

Sky&Earth 71

Chapter 71: Unforeseen Event at the Mine

Kid, wait here nicely. You are tired of living!

Su Yi was brought back to the mine and thrown into a prison cell.

The so-called prison cell was only a temporary stone room which was carved out from the cave.

The stone room was not big, but it wasn't small either and it had a very thick stone door.

After the disciple of Black Fiend School who looked around thirty years old threw Su Yi into the stone room, the stone door was shut down.

Su Yi listened to the sounds outside and it seemed that the disciple was still standing guard outside.

Break the seal. That is my last chance!

Su Yi had been sealed and thrown into the prison cell. This was his last chance. When the Supreme Chaotic Yuan Technique breaks the seal, he hoped that he could use the opportunity to escape.

There was no time for delays. He immediately performed the Supreme Chaotic Yuan Technique. Like how he originally tried to break the seal that High Elder Bai had put on him, he started to assault the seal which had been placed on his him by the disciple.

After trying, Su Yi was delighted in his heart. The seal which the disciple had put on him could not compare at all to the one which High Elder Bai had put on him before. It was far weaker and Su Yi felt that breaking this seal would be a lot simpler.

Secretly trying to break the seal within his body, Su Yi's expression was very serious. He was racing against the clock.

He was afraid that when the strong people from Black Fiend School came, he would not be able to keep his life. Killing a person from Black Fiend School, the consequences could be imagined.

Boom!

Rumble

Not long after, violent sounds of explosions and rumbles could be heard. The earth shook and there were constant rumbles like an earthquake.

Who dares trespass into the important territory of Black Fiend School, come out now!

The words were like thunder. Even Su Yi who was in the prison cell could hear it clearly.

Intruders! Hurry!

Quick, someone is attacking our Black Fiend School!

Afterward, Su Yi could only hear that the outside was chaotic and disciples rushed out.

Rumble

Argh!

Roar!

Outside the mine, there were constant sounds of rumbling and cries of pain. There were even ear-deafening roars of beasts.

You guys better behave or else you will get it from us!

Within the mine, there were disciples shouting.

It seems that the miners were starting to grow restless and some disciples stayed behind to suppress the miners.

Looks like Black Fiend School has some trouble! This is a grand opportunity. Faster! Break the seal! thought Su Yi. Someone had come to attack Black Fiend School. Though he did not know which power it was, it did not matter. This was a rare chance for him.

But the seal was still there. Su Yi sped up and assaulted the seal within his body with all his might.

The disciple who placed the seal did not seem to be very strong. The Supreme Chaotic Yuan Technique was also extremely special, so under the full might of Su Yi, not much time passed before the seal was broken.

Puh!

When the seal was broken forcefully, Su Yi kicked his legs and got up. Then a mouthful of blood shot out from his mouth.

This was due to the Black Fiend School disciples kick. The injury was not light, but luckily, Su Yi was not at the point where he was severely injured.

Escape!

He could not be bothered about the injury on him. Su Yi knew that this was a now-or-never chance. The disciple who was standing guard outside seemed to also be gone. If he doesn't escape now, when shall he escape then!

First, Su Yi stuck his ear to the door and listened for any movements outside the door. Now, Su Yi was sure that there should be no one outside the cell.

Su Yi touched the stone door and lightly pushed it. He felt that the stone door was very heavy and thick. It was made from the extremely heavy rock which had been mined out.

That stone door should have some sort of mechanism which could only be opened from the outside. From the inside, it seemed that the only way to open the door was through force.

Lets give it a shot.

With no other choice, Su Yi could only push the door open forcefully and immediately he placed his palm on the stone door.

At the same time, Yuan Qi from the whirlpool of Yuan Qi within Su Yi's body gushed out and surged through the meridians, turning into a strong force which directly hit the stone door, wanting to forcefully push open that stone door.

Boom!

The stone door shook as if it was going to be forcefully pushed open.

Then, in an instant, with no warning, something happened, changing the situation.

RumbleRumble

At that time, when Su Yi's Yuan Qi slammed against the door, the mysterious sphere of light within Su Yi's mind seemed to have been provoked by something and it started moving.

In a flash, light exploded out from Su Yi's mind. A mysterious power flowed out like lightning and Su Yi had no way of stopping it.

But at that moment, Su Yi could clearly feel that the mysterious sphere of light had given out a strange energy which had covered the door.

Strictly speaking, Su Yi felt that the mysterious sphere of light within his mind was currently absorbing a type of energy within the door, some sort of weak energy.

Su Yi knew that feeling. It was exactly the same as the time with the Yuan Testing Stone back in the City of Man.

There was a type of energy within the sphere of light which was currently consuming a sort of weak energy within the stone door like during the time when it consumed the energy within the Yuan Testing Stone.

Does this have something to do with Yuan Stones?

Su Yi was surprised, but afterward, he inferred a few possibilities.

That stone door was made from the stones within the mine. The mine was a Yuan Stone mine. Even if that door wasn't made of Yuan Stone, but there may be some energy inside it.

So, it was highly possible that the sphere of light could not only consume Yuan Testing Stone, but it was able to consume all Yuan Stones.

Su Yi was astonished. He could not control himself, but he could feel that a type of devouring power was in his palm that was currently absorbing the weak energy from within the stone door like how one harvested a silkworm cocoon.

But currently, the energy within the sphere of light did not stop there. A weird energy diffused across Su Yi's palm into the stone door, wanting to extend into the deeper reaches.

Just as when Su Yi felt that the weak energy within the stone door was about to be completely absorbed, from the ground and ceiling which was connected to the door, strands of weak energy was drawn forth that was being converged and then absorbed.

Those strands of weak energy became strong and unbelievably fast in an instant.

Boom!

Strands of weak energy instantly became rich and dense and then they converged into a surge of power at Su Yi's palm and was absorbed.

Boom!

Everywhere inside the stone room started glowing. From the ground to the ceiling, there were golden lights, black lights, cyan lights, red lights, white lights, green lights and more. Numerous lights of various colors were all mixed together.

The light was multi-colored. It covered Su Yi and filled the prison cell, especially at where Su Yi's palm was currently touching the stone door. The light there was even brighter, like a small blazing sun.

Rumble

Sounds of trembling could be heard from the entire prison cell as it shook from side to side and the ground quivered like it was going to collapse at any moment.

Not good. This mine is going to collapse again!

Get out fast!

The entire mine is going to collapse, quickly get out!

Outside the prison cell, sounds of panic could be heard. Some came from the disciples of Black Fiend School, some from miners but all their expressions were one of panic and worry.

Chapter 72: Yuan Void Realm Expert

If that mine was to collapse, everyone would be buried alive and there would be no chance of survival.

At that time, the disciples of Black Fiend School did not dare stay for a second longer. Who in their right mind would want to die? They were even fighting each other over who got to leave first.

Not long ago, a part of the mine collapsed and the fear from the sight they saw was still fresh in their hearts.

Tens of people including disciples from the same school were crushed. Blood and flesh mixed together in a pile. The sight was too tragic to look at.

Rumble

The light was bright and beautiful.

Su Yi was completely shocked. Where did such a terrifying power come from? It was so many times stronger than the energy from Sacred Mountains Yuan Testing Stone back at the City of Man.

The energy inside the stone door was very weak. How did it become so strong and rich suddenly?

Furthermore, according to the older miners, the Yuan Stone within this cave had all been mined.

Could it be

Su Yi remembered something. An old miner had said that this could be a Mine within a Mine.

Within the depths of this cave, there could still be another layer of Yuan Stones and the quality of them might be even better than the ones which had been mined.

The stone door was linked to the cave and like how electricity flows through an electrical wire, the power within the mysterious sphere of light was now absorbing the weak energy within the stone door. It had also felt the Yuan Stones within the cave and absorbed the energy from them as well.

Rumble

The prison cell was currently shaking violently. The light was getting brighter and brighter to the point where it was absolutely glaring to look at. Su Yi could no longer open his eyes to see the light.

Su Yi could only feel that there was a rich and powerful energy and the sphere of light was furiously absorbing every last bit of it.

At the same time, the sphere of light within Su Yi's mind was also giving off a blazing light, as if it was a blazing sun rising above the ocean.

But it did not last for too long. After a while, the shocking disturbance had gradually quietened down and the light dispersed.

A huge impact hit Su Yi's palm. Su Yi staggered back a few steps and nearly fell onto the floor.

CrackCrack

Soft sounds of cracking could be heard and cracks could be seen rippling out from the core of the thick stone door in front of Su Yi.

