

Slaughter 1401

Chapter 1401: A Little Skeleton

Billions of light dots flew out of the white bones and flooded Shi Yan.

The cold, sinister energy dots hovered around Shi Yan and merged with the Soul Burial Field, giving him the ability to control this new energy.

At the same time, Mei Ji of the Phantom Clan took action. Her white hand snatched toward him from a distance like an agile snake.

The cold energy seeped into Shi Yan's soul altar and made his entire body make "crack" sounds. He could even see his body slowly freeze and frost. The space around him was frozen while the white bones underneath had become crystal-like ice sticks.

— Everything was frozen under Mei Ji's power.

Mei Ji was a member of the Phantom Clan. She was born with a gift of a mind-controlling technique. While she was talking to someone, her laughter or even a wince was enough to enchant and capture the other's mind. Her hot, sexy body made people think that she had lived a life of debauchery.

In her nature, she was cold and dark. She also cultivated Ice power Upanishad. However, she just needed to use the soul-enchanting technique to kill her enemies. When she attacked Shi Yan, because of his tough will and the Origin's flames, she had to use her real power Upanishad.

Crack! Crack! Crack!

The soul of freezing echoed continuously. Mei Ji's eyes were so cold and her voluptuous body was filled with the extremely cold energy.

Sizzle! Sizzle! Sizzle!

Billions of twinkling dots twirling around Shi Yan had become mist under the cold energy. A thick mist now covered Shi Yan.

However, Shi Yan's eyes were bright inside the mist. His mind and soul weren't affected at all.

His sword-like fingernails suddenly received energy from the mist when his power Upanishad switched.

Swish!

His hands tore the mist. The dead silent energy bloomed from his fingertips.

Ten pale flames that were like soul-taking chains attacked and attempted to coil Mei Ji's jade-like neck. They didn't even care about layers of her cold energy.

Mei Ji's eyes were so cold as she talked, "I am Mei Ji from the Phantom Clan. I've made myself clear that I don't want to trouble you. If you help this kid deal with me, don't blame me for not giving face to your White Bone Clan!"

The aura from the ten pale flames was the unique aura of the White Bone Clan. It made her think that someone was helping Shi Yan discreetly. That's how he could expose such powerful attacks.

Then, Mei Ji spurted an ice lotus. The lotus had icy, crystal petals. Inside the petal, some sort of white flames were flickering as if they had life energy.

The ten pale flames wanted to avoid the ice lotus, but the flames inside the petals had attracted them. Unexpectedly, they got rid of Shi Yan's soul control and went to the ice lotus. The ice lotus then clinked and murmured like a running stream. The ten white flames subsided and slowly disappeared...

"Kill!"

A red sea gushed out from Shi Yan's chest like a giant dragon soaring out of the abyss.

The blood-red sea suddenly condensed into a bloodthirsty hundred-meter-tall Demogorgon. Its body was like a mountain with a pair of red-iron, anchor-like claws. Its claws then pounded on Mei Ji's head.

Mei Ji's bright eyes were frightened. She looked at the Demogorgon made of the bloody sword and was panic-stricken. It was the secret technique of the Dark Demon Clan. Who was this kid? How has he mastered all the strange and rare techniques?

She rose one hand to grab something and a radiant ice mirror emerged. The ice mirror reflected countless icy light beams that shot away like ice sabers.

The giant claw of the Demogorgon slashed on the ice mirror. A loud clang boomed but the ice mirror stood still.

Mei Ji didn't look at the mirror. Her snake-like body twisted a little. Then, all of a sudden, the ice walls were conjured beneath, above, and around Shi Yan, pressing on him and confining him.

"A lot of tricks. You have Dark Energy but you don't know how to use its real power. Otherwise, it would not be easy to capture you at all." Mei Ji sneered and walked towards Shi Yan, placing one of her ivory hand on the ice wall.

The cold energy increased several times!

The ice walls were now connected to each other, forming a cube where Shi Yan was frozen inside. His skeleton, body, nerves, consciousness and even his train of thought stopped. His soul altar was freezing altogether!

He became an alive ice sculpture!

Mei Ji looked content. She exhaled in relief and then mumbled, "My job is done here. I won't bother you more. Friend, if you have time to visit the Phantom Clan, Mei Ji will welcome you personally."

She looked at the clear void of the Skull Island and used her Phantom Clan's etiquette to bow and bid farewell. Afterward, she placed one hand on the massive ice cube and was about to leave the Skull Island. After she had left this place for a long distance, she was going to slowly refine Shi Yan, which would give her a chance to enter the Territory Ancestor Realm.

While she was about to leave, if someone could see from the outside, he would see a faint halo on the hollow sockets of the Skull Island.

The skull seemed to wake up and regain life!

Swoosh! Swoosh!

Two snow-white bone dragons around hundreds of meters long flew out of the skull's hollow eye sockets.

The dragons were covered with white bones. Their eyes in the heads had strange and precious stones inlaid in their white bodies. As soon as they flew out, they aimed at Mei Ji.

One of the snow-white dragons opened its mouth to gush out a deep green stream that smelled sour and pungent. Apparently, it was extremely toxic.

The other dragon fluttered its bone wings and created two tornadoes with Mei Ji as their target.

Mei Ji felt cold inwardly. She couldn't help but scream. "Our Phantom Clan and your White Bone Clan have never offended each other but you're attacking me. Do you want to start a dispute between our two clans?"

There was no answer from the Skull Island.

Mei Ji took a deep breath. She pulled herself together and became so stern. She had to drop Shi Yan down first.

The dangerous aura that the two white bone dragons had given her wasn't less than Tu Shi Qi and his wife. Moreover, she knew that the bone slaves that the White Bone Clan refined didn't suffer from pain or death. They could even destroy their own bodies. They were terrifying puppets, indeed.

If she was at her peak condition, even if she had to grab Shi Yan with one hand, she wouldn't be afraid of the two bone dragons.

But right now...

Shi Yan's world-within-world shattering had damaged her on Dragon Lizard Star. And after a long pursuit, her condition wasn't really good. She didn't have even half of the energy she had accumulated. Thus, she couldn't keep Shi Yan on her side and leave while fighting against another enemy.

Shi Yan was now an ice sculpture imprisoned inside the ice cube. His soul and body were all frozen.

In his body, only one spot had energy that fluctuated. It was the tier of heaven flames. The sea of fire created by the heaven flames had never extinguished. It slowly burned and woke up his co-soul. They warmed and gradually awakened the frozen, second soul.

The two bone dragons stormed towards Mei Ji with a river of toxins and tornadoes.

Mei Ji had urged her power Upanishad. The icy Qi twirled around her. The ice sabers, icicles, swords, and even the snowstorm were conjured. However, she could only resist the two dragons. Her new fearsome mask was torn and so were her clothes. Her glowing white skin that looked like shining jade was exposed.

It was too bad that the dragons didn't take in or admire her marvelous sexy body. Shi Yan could do that, but he was still frozen.

The massive, abyss-like mouth of the Skull Island strangely moved. A small figure crawled out of the mouth and jumped towards Mei Ji.

After one jump, he could glide through the distance that even the bone dragons couldn't fly through. The bone feet landed grumbly and shook the entire Skull Island.

It was a little skeleton that was around four feet. Each bone of this skeleton was shining and transparent like a crystal. The skeleton was glowing and it looked pretty bizarre. To the White Bone Clan, with this height, this skeleton was just a child. It was going to need a long time to reach adulthood.

The skeleton was moving at breakneck speed. It was closer to Mei Ji after each second.

The White Bone Clan was a unique clan. The children in their clan weren't born in their mother's womb. Each child of this clan was "refined" by its parents.

The parents would gather many pieces of white bone. The white bones formed the skeletons of the powerful creatures. "Bone Pond" in the White Bone Clan was used to refine them. This process took hundreds of years or even ten thousand years!

Taking in the energy from billions of pieces of bones submerged in the Bone Pond, a new child of the White Bone Clan slowly formed. After the bone body was formed, its parents carried out soul intercourse, which would use their soul essence and energy to create a life seed. Then, that life seed would be planted into the bone body. After many years, the bone body and the seed fused together. Then, a new child of the White Bone Clan was born.

It was true that it was extremely tough for the White Bone Clan to reproduce.

It would take several thousand years or even ten thousand years to give birth to a child in the White Bone Clan.

As it was so difficult to give birth to children in the White Bone Clan, of course, the newborn babies were very different from ordinary people.

Normally, if the parents of the kid were powerful enough and they had prepared rare but precious bones for it, when the bone body was formed, it was already intimidating. It could even be as strong as an Immortal Realm expert. Also, if the parents had powerful and profound souls, the life seed created from their soul intercourse was extremely extraordinary.

Normally, when a child of the White Bone Clan was born, it had already reached King God Realm.

If its parents were more formidable, it could reach Ethereal God Realm or Original God Realm. And it wasn't strange for an Incipient God Realm baby to be born after the life seed was activated.

The White Bone child was galloping towards Mei Ji. There were so many mysterious and magical Absolute Beginning symbols on its little skull. On its way, it had grumbly stomped on the bone ground of the Skull Island, which was like a terrifying earthquake.

The power from this pair of bony feet was actually so formidable that even the Immortal Realm experts couldn't have such power!

This little skeleton had reached at least the Immortal Realm! It was small but its realm was very high. There was no need to wonder how fierce its parents were!

God of Slaughter

Chapter 1402: A Turn for the Better!

"Boom!"

A small, white-crystal skeleton descended from the sky and steadied between the two skeleton dragons.

The bone dragons furiously attacked Mei Ji and suddenly retracted, crouching like two nice hounds by the skeleton's feet, their rolling eyes servile.

Mei Ji was bewildered. Her bright eyes looked surprised. She looked at the little skeleton of the White Bone Clan, her charming face extremely stunned.

She knew how the White Bone Clan members produced the next generation. She understood clearly that even if the White Bone Clan parents were at the Peak of Immortal Realm, they couldn't "give birth" to such a terrifying child.

She could feel the tremendous energy from this little buddy from the White Bone Clan. His energy fluctuated and made her heart beat anxiously faster.

Mei Ji became frightened.

She was so frightened when she looked at the Skull Island underneath. She became gingerly and didn't dare to act rashly anymore.

The parents that could "refine" such a formidable child had unimaginably profound realms. If this sort of character was on the island, they were likely the most powerful warriors of the White Bone Clan!

The white-crystal little skeleton didn't have a bit of flesh on it. Its eyes were inlaid with star-like precious gemstones. One of the two gemstones was white and the other was red. They separately released burning and freezing energies. As the skeleton was gazing at her, Mei Ji was scared.

The small skeleton had a heart core, which was something unknown but illuminating. The heart core was the source of energy of the White Bone Clan. It functioned like the God power Ancient Tree of the other races.

It was really complicated to create the heart core. It was also related to the stimulation of the life seed and the materials needed to "refine" the child. The energy in this little skeleton seemed to be endless. Mei Ji thought that this kid was mysterious and dangerous at the same time.

"Crack! Crack!"

The two dragons smacked their jaws as if they were little puppies. They twisted their bodies to describe something to the little skeleton and the bones on their bodies even shook.

The star-like eyes of the little skeleton twinkled as it was listening to the bone dragons. Then, it looked at Shi Yan.

Fire burst out of its eye. It was dazzling and it immediately aimed at the ice cube.

The ice cube created by Mei Ji's cold energy was like snow that was roasted on a fire. It melted down immediately. Shi Yan resumed his spirit and body functions.

He looked at the small skeleton and screamed in fear.

With his profound power Upanishads, he could have a precise understanding of lunar stars and solar stars. The white and red eyes of the skeleton were the lunar nucleus and the solar nucleus respectively. Shi Yan could feel the hot energy from the red eye, which was not less than the combination of ten suns!

It was extremely formidable!

He believed that if this little skeleton detonated the solar energy in its left eye, it was enough to burn hundreds of life stars into ashes or turn Immortal Realm experts into charcoal.

