

Slaughter 1411

Chapter 1411: Shadow

“Who are you after all?”

Nazario and Bastos shouted in unison. At this moment, their souls were trembling hard as if they could explode in any minute.

Shi Yan was calm and natural. The energy fluctuating from the other two didn't affect him. He rose his left hand and placed it on Nazario's chest.

Something dark flashed and a black hole emerged. A powerful suction force appeared and absorbed Nazario's vitality massively!

“I am from Desolate Territory. The master whose inheritance I received was called Bloodthirsty!” Shi Yan hissed.

Nazario and Bastos were shaken hard. They were extremely terrified. “You, you are the successor of that man! Desolate Territory! Creatures living in Desolate Territory will all die! Haha, all of you will have a tragic death! Our plan is carried out. Our Young Master has went there! He'll kill all creatures in your Desolate Territory!”

Nazario laughed and screamed crazily.

He didn't care what Bastos thought. The vitality in his body erupted like a volcano. His soul altar was shattered into pieces in just a fragment of time.

Shi Yan was chilled and he teleported away without thinking.

Swoosh!

He disappeared quickly.

Boom! Boom!

Two explosions happened one after another, sending a blood rain and pieces of flesh to the entire valley.

It was the last shockwave from when the soul altars and bodies were destroyed!

After that, Shi Yan reappeared in the valley. The blood downpour was like heavy rain. Everything in his vision was blood red. Nazario and Bastos didn't leave anything. Pieces of their remains scattered around the valleys. The wisps of their Essence Qi and soul energy were vanishing and returning into earth and heaven.

Shi Yan frowned. The black hole emerged above his head like a massive mouth that sucked the soul energy that hadn't dispersed.

At the same time, his acupuncture points absorbed their Essence Qi. However, his face slowly darkened.

Shi Yan hadn't thought that Nazario could become so extreme after he knew Shi Yan was from Desolate Territory. He didn't say anything before he detonated his body and soul.

Evidently, they knew Bloodthirsty and what was happening in Desolate Territory!

Nazario had exploded his own soul altar when he knew that Shi Yan knew Devouring power Upanishad. He understood that if his soul altar remained, it would benefit Shi Yan later.

Nazario said that their Young Master had descended and he would kill all creatures in Desolate Territory. This had become a shadow in Shi Yan's heart...

He knew that the said Young Master was probably the soul that came from the other world that Xuan Shan had guided. That soul had carried out many dark plans. When Hui emerged, it had quietly sneaked away. Now, no one knew where it was.

That man should be a sharp weapon that Devour and the Devouring Clan had prepared with the goal of destroying Desolate. In the future, he was going to bring an endless catastrophe to Desolate Territory.

The Devouring Clan had never ceased to find and invade Desolate Territory. They didn't find the entrance, but they had used some secret techniques to send their Young Master's soul there. If that man had more time to grow...

Shi Yan felt chilled inwardly.

Flap! Flap!

The flapping sounds came from the bone wings. The little skeleton came together with Mei Ji on another dragon. They were bewilderedly looking at the gory valley and Shi Yan who was immersed in his thoughts.

The little skeleton and Mei Ji didn't bother him.

Mei Ji's bright eyes sparkled with strange light, her beautiful face filled with fear.

Nazario and Bastos were at Third Sky of Immortal Realm. Although they didn't have much energy left, Shi Yan wasn't able to kill them.

— From this scene, they knew that Nazario's and Bastos' soul altars exploded altogether. They were utterly dead. How could Shi Yan do that?

She was so frightened.

Shi Yan didn't give any explanation. After contemplating for a while, he lifted his head and looked at the little skeleton. "Let's go to your parents'."

The skeleton nodded.

"Ah, right," Shi Yan frowned and said to Mei Ji. "You can understand the archaic language of the White Bone Clan. Give me the knowledge."

As he didn't understand the White Bone Clan's language, he had to guess a lot while communicating with the little skeleton. It was really troublesome. Mei Ji could understand this language. Shi Yan

thought that she could impart him the memory seal of languages like the warriors from the Heavenly Eye Clan had done to him.

"I can't transfer it to you. That skeleton doesn't use the current language of the White Bone Clan. It's really strange. My method is a single use type. Unless we go to our Phantom Clan, I can use the same tool to send you the knowledge of the language. We don't have any other option now," Mei Ji shook her head.

"No other option?"

"I'm afraid so."

Shi Yan pondered and then said to the little skeleton. "Bring her with us. She can help us communicate."

The skeleton nodded again. He could understand Shi Yan, but it was really bad that Shi Yan couldn't understand it. It was a problem. Mei Ji could solve this problem, so he agreed.

The little skeleton rode the bone dragon and flew away while screaming.

"He said that you and I can share the ride," Mei Ji's bold brows furrowed slightly.

Shi Yan didn't say anything. He flew up and landed on the back of the snow-white bone dragon right behind Mei Ji. He extended his arms and clutched Mei Ji's round hips.

Mei Ji's body stiffened. She suddenly recalled the moment Shi Yan was standing behind her and that humiliation...

She felt so uncomfortable. Frowning, she hissed, "Can you stay a little away from me? This bone dragon isn't that small. Why are you leaning against me like this?"

Shi Yan grinned and then laughed. His hands rubbed her waists. "What are you afraid of? Didn't you say you would serve me dedicatedly? Although our deal has changed, anyway, let me take a little advantage. It's your debt to pay!"

"You're contemptible!" Mei Ji cursed, her face cold and her body also getting icy.

"Your condition isn't really good. If you continue using her energy, it will be very difficult for you to recover. You can even create permanent damages to your body. What do you think?" Shi Yan talked into her ears in a strange tone.

Mei Ji shuddered and snarled, "What do you want after all?"

"Help you steady your wounds," Shi Yan voice became raw and cold.

Then, his rude hand crawled to her lower abdomen...

While Mei Ji was still puzzled, a warm air current quietly seeped into her body. That warm current carried a mysterious energy that acted like the mineral hot spring that ran through her lower abdomen and veins in her body. Miraculously, her damaged veins, body, and her consumed God power recovered.

While that warm current moved around, Mei Ji's body turned into a beautiful pink hue. Her face blushed as if she was soaking her body in a warm lake. This feeling was so refreshing and comfortable.

She was a little panicked. However, she didn't mind if Shi Yan's hand was placed in a sensitive part where he shouldn't be touching. He just enjoyed the cozy feeling and tried to heal her wounds faster.

The beautiful scene didn't last for long. Soon, the bone dragons stopped and landed in the stone chamber inside the mountain where the little skeleton's parents were.

The cozy feeling in Mei Ji's body disappeared when Shi Yan lifted his hand away. The warmth at her wounds and her lower abdomen disappeared. Waves of pain hit her again.

She looked at his hand, her bright eyes yearning but she couldn't say anything. It looked like she wanted that hand to stay there forever. She even forgot how embarrassing it was to have his hand placed on her belly.

Shi Yan didn't look at her. Taking a deep breath, he said to the little skeleton. "Move your parent's bone bodies out."

The little skeleton immediately took action. He was so tender as he was afraid that he could damage his parents' bodies. He carefully took out the two bone bodies from the coffin and lay them on the icy, rigid ground.

Shi Yan frowned and placed his hands on the chests of the two bodies.

The Essence Qi from Nazario and Bastos was rapidly refined. He had sent a part to heal Mei Ji. And now, he was slowly pouring the remaining into the two bodies through the heart cores. After they were taken out of the stone coffins, the vitality that was poured in their heart cores didn't flow away anymore.

The two heart cores were like sponges taking in Shi Yan's vitality. Shi Yan could feel that they were like an endless sea and the amount of energy he had poured into them was like a grain of salt thrown into the sea. Still, they needed a lot to reach the brim.

He was so surprised. He contemplated and he knew that if this little skeleton's parents had their heart cores filled with energy, their energy would be thousands of times more abundant than the combined energy of Nazario and Bastos in their best conditions!

They were absolutely existences at the Territory Ancestor Realm.

Instinctively, he turned to look at the little skeleton. This child was lucky. The two parents at the Territory Ancestor Realm had put a lot of efforts to "refine" it. And perhaps, only the White Bone Clan parents at such a level could give birth to this marvelous child.

Time flew fast.

After an unknown time, Shi Yan had sent all the vitality that he had refined from Nazario's and Bastos' energy to the heart cores of the two bone bodies.

Retracting his hand, Shi Yan observed the heart cores of the two bodies and found no change. However, the brown-gray bone bodies seemed to get a little shinier...

"*****!"

The little skeleton was stunned. Looking at the small change on his parents, he waved his hand and tried to say something.

“It asked you if its parents could wake up or not?” explained Mei Ji.

Shi Yan contemplated for a long while. Then, he looked at the little skeleton with yearning eyes and said, “If we do it this way, theoretically, we can wake up your parents. However, we need a huge amount of vitality. The energy I’ve poured into them is still very little. It requires a lot more to wake your parents.”

“*****”

The little skeleton’s eyes were filled with grief. After a long time, it spoke again.

“It asked you, do you have any method to make it faster?” said Mei Ji.

Shi Yan contemplated again.

What method would make this faster?

There’s a method, indeed....

However, that method was built on bloody slaughter. It required countless lives...

[God of Slaughter](#)

Chapter 1412: The Sea of Annihilation

In a remote corner of the dark, cold Sea Domain of Nihility, a small ash-gray island was moving quickly and heading to the Sea of Annihilation.

Although it looked as if it was moving slowly, after each flash, it crossed billions of miles.

Taking a closer look at that island was like looking at a massive skull with empty sockets and a big, dark mouth that was like deep tunnel...

It was Skull Island.

On a barren hill was Shi Yan and Mei Ji sitting and watching the void.

“This Skull Island is much more marvelous than I thought. Currently, the members of the White Bone Clan couldn’t build such a massive Skull Island. Only noble members of the clan could build Skull Islands and use them as big, moving weapon like a battleship. Anyway, this Skull Island can defend and attack perfectly. It can even conjure bone slaves. I have never heard about such a marvelous weapon before.” Mei Ji didn’t look very pale. She had slowly recovered. However, she still needed a lot of time to recover to her best condition.

Shi Yan listened to her quietly and didn’t say anything.

Three years ago, in the cave inside the Skull Island, Shi Yan, Mei Ji, and the little skeleton had agreed to come to the Sea of Annihilation.

Shi Yan knew he could use the Devouring power Upanishad to swallow an abundant amount of vitality to revive the skeleton’s parents. However, he didn’t propose this method.

Mei Ji suggested that the little skeleton should find the members of the White Bone Clan. She thought that if they knew that they had two precursors who were dormant like this, they would try their best to wake them up.

The little skeleton said that he had never met any member of the White Bone Clan before. After he was born, he had always stayed and watched over the Skull Island.

The Skull Island was mysterious. If it turned on its defense, it could prevent the Soul Consciousness from detecting it or turn invisible.

Its power was like Dark Energy...

In these recent years, the little skeleton had always protected his parents here. Deep in his soul, his parents had left a message before they died. They asked him not to contact others before it could reach the Territory Ancestor Realm. He remembered and followed his parents' last wish, trying to hide the Skull Skeleton to not contact the outside warriors.

After many years of concealing, he had never met any member of the White Bone Clan. Bastos had the precise direction so he came here.

Shi Yan had gotten here by chance.

