

Slaughter 1451

God of Slaughter

Chapter 1451: Hiro!

Deep inside an algae field, Forefather Dragon Lizard, Tu Shi Qi, and Ya Yun stayed idle, their faces stiff and blank.

After a long time, Forefather Dragon Lizard said bitterly, "That kid... Why is he with Mei Ji? I remembered that Mei Ji had chased after him to kill him. She didn't hesitate to drain her power to do that. And now, did you see that they were sticking together like a couple? Mei Ji listened to everything he told her. It's strange."

Tu Shi Qi didn't understand, either. "Only the ghosts know how he could do that."

"Mei Ji has approached him and protected him for the Power Upanishad Symbol Tower on purpose, maybe?" guessed Ya Yun.

Listening to him, Forefather Dragon Lizard and Tu Shi Qi nodded. They thought that sounded more probable.

"What should we do now?" Forefather Dragon Lizard looked begrudgingly. "My body isn't here yet. Mei Ji's wounds recovered. She's tougher to deal with now. If we risk our lives with her, I think we will lose at the end."

"Wait until the hotshots come," sighed Ya Yun.

"The hotshots won't come for the time being. Even if they come, they will be late. It's really hard to solve this now." Tu Shi Qi pondered for a while and then decided, "We can only release information!"

"What if we only benefit the others? The old freak of the Soul Clan is in the Sea of Annihilation now. Whenever he gets news, he responds quickly. If he gets the Power Upanishad Symbol Tower, our efforts will have been for nothing!" Ya Yun shook her head.

"I have a good relationship with a friend from the White Bone Clan. Recently, they're trying hard to find the experts with Life power Upanishad. He asked me to pay attention. Shi Yan mastered the Life power Upanishad and it's possible that the Absolute Beginning Original Symbol he got from the Power Upanishad Symbol Tower is a Life Original Symbol!" Tu Shi Qi's eyes brightened.

"You're right. The Absolute Beginning Original Symbol he has is a Life Original Symbol. I'm certain about this," Forefather Dragon Lizard nodded. "This time, the life energy magnetic field from him is too thick. It's unimaginable, though. Except for the power of the Absolute Beginning Original Symbol, I can't think of anything else."

"Then I will contact my friend from the White Bone Clan. Let's see if they're interested in this," Tu Shi Qi made up his mind.

It was an island in the Sea of Annihilation, which was filled with white bones. Those bones came from members of different races. They were white and had surging energy.

It was the base of the White Bone Clan in the Sea of Annihilation.

Lately, a Skull Island had come and anchored here. A child of the White Bone Clan had landed on this bone island. He spoke the oldest language of the White Bone Clan. His appearance had shaken the entire White Bone Clan.

— He brought with him his parents, the two dormant, Territory Ancestor Realm experts.

The entire bone island was in high spirits because of the little skeleton. It had received the warmest welcome here too. The Skull Island had merged with the bone island and become a part of it.

The members of the White Bone Clan brought the two precursors to their Bone Burial Pond deep inside the bone island. They had tried all the secret techniques to wake them up. However, as the two had spent all of their vitality and left only a wisp of the feeble soul, the Bone Burial Pond couldn't wake their consciousness up.

The members of the White Bone Clan quickly recognized that they needed to pour vitality into them in order to wake them up.

Thus, they began to find the warriors with a strong Life power Upanishad. They had promised generous rewards to find more experts. However, they weren't lucky because there weren't many warriors cultivating Life power Upanishad, let alone ones with high realms. After a long time, only around ten warriors had come.

However, the highest realm of them was only at Original God Realm. The support from them was just an added grain of salt in the sea. The little skeleton's parents needed a lot more to be awakened.

Because of the two dormant precursors at the Territory Ancestor Realm came to the island, all the White Bone Clan's efforts were gathered here. Thus, they didn't really care about the Power Upanishad Symbol Tower under the sea. They didn't send any member to go and explore the seabed.

The Bone Burial Pond in the center of the bone island was covered with jades. The little skeleton was sitting by the pond and watching the two coffins, his eyes upset.

"Child, don't grieve too much. I'm sure we can wake them up," said an old man of the White Bone Clan in their special language. "The true expert of our clan will come soon. They will know how."

The little skeleton nodded quietly.

One day, while the little skeleton was sitting still, a white light came from the sky. A massive Skull Island emerged in his vision and anchored by the island.

Many strong warriors of the White Bone Clan appeared on the island. They were following a midget, old man who slowly landed from the sky.

The White Bone Clan members on the bone island kneeled down to welcome them cheerfully.

The old man from the White Bone Clan who had just arrived was about one meter tall. He wasn't even taller than the little skeleton. He was holding a strange bone staff, which made him look like he had three legs.

As soon as he landed, his eyes twinkled. He went to the little skeleton and raised his jade-like bony hand to stroke the little skeleton. He mumbled, "Good lumber. Beautiful jade. You're their kid, indeed. I can't believe they finally reappeared."

"You know my parents?" asked the little skeleton in the White Bone Clan's language.

The old man looked at him lovingly. "Of course. They are my precursor. As you're their child, you're from the same generation as me."

Then, he took the little skeleton to the pond where the two coffins were laying. He stooped to see and said, "They need an enormous amount of vitality to wake up. If I cultivated Life power Upanishad, I could have awakened them. Too bad that I don't..."

He turned to the crowd next to him. "It has been a long time. Is there anyone with a strong power Upanishad?"

"No," they shook their heads.

The old man looked disappointed. "We'll wait here for a while. Afterward, I will take them back to our clan. We will get more people to think about a solution."

The old man stayed on the bone island and taught the little skeleton a lot of common knowledge, secrets and marvels of power Upanishads, and Dark Energy. This old man was one of the Territory Ancestor Realm experts of the White Bone Clan. He was also a famous expert in this vast sea of stars.

With his teaching, the little skeleton gradually learned about the White Bone Clan, the Sea Domain of Nihilism. He advanced his cultivation of power Upanishads.

A secret bone pond inside the bone island was activated. They then melted many strange and rare materials that they had collected in the pond to refine the little skeleton's bone body, directed by the old man.

Streams of ivory fluid seeped into the little skeleton. His white bone became more transparent and sparkly with brilliant starlight. "If you want to see Dark Energy, your life magnetic field must have evolved sufficiently. You have to quench your body first. The body that your parent had gifted you is very fine. You're the luckiest in our clan's history. With this bone pond, you will thrive faster..."

The old man was sitting by the pond and watching the streams of fluid running into the pond. The little skeleton was using its star power to absorb it while listening to the old man's patient explanation.

"Tribal Oldie, I have something to report," asked a member of the White Bone Clan from a far distance. After he was permitted, he stepped forward and said, "Tu Shi Qi of the Mysterious Sky Clan has contacted me. He said that he found the one who the five clans wanted undersea. That man cultivates Life power Upanishad and he has the Life Original Symbol from the Power Upanishad Symbol Tower. That man is called Shi Yan. Tu Shi Qi couldn't capture him. As he knows you're here, he asked us if we're interested in this."

"Shi Yan?" The little skeleton was cultivating in the pond. His eyes brightened, "He's the one I told you about. He got me back here and he told me that he would help me wake up my parents!"

"Are you sure it's him?" the old man's eyes were like a monstrous, burning flame.

"It's him. I heard the woman call him that. That woman is called Mei Ji," said the little skeleton.

The old man looked at the reporter.

The other nodded continuously, "Yeah, it's Mei Ji from the Phantom Clan. They are going with each other!"

"He cultivates Life power Upanishad and he happened to get the Absolute Beginning Original Symbol of Life power Upanishad. He had even brought you back here. It's predestined," the old man nodded. "Tell Tu Shi Qi that we're interested. Tell him I will go to the seabed myself. He just needs to tell me the directions."

"I understand," the reporter walked out respectfully.

"He helped me earlier. I want him to live a long life," said the little skeleton.

The old man was calm, "Showing gratitude is our White Bone Clan's pretty values. We won't do despicable things. I will bring him here. After I find him, he'll be fine."

"Thank you," regarded the little skeleton.

"You're my cousin. I am Hiro. After you were born, my uncle and aunt went dormant. They haven't named you yet. We're not hurried. After they wake up, they will name you," Hiro said seriously, "You're my little cousin, my closet family. Our White Bone Clan doesn't have many members. We must stay close to each other. Family members won't compete against each other. It's the reason why we have the smallest population, but we can stand proudly in this Sea Domain of Nihilicity."

"I understand," replied the little skeleton.

"Alright, you stay here and cultivate. I'm going to the seabed to get him." Hiro stood up. He was even shorter than the little skeleton, but his aura had made the members of the White Bone Clan admire him a lot.

"Cousin, please be careful," said the little skeleton all of a sudden.

"Don't worry. In this Sea of Annihilation, I don't have a rival right now," Hero said arrogantly. He left the bone island and dove into the Sea of Annihilation's seabed alone.

Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard were deep in an algae field. Tu Shi Qi was holding a rock in his hand and sensing.

Ya Yun and Forefather Dragon Lizard were watching him. They knew that he was communicating with a member of the White Bone Clan. They were waiting with the hope that the White Bone Clan would send some expert to help them.

"Hiro decided to come personally!" After a while, Tu Shi Qi announced, his face excited.

"Hiro?" Forefather Dragon Lizard was perplexed. "Is it the Hiro, one of the ten great Territory Ancestors?"

“It’s him!” Tu Shi Qi nodded certainly.

“It’s bustling this time. Emperor Sea Star, Neptune, and Ferrell have come. Today, Hiro decided to come too. Interesting.” Forefather Dragon Lizard looked excited. “I have longed for the battle between the Territory Ancestors. Perhaps I can watch them to learn Dark Energy!”

God of Slaughter

Chapter 1452: Emperor Sea Shark

Deep in the blue sea.

A majestic glass palace the size of a small kingdom was moving on the seabed like a giant fish. This palace had so many crystal towers with piles of jades, corals, and precious gemstones. It was indeed grand and luxurious.

Several thousand warriors of the Sea Clan were staying inside that crystal palace. They all had strange figures and relatively high realms with cold and calm auras.

The entire glass palace was like an island made of ten high towers. The central hall was hundreds of meters tall. Atop the conical tower, Emperor Sea Shark squinted, his face serene.

A Sea Clan warrior kneeled behind him and reported in a low voice, “Three more crews have disappeared mysteriously. They were close to us...”

Emperor Sea Shark closed his eyes. After pondering for a while, he rose one finger.

A water current created an arrow and pointed in a direction. So many shadows glowed dimly. “Our men died right where those shadows are. From when they disappeared, we could guess which way their killer went.”

The warrior’s eyes brightened. “From what we observed, they’re pretty close by.”

Emperor Sea Shark nodded. A strange light sparkled in his eyes. Countless wisps of energy that were like a tsunami rippled from his body. The grand palace slowly ceased. His energy covered the entire palace and made it invisible. “We shall wait for them.”

—————

Deep inside a sea area, the bodies of the five dead Sea Clan warriors were buried. Their vitality and aura vanished.

Shi Yan wore a calm face and sat cross-legged.

By him, Mei Ji was like an ice sculpture of a Goddess with ice covering her entirely. The transparent ice made her beautiful in a different way.

Swish! Swish! Swish!

The sound of something freezing arose. From Mei Ji, the sea water was slowly freezing. In ten breaths, she created a glacier and hid her body.

Flows of cold energy expanded from the glacier and the sea water became very cold.

Inside the glacier, Mei Ji's breathing was long and her eyebrows were transparent like the ice. She was wearing a long, bright silver dress, which outlined her curves. In the extremely cold energy, she looked refreshed.

After a while, the glacier melted. She got out of the ice, her eyes bright and joyful.

Her God power had become more refined and abundant. Because of the Dark Energy's existence, she was getting closer to the Territory Ancestor Realm every day. Today, she tried to transform her Incipient Extent to the Territory, which was going to become her foundation to enter the Territory Ancestor Realm.

