Chapter 1461: Lord of All Stars!

“Go back there?”

Mei Ji’s body was stiff, her face panic-stricken. She screamed hoarsely, “Why do we have to go back there? Emperor Sea Shark is fighting Ferrell to attract the others and give you a chance to escape. Why would you have to go back there?”

“I’ve just reached Second Sky of Immortal Realm,” explained Shi Yan.

“So what?” Mei Ji was surprised.

“Normally, after I reach a new realm, I’m like a lake that was just dug deeper and became larger. Ah, no, the same thing happens to everybody,” Shi Yan rubbed his chin and said darkly. “I need to accumulate God power now. At our Immortal Realm, accumulating energy is a perpetual and painful process.”

Mei Ji nodded gently.

She understood it clearly and she had experienced it before. From Second Sky to Third Sky of Immortal Realm, it took her almost one thousand years to accumulate energy.

And it didn’t include the time needed to advance her power Upanishad!

A warrior would reach the point to break through one day after accumulating enough energy. However, it depended on the warrior’s condition and encounter to comprehend the power Upanishad. It didn’t require only ascetic cultivation.

“If I don’t have a cutting-edge method, I will need hundreds of years to fill the energy required to break through to Third Sky from Second Sky of Immortal Realm...”

Shi Yan pulled an earnest face and shook his head. “I don’t like ascetic cultivation, especially when I know the shortcut. If taking risks can shorten a lot of them, I’m willing to bet my life on it!”

Mei Ji understood it right away, “You want to use the Devouring power Upanishad?”

Shi Yan smiled, “Right. The Devouring power Upanishad can shorten this energy accumulation a lot. The battle between Emperor Sea Shark and Ferrell will attract so many experts in the Sea of Annihilation. If chaos ensues and hundreds of Immortal Realm experts are killed, that energy... will be enough for me to reach Third Sky of Immortal Realm!”

Mei Ji’s eyes brightened.

During this trip, she had observed and enjoyed the benefits given to her from Shi Yan’s Devouring power Upanishad. Of course, she knew the mysteries of this evil powers.

She believed in Shi Yan’s words.

If hundreds of warriors at the Immortal Realm died, the dead Essence Qi from them would brim his God power Ancient Tree after being refined.

Indeed, he didn't need to struggle and cultivate for a long time!

"They want to find you. If you get back there, it's like stepping into a trap. You will fail Emperor Sea Shark too." Mei Ji was startled and she asked suspiciously. "Are you confident that you can return safely?"

She knew that Shi Yan wasn't a fool; he wouldn't do things he wasn't certain of.

"After I reached Second Sky of Immortal Realm, I'm confident that I can always use the Space power Upanishad to leave even on the seabed." Shi Yan grinned and said arrogantly, "Although Ming Hao's realm is higher than mine, he's just in his soul form. He can't urge his energy to the utmost. Moreover, he can't endure the backfire. What he can't do, I can."

A Fantasy Boundary Stone sparkled in the palm of his hand. He sent the God power into the Fantasy Boundary Stone; it inflated like a balloon. After ten breaths, it became a world.

It was a world of misty clouds. As soon as it emerged, it entered the broken star next to them, which normal people couldn't find or sense.

This misty world was filled with Shi Yan's space energy and Soul Consciousness as if Shi Yan's co-soul was there and controlled his power.

"The cloudy world created by the Fantasy Boundary Stone is controlled by my space energy and it has my Soul Imprint. This world can be here for a while. During this time, I can use my soul connection to hide in it any time and wherever I am on this seabed."

Shi Yan smiled and glanced at Mei Ji. His finger gestured and a space slit flared up. He grabbed Mei Ji by her hand and jumped into the space slit.

After a flash, Shi Yan and Mei Ji emerged in the misty world inside the broken star.

Inside the immense clusters of clouds, Mei Ji's sleeves flew and made her look like a moon fairy. She raised one hand and covered her mouth, "Is it simple like this?"

Shi Yan smiled. A wisp of space energy flashed. He and Mei Ji returned to the area outside the rock.

"Within a certain range in this Sea of Annihilation, I can enter that misty world in just a blink of an eye. Even experts like Emperor Sea Shark or Farrell can never catch me if they don't know."

Mei Ji smiled and admitted that he sounded logical. "You have an assurance to leave and not die. But can you ensure that you can leave after you have fished in the troubled water? When the experts at Neptune's level attack you, do you think you can endure one strike from them?"

"Well, I couldn't before. But now, it's not a problem."

"How are you so sure?"

"I'll show you."

Shi Yan laughed arrogantly. He shot like a sword to the highest peak of this broken stars area.

Shortly after, his body emitted starlight. He looked like a bright star, his eyes projecting so many strange and mysterious scenes of when a star lost its energy.

Jets of starlight shot out from his ten fingers like a galaxy falling on this broken star field, and entered each strange rock.

Rumble! Rumble! Rumble!

Magically, the mountain-like rocks slowly levitated. Under the control of the galaxy in his eyes, they floated up to the sky.

Hundreds of thousands of rocks arose like imposing mountains, towering the seabed. This scene was so majestic and spectacular.

While Shi Yan's power Upanishad changed, the massive rocks began to move and radiate strange starlight.

At first glance, it looked like thousands of twinkling stars were moving and showcasing the mysteries of the galaxy.

"Those rocks came from dozens of complete stars. Although they are all broken, they were intact a long time ago, so they have a connection. The stars... also have spirit. They were tamed, somehow. The spirit of those stars isn't like ours. Ordinary warriors can't sense it. But I, I can vaguely feel something..."

The massive rocks spun. Shi Yan looked pensive and hovered between so many rocks.

"Broken pieces of stars, from now on, make me your master and I'll bestow you a paradise!"

A brilliant sea of stars emerged from Shi Yan's head. It was a deep, velvet starry sky of a whole new world. It had stars, moons, and suns moving. Also, on the stars, there was surging vitality and fixation of death!"

It was his Incipient Extent!

This Incipient Extent had gradually transformed into a Territory due to Dark Energy!

Many rocks in this area had the weak spirit of stars. After Shi Yan had conjured his galaxy Incipient Extent, the connection between the rocks became stronger and pulled the rocks together. Slowly, tens of thousands of rocks piled up and turned into dozens of brilliant stars.

The stars then flew up and entered Shi Yan's Incipient Extent, becoming cold light dots, parts of the extent.

Shi Yan looked thrilled. He placed one hand on his forehead and the other on his chest. He pledged, "Wait until I've reached Territory Ancestor Realm and my Incipient Extent turns into a Territory; it will become a real galaxy. It's where you will stay. You will have creatures thriving on you. You will regain the glory you once had billions of years ago."

Dozens of stars replied to him, still very weak. Only the warriors cultivating Star power Upanishad could vaguely hear them.

Mei Ji looked at the scene above her head in awe. She watched Shi Yan who was the Lord of all stars in all skies guiding so many mountain-like rocks to enter his brilliant galaxy Incipient Extent. She watched him make a pledge and connect subtly with the stars. She couldn't explain the thrill in her heart.

Closing his eyes to sense for a while, Shi Yan landed. At this moment, only a massive rock stood by Mei Ji, which contained the Fantasy Boundary Stone...

It was the only thing Shi Yan had left to spare him an exit. He pondered and then said, "Billions of years ago, there were so many floating pieces of broken stars above the Sea of Annihilation. Someone cultivating Star power Upanishad had tamed them and poured his star energy into them to control them and resist his enemies. Afterward, tens of thousands of broken stars had fallen into the sea.

"Those broken stars had a feeble spirit that only warriors cultivating Star power Upanishad could recognize. I didn't know it before. While I was breaking through to Second Sky of Immortal Realm and improving my realm, I vaguely understood it. Finally, I know that all the stars in this universe have the spirit. Some have a strong one and others have an imperceptible, feeble one."

"It's the Sea of Annihilation, indeed. Its seabed has strange treasures everywhere. However, not anybody can recognize them. Sometimes, they can't even see the treasure right next to them. Those broken pieces of stars are even stronger than the intact stars in other areas. They have existed for a long, long time. Perhaps they were formed in the Absolute Beginning Era. They know some secrets of earth and heaven. They have their own methods to refine themselves. Their makings are unique. That's why the expert cultivated Star power Upanishad noticed them and refined them one more time to make them his weapons..."

Shi Yan explained to her.

Mei Ji partly understood and intervened, "You don't need to give me a detailed explanation. I don't cultivate Star power Upanishad. It's hard to understand it thoroughly. I only need to know one thing: After you collect those broken rocks into your Incipient Extent, does your power increase altogether? Will they be your divine weapon to resist the Territory Ancestor's attacks?"

Shi Yan smiled, "Yeah, you're right."

"Oh, it's okay." Mei Ji was resolute and pulled his shoulder. "I'm going back with you. I'll come to the dragon's pond or the tiger's den with you this time!"

Shi Yan felt warm. He clutched her hands, his eyes complicated. "Actually, until now, I don't have a true..."

"Don't say that," Mei Ji raised her hand and placed a finger on his lips. With a pair of watery eyes, she shook her head. "There's something I don't want to hear. Agree with me; never tell me words that will hurt me. Even if you are lying to me, as long as it's sweet, just tell me..."

Shi Yan was amazed.

Mei Ji stooped her head, "I don't know what happened to me. Perhaps, it's the common disease of our Phantom Clan women. We don't easily fall in love. But once we do, we'll be like a moth heading to a flame. Even though we know we're going to die, we won't regret it. Who knows the future? I can't say if

I can survive and go to Desolate Territory with you. I just hope that while we are together, you will be sweet to me, even if you have to lie to me. Anything is okay. Just don't break my heart..."

Shi Yan couldn't reply.

God of Slaughter

Chapter 1462: Free Fight!

Deep in the sea.

Silhouettes like gloomy ghosts appeared in every corner of the sea. They looked frightened or excited; their eyes were fixed on two light domes.

The collision between the Thunderbolt Territory and the Water Territory almost shattered the seabed. Many fine space cracks appeared and extended, which many Immortal Realm experts had to move away instinctively.

No one knew where those space slits led to. At their realm, they didn't dare to jump in.

Neptune and Ricardo wore stern faces and stood in the crowd. They continuously mended those cracks and slits to stabilize the shattering sea area.

Rumble! Rumble!

So many lightning continents inside the Thunderbolt Territory blasted. Whenever a continent disappeared, Ferrell's eyes sparkled. The thick aura in his Thunderbolt Territory gradually weakened.

Quite the contrary, Emperor Sea Shark became more excited the more he fought. His red eyes and brutal aura were completely different from his regular humble, modest appearance.

Many people felt as if it was the first time they knew Emperor Sea Shark.

This battle spread Emperor Sea Shark's reputation around the entire Sea Domain of Nihilicity! Many years later, warriors talked about this character and his intimidating merit in the Sea of Annihilation!

Innumerable water curtains were multiplied in Emperor Sea Shark's Water Territory and gushed into Ferrell's Thunderbolt Territory. Water shrouded each lightning ball and squeezed them into powder!

Ferrell was scared.

He finally knew that self-effacing Emperor Sea Shark wasn't a weak expert he could bully. He regretted it now. He shouldn't have provoked him.

"The Sea of Annihilation is a marvelous place, indeed." Ming Hao and the God Lord were standing far from the battle. Ming Hao's eyes were gloomy as he observed the space cracks around. "If this kind of battle takes place in our Desolate Territory, it will break many star areas. The space can't even endure a battle between the Immortal Realm experts like us. But this seabed just had some small cracks..."

Ming Hao's attainment in Space power Upanishad was extremely profound. He was at the grandmaster level, indeed. He knew the regular world couldn't endure a confrontation between the real experts.

Emperor Sea Shark and Ferrell were the Territory Ancestors. The shockwaves of their battle could make the Desolate Territory collapse on a large scale. But in here, the seabed had only some small cracks.

Ming Hao considered and then said, "It seems like the sea area here can endure the pulling force of space energy without shattering. Unfortunately, my soul form can't endure the backfire of tearing space. Otherwise, we could have tried once."

Boom! Boom! Boom!

So many lightning balls exploded and vanished within Ferrell's Territory. Gradually, his Territory was reduced and Ferrell had to back off.

Shortly after, many lightning balls congregated and created a tremendously terrifying light ball.

Ferrell roared and thundered inside that light ball. All of a sudden, he tore the ball and flew out. His face twisted in pain. Deep in his eyes, so many lightning pythons were moving. "Emperor Sea Shark!"

