Chapter 1521: The Natural Space Wall

As Shi Yan had shown his Star power Upanishad, the members of the Cloud Tribe understood it immediately. Dalsa, Cilan, Fan Hui Nai, and Quin understood the matter.

The most famous legend of Cloud Mist Territory was about Skyfall Star River, an Absolute Beginning divine weapon. Tens of thousands of years had passed as many experts cultivating Star power Upanishad from the world outside came to Cloud Mist Territory through the territory entrance. They had stayed in the sea of clouds to find Skyfall Star River.

Gradually, most of them were gone. The Cloud Tribe killed some and some had gone missing.

Eventually, people stopped coming here until Fan De Lei broke through to the Territory Ancestor Realm. With Star power Upanishad, he had a fixation to that legendary Skyfall Star River divine weapon.

He had commanded the experts of the Phantom Clan and directly conquered the Cloud Mist Territory, preparing for a long search mission.

The territory entrance to Cloud Mist Territory became the Phantom Clan's possession, which prohibited people from entering the area.

Fan De Lei and Dalsa were suspicious since they didn't know why Montecie had deliberately taken Shi Yan's team to Cloud Mist Territory. They thought that Montecie had aimed at Fan De Lei. And now, seeing Shi Yan use Star power Upanishad, they understood his reasons.

He was here because of Skyfall Star River.

"It seems that Montecie has told you about the mysteries of Cloud Mist Territory. No wonder why you don't want to leave the holy land. You want a share of Skyfall Star River!"

Fan De Lei pulled a cold face and smirked, "I had Cloud Mist Territory and cultivated here for years. I haven't found anything. Do you think you can find it?"

"I'm here to seek shelter. About Skyfall Star River... it's by chance then," said Shi Yan.

Right from the start, he didn't come here for Skyfall Star River. He wanted to find a safe place for Grace Mainland. At this moment, he didn't know why he felt restless and insecure.

The feelings came from his deep soul.

It was like a pair of bright eyes watching him in the dark; it felt like they belonged to a bloodthirsty beast that was waiting for a chance to bite and chew him off!

This feeling became stronger day by day.

He pondered for a while and he understood it. Finally, he knew where the source of his insecurity was.

– Desolate!

Desolate has awakened and recovered! His power was increasing every day. He had two soul clones. Once Desolate recovered relatively, Shi Yan would be his primary target. When he got Shi Yan's co-soul, his soul would be complete!

Every second Desolate became stronger, the pressure from Shi Yan's co-soul increased. As they had a magical connection, no matter how far Shi Yan was from Desolate, he could feel it every minute.

He had to get stronger and enter the Territory Ancestor Realm as fast as possible! He had to try everything to increase his power!

Otherwise, when Desolate came and he didn't have the power to resist, what awaited him was annihilation!

At least, he knew that he wasn't Desolate's enemy. Once he was caught, he would be killed. He had to seize the chance to get stronger before Desolate absorbed all of his clones.

Skyfall Star River was a divine weapon suitable for Star power Upanishad. If he got it, he could use it to enter the Territory Ancestor Realm and his competence would greatly improve. Thus, when Montecie told him about Skyfall Star River, he was moved.

"I have a suggestion," all of a sudden Quinn, the Great Priest, opened his mouth. He turned to look at Fan De Lei and then at Shi Yan and Emperor Sea Shark. He then said, "They rumor that Skyfall Star River sank deep in the sea of clouds. As the Great Priest of the Cloud Tribe, I understand the ancient language of our tribe. As far as I'm concerned, the rumor is true. We also know that many forerunners had come and explored the deeper areas in the cloud sea. After many generations, they found a strange location. It's sealed with many layers of spaces. We have to unfold those layers to know what is hidden down there..."

Quinn's words caught people's attention, their eyes bright.

Quinn's realm wasn't high enough, only at Second Sky of Immortal Realm and he wasn't really talented. However, he was much older than the Old Dalsa. He had chaired the worshiping activity of the Cloud Tribe for many years, so only him knew many secrets of the Cloud Tribe. Thus, when he said he knew the mysteries of Skyfall Star River, there was no doubt.

"The previous Great Priest guessed that if Skyfall Star River had sunk deep into the cloud sea, it should be under those space layers. The members of the High Priest Committee have explored for generations to find that area. Without our guidance, I'm sure you can't find it even if you spend one thousand years."