After parting with Forefather Dragon Lizard and Tu Shi Qi, she and Shi Yan had moved fiercely and killed all the warriors in their way.

Every time after they killed the warriors, Shi Yan had used the Devouring power Upanishad to absorb and share pure energy with her. While her God power, soul, and body were advancing, she also changed to enjoy an indescribable pleasure of intimacy. She got used to and she thought she was sinking as she began to enjoy this erotic and yet dangerous adventure.

Her power had been increasing every day. Every time she felt sweet, Shi Yan's image got carved more deeply into her soul and heart.

She looked at Shi Yan with sincere feelings in her bright eyes. She was confident that she could compete with Territory Ancestor Realm experts. Even if Batum had come back from death, she was confident that she would defeat him!

She didn't know how strong Shi Yan was now. However, she knew that he was indeed intimidating because more than anyone, she understood the great benefits that the Devouring power Upanishad had brought him. She also knew that Shi Yan always used the energy refined by the Devouring power Upanishad to quench his body.

As he felt her watching, Shi Yan opened his eyes and chuckled, "How do you feel?"

"Couldn't have been better," smiled Mei Ji. "How about you? When can you reach Second Sky of Immortal Realm?"

"It's not far. I just need to understand my power Upanishads better. Whenever I meditate, I can feel the subtle but magical change of my power Upanishads." Shi Yan contemplated, "I can't rush. The accumulation of body, soul, and God power also benefits me a lot. At our current speed, we're around one year from the territory entrance. I know it will be pretty tough later."

"I don't want to finish this trip," Mei Ji walked forward and pulled his hand while pressing her voluptuous body against his. "This trip has been the most beautiful experience in my entire life. Even if I die, I won't regret it."

Shi Yan didn't say more. He turned around and pulled her into his tight embrace.

In this deep blue sea, they looked at each other, smiled, and continued their journey.

“I don’t know why I can’t ease my restless mind after we entered this sea area. I feel bound as if I’ve been caged.” Today, Shi Yan said with a dark face while moving inside his starlight protection.

They were very far from their first stop. Shi Yan had released his Soul Consciousness to sense around. He didn’t find any commotion or aura of living beings.

Logically, they had pierced through a dangerous zone.

However, after a while of strange calmness and quietness, Shi Yan felt that something wasn’t right. “We didn’t find any warrior along the way. It’s not normal.”

Mei Ji wore a serene face when he said that. “Yeah, it has been strangely smooth lately.”

“I always feel like something is wrong,” Shi Yan frowned, “but I can’t tell why. I don’t know what’s the matter. Anyway, we have to be more cautious.”

“Okay.”

Several days later, they came to a beautiful area where so many magnificent jellyfish looked like five-colored lanterns shining above their heads. The lights from them were so mesmerizing.

As they were moving under the jellyfish, the dreamy scene above their heads had captured their minds for a while.

However, shortly after, Shi Yan discolored and said, “Those jellyfish have weak soul energy fluctuations. They’re possibly the “eyes” that some expert released!”

Mei Ji was surprised. She knew that it wasn’t going well. “If so, we’re disclosed. We have to leave as fast as we can!”

Shi Yan didn’t say much and brought Mei Ji at the max speed toward the territory entrance. However, after one hundred miles, his light cage bounced back as if it had bumped into an invisible barrier.

Shi Yan and Mei Ji were frightened. They knew that their assumption was correct. Unknowingly, they had entered a trap that someone had set up for them.

Right behind them, a grand crystal palace slowly emerged with countless cold-faced Sea Clan warriors.

An old Sea Clan expert was standing on the highest tower of the palace in the center. He looked at them from a far distance and said deliberately, “We’ve been waiting for you for a long time.”

“Emperor Sea Shark!” Mei Ji couldn’t help but scream.

“You guys have killed more than ten of my crews. By the time they were killed, I figured out your route. We’ve been hiding here and waiting for you for a long time. Yeah, after ten days, you finally showed up. You didn’t fail me, indeed.” Emperor Sea Shark pitched his voice, “Mei Ji, I know you. I don’t want to provoke your Phantom Clan. I’m going to make my request clear right now.”

“Say it,” Mei Ji’s expression was extremely stern.

“I’ve talked to Neptune and made a deal with him. Anyway, because of you, Mei Ji, I will give you a way,” Emperor Sea Shark’s voice was cold and nonchalant. “You tell him to hand over the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. I will let you go as if I have never seen you. It’s the best deal I can give you!”

Emperor Sea Shark had agreed with Neptune that if he found Shi Yan and Mei Ji, he would tell Neptune first.

However, Emperor Sea Shark had his own plans.

According to Neptune, once he told him Shi Yan and Mei Ji’s whereabouts, they wouldn’t be able to escape death and he wouldn’t be able to get the Power Upanishad Symbol Tower and Absolute Beginning Original Symbol, either. Neptune would take them all.

Neptune had promised Emperor Sea Shark to refine him an Absolute Beginning Original Symbol first. Anyway, Emperor Sea Shark knew there was a better option.

Taking the Power Upanishad Symbol Tower and Absolute Beginning Original Symbol without offending the Phantom Clan; wasn’t that a better option?

“Who is he?” Shi Yan pulled himself together. He knew it would be the toughest step in this undersea journey. “I can sense that he’s a Territory Ancestor Realm expert. His aura...is really domineering!”

“Emperor Sea Shark is the overlord of the seabed at First Sky of Territory Ancestor Realm. He’s always cultivating under the sea. He rarely leaves the seabed. The Seven Great Clans don’t want to mess with him,” said Mei Ji in a low-pitched tone. “He’s Neptune’s friend. Anyway, I think their friendship isn’t good enough. Otherwise, he would kill us without talking.”

“Tribal Oldie, what about our dead fellows?” screamed a Sea Clan warrior.

Emperor Sea Shark looked cold as he said, “The Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol are the prices that they have to pay for my grandchildren’s death. If they agree to hand the items over, we can save a lot of effort.”

He had his own concerns. Although he was at the Territory Ancestor Realm, if he had to forcefully antagonize a force like the Phantom Clan, he wasn’t so sure. He didn’t want to let Neptune make use of him. If he killed Mei Ji, the Phantom experts would come to the seabed. Taking the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol without enraging the Phantom Clan was the best thing to do.

“I’ll give you fifteen minutes to consider it,” Emperor Sea Shark stood on his throne and spoke, “Mei Ji, you’re a smart woman. You know when to let it go.”

Swoosh!

Countless layers of barriers were conjured. They covered the starlight cage to prevent the Soul Consciousness from sensing and eavesdropping.

“He’s really strong at First Sky of Territory Ancestor Realm. We can try to defeat him. But I’m not so sure.” Mei Ji looked bitter. “Because I have been growing fast lately, I’m considering it. Otherwise, I wouldn’t even have the guts to fight him once.”

Shi Yan furrowed his brows, "The First Sky of Territory Ancestor Realm. His Incipient Extent has evolved into the Territory. He has Dark Energy. Indeed, he's an extreme opponent."

"We can't succeed. Once we're defeated, I know it won't be easy to talk to him again," said Mei Ji.

Shi Yan lifted his head and looked at Emperor Sea Shark, his voice low. "I've swallowed a lot of soul altars lately. My body, soul altars, and God power all transformed to many different levels. I feel great but fighting against a Territory Ancestor is over my capacity I think. But I still want to try. I want to know to what degree I can reach if I use all of my powers."

"You... Do you want to fight?" Mei Ji was frightened as she spoke resolutely. "No, absolutely not! You're at First Sky of Immortal Realm. Too low. Let me try beating Emperor Sea Shark. If we can't, just give him the Power Upanishad Symbol Tower! You're still young. You don't need to sacrifice yourself. You will have chances to make up the fight today!"

"The Absolute Beginning Original Symbol has fused with my power Upanishad. I don't know how to take it out. The Power Upanishad Symbol Tower has connected to my co-soul. I will never discard my soul!" Shi Yan shook his head.

[God of Slaughter](#)

Chapter 1453: The Space Cross Slash

Emperor Sea Shark coldly looked at the two inside the light cage with disdain on his face.

Shi Yan was at First Sky of Immortal Realm, so he wasn't worth considering. He didn't think Shi Yan was important. If Mei Ji wasn't here, he was going to kill Shi Yan directly to take the Power Upanishad Symbol Tower without negotiating.

Mei Ji was an expert at the Peak of Immortal Realm. She was going to get the chance to enter the Territory Ancestor Realm later. Also, she belonged to the high echelon in the Phantom Clan. Emperor Sea Shark didn't want to be Neptune's dagger and be under the wrath of the Phantom Clan.

If he killed Shi Yan and Mei Ji was left alive, Mei Ji was going to take revenge for Shi Yan when she entered the Territory Ancestor Realm and became the top powerful character of the Phantom Clan. It was still troublesome to him.

He wasn't a member of the Seven Great clans so he didn't have a strong background. He knew that he couldn't stand against any of the seven clans. He had to consider every aspect before he did something.

"Time is up. What's your decision?" Emperor Sea Shark arched his brows, walking out of the glass palace and striding toward the others.

"We aren't satisfied with giving the Power Upanishad Symbol Tower without fighting," Mei Ji smiled charmingly. "You're our forerunner. You should convince us, right? Okay, give us a chance to resist. If we don't see hope, we will agree with your terms as you wish."

Emperor Sea Shark was surprised. "Mei Ji, you're the manager of the Phantom Clan in the Sea of Annihilation. You should know that even if you're at the Peak of Immortal Realm, you're no match against me. Is it necessary to try?"

"This little devil of mine wants to try," Mei Ji didn't conceal her relationship with Shi Yan. Her jade hands squeezed Shi Yan's arm, her face agitated. "Precursor, please fulfill our wish."

At this moment, Emperor Sea Shark finally observed Shi Yan.

At first glance, he sneered, "First Sky of Immortal Realm? Haha, many of my grandchildren and subordinators are at that realm!"

He turned around and looked at a young man. "Datuk, go and make him lose hope."

That young man was around three meters tall and cultivating Metal power. He was like a sharp sword at Second Sky of Immortal Realm. With silver scales on his body, he was likely from Flood Dragon Tribe. His rigid body shot out sharp energy.

"Try... not to kill anyone. We don't want to enrage Emperor Sea Shark. That's how you spare us a way out," muttered Mei Ji. "You should consider it. If your real competence can resist the Peak of Immortal Realm experts, when you and I join hands, maybe we can get rid of Emperor Sea Shark. Think about it."

Shi Yan's facial expression was like rigid ice. He was stern and cold. He nodded and stepped on the starlight toward Datuk.

He had his plan. If he could resist attacks from a Peak of Immortal Realm, he would use all of his energy to use Space power Upanishad to disturb the spatial order on the seabed to force a way out.

And the premise was that his body could endure the Space energy backfire!

The seabed wasn't similar to the open air up there.

He was so deep under the Sea of Annihilation that he didn't know how far he was from the surface. The water pressure here was extreme. Once he urged the Space power recklessly, the water pressure and the space energy was going to press on each other and break the space. As he was the originator, he would bear the backfire.

Because of this concern, he was careful enough to not use spatial abilities while moving under the sea. Ming Hao was at the Peak of Immortal Realm and he had mastered Space power Upanishad. However, he didn't try to do that as he knew how dangerous the backfire would be when the two intimidating forces collided.

However, he was cornered.

If he wanted to get rid of Emperor Sea Shark, he had to take a risky battle! He had to use extraordinary tricks to gain the victory!

He couldn't calculate the fatal results on the seabed when the water pressure and the space energy made an impact. Anyway, he had to ensure that his body didn't get shattered under the backfire before he could try!

Fighting was just a stone to test the knife. He wanted to check his body and his knife, to see if it could endure the furious damage.

“Madam Mei Ji is the best dream of all men in the Sea of Annihilation. Why did she want to be with such a useless, pretty-faced young man like him? I don’t see anything good in this fella.”