The intimidation of that scorching energy had frightened the heaven flame inside his brain. Under such a look, he felt his blood evaporating.

And the other was controlling its power precisely.

Similarly, the right eye of the little skeleton was made of a lunar nucleus. It was cold and filled with Yin and some marvelous powers.

"He's the enemy that I have to kill. Child, are your parents here? I am Mei Ji of the Phantom Clan. I don't want to create any misunderstanding with your White Bone Clan. I was wrong when I've entered your precious land. But I was begrudging... Please..."

Mei Ji immediately used her soft voice to explain when she saw the little skeleton rescuing Shi Yan from the ice cube.

At this moment, her masked was torn and her clothes were ragged. Her delicate waist and creamy thighs were discernible. Her assets could boil any man's blood.

However, it didn't work on the little skeleton as its eyes moved swiftly and focused on Shi Yan. It didn't even mind Mei Ji's explanation.

Shi Yan was filled with surprise. He could feel the subtle and marvelous aura from the skeleton, which was creeping on him as if it was trying to pull the thread of his cocoon...

This kid of the White Bone Clan was using some special technique to check Shi Yan's secrets. That strange energy moved around his veins, Sea of Consciousness, and soul altar.

Mei Ji's charming face grimaced. The feeling of being ignored made her feel insulted as she was used to being the focus of the crowd.

However, she didn't dare to do anything.

She wasn't so sure if this little skeleton's parents were on this Skull Island, too. If they were, their realm was likely higher than hers. She couldn't recognize them and she didn't have the power to resist.

“*****.”

After a while, the little skeleton pointed at Shi Yan while making some strange noises as if it was talking about something.

Shi Yan was bewildered. He shook his head continuously. “I don't understand.”

The memories of languages from the Heavenly Eye Clan didn't contain this language. Apparently, the skeleton wasn't using a common language. Shi Yan didn't understand anything.

Mei Ji of the Phantom Clan was also puzzled. Her beautiful, exquisite eyebrows furrowed. After a while, her eyes brightened. “The language of the previous generation of the White Bone Clan!” She placed an emerald ring on her forehead. A green light rippled from the ring and disappeared into her head.

“He's my captive!” Mei Ji immediately understood what the little skeleton said. She was enraged. “You want him to go with you? Why do you have to ask that?”

She was speaking a common language, but the small skeleton apparently understood her. Its line of sight moved from Shi Yan to Mei Ji.

“*****!”

The skeleton spoke in the strange language again. It sounded angry as light rolled in its eyes.

Mei Ji wore a cold face and shook her head continuously. “No! He's my captive. I don't care what you want. I have to take this man away! You little kid, don't you understand? Have your parents taught you how to behave?”

The little skeleton was just angry but it didn't do anything. However, when Mei Ji mentioned its “parents,” she seemed to have ignited its wrath.

The skeleton let out a low roar.

The terrifying energy fluctuations inside the Skull Island seemed to activate with the mysterious formation in the skeleton's eyes.

The mysterious symbols on the skeleton's skull twinkled like stars. Then, brilliant, star-like spots appeared on its skeleton. They were like its acupuncture points.

Shi Yan gawked and his eyes radiated the magical light.

He cultivated Star power Upanishad so at first glance, he knew that those were the real stars! They were refined stars that functioned as the acupuncture points of this little skeleton. At this moment, so many twinkling stars began to diffuse the surging star energy.

Unexpectedly, this little bony thing had mastered the Star power Upanishad like him!”

“What do you want?!?”

Mei Ji was also frightened. Actually, she wasn't afraid of this little skeleton. She was scared of the members of the ancient White Bone Clan who could be properly hiding in this Skull Island.

This little skeleton spoke a language of the White Bone Clan's previous generation that no one used now. From this point, his parents was likely terrifyingly ancient too. If they were hiding in the Skull Island, let alone Mei Ji, even if her clan's Territory Ancestor Realm expert came here, she couldn't do anything.

Swish! Swish! Swish!

The bunches of light fell like meteors. They came out from different areas of the Skull Island and as the skeleton was guiding them, they moved toward Mei Ji. Mei Ji was panic-stricken when the lights focused on her. She didn't hesitate to take out the snow lotus to cover her body entirely. At the same time, she urged her Ice power Upanishad to freeze her own body.

When the ice mountain emerged, her sexy body was preserved inside the peak of the ice mountain.

The skeleton hissed strangely and guided the starlight winding around the ice mountain peak like chains. Right after that, a scarlet light column shot out from its left eye and attacked the peak. The ice on the mountain peak melted fast under the scorching heat of the red light.

Those meteor-like lights were ready to attack right when the peak all melted.

Mei Ji screamed inwardly.

If she was in her best condition, she wouldn't have been so passive in dealing with this kind of attack. However, at this moment, she could only defend and she couldn't spend extra energy to counterattack.

She knew that unless the energy of the scarlet light was drained, she would never be able to get rid of this peak safely.

The little skeleton didn't mind her at all. Seeing her confined for the time being, its anger subsided. Then, it turned to Shi Yan and gestured while speaking its alien language. Shi Yan could see the begging gleam in its little eyes. It seemed to treat Shi Yan a lot better than it treated Mei Ji.

"I don't understand what you're saying. But it seems like you want to take me somewhere. Okay, no problem," said Shi Yan nonchalantly.

This little member of the White Bone Clan wasn't weaker than Mei Ji and this was the Skull Island, the White Bone Clan's territory. If he had harmful intentions, Shi Yan couldn't hide. He'd better stay quiet and see what this little buddy wanted to do.

Shi Yan made up his mind fast.

The little skeleton understood him. Its eyes brightened when Shi Yan agreed to go with it. Then, it pointed at one of the bone dragons.

The bone dragon roared and flew toward Shi Yan, crouching down under his feet. The little skeleton pointed at Shi Yan and then the bone dragon, asking him to get on it.

“Alright,” Shi Yan was cooperative. He stepped on the bone dragon. He was surprised to see that the bone dragon was smooth and felt warm like real jade.

The little skeleton rode the other bone dragon.

Swoosh! Swoosh!

The two bone dragons took Shi Yan and the skeleton away. They disappeared from Mei Ji’s sight. They flew toward the massive, dark mouth of the skull and entered the huge crack instantly.

Mei Ji glared at Shi Yan being taken away, but she couldn’t do anything. Her resentment grew bigger.

The scarlet light column was like a flaming thread unceasingly burning the ice peak that she had condensed. The starlight chains wound around the peak with terrifying energy, waiting to strike her hard when the ice all melted.

“Damn it! Whose kid is that?! How could it be so abnormal like that?!” Mei Ji cursed. She felt bothersome thinking about the peerless experts of the White Bone Clan from the previous generation.

[God of Slaughter](#)

Chapter 1403: Parents’ Love

The White Bone Clan’s little skeleton brought Shi Yan deep into the Skull Island through a massive, mouth-like cave. It was a dark area where Shi Yan couldn’t see anything.

The bone dragons flapped their wings and moved through a dim-lit passage. After a while, Shi Yan finally saw a band of pale white light.

It was like phosphorus flames from the bones.

Shi Yan was placid as he sent his energy to his eyes to have better eyesight. The dim-lit area became clearer to him.

This area was surrounded by stone walls. Those walls looked ash-gray and they were actually decayed bones. Many mysterious drawings were carved on the walls including the moon, the sun, the stars, mountains, and even lakes. They looked lively as if they were real.

After a while, the dragon bones stopped. The poorly illuminated cave suddenly brightened.

Two bone dragons stopped by a massive stone room, which was the center of the Skull Island. This was a spaciouly massive room that connected to forty-nine stone paths. Those forty-nine paths were like big ditches that connected to different areas on Skull Island. Piles of ash-gray bones stood in the paths.

Those bones didn’t have any bit of energy remaining. When Shi Yan released his Soul Consciousness to sense, they turned into ashes.

The stone room had many ditches like a network of channels that created a massive, unknown formation. Two coffins stood in the center of the formation. They were made of unknown materials. The coffins were opened and standing in the middle of a massive bone pond. This bone pond must have had some liquid, but it was all dried up now.

The little skeleton of the White Bone Clan stopped by the two coffins. The eyes made of stars of the skeleton contained its deep sorrow.

The atmosphere in this stone chamber was affected by the skeleton's mood. Sadness was hovering in the air. The little skeleton's head turned around to take in the two coffins.

Shi Yan silently walked forward. He saw two members of the White Bone Clan, one male and one female, lie inside the coffins.

Apparently, these two White Bone Clan experts were the parents of this child. They lay quietly. There was no aura or life energy fluctuation. Their bones were brown-gray like bones that decayed for many years. They looked fragile as if they would break when someone touched them.

Watching the coffins and the bone pond for a while, Shi Yan's eyes brightened.

The two coffins had many long bones that reached the bone pond. They looked as if they were used to transport something into the pond.

Shi Yan became more curious. He observed around and found that the paths and the ditches in the room all headed to the two coffins. They were likely used to pour some energy into the two coffins to refine and then pour into the bone pond to nurture something it bore.

He looked at the little skeleton and understood it immediately.

He had heard something about how the White Bone Clan had "refined" the children from Yvelines. It seemed like this kid's parents had used the mysterious power of the White Bone Clan to condense the energy from the bones on this Skull Island and used their bodies to refine the energy and pour into the bone pond.

All this was to refine the bone body for this little skeleton. After the bone body was formed, something happened. His parents had to drain their own life energy to create him. They died in the end.

During this process, something unexpected happened. Otherwise, this couple wouldn't have sacrificed themselves.

While he was thinking, the little skeleton looked at him and then pointed at his parents inside the coffins. He spoke and gestured. He was trying to tell Shi Yan something.

Although Shi Yan didn't understand anything, he could guess the skeleton's idea. He shook his head and sighed. "Your parents don't have any bit of energy. They are... dead. I'm afraid I can't do anything."

The White Bone Clan little skeleton shook his head continuously. The scarlet and white lights shot out from his eyes and fell on the brown-gray male skeleton.

Strangely, a feeble wisp of soul energy fluctuated for a fragment of time.

The little skeleton's eyes brightened. He pointed at his father's body, crying and speaking to Shi Yan.

Shi Yan was surprised. He concentrated on sensing. Then, he found a feeble soul energy fluctuation in the skull of the White Bone Clan male member. However, his life energy was drained but there was a

feeble wisp of soul energy, even though it wasn't enough to wake him up. Unless his bone body had vitality.

The little skeleton pointed to Shi Yan and gestured hard. Then, he lay into the bone pond and released the vitality. His vitality moved through the white bones connected to the pond and the coffins, but it couldn't get through the coffin to pour into his parents' bodies.

Shi Yan observed and he understood it. A strange feeling flooded him.

The stone chamber inside this Skull Island was a peculiar formation of the White Bone Clan. A White Bone Clan couple wanted their kid to be powerful so they had spent a lot of effort to build the formation, which took their energy through the coffins and poured vitality into the bone pond. The coffin and the bone pond were parts of this marvelous formation.

However, it seemed like there was some big problem that happened during the process, which could harm the child. This couple had drained their life energy to save their child. Also, they had become so weak that they had just a wisp of a feeble soul energy. There was not even a little bit of vitality left in their bodies.

This little bony buddy had found that Shi Yan cultivated Life power Upanishad, so he hoped that Shi Yan could change this formation to pour energy into the pond and make it run back into the coffins. The little skeleton wanted to use his vitality to wake up his parents.

"How deep was a parents' love in this world..." Shi Yan shook his head with emotions. "This strange formation only receives vitality. We can't use the bone pond to guide energy back to the coffins. Your parents knew that you would do that in the future. They didn't let you do that. They hoped that you wouldn't pay with your life to revive them."

The grief in the small skeleton became heavier. It opened its mouth and pointed to Shi Yan. He looked a little anxious and restless.

Shi Yan gave him a forced smile. "It's true that I'm cultivating Life power Upanishad, but my realm isn't high enough to distort this marvelous formation. Alright, I can use the Life power Upanishad to try. Let's see if my vitality can help your parents."

