### [God of Slaughter](#)

#### Chapter 1511: The Original Symbol Embryo

According to the experts who knew the features of the Power Upanishad Symbol Tower, it was a tool that the Absolute Beginning creatures used to create an Absolute Beginning Original Symbol. In this recent era, there was no complete Power Upanishad Symbol Tower.

The Absolute Beginning Original Symbol was usually a supernatural power of a power Upanishad, a principle of Nature. It was the utmost appearance of a power Upanishad.

For example, a straight line is the shortest distance between two points. It was a theorem.

The Absolute Beginning Original Symbol was more magical than that. It contained the theorems of a power Upanishad. To the warriors with the relevant power Upanishad, getting a supernatural power from the Absolute Beginning Original Symbol meant having the utmost understanding of that power Upanishad.

It helped the warriors advance their cultivation further!

The Power Upanishad Symbol Tower created the Absolute Beginning Original Symbol. It was a complicated and struggling process. First, they needed to collect the souls cultivating the same power Upanishad. They had to start from the lowest realm to the highest realm, slowly melting them. It took a lot of time indeed.

That's what Shi Yan knew about the Absolute Beginning Original Symbol.

However, at this moment, Shi Yan was using the Soul Consciousness to check the Power Upanishad Symbol Tower. He found the Power Upanishad Symbol Tower on his co-soul become giant. It had hundreds of levels and the level at the very bottom had brilliant light that moved like tentacles.

The pure energy from his acupuncture points was attracted to the Power Upanishad Symbol Tower. It became beams of electricity that got into the lowest level of the tower. The soul energy from the black hole also diffused and reached that level of the tower.

The mysterious changes happened at this moment!

From the lowest level, the windows that kept the souls inside the Power Upanishad Symbol Tower lit up one after another from the bottom to the top.

At first, The hundreds-leveled tower lit up the windows at a normal pace. However, as more pure energy poured into the tower, the windows lit up faster. At first glance, this giant tower was like a skyscraper that had lights switched on that made the entire tower shine dazzlingly.

A chunk of turbulent air wiggled in each window. Then, it became a magical tadpole symbol that changed continuously.

Atop the tower, an ivory substance that was between a liquid and rigid state hovered. Like a moon, it emitted immense light. It showed magic as if it could become an Absolute Beginning Original Symbol.

“The Original Symbol Embryo!”

A strange term flashed in his head. Shi Yan was bewildered for a moment before he could get it.

– It was Desolate’s memory in his co-soul!

Desolate knew that ivory substance. That thing was the Original Symbol Embryo, which could become the real Absolute Beginning Original Symbol with a specific power Upanishad!

This Power Upanishad Symbol Tower was more magical than he had thought. Also, apparently, it was different from the Power Upanishad Symbol Tower Mei Ji, Montecie, and Hiro knew!

The tower didn’t require collecting souls of warriors cultivating the same power Upanishads to create the Absolute Beginning Original Symbol. When it got enough God power and soul power, it could create the Original Symbol Embryo, which the owner could mark with an attribute of power Upanishad to create a new Absolute Beginning Original Symbol!

He was so stimulated that he didn’t mind his naked body. Mei Ji’s beautiful eyes had a strange light while her round rear end was on his lap. Her two hands were placed against his broad torso, her face red.

Using the Soul Consciousness to check for a while, Shi Yan could confirm that it was the Original Symbol Embryo that could become a real Absolute Beginning Original Symbol.

However, he wasn’t so sure if it was safe or not. He hesitated and didn’t carve his power Upanishad or Mei Ji’s power Upanishad in it.

Pondering for a while, he thought about Emperor Sea Shark. He opened his eyes and asked Mei Ji to put on her clothes. He shrouded black brocade robes around his body. “The Power Upanishad Symbol Tower has some marvelous changes. It seems like it has an Original Symbol Embryo now. If we carve an attribute of a power Upanishad on it, it will become a new Absolute Beginning Original Symbol.”

“How can it be?” Mei Ji was dumbstruck. “I heard from my Grannie that it was very complicated to create an Absolute Beginning Original Symbol. I’ve told you before. It requires warriors with the same power Upanishad from an entire territory. Their power Upanishad will accumulate and fuse with each other. Eventually, a new Absolute Beginning Original Symbol will be produced. I have never heard about that Original Symbol Embryo that you talked about. Are you sure?”

Her face changed as she said, “Don’t try it out! What if it goes wrong...”

“I feel like I have a seventy percent chance of success,” Shi Yan looked earnest. “Although there are a lot of souls of low-realm warriors, the energy they provide isn’t much. Anyway, the number of low-realm warriors is huge. This time, I swallowed the high-realm warriors. Most of them were at Original God Realm and Incipient God Realm. Many more were at Immortal Realm. In other words, the Power Upanishad Symbol Tower needs energy. With a lot of energy, it can create the Original Symbol Embryo. The memories I got about the Absolute Beginning Original Symbol comes from Desolate. I think there is nothing skeptical about it.”

"I still think it's not good," Mei Ji was uneasy.

"Thus, I intend to use Emperor Sea Shark's power Upanishad to try. If it works, it's my compensation to Emperor Sea Shark. Let's see if he wants to try," Shi Yan smiled. "I'm confident, anyway."

Thus, he went out of the barriers. Holding Mei Ji's hand, he turned into two jets of light and reappeared in the center of the algae mass.

The area was cleaned and some bloodstains were left on the glass in the corner. However, Worthy's subordinates were gone.

"Oh, you guys," Emperor Sea Shark was skeptical when he saw Shi Yan. He could feel the immense life energy magnetic field from them, which had become fiercer. As their life energy magnetic field changed, Shi Yan and Mei Ji's had advanced furthered.

He was a Territory Ancestor so he could feel any change of energy even if it was minute. Thus, he was discreetly frightened.

"Emperor Sea Shark, I have an opportunity for you, but I wonder if you want to try," Shi Yan took a deep breath and explained his idea. "I don't know why, but after I'd swallowed Worthy and Cambay's troops, the energy I got was poured into the Power Upanishad Symbol Tower. And now, the Power Upanishad Symbol Tower in my soul altar has produced an Original Symbol Embryo. The Original Symbol Embryo can become any attribute. We just need to imprint our power Upanishad on it and it will become the Absolute Beginning Original Symbol of our power Upanishad. But it's strange. I don't know the result. That's why I ask if you're interested in this."

Pausing for a while, he said seriously, "I understand that when you part a proportion of your power Upanishad, it will lower your realm if you fail. Thus, I want to remind you. It's risky."

High risks also meant high benefits. According to his method, if he failed, Emperor Sea Shark's realm would decrease and his soul would be hurt. It would be a terrible strike to Emperor Sea Shark.

Similarly, if it worked and that Original Symbol Embryo had become the Absolute Beginning Original Symbol of Water power Upanishad, taking that Absolute Beginning Original Symbol, Emperor Sea Shark's power Upanishad and realm would grow greatly. It would enable him to understand the rules and theorems of his Water power Upanishad. His competence would rocket and it would secure his chance to enter Second Sky of Territory Ancestor Realm.

This enticement was so moving!

"I have only one question. Are you sure about this?" Emperor Sea Shark was solemn. He rose his hand to stop Shen Ren, Hu Jiao, and Datuk, asking them to keep quiet. His eyes were fixed on Shi Yan's face.

"Around sixty or seventy percent," said Shi Yan honestly.

"Good enough!" Emperor Sea Shark shivered. But then, he said, "Wait a second!"

He squinted and signaled Shen Ren, Hu Jiao, and Datuk to stay silent. He drew a crystal clear water drop from his soul altar. That water drop was thumb sized with sounds of murmuring water. As soon as it appeared, the warriors with Water power Upanishad in this area were touched as if they had just seen the profound meaning of Water power Upanishad.

That water drop was the essence of Emperor Sea Shark's power Upanishad at the Territory Ancestor Realm. It slowly flew towards Shi Yan. Afterward, Emperor Sea Shark paled. He sat down and took deep breaths to steady his condition. He hissed, "Please help..."

"I will do my best!" Shi Yan knew how big Emperor Sea Shark's hope was and how much he had trusted him when he gave out this drop of water. He suddenly felt heavy and tense because of Emperor Sea Shark's trust. He used his Soul Consciousness to cover that water drop and pull it into his soul altar.

Mei Ji, Hu Jiao, Datuk, and Shen Ren held their breaths and focused on him. They didn't dare to breathe heavily as they shot their bright eyes toward Shi Yan.

They understood clearly that if Shi Yan failed, that drop of water wouldn't return to its rightful owner. Then, Emperor Sea Shark would be damaged severely.

He could fall from the Territory Ancestor Realm to First Sky of Immortal Realm!

Hu Jiao clenched his fists, his fingernail digging into his palms, bleeding. It looked like he didn't feel pain. His heart beat frantically as if it wanted to jump out of his chest.

He knew that the entire Sea Clan relied on Emperor Sea Shark's realm. As long as Emperor Sea Shark was strong, their future would be secure. If Emperor Sea Shark's realm downgraded, what would wait for them would be their extinction!

This time, they killed Worthy and Cambay so they couldn't stand on the same side with the Soul Clan and the Ancient Monster Clan. If the two clans knew Emperor Sea Shark's realm downgraded, they wouldn't have a chance to survive.

Mei Ji was also tense. She worried that Shi Yan would encounter trouble because her knowledge about the Power Upanishad Symbol Tower was completely different from what Shi Yan had just told her.

She understood that the Power Upanishad Symbol Tower had fused with Shi Yan's soul. If the something happened to it, Shi Yan's soul would perish altogether.

She became restlessly worried.

## [God of Slaughter](#)

### **Chapter 1512: To the Heart's Content, Staying at Present!**

Bringing someone's Seal of Power Upanishad into one's soul was an extremely risky deed.

He trusted that Emperor Sea Shark would send a part of his power Upanishad to Shi Yan. At the same time, Shi Yan at his Peak of Immortal Realm dared to guide Emperor Sea Shark's power Upanishad to his soul altar. Didn't that mean he trusted Emperor Sea Shark?

If Emperor Sea Shark had another idea and fought Shi Yan in his soul altar, Shi Yan wouldn't be able to endure it. His soul would get hurt badly too.

The transparent water drop fell into Shi Yan's Sea of Consciousness. The soul pond in his Sea of Consciousness emitted Dark Energy right away. The power Upanishads in his soul altar could smell the aura of the intruder. They became cautious and wanted to attack that thumb-sized water drop.

Focusing, he continuously asked himself to relax and quiet down. He had to do that to calm down his power Upanishads and his restless mind.

Slowly, the water drop drifted above the Sea of Consciousness and the soul pond, floating up towards the Power Upanishad Symbol Tower and heading to the top.

Shi Yan said that he was seventy percent sure and he didn't lie. Through Desolate's memories and his own observations, he assumed that the Original Symbol Embryo atop the Power Upanishad Symbol Tower could create the Upanishad Original Symbol. However, he wasn't sure if it could work to the insider like Emperor Sea Shark.

Thus, he said that he was just seventy percent sure.

The water drop swayed. Shrouded in Shi Yan's soul, it finally fell onto the peak of the giant tower and tried to enter the Original Symbol Embryo.

**BOOM!**

The resisting force came from the Original Symbol Embryo, which seemed to have its own life. Also, that aura magically had a subtle connection with Shi Yan. Shi Yan knew that the Original Symbol Embryo instinctively boycotted the water drop of power Upanishad because it knew that it wasn't Shi Yan's power Upanishad.

Shi Yan was startled. As he knew it wasn't alright, he hurried to part his Soul Consciousness.

He poured a wisp of his Soul Consciousness into the water drop of Emperor Sea Shark's power Upanishad. He had to notify Emperor Sea Shark to persuade him to prevent misunderstanding, which would hinder him from entering the water drop.

