Chapter 1391: Lord of All Skies

Shi Yan knew that he was in an extremely good condition.

An Immortal Pellet had helped him break the bottleneck quickly. He had directly entered the Immortal Realm!

In this new realm, his body, the God power Ancient Tree, and the soul altar had transformed differently. However, the thing that had changed the most was his Dark Energy!

Today, in his body, besides the God power Ancient Tree as the source of energy, his Sea of Consciousness also had another source of energy!

The God power had nurtured him entirely. His body was filled with abundant energy. Dark Energy had changed and boosted his soul altar and made his power Upanishads more exquisite and profound. His host soul now was so vigorous and his soul altar now had an endless source of energy. Each wisp of his Soul Consciousness could reach out unceasingly.

Star and Space power Upanishads now had new changes. Thus, he could control the sharp space sabers as much as he wanted.

He could even feel the spatial blind spots around!

The so-called spatial blind spots were the mysterious spaces that the warriors could never sense. Only experts with profound space power Upanishad could grasp them. They could use the spatial blind spots to hide or burst out furious attacks.

Just like a room or a forest with shades, space had some areas that the ordinary warriors could never see. Those areas were called spatial blind spots.

Audrey, Yvelines, Adams, and Masha were standing on an asteroid that wasn't far from Dragon Star Continent. They could still watch the battle between Forefather Dragon Lizard and Singh and see what was happening over there.

However, many aliens on the continent couldn't see their asteroid.

It was because the asteroid was staying in a spatial blind spot. Except for the experts with Singh's, Forefather Dragon Lizard's, or the masked woman's realm, they could find those spots if they sensed very carefully.

In other words, in a short time, Audrey's group didn't need to worry about their safety. With the power of the experts with Space power Upanishad like Shi Yan, after he had reached the Immortal Realm, he wasn't afraid of Singh's or Forefather Dragon Lizard's wrath.

Swoosh! Swoosh! Swoosh!

The seven brutal souls were like ominous fiends that hovered around Forefather Dragon Lizard and attacked him. Dragon Lizard sneered and created a massive phantom of a lizard, his real form. The giant

scarlet lizard looked like it was made of fire and was wrestling with seven brutal souls that stirred the entire land. They made Dragon Lizard Continent look like it was about to shatter.

At this moment, the asteroids and shining space blades above Shi Yan's head were cutting and impacting with the land, tearing the entire continent.

When Singh and Dragon Lizard were fighting furiously, many aliens had become greedy and they wanted to seize the chance to capture Shi Yan and kill him to absorb his soul. They thought that they could reach the Territory Ancestor Realm if they got him. Some of them had discreetly and proactively prepared and approached him.

However, Shi Yan suddenly burst out crazily and guided a lot of broken stars and asteroids with the space blades, making them a huge downpour on those sneaky warriors. He had killed around ten warriors of the alien tribes in just a blink of an eye.

Those warriors' realms weren't low. Some had even reached Second Sky of Immortal Realm.

They had underestimated Shi Yan's intimidation and his brutality. The asteroids had blown them off and made them pieces of meat. The space sabers had minced them and left only their souls floating, shrieking and cursing maliciously.

Shi Yan didn't dare to show the Devouring power Upanishad's ability. He didn't release the black hole and just used his acupuncture points to absorb the energy and essence Qi from the dead warriors.

As he had just reached First Sky of Immortal Realm, his body was now a sponge that needed a lot of energy. Receiving the energy and Essence Qi of the dead made him feel so refreshed.

"I know you want to kill me and refine my soul to help you reach Territory Ancestor Realm." Shi Yan raked through the area, chuckled, and relaxed. "Anyone with this idea could come and check. Maybe you can succeed. Alright, I'm here to give you a chance and an opportunity to break through to Territory Ancestor Realm. You shouldn't let it slip away."

At this moment, Forefather Dragon Lizard and Singh were still attacking each other. Singh hadn't used his great weapon yet. He hadn't activated the power of the Soul Refining Cauldron as he wanted to wait for the most suitable time when the cauldron would kill Forefather Dragon Lizard in one attempt.

Forefather Dragon Lizard was resentful because of Singh's dark deeds, so he didn't want to show mercy. However, he was currently just a clone with limited power. He couldn't kill Singh directly. However, he had another plan, so he wasn't really anxious. He was also waiting for an opportunity.

He was waiting for the instant-kill attack by Tu Shi Qi and his wife Ya Yun!

As the two great experts couldn't even help themselves, the other warriors, of course, had their own ideas. They wanted to seize this chance to capture Shi Yan and then leave Dragon Lizard Star immediately. Perhaps they could claim victory this time.

The tragic death of the others was a big warning to them. Now, they knew that Shi Yan had the power to counterattack. However, as he had just reached First Sky of Immortal Realm, they thought that he had only those asteroids and broken stars as his weapon and that he depended on external forces.

Gradually, the real experts quietly moved toward Shi Yan. They looked stern and yearning.

“Should we take action now?” Yuan Mo of the Water Tribe was hesitant and asked for direction.

“Don’t rush.” The masked woman of the Phantom Tribe had deep eyes. She was several exploding mountain ranges away from Shi Yan. She stopped the Water Tribe from taking rash actions and smiled, “That kid isn’t as easy to deal with as he seems. If he dares to initiate the battle, of course, he has some good backup. We should just wait and see then.”

While talking, her line of sight moved around and then fell on the massive pit on the ground.

She could feel something strange. Forefather Dragon Lizard was acting strangely. She thought that there was something hiding deep underground.

“Bursting lightning!”

All of a sudden, a terrifying roar came. An alien warrior at Second Sky of Immortal Realm emerged in front of Shi Yan, lightning beams winding around his body like snakes. As soon as the wild snakes left his body, they swelled up and turned into dozens of bucket-sized lightning snakes. Those snakes were lively as if they were real. They could even spurt lightning and icy mist.

While dozens of large snakes flew away, they twisted and changed, turning into a curved formation. That formation looked like an electrical net with snakes as the lines that grumbly snatched over Shi Yan.

Rumble! Rumble! Rumble!

While the snake-like electric net was coming, the earth-shaking lightning and thunder had become more furious as if they wanted to drown Shi Yan altogether.

The sky was shadowed by the giant, lightning snakes. Shi Yan frowned. He found that this alien warrior had cultivated Lightning power Upanishad to the Immortal Realm, but his real fighting competence couldn’t be compared to Lei Di, the Immemorial Thunder Dragon, regardless of the realm or the intensity of God power. They were too different.

“Stars and asteroids!”

Shi Yan sat down cross-legged and lifted his head to watch the sky. The pupils in his eyes were as bright as stars. His eyes seemed to cover the stars in the skies as if he was the Lord of all skies.

The asteroids and broken stars hovering above his head began to lower like a falling galaxy.

Rumble! Rumble! Rumble!

So many lightning snakes in the sky were hit by the asteroids that were even bigger than entire mountain ranges. The meteors shot them and made the electrical beams scatter in the sky.

The attack by the warrior at Second Sky of Immortal Realm cultivating Lightning power Upanishad backfired. His body flashed and thundered. He looked charred as if he had just been roasted.

“Life magnetic field!”

Shi Yan grinned and shouted again. From him as the center, a vigorous life magnetic field expanded rapidly.

Anyone who came near the magnetic field couldn't control their bodies. Their hearts began to beat frantically. Their vitality was triggered and they reddened. They seemed to be pumped with endless energy in just a blink of an eye.

However, that energy came from their burning vitality, which wasn't something familiar with them so they couldn't control it. Their skin cracked and bled terribly.

— Wounds showed when the vitality was triggered hard and their bodies couldn't endure it. If they couldn't control it, they were going to quickly blow up.

"Life power Upanishad!"

The masked woman screamed in fear. Her soft and tender voice became sharp and ear-piercing. Her deep eyes shot out astounding light as if she had just discovered a whole new continent.

"Explode!"

Looking at a warrior at First Sky of Immortal Realm, Shi Yan grinned. At the same time, a hot look shot to that warrior and it seemed to ignite a sea of fire.

The body of that warrior was ultimately inflated like a balloon. He burst shortly after. His internal organs and flesh exploded into pieces and shot everywhere.

The scene was terribly bloody.

"I didn't know he was that strong!" Masha's soft body quivered while standing on the asteroid and hiding in the blind spot. Looking at Shi Yan, she was extremely frightened.

"Lucky us. We got a good sense and we didn't offend this God of slaughter." Adams forced a smile and felt very lucky.

Yvelines was pensive. His face convulsed and he felt so chilled.

The brutality that Shi Yan had performed was beyond what they could imagine. After reaching the Immortal Realm, Shi Yan had advanced greatly and his competence was amazing.

Audrey was close to Shi Yan but she was so astounded. She knew that Shi Yan was strong but she didn't expect Shi Yan to be that strong. He was truly powerful as he could kill Second Sky of Immortal Realm experts when he had just broken through to First Sky of Immortal Realm. It was unimaginable and it was against the rules of Nature.

"The realms of the warriors in the Sea Domain of Nihility aren't low, but their competencies are too... ordinary. They're not as fierce as Xuan He, Frederick, or Lei Di. Strange..." Shi Yan was also surprised.

He found that some of the warriors he had just killed had the same realm as Xuan He and Lei Di but the power they showed and their understanding of power Upanishads weren't as powerful as Xuan He or Frederick's. They were obviously one level lower than the others.

Shi Yan didn't know that the top existences in Desolate Territory like Xuan He and Frederick were the overlords in the area ten thousand years ago. After they had received the power Upanishads from

Bloodthirsty, their realms and power had advanced greatly. After ten thousand years of accumulation, they were all formidable characters at the ultimate level.

Xuan He and Frederick could compare to the same-realm warriors from the Seven Great Clans in this Sea Domain of Nihility!

The warriors fighting against Shi Yan here belonged to third-class and second-class clans. They couldn't be compared to the members of the Seven Great Clans. It was the main reason why Shi Yan felt that they were so weak.

Chapter 1392: Conceal

The asteroids and broken stars in the sky fell and one warrior cultivating Lighting power Upanishad exploded to death.

The void above Shi Yan's head became clear.

Three aliens at Second Sky of Immortal Realm that stormed toward Shi Yan were like moths heading to a fire. They finally showed their fangs. The icy mist, strong winds, and sharp metal power emerged from their bodies, which were enough to tear this continent and dismember the ordinary warriors at First Sky of Immortal Realm.

Now, Shi Yan without the asteroids and broken pieces of stars flying around him was like a hedgehog without spikes in their eyes.

Shi Yan, their delicious meat, squinted. His face was calm as he sat still.

The Phantom woman gently parted her lips to a smile as she was interested. Her laughter arose when she wormed between the three alien experts.

Her graceful, voluptuous body quivered and a powerful energy that could collapse the souls rippled through her.

"Ptui!"

The three aliens at Second Sky of Immortal Realm vomited blood. Their faces were as pale as a sheet of white paper. They clutched their hearts and foreheads, running away even though their chests were bleeding hard.

The stronger experts who were waiting patiently had to change their countenances and plans to hide.

No one dared to approach recklessly.

"You're really fierce," the soft voice that could enchant people's souls arose. She stopped around ten meters in front of Shi Yan and studied him.

Shi Yan furrowed his brows.

The woman in front of him was so sexy. Shi Yan almost couldn't control his fire of desire as he saw her round rear end bounce. Her fearsome mask had accompanied her marvelous, seductive body well, giving her a more powerful attractiveness. She made people imagine her face under the mask and become more curious.

The scorching aura in the tier of heaven flames changed instantly. A flow of cold energy flooded the Sea of Consciousness and spread to his entire body. It was indeed chilled to the bones.

He had recovered his calmness and said indifferently, "Precursor, what do you want to tell me?"

"Nah, call me jie-jie. I like it when you call me that." The woman giggled softly, her voice so tender as if she didn't have any bones at all. "Jie-jie wants to discuss something with you. If you agree with me, I will help you shoo these annoying bastards away. What do you think?"

She raked through the others and said, "Yeah, I know you're fierce. You've just broken through to a new realm anyway. It would be a headache for you to deal with so many venomous snakes. As long as you nod your head, jie-jie will treat you well. I will delight you for sure."

People gulped as her eyes glided through them. Those who were hiding had relatively high realms.

