God of Slaughter

Chapter 1431: You Are Still Unskilled!

Ling Mei and Gan Fu were screaming and drawing people's attention who was watching Shi Yan. Anyway, they actually had paid attention to the relationship between Shi Yan and the Absolute Beginning Original Symbol, the Power Upanishad Symbol Tower previously.

And now, after their screaming, they couldn't help but lift their heads to look at Shi Yan's Sea of Consciousness and the tier of power Upanishad.

Of course, they saw a jet black hole.

Currently, that black hole was like a black vortex that spun strangely. It looked indescribably evil, indeed.

People now understood. They all grimaced.

They recognized that Ling Mei was correct!

They knew the reason why those Absolute Beginning symbols suddenly stopped merging and seemed to divide. It wasn't because Shi Yan got hit, which discontinued his flow of energy. It was because Shi Yan wasn't using Life power Upanishad at this moment!

The dark, revolving cave told them that Shi Yan was using his Devouring power Upanishad!

— It was the most terrifying and malicious power Upanishad that has been lost for so many years. It was famous for its devouring ability. It could swallow all kinds of energy and make other races loath it to the bones!

When they recognized that strange commotion, as to prove Ling Mei's assumption, Shi Yan's flickering co-soul and host soul condensed and became clear. The host soul and the co-soul still looked indifferent as if nothing had happened to them.

Ling Mei was correct. Shi Yan wasn't hurt at all!

When Telika attacked him, Shi Yan had switched his power Upanishad. He had to pause the fusing process of the Life power Upanishad to use the marvelous ability of the Devouring power Upanishad.

His Sea of Consciousness had Dark Energy, so it wasn't just an ordinary Sea of Consciousness. It had a defensive power created by the powerful Dark Energy.

As he had urged the Devouring power Upanishad, his Sea of Consciousness became like a massive vortex. When Telika's attack came, his sea seethed, which appeared terrifying. However, it actually didn't affect him a bit. While his Sea of Consciousness surged, the exploding lightning energy slowly subsided. The black hole in his Sea of Consciousness had taken it all.

With Space power Upanishad, he had created illusions to cover his actions.

Only Brian and Ming Hao could see his sneaky moves. They knew that he wasn't hurt.

That's why Brian didn't take action. He even had a faint smile. When Gan Fu burst out her deadly power, he didn't stop her.

As he didn't even move, Ming Hao could only try his best to interfere with her. Millions of his clones divided and sent a part of them to stop Gan Fu, entangling with her for a while.

Shi Yan couldn't estimate Ling Mei's deed. Although the Mysterious Sky Clan seemed to want to establish an alliance with him, they decided to throw everything away for the Power Upanishad Symbol Tower at this critical moment. They wanted to take him down at any cost.

Ling Mei's cold, calm, and precise orders had affected him greatly.

Shi Yan was shaken and insecure when Ling Mei could see what he was hiding. She knew that he had mastered Devouring power Upanishad and wasn't hurt.

"Seize fifteen minute for me! Or else, don't think about getting out of this place!" Shi Yan's Soul Consciousness poured like a stream from the sky and fell on Brian the God Lord.

Brian was standing and watching Ming Hao dealing with two opponents at the same time and gradually falling into the lower hand. He had planned to see Ming Hao consume his energy. However, when he heard Shi Yan's voice, he snorted and replied, "You guys of the Bloodthirsty Force are so cunning. Don't worry. I will take action when I should. But don't dream about me sacrificing my life for you. Ming Hao should be the one who does that for you. If he can't, of course, I will join him. You just enjoy it over there."

"Devouring power Upanishad! It's the Devouring power Upanishad!"

Gan Fu screamed ear-piercingly, her body shaking hysterically. She was sitting on the green blood pond. At this moment, she had shrunk her body thrice. Now, she was just around one meter tall. She had no color on her mummy-like body, except for her overjoyed eyes.

Sizzle! Sizzle! Sizzle!

The green blood underneath her emitted a thick green mist. The rotten, corrosive energy from that green mist was so thick that it could rot people's internal organs when they inhaled.

Ming Hao's soul clones were afraid of the mist. When green mist expanded, his soul clones retreated.

"Telika! Attack his twin souls! Once his souls get damaged, even if he has more tricks, he will perish quickly!" Ling Mei pulled herself together fast. When they had to capture each fraction of time, she had got the right direction in just a blink of an eye, ordering people to attack Shi Yan's souls.

Telika, Farlow, and Yerburgh weren't idiots. Hearing her, they reacted and ignored the seething Sea of Consciousness to attack Shi Yan's two souls above.

"Up!" Audrey hissed resolutely.

A gray soul lotus throne emerged and brought Audrey upward. That lotus throne was created by dozens of thousands of wailing ghosts and departed souls. Fearsome faces appeared by the edge of the lotus, shrieking and showing fangs.

Ming Hao was right in front of the lotus throne. He looked like a massive skull lying underneath Audrey. He opened his mouth and spurt dark smoke to prevent a muscular man from the Mysterious Sky Clan a hundred meters away.

"Black Guards! Stop her!" Ling Mei hovered and shouted coldly.

All the members of the Mysterious Sky Clan accompanied her this time left Shi Yan and turned around. Audrey was their new target. Instantly, the cold sabers as big as a rainbow and a silver mountain range snatched over Audrey.

"Break!"

Audrey hissed and made a magical hand seal. A cluster of light emerged from her palms.

So many souls gathered inside the cluster of light and created something like a throbbing black heart. It then forcefully hit the saber and the silver mountain range from the Black Guards.

At the same time, Mei Ji, the only person still staying on the ground had finally taken action.

Her entire body became frozen. She was now an ice warrior with ice muscles. While her eyes were blinking, the hundred-meter-long icicles were like massive lances that shot out and stabbed towards Ling Mei in the middle of the air.

A trickle of blood oozed down the corner of her mouth. She looked even paler. Apparently, this attack had worsened her wounds. Every time an ice lance jutted out of her body, her perfect body shivered as if a big hammer pounded on her chest.

After many big lances were shot, her soft body was shaking unceasingly. She limped and couldn't even stand upright.

Ling Mei sighed. "Why would you do that? Is he worth you risking your life? I can't understand Phantom women. Why do you always puzzle people? Why do you always do stupid things?" Then, her jade-like hand rose. "Water moves the sky!"

A clear drop of water like a tear appeared. It sucked the water and then swelled into a clear lake.

The lake reflected Ling Mei's beautiful face and then began to ripple. Each ripple from that lake could shatter one ice lance.

Mei Ji hugged her ample chest. Her face didn't have any color. She slumped and one of her knees touched the ground as she was trying to endure the backfire. Her heart was chilled as vitality drained away from her...

"Stay here!" So many voices hissed from everywhere. Ming Hao's clones were ballooning like ghosts. Some of them parted to stop Telika and the others.

"Rot! All of them should rot!" Gan Fu screamed like a brutal ghost.

The green blood pond suddenly divided into pieces as if it was a green fabric sheet that got torn. Rotting acid splashed on Ming Hao's clones, which were circling. Ming Hao's clones dissolved as if boiling water had poured on them.

This attack had hurt Ming Hao. He couldn't hold his anger. Each of his clones thundered. "Brian! You want to watch until when?"

"As the Soul Control Chief, it's natural that you die to protect your master. I don't need to die for you two, eh?" The God Lord mocked, but he still stepped forward and raised one hand to grab Batum.

Five sharp jets of light emerged with the power of Five Elements. Together, they were like an Angel's hand tearing Batum's stormy field.

Batum was really afraid of the God Lord. Seeing him attack, although he thought that the Light power wasn't really powerful and was strange somehow, Batum had pulled himself together to wait for the attack. He didn't dare to underestimate him.

It was because he had seen the God Lord fight against Gan Fu and force her helter-skelter. He knew the other had supernatural abilities.

Batum's vigilance made Ming Hao relax.

"Ling Mei! How dare you!" Mei Ji was still on the ground and roaring while still bleeding.

Ling Mei wore an indifferently face. She had seized the chance when everything was the most chaotic to dash Shi Yan's body forward.

She hovered low and waited for the best chance to kill Shi Yan's body! It was her real purpose!

She had been patient enough. She had watched Brian take action, suppress Mei Ji, and direct Telika to attack others, which had lured Audrey away from Shi Yan's body. Finally, she earned the chance to create a rapid water saber that was aimed to kill Shi Yan in one moment.

Mei Ji screamed even though she was vomiting blood. Audrey's face paled. She also started bleeding. She was scared out of her wits when this happened all of a sudden.

Only Ming Hao didn't look at this area. He was still entangled with Gan Fu. He had even let his souls melt to drain Gan Fu's life blood.

At this moment, Shi Yan had put his life in the others' protection. He had urged the Life power Upanishad one more time. The life ball glowed with a mesmerizing halo and continuously released the immense life energy to attract the Absolute Beginning Original Symbol.

The Absolute Beginning Original Symbol that had paused now resumed. Moreover, its speed got faster so that it wasn't even going to take even fifteen minutes.

Of course, if the body was destroyed, the soul was going to hurt badly. Even if he had the Absolute Beginning Original Symbol and his soul altar couldn't return to the body shortly, the others could still strike him to death.

"Don't blame me. Blame yourself for having so many marvelous powers. You don't want to join our Mysterious Sky Clan. Blame the Power Upanishad Symbol Tower. It's too important. It's more important than a future Territory Ancestor Realm expert. Thus, I have to kill you. I can't give you more room and time to grow..."

Ling Mei was discreetly regretful, but her murderous intent wasn't shaken. The water saber didn't halt.

"That little girl is resolutely evil. However, she's a little unskilled. If we let you get what you want, those who have lived dozens of thousands of years like us have lived our lives for nothing?" Right before Ling Mei slashed her saber, the God Lord's cold voice suddenly arose. It was strange because the God Lord was fighting against Batum up there in the sky above their heads. "I'm sorry. Your tricks are old. We are sick of using them ten thousand years ago."

The God Lord tightened his fist. It was like he had pulled all the lights of the immensely vast star into his punch and his punch now contained energy that accumulated from many suns, grumblingly blowing towards the water saber.

Ling Mei unconsciously lifted her head to look at the sky. She was dumbstruck when she found the God Lord still fighting with Batum up there. Shortly after, the God Lord turned into one of Ming Hao's clones.

She was chilled as she recognized that the God Lord had never left. It was a trap set for her. The conversation between the God Lord and Ming Hao was just a trick to fool people that used Ming Hao's clones.

Chapter 1432: Collect!

Ling Mei understood it now.

However, it was too bad as it was too late!

Boom!

Billions of light beams bloomed like the most beautiful firework performance in front of Ling Mei's eyes. A rainbow band shot over like a sharp ribbon, but it was actually a life-taking lance that stabbed the rapid water saber.

The water saber vanished immediately!

Ling Mei was hit hard. She was held still before the dazzling light covered her entirely.

"Madam!"

"Madam!"

"Madam Ling Mei!"

The black-armored guards of the Mysterious Sky Clan shrieked. They quit attacking Audrey, turning around and plunging.

But it was too late.

"It will be much better if you know your lot, right? For my whole life, I hated women who were too smart. I loathe the women who always want to stir up a storm, especially the beautiful ones," said the God Lord.

The five bright stars twirled in the sky full of light. They were like lightning striking the souls that lingered in the mundane world. All pounded on Ling Mei.

Ling Mei's body had so many cracks and cut, making her bleed. Most of her wounds were terrifyingly deep to the bones.

Thud!

Her body fell on the ground and rolled to the rock pile. Her blood dyed the rocks while her bright, witty eyes dimmed out.

Swoosh! Swoosh! Swoosh!

The black-armored guards of the Mysterious Sky Clan landed by her, protecting her in case the God Lord wanted to attack more furiously.

The God Lord didn't chase after her.

He clasped his hand behind his back and wore a haughty, cold face. "If Shi Yan wants to kill you, he will kill you. I won't do his chores for him. If I kill you for him, he won't appreciate me. Well, I'm his enemy, anyway." He lifted his head to look at Batum, sneering and yelling. "Get down here!"

The five jets of light shot from his fingertips, crossing the sky and covering Batum.

The God Lord pulled. Batum was shaken immediately. His blasting storm tore and exploded. Batum's round body fell as he couldn't endure that.

The Mysterious Sky Clan guards waited and protected Ling Mei. They didn't dare to move and attack the God Lord.

Mei Ji wasn't far from them, her charming face as pale as white paper. She stopped bleeding and still had some energy. However, her internal wounds were serious. The reluctant feeling she had when her life was draining away scared her and made her restless.

