[God of Slaughter](#)

Chapter 1371: Trade for Items

Many creatures from different clans were sitting neatly on the jade platform in the middle of the valley. In front of them were the special cultivating materials they wanted to sell or trade. Most of them were rare and precious and they included jades and crystals, divine weapons, sets of armor, and more. All of them were fabricated exquisitely.

Those cultivating materials were lustrous and colorful. The warriors wanted to use them to exchange for suitable cultivating materials. This was an open exchange area that the Dragon Lizard Clan had prepared for the visitors to exchange items while waiting for the celebration.

At this moment, Shi Yan, Audrey, Yvelines and the other two were walking around the area. Their eyes were bright when they were watching the items.

“Heavenly Wood Stone, Undying Lotus Throne, Devouring Soul Silk. Oh wow, they are all priceless items.” Audrey’s eyes brightened as she said, “In our place, those things are rare and special items in the market. Even Desolate couldn’t produce them. I didn’t expect that they could trade them freely here.”

Yvelines smiled and then explained, “Desolate Territory is just a remote area. People don’t even know where the entrance to the territory is. This immensely vast universe has many territories. Only the real top warriors come to this Sea Domain of Nihility. Thus, most of the warriors traveling around the Sea Domain of Nihility are top warriors in their respective territories. Of course, the items they have aren’t ordinary.”

Pausing for a while, he pulled a serious countenance and said, “Moreover, the Sea Domain of Nihility was formed by so many broken territories after Absolute Beginning Era. Many strange areas still have precious treasures from that Era that are even more than what we’re looking at here. If we get to the other areas, we can find more good items.”

Shi Yan nodded.

He knew that this area was just a corner of Dragon Lizard Star, the area for third-class clans to stay. The forces or clans like the Water Tribe would be accommodated in better areas and the exchange zone there would have more rare and priceless items than this area.

“We mostly use items to exchange for items in this area. They rarely use divine crystals to buy or sell. In this vast universe, there are many divine crystal lodes. Thus, divine crystals aren’t scarce. They need cultivating materials that suit them well. Pay attention and you will know what they want to exchange for their goods,” said Yvelines.

The trading zone was like a complicated market with many sellers and buyers. The aliens walked around and shopped. When they found suitable materials, they stopped to talk to the sellers. If they got what the other wanted, their transaction was done smoothly.

Listening to Yvelines, Shi Yan and Audrey looked around and found that most of the sellers spoke popular languages to write the items they wanted to exchange for. The alien who sold the Heavenly

Wood Rock wanted to exchange his item for materials suitable to Lightning and Electrical power Upanishad.

That warrior had Second Sky of Incipient God Realm cultivation base. The energy fluctuating from him was clear lightning. Evidently, he cultivated Lightning and Electrical power Upanishad.

After taking a walk around the area, Shi Yan and Audrey saw many things, but didn't find anything suitable to them. Thus, they continued to walk and watch.

"You guys should walk around and see. We're going over there. See you at where we are staying later," Yvelines suggested that they should part.

Shi Yan and Audrey didn't oppose this. After that, the three experts of the Heavenly Eye Clan headed to another area.

Shi Yan and Audrey walked shoulder by shoulder. Sometimes, they talked as if they were a couple.

There were so many aliens here. Most of them had humanoid features with some modifications. Some had curved horns, some had fearsome tails and long ears, and some even had strange patterned skin.

Although they came from different races with different languages, they were speaking the popular language. Thus, their transaction didn't encounter a language barrier.

"AH!"

Audrey suddenly hissed and halted in front of an alien. Her eyes radiated strange light.

That alien had wave-like blue patterns all over his body. He was a middle-aged man cultivating Wind and Thunder power Upanishad as the others could hear faint noises of howling wind and rumbling thunder from his body.

What had attracted Audrey was a pitch-black wine jug in front of him, which had clear soul energy fluctuations. With her special power Upanishad, Audrey sensed and she knew that the souls trapped inside weren't ordinary.

Shi Yan secretly sensed and he got startled. He said, "Three souls at Third Sky of Incipient God Realm. Their consciousness was erased, leaving only the pure soul energy. Not bad."

He knew that Audrey could use her power Upanishad to absorb the strong souls to increase her realm and power. It was the exclusive power Upanishad of Imperial Dark Tribe. That was also the reason why Ming Hao was the most suitable warrior to cultivate Soul Control power Upanishad. Soul control was the most magical technique in Soul power Upanishad.

"I only trade them for things suitable to my power Upanishad!" The middle-aged man's eyes opened a slit to observe Shi Yan and Audrey. He sounded disappointed as he hissed impatiently, "If you don't have it, don't shield the others' view!"

He was one of the several Immortal Realm experts in this trading zone. Seeing Audrey and Shi Yan at just Incipient God Realm, he guessed they didn't have anything nice to trade. Thus, he gave them an ugly face and asked them to move because they were standing and blocking the view of the warriors with treasures in Wind class.

“Hmm. Unfortunately, I don’t have any item suitable for him,” Audrey looked yearned. She whispered and then left.

The three Incipient God Realm souls in that jug were really attractive to her. If she could merge them with her soul, she could breakthrough to Second Sky of Incipient God Realm. The three souls at Third Sky of Incipient God Realm was an astounding amount of energy. They were an excellent tonic to her.

Audrey’s graceful body was about to move, but she found that Shi Yan didn’t move. She was surprised so she murmured to him. “We don’t need to waste our time here.”

The wave patterns on the middle-aged man’s skin surged. He rolled his eyes impatiently at Shi Yan. “Kid, what do you want? You want trouble?”

Shi Yan grinned and touched his glabella. Around ten strange rocks fell into his palm. Those rocks had so many round holes on the surface that emitted howling winds and rumbling thunder.

The Wind Thunder Stone was a magical stone that the Chen family in Thunder Firmament Star Area used to survive. It had the power of Thunder and Wind. When the remains of the Immemorial Thunder Dragon was dormant, his energy had connected to the star area barrier. After thousands of years, it began to produce this kind of stone. As Lei Di cultivated Lightning power Upanishad and had to deal with gusts of strong wind in that area, his remains had created the Wind Thunder Stone miraculously and accidentally.

The Wind Thunder Stone was the most suitable cultivating material to the warriors with Wind, Thunder and Lightning power Upanishad. It could help them increase their power and boost them in understanding the meaning and abilities of their power Upanishad.

That middle-aged man wanted to exchange for treasures in Wind class or Lightning class, but he had never expected to see the natural stone that had both attributes. When the Wind Thunder Stone emerged, his impatient face turned bewildered and then he smiled.

“Hey brother, we can use these stones to exchange. Give me ten stones and you can take this wine jug to give to your woman. They were three Incipient God Realm experts who had chased after me that year. Too bad for them, I’d reached the Immortal Realm. I killed them and erased their consciousness. Now, they are just the pure energy...” He smiled with his narrow eyes as he explained.

When Audrey saw Shi Yan taking out the Wind Thunder Stone, her cold, indifferent face became bright and happy. She blushed when the man misunderstood that she was Shi Yan’s woman. She looked extremely beautiful and her neck was even red. The light in her eyes danced as she muttered something.

She wasn’t thick skinned, so she felt that it was really awkward now. However, she didn’t know what to do.

“My woman...” Shi Yan felt funny as he mumbled to himself. Then, he agreed with him and said, “Okay then, I’ll take this jug. You keep the Wind Thunder Stone.”

Laughing, he put the Wind Thunder Stones down and his other hand picked up the jug containing the soul of the three Incipient God Realm experts. He then threw one arm around Audrey’s slim waist and walked away contentedly.

“Bastard! Drop your hand!” Audrey was blushing, her eyes lustrous. She glared at him. When she saw no one notice, she swayed away from his embrace. Taking a deep breath, she pretended to be calm. “I need this a lot. So... I owe you once. I will pay you back later.”

Then, she was so thrilled when she seized the jug from Shi Yan. Her eyes were bright when she spoke calmly. “There are three souls at Third Sky of Incipient God Realm in this bottle. I can break through one level. I could never imagine that someone would sell souls at such level! In our area, they were as strong as the Chiefs of the God Clan’s twelve families. This Sea Domain of Nihilicity is indeed a terrifying area!”

Shi Yan laughed when she shoved him away. He swung his right arm that had just held her waist. His scorching eyes fell on her waist, teasing the cold and arrogant Princess of Imperial Dark Tribe. “Oh, so you owe me, right? Yeah, how are you going to pay me back? You said that I’m the sort of guy that wouldn’t be happy without women. I’m lustful. You and I are lonely here. We don’t know anyone. Do you see what I’m saying? Should we become a little closer?”

Audrey was bewildered, “So you’re really that despicable?”

“I thought you know that already!” Shi Yan sounded surprised.

“Er, you don’t feel guilty to your women when you do that? I know that there are many women faithful to you on Grace Mainland. We haven’t left for a long time. You want to betray them? Can you get over that challenge in your heart?” said Audrey sternly.

Shi Yan rose his brows. A dark gleam appeared in his eyes. Staying quiet for a long time, he said, “No one knows what will happen later. I don’t know if we can return to Desolate Territory or not. Perhaps they won’t have a chance to see me again. I don’t know if we can survive in this area, either. If I can have a nice day and live happily for one day, I will try to continue that way. That’s all.”

The more he understood the Sea Domain of Nihilicity, the more he recognized how small and powerless he was. The Seven Great Races had existences at Territory Ancestor level who could be compared to Desolate or Hui. There wasn’t only one expert like that. He was just a weak warrior at Incipient God Realm. It was already a problem if he could survive until he found the way home.

The complicated situation here had covered his soul and heart. He didn’t dare to think about the future. He just considered how to survive the moment.

Teasing Audrey was a way to relax his tense nerves and vent out his stress. The more he knew about stuff and people here, the more pressure he felt.

Thus, he had an extreme desire to get the Immortal Pellet. He had made up his mind. He would pay any price to get the Immortal Pellets in Dragon Lizard’s hand. He had to get one to reach Immortal Realm quickly!

Chapter 1372: Fantasy Boundary Stone

The Sea Domain of Nihilicity had so many alien races and there were as many experts of those races as stars in the sky. The competition between them was always harsh. If Shi Yan didn’t have the power to

protect himself before he found the way home, it was going to be very tough for him to survive. He would be killed eventually.

The Immortal Realm was an important advantage to increase his chance of survival. Thus, he needed the Immortal Pellet in Dragon Lizard's hand. He wanted to break through as soon as possible.

Listening to him, Audrey looked pensive. She didn't continue the topic afterward.

Putting the wine jug away, Audrey made up her mind. She would use the three souls in the jug to increase her realm.

Shi Yan was distressed under the heavy pressure even though he had Third Sky of Incipient God Realm. She had just First Sky of Incipient God Realm. She needed to increase her power. Otherwise, she would need Shi Yan to protect her all the time. She didn't want to be a burden.

As the Princess of Imperial Dark Tribe, she was the Daughter of Heaven in Desolate Territory. It was humiliating when she let a man protect her.

"I also want to see if I can find any treasure suitable for me. We can be assured if we get stronger. We're not sure about anything. We must be careful."

Shi Yan frowned and then relaxed his mind. He sent his Soul Consciousness to see if he could find any materials that could help him.

His Soul Consciousness rippled like waves, slowly expanding from him unceasingly.

He looked disappointed as his Soul Consciousness had almost finished searching the trading area without a positive result.

While he was about to give up, his soul was touched.

A flow of magnificent space energy came to him from a remote corner of the jade platform. His eyes brightened. He didn't hesitate and walked directly toward that area.

Audrey's eyes fixed on him. Seeing him walk away as if he got something, she hurried to follow closely behind him.

Her elegant face had some strange gleam. Looking at Shi Yan's back, she sighed inwardly. No one knew what she was thinking in her mind at this moment.

Shortly after, the two stopped by a corner of the jade platform in front of an ugly alien. She was an old woman with a warty face skin like a toad. She had pointy ears and her hair grew lushly like wild weed. Her hair had covered her body entirely and made her look like she was hiding in a haystack.

In front of her was a glass container that held nine crystal jades. The jades didn't glow and because the container had sealed them, they didn't emit any special energy fluctuation. The old woman didn't look up as if she was snoozing. After Shi Yan and Audrey had arrived, she didn't have any reaction.

Audrey was gingerly. As soon as she came, she recognized a wisp of slithering Soul Consciousness like the tongue of a venomous snake creeping around her. She understood that even though the old woman didn't open her eyes, she was still watching them.

