing were both trembling and even their legs were shaking as they walked. This was too frightening.

"It's too dangerous, it's like facing a life-and-death situation!"

Situ Muyang was amazed. He felt that within each of the phantom demon beast images, which were struggling to give birth, there were a considerable number of auras that even approached the level of the Demonic True Realm.

These lingering remnants were already difficult to deal with, and if they really started attacking, the outcome could be easily guessed.

No wonder every living being that enters this place never comes out, it's simply impossible to make it out alive.

Su Yi focused his attention and suppressed the endless remnants of demonic beast shadows around him with the Supreme Chaotic Yuan Technique. As he went deeper into the area, the strength of these demonic beast shadows became stronger.

"Boom!"

Suddenly, several rays of light resembling sharp arrows burst out from the void with a radiant glow.

These are dozens of plant roots resembling stems, which are phantom plants. They seem solid, incredibly sharp, and make a whistling sound when they cut through the air.

"It's a spiritual object."

Su Yi's gaze grew heavy. This wasn't a demon beast, but a residual soul of a spiritual object. Just like demon beasts, once spiritual objects reach a certain level, they can be classified as a tribe of demonic creatures.

All things in the world possess a spirit. Even a flower, a blade of grass, or a pebble can become a demon.

"Snickering sound..."

As the several plant stems swept over, seemingly influenced by the Supreme Chaotic Yuan Technique, Su Yi also made his move at the same time. Fiery red flames exploded forth, with flames condensing into intense heat, and Yuan Qi surging out in billowing waves, sweeping towards the rays of light and incinerating them.

"Boom!"

Suddenly, a brilliant light shone forth, and a strong aura emerged, exuding a presence capable of overpowering mountains and rivers.

A brilliant light surged forth and swept towards Su Yi.

"Be careful!"

Situ Muyang made his move, deploying the Wind Battle Armor in an attempt to assist Su Yi. Wind-attribute Yuan Qi roared through his body like a storm, colliding with the opposing forces with a fierce impact.

"Bang!"

However, shortly after rushing forward, Situ Muyang was sent flying and spat out blood.

Even Xu Jiahui and Zhang Qing were also knocked away and stumbled to the ground by the terrifying Qi shockwave.

"Roar!"

The leader of the Wolf-headed Demon Bats let out a loud roar, which was accompanied by a deafening wolf howl. An endless aura of bloodthirsty evil surged and enveloped the area ahead.

The Dark Golden Demon Falcon burst into golden light and the flapping of its wings made a resounding clang.

Two demon beasts also made their move and blocked their way.

However, the radiance was too powerful for even the leader of the Wolf-headed Demon Bats to resist. That was not to mention the Dark Golden Demon Falcon; it couldn't even sustain a slight touch and was knocked away instantly.

"Boom!"

With crimson light filling his eyes, Su Yi unleashed the Three Sabres of the Raging Dragon Emperor Slash. The sword light was as fast as lightning, sweeping across all directions with a domineering aura and a mighty momentum, akin to a raging dragon.

The radiance was finally blocked, and the glow around shattered into pieces.

However, it was only the glow that shattered, revealing a figure.

The figure was elusive, with eyes that shot out a terrifying light. Sometimes his face appeared middle-aged, while at other times it seemed youthful, his appearance constantly changing.

"It's a person!"

Xu Jiahui and others stood up, looking very surprised.

"It's only a remnant soul, after all!"

Situ Muiyang stood up, bloodstains on his mouth, looking very embarrassed. His old injuries hadn't healed yet and he had new ones added now.

As the figure appeared, he looked at Su Yi, seemingly no longer suppressed by the Supreme Chaotic Yuan Technique emanating from him. He had a vacant look but exuded a strong aura, pouncing straight towards Su Yi.

Su Yi confronted the opponent with a head-on collision. With a dull sound, he was shaken back and his blood and qi surged within him. His throat was sweet, and he almost spewed out a mouthful of blood.

Chapter 467: Soul Attack!

Su Yi's gaze turned serious. This remnant soul was too powerful, far exceeding those beast-shaped remnant souls.