Emperor Sea Shark paled. At this moment, he was tense and his face changed oddly.

Hu Jiao and Mei Ji furrowed their brows. They were anxious because they didn't know what could happen.

Instinctively, Mei Ji went close to Shi Yan and gathered her God power. She was ready to protect Shi Yan in any case.

Similarly, the experts of the Sea Clan including Hu Jiao, Shen Ren, and Datuk also approached Emperor Sea Shark. As soon as Emperor Sea Shark ordered, they were going to take action immediately.

Everybody turned to Emperor Sea Shark and noticed Shi Yan's moves. When they saw Emperor Sea Shark calm down after furrowing his brows, they also ceased. Emperor Sea Shark relaxing also calmed the air in this area. People exhaled, their faces strange.

"It should be alright," Emperor Sea Shark shrugged as he relaxed and reluctantly smiled. "Madam Mei Ji, as you and Shi Yan are together, you don't know how many men in this sea area have gone crazy because of that.

Mei Ji was one of the most beautiful experts of the Phantom Clan and the Phantom Clan was famous for the treasure-like women. The number of warriors from different clans in the Sea of Annihilation who

had admired Mei Ji in the Sea of Annihilation was almost innumerable. If they knew she had lost her virginity to Shi Yan and had always served him well, they would have been crazily indignant.

“He wants me. It’s my pleasure.” Mei Ji curled her lips and stroked her hair enchantingly. She smiled and then said, “His mystery is something that no woman can resist. He can make any woman crazy.”

Before she understood Shi Yan, she had been at the Peak of Immortal Realm. However, she didn’t have Dark Energy at that time and she had been wounded severely too.

Within one hundred years, she had broken through to Territory Ancestor Realm. Also, the God power in her body accumulated. She got so many benefits. Except for Shi Yan, who could give her all that?

She remembered the struggle she had to endure as she was trying to perceive the marvels of Dark Energy. Montecie had also considered her an item to trade for more benefits. If Batum hadn’t been killed and she didn’t get Dark Energy, she would have been tied to a marriage with Batum. Although she appreciated Montecie, she understood that Montecie wasn’t the one who had given her all that she had today. It was Shi Yan!

Without Shi Yan, the Phantom Clan wouldn’t have had a new Territory Ancestor! She wouldn’t have been here today!

As she didn’t have Dark Energy, Montecie wouldn’t have used the enormous amount of precious cultivating materials of the clan to nourish her. Anyway, the Phantom Clan still had several Peak of Immortal Realm like her. Mei Ji wasn’t their only choice.

As Mei Ji was absorbed in her thoughts, Emperor Sea Shark suddenly moved, his eyes shooting dazzling light!

At the same time, clear sounds of murmuring water came from Shi Yan’s body as if Shi Yan had many rivers running rapidly inside his body. The magical mysteries of Water power Upanishad was the supple water that had appeared perfectly on Shi Yan!

People focused and saw Shi Yan’s God power move like water inside Shi Yan’s veins, magical steam fuming from his seven natural facial holes. They were amazed, indeed.

Emperor Sea Shark breathed heavily. He couldn’t suppress his excitement, his voice trembling. “Works! It works!”

When Shi Yan sent him the message to ask him to release the control he had on that water drop, he was hesitant. He pondered and then agreed. And now, he understood that only when the water drop, his power Upanishad essence, had Shi Yan’s aura could it enter the Power Upanishad Symbol Tower!

While the murmuring water sounds continued, a five-colored, transparent water drop shrouding a magical symbol flew out of Shi Yan’s left eye.

That transparent water drop was shining, revealing the Upanishad Original Symbol inside, which had a seal that said “Water” written in Absolute Beginning language. As soon as that water drop appeared, the rivers, the lakes, and seas in Emperor Sea Shark’s territory seemed to have lives instantly. Emperor Sea Shark was touched.

He greedily looked at that water drop and was so excited. He mumbled continuously, “The Water Upanishad Original Symbol. Supernatural power. A supernatural power.”

At this moment, Hu Jiao, Datuk, Shen Ren, and many warriors of the Sea Clan had their eyes brightened. They were all thrilled. They understood that Emperor Sea Shark’s competence would thrive shortly after he got the Upanishad Original Symbol. He would have a big chance to break through to Second Sky of Territory Ancestor Realm.

An Upanishad Original Symbol was enough to bring Emperor Sea Shark to a better world!

Emperor Sea Shark was their hope. His bright future was also their bright future!

How could they not be thrilled?

Hu Jiao, Datuk, and some young members of the clan hated Shi Yan even after he had killed a lot of members of the Ancient Monster Clan and the Soul Clan. They didn’t care about Shi Yan, anyway.

However, at this moment, the resentment and discontent they had for Shi Yan had all gone with the appearance of the Upanishad Original Symbol!

When they looked at Shi Yan, they had only appreciation and admiration in their eyes.

They finally trusted Shi Yan as a friend and even a benefactor.

As people were panting excitedly, Emperor Sea Shark slowly took the water drop and pulled it into his soul altar. The water drop now had an Upanishad Original Symbol, a supernatural power of his power Upanishad. As soon as it came to his soul altar, it immediately fused perfectly with a bigger water drop.

A new theorem of Water power Upanishad was established in his soul. His soul shook as if it had just received a brand new inheritance of the power Upanishad.

Emperor Sea Shark’s eyes became as bright as stars as he was quietly sensing his new, magical power Upanishad and the growth of his realm...

People observed him with keen eyes.

Only Mei Ji was holding Shi Yan hand and speaking tenderly, “Are you okay?”

Shi Yan smiled and shook his head, “It’s alright. I’m okay. It feels really good. I also got the chance to check the features of the Water power Upanishad. With this experience, I can refine more Original Symbols. Haha, I can’t believe this Power Upanishad Symbol Tower is so interesting!”

Mei Ji was excited too.

Shi Yan could use Emperor Sea Shark to create a Water Original Symbol. Similarly, as long as he had enough energy, he could refine an Ice Upanishad Original Symbol, which was suitable for Mei Ji!

The Upanishad Original Symbol was also a supernatural power. If Mei Ji got the Ice Upanishad Original Symbol, her competence would increase greatly!

After a long time, Emperor Sea Shark had steadied his condition. His eyes brightened as he smiled. His worried face had finally disappeared like vanishing smoke. He cried out, "Hu Jiao! Bring wine! Bring us our best wine! I have to drink with Shi Yan today!"

"Bold!" Hu Jiao had changed his attitude towards Shi Yan. He friendly patted Shi Yan's shoulder as he smiled. "Bro, you have to give us face today. You have to drink with me too!"

"Me too!" Datuk cried.

This time, the resentment they had for Shi Yan was cleared and only gratitude and compliments were left.

"Okay! Come drink with me!" Shi Yan grinned, "Then, we have to go to the territory entrance and enjoy a fierce battle too!"

"Enjoy a fierce battle!" clamored the others.

Mei Ji's eyes showed that she was smiling. She didn't talk them out of this as she knew they were excited. "Enjoy yourself. I'm going to check around. If something happens, I will tell you."

"What a good wife! Haha!" It was the first time Emperor Sea Shark teased Mei Ji. He was too excited like everybody else. All was because of an Upanishad Original Symbol.

Mei Ji smiled beautifully and left. She knew that at their realms, even if they drank a lot of wine, they could sober up within a second. Thus, she wasn't worried. She just needed to check around and alert them when they got trouble.

In the center of the algae mass, the Sea Clan people were drinking cheerfully. They all came to drink with Shi Yan.

Shi Yan didn't deny anyone. While drinking the delicious wine, he had thrown away all the burdens and just enjoyed this moment.

## [God of Slaughter](#)

### **Chapter 1513: A Random Encounter**

Mysterious forbidden land, Sea of Annihilation's seabed.

So many whirlpools were connected to each other like clusters of clouds. All of them had dangerous auras that scared away many explorers in this Sea of Annihilation.

Because no one knew where those massive whirlpools would lead them.

Some thought they had profound realms which could enable them to discover the secrets of those whirlpools. They came and went missing forever.

The experts at the Territory Ancestor Realm had restrained their subordinates and fellows, asking them not to wander here.

But today, a group of famous characters had gathered here just like Montecie and Hiro before and were waiting by the vortexes.

They were the experts from the five clans!

They came here because Edgar had invited them. They summoned their forces and brought the hotshots of their clans in formations.

This group included Neptune of the Soul Clan, Ferrell and Beverly of the Ancient Monster Clan, Oliver of the Black Demon Clan, and Judy of the Mysterious Sky Clan. Neptune, Ferrell, and Oliver were at First Sky of Territory Ancestor Realm. Judy and Beverly were at Second Sky of Territory Ancestor Realm. Like Forefather Han Tian, Judy was also a legend of the Mysterious Sky Clan.

Beverly of the Ancient Monster Clan was like Edgar. He was one of the ten Great Territory Ancestors. He was also the strongest expert of the Ancient Monster Clan!

Standing by Beverly, Ferrell became gingerly.

There were three Second Sky of Territory Ancestor Realm experts and three First Sky of Territory Ancestor Realm experts here. Besides, this group also had hundreds of Immortal Realm experts and almost one thousand Incipient God Realm experts!

This big force came from the five great clans. They were here because of the territory entrance.

“Edgar, how did you know the Desolate Territory’s entrance is in one of those whirlpools?” asked Beverly of the Ancient Monster Clan as soon as she came, her face dark and sinister.

Beverly had a snake body. When her green eyes gazed at the others, they were spooky and chilling. Anyway, she had a sexy body with hot curves and an especially thrusting bosom. The two round breasts covered in the chest plate seemed to want to break her armor to get some air.

She also had a delicate, oval face, but she didn’t smile or talk much. With a cold face, she gave people a distant and concealing feeling.

Judy of the Mysterious Sky Clan hovered by Beverly. Judy wore bright costumes with real flowers. She looked elegant and relaxed with a faint smile, which made her look around thirty years old.

Tu Shi Qi and Ya Yun were on Judy’s side. Judy was Ya Yun’s aunt; they had a close relationship.

“Our Ancestor is back. He showed us this territory entrance.” Edgar came alone. He didn’t bring any fellows. The Devouring Clan failed in Desolate Territory and Desolate hadn’t recovered yet. The Devouring Clan was affected badly. At this moment, they had to focus on healing Devour, so they couldn’t come here with Edgar.

Because of this reason, Edgar initially connected with the Soul Clan, the Mysterious Sky Clan, the Dark Demon Clan, and the Ancient Monster Clan. He made them gather here with their hotshots.

“If we aren’t sure, Ancient Monster Clan wouldn’t have come first. Edgar, you said that it’s the correct entrance. Get in there first,” Beverly sneered.

“Montecie and Hiro could be there. My Ancestor said that they have come to Desolate Territory,” Edgar cursed them in his head but his face remained calm. He turned to look at Beverly.

“Montecie! Hiro!” Beverly hissed.

Judy and Neptune discolored and frowned.

Neptune and Ferrell were extremely frightened. They still remembered that Montecie had sought for them for a long time. She had declared that he would kill Neptune and Ferrell when she met them. At this moment, Montecie was the person Neptune and Ferrell didn't want to meet the most. If they had known Montecie was in the Sea of Annihilation, they wouldn't dare to return.

"What are you afraid of?" Beverly snorted and coldly glared at Ferrell. "Montecie is at Second Sky of Territory Ancestor. If she dares attack you, I'm sure I won't stand and stare."

Ferrell smiled embarrassedly and didn't explain.

"Something is wrong!" Neptune suddenly screamed. He turned to face a direction, his eyes dark. "Worthy is dead! I think Cambay is gone too!"