His face turned arrogant when he said that. "If I die, no one knows that area!"

Fan De Lei had a strange light in his eyes, "Keep talking."

"According to legends, Skyfall Star River was guided there. Something under the cloud sea had attracted it. That thing should be right under that space wall." Quinn's eyes turned hot. "We really want to know what's down there. I've been hiring experts with Space power Upanishad to break that seal. Unfortunately..."

He shook his head, "The warriors with Space power Upanishad I found are at low realms. The best one I could find was at First Sky of Immortal Realm. He died because of drained energy during the progress of breaking layers of spaces."

He became stirred up and said to Shi Yan, "You have Space power Upanishad at the Peak of Immortal Realm and you can cast the Space Crystal Wall. It means that your real competence is higher than that! Perhaps you can go there and see if you can break that wall. We will know what hides down there!"

"What about us?" hissed Cilan.

"No one knows what's hiding down there and how dangerous it could be. Moreover, I know our Cloud Tribe can't decode that secret. Thus, I'm suggesting that we all go there to unlock this tens-of-thousands-of-years secret," shouted Quinn.

He made his own calculations. Seeing Shi Yan, Emperor Sea Shark, and Fan De Lei have equal powers, he invited both sides. He wanted to make the two sides compete against each other. He would find the best chance. Thus, he told the secret in front of both Shi Yan and Fan De Lei.

Shi Yan and Fan De Lei exchanged looks. They didn't discuss how to share Skyfall Star River. They pondered then nodded, indicating that they agreed with Quinn's suggestion.

Right after that, Shi Yan sent his soul message to Grace Mainland.

Shadows pierced through the atmosphere of Grace Mainland, hovering by Shi Yan and Fan De Lei. They were Ming Hao, Xuan He, Frederick, Audrey, Azure Dragon, DeCarlos, Lei Di, and Blood Devil, all the Immortal Realm experts. But they weren't all the experts that had come to Grace Mainland from the other star areas in Desolate Territory.

Seeing them, Cilan, Dalsa, and Quinn became solemn.

They didn't expect that small life star could have so many experts. Especially Ming Hao, he was at the Peak of Immortal Realm and he was just one step away from the Territory Ancestor Realm. Soon, he would enter the Territory Ancestor Realm.

All the members of the Cloud Tribe felt pressure as they found that those intruders were actually powerful dragons. They shouldn't underestimate them.

"You don't mind if I get someone to help?" Shi Yan grinned, "Yeah, I've thought for you guys. In case things go wrong, we can get more defenses, right?"

Quinn nodded.

"We don't have enough manpower..." Cilan muttered.

"We should call some experts. It will improve the possibility to get through that secret. It's good for everyone." Dalsa felt the pressure so he hurried to use the Sound Stone to call for help and summon the experts of his clan.

Fan De Lei furrowed his brows and sent his soul message to gather his subordinates.

Several hours later, the Immortal Realm experts of the Cloud Tribe, the Phantom Clan summoned by Dalsa and Fan De Lei had come. There was a dozen of them.

It was also the strongest force of Cloud Mist Territory.

“Dive,” Fan De Lei smiled when he saw his subordinates come. He gestured Quinn to depart.

Quinn nodded and took the group under Grace Mainland, diving into a thick layer of clouds.

Shi Yan went with Emperor Sea Shark, Ming Hao, and the others. As soon as they got into the cloud sea, their vision was affected a lot. The milky clouds were so thick that they could only see the ones flying next to them. Releasing the Soul Consciousness, the area reflected in their heads was also limited. This place was covered by the endless white mist.

Cloud Mist Territory was immensely vast. If it was the same down here, it was like finding a needle in a haystack for the ones who came to explore the Skyfall Star River. It was almost impossible.

The High Priest Committee of the Cloud Tribe had spent generations to find that strange location. They had exerted a lot of effort.

Deep inside the cloud sea, Shi Yan believed Quinn’s words. Without his directions, even if they spent one thousand years, they wouldn’t be able to find anything.

Quinn and his High Priest Committee grouped while Shi Yan and his fellows, Fan De Lei, Cilan and his subordinates formed two groups. The three groups moved fast through the cloud sea. Following Quinn, they were heading to that mysterious place the High Priest Committee had found.

Time flew fast. It was ten days already.