The number of cracks started to increase and became like a spider's web, densely spreading out in all directions.

Then, the thick stone door collapsed into a pile of dust in front of Su Yi's astonished gaze.

Outside the prison cell, there were mined rocks scattered everywhere. Not a single person was seen. It seemed that every disciple and miner had already escaped.

Su Yi did not dare stop. Yuan Qi moved under his feet and he dashed out of the cell.

Within the cave, there were occasional soft sounds of cracking, like something was splitting apart.

The cave seemed like it was going to collapse at any moment and small shattered rocks started tumbling down from the ceiling.

In a flash, Su Yi had escaped the mine.

Howl!

Bang! Boom! Bam!

Outside the mine, it was chaos. Low and loud sounds of explosions and roars of beasts were constantly heard.

The surroundings were lit up as bright as day in the middle of the dark night.

Su Yi raised his eyes. In the sky, there were currently three figures involved in an intense fight.

Boom!

There was a glaring light around the three figures. Yuan Qi was like a violent, shining tornado rippling around them. Strong aura was spreading in all directions.

Out of the three figures, Su Yi knew two of them.

One of them was High Elder Bai of the Black Fiend School and another one was no one other than the short old man who had caused Su Yi to be caught.

For the final person, Su Yi had never seen him. He was also an old man looking around 50-60 years old and was currently fighting the short old man alongside High Elder Bai.

Su Yi could tell from the aura that the second old mans cultivation level was lower than High Elder Bai, but it was only a slight difference. He inferred that it was definitely another expert from Black Fiend School.

Yuan Void Realm experts!

What made Su Yi even more shocked was that the three people did not materialize Yuan Qi to step in the air. They were truly hovering in the air.

Being able to do this was no doubt proof that the three of them were experts who had reached the Yuan Void Realm.

Come here, or else I would kill you first! As soon as Su Yi had exited the mine, an expert from Black Fiend School coldly shouted, his eyes tightly following Su Yi.

There were many disciples of Black Fiend School in the surroundings which were currently oppressing a group of miners.

But now, those disciples were all looking at the intense fight in the air, their faces filled with fear.

That was a showdown between experts. They could not do anything to interfere.

An expert from Black Fiend School stared at Su Yi. Su Yi gradually walked towards him. He did not dare take the risk.

Luckily, no one recognized Su Yi.

Not long ago, Su Yi had killed a disciple and only ten-plus disciples saw it. But currently, none of them were present.

Furthermore, everyone was focused on the fight in the air between experts. Only a few people noticed Su Yi.

Su Yi was also looking at the fight as his brain moved its gears to find a way to escape.

The old man which had pulled a fast one on Su Yi let out his aura without any restraints. It was incomparably powerful, and he was even fighting equally against two High Elders of Black Fiend School.

Who exactly are you?! You actually dare plot against Black Fiend School. Black Fiend School would never let you off even if we have to chase you to the ends of the world! A raging voice came from High Elder Bai. The voice which had been strengthened by Yuan Qi was deafening and it could be heard clearly throughout the mountains.

Black Fiend School, so what about it! The short old man laughed. A hand seal formed and a terrifying aura spread out like violent winds, going head-to-head with the two High Elders with no hint of being at a disadvantage.

Strong, very strong! He probably is equal to Wang Quan De from Sacred Mountain! Su Yi was overwhelmed. Though in his heart, he wanted so badly to give the old man a few kicks. Feeling the power of the old man, his iris contracted slightly and his throat felt slightly hot and dry. The old man was actually this powerful!

Su Yi had heard the words from High Elder Bai. It seemed that this old man had taken Yuan Stones from the Black Fiend School.

Did the old man come to this mine for the Yuan Stones within it? Su Yi thought. With that old mans ability, how would he become a miner? He probably blended in on purpose for the Yuan Stones within the mine. He actually dared to go after Black Fiend Schools items.

A person who seeks death. You actually dare to come after Black Fiend Schools possessions. Since you are here today, dont bother leaving. Hehe, High Elder Bai sneered. Aura exploded from his body, shaking the space around him.

Shiing!

As soon as High Elder Bai finished his words, a sharp sound of the air being torn was heard. Under the light from the Yuan Qi, two bright lights could be seen on the horizon and they gradually grew brighter and bigger.

Not good! The face of the old man suddenly changed. He had never thought that there were other experts from Black Fiend School nearby and were rushing over.

Daring to intrude upon the Black Fiend School, you are courting death! From far away, a cold and evil voice was heard and two figures enveloped in light gradually grew bigger and in an instant, they appeared in the air.

Another two Yuan Void Realm experts! Su Yi was stunned once again. They were hovering in the air without using the materialization of Yuan Qi to support them. Those two people from Black Fiend School were actually also experts in the Yuan Void Realm!

Chapter 73: Escaped!

Now, Su Yi understood how Black Fiend School could become one of the three major powers in the Forest of Demons.

In a flash, there were four Yuan Void Realm experts. How strong was Black Fiend School with such power?

Seeing that two more cultivators in the Yuan Void Realm had arrived, the face of the small old man truly became serious.

He had no confidence in defeating four experts with only himself.

Half a month ago, the merchant company of Black Fiend School was robbed. Ten days ago, a batch of medicinal herbs was taken as well. Looks to me that they were all done by you, am I correct?

With the arrival of the two other experts, High Elder Bai and the other High Elder stopped their offense. There was no rush. The enemy was already a fish caught in their net.

The small old man looked at the four Yuan Void Realm cultivators. He spoke deeply, You were prepared for this from the start, am I right?

Hehe, thats right. Attacking Black Fiend School twice, thats challenging the entire Black Fiend School. If theres the first time, there would be a second and if theres a second time, there would be a third. We may not know where your next target would be, but we were sure that it would be an important asset to the Black Fiend School. So, I am not afraid to tell you that wherever there is an important asset of Black Fiend School, there was already a trap set in place. We were all just waiting for you to step right in. Now, I want to see today who exactly you are. Who gave you the gut to attack Black Fiend School!

High Elder Bai coldly smiled. Everything had already been set in place long ago.

This mine was slightly more desolate, so those who had come there were not the strongest from Black Fiend School. But preparations had been made. There were experts not far away keeping an eye on this place, ready to surround this place at any moment.

High Elder Bai had never imagined that he would really meet the culprit. Once they had apprehended this guy, it would be a huge achievement.

So that old fellow had already attacked Black Fiend School a few times!

When Su Yi heard the news, his irises slightly contracted. He had never thought that the skinny old man had already attacked Black Fiend School a few times. He had actually looked down on Black Fiend so much.

Do you think that if I really wanted to leave, you would be able to stop me?

The eyes of the short old man were cold. Though he felt that the situation was very dangerous, he also had the confidence to escape.

Hehe, then try. You are already trapped!

At the same time when High Elder Bais cold words were said, the offense started again. A hand seal formed and a powerful aura spiraled out from his palms as a golden light filled the skies. Arcs of light materialized in front of him and shot towards the old man from all directions.

Take him down!

Seeing that High Elder Bai had made his move, the other three Yuan Void Realm experts did not want to be outdone and made their moves as well.

Boom!

Each attack was filled with Yuan Qi of different attributes. Their aura was terrifying. Glaring lights and deep sounds of explosions from the fight filled the night sky.

Bam! Bam!

Amidst the attacks, the old mans body was like a floating weed and dodged the two attacks and with his two hands, he took the next two attacks head-on. Yuan Qi burst out from his hands and there was an explosion of light as violent auras rippled the air.

After the skinny old man took on the first wave of attacks from the four cultivators, he was in an aggressive position. His body shot out, Yuan Qi surging out from his palms, giving off waves of violent aura outbursts and then threw a burst of Yuan Qi out.

Not good!

At this moment, Su Yis face changed.

The old mans attack was not towards the four experts. It was towards the bunch of people on the ground.

Strictly speaking, the old mans attack was towards the disciples of Black Fiend School on the ground, but he showed no mercy towards the miners, including Su Yi.

Everyone, retreat! Watch out!

Seeing the skinny old man suddenly attacking below, High Elder Bai instantly shouted and rushed to stop the attack.

High Elder Bai knew the opponents strength. No disciple of Black Fiend School would be a match for him.

Two Yuan Void Realm experts blocked the old mans attack while High Elder Bai and the other High Elder which had been there from the start immediately started attacking the old man.

Though the two experts had narrowly blocked the old mans attack, the terrifying aura still struck and carved out a deep gully below, sending sand and stones into the air.

