

Sky&Earth 81

Chapter 81: Mysterious Spring Water

There was definitely a lot of Yuan Stones within the interspatial bag!

Su Yi's eyes lit up with delight. Feeling the energy which has increased yet again within the mysterious space, it was not hard for him to confirm that there was definitely quite the amount of Yuan Stones within the interspatial bag initially.

Holding back his excitement and happiness within his heart, Su Yi placed the three bottles of elixirs which he had just gotten into this space.

This space has an excellent function which provides great help. Placing elixirs within this space could raise the grade and effectiveness of elixirs.

Su Yi did not want to miss out on this cheating function of the mysterious space.

Since the mysterious space had consumed so many Yuan Stones which were supposed to belong to him, then naturally he had to reap some benefits right?

After placing the elixirs here for a period of time, the grade and effectiveness of the elixirs would definitely be incomparable to the elixirs current state.

If this space could directly raise the grade of elixirs, then what about those spiritual herbs?

Suddenly, while looking at the soil within this mysterious space, a thought struck Su Yi. This space could raise the grade and effectiveness of elixirs, if he were to grow spiritual herbs here, will it raise the grade of those herbs?

Putting his thoughts into action, Su Yi instantly started his experiment.

Using the sword which he had gotten from the interspatial bag as a hoe and spending a whole four hours, Su Yi finally dug up a plot of land several meters wide within the space. Then, he carefully planted the spiritual herbs which he had gotten into the dirt, after finishing his plan, he then got up satisfied. He was looking forward to the results, yet at the same time, he was slightly nervous.

If this was to work and it was proven that the mysterious space could raise the grade and effectiveness of spiritual herbs, then he would be set for the future.

Eh, what's that?

Suddenly, Su Yi saw something special. Within this space, there was raised land which looked like a small mountaintop and in the middle of it was a small hole around a meter and a half in diameter.

Around the small hole were smooth, transparent stones, making the hole look something like a well.

But within the hole, there was a palm-thick layer of liquid. It was crystal clear and sparkling, looking something like pure water but just thicker. There was no color or flavor.

What is this? A mountain spring?

Su Yi was filled with curiosity. He bent down, dragged his hand in the crystal-clear liquid and out of the blue, felt a hunger for the liquid.

Not knowing what was going on, Su Yi used a single hand and cupped some of the liquid to his mouth which he drank in one gulp due to habit.

It was cool and refreshing like sweet water in the middle of a desert, saving him from dying of thirst.

But then, as this sweet liquid flowed smoothly down Su Yi's throat, in that instance, it turned into a tremendous amount of energy which rushed into every fiber of Su Yi's body.

This tremendous power made Su Yi feel like he was struck by lightning.

Boom!

That tremendous surge of pure power exploded like a bomb within Su Yi and almost blew Su Yi's body apart, causing Su Yi to stumble and fall onto the ground.

In a flash, energy surged out of Su Yi's body and enveloped Su Yi in a glowing white cocoon.

Su Yi was unprepared for all that had just happened.

The liquid that looked like spring water instantly turned into a huge wave of rampant energy within his body which seemed to be so much that it could cover the heaven and earth.

This surge of energy felt like it was going to make Su Yi explode.

If it wasn't for the toughness of Su Yi's body, with this sudden surge of energy, it probably would have been too much for Su Yi to take and his body would have exploded.

What a huge amount of energy! I'm in deep trouble now!

Su Yi snapped out of his confusion and his expression changed greatly.

He did not expect the liquid to hold such a titanic amount of energy. It was way too much. So much that he felt like his body was going to be ripped into pieces.

Under the stress taken by the meridians, muscles, Five Viscera and Six Entrails and more within his body, the tearing pain was as intense as it could be, so intense that Su Yi could not utter a single word.

Su Yi clenched his teeth and sat down with his legs crossed. He performed the Supreme Chaotic Yuan Technique, trying to consume and refine the rampant energy.

The rampant energy assaulted his body from within, like countless wild horses galloping around. As Su Yi performed the Supreme Chaotic Yuan Technique, he started to absorb and refine that surge of energy.

Following the Supreme Chaotic Yuan Technique, the energy flowing through Su Yi's meridians was being refined and then gradually turning into pure Yuan Qi.

Luckily, the liquid which had turned into energy did not resist and started to become refined as Su Yi performed the Supreme Chaotic Yuan Technique.

But the huge surge of energy was still there, that energy from that mouthful of liquid was no doubt something which Su Yi could bear with his current cultivation.

As Su Yi refined the energy within his body, his body quivering, his face contorted, beads of cold sweat dripped non-stop from his forehead.

The pain brought along by the rampant energy within Su Yi was not something anyone could bear with.

Su Yi bit down hard as he tolerated the shrieking pain within his body, making him unable to utter even a single word.

Su Yi had never imagined that the liquid would be so terrifying, but he could do nothing about it now, all he could do was refine the energy with all his might.

If he did not do that, in the end, the energy would tear his body apart from within.

Fortunately, the Supreme Chaotic Yuan Technique could refine all this energy, taking a load off Su Yi's shoulders.

As time passed, the tearing pain gradually went away.

Su Yi could finally take a breather, but the rampant energy was still within his body.

Strands of pure Yuan Qi flowed into the Yuan Qi Whirlpool inside his Dantian. All that Yuan Qi was refined from the energy which ran amok within his body.

This made Su Yi surprised yet ecstatic. Looking again at the situation, he might have almost been ripped to shreds by the surge of energy, but he could be sure that the liquid contained a titanic amount of energy which he could use.

Now Su Yi could feel all the strands of Yuan Qi gushing into his Dantian and the aura of his body continued to strengthen, it seemed that he was going to have a breakthrough in his cultivation.

Feeling this change, Su Yi was wild with joy, and he tried his best to control the situation and send the last bit of refined Yuan Qi into his Yuan Qi Whirlpool.

Within the Dantian Yuan Qi Whirlpool, the amount of Yuan Qi there was currently becoming denser and denser.

WhirringWhirring

The speed at which the Yuan Qi Whirlpool within Su Yi's Dantian spun became faster and faster, turning into a hurricane and giving off rumbles and roars, like those of thunder and wind.

Yuan Qi continued rushing in, becoming denser and denser.

And finally, the Yuan Qi Whirlpool could not store anymore Yuan Qi.

The amount of Yuan Qi was so much that it had even filled the meridians to the point where they were almost going to burst.

Bam!

Suddenly, a sound of an explosion came from Su Yi's Dantian.

The Yuan Qi Whirlpool suddenly froze and then as if it had exploded, it began to turn in the opposite direction as it expanded more and more, turning into nothingness.

I have broken through again!

Feeling this change, there was a broad smile on Su Yi's face. This was a sign that he was going to have a breakthrough in his cultivation again.

Whoosh!

Suddenly, Su Yi's expression changed once again. Within his body, there was still quite the amount of energy which had not been refined.

But now, the energy which had yet to be refined followed the energy of heaven and earth in the surroundings and rushed towards his Dantian.

This unexpected change of events filled Su Yi with shock.

Chapter 82: Insane Continuous Breakthroughs

For some reason, the raw energy of heaven and earth rushed directly into Su Yi's Dantian and became compressed again and again in a single moment.

Then, a weirder sight was seen at this moment. When the energy rushed into Su Yi's Dantian, it did not need any refining and were directly compressed and changed into pure Yuan Qi, quickly filling the Dantian.

Everything happened in a flash. Fast, furious and shocking!

Rumble! Rumble!

The strength of the aura on Su Yi's body shot up and within the Yuan Qi Whirlpool of the Dantian, a violent storm was raging.

Boom!

With two muffled explosions, the Yuan Qi Whirlpool within the Dantian got bigger and bigger as Yuan Qi exploded out of it, power pouring out in all directions.

Su Yi was astonished. He could clearly feel himself getting stronger time and time again.

That feeling of achievement and bliss was incomparable.

Swish!

The violent energy of heaven and earth continued surging into Su Yi like it was endless. The energy within this mysterious space really was so rich that it was shocking.

Within the Yuan Qi Whirlpool, the storm continued to rage on bigger and further, devouring all the energy which came its way.

Though this feeling of growing stronger gave Su Yi an incomparable feeling of satisfaction, it made him feel a sliver of unease.

Su Yi felt that the continuous breakthroughs may not be a good thing.

A towering skyscraper is built up from flat ground. Everything must be done gradually.

If the situation continued like this, it would probably do him more harm than good.

It cannot go on like this!

Su Yi felt really uneasy. He made his decision and forcefully controlled the Yuan Qi within his body, initiated the Supreme Chaotic Yuan Technique and tried to cut off his body from the energy of the outside world and forcefully suppressed the Yuan Qi which had rushed into his body's Dantian Yuan Qi.

This process was equivalent to seeking torture as if a river wanted to flow opposite to its normal direction.

Su Yi forcefully broke the connection, he could not go on like this.

