Chapter 1441: Part and Take Action!

The seabed was magnificent with blue, five-colored reefs everywhere. Crimson, crystal corals grew from them. The unknown, marine plants were jutting their tentacle-like leaves and swaying in the water. The scene was mesmerizingly beautiful.

The thick blood diluted and dispersed. So many light caves were like eggs covering some warriors and gathering by a coral reef.

Three eels slowly passed them as they didn't know that this place was a bloody battlefield fifteen minutes ago.

"We can't continue this way. This kid will go crazy. We must find a safe area to rest," said Ming Hong from Audrey's shoulder. "Of course, we got a better solution anyway."

"What method?" Audrey's eyes brightened.

"Leave him behind as bait. We can leave this place easily. He's their target, anyway. Once he bursts out crazily, he will attract everybody as they will want to kill him. And we... We can return to the territory entrance with no rush. What do you think?"

While he was talking, Ming Hong's eyes were sparkling as he had to watch Audrey, the God Lord, Ming Hao, and Shi Yan who was standing in the distance.

Currently, Shi Yan was standing with Mei Ji a distance away from the others. Mei Ji didn't trust them, so she chose to stick with Shi Yan. Moreover, Ming Hong had tried to lower his voice. He believed that Shi Yan and Mei Ji over there couldn't hear him. That's why he suggested such a solution.

"No!" Audrey objected. She almost had no hesitation.

"Why not?" Ming Hong frowned.

Audrey was bewildered and thinking. Her bright eyes sparkled. "He saved me. In the Sea Domain of Nihilism, without his protection, I would have died a long time ago. I came here with him. If we leave, we have to leave together. I will never leave him behind!"

Ming Hong pouted his lips. "Women. You lose your mind when talking about love."

"No, it's not like what you think," Audrey retorted, her voice weak and her face panic-stricken.

"Do I like him?" she whispered to herself.

"How about you two?" asked Ming Hong.

"If he didn't have the Power Upanishad Symbol Tower, I wouldn't care whether he lives or dies! You said the tower is so precious. He has it still. For the Absolute Beginning Original Symbol, I have to put up with him then." The God Lord sounded calm and natural, shrugging. "If there is a dangerous situation that can affect my life, of course, I will flee. Protecting myself is the most important task to me."

"How about you?"

"Let's watch for a while more," Ming Hao looked complicated.

Shi Yan had the title of the Bloodthirsty Force's Master. As one of the members of the Cortege of Eight, Ming Hao had to serve him dedicatedly. Even if he didn't have the Power Upanishad Symbol Tower, on principle, he had to protect Shi Yan. He knew Shi Yan carried Bloodthirsty's expectation and will.

And now, Shi Yan had the Power Upanishad Symbol Tower and Dark Energy. He'd reached the Immortal Realm too. Gradually, Ming Hao recognized that he needed Shi Yan somehow. It was going to be hard to ditch him here.

"If you guys decide to go with him for a while more, you guys better find a solution. When he bursts out, we're the first ones who will have to endure it," said Ming Hong.

The other three nodded.

"I'm going to talk to him," Ming Hao pondered for a while and then spoke. She started walking towards Shi Yan.

Almost at the same time, Shi Yan with his two red eyes were striding toward them.

Ming Hao and the God Lord were much surprised. They stopped and waited for him skeptically.

Shi Yan was pacing to them, thick blood scent hovering around him. The murderous aura was visible like blood flames, layering and shrouding his entire body. Even his long hair looked like it was burning. Blood flame splashed under his every step.

His crimson eyes seemed to drip blood at any minute. They were so soul-taking to see. He looked like he had been soaking in blood.

"What a powerful negative energy field! If this field expands, not only will he lose his mind but all the creatures around will also go crazy!" Ming Hong screamed in fear.

Audrey's beautiful face looked aghast.

She had noticed that while Shi Yan was moving, not far from him, thousands of fish had become wild, attacking and biting each other. The most ordinary fish was now flesh-eating fish. It was a horrible scene, indeed.

As Shi Yan's steps arose, her blood seemed to run faster. Shortly, she felt like she was watching an endless sea of blood. She wanted to kill.

"The more he killed, the thicker the energy from the soul altars and the dead Essence Qi he had taken in became. This field... will become more formidable." The God Lord wore a stern face. "I'd experienced this. When Bloodthirsty died, his negative energy field expanded. Our people had attacked each other for more than ten days. So many people were killed."

Ming Hong was more restless hearing him.

Shi Yan's move had startled Mei Ji too. She stood up and prepared to come close to see. However, as she was around ten steps away from Shi Yan, Mei Ji felt her blood burn. The thick smell of blood attacked her nostrils. She could even see bloodstains on her body.

Mei Ji had mastered the soul technique and she had a profound understanding of the mysterious and yet magical features of the souls. Immediately, she recognized that the negative energy fluctuations from him carried some horrible, evil mind technique. It could even affect her. She knew many people would lose their minds under such effects.

"I think you can see that my situation isn't good now..." Shi Yan stopped when he was ten steps away from Audrey and Ming Hao.

"Shi Yan, how are you?" Audrey asked hurriedly.

"Over my endurance," Shi Yan's eyes were still crimson. "From Gan Fu to Telika, Yerburch, Farlow, the guards of the Mysterious Sky Clan, Batum, and I haven't stopped to refine the energy or rest. Constant killing gives me more soul altars and energy from hundred of warriors..."

Contemplating for a while, he said slowly, "The black hole and the acupuncture points in my body are like a big avenue. Getting so many things on the road, it feels like a delicate weapon receiving too many different kinds of energy. Things couldn't move. So... the refining speed is getting slower. Until now, I haven't even digested Gan Fu's energy yet. The negative energy is invading me. They're excessive already. They will reach my head and burst out soon..."

His explanation was simple to understand. The others understood with heavy visages.

He hadn't even digested Gan Fu's energy, the first thing he had. The situation seemed really serious. With this tendency, negative energies was going to conquer him. He was going to turn into a bloodthirsty beast and lose his mind completely until he'd consumed all of his energy and died.

"You...What do you want to tell us?" Ming Hao considered his words.

"I need time to adjust my abnormal condition. But I understand that if we linger in an area, those we have killed will become the mark that shows our whereabouts," Shi Yan continuously took deep breaths to keep his mind sound. "You guys should continue the journey to the territory entrance. Kill people in your way. The ones you kill will become the trace so that others could track you. You can distract them for a while. Mei Ji and I will leave now. We will part, and I will take the chance to adjust my abnormal conditions."

"You want us to be the bait so you could have more time?" sneered the God Lord.

"Without us, you're still going to the territory entrance, aren't you?" Shi Yan wasn't mad. "Moreover, I know that they are certain about Mei Ji and me. They don't know your existences yet. Thus, you're safe. Even if someone catches you, they don't know you're their target. What I want you to do is to kill them, whether they know who you are or not. If people keep disappearing in a specific area, it will attract concerned people. They will think that we are there."

"He's right," Ming Hong nodded. "They want to find Shi Yan and that native woman. They don't know about us. We have to go to the territory entrance anyway. We will continue to kill people in our way to

draw attention. It's much better than sticking with him. Once he loses his mind, it will be big trouble to us."

"Yeah," Ming Hao agreed with him.

"Why do you want to take Mei Ji with you? You trust her?" Audrey wore a cold face. "I will go with you!"

"No!" screamed Ming Hao and Ming Hong at the same time.

If she went with Shi Yan, there was a big possibility that something bad would happen to her. Perhaps insane Shi Yan would kill her before the others could find them. Ming Hao and Ming Hong had considered Audrey as the future of Imperial Dark Tribe. Of course, they weren't going to let it happen.

"Carve the location of the territory entrance on my Heavenly Fantasy Star Compass for me. Perhaps we can reunite on the way. Even if we can't meet, as long as I'm safe, I can return to Desolate Territory through the entrance," Shi Yan handed the compass to Ming Hong.

Ming Hong didn't think much and immediately carved the location on the compass with a special note read "Entrance to Desolate Territory." When Shi Yan had it back, his Soul Consciousness had checked and he received the precise location of the Desolate Territory's entrance.

"Take care," he turned to the other three, turning into a jet of light and zooming away. On his way, he grabbed Mei Ji and disappeared into the far sea area.

"I'm going with you!" Audrey screamed. Ming Hong and Ming Hao stopped her from taking risks.

"Don't go! We will see him later!" hissed Ming Hong.

"He won't get hurt easily. If something bad happens, it will happen to that woman." Ming Hao's eyes sparkled strangely as if he knew what Shi Yan had in his mind. "Don't worry. He has a way to solve his problem fast. This kid has been swaggering in our Desolate Territory for many years. He's used the Devouring power Upanishad smoothly. He won't kill himself."

"Oh, what did he do to stabilize his condition?" said Audrey.

Ming Hao laughed evilly. "He has his methods, anyway. Don't worry. This kid knows how to behave. As long as we kill more people in our way and draw the focus to us, he can have more time to steady his mind. He will catch up with us soon, perhaps!"

[God of Slaughter](#)

Chapter 1442: Bewitch

18+

Mei Ji was secretly happy.

Shi Yan brought her to the remote sea area and separated them from the others. She wasn't worried. Shi Yan had chosen her instead of Audrey.

This decision made her happy physically and mentally.

The starlight layers twirled around them. Inside the splendid starlight cage, Mei Ji felt cozy as she leaned against Shi Yan. Her thighs placed against his. She giggled, "Actually, you don't need to hurry to get back to Desolate Territory. It's true that the other five clans are finding you. But our Phantom Clan and White Bone Clan aren't."

Shi Yan panted and frowned, his eyes red. "What do you want to say?"

"If you want, our Phantom Clan will accommodate you. We can quietly return to the Phantom Clan's headquarters. I believe that with the Power Upanishad Symbol Tower, the Phantom Clan will consider you as the most distinguished guest. Don't worry. I know some secret channels. We can avoid a lot of experts," instigated Mei Ji.

"If I reach the Territory Ancestor Realm, I can go to your clan freely. I can go with you now, in fact. But, now..." Shi Yan shook his head.

Mei Ji was bewildered, but she understood right away. "You're worrying that we might trouble you?"

"At this moment, I don't trust anyone but myself! According to you, the Power Upanishad Symbol Tower is so precious. Anyone from the Seven Great Clans wouldn't show mercy when they find me. I don't think your Phantom Clan will leave me alone when they find that I'm only at First Sky of Immortal Realm. I'm just a piece of cake; why would they hold back?" snorted Shi Yan.

Mei Ji kept quiet and thought. She also thought that the elders of the Phantom Clan perhaps wouldn't give her face to solve this properly.

"You're right. Only when your realm is sufficient will you be able to negotiate conditions." She wasn't foolish. But as a member of the Phantom Clan, she couldn't turn her back to them just yet.

"What did you say to them before we parted? Why did we have to part?" she asked again.

Shi Yan looked her deep in the eyes. His eyes flared up, which made Mei Ji's shiver unknowingly. The light from his eyes was invasive, making Mei Ji uneasy.

He didn't answer.

Mei Ji didn't chase him. She had an intuition that it would be somehow related to her. She could feel clearly that Shi Yan was hesitant. He seemed to struggle to make a decision.

And it was true.

Because of his greed, he had let the Devouring power Upanishad swallow as much as he pleased, which made his soul and body annoyed and unstable.

He was used to experiencing this.

When he had been in such a condition, he had to *** to vent it out. It was a way he knew that would work all the time. Today, he had to think about it again.

He had two options: Audrey and Mei Ji.

He soon made up his mind. He would use Mei Ji as his tool.

As Ming Hong and Ming Hao were all here, especially the brutal soul Ming Hong, he couldn't get over this challenge. He had to give her a pass.