Audrey relaxed when she saw the God Lord take action. He had attacked Ling Mei. Standing by Shi Yan, he pulled Batum down. Audrey knew that this battle would soon come to an end.

"I won't let you get it! You damn pagans!" Gan Fu of the Devouring Clan was aging fast, her vitality draining rapidly. The blood pond underneath bubbled and sizzled. Her aura surged grumbly like a burning flame.

Each clone of Ming Hao paled in fright. Seeing Gan Fu want to destroy everybody all together, Ming Hao hesitated for a few seconds. Then, he gathered all of his clones.

Ming Hao now had only one clone. He rose his hand and touched the void. A small world emerged that turned complicated. He stopped Telika, Farlow, and Yerbugh in that world and prevented them from making other moves.

He backed off and said, "I don't want to die with you. If you want, you can die alone."

"You're scared! I know you're scared!"

Gan Fu screamed crazily and glided through Ming Hao to reach Shi Yan.

“Uncle!” Audrey screamed hoarsely.

Ming Hao was indifferent as if he didn’t hear her calling. He didn’t help Shi Yan stop Gan Fu’s last attack.

The God Lord looked at the sky and slashed. The world of Light bloomed. Batum bounced upside down like a rubber ball. He sneered and didn’t think much about Gan Fu’s strike.

Gan Fu brought her Life Blood that had boosted her Corrosion power Upanishad and aimed at Shi Yan’s two souls.

Ming Hao and the God Lord just watched. They didn’t interfere and they looked somehow joking.

Ling Mei recovered slightly. Because Gan Fu had escaped the siege, she had risen the others’ spirits. However, seeing Ming Hao’s and the God Lord’s faces, she felt so chilled. She knew that it wouldn’t be nice at the end.

The Absolute Beginning symbols on the Power Upanishad Symbol Tower had reached the last level. So many symbols were now congregating at the last symbol. After that, the Absolute Beginning Original Symbol was going to form.

Gan Fu used her Corrosion power Upanishad to try to destroy everything with her. The God Lord had stepped aside and Ming Hao had backed off. Eventually, she reached Shi Yan’s soul altar and tried to attack his two souls.

Shi Yan’s host soul gave a cunning, strange face as it didn’t duck. The jet black hole like a bottomless abyss flew out of the tier of power Upanishads and headed to Gan Fu.

The poisonous green water was made of her Life Blood and the erosive energy poured into the black hole. Shi Yan’s souls were intact. The black hole was revolving like a greedy mouth that would never be satisfied.

Gan Fu was stunned. Seconds later, her shriveled body cracked like a dry log of wood. Her body made “crack” noises and shattered.

Her soul altar shook. As her host soul could feel the desperate fear, she wanted to run away as fast as possible.

The hovering black hole sucked her soul altar while pieces of her shattering body fell like chips of wood.

There was no blood left.

“It seems that the fellows of the Devouring Clan don’t know the real power of the Devouring power Upanishad. They don’t know that the Devouring power Upanishad is the nemesis of the eight great, evil power Upanishads. It looks like they don’t know a thing about this power. It seems like they’ve lost it for a really long time.” Ming Hao looked dark and harsh as he ridiculed them. “Well, she thought she was great with her Corrosion power Upanishad. She didn’t know that the rising tide attacks of the eight power Upanishads could be easily dissolved. It’s a waste that she will be killed at the Peak of Immortal Realm.”

The God Lord continued, "Clearly, the warriors from the Sea Domain of Nihilism don't have a profound knowledge of the Devouring power Upanishad. The warriors with the eight great, evil power Upanishads dare to die together with the warrior who has the Devouring power Upanishad. They're ignorant, anyway."

In fact, those warriors of the Devouring Clan didn't understand the full extent of the Devouring power Upanishad.

It was because they had lost the said power for a long time. It had been so long that they had forgotten that the Devouring power Upanishad was the root of the Devouring Clan. It was the most powerful power Upanishad that only the Chief of the clan could cultivate.

Today, Gan Fu's death was going to remind the Devouring Clan and the creatures in the Sea Domain of Nihilism that the Devouring power Upanishad was the true nemesis of the eight evil power Upanishads!

Gan Fu was dead. Her soul was swallowed. Batum collapsed. The God Lord and Ming Hao's deeds had shut him down.

"I give up," Batum shouted and backed off, trying his best to run away.

The God Lord didn't want to look at him. He just let the ugly old man run away, his eyes filled with disgust.

Ming Hao didn't stop him, either. While his mind flickered, his power Upanishad changed. His soul body now had countless fine space slits.

Telika, Yerburch, and Farlow looked at those fine cracks and felt insecure.

Then, their bodies had so many cracks. Their blood splashed and their bones broke!

"Space power Upanishad!"

"An expert cultivating Space power Upanishad at Third Sky of Immortal Realm!"

"Who is this monster?"

Telika, Yerburch, and Farlow screamed. They didn't dare to linger and ran away as Batum had just done.

The Black Guards of the Mysterious Sky Clan were awakened when they saw Batum run away. They supported Ling Mei and left instantly.

Both the God Lord and Ming Hao didn't stop them. They looked at those people running away, their faces calm and natural.

"Uncle, why didn't you stop them? Why did you let them escape?" asked Audrey.

Underneath, Mei Ji's breathing was weakening. She was leaning against a rock. Blood oozed from the corner of her mouth to her white neck. Her eyes gradually lost focus. She blankly looked at the sky.

"Escape?" Ming Hao shook his head. "They can't. Brian and I have been trapped here for dozens of years. We've tried all the methods, but we haven't gotten out of this place yet. How could they leave easily? It's easy to get in, but it's not simple to get out."

“Then why didn’t you kill them? You’re not afraid of them spreading information?” Audrey was surprised.

“No one could send messages out of here. Otherwise, when that kid sent a message, we would have taken action. This area is a blocked space. I’m at Third Sky of Immortal Realm cultivating Space power Upanishad but I couldn’t tear a small space slit. What can they do?” Ming Hao felt funny.

“So I just did something unnecessary?” snorted Audrey.

“No. Didn’t you seize the chance to assault the one who believes she’s infallible?” smiled Ming Hao.

Audrey pulled a long face.

“The little girl down there... how is she related to Shi Yan? Her condition isn’t right. Her vitality is draining. She came here with wounds. Then, she got hurt further. Her root is shaken. If we don’t do anything, it will be fatal,” Ming Hao observed Mei Ji and frowned.

“I don’t know their relationship,” Audrey shook her head.

“He’s almost done,” the God Lord intervened. He soared up into the sky, hovering by Ming Hao and Audrey.

He didn’t bat an eye at Mei Ji. In his mind, Mei Ji wasn’t important. Her life didn’t matter to him.

Ming Hao turned to Shi Yan with his bright and sharp eyes. He didn’t look at Mei Ji anymore.

Under Shi Yan’s Sea of Consciousness, all the Absolute Beginning symbols on the Power Upanishad Symbol Tower had merged into one Absolute Beginning Original Symbol. That Absolute Beginning Original Symbol had bright seven-colored halos. It was like the sun at dawn slowly rising to the top of the tower. Eventually, it merged into Shi Yan’s Life crystal ball.

Inside the life ball, the Absolute Beginning Original Symbol settled and released the enormous vitality.

At this moment, the life energy magnetic field on Shi Yan’s body was so abundant that Ming Hao and God Lord had to envy him. They were stunned too.

After the Absolute Beginning Original Symbol had left the Power Upanishad Symbol Tower, the imposing, mountain-like tower began to shrink.

The God Lord’s eyes rolled as he spoke all of a sudden, “Your Bloodthirsty Force got the benefit from the Absolute Beginning Original Symbol. I will take the Power Upanishad Symbol Tower.”

“You had conserved your power and let me fight against two experts at my realm. You planned to vie for the Power Upanishad Symbol Tower, didn’t you?” Ming Hao talked coldly.

“Ming Hao, you want to take them all?” Brian grimaced.

While they were quarreling, Shi Yan’s soul altar suddenly shrank and returned to his body like a projection. Then, Shi Yan opened his eyes and raised his hand.

The shrinking Power Upanishad Symbol Tower fell into his hand and disappeared instantly.

Chapter 1433: Surging Vitality!

Shi Yan had seen the battles clearly. Ling Mei suddenly aimed at him. Telika struck a fatal attack. Mei Ji acted strangely...

Opening his eyes, Shi Yan looked a little puzzled. He had stashed the Power Upanishad Symbol Tower in his Incipient Extent and frowned.

The Absolute Beginning Original Symbol had fused with his power Upanishad and it had imparted him an enormous amount of information. At this moment, it was like billions of electric currents moving back and forth in his brains. The Absolute Beginning Original Symbol had triggered them and weaved through his veins, bones, blood, flesh, and even his soul!

He used his Soul Consciousness to check. He found so many Absolute Beginning symbols flying out of the Life crystal ball like fireflies, entering his body, meridians, internal organs, and brain. The fierce vitality surged in his body and made him a sea of Life!

The black hole on the tier of power Upanishad still moved. It was digesting Gan Fu's energy!

Gan Fu's corrosive energy, life energy, and soul altar sunk into the black hole, getting filtered and refined. At the same time, there were so many pictures that arose in Shi Yan's mind. They were Gan Fu's experiences, her memories from birth and her cultivating progress.

The Devouring power Upanishad had unexpectedly extracted her memories while digesting her energy!

Of course, Shi Yan wasn't interested in Gan Fu's life experiences. He focused on the life ball where the Absolute Beginning Original Symbol was throbbing like a massive heart and releasing surging vitality. Then, he checked more carefully. His soul was shaken hard!

An ultimate supernatural ability like a streak of Life materialized and became part of his power Upanishad. It was called: Surging Vitality!

Emerging together with the Surging Vitality was a warm air current. That warm air current came from the Power Upanishad Symbol Tower inside his Incipient Extent.

At this moment, in Shi Yan's brilliant galaxy-like Incipient Extent, the Power Upanishad Symbol Tower was standing on a barren star. The warm air current shot out from the top of the tower and ran directly to Shi Yan's brain.

To be exact, it went to Shi Yan's co-soul.

A slurred memory that had been dusted for billions of years had become disordered sections of mysterious symbols. Shi Yan knew what they were. However, no matter how hard he tried, he couldn't understand them.

However, there was a vague connection between him and the Power Upanishad Symbol Tower.

The Power Upanishad Symbol Tower had connected to his soul and sent surging memories to a deep place in his soul.

His co-soul had merged with Desolate's soul. It had a deep connection with the Power Upanishad Symbol Tower. Those blurry memories seemed to wait for him to activate the Absolute Beginning creature's soul, which was the complete fusion of the heaven flames. That's how he could unlock those wisps of memory.

"You want to take the Power Upanishad Symbol Tower too? Your greed is bottomless!" the God Lord's voice arose, his face twisted in anger. "Kid, you want to take all the benefits?"

Ming Hao knitted his brows.

He was also interested in the Power Upanishad Symbol Tower. He had been ready to combat with the God Lord to vie for it. He didn't expect that Shi Yan would take the tower into his Incipient Extent immediately as he woke up. It gave Ming Hao a knot in his mind.

"It's no use if you take the Power Upanishad Symbol Tower. I can use it to break this area. The Power Upanishad Symbol Tower is the key to unlock this place. Because I have the Absolute Beginning Original Symbol, only I can control it," said Shi Yan casually.

"Nonsense!" the God Lord snorted and didn't buy it.

Ming Hao also frowned, his countenances changing continuously.

Shi Yan looked at the God Lord and then at Ming Hao with a grin. "It's alright if you don't believe it. Let's try. It's simple. I'll give you the Power Upanishad Symbol Tower and you guys can see if you can explore it to get us out of here or not."

Then, his eyes changed. The Power Upanishad Symbol Tower flew out of his head and floated in front of Ming Hao and the God Lord.

Shi Yan was calm, but he was laughing inwardly. At this moment, the Power Upanishad Symbol Tower and his co-soul were connected. No matter how hard the God Lord and Ming Hao tried, they couldn't find anything from the tower.

He didn't mind that the God Lord and Ming Hao were using their technique and the Soul Consciousness to connect to the Power Upanishad Symbol Tower. He swayed and landed by Mei Ji.

At this moment, Mei Ji's face was ashen, her graceful body gory. Her stomach was bleeding terribly. She lay on her side by a rock. Her eyes didn't have focus as her vitality was draining.

Usually, when the body was hurt severely, the vitality slowly ran out. Once her vitality was gone, her body wasn't going to have a bit of energy left for her to function.

Taking the parents of the little skeleton for example. Because their vitality was drained, their bone bodies didn't have even a beam of light. If the White Bone Clan hadn't cultivated the bone body, they would have decayed. When someone touched them, they would have turned into dust.