This type of breakthrough made Su Yi feel really uneasy.

At this moment, if there was a strong cultivator here, he would probably be very surprised.

As a cultivator, it was near impossible to resist the endless temptation of breaking through continuously, and this was only a 14, 15 years old youth. This mental resilience and toughness were not normal.

As the energy of heaven and earth from the surroundings were forcefully cut off by Su Yi, the aura which was growing stronger was also suppressed by force.

Whew

Taking a deep breath, now Su Yi could finally be at ease. He could feel that the remaining energy within his body had seeped into his blood, flesh, bones, meridians and his organs.

As the energy seeped into Su Yi, his flesh, organs, bones, blood, and meridians seemed to be undergoing a transformation akin to forging.

Only after half a day did everything start to calm down.

As the energy calmed down, the aura on Su Yi also started to weaken gradually and then finally, everything returned to a still.

And when the aura completely quietened down, Suyi, who was sitting down, saw that his clothes inflated in a flash.

Boom!

An aura which was many times stronger than the spring water-like liquid from before awakened and instantly exploded out from Su Yi, exuding authority, majesty, and destruction.

And at this instance, Su Yi's eyes, which were tightly closed, sprung open. Within the depths of his eyes, a bright light shot out. But it was only a moment before it went back into the deep depths of Su Yi's tough and deep eyes.

Yuan Soul Realm Sixth Grade!

Feeling the aura and changes in his body, Su Yi was shocked and found it hard to snap back into reality.

Currently, the aura within his body had already reached Yuan Soul Realm Sixth Grade and it was even near to Yuan Soul Realm Sixth Grade Late-stage.

From the initial Yuan Soul Realm Third Grade to the current Yuan Soul Realm Sixth Grade, he had broken through three whole grades!

And the higher the grade, the harder it was to break through to the next grade.

Yuan Soul Realm Fifth Grade to Sixth Grade was naturally many, many times harder than breaking through from Yuan Soul Realm First Grade to Second Grade!

Su Yi knew very well that if he did not suppress his breakthrough on purpose, who knows how many grades he would have broken through.

Gulp!

Having such continuous breakthroughs, even Su Yi himself was shocked and gasped slightly. This type of breakthrough was way too much.

Carefully checking his body, not only did his Yuan Qi Whirlpool within the Dantian grow in size immensely, but the spiritual power within his mind had also strengthened quite a bit.

The energy contained within the spring water-like liquid did not only had the ability to increase and strengthen Yuan Qi, but it could also nurture the spirit and increase spiritual power.

This is a treasure!

Looking at the small hole not far away, it looked like a small well and inside was still a palm-thick of liquid, Su Yi quivered slightly.

He may not know what this was, but Su Yi was sure that this was definitely a heaven-defying treasure!

Su Yi was thinking in his heart; since this liquid could increase his power and cultivation, maybe it could also help his grandfather become stronger.

If that was the case, his grandfather would have the chance of further increasing his cultivation level.

But then soon afterward, Su Yi frowned.

Though this liquid could help him break through for his cultivation level, his grandfathers cultivation level was far stronger than his.

This liquid may be of use to him, but it may not be effective for his grandfather.

I cannot take the risk. I need to grow stronger and find for Grandfather real and usable high-grade elixirs. After contemplating for a moment, Su Yi took a deep breath.

Finding those high-grade elixirs would be much safer and reliable.

But if he wanted to find those high-grade elixirs, he must first become a strong cultivator himself.

Soul Stabilizing Elixirs!

After a moment, Su Yi took out a Soul Stabilizing Elixir from a jade bottle.

Just as Su Yi had expected, after placing it in this space for a while, the grade and aura of the Soul Stabilizing Elixir had increased quite a bit.

The Soul Stabilizing Elixir which was originally Moon Grade Middle Level was now Moon Grade High Level.

Soul Stabilizing Elixir was an elixir which was used for stabilizing the Yuan Soul Realm, hence its price was definitely not cheap.

Other than those large Sects and Schools and First-Class powers, probably no other sects could provide the younger ones with these elixirs.

Su Yi felt really uneasy about breaking through from Yuan Soul Realm Third Grade to Yuan Soul Realm Sixth Grade.

Hence, Su Yi decided to consume some Soul Stabilizing Elixirs to solidify his cultivation. It was much safer this way.

Afterward, Su Yi sat down cross-legged and consumed a Soul Stabilizing Elixir.

He had three Soul Stabilizing Elixirs in total, but Su Yi dared not take the risk of consuming all three elixirs at once.

Once the elixir entered his mouth, a sweet taste gushed into Su Yi's mouth and then flowed smoothly down his throat. It turned into a cool energy within his body and gradually spread towards every part of his body.

Wherever the energy seeped into, it was as like the gentle rays of the sun in a cold winter. It gave Su Yi a feeling of indescribable comfort.

The Forest of Demons covered a vast area of land.

Because of its special location and other beasts, herbs, Yuan Stone mines, etc. It had turned the Forest of Demons into a place of chaos.

Black Fiend School, it was one of the largest powers within the chaotic Forest of Demons.

But recently, it had suffered a huge blow and had been attacked by people several times. Its losses were high, and the news stirred up a storm within the Forest of Demons.

I heard that the Young Master of Black Fiend School, Yan Shangyang has been killed!

What?! Who had the courage to do that? Does he not want to live?!

The news spread, and the entire Forest of Demons seemed like a wild storm was raging through.

Everyone could feel it in the air. A hurricane of blood was about to wreck havoc within the Forest of Demons.

Chapter 83: Red Clothed Young Lady

Deep in the forest, demonic beasts roared. There were many figures within, their aura intimidating, and bloodlust swirling around them like a cloak.

Seal the entire place! Search! We must find both the old and the young bastard! The leading old man looked around 50 years old, red hair flowed down to his shoulders and both his eyes permeated with a black darkness. A large loose robe covered the old man and fluttered like a dress in wind.

At this moment, the old man's face was as dark as it could be, a cold light shone brightly in both eyes.

Whoosh! Whoosh!

A figure shot out from the depths of the forest. A person dressed in black clothes with only his eyes left visible knelt down on one knee in front of the old man, he said, Grand Elder, we have discovered the man's tracks! It is just up ahead!

Move!

The face of the red-haired old man in a loose robe was somber. When he heard the news, a cold light flickered in his eyes.

Whew

Within the mysterious space, Su Yi kept his hand seal and the aura surrounding his body retracted. A mouthful of stale air went along the throat and out of his mouth.

His eyes sprung open and a blinding light gleamed from them before quickly sinking back into the depths of his eyes.

Feeling the changes within him, Su Yi's eyes beamed with happiness.

After he had consumed a Soul Stabilizing Elixir, he could feel that his cultivation level had stabilized quite a bit.

The Yuan Qi within his Dantian had been compressed even more to become even more solid. The aura of his body was originally at the Yuan Soul Realm Sixth Grade Middle Stage, but now it was only Yuan Soul Realm Sixth Grade Beginning Stage.

Though the feeling of being full, could not be compared to before.

Not a bad elixir.

Su Yi was secretly shocked. This elixir really was not bad. It may have been seen to others that his cultivation level had regressed, but in actuality, that feeling of stability and strength could not at all be compared to what it was initially.

If he was talking about combat ability, Su Yi had a feeling that he was stronger than before.

Su Yi stood up and stretched his stiff body. He looked at everything within the mysterious space, the energy of heaven and earth was still abundant, he did not dare recklessly consume the Spirit Essence and the planted herbs seemed to have all come back to life.

This mysterious space kept on giving Su Yi surprises. It was full of the energy of heaven and earth, it could help with cultivation, it could raise the grade of elixirs and there was also that Spirit Essence, everything was so mysterious.

This also further fuelled Su Yi's confirmation. This mysterious space definitely came from a terrifying origin and was a huge treasure. A common man's sin is to carry a piece of jade, he must not let anyone else know about this.

Estimating the amount of time, many days probably had already passed. After Su Yi tidied himself and kept the mysterious space, he walked out of the seam in the cliff.

He guessed that since the people of Black Fiend School had not found this place, they should already be long gone.

Su Yi pondered. If he wanted to become strong, he could only count on himself. The Forest of Demons was not a bad place to train himself.

Sacred Mountain was one of the top ten major powers of the entire continent. Where it was situated, its land stretched for thousands of miles.

Everywhere within the thousands of miles was abundant with the energy of heaven and earth and mountains stretched as far as the eye could see, hence the name Sacred Mountain.

Sacred Mountain was grand and majestic, it was sacred as a place could be, a heaven and a holy place for all cultivators!

At a certain mountain peak within Sacred Mountain.

A mist drifted in the air between the slightly dark blue mountain peaks and the mountain tips were green with vegetation. The scene was like a mysterious yet beautiful ink wash painting.