The little skeleton nodded continuously, his eyes bright. He clasped his bony hands and bowed to Shi Yan, which made him look funny.

"I can only give it a try. You shouldn't have such big hopes." Shi Yan stepped forward and placed one hand on the heart core of the male skeleton.

The heart core was the energy source of the White Bone Clan members. It functioned similarly to the God power Ancient Tree of the warriors. This man's heart core was rhombus shaped and simple as if it was made of natural jade.

The heart core was cold under his hand. However, it had no energy fluctuation. It was like a still, stagnant pond.

Shi Yan was cautiously urging his Life power Upanishad. A drop of blood emerged on his fingertip, which had vigorous vitality that could revive the dry tree.

Sizzle!

His drop of blood fell on the heart core. The heart core absorbed that drop of blood instantly like a dry sponge. The heart core flashed and Shi Yan heard a heartbeat. Right after that, the coffin emitted an immense white light. The ivory light moved through the bones connected to the coffin to the bone pond. The dry pond suddenly had some viscous liquid.

“*****!”

The little skeleton cried painfully in the bottom of the bone pond. He looked so pitiful that he seemed to be going crazy.

Shi Yan was bewildered.

He hadn't expected that these parents from the White Bone Clan only wanted to save their child before they died. The energy he had poured into the skeleton had followed the old path through the coffin to the bone pond.

All they had done was for the little skeleton in the bone pond. They didn't even mind their lives.

Shi Yan came from another world. His parents had gone early. Although he had inherited a big fortune from his parents, he had never experienced this sort of sacrificing parental love. Ever since he had come to this world, he had rarely been touched. And today, he was deeply touched when he knew the way the two skeletons in the coffins had used to protect their child.

“If we pour energy into the coffins, it will be poured into the bone pond afterward. To bring you to this world, they had sacrificed as much as they could!” Shi Yan took a deep breath and then said, “We can't use this method. How about moving them out of the coffins and then I will try again? What do you think?”

The little skeleton balled his body in a corner of the bone pond. It was crying silently in pain and hopelessness. It was almost desperate. Hearing Shi Yan's suggestion, it pulled itself together, nodded to Shi Yan, and jumped out of the pond. They were about to move his father's body out of the coffin.

Right when it was about to take action, the Skull Island shook hard. A furious energy fluctuation came from the area above Shi Yan's head.

The little skeleton was extremely enraged. Hesitated for a while, it decided to go out and see. However, it was worried about Shi Yan, so it ordered the bone dragon to protect Shi Yan.

Shi Yan was surprised. He didn't know that Mei Ji of the Phantom Clan could be so powerful to get rid of the confinement that quickly.

Skull Island.

A cold ice mountain peak was coiled by so many lights. A flaming chain was releasing scorching heat to melt the ice peak.

The ice peak confined Mei Ji's graceful body. However, fear had filled her beautiful eyes on her charming, pale face.

She looked afar.

In the mist above her head, two silhouettes slowly landed. They were two old, dry men with thick Corpse Qi.

They all wore strange green robes with a drawing of a mysterious black hole on the left chest. They were all lanky with deep green, spooky eyes and bluish green skin. Their arms were strangely long and they could reach their calves. However, their hands had only three fingers, which were as sharp as swords.

The deep green eyes looked at Mei Ji like venomous eyes that gazed at a delicious prey.

Mei Ji's visage changed dramatically. At first glance, she knew the two old men's identities. Shivers sent down her spine.

Rumble! Rumble!

Right after they had landed, the Skull Island was shaken grumblingly. This powerful tremor was what Shi Yan and the little skeleton had found. Mei Ji didn't create this commotion.

"A member of the Phantom Clan!" snorted one of the old men. He naturally strolled toward Mei Ji and mumbled to himself, "Oh, the unfathered kid has confined her."

"I am Mei Ji from the Phantom Clan. Friends from Devouring Clan, I wonder why you are visiting this island? If you want to attack the White Bone Clan members on this island, we can negotiate." Mei Ji giggled. She honestly and passionately looked at the two members of the Devouring Clan, proactively showing her cooperative intention.

Unfortunately, the other two didn't have the same idea. They suddenly attacked her.

As soon as the old man approached her, he opened his mouth to spurt a python made of Corpse Qi. The python began to dig into the ice mountain from the foot. The ice cracked and broke as the python wanted to climb up and bite Mei Ji.

[God of Slaughter](#)

Chapter 1404: The Real Origin of the Soul Inside the Ring...

The python made of Corpse Qi continuously nibbled the ice and cracked it from the foot. The white python then turned into a bright mist under the ice mountain and then seeped into the mountain. Shortly after, an arm-sized rope coiled around Mei Ji.

Boom! Boom! Boom!

The ice peak exploded!

Countless ice rocks shattered. The meteor-like beams of light and the flaming chain turned into a flow of light that disappeared into the ground of the Skull Island.

Mei Ji suddenly understood something.

The little skeleton of the White Bone Clan didn't want to kill or harm her. The starlight beams and the flaming chain hovering around just wanted to bind her and prevent her from running away.

After the ice peak exploded, those lights and flames disappeared into the ground. It was enough to prove that the little skeleton didn't want to kill her.

Otherwise, those meteor-like lights and flames could have seized the chance to destroy her when the python broke the ice. She would have been hurt badly or even killed.

"Ah!"

The old man from the Devouring Clan was surprised when he looking at the lights and flames disappearing into the ground. He frowned and then sneered, "That illegitimate child is kind enough to not attack her brutally. It spared her life. Haha, it's good then. He gave me a good advantage this time..."

His shiny bluish face was like snakeskin. It gave a cold and evil impression. At this moment, he grinned fiendishly and lustily.

His deep green eyes lingered on Mei Ji's sexy body. He gulped and laughed eccentrically. "The women of the Phantom Clan are all heavenly treasures. Haha, she's at the same realm asme. It's true that you can't stop your fortune when it comes to you. I'm going to make you a corpse slave and you will serve me every day. It's the best thing in the world! Excellent!"

The white python wound around Mei Ji's delicate waist, her round rear end, and her ample breasts. It squeezed her white, jade-like skin, leaving the red marks on it. This cruel, beautiful sadism could ignite any man's desire and burn their mind instantly. The two old men of the Devouring Clan had naked lust fill their eyes.

The old man standing further away even had a boner in his pants. His blood Qi was running chaotically. He couldn't help but let out a low shout. "Bastos! Give this woman to me. I want her for ten years. After ten years, I will return her to you. Just say that she's one of the payment you have to give to me this time!"

The green lines like venomous snakes were moving inside his pupils.

The other old man who was called Bastos twitched. His eyes greedily scanned Mei Ji's body several times. He took a deep breath to pull himself together. "Nazario, I can let you keep this woman for ten years! But you have agreed with me that you have to do your best to deal with that rascal from the White Bone Clan!"

"No problem!" Nazario licked his lip.

The two old men from the Devouring Clan came here for the little skeleton. They had accidentally met Mei Ji here. Women of the Phantom Clan were famous treasures in this vast cosmos. Every man would treasure them as their most precious asset.

Unfortunately, the Phantom Clan was one of the Seven Great Clans. Each of the female warriors of this clan was powerful and noble. Not many people could capture the Phantom Clan women to enjoy the endless pleasure that they could bring.

Mei Ji was at the Peak of Immortal Realm. With her power, when she was at her peak condition, she wouldn't fall into a disadvantageous situation when facing these two old men from the Devouring Clan. It was too bad for her that her condition was really bad at this moment. Thus, the Corpse Qi python could capture her and send the Corpse Qi into her body to affect her.

The Corpse Qi slowly affected her flesh and blood. She could feel her flexible body go numb and stiff.

Whenever she tried to urge her energy and power Upanishad, the python squeezed her tighter as if it wanted to halve her right at her waist. She gritted her teeth and felt so resentful upon listening to the two old men talk. As she opened her mouth to talk, the Corpse Qi flooded her mouth. Thus, she decided to shut up.

Mei Ji felt utterly insulted. She loathed the two old men, Shi Yan and the little skeleton too. She thought that if the other two didn't trick her, with her full power, she wouldn't be afraid of these two sinister, vulgar old men.

Thinking about the mantis-green eyes of the two old men and their sharp fingers, which would possibly slide on her beautiful, soft body in the future, she got goosebumps. Her heart was filled with cold despair.

She had made up her mind. If she couldn't find a chance to overturn this, she was going to use her power Upanishad to freeze her body and then self-detonate before the Corpse Qi invaded her Sea of Consciousness fully.

Even if she had to die, she was never going to let herself fall to these two Devouring Clan's old men! She'd rather die than live like that!

Swoosh! Swoosh! Swoosh!

Flapping sounds arose. The two snow-white bone dragons had come back and appeared in Mei Ji's sight.

Mei Ji's eyes brightened. She looked at the little skeleton and Shi Yan riding the bone dragons with the hope for a new change to this situation.

"Child born out of wedlock! You can't believe I'm here for you, right? You hurt me last time. I have to spend a lot of time to recover. Today, I'm not alone. I'm here with the power of two experts at the Peak of Immortal Realm. Let's see how you can protect your parents' bodies! Muahaha, I've talked to Nazario. We will each keep one of your parents. After we refine them into corpse slaves, they will be powerful assistants for us to swagger!"

The Devouring Clan member called Bastos grinned fiendishly and eccentrically. His eyes raked through the skeleton riding the bone dragon. He didn't even give Shi Yan a look.

The aura on Shi Yan's body was ordinary to him. While Shi Yan hadn't emerged yet, he had already confirmed his realm and cultivation base.

A First Sky of Immortal Realm warrior in his eyes couldn't support the little skeleton.

"Is that him?" Nazario subsided his tide-like desire to Mei Ji. He got himself together quickly. "What did you find in our precursor's vestiges?"

“Our precursor had been here a long time ago. At that time, the parents of this illegitimate kid were refining him. Our precursor wanted to seize the chance to kill its parents and make them corpse slaves. Unexpectedly, even at the final phase of their process, they were still very powerful. They attacked our precursor and wounded him badly. He had to run away. Not long after he left this place, he knew that he couldn’t survive the damages. He had used his last drops of energy to create his cave mansion vestige so someone from our clan could find it later...”

When Bastos talked about their precursor, he looked respectful as if he was slowly blowing the dust on a piece of their history. “Inside the vestige, he told us about this secret. He even showed the location of this island. He said that the parents of this kid couldn’t survive for a long time. He asked us to come and refine them into corpse slaves. It’s to take revenge for him.”

He coldly looked at the little skeleton. “Thirty years ago, I followed the direction and came here. However, this bastard has already formed. I couldn’t defeat it so I had to run. I’ve spent thirty years recovering. That’s why I came to you and asked you to join me on this affair. You can have one of its parents’ bodies to refine your corpse slave.”

Pausing for a while, Bastos shouted, “The bone body of the White Bone Clan Territory Ancestor Realm experts! They’re the best for creating corpse slaves. Once we can refine them, the voice of our branch in the Clan will be more powerful!”

“The bone body of the Territory Ancestor Realm expert...”

Nazario’s dark green eyes moved fast. He couldn’t hide his greed. He looked at Mei Ji who was under the python’s attack and then at the little skeleton. He grinned and nodded to the other. “I want that Phantom woman and one bone body. You can keep the other body and this little skeleton.”

“Deal!” Bastos agreed.

They exchanged looks and laughed loudly as they felt so content.

Shi Yan wore a calm face while sitting on the bone dragon, even though a high wave was rising in his heart.

They were two Devouring Clan members...

The Devouring Clan was the race that Devour, the Absolute Beginning creature, had used his blood and flesh to create. It was one of the Seven Great Clans in this vast cosmos and also the most mysterious and evil.

Devour used to impart the Devouring power Upanishad and the eight great evil powers for this clan. However, throughout the perpetual time of inheritance, the Devouring power Upanishad was lost. Even the eight great evil powers were scattered and incomplete.

