

## The God of Sky and Earth

Chapter 7: Supreme Chaotic Yuan Technique

Su Yi, if you have any guts then come out!

Kill Su Yi, remove the source of harm for the City of Man!

Su Yi, dont be a tortoise hiding in your shell!! If you have the skills, come out and die!

In front of the Su Estate main gate, the voices of people reverberated through the air. There were even the roars of the beasts which people rode, and the number of spectators rose with each passing moment.

Mo Bu Fan, He San, Song Wu Qiu and the rest had brought the young masters of the entire city and were now angrily blocking the Su Familys doorstep.

They waited at the city gate from early morning to late afternoon, wanting to block Su Yi from entering the city. Then, they received news that Su Yi had already returned to the Su Estate. You can just think logically and know the feelings of each one of them.

But though Song Wu Qiu, He San and the lot obstructed the Su Estates main gate, they did not really dare to break into the estate.

Sigh.

Su Family is really unfortunate!

The moment this jinx came back, the Su Family was destined to never have any peaceful days again!

Inside the Su Estate, hearing the loud noises of the commotion outside, many members of the Su Family were very unhappy.

Some elders were even calming themselves by massaging their chests. They were that furious.

Su Yi returned to his yard, notified Wan Er to do a few things, telling her that he was going to go out for 2 days. *Rread latest chapters at [n/ov\(e\)lbin\(.\)co/m](http://n/ov(e)lbin(.)co/m)*

Young Master, where are you going again? Mo Bu Fan and the rest are still blocking the main gate.

Wan Er was very worried. Though she was not worried about Su Yi going out for two days. Only she knew that the Young Master had also sneaked out frequently in the past for a few days every time and no one was clear where he had gone off to.

Wan Er was worried about the people at the front gate.

There will be no problems at all. It is not like I am going to go out from the front gate, Su Yi did not care. He told Wan Er a few more things to do and then he left.

The sky was already dark. Su Yi sneaked left and right, just like a ghost. At last, he familiarly jumped over the wall of the back courtyard and left the Su Estate quietly.

The night was still. The moonlight was like a fog made from hazy silver yarn, shrouding the mountaintop.

This was a mountain behind the City of Man. Very few people came to this place but there were many beasts living in the area.

Mountain streams were hidden between the dense trunks and branches of the trees.

Under the faint moonlight, Su Yi was like a monkey, climbing trees and rocks with ease.

Tens of feet above the mountain stream where the waters were violent, hidden beneath the thick green vegetation, there was a small hole which if one did not look closely would be almost impossible to see and the hole was only big enough for one person to enter.

Su Yi reached the hole, observed it closely for a while. The mark that he left three years ago was still there. It seemed that the place had never been found by others.

Entering the hole, the difference was like heaven and earth. The small hole suddenly expanded into a vast cave, big enough to fit tens of people. On the ceiling were dozens of stalactites, giving off a dim glow in the dark.

After moving a big boulder to seal the entrance of the cave, Su Yi became serious. He took a deep breath, crossed his legs and sat down on the spot. Many complex and bizarre hand seals started being made.

As more and more hand seals were made, there was a sudden faint movement of light in between his eyebrows. The light started rippling and then it covered his entire body in an instant.

Blinding light exploded through the cave.

When Su Yi's figure started becoming clearer again, he was already in a space with a ten-meter radius.

The spiritual energy in the place was so thick to the extent where it started to exert a pressure on people, but the surroundings were blurry and gave off a faint glow like it was sealing off the space from the outside.

Arriving in this space, Su Yi took a deep breath.

The thick spiritual energy in this space made one feel refreshed. Cultivating here would have the effect of yielding twice the result with half the effort.

And for this space, Su Yi no longer felt that it was strange. The reason for him always being called trash was exactly because of this space.

Bringing his memories with him when he reincarnated from Earth to this other world, Su Yi had already accepted this reality and had also accepted the fact that there was a brick-like sphere of light in his mind.

In his past life, he had an unexpected chance to find out that there was a sphere of light in his mind which could be clearly seen by him.

Su Yi was concentrating and thinking carefully about all which had happened when suddenly there was a sound of a huge explosion, and a wave of light so bright that it was indescribable exploded in his mind.