He and Worthy had a soul connection. If both of them used their soul energy at the same time, they could talk to each other within a specific distance. At this moment, when Neptune tried to connect to Worthy, he found that the soul connection between them was cut off from Worthy's side.

Neptune immediately recognized the seriousness of the matter.

"How could it be?!" Ferrell shook his head, his face still relaxed. "Emperor Sea Shark is in Desolate Territory, isn't he? Hu Jiao and Datuk can't be Worthy and Cambay's equal opponents. Nothing bad could happen to them, right?"

"I'm sure Worthy is dead!" Neptune shouted each word.

Ferrell discolored.

Hesitating, he asked Beverly for permission. "Can I go there to check?"

"Okay," agreed Beverly.

Ferrell left hastily.

Edgar and the others had come here to discuss how to enter the territory entrance. Today, hearing the bad news, they paused. They would resume the discussion when the situation was clear.

-----

A massive area of algae like a cluster of thick clouds moved fast on the seabed of the Sea of Annihilation. The warriors around the seabed looked amazed when they saw the moving tufts of algae.

Some had profound realms so they decided to use the Soul Consciousness to sense. They were astonished when they found the marvel inside the algae leaves.

A majestic crystal palace stood imposingly inside the algae mass. Hu Jiao and Datuk had protected the palace carefully and they had moved it to the center of the algae area. At this moment, the mass of algae headed rapidly to Desolate Territory's entrance.

Shi Yan and Emperor Sea Shark were drunk, so Mei Ji was in charge of watching around and giving them time to drink and enjoy.

Although the members of the Sea Clan who had lost their friends and families had vented out their pressure after that bloody attack, they were still stuffed with sadness. They needed to discharge their negative feelings. They wanted to drink to relax for a while.

Emperor Sea Shark knew this. He decided to use Shi Yan to meet his fellows' need. He wanted to ease their pain and cheer them up when they sobered.

Inside the thick mass of algae, Mei Ji was like a mesmerizing creature. Her Soul Consciousness was released through her two eyes, which were like the two deep ponds.

The soul energy of the warriors reflected in her head. Most of them had low realms. Mei Ji didn't really mind.

All of a sudden, extremely powerful life energy reflected in her head. She pulled herself together immediately.

That aura was similar. Mei Ji became more cautious.

Deep undersea, a massive figure like a dragon or a lizard slowly emerged. It was like a mountain of flesh. While approaching, it slowly shrank. It was like when an elephant had become a tiny ant. Slowly, that creature had transformed into human form. It was Forefather Dragon Lizard!

Mei Ji changed her face. Looking at Forefather Dragon Lizard in the distance, she closed her eyes to sense, her aura sharp.

It wasn't Forefather Dragon Lizard's clone that came here. He had come with his true body!

Today, Forefather Dragon Lizard had reached Territory Ancestor Realm too, the same realm with Mei Ji. Since Dragon Lizard was a direct descendant of Absolute Beginning creature Lizard, his life energy magnetic field was more enormous and his body was exploding more than those of normal races.

In other words, Forefather Dragon Lizard wasn't weaker than Mei Ji now!

"Mei Ji, is that you?" Forefather Dragon Lizard's surprised screamed arose. He pulled a serious face and looked at that mass of algae.

Judy of the Mysterious Sky Clan had invited him to come here from the Dragon Lizard Star. After one hundred years, Han Tian and Judy had helped Forefather Dragon Lizard. With the materials from the Mysterious Sky clan, he finally got Dark Energy. Just like Mei Ji, he had entered Territory Ancestor Realm.

He owed the Mysterious Sky Clan.

Thus, when Judy asked him to come, he couldn't deny her request. As he had just reached the Territory Ancestor Realm, he could shrink his real body and appear in his human form.

He came with his real body this time.

Seeing Mei Ji, he was surprised. He stopped as he was a distance away from the algae mass and asked, "Why are you here?"

"How about you? Why are you here?" Mei Ji didn't answer and just asked.

“Madam Judy of the Mysterious Sky Clan asked me to come to the Sea of Annihilation. She said that something very important is about to happen and that they needed my power. That’s why I come here with my true body.” Forefather Dragon Lizard pondered for a while. He suddenly realized something and asked, “Before I came here, I heard that Edgar had connected with the experts from different clans. He said that he wanted to discuss something. Is it... related to you?”

Looking at the algae mass, he closed his eyes to sense and then paled, “Is Shi Yan there too?”

“Yes.”

“I get it,” Forefather Dragon Lizard forced a smile. “It’s the same stuff. They’re still hungry for Shi Yan’s Power Upanishad Symbol Tower. They are here because of it, I assume. As Edgar, Judy, and Beverly are here, even if that terrifying Absolute Beginning creature comes this time, it can’t protect Shi Yan. I think you should leave immediately. Don’t linger in the Sea of Annihilation!”

Hearing him, Mei Ji was puzzled, “Who do you support?”

“Of course, I have to support the Mysterious Sky Clan. Our Dragon Lizard Clan has joined the Mysterious Sky Clan. But that kid Shi Yan saved me before. Without him, Singh would have killed me successfully. I owe him a favor.” Forefather Dragon Lizard took a deep breath and waved his hand. “Just say that we have never met here. Yeah, just consider that I have never come here...”

Then, Forefather Dragon Lizard was about to leave.

“Forefather Dragon Lizard, don’t you want to know how Lizard Died?” However, at this moment, Shi Yan’s voice arose from the algae mass and stopped Forefather Dragon Lizard.

## [God of Slaughter](#)

### **Chapter 1514: Do Not Return**

Many years ago, the Absolute Beginning creature Lizard had left the Sea Domain of Nihility to the outer territory to find a level-7 life star to refine the Immortal Pellet. He had disappeared ever since.

A long time after that, Dragon Lizard felt his aura perish. He had followed the connection of his bloodline to find Lizard’s remains in a territory outside the Sea Domain of Nihility.

He also found Immortal Pellets from Lizard’s remains. Dragon Lizard understood that if Lizard didn’t go that year, he would have reached Territory Ancestor Realm a long time ago!

Also, the Dragon Lizard Clan wouldn’t have been a second-class clan. It would have become one of the Seven Great Clans!

The loss of his Ancestor was a terrible pain in Dragon Lizard’s heart. After many years, he had always paid attention to finding the causes of his Ancestor’s death.

However, he got nothing until now.

Shi Yan’s voice came from deep inside the algae mass. Forefather Dragon Lizard was dumbstruck, his eyes shooting divine light. “Did you know?” he hissed.

“Was here for a while,” said Shi Yan indifferently.

Mei Ji furrowed her bold brows. She stepped aside to let Forefather Dragon Lizard in.

Dragon Lizard wasn't afraid. He entered the algae mass. Mei Ji led him directly to Shi Yan and Emperor Sea Shark.

Dragon Lizard had reached Territory Ancestor Realm. As a direct descendant of an Absolute Beginning creature, his blood Qi was like an erupting volcano and was really terrifying. The life energy that fluctuated from him made low-realm Sea Clan members shiver and tremble.

Emperor Sea Shark looked stern. He hurried to sense the fierce energy from Forefather Dragon Lizard. He changed his visage eventually.

He couldn't estimate Forefather Dragon Lizard's new physical competence after he had entered the Territory Ancestor Realm. As Emperor Sea Shark had contacted many Territory Ancestors, he found that some experts, even at Second Sky of Territory Ancestor Realm, didn't have fierce Blood Qi like him.

A cool Soul Consciousness flashed in Shi Yan's head to wash the side effects of the alcohol away. Shi Yan's clear eyes saw Forefather Dragon Lizard. He couldn't help but smile. “You've finally reached the Territory Ancestor Realm.”

Forefather Dragon Lizard grinned reluctantly. As he was about to answer Shi Yan, he was surprised as he screamed, “Kid, you've reached the Peak of Immortal Realm?”

“Thanks to your grace,” shrugged Shi Yan.

One hundred years ago, when he and Audrey came to the Sea Domain of Nihilicity, he had had only the Incipient God Realm. Now, because he got an Immortal Pellet from Forefather Dragon Lizard, he had reached Immortal Realm. After one hundred years, a short course to experts like him, he had reached the Peak of Immortal Realm.

In Forefather Dragon Lizard's eyes, this kind of rapid progress was unimaginable.

“I can't believe that the weak warrior that year has reached such a high attainment today. You've become a character that can shake up the entire Sea of Annihilation,” Forefather Dragon Lizard appraised.

He suddenly changed the topic. “Do you know how my Ancestor died?” his face turned stern.

Emperor Sea Shark and Mei Ji were astonished too. The riddle of Lizard's death was also one of the mysteries that Mei Ji was concerned about for many years as she was in charge of collecting intelligence of the Phantom Clan. Even the Phantom Clan didn't have a clue about this. How could Shi Yan know?

Facing Mei Ji's skeptical eyes, Shi Yan smiled and explained, “Well, of course. I don't know the details, but I used to chat with Dracula of the White Bone Clan. I got some clues from him...”

Dracula was the little skeleton's father who had been dormant for tens of thousands of years. He was one of the famous characters of the previous generation in the Sea Domain of Nihilicity. He was like Hiro of the White Bone Clan, the precursor of the Territory Ancestors of this era.

“Dracula told me something about the Absolute Beginning creatures. He previously mentioned your Ancestor Lizard. He said that Lizard’s death could be related to someone called Sauron...” Shi Yan frowned as he remembered what Dracula had said.

“Sauron!”

“Sauron!”

Mei Ji and Emperor Sea Shark screamed in fear.

“Dracula didn’t tell me that Sauron did that. He just said that Sauron knew the Immortal Pellet’s formula and he knew that formula belonged to Lizard!” said Shi Yan.

After Forefather Dragon Lizard heard the name Sauron, he pondered for a short time. When Shi Yan mentioned the Immortal Pellet’s formula, he said coldly, “So it does relate to Sauron, indeed.”

“Sauron is not a member of the Seven Great Clans. He’s a human. He’s from the clan with the biggest population in this sea of stars. He’s also one of the Ten Great Territory Ancestors. Moreover, he’s the most mysterious one. Usually, he won’t show up for hundreds of years. He’s like a dragon whose tail is always hidden. Oh right, it has been one thousand years since he came to the Sea Domain of Nihilicity. No one knows where he is,” said Mei Ji.

“Dracula knows a lot about Sauron. If you’re interested, you can talk to Dracula then,” said Shi Yan.

“Who’s Dracula?” Forefather Dragon Lizard was puzzled.

“A dormant expert of the White Bone Clan. I awakened him. He’s Hiro’s precursor,” Shi Yan smiled.

“Hiro’s precursor?” Forefather Dragon Lizard looked bitter. “I don’t have a chance to meet a character like Hiro, let alone his precursor.”

“Then, I will help you ask him when I get the chance,” Shi Yan contemplated and then said, “Er... Judy of the Mysterious Sky Clan invited you here. I’m afraid it’s because of me.”

“I understand. You should leave the Sea of Annihilation as soon as possible. This time, they’ve gathered many hotshots. Even if you reached the Peak of Immortal Realm, you can’t handle them.” Forefather Dragon Lizard sighed. “I can’t stay here for long. If someone knows, it will be a lot of trouble to the Dragon Lizard Clan.”

His eyes raked through the Sea Clan members and he sighed again.

He knew what had happened to Hu Jiao, Datuk, and the others. He knew Emperor Sea Shark’s competence couldn’t resist an attack from any clan of the five clans. He shouldn’t be careless and cause trouble to his fellows.

Then, he left the algae mass. Emperor Sea Shark didn’t stop him and asked his subordinates to let him go.

Forefather Dragon Lizard flew away from the mass of algae.