Releasing her soul to sense, she became more gingerly. She shot Shi Yan a discreet look.

Unexpectedly, the old woman was one of the warriors at First Sky of Immortal Realm. The energy fluctuating from her body was really magical. It seemed like she could create illusions. Audrey found layers of illusions in her soul. She wanted to sink in them.

“Fantasy Boundary Stone. What kind of magical stone is it?” Shi Yan asked all of a sudden.

While sensing, he had found the strange space energy fluctuation. Thus, he followed it and came here. When he approached the old woman, he found a strange feeling that the seven stones seemed to be able to create the seven different worlds. Shi Yan was really curious.

The old woman finally opened her eyes and spoke indifferently, “The Fantasy Boundary Stone is useful to the ones cultivating Space power Upanishad only. When they use space energy to activate it, the stone can become a small space. It’s like a hot air balloon. The more energy you pour in it, the bigger it can be.”

“A small stone can become a whole tiny world? Is it really that magical?” Shi Yan was very surprised.

The old woman snorted and pouted her lips. “No, not really. The small world that the Fantasy Boundary Stone creates can’t last forever. It can remain for a while. Otherwise, why would it be called “Fantasy”? This Fantasy Boundary Stone can be used as a weapon to warriors cultivating Space power Upanishad. They can use it to confine their enemies. Once they capture the enemies in that world, they can detonate it. It will kill or wound the enemies badly!”

Shi Yan’s eyes brightened. He nodded and smiled. “To what level of an enemy can it kill?”

“It depends on the user,” the old woman thought and then explained, “As you have only Third Sky of Incipient God Realm, the world created by your God power may kill a warrior at the same realm or hurt a warrior at a slightly higher realm when you detonate it. You can even confine the Immortal Realm expert for a short time. Of course, what matters here is whether you can drag your enemy into that world or not.”

The Fantasy Boundary Stone had never existed in Desolate Territory. Shi Yan had never heard about this stone before. However, listening to her explanation, Shi Yan was sure this item was suitable for him. After refining it, it could become a small world that he could use to imprison enemies, burst them, or hurt them. It wasn’t an ordinary item, indeed.

“She didn’t say what she wanted to exchange for these stones,” Audrey reminded Shi Yan.

Shi Yan noticed that there wasn’t a sign of the things that the old woman wanted to trade. He was a little surprised.

While he was about to ask about that, the old woman spoke up, “What I need is related to this Fantasy Boundary Stone. I need a warrior cultivating Space power Upanishad to help me. The ones interested in the Fantasy Boundary Stone are the ones cultivating Space power Upanishad. Thus, I don’t need to make any note.”

Releasing a flow of energy, Shi Yan chuckled. “You see, I’m cultivating Space power Upanishad. What do you need help with?”

The old woman lifted up her head to study Shi Yan for a while and then shook her head. "Your realm isn't profound enough. If your teacher is here, perhaps he can help me. I can give you those Fantasy Boundary Stones. Anyway, you don't have the capability to help me with what I want to do."

"What is that? Can you tell me a little bit?" Shi Yan was surprised.

The old woman hesitated for a while. Something flashed in her sleeve and a small lock shimmering in silver light appeared. This silver lock was as big as a hand, but it had so many carvings of fine spatial patterns. There were at least hundreds of small spatial formations carved on this lock.

"This space lock is sealed. The space inside the lock has something important to me. I don't have the key. I need a warrior with Space power Upanishad to unlock it layer by layer. To unlock a spatial lock, you have to do it in one try. At your realm and cultivation base, you don't have enough power to do so."

She shook her head and didn't try to be polite when she said that Shi Yan didn't have sufficient power. "If your teacher or your friend is at the Immortal Realm, they can try. Anyway, I have to say that you can only get the Fantasy Boundary Stones after you unlock it. If you fail, you'll get nothing."

The spatial lock confined a small space. If it was forced to open or opened with the wrong methods, the lock would explode and smash that space. If the operator was rash, he could have to pay with his life. Only experts cultivating Space power Upanishad could use the Soul Consciousness with space power and God power to solve the formations on the lock one by one.

During this process, he could not pause. He had to finish them in one try. Otherwise, the magical space formations would change and create new complicated formations.

The old woman explained everything to Shi Yan in detail because he cultivated Space power Upanishad. She hoped that his teacher or his friend had sufficient power and they could bring her a little surprise.

"To solve the spatial lock, does it require a profound understanding of the power Upanishad and condensed God power?" Shi Yan pondered and then asked.

"Yes, both of them. However, the pure and condensed God power is more important. Because if you have enough God power, you can last longer and you can have more time to think and solve it. Otherwise, even if you have a good grasp of knowledge, your insufficient energy will make you fail." The old woman understood the features of the lock well.

Shi Yan nodded and indicated that he understood. He rubbed his chin and pondered, "Can we move to another place to talk?"

The murky eyes of the old woman brightened. The energy fluctuating from her became strange. A strange but pleasant aroma emitted from her ugly body. Shi Yan was stunned. The aroma was so delighted that it was like the fragrance of a charming, mature woman. It completely contrasted to her fearsome appearance.

"If you don't mind, we'll go to my place to discuss," she invited.

Shi Yan and Audrey exchanged looks. Shi Yan nodded with a smile, "Okay."

The old woman wiped her hand and the container with the Fantasy Boundary Stone disappeared. She stood up and walked out of the trading zone. As soon as she came to the area where they were allowed to fly, she flew up and headed to a place on the rock wall.

Shi Yan and Audrey followed her. Shortly after, she brought them to a remote cave. This place was a lot similar to their lodge. It was spacious but plain.

As soon as the two of them got inside the cave, the old woman set up a barrier to cover her lodge. After she was done, she said seriously. "Kid, do you have any teacher or precursor cultivating Space power Upanishad? If he's here, please call them. As long as they can unlock the spatial lock for me, I will offer more than the seven Fantasy Boundary Stones. I'm sure I can delight him!"

"What do you think about me?" Shi Yan smiled.

She frowned and suddenly became outraged. "I don't have the time or extra energy to waste my time with you. You can leave now. At your realm and cultivation base, you can't solve this spatial lock!"

"Oh, you said that the God power is more important..."

Shi Yan curled his lips. He wasn't angry. He just rose one finger and pointed at the old woman.

Radiant light shot out of his finger. So many space slits like torn ribbons emerged together with sharp space blades. When his finger pointed forward, they immediately thrust toward the old woman. The space energy in them was so terrifying.

The old woman's murky eyes radiated a dazzling starlight band. She sensed for a while and then hissed in surprise. "That's some really refined energy. Endless aura too. Kid, your realm is normal but your God power is really thick and condensed. It's not less than that of normal Immortal Realm experts. Yeah, I think you can try once."

Chapter 1373: Unlock the Spatial Lock

Inside the sealed cave, the old woman looked very thrilled. She walked to the cave entrance and contemplated. A powerful energy fluctuation rose, which combined a lot of different power Upanishads. Lightning, mist, wind, ice, and flame created many layers of barriers that covered the cave entrance like spider webs.

Shi Yan focused and found that thirteen strange formations had reinforced the cave entrance. Those barriers were invisible so only the Soul Consciousness could see them.

The sharp auras came from those barriers. Shi Yan had no doubt that even if Yvelines, Adams, and Misha came here together, those barriers would be enough to kill them at their spots.

"No, it's not true!" Shi Yan discolored. He looked frightened as he said, "Absolutely. You don't have only First Sky of Immortal Realm!"

The energy hiding in those barriers was extremely terrifying. Let alone First Sky of Immortal Realm experts, even Second Sky of Immortal Realm experts didn't have a big chance to survive!

The power this old woman had performed was beyond the realm she had exposed. Evidently, she had concealed her real cultivation base.

Audrey's face was cold, but she was actually anxious. Discreetly, she urged the God power. If the situation didn't go right, she was going to take action shortly.

"Don't!" Shi Yan's soul quivered. He hurried to comfort her with a forced smile. "If she wanted to kill you, it would take just a flick of her mind. Even if you use all of your power, you won't even touch her!"

The old woman laughed and gave Shi Yan an appraising look. "Kid, you have keen eyes. Don't worry. I mean no harm. As long as you can open this spatial lock, I will give you other gifts beside the seven Fantasy Boundary Stones. I'm sure they will delight you."

Then, she turned to Audrey and frowned, "Your soul power Upanishad is similar to the Soul Clan. Are you related to them somehow?"

While talking, her eyes changed dangerously.

"Soul Clan?" Audrey shook her head. "I'm a member of Imperial Dark Tribe. My power Upanishad is related to the soul, but I have nothing related to the Soul Clan."

"Good," she nodded and then snorted, "I hate every single member of the Soul Clan!"

Then, a light glowed in her palm. Three round pellets were conjured. They were crystal-like and sparkling with abundant energy that fluctuated. She handed them to Shi Yan and said, "These are the Congealing Divine Pellets of the Mysterious Sky Clan. There is as much God power in each of these as a Third Sky of Incipient God Realm expert's body. You can absorb the energy from the pellets rapidly to recover. You should use them to unlock the spatial lock. Whether you succeed or fail, they are yours. I won't blame you if you use them all."

Shi Yan looked shocked. "They are good stuff, indeed!"

The pellets that could recover the God power instantly were rare. While fighting, when a person's God power was insufficient, just swallowing one piece would give that person full power again. It was greatly convenient, indeed. Absorbing and congealing energy from the divine crystal was a slow process and it took a lot of time to recover the warrior's energy. It could never be compared to this sort of pellet.

"Who are you?" Audrey was keenly looking at the old woman. "The pellets that can give instant recover are priceless. Moreover, they are from the Mysterious Sky Clan, one of the Seven Great Clans. You don't mind giving him three pellets just to break that lock. Your generosity startles me."

Hearing her, Shi Yan was startled. He knew that this old woman should hold a high position and her identity wasn't ordinary.

"At your realm and personal competencies, you should have gone to bigger and better trading zones. You could have found warriors with stronger Space power Upanishad. Why would you choose this zone?" Shi Yan couldn't understand.

"You two juniors have a lot of questions," the old woman frowned, her face cold. "Stop asking irrelevant questions. Take the Congealing Divine Pellets. You should unlock that spatial lock for me now. This cave is sealed. No one can barge in. Don't worry. Just do it as best as you can."

Then, she sat down cross-legged and closed her eyes. Apparently, she didn't want to continue the topic. Shi Yan got a good sense and he shrugged. "Understood." He turned to Audrey and asked her to protect him.

He didn't know her real identity but he was sure that the old woman took this lock very seriously. Thus, before it opened, she was going to try her best to help him. Shi Yan got this clue from the three divine pellets she handed him.

Taking a deep breath, he pulled himself together and looked at the spatial lock, one hand holding three Congealing Divine Pellets.

After a while, he grinned and swallowed one of the Congealing Divine Pellet. A current of heat dispersed into countless flows and scattered to the veins in his entire body. The thick God power was triggered. Instantly, the energy in his entire body was brimming. He had a feeling that if he didn't vent it out, he would explode.

"So much energy!" He couldn't help but shout, his voice thundering and shaking the cave.

The old woman opened her eyes and looked at him. She snorted and then pouted her lips. "Kid, you're very careful. You thought that I would use the poisonous pellets to deceive you and it would burst you when you used one of those pellets to refill the God power. Yeah, it seems like you didn't waste your years of cultivation. You know how to stay alert."

As she said this, Shi Yan taking a pellet before taking action showed his caution. When his power was full and he took the pellet, even if it hid some problem, he would still have the power to counter.

Also, if the pellet made something go wrong and he couldn't do anything, that old woman was going to protect his life if the lock wasn't opened yet.

While being in foreign lands, he had to always be cautious. It wasn't a bad thing to do, anyway.

When he realized that there was no problem with the Congealing Divine Pellet as it made his God power surge torrentially, he smiled and condensed his God power. Instantly, the peculiar energy fluctuation of Space power came from his body and rippled like waves that filled the entire cave.

After the pure energy from the Congealing Divine Pellet and the power in his body had blended completely, his energy had rocketed to an amazing height.

Audrey was very surprised. Now, she finally knew how strong Shi Yan was. She sighed as she recognized the difference between them.

Electrical beams flashed in the old woman's eyes. Her line of sight didn't switch from Shi Yan. She nodded discreetly, her hope getting bigger.

Shi Yan's aura and energy surpassed ordinary First Sky of Immortal Realm experts. At this moment, he could be compared to many outstanding warriors at this realm!