Mei Ji was his only choice, then.

But even if it was Mei Ji, Shi Yan felt a little troublesome if he forced her to have sex with him just to cure his soul and body.

He had another option, though. In this short time, if he found some female warriors, he could capture them to release his stress.

This time, his condition was really unstable and abnormal. From his previous experiences, he had swallowed too many soul altars and Essence Qi. His body could hardly endure for a long time. The females who had intercourse with him could receive great benefits, the mysterious energy that refined the body and even the soul altar...

Ahead of them was an undersea rock forest. The rock columns were strange and peculiar. They seemed to be made of some five-colored crystal, which was emitting spectacular, dazzling halos.

Shi Yan observed the forest from a distance. He found that it was really vast, around hundreds of miles. It could make a good shelter, though.

He released his Soul Consciousness and used the Space power Upanishad to scout around. A few seconds later, he retrieved the Soul Consciousness and he dashed toward the rock forest.

He hollowed a massive rock column and then took Mei Ji inside.

Mei Ji's charming body was skeptical. She tried to know what he wanted from his strange deeds. She came to think that he wanted to cultivate here.

The rock column was like a massive tree trunk. After he had hollowed it, it became a small jade chamber that could lodge three to five people.

Shi Yan set up a space barrier to seal the entrance. Then, he made another one to seal their auras to prevent others from spotting them.

"You want to concentrate on cultivating? Don't worry. I got your back. When someone comes, I'll notify you," said Mei Ji naturally. However, Shi Yan only looked at her. He didn't sit down cross-legged. His red eyes became hotter.

"Hey?" Mei Ji felt insecure.

"I want you," pondering for a while, Shi Yan said. His simple words conveyed a terrifying meaning. "Your body can cure me of my current problem. I need your body to vent out the negative energy."

Censored

Mei Ji's body shivered. She was terrified and she hurried back to the jade wall. Her charming body was aghast. "You... What did you say? Do you know what situation we are in? Even if you desire my body, you should find some other excuse... It's not the right, the right time!"

Under Shi Yan's hot, explicit gaze, Mei Ji retreated and slumped. She was horror-struck.

"I'm not kidding."

Shi Yan's breathing was short and rapid. He realized that when he finally decided to use this method, Mei Ji's attractiveness to him had increased several times. The flame of desire in the bottom of his heart was ignited. There was no way to press it down.

At this moment, Mei Ji was wearing a tight, strawberry, long dress. It perfectly outlined her perfect body with hot curves and ample breasts. Her succulent red lips were so sexy. Her charming beauty made Shi Yan gulp as he suddenly felt his dry throat.

"Explain yourself!" Mei Ji screamed hoarsely, her butt sticking on the jade wall and her charming face discolored.

"I cultivate Devouring power Upanishad. It..." Shi Yan explained quickly about the side effects of the Devouring power Upanishad. He had pressed the effects of the negative energies and how the refined energy could help women who had experienced sexual intercourse with him. "It's good for you, anyway. You won't bear a loss. I still have other options..."

"What other options?" Mei Ji was surprised.

"I can choose to do it with any woman. But I have to kill them after that. I won't disclose my location. Anyway, if that happens, I have to consume some energy, which should be precious for refining the body or for transforming!" Shi Yan said in a low voice.

"Besides these things, is there anything else that made you choose me? If you can bring benefits to your partner, why wouldn't you choose Audrey?" Mei Ji gritted her teeth and blushed. She felt that her body was very soft. Waves of heat attacked her as she felt a strange joy.

"I want you! You're beautiful and you know enchanting techniques. You can give me pleasure that nothing can compare to!" roared Shi Yan. It seemed like a beast was about to jump out of his body, his face ferocious.

"If I'm not wrong, you're saying that I'm prettier than her? Compare to her, I can satisfy you better and you fell for me?" Mei Ji thinned her lips. She couldn't help but lick her lips, her eyes filled with romantic thoughts.

"Yeah, it's true! Are you happy now?" hissed Shi Yan.

"I am," Mei Ji smiled charmingly, her eyes watery. "Well, considering your correct answer, I..."

The strawberry fabric slid down her curves, revealing a white, hot body. It was the sort of soft and curvy body of a mature woman that could drive any man crazy.

As Shi Yan was a man, he was enchanted too.

Shi Yan roared like a beast and jumped on her sexy body. He tore the long dress she hadn't taken off yet into pieces. His big mouth began to nibble and suck her breath-taking, heavy, milky breasts.

"Ah..."

Mei Ji's moaning could make even her bones soft. She felt so hot as she tried to squeeze her straight legs together. She felt embarrassed when she felt her lower body become damp.

Shortly after, she recalled the memory when they were on the Skull Island when Shi Yan had done something at her private area. She began to melt.

Shi Yan's clothes became rags instantly. His vigorous, muscular body was exposed. His body looked like it was molded out of iron with attractive, masculine features. Mei Ji eyed him, her watery eyes strange. She bit her lower lip. Her heart seemed to be on fire.

Although she had cultivated the seducing technique in the clan, she had never been with a man. Looking at Shi Yan's majestic body, she felt that she couldn't hold herself together. He snow-white body blushed beautifully.

She was aroused...

"Please me! Use the enchanting technique of your Phantom Clan!" Shi Yan grinned, his body straight like a long lance. His big hand slapped her round butt cheeks, making them bounce mesmerizingly. "You know how."

Mei Ji's beautiful eyes were so seducing as she embarrassedly cried in pain. "When I grew up, I used to learn the techniques, but I haven't used them before. I guess it won't be that smooth."

Then, she slowly squatted in front of him, her long hair draping on her waist and her round rear end thrusting out.

Her slender fingers wrapped around his member as she brought her succulent red lips toward...

Shi Yan took a deep breath. He felt all his pores open. An unimaginable pleasure struck him. He thought that he was going to explode soon.

At this moment, he deeply understood the compliments people gave the Phantom women; each of the Phantom women was a sexy treasure, an endless sweet dream for men.

Mei Ji shoved her head between his thought, sitting on her heels and showing her pretty backside. Her tongue was moving. Sometimes, she wiped her dangling hair and lifted her face to throw him a seducing glance...

Her eyes had bewitched Shi Yan's soul...

God of Slaughter

Chapter 1443: Mistakenly Hit!

It was an area on the seabed with many strange-shaped rocks growing from the ground like a forest. Many unknown fishes were swimming around.

The five-colored rocks jutted from the seabed like colossal columns and released splendid halos. They looked magnificent and mysterious at the same time. This rock forest was a spectacular scene undersea.

"Phew! Phew! Phew!"

So many figures inside the light protection came into the rock forest. They were seven, beefy, male warriors of the Ancient Monster Clan. They had a lot of fur covering their body. Although their faces were clean, they looked ugly and fearsome.

Each of their light cages confined a beautiful Sea Clan female. The seven females were dying. Their clothes were torn and they had clear marks of whips on their bodies.

The seven Ancient Monster men glided through the rock forest and found a place to rest. The leader of this group was a muscular, tall, middle-aged man, his tiger eyes lewd. He placed the Sea Clan woman inside his light cage against a rock column and babbled, "Slutty Mei Ji, I'm going to kill you! I'll do you until you die!"

He imagined that the Sea Clan woman under his body was Mei Ji. Apparently, he had a big desire for her.

This man was called Hussein, an expert at Third Sky of Immortal Realm from the Ancient Monster Clan. He was Yerburch's cousin. He was the leader of the Ancient Monster Clan in the Sea of Annihilation.

After Hussein was sent to the Sea of Annihilation, he was enchanted as soon as he saw Mei Ji. He had come to the Phantom Clan's island several times to try to show his affection for Mei Ji.

Unfortunately, he was at Third Sky of Immortal Realm, which was one level lower than Mei Ji at Peak of Immortal Realm. Mei Ji had provoked and mocked him many times.

He had even asked the Ancient Monster Clan to ask the Phantom Clan to let him marry her. Through their marriage, the relationship between the Ancient Monster Clan and the Phantom Clan would be tightened. Of course, it was just an excuse. He wanted to have Mei Ji; that was the main reason.

The Phantom Clan had actually considered this. Then, Batum saw Mei Ji and began to chase after her fiercely. Immediately, Hussein's light was shadowed. Since Batum was about to enter Territory Ancestor Realm, he was much more critical than Hussein.

After the Phantom Clan had considered many aspects, they decided to choose Batum and reject Hussein.

It was Hussein's eternal pain.

Afterward, whenever he saw Mei Ji in the Sea of Annihilation, he couldn't say even a nice word to talk to her. He had purposely rumored that Mei Ji was a slut and that she had affairs with so many men.

Because of his ill-talking, Mei Ji had personally come to the Ancient Monster Clan's base in the Sea of Annihilation and bit him hard. He had bled terribly at that time. After that, the Ancient Monster Clan and the Phantom Clan had caused grudges against each other.

Hussein had behaved for a long time. He didn't dare to trouble Mei Ji anymore. They said that he kept around ten female slaves, who looked somewhat similar to Mei Ji. He used them to vent out his anger and desire for Mei Ji.

Also, rumors said that those female slaves were tortured to death...

This time, Hussein had received orders from his superiority so he took his henchmen to the seabed to find Shi Yan and Mei Ji. He had volunteered to find the Power Upanishad Symbol Tower. The real

hotshot of the Ancient Monster Clan was about to come to the Sea of Annihilation. He had contacted Hussein and asked him to locate Shi Yan's direction.

Through his channel, Hussein knew that many people had gone missing in the sea area that belonged to Emperor Sea Shark. He got an idea so he came to check.

After several days of searching, he got nothing. Gradually, he became irritated and annoyed. Currently, he found some beautiful women of the Sea Clan who were wandering around. His lewd feature arose. He thought that the seabed was chaotic just then, so if he killed some Sea Clan women, no one could detect him. He then abducted them and brought them to this rock forest to play his lewd games.

Those women didn't have high realms. Most of them were at True God Realm so they couldn't endure harsh intercourse for a long time. After those Immortal Realm experts had played with them for a while, they all died.

Shortly after, while Hussein was yelling Mei Ji's name, the Sea Clan woman under his body stopped breathing anymore, her body full of bruises and wounds.

At his critical moment, the young woman died. The cold and stiff body irritated him. He became foul-mouthed and he punched through the woman's chest. Then, he threw her away.

Rumble!

The Sea Clan woman bumped into a massive yellow rock column. A wave of space energy rippled from that rock column and the entire column radiated a terrifying light.

"What?"

Hussein screamed and then dismissed the brown light cage covering him. The water swarmed in and washed his half-naked body. He frowned, moving toward the rock column and calling. "Are you all done yet?"

"I'm done!"

"I'm done!"

"Sir, you're done. Even if we haven't, we have to get it done."

His subordinates in the Ancient Monster Clan weren't different from him. They laughed eccentrically while pulling up their pants.

"Throw the bodies to that rock column!" ordered Hussein.

His warriors didn't know why but they didn't dare to not obey him. They forcefully flung the naked bodies of the Sea Clan women who they had just tortured to death toward the column. As those bodies became a mess of blood and flesh, the light on the rock column was clearer and space energy was rippling.

"Eh? What's going on?"

"Why does this rock column have space energy?"

"Have we just found the pieces of a divine weapon? Haha, it's our fortune!"

"Possible! Many people who've been searching for things from the Absolute Beginning Era often encounter nice things in a sudden incident!"

The savage warriors of the Ancient Monster Clan were stirred up. They didn't bat an eye on the crushed bodies of the Sea Clan women. They surrounded the rock column that had released space energy.