"What do you want me to agree with you?" Slowly, Shi Yan's brows became frosted. To deal with this woman's mind tricking technique, he had to consume his God power every minute. It was a little tough, though.

He was discreetly frightened as he found that this woman from the Phantom Clan wasn't weaker than Singh or Dragon Lizard.

"Well, come to my Phantom Clan and become our clan's Male Guest. Yeah, I can let you marry a girl in our clan. You can freely use the cultivating materials of our clan." The woman had watery eyes, which made people drool for her.

The warriors of the other clans cried in surprise.

The Male Guest of the Phantom Clan was similar to the Nonnative Officer of the Mysterious Sky Clan. The Phantom Clan offered them materials to cultivate to exchange for their efforts in supporting the clan.

Each Male Guest could choose a woman of the beautiful Phantom Clan to be his wife.

Also, women of the Phantom Clan were famous for their glamor in this Sea Domain. Many people had yearned for their beauties.

She had just invited Shi Yan to join Phantom Clan.

"What a slut!" Audrey shouted with a cold face on the asteroid.

Masha threw her a glance and smiled. She knew that Audrey and Shi Yan had an ambiguous relationship. The Phantom Clan's invitation had enraged her.

Audrey's eyes were like ice arrows shooting toward Shi Yan. Her look carried her soul power.

Shi Yan couldn't help but turn around and look at the void in the sky. His eyes seemed to get through the spatial blind spot as he gazed at Audrey.

Audrey was stunned. She didn't expect that Shi Yan could see her through such a distance.

Audrey's cold face suddenly felt hot and she blushed. She hurried to retreat and hid behind Masha.

Shi Yan smiled and didn't look more. He turned to the masked woman, "Not interested."

The masked woman stopped, her eyes cold. She nodded and said nothing else before walking back to Yuan Mo of the Water Tribe.

Then, the warriors here suddenly burst out as if their madness had just been triggered. They became angry and attacked Shi Yan fearlessly.

Yuan Mo felt so chilled. He glanced at the masked woman and bent his body.

It was the fierce, intimidating power of the Phantom Clan. Each woman of the clan had an excellent cultivation base and outstanding competencies. They could enchant people when they hadn't recognized it, which made those female warriors able to control the enchanted warriors. This power was innate and every female warrior of the Phantom Clan could do that smoothly.

Currently, many warriors of the alien tribes were affected. They became bold and fearless, trying to attack Shi Yan explicitly without waiting for the right chance. They didn't even care about their lives.

"You're bold," Shi Yan hissed at the woman and stomped his feet. The stone ground underneath exploded grumblingly. Countless pieces of stones swept around like a powerful storm.

When the rocks covered the entire sky, Shi Yan became vague in layers of waves rippling.

He disappeared abruptly.

Dozens of male aliens stormed toward him. Ten of them had reached Second Sky of Immortal Realm and one even was at Third Sky of Immortal Realm!

Those warriors had lost their minds. They weren't afraid of death and they all wanted to kill him.

He couldn't help but decide to dodge the spear. He pumped Dark Energy into his veins to turn invisible immediately.

Naked eyes couldn't see him and the Soul Consciousness couldn't sense him. He was literally invisible.

Even the Phantom woman was surprised. Her beautiful eyes twinkled as she used her power Upanishad to find him. She found it peculiar, indeed. She thought that his Space power Upanishad was really marvelous as she couldn't even spot him.

Suddenly, her sexy body shivered. She suddenly remembered something, her beautiful eyes excited.

It was the effect of Dark Energy!

Her red painted fingernails dug into her flesh as she was so excited. Her flashing eyes searched around.

BOOM!

A six-armed brutal soul with a dragon body had punched the giant lizard continuously. Thunder had shaken the entire horizon.

Forefather Dragon Lizard's clone had a red face while rigid muscles on his body convulsed and sent high flames to the void. Then, he flew to the giant lizard and merged with it.

“Dragon Lizard, you’re forcing me!”

Singh was about to use his real flame. The mountain of souls and spirits under his feet suddenly screeched and shrieked. The ten-thousand-meter-tall brutal souls flew out. They all had strange shapes and wildly bit the giant lizard.

At the same time, a jade bell emerged in Singh’s hand. If Audrey and the other three could see the bell, they would find that its material was very similar to the three-legged jade cauldron. The bell itself had so many Absolute Beginning symbols on the surface too.

Tinkle! Tinkle!

Singh jingled the bell. The symbols on the bell looked lively and they moved like snakes.

The chunk of meat that Dragon Lizard had cut off from his body deep underground was shriveling rapidly as the energy and Blood Qi were taken away. Shortly after, it became dry meat without blood and water.

“Finally, he takes action!”

Tu Shi Qi and Ya Yun looked shaken. They immediately stormed to the cave underground.

“GRRRRR! ARGHHH!”

Forefather Dragon Lizard’s real body groaned and roared accordingly. The entire continent shook. Mountains collapsed. Rocks exploded. Dragon Lizard Star was about to be destroyed.

On the ground, Forefather Dragon Lizard’s clone acted well. He clutched his chest and rolled on the ground with a fierce countenance. “Singh! What have you done to me?!”

Singh didn’t answer him. While using the giant brutal soul to fatally attack the forefather, he didn’t stay idle and immediately entered the cave. He wanted to find and kill Forefather Dragon Lizard’s real body underground.

The woman from the Phantom Clan wanted to find Shi Yan. However, when she saw that Singh and Dragon Lizard had some critical changes, her eyes became bright and her thoughts changed.

The aliens who were slashing and killing each other after their target had disappeared and suddenly changed their target. They all squeezed to get into the cave that Singh had just jumped into.

That cave was oozing lava. Lava oozed out from that cave as it had connected directly to deep inside Dragon Lizard Star, which was leading to Forefather Dragon Lizard’s real body.

The woman chuckled and gave up on finding Shi Yan. She walked to Dragon Lizard’s clone that was groaning in pain. She carefully avoided the blood puddles on the ground in her way. “It seems like you have the Soul Refining Cauldron in your body. Hmm, as Singh has attacked you with the Soul Refining Cauldron, I think you can’t escape this kalpa.”

She loomed over Dragon Lizard’s clone and said seriously, “Give me the other two Immortal Pellets. I promise I will save some seeds for your clan. I won’t let your clan be eradicated.”

She turned to Du Lei, Di Feng, and Walker. She said sincerely, “They’re at Second Sky of Immortal Realm. If our Phantom Clan protects them and if they can reach the Territory Ancestor Realm in the future, your Dragon Lizard Clan will have a chance to rise. It’s your last chance. I hope you will consider my offer carefully.”

“Forefather!”

“Forefather!”

“Forefather!”

Du Lei and the other two screamed, dashing toward with worried faces.

Forefather Dragon Lizard’s whimpered clone suddenly quieted. A bloodthirsty, ruthless intention emerged in his eyes as he answered calmly. “Well, we Dragon Lizard Clan don’t need your Phantom Clan to put your nose in our business.”

The Phantom Clan woman discolored in fright.

Chapter 1393: Goddess’ Gorgeous Dance

“Oh, you!”

The Phantom Clan masked woman pointed her green, onion-like finger to Forefather Dragon Lizard’s clone and screamed in surprise.

Du Lei and the other two were also bewildered.

Forefather Dragon Lizard snorted and lifted his head to look at the crocodile brutal soul. He roared and the massive scarlet lizard got more pumped vitality. It rolled and roared like a dragon. Now, it was as powerful as that giant crocodile.

Dragon Lizard Continent was shaking continuously. It seemed like the sky was about to fall. The flaming lava oozed from many pits and ditches on the ground.

The entire continent became red. At the same time, many red-brown rocks were throbbing as if they were some sort of strange hearts.

Roaring and bellowing continuously arose from deep underground. It seemed like Forefather Dragon Lizard’s true body underground had to endure formidable pain and he was struggling for the last time before his death.

The warriors from the smaller clans were frightened when they observed the changes of the continent. They wanted to do something, but they knew they weren’t strong enough.

Many people now had no interest in the Dragon Lizard Clan’s bustling festival. They silently left the place and stayed away from this land of trouble.

Also, a bigger group of warriors thought that it would be their chance as they were confident in their abilities. Thus, they stayed and hid in the dark to wait for the right chance.

“I’ve acted rashly. Forefather Dragon Lizard, please forgive me,” the Phantom masked woman reacted timely. She recovered, smiling and talking in her sweet, soft voice. “Seems like you’ve prepared well. Right. I hate that Singh of the Soul Clan too. I wish for your victory, Forefather.”

Then, she flew away. After a flash, she reappeared by Yuan Mo of the Water Tribe and said coldly. “Singh will be over this time!”

“Singh is also at the Peak of Immortal Realm. He’s as strong as Forefather Dragon Lizard. Even if they ambush him, he won’t die, will he?” Yuan Mo was inexplicably surprised.

The masked woman looked at the lava pond, strange light flashing in her eyes. “Tu Shi Qi and his wife Ya Yun from the Mysterious Sky Clan should be hiding in the ground and waiting for Singh. With Forefather Dragon Lizard’s real body, I think Singh can’t dodge this kalpa. The subterranean lava pond is where Forefather Dragon Lizard’s true body lives. I’m sure he has refined it to be very strong and tough. Singh can’t escape.”

Yuan Mo was frightened. “Since when did Forefather Dragon Lizard and the Mysterious Sky Clan join hands?”

The masked woman shook her head.

She didn’t answer him but she thought of another idea. With her magical Soul Consciousness at Third Sky of Immortal Realm, she quietly searched around.

She came to a new decision. Forefather Dragon Lizard wasn’t trapped and Singh couldn’t get out of it alive. She knew that she couldn’t seize the chance and take the Immortal Pellets from Forefather Dragon Lizard. Thus, Shi Yan was going to be her next target for her benefits.

He had a soul wisp from an Absolute Beginning creature. He understood Dark Energy. Absolutely, he was a precious treasure in this world. Even if she couldn’t get him for the Phantom Clan, she would never let another force benefit from him.

She wanted to check Shi Yan’s direction and location.

Swoosh! Swoosh! Swoosh!

A brutal soul that had swallowed thousands of departed souls to be stronger was also attacking the lizard together with the crocodile. This brutal soul was the most special among the seven brutal souls Singh had. It was because this brutal soul had a human form. Although he was dozens of times taller than a normal person, he appeared and acted like a human.

This brutal soul was Ming Hong, an expert and Audrey’s ancestor.

After he was refined and made a brutal soul, when Singh fought against the others, he couldn’t control himself. He had to cooperate with Singh to attack his enemies. Right now, he was attacking the giant lizard although he didn’t want to do it.

A magical energy wave arose deep in his soul. Ming Hong was bewildered while tearing the lizard.

A message bloomed in his mind. "I am Shi Yan from Desolate Territory, just like you. My friend is called Audrey. She's the daughter of Adele, the current Matriarch of Imperial Dark Tribe. An Absolute Beginning creature called Hui had sent us here to this Sea Domain of Nihilicity. We are lost. We don't know how to go back home..."

Ming Hong turned into a brutal soul and joined hands with the ten-thousand-meter-long crocodile to attack the giant lizard. However, this soul message still echoed in his head.

"We want to return to Desolate Territory and we want to unchain you too. How can we help you?" that voice still talked to him.

Ming Hong was so thrilled.

"Adele's daughter! She's Adele's daughter!" He screamed in his soul.

He was in the same generation as Ming Hao and Adele's grandfather, so he was about as old as Audrey's great-grandfather. He had taught Ming Hao, so he knew Ming Hao had a blood sister called Adele. Thus, his relationship with Audrey wasn't shallow.

Even without this relationship, because Audrey was from Imperial Dark Tribe, he was going to try his best to help them.

— He knew this as soon as he came and found Audrey cultivating.

She's one of us! One of us!

As soon as Ming Hong confirmed this, he discreetly communicated with Shi Yan while engaging with the giant lizard.

Currently, Forefather Dragon Lizard's clone had advised Du Lei, Di Feng, and Walker before jumping into the ground and leaving only the phantom of the massive lizard created by his energy. That phantom was engaging with the giant crocodile and Ming Hong, leaving them no extra time to help Singh.