Although it was because of the Congealing Divine Pellet, Shi Yan's competence was really amazing as he could reach such a height.

“Good, very good. He’s more excellent than some kids in my clan. Amazing. Where does this kid come from? He doesn’t look like someone of the Seven Great Clans. Well, he’s strange...”

Looking at Shi Yan, she contemplated and became more surprised and skeptical.

At this moment, Shi Yan had to use his Soul Consciousness to cover the aura of the Dark Energy. He was using his normal power to get into the spatial lock.

As soon as Shi Yan got into the spatial lock, he opened his eyes to an immense sky. That sky had so many holes and each hole was filled with strange spatial formations. He needed to use his God power with space energy and his understanding of Space power Upanishad to slowly solve them. After he could finish all the formations here, he could unlock the spatial lock.

That’s how he could open this locked world!

His Soul Consciousness condensed the God power and moved like different rivers pouring into different holes in the sky. They moved around many spatial formations at the same time while Shi Yan was using his attainment in Space power Upanishad for many years to understand the features of those mysterious and complex formations.

Many of those formations had mixed with the space nodes and some even looked like a mess of yarn balls created by unnatural, scattered lines. He had to solve, pull, and fix the lines, little by little.

It was like a bundle of fishing lines integrating and twisting with each other. He had to slowly take them out one by one. Hundreds of spatial formations were hundreds of complicated riddles. At the same time, they were connected to each other. If he wanted to solve them, he had to do it at the same time. Otherwise, they would resonate with each other and create more problems.

While solving the formations, Shi Yan’s God power was being rapidly consumed. With the Space power Upanishad as the source of knowledge, he sank into many spatial formations inside the lock.

To do many tasks at the same time, it looked like Shi Yan had created many clones that worked in different formations.

Shi Yan knew some of those formations so it was easy to deal with them. Some other formations existed in Bello’s memory, so he could solve them too. However, there were so many formations that he had never seen before. They were mysterious and complicated. While solving them, his understanding of Space power Upanishad also widened.

Once he solved a new formation, his understanding of Space power Upanishad reached a new height.

The process of breaking this spatial lock was also a test to his understanding of Space power Upanishad. It was his new comprehension too.

He had a premonition that this chance to open the spatial lock was an intensive lesson for him to study Space power Upanishad.

Those mysterious, unknown formations had opened a new, big door for him to immerse deeper in Space power Upanishad. It took him to the world of power Upanishads. Now, his comprehension of Space power Upanishad had reached a new height.

“Not only did his God power condense but he also has the competence to challenge higher-realm warriors. His capacity to understand the power isn’t ordinary, though. This boy... keeps surprising me more and more!”

The old woman who looked harsh and ugly suddenly opened her eyes to study Shi Yan. She was very astounded.

“Only the outstanding warriors from the Seven Great Clans can do that. He’s not one of them, obviously. Why is he so strange? Strange. It’s really strange.”

While thinking, she was moved. She looked at Audrey and pried, “Which territory did you guys come from?”

“Desolate Territory,” answered Audrey.

“Desolate Territory!” The old woman screamed in panic. It was the first time she changed her visage. Her senile body was shaken hard.

God of Slaughter

Chapter 1374

“Desolate Territory is the territory created by Desolate, the Absolute Beginning creature. It was lost for so many years. Are you... really from Desolate Territory?” The old woman was stern when she looked at Audrey. She sounded as if she was scared. “Why are you here?”

Inside the cave, Shi Yan held his breath and concentrated on condensing his God power. He gathered his Spirit, Qi, and Soul into one beam and sent it to the spatial lock. He was using his magnificent will to break the marvelous spatial lock.

“We got lost. We came here accidentally. We don’t know why we’re here too. Also, we don’t know the way home.” Audrey answered. She didn’t expect to see the strange reaction from the old woman. Pausing for a while, she turned to the old woman and asked with surprise. “You look astounded when you hear about Desolate Territory. My friends from the Heavenly Eye Clan said that Desolate Territory is isolated and remote. The language from that place is rare too. According to him, Desolate Territory is very normal and weak compared to other territories. Why did you have a big reaction like that?”

She pouted and said with disdain. “Heavenly Eye Clan? This sort of bottom clan has no knowledge. Besides the experts of the Seven Great Clans, not many people know about Desolate Territory. You don’t know how you came here and you don’t know how to go back? It’s really...”

She took a deep breath, her face stern. “For many years, the members of the Seven Great Clans have not given up searching for Desolate Territory with power Upanishad Original Seal. The Soul Clan and the Devouring Clan are the most active in this operation. It’s because only the Seven Great Clans knew how important Desolate Territory is.”

Audrey was surprised, “How important is it?”

She looked at Audrey, her eyes containing something deep. “Desolate is one of the strongest Absolute Beginning creatures. In this vast universe, you can count the number of the Absolute Beginning creatures that still exist with your fingers. Most of them are dormant, but no one has the guts to

provoke them. Desolate used to have a fierce reputation. The Seven Great Clans know that it's damaged severely and its body is divided now. They know that Desolate is in its weakest condition."

Pausing for a while, she arranged her thoughts and spoke distantly, "You know how important the wounded Desolate is to the Territory Ancestor level experts? If they can refine Desolate, the power of the Territory Ancestor level experts will increase massively. The expert at Third Sky of Immortal Realm could get the Dark Energy to reach the Territory Ancestor level once they refine Desolate successfully."

"I heard that Desolate used to be super powerful. It was the rarest supreme existence among the other Absolute Beginning creatures. It has at least two Absolute Beginning divine weapons. When they refine Desolate, they can take their divine weapons too. It's a great, irresistible enticement to any expert of the Seven Great Clans."

"Two Absolute Beginning divine weapons?" Audrey was stunned.

"One is called the Life Soul Tree and the other is the Upanishad Original Seal. They are magical objects evolved from divine weapons. The Life Soul Tree is very marvelous and unpredictable. It can derive new species from the tree with the deepest mystical abilities of the earth and heaven, which are the soul and life. The Upanishad Original Seal has countless power Upanishads in it. The one who can fuse that can comprehend the mysteries of so many power Upanishads.

"The Life Soul Tree is a giant ancient tree and the Upanishad Original Seal is like a sea with strange power Upanishads. As you're from a race living in Desolate Territory, your race should be a new species that Desolate derived from the life structure of the Soul Clan and created using the Life Soul Tree and its supernatural power. Thus, your physique is similar to the Soul Clan's. I think that the warriors in your Desolate Territory have mastered powers Upanishads like Lightning, Wind, Ice, Flame, and more. Those power Upanishads come from the Upanishad Original Seal."

The old woman squinted. She eyed Audrey for a while and then slowly explained.

Audrey was a little astounded. Her bright eyes were filled with surprise as she was immersed in her thoughts.

Audrey believed everything that the old woman told her.

Lately, she had visited Desolate when it opened. In the center of the holy mountain in the middle of Desolate, she saw a massive tree rooted into the earth. It was a very spectacular ancient tree, which had produced the Genesis Fruit. That ancient tree was like Desolate's veins with magical, mysterious, vital functions.

At that time, beholding the ancient tree had given her an extreme impression. And today, she knew that it was called the Life Soul Tree and was a divine weapon from the Absolute Beginning Era. The tree could create new races and Imperial Dark Tribe was created using the Soul Clan, one of the Seven Great Clans, as the model.

She also knew about the Upanishad Original Seal. As she was the master of the heaven flames and she had fused with God-blessed Mainland, she could enter the fountainhead of power Upanishads freely, which was another divine weapon that the old woman had mentioned: the Upanishad Original Seal.

The fountainhead of power Upanishads stayed right on Desolate. It was the source of all the power Upanishads and their principles. As it had fused with Desolate's soul, it had brought her and billions of creatures in Desolate Territory many power Upanishads to choose and learn. Desolate Territory had many powers Upanishads so the warriors there had more options.

Today, through this old woman, it was the first time she learned more deep information about Desolate.

"Singh of the Soul Clan is a top warrior. He has refined a soul of an expert from Desolate Territory to be his brutal soul. He tortured that soul to find the entrance to Desolate Territory. Singh is at the Peak of Immortal Realm. He has an exquisite cultivation base too. He has a good grasp of information about Desolate. If he can get into Desolate Territory and refine Desolate to get two divine weapons, he can break through to the Territory Ancestor level and become one of the top existing experts of the Soul Clan."

The old woman pouted her lips and snorted, "Too bad for him, that brutal soul is strange. His Soul Seal merged with his memories. Once his memories are gone because of the soul extracting method, his soul will explode to death. Singh can't force that soul to give information about the location of Desolate Territory's entrance without hurting it, but the Territory Ancestor level expert in his clan can. However, Singh doesn't want to share Desolate's marvel with anybody else, so he has concealed it. He wants to enjoy all things harvested from Desolate."

"What's the name of the soul that Singh has used to create his own brutal soul?" Audrey asked hastily.

"Ming Hong something. He doesn't have a body anymore. He has just a soul form. While we fought against Singh, he had released brutal souls to attack us. Although Ming Hong couldn't act freely, he still has his consciousness. He disclosed the secrets to us with the hope that we could save him. Unfortunately..."

The old woman sighed, her face dispirited when she looking at the spatial lock.

It seemed like the lock was keeping something very important to her, which made her worried a lot.

"That Ming Hong is a precursor of my tribe," said Audrey all of a sudden.

The old woman was bewildered. Then, she smiled oddly. "Oh well, you don't know the way home. Ming Hong knows but he won't open his mouth. Yeah, I have advice for you. No matter what, do not use Desolate Territory's language to communicate anymore. Otherwise, when the Soul Clan finds you guys, this cute little couple will perish."

Audrey's face reddened, but she didn't explain anything. "Madam, if you fight against Singh, could you kill him?"

"Kill him?" the old woman shook her head bitterly. "Because we lost, we have to hide. We're afraid of the Soul Clan. I don't know Dragon Lizard's opinion about this. However, I know that he has a good relationship with Singh. As we are in his Dragon Lizard Star, we must be very careful."

Audrey could confirm that this old woman wasn't an ordinary expert. She said that only members of the Seven Great Clans know about Desolate's marvel. She knew it too. Also, as she used to attack Singh, she was definitely a member of the Seven Great Clans. Because of her defeat and something else, she had to conceal her identity.

While they were talking, Shi Yan sat still. The energy from him had all been sent to the spatial lock.

Now, the spatial lock emitted magnificent halos and illuminated the entire cave. The old woman cheerfully looked at the Upanishad Original Seal with great hope and mumbled, "Excellent, kid! Really powerful. It seems like the old man can escape this time!"

"The old man? Your partner is confined inside the lock?" asked Audrey.

The old woman gave a forced smile and admitted, "We joined hands to attack Singh. To wound Singh, he was fatally injured. The spatial lock has a magical effect. If you stay inside the lock, your broken soul power won't scatter. The space inside the lock will reserve it. When he can stabilize his situation, he can gather his broken but not dispersed energy to recover quickly."

She sighed and continued, "But when I used the lock to protect him, Singh attacked me. The key was smashed. My man is trapped inside the lock. I think he must have recovered already, but he can't break the confining space to get out. If the space inside the lock is broken, he will perish too. We can slowly open this lock from the outside. But I don't cultivate Space power Upanishad, so..."

Audrey understood it now.

If her partner hadn't been locked, she wouldn't have taken risks to come to Dragon Lizard Star. Dragon Lizard and Singh had a good relationship so Singh could be in Dragon Lizard Star to join the celebration. Thus, she had to disguise herself and go to the third-class zones by using the Fantasy Boundary Stones to attract the warriors with Space power Upanishad. She hoped that someone could unlock the spatial lock to let her partner out.

It was the reason why she had to take Shi Yan inside the cave and create more than ten layers of barriers. She was also very generous to give Shi Yan the Congealing Divine Pellet to help him open the lock.

Apparently, she wasn't an ordinary expert. Her realm was profound and she was obviously rich as she had promised them a big payment.

Crack! Crack! Crack!

Right at this moment, the spatial lock made cracking sounds and the fine space patterns on the lock's surface slowly exploded.

Abruptly, the strong light beams bloomed. A magical space door slowly materialized.

A tall figure walked out of the door. As soon as he emerged from the cave, he yelled. "Ya Yun! What the heck are you playing? Why did it take you such a long time to release me? Oh, sh*t. That motherf*cker Singh didn't kill me but you almost choked me to death!"