Su Yi had just suffered a heavy blow, and more importantly, this remnant soul could attack the soul power inside his mind. If it weren't for Su Yi's Heavenly Yuan Demonic Soul having some extraordinary properties, his injury would have been much more severe.

"Boom!"

The shadow of the remnant soul didn't hesitate and continued to strike fiercely.

Gritting his teeth, Su Yi struck out with all his might, activating the Supreme Chaotic Yuan Technique to the limit and unleashing the Wrath of the Eight Wastelands. He utilized all of his strength to the utmost.

The remnant soul's figure seemed to have little intelligence, but retained only its most basic instinct to kill. Despite the emptiness in its eyes, it radiated a murderous intent and kicked directly at Su Yi.

As they collided, the passage trembled and a brilliant radiance filled the air. An energy storm swept through the area.

"Clatter clatter..."

The terrifying aura swept through the area, causing Situ Muiyang, Xu Jiahui, and others to stagger and retreat, their figures swaying.

Su Yi was again shaken back, his right foot numb, and his blood and qi roiling inside his body.

"Roarrrr..."

Around the passage, there were also large swathes of animal shadows and remnant souls roaring and raging.

These animal shadows and remnant souls were as solid as objects, but they dared not approach Su Yi's aura. They only lurked in the distance, roaring and making people tremble with fear.

"Boom!"

The remnant shadows continued to attack, their aura filling the sky and pouring through the passage like a mountain torrent. Their radiance was blazing, causing the passage to shake and resound like thunder.

Su Yi's expression changed greatly without any other choice. He exerted his full strength and activated the Supreme Chaotic Yuan technique to its limit, driving the Overlord's Fist.

"Rumble..."

Such a collision caused the passage to seem as if it was about to explode. The radiance all around was dazzling and brilliant, shining like the rising sun and sweeping in all directions.

"Splash..."

Su Yi finally couldn't hold back anymore and spat out a mouthful of blood, his figure flying backwards.

The residual shadow arrived in an instant, with blood-red pupils and a vast aura shrouding over Su Yi, penetrating every part and rushing straight into his mind.

This aura is savage and brutal, as if it wants to devour everything, even the soul.

Just then, Su Yi's mind suddenly fluctuated with a burst of radiance. A surge of red light flickered violently, shaking everything around, erupting into a resplendent glow like a small sun, dazzling and shining.

"Whoooosh..." In an instant, from Su Yi's mind, the aura fluctuated like ripples, carrying a domineering and majestic air that seemed able to suppress the ancient times and overlook the world!

This is Su Yi's Heavenly Yuan Demonic Soul in his mind, dazzling and bright like the sun, exuding a divine radiance and emanating waves of fluctuation.

At that moment, a mysterious force seemed to have traveled through time and space, coming from ancient times and producing a thunderous roar in Su Yi's mind.

In that instant, as quick as lightning, the blood-red pupils of the hollow figure outside flinched instinctively, bursting with immense shock and fear. They immediately retreated at lightning speed, as if they had just seen something horrifying.

"Crack, crack..."

Suddenly, for an unknown reason, the passage cracked and a fissure appeared ahead, radiating a bright light that looked like an exit.

Inside that exit, a rich aura of heaven and earth permeated, accompanied by a sense of ancient solemnity that seemed to have been sealed for tens of thousands of years, which was very shocking.

"Hurry, that's the exit, let's go!"

As soon as he sensed the aura, a flash of joy swept across Su Yi's pale face, and he immediately shouted, "Xu Jiahui, Situ Muyang, let's go out!"

"Whoosh, whoosh..."

One after another, figures also immediately made their full effort and rushed towards that exit recklessly.

As the figures flew out, they were greeted by an ancient aura, as if they had opened up an ancient land that had been untouched for tens of thousands of years.

A strong aura of heaven and earth energy immediately swept over and enveloped everyone.

Everything is unknown inside, everyone hastily flew out in alarm and secretly remained fully alert, with their Yuan Qi circulating in their meridians.

Feeling the rich energy and ancient aura, a bright light appeared before everyone's eyes and they squinted, but soon everything became clear.

This is a forest, a true primordial forest.

The mountains are high and the forests are dense, the peaks towering with magnificent grandeur.