That sight was horrifying. It was like the universe exploding.

Because of that, Su Yi was also left on his last legs and his soul seemed to have dropped into an endless black abyss.

When Su Yi woke up, he found himself reborn in this other world and the sphere of light in his mind actually followed him over.

Being able to have the chance to be alive again, Su Yi did not dare to take the risk to check what was the sphere of light in his mind.

In this world where the martial way flourished, Su Yi being born in a top family in the City of Man, he had encountered martial arts since young and cultivated using the Su Family's technique.

In this world, the level of cultivation was categorized into Qi Refining Period, Foundation Building Stage, followed by the Yuan Soul Realm, Yuan Xuan Realm, Yuan Spirit Realm, Yuan True Realm, Yuan Void Realm, Yuan Emperor Realm.

Qi Refining Period and Foundation Building Stage could only be considered as the entrance of cultivation.

Only when you have completed the Foundation Building Stage and stepped into the Yuan Soul Realm, only then could you be considered a real cultivator.

Qi Refining Period is separated into four minor realms: Refining Spirit into Qi, Refining Qi into God, Refining God back into the Void, and finally, Refining the Void and forming your Path.

Being a human for two lives, Su Yi could be considered being more talented than others. His ability to apprehend the true nature of things and obtain insights was not normal. He was also cultivating using the Su Family's strongest technique, the Purple Yuan Technique, and was the fastest to cultivate out Yuan Qi in the history of the Su Family, reaching the minor realm of Refining Spirit into Qi. This made the Old Master very happy.

But things do not always go as you wish. After cultivating out Yuan Qi, Su Yi stopped at the minor realm of Refining Spirit into Qi, not improving one bit after that.

He could cultivate out Yuan Qi, but Su Yi could not store it in his body, and he also did not know where on earth the Yuan Qi went.

The Old Master had examined him personally and had also invited many others to check for him as well, but there was no conclusion.

Many years passed, and Su Yi still did not improve one bit, hence his nickname.

Due to the Su Family's reputation, the people within the city did not dare say anything about Su Yi. In addition to Su Yi's infamous reputation from young and the huge backing of the Su Family, not many people dared to provoke him, but behind his back, he has always been called trash by others.

Su Yi was also very helpless about this. Being a person who has lived two lives as a human and having the minuscule chance to be reborn, was he going to live a dull life in which he achieves nothing, the same type of life as before?

Su Yi did not give up and continued to cultivate, unsure whether he had moved the heavens or the gods, the mysterious sphere of light in his mind who had no reaction so far finally did something. Su Yi was then sucked into this mysterious space and he discovered the secret of the sphere of light in his mind.

Su Yi had also discovered why his body was never able to capture any Yuan Qi.

It was because, for all these years, all the Yuan Qi he had cultivated out was all stolen by that mysterious sphere of light.

It seemed that it had absorbed a certain amount of Yuan Qi and hence the mysterious sphere of light opened.

The first time Su Yi entered the space, a wave of power rushed into Su Yi's mind in an instant, changing into a large amount of information.

This information was the Supreme Chaotic Yuan Technique, a cultivation technique, and was engraved on a deep corner of Su Yi's mind.

He could not cultivate using the Su Family's Purple Yuan Technique. Once he had cultivated out Yuan Qi, it would all be absorbed by the mysterious ball of light.

At that moment when he had received the Supreme Chaotic Yuan Technique, Su Yi clenched his teeth and tried cultivating for one last time.

After cultivating using the Supreme Chaotic Yuan Technique, he found out that the Yuan Qi he had cultivated out would not be absorbed by the sphere of light.

Under careful research, Su Yi had also found out that this Supreme Chaotic Yuan Technique was many times better than Purple Yuan Technique. No, far better than Purple Yuan Technique.

But this Supreme Chaotic Yuan Technique was also not for the average people to cultivate, it was way too extreme.

You would first have to use Yuan Qi to expand the Meridians in your body, then reforge your internal organs and you still have to eat various kinds of spiritual herbs. Reforge the skin, muscles, and bones on the outside and reforge the internal organs within.

