Chapter 1481: Gather by the territory entrance

In an isolated asteroid area South-West of the Sea of Annihilation, lightning moved around like snakes. Those asteroids had burning electricity running through them as the electric arc was crawling on them.

The lead-gray clouds covered the entire area like an ugly gray cloth which interrupted the vision a lot. Inside an ash-gray, shield-shaped asteroid, Emperor Sea Shark and Shen Ren were sitting cross-legged in a spacious room. Their breathing was steady as they were cultivating.

Jingle! Jingle!

The clear bells arose from a ring on Shen Ren's finger. He woke up from his cultivation, his eyes baffled. An electric beam from his finger entered the ring; in the next second, a message ran into his brain.

The puzzled countenance was swept away from Shen Ren's face. He was shaken, and a magical light shot out of his eyes. "Our brothers in the Sea of Annihilation have sent me a strange news!"

Emperor Sea Shark had to pause his cultivation, his face bitter when he asked, "Something's wrong? Are they alright? Before we left, we had told them to not raise the dispute with anybody during this time, hadn't we?"

Dozens of years ago, Emperor Sea Shark had supported Shi Yan on the Sea of Annihilation's seabed. He had offended the five clans and attacked Neptune and Ferrell. Afterward, the five clans were enraged. Emperor Sea Shark knew that it would be a lot of troubles if he continued to stay in the Sea of Annihilation.

Begrudgingly, he and Shen Ren left alone, coming to this dangerous area to cultivate ascetically in the hope of cultivating to the next minor realm, which would ease out the threat from the five clans.

Emperor Sea Shark and Shen Ren were the clansmen of the Sea Clan. They were forced to leave the Sea of Annihilation and cultivate here. To them, it wasn't easy to adapt to the environment. They didn't contact the members on the Sea of Annihilation's seabed because they were afraid of disclosing their whereabouts.

They had strictly asked their subordinates to not contact them unless there was something they couldn't handle.

When Shen Ren received the news, Emperor Sea Shark instinctively thought that his fellows in the Sea of Annihilation hadn't listened to him and caused some trouble.

Emperor Sea Shark was greatly disappointed. He was upset because his fellows didn't understand that they should hide during this course. He and Shen Ren weren't there, so they must be gingerly. They should have done everything with great caution.

"If the others don't provoke them, the children would listen well..." Shen Ren's eyes carried sadness.

He knew those members of the Sea Clan. After he and Emperor Sea Shark had left, they had to pass a lot of benefits. The forces that had a grudge against Emperor Sea Shark now got the secret support from

the five clans: They began to attack the Sea Clan warriors. Currently, the Sea Clan warriors had to survive in helter-skelter.

They had to move continually. If the seabed of the Sea of Annihilation weren't immense, their fellows couldn't have lived anymore.

Shen Ren knew everything. The cause of everything was that he and Emperor Sea Shark had chosen Shi Yan's side at the critical moment. They had enraged the five clans, giving them a purple face in wrath.

"What happened?" Emperor Sea Shark sighed. "To be exact, it's our mistake. If we stayed in the seabed, who would dare to attack them? Anyway, I don't regret it. If our benefactor hadn't trained me, we wouldn't have today's Emperor Sea Shark. I would have died already. We owed him."

"Right, we owed him," Shen Ren nodded. In the next second, his eyes brightened. "My soldier sent the news saying that a guy came to them and told them the coordinates of an entrance territory. He asked you and me to go there and check. It's the territory entrance to Desolate Territory!"

"Desolate Territory's entrance?" Emperor Sea Shark was shocked. He pulled a stern face. "How could it be? The seven clans are trying their best to find Desolate Territory's entrance. No one got anything. Who's kind enough to tell us about the entrance to Desolate Territory? How could he find it?"

"Because he's from Desolate Territory," Shen Ren smiled. "He's Shi Yan."

Emperor Sea Shark shook hard, "Are you sure?"

"It's him. He had summoned the Power Upanishad Symbol Tower in front of our fellows. He said that he meant no harm. He wanted us to go to Desolate Territory, as he wanted to talk to us about something," said Shen Ren.

Emperor Sea Shark pondered for a few seconds then nodded resolutely. "We're going back to the Sea of Annihilation!"

...

Deep under the Sea of Annihilation was a mysterious, fatal area.

This area had terrifying water pressure, and the seawater had a strange greenish-gray hue. Hundreds of whirlpools appeared in this area like strange, open mouths, where was hidden a passage to the unknown outer space.

Many warriors of the Sea of Annihilation knew this area. Some superb experts had come here to explore, going into those whirlpools.

However, all of them disappeared.

During tens of thousands of years, some Territory Ancestor Realm experts had gone into those whirlpools as well. But, none of them had returned to the Sea Domain of Nihilicity.

Some had entered a true void. They had to return with nothing but their damaged cultivation.

Hundreds of whirlpools looked like strange flowers blooming in this area. Since many people had gone missing here, this area became a forbidden place. No one had found any trace of treasures here.

After a long time, no one had come here to explore anymore, making the place desolate and barren.

Today, a skull slowly headed toward the strange whirlpools. At first, it was tiny; as it zoomed over, the skull became massive.

Swoosh!

The skull stopped eventually. Surprisingly, it was the skull island of the White Bone Clan. After the skull island had anchored, some members of the White Bone Clan crawled out of the empty sockets.

Hiro was the leader accompanied by Gay, another Territory Ancestor of the White Bone Clan. Around ten more experts followed them on this trip. Inside the skull lay the coffins of the little skeleton's parents. Hiro and Gay looked at so many whirlpools, their countenances surprised.

"Turns out it's here. No wonder why we couldn't find it. Although we know one of these vortexes is the entrance, we don't know which one it is. So, how can we dare to jump in?" asked Gay.

"An Immortal Realm expert of our White Bone Clan used to come here to explore. But, he never came back," said Hiro.

"Should we jump in now?" The little skeleton asked, his eyes longing, "Shi Yan's at the Second Sky of Immortal Realm. He has the Life Absolute Beginning Original Symbol, so he can wake up my parents, right?"

"It depends on the supernatural ability the Life Absolute Beginning Original Symbol had given him. But, if he has called us, he should be certain." Gay explained.

Hearing him, the little skeleton was cheered up, gently nodding at him.

"We're a little early. We should wait for the Phantom Clan. Montecie told me to wait if we arrived earlier. She would be slower than us because the Phantom Clan's far from here," said Hiro.

"Okay."

The White Bone Clan then waited in silence.

After a while, a massive crystal shuttle that was like a hidden submarine arrived. It was invisible along the way, so it had startled many members of the White Bone Clan when it suddenly appeared by their skull island.

Hiro calmed them down as they knew it was from the Phantom Clan.

The crystal shuttle stopped, and a little girl appeared. Following her was Mei Ji, the expert with a peerless glamor. Around ten beautiful people of the Phantom Clan walked behind them. They were all wearing beautiful clothes, which outlined their gorgeous appearance and outstanding makings. All of them stood respectfully behind the little girl.

"Montecie, you're faster than I thought," Hiro let his team leave the skull island and move the coffins together. Then, he rose one hand, grabbing the void. The skull island shrank and became a small white dot, which he put into his glabella.

The Phantom Clan group walked out of the shuttle. The little girl chuckled and opened her mouth as if she was eating fruits. She swallowed the massive crystal shuttle and then said, "We were a little hurried. We accelerated, as we were afraid of getting exposed."

"It's not good to linger here. As we don't want to be exposed, shall we... get in there?" asked Hiro.

Montecie's childish face was stern. "What if he gave us wrong coordinates, which is actually a death trap? Aren't you afraid? Ah, you White Bone Clan don't understand dark plans. If Shi Yan wants to harm you, you will enter his trap eventually."

Without waiting for Hiro's reply, Montecie signaled a man behind, ordering him, "You get in there and scout." She rose her hand, pointing at a whirlpool in the center.

The handsome Phantom man didn't say anything, heading toward the whirlpool

Montecie and Hiro quieted down, waiting for the result.

After a while, Montecie and Hiro shouted at the same time, "Who is that?"

They looked in the same direction, their eyes cold. It looked like they would turn into savage beasts in the next moment to tear anyone who dared to come here into pieces.

Two silhouettes appeared; Shen Ren had a stern face, but his soul shivered and he became gingerly.

Emperor Sea Shark was at the Territory Ancestor Realm too. He was calmer under the gaze and threat from Hiro and Montecie. He bowed to them from a distance, greeting loudly. "Greetings, precursor Montecie, precursor Hiro."

"Emperor Sea Shark!" Mei Ji screamed in surprise. "Why are you here?"

Emperor Sea Shark thought for a while and soon got the situation, so he didn't want to conceal. "Shi Yan sent me a message and asked me to come. Seems like I'm not the only one invited."

"That kid has remembered the old favors. He remembers you. He's not bad!" Hearing him, Montecie nodded. "If Shi Yan had asked you to come, we will include you. But, do you know what's awaiting us in Desolate Territory?"

"What?" Emperor Sea Shark didn't really know the situation.

"Three Absolute Beginning creatures. We don't know how strong they are. Plus, there is the Territory Ancestor Realm expert of the Devouring Clan. There're many uncertain factors. Are you sure you're in?" Montecie asked with a frown.

Emperor Sea Shark's mind was shaken, frightened because of her words. He only received the message from Shi Yan, asking him to come here. He didn't know how complicated Desolate Territory's situation was. It made him hesitant.

"Think carefully." Montecie added.

However, at this moment, the good-looking man who had jumped into the whirlpool as asked returned, nodding with a happy face. "It's true. It's the territory entrance. No problem."

“Let’s go!” Montecie smiled, waving her hand. She brought the members of the Phantom Clan, plunging bravely into the vortex.

Chapter 1482: Reach an agreement

Hiro and the members of the White Bone Clan also dove into the whirlpool, disappearing together with Montecie and Mei Ji.

Shen Ren wore a heavy countenance, hesitating. “If Montecie’s correct, once we enter Desolate Territory, our lives will be threatened. The Absolute Beginning creatures aren’t easy to deal with, especially with the true expert of the Devouring Clan. Have you thought it over?”

Hovering in front of hundreds of vortexes, Emperor Sea Shark looked worried and pensive. After a while, he said resolutely, “Let’s take risks for once!”

“Alright!” Shen Ren didn’t sound hesitant anymore, and then they both plunged into the vortex.

After a while, a few shadows appeared. Hiro, Montecie, and the others appeared above the river Ming Hao and Xuan He used to stop by in the space outside Desolate Territory. As soon as they came, they released the Soul Consciousness to search.

Immediately, they found Shi Yan standing like a lance by the territory entrance.

“Shi Yan!”

Mei Ji couldn’t help but scream; her beautiful face looked happy. If Montecie and Hiro weren’t here, she would have jumped into his embrace.

Time had flown like a long river. Dozens of years had passed as quickly as the blink of an eye.

Mei Ji had become sexier. She was like a flower blooming to its very finest. Her bright eyes looked like they contained water, along with A passion that could melt even the hardest hearts in men.

Her red robe worshipped her voluptuous, perfect contours. The red hue of her lips could arouse any man and boil his blood.

“You’ve finally entered the Territory Ancestor Realm,” Shi Yan beamed at her, then nodded to greet Montecie and Hiro. His eyes brightened when he saw the little skeleton, asking smilingly, “Oh, you’re here too.”

“Shi Yan, can you save my parents?”

The members of the White Bone Clan carried two coffins, standing behind the little skeleton. His dormant parents were inside the coffins.

“If I have enough energy, I think it’ll be no problem. Don’t worry! As long as I am involved in a bloody battle that provides me with energy, I can wake them up,” Shi Yan confirmed. “The Absolute Beginning Original Symbol I got from the Power Upanishad Symbol Tower is a magical, supernatural ability of Life power Upanishads. It is specialized for your parents’ case.”