If he let Mei Ji's vitality go away, her God power was going to vanish altogether. When she died, it was going to drag her life magnetic field together. The so-called life magnetic field was actually the soul magnetic field and the fountain of the host soul. When the life magnetic field was gone, it was death. Warriors never came back to life from that state.

It would be the same to Shi Yan. When his vitality was drained, he would be dead, completely dead.

“Why?” Shi Yan pondered for a few seconds. He asked in a soft voice, his mind complicated.

He didn’t consider Mei Ji a friend who he could trust. There was some knot between them. They had fought furiously and he used to insult her really badly. He thought that Mei Ji must have loathed him.

When Telika had attacked him and Ling Mei ambushed him, he thought that Mei Ji would stand on Ling Mei’s side. He wouldn’t be surprised if it happened.

Anyway, the Power Upanishad Symbol Tower was so important to her Phantom Clan. It was a temptation that she couldn’t resist. For the tower, Ling Mei had ignored Tu Shi Qi’s reminder to resolutely kill him. How could Mei Ji be an exception?

He had never imagined that Mei Ji would help him.

“Don’t ask me. I don’t know why, either. I just thought that, even if you have to be killed, I should be the one to kill you! I won’t let the others kill you! Especially Ling Mei!” Mei Ji said weakly but she still sounded resolute. There was a flame of anger in her voice and Shi Yan didn’t know who had enraged her.

“Good, I’ll wait for you to kill me,” said Shi Yan after a while.

So many Absolute Beginning symbols were like joyful creatures moving out of his hands and entering Mei Ji’s soft body magically. Those Absolute Beginning symbols rolled and pumped thick vitality to nurture Mei Ji and raise her vitality.

It was a supernatural ability that the Absolute Beginning Original Symbol had imprinted in his soul: Surging Vitality!

Magically, Mei Ji’s skin glowed in health. Her pale face regained colors. The wounds in her body healed rapidly. A warm vitality shrouded her and healed all her wounds. Every muscle of hers was filled with energy, which shook her soul magnetic field continuously.

Strange light ripples from her bright eyes on her glowing face, her full lips moisturized. She had regained her peerless glamor.

Shortly after, Mei Ji stood upright as she was sinking in a warm sea of life. It felt so comfortable, her furrowed brows relaxed.

At this moment, Shi Yan retracted his hand. The Absolute Beginning symbols in Mei Ji’s body returned to his palm. Those swimming symbols then returned to the Absolute Beginning Original Symbol inside the Life ball.

“I won’t be thankful. All of the wounds I got are because of you!” Mei Ji’s eyes were complicated as she snorted.

Shi Yan beamed brightly. “I don’t need you to be thankful. I hope you continue to hate me. I like women who hate me!”

“Psychopath!” Mei Ji hissed.

“Can’t contact it!”

“That kid must have done something!”

Suddenly, the God Lord and Ming Hao dispiritedly screamed. They all looked begrudging when they decided to give up their attempt on connecting to the Power Upanishad Symbol Tower.

So many symbols and light energy outside the Power Upanishad Symbol Tower were retrieved. They fell like starlight on the God Lord and Ming Hao. They had tried many secret techniques they knew to try to find the key to connect to the tower.

Eventually, they were disappointed.

The Power Upanishad Symbol Tower was like a dead city. It didn’t respond at all. They couldn’t bring it to their hands or to the Fantasy Sky Ring.

Of course, they deemed that Shi Yan had done something cunning.

It was true, anyway.

“I told you,” Shi Yan smiled, waving his hand. The flurry in his co-soul rippled like the sea water. It connected to the Power Upanishad Symbol Tower immediately.

The Power Upanishad Symbol Tower that the God Lord and Ming Hao couldn’t take was now dropping like a hat falling on Shi Yan’s head. It disappeared into his nape.

“Deal with that barrier. Hurry up! We have to escape here as soon as possible. We’ve been trapped for a long time. I’m worried about the Desolate Territory,” said Ming Hao.

“Ah, we don’t need to hurry. When we open the restriction, some fish will seize the chance to run away,” sneered Shi Yan.

He turned to the direction where Batum and the others had left, stroking the corner of his mouth, his voice low. “I’m like you guys. We don’t know how precious the Power Upanishad Symbol Tower is, but the members of the Seven Great Clans in this Sea Domain of Nihilism know. If they know we have the Power Upanishad Symbol Tower, it will be a lot of trouble.”

He didn’t say much.

The God Lord and Ming Hao understood his idea, but it didn’t mean they approved it. The God Lord snorted, “What if they know? You keep the Power Upanishad Symbol Tower, not us. If they want, they will trouble you, won’t they? Moreover, when you open this area, we will return to Desolate Territory at our fastest speed. What can they do to us?”

“The members of those Seven Great Clans have been searching for our Desolate Territory for a long time.” Ming Hong lying on Audrey’s shoulder intervened. “There is something you don’t know. They are so greedy for a wounded Absolute Beginning creature. Shi Yan’s correct. If they escape alive, for the Power Upanishad Symbol Tower, their seniors won’t hesitate to pay any price to get it. They will chase after us! We will be killed before we can reach the territory entrance!”

“What do you mean?” frowned the God Lord.

“Leave no one alive,” Shi Yan said seriously.

“How about her?” the God Lord gave a faint smile, looking at Mei Ji with the awkward countenance. “She’s not from our Desolate Territory. Are you going to kill her too? Do you need a hand?”

Mei Ji felt shivers send down her spine.

“She’s my woman. Of course, we won’t count her. I will manage my internal matters well. You don’t need to care about it,” Shi Yan said naturally.

Mei Ji’s charming face was blushing when she heard that. She looked a little loathing and uneasy.

Chapter 1434: Invincible Might from the Sky!

Boom! Boom!

The dark and grumbling thunder boomed on the light curtain and sparked brilliant lights everywhere.

The light curtain didn’t have a scratch.

Telika’s face was dark and sinister, talking. “What was that?”

On the other side, Batum was like a mad dog. His entire body was a straight sword thrusting into the light curtain above their heads. He had pounded on the curtain until his head bled.

Farlow, Yerburgh, and Ling Mei were hovering aside. The Black Guards of the Mysterious Sky Clan looked at the sky, their faces stern.

After they had left the area that had the Power Upanishad Symbol Tower, they understood each other well enough not to part. They gathered and tried to get out of this Absolute Beginning vestige to return to the Sea of Annihilation.

Ming Hao and the God Lord’s intimidation had scared them. When they saw Shi Yan’s power Upanishad devour Gan Fu, they finally collapsed.

They finally noticed that with their power, it was impossible to rob the Power Upanishad Symbol Tower. Ling Mei and Batum were resolute warriors. Seeing that they couldn’t change the situation, they immediately changed the plan.

They understood that as long as they got rid of this light barrier and reported to their seniors in the clans, those real experts would come immediately!

The Seven Great Clans knew about the legends of the Power Upanishad Symbol Tower. However, until now, no clan had ever had a complete tower.

To vie for the Power Upanishad Symbol Tower, those Territory Ancestor Realm experts weren’t going to hesitate to pay any price!

The Power Upanishad Symbol Tower could produce the Absolute Beginning Original Symbol that had the Ultimate power Upanishad, the supernatural power. From this aspect, the Power Upanishad Symbol Tower was even more precious than an Absolute Beginning divine weapon!

“As long as we escape this area and release the news, none of them can run away,” said Ling Mei.

The others nodded in agreement.

Batum’s God power surged. His body turned slightly transparent. He moved forward, his two hands creating a great storm, hitting the light curtain.

The curtain light was still closed.

Ling Mei and Farlow became serious. “It’s not good if we continue that way. If we consume more energy, once they chase us here, it’ll be a lot of trouble,” said Ling Mei.

“Do you have any suggestion?” Farlow knitted her brows.

“Although we’ve assigned Batum to break the light curtain, we can’t stay idle. I’m sure they will come after us,” Ling Mei wore a cold face. “I’m sure we will have a bloody battle soon. We should prepare from now on. Yeah, from this area, we’re going to set up as many barriers, formations, and restrictions as we can...”

Taking a deep breath, she continued, “If we can’t avoid it, we must risk our life once. If we’re well prepared, we can take the upper hand first!”

Farlow nodded. “True, I support your idea. We should carry it out immediately!”

Batum, you try to deal with that light barrier. We’re going to implement our plan now.” Ling Mei lifted her head to notice Batum and then shouted, commanding her Black Guards, Telika, Yerburgh, and Farlow. From where they were staying as the center, they set up and expanded many barriers.

Halos, lightning walls, and lakes appeared in the massive ruins. Ling Mei, Farlow, and the others moved around, urging their powers and using so many secret treasures to set up traps.

“Over there!” In the middle of the ruins, Ming Hao rose one hand and pointed in one direction. He said darkly, “They’re setting up defensive barriers and restrictions. It seems like they want to fight against us with their lives.”

“Yeah, I think they’ve recognized that they can’t get out and they can’t avoid this bloody battle. That’s why they decided to use all that they have to see if they can kill us.” The God Lord looked indifferent, his face mocking. “They aren’t wrong and their deeds aren’t ordinary. Unfortunately, they’re too naive.”

Ming Hao and the God Lord had swaggered in this world for dozens of thousands of years. The blood that their hands bled was even more than the amount of water in the sea. They were real, great demons with absolute confidence and pride. For example, when the God Lord was at Third Sky of Immortal Realm, he had fought against Bloodthirsty at the Territory Ancestor Realm. Although Bloodthirsty had already been hurt before, his victory was still enough to prove his intimidation.

Dozens of thousands of years ago, Ming Hao, the Chief of Soul Control Force, had already had tens of thousands of clones. He had subdued and controlled the leaders of many star areas. He had single-handedly grown the Soul Control Force vigorously to resist the God Clan. Also, the God Clan had spent ten thousand years and couldn’t touch his shadow. This expert was truly sharp-witted and cunning.

Audrey floated on the massive brutal soul lotus throne. Her eyes were clear but cold. She curled the corners of her mouth as if she was angry.

While her bright eyes moved around, she often checked Shi Yan and Mei Ji. She looked more intense as her discontent was swelling in her heart.

Shi Yan and Mei Ji moved shoulder by shoulder. They were whispering as if they were talking about some deal or agreement.

“With your individual power, even if you have the Power Upanishad Symbol Tower, it’s hard to create another Absolute Beginning Original Symbol. You can’t find that enormous amount of materials,” Mei Ji wore a smile on her face. She had regained her gorgeousness. “To refine an Absolute Beginning Original Symbol, it could require the experts that top one territory. The sources you have can’t do that. But our Phantom Clan can. What do you think?”

Mei Ji felt sincerely joyful.

She knew how precious the Power Upanishad Symbol Tower was. If Shi Yan cooperated with the Phantom Clan and let the clan supply the materials to refine the Absolute Beginning Original Symbol, the Phantom Clan could earn something.

As Shi Yan had come from Desolate Territory, he couldn’t use billions of creatures dwelling in Desolate Territory to refine the Absolute Beginning Original Symbol. He had to depend on the big clans like one of the Seven Great Clans to do that.

Today, because Ling Mei had turned her back to him, no matter what Tu Shi Qi and Ya Yun had promised him, he couldn’t cooperate with the Mysterious Sky Clan anymore. Besides, Shi Yan had offended the Black Demon Clan, the Ancient Monster Clan, the Soul Clan, and the Devouring Clan, leaving him with only the Phantom Clan and the White Bone Clan to choose.

Mei Ji had calculated detailedly. She couldn’t hide her bright face. She believed that if her seniors knew that she could bring Shi Yan to the Phantom Clan with a complete Power Upanishad Symbol Tower, they would kick Batum away!

Compared to the Power Upanishad Symbol Tower, Batum’s value was worthless. Especially in this case, Shi Yan also knew Dark Energy, which gave him a certain chance to reach the Territory Ancestor Realm...

The feeling of having a fortune fall from the sky comforted Mei Ji and made her happy. She couldn’t help but smile.

But what if they want me to be his woman to strengthen the bond? What should I do then? For the sake of the Phantom Clan, I should do that, right?

Right, for the clan. Not that I like him. Yeah, that’s true!

Mei Ji thought and suddenly felt light. She unconsciously glanced at Shi Yan and blushed. Her watery eyes were like rivers in springtime.

“Lewd!” Not far from them, Audrey observed with a cold face. Looking at Mei Ji’s mature, inviting appearance, she couldn’t help but rebuke her and pout her lips.

“Oh well, what does it have to do with you? I’m talking about something romantic and intimate with my man. What are you jealous of?” Mei Ji was content to see Audrey’s cold face. She turned around to mock Audrey.