Ahh!

Puh!

Suddenly, the disciples of Black Fiend School which had tried to back off frantically and a bunch of miners let out cries of pain as they were sent flying by the ripples of aura.

Step-step.

Other people staggered back. In an instant, the place had become a mess.

Luckily, Su Yi was far away. He had prepared long ago and had backed off fast, but he still received the impact and his swiftly retreating figure was sent staggering.

Escape!

At that moment, Su Yi knew his chance had arrived. It was a window of opportunity.

Using the force which had sent him staggering, white Yuan Qi gathered under Su Yis feet and with the Hundred Transformations Step, he shot straight into the forest like an arrow.

Everywhere was a mess. The attack was too strong.

Quite a few other experts were severely affected. After all, the skinny old man mainly targeted the disciples of Black Fiend School.

Seeing that High Elder Bai and the other High Elder went for him again, the old mans face fell. Bloodlust overflowed from his eyes and then there was a movement of energy between his eyebrows. And as if they were real, the energy materialized into two snakes.

The snakes looked as if they were real. Scales covered their bodies and white fangs were seen as if they were alive.

Two frightening auras came from the two snakes and shot towards the two High Elders.

Soul attack, an alchemist?

Seeing the two snakes and feeling that weird aura, High Elder Bais expression became more serious than ever.

Su Yi picked up his feet and ran for it. He did not dare stay for another second.

Bam! Boom!

Behind him, sounds of frightening explosions could be heard, making Su Yis heart shake.

That was a fight between Yuan Void Realm. Just the ripples from the fight alone were not something an average cultivator could handle.

Right now, regarding the fight between the short old man and the High Elders of Black Fiend School, who won and who lost, who survived and who died, Su Yi had no interest in those things.

What Su Yi wanted the most now was to escape safely.

No matter the result of the fight, it was good for him since both sides were his enemies.

But seeing the horrifying fight, as Su Yi was swiftly running away, his heart was also shaken. He wondered when he could become that strong as well.

Su Yi did not dare be careless. He constantly observed the surroundings. After feeling that there were no disciples from Black Fiend School chasing after him, Su Yi relaxed slightly.

After realizing how far he had run and how the sounds of impacts were getting softer did Su Yi started to slow down.

Chapter 74: I Must Become Strong

Under the gentle moonlight, Su Yi observed the surroundings. His body was like a phantom, quietly and swiftly dashing through the forest.

Though he had temporarily escaped Black Fiend School, Su Yi dared not be careless as he was afraid of any disciples from Black Fiend School chasing after him. He was still too weak.

Deep in the mountains under the cover of the night, Su Yi did not know how far he had run.

He ran until the sun rose above the horizon.

PantPant

Su Yi was breathing heavily. He could not run any further. After all, he was still seriously injured. After an entire night of furiously running away, he could not take any more.

After a while, Su Yi found a hidden cave and after making some measures to make sure he stayed hidden, he entered the cave.

The cave was not large, but it was big enough for Su Yi to go into it.

Su Yi sat down and immediately called out the mysterious space he had.

A faint light rippled out. It slowly became brighter and brighter and covered him in an instant.

A blinding light illuminated the cave.

With the extent of Su Yi's exhaustion and injuries, he could only recover faster if he was in the mysterious space.

Damn!

Once Su Yi entered the mysterious space, he was flabbergasted. His face froze.

The space which was originally around 30 meters in radius was now more than 300 meters in radius. The area which it covered had expanded by more than tenfold.

What was more important was that the energy within this space was so rich and dense that it could horrify people.

The energy was everywhere, making the surroundings a blur and it gave off a pale light. It was like a fog in the woods.

Su Yi was still in shock. When he looked closer, the ground was like soil and there were even bits of stone. It was totally different from the original.

Its that mine, it must be!

Su Yi was sure now that the changes had occurred due to the mine.

The mysterious space had absorbed the energy within the mine, causing the mysterious space to grow bigger once again.

It was exactly like the time when the space absorbed the energy within the Yuan Testing Stone in the City of Man.

Mine within a mine!

Su Yi confirmed that the mine was a Mine within a mine.

Hehe!

Feeling the energy so abundant in the space until a blurry fog was formed, Su Yi grinned.

Recover!

Time was short and he was still in the Forest of Demons. Su Yi did not waste time. He needed to be in his peak condition at any point in time.

Performing the Supreme Chaotic Yuan Technique, Su Yi started to heal his injuries.

As Su Yi performed the Supreme Chaotic Yuan Technique, the energy within the space started to flow.

The energy within the space that was literally to the point of overflowing, rushed towards Su Yi from all directions.

Not much time had passed before Su Yi was already in a cocoon of light. It was like the light from the gods and there was even an air of dominance and authority around him.

But at that moment in time, Su Yi's mind could not calm down.

From him being thrown down the cliff by Wang Quan De to the disastrous encounter with Black Fiend School, all this happened because he was too weak.

In this world where might made right, he was like a fish on the chopping block and others were the one holding the knife.

Right now, Su Yi wanted to strengthen himself more than ever.

He could not continue like this. The events of him falling off the cliff, when he was within the mine of Black Fiend School, he was lucky enough to escape alive. But what about the next time? Would he still be so lucky?

Above the mine, the forest around it was in a mess. Outbursts of light could still be seen in the air. The fight from before was still going on.

Puh!

Under the combined attack of the four Yuan Void Realm experts from Black Fiend School, the skinny old man spat out a mouth of blood and was beaten back in the air.

But right now, the other four Black Fiend School Yuan Void Realm cultivators were also in a bad shape.

The two Yuan Void Realm cultivators which had come to the fight at a later time were also injured and looked very pathetic.

You are trapped and exhausted. I shall see how long more you can resist us!

Seeing the skinny old man getting injured, the face of High Elder Bai was dark. Bloodlust could be seen from his eyes.

As soon as High Elder Bai finished his words, he shot towards the skinny old man like lightning. His figure turned into an afterimage.

Blazing Volcanic Palm!

Seeing High Elder Bai coming for him, a flash of cold light flickered across the skinny old man's eyes. A hand seal formed in an instant as though he had been prepared for that and suddenly fire attribute Yuan Qi surged from all directions.

Boom!

The skinny old man quickly shot out his red-hot palm. The High Elder Bai stopped in his tracks and under the surprised gazes of the other three Yuan Void Realm experts, the seal exploded.

Bam!

The palm seal was like a bomb. In an instant, there were flames formed in the air and poured onto the ground.

The fiery aura was like a hurricane expanding in all directions, devouring and destroying everything in the surroundings.

What a strong martial art technique!

The faces of the four High Elders changed and in an instant, they all made their moves to shatter the blazing energy into nothingness.

If they did not do that, the disciples of the Black Fiend School present there wouldnt even be left with their complete remains.

But at that moment of delay, amidst the blazing flames, the figure of the skinny old man had mysteriously vanished.

He is already exhausted! This way, hurry!

High Elder Bai looked around. He seemed to have caught the aura of the escaping skinny old man and immediately chased after him hastily.

Swoosh. Swoosh.

The remaining three Black Fiend School Yuan Void Realm cultivators also darted out like lightning, flying through the air after the old man.

The miners and disciples who had witnessed everything could not help but be dumbfounded.

That was a showdown between experts. How powerful and terrifying it was. They could send tremors through the air with a fist and make the mountains and ground tremble. They did not even have the strength to withstand the shockwaves from their fight.

Within the mysterious space, Su Yi was recovering quickly. His pale face started to regain some color and with his body being full of Yuan Qi, his aura started recovering as well.

Whooo

After a while, Su Yi deformed his hand seal and the light on him slowly faded away. As he exhaled, his eyes opened and a glaring light shot out of his eyes. Then it died down and became eyes filled resolution.

Su Yi felt that his body had already completely recovered. His eyes squinted slightly.

I have been reincarnated into this world. Can I not beat this world? From today onwards, I shall give the rest of the people a good fight!

Su Yi's gaze was firm. He had thought it through. The strong preyed upon the weak and he was just a fish on the chopping block, but he was a reincarnated character. He had a treasure on him. Would he have to continue being so pathetic? That was definitely not what he wanted.

From this day forth, no matter who it was, the Sacred Mountain or the Black Fiend School, so what if they are strong, he was also a reincarnated character, he had memories of his previous life and a treasure on him. How could he still be trampled underneath their feet?!

I must become strong!

Su Yi mumbled to himself, his expression one of determination. He must become strong.