“Dragon Lizard, Mysterious Sky Clan’s servant,” Ferrell mocking voice came from afar. In the dark area of seawater not far from them, so many lightning balls were moving and surrounding Ferrell. That entire

sea area was overwhelmed by the scorching electricity. Many creatures there were electrocuted and they got charred.

He had been there for more than fifteen minutes and observed the algae mass. He knew it was a shelter of the Sea Clan.

Ferrell didn't act rashly. He observed and reported Beverly of the Ancient Monster Clan the situation that he had discovered. If nothing unexpected, Edgar and Beverly should take action now.

What surprised Ferrell was that Dragon Lizard, a distinguished guest of the Mysterious Sky Clan, was there too. The fact that Dragon Lizard had broken through to the Territory Ancestor Realm spread out everywhere in the Sea Domain of Nihility. Han Tian and Judy had announced to the other forces that Dragon Lizard was one of their external experts.

The Dragon Lizard Clan members could stand upright in the vast sea of stars. They also felt proud.

The members of Earth Ghoul Tribe and the Water Clan near Dragon Lizard Star would instinctively avoid the members of the Dragon Lizard Clan. They didn't want to create a dispute with the others.

Everything was because the Dragon Lizard Clan had joined the Mysterious Sky Clan and because of Dragon Lizard's Territory Ancestor Realm. Finally, the Dragon Lizard Clan had the chance to rise up!

It's true that things you're afraid of will come after you.

Forefather Dragon Lizard was cautious as he was afraid that someone would figure it out. He didn't expect Ferrell to find him right away when he had just left. He was startled and he felt heavily pressured when things went wrong.

"I'm sure Emperor Sea Shark is in that tuft of algae. You dare to join them. Muhaha. It seems that you didn't put your master Mysterious Sky Clan in your consideration!" Ferrell laughed oddly.

Forefather Dragon Lizard's eyes turned red. He was like an enraged beast gazing at Ferrell. He roared, "I didn't ask you to poke your nose into my business!"

"Oh, you want to kill me to shut my mouth?" Ferrell mocked darkly. "By yourself? You've just entered the Territory Ancestor Realm and you dare to talk arrogantly?"

"ROOOAAARRR!"

Forefather Dragon Lizard roared and his body moved. Flaming lava burst out from him. He transformed shortly after and returned to his giant dragon-like, lizard body. At this moment, he was like a scarlet flesh mountain, roaring under the sea and showing his bold intimidation. His giant body barged into the lightning area that Ferrell had created.

Rumble! Rumble! Rumble!

Boom! Boom! Boom!

The lightning balls exploded. The blinding electric arc was running across the area.

Forefather Dragon Lizard's massive body came directly to the lightning balls, which made him have electric beams crawling on his body. However, he seemed to not take any damage. He thundered and raised his giant claw to snatch Ferrell.

At the same time, inside the algae mass, Shi Yan, Mei Ji, and Emperor Sea Shark emerged. They all wore cold faces and looked at Ferrell.

Shi Yan was also surprised. He didn't expect that Ferrell would come here. As Ferrell was at the Territory Ancestor Realm, if he hid his aura, people couldn't find him from a long distance.

Shi Yan, Mei Ji, and Emperor Sea Shark loathed Ferrell a lot. Ferrell had terminated the Phantom Clan's base in the Sea of Annihilation and killed Mei Ji's subordinates. He had even chased after Emperor Sea Shark's fellows. This time, Ferrell was also behind the deaths of many Sea Clan warriors.

Seeing Forefather Dragon Lizard take action, Shi Yan, Mei Ji, and Emperor Sea Shark exchanged looks. Then, they all took action.

"Mei Ji! Emperor Sea Shark! Shi Yan!"

Ferrell discolored. He screamed and gave up fighting against Forefather Dragon Lizard, turning into a jet of light running away.

He was at the Territory Ancestor Realm, but he didn't hesitate and left without turning his head back to check!

When Shi Yan and Emperor Sea Shark had reacted, Ferrell had turned into ten jets of light and shot into different directions.

When they pull themselves together to check where Ferrell's true body went, they found that Ferrell had gone pretty far. Slowly, his aura disappeared.

Forefather Dragon Lizard turned into his real body as he thundered, "You would damage me badly this time!"

"If nothing unexpected happens, the enemy will come soon. I think Ferrell has sent the news away," Mei Ji took a deep breath. "We have to reunite with the others soon. Do you know a shortcut?"

"Of course, yes," Shi Yan smiled and said confidently, "Last time, I didn't use the best Space power Upanishad in the seabed because my realm wasn't high enough. But now, I can try."

Everyone's eyes brightened.

## [God of Slaughter](#)

### **Chapter 1515: Great Seal!**

The Sea of Annihilation was millions of miles deep and the water pressure at the seabed could break the bodies of warriors even at Ethereal God Realm. Incipient God Realm and Immortal Realm experts didn't dare to come to some dangerous areas.

Using space energy in this place, the space pressure and water pressure colliding could create a terrible catastrophe.

That's why the warriors with Space power Upanishad at normal realms didn't dare to use their power rashly.

Even Ming Hao had to shiver. While fighting against others in this area, he only used the Soul Control power Upanishad.

"Are you sure?"

Emperor Sea Shark was insecure, his face grave. "One hundred years ago, you acted rashly undersea. You made the seabed shrink a lot. This time, don't cause more trouble," his face turned grimaced.

Hearing him, people became awkward. They had all participated in that event. Remembering the great change in the seabed during that battle, they were still panicked.

Shi Yan was the one who made the Sea of Annihilation shrink!

"Don't worry. I'm pretty sure this time." Shi Yan gave a forced smile and didn't explain further. He signaled Emperor Sea Shark to ask him to cooperate by condensing the algae mass.

Emperor Sea Shark nodded.

Hundreds of clear streams like the water snakes flew out of Emperor Sea Shark's loose sleeves and swam away. Those water snakes acted like a rope that tied the mass of algae.

The algae field shrank. As people were gazing at it, the area was reduced twice and continued to resize.

Shi Yan wasn't idle.

Waves of space energy rippled from his body. As everybody else had profound realms, when they looked at him, they felt the space twist and unreal.

As they were flustered, they felt their perception of life energy magnetic field vague.

Mei Ji was around ten warriors away from Emperor Sea Shark but at this moment, Mei Ji felt that Emperor Sea Shark was pretty far from her. He was too far that her Soul Consciousness couldn't work. It was like Emperor Sea Shark was about to jump from one space to another.

The same feeling arose in Shen Ren and Emperor Sea Shark's minds. They all had felt a magical feeling when space changed greatly.

After chasing Ferrell with a negative result, Forefather Dragon Lizard returned and transformed into his human form. Forefather Dragon Lizard was surprised.

"What a powerful life energy magnetic field!"

Shi Yan was releasing energy; he didn't conceal his enormous energy stored in his body. The terrifying Blood Qi that Shi Yan had made Forefather Dragon Lizard pale.

He found that Shi Yan's life energy wasn't less than his and it was even higher than his in some aspects.

It was over his common knowledge!

Normally, Absolute Beginning creatures had the highest, immensely abundant vitality and the second generation like Dragon Lizard came second. With giant bodies, their life energy magnetic field could reach a terrifying level. The creatures of the present time like Edgar, Montecie, or Hiro had a high-level soul, and their life form could sublimate when their realm had reached a profound level. However, their vitality could never reach the enormous amount like Absolute Beginning creatures.

From the appearance aspect, Shi Yan should be from a race in this recent time but his immense life energy magnetic field could compare to someone of the second generation like Dragon Lizard. It made him smack his tongue.

Looking at Shi Yan, Forefather Dragon Lizard felt something mysterious. He nodded quietly and left the place without notifying the others.

Montecie and Emperor Sea Shark had paid attention to him. Seeing him leave, they exhaled in relief.

They all understood that since Ferrell had found Forefather Dragon Lizard here, Forefather Dragon Lizard needed to stay away from trouble. He had to explain it to the Mysterious Sky Clan. Or else, it would be big trouble to himself and his clan.

Swoosh! Swoosh! Swoosh!

While they were pondering, a whirlpool that was like a tornado appeared above their algae mass. The black whirlpool was like the mouth of a wild, giant beast that could swallow all creatures in the world.

Shi Yan was a black dot in that massive mouth. Ripples emitted from him like thousands of hands calming down the unstable energy inside the whirlpool.

Sizzle! Sizzle! Sizzle!

As the water pressure came, rays of light weaved into an electric net. People could hear a loud energy impact from that net.

Shi Yan suddenly opened his eyes, which were like immense starry skies. "Come in! Quick!"

Emperor Sea Shark was moved. He sent his soul message to his fellows. Then, he churned his energy and used the power of an expert at the Territory Ancestor Realm to grab the massive area of algae and enter the tornado. Mei Ji also gave him a hand.

Shi Yan was deep inside the tornado. He was using his energy to guide and ensure the stability of this space passage.

Rumble! Rumble! Rumble!

As the algae mass entered the tornado, the space passage was about to shatter. It shook hard.

The terrifying energy had created so many rapid currents, which killed the souls of many warriors working around there. The other warriors who weren't killed were panic-stricken and trying to escape at their max speed. They knew that those fatal currents could break both their bodies and souls.

Eventually, the algae area disappeared into the massive whirlpool.

In another area where so many vortexes gathered and moved continuously, Judy of the Mysterious Sky Clan, Oliver of the Black Demon Clan, and Edgar of the Devouring Clan watched those vortexes. Beverly had left when he received Ferrell's message. He had taken Neptune with him too. Edgar didn't leave because he knew that this place was the crucial key.

All of a sudden, fierce space energy came from one of those vortexes. As soon as that space energy arose, the vortex that led to Desolate Territory entrance changed greatly.

A blazing light pierced through the vortex from the Desolate Territory's side. It was like a spotlight thrusting toward the sea surface.

That light seemed able to cross the entire sea. While the people on this side were baffled, a blue life star with the archaic aura of chaotic time slowly emerged from the territory entrance.

People gawked as if their eyeballs were about to fall out of their sockets.

As soon as the life star emerged, columns of strong light gathered at its clouds layer creating that previous fierce spotlight.

The Territory Ancestors like Montecie, Hiro, and Dracula wore solemn faces and stood on the cloud sea of that planet. The massive light columns made of pure energy were created by those experts. Hiro and Montecie had created bright crystals in the middle of those columns, which were like dazzling cubic diamonds. They were the crystallized Dark Energy with supernatural powers.

Actually, those light columns were like scattered crystals that were vaguely arrayed in a complicated, magical ancient formation.

The center of the ancient formation was where the strong light emitted. It was a mysterious passage that could be changed on the left side of the territory entrance!

Crack! Crack! Crack!

The vortex by the life star made sounds of space cracking. While people were worried, Shi Yan brought Emperor Sea Shark, Mei Ji, and the algae mass.

"Shi Yan!"

"Kid, you're back!"

"If you were a little late, we would have gone first!"

Hiro, Dracula, and Montecie screamed in fright.

As they were on the other side of the territory entrance and creating the passage to the Cloud Mist Territory with a lot of efforts, they suddenly found the auras of experts at the same level on the other side. They immediately knew that something was wrong.

Just like Shi Yan, they guessed that Edgar had disclosed the entrance's location and invited the experts from the five clans.

Since Hiro and Montecie had just consumed a lot of energy, they wanted to avoid this direct confrontation. They became worried.

While they were waiting for Shi Yan, they found Edgar, Judy, and Beverly gathering more warriors; they could attack them in any minute. They discussed and decided to leave earlier. Then, they recognized Beverly had taken Neptune and some warriors, so they left.

Hiro and Montecie seized this chance to run. They immediately gathered their power.

At the moment, this life star stormed through the territory entrance and Shi Yan, Mei Ji, and Emperor Sea Shark had arrived. It could not be more perfect than this.

“Go!” shouted Hiro.