"Be careful! If it's really treasure, we can't afford to break it further. We have to dig it out slowly!" Hussein said to his warriors. He was also excited and thought, "It's God's will. Haha, even when I'm playing with those slutty women, I find the Absolute Beginning treasures. That slut Mei Ji didn't choose me. Sooner or later, I'll shower her what she has to face!"

"Sir, let me try. I'm cultivating Water power Upanishad, which is gentle and supple. I will be very careful. What do you think?" asked a big-headed man.

Hussein nodded. "Be careful. If you damage the treasure, I'll cut your penis!"

"Don't worry, sir!" The man winced, gingerly walked to the column. He had only First Sky of Immortal Realm, though. He placed two hands on the rock column, sending out two cold, blue water currents. The God power from the water slowly seeped into the rock column and tried to see the situation inside.

Boom!

A brutal, frenzy, bloodthirsty, and heartless aura blasted like a flood current. It moved against his current of God power and entered his brain.

Instantly, the warrior was filled with restless and angry feelings. He wanted to kill all creatures around. He roared "Kill" as his energy rocketed like a varmint. He turned around all of a sudden, gliding to the nearest warrior. The rapid water arrows shot out from his chest and exploded grumblingly.

As the other was focusing on observing the rock column, he got hit without being able to duck.

Thud!

The light cage protecting this man shattered as though it was made of glass. The water error pierced through his chest. The others could hear his bones crack. He spurted blood.

"Darke! You motherf*cker! You're crazy!" thundered Hussein.

"He's really crazy!"

The beefy man of the Ancient Monster Clan called Darke had the rapid water twirling around him, turning into so many water arrows and shooting everywhere.

The warriors from the Ancient Monster Clan screamed and scattered. They all saw the other abnormal condition.

"It's because of that rock column!" cried someone.

"Seize him! Let me control him!" Hussein yelled.

The wounded man had a dent on his chest. Blood oozed from the corners of his mouth as he was blown backward, breaking some rock column by his back. He looked ashen afterward.

Aside from Hussein, the warriors of the Ancient Monster Clan were attacking furiously as if they didn't care if they could hurt Darke. They quickly attacked him to the point he was dying then tied him up.

"Wake him up!" said Hussein.

A warrior with a cold face sent a wisp of cold Soul Consciousness into Darke's head. Darke shook violently and then his eyes looked lucid. He pointed at the rock column as if he had encountered spooky ghosts. "It's not good there! Strong killing intention! It can seep into the Sea of Consciousness fast. It should be some evil treasures inside. Guys, you have to be careful!"

"Then we have to break this column first," Hussein pondered and spoke with a cold face.

"Let me do that," said another warrior. As soon as he urged his power Upanishad, a sharp metal blade appeared. It was like a dazzling gold sword as it hacked down on the stone column.

Crack! Crack!

Fire sparked. So many space sabers shot out from inside the column, disorderly cutting everywhere. The warriors of the Ancient Monster Clan had to duck with frightened faces.

"Damn! Why is there a space barrier?"

"No!"

"No! Someone is in there. I can feel the aura of living beings. Although it was just a flash, I'm sure someone is there!" screamed the man who had wounded by Darke. He suddenly screamed while staying away from the scene to rest.

"Right, someone is inside the column!" Hussein was shocked. When the space sabers shot out, he could feel a familiar aura. That aura came out with some erotic smell that made him baffled.

"Break it! Do your best!" shouted Hussein.

"Yes sir!"

The warriors of the Ancient Monster Clan attacked at the same time. The lights of the divine weapons, waterfalls, mountain and water hit the column at the same time.

As many energies from the power Upanishads and the secret treasures were attacking at the same time, the space barrier inside the rock column couldn't stand it anymore. Hussein then saw the rock column explode.

Hussein gawked at the scene after the column had broken. He felt like someone had just hit him hard in his chest. His blood churned as he almost vomited.

[God of Slaughter](#)

Chapter 1444: Mei Ji's Harvest

18+

The rock column exploded and exposed two naked, twisting bodies.

The man's body looked as beautiful as if he was carved out of marble. Each curve of his body was clear and full of exploding energy.

The woman's body could be deemed perfect. She was like an exquisite masterpiece of art, which looked flawless and incomparably beautiful.

At this moment, the woman was lying under the man, her blushing face glistening with sweat. They were protected inside a splendid light cage, which made Hussein's team baffled.

"Mei Ji... It's Mei Ji of the Phantom Clan!"

"That man... He's the one everybody is searching for!"

The two beefy men of the Ancient Monster Clan stammered. They didn't notice Hussein's shaking body and firing eyes.

Hussein looked at the other two, his wrath rising. The Goddess in his heart, the amazing treasure he had dreamed for, was lying under a man, moaning and murmuring.

Although he had seen just a little part of Mei Ji's body because Shi Yan was towering her, he could clearly see the pleasure on Mei Ji's face. Apparently, she was enjoying being touched and conquered.

Hussein's face reddened as he felt like someone had just punched him hard in his chest. He screamed like a caged animal. "I will kill you!"

Starlight rippled from the cage. Suddenly, the light cage became translucent. They couldn't see the scene inside.

Abruptly, Hussein transformed into a beast. The fur on his entire body rose, his bones cracking. He grew half a meter taller, fur covering his face. He was screaming something unclear as he barged into the light cage.

A cold feeling that was chilly to the bone came out from the light cage. Shortly, the sea water froze and created a terrifying glacier barrier.

Hussein bumped into the thick ice layer. His down fell off of his body after he hit the thick ice. The ice then had many cracks. "Take action, all of you. Kill that slut for me!" Hussein thundered crazily. He became frantic as if his mental disease finally burst out.

He had been infatuated with Mei Ji for many years, but he didn't have a chance to hold her hand. He could only satisfy himself with the women whose look was similar to Mei Ji. Mei Ji used to hit him hard, anyway.

In his eyes, Mei Ji was a perfect woman on a high throne. She was too perfect to be trespassed by anyone. In front of him today, Mei Ji was serving a man. She gasped and moaned gently. This image had torn the perfect Mei Ji in his heart.

He felt a hard thrust into his body and twisted, leaving so many wounds.

Under such a given circumstance, he directly transformed into a beast, a special technique of the Ancient Monster Clan that would trigger the most mysterious feature of his bloodline. He screamed and howled wildly. He had to tear Shi Yan into pieces.

As soon as his subordinate saw him that way, they knew that Hussein had lost his mind. If they didn't follow him, he would kill them all. They didn't hesitate to urge their power Upanishads and strike their God power on the thick ice.

Crack! Crack! Crack.

The thick ice stood still under the bombarding.

Behind the ice, two bodies inside the starlight cage were still entangled with each other like two twisting snakes. They were passionately doing the wild things.

That blurry scene poked Hussein's eyes. He hated how he couldn't eat that man alive. He wanted to crush him into pieces.

"Ahhh...hmmm..."

A soft moaning came from Mei Ji's mouth and the wild movement inside the cage stopped.

That man squinted slightly, wearing a cold face as he pulled out of her. He sat upright inside the light cage. He didn't mind his naked body, closing his eyes and ordering deliberately. "Kill them."

He acted like he was Mei Ji's master and could order her as he pleased. He could even force her if he wanted.

Strangely, Mei Ji listened to him obediently. She said "uhm" softly and then took out a long coat, which covered her body from her breasts to her thighs. She showcased her shoulders, her beautiful legs, and deep cleavage and walked out of the starlight cage.

Her jade-like feet stepped on the bubbles as she strolled into the thick ice layer. Mei Ji was like a blooming flower, her eyes watery with the colors of the spring that still showed she was thinking about her romantic experience. At this moment, her posture and appearance after enjoying the intimate things between a man and a woman could pump every man's blood faster. "Poor little Hussein, didn't I teach you enough last time? You want to court death when you come to this seabed?"

"Who is he? Who is that damn kid?" Hussein screamed wildly.

His soul was about to explode because of jealousy. Mei Ji had never given him face. She always mocked him with the position of a superior. She had even hit him. However, she was obedient and tender to that man. It enraged him so much that he wanted to vomit blood.

"He's my man. Did you feel angry when you saw my man love me?" Mei Ji grinned. Her line of sight passed Hussein. She didn't care about the flame of anger in Hussein's eyes as she beamed at the warriors of the Ancient Monster Clan. "Am I pretty?"

"Hell yeah!"

"Sure you are!"

"Yes! Yes!"

The warriors of the Ancient Monster Clan looked baffled. They nodded to her.

"Are you willing to help me do something?" Mei Ji asked them gently.

"We are!" they nodded to her.

"Kill Hussein for me," Mei Ji smiled charmingly.

Hussein's subordinates looked like they were struggling. All of a sudden, their eyes showed their craziness. They became excited and attacked Hussein.

"You despicable sl*t! You dare instigate my warriors to kill me!" cried Hussein. Flows of his God power congregated and created a massive silver shield. He used it to parry his subordinates.

"All of you will die."

Mei Ji's voice was gentle. The thick ice in front of her cracked when she touched it. Walking out bare-footed, she looked so beautiful. Her exposed skin was like crystal that shined mesmerizing light.

Mei Ji's charming bearings had increased after her romantic affair with Shi Yan.

She walked out of the ice rock, her watery eyes moving. Suddenly, she looked so thrilled. Her voluptuous body couldn't help but quiver. She turned to Shi Yan who was closing his eyes quietly while sitting cross-legged inside the light cage, her heart filled with a joy that she couldn't explain.

She just recognized that the wounds that troubled her for a long time had healed. Her God power had recovered and it had surged and become purer.

Her blood, flesh, bones, and the soul altar had all strengthened unknowingly. It seemed like a mysterious power had washed her entire body and refined her every bit of her.

At this moment, she felt much better than when she went to Dragon Lizard Star!

After having sex with him, the benefits she received was amazing. Not only were her body and spirit pleased but her power also increased and her wounds recovered. She could feel her body transform too!

It was unimaginable!

Mei Ji looked at Shi Yan sitting over there, her bright eyes infatuated. She bit her lower lips and her face was aroused in a way that could make any man's heart beat frantically.

She didn't even bat an eye at Hussein in the besiege of his subordinates behind her.

She didn't look at Hussein, but Hussein was gazing at her. Looking at the woman with her passionate eyes fixed on another man, Hussein was flooded with jealousy. He roared hoarsely, "I have to kill him. I swear I will kill him."

Finally, Mei Ji turned around, the charming expression disappearing from her face. She became so cold. "I will kill you first! Don't worry. If your warriors can't kill you, I will do it myself!"

Although they were all men, she had treated them much differently.

"You have to push him further. Do all that you can to kill him." Mei Ji's face was cold but her voice was soft and begging as if she could reach their hearts.

Her voice echoed in the Ancient Monster Clan warriors' heads like the voice of ghosts. They became wilder. They didn't care about their lives and urged their best attacks.

The warrior who had cultivated Metal power Upanishad turned into an extremely sharp blade. He parted the sea water and thrust into Hussein's shield. It looked like he was burning his life to take the energy. The shield exploded. Hussein lost his defending weapon. He had to take action.

Crack!

He broke his subordinate's neck and grinned. "All of you have to die!"

The other warriors weren't afraid of death as they stormed toward. Some of them had the flame of a soul burning in their eyes. Mei Ji had made them completely mad.

However, their realm was lower than Hussein's. When they came to be Hussein's subordinates, Hussein knew all their weaknesses. Some even had given him their Soul Seal. As his rage had flooded him, Hussein couldn't control them or mind their lives. He decided to use his secretive tricks.

Boom! Boom! Boom!

Three of their soul altars exploded. Their heads shattered like falling watermelon.

Some had cracks in their chests, which expanded rapidly. Then, their bodies shattered as if they were some china that fell to the ground.