Towering tall trees rise up to the sky, vines winding around them in the shape of coiled dragons.

As the wind blows past, all the trees bend and sway, as if a hurricane has stirred up the ocean. In an instant, the waves surge and roar with the deafening sound of thunder.

The crowd is somewhat dumbfounded; this place is like a paradise, with the energy of heaven and earth being extremely rich.

Su Yi's face is solemn, and the exit behind him has already disappeared mysteriously.

Vigilant of his surroundings, Su Yi swiftly placed a medicinal pill into his mouth to heal his injuries. He secretly circulated his inner power to dissolve the pill's effects and recuperate from his wounds.

The energy of heaven and earth in the surrounding area is even richer than that on Sky Sword Peak. Su Yi secretly explores with his spiritual sense and expands his soul's power, not daring to be careless in the slightest.

"Swoosh..."

In the air, a strong energy rushed towards them.

Su Yi carefully sniffed the scent in the air, faintly revealing an ancient and heavy aroma.

"There are herbs!"

Su Yi inquired about the scent of the medicinal herbs.

During this period, Su Yi had been frequently involved with medicinal herbs, and the aroma pervading in the air couldn't escape his nose. There must be herbs in the vicinity.

"Be careful."

With the surge of his vitality under his feet, Su Yi's figure darted out to search for medicinal herbs.

Soon, Su Yi found the medicinal herbs.

"Oh my, so many medicinal herbs, there's even spiritual herbs!"

Situ Muyang's eyes lit up as Su Yi found not just one but a large pile of medicinal herbs right before him.

A pile of Purple Jade Magnolia, there were hundreds of them, lush and green, and filled with rosy dawn light.

This is the main material for refining the high-level alchemy pill "Purple Jade Elemental Pill".

There is also Purple Jade Magnolia as an auxiliary material in many star-grade elixirs.

Purple Jade Magnolia has an amazing value due to its ability to enhance vitality and stabilize cultivation.

And this is not just one Purple Jade Magnolia, but a large group of them, consisting of hundreds of plants!

"What a great place!"

Su Yi was delighted, and his eyes were already glowing with excitement. There was no need for courtesy at this point, so he started collecting the plants carefully, uprooting them with great caution, for fear of damaging even a single strand.

With the help of Dark Golden Demon Falcon, Xu Jiahui, Zhang Qing and others, Su Yi made a special reminder to ensure that Purple Jade Magnolia would not be damaged.

Then, Su Yi collected all the Purple Jade Magnolia that everyone had gathered and put them into his space bag without hesitation.

"Ice Soul Grass!"

"Fierce Flame Sunflower!"

"Spiritual Mushroom Chrysanthemum!"

"Seven Star Fairy Orchid!"

"Blood Dragon Ginseng!"

"Pure Lotus Sunfruit!"

"..."

Immediately, in this ancient forest, Su Yi discovered a large amount of medicinal herbs.

Among them, there are plenty of spiritual medicines, some of which exist in clusters.

"I've made it rich, I'm really rich now!"

"Oh my god, this is a treasure trove, I'm going to be rich!"

Zhang Qing, Liu Ji, Qing Chao, and others followed Su Yi and gained some knowledge along the way. However, now that they have seen so many medicinal herbs and spiritual medicines, they cannot help but exclaim that there are too many of these spiritual medicines.

This ancient forest is simply a massive medicinal field, with a vast and diverse array of medicinal herbs, some of which are even rare in the outside world.

Chapter 468: Summoning!

Some medicinal herbs are still growing, and picking them ahead of schedule will not be very effective.

But Su Yi didn't let this opportunity slip. His intention was to transplant all of these medicinal herbs into the mysterious space, so he could bring them out and sell them when they ripen.

Thinking of how these piles of medicinal herbs will mature and even transform into spiritual medicines, Su Yi cannot help but be thrilled. Indeed, fortune favors the daring.

Although it seems like no one has ever set foot in this ancient forest and everywhere you look there are medicinal herbs, Su Yi and his companions are not careless. They have been cautious and careful the whole time.

This ancient forest is also very large, but it is impossible to ride the Dark Golden Demon Falcon inside.