“Do not let them run away!” Edgar roared.

The experts of the Black Demon Clan, the Ancient Monster Clan, and the Soul Clan moved forward and tried to stop the others.

“Great Seal Technique!” Montecie’s petite body slightly quivered. To open the passage leading to Cloud Mist Territory, she had consumed a lot of energy. Seeing the warriors swarm towards them, she hissed to Shi Yan.

Shi Yan reacted after a second of being dazed. The secret technique that used both Time and Space power popped up in his head. He nodded to Montecie. All of a sudden, so many light doors appeared by his chest, which looked like they were from different spaces. They were conjured quickly.

“Seal Space!”

Dark Energy gushed and turned into seven-colored crystals inside those space doors. Each of them seemed to create a small world.

So many spaces connected to each other and created space locks. The enormous amount of space locks appeared in the real world and locked the entire area, sealing space!

Many warriors of the Soul Clan, Ancient Monster Clan, and Dark Demon Clan were frozen as space sealed their bodies.

However, the warriors with high realms could use their energy to break the locks as their souls were not sealed!

“Seal Time!”

At this moment, Montecie’s Time power Upanishad was activated.

The time seal was like an invisible water stream that froze the souls. As the time prison came, those who could still move after the space lock all froze.

They couldn’t even move an inch!

Even Oliver at the Territory Ancestor Realm couldn’t wiggle. He was sealed in just a blink of an eye.

Oliver was sealed, which made many warriors behind him pale. They hesitated and didn’t dare to risk their lives.

Seizing the chance, Emperor Sea Shark's fellows came to Grace Mainland. Then, Grace Mainland turned into a jet of light, entering the light passage and piercing through the Sea of Annihilation.

Edgar could only gawk at Shi Yan's group leaving easily because he wasn't sure that he could break the Great Seal Technique.

### God of Slaughter

#### **Chapter 1516: Sauron**

From the center of the mill-like whirlpools, Grace Mainland moved through the fierce light passage and went far away.

Edgar, Judy, and the experts of the five clans could only watch the planet disappear. They didn't dare to chase after it.

Because Oliver was still sealed over there!

Oliver was a Territory Ancestor with a profound realm. As he was sealed, everybody else was frightened. They halted and didn't want to take risks.

Except for Oliver, hundreds of Incipient God Realm and Immortal Realm were sealed by the Great Seal Technique. Their cells, blood, and even souls were stopped. They couldn't use a bit of their energy or even think.

Pieces of space had locked bodies. Montecie's waves of Time seal had imprisoned people's thoughts and prevented them from using soul energy. Just like the fossils inside the rock, unless someone helped them and broke it from the outside, they couldn't get out on their own.

Edgar and Judy were at Second Sky of Territory Ancestor Realm, but they also changed their countenances when they saw Oliver being sealed.

They quietly urged their energy and sent wisps of Soul Consciousness to pry in that area. However, when their Soul Consciousness went to the sealed area, they froze altogether.

Edgar and Judy exchanged looks, their faces stern. "When Time and Space are sealed, it can stop the body and even the mind. It's really dangerous. It's lucky that Shi Yan has only the Peak of Immortal Realm cultivation base. Otherwise, the trouble would be ten times harsher!" Edgar was frightened.

"If Shi Yan and Montecie are at the same realm when they use this technique, they can even seal both of us!" Judy added and quivered!

Looking at that blue planet disappearing, Judy's eyes had a dim halo as she said, "Cloud Mist Territory!"

"The territory between the White Bone Clan and the Phantom Clan?" Edgar was grave.

"Right, that territory was controlled by the Phantom Clan for years. The territory entrance is right between the White Bone Clan and the Phantom Clan. Montecie's mind is connected to the territory entrance," Judy replied and then stayed silent as if she was considering something.

Edgar wore a stern face.

They were waiting in silence.

After Shi Yan and Montecie disappeared, Shi Yan didn't pour more energy into the space seal, so it weakened gradually.

The Seal was slowly lifted.

Oliver got rid of the seal first. With an icy face, he came to Edgar and Judy. "Why did you guys not help me with that seal?"

"I wasn't sure I could return intact," snorted July.

"If they can seal you, they can seal us too. We don't want to take risks," said Edgar indifferently.

While they were talking, Shi Yan's space seal was loosening. After his space locks had become ineffective, Montecie's time seal disappeared shortly after. The sealed warriors finally regained their mobility.

After a while, Beverly, Neptune, and Ferrell returned with nothing. Forefather Dragon Lizard also arrived.

They exchanged information for a while. Because of Shi Yan's teleporting ability, they had missed the chance to kill them.

Ferrell sneered regretfully and spoke about Forefather Dragon Lizard staying inside the algae mass. He accused the other of joining Shi Yan. Edgar and the others immediately wanted to interrogate Forefather Dragon Lizard.

Judy of the Mysterious Sky Clan kept a calm face and signaled Forefather Dragon Lizard to come to her side. She turned to Edgar and Beverly. She said in a rather neutral voice, "It's our Mysterious Sky Clan's business. We didn't ask you to care."

"It's he who told Shi Yan our plan!" Ferrell hissed coldly. He hated that Forefather Dragon Lizard had suddenly attacked him and made him run helter-skelter.

Forefather Dragon Lizard stood by Judy, frowning and saying nothing.

Judy didn't look at him, her voice cold. "It's our Mysterious Sky Clan's matter. You're not qualified to ask. Moreover, the Mysterious Sky Clan hasn't formed an alliance with you guys yet. Why do you have to scream and yell here?" Pausing for a while, she continued with a colder voice, "We're here this time because Edgar said that he found Desolate Territory's entrance. We don't actually want to start a war against the White Bone Clan and the Phantom Clan. It's just your narrow idea."

Hearing her, Edgar, Beverly, and Neptune grimaced.

They finally remembered that Judy hadn't stated that she wanted to join hands with them to deal with the White Bone Clan and the Phantom Clan. Previously, when they had aimed at Shi Yan and Hiro, the members of the Mysterious Sky Clan didn't do anything.

"Then why are you here?" Edgar frowned.

“Was I not clear enough? We’re here because of Desolate Territory’s entrance. However, it seems that something great has happened to Desolate Territory. You didn’t get in there, but you invited us here. It’s because Shi Yan, Hiro, and Montecie are there. You aren’t here because of the Absolute Beginning creature of Desolate Territory.”

Judy sneered as if she could read Edgar’s mind. She didn’t want to stay anymore and just waved her hands. “We should go.”

Then, she took Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard and bid farewell to Edgar’s team. Before leaving, Judy shot Edgar and Beverly a meaningful look.

“We will meet up soon,” said Beverly with a cold face.

-----

“I don’t understand,” Ya Yun looked skeptical when she turned to Judy as they were heading to the surface of the Sea of Annihilation.

“We came this time to not fight against Shi Yan, Hiro, and Montecie. I just wanted to confirm something,” Judy smiled, “Han Tian used to talk to Bloodthirsty and he knew some secrets of Desolate Territory and the Devouring Clan. Yeah, Edgar didn’t dare to enter the territory entrance. He just stood outside. It meant something terrible had happened to Desolate Territory. Shi Yan, Hiro, and Montecie had brought that life star and left the Desolate Territory. It confirmed my assumption. It seems that... Desolate has woken up. I just wonder if it has recovered all of its energy...”

“I don’t get it,” Tu Shi Qi forced a smile.

“There’s something you don’t need to understand clearly,” Judy frowned, “You shouldn’t have told Ling Mei about Shi Yan! That little girl was self-righteous. She had caused trouble. We couldn’t have a good relationship with Shi Yan. It’s not a good thing to do!”

She changed her voice and said to Forefather Dragon Lizard. “I don’t really mind that you and Shi Yan have a close relationship. Actually, Han Tian and I hope that you could talk to him more. Including you two!” she turned to Tu Shi Qi and Ya Yun.

“Why?” Forefather Dragon Lizard, Tu Shi Qi, and Ya Yun asked at the same time.

“Because Shi Yan is Bloodthirsty’s successor. Also, because Forefather Han Tian used to talk to Bloodthirsty, he knows something. Shi Yan will become an extraordinary character, a crucial element in the future!” Judy pondered and then asked Forefather Dragon Lizard, “How is Shi Yan’s personal competence?”

“Too deep to estimate!” Forefather Dragon Lizard said with a stern face, “If I battle him, I’m not confident that I can win!”

“How could that be?” Tu Shi Qi and Ya Yun were frightened.

They knew Forefather Dragon Lizard was the second generation of an Absolute Beginning creature and they knew how he had a terrifyingly immense vitality after he had broken through to the Territory Ancestor Realm. Tu Shi Qi and Ya Yun estimated that Forefather Dragon Lizard was even more intimidating than Neptune and Ferrell. And he said that he wasn’t confident to beat Shi Yan?

How could they buy it?

“Are you sure?” Judy was startled.

“The intensity of his life magnetic field is even thicker than mine! It means that his body has power similar to my true body!” said Forefather Dragon Lizard.

Tu Shi Qi and Ya Yun were panic-stricken.

Judy looked pensive. She nodded and then said, “It is so.”

“Actually, I met Shi Yan because he said that he might know something about our Ancestor Lizard’s death. He said it could relate somehow to Sauron,” explained Forefather Dragon Lizard.

“Sauron!”

Judy trembled slightly.

“What happened?”

“Lately, Sauron came to Han Tian and me. He wanted to invite us to accompany him somewhere. He also went to the Black Demon Clan, the Ancient Monster Clan, the Devouring Clan, and the Soul Clan. I think he had also invited Serene Prison, Edgar, and Beverly too. It’s also why Beverly said we would meet up soon,” Judy explained. “Han Tian and I talked. We want to go. If nothing unexpected happens, Serene Prison, Edgar, and Beverly will join too. Since Hiro and Montecie are back, I think their fellows will report them on Sauron’s invitation. I think they will go too.”

Tu Shi Qi, Ya Yun, and Forefather Dragon Lizard gawked in a daze.

Han Tian, Judy, Serene Prison, Edgar, and Beverly were the peak of existences in the Sea Domain of Nihility. They belonged to the group of the Ten Great Territory Ancestors. What would gather the experts at their level?

What would attract all of them there?

“I shouldn’t tell you the details. It has been decided pretty early on. Sauron has been watching that area lately. If he comes to us, it means that the time has finally come,” Judy sounded mysterious. Pondering for a while, she added, “When I meet Sauron, I will ask if he’s related to your Ancestor’s death.”

Forefather Dragon Lizard didn’t know what to say.

“You and Forefather Han Tian want to go there together? Where is that place after all?”

Judy looked at him indifferently. After a while, she said deliberately, “If you can break through to Territory Ancestor Realm, I will tell you.”

Forefather Dragon Lizard didn’t say a word.

He had reached the Territory Ancestor Realm, but Judy would never tell him this. Forefather Dragon Lizard understood that he wasn’t a real member of the Mysterious Sky Clan. If Tu Shi Qi and Ya Yun ended up reaching Territory Ancestor Realm, Judy and Han Tian would tell them this secret.

He was just a Nonnative Officer even though he was loyal. To some secrets, Judy and Han Tian drew a distinct line.

## God of Slaughter

### **Chapter 1517: Cloud Mist Territory**

Cloud Mist Territory.

It was a sea of white and gray clouds where clusters of clouds filled each corner of the territory. At first glance, it was just an infinite, empty world.

The massive continents floated above the immense cloud sea. Although the continents scattered away from each other, they had mountains, lakes, rivers, creatures, and energy, everything a normal world had.

It was the Cloud Mist Territory, a natural territory, the world of the Cloud Tribe.