The two Territory Ancestors of the White Bone Clan were Hiro and Gay, who had their eyes brightened at this moment. With what Shi Yan had just told them, this trip was already valuable.

“Do you know that all the experts in the Sea of Annihilation are searching for you and the entrance to Desolate Territory?” Although Montecie looked as though she was just eleven or twelve years old, her eyes were deep and archaic. “After you took a walk around the Sea of Annihilation, you’ve boiled up the entire place. You kid, you dare to play hard.”

“I don’t dare,” Shi Yan looked sour. “I almost died, but I was lucky. As long as I’m alive, I always have hope.”

“Good mentality!” Montecie smiled in surprise.

“We should talk about the conditions first.” Shi Yan didn’t babble more. He pulled himself together, looking at Hiro and Gay. “I can wake them up, and I also have the Power Upanishad Symbol Tower. I can promise you that if you get the materials to refine the Absolute Beginning Original Symbol, I will help you refine one.”

Hiro and Gay exchanged looks and then nodded happily. They were waiting for him to explain his conditions.

“The same way, I can also refine the Absolute Beginning Original Symbol for the Phantom Clan. In Desolate Territory, I’m sort of a host. I can tell you the details and a preliminary plan.” Shi Yan turned to Montecie while speaking, “My conditions are simple. The two Absolute Beginning creatures, Hui and Devour, haven’t recovered from their serious damage yet. We will join hands and attack them. We need to discuss the results. I hope you won’t destroy the structure of Desolate Territory. Don’t think that Desolate Territory’s your backyard and invade it. I want you to keep everything here in its normal conditions.”

“You want us to destroy or shoo “things” that don’t belong to Desolate Territory out of the place? Is that what you want?” Montecie intervened.

“You can say that,” Shi Yan didn’t conceal anything. “I’m from Desolate Territory, and my family and friends live here. I don’t want anything bad to happen to them.”

“How about Desolate?” Hiro asked in a low-pitched voice. “He’s the owner of Desolate Territory, and his parts are separated. What should we do?”

“Desolate...Let me handle him. It’s one of the conditions!” Shi Yan said resolutely.

“What do you think?” Montecie rubbed her chin, asking Hiro. “There’re two Absolute Beginning creatures. It’s easy to share between the two clans, isn’t it? I know the White Bone Clan has something with Devour, so I guess you guys are interested in Devour, right?”

“Devour’s damaged badly. Gay and I can try to kill and then refine him. I just hope that the Territory Ancestor of the Devouring Clan here isn’t Edgar. If Edgar’s here, it’ll be more troublesome...” Hiro said.

“So, is Edgar really powerful?” Shi Yan was surprised.

He had been in the Sea of Annihilation for a while, so he knew that Edgar was the strongest expert of the Devouring Clan, one of their ten great Territory Ancestors. Together with Montecie and Hiro, he was

famous for his boldness. However, as Shi Yan had heard that the Devouring Clan didn't have complete power Upanishads, he assumed that Edgar wasn't really fierce because he didn't cultivate the Devouring power Upanishad.

"Yeah, he's really powerful!" The eyes on Hiro's jade-like face were sparkling like gemstones. "I used to fight against him. I'm not sure I can defeat him, as we are almost at the same level. If he comes, it'll be really tough to deal with..."

"How about you and I joining hands?" Montecie asked.

"It's no problem then," replied Hiro.

"Do you agree with my conditions? If yes, we can do the prep work now. If not, then never mind!" Shi Yan urged.

"Certainly yes!"

"Sure thing!"

"We should talk somewhere else."

Shi Yan used his Space power Upanishad to tear space here and connect to the Grace Mainland.

Everybody then wormed through the space slit like a shuttle, coming directly to the Immortal Island on the Grace Mainland. As soon as they came to the Immortal Island, Hero and Montecie were amazed.

"Thick heaven and earth energy! This continent's really rare! It's amazing to cultivate power Upanishads here...Worth a clone of Desolate!" Montecie appraised.

On the Immortal Island, DeCarlos, Xia Xin Yan, Frederick, Audrey, and Blood Devil were waiting for him restlessly. Seeing Shi Yan returning with a group of people, everybody was shaken hard.

"What's the current situation? Is Ming Hao still...alive?" Shi Yan asked as soon as he returned.

Ming Hao cultivated Soul Control power Upanishad, and had thousands of souls. The warriors cultivating this Soul Control power Upanishad, among the eight great evil power Upanishads, were really hard to kill. Moreover, Ming Hao had the Dark Energy. Shi Yan didn't think he would be killed so soon.

"Can't contact him. Even if Ming Hao isn't killed yet, he's subdued for sure, and will be refined to death. He has a lot of souls. If one of them escapes, he can recover his power one more time. I'm just afraid that he had gathered all of his souls, so none of them can escape now!" Xuan He frowned, his face heavy.

"Who are they?" Adele looked at Hiro and Montecie. She slightly paled as she was fearful instinctively.

It was an invisible threat coming from the soul!

Standing by Hiro and Montecie, the low-realm warriors under the Incipient God realm couldn't feel anything. But Adele, DeCarlos, and Frederick had entered the Immortal Realm, and their sensitivity was improved. They could vaguely feel an extremely terrifying aura from them.

The energy fluctuated from the experts made their souls restless, their soul altars shivering.

“They are friends from the Sea Domain of Nihility,” Shi Yan explained as he understood their astonishment. “They’re going with us to attack the two star areas. I have to borrow the external forces ‘cause we’re too weak...”

Hearing him, Xuan He, Frederick, and the others looked upset.

In Desolate Territory, they were the unrivaled existences. Until now, Xuan He, Frederick, and their followers had made killing God Lord Brian and destroying the God Clan their life’s goal. However, things changed drastically. The God Lord was betrayed by his own kind; the Four Heavenly Kings were chasing after him. Brian, their archenemy, was now in their shoes. They understood his situation, anyway.

The ones who weren’t appreciated now showed their fangs and their brutal facets. They had controlled the situation entirely.

The arrogant and proud experts like them couldn’t accept this. It had stirred them up, making them thirsty for more power and higher realms.

“Let them rest in the Grace Mainland. We’re going to the Ancient Demon Star Area to find Pu Tai first.” Shi Yan suggested.

He was talking about two coffins of the White Bone Clan. He thought they were the burden they shouldn’t keep on their side all the time.

Unfortunately, Hiro and Gay insisted that they had to carry the two coffins all the time. They didn’t believe that the people on the Grace Mainland could take care of the coffins well. They believed in only themselves.

“Let’s go! We’re heading to that Ancient Demon something!” Montecie screamed.

Reaching an agreement with the Phantom Clan and the White Bone Clan, Shi Yan led them together with Xuan He, Frederick, DeCarlos, and Adele from the Grace Mainland, heading toward the Ancient Demon Star Area.

...

After many star areas had merged together, the Dark Abyss overshadowed the Ancient Demon Continent like a thick, black sea which generated an endless evilness.

In a dark area where people couldn’t even see their own fingers arose a tired voice, “You’re astonishingly talented as you can cultivate the Soul Control power Upanishad and synchronize it skillfully with your Space power Upanishad. Even in my clan, no one could reach your achievement in Soul Control power Upanishad. Too bad you’ve not reached the Territory Ancestor Realm yet. I will ask you, on behalf of our Ancestor...do you want to follow our Ancestor? We will distort your seal, making you a loyal servant of our Devouring Clan.”

“I don’t!” Ming Hao’s feeble voice arose in the darkness. It seemed his soul was about to scatter.

“Useless persistence! It’s really bad for your achievement and loyalty...I have to destroy you then.”

“If you want to kill me utterly, you will have to pay a big price.”

“I have no choice. Your threat is really significant. When you enter the Territory Ancestor Realm, I won’t have a chance to kill you. I have to do it early.”

“Come as you wish.”

God of Slaughter

Chapter 1483: Predestined enemy!

Layers of thick membranes that looked like glass or jade stopped them. Starlight sparkled and crawled on those membranes with thick and surging heaven and earth energy.

It was the territory wall, the barrier and membrane that separated the star areas. When many smaller star areas had merged together to create the Grace Mainland Star Area, those layers were created by the star area walls of the small star areas. Layers of dozens of star areas had overlapped to form a thick and tough wall.

Gay from the White Bone Clan was at the First Sky of Territory Ancestor Realm. He cultivated Fire power Upanishad, his eyes seeming like dazzling suns.

“Let me open this star area wall.” Gay volunteered. As soon as he finished, billions of flames emerged from his chest, creating waves of burning artilleries.

Boom!

Flames rolled, emitting a burning heat that shocked Blood Devil and the others. They felt a twinge in their ears, so they had to conjure light cages to protect themselves.

DeCarlos’ visage changed. From those artilleries, he could feel the toughness that could destroy the heaven and earth. He believed that if the artilleries hit the small spaces inside his body, they could destroy hundreds of them. If this flaming attack bombarded the Thunder Firmament Star Area, it could shatter it entirely.

“Who allowed you to do that!” Shi Yan bellowed.

“The star area wall is too thick. If I don’t do that, we can’t break it. Oh!” Gay suddenly screamed in fright. “It...How could it be?”

At this moment, the artilleries in his chest were connected to the star area barrier by a flaming dragon. The dragon was several thousand meters long, as big as a mountain. It continually licked the barrier with the burning tongues. Waves of invisible energy came from the crystal, jade-like membranes. It seemed eternal, as if it was the will of God.

BOOM! BOOM! BOOM!

The fire dragon exploded abruptly, sparks sent everywhere. The members of the Phantom Clan and the White Bone Clan had to back off to avoid those terrifying sparks.

Gay was frightened. “It’s unbelievable that the star barrier has a powerful counterattacking energy. Where can this energy possibly come from?”

“Oh! When I moved through the barrier, I didn’t encounter any attack.” DeCarlos was puzzled. He came to the barrier, using his Space power Upanishad to open a passage. He did that at ease.

Hiro and Montecie exchanged looks. They saw the heavy and serious countenances on each other’s face. Montecie observed the surroundings and said, “The barrier Desolate has put up can prevent the outsiders, or the warriors from the other territories. But, the warriors with its aura in the soul won’t be affected. Yeah, take you guys for example...

“You were born in Desolate Territory, so you have its aura. You won’t fae the counterattack from the barrier. But, we don’t belong to this place. It will instinctively treat us as the enemy.” Hiro remarked.

“No wonder why the Devouring Clan members aren’t walking around the three big star areas. Seems it’s because of the star area barrier.” Xuan He got it.

“We should take DeCarlos’ passage.” Shi Yan said.

Right after that, they followed each other to move through the passage. Emperor Sea Shark and Shen Ren walked at the end of the line; they seemed to want to say something.

They met Shi Yan after Hiron and Montecie, but he didn’t talk to Emperor Sea Shark. It made Emperor Sea Shark suspicious. He wanted to find a chance to ask Shi Yan about his intentions as he had invited him to Desolate Territory.

Shi Yan lagged behind purposely. He watched the members of the White Bone Clan and Phantom Clan enter the Ancient Demon Star Area with DeCarlos’ help.

After only he, Emperor Sea Shark, and Shen Ren were left, Shi Yan talked sincerely, “If you hadn’t helped me in Sea of Annihilation, I would have been killed. No matter why you did that, I owe you this favor. I told you to come to Desolate Territory without any harmful intentions. You’re struggling to live in the Sea Domain of Nihilicity, so I think you should go to Desolate Territory and try your luck here. I will try my best to give you a great encounter!”

“What kind of encounter?” Emperor Sea Shark asked skeptically.

“You will know when it arrives.” Shi Yan smiled mysteriously.

Emperor Sea Shark didn’t ask further. He nodded and stepped into the Ancient Demon Star Area with Shen Ren.

...

