Chapter 1381: You Think You Can Run Away?

The four members of the Earth Ghoul Tribe inside the world created by the Fantasy Boundary Stone were smashed when that world shattered. Their souls turned into wisps like worms.

Since the Earth Ghoul Tribe's power Upanishad was special, even when their soul altar broke, their souls could still flee. After being condensed, their souls could still survive.

Barago's realm was the highest here. Although his body and soul altar shattered, wisps of his soul could still talk arrogantly before leaving. His sinister, resentful soul energy still lingered in the cave.

The small world collapsing had broken the entrance of the cave altogether. At this moment, many rocks blocked half of the entrance.

The aliens outside the cave couldn't see or hear the commotions there anymore. Tu Shi Qi and his wife couldn't see the situation inside the cave with their naked eyes.

"Want to run? You think you can run away from me?"

Shi Yan's face was dark, harsh, and malicious. He grinned fiendishly as he rose one finger and touched his glabella. The mysterious black hole flew out of his soul altar.

It was like the massive, dark mouth of a demon.

The Devouring power Upanishad was urged. A great suction force came out from the hole and pulled the souls forcefully. With Shi Yan as the center, everybody else in the cave all felt strange as if their souls were dragged and their soul altars were pulled hard.

Inside the cave, the wisps of the soul swayed like algae in the sea and headed to the cave entrance to leave.

However, after his black hole emerged, all the soul wisps and soul energy were sucked in as if there was a super magnet. Shortly after, they all moved into the black hole, a supernatural ability of his Devouring Upanishad.

"Devouring power Upanishad! The lost power Upanishad of the Devouring Clan! Unbelievable! Impossible! It's absolutely impossible!"

Before the last wisp of Barago's soul was sucked into the black hole, he was aghast as if he had a mental problem.

All the wisps of souls and soul energy inside the cave disappeared. After the small soul shattered, the energy and Essence Qi from the four Earth Ghoul Tribe members had become pure energy that naked eyes couldn't see and entered Shi Yan's acupuncture points.

Shi Yan stayed quiet to sense his body. Then, he realized that because of the strange energy from Hui that had transformed him, his acupuncture points didn't swell or ache as he took in the energy from the four members of the Earth Ghoul Tribe.

The capacity of his acupuncture points seemed to increase massively so he was able to receive more energy.

Soon, the soul energy from the four warriors of the Earth Ghoul Tribe was converted and refined. Flows of mysterious, pure energy scattered like a magical foundation that gave a tonic to his soul altar and increased the energy in his Sea of Consciousness. He noticed that the Dark Energy in his Sea of Consciousness also grew.

The Dark Energy blended with Shi Yan's Soul Consciousness and made his Soul Consciousness more powerful than his God power. It could attack invisibly with formidable power. It could seep into the other's Sea of Consciousness in just a blink of an eye and its sensibility was amazing. The fusion between Dark Energy and his Soul Consciousness had given his Soul Consciousness infinite abilities.

Squinting, he checked it and found that the Dark Energy was bobbing in his Sea of Consciousness and it seemed to seep into his soul altar one wisp at a time. Slowly, it was affecting and changing his soul altar.

Apparently, it was a useful change for him. With the aid from Dark Energy, he became wise and his understanding of power Upanishads was deeper. It seemed like his soul potential was about to open, which made the fusion of power Upanishads simple.

Shi Yan got Dark Energy as his Devouring power Upanishad, which swallowed the energy from Hui when Wederson eroded it. This energy hid deep in his Sea of Consciousness and fused with his Soul Consciousness, giving it magical powers. And now, it was slowly changing the soul altar.

He discreetly sensed and found that the Dark Energy could fuse with any kind of energy in his body. It could transform him physically and mentally. While talking, he sent the Dark Energy from the Sea of Consciousness to his body and let it run through his veins, bones, and flesh.

He found himself slowly turn invisible.

Yvelines, Audrey, and the others saw him become transparent and then gradually become invisible. However, a formidable energy fluctuated from his whereabouts, making people shiver with anxiety.

It seemed like the space around him had also changed accordingly to his change.

"Shi Yan!" Audrey pondered for a while and then hissed.

Shi Yan was awakened from his marvelous experience. He retrieved the Dark Energy into his body and guided it back to the Sea of Consciousness. He reappeared with a strange expression and smiled at Yvelines' group. "The Earth Ghoul Tribe isn't really hard to deal with. Don't worry. All the warriors who had come here are dead."

"We saw it," Yvelines looked odd. He wanted to say something, but he held it back. It seemed like he was very perplexed.

"Shi Yan," Audrey's eyes brightened. "When Barago's last beam of Soul Consciousness disappeared, did you hear what he said? He said that your sucking soul energy ability is the lost technique of the Devouring Clan!"

Shi Yan understood. His face went stiff as he said, "He said that, indeed..."

The Devouring power Upanishad was the core inheritance of Bloodthirsty Force. In Desolate Territory, only Bloodthirsty had mastered this power Upanishad. Shi Yan's power Upanishad came from Bloodthirsty. How could it be related to the Devouring Clan?"

He looked at the three experts of the Heavenly Eye Clan. Instantly, he became cautious and pretended to act naturally. "How is the Devouring Clan?"

Yvelines took a deep breath. "The Devouring Clan is the most strange clan among the Seven Great Clans. I heard that it's a whole new species that Devour, the Absolute Beginning creature, had created using his blood and flesh. Members of this clan cultivate the eight great powers Upanishads including Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi. Also, the most mysterious power Upanishad that they won't teach anyone is the Devouring power Upanishad. Devour, the Absolute Beginning creature had imparted them those powers Upanishads. However, until today, the Devouring Clan's Devouring power Upanishad was lost as well as many of the eight great power Upanishads. Anyway, the Devouring Clan is still one of the Seven Great Clans and it's the most mysterious clan that no one dares to offend."

"Devour the Absolute Beginning creature had disappeared a very long time ago. Only the members of the Devouring Clan know about it. Rumors say that Devour was the fountainhead of evils. It controlled evil divine weapons. According to the members of the Devouring Clan, when Devour was in his peak of glory, he could swallow the planets and territories to increase his power. He was the most terrifying creature in this world."

Pausing for a while, Yvelines looked at Shi Yan, "The way you used to swallow the wisps of soul and soul energy of the Earth Ghoul Tribe members is similar to the lost power Upanishad of the Earth Ghoul Tribe, the Devouring power Upanishad! Currently, even the members of the Devouring Clan can't grasp the essence of this power Upanishad. How are you able to cultivate it?"

Audrey was bewildered as she looked at Shi Yan. "So Bloodthirsty was..."

"No, he wasn't," Shi Yan shook his head.

He remembered what Hui had told him through Tian Xie. Desolate had created Bloodthirsty to help it reunite its body, which was to merge the four ancient continents to Desolate.

Unfortunately, Hui's plan was interrupted when Devour attacked it. Devour had imparted Bloodthirsty its Devouring power Upanishad and the eight great, evil power Upanishads. It wanted to use Bloodthirsty to destroy Desolate Territory and harm Desolate further to prevent it from recovering ever again.

It was the fight between Devour and Desolate.

According to Hui, the dark abyss, the holy land of the Bloodthirsty Force, was Devour.

Ming Hao used to tell them that Bloodthirsty had defeated even the Absolute Beginning creature. Shi Yan thought that this Absolute Beginning creature was Hui. However, he now considered it to be Devour, the Absolute Beginning creature that had tried to influence Bloodthirsty.

Devour could be killed or made dormant. When Bloodthirsty thought that he could finally escape his destiny, Desolate took action again. It had promoted the God Lord and helped him get the Genesis Fruit.

Brian then led the experts to defeat Bloodthirsty. Bloodthirsty was killed by Brian. Desolate had terminated him.

The main reason was that Desolate had created Bloodthirsty so his fate was bound. Desolate could arrange his destiny.

If... If Bloodthirsty hadn't been hurt after the fight with Devour, he would have been able to refine Desolate and then replace Desolate to become the master of Desolate Territory. He would have been the peak existence in the Sea Domain of Nihility.

Devouring Clan was the clan that Devour had created by using its blood and flesh. Devour was their ancestor. Devour had imparted them everything it had: blood, power Upanishads, and energy. It should be the exit that Devour had saved for itself before the battle with Desolate. Then, Devour left the Devouring Clan to find Desolate and fight against it. Also, after developing for a long time, the Devouring Clan had gradually lost their essence of power Upanishads because their precursors fell.

Devour battled against Desolate and then got severely injured. It had to return to Sea Domain of Nihility. Then, Bloodthirsty defeated it. It could be left in a coma or killed, which led to the loss of the Devouring Clan's power Upanishads.

Shi Yan had many thoughts cross his mind. This journey in the Sea Domain of Nihility had given him a lot of information about the conflict between Desolate and Devour, and Bloodthirsty's creation and elimination. Shi Yan could guess what had happened in the past now.

He admired and respected Bloodthirsty more as he could defeat Devour, the Absolute Beginning creature.

It was really pitiful for an overlord whose fate was bound to Desolate. It was how Desolate could take the upper hand and use Brian to kill him. Bloodthirsty could never have escaped the restriction to fly freely in the Sea Domain of Nihility. He could never have become another dazzling legend in the vast Sea Domain of Nihility.

He failed, but he had used Lao Luo to choose Shi Yan, an heir whose fate wasn't bound to Desolate Territory! Shi Yan was born with greater advantages!

Shi Yan looked stern as he promised inwardly. Your failure was because of your drama in your birth and fate. If you chose me, I won't fail you. I will finish what you weren't capable of fulfilling!

"It's not the Devouring power Upanishad. I used a secret treasure to do that. It's an application of the Dark Energy." Pondering for a while, Shi Yan chuckled and then said to the three members of the Heavenly Eye Clan. "You're overthinking it. I hope you don't misunderstand me. Otherwise, the Devouring Clan will skin me alive."

Yvelines looked skeptical and baffled, but they didn't continue the topic.

They didn't believe Barago's last words. The Devouring power Upanishad was lost, even in the Devouring Clan. The magical power of this Upanishad was assumed to be the lies and exaggeration of the Devouring Clan. Moreover, Shi Yan was apparently from Desolate Territory. They knew his identity already.

No matter what, Desolate Territory couldn't have anything connected to the lost power Upanishad of the Devouring Clan. It didn't have anything in common, anyway.

Thus, they chose to believe Shi Yan. They thought that it was a magical power of the Dark Energy when it urged a special secret treasure, which had similar effects to Devouring power Upanishad.

Only Audrey understood Shi Yan's concerns. The Devouring power Upanishad was very crucial to the Devouring Clan. It was lost even in the said clan, so it was precious to them.

If word of this power got out and the Devouring Clan heard about it, how would they survive?

Chapter 1382: Twisting and Turning

The guards of the Dragon Lizard Clan had always paid attention to Shi Yan's cave. When the cave sealed, they became restless because they couldn't see what was going on in there.

Boom!

The sealed stone door exploded. This time, the Dragon Lizard Clan guards saw that Shi Yan's team was safe and sound from a distance. Barago and his members of the Earth Ghoul Tribe had disappeared. The Dragon Lizard Clan guards felt their hearts sinking.

They all became grave. Exchanging looks, they immediately walked towards Shi Yan's cave.

Barago was the head of the Earth Ghoul Tribe delegation this time. He also had a sensitive connection with Singh of the Soul Clan. As long as he was safe, even if he had troubled Shi Yan's group, the Dragon Lizard Clan wasn't going to find him to ask for justice. They had to be patient and quiet.

But if something bad happened to Barago, it was going to be an explosion and Singh knew it.

Instantly, the Dragon Lizard Clan guards stormed into Shi Yan's cave.

Some guards were cautious enough to set up some barriers and seal the door one more time. The guard that had warned them earlier stepped forward and asked, "Where are the members of the Earth Ghoul Tribe?"

Shi Yan knew why they were anxious. He answered calmly, "They came to force us to sell things for them. They wanted to kill us, but we had defeated them and killed them. Hmm, yeah. We don't even leave their remains. What's the problem?"

It was over!

The Dragon Lizard Clan guards felt sudden darkness in their eyes. They knew that it was really serious this time. One of them took a deep breath and didn't ask more. He immediately took out a Sound Stone and reported with a grimace. "Sir Du Lei, we are in big trouble. Barago of the Earth Ghoul Tribe died..."

Du Lei was one of the experts under forefather Dragon Lizard's commands. He was in charge of the affairs in another area. Listening to the report, he was startled. He immediately asked for the location and ran at his max speed.

Inside the cave, the Dragon Lizard Clan guards wore worried, bitter faces.