Hussein resolutely took action. He didn't mind his subordinates as he killed them all. He had to consume energy, which made him very tired.

At this moment, Mei Ji's beautiful feet appeared in his sight. "I can't believe you're that cruel. You've planted the deadly seal into your subordinates. I've underestimated you. I have no choice, then. I have to take action myself."

"Mei Ji, you can't kill me! I know you're wounded badly. Cousin Yerburch told me that you got wounded badly. Haha, I will capture you first and then that kid. I will ** you right in front of him. Then, I will kill you all! Haha, awesome!" grinned Hussein fiendishly.

"Go f*ck your mother! You cross-breed!" Mei Ji hissed through her gritted teeth.

A triangular ice crystal emerged from her palm, which was generated by her God power. The ice crystal was extremely cold. Strangely, it was partly visible!

Mei Ji was a little bewildered for a few seconds. Her body shook hard, her beautiful face disbelieving. She was almost choking on her breath as she screamed, "Dark... Dark Energy!"

Chapter 1445: Be an Obedient Woman...

Using her Soul Consciousness to check her body, Mei Ji found wisps of a strange energy in her Sea of Consciousness. They were partial visible as if they were flickering flames that would extinguish at any minute.

She urged the Ice power Upanishad. Ice crystals emerged from her palms with her Soul Consciousness.

Her Soul Consciousness now had some wisps of energy that could make her snowflakes invisible. They looked fake somehow.

Mei Ji at the Peak of Immortal Realm had tried to cultivate and understand Dark Energy numerous times. Sometimes, she risked her life, which had almost pushed her into bedevilment and death. Torment and difficulties were what she had experienced while comprehending Dark Energy.

As the Phantom Clan had decided against her will that she must marry Batum, her desire for Dark Energy reached a frantic level.

Thus, while in Dragon Lizard Star, when she found that Shi Yan had fused with the Absolute Beginning creature's soul, she had tried everything to chase after him.

After so many adversities, she couldn't get it. After having a romantic time with Shi Yan, it appeared all of a sudden in her Sea of Consciousness. Mei Ji was baffled. She thought that she was dreaming or hallucinating.

"Why is that?"

Mei Ji mumbled unconsciously. The Ice power Upanishad was still moving. The ice crystal released the extremely cold air.

"You lewd woman!"

Seeing her in a daze, Hussein thought that his chance had come. He roared like a beast and stormed toward her.

Boom!

A ferocious, giant ape stormed out of Hussein's head. It was more than one hundred meters tall. Although it wasn't really solid, its roar shook the sky as if it could break it shortly.

It was another secret technique of the Ancient Monster Clan. They could rebuild the image of their ancestor in their bloodline to perform a supernatural power. The giant ape howled. The seawater exploded by the sound waves. At this moment, Hussein's skeleton grew and stretched behind the giant ape. He had transfigured into a smaller ape which was pounding its chest brutally.

Thud!

Mei Ji's body shook when the furious waves attacked her. Magical waves rippled from her breasts.

Her perplexed eyes were clear now. She beamed beautifully. "Ice blast!"

Boom! Boom! Boom!

The ice behind her exploded. Thousands of icicle jutted out and shelled the giant ape.

The giant ape roared furiously. Its arms were like massive pillars pounding on Mei Ji's head.

Mei Ji giggled. The ice crystal in her palm slowly flew out and turned into a cold light dot, falling onto the giant ape's chest.

Crack! Crack! Crack!

A strange sound echoed from the inside of the giant ape. Shortly after, the ape froze as if it had a glacier running in its body.

The giant ape and Hussein screeched painfully. Hussein was bleeding terribly. He limped backward. Every step he made, a stream of blood gushed out of his body. He was aghast. "Impossible! Even at your peak condition, you never had such intimidating powers!"

Mei Ji smiled charmingly and nodded to him. "Right. Even when I was at my peak condition, I have never had such pure energy. Poor you, you're really unhappy. You always encounter me after I just leveled up. Death serves you well."

Boom! Boom!

The giant ape exploded. Pieces of ice twirled and congregated, turning into a small ice crystal.

The cold light in Mei Ji's eyes flashed. The ice crystal turned into a jet of light disappearing strangely as if it had its own consciousness.

Hussein was shaken. His face paled as he looked at his chest.

A bleeding hole appeared in his chest where blood was gushing. He felt his internal organs freeze. The chilling energy had invaded his soul altar. His consciousness became hazy and blurry.

He fell helplessly and crushed many rock columns. The expression on his face ceased.

Mei Ji walked bare-footed. A crystal blue light cage covered her body. She moved gracefully towards Hussein. "I agree with that asshole to kill anyone in our way. You've insulted me before. Of course, you have to disappear. We don't want to leave any possible danger."

She looked at the shattered body of the Sea Clan young women, sighing and mumbling to herself, "I took revenge for you too."

"Swoosh!"

A cold light shot out from Hussein's mouth. The ice crystal returned to her hand and melted.

At this moment, a black hole flew out from Shi Yan's light cage and covered the corpses of the Ancient Monster Clan warriors. The black hole was taking in countless wisps of energy.

Shi Yan stood still. He was still naked, his eyes closed. He didn't seem to worry about Mei Ji.

Shortly after, the Essence Qi and the soul energy from the dead warriors of the Ancient Monster Clan were absorbed. Those bodies desiccated and grayed.

Then, Mei Ji urged her power to dig up many deep holes in this rock forest to bury the corpses of Hussein's team and the bodies of the Sea Clan women.

Concealing all the streaks of the battle, Mei Ji smiled and turned into a mirror-like rock column. She happily checked the glow on her face. She was delighted when she saw the minor changes on her face after having intimate activities. She couldn't help but hum some folksong of the Phantom Clan. She looked like a young maiden falling in love for the first time.

After a while, Shi Yan finally opened his eyes and covered his body with a black robe. He stood up and said, "We should go."

Mei Ji's graceful body flashed and she wormed into his light cage, sticking to his arm. She was definitely a girl in love. "Do you know that I got Dark Energy in my Sea of Consciousness?" She was so happy that she couldn't arrange her thoughts well, her cheeks blushing. The naive expression of a maiden and the mature features that only mature women could have had combined perfectly on her, making her more mesmerizing and strikingly attractive.

Having Dark Energy meant she had a real chance to reach the Territory Ancestor Realm. It was what she had in her mind and in her dreams. How could she not be thrilled?

"You should say thanks to Gan Fu and Batum," said Shi Yan, looking pensive.

Gan Fu and Batum understood Dark Energy's powers. He had swallowed Gan Fu's and Batum's soul altars, which had stagnated his refining. The main reason why he had almost become frenzied was because of the Dark Energy from Gan Fu and Batum.

Refining their Dark Energy to become something he could use was a tough move. It was the reason why he couldn't refine the other energy quickly. They had accumulated and jammed his Devouring power Upanishad.

When he had sunk into pleasure with Mei Ji, the negative energies released and filled the sealed rock column. While Darke was using the power of water to sense, his brimming negative energies had found a channel to drain. They hit Darke's soul altar and made him crazy.

He had regained his sound mind after he released the negative energy. At the moment, Shi Yan and Mei Ji reached the climax in the vague fantasy feeling. Part of the enormous refined energy had transferred to Mei Ji.

When Mei Ji's God power reached a new height, her body had refined and her life form had advanced. At the same time, a part of Dark Energy from Gan Fu and Batum had reached Mei Ji's Sea of Consciousness. Shi Yan didn't know why or how.

"The Dark Energy in my Sea of Consciousness came from Gan Fu and Batum?" Mei Ji felt funny.

"Yeah, I can tell that Gan Fu's and Batum's death had helped you." Shi Yan nodded and then continued, "Of course, most of their Dark Energy has come to my Sea of Consciousness. You got twenty percent of their energy. But I don't know how to help you cultivate Dark Energy further because I don't understand it, anyway. Perhaps it's because I haven't reached the Territory Ancestor Realm yet. There's something I need to learn. When I have a breakthrough to Territory Ancestor Realm, I can finally comprehend the power of Dark Energy."

“I got a lot of benefits. How about you?” Mei Ji smiled.

Shi Yan squinted and sensed for a few seconds. He smiled at her, “I just need to understand the realm further and I can get into Second Sky of Immortal Realm. My body, strength, and soul altar are at the edge of a breakthrough. As soon as I understand the power Upanishads further, I can reach the Second Sky of Immortal Realm immediately.”

Mei Ji’s eyes brightened.

Anyway, there was something that Shi Yan didn’t tell her.

During this course, the Essence Qi and soul energy from the dead had become mysterious energy after being refined. The amount of this energy had gone beyond his upper limit. Although he had sent a part of it to Mei Ji, it was still brimming and surging. Also, a massive part of it had swarmed into the Absolute Beginning Original Symbol inside his Life Ball.

At this moment, the Absolute Beginning Original Symbol was like a massive life with magnificent and abundant life energy that nothing could compare to. It was his new source of life where he hid a life.

He could feel that even if someone shattered his body and exploded his skeleton, as long as he used the ultimate power called the Surging Vitality, he could gather the life inside that Absolute Beginning Original Symbol to recover his body. He then could have an undying body that was as strong as a dragon.

It helped his fighting a lot.

When he thought about it, he could resume his perfect body with just a mere thought when he was wounded and dying. His body ended up having full energy and surging vitality. How amazing could it be?”

“That Hussein something seemed infatuated with you for a long time, wasn’t he?” asked Shi Yan all of a sudden. “Guys who court death deserve death. But you didn’t show a bit of mercy. Will you treat me that way later?”

“If you dare to abandon me, I’ll kill you too! Ha!” Mei Ji gritted her teeth but then burst out laughing. “I’m unlucky though. I lost to your hands. I can’t escape you. If you want to ditch me one day, even if I want to kill you, I won’t be able to.”

“As long as you’re obedient,” Shi Yan grinned and placed one finger on her fragrant, red lips, “I like obedient women. If you can do that, nothing will happen to you.”

“I will behave and obey,” Mei Ji smiled until her eyes squinted. She skillfully sucked his finger, her tongue curling around it.

[God of Slaughter](#)

Chapter 1446: Massacre the Entire Island

Phantom Clan's island base.

The wall of the secret chamber had so many crystals set that shined on the purple crystal in the middle. The magnificent crystal radiated beautiful beams of light.

Yu Lian and the two beautiful ladies of the Phantom Clan were busy moving around the secret chamber. They didn't even have time to rest.

"Yu Lian jie-jie, do you think Madam Mei Ji is going with that Shi Yan?" asked a naive-looking young lady while she moved a crystal on her ten skillful fingers, her fingertips shooting electricity.

"Xiao Meng, what do you think?" smiled Yu Lian.

"I think it's impossible," Xiao Meng shook her head. "Madam Mei Ji is the most excellent woman of our clan. Hussein and Batum are infatuated with her. She even has the Third Sky of Immortal Realm. She's potentially going to breakthrough into Territory Ancestor Realm. Shi Yan... hmm, that guy has just the First Sky of Immortal Realm, right? Why would Madam Mei Ji want to run around with him?"

"Because he may get the Power Upanishad Symbol Tower," Yu Lian smiled. "Of course, it's just what people are guessing. No one knows the actual situation. What we have to do now is to send the breaking news to Madam Mei Ji from the five clans. She needs to stay updated."

The other lady who hadn't said anything from the beginning suddenly said, "Mei Ji isn't answering anything."

"I think she can't at the moment," Yu Lian frowned and looked at the massive purple crystal floating in front of them. "This Spirit Information Amethyst sends her information. As long as she's within the Sea of Annihilation, she can receive it. Anyway, passively receiving information won't disclose her location. Once she answers, the Spirit Information Amethyst can detect her location..."