“The Cloud Tribe can be deemed a second-class tribe. They haven’t had any expert at the Territory Ancestor Realm yet. The members of the Cloud Tribe rarely leave this place. They stay within the Cloud Mist Territory. When the Phantom Clan conquered this territory, we had to pay a big price. We had exerted a lot of effort. The members of the Cloud Tribe in this Cloud Mist Territory are very powerful. This vastly immense cloud sea can give them power. In this place, they are the fish who can enhance their abilities to the best in the clouds. It’s something that the creatures in other territories can’t compare to.”

On the lonely life star floating above the cloud sea, Montecie watched the clouds and explained to Shi Yan on Cloud Mist Territory.

After they had torn the space to enter Cloud Mist Territory from the Sea of Annihilation, Hiro, Gay, Dracula, the little skeleton, and their bone fellows had returned to the Sea Domain of Nihilicity to get back to their own territory.

Similar to Desolate Territory, Cloud Mist Territory wasn’t inside the Sea Domain of Nihilicity. However, it had a territory entrance that led directly to the Sea Domain of Nihilicity.

That gateway was right in front of Shi Yan. It was a big cluster of clouds heavily guarded by members of the Phantom Clan who were based year-round in the Cloud Mist Territory.

Through the gateway, they could visit the Sea Domain of Nihilicity. It was located in a strange place between the White Bone Clan and the Phantom Clan.

Listening to Montecie, Shi Yan slowly floated up from Grace Mainland. He found that the gravity in this Cloud Mist Territory so strange. In this territory, people were as light as birds, which enabled them to fly like real birds. Even the lowest realm warriors could use their energy to run as quickly as they can fly.

Checking around, Shi Yan saw many creatures flying through the clouds between the continents.

There were so many flying battleships moving between the continents. This territory had a various range of races. He saw members of the Human clan, the Demon Clan, the Monster Clan, but the fellows of the Cloud Tribe had outnumbered them.

The Cloud Tribe was the native species in this Cloud Mist Territory; they had distinctive features compared to other races.

They had flesh bodies but they didn't seem to have veins. Their bodies had currents of clouds gathering into some points where their energy condensed. They absorbed earth and heaven energy in the Cloud Mist Territory to cultivate, which had the faint mist blended all together. After a long time, the source of energy in their bodies had become like a magical cluster of clouds.

Montecie stood on Grace Mainland and talked to Mei Ji and Shi Yan.

After around fifteen minutes, as Montecie was still introducing the Cloud Mist Territory to Shi Yan, they saw the massive, flying battleships emerge. Those battleships carried members of the Cloud Tribe, one of which had carried the good-looking people of the Phantom Clan. They could see an especially outstanding man among that crowd.

This man wore a long, silver robe. His eyes were like stars in the sky. He had perfectly proportioned facial features. He was more handsome than the handsome men of the Phantom Clan.

That good-looking man was around thirty years old and had graceful and elegant manners. He crossed his arms in front of his chest and stood on the front deck of the battleship, many warriors of the Phantom Clan behind him. The experts of the Cloud Tribe also looked at him with great and sincere respect.

"It's true that Fan De Lei likes the Cloud Mist Territory a lot. He's still here to cultivate. It's interesting." Seeing the man come with exaggerated settings, Montecie grinned and shot Mei Ji a meaningful look. "This kid Fan De Lei has always cared about you. I heard that he likes you a lot. Now, you've reached the Territory Ancestor Realm and you're with Shi Yan. I wonder if it's gonna be alright."

Mei Ji went stiff. "He doesn't dare to violate your order, Grannie."

"Haha," Montecie just smiled and said nothing else.

Only the members of the Phantom Clan stood by Montecie and Mei Ji. Blood Devil, Yang Tian Emperor, Ming Hao, and the others stayed on the continent. They didn't go out.

"Fan De Lei is the strongest man in our Phantom Clan. He reached the Territory Ancestor Realm three hundred years ago. He's like my brother. We used to live in the same tribe. He took good care of me," Mei Ji explained as she was afraid that Shi Yan would misunderstand. "He has spent a lot of efforts to conquer this Cloud Mist Territory. The members of the Cloud Tribe, the previous owner of this territory, have followed him. Many Cloud women consider him their dream lover. As he's been living for years in the Cloud Mist Territory, I think he won't give the place away easily."

Shi Yan listened to her quietly. He frowned and then talked to Montecie, "If there's trouble in this territory, why don't we change to another one? The Phantom Clan doesn't have only one territory, I suppose?"

“Of course not. However, only the Cloud Mist Territory has thick earth and heaven energy with suitable cultivating conditions. Moreover, it’s between our Phantom Clan and the White Bone Clan,” Montecie twisted a tuft of her black hair around her finger, her face relaxed. “What are you afraid of? Fan De Lei?”

“No, not him. I don’t want trouble.” Shi Yan pulled an impatient face. “If it’s too annoying, I should talk to Hiro to see if the White Bone clan has some good area.”

Montecie changed her visage. She became more resolute. “Don’t worry! There will be no trouble!”

She pulled a stern face, waving at Fan De Lei and calling him.

The flying battleships stopped. Fan De Lei rode a snow-white shuttle with dozens of Phantom Clan warriors and the members of the Cloud Tribe. He bowed to her from a far distance, “Greetings, Grannie!”

In the Phantom Clan, there was no one with a higher position and echelon than Montecie. Although she had used her Time power Upanishad to keep herself in the shape of a little girl, she was likely even older than Edgar and Hiro.

Since Montecie looked like just a little girl, her state of mind was in the same phase. However, she had the wisdom and experience of a peerless grannie. She had already considered Fan De Lei troublesome. That’s why she came here personally.

“Rise,” Montecie waved her hand arrogantly, her clear eyes scanning Fan De Lei’s team. The others wore solemn faces and bowed deeper.

Montecie gazed at them and they had a fear as if their previous lives and the current life were exposed, especially the members of the Cloud Tribe. It was the first time they saw the real head of the Phantom Clan, the peerless character and one of the Ten Great Territory Ancestors of the Sea Domain of Nihilism. They were petrified and couldn’t say a word.

“I wonder what important matter requires Grannie to the Cloud Mist Territory?” Fan De Lei stood upright, his voice solemn. “If you have something you want to do, just send the order. I will do my best for my clan. I will never hesitate! At your echelon, it’s a big surprise. I’m scared that you care so much.”

Mei Ji became odd and quietly knitted her brows.

Perhaps the low-level members of the Phantom Clan didn’t know that she and Mei Ji had come to Desolate Territory. However, Fan De Lei had ears and eyes everywhere. It was impossible that he didn’t know that.

Shi Yan was right next to them. With Fan De Lei’s intelligence, he must know about that. However, he acted as if he knew nothing. Mei Ji immediately smelled trouble. Fan De Lei wouldn’t cooperate to share the territory with the others.

“I’m not here because of you,” Montecie narrowed her eyes as she realized Fan De Lei’s thoughts. “Let me introduce this young man. He is Shi Yan. Yeah, he’s the one who got the Power Upanishad Symbol Tower on the seabed of the Sea of Annihilation. We came to Desolate Territory as he had invited us. I’m going to be frank. Shi Yan has brought a life star and gotten rid of Desolate Territory. I plan to let them stay in the Cloud Mist Territory. They will live here from now on...”

“Is that so?” Fan De Lei looked as if he was surprised. He smiled with ease and looked at Shi Yan with friendliness before continuing, “Bro, you can come and stay in our Cloud Mist Territory; it’s an honor for Cloud Mist Territory and me! Don’t worry. I will choose a good place for you. I’m sure you will be satisfied living there.”

He still considered himself the master as if he didn’t get Montecie’s words.

“Our Cloud Tribe will cooperate with Sir Vanderly. We will arrange the best auspicious land for them to cultivate,” committed an elder of the Cloud Tribe whose white beard reached his chest.

They had explicitly expressed that Fan De Lei was their leader. They wanted to show Montecie that they only listened to Fan De Lei.

Mei Ji grimaced.

Grace Mainland was hovering in the center of Cloud Mist Territory where there was the thickest earth and heaven energy. This place used to be Cloud Tribe’s holy land where they worshipped their ancestors. Fan De Lei had attacked and cleared this place. That’s why it became empty, which was suitable for Grace Mainland to stay.

No other area was more suitable for Grace Mainland than this place in the entire Cloud Mist Territory.

However, according to that old Cloud man, they would relocate Grace Mainland soon, which went against Montecie’s wish.

They didn’t want to listen to Montecie!

“We don’t need to waste time and effort to move it. This place is really good. I won’t deny it,” Shi Yan smiled and intervened. His look drilled at that old man. “Well, I was hesitating whether to stay in Cloud Mist Territory or not. But you guys are so welcoming. I think, yeah, it’s really nice to stay here! Right, we have to give you face, don’t we?”

When he said that, he turned to look at Montecie.

Montecie didn’t have a satisfied face. She grinned when she heard him, “Interesting, interesting!”

However, hearing Shi Yan, the members of the Cloud Tribe had evil in their eyes. They were trying to subside their anger as they looked at Fan De Lei.

They were waiting for Fan De Lei to stand up.

## [God of Slaughter](#)

### **Chapter 1518: Skyfall Star River Absolute Beginning Divine Weapon**

Fan De Lei was a member of the Phantom Clan. When he invaded the Cloud Mist Territory that year, the Cloud Tribe, the native tribe, had considered him as their archenemy. To conquer this place, the Phantom Clan had to pay a tragic price.

That old man from the Cloud Tribe was called Dalsa. He was the current Chief of the Cloud Tribe. Previously, he was just the head of one of the big families in the Cloud Tribe.

When Fan De Lei invaded Cloud Mist Territory, Dalsa got the chance. He knew the Cloud Tribe couldn't resist the Phantom Clan. Their defeat was just a matter of time. Dalsa discreetly joined hands with Fan De Lei, and his daughter, Cilan, had a close-knit connection between him and Fan De Lei.

Outsiders couldn't know the situation, but it resulted in Dalsa opening a hole in Cloud Mist Territory and directly leading Fan De Lei and his elite force from the Phantom Clan to where the former chief of the Cloud Tribe was hiding. Dalsa and Fan De Lei had joined hands to kill him.

As the former chief was murdered and Dalsa had controlled the situation from the inside, the Cloud Tribe's resistance dissolved quickly. Eventually, Dalsa became the new chief of the Cloud Tribe and his daughter Cilan became Fan De Lei's mistress.

Dalsa had a treaty with Fan De Lei which said that when he became the Chief of the Cloud Tribe, the Cloud Tribe and Cloud Mist Territory would be dependent on the Phantom Clan, and they would serve Dalsa as their master.

It was a business everyone felt satisfied.

With Dalsa's help, Fan De Lei had come and ruled Cloud Mist Territory. Gradually, he took hold of the entire Cloud Mist Territory.

With Dalsa as his insider, Fan De Lei was really talented. Shortly after, he gained the respect from the Cloud Tribe. Fan De Lei didn't rob the rich lands in Cloud Mist Territory but managed it as his own kingdom. He had introduced many techniques and power Upanishads of the Phantom Clan to the Cloud Tribe, which earned him trust and respect from the tribal fellows.

It could be said that the Cloud Tribe trusted and served Fan De Lei only, and not any other expert of the Phantom Clan.

The Cloud Tribe had become Fan De Lei's private army.

As Montecie had suddenly arrived with Shi Yan and an entire life star, she seemed to want to give Cloud Mist Territory to Shi Yan. Of course, Fan De Lei didn't agree and neither did the Cloud Tribe.

However, Montecie was the expert with the strongest realm in the Phantom Clan. Fan De Lei didn't dare to confront her directly. He was patient as he signaled Dalsa and said, "You should rest now. You've had a long journey. We will talk about the matter later. Grannie, what do you think?"