According to Mei Ji, the White Bone Clan experts had based in the Sea of Annihilation. As long as they could find the White Bone Clan experts, they could receive help from them to revive the skeleton's parents.

Shi Yan knew about the Sea of Annihilation through the Heavenly Fantasy Star Compass. When he and Audrey parted, he told her to meet up at the Sea of Annihilation. Thus, he also wanted to go there.

Mei Ji was one of the Phantom Clan's leaders who based in the Sea of Annihilation. Before she had gone to Dragon Lizard Star, she had always been there. She had come to Dragon Lizard Star to recruit the Water Tribe and exchange for Forefather Dragon Lizard's Immortal Pellets. As things were done, she had to return to the Sea of Annihilation.

As they had the same destination, after they agreed with each other, the little skeleton followed Mei Ji's direction to drive the Skull Island. The island was now a floating battleship that headed to the Sea of Annihilation.

Shi Yan stroked the Heavenly Fantasy Star Compass. Tu Shi Qi of the Mysterious Sky Clan had given him a marvelous compass. Not only did it have special landmarks but it also had time measurements. It was three and a half years after he had parted with Audrey. It seemed to have been a long time. However, to the warrior at his realm, it was just like a blink of an eye.

The Heavenly Fantasy Star Compass showed the directions and provided a brief introduction of the Sea of Annihilation. The Sea of Annihilation was one of the big trading zones for creatures in Sea Domain of Nihilicity. It was similar to a big market, anyway. The experts from many clans often visited this place. However, there was no detailed description of this place.

Anyway, the Heavenly Fantasy Star Compass was just a compass. It was more important that it showed the exact locations and time.

“Honestly, this is the first time I came to the Sea Domain of Nihility. My knowledge of the Sea Domain of Nihility is not very wide. I’ve heard about the Sea of Annihilation, but I don’t know what it’s actually. You said that we are pretty close to it. Can you tell me more details?” Shi Yan turned to Mei Ji.

Shi Yan had stayed inside the Skull Island to cultivate, steady his Immortal Realm, and quench his power Upanishad. Mei Ji suddenly woke him up.

Then, he left the cave and flew out of the skull’s mouth to get onto the surface of the island.

“I had underestimated this Skull Island. It’s even faster than when I fly at my max speed. It’s worth being the divine weapon that the two Territory Ancestor Realm experts had built.” Mei Ji generously complimented. “At this speed, we will at least enter the Sea of Annihilation after half a month. Right, I should tell you some information about the Sea of Annihilation...”

“In this Sea Domain of Nihility, not many inhabited continents are complete. This place used to be the center in the Absolute Beginning Era. Because of the Great War, it was destroyed. This place has so many shattered stars, continents, mountains and lakes. The Sea of Annihilation is strange and miraculous. It’s actually an endless sea. The area of this sea can be as big as an entire sea area in a territory. It’s extremely vast.”

“The Sea of Annihilation has many small islands and continents. There are as many as stars in the sky. The Sea of Annihilation is very deep. At our realm, I’m afraid that we can’t go too deep. The bottom of the Sea of Annihilation is one of the most mysterious areas in the Sea Domain of Nihility. Rumors say that the seabed still has some divine weapon from the Absolute Beginning Era because it used to be the battlefield of the Great War at that time.

“Currently, many creatures and warriors in the Sea Domain of Nihility are exploring the Sea of Annihilation. Sometimes, they find broken divine weapons or marvelous treasures, or even the Seal of Power Upanishads. They are all powerful and magical, which can help the experts reach the Territory Ancestor Realm. That’s why the Sea of Annihilation is always a delicious pie in the explorers’ eyes.

“Many races live on the islands in the Sea of Annihilation. They have considered the Sea of Annihilation as their homeland. Every second, warriors are entering the sea or trying to explore the seabed to find the vestiges of the Absolute Beginning Era. The Seven Great Clans also sent their hotshots to base in the Sea of Annihilation. To them, the Sea of Annihilation is an arena.”

“...”

Mei Ji looked at the dark area ahead of them as if she was watching the real Sea of Annihilation. She slowly explained many things to Shi Yan and then concluded. “That area has a lot of excellent encounters, but it’s also very dangerous. It’s a bustling, chaotic area. Low-realm warriors can be easily killed. I’m reminding you. Be more cautious when we get there. There are some people even the Seven Great Clans have to be afraid of. You better behave and be humble. When your identity as a warrior with a wisp of a soul from an Absolute Beginning creature is exposed, even our Phantom Clan can’t protect you.”

Shi Yan discolored. “The intimidating experts that even the Seven Great Clans have to be afraid of?”

“There are many experts without a clan or a force. Perhaps they are the last members of their races. However, they are very powerful. They often go there alone. If they reach the Territory Ancestor Realm, do you think they won’t be intimidating?” Mei Ji forced a smile.

Shi Yan was terrified. “There are Territory Ancestor Realm experts there?”

Mei Ji nodded. “They are hiding in the areas where we can hardly sense or even in the sea. They come for the mysterious things undersea. Rumors say that someone has found the vestiges from the Absolute Beginning Era where the ultimate secret of earth and heaven is hiding. It’s so attractive to the Territory Ancestor Realm experts.”

“How vast is the Sea of Annihilation?” Shi Yan was astounded.

Mei Ji pondered for a while and then said, “The sea surface is as big as an entire star area. It has dozens of thousands of islands. Many of them are barren and not suitable for cultivating or living. A few of them are suitable for low-realm warriors to stay and cultivate in. However, there are larger, deeper areas. There’s a way to imagine it. An expert with profound Space power Upanishad used to measure it carefully. He said that the Sea of Annihilation looks like an upside-down funnel and the sea surface is the bottom of that funnel. Getting deeper, the sea would get bigger. He said that the real area of the seabed could be hundreds of times bigger than the surface. It’s hard to imagine, right?”

Shi Yan was puzzled like a wooden chicken.

A funnel?

A funnel has a narrow bottom and a wide top. If that expert with Space power Upanishad was correct that the surface of the Sea of Annihilation was as big as a star area, how big was the sea bottom?

As big as a territory?

As big as the Desolate Territory?

It was just a sea in the Sea Domain of Nihilism and it was so vast that Shi Yan was really astounded.

“Don’t be surprised. The vast universe has countless territories and lands. The Sea Domain of Nihilism is the center of this cosmos. It’s not strange if it has some mysterious and marvelous areas.” Mei Ji’s voice was relaxing. Her bright eyes rolled and she asked all of a sudden. “I’m curious. What method did you use to kill Nazario and Bastos? You... how could you send the vitality to me?”

Shi Yan became cautious immediately. He snorted, “Our deal doesn’t include digging up each other’s secrets.”

“I will figure it out sooner or later!” Mei Ji gritted her teeth. She frowned and then said, “I don’t know why you wanted to help that little child from the White Bone Clan. What could it give you? Do you think that if you save his parents, they will appreciate you a lot and become part of your strong background? Do you know how much vitality it requires to revive his parents?”

Shi Yan pondered for a while and didn’t say anything.

He couldn’t tell the reason either. He was just compassionate for that little skeleton. The grief and yearning that the little skeleton had for his parents, his sorrow, and his helpless feelings had touched a

soft spot in Shi Yan's heart. It made him not consider pros and cons as he always did. He just immediately helped the little child without any condition.

He couldn't explain it to Mei Ji and he knew that Mei Ji wouldn't buy it if he explained his compassion for the kid to her.

"In the Sea of Annihilation, I am also a character. What I've promised you, I will fulfill. As long as your woman comes to the Sea of Annihilation and exposes her location, I'm sure we can find her. Our Phantom Clan is famous for taking intelligence in this Sea Domain of Nihilicity," said Mei Ji.

"Then thanks in advance," said Shi Yan.

Chapter 1413: Waiting for a Man

Deep in the Sea of Annihilation.

There was an island floating above the sea. It had many big trees that made it look like a black water lily. The trees on this island were so huge that they were like high mountains. They were as thick as a meadow.

The island had so many different colored flags, which had many drawings of resentful souls and wailing ghosts. Those flags flew with the wind like a bunch of ghosts and demons screaming and hissing.

Deep in the center of the lush forest were many rooms made of dry trees. Most of them were closed, and only a few of them had human footmarks

At this moment, a warrior of the Soul Clan was kneeling in front of the door of a lodge and speaking in the language of the Soul Clan to report, "Teacher, we got news."

"Come in," a senile, male voice came out from the room.

The Soul Clan warrior respectfully stepped in. It was a plain room with more flags on the walls. The brocade flags here all had drawings of wailing ghosts and resentful souls. Just like the main power Upanishad of the Soul Clan, they felt dark and horrible.

A haggard, old man with many wrinkles on his face was sitting on a cattail hassock. He was wearing a thick black robe that shrouded his thin body of a dry corpse. He looked as if he would die in the next minute. However, his eyes were like a cold water pond at night. They were deep and cold, and they didn't show human emotions.

"We got news. Singh was killed on Dragon Lizard Star. Forefather Dragon Lizard had joined hands with Tu Shi Qi and Ya Yun of the Mysterious Sky Clan. The Dragon Lizard Clan announced that they officially become a dependent clan of the Mysterious Sky Clan," reported the young warriors who had reached Second Sky of Immortal Realm. "Singh was so incompetent! He borrowed your Soul Refining Cauldron and still failed!"

The old man was as calm as usual. It seemed like he had predicted this result beforehand. "Continue. I want more details."

The young man pulled a serious countenance and reported the details of the battle that took place on Dragon Lizard Star.

The old man quietly listened to him. After a while, he looked surprised. "Oh, a junior with the soul clone of an Absolute Beginning creature. Interesting. If we can merge his soul to the Soul Refining Cauldron, it will significantly contribute to healing the cauldron. Yeah, I'm sure it's not less than Forefather Dragon Lizard's soul."

Then, he opened his mouth. Something emerged from the tip of his tongue.

Surprisingly, it was the Soul Refining Cauldron that had stirred up the entire Dragon Lizard Star!

This divine weapon from the Absolute Beginning Era had disappeared discreetly after the battle on Dragon Lizard Star ended. It had returned to this old man's tongue. He spurted it out. The Soul Refining Cauldron flew out and enlarged massively, floating above the island.

So many complicated but exquisite Absolute Beginning Era symbols on the cauldron's surface revived at the same time. They turned into twisted, evil ghost faces that moved around the cauldron...

Flows of souls flew out of so many brocade flags on the island. Once the souls left, the drawings on the flags also left. From the bird's view, thousands of departed souls and ghosts were silently getting into the Soul Refining Cauldron and the cauldron took them all in.

The Absolute Beginning Era symbols on the cauldron surface became stranger and more mysterious after the cauldron had received more souls. It was now filled with enormous energy.

Not long afterward, the ghosts and evil souls kept in the brocade flags on the island were all gone. They were the souls that the old man had recently collected. His eyes flashed and the Soul Refining Cauldron became much smaller. He swallowed it right after that.

"I still need a lot," the old man mumbled. Pondering for a while, he turned to the young man, his eyes sinister. "Tate! You know why I came to the Sea of Annihilation this time. You've been in this area for years. You should know what to do to satisfy me!"

The young man of the Soul Clan shivered inwardly. He put on a solemn face and said quickly, "Teacher, don't worry. I know what to do. You need war and death. That's how you collect the souls. I'm on it!"