“Mei Ji has made Batum and Hussein infatuated. They had proactively approached the Phantom Clan to establish a good relationship. It’s unexpected that she would choose a kid at First Sky of Immortal Realm. It’s eye-widening, really.”

“Yeah, I can’t believe it.”

“We can see something from this battle, perhaps?”

Some old men at Third Sky of Immortal Realm by Emperor Sea Shark were stroking their beard and discussing curiously.

“I am Datuk from the Flood Dragon Tribe, cultivating Metal power Upanishad. I...”

Datuk was polite and gentle. Seeing Shi Yan walk to him, he told him his identity and status.

“Shi Yan!”

After a grunt, Shi Yan had starlight twirl around his body as if many meteors from the sky had come to him. His entire body was now beautiful starlight that headed toward Datuk.

Datuk furrowed his brows and snorted, “Really ignorant and rude!”

Bright metal light shot out from the crown of his head. Inside the shining gold halo, so many metal weapons emerged in his Incipient Extent including sabers, swords, tridents, lances, hammers, shuttles, and needles. Those sharp weapons made a downpour and covered Shi Yan’s starlight.

Crack! Bang! Bang!

The clanging and clinking sounds of metal objects impacting arose on Shi Yan’s body. Sparks were sent everywhere. The power of Metal in countless blades was still very sharp.

The meteor and Shi Yan’s transformation halted ten meters in front of Datuk.

Everybody focused on him. They saw hundreds of blades attacking him. His body was like the toughest rock. His clothes were cut through but his skin resisted the sharp blades as they made “clang” sounds. But he wasn’t gashed.

The pointy spikes jutted out from his shoulders, knees, and elbows. A pair of bone wings tore his back and unfolded. His energy surged like a sea of vitality. He was like a volcano that had been sleeping for billions of years and now burst all of its light and heat in just a blink of an eye.

“Cross Slash!”

Shi Yan’s eyes became crimson like blood. The brutal energy moved inside his body. He grinned and then shouted.

The Space power Upanishad was urged!

The two massive space sabers around one hundred meters long aligned and made a massive cross. The shining blades adjoined and cut the sea water into blocks, shooting toward Datuk.

The sharp sabers, knives, hammers, and gold lances were crushed into powder in just a blink of an eye.

The massive cross sabers could cut everything as easily as they broke dry tree branches. The sea water, space, and bubbles all tore. The sabers were so sharp that it could even cut the mountain or part the sea and run directly to Datuk.

Emperor Sea Shark was amazed. He opened his mouth to spurt out a rapid water current.

The water current shot and congregated in front of the massive space saber. Then, the water current dispersed altogether with space energy of the Cross Slash.

“Ptui!”

Shi Yan’s chest pounded. A trickle of blood oozed down the corner of his mouth. His eyes were still blood-red, his mind shaken.

When the Space Cross Slash emerged, the space tore and created a space slit. As soon as that slit appeared, the terrifying water pressure furiously deluged and created a thousand-mountain-weight backfire on Shi Yan. His entire body ached and he got cut a few times.

However, Emperor Sea Shark’s water current had dissolved Datuk’s dangerous situation and mended Shi Yan’s space slits in just a blink of an eye. Shi Yan was frightened.

“You shouldn’t use space power on the seabed rashly.” Emperor Sea Shark frowned. He looked at Shi Yan in surprise and then waved his hand. “Datuk, back off. You’re not his equal match. Although this kid has only First Sky of Immortal Realm, he has seen Dark Energy. His body integrity is so strong that even I can’t see through...”

“Tribal Oldie!” hissed Datuk.

“Back off!” Emperor Sea Shark retorted.

Datuk didn’t say more. He looked unwilling when he returned to the crystal palace.

“Hu Jiao!” cried Emperor Sea Shark.

Many warriors of the Sea Clan were astounded when they heard their leader shouting. They switched their looks to Shi Yan.

It was just a kid at First Sky of Immortal Realm. Why did Tribal Oldie respect his power so much and have someone very strong like Sir Hu Jiao deal with him?

An old man with a face full of down walked out from behind him, his hands hiding in his sleeves.

The old man squinted. He walked toward Shi Yan and bent slightly to greet him. “Hu Jiao, Third Sky of Immortal Realm, cultivating Wood power Upanishad.”

“No wonder why Mei Ji has chosen you,” Emperor Sea Shark nodded. He looked as if he had just recognized something. “You have Dark Energy at First Sky of Immortal Realm. Your quenched body also

surprises me. Kid, your future is brightly unpredictable. Allow me to remind you. Do not use the space energy to fight Hu Jiao. You know how the space energy will impact against the water pressure here and end up backfiring.”

He turned to Hu Jiao, pondered, and then asked, “Don’t attack him brutally. If he survives this time, he will become a top warrior.”

Hu Jiao nodded respectfully, “I understand.”

He touched his forehead. A small sprout shot out of his labella. Shortly after, it thrived into a small tree. That small tree’s branches reached out and crawled on Hu Jiao entirely. They looked like a strange tattoo expanding.

Dozens of seconds later, Hu Jiao disappeared. A big tree grew at his spot.

The tree was lush with thick leaves and branches. The tree shook and many leaves fell. Those leaves were just as big as a palm with many magical, complicated lines. They carried the essence of a deadly formation of Wood power Upanishad. They floated in the water and headed toward Shi Yan.

A leaf came and touched Shi Yan’s shoulder. Pain flooded his brain instantly!

Boop!

A bone spike on his shoulder broke. He couldn’t help but look at the growing tree. “Third Sky of Immortal Realm is really fierce!”

“You can still talk. It’s amazing, though. You’re two realms lower than me. It’s a miracle that you can stand still.” Hu Jiao’s voice arose from the big tree. “Future Territory Ancestor, I want to see the supernatural power of Dark Energy. Please show me!”

[God of Slaughter](#)

Chapter 1454: Bloodshed on the Seabed

The giant tree that could tower the entire sky with thick leaves and branches was still thriving amazingly.

Gradually, the tree had become more imposing than Emperor Sea Shark’s glass palace behind. At first glance, it seemed like this world had only that tree and this sea area was concealed.

While the giant tree rattled, green leaves flew away. The complicated and subtle wooden texture on the palm-sized leaves looked like a mysterious formation.

The leaves flew like a school of swimming fish that slowly approached with sharp, tearing auras. Shi Yan’s skin sent a faint pain to his brain.

Boop!

Another spike on his shoulder exploded. Pain deluged him. Shi Yan shivered and couldn’t help but roar furiously.

Bands of rainbow-like starlight flashed and congregated at Shi Yan’s body. He looked like he had so many chains coil him.

The garment on his upper body shattered. His tough body that was as rigid as gold or steel emerged.

Boom! Boom! Boom! Boom!

Leaves exploded around his body. So many spectacular formations in a wooden texture shone. They merged with each other magically. Shortly after, a massive formation was formed by the leaves. Vines grew from the formation like slithering snakes.

Swoosh! Swoosh! Swoosh!

The vines were covered with sharp thorns that whipped like flood dragons. They rose the water and shot toward Shi Yan's shoulder.

Boom!

Starlight sparked on his body. After one hit of the vines in the seething water, the starlight protection on his body dimmed.

Hu Jiao's voice came from the big tree. "Give us the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. Although you know Dark Energy, your realm is not great enough to use it. You're not my equal opponent."

The sky-towering tree wiggled strangely on the seabed. Thousands of branches swayed and countless leaves rattled and fell. They looked like so many spirits bombarding Shi Yan.

More leaves exploded. The formation emerged once more. Evil, python-like vines whipped and lashed Shi Yan.

Boom! Boom! Boom!

Vines slashed. Shi Yan was like a willow catkin wobbling in the sea. His body was gory as the spikes on his shoulders, elbows, and knees broke continuously.

His appearance was really pathetic.

"Shi Yan! If you can't help it, just yield! You're at First Sky of Immortal Realm only. It's good enough that you defeated Datuk. You shouldn't force yourself!"

Mei Ji felt her heart aching. She couldn't help but cry, her bright eyes sorrowful.

"Tribal Oldie, we have to treat this man probably," said an old man at Peak of Immortal Realm. He was hiding inside a massive shell behind Emperor Sea Shark, his voice deep and low.

He looked so worried. After getting Emperor Sea Shark's attention, he continued in a low-pitched voice. "His body isn't breaking under Hu Jiao's shelling. He has Dark Energy. If he doesn't die this time, he will enter the Territory Ancestor Realm in the future. Then, he will become a hero."

Emperor Sea Shark knitted his brows, "Continue."

"As we seize the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol today, he will bear a grudge against us. With his innate talents and capacity, he will be very intimidating later even without the Absolute Beginning Original Symbol." The old man looked stern and cautious. "If we let him

leave alive, isn't that no different from letting a tiger back to the woods? We shouldn't plant a scary seed, right?"

If Shi Yan had a normal realm with an ordinary capacity, this old man would never have suggested such a thing.

If he was just a small warrior without the chance to break through to the Territory Ancestor Realm in the future, even if they let him go, he wouldn't be able to threaten them.

However, Shi Yan's talented performance made him worried.

"This is a savage cub that can become an extraordinary brutal beast. If we want to take the Power Upanishad Symbol Tower, I suggest to do it resolutely. We would rather offend the Phantom Clan than let him live now. We should eliminate any possibility of a potentially devastating threat!" the old man concluded.

Emperor Sea Shark kept silent.

"Tribal Oldie?" asked the other.

"I know that. Just keep watching him. I don't know why I see someone in him..." Emperor Sea Shark said indifferently.

The old man hiding in the shell focused on Shi Yan when he heard Emperor Sea Shark say that. At first, he was bewildered. After a while, he jolted as if he had just recalled something. His eyes brightened as if he had just found a new continent, his shell quivering.

"I found the similar features after you said that, Sir. That look, aura, and his bearings... yeah! They're really similar!" cried the old man.

"Keep watching!" Emperor Sea Shark reminded him.

The old man looked thrilled. He was excited as he nodded continuously and said nothing else.

He was close to Emperor Sea Shark and he was also a famous character of the Sea Clan. He could even call Emperor Sea Shark brother. Thus, the others couldn't understand their conversation.

But Mei Ji understood him.

She was a wise woman and she knew the old man hiding in the shell. She saw him pull himself together, his eyes stern and cold. Mei Ji was sensitive enough to recognize the wrong situation.

She could see that old man instigate the other!

She became edgy because she knew the chaos that Shi Yan could create when he showed his astonishing capacity. She was anxious when she saw Shi Yan with many wounds. Her soul flickered restlessly as she was trying to find a solution.

A lightning ball hovered in the sea water not far from them. It flashed like an eye.

In fact, it was an eye!

If someone could observe this sea area entirely, they would find a skull-sized lightning ball like that after every one hundred miles.

Many warriors from different forces had to bend their bodies and retreat when they saw the lightning balls. Before leaving, they would reveal their identities to the lightning balls too.

It was because they knew that those lightning balls were Ferrell's lightning eyes. They knew that Ferrell could use those lightning balls to observe the situation everywhere. The balls would report the commotions to his soul in the Sea of Consciousness.

At this moment, a lightning ball hovered in this area for a long time, slowly transmitting a wisp of an aura of the battle between Hu Jiao and Shi Yan.

In a corner on the seabed, Farrell was sitting cross-legged on the back of a massive sea turtle. He opened his eyes all of a sudden, his face changed. He mumbled to himself. "Hu Jiao's aura, a subordinate of Emperor Sea Shark..."

He sensed for a while. Then, the lightning ball that had just reported to him began to spin and move sneakily towards Emperor Sea Shark's crystal palace.

Rumble! Rumble!

The hundred-meter-long vines that were like snake tails lashed at Shi Yan's body.

His body rumbled like a drumbeat with waves of explosions. After each explosion, his skin cracked and bled. Those cuts were so deep to the bone that people could vaguely see his veins and bones.