The death of Barago could bring big trouble to the Dragon Lizard Clan. If they let Shi Yan's group leave easily, they couldn't answer to the others.

The Soul Clan stood behind the Earth Ghoul Tribe. Also, Singh was here as the distinguished guest of their clan. Barago had to report to Singh regularly because Singh had asked him to find someone.

Barago was dead unknowingly. Singh had to ask the cause and the situation. If the forefather of the Earth Ghoul Tribe knew that his subordinate sent to Dragon Lizard Star was killed here, he was going to be outraged and he was possibly even going to come personally to take revenge.

"You can't leave now!" said a guard of the Dragon Lizard Clan.

Shi Yan grinned. He made this scene just to find a chance to see the real manager of the Dragon Lizard Clan. Thus, he wasn't anxious or hot-tempered. He just happily waited to see Du Lei.

Du Lei arrived fast. He landed here before even one hour passed.

As soon as he landed, he found a strange situation. Many alien warriors from the third-class clans were standing in front of their caves and discussing with each other while looking at another cave. They all wore strange countenances.

Those warriors looked excited and happy over the other's misfortune, but most of them showed indifferent faces.

"Barago hasn't walked out of the cave yet. Did something bad happen to him?"

"How could it be? Barago has Second Sky of Immortal Realm cultivation base. He's from the Earth Ghoul Tribe. Who dares to trap him?"

"So why hasn't he walked out yet?"

"The Earth Ghoul Tribe is evil and lustful. Perhaps they closed the cave to torture those Heavenly Eye Clan members. Who knows?"

Those people couldn't observe the battle between Shi Yan and the Earth Ghoul Tribe inside the cave because of the closed door.

Tu Shi Qi and Ya Yun were the only ones outside the cave who knew that Barago was dead. However, they were also baffled. "The Earth Ghoul Tribe cultivates the power Upanishad bestowed by the Soul Clan. Even if the soul altar is smashed, the host soul can divide into many wisps and flee. If they don't have the special power Upanishad or secret treasures, it will be pretty hard to eliminate them. Why are there no wisps fleeing? Is it true that the wisps of their souls were annihilated too?" Ya Yun was perplexed.

"Yeah, it's strange," Tu Shi Qi was also surprised. "The manager of the Dragon Lizard Clan is here. We should just keep quiet and watch. As that kid can make a higher superior come here, as long as he's smart, he can lead the situation to develop into the best way."

“It seems like we will benefit from his glory,” Ya Yun smiled. “If he can persuade Dragon Lizard to join hands with us to deal with Singh, Singh will be finished at Dragon Lizard Star! Then, the Dragon Lizard Clan has to go the same way as our Mysterious Sky Clan! Ah, it’ll be perfect, though!”

Tu Shi Qi laughed evilly.

“I am Du Lei!” a muffled call came from the cave entrance.

The members of the Dragon Lizard Clan hurried to lift the barriers and respectfully greeted Du Lei. Du Lei was the sort of character who could meet forefather Dragon Lizard. He looked a deep breath, his face grimaced. “Are you sure that the members of the Earth Ghoul Tribe were all killed?”

“He said that,” one of them pointed at Shi Yan.

Shi Yan was still calm. “The Earth Ghoul Tribe wanted to force us to trade and then kill us to rob the item. We were so reluctant, so we had to defend ourselves.”

Du Lei scanned through Adams, Yvelines, Masha, and Audrey. He said with a dark face, “You guys can kill Barago’s group?”

Shi Yan didn’t want to waste time. He knew that if he didn’t explain thoroughly, they would capture him to talk to the Earth Ghoul Tribe and the Soul Clan. “I cultivate a special power Upanishad. Yeah, I burst off the space waves to smash them to death.”

He explained, pulled a stern visage, and then said, “I heard that your forefather has been stuck at the Peak of Immortal Realm and he needs to study the Dark Energy to break through to the Territory Ancestor Realm. I happen to know Dark Energy. I want to use my understanding of Dark Energy to exchange for an Immortal Pellet. Can you take me to see him?”

“Kid, you think you can make me let you go by saying that?” Du Lei somehow appreciated Shi Yan inwardly when he saw that Shi Yan wasn’t afraid at all. However, he said, “Honestly, we don’t have a good impression or feelings for the Earth Ghoul Tribe. If you can kill them, I will applaud happily. Unfortunately, the Earth Ghoul Tribe has a close relationship with the Soul Clan. We still need to explain it to them.”

Then, he turned to his guards and asked them to take Shi Yan’s team into custody first.

Apparently, he didn’t believe that Shi Yan had Dark Energy. He thought that Shi Yan had just made an excuse. Anyway, Shi Yan had just Incipient God Realm.

He had never heard of anyone who could comprehend Dark Energy at Incipient God Realm.

“Perhaps this will be easier to understand.”

Shi Yan calmly urged his energy. His Soul Consciousness rippled like waves. The stone walls around him exploded furiously.

An invisible energy had intruded Du Lei and his warriors and entered their souls. They all felt shivers down their spines. They were filled with fear instantly.

“How could it be? It... How could you do that?” Du Lei couldn’t even imagine.

He had heard about many mysterious secrets of the Dark Energy. He knew it was peculiar. Without alerting the others, this invisible energy could expand inaudibly and it was more lethal than God power.

Shi Yan’s performance was exactly like what they had rumored. It was the power of the ones with Dark Energy.

“I want to meet your forefather,” said Shi Yan simply.

Du Lei’s eyes were complicated. He pondered for a few seconds and then said to his warriors, “It’s forbidden to tell any word about this. You arrange them in another area. Don’t let anybody know. Conceal the death of the Earth Ghoul Tribe members! No, we must close this area. Do not let anyone in or out!”

The members of the Dragon Lizard Clan knew the seriousness of this case. They nodded continuously.

“We don’t need to move to another area. I have two friends here. You guys should escort them to my friends’ cave.” Shi Yan pointed at Tu Shi Qi and Ya Yun’s cave in the distance.

“You have no say in this. We will arrange this ourselves. While you go meet our elder, we will conceal it.” Du Lei snorted and then said, “Follow me. I’m taking you to meet our elder!”

Du Lei knew that their Dragon Lizard Clan was afraid of the Soul Clan because their forefather hadn’t reached the Territory Ancestor Realm yet. As long as he reached that realm, they could stop worrying about the Territory Ancestor of the Soul Clan.

He understood what Dragon Lizard prioritized now: Shi Yan, an alien who knew Dark Energy. If he could give the forefather a chance to break through, the death of the Earth Ghoul Tribe members was not important.

Du Lei took Shi Yan on a stone-paved path. This path had many hidden mechanisms that Du Lei had to use his Soul Consciousness to open. Each wall here led to a marvelous cave deep inside the planet.

After a long time, Shi Yan had gone deep underground and appeared by a massive scorching lava pond. After Du Lei had taken Shi Yan here, Du Lei kneeled down on both knees and spoke the language of the Dragon Lizard Clan to talk to the lava pond. Du Lei was calling for Dragon Lizard.

After a while, Dragon Lizard’s clone emerged from the hot pond and stood in front of Du Lei and Shi Yan. He asked in astonishment, “Who is this kid?”

“Forefather, it’s like this...”

Du Lei hurried to explain. When he mentioned that Shi Yan understood Dark Energy, Dragon Lizard shivered and his eyes shot light as dazzling as sunlight.

“If you can help me, you don’t need to worry about the Earth Ghoul Tribe anymore. Also, we will give you the Immortal Pellet!” said Dragon Lizard resolutely.

To him, nothing was more important than breaking through to the Territory Ancestor Realm. When he got Dark Energy and entered the Territory Ancestor Realm, the Earth Ghoul Tribe’s forefather was the

one he could kill in any minute. Even if the Soul Clan wanted to battle against him, they would have to consider if it was worth their efforts or not.

“The Soul Clan has ambushed you. There’s a divine weapon from the Absolute Beginning Era in the stomach of your real body now. It’s a three-legged cauldron of the Soul Clan.” Shi Yan looked at him and threw him more shocking news. “If you don’t join the Soul Clan this time, you’ll die. That cauldron is a divine weapon that Singh has borrowed from an expert at the Territory Ancestor Realm in his clan. It’s for you, especially.”

God of Slaughter

Chapter 1383: Soul Refining Cauldron

“You guys stay here. No one is allowed to take even one step out of here!”

A member of the Dragon Lizard Clan took Audrey and the three warriors of the Heavenly Eye Clan to a heavy-guarded room.

Dozens of Dragon Lizard Clan guards stood and watched outside the room. They were the new guards that another leader of the Dragon Lizard Clan had mobilized from another zone.

This group of guards had at least six experts at the Immortal Realm. To them, they were a big threat.

“We’re imprisoned.”

Yvelines sighed and looked at the door with layers of barriers and the Dragon Lizard Clan guards. He knew that they couldn’t act freely anymore.

Audrey wore a pure white dress, her face as calm as usual. She sat quietly in this spacious room and said, “Don’t worry. As long as Shi Yan and Forefather Dragon Lizard find an agreement, we will be alright.”

“I’m just afraid of unexpected events,” Adams forced a smile.

He understood the Dragon Lizard Clan’s deeds. If Shi Yan and Forefather Dragon Lizard had a good conversation, they would be alright. But if it went bad, the Dragon Lizard Clan would hand them to the Earth Ghoul Tribe where they would be tortured to death.

Everything depended on Shi Yan’s means.

Audrey was calm. Along the way here, she had always felt like a pair of eyes was watching them. Using her magical soul power to sense, she knew that Ya Yun and Tu Shi Qi were using their special method to observe them.

As Tu Shi Qi and Ya Yun were from the Mysterious Sky Clan, one of the Seven Great Clans, and were at Third Sky of Immortal Realm, it wasn’t going to be a problem to rescue them.

She could vaguely feel that Tu Shi Qi really appreciated the relationship with Shi Yan. If the situation got worse, these two members of the Mysterious Sky Clan were going to interfere.

She wasn’t wrong about this.

At this moment, Tu Shi Qi and Ya Yun were staying in their stone chamber. Tu Shi Qi opened his eyes and laughed, "Well, the Dragon Lizard Clan isn't really good. I got their location. I've also sent a wisp of Soul Consciousness there. If something happens, I'll know immediately."

Hearing him, Ya Yun could finally ease her restless mind. She said, "Maybe we don't need to take action."

"Right, as long as that kid can meet up with Dragon Lizard, things will change greatly. And we just need to wait patiently for Dragon Lizard's invitation," smiled Tu Shi Qi.

"We should prepare carefully. We must make Singh taste our power!" Ya Yun's eyes conveyed her savage intention.

In a corner of Dragon Lizard Star.

Singh was floating above countless departed souls and ghosts, his face dark and cold. The soul energy rippled from him fiercely. Underneath, so many ghosts were crying and screaming pathetically.

A member of the Soul Clan like a dark shadow flew to him and said respectfully, "Commander, we got recent news that Barago of the Earth Ghoul Tribe is gone."

Singh was awakened from his cultivation. He frowned and said impatiently, "What? That futile Barago was sent to find the Mysterious Sky Clan members, but he failed. I asked him to find something that could hypnotize souls and I've heard nothing from him yet. I don't care if he's gone or not. This sort of man doesn't deserve our attention."

"A subordinate of him reported that they had found a Fascinating Diving Eye of the Heavenly Eye Clan. They said that it could even fascinate the soul of the Immortal Realm experts. Barago was greedy for it. He took three clansmen with him to find them and he hasn't come back. His subordinate said that his life lamp had extinguished," explained the warrior.

"What?"

Singh was startled. A devil and strange light emerged in his eyes. "The soul lamp extinguishing means his soul had vanished. The Earth Ghoul Tribe cultivates the secret technique from our clan. Unless they encountered some special technique, their souls can scatter and escape safely. Who did Barago encounter?"

"Barago had Second Sky of Immortal Realm cultivation base. Because of his relation to our clan, in this Dragon Lizard Star, there is no one who would dare to attack them, and not many people have the competencies to do so. Recently, the Earth Ghoul Tribe tried to find two experts from the Mysterious Sky Clan. Did he find something, which made someone kill him to shut his mouth?" assumed the guard.

Singh's Soul Consciousness moved. Countless departed souls and wailing ghosts underneath came into his body under the black robe. He floated and drifted toward the Soul Clan warrior. He said, "You said Barago found the fascinating eye something. Do you think it can work?"

"From what that Earth Ghoul Tribe member had reported, it could work magically. Otherwise, Barago wouldn't have been so thrilled," answered the other.