Chapter 75: Enemies on a Narrow Road

When Su Yi had exited the space and walked out of the hidden cave, the sun had laid its last rays of the day upon the mountaintop.

It was twilight, the evening sky was like a blanket of orange-red leaves in autumn and the mountain tops poking through the sea of clouds were like dark purple islets.

It was a long chain of mountains. They towered over the land side by side and a forest stretched endlessly beyond the horizon.

Some ancient trees were shockingly tall, so huge that they seemed to be as big as the mountains. They stretched far into the clouds and blocked out the sun, filling one's heart with awe as one looked at them.

Between the trees and mountains, some vines grew. They looked like dragons coiling around the mountains.

Howl!

Within the trees, a loud frightening cry of a beast was heard.

Tens of beasts appeared and surrounded a dozen people.

Within the group of people, there were quite a few very strong cultivators. Yuan Qi materialized into figures of beasts under them, sending a wave of intimidating aura into the surroundings.

But at this moment in time, within the horde of beasts, there were also some very strong beasts. Each of them several tens of meters tall with sharp rows of teeth lined on the insides of their jaw. Some had scales all over their body like a suit of armor while others had feathers like blades.

These few very strong beasts had started to attack the very strong cultivators, occupying them.

At the same time, the other beasts started to make their move. Some terrifying birds stretched their wings which were several meters wide and began diving down for an attack, tearing a person apart with their claws. Blood splattered all over the ground.

Hurry! Protect the Young Master!

A strong cultivator shouted at the top of his lungs, his face filled with seriousness. He had never thought that they would meet a strong beast and so many of them at once too.

Amidst the group of figures, a youth in black clothes was being protected. His face and figure, fine and handsome. It was none other than the Young Sect Master of Black Fiend School.

The youths surname was Yan, he was called Yan Shangyang. Last night, he had initially come out to hunt for a few demonic beasts.

At the start, he had High Elder Yu accompanying him, but halfway through the journey, High Elder Yu had received news that someone was invading the territory. Hence, he left in a hurry, ordering the strong experts who were left behind to bring the Young Master back.

But this chance did not come by easily. How would Yan Shangyang agree to go back to the camp just like that? When High Elder Yu left, the remaining people from Black Fiend School were unable to go against his wishes and could only listen to him. As a result, they ended up in this mess.

On the way, they did kill some beasts, but Yan Shangyang was not satisfied. He wanted to venture deeper into the woods, hence how they were in their current situation.

Now that there were so many beasts and even a few extremely strong beasts leading the horde, Yan Shangyang could not feel happy at all. Although the disciples of Black Fiend School were doing all they could to protect him, his face looked slightly troubled. . He also drew his bow and prepared to fight.

These disciples were all the elite and their strength was not at all weak, but facing these tens of strong beasts, they also started getting goosebumps.

Howl!

Some of the of beasts roared and at once, all the beasts in the sky and on the ground lunged forth, causing the woods to be filled with cries and movement as they continued trying to kill the disciples of Black Fiend School.

In an instant, the flying beasts with sharp claws, jaw-like traps of steel with wings when stretched, seemed to cover the entire forest, had torn a few more elites of Black Fiend School into pieces. Once again, blood and flesh all mixed together.

Young Master, please retreat! You! Bring some people and escort the Young Master back now!

A strong cultivator hollered out loud, yet in his heart, he was cursing and swearing. If it wasn't for this Young Master looking for his own death, they wouldn't have met so many beasts. If the Young Master was to die here, at this time, even if they had escaped, they would not be able to run out of the Forest of Demons anyway. The Black Fiend School would never let them off, so they could only fight to the death and escort the Young Master as they retreated.

Rumble

Roar!

Low sounds of explosions and horrifying roars from beasts sounded through the mountains.

Su Yi was standing on a valley, far away from the battle. The valley was very high up above the ground, so from a long distance, he could see what was happening.

Eh? It's the people from Black Fiend School!

The violent outburst had drawn Su Yi to the site and from far away, he saw the figures of the disciples of Black Fiend School. Instantly, his face changed. Had the people from Black Fiend School chased him all the way out here?

No, it shouldn't be. That! It's that kid!

Su Yi saw the youth who was being protected by some people as they retreated in a rush.

How could Su Yi ever forget about that youth? It was that Young Master of Black Fiend School, he had the cultivation level of Yuan Xuan Realm and may even be stronger than Ji Chao, but he should not be much stronger than him.

Inspecting the situation, Su Yi inferred that these people from Black Fiend School did not come to look for him. Instead, they had run into the group of strong beasts for some reason, and the Young Master was now running for his life.

Though the Black Fiend School still had some strong experts alive, according to the current flow of the battle, they already had a hard time staying alive themselves.

When a gentleman takes revenge, ten years of waiting is not long. But, I am no gentleman. Ten years of waiting to take revenge are too long for me. I act according to the opportunities I see!

As Su Yi looked on from afar, a cold light appeared in his eyes.

Whoosh!

Su Yi's figure flashed and vanished from where he stood.

Young Master, run! Hurry!

Roar!

The people from Black Fiend School were all running in a panic. Roars of the beasts were like thunder as tens of beasts fiercely chased after them.

The faces of the disciples of Black Fiend School were all white as they lost their calm.

They escorted the Young Master Yan Shangyang as he retreated while being terrified of those beasts, but they knew as well, that if something were to happen to the Young Master when he was with them, they would not be able to live well when they get back.

So, they could only protect the Young Master with their lives. If they succeed in protecting the Young Master, they would have achieved something great.

But the speed of the beasts was no less than theirs, they may be even faster than them.

Especially those flying beasts. Not much time had passed before they had blocked their escape route.

Damn, we are in big trouble now! The faces of the disciples turned whiter. The tens of beasts, that had chased after them, had already surrounded them. They could only form a circle and protect the Young Master Yan Shangyan who was in the middle.

The tens of beasts were all very strong. With the current situation, Yan Shangyang was no longer in the mood for hunting. He started to really panic and fear what was going to happen.

Yan Shangyang had sparred with the beasts that had been caged up by Black Fiend School. These beasts were nothing at all like them.

Roar!

These beasts were aggressive, and they lunged forth at the disciples for the kill without hesitation.

These beasts had scales which shone, bared their sharp fangs all while emitting a horrifying aura. Their claws could tear metal and their teeth could rip anything apart.

Fight with all your strength! These disciples were some of the finest of Black Fiend School. At this time, they all also had a sharp and fierce aura around them. They swung their weapons and a cold light reflected off them. Yuan Qi surged out around them as they began their fight to the death with the oncoming beasts.

But the beasts far outnumbered the few disciples of Black Fiend School and in an instant, like a tornado scattering the clouds, the few disciples were all surrounded and occupied and Yan Shangyang was now directly exposed to the raging beasts.

Chapter 76

Roar!

A leopard around three meters long, with green fur and red spots, was incomparably fast. It was like lightning and its Yuan Xuan Realm aura started exuding from it as its eyes gleamed with a dangerous light. With a pounce, like a predator hunting prey, it lunged towards Yan Shangyang.

Yan Shangyang was not used to this scenario, but he was not completely without any experience. He had talent greater than average and along with Black Fiends school resources and training, he was no flower in a greenhouse. Though he may be a bit scared and in a slight panic, now that he was encountering danger, he calmed down instantly.

Whoosh!

With his already armed and ready bow, he let loose his arrow and like a flash of lightning, the arrow reached the leopard, ready to take its life.

The leopard may have been in attack, but its senses were unimaginably keen and its movements agile. Its lunging figure actually instantly made a somersault in the air. It made a 180 degree turn and swiftly made use of the boulder at the side to push off. In the time needed for a single breath, it was lunging onto Yan Shangyang once again. Its front claws open, reflecting off a cold light.

Yan Shangyang did not think that this beast would be so agile and fast to respond. He was in slight confusion for a split second, but then he quickly pulled his bow and let loose another shot using Yuan Qi.

Whoosh!

The arrow flew like lightning towards the beast accompanied by the shrieking of air.

The pupils of the leopard constricted. It sensed the danger of this arrow and did not dare go head to head with it.

It spun around in mid-air and dodged the arrow once again. At the same time, it landed on the floor and walked slowly. Its eyes glued onto Yan Shangyang's figure ferociously.

It seemed that after failing to catch its prey two times, the leopard was starting to feel a bit depressed.

Yan Shangyang's two arrows did not hit its target. He drew another arrow from the quiver on his back and quickly aimed his bow. He continued looking at the beast cautiously. His face was as serious and focused as it could be.