On top of the mountain peak, an alluring and elegant figure which was clothed in red like that of fire, just a young 15, 16 years old. Her skin was white as snow, a beauty matched by no other, stunning and dazzling.

He is dead. Is he really dead?

The elegant radiant face of the lady was now wrinkled, frowning. Her young body could not help but tremble slightly, sadness resided in her eyes.

Everything was an accident. High Elder Wang could not save him in time.

A young lady about 17,18 years old was there. She was young, yet she was already at the point where her beauty could cause a war. That skinny and long body, hidden underneath tight colorful clothes, was bursting out soft and seductive curves which could stun others hearts. Her eyes were bright as if they sparkled with temptation.

This girl was Liu Yanni. She was with Su Yi back then, now she had arrived at Sacred Mountain. She looked at the young lady in red clothes, and said slowly, But that guy really was slightly special. He made it out of the Forest of Demons basically unscathed after three years and had the talent of a piece of trash. Yet he could still fight Ji Chao as an equal, to the point where both of them were severely injured.

Sister Yanni, did you really see him die with your own eyes The lady in red clothes turned around and faced Liu Yanni, her face slightly pale.

That I did not, but this news shouldnt be fake. High Elder Wang did not make it in time to save him. At her waist hung loosely a dazzling pearl belt, making Liu Yannis waist look even thinner, just like a willow. Beside her cheeks were two strands of hair which gently caressed her face, adding to the already seductive appearance.

Looking at the young lady in front of her, Liu Yanni seems to be contemplating about something, then she said softly, But that guy really was stubborn, he kept on biting down on that engagement. But it is a pity or maybe it is the will of the heavens, with your position at Sacred Mountain, if that perverted brute came to Sacred Mountain, he probably would have a hard time coming.

Back then, he was slightly indecent, but-

The red-clothed lady mumbled to herself. A refreshing wind blew through the mountain peak softly. The red clothes hugged that alluring body tightly and the young body had all the right curves, incomparably stunning. In time, she would probably be even more stunning than Liu Yanni.

Why? Is it that you miss that indecent brute? Liu Yanni smiled slightly.

How would I miss him? I just want to kill that pervert with my own hands. The lady's eyebrows curved down, her plump lips protrude in a pout, trying to remain calm.

But at this moment, her heart hurt slightly, why was it that when she heard the news of the perverts death, she was so upset.

Within the forest, it was already pure darkness. Between the canyon, dark blue mountain tops stacked upon each other side by side. Through the lush and thick towering canopy, stars started to sparkle in the vast open sky.

On top of a smooth black rock, a youth dressed in tattered clothes was gently leaning against a towering tree. The corners of his mouth curved and gave off a complex temperament, and within his face filled with perseverance was a demonic presence.

The youth was Su Yi. From the City of Man to within the Forest of Demons, counting the time it should almost already be an entire month.

The time back when he was in the Forest of Demons for three years had Su Yi already used to such a lonely lifestyle.

I must continue cultivating!

Soon, Su Yi stood up, a light shone in his eyes.

After leaving the crack in the side of the cliff, Su Yi had been on guard against the people from Black Fiend School. He did not relax for a moment as he whipped out and opened the two sets of martial art techniques he had gotten from the Young Master of Black Fiend School. The Seven Injuries Fist and the Crimson Flame Palm.

Seven Injuries Fist and Crimson Flame Palm were both Commander Grade martial art techniques. Though they were not at the level of the Hundred Transformations Step, they were still of Commander Grade.

Hundred Transformations Step, Overlords Fist, Wrath of the Eight Wastelands, Su Yi was still far from mastering these techniques and each time he used any of them, he would be completely wasted.

Su Yi guessed that with his cultivation level now, high-level martial art techniques were still not suitable for him.

A child handling a large blade could never exert the blades full potential. Maybe mastering some lower level techniques, the effect would be better.

Su Yi got up. He had already cleared the meridians needed to learn the Seven Injuries Fist and Crimson Flame Palm and was now deep in thought, examining the information about the two martial art techniques.

Chapter 84: Crimson Fiend

Seven Injuries Fist, Commander Grade, Earth-attribute, Beginning Level close-combat martial art technique. Offensive strength overpowering and intimidating in both power and sound was displayed during each strike. One fist has seven different forces, it may be aggressive, it may be calm, or it may have calmness within the fierceness of the fist, or fierceness within the calm. The force can be shot out or it can be retracted, or impact the opponent directly. The enemy cannot stand against the continuous changing type of force within the fist and will suffer severe internal

damage. Once cultivated to near completion, each strike can contain a hidden force and shatter every organ within the enemys body!

Su Yi was deep in thought. He had no clue where the Young Master of Black Fiend School got this technique and he did not seem to have cultivated it. Maybe it had something to do with the cultivation requirements of this technique.

From what he could see of the technique information, if ones Neigong is not strong enough, he must not learn it, or he will destroy himself from within, become insane and uncontrollable.

Su Yi had tried it out and he discovered that he could cultivate the technique, but it was just that he could not control it as well as he wanted to.

Practice makes perfect!

Su Yi murmured to himself. In front of a tree, he closed his eyes. There was only a pure silence in the surroundings except for the occasional roars of beasts within the depths of the forest.

And suddenly, Su Yis eyes shot wide open. A hand seal was formed, and his hand clenched into a fist. A faintly black coloured Yuan Qi enveloped his hand together with the seal.

Seven Injuries Fist!

Boom!

Su Yi decided to practice the technique. As the saying goes, practice makes perfect, he wished to cultivate it to near completion as soon as possible. What he lacked the most currently was power.

For the next few days, as Su Yi travelled through the Forest of Demons, he practised the Seven Injuries Fist and Crimson Flame Palm.

He would practice until he exhausted every last bit of his strength and then he would go into the mysterious space to meditate and recover.

When he pushed himself to the limits and begun meditating in his exhausted state, Su Yi could clearly feel his drained muscles and bones greedily devouring the natural energy to recover.

That feeling made Su Yi feel that his body was slowly becoming stronger and was in a process of metamorphosis.

After several days, Su Yi began to feel a sense of self-confidence.

With his current cultivation level of Yuan Soul Realm Sixth Grade, the Seven Injuries Fist and Crimson Flame Palm, if he were to face the Young Master of Black Fiend School once again, he was sure that he would make no mistakes.

Mountain Cliff, Summit of the Mountain

I do not care who you are! Today, you will not escape from my hands!

An evil cry resounded through the air, tens of strong cultivators were in a circle formation, trapping a skinny, old man on the mountaintop.

If Su Yi was here, he would surely be able to tell with one glance that the old man was the one who had tricked him back at the mine.

Just that now this old mans face was pale white, and his situation did not seem all that favourable for him.

Looking at the tens of figures surrounding him, especially the few people in front of him, the old man had a very serious and grim look on his face.

The few people in front of him were all Yuan Void Realm cultivators, especially the old man who looked around fifty, clothed in a loose red robe, standing in front of everyone else. The aura of that old man was of someone who had almost reached the Yuan Emperor Realm.

Seeing that the Black Fiend School had dispatched such a huge force and for this period of time, sealed the entire Forest of Demons, the skinny old man was speechless at this fight to the death attitude.

Last time, he had wanted to rob the Yuan Stones of Black Fiend School, but he never imagined Black Fiend School to have made all the necessary preparations which caused his attempt to fail and that incident should not have caused the Black Fiend School to take such extreme measures right?

But now, even the Grand Elder of Black Fiend School has come and several Yuan Void Realm cultivators, it did not make sense.

Until later on, the skinny old man had heard that the Young Master of Black Fiend School had been killed and it seemed to have something to do with the incident at the mine.

His appearance made the people of Black Fiend School think that he was in cahoots with the young lad which had killed the Young Master, no wonder the Black Fiend School was going to such an extreme to capture him.

The Master of the Black Fiend School had only gotten children in his late years and he was also the only son, it was not hard to imagine the feelings of the Master.

Looking at the line-up of Black Fiend School, the skinny old man bit down slightly on his lower lip and his face grim. He did not try to explain anything; any explanation would probably be useless, and the Black Fiend School would also never let him go.

Take him down!

The old man in the loose red robe signalled with his hand waving down, a cold light glimmered in his eyes. He was the Grand Elder of Black Fiend School, bringing up the name of Crimson Fiend, probably everyone in the Forest of Demons would have heard of him.

Boom!

Once the Crimson Fiend gave his orders, five Yuan Void Realm cultivators stepped into the air. The aura of their bodies rose and burst out, rampant Yuan Qi of different attributes and colours surged, turning into a terrifying pressure which was crashing down on the mountaintop. The aura had turned into a storm which spread through the entire space at the mountain.

The five Yuan Void Realm cultivators made their move in an enclosed formation, surrounding and trapping the skinny old man from all sides.

Do it!

A loud holler sounded, and the Yuan Qi on the five cultivators burst out as Yuan Qi seemed to begin to turn solid.