Inside a cluster of thick darkness arose the fierce sounds of soul collisions. It seemed countless ghosts and departed souls were fighting, tearing each other in there!

Pu Tai and his warriors surrounded the Ancient Demon Continent, observing coldly and waiting for a result.

All of a sudden, starlight beams zoomed over from a very far distance. The starlight carried the earth-shaking aura and piercing energy. It was a formidable raid of shooting asteroids!

Thousands of mountain-like, shining asteroids were shooting toward the Ancient Demon Continent.

Pu Tai changed his face and howled, his voice piercing through the blood sea.

Hundreds of Devouring Clan members with dark green skin flew out of the darkness like the beasts. Most of them were at the Incipient God Realm, and several at the Immortal Realm. They all had emerald eyes, showing their savage and brutish nature. Receiving Pu Tai's order, they began to urge their power.

Crimson rivers, erosive mist and smoke, destructive energy waves, icy cold Corpse Qi... A myriad of great, evil powers were conjured!

Many Incipient Extents arose, and the immense snow world blasted and attacked those asteroids.

Pu Tai wore a sinister face. Although his eyes were red, he couldn't hide his excitement. "Shi Yan! You have come finally! Haha, I've asked Uncle Labitte to keep Ming Hao alive to entice you. Although you're late, you're finally here!"

Many warriors who used to depend on Ming Hao, Xuan He, and Frederick, were surrounding Pu Tai today, making him their supreme leader.

Inside the torrential asteroid flow, Shi Yan was standing on a massive rock, his eyes cold and crimson. He looked at Pu Tai, checked him and then talked, "It's unexpected that you've reached the Immortal Realm...Second Sky, not bad! I'm amazed! Seems you've swallowed a lot of energy lately."

Pu Tai also had Bloodthirsty's inheritance and Devour's acceptance. He had mastered the Devouring power Upanishad and the eight great, evil powers. No one could assess the growth of Devouring power Upanishad better than Shi Yan.

Seeing Pu Tai enter the Second Sky of Immortal Realm, he knew that the other had killed many people to gather energy.

Since it was Wederson's body, his God power Ancient Tree was typical. Even though Pu Tai had a profound realm, he still needed to accumulate God power... And, God power, generated by the Devouring power Upanishad, had the Essence Qi of the dead warriors as the main source!

"Shi Yan, you and I have lived together for a long time, I know everything about you. But you, you know nothing about me. So, you can't beat me. You don't have even a single chance!" Pu Tai looked frantic, grinning happily. "I'm going to kill you, then eat your soul and body. I will definitely advance further. Everything you got within your life of hundreds of years will help me achieve my goal! You're the biggest boost for me to become a Territory Ancestor. I have been waiting for you for a long time!"

He had considered Shi Yan a predestined enemy since he found out that Shi Yan had received Bloodthirsty's inheritance, and the real Ring Spirit considered him as Master. He had crossed his heart that he would take back everything!

He had made so many plans. But, Ming Hao got him at the critical moment. Ming Hao had sealed him, and he had almost vanished. He had made up his mind that he wanted Shi Yan and Ming Hao to wither in order to nurture his soul and accumulate energy to reach the Territory Ancestor Realm!

Rumble! Rumble! Rumble!

The formidable, destructive energy came from Pu Tai's body as Bloodthirsty's aura rose and rocketed massively!

The spiral energy expanded from him. As soon as it touched the asteroids, all of them exploded into dust. Pu Tai's eyes were garnet as he used Rampage. The negative moods multiplied crazily, wisps of white smoke fuming out of his pores.

"It's the battle between Shi Yan and me. Right from the start, he and I shouldn't exist at the same time!" Pu Tai turned to his subordinates, talking indifferently, "Only one of us can live! Once one is swallowed, he will complete the other. I am the Young Chief of the Devouring Clan, chosen by the Ancestor. Shi Yan's chosen by Bloodthirsty. It's a predestined battle!"

This was the unfinished battle between Absolute Beginning creature Devour and Bloodthirsty!

Pu Tai had expressed that no other warrior could join this battle. He must finish the battle between Bloodthirsty and Devour that year. It was one of the plans Devour had prepared.

"It's true that they should finish the battle themselves. Master had made a rule that we only have one Master, who has to be born from blood. Unfortunately, he didn't estimate that Devour would interfere with his plans. But, under the given circumstances where Shi Yan and Pu Tai have the same realm, we can just let them do that," Xuan He said with an odd face when he heard the voice echoing around the sea of stars while hiding in an invisible asteroid.

Frederick closed his eyes to sense for a while and then said, "Pu Tai's formidable! Strictly talking, he has inherited everything of Master...not only the Devouring power Upanishad, but also the other eight, evil powers. At this moment, Pu Tai's competence is matched with our Master from that year."

He turned to look at Shi Yan. "Shi Yan got the Devouring power Upanishad and the Death power Upanishad, but he hasn't cultivated the rest. Moreover, Wederson's body, which Pu Tai has possessed, is created by our Master's bones. He's more like our Master, and our Master was invincible at that time. Are you sure we shouldn't interfere with their battle?"

Hiro, Montecie, and Gay heard the conversation between Xuan He and Frederick, then asked for more details. Hiro and Montecie were surprised, but they looked more interested. Montecie said, "They're both at the Second Sky of Immortal Realm, and they represent Bloodthirsty and Devour. It's gonna be awesome! I'm eager to see the result!"

"With the powers of Devouring power Upanishad, if Pu Tai kills Shi Yan, he will get everything Shi Yan has!" Xuan He pondered and then said, "In the same manner, if Shi Yan kills Pu Tai and refines him, he will get everything Pu Tai has!"

Pausing for a while, Xuan He hissed, "...including the other power Upanishads!"

Chapter 1484: The battle that lasts 10000 years...

"Pu Tai, Pu Tai...Turns out he's Pu Tai..."

Montecie looked at the dark area above the Ancient Demon Continent. Pu Tai wore a ferocious face, his eyes blood-red. A bloodthirsty aura emitted from his body, creating the infinite blood sea of the Netherworld. Even though they were too far away, she could still perceive his aura.

Hiro from the White Bone Clan pulled a stern face, "Yeah, it's unbelievable!"

"You...know Pu Tai?" Xuan He was surprised.

"Pu Tai's the Young Chief of the Devouring Clan. He used to be an extremely outstanding warrior among the juniors in the Sea Domain of Nihility. People expected him to break through to the Territory Ancestor Realm within ten thousand years. When Pu Tai debuted, his fame was immeasurable. Yerburch, Ling Mei, and even Mei Ji, weren't as talented as him."

Montecie threw a glance toward Mei Ji.

Mei Ji nodded, her charming face worried. "Pu Tai used to be very prominent. But hundreds of years ago, the Devouring Clan announced that he had fallen into bedevilment while cultivating...He was gone. At that time, Pu Tai was at the Third Sky of Immortal Realm, which was one realm higher than me. Many clans felt happy over the other's calamity. I did feel relief as well."

"Turns out he wasn't dead because of bedevilment. They had sent him to Desolate Territory in order to stay lowkey. No wonder why the Devouring Clan didn't look gloomy or mourned over his death. When I got the news, I vaguely thought that Pu Tai was still alive. Since he hadn't shown up in the Sea Domain of Nihility for hundreds of years, we slowly believed it was a true story." Mei Ji told them about Pu Tai's profile. "Pu Tai came here with his soul. His soul had reached the Third Sky of Immortal Realm, but he had to cultivate again with the new body. Although he looked like he is only at the Second Sky of Immortal Realm, he can use the power of a Third Sky of Immortal Realm expert."

She reminded Xuan He and Frederick about Pu Tai's intimidation in the past, telling them that he was stronger than what they thought.

"No wonder why Pu Tai could kill my brother and swallow the two Ring Spirits. Xuan Shan and the Ring Spirit couldn't resist a soul at the Third Sky of Immortal Realm," Xuan He remembered the sad stories, feeling dejected.

"Yeah, Pu Tai isn't ordinary. But... Shi Yan isn't any worse. You're confused because you are concerned." Montecie beamed, tiptoeing to pat Mei Ji's shoulder, which made her look funny. "Silly little girl, Shi Yan has the Devouring power Upanishad and the Power Upanishad Symbol Tower. Even I can't see through him. He's not ordinary either. You're too worried. They're going to have a fair and equal match."

Xuan He, Frederick, and Adele saw her move, not knowing whether to cry or smile.

She was around 1.2 meters tall, a little cutie; on the other side, Mei Ji was a sexy grownup. When she patted Mei Ji's shoulder to calm her, it looked really awkward.

"Yeah, you're right, Grannie. I'm just too nervous," Mei Ji pulled herself together, smiling embarrassedly. She slowly calmed herself down.

Grannie?

Xuan He and the others gawked as if their eyeballs were about to fall out. They eyed Montecie and felt that their cognition was distorted.

"Stay silent and watch the amazing game!" Hiro sounded excited.

People then focused back on the fight.

Swoosh! Swoosh! Swoosh!

So many shadows came from different corners of this star area. Battleships, war chariots, and flying carriages gathered like black clouds...

Pu Tai's roaring and howling thundered, reverberating around the star area. He secretly ordered his subordinate forces to come and prepare for the bloody war. At this moment, tens of thousands of forces that had submitted to the Bloodthirsty Force and worshipped Pu Tai as their new Master had arrived.

Those people came from the forces under the Imperial Dark Tribe, the Immortal Demon nomads, and even the forces Ming Hao used to control in the dark.

The experts of many forces were subdued during Pu Tai's one hundred years here. They worshiped the Absolute Beginning creature Devour and became Pu Tai's loyal servants.

Tens of thousands of massive battleships and war chariots shot fast. The bone flying-bird war chariots looked so real as they zoomed over from the big life stars. Millions of warriors stood on the giant battleships with super powerful auras. They anchored around the Ancient Demon Continent like clouds of locusts.

They defended the Ancient Demon Continent tightly, protecting Devour while it was eating the Ancient Demon Continent. It was all because Devour was their master now!

Xuan He, Frederick, and Adele paled when they saw the familiar faces, their eyes sparkling with ruthlessness.

They used to be their fellows, their loyal troopers. But now, they were the traitors. Looking at them, Xuan He, Adele, and the others understood the God Lord's begrudging bitterness. The sour feeling on getting rejected was like the everlasting strong wine in their hearts that they couldn't accept.

"Well played! It has just been one hundred years and you have gathered so many forces. In terms of ruling, you're better than me." Shi Yan hovered inside the rapid torrent of asteroids as he continually gathered energy. Just like Pu Tai, he wasn't hurried to attack. Shi Yan watched him roar and howl, sending the call for war, as well as so many incoming battleships.

"If you dare to come here, I'm sure you're well prepared as well." Blood lingered in Pu Tai's eyes. His line of sight zoomed across the immense space to where Xuan He and Frederick were hiding. "Although they're concealing the aura, I can feel them. Apparently, it's not that you didn't prepare anything."

"Master!"

"Master!"

"Master!"

The warriors at profound realms on the majestic battleships around the Ancient Demon Continent bowed toward Pu Tai respectfully, humbly waiting for his order.

Pu Tai curled his lips, pointing at Shi Yan while laughing. "He's Shi Yan, Bloodthirsty's heir. He's also the Master Ming Hao, Xuan He, and Frederick have acknowledged! Today, Ming Hao's confined. He will be killed at any second. Xuan He and Frederick are around as well, probably. I ask you to come and see who is the real Master!"

Snorting, Pu Tai thundered, "This battle was predestined right when I came to Desolate Territory. No one is allowed to interfere with this battle between us!"

"Yes, sir!"

"Yes, sir!"

"Yes, sir!"

The experts on the battleships included the elders of the Immortal Demon Clan, the eccentric lords of the Imperial Dark Tribe, and the experts that used to follow Ming Hao. They all had a vague mark on their foreheads, which resembled a black hole!