Shi Yan had played a little bit with her name and said that she was his woman. It wasn’t something to make a fuss if she used his name to play too.

Mei Ji didn’t realize that she was discreetly satisfied when she said so.

Audrey snorted, her face cold.

Shi Yan was surprised. He couldn’t believe that the two women have chosen this time to quarrel.

Raking around, he had a good sense so he accelerated and turned into a flaming jet, heading forward.

Ming Hao halted.

The area of ruins in front of them had massive rocks floating in the air like raindrops.

Ling Mei stood right behind the rock rain curtain and faced them with strangely calm countenances.

Batum had stopped hitting the light curtain. Unexpectedly, he walked forward and said, “It was really easy when we got down here. Especially for me, I didn’t encounter any obstacle. But now, when we want to leave, we found layers of difficulties. I’ve tried every trick I know to break the light curtain up there.”

Pausing for a while, he said, “We shouldn’t fight this time. I suggest you guys spend more effort on breaking the light curtain. After that, we can fight to see who can stand until the last moment.

He had tried everything he knew. If he had successfully pierced through the light curtain, he wouldn’t have saved energy for a deadly battle.

Ling Mei looked calm, but she was actually worried. “Mei Ji, Shi Yan, it’s no use to fight here. If we can’t break it, no one can get out. Why should we kill each other?”

“It doesn’t mean we can’t break it when you couldn’t. Ling Mei, you’ve teased me. You said that the Phantom women couldn’t compare to you. Well, I want to see now if you’re really stronger than me. I was hurt and you were at your best condition at that time. Now, you got hurt too. Finally, we can have a fair game,” Mei Ji’s smile bloomed like a flower. She looked extremely comfortable.

“You damn slut! What do you think you will get if you help them?” Batum grinned fiendishly. “Once I break through to the Territory Ancestor Realm, the Phantom Clan will bring you to my door. Well, let’s see how I will play with you then!”

“Well, I’m afraid you don’t have that chance,” intervened Shi Yan.

“Because of you only?” Batum sneered.

When Mei Ji said that they could break the light curtain, Batum knew that his suggestions couldn’t work. He couldn’t move his enemies verbally.

He finally understood that the coming battle was inevitable. Almost instantly, he had made a heartless decision. He threw all the things that made him hesitant behind his head. He was ready to die in this battle.

Even if you want to get through our arrangement, you have to pay a bloody price!" Ling Mei gritted her teeth and said with a cold face, "Mei Ji, come fight me!"

"What price will we possibly have to pay?" Shi Yan felt funny.

His eyes flashed strangely. The Power Upanishad Symbol Tower emerged from his head. In just a blink of an eye, it had ballooned and become as imposing as a grand mountain.

He didn't know the secrets of the Power Upanishad Symbol Tower and the light curtain, but he knew that they had a close relationship. He knew one thing: Under this light curtain, the Power Upanishad Symbol Tower were never damaged by barriers, restrictions or formations!

Indeed, when the Power Upanishad Symbol Tower slowly landed, it hit a lightning circle first. When the first thunder sounded, the light curtain above their heads radiated a blinding light!

The intense light shot out from the sky, shining on that area with barriers and restrictions. When the Power Upanishad Symbol Tower landed, thunder boomed in that area, followed by earth-shaking explosions.

All the defenses Ling Mei and the others had set up were destroyed!

Chapter 1435: Enjoy a Carefree Meal!

The Power Upanishad Symbol Tower spun and released a dazzling, rainbow-like light. It looked like an eternal sun.

Light columns that were hundreds of meters long shone directly on the Power Upanishad Symbol Tower. The tower was now bigger and more intimidating. It was more colossal than a mountain. Standing next to it, Shi Yan, Ming Hao and the others were like small butterflies or gray light dots.

The Power Upanishad Symbol Tower slowly descended and brought pressure that could even destroy the entire world. So many lights shot rapidly like meteors.

All the restrictions, barriers, and formations bloomed magnificently like fireworks. Their debut was so marvelous, but their ends came close after.

"How could it be?!"

Ling Mei groaned in agony. Her face twisted as she felt her energy all get drained. She was deeply frightened.

Batum was bewildered. Seeing the Power Upanishad Symbol Tower slowly pressing, he changed his face and screamed, "Retreat!"

Instantly, everybody urged their power and fled as fast as possible. They were afraid that the Power Upanishad Symbol Tower would smash them.

BOOM!

The Power Upanishad Symbol Tower sat like a mountain and mashed all ruins of palaces and towers. Eventually, it stood majestically on the ground.

Shi Yan was bewildered. He couldn't help but scream. "Awesome!"

Ming Hao and the God Lord looked surprised. They felt awkward when the Power Upanishad Symbol Tower landed.

It seemed like the Power Upanishad Symbol Tower could draw the power from the light curtain. The moment it landed, a power that could destroy the world appeared and made Ming Hao and the God Lord feel small.

They exchanged looks and they saw fear in each other's eyes. They understood that if they hadn't ducked and stayed right under the tower, they wouldn't have escaped death when it pressed down.

That power was even scarier than the Heaven Might!

"How could you do that?" Mei Ji's beautiful eyes rippled beautiful light. She smiled as if she was enjoying the New Year's celebration. "It's so interesting to see Ling Mei like a stray, gray dog."

Ling Mei ran away from under the Power Upanishad Symbol Tower. She had dust all over her body and even in her hair. She looked indeed helter-skelter. The Black Guards of the Mysterious Sky Clan were aghast. They looked at the tower and shivered.

Telika and Yerburch had gloomy eyes. They looked terror-struck.

"It seems like your defense is useless. Haha, I thought you were tough enough, weren't you?" Mei Ji giggled and moved like a graceful snake woman. Her hips swayed on her way toward Ling Mei. "Come and have a decent fight. Let's see if you can defeat me."

Mei Ji looked cold instantly, ice spreading in her eyes.

Crack! Crack! Crack!

Under her feet, the rocks were frozen and shattered. Pieces of ice shot everywhere. Her long hair flew in the wind like icy, silver needles, which made her wilder and colder. Instantly, hundreds of thousands of tiny ice needles shot out from her body.

Unexpectedly, she was the first one to take action.

"I have to go home, really. I don't want to waste more time." The God Lord strode and light congregated above his head, creating a dazzling world of colorful light.

A light ball that looked like a whole planet made of gold flew out of his Incipient Extent. The light ball spun, crushing space and falling on Telika, Yerburch, and Farlow. The massive gold lances were like hedgehog spikes that shot toward them.

Telika, Yerburch, and Farlow, the three outstanding warriors of the Seven Great Clans, looked like they were made of gold under that gold light. The gold light on their bodies was blazing to the others.

Puffft!

Telika spurted blood. Countless gold, gory holes appeared on his body as he began to bleed terribly.

Yarburgh and Farlow weren't better. They were also bleeding when the gold lights hit them. They were taken down.

"Soul Devouring!"

Shi Yan glided past the Power Upanishad Symbol Tower. While moving, he whispered something. The black hole flew out of his glabella. Just like a massive mouth, it opened and snatched Yarburgh, Farlow, and Telika. It was ready to swallow their soul altars when they got out of their bodies.

Seeing the black hole coming, Yarburgh and the other two were desperate. They knew that they couldn't even escape using the soul.

"You can't flee," the God Lord strolled to them, light radiating from him. Beams of holy, pure light cut and gashed their bodies like sharp blades. They were minced into pieces of flesh.

Farlow was also at Third Sky of Immortal Realm. However, she didn't have a bit of energy to resist the God Lord.

As their bodies were destroyed, their soul altars had to leave quickly. They tried their best to run.

There came a terrifying suction force from the black hole that was aimed at their soul altars. Invisible ropes tied them down. No matter how hard they wiggled, they couldn't escape. One after another, they were sucked into the black hole.

After the three soul altars were dragged into the black hole, Shi Yan's soul felt like he was having a great feast. Both of the souls were extremely satisfied.

"You guys should go with them too."

The God Lord sounded calm. His shadow swiftly moved and reappeared by the members of the Mysterious Sky Clan behind Ling Mei. A new world of magnificent light arose and turned into a massive hand of a Light God that grabbed the Black Guards. They were squeezed to death.

Shi Yan's black hole came after and swallowed the soul altars of those Black Guards. He felt happier, indeed.

At that moment, his body moved agilely like a merman to help the Devouring power Upanishad collect the Essence Qi from the others' bodies. His acupuncture points started to get busy.

In just a short time, the God Lord solved Telika, the Black Guards of the Mysterious Sky Clan, and the others single-handedly. Still wearing an indifferent face, he shook his head and said regretfully, "They're weaker than Xuan He and Frederick."

As they were at Third Sky of Immortal Realm, Farlow was one level higher than Xuan He and Frederick. However, their real competence was much weaker.

Of course, it was because the God Lord had recovered his consumed energy after resting for a long time. As the bold one who dared to stand against Bloodthirsty, of course, he had his own intimidating aura.

“If you want to kill me, you have to pay a painful price. Do you not believe it?” Batum’s round body floated in the void.

So many tornadoes followed each other, hovering like giant gray dragons by him. Those tornadoes touched both the sky and the ground, swaying and rolling. They were like gray smoke and mist that burst to the sky or the tongue of some fearful demons.

A strange energy fluctuated from the center of those tornadoes, which made Ming Hao frown.

Shi Yan focused on sensing and then spoke, “It’s Dark Energy! Those tornadoes have bits of Dark Energy in the center. He has not reached the Territory Ancestor Realm yet so he can only use the energy that way. Even if he doesn’t understand the Dark Energy thoroughly, it’s still very powerful.”

Pausing, Shi Yan reminded, “He wants to risk his life!”

Ming Hao pouted his lips and said coldly, “He’s way behind our Master from that year. Yeah, he’s millions of miles behind. He’s just an amateur with a shallow understanding of Dark Energy and he thinks he can overturn this situation.”

Then, beams of light radiated from Ming Hao’s body. Instantly, so many big mirrors were conjured in the void. They were like hanging mountains, indeed. When Ming Hao’s light shone on them, they reflected so many different worlds and illusions.

With countless soul clones, the mirrors had reflected Ming Hao’s figure everywhere. There were more than tens of thousands of him now.

Ming Hao’s reflections had filled the entire sky, creating a sea of people and blocking Batum in the middle. It was like an army of tens of thousands of soldiers attacking only Batum. Batum couldn’t tell which was his real body.

Shi Yan observed for a while and he eased his mind, continuing to concentrate on taking in the Essence Qi from the dead.

With the three supernatural abilities: Soul Control, Cloning, and Space, Ming Hao had become the greatest magician ever in this world. He could even trouble a Territory Ancestor Realm expert; a bungler like Batum was no match.

“Crucial Ice Explode!”

On the other side, Mei Ji wore an icy face, facing Ling Mei and striking crazily.

Ice exploded everywhere and sent ice sabers to Ling Mei.

Ling Mei was hiding in a water pond where water was surging and creating layers to defend against the ice explosions.

Mei Ji sneered and pressed forward. More ice exploded between her and Ling Mei. It looked like countless dynamites had been buried in the ice and went off at the same time, sending so many icicles that were dozens of meters long toward the water pond.

Ling Mei paled inside the water pond. The light in her eyes slowly dimmed out.

“Well, didn’t you brutally attack me?” Mei Ji jeered. “If I hadn’t been hurt and still had all my energy, how were you going to defeat me? At this moment, we aren’t very different and you’re only hiding from me.”

Ling Mei gritted her teeth and said nothing.

“Well, let me tell you something,” Mei Ji walked toward her, lowering her voice. “Do you know what is the worst thing you’ve done?”

Ling Mei was bewildered.

“You should have listened to Tu Shi Qi. You should have tried your best to create a good relationship with Shi Yan. Then, you could have gotten the Power Upanishad Symbol Tower. With only his individual competence, he couldn’t refine the Absolute Beginning Original Symbol. It’s obvious. Only those of the Seven Great Clans have the capacity to do that. Because you’re greedy, you have to bury your corpse here with nothing. It’s really ridiculous, you say. You think you’re smart. But it’s just you who thinks so. Thus, you’re not as strong as me. You will never defeat me! Regardless it is power, will, or judgment!” said Mei Ji arrogantly.

Pufft! Pufft! Pufft

Countless icicles shot over and destroyed the water layers, piercing Ling Mei.

Ling Mei shook hard, her waist bleeding. The light in her eyes dimmed.

Mei Ji wasn’t polite. She continued to attack more harshly with her Ice power Upanishad, hitting the water pond directly.