Because above the high altitude, there is a dense fog that can't be seen through. It blocks the view, so one can only navigate through the forest.

The forest air is fresh and filled with the fragrance of medicine. Occasionally, some low-level demon beasts will also roam through. When they saw Su Yi and the others, they fled like startled rabbits and didn't dare to linger.

"Be careful, it seems that there are demon beasts around here."

Using his Soul Power, Su Yi also sensed some demon beast auras. The aura was not ordinary, very strong, and alerted everyone to be extra careful.

This ancient forest hasn't been explored by humans, and has become an independent world with living creatures. Under the abundant energy of this world, Su Yi surmised that there must be some strong beings present.

"Swoosh..."

On top of a towering tree, Su Yi's figure darted up and landed on the treetop. His gaze swept over the area, wanting to know just how big this place was.

"The Battlefield of Ten Thousand Swords is already mysterious. This place, located within the Battlefield, is even more special, as even cultivators from the Divine Sword School seem to have not discovered it. Be careful."

Situ Muiyang also flew up to the treetop and stood shoulder-to-shoulder with Su Yi, scanning the surroundings and reminding Su Yi to be careful.

"Okay," Su Yi nodded.

No one knows how vast this ancient forest is. Although Su Yi and the others cannot fly on the Dark Golden Demon Falcon, they are cultivators after all and can use their vital energy. Even Liu Ji and the others are not too slow in terms of speed.

"Roar!"

Half an hour later, in front of a brilliant radiance of spiritual medicine, everyone finally encountered a demon beast.

This is a strange and unique beast that even Situ Muiyang doesn't recognize. However, its cultivation has almost reached the Demonic True Realm.

Fortunately, Su Yi displayed the Supreme Chaotic Yuan Technique and under the dominance of destructive pressure, that demon beast dared not approach and retreated.

But this also made Su Yi, Situ Muiyang, and others suck in a cold breath. The demon beast, which was close to the Demonic True Realm, would be unbeatable once it started attacking.

After encountering the demon beast, Su Yi and others had to become even more cautious.

Within two hours, everyone discovered numerous spiritual medicine again, but also encountered an increasing number of demon beasts.

Some of the demon beasts were obviously at the Demonic Spirit Realm level, but they all feared Su Yi's aura. They stared from a distance without approaching.

"Have you noticed that there are increasingly more demon beasts with stronger auras, and they are all approaching us!"

Xu Jiahui spoke, looked around, and her eyes showed a slight surprise as she discovered some peculiarities.

Su Yi and Situ Muiyang carefully looked around upon hearing this.

There were demon beasts in the surroundings that dared not approach, but those demon beasts were not staying too far away at the moment. Moreover, they were all heading towards a common direction.

Xu Jiahui discovered the peculiarity. After all, women are more delicate in certain aspects, which has nothing to do with strength.

"Very strange."

Su Yi stopped and furrowed his eyebrows. Coincidentally, the direction in which he and his companions were moving was the same as the direction of the demon beasts nearby, which is why Xu Jiahui noticed the unusual aspect of it.

"What happened to them?!"

As Situ Muiyang spoke and warily surveyed the surroundings, he suddenly discovered that the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats had already walked ahead and showed no intention of stopping.

"What happened to you?"

Su Yi exclaimed in surprise and spoke loudly.

However, the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats showed no signs of stopping, as if they hadn't heard Su Yi's words at all.

"Something's wrong!"

Su Yi's expression changed, and he surged his elemental energy underfoot. His figure flickered and he went straight to the front of the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats.

The Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats looked calm as they saw Su Yi, but they directly avoided him and continued to move forward, keeping in perfect harmony with the strangely coordinated pace of the demon beasts encountered around them.

"It seems like they have been influenced by something."

Situ Muyang arrived beside Su Yi and looked at the two demon beasts, the Dark Golden Demon Falcon, which had just brushed past them. His expression became serious.

"Wake up!"

Su Yi looked solemnly as he urged the Supreme Chaotic Yuan Technique, mixed with his elemental energy. He then let out a loud shout towards the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats.

"Boom..."

The breath shook the surrounding area, causing the void to tremble and the waves of Qi to fluctuate. The sound echoed within this ancient forest.