Even so, in the Sea Domain of Nihilism and the other territories in this immense universe, no one dared to look down on the Devouring Clan. It was still one of the strongest clans.

Devour was the archenemy of Desolate. Their combat had carried out for billions of years and it hadn’t ended yet!

Desolate had created Bloodthirsty. When it was about to impart the power Upanishad to Bloodthirsty, Devour attacked it. Devour had successfully given Bloodthirsty the Devouring power Upanishad and the eight great powers. It made Bloodthirsty turn around to destroy Desolate's Incipient Extent and inevitably kill Desolate too.

In the end, Bloodthirsty had used the supernatural and peerless talents to understand the power and backfire Devour. After that battle, Devour was shut down ever since.

Bloodthirsty had built up Bloodthirsty Force and with his extraordinary power, he had defeated Devour with Devouring power Upanishad and the eight great evil powers.

After Devour had left to fight against Desolate, the Devouring Clan had gradually lost its inheritance. Quite the contrary, in Desolate Territory, Devour's inheritance, the Bloodthirsty Force, had the complete inheritances of the power. It was a joke that the Creator played on Devour.

Today, seeing the two members of the Devouring Clan, Shi Yan closed his eyes to sense for a while. He was shaken hard!

The secret that had troubled him for a long time was solved when he saw the Devouring Clan members.

After Bloodthirsty was gone, the Blood Vein Ring was divided into three parts. Lao Luo, Xuan Shan, and Xuan He used them to create the inheritance on the ancient continents. Xuan He failed. Lao Luo brought Shi Yan here. And Xuan Shan appeared to have failed but he actually brought a soul from another universe. That soul discreetly supported Harson. Harson also failed and Shi Yan had killed him. That soul had swallowed the Ring Spirit and attempted to seize Shi Yan's body.

And then, when Bloodthirsty's remains were gradually exposed, that soul had another evil thought. It enticed Shi Yan to gather Bloodthirsty's remains so it could use his remains to resurrect itself.

Shi Yan didn't know where that soul had come from. And today, as he saw the members of the Devouring Clan, he realized the answer.

Even though that soul had tried to hide it, its aura and vague appearance were very similar to the two members of the Devouring Clan in front of him!

That soul came from the Devouring Clan in the Sea Domain of Nihilicity. He understood the situation of the Bloodthirsty Force and he knew the eight great evil powers. That was why he could activate the mysterious formation on the island inside the Dark Abyss...

Possibly, that soul was the backup plan that Devour, the Absolute Beginning creature, had preserved. Devour had used its power to bring a soul it had chosen from the race it had created. It wanted to make that soul the new master of Bloodthirsty Force, which was going to change the structure of Desolate Territory and start a new round of battles with Desolate!

Chapter 1405: Mysterious Yin Corpse Worm

Sizzle! Sizzle!

The white python made of the Corpse Qi tied Mei Ji as if it was an arm-sized rope.

Mei Ji's body was hung in midair on the Skull Dragon. Countless Corpse Qi wisps from the python were intruding her body while it kept hissing.

The Devouring Clan had eight branches, which cultivated the eight great devil powers. Nazario and Bastos belonged to the Corpse Qi branch. This division was similar to the eight forces of the Bloodthirsty Force. The Devouring Clan members who cultivated Corpse Qi had mastered refining corpse slaves. They had some intimidating corpse slaves that were even stronger than their masters.

The Devouring Clan had many different styles in refining the corpse slaves. However, making the Corpse Qi seep into the body until it brimmed and diffused was the fundamental method of refining corpses.

Bastos's Corpse Qi python was actually his strange tool to refine corpses. This secret treasure could make the corpse toxin intrude the victim's body slowly and transform the blood, flesh, and vitality of any creature. It would make the body filled with Corpse Qi, which facilitated the next step to create a corpse slave.

When the body was invaded, the Corpse Qi wined around the soul and body of the victim. The victim then became stiff and lost consciousness.

Feeling so many wisps of corpse toxins moving inside her body, Mei Ji slowly saw illusions and her thinking got sluggish.

Her eyes gradually lost light and became dulled and blank. Her white, glowing skin was now sickly pale.

She knew that the python created by some strange tool was using the corpse toxin to erode her bit by bit. She gathered her spirit, which she was slowly losing, and bit the corners of her mouth. Two trickles of blood oozed and rolled to her neck. They looked like terrifying, eye-catching worms.

Bam!

A wave of cool energy came out of her round breasts, her chest shaking.

A snow-white lotus with blood veins on the petals grew on her chest, covering her entire charming body.

Mei Ji's eyes regained light. She looked at the two members of the Devouring Clan in the distance and pointed at the python's head that was facing the lotus on her chest!

An icy saber emerged!

The snake's head exploded. The Corpse Qi flows became smaller wisps. However, it was just for a moment. The Corpse Qi then congregated and condensed, covering Mei Ji one more time.

Not far from her, Bastos was watching with a teasing face, "With your realm and cultivation base, I can't actually tie you down. Anyway, your wounds are really bad and you have just one-third of your God power left. How can you resist my corpse toxin corrosion?"

Indeed, as soon as his voice vanished, the python Mei Ji had just beheaded reappeared and coiled Mei Ji and her snow lotus altogether.

To create the snow lotus, Mei Ji had to pay with serious damage to her body. After this failure, she couldn't attack sufficiently again. Before she lost her ability to speak, her bright eyes gazed at the little skeleton and she cried weakly, "I could only distract him for a while. It's what I can do. I hope you can kill these two. I hope that you could endure it!"

She understood clearly that with her current condition, she couldn't stand Bastos or Nazario. She could only lay her hope on the little skeleton. She hoped that it could be resilient.

The only thing she could do now was to not yield to them. She would use her little amount of remaining energy to trouble Bastos and make him distracted by attacking him.

She didn't even look at Shi Yan. At this moment, her life was her top priority. The idea of refining Shi Yan to help her reach the Territory Ancestor Realm was now out of reach. Moreover, she didn't have enough energy to waste on a useless junior.

In this battle, Shi Yan was predestined as a minor, unimportant character.

She thought so too.

The little skeleton had the same thought. It turned to Shi Yan, its crystal arms swinging at the bone dragons and asking them to take Shi Yan further from this area to avoid the Devouring Clan experts' ambush.

Swoosh!

The bone dragon immediately flew away and carried Shi Yan further away from this battle.

The bone dragon dropped Shi Yan and then soared up into the sky. It flew around the little skeleton.

Rattle! Rattle!

Strange noises suddenly arose from Bastos's sleeves of the green robes. So many shiny white worms flooded out of his sleeves.

Those worms had many legs like centipedes. However, each of their legs was as sharp as a sword. Although the worms were just as big as a thumb, there were hundreds of thousands of them. After they had flown out of his sleeves, they crept rapidly toward the little skeleton.

Shi Yan squinted to watch, his face changed.

The Mysterious Yin corpse worms!

As the new Master of Bloodthirsty, although he didn't know all of the eight great, evil powers, he did know the secrets of these powers.

The Mysterious Yin corpse worms were a kind of strange insect that a force cultivating Corpse Qi like Frederick bred. They had to nibble the corpses of the experts for at least one hundred years to be able to transform to Mysterious Yin corpse worms.

This kind of corpse worm was cold Yin with saber-like legs that could tear an expert's body easily. They would enter the bodies to nibble from the inside. Starting from the stomach and the internal organs, they would eat an expert from the inside.

No saber or sword could cut the Mysterious Yin corpse worm. Water and fire were also useless. Those worms had strange energy waves that could affect the Sea of Consciousness. The corpse worms from Bastos' sleeves cried sharply. While they were marching toward the little skeleton, Shi Yan also felt his soul fall in pain. It felt like he got stabbed with pointy spikes.

He knew that those Mysterious Yin corpse worms were really tough. It was really hard to refine one worm. They had to eat at least hundreds of corpses and the expert had to refine them for hundreds of years.

Each Mysterious Yin corpse worm was just as big as a thumb, but Shi Yan knew that they ate a lot. A worm could finish an entire warrior in two hours.

Facing a wave of so many Mysterious Yin corpse worms, let alone ordinary creatures, even a giant beast of Heavenly Monster Tribe couldn't endure them for long. The worms could even finish their bones.

However, while facing the members of the White Bone Clan, the Mysterious Yin corpse worms couldn't do much.

The corpse toxins and flesh-eating worms were not effective against the little skeleton!

The little skeleton stood in front of the bone dragons and watched the worms swarm. It didn't want to dodge at all. The toxin from the Mysterious Yin corpse worms and the worms couldn't affect it at all.

The skeleton lifted his head to look at Bastos as if he was wondering why Bastos had done such useless attacks, which made him bewildered.

"Haha," Bastos sneered. The palms of his hands suddenly glowed. The fingerprint light flew out from his hands and created something like magical curtains above the corpse worms.

The two formations seemed to have an evil power that stimulated the Mysterious Yin corpse worms and made them insanely brutal. The worms hissed and risked their lives, swarming forward.

The corpse worms covered the little skeleton instantly!

The insects crying and shrieking was so sharp that it could tear people's eardrums. Shi Yan's face was cold as he had to use the Space power Upanishad to confine his area to protect himself from the harmful sound waves.

When the terrifying shrieking arose, blood ran out of Mei Ji's eyes, nostrils, and ears. Her charming face became paler.

"My corpse worms can only disturb its soul. They can't eat this skeleton. This bastard's bones are really tough. My corpse worms can't chew it. I need your power to kill it." After the little skeleton was covered in the pile of worms, Bastos took a deep breath and then turned to Nazario.

"Of course, I'm here to give you a hand." Nazario nodded. He coughed and then strolled toward the little skeleton.

Swoosh! Swoosh!

The two bone dragons were enraged. They stormed over, biting and tearing to protect the little skeleton.

Nazario looked calm as he touched his glabella. His Incipient Extent emerged from the crown of his head...

Piles of bones like mountains appeared in an immense world. The vast, seething sea in the middle of that world contained something viscous like liquid that oozed out from the corpses. Thousands of dismembered bodies from different clans floated and bobbed together with cut limbs, eyeballs, fingers, or even skulls in that sea.

An eccentric fist-sized eyeball floated and drifted from the sea of corpses.

From the corpse sea, countless beams of Corpse Qi condensed and turned into wisps of white air that poured into that eyeball. Nazario grabbed it and brought it out of his Incipient Extent.

“Corpses crack!”

Holding the strange eyeball facing the two dragons, Nazario shouted in the ancient language of the Devouring Clan.

Crack! Crack! Crack!

The two bone dragons suddenly had so many thick, fine cracks as if they were gashed by invisible blades.

Boom!

One of the bone dragons exploded, its bones shattering.

Nazario frowned and avoided the pieces of bones from that bone dragon. He walked toward the small skeleton.

The Mysterious Yin corpse worms in his way seemed to sense his intimidating aura. They scattered and gave him a narrow path that lead to the little skeleton.

Bastos hovered in the air and focused on using his power Upanishad. The two fingerprints like massive hands slowly snatched down from the sky and made the Mysterious Yin corpse worms hiss and shriek harder. The soul-piercing shrieks from the worms had pressured the little skeleton, which created a chance for Bastos to crack the skeleton.

Shi Yan watched silently. He didn't take rash actions. He observed the moves of the two members of the Devouring Clan and their power Upanishads. When the others were about to kill the little skeleton, Shi Yan changed his thoughts and a strange energy fluctuated that spreaded from him.

He suddenly vanished like a wisp of smoke. When he reappeared, he was behind Mei Ji's sexy body.

Mei Ji faced Bastos and Nazario. These two had concentrated on killing the little skeleton and they didn't even bat an eye at him.

They didn't notice that when he disappeared and reappeared, Mei Ji was standing and shielding in front of him. Also, the other two didn't even care about Mei Ji, so they didn't see Shi Yan hiding behind her.

Bastos and Nazario didn't look at him but Mei Ji shivered as she could sense his commotion. She was anxious, her eyes desperate and bitter.