Singh pondered for a while, "... Perhaps the Mysterious Sky Clan has their nose in this fascinating eye thing. I have to go talk to the Dragon Lizard Clan to see what happened."

Then, he turned into a black shadow and disappeared.

The scorching lava pond deep underground, Dragon Lizard Star.

The clone of Forefather Dragon Lizard was surprised as he looked at Shi Yan. "Kid, what are you talking about? I have a good friendship with Singh. Although I can't say we're soul mates, it's impossible that he would plot against me."

"On the way to this planet, we encountered a strange asteroid. We thought it..."

Shi Yan took a deep breath then told the others everything they had encountered on the way there. He had stressed on describing the features of the massive three-legged cauldron and the mysterious symbols on the cauldron.

Du Lei was kneeling on the ground and listening to Shi Yan in fear. He couldn't help but intervene. "Forefather, from what he's saying, I'm afraid that the big cauldron is the Soul Refining Cauldron of the Soul Clan. The Soul Refining Cauldron is a divine weapon from the Absolute Beginning Era. It can absorb the Soul Consciousness to create magical symbols, the language of the Absolute Beginning Era. It's really formidable!"

After Shi Yan had finished, Forefather Dragon Lizard didn't say anything, but he changed his face when Du Lei intervened.

At this moment, he didn't have the mood to ask about Dark Energy. "Whether you told us the truth or not, I need to check it carefully."

Then, his clone directly sank into the scorching lava pond.

A terrifying groan arose deep inside the massive lava pond. It seemed like a giant beast was moving and releasing energy.

A tremendous energy that could explode the entire Dragon Lizard Star came from the lava pond. The planet had constant explosions as so many pieces of broken stars on its surface rumbled. They looked as if they could collapse in the next minute.

If the Soul Refining Cauldron was in his body, he could make the cauldron destroy his body from the inside and take in his soul as long as Singh wanted that to happen. Singh could kill him that way while increasing his cauldron's power altogether.

The stronger the soul that it absorbed, the more terrifying the cauldron became. The reason why the expert at the Territory Ancestor Realm of the Soul Clan let Singh borrow the weapon was to kill Forefather Dragon Lizard to strengthen his divine weapon.

No matter what, in the vast sea of stars, people at the Peak of Immortal Realm were rare. Their souls were the top tonic for the Soul Refining Cauldron.

GRRRRRR!

An earth-shaking roar came from the lava pond. The clone of Dragon Lizard emerged at once. He looked ashen as green veins bulged on his forehead like wiggling worms. He looked so furious.

“Forefather?” called Du Lei.

“This kid is right. I found a foreign item in my body! It must be the Soul Refining Cauldron of the Soul Clan. I can’t take it out now. I don’t want to alert the enemy. It would make Singh attack me first!” Forefather Dragon Lizard had his flame of rage burst up into the sky.

After so many years, he had always considered Singh a friend. He wanted to create a good relationship with the Soul Clan. He hadn’t shown his intention to join the Soul Clan because he still embraced the hope of obtaining a true understanding of Dark Energy by exchanging the Immortal Pellets. If he couldn’t get Dark Energy afterward, he would consider joining the Soul Clan.

Dragon Lizard hadn’t expected Singh to prepare so well for this trip. He didn’t come with a good will at all. The Soul Refining Cauldron was his black hand. If Dragon Lizard still lingered, he would become a sacrifice for that divine weapon of the Soul Clan. How could he not be outraged?

“It’s troublesome to take it out of my body without Singh recognizing it. I want to think carefully to find a way to do that.” Although Forefather Dragon Lizard was extremely hot-tempered, he calmed down pretty quickly. He began to think about a method to solve this big problem.

“If you want to kill Singh, someone can help you. Yeah. If you don’t mind, I can introduce two experts to you. They also want Singh dead. Moreover, they can assure you that you don’t need to be afraid of the Soul Clan’s revenge after that. It’s an assurance to your Dragon Lizard Clan,” Shi Yan smiled and offered at the right time.

Forefather Dragon Lizard was surprised. “Kid, it seems like you have a plan. Tell me. Who do you want to introduce to me?”

“How about the Mysterious Sky Clan?” Shi Yan said in a low-pitched voice.

The eyes of Dragon Lizard sparkled in a strange light. He pondered for a while and grasped the key point. He laughed, “Oh, are they Tu Shi Qi and his wife Ya Yun? Singh and the members of the Earth Ghoul Tribe told us to find them. It seems like Singh has attacked them hard?”

“I knew I can’t deceive Forefather,” Shi Yan smiled. He knew a monster like Forefather Dragon Lizard wasn’t a fool. Singh could only furtively attack him because he had a powerful divine weapon and a lucky timing. He did that when Dragon Lizard was having a meal. Apparently, he had planned it for a long time.

Otherwise, it wasn’t easy to attack this old monster. As Singh had to use the Absolute Beginning divine weapon, he was also afraid of Forefather Dragon Lizard.

Dragon Lizard could understand a situation after only two or three sentences.

“If Singh wants to harm me, how can I let him enjoy himself that much? Harrumph, I will make him know the price of plotting against me. Although the Soul Refining Cauldron is an Absolute Beginning divine

weapon, I know it so don't think they can kill me!" Then, Dragon Lizard turned to Shi Yan. "Alright, take the other two to see me. I want to talk to them carefully."

Shi Yan now knew Forefather Dragon Lizard wanted to kill Singh too. This area was Dragon Lizard Star, his territory. If they got his approval, everything was going to be convenient.

"They're staying in..."

Shi Yan told Du Lei the location of Tu Shi Qi's cave.

Du Lei was very surprised. Now, he knew that the ones Shi Yan had mentioned were the two experts of the Mysterious Sky Clan. Forefather Dragon Lizard had ordered him to invite Tu Shi Qi and his wife so Du Lei left respectfully.

"Alright, now tell me about Dark Energy," as soon as he left, Forefather Dragon Lizard had a dazzling light shoot out of his eyes as he gazed at Shi Yan.

Chapter 1384: Reward

The scorching lava pond surged and dyed Shi Yan's face red.

Vaguely, a terrifying energy fluctuated from deep inside the lava pond. Shi Yan knew that the real body of the Forefather Dragon Lizard hiding inside the lava pond was digesting the broken pieces of asteroids he had recently swallowed to absorb their energy. He was trying to reach the Territory Ancestor Realm.

The energy in earth and heaven appeared in many forms. The wind, storm, lightning, a lake, a mountain, and even the lava pond had energy. The warriors and beasts stored energy in their bodies. The crystals, precious treasures, and armor also had energy. There were various types of energy that were rich.

The known energies could be categorized as the major energies. The energies from exploding asteroids, comets, lightning and ice were the major energies.

They were the energies that most warriors controlled and used. They filled the warriors' God power Ancient Tree and gave them supernatural abilities while using their power Upanishads.

However, they only controlled the major energies. The warriors couldn't have the power to create the world. They couldn't create new territories and they couldn't terminate the entire sea of stars with only their thoughts.

According to the creatures from the Absolute Beginning Era, there was another kind of energy called the Negative Energy or the Dark Energy. This kind of mysterious energy was invisible and there was no way to sense or recognize it, even though it was always there and affected the existence and the balance of so many territories in the world. This energy had ruled the world for a long time.

Unfortunately, not many people could grasp the true meaning of this energy. The ones who understood this energy were usually top experts and they never talked to others about their power.

Forefather Dragon Lizard had been stuck in the Immortal Realm for so many years. He just needed one more step to enter the Territory Ancestor Realm. However, this small step was like a deep chasm that he was never going to be able to cross. It made him helpless and hopeless.

He looked at Shi Yan and couldn't hide his excitement. "You have only Incipient God Realm cultivation base. I'm curious. How could you get Dark Energy?"

While talking, Dragon Lizard sent a wisp of his Soul Consciousness into Shi Yan's brain and walked around his Sea of Consciousness before retreating. Forefather Dragon Lizard was thrilled, his eyes passionate. "Right, it's Dark Energy!"

"To be honest, I didn't get this energy through my own study," Shi Yan understood that this old monster had profound knowledge. He didn't dare to lie to him, so he just talked indifferently. "I got Dark Energy from an Absolute Beginning creature. It was hurt badly at that time, so the pure energy in its body was oozing out. I was accidentally cultivating near it. I had strangely absorbed its pure energy and blood. Then, my bones, veins, and souls transformed. Also, my Sea of Consciousness had some changes that I can't explain."

Shi Yan told him half of the truth.

He got Dark Energy from Hui, but it was because of the Devouring power Upanishad. He had eroded Hui's body to completely advance himself and get the energy.

"Absolute Beginning creature?" Dragon Lizard looked surprised. "What's that creature called? Also, where are you from? How could you encounter a creature from the Absolute Beginning Era?"

Shi Yan frowned. He wasn't about to explain this so he just said casually, "Forgive me for not telling everything. I can only tell you about the origin of my Dark Energy. It's something unexpected. It's my usual luck. I can't spread it out."

He could see that Dragon Lizard also wanted to use the Absolute Beginning creature to get Dark Energy and break through the tough gateway.

"Then what can you do to help me?" Dragon Lizard's face darkened. He looked angry. "From what you said, you didn't even know how you got Dark Energy. I think you don't know the power and mysteries of Dark Energy. What else can you tell me?"

"I can transfer a wisp of Dark Energy to you so you can take your time to study it. You can learn its mysterious features yourself." Before he got here, Shi Yan had planned this.

"Giving me a wisp of energy?" Dragon Lizard was baffled, his eyes mocking. "You think we can solve it easily like that? I know there are two ways to get Dark Energy. The first way is what you've said by taking the energy from Absolute Beginning creatures. The other way is to learn it by yourself. You aren't an Absolute Beginning creature. I can't kill you to take energy by refining you. So, how will the Dark Energy you're about to send me work?"

"How do you know I'm not an Absolute Beginning creature?" Shi Yan curled his lips.

“My ancestor was Lizard. You know how giant my ancestor was? Let alone my ancestor, do you know how big my real body is? Each of the Absolute Beginning creatures is bigger than an entire planet. You are too minute!” Dragon Lizard wore a disdainful face.

“Okay. I’m not an Absolute Beginning creature, but I think my Dark Energy can help you somehow.” Shi Yan didn’t mind it. He closed his eyes and sat in front of Dragon Lizard. He condensed a wisp of Dark Energy in his Sea of Consciousness and used a space seal to cover it.

A wisp of energy flew out from Shi Yan’s body and entered Forefather Dragon Lizard’s eye.

Dragon Lizard frowned and blinked as he drew that invisible seal into his brain.

Swoosh!

The explosion of the space seal was heard in his head. A flow of strange energy flew away. He wanted to capture it, but it had already vanished.

Shi Yan was bewildered as he didn’t understand the situation. He had used space energy to shroud a wisp of Dark Energy, but he didn’t imprint his Soul Seal on it. After it left his body, it disappeared. It couldn’t help Forefather Dragon Lizard.

“Was that your method?” winced Forefather Dragon Lizard.

Shi Yan gave a forced smile and tried to squeeze his brain for a solution.

At this moment, Du Lei brought Tu Shi Qi and Ya Yun to the cave. Tu Shi Qi beamed at Shi Yan and then at Dragon Lizard. He smiled casually. “You guys are discussing the magical features of Dark Energy, aren’t you?”

Forefather Dragon Lizard snorted.

“Although your body is extremely tenacious with formidable power, your transformation of the life form is still not enough,” Tu Shi Qi smiled. While talking, he threw a jade box to Dragon Lizard. The jade box opened. It seemed like something was inside the box, but they couldn’t see anything.

But there must be something there. From the dent and the small folds of the fabric inside, there was something that couldn’t be seen.

Shi Yan was astounded. His mind flickered and he sent Dark Energy into his eyes. Then, he saw a piece of a bone inside the box.

He was very surprised as he looked at Tu Shi Qi. “A bone?”

This piece of bone was similar to Bloodthirsty’s remains that year. It was invisible and the ordinary Soul Consciousness couldn’t see. Shi Yan had to use his Dark Energy to see it.

“Yes. It’s a piece of a bone. It’s the bone of a Territory Ancestor Realm expert after he left. This bone is also called Dark Material or Negative Matter. Only the warriors at the Territory Ancestor Realm can become like this after their life form reaches a specific level.”

Before Tu Shi Qi came here, he had prepared well. “According to Sir Han Tian of my Mysterious Sky Clan, before you can understand Dark Energy, you have to transform your life form. Only when your body and

soul reaches the new height of life can you get that energy. The life form of the Absolute Beginning creature has reached the peak of existence. That's how they got the power. If we want to reach such a level, we must refine and quench our body and soul to advance our life form."