Thus, Ming Hong didn't have heavy pressure. Although he couldn't control his body, his soul connection wasn't restricted.

"If Singh isn't dead, I can't be released. If Singh is killed, I can escape. I know the entrance to Desolate Territory. As long as I'm freed, I can take you guys back to Desolate Territory," said Ming Hong.

"Don't worry. Singh will die this time. I have no doubt. Besides Forefather Dragon Lizard, Tu Shi Qi and his wife Ya Yun from the Mysterious Sky Clan are underground too. Forefather Dragon Lizard has set up something. If Singh has the guts to come down, he shouldn't dream of running away!" assured Shi Yan.

Ming Hong was thrilled upon listening to him. He screamed, "As long as Singh is killed, I can escape his bind. Then, I will give Audrey a big surprise!"

"What surprise?"

"Ah, it's our Imperial Dark Tribe's business. Don't ask too much."

The masked woman from the Phantom Tribe had her dark eyes brightened.

She took action one more time. Shortly after, she came to the cave that led to the underground. Lifting her head to look at the crocodile and the lizard fighting, she parted her lips into a smile.

While smiling, she rose one arm to pull something.

Thud!

A gray shadow materialized in front of her on the dusted ground. That was Shi Yan who had gone invisible.

“My good little brother, what are you doing? Sneaking something?” She smiled and agilely walked towards Shi Yan. “Yeah, you and Forefather Dragon Lizard should have some dark agreement, right? I can tell. You have cooperated with Forefather Dragon Lizard and Tu Shi Qi of the Mysterious Sky Clan. Haha, you little evil runt. You made Singh and Forefather Dragon Lizard fight against each other sooner than planned.”

Shi Yan felt chilled. Looking at the smiling, approaching woman, he felt a massive mountain press on his soul.

That masked woman gave him a terrible threat. Currently, Forefather Dragon Lizard, Singh, and Tu Shi Qi were fighting underground. She thought that it was the right chance for her. She couldn't help but take action to trouble Shi Yan.

Crack! Crack!

Shi Yan's skeleton sounded like metal clanging. So many sharp spikes jutted out from his joints. A pair of bone wings appeared on his back.

While his body was transforming, his Blood Qi rose high. His life energy and power began to surge.

His eyes became crimson like blood. The acupuncture points in his entire body gathered the Essence Qi of the dead warriors. A ruthless light shot out from his head and reached up into the sky like a towering, garnet tree.

Thump! Thump! Thump!

His heart beat faster like rapid drumbeats. After each beat, his blood boiled and burned harder.

Swoosh! Swoosh! Swoosh!

With Shi Yan as the center, the broken stars and rocks around suddenly floated up. Dozens of thousands of rocks wildly twirled in the void like stars in a galaxy. A current of powerful Star energy came from nowhere and poured into this strange star formation.

Boom!

That eccentric star formation emitted a cold, eliminating aura. Each starlight beam could even destroy a whole planet. Bunches of beams bombarded the masked woman.

The masked woman no longer smiled. Her dark eyes were filled with panic. When the starlight beam shot toward her, her fearsome mask cracked as if it had to bear heavy pressure.

“You’re heartless. You’re so cruel to jie-jie. You really do want to smash the flower!”

The soft body of that masked woman began to twist as she was dancing. Countless illusions of sexy women flew out of her body. Those women wore flimsy, silky clothes, holding jade trays or fruits. Some even were undressing. They smiled charmingly and seducing, and approached Shi Yan.

Starlight shone on them.

Innumerable illusions of young maids turned into ashes. After one of them was destroyed, the power of the starlight was slightly reduced. The masked woman shivered as if her energy was drained.

Eventually, there were no more starlight beams. They were all gone. However, many sexy women were still dancing and floating one after another, giggling while going closer to Shi Yan. They wanted to pull him into their sweet aroma and make him never wake up.

“You evil kid. You disregarded my good intentions. You smashed my heart. Yeah, I’m begrudging. I can only invite you to our Phantom Clan. Well, we’re going to enjoy the best things there. Don’t worry. Jie-jie won’t mistreat you. What the Mysterious Sky Clan can offer, we can too. Our Phantom women are more beautiful than the Mysterious Sky woman. I’m sure you will sink and you won’t want to leave.”

The masked woman chuckled and looked at so many gorgeous but vulgar woman entangling Shi Yan. She finally exhaled in relief.

Her Goddess’ Gorgeous Dance was the exclusive mind enchanting technique of the Phantom Clan. It worked on every male creature in this world. She had never failed when using this technique.

She believed that even he was made of steel, those beautiful women made of her Soul Consciousness could melt him down.

So many Goddesses, which were the representatives of Lust, were seducing and enchanting as they attacked Shi Yan.

Shi Yan had hot eyes as if he was aroused. He stood still and didn’t have any reaction while so many gorgeous Goddesses were clutching his arms and calves and pulling him toward the masked woman.

The masked woman giggled happily.

Chapter 1394: Dragon Lizard’s True Body

Shi Yan was flying happily in his sweet dreams. He couldn’t control himself and he just let himself fall into the enemy’s hands.

In his erotic dream, he saw a warm, clear river where he was soaking with around ten hot, voluptuous bodies who were wholeheartedly delighting him...

The mind enchanting technique of the Phantom Clan wasn’t a power Upanishad. It was their innate talent, which wasn’t different from the third eye of the Heavenly Eye Clan. The mind enchanting

technique aimed at the lusty desires that men hid in their hearts. Through that desire, they were controlled.

Usually with his tough mind, Shi Yan didn't yield that way. However, as he had just reached the Immortal Realm and his acupuncture had just swallowed too much essence Qi from the dead, his body was filled with a large amount of negative energy. The negative emotions like brutality, bloodthirstiness and even lechery he had subdued didn't affect him in normal cases.

However, as the masked woman had used the mind technique to seduce him, it was like she had just ignited dry wood: his confined lust burst out and rocketed massively, driving him away from the right direction.

The masked woman had chosen the right time to use her mind seducing technique.

The masked woman's eyes were so charming when she gently smiled and danced. More beautiful women flew out from her and entangled with the young man.

Shi Yan smiled lustily and proactively dashed toward the masked woman as the sexy bodies leaned against his body.

"Jie-jie will treat you well. As long as you come to our Phantom clan, I'm sure you will forget anything but joy. Come. I'm taking you with me..."

The masked woman's soft laughter could intrude the Sea of Consciousness. Some male aliens, even though they were very far from her, had their blood boil. Their breathing shortened as they were trying hard to suppress their erotic desires.

Soon, Shi Yan was forced to walk to the masked woman while the illusory women she had released were surrounding him.

"Yuan Mo, don't worry about your Water Tribe. Our Phantom Clan will take care of you guys," smiled the masked woman. As she saw the strange expression on Yuan Mo's handsome face, she knew that he was also affected by her mind enchanting technique. She felt disdainful but still smiled at him. "I won't involve myself in the matter here. Yeah, you Water Tribe should leave early too."

Her white neck craned as she looked at the dark and cold void. She seemed to call for something there.

Swish!

A dazzling light shot over. After the intense light vanished, a seven-colored crystal war chariot was exposed. It was in a rhombus shape and twinkling like stars in the sky.

She moved quickly and then landed on the war chariot while the illusory women were floating Shi Yan up. They also landed on the seven-colored crystal war chariot.

"Let's go," her jade-like hand tapped the war chariot.

The crystal war chariot zoomed through the darkness like a starlight beam and tried to fly away from this land of trouble.

GRRRRROOOOARRR!

Forefather Dragon Lizard's true body howled from deep underground. Abruptly, sixteen asteroids outside the continent happened to be like exploding hedgehogs. They shot billions of flaming spikes toward Dragon Lizard Continent.

Boom! Boom! Boom!

In just a blink of an eye, the crystal war chariot was pierced through. The flaming spikes had shot through it and left thumb-sized holes on the chariot's body, making it look like a beehive.

The control mechanism broke. The war chariot stopped.

The masked woman became cold. She looked at Dragon Lizard Continent underneath. Her slender fingers clutched Shi Yan's arm. She wanted to run away and sway through the shower of flaming spikes to leave Dragon Lizard Continent quickly.

BOOM! BOOM!

Deep under the ground of the continent came earth-destroying explosions. Dragon Lizard Continent drifted into different pieces. Shortly after, the entire continent was divided and turned into a sea of asteroids in just a blink of an eye.

A beast of around ten million meters rose. Its body was garnet and it emerged on the corner of an icy mountain when the continent drifted apart. Its back had humps.

Its dark red body looked like a long mountain range that carried hundreds of asteroids. When its back shook, those asteroids exploded.

Right after that, the real appearance of the massive beast came to people's sights. It was covered in garnet, flaming scales. It had a fearsome head that looked like a dragon head while dragging a mountain range-long tail. The giant lizard opened its mouth and boiling lava streamed out massively.

It was the real body of Forefather Dragon Lizard! It was the real Forefather Dragon Lizard!

As soon as Dragon Lizard's true body emerged, the massive lizard phantom that was fighting with the crocodile immediately retreated and disappeared into the dark red eyes of Dragon Lizard.

ROARRR!

Dragon Lizard faced the sky and roared indignantly. A stream of lava shot out of his mouth like a meteor.

The Phantom masked woman grabbed Shi Yan and attempted to escape. The fire on the crystal war chariot had just extinguished and the woman hadn't moved yet before the lava stream covered her. She changed her visage and immediately urged her power Upanishad and God power. The brilliant, rainbow-like energy quickly weaved and created a curtain.

The brilliant curtain covers both the woman and Shi Yan, protecting them from the lava river.

However, it wasn't easy to get rid of this flaming river.

— She was temporarily confined.

She glared at Dragon Lizard's head and found two small dots with the human shape. Unexpectedly, they were Tu Shi Qi and his wife Ya Yun. At this moment, they were looking at her, their faces conveying nothing positive.

Her bright eyes scanned quickly around to find Singh. She saw helter-skelter Singh flying to the massive crocodile and Ming Hong. Now, he had seven brutal souls congregated. However, five of them were dying and their bodies were shrinking to a third of its original size.

The five dying brutal souls were the ones following Singh to the ground to kill Dragon Lizard's true body. Evidently, Singh was very injured. He couldn't get what he wanted and he was severely wounded.

"Dragon Lizard bother, why do you have to do this?" Singh's eyes sparkled. He was pale and bleeding at his mouth, stomach, and back. He sat on the head of the crocodile and said darkly, "You, Tu Shi Qi, and Ya Yun ambushed me to wound me. So what? I'm the Sou Clan's Commander. Do you dare to kill me? Do you want your Dragon Lizard Clan to be hunted down to the last member? You think the Mysterious Sky Clan can protect your clan?"

"Dragon Lizard! I'm not interested in the conflict between you and the Soul Clan. I don't want to trade with you anymore. I just want to leave this place. Why did you stop me? Do you want to turn our Phantom Clan into your enemy too? Do you think you can endure that?" The masked woman from the Phantom Clan was trapped inside the streaming lava in the void. Her bright eyes were cold as she shouted.

At this moment, many aliens from the small clans discreetly moved away. They knew that the current situation wasn't something they could engage in.

However, some of them still hid nearby or observed from a distance.

Those warriors were real experts at Second or Third Sky of Immortal Realm. Perhaps their clans couldn't resist the Soul Clan, Mysterious Sky Clan, or Phantom Clan. However, they personally had the power and qualifications to fight against Forefather Dragon Lizard and Singh.

Many of them were advancing quietly and taking off from their asteroids, which were now a part of the sea of asteroids. Discreetly, they approached the masked woman.

They paid attention to Shi Yan and tried to capture Shi Yan from the masked woman. He was their chance to break through the Territory Ancestor Realm!

"Drop Shi Yan and I'll let you go. I will also give you an Immortal Pellet." Forefather Dragon Lizard's true body thundered. His dark red eyes were as big as stars gazing at the masked woman. Then, his massive head turned to Singh and he roared, "Singh! Anybody can leave but you! This time, even if I have to use all that I have, I must kill you!"

Swoosh! Swoosh! Swoosh!

Dragon Lizard's massive claws rose and grabbed a mountain-sized asteroid that he threw at Singh.

That asteroid was black and rigid with energy from his body. It could even smash a small sized planet. His giant claw could even shadow the light from the horizon and it threatened terrifyingly people.