"Why is she so afraid? We won't sell Madam Mei Ji!" said Mei Ji.

"Of course, we won't. I'm just afraid that someone could use this to find her," sighed Yu Lian.

Recently, the members of the five clans had sent their messengers to the island to pressure them and ask them to hand the Spirit Information Amethyst. They wanted to use the crystal to lure Mei Ji and detect her location.

Yu Lian felt the pressure swell after every day. Yesterday, she had sent the message to the headquarters. After the experts of the clan found out about this, they had decided to send someone.

However, the Phantom Clan was pretty far away from the Sea of Annihilation. Even if their hotshots moved non-stop, it would take a long time to get to the Sea of Annihilation. For the time being, it was going to be hard to ensure that the experts of the other five clans would wait for them patiently.

----- As Mei Ji had left, this island didn't have a true expert to guard. If the enemy barged in, they were going to have to endure passively.

The three ladies were talking to each other in the secret chamber. They were collecting intelligence from those small crystals, sorting them, and then sending them to the massive purple crystal. Each member of the Phantom Clan could get the information from that crystal.

A small crystal suddenly glowed. Xiao Meng raised one hand to grab a beam of green light. She closed her eyes to sense for a while. Then, her small face changed. "Hussein and his troopers were murdered! It's breaking news from the Ancient Monster Clan. Their soul ropes in the clan were broken. Their souls vanished!"

Listening to her, Yu Lian was frightened. "The Ancient Monster Clan will become indignant. They will attack us here!"

Boom!

The small island was shaken hard. The barriers on the island were torn. Residents on the island all heard someone shouting.

Thunder rumbled as if it wanted to turn the sky upside-down. The entire world was shrouded in thunder and lightning. The three young ladies in the secret chambers discolored in fear.

"Ferrell! It's Ferrell who has a close friendship with the Ancient Monster Clan!" Yu Lian cried. "Farrell is one of the three great Territory Ancestors of the Sea of Annihilation. He often stays on the seabed to cultivate. He rarely comes to the surface. He came here this time because of Hussein. The Ancient Monster Clan must have asked him. He came here for the Spirit Information Amethyst!"

"Then what should we do?" Xiao Meng was about to cry. "Even if Madam Mei Ji is here, she's not his match, let alone us!"

Yu Lian frowned and thought, Then, her face turned resolute when she said. "We can only do what we can!"

Her ten fingers moved fast and sent a message to the Spirit Information Amethyst. "Madam Mei Ji, Ferrell is attacking the island. He may use the Spirit Information Amethyst to lure you. From now on, don't trust any news you get from here!"

After sending the message to the crystal, Yu Lian said, "Guys, cut off the connection of all the information crystals here. Shut down the central Spirit Information Amethyst!"

Xiao Meng and the other young girl reacted quickly. They fumbled as they rushed their tasks. In this secret chamber, countless sparkling crystals on the wall lost their light like extinguished lanterns.

At the same time, an eccentric-looking, middle-aged man with long hair draped around his shoulder was floating in the sky and punching the island.

So many lightning balls fell unceasingly like meteors. They bombarded the barriers and restrictions on the island base of the Mei Ji into powder. Those lightning balls flew like eyes observing the entire islands. They found the Phantom warriors and killed them all, crushing them into pieces.

The old man looked calm as he landed like the God of Thunder on the flowery island. Lightning shot out of his eyes and demolished the palaces on the island.

His body flashed and reappeared in the secret chamber underneath. He frowned. The three thunder balls flashed and flew away. They captured the three girls. Shortly after, their souls perished.

At this moment, all the warriors on the Phantom Clan's island were slaughtered. No one could escape.

The man's eyes sparkled strangely as he gazed at the crystals inside the rooms. He spotted a message flashing inside the crystal floating amid the room. He used his Soul Consciousness to sense. He changed his face slightly as he knew that he was one step late. He knew that Yu Lian had sent the message beforehand.

Snorting, the thunder balls twirled around him. The big and small crystals in this secret chamber exploded at the same time. He turned into a jet of light and soared up into the sky. The small island underneath cracked and sounded like doomsday. Shortly after, the entire island got fragmented and slowly sank into the sea.

The base of the Phantom Clan slowly disappeared.

Seabed.

Mei Ji's body was shaken. Her beautiful eyes flared with a strange light. She took out a fist-sized crystal, which was also a purple one.

At this moment, the purple crystal had so many light dots that began to extinguish. After each light dot disappeared, Mei Ji's face got paler. She was shivering.

Shi Yan frowned as he noticed Mei Ji's changed visage. He was a little perplexed.

"Yu Lian, Xiao Meng, they're all dead. All were murdered. The light dots in this crystal represent their lives. When they disappear, it means that their souls perished." Tears lingered in Mei Ji's eyes. She bit her lips and felt so helpless and powerless.

Shi Yan was bewildered. He recalled the young girl called Yu Lian. Yu Lian had talked to him not a long time ago. She had even pried on the relationship between him and Mei Ji. He couldn't believe that after just a link, the entire island decorated with flowers everywhere now had corpses laid in every corner. No one was left alive.

To the other people of the Phantom Clan, Shi Yan had good impressions. During this time, those girls had continuously sent Mei Ji intelligence of the five clans.

With their timely updates, Shi Yan and Mei Ji could assess the situation and avoid the traps that the enemies had set up. Today, those girls were killed. Shi Yan and Mei Ji had lost their eyes. They couldn't receive the information of the other five clans' commotions. They wouldn't know what experts and preparations that the others had prepared for them.

"Who did that?" grunted Shi Yan.

"Ferrell!" Mei Ji hissed, "Yu Lian knew that they couldn't escape. She sent me the message at the critical moment. She told me that I had to be careful and to not trust the news that I will receive later. She knew that she would be killed. It's the last message she told me."

"Farrell? Who is he?" asked Shi Yan skeptically.

"One of the three Territory Ancestors in the Sea of Annihilation. The Emperor Sea Shark, Ferrell, and Ricardo are all experts at the Territory Ancestor Realm. Most of the time, they stay and cultivate on the seabed. They will only go to the sea surface to collect or exchange when they need some special material.

"Ferrell cultivates Lightning and Electric power Upanishad. He's close to the Ancient Monster Clan. They rumored that he was the offspring of a human woman and an ancestor of the Ancient Monster Clan.

Because of the bloodline, even he isn't a pureblood, he has a close relationship with the Ancient Monster Clan. Hussein and Yerburch, the ones we killed, often brought him various gifts on special occasions of the Ancient Monster Clan. They consider him their senior, but he rarely cares about the clan's business. This time, he slaughtered our island because of Yerburch and Hussein's deaths."

Pausing for a while, Mei Ji's eyes were so sad. "We have indirectly put Yu Lian, Xiao Meng, and the others to death."

Shi Yan sighed and comforted her. "With your current realm and cultivation base, as long as you put more efforts in your cultivation, you will have a chance to take revenge soon."

"I know," Mei Ji wiped the tears in her eyes and gritted her teeth. "I swear! I will take revenge for her. I will kill Ferrell and use that life to worship Yu Lian and the others!"

"They died for us. I have the same responsibility. I will remember Farrell's name," said Shi Yan in a low-pitched voice.

"From now on, we can't count on my clan's intelligence anymore." Mei Ji tried to subside the agony in her heart and sort her thoughts. "Farrell has taken action. It means that the real experts of the Sea of Annihilation are going to aim at us. It'll be very rough for the coming time. We shouldn't let anyone corner us. Or else, when a Territory Ancestor comes, our efforts will have been for nothing."

"Yeah, for safety reasons, we should disguise ourselves too," Shi Yan said coldly and calmly.

"Yeah, from now on, we can't make any mistake! We have to mask every small detail that can reveal us!"

Chapter 1447: Disguise and Sneak

A corner in the seabed.

Tu Shi Qi, Ya Yun, and Dragon Lizard were moving around aimlessly. This area belonged to Emperor Sea Shark. They came here because they heard that many crews of the Sea Clan had disappeared mysteriously lately.

The three of them began to doubt if it was related to Shi Yan somehow. Thus, they rushed here from another area to search around.

Some bell jingled in Ya Yun's sleeves. She focused on sensing for a while, her face stern. "Breaking news. Hussein of the Ancient Monster Clan was killed. None of his troops survived."

Tu Shi Qi and Dragon Lizard changed their countenances.

Hussein was another important person who was killed recently!

He was the manager of the Ancient Monster Clan in the Sea of Annihilation. His position was similar to Mei Ji and Ling Mei. Also, he was murdered on the seabed. With his power and his background, not many people dared to kill him.

Tu Shi Qi doubted that Shi Yan's team had done that!

They eventually confirmed that Shi Yan didn't have Mei Ji go with him. Gan Fu of the Devouring Clan was at the Peak of Immortal Realm and she had Dark Energy. She was killed too. It was enough to prove that Shi Yan had some other experts accompanying him. With only Shi Yan and Mei Ji, they couldn't match Gan Fu.

Moreover, Ling Mei, Yerburch, Telika, and Farlow were all dead. It had proven that one of the murderers were going to enter the Territory Ancestor Realm soon!

Thus, when they heard that Hussein was dead, they weren't very surprised. They suspected Shi Yan immediately. If the others knew Hussein's identity, they wouldn't have dared to kill him.

"I know Hussein also came to this area. The Ancient Monster Clan should know where they died. Through a secret technique, they knew it when their bestial souls lost connection," said Tu Shi Qi.

"Actually, they provided some details. They said it's in a rock forest," said Ya Yun.

"A rock forest?" Dragon Lizard's eyes brightened. "I had senses with my Soul Consciousness and I found a blocked area. It should be the rock forest!"

"Let's go!"

The three of them accelerated and moved as if they were flying. They reached the rock forest quickly.

"Their bodies must have been buried. Let me dig them up." Dragon Lizard's human clone was hovering above the rock forest. He sent many spiral wisps of God power to the rock forest and dug up the area.

Boom!

One wisp of his God power hit something rigid. His eyes brightened. He immediately landed and released more God power to dig up a large area.

Shortly after, Hussein's body and his subordinates, including the Sea Clan ladies were found. Dragon Lizard focused and observed the withered corpses. He said certainly, "It has been around three days. They're close by, probably! Hussein was cut off by the cold energy. This cold energy likely came from Mei Ji."

Tu Shi Qi and Ya Yun looked excited. "It seems like they haven't been gone for a long time!"

Dragon Lizard pondered for a while and then said, "What will you do when you meet them? Will you kill them? Honestly, I owed that kid a favor and you had invited him to join the Mysterious Sky Clan. Have you made up your mind yet?"

Tu Shi Qi and his wife quieted down.

After a while, Tu Shi Qi said with a forced smile. "Ling Mei was the granddaughter of Forefather Han Tian. If Shi Yan's team killed her, it will be very hard for us to decide. Of course, if Shi Yan agrees to join us with the Power Upanishad Symbol Tower, I think... maybe forefather Han Tian will tolerate him..."

“Yeah, Shi Yan’s attitude is the key. If he agrees to join the Mysterious Sky Clan, we can avoid the dispute,” said Ya Yun, “otherwise, we will have to take action. We don’t have another option. Or else, when Forefather Han Tian knows this, we won’t be able to explain it to him well.”

“Agree with me and give him a chance to choose,” said Dragon Lizard.

“Okay,” Tu Shi Qi nodded.

Dragon Lizard exhaled in relief. He thought that he had repaid the kid’s father. That’s all he could do for him. “They’ve left for only three days. They should be close by. Release the news. More people coming will force them out.”

“Right,” agreed Tu Shi Qi.