He was a slender man with high spirits and a shining bald head. He was gorgeously dressed in brocade robes with many seal characters and ancient marks. After yelling, he looked at the old woman and screamed, "How come you've turned into... this?"

The old woman sighed. Her body shook and she turned into an elegant woman around forty years old. She still looked graceful, indeed. As the old man was yelling, she was a little embarrassed. "Singh

smashed the key of this spatial lock. I... I found a boy cultivating Space power Upanishad to unlock it for you.”

God of Slaughter

Chapter 1375: Boldness of Vision

When the old man and woman showed their real shapes, they didn't look different from human beings. They were different from the aliens with peculiar shapes in the trading zone.

Audrey had soon guessed that the old woman had disguised herself. Thus, when she saw her in the appearance of a tender and graceful woman, she wasn't really surprised.

While Shi Yan was breaking the spatial lock, his co-soul had discreetly listened to their conversation. He understood the truth, so he wasn't startled.

“You're useless, woman. You made me locked there for a long time!” The old man rolled his eyes and then turned to observe Shi Yan. He was surprised as he spoke, “This little boy is at just Incipient Realm, but he can unlock the spatial lock?”

The woman he called Ya Yun was smiling. “They're from Desolate Territory. This kid doesn't have a profound realm, but his competence isn't bad. He just used one Congealing Divine Pellet to open the lock.”

Pausing for a while, she turned to Shi Yan, smiling. “How do you feel? That spatial lock has so many marvelous formations with hidden mysteries of Space power Upanishad. As you opened it, I suppose it was a great help to your realm?”

Shi Yan bowed and greeted him. “With the mysterious power Upanishad knowledge inside the lock, it's enough for the payment this time. Moreover, I got a big harvest already with the remaining Congealing Divine Pellet.”

Half of the hundreds of marvelous formations inside the spatial lock were something he had never seen before. His unlocking process was some sort of new cognition to this power Upanishad. He felt really good as he knew that his Space power Upanishad had increased greatly.

Thus, he thought that he was the one with the biggest benefit and it wasn't good to ask for Fantasy Boundary Stones.

“If I say I won't mistreat you, I definitely won't! People of our Mysterious Sky Clan always keep our words!” Ya Yun snorted and snapped her fingers. Seven Fantasy Boundary Stones flew towards Shi Yan.

Shi Yan was perplexed for a while. He smiled, “Thank you!”

He rose his hand to grab the Fantasy Boundary Stones. They disappeared into his Incipient Extent. He had stashed them in a special slot.

“If you want to use the Fantasy Boundary Stones, you need to refine them once to imprint your soul seal into the stones. That's how you can control them,” explained Ya Yun.

When she and Shi Yan were talking, the old man didn't say anything as he eyed Shi Yan. Suddenly, he flashed and grabbed Shi Yan's hand quickly. An extremely hot water current inundated Shi Yan's body.

Shi Yan discolored. He immediately urged his power to prepare to counterattack. Then, he found that the hot stream wasn't harming him. It seemed to survey his body. He just frowned and did nothing.

"Hey old man, what did you find?" asked Ya Yun.

The old man let off Shi Yan's hand. His eyes became complicated and showed a combination of inexplicable and even fearful feelings. After a while, he gave a forced smile. "You silly woman. You don't know how profound this kid's life form has reached. He's not weaker than us. Perhaps, he's one level higher than us, though."

Ya Yun was frightened. "How could it be?"

"Nothing is impossible," the old man took a deep breath. Then, he turned to Shi Yan and introduced himself seriously. "I am Tu Shi Qi. She's my old wife, Ya Yun. We're from the Mysterious Sky Clan. We have the same realm, which is Third Sky of Immortal Realm. Nice to meet you. Yeah also, if you're interested, on behalf of the Mysterious Sky Clan, I can invite you to become our Nonnative Officer (*) of our clan. You will receive the benefits we have for our Nonnative Officers."

(客卿: Nonnative officer – archaic rank to people from vassal states that held an officer position in the country.)

"Hey old man, are you crazy? The Nonnative Officer position in our clan isn't something he can be in charge of. No Incipient God Realm expert is qualified to do that. If the seniors know you've made such an offer, they will think you have a mental problem. They absolutely won't approve that!" cried Ya Yun.

In their Mysterious Sky Clan, a Nonnative Officer was a noble, high rank that only the super alien experts could hold.

Each of the Nonnative Officers of the Mysterious Sky Clan had a special token to show their special identity. When they moved around the Sea Domain of Nihilicity or the other territories, they could receive exclusive treatments. All members of the Mysterious Sky Clan considered them as distinguished guests. They received strange and rare cultivating materials periodically. They were able to learn and search many secret techniques and documents that only high ranked members of the Mysterious Sky Clan could learn.

In the vast sea of stars, many experts at Second or even Third Sky of Immortal Realm and the chiefs of the third-class or second-class clans weren't qualified to become Nonnative Officers of the Mysterious Sky Clan.

Although Tu Shi Qi had the authority to invite someone to be the Nonnative Officer, he still needed permission from his seniors. If he acted rashly, his superiors would think that he shouldn't be in charge of such important roles.

Thus, Ya Yun was perplexed. She didn't know why her husband suddenly gave such an official offer to a boy at the Incipient God Realm.

“I’m not crazy. I’m placid and extremely lucid! I know what I’m doing!” Tu Shi Qi snorted and then talked honestly, “As long as you nod your head, I’m sure you can break through to the Immortal Realm quickly. Although our clan doesn’t have many Immortal Pellets left, I’m sure I can give you two! Except for the Immortal Realm, I can give you twenty Congealing Divine Pellets, girls and lands in our star area. We can even give you a piece of land in the Sea Domain of Nihility!”

“You’re crazy! You must be crazy! How many Immortal Pellets does our clan have? They are to prepare our later generations in the clan. Do you think you can ask them for it?” yelled Ya Yun.

Audrey was also surprised. These two were from the Mysterious Sky Clan, one of the seven strongest clans in this vast universe. Also, they were at Third Sky of Immortal Realm. With their identities and competencies, why did that old man suddenly act strangely and offer Shi Yan such nice things?

She couldn’t make head or tail of it.

Shi Yan was baffled. He asked bewilderedly. “Precursor, is there anything you misunderstood?”

“Misunderstood?” the old man laughed oddly, his eyes bright. “This is an expert predestined to reach the Territory Ancestor level in the future. Is he worth our special treatments?”

“Predestined to reach the Territory Ancestor level?” Ya Yun screamed ear-piercingly. “And you said that you’re not crazy! In this immense sea of stars, in countless territories, we can count the Territory Ancestor level experts with our fingers! You and I are at Third Sky of Immortal Realm, but we don’t know how far we need to go to reach that realm. Perhaps we will never be able to do that. What qualities does he have? Dragon Lizard has been stuck in his Peak of Immortal Realm for how many thousands of years? He doesn’t have a chance to break through. This boy is predestined to enter the Territory Ancestor level?”

“If he learned and controlled Dark Energy, Dragon Lizard should have broken through already. The toughest challenge to enter the Territory Ancestor level is to control Dark Energy,” Tu Shi Qi wore a stern face as he shouted in a low pitched voice. “He has Dark Energy!”

Listening to him, Ya Yun shut her mouth. Her face was fearful when she looked at Shi Yan.

Tu Shi Qi opened his mouth wide and laughed, “This young fella is tender. He hasn’t reached his maximum potential yet. Otherwise, I couldn’t have found him. Your life form is already marvelous. And you know Dark Energy. As long as you could master combining complicated power Upanishads, an Immortal Pellet is enough to help you advance one step!”

“Precursor, you have keen eyes,” Shi Yan was convinced.

What he admired were Tu Shi Qi’s keen vision and imposing manner. As soon as he found Shi Yan’s mysterious features, he didn’t hesitate to offer many excellent benefits like the Nonnative Officer position, two Immortal Pellets, dozens of Congealing Divine Pellets, beautiful ladies, and their lands in the Sea Domain of Nihility. This old man was fiercely resolute, indeed.

“How could it be? How come? He’s at Incipient God Realm. How could he learn the Dark Energy? It’s unfair.” Ya Yun muttered. She trusted her husband. Now, she finally knew why Tu Shi Qi suddenly acted so crazily.

A Nonnative Officer who was predestined to enter the Territory Ancestor level was enough for her clan to pay such a big price. She immediately recognized her husband's boldness.

"What do you think?" Tu Shi Qi eyed Shi Yan.

"Right now, I can't accept anything. Give me time to think about it. Anyway, I'm sure I can agree with you one thing. If I want to choose any side among the Seven Great Clans, I will definitely choose the Mysterious Sky Clan!" Shi Yan looked pensive for a while and then answered.

He was afraid that if he didn't give them a satisfying answer, Tu Shi Qi would cruelly destroy him and Audrey. He could do that to prevent Shi Yan from turning to the opposite side against the Mysterious Sky Clan when he got stronger. If that happened, what they got wouldn't make up for what they'd lost.

"You're cautious enough, but we're not the sort of people you think we are. No matter what, you saved me. Even if you don't accept my proposal, I won't harm you." Tu Shi Qi laughed and patted Shi Yan's shoulder. "You're a marvelous kid. I know it's really good for our Mysterious Sky Clan to be friends with you. Anyway, the Soul Clan likes extreme deeds, but not us. It's our reputation. You'll get it later."

Shi Yan smiled and didn't say more.

"Ya Yun, what did you plan to pay him?" Tu Shi Qi turned around and asked.

"A set of armor our clan fabricated."

"No need," he shook his head. "The rigid body of this kid is beyond your imagination. The armor can't help him much. Oh right. They're new here, so they don't know the Sea Domain of Nihility yet. Hmm, so..."

A bunch of silver beams bloomed from his sleeve. A brilliant compass emerged. He gave the compass to Shi Yan and said, "It's our clan's Heavenly Fantasy Star Compass. It's a great compass to use in the Sea Domain of Nihility with many landmarks. With this item, you will know which way to go, which places to avoid, and which forces the territories belong."

"Old man, you're too generous this time. This Heavenly Fantasy Star Compass isn't easy to produce. There are not many people who could keep it in our clan," said Ya Yun. When she looked at her partner, she admired him more.

The resolute boldness of this old man always made her admire him. This kind of attractiveness wasn't related to age and it was never going to fade.

After receiving the Heavenly Fantasy Star Compass, Shi Yan's Soul Consciousness moved. His eyes sparkled beautifully. When his Soul Consciousness came inside the compass, he felt like he had just entered a miniature universe where he found many regions in the Sea Domain of Nihility with detailed remarks about the special or dangerous features in the area. This star map was so lively and extremely exquisite.

This was the best tool for him and it was also the top treasure that the other clans had yearned for.

"Precursor, your bold visions and imposing manner impresses me!" Shi Yan held the Heavenly Fantasy Star Compass and said sincerely. His first impression about the Mysterious Sky Clan was strangely good because of the married couple Tu Shi Qi and Ya Yun.

Chapter 1376: Reflected Glory

1376 Reflected Glory

Translator:Sigma_ Editor: SSins

The Fantasy Boundary Stones, the Congealing Divine Pellets, and the Heavenly Fantasy Star Compass were very extraordinary. A warrior cultivating Space power Upanishad like him could create a small world to imprison his enemies after refining the Fantasy Boundary Stone. He could even detonate it to kill or wound his enemies.

The Fantasy Boundary Stones were really useful. If he used it smoothly, he could even kill the Immortal Realm expert.

The Congealing Divine Pellets could restore his power instantly. He just needed to swallow one pellet to get abundant God energy. It was also an excellent tool in fighting.

Of course, the most precious item was the Heavenly Fantasy Star Compass that the Mysterious Sky Clan had produced. The group of stars in the compass represented the vast galaxies in the real world. With this compass, he finally knew which direction to go. He wasn't going to get lost anymore.

Moreover, the Heavenly Fantasy Star Compass had detailed remarks and descriptions of each of the special areas.

For example, the Heavenly Fantasy Star Compass had a paragraph written in the popular language to describe his current location: Dragon Lizard Clan's territory. This clan is a second-class race. Leader Dragon Lizard is the second generation of Lizard, the Absolute Beginning creature at the Peak of Immortal Realm. He just needs to understand Dark Energy to break through to the Territory Ancestor level. Dragon Lizard has a good relationship with Singh of the Soul Clan, but the real situation was unknown.

The Mysterious Sky Clan had similar descriptions for every area. When Shi Yan and Audrey traveled in the Sea Domain of Nihilicity, they could know the general situation of others and the features of special areas to dodge dangers. With this compass, they could find safe routes. The value of these exclusive records of the Mysterious Sky Clan couldn't be measured.