Singh wore a cold and dark face. "You don't really appreciate kindness!"

The massive crocodile underneath him roared and swallowed the five dying souls. Instantly, its body and power had increased by three times. The brutal soul in the crocodile form slowly became real matter.

At this moment, the giant crocodile looked as if it was made of black iron. A dark and sinister aura flew out of the beast. Singh controlled the massive crocodile to use its rigid body to shield the asteroid. Its body then sent many sparks into the void.

It had become real!

"Kill him!" Singh shouted. The massive crocodile roared at Forefather Dragon Lizard's real body. Singh sneered, took out a bell, and shook it hard.

Crack! Crack!

The massive asteroids underneath cracked. The Soul Clan's Soul Refining Cauldron got out of the ground, flew up, and floated above Singh's head.

The three-legged cauldron was as big as a mountain. It slowly spun above Singh's head. So many mysterious symbols twinkled. They then transformed into countless magical souls. The malicious aura from those symbols was slowly condensing.

"Hey, let's discuss a little," Singh suddenly turned to the Phantom masked woman. "You and I join hands to deal with Dragon Lizard and the Mysterious Sky Clan. Then, you take the kid. I want Dragon Lizard's and Tu Shi Qi's lives. I also want the girl accompanying that kid. You will receive the two Immortal Pellets from Dragon Lizard. What do you think?"

Hearing him, Forefather Dragon Lizard was outraged. Tu Shi Qi's mind shivered.

The masked woman from the Phantom Clan had her eyes brighten as she giggled. "Good suggestion. I'm interested. Well, Forefather Dragon Lizard isn't letting me go. I'll stay then."

Her face turned cold as she hissed, "Singh, you deal with Forefather Dragon Lizard. I'll help you defeat Tu Shi Qi and his wife!"

Singh was excited. He couldn't help but grin fiendishly.

Singh was one level weaker than Dragon Lizard and he got hit while fighting underground. Even if he got the Soul Refining Cauldron, an Absolute Beginning divine weapon, he couldn't deal with Tu Shi Qi and his wife. However, if the masked woman of the Phantom Clan helped him, he could overturn the situation!

He had checked and knew that this masked woman had a profound realm and her competence was deeply immeasurable.

If they joined hands, he could take Dragon Lizard to nurture the Soul Refining Cauldron, which was the promise he made to the expert in his clan. Also, he could use Audrey to enter Desolate Territory and refine Desolate. If he had to let Shi Yan go to exchange for many things, this business was still going to be excellent for him.

God of Slaughter

Chapter 1395: A Matter of Life or Death

The masked woman frankly agreed with Singh's suggestion. Forefather Dragon Lizard and Tu Shi Qi were so tense.

"Soul Change!"

Singh shook the bell and shouted. The Absolute Beginning symbols on the Soul Refining Cauldron were like twinkling stars. They suddenly radiated beautiful, divine lights. Those tadpole symbols flew out of the surface of the cauldron and stuck on the giant brutal soul in a crocodile shape.

This brutal soul was extremely intimidating when it was alive. Singh had spent hundreds of years refining it and making it the leader of the seven great brutal souls. It was related to Singh's life, so it was almost his Life Treasure.

The massive crocodile had absorbed the Absolute Beginning symbols from the Soul Refining Cauldron and its body had materialized. It had been strengthened several times. Unexpectedly, it was almost as strong as Forefather Dragon Lizard's true body. The crocodile faced the sky and roared indignantly. The dark clouds stormed thickly. Lightning flashed and thunder boomed inside the dark clouds as if someone had just summoned demons.

Forefather Dragon Lizard looked stern. His scarlet eyes were like eccentric stars with a bloodthirsty aura.

"Flame refine the earth!"

Dragon Lizard roared. Lava spurted out from his scaled body. The lava was scorching hot and flooding the entire sea of asteroids as if the ocean had submerged the entire continent.

Dragon Lizard hovered in the middle of the boiling lava and created high waves that attacked the giant crocodile.

The giant crocodile howled. The torrential dark clouds above its head were like a collapsing mountain. Lightning beams danced inside the dark clouds and struck the lava sea. The giant crocodile forcefully plunged, entangling and tearing Forefather Dragon Lizard's real body.

The two fearsome, dangerous beasts attacked each other fiercely. They had stirred up the entire place and affected the Sea Domain of Nihilism. The asteroids were struck away and flying in many directions.

Many warriors hiding in the dark hadn't expected such attacks. The lava covered them and put them on fire.

Shortly, they became coals.

The warriors with profound realms had retreated earlier. They continued to stay concealed and watched the situation.

As Singh began to attack them, Tu Shi Qi and Ya Yun stood on Forefather Dragon Lizard's head and continuously muttered to him. They told him about the magical features of the cauldron. Also, they were accumulating energy to counterattack Singh.

Singh's brutal souls were his source of power. The energies from his body and power Upanishads were poured into the massive crocodile unceasingly.

Singh was floating under the Soul Refining Cauldron, gathering his energy and using the bell to control it.

The Soul Refining Cauldron was an Absolute Beginning divine weapon. It was the Life Treasure of an expert in his Soul Clan. He couldn't promote the power of the Soul Refining Cauldron ultimately so he could only control it by using the bell. Also, it could help increase the power of the crocodile too.

He was lucky that he had begged the Territory Ancestor expert in his clan to borrow the Soul Refining Cauldron. Otherwise, he would have been hurt more severely underground. Then, he would have had to run away directly.

"Friend from Phantom Clan! It's your turn!"

Singh controlled the Soul Refining Cauldron and shouted. The bell in his hand jingled clearly. The soul filaments flew out and fell on the massive ancient crocodile. The crocodile was boosted one more time. And now, it was even as strong as Dragon Lizard's real body.

Ming Hong, the brutal soul, was kneeling underneath Singh and releasing his power to protect him in case someone ambushed him while he was controlling the Soul Refining Cauldron.

"I didn't want to get involved, but you've forced me... I'm... sorry!"

The Phantom masked woman pitched her voice and laughed. One hand of her held Shi Yan while the other pointed at the void. Then, so many pure white lotuses flew out and scattered from her white hand. Those snow-white lotuses bloomed and became as big as an entire room. They were crystal-like and sparkling like most perfect masterpieces.

The show-white lotuses slowly fell. The scorching red area was covered with an icy mist. After one lotus had descended, the world here became even colder.

Gradually, eighteen massive, snow-white lotuses aligned in the void and created a bigger lotus, which then grumbly pressed down on Tu Shi Qi and his wife.

The Ice power Upanishad had frosted the entire world. For the time being, the whole place was dead silent.

The burning flame, the furious explosions, and the shaking earth were halted. The world was now frozen. Everything stopped instantly!

"Frosty Galaxy!"

The masked woman became so chilled, her eyes rigid like ice. At this moment, her cold, malevolent characteristics were revealed. All of her charming, seducing gestures were just a disguise.

The ruthless, heartless Ice power Upanishad was her real face. The cold energy emitted from her could chill people to the bone.

Shi Yan was enchanted by her seducing technique and he had fallen into a dreamy scene where he couldn't recognize his surroundings. Because of her real power, the ice power, bursting out, he felt an icy energy beam emerge in his head!

That icy energy was like a cold lightning bolt, which flashed and disappeared into his Sea of Consciousness.

Although it had happened in just a short moment, the intensive light had shone on Shi Yan's mind and woken him up. In that short moment, he had resolutely used the Space power Upanishad to seal his eyes, ears, mouth, and nostrils. He used his co-soul to trigger the power Upanishads.

Instantly, the Devouring power Upanishad appeared as a black hole in his tier of power Upanishads and shook it.

At this moment, the graceful, sexy women were still dancing in his head. They served him and treated him tenderly to drown him deeply in his dream.

"Swallow!"

As soon as the black hole emerged, so many attractive, young ladies in his brain had become shining pink lights that disappeared into the black hole.

The seducing technique that had controlled his mind was cleared quickly. Shi Yan's mind was sound and back in just a blink of an eye.

He had used the Space power Upanishad to close his eyes, ears, mouth, and nostrils. He had also sealed his Sea of Consciousness and separated his body. As the masked woman was using her other powers, she didn't recognize his abnormal condition. She didn't realize that he had woken up. One arm of her was still holding him as she was arrogantly attacking the enemies in the void.

Her opponents were Tu Shi Qi and his wife Ya Yun!

The massive snow lotus created by many smaller ones had covered Tu Shi Qi and Ya Yun. It looked like they were confined inside a bowl.

The rainbow light protection on Tu Shi Qi and Ya Yun helped them resist against the cold energy and move around inside the snow lotus.

The masked woman observed the snow lotus. She concluded that this treasure was enough to hold back Tu Shi Qi and his wife for a while. She pulled herself together and turned around to see Dragon Lizard wrestling with Singh's crocodile brutal soul. As Singh was continuously shaking the bell to send more energy from the Soul Refining Cauldron to the crocodile, Dragon Lizard wasn't in a good situation.

The Soul Refining Cauldron was an Absolute Beginning divine weapon. It belonged to the class of top treasures in this vast universe. Although Singh couldn't actually use its strongest abilities, he could trouble Dragon Lizard a lot by using this technique to send endless energy to the giant crocodile.

Seeing the snow lotus of the masked woman confine Tu Shi Qi and Ya Yun, Singh was also scared. Luckily, he didn't act arrogantly or start a conflict with that masked woman.

Swoosh! Swoosh!

The tearing wind sounds echoed around the place as if someone was running discreetly.

At this moment, Dragon Lizard Star was a sea of asteroids. The island-sized asteroids floated in the void, but they weren't really far from each other. Between some asteroids, the gap was just as big as a slit.

If they had some dark schemes, as long as they were careful, they could hide in this area pretty well.

The masked woman from the Phantom Clan had a cold and arrogant look. A flow of cold energy expanded from her soft body. The void around her made "crack" sounds. The entire void was frozen.

Two silhouettes appeared under the asteroids on her left and right. They were exposed because of the frozen space.

Di Feng and Du Lei!

"Ice cracks!"

The masked woman shouted. Two cold lights shot out of her mouth. The icy light was like cold sabers with endless energy that thrust into Di Feng's and Du Lei's chests.

Thud!

The icy light stabbed them and then pierced through their bodies. The blood on Di Feng's and Du Lei's chests was frozen, but they weren't confined anymore. They freely fell on the rocks underneath.

Their stealthy ambush failed.

The masked woman sneered continuously. She raked through the area and said coldly, "I must have this kid. If anyone tries to take him, prepare to die!"

The warriors hiding in the dark went numb. They felt like sea monsters struggling on the shore.

Di Feng and Du Lei had fatal wounds. The others didn't know whether they were still alive or not. Perhaps these two warriors on Dragon Lizard's side couldn't get up again. The masked woman from the Phantom Clan had finally shown her real competence. Now, the others knew that the Phantom Clan didn't have only the mind technique to establish an alliance with Singh.

Yuan Mo didn't retreat as he was told. He stayed far from the battlefield and watched the masked woman show her supernatural power. He was completely chilled.

To this masked woman, he still had a beam of desire. He had tried really hard to hide it with the hope that one day they could fondle and cuddle. Anyway, he didn't dare to keep this thought anymore. He didn't dare to linger either. He sighed and said to his tribal members, "We should move now. Immediately. We can't get involved in this battle."

He took the members of the Water Tribe and left the place. Finally, he understood why the Phantom Clan could become one of the Seven Great Clans. They had more than the enchanting technique

Shi Yan woke up. He didn't open his eyes and just used Dark Energy to observe the situation.

The Dark Energy joined his Soul Consciousness. In that moment, he felt like he had so many eyes that could see his surroundings.

Strangely, when he used Dark Energy to survey, the masked woman didn't realize anything even though she was really close to him.

He was so surprised while trying to find a way to change this situation. Tu Shi Qi and Ya Yun were at Third Sky of Immortal Realm and they were still a distance away from the Territory Ancestor Realm. However, this woman was like Singh at the Peak of Immortal Realm. They were just one step away from that realm.

Tu Shi Qi and Ya Yun were hurt by Singh before. And now, the difference between their realms had helped the masked woman subdue them.

From the current situation, only the Phantom woman was able suffocate Tu Shi Qi and his wife.