It was karma when this rascal could have a chance to ambush her. It was good then. At least, it was better than falling into the two old men's hands.

Mei Ji sighed inwardly.

God of Slaughter

Chapter 1406: Detoxify!

Mei Ji sighed. It was the first time she regretted that she had provoked Shi Yan. She knew all of her troubles were caused by her greed.

If she hadn't provoked Shi Yan, she wouldn't have offended Forefather Dragon Lizard and Tu Shi Qi from the Mysterious Sky Clan. She wouldn't have needed to join hands with Singh to end up getting wounded seriously when Shi Yan's world-within-world exploded. It wouldn't have ignited her wrath and tempted her to chase after him until she was exhausted. And now, they were on this White Bone Clan's Skull Island.

She reaped what she sowed. Shi Yan had pushed her to a tragic death.

Mei Ji was so regretful that she wanted to die.

Shortly after, a pair of rough, big hands were placed on her exposed back...

The hands were warm and they didn't send any fatal energy to attack her when they were placed on her beautiful back. Mei Ji was touched. She woke up immediately and bit her lips. She pressed her voice to the lowest, audible level. "Little thief! Your lust is too big. You're about to die, but you still have the mood to harass me?"

She thought that Shi Yan wanted to seize the chance to sexually harass her.

"Harass you?" Shi Yan's voice was cold and stiff behind her. "I don't have free time to do that! I'll only ask you one question. If I save you this time, what should you do about the grudge between us?"

"Save me?" Mei Ji thought that she had heard a good joke before she died. "With only you? Do you think you've reached the Territory Ancestor Realm and have the strength to help me detoxify the corpse toxin in my body and get rid of this python? You're too confident!"

Mei Ji thought that unless he had reached the Territory Ancestor Realm, it was just a dream to save her from this situation!

The evil power Upanishads of the Devouring Clan was always peculiar. The Corpse Qi was even worse. It was almost impossible to heal a victim of the corpse toxin in a short time.

Shi Yan was just a small warrior at First Sky of Immortal Realm. Also, she had witnessed his recent breakthrough. What did he have to save her from the corpse toxin?

It was the biggest joke ever!

“We don’t have much time. I’m asking you again. If I can save her, what will you do? Think and answer. If I’m not satisfied with your answer, you’ll lose your only hope.” Shi Yan sounded ruthless and cold. However, his words echoed strongly!

Mei Ji didn’t know whether she should cry or smile. She just thought that the kid behind her didn’t know how high the sky was. “If you help me break this blockage, I’m willing to humble and harass myself by serving you dedicatedly! The women of our clan are the best dreams of all men. I’m sure I can give you endless delight!”

“I’m never interested in the sort of woman who would take any man as their husband,” Shi Yan sneered, “Anyway, your attitude pleases me...”

“Who said I’ll take anyone to be my husband?!” Mei Ji’s alluring face seemed frosty. She was so angry that she shivered and spoke coldly. “Although we were born with the gift of the soul-enchanting technique, we keep ourselves clean. If I can move, I will cut your tongue first!”

“Well, you can still make wind of this situation. We can’t talk to women, indeed,” Shi Yan sneered again.

Censored part.....

In the next moment, Mei Ji was tense when rough hands slid from her back to her sensitive waist. And they continued sliding further downward...

“You... What are you doing?” she hissed through her gritted teeth.

“What are you afraid of?” Shi Yan’s mocking voice arose behind her. “You’ve been f*cking chasing me for a long time. I know you’re hungry for me. And now, you said that you’re a virgin. I need to check to see whether it’s true. If it’s true, I will give you face by satisfying this hungry, resentful woman...”

“You dare!” Mei Ji’s bright eyes became anxious and restless.

She cultivated Ice power Upanishad. The soul-enchanting technique was just a special innate ability that the Phantom Clan women had. From her power Upanishad, one could tell that she wasn’t a loose person.

To the Phantom Clan women, the enchanting technique was just a trick and it was a deadly trick, anyway. They didn’t use it to win someone’s heart. If they wanted to win someone’s heart, they would only do that to the loyal and dedicated Male Guests or their life partners the clan had matched for them.

The Phantom Clan women with high realms would never sacrifice their bodies. Their clan didn’t have male members. They were the trump cards in their clan. They had to be the beautiful source of troubles to make this vast sea of stars chaotic. However, they all kept their purity.

Mei Ji was this sort of woman!

Shi Yan’s big hands wandered on her back and butt cheeks. Under the soft, silky dress, they were moving toward the joint between her thighs. She was extremely frightened and her flame of wrath rised torrentially.

She couldn’t turn her head around to see Shi Yan. At this moment, his face looked ultimately grave. He didn’t even have any vulgar intention as sweat beaded on his forehead.

His hand slowly reached and placed on Mei Ji's most mysterious area. When Mei Ji was shivering in anger and was about to use her last beam of energy to resist, a small black hole appeared on Shi Yan's hand. That black hole revolved rapidly and a strong but strange suction force began to work.

Mei Ji's fragrant grass became warm and the suction force was like a rapid electric current that shot through her entire body. The corpse toxin in her body was attracted and it moved downward.

She suddenly had an urge to urinate and she couldn't hold it. Immediately, her stream of urine was discharged

The corpse toxin in her body was rolled into the urine and discharged from her body in such a humiliating way that she couldn't stand it. They flowed out of her mysterious, sensitive place and poured on Shi Yan's hand. Her water ran through the gaps between Shi Yan's fingers while the black hole in his palm swallowed all the corpse toxin.

The python coiling Mei Ji's sexy body became like a withered flower. It dried strangely.

It seemed like the python's nutrient and life energy was drawn. From the size of an arm, it shrunk until it was as big as a finger. Even then, it continued shriveling.

Mei Ji's numb body started to get better as she was discharging urine uncontrollably. Seeing the python get smaller, Mei Ji felt both humiliated and surprised. She didn't know how and why Shi Yan had drawn the toxin out of her body.

— Also, he had applied such a deviant way to take them out of her body!

Even if she squeezed her brain, she could never think that Shi Yan was using the Devouring power Upanishad, the lost power Upanishad of the Devouring Clan, on his hand, which was placed on her sensitive part of the body.

The Devouring Clan had the Devouring power Upanishad that topped the others. It had subdued all the other eight great, evil power Upanishads. The Devouring power Upanishad could swallow all the energy generated by the other eight power Upanishads. It could devour corpse toxin, erosive toxins, death energy, and even Dark Energy.

It was also the reason why after Shi Yan swallowed energy, he could send extra energy to warriors cultivating one of the eight power Upanishads through the mark on their foreheads.

Sizzle! Sizzle!

The python suddenly disappeared. A rope made of white hair on corpses fell on the ground. Without energy, this secret treasure had fallen off Mei Ji's body.

Mei Ji regained her mobility.

Her soft body was quivering. Her silky dress was soaked wet and her lower body felt damp and sticky. She stooped and found a hand placed on the joint of her thighs. Humiliation and unspoken indignity appeared on her face. She loathed that she couldn't kill herself at this spot.

She felt sorry for her reputation. She had been receiving nice names and glories, arrogantly enjoying so many top-qualified privileges. However, all burned down because of this humiliating moment.

She had urinary incontinence. This attack wasn't less than a big damage to her body. Her heart was filled with resentment and sour, bitter feelings. However, she had no way to vent it.

"It seems like you've recovered."

Before her volcano had erupted, Shi Yan had retracted his hands and stepped away from her. When she turned around to see, she found Shi Yan shaking his left hand off the water on it.

A streak of glittering fluid seemed to ridicule her ugly, embarrassing performance. It drove her crazy!

Shi Yan shook off the urine on his hand right in front of Mei Ji. He rubbed his hand with the cloth on his side.

Right after that, he wore a calm face as if nothing had happened. He said indifferently, "If the two monsters of the Devouring Clan aren't dead, we're all doomed. Although your God power isn't abundant now, you're at the Peak of Immortal Realm. Yeah, you don't need me to teach you how and what to do, right?"

Mei Ji got it immediately.

Shi Yan unchained her to make her risk her life with the two old experts of the Devouring Clan. He wanted to use her last drop of power to exchange for his life.

Mei Ji was so resentful that she even felt her teeth itch. At this moment, she pushed aside the attempt to figure out how Shi Yan had sucked all the corpse toxin out of her body. What was left in her was only her indignation. "I have only a part of my God power left. Do you want me to explode my soul altar to help you get rid of this?"

Shi Yan shrugged. "You won't let me go there to die? Even if I go there, I have no way to overturn the situation. You can do it, more or less."

He did want Mei Ji to die together with the two Devouring Clan experts. He had observed and he knew Mei Ji had a deep grudge against the others because they wanted to turn her into a corpse slave. He had recognized when she even wanted to kill her self in her despair.

You want to die anyway. If you can drag one Devouring Clan monster with you to cushion your back, will it not be very convenient?

—— To the woman who wanted to kill him and refine his soul to help her reach the Territory Ancestor Realm, Shi Yan didn't have a bit of compassion. All that he had done was just to turn this situation around!

Boom! Boom!

At this moment, another bone dragon shattered. Of the two old monsters of the Devouring Clan, one was using a massive fingerprint to increase the soul pressure and the other was holding a white eyeball to gather the energy to strike the little skeleton.

All of a sudden, Bastos shivered. He turned around to look at the other side.

He had finally found something wrong!

Shi Yan pointed at the rope made of white hair by Mei Ji's foot. "When that thing receives the Corpse Qi, it will become that powerful, intimidating python."

"Damn! Why didn't you tell me earlier?!" Mei Ji changed her visage. She gathered her God power. Sharp icicles appeared and stabbed the white rope. The rope cracked and made sounds that indicated it cracked, but it didn't disconnect or break.

However, Bastos was shaken hard and his face was pale.

"It's his Life Treasure!" Shi Yan shouted. He didn't need to think and he slashed his bloody sword. A one-hundred-meter blood light grumblingly hacked on the white rope.

This rope was made of white hair of the members from one hundred races. From one full-force attack of the bloody sword, it was halved.

"Ptui!"

Bastos couldn't help but spurt blood. His spirit, Qi, and Soul became fatigued immediately. He shouted as if his madness had finally burst out. Roaring and crying, he crazily dashed toward the others.

Temporarily, he left the little skeleton behind.

[God of Slaughter](#)

Chapter 1407: Join Hands

The life treasures of the warriors connected to the host soul, Sea of Consciousness and even to the God power Ancient Tree. Typically, a warrior refined only one Life Treasure, which they tried to maximize.

The Life Treasure could perform a lot of magical functions. As the warrior and his Life Treasure was connected through the soul, the power sent to the treasure wouldn't be disrupted and he could even send his Soul Consciousness together with the energy...

However, when the Life Treasure was damaged badly, the owner received the same damage. In some worse cases, when the Life Treasure shattered, the owner's body exploded altogether. In the worst case, the owner's soul was torn to pieces!

Bastos's white rope was made of the white hair of corpses from one hundred different races. He had refined it with many rare and precious materials for several hundred years.

That white rope was called "Corpse Reins" and it was the fundamental tool he had to refine the corpse. This Corpse Reins helped him refine and tame many corpses. This white rope was a terrifying whip to his corpse slaves.

Outside the Skull Island, layers of mist hovered. That white mist could defend the corpse slaves. The parents of the little skeleton had created the mist to protect the area. Thus, Bastos and Nazario couldn't bring the corpse slaves with them this time. Otherwise, with two more corpse slaves, they would have finished this battle perfectly.

One of the magical functions of this Corpse Reins was that it could absorb vitality to turn a vigorous warrior into a stiff corpse. It facilitated the corpse refining process a lot.

The python created by the Corpse Reins had coiled Mei Ji for a while. If it had held her for longer, she would have lost her consciousness. She would have become a corpse without the ability to reason. After that, Bastos could have activated her brain to make her his standard corpse slave.

He didn't think and just dashed forward at his max speed.

A white light tore the sky. Bastos waved his hands on the way and the feeling of connected flesh came to him.