Emperor Sea Shark's eyes were still crimson. He looked shocked before he could resume his sound mind.

His eyes moved around as if he was searching for someone in the crowd, his face bewildered.

"Ferrell! What happened?" cried Ricardo.

"Emperor Sea Shark!" called Neptune.

"I found Shi Yan; I was about to capture him. Emperor Sea Shark had stopped me. I don't know what he thought. He had shooed that kid away," bellowed Ferrell. So many lightning balls hovering in the water emitted a dazzling light of lightning while he was talking.

"Emperor Sea Shark, is it true?" Neptune was surprised. "You've agreed with me to help me find that kid. Is it your right attitude?"

Ricardo, Tu Shi Qi, and Qi Mo were bewildered. They didn't know the reason so they turned to Emperor Sea Shark with a questioning face.

The blood-red hue in Emperor Sea Shark's eyes remained. It hadn't vanished yet. He still looked puzzled and looked for something in the crowd.

A flame ignited.

Emperor Sea Shark's eyes suddenly brightened and screamed, "Shen Ren!"

While Emperor Sea Shark and Ferrell were fighting, Shen Ren had disappeared mysteriously. And now, he reappeared inside that flickering flame. The seashell he hid his body in had so many flames piling up on each other. As soon as he appeared, he said resolutely, "we must go now."

Neptune and Ricardo had finally come. He also knew Emperor Sea Shark's plan of fighting Ferrell for a while to draw people's attention.

He was the one who understood Emperor Sea Shark the most. He was like his shadow, in fact.

He understood that once Neptune and Ricardo came, they would look for him and force him to tell the reason for the battle.

Thus, he had to hide. Before Emperor Sea Shark and Ferrell parted from the battle, he had to not show himself.

And now, it's time to reappear! He needed to remind Emperor Sea Shark that he shouldn't stand against the warriors of the entire Sea of Annihilation alone!

Hearing him, Emperor Sea Shark chuckled and nodded, "Right. We should leave. I'm not going to lose myself in this."

The clouds of souls appeared by Emperor Sea Shark. Neptune wore a cold and stern face. "Emperor Sea Shark, I think you owe me an explanation."

Ricardo also stepped forward and frowned. "I've agreed with someone to capture a kid named Shi Yan. Emperor Sea Shark, I need a proper answer."

Tu Shi Qi, Qi Mo, and many experts hiding far away also moved closer.

They barricaded Emperor Sea Shark. No one had come with a good will. They demanded Emperor Sea Shark to show where Shi Yan had gone.

Many smart people got the hint that Emperor Sea Shark had let Shi Yan go from Ferrell's words. And Emperor Sea Shark had even fought with Ferrell to seize more time for him and attract the others. They understood that Emperor Sea Shark wanted to protect Shi Yan. They doubted that Shi Yan and Emperor Sea Shark had some secret agreement and his knowledge of where Shi Yan had gone.

"Emperor Sea Shark... released Shi Yan?" the God Lord was amazed and shook his head. "I can't believe it."

"That kid is always weird. Many unbelievable things could happen to him," Ming Hao frowned, "It seems like he left safely. It's good then..."

Audrey was approaching from a far distance. Hearing them, she cheered up.

"Retreat! Now!" Ming Hong screamed from her shoulder. "Forefather Dragon Lizard, Tu Shi Qi, and even that demon Neptune are here. If they find you, it'll be a lot of trouble!"

Audrey was startled. She immediately reacted and flew away without pausing.

However, at this moment, Neptune's eyelid twitched. His deep look pierced through hundreds of warriors and fell on Audrey precisely. He licked his lip and mumbled, "Singh's brutal souls. Interesting. The brutal souls of our clan's commander now benefit someone else."

A dozen-meter-tall, jet black brutal soul that looked both like a bear and a lion appeared under Neptune's feet.

That brutal soul roared and turned into a band of dim light, shooting toward Audrey!

"Not good! That demon has sensed you from such a far distance!" Ming Hong felt his scalp numb. He urged, "Leave at your max speed!"

Audrey paled. As she saw the massive brutal soul coming, her soul shivered.

Her realm was very different from Neptune's. The energy of one of his Neptune's brutal soul wasn't someone she could cope with. Ming Hong also felt restless when the brutal soul came.

He was also a brutal soul, but he was refined by Singh. He couldn't resist a brutal soul made by Neptune at the Territory Ancestor Realm.

"Er?"

Ming Hao could feel the commotion from the aura he had left on Audrey. He sensed and discolored. His soul form disappeared abruptly.

Swoosh!

Ming Hao approached Audrey and looked at Neptune's brutal soul; he sneered and grabbed it. A space crack appeared next to him and turned into a strange blade. He grabbed it.

Ming Hao rose the blade and slashed. Neptune's brutal soul screeched as it was halved.

However, the brutal soul wasn't a real entity. After it was halved, it could still scream and showcase its savagery. Now, its target was Ming Hao.

Neptune was numb and his face was extremely dark. He turned to look at Ming Hao, Ming Hong, and Audrey. "Low creatures. You don't know how high the sky is. Dare resist me! Court death!"

The sea of souls underneath him sent out another brutal soul. It was a green serpent around hundreds of meter long. It had a thick acid aura. The stinky mouth of the snake had so many fangs. It had swallowed some warriors while it slithered on its way. Those victims perished instantly.

"What?"

The God Lord suddenly recognized that Ming Hao had disappeared while he was watching Emperor Sea Shark and Ferrell. Turning around, he saw Ming Hao fighting Neptune's brutal soul.

He was surprised. Hesitating, he stood still.

He didn't want to get involved.

"Let's go!" Shen Ren seized the opportunity and shouted.

Emperor Sea Shark didn't know Audrey, so he wouldn't help her. Seeing that they had caught Neptune's attention, he nodded and released waves to get rid of the crowd.

"Don't let him escape!" shouted Ferrell.

He didn't need to say so as Ricardo, Qi Mo, and many onlookers had taken action instinctively.

In just a blink of an eye, the seabed became brilliant with so many light curtains, halos, and blocks. The barriers of different energies were cast. The sharp power shot and gashed the seabed. The whole scene was hustling and bustling.

The warriors who had the guts to watch the battle between the two Territory Ancestors had profound realms and cultivation bases. Many of them were related to the seven clans while some of them were here because of the Power Upanishad Symbol Tower.

Whether it was because of the rewards from the five clans or the Power Upanishad Symbol Tower, they wanted to know Shi Yan's whereabouts.

Thus, they all took action.

"Emperor Sea Shark, after this battle, no matter how the result turns out, you won't have a decent place to stay in this Sea Domain of Nihilism. The members of the Soul Clan, Devouring Clan, Ancient Monster Clan, Black Demon Clan, and Mysterious Sky Clan won't let you go. Their core members were killed and you released that kid. You have to bear the consequences!" Ricardo sighed and spoke emotionally.

God of Slaughter

Chapter 1463: Exposed 2

Billions of colorful flames flew out from Ricardo's body. They arrayed into a natural formation automatically. Those flames weren't afraid of water. They were like countless bright lamps flying toward Emperor Sea Shark.

Ferrell didn't say a word before he took action one more time. The lightning balls were condensed and they fell grudgingly on Emperor Sea Shark.

Neptune snorted and raised one hand. Three brutal souls emerged like giant demons floating in the air, each of them several thousand meters tall.

These three giant brutal souls were his true lethal attack!

Ricardo, Ferrell, and Neptune took action at the same time to block Emperor Sea Shark. They wanted to figure out Shi Yan's whereabouts from him.

To any clan, the Power Upanishad Symbol Tower was the top treasure that they dreamed for. It was even more precious than an Absolute Beginning divine weapon. For the Power Upanishad Symbol Tower, they had ignored the fact that Emperor Sea Shark was also a Territory Ancestor. Even if they had to destroy the entire Sea of Annihilation, they had to find Shi Yan to get the Power Upanishad Symbol Tower from him!

"Audrey! It's Audrey!" Ya Yun screamed in the crowd.

Tu Shi Qi and Forefather Dragon Lizard looked at her from a distance. They were surprised as they recognized that Neptune's brutal souls' attack were at Audrey. They knew that after Audrey had parted with them, she would find Shi Yan.

Seeing Audrey, they thought Shi Yan was around too. As the others were screaming, Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard had plunged toward Audrey and left Emperor Sea Shark behind.

"She has a close relationship with Shi Yan. What do you want to do?" Forefather Dragon Lizard asked all of a sudden.

Tu Shi Qi and Ya Yun were hesitant. Pondering for a while, Ya Yun said, "Take her. We can use her to negotiate with Shi Yan, can't we?"

"We can actually help her and save her from being killed by Neptune's brutal souls," said Tu Shi Qi.

Forefather Dragon Lizard nodded, "It's good then."

When they came and were about to take action, they found that Ming Hao had single-handedly stopped two brutal souls released by Neptune.

Ming Hao's clones held space sabers and forcefully resisted against two brutal souls.

Ming Hao in his soul form flashed and disappeared. Then, another warrior at the Immortal Realm near him suddenly screamed crazily and attacked Neptune's brutal souls.

Forefather Dragon Lizard and the others were awed. "How could he occupy the other's soul that quickly? Who is he?"

"He must be an expert cultivating Soul Control Power Upanishad from the Devouring Clan. I heard that the experts cultivating Soul Control power Upanishad could enter the soul of lower-realm warriors to distort their minds and enslave them," Tu Shi Qi said with a stern face, his eyes strange. "I can't relate that little girl Audrey to the Devouring Clan. Oh hey, it's not true. The soul form of that expert isn't something that the Devouring Clan has mastered. It's somehow similar to the Soul Clan. Tsk! It's complicated!"

Ya Yun was bewildered. She halted and didn't know what to do.

As the Soul Control Chief of the Bloodthirsty Force, Ming Hao had mastered the power Upanishad of the Imperial Dark Tribe and the supernatural abilities of mind control of the Bloodthirsty Force. He also had the power of Space. After ten thousand years of cultivating and merging the three power Upanishads perfectly, he had reached Third Sky of Immortal Realm. As long as he had Dark Energy, he could enter the Territory Ancestor Realm safely.

Today, in the Sea of Annihilation, he had performed his real capacity. Countless clone souls of his had occupied fifteen experts at the Immortal Realm and enslaved them. He controlled them to take self-destructive attacks to Neptune's brutal souls. It had greatly shocked many people.

Even the warriors surrounding Emperor Sea Shark had discolored in fear. They were aghast when they saw Neptune's two brutal souls get destroyed by the exploded souls.

Neptune had so many wisps of soul filaments in his head; several were cut off. He winced and turned to Ming Hao. He shouted, "Devouring Clan's Soul Control power Upanishad!"

Qi Mo and the warriors of the Devouring Clan heard Neptune shouting; they were frightened as they turned to look at Ming Hao.

"He's not a member of our Devouring Clan!" Qi Mo cultivated Chaos power Upanishad. Around him was a strange magnetic field that made the water twisted inside so many mirrors, which looked so strange.

As he was fighting Emperor Sea Shark, he suddenly recalled something, yelling, "He's from Desolate Territory!"

"Desolate Territory!"

"People from Desolate Territory!"

“The Territory created by Desolate, the Absolute Beginning creature!”

“It’s so unexpected!”

Many warriors surrounding screamed in astonishment.

Tu Shi Qi and Ya Yun exchanged looks. They saw fear in each other eyes. They knew that Audrey and Shi Yan came from Desolate Territory. Hearing Qi Mo exposing Ming Hao’s identity, they were startled. They recalled that Han Tian used to tell them about Bloodthirsty.

“Just like Bloodthirsty, they are lucky ones who received Devour’s inheritance in Desolate Territory. Their understanding of the eight great, evil powers is more complete than the Devouring Clan itself. It’s just that their realms are a little low,” Tu Shi Qi turned to Forefather Dragon Lizard, “Many years ago, an expert from Desolate Territory called Bloodthirsty had come to our place. He had risen the bloody rain and killed so many members of the Devouring Clan. Our Forefather Han Tian used to battle against him. He was defeated. Bloodthirsty had mastered Devouring power Upanishad and the eight great evil power Upanishads of the Devouring Clan. He was extremely fierce...”

“Precursor Han Tian was defeated?” Dragon Lizard was frightened. “Precursor Han Tian’s one of the great Ten Territory Ancestors. How intimidating was Bloodthirsty?”