Just in a flash, five attacks from five different directions enclosed the skinny old man as they made their way to him.

Rumble!

In the instant that the five attacks materialized, the skinny old man had formed a hand seal. Fire attribute Yuan Qi exploded and with an overbearing presence, blew off two of the attacks which were directly in front of him.

Step! Step!

Though he had escaped from the cage formed by the five attacks, the skinny old man also staggered backwards as his face became even more grim.

Seal the surroundings, Ill take him!

The Crimson Fiend noticed the skinny old man retreating. He snickered coldly, and his body took to the air. Yuan Qi burst out of him and in the blink of an eye, appeared right beside the skinny old man.

Swish!

The dry and bony hand of the Crimson Fiend shot out like the claw of a ghost with Yuan Qi shining on it as it ripped apart the air, giving off the sounds of howls as it lunged toward the neck of the person in front of him.

The move was fast as lightning as well as swift and merciless.

The face of the skinny old man was as grim as it could be. His eyes watched as the claw accompanied by the howling sounds of wind quickly became bigger, tearing across space.

At this moment, the skinny old man clenched his teeth and a hand seal silently materialized as he made use of some forbidden technique. His face was a ghostly white, but his aura climbed up to another level.

Boom!

A horrifying presence erupted and the aura surrounding the skinny old man was like it had caused turbulent winds and violent rain.

Come!

The skinny old man shouted. The aura in the surroundings which seemed like a raging storm turned still and then as his hands were brought together, it turned into a palm ten of metres wide and then it shot across the air with an unimaginable speed, crashing into the claw directly.

The palm and the claw seemed to have ripped across space and under tens of astonished eyes, they crashed together and violently exploded.

Boom! Boom! Boom!

One palm, one claw, hit each other and with a low and loud rumble like that of thunder, echoed through the mountains as the mountains in the surroundings began to crack under the pressure.

Another night had passed and within the mysterious space, Su Yi stopped his meditation. His face was rosy and he felt a sense of rejuvenation as if his body was filled with endless vitality.

Chapter 85: Chaos Realm

Chaos Realm

After tidying up, Su Yi went on his way again.

Su Yi's destination was through the Forest of Demons to the other side, the Chaos Realm.

From the time that he left the valley deep beneath the earth, Su Yi had been deliberating where he should go in order to help him grow and become strong.

Currently, there was the One Mountain, Two Religious Sects, Three Sects and Four Schools which made up the ten biggest powers around.

The One Mountain naturally referred to Sacred Mountain.

Two Religious Sects, Three Sects, and Four Schools were the other nine superpowers.

It was said that these powers were the greatest powers in the current time and were heavens for cultivators.

Su Yi was utterly disappointed at Sacred Mountain.

Hence, he did not have any good feeling towards the remaining nine superpowers.

Probably, those powers were also average, looking all nice and pretty on the outside, but rotten on the inside.

Maybe it would be more appropriate saying that in those powers, it was the same rule. The strong preyed upon the weak.

The thought crossed Su Yi's mind that if he was able to enter one of the nine other superpowers and get guidance from a reputable teacher within the power, he would be able to become a strong cultivator quickly.

But then Su Yi smiled bitterly to himself, Sacred Mountain had tested his talent to be absolute trash, it would most likely be the same situation at the other nine powers.

At any place, it was always the same, the fist was the law. Even if he was able to enter one of the nine powers, he would not be valued much anyways.

Furthermore, the mysterious sphere of light and the Supreme Chaotic Yuan Technique were things which could never be known by anyone else.

Sacred Mountain has beings like High Elder Wang, and in the nine other powers, the number of people as strong or even stronger than him will definitely not be small.

Chaos Realm was also a special existence, the same as the Forest of Demons.

From what Su Yi knew, there were currently six lands, three continents, and one ocean.

And then there was the Forest of Demons and the Chaos Realm, two special places.

Comparatively speaking, the Forest of Demons covered a huge area, though it had some resources, those resources were pathetic compared to the six lands, three continents, and one ocean.

Along with the remote position of the forest, it led to today's situation.

Even if the ten superpowers wanted to lay their hands on the Forest of Demons, firstly it was too far for them to actually do anything and secondly, it seems that they were also wary of something here.

The Chaos Realm was the same as the Forest of Demons, it was also a special existence among the rest of the world.

Strictly speaking, the Chaos Realm was even more special than the Forest of Demons.

The Chaos Realm was huge in size, almost as large as the six lands, three continents and one ocean combined.

But for some reason, none of the ten superpowers laid their hands on the Chaos Realm. It was a separate existence than the six lands, three continents and one ocean, and completely independent of the ten superpowers.

Su Yi had long heard about the Chaos Realm being very chaotic, even more, chaotic than the Forest of Demons, but it was different from the Forest of Demons, it was not only chaotic, it was also ridden with endless dangers.

People say that the Chaos Realm was a dog-eat-dog world. It was a world where the weak were fed upon by the strong, everything was decided by the fist, there were no laws, no reasoning to be had!

Other than that, the Chaos Realm was also a heaven for rouge cultivators.

Rouge cultivator was a term to address cultivators who belonged to no Sect or Schools, or who had never heard of any Sects or Schools.

In the Chaos Realm, rouge cultivators were everywhere, this was a place where even disciples from the ten superpowers feared.

Because there seemed to be a natural conflict between the people of the Chaos Realm and disciples from the ten superpowers.

If there were disciples from the ten superpowers within the Chaos Realm, they would probably disappear without a trace, not even bones would be left.

Due to there being so many rouge cultivators within the Chaos Realm, even if someone did kill the disciples from a superpower, there probably would not be any useful findings from an investigation.

Furthermore, even if something useful was found, if the killer was within the Chaos Realm, the ten superpowers were helpless.

Su Yi thought for a long time. Maybe on his path to become a strong cultivator, it may be best to go to the Chaos Realm.

Even if it was crueller there, it could also help him become strong faster.

Heroes are born from chaos, the ruthless from the turmoil.

This was a principle that Su Yi had understood since his previous life.

With his Supreme Chaotic Yuan Technique, his identity as a Soul Tamer, and the mysterious space he had, Su Yi was quite confident that when he has reached the Chaos Realm, he would also grow gradually and one day, he would become a strong cultivator. And within the Chaos Realm, even if Wang Quande knew that he did not die, he probably would not be able to do anything to him!

Besides, he had murdered the Young Master of Black Fiend School, Su Yi was not stupid enough to continue staying within the Forest of Demons, it would be better if he left the place early.

The Chaos Realm was situated at the very borders, connected with the six lands, three continents, and one ocean.

It was also because of this that made the Chaos Realm become such a special existence.

If one wanted to reach the Chaos Realm, he would have to pass through the Forest of Demons.

Su Yi knew roughly the direction towards the Chaos Realm, hence for the past few days, he had been heading towards the Chaos Realm.

It may be more suitable for him to develop there.

For these few days, Su Yi had taken the most desolate routes in order to avoid people from Black Fiend School, but he would occasionally meet a few small mercenary groups and adventuring teams.

Though he had been within the Forest of Demons for the past three years, he had lingered around the outskirts of the forest and had never ventured deep within.

But from his experience, it was already enough to stay far away from the mercenary groups and adventurers.

In a place like the Forest of Demons, once you encountered someone and you do not have the ability to defend yourself, you would most likely be in mortal danger.

Within the Forest of Demons, killing people and taking their loot was literally as common as home cooking.

Though Su Yi knew his way around, he would still occasionally meet some beasts, it was unavoidable within the Forest of Demons.

Luckily, the beasts he had met were not too strong, and with the aura from the Supreme Chaotic Yuan Technique, it seemed to have some sort of a restraining effect on the beasts so Su Yi did not encounter any resistance from the beasts on his journey.

Rather when the beasts felt the aura given off by Su Yi, they would immediately avoid him.

As Su Yi journeyed, he continued practicing the Seven Injuries Fist and Crimson Flame Palm. This caused him to be more familiar with the techniques, and though he was still a bit rough around the edges, the techniques did not look too bad.

Another day passed yet again.

Dusk, the sun fell beyond the horizon where the land and the sky crossed paths, leaving behind a faint red hue in the darkening sky.

Su Yi appeared beside a river which winded around mountains and cut through the trees. He raised his head to look at the setting sun. It was like a golden moon had fallen through the sky and from time to time, there were the roars and growls of beasts coming from the deep within the trees.

Cultivators after reaching the Foundation Stage could cultivate the energies of Heaven and Earth into Yuan Qi and had very little need for food.

The higher the cultivation of a person, the lesser his need for food.

For Su Yi's cultivation level, he would do fine without eating for half a month, but he still needed to drink a little water.

It was an open space beside the river, leaves with a shade of red like that of twilight gently drifted down to the flowing water and under the setting rays of the sun, the mountains gradually became dark purple in color.

Su Yi drank a few large mouthfuls of water from the river and washed up.