The old man grinned contentedly, his grin evil and eccentric. "You're my good disciple. Anyway, it's not easy to trigger a war in the Sea of Annihilation. Even if we, the Soul Clan, want to do that, we'll need a cause or an excuse. I hope you can arrange things properly. Don't let the other clans catch our tail. They will say our Soul Clan broke the rules."

"Our General Commander was murdered. It's not a bad cause. I'm going to take care of it," said Tate.

The old man nodded and then looked at the ground underneath. It seemed like his eyes could pierce through the island to watch something in the sea. "Remember, don't bother the old freak underneath. Otherwise, it will be very troublesome."

"Understood."

A small island floated in a remote corner of the Sea of Annihilation had thunderstorms wreck the place year-round.

Apparently, it wasn't a good island for creatures to live on. Low-realm warriors buried their bodies here. They had to reach the Immortal Realm to stay intact on this island.

Audrey stood alone on a barren mountain on the island and looked afar.

She had come to the Sea of Annihilation six months ago. Right after she had arrived, she decided to choose a remote island to stay in. This area had harsh conditions and it was almost isolated. Not many people would notice this island.

After they had parted, she had followed Tu Shi Qi's direction to come to the Sea of Annihilation alone.

She had encountered some dangers on the way. She had killed all the warriors who had approached her with malicious attempts.

She had reached Third Sky of Incipient God Realm. Every day, she made good progress. Also, she still had an Immortal Pellet. If she had enough time, she could reach the Immortal Realm soon.

Because she had merged with Ming Hong's soul and taken in the Singh's seven brutal souls, she had accumulated such attainment. She also understood the cultivating techniques of the Soul Clan.

The Soul Clan was a peculiar race that mainly cultivated the soul altar. Their understanding of the soul altar had surpassed many other great clans.

Imperial Dark Tribe was rumored to be the clan that Desolate had created with the Soul Clan as the model. Imperial Dark Tribe had similar physical and metal features as the Soul Clan. Even their cultivating techniques were similar.

Tu Shi Qi gifted her the souls of the Soul Clan and Singh was the Soul Clan's General Commander. After she had refined those souls, Audrey now had a deep understanding of the soul altar power Upanishad of the Soul Clan.

Her realm could increase rapidly.

Ming Hong and those brutal souls could make up for her insufficient power. They were her source of energy.

To break through the realm, the warriors needed to accumulate energy and develop a deeper understanding of power Upanishads. When these two weren't a problem, it was natural that Audrey could become stronger fast.

Audrey's thoughts flickered and so many souls emerged by her. This cluster of ghosts consisted of thousands of resentful souls and ghosts. They gathered in clusters, which were massive and terrifying.

Ming Hong, the brutal soul, was the master of those souls. He turned into his appearance when he was still alive, which was an elder of Imperial Dark Tribe. "The entrance to our territory is right under a current at the seabed of the Sea of Annihilation. It's an isolated area, indeed. That year, I came through the entrance and I was lost by the edge of the Sea of Annihilation's seabed. When I got out, I was in another area."

Audrey frowned. "After you were gone, there were many people at the Immortal Realm in our Desolate Territory. They could go to the Sea Domain of Nihility through the territory entrance too. However, they have never met any creature in the Sea Domain of Nihility. Do you think it's strange? According to you, the Sea of Annihilation is really vast and countless creatures have come here. How could they not have met any of them?"

Ming Hong forced a smile. "Because we were wrong and those who came later took the wrong way too."

Audrey looked as if she wanted to ask for more information.

"Perhaps you can't imagine it. Actually, the Sea of Annihilation is connected to our Desolate Territory. The entrance to the territory is right at the border. The entrance is where our territory meets the Sea Domain of Nihility. There are vast seas on both sides of the barriers. We have to get through a sea to get to the Sea Domain of Nihility. Also, when we get through the sea, we will meet a river that leads to a terrifying, massive ocean..."

Ming Hong saw her baffled, so he rose his hands to gather a group of souls to sketch a map. At first, he drew a massive sea. From the sea as the center, he drew more rivers, which connected to the big sea.

"Those rivers flow to the Sea of Annihilation. In some aspects, they are parts of the Sea of Annihilation. After we get through the territory entrance, we don't have to follow the river to the Sea of Annihilation. No one has gotten to the seabed of the Sea Domain of Nihility because it was impossible to do that. We couldn't endure the terrible water pressure under the sea. On the way, we took a branch that led to the other areas far away from the Sea of Annihilation. They were relatively safe areas in the Sea Domain of Nihility. Anyway, they are the remote areas where we rarely saw any footmarks.

"The area I arrived on is a desolate corner of the Sea Domain of Nihility, which is pretty far from the Sea of Annihilation. It doesn't have many creatures living on it. I thought that the other warriors from Desolate Territory came here after I also arrived at the isolated areas where there were no footprints. Only one expert had taken the right way as soon as he had entered the Sea Domain of Nihility. He got through the Sea of Annihilation's seabed and emerged on the surface of the Sea of Annihilation," Ming Hong wore a strange face.

"Who is he?" asked Audrey.

"Bloodthirsty. He was the only one who had followed the right route through the river to the seabed of the Sea of Annihilation after crossing the territory entrance because his power and realm were enough to endure the terrifying water pressure there. He figured out the ideal way and emerged from the seabed to the surface. He appeared in the friendly, lively area of the Sea Domain of Nihility."

Ming Hong showed his respect and sighed, "I know this through Singh's research. I know he was here for a short time. The Devouring Clan had fought against him once. He had killed many of them. He had even battled against Han Tian of the Mysterious Sky Clan. I heard that he won. However, Singh didn't know his real identity. Bloodthirsty had subdued our Imperial Dark Tribe and stopped us from thriving for ten thousand years. Anyway, with his competence, he had topped our territory!"

Audrey also respected the expert.

“I know the location of the territory entrance. I can take you out of here and return to Desolate Territory. I’ve been waiting for that day. But I don’t know what makes you hesitant. You’ve been here for half a year. What are you waiting for?” Ming Hong was clueless.

“I’m waiting for a man. He and I will return together,” answered Audrey.

God of Slaughter

Chapter 1414: Separate

It was an immense, shoreless ocean without a layer of clouds and atmosphere. There were broken pieces of stars and asteroids, and a terrifying deadly blast.

A skull island was carefully avoiding the asteroids and broken rocks on its way to land on the sea surface.

“Above the sea is a dangerous area. We better move to the water surface. It should be safer,” suggested Mei Ji.

The little skeleton agreed.

Thus, the Skull Island slowly landed on the Sea of Annihilation. Just like a massive cruise, it continued to move further.

The three of them sat on the Skull Island and finally arrived at the Sea of Annihilation.

Shi Yan looked at the little skeleton with wary eyes. He then turned to Mei Ji and relaxed, “Where are we on the Sea of Annihilation?”

“It’s just a remote area that’s still pretty far away from the deep ocean. At our speed, it will take around half a month to get to the island where the White Bone Clan is. We can stop by our Phantom Clan’s island first. We’ll be in there in about ten days,” explained Mei Ji.

Shi Yan nodded and looked at the little skeleton. “What do you think?”

“Nah, what else is there to think about?” Mei Ji arched her brown and said casually. “He’s a member of the White Bone Clan. Of course, he has to return to his clan. I’m sure the members of the White Bone Clan will do everything they can to help his parents gain their consciousness back.”

The White Bone Clan had a small population. Thus, among the Seven Great Clans, the White Bone Clan was the most harmonious clan. They had almost no civil war.

It was very hard and took a long time to get a new member of the clan. Also, they had to drain their power fighting against others, so they didn’t have energy to create an internal dispute. In fact, their union was seriously taken into account. They had restricted and punished any internal dispute that could cause a war.

Nobody had ever seen two members of the White Bone Clan attack each other.

“To him, returning to the White Bone Clan is the best choice. We should respect his choice,” Mei Ji said seriously.

Shi Yan looked at the little skeleton and considered how to say what he thought, "I know a method to wake up your parents. However, the requirement is really complicated and it will take a long time. Yeah, I think you should return to White Bone Clan first. When I get a new method, I'll find you and help you."

The little skeleton looked at him in the eyes. His mouth moved slightly. He gave a slight nod, his eyes showing gratitude.

"You should go with us. The Phantom Clan is on the way anyway. After we got there, I'll show you the way to the White Bone Clan," said Mei Ji.

The little skeleton nodded again.

Thus, the three of them continued to ride the Skull Island moving on the Sea of Annihilation and heading to the base of the Phantom Clan.

On their journey, they found so many islands. They were like stars in the sky that they couldn't count.

They saw many giant ships moving on the sea, carrying many warriors from alien tribes. Although Mei Ji was wearing her mask, many of them had recognized her. Sometimes, when they saw her far away, they had already greeted.

On a massive ship made of cold steel, around ten bulky alien warriors were moving. They were all brawny with fierce auras. They stayed half naked and showed the muscles of their rigid, metal-like bodies. Their skin even sparkled and reflected the cold light.

Those people had an animal skin pattern on their bodies. They had horns and their arms and thighs were twice as big as those of normal people. They gave people the impression of something powerful and explosive.

An alien found Mei Ji. He looked so thrilled. Without prior announcement, he leaped up and landed grumblingly like a steel mountain on the Skull Island.

He was a Third Sky of Immortal Realm expert cultivating sharp metal power Upanishad. His body was like real steel or iron. Apparently, he knew Mei Ji. As soon as he landed, he laughed loudly. "Mei Ji, long time no see. I heard that you went to Dragon Lizard Star. You recruited the Water Tribe, didn't you?"

His eyes moved and stopped at the little skeleton. He looked a little surprised. "A kid from the White Bone Clan? Why did you go with the White Bone Clan? I have never heard that you would be associated with White Bone Clan members."

He glanced at Shi Yan for a second. He didn't pay a lot of attention because he thought that Shi Yan was just an ordinary warrior.

"Yerburgh, why are you here?" Mei Ji smiled.

"Ah-hah! They say that someone found the Absolute Beginning vestiges under the sea. The old men in the clan led me here to check it out. Mei Ji, you've based in the Sea of Annihilation for years because of the Phantom Clan. Do you know anyone who is familiar with the seabed?" asked the beefy alien man with a smile.

“The seabed?” Mei Ji furrowed her brows. “The real seabed isn’t a place that you and I can intrude. I’m based in the Sea Domain of Nihilicity and I can’t explore this,” Mei Ji shook her head.

Yerburgh didn’t force her. He continued with a smile. “I heard that Singh was dead. Tate is screaming everywhere that the Mysterious Sky Clan killed him. They are planning to retaliate against the Mysterious Sky Clan. I’m afraid this Sea of Annihilation will become chaotic again. You should be careful. I also heard that you did join that event in Dragon Lizard Star.”

“Tate?” Mei Ji pouted her lips. “What the heck does he think he is? With his realm, what effect can he bring to the Sea of Annihilation? He doesn’t want to live more as he’s trying to stir up the sea.”

“Tate has only Second Sky of Immortal Realm cultivation base. It’s true that he can’t rise the wind. But what if his teacher is here too?” Yerburgh almost shouted.

Mei Ji discolored. “What? That old freak comes to the Sea of Annihilation?”

“Perhaps it’s related to the Absolute Beginning vestige under the Sea of Annihilation. Who knows. Anyway, he’s in the Sea of Annihilation now. Yeah, you can confirm this with your team when you come back.” Then, Yerburgh lowered his voice, “I heard that you got a kid on Dragon Lizard Star who has the wisp of a soul of an Absolute Beginning creature. Did you refine him? Tell me honestly, have you reached the bottleneck to break through to the Territory Ancestor Realm?”