Even though the Supreme Chaotic Yuan Technique was a bit on the extreme side, but Su Yi knew that this time he had found a treasure.

Maybe this life would not be dull and wasted anymore. There was not much distance between him and the days where he would marry beauties and stand at the peak of humanity.

Just when Su Yi felt that the good days were finally arriving, he did not know how he had offended Liu Ruoxi, that little girl.

Just thinking back, after reincarnating, he was actually hit by a little girl in the middle of a street. How could Su Yi ever tolerate that?

Hence, Su Yi bought some Muscles Weakening Powder and put it in some snacks. With Su Yi's glib tongue, tricking the 12-year-old Liu Ruoxi back then to eat the snacks was a piece of cake.

Originally, Su Yi had only wanted to teach the little girl a small lesson. Who knew that the little girl looked down on him.

Su Yi could not really do anything to the little girl and in the heat of the moment, he did not know how his brain had turned, he actually kissed the little girl mouth to mouth and with a slip of his foot, he had even pushed the girl onto the ground.

And coincidentally, the people from the Liu Family saw this scene.

Soon after, the City Master was infuriated. There was a huge commotion in the city.

If not for the Old Master coming onto the stage and with his old face and the contributions he made in protecting the entire city, Su Yi would not be let off as easily as just being exiled to the Forest of Demons for three years.

Being sent to the Forest of Demons, Su Yi did not think much of it. Instead, he was laughing inside and accepted it straight away.

Cultivating using the Supreme Chaotic Yuan Technique was very complicated, and it was not convenient using it to cultivate in the Su Estate.

Before you can use Supreme Chaotic Yuan Technique to cultivate, during the process of reforging the body, you would have to be inside the heart of a volcano and use the flames there to reforge the body for 49 days. Neither the Su Estate nor the city had a volcano.

Afterward, in the Forest of Demons, although Su Yi discovered a volcano, but spending 49 days in flames in the heart of the volcano, even if he had a technique to protect his body, just a little slip-up and he would have been burned to ashes.

Reincarnating in this world with the memories of his previous life, Su Yi was very clear that this Supreme Chaotic Yuan Technique was not that simple. He was scared that the walls may have eyes and ears, so before he had absolute strength, he felt that it was better to be more careful.

So, leaving the Su Estate and going to the Forest of Demons was a perfect chance for him to cultivate using the Supreme Chaotic Yuan Technique.

In the Forest of Demons, wild beasts roamed and various kinds of the most ferocious criminals hid in there. Danger lurked in every corner.

Reaching the inside of the Forest of Demons, Su Yi found out about another large secret. The mysterious sphere of light in his mind had the ability to slowly expand the space within it, allowing the spiritual energy within it to be even more abundant, causing the effect of cultivating in it to yield even more results with even lesser efforts.

After three years of time, with Su Yi's calculations, even if he was forced to cultivate using the Purple Yuan Technique, with his own talent and comprehension, one year would be enough for him to enter the Foundation Building Stage successfully.

## Chapter 8: My luck is way too good

He may have cultivated using the Supreme Chaotic Yuan Technique for three whole years but he has not entered the Foundation Building Stage. Most of the three years were used in reforging the body.

But for these three years, Su Yi knew from experience that this cultivation technique was definitely not normal. Even though the difficulty in using it to cultivate was slightly more extreme than other techniques, but the fighting capability that he could gain from it was definitely enough to wipe the floor clean with someone of the same cultivation level as him.

And for the next two days, everything had been prepared and the time was ripe. Su Yi finally decided to try entering the Foundation Building Stage.

The Su Estate was not a suitable place to try and build the Foundation Building. Hence, Su Yi decided to come to this hidden and isolated cave instead.

In the past, when he was in the Su Estate, every time Su Yi entered this mysterious space, he would also come to this cave secretly.

In the mysterious space, Su Yi was still sitting down. He felt that the conditions have been met and prepared to enter the Foundation Building Stage.

But Su Yi did not dare to let his guard down. If he fails to enter the stage, best case scenario- he would lose all his progress in cultivation and be unable to cultivate anymore. Worst case scenario- he would experience Qi Deviation and may even die straight away.

Swish! Swoosh!