In the interspatial bag of the Young Master of Black Fiend School, there was not even a change of clothes. All these days, the tattered clothes that Su Yi had been wearing were already worn down to the point where it could barely cover him.

Sunlight reflected off the flowing water making it glisten with a golden hue.

Chapter 86: The Mills of God grind slowly

Seeing his reflection with disheveled hair, Su Yi smiled bitterly. He looked just like a barbarian.

But Su Yi was already used to it, back when he was in the Forest of Demons for three years, he spent many of those days looking just like this.

Comparing his past days with now, it was already far better. At least, he did not have to worry about the average beasts.

After a simple grooming, Su Yi planned to find a quiet spot for him to cultivate at night. Suddenly, his gaze fell upon the opposite side of the river and grew sharp.

His gaze focused tightly on a body washed up on the riverbank, face down.

That body gave Su Yi a sense of familiarity.

Su Yi hesitated for a moment, then he went forth carefully to inspect the situation.

That body was drenched, the wet strands of hair all tousled covered the head. The clothes of the person were slightly tattered, stained with blood like he had received grave injuries.

You could not tell whether the person was dead or alive. Half of the body was in the river while the other half was on the bank, laying on the grains of sand and small stones.

Su Yi inspected the figure again. The more he looked at the figure, the greater the sense of familiarity he had. Then, he used his foot and gently turned the person over.

The wet hair of the person covered half of his deathly white face, but when he saw the other half, Su Yi's gaze trembled. He unconsciously moved back and stared at the body cautiously.

It's him! Su Yi was staring so hard it seemed that his eyes were going to pop out of their sockets. No wonder the body looked familiar to him.

This was not anyone else. This body belonged to the skinny, old man which had tricked him back at the mine.

Hahaha, the mills of God grind slowly, but they grind exceedingly small! It was not that he would go scot-free, it was that the time was not yet ripe. Once the time was ripe, naturally he would get his

due! Su Yi laughed at seeing the old mans current pathetic state. Indeed, the saying was right: the mills of God grind slowly, but they grind exceeding small.

Is he dead? After a thorough observation, Su Yi cautiously went forward to check on the old mans condition. He found out that the skinny, old man was not breathing anymore, but his body seemed to have some scarce remnants of warmth. He had not died for long.

This is retribution! Su Yi sighed. Though he had sworn that if he was to see the old man again, under the condition that he had enough strength to beat him, he would wipe the old man off the face of the planet.

Now, the old man was already dead. Su Yi also had no intention to desecrate the old mans corpse.

After all the dead must be respected. The person was had already passed away, naturally, any resentment would naturally fade away as well.

There is an interspatial bag! This kind of good stuff, naturally Su Yi would not miss it and he immediately started to search the old man.

Although the old man was dead, his body still had some warmth and was soft. Su Yi found three interspatial bags and he kept them all satisfied. The bags could be considered compensation for his loss at the mine.

Eh? Has it swelled due to being submerged in the water for too long? Suddenly, Su Yi was slightly confused and curious. He had wanted to continue searching the body to see if he had left anything behind, but then he found out that the softness of the old mans body was too unnatural, especially at the chest, it was as if it had swelled due to the water. When Su Yi pressed down on it, the feel was also not bad, it seemed to have a bit of springiness to it.

The feel was actually really good.

With a strange feeling, Su Yi could not help but press and feel the chest a bit more.

Is something hidden there? Feeling the strangeness of the old mans chest, Su Yi was suspicious. Then, with his hands, in a few moments, he had removed the outer clothes of the old man.

Anyways, the old man owed a debt to him. There was no such thing as disrespecting the dead in this case.

And after a quick strip, the skin of the upper body was fair, white as snow, radiant like jade, completely opposite of the neck and face. That thin waist and the undershirt which was tightly constricting what originally should be curved and bouncing. Su Yi could not help but be dumbfounded at this scene.

Is he a lady? No, thats not right. Did he transmigrate to this world from Thailand? With Su Yis knowledge and experience, Su Yi immediately realized that this was the body of the female, but after thinking about it slightly, the face was obviously that of a man. Did this world also have transgenders?

Su Yi pondered over the situation.

Then, Su Yi seemed to have noticed an odd situation. It seems that due to being submerged in water for too long, the face of the skinny, small old man seemed to swell slightly, and skin started to come off. Some parts of the face started to reveal the white jade-like skin underneath.

Skrr-lah

Su Yi peeled off the skin and was astonished to see a fair layer of skin underneath.

Disguise techniques? Su Yi was utterly stunned. After a few more instances of skin peeling, a white jade-like face of absolute beauty appeared.

This face looked around 20 years old. Thin and devoid of any excess fat, small lips the color of cherries, eyebrows like that from an ink painting, giving off a feeling of unspeakable kindness and seductiveness.

Though Su Yi was not sure whether it was due to being seriously injured or just being submerged in the water for too long, the face of the lady was a deathly pale white. But together with the scattered wet strands of hair, her face looked even more outstanding, like raindrops beating down a lotus flower, a mist covering a mountain, her beauty ethereal.

The face was too beautiful, to the point that Su Yi's gaze was trembling slightly. Furthermore, the upper body of the lady was right in front of him, with no outer clothes.

Damn, this is a lady! Su Yi could not remain calm any longer. He would never have thought that the skinny, small old man which had tricked him last time was actually a lady, and a very young absolute goddess as well.

What a pity that she is dead. Su Yi sighed. This kind of beauty would probably be at the level where it would bring calamities, but then she is now dead. It really was a pity.

Her body is still warm, though she is not breathing, it may be due to her lungs being filled with water, she can be saved! Abruptly, something struck Su Yi, maybe this lady still can be saved. He did learn some emergency resuscitation techniques in his previous life.

Though this lady had tricked him once, saving a person was great karma, furthermore, when the person being saved was such a beauty.

Su Yi did not hesitate any longer, anyways with the state of the lady, even after he had saved her, she should not be able to do anything to him.

Su Yi went straight to work and began cardiopulmonary resuscitation (CPR) on the lady.

But deep within Su Yi's heart, he could not help but think that fortunately, this was a lady. If it really was that old man, he probably would not do this CPR even if it meant that he would die.

But at this point in time, Su Yi was entirely focused on saving a life and had no other ideas.

Su Yi lifted up the lady's petite chin and pinched her small nose, took a deep breath and gradually let out air into the mouth.

Periodically, he let loose his pinch on the lady's nose and pressed down on her chest to help her start breathing again. Systematic and persistent, Su Yi continued doing this again and again.

During the process, Su Yi also added in some Yuan Qi, hoping that the effects would be better.

Currently, Su Yi's mind was entirely focused on saving the person, he did not notice that the lady at a certain point in time, her tightly closed eyes had already opened.

To the lady, this day was unforgettable.

After being seriously injured, she had fainted and not knowing what was going on, when she woke up, she saw both hands of a man pressing down on her chest.

It was also her first kiss. But now this man was like a perverted brute, using his filthy hands to touch her.

The lady was stunned. She had never met a situation like this and was dumbfounded.

You perverted bastard, I want to kill you! Then, she felt a strength from out of nowhere, and with a sharp scream, she lifted her hand and slammed it fiercely into Su Yi's body.

Bang!

Poor Su Yi. He was all focused on saving a person. A person who was his enemy no less. Yet, he was sent flying backward with his guard all let down, heavily landing a meter away.

Chapter 87: Honorable Gentleman

Fortunately, the lady at this point in time was still extremely weak. Though it was not known where she got the previous burst of strength, the force used was not that big. It may have blown Su Yi away, but it did not severely injure him.

After one strike, she became even weaker. Her vision turned black and she fainted.

Su Yi got back up and touched his aching chest. He looked directly at the unconscious beauty and he mumbled, My goodwill got mistaken as ill intentions. I should just leave you here alone to fend for yourself.

Anyways, he had already resuscitated the person, Su Yi felt that he was already very magnanimous.

Su Yi decided to leave but then looking at the half-naked and slim body, he hesitated once again.

What would happen if a beast passes by? What if other people see her? At that time

A good person should finish doing his good deed. I should just treat it as accumulating good karma.

Su Yi said under his breath. He had only himself to blame for being such a nice person.

Dawn, the sky was a clear crystal blue. The rays of the rising sun shone down through the tight crevices formed between mountains, becoming rods of radiant light.

The rods of light intersected and crossed over just like uncountable huge dragons, each breathing out a golden breath.

Su Yi appeared out in the mountains. His head raised and whistling as he looked up at the purplish red sky. His feelings were as beautiful as a freshly bloomed rose. He had not been in such a good mood for a long time.

Recently, his cultivation had improved quite a bit, he had gotten a fair few treasures, and most importantly, he had met his enemy and taken revenge.

Thinking about these matters, Su Yi had no reason not to be in a good mood.

Especially when he recalled what he had done last night, Su Yi felt even happier.