Shi Yan was shocked. "Before I got Dark Energy, it's true that my blood, veins, skeleton, and soul had changed rapidly. After that, I found the magical features of my body and I found another strange energy in my Sea of Consciousness.

He looked at Tu Shi Qi.

Forefather Dragon Lizard was stunned. He looked immersed in his thoughts as if he had just touched something deep in his heart.

He suddenly remembered the time he was still small and weak. Lizard the Absolute Beginning creature had advised him clearly that he must not be lazy in refining and quenching his soul and body. Each of his muscles and cells should have refined thousands of times. That's how he could have a chance to sublimate his soul and body.

When he was still small and vulnerable, Lizard told him to continuously cultivate both the body and soul. Aside from just condensing and gathering the energy, his soul and body had to also transform to a specific level. When that happened, he was going to be able to see the magical things that others couldn't.

This advice was given a long, long time ago that Forefather Dragon Lizard had almost forgotten it.

Today, Tu Shi Qi told him Han Tian's experience. Dragon Lizard was startled as tears lingered in his old eyes. "My precursor had told me the method a long time ago. Too bad that I have only focused on gathering energy. I had almost forgotten his advice. I didn't know that the body and the soul were the foundation. It's the deepest sorrow of my life. I'm ashamed as I'd failed my precursor's expectations!"

"It should be the first step of the precise path. I'm sure Singh knows this too. He has never reminded you?" Tu Shi Qi was compassionate. He felt sorry for Forefather Dragon Lizard. This old creature had always wanted to create a good relationship with the Soul Clan and he had a good friendship with Singh for many years. Throughout these years, Singh had come to be his distinguished guest many times. He'd asked him several times about this and he got no useful information from him.

Refining the body and the soul to evolve the life form was the first step of learning Dark Energy. The senior experts of the Seven Great Clans knew this. They had guided their children to pay attention to cultivating the body and the soul, which they had to consider as important as accumulating energy.

As Singh was an expert of the Soul Clan, he, of course, knew this. He had always cultivated his body and soul too.

But he had never told Dragon Lizard anything.

"Singh knows this too?" Dragon Lizard rolled his eyes, his murderous aura discernible.

"Well, it's common knowledge in the Seven Great Clans. Although it's just the first step, the Seven Great Clans are studying this step carefully and we think that it's the right path," intervened Ya Yun faintly.

Forefather Dragon Lizard didn't say anything, his breathing short and heavy, and his eyes sparkling with malicious light. After a long time, he had to try really hard to subside the idea of going to kill Singh right now.

Suddenly, he threw an orange jade jar to Shi Yan. "It has an Immortal Pellet. It can help you reach the Immortal Realm. It's a reward for your information. Yeah, I got important things to discuss with the two guests from the Mysterious Sky Clan. Du Lei, you take care of him."

"Yes, Sir," Du Lei answered with great respect.

God of Slaughter

Chapter 1385: Break the Bottleneck

Du Lei took Shi Yan back to the surface.

Before that, he had already asked his guards to bring Audrey and the Heavenly Eye Clan's members to another area.

It was a massive stone hall in another secret corner. It wasn't the open area where the Dragon Lizard Clan hosted the other clans. It was an area exclusive to the strong experts of the clan.

The stone hall was built inside a broken asteroid. It had cultivating rooms, storages, and also bath areas. However, the entire place didn't have any decorations, jade objects or patterns carved on the walls. It was the Dragon Lizard Clan's style. They didn't like luxurious things.

"This is where I cultivate," said Du Lei.

Each influential member of the Dragon Lizard Clan had a private area on Dragon Lizard Star. This stone hall was hidden inside an asteroid. Du Lei had renovated it so it could fly out of Dragon Lizard Star and function as a battleship.

Shortly after, the guards of the Dragon Lizard Clan had taken Yvelines' team and Audrey to the same place.

"If Forefather asks us to protect you, I'm sure we won't let the Soul Clan disturb you. After the two precursors of the Mysterious Sky Clan finish their discussion with our ancestor, we'll take them here too. Don't worry." Du Lei said to them and then asked his subordinates, "As long as they don't leave this area, they can do what they want. They can enter all cultivating rooms. If you don't receive any orders, do not disturb them."

Then, Du Lei left the stone hall hurriedly. The guards standing outside the hall bowed to him.

"They've moved us to two different places. It seems like the Dragon Lizard Clan is still afraid of the Earth Ghoul Tribe and the Soul Clan. Otherwise, they wouldn't have to hide us." Audrey wore a pure white dress, her eye bright but cold. She walked to Shi Yan and asked, "How was it?"

"Forefather Dragon Lizard will try to protect us. Hmm, if nothing unexpected happens, he's discussing how to kill Singh now," Shi Yan grinned and said to Yvelines and the other two, "Don't worry. It should be nothing dangerous. Just stay here and cultivate. We'll handle it."

He didn't mention Tu Shi Qi and his wife from the Mysterious Sky Clan to the other three.

Yvelines guessed that they had hidden something from them, but he was smart enough not to ask further. They scattered and each of them found a room to cultivate in.

Shi Yan and Audrey had chosen a massive training court tiled with square crystals. Those crystals were really rigid so they could resist energy attacks and hard hits. The domed roof was built high above, which gave them a lot of space to move.

He told her what happened when he met up with Forefather Dragon Lizard. Audrey was so astounded. Then, he chose a place to sit down cross-legged and said, "We're safe here for the time being. The Dragon Lizard won't trouble us. We should seize this time and cultivate fast."

"Alright!" Audrey sat down opposite to him across the spacious room and folded her straight legs. She closed her eyes.

Swoosh! Swoosh! Swoosh!

Three wisps of gray souls flew out of the wine jug on her hand. The three souls didn't have consciousness. They were just forms of pure soul energy like drifting clouds. She rose one hand and they disappeared into her eyes.

Her body shook three times. Countless gray-brown, hair-like soul fibers flew out of her body and gave her a peculiar appearance.

Shi Yan didn't hurry to cultivate. He observed Audrey instead.

She had absorbed the three souls at Incipient God Realm that he had exchanged with his Wind Thunder Stones into her Sea of Consciousness. Then, Audrey used her power Upanishad to mince them into several thousand soul wisps. They then moved through her veins as she used them to increase her power, making her bones and veins more tenacious.

Shi Yan observed her for a while and then smiled. He nodded his head.

Audrey was touched because Shi Yan didn't conceal anything Tu Shi Qi had told forefather Dragon Lizard. She was trying her best to implement that method.

Audrey's usual method was to use the soul to cultivate her soul altar. She hadn't made them move through her body. She did it differently this time because her mind changed. Now she knew that she should focus on refining her veins, blood, and bones. It was to prepare for her breakthrough to the Territory Ancestor Realm.

She was always a smart woman. When she heard of a technique, of course, she knew how to make use of it.

The members of Imperial Dark Tribe had always focused on cultivating the soul as the soul was the key to their power Upanishad. They didn't really cultivate their bodies.

Her way of cultivating today had escaped the original method of Imperial Dark Tribe. With only Shi Yan's one-sided words, she had discarded her tribal methods to start a whole new way of cultivating. It had proven that she was tough and resolute. Also, she trusted Shi Yan wholeheartedly. She thought that Shi Yan would never lie to her and his words were real and as precious as jades and pearls.

Shi Yan was happy for her. He believed that with her innate talents and wisdom, once she found the right direction, she would create amazing achievements later!

A lightning bolt flashed in his head and cut all turbulent thoughts. Shi Yan became lucid immediately. Without a piece of a junk thought, the orange jade jar that Dragon Lizard had given him emerged in front of him. After a flash, the jar exploded and revealed a strange pellet.

The pellet was as big as a longan fruit and it was brilliant despite its strong herbal smell. At a closer look, the pellet was a tiny plant with mountains, lakes, forests, buildings and even rain and lightning!

Shi Yan's eyes became strange as he observed the pellet. He could even see many skeletons inside the buildings!

The Immortal Pellet used a level seven life star as the foundation and billions of lives on it as the source of energy. Only supernatural experts could refine this sort of pellet. They had shrunk an entire planet billions of times to make it a pellet that could act as the Creator to help a Third Sky of Incipient God realm reach the Immortal Realm.

He used to think that it was a fake product. However, after observing the pellet, he had no doubt. A peculiar pellet that looked like a small planet; what could it be if not the Immortal Pellet?

Shi Yan opened his mouth to draw the Immortal Pellet made of an entire life star into his mouth. It followed his stomach and flew directly toward the God power Ancient Tree in his lower abdomen.

The Immortal Pellet fell on the God power Ancient Tree and began to beat like a heart while releasing flows of pure energy. Instantly, innumerable rivers of energy rolled torrentially inside his veins and made his energy fluctuate earth-shakingly.

At the same time, he found that billions of souls and Soul Consciousness of the creatures on the planet had turned into a current of pure soul energy storming toward his soul altar!

The pure soul energy fell into his Sea of Consciousness and impacted with Dark Energy there. It happened like magnificent fireworks blooming and sending countless beams of light. They sparkingly flooded the tier of power Upanishads, heaven flames, and his host soul. Space, Death and Life, and Star power Upanishads seemed to be stimulated. They used to be separated but now, they suddenly merged into one... It was so strange.

A feeling he couldn't describe moved through his heart to the soul altar. He felt as if he had returned to the fountainhead of power Upanishads and was wandering around the seas of Death, Space, Life, and Star power Upanishads. The host soul was perplexed. It seemed to leave his body to the world that could receive endless vitality where he could be everlasting and undying.

Rumors said that people at the Immortal Realm had endless longevity. For example, after the Holy Beast Azure Dragon had reached the Immortal Realm, he had lived one hundred thousand years and he was still vigorous. He had escaped the principle of the life cycle.

It was something that Incipient God Realm experts couldn't do. Although they had long lives, their souls and bodies aged several thousand years. If their vitality got drained, their souls were weakened altogether. If they couldn't reach the Immortal Realm, at the end of their life cycle, they withered and died like an old, shriveled tree.

Only breaking through to Immortal Realm would make them immortal. At that time, they could distort Nature's principles. They would live forever with abundant vitality. Their souls would always be sound and vigorous.

Unless they were killed by stronger experts who could drain their vitality and erase their Soul Seals, on theory, the Immortal Realm experts could live forever.

It was the Immortal Realm.

The fusion of his power Upanishads and Shi Yan's host soul made him feel something magical. However, another soul of his was placid. He found that the heaven flames that hadn't had any progress were stimulated by the Immortal Pellet. Slowly, they were about to fuse with each other again.

Besides the Primal Chaos Sacred Flame, the other flames had stuck together magically and created a magnificent, colorful sea of flame. At first, they were like bands of a torn fabric sheet. Right now, they were slowly gathering as if they wanted to fully recover.

The heaven flame tier had become a sea of fire. Shi Yan's co-soul drifted above the sea of fire and looked at the heaven flames fusing with each other.

An Immortal Pellet had triggered many things magical to his body. While he was heading to the Immortal Realm, many things strange in his body burned.

The commotions that Shi Yan and Audrey had created when they were cultivating weren't small. Soon, Yvelines and the members of the Heavenly Eye Clan had recognized the strange commotions. They gathered outside the room Shi Yan and Audrey were cultivating in. The stone room was closed but the energy fluctuating inside was really chaotic and formidable. Apparently, it was turbulent energy that appeared when someone was breaking through.

"Audrey is reaching Second Sky of Incipient God Realm and that man is entering the Immortal Realm!" Yvelines had experience. He understood it right away. "Now, we need to watch over them. During this time, we won't allow the members of the Dragon Lizard Clan to enter the place."

"It seems like we got the Immortal Pellet after meeting up with Forefather Dragon Lizard," Masha looked yearning.

She had followed her two seniors to this place with the hope of getting one of the Immortal Pellets. Today, seeing Shi Yan cultivate with that pellet, she admired him a lot.

"Sigh. We don't have this fortune. But if he can reach the Immortal Realm, with his Dark Energy, his competence will be extremely formidable!" said Yvelines with a lot of emotions.

Chapter 1386: Cut the Flesh

Dragon Lizard Star had a massive pit where a lot of special palaces and buildings specified to serve different clans were built. They even built lakes with some islets for Water Tribe members to stay in.

It was the gathering area of second-class clans. Delegations from different clans didn't need to endure staying inside the stone caves of the Dragon Lizard Clan. They could stay in this area with more suitable conditions.

Just like Du Lei, Walker was one of Forefather Dragon Lizard's subordinates who was in charge of this area. He had Second Sky of Immortal Realm.