Mei Ji grimaced and coldly looked at Yerburgh. “Now, everybody knows what had happened on Dragon Lizard Star?”

“Don’t ask me. That’s what Tate has spread. I got the news from the Soul Clan. I’m not sure if they are true or fake,” Yerburgh shrugged. “Well, recently, we have only these things fly around. It’s hard not to know. Oh right, there’s something else. Someone from the Devouring Clan asked me to find two experts called Nazario and Bastos. They said that they’ve confirmed that these two were dead. They wanted me to investigate the details. If you got something you know, just tell me. I’m sure the price I offer will satisfy you.”

“Okay,” Mei Ji wore a cold face and waved her hand. “We don’t have much time to babble with you.”

Yerburgh laughed and nodded to Mei Ji and the little skeleton before returning to his battleship. Shortly after, they left and disappeared.

“Who is he?” Shi Yan watched the disappearing battleship. “Cultivates Metal power Upanishad at Third Sky of Immortal Realm. His body is so tough. I think he’s not weaker than Singh.”

“Yerburgh came from a branch of the Ancient Monster Clan. He’s in charge of collecting news and information around the Sea Domain of Nihilicity. That’s how I know him. I didn’t expect that Tate would let everybody know what had happened on Dragon Lizard Star. That old freak... is also in the Sea of Annihilation, unexpectedly,” Mei Ji sighed.

“Who is Tate’s teacher?” asked Shi Yan.

He could see Mei Ji become more worried when she heard that person was in the Sea of Annihilation. At her Peak of Immortal Realm, only the Territory Ancestor Realm expert could make her worried.

Indeed, Mei Ji said, "He's the owner of the Soul Refining Cauldron. He's one of the Territory Ancestor Realm experts of the Soul Clan. Wherever he goes, people have to live in calamities. He needs countless souls to recover the Soul Refining Cauldron to achieve the real power of an Absolute Beginning divine weapon."

"That cauldron is not fixed yet?" Shi Yan discolored in fright.

"Of course not. It needs a large amount of soul energy. Otherwise, you think Singh can borrow it from the owner?" Mei Ji pouted. "I'm sure Singh had to pound his chest to ensure that he could take Dragon Lizard's soul. That's how he could persuade that old monster."

Shi Yan was astounded.

The Skull Island continued its journey.

Ten days later, the Skull Island anchored by a massive island. The island had flowers and green grass matted everywhere alongside the large pieces of forest.

So many beautiful and luxury palaces situated on the island, which were sparkling because they were built of jade. They were so eye-catching.

The mist and smoke wound around the island, making the entire island a fairyland. Mei Ji observed the island and smiled relaxedly. She took off the mask and revealed the face that could attract all creatures. Looking at the familiar island, she found many familiar barriers and restrictions. She pointed to a direction and said to the little skeleton. "You move that way. After five days, you will reach the base of the White Bone Clan. It's also a bone island, easy to recognize."

The little skeleton was reluctant, looking at Shi Yan deep in the eyes.

Shi Yan thought for a while then said, "I need time to prepare something to wake up your parents. Actually, I need a long time. We can't rush. I agree with you, whenever I'm done, I'm going there to find you."

The little skeleton nodded. It didn't talk much, driving the Skull Island away and disappearing.

Mei Ji watched until the Skull Island disappeared from her sight. She pondered and then said, "I don't know what you will do to awake his parents, but I can tell you that, even if he returns to the White Bone Clan, with their force in the White Bone Clan, they can't wake up his parents. They are two Territory Ancestor Realm experts. To refill the lost energy, the energy required is more than what you can imagine. You'd better get rid of that fixation. Moreover, you don't know him. You don't need to do things for him."

"I know what I'm doing," Shi Yan was fed up.

Mei Ji snorted and didn't persuade him more. "Follow me."

A snow lotus emerged in her palm. When the lotus bloomed, layers of mist above the island slowly dispersed. The invisible barriers and restrictions were lifted.

Shi Yan followed her to the island full of flowers. His eyes sparkled when he observed the surroundings.

Chapter 1415: Also a Pitiful Woman

After Yerburch parted with Mei Ji, his cold iron battleship rushed back to the Ancient Monster Clan's base in the Sea of Annihilation. It was also a massive island.

He directly went to the inside of a mountain on the island. Inside the mountain, it was another fairyland with diagonal stone paths everywhere leading to many spacious stone buildings.

Yerburch didn't say anything and directly walked to one of those stone buildings to check something. Shortly after, he found a drawing. Unexpectedly, it was Shi Yan's portrait.

Yerburch gave a faint smile. "It's that kid, indeed!"

While he was talking to Mei Ji, he threw Shi Yan just a glance then ignored him all the time. However, with that glance, he could guess his identity. "A kid with a wisp of a soul of an Absolute Beginning creature, but he has only First Sky of Immortal Realm. What a big fat meat! Tate agrees to pay a high price to get the intelligence. Should I give it to him?"

He hesitated for a few seconds then made up his mind before grinning. "Of course, making money is an important thing. I returned Mei Ji's favor. Oh right, that little skeleton too. He's involved with the two the Devouring Clan is searching. I got a good harvest this time. Haha, I just got to the Sea of Annihilation and I'm going to earn a big chunk this time!"

Shortly afterward, he contacted the Devouring Clan and Tate of the Soul Clan, telling them the intelligence he got.

"Madam Mei Ji is back!"

"Madam Mei Ji is home!"

"Welcome back! Madam Mei Ji!"

"..."

On this island filled with flowers, the crowd of beautiful men and women were cheering and smiling honestly.

This crowd had handsome men with ease and natural poise, and beautiful and charming women. Everybody was excellent and pretty. At first glance, many people had to sigh with envy. The Creator had favored this race a lot.

It wasn't a rumor that the Phantom Clan didn't have a single ugly member. On the way, Shi Yan felt a little dizzy and stunned.

The members of the Phantom Clan on this island didn't have the same realms. They were young but they were already at Original God Realm, Ethereal God Realm, and Incipient God Realm. The clan had sent them to the Sea Domain of Nihility to cultivate and collect the information, intelligence here.

Deep in this Sea Domain of Nihilism, only the warriors at the Immortal Realm could walk around without fear.

However, if they were from the race with a strong foundation like the Seven Great Clans, they had the best battleships to resist the dangers in outer space. They could deliver their low-realm members to any area. Those young and beautiful people of the Phantom Clan were delivered here by those powerful battleships.

The sky and the seabed of the Sea of Annihilation had layers of deathtraps. It was tough for Incipient God Realm experts to move freely around.

However, it was really safe on those islands. Even King God Realm warriors could stay and cultivate comfortably.

This island was the Phantom Clan's base. Mei Ji was the leader of this island. She was in charge of collecting and sorting information. She was also the one with the highest realm. When she wasn't here, her fellows couldn't ease their minds. And now, she came back, so they exhaled in relief.

The Phantom Clan was the clan with the best intelligence. If they based here, of course, they knew what had happened on Dragon Lizard Star.

After Mei Ji had disappeared, they were so worried if she had to endure something unexpected. Today, Mei Ji returned safe and sound. All of them were joyful.

Of course, many of them were curious about Shi Yan and they observed him along the way.

At this moment, Shi Yan was wearing a dark blue warrior costume. He was vigorous and hunky, which attracted a lot of Phantom Clan young ladies. They shyly looked at him.

Mei Ji directly walked to the grand, luxurious palace in the center. The palace was tiled with square jade and decorated with so many exquisite and beautiful accessories. The twinkle jades and shining pearls could be found everywhere. She walked to the main hall, sitting on the high throne. She signaled Shi Yan to stand aside. Talking nothing, she began to check the documents of the recent intelligence.

Some young ladies at Original God Realm and Incipient God Realm were talking with each other in this hall. Sometimes, their pretty eyes turned to Shi Yan. Then, they stooped and giggled. They were really eye-catching, though.

Mei Ji was focusing on the records. She didn't notice Shi Yan. Her white fingers continuously flipped the pages as she frowned.

When she came to the last page, her face became cold as she hissed, "That damn Yerburch! He's so ungrateful!"

Shi Yan looked at her.

"Yerburch discolored your information. He said that you have a wisp of a soul from an Absolute Beginning creature and that you and I are here. At least, Tate from the Soul Clan knows this. Yerburch also said that we're involved in the deaths of Nazario and Bastos," explained Mei Ji.

Shi Yan was chilled. He remembered the Ancient Monster man with an iron body as he said, "If we meet him again, I'll try to kill him."

Hearing her, the Phantom Clan ladies in the hall quieted down. They all looked at him with odd countenances.

They knew Yerburch's identity and his Third Sky of Immortal Realm cultivation base. Madam Mei Ji could defeat him but couldn't kill him. This unknown kid had only First Sky of Immortal Realm, but he was boasting. They felt really awkward.

However, what Mei Ji spoke next surprised them. "Kill him? Unless you've reached Second Sky of Immortal Realm. If you fight with him now, you'll be killed."

This surprised the ladies a lot. When they looked at Shi Yan now, they felt so bewildered.

Mei Ji put the records down and looked at the ladies next to her. "A girl is leaving Dragon Lizard Star. She will come to the Sea of Annihilation. Her name is Audrey, you should pay attention." She took out a flat jade, asking Shi Yan. "You draw her portrait here. It will be easier to find her. We'll try our best to find her."

Shi Yan did as he was told.

"We can't receive information fast. You have to wait, but I'm not sure how long you have to wait," said Mei Ji.

Shi Yan nodded as he understood.

"You'd better not leave this place. I'm afraid many people want to do something with you. This area is our Phantom Clan's base. Unless the members of the Seven Great Clans want a bloody war between the two clans, they won't tear the agreement between us to intrude this island. You're safe here," said Mei Ji.

Shi Yan frowned and didn't answer.

"Madam, while you weren't here, Batum... sent his messenger here," a lady suddenly said while Mei Ji was contemplating.

Mei Ji winced. Her mood was bad as she shouted, "Do not mention this person to me ever!"

The ladies kept silent and nodded as they were scared.

"Yu Lian, arrange a lodge for this man," Mei Ji waved her hand.

A young woman at Incipient God Realm bowed to her and then talked to Shi Yan. "Follow me."

Shi Yan kept silent and followed her out of the palace to an elegant building in another area. Along the way, he asked curiously, "Who's Batum? Why does your Madam feel irritated when she hears his name?"

Yu Lian was around eighteen or nineteen years old and wearing a long, green dress. She looked purely beautiful. She turned around to check then lowered her voice. "Tell you later."

She took Shi Yan to a tower then said, "Batum is a terrifying expert. He's not the member of the Seven Great Clan. He cultivates alone but he's so brutal. In this Sea of Annihilation, he belongs to the sort of the most dangerous characters. He has learned Dark Energy. After ten years max, he will reach the Territory Ancestor Realm. He always lives in the seabed of the Sea Domain of Nihilty. One day, he got out to exchange cultivating materials and he saw Madam Mei Ji. He fell in love immediately. He has been chasing after Mei Ji for many years. He even came to our clan and promised to support us if the elders let Mei Ji marry him."

"An expert who's going to become a Territory Ancestor..." Shi Yan nodded. "This man is predestined to become a Territory Ancestor Realm expert. What did your elders say about this?"