"Roarrrr!"

"Master!"

The leader of the Wolf-headed Demon Bats and the Dark Golden Demon Falcon's eyes trembled as they turned around. The barely perceptible red light in their eyes dissipated, and suddenly they regained their senses. They appeared shocked, and their bodies trembled slightly.

"What's going on?" Su Yi asked.

"I don't know, but it seems like something is calling out to me."

"It's a strange feeling, like something is calling me from ahead."

The leader of the Wolf-headed Demon Bats and Dark Golden Demon Falcon replied, still feeling a bit shaken. It was as if they had no idea what just happened, except that they remembered something calling out to them from ahead.

"Have you been under control?"

Su Yi asked, feeling like all the other demon beasts they encountered on the way were just controlled by something in secret, just like how Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats were apparently controlled.

"It's not quite like being controlled, it's more like being summoned with a kind of pressure and a very frightening aura!"

"It's like the summon of the demon emperor, it cannot be resisted!"

The leader of the Wolf-headed Demon Bats and Dark Golden Demon Falcon expressed their feelings from just now, they didn't have any idea what happened but that feeling was not complete control.

Situ Muyang and Xu Jiahui don't understand the language of beasts. Su Yi informed everyone about what the leader of the Wolf-headed Demon Bats and Dark Golden Demon Falcon said, so that everyone could be careful and guard against being affected.

"Very strange, something must have happened ahead!" Situ Muyang's gaze intensified.

"It's likely to be very dangerous ahead."

Zhang Qing spoke with lingering fear. The leader of the Wolf-headed Demon Bats has reached the Peak of the Fifth Grade of the Demonic Spirit Realm, and even they were unconsciously affected and almost controlled. They are afraid that things will only get worse.

"Something must have happened ahead, I'll go take a look. Everyone be careful!"

Su Yi pondered for a moment and thought that since he was already here, there was no reason not to take a look.

"Go ahead, I also want to see what else is inside."

Situ Muyang spoke with a slightly eager tone, and his young face, although somewhat inexperienced, showed a hint of self-important confidence, his eyes gleaming with a certain radiance.

"This guy has also become emboldened!"

Upon gazing at Situ Muyang, Xu Jiahui, Zhang Qing and others couldn't help but feel somewhat helpless.

After this period of time, they could clearly feel that Situ Muyang had been completely assimilated by Su Yi.

Nowadays, when it comes to adventures, feasts, and treasure hunts, Situ Muyang's level of enthusiasm is not much inferior to that of Su Yi.

Chapter 469: The Mysterious and Fiery Aura!

"You should pay attention to your safety, stay not too close, and immediately retreat as soon as you sense danger!"

Su Yi felt grave in his heart and warned Xu Jiahui, Zhang Qing, Liu Ji and others.

Xu Jiahui and others have weak strength and cultivation level. Once there is danger ahead, Su Yi knows that he will be too busy to take care of himself, let alone others.

But Xu Jiahui and others are also afraid of danger staying here, so they can only follow along.

"Understood, we will take care of ourselves."

Xu Jiahui, Zhang Qing, and others nodded, realizing that they had relied on Su Yi's protection throughout the journey. As time went on, their desire for strength has also grown stronger.

In the past, their desire to become strong, to become inner disciples, was mostly for their family, to provide a better life for their loved ones and to bring honor to their family.

However, over time, they have become increasingly aware that they must truly become stronger.

Only by becoming stronger themselves can they truly be strong.

Only now do they realize how small their previous goals were.

Immediately, without any hesitation, several people leaped forward, their energy surging as they rushed towards the direction from which the demon beasts had mysteriously advanced on them from all sides.

"Swooshing sounds..."

The sound of breaking wind resonated as Su Yi and Situ MUYANG led in the front.

Su Yi also specifically instructed the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats to guard the rear, with both being extremely cautious.

"There is indeed a very peculiar aura present."

After crossing several mountain peaks, Su Yi finally sensed a unique aura - a hot atmosphere imbued with a sense of pressure - permeating throughout the ancient forest.

Encountering more and more demon beasts around them, they all slowly advanced towards the same direction, much like the appearances of the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats at the beginning.