They were still moving under Quinn’s direction.

When they gradually became impatient, Quinn suddenly slowed down. People were stirred up immediately, divine light shooting from their eyes. They hurried to catch up with him.

Quinn halted.

He was hovering in a strange area where the light was rippling. Shi Yan and the others gathered. They saw something like a rippling pond in front of Quinn.

Squinting, Shi Yan used his space power to sense. Concentrating, his Soul Consciousness was like a needle thrusting into the layer of light waves.

Sizzle!

A wave of space energy emitted from that light wave area. Shi Yan’s eyes brightened as he smiled, “It’s a space wall, indeed. Moreover, it’s naturally made. Wonderful!”

The naturally made space wall was rare. It was the masterpiece of Nature, so it had more mysteries and powers of Space power Upanishad.

Sensing for a while, Shi Yan confirmed that if he could break this natural space wall, his understanding of Space power Upanishad would advance to the next level.

His enthusiasm was triggered.

God of Slaughter

Chapter 1522: Permeating

“What do you think? Can you break the seal?”

Quinn the Great Priest looked tense as he gazed at Shi Yan. To break the seal in this area, he had hired several experts with Space power Upanishad.

Those warriors had tried their best, but none of them ever succeeded. One of them died from failing to break the seal.

And that one also had the highest realm. It had cast a shadow in Quinn’s head and made him restlessly worried.

Fan De Lei, Dalsa and the others came after Shi Yan. Seeing the strange land with layers of lights, their eyes brightened.

Dalsa and Cilan had studied the clue and spent a lot of time and effort. They thought that they were close to the secret of Skyfall Star River. But when they saw this place now, they knew their clue couldn’t lead them here.

“Did you try to hit it hard?” Shi Yan didn’t answer but ask.

“I did. Bad results...” Quinn pulled a bitter face. “We couldn’t open it and the backfire hit us hard. Although that expert was at Third Sky of Immortal Realm, he almost lost his life...”

“I can try to break the seal with space energy, but I need to check the thickness of this natural space wall first. I need someone to hit the wall. A high-realm expert is better.” He glanced at Fan De Lei and said indifferently, “Precursor Quinn, show us the location of Skyfall Star River; I’ve mastered the Space power Upanishad. We’ve both contributed, but someone hasn’t done a thing...”

Quinn turned to Fan De Lei. Previously, Fan De Lei had attacked them. He had almost killed Quinn and the members of the High Priest Committee. It was impossible that Quinn didn’t loathe him. Thus, when Shi Yan reminded him, Quinn turned to Fan De Lei and asked, “What do you think?”

“Alright!” Fan De Lei was resolute. He lifted his front tunic aside and shot towards the wall like a big beam of light.

So many sparkling dots flashed with thick starlight and created a star lance above Fan De Lei’s head. It was a bright silver lance created by thousands of light beams. It thrust into the space wall like a waterfall.

Sizzle! Sizzle! Sizzle!

Layers of space barriers that were like sheets of water were placed on each other. All of a sudden, halos rippled and created natural space patterns.

Heavy pressure from the sealed space came from that space barrier. People observed and found strange light including lightsabers that shot out like pieces of a ruptured lens. Those light sabers attacked everywhere.

Pufft! Crack!

The warriors hovering nearby got hit. The lightsabers pierced through their bodies and their chests exploded.

Since Fan De Lei was taking action, he couldn't distract his mind to protect his subordinates. Many warriors of the Cloud Tribe and the Phantom Clan got hit and their bodies exploded.

Before Fan De Lei had taken action, Shi Yan had guessed the results and he had discreetly notified Emperor Sea Shark.

When the lightsabers exploded, Emperor Sea Shark and Shi Yan took action. They joined hands to create many barriers and shields to prevent those deadly sabers from hitting anyone in their group.

No one in his group was hurt. They held cold smiles as they watched Dalsa and his people.

Boop! Boop! Boop!

Fan De Lei received most of the lightsabers. He was now dazzling like a big star and smashing all the lightsabers.

He looked helter-skelter. He didn't continue to hit the wall but retreated. He rolled his eyes at Shi Yan, "Are you satisfied now?"

"I am," Shi Yan didn't mind him. After Fan De Lei moved aside, Shi Yan stepped forward to the space barrier.