“I am Adams and you are Masha. We’re from the Heavenly Eye Clan. I’m your senior...”

Shi Yan was explaining to Mei Ji inside an emerald light cage.

At this moment, their appearances had changed greatly. Shi Yan had re-arranged his skeleton and muscles to turn himself into Adams’ appearance from what he could memorize. Then, he directed Mei Ji to change her beautiful face into Masha’s.

Adams and Masha were the members of the Heavenly Eye Clan with certified identities. If they had their appearances, they could solve a lot of problems.

“Well, this senior and junior relationship doesn’t sound normal, does it?” Mei Ji thinned her lips and glanced at the arm placed around her waist.

Shi Yan wasn’t embarrassed as he smiled deliberately. “You shouldn’t be like that. Your eyes are still so attractive. You need to dim the light in your eyes a little more. Moreover, the closed eye in your forehead should be a little more protruding. It’s the unique mark of the Heavenly Eye Clan...”

“Is it okay now?” Mei Ji was surprised. Her thoughts changed and her bright eyes became darker. She didn’t look very attractive.

“Yeah, not very different,” Shi Yan nodded. Noticing the dark gleam in her eyes, he was baffled for a while before he could mutter, “Don’t think about Yu Lian and the others...”

“Sigh . . .”

Mei Ji sighed weakly. “I can’t let it go that quickly. Although I’m happy to go with you, I get so sad when I think about how they are all dead. You told me to dim my eyes. I suddenly remembered them...”

Shi Yan contemplated for a few seconds and then told her, “Don’t worry. I promise that I will help you kill Ferrell.”

“I think you have been seeing many warriors go to this sea area lately. We killed Hussein. I’m sure they will guess that we’re nearby,” Mei Ji sounded heavy.

“Yeah, that’s why we need to disguise ourselves. As long as we can conceal our auras, even when we face the ones seeking us, they won’t know.” Shi Yan looked forward. “Many warriors are doing something on our way ahead. We can’t avoid them. We must act more carefully.”

Mei Ji nodded, "I understand. I will try to get rid of my sorrow. I won't let it show on my face and affect our journey."

The two of them used Adams and Masha's disguise to move further. They slowed down and hid the sharp auras on their bodies.

Half a day later.

"There's a troop in front of us. Pay attention. We can't fight people here because there are more troops around. Once the battle takes place, they will swarm us," said Shi Yan all of a sudden.

Mei Ji gently nodded.

A group of six warriors rested inside the reefs on the seabed. The six of them were sitting on a rock and closing their eyes to adjust their breathing.

Apparently, they were terrestrial warriors. They had to use the light cage to protect their bodies from the water pressure. It was the difference between warriors from the sea surface and warriors from the seabed. The members of the Sea Clan dwelled undersea. They didn't need to use an energy light cage to protect their bodies. They were born with the gift of being immune to the horrible water pressure here.

The six of them included five males and one female. They were from the Human Clan, the clan with the largest population in this vast sea of stars. Only the female expert in this group had Second Sky of Immortal Realm. The other five males were at First Sky of Immortal Realm.

The five males looked to be middle-aged as they had many wrinkles. They were recovering with calm faces.

The Second Sky of Immortal Realm woman looked to be in her forties. She had an average appearance, which wasn't as beautiful as Audrey in her disguise. However, the woman had elegant bearings that had made her more attractive.

As the two groups were far from each other, the five men couldn't sense anything. However, the woman arched her brows, waking up and coughing slightly.

The five middle-aged men shuddered and woke up. They bewilderedly looked at the woman. "Xiang Rong, what happened?" asked a bony old man.

The woman called Xiang Rong stood up inside the green light cage and frowned. "Someone is coming."

The five men jolted up immediately. They instinctively put her in the center of their protection. Although their realms were lower than hers, they had to protect this woman. Apparently, she had a high position.

"No need to be tense. Their auras aren't so strong. They can't threaten us." Xiang Rong sensed and then sighed, "We shouldn't come here. I heard that Hussein was killed too. At our realms, we can't do anything."

"Haha, we're not here for the Power Upanishad Symbol Tower. We just hope to find some traces to exchange for the rewards from the five clans," smiled the bony old man. "The rewards from the five clans are really precious. We're here to try our luck. I heard that the seabed has many treasures and magical materials. If we encounter something, it will be worth the efforts we spent to get here."

“Old Gu is right,” nodded Xiang Rong, “I couldn’t see that point before.”

While they were talking, Shi Yan and Mei Ji inside the light cage drifted toward them and looked at the six people of the Human Clan. Shi Yan’s eyes sparkled strangely. He focused on their clothes but didn’t seem to talk to them. He kept a distance from them and just wanted to pass. He didn’t want to raise any trouble.

While they were watching Xiang Rong’s team, Xiang Rong’s team also observed them. After they found that the others weren’t the wanted ones, they felt both disappointed and lucky.

“We’re from the Potion and Tool League. We came to the seabed to collect blacksmithing materials. Also, who are you?” Xiao Rong suddenly greeted them smilingly.

“Adams from the Heavenly Eye Clan. This is Masha, my junior sister. We came to the seabed to travel around,” introduced Shi Yan. He looked at the clothes on Xiang Rong’s body and found many strange symbols on the hems. He was a little surprised, indeed.

While in Agate Star Area, he happened to have the Canon of the Potion and Tool Pavilion, which he had handed to Fu Wei later. When he got it, he had checked and found similar symbols in the Canon. They weren’t the Absolute Beginning characters as they were special symbols used in refining pellets and forging treasures.

The symbols on Xiang Rong’s clothes were the same as the ones he had seen in the Canon. It surprised Shi Yan discreetly.

Potion and Tool Pavilion and Potion and Tool League; was there a relationship between them?

Shi Yan was puzzled.

Chapter 1448: Capture

Shi Yan knew a little bit about the Potion and Tool Pavilion’s history.

Rumors said that a man had traveled through a space passage in the Shadow Ghostly Prison to come to Agate Star Area. That man had established Potion and Tool Pavilion. He had set up the rules and principles that had made Potion and Tool Pavilion the strongest commercial organization in Agate Star Area.

Apparently, that man wasn’t from Agate Star Area.

Many years had passed and the first Pavilion Master of Potion and Tool Pavilion was dead. Shi Yan had accidentally taken the Canon he had left.

Today, when he saw the symbols on Xiang Rong’s clothes that were similar to what he had seen in the Canon and the others had introduced that they were from Potion and Tool League, Shi Yan was moved.

Of course, with the current dangerous situation, he wasn’t interested in investigating the relationship between the two forces. He nodded to Xiang Rong and the old men then continued his journey with Mei Ji.

“Potion and Tool League? Have you ever heard about this force?” asked Shi Yan suspiciously after they had gone past the others.

As Mei Ji was the leader in charge of the Phantom Clan in the Sea of Annihilation, she knew many things in the area. If the Potion and Tool League was famous, Mei Ji should know about them.

“Of course, I have. They are a relatively strong force of the Human Clan. The Human Clan is the clan with the largest population in the vast sea of stars. The total number of their members is several times bigger than the entire seven clans. Anyway, human warriors aren’t good at cultivating. They are far behind the seven clans. Thus, the seven clans have ruled many territories of the Human Clan. Our Phantom Clan also has some human territories,” explained Mei Ji. “Anyway, not all of them are weak. A small part of them is really powerful that even the seven clans don’t dare to ignore them.

“As there are so many of them, they have formed different forces. Potion and Tool League is a relatively strong force. They were formed by the human alchemists and blacksmiths to refine medicines and tools. They trade with us too. Generally speaking, they’re just a normal force. They aren’t stronger than the Water Tribe. They can hardly rebel against any clan among the seven clans.”

Shi Yan nodded. “Did you see the special symbols on the woman’s clothes? Are they some special ranks for the blacksmiths and alchemists?”

“They are the special symbols worn by human blacksmiths and alchemists. They are nothing strange. Those special symbols represent their ranks and the material tool ranks too. Why did you notice them?” Mei Ji sounded surprised.

“I found them special,” Said Shi Yan.

“There are many forces gathering. We must be more cautious. We shouldn’t talk much to the others,” reminded Mei Ji.

“Right.”

“Heavenly Eye Clan? I didn’t expect that warriors from a weak race would come to the seabed. They don’t treasure their lives.”

After Shi Yan and Mei Ji had left, Old Gu ridiculed. “As I know, the Heavenly Eye Clan is just a third-class clan. They live in a remote territory where there are constant wars. Of course, they don’t have good lives. Not many warriors can cultivate to high realms. The Immortal Realm warriors are the best ones in the Heavenly Eye Clan. But if they come here, the others can kill them easily...”

“Everybody has his own way to survive,” Xiang Ring smiled, “Our cultivate bases aren’t enough to protect us here. Still, we came to see if we’re lucky, didn’t we?”

“That’s true,” said Old Gu.

Boom!

A small explosion came from a strange pendant on Xiang Rong’s chest. She was baffled for a while before she took out a silver chain and observed the broken pendant. The pendant was broken and it revealed a bizarre jade flake that was as big as a fingernail. It was glowing.

“Hmm, why is that?” Xiang Rong was surprised.

“What’s that?” Old Gu sounded suspicious.

“It’s a piece of the Power Upanishad Symbol Tower. A precursor in our league had it a long time ago. We kept it in the vault all the time. I took it out when we departed to the seabed. I use a pendant to keep it. I was thinking that if this piece of Power Upanishad Symbol Tower can change somehow when it came close to a complete Power Upanishad Symbol Tower....”

Xiang Rong frowned, “This piece was placed in the vault of the Potion and Tool League for so many years. It hadn’t reacted or glowed even once. In fact, I decided to bring it this time for fun. I didn’t think it could do anything.”

Old Gu was shaken, his eyes bright. “Then why is it glowing now? Is it true that... a Power Upanishad Symbol Tower is near?”

“It seems that it has begun to send the energy after that Heavenly Eye Clan couple appeared. I didn’t notice it at that time... But now, come to think of it, is it related to them?” Xiang Rong’s eyes brightened.

“Their appearances and race aren’t what the five clans want to find. Are you sure it’s them?” asked another middle-aged man.

“It’s easy to change appearances. It’s not important!” Old Gu became excitedly. “We’re not sure now. We should follow them to check when we come close to them. If this piece is still glowing, we can be sure that the couple is the reason... Haha! We’re going to be rich!”

“Right!” The others nodded. They were all stirred up.

“Be careful. Once we confirm that they’re the wanted ones, we will leave immediately. Do not create any conflict!” Xiang Rong frowned, “If it’s true, Mei Ji of the Phantom Clan is at the Peak of Immortal Realm, she can kill us all single-handedly. We have to leave before they spot us.”

“Xiang Rong is right!” appraised Old Gu.

All of a sudden, a group of six started following Shi Yan and Mei Ji. Because Shi Yan and Mei Ji were using Adams’ and Masha’s identities of the Heavenly Eye Clan, they had to slow down. Thus, the others could easily catch up with them.

“They are following us,” Shi Yan knitted his brows.

Mei Ji was perplexed. “Those warriors of the Potion and Tool League couldn’t recognize us. Their realms aren’t high enough and their power Upanishads aren’t something special. They must have some other purpose.”

Shi Yan thought the same. “Let’s see what they are planning to do.”

He stopped and waited with Mei Ji inside the light cage. They turned around to look. Fifteen minutes later, Xiang Rong and the others emerged. Xiang Rong clutched the piece of the Power Upanishad Symbol Tower in her hand, her heart beating fast. As they got closer and closer to Shi Yan, she could feel the energy rippling stronger!

It was them!

She screamed inwardly. Through the marvelous connection with the Power Upanishad Symbol Tower, she was sure that the Heavenly Eye Clan couple in front of her were the ones that the five clans wanted!