"They thought it was possible. They even asked Madam Mei Ji to strictly follow their decision. Madam didn't agree. She was very resolute and tough to her seniors, too." Yu Lian sighed. "Although Batum's realm is really high and profound, he's... he's so ugly. It's natural that Madam doesn't agree. If I were her, I wouldn't agree, either. If he looked a little better, with his profound realm, it could work. But his appearance... eww..."

This young lady stood on Mei Ji's side. She was discontent with the elders' decision.

"What's the result?" Shi Yan continued to ask.

"There was a big fight between the elders and Mei Ji. Then, the elders proposed a solution. If Mei Ji can enter the Territory Ancestor Realm before Batum, they won't force her anymore. But if she can't, she has to agree with them. She actually agreed with their proposal. I don't know what she had in her head. She didn't understand Dark Energy. How could she break through to Territory Ancestor Realm faster than Batum? We all think that she's just trying to buy more time. We're afraid she would do something bad," sighed Yu Lian.

Shi Yan got it now.

He finally understood why after Mei Ji found that he had the wisp of a soul from an Absolute Beginning create, she had acted rashly. Turned out she also got some trouble.

As Mei Ji wanted to reach the Territory Ancestor Realm fast, there wasn't any faster method than refining him. Under pressure, she could do anything for her standing against the forced marriage.

"And, Batum has considered Madam Mei Ji as something that belongs to him. He told the entire Sea of Annihilation that she must be his woman. He usually comes here to bother her. He's sure that Madam can't enter the Territory Ancestor Realm faster than him. Thus, he thought everything was settled," Yu Lian continued, "After Madam had left, he came here and told us that he's now just a step away from the Territory Ancestor Realm. He's refining his own territory. He has to become the owner of a world. Whenever his Incipient Extent transforms to the territory, he will be a real Territory Ancestor."

Shi Yan knew that the experts at the Territory Ancestor Realm had to refine their Incipient Extents. After they could become the real territory, it was the time they had officially become a Territory Ancestor expert.

Shi Yan sighed. He didn't expect that Mei Ji, a member of the Seven Great Clans, wouldn't be able to control her fate. She was also a pitiful woman.

God of Slaughter

Chapter 1416: The Call from the Seabed

Shi Yan was staying in the Phantom Clan's base.

After reaching the Immortal Realm, he fought or cultivated the power Upanishad all the time. He didn't give himself time to relax.

This island belonged to the Phantom Clan. It was where they collected information. Of course, it was also the place they used to recruit hotshots and benefit their clan. For example, Mei Ji had visited the Water Tribe and talked to Yuan Mo. She had persuaded and recruited the Water Tribe, making it a force that was dependent on the Phantom Clan.

In the Sea of Annihilation and also the surrounding areas, there were several second-class clans dependent on the Phantom Clan. Mei Ji was here to establish a close connection with them.

Inside the elegant tower, Shi Yan sat quietly, his face cold. He was thinking about the events that had just happened recently.

He had thought a lot about them.

Forefather Dragon Lizard of the Dragon Lizard Clan; Tu Shi Qi and Ya Yun from the Mysterious Sky Clan; Singh was killed; Ming Hong had gotten into Audrey's head; Mei Ji, the little skeleton and the Devouring Clan...

"The Immortal Realm is still a low-realm level."

Shi Yan forced a smile and sighed.

If he had reached Territory Ancestor Realm, it would have not been a problem on Dragon Lizard Star. He could have threatened Singh and Ming Hong easily. Mei Ji wouldn't have had a chance to turn him into a meaty pie and try her best to refine his soul. If he had reached the Territory Ancestor Realm, in this Sea of Annihilation, Yerburch wouldn't have dared to rumor anything or disclose his identity.

Even if he did that, at Territory Ancestor Realm, Shi Yan wouldn't be afraid of any challenge in the Sea of Annihilation.

But now...

He quickly decided his plan. He must find Audrey and locate the territory entrance. Even if they couldn't return to Desolate Territory now, at least they would have an exit.

He needed to be stronger!

Immortal Realm experts could become peerless in Desolate Territory. However, in the Sea Domain of Nihilism, they weren't the top warriors. If he wanted to survive, he had to make efforts to increase his competence continuously.

Shi Yan let his Soul Consciousness check his internal organs, souls, and bone frames. His furrowed brows relaxed.

If he wanted to be stronger rapidly, he knew he had a simple method. Devour! His Devouring power Upanishad!

Shi Yan made up his mind quickly. On the way to the Sea of Annihilation, his realm stabilized. What he needed now was energy. He needed all the energy he could get in his body. Also, if he wanted to help the little skeleton's parents, he had to gather a lot of energy.

After several days, he hadn't received any news from Mei Ji. After she returned to this island, Mei Ji had parted from him. She didn't meet him once. He called for Yu Lian. The young girl came with fear. "Why do you call me?" Madam Mei Ji said that you should stay here and cultivate. Don't worry. Once we get news about the girl you want to find, we will tell you immediately."

"Which area of the Sea of Annihilation is the most chaotic?" asked Shi Yan all of a sudden.

"What do you mean?" Yu was surprised.

"Where do battles take place the most? Where do a lot of people die?" Shi Yan tried to make himself clear.

Yu Lian pointed at the ground and said without too much thinking. "The seabed!"

"The seabed?" Shi Yan was surprised.

"The Sea of Annihilation's seabed is so vast. It attracts so many warriors to come and explore. Deep undersea, precious treasures and materials are often found. It's when the experts come and compete for them. The seabed is the fiercest battlefield. We won't go there recklessly because we're afraid of furious battles," answered Yu Lian.

"So which section has the fiercest battles?" asked Shi Yan.

"I'm not sure," Yu Lian frowned. "The seabed is so vast. The explorers are also scattered around. Sometimes, it takes a lot of effort to find someone."

Shi Yan nodded and pondered for a while. He then said, "You tell Mei Ji that I'm going out for a while."

Then, he didn't mind Yu Lian's words, turning into a thunderbolt and flying away.

The Phantom Clan's island had many barriers and restrictions. However, those were used to defend against people intruding the island. It wasn't easy to get into the island. However, it was no problem to fly out from the inside. Thus, Shi Yan could fly away freely.

Yu Lian didn't stop him and she couldn't stop him, anyway. She could only see him fly away. Yu Lian was dumbstruck. After she could get a hold of herself, she hurried to find Mei Ji and tell her that he was gone.

Mei Ji wore brocade and silk dress and sat inside a secret chamber in the main hall. She was holding a yellow ancient book. After listening to Yu Lian, she waved her hand and said, "I got it. You can leave now."

Yu Lian left quietly.

Mei Ji dropped the ancient book, her beautiful face suspicious. She thought for a while and mumbled to herself, "That kid has so many secrets. But why does he have to visit the most chaotic areas? Does he have any conspiracy?"

Her thoughts changed and she stepped out of the secret chamber. After giving orders to her close subordinates, she left the island.

Seabed.

A figure covered in the starlight slowly sank into the sea. The blue sea surface was above his head and he was facing the dark, cold water with the pressure increasing continuously.

Inside the light curtain, Shi Yan was observing his surroundings while sinking deeper.

In this cold sea, there was no fish. Shi Yan's Soul Consciousness expanded and he found only the cold, dark areas.

He rose a finger and poked through the light curtain to touch the sea water. The sea water was indeed icy. It seemed like the cold could seep into his bones and marrow.

He retracted his finger, slowly quieted down, and closed his eyes.

He was using the soul power to survey the surroundings with the hope of finding a group of people. It would be better if he could find a battle. He needed battles. He needed people to die. He needed energy from them.

He was still sinking deeper toward the seabed, frowning and thinking.

According to Mei Ji, someone said that the Sea of Annihilation was like a funnel. The surface of the sea was the bottom of the funnel, and the seabed was hundreds of times bigger than the sea surface. It could be as big as an immense territory.

He didn't really believe that.

But now, he understood it.

Since he was a warrior cultivating Space power Upanishad, the speed of his soul energy and Soul Consciousness was ten or even one hundred times faster than a normal warrior's!

However, his Soul Consciousness had reached the limit before it could cover a part of the Sea of Annihilation. Although he had let his Soul Consciousness reach as far as he could, he felt that this sea didn't have an end.

After a while, he sent a wisp of Soul Consciousness into the Heavenly Fantasy Star Compass to check the time. It'd been three days since he began to sink into the sea.

And he was still sinking. How deep was this sea?

However, he had to reduce his speed because the water pressure became more terrifying the deeper he went. At his realm and cultivation base, he gradually felt tired.

One day, he suddenly stopped sinking and hovered in the sea.

His Soul Consciousness changed direction. He sent it toward the seabed.

As his Soul Consciousness wasn't tied by the water pressure, it moved rapidly and searched.

"Oh!"

Shi Yan opened his eyes. The strange light flared from his eyes when his body shivered.

He was so surprised when he looked at the seabed underneath. His face became odd.

He had sensed a familiar aura deep undersea. Somewhere deep down there, a voice was calling him. He suddenly felt that he could trust that call.

To be more exact, that soul calling aimed at his co-soul and his co-soul reported that familiar aura!

His co-soul had fused with Grace Mainland, one of Desolate's wisps. It was also the soul of an Absolute Beginning creature!

That familiar aura sent him a trustful feeling. What was it?

He knew that it was really far from him. With the distance his Soul Consciousness had sensed, it would take around ten days to get there. Shi Yan frowned and hovered astounded.

The Absolute Beginning Era was the epoch of annihilation. The Absolute Beginning creatures were so powerful. They were the ancestors of billions of creatures and they were also the Creator's favorite children. Those intimidating creatures were born with terrifying powers. Although the warriors had improved and advanced power Upanishads for many years, the Absolute Beginning creatures were still the strongest in this world.

The thing that made his co-soul, the Absolute Beginning creature's soul, feel family and trust... what is it?

Hesitating for a while, he made his decision, which he acted upon immediately.

He flew to the area that his Soul Consciousness had sensed. That area was pretty far from him and in the deeper level of the sea. He couldn't move fast in the water because of the pressure. Slowly, the light cage he made from star energy wore out.

After several days, he had to stop and gather his God power by using the Star power Upanishad to weave a new light cage.

Somewhere on the seabed.

So many light cages were moving. Each of those different colored light cages contained a beefy man.

If Shi Yan was here, he would have found that they were the men he had met. The leader of this group was Yerburch. He stayed half naked, showing the exquisite beast marks on his upper body. He was calmly moving through the water.

A green light cage moved next to him, carrying a small and thin alien. His eyes sparkled as if he was checking something. Gradually, he looked restless.

“It should be near here! I’m sure it’s just around! How could things go wrong? Lately, when I came, I found it near here!” That alien warrior had spent a lot of time going around the seabed. The previous time he came here with some comrades, he found an Absolute Beginning vestige accidentally. However, they couldn’t approach it. Their souls became dizzy and they lost their consciousness shortly. When they woke up, they were floating on the sea surface.

Yerburgh suddenly stopped, his face dark as he hissed. “I hope you could guide us in the right way. Otherwise, you know the consequence!”

As soon as he said that, the little alien changed his visage and even his green light cage trembled, becoming extremely unstable.

Another area on the seabed.

So many cold-looking warriors were surrounding a tall and thin woman. They were raking around as if they were searching for something.

Whether they were male or female warriors, they all had thick black scales as their natural armor. They were all tall and muscular. The thick Demon Qi diffused from them and gave people a terrifying warning.