Mei Ji's eyes were watery. She couldn't stay patient anymore as she screamed, "Give them the Power Upanishad Symbol Tower. Don't fight foolishly like that. Your two realms are too far apart. You're not his match."

Emperor Sea Shark and the members of the Sea Clan watched everything with cold faces. They stood inside the crystal palace and stopped talking.

The entire sea was silent.

Each of the members of the Sea Clan, including Datuk and the old man inside the shell were convinced and respectful. They admired and appraised Shi Yan for his tough will.

The First Sky of Immortal Realm fought against the Third Sky of Immortal Realm. This kind of battle happened twice in the long history of the Sea Domain of Nihilism where a lower-realm warrior triumphed. One had used an Absolute Beginning divine weapon and the other had seized the chance when the Third Sky of Immortal Realm expert was breaking through to the next level to ambush. He had shattered his body and used his soul altar to succeed.

Afterward, his soul altar slowly cracked. He died after one hundred days.

Thus, the members of the Sea Clan and Mei Ji thought that regardless of his Dark Energy and his tough body, he didn't have a chance to win.

They just wanted to know how long Shi Yan could endure...

What Shi Yan had done was apparently out of their expectations. They were both surprised and worried that Shi Yan could resist until now because his body was about to collapse.

“Your persistence doesn’t make any sense. You know you will fail, but you are still stubborn. It’s not a wise move, you know.” Hu Jiao’s voice was low and cold. His towering tree was above Shi Yan’s head. Although the others couldn’t see him anywhere, his aura had filled each corner of this sea area.

In the shade of the tree, Shi Yan’s body was filled with cuts and gashes. Magically, no drop of blood shredded.

The bands of starlight twirling tried to prevent his wounds from getting worse. However, they weren’t enough to protect his body.

After a vine whipped him, the starlight exploded and a deep cut appeared on Shi Yan’s body.

Mei Ji’s crying and Hu Jiao’s cold mocking sounded continuously. Shi Yan balled his body like a wild beast facing death. He lifted his head and looked at the tree above.

Blood streamed from his neck to his chest. A blood sword emerged in his palm. As soon as the blood sword appeared, he thrust it into his abdomen as if he had completely lost his mind. People didn’t even see what had happened.

As the others were horror-struck, an extremely ruthless, exploding aura burst out from the bloody sword planted in his stomach.

He slowly pulled the bloody sword. The eyes on the sword opened. They were as eccentric and brutal as his own eyes at this moment.

He looked at Mei Ji from a distance and sounded strangely calm. “I’ve been enduring for a long time and I just got some deep cuts and broken veins. No bone got cracked. Now, I know that my body can endure the backfire. We have a chance of succeeding.”

God of Slaughter

Chapter 1455: Fierce Outbreak!

Hu Jiao was really strong. He had gained the upper hand right from the start and was very overwhelming.

Until this moment, Hu Jiao hadn’t played everything he had yet. He didn’t use his maximum power.

But it couldn’t say that Shi Yan was too weak.

Shi Yan had only used Star power in his defensive mode. He hadn’t struck once. Actually, he was testing the toughness of his body.

And he found his result now.

With the best defensive tricks he could cast, he could resist at least seventy percent of the attacks of a Third Sky of Immortal Realm expert. His body wouldn’t shatter.

It was enough!

When he drew the gory sword out of his abdomen and the bizarre eyes on the sword opened, he found his target.

He was going to ignore this entangling battle and use the sharp space energy to tear the space. Seizing the chance when the space in the seabed was going to explode, they were going to run for their lives!

This plan was clear and logical. Shi Yan understood that even if he used all of his power, he could only battle Hu Jiao. Also, there were at least three Sea Clan experts at the Third Sky of Immortal Realm besides Hu Jiao here. The old man hiding in the seashell was at the Peak of Immortal Realm.

And Emperor Sea Shark...

Winning was just a fantasy story to them. Breaking this besiege was the best choice. He brought the bloody sword and the brutal, bloody aura of the sword was extremely thick.

The others didn't know what he was thinking but Mei Ji understood it right away. She looked at Shi Yan and his bleeding body, her face upset. "Do you really want to try?"

"I'm about thirty percent sure," said Shi Yan.

"Alright!"

Mei Ji hissed. A massive snow lotus was conjured from her peak-like bosom by her soul energy.

The snow lotus carried a cold light. It froze the ice on its way and created a glacier that shot towards Emperor Sea Shark. The pod of the lotus carried her soul energy.

The snow lotus sparkled. When it was about to reach Emperor Sea Shark, it became partly visible and flashed.

"What a powerful cold energy!"

"It's... Dark Energy!"

"Mei Ji finally has Dark Energy!"

"The Phantom Clan is about to get another Territory Ancestor!"

So many members of the Sea Clan couldn't help but scream in astonishment.

Almost at the same time, Emperor Sea Shark's eyes brightened. The old man in the seashell behind him was also shaken. His shell shook strangely.

But they didn't look at Mei Ji...

Although Mei Ji's ice lotus was about to touch the crystal palace, while the others were watching her and apprising her Dark Energy, Emperor Sea Shark and the old man were still looking at Shi Yan in astonishment.

They were watching Shi Yan!

At this moment, Shi Yan had drawn a gory sword out of his body. A blood light slowly congregated at the tip of the sword. His thoughts changed and his aura changed accordingly and earth-shakingly.

The isolated, cold aura of Death filled the place. The bloody sword was now the Scythe of Death that harvested all the thick vitality around him!

Strangely, the vines began to wither and dry as if the nutrients inside was taken away.

It was the striking combined power of the Death and Devouring power Upanishad!

Dozens of vines still had Shi Yan's blood after slashing him for a while. At this moment, they were like snakes that didn't have flesh and blood but unnatural dry skin.

Hu Jiao suddenly screeched!

The giant tree shook hard. So many leaves shot out like hard sleet. All bombarded Shi Yan.

Shi Yan brought the blood sword, blood trickling down the corners of his eyes. He grinned fiendishly. "Hu Jiao, actually, if I do my best to battle against you, I'm not so certain that I will lose."

Then, a surging, tremendous vitality that could shake people's souls grumblingly burst out from his body.

At this moment, a magical light suddenly emitted from Shi Yan. His surroundings were cold and isolated. The blood sword had the thick taste of Death as the King of Hell that could bring all creatures into Hell of Despair! However, the vitality on him was strangely surging. The two opposite power Upanishads were showcasing on him at the same time!

His God body was full of cuts. As people were gazing at him, his wounds were healing at a speed that naked eyes could observe!

His veins and flesh fibers twitched. The wounds closed fast. Drops of blood on the cuts seemed to have life as they moved back into his body. The broken spikes on his shoulders, elbows, and knees regrew. They looked even sharper and sparkling in a cold light.

Boom! Boom!

The Absolute Beginning Original Symbol was throbbing powerfully like a second heart at the center of the sphere; it represented the Life power Upanishad in the tier of power Upanishads in his soul altar. It released ripples of formidable life energy, which healed him faster than he could imagine.

After dozens of seconds, all the cuts on his body disappeared. His naked torso was filled with exploding energy. So many blood-dripping eyes on the sword opened. An endless, ruthless, and desperate aura layered and created a sea of blood that swarmed toward every Sea of Consciousness.

Everybody turned to Shi Yan. A space of blood-red struck their eyes. They seemed to see the devils of despair, savage, resentment, and fear.

The blood sword swung around and tried to tear the space to create a river of space under the sea, which Shi Yan could use to escape this area.

The Sea Clan warriors discolored in fear. They were panic-stricken because of Shi Yan's sudden outbreak.

"Yeah, that's it!"

Emperor Sea Shark eyes squinted to a thread. Strange, divine light sparkled in his eyes. He didn't even look at Mei Ji when he raised his hand to grab the void. The ice lotus that Mei Ji created was covered by the sea water. The frozen sea area resumed at the same moment.

"This is my sea area and my territory; I'm cultivating Water power Upanishad. In this place, let alone the fact that you haven't reached the Territory Ancestor Realm yet, even if you were a Territory Ancestor, do you really think you can defeat me under the sea?" Emperor Sea Shark spoke indifferently, his eyes gazing at Shi Yan strangely.

Crack! Crack!

The tip of the blood sword shot a beam of blood with the sharpness of space energy, attempting to tear the water.

The keen aura frightened the experts around. They instinctively avoided it. Hu Jiao's tree branches were cut off and he cried in pain.

"No need to leave," Emperor Sea Shark approached Shi Yan as he looked into his blood eyes and shook his head. "Don't continue. If you use space energy rashly, the water pressure will hurt you badly!"

"Getting hurt badly is still better than dying here," Shi Yan grinned. "If I'm not frantic today, I'm sure I will bury my body here. I don't have a choice. Even if I have to stir up the entire Sea of Annihilation's seabed and make the space collapse, I have to get out of here!"

"Get out?" all of a sudden, a cold vice arose from a far distance. After a flash, Ferrell appeared and stood by Emperor Sea Shark. "Under my gaze, how will you get out of here?"

He turned and smiled to Emperor Sea Shark. "I've agreed with the Ancient Monster Clan to take this kid's life. After I kill him, we will talk about how to share the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. What do you think?"

Emperor Sea Shark had a vague light in his eyes. He frowned but didn't answer.

Ferrell grinned and said to Mei Ji. "You must know that the main island of the Phantom Clan in the Sea of Annihilation was destroyed. I massacred them all. You and this kid have killed many people who you shouldn't have killed. The Phantom Clan can't protect you."

Mei Ji was filled with indignance. "Ferrell, as long as I am alive, one day, I will tear your soul atlas myself!"

"Oh yeah?" shrugged Ferrell, "Well, I have no choice, then. You have Dark Energy. To prevent such an unexpected incident, I will have to kill you too. The Phantom Clan won't have another Territory Ancestor then."

He smiled and turned to Emperor Sea Shark next to him. "I'll take responsibility for killing Mei Ji. I know you're not like me. You don't cultivate alone. You have your own concerns. It will tie your hands a little bit. Just leave it to me. I will shoulder the wrath of the Phantom Clan."

As soon as Ferrell had arrived, he controlled the situation, which made the crowd of the Sea Clan angry.

As they were all experts at the Territory Ancestor Realm, he used to contact to Emperor Sea Shark on the seabed. They could be deemed rivals. However, they hadn't had a real battle yet since they all had their own concerns.

Today, as they had the same target, Ferrell thought that Emperor Sea Shark wouldn't interfere with his deeds here.

"I can't swallow the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol. You can't, either. We need to wait for others to decide." Ferrell smiled. He didn't consider anybody's ideas. "Alright, you've tried really hard here already. I'll take care of it from here."

Then, he walked to Shi Yan and spoke deliberately, "Kid, you have a short life, though. As you've offended a lot of people in the Sea of Annihilation, no one can protect you. Accept your fate."

As Shi Yan saw Farrell, his face changed dramatically into a desperate one.

He had only a thirty percent chance to run with only Emperor Sea Shark. With Ferrell here, he had no hope. Seeing Ferrell intend to kill both him and Mei Ji, he didn't need to know if it was possible or not. He had to try everything he can. He had to see if he could tear the space here.

In a desperate situation, he had to keep his hope and his spirit. He had to try with his life!

Crack! Crack! Crack!

The blood light shot out and parted the sea water. A space slit as big as the massive mouth of a giant beast vaguely opened.

"No, it's not okay." Emperor Sea Shark shook his head. A flood current wormed between Shi Yan and Ferrell. A blue marine world appeared from thin air and filled that tiny crack until it mended.

"Emperor Sea Shark, I told you that you don't need to take action. Why would you waste your power like that?" Farrell felt funny. "I can do it. Hey! You! You!"

Ferrell suddenly shouted.

His abdomen was bleeding through a gash. So many strange, glowing water arrows stabbed him one more time. His chest was pierced through. So many lightning balls rolled out of his sleeves and barged into those water arrows. Shortly after, the entire sea area looked like doomsday. Formidable, lethal energies bloomed and exploded.