While discussing important matters with Yuan Mo of the Water Tribe, Walker suddenly felt his heart beat faster. He looked outside and his face changed immediately. He left the palace where the Water Tribe stayed quickly.

Yuan Mo was the Water Tribe's handsome man who Shi Yan and Audrey had encountered on the way here. At this moment, Yuan Mo lifted his head, his face solemn.

Singh was coming with countless departed souls and ghosts underneath his body like a big, dark cloud. There were hundreds of thousands of them and it pressured people terrifyingly.

Singh slowly descended with many members of the Soul Clan serving him respectfully. Also, he had many souls of beautiful women who looked both cold and elegant as they massaged his shoulders and legs. They made his emergence more dazzling.

A crowd of many warriors from different second-class clans were gathering and seeing Singh of the Soul Clan descending arrogantly. They discolored and lowered their voices.

The Earth Ghoul Tribe lodged near here, so many people had seen Barago leave with rage.

As they saw Singh come, they thought that he wanted to find Barago to ask for some information or to request them to find Tu Shi Qi and his wife. Many people knew this. They thought that Singh came personally because the Earth Ghoul Tribe was slow in reporting their works.

Yuan Mo was the head of the Water Tribe by chance this time. Since they didn't get along well with the Earth Ghoul Tribe, Yuan Mo knew a lot of things.

Seeing Singh come, he was anxious because he was worried that Singh would trouble the Water Tribe.

A graceful figure emerged from a quiet tower in the palace behind him. It was a plump woman who wore a long blue cloak that embraced her round rear end. Her face was covered under a jade mask, which looked ferocious like a demon showing its fangs.

She moved slightly and reappeared inaudibly by Yuan Mo. A pair of deep azure eyes looked at Singh and a soft voice came, "Don't worry. I'm here with you guys. Singh won't dare to do anything to you. Yeah, he doesn't look like he came because of you guys."

The life energy on her body was vague and her breath wasn't steady. She gave people an impression of something from a fantasy.

Only Yuan Mo knew that the fearsome mask she was wearing had covered her earth-shaking aura. It made her ordinary, which didn't draw attention from others. As Yuan Mo knew her identity, his words and gestures showed his respect. He bowed and said, "I'm afraid that Singh will cause trouble when he finds you."

The woman chuckled. "Singh is just a commander in the Soul Clan. Even if he finds me here, there will be no trouble. Yeah, I came here this time because of the Forefather Dragon Lizard's Immortal Pellet. I just want to find an item that can secure my junior's breakthrough. Singh won't dare to provoke me."

Listening to her, Yuan Mo could finally rest his restless mind. He still kept his body bent. Then, he lifted his head to look at Singh, wondering why he came here this time.

"Is that Walker?" Singh's dark voice arose and echoed around this large pit.

Apparently, he didn't want to conceal his intentions.

Walker was at Second Sky of Immortal Realm. He was one of the experts with a profound cultivation base in the Dragon Lizard Clan. Hearing Singh's question, he answered with a stern face, "I'm here."

"I don't want to walk around the bush. Barago of the Earth Ghouls, his soul lamp is extinguished. His soul must be destroyed. I just want to know who did it." Singh had a cold light sparkle in his eyes. His voice thundered and reached each palace in this massive pit. "If you want to hit my dog, you have to look at my face first! Barago is my Soul Clan's hound. I want to know who killed him!"

Apparently, he came to send his punitive forces arrogantly. The energy from his body fluctuated fiercely.

So many vague souls were conjured. They turned into a gruesome mountain and bobbed behind him, showing fangs and claws. A wisp of Soul Consciousness was sent toward the second-class forces to find the possible murderer at the high realm.

Singh had never thought that Barago would be killed by Shi Yan, a warrior at Incipient God Realm. He thought that the one who could kill Barago had an equivalent realm. He assumed that the murderer was here and mingling in the crowd. He had a premonition that it was Tu Shi Qi's trick. He had to find them quickly.

With this recent deed, he didn't put the Dragon Lizard Clan or Walker in his eyes.

"Barago is dead?" Walker pretended to know nothing. He shook his head with a bewildered countenance. "I didn't know that. Please give me more time. After I find the results, I will answer to you."

He had received the news from Du Lei, but he wanted to stall for as long as possible.

"Muahaha, I know it's related to the Heavenly Eye Clan. They're just a third-class clan. They dared to attack a clan dependent on our Soul Clan. I think this Heavenly Eye Clan doesn't want to live anymore!" Singh smiled darkly. "I'm going to search to see if they're here. Then, I will check every corner. I don't think I can't find them!"

While talking, his Soul Consciousness moved around like a gust of wind, rummaging through the entire area.

Many palaces of the second-class clans were under attack. The warriors in there felt their soul altars flicker anxiously. They were so scared.

No one dared to shout or curse. They knew that they weren't an equal match to the Soul Clan and they knew that Singh was powerful. They could only endure it.

Singh's soul tondo swept around and entered the lake of the Water Tribe, reaching Yuan Mo. Shortly after, Singh looked baffled. He hesitated for a while and then glided through Walker, heading to the Water Tribe.

He looked at the plump woman with the fearsome mask and asked with a stern face. "Who are you?"

The woman sneered and said faintly, "I'm here for the Forefather Dragon Lizard's Immortal Pellet. Right, there's something I want to make clear." She turned to Yuan Mo of the Water Tribe. "From now on, our Phantom Clan will protect the Water Tribe. I hope that the Chief of the Soul Clan will pay attention and not let your dogs bark and bite around!"

Singh discolored and gazed at the woman, furrowing his brows. "Is Barago's death related to you?"

"Do you think that kind of thing is worth my effort?" sneered the woman.

Singh contemplated and then nodded. "I'll talk to the Earth Ghoul Forefather so they don't trouble the Water Tribe furthermore. Our Soul Clan doesn't have any dispute with your Phantom clan. I don't expect that the two clans will fight against each other because of the Earth Ghoul Tribe and the Water Tribe."

Then, he nodded to say farewell to her without his haughty visage. He left immediately to another area.

He didn't care about Walker because he didn't really consider the Dragon Lizard Clan important or dangerous.

Yuan Mo was tense. Seeing Singh proactively say that he would ask the Earth Ghoul's forefather to control his tribe, Yuan Mo was very excited. He thought that his Water Tribe had made the right decision to be dependent on the Phantom Clan. They wouldn't need to give way to the Earth Ghoul Tribe anymore. Finally, he understood how good it was to have a big backup.

Then, he turned to Walker of the Dragon Lizard Clan and sighed.

The Dragon Lizard Clan was also a second-class force. Before Lizard had disappeared, the Dragon Lizard Clan had been the overlord in this area. Even the Territory Ancestor Realm experts of the seven clans had to respect him and every other clan had to be afraid of his clan.

After Lizard had returned to Mother Earth and the Forefather Dragon Lizard, the second generation couldn't break through to Territory Ancestor Realm. The Dragon Lizard Clan gradually declined and now, even the Earth Ghoul Tribe dared to bully them.

Yuan Mo thought that only if the Dragon Lizard Clan agreed to follow one of the Seven Great Clans, they would have steadied and they would have been able to stand upright again. Otherwise, their lives were going to be much more difficult later.

"The Soul Clan and the Mysterious Sky Clan have often battled. Now, they don't dare to offend me. Don't worry," said the woman, her voice hiding her proud feelings. As the Phantom Clan was one of the Seven Great Clans, their overall competence wasn't weaker than the Soul Clan.

It was the reason why she got excited.

"There's something I want to tell you. On the way here, we met the members of the Heavenly Eye Clan. They went together with a couple who came from Desolate Territory. They seemed lost. They wanted to

find their way home through Singh's brutal soul called Ming Hong." Yuan Mo suddenly recalled the event. "I remembered that you guys were interested in Desolate Territory. I wonder if you can use this information."

"Someone from Desolate Territory got lost?" The woman's eyes sparkled strangely and showed her interest. "It's strange. It seems like the Dragon Lizard Clan is trying to protect them. It's inexplicable. It seems like the friendship between Singh and Dragon Lizard isn't as close as it was rumored."

She pondered and then said, "You guys have a good relationship with the Dragon Lizard Clan. Can you arrange for me to meet Forefather Dragon Lizard? Right, you can tell them my identity. Perhaps, Dragon Lizard will find me interesting."

"Okay, let me try," Yuan Mo lifted his head and called Walker. "Walker, brother. Please get down here so we can talk for a while."

Lava pond.

Extremely terrifying roaring and shrieking came from inside the lava pond while the entire pond seethed torrentially.

Tu Shi Qi and his wife Ya Yun were using their powers Upanishad to create layers of barriers sealing this area and making it soundproof. They didn't want others to recognize the commotion here.

The clone of Dragon Lizard floated above the pond and released the ultimate energy fluctuations as he was trying to pull something under the pond.

After a while, a big chunk of red meat emerged from the scorching lava pond and floated up. It was bloody and the veins in the meat were still full of blood. A palm-sized, three-legged cauldron stuck on a small spot on the meat. It was connected to a vein like a blood-sucking leech.

Dragon Lizard looked ashen when he coughed and tried to subside his anger. "This Soul Refining Cauldron has stuck on my flesh. Once it detaches from my flesh, Singh will know immediately. I have to do that. I have to cut a piece of meat to deceive him. He won't know what I've done."

"Forefather, you're not an ordinary warrior, indeed. You can clench your jaw to cut off a big chunk of meat like that. This time, Singh will receive his bad luck," appraised Tu Shi Qi.

He knew that a creature like Forefather Dragon Lizard would have to endure tremendous pain when he cut off the meat that had contained his power.

This old monster had made up his mind to do that to eliminate the threat from the Soul Refining Cauldron without letting Singh know.

"Since Singh has done this to me, of course, I must let him taste my power. He thought he could bully me. Damn it!" Dragon Lizard was foul-mouthed as he was outraged. "This time, not only will I kill Singh but that bastard from the Earth Ghoul Tribe will also be taken care of. They thought the Soul Clan could protect them so they have provoked us a lot, those damned ghouls!"

“Our Mysterious Sky Clan will be your backup. We will try our best to help you!” Tu Shi Qi laughed excitedly.

Chapter 1387: Festival

Du Lei stood in front of the door of the stone hall, his face dark and uncertain. Many guards of the Dragon Lizard Clan were gathering around him. Most of them had relatively high realms.

“We must use our life energy to conceal the aura inside. We have to ensure that Singh can’t find the commotion here!” After a while, Du Lei let out a low shout.

At this moment, Singh was in the area where the Dragon Lizard Clan accommodated the warriors from many clans. He was raking around and trying to use his Soul Consciousness to find the Heavenly Eye Clan members. He wanted to pull the murderers who killed the Earth Ghoul Tribe warriors out of their cave.

Du Lei knew that Forefather Dragon Lizard was trying his best to get rid of the Soul Clan’s Soul Refining Cauldron. For the time being, he couldn’t come out to solve this problem.

Now, they had to ensure that Soul Clan, Audrey, and the others were alright. Right when Singh began his search, he immediately came to this hall to take Shi Yan and Audrey out of Dragon Lizard Star.

However, Yvelines told him that Shi Yan and Audrey were cultivating and they were at the critical moment of their breakthrough. They couldn’t be disturbed now.

Troubles came together. Du Lei had a terrible headache. He didn’t have any solution better than calling the experts at his realm to this area.

“Du Lei, I heard that Forefather wants to attack Singh?” Di Feng, who was also at Second Sky of Immortal Realm, asked with a fierce, bloodthirsty countenance. “I’ve endured those bastards of the Earth Ghoul Tribe for long enough. If our Forefather has made up his mind, I’ll be the first one to attack them!”

“Don’t say such nonsense. We have to take care of the main business first! We can’t let Singh discover this area. Otherwise, we can’t answer Forefather’s questions!” shouted Du Lei.

Di Feng threw a glance at the hall behind him and said disdainfully. “Will our Forefather be irritated because of the members of the Heavenly Eye Clan and the two kids at Incipient God Realm?”

“One of them has Dark Energy. He talked to Forefather. Forefather asked us to ensure that he won’t get murdered!” Du Lei screamed. “Don’t babble. Do it quickly. It’ll be a lot of trouble if Singh comes here.”

The warrior who controls Dark Energy?

The warriors of the Dragon Lizard Clan at Immortal Realm became bewildered from listening to Du Lei. They turned around to look at the door of the room Shi Yan and Audrey were cultivating in, their faces odd.

Right after that, the Immortal Realm experts put on serious faces when the life energy emitted from their bodies like mist that naked eyes could observe. Slowly, that mist shrouded the entire stone hall.