On the other side, Singh with the divine weapon from the Absolute Beginning had gradually gained the upper hand. Shi Yan could see that since Singh was severely wounded, if Shi Yan struck a close blow, Singh would lose his fighting competence and he could even get killed.

Anyway, Singh was cautious. Ming Hong underneath him had prepared to attack anyone who came near.

Tu Shi Qi and his wife, and Forefather Dragon Lizard were in a bad situation. They were in danger too. Changing this situation had become a tough and difficult challenge to Shi Yan.

[God of Slaughter](#)

Chapter 1396: World Within World

Dragon Lizard, Tu Shi Qi, and his wife were suppressed by Singh and the masked woman respectively. From the current situation, if Dragon Lizard, Tu Shi Qi, and his wife didn't have any external help, they couldn't change the situation.

Shi Yan squeezed his brain for a solution...

In the dark, the experts from the small clans were discreetly approaching and staying by the masked woman.

They still thought that the masked woman was the key door to break because their main target, Shi Yan, was in her hand!

The massive snow lotus was crystal-like and shining, but it was so icy. Tu Shi Qi and his wife were confined inside and trying to break it with their best powers.

The masked woman of the Phantom Clan had to focus on controlling the lotus and watching Shi Yan at the same time. Her situation wasn't really good.

Thus, the warriors who were self-confident still kept their eyes on her and waited for the chance to steal Shi Yan and run away within one attempt.

In their eyes, Shi Yan was a meaty cauldron that they could use to understand Dark Energy and advance to an extreme realm: the Territory Ancestor Realm.

Shi Yan had sealed his senses and used his Soul Consciousness made of Dark Energy to search around. Shortly after, he found four alien experts like venomous snakes approaching!

The four of them were at Third Sky of Immortal Realm, the same realm as Tu Shi Qi and Ya Yun.

They were the warriors with the highest realm among the onlookers and they were also the most patient ones. They had hidden right from the start until now.

“Harrumph!”

The Phantom masked woman snorted as she recognized those people’s intentions. Her soft body swayed like a water snake and released a soul-stirring, attractive power. Illusions of sexy ladies with bodies that could make people’s noses bleed appeared, moaning with heavy breathing and going toward the four Third Sky of Immortal Realm experts.

At the same time, Tu Shi Qi and his wife inside the crystal lotus suddenly gathered all of their powers and struck hard. Their energy accumulated and formed bunches of radiantly light, forcefully stabbing a petal of the lotus!

The soft body of the masked woman shook. Her bright eyes turned cold as if she was finally enraged.

At the same time, Shi Yan suddenly burst out his brutal, formidable energy. He swayed away from her control quickly.

A spinning Fantasy Boundary Stone appeared and ballooned in the wind. After several seconds, it became a blank, white world. That world acted like a giant hand that snatched over the masked woman and the four experts under her enchanting technique. The four of them were pulled into the new world created by the Fantasy Boundary Stone.

A white light flashed.

Shi Yan got rid of her grip. He didn’t hesitate for even a beat. His energy rose again when he flung another Fantasy Boundary Stone.

The Fantasy Boundary Stone received his God power and became a whole new world that was still a white, blank space but much bigger than the previous one. Shortly after, it had converted the world and confined the masked woman and the four stealthy experts!

Their world was shrouded by another world!

The two Fantasy Boundary Stones had created two worlds. The bigger one covered the smaller one and the smaller one imprisoned the masked women and four furtive experts.

The two fantasy worlds had weakened the connection between the masked woman and her snow lotus. The snow lotus didn’t have a continuous energy source to strengthen its imprisonment.

Tu Shi Qi and his wife finally got rid of it!

They looked at Shi Yan, their eyes surprised and excited.

Shi Yan gave them a slight nod and raised one finger to point at Singh.

Tu Shi Qi and Ya Yun understood immediately. They didn't say anything and turned into two light beams that headed toward Singh.

Shi Yan was floating in the void, his face extremely stern. A flow of his Soul Consciousness seeped into the words that the Fantasy Boundary Stones had created to find even the smallest commotion.

The Fantasy Boundary Stone could create a world in just a blink of an eye but this world wasn't real and it could exist for only a short time.

Shi Yan could explode that world and the energy created after the space shattered was ultimately so terrifying that even Immortal Realm experts couldn't stand it.

However, as Shi Yan had just entered the Immortal Realm, he couldn't build strong barriers for his fantasy world. Thus, when he triggered the space to explode it, he couldn't really hurt her.

Anyway, he calculated something else...

He was waiting for the masked woman and the four experts imprisoned inside the world to break one world from the inside first.

Inside the immense, dreamy world, the Phantom woman and the four Third Sky of Immortal Realm experts looked strange when their sinister eyes observed their surroundings.

Their realms were high but Shi Yan could ambush them and confine them in this world. It was like a boat that capsized in a narrow ditch.

Actually, any one of them could break the boundaries of this world. They didn't do that because they knew that the spatial explosion that was going to occur when they broke the boundary was going to be very formidable. They knew that they couldn't get out of this world intact.

"You guys dare compete with our Phantom Clan!"

The masked woman's voice was icy cold and so were her eyes. She was releasing her Soul Consciousness to check the thickness of the boundary.

This world was like a glass ball with spatial barriers as walls. The thicker the wall was, the harder it was to break. Once it exploded, the space shockwaves created from the explosion was going to be very intimidating.

She surveyed and scolded, mocking the other four as they kept silent as if they were deaf and mute. No one retorted. It was because their realms weren't as high as this masked woman. They needed to stay quiet so their mind could check the thickness of the spatial barriers.

"That kid is too cunning. Anyway, he's not strong enough. This spatial barrier... is too thin!"

Dozens of seconds later, the bright eyes of the woman showed her joy. She couldn't help but smile gracefully. While laughing, her jade-like hand rose to the void. The cold energy from her brutally tore the barrier as if there were countless ice sabers!

Shi Yan stayed outside the bigger world. His body shook and then he concentrated on sending the Soul Consciousness into the smaller world inside.

When the ice blades attacked the small world, it cracked and was about to explode. At the same time, Shi Yan triggered the bigger world outside. The warriors cultivating Space power Upanishad could see the world outside like shattering glass with so many fine cracks.

BOOM!

BOOM!

Two explosions happened almost at the same time. The smaller world inside was shattered by the masked woman. Pieces of broken space shot outward. Also, Shi Yan had crushed the bigger world outside and sent pieces of sharp broken space inward.

The two worlds exploded at the same time and pressed on each other. At that moment, the lethal power of the explosions rocketed several times!

Boom! Boom! Boom!

The unceasing explosion boomed in front of Shi Yan. It was like the space had collapsed. The void cracked open. Instantly, the earth-destroying space energy fluctuated.

Shi Yan was forced backward. He was frightened when he saw the shockwaves when the big world and the small world exploded at the same time.

Even warriors with Space power Upanishad like him couldn't endure such an energy attack. If they were shrouded, there was going to be no chance to survive.

Boom! Boom! Boom! Boom!

Four bodies exploded. It was like a meatball that burst. Then, so many space sabers minced them into blood and meat. Their soul altars were gone altogether.

The four experts that wanted to use Shi Yan to break through to the Territory Ancestor Realm from their Third Sky of Immortal Realm were blown up. Their host souls were all gone.

Shi Yan gawked and dropped his jaw as he couldn't believe his eyes.

Under the world-destroying shockwaves, a petal of a massive snow lotus flew around and so many space sabers had gashed it. That lotus petal carried a naked body that could be deemed perfectly sexy. The flawless, porcelain body with two round, ample breasts, a delicate waist, a snow-like rear, and slender thighs... She appeared with exquisite and beautiful features like a masterpiece.

Instinctively, Shi Yan looked at the void underneath. He found the massive snow lotus that had confined Tu Shi Qi and his wife had disappeared.

Shi Yan didn't know when the masked woman had taken the snow lotus. When the two worlds detonated, she already had the lotus protect her from the fatal energy attack. Although her clothes and the fearsome mask were broken, she wasn't dead yet as something turned into smoke.

The snow lotus withered. The woman stood in the middle of the flower, her skin like snow and her bones like ice. She was flawless and both her body and appearance were the most magnificent in this world.

However, her look was so cold, which was gazing at Shi Yan!

Shi Yan felt shivers down his spine under her gaze. He felt anxious as if he was shrouded in an endless coldness.

Boom! Boom! Boom!

Shi Yan couldn't help but turn around to watch when more explosions could be heard.

He then saw some ice sculpture exploding. Those ice sculptures were alien warriors who had a dark scheme. Their realms weren't high, though. They were frozen and then killed by the woman's wrath.

They might have been murdered because they had seen something they shouldn't have.

When Shi Yan recognized something was wrong, besides Dragon Lizard, Singh, Tu Shi Qi and his wife, who were engaging in a fierce battle, all the others on Dragon Lizard Continent were killed!

This savage woman from the Phantom Clan had killed all the warriors who hadn't left the place. She had even killed a member of the Water Tribe who stayed to observe and get information.

Swoosh!

A pure white silky long robes shrouded the woman. Her jade-like, naked legs slowly descended in the middle of the shriveled lotus pod.

Her eyes, which were filled with the coldness of an icy mountain, didn't leave Shi Yan or blink once. The strange soul energy emitted from her eyes. Shortly after, Shi Yan's soul altar made "crack" sounds. Unexpectedly, his soul altar was freezing!

Just with a look, she could even freeze the soul altar! Her power Upanishad was extremely terrifying!

"Your face and body are perfect. I feel like I've used the luck of my three lives that I can still be alive after seeing your naked body."

Shuddering, Shi Yan gazed at the woman and spoke. Then, he urged the power of the heaven flame. The scorching heaven flames began to burn and move around his soul altar.

The cold energy in his soul was eliminated. The heaven flame continued to move around his body. He gradually resumed his normal conditions. He glared at the woman while his body became vague and invisible.

The bright eyes of the Phantom woman were so cold. The massive snow lotus around her dissolved and created smaller snow lotuses, which revolved like snowballs around her.

She was ashen when she put on the fearsome mask one more time to cover her extremely stunning appearance.

"You can't hide," muttered the masked woman.

Chapter 1397: Turn the Situation Around!

“Singh! You must die today!”

Tu Shi Qi and his wife were yelling and attacking Singh. However, Ming Hong stopped them all. At this moment, Singh was helter-skelter. He couldn't focus on controlling the Soul Refining Cauldron.

Tu Shi Qi was holding a thunder hammer. When he raised it, lightning flashed and thunder boomed. It was the archenemy of brutal souls.

Even with Singh's energy poured into him, Ming Hong didn't dare to resist Tu Shi Qi forcefully. Seeing his thunder hammer hack at him, he hurried to dodge. Ming Hong's body sizzled and smoked when lightning from the hammer struck him.

Singh didn't have the power to control the Soul Refining Cauldron anymore. As his anger rose, he decided to risk his life.

“Souls congregate!”

The departed souls and ghosts underneath him controlled by his power Upanishad congregated and created two spirit snakes that coiled around his arms. He roared indignantly and aimed at Tu Shi Qi. He opened his arms and the spirit snakes danced, swiftly avoiding Tu Shi Qi's hammer and worming toward Ya Yun's body.

Ya Yun was holding a brocade flag that was embroidered with many interesting palaces. When she waved the flag once, a palace emerged like an illusion and attacked Singh. Her palaces seemed to be able to confine the opponent.

“How do I kill Singh?”

A thought popped up in Ming Hong's soul. It was Shi Yan's voice.

“The Soul Clan cultivates souls. When his soul altar is gone, Singh will die tragically! The brutal souls will swallow him. I can swallow his host soul too!” Ming Hong was still fighting against Tu Shi Qi, but the soul messages were delivered in his soul so they weren't affected.

Swish!

A blood streak appeared on Singh's nape and stabbed forward!

Singh's face went cold. He flipped his hands and so many souls like a cloud of locusts flew out and pounded on the bloody sword.

Bang!

A horde of souls impacted with the bloody sword. After that, the blood halo on the sword dimmed and even the eyes on the sword became a little puzzled.

This bloody sword was the very first secret treasures that Bloodthirsty got. It was refined from the spine of an Immortal Demon expert. In Desolate Territory, it had never failed. Not many divine weapons could resist this brutal sword.