The Yuan Qi inside the body was moving along the Meridians, giving out the quivering sound of running water.

If there was someone else present there, he would be astonished. How condensed and violent does the Yuan Qi have to be in order to give out such sounds of convulsions?

Not counting that the Yuan Qi in Su Yi's body was indeed a lot more condensed than other people of the same cultivation level, more importantly, under the refining and expansion of the Meridians inside of him for these years, the Meridians in his body were far thicker than the people of the same cultivation level. Hence, when the Yuan Qi moves in his body, it moves even faster than normal and surges through the Meridians causing such sounds.

Guide the Qi through the body. From the core of the body to the surface and expand the Qi further and further. Repeat this for 72 times and stop. For a day, gather all the Qi back. From the surface to the core and compress the Qi. Do this for another 72 times.

Refining God back into the Void, Refining the Void and forming your Path and then you shall enter the Foundation Building Stage.

The Foundation Building Stage, from the physical body to the spiritual soul, from what can be seen to what that is unseen. In the process of changing the physical body to a spiritual one capable of true cultivation, there are specific steps to follow.

For cultivators, Foundation Building Stage is the start and the foundation of everything.

A skyscraper reaching the skies must always be built starting from the flat ground. Though the Foundation Building Stage is very minor, it is the critical stage of transition. It decides how much you will succeed in the future. One cannot lower their guard even for a fraction of a second.

In the big families, the younger generation disciples entering the Foundation Building Stage was also a matter of extreme importance.

As time passed, unclear about when it started, Su Yi started radiating blinding light. Waves of Qi rippled through the body and like a fire burning with rage. He gave off an air of majesty, supreme authority.

The light on Su Yi's body became even more blinding as the moments passed. The sound of vibrations in the body was also slowly replaced by the sounds of explosions, like the sounds of wind and thunder.

It was as if there was something in the body suppressing the violent outburst. It gave off howls after howls.

With Su Yi as the center, the waves of Qi raged. He became even more blinding. It was like a rain of light was pouring out, causing that small space to become lit up.

The commotion was huge. Luckily, that small space was separated from the outside world, and nothing was let out.

Su Yi's hand seals changed periodically. The aura of his body became more and more violent. It was like the roars of wind and thunder was coming out from his body, so loud that it would horrify others. Even the space itself seemed to tremble under its might!

If there was someone else present there, they would definitely quiver violently with fear. How would stepping into the Foundation Building Stage cause such a horrifying movement?

Riiip!

Under the intimidating aura, the clothes which Su Yi had just changed into ripped apart, showing his scar-riddled body.

An envelope of light encased him, flowing within was an unknown power!

Boom!

Suddenly, the entire space shook like it had received a signal. A light descended upon Su Yi and encased him even more.

The light moved continuously like the constellations in the sky changing as seasons passed. It brought with it a godly radiating light, emanating waves of movement. It was as if an unknown power had transcended time and space, descending from the times of the Ancients.

Under the envelope of light, inside Su Yi's body, there was a black fog coming out of him, nearly invisible to the naked eye. It seems to be some sort of impurity.

As the black fog rushed out, his body became even more radiant. The scars on his body were fading away due to the mysterious power. His entire body had light scattering all over him. It was like a purification ritual.

The space became even more glaring and gradually gave out roars of thunder. An unknown power constantly surged towards Su Yi.

Su Yi was still sitting down, not moving a muscle. His entire body was shining. His pores started relaxing and opening, absorbing the unknown power into the body, converting it into strength and giving off a godly light.

The Su Yi now was completely in a special trance. It was like he was isolated from the outside world.

Everything which was happening was very mysterious. If someone saw this occurrence now, they would definitely be stunned. Who in the world would make such a huge commotion when they were just entering the Foundation Building Stage?

One day and night had already passed. The news of Su Yi returning home had already spread through the entire city and instantly became a hot topic.

Mo Bu Fan, He San, Song Wu Qiu, the three of them along with the numerous other young masters of the city were surrounding the main gate of the Su Estate, but when they could not see Su Yi, then all they could do in the end was leave.

But Mo Bu Fan and the others had said, unless Su Yi never walks out the door, they will show him hell.