To create a good relationship with Shi Yan, Tu Shi Qi had gifted him the Heavenly Fantasy Star Compass. Shi Yan admired his boldness and wisdom a lot.

Thus, his impression of the Mysterious Sky Clan was extraordinarily good.

"Precursors, there's something we hope you could pay attention to," Audrey arched her brows. As the situation was right, she tried to talk to them. "The brutal soul called Ming Hong that Singh has refined is a precursor from my tribe. He knows the entrance to our Desolate Territory. If you can kill Singh..."

Then, she turned to look at Shi Yan because she understood that Shi Yan's words were heavier than hers.

Shi Yan was startled, but he reacted timely. He said sternly, "What my wife is talking about is also what I want to say. Ming Hong is an expert from Desolate Territory. He knows the entrance to the territory and we're lost. We don't know how to get back there. Through Ming Hong, perhaps we can find the way home."

Ya Yun had considered Audrey and Shi Yan a married couple right from the beginning. If he didn't clarify his relationship with Audrey, these two old people weren't going to take Audrey's words seriously.

Audrey had only First Sky of Incipient God Realm and she didn't have Dark Energy. To the Mysterious Sky Clan, Audrey wasn't special and she couldn't draw their attention. As long as he associated Audrey with him, they would notice Audrey.

Audrey was a smart woman. She knew that Shi Yan called her his wife just to make her earn respect from others. However, she had never been treated like that. For the time being, she felt anxious and annoyed, but her face was still calm and natural.

She didn't clarify their relationship and just calmly accepted as if it was true.

Indeed, Tu Shi Qi, who didn't bat his eyes at her, was startled when Shi Yan called her his wife. He smiled until his eyes squinted. "Your power Upanishad is similar to the Soul Clan. You need powerful souls to increase your power. Oh right. I happen to have some good souls. Take them as my welcoming gift."

A lush green ball flew out of Tu Shi Qi's sleeve. The wisps of soul twirled inside the ball. They could even hear the distant screams of the soul. The ball flew one round and then fell on Audrey.

Audrey was shocked. She was baffled as she looked at the green ball. She pried, "Five souls at Incipient God Realm?"

Tu Shi Qi grinned fiendishly and nodded, "Two First Sky, two Second Sky, and one Third Sky of Incipient Realm. Yeah, they are all members of the Soul Clan. Their souls are famous for being tough in the galaxy. I can't erase their Soul Consciousness. When I have free time, I torture them for fun. If you can extract their Soul Consciousness, it will benefit your realm greatly."

The Mysterious Sky Clan and the Soul Clan didn't get along well. Shi Yan got that from the fact that Tu Shi Qi and his wife had attacked Singh. As Tu Shi Qi was at Third Sky of Immortal Realm, it was easy for him to kill Incipient God Realm experts of the Soul Clan. Tormenting them in his free time was also a way to vent out his rage.

Shi Yan concentrated on sensing for a while, his face respectful. "This gift of yours is really heavy. We don't know how to thank you enough."

The five souls of the Soul Clan were more precious than the three souls that Shi Yan had exchanged by the Wind Thunder Stones because they belonged to the members of the Soul Clan with full memories and consciousness. If Audrey could refine them and extract the memory of the power Upanishad, she could get the knowledge of the special power Upanishad that the Soul Clan cultivated.

The Soul Clan was one of the Seven Great Clans and they always led people who cultivated Soul power Upanishad. Desolate had used the Soul Clan to create Imperial Dark Tribe, so they were very powerful. If Audrey refined the five souls of the Soul Clan, it would be possible for her to break through to the Immortal Realm!

This gift to Audrey was really precious. He turned to look at Audrey and saw her soft body shivering. Her eyes brightened when her jade-like hand received the green ball. Then, she clutched his arm and beamed gorgeously. "Thank you for your precious gift, precursor. I will help you control him. He will go the same way with your Mysterious Sky Clan."

"You're a smart girl, haha." Tu Shi Qi laughed loudly.

To him, the five souls of the Soul Clan weren't worth mentioning. They were nothing compared to the Heavenly Fantasy Star Compass. However, they could benefit him by gaining a good impression from Audrey, which could affect Shi Yan too.

When Audrey refined the souls of the Soul Clan members, she would stand on the side against the Soul Clan and so would Shi Yan. They would become archenemies. If Tu Shi Qi could create an enemy at the Territory Ancestor level for the Soul Clan, it would be a big favor to his Mysterious Sky Clan.

"We will watch out for the brutal soul called Ming Hong. However, the chance isn't big, you know. When we join hands, we can only battle against Singh, but it's impossible to kill him. We're at Third Sky of Immortal Realm only. He's at the Peak of the Realm anyway. We have to discuss more," said Ya Yun.

Audrey let out a low sigh.

Shi Yan had a wide vision. With the Heavenly Fantasy Star Compass, he wasn't afraid that they couldn't return to Desolate Territory soon.

The Sea Domain of Nihilism had brought him many surprises. He thought that he could stay here for a while to cultivate to a more profound realm. After that, he could be more powerful when he returned to Desolate Territory. With his current competence, even if he could return to Desolate Territory now, he wasn't an equal match to any Absolute Beginning creature.

"Oh right, precursor. Do you know how to refine the Absolute Beginning divine weapon?" Shi Yan pondered for a while and then asked.

That three-legged jade cauldron gave him a feeling that something was wrong. It had hidden inside the asteroids to fly here from somewhere unknown. At this moment, it should be inside Dragon Lizard's stomach. At his Peak of Immortal Realm, how could he not recognize it? Obviously, that three-legged cauldron got into Dragon Lizard's stomach on purpose. What did it want to do to him?

Shi Yan felt that it was really abnormal. The wisp of Soul Consciousness he had left on the cauldron faded. Soon, he was going to lose connection with it.

"Refine the Absolute Beginning divine weapon?" Tu Shi Qi was dumbfounded. "Why do you ask that?"

Shi Yan frowned. He hesitated for a long time before speaking, "I admire and respect you for your boldness and wisdom. I will tell you what we saw on the way here. We..."

He told them about the three-legged jade cauldron. He thought that it was impossible to refine that divine weapon from the Absolute Beginning Era. As Dragon Lizard had swallowed it, he couldn't take it out or enter Dragon Lizard's body to refine it. He would rather know the profile of the divine weapon than refine it.

After Shi Yan had finished, Tu Shi Qi and Ya Yun were speechless for a long time. Their faces were aghast.

After a long time, Ya Yun took a deep breath. "It seems like the Soul Clan isn't nice to Dragon Lizard anymore. They have schemed against him. If Dragon Lizard doesn't show his viewpoint, he will be finished."

Tu Shi Qi looked pensive. Seeing Shi Yan not get the idea, he said, "If I'm not wrong, that massive cauldron is a marvelous treasure of a Territory Ancestor level expert of the Soul Clan. Singh borrowed it to deal with Dragon Lizard. It hid inside the asteroid to get into Dragon Lizard's stomach. Once Dragon Lizard doesn't want to follow them, that jade cauldron will suck his soul and increase its power."

"Dragon Lizard doesn't know this, I guess," Ya Yun's eyes brightened. "Hey old man, we got this kid's reflected glory to know this. If we tell Dragon Lizard about this now, will it make him join hands with us to deal with Singh?"

"It's possible!" Tu Shi Qi was shaken.

"If we can persuade Dragon Lizard to join us and deal with Singh and if we prepare well our ambush, it's a big chance to kill Singh! Ming Hong of your Desolate Territory will be freed too," Ya Yun was excited as she rubbed her fists. "If Singh dies, it will be a hard punch to the Soul Clan's face. If Dragon Lizard joins this, he will have to go on the same road as our Mysterious Sky Clan."

"Little buddy, you're our lucky star! It seems like it was our fate to meet you," Tu Shi Qi laughed and then said, "Yeah, we should meet Dragon Lizard to talk about this. Oh. Maybe you should do it, Shi Yan. It's not convenient for us to show up there."

"Me?" Shi Yan was surprised.

"Yeah, you try it. Shortly after, the Dragon Lizard Clan will announce that anyone who knows about Dark Energy can meet Dragon Lizard personally to exchange information for the Immortal Pellet. Dragon Lizard has been stuck in this realm for so many years. Even in his dream, he wants to know about Dark Energy to enter the Territory Ancestor level. Of course, his Immortal Pellet will be used at a crucial spot," said Tu Shi Qi.

"Alright, I will run errands for you, precursors," Shi Yan was moved, so he agreed with their suggestion.

[God of Slaughter](#)

Chapter 1377: Lost

18+

Tu Shi Qi and Ya Yun couldn't expose themselves before Dragon Lizard knew the dark scheme of the Soul Clan because of their special identities. Once they showed themselves, the Soul Clan would attack them and the Dragon Lizard Clan could join that attack too.

Anyway, on the surface, people knew that the Dragon Lizard Clan and the Soul Clan had a good relationship and so did Dragon Lizard and Singh.

Before they tore their masks and revealed themselves to the Soul Clan, they would stay with them to deal with Tu Shi Qi and Ya Yun. Because of this Ya Yun had to conceal her identity and power and stay in the third-class zone.

If they showed themselves before they could see Dragon Lizard, the members of the Dragon Lizard Clan could possibly sell them out to the Soul Clan. Thus, Shi Yan had to work on it. He would contact Dragon Lizard and tell him about the Soul Clan's dark move, which would make Dragon Lizard hate Singh. Then, they could carry out the next step.

Because the delegations that were supposed to visit Dragon Lizard Star this time hadn't fully come, the Dragon Lizard Clan hadn't held the festival yet. Also, they hadn't announced the requirement to exchange for Immortal Pellets. Tu Shi Qi and Ya Yun decided to stay in their cave and wait for Shi Yan's good news.

Shi Yan and Audrey had left for a long time, so they didn't know the situation of the Heavenly Eye Clan. They told Tu Shi Qi and Ya Yun the location of their cave and then bid farewell.

They returned to the cave where the Heavenly Eye Clan lodged, but Yvelines, Adams, and Misha hadn't come back yet. Without thinking a lot, they rested in the stone rooms and prepared to check their harvest while waiting for the other three.

The stone room was pretty simple: its walls didn't have any patterns or decorations. It had only a stone table, some stools, and a stone bed with a cattail hassock cushion.

The ones cultivating martial arts didn't really notice the matters of the mortal world. At the same time, the Dragon Lizard Clan was famous for their wild style. Of course, they wouldn't offer many luxury treatments to the others. Anyway, the Dragon Lizard Clan had to treat the Soul Clan and the Water Tribe with more care.

Audrey sat down cross-legged on the stone bed, her eyes sparkling as she smiled.

Shi Yan stood by the stone table. A Fantasy Boundary Stone fell on the table. He released his Soul Consciousness and sent it into the Fantasy Boundary Stone to imprint his Soul Seal. That way, he could control the Fantasy Boundary Stone as he pleased.

He had to treat the seven Fantasy Boundary Stones that way. Later on, he could use the Soul Seal to control them.

After Shi Yan had imprinted his Soul Seal, when he sent a wisp of his God power into the Fantasy Boundary Stone, it glowed and ballooned like a hot air balloon. Shortly after, a small world was created.

He grinned and nodded but didn't pump more God power. He liked those Fantasy Boundary Stones and they were actually very suitable for him.

Suddenly, Audrey's beautiful eyes sparkled strangely. She thinned her lips as she said gently, "Thank you."

Shi Yan lifted his head to look at her with a smile.

After Audrey had returned to the cave, she had showered and changed into a silver silk dress. Her long hair draped around her porcelain shoulder was still wet. The stone chamber was filled with her sweet,

after-shower aroma. A bead of water rolled on her jade-like cheek and her eyes were like the cold moon.

People who didn't know her saw her as a cold, distant, and arrogant woman, and she actually treated them that way. However, at this moment, she looked calm and a little shy. She stooped, gritted her teeth, and then muttered. "Today, Your strength and glory gave me a big harvest. It's really helpful to my cultivation base and realm. I'm very thankful..."

The cave was quiet, so even though her voice was low, it still echoed clearly.

Putting aside the Fantasy Boundary Stone, Shi Yan grinned and looked with ease and natural poise. "It's somehow our fate when we were delivered to this Sea Domain of Nihility. Only you and I are from the same territory in this place. We know each other so we should take care of each other. Hmm, you're thankful. How do you want to thank me?"