The aura of the beast started to exude out again as its body gave off a light. Its sharp claws crumbled the ground beneath it as it seemed to prepare for another attack on Yan Shangyang.

But suddenly, the leopard seemed to have felt something and instantly spun around. Its beastly eyes looked in another direction away from Yan Shangyang.

Following the leopard's gaze, a clear, thin figure appeared silently from the shadows of the trees.

The figure belonged to a youth around 14-15 years old. Long black hair spread on his shoulders, but it could not hide the handsome face of the young man, especially those bright yet deep eyes. They were like the brightest constellations in the night sky, silently twinkling.

His clothes were tattered like rags, but they could not mask his unique charisma. One with slight pride and evil.

Seeing the leopard's sudden movement, Yan Shangyang looked in that direction as well.

But when he saw the figure, he could not help but have a face full of shock. He asked with a surprise, Kid, how did you escape? The person who had just joined the party was no one else other than Su Yi.

Only after a little pondering, Su Yi had made his decision.

These people from Black Fiend School had definitely encountered some huge trouble. Though strong cultivators from Black Fiend School were present, when one looked at the current situation,

you could tell that they were barely able to protect themselves, they had no way of pulling away from their battle to help others.

Right now, at this moment, it was no doubt the best time for revenge.

As favorable as the current situation is, there was still a definite danger. But according to Su Yi, a person who does not take revenge when possible is no gentleman.

Revenge for a gentleman, ten years is too long a wait, time wait for no man!

What a coincidence, we meet again! Su Yi stared at Yan Shangyang. Though Shangyang may have a cultivation level of Yuan Xuan Realm, he was not that strong. He was stronger than Ji Chao from Sacred Mountain, but he should not be much stronger.

Back then when Su Yi was Yuan Soul Realm First Grade, he could already go head to head with Ji Chao. Now that he was already Yuan Soul Realm Third Grade, along with the having cultivated the Hundred Transformations Step, Su Yi was confident enough to fight Yan Shangyang.

Kid, you want to deal with me? Seeing Su Yi's eyes, Yan Shangyang was not stupid. He could tell Su Yi's motive which was as clear as day. This kid wanted to finish him here.

Some debts once owed must be returned. Now there seems to be no one that can protect you! Su Yi sneered as he analyzed the current situation.

Currently, all the elite disciples from Black Fiend School were surrounded and engaged in a battle with the rest of the beasts. Each of them was in a pathetic state and could barely stay alive. Where would they even find the excess energy and time to protect Yan Shangyang?

The strong cultivators from Black Fiend School were also quite far away and also occupied by the strong beasts.

If it wasn't for the current favorable situation, Su Yi would have never decided to reveal himself.

Hehe, kid, you want to deal with me with your ability? You are seeking death! Yan Shangyang laughed coldly. He may have feared the leopard, but against such a kid, he had no worries. The previous time when he had not managed to kill Su Yi, he already felt uncomfortable. He did not expect the kid to actually escape.

Who will live and who will die, only after trying will we know. But I guess that the one who will die today will definitely be you! Su Yi smiled. Within his deep eyes filled a cold light gleamed.

Sss

Hoot!

As soon as Su Yi finished his words, there was a violent wind which scattered the dust and stones in the air. A large snake, several meters long, appeared beside Su Yi. It opened its gaping red mouth and then closed it. A blood-red tongue flickered in and out of its jaw.

In the sky, there was a beast bird with a wingspan several meters wide. When it flew it severed the branches of several trees and created a violent airflow like one from a tornado. It had claws as sharp as hooks.

The beast bird and giant snake exuded an intimidating presence and the bloodlust in their eyes was obvious as they stared at Su Yi.

To beasts, humans were food.

Especially cultivators whose bodies contained a mass of energy. After beasts consumed them, they could receive quite the amount of benefit.

But now, the giant snake and beast bird that were staring at Su Yi, whose eyes were initially full of bloodlust, now seemed to have felt some kind of aura which made them feel insecure.

Kid! It looks like I would not even have to make a move, you who do not know your place!

Yan Shangyang sneered. This kid with his ability wanted to deal with him? Well, now he did not even have to do anything. The two beasts should have almost reached the Yuan Spirit Realm cultivation. He wondered how the kid was going to die.

At the same time when he was sneering, Yan Shangyang knew that the situation had become even more serious.

He had never placed Su Yi in his eyes, but his current situation was becoming worse.

The kid was only a minor event, now that he was in even greater danger, was the biggest trouble.

Su Yi looked at the circling bird and the giant snake beside him. Their auras were not weak but he probably would not be able to fight them back.

Boom! In an instant, Su Yi initiated the Supreme Chaotic Yuan Technique.

Suddenly, the snake and the bird who was staring at Su Yi felt something and their eyes were filled with shock. Fear formed in their eyes and their bodies started trembling. They started backing off slowly and did not dare approach any further.

Growl!

The leopard who was looking at Yan Shangyang let out a deep growl in its throat. Its eyes filled with fear looked at Su Yi, its face swirled with emotions. It began to back off slightly as if it was afraid of something.

How could this be? This scene made Yan Shangyang puzzled, he had no idea what just happened.

Chapter 77: Confrontation with Yan Shangyang

How could these few beasts suddenly have this reaction? They seem to fear the kid.

Whoosh!

At that instance, Su Yi's figure was like a streak of lightning as he lunged directly towards Yan Shangyang.

Su Yi knew that the Supreme Chaotic Yuan Technique could affect the beasts. This was also one of the reasons why he decided to reveal himself.

The strong cultivators of Black Fiend School were occupied and the Supreme Chaotic Yuan Technique could affect these beasts, those were the reasons why Su Yi had decided to take this chance to take his revenge.

Kid, you are looking for death!

Yan Shangyang was no coward. He quickly recovered from his shock and let loose an arrow towards Su Yi.

Su Yi already knew about this Young Masters skills. A bow was a ranged weapon, only when he was near to Shangyang would he have a greater chance of winning.

Su Yi immediately used the Hundred Transformations Step. The Hundred Transformations Step made his movements unpredictable and his speed extremely fast, making things seem real yet fake, fake yet real.

Su Yi had prepared for this long ago. He integrated the experience he had gained from all these years together with the Hundred Transformations Step perfectly. It was just like adding wings to a tiger. His body bent in an unimaginable angle and dodged the arrow.

Yan Shangyangs expression changed. He retrieved three arrows from his quiver while his body shot back in the blink of an eye.

Triple Air Breaking Arrows!

With a shout, Yan Shangyang let loose three arrows towards Su Yi as he was retreating.

Whoosh! Whoosh! Whoosh!

Three arrows flew at the same time in the formation of a triangle, accompanied by the sharp shrieks of air breaking. They were like streaks of lightning, locking onto Su Yis figure.

At this time, the lunging Su Yi became focused. He did not expect Yan Shangyang to be strong like he had thought. This archery technique had its own strangeness and strength.

Feeling the aura of the three arrows like that of thunder, Su Yi dared not go face to face against it.

In an instant, white-colored wind attribute Yuan Qi surged from his feet and formed a whirlpool beneath him. He was like a ghost, a willow in the wind, as he dodged the three arrows through the gaps between them.

Swoosh!

But the sharp, strong winds encircling the arrows shaved off quite a bit of hair which landed on his shoulders. As the sharp winds passed by, they emulated the light of a sharp blade, causing his hair to stand on their ends. His skin tightened and gave off a sensation of pain.

Su Yi took this chance to reach Yan Shangyang as fast as lightning.

Yan Shangyang showed a face of surprise. He had never thought that the kid could evade his finishing blow. He used a lot of strength to let loose the three arrows at once and now he had no time to arm his bow once again.

Kid, did you really think I depend only on arrows?!

Yan Shangyang sneered. This kid had escaped from the mine and actually wanted to take his life now.

Yan Shangyang could not draw his bow in time, so he swung his arm, and in a flash, a blazing hot fire attribute Yuan Qi surged from his body, forming a finger seal pointed towards Su Yi.

Foom!

The red light from the finger seal was glaring and like a crimson snake, it shot towards Su Yi's forehead. Its angle hard to counter and sinister, poised for the kill.

Su Yi had already made his preparation to kill and he was observing the surroundings as well, and even more, he did not underestimate this Young Master of Black Fiend School.

Seeing the sinister finger seal dashing towards him, Su Yi's heart sank slightly, and the corners of his mouth twitched.