Blame the lady for tricking him and almost sending him to his death.

Yesterday, he had helped her and repaid her evil with kindness, but that lady had once again repaid his kindness with hostility. He survived solely because the lady was too weak. If not, with the lady's normal strength, the strike probably would be able to kill him a hundred times over.

Hence, what he had done to her, Su Yi felt absolutely zero guilt. All he had was the happiness of taking revenge.

Chaos Realm

Su Yi kept on whistling as he made his way once again towards the direction of the Chaos Realm.

Within the Forest of Demons, he still had to be on guard against the people from Black Fiend School.

But once he arrives in the Chaos Realm, he had no need to fear the Black Fiend School. After all, Black Fiend School's territory was only within the Forest of Demons.

Within a cave, a faint light was shining into it.

When the lady who had a terribly pale complexion woke up, there was a movement of light within her eyes. For the cultivation level, this level of darkness would not have much of an effect on her vision.

As her vision cleared up, the lady discovered she was sleeping on a pile of soft leaves.

But when she saw that her fair body was only covered by tattered clothes, her messy hair and her slim smooth legs exposed, she was dumbfounded.

Ouch!

The lady gradually began to feel pain near her thighs. Her heart went into a panic and she struggled to sit up, only to see the leaves between her thighs as well as her underwear had some blood stains on them.

Perverved bastard!

In an instance, the face of the lady turned white and she began screaming. Her eyes welled up with tears that started to drip down her pale white face.

On the other hand, Su Yi was still whistling away with his beaming face.

Looking at his right index finger which initially had a wound, he imagined the reaction of the lady when she woke up and Su Yi could not help but feel outright ecstatic. Probably when the lady woke up, her heart would crumble, and she would fly into a rage.

Yesterday, since the sky had already gone dark, Su Yi carried the lady into a hidden cave.

Looking at the lady which repaid his kindness with hostility and recalling the fact that he had been tricked once by her, Su Yi could not help but feel a fire of anger burning within his chest.

He may have decided to save this lady, but he will not let her off that easily.

Anyways, since this lady had already thought of him to be a pervert, he might as well meet her expectations.

Su Yi pondered, considering that this lady was so fierce and sly, she was probably still a virgin. He had learned quite a bit from those soap dramas in his previous life. He used force to pinch her thighs and dripped some blood around the area with his hands, and voila, it looked just like something had happened.

But Su Yi still felt some regret, what a pity to miss those luscious smooth thighs and that flat soft belly. Throughout the entire process he actually had his eyes tightly shut, this should definitely be counted as an act of an honorable gentleman, right?

Su Yi felt a bit sorry for himself. That lady may have been very evil and dangerous, but she really was such a beauty. That tall slim figure, that beautiful face, that soft fair skin, probably any other man who saw that sight would not be able to hold himself back.

Actually, even if I had taken a look, no one would have known.

Su Yi murmured within his heart. If he had another chance, he will definitely choose not to close his eyes and take a nice long look at that heavenly sight. In the end, no one would know about it anyways.

He may be an honorable gentleman, but he was also a man. There was nothing wrong and embarrassing about doing such a thing.

Though Su Yi was feeling regretful, he did not dare go back. By his estimation, the lady should be waking up any minute now. If she sees him, she would definitely try to kill him at all costs.

Good riddance and shall we never meet again!

Su Yi smirked. Most likely, he would never see the lady ever again.

He did not believe that there would be such a coincidence that they would be able to meet each other again so he had nothing to worry about.

Within the dense forest, cries of beasts called out at times.

This was still the outskirts of the Forest of Demons; the level of beasts would not be too high here.

Though the Supreme Chaotic Yuan Technique had the ability to ward off some beasts but for the sake of safety, Su Yi still decided to take the routes which went on the outskirts of the Forest of Demons.

Even though the route was a bit longer, and he had no clue when he would arrive at the Chaos Realm, it was undoubtedly much safer.

With Su Yi's current cultivation level, it would be best to put safety as his top priority.

Roar!

A beast cried out. A green titanic snake was curled up on the top of a giant tree. His head the size of a toddler poked out to see what was happening, on top of the head were some white markings, his bloody red tongue flickered in and out of his jaw, his eyes gazing at Su Yi with caution.

Peak of Demonic Soul Realm, Green Jade Python!

Su Yi knew that normally, the level of beasts like the Green Jade Python would not be very high, but the nest of a Green Jade Python would always have White Jade Fungi growing in it.

White Jade Fungi, this type of Spiritual Herbs was extremely expensive and an ingredient in many elixirs.

This Green Jade Python is hurt.

Su Yi observed the Green Jade Python. Its scales were a bit dull in color and there were traces of scars and injuries. Its eyes were still filled with caution while it stared at Su Yi.

Su Yi was not worried about the Green Jade Python which was at the Peak of Demonic Soul Realm.

Even if his Supreme Chaotic Yuan Technique did not have the effect of oppressing it, Su Yi was confident that he had the ability to win it.

But for some reason, ever since he started to cultivate the Supreme Chaotic Yuan Technique, Su Yi did not feel the same way he did towards the beasts compared to before he started cultivating the technique. Rather, there was a feeling of familiarity and he felt close to them.

Under normal circumstances, Su Yi did not wish to harm any of the beasts.

Even if he knew the parts of some beasts like the skin were very valuable, as long as the beasts did not provoke him, he would not attack those beasts.

Chapter 88: The Strong Rules and When in Rome, do as the Romans do

Currently, Su Yi also did not want to attack this Green Jade Python, but he was quite interested in the White Jade Fungi.

If he were to find the White Jade Fungi and nurture it within his mysterious space, its price may rise to be even higher.

The Green Jade Python continued staring at Su Yi with a ferocious gaze.

Bring me to find the White Jade Fungi!

Su Yi said. He knew that this Green Jade Python had a certain level of intelligence, enough to understand his words.

Swoosh!

But as Su Yi finished his words, bloodlust crossed the pythons eyes. Its body which was coiled around the towering tree lashed out like lightning at Su Yi. Its body gave off a cold and intimidating aura as it opened its hideous jaw to try and swallow Su Yi whole in a single gulp.

Boom!

It was also at this moment, a tyrannical and destructive aura burst out from within Su Yi, his tattered clothes fluttered with the movement of the aura.

The body of the Green Jade Python that had lashed out like lightning, retreated promptly back to the tree in the blink of an eye. Its once ferocious eyes brimmed with shock and fear as it felt Su Yis aura, trembling as it looked upon Su Yi confused.

Looking at Su Yi, the body of the Green Jade Python which was more than a dozen meters long slowly slithered down and laid on the ground in front of Su Yi as if it was prostrating itself before an emperor.

Bring me to find the White Jade Fungi! Su Yi said once again as the aura from the Supreme Chaotic Yuan Technique gradually flowed off his body like a coat.

The python nodded his head, its eyes no longer filled with hostility and it signaled Su Yi to follow.

Not long after, close to where Su Yi was, there was a tree so large that it would need more than ten people just to hug the tree, and a crack covered by green vines. The python slithered into the crack of the tree.

Su Yi raised his head. The tree was so tall that it stretched into the clouds, branches all spread out so wide that it gave a feeling that it was covering half the sky.

Within the crack, there was a large space, bigger than even some small caves.

Su Yi was in awe. The leaves of this tree were so dense and green, brimming with life, yet there existed a giant space within the tree, how could one not be astonished by this marvel of nature?

Within a crack on the ground, there was a handful of fungi, pure white like jade and painted with vein-like markings. It gave off a medicinal fragrance, filling the entire cave with a comforting and pleasant aroma.

White Jade Fungi!

Su Yi beamed with happiness. This was the highly valued White Jade Fungi which had much importance when making medicine and elixirs.

What made Su Yi shocked was that there was not only one White Jade Fungi, but a bunch of them.

This bunch of White Jade Fungi had a total of nine stalks, all of which were different sizes.

There were fungi the size of a palm and those as small as a baby's fist.

White Jade Fungi existed with Green Jade Pythons for most of their lives. Rumors had it that for Green Jade Pythons to lay eggs, they had to first consume White Jade Fungi to bear the next generation of offspring.

Even if you have so many of these, it isn't much use to you. I will just take half of it.

Su Yi told the python. Anyhow, the White Jade Fungi belonged to the Green Jade Python, when doing anything, one must not cross the line, half of the White Jade Fungi was already enough for him.

Su Yi bent down and carefully picked up five stalks of the White Jade Fungi. He needed them to be in perfect condition since he wanted to transplant them into his mysterious space.

Afterward, Su Yi stood up satisfied. This could be considered a windfall.

Someone is here.

Suddenly, Su Yi frowned. With his above average senses, he felt someone coming near. Within the Forest of Demons, at any time and anyplace, Su Yi had not let his guard down even once.

Outside the mouth of the cave, three figures appeared and blocked it.