Shi Yan squinted and watched Ling Mei for a while. He knew she couldn’t escape death this time. Then, he turned to Batum. “God Lord, sir, if you want to go home early, put more effort. We should finish Batum soon. Don’t waste people’s time.”

The God Lord snorted. Pondering for a while, he jumped into the fantasy world that Ming Hao had created.

Shortly after, Shi Yan heard Batum’s screeching. It seemed like he wasn’t far from death.

[God of Slaughter](#)

Chapter 1436: A Strong Current

Inside the fantasy space mirrors, Batum's voice weakened. The God Lord and Ming Hao had joined hands to kill him. Batum couldn't get out with his body.

Indeed, when the scream from the mirrors ceased, Batum's soul altar flew out like a breeze of wind, trying to escape.

Shi Yan's black hole was hovering by the light curtain and waiting for him patiently. A soul-sucking force came. Batum's soul struggled hard but he couldn't escape. Following Yerbugh and the others, he was dragged into the black hole.

Almost at the same time, the water pond that Ling Mei's power had created froze as the icy energy intruded.

Inside the water pond, Ling Mei was a beautiful ice sculpture, locked in the pond. From a distance, it looked like she was sealed in a world of ice where only the beauty of the coldness was exposed.

Ling Mei's breathing slowly subsided. Her gloomy eyes looked at Shi Yan from a distance as she tried to shake her head.

Her eyes showed her deep regret. She regretted that she didn't listen to Tu Shi Qi's advice. She regretted that she didn't make a precise assumption. She had caused the deaths of her team and herself. She knew Tu Shi Qi was correct...

Unfortunately, it was too late to regret...

"I know you owe Tu Shi Qi a favor," Mei Ji resumed her graceful charm, her eyes bright. "So? Do you need me to show mercy and spare her life?"

Ling Mei was shaken. She looked yearning and begging when she eyed Shi Yan. Shi Yan shook his head and said with a cold face, "I'm not a good guy. If someone wants to kill me, no matter who she is or what title she bears, I will treat her the same way!" While talking, he finished swallowing Batum's soul altar. Then, he landed on the frozen water pond. His ten fingers interlaced and sent ten sharp blades that gashed the frozen pond.

Crack! Crack!

The space sabers cut the pond into numerous pieces. Of course, Ling Mei was frozen inside and couldn't escape. Her body was like a diamond under the cutter.

The black hole, an ability of Devouring power Upanishad came as a massive mouth. Without giving time for Ling Mei to resist, a soul-sucking force came and swallowed her within one attempt.

"You're truly evil and heartless. You can do such things to a beautiful flower? Ling Mei of the Mysterious Sky Clan was famous for her glamor. You killed her. Don't you feel regret?" Mei Ji smiled and teased Shi Yan, her eyes bright and excited.

"Beautiful women are everywhere. It's not rare. It doesn't matter how many of them die." Shi Yan frowned and lifted his head to watch the sky. "We need to break that light curtain to leave soon."

"Yeah, and you must hurry. Those dead warriors had high positions in their clans. Their souls should have some connection..." Ming Hong was lying on Audrey's shoulder and talking in a low voice. "You got this, don't you?" He turned to Mei Ji.

Mei Ji's smile ceased and she nodded, "Yerburgh and Ling Mei were important warriors in their clans. Usually, a wisp of their souls are connected to some treasures. When their souls died, those treasures react."

"You mean... the members of the seven clans already know that Yerburgh, Ling Mei, and Telika are murdered?" Shi Yan changed his visage slightly.

"Possibly," Mei Ji confirmed. "Anyway, we must kill them. If they sent information, the others will know what happened here. They would know about the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. They can even know the location."

Pausing for a while, she continued, "But now, they only know that Yerburch and Ling Mei were dead. They wouldn't know what had happened down here or the location. Once we leave this place, it will be really hard to find us in the Sea of Annihilation."

"She's right. We should hurry to leave before they get here. Otherwise, it will be very troublesome. They said that Tate's teacher is in the Sea of Annihilation too. If he knows... I think we won't be able to live. We should return to Desolate Territory as quickly as possible!" Ming Hong said sternly.

He had refined Singh's soul so he knew many secrets of the Soul Clan. He knew how terrifying that person was. It was easy to guess that Tate's death would enrage that person. Thus, he was a little scared.

"Tate's teacher?" the God Lord's bold voice arose. "Very powerful? Is he as strong as Bloodthirsty?"

"Neptune is one of the three great Territory Ancestors of the Soul Clan. Although he's at the First Sky of the realm, he has the Absolute Beginning divine weapon called the Soul Refining Cauldron. Neptune is really powerful in addition to having the cauldron. I don't know how strong Bloodthirsty became later but when I left, he wasn't stronger than Neptune," Ming Hong was cautious. "He hasn't finished making his Life treasure, the Soul Refining Cauldron, yet. He needs more strong souls. If the Soul Refining Cauldron becomes complete, I think he'll be more intimidating!"

"He's not as strong as my Master," said Ming Hao.

The God Lord agreed with him. "Bloodthirsty could defeat Devour, the ancestor of the Devouring Clan, and make it dormant. After that Bloodthirsty got hurt, he could still slaughter our union. I had to sacrifice my body and the leaders of the big forces everywhere to kill him. Neptune can't compare to Bloodthirsty in his best condition."

"I don't know who Bloodthirsty is, but I know Neptune's really formidable. If he can tame the Soul Refining Cauldron to reach Second Sky of Territory Ancestor Realm, he will become one of the ten great Territory Ancestors. When he comes here, none of us will be able to resist him. Batum and Gan Fu are just rookies compared to him," intervened Mei Ji.

"I think we can't fight against Neptune now," said Ming Hong.

Ming Hao and the God Lord sighed when the other two said so. The God Lord said, "Too bad that I haven't reached the Territory Ancestor Realm. Otherwise, I would never see that Neptune with my eyes."

"Break that light curtain, quickly!" hissed Ming Hao.

Shi Yan nodded. Then, without saying anything else, he plunged on the majestic Power Upanishad Symbol Tower. Lifting his head to observe the light curtain, he sank into his thoughts.

The co-soul in his brain had many Absolute Beginning symbols move disorderedly. He couldn't fuse completely with Desolate's soul, so he couldn't understand the meaning of the symbols. He focused, holding his breath and trying to see what mysteries they hid.

However, the black hole was revolving fast. The massive mouth sent out refined energy that stimulated his mind.

He knew that the black hole got a big harvest this time. Batum, Gan Fu, Yerburch, and the others had profound realms, and Batum and Gan Fu had Dark Energy.

The refining process was much slower than at other times and he expected some troubles too. Then, it happened. The refining process that happened inside the black hole had affected his mind and distracted him.

He didn't understand those symbols that would have allowed him to discover the secrets of the Power Upanishad Symbol Tower. He couldn't even focus. Gradually, Shi Yan felt so irritated.

As time flew, he still stood on the Power Upanishad Symbol Tower without moving or taking any action. Brian's face slowly darkened. "If he lied to us and he can't open the light curtain, I'll do my best to kill him to vent my wrath!"

Ming Hao's face was also dark and gloomy. He frowned and looked pensive.

Mei Ji and Audrey kept silent. They were frightened, indeed. They just hoped that Shi Yan could find a way to get them out of here.

Sea of Annihilation.

In the Soul Clan's base, the souls were like snakes slithering around the island and gathering departed souls and ghosts on the brocade flags, bringing them back to Neptune.

The Soul Refining Cauldron spun above Neptune's head and sucked all the brutal souls and ghosts. The Absolute Beginning symbols on the Soul Refining Cauldron began to sparkle and then move like tiny snakes.

Pufft!

Shortly after, on Neptune's thin and dry arm, a soul bead exploded. It turned into wisps of smoke, congregating and creating a blurry face. It was Tate, and it was dull and blank without living energy.

As he was refining the Soul Refining Cauldron, his eyes darkened when the soul bead shattered.

Each disciple of his had given him a Soul Seal that he kept in a soul bead. From that Soul Seal, he could sense his disciple's location or he could smash their souls easily.

It was a dark technique to control his disciples.

Of course, when his disciples died, he would know it first and he would even know the location of the incident.

Today, Tate's soul bead exploded. Neptune knew what happened.

His eyes rolled fast. Using the souls of three Incipient God Realm experts as sacrificial objects, he cast a supernatural technique to search. After a while, Neptune snorted. "Trash! He dared to deceive me and get into the sea to find the Absolute Beginning vestige. I have no pity for his death. I'd wasted my efforts to train him for thousands of years!"

He opened his mouth to cast a spell, which then fell into the Soul Refining Cauldron. Instantaneously, billions of souls swarmed into the cauldron.

Putting the cauldron into his sleeve, Neptune got up and vanished like a shadow.

On another island in the Sea of Annihilation.

Tu Shi Qi and his wife, Ya Yun, were drinking with Forefather Dragon Lizard on the island. They were discussing some important matters.

Ding! Ding! Ding!

The tinkling sounds of a bell arose from Ya Yun's sleeve. She was surprised to hear the small bell. Then, she used her soul to receive the message from the Mysterious Sky Clan's headquarters.

Ya Yun became so frightened. She jolted up and screamed, "The soul tree of that little girl Ling Mei withered! She'd perished utterly!"

"Before we came here, Ling Mei had taken the Black Guards to the sea to search for the Absolute Beginning vestige. She died there!" Tu Shi Qi changed his face. Taking a deep breath, he said, "Dragon Lizard brother, please go with us to the seabed. Ling Mei had... a special profile. She was Han Tian's granddaughter!"

Dragon Lizard also changed his countenance. He knew that the Sea of Annihilation wouldn't be calm anymore. "Okay, I'm going with you guys!"

Chapter 1437: Frantic Suppression!

Undersea Ruins.

Shi Yan sat neatly atop the Power Upanishad Symbol Tower, his face stern. He was trying to find a way to break the light curtain.

He didn't know that because of Yerburch, Telika, Farlow, Ling Mei, and Tate, the entire Sea of Annihilation was surging. The experts of the Soul Clan, Mysterious Sky Clan, Devouring Clan, Black Demon Clan, and Ancient Monster Clan in the Sea of Annihilation were using different channels to confirm why their juniors died.

The five clans announced that they were trying their best to find the murderers. They had urged their forces to search through the entire Sea of Annihilation, whether they were on the surface or on the seabed!

At this moment, the experts of the five clans had visited each island in the Sea of Annihilation. The Phantom Clan was also trying to search and call for Mei Ji to come back to the clan.

The Sea of Annihilation erupted as if it detonated. This incident was much more influential than many people had expected.

Quickly, the information about the Absolute Beginning vestige released unknowingly. The secret of the Power Upanishad Symbol Tower was revealed, angering the other clans besides the Seven Great Clans.

The Sea of Annihilation was hustling and bustling. People moved around on the sea, in the seabed, and at every corner. The warriors began to search for something.

“If we can’t leave soon, Neptune will come at any minute. I know the Soul Clan’s evil deeds and I know how Neptune is. I’m sure he can vaguely locate us from Tate’s death.” Ming Hong became solemn. “At his realm and cultivation base, once he finds the right direction, he will arrive faster than we think...”

What Ming Hong had said had put more pressure on the group. Audrey and Mei Ji decided to stay silent. They didn’t dare to talk as they were afraid that they could enrage the God Lord and Ming Hao, which would bring Shi Yan unnecessary troubles.

The God Lord looked cold and harsh. His eyes scanned Shi Yan, the cold intention on his face clear.

He was losing his patience.

“If he can’t break the confinement, you two will be buried with him!” the God Lord snorted, his eyes fell on Audrey and Mei Ji. The two women felt shivers running down their spines.

“You can’t touch Audrey if I’m here,” Ming Hao wore a cold face.

Mei Ji felt so chilled. Pondering, she forced a smile. “Yeah, you can kill me. But if Shi Yan can’t break this place, even if I die, you won’t live. None of us can leave, to be exact. Neptune alone can kill all of us!”

Hearing her, Ming Hao and the God Lord became more restless. They all grimaced.

“Shut up! All of you!” Shi Yan bellowed and landed all of a sudden. From a distance, he looked at the God Lord and then at Ming Hao, speaking coldly. “You two, shut your mouths too!”

Then, the Power Upanishad Symbol Tower bloomed with billions of dazzling light rays. It began to move with ultimate power, grumblingly pressing down on the God Lord and Ming Hao. “You guys can kill Batum and Gan Fu here. I can kill you too. Do you think you’re that strong?”

The Power Upanishad Symbol Tower suddenly emitted the formidable Heavenly Might. It rose in the void and then grumblingly landed.

The God Lord and Ming Hao lifted their heads to watch with severe countenances. They were dumbstruck, indeed.