She tried to subside her excitement and maintain an indifferent and calm face. She halted and kept a safe distance with Shi Yan and Mei Ji as she smiled, "We have some items from the Potion and Tool League that can support your power Upanishads. I wonder if you are interested."

Shi Yan frowned and said impatiently. "Not interested."

"Oh, so I shouldn't bother you guys more." Xiang Rong wished that he would say so. Seeing him deny, she signaled Old Gu and the others. They left immediately even faster than when they came.

"After they made some distance from Shi Yan, Old Gu asked, "It is them, right?"

"Yes, they are!" Xiang Rong hissed excitedly. Thrill appeared on her face and even in her movement. "The broken piece reacted powerfully. It had almost flown out of my hand. It seemed to want to enter that Heavenly Eye Clan man!"

"Excellent!" Old Gu rubbed his beard. "We're lucky this time. When this is certified, we'll get the rewards from the five clans!"

"No! It's not quite right!"

Shi Yan's eyelid twitched. The Power Upanishad Symbol Tower emerged and landed on his palm.

Swish!

A strange jet of light shot from behind him and entered the Power Upanishad Symbol Tower. It was a small broken piece. After it touched the Power Upanishad Symbol Tower, it turned into powder and became some magical, pure energy.

Shi Yan and Mei Ji exchanged looks and their faces changed.

Retrieving the Power Upanishad Symbol Tower, Shi Yan snorted then turned around with Mei Ji. They started dashing.

Xiang Rong's strong hand holding the piece of the Power Upanishad Symbol Tower was bleeding. She was horror-struck when the broken piece flew out of her hand. She screamed, "They know it!"

The other five men were scared out of their wits as they spoke hastily. "Move! Move! Immediately!"

Boom!

An ice mountain stood in their way that released a ruthless, cold aura, which made them shiver.

Shi Yan emerged like a demon and shouted, "Don't kill them with force. It will draw attention. When more people come, we won't be able to run."

While talking, he threw out a Fantasy Boundary Stone that he got from Ya Yun. After the Fantasy Boundary Stone got the space energy, it turned into a world in just a blink of an eye. While Xiang Rong's team was petrified, that world had covered them and captured them.

Shortly, Xiang Rong's group of six disappeared and left no trace.

"Someone is coming. We must go now!" Shi Yan rose his hand and the world that the Fantasy Boundary Stone had created flew into his sleeve.

He and Mei Ji didn't dare to linger. They left immediately and disappeared.

Not long after they had left, some small troops came. They observed carefully, their face perplexed.

They got intelligence that Shi Yan and Mei Ji could move around here. Thus, they had paid attention. Whenever they smelled something wrong, they hurried to check. After moving one round around this area, some of them confirmed, "A warrior with Ice power Upanishad had taken action here. But there's no sign of a furious battle..."

"Strange. Did something happen while the warrior was cultivating that made the warrior release ice energy?"

"Then, where is that warrior?"

"Who knows?"

They discussed and they couldn't conclude the real situation. From this area as the center, they began to search around aimlessly.

"So close!" Mei Ji's face still looked frightened. "I didn't expect that so many warriors were around us. Sigh, if we had received information from Yu Lian, we wouldn't have been so passive."

When they reached a relatively safe area, Mei Ji exhaled in relief and asked, "What should we do with them?"

"After we confirm that everything is fine, we'll kill them," said Shi Yan coldly.

[God of Slaughter](#)

Chapter 1449: Run Into

Boom! Boom! Boom!

The Fantasy Boundary Stone shattered. It twisted and blasted into pieces. The sharp space sabers juttled out.

The five men had only First Sky of Immortal Realm. When the space exploded, their bodies shattered into hundreds of pieces. Their soul altars were like broken glass.

The woman called Xiang Rong had the Second Sky of Immortal Realm cultivation base. She had congregated all of her power to her soul altar to protect it. After her body exploded, her soul altar flew out.

Xiang Rong's host soul floated above the soul altar. She looked at Shi Yan and was with fear. She saw Shi Yan release a black hole and take in the wisps of soul from Old Gu and the others. She was scared out of her wits.

"Eh?" Shi Yan cried and looked at Xiang Rong's soul altar. "I can't believe that you were able to keep your soul altar after the Fantasy Boundary Stone shattered. Tsk, it's true that a higher realm can make some difference."

Xiang Rong was horror-struck. She looked at Shi Yan and didn't know what to say.

"How did you verify our identities?" intervened Mei Ji.

"If I tell you the truth, will you spare my life?" Xiang Rong's soul flashed. "If you agree to let me live, I will tell you everything."

"Live?" Mei Ji smiled in surprise. "You ask him."

Xiang Rong's eyes were begging as she turned to Shi Yan. "Spare my life and I will tell you everything I know."

"It's not that complicated," Shi Yan frowned and said coldly, "After I swallow your soul altar, I can extract your memories. It just takes a bit of effort. From the day you came to the seabed, you should have thought about today. Don't blame me for being cruel."

Then, he didn't give Xiang Rong more time to beg. The Devouring power Upanishad moved and sucked Xiang Rong's soul altar.

This area was a distance from the besiege over there. No troops were patrolling here. Countless tufts of algae were swaying with the water current, which looked like scattered cotton that provided places to hide.

Shi Yan and Mei Ji were inside a big cluster of algae. This kind of algae was so magical that it was able to cut off the sensitive soul somehow.

After Xiang Rong's soul altar was taken in, Shi Yan immediately sat down cross-legged and retrieved the black hole into the tier of power Upanishad. He used the Soul Consciousness to search her memories.

He could only apply this method to extract the memories from a complete soul altar that he had taken. It was going to be very hard to extract memories from a shattered soul altar like Old Gu's.

The soul fragments were countless broken Memory Seals. It was almost impossible to recover them.

Thus, he wasn't going to waste his energy on Old Gu's and the others'.

Countless wisps of memories shot out of the black hole like electric beams. Sharp images flashed in Shi Yan's head.

"It's a small piece of the Power Upanishad Symbol Tower. It's unknown where the Potion and Tool League had gotten it. That piece of Power Upanishad Symbol Tower could find the complete Power Upanishad Symbol Tower. After I took the Power Upanishad Symbol Tower out of my Incipient Extent, it proactively came and merged with the tower..."

Shi Yan squinted as he was reading the memories and explaining them to Mei Ji at the same time.

"It's strange. After that piece of jade got into the Power Upanishad Symbol Tower, some unclear Absolute Beginning symbols had also come to my brain." Shi Yan opened his eyes and pointed at his head. "I don't know if this Power Upanishad Symbol Tower now has a relationship with the Devouring power Upanishad after I have taken it. It can gather the other pieces of the Power Upanishad Symbol Tower. I can feel some vague change anyway."

"Is it possible?" Mei Ji looked surprised.

"It's just my guess. Shi Yan chuckled, squinting and searching the memories related to the Potion and Tool League from Xiang Rong's soul.

The Potion and Tool League was a human force with a long history. Each elder of the Potion and Tool League had mastered refining and blacksmithing techniques. They had battleships that were essentially moving cities that could visit big territories to find rare materials for blacksmithing or making medicines. The elders of Potion and Tool League refined pellets and forged tools to exchange for techniques, medical books, and secret treasures. That's how they advanced their cultivation.

A strange piece of a memory caught Shi Yan's attention. It was related to an expert.

In the long history of Potion and Tool League, there used to be an excellent blacksmith who was rumored to have grasped the marvelous technique to refine Absolute Beginning divine weapons.

That man had consumed a lot of rare and precious materials of Potion and Tool League to refine a half-complete divine weapon. Everybody in Potion and Tool League feared for him. The peerless attainment in blacksmithing of that blacksmith had thrilled the seven clans. To have him, the seven clans had sent their hotshots to the Potion and Tool League to invite him. The Soul Clan had abducted him in the end.

On the way, the Mysterious Sky Clan came and vied for that man with the Soul Clan. They engaged in furious combat and the man took that chance to flee away.

He disappeared from the Sea Domain of Nihilicity since then. Rumors said that he had the treasured book of the Potion and Tool League, which was written in special symbols that used to refine or forge tools. The Potion and Tool League gave him the treasured book to record his experience in forging the Absolute Beginning divine weapon...

Shi Yan extracted and observed Xiang Rong's memories. He was moved, his eyes sparkling in a strange light.

Was he the founder of Potion and Tool Pavilion in Agate Star Area? The first Pavilion Master who had built the entire Potion and Tool Pavilion?

Was the Canon, an important item to certify the Pavilion Master of Potion and Tool Pavilion in Agate Star Area, the treasured book that the Potion and Tool League had mentioned?

That book had the records of refining an Absolute Beginning divine weapon...

Shi Yan was surprised. He felt uncertain. After he had gone to the Sea Domain of Nihilicity, he knew how precious Absolute Beginning divine weapons were. If someone could refine an Absolute Beginning divine weapon, of course, many clans and forces were going to vie for him.

The Canon was in Fu Wei's hands. She was the current Pavilion Master of the Potion and Tool Pavilion with outstanding refining attainment...

"Was it predestined?" Shi Yan didn't know whether he should cry or smile. "Potion and Tool Pavilion, Potion and Tool League, and the refining treasured book... Am I the tie that is connecting them all? If not, why was I able to encounter them?"

"What did you say?" asked Mei Ji.

"The Potion and Tool League used to have a blacksmith who could refine a half-complete Absolute Beginning divine weapon. Do your Phantom Clan have any records about him?" asked Shi Yan.

"Yeah, there was a man like that. He was a genius who had dedicated his entire life to forging tools. It was a long, long time ago. He had refined a half-complete Absolute Beginning divine weapon. It was thrilling news to the seven clans. Because of him, the Soul Clan and the Mysterious Sky Clan fought a furious battle. Many experts were killed back then. That battle was the ignition to the long-time war between the Soul Clan and the Mysterious. Unfortunately, that expert had disappeared. After so many years, he must be gone. No one knows if his records exist or not. Why do you ask?" Mei Ji was surprised.

Shi Yan smiled and didn't answer. He had decided to talk to Fu Wei about this once he got back to Desolate Territory.

Three shadows were gliding through the seabed.

All of a sudden, one of them halted and frowned. Her eyes were filled with joy. "I spotted the aura of the Fantasy Boundary Stone!"

Forefather Dragon Lizard's clone was surprised, "Why do you care about the Fantasy Boundary Stone?"

However, Tu Shi Qi knew the situation. He looked cheered up. "Are you sure it's the Fantasy Boundary Stone that you gave him?"

"Of course!" Ya Yun was certain. "I'd kept those Fantasy Boundary Stone for years. I'm sure I can feel their auras. I'm sure it's the Fantasy Boundary Stone that I gave away. Oh, the shockwaves of the explosion came from that area!" Her finger pointed to a direction.

"Shi Yan should be there!" Tu Shi Qi pulled a stern face and took a deep breath. "We're heading there. It seems like we'll get the result after searching for a long time."

"If it's true, I'm not sure if we can hold them back. You guys have to prepare," Dragon Lizard pondered, "Gan Fu of the Devouring Clan was killed. It means that they have an expert in their team. My real body can't come here. If that expert is with them, we'll hardly be able to defeat them."

"Should we release the news to attract more people?" Tu Shi Qi hesitated.

"If so, they will all be killed, no doubt. You should remember that you've agreed with me to give them a chance to choose," Dragon Lizard wore a grimace.

"Then we should go there directly," Tu Shi Qi sighed.

Then, they moved at their max speed.

"Ahem... Do you need me to help you deal with the backfire of the Devouring power Upanishad?"