This Young Master indeed has some tricks up his sleeve. If it wasn't for the period of time that he was guided by the mysterious person back in the deep valley, Su Yi felt that he would be in serious danger at this point in time.

Everything happened in a flash.

When the finger seal appeared in front of Su Yi, he waved his hand. Yuan Qi flowed, and a strong formless power flowed and shattered the finger seal to nothingness.

After shattering this finger seal, Su Yi was also prepared and he utilized this opportunity to close up the gap.

Suddenly, a black-colored Yuan Qi flowed within Su Yi. As it passed through certain meridians, earth attribute Yuan Qi started to come together and converge at his right foot.

Su Yi hid his aura of Yuan Soul Realm Third Grade no longer. Within his eyes, there was a glaring light like the flash of lightning. His tattered clothes fluttered. His black hair swayed and flew in the air. His aura seemed to be endless like he was bringing the rage of a storm.

Wrath of the Eight Wastelands, Oppress the Mountains and Rivers with a single foot!

His shout was like thunder, and with Su Yi's shout, his right foot hit the ground, and the Yuan Qi at the sole of his foot spiraled out like a tornado.

Boom!

The earth shook, and the air cried out, from where Su Yi's foot hit the ground, rings of black-colored earth attribute Yuan Qi rippled out like waves.

Cr-Crack

The earth started to fracture and cracks the width of an arm started to spread out like the web of a spider.

The surrounding stones and trees were all shattered into a fine powder in an instant.

Howl!

The eyes of beasts in the surroundings for reason unknown started to quiver and cried out continuously.

Puh!

While currently, a groan filled with pain was heard from Yan Shangyang. As his body staggered back pathetically from the impact, the ground was breaking underneath his feet and a mouthful of blood flew out from his mouth involuntarily.

At this moment, the expression of Yan Shangyang was truly flabbergasted.

He was injured, seriously injured.

The kid only had the cultivation level of Yuan Soul Realm Third Grade, right?

He was a genuine Yuan Xuan Realm First Grade! Even if it was Pinnacle of Yuan Soul Realm Ninth Grade, there was still an extremely huge gap between it and Yuan Xuan Realm First Grade.

But that kid was only Yuan Soul Realm Third Grade, and the strength that just exploded out from him was actually that terrifying,

If he had not made some preparations and cultivated some Body Cultivation Techniques since his childhood, the consequences would have been unthinkable!

After Su Yi made his move, his face was pale. The strength needed to initiate the Wrath of the Eight Wastelands was too much.

If it wasn't for him breaking through to Yuan Soul Realm Third Grade, Su Yi would not have simply dared to use the move.

Stronger than I had thought. That is-!

Seeing that the person was only injured, but not knocked down from his move, Su Yi's face instantly darkened. It was not within his prediction that this Young Master of Black Fiend School was quite a bit stronger than Ji Chao from Sacred Mountain.

Then, Su Yi saw that a layer of faint crimson light had enveloped Shangyang's skin like a mist, tightly hugging his skin.

Yuan Qi Cloak!

Su Yi's eyes narrowed. When one reached the Yuan Xuan Realm, they could exude Yuan Qi to form a cloak to protect the body.

The crimson red light enveloping Shangyang's skin right now should be the Yuan Qi Cloak.

Kid, I have to say that you are already very strong. But unfortunately, there is a difference like heaven and earth between Yuan Xuan Realm and Yuan Soul Realm. Now, die!

Heavily injured, fresh red blood dripped from the corner of his mouth, Yan Shangyang stared at Su Yi coldly. As his bloodlust increased, Yuan Qi flowed through his body and formed a light like that of a brightly burning fire on his body.

Whoosh!

In an instance, Yan Shangyang made his move. Light burst from beneath his feet and his figure disappeared like a black phantom in the night.

Chapter 78: Kill

In a flash, Yan Shangyang appeared beside Su Yi, putting himself in danger.

But he knew clearly that he needed to get rid of Su Yi first. A thick coat of bloodlust hung around him as his palm struck out directly for Su Yi's head.

Yan Shangyang may be seriously injured, but this strike was still swift and strong. Before his palm landed, the air around the palm shrieked due to the impact while a light radiated from it.

Facing Yan Shangyang's ruthless attack, Su Yi's face had a grave look. After just using the move Wrath of the Eight Wastelands, he really did not have much strength to be able to retaliate against the incoming attack.

Following only his instincts, Yuan Qi gathered under Su Yi's feet and he sprung back without a single delay.

You can never be a match for me, there is no escape for you!

Seeing Su Yi's rapid retreat, Yan Shangyang's face was twisted with fury.

Since their last encounter, he had already found Su Yi unpleasant. With his cultivation level of Yuan Xuan Realm Grade One and his King Grade Talent, he was currently put in such a pathetic state by a brat of only Yuan Soul Realm Grade Three. His heart was overflowing with hate and resentment.

As he changed his palm into a fist, Yuan Qi surged from his fist, the power of the fist shook the air and seemed to give off a light which looked solid.

This phenomenon was Coat of Yuan Qi. Only those who had reached the Yuan Xuan Realm could use this move and it could be considered the proof that one has reached the Yuan Xuan Realm.

Feeling the fist's power, Su Yi's face was grim. He had used too much of his energy, dragging this confrontation on was not good for his situation. He clenched his teeth while the Yuan Qi in his body boiled.

You are too slow, brat! This is the death which you have sought!

With a cold shout, Yan Shangyang found his chance. How could a Yuan Soul Realm Grade Three kid ever be a match for him? Though the kid had dodged his previous fist, at the same time, he swung his arm down and smashed it mercilessly against Su Yi's shoulder.

Boom! A loud, deep sound rang out as a terrifying strength hit Su Yi's shoulder directly.

But at the same time, for some reason, Su Yi's face turned wild as his veins bulged.

Overlords Fist!

Su Yi hollered out loudly as his right fist appeared right before Yan Shangyang's face.

A horrifying wave of Yuan Qi erupted from Su Yi's face like a volcano.

Boom!

In the midst of the bright light, Su Yi's fist seemed to grow even bigger as howls of wind and low roars of thunder sounded out clearly. An oppressive power like the awakening of a tyrant, like the descent of an emperor, burst out.

Bam!

As the fists of both youths hit their target in an instance, sand and shattered stones were sent flying away from them while the ground seemed to have trembled from the impact.

Puh!

Su Yi spat out a mouthful of blood while his body was sent flying 10 meters away.

Yan Shangyang's body did not fly back, but his face was already a mess of blood and flesh. His eyes bulged from their sockets as blood flowed down from his eyes. His final face still frozen in fear, shock, and regret and soon after, his body tilted back and collapsed onto the ground.

The fight was witnessed by the few struggling disciples of Black Fiend School, but unfortunately, they barely stay alive, much less find the chance to interfere in the fight.

Black Fiend School had two Yuan Spirit Realm cultivators. Yuan Qi materialized under their feet, forming figures of roaring beasts. They too were occupied fully by the powerful beasts and could also barely fend for themselves.

Young Master!

Seeing Yan Shangyang's body collapse onto the floor, the disciples of Black Fiend School were instantly filled with despair.

They never imagined that there would be a kid that would suddenly appear from nowhere and actually manage to kill the Young Master.

Howl!

When Su Yi and Yan Shangyang were fighting each other, the giant snake, bird and the leopard with the green glow all retreated. After seeing Su Yi blown back by the impact, they paced back and forth, growling yet not daring to approach him.

Su Yi got back onto his feet, blood dripping from the corner of his mouth, his shoulder shattered and bleeding as he looked at the body a few meters in front of him and walked to the body's side.

Kid, you are looking for death!

The few disciples of Black Fiend School who could barely protect themselves cried out in rage as they watched the kid climb back up to the Young Master's side, yet they could do nothing about it.

There was no doubt that the Young Master of the Black Fiend School was as dead as a doornail. Su Yi searched his body and fished out an interspatial bag. Looking at the dropped bow and arrows close by, his eyes showed reluctance, but he quickly dashed clumsily into the depth of the trees and vanished into the shadows.

Behind him, the collision of powers rang out like thunder as Su Yi staggered from side to side, frantically escaping from the area, not daring to stay for a moment longer.

He used his experience to find a hiding spot, of course, not even Su Yi dared to look for a spot nearby, the further he could hide, the better it was for him.

Regarding the killing of Black Fiend School's Young Master, Su Yi had never thought of letting him off today.

A man who does not take his revenge is no gentleman. If he had let him go, there was no doubt he was creating trouble for himself when they meet again.