He just teased her a little bit to get rid of her lesser feelings.

After they had got to the Sea Domain of Nihility, the proud woman of Imperial Dark Tribe had gradually recognized the truth. She finally knew that the Four Great Creatures in Desolate Territory were nothing here. She knew that it would be a difficult struggle to survive with her Incipient God Realm in the Sea Domain of Nihility. In this place, she had to depend on Shi Yan completely. It was devastating to her pride.

It was the first time she felt lesser. Although she concealed it well, Shi Yan was sensitive enough to realize it.

"How do you want me to thank you?" The beauty lowered her head, her picturesque brows shivering. She was so anxious.

"Kiss me," Shi Yan grinned.

A silver light crossed the room. The charming aroma stormed into his nostrils as he hadn't reacted and a soft, fragrant body leaned against his body. A tinge of a soul-taking feeling appeared on his left cheek. Then, he heard the beauty murmur, "Are you delighted now?"

Shi Yan was dumbstruck as he looked at the glamor coming to him. She was wearing a silver silk dress, which shrouded her dazzling, graceful body. Her slender thighs and shoulders were like white jade. She was a little shorter than him so when he stooped, he could see a mesmerizing, deep valley in her chest.

At this moment, Audrey wasn't as cold and arrogant as she usually was.

Her neck reddened. She closed her eyes and didn't dare to look at him. Her pretty long eyelashes batted and showed her extreme anticipation. Obviously, she was really naive. This sudden kiss had consumed all of her courage. Now, she felt so awkward that she didn't know what to do next.

Audrey's charm at this moment made Shi Yan gone wild. His eyes became hot like a surging, boiling sea!

The loneliness while staying in the Sea Domain of Nihility, the pressure from the Seven Great Clans, the unknown, misty future... all blended together now. Halting for a few seconds, Shi Yan's breathing became short. He abruptly pulled the beautiful woman onto his chest and began to nibble at her white

neck. He placed his hands on her magnificent, slender thighs, lingering and wandering between her rear end and the mysterious land between her thighs.

“Hmm. . .”

The beauty blushed, her body shivering as if she got electrocuted. Her lips slid out murmuring sounds as if she was dreaming. She became so feeble and helpless in his embrace and was completely lost.

That year, after she had gotten home from Desolate, her inner lake often reflected a hunky, strong figure...

Thus, she had carefully investigated that man. She didn't even know why she wanted to do that. She just wanted to know his past, his whereabouts, and what he had experienced.

She knew he had a lusty head. At that time, she was outraged she didn't know why. The stories about that man were spreading in her tribe. On Tsunami Star, she had witnessed the battle between him and Haig. Seeing the most dazzling member of the young generation of the God Clan fall and that man rise, the shadow in her heart was carved even deeper.

There was something that had intruded her inner sea and stayed there so persistently that she could never wash it away.

In her eyes, only one man in the vast Desolate Territory had touched her heart. It was too bad that he was an excessively loose guy. Her innermost feelings conflicted. She had forced herself not to think about him a lot and just let it go.

Until... Until they came to the Sea Domain of Nihilicity where everything was so strange, deadly, and dangerous to them. She had only him at her side. She had no more acquaintances from the Desolate Territory in this area. There was no restriction from her mother, her tribal members, and eyesore ladies around him...

In this place, she could relax her innermost feelings and let herself immerse in it...

Shi Yan held her tight. His wide mouth slid from her exquisite neck to the deep valley on her chest. The body in his embrace became so hot and sexy as if a current of electricity was shot in him. He didn't know why he had an extremely wonderful feeling when he had her in his arms. He never had such a feeling before.

It felt like even their souls were united in one that could generate marvels that nothing could compare to.

His hands unceasingly explored her plump, porcelain body under the silk dress. His breathing was short and loud like a beast's. Slowly, he felt like he couldn't control himself anymore.

However, when he was about to collapse and take the glamor to the stone bed, the cave entrance opened.

Yvelines' voice arose. “Oh, you guys are back?”

Audrey was awakened from her dream. She shivered and moved clumsily as if her limbs didn't belong to her anymore. Her face was so red that it looked like it was about to drip blood. She jolted onto the stone

bed, paralyzed on the bed like a muddy puddle. Her dress opened at her chest and revealed half of her ample, milky breasts. The fabric of her dress was lifted to her thigh and her lower abdomen was a damp zone.

“Get out! You should get out first!” Although she had tried to cry, her voice was so powerless. Both of her hands moved clumsily to pull her dress to cover her chest and her sexy thighs. She looked so embarrassed and helter-skelter. Her watery eyes had a layer of mist, which made her like a dream or a picture.

Gulp!

Shi Yan felt his blood boiling. He couldn't help but gulp.

Taking several deep breaths, he urged his power to send a cold energy current down his body to cool down. Resuming his normal condition, he eyed the girl balling her doughy body on the stone bed. “I don't know why you attract me more than anybody else! It's unimaginable!” Shi Yan said, his voice husky.

Audrey was still shivering as if electric currents were continuously running through her body. Her beautiful eyes were filled with light waves. She used the same method to cool down. Then, with her gritted teeth and blushed cheeks, she said, “I... I don't know why I couldn't resist. Your deeds had made me immersed and completely lost. I think it may relate to our soul fusing with the Origin of the ancient continent. It's inexplicable.”

Then, she bit her lower lips and hissed, “Get out, quickly! They're here. We will talk about this later. I don't want them to see me like this!”

Shi Yan grinned and then left the stone room, returning to the common room outside.

As soon as he left, Audrey felt so soft as if she didn't have a spine. She was helpless and her heart was beating frantically. She clutched her breasts and thought about what just happened. An unknown flame rose inside her once again.

“Is this what a relationship between a man and a woman is like? It's really strange. It makes people lose their control.”

Mesmerizing lights moved in her eyes. She had so many thoughts crossing her mind. She just sat there for a long time as if she had sunk into illusions that she couldn't escape

Chapter 1378: The Fascinating Divine Eye

Inside the spacious stone common room, Yvelines, Adams, and Masha winced. Seeing Shi Yan walk toward them, they reluctantly smiled to greet him.

Shi Yan noticed a shadow flash and disappear in front of the cave. It seemed to follow the three to their lodge.

“Did you get anything nice?” Masha sat at the table and poured herself a cup of water. She finished it in one gulp and then asked Shi Yan.

“Yeah, we got something,” smiled Shi Yan.

Right when he finished, he was startled when he looked at the cave entrance.

A member of the Dragon Lizard Clan at Second Sky of Incipient God Realm appeared by their door and called, “Can I come in?”

The members of the Heavenly Eye Clan looked tense. They urged their God power, their faces grave.

“Come in,” Yvelines spoke cautiously and winked at Shi Yan to make him more cautious.

That Dragon Lizard clansman was around three meters tall. He looked like a rock with a lot of muscles. While moving, his long spiky tail dragged on the ground and created an ear-piercing noise.

After the lizard walked through the door, he talked to Yvelines’s group with a heavy face. “I suggest you guys leave as soon as possible. The members of the Earth Ghoul Tribe knows your location. I’m afraid they will act against your will.”

“We’re in your Dragon Lizard Clan’s territory. You can’t even ensure our safety? We’re invited here. Just a small problem and you show us this face?” Masha was outraged and she screamed.

Shi Yan didn’t say anything. He didn’t know what had happened, so he turned to ask Yvelines.

“Oh, we also have some items to trade. While we were in a bustling area, a member of the Earth Ghoul Tribe was interested in one of the items, but he didn’t have the materials we wanted. He forced us to trade with something we didn’t want. So we quarreled,” explained Yvelines.

“Earth Ghoul Tribe?” Shi Yan frowned.

After he had received the Heavenly Fantasy Star Compass from Tu Shi Qi, he had taken a look of the surrounding areas. The Heavenly Fantasy Star Compass had a record about this tribe.

He knew that Earth Ghoul Tribe controlled the area closest to the Dragon Lizard Clan. In this vast sea of stars, the Earth Ghoul Tribe was a second-class clan. The forefather of the tribe was at Third Sky of Immortal Realm. Although he wasn’t as powerful as Dragon Lizard, he was famous in the surrounding areas.

The most important information about this tribe was that Earth Ghoul Tribe was the Soul Clan’s loyal watchdog. The ancestor of Earth Ghoul Tribe used to be a servant of a strong expert at the Territory Ancestor level in Soul Clan. His master had bestowed him the power Upanishad, which he had cultivated to Third Sky of Immortal Realm. When he returned to Earth Ghoul Tribe, he called himself their forefather.

Thus, Earth Ghoul Tribe stuck to the Soul Clan. Rumors said that Earth Ghoul Tribe’s ancestor had returned to his tribe because he was assigned to watch over the Dragon Lizard Clan, which was next to their tribe. His mission was to persuade Dragon Lizard to unite with the Soul Clan.

The Heavenly Eye Clan was just a small, third-class race. It wasn't as strong as Earth Ghoul Tribe and it didn't have a strong foundation. If they had a dispute with Earth Ghoul Tribe members, they wouldn't get any support.

"After that Earth Ghoul Tribe clansman left the scene, he immediately went to another area. I think he must have reported to the experts in his clan. Earth Ghoul Tribe and the Soul Clan have a close relationship. This time, Commander Singh of the Soul Clan is here too. We... It's really hard for us, you know. You guys exchange the Fascinating Divine Eye to him or you better leave now. Otherwise, I'm not sure if our Dragon Lizard Clan can protect you."

The guard of the Dragon Lizard Clan reluctantly talked them out of it and then left hastily. He told them to consider the matter carefully.

"The Fascinating Divine Eye? What's that?" Shi Yan frowned, "Why does that Earth Ghoul find your eye interesting?"

"This eye," an eye emerged on Masha's palm. The eye was a rhombus, pink crystal, which was so beautiful and full of sparkling energy that could enchant people. "It's the third eye of a precursor in our clan. After she passed away, we kept her eye. This eye can fascinate people and make them tell secrets they hide in the bottom of their hearts. That man said that he wanted to give this eye to the Commander of the Soul Clan. He knows that it's very useful, so he forced us to trade the eye to him."

Crack!

Audrey's closed door sprang open. She had resumed her cold, arrogant, and indifferent face. She had changed into a pure white dress. She emerged from the door and screamed, "That Earth Ghoul warrior wants to offer the Fascinating Divine Eye to Singh so Singh can use it to deal with Ming Hong from my clan! I'm sure they will do that!"

Shi Yan understood her idea. He complimented Audrey for her quick thinking that could connect the events together.

Singh had made Ming Hong the brutal soul. However, since Ming Hong also cultivated Soul power Upanishad, he had a special method to protect his memories. If he was attacked by the soul extracting technique, his soul would self-destruct. Singh wouldn't get anything from him then.

Of course, there was still a flaw in Ming Hong's plan. As long as Singh handed Ming Hong to the Territory Ancestor expert of the Soul Clan, at his supernatural realm, he could extract Ming Hong's memories without hurting his soul.

However, because Singh wanted to get the mysteries of Desolate Territory for himself and use Desolate to reach the Territory Ancestor level, he concealed this. He had to think about how to do it alone.

The Fascinating Divine Eye of the Heavenly Eye Clan was magical. It was a soul-enchanting weapon the could hypnotize the soul. Perhaps the Fascinating Divine Eye could be the key to deal with Ming Hong. That Earth Ghoul member followed Singh. Thus, when he found the eye, he was so thrilled that he wanted to force the others to sell it to him.

A lot of thoughts crossed Shi Yan's head. He understood this somehow subtle situation. "What cultivation base does that Earth Ghoul expert have? If he can take more reinforcements, what would their realms be?"

"That Earth Ghoul member is at Third Sky of Incipient God Realm so it's not really high. Thus, he's just qualified to do trading in our zone. Anyway, Earth Ghoul Tribe doesn't have only him on Dragon Lizard Star. If he dares to act brutally like that, he definitely knows that Earth Ghoul Tribe can beat us up here.

"Moreover, with the relationship between them and the Soul Clan, even if Earth Ghoul Tribe attacks us here, the Dragon Lizard Clan will pretend not to see anything. It's not easy for that guard to tell us the dangers. Sigh, I didn't expect to encounter such bad luck. Aishh, Earth Ghoul Tribe has targeted us."

Yvelines winced and contemplated. He was considering whether to leave Dragon Lizard Star or not.

"Shi Yan, we can ask..." whispered Audrey.