It was Devour's crest!

Within one hundred years while Shi Yan and the others were away, those people had been subjugated by Pu Tai, becoming Devour's most loyal servants.

"Come fight me!"

Inside the asteroid current, Shi Yan's imposing aura rose. He laughed crazily as billions of starlight beams were shelling on those massive asteroids. The rocks become sparkling and transparent, with electric beams moving around. Their energy surged and emitted as if they wouldn't drain even after one billion years.

"Get out here!"

Pu Tai's eyes were crimson, his face frantic. He rose his hands toward the Dark Abyss. It seemed like he had a hand in the void that could pull the whole sky down.

Rumble! Rumble! Rumble!

The earth-destroying explosions arose from the Dark Abyss. A massive blood sea emerged from the darkness. Follow the blood sea were the islands, each of which had terrifying energy fluctuations. Those energies belonged to the eight great, evil power Upanishads, including Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi!

"The islands of the great eight inheritances in the blood sea forbidden land!" Xuan He screamed ear-piercingly.

Frederick also discolored in fright. "Indeed, he has fused with the Ring Spirit and obtained the entire blood sea in his hands. Turns out the eight islands can work magically like this!"

The Soul Control Island, the Death Island, the Corrosion Island, the Dark Island, the Chaos Island, the Destruction Island, the Despair Island, and the Corpse Qi island were drawn from the darkness, hovering above Pu Tai's head.

Everybody looked and found an endless sea of blood bobbing above his head. The eight islands formed a circle in the blood sea.

Boom!

Another island flew out of the blood sea. It was ink-black, spinning like the massive mouth of a demon that could swallow the entire world!

It was the Devouring Island!

The Devouring Island flew out the last, landing in the center of the circle created by the eight islands, implanting on Pu Tai's crown of the head!

Swoosh! Swoosh!

The negative auras were so thick, and the brutal, bloodthirsty energy was endless like a rapid river that had run for billions of years and would never stop. All burst out of Pu Tai's body, entering the Devouring Island on his head.

Almost at the same time, the eight islands of the eight inheritances had shot out eight dazzling, magical rivers, connecting to the Devouring Island. They seemed to become a single entity, which was the way to perfectly combine the Devouring power Upanishad and the other eight power Upanishads. They looked like an ancient formation from the Absolute Beginning Era, which could trigger the vilest power in this world!

Pu Tai's aura rose continually, and the red hue in his eyes became thicker. The blood membrane appeared on his skin, making a set of natural armor.

At this moment under the blood sea and the nine islands, Pu Tai had shown the power that had greatly surpassed Shi Yan's! If the latter didn't have anything to counter, this battle couldn't last even a moment. Pu Tai would hit him hard and kill him shortly!

Inside the turbulent asteroid current, the surging energy from the asteroids was like a firefly compared to the moon that was Pu Tai's energy. They weren't at the same level anyway.

"Pu Tai's formidable...really formidable!" Gay from the White Bone Clan closed his eyes to sense for a while, talking heavily, "Although he's at the Second Sky or Immortal Realm, that tremendous energy...I'm afraid even a Third Sky of Immortal Realm experts can't manage that. It's lucky that both Shi Yan and Pu Tai haven't reached the Territory Ancestor Realm yet. Otherwise, their battle would shatter this star area entirely!"

Montecie and Hiro also looked solemn. They were startled when they saw Pu Tai's power. They were regretful for ignoring the battle earlier on. Pu Tai was much more powerful than they had estimated. After hundreds of years, Pu Tai had progressed much faster than they had imagined!

Chapter 1485: You're not qualified!

Pu Tai sneered, turning to face the current of asteroids Shi Yan had stopped. The brilliant, diamond-like asteroids suddenly emitted a bright, silver colored light.

Swoosh! Swoosh! Swoosh!

Inside thousands of massive asteroids, furious light rays created by Space power Upanishad were shot out everywhere. Numerous twinkling starlight dots mingled with the silver light. Altogether, they created a downpour like a shattering galaxy from the nine tiers of the sky.

Everybody had a terrible feeling as if the world was about to shatter, and the void about to corrupt. The power of those asteroids was so formidable, as it was the combination of Star power Upanishad and Space power Upanishad.

Pu Tai was attacked by billions of bright silver rays. His face changed immediately. "Can't believe he has merged the Star and Space power Upanishads. Worthy of the heir he had chosen. Too bad...you're too weak!"

As everybody looked at them, Pu Tai suddenly split into two persons, then four, and finally eight! In just a second, there were eight Pu Tai's.

The life magnetic field, God power, and soul aura of the eight Pu Tai's were the same. They jumped, scattering into the eight islands. Instantaneously, the eight islands of the eight evil power Upanishads turned into white bone islands with an endless evilness.

Swoosh! Swoosh! Swoosh!

The blood sea generated a blood-red light which seeped into the eight islands. Pu Tai's bodies enlarged like evil demons and the entire world echoed his arrogant voice. "You have the Star and Space power Upanishads, but I have all eight power Upanishads fused into one. Even Bloodthirsty hadn't reached this level before. How can you defeat me?"

Pu Tai launched his eight power Upanishad, including Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi at the same time. From the Devouring Island, his energy bombarded the current of asteroids.

Numerous souls showed their sharp fangs while the thick Death energy created a bloody hand seal. The Corrosion power Upanishad melted everything; the Dark power Upanishad cut off the Soul Consciousness; the Chaos power Upanishad distorted space; the Destruction power Upanishad destroyed everything; the Despair power Upanishad made people hopeless and helpless, and the Corpse Qi power Upanishad covered them with a dark coldness...

The eight islands of the eight power Upanishads spun like a crazy wheel inside the flow of asteroids, crushing all the rocks in their way.

The bright silver space light column pierced through the eight islands, but it caused no harm.

The Devouring Island in the center of the eight islands turned into a dark whirlpool, continually revolving like the massive mouth of a brutal ghost that was choosing a prey, waiting for the best chance to attack.

Boom! Boom! Boom!

The asteroids exploded, turning into dust. Shi Yan's sea of asteroids shrunk rapidly to the point of disappearing soon. Staying inside the sea of asteroids, his eyes were crimson as he watched the eight islands controlled by Pu Tai crushing his asteroids.

Pu Tai's might was beyond his imagination, and Shi Yan had to try his best. The deep Soul Control power Upanishad allowed Pu Tai to divide his soul into eight, which went to the eight islands to launch eight power Upanishads at the same time. Shi Yan had a terrible feeling that he was against the Eight Great Chiefs all alone.

Crack! Crack!

Parts of a massive blood shield appeared and connected in front of him, with fine, wiggling blood drawings. At this moment, the blood shield was transforming into a blood cloud. A bloody light shot out of the shield, and the blood-dripping sword emerged.

The bloody sword and shield were Bloodthirsty's weapons. Before Bloodthirsty had reached the Territory Ancestor Realm, they were his two fierce and useful weapons.

Shi Yan inherited the blood sword and the blood shield. He had gradually discovered the power of the weapons that could cooperate with his power Upanishads to increase the lethality of the weapons.

The blood clouds drifted toward Pu Tai and the evil eyes on the blood sword opened. A band of bloody light shot out of the clouds, slashing on one of the eight Pu Tai's.

"Ha ha ha!"

Pu Tai laughed crazily. He opened his arms as if he wanted to pull the whole world into his embrace. Unexpectedly, his body then swallowed the blood light and the blood shield.

The Blood Vein Ring on his finger sparkled as if it was calling something.

The blood clouds and the blood sword shook hard in the void as if they were tied to some invisible ropes. They didn't listen to Shi Yan, flying toward Pu Tai.

Just like that, the sword and the shield disappeared into Pu Tai's body!

Right after that, eight Pu Tai's had fierce armor lingering on their bodies. The armor fitted perfectly on him, making his power double.

At this moment, Pu Tai was too intimidating in Xuan He's and Frederick's eyes. Looking at him, they thought that they were seeing Bloodthirsty. It was like Bloodthirsty was using Pu Tai's bodies to come to this world one more time.

The high-pitched, ear-piercing noises like broken strings boomed in Shi Yan's brain, aching his nerves. He had totally lost the connection with the bloody sword and shield.

The two powerful weapons of Bloodthirsty he had controlled were snatched from him, becoming parts of Pu Tai!

"Muahaha...I'm the one who told you about the power of the blood shield and the blood sword. Do you think I didn't do anything to them?" Pu Tai laughed contentedly. "I got three parts of the Blood Vein Ring's Ring Spirit. I know things better than you! Do you know why I wanted Wederson's body? Because Wederson's body and Bloodthirsty's body aren't much different in nature. You've killed him and implanted Bloodthirsty's remains in his body. It's similar to recovering Bloodthirsty's body!"

“My body now is similar to Bloodthirsty. How can you defeat me when you use Bloodthirsty’s weapon? Although they’ve left him for ten thousand years, they still remember his aura. I, the one with the Blood Vein Ring, have all of its secrets. Isn’t it too simple?” Pu Tai mocked Shi Yan for his stupidity.

Then, the blood sword appeared in one of the eight Pu Tai’s hand.

It was the Pu Tai on the Death Island. The blood sword in his hand hacked, and a band of blood light seeming like the ten-thousand-meters long river of Death rolled toward the asteroid current.

Hundreds of massive asteroids exploded; the star and space energies combined couldn’t resist this sharp attack.

“This blood sword and shield aren’t the Absolute Beginning divine weapons. However, Bloodthirsty had quenched them for years. For warriors with the eight evil power Upanishads, it can increase their power incredibly. It’s bad that I didn’t tell you this. You will never be able to use their true powers.” Pu Tai swung the blood sword. The blood bands of light were as sharp as space sabers, cutting many asteroids into pieces.

At this moment, Pu Tai had the upper hand as he continually destroyed the sea of asteroids, consuming Shi Yan’s power.

After dozens of seconds, the sea of asteroids Shi Yan had gathered now had only one left.

Shi Yan sat on that asteroid, his face cold as he saw his asteroids turning into an area of gray mist and smoke. His eyes were extremely and unprecedentedly stern as he said in a low-pitched voice, “You’re bold. Looking at you, I can imagine how formidable Bloodthirsty was in that year. No wonder why Bloodthirsty was invincible in Desolate Territory. Really fierce!”

“It’s good that you understand,” Pu Tai laughed. “Don’t say that I’m hunting you down. I’m going to give you a chance to live. As long as you give me your Life Seal and the second soul that has fused with Desolate, I won’t swallow you all. As long as you worship me as your Master and become our Devouring Clan’s servant, I can assure you’re not going to be obliterated.”

Pu Tai looked at the members of different races around him. “Look at them. They are our servants, but they live very well. They will have a bright future too. Desolate Territory will be one of our Devouring Clan’s territories. They will be our vassals. It’s not something shameful to stay in the shade of the biggest clan in this world. Think about it.”

Listening to Pu Tai’s arrogant voice, the faces of the experts from other territories like Hiro and Montecie were grimaced. Montecie sneered, her eyes so cold. “This arrogant rascal is exaggerating even more than his old man. Seems like once the Devouring Clan conquers Desolate Territory, they will ignite the Great Racial War in Sea Domain of Nihilicity.”

“The Devouring Clan has aimed at the entire Sea Domain of Nihilicity. Desolate Territory is just a step to accumulate energy,” Hiro from the White Bone Clan nodded, his face malicious.

“Pu Tai’s too formidable. He’s overwhelming Shi Yan. I think Shi Yan can hardly resist him.” Emperor Sea Shark frowned. He didn’t know Shi Yan, so he only guessed from the given circumstances. He thought that Shi Yan wasn’t Pu Tai’s worthy opponent.