They were three men, dressed in tight clothes and around thirty years old.

Their faces were slightly tanned and yellow, a sign of all year round beating by the sun and the wind, but it only served to add to their savage appearance.

The man which was standing in the center looked older, his figure lean and his hand brandishing a large sabresaber, decorated with several sharp and white teeth of beasts.

The man stepped forth and looked at the crack hidden by the vines, his eyes glittered as the corners of his mouth curved upwards, he said to the two men beside him, The nest of this beast was not easy to find at all, but it is a bit dumb. In the end, it led us straight to its nest by itself.

As soon as the man stopped speaking, Su Yi walked out from the vines.

Eh?

Seeing Su Yi which had suddenly appeared, the faces of the three men changed greatly.

But once they saw Su Yis rugged look and young age, their eyes looked at him with no hint of worry.

The eyes of the man which brandished the large saber swept across the five stalks of White Jade Fungi which were in Su Yis hand. Greed filled his eyes as he licked his lips, he said to Su Yi, I did not think that someone else would actually steal the march on us. Brat, we purposely let the Green Jade Python go in order to find its nest. Hand over the White Jade Fungi and everything you have, then you can be on your merry way!

Su Yi looked at the three men in front of him, detecting the aura of the men, his face darkened slightly.

No wonder the Green Jade Python was injured, it was these three which attacked it and then let it escape so as to find its nest and their target was also the White Jade Fungi.

His eyebrow rose slightly and Su Yi said, First come, first serve. Since I came here first, the White Jade Fungi is mine, you guys can leave!

The three men were slightly stunned and the man in the center was surprised, he did not think that a little immature brat would dare speak to him like this. He shrugged his shoulders and shook the saber in his hand as he stared at Su Yi and said, Brat, what did you just say? I will give you a chance to repeat your words.

I said, you guys can leave now. Su Yi kept the White Jade Fungi and stared at the three men in front of him.

The leader seems to be the one in the middle, Su Yi could feel that the leader was probably of Yuan Xuan Realm First Grade, but he was definitely not more than Second Grade since his aura was not as strong as the Young Master from Black Fiend School.

As for the other two, they were both at the Peak of the Yuan Soul Realm Ninth Grade, just that they have not broken through to the Yuan Xuan Realm.

These three men which their level of cultivation, seems to have originated from some small adventurer party, though Su Yi did not care much at the moment.

Within the Forest of Demon, there were many adventurer parties like the one they belonged to.

Hearing Su Yi's words, the three men were stunned yet again.

Judging from his looks, this immature young punk was in a pathetic state, yet he still dared to say something like that to them?

Kid, you do not seem to have even broken off from drinking your mother's milk, a newborn calf fears not a tiger. It looks like I will have to teach you a lesson today! The leader smirked coldly, a cold light flashed in his eyes. This brat had succeeded in taunting him, in a place like the Forest of Demons, killing people was far too common.

You have only just entered the Yuan Xuan Realm, with your cultivation level, I do not think that you have the right to be so arrogant.

Su Yi smiled slightly, with a hint of mockery.

Anyways he was currently trying to train, and just nice these people could be his sparring partners. He had just reached Yuan Soul Realm Sixth Grade and he wanted to test his current strength.

Kid, you really are courting death! Coldly smiling, bloodlust swirled in the eyes of the man which spoke.

Su Yi raised his eyes, within the depths of his black iris, the same bloodlust was flowing as well.

The law of the world was one that the strong rules, furthermore since he was in the Forest of Demons, he had to do what other people do. You know what they say: When in Rome, do as the Romans do.

Die, you rascal!

As soon as the leader finished speaking, the man beside him could not hold back any longer.

He had no weapons, his body was big and brawny, and he wore gauntlets made from fine metal.

Boom!

The brawny man leaped off the ground, Yuan Qi flowed from him and he directed an explosive punch straight at Su Yi.

Feeling the aura of Su Yi and seeing his age, the man did not even take Su Yi seriously.

Chapter 89: Confrontation

Suddenly, as the man sent a punch towards Su Yi, a green light sparkled from within the tree cave which was hidden by green vines and a streak of light shot out as fast as lightning, exuding a presence like that of thunder within a storm.

Whoosh!

It was all too quick. There was only a flash of green and then a wide blood-red gaping jaw appeared.

The man who was attacking Su Yi did not manage to react in time and was swallowed head-first by the open jaw of the snake.

Sh*t!

When the other two men realized what was happening, it was already too late for them to rescue the man. All that was left of that muscle-packed man was a pair of feet dangling outside the snakes mouth as fresh blood ran down the sides of its jaw with cries of despair echoing in the air.

Green Jade Python!

The other two men shivered. They were really shocked, never did they expect a Green Jade Python to come shooting out from the brats back.

Initially, when they had seen the brat take out the White Jade Fungi, they assumed that the snake was not around or had already been killed. They never expected an ambush by the snake.

But even if it was attacking them, shouldn't it swallow the brat first?

!

The eyes of the snake glimmered with cold light. It recognized the three men in front of it. They were the ones who had injured it not too long ago and now that it had seen its enemies, it was not going to let them off.

Theoretically, for a Green Jade Python to be able to swallow a Yuan Soul Realm cultivator who was at the Peak of Ninth Grade should be slightly difficult.

But the snake had launched a surprise attack, totally out of the mans expectations, hence it turned into a one shot, one kill. And now all that was left were the two men which it was not at all afraid of.

Now, do you think I am courting death?

Su Yi looked at the shocked leader of the group. A cold light emanated from his eyes.

With the Green Jade Python present, he was not afraid of the men cooperating and trying to kill him.

This beast listens to your orders? Looking at the snake who was slithering about besides Su Yi, the leading man finally understood the situation.

It seemed that the Green Jade Python listened to the brats orders.

This fact made the leading man shake. This was way too weird, how could this brat know how to control beasts?

Take a guess. Su Yi looked at the man and smiled slightly.

Humph! Did you think that the Green Jade Python can take the two of us on? You are too nave!

The leading man sneered coldly. Then, he turned around and said to the stunned man beside him, This brat is not normal. Distract the snake while I kill this kid!

Okay! The other alive man, who was skinny and tall, took a deep breath. Even though he knew it would be hard for him to take on the Green Jade Python, the snake was already injured. If he needed to distract the snake for a while, there should not be any problem.

His companion, who was around the same cultivation level as him, was swallowed in an instant due to a moments carelessness.

Kid, you seem to have some tricks up your sleeve, but you are still too young!

The leader had a feeling that Su Yi was special. It could be said that this brat, who was still wet behind the ears, came to the Forest of Demons to search for treasures. He could also be an important disciple from a large Sect or School.

But from how abnormal this kid was, it would most likely be the latter. This was his chance! If he could get some stuff from the kid, he would have struck a fortune and from here on out, he would be able to live a good life! Become a person above others! A life where he would get whatever he wanted!

Thinking about this future, greed consumed his thoughts. The leader stared at Su Yi full of bloodlust.

Su Yi raised his eyes. He felt the thick bloodlust emanating from the person in front of him and within the depths of his eyes, the same amount of bloodlust swirled within.

Do it! Stall that snake!

The leader could not wait any longer and made his move. As his feet stepped forth, a golden-colored Yuan Qi burst out from him and his figure quickly dashed forward, slashing the ringed saber in his hand towards Su Yi in the fiercest manner possible.

But at this time, the Green Jade Python shot forth once again. As that gigantic figure towered above them, it swung its giant tail, sending a hail of rocks and sand towards the two men. A violent wind blew at the impact.

When facing the Green Jade Python, not even the leading man dared to take it head-on.

Before getting hit by the violent wind, there was a movement of golden Yuan Qi beneath his feet and his body dodged the attack like an eel. His body technique may not be high leveled, but he definitely proved that he had the experience to make up for it.

Brother Ji, I will try to stall for as much time as I can! Finish the fight on your side quickly!

The skinny tall man took action. Although there was fear in his eyes, his face was cold and fierce. He held a weapon in his hand. It was like a spear yet not a spear, like a halberd, yet not a halberd. A faint black colored Yuan Qi of the Earth attribute swirled around him as he intercepted the snake.

Kid, I would like to see how strong you are!

Sneering, a cold light flashed across the leaders eyes as he raised his ringed saber. It reflected a chilling light and with a gust of wind, he mercilessly brought the blade down on Su Yi.

The sharp wind, which accompanied the blade, slightly stung Su Yis forehead as his hair fluttered about from the incoming wind.

Su Yi raised his eyebrow. This mans ability was far worse than the Young Master of Black Fiend School, but his fierceness and merciless actions were there to make up for it. This was a result of his saber tasting blood all the time.

Looking straight at the blade which was coming down on him, Su Yi was not the same as before. White-coloured Yuan Qi moved under his feet and together with the Hundred Transformations Step, his figure was like that of a floating speck of dust in the wind as he dodged the blade.