These demon beasts sensed Su Yi's aura and didn't attack, but instead, avoided him and continued moving forward.

"It's strange, these demon beasts all seem to be of a relatively higher level."

Situ MUYANG noticed something, that among the demon beasts that they encountered, there were more demon beasts of the Demonic True Realm, while there were fewer demon beasts of the Demonic Spirit Realm.

As for the demon beasts of the Yao Xuan Realm, there were almost none.

According to common sense, if there really is something controlling these demon beasts and affecting them, then it should be the demon beasts with lower levels of cultivation that should be more affected.

However, Situ MUYANG felt it strange that there were no low-level demon beasts around in the area.

Without stopping, Su Yi carefully observed the surroundings, pondering to himself. Suddenly, he said, 'Perhaps it's the higher-level demon beasts who are more affected.'

"Could it be like this...?"

Situ MUYANG remained skeptical, but he didn't feel anything was wrong either. It was already mysterious and strange inside this ancient forest, and nothing was impossible.

In the ancient forest, the sound of breaking winds echoed as Su Yi and the other affected ancient mutated beasts moved forward together.

"It is getting hotter and hotter..."

Quickly, Situ MUYANG, Xu Jiahui, Zhang Qing, Liu Ji and others were soon sweating profusely.

A blazing heat spread throughout the void, as if suddenly breaking into scorching sunlight.

This kind of heat cannot be blocked even by one's vitality.

This blazing aura could make the vitality inside one's body start to boil and become scorching.

All the towering trees around them and the gnarled vines had turned a reddish hue, as if they had been affected and mutated by the passage of time.

"It's too hot!"

The deeper they went, the more terrifying the blazing aura became, and Zhang Qing, Xu Jiahui and others could no longer endure it.

"It's very hot!"

Even Situ Muyang, who has the fire attribute, was starting to struggle. This blazing aura is not ordinary, and it carries a kind of pressure.

Su Yi also felt it. Even with his Indestructible Vajra Body, he realized that this blazing aura was not to be taken lightly.

Feeling helpless himself, Su Yi could only remind Xu Jiahui, Zhang Qing and others to be careful. If they couldn't withstand it anymore, they shouldn't continue to move forward.

"Su Yi, it seems like they have been affected again!"

Xu Jiahui's voice came again. Unknowingly, the Dark Golden Demon Falcon at the back and the leader of the Wolf-headed Demon Bats seemed to have been affected once more.

A level of crimson surged quietly in the eyes of the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats, losing consciousness and marching forward without caring about Xu Jiahui, Zhang Qing, and others.

"Wake up!"

Su Yi paused and let out a loud shout with the Supreme Chaotic Yuan Technique.

"What a frightening aura."

The Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats trembled in their gaze, their bodies shook, and when they came back to their senses, there was still some lingering fear in their eyes.

Unconsciously, they have been affected again.

"You come closer to me, be careful."

After pondering for a while, Su Yi realized that the Supreme Chaotic Yuan Technique could awaken the two beasts. If the aura of the Supreme Chaotic Yuan Technique were to envelop them, then perhaps these two beasts wouldn't be affected.

The group continued to move forward, but at a much slower pace, as the heat ahead intensified with each step.

Finally, after about half an hour, Su Yi leapt into the air, forming a vortex of primal energy in his foot, summoning a huge force that propelled him up several meters. Utilizing this momentum, he landed effortlessly on a towering, crimson tree.

As Su Yi landed, not a single branch on the tree trembled.

Upon seeing all of this, Situ Muyang couldn't help but secretly praise it in his heart.

His main attribute is wind, and he has put a lot of effort into mastering it since he was young.

Although Su Yi's technique seemed ordinary, Situ Muiyang knew full well that this level of mastery over primal energy and understanding of the wind attribute could not have been achieved without exceptional skill and knowledge.

At the very least, he was unable to do this step.

You see, the elders who have been guiding him since childhood are not ordinary people.

If that elder found out that an outer disciple of the Divine Sword School had surpassed him in mastery over primal energy and the wind attribute, the elder would have been furious and would certainly have given him a severe beating.