“Shi Yan and Audrey come from Desolate Territory and so does that expert with the Soul Control power Upanishad. He has mastered the Soul Control power Upanishad. Perhaps he’s related to Bloodthirsty. It’s strange, indeed...”

Tu Shi Qi muttered, his eyes suddenly brightened as he looked at Emperor Sea Shark, his face strange.

“What do you have in mind?” Ya Yun exhaled.

“Do you remember what Forefather Han Tian had told us that year? He said that Emperor Sea Shark used to guide Bloodthirsty on the seabed of the Sea of Annihilation. That Bloodthirsty suddenly appeared on the seabed of the Sea of Annihilation out of nowhere. He didn’t know anything and he was curious about everything. He met Emperor Sea Shark when he was still weak and he had forced Emperor Sea Shark to guide him...”

“Yeah, I remember Forefather Han Tian telling us about that. However, Bloodthirsty had disappeared for a long time. I didn’t really think about it. What do you mean?”

“Why does Emperor Sea Shark suddenly want to protect Shi Yan?”

“Only the ghosts know.”

“Perhaps it’s related to Bloodthirsty!”

“You mean Emperor Sea Shark knows that Shi Yan and Bloodthirsty are related and he is protecting Shi Yan because of this relationship?”

“I’m just guessing.”

Forefather Dragon Lizard listened to Tu Shi Qi and Ya Yun’s conversation. He was bewildered and fearful. Seeing Ming Hao move around and seize the souls of many experts to detonate Neptune’s brutal soul,

his scalp felt numb. "That man is really strong. Even if my true body is here, I'm not sure if I can match him."

"People from Desolate Territory!"

Qi Mo suddenly cried and ignored Emperor Sea Shark. He stormed toward Ming Hao, "Tell me the location of the entrance to Desolate Territory and I'll spare your life. Our Devouring Clan wants to go to Desolate Territory to find our ancestor's inheritance!"

The Devouring Clan warriors aimed at Ming Hao under Qi Mo's direction.

"Legends say that Desolate had battled against Devour and it was broken into several pieces. If we can enter Desolate Territory and swallow Desolate's parts, we'll reach a level that no one could imagine. We will know the secrets of Absolute Beginning Era and the principles of power Upanishads!"

"I heard that Desolate still has two Absolute Beginning divine weapons!"

"If we enter Desolate Territory, we will be filthy rich!"

"Of course."

Many people screamed and cried. They were stirred up. When they looked at Ming Hao, they were like hungry men looking at a naked beauty with bright eyes.

"Desolate Territory's resident! He's also from Desolate Territory!" Emperor Sea Shark screamed inwardly.

He used to accompany Bloodthirsty for a while so he knew Bloodthirsty came from Desolate Territory. From Ming Hao's Soul Control power Upanishad, he guessed that Ming Hao had a close relationship with Bloodthirsty too. Emperor Sea Shark wanted to leave but he became hesitant all of a sudden. He wanted to grab Ming Hao and ask for more details.

While he was terrified, Ricardo and Ferrell attacked him more furiously. The others who were fishing in troubled water also tried their best attacks. The entire place was filled with blast, fire, ice, and crystals. The pressure had almost shattered the seabed of the Sea of Annihilation. Ricardo's Fire Territory had evaporated the water and emptied the area.

After fighting fiercely for a long time against Ferrell, Emperor Sea Shark wasn't in a good condition. He was struck. Countless bubbles in his Water Territory erupted.

Emperor Sea Shark's eyelids twitched, his face pale. He tried to swallow the blood that had churned in his throat.

"We don't care if they're related to our benefactor. We must leave first. We can't handle that much!" When Shen Ten saw Emperor Sea Shark's strange expression, he knew that it wasn't going well. He screamed hastily.

He continually released a fire shield in front of Emperor Sea Shark's Water Territory. However, Ricardo's fire, which was more profound than his, had stopped him. He was hit and his energy was quickly drained.

“Emperor Sea Shark, I don’t want to go against you. I need you to tell me Shi Yan’s whereabouts. What I want is the Power Upanishad Symbol Tower. I don’t need your life, Emperor Sea Shark.” Ricardo was calm, flames rolling on his body like layers of armor.

Billions of flames swarmed toward Emperor Sea Shark and the sea water evaporated, creating a vacuum area on the seabed.

Ferrell grinned fiendishly in that vacuum area and entangled Emperor Sea Shark with his exploding lightning balls.

“Ricardo, you joined Ferrell but you guys can’t stop me. Do you believe that?” Emperor Sea Shark’s eyes turned crimson once again.

Ricardo was bewildered and looked troubled too. “If you want to risk your life, Ferrell and I can’t stop you. But I’m sure you know the price that you will have to pay.”

“If I support Ricardo and Ferrell, will you leave easily as you said?” Neptune intervened.

The three brutal souls hadn’t moved. However, his other two souls were shattered when Ming Hao used his Soul Control power Upanishad to force his slaves to detonate their soul altars. Neptune didn’t attack further because he had to save some tricks!

He pitched his voice and bellowed, “Ba Di!”

An average-looking human warrior in the crowd suddenly shrank until he was around one meter tall. He was an ominous and extremely ugly dwarf. He had a green-brown face with spooky green eyes. He suddenly flew toward Audrey and Ming Hao.

“Forefather Earth Ghoul!” Forefather Dragon Lizard and Tu Shi Qi screamed at the same time.

The three of them had suffered from that earth ghoul. Seeing him, they were indignant and frightened. Their eyes turned red when they saw their archenemy.

Chapter 1464: Return!

In this Sea of Annihilation, Forefather Ba Di of the Earth Ghoul Tribe was infamous. He was the current Chief of the Earth Ghoul Tribe. He had made his tribe thrive from a small tribe to a second-class one.

Ba Di had used his personal power to grow an entire Earth Ghoul Tribe. He was mighty and treacherous.

Long, long time ago, he was just an ordinary warrior of the Earth Ghoul Tribe with a pathetically low realm. However, he had encountered an expert of the Soul Clan who was traveling around. He had tried his best to serve him and become his dog for thousands of years. Eventually, that man reached the Territory Ancestor Realm and he was like a boat rising with the rising tide.

Ba Di had used his loyalty to gain approval from the Soul Clan. After Serene Prison, the one he had served, had reached the Territory Ancestor Realm, he had imparted Ba Di the power Upanishad of the Soul Clan.

No one had thought that Ba Di could cultivate decently.

Anyway, Ba Di had used the low-level power Upanishad of the Soul Clan bestowed by Serene Prison to thrive quickly.

He had suddenly accelerated and he had made progress much faster than many experts of the Soul Clan. However, after he had reached the Peak of Immortal Realm, he got stuck.

The Soul Clan also appreciated Ba Di. They were surprised at his outstanding performance. Under Serene Prison's protection, Forefather Earth Ghoul had imparted the power Upanishad to the other members of Earth Ghoul Tribe. He had strengthened his fellows and made his clan strong enough to rival the Dragon Lizard Clan.

After many years, Serene Prison had become the high-echelon expert of the Soul Clan, one of ten Great Territory Ancestors in the Sea Domain of Nihilicity. His subordinate, Forefather Earth Ghoul, also had a high position. As the chief of Earth Ghoul Tribe, he had made his clan outstanding among the other vassals of the Soul Clan.

Today, Ba Di was hiding in the Sea of Annihilation's seabed like a ghost. Also, he had responded to Neptune's call.

Ba Di was short and ugly like a dwarf. After Neptune had called him, he swayed several times to reach Ming Hao.

"Muahaha! Interesting! Come and possess my soul, will you?" He screamed. Wisps of ghostly mist that emitted from his back were carrying resentful souls and becoming a stinky tongue. The tongue moved, coiling and drawing one of Ming Hao's clones.

An extreme, resentful aura shot out from that tongue, which froze Ming Hao's clone.

Each of Ming Hao's clones was frightened as if they were also coiled by the tongue. They turned to face Forefather Earth Ghoul.

"This freak is getting stronger. Even if my true body comes, I'm not sure if I can catch him," Dragon Lizard observed, his face stern. "I can't deny that this Ba Di is really good at cultivating evil techniques. He's such a rare talent who can cultivate a low-level power Upanishad of the Soul Clan to this level."

"He has followed a good master. Serene Prison is one of the great ten Territory Ancestors. His echelon is higher than Neptune's in the Soul Clan. Serene Prison has the right to read all the records of profound techniques and power Upanishads of the Soul Clan. He has cared about Ba Di enough to teach him the meaning of power." Tu Shi Qi also wore a heavy countenance. "If Ba Di hadn't helped Singh, how could he have wounded us? From some aspect, Ba Di is tougher than Singh. He has served Serene Prison for many years. He had the chance to contact many experts. Singh can't compare to him in terms of knowledge and vision."

"Old man, what should we do?" Ya Yun gritted her teeth.

“Wait. We should wait for a while. When Neptune is busy, we’ll attack Ba Di! This midget used to ambush us near Dragon Lizard Star. We must repay his favor!” said Tu Shi Qi resolutely.

Ya Yun’s eyes brightened.

Boom! Boom!

Thunder continued to boom. The burning flame swarmed toward Emperor Sea Shark. Three majestic brutal souls with many limbs were roaring, howling, and tearing Emperor Sea Shark’s water curtain.

Emperor Sea Shark looked exhausted, but his eyes were still fearfully red. He was about to fall into insanity.

“You should never lose your mind! We must try our best to get out of here!” Shen Ren calmly reminded him outside his Water Territory. He had to prevent Emperor Sea Shark from falling into frantic bewilderment.

— It was the reason why he persistently stayed.

Many years ago, when Bloodthirsty taught Emperor Sea Shark the Rampage technique, he had advised that this power was going to be very harmful to him since he didn’t cultivate one of the eight great, evil power Upanishads. Emperor Sea Shark had to only use it to save his life at a critical moment.

Bloodthirsty also said that this power required life energy to activate, which would make the user fall into bedevilment easily. If his mind wasn’t firm enough, he was going to turn into a killing machine that only stopped after it used the last beam of God power.

And when it stopped, death was going to come.

Shen Ren was there. He had listened to Bloodthirsty clearly. Emperor Sea Shark had used this power to defeat many experts. Shen Ren had observed and he understood the advantages and disadvantages of this power deeply.

“Emperor Sea Shark! You can’t escape!” shouted Ferrell crazily.

The rolling lightning strikes connected earth and heaven. They grumblingly descended and made the entire place a field of lighting bolts, stringing and breaking around.

Emperor Sea Shark was shaken. So many bubbles and water curtains in his Water Territory shattered. He couldn’t stop blood from churning in his throat. At this moment, dark blood appeared on his abdomen.

When he saw blood, Emperor Sea Shark became wilder. It had triggered his brutal nature and made his aura more frantic.

He couldn’t hear Shen Ren’s voice anymore...

Shen Ren watched him, his face grimaced and his heart sinking. He knew what he worried the most about had happened. He couldn’t stop it.

— Emperor Sea Shark has fallen into bedevilment!

“The energy fluctuations from the battle are fierce and powerful. Although we’re very far from them, the water current has become turbulent. I’m sure the battle is very furious.”

Mei Ji’s beautiful eyes were full of surprise. She began to worry because of Shi Yan’s decision. She guessed that Emperor Sea Shark’s battle over there was really chaotic.

Inside the starlight cage, Shi Yan was still calm. “Audrey and the others are there too.”

“How do you know that?”

“Audrey and the God Lord have fused with the clone souls of Desolate. They all have a subtle connection with my co-soul. As long as they aren’t too far from me, we can detect each other. They are... over there!”

“Really marvelous!”

Shi Yan and Mei Ji were talking while the starlight cage zoomed over like a fast meteor. It flashed and disappeared on the seabed.

Boom!

A red-orange jet of light shot over and hit their starlight protection.

The starlight cage bloomed with beautiful light.

Shi Yan’s eyes brightened. “The aura of Immortal Realm experts. Oh, yeah, all of them are at Immortal Realm! Interesting. If more die, my God power will be filled abundantly.”

“With the premise that we can leave alive. You must pay attention,” Mei Ji smiled and reminded him.

“Don’t worry. If I dare to come back, of course, I can leave safely.” Shi Yan guffawed, his large hand slapping Mei Ji’s beautiful, ample bosom. “We can only seek for wealth in danger! I’ve created miracles lately because I always wander around chaotic areas. Wherever I go, even if it’s calm and peaceful, I will stir it up and start a bloody rain! Only blood and death creates me, a miracle! Haha, the Sea of Annihilation is a good place to train me. We’re going there to earn more energy to fill our God power!”