Emperor Sea Shark, Ming Hao, and Xuan He immediately swarmed over and pushed Quin's High Priest Committee away. They all pulled stern faces and become vigilant. If Fan De Lei's people moved, they would take action right away.

The members of the Cloud Tribe were screaming painfully. Three experts at First Sky of Immortal Realm had their bodies shatter. Their soul altars flew out and the others preserved them inside some special tools.

Quinn's people also retreated. They looked at Shi Yan and expected him to open the seal.

Shi Yan stood on the natural space barrier and urged his Space power Upanishad. Shortly after, a polyhedral prism emerged from his glabella. As soon as the prism appeared, the onlookers had a magical feeling. They felt as if they were in different spaces.

This polyhedral prism was Shi Yan's Space power Upanishad in his tier of power Upanishads. The prism reflected different spaces and mingling between illusory and real spaces. If Shi Yan didn't use his power, those spaces were just illusions. But if he used his God power to condense them, those spaces would become real.

Real or illusory, it depended on Shi Yan's thoughts.

The prism that was projecting different illusory spaces suddenly fell onto the natural space barriers. Shortly after, it got into the first layer of the barrier.

A wonderful feeling that nothing could compare to filled Shi Yan's head. He recognized that after the prism had entered the space barrier, his Soul Consciousness had pierced through layers of barriers and fallen into the sea of clouds underneath.

Swoosh!

As his Soul Consciousness had permeated through the barrier, his entire soul altar arose. The Sea of Consciousness, the tier of power Upanishads, heaven flames, the tier of Incipient Extent, the co-soul and the host soul piled up and created a lotus-throne-like structure. At first glance, they were like the most exquisite and perfect masterpiece. Its beauty looked unreal, though.

Fan De Lei and the fellows of the Cloud Tribe were awe-struck when they saw Shi Yan's soul altar.

They never saw a soul altar as marvelous as this one!

Ming Hao, Xuan He, Audrey, and the others were dumbstruck when they saw Shi Yan's arising soul altar.

How marvelous this soul altar was!

The Sea of Consciousness was immense and hazy, and consisted of layers of wisps of Soul Consciousness. In the middle of the Sea of Consciousness was a pond congregating Dark Energy. It was deep green with endless soul energy.

In the tier of power Upanishads, the river of the Star energy, the Life Ball with the magical, moving Original Symbol, the desolate, dead silent area of Death, a jet-black cave, and the eight islands of the eight great, evil power Upanishad occupied the space.

The Incipient Extent was like an immense galaxy with sparkling stars. On those stars, people could see the lush forest, green rivers, and mountains, together with vast lands. This Incipient Extent looked like a mini-universe. It looked strange but wonderful.

The host soul and the co-soul hovered above the Incipient Extent like two Gods watching the world with the everlasting bearings of Gods.

Everybody observed that magical soul altar. They felt awe but when they compared it to their own soul altars, they found that theirs were so ugly, plain, and nothing to be proud of.

While they were awe-struck, Shi Yan's body halted still while his soul altar completely sank into the space barrier like fish diving into the sea. It disappeared shortly after.

"It... What's happened?" Cilan screamed, "He wants to ditch us here to explore it alone?"

Hearing her, Quinn and the others were enraged. They turned to Emperor Sea Shark, Ming Hao, and Frederick and demanded a proper answer.

"Well, I want to know if you've schemed against Shi Yan or not!" Audrey tried to suppress her anger, her eyes icy. "Shi Yan's body is here and his soul altar was sucked out by the space barrier there. Did you plan all of these?"

“His soul altar is detached. It seemed to be done on purpose. It seems like this space barrier has something mysterious but marvelous!” Emperor Sea Shark agreed with Audrey. “We have to protect Shi Yan’s body first. It’s too ambiguous. Perhaps they’ve trapped us. They are from the same side and they did this to deceive us and push Shi Yan into danger!”

The warriors from Grace Mainland changed their faces, coldly facing Fan De Lei and Quinn and demanding an answer.

The battle could start in any minute.

“How could it be? Why?” Quinn was puzzled. The development of this event was not part of his plan. His plan was to let Shi Yan open the seal and then he would have instigated the battle between Shi Yan and Fan De Lei. In his best scenario, both sides would be damaged and he would be left with the benefits.

It was true that he didn’t tell them many secrets. He had prepared well to ensure his benefits at the critical moment.