The woman was the leader of this group. She was also tall and thin with thick black scaled armor. The black scales seemed to grow from her skin and they were part of her body.

They were the members of the Black Demon Clan.

[God of Slaughter](#)

Chapter 1417: Go Together

Seabed.

A flow of starlight zoomed fast like a meteor and headed in a direction. It flashed and then disappeared.

The twinkling starlight was brilliant and beautiful, but it was also as dangerous as a cold sword. It felt even colder than the sea water.

Swoosh!

The starlight halted.

Inside the starlight, Shi Yan wore a solemn face and looked at the group of warriors with the thick Demon Qi in front of him. He changed his face and couldn’t help but shout. “Black Scale Clan!”

He used to fight against the Demon Clan in the Endless Sea of Grace Mainland. He thought about those warriors with black scaled armor. However, it was a surprise that he could see the members of the Black Scale Clan deep under the Sea of Annihilation. He was bewildered.

However, watching carefully, he found that they were different from the Black Scale Clan. The black scales on their bodies were smaller and more delicate. They seemed to be refined from real bones and dyed black. Also, the scales of the Black Scale Clan members looked as if they were made of metal.

He was bewildered for a while but then reacted fast. He remembered Mei Ji used to tell him about a race. Immediately, he said, "Black Demon Clan!"

The Black Demon Clan was one of the Seven Great Clans in the Sea Domain of Nihility. They were famous for their combative nature. They were a clan that could give others a headache. No one wanted to provoke this clan.

The woman from the Black Demon Clan looked as rough as a man. She didn't have any beautiful features. Hearing Shi Yan's scream, she shot him a cold look and then urged her people. "Don't delay our business. Keep on going."

The male and female warriors of the Black Demon Clan looked savage. They glanced at Shi Yan and then left quietly.

They were leaving in the direction Shi Yan had sensed earlier. Shi Yan was also surprised. Pondering for a few seconds, he grinned and followed them neither slow nor fast.

"Farlow, why don't you kill him?" asked the hunky man of the Black Demon Clan. His body was like a black mountain with cold and dark aura.

"Telika, we're here to find the vestige. Don't cause more trouble." The rough woman turned around with a stern face. She looked at the man behind her, thought, and then said, "We're in the Sea of Annihilation. There can be some Territory Ancestors here. Don't think that the others will always be afraid of us."

"But that kid has only First Sky of Immortal Realm cultivation base," snorted Telika. "Farlow, is it true that you've become a coward since we came to the Sea of Annihilation? If it's true, I think I'm more suitable to lead this group."

The woman he called Farlow looked at him coldly and said, "He's not someone you can kill easily."

"If he's from another force and he can find the vestige because of our location, we will have one more obstacle." Telika was resolute. "Just a First Sky of Immortal Realm. It's easy to kill him. And our whereabouts won't be disclosed." The other members of the Black Demon Clan nodded quietly and agreed with Telika. They thought that it made sense.

It was very important. To locate the vestige, the Black Demon Clan had to spend a lot of effort. They couldn't afford any mistake. Killing someone who could possibly become trouble was the right decision.

Farlow looked bored. "If you think it's easy to kill him, just try it. We will wait for you for fifteen minutes."

"Fifteen minutes? Too much. I'm going to be back right away!" Telika grinned. He shot backward like a ruthless sword.

The sea water parted as if it was proactively making way for him. Shortly after, he stopped Shi Yan in his way.

Shi Yan frowned and hovered. The light moved around his body. He looked at the Black Demon man who obviously didn't come with goodwill. "What do you want?"

"To kill you," Telika said simply. He laughed and balled his fingers into a massive fist like a hammer. He grumbly pounded on Shi Yan's head.

Boom! Boom! Boom!

Thick thunders came from his punch. The exploding power in the terrifying thunders was like a furious water current that was breaking a dam. With the will and momentum, it could break any obstacle.

Shi Yan lifted his head and looked at the torrential water. He felt like many mountains were pressing on him.

"Kill me? With your Second Sky of Immortal Realm? Ridiculous!" Shi Yan frowned and raised his hand to snatch the man. Sharp lights emerged from his fingers. The strong light parted into five rivers that could cut everything and crush the thunder.

BOOM! BOOM! BOOM!

The ear-breaking explosions echoed above Shi Yan's head. The savage Black Demon man had five cuts on his fist.

He screamed and looked at the cuts on his fists in disbelief, "Space power Upanishad!"

Shi Yan didn't answer and just acted. His five fingers snatched over Telika and pulled the void.

The five dazzling lights were like sharp swords twisted together and aimed at Telika's chest. If he let it thrust into his body, he couldn't avoid death.

"Space power Upanishad? What can you do with it?" Telika sneered. Thunder exploded in his chest. Instantly, thunder rumbled from his entire body like drumbeats, shaking the entire sea area. He curled his lips. The energy in his eyes condensed into two silver spears and stabbed forward.

A massive light shield emerged from Shi Yan's chest, blocking the two cold spears.

Telika still wanted to attack Shi Yan more. A figure flashed. It was Farlow who had stopped him earlier. "I told you it's not easy to kill him. You've confirmed it. Why do you still want to waste your power? It requires a lot of energy to kill a warrior with Space power Upanishad. Do you want to delay our business? If so, you can leave this group now and go say sorry to the Elders."

The muscular woman with masculine features had a husky voice. She wasn't polite when she criticized him.

She turned to Shi Yan, her eyes serious. "You're not a member of the Seven Great Clans. I hope you won't follow us furthermore. Otherwise, we won't let you go easily."

Telika snorted and rolled his eyes maliciously at Shi Yan. "I don't have time to waste on you. You're lucky today."

The female leader of the Black Demon Clan nodded as she saw her fellow agree with her. She didn't say more and left.

"If you're bold, just keep following us." Telika grinned fiendishly after the woman had left.

Shi Yan rubbed his chin and said indifferently, "Of course, I have to keep moving. It's the same direction. Is it the same place I've sensed?"

He immediately moved.

After a while, another group of warriors came to this place. Yerburgh was the leader of this group.

After Yerburgh arrived, he closed his eyes to sense for a while. Then, his eyes brightened as he laughed, "I could smell Telika's thunder here. He had just fought with someone not a long time ago."

He looked in the direction where the Black Demon Clan and Shi Yan had left, laughing contentedly. "It seems like we don't need a guide anymore.

Then, he turned around and killed the thin alien warrior that had taken them here.

Chapter 1418: Cannon Fodder?

"He's still following us."

Telika stopped and turned around to check. The lightning was like a massive python that wound around him. "We should kill him to prevent others from finding us."

All of a sudden, they saw many green bubbles floating and drifting in the dark sea water. Those bubbles were translucent and floating quietly. They didn't rise up to the surface.

Farlow was about to answer him before she saw those green bubbles. Her face changed instantly.

The warriors of the Black Demon Clan turned around to look. They were also frightened and didn't mind Telika. Also, Telika was bewildered himself.

Each green bubble carried an icy corpse. However, all the corpses were withered like a dry stick. Their faces were twisted in extreme fear and despair. It seemed like they had seen something utterly terrible before they died or they had been tortured until they died. Looking at their horrible facial expressions, the other warriors felt so chilled.

Countless cold corpses floated inside the bubbles. The bubbles were like coffins that covered their dry, dead bodies. Those bodies didn't have any signs of a battle. However, their distorted faces were so eye-catching and they made Farlow and Telika inwardly cold.

"Something is wrong!" Farlow was cautious and raised one hand to signal the others to stop.

They kept a distance with those green bubbles. They didn't come near rashly. Farlow checked each body and observed for a while. "They didn't fight. No wound. We can say they..." Pausing for seconds, she

lowered her voice and hissed, "Their souls were captured instantly. Before they died, they had seen something desperately horrible. Otherwise, their faces wouldn't twist like that even after they died."

"I don't know why I feel insecure when I see their faces," whispered a member of the Black Demon Clan.

"I have the same feeling."

"Me too."

"It's like an instinct. Looking at them, we think that we will face something like that and we will end up like them."

"..."

After they had expressed their opinions, they all quieted down all of a sudden. They felt a chill run down their spines as if the sea water was running through their bodies and affecting their minds.

It made everybody restless.

Farlow turned around.

Not far behind them, a white cluster suddenly flashed. It looked like someone was hiding.

"Telika, can we avoid going through that area?" She pondered for a few seconds and then turned to the other.

Telika frowned and shook his head. "It seems like we can't. It's strange, though..."

"What's strange?" asked Farlow.

"I killed that man to rob the memories of this route. We are going the right way. However, they didn't see these bubbles. The route is correct. So, there is only one possibility." Telika changed his visage slightly. "Those green bubbles have just appeared recently. They didn't exist. We can say that they weren't there before."

"If we can't move around, we can get through them once. Anyway, I think it's not good. If we have to get in there, something bad will happen for sure," said Farlow.

"Your intuition is always precise. If you say something bad will happen, it will happen." Telika nodded. Whenever they encountered some important situation, he never stopped trusting Farlow. "I have an idea," he suddenly grinned evilly.

Everybody knew he was cunning enough. Their eyes brightened. Some warriors who were close to him saw him look over his shoulder sometimes with his bright eyes. They understood and grinned like him.

"You are saying that..." Farlow's masculine face had a sinister resolution. She also understood his idea.

"We need someone to scout," Telika grinned, his face ferocious. "Of course, we can't sacrifice our members. That rascal sneaking behind us wants to die. We should fulfill his wish."

Farlow nodded and agreed with his idea. "He cultivates Space power Upanishad. You can't handle him single-handed. We should..."

Before she finished, she halted, her face changing in fear. "Not good. Someone is coming!"

Telika and the warriors of the Black Demon Clan became tense. They urged their powers and got ready to engage in a battle.

Shortly after, Yerburgh's straightforward laughter came from afar. He took several men of the Ancient Monster Tribe and went with fearless countenances. Yerburgh laughed loudly. "We were lost for a while on the way. Thank you Telika for fighting with someone. You left your special aura there. You helped me to get back to the right route."

Telika grimaced. "Yerburgh, you're here for the vestige too?"

"Of course," Yerburgh laughed casually. "Don't think that only you guys know about this. Oh, right. Tate also knows things related to this vestige. I think the Devouring Clan and the Soul Clan also pay attention to this matter. I'm not surprised that I saw you guys here. I think we will see more people from other directions. Yeah, we'll see them, sooner or later."

Farlow and Telika changed their faces slightly. They just realized that they would encounter a lot of bad things during this trip.

"How could it be? I've killed almost all of them!" Telika.

"You missed a fish. He sold the news about the vestige. But he didn't sell them to me first. I've just killed him recently. He'd created more opponents for this trip. He deserved death." Yerburgh smiled nonchalantly. He looked at the green bubbles and gasped in surprise. "What the heck are those?"

"Should be some barriers or restriction," Farlow didn't conceal. She knew and concealed but couldn't do anything. She waved her hand to dismiss her people to let Yerburgh's team come near.

Of course, Yerburgh wasn't going to try to be polite. He took his team and moved forward. A radiant halo emerged from his eyes when he gazed at so many green bubbles. His face became stern. "Some evil soul energy had attacked them. They died instantly and tragically. Their brains were like porridge and their soul altars shattered."

"Someone has to go there," said Farlow.

"Can't move around?" asked Yerburgh.

"We don't have any alternative now," Telika snorted. "The location of the vestige should be right under those bubbles. We have to get in there and dive deeper to see if we could find something."