Shi Yan and Mei Ji were dumbstruck.

The members of the Sea Clan were speechless as they looked at their Emperor Sea Shark bewilderedly.

Only the old man hiding inside the shell looked normal. His shadow moved and he reappeared behind Ferrell. A fiery flaming fluid rolled out of his eyes and attached to Ferrell's waist.

"Join hands and attack Ferrell!" Emperor Sea Shark shouted suddenly.

The members of the Sea Clan didn't know the reason, but they responded to his call. Different energies and techniques bloomed and pounded on Ferrell.

“Emperor Sea Shark! What the heck are you doing?! Do you want to take the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol for yourself? You think you can swallow them all?” thundered Farrell.

“Shi Yan, Mei Ji! You two run away right now! Do not stop! Change your route!” shouted Emperor Sea Shark.

Chapter 1456: It's the Will of Heaven

Ferrell hovered in the deep sea. Many energy attacks, light curtains, ice mountains, and spikes bombarded him. Several thousand lightning balls spun around him frantically. The seabed was about to shatter.

Billions of water arrows created a long, unceasing river as if it had always been covering Ferrell.

Ferrell was struck and bewildered. He was so surprised as he didn't know why Emperor Sea Shark had suddenly burst out frantically.

Until now, Emperor Sea Shark always had good senses. He rarely offended the members of the seven clans. Also, he had restrained his warriors to not cause a conflict with the others.

The Sea of Annihilation had three great Territory Ancestors including Emperor Sea Shark, Ferrell, and Ricardo. Among them, Emperor Sea Shark was the most modest. He seldom came to the sea surface or started a grudge against the seven clans.

Many people thought that his modesty was a sign of weakness. Because the Emperor Sea Shark had always controlled his warriors, the experts in the Sea of Annihilation thought that he was weaker than Ferrell and Ricardo.

After a long time, Ferrell also thought that Emperor Sea Shark didn't dare to face him directly!

It was also the reason why he had acted wantonly as soon as he had arrived. He had arrogantly decided everything.

He thought that he understood Emperor Sea Shark and that Emperor Sea Shark would agree with his suggestion to not offend the Phantom Clan. Thus, he proactively attacked Shi Yan.

He could never have estimated that Emperor Sea Shark, who was always moderate and often decided to yield, would suddenly act wild today!

“Emperor Sea Shark! Do you think you're strong enough to swallow the Power Upanishad Symbol Tower alone?” Ferrell was certain that the Power Upanishad Symbol Tower was Emperor Sea Shark's target. He smirked, “Let alone you, I know that I shouldn't dream about taking the Power Upanishad Symbol Tower when the seven clans are watching. You shouldn't think about it!”

Emperor Sea Shark coldly floated. Behind him was a deep blue water world. Billions of water streams like everlasting, unceasing shooting arrows were bombarding Ferrell.

Countless lightning balls exploded as Ferrell faced Emperor Sea Shark's attacks directly. He had to simultaneously deal with Emperor Sea Shark's powerful subordinates. He looked a little reckless, though.

"Why don't you leave?" hissed Emperor Sea Shark.

Shi Yan and Mei Ji were still puzzled as they watched by the edge of the battle. They watched the situation turn upside down in just a blink of an eye and felt so bewildered.

"What's going on?"

They didn't know why Emperor Sea Shark wanted to protect them because he had just tried to force them to hand over the Power Upanishad Symbol Tower and the Absolute Beginning Original Symbol five minutes ago. Emperor Sea Shark's attitude changed instantly. He had ambushed Ferrell. Shi Yan and Mei Ji gawked in surprise. However, they thought that Emperor Sea Shark had some other purpose.

"Why?" Mei Ji was perplexed. "As far as I know, you don't have any friendship with the precursors in my Phantom Clan."

"The Phantom Clan?" Emperor Sea Shark ridiculed. "It has nothing to do with the Phantom Clan!"

"Er?"

Emperor Sea Shark looked at Shi Yan, his visage complicated. "Because of him..."

"I haven't met you before. Today is the first time we met, right?" Shi Yan thought. He was sure that he had never met Emperor Sea Shark before. It was the first time they met.

"It's your first time meeting me. But your teacher... has he ever mentioned me to you?" Emperor Sea Shark's had a faint sadness in his eyes as he mocked himself. "Oh, right, with his bearings and vision, he wouldn't have thought that I mattered. But I think he hadn't expected me to reach Territory Ancestor Realm too."

"My teacher?" Shi Yan was startled.

"Your looks, your power Upanishads, and your aura tell me that you're his disciple," snorted Emperor Sea Shark.

"You mean Bloodthirsty, don't you?" Shi Yan was shocked.

"Yeah, if not him, who else?" Emperor Sea Shark smiled bitterly as if he didn't want to mention this character. "Leave. I'll help you stop Ferrell. I'm going to give you a hand. Just consider that I have repaid what I've owed him."

"It's Bloodthirsty again!"

Shi Yan was shaken. He screamed inwardly, frowned, and said nothing.

Mei Ji understood it. After she found that Emperor Sea Shark had turned his spear around because of Shi Yan's teacher, she forced a smile and then said, "Shall we join hands and kill Farrell? Otherwise, after we leave, how can you deal with the wrath of the five clans?"

Shi Yan turned to see Emperor Sea Shark.

While Emperor Sea Shark was talking to them, the water curtain in the Water Territory behind him created tens of thousands of water barriers to drain and seal Ferrell together with his subordinates' attacks. Ferrell didn't have free hands to mess with them.

"I'm at the Territory Ancestor Realm anyway. It's not easy to attack me," Emperor Sea Shark wore an arrogant face. "But if you stay, you can't threaten Ferrell because you don't know that Territory Ancestors aren't people you can fight. Thus, instead of staying here and then getting caught by the five clans later, you better leave now."

Mei Ji quieted down.

Shi Yan pondered for a few seconds, gritted his teeth, and then said, "We'll meet again!"

Then, he didn't wait for Mei Ji to say more. He pulled her hand and turned into a band of starlight, heading to Desolate Territory's entrance.

"He's worth being your apprentice," Emperor Sea Shark nodded and then pulled himself together. He said, "We're going to join hands and delay Ferrell by keeping him here for three days. After that, you guys should scatter and live in your secret areas on this Sea of Annihilation's seabed. Remember not to go to the sea surface."

"Tribal Oldie!"

"Tribal Oldie!"

"Tribal Oldie!"

"Why?"

The members of the Sea Clan in the crystal palace were panic-stricken.

"Ferrell and the Ancient Monster Clan have a close relationship. Neptune from the Soul Clan won't spare me if I let them leave now. The members of the other three clans will come to interrogate me too. I won't be able to live in peace. I will leave the Sea of Annihilation for a while. When I'm strong enough, I will be back."

Emperor Sea Shark sighed, "You are my subordinates. The five clans won't chase you. As long as you hide in this seabed, they won't have enough manpower to hunt you down. When I get strong enough to face the five clans, I will come find you and the crystal palace."

"Why? Tribal Oldie, why do you have to help them?" Hu Jiao emerged, his face puzzled and bitter.

"I owed a man my life. He helped me break through to Territory Ancestor Realm." Emperor Sea Shark chuckled, "I've planned to stay on the seabed to help him find the Absolute Beginning vestige. Unexpectedly, his disciple had it. It's Heaven's Will. I should help his disciple solve the problem."

With a solemn face, he hissed, "Just do it! You guys will leave after three days. Stay in seclusion. From now on, you're not related to me, Emperor Sea Shark. I just need you to live well!"

"Tribal Oldie!"

“Tribal Oldie!”

“Tribal Oldie!”

“Just do as I said. Do not say nonsense!” Emperor Sea Shark shouted resolutely.

Inside the Water Territory behind him, billions of water curtains had created a vast barrier and sealed Ferrell’s Lightning Territory. The Sea Clan warriors weren’t affected by the water curtains. They continuously attacked and bombarded Ferrell, troubling him.

Time flew hurriedly. Three days had passed as fast as a blink of an eye.

The members of the Sea Clan were exhausted after three consecutive days of attacks. All of them were weakened to a particular level.

As Emperor Sea Shark understood his subordinates well, he knew that they could resist for only three days. After three days, he pitched his voice. “Hu Jiao, Datuk, you guys drive the crystal palace. The rest of you, scatter and hide in your secret areas in the Sea of Annihilation. You should also notify the others who don’t know about this incident!”

“Tribal Oldie!”

“Tribal Oldie!”

“Do not babble! I’ve made up my mind! Leave now!”

Many Sea Clan members looked sorrowful. They left as Emperor Sea Shark had told them. Hu Jiao and Datuk drove the crystal palace away. They had pledged to protect the crystal palace and wait until Emperor Sea Shark returned.

Shortly after, only Emperor Sea Shark and the old man in the seashell were left in this area.

“Shen Ren, I want you to leave with them.” At this moment, Emperor Sea Shark didn’t attack Ferrell more. But still, Ferrell was trapped in many layers of water. He was using his lightning power to attack the water layers and get rid of it. “The others don’t know this, but I’m sure you know. Fighting on the seabed, Ferrell and Ricardo aren’t my equal opponent. I live here and I cultivate Water power Upanishad. This sea area is my natural support.”

The Sea Clan old man inside the seashell just cackled. “Of course, I know that. If you want to fight and if you’re combative, Ferrell and Ricardo should have been defeated. I also know that after I leave, Ferrell won’t be your rival. But what if Neptune and Ricardo all come here?”

Emperor Sea Shark’s eyes were serene. “You’ve not reached the Territory Ancestor Realm yet. Even if you stay, you can’t help me.”

“I’m staying to remind you of when to leave. I know that even if Neptune and Ricardo come, if you want to leave, you can leave at any minute. I’m just afraid that you’ll pretend to be a fool again,” said Shen Ren.

“You’ve been accompanying me for years. You should know that I’m not who I used to be. I was hot-tempered like thunder. I liked slaughtering without reasoning. I didn’t know what surrendering meant.

But now, I'm patient and subtle. I've changed my stinky habits. I know life is more important than reputation. I know when to run away," smiled Emperor Sea Shark.

"Even so, I have to see you leave," Shen Ren was persistent.

Emperor Sea Shark was surprised. Pondering for a while, he nodded begrudgingly, his eyes upset. "He must be gone. When he returned, he told us that if we see his successor, it meant that he had already gone. I can't believe that a character like him is dead now."

"You've reached a high realm. Of course, he has his place to return to. When we met him in the sea that year, we were just at Incipient God Realm. Sigh, we were useless. We've been looking for so many years on this seabed and we got nothing. It's amazing that his disciple got them all," sighed Shen Ren.

"It's the Will of Heaven," said Emperor Sea Shark calmly.

[God of Slaughter](#)

Chapter 1457: Enlightened by the Broken Star

So many big, broken rocks lay on the deep seabed. They looked ancient as if they had been there for billions of years.

Those big rocks were in various shapes. Some looked like a cliff and some even resembled a broadsword. It was obvious that many of them were cut by sharp blades as the cut surfaces were flat and smooth.

These rocks were scattered everywhere in this sea area. However, these rocks were actually broken stars.

"Many years ago, a furious war had taken place above the Sea of Annihilation. The floating pieces of broken stars above the sea surface exploded and sank to the seabed." Mei Ji stood on a rhombus stone and smiled beautifully like a charming fox deity. "That war should be very fierce. That's why there are many pieces of broken stars here. It's not rare or strange, anyway."

Not far from her, Shi Yan looked pensive as he stood on a sword-shaped rock.

Shi Yan and Mei Ji had moved as fast as lightning until they reached this sea area with so many rocks. Shi Yan suddenly slowed down and parted from her. He dashed between the broken pieces. Sometimes, he raised his hand to stroke those strange rocks.

It made Mei Ji restless.

She didn't know how Shi Yan could be at ease like that in this critical moment. He still had the mood to observe the broken stars here.

"Give me some time here."