Inside the Su Estate, there was also no one who wanted to interact with Su Yi.

So, Su Yi leaving the estate quietly was also known by none. Everyone thought that Su Yi was hiding on purpose.

After a whole 2 days and nights, the black impurities finally stopped coming out of Su Yi's body.

The mysterious power did not stop entering Su Yi's body. It was like cleaning his physical body from the inside out.

Dong!

At a certain moment, Su Yi's body gave out such sounds one after another. It was like a resonance between the internal organs and the outer body. The sounds were like a heavenly orchestra.

Su Yi's body at this moment gave off glaring light.

The entire process lasted for around half a quarter of an hour. Finally, everything was peaceful. Su Yi's tightly closed eyes started opening with the slight trembling of his eyelashes.

Shiing!

A blinding light surged out of his eyes like a streak of lightning. Then, it stopped and his eyes looked sharp and deep.

That's all? This doesn't seem all that difficult.

Feeling everything in his body, Su Yi's forehead wrinkled. People all said that the Foundation Building Stage was extremely dangerous and risky. Its difficulty was incomparable. But he did not feel that it was anything much. He even prepared so much in vain for such a long time.

Su Yi felt that it was like he built a fake Foundation Building. But after a thorough check, he found out that he had indeed succeeded in entering the Foundation Building Stage.

No. Something's not right. This is not only the Foundation Building Stage.

Suddenly, Su Yi found out something unimaginable. His face full of shock. In his own Dantian, there was actually a whirlpool in his Qi Ocean and it was full of Yuan Qi moving.

Have I jumped straight into the Yuan Soul Realm?!

Su Yi was stunned. Qi Refining Period was the beginning of cultivation. Foundation Building Stage was where one had laid the foundations well for the cultivation ahead.

But whether it was the Refining Qi Period or the Foundation Building Stage, all of that was just the entrance. Only when one has reached the Yuan Soul Realm, then he could be considered as a true cultivator.

A Qi Ocean inside the Dantian was the sign of the Yuan Soul Realm.

And at this very moment, there was actually a Qi Ocean in his Dantian. After careful and thorough examination by Su Yi, he was very shocked to find out that he had jumped straight into the Yuan Soul Realm when all he wanted to do was just enter the Foundation Building Stage.

After the shock, Su Yi's face was beaming with happiness.

This was a good thing. His luck must have exploded. Such a good thing can actually happen to him. Then, it looks to him that he has moved a step nearer to the days of marrying beauties and standing at the peak of humanity.

But, although the Foundation Building Stage was completed easily and even went straight into the Yuan Soul Realm, Su Yi was also confused.

Only Su Yi knew what he had experienced when he was entering the Foundation Building Stage. He was just laying down the foundations, but he did not know what happened to this space. A sudden unknown power just descended upon him and rushed into his body like it was purifying and refining his body.

That unknown power was very tyrannical though. If not for the 3 years of training the body causing his Meridians and the physical body to be much stronger than the average cultivator of the same level, he was afraid that there was no way he could have survived that tyrannical purification process and his body would have been ripped to shreds in a moment.

Su Yi guessed that it was the unknown power which allowed him to enter the Yuan Soul Realm as he was laying down the Foundations.

Seems like it has been strengthened quite a bit!

Checking his body, Su Yi surprisingly found out that his body now was incomparably stronger than before and he did not know whether it was because of him completing the Foundation Building Stage or was it because of the mysterious power.

Eh?

Afterward, Su Yi had also discovered that all the scars on his body had actually disappeared as if the body had shed its old skin. It had become so radiant, like a piece of jade.

Su Yi did not know how this happened, but he could guess that it was probably due to this space. At least, on the surface, it seemed to be a good thing.

Well, no matter what, he had succeeded in completing the Foundation Building Stage and has even entered the Yuan Soul Realm.

Su Yi stood up and realized that the once abundant spiritual energy in this space had already faded away quite a bit.

But the space did not shrink in size though. It remained around three feet in radius.

Su Yi did not feel that this was a weird occurrence. He knew that with him completing his Foundation Building Stage and entering the Yuan Soul Realm, he had taken in a lot of spiritual energy in this space. He believed that after a while, the energy in the place should recover.