The leader was surprised, but his emotion did not appear on his face. With another swing, his saber sliced through the air, gleaming with a merciless light as it changed its course towards Su Yi's back.

Feeling the sharp wind behind him, Su Yi leaped away.

This man was ruthless and aggressive, far harder to deal with than the Young Master from Black Fiend School.

Yuan Qi burst forth from the soles of Su Yi's feet as they gathered to form a whirlpool. This was the first time Su Yi had used the Hundred Transformations Step to face an opponent.

Seeing Su Yi dodging his attack for the second time, the leader's face started to show his surprise and confusion, but his blade did not stop for a second.

The saber technique of the man was not of a high level, but it was quite effective.

Sweep, Chop, Stir, Cut, Brush past, press down, Cleave and Dash. They were the simplest moves, but also the most effective ones.

But right now, Su Yi was in the zone. Though his cultivation level was slightly lower, with his Hundred Transformations Step, he turned the situation around. From his initial somewhat pathetic state to his current state, where he could deal with this situation easily.

After all, the Hundred Transformations Step was an Emperor Grade Body Technique!

Although Su Yi had not cultivated it to its limit, using it to deal with these kinds of people, was more than enough.

Furthermore, regarding the level of cultivation, Su Yi's cultivation level may not be as high as the man he was facing and since the man had entered the Yuan Xuan Realm. He could fully release Yuan Qi resulting in a substantial difference between the Yuan Xuan Realm and the Yuan Soul Realm.

But with the Chaotic Yuan Demonic Body from the Supreme Chaotic Yuan Technique and the enormous amount of Yuan Qi within him, Su Yi could already fight head on against the Young Master of Black Fiend School when he was in Yuan Soul Realm Third Grade. Now, he was Yuan Soul Realm Sixth Grade and along with the advantages he had, the difference between his cultivation and his enemy's had greatly shrunk.

Chapter 90: Seven Injuries Fist and Crimson Flame Palm!

Rumble

Not far away, an intense fight was going on between the Green Jade Python and the tall skinny man. Wherever the snake moved through, trees would shatter, pieces of rocks and sand would be sent flying and the ground would crack.

Whenever enemies meet, old wounds are opened. The snake stared keenly at the man, sticking to him at all times, not letting him have a moment of rest.

Brother Ji, hurry up and finish the fight! I can't hold back this snake for much longer! The tall skinny man shouted. He was already in a very bad state. Disheveled hair and bruised all over by the violent winds caused by the swinging of the snake's tail. A trail of blood was running down the corner of his mouth.

The leader, who was called Brother Ji, started to take his fight more seriously. He realized that this brat was too abnormal. At the start of the fight, he was still able to catch up to the kid, but now, he had absolutely no way of following the kid's movements.

Seeing the situation of his companion, the leader frowned as he gritted his teeth slightly. Power burst forth from his saber as he used his saber technique. Forming a seal, light radiated from the sword as Yuan Qi rippled out and a fierce golden light burst out from the saber.

Brat! If you have the guts, then do not move!

The leader hollered. He found an opportunity. With the slash of his saber like lightning, a golden light glimmered and a merciless cruel aura emanated as the blade swung down on Su Yi. The saber sliced through the air, sending sand and broken stones flying.

Now, there was no doubt that the leader was using all his might. He was no longer holding anything back.

Swish!

Su Yi continued using the Hundred Transformations Step. The essence of the technique laid in its countless transformations. Tricking people, making his movements seem real yet fake, almost impossible to follow.

His body left a trail of afterimages and Su Yi managed to achieve the unimaginable as he barely dodged the saber.

Swish!

But the sharp wind managed to cut a few strands of Su Yi's black hair, leaving a stinging pain on his face.

Keke, brat, you really are only at Yuan Soul Realm. In the end, you are still too young! Now, die!

Suddenly, at the very same moment, the leader sneered coldly. He had already prepared for this situation to happen. That slash was just a feint.

Behind the trail of light left by the saber, his left hand clenched into a fist shot out.

Golden Yuan Qi enveloped the fist like a golden membrane. A ruthless aura exploded in that instance.

Mountain Shattering Fist!

The man shouted as his fist brimming with golden light sealed all paths in front of Su Yi and furiously headed towards him.

This fist was his real attack. Ruthless and swift, it shook the space around it as the energies of heaven and earth resonated in a buzz.

But, Su Yi's face still remained calm, and the corner of his mouth curved upwards slightly. His face showed that he expected this move and was looking forward to it all along.

Instantly, during this rapidly approaching dangerous situation, Su Yi's speed was turned up another notch. Yuan Qi rushed through his wide refined meridians like a flash flood.

His robust and wide meridians allowed the maximum amount of Yuan Qi to flow rapidly through his body.

It was like comparing a small slow stream to a raging wide river. The force and intimidating aura of the two could not be compared at all.

Within the same cultivation level, Su Yi's meridians were like the raging wide river, his Yuan Qi was also far more condensed than cultivators of the same level as him.

It was the first time Su Yi used his full might during this fight with the man.

Facing the man's ringed saber, even if Su Yi had an extremely tough body, he did not dare to take the blade head-on. Finally, he found an opening within the man's attacks.

Feeling the ruthlessness of the fist, Yuan Qi boiled within Su Yi's body. Bloodlust swirled within the depths of his eyes along with a craving to fight. The coldness of his eyes sent chills down people's spine. Yuan Qi flowed within the special meridians of his body and a wave of power suddenly exploded from within Su Yi.

Seven Injuries Fist!

Su Yi shouted within his heart. At the same time, Su Yi let loose his fist, the aura around his body burst out and black colored Yuan Qi flowed. With a violent thick wall of wind, his fist recoiled and shot out straight against the incoming fist.

Boom!

The two fists collided in the blink of an eye. The different Yuan Qi smashed against each other, the impact of the energies gave off the sound of an explosion like that of roaring thunder, echoing through the forest. A curtain of sand and stones were sent soaring into the air as the ground trembled.

Pat, pat.

The terrifying wind caused Su Yi to stumble backward. He put his foot back and quickly stabilized himself after a few steps. He was surprised. This Mountain Shattering Fist, it was quite powerful.

For the man, he was sent sliding back across the ground, forming two straight trails with his feet. The ringed saber in his right hand had been hit off his hand by the impact. The membrane-like Yuan Qi on his left fist was cracked, his face was pale and his hand was bruised and sore.

What shocked the man the most was that the fist contained a terrifying power, wave after wave, it hit his fist endlessly. The fist had seven different forces, it may be aggressive, it may be calm, or it may have calmness within the fierceness of the fist, or fierceness within the calm. The force can be shot out or it can be retracted, or it impacts the opponent directly. He could not block the continuous impacts at all.

Puh!

Finally, under the terrible waves of impact, his internal organs were severely injured. The man could not hold back any longer and spat out a mouthful of blood.

This is definitely not a normal martial art technique. His origin is not as simple as I thought!

The man stabilized himself but his heart quivered. He had suffered internal injuries and realized that the brats martial art technique was far stronger than his Mountain Shattering Fist.

That brat was obviously only Yuan Soul Realm Sixth Grade, yet the Yuan Qi within his body was so abnormally strong and together with that extremely strong martial art technique, he had severely injured him. This made the man deeply shocked.

Swoosh!

The moment the man had just stopped moving backwards, Su Yi dashed forward, leaving only a trail of afterimages behind. The black-colored Yuan Qi which surrounded his body had also changed to a deep crimson.

Not good!

The mans heart missed a beat. He was panicking. At the start, he thought nothing of the brat, but now, his heart was palpitating with fear.

That brat was so young, and he could already fight him, a Yuan Xuan Realm who was almost at the Peak of the First Grade and even injured him.

In a few years time, wouldnt this kid be even stronger?

Furthermore, the situation at hand was more important. This kid does not seem to have any intention of letting him go, the brat was way too fast.

Crimson Flame Palm!

The hand seal formed, and fire attribute Yuan Qi exploded. With a low roar, Su Yi dashed towards the man to attack him.

When the beast is sick, take its life! Su Yi did not want to miss such a good chance.

He had cultivated the Crimson Flame Palm and Seven Injuries Fist together. Both were General grade martial art techniques, right now, Su Yi held nothing back.

Fire attribute Yuan Qi flowed like a blazing fire emanating from the hand seal. That fiery aura made the air around him vibrate with heat, causing a burning sensation on the skin and hairs to stand on their ends.

The face of the man changed greatly. He had no time to block this attack. He let his Yuan Qi out to form a cocoon, enveloping his entire body.

Yuan Qi Cocoon. This was the difference between a Yuan Xuan Realm and a Yuan Soul Realm.

At the same time, cold bloodlust erupted from his heart. Bloodlust radiated from his eyes. He did not believe that this brat who is only Yuan Soul Realm Sixth Grade could take him head-on. He threw out his right arm and met Su Yis attack with a palm.