Shi Yan signaled her to stay quiet as he moved around the broken stars. The rocks here had many colors and dots. Some were as smooth as a mirror while others were rough and rigid.

Gradually, he closed his eyes, his Soul Consciousness reaching out like a spider web that moved between the rocks.

As soon as he got here, he had a magical feeling in his mind. His Star power Upanishad seemed to get stimulated. It seemed like something really marvelous was hiding somewhere in the area filled with pieces of broken stars.

Wisps of Soul Consciousness expanded and created a massive net shrouding the rocks.

After a while, his eyes opened and his pupils sparkled strangely.

A wisp of his Soul Consciousness reported a feeble aura from a piece of a broken star. That aura was extremely magical. It seemed to have some soul energy.

Shi Yan was moved. He turned into a jet of starlight that stopped by a piece of broken star. This rock was dozens of meters tall and it looked plainly brown-gray.

He reached out and placed his hand on that rock. After calming down his mind, he sensed and sent the star energy into the rock.

Boom!

The brown-gray broken star became dazzling when he sent his star energy into it.

The brilliant starlight was like a cold, sharp sword or a bright star in the velvet night.

Mei Ji suddenly saw the dazzling light from a far distance. She was bewildered as she rushed forward. Her beautiful eyes were bright as she stood on another star and watched.

At this moment, Shi Yan was touching the rock that was emitting starlight, his face focused but his eyes surprised.

This piece of a broken star had a wisp of feeble aura. That aura... belonged to this rock. It was a magical feature when a power Upanishad was cultivated to the ultimate level. It finally had consciousness!

A scene arose in his head...

Tens of thousands of years ago, an expert cultivating Star power Upanishad had used his energy to control the stars above the Sea of Annihilation. So many stars had been stimulated and received consciousness that they could proactively seek enemies to attack.

The power Upanishad had a spirit!

The energy that the expert had cast out received the spirit and turned it into a part of the expert's spirit. It advanced the ability of the power Upanishad to an extremely profound level.

After tens of thousands of years, the consciousness of the power Upanishad that had controlled the broken stars had still not faded.

As Shi Yan also cultivated Star power Upanishad, he was able to stimulate something strange from the rocks to see the remaining energy. That's why the rock could emit starlight for a while.

The dazzling light from the rock dimmed and it resumed its normal condition after the star energy was used up.

A wisp of Soul Consciousness hidden inside the rock vanished. Shi Yan still touched the rock, his eyes shining.

“The power Upanishad has its own spirit!”

Shi Yan felt like lightning struck him. While his thoughts changed, starlight shot out from his ten fingers. Ten jets of starlight turned and moved like ten spirit snakes.

“Spirit Imprint!”

Ten Soul Seals from his host soul entered the ten jets of starlight. As soon as they departed from his fingers, he cut off the connection.

The ten starlights shot out. Shi Yan immediately cut off the control and stopped using the Soul Consciousness to control them.

The connection between Shi Yan and the jets of starlight was interrupted. The ten jets of starlight moved in a straight line. They shelled a piece of a broken star far from him.

“Oh, it doesn’t feel right.”

Shi Yan shook his head.

If his power Upanishad had a spirit, once the starlight shot out, he didn’t need to use the Soul Consciousness to guide them. They could attack the target or change their trajectory on their own.

“Not the right direction, then.”

Mumbling to himself, he changed his technique. As he muttered, another jet of starlight had shot out from his left index finger.

With the new perception of Star power Upanishad, he used the host soul to sense the galaxy in his tier of power Upanishads. He created a soul imprint and sent it to the galaxy. Then, with the aura from the galaxy, he carved the imprint onto a jet of starlight.

The starlight shot out, but it didn’t have the spirit.

“Hmm, not yet...”

He looked like he was in bedevilment as he continuously shot out starlight and broke many pieces of broken stars.

He continued to fail!

He didn’t know why. He frowned and thought about what to do. He had tried many methods to give spirit to his power Upanishad to understand this power deeper.

Mei Ji quietly watched him. She didn’t try to prevent or call him anymore. She knew that Shi Yan was trying to break the challenge of understanding the realm. She shouldn’t disturb him at this moment.

Two days and two nights passed quickly. Mei Ji found a treasure that was similar to the Heavenly Fantasy Star Compass, so she knew the time.

Two days and two nights wasn't a long time. Normally, it was just like a blink of an eye.

However, to the current situation, two days was enough for many things to happen. It was also enough for the enemy to catch them. Seeing Shi Yan sink in his cultivation but not get anything, Mei Ji became restlessly agitated.

Time continued to pass. Shi Yan was bewildered as he stood in between the broken pieces of stars and tried to understand his power Upanishad.

Mei Ji was so uneasy as if she got a flame that burned her inwardly.

Boom! Boom!

Thunder continued to rumble. The energy hit layers of water and shattered them.

Ferrell howled and finally got free from the water restriction. He thundered indignantly. "Emperor Sea Shark! You trapped me and let that kid go. I don't care what kind of purpose you have in your mind. But you, you must bear the consequences!"

Emperor Sea Shark and Shen Ren blocked Ferrell's sides, their faces indifferent as they ignored Ferrell's shouting.

"I don't want to talk to you. Where is that kid? I've agreed with the Ancient Monster Clan to take his life and the Power Upanishad Symbol Tower!" Ferrell wore a cold face.

Emperor Sea Shark smirked and shook his head. "Ferrell, do you still think that you're the best in this Sea of Annihilation? I know you've tried to provoke me several times. You want to fight me and defeat me. You want to use my defeat to strengthen your high position and receive more recognition from the Ancient Monster Clan. You want them to invite you back to the Ancient Monster Clan with a noble ceremony, right? Is that what you want?"

His words exposed Ferrell's thoughts.

Ferrell wasn't a member of the Ancient Monster Clan, but he had the Ancient Monster Clan's bloodline. Before he was strong enough, the Ancient Monster Clan didn't pay attention to him. Before he had reached the Territory Ancestor Realm and gained fame in the Sea of Annihilation, the Ancient Monster Clan didn't even look at him. They had sent Yerburgh and Hussein to visit him often.

Ferrell looked arrogant but deep in his mind, he wanted the Ancient Monster Clan's recognition. He wanted to return to the clan in glory and become one of the experts with the top power. In recent years, he had often provoked Emperor Sea Shark and Ricardo. He wanted to defeat them and become the strongest warrior in the Sea of Annihilation.

Then, with this title, he was going to draw the attention of the true experts of the Ancient Monster Clan. They were going to come to the Sea of Annihilation personally to invite him to return to the Ancient Monster Clan to meet his ancestor and offer him the best treatment according to his noble status.

It was just an excuse that Ferrell wanted to take revenge for Yerburgh and Hussein. He just wanted to seize the change to showcase his talents by robbing the Power Upanishad Symbol Tower to prove his ruling status in the Sea of Annihilation.

He wasn't afraid of offending the Phantom Clan to tie himself together with the Ancient Monster Clan. He had received acceptance from the Ancient Monster Clan's senior echelon. As long as he could take the Power Upanishad Symbol Tower, the hall of fame of the Ancient Monster Clan was going to have a slot for him. For this slot, Ferrell had tried his best to compete.

As Emperor Sea Shark had seen through him, Ferrell darkened his face. "What if it's true? What if it's not true?"

"Whether it's true or not, I'll satisfy you today. I'm going to battle you, Ferrell. I hope it fulfills your wish for years."

Emperor Sea Shark grinned. His eyes suddenly turned red, which was similar to Shi Yan's Rampage. A brutal, bloodthirsty aura that was completely different from his Water power Upanishad suddenly burst out from his body.

Shen Ren was hovering nearby. Seeing Emperor Sea Shark's appearance, he felt worried.

The old man had decided to stay because he was worried that Emperor Sea Shark would use the technique that Bloodthirsty had taught him. Once he used it, his competence was going to increase rapidly. However, he would be similar to Shi Yan in that he would lose his mind easily and fall into a slaughtering mode.

"Don't worry. I understand. I will leave when it's time to leave. Now, don't try to talk me out of it!"

Emperor Sea Shark grinned as if he understood what Shen Ren was worried about. He screamed and moved with ease. Stepping on the water current, he strode toward Farrell.

Farrell changed his visage slightly. He lifted his head to watch the Water Territory above his head as he felt the pressure increase dozens of times. The pressure pushed him everywhere like billions of mountains pounding on him at the same time.

At this moment, Ferrell knew that Emperor Sea Shark wasn't weak and easily bullied. He was a beast in his slumber on the seabed. He disdained to fight against him. And today, he finally awakened!

[God of Slaughter](#)

Chapter 1458: Clash of Territories!

The Sea of Annihilation's seabed was boiling; massive bubbles were rising.

Emperor Sea Shark was seen in each bubble, each of them an independent world. Inside those bubbles were a reef under the sea, corals, algae, and swimming fish. They were all lively and swarming toward Farrell from every direction.

Those bubbles came like mountains. Ferrell was breathless, his face extremely stern.

"Thunder Nether Territory!"

A thunder and lightning world arose, inflating like a balloon and covering Ferrell.

That world contained dark blue lightning bolts. Electricity beams crawled and struggled in the sky like giant dragons. Thunderbolts as big as a waterfall connected the Netherworld and the sky. At first glance, this entire world of thunder and lightning strikes was supported by countless lightning columns. Ferrell hovered in the middle of that world like a God of Thunder. Shortly after, countless lightning balls condensed.

Those lightning balls spun and exploded. An earth-shattering energy explosion appeared in the world of thunder and lightning. It shook the seabed and twisted the entire place.

Emperor Sea Shark's Water Territory and Farrell's Thunderbolt Territory collided and pressed on each other. The water currents and the lightning balls shattered altogether. The shockwaves stirred up the sea area and created many massive whirlpools. Those whirlpools were tens of thousands of meters. Shortly after, they swallowed so many islands on the Sea of Annihilation's surface.

Rays of light from the energy impact shot to every corner like sharp swords.

Many warriors cultivating around the area could see those intimidating lightsabers; they had to run for their lives. However, many of them were killed by the shockwaves of the fierce battle between Emperor Sea Shark and Ferrell.

"So powerful!"

"Fierce!"

"It's a battle between real experts! It's... the level of Territory Ancestor Realm experts! Do they want to destroy the Sea of Annihilation's seabed?"

"Er? When was the last time Territory Ancestor Realm experts fought in the Sea of Annihilation?"

"..."

On the seabed, the sea surface, and even in the sky, many warriors from different clans and forces were startled by the confrontation between Emperor Sea Shark and Ferrell. They were discussing boisterously. They were excited, scared, and even frantic.

Warriors with low realms hurried to move as far away from the area as possible. They were afraid that they could get hurt from the shockwaves.

Warriors who thought their realms were high enough became thrilled. They began to gather and head to the battlefield. Especially some experts at the Immortal Realm. To understand Dark Energy, they ignored everything and tried to go closer to observe the battle between the Territory Ancestor Realm experts. They would try everything for a chance to break through.

— They eagerly came to the seabed!

At this moment, so many experts had come to the Sea of Annihilation. The members of the seven clans who were dispirited because they couldn't find Shi Yan came with joy as they recognized that the two Territory Ancestors battling were because of Shi Yan.

In their eyes, what could make the two Territory Ancestors fight against each other besides the Power Upanishad Symbol Tower?

Neptune from the Soul Clan was sitting cross-legged on his clouds of brutal souls, countless brutal souls bobbing around him and blackening the entire area. He suddenly opened his eyes and sneered, "Interesting!"

The clouds of brutal souls moved like a black cluster of clouds through the sea and headed toward the furious battle.

Inside a rock forest, Forefather Dragon Lizard, Tu Shi Qi, and Ya Yun were waiting for Hiro of the White Bone Clan. As they felt the earth-shaking commotion of the Territory Ancestor Realm battle, they exchanged looks. Tu Shi Qi immediately messaged Hiro and then hurriedly headed to the battle area.