At this moment, what he had prepared was useless. The magnificent place that generations of the High Priest Committee had spent a lot of effort to find had allowed Shi Yan’s soul altar to get through and none of them could enter. They were blocked outside, so they could only just stand and stare. Quinn felt lost already.

Similarly, Fan De Lei also felt annoyed. He only thought that Shi Yan had ditched them there and intruded the place alone to find Skyfall Star River.

“Give us Shi Yan’s body! I want to use his body to force him to return!” shouted Fan De Lei.

The members of the Cloud Tribe took action as they heard Fan De Lei. They immediately surrounded Emperor Sea Shark’s team. At this moment, Quinn was comforting the members of the High Priest Committee and trying to find another solution.

“I demand a proper explanation!” Emperor Sea Shark pulled a cold face. He was grateful for Shi Yan because Shi Yan had given him an Absolute Beginning Original Symbol, which was going to be a great help for him when he broke into Second Sky of Territory Ancestor Realm. Thus, he had determinedly gone to the Endless Sea and stood on the same side as Shi Yan.

Although Fan De Lei was at First Sky of Territory Ancestor Realm, he hadn’t been in this realm for a long time. Emperor Sea Shark didn’t consider him a lot.

“Make it clear. Now!” Audrey asked the others to protect Shi Yan’s body, her face cold. She was ready to fight against the Cloud Tribe.

Boom!

Billions of brutal souls flew out. The Soul Refining Cauldron hovered in between the massive horde of souls. The Absolute Beginning symbols on the cauldron’s surface moved and released a cold and sinister aura.

“Kill!” Emperor Sea Shark shouted and headed to Fan De Lei first. The Absolute Beginning Original Symbol in his power Upanishad bloomed with bright light. Water power gushed out and increased his strength.

God of Slaughter

Chapter 1523: Territory Ancestor

Shi Yan's soul altar moved through the natural space barrier and appeared in the world below the cloud sea. Shi Yan was dazed right away.

It was the beautiful, brilliant starry sky by his soul. It was the most magnificent galaxy he had ever seen. It was mysterious and deep; it gave him a feeling that it would never disappear.

It was the world under the cloud sea, a world of brilliant stars. Each of the stars here had vigorous life energy fluctuations as if they had their own souls.

After a glance, the stars weaved with each other and created rivers that were flowing in a magical trajectory.

The co-soul and the host soul observed the splendid rivers. Shi Yan was suddenly touched. It was an affection that came from the bottom of his heart!

The galaxy created by millions of stars parted into different rivers in the sky as if the stars were streaming and moving.

He observed the area underneath.

It was a massive continent that nothing could compare to where there were so many deep gorges with rivers flowing. Inside those running rivers, Shi Yan felt a stinky smell, which surprised him a lot.

Underneath the sea of clouds, there was a massive continent where there were so many rapid rivers.

It was incredible and unbelievable!

The heavenly rivers in the sky were flowing and the rivers on the continents were gushing. They were the veins of earth and heaven. The host soul and the co-soul gazed at the rivers in the sky and on the land. Somehow, they perceived something spectacular.

Shi Yan's vast Sea of Consciousness suddenly divided and made many currents of Soul Consciousness.

Looking at the sky and the ground, Shi Yan made the rivers in his Sea of Consciousness move towards the trajectories of the rivers in the sky and on the ground.

Suddenly, he felt that he had just grasped the rule of Nature or the Great Path. It was so breathtaking. He cheered up and put everything aside to focus on perceiving the marvelous feelings.

While concentrating, he didn't know the condition of his body. He didn't know that the God power was murmuring in his veins as if it was moving in the same trajectory with the rivers in the sky, on the ground, and in his Sea of Consciousness.

Right where Emperor Sea Shark and the others were fighting Fan De Lei, Xuan He was protecting his body, so he found the strange situation immediately.

Xuan He observed and found that Shi Yan's body was full of vitality even though his soul altar wasn't there. Shi Yan's veins were filled with pure energy and his veins were now rivers that guided his power moving in a mysterious and marvelous trajectory. It scared Xuan He out of his wits.

Xuan He didn't have time to scream when Shi Yan's soul aura came from the space barrier.

Shi Yan's body was summoned. As Xuan He was still dumbstruck and standing like a statue, Shi Yan's body turned into a jet of light and shot toward the barrier underneath.