Impressed by the sight, Situ Muiyang also felt a surge of primal energy in his feet.

Situ Muiyang wanted to secretly compete with Su Yi, so he soared into the air and landed quietly beside him.

"Swoosh..."

The tree branch underfoot trembled slightly as Situ Muiyang felt a hint of helplessness in his eyes. It was obvious that, even with his deliberate effort, he was still somewhat inferior.

"That's the place..."

Su Yi's voice reached Situ Muiyang's ears.

Following Su Yi's gaze, Situ Muiyang put away his wandering thoughts and looked ahead.

It seems that the front has already walked out of this ancient forest, or rather, the front is already the center of this ancient forest.

A vast expanse of flat ground appeared, with a massive mountain surrounded in the middle.

This mountain is immensely huge, with a pervasive red glow.

The scorching breath throughout the ancient forest seems to emanate from that vast area.

The scorching breath ahead is even more palpable, giving people a sensation of skin burning from afar.

Chapter 470: Massive Mountain!

Gazing ahead at the massive mountain, enveloped in blazing red light, its true appearance indiscernible. However, amidst the scorching and immensely pressurizing breath seeping out from it, Su Yi could clearly feel it.

Su Yi's gaze solidified on the massive mountain, a gratifying expression immediately appearing on his face, impossible to conceal.

Intuition told Su Yi that the opportunity he was seeking within this ancient forest must lie within the mountain ahead, where there must be precious treasures hidden within.

"Will there be any treasures inside?"

Situ Muiyang's forehead was sweating from the heat, gasping for breath, and he also felt that ahead was extraordinary, perhaps containing treasures and opportunities.

"There should be!"

Su Yi smiled faintly, a smile lifting at the corners of his mouth.

Judging from this scene and posture, there must be opportunities or treasures inside, and they are not ordinary ones.

"Be careful. Where there are opportunities, there are usually also dangers," Situ MUYANG cautioned, proceeding with utmost caution.

"Roarrrrr..."

As Situ MUYANG's words had not yet fully faded away, there came roars from all around, and one by one demon beasts emerged from the ancient forest, heading towards the massive mountain in front of them.

Su Yi and Situ MUYANG watched carefully from a high vantage point above.

The demon beasts had red eyes, misty bodies and shimmering lights. It was as if they were evaporating water under the scorching air, gradually entering the massive mountain and disappearing into the radiance.

Some exotic birds and beasts took flight, flapping their wings and heading towards the mountain.

Each and every demon beast in this ancient forest was an exotic creature with not a low level of cultivation. Most of them had reached the Demonic True Realm, and they walked resolutely towards the mountain without any hesitation.

"Very strange indeed."

Seeing all that, although there might be opportunities and treasures ahead, Situ MUYANG also felt an inexplicable sense of hair-raising discomfort.

All of this was very strange, filled with unknown fears.

"Roarrrrr..."

Suddenly, beastly roars came from below, and both the Dark Golden Demon Falcon and the leader of the Wolf-headed Demon Bats growled deeply.

At some point, the two beasts were once again affected, their eyes once again glowing red as they flew towards the mountains.

"Oh no!"

Su Yi frowned, and the vital energy behind his back expanded into a pair of wings, radiating red light. He rushed out and quickly blocked in front of the two beasts.

"Step back!"

With a loud shout, the breath of Supreme Chaotic Yuan Technique was contained as it roared out from Su Yi's mouth.

"Master!"

The two beasts recovered again, trembling all over.

"The pressure there is too great, with an extraordinary aura of demonic clans!"

The leader of the Wolf-headed Demon Bats and Dark Golden Demon Falcon both informed Su Yi that within the mountains ahead, there was an extraordinary aura of demonic clans.

The aura of the demonic clans made them both revere and fear, trembling and palpitating with fear!

"That aura seems to have the greatest impact on demon beasts."

Su Yi frowned, no wonder the demon beasts were always the ones most affected, while Zhang Qing, Xu Jiahui, and others were not affected by that.

But Su Yi also felt that kind of demonic aura, imposing and overwhelming. However, he had the Supreme Chaotic Yuan Technique and could resist that kind of aura.