At this moment, they remembered that Shi Yan had used the Power Upanishad Symbol Tower to break all the restrictions and barriers that Ling Mei, Batum, and the others had set up in just one strike!

The God Lord and Ming Hao were frightened. They were scared because of that invincible might.

At this moment, Shi Yan, in his wrath, had controlled the Power Upanishad Symbol Tower that was pressing on their heads. They were startled, indeed. They now recognized that with the Power Upanishad Symbol Tower in this Absolute Beginning vestige, Shi Yan wasn't a soft persimmon for them to squeeze as they pleased.

"Although I can't break the light curtain immediately, it's not a big deal to control the Power Upanishad Symbol Tower to play with you two!" Shi Yan said harshly.

The Power Upanishad Symbol Tower fell from the sky.

So many light layers dropped from the sky streaming into the windows on the Power Upanishad Symbol Tower. At that moment, the threat from the Power Upanishad Symbol Tower rocketed several times!

Under that pressure, the God Lord and Ming Hao could hear their bones cracking. They seemed to not be able to resist such pressure and their bodies were about to burst.

That pressure wasn't aimed at Audrey and Mei Ji. When they saw things going wrong, they had parted already.

"This pressure could be compared to a strike from Territory Ancestor Realm experts! Extremely formidable, indeed!" Ming Hong couldn't help but scream on Audrey's shoulder. "What are they doing? That young man doesn't know the general picture and those two old men have lost their minds! If they continue this way, they will die altogether before the enemies come!"

Audrey and Mei Ji were worried and sorrowful. They didn't know what to say to ease this situation.

"Kid, you dare to attack us now? You aren't afraid of death, are you?" bellowed the God Lord.

"Shi Yan! What the heck are you doing?!" screamed Ming Hao.

"I want to tell you that even if I can't break the restriction in this area, you don't have the right to babble here. I'm standing here to see who you will bury with me. You asked who courts death?" Shi Yan sneered and looked crazy. "Ming Hao, I am the Master of the Bloodthirsty Force. With your dark scheme, you want trouble, don't you? I'll show you that the prestige of the Bloodthirsty Force's Master isn't something you can challenge!"

The Power Upanishad Symbol Tower descended grumblingly with terrifying waves of energy fluctuations that created waves of light above Ming Hao and the God Lord.

Ming Hao and the God Lord straightened their bodies, their hands pushing the sky. One of them had five stars revolving and the other had billions of clones. Altogether, they were trying to resist the descending Power Upanishad Symbol Tower.

Gan Fu, Batum, Yerburgh, Telika, and Farlow were all experts at the Immortal Realm. After they died, the negative energies including brutality, desperation, resent, and others in their Essence Qi had poured into Shi Yan's acupuncture points.

After their soul altars were swallowed, many pieces of memories that didn't belong to Shi Yan continuously flashed in his mind. They troubled him a lot. He was annoyed and irritated. The negative energies seized the chance to affect him.

Because he couldn't break the light curtain, he had lost his patience and become edgy. Negative energies attacked him easily in this condition.

The God Lord's jeering and sinister words, Ming Hao observing him with his cold eyes and the dark conspiracy... Shi Yan knew them all. At this moment, he finally cracked and lost his temper. He ignored the light curtain, Neptune, and the others. After his volcano ignited, he erupted.

BOOM!

Between the God Lord, Ming Hao, and the Power Upanishad Symbol Tower, there was a combat area where the energy from the tower entangled with the God Lord's and Ming Hao's energies. Their energies were colliding and fighting against each other. That area was so beautiful with blazing sparks and magnificent blooming lights. It was more impressive than the most beautiful firework performance.

However, the energy from the impact was extremely terrifying.

The energy shockwaves had crushed the rocks and the ruins around into powder in just a blink of an eye. Everything had become dust.

Audrey and Mei Ji had to move further away to avoid the fierce battle. They screamed because Shi Yan had suddenly become frantic and stirred the situation to the point that they couldn't save it. They felt so begrudging.

Mei Ji and Audrey wanted to cry, thinking that while the others were fighting, the warriors of the Sea of Annihilation like Neptune were marching toward them.

Why did they have to do that?

"Shi Yan, are you crazy?!?" Ming Hao thundered. So many clones of him perished while colliding with the energy from the Power Upanishad Symbol Tower.

He could feel his energy drain away as the energy from the Power Upanishad Symbol Tower was crushing down. Seeing the God Lord about to burst out frantically, he regretted it.

He regretted letting the God Lord threaten Shi Yan.

He regretted not recognizing how dangerous Shi Yan could be in this area with the Power Upanishad Symbol Tower in his hands!

"Haha, I've had to endure you guys for a long time!" Shi Yan sat on the Power Upanishad Symbol Tower and laughed crazily. "Today, I will play everything I have. Even if I die, I will show you my power! Do you still think you're invincible? If you are, how could Hui throw you here and trap you for dozens of years? Well, if you don't see the danger, you won't remember for a long time. You still think you're the overlords!"

Boom!

The Power Upanishad Symbol Tower continued to press down.

“ARRRGGGHHH!”

The God Lord and Ming Hao roared. They felt like so many planets were placed on their heads that they couldn't even stand upright.

Ming Hao was just a soul so his condition wasn't really bad. His soul flickered as his soul power was quickly consumed.

The God Lord's body made “crack” sounds as if he was about to shatter.

They found that the frantic Shi Yan was even tougher than Bloodthirsty. This kid didn't reason or use logic. He didn't care about the general picture too. He wasn't afraid of death. To vie for some vague thing, he could even destroy the whole world.

When they finally recognized this, they felt so bitter. They couldn't estimate how strong he was with the Power Upanishad Symbol Tower in this area.

They were all regretful. They shouldn't have pushed Shi Yan to make him burst out at the end of the corner. They shouldn't have attacked him verbally and instead try to clear the situation.

Unfortunately, their regret came a little too late. Shi Yan's eyes turned garnet in his frenzied state. They knew that he wouldn't listen to any word, so they could only resist persistently.

They reaped what they sowed, indeed.

They smiled bitterly.

Audrey and Mei Ji felt their scalps become numb. They were so worried as if they had a flame burning their hearts. They decided to scream about how Neptune and the others were coming to persuade them to stop.

“No use. The boy's eyes are red now. It's the sign of his exploding state. I understood the Bloodthirsty Force enough to tell you that in such a state, he has lost his mind. He can't hear you,” sighed Ming Hong.

“Then what should we do?” Mei Ji was panic-stricken.

“There is no solution,” Ming Hong shook his head.

All of a sudden, the seawater forcefully fell from the sky. They heard the sounds of swarming water, baffling them.

However, they knew what had happened shortly after. They couldn't hide their thrill. Mei Ji shrieked, “Broken! It's broken!”

“I got it! The Power Upanishad Symbol Tower has taken too much energy from the light curtain. It's not enough to resist anymore. The water pressure finally tore it. Lucky bastard! The boy just bumped around and he found the right method!” Ming Hong also screamed strangely.

Chapter 1438: Mei Ji's Boldness!

Seabed.

The flows of light from the light curtain streamed into the opened windows of the Power Upanishad Symbol Tower.

The horrible water pressure swarmed over and brought billions of water currents pouring from the sky. After a moment, the Absolute Beginning vestige was covered in water. Without the light curtain's protection, everybody was suffocating under the water pressure. It felt like they were pressed between two mountains. They had to gather the God power to create a light cage to cover their bodies entirely.

Shortly after, the light curtain in the dome that covered the vestige had entered the Power Upanishad Symbol Tower completely. The tower shone radiantly and its power rocketed dozens of times!

The God Lord and Ming Hong were frightened. Ming Hong's clones scattered. The God Lord's body was cracking. They were about to be smashed.

"Shi Yan!"

Audrey's clear and cold voice was like a cold water current shooting toward Shi Yan.

Audrey had sent her energy with the essence of the God-blessed Mainland, which had a subtle connection to Shi Yan's co-soul, together with her call. The call with her spirit and Desolate's soul dashed toward Shi Yan and stimulated his frantic mind. Shi Yan looked lucid for a while.

"The light curtain is broken! We can go home now!" Seeing him lucid, Audrey pushed it further. "We shouldn't waste more time. We're going home now! We're going home now!"

The blood-red color in Shi Yan's eyes subsided. His mind came back to him. He sat cross-legged atop the Power Upanishad Symbol Tower and observed his surroundings.

After pondering for a while, he jumped off the tower. When the God Lord and Ming Hong were about to collapse, he waved his hand and grabbed the tower. It shrank magically. After less than a minute, it was as big as his palm. Shi Yan put it into his Incipient Extent.

Ming Hong and the God Lord exhaled in relief. They exchanged forced smiles and were too exhausted to talk.

Twenty-thousand years ago, Bloodthirsty's debut had shadowed the entire world. He had pushed Imperial Dark Tribe away from their ruling throne and suffocated the tribe. Many experts of Imperial Dark Tribe were killed or they fled to other territories to avoid the lethal wave.

No one knew why Ming Hong wanted to follow Bloodthirsty and fight for him. He had helped the Bloodthirsty Force become the overlord of Desolate Territory, enslaving everybody.

Ten thousand years later, Brian the God Lord was destined to take the Genesis Fruit and receive Desolate's inheritance. With Desolate's trigger in the dark, he had seized the chance to finish Bloodthirsty who was hurt severely. The God Clan then replaced the Bloodthirsty Force to turn the world upside-down.

However, whether it was Ming Hong or the God Lord, they were subdued by Bloodthirsty for the rest of their lives.

The God Lord could become the winners in the end. It wasn't because he was strong. He just had an excellent opportunity. After that, the God Lord's body exploded and turned into dust. He had to survive with only a wisp of his soul. After ten thousand years, he had borrowed Haig's body to come to this world one more time.

Bloodthirsty was the high mountain that they would never cross, even if they had spent the rest of their life attempting to.

After so many years, when Bloodthirsty's influence finally ceased, they thought that they could finally become the master of this earth and heaven. And then, Shi Yan slowly grew up...

Today, Shi Yan had the First Sky of Immortal Realm cultivation base. Although he was using external forces, he could suppress them and attack them frantically. And they couldn't do anything to counterattack!

As they thought that they could finally escape the nightmare called Bloodthirsty and become the master of this world, they got so bitter and discontented upon seeing Shi Yan. However, they could only sigh inwardly.

They recognized that although Bloodthirsty was gone, he had left a tough riddle. Shi Yan was the seed of this riddle. Previously, they didn't even bat an eye at this seed. They looked down on him and thought about him as a chess piece or a joke.

In just a blink of an eye, this seed sprouted and grew to a big towering tree. That tree gradually shaded their light.

To them, they had been waiting painstakingly for ten thousand years. When they could finally rule the entire world, they saw Shi Yan leap up rapidly. How deep could this sorrow be?

The Power Upanishad Symbol Tower disappeared into Shi Yan's Incipient Extent. He tried to suppress his bloodthirsty desire, talking deliberately. "Just like you guys, I want to return to Desolate Territory as soon as possible. I want to change the situation in Desolate Territory. If you think you can squeeze me or kill me, I'm telling you. You've highly appraised yourself."

Then, he stopped looking at Ming Hong and the God Lord as starlight congregated around him and created a light cage. He stepped out and landed by Audrey and Mei Ji. He said, "Retreat now!"

"She... What do we do with her?" Audrey was apparently cautious when she gestured toward Mei Ji.

"Bring her with us," Shi Yan wore an indifferent face, "Do you have any other idea?"

"No, no, nothing," Mei Ji hurried to state her opinion.

"I think it's better to kill her. She's not from our Desolate Territory. If she follows us and knows the entrance to Desolate Territory, it will be a lot of trouble," suggested Ming Hong.

"I agree with a point she has suggested. We can't refine the Absolute Beginning Original Symbol using the Power Upanishad Symbol Tower. We still need to depend on the seven clans. We have to choose a partner. She's a good partner, anyway," said Shi Yan.

Mei Ji's inner lake rippled. Her beautiful eyes were filled with joy. Her long eyelashes batted as she was shivering slightly.

She knew the meaning of the Power Upanishad Symbol Tower and the power of the Absolute Beginning Original Symbol; they were the marvelous items that could support the Territory Ancestor Realm experts learning the ultimate power Upanishad and the principle of a power Upanishad. It was the rarest of the rarest objects!

If the Phantom Clan could use the Power Upanishad Symbol Tower to refine the Absolute Beginning Original Symbol for their Territory Ancestors, their competencies would increase greatly.

Her entire race would thrive. And perhaps, they would become the most powerful clan among the seven clans.