Deep inside the field of algae, Mei Ji was embarrassed as she asked. Her watery eyes were filled with a shy passion.

Shi Yan was using the Devouring power Upanishad to swallow and refine Xiang Rong's team's Essence Qi. He was bewildered for a while as he said, "No one in this group of six has Dark Energy. I won't be backfired by negative energy."

"Ah, okay, never mind," Mei Ji felt so awkward, her face blushing. She scolded Shi Yan for not understanding the romantic signals. She felt her teeth get itchy too.

Shi Yan could see her charming, sexy gestures. He understood it immediately. "But if you help me, I won't need to distract my mind just to deal with those negative energy. Directly releasing is the most comfortable way to me. Come, sit on my lap," he grinned and said deliberately.

Mei Ji was both happy and shy when he said that. She suppressed her excitement as she said seriously, "Forget it. You can deal with it yourself. I won't help you."

"Come here as you're told!" Shi Yan grinned inwardly as he pulled a stern face. "You should know that I like obedient women."

Mei Ji thinned her lips as she said, "Alright." She actually felt so happy when she moved towards him.

Right at this moment, Shi Yan's face darkened as he jolted up. As Mei Ji was bewildered, he hissed, "Come, old friends."

"Long time no see. Your sensitivity has gotten much better. I can't believe that this kid at Incipient God Realm from that year now became a big character that the five clans are crazy for." Dragon Lizard smiled and glided through tufts of algae.

Chapter 1450: Deny Flatly

"Forefather Dragon Lizard!"

Mei Ji discolored slightly. An ice crystal emerged from her body. The cold energy had chilled down the entire sea area.

Forefather Dragon Lizard was at the Peak of Immortal Realm. He just needed one more step to enter the Territory Ancestor Realm. As the direct line children of Lizard the Absolute Beginning creature, Dragon Lizard had many supernatural powers of the Absolute Beginning creatures. As they were both at the Peak of Immortal Realm, if they fought with their lives, Mei Ji wasn't sure if she could win.

Of course, she didn't know that Forefather Dragon Lizard's real body wasn't here. Thus, she looked like she was facing her archenemy.

“And us, here,” Tu Shi Qi sighed and held Ya Yun’s hands, appearing in front of Shi Yan with complicated faces.

“What are you here for?” Shi Yan was calm and natural. “For the Power Upanishad Symbol Tower?”

While talking, Shi Yan and Mei Ji had transformed back to their real appearances. Masha and Adams’ disguise could deceive the others, but they couldn’t fool Dragon Lizard, Tu Shi Qi, and Ya Yun.

They had met Adams and Masha, so they knew that Adams and Mash wouldn’t be in the Sea of Annihilation.

“Not only because of the Power Upanishad Symbol Tower,” Ya Yun forced a smile. “Ling Mei was dead. We have to give Forefather Han Tian an answer. She was his granddaughter. Although Forefather is cultivating in seclusion, we’re in the Sea of Annihilation. If we don’t do anything, we won’t be able to see him later.”

“We know each other. I don’t want to be your enemy. I just have a question. How did Ling Mei die?” asked Tu Shi Qi begrudgingly.

“I...” Mei Ji opened her mouth.

“I killed her!” Shi Yan intervened. “Ling Mei wanted to kill me and rob the Power Upanishad Symbol Tower. Should I wait for her to kill me? I’m not evil. She provoked me. I killed her. What else do I need to say?”

Mei Ji was surprised. Her bright eyes flared with a strange light. She killed Ling Mei and she was about to admit that. Unexpectedly, Shi Yan admitted the crime instead of her. She couldn’t explain why he did that.

“Don’t joke about this.” Forefather Dragon Lizard laughed strangely and shook his head disbelievingly. “Kid, you’re at First Sky of Immortal Realm, you think you can kill Ling Mei? Although I had never met Ling Mei before, I know it’s not easy to murder an expert at the Peak of Immortal Realm.”

He tried to give Shi Yan a way out.

“It wasn’t just you two, right?” Tu Shi Qi agreed with Dragon Lizard. “Gan Fu of the Devouring Clan was confirmed dead. Experts with Dark Energy aren’t something you two can deal with.”

Tu Shi Qi’s eyes sparkled. He observed and asked, “Where are they?”

He was right. He knew that other people had joined this besides Shi Yan and Mei Ji. However, they didn’t expect that Shi Yan had parted with the God Lord and other others.

“They aren’t here. I killed Ling Mei. It’s true, whether you believe it or not.” Shi Yan was stiff, his face dark. “When you came to the Seabed, we weren’t friends anymore. Don’t babble, what do you want from me?”

Of course, Tu Shi Qi and Ya Yun came to the deep seabed not only just to confirm Ling Mei’s death. They also bore something else. Shi Yan knew he had no way to subside this. He had his own calculations. Thus, he didn’t need to pretend to befriend them.

"I agreed with brother Dragon Lizard that as long as you give us a clear answer and bring the Power Upanishad Symbol Tower to join our Mysterious Sky Clan, we will explain everything with Forefather Han Tian. We can ensure that you will be safe and sound!" said Tu Shi Qi with a stern face as he pounded his chest affirmatively. "Don't worry. You will be a Nonnative Officer of our Mysterious Sky Clan. You will receive more benefits and it will be much better than cultivating alone."

"It's true. Even if you have the Power Upanishad Symbol Tower, you can't refine the Absolute Beginning Original Symbol by yourself," Ya Yun advised him, "Moreover, the five clans are searching for you. You can't escape. If we can find you, the others can too. As long as you agree to join our Mysterious Sky Clan, we will ask our seniors to deal with the Black Demon Clan, the Devouring Clan, the Soul Clan, and the Ancient Monster Clan about your murder cases..."

"Kid, although the Sea Domain of Nihilicity is a massive area, you've offended the five clans. You won't find a safe place to go to. Their offers aren't bad. Go with them," said Forefather Dragon Lizard.

Shi Yan frowned, her face indifferent. "What if I don't agree?"

Dragon Lizard shrugged and said begrudgingly. "Then don't blame me. I've agreed with the Mysterious Sky Clan. I will join Tu Shi Qi to deal with you."

"How about you two?" Shi Yan squinted.

"To have a proper answer to Forefather Han Tian, we can only try our best to deal with you and take the Power Upanishad Symbol Tower. Of course, we won't kill you. We will only capture you. Then, we will let the five clans judge you," said Tu Shi Qi.

"Then come here," Shi Yan said in a low-pitched voice.

"What?" Forefather was shocked.

"Come catch me," Shi Yan eyes turned crimson quickly. Sharp spikes protruded from his skin. A pair of bone wings jutted out of his back. He had transformed into his fighting mode in just a blink of an eye.

Life energy surged in every inch of his skin and bones. The thick murderous aura came out of his acupuncture points and shot a visible blood-red light column into the sky. The massive energy field could cut apart even the water and create a vacuum area around him.

"What a powerful life energy magnetic field!" shouted Forefather Dragon Lizard, his face frightened.

The fiercer the life energy field was, the higher the life form he reached. Shi Yan had transformed to his supreme fighting form and the life energy from his body had almost reached Forefather Dragon Lizard's level.

Dragon Lizard's real body could be as big as a small life star. Shi Yan's body was so small, but it contained an intimidating life magnetic field, which meant that his life form had evolved to a level high enough to shake Dragon Lizard. "Kid, you're a freak. When I met you, your life energy field was thin and weak. Now, you've reached such a new height. It's amazing, really!"

Aside from him, Tu Shi Qi and Mei Ji were also shaken.

Mei Ji knew that Shi Yan got a great benefit after they had sex. But they hadn't undergone a fierce battle afterward. Thus, he hadn't used his fighting form. She couldn't know how advanced his life form was.

But now, she knew that Shi Yan's life energy magnetic field could compare to the experts who were about to enter the Territory Ancestor Realm.

"Really powerful, indeed," Tu Shi Qi looked bitter. "Sigh, that little girl Ling Mei didn't listen to us. It's really bad. It would have been so good now if she didn't have a dispute with you guys. Right now, even though we know you're really bold, we have to take action. We're the members of the Mysterious Sky Clan anyway."

"I'm sorry. It's not our own volition," sighed Ya Yun.

"You don't need to take action," Mei Ji beamed. "Although your life magnetic field is abundant, you're at only First Sky of Immortal Realm. I can handle them single-handedly..."

Fulgent snow lotuses bloomed from her chest. They were glowing in a mesmerizing white halo. Each lotus was chilly to the bone.

Swoosh! Swoosh! Swoosh!

So many snow lotuses flew out one by one from her ample bosom. They moved like an icy world and attacked Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard.

At the beginning, Dragon Lizard, Tu Shi Qi, and Ya Yun disdained her because they knew that Mei Ji had been badly wounded. When a Peak of Immortal Realm expert got wounded, it was tough to recover quickly. Thus, they weren't worried about her.

However, when so many snow lotuses came to them and released cold energy, they knew that they were wrong.

At this moment, Mei Ji was much more intimidating than when she was on Dragon Lizard Star.

At that time, Mei Ji could subdue Tu Shi Qi and his wife by herself.

Today, Mei Ji's wounds healed and she had Dark Energy. Shi Yan's vitality had refined her body too. She was now in her supreme condition.

Mei Ji's face appeared in each lotus with different expressions. She was either smiling, winking, wincing, or staying calm; they were the powers of her soul.

Swoosh! Swoosh! Swoosh!

Cold, murky jets of terrifying energy shot through the water like icicles stabbing the other three.

Even Forefather Dragon Lizard went numb. It looked like he had surging lava in his eyes. Letting out a low roar, his clone released a phantom of his real body. A majestic, mountain-like beast emerged and roared at Mei Ji's face.

"If Shi Yan hadn't bothered me with his world-within-world Fantasy Boundary Stones when we were on Dragon Lizard Star, I'm afraid that you would have been killed. As you have only Third Sky of Immortal

Realm, you're as strong as Ling Mei. Ling Mei died by my hands. What do you think you can do?" Mei Ji smiled, her eyes as cold as ice.

Countless snow lotuses fell. Tu Shi Qi and Ya Yun felt extremely cold, their faces heavy.

"Melt!"

Forefather Dragon Lizard hissed and roared. The phantom of a giant beast became so hot as it was burning. It struggled on the seabed and used its big claws to hit the snow lotuses.

"It's useless," Mei Ji changed her techniques gently. So many snow lotuses released a cold light. They weren't afraid of the beast as if they were immortal flowers. If your real body is here, I'm not sure if I can't cope with you. But now, you're just a clone. You can't trouble me that much."

"Peak of glacier!"

Mei Ji pitched her voice. An ice mountain was conjured and it fell on the back of the giant beast. The beast was subdued and frozen. It couldn't even move to attack her further.

"Crack!"

Shi Yan raised one finger. Five meteor-like arrows shot and destroyed Forefather Dragon Lizard's phantom. Dragon Lizard shivered and couldn't help but scream in agony.

"Let's go!" Shi Yan didn't attack more and called for Mei Ji.

Mei Ji was surprised but she didn't say much. She nodded to him and retrieved the snow lotuses. They left quickly.

Forefather Dragon Lizard and Tu Shi Qi grimaced. They hovered but didn't chase after the others.

"Why did we have to leave?" asked Mei Ji skeptically after they had left for a while. "You and I could kill them, couldn't we?"

"Big commotions could draw really powerful experts... Moreover, Forefather Dragon Lizard hasn't used his best powers yet. If he decides to destroy this clone to battle us, we can still get hurt even if we win. In this area, when we get hurt, we will have no chance to run or hide," Shi Yan answered her calmly.

Mei Ji contemplated and then nodded, "You're right. It's not our objective to kill many people. Our goal is to survive."