Yerburgh was surprised as he laughed. "Do you have any solution?"

"Someone doesn't belong to our team or your team. On the way here, he has followed us. Now he's hiding..." Farlow said and raised one hand, "...there!"

Yerburgh grinned. "I know your Black Demon Clan is full of dark schemes. Turns out you already have cannon fodder. Yeah, it's good that you're not crazy. You don't plot against us. It's good that we have someone to scout and sacrifice though."

He nodded to someone standing next to him. "Go."

Farlow had shown them the location. Of course, they wanted the Ancient Monster Clan to go get the man. Yerburch didn't deny it. He straightforwardly agreed.

A muscular Ancient Monster man roared like a beast about to hunt. Unexpectedly, his teeth had torn the corners of his mouths and become sharp and long like fangs.

He directly stormed toward Shi Yan's hiding spot. As he roared, his brutal aura of a wild animal had turned into a massive fighting saber, which was around ten meters. It cut and separated the water, slashing Shi Yan.

Boop! Boop! Boop!

The seawater exploded wherever the saber slashed through. The area Farlow had pointed was seething and thundering grumblingly.

However, there was no participle shadow that screamed or cursed.

The beefy man of the Ancient Monster Clan was surprised as he looked at Farlow. He doubted that she didn't point in the right place.

Farlow darkened her face, her eyes angry. "He cultivates Space power Upanishad. I didn't expect that he had a profound realm. He could even teleport under the sea."

Then, Farlow closed her eyes and searched again.

However, she was wrong this time. "Nothing. I can't sense his aura in the surrounding areas. He knows what we are planning too. I think he used the advantages of the Space power Upanishad to get out of here."

"It means that we don't have a cannon fodder now?" Yerburch sighed in disappointment. He signaled his warrior not to waste more energy. He knew Farlow's magical power Upanishad. If she said that this man wasn't around, they shouldn't waste more energy.

Meanwhile, in the turbulent water area, Shi Yan was hiding. He seemed to have become part of the sea water, quietly bobbing at his spot.

He had used the marvelous Dark Energy. While Dark Energy moved around the body, the aura on his bones, flesh, and veins disappeared. The typical features that were detectable also disappeared.

It was like Bloodthirsty's remains that could be invisible. There was no way to see or sense them with the Soul Consciousness.

That attack had hit him actually. That warrior of the Ancient Monster Clan had reached First Sky of Immortal Realm, but his body couldn't compare to Shi Yan's regarding evolution. Thus, that attack didn't hurt him at all.

However, his mood was still bad. Staying hidden, he was like a venomous snake that watched Yerburch of the Ancient Monster Clan and the cunning, evil Farlow and Telika. He licked his lips and tried to suppress his brute.

Cannon fodder?

It'd been a long time since someone dared to treat him like that. Under the Sea of Annihilation, he now encountered such a humiliation. They had considered him cannon fodder.

He looked at the groups of the Ancient Monster Clan and the Black Demon Clan discussing. They wanted to join hands and go through the clusters of green bubbles.

Shi Yan sneered and waited silently. He was waiting to see them go deep into the area. Then, he would become a hunter that killed his prey and deemed themselves part of a noble, advanced race. He would use them to accumulate more energy.

Chapter 1419: Sly Change!

Countless crystal green bubbles floated like a silent green lantern or so many strange, evil eyes watching the others intruding.

Each bubble carried a desiccated corpse, which had probably endured something utterly terrible before they died with a desperate and fearful face.

"Everybody, watch out!"

Farlow reminded. She was a woman with a body that was even brawnier than a man's. At this moment, she was covered inside so many white light layers. Her light protection looked like an egg that continuously released strange soul energy fluctuations. It seemed like she had sent so many wisps of Soul Consciousness to check around.

The members of the Black Demon Clan gathered by her. Telika stayed furthest away from her, but it was just around twenty steps. They were actually creating a formation with Farlow as the center.

Yerburgh led the Ancient Monster Clan and tried to stay away from Farlow's group to avoid any possible dispute.

Slowly, they moved toward the green bubbles.

Farlow had a rare Mind power Upanishad. She was sensitive to the Soul Consciousness and energy. Also, she had a miraculous intuition when they were in danger.

She expanded her Soul Consciousness.

All of a sudden, she looked at the turbulent area where it had exploded and doubted.

When her Soul Consciousness reached that area, she vaguely felt a feeble wisp of soul energy. It flashed and then disappeared. When she tried to sense again, it had utterly disappeared.

Just an illusion?

She shook her head and suppressed the doubt in her mind, continuing to search through the green bubbles.

Shi Yan was tense while hiding in his secret spot. He became more cautious. Farlow had just Third Sky of Immortal Realm. She couldn't detect Shi Yan precisely like Mei Ji had done when he used Dark Energy to

hide. Anyway, this woman had a special power Upanishad that had almost busted Shi Yan when he was a little careless.

Shi Yan had to be more cautious.

He couldn't resist many members of the Black Demon Clan and Ancient Monster Clan here. As soon as he was exposed, he would suffer from the pitiful consequence of being their cannon fodder.

Before the others had sunk deeply into the deathtrap, he had to ensure that he stayed concealed in his secret spot.

Shi Yan retreated his released Soul Consciousness. He sealed himself and didn't try to sense the surroundings, using his eyes and ears.

His pupils shrank all of a sudden.

A muscular man of the Ancient Monster Clan moved to the area between the green bubbles. He looked frightened and his soul was taken immediately. He became wild, screaming and then attacking the nearest Ancient Monster Clan warrior.

Thud!

A ferocious giant snake shot out from his palm. In just a blink, the snake expanded and opened its dark, bloody mouth to swallow that member of the Ancient Monster Clan. The snake fangs began to chew and tear the victim's body.

Shriek! Shriek!

All of a sudden, the screeching and shrieking arose from deep undersea. It was like a chilling saber drilling into people's hearts and slashing their soul altars.

Farlow of the Black Demon Clan released her Soul Consciousness to check the secrets of this area. Her muscular body couldn't help but shiver. Blood ran from her mouth, nostrils, eyes, and ears. They looked like many horrible blood snakes that rose the hair on people's heads.

She had a deep fear on her face as she screamed ear-piercingly. "Retreat! Retreat all of you!"

She screamed crazily. Instinctively, she wanted to get rid of this area. However, in almost a blink of an eye, this sea area's gravity felt a thousand-time heavier. It felt like so many invisible chains had come and tied all of them.

The members of the Ancient Monster Clan and Black Demon Clan tried their best to struggle using their power Upanishads that they had been cultivated for thousands of years. Thunder and lightning exploded. The fire dragon roared. Icicles shelled everywhere. The rainbow light bloomed. The entire sea area was stirred up with exploding energies.

The warriors in that deathtrap seemed to be possessed. Their faces looked ultimately panicked and desperate as they tried their best to run away for their lives.

Gradually, some of them who were possessed began to attack the others. They were using their best powers to kill their long-time partners.

Cut limbs were everywhere. Blood splashed. That sea area was now a terrible scene in Hell that people didn't want to look at twice.

Shi Yan had planned to seize the chance to attack the others and make them pay a bloody price. However, he couldn't hold on to that thought. Dark Energy returned to his head. He wasn't invisible anymore, so he hovered from a far distance and watched.

Ahead of him was a sealed area because although there were so many dead people, there was no beam of aura to get out of the place.

He didn't get any benefit from their deaths.

From where he was hovering, he saw the members of the Ancient Monster Clan and Black Demon Clan sink into a desperate situation. He looked at Farlow, Telika, and Yerburgh, the three with high-ranks and noble positions. They were using their blood and power to urge their treasures and turn into three lightning bolts, trying to get rid of the place.

He didn't know that Farlow, Telika, and Yerburgh were the outstanding characters in their clans. They had received focused training and they had life-protection secret treasures that Territory Ancestor Realm experts had refined for them.

Farlow was squeezing a glass ball in her hand, which had many brilliant lights. Telika was holding a long spear with lightning drawings. His spear was wiggling like a snake. Yerburgh was wearing sparkling gold armor. At this moment, his armor had some fine cracks.

All of them were excellent warriors in their clans. With the life-protection treasures bestowed from their precursors, they tried to make a way out of that evil sea area.

They had fear in their eyes that they couldn't hide. They looked at their fellows slaughtering each other until death. Slowly, the dead warriors sank deeper to the seabed in that area.

The desperate gleam on the faces of the dried corpses inside the green bubbles seemed to change quietly. Now, they looked mocking somehow.

It was like they were brought back to life and releasing evil energy that affected those who dared to intrude just a moment ago.

Shortly after, that sea area quieted down. Blood diluted in the sea water. The fellows that Farlow and Yerburgh had brought here all sank into the seabed. It became silent again.

Farlow, Telika, and Yerburgh were petrified. Seeing their members die tragically, they were extremely frightened. They didn't dare to move toward that area one more time.

Shi Yan was around one hundred meters away from them. They saw him but they didn't make a move.

They just observed the sea area ahead.

A long time after that, Farlow pulled herself together. The fear in her eyes hadn't dispersed yet. "We can't go in there with our own power. We don't need to stay here and waste more efforts. We're going to return and report to the superior."

Yerburgh didn't respond. He just gave her a nod. He knew that Farlow was right. The dangers in this area weren't something that they could survive.

If it wasn't because of the divine weapon they had received from the precursor in their clans, they would have had the same consequence. They would have become one of those corpses sinking over there.

Yerburgh turned around to look at Shi Yan, his face changed. "It's you, somehow."

Shi Yan looked calm as he proactively walked to them. "Are you going to retreat?"

No one paid attention to him.

Although Shi Yan had special power Upanishads, his realm was too low. He had only First Sky of Immortal Realm and he wasn't from the Seven Great Clans. Farlow and the others were hurt. While they were worried and irritated the most, Shi Yan reappeared and approached them. He gave them strange thoughts.

Was he seeking death?

"Are you all mute?" Frowning, Shi Yan looked at Farlow and said, "What did you sense in there? I know you have a strange power Upanishad. You must have perceived something..."

Hiding in the dark while the members of the Black Demon Clan and the Ancient Monster Clan were wounded, he had released the Soul Consciousness of the co-soul.

He felt that familiar aura and the magical call from the deep area of the sea one more time

However, the intimidating Soul Consciousness that had killed the Black Demon Clan and Ancient Monster Clan members wasn't the familiar soul he had sensed. It made him more cautious and dare not to intrude the area.

"I'm curious. How can you hide where I can't find you? Besides Space power Upanishad, what else have you cultivated?" Farlow didn't answer but asked.

"I asked first," said Shi Yan.

Farlow's rough face grew impatient and hot-tempered. "What are you? You're at First Sky of Immortal Realm only. You're not a member of the Seven Great Clans, either. Do you think you deserve to talk to me?"

"Mei Ji didn't come with you here?" asked Yerburgh all of a sudden.

Listening to them, Farlow and Telika were bewildered. They turned to see Yerburgh.

"This fella is called Shi Yan. He rode the high waves on Dragon Lizard Star. Yeah, you're right. He's the lucky guy with a wisp of a soul of an Absolute Beginning creature. I'm curious why Mei Ji hadn't refined you on the way. I know that because of Batum, Mei Ji wouldn't hesitate to pay any price to reach the Territory Ancestor Realm. Well, as she didn't kill you, does she like you?" asked Yerburgh in a low-pitched voice.