Du Lei's team was using their life energy to create a barrier that could prevent Singh's Soul Consciousness from searching.

They had to do that because their realm wasn't great enough to prevent Singh from searching. If they wanted to stop him, they had to use their life energy with their Second Sky of Immortal Realm.

After they had successfully set up the barrier, they all looked weak, sitting and guarding the stone hall.

The other members of the Dragon Lizard Clan stood and waited, protecting their precursors. They were afraid of an unexpected situation.

Now, Singh took his Soul Clan warriors and moved around the accommodations of the other clans on Dragon Lizard Star. They had created a loud commotion, indeed. He had used his Third Sky of Immortal cultivation base to check around and search the members of the Heavenly Eye Clan.

Singh didn't really want to take revenge for Barago. He wanted to find the Fascinating Divine Eye, Tu Shi Qi and his wife from the Mysterious Sky Clan.

Inside the stone hall.

The members of Heavenly Eye Clan Yvelines, Adams, and Masha were sitting in a triangular formation right in front of Shi Yan's door. They were also alertly waiting as they were very afraid that someone would disturb them at a critical moment.

Inside the training chamber, soul energy twirled around Audrey with many soul filaments. Her body reflected brilliant illusions.

A flow of pure soul energy circled her for a while and then slowly entered her soul altar.

Her mental state slowly steadied. Her God power Ancient Tree was filled with surging energy. Then, dim light rays emitted from her body and made her illusory.

Shi Yan was sitting across the yard. His body was flashing continuously. Brutal energy shot out from his body. When he reached the Immortal Realm, negative energy in his acupuncture points discharged to keep his body clean. Wisps of negative energy hovered and scattered around the training yard.

When Audrey urged her power Upanishad, the wisps of her soul also fluttered. When they contacted with the negative energies, they became restless and uneasy, so they began to swallow the beams of negative energy.

The departed souls and spirits she got became more sinister and brutal after they absorbed Shi Yan's negative energy. Audrey's soul altar was also affected by Shi Yan's aura. She could feel a deeper connection with him.

Time flew hurriedly.

Inside Shi Yan's head, besides the Primal Chaos Scared Flame, the other flames were fusing with each other and turning into a vast sea of fire.

The wonders of chilly to the bone coldness, flashing lightning appeared one after another on Shi Yan's body. It looked like he had mastered many different power Upanishads.

When Shi Yan's heaven flames finally fused, a burning light column shot out of Shi Yan's head and rocketed into the sky.

The dome above the training court burned and melted. The heaven flame shot up into the sky and burned a hole on the barrier that Du Lei's team had used their life energy to create. The heaven flame continued to burn the cave and got out, shooting into the sky.

Water Tribe's accommodation.

A scorching flame shot out of the lake where they stayed.

Yuan Mo changed his visage. Many members of the Water Tribe around were panic-stricken. They gathered as they didn't know what had just happened.

The voluptuous, masked woman of the Phantom Clan emerged like a spirit above the lake. Her dark eyes gazed at the scorching light column. "What a formidable Original Flame! Only Absolute Beginning creatures could control the Original Flame. What's going on? Has something magical happened to Forefather Dragon Lizard?"

She pondered for a while and then shook her head. She mumbled, "Nope. It's not true. Lizard didn't cultivate Original Flame, and Original Flame can't be inherited. How could he get it?"

She was frightened when a possibility popped up in her mind. "Is there another Absolute Beginning creature on this planet?"

Her beautiful eyes were surprised as she said. "You guys stay here. I'm going there to check. This situation is strange, indeed!"

Yuan Mo nodded.

At the same time, Singh was down because he couldn't find the Heavenly Eye Clan members after searching for a long time. When the heaven flame column pierced through the barrier and shot through the lake of the Water Tribe, Singh was hovering above a cluster of clouds made of departed souls and ghosts. His eyes brightened immediately and he laughed evilly.

He immediately stormed to the stone hall.

The lava pond underground.

Forefather Dragon Lizard and Tu Shi Qi also felt a tremendous commotion. Tu Shi Qi closed his eyes to sense for a while. He got frightened immediately. "It's that kid's aura. However, it's obviously the Absolute Beginning creature's Original Flame!"

"How could it be?" Ya Yun was dumbstruck. "He refined Desolate, didn't he?"

"I don't know," Tu Shi Qi forced a smile. He didn't understand it, either.

Although Forefather Dragon Lizard didn't know much about Dark Energy, his precursor was Lizard, so his understanding of the Absolute Beginning creatures was much more profound than Tu Shi Qi and Ya

Yun's. He contemplated and then confirmed. "It's a soul wisp of the Absolute Beginning creature fused with his Soul Seal to create a second soul. His second soul has some magical powers of the Absolute Beginning creatures!"

"I think all the experts on the Dragon Lizard Clan have recognized such a tremendous commotion. Singh will come soon. What should we do now?" asked Ya Yun.

"Are you okay?" Tu Shi Qi looked at Forefather Dragon Lizard.

Suddenly, Forefather Dragon Lizard burst out laughing crazily. "It's time for a festival. You guys are going to witness me change Dragon Lizard Star!"

Then, the screeching and howling that could shake the entire place came from the scorching lava pond.

From outer space, Dragon Lizard Star was like a massive throbbing heart. So many pieces of broken stars and asteroids began to move. The entire Dragon Lizard Star was like a giant magic cube that was changing continuously. An area suddenly emerged as if some force had dragged it up.

The massive pits where the third-class and second-class alien tribes lodged scattered around Dragon Lizard Star where there were previously intact asteroids. Now, they were detaching from Dragon Lizard Star as if the planet was dissolving.

From the Sea Domain of Nihility's point of view, Dragon Lizard Star was like a globe where everything on it was moving. Dragon Lizard Star slowly became a flat continent.

It was now a flat continent created by so many broken stars and asteroids!

The members of different clans staying in different areas now emerged on different sections of the continent, which all faced the palace in the center.

The light column of the Original Flame shot out from that palace. Du Lei's team was still guarding the front of the stone hall.

However, they all grimaced.

"Sigh, Forefather has chosen this moment to hold the festival. I don't know what he has in his mind. When Dragon Lizard Star turns into a continent, it can't hide anything. Our whereabouts are exposed. Singh will come here soon," Du Lei forced a smile.

He knew that Dragon Lizard Star wasn't a real planet. It was formed by countless pieces of broken asteroids. When Forefather Dragon Lizard's real body had some commotion, the entire star shook. When he moved the pieces of broken stars and asteroids to turn Dragon Lizard Star into Dragon Lizard Continent, it was the time of the festival and the worshipping of an ancestor.

However, his timing wasn't right. Right now, the warriors of the second-class and third-class clans had seen the Original Flame in the center so they were congregating.

Those warriors had sensed the Absolute Beginning creature from that Original Flame. They were so excited and they stormed like clouds of grasshoppers. They were so curious.

The woman of the Phantom Clan wanted to get deeper into the lake to check what was going on down there. However, when the entire planet changed, she came with the members of the Water Tribe to the stone hall. Her beautiful eyes shot out strange light.

“The aura of the Absolute Beginning creature! Haha, it’s the aura of the Absolute Beginning creature!” Singh roared. His body floated above the massive mountain made of souls and ghosts as he stormed forward and stumbled people in his way.

“The members of the Heavenly Eye Clan are there too! Excellent! I want to see how you can hide now!”

He walked to Du Lei’s team, his face dark and sinister. He looked at the ground and shouted, “Hey old friend Dragon Lizard, the earth and sky are shaking. You should come out and watch! Yeah. I want to know if you still consider me your friend.”

“Friend? Haha, you’re a really good friend!”

Forefather Dragon Lizard’s voice was like thunder that came with tremors. His clone appeared with a red face and waves of terrifying energy.

Chapter 1388: Conflict

Dragon Lizard Star changed from a planet to a flat continent due to Forefather Dragon Lizard’s earth-shaking commotion that moved the mountain and leveled the sea. It now appeared as an uneven continent created by pieces of broken stars and asteroids that functioned as tiles on a square.

From the horizon, this continent was rough with many deep gorges, strange mountains, caves, and palaces.

Now, an Original Flame column was shooting up into the sky through the dome of a palace in the center of Dragon Lizard Star.

The members of the Dragon Lizard Clan at Second Sky of Immortal Realm like Du Lei and Di Feng still guarded the stone hall and focused on watching the moves of the alien tribes around.

The masked woman with a sexy body from the Phantom Clan was with Yuan Mo’s delegation. They came by the stone hall and looked bewildered.

Hovering in midair, many aliens were watching with surprised and excited countenances.

They knew that the Forefather Dragon Lizard wanted to carry out the worship of their ancestor and the festival.

A long, long time ago before Lizard died, the Dragon Lizard Clan had periodically held the festival. At that time, the Dragon Lizard Clan was the leading clan of this area. The members of the other clans had to come to meet Lizard when the time came to show their respect.

Lizard held the festival and invited leaders and outstanding experts of the surrounding clans. During the festival, he would explain and teach them the true meanings of power Upanishads and the secrets of the

Absolute Beginning creatures. The Dragon Lizard Clan's festival attracted surrounding clans and even the Seven Great Clans had to send their delegations to join them.

However, after Lizard was gone, the festival wasn't as lively and bustling as before. Although Dragon Lizard, the second generation, still held the festival, most of the participants came under their precursor's orders to worship Lizard and show their gratefulness. Their precursors had received many benefits from Lizard who explained the power Upanishads.

Although Lizard was gone, they were still thankful for him. Whenever the Dragon Lizard Clan held the festival, they would send their juniors to worship Lizard.

Forefather Dragon Lizard also knew that their festival wasn't as attractive as it used to be. Thus, they often used precious treasures of the clan to exchange with others. For example, the Immortal Pellet was definitely attractive enough. Because of the pellets, many alien tribes had come regardless of the long journey they had to make to get there. The Phantom Clan woman was near then and she also came because of the Immortal Pellets.

Singh screamed all the way, knocking over a lot of warriors in his way. He quickly reached the stone hall.

So many ghosts and departed souls were floating underneath him like a school of fish. There were seven brutal souls who were continuously swallowing weak souls around them. They were growing rapidly and turning into brutal ghosts who were more than thirty meters tall. They moved and screamed like vicious ruffians behind Singh with earth-shaking auras.

One of those brutal souls was Ming Hong. After Singh had refined him, he couldn't help but follow Singh's orders. He was now a roaring brutal soul too.

Ming Hong roared and became bewildered. His evil eyes flashed as he struggled. Finally, he became sane.

He was hovering behind Singh and he saw Audrey cultivating inside the stone hall down there.

At this moment, Audrey was releasing a lot of soul fibers with familiar energy fluctuations. Ming Hong looked at her and recognized her identity immediately.

Audrey was cultivating the soul technique that only Imperial Dark Tribe knew. Also, Audrey's aura was the familiar aura of Imperial Dark Tribe.

Singh had kept him for so many years in the Sea Domain of Nihilism. He had no way to escape and he had never met anyone from Desolate Territory. Today, he found a member of his clan who was absolutely his relative. Ming Hong was stunned. Although Singh could control him, he still had his own consciousness. His thoughts flickered fast and he pretended to know nothing. He didn't dare to look at Audrey as he was afraid that Singh could spot something.

At this moment, Singh was still shouting and screaming. He called for Forefather Dragon Lizard. Forefather Dragon Lizard laughed loudly, flew up, and floated above the stone hall while looking at Singh. "My good friend, oh, my good friend!"

"I don't know why you are protecting three juniors of the Heavenly Eye Clan? They killed my men. For our friendship, will you give me a good explanation for that?" Singh wore a dark and sinister face. In front of many aliens, he began to interrogate Dragon Lizard.

Singh didn't feel right because of Dragon Lizard Clan's strange attitude.

"It's our Dragon Lizard Clan's territory. The Earth Ghoul Tribe members didn't respect our rules. They attempted to kill our guests. They were killed because of that. Do you want me to take responsibility for that?" Forefather Dragon Lizard sneered faintly. He rose one hand and layers of light fell, covering the stone hall where Shi Yan and Audrey were cultivating.

He looked at Singh and said, "Singh, your dogs are taking it too far! They don't even respect me! You're their master. Shouldn't you strictly punish them?"

Singh put on a dark face and stayed quiet.

"Oh, what's going on over there?" The woman of the Phantom Clan frowned. "Their relationship isn't that bad, is it? I don't understand."

Yuan Mo of the Water Tribe didn't understand it, either. "I'm not sure. I know that they have a good relationship. Singh came several times to meet Forefather Dragon Lizard. He was always welcomed here. It's unexpected today, though."

"What happened? Is there a conflict between them?" asked an alien.