Two pieces of the Corpse Reins suddenly shivered and moved like a snake. Slowly, they reconnected and they looked almost intact.

Shi Yan was still far away so he couldn't stop him. He could only shout at Mei Ji, "Try your best to stop him!"

Mei Ji cursed Shi Yan's ancestors and gritted her teeth to urge the little bit of energy she had. A broad ice sword slowly emerged from her palm. The body of the sword reflected her beautiful body. It looked like she was carving her soul seal onto it.

The ice sword was formed. Mei Ji's face became even paler. Her jade-like arm rose and slashed on the Corpse Rein's old cut!

Sizzle!

The Corpse Reins was cut off again and it sent ice pieces everywhere. Wisps of ivory Corpse Qi emitted from the cut mouth.

Bastos was on his way. He halted as if he had just barged into a mountain. He turned dark and sinister, roaring crazily. "That low woman! I'm sure I will make you wish that you were dead! I will definitely show you what happens if you offend me!"

Mei Ji was so cold. She knew that even if she had to detonate her soul altar, she would never let herself fall into Bastos' hands.

Otherwise, she would have to endure an extreme torment which would make her want to die.

She turned her head and her dark eyes gazed at Shi Yan. "Are you satisfied now? Is it what you want?"

Shi Yan frowned and didn't say anything. He moved away and stayed far away from her and Bastos.

Mei Ji looked at him in the eyes twice. In the end, she begrudgingly turned around. Another snow lotus bloomed on her ample breast with bleeding petals. It was beautiful and alluring like her exquisite glamor.

The bleeding snow lotus had drained Mei Ji's life energy. At this rate of losing vitality, she must have used some kind of mysterious technique. As Shi Yan guessed, she was about to risk her life with Bastos even if she had to pay with her own life.

A wave of strange soul energy came from her brain. Her icy eyes were now filled with resolution!

Bastos was coming with rage. He halted a few hundred steps away from Mei Ji as he was shaken hard.

Bastos didn't dare to move even a step further.

He didn't even dare to look at the treasure that was connected with his life. He didn't dare to take it back.

It was because of the strange energy fluctuation from Mei Ji. It was like a volcano that could erupt at any minute. Once it was activated, it would release the last light and drag everybody close to the abyss to Hell.

As they were all at the Peak of Immortal Realm, Bastos understood clearly that Mei Ji had only a bit of her God power left. However, when she decided to destroy her life, the energy from her death was going to be enough to shatter him altogether. In a specific range, he couldn't stand or avoid this.

"If you want to die, just do it. I don't have free time to waste on you." Bastos hovered in front of her, his face dark. All of a sudden, his brows twitched.

He swayed and changed his direction, dashing towards Shi Yan.

When he had just turned around, he saw Shi Yan slashing a blood light. He knew it was the thing that cut off his Corpse Reins. Thus, Shi Yan was his enemy too.

Mei Ji had prepared to shatter the jade together with the stones. Seeing Bastos change his target in fear, her eyes brightened with cold light when her evil plan worked. She sneered and looked at Shi Yan from a distance, feeling really good.

"Hey old dog. If you want to kill me, you still need to work hard. If you don't believe me, come and try."

Shi Yan was like an illusion shifting through this Skull Island. His figure flashed and then disappeared. Then, he reappeared ten thousand miles away. Using the Space power Upanishad, he was like a shadow that no one could capture. He didn't linger at any spot.

The short rest on the Skull Island had allowed him to regenerate his energy a little bit. He wasn't a lamp without oil. If he wanted to run, he had enough energy to endure for a while.

When Mei Ji wanted to kill him, she had struggled a lot. And now, it worked on Bastos too.

Bastos was moving crazily, but he couldn't lock Shi Yan down. Especially when Shi Yan used Dark Energy, he could turn invisible. Bastos became hot-tempered and restless.

Mei Ji was watching everything with a nonchalant face. She felt delighted when Bastos was roaring like a tiger but couldn't capture Shi Yan. She had experienced this situation before, so she understood Bastos' feeling well.

Also, Bastos cultivated only the Corpse Qi. He didn't know how to use the soul power to find an expert with Dark Energy who was hiding.

Thus, it was more difficult to deal with Shi Yan.

What made Mei Ji more surprised was that the thick Corpse Qi that Bastos had released massively didn't work on Shi Yan. Shi Yan was still moving agilely. He wasn't affected even a bit from Bastos' attack.

Mei Ji subsided her delight of taking revenge. Her beautiful eyes became stern. She had a feeling that Shi Yan cultivated some technique that could suppress Bastos!

She had this feeling since Shi Yan used a humiliating method that she would never forget to suck the corpse toxin from her body out. When she finally had time to focus her mind, this feeling became clearer!

Something could subdue the power Upanishads of the Devouring Clan?

Mei Ji couldn't react. She searched through her head, thinking about strange and rare power Upanishads, but she couldn't find anything that matched. It made her bewildered, indeed.

She didn't relate it to the Devouring power Upanishad because of three reasons: First, it was the top, supreme power Upanishad of the Devouring Clan. Second of all, this power was lost, even in the Devouring Clan; third, Shi Yan wasn't a member of the Devouring Clan.

She just thought that Shi Yan was mysterious and he seemed to have many secrets she couldn't understand.

While she was observing, the Corpse Reins by her disappeared unknowingly. It seemed like Bastos had retrieved it. She didn't mind as she was busy taking in the pellets that the Phantom Clan had refined to regenerate her energy, even if it wasn't that significant.

She turned to look at the battle between the little skeleton and Nazario.

The Mysterious Yin corpse worms still covered the skeleton. However, they weren't as strong as when Bastos had used his power to support them. Their shrieking wasn't enough to trouble the skeleton's soul now.

It troubled Nazario to apply his power Upanishad on the little skeleton. At this moment, the little skeleton's eyes twinkled radiantly. A flaming light and an icy light shot out, which annoyed Nazario a lot. Nazario became a little helter-skelter. The eyeball in his eyes looked tired as if it had consumed a lot of energy.

"Bastos, what the heck are you doing? Don't chase that kid! Kill this bastard first!" Nazario panted and couldn't help but yell.

Bastos got himself together while persistently chasing after Shi Yan. He knew that he didn't have a lot of time left. It would be better to join hands with the other to kill the skeleton instead of wasting time on pursuing Shi Yan. After that, they would have plenty of time to defeat Shi Yan and Mei Ji.

Shi Yan was moving strangely. Bastos couldn't catch him. Mei Ji was ready to explode herself altogether. Bastos didn't have any solution to deal with her quickly. Reluctantly, he had to fly back to Nazario.

Swoosh!

A light shadow slid across. Shi Yan reappeared not far from Mei Ji. He looked at Mei Ji, "Once that little skeleton is killed, you have only one way to go, which is to die altogether. If you help it kill or shoo away the two monsters, we will all survive."

“If you want, you should go help it. I have only a bit of God power left. If I go there and join the battle, it will be no different than me killing myself,” Mei Ji pulled a cold visage. “You little cunning rascal, you’re full of bad thoughts. You wanted me to hold one of the old monsters of the Devouring Clan. Good calculation. But why I should carry out your plan?”

“I’m only at First Sky of Immortal Realm. Once I show up, I’ll be killed faster.” Shi Yan opened his arms and said begrudgingly.

“I know you’re not weak,” Mei Ji’s eyes drilled into Shi Yan. “You shouldn’t think about sacrificing me anymore. I will definitely not act as you wish!”

Shi Yan kept silent.

He knew his minor calculation couldn’t be implemented. Pondering, he suggested, “You and I join hands to deal with Bastos. Believe me. We have the power to fight him. I’m sure when he faces you, his power will be reduced massively!”

“Finally, you want to contribute your strength now?” Mei Ji snorted.

Shi Yan frowned, staying silent.

“Okay, I’ll join you to battle against him. Nothing’s worse than death, anyway. I’ll accept all the prices! I want to make it clear that if you dare to hide and not risk your life, once I figure it out, I will drag you and Bastos to Hell together!” Mei Ji gritted her teeth, talking resentfully.

Shi Yan nodded his head with a forced smile.

God of Slaughter

Chapter 1408: Counterattack!

Crack! Crack! Crack!

The wave of Mysterious Yin corpse worms had submerged the White Bone Clan child. His white, crystal bones were nibbled continuously. However, although the Mysterious Yin corpse worms were trying hard, they couldn’t leave any scratch on that little skeleton.

The bone body had been refined through hundreds of thousands of quenching times. His parents had put their effort into it. Its hardness was so abnormal that even the Mysterious Yin corpse worms couldn’t break it.

“If its soul is dissolved, it can’t supply energy to maintain the body’s defense. We can break it then!”

Nazario’s fingers tightened around the white eyeball. As he swung his hand, his eyes shot an evil, white light, which felt so heavy when it shone on the little skeleton. It was like an entire mountain was placed on it.

Bastos came back.

He hovered in midair. At this moment, he didn’t care about Shi Yan or Mei Ji. The massive fingerprints from his palm flew out once again.

The Mysterious Yin corpse worms became extremely frenzied!

The mournful screeching echoed around the Skull Island. Anyone who heard it would feel their souls shake as if they got stabbed.

The small bone body of the little skeleton shivered. The power of the flaming light and the icy light from his eyes weakened. His eyes showed his agony.

At this moment, Shi Yan and Mei Ji had landed a deal.

Shi Yan disappeared again. He had urged Dark Energy and stood invisibly by Mei Ji.

Bastos and Nazario focused only on the little skeleton. They didn't notice Shi Yan's moves or Mei Ji's commotions.

When Nazario wanted to pour more energy to tear the bone body of the skeleton, the surrounding temperature suddenly reduced massively.

He looked up skeptically.

So many shining snowflakes were falling. Shortly after, a snowstorm struck the Skull Island and made it a snow-white, cold land.

The cold, icy energy slapped on him and Bastos. As soon as the snowflakes fell, they melted and seeped into the two's bodies. Then, the two experts became stiff and chilled from the inside.

"Despicable slut! You really want to die, right?"

Bastos was outrageous. He saw Mei Ji around one thousand steps away from him releasing icy cold energy. Countless sparkling snow lotuses were releasing cold energy and changing the weather of this entire area.

Each of the snowflakes contained Mei Ji's cold energy. When the flakes fell and seeped into the body, they could freeze the body indiscernibly.

"So annoying!" Nazario was irritated. "How did you confine her? How can she get rid of it?"

"How could I know that?" Bastos wasn't in a good mood. He said with a dark face, "That slut can self-detonate at any minute. I don't want to be dragged with her to death. I gave her a chance. I didn't think she doesn't treasure her life like that. She dares to come to disturb us!"

"You'd better defeat her now!" yelled Nazario.

Bastos kept a cold face and pondered. He then said reluctantly, "Never mind. I'll sacrifice a little here. Okay, I will kill her and make her body my corpse slave. It's acceptable..."

Then, Bastos moved, his eyes darkly sinister.

His Incipient Extent emerged from his forehead. It was a mountain made of so many corpses. It slowly descended above Mei Ji's head from the sky.

This mountain was Bastos' power and it could kill Mei Ji. However, if Mei Ji wanted to play hard and pay by exploding her soul, she could break this corpse mountain. It was also a terrible loss to Bastos. That's why he didn't use it earlier.

The corpse mountain was hundreds of meters high and created by pale corpses. It was scary enough to frighten anybody.

Seeing the corpse mountain pressing down, Mei Ji's charming face was sour. She hissed through her gritted teeth. "I hope your trick works. Don't harm me..."

"Don't worry. I'm sure we can join hands to deal with Bastos." A voice came from nowhere, but it was full of confidence.

Mei Ji lifted her head to watch the corpse mountain slowly falling.

Sizzle! Sizzle! Sizzle!

A long, narrow space slit emerged in the void above Mei Ji's head. Divine lights emerged from the space slit that led to an unknown world.

Shi Yan didn't even know where it led to!