Mei Ji was charmed by his hand that was rubbing her rear end and his powerful voice. She lewdly shook her beautiful buttocks. She proactively pressed her voluptuous breasts against his arm and smiled charmingly. “I’m waiting for you to give me more energy.”

“You little slut,” Shi Yan was aroused. He couldn’t help but curse smilingly. “I’ll feed you well.”

“With you, I’m willing to die,” Mei Ji raised her succulent lips to meet his passionately. She hated that she couldn’t merge her body with his body.

“Don’t worry. I’m going to let you “die” several times. But it’s not the “death” that you mentioned!” Shi Yan said through his gritted teeth.

“I’m yearning desperately!” smiled Mei Ji.

Sizzle! Sizzle!

Ming Hao’s clones turned into many gray jets of air. Another clone was destroyed.

“Muahaha! Not bad! Not bad! The Devouring Clan’s Soul Control power Upanishad is really subtle. But you’re not dealing with only me. You can’t run away!” Forefather Earth Ghoul Ba Di grinned.

“Chaotic magnetic field! Qi Mo shouted coldly. Dozens of clones of Ming Hao suddenly twisted as if someone had grabbed them and forcefully deformed them. They flickered as if they were about to vanish.

The members of the Devouring Clan under his command also attacked Ming Hao’s clones fiercely.

After Ming Hao had forced many warriors to self-detonate to attack Neptune’s brutal souls, the other weak warriors ran away to prevent Ming Hao from using them.

Thus, Ming Hao could only use his clones to fight. However, the clones were just clones. He couldn’t gain the upper hand in a fight against an expert at the same realm.

Soul Control Chief Ming Hao looked weak under the besiege of Neptune’s brutal souls, Forefather Earth Ghoul Ba Di, and Qi Mo’s team.

However, his performance had surprised the warriors of the Sea of Annihilation. Ming Hao was at Third Sky of Immortal Realm and he hadn’t reached the Peak level yet. However, he had wounded two brutal souls and forcefully resisted Ba Di at the Peak of Immortal Realm and Qi Mo’s team. This man’s intimidation was unimaginable, indeed.

“How could warriors from Desolate Territory be so fierce?”

“Desolate Territory is just a territory. How do they have such a formidable expert?”

“It’s the territory that Desolate had created. It’s really archaic. It should be magical, anyway.”

“It’s incredible! If we can find Desolate Territory and refine Desolate’s detached body parts, we will enter the Territory Ancestor Realm instantly. We will even become one of the ten great Territory Ancestors!”

“I think so.”

The onlookers discussed boisterously. They were frightened when they saw Ming Hao’s performance. They recognized that the warriors from Desolate Territory were very fierce and not weaker than experts in their Sea of Annihilation.

God of Slaughter

Chapter 1465: Wage War Everywhere!

“God flame sets a prairie ablaze!”

Ricardo’s host soul arose from his Territory as a God of Fire shooting flames everywhere. Those flames had many colors. They were scorching and fiery with the Yang power; they burned Emperor Sea Shark’s water curtains.

A soul flame changed inside that Fire Territory. Many wisps of Soul Consciousness mixed with Dark Energy were sprayed everywhere.

The entire sky was covered with a rain of fire. Fire shrouded the area and flaming fluids flooded Emperor Sea Shark's Territory. "Take the chance when he's perplexed to drain his life energy!"

Ferrell sneered. So many lightning balls as big as mountains were swirling and sending out broken, shattering waves of energy.

Neptune snorted. Three brutal souls were like an eternal Demogorgon that roared and tore a water curtain. They ripped through Emperor Sea Shark's Water Territory.

Emperor Sea Shark spurted blood as he was exhausted. Shen Ren stood by him, shouting and trying to stop him.

"Do you think you are qualified to interrupt a battle between Territory Ancestors? Get lost!" Ferrell sneered and squeezed his fist. Thunder reverberated and lightning bolts fell.

Boom! Boom! Boom!

Shen Ren's body was wounded and bleeding badly when he was kicked out of Emperor Sea Shark's Water Territory. His eyes turned blank.

"NOOOOO!"

Emperor Sea Shark shrieked, his voice echoing through the entire Sea of Annihilation. Countless crystal-clear drops like tears fell from his eyes. Those water drops looked like they were made of crystal. After each drop fell into the sea, the water pressure increased dozens of times.

Boop! Boop! Boop!

Many low-realm warriors couldn't endure the formidable water pressure and their bodies exploded.

Soul altars flew out of their shattered bodies. The souls hovering on the soul altars were aghast, wailing and screeching as they saw the bloody mess of their bodies. Their voices were like sounds of crying ghosts, which raised the hair on people's napes.

Most of them were at First Sky of Immortal Realm or had just entered the Immortal Realm; their realms weren't stable yet.

"Go!"

Ming Hong, the brutal soul, had covered Audrey to protect her from the pressure and pulled her out of here.

"Brian!" screamed Ming Hao.

While screaming, twelve of Ming Hao's clones exploded. Forefather Earth Ghoul and Qi Mo had destroyed them.

Not far from them, the God Lord crossed his hands in front of his chest, watching and doing nothing.

At this moment, as the God Lord heard Ming Hao's call, he didn't look like he was willing to respond. He hesitated when he had to look from the battle between Emperor Sea Shark, Ferrell, Neptune, and Ricardo. He closed his eyes and when he opened his eyes again, pure and holy light bloomed.

The God Lord was like the bright moon in the velvet, starry sky. Stepping on a light road, he grabbed Qi Mo.

The powers of Five Elements turned into a holy, five-colored light curtain, which covered Qi Mo. The God Lord wore a cold face and said faintly. "Chaos power Upanishad. Ah ha! Gru also cultivated Chaos power Upanishad. He died tragically anyway. You're not as strong as Gru. If Gru was still alive, he would be stronger than you now."

Gru was the Chief of Chaos Force who had imparted the power Upanishad to Ka Tuo. He had been confined in the God Burying Land for many years before he was killed in the battle against the Four Great Heavenly Kings.

Gru was also at the Immortal Realm but his realm wasn't as high as Qi Mo. Anyway, Gru was really powerful and he had endless potential. If the God Lord hadn't plotted against him, Gru wouldn't have been dead.

Gru was also a member of the God Clan. As the God Lord had fused with the Origin of Ancient God Continent, he had power over Gru. Because of him, the Four Great Heavenly Kings could kill Gru.

Bang!

At the Peak of Immortal Realm, Qi Mo's chaotic magnetic field was covered inside the five-colored halo; it was exploding.

"Another expert from Desolate Territory!"

"Warriors from Desolate Territory are fierce. Gosh, are we doing something wrong here?"

"This man is also at the Immortal Realm with Five Elements power and the Light power Upanishad! He's really awesome!"

"Fierce!"

The God Lord Brian's performance sparked more discussion and showed the toughness of the warriors from Desolate Territory.

They didn't know that Ming Hao and Brian were peerless experts in Desolate Territory. They were the two strongest experts of the entire Desolate Territory. They could make people awe-struck; it was enough to prove how hard they had worked and exerted themselves in tens of thousands of years.

The chaotic magnetic field shattered. Qi Mo was scared. He and his troops from the Devouring Clan changed their target. Now, they all aimed at the God Lord.

Ming Hao could relax a little bit. He just needed to deal with Forefather Earth Ghoul Ba Di and Neptune's two brutal souls. Apparently, his situation stabilized.

Quite the contrary, Emperor Sea Shark was besieged by three Territory Ancestors. Gradually, he was pushed to a disadvantaged situation. Emperor Sea Shark was frantic and he couldn't leave. He was worn out, indeed...

“Warriors from Desolate Territory. Interesting. It seems like we need to take care of them well,” Ferrell sneered. Inside the Thunderbolt Territory above his head, a massive lightning net was created and it snatched down. It didn’t even attempt to avoid Qi Mo and Ba Di.

Ba Di and Qi Mo left immediately when the situation went wrong. As the lightning net didn’t aim at them, it still lowered.

Sizzle! Sizzle!

Ming Hao’s soul clones vanished when the lightning net touched them.

Even the God Lord Brian had to change his countenance. When the massive lightning net caught them, his brilliant, holy halo was pressed. He felt suddenly powerless. The lightning struck his soul altar grumblingly and his Soul Consciousness was damaged.

“Cough! Cough!”

The God Lord coughed hard and blood gushed out of his mouth, his face pale. “Ming Hao, you and I haven’t reached the Territory Ancestor Realm. Otherwise, we would have vandalized this Sea of Annihilation! It’s really unfortunate that even at the last moment, we haven’t seen the threshold to Territory Ancestor Realm. I’m dissatisfied!”

“I’m also dissatisfied!” Flows of Ming Hao’s soul gathered and turned into a massive shadow. “Even if my soul vanishes, I have to show them how fierce and malicious warriors of the Desolate Territory are!”

“You want to use the forbidden space power?” The God Lord was surprised and bitter. “Your soul will vanish. The seabed is different from other areas. The backfire when the space entry collides with water pressure is enough to destroy your soul altar. You can’t endure it...”

“I have to try anyway,” Ming Hao said sorrowfully.

Swish! Swish! Swish!

Space cracks and slits expanded in this area and moved like slithering snakes. A flow of strange aura extended from Ming Hao’s body.

“ARRRGGGHHH!”

Ming Hao faced the sky and screamed. His ghostly body seemed to become a shattered mirror reflecting so many broken worlds.

Swoosh! Swoosh!

The space cracks undersea were like open wounds that were torn further apart. The rapid current flood from outer space was visible like a brutal demon opening his mouth to swallow everything.

This incident made Neptune pale. He looked and shouted, “Space power Upanishad at Third Sky of Immortal Realm!”

A brutal soul that looked like a beast in the Immemorial Epoch with green faces and yellow fangs appeared. His body was as big as a mountain; his arms were like a sky supported by pillars that pounded on Ming Hao.

Ming Hao was like a shattered mirror that cracked. He couldn't resist the massive fists pounded on him and he collapsed.

"Just a wisp of a soul. He dares use the forbidden space energy on this seabed. He doesn't treasure his life, indeed. Do you think your soul form can endure the backfire?" smirked Neptune.

"Ming Hao!" Brian hissed, his eyes complicated. "If this soul is your real body, you will..."

As soon as he was about to let the word "die" slip out of his mouth, he was surprised to see Ming Hao's vanishing soul. That soul was wriggling like a cut worm. Under some magical power, pieces of his soul were gathering and gluing to each other. Shortly after, Ming Hao congregated in a distorted way.

Boom! Boom! Boom!

A strange life energy, which was powerful and immense, emitted from Ming Hao's soul. A flow of vitality ignited his life magnetic field once again!

At the same time, dozens of bright crystals appeared above their heads. Those crystals had different shapes that looked like rhombuses, cones, eggs, and cubes in many different colors. They were moving grumbly like a shaking galaxy that shot meteors.

Each of the meteors was like an edged sword. They seemed to have a Soul Consciousness as if they could find lives on their own to attack.

Ming Hao's forbidden space technique paused magically. The space cracks didn't expand anymore. Strange sharp space wheels were created at areas where space was about to shatter. They moved around wildly and harvested lives.

A brilliant starlight cage appeared amid those crystals, which was very eye-catching. They lifted their heads to see and screamed in fear.

"That's him!"

"The warrior that the five clans want!"

"Shi Yan!"

"It's Shi Yan!"

"He dares to come here!"

The crowd was boiling!

Ming Hao was thrilled. A flow of immense vitality was sent to his soul and it healed his collapsing soul magnetic field.

He was formed again. Lifting his head to look at Shi Yan, he was shaken. At a glimpse of time, he thought he saw Bloodthirsty...

"Emperor Sea Shark doesn't look good. If he can't wake up, he can't leave alive," reminded Mei Ji.

Inside the light cage, Shi Yan pulled himself together. After first glance, he saw Emperor Sea Shark covered in blood and was surprised. What Emperor Sea Shark was going through at the moment were

the side effects of Rampage. As he didn't cultivate Devouring power Upanishad and his acupuncture points didn't contain negative energy, he was burning his life energy to stimulate his rampage.

Thus, it was hard for him to recover.

Looking at Emperor Sea Shark, Ming Hao, and the God Lord, Shi Yan didn't say a word while continuing to use his Star power Upanishad.