However, in this Sea Domain of Nihilicity, the blood sword failed at its debut.

The souls that Singh had refined had different auras including filthiness, corrosiveness, and acid. Once the treasures of weapons got affected, they couldn't strike with their best. Although the bloody sword was keen, it was also affected and couldn't show its brutality.

ROOOAAARRR!

Then, Dragon Lizard roared and shook around the entire place. He had finally stopped his defeating position. He stomped on the giant crocodile, pounding and tearing it.

The giant crocodile no longer received energy from Singh through the Soul Refining Cauldron. It wasn't intimidating anymore. Forefather Dragon Lizard had hit it hard so that he even punched the souls out of it. Under such a given circumstance, the crocodile can't endure for a long time.

Singh's last brutal soul was Ming Hong who was also subdued under Tu Shi Qi and Ya Yun's attacks. He couldn't really show his savagery. Singh was in a worse situation. Shi Yan had ambushed him, which had enraged him a lot.

He looked at the Phantom masked woman from a distance and shouted, "Please support me!"

The snow lotus wildly twirled around the masked woman. One of them suddenly detached and hit a spot in the void where no one hovered.

Thud!

A silhouette appeared. It was Shi Yan. Shi Yan was dizzy after the hit. His entire body was also frosty and frozen.

The masked woman said nothing as she rose her arm to pull Shi Yan. She didn't bat an eye at Singh.

"SINGH!"

Shi Yan shouted all of a sudden after he reappeared.

Singh was startled. He didn't know anything when he looked at Shi Yan. He was shaken immediately as he found mountains and seas of corpses in Shi Yan's eyes. Bleeding, cut limbs were flooding toward him with so many brutal thoughts and crazy, bloodthirsty intentions. Singh was lost quickly.

Because the masked woman had slaughtered everywhere, the sea of asteroids that were previously Dragon Lizard Continent now had hundreds of corpses hovering. Shi Yan had guided the resentful energy and dead energy from those corpses toward Singh's inner world while staying invisible.

If Singh was at his peak condition, he wouldn't have gotten ambushed because he also cultivated Soul techniques.

But Dragon Lizard and Tu Shi Qi had wounded him when they fought underground. At this moment, all of his brutal souls had left his body, and Tu Shi Qi and his wife were attacking him continuously. It was

the time when he was weakest. Thus, the resentful energy from Shi Yan's eyes had finally smashed his mind and sent him into insanity.

Tu Shi Qi and his wife Ya Yun had been waiting for this for a long time. Of course, they wouldn't let him slide away. They both stormed toward Singh.

Strangely, Ming Hong, Singh's brutal soul, didn't stop them! At the moment Singh's soul broke and the giant crocodile was weakened too. Forefather Dragon Lizard seized the chance and hit it harder, making the beast scream unceasingly.

Everything was deadly smooth!

Tu Shi Qi held the big hammer and battered on the crown of Singh's head. Singh's head exploded.

The brutal soul Ming Hong was accumulating energy for another attack. He suddenly and heartlessly backfired Singh. He had seized the opportunity and swallowed Singh's host soul in one bite. After that, he urged his power Upanishad to absorb the dying giant crocodile.

Swoosh! Swoosh! Swoosh!

Many departed souls were guided toward Ming Hong. After he had swallowed Singh, he became the host soul. When Singh's head exploded, he got his freedom and he had even backfired Singh!"

Ming Hong didn't hesitate and turned into a cluster of a dark cloud that brought so many souls that Singh had refined away. After a flash, he disappeared.

Everything happened so fast that Tu Shi Qi couldn't react. He only saw Singh's head explode and many departed souls and ghosts gather by Ming Hong. Then, Ming Hong, the brutal soul left quickly.

"Don't let him go!" Forefather Dragon Lizard thundered. A humanoid body appeared in its true body and chased after Ming Hong. "It's Singh! He wants to escape. If we give him time, he will recover soon. Kill him now!"

Forefather Dragon Lizard didn't know what had happened, so he thought that Singh was running away after using some secret technique of the Soul Clan. He wanted to uproot this threat.

Even Tu Shi Qi and Ya Yun were bewildered. They thought that Ming Hong, the brutal soul was Singh. They could never think that he was just a brutal soul that had swallowed the host soul. Tu Shi Qi and his wife chased after Ming Hong together with Forefather Dragon Lizard.

The masked woman was surprised. She didn't know what was going on over there. However, she immediately turned to Shi Yan.

Shi Yan felt cold. He immediately moved further away without any hesitation.

While his thoughts changing, the space around him rippled. He wanted to gather with Audrey and Yvelines' group. However, as he was about to change his direction, his visage changed.

Shi Yan saw Ming Hong flying toward Audrey. When Shi Yan sensed Audrey, he found Ming Hong bring so many souls in a black cluster that entered Audrey's soul altar.

He understood it immediately.

Ming Hong had seized the chance to backfire and swallow Singh. He had become the host soul and gathered countless souls and ghosts that Singh had refined. He wanted to escape but Forefather Dragon Lizard and Tu Shi Qi had aimed at him. As he knew that Audrey was safe, he decided to choose her as his shelter.

“I am Ming Hong. I want to fuse with you right now. I need your help to escape those people’s pursuit.” A voice arose in Audrey’s head. Audrey was stunned when she found so many souls appear in her Sea of Consciousness. The power of those souls made her shiver in fear.

“You know I won’t hurt you. I’m telling you a method. If you do it right, all the souls that Singh had refined will call you master. It’s your destiny. And it’s also our Imperial Dark Clan’s destiny! You should do it immediately!” urged Ming Hong.

Audrey was resolute. “Tell me the method!”

“Open your mind to receive my inheritance. It’s the secret technique that Singh of the Soul Clan used to control us...”

A wisp of Shi Yan’s Soul Consciousness still stayed in Ming Hong’s soul. Thus, he knew the conversation between Ming Hong and Audrey.

While Ming Hong was giving Audrey secret techniques of the Soul Clan, Shi Yan understood that Audrey’s fortune had come. With Ming Hong’s inheritance, Audrey’s achievement in the future wasn’t going to be less than Singh’s.

The supernatural power Upanishad and the strange energy of the Soul Clan came from the brutal souls that they could tame. Today, Ming Hong had become the host soul and he had seized Singh’s attainment for many years. He used them all to strengthen Audrey. Audrey became one of the strongest warriors of Imperial Dark Tribe and she had a chance to be even stronger than Ming Hao!

It accelerated to this because Forefather Dragon Lizard and Tu Shi Qi were chasing after Ming Hong. They thought that he was Singh so they weren’t going to let him go. Only fusing with someone could save him from this fatal pursuit.

“We will separate now. Let’s meet at the Sea of Annihilation. The Phantom Clan woman is after me. I’m afraid that Forefather Dragon Lizard also has some dark scheme for me. I’m leaving now. You’re staying in a spatial blind spot. Don’t move. After you’ve fused with Ming Hong, find a chance to leave...”

Shi Yan’s soul message echoed in Audrey’s and Ming Hong’s souls. After that, he unilaterally cut off the connection.

Then, Audrey couldn’t get distracted. She had to fuse with Ming Hong’s soul so she wasn’t free to do much.

The masked woman was chasing after Shi Yan and he couldn’t find Forefather Dragon Lizard and Tu Shi Qi to ask for help. Shi Yan was afraid that Forefather Dragon Lizard would act like Singh and the masked woman. They wanted his soul to get a chance to break through to Territory Ancestor Realm. Thus, he had to leave now. Using Heavenly Fantasy Star Compass, he continuously urged the Space power Upanishad to cross through the voids in just a blink of an eye.

When the warriors with Space power Upanishad wanted to run away, they had advantages that no one could compare to.

At this moment, he was using these advantages and moving like a beam of starlight that people couldn't locate. He flashed and then disappeared, shifting through different spatial blind spots or corners.

It was really tough for the masked woman of the Phantom Clan, even though she had reached Peak of Immortal Realm. She had to use a lot of efforts and energy to locate Shi Yan. Her spirit, soul, and Qi had been massively used.

"You can't hide!"

She gritted her teeth and hated Shi Yan to her core. She had even hurt her soul to find Shi Yan. She had to reduce him into ashes.

Chapter 1398: Soul as the Sea

On a brown-gray asteroid, Audrey sat with her eyes closed. The fierce soul energy rippled through her.

Yvelines, Adams, and Masha, the three members of the Heavenly Eye Clan gathered by her, their faces stern. They were hesitant on whether they should help her or not.

They had witnessed the moment when Ming Hong, the brutal soul, entered Audrey's brain. They also saw so many dark clouds get into her body. At this moment, Audrey's soul energy was fluctuating strangely. They knew that something was wrong. They thought that Audrey was possessed.

"Singh had tamed that brutal soul. He has Singh's power Upanishad!" said Yvelines when he was about to accumulate energy and attack Audrey.

"I'm afraid we're not an equal opponent to that brutal soul!" Adams wore a panicked face. He turned around to watch and was startled. "Oh, that's Forefather Dragon Lizard!"

In between the chaotic energy waves that stirred the sea of asteroids in front of them, Dragon Lizard's humanoid clone, Tu Shi Qi and his wife Ya Yun appeared. They were searching around with worried countenances.

However, Audrey and the others were hiding inside a spatial blind spot that Shi Yan had tried hard to find. Forefather Dragon Lizard and Tu Shi Qi couldn't see them. Unless they quieted down their minds and used the Soul Consciousness to sense, they couldn't find Audrey's team in a short time.

"We can ask them to help," suggested Adams.

Masha shook her head immediately. "They will kill Audrey to end potential trouble. We can't do that."

They didn't know that Audrey and Shi Yan knew Tu Shi Qi.

"What should we do? She can't resist the brutal soul. Once it possesses her body, we will be in trouble!" Adams felt a flame burn his heart. He pondered and then said, "How about we leave first and ignore them?"

“We could do that,” Yvelines hesitated for a while, but he agreed with this suggestion. Because even if they stayed, they couldn’t help Audrey and the brutal soul could kill them later.

“After the three of them leave, we will go. Otherwise, we’ll get busted.” Masha sighed and then looked at Audrey. “Sorry, we can’t help you. You have to depend only on yourself. I hope you can escape the bind.”

Dragon Lizard, Tu Shi Qi, and his wife searched around the area and then left hurriedly.

Adams and the other two didn’t linger. They quietly left the asteroid. After they had flown away, they were stunned when they turned around.

There was nothing behind them. It looked like the asteroid they had been sitting for a long time on didn’t exist.

They were speechless as they knew how special the shelter they had taken was. Also, they understood Shi Yan’s profound Space power Upanishad more deeply.

Swoosh! Swoosh! Swoosh!

Not long after they had left, Dragon Lizard and Tu Shi Qi changed their direction and returned to the area.

Dragon Lizard immediately stood in their ways. He opened his mouth and sprayed a lava barrier, keeping Adams and the other two inside.

Forefather Dragon Lizard looked at them with malicious eyes. He snorted and pointed at them while talking to Tu Shi Qi and his wife. “The brutal soul, which is Singh, has flown to this area. He must occupy one person to avoid our checking. We’ve searched around. This area has no aura of living beings. Only the three of them who had just gotten out of nowhere...”

Adams changed his countenance.

“We rather kill the wrong ones than let the right one escape!” shouted Forefather Dragon Lizard.

Tu Shi Qi and his wife frowned. They knew that Adams and the other two knew Shi Yan and Audrey. But they also thought that Singh could hide in the soul of Adams, Masha, or Yvelines.

Although that brutal soul had run quickly, it couldn’t get rid of them in just a blink, unless it depended on someone’s soul. It had fused with someone to avoid their searching.

Because of the Phantom Clan masked woman’s massacre, the hiding warriors were all killed.

In this dead silent sea of asteroids, Adams, Yvelines, and Masha had strangely survived. Forefather Dragon Lizard and Tu Shi Qi thought that if Singh could escape their searching, he must have entered one of these three.

They didn’t know that Audrey was still hiding in the spatial blind spot where they couldn’t sense or see.

“These three... Sigh, never mind. You take care of them.” Tu Shi Qi hesitated for a while. He looked begrudging but he agreed with Forefather Dragon Lizard. They would rather kill the wrong ones than let the right one go.