When he had first landed on this Skull Island, the space here was controlled by some invisible force. He couldn't find the space nodes to run away. It was like he was lost. It was also the reason why Mei Ji could find him, but he couldn't teleport away from this Skull Island.

However, this time, when he urged his power Upanishad, it worked smoothly.

The space nodes that had disappeared now resumed. If Shi Yan wanted to leave now, he could do it deliberately.

In the dark, Shi Yan couldn't help but turn to the little skeleton. He saw his eyes sparkling once.

He suddenly understood it.

When he had fought with Mei Ji, that small skeleton must have done something to prevent him from running away using his Space power Upanishad. The little skeleton wanted to keep him here to save his parents.

This Skull Island should have some key to control energy barriers that were interlinked to the little skeleton. As he was in a dangerous situation, he didn't want to pull Shi Yan into this pit, so it had lifted up some spatial barriers.

Shi Yan could finally use his Space power Upanishad.

Mei Ji's eyes brightened.

The corpse mountain was still lowering. If it didn't change the direction, it would directly enter the space slit and disappear soon.

Bastos was scared out of his wits. He wore an extremely grimaced face as he hurried to urge his power and create a Corpse Qi rope to tie the corpse mountain and pull it toward him. If it fell into the space slit, his soul would be damaged severely.

Mei Ji laughed when she saw Bastos in a helter-skelter situation.

Swoosh! Swoosh! Swoosh!

The icicles and ice sabers were revolving in the sky like a tornado of ice pieces. It floated up into the air from Mei Ji's head. When the energy congregated, a snowstorm with ice grumblingly rolled toward Bastos and Nazario.

The two old monsters of the Devouring Clan wanted to focus on the skeleton first. Seeing the ice tornado go toward them, they were so angry that they could even vomit blood.

Bastos was trying his best to stop the corpse mountain; he didn't have extra efforts to counter. Nazario had to deal with the storm and tornado himself.

Nazario's Corpse Qi condensed and created a giant white-furred ape. The ape pounded its chest continuously, roaring and howling. It jumped into the ice tornado instantly to wreck it and tried to destroy the tornado before it could reach Bastos and Nazario.

Nazario steadied his mind and prepared to strike again. Right at that moment, a blazing sun dashed over and stormed into the ice tornado.

The white ape burned, smoking and screeching.

Nazario was shaken hard. Although the white ape wasn't his Life Treasure, it was created by his energy and power Upanishad. When the ape burned, it was also a heavy strike to his soul. He was wounded shortly after.

Not only that, the little skeleton had seized the chance when Nazario and Bastos were distracted to get rid of the Mysterious Yin corpse worms. So many stars twinkled on his body, which functioned like his acupuncture points. The starlight then shot up into the sky.

Stars began to twinkle inside the mist layers above the Skull Island. It seemed like some formation had activated. The two bone dragons, which were mashed, had their bones connect again miraculously. They flew up one more time.

In different corners of the Skull Island where many skeletons quietly piled, they slowly got up. These were hundreds of meters tall. They had only bones without eyes. However, they moved quickly and went to the battlefield.

Shi Yan was hiding in a secret place. He saw so many massive skeletons carry the bone sabers and jump on the Skull Island grumblingly.

Shortly, a skeleton, which seemed like it was the leader, stomped on dozens of Mysterious Yin corpse worms and smashed them. The corpse liquid splashed from the worms.

That huge skeleton brought a white saber, storming toward Nazario and slashing him.

Swish!

The saber light flashed as if it could tear the sky. So many light dots sparked from the white bone and flooded Nazario.

More and more giant skeletons gathered. A part of them stayed by the little skeletons and others advanced toward Bastos.

Mei Ji was stunned. She relaxed while watching the giant skeletons try to powerfully and intimidatingly make Nazario and Bastos helter-skelter.

She looked at the little skeleton in astonishment. She knew that this Skull Island wasn't ordinary. Perhaps the entire Skull Island was a divine weapon that his parents had spent a lot of efforts to create for him to deal with the enemies.

As he was temporarily held, he couldn't activate the power of the island. Thus, he was bullied.

With Shi Yan and Mei Ji's help, the skeleton had gotten rid of it and activated the mysterious defense of the Skull Island. He had created many skeletons, which had changed the situation quickly.

Those skeletons swung the bone sabers, attacking and chasing Bastos and Nazario. They knew that the situation wasn't going well for them. They wanted to leave this place. However, when they flew up, they found that the gravity had increased almost one thousand times. They were pulled back to the ground.

They didn't cultivate Space power Upanishad, so they couldn't use space energy to teleport like Shi Yan. Begrudgingly, they had to stay and fight against the huge skeletons on the Skull Island.

Every time they tried their best to destroy a big skeleton, the little skeleton would do something that shook the entire Skull Island. Then, the smashed skeleton would resume its frame and continue to attack Nazario and Bastos furiously like a dragon again.

Those huge things were immortal. There was no way to kill them. Nazario and the other were desperate when they figured this out.

Shi Yan was hiding. He suddenly reappeared by Mei Ji, his face stunned.

The little skeleton was riding a bone dragon and circling above the massive skeletons. He was swinging his arms and speaking the archaic language of the White Bone Clan to command the skeletons: his warriors.

Shi Yan watched them and was astounded. He was really surprised because of the little skeleton and this Skull Island.

"How could you absorb all the corpse toxins?" All of a sudden, Mei Ji's eyes drilled into him. "As far as I know, there aren't many power Upanishads that could absorb the corpse toxin. Also, I couldn't reason as to why you had to use that method to detoxify me?"

Mei Ji's voice pitched up, her face cold and malicious.

Shi Yan turned to look at her and said deliberately. "I only know that method to suck the toxin out."

Only he knew the real reason. He used that method to detoxify her to take revenge. He wanted to humiliate her in a way she would never forget.

If he wanted, he could have used a more proper method, which wouldn't irritate Mei Ji that much.

However, he did it this way because Mei Ji was cruel and she had chased for a long time. She was greedy and terrible. She wanted to use him to reach the Territory Ancestor Realm. She had enraged him. If she wasn't useful, he wouldn't have hesitated to find a chance and kill her to eliminate the danger afterward.

Chapter 1409: Bully the Beauty

Mei Ji's eyes were like cold sabers that cut and slashed Shi Yan. She hated the fact that she couldn't stab and cut him to death.

Then, the little skeleton sitting on the bone dragons was shouting and commanding his massive skeletons to attack Nazario and Bastos. Strange noises of some commotions came from inside the Skull Island.

Shi Yan had recognized that this entire Skull Island was a divine weapon, and a formidable one, though.

The Skull Island could seal the space to trap him and it could increase the gravity to thousands of times, which kept Nazario and Bastos from running away. At the same time, the little skeleton could even create huge skeletons and control them. This strange treasure was really unimaginable and marvelous.

Bastos apparently didn't know that much. Thirty years ago, the little skeleton had shown mercy by only wounding him.

This time, Bastos invited one expert to help him. However, from the current situation, the result was going to be even worse than the previous time.

Shi Yan was happy and related. As soon as he could calm down, he had some interesting idea. Glancing at Mei Ji, his eyes then scanned her hot, inviting body...

Bastos wasn't wrong. The Phantom women were gifts from heaven.

Mei Ji's long silk dress had many holes, which exposed her snow-like skin. Her white skin even glowed. Her breasts were so huge that they looked like they wanted to tear her dress to find freedom. Her slim waist emphasized her round, ample rear. Her cheeks were flawless under her twinkling eyes. This mature charming could arouse any man!

Shi Yan appraised her beauty sincerely. The glamor of this mature, charming woman had boiled any man's blood. "Hey, you said that if I helped you get rid of the corpse toxin, you would sacrifice yourself and serve me. I remember it. After we're done with this, we should find some time to finish this..." He laughed explicitly.

Mei Ji's body went stiff, her face cold. "You dare say that?"

Shi Yan was surprised. "Why can't I say it? Are you Phantom women all liars? You don't keep your word?"

"I just said that. Moreover, you... humiliated me with your treating method! You should be happy I didn't say I would kill you. You still dare to talk about these conditions with me?" Mei Ji was so angry that she wanted to vomit blood.

"I only know that you said if I could detoxify you, we wouldn't count the grudge between us and you would serve me for a while." Shi Yan's voice was resolute. He snorted, "Don't think that you can deny it. At your conditions, do you think I will rape you if you don't do what you've promised?"

"Rape... Rape me?"

In the next second, she screamed like a lunatic, her body shaking. "Try it! If you aren't afraid of death, just try it! I don't think I can't handle you!"

"Okay, I will try!" Shi Yan sneered inwardly. A thought popped up in his mind and triggered some secret arrangement.

As soon as Mei Ji was ready to take action, she suddenly felt her private area get hot. It was like having a flame burning her lower body. She was scared out of her wits. With a pale face, she shivered. She pointed her jade-like finger at him. "You... what did you do to my body? How could you be so despicable like that?"

Her lower body was so hot. The heat of the flame was controlled skillfully. However, if it increased, her lower body would burn.

Thinking about a worse, insulted situation that could happen, she was panic-stricken. She could never think about someone so cruel and his terrible ambush to women like him even in her dreams.

She suddenly recognized that Shi Yan was evil, cruel, and not less than the two monsters from the Devouring Clan. She was petrified and didn't dare to move. Her face wore a desperate expression as if she would rather die to end all of these.

"I had never provoked you on Dragon Lizard Continent. You were greedy. You wanted to refine my soul to help you reach the Territory Ancestor Realm. I was running away. You didn't stop chasing me. To break through to Territory Ancestor Realm, you've done a lot. I'm lucky that I have a tough life! If I hadn't been persistent and made a mistake on the way, what would have happened to me? My soul would have vanished and you would have destroyed it already. You and I don't have any resentment or grudge, but you could treat me like that. How couldn't I treat you the same way?"

Shi Yan looked at her. He ridiculed with a cold face. "Anyway, God doesn't favor you. I've undergone the kalpa, but I'm still alive. And you're so weak now. Well, you gave me a chance. If I can't take it, I will not be able to get over my own challenge."

Mei Ji stooped listening to his cold and harsh words. She felt so down. "I'm in your hands now. Do what you want."

She was subdued.

A kid at First Sky of Immortal Realm had ambushed her and humiliated her. And now, her lower body was burning. Her pride, confidence, and arrogance were torn apart. Her heart was gradually numb.

Shi Yan arched his brows and slowly walked toward Mei Ji. He rose one hand and used his index finger to stroke her chin. Lifting her stooped head, he observed this peerless glamor. "You're beautiful. You're a gift from heaven. Any man would get drunk because of you. I'm also a man. I can't avoid being vulgar..."

Mei Ji just let him do what he wanted to harass her. While listening to him, her dark eyes didn't have focus. "I agree with you that I will serve you for a while. But you have to agree with me to erase that Original Flame seal."

Her heart was now like ashes. Shi Yan's malicious tricks had made her panic. It was the first time she felt powerless and unable to do anything to Shi Yan.

When she was done, the irritating feel disappeared. Shi Yan had retracted his finger on her chin. She was surprised, her eyes brightened.

A red-orange flame danced on Shi Yan's fingertip. The flame had a special aura that she immediately recognized. It was the Original Flame Seal that was placed in her lower body. She had a new hope now and said coldly. "When I recover, I will delight you then!"

Shi Yan looked at her deeply in the eyes. "After you recover, while we are having fun, I think your soul will leave you, eh?"

Mei Ji frowned, "I don't care if you believe me or not. I will keep my words!"

She couldn't explain why Shi Yan suddenly lifted the seal that he had used to force her. Did he still have some other concealed trick?

Mei Ji was frightened. She suspiciously circulated her power to check her body entirely.

She gritted her teeth. Her neck blushed as she was carefully and detailedly checking her lower body...

Shi Yan looked at her and smiled. In his mind, he wasn't actually happy though. He figured out her intention. "There's no other trick. Don't be suspicious."

"You think I will believe you?" Mei Ji's eyes were cold and dark.

"If I wanted to control you, why would I retrieve the Original Flame Seal? Why would I do such a thing?"