Afterward, the Su Yi who had decided to leave was embarrassed. Currently, there was not a strand of cloth on his body. His clothes have already been torn to shreds due to the outburst of energy.

Helplessly, Su Yi could only piece the cloths together and make a simple pant, similar to clothes which a barbarian would wear. Then he kept the mysterious space.

Outside the cave, the sky was already bright.

The mountain stream was calm. The pale blue water flowing from the top gradually turned crystal clear and became one with the horizon. Then turning into a fluffy soft fog.

The mountaintop was green with vegetation. Above a brown cliff, Su Yi did a stretch.

The Heavens surely do not disappoint those who persevere. Finally, I have become a true cultivator. Torturing myself in the Forest of Demons for three years was not for nothing.

There was a wide smile on his face. Su Yi jumped off the cliff. He felt that his body was as light as a swallow. There seemed to be endless strength in his body.

This feeling was incomparable with that during the Qi Refining Period.

The Su Estate. Though it was early in the morning, it was unusually lively.

Today was not like any other day as the strong cultivators came from the Sacred Mountain. A few would be chosen from the younger generation disciples of the Su Family to go and participate in the Sacred Mountains disciple selection.

The Su Family was huge. Their business was also huge. There were quite a number of younger generations. After receiving the announcement, everyone who has qualified for the selection test was training as hard as they could all for the sake of having a chance to participate in the Sacred Mountains selection.

If they could get into Sacred Mountain, there was be no doubt that they would be able to become strong. Do you know how much glory and honor would that bring to the family?

With the attire of a barbarian, Su Yi planned to jump over the wall and get inside the Su Estate.

Young Master.

As Su Yi was sneaking about, scared of being caught by others, there was a familiar voice.

Following the sound, Su Yi saw Wan Er was curled up in a corner of the wall. Her rosy face was now pale white. Under her bright eyes, there were signs of fighting spirit.

When Wan Er saw Su Yi, her face immediately lit up and hurried to his side.

What are you doing here?

Looking at Wan Er who was completely exhausted, her face haggard, bruises on her hands and neck, Su Yis face fell in an instant. He had got a rough idea of what had happened. The girl must have been in the corner for more than a day.

Young Master, I am fine, I-

Wan Er shook her head and squeezed out a smile. Looking at Su Yi's attire instead, she was really surprised.

Speak, what had happened here!

Su Yi said with a low voice, cold light glimmering in his eyes.

Looking at Su Yi's eyes, Wan Er was also shaken. It was the first time she had ever seen the Young Master like this, like an enraged tiger, a raging lion, and all she could do was to tell him the cause of her plight.

Not long after Su Yi had left, Wan Er was kicked out of the estate by force and could only hide in a corner of the back wall waiting for Su Yi to come back.

Who did this?

Hearing what Wan Er said, the cold light in Su Yi's eyes were already trembling. A delicate young girl was actually forced to curl up in a corner of the wall for two days and night, starving, cold and scared. Just thinking up to this point, there was a wrenching pain in his heart.

Young Master, on the second morning after you left, the personal maid of Madam Su Jiao, Xiao Lan, brought people to find me, saying that I was not registered in the family index and could not be considered as a servant. I am not as strong as them, so

Wan Er did not cry. Her face still had a smile and said to Su Yi, I was waiting here for Young Master, to say a final goodbye that Wan Er cannot be at your side serving you anymore.

Come, I'll bring you back in.

Su Yi said softly while he caressed Wan Er's pale face, combing a few strands of her messy hair behind her ears.

Young Master you cannot be like this. Don't do this for me. Just by you being able to return, Wan Er is already very happy. I was originally an orphan. If not for Young Master bringing me back home when I was young, I'm not sure whether I would still be alive now.

Wan Er shook her head. She knew the predicament Young Master was in. Many people in the Su Family was against the Young Master. She did not wish to bring trouble to the Young Master because of her.

You are not an orphan. You are my sister. From now on you shall be called Su Wan Er. I will bring you home right now. I have promised you before, no one would ever dare to bully you ever again. The place where I am, that shall be your home.

Su Yi pulled Wan Ers small hand, gently holding it in his palm and walked towards the Su Estates main gate.