Dozens of crystals around him moved and slowly arrayed into the shape of a big bear. The bear observed the area and then opened its mouth, spraying a cold breath. It was the cold energy from the meteors on dozens of crystals. The wisp of cold energy was like a cool stream that ran directly to Emperor Sea Shark's crown of the head.

"Boom!"

Emperor Sea Shark got hit by the cold energy and sank. However, the frenzied will in his eyes gradually vanished. He was finally awakened.

God of Slaughter

Chapter 1466: Are You Still Sleepy?

Deep under the sea, so many stars were moving and illuminating the seabed.

Shi Yan stood between the stars and starlight twirled around him like a waterfall. The stars gathered and created a massive silver bear, which then spurted a stream of cold energy.

Emperor Sea Shark was hit and he sank deeper. When he could steady his body, he looked mindful of the situation.

"What's that?"

Mei Ji was surprised and she observed the big bear made of dozens of crystals, her beautiful eyes frightened. She could feel an aura of something from the isolated Absolute Beginning Era. That aura was special and cold.

That massive bear was the essence of the stars. It looked so real and it glowed in a silver halo. The bear created by dozens of stars almost shaded the sky in the Sea of Annihilation's seabed.

It's the Little Bear! Constellation power!

At Second Sky of Immortal Realm, Shi Yan's Star power Upanishad was greatly advanced. He had gathered the broken stars and stashed them in his Incipient Extent. Afterward, he figured out that they were actually a constellation above the Sea of Annihilation.

The constellation consisted of many bright stars and they were related to each other. The stars with the spirit can connect to each other after staying together for billions of years. The spirit or the soul of those stars can blend with each other magically to create the mysterious power of the entire constellation.

The Little Bear constellation was created by the souls of dozens of stars. It was the combination of the stars' souls. A surging beam of starlight from it had awakened Emperor Sea Shark.

Emperor Sea Shark started smiling. He lifted his head and looked at Shi Yan. He snarled, "Why did you return?"

Shi Yan frowned and didn't look at him. The black hole emerged from behind his head. The demon's mouth opened and sucked.

Instantly, so many souls shrieked and screeched. The warriors who had only soul altars left after Emperor Sea Shark's attack were so frightened.

The water pressure that had increased dozens of times burst and their soul altars were left floating in the deep sea. They were observing a battle to gain something.

However, as soon as a black hole emerged, they completely collapsed. They screeched and tried to run away.

Unfortunately, it was too late.

No matter how hard they struggled, their soul altars couldn't get rid of the black hole's suction force. They revolved and were dragged into Shi Yan's black hole.

The sinister black hole stirred and swallowed soul altars while releasing a fierce soul energy fluctuation! Many people in this area were shaking in fear!

Including Neptune's brutal souls!

Devouring power Upanishad was the nemesis of the ghosts or things in soul form. After the black hole emerged, the three brutal souls that were like imposing mountains were now shivering like kittens by Neptune.

The two brutal souls fighting with Ming Hao were feeble as if they were the willow catkins that were about to vanish.

Shi Yan observed Neptune's brutal souls. He understood it immediately: If his Devouring power Upanishad reached a certain level, he could subdue the brutal souls of the Soul Clan. He could even swallow those brutal souls as he swallowed the soul altars.

As Ming Hao was also a soul form, he didn't feel well when a black hole appeared. But with his Soul Control power Upanishad and Space power Upanishad, he could adjust his condition shortly after. He sealed himself in a small, private space to avoid the Devouring power Upanishad.

"Devouring power Upanishad!"

"It's the exclusive secret of the Devouring Clan! Devouring power Upanishad!"

"But they said that the Devouring Clan didn't have any warrior cultivating Devouring power Upanishad? How could he know that?"

"Gosh, the Devouring power Upanishad comes back!"

“...”

The warriors of the Sea of Annihilation were panic-stricken. They screamed and their faces were ugly.

Qi Mo and the Devouring Clan warriors had the worst grimace. Looking at Shi Yan use the Devouring power Upanishad of their clan to swallow so many soul altars, they felt their hearts bleed. Their eyes flared with the flame of anger. This Devouring power Upanishad belonged to their ancestor but now, even the direct descendants couldn't even use it. This damn kid was using it to slaughter them now!

“It's our Devouring Clan's exclusive power Upanishad!” Qi Mo screamed indignantly like an enraged beast. The twisted, chaotic magnetic field emitted from him and attacked Shi Yan furiously.

“Pathetic,” Mei Ji smiled like hundreds of flowers blooming. Her graceful body danced and so many icicles shot from the sky that hit Qi Mo.

Qi Mo's body became a mess of blood and flesh.

“Why did Mei Ji become so fierce? They said that she's hurt severely, didn't they?”

The warriors from the Devouring Clan under Qi Mo's command screamed. They couldn't believe it, either. Just like Qi Mo, they stormed and advanced toward Mei Ji and Shi Yan.

“Constellation power!”

Shi Yan smiled and stooped his body. The big silver bear acted exactly like him. It stooped and pounded its furry fist on the prey underneath.

The big furry fist brought starlight bands in the sky and fell on Qi Mo and the warriors of the Devouring Clan.

Boop! Boop! Boop!

Except for Qi Mo, the Devouring Clan warriors were smashed like watermelons; their bones became bone dust. Qi Mo's body was crushed. In his last moment, he used the chaotic energy to stir his soul altar and attacked Shi Yan once more time.

Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard were watching the battle. They gawked and even the God Lord and Ming Hao had to smack their tongue. They screamed and appraised the abnormal kid.

Some warriors in Qi Mo's crew had even reached Second Sky of Immortal Realm, but they couldn't resist the Bear's big fists.

At the Peak of Immortal Realm, Qi Mo's body had been blasted off under the Bear's fists. They were very strong!

They didn't know that Shi Yan's body, power, realm, and power Upanishads had leaped up after he had parted from them. While killing around the Sea of Annihilation's seabed, Shi Yan had gained benefits beyond their understanding. His body and power had strengthened greatly. He entered Second Sky of Immortal Realm with a new understanding of Star power Upanishad in addition to the Little Bear Constellation.

At this moment, Shi Yan was at the peak of his life. He was a true God of Slaughter that descended to this world.

“Using Chaos power Upanishad to deal with me?” Shi Yan grinned when he saw Qi Mo storming toward him. “Are you still sleepy?”

Swoosh! Swoosh! Swoosh!

The black hole above Shi Yan’s head looked like a terrifying whirlpool with a powerful suction force that was increasing as if it could suck all things in this world!

The big silver bear by Shi Yan also felt the danger. It instinctively ducked...

Billions of years ago, the Absolute Beginning creature Devour had used this power Upanishad to swallow so many stars and refine star energy, making it a part of his own energy to transform.

The stars could feel the evil features of the Devouring power Upanishad and they knew that it could dissolve them.

The Chaos power Upanishad was one of the eight great, evil power Upanishad from Devour. They were naturally bound to Devouring power Upanishad. Qi Mo had used the power of his blood and flesh to urge the soul altar. Shi Yan was correct: He was still sleepy!

“Not good! Qi Mo doesn’t know the danger! The Devouring Clan has lost the power Upanishad for a long time they forgot the bond between the Devouring power Upanishad and the eight evil powers. This man courts death!” Many onlookers were screaming.

Qi Mo suddenly screamed desperately. The black hole arose and his Chaos power Upanishad stopped listening to him. The suction force had pulled him into the black whirlpool.

As Qi Mo saw the fatal situation, he made up his mind. While screaming crazily, his body exploded and he became a flesh bomb that attacked the other.

His soul altar tried to run away when his body exploded. He had attempted to get rid of the Devouring power Upanishad.

In that moment, he finally believed in his precursors that the Devouring power Upanishad could subdue the eight evil powers!

He was totally convinced!

However, it was too late!

“Do you know how Gan Fu died?” Shi Yan faced the sky and smiled crazily, his laughter reverberating in the entire Sea of Annihilation. “She died foolishly like you. She wanted to use the Corrosion power Upanishad to kill me, an expert with Devouring power Upanishad. She died because of that. Well, just like her, you will never escape!”

Boom!

Qi Mo was shaken. As he was about to run away, Shi Yan’s words had struck him. Finally, he had lost his mind completely. He howled like a beast and his soul altar burned.

All the warriors in this area saw the burning soul altar storm toward Shi Yan and attempt to drag him into hell altogether.

“Shi Yan! Watch out!” Mei Ji screamed.

“Don’t swallow the soul altar that is burning vitality. It’ll create trouble!” Ming Hao also reminded.

“Er?” Shi Yan was surprised. Then, he sneered, “You can’t do anything!”

A Fantasy Boundary Stone arose in front of his chest and created a misty world. Qi Mo’s burning soul altar flew into the world created by the Fantasy Boundary Stone.

Boom!

Qi Mo’s soul altar exploded. The world inside the Fantasy Boundary Stone exploded into pieces.

When the Fantasy Boundary Stone exploded, Shi Yan’s body had hundreds of cuts on his body, most of them deep to the bone. His face also bore many cuts and was bleeding terribly.

Qi Mo was gone. He had burned his soul altar to kill Shi Yan, but all he could do was to destroy one of Shi Yan’s Fantasy Boundary Stones.

However, the Fantasy Boundary Stone was pumped by Shi Yan’s God power and power Upanishad. When it shattered, it also backfired at Shi Yan and wounded him.

Shi Yan was bleeding. He smacked his tongue as he was a little scared.

At the Third Sky of Immortal Realm, the power when Qi Mo’s soul altar burst off was really terrifying. Shi Yan had reacted timely and released the Fantasy Boundary Stone. Otherwise, Qi Mo’s self-detonation would have made him a puddle of blood.

Qi Mo and his crew from the Devouring Clan were killed tragically. Shi Yan hovered by the big silver bear and looked like he had endured hundreds of gashes.

His face was also gory, which sent shivers down people’s spines.

Shi Yan grinned eccentrically as people were watching him. His laughter made people shiver in fear.

[God of Slaughter](#)

Chapter 1467: Constellation Power!

“Is this brutal demon the one we’re seeking for? Is there a mistake?”

“Second Sky of Immortal Realm! He has only Second Sky of Immortal Realm cultivation base! How could it be?! Qi Mo was at Peak of Immortal Realm!”

“Gosh! We thought it was simple. If we had known this earlier, we wouldn’t have gotten involved in this!”

“...”

Many people began to regret. They were here because they wanted to observe a battle between the Territory Ancestors to learn Dark Energy. However, most of them were here to capture Shi Yan to get the Power Upanishad Symbol Tower.

And now, the target they had been waiting for had come back with guts. As soon as he came, he showcased his skills that were beyond anyone's imagination. He had slaughtered Qi Mo and the warriors from the Devouring Clan. His Devouring power Upanishad made Neptune's brutal souls shiver. Also, he had used the power of the constellation to wake up Emperor Sea Shark.

He had almost overturned the situation single-handedly!

"Little Bear Constellation's indignant roar!" Shi Yan grinned and licked the blood at the corners of his mouth.

The big silver bear created by the stars faced the sky and roared. Its ferocious nature was completely stimulated. The crystals in its body collided with each other grumblingly. Massive asteroids fell from the sky. At this moment, it looked like the silver bear was shattering!

Streams of asteroids grumblingly sank, each of them as big as an island. They brought the wrath of a savage bear.

Crack! Crack! Pffft!

When the asteroids hit the other warriors, their bodies were directly smashed. The light cage they had built to protect their bodies were fragile as if they were made of an eggshell. Many Immortal Realm experts were bleeding terribly; they looked more helter-skelter than Shi Yan did.

"Why did you attack us?!"

"You're crazy!"

"We didn't do anything! Are you crazy, man?"

They shrieked and screeched, criticizing Shi Yan indignantly.

"Haha, you've crossed thousands of miles from the surface to come here and find me, haven't you?" Shi Yan smirked. "If you dare to come, you should expect to see my flames of anger! You think I'm alone so you can bully me? You think I'm just a low-realm warrior so you can do whatever you want to me? You're so naive!"

After the asteroids had fallen from the sky, dozens of more warriors were crushed and their soul altars escaped.

Once the soul altars emerged, Shi Yan directly used his Devouring power Upanishad to swallow them all.

The Sea of Annihilation's seabed had become the Shura Hell. The onlookers from different clan were attacked by the asteroids and they got smashed.

More people recognized the dangerous situation. They tried their best to not let their bodies shatter, even if they had to bear damages in their soul altars. As long as they had their bodies, their soul altars weren't going to be devoured.

“Shi Yan! You want to attack us too?”

“You’re crazy!”