Pu Tai got the right time, the right place, and the right support. While he was impersonating the Ring Spirit, he had lived with Shi Yan for many years. He had witnessed all the battles Shi Yan had joined and become stronger. He knew about the latter's hidden powers and means.

'Know yourself, know your enemy, and you will win every battle!' Pu Tai had been patient and subtle for many years. He understood Shi Yan clearly, but Shi Yan barely knew him.

Right at the beginning of this battle, Pu Tai had more chances to win.

Montecie and Hiro had a stern face even though they had assumed that Shi Yan could resist Pu Tai. But now their hopes were fading with each passing moment.

"Serve you as my Master?" Shi Yan sat cross-legged on his last asteroid while smirking, "You're not qualified.

"Ha ha ha!"

Pu Tai laughed crazily while shaking his head. His eight clones controlled the eight islands, forming an octagonal formation and pressing on.

A terrifying intimidation that came from the very dawn of the world and could bury the space came from the eight islands. Such a formidable pressing force had discolored even the experts at Hiro's and Montecie's levels.

The Devouring Island in the center turned into a soul vortex, like a massive mouth facing Shi Yan.

With that, an enormous soul sucking force was generated!

Shi Yan's soul altar, under the effect of the sucking force, slowly arose from his body. He couldn't move to stop the other from taking his soul altar out of his body.

"The islands of the eight great power Upanishads have opened the profound, forbidden technique. Let alone you, even the real Territory Ancestor can't move in this situation. Wait for me to swallow and refine you. Be obedient. Haha...I've yearned for the Space, Star, and Life power Upanishads for years. They should become parts of my power Upanishads!" Pu Tai screamed excitedly.

Chapter 1486: Strength of the Territory Master

The eight islands of the eight evil power Upanishads pressed on Shi Yan like eight holy mountains.

The Devouring power Upanishad in the center still released the terrifying soul sucking force that could devour thousands of souls. Shi Yan's soul altar was slowly lifted off his body, emerging outside.

Shi Yan's two souls appeared. The host soul and the co-soul were like twin stars, flying out first. Following them was a bright galaxy with so many stars moving in mysterious trajectories. It was his Incipient Extent.

Under his Incipient Extent was the tier of power Upanishads. The black hole was the Devouring power Upanishad, while the brilliant nebula was the Star power Upanishad. The crystal globe contained a

sparkling symbol was the Life power Upanishad and the Life Original Symbol. Shi Yan also had a strange mirror, which had reflected so many different spaces; it was the Space power Upanishad. Next to it was an icy gray layer, which represented the Death power Upanishad.

So many flames separated from the section of power Upanishad under the co-soul; they were the heaven flames.

The Sea of Consciousness slowly extended. Inside the Sea of Consciousness was a small soul pond. The soul pond stored the pure Dark Energy, the true soul energy. However, it occupied a tiny part of the Sea of Consciousness.

Shi Yan's soul altar was drawn out of his body, and was exposed slowly.

Looking at the bright galaxy, the onlookers in the Ancient Demon Star Area were shocked. They smacked their tongues in surprise.

His Incipient Extent had nothing at the beginning, but now, it looked really similar to the sea of stars in any territory. Seemed like it could become a suitable world for creatures to live in.

Even the Territory Ancestors with a territory like Hiro and Montecie were so thrilled that their hearts beat frantically when they saw that immense galaxy territory. They exchanged looks and saw the disbelieving looks in each other's eyes.

Shi Yan's soul altar was sucked and exposed. His body was controlled, and he couldn't move.

Seeing that the result of the battle was determined, Pu Tai was more excited. Eight clones of his gathered, his real body reappearing. The eight islands, the eight holy mountains, continued to emit the surging evil power, subduing Shi Yan. Pu Tai's real body came next to the black hole.

He came personally to circulate the energy, focusing on taking Shi Yan's power Upanishads in his soul altar.

In this world, it seemed like no force could stop him from swallowing Shi Yan's soul altar.

Shi Yan had lived in this world for hundreds of years. He was equipped efficiently to pioneer. He had used blood to wash himself and reach the Second Sky of Immortal Realm. With the power Upanishads he had, many people thought that he was Bloodthirsty's successor, the one who could turn a new page in the Bloodthirsty Force's history.

No one had ever thought that he would die that way, being killed by his most favorite Devouring power Upanishad. The soul hiding in his ring was about to melt him down.

Inside the immense Ancient Demon Star Area, an evil energy filled the entire sky. That evil energy arrived at each corner of the star area, coming from Pu Tai; to be precise, it came from his devouring black hole!

Shi Yan's soul altar approached the black hole; both of his souls were about to be sucked in.

Mei Ji shivered. She couldn't stand it anymore, and wanted to take action.

"He has a chance!" Montecie hissed all of a sudden.

Everybody looked shocked. So many eyes were gazing at one thing!

It was the heaven flames in Shi Yan's soul altar. Those flames used to be scattered. However, at this moment before Shi Yan's twins souls entered the black hole, billions of flames with different auras had become one, turning into a mass of flame as big as an ox head!

The burning flame released a pure soul energy; it was the purest Dark Energy!

Shi Yan's co-soul suddenly immersed in it, sinking into that cluster of flame.

Shi Yan's body was so stagnant that he couldn't even move. However, in just a blink of an eye, he got rid of the constraints. The Life Ball of Life power Upanishad and the river of the Star power Upanishad changed their locations, moving underneath Shi Yan's co-soul. Under everybody's gaze, Shi Yan's co-soul and the flame merged into one.

The surging Dark Energy emitted from Shi Yan's co-soul had suddenly triggered the Star and Life power Upanishad!

Thud! Thump! Thud! Thump!

So many thick and low sounds pounded people's hearts like drumbeats. Everybody was startled, trying to find the source of the noise.

This kind of noise was like the sound of the soul that could run directly into their souls, which their ears couldn't hear. That was why they couldn't find its source.

"It's the nucleus of the stars. They are shaking!" Hiro was frightened. It was the first time he had screamed, "The nuclei in all the stars, solar stars, lunar stars, and life stars of the Ancient Demon Star Area are stimulated. They seem about to receive life and cognition shortly!"

Xuan He, Frederick, and the others were baffled. They knew it was so strange, but they didn't know what would happen when the stars' nuclei vibrated.

They all looked at Hiro, waiting.

"This Ancient Demon Star Area belongs to Desolate Territory. Everything in this area, from a speck of dust to an entire planet was created by Desolate." Hiro looked at those who were so baffled, talking with a bitter smile. "This place's Desolate's territory. Every matter here was created by Desolate..."

"I still don't get it," Xuan He screamed.

"Shi Yan's fused with the Grace Mainland! His co-soul and the Origin of the Grace Mainland are one body. Now, all the heaven flames have become the soul flame. The Origin is actually made of Dark Energy. It's Desolate's wisdom...It's Desolate itself!" Montecie suddenly got it as she turned to look at Shi Yan, talking in fright. "Shi Yan got one of Desolate's clones, and he's one of the Masters of Desolate Territory. He can control everything in Desolate Territory! It's his world...He can control everything!"

Xuan He, Frederick, and the others were panic-stricken as they finally understood. It was like the Incipient Extent they had. In that Incipient Extent, they were the sole God, the principle!

This was inside Desolate's territory. In this place, Shi Yan was one of the true Gods, the principle and the Great Path of power Upanishads!

What kind of power could bind him, the Master of this territory, in his own territory?

Thus, the seal created by the holy mountains of the eight evil powers had been lifted shortly. Shi Yan regained his mobility; he wasn't bound anymore.

At the same time, all the warriors in the Ancient Demon Star Area screamed in fear, their faces pale.

They saw a spectacular scene they would never forget!

The bright suns and moons of the Ancient Demon Star Area rolled and marched toward them together with the life stars they had dwelled and cultivated on! They were all the real stars, the foundation of the Ancient Demon Star Area, mothers of countless creatures!

Many life stars had warriors and ordinary people living and working on them. People with keen eyes could see the desperate faces on them as they were watching the last day of this world, the apocalypse!

Thousands of massive suns and moons rolled torrentially like a rapid flood current. Billions of lives on so many life stars were shaken as the nuclei inside their planets had affected their souls by sending strong vibes!

Stars were seen everywhere; this spectacular scene would never appear in anybody's imaginations or dreams!

Thump! Thump! Thump! Thump!

All the planets seemed to have a heart which was throbbing vigorously. The ordinary people living on those planets were screaming and crying. They deemed that it was the wrath of their God to destroy this world entirely. The warriors that couldn't get rid of their planets were desperate and fearful, as they knew they couldn't avoid the doomsday.

"Not good!" Pu Tai was panicking for the first time. When he saw all the planets of the Ancient Demon Star Area storming, he finally knew what was going on.

Shi Yan had completely fused with Desolate's clone and become the master of this territory. He now was one of the Masters who could set up rules!

At this moment, Shi Yan was still Shi Yan, but he had an immortal, archaic aura. It was Desolate's aura, the actual Master of this Territory!

"Ptui!"

Under the terrible pressure when the stars moved, Pu Tai couldn't help but spurt out blood. The armor on his body had many fine cracks as if it would be shattered at any minute.

"Boom!"

A massive life star that was as big as the Grace Mainland accelerated and bumped into the Soul Control Island.

With that, the Soul Control Island was pressed to crack and shatter!

So many souls flew out from the island. Unexpectedly, Ming Hao's souls were there too. It was Ming Hao's soul clones sealed on the island. When the island was broken, they were finally released.

Ming Hao's soul clones exploded and then congregated, creating his form magically. Almost at the same time, Ming Hao, who was confined in the endless darkness, could feel that; he couldn't help but laugh crazily.

Amidst his laughter, shadows of Ming Hao's souls disappeared, getting rid of the darkness. With the bonds between the souls, his confined souls could gather toward the souls outside.

In the next instant, Ming Hao saw the wonder that could destroy the entire star area.

Thousands of planets were spinning and barging; those planets had billions of lives. As the creatures there knew that the world was about to be destroyed, they were crying and screaming, praying for their God to save them. Ming Hao could feel their fears and despair.

Ming Hao didn't know what was going on. His eyes moved away and he immediately found Shi Yan with starlight blooming on his body.

Seven hundred and twenty acupuncture points in Shi Yan's body were shining like stars, moving in the star trajectory on his body. The movement of those acupuncture points seemed to be the ringleaders that had stimulated the stars in Desolate Territory!

Boom! Boom! Boom!

Seven massive stars zoomed over, precisely hitting the seven islands that represented the Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi power Upanishads. Compared to the real planets, those islands were like a grain of rice standing by a big ball, crushed easily.

The seven islands shattered thoroughly. Looking at the islands of the great inheritances being crushed into powder, Ming Hao gawked as if his eyes were about to fall off his sockets.

He was the Soul Control Chief, so he understood the mysteries and intimidation of those islands. Anyway, no matter how strong they were, how could they resist real planets?

As the seven islands were smashed, countless mountains and lands collapsed on the planets. Billions of ordinary people were slaughtered, their souls vanishing shortly.

They had lived on their planets for so many years. They had grown crops and bred cattle, as well as having cultivated there. Many of them had never left their lands once in their lives. They were so bitter because they couldn't control their own lives, all vanishing from this world just like that.

The eight islands were broken apart, and Pu Tai's armor turned into powder. He was gory, and his eyes were still bloodthirsty. However, his aura was reduced greatly.

He hurried to retrieve the black hole, not daring to linger for a second.

"Space confine!"

Shi Yan looked mindful while hovering in the void. Countless stars were spinning wildly around him. His eyes weren't red, as he looked like a glacier that had been frozen for tens of thousands of years. He just pointed at Pu Tai indifferently.

The void of the Ancient Demon Star Area seemed to become his invisible hand, squeezing Pu Tai's body!

Pu Tai couldn't move anymore!

God of Slaughter

Chapter 1487: The reversed flow of time!