Farlow and Telika were startled. They looked both surprised and greedy.

“So? You guys want to refine me to take the Absolute Beginning creature’s soul I got?” Shi Yan felt ridiculous. “Mei Ji failed. Do you think you can do that?”

Mei Ji failed?

They were astounded.

Farlow and Yerburgh were at Third Sky of Immortal Realm, but they weren’t at the peak. Telika had only Second Sky of Immortal Realm cultivation base. Talking about credit or realms, they couldn’t compete with Mei Ji. If Mei Ji failed, would they fail too?

He was just a junior at Second Sky of Immortal Realm. How could Mei Ji fail?

If she didn’t fail, why was this fellow still alive?

All of them were so suspicious because of Shi Yan. They weren’t so sure if he was saying the truth.

“Someone is coming.” Shi Yan changed his face and turned to look in the direction behind him. “Should be the members from your Seven Great Clans. It seems like everybody knows about the Absolute Beginning vestige. You are just a pioneer group. Well, the group with the worst luck.”

Yerburgh, Telika turned to look at Farlow.

Farlow was skeptical and shook her head. “I can’t feel anything. I’m not sure if he is telling the truth.”

Chapter 1420: She’s My Woman!

Farlow cultivated Mind power Upanishad, so her sensitivity was always better. When she said she didn’t feel anything abnormal, Yerburgh and Telika were disdainful.

— Apparently, they believed Farlow’s assumption.

Shi Yan didn’t explain. He put more distance between him and the other three to prevent a possible dispute. Shi Yan discreetly moved.

Before those people got here, Shi Yan didn’t plan to say more. Shi Yan had used the Soul Consciousness with Space power Upanishad to sense a group of warriors moving behind them. Although Farlow’s Mind power Upanishad was magical, her long-distance sensing wasn’t strong enough.

“What should we do to him?” Telika lowered his voice.

The group of the Black Demon Clan coming here had to bear a big loss. Only Telika and Farlow survived. At this moment, he was in a really bad mood. He wanted to vent it out.

“Whatever you want. I don’t have any idea. Well, if you can kill him to take his soul, it’s your luck.”

Yerburgh shrugged, his eyes cold and sinister. He wanted to see Telika attack the other to measure Shi Yan’s competence.

“I’ve tried,” snorted Telika.

Yerburgh was surprised and felt ridiculous. “So you didn’t defeat him when you battled him earlier?”

Telika grimaced.

“Telika, come back to the sea surface and report the situation. I’m here to watch. We will do it when our clan’s hotshots come,” said Farlow all of a sudden.

“Why don’t you do that yourself?” snorted Telika.

“I can,” Farlow hissed. She didn’t have any mild feature of a woman. She acted more like a rude man. “If you aren’t afraid of being killed by Yerburgh, you can stay here. I’m going back.”

“Why would I do that?” Yerburgh rubbed his nose. His face was as if he was being treated unfairly.

Telika discolored as he suddenly remembered that Yerburgh was here too. Moreover, he had Third Sky of Immortal Realm which was one level higher than his.

He didn’t want to stay anymore. “This kid is a thorn in my eyes. I want to kill him before I leave.”

“Up to you,” Farlow didn’t think it was a big matter.

However, as soon as she finished talking, her face changed. “No!”

It was the first time she was frightened. She turned to Shi Yan, her face baffled. “Someone is coming...”

As soon as she said that, Telika and Yerburgh were also fearful. They turned to observe Shi Yan in surprise.

Although he was too far away from the coming people, he could sense them beforehand. He was more precise than Farlow. From this feature, they could tell that he wasn’t ordinary at all.

Telika wanted to kill Shi Yan but now, he had to put this thought aside, frowning and hovering.

Ten minutes later, a group of six warriors with exquisite, shining armor came. They moved like quiet spirits in the water.

Their leader was a woman wearing a thick and complicated set of armor. The gold, bright yellow, and orange-red lines created patterns of the sun, flowers, and flames on her armor. Her armor covered her slender, straight thighs, her ample breasts, and her wheatish skin tone. She kept her shoulders, flawless abdomen, and half of her long legs covered. Following her were five men in dark armor. Their auras were calm and cold. Their eyes were brilliant with divine lights.

Shi Yan was startled at a first glance as he mumbled, “Mysterious Sky Clan...”

The Mysterious Sky Clan woman with sexy clothes looked around thirty years old. She had tender, lovely facial contours, her eyes twinkling.

Peak of Immortal Realm!

At first glance, Shi Yan could see her real realm. He became cautious.

“Ling Mei!” Farlow was surprised when she saw who came. Her eyes flashed as she snorted. “I didn’t expect the Mysterious Sky Clan to come here. And it’s you, unexpectedly. It seems like you guys are interested in the Absolute Beginning vestige a lot.”

“Farlow, Yerburgh, Telika...”

The Mysterious Sky Clan woman called Ling Mei gently nodded to the three and said their names. She looked nonchalant as she spoke relaxingly, “Why are only you here?”

The other three kept silent with grimaces.

“Well, of course, they didn’t come here with only these people. Unfortunately, one hour before you came, all were killed. Yeah, right in between those green bubbles.” Shi Yan intervened, pouting at the area ahead of them and speaking indifferently.

“Shut up!” bellowed Farlow and Telika.

Shi Yan chuckled. “With your realm and competencies, you need more to shut me up. If the real experts of your clan came here, besides shutting my mouth, I would also stay as far away from here as I can.”

The hot woman of the Mysterious Sky Clan wore a tender face like calm water. The corners of her mouth drew a strange smile. She looked interested when she assessed Shi Yan. Her eyes suddenly brightened when she pulled a stern face. “Are you Shi Yan?”

“Er?” Shi Yan was surprised. “Did Tu Shi Qi and Ya Yun tell you something about me?”

“It’s you!” Ling Mei beamed honestly. “Those two precursors are heading to this Sea of Annihilation. They told me about you and they said that you could go to the Sea of Annihilation. I didn’t expect you to come so early.”

Ling Mei pulled a stern face and introduced herself, “I am Ling Mei, the one who’s in charge the Sea of Annihilation in the Mysterious Sky Clan. If you meet any trouble, don’t hesitate and just come see me. I’m sure I’ll try my best to help you.”

Farlow, Yerburgh, and Telika discolored in fright when they heard that. Now, when they turned to Shi Yan, they all had odd countenances.

“Why would he need to disturb your Mysterious Sky Clan?” However, at this moment, a charming voice came from a far distance. Afterward, a cold light zoomed over. Mei Ji came.

Mei Ji wore a luxurious, long dress, showing her snow-white skin. Her face was charming and her soft voice could reach people’s souls.

Mei Ji was truly an innate treasure. As long as she appeared, Ling Mei’s beauty became inferior. Her mature, attractive features made Yerburgh and Telika aroused. They almost got a nosebleed.

As soon as Mei Ji arrived, she didn’t hesitate to approach Shi Yan and blame him. “Why did you have to get into the sea? “Even if something happened, you should have told me first. Didn’t you know that someone has sold you down the river?”

Then, her cold eyes gazed at Yerburgh as she said awkwardly. “Eh? You’re here too? You always put it on your mouth that you had to repay my favor. Well, just a turn and you’ve sold me already. Yerburgh, your deeds aren’t bad at all?”

Yerburgh looked ashamed and bowed to her. "The Devouring Clan and the Soul Clan had a big price. You know what I sell, right? I couldn't help but... sell the information."

Mei Ji giggled and waved her hand elegantly. "I'm not going to blame you. Anyway, don't dream about getting more information from me. The relationship between us ends here."

"Shi Yan, how are you related to her?"

Ling Mei of the Mysterious Sky Clan couldn't explain this. When she received the message from Tu Shi Qi and Ya Yun, Tu Shi Qi had asked her to protect Shi Yan. Even if they had to become the Phantom Clan's enemy, they had to ensure Shi Yan's safety.

Tu Shi Qi also said that Mei Ji would try her best to hunt Shi Yan. She wanted to refine his soul to reach the Territory Ancestor Realm.

Lately, Ling Mei had paid attention. And today, seeing Shi Yan undersea, she was both happy and afraid. She had just decided to protect him and Mei Ji had shown up with some unknowingly clingy feelings towards Shi Yan. Ling Mei was puzzled. She began to think that Tu Shi Qi was wrong.

"I..." Shi Yan opened his mouth to explain.

However, at this moment, a voluptuous body approached him. Under the firing gaze of Telika and Yerburgh, Mei Ji wound her snow-white arm around him and leaned against his body. Her charming face was filled with lecherous gleams as she seduced him, "Of course, it's the most intimate one..."

Shi Yan was surprised. He looked at Mei Ji at his chest awkwardly. He shifted his eyes to frown at Ling Mei in front of him. There was a flash in his eyes as he understood it.

Mei Ji and Ling Mei didn't get along well!

They were the leaders of the Phantom Clan and Mysterious Sky Clan in the Sea Domain of Nihilicity. After a long time, these two women must have encountered each other a lot. Ling Mei had received news from Tu Shi Qi to recruit Shi Yan. She had expressed their opinions and Mei Ji had overheard that.

Perhaps she didn't want to show up early. Because of Ling Mei, she was forced to appear earlier to compete with Ling Mei. That's why she had to lean against him like this.

A serious of thoughts flashed in his head. Shi Yan smiled and then pulled Mei Ji to his chest, not trying to be polite. Feeling her soft body stiff, he grinned evilly and inwardly. However, he still held a stern face and said, "She's my woman."

His statement was earth-shaking!

Not only Ling Mei but Farlow, Telika, and Yerburgh were also dumbstruck. They looked at Shi Yan as if he was an incredible monster.

Was it true?

Everybody knew that Batum had declared that Mei Ji would be his woman in this Sea of Annihilation. No one dared to claim her. Otherwise, Batum would absolutely hunt him down.

Even the superiors of the Phantom Clan had discreetly agreed. They were waiting for Mei Ji to yield. After Batum had reached the Territory Ancestor Realm, they were going to announce this to the other clans.

Today, a kid at First Sky of Immortal Realm had the guts to hug Mei Ji and claim her as his woman. Did he want to turn everything upside down?

Mei Ji wore a stiff face for a moment. However, she resumed shortly and smiled like a flower. "Right, this is my man, Mei Ji's real man."

Damn you, kid! It's you who courts death! You dare to exploit me. Wait for Batum to mince you!

She could feel Shi Yan's big and rough hand squeeze and rub her butt cheeks. Mei Ji's body stiffened. She secretly gritted her white teeth and cursed Shi Yan.

"Mei Ji, are you kidding?" Ling Mei was surprised. "Everybody knows that you and Batum being together is inevitable. If you do that, you will trouble Shi Yan and yourself altogether. Are you sure?"

She turned to Shi Yan and said solemnly, "I guess you don't know the thing between her and Batum. Batum has Dark Energy. He's at the Peak of Immortal Realm and he's just a step away from the Territory Ancestor Realm. He's the sort of man who would seek revenge for the slightest grudge. If he knows this, you will... have to struggle a lot!"

The corners of Shi Yan's mouth twitched slightly but he was still calm and silent.

He had prepared. After he found Audrey and located the territory entrance, they were going to return to Desolate Territory immediately. He didn't know if he would return to Sea Domain of Nihilicity again. Even if he did return, he wouldn't be at his current realm when that happened. If so, why would he be afraid of that Batum?