Because it was related to Ming Hong and Desolate Territory, she was very anxious. Immediately, she thought about seeking help from Tu Shi Qi and Ya Yun of the Mysterious Sky Clan. She thought that if the others helped them, it would be easy to destroy the people of Earth Ghoul Tribe.

Shi Yan pulled a stern face.

He knew it was crucial. If Singh found the location of the entrance to Desolate Territory, the Soul Clan would invade them immediately. They would never have a quiet moment. Even if Singh failed, more experts of the Soul Clan would come. When one fell, the next was going to come.

Because Desolate was divided into pieces due to its terrible wounds and because it controlled two divine weapons from the Absolute Beginning Era, the Territory Ancestor experts of the Soul Clan weren't going to let it slip away when they knew it.

Also, since Hui had awakened, Shi Yan didn't know what was going on in Desolate Territory. If the Soul Clan came, billions of lives dwelling in Desolate Territory were going to be eliminated.

"Can the Fascinating Divine Eye trick the Immortal Realm experts?" asked Shi Yan suddenly.

"Yes," Yvelines and Adams nodded and said in unison. "At least, we can't endure it. If we are fascinated, we can't resist for a long time."

"Try me," Shi Yan talked to Masha.

Masha hesitated for a while and then said, "You have to gaze at this eye. I will send my soul energy. You can't move your eyes away from it."

"Okay."

Masha held the crystal pink Fascinating Divine Eye close to Shi Yan's eyes and then urged her soul energy. The eye then emitted a charming pink halo. It looked like a dreamy, beautiful picture that was unveiled. Shi Yan was guided directly into that picture.

Shi Yan was lost immediately just like when he had immersed in Audrey's beauty. He didn't wake up, his breathing short and heavy. Gradually, his eyes didn't look lucid anymore.

It seemed like he had immersed in a romantic dream and he didn't want to get up or come back to reality.

Audrey looked uneasy. At this moment, Shi Yan appeared exactly like when they had just shared the passionate moment together, especially his moves. He looked lustful as if he had a girl with him and his hands were stroking her. Audrey turned awkward and annoyed.

"Enough!" She hissed.

Masha covered the light from the divine eye. Then, Shi Yan woke up from his dream. He shot Audrey a hot, keen look.

Audrey blushed and glared at him furiously. "You said that!"

Shi Yan was bewildered. He pulled himself together and admired the excellent eye. "We will not let Earth Ghoul Tribe get this eye. Absolutely not. Ming Hong has only his soul left. Even if his realm is higher, I'm afraid that he can't resist for a long time with only the soul form. We must be ready to counter the enemies."

"If Earth Ghoul Tribe comes here, they must be sure of something. I think we can't counter them," Masha said bitterly.

"It's okay. Just let them come here," Shi Yan took a deep breath, his face stern and cold. "If they dare to come, I have a plan to kill all of them unless they've reached Third Sky of Immortal Realm. However, if they got experts at such a level, we still have a strong backup. Then, after we kill the members of Earth Ghoul Tribe, I will contact the Dragon Lizard Clan immediately and tell them that I understand Dark Energy. I'm sure that the forefather Dragon Lizard will have to protect me!"

Audrey's eyes brightened. "What do you want to do?"

Shi Yan looked at the stone room and said, "The Fantasy Boundary Stone. If we know their motivation, we can set up a trap. They will step into our trap!"

"Can the Fantasy Boundary Stone kill Second Sky of Immortal Realm experts?" Audrey was surprised.

"I'm not sure. However, it's not a problem if we just wound them. We can try."

"Okay then. We're going to wait for the members of Earth Ghoul Tribe to come and provoke us. After that, we will teach them a bloody lesson!"

[God of Slaughter](#)

Chapter 1379: 10 Great Territory Ancestors

Dragon Lizard Star.

In the middle of the well-lit palace underground, many members of the Earth Ghoul Tribe were operating. Members of this tribe had green faces and yellow fangs, which made them more like demons. They lived underground year round and they hated light. Thus, their features were dark and sinister with bloodthirsty deeds.

The members of the Earth Ghou Tribe were really short. They were as tall as ten-year-old human kids. However, their bodies were tough and full of cold Yin. Most of their power Upanishads were malicious.

Currently, an Incipient God Realm Earth Ghou expert ran to this palace where the Dragon Lizard Clan accommodated the Earth Ghou Tribe. He met the leader of the tribe coming here this time. He screamed excitedly. "Sir Barago, I have good news. It's very useful for you!"

Inside the palace, Barago of the Earth Ghou Tribe at Second Sky of Immortal Realm was the head of their delegation to the Dragon Lizard Clan this time. He was one of the hotshots under the forefather of the tribe.

Barago's eyes were white-gray and it gave people a heavy impression of death. He snorted and said impatiently, "I need to meet up with the Soul Clan quickly. If you have any news, you better report quickly. Don't waste my time."

"Sir, as you've ordered, I've always paid attention to the treasures that can affect or control the soul. When I visited the trading zone of the third-class clans, I found that the Heavenly Eye Clan was selling a Fascinating Divine Eye. They said that the eye could even hypnotize the soul at the Immortal Realm..."

He hurried to report the situation, his eyes yearning. He looked at his master and assured him, "I've tested it. It worked well. I got fascinated immediately. However, I didn't have the materials they wanted to trade and I couldn't force them to give it to me, so I came to report it to you."

"The Fascinating Divine Eye?" Barago was surprised. He was excited as he nodded inwardly.

He knew that the members of the Heavenly Eye Clan were born with a third eye with magical effects. It wasn't some sort of power Upanishad but an innate supernatural power. The power of the eye increased as the warrior's realm increased.

Sometimes, the power of the third eye remained even after the owner died. The members of the Heavenly Eye Clan would keep the magical eye of their deceased precursors to exchange for some special cultivating materials.

Barago was sent by the forefather of the Earth Ghou Tribe to work with Singh. Singh had told them to find something that could hypnotize people.

Singh had made himself clear that if Barago could find the top treasure that could function as he pleased, he would give him a lot of good rewards.

Singh was the General Commander of the Soul Clan and even the forefather of the Earth Ghou Tribe had to respect him. If Barago got his favor, it would be very good for him.

Barago was moved, his face more sinister. "What realms do the Heavenly Eye warriors have? Do you know where they are staying?"

"Sir, don't worry. I found them. Among their group of three, only two have reached First Sky of Immortal Realm and the woman is at Third Sky of Incipient God Realm. As long as you go there, we can take that fascinating eye as easily as flipping our hands. We won't encounter anything unexpected!" said the other.

Barago thought about it. He guessed that the area lodging third-class clans wouldn't have any strong warriors.

"Lead the way. We're going there!" His eyes raked around and shot a look at the two First Sky of Immortal Realm experts. "You two, come with me."

Barago's guard heard him, they stood up, and the four of them ran toward Shi Yan.

Shortly after, Barago took his men to the cave where Shi Yan's team was lodging.

Many members of other clans were staying near the cave. Seeing Barago at Second Sky of Immortal Realm come and recognizing him from the infamous the Earth Ghoul Tribe, they were frightened. They stayed as far away as possible from them. No one wanted trouble.

In this area, the Earth Ghoul Tribe was a clan that nobody liked to stay close to. They lived deep in the dark underground. They were abnormal and bloodthirsty, indeed. Also, they looked for revenge for the slightest grudge.

The Earth Ghoul Tribe wasn't weak and they got the Soul Clan, their master, behind them. They had troubled the other second-class clans a lot.

The Water Tribe near them especially hated the Earth Ghoul Tribe the most. However, the Water Tribe was afraid of the Soul Clan, so they didn't dare to confront the Earth Ghoul Tribe directly. In many cases, they had to press down their anger.

The guards of the Dragon Lizard Clan in this area were supposed to keep up security and control the situation. However, after Barago showed up, the Dragon Lizard guards reluctantly stepped back and hid in the caves. They observed the situation from the cave entrance.

The guy who had come to warn Yvelines was standing with his friends. With a heavy complexion, he shook his head. "I warned them. If they had left immediately, the Earth Ghoul Tribe wouldn't have caught them. Now, they can't leave even if they want to leave."

"Sigh, if the Earth Ghoul Tribe wasn't the henchmen of the Soul Clan, we would have killed them already!" said a guard of the Dragon Lizard Clan while looking outraged.

They knew that the forefather of the Earth Ghoul Tribe was assigned to monitor them. He often visited the Dragon Lizard Clan and asked Dragon Lizard to unite with the Soul Clan.

The Dragon Lizard Clan, the Earth Ghoul Tribe, and the Water Tribe dwelled near each other. Sometimes, they had minor conflicts, but the Earth Ghoul Tribe would use the Soul Clan as their backup to gain the upper hand. The Dragon Lizard Clan and the Water Tribe couldn't deal with the Soul Clan, so they had to yield most of the time.

Gradually, the Earth Ghoul Tribe's arrogance expanded. Recently, they had acted haughtily around as if they were the real overlords of this area.

This could be seen from their deed of attacking Yvelines' team while staying in the Dragon Lizard Clan's territory.

Since it was the area where third-class clans gathered, the warriors here, who weren't the Earth Ghoul Tribe's opponents, decided to stay away from trouble.

The Dragon Lizard Clan had to open one eye and close one eye, pretending to see nothing.

Of course, there was still an exception.

In a corner in front of Shi Yan's team, Tu Shi Qi and Ya Yun were watching the situation from their cave.

They had disguised themselves again. Ya Yun had changed back to her hag appearance. Tu Shi Qi didn't have a bald head anymore. Now, his hair grew lushly like a bush and he appeared as a filthy, ugly old man.

At this moment, they stood by their cave entrance while looking surprised.

"Isn't that cave where the two kids were staying? The Earth Ghoul Tribe is the Soul Clan's watchdog. Why did they come to find him? Strange. The Earth Ghoul Tribe has heard wind of our affair that quickly?" Ya Yun mumbled as she was bewildered. Then, she snorted, "If they dare to act rashly, we have to show ourselves to kill them!"

When they had fought against Singh, the forefather of the Earth Ghoul Tribe had supported Singh. After Tu Shi Qi got into the spatial lock as he got hurt severely, Ya Yun had had to conceal and disguise herself to run away. She had to be cautious because of the Earth Ghoul Tribe's ears and eyes. Along her way to Dragon Lizard Star, the Earth Ghoul Tribe had often troubled her. It filled her with indignation.

"Don't beat the grass. It will scare the snake," Tu Shi Qi shook his head. At the critical moment, he was placid. "On the surface, the Dragon Lizard Clan has a good relationship with the Soul Clan. If we're exposed and Dragon Lizard doesn't know Singh's plan yet, I'm afraid he'll join hands with Singh to deal with us. Then, our plan will be gone. We won't be able to escape safely."

"However, those two kids aren't an equal match to the Earth Ghoul Tribe. I'm afraid they will be killed instantly," said Ya Yun.

Tu Shi Qi had a strange halo in his eyes as he grinned. "You underestimated that kid. A warrior who has understood Dark Energy when he's pretty young won't be killed quickly and easily. Also, his life form has transformed. It's one level higher than ours. He's much stronger than warriors at the same realm. I think it's not easy for the Earth Ghoul Tribe to kill him."

Listening to him, Ya Yun looked bewildered. "You rarely appreciate a man that much. Even the outstanding juniors in our clan have never received your compliments. So, you think that he could defeat that Earth Ghoul Tribe expert at Second Sky of Immortal Realm with his Incipient God Realm? How could that be possible?"

"Well, if he confronts him directly, it will be impossible. However, if he uses his head... he'll still have a big chance," Tu Shi Qi smiled and comforted his wife. "Don't worry. We'll just watch from here. If things accelerate in the wrong way, I will take action immediately to kill the Earth Ghoul Tribe experts. Then, we will take that little couple out of Dragon Lizard Star as fast as possible!"

Taking a deep breath, Tu Shi Qi put on a serious face. "His life is more important than Singh's. Even if he can't become the Nonnative Officer of our clan, it's also useful for our clan when we can create an

enemy at the Territory Ancestor Realm for the Soul Clan. Muahaha, the warriors from Desolate Territory aren't as weak as people have rumored. There is someone extraordinarily powerful. It's just that not many people know about him."

"Have you ever met anybody from Desolate Territory?" Ya Yun was surprised.