Young Master.

Being pulled by Su Yi, Wan Ers heart shook. The corners of her mouth slightly curved. Her soft lips slowly parted like she wanted to say something.

Call me Big Brother. Dont call me Young Master ever again.

Su Yi gazed at Wan Er. His eyes turned sharp like it was an order, but in the sharp gaze, there was more of a pain in the heart.

Big-Big Brother.

Looking at those eyes which did not allow rejection, something touched Wan Ers heart and she finally called out with her shaking voice.

Su Yi gently smiled. He held the hand in his palm more firmly and said softly, Come, let us go home.

Big Brother, how could you return like this. Let us climb over the wall instead.

Wan Er raised her eyes slightly. Looking at Su Yis current appearance, her bright eyes had a bit of astonishment in them.

She had just seen Su Yis scar-riddled body two days ago, but now it was smooth and radiant as a piece of fine jade, giving people a temptation to feel that body.

There is no problem. I want to bring my sister back home with dignity!

Su Yi smiled, holding Wan Ers hand as they walked towards the main gate.

Wan Er was following behind, gazing at the back in front of her, walking in silence. Not knowing why, tears started gathering in her eyes. Everything seemed real yet not. Her eyes were wet with tears and her small hand gripped Su Yis hand even tighter.

That back was like a tall mountain that she could depend on.

A small smile appeared on Wan Ers face. A deep emotion arose in her heart.

Su Yi reached the main gate. The guards stared at the Su Yis weird attire and only being able to recognize who he was after a while.

The guards also saw Wan Er. After hesitating for a bit, the guard on the left told Su Yi.

Young Master Su Yi, Madam Su Jiao had stated that the girl is not part of the Su Family and is not allowed to enter the Su Estate.

Before the guard finished his sentence, a crisp sound of a slap came from his face.

Puh!

A mouthful of fresh blood accompanied by teeth was spat out of the guard's mouth. The body of the guard was also thrown to the side by the slap. Half his face was already swollen and the person fainted right away, unclear whether he was dead or alive.

Let's go back home.

Su Yi did not bother with those guards anymore. He pulled Wan Er's hand who has not let go and walked into the estate.

The other guard left behind was still shaking. His mouth agape and his eyes wide open.

The Su Estate was exceptionally lively today, but there were not many people in the outer courtyard. Even the number of servants were few, but Su Yi's attire still attracted gazes of surprise.

Big Brother, today is the day when the younger generations are competing. I think it's for the right to go to the Sacred Mountains selection, Wan Er said. She had heard about this long time ago.

Such a big occasion, so everyone must be there. Well, it suits me just fine. Let's go take a look now, Su Yi said. The cold light in his eyes flashed for a moment and vanished.

Big and important events in the Su Family would normally be held at the Martial Demonstration Ground. Only that place could fit so many people at once.

Today, the Su Family would choose some of the younger ones to go and participate in the Sacred Mountains selection. This, to the Su Family, was definitely a matter of utmost importance. All of the younger generations had already arrived at the Demonstration Ground since early morning.

The entire Su Family except those who were away and unable to make it back were also gathered at the Martial Demonstration Ground.

This event was about the Su Family's future and it was also a test for the younger generations of the family. The Acting Head of the House, the High Elders, the older generations, servants and so on and so forth were all present as well.

Surrounding the Martial Demonstration Ground, there were more than a thousand spectators. At the top, there were more than 20 seats reserved for the High Elders and the rest.

A middle-aged man was sitting in the middle of the upper echelon. He was around 40 years old. He had an average figure and broad shoulders with bright eyes while having an air of authority around him.

Good job! Keep it up!

Su Bai that little kid is not bad. Completing the Foundation Building Stage at the age of 16 and his understanding of the Purple Yuan Technique is also not bad.

Su Ning does not pale in comparison. He has not let his opponent gain the upper hand.

The crowd was going wild. On top of the Martial Demonstration Ground, there were two youths sparring with one another, following each other closely, causing the Yuan Qi around them to move. Their bodies fit and swift.

The two youths were young, but they already had quite the presence around them, causing some High Elders to nod their heads and praise them in their hearts.