"Shi Yan and his people will stay here. Mei Ji and I have left the clan for a long time. We have to get back as soon as possible to chair the clan." Montecie knew what Fan De Lei wanted, but she didn't expose him. "I agreed to let Shi Yan and his people manage the Cloud Mist Territory. Do you have any other idea?"

"What Grannie has decided, of course, I will do my best," Fan De Lei agreed immediately.

The Cloud Tribe members behind him showed their discontent faces, which weren't aimed at Fan De Lei. They loathed Montecie and Shi Yan.

"Good then," Montecie looked at him deep into his eyes and waved her hand. "Dismissed. I want to talk to Shi Yan in private."

“Yes.” Fan De Lei brought his subordinates and the Cloud Tribe members and left.

Montecie’s face slightly went stiff as she said, “Recently, Fan De Lei and she have been close to each other. They’ve become more arrogant. He dares to provoke me inwardly too.”

Mei Ji saw Fan De Lei leaving, her thoughts flickering. “We’ve been away for a long time. I wonder if she has done something...”

“Who?” Shi Yan was surprised.

“In our Phantom Clan, besides Grannie, there’s another expert. She’s called Cantecie. She’s Grannie’s younger sister. Her realm... I’m not sure about it,” Mei Ji turned to Montecie.

“Montecie? Cantecie? Sisters?”

Shi Yan wore a strange face. He was curious but he didn’t ask.

As Montecie mentioned Cantecie, Montecie’s petite face went cold. She snorted coldly, “Let alone you, I don’t know her realm, either. Anyway, I assume that she reached Second Sky of Territory Ancestor Realm. She also helped Fan De Lei advance to Territory Ancestor Realm too! This little sister hates me a lot. She’s always wanted to compete with me. She has foiled my plans many times too! If she wasn’t my sister, I would have killed her already!”

“Forgive me for asking this. Are you blood sisters?” Shi Yan was curious.

“Different mothers,” Montecie’s voice was cold and stiff. “I don’t want to talk much about her. I brought you to Cloud Mist Territory this time to manage it. If that Fan De Lei intervenes, just do what you want! I know he just entered the Territory Ancestor Realm not long ago so he can’t defeat you. Also, the warriors of his team and even the experts of the Cloud Tribe can’t match your men!”

“I don’t want trouble in your Phantom Clan’s territory. And I don’t want to get involved in your sisters’ competition,” Shi Yan frowned.

“Well, actually, Grannie has her own idea in this. Under this cloud sea...” Mei Ji said, turning to Montecie. Seeing Montecie nod, she continued, “Rumors say that the Skyfall Star River is right under this cloud sea!”

“Skyfall Star River? What’s that?” Shi Yan sounded mindful.

“An Absolute Beginning divine weapon! If a warrior with the Star power Upanishad can control the Skyfall Star River, he can use unimaginable powers! This Absolute Beginning divine weapon was very famous in the Absolute Beginning Era. People said that it could control all the stars in the sky. When the Absolute Beginning Era ended, it disappeared. No one knew where it has gone. Before the Phantom Clan has invaded the Cloud Mist Territory, we heard from some oldest dwellers in the Cloud Mist Territory that the skies of Cloud Mist Territory used to have the brightest star river in this world. One day, it fell deep into the sea cloud and no one has ever seen it again...” explained Mei Ji.

Shi Yan lifted his head to watch the sky. He found no shining star in the skies of this Cloud Mist Territory.

“Fan De Lei cultivates Star power Upanishad. That legend is the reason why he has conquered and then stayed here to cultivate.” Mei Ji watched the cloud underneath. “Grannie invited you to Cloud Mist

Territory with the hope that you could subdue Fan De Lei. She also gave you a chance. You can find the Skyfall Star River. Recently, I received information that Fan De Lei seems to have some clue as he goes out more often. It's in the old holy land of the Cloud Tribe, which is where Grace Mainland hovers!"

Listening to her, Shi Yan's eyes brightened up.

The Skyfall Star River was an Absolute Beginning divine weapon! It was the best weapon for warriors with the Star power Upanishad.

Taking a deep breath, Shi Yan smiled and said to Montecie, "Thank you for your efforts. I know my plan."

"I heard from Mei Ji that it doesn't require a lot of materials to refine a Upanishad Original Symbol. Ah, I'm thick-faced to ask for an Absolute Beginning Original Symbol when I have a chance. I want to use it to break through my current realm!" said Montecie seriously. "Don't worry. I'll pay you generously!"

"Oh, I don't dare!" Shi Yan grinned.

Patting Shi Yan's shoulder, Montecie said, "Mei Ji and I have to return to the Phantom Clan. I have to ensure that Cantecie doesn't create troubles when I'm not there. You deal with the matters in this Cloud Mist Territory alone. You... just do what you think right."

-----

Deep in the immense sea cloud was a massive continent with so many majestic mountains in between the clouds.

On a peak, many imposing palaces were situated like giant beasts. It was Dalsa's territory. After Dalsa had joined Fan De Lei to kill the former chief of the Cloud Tribe, this area had become richer and livelier. It was the symbol of power in the Cloud Tribe.

Inside a hall filled with gemstones, Dalsa was with his daughter Cilan, some experts in his clan who were serving Fan De Lei, and his sister Fan Hui Nai.

Fan Hui Nai was Fan De Lei's older sister. As a woman of the Phantom Clan, of course, she was very beautiful. Her pretty eyes were watery with endless attractiveness. She wore a long, hibiscus red dress, which outlined her voluptuous body. This dress had a loose neck that showcased her white breasts. The experts from the Cloud Tribe had a flame in their eyes.

Many brawny and young hotshots of the Cloud Tribe gulped. When they eyed Fan Hui Nai, they didn't conceal their desire.

Fan Hui Nai grinned and shot them her alluring looks. The men of the Cloud Tribe felt their blood boil in their veins, which could turn them into thirsty beasts in any minute.

Fan De Lei grimaced. He rolled his eyes at his sister. Fan Hui Nai subsided when she saw his angry expression. She sat up and pretended to be a noble lady as she smiled, "I've heard about that Shi Yan. That kid has good deeds. He lured Mei Ji, the most beautiful woman of my clan. I think he's extraordinary, indeed. In the Sea of Annihilation, he had robbed the Power Upanishad Symbol Tower and gotten out alive. It attests to the fact that he's not easy to deal with. You guys should be extra careful."

Fan Hui Nai was at Third Sky of Immortal Realm and her competence wasn't as strong as her brother. Although she was slutty, she had helped her brother a lot. She also had helped Fan De Lei contact Cantecie. She had to kneel in front of the cave mansion where Cantecie cultivating for a long time to beg her to use cultivating materials of the clan to help Fan De Lei reach the Territory Ancestor Realm.

Thus, when she had done lewd affairs, Fan De Lei couldn't criticize her. He had helped her conceal many dirty things.

"They are staying in the former holy land of our Cloud Tribe. The clue we got also indicates that location!" Cilan and Fen De Lei had an affair and she was also a beautiful Cloud woman. She was Dalsa's daughter. Just like her father, she was infamous for her dark deeds. She had destroyed many families. Dalsa had counted on her a lot. "If we don't solve them, we can't continue to search for the Skyfall Star River."

"Little Lan, do you have any good idea?" asked Fan De Lei tenderly.

"Of course," Cilan's bright eyes emitted the cold halo. "You and our family has paid a lot to get this Cloud Mist Territory. We won't let others take it for free. We won't let anyone ride our necks. We especially have to find the Absolute Beginning divine weapon inside the sea of clouds. It will be a crucial advantage for you to become a leader in the Phantom Clan!"

This woman's ambition wasn't bound to the Cloud Tribe or Cloud Mist Territory. She had schemed against even the Phantom Clan and she wanted to borrow Fan De Lei's hand to join the powerful echelon of the Phantom Clan...

## God of Slaughter

### **Chapter 1519: Troublesome**

Grace Mainland was now located in the old holy land of the Cloud Tribe. This mass of cloud sea was strange; it had so many ivory clusters of clouds rising from beneath and hovering like pieces of cotton by Grace Mainland.

It was extremely pure earth and heaven energy.

Grace Mainland was even stranger. This ancient continent came from Desolate Territory with abundant energy. After it had stopped here, the magnetic field of Grace Mainland expanded. It was quietly gathering earth and heaven energy around and guiding it to the continent.

It made the warriors on Grace Mainland crack in happiness.

Endless Sea.

The warriors from other great star areas had come and dwelled on the islands scattered around the vast sea.

Ming Hao, Frederick, and Xuan He had chosen the islands belonging to the Dong Fang Family and the Gu Family. They had accommodated the retinue members cultivating the eight great, evil power Upanishads. Ming Hao, Frederick, and Xuan He had chosen a place for themselves to cultivate and aimed for the Territory Ancestor Realm.

The members of the Yang family and the Shi family dwelled and cultivated on the Immortal Island. They were spending a lot of effort to build and strengthen the place.

Black Water Sea Area, the Kyara Sea, Vault of Heaven Sea Area, Yuan Luo Sea Area, and the Tuta Sea hosted the other forces. Shi Yan had requested their leaders to strictly control their subordinates. Everybody was busy building new homes and gathering forces.

Many people couldn't adapt well when they first left Desolate Territory. However, as the situation had come to this, they didn't have a way back so they had to keep moving forward.

Many of them were experts with a great reputation in Desolate Territory. They all had profound realms and outstanding talents. As Grace Mainland had thick earth and heaven energy, they didn't hate cultivating here. Also, they knew that they had to count on Shi Yan from now on.

Deep inside the Endless Sea was where Emperor Sea Shark and his fellows stayed. On the seabed of the Endless Sea, Emperor Sea Shark taught the Sea Clan low-realm warriors. He had benefited the Sea Clan warriors in the Endless Sea a lot and many of them had advanced fast.

Deep under the sea, inside a brilliant crystal palace, Emperor Sea Shark's voice was like a dragon roaring that emitted through the sea water.

Many members of the Sea Clan had traveled a long distance to come to the crystal palace and study the power Upanishads with Emperor Sea Shark. They all looked earnest.

Also, this crowd of students also consisted of members from the Gu God Sect and even members of the Wu families. Moreover, most of them were experts. They got news and they came to learn the true meanings of power Upanishads with Emperor Sea Shark.

Emperor Sea Shark was at the Territory Ancestor Realm!

On this Grace Mainland, he had the highest realm and was one of the peerless existences. The warriors at the Immortal Realm hoped that they could learn something deeper about their power Upanishads from Emperor Sea Shark.

As Emperor Sea Shark was teaching them, he suddenly raised his brows. He released the Soul Consciousness to check the commotions around...

His eyes turned strange; he found that the energy pouring into Grace Mainland from the clouds was reducing greatly!

The earth and heaven energy in Cloud Mist Territory wasn't ordinary; it was really suitable for warriors from different clans to cultivate. This place especially had the thickest earth and heaven energy. After Grace Mainland had come, it had continuously absorbed energy and filled the creatures and plants on the continent. It helped the warriors condense the God power faster.

Emperor Sea Shark was very satisfied with this stop.

However, the earth and heaven energy pouring into Grace Mainland reduced greatly. Emperor Sea Shark was frightened as he knew things had gone wrong. "We're done for today. I have something to do." Emperor Sea Shark stood up and gave Hu Jiao and Shen Ren some notes and then left alone.

Shortly after, Emperor Sea Shark came to the cloud layer outside Grace Mainland.

Inside the sea of clouds, Shi Yan was frowning and watching Grace Mainland with a dark face.

Seeing Emperor Sea Shark, he nodded and said, "You got it too?"

"The earth and heaven energy in this area is reducing. It's not normal. I'm sure someone is troubling us." Emperor Sea Shark and Shi Yan hovered by Grace Mainland. Emperor Sea Shark watched the clouds underneath, "This cloud sea used to be the holy land of the Cloud Tribe. Logically, it should have the thickest earth and heaven energy. And it's true. But now, the energy is reducing rapidly. What happened?"