Qi Mo of the Devouring Clan appeared on the Sea of Annihilation's surface. Standing behind him were about ten warriors of the Devouring Clan. They stood upright with respect. Qi Mo observed the vortexes, listened to the rumbling thunder from the vortexes and frowned, "Get to the seabed!"

Right after that, the Devouring warriors dove deep into the sea.

Most of the high-realm warriors from the five clans had the same purpose when they came to the match between Emperor Sea Shark and Ferrell. This match was predestined to attract a lot of people.

Rumble! Rumble! Rumble!

Inside the world of thunder and lightning, so many dark blue lightning balls exploded. The power of their explosions was enough to break asteroids or even crush a small star into powder.

Emperor Sea Shark's Water Territory was torn sometimes under the blasting power of the Thunderbolt Territory. However, it was like a sword cutting through the water curtain; the water curtain went back to its normal state almost instantly.

At this moment, many warriors from the surrounding areas had gathered by the area where the two were fighting. Most of them were at the Immortal Realm and well known in the Sea of Annihilation. They had all used their God power to create different colored light cage protections, ranging from blue, red-orange, emerald, silver, and lime.

The rainbow light twirled around the light cages. It was the sign of highly condensed God power.

Emperor Sea Shark's and Ferrell's energies had collided, electricity beams sparking. Those electricity beams could kill Incipient God Realm experts quickly. Thus, those Immortal Realm experts had prepared well with their best defense. When the electric current hit their light cages, only sparks were sent everywhere.

They watched, their faces stern or excited. They even discussed with each other.

Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard were in this group too. They were ones of the warriors who had arrived first. Seeing the terrifying energy impact between Emperor Sea Shark and Forefather Dragon Lizard, Forefather Dragon Lizard became eager. "The battle at the Territory Ancestor Realm isn't ordinary, indeed. The Water World and the Thunderbolt World are real Territories. They are above the

Incipient Extent. They contain the essence of Water power Upanishad and Thunder and Lightning power Upanishad with Dark Energy as the source of energy... They're pretty close to reality."

He wanted to use their battle to see the power of Dark Energy, which would help him break through to the Territory Ancestor Realm too.

Ferrell's Thunderbolt Territory slowly had continents created by lightning. They were complete continents. If low-realm warriors at the three minor God Realms and the three major God Realms cultivated there, they would gain the big benefits.

To low-realm warriors, Ferrell's thunderbolt continents were auspicious lands that they only dreamed of.

At this moment, the three massive continents glowing in a dazzling light came out with grumbling thunder. On their way, they turned into the lightning balls and hit Emperor Sea Shark's Water Territory.

Emperor Sea Shark's Water Territory consisted of immensely vast seas. The seas under the lightning attacks exploded and disappeared. However, they recovered fast.

Emperor Sea Shark was in every sea in his Water Territory. With two crimson eyes, he grinned brutally. "The water is unpredictable. It can be destroyed by slashing, hacking, or exploding it. You used a saber to cut the water. Do you think you can succeed?"

The number of bubbles was also the number of the small worlds inside the Water Territory. After they shattered, they came back right again.

As the onlookers observed heard Emperor Sea Shark, they were scared.

Until now, many people had thought that Ferrell was the strongest among the three Territory Ancestors in the Sea of Annihilation. They ranked Ricardo second and Emperor Sea Shark as the weakest. However, the battle today had turned everything upside down.

They found that Emperor Sea Shark, who was always humble, wasn't weaker than Ferrell. He was even stronger somehow.

Many of them had recognized it and thought, It's the seabed, deep down in the blue sea. Emperor Sea Shark cultivates Water power Upanishad. He has natural support here. How could Ferrell deal with him at ease?

At this moment, they were startled and recalled Emperor Sea Shark's power Upanishad. They thought it was reasonable that Emperor Sea Shark could gain the upper hand in this battle.

The battle happened, still.

The field of broken stars.

Shi Yan sat like a rock statue for a long time. He didn't use the Star power Upanishad anymore. He looked like he had been petrified.

Mei Ji's worries swelled.

Although they were very far away from the battle between Emperor Sea Shark and Ferrell, Mei Ji knew how furious the battle of the Territory Ancestors was through the sea water.

She could confirm that the real experts of the Sea of Annihilation had all sensed the confrontation between the two more or less. Also, it had successfully attracted them.

As Mei Ji was the leader in charge of the Phantom Clan in the Sea of Annihilation, she wasn't a fool. She knew why Emperor Sea Shark had decided to take action now and why he had to create such a great commotion just to attract the other experts.

— He wanted to give Shi Yan more time to leave without being noticed or tagged along.

“What did the Emperor Sea Shark owe his teacher? To back up him leaving, he didn't hesitate to stand against the five clans. Is he crazy?”

Mei Ji was surprised. The more she tried to guess Emperor Sea Shark's plan, the more puzzled she became.

She understood Emperor Sea Shark better than most people.

After so many years, Emperor Sea Shark had been subtle and modest on the seabed. He rarely competed with anyone and he didn't want an alliance with the seven clans like Ferrell or Ricardo. He was a real hermit. But because of Shi Yan, he had shown his fangs to show the world how formidable he actually was.

Mei Ji believed that Emperor Sea Shark's deed had caught the attention of all experts. Also, she knew that whenever Shi Yan got up, they could leave to Desolate Territory safely.

However, Shi Yan had been quiet for a long time as if his soul was gone.

Although she had sealed this area for the time being, if a real expert came, he could still recognize an abnormal situation. When she and Shi Yan got exposed, they couldn't control the situation.

“What should I do now? Should I wake him up and tell him that Emperor Sea Shark's fighting against Ferrell to give him a chance to leave?” Mei Ji struggled mentally and couldn't make up her mind.

A sharp aura suddenly came. The other had even uttered something as if he had found the delicate seal in this area.

Mei Ji was tense as she gritted her teeth. “I have to wake him up!”

Her figure moved as she tried to use her Soul Consciousness to enter Shi Yan's brain and awaken his consciousness.

However, at this moment, a massive ice saber condensed above this illusion of ice and slashed downward.

Mei Ji had used the ice crystal to create the illusion that had hidden her and Shi Yan in the blind corner. Normal people couldn't find them, anyway. However, this random person happened to cultivate Ice power Upanishad too. That's why he had curiously slashed the ice illusion to see what it hid.

That saber had hacked them before Mei Ji's Soul Consciousness was sent to Shi Yan.

Crack! Crack! Crack!

The illusion of ice was attacked. It shattered like a mirror. Pieces of ice reflected a chaotic situation.

A jet of starlight created by the star energy shot out of Shi Yan's body. It acted as if it had its own consciousness. As soon as it was released, it was like a dragon soaring up into the sky or a caged beast that had suddenly escaped its imprisonment. Eagerly, it parried the ice saber.

The ice saber broke and the jet of starlight turned into more beams of starlight.

It was like a soul divided into dozens of wisps. The starlight beams transmitted angry screaming as they moved agilely like a bunch of snakes and coiled around a warrior.

God of Slaughter

Chapter 1459: 1 Gets Through, All Gets Through!

Shi Yan had been quiet for a long time. Now, he opened his eyes and stood between the broken stars. He looked at the warriors tied by the starlight chains in the water above his head.

He was a warrior cultivating Ice power Upanishad at Second Sky of Immortal Realm. This man had the typical appearance of someone of the Ancient Monster Clan. He was covered in thick fur. His hands were rough and large, and his face was like that of a ferocious beast. A strange and cold light sparkled in his eyes.

"You... You are that Shi Yan! Hahaha! He stooped to see and couldn't help but laugh crazily. "I've worn my shoes for nothing. And now, I got you without spending a bit of effort!"

"Oh yeah? Are you really that happy?" Mei Ji's attractive laughter resounded from the shade of a big rock.

The warrior changed his face instantly as if he saw a ghost. He tried to jump and get rid of this area.

He used to work as Hussein's guard for a while. He had witnessed Mei Ji beat Hussein up, which had almost ignited a war between the Phantom Clan and the Ancient Monster Clan.

He knew that Mei Ji was cold and ruthless even though she looked sexy and seducing. She was really evil and her deeds were merciless, anyway. Seeing Mei Ji, his temples twinged.

However, so many starlight chains coiling around him acted as if they had lives. He could even feel the resentful, angry, and brutal auras from them. After struggling for a while, he couldn't get rid of them.

Shi Yan stood on a rock underneath. He didn't look like he wanted to attack him; his face was puzzled. He didn't look up to see the man. A jet of starlight appeared on his fingertip.

An invisible beam of light emitted from the host soul and shined the galaxy in the tier of power Upanishads. The light of the host soul seeped into the galaxy and continued to move to the Sea of Consciousness.

A wisp of Soul Consciousness was released!

That wisp of Soul Consciousness imprinted onto the starlight. Shortly after, that starlight seemed to have consciousness and a projection of his soul!

A strange feeling reflected in his mind. The jet of starlight from his fingertip seemed to have another co-soul of his, a part of him. It had a mental connection with him, but it had an independent consciousness. It protectively left his fingertip and aimed at the Ancient Monster Clan warrior.

Shi Yan jolted up.

The power Upanishad with a spirit! It was his power Upanishad that had a spirit!

The ability of his power Upanishad now had a complete, independent consciousness. It became a miniature of the host soul that could proactively dodge the attack and find the enemy's weakness to kill him.

It was a mysterious principle of the power Upanishad!

Using the host soul to chain the power Upanishad in the tier of power Upanishads and then connect it with the Sea of Consciousness, Shi Yan had added his Soul Consciousness to his God power. The host soul, the power Upanishad, the Sea of Consciousness, and the God power had created a marvelous resonance, which made the power Upanishad get the aura of a soul instantly!

Shi Yan understood this magical principle now!

When his thoughts changed, his power Upanishad switched. A red hand seal generated by the Death power Upanishad flew out of his head and fell on that Ancient Monster Clan warrior.

The red seal had complicated fingerprints that seemed alive with negative auras including bloodthirstiness, resentment, brutality, desperation, and fear. The negative auras had become the soul of Death. It was dark, sinister, and cold, and it could release formidable waves of negative energies.

Boom!

The Ancient Monster Clan warrior screamed as his brain was shaken and invaded by the negative energies! His consciousness shattered!

“Space Cross Slash!”

Shi Yan spoke calmly and changed his power Upanishad. A cross-like light saber appeared. It was created by a wisp of his Soul Consciousness. When his thoughts flickered, he was careful not to tear or distort the space as he was afraid of stimulating the space badly.

The light space saber moved at a breakneck speed that the naked eyes could hardly observe.

The cross saber disappeared all of a sudden.

Then, the Ancient Monster Clan warrior's chest had a deep crosscut. The cut went through his body and shattered it.

The Death Seal was carved on his forehead. The soul of Death entered his soul altar and made it chaotic with the unconscious screaming of killing.

Shi Yan chuckled and mumbled to himself. "One gets through and the rest follow through. I finally understand why Bloodthirsty had cultivated eight great, evil power Upanishads at the same time but he still reached the profound level..."

He understood it now!

While he was in Desolate Territory, more than one warrior told him that it would be much tougher to break through as he cultivated many power Upanishads at the same time and that he had to understand all the power Upanishads to reach a new realm.

He believed it with not a single doubt.

But he was also aghast. If it was true that there was no shortcut, what did Bloodthirsty do to cultivate Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Desperate, and Corpse Qi power Upanishads together with his Devouring power at the same time? He had advanced very fast in Desolate Territory and he had entered the Territory Ancestor Realm quickly.

What did he use?

Did he have to understand all the abilities of the great evil powers and the Devouring power Upanishads? How could he have enough energy to do that?

If he didn't have anything magical, he should have been stuck in a low realm, right?

But that didn't happen!

It wasn't true that if one cultivated many power Upanishads at the same time, he had to comprehend each of his power Upanishads to enter a new realm.

If he understood the principle of his power Upanishads, he could take the shortcut. Although there were so many power Upanishads in this world, they had some similar principles.