“Damn you! I gave you an Immortal Pellet!”

Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard were attacked by three hundreds-of-meter-tall asteroids. They had to join hands to resist the asteroids. All looked helter-skelter.

They screamed and scolded Shi Yan for returning favors with bad deeds. They thought that Shi Yan was very heartless.

Shi Yan’s line of sight fell on them. He frowned and said coldly, “Do you know what’s repaying favors with bad deeds? If you knew, you wouldn’t have come to the Sea of Annihilation’s seabed! When we were on Dragon Lizard Star, without me, Singh would have killed you and Neptune’s Soul Refining Cauldron would have sucked your blood and soul quickly. And you, Tu Shi Qi; if I hadn’t used my space energy to unlock your spatial lock, do you think you could have escaped that lock? If I hadn’t stopped Mei Ji, you and your wife would have been killed on Dragon Lizard Star!

“Because I killed Ling Mei, a woman from the Mysterious Sky Clan, you got your eyes fixed on me just to have an answer to your Forefather Han Tian? Ling Mei had seized the chance when I was hurt to strike Mei Ji. Her soul magnetic field almost broke. When she wanted to kill me, where were you? I didn’t see you trying to seek justice for me?” Shi Yan’s face was dark and cold. “Because Ling Mei was the granddaughter of Han Tian and I’m not a member of the Mysterious Sky Clan, and because I didn’t agree to be your clan’s Nonnative Officer, you were going to kill me?”

Pausing for a breath, Shi Yan shouted, “Why?”

Why?

Boom!

Another asteroid fell from the sky and hit the asteroid above Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard. Two asteroids piled up and increased the pressure.

Boom! Boom! Boom!

Tu Shi Qi and Ya Yun’s bodies cracked and bled badly.

Although Forefather Dragon Lizard was just a clone, he was Lizard’s later generation. His body was tough enough to resist. However, he still shook. Lava was churning in his eyes.

He was panic-stricken. It was just ten years after the incident on Dragon Lizard Star. At that time, Shi Yan was at the Incipient God Realm and he had used one of his Immortal Pellets to reach the Immortal Realm. And now, his power was terrifying. With such progress, in the near future, even the Mysterious Sky Clan weren’t going to be able to subdue him.

Forefather Dragon Lizard was regretful. He regretted coming to the seabed with Tu Shi Qi and Ya Yun to find Shi Yan.

Even though he remembered Shi Yan's favor and protected him by asking Tu Shi Qi and Ya Yun to give him chances, when he jumped into the sea, no matter what his attitude was, he had chosen to stand against Shi Yan.

"Old man, you're right. This kid has endless potential. We were all wrong," Ya Yun's blood dripped from her mouth to her chest, her face bitter.

"I always said that we were wrong. I've underestimated his potential. If I had known his competence, I would have ignored Ling Mei then! Sigh..." Tu Shi Qi sighed.

"Do you want to watch more?" Ferrell asked Ricardo with a wince.

Ricardo lifted his head, his face surprised. He was dazed as he watched Shi Yan attack everywhere. He hadn't taken any action. Hearing Ferrell, Ricardo chuckled, "If you want to take action, do it yourself. Although that kid is fierce, you can still kill him simply. Why didn't you do that?"

"If Emperor Sea Shark didn't see it earlier, I would have taken action!" Ferrell scolded.

Not far from him, Emperor Sea Shark looked much colder, his eyes gazing at Ferrell. He knew that if he made the slightest move, Emperor Sea Shark's fierce attack would bombard him instantly.

He wasn't so sure that Ricardo was honest to him to help him cope with Emperor Sea Shark. Thus, he was hesitant.

... As for Neptune, because his brutal souls were subdued by the Devouring power Upanishad, he had become the most pathetic expert.

Apparently, he got the power of a Territory Ancestor Realm expert because of his suppression brutal souls, which were also his most powerful ones; he didn't have any means left to deal with the others. At this moment, he was gathering his brutal souls, his face pensive as if he was hesitating before striking.

Ricardo, Ferrell, and Neptune didn't do anything, which meant that no Territory Ancestor had taken action to stop Shi Yan. Qi Mo and the members of the Devouring Clan didn't have the power to resist the Devouring power Upanishad. Shi Yan had seized the chance and killed them all. It had shaken everybody on the scene.

Shi Yan could use his Constellation power smoothly without encountering any obstacle because the others were still in a daze after witnessing Qi Mo's death.

Qi Mo was at the Peak of Immortal Realm, and Shi Yan, an expert at Second Sky of Immortal Realm, was able to kill him. His resentful death had cast a shadow in their hearts.

Only Ming Hao, the God Lord, and a few knew that it was a retributive relationship between the Devouring power Upanishad and the Chaos power Upanishad since Shi Yan could kill Qi Mo!

They understood that if Shi Yan faced another Third Sky of Immortal Realm, even if he could win, he would have to pay a terrible, bloody price!

They knew that, but they didn't say it out loud. Shi Yan had an intimidating aura of an overlord, which had worried the others and given him time and room to use his Constellation Power to check the essence of his new Star power Upanishad's ability.

The situation entered a strange phase.

The experts from the other areas on the seabed or from the surface had come to cooperate with Ricardo, Neptune, and Ferrell to hunt Shi Yan. However, the three Territory Ancestors had stood idle and watched Shi Yan slaughter many people and swallow their soul altars.

The seabed became bloody. The asteroids from the big silver bear seemed to have their own consciousness. After they had fallen and smashed one warrior, they could slowly rise up again to prepare for the next attack.

Everybody knew that if they let Shi Yan do what he wanted like this, the situation was going to turn to the point of no control.

Neptune had hesitated for a long time. Eventually, he lifted his head and looked at Shi Yan. "If it's not because of the Devouring power Upanishad, it's easy to kill you. Let alone your Second Sky of Immortal Realm, even if you were at Peak of Immortal Realm, you would have made no difference. You will see... the difference between the Immortal Realm and Territory Ancestor Realm."

Then, the divine weapon was conjured.

As soon as the Soul Refining Cauldron emerged from Neptune's head, his brutal souls all wormed into the cauldron.

The three-legged cauldron moved. Countless Absolute Beginning symbols were wiggling on its surface and emitting an aura that could enter people's soul. The cauldron then fell between the asteroids in the sky.

Abruptly, the brutal souls began to shriek and cry from inside the cauldron.

As soon as the warriors around heard the cries, so many ghosts and departed souls stormed out. There were tens of thousands of them. Those brutal souls were stabilized and enhanced by the Soul Refining Cauldron; they weren't afraid of the Devouring power Upanishad anymore. They circled and dragged many asteroids together.

After dozens of seconds, the big silver bear congregated one more time.

This time, it wasn't Shi Yan who did that. The brutal souls had forced the asteroids and glued them together.

At first glance, so many brutal souls and ghosts had covered the silver bear. In the next moment, the jade three-legged cauldron snatched over it. Waves of soul energy from the cauldron made the silver bear screech in agony. The spirit inside the stars seemed to be tamed. They were so worried that they tried to seek help from Shi Yan.

"Go!"

A brutal soul, which looked like a hundred-meter-tall lion, flew out. Its massive claws attacked Shi Yan.

Shi Yan's wounded body was torn, revealing a bloody hole where people could see his internal organs and intestines.

Neptune coughed badly. He looked at the Soul Refining Cauldron, his face baffled. It seemed like using the cauldron had cost him a lot. This cauldron hadn't been completely fixed and he hadn't tamed it yet. When he forced the divine weapon, he had to endure the backfire.

The Devouring power Upanishad could somehow subdue his brutal souls. He had to pay with the backfire of the Soul Refining Cauldron to kill Shi Yan.

"Ricardo, Ferrell, stop Emperor Sea Shark for me for a while. I have to kill this kid first," Neptune seized a moment between his coughs to shout.

"No problem!" Ferrell agreed immediately.

Ricardo lifted his head to look at Shi Yan and then at Emperor Sea Shark. Pondering for a while, he nodded, "I'll watch Emperor Sea Shark. I won't let him trouble you."

God of Slaughter

Chapter 1468: Yin and Yang - Left and Right

Ricardo and Ferrell agreed with Neptune.

The two of them scattered to block Emperor Sea Shark on his left and right and attack him simultaneously.

Ricardo's and Ferrell's territories suddenly emitted ripples that carried a bizarre aura that came from their Sea of Consciousness. It was Dark Energy!

Ricardo's and Ferrell's territories swelled like an inflated balloon. The energies emitted from the two territories were burning flames and wild lightning. The flames and lightning seemed to have lives as they became flame spirits and the essence of lightning accompanied by Ricardo's and Ferrell's life aura!

It was like they had created two new species from thin air!

The Dark Energy was also negative energy. Rumors said that it could create a new world or destroy a world; it could create living beings!

With Dark Energy, the territories of the two Territory Ancestors were connected to the real world. The flame and lightning spirits in the two worlds danced and attacked Emperor Sea Shark's territory.

Emperor Sea Shark discolored and muttered, "Using Dark Energy to improve the territory and create lives, it requires using Soul Consciousness and Dark Energy. You guys are here to help Neptune. I don't know why you have to sacrifice a lot like that..."

"The Absolute Beginning Original Symbol is very important. We all need an Absolute Beginning Original Symbol to strengthen the territory and generate more Dark Energy," Ricardo pondered and then said. "I don't want to risk my life with you. As long as you don't come out, I won't use all of my energy."

Ferrell wanted to launch a fatal attack. Hearing Ricardo, his face darkened.

Emperor Sea Shark looked at the two of them. Dark Energy surged in his Sea of Consciousness and vigorously expanded.

His Water Territory expanded along with Dark Energy. So many water drops became crystal clear with a life aura. It seemed like they were given lives and shapes instantly.

They were palm-sized, water warriors without facial features. However, they had soul energy. They moved out of the Water Territory, swarming and slashing the creatures Ricardo and Ferrell had created with their Dark Energy.

At the same time, Neptune leaped up!

He raised his hand and snatched. The Soul Refining Cauldron fell back into his hand. Billions of ghosts and departed souls had congregated into a giant demon claw and attacked Shi Yan.

“Constellation power!”

Shi Yan’s body was cut and bleeding hard; the others could even see the organs in his chest. He roared indignantly.

The massive rocks on the seabed flew up. Within three breaths, they had formed a giant silver bear. The big bear roared crazily and hit the giant demon claw!

Millions of brutal souls and ghosts were torn into pieces. They turned into a gray mist and smoke and vanished. The big bear pulled and tugged the demon claw, preventing it from attacking Shi Yan.

The star energy in his body was drained rapidly. Shi Yan hovered in the void, his face cold. He changed his power Upanishad!

In the tier of power Upanishads in his soul altar, the Absolute Beginning Original Symbol inside the Life Ball erupted vitality. The stream of rolling vitality flooded Shi Yan’s limbs and internal organs. As so many warriors were gazing at him, his body, which could become a pulp of flesh at any minute, started healing at a speed that naked eyes could observe.

His veins grew. His broken bones connected. Fibers of flesh in his cuts moved and closed.

The deep gashes on Shi Yan’s pale, terrible face faded and then disappeared completely.

With the torrential vitality from the Absolute Beginning Original Symbol, his badly damaged body recovered!

In this moment, his naked torso showcased his tough muscles. He had only a pair of shorts on his iron-like body. His muscular frame gave people an expression of something vigorous and exploding. The torrential life energy didn’t cease and started flooding his entire body. The others who were watching him could even hear something amazing rumble inside him.

It was the vitality!

The enormous vitality that nothing could compare to!

Many warriors couldn’t help but cover their mouths in awe while witnessing this miracle. Many of them couldn’t even believe their own eyes.

Shi Yan’s badly damaged body healed after ten breaths; he even looked stronger than before! What happened?

“Life power Upanishad! The Absolute Beginning Original Symbol he got must be the Life power Upanishad! Only the power of the Absolute Beginning Original Symbol can create such a wonder!” Forefather Dragon Lizard said as he couldn’t believe it. “This man is unbelievably lucky! As he got an Absolute Beginning Original Symbol that fused with his Life power Upanishad, unless he uses up all of his energy, he can always use the Absolute Beginning Original Symbol to recover!”

Tu Shi Qi and Ya Yun were dumbstruck. They found that they couldn’t predict Shi Yan’s future and development anymore. Also, they hated Ling Mei for her reckless deeds, which had made the Mysterious Sky Clan lose the fiercest friend.