Shi Yan has just come to the clusters of cloud underneath Grace Mainland to check, but he hadn't found anything yet.

The clouds hindered the eyes and even the Soul Consciousness. The sea clouds were really vast. If something changed somewhere, it would be very difficult to spot.

While Emperor Sea Shark and Shi Yan were pondering, their faces darkened as they saw a group of warriors quietly approaching.

They were Fan De Lei, Fan Hui Nai, Dalsa, and Cilan. They had come here half a month ago when Montecie and Mei Ji were still here. As they came again at this moment, Shi Yan would never be convinced if they said that the reducing earth and heaven energy had nothing to do with them.

"Oh!"

Fan De Lei's face turned solemn. He looked at Emperor Sea Shark from a far distance, his eyes releasing bright divine light.

"Who is he?" Dalsa and Cilan noticed Fan De Lei's face. As soon as they saw Emperor Sea Shark, they felt their heart get stuck. It was the invisible pressure from a peerless expert.

"Emperor Sea Shark from the Sea of Annihilation's seabed!" Fan De Lei shouted.

"Oh, that's him!" Dalsa changed his visage and became worried. "Emperor Sea Shark is also at the Territory Ancestor Realm. Why is he with them? What's the relationship between them? Does he want to settle down on that life star?"

After Montecie and Mei Ji had left, Dalsa assumed that Cloud Mist Territory now had only one Territory Ancestor, which was Fan De Lei. They thought that they could manage everything with his power.

But with Emperor Sea Shark, there was another added variable.

They had a character that could resist Fan De Lei!

Cilan was surprised too. Her plan of forcing the others failed. She put on a smiling face and moved forward, "Distinguished guests, we were hurried the last time so we didn't explain something to you. We came to do that now. The holy land of our Cloud Tribe is really strange. The earth and heaven energy in this place is like a tide. When the tide rises, the energy is extremely rich. It has the thickest energy in

the entire Cloud Mist Territory. However, when the tide ebbs, it will become an extreme area with the thinnest energy. It's not a good timing that you've come at a time when it ebbs."

"Is that so?" Shi Yan's voice was cold and stiff. He snorted, "I have to correct you. We're not guests. We are the owners here! We are the owner of this Cloud Mist Territory!"

Dalsa and the warriors of the Cloud Tribe turned harsh.

"Also, I don't care about the rising or ebbing tides. We won't leave this place!" Shi Yan sneered.

Cilan's smiling face froze embarrassedly...

### God of Slaughter

#### **Chapter 1520: Beseech Battle!**

It was Cilan idea to guide earth and heaven energy to drain the energy here and force Shi Yan's people to leave the place. It would be better for them to seek for Skyfall Star River.

Actually, this holy land didn't have the ebbing tide phenomenon. They connected this place to the five points of the holy land to guide energy out of the area and say that it was a strange phenomenon. Cilan was content with her plan so much that Dalsa and Fan De Lei also agreed with her.

They didn't expect that Shi Yan would forcefully deny them!

Cilan's beautiful face froze. She clenched her fists and tried to suppress her anger. She said, "Since you came here to cultivate, I'm sure you need a precious land that meets your needs. This place is about to be drained. Why do you want to grip it so tightly?"

"We don't have to ask you to mind your own business." Shi Yan sneered and said solemnly, "If you don't have anything else to say, you can leave now."

He had considered himself the real master!

Fan De Lei, Dalsa, and the Cloud warriors darkened their faces, their eyes filled with a murderous aura. They were all enraged.

Too arrogant!

"Oh, are they Dalsa and Cilan?" Deep in the sea of clouds, a voice arose.

Around ten shadows appeared. They were another group of the Cloud Clan. The leader of this group was an old man with silver-white beard cascaded on his chest. His face was carved with the wrinkles of time. He looked so old like an ancient dying tree. Most of the others of this delegation were white-headed, senile men. They were wearing the same robes decorated with cloud patterns, which could move like real clouds, like a uniform.

They were the members of the High Priest Committee of the Cloud Tribe. The oldest man of this group was the Great Priest Quinn. The High Priest Committee had similar functions to the Elder Committee of the other clans. They could nominate and oust the Chief of the Tribe.

The former Chief of the Cloud Tribe was elected by Quinn and his High Priest Committee. Usually, they had an extremely high echelon in their tribe.

Anyway, Dalsa's head position wasn't by the High Priest Committee. He had forcefully taken the throne with Fan De Lei's support. He had become the chief without the High Priest Committee's approval. Afterward, he had tried to weaken the High Priest Committee. Slowly, he had deprived their power and made them an organization without real power. They were now only working on worshipping the Cloud Tribe's ancestors.

Today, Quinn took the High Priest Committee members to the holy land to worship their ancestors.

Although Fan De Lei had cleared the holy land by destroying many buildings and sinking many of them into the cloud sea, those old men still kept the traditions of the Cloud Tribe. They would come here periodically to revere their ancestors.

"It seems like Dalsa has a conflict with someone?" Quinn was skeptical as he quietly approached.

The closer they got to the holy land, the paler they became. The members of the High Priest Committee were outraged. They found a planet hovering in their holy land, and the earth and heaven energy of this place reduced massively.

"Dalsa! What's going on?" Quinn bellowed from a distance. "The energy of the holy land is reduced. Did you guide the energy here to the other five ravines through the connecting points? You have severely offended our Cloud Tribe's ancestors!"

"Also, what about that life star? Why did a life star appear in the holy land of our tribe? What the heck are you doing here?" another one questioned.

Dalsa didn't expect the High Priest Committee to emerge at this moment. Hearing them, Dalsa darkened his face but he didn't answer.

Quite surprisingly, Shi Yan had a cold light flaring in his eyes. "It turns out that you've guided the earth and heaven energy here away. Ah haha, you have a lot of guts. Don't you know that Madam Montecie of the Phantom Clan has bestowed this territory to me?"

Quinn's team was stunned. Their eyes shifted from Fan De Lei to Shi Yan as they didn't know what had happened to the Phantom Clan.

"I will be here. I'm going to give you six hours. Afterward, if the earth and heaven energy in this place isn't back, don't blame me for what comes after," Shi Yan told them with a cold smile.

Dalsa, Cilan, and Fan De Lei put on sinister faces when they heard him, especially Fan De Lei. He had been laborious to conquer Cloud Mist Territory. He had helped Dalsa weaken the High Priest Committee to become the real master of Cloud Mist Territory.

With only one sentence from Montecie, how could he give up Cloud Mist Territory?

"Why don't you retract your head and live your life? You want to raise the wind. It seems that I was too soft to you," Fan De Lei wore a dark face as he was gazing at the members of the High Priest Committee, his eyes twinkling like stars.

Dazzling, diamond-like stars emerged above the cloud sea like cold lights. An everlasting intent domain of the stars expanded. Under such a domain, people felt small.

The cold stars were sparkling and agile like a spirit created by pure and powerful energy. They fell from the sky and were aimed at the members of the High Priest Committee.

Quinn and the other priests were frightened when the cold stars attacked them.

"I didn't kill you because you are the elders and you've done a lot for the Cloud Tribe. But if you don't have a good sense, I have no way of helping you..." said the current Chief of the Cloud Tribe. Dalsa coldly looked at them and was enraged because they had exposed Cilan's plan. He didn't want to ask Fan De Lei to show mercy since he thought the others were really annoying.

"Shi Yan?" Emperor Sea Shark hissed and asked Shi Yan.

Shi Yan watched Fan De Lei urge his Star power Upanishad. He observed the stars and sensed their trajectories. Hearing Emperor Sea Shark, he woke up and said, "Oh, I forgot. We're the Masters here!"

He nodded to Emperor Sea Shark.

Emperor Sea Shark got it. He flung both of his arms. Two rivers flew out of his sleeves. As the rivers were crystal clear, they could see fish, grains of sand, bubbles, and algae, everything they could find in a real river.

After he got the Water Original Symbol, his power rocketed. The two rivers created by his God power didn't look different from a real river!

The two rivers from Emperor Sea Shark's sleeves created a cross that shielded above Quinn and the other members of the High Priest Committee.

When the brilliant stars fell, they sank into the two rivers. The supple power of the rivers pulled them and slowed them down.

"Emperor Sea Shark!" Fan De Lei shouted coldly, "You dare to stand against our Phantom Clan? In the Sea of Annihilation, the Soul Clan, Devouring Clan, Black Demon Clan, and the Ancient Monster Clan are after you. You've offended many people. Do you dare to offend the Phantom Clan too?"

Fan De Lei turned purple in rage as his attack couldn't reach Quinn's team. He immediately threatened Emperor Sea Shark.

"You can't represent the entire Phantom Clan," Emperor Sea Shark didn't change his face and said casually. "Precursor Montecie can speak on behalf of the Phantom Clan. I think she wouldn't mind if I stop you here. Well, you can try reporting me to her."

"Fan De Lei, when precursor Montecie left, she had said clearly that I'm in charge of this Cloud Mist Territory from now on. I am the Master," Shi Yan sounded calm and natural. "This place is no longer your territory. I hope you will leave soon. Don't disturb our business here!"

"You dare to threaten me by using Montecie?" Fan De Lei's handsome face paled. "You low human being. You dare play with me? You think you can force me with Montecie behind your back?"

Shi Yan shrugged, "Without Montecie, I can subdue you. If you don't believe me, you can try!"

"I do want to try!" Fan De Lei screamed ear-piercingly. His body turned into a shooting star, which was so cold and sharp like an arrow with sky-breaking power. As soon as that arrow was shot out, Emperor Sea Shark changed his visage. He was about to urge all of his power to resist.

"Let me handle that," Shi Yan rose one hand to stop Emperor Sea Shark.

The space waves piled up right in front of Shi Yan and created a thick space wall.

That wall became visible and turned into a shining gold hue as if they were built of gold crystals that emitted beautiful, transparent halos.

"Space Crystal Wall!"

Quinn's team screamed in fear. At first glance, they became excited, their eyes shooting magical light.

Fan Hui Nai looked solemn. Seeing Shi Yan master the Space power Upanishad, she felt nervous. The warriors with Space power Upanishad who could cast the Space Crystal Wall were usually at the Territory Ancestor Realm!

Although Shi Yan had an aura of a Peak of Immortal Realm expert, he could cast the Space Crystal Wall. She knew that he was very intimidating.

Crack! Crack! Crack!

The arrow Fan De Lei had transformed thrust into the sparkling wall. The Space Crystal Wall shattered like glass. In between the broken, shooting star dots, the starlight arrow had just slowed down, but it continued to attack Shi Yan.

"Well, they are one realm different. There's a big gap between the Territory Ancestor Realm and the Peak of Immortal Realm." Emperor Sea Shark sighed and then prepared to take action. He was accumulating his energy.

BOOM!

All of a sudden, the acupuncture points in Shi Yan's body had starlight. Instantly, beams of starlight weaved into a star map, which was twinkling mysteriously. It looked like a big secret of this sea of stars

After the star arrow pierced through layers of Space Crystal Wall, it slowed down ten times. When it hit the star map, it deviated in the dazzling starlight.

The star map then turned into a shining starlight net. As people caught up with the situation, they saw Fan De Lei tied inside a thick mesh starlight net. However, they didn't have time to scream in fear when Fan De Lei exploded and scattered into so many starlight dots.

The starlight dots gathered and congregated into Fan De Lei's shape. He wore a panicked face as he said, "You've mastered Star power Upanishad!"

"Turns out he's here because of Skyfall Star River," Quinn's pupils shrunk. He was startled as he understood Shi Yan's intentions.