At this moment, all the planets and all beings on them, like plants, creatures, thunder, and lightning, in the Ancient Demon Star Area were happy as Shi Yan was happy. They would be touched if Shi Yan were touched, and they would be sad as Shi Yan were as upset. Especially, they would rampage if Shi Yan fell into his rampage phase.

He was this world; he was the representative of everything; he was the nature of natural principle.

It was the real power of the Territory Master!

Pu Tai in this star area was inside Shi Yan's prison. How could he escape the Master's claw?

The atmosphere on the stars changed into a hand of a giant God, squeezing Pu Tai maliciously!

Crack! Crack! Boom!

Pu Tai's body wasn't as tough as Bloodthirsty's body from that year. The massive claw created by the spirit of thousands of creatures had squeezed him into pieces easily.

His bones pierced through his skin, bleeding terribly. He looked like a big hedgehog that was beaten pathetically.

The incident happened shortly. Shi Yan, who was bound and about to be swallowed, had overturned the situation at the critical moment, now seizing the upper hand.

The right time and right location had changed. Shi Yan could now control the entire heaven and earth in his hand. How could Pu Tai defeat him?

"Who are you? Are you still Shi Yan? You're Desolate! Shi Yan, you're a coward. At the critical moment, you are willing to give up yourself, handing yourself into Desolate's hand to deal with me. It's not a proud defeat!" Pu Tai's grunt came from the gory chunk of meat—he was completely deformed.

"I am always me."

The eight colossal planets hovered in the void, moving continually. They looked like eight ancient Gods protecting Shi Yan, assisting him in subduing this entire world.

He floated under the eight planets, coldly looking at Pu Tai. His eyes suddenly looked deep and mysterious as if they had become two deep ponds that could make anybody sink in them.

Swoosh!

The black hole arose from the crown of his head. It was just as big as a grain of rice at first, but in just a blink of an eye, it swelled up into a pitch-black cave. Just like a massive black diamond, it came and implanted into Pu Tai's head.

Sizzle! Sizzle! Sizzle!

The Devouring power Upanishad was activated!

Waves of powerful suction force arose from the black hole. Pu Tai was now a mess of flesh as his soul altar was drawn out of his head slowly.

History repeated terrifyingly!

Less than fifteen minutes ago, Pu Tai had used the same move to deal with Shi Yan. And now, Shi Yan had followed his way, using the Devouring power Upanishad to seize his soul altar and obtain his spirit, power Upanishads and God power...everything Pu Tai had.

"Oh my God! It has changed so fast!"

"He can move the stars and control the universe. What kind of power is it?"

"It's the power of the Lord of all skies!"

"Pu Tai is going to be doomed now!"

"No! He's not! It's still there..."

The warriors surrounding the Ancient Demon Continent were frightened. They discussed, their eyes gazing at the Dark Abyss.

Billions of years had passed, and the legend about the Absolute Beginning creature Devour had never faded. They said that it was the Original God of Destruction and Evil. The meaning of its existence was to destroy all life stars, whole of the universe. Legends said that the end of the Absolute Beginning Era was related to this Original God of Evil.

Today, Devour was awakened, hovering above the Ancient Demon Continent and using the Devouring power Upanishad to refine one clone of Desolate. He wanted to accomplish his plan of invading Desolate.

He was the Creator, the Ancestor of the Devouring Clan. Pu Tai was here under his direction. Would he just watch and let Shi Yan refine Pu Tai? Would he be willing to let Bloodthirsty defeat it one more time?

Everybody thought that Devour wouldn't just watch Pu Tai die. They all focused on the Dark Abyss as they wanted to see what this creature from the Absolute Beginning Era would do.

A dark, cold soul energy was emitted from the Dark Abyss. The Dark Abyss was like an evil creature from the ancient time that slowly rose up and stretched its body after a long slumber. The Dark Abyss then fumed a large amount of black smoke, diffusing around...

Sizzle! Sizzle! Sizzle!

The followers of Devour, who were nearest to the Ancient Demon Continent, had their bodies and souls dissolved as they hadn't had the time to recognize what had just happened.

Their bodies and souls became wisps of smoke, entering the clusters of black smoke. Their tragic, instant deaths made the abyss expand faster!

After less than a minute, millions of warriors around the Ancient Demon Star Area were dissolved, becoming a part of the Dark Abyss. As that Absolute Beginning creature was the grandmaster of the Devouring power Upanishad, it could swallow even the world. It was effortless to melt the creatures that had followed it.

"ARRGGHHH!"

"Get out of here! Quick!"

"Gosh, it's killing us!"

"It's crazy!"

The warriors from different clans that had submitted to Pu Tai and Devour, the creatures living in this Desolate Territory, screamed desperately while trying to run away for their lives.

Boom! Boom! Boom!

All of a sudden, the black hole mark on their foreheads, which they had used to receive the energy, shattered!

The heads of warriors who wanted to run away fell off their bodies, exploding like watermelons. Then, their headless bodies were covered by the Dark Abyss. All of them, including the power from their bodies, souls, and soul altars, had been merged into the Dark Abyss. Terrifyingly, the Dark Abyss continued to expand!

A piece of the abyss that looked like the cold sea came to Shi Yan, attempting to draw him and Pu Tai into the abyss altogether.

At this moment, Shi Yan was using the Devouring power Upanishad, trying to refine Pu Tai.

Looking at the Dark Abyss coming close, he knew it was the wrath of Devour, the Absolute Beginning creature. In just a short time, Devour had absorbed the power from all of his followers. His body expanded, overshadowing the entire star area.

As soon as the Dark Abyss reached the stars in the Ancient Demon Star Area, Shi Yan lost the control of those stars instantly!

Devour wanted to swallow and refine the Ancient Demon Star Area entirely!

Seeing millions of warriors killed and billions of ordinary people dead because of his attack on Pu Tai, his eyes were calm and indifferent.

He finally understood that in the eyes of the existences at Devour and Desolate's level, the lowly creatures like him and his friends were just like tiny ants. They would never care about their lives or deaths.

Just like butchers killing the cattle to feed, they had slaughtered the members of different races to achieve their goals. Desolate and Devour weren't different from each other in this aspect. They didn't mind the lives of ordinary people.

Because they got the power to create new lives and new creatures, they didn't need to care!

Devour was now the Dark Abyss, which was reaching further and further; it was really close to Shi Yan. However, at this moment, he had to concentrate on swallowing Pu Tai. He didn't have extra effort to resist Devour.

Right at this moment, he pitched his voice, "I've crossed thousands of miles to the Sea of Annihilation to invite you here not to give you a chance to watch the fun! I got you here to give a hand at this moment. What are you waiting for?"

A gray-brown asteroid flashed amidst the current of asteroids. Montecie, Hiro, and Gay turned into the outer space streamers, heading toward the Dark Abyss.

"Montecie! Hiro! Can't believe you're here!"

Inside a thickly dark area, Forefather Labitte of the Devouring Clan screamed in fright. He was enraged on seeing Shi Yan control the entire world and Ming Hao escaping, and was startled when he saw Montecie, Hiro, and Gay.

Labitte felt uneasy, finding the situation getting out of control. Montecie and Hiro had added more variables to Desolate Territory at this moment. Their variables could make the Devouring Clan's ten-thousand-year plan a big failure.

"It's just Labitte, who cultivates Dark power Upanishad. We're still lucky that Edgar isn't here. Or else, it'd be more trouble." Seeing him, Montecie exhaled in relief. She knew that at the First Sky of Territory Ancestor Realm, Labitte couldn't stop them.

"Gay! You deal with Labitte!" assigned Hiro.

"Okay!" Gay of the White Bone Clan and Labitte were both at the First Sky of Territory Ancestor Realm. He nodded on receiving the order.

"Absolute Beginning creature Devour, in the Absolute Beginning Era, you were already infamous. Your mission is to destroy and terminate. You had contributed to the end of the Absolute Beginning Era. Anyway, it's different now. In this new era, you're outdated. You will die one after another, as it's predestined. It's the rule of development, the rule of time, history, heaven and earth, something that no one can change..."

Montecie's petite body released an immense, white moonlight. The void behind her appeared like bands of streamers as if time was flying fast. Behind Montecie, time seemed to reverse as the ultimate change of heaven and earth!

It was utterly strange when so many shadows of crowd Devour had killed previously suddenly emerged like a rewind movie. The extending Dark Abyss shrunk fast above the Ancient Demon Continent!

Time in that area suddenly reversed, and countless wisps of gray smoke and mist fumed out of the Dark Abyss. It was the heaven and earth energy of the Ancient Demon Continent Devour had taken in previously.

At this moment, Devour spat out parts of the Ancient Demon Continent he had swallowed!

It was what had happened dozens of years ago!

Montecie looked around eleven or twelve years old, but she had mastered the Time power Upanishad, just like Xia Xin Yan. However, since she was at the Territory Ancestor Realm, she could even reverse time!

Although Shi Yan had fused with the Origin of the Grace Mainland, one of Desolate's clones, he was aghast.

He understood that Montecie could only make the energy reverse when she rewound time; she couldn't recover lives that were lost. The shadows of the dead warriors were created with energy, so they didn't have a soul or intelligence.

Montecie could reverse time to distort the energy circulation, but she couldn't do that to save lives. No matter what, this power Upanishad was really mighty.

God of Slaughter

Chapter 1488: Swallow!

The time-reversing power had applied only on Devour, causing it to spit out all kinds of energies it had absorbed. The pure heaven and earth energy from the Ancient Demon Continent it had nibbled was released as well.

It was an extremely formidable power Upanishad!

Everybody watched from a far distance and found many illusory shadows by the edge of the Ancient Demon Continent.

Those people that were killed reappeared without the souls or intelligence under the effects of Time power Upanishad, as they were created with pure energy.

Shi Yan was nearest to that area, and he had mastered Devouring power Upanishad. His eyes brightened, talking to Montecie, "Thank you!"

He then immediately devoured the energy that had just returned.

Countless crystal light balls, which were manifestations of energy, flew into the black cave like a sprinkle. Shi Yan had swallowed them all.

"You're welcome. This amount of energy should be enough for you to awaken the two precursors of the White Bone Clan. I'm just doing you a favor." Montecie giggled while zooming over the Dark Abyss like a dark shadow. Behind her, the current of Time was still rising high, distorting the rule of time in this world.

Xuan He, Frederick, and DeCarlos looked at the magnificent bands of light from the distance, their scalps turning numb. Montecie in the shape of a little girl had frightened them greatly.

“Power of Time! It’s the real power of Time! My master had searched for a long time, but he had never seen the real power of Time. I can’t believe I’m lucky enough to witness it today...”

DeCarlos had cultivated Space power Upanishad to the Second Sky of Immortal Realm. He looked shocked when he recalled something. “No wonder why she had eyed Xia Xin Yan strangely as soon as that little girl came to the Grace Mainland. Turns out that’s the cause. No wonder her eyes got brightened!”

When Montecie had arrived in the Grace Mainland, Xia Xin Yan was there as well. At that time, Montecie had scrutinized the latter just like treasure lovers looked at rare gemstones, her eyes sparkling.

Montecie had concealed well, not showing anything. Perhaps, she was waiting to take the next step after the situation in Desolate Territory was stabilized.

But, DeCarlos had paid attention. He had secretly helped Xia Xin Yan reach the Incipient God Realm by giving her pure energy, and did have a plan...

But, he didn’t know why Montecie had laid her eyes on Xia Xin Yan. Although he was at the Second Sky of Immortal Realm, he couldn’t know about Montecie’s realm. Thus, he was confused all the time.

But now, he finally got it.

In this vast galaxy, the warriors cultivating Time power Upanishads were even lesser than the ones cultivating Space power Upanishad. Sometimes, the entire star area didn’t have even one expert using this power Upanishad.