Mei Ji smiled like a flower as if she saw a beautiful future. "Don't worry! I pledge my life to go the same way as you. I will never leave on my own!"

She was smart and bold. She knew what they were afraid of. She didn't hesitate and gave a wisp of her Soul Seal, which was a triangle crystal. The icy crystal fell and hovered in front of Shi Yan. "It's my Soul Sea. You can keep it. As long as I have a different thought, you can smash it to explode my soul altogether!"

Shi Yan was surprised.

Audrey, Ming Hong, the God Lord, and Ming Hong were baffled. They looked at Mei Ji with a strange countenance.

This woman was truly a bold and unpredictable expert!

They could almost instantly confirm Mei Ji's characteristics. Seeing her hand over the Soul Sea, the others didn't object to her anymore. Brian also nodded as he appreciated the woman's virtues.

It wasn't rare that someone would hand the other the Soul Seal. However, in most of the cases, they were forced to do that. Mei Ji, who deliberately did that, was rare, though.

Swish!

The triangle crystal hovered on Shi Yan's Sea of Consciousness. A strange, subtle connection swarmed into his soul.

He turned to Mei Ji, his eyes bright. He found that he was somehow closer to her.

Mei Ji smiled, bowed to greet, and giggled. "My life is in your hands. Please take care of me. Also, you have to live well. If you die, I will die with you altogether."

Shi Yan nodded. He was convinced by her boldness. Then, with a dark face, he turned to Audrey and Ming Hong. "Any other idea?"

No one said more. They were also convinced by Mei Ji's deeds. No one wanted to rise more dispute.

"Why don't we leave now?" Shi Yan snorted impatiently.

"Let me guide us," Ming Hong shuddered, turning from a small bat to a gruesome, brutal soul. "The way Ming Hong and the others had taken to enter this place is deviated and leads to somewhere rural. They aren't familiar with the Sea Domain of Nihilicity. But after Singh tamed me, he often moved around the Sea of Annihilation. Right, all of you, follow me."

Turning into a ghostly shadow, Ming Hong pulled Audrey's soul lotus throne and moved quickly in the sea.

The God Lord and Ming Hong didn't say anything. They followed close behind Ming Hong like two shadows.

"Thank you," Mei Ji called sweetly after the other had left. While Shi Yan was still baffled, her voluptuous body had wormed into his starlight cage. Her beautiful lips pecked on his left cheek like the dragonfly gliding above the water. She said honestly, "Without your protection, I would have ended up like Batum and Ling Mei. I wouldn't have escaped death."

Shi Yan rubbed his cheek instinctively and said indifferently. "You'd tried your best to protect me when the others attacked me. You risked your life with Ling Mei because of me. I don't care why you did that. Even if it's because of the Power Upanishad Symbol Tower, I owe you. I don't like to owe anybody anything. So, I want to pay you..."

While talking, his light cage carried him and Mei Ji moving toward Audrey.

"Alright, we're done with favors," Mei Ji bent her head, her eyes upset.

Shi Yan nodded, "We will not count the previous incidents. Later... we'll talk later then."

Mei Ji was moved. She lifted her head, her eyes bright with joy.

Several hours later.

A piece of the sea filled with ghosts and brutal souls descended amid the ruins. Neptune, the Territory Ancestor Realm expert of the Soul Clan, squinted and sat cross-legged inside the soul sea. He looked like the most fearsome ghost.

He sensed for a while then mumbled, "It's here."

He moved around the Absolute Beginning vestige and reached the area where Tate was murdered. His eyes brightened. However, it wasn't because of Tate's death. He was surprised to look at the area where the Power Upanishad Symbol Tower used to be. Observing the special traces, he said, "It's unexpectedly where the Power Upanishad Symbol Tower was placed!"

Then, so many souls flew out of the sea of souls underneath his body and moved in every direction to search for something.

After a while, he couldn't spot any soul energy fluctuation. His face gradually darkened. "I'm sure they're still in the Sea of Annihilation. I don't think I can't find you!"

He pondered for a while. A jet black bead was conjured in front of his eyes. The bead was shimmering and showing the faces of the Soul Clan members. "All clansmen in the Sea of Annihilation, find me ..."

He took a deep breath, his eyes open wide. A strange water current rolled at the area the Power Upanishad Symbol Tower used to be. Slowly, it became Shi Yan's face. That portrait looked like it was printed out. "Fine me this man! Mobilize all of our members!"

Then, he closed his eyes and tried to sense further. "Just a kid at First Sky of Immortal Realm. You dare to imprint your aura on the Power Upanishad Symbol Tower. You're wasting a heavenly treasure!"

God of Slaughter

Chapter 1439: The Entire Sea of Annihilation is Surging!

Neptune spread the news. From this area, his discreet searching expanded.

Not long after he had gone, Forefather Dragon Lizard, Tu Shi Qi, and Ya Yun landed in the middle of ruins on the seabed. They could feel Ling Mei's lingering aura. Finally, they confirmed she was killed.

"I wonder who did that. Not everybody knows the relationship between Ling Mei and Forefather Han Tian. Perhaps the one who murdered her didn't know that, either." Ya Yun felt her heart was hung up high. She was begrudging and didn't know what to do. "The outstanding experts among Han Tian's sons were killed in the battlefields and their soul altars broke while they were breaking through to the new realm. The living ones are just ordinary warriors. However, he has some excellent grandchildren. Ling Mei was the most prominent. Forefather Han Tian had high expectations of her. He had assigned her to the Sea of Annihilation to train further. She didn't fail him, indeed. She achieved a lot while working in the Sea of Annihilation. Her realm had reached the Peak of Immortal Realm, which surprised and delighted Forefather Han Tian a lot. But now..."

Ya Yun couldn't continue.

Tu Shi Qi also wore a heavy countenance. "It's really serious this time. If Forefather Han Tian wasn't cultivating in seclusion, he should know this already. Even if he wasn't there yet, the other elders will do their best to solve this. We're in the Sea of Annihilation; we can't avoid the responsibility!"

"If we don't give Forefather Han Tian an explanation, he will boil the entire Sea of Annihilation when he figures this out. We must do our best in this!" said Ya Yun.

They quickly came to a conclusion. They ordered all members of the Mysterious Sky Clan in the Sea of Annihilation to take action and search everything related to the Absolute Beginning vestige.

On the base of the Devouring Clan in the Sea of Annihilation, a haggard old man of the Devouring Clan was chanting Gan Fu's name with dull and watery eyes. He was struggling in grief.

He was Gan Fu's husband, Qi Mo who cultivated Chaos power Upanishad. Just like Gan Fu, he had touched Dark Energy and was just one step away from the Territory Ancestor Realm.

He had just returned from the Devouring Clan's headquarters with an enormous amount of materials. He had planned to build the territory with Gan Fu. As soon as he arrived, his heart beat frantically. He realized he had lost the connection with Gan Fu's soul.

He immediately recognized that Gan Fu was in danger.

He chanted Gan Fu's name and sent soul energy with his calling to the seabed.

Gradually, he had located where Gan Fu died. Then, he did what Neptune and Tu Shi Qi did; he called for all members of the clan to take action!

At the same time, the elders of the Black Demon Clan, Ancient Monster Clan also sent their orders to ask their members in the Sea of Annihilation to take action and find the murderers.

The Soul Clan, the Devouring Clan, the Mysterious Sky Clan, the Black Demon Clan, and the Ancient Monster Clan all had the young talents of their clan die unknowingly. They had announced that they were searching for the murderers. This incident was really rare in the long history of the Sea of Annihilation.

The five clans also stated their big rewards for anyone who could provide precise information. As soon as the clans confirmed the information, those who gave the information would receive generous rewards.

The Mysterious Sky Clan offered an Immortal Pellet and a bottle of Spirit Congealing Pellet as the rewards.

The Soul Clan used five Heavenly Soul Beads as rewards. The Heavenly Soul Beads were suitable for every expert at the Immortal Realm. It could mend the soul altar magically. Territory Ancestor Neptune had refined those beads.

Qi Mo's spouse of the Devouring Clan was killed. In his rage, he had offered many materials to refine the territory when he broke through to the Territory Ancestor Realm to award anyone with the correct information.

The Black Demon Clan promised three kinds of pellets to refine the body. Those pellets could produce flesh and Blood Qi. They were a great help to transform the body and to understand Dark Energy.

The Ancient Demon Clan offered a set of armor made of broken pieces of Absolute Beginning divine weapons as a reward. Rumors said that the said armor could resist a Territory Ancestor Realm expert's attack three times. It was a precious treasure to protect one's life!

The five clans had promised generous rewards that had shaken the entire Sea of Annihilation. So many warriors were stimulated. The Immortal Pellet, the Spirit Congealing Pellet, the Heavenly Soul Beads, the pellets that boosted the chance to understand Dark Energy, the armor that could resist the Territory Ancestor's attack three times... all of them were rare and extremely precious items!

The onlookers were stirred!

Whether they knew the truth or not, they were attracted by the big rewards the five clans had offered. They worked themselves into a frenzy to search the surface and the seabed.

For the time being, so many powerful experts and even the hermits stopped secluding to join the crowd to search.

Information related to the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol quickly spread out. This was even a bigger bomb to the other domineering clans in the Sea of Annihilation. They were all moved!

The real characters who knew how precious the Power Upanishad Symbol Tower was finally knew why the five clans had offered their fundamental treasures to find someone. Also, it wasn't because of their dead members; they wanted the Power Upanishad Symbol Tower!

The entire Sea of Annihilation was boiling!

—————

Deep under the sea.

Ming Hao had turned into a brutal soul that looked like a monster dragon, pulling Audrey's soul lotus throne and heading in a direction.

The God Lord and Ming Hao followed them close behind.

Shi Yan and Mei Ji shared the same light cage protection. They moved behind, but didn't go close to the others.

Inside the light protection, a water drop-shaped pendant that lay on her milky chest suddenly murmured like running water. Mei Ji frowned and her slender finger poked the jade pendant, dipping it into her soft flesh, which emphasized her ample breasts even more.

Mei Ji's attractive face gradually filled with black clouds as she listened to the report sent through the jade pendant, her eyes downcast.

"What happened?" asked Shi Yan.

Mei Ji's face was abnormal. She took a deep breath and frowned, "Move close to them. They should know something too..."

"Are you serious?" Shi Yan recognized that something was wrong and pulled a solemn face.

Mei Ji nodded with a bitter smile.

Shi Yan didn't say more. The light cage accelerated like a shooting star and stopped Audrey, Ming Hao, and the God Lord. "Hold on for a while. There's trouble."

Audrey, Ming Hao, and the God Lord slowed down and looked at them in surprise as they didn't know what had happened.

"The Mysterious Sky Clan, Devouring Clan, Soul Clan, Black Demon Clan, and Ancient Monster Clan have promised big rewards for any warrior in the Sea of Annihilation who could provide the information

about us. Neptune even has Shi Yan's portrait. I don't know how he did that," Mei Ji knitted her brows. "Also, I don't know why they know about the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. Right now, the entire Sea of Annihilation is seething. Every clan on the surface and undersea was notified. The warriors of the entire Sea of Annihilation are searching for us."

Hearing her, the others discolored in fear. They knew how fatal this was.

"How many warriors are in this Sea of Annihilation? How many experts do they have?" The God Lord didn't know much about this place. He hadn't recognized the seriousness of this news.

"Probably tens of millions. Of course, most of them are low-realm warriors at King God Realm and below. There are around dozens of thousands of Original God Realm and Incipient God Realm experts. Hmm, I guess we have several thousand warriors at the Immortal Realm. As far as I know, in addition to Neptune, we have four Territory Ancestor Realm experts here."

The God Lord smacked his lips and said nothing.

"Well, it isn't just about the number of experts. After the things about the Power Upanishad Symbol Tower spread out, more and more experts will come here. The ones working around here will come and rob the place if they have confidence," Mei Ji forced a smile.

"Is the Power Upanishad Symbol Tower really that precious?" Ming Hao turned to Ming Hong.

Ming Hao arranged his thoughts and then said, "Among the Seven Great Clan, no clan has ever had a complete Power Upanishad Symbol Tower. The Absolute Beginning Original Symbol refined by the Power Upanishad Symbol Tower is a great help to the Territory Ancestors. Sometimes, the Territory Ancestors find it hard to perceive the Ultimate power Upanishad. It could take up to dozens of thousands of years without discovering a clue. However, the Absolute Beginning Original Symbol can solve this problem to increase the power of the Territory Ancestor. Although it costs an enormous amount of material like as much as an entire territory's worth, it will be much more worthy and practical than searching for dozens of thousands of years without a result.