"Is it because of the Earth Ghoul Tribe? Recently, the Earth Ghoul Tribe has acted too far. They don't respect the Dragon Lizard Clan at all. We couldn't even imagine that they would dare to act rashly in this festival. Perhaps, they've enraged Forefather Dragon Lizard."

"Yeah, maybe."

"Sigh, it's too bad that Lizard is gone. Otherwise, the Earth Ghoul Tribe would have been cleared a long time ago. I remember the time when Lizard was here. Even the Seven Great Clans had to respect the Dragon Lizard Clan well. It seems like without a Territory Ancestor, the clan could decline. It's true, indeed."

"No wonder why Dragon Lizard has tried any mean to break through to Territory Ancestor Realm. He won't regret paying any price to do that. He even used the Immortal Pellets to exchange for a chance to break through."

Many members of the alien clans around discussed with each other while Singh stayed quiet. They were so surprised anyway.

Singh's face was dark and sinister. His eyes raked through the crowd and made them chilled to the bones. They had to stoop to avoid his eyes.

When his line of sight fell on the masked woman of the Phantom Clan, he was bewildered for a while. He nodded to her and didn't look further.

"Yeah, the Earth Ghoul Tribe made mistakes this time. Old friend, please forgive us. I will warn the Earth Ghoul Tribe's forefather and make him control his later generations. I'm here this time to observe and

learn from the experience at your festival. I hope you can understand me,” Singh took a deep breath and squeezed a smile.

Turning around, his eyes were so cold.

All of a sudden, a brutal soul attacked the remaining members of the Earth Ghoul Tribe delegation. In their screeching, the Earth Ghoul Tribe warriors were torn apart. Eventually, their souls were swallowed.

The remaining members of the Earth Ghoul Tribe were eliminated shortly after.

The onlookers felt so chilled that their hair rised. They were scared because of Singh’s wicked deed.

“I didn’t know anything. They deceived me and covered my eyes with lies. Yeah, I’ve made up for it. Brother Dragon Lizard, I wonder if you feel satisfied now?” Singh chuckled and retrieved his brutal soul. He didn’t even bat an eye on the pulp of flesh on the ground where the Earth Ghoul Tribe members had just stood.

“So cruel!” Yuan Mo mumbled.

The masked woman of the Phantom Clan was a little bewildered. “Singh is indeed ruthless. He’s worthy of his reputation. To receive Dragon Lizard’s approval, he didn’t hesitate to destroy the others. Right, he has guts. No wonder why he’s the Commander of the Soul Clan. Fierce!”

Then, she turned to look at Forefather Dragon Lizard. The onlookers also turned to him. They wanted to see how Dragon Lizard would react to Singh’s brutal deed.

Also, many warriors were observing the stone hall. They wanted to know what was inside the hall.

In this vast universe, they could count the number of the Absolute Beginning creatures with their fingers. This area had no Absolute Beginning creature after Lizard left. And now, they saw the column of Original Flame from the hall with the Absolute Beginning creature’s aura. Instinctively, they related it to Lizard.

They had become more curious after Forefather Dragon Lizard had covered the entire stone hall. They guessed that it was something important to the Dragon Lizard Clan.

Although Singh was admitting his mistake to Dragon Lizard, his eyes sparkled as he gazed at the stone hall with a lot of doubts.

“If you say so, it’s done then. You don’t need to warn that Earth Ghoul’s forefather. If he messes around, I will go talk to him directly!” Forefather Dragon Lizard grinned and gave Singh a curt nod. “Yeah, the junior inside the hall is related to my precursor. He will stay and cultivate here for a while. People, please. You don’t need to be curious.”

He threw a glance at the stone hall.

People became more baffled upon hearing him. When they looked at the stone hall, they were frightened. If someone was related to Lizard, was he an Absolute Beginning creature too?

“Ahem!”

At that moment, the woman from the Phantom Clan gave a slight cough. She walked to Forefather Dragon Lizard from the Water Tribe's group. Her pair of azure eyes sparkled strangely as she smiled. "I heard that Forefather Dragon Lizard has some Immortal Pellets, so I came. I wonder what should I do to exchange for the pellets?"

Dragon Lizard looked at her, his face becoming stern. "And who are you?"

"I'm from the Phantom Clan," said the woman.

Hearing her, many warriors around screamed in astonishment. Their eyes sparkled in strange light when they focused on her. Many male warriors felt their blood boil in excitement.

They heard that the female warriors of the Phantom Clan were born with glamor and they had mastered the mind technique. With a wink or laughter, they could capture people's souls. They were the beautiful dreams in the hearts of male warriors from many tribes.

Chapter 1389: Immortal Realm!

Among the seven clans, the Phantom Clan was mysterious and strange. Men would control everything in the other clans, but the Phantom Clan thought the opposite way.

Women ruled the Phantom Clan. They preferred female warriors as opposed to male warriors. Women held high positions in the Phantom Clan and most of the powerful experts in this clan were women. Women were the royals and the overlords of this clan.

The Phantom Clan women were famous for their glamor that could enchant people. Each of them was outstandingly beautiful with a graceful body and they all mastered the seducing technique with their innate talents. The Phantom Clan had so many warriors, but most of them were female.

The woman with the fearsome mask revealing her identity had stirred up the crowd of warriors gathering by the stone hall. They all shot lustful, naked looks at her. Some even gulped as if they hated that they couldn't swallow her right away.

The woman giggled and didn't mind those lecherous people. She just looked at Forefather Dragon Lizard and said gently. "I came here with sincerity. I'm very interested in the Immortal Pellets you have. I wonder what you want to exchange for these pellets?"

"Any materials, scriptures, or experiences that could help me reach the Territory Ancestor Realm. If I consider it useful, you can exchange it for Immortal Pellets."

Forefather Dragon Lizard's eyes became crimson. His muscles twisted with each other and looked like they were made of reinforced concrete. It gave people a sense of toughness and vigor. While talking, he stooped to see Audrey and Shi Yan inside the stone hall. He suddenly looked shocked as strange but brilliant light shot from his eyes.

Inside the training chamber, Shi Yan was emitting fire. His fire had many colors including yellow, orange, blue, and even green. So many flames flew around like beautiful butterflies dancing around him and released magical, colorful light.

A flow of energy that switched from cold to hot and vice versa continuously burst out. Different attributes of fire gathered and resulted in a hot, red flame!

Sizzle! Sizzle!

The stone hall was made of some kind of rare black iron and cold jade. At this moment, it sizzled like ice in boiled water. The entire hall melted.

While the heaven flames were burning, the massive stone hall was like an ice cream burning above the fire. Shortly after, the entire stone hall became water. Strangely, Audrey was cultivating in front of Shi Yan but she wasn't burned by the heaven flames. Her cold face turned slightly red, but she was still calm.

The soul filaments on her body were retrieved. She exhaled and relaxed. Eventually, she opened her eyes.

She jolted up. A cold light glided and she reappeared behind Shi Yan, her face vigilant.

Because the entire hall melted, Yvelines, Adams, and Masha felt so annoyed. They couldn't endure the terrifying heat of the heaven flame, so they had to move away.

The hall was melted, revealing Shi Yan who was sitting cross-legged with closed eyes.

People had their eyes fixed on him. They wore different visages and they were astounded. They had felt the aura of the Absolute Beginning creature's Original Flame, but Shi Yan wasn't an Absolute Beginning creature. People were confused.

Of course, it wasn't that no one knew anything about this. As soon as Shi Yan was revealed, Singh and the woman from the Phantom Clan had their eyes brighten. It seemed like they had recalled something through Shi Yan.

Singh especially suddenly laughed. His dark eyes lit up with a greedy light. He licked his lips. "He has a wisp of the Absolute Beginning creature's soul. Excellent! Really excellent! Muahaha!"

The beautiful eyes of the Phantom Clan woman twinkled. She quietly moved closer to Shi Yan.

Forefather Dragon Lizard frowned and spoke in a serious voice. "Ladies and gentlemen! I want to make it clear again. This kid is our Dragon Lizard Clan's distinguished guest! If anyone offends him, you're offending our Dragon Lizard Clan!"

Before he got out of the lava pond, Tu Shi Qi and Ya Yun had solemnly asked him to protect Shi Yan. Shi Yan had told him about the Soul Refining Cauldron, which had saved him from Singh's dark scheme.

From the bottom of his heart, he knew he owed Shi Yan a favor. Thus, he proactively agreed with them.

"Dragon Lizard, brother, it seems like you have hope for your breakthrough this time. You've been subtle for a long time. It turns out that you found a good seed. You make us admire you a lot," Singh suddenly laughed eccentrically, his laughter rising the hair on people's napes.

He assumed that Shi Yan was just a flesh cauldron that Dragon Lizard had found to help his breakthrough. He thought that Dragon Lizard nurtured Shi Yan so he could swallow Shi Yan later to absorb the Absolute Beginning creature's soul and make it a part of his Life Soul.

Almost every Absolute Beginning creature could understand Dark Energy. Shi Yan's realm was a little low. He couldn't fuse all the heaven flames or trigger the memories in the Absolute Beginning creature's soul he got. If Dragon Lizard refined him and opened the Absolute Beginning creature's soul, he would break through to Territory Ancestor Realm immediately and get the magical abilities of Dark Energy.

The cultivating technique of Dark Energy should be contained in the Absolute Beginning creature's soul. Singh thought that he knew what Dragon Lizard wanted to do.

Singh sneered inwardly as he was actually so excited. This trip to the Dragon Lizard Star was going to help him harvest a lot of good things.

Because of the Soul Refining Cauldron, he was sure that Dragon Lizard couldn't escape his hand. After he killed Dragon Lizard, he was going to kill and refine Shi Yan to get the memories of the Absolute Beginning creature's soul. He was going to break through to the Territory Ancestor Realm quickly and become one of the peerless experts of the Soul Clan. There wasn't going to be anything better than this.

"Forefather, even when you have him, do you still need the materials and secrets about the Territory Ancestor Realm?"

The masked woman of the Phantom Clan and Singh had the same thought. They had assumed that Shi Yan was Dragon Lizard's flesh cauldron that he had found to enter the Territory Ancestor Realm. After a while, she furrowed her brows as she thought that she couldn't get anything on this trip.

The aliens from different tribes couldn't understand anything. When Singh and the masked woman said this, they understood it immediately. They turned to Dragon Lizard as they all thought that Shi Yan was his flesh cauldron, which he planned to use to enter Territory Ancestor Realm.

Thus, they looked at Dragon Lizard, jealous and yearning.

Forefather Dragon Lizard didn't know how to deny this accusation. However, hearing them, he also had this evil intention. He looked at Shi Yan in the cultivating room, his eyes uncertain.

After he knew that Shi Yan got a wisp of an Absolute Beginning creature's soul, he knew if he could refine Shi Yan to trigger that wisp of soul, he could enter Territory Ancestor Realm. Anyway, Tu She Qi and Ya Yun had asked him to protect Shi Yan. The recent treaty he had just established with the Mysterious Sky Clan made him hesitant.

Watching Shi Yan, he pondered and struggled to make his choice. His eyes switched from dark to bright and around.

Audrey was nervous. She felt that the situation was really bad but she couldn't do anything. She could see Dragon Lizard hesitating and the purpose of Singh and the woman from the Phantom Clan. This situation wasn't good for them. She was so worried.

After Shi Yan had revealed his co-soul, the experts had become greedy. They all had a profound realm and she couldn't resist them.

Even though she had just reached Second Sky of Incipient God Realm.

She wanted to do something but she felt powerless. She looked at Shi Yan then Dragon Lizard, Singh, and the woman from the Phantom Clan. Then, she recognized that she couldn't stop any of them.

However, at this moment, her mind flickered as she turned to Shi Yan.

The bright, colored heaven flames were like young swallows returning homes. They entered Shi Yan's body. And then, Shi Yan's eyes opened.

His eyes were calm and indifferent. The aura around his body was concealed. He stood up in silence.

"He did it!"

"Too fast! He has broken through to the new realm too quickly! It's unimaginable!"

"Amazing, indeed! It took me three years to break through to the Immortal Realm that year!"

"Yeah, I spent more than one year!"

"How could he do it so fast?"

"It seems like Forefather Dragon Lizard has invested in him by giving him an Immortal Pellet. That pellet is so good to the Immortal Realm breakthrough. It can even shorten the time needed!"

"...."

The members of many tribes gathering here discussed with each other. They seemed very surprised.

The beautiful eyes of the masked woman brightened. She nodded and said gracefully, "Well, that's how the Immortal Pellet works! Really magical. It can shorten the time a lot. No wonder it attracted a lot of people to this area."