It was because the Time power Upanishad was very magical. There was no book or record showing the way to obtain and cultivate this power. Each warrior with this power Upanishad often had extremely complicated background and encounters.

Not many people could understand the Time power Upanishad. The one who could cultivate it to the high realm were as rare as unicorn horns or the phoenix feathers.

Montecie was from the top echelon of the Phantom Clan, but she hadn’t found any member with the talent of learning Time power Upanishad in her clan. She was worried because she couldn’t find a successor. She had wandered and sought in many territories, but still got nothing.

Unexpectedly, after arriving at the Desolate Territory this time, the moment she landed on the Grace Mainland, she immediately found an expert who cultivated Time power Upanishad at the Incipient God Realm. Moreover, she was a beautiful young lady; nothing could be more perfect. At that moment, Montecie had made up her mind. Even if she had to steal her, she had to bring her away.

She thought that even though she couldn’t get anything from this trip to Desolate Territory, as long as she could take Xia Xin Yan, it would be worth it all already.

“Because of the everlasting inheritance it is, I should have thought about it,” DeCarlos looked at Montecie, his face bitter, “Seems like I can’t fulfill my teacher’s wish. How can I be compared to Montecie. Sigh, never mind...”

DeCarlos’ teacher was defeated by Bloodthirsty, and he died not long after that.

Before his master died, he had found a secret technique. He assumed that if someone could combine the Space and Time power Upanishad, he could seal the entire world completely!

He could seal every creature!

He had imparted DeCarlos that secret technique and hoped that he could test it. Unfortunately, DeCarlos didn’t cultivate the Time power Upanishad. He couldn’t check or practice that technique to see if it was possible or not.

When he found Xia Xin Yan, he wanted to give her his master’s secret technique. Although he couldn’t cultivate the Time power Upanishad, he could teach her Space power Upanishad. He hoped that Xia Xin Yan could cultivate both Space and Time power Upanishad one day so that she could test that theory and technique, and finally fulfill his teacher’s wish.

But now, seeing Montecie’s performance and her intention of making Xia Xin Yan her successor, he knew that he would never become Xia Xin Yan’s teacher.

“Hiro!”

Montecie screamed from the Dark Abyss as she was maintaining her time reserving power to wear out Devour. She wanted to use Time power Upanishad to pull Devour back to the stage he was wounded so badly that he had to stay dormant. Then, Hiro, the expert cultivating Metal power Upanishad who was famous for his destructive power, would crush Devour into pieces!

Hiro of the White Bone Clan had a snow-white bone body, shining like a star in the Dark Abyss. The rays of light from him carried the extremely destructive power of metal in the world. They could pierce through and explode everything, including the Absolute Beginning creatures.

His rays of starlight were created by his soul energy and God power. The pure soul energy with the support from the God power could obliterate the entire territory!

Although Shi Yan was swallowing the energy from the dead creatures, he could feel the Ancient Demon Star Area like a sheet of fabric pricked by sharp knives. Hiro’s sharp metal power was so formidable!

Montecie and Hiro were two of the ten Great Territory Ancestors of the Sea Domain of Nihilicity. They were the peerless existences in the Sea Domain of Nihilicity, the proud demons, from a certain aspect. As they had joined hands, Devour was subdued.

“If Ancestor hadn’t been wounded after years of fighting against Desolate, how could you have been his match? It’s really bad that Edgar isn’t here. Damn it!” Labitte of the Devouring Clan was fighting Gay. He was so impulsive when Devour was subdued by Montecie and Hiro, that his soul was about to shatter.

He knew that if Devour finished refining the Ancient Demon Continent and the God-blessed Mainland, he could recover half of his power. And, if he could take in the Grace Mainland and Desolate, he would reach his peak once again, maybe even leap up!

At that time, Devour could rule over the entire Sea Domain of Nihility, making all creatures and races submit to him!

The other six clans couldn't resist Devour, and would have become Devour's, or the Devouring Clan's servants!

Unfortunately, Shi Yan had the guts to cooperate with Montecie and Hiro, bringing them to Desolate Territory to destroy the plan the Devouring Clan had spent a lot of efforts, and even deaths, to prepare during ten thousand years. It made Labitte outraged.

He had made up his mind. He would sacrifice his life to destroy Shi Yan and release Pu Tai. Then, Pu Tai could use his soul power to connect with the forbidden land of the Devouring Clan to bring Edgar here.

Right at the moment he had decided to do that, Mei Ji and Emperor Sea Shark had seen his motivation. They didn't watch anymore, flying toward him to join Gay. They all attacked Labitte, giving him no chance to self-detonate and kill Shi Yan.

The Dark Abyss above the Ancient Demon Continent that seemed like the sea of jet black clouds was shrinking. Beams of energy dripped from the dark clouds like lines of rain falling onto the Ancient Demon Continent. The dried, dead trees on the continent sprouted, and the grass began to grow on the cold, barren lands.

Everything was revived; the Ancient Demon Continent that was about to be swallowed like an ancient creature facing death was rescued.

The Dark Abyss—Devour, was shrinking as if it was about to stay quiescent.

At this moment, Pu Tai's soul altar was finally drawn out.

Pu Tai's soul altar was magical. Under his host soul was the Incipient Extent which looked like the Dark Abyss. However, it had a viscous, vast blood sea where floated nine islands. Those islands had the sacrificial altars that represented the eight evil power Upanishads and the Devouring power Upanishad.

Under the Incipient Extent was the tier of power Upanishads, which looked even stranger. It had nine masses of air, the appearances of the great power Upanishads.

Underneath was the Sea of Consciousness which had a soul pond containing the Dark Energy. That soul pond was bigger than Shi Yan's.

"Get in!"

Pu Tai's soul altar entered Shi Yan's Devouring power Upanishad. With a cold face, he rose his hand to snatch.

Pu Tai had become a mess of bleeding flesh. A ring flew out of that bloody thing, returning to Shi Yan's hand. It was the Ring Spirit!

"OOOOUUUU!"

A beast roar suddenly reverberated from nowhere and a wild beast appeared by Pu Tai's body suddenly that looked like a ferocious flood dragon. It was several hundred meters long, covered in rigid scales. This beast had an enormous amount of life energy!

It emerged all of a sudden as if it had torn the space to come here, and then swallowed Pu Tai in just one bite.

That beast had a pair of neon green eyes which were gazing at Shi Yan. As the latter gazed back at it, it slowly disappeared into the void.

The beast came and swallowed Pu Tai, then left shortly. All the warriors on the scene were shocked.

Pu Tai had Wederson's body, which had a lot of Bloodthirsty's remains. It had contained all of Bloodthirsty's essence. Shi Yan hadn't placed his hand on the dead body, but the beast that came out of nowhere had taken it. Nobody could accept this sudden incident.

Shi Yan was puzzled while looking in the direction the beast had just disappeared. He had a familiar feeling toward it indeed. That beast's aura gave him a trail of something dear to him!

"Ghost Hunter! That's Ghost Hunter! He's changed greatly, but that's his aura. Can't be wrong!" Azure Dragon screamed hoarsely. "Ghost Hunter had disappeared for one hundred years. He had eaten Cang Yun and gotten the Origin of the Ancient Demon Continent. Why is he here?"

"His aura is really powerful, much stronger than any one of us! What happened to him after all?" Xuan He screamed in fright.

Besides Death power Upanishad, Xuan He had also mastered Life power Upanishad. Although Ghost Hunter had just revealed his body in a short glimpse, Xuan He could recognize the enormous life energy in his body, which was much stronger than him and Frederick, and even more abundant than the Holy Beast Azure Dragon, who had lived ten thousand years!

What had happened to Ghost Hunter after he had disappeared for one hundred years? What made him so intimidating?

[God of Slaughter](#)

Chapter 1489: Third Sky of Immortal Realm!

Shi Yan didn't dare to confirm, but he got it when Azure Dragon mentioned that.

It was Ghost Hunter!

The beast that had appeared out of nowhere was Ghost Hunter. That was Ghost Hunter's real body, but enlarged hundreds of times. Nevertheless, the icy, brutal aura stayed the same.

But, why could Ghost Hunter tear the space to come here? Why could he move freely like that? And, why did he have to swallow Pu Tai?

He had so many doubts that he hated he couldn't hoist Ghost Hunter here to interrogate. Ghost Hunter's sudden appearance had frightened many people.

And that was because the aura on Ghost Hunter today was extremely formidable! The warriors at Ming Hong and Xuan He's level would have to struggle hard to resist Ghost Hunter. His life energy could be compared to a Territory Ancestor!

Thump! Thump! Thump! Thump!

The throbbing explosions arose from inside the Ancient Demon Continent. That grumbling rhythm was so strange that normal people couldn't perceive it; only Shi Yan and Audrey could feel it. They couldn't help but focus on the Ancient Demon Continent.

Swish!

A shining crack was torn underneath the Ancient Demon Continent like a beast opening its mouth. The Ancient Demon Continent plunged, sinking and disappearing into that slit.

It was exactly what had just happened to Ghost Hunter!

Ghost Hunter had killed Cang Yun and obtained the Origin of the Ancient Demon Continent, so he now had a magical bond with that ancient continent. At this moment, Ghost Hunter and the Ancient Demon Continent had left this star area altogether. Everybody had a strange, curious light in their eyes.

"Er?"

Montecie pulled herself together to observe, her face astonished. She suddenly found that the Ancient Demon Continent seemed to have a life as if it was a person getting up after a long sleep. It came with waves of ancient life energy.

"Star wheel ceases!"

The suns, moons, and stars in the sky ceased. Behind Shi Yan, countless stars hovered in the void like massive rocks. Shi Yan stood neatly on an ash-gray asteroid. The black hole shrank little by little, entering his soul altar.

A marvelous, indescribable feeling arose in his soul. The electric pulses of memory related to the Devouring Clan and other knowledge flashed in his brain. In less than a minute, he knew many secrets of the Devouring Clan.

He knew it was the memory from Pu Tai, the Young Chief of the Devouring Clan, the one who came here with a great mission.

Swoosh! Swoosh! Swoosh!

His black hole moved, and the memory in Pu Tai's soul altar was extracted bit by bit. Pu Tai's Soul Seal was erased, everything of his being washed away.

Shi Yan had a strange, magical light on his face. He looked happy as he found that his black hole had absorbed and refined Pu Tai much faster than he had thought!

Perhaps it was because of their origin; after Pu Tai's Sea of Consciousness was cleared up, it murmured while pouring down from the black hole into Shi Yan's Sea of Consciousness like a heavenly waterfall. This flow of energy helped Shi Yan's Sea of Consciousness expand unceasingly.

The soul pond that contained Pu Tai's pure soul energy also ran into Shi Yan's soul pond. Shortly, Shi Yan's Sea of Consciousness had been doubled, and his Dark Energy had grown greatly!

The eight crystal balls representing the eight power Upanishads were shining while spinning inside the black hole. Eventually, they sank into Shi Yan's tier of power Upanishads.

Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi power Upanishads had arrived there, creating an octagonal formation with the Death power Upanishad merged with Shi Yan's available Death power Upanishad, and the black hole of the Devouring power Upanishad worshiped in the center.

The flood currents with the memory, understandings, and profound experiences had all entered Shi Yan's soul.

He now had a deep perception of Pu Tai toward the eight power Upanishads and the magical abilities of the Soul Control, Death, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi power Upanishads. He received them, making them his possessions.

Pu Tai's power Upanishads, memories, and soul energy were absorbed fast, becoming a part of Shi Yan.

Shi Yan now had a strange but wonderful feeling. He knew he was complete now. He knew he had finally and officially received Bloodthirsty's inheritance!

He got it all now.

The Blood Vein Ring must have kept the eight great, evil power Upanishads. After Pu Tai had swallowed the Ring Spirit, he had stopped it from sending all the powers to him. That was why he had comprehended only the Death and Devouring power Upanishads. He hadn't received the inheritances of the other power Upanishads.