For example, if the Metal, Wood, Water, Fire, and Earth power Upanishads could transform into a world of Five Elements, they could create the Five Elements deathtraps inside that sealed world. The great evil power Upanishads belonged to the negative, bloodthirsty category power Upanishads so they shared some same principles.

Also, the power Upanishad's spirit that he had just comprehended could send a soul aura to the Star, Space, and Death power Upanishads when he used their abilities. Space and Star power Upanishads had the aura of his vitality and the Death power Upanishad was an evil, fearful one.

Different spirits of the power Upanishads corresponded to the sunshine and darkness in his body. The aura of the star and the surging vitality were images of warmth, tolerance, and mercy in his soul. The sharp Space power Upanishad represented his cutting edge while the terrifying evil features of the Death and Devouring power Upanishad were projections of the most extremely negativeness in his soul!

A person in different situations, different moods, and different times acted differently. Likewise, the soul aura created while cultivating different power Upanishads wasn't similar.

— It could magnify some aspect of the host soul endlessly and imprint it on the power Upanishad to increase its power and the strength of the principle.

Indeed, when he got one through, everything else could get through too. As he had comprehended this within the Star power Upanishad, he also concluded that his Space, Death, and Life power Upanishads could reach the same level. After understanding one principle, he had advanced all of his power Upanishads!

Squinting, he observed the tragic death of the Ancient Monster Clan warrior above his head and smiled.

A black hole arose from the crown of his head. It opened like a mouth of a devil that swallowed the soul energy of that man.

Inside that black hole was the most terrifying dark side of Shi Yan's soul. It had the smell of a bloodthirsty desire as if it was nibbling flesh and blood and melting that poor man's soul.

"Watch over me. I need to adjust my condition for a while. Then, I can enter Second Sky of Immortal Realm," said Shi Yan.

Mei Ji's eyes rippled a beautiful light as she swallowed her advice and answered him mildly. "Okay."

At a corner of the Sea of Annihilation, Ming Hao and the God Lord halted and squinted to sense the aura flowing with the sea water current. They were moved.

Audrey's realm wasn't high enough. She frowned and didn't understand it.

"The experts are fighting on the seabed. Experts at the Territory Ancestor Realm!" reminded Ming Hong.

Audrey was frightened. "Is it because of Shi Yan?"

"Probably," Ming Hong thought and then said, "The Power Upanishad Symbol Tower is very crucial. Unless it's the Power Upanishad Symbol Tower, the Territory Ancestors won't join the battle personally."

"I want to go there and see," said Audrey resolutely.

"It's not a wise move," Ming Hong shook his head.

"We also want to go there and see," Ming Hao and the God Lord exchanged looks and made up their minds. "It's a once in a blue moon opportunity to see Territory Ancestors fight against each other! We've been stuck in this realm for a really long time. Perhaps we can learn something from this battle to break through to the Territory Ancestor Realm!"

"They don't know us so they won't relate anything to us. We can go there and observe from a distance. We should check if it's Shi Yan, and it's a good chance to improve our realms too."

The God Lord said firmly, "The experts in this Sea of Annihilation aren't really powerful. They're too weak and much lower than Bloodthirsty. Perhaps the ones at the Territory Ancestor Realm are considered the strong ones. I've swaggered in Desolate Territory for twenty-thousand years and only Bloodthirsty could defeat me. If I enter the Territory Ancestor Realm, I'm confident that I can challenge each of the Territory Ancestors in this Sea Domain of Nihility!"

“We’ll go there to open our minds and observe their competences. After I break through to the Territory Ancestor Realm, I’m sure I will stir up the entire Sea Domain of Nihilicity!”

Then, he stopped caring about Audrey and Ming Hao. He turned around and flew towards the battle site between Emperor Sea Shark and Ferrell.

Ming Hao pondered for a while and then said, “Audrey, your realm is too low. You shouldn’t take risks. It’s better that you find a safe place to hide. After I’m done with watching the battle, I will come and find you. I’ve left my aura on you to track you later.”

Ming Hao left resolutely.

Audrey snorted, “We should go, too!”

“Do you really want to go?” Ming Hong wasn’t really willing to do that.

“If you don’t want to go, I’m going there alone!” Audrey pulled a cold face.

“Alright,” Ming Hong was begrudging. They followed Ming Hao and the God Lord and headed to the battle. They moved at their max speed. Just like a shadow wandering under the sea, they flashed and disappeared.

Rumble! Rumble!

Thunderbolts stirred the entire place. The sea water was furiously boiling. The entire sea area looked as if it was about to vanish.

Many high-realm experts were observing the match from a far distance. They were awe-struck and appraising Emperor Sea Shark who looked modest but was actually fierce. Emperor Sea Shark had Ferrell in a bad situation.

All of a sudden, many people in that group of onlookers were hit and they fell like bouncing rubber balls.

A black cluster of souls had swaggered through the crowd and hurled the onlookers at the Immortal Realm away, creating a chaotic scene.

Those who were thrown away were indignant. As they were about to scold or curse, they saw Neptune sit on the cluster of souls. Immediately, they shut their mouths and retreated.

[God of Slaughter](#)

Chapter 1460: All Dreadful Devils Come!

Many surrounding warriors watching the battle wanted to be foul-mouthed when they were swept away by the cluster of souls. However, because they saw Neptune, they didn’t dare to say anything despite being indignant.

Neptune was like a cluster of black souls hovering in midair. He sat neatly on a cloud of brutal souls and watched the battle between Emperor Sea Shark and Ferrell with a frown.

He snorted and grabbed something. A giant ghostly claw created by his brutal souls grabbed a man at First Sky of Immortal Realm.

The ghostly claw dragged the man to Neptune. Freaked out, he screamed, "Precursor Neptune, I didn't offend you. I always respected and admired the Soul Clan. I..."

"Shut up!" shouted Neptune.

That man didn't dare to babble more and just shivered under the ghostly claw.

"Why did Emperor Sea Shark and Ferrell attack each other?" asked Neptune coldly.

The man reacted and said, "I don't know. Really, I don't know. They've been fighting when I came. Only the ghosts know why they fight."

"Ghosts? I don't like when people mention that word in front of me!" Neptune's eyes had the dim and cold light. The massive claw squeezed and the man's body exploded. His blood splashed together with pieces of his flesh. "Get lost. Just at First Sky of Immortal Realm. Do you think you deserve to watch this battle? You don't treasure your life!" scolded Neptune.

After the warrior's body burst, his soul altar arose and fled helter-skelter.

Neptune looked around. Each warrior in his line of sight ducked instinctively. They were very afraid that he would capture them.

Among the Territory Ancestors of the seven clans, Neptune was some sort of bipolar. He often attacked people without an excuse. Not many people dared to offend him or guess what he was thinking. They all tried to avoid him to prevent any unwelcome trouble.

"Who can tell me why Emperor Sea Shark and Ferrell are fighting each other?" Neptune raised his voice, which was echoing like a ghost whispering into everybody's ears. They felt their hair rise and shiver send down their spines.

At this moment, Emperor Sea Shark and Ferrell had tried their best to attack each other. The Water Territory and the Thunderbolt Territory impacted fiercely, which led to the collapse of the entire sea area.

They weren't free to pay attention to anybody else. Of course, they didn't answer Neptune. Neptune looked around and found Tu Shi Qi and his wife in the crowd. His face turned cold as he laughed evilly. "I didn't think that you two would come to the Sea of Annihilation too. You two had joined hands with the others to kill Singh on Dragon Lizard Star, right?"

Ruthless light sparked in his eyes. Neptune shouted, "Singh was a member of my Soul Clan. Although he was just a commander, he had borrowed my Soul Refining Cauldron. He was my subordinate. You killed him. You didn't put me in your eyes, right? I will teach you a lesson instead of Han Tian!"

As Tu Shi Qi and Ya Yun first saw him, they had tried to sneak away as they were afraid that he would spot him.

They couldn't ignore him. The old freak had seen them. Hearing him, Tu Shi Qi and Ya Yun had headaches. They knew that this freak would assault them.

However, at this moment, an eccentric, archaic-looking old man appeared. He was lanky and his snow-white hand draped around his shoulder. The people in his way instinctively moved away when he passed through them. They were all scared.

“Ricardo!”

“Ricardo!”

“Ricardo is here!”

“...”

Ricardo was one of the three great Territory Ancestors of the Sea of Annihilation. He always worked alone. People rumored that he was related to the Black Demon Clan and he cultivated Fire power Upanishad.

He directly walked to Tu Shi Qi and Ya Yun. Glancing at Neptune, he said, “Do you think you’re a bully when you attack them with your Territory Ancestor Realm?” Pausing for a while, he continued indifferently. “Precursor Han Tian and I have met several times. I hope you will give me face to not attack the two of them.

“About Singh, he was at the Peak of Immortal Realm. The battle between him and Tu Shi Qi was fair. If he lost and died, he can’t blame his opponent.”

Tu Shi Qi and Ya Yun were surprised. They hadn’t expected that Ricardo would protect them. They knew Ricardo had a good friendship with the Black Demon Clan, but he didn’t have a relationship with the Mysterious Sky Clan. At the critical moment, Ricardo protected them as instructed by Han Tian a long time ago. He had helped them dodge this kalpa.

Neptune glared at Ricardo. After a while, he laughed evilly and darkly. “Then I will give you face, Ricardo. I hope that you will give me face when we talk about that thing later!”

“Well, I don’t dare,” replied Ricardo.

BOOM! BOOM!

The lightning continents exploded. Thunderbolts shot out rapidly, mashing Emperor Sea Shark’s bubbles into pieces.

Emperor Sea Shark was moving between his water worlds, his face ferocious and completely different from his usual, moderate self. His red eyes had a brutal fighting spirit, which surprised many people.

“Is he really Emperor Sea Shark?”

“Totally different!”

“So powerful! He must be one level stronger than Ferrell. We’re in the Sea of Annihilation and he cultivates Water power Upanishad!”

Everybody discussed boisterously. Finally, they found that Emperor Sea Shark, the one who wasn’t eye-catching, was probably the strongest between the three Territory Ancestors in the Sea of Annihilation.

More warriors congregated including Ming Hao and the God Lord. They stood quietly in a corner that concealed them within the crowd. They watched the battle between Emperor Sea Shark and Ferrell, their faces yearning naturally.

“Oh, that’s what I expected!” The God Lord had fighting will inflame in his eyes. He recalled the fierce battle against Bloodthirsty that year. “Yeah, they’re worth the title Territory Ancestor. Although they aren’t as strong as Bloodthirsty, their auras... yeah, it’s not too different!”

“Okay, I think we can get Dark Energy to breakthrough to the Territory Ancestor Realm too.” Ming Hao wore a nonchalant face, “When we get the right direction, we can do it without too much effort. Perhaps, not long after, the arena of the Sea Domain of Nihilism will turn to our amazing page!”

“Right, I strongly believe it!” confirmed the God Lord.

More warriors were gathering from many places. The God Lord and Ming Hao didn’t look outstanding, so they didn’t draw the eyes of the concerned people.

After a while, Qi Mo of the Devouring Clan had brought his crew to this area. As soon as they came, they tried to ask for the reason why Emperor Sea Shark and Ferrell were fighting.

Gradually, everybody all became bewildered. They didn’t know why the two Territory Ancestors were fighting each other.

They didn’t see Shi Yan or the Power Upanishad Symbol Tower here.

Everybody became concerned and looked around to find a trace. They must know why Emperor Sea Shark and Ferrell’s battle was ignited to know who they should support.

At the same time, in the area of broken stars, Shi Yan opened his eyes and sensed the commotions sent through sea water. He said, “Emperor Sea Shark and Ferrell are battling against each other.”

“Emperor Sea Shark treated you well. He provoked Ferrell and their battle caught everyone’s attention. His purpose is obvious. He wants us to seize the chance and run away,” reminded Mei Ji.

Shi Yan nodded, stood up, and said, “I know. That’s why I said that I wanna go back!”