Tu Shi Qi shook his head, "I've never seen anyone, but our clan has some records. A man called Bloodthirsty used to come to the Sea Domain of Nihilicity from Desolate Territory. He didn't stay in the Sea Domain of Nihilicity for a long time, so not many people know about him. A precursor of our clan used to mention him in a confidential record. He said that Bloodthirsty was very terrifying and could bring a destructive change to the Sea Domain of Nihilicity. Unfortunately, in this Sea Domain of Nihilicity, he was just like an orchid cactus that bloomed and withered quickly. He had left quickly afterward.

"He could bring a destructive change to Sea Domain of Nihilicity. Er, was our precursor wrong? I didn't think that Bloodthirsty could be so powerful like that." Ya Yun shook her head and smiled as she thought that Tu Shi Qi had just exaggerated.

"I don't think he was wrong because he said that he had battled that expert once and he knew that he was a little weaker!" said Tu Shi Qi.

"Well, then it could be because of his low competence, right?" Ya Yun pouted her lips.

"His low competence?" Tu Shi Qi gave her a forced smile.

"Who?" Ya Yun was surprised.

"Sir Han Tian," Tu Shi Qi said the name with a respectful, stern complexion.

Ya Yun jolted up. She looked bewildered and she couldn't even speak.

Han Tian was one of the Territory Ancestor Realm of the Mysterious Sky Clan. He was also the strongest warrior of their clan. He was famous for his brutality and power in the Sea Domain of Nihilicity. He was one of the Ten Great Territory Ancestors with an earth-shaking reputation in this vast sea of stars.

This vast sea of stars has so many territories and there were very few experts who reached the Territory Ancestor Realm. However, Han Tian was one of the ten strongest experts.

The Ten Great Territory Ancestors were the strongest individuals among countless warriors. They were acknowledged as the ones that had reached the greatest realms.

God of Slaughter

Chapter 1380: Lead the Wolf Into the House

The Ten Great Territory Ancestors were the real heroes among the other Territory Ancestors. They were the strongest individuals in this vast sea of stars.

The Territory Ancestors could create a galaxy and new species. It was the greatest ability of the warrior's power Upanishads. They were the ultimate existences in the Sea Domain of Nihilicity and in every race. The Territory Ancestor Realm was the highest realm that warriors could reach.

Han Tian was one of the Ten Great Territory Ancestors. He was the pride of the Mysterious Sky Clan and the super expert that people in many territories acknowledged. He was the main pillar of the Mysterious Sky Clan and the most supernatural hero.

Also, he said that the unknown Bloodthirsty could turn the Sea Domain of Nihilicity upside down and that he was one level weaker than Bloodthirsty...

Ya Yun didn't have any doubt.

"So that Bloodthirsty came from Desolate Territory? How could that territory create such a genius?" Ya Yun was perplexed for a while. She asked with surprise.

"Sir Han Tian and that Bloodthirsty had met up for a short time. He saw Bloodthirsty slaughter the members of the Devouring Clan brutally. And the strange thing was that his power Upanishad was very similar to the Devouring Clan. It seemed like he had mastered the lost power Upanishad of the Devouring Clan. Also, he had mastered the eight great evil power Upanishads of the Devouring Clan. It was unimaginable!" Tu Shi Qi was also surprised.

"Rumors said that Devour, the Absolute Beginning creature, had created the Devouring Clan using his flesh and blood. However, Devour had disappeared for a long time. No one knows if he's still alive or not. However, after so many years, the Devouring Clan has developed a lot, and the competencies of the experts in their clan could be as high as their Ancestor Devour. The Devouring Clan is the most mysterious clan among the seven clans. We don't know how strong they are. Even the cruel, brutal Soul Clan and the overbearing Dark Demon Clan don't dare to challenge or offend the Devouring Clan. Why did Bloodthirsty go massacre the Devouring Clan? How could he know Devouring power Upanishad, the lost Upanishad of the Devouring Clan?" Ya Yun felt a little puzzled.

Tu Shi Qi gave her a forced smile. "I think even Sir Han Tian couldn't answer your questions. When he saw Bloodthirsty kill so many members of the Devouring Clan and make blood flow like a river, he was excited. He wanted to try. He had fought Bloodthirsty. Sir Han Tian was defeated. Then, he tried to create a good friendship with Bloodthirsty. They drank together and then he invited Bloodthirsty to visit our clan when he had free time..."

"Bloodthirsty had accepted his invitation. However, after they bid farewell, they hadn't met up again. Bloodthirsty seemed to have disappeared from the Sea Domain of Nihilicity like a random traveler. However, Sir Han Tian couldn't forget him. He highly appreciated him. He asked us to pay attention to see if we can find any information about Desolate Territory. As Bloodthirsty was so powerful, we hoped to unite or be friends with him."

"Oh. Now, I know why you tried your best to create a good relationship with that kid. It turns out that you know Desolate Territory has given birth to someone so terrifying!" said Ya Yun.

"If that kid can become a new Bloodthirsty, let alone the things we offered him, even if we give him ten times more than that, it will be worth it!" said Tu Shi Qi.

Ya Yun was surprised. "You're a hardcore gambler. But you're always right."

"Wait to see it. This kid will be one of my biggest bets and I will win for sure!" Tu Shi Qi laughed haughtily.

Right at this moment, an earth-shaking explosion came from the cave entrance of Shi Yan's cave.

BOOM!

The stone door of the cave entrance was broken into pieces and dust scattered everywhere. Barago of the Earth Ghoul Tribe had directly crushed the stone door. He didn't even care about the Dragon Lizard Clan. With a sinister smile hanging on his face, he brought the three subordinates storming into the cave.

When the members of other third-class clans around heard the loud explosion, they retracted their neck and closed their caves.

The ones who still had the guts to observe the situation were staying far from the cave of the Heavenly Eye Clan. They were fearful as they looked at this area from a distance.

"The Earth Ghoul Tribe has become more rampant!" said a guard of the Dragon Lizard Clan through his gritted teeth.

The other guards of the Dragon Lizard Clan had the same thought. Their eyes turned red as if they hated that they couldn't kill and pull the intestines of those Earth Ghoul Tribe members out of their stomachs.

However, they knew that the Earth Ghoul Tribe was the Soul Clan's hound. It wasn't tough to kill the Earth Ghoul Tribe, but the Soul Clan wasn't the enemy that the Dragon Lizard Clan could handle.

Unless... Unless their forefather Dragon Lizard could reach the Territory Ancestor Realm. When that happened, they would have a strong backup, though.

"Hey friends from Heavenly Eye clan. Don't hide. Get out and talk." Barago grinned sinisterly. He walked into the cave, his face calm. He appeared with the green face and yellow fangs, accompanied by a strange smile that made him more gruesome.

His voice echoed loudly as if he did that on purpose so people would know how haughty and proud their Earth Ghoul Tribe was.

"So they are the members of the Earth Ghoul Tribe?" Shi Yan walked out of the stone chamber, his face surprised. He eyed the four clansmen of the Earth Ghoul Tribe and said seriously. "You're right. They're like fearsome, nauseating ghosts. They're really one of the ugliest races in this universe, indeed!"

Audrey stood by him. After a short glance at the members of the Earth Ghoul Tribe, she looked cold and disdainful. Her facial expression and manners suited Shi Yan's harsh words well.

Yvelines forced a smile. He didn't know if Shi Yan's plan could work. He focused and checked around. He found that the four members of the Earth Ghoul Tribe hadn't found anything strange yet. He snorted and closed his eyes. "You guys smashed my door to get in here. I wonder what made you do that?"

Barago didn't look at Yvelines. His white-gray eyes gazed at Shi Yan as he said coldly, "Little doggo, what is the ugliest race in the universe?"

“Isn’t it you guys?” Shi Yan was astounded. His face was awkward as if he wanted to say, “You knew it and you still wanted to ask me.” “Well, everybody knows that, but you don’t know anything?”

“Kill him! Kill him for me!” Barago shouted ear-piercingly.

A member of the Earth Ghoul Tribe at First Sky of Immortal Realm behind him immediately stormed over and spurted out a black, Yin ball. The ball was icy cold with thick Yin Qi that fell on Shi Yan’s head.

The black ball exploded and turned into an icy pond that covered Shi Yan.

“Keep that woman alive! I want to f*ck her to death. I want them to see the result of offending our Earth Ghoul Tribe! You f*cking alien. You dare to humiliate our noble Earth Ghoul Tribe. You can’t be forgiven. I will torture you to death!” Barago screamed wildly, his voice thundering and echoing around the valley.

Only the third-class clans gathered in this area. Since the Earth Ghoul Tribe was a second-class race and depended on the Soul Clan, Barago thought that no one dared to interfere with his business.

Even the Dragon Lizard Clan didn’t dare to do that!

Audrey gazed at Barago with her cold eyes and said coldly. “Even the Soul Clan’s dogs are that haughty. You don’t recognize your responsibility as the dogs, so you should become dead dogs!”

“Terminate!”

Shi Yan was indifferent. His lips parted to make one sound, which then turned into a scorching flame that shrouded the cold pond. Shortly after, it burned the pond into ashes.

The Earth Ghoul Tribe warrior at First Sky of Immortal Realm turned red and tried to swallow a gulp of blood that had just churned in his throat.

“Uh-huh, members of the Earth Ghoul Tribe, I’m enlightened now. Just like what you told us. They are haughty and ugly. Thus, we don’t need to talk.” Shi Yan said calmly, his power surging. Shortly after, the room was filled with magical space energy.

Right after that, Yvelines, Adams, Masha, and Audrey faded and disappeared as if they were just illusions.

“Sir, this place... this place isn’t the cave! It’s a spatial trap! We’re trapped in another space!”

The member of the Earth Ghoul Tribe at the First Sky of Immortal Realm who had just fought against Shi Yan discolored and shouted as he found something wrong.

He was right. This place wasn’t a cave. It was the new space that Shi Yan had created by using the Fantasy Boundary Stone!

This space was the exact copy of the original stone common room with the same walls, stone tables, and stools. Everything here was created with the power of the fantasy space. They were indeed just illusions.

At this moment, Audrey and the other three had returned to the real stone chamber where a light cluster hovered in the middle. Inside the light cluster was Shi Yan and the members of the Earth Ghoul

Tribe. Audrey and the others could see the situation clearly as if they were watching something under the lake through the water surface.

“That world looks so real. I hadn’t expected his Space power Upanishad to reach such a magical level. It isn’t different from reality here. If we hadn’t returned, I would have thought that we were still in that world and thought it was real!” Masha said as she was totally convinced.

Audrey was also surprised. Now, she knew that when Shi Yan solved the spatial lock, he harvested new achievements in Space power Upanishad. Otherwise, he couldn’t have deceived the others by creating an illusional world using the Fantasy Boundary Stone that the others couldn’t tell if it was real or not.

Just like her, Tu Shi Qi and Ya Yun were also astounded.

Different from the other warriors of third-class races who couldn’t tell the situation because of their low realms, they knew exactly what was going on inside the cave.

Because Ya Yun had given Shi Yan the Fantasy Boundary Stone, they could recognize the feeble space energy from that cave.

“I think today is a bad day for the Earth Ghoul Tribe. That kid is correct. Being the dogs, they should have recognized their responsibility as dogs. They shouldn’t deem themselves as the wolves. Because if they do that, they will get pretty close to death.” Tu Shi Qi laughed fiendishly. “That kid has power. He used the Fantasy Boundary Stone to create a cave and seal the door. He lured the Earth Ghoul Tribe to break the door to get in his trap. Haha, in the world he has created, how could the Earth Ghoul Tribe members do anything?”

“His understanding and application of Space power Upanishad are really extraordinary. This kid does have endless potential,” appraised Ya Yun.

While they were talking, Shi Yan stayed inside that world and curled his lips into a smile. “Well, stay here and enjoy the marvel of the exploding space.”

Then, he left the space and returned to the real stone common room. He pointed at the world that looked like a cluster of light.

BOOM! BOOM! BOOM!

Just like eggs that exploded, the light cluster burst and sent out the formidable energy of a collapsing space.

Audrey, Yvelines, Adams, and Masha could see clearly that the members of the Earth Ghoul Tribe inside that world had their bodies shatter like glass falling on hard ground. Their bodies burst into so many pieces that they couldn’t have a worse death.

Their soul altars were smashed. Their souls turned into feeble wisps that tried to escape the cave.

“Rascal! I won’t let it go! The Earth Ghoul Tribe will make you pay the bloodiest price! Wait to see it!” Barago’s soul slithered and tried to escape the cave while shouting crazily.

The power Upanishad that the Earth Ghoul Tribe cultivated was bestowed by the Soul Clan. Thus, it was also magical. After their soul altars broke, their souls were still able to escape.