Devouring and the eight evil powers were one entity that shouldn't be divided. Having all of them, the warrior could use the strongest and fiercest abilities.

He had swallowed everything from Pu Tai. With the new comprehension of the eight power Upanishads, his soul slowly sublimated while his God power Ancient Tree was changed greatly!

"Third Sky of Immortal Realm!"

Shi Yan laughed while lifting his head to observe the stars in the sky. His line of sight raked from Montecie, Hiro, to the Dark Abyss, then to Xuan He, Ming Hong, and the others. He suddenly felt so excited.

Today, he was fully deserving of being the new Master of Bloodthirsty's Force. He had fused the Devouring power Upanishad with the eight evil power Upanishads, finally succeeding Bloodthirsty.

He was even more intimidating and full of potential than Bloodthirsty, because he had also mastered the Star, Life, and Space power Upanishads, which were the powers that could turn the Desolate Territory upside down!

“I need to strengthen my realm!” He flashed and reappeared by Xuan He and Frederick. Then, he deliberately sat down cross-legged, closing his eyes. “Guard me.”

“Alright!” Xuan He and Frederick replied, instinctively agreeing.

Then, Xuan He and Frederick exchanged looks and saw fright in each other’s eyes. They had just had a magical feeling. It felt as if their former Master Bloodthirsty had just ordered him, which they had obeyed instinctively...

They looked at Shi Yan in astonishment.

“He has swallowed Pu Tai, finally and officially inheriting everything of Master. Perhaps... He’ll be even stronger than our Master in the future.” Ming Hong’s gloomy shadow swayed, his eyes respectful. He pondered for seconds, then respectfully kneeled, “I, Ming Hong, welcome new Master!”

Today, he had officially acknowledged Shi Yan’s position and lowered his proud head.

Xuan He and Frederick were bewildered, but they reacted timely, kneeling in front of Shi Yan like Ming Hong and speaking in unison. “Welcome, new Master!”

From now on, they would follow Shi Yan and serve him as the new Master of the Bloodthirsty Force and their new Master. Today, Shi Yan had used his realm, competence, and power Upanishads to prove that he had the qualifications!

Qualifications were formed from his power, and Shi Yan’s power now was enough to support his qualifications!

“Rise, all of you!”

Shi Yan sat still, slowly closing his eyes and focusing. His will came toward the new power Upanishads he had just received, to stabilize his new realm.

After killing and swallowing Pu Tai, he had advanced to the next level, entering the Third Sky of Immortal Realm. He had harvested the seven power Upanishads, including Soul Control, Corrosion, Dark, Chaos, Destruction, Despair, and Corpse Qi. He needed time to digest and comprehend them.

He didn’t even mind Devour much, since he hoped that Hero and Montecie could kill or refine him.

“Hiro! Be prepared!” Montecie urged her power. Inside the torrential current of time behind her, more and more energies rose.

After the Ancient Demon Continent disappeared, the Dark Abyss—Devour shrank continually. At this moment, it was just a small piece which looked condensed and silent.

Xuan He and Frederick saw the Dark Abyss return to the shape they were familiar with, looking dead...

Inside the Dark Abyss, the endless blood sea arose and blood bubbled. Each of them seemed to have a soul and consciousness. The blood bubbles moved and congregated, creating a blood vacuum area.

All of a sudden, a low-pitched, mysterious whining voice arose deep inside the blood sea. A cluster of blood light appeared inside that bubble, shining dazzlingly.

Deep inside the Sea Domain of Nihilicity, in the ancestral land of the Devouring Clan, an old man of the Devouring Clan was soaking in a blood pond. The bubbles in the pond floated up into the sky and created a big bubble in front of him.

His crimson eyes flared with anger. "I can't believe someone dares to disturb our Ancestor!"

He turned into a drop of scarlet blood, falling into the bubble. The blood bubble blasted, and he disappeared altogether. In the next moment, a drop of blood appeared inside the bubble above the blood sea inside Devour on the Ancient Demon Continent.

That drop of blood wiggled, growing into a man from the Devouring Clan. This man in his thirties had a sinister face as he walked out of the blood sea. A bloodthirsty aura shot out of his head as a warning, in the form of a thick smoke column.

A blood light bloomed from the Dark Abyss and pierced through everything as it expanded, covering the entire area. Montecie's Time power Upanishad was hindered. She couldn't continue to channel her power when a blood hue dyed her current of time!

"Edgar! Edgar is coming!" Montecie's face changed drastically, yelling, "Edgar! Edgar's here!" Hiro was frightened as well. He didn't hesitate, immediately storming into the thick blood sea and finding Edgar.

"Montecie! Hiro! You dare to attack our Devouring Clan's Ancestor! You come to this Desolate Territory to court death!" Edgar's wild grunt echoed around the star area.

"Master Edgar, Pu Tai's dead! Young Chief is dead!" Labitte screamed.

"My son is dead? How is he dead!" Edgar roared as if he had a serious mental illness or was an enraged beast. His roars had pressed the space to crack like a broken mirror, exploding several stars around.

Inside the surging blood torrent, Edgar surfed the wave, his body dripping with blood as he shouted, "Who? Who killed my son?"

Edgar, the current chief of the Devouring Clan, was also one of the ten Great Territory Ancestors in the Sea Domain of Nihilicity, and Pu Tai was his son!

Chapter 1490: Alarm!

In a corner of the Ancient God Star Area, above a scorching sun, halos swelled and exploded. The ground was red like hot iron as a shadow halted there.

The true flame of the sun couldn't threaten him. He seemed to blend well with the heat and the extreme light; he was Brian, the God Lord.

He looked a little tired. When he saw the four lights in different colors chasing after him, he felt cold. He could never believe that his former subordinates had reached the Third Sky of Immortal Realm with Hui's support. They all had the real power of the soul, and their realm wasn't much different from his.

More importantly, this group of four understood the arts of cooperation. When they joined hands, their powers were doubled.

Brian had reached the Peak of Immortal Realm. He understood the Dark Energy, and had created his territory.

He shouldn't waste a lot of energy. Otherwise, it would take forever to break through to the Territory Ancestor Realm. Also, he wasn't sure that he could overwhelm the four Great Heavenly Kings. He was afraid that the Heavenly Kings would hold him back and Tian Xie would drain him to death.

That was why he kept running.

He ran to this blazing sun because he felt something dear here. He didn't know why, but it somehow eased his restless mind...

"Brian, don't blame us for pursuing you. We've been with you for many years. We know how strong you are," Easygoing smiled faintly while calmly walking toward him. "You're the Mara in our minds. If you don't die, we can't advance anymore. Only killing you will help us reach the Territory Ancestor Realm. Your existence will affect Goddess Mother too. We have to kill you."

The three Heavenly Kings, Divine Martial, Light, and Carefree also landed on this burning sun. Looking at Brian, their faces were heavy.

"It doesn't matter that you've betrayed me. You shouldn't betray your ancestors and this world of yours," Brian let out a low-pitched shout.

"Ancestors? Our world?" Carefree burst out laughing. "We have never met any one of them before. Who did you mention? Desolate? Haha, what's the difference? Under Desolate's rule, we were still servants. Otherwise, we wouldn't have destroyed Bloodthirsty that year. And now, Goddess Mother has erased the slave mark Desolate had carved in our souls. She let us follow her and taught us the magic of the soul energy. It's much better than what Desolate had offered, right? Then, why do we have to go with Desolate? It chose you that year, not us. But after it chose you, it didn't give you the power of the Dark Energy."

The God Lord looked at them coldly. He didn't talk more as he knew they wanted to walk the same path as Hui. He was just one step away from the Territory Ancestor Realm. He didn't want to waste energy, so he decided to leave.

However, right at this moment, a crack appeared in the flaming layer of this sun, and Ghost Hunter abruptly stormed out!

After swallowing Pu Tai in the Ancient Demon Star Area, Ghost Hunter had disappeared mysteriously. And now, he was here!

As soon as he came, he immediately barged into the four Heavenly Kings. His roaring and howling seemed to break the entire sky like thousands of thunderbolts booming at the same time. His roar had something vague but marvelous, like a hot flame, wild thunderbolts, and the sharpness of metal.

The Four Heavenly Kings were shaken and dizzy. They found their soul altars trembling, and their souls aghast. All of them were extremely frightened and petrified as Ghost Hunter emerged all of a sudden.

“That’s Ghost Hunter, the beast that had eaten Cang Yun! He’s the heir of the Heavenly Monster Tribe chosen by Azure Dragon. It has almost one hundred years since he had disappeared!” Easygoing screamed in fear. Being dazed for seconds, he provided the information as he was in charge of collecting intelligence in the Ancient God Star Area.

Crack! Crack!

Ghost Hunter’s stinky, giant mouth was chewing Pu Tai’s body. Wisps of Bloodthirsty’s pure energy slowly entered its fearsome, bestial body.

Brian looked at Ghost Hunter, his face changing as he screamed ear-piercingly, “You... You are...”

Ghost Hunter coldly regarded him. Brian didn’t finish his sentence, so the Heavenly Kings didn’t know who Ghost Hunter really was. They were already petrified because of his aura. This kind of surging life energy had frightened them badly.

“OOOUUUUUUUU!!!!!”

Another roar echoed, which had actually shaken the entire place. Then, the flames of the suns gathered, covering the four Heavenly Kings.

The four Heavenly Kings felt fearful as if they were facing their nemesis. They wanted to urge their power Upanishads, but none of their abilities worked.

They discolored in fright, exchanging a brief look. Then, they didn’t dare to linger and hastily flew away.

Ghost Hunter just roared, but didn’t pursue the others. After shooing the four Heavenly Kings away, he didn’t mind God Lord, leaving shortly. After a flash, he disappeared.

Brian looked extremely stunned. After Ghost Hunter had left, he was still murmuring to himself, “It’s really familiar to me. Who is it? It’s him... or him?”

...

Ancient God Continent...

Zi Yao was sitting neatly on the crystal, the tiara throne implanted on the massive snakehead. Her bright eyes looked as if she had confined so many stars in them.

She suddenly got something, so she sent her soul messages to call her servants.

Not long afterward, Tian Xie brought the experts under his command and gathered by Zi Yao. They kneeled down respectfully, their faces suspicious.

They didn’t know why Zi Yao had summoned them. They knew something big had happened, which stirred them up.

“Shi Yan’s back from the Sea Domain of Nihility. He’s in the Ancient Demon Star Area, attacking Devour. Devour’s not in a good situation.” Zi Yao’s smart eyes showed her intelligence. “Shi Yan’s really bold. He has connected to the Territory Ancestor Realm experts of the Sea Domain of Nihility. He’s not afraid of shattering this Desolate Territory...”

“Goddess Mother, you mean someone from outer space?” Tian Xie was frightened.

“Not just one...Those aliens are the peak existences of this era. It’s troublesome to deal with them. Devour had received more severe wounds than I did. I’m afraid he can’t endure,” Zi Yao said calmly.

“So, the existence like you can’t resist the peerless experts of this era?” Tian Xie changed his visage.

“Devour and I haven’t recovered fully. We got damaged badly in the previous era, so we can’t recover quickly. Only if we can eat up Desolate can we fully recover. It’s the reason why Devour and I are hurried to swallow the Ancient Demon Continent and the Ancient God Continent. If they finish Devour, they will come to the Ancient God Star Area to find us.” Zi Yao said indifferently, then gave an order, “Open the space passage! We’re going to the Ancient Demon Star Area to find Devour. I have an agreement with him. Let’s go!”

Above the God Zenith, a light bridge was conjured which could unlimitedly carry people and things across space. Zi Yao, Tian Xie, and their subordinates walked on that bridge. Their figures faded as they disappeared one by one.