The incident happened in just a blink of an eye. Xuan He couldn't do anything to stop it. When he could react, Shi Yan had disappeared already.

Swoosh!

Shi Yan's body pierced through the space barrier and went to the world beneath the cloud sea, right next to his soul altar.

His host soul and his co-soul didn't react as they were quietly learning the spectacular essence of earth and heaven. When his body entered, it sank to the continent as if it had gotten rid of the soul altar's control.

Boom!

His body fell into a river and sent a shaking tremor to the entire continent. Instantly, God power in Shi Yan's veins had connected to the river on the ground.

The Star power Upanishad in Shi Yan's soul altar radiated magnificent lights!

The twinkling starlight flew out of the rivers in the sky and fell onto the river on the ground. Instantaneously, the rivers on the ground reeked with the smell of a river and fresh blood!

The river water connected to Shi Yan's veins and flooded his body furiously. Billions of pores on his body opened and sucked the reeking water.

Crack! Crack! Crack!

Magically, Shi Yan's blood boiled. The Immortal Demon Blood was burning. As his consciousness hadn't done anything to trigger his body, his body automatically transformed!

The rivers in the sky were the veins of heaven; the rivers on the ground were the veins of earth; the veins in the body transported blood; and the rivers in the Sea of Consciousness were the veins of the soul.

The Heaven, Earth, Human, and Soul had fused into one in Shi Yan's body and blended harmoniously and beautifully.

If someone else was in this world at the moment, he would have seen star rivers in the sky that were moving and congregating in Shi Yan's soul altar and entering his immensely vast Incipient Extent. The heavenly rivers created by Skyfall Star River became the band of stars in Shi Yan's Incipient Extent; they made his Incipient Extent more spectacular and mysterious.

Underneath, the rivers on the continent that was dozens of times bigger than Grace Mainland were running out.

Quite the contrary, Shi Yan's body inside one of those rivers was ballooning fast!

His body was absorbing the river water and transforming!

It was heading to the giant shape of the Absolute Beginning creatures!

Gradually, Shi Yan's unique shape appeared. His entire body was covered in natural scaled armor. Strange and savage spikes jutted out of his shoulders, elbows, and knees. A pair of bone wings grew from his broad back. His fingers became so sharp like claws of strong beasts!

His body was already brawny and now, it looked as if it was being magnified. As the rivers were being drained, life energy fluctuated more terrifyingly from his body. Gradually, his body was getting bigger than Dragon Lizard and he could compare to the true body of Dragon Lizard inside Dragon Lizard Star that year.

Shi Yan now looked like an ancient God lying across the continent like a mountain range that had stretched millions of miles!

His head, facial features, body, and limbs were growing and he was turning into a giant. However, he was so big that even members of the Giant Tribe were like ants compared to his elephant body. At this moment, his body had grown tens of thousands of times compared to his original size.

As the rivers on the ground gradually drained, Shi Yan's body still grew and the life energy in his body got stronger and stronger!

Time flew hurriedly. When the rivers on the ground dried, Shi Yan's body was as big as Absolute Beginning creatures like Devour or Hui!

It seemed like another Absolute Beginning creature was just born!

At the same time, Shi Yan's Incipient Extent had quietly changed and ascended into a Territory. Dark Energy in the soul pond inside his Sea of Consciousness overflowed and poured into the Incipient Extent. The brilliant stars inside the Incipient Extent began to move. Auras of lives slowly grew in the planets that Shi Yan had created.

When the Incipient Extent had life energy fluctuating, it was the sign that it was transforming into a Territory. As Skyfall Star River had entered Shi Yan's Incipient Extent, his Incipient Extent was absorbing Dark Energy and creating lives. His world now had new species, new races. Only Territory Ancestor Realm experts had the power to create lives!

Shi Yan's soul altar got the star rivers from the sky and his body got rivers on the ground. In this strange land, Shi Yan got great benefits! He was becoming a Territory Ancestor at an amazing speed!

The Great Priest Quinn didn't know that Cloud Mist Territory had parted a long time ago. Cloud Mist Territory was created by the combination of Cloud Territory and Mist Territory. Between the two territories were layers of space barriers. The purpose of Cloud Territory was to conceal Mist Territory.