Mei Ji was also bewildered. She contemplated and then gritted her teeth, lowering her voice. "I can fulfill my promise, but you have to make sure that no one will hear about this! Otherwise, when I fully recover, I will not regret paying any price to kill you!"

She thought that Shi Yan wanted to seize the chance when she was wounded to force her for a fun night.

She knew that if Shi Yan used his power, with her little remaining energy, she wouldn't be able to defend herself. Also, she thought that the little skeleton and Shi Yan had formed some agreement. On this Skull Island, with the little skeleton's support, she couldn't use her power to resist Shi Yan.

She had to accept her fate.

“I don’t need your body,” strangely, Shi Yan shook his head. “You seem to have a high position in the Phantom Clan. I need some information. I want to know what happened to Dragon Lizard Star after we left. I hope you can use the power of the Phantom Clan to find my friend. I want her alive!”

As long as Audrey lived, Ming Hong was also there. They could find the way to come back to Desolate Territory.

The Sea Domain was vast and the territories were endless. Shi Yan knew it would be a struggle to find Audrey on his own. If he couldn’t find the entrance to the territory, he could only stay in the Sea Domain of Nihilism. His connection to Xia Xin Yan, Yang Tian Emperor, and the others were going to be cut off. And now, Hui had emerged. He wondered what damages it had brought to Desolate Territory. He had to accumulate energy to change the structure of Desolate Territory in the future.

Mei Ji was a powerful character of the Phantom Clan and the Phantom Clan was one of the Seven Great Clans. Shi Yan even knew that they were the clan with the best and fastest intelligence!

If he could use Mei Ji to get the information from the Phantom Clan, it would be much easier for him.

“Oh, an affectionate man.” The corners of Mei Ji’s mouth curled. She quieted down as the toughest matter that had troubled her the most lifted away. When she looked at Shi Yan now, she felt better. “If you only need information, I can make a deal with you. On my Phantom ancestors, I promise to do my best to find the information you need. Are you sure?”

“I’m sure,” Shi Yan confirmed.

Mei Ji didn’t say anything. She threw one hand into the air while placing the other hand on her big breast before speaking the language of the Phantom Clan and her ancestors to pledge. She would keep her promise and find the information Shi Yan needed.

“Deal!” shouted Shi Yan.

In the next moment, he disappeared. After recovering from her bewilderment, she followed him.

Nazario and Bastos were forced into a valley between barren mountains. They were sieged in layers. The two looked tired and frightened. It seemed like they couldn’t endure it for a long time.

The little skeleton sat on the bone dragon and spoke the archaic language of the White Bone Clan to command the skeleton warriors to attack the others.

Gradually, Nazario and Bastos were slashed and bleeding hard. The remaining God power in their bodies was even less than Mei Ji’s.

“Leave them to me. They are useful to wake up your parents. Ask your skeleton warriors to pay attention,” Shi Yan suddenly shouted and looked at the little skeleton.

The skeleton was bewildered for a while but then nodded to him.

As the little skeleton and Mei Ji didn’t understand anything, Shi Yan flew toward Nazario and Bastos.

[God of Slaughter](#)

Chapter 1410: Power Upanishad Superiority

“*****!”

The little skeleton suddenly turned and screamed at Shi Yan. He waved his white bone hand and asked Shi Yan not to come close to Nazario and Bastos.

When Mei Ji was about to die, she could gather her energy and pay with her life to threaten Bastos not to come close to her.

They were all at the Peak of Immortal Realm. If they wanted to kill altogether because they couldn't have a chance to escape, the energy from their self-destruction was going to be enough to burst Shi Yan into pieces.

“He told you not to come close. Be careful or else those two will drag you into their death pit together,” Mei Ji screamed from a distance as she understood the little skeleton's language.

Shi Yan didn't change his visage or turn around to answer. “Well, if they want to shatter the stone and the jade altogether, it won't work on warriors with Space power Upanishad.”

Mei Ji was surprised. She thought and nodded as she finally agreed with Shi Yan's confidence.

If Shi Yan could teleport as he had done to run away from her, even if Nazario and Bastos wanted to self-detonate, it wasn't easy to kill Shi Yan.

Around ten giant skeleton warriors were holding their massive sabers and surrounding the two Devouring Clan old men in the valley. Those bone sabers were so massive. As they swung the sabers, white light shot out. Those sabers had left many deep cuts like a spider web in this valley.

Nazario and Bastos had countless bleeding cuts. Some even reached their bones, which was very scary to see.

“We're finished this time!” Nazario wore an extremely grimaced face. He hid with Bastos in a corner and gritted his teeth, his eyes malicious. “You don't know how intimidating he is and you have taken rash actions here. You've dragged me into this damn pit altogether!”

“It's useless to say anything now,” Bastos pulled himself together. “We can't save... our bodies. Let's wait for the chance to escape with our soul altars. We can use the corpse slaves out there. We will return to retaliate later.”

“We don't have another choice then...” Nazario snorted.

Until now, they had never thought that this battle could threaten their lives. They had thought that even if this Skull Island was more evil, they could leave whenever they wanted.

Anyway, regardless of how terrifying the tricks that little skeleton was, they didn't see him have any treasure or power to destroy the soul altar. At their Peak of Immortal Realm, it wasn't difficult to use the soul altar to escape.

They hadn't done that yet because they thought that they could run away with their bodies.

Shi Yan was especially flying toward them and the skeleton warriors had loosened their besiege.

Their eyes brightened as they exchanged looks. They thought that their chance had finally come.

Although they now had only ten percent of their power left, they were confident that they could deal with a junior warrior at First Sky of Immortal Realm with that amount of energy.

Nazario squeezed the eyeball. Abruptly, it released evil and dark energy that rippled like water waves.

Shi Yan landed from the sky and looked at the coming waves. He rose his hand to grab them.

The wisps of energy quietly disappeared!

Nazario was bewildered. He could feel the energy from his eyeball enter Shi Yan's palm.

This was impossible!

The eyeball had used Corpse Qi as the foundation and it even had corrosive energy, which came his friend who cultivated Corrosion power Upanishad. Shi Yan's palm received everything. How did he do that?

Bastos' visage changed. He knew that something was wrong. He immediately sent his Mysterious Yin corpse worms by his feet to Shi Yan.

Shi Yan grinned.

The Mysterious Yin corpse worms seemed to sense a domineering aura. They unexpectedly retreated. Each of them flattened their bodies on the ground and shivered.

The aura from Shi Yan's body made them instinctively fearful. It was the fear that was carved deeply in their Life Seal. They couldn't even think about resisting.

Bastos and Nazario gawked. They suddenly felt so chilled and they looked into the void instinctively.

It seemed like a Territory Ancestor Realm expert of their clan was hovering in the darkness and watching them. Only Territory Ancestor Realm experts of the Devouring Clan could have an aura with a beam of their ancestor Devour's aura, which could make the Mysterious Yin corpse worms crouch on the ground without daring to move.

They looked at the sky and felt both fearful and happy as they thought that they were right.

Far from them, Mei Ji's charming face was filled with surprise. She looked at the area and didn't know what was going on over there.

Shi Yan was standing in front of Bastos and Nazario, and the Mysterious Yin corpse worms were shivering under his feet. The eyeball in Nazario's hand continued to release a halo, but it didn't affect Shi Yan at all.

With her vision and knowledge, Mei Ji became puzzled. She didn't know what happened.

However, at this moment, Shi Yan turned around and said to the little skeleton. "I have something I want to talk to them about. I don't want... the others to overhear us. Don't worry. I can protect myself. Is it okay?"

The little skeleton looked at him with strange eyes. He was baffled for almost a minute before riding the bone dragons away.

The other dragon landed by Mei Ji. This gesture was like telling Mei Ji to leave too.

Mei Ji was so indignant. She knew that Shi Yan wanted to talk to Nazario and Bastos and it was crucial for her to understand him more. However, with Shi Yan's vigilance, she couldn't know the details, which made her upset and worried.

Not far from them, the little skeleton hovered and looked at her. Under his gaze, she was frightened.

After some cursing, she quietly sat down on the bone dragon. The bone dragon flew with her away.

"Take the skeleton warriors with you too," Shi Yan pitched his voice again.

As soon as he finished, the little skeleton spoke in its archaic language to command the skeleton warriors. Then, the huge skeletons jumped away from the valley.

Swoosh! Swoosh! Swoosh!

The three bone thorns hissed and flew out, stabbing Nazario's and Bastos' shoulders.

Shi Yan had refined these three bone thorns a long time ago. They had the essence of Space power Upanishad, so they could move freely between spaces. Using them to ambush the others often worked well.

The bone thorns nailed the two Devouring Clan monsters on the stone wall. They screeched in pain but shut up shortly after and just looked at the horizon.

Shi Yan didn't know why they did that. He lifted his head to see and he even used Dark Energy to sense for a while. He found nothing. Noticing the other two's moves when their eyes switched from the sky to the Mysterious Yin corpse worms, he understood.

"Nobody is there. Don't overthink it. Only I'm here."

Previously, he had thought that the Devouring power Upanishad could subdue the eight great, evil power Upanishads. However, since he hadn't had a chance to fight against his fellows, he couldn't confirm it.

Also, because he couldn't confirm that, he decided to stay nonchalantly when the two experts from the Devouring Clan attacked Mei Ji and the skeleton.

On the one hand, it was because he couldn't confirm if his assumption was right. On the other hand, Nazario and Bastos had had full power at that time. Even if his power Upanishad was superior to the others, he couldn't stand against these two experts.

But now, they had lost at least ninety percent of their God power and Shi Yan had finally confirmed that the Devouring power Upanishad could subdue the other eight evil power Upanishads. Thus, he became confident instantly.

"No one is there?" Nazario was puzzled. He didn't understand. He looked at the eyeball in his hand and then said coldly. "Then why did our power Upanishads, the Corpse Qi, and the erosive energy not affect you?"

"First of all, your power is too weak. Second, hahaha...."

Shi Yan suddenly rose his hand. The negative energy included craziness, bloodthirstiness, brutality, and desperation that burst out. They shot out from his eyes and aimed at the other two.

At that moment, an endless blood sea with piles of corpses expanded in their eyes and tried to cover them.

However, what made Shi Yan surprised was that Bastos and Nazario didn't lose their minds. Instead, they looked as if they were frantically religious disciples. "It's the picture of the holy land that our Ancestor had left! It... It's the brain of our Ancestor! What's going on?"

Shi Yan was bewildered upon hearing them. The illusion created by the negative energy had taken the blood sea of the Bloodthirsty Force's holy land as the model. He had never expected that these two had called it the picture of their holy land and the brain of their Ancestor.

Shi Yan suddenly understood something and his face changed.

He had visited the blood sea in the holy land. That mysterious black hole was unexpectedly the brain of Devour, the Absolute Beginning creature. Devour must have left something in the Devouring Clan before it left. The drawing of its brain was the picture of their holy land. It seemed like the relationship between the Devouring Clan and the Bloodthirsty Force was somehow close and marvelous.

Anyway, the Bloodthirsty Force and Devour were predestined to not take the same path.

Two blood-dripping hands emerged and blew Nazario's and Bastos' chests. Shi Yan had seized the chance when their minds weren't stable to attack. Although it was despicable, it was safer for Shi Yan.

Boom!

Nazario and Bastos had fallen into the deepest abyss of their life. They were so weak and they were distracted by Shi Yan's evil energy attack. They got hit and they started bleeding from the wounds on their chests.

Until now, their bodies could not recover as they used to be.

"Death power Upanishad!"

Nazario and Bastos shouted. They were more frightened. This junior warrior they had ignored their deeds and their eyes were wide as they watched.

They didn't know why Shi Yan could use their clan's power Upanishads and they didn't know why the Mysterious Yin corpse worms acted so cowardly when they saw Shi Yan.

They couldn't figure it out no matter what.

"You can save your body and your soul can't run away. Don't do such useless things. I won't give you a chance," Shi Yan mercilessly struck them with his words.