“Lava dissolves!”

Forefather Dragon Lizard hissed and the lava barriers slowly gathered and covered Adams, Yvelines, and Masha. The three of them cried mournfully. Adams knew that if he didn't tell them the truth, they would be killed tragically here.

“No no no! It's not like that! Nooo!” Adams cried crazily.

Forefather Dragon Lizard was surprised and he lowered his voice, “What?”

“We saw that brutal soul! He didn't occupy us. He didn't affect us, either. The one he has possessed is right over there!” Adams pointed at Audrey's location. “Naked eyes couldn't see that area. It's a spatial blind spot. We just got out of it.”

“Wait a minute!” Tu Shi Qi shouted.

Forefather Dragon Lizard retracted his arms. He hesitated for a while and then released his Soul Consciousness at the Peak of Immortal Realm to search. Then, his scarlet eyes brightened. Two strange light shots toward the area Adams had pointed out.

Swish!

Just like a rock wall or space that eroded, the hidden asteroid and Audrey sitting on it appeared.

On the gray-brown asteroid, Audrey was sitting cross-legged. Innumerable souls and ghosts like layers of mountain ranges appeared around her. Above her head, countless dark clouds of souls hovered like black stars.

So many departed souls and ghosts were surrounding Audrey while she was wearing a faint, indifferent countenance and had her eyes closed. A minute vortex appeared at her glabella. The vortex was crazily revolving and drawing a lot of souls in it.

Adams was so surprised. He thought that Audrey was already possessed and she would be killed soon.

At this moment, he didn't feel guilty as he thought that Audrey was already dead. He showed her location, which was also a way to take revenge for her death.

A clear soul appeared from the vortex in Audrey's glabella between so many ghosts and departed souls.

— It was her host soul!

“Gotcha!” Forefather Dragon Lizard sneered. As soon as he saw the soul, he didn't think too much and raised one hand to strike.

Ya Yun suddenly screamed ear-piercingly. “Hold on!”

“Eh?” Forefather Dragon Lizard darkened his face.

“It's not right! She's not Singh!” Tu Shi Qi reacted and pointed at the host soul flying out of the vortex. “Her host soul is still alive. She's not possessed. Otherwise, we should have seen Singh's soul there, not her host soul!”

Forefather Dragon Lizard wasn't ignorant. He had just let his anger control his mind for a while. He was awakened when the other two reminded him.

"It's not like what we've thought," Tu Shi Qi rubbed his chin and pondered, "Don't act rashly. We should wait and see here. After she's done, we will know what happened."

Forefather Dragon Lizard thought for a while and then nodded. He didn't hurry to kill Audrey.

Swoosh! Swoosh! Swoosh!

Audrey's host soul vigorously flew out of her labella. It was like a wizard mumbling an incantation that ran directly into people's souls. Tens of thousands of souls floated by her. They were affected by the incantations and they flew around before entering her head through her glabella.

A corner of the soul sea appeared inside the vortex filled with souls.

Audrey's host soul was like a fishing net that covered all those souls.

A fearsome, massive crocodile suddenly appeared underneath her. Dragon Lizard's face went cold as he tensed instantly.

Tu Shi Qi hastily rose his hand to signal Dragon Lizard to calm down.

Under the power of Audrey's incantations, the giant crocodile opened its mouth and released brutal souls that it had swallowed. They were five out of seven brutal souls Singh had tamed. Audrey's host soul stimulated them and made them enter the soul sea in her vortex.

After the giant crocodile disappeared, many souls floating above Audrey's head suddenly changed into Ming Hong's appearance.

Ming Hong, the brutal soul, had a pair of deep and stern eyes as he had his full consciousness. He hovered like a massive ghost behind Audrey and gazed at Dragon Lizard. A soul message was sent to Dragon Lizard. "I swallowed Singh alive!"

Forefather Dragon Lizard was shaken hard. He shouted, "What did you just say?"

"I swallowed Singh! He's dead!" Ming Hong said and then opened his mouth. Inside his giant, dark mouth, the others could see pieces of Singh's soul, which slowly melted down into smaller pieces.

"Oh gosh!" Ya Yun screamed in fear. "Singh had been brutal and arrogant for so many years. In the end, his brutal soul has swallowed him. That's karma!"

Tu Shi Qi was also surprised.

"So... Singh is dead now?" Forefather Dragon Lizard wasn't certain.

Tu Shi Qi and Ya Yun nodded.

Forefather Dragon Lizard sighed, his face awkward. "It's good that he's dead. We can save ourselves from a lot of trouble. Otherwise, all the members of the Soul Clan would have thought that they could hunt us down. Yeah, I hope that Singh's death will wake up the Soul Clan. They shouldn't be too frenzied.

Tu Shi Qi and Ya Yun exchanged looks as they suddenly felt bitter. They understood the Soul Clan deeper than Forefather Dragon Lizard. They knew that the Soul Clan would never let this slip away easily.

However, they didn't want to explain this to Forefather Dragon Lizard. The more the Soul Clan hated the Dragon Lizard Clan, the more the Dragon Lizard Clan had to depend on their clan. They had to take the same boat as the Mysterious Sky Clan. It was the result that they had desired.

They didn't discuss more and just watched Audrey and her changes.

God of Slaughter

Chapter 1399: Fortune

People were still suspicious.

They didn't know why Ming Hong hadn't possessed Audrey after he had swallowed Singh. He let Audrey's host soul stay. It was against his common sense.

With his power after swallowing Singh, he could become the leading soul of the seven brutal souls. If he could take Audrey's body, even though he couldn't get back to his peak of power, at least he could regain his freedom. He wouldn't be bound to this woman.

This made them think a lot.

But they knew one thing: From now on, Audrey was the brutal souls' new master. The souls that Singh had spent years refining were now her fortune.

As long as Audrey wasn't really ignorant, she had the potential to one day reach Singh's level when he was still alive. If Audrey had excellent innate talent, she was going to progress fast and it was going to be hard to predict her future attainment.

The Soul Clan was one of the Seven Great Clans anyway. Singh was the Commander of the Soul Clan and his understanding of Soul power Upanishad was clear and profound.

These things now benefited Audrey and they were great nutrients for her growth.

The others looked at Audrey, yearning and complimenting.

"Who is she? You know her?" Forefather Dragon Lizard understood and asked in astonishment.

Tu Shi Qi and Ya Yun smiled. "The kid who came to talk to you about the Soul Refining Cauldron ambush is her man. Yeah, we've met. This little girl is nice too. They are together," explained Ya Yun.

Forefather Dragon Lizard understood it now. He suddenly asked, "Oh right, where's that kid? I noticed that a masked woman from the Phantom Clan had chased after him. Why didn't he gather with us?"

Listening to him, Tu Shi Qi and Adams' group had noticed that. However, after a while, Tu Shi Qi got an explanation for this. "Perhaps he's afraid that you have some other ideas..."

Forefather Dragon Lizard understood immediately.

After a while, Forefather Dragon Lizard shook his head with a forced smile. "I put my hand on my chest and wonder myself. If he were here, it would be really hard to make a choice. He has fused with a wisp of his soul of the Absolute Beginning creature. If I refined him, I'm sure I would have been able to activate the memory in that soul and get Dark Energy to break through to the Territory Ancestor Realm. Sigh, I've been stuck in this realm for a long time. I've seen it in my dreams too. He's a key to my breakthrough. He's right. He should stay away from me."

"I wonder if he can escape that Phantom woman. She's really intimidating! In some aspects, she's stronger than Singh. We can fight against Singh equally, but she can subdue us right from the star. If Shi Yan hadn't struck her, we would have been confined in the snow lotus now," said Ya Yun.

"Indeed, we owe him a favor," Tu Shi Qi contemplated, "Then we should make it up with his woman. We should protect her while she's enhancing her realm and accommodating Singh's power."

"You guys take care of her. I'm going to find the Soul Refining Cauldron. Perhaps it's still here." Dragon Lizard suddenly thought of an idea.

"Don't waste your efforts," Tu Shi Qi laughed. "The Soul Refining Cauldron is a divine weapon from the Absolute Beginning Era. If that Soul Clan expert dares to lend his cauldron, he won't be afraid of losing it. Don't think about it. The tamed divine weapon from the Absolute Beginning Era can feel its master regardless of how far it is."

Dragon Lizard hadn't given up on his idea yet. He ignored Tu Shi Qi and flew toward his territory.

The members of the Dragon Lizard Clan slowly emerged from the caves in the sea of asteroids. When the battle began, Forefather Dragon Lizard had used his control power to Dragon Lizard Star to arrange them to safe areas to stay away from the battle.

And now, after the battle had ended, Forefather Dragon Lizard called for his fellows.

Those people received Forefather Dragon Lizard's orders and scattered to find the Soul Refining Cauldron. They hoped to see this divine weapon from the Soul Clan.

Forefather Dragon Lizard landed and closed his eyes to sense. Then, he was shaken when he looked at an asteroid in the distance.

That asteroid was shimmering. Although there was no one riding it, it was heading toward the Soul Clan. The asteroid had suppressed energy fluctuations as if they were a warning to anyone who had the guts to come near.

Some members of the Dragon Lizard Clan saw the flying asteroid. They were moved, so they wanted to stop it.

"Get back here all of you!" Forefather Dragon Lizard screamed and called all of his fellows to get back. With a stern face, he said, "Its owner has it under control now. Don't go there to die."

He was filled with fear, indeed.

When the Territory Ancestor expert controlled the Absolute Beginning divine weapon, it could be very formidable. Since that person didn't use the cauldron to eliminate this area, he would have something

that scared him. Perhaps because of the distance, he had to spend more energy for some other reasons...

If Dragon Lizard Clan members stopped the Soul Refining Cauldron and enraged the others, the Dragon Lizard Clan would disappear from this vast sea of stars.

Forefather Dragon Lizard understood the situation quickly.

Sighing, he returned to the asteroid where Audrey was sitting. Together with Tu Shi Qi and his wife, they watched Audrey.

After a long time, Ming Hong, the brutal soul, had also gone into the vortex. Audrey's host soul returned to her soul altar and the vortex on her forehead disappeared. She finally opened her eyes.

"Congratulations," Ya Yun appraised and smiled at her. "With your cultivation base, if you're not disturbed, you will reach Third Sky of Immortal Realm soon. Haha, this time, you have the biggest fortune. If that kid knows you have such an auspicious chance, he will be very happy for you."

Audrey knew what she had. Her cold face beamed strangely. "Thank you."

Her host soul had always paid attention to the surroundings. Thanks to Tu Shi Qi and Ya Yun, Forefather Dragon Lizard didn't kill her. She had thanked them sincerely.

"Yeah, I was a little rash. I owe that kid too. If he hadn't broken that Phantom woman's plan, we couldn't have killed Singh. Hmm..." Forefather Dragon Lizard hesitated for a while and then took out a pellet. He shot that pellet towards Audrey. "It's an Immortal Pellet. This is because I am thankful to him. I hope that when you see him, you can tell him that I'm sorry. It's true that I did think about killing him to take his soul."

Audrey was thrilled. Her shaking fingers wrapped around the magical pellet that had helped Shi Yan enter the Immortal Realm.

She knew that this pellet was made of a level seven life star with billions of lives on it. Lizard had refined them personally. Also, this pellet was the focus of the Dragon Lizard Clan's festival. She had never thought that Forefather Dragon Lizard would give her one.

"With those souls from Singh, your attainment in the future won't be ordinary. Even now, you're strong enough to defend yourself. In this Sea Domain of Nihilicity, aside from some dangerous areas, you can travel around," smiled Ya Yun.

Audrey held the Immortal Pellet tight. Her eyes twinkled as if she was considering something. After a while, she nodded to them and said, "See you later!"

She didn't explain anything or say more to Adams, Masha before directly flying away.

Countless souls moved under her feet and gave her a terrifying aura. Also, her energy fluctuations weren't less than the warriors at Immortal Realm.

"Forget it. I think she hates us too," Masha forced a smile.

At the critical moment, Adams had pointed Audrey out to save his life. Although he didn't create a hopeless situation for her, Adams' deed was wrong. Masha and the others didn't have the face to go with Audrey; they could only see her leaving.