"In this vast sea of stars, we can't count the number of the territories. Each of the Seven Great Clans controls dozens of territories. To them, the territories aren't really precious. They can sacrifice territory when they need to."

Listening to Ming Hong, the God Lord and Ming Hao turned to Shi Yan with desire.

At this moment, they were so regretful that they hadn't taken action to let Shi Yan take the Absolute Beginning Original Symbol and the Power Upanishad Symbol Tower.

"If you guys can collect enough materials to refine the Absolute Beginning Original Symbol by killing an entire territory to gather the slaves cultivating the same power Upanishad, I will consider fulfilling your wish of having an Absolute Beginning Original Symbol." Shi Yan had to comfort them when he saw their eyes. He was afraid that they would make rash decisions now.

"It's not a burden to me to kill creatures in a territory. You have to remember what you've promised today!" said the God Lord.

Ming Hao pondered for a while and then smiled at Shi Yan for the first time. He bowed to Shi Yan.
"Master, please help and fulfill my wish."

Shi Yan sneered inwardly. He thought, When I get strong enough, who will care if you are alive or dead? Even if I help you, I will make you pay a bloody price!

With that thought, he said quietly, "We need to dodge this kalpa and then we will discuss this."

"How long is it from our location to Desolate Territory?" asked Audrey.

Ming Hong didn't answer. He considered the distance and then said, "At our speed, it will take two or three more years. The water pressure in the Sea of Annihilation is really terrifying. If we teleport, we will break our souls. Thus, Ming Hao can't help us with this. If we move on the surface, we'll encounter a lot of enemies. It will be more troublesome. Once the Territory Ancestors get us, we won't be far from death."

Shi Yan knew that he was right. The water pressure in the Sea of Annihilation was very horrible. He didn't dare to tear the space slit undersea. If he did that, the pressure and the turbulent space current would crush him and break him.

"Then we still have to move undersea. Since the seabed is much wider than the surface and the water pressure is terrible, using the Soul Consciousness to survey and explore is also a problem. It's good for us, though," said Mei Ji.

"From now on, we must unify and go in the same direction." Shi Yan's voice was strangely calm. "From now on, we will kill everyone in our way. It doesn't matter who they are! Otherwise, when the experts find out location, trouble will come unceasingly until we die."

"Agreed!" said the God Lord with an icy cold face.

"Agreed!" Ming Hao nodded indifferently.

"Understood," nodded Audrey.

People then turned to Mei Ji.

Mei Ji's face was ashen. "If we encounter the member of our Phantom Clan or my good friends..."

"You'll die now or you'll watch them die later. Choose yourself," Ming Hao told Mei Ji but his eyes were gazing at Shi Yan.

The God Lord, Audrey, and Ming Hong also looked at Shi Yan.

Because Shi Yan had suggested killing all the warriors in their way and Mei Ji was also the one he wanted to protect...

Shi Yan nodded and said to Mei Ji, "Make up your mind please; I have to be heartless now. I will kill you now, right here if you disagree with this."

"Okay, I agree," Mei Ji felt so chilled. When she got a hold of herself, she hurried to agree.

She saw thick, murderous intentions in his eyes...

Chapter 1440: Wantonly Massacre!

A corner of the Sea of Annihilation's seabed.

Three massive submarines that were like shuttles made of seashells were moving at a normal speed undersea. This kind of special submarine was made of seashells and specially designed for races living undersea.

Different from the terrestrial races, most of the creatures living on the Sea of Annihilation's seabed could endure the terrifying water pressure so they could move deeper undersea.

The immensely vast Sea of Annihilation's seabed was much bigger than the surface; it was so suitable for underwater creatures to live. Because of this reason, many clans that loved to live in the sea had relocated and dwelled in the Sea of Annihilation. The population of underwater creatures was much larger than the high-level living beings on the surface.

The interior of the three submarines was magnificent with pearls, crystals, and precious gemstones. Even the bubbles there were glowing in five-colored halos.

Around ten members of the Sea Clan had tentacles on the heads, scales on the necks, and antenna on the mouth. They didn't look similar. Anyway, they were drinking and enjoying inside the submarines, talking loudly.

Some beautiful Sea Clan female attendants were moving around the submarines and serving the warriors.

"Sir, the superiority continuously gives orders to us and asks us to pay attention. I heard that the five clans have promised big rewards to find someone. What happened?" asked one of the Sea Clan men who was embracing a sexy lady.

"Some young warriors of the five clans had come undersea to find the Absolute Beginning vestige. Someone killed them all. Their seniors were enraged. They want to find the murderers. Haha, pay attention, guys. If we're lucky enough to see or catch something, we'll be filthy rich." The leader grinned and pointed at a blue crystal ball. Shi Yan's portrait slowly emerged in the ball. "This man. The entire Sea of Annihilation is searching for him. I don't know the details but he'll be dead, certainly. Too many eyes are seeking for him."

"Yeah, that's why so many strangers have trespassed our territory recently. They run around like mad dogs. We thought that a great war was about to take place. It turns out they're just finding a guy. Aren't they trying to make a scene anyway?"

"Only the ghosts know. Anyway, the entire Sea of Annihilation is chaotic now. I don't know the real reasons either."

Thump! Thump! Thump!

All of a sudden, this splendid conch-shaped submarine was filled with drumbeats from a round drum that hung on the wall. No one beat it.

Thump! Thump! Thump!

The other two submarines had the same round drums. At the same time, they were all sounding vehemently.

Many members of the Sea Clan with different shapes came from the cabins, looking baffled.

“The Spirit Sound Receiving Drum won’t thump without reason. The three drums are resounding at the same time. There must be an experts around,” one of them cried.

“This sea territory is isolated. Not many people visit here. Who are the intruders?”

“Only the ghosts know. The people on the surface are crazy. They’re trying to find someone. I guess they’re intruding us again.”

“It’s so damn annoying! Guys, watch out.”

Those Sea Clan members screamed. The three submarines gathered as they stopped drinking.

“Humans!”

“Strong aura!”

“Thick murderous intention!”

“Are we bumping into them?”

“...”

Abruptly, everyone’s heart was palpitating restlessly. They could feel heavy pressure coming from everywhere.

A figure with two crimson eyes appeared in front of them all of a sudden. He looked like a bloodthirsty beast with a ruthless appearance. He flung his hand and a massive toothed starlight saber grumblingly slashed down. The toothed saber was hundreds of meters long and as wide as a door. It carried the flood of starlight, subduing all the crew members of the Sea Clan in just a blink of an eye.

Crack! Crack! Crack!

The three submarines were halved into six pieces. Around ten warriors were halved too. Without giving the others time to counterattack, the attacker had wildly dashed over and slaughtered.

“It’s him!”

“He’s the one that the five clans wants!

“Rich! We’re gonna be rich! As long as we send the news, we’ll be filthy rich!”

“Ha ha ha!”

“Guys, scatter and run! Spread out this news! We can receive the rewards from the five clans soon!”

The Sea Clan clansmen didn't want to fight with their lives. As soon as they recognized the attacker was the one the five clans had wanted, they laughed insanely and scattered. Like a bunch of merpeople, they swam in different directions.

More shadows appeared and stood in their ways. One of them was radiating dazzling sunlight. Another one had countless clones. A woman had thousands of brutal souls circling and dancing. Another woman had already released a searing icy energy. They appeared out of nowhere, blocked the Sea Clan warriors and began to attack fatally.

The members of the Sea Clan screamed and shrieked. Their blood dyed the entire sea territory red. Their heads and cut limbs floated in the sea water, which was a horrible scene to see.

Under their attacks, no one from the three submarines could escape. No one had the chance to spread the information.

After the others had killed them all, they skillfully gathered the bodies and cut limbs, bringing them together with the three submarines to another deeper area and burying them under a coral reef.

Shortly after, the blood-dyed area got diluted. The area returned to its normal condition.

Inside a spacious, splendid crystal palace undersea sat a malicious-looking old man from the Sea Clan on a fulgent transparent shell. With a solemn expression, he said in a low-pitched voice, "How many crews did we lose right now?"

A middle-aged Sea Clan man was on one knee in front of him. He frowned and said respectfully, "Nine. We've lost contact with them for three days. If nothing unexpected, they... I'm afraid they're not in a good situation."

"Who did that?" The old man pulled a cold visage. "Any commotion from our enemy?"

"Nothing, they don't have any strange commotion." The other contemplated and then said, "Is that someone from the surface? Recently, many people have come to the seabed to search for the guy named Shi Yan. For the Power Upanishad Symbol Tower and the rewards from the five clans, they are all crazy!"

"Not them. They know it's our territory here. Even if they're from the five clans, they don't dare to provoke us!" snorted the old man.

"Tribal Oldie, someone is here to see you," came a hurried voice from the outside.

"No need for a notification. I'm here. Long time no see, old friend. It has been one thousand years yet it seemed like it was just a blink of an eye." Neptune was sitting on so many souls. He glided into the crystal palace until he stopped in front of the old man. "Emperor Sea Shark, long time no see. I'm here today to ask you for a favor."

This old man was one of the strongest lords of the sea, Emperor Sea Shark. He was also the terrifying existence that the Seven Great Clans didn't dare to challenge. He was a Territory Ancestor Realm expert.

"Turns out it's you." Emperor Sea Shark waved his hand to dismiss the guard then snorted. "Because of you terrestrial warriors, nine crews of my clan were killed. Still, you dare to come see me?"

“That has nothing to do with me,” Neptune shook his head. “Someone has tricked you. Old Shark, I know your influence on this seabed. Help me find someone. Now, I’m sure that there’s not only one murderer. Mei Ji of the Phantom Clan is in that group too. You ask your guards to notice that. If you find them, I will reward generously!”

“The Heavenly Soul Bead you’d refined?” Emperor Sea Shark didn’t bat an eye. “It’s not rare to me.”

“Of course, I know the Heavenly Soul Beads can’t attract you. Old Shark, I promise you that if you can find them, when the Soul Clan gets the Power Upanishad Symbol Tower, bring us the materials, we will refine an Absolute Beginning Original Symbol for you!” Neptune promised.

Emperor Sea Shark was moved. Pondering for a while, he said, “Are you sure it’s a complete Power Upanishad Symbol Tower?”

“Well, a Power Upanishad Symbol Tower that is taken. You ask, is it a complete one?” Neptune looked stern. “Our Soul Clan has been working on it for hundreds of years! That area is mysterious with layers of illusions and barriers. No one could approach it before. That’s why your Sea Clan didn’t know about it. In the recent dozen years, many barriers and seals wore out. We finally located it. I just went there myself. The Power Upanishad Symbol Tower is taken. It’s true!”

Emperor Sea Shark was moved. He agreed. “Alright, I will order my subordinates to search thoroughly!”

“Haha, with your support, no one can rob the Power Upanishad Symbol Tower from our Soul Clan!” laughed Neptune.

A corner of the seabed.

Many bodies were buried. They were the warriors came down here from the surface. After they were killed, it was simpler to treat their dead bodies.

Shi Yan was panting, his eyes red as if blood was about to drip from them. The bloodthirsty, ruthless aura on him had become thicker.

“He doesn’t look okay,” said Ming Hong.

Audrey and Ming Hao were dealing with many dead bodies. They were astounded when they heard that.

“Ming Hao, you’d been with Bloodthirsty for many years. Can you see something?” Ming Hong pondered for a while and then said, “Recently, we’ve been killing a lot of warriors in our way. He’s always pioneering, killing too many people, and swallowing their soul altars and Essence Qi. He doesn’t have time to rest and digest. I think...he’s overloaded. The negative emotions will backfire him. If he continues this way, he will lose his mind and it will mean trouble.”

Ming Hao kept silent.

Since Shi Yan had decided to begin their massacre along the way, they had killed at least hundreds of warriors.

After killing each group of warriors, they would clean the scene, leaving no trace for the others to track them down.

They didn't have a moment to rest.

Shi Yan could sense the danger. On the way, he had greedily used the Devouring power Upanishad to swallow a lot of energy. However, he couldn't have enough time to refine and stabilize his mind.

Currently, his negative aura had thickened. His garnet eyes hadn't recovered for a long time. The energy fluctuating from him had become abnormal.

"When we besieged and killed Bloodthirsty, at the end, he looked like Shi Yan now. He had completely lost his mind," intervened the God Lord. "He had become absolutely crazy and turned into a killing beast. He had devoured all the time and didn't stop to refine the energy. His soul altar backfired. It's the main reason why we could finish him. Shi Yan's situation now is very similar to Bloodthirsty that year."

Hearing him say so, everybody became insecure and stern.

Because once Shi Yan burst out a rampage, the ones who were near him were going to be affected first. As his partners, they would have to swallow the terrible consequence first.