And on the other hand, Su Yi was also thinking about the items on the Young Master's body.

Being the honored Young Master of Black Fiend School, he would definitely have good stuff on him and what he needed the most now was cultivation resources. Since he had met him, then it was fate.

Seeing the bow and arrows from before, Su Yi could tell that they had a high value, but he resisted the temptation of taking them as well. He could not cross the line and also, he did not want to delay his escape.

He was also afraid that the weapon would be too dazzling for the eyes and he did not have much use for it. If he used it in the future, it may even attract the unwanted attention of others.

With his experience of previously staying in the Forest of Demons, Su Yi did not forget to erase his tracks. He had no clue how far he had run before he found a hidden cliff, surrounded by vegetation and supported by winding roots of aged trees like the coiling of dragons.

A naturally formed crack within the cliff, curtained by vines and branches, this was the hiding spot that Su Yi was looking for.

It was a messy battlefield. Corpses of beasts strewn across the floor and not one place was left untouched.

High Elder Bai and High Elder Yu of Black Fiend School were currently looking at the corpse of Yan Shangyang on the floor. His face incomplete, leaving behind only a bloody mess. Their faces were pale white and twisted as they could be.

Little brat! You will not be able to escape! Find him! Find him now!

High Elder Bai was furious. Compared to the incident at the mine, he was more unwilling for the Young Master to run into harms way. His cold and furious voice echoed through the forest as the air in the surroundings turned freezing cold.

Swish! Swoosh!

The remaining elite disciples of Black Fiend School, though each one of them was in a pathetic state and injured, no one dared to give a second opinion and each of their faces was glum. In an eyeblink, figures of bodies dashed out and into the deep forest.

Three Days Later

It was night time. The surroundings were silent and not a single sound to be heard.

Above the massive stretches of mountains, stars in the vast sky started to sparkle and beside the seam in the cliff, occasionally a few shrubs would show their faces.

Within the deep depths of the crack, there was a faint movement of light. Hidden by the depth of the crack and the vegetation surrounding the cliff, no traces of the light were shown to the outside world.

Within the mysterious space, the energy of heaven and earth was rich and abundant.

Su Yi was sitting cross-legged, a hand seal formed as he performed the Supreme Chaotic Yuan Technique. He was currently recovering from his serious injuries.

After three days spent recovering, Su Yi's originally deathly white face had regained some color and the aura surrounding his body was no longer weak.

Hoo

At a point in time, he let out a breath of stale air. The light radiating from his body retreated back inside him. Su Yi's tightly closed eyes gradually opened as a light shone brightly from them, then turning quickly into a deep black filled with resilience.

I have turned a bit stronger again.

Feeling the changes within him, Su Yi was quite shocked. In the battle with Yan Shangyang, he had wasted himself completely and was also seriously injured, but now the Yuan Qi within his Yuan Qi whirlpool was even more abundant than before.

Chapter 79: I'm Rich!!!

After overcoming my limits time and time again, I will gradually grow stronger!

Su Yi realized this fact quickly.

The cultivation process is one of trials and progress.

Every improvement was like a snake shedding its old skin.

For example, it was similar to bodybuilding.

After working out, tearing one's muscles and challenging their own limits time and time again, they will have a new and improved version of themselves, in the end, each time; a version of themselves which will have surpassed their previous limits.

The cultivation process was the same. After challenging one's limits, you will become even stronger than before. This was a gradual metamorphosis; gradually surpassing one's limits.

Looking at his shoulder which had been shattered by the fist of the Young Master of Black Fiend School, the skin there that was once broken and bloodied, oozing with fresh red blood, now almost completely recovered as the skin seemed to be radiating with a glow like fresh jade.

The corner of Su Yi's mouth curved up slightly. Su Yi knew that this was the work of the Supreme Chaotic Yuan Technique.

Three years of training his body made his physique far better than those of his generation.

From back when he fought with Ji Chao, Su Yi already knew how tough his body was. This was the reason why he decided to take the blow of the Young Master when he could think of no other alternatives.

That was risky.

Thinking back on his fight with the Yan Shangyang, Su Yi's smile dropped. He knew that he had taken too big of a risk and the consequences were almost unbearable.

As he played back the scene when he fought Yan Shangyang in his mind, Su Yi felt that he had made some minor errors. Along with some misjudgment, he did not manage to kill the Young Master with one shot as he had intended.

As a result, he had put himself in a desperate situation.

In the end, he had to admit that being able to kill the Young Master and escape was nothing short of plain dumb luck.

There is a great difference in the abilities of a Yuan Xuan Realm and a Yuan Soul Realm!

Su Yi mumbled to himself.

Back when he had fought Ji Chao, Ji Chao was only at the Peak of Yuan Soul Realm Ninth Grade, there was still quite a bit of distance from the Yuan Xuan Realm.

But the Young Master of Black Fiend School was a real Yuan Xuan Realm Cultivator. He could condense Yuan Qi to form shields, form the Coat of Yuan Qi and materialize solid energies of Yuan Qi. These actions could be done when one has reached the Yuan Xuan Realm.

Su Yi's eyes squinted slightly. He knew that this time he had made a few errors in his judgment. He could not afford to make the same mistake again or else he may not be able to live to tell the tale.

Getting up and tidying himself, Su Yi kept the mysterious space and appeared within the crack in the cliff.

It couldn't be said that Su Yi had done everything in vain. Not only did he kill the Young Master of Black Fiend School, but he had also even gained an interspatial bag.

Within the crack in the cliff, Su Yi stretched his stiff waist and then an interspatial bag popped out into his hand. It was the size of a palm, similar to a cotton pouch, giving off a faint glow.

This was the interspatial bag he had gotten from the Young Master. Su Yi had risked his life to deal with Yan Shangyang not only to pay him back for what he had done to him, but also another reason was due to his identity as a Young Master of the Black Fiend School.

Su Yi had guessed that there would definitely be an interspatial bag on the Young Master and there may be quite the amount of cultivation resources within it. What he lacked the most now to become strong were cultivation resources.

Looking at the bag in his hand, a smile once again crept up Su Yi's face.

The interspatial bag alone was already a treasure and was quite valuable.

But Su Yi was far more interested in what was inside the bag instead of the bag itself.

Hmm, there is a seal on it, how do I open this?

A problem placed itself in front of Su Yi's eyes. A seal had been placed on the bag and he had no way of opening it.

Though Su Yi had never owned an interspatial bag, he had heard of it before.

An interspatial bag, being such a valuable item, other than having a portable space, each bag needed to be bound by blood and then one would set their own unique seal on the bag.

In this case, the bag could only be opened by yourself.

If someone else tried to open it forcibly, everything inside the bag would be destroyed.

But the seal was not indestructible, in front of absolute power, there was no problem of it being destroyed.

Or some strong tool refiners would have their own special methods of destroying the seal placed on the interspatial bag.

Su Yi pondered hard on a way to open the seal on the bag.

Back when he was with the mysterious man in the valley deep beneath the surface, Su Yi did not receive only the Heavens Taming Incantation, he had also received a whole bunch of cultivation knowledge, like an inheritance.

Got it!

Soon, Su Yi had a smile on his face. He had found the way.

If one's ability was similar to the one who had placed the seal on the interspatial bag, then there was a large chance that you could break the seal.

Strictly speaking, there were two conditions to fulfill before one could break the seal on the interspatial bag.

The first was that your ability cannot be below the one who had placed the seal.

The second and the most important that your spiritual power must be stronger than the other side.

Su Yi was happy. Although his cultivation may not be at the level of the Young Master, he was a real and genuine Soul Tamer, his spiritual power was one of his strong points, he could definitely give the method a shot.

Carefully investigating the method to open the seal, Su Yi fell into silence. He sat cross-legged and began to try to open the seal placed on the bag.

A hand seal formed, and Yuan Qi flowed with a bright shine.

Su Yi started trying to break open the seal. He controlled some Yuan Qi in his palm, the invisible spiritual energy started to ripple out together with some Yuan Qi, flowed towards the interspatial bag.

Boom!

Suddenly, something which Su Yi had not expected happened. When the Yuan Qi in his palm touched the interspatial bag, the mysterious space in his mind roared to life.

Fwoom!!!

There was an explosion of light in Su Yi's mind and a familiar energy shot out like lightning and enveloped the interspatial bag.

Su Yi could clearly feel that the mysterious sphere of light in his mind was currently devouring some sort of energy within the interspatial bag.