Within that obscure and looming aura of oppression, Su Yi even had a feeling that there was something calling him.

"You all step back, I will go take a look."

Gazing at the mountains ahead shrouded in a red glow and filled with scorching heat, Su Yi didn't hesitate much.

Since it has come to this point, there is really no reason to turn back.

Any opportunity or fate also contains danger. Cultivating martial arts is a path seeking a glimpse of hope in peril, which is a price for transcending normalcy.

"I'll go too!"

Situ MUYANG's figure came across the horizon, already activating the Wind Battle Armor.

He didn't want to retreat either, since he had come this far, he naturally couldn't miss this opportunity.

Moreover, Situ MUYANG came to the Battlefield of Ten Thousand Swords not only to hone his skills, but also to seek opportunities within it.

Su Yi nodded. This was the Battlefield of Ten Thousand Swords belonging to the Divine Sword School. Situ MUYANG, the son of the sect leader of the Divine Sword School, couldn't be denied the right to search for treasures on their own territory.

As for danger, he still couldn't be sure; it would all depend on fate.

Seeing Su Yi nod, Situ MUYANG's lips curved slightly. His youthful and handsome face still retained a hint of childishness and had no arrogance. With the wings on his back slightly flapping, he landed on the ground and stepped forward, slowly heading towards the front.

Everything ahead was unknown, and even the things within the bright red light were unclear. It would be safer to proceed on the ground.

Seeing this, Su Yi retracted his elemental wings at his back and also landed on the ground. He then dashed towards the mountain in front.

As for Dark Golden Demon Falcon, the leader of the Wolf-headed Demon Bats, Zhang Qing, Xu Jiahui and others, they could only wait from afar.

That terrifying aura was not something they could approach.

Just the scorching aura alone made Xu Jiahui and others' hair stand on end and caused their skin to feel scorched and painful, making it difficult for them to hold on any longer.

The plain was now painted red, with the ground cracked and powdered flying up with every step.

It seemed that everything around the vicinity had been destroyed into ashes by the scorching aura.

The aura that was pervading in front of them was becoming increasingly terrifying.

The pressure contained within the scorching aura was becoming increasingly apparent.

Various flying beasts and demon beasts emerged from the surroundings, all of which were at the levels of Demonic True Realm and Demonic Spirit Realm.

However, those demon beasts paid no attention to Su Yi and Situ Muyang. They only instinctively avoided some when they sensed the aura emanating from Su Yi's body.

"The aura is too terrifying..."

Sweat drops, the size of soybeans, dripped down from inside the helmet of Situ Muyang's Wind Battle Armor.

The scorching aura was inescapable, causing the Wind Battle Armor on Situ Muyang's body to feel as though it were about to catch fire.

Su Yi also felt the scorching heat, and his Indestructible Vajra Body was somewhat struggling.

Fortunately, when cultivating the first level of the Chaotic Yuan Demonic Body, the Indestructible Vajra Body, the physical body is tempered by the fire of the earth's core, which made Su Yi much more comfortable at this moment.

Furthermore, Su Yi kept running the Supreme Chaotic Yuan Technique, which invisibly had a kind of hindering effect on the scorching aura.

Therefore, at this moment, Su Yi is much more relaxed than Situ Muyang.

"How can you look fine, you're really abnormal!"

However, all of this fell into Situ Muyang's eyes and secretly shook him. He increasingly felt Su Yi's terror, it was simply abnormal.

You should know that under this scorching aura, even with the Wind Battle Armor activated, it was difficult for him to withstand it.

The two of them walked slowly and finally entered that crimson light.

Dazzling light filled the air, the radiance was like flames, emitting visible waves.

"Be careful!"

Su Yi reminded Situ Muyang, feeling that the pressure within the crimson light was stronger and the demonic aura more intense.

"Click..."

As they heard a clicking sound beneath their feet, the two of them looked closer and found that it was actually a beast bone.

The beast bone was completely dried out as if it had been roasted, and as they stepped on it, it immediately crumbled to dust.

"So many animal bones!"

Situ Muyang carefully looked around, and could see that there were not many visible lines of sight within the crimson light, but densely packed animal bones were scattered throughout.