"Here, it's for you." Tu Shi Qi thought for a while and then gave Masha a jet black token. "If the Heavenly Eye Clan wants to depend on our Mysterious Sky Clan, you can take this token to the Mysterious Sky Clan. We will accommodate you."

Listening to him, Yvelines, Adams, and Masha were so thrilled. Masha quivered while holding the token. "Real... Really? Our Heavenly Eye Clan can come to depend on your Mysterious Sky Clan? You really want to shelter us?"

"To give that kid face," Tu Shi Qi didn't conceal anything and spoke casually.

Masha, Yvelines, and Adams shivered. Then, they looked in the direction Shi Yan had disappeared and thanked him inwardly.

Usually, the Seven Great Clans would only accept second-class clans like the Water Tribe or the Dragon Lizard Clan to be their vassals.

The Heavenly Eye Clan was just a third-class clan. They didn't have the qualifications to depend on the Mysterious Sky Clan. If they wanted to do that, they had to be a second-class clan.

If they became dependent on the Mysterious Sky Clan, they would receive many benefits. Later on, when the Heavenly Eye Clan had some disputes with the other clans, they could use the reputation of the Mysterious Sky Clan to scare their opponents.

If the Heavenly Eye Clan got into a dangerous situation, they could call the Mysterious Sky Clan for help. The Mysterious Sky Clan wouldn't just sit and watch them die. They had to protect those people to ensure loyalty from other dependent clans. Even if it wasn't their wish, they could at least ensure that the Heavenly Eye Clan wouldn't be hunted down to the last member.

Most of the Heavenly Eye Clan's enemies were the third-class clan. With the Mysterious Sky Clan as their background, it was going to be much easier for them to do many things.

It had excited them more than having one Immortal Pellet from Forefather Dragon Lizard. Tu Shi Qi's promise was a safety assurance to their entire clan.

They were wholeheartedly grateful for Shi Yan. They knew that Tu Shi Qi appreciated them because he wanted to give Shi Yan face.

"Hm, just a small clan. It's okay if they want to depend on our Dragon Lizard Clan. Why do you need to make it so big?" Forefather Dragon Lizard and Tu Shi Qi landed on Dragon Lizard Star. Forefather Dragon Lizard asked because he couldn't understand Tu Shi Qi's motive.

"Haha, you don't understand," Tu Shi Qi smiled, "If that kid knows we gave him face, he will have more good impressions of our Mysterious Sky Clan. Earning his good impression will be precious in the future. The good impression given to a Territory Ancestor Realm expert will be more important than accommodating one hundred Heavenly Eye Clans."

“He still needs to experience a lot to reach the Territory Ancestor Realm. I’m just afraid that he will be killed before he could even reach the bottleneck,” snorted Forefather Dragon Lizard.

God of Slaughter

Chapter 1400: Skull Island

At this moment, Shi Yan was on edge between life and death.

Shi Yan had turned into a starlight beam and moved zigzag across the dark, cold Sea Domain of Nihility. Sometimes he flashed and disappeared, crossing many blind corners of spatial blind spots. The masked woman couldn’t figure out his location. Sometimes, the starlight disappeared as if it had mingled with the void in this vast sea or stars, leaving no trace.

He didn’t dare to stop and rest for even a second.

The Phantom masked woman was like his shadow that never left him. Every time he slightly relaxed his nerves, the shadow approached instantly. A cold energy that chilled his heart seeped over from a long distance.

After each minute, Shi Yan could feel the resentment and the murderous intention from the masked woman increase.

The long pursuit didn’t wear out her patience. It didn’t make her think about giving it up. It only made her will stronger!

“Muahaha, little brother, don’t run. Jie-jie promises to treat you well. You don’t need to run across the entire sea. You are wasting your energy. Also, you’re predestined to not be able to hide. How long can your cultivation base endure wasting energy? It’ll drain one day.”

The masked woman giggled, her voice soft and tender. However, it was like a cold saber in Shi Yan’s ears.

The masked woman of the Phantom Clan massively resented Shi Yan. Her laughter became more tender and charming with the hope of making Shi Yan relax for a while.

An expert with exquisite Space power Upanishad was a nightmare to chase.

Shi Yan had a profound cultivation base. His power, power Upanishads, his resolution, his patience, and vigilance were all outstanding. After this perpetual pursuit, the masked woman also admired him. She was astounded because of his toughness and the pure, abundant energy he had.

Shi Yan obviously had just reached the Immortal Realm. With his current realm and power, he should have been drained to death during this long pursuit.

However, until now, Shi Yan was still vigorous like a dragon or a tiger. He didn’t look like his power was about to run out.

It surprised the masked woman a lot.

She didn't know because of her massacre on Dragon Lizard Continent that many hiding aliens were killed. Shi Yan had taken in their essence Qi after they died. The reason why Shi Yan could endure the whole pursuit was because of the essence Qi from the dead. His energy was still abundant and his God power Ancient Tree was still crystal and sparkling.

Anyway, eventually, the refined energy from his acupuncture points was almost drained.

As he didn't have time to gather energy or cultivate, he had only consumed energy all the time. Even if he had more energy, he could use it all in one day.

Shi Yan and the masked woman had come to the point where they competed with patience and endurance. When Shi Yan found no more energy from the acupuncture points, he immediately swallowed two Congealing Spirit Pellets that Ya Yun had given him. When the pellets dissolved in his body, a new flow of energy flooded him.

He became vigorous one more time.

At the same time, he intended to show his whereabouts. Then, he tore the space curtain to teleport right after that.

The masked woman looked so cold. When she found that Shi Yan was running out of energy, he suddenly refilled it. This struck her confidence hard.

Shi Yan had stealthily attacked her on Dragon Star Continent. The world-within-world explosions had damaged her snow lotus and consumed a large amount of her energy. After a long pursuit, she had consumed a lot of her God power.

If she wasn't in Third Sky of Immortal Realm with profound and pure energy, she would not have endured until now.

She wasn't content with this chase!

Being an expert at the Peak of Immortal Realm, she was using her best power to chase after a small warrior who had just entered the Immortal Realm. If she didn't succeed, it was going to humiliate her for the rest of her life!

Thus, even if she had to endure more wounds, she still gritted her teeth to endure. She had to capture Shi Yan and then torment him to death.

Shi Yan began to worry.

The two Congealing Spirit Pellets were his last methods. After he had used up the energy from the two pellets, he had to depend on the energy in his God power Ancient Tree to continue running away.

Along his way, he needed to use a huge amount of energy for each teleport. If he didn't have the energy from the acupuncture points, he would have been drained to death already. Thus, seeing the masked woman chase behind him, he had to teleport all the time. If he didn't she could catch up to him quickly.

Feeling the God power draining, he knew that he couldn't dodge this kappa. It was just like what the masked woman had told him.

When the Phantom Clan masked woman knew he had Dark Energy, she wanted to recruit him and make him the Male Guest of her Phantom Clan. However, as soon as she found that he had a wisp of a soul of an Absolute Beginning creature, she changed her mind.

Just like Dragon Lizard, she was at the Peak of Immortal Realm. She just needed to control Dark Energy to break through to Territory Ancestor Realm.

She just needed to kill Shi Yan and then refine him to stimulate the Absolute Beginning creature's soul. That's how she could seize the chance to enter the Territory Ancestor Realm! It was much more attractive than taking him to the Phantom Clan and making him their distinguished guest. No matter what, Shi Yan had to run continuously. Otherwise, he would be killed and refined.

The Sea Domain of Nihility had countless asteroids, broken pieces of stars, cosmic dust, and debris everywhere. Shi Yan could see many pieces of broken continents. A massive island was flashing and floating in the dark void ahead of him. That island was pale white. When it emerged, it had some kind of energy that made it hide one more time.

Shi Yan had good senses to capture strange things. He pondered and then accelerated toward that island.

Piercing through a thick layer of pale white mist, he appeared in the atmosphere of the island. Shortly after, the gravity that was hundreds of times stronger applied to him. He felt grumblingly like a meteor on the island.

He dug a cave on the island.

Crawling out of the cave, he urged his power to move dozens of meters. Looking at the vast land, the mountains, and ditches, he was frightened.

This island was so massive it was around ten times bigger than the Immortal Island. At first glance, the entire island was filled with white bones. Shi Yan could see humanoid skeletons, beast skeletons, and alien skeletons. Most of them weren't complete. They were smashed into pieces and scattered around the island. Vaguely, some of them had created some sort of formation.

When Shi Yan was observing the surroundings, the masked woman from the Phantom Clan reached this island.

The island looked different in her eyes. She concentrated on it and found the entire island a massive skull moving in the void. It had two hollow eye sockets and a massive mouth, which were three bottomless caves...

The massive skull island shook and released strange and evil waves of energy. It looked like the skull was adjusting something to prevent people from seeing it.

"The Skull Island of the White Bone Clan..."

The masked woman was surprised and hesitant. She knew that this Skull Island was the territory of the White Bone Clan. If she intruded it, she could cause a dispute and offend the members of the White Bone Clan.

However, she wasn't content. She had chased after him for a long time. She wasn't going to let him go from here.

After hesitating for a while, she called sternly. "Mei Ji(*) of the Phantom Clan. I want to land on the island for a matter. I wonder which friend from the White Bone Clan is staying on this island?" She revealed her identity and called toward the floating Skull Island.

(*) lit. a charming woman, concubine or female entertainer (archaic.)

The Skull Island was still flashing. The empty sockets shimmered with bizarre lights.

No one answered her.

"Then, I'm sorry for offending." Mei Ji thought and then called out gently. She headed toward the massive skull island.

Through the pale white mist, her sexy body landed on the island. Although the gravity here was hundreds of times stronger, she was still floating and slowly descending like a fairy. Her cold eyes raked around to search.

She didn't see Shi Yan.

She snorted and used her Soul Consciousness to check. Her Soul Consciousness was like a thick mesh net lowering from the sky to cover every small corner.

The island appeared as a skull with countless piles of white bones in different sections.

At this moment, while Mei Ji was releasing her Soul Consciousness to search, her soul energy seemed to activate some kind of gravitational formation. She saw three spots where white bones with strange and malicious aura shimmering gathered.

The hollow sockets of the massive skull suddenly sparkled in white, eccentric lights. It flashed and then disappeared.

"I'm here just to find a person. I'm not going to disturb your cultivating time. Please forgive me."

Mei Ji seemed afraid of the White Bone Clan a lot. While using her Soul Consciousness to search, she screamed tenderly to show that she didn't have any evil intention and that she had no choice but to land on the island.

Swish!"

Mei Ji's sexy body swayed and then flew toward a pile of white bones.

Boom! Boom! Boom!

The white bones were smashed and it revealed Shi Yan. He immediately urged his power Upanishad to teleport.

Boom!

A strange energy grumblingly released from the thick white mist above his head. The space was bound to so many layers of clouds. Shi Yan's Space power Upanishad was restricted. He couldn't build a space bridge to teleport.

He stood up and looked at Mei Ji coming with a faint smile. His eyes suddenly filled with brutal and savage intention!

"Then I should risk my life in a nice battle!"

Roaring like a caged animal, his God power surged all. At the same time, he stimulated the power of his blood. The bone wings appeared on his back while armor with spikes covered his body.

Shi Yan decided not to retain anything in this battle! He was going to urge the Death power Upanishad and Swallow power Upanishad to the acme. To save his life, he wasn't going to hesitate to pay any price!

A brutal, murderous aura shot out of his body. While his thoughts were changing, the Death and Life power Upanishad circulated first. Shortly after, the Soul Burial Field of Death power Upanishad was created!

Magically, billions of twinkling light dots flew out from countless pieces of bones. They were like fireflies or raindrops that congregated on Shi Yan.

Mei Ji swiftly came forward. With begrudging eyes, she couldn't help but furrow her brows. "I said I don't want to disturb you. I'm here to capture this person." She thought that the members of the White Bone Clan on this Skull Island suddenly took action. She didn't think that the light dots from the white bones were related to Shi Yan.

There was no sound replying to her from the Skull Island.

Mei Ji snorted. She didn't say more. Her agile, while hand snatched over Shi Yan's head like a venomous snake.

The chilling aura like a glacier stormed and seeped into Shi Yan's body. Shortly after, his body began to freeze.