“He’s Bloodthirsty’s disciple. If that man was still alive, he would be much more intimidating than Forefather Han Tian,” Ya Yun reminded in a low voice.

Tu Shi Qi nodded with a forced smile. He suddenly felt that the situation was going to be much more complicated to handle than he had estimated. Pondering for a while, he said, “Alright. We should just watch this battle. We shouldn’t get involved anymore. After it’s finished, we will report everything to Forefather Han Tian. He won’t blame us too much. Anyway, he had an encounter with Bloodthirsty that year...”

Ya Yun nodded as she agreed with him, her eyes upset.

“It turns out that you have the Life Absolute Beginning Original Symbol!” Neptune sat cross-legged on a brutal soul. Holding the Soul Refining Cauldron, he was controlling the massive demon claw, his eyes radiating magical light.

Shi Yan stayed naked. His eyes slowly turned garnet. Spikes tore his skin and jutted outward. A pair of bone wings emerged from his back. Right afterward, a set of gory armor shrouded him. The chest plates of his armor had magical blood clouds that bloomed like flowers.

He clutched a blood-dripping sword in his hand, which had so many open eyes. A strange, evil aura slowly emitted from him.

At that moment, Shi Yan had transfigured to his best fighting mode. He had even equipped the blood shield and the blood sword. He wanted to risk his life now.

“When a warrior at the Immortal Realm wants to challenge a Territory Ancestor Realm expert, unless he gets Dark Energy very early, at his Peak of Immortal Realm and with an Absolute Beginning divine weapon, he won’t have a chance to survive,” Neptune looked at him and said mindfully, “Unfortunately, you’re at Second Sky of Immortal Realm. You don’t have an Absolute Beginning weapon. Even though your life form evolved well, only death awaits you.”

Neptune laughed evilly.

He had drawn a long, black river from his glabella. That river was created by Dark Energy with his soul as the source of power. So many water demons were floating in that river.

It looked like the Nether River deep inside the Nether Sea in Hell.

The river had murmuring, ink-black water. The water demons showed their fangs and raised their claws, disappearing into the sea.

The warriors who could use Dark Energy knew that it was Neptune's killing strike. At the Territory Ancestor Realm, it wasn't easy to gather Dark Energy. They wouldn't use it because of that.

Once they used Dark Energy, their soul, spirit, will, and Qi would become one to increase Dark Energy, which would turn into his life-taking attack.

The onlookers thought that the river had disappeared. However, when the experts with Dark Energy sent Dark Energy to their eyes, they could see that jet-black river flow toward Shi Yan.

The big silver bear created by Shi Yan's Constellation Power was still resisting the demon claw. Moreover, it was in a bad situation: Its crystals were exploding one by one.

That soul river was approaching Shi Yan with a soul threat that he couldn't resist.

Shi Yan felt a massive rock pressing on his chest that made him unable to breathe. His soul altar began to have cracks when the river came closer. His Sea of Consciousness seethed and his power Upanishad ceased. It seemed like the river could affect him a lot.

Star Chain!

Space Cross Slash!

Death Seal!

He activated three techniques continuously. Dozens of meteors and space blades came with massive hand seals of death that attacked the soul river.

The soul river didn't even bubble. It wasn't affected at all. Still, the river flowed toward Shi Yan.

Neptune's mouth curled coldly. He grinned and deliberately made the river flow slowly. It seemed like he enjoyed Shi Yan's desperate and powerless expression a lot. "Dark Energy can create worlds and it can also destroy worlds. It's the negative power of earth and heaven. The warriors can only have it after the soul, body and Soul Consciousness transforms to a particular level. God power, star energy and space energy can't dissolve a Dark Energy attack. It requires Dark Energy and negative energy to dissolve it. Your pathetic, minute amount of Dark Energy will never be enough to neutralize my soul river."

Shi Yan paled, frowning and saying nothing.

"The earth and heaven can be categorized as Yin and Yang, or Left and Right. The God power, star, space, and Qi are the Yang ones or part of the Right. Dark Energy is the Yin or the Left. It's like a person who has a soul and a body. The energy generated by the body is God power, star power, or space power. It belongs to the passive energy category. Only the energy generated by the soul is Dark Energy. The God power stays in the body while the Dark Energy hides in the Sea of Consciousness. As you have Dark Energy, your soul reached a strong level. But your realm is not high enough. It's unfortunate..."

Neptune sneered as he explained the Left and Right, Yin and Yang, body and soul to Shi Yan.

He was confident that Shi Yan would die this time.

Many warriors around the seabed listened to Neptune as he was talking about the Yin and Yang, Left and Right, and Dark Energy. They all looked pensive.

Especially Ming Hao and God Lord Brian. They felt like they were suddenly enlightened with a clear path. Amazing, holy light radiated from their eyes.

Forefather Dragon Lizard was also bewildered as he replayed what Neptune had said. He seemed to get something.

“Freeze.”

A cold voice arose at this moment. It was from Mei Ji.

A thick ice wall was congregated and standing in Neptune’s soul river’s way. The ice wall sparkled strongly and partially visible.

Neptune’s soul river was stopped magically.

Ptui!

Mei Ji’s charming face became ashen like a sheet of white paper. She spurted blood. The light in her eyes dimmed and vanished.

God of Slaughter

Chapter 1469: Sky and Earth Turning Upside Down!

The sea water turned red in Mei Ji’s eyes.

It was a mix between seawater and blood. The blood wasn’t diluted in the sea water. It was like a bloody handkerchief that totally contrasted with her pale face.

The ice wall was also created by Dark Energy and it carried the power and Essence of Ice power Upanishad with Mei Ji’s Soul Consciousness.

Boom! Boom! Boom!

The ice wall exploded as the river barged into it. Mei Ji’s body shook as her soul was exhausted and her power got drained.

Her glowing skin became loose and her jade-like face becoming wrinkled.

“Not bad. You finally got Dark Energy. The Phantom Clan should have one more Territory Ancestor... Too bad...”

Neptune was calm and squinting. The light in his eyes was sharp and cold. The soul river finally pierced through the ice wall and continuously moved toward Shi Yan.

Mei Ji was aging fast. Her hair became white like fog and her eyes filled with sorrow.

A Fantasy Bounder Stone flew out of his palm. A chunk of starlight with surging vitality rolled inside that Fantasy Boundary Stone. The stone inflated like a big bag and shrouded Mei Ji.

Tearing a space slit, Shi Yan put the Fantasy Boundary Stone in it and watched Mei Ji disappear.

He didn't leave. The soul river ran straight into his forehead.

Boom!

A flame ignited right at Shi Yan's glabella. It flickered with a life aura. A soul became visible inside the flame.

It was Shi Yan, but it was different. It was a soul created out of fire!

Under the flame were countless gray clouds that were made of Dark Energy from the Sea of Consciousness. Inside that flame was Shi Yan's second soul.

Neptune's soul river barged into that flame and aimed at Shi Yan's co-soul.

Boom!

Billions of flames burned fiercely. Shi Yan's co-soul became partially clear. Staying inside the furious flame, it gradually changed like a stretching shadow of a ferocious demon.

An earth-shaking intimidatingly came from that giant shadow. In between billions of flames, the giant shadow raised one hand and pulled Neptune's soul river.

Ricardo, Ferrell, and Emperor Sea Shark were fighting. Their faces changed as they stopped fighting. Magical light shot out of their eyes when they looked at Shi Yan.

All the warriors on the Sea of Annihilation's seabed lifted their heads to look at Shi Yan.

Tu Shi Qi, Forefather Dragon Lizard, and Ya Yun looked extremely odd.

Forefather Dragon Lizard muttered in the old language of the Dragon Lizard Clan. It was a language taught by Absolute Beginning creature Lizard. As soon as he saw the giant shadow, he instinctively spoke the old language of his clan...

Shi Yan's eyes looked baffled.

He stood imposingly in the sea water. In front of him, countless flames had formed a lotus throne with Dark Energy clouds supporting a vague giant.

That giant shadow continued to change with the heaven flames as the body and Shi Yan's co-soul as the control center.

God Lord Brian and Audrey became baffled at the same time in two different areas. It looked like their souls were taken. They couldn't help but clutch their heads and crouch in pain.

Swoosh! Swoosh! Swoosh! Swoosh!

All of a sudden, billions of flames flew out of Brian and Audrey. They had different colors and it seemed like they had their own lives.

All of those flames gathered with the flaming lotus throne in front of Shi Yan. The ferocious shadow on the lotus throne had become even bigger. The terrifying, formidable aura slowly emitted.

"Oh! Argh!"

Many people around couldn't endure the pressure. They were forced to kneel down uncontrollably. Some even crouched on the ground and didn't dare to lift their head up.

Neptune's Dark Energy soul river aiming at the flaming lotus throne was pulled and torn.

The giant shadow tore it directly!

Neptune was so bitter, his eyes terrified. He wanted to run away.

Boom!

A tie in his soul was pulled. He discolored in fright as he looked at the Soul Refining Cauldron. He had lost the connection with the cauldron!

The Soul Refining Cauldron strangely flew away and fell on Audrey.

Every eye was gazing at the Soul Refining Cauldron when it got into Audrey's head. The cauldron then began to fuse with Audrey.

In this strange atmosphere, God Lord Brian slowly rose, his eyes still closed. Billions of halos rippled through him and created a crystal barrier of Light. A dazzling light orb flew out of Brian's chest. The giant shadow caught it.

The light orb suddenly became more blazing as if it had hundreds of stars in it. The giant shadow hurled the light orb away and aimed at Neptune.

Neptune ran crazily, his face desperate and his brutal souls bobbing restlessly.

The light orb chased after him. Eventually, it got Neptune and entered his body. Neptune was numb as his Nether Territory exploded. A dazzling sun was hanging in his cold and dark world. He had to run helter-skelter for his life.

"How could it be? How could it be?" Ricardo was bewildered as he looked at the sky.

"Oh gosh!" Ferrell screamed hoarsely.

Emperor Sea Shark was so surprised. He seized Shen Ren who had been wounded severely and fled at his fastest speed.

The vague shadow in front of Shi Yan suddenly roared inaudibly in between so many flames.

Its energy run directly into everybody's soul!

The warriors below Third Sky of Immortal Realm had their soul altars collapsed; their Incipient Extent shattered. Bodies exploded under the sea. All of a sudden, the seabed had more than hundreds of corpses.

Those at Third Sky of Immortal Realm like Forefather Dragon Lizard, Tu Shi Qi, Ya Yun, and the Forefather Earth Ghoul had to run away as they were pressed until their natural facial holes bled.

Ricardo and Ferrell gazed at that giant shadow for three seconds. They exchanged looks as they felt so chilled. Immediately, they ran away.

So many space cracks in the seabed vanished into the seawater as if they were snow under the fire.

If someone could use the Soul Consciousness to check the entire Sea of Annihilation, that person would see the immensely vast space of the Sea of Annihilation shrinking strangely!

It was like a deflating balloon shrinking rapidly!

Shi Yan was still bewildered and standing blankly as if his soul was gone.

Audrey sat on a corner with the Soul Refining Cauldron in her head. The cauldron was fusing with her.

God Lord Brian closed his eyes and floated in the sea like a blazing sun. Ming Hao, the Soul Control Chief, was kneeling on the ground. Lifting his head to see the formidable figure in the sea, he was begrudgingly desperate when the other had his life in his hand.

After less than a minute because of that terrifying shadow, the negative situation completely overturned. Hundred of warriors at the Immortal Realm of the Sea of Annihilation were killed instantly, except for some Third Sky of Immortal Realm experts.

Neptune's territory shattered. He had to run away as his soul altar was badly damaged.

Ricardo and Ferrell didn't dare to linger. They all ran away for their lives.

The spacious seabed of the Sea of Annihilation now only had warriors from Desolate Territory with the giant shadow.

After a while, that shadow grabbed and tore a hole. Then, it scooped Audrey, Ming Hao, Brian, and Shi Yan. Then, it ran toward the entrance to Desolate Territory.

Shi Yan and the others were pulled into Desolate Territory. Then, the massive shadow seemed to drain all the energy. It was divided into three pieces and returned to Shi Yan, Audrey, and the God Lord.

The spacious Sea of Annihilation's seabed shrunk to a third of its original size. It seemed like someone had drawn the energy of the space here, so it had to vanish.

After a long time, a white crystal skeleton came to the place where the battle had taken place. That skeleton was the Territory Ancestor Hero of the White Bone Clan. He was one of the ten great Territory Ancestors of the vast sea of stars.