In an instant, the light enveloping the interspatial bag became unbearably bright.

Su Yi was bathed in the light and he could not interfere in anything. He could only feel that there was an energy flowing between the interspatial bag and the mysterious sphere of light.

Three minutes passed by before the light enveloping the bag started to fade.

The mysterious sphere of light in Su Yi's mind also no longer had any reactions and everything became calm once again as if nothing had even happened.

Cr-Crack

Within his palm, a soft sound came from the interspatial bag, the seal had already been shattered and disappeared at some point in time.

Su Yi's face was stunned. He still had not recovered from what had just happened and his thoughts were in complete chaos. Did the mysterious sphere of light also have the function of breaking seals placed on interspatial bags? But the sphere of light was definitely devouring some sort of energy within the interspatial bag just now.

Snapping out of his daze, Su Yi immediately checked the interspatial bag and flipped the bag upside down. Many items started pouring out from the bag.

Whoosh!

Pieces upon pieces of stones dropped out of the bag and once they hit the ground, they all turned into dust.

There were too many stones and Su Yi was still sitting cross-legged. Huge amounts of stones came dropping out of the bag, turned into dust and almost drowned Su Yi.

Chapter 80: Seven Injuries Fist

In the end, all the stones which had dropped out of the interspatial bag turned into powder. It all accumulated to tens of meters in size.

Luckily, there was quite a bit of space within this crack in the cliff, or else the powder could have buried everything.

These are not normal stones, they are Yuan Stones!

Su Yi was in shock as he examined the powder. The powder looked exactly the same as what happened to the Yuan Testing Stone back in the City of Man after it had shattered. How could this be crushed stone? It was obvious that these were Yuan Stones. Who would be so bored as to put normal stones in their interspatial bag?!

Su Yi now realized why the mysterious sphere of light in his mind had a response. It was because the interspatial bag contained Yuan Stones. That's what caused the response from the sphere of light!

Even with the interspatial bag as a barrier, the sphere of light had actually absorbed the energy of all these Yuan Stones completely.

This caused Su Yi to become very shocked that the mysterious sphere of light had such a cheat!

But, Su Yi's heart was pained to the extreme.

From the humongous amount of Yuan Stone powder, the number of Yuan Stones which were contained within the interspatial bag must have been a huge number. This was a fortune!

But now, all the Yuan Stones had turned into dust after the energy within them were devoured by the sphere of light.

Is there any other good stuff?

Su Yi turned the bag over to examine it even further as he did not want to miss out on anything.

Afterward, Su Yi did find some other items within the flood of powder.

There were three jade bottles containing elixirs, two scrolls which have slightly yellowed due to time, and a whole pile of fresh medicinal herbs with their roots attached, looking like they have only been harvested recently.

There were also two quivers filled completely with arrows.

Su Yi had recognized these two quivers at once. They were the same as the quiver the Young Master of Black Fiend School had on his back.

Other than all those items, there was another long sword, based on the material and touch, it seems to be worth quite a bit as well.

Red Jade Grass, Spirit Amplification Tea, Jade Bamboo, Seven Leaves Black Nightshade

Su Yi checked the pile of herbs. These were not normal medicinal herbs, they were Spiritual Herbs.

The values of Spiritual Herbs that were used to refine elixirs could be known after a bit of thinking.

Yuan Restoration Elixir, Soul Stabilizing Elixir, Earth Xuan Elixir!

Su Yi checked the three jade bottles of elixirs, they were Yuan Restoration Elixirs for healing injuries, Earth Xuan Elixirs for stabilizing the cultivation level of the Yuan Xuan Realm and the Soul Stabilizing Elixirs for stabilizing the Yuan Soul Realm cultivation.

There were ten Yuan Restoration Elixirs and Earth Xuan Elixirs each, but there was only three Soul Stabilizing Elixirs.

Im rich!

Su Yi was ecstatic. It was just as he had thought, there was quite the amount of cultivation resources on the Young Master.

The worth of the pile of medicinal herbs was already shocking, but the Yuan Restoration Elixirs and the Earth Xuan Elixirs were all High-Level Moon Grade Elixirs.

The Yuan Soul Elixirs which his grandfather had given him back at the Su Estate were only Moon Grade Beginning Level elixirs.

But now, even if it was the Soul Stabilizing Elixirs, they were also Moon Grade Middle Level, higher than the Yuan Soul Elixirs by one level.

Do not think that it was only one small level. Just that one small level made the difference like heaven and earth in value. There was a difference of at least ten times!

Two sets of Martial Art Techniques!

After a check, those two scrolls were two sets of Martial Art Techniques. The words on the scrolls had a font similar to that of the seal script, one of them was called Seven Injuries Fist and the other was Crimson Flame Palm. The grade of these two martial art techniques was actually Commander Grade!

From what Su Yi knows, the entire Su Family did not even have one Commander Grade Martial Art Technique, but back then, the martial art technique which Ji Chao used had already reached King Grade.

Commander Grade Martial Art Technique was already of an above average grade so although it was neither a King Grade Technique nor was it even comparable to Emperor Grade Hundred Transformations Step.

But Su Yi knew very well that if someone else found out that there were two Commander Grade Martial Art Techniques on him, it would already be enough to have him hunted by countless people in the Forest of Demons.

I have struck a fortune!

Looking at what he had in front of him, Su Yi's face was beaming.

After living for so long, it was still the first time where he had seen so much good stuff in front of him.

Just this interspatial bag, the two sets of Commander Grade Martial Art Techniques and the three jade bottles of elixirs would probably already be enough to buy the entire City of Man.

Furthermore, from the Yuan Stone powder which had poured out of the interspatial bag had already proven that there was a large pile of Yuan Stones.

Even if it was the Yuan Stones of the lowest grade, such a large pile would already be worth several cities. Though the sphere of light had absorbed all those energy, within the mysterious space, he could also reap the benefits from the absorbed energy of the Yuan Stones.

How could Su Yi know that the interspatial bag which he had gotten from the Young Master did not belong to the Young Master but rather it was the Black Fiend School's cargo transportation interspatial bag.

There were many mines and businesses under the Black Fiend School and transportation that naturally would be dependent on interspatial bags and strong cultivators.

But for this time, High Elder Bai had brought along Yan Shangyang to the mine. Although they went there for another purpose, they wanted to bring back a batch of mined Yuan Stones since they were already there.

So, the huge batch of Yuan Stones should have been on High Elder Bai.

But High Elder Bai had put the stones with Yan Shangyang on purpose. Firstly, it was to take measures against those who had robbed Black Fiend School recently.

Secondly, High Elder Bai had also wanted to please the Young Master. He wanted to give him the feeling of shouldering a heavy responsibility on his shoulders.

But High Elder Bai never would have imagined that in the end, after a series of unexpected incidents, Yan Shangyang would be killed by Su Yi and the interspatial bag would be taken away by Su Yi as well.

And currently, Su Yi was still thinking that what he had taken was only Yan Shangyang's personal interspatial bag. He did not know that the last batch which was mined from the mine was also the largest batch so far.

The skinny old man doesn't even know that after he had put everything he had on the line, even going so far as to enter the mine undercover, even tricking Su Yi once at the very end, was all for that batch of Yuan Stones.

But that final batch of Yuan Stones had landed in Su Yi's hands. If he knew about this, the expression on his face was sure to be very interesting.

Su Yi did not know how many Yuan Stones he had actually gotten. Anyways all that appeared in front of Su Yi was a huge pile of Yuan Stone dust.

I wonder if the mysterious space had expanded?

Su Yi did not know how many Yuan Stones there were, but he was clear with the fact that after absorbing all the energy within the Yuan Stones, the mysterious sphere of light would definitely expand once again.

There was also the possibility of the energy within the space becoming even denser.

Forming the hand seal, Su Yi summoned the mysterious space once again.

But out of Su Yi's expectation, after he had entered the space, for some unknown reason, the space did not expand any further.

The mysterious space was still around three hundred meters wide with an area of around half a kilometer, it did not expand again.

So dense!

But Su Yi was astonished all the same, currently the extent of how rich the energy within the space was far richer than how it was before he had opened the interspatial bag. It was to the point where it was actually frightening.

Now the energy of heaven and earth within the space was so rich that it was exuding a pressure. The surroundings were a blur which gave off a faint glow.

The huge land which was like soil spanning over three hundred meters in area was currently giving off a mist.

Strictly speaking, the drifting mist was energy which had materialized.

Breathing deeply in this space would allow you to directly absorb energy.