"Yeah, the result will be better with an Immortal Realm flesh cauldron! Haha, Dragon Lizard, brother. I wish you can enter the Territory Ancestor Realm soon!" Singh laughed and clasped his hand to congratulate Forefather Dragon Lizard. His smiling face was so irritating to many people.

Many warriors looked at Dragon Lizard who wore a strange face now. He looked as if he was struggling a lot inwardly to make a choice.

Shi Yan was strangely calm. He stood next to Audrey and raked through the crowd of hundreds of aliens. His eyes scanned the masked woman and Singh, but he didn't shoot a look at Forefather Dragon Lizard. Slowly, a strange smile was pulled on his face.

The Sea Domain of Nihilism behind him suddenly emitted strange waves of energy. The free sharp space sabers flying around suddenly flew over and hovered above his head like a saw-bladed scythe of Death.

Asteroids and broken pieces of stars slowly rolled over grumblingly. They swarmed like a shower of rocks and covered the entire area. However, the asteroids and pieces of rocks didn't fall. They just gathered with the space sabers. All hovered still.

Crack! Crack!

The ground underneath Shi Yan had so many terrifying cracks in different sizes. Shortly after, the Dragon Lizard Continent was torn into pieces.

Shi Yan stood still and his faint smile didn't cease. He turned to look at Audrey and said casually, "Don't worry. There are many warriors here who can defeat me. However, none of them are qualified to kill me! Haha!"

Then, dozens of giant space sabers above his heads moved as if they were giving him their confirmation. They maneuvered continuously like giant flying carriages by Shi Yan.

The asteroids and broken stars were also stimulated and rolling in the void.

Magically, the sharp space sabers and the asteroids didn't collide even a single time.

The beautiful eyes of the masked woman from the Phantom Clan looked shocked. She gazed at the keen space sabers and the massive rocks, her soft body shaking. She screamed in fear, "Space power Upanishad and Star power Upanishad have merged harmoniously!"

Even Singh discolored in fear.

In this Sea Domain of Nihilism, the asteroids and broken stars were everywhere. The sharp space sabers were murdering blades. The warriors who could use the asteroids and space sabers were the opponents that people feared the most in this Sea Domain. Space and Star power Upanishads were famous for their powerful and mysterious characteristics. The Sea Domain of Nihilism could strengthen the power of this sort of warrior massively. Thus, they were the absolutely toughest opponents in the sea domain.

This incident had baffled many people because they had never thought that Shi Yan had both Space and Star power Upanishads.

Dragon Lizard had to eliminate his bad thoughts. He smiled and said, "Little brother, you've done me a favor. How could I be so despicable to pay kindness with enmity? Where is my sense of honor?"

Chapter 1390: Instigate

The alien warriors from different tribes were gathering at the center of the continent that Dragon Lizard Star had just transformed into. They all looked at Shi Yan.

The Sea Domain of Nihilism had many rumors that the Absolute Beginning creatures could send a wisp of their souls into the warriors' head, which was an emergency exit they prepared. When the right time came, they could replace the warrior. Even if their souls were destroyed, they could resurrect themselves with just a wisp of a soul lodged in someone's head.

The warriors with the second soul couldn't activate the memories of the co-soul, which was actually the Absolute Beginning creature's soul, if their realms weren't profound enough. They would know nothing.

However, if another powerful Immortal Realm expert refined the soul of that sort of warrior, they could absorb the wisp of a soul of the Absolute Beginning creature. Then, they could obtain Dark Energy and the secret of the Absolute Beginning creature's intimidation. They could even learn the supernatural abilities of their power Upanishads.

That sort of warriors was the fatty, meaty dish that everyone drooled for. The experts at Third Sky of Immortal Realm would become greedy for them.

No doubt that Shi Yan was this type of warrior in their eyes. Even Forefather Dragon Lizard hesitated with many new thoughts after he found out about Shi Yan's secrets

To Forefather Dragon Lizard, there wasn't going to be any method faster than refining Shi Yan to absorb the Absolute Beginning creature's soul. It would boost him and help him enter the Territory Ancestor Realm rapidly.

In this area, there were two experts at his realm: Singh and the masked woman of the Phantom Clan. In their eyes, Shi Yan was also very attractive.

Of course, the second-class clans had experts at Second Sky of Immortal Realm and a smaller number of experts at Third Sky of Immortal Realm. Although they hadn't reached the peak, they were qualified to enter Territory Ancestor Realm. If they killed and absorbed Shi Yan, they could reach Territory Ancestor Realm like carps getting over a heavenly gate to become dragons.

It was truly irresistible!

If Shi Yan didn't show his powerful aura and his Space and Star power Upanishads, this scene would have become chaotic quickly.

Forefather Dragon Lizard was the first one who calmed down. Remembering what Tu Shi Qi and Ya Yun of the Mysterious Sky Clan had asked him to do, he woke up and eliminated the evil thoughts in his mind. He pulled on a tender face to show his attitude.

The asteroids, broken rocks, and sharp sabers circled above Shi Yan's head with earth-shaking auras. He glared at Forefather Dragon Lizard and pulled a strange smile. He nodded to Dragon Lizard and pretended to be scared, "I thought that forefather would attack me savagely."

Forefather Dragon Lizard was a little embarrassed. He just smiled and didn't know how to answer.

The corner of Shi Yan's mouth twitched as he was cold inwardly. He turned to Audrey and purposely spoke in Desolate Territory's language, "Are you okay? You've reached Second Sky of Incipient God Realm, right?"

Audrey was frightened. Immediately, she was panic-stricken.

Yuan Mo of the Water Tribe, and Tu Shi Qi and Ya Yun of the Mysterious Sky Clan had told Audrey and Shi Yan many times that they shouldn't speak Desolate Territory's language in any circumstance because they knew Singh yearned for Desolate Territory so much. They didn't want Singh or the warriors of the Earth Ghoul Tribe to recognize them.

Audrey knew that Shi Yan was a watchful person. She didn't know why he suddenly became careless at this challenge as he spoke in Desolate Territory's language to communicate in front of many people. He had even pitched his voice to make sure many people could hear him.

She looked at Singh instinctively.

Audrey became so anxious as she found that Singh now looked like a lewd rapist who saw a naked woman. He was so excited and he laughed crazily. He said loudly, "I have my iron shoes worn out from searching and I got nothing. But now, I get it without spending a bit of effort! Excellent! Excellent!"

"Shi Yan!" Audrey sounded bitter.

"It's okay. I want him to know," Shi Yan lowered his voice and sneered.

"Dragon Lizard brother!" Singh swayed and moved toward Forefather Dragon Lizard. With a smiling face, he pointed at Shi Yan and Audrey and said, "Can you give me one of them. Yeah, that woman is okay. I want one of them alive. I will repay this favor abundantly later!"

Forefather Dragon Lizard was astounded.

Audrey paled. She was so nervous as things had gotten out of the control. It became more awkward and dangerous than she had expected.

"I invited them here," Forefather Dragon Lizard had a grudge against Singh already. He was trying to press down his anger to calculate later. And now, Singh wanted to take his people away. His flame of wrath seemed to be brimming. He lowered his voice and said, "Singh, what are you doing? You've gone against me many times today. Do you think it's easy to bully our Dragon Lizard Clan?"

Singh had planned to wait until the festival ended to attack Forefather Dragon Lizard. However, because Shi Yan had "carelessly" revealed his identity as a warrior from Desolate Territory, he had ignited the flame in Singh's heart. "I just want one of them. I will only ask you once, Dragon Lizard brother. Will you give me her or not?"

He pointed at Audrey, "This woman! She's useless to your cultivation, Dragon Lizard brother. Give her to me, I will remember your favor!"

"Wanton!" Forefather Dragon Lizard couldn't press down his anger anymore. Singh had shouted at his face in front of many aliens from different tribes. His suppressed wrath burst out. "You really think that your Soul Clan is invincible? I'm going to fight against you. Let's see what power you have to insult me like that!"

Boom!

Just like an erupting volcano, a series of explosions arose from Forefather Dragon Lizard's clone body. Then, the ground underneath him cracked, revealing a deep pit where lava boiled and streamed on his body. Forefather Dragon Lizard's clone became like a flaming fluid that emitted terrifying and fierce energy fluctuations.

BOOM! BOOM! BOOM!

The Dragon Lizard Continent drifted apart. Pieces of broken stars and asteroids exploded and released formidable shockwaves. The scarlet fire shot out from the lava and turned into a fearsome, gigantic creature like a lizard. That creature was even bigger than the entire mountain range. It wasn't real matter, but it brought earth-shaking momentum.

The giant lizard was made of lava energy. It grabbed a big rock and squeezed it off. The shower of rocks shot toward Singh like arrows.

"I don't want to make a scene. Dragon Lizard, you have turned against my Soul Clan. I must correct you here." Singh wasn't afraid. He sneered darkly. The brutal souls bobbed behind him. They flew and aimed at the asteroid shower.

Crack! Crack!

The brutal souls pulled and crushed the asteroids into powder before they could reach Singh.

"That kid is really cunning!" The masked woman from the Phantom Clan coldly watched the battle between Forefather Dragon Lizard and Singh. She suddenly said, "If he didn't instigate this, Forefather Dragon Lizard and Singh wouldn't have started a battle this early. He has forced them to make it happen earlier. This kid is darkly devious, indeed."

She had known that Dragon Lizard and Singh didn't get along well as others had rumored. From their conversation, their fluctuating auras, and visages, she knew that they would fight against each other soon. However, Forefather Dragon Lizard and Singh had tried their best to conceal their conflict. Perhaps they didn't want to tear their cunning faces in front of many warriors.

However, Shi Yan had instigated them with his words. They lost their minds and began to attack each other crazily.

As soon as the battle started, she had focused on Shi Yan and became vigilant.

At this moment, Shi Yan's face changed. The space energy emerged layers over layers on his body, which guided the asteroids above his head to move around like windmills. Adams, Yvelines, and Masha of the Heavenly Eye Clan together with Audrey were pulled toward a spinning asteroid.

That asteroid moved like a shuttle between the spatial waves. Adams, Yvelines, Masha, and Audrey slowly faded as if they were about to disappear.

However, Shi Yan hadn't moved a bit. He wore an indifferent visage, but his eyes were so cold.

"That kid is from Desolate Territory. We met him on the way here," said Yuan Mo.

"People from Desolate Territory aren't plain. Desolate is an extremely powerful Absolute Beginning creature. Although it has secluded for many years, all the experts who know it have always admired and respected it!" said the masked woman in a low voice.

While talking, they were frightened as they looked at the void above the continent.

The asteroids, broken stars, and space blades above Shi Yan's head suddenly looked like they lost control. All revolved and made a downpour from the sky. The several-thousand-meter long space sabers were dazzlingly white like a shining blade that no one could stop. If they cut someone, that person was not likely to survive!

It was the natural, ruthless prestige of the Sea Domain of Nihilism!

When this brutal prestige was controlled and slashed down from the sky, it was going to be more lethal because of its accuracy.

"Did he lose his mind?!" Yuan Mo was frightened and screaming, "Move! Get away from his madness!"

The masked woman of the Phantom Clan was shivering in fear. Looking at the shining sharp blades above their heads, she couldn't endure it as the twisted space energy was troubling her mind. "What does he wants to do?!"

Just like them, the warriors of the other second-class and third-class clans were running for their lives while cursing Shi Yan's entire family. They hated that they couldn't kill him.

They could see that Shi Yan was controlling all the broken rocks and keen space blades.

Crack! Crack!

A several-thousand-meter-long space saber gashed Dragon Lizard Star. The ground of the continent was like tofu under a knife. A massive crack appeared where lava surged fiercely from deep underground.

An earth-shaking groan came from the ground. It was the indignant roar of Forefather Dragon Lizard's real body!

Forefather Dragon Lizard's clone fighting against Singh also got hurt. He threw Shi Yan an outraged look and cursed, "What the heck are you doing?"

Shi Yan was bewildered and giving him an embarrassed smile. He clasped his fist, "My bad, my bad. Please forgive me."

"Crazy! He's crazy, right?" On the asteroid that had drifted far away from Dragon Lizard Continent, Masha was so worried and pulling her hair. Looking at the chaotic Dragon Lizard Star, she got so fluttered. "What's going on?"

"I don't know," Yvelines forced a smile.

They all looked at Audrey with the hope that she could give them an answer. However, Audrey shook her head begrudgingly as the others were looking at her. "I don't know. It seems like he's trying to stir up Dragon Lizard Continent. It looks like he wants more people dead."

Then, she jolted back and stopped talking as she looked pensive.