Hiro sensed for a while at that location. He was startled shortly after, "The Absolute Beginning creature's aura!"

He lingered there for a long time and then wandered around the Sea of Annihilation to find something. However, he got nothing so he had to return to his clan.

Time flew fast.

At a corner of the seabed, it was a world of mist and smoke inside a broken star. A figure's body was in the shape of a ball inside the piece of that broken star.

It was Mei Ji, unexpectedly wrapped in surging vitality. At this moment, Mei Ji's peerless appearance was recovered. Her skin was smooth and bright. However, her breathing was very feeble.

Mei Ji woke up in the world inside the broken star. Her remaining God power was less than the time she was most wounded. Her Sea of Consciousness was about to collapse and she couldn't even condense her Soul Consciousness.

She wasn't feeling good. Without the surging vitality in this misty world, her soul magnetic field was going to vanish and end her life.

As she didn't have enough God power, she didn't dare to get out of the misty world. She could only wait here.

She had to wait for Shi Yan in agony.

Using the tool fabricated by the Phantom Clan to measure time, she knew she had been here for several months.

Shi Yan hadn't come yet.

Tears lingered in her eyes. She thought that Shi Yan didn't survive this time. This misty world couldn't last for a long time. It was going to vanish soon.

Mei Ji seemed to see herself walking to death.

While her vision was blurred with tears, she saw a small figure appear outside the world in the rock.

It looked like a little girl around eleven or twelve years old appeared. She looked really cute and pretty. The little girl looked at Mei Ji inside the rock, her eyes tender and loving. However, she spoke like a grannie. "Silly little child..."

The rock burst off and the misty world vanished. Mei Ji was released.

Her eyes without focus looked at the little girl and she spoke as if she was dreaming. "Grannie..."

"Sleep. Get good sleep. I'm here. No one can hurt you anymore. When you wake up, our Phantom Clan will have another Territory Ancestor," the little girl spoke softly.

Mei Ji slowly closed her eyes.

The little girl held her and nodded when she slept. They both vanished into thin air as if they were just a wisp of smoke.

Three days later, Ferrell's lair in the Sea of Annihilation was cleared. The giant sea turtle he was riding was dismembered. Ferrell's later generations were massacred.

Ferrell knew that but he didn't dare to stand up against the murderers. He ran directly to the territory of the Ancient Monster Clan, declaring his side. Then, he stayed hidden in the clan and didn't dare to get out.

Almost at the same time, all the islands of the Soul Clan in the Sea of Annihilation were destroyed. The warriors of the Soul Clan based in the Sea of Annihilation were slaughtered. Neptune had already returned to the headquarters to cure his wounds. He was in a similar position as Ferrell, hiding and retracting his neck.

God of Slaughter

Chapter 1470: Shaking Fallout

Deep in the Sea Domain of Nihility.

Countless ink-like clusters of clouds hovered in the void. That sea of black clouds carried the mountains, lakes, and many palaces and towers. The members of the Soul Clan were operating around. Groups of departed souls and ghosts flashed in the sky.

It was a base of the Soul Clan.

A black mountain range stretched on the black clouds. Wailing ghosts were crawling inside a black cloud where the muffled roaring echoed.

Many members of the Soul Clan gathered by the cave and discussed secretly with sinister faces.

“Sir Neptune had bad luck this time. Even though he was at Territory Ancestor Realm, he had run helter-skelter to return.”

“I heard that the Absolute Beginning creature Desolate appeared on the seabed of the Sea of Annihilation. It overturned the situation right away and killed many Immortal Realm experts of the Sea of Annihilation.”

“Well, I heard rumors that Desolate is separated because it’s severely hurt?”

“The three parts of Desolate were on the seabed at that time. After the three parts had united, it was able to use its earth-shaking energy. Neptune was hurt badly and he had to run away.”

“Oh gosh. How formidable Desolate is! Just three pieces of his body and he could assault Neptune badly?”

Most of the warriors of the Soul Clan who were discussing were at Incipient God Realm or Immortal Realm. They were surrounding the cave as they were in charge of protecting Neptune and serving him.

A lanky figure emerged from the sea of clouds far from them. He was a good-looking man with feminine contours. He looked around thirty years old and wore a simple brown-gray gown.

Forefather Earth Ghoul was servile as he bent his upper body and followed the handsome man like a dog.

The Soul Clan warriors who were discussing had hot and admiring looks on their faces when they saw the man. They kneeled down and screamed, “Welcome, Tribal Oldie Serene Prison!”

The handsome man with soft contours wore a faint smile as he nodded to them and entered the cave directly.

Forefather Earth Ghoul came after him.

The walls inside the cave hung billions of souls and ghosts. A chill-to-bone pond was situated in the middle of the cave with more departed souls and ghosts. Neptune was naked and soaking in that cold soul pond. Sometimes, his body flashed dazzlingly. After each flash, he screamed in agony.

The soul pond was the ancient formation that used the souls in the mountain range as the source of energy. It was the place the Soul Clan used to heal elders and the commanders.

After the handsome man got into the cave, he checked Neptune and sighed, "You had bad luck, indeed."

Neptune was surprised when he saw Serene Prison come personally. He bowed slightly to show his respect while still staying in the pond. "I didn't estimate that three clones of Desolate gathered there. Because of my soul river's threat, Desolate's consciousness was awakened deep in that kid's soul. It had used its supernatural power to gather the three clones and hit me hard..."

Forefather Earth Ghoul had already reported the incident on the seabed to Serene Prison. "How much time do you need to recover fully?"

"I don't know," Neptune winced. "The Light Orb in my body continuously eroded my blood and flesh. If I hadn't returned on time, I couldn't have kept this body. Without the precious materials from earth and heaven, I will need at least three hundred years. I lost the Soul Refining Cauldron too. My competence is greatly reduced."

"I'm here this time to give you a Territory Soul our clan has nurtured for years. We've kept this soul for a long time. I hope that you will recover fast and improve your competence after you swallow it," said Serene Prison.

Neptune looked thrilled. "Why?"

The Territory Soul was actually the soul of an expert at Third Sky of Immortal Realm. With some secret techniques, they could nurture it until it was as strong as the soul of a Territory Ancestor. The Soul Clan saved this sort of soul for the warriors who were about to reach the Territory Ancestor Realm. Taking a Territory Soul, the warrior could have a bigger chance to obtain Dark Energy and become a Territory Ancestor.

The Territory Souls were very precious. There were a few of them in the entire Soul Clan. Normally, unless the Territory Ancestor was facing death, the clan wouldn't give the Territory Soul to recover him.

Neptune thought that it was strange because his situation wasn't that hopeless. Although three hundred years was a long period to recover, to the experts at his level, it was as long as a snap of his hand.

However, it would take several thousand years or more to nourish a Territory Soul.

Except for time, they needed to provide endless souls to that Territory Soul to help it grow. Neptune's three hundred years was never be worth a Territory Soul.

"Our clan needs your power. If it were in the past, they wouldn't give you a Territory Soul. But now, the Sea Domain of Nihility's situation is changing. Within three hundred years, a war will start. Thus, we must increase the clan's overall competence," Serene Prison wore a stern face, "After you take this soul, not only should you recover but I hope you will also increase your power. That's how we can ensure our advantages in the future war."

Neptune pondered for a while in the soul pond. He bent his body and spoke in a low voice. "I won't fail you."

Serene Prison nodded to him.

Mysterious Sky Clan's territory.

Many ancient cities were built on a spectacular continent that was the combination of many continents. All the cities were colossal and majestic.

That continent was another mysterious area of the Sea Domain of Nihility that could attract free energy and make them flow into the continent. At the same time, there were so many asteroids hovering around and creating a natural jam to the battleships traveling through the area.

Deep in the continent was a sealed area that only the ruling echelon of the Mysterious Sky Clan could visit.

That sealed area was actually a vast valley with dozens of bright entrances leading to different Territories.

Those Territories belonged to the Mysterious Sky Clan and were under their management.

At this moment, Tu Shi Qi, Ya Yun, Forefather Dragon Lizard, and dozens of elders from the Mysterious Sky Clan were gathering in the valley. All of them had stern countenances while gazing at an entrance.

It was where Han Tian was ascetically cultivating.

Everybody kept silent and waited for Han Tian.

After an unknown time, the entrance radiated gold light rays. A brawny old man with bird nest hair walked out of the entrance. He glowed in good health, wore hempen garments, and was barefooted. He looked at the warriors surrounding.

"The members of our clan presented on the Sea of Annihilation's seabed at that time are you two?" He looked at Tu Shi Qi and Ya Yun.

The two nodded hurriedly.

Han Tian sighed, "That little girl Ling Mei was really talented. However, she has heavy mind schemes. I knew she would encounter a kalpa, but I didn't know it came that early."

Everybody kept their heads low and didn't dare to answer.

"Are you sure Shi Yan is Bloodthirsty's disciple? The shadow that appeared at the last moment was the combination of Desolate's three clones?" He turned to Tu Shi Qi.

Tu Shi Qi nodded, "Shi Yan cultivates Death power Upanishad and Devouring power Upanishad. Yeah, there is no need to talk about the Death power Upanishad, but the Devouring power Upanishad... You told us that only Bloodthirsty cultivated such a power. Shi Yan must be his successor. About the phantom that flew out of Shi Yan and the other two warriors from the Desolate Territory, it was likely Desolate. Dragon Lizard had sensed the distinctive aura of the Absolute Beginning creatures..."

Han Tian looked pensive for a few seconds. "Bloodthirsty was more intimidating than you thought. If he was still alive, he could stir up the Sea Domain of Nihility. Desolate is still incomplete. We can tell that from the fact that it stayed in three warriors. It seems that Desolate Territory is really complicated."

“Forefather, what should we do?” Tu Shi Qi asked for direction respectfully.

“Find the entrance to Desolate Territory first. Otherwise, we can’t do anything.” Han Tian said as he shook his head with a sigh. “Pay attention. I think the war between the seven clans will happen soon. That expert of the Phantom Clan has risen big waves in the Sea of Annihilation because Mei Ji was hurt badly there. Hiro has personally come to the Sea of Annihilation to pick up their two ancestors. Fortunately, they haven’t awakened yet. Otherwise, the trouble would be much bigger...”

“Understood.”

“Understood.”

“Understood.”

Sea of Annihilation.

So many massive skull islands were moving slowly on the sea surface. The little skeleton was sitting cross-legged on one of those skull islands.

His parents lay in the two coffins next to him. He was watching over his parents in silence.

Hiro of the White Bone Clan was a little begrudging. “We should return to the headquarters of the clan first. We will figure out how. We will find an expert cultivating Life power Upanishad.”

“Shi Yan has the Life Absolute Beginning Original Symbol. He’s the best choice, isn’t he?” asked the little skeleton.

“Yeah, he’s our best choice if we can find him.” Hiro’s eyes turned dark. “I was late. When I went there, everything was done. I searched around the Sea of Annihilation’s seabed, but I didn’t find the entrance to Desolate Territory. Anyway, I’ve asked our warriors in the Sea of Annihilation to check every entrance. Once we get the news, I will handle it personally.”

“They are all trying to find the entrance to Desolate Territory, right?” asked the little skeleton.

“Yeah, the members of the seven clans are looking for the entrance to Desolate Territory. Once they get it, many experts will go there,” Hiro nodded.

The little skeleton kept silent.

In a beautiful area of broken stars inside the Sea Domain of Nihility, so many pieces of broken stars like crystals had piled up to create a massive, sparkling continent. This shining continent had so many flowers and luxuriant trees. The rivers here carried amazing spirit Qi and meandered around the mountains with many precious birds.

Many exquisite towers and palaces had decorated this continent. Beautiful people walked on the ground or rode the massive birds or shuttle.

On an island, Mei Ji was sleeping inside a massive yellow crystal ball. The crystal ball had many lights moving around. Those lights brought tremendous energy, which eventually entered Mei Ji's body.

After an unknown time, Mei Ji opened her eyes. Her blurry consciousness became clear. She knew that she was home.

Her Soul Consciousness moved around. She found that the consumed Soul Consciousness had returned. Dark Energy murmured inside the Sea of Consciousness. Her snowy Incipient Extent was slowly transforming and expanded immensely.

She knew that she was just one step away from Territory Ancestor Realm. She needed to calm down her mind to transform her Incipient Extent to break through to Territory Ancestor Realm.

She remembered the little girl who had come and rescued her, muttering with gratitude, "Thank you, Grannie."