“Mist” meant hide and conceal. Mist Territory was the hidden world. In the Absolute Beginning Era, this world was one of the most magical lands. It was where Absolute Beginning creatures healed from their wounds. It wasn’t because of his profound Space power Upanishad that Shi Yan could enter this place. To be exact, it was because his soul had the aura of an Absolute Beginning creature!

His co-soul had merged with two soul clones of Desolate, which made him a part of an Absolute Beginning creature.

Shi Yan didn’t know that Absolute Beginning creatures like Desolate, Devour, and Hui had tried a lot to find this place to recover their power. The river water in the rivers on the ground was actually Life Original Fluid, a magical fluid that could transform lives. Unfortunately, this hidden world was so mysterious that Devour and Hui couldn’t find it.

Shi Yan had accidentally entered this area and transformed using the Life Original Fluid here. After ascending once, he had reached the level of Absolute Beginning creatures!

His body had become like an Absolute Beginning creature!

His Incipient Extent had turned into a Territory. When his cultivation base increased, his territory was going to become more magical, which could be even better than Desolate Territory!

After taking in Life Original Fluid and Skyfall Star River had entered his Territory, besides entering the Territory Ancestor Realm, Shi Yan’s body also became like an Absolute Beginning creature!

Desolate Territory.

Desolate, Ancient God Continent, Ancient Demon Continent, and God-blessed Mainland had merged with each other and become a massive life star. This life star was a strange, immense world that was blank. An ancient creature like a dragon lay across the planet. It was the heart of this continent.

This dragon-like ancient creature was Desolate’s real body. It was stretching like an endless mountain range. Also, it wasn’t complete yet.

On the dragon head, Ghost Hunter in his human form slowly emerged, his eyes dark and mysterious. At this moment, he seemed to understand something. His eyes pierced through the endless space to look at Grace Mainland in Cloud Mist Territory. He was slightly shocked. Through the soul connection, he could feel Shi Yan’s changes.

“The Absolute Beginning body and Territory Ancestor Realm...” Ghost Hunter muttered, his face bizarre. “It’s a little difficult to merge with him. But it will come with greater benefits. I can recover my power and I can even get the height I couldn’t reach in the Absolute Beginning Era! If so, I can get through the Absolute Beginning Gateway without the Power Upanishad Symbol Tower!”

While talking, the giant body wiggled. Desolate’s true body on the continent moved. The enormous energy in the planet gushed. With terrifying roars, he moved away in the infinite outer space.

Inside the turbulent space basin, the twelve-headed giant snake, Hui’s true body, was gathering energy. Sitting on the gorgeous throne above the snake’s head, Zi Yao changed her visage. “This roar... He is almost finished recovering. It’s not good to stay here any longer.”

Then, the twelve-headed snake body of Hui moved through many broken asteroids and headed toward the territory entrance.

Deep inside the territory of the Devouring Clan, Sea Domain of Nihilicity.

Devour also heard the roar in his soul. He knew Desolate's strength was increasing. Devour was frightened. He knew that the terrifying danger was approaching.

God of Slaughter

Chapter 1524: Fierce

Phantom Clan.

The place where the Phantom Clan dwelled had flowers and thin mist everywhere that looked like a fairyland.

Many good-looking men and women were cultivating, absorbing energy, and refining their bodies to understand the mysteries of their power Upanishads. In a secret chamber underground created by seven types of divine crystals, Montecie asked Mei Ji to stay aside and she stood in front of a dazzling crystal. This crystal was like a bright mirror that projected many different scenes.

Montecie's petite and swift body emitted silver light and aimed at the mirror. A blurry figure appeared in the mirror.

"Sauron!" Montecie screamed in a low-pitched voice.

"Montecie, long time no see. How are you doing? Did you take that kid to Cloud Mist Territory?" The vague figure in the mirror smiled and spoke casually.

"He and that planet are in the former holy land of the Cloud Tribe. Is it true that Skyfall Star River is right under the sea of clouds?" asked Montecie earnestly.

When she and Mei Ji left the Phantom Clan's headquarters to Desolate, Sauron had contacted her and asked her to help him one thing.

Sauron seemed to know that Shi Yan would leave Desolate Territory with Grace Mainland. At first, Montecie didn't believe him. However, what happened after had successively proven Sauron's prophecy. Shi Yan had acted as he had predicted and left Desolate Territory.

Montecie admired Sauron.

Sauron had asked her to take Shi Yan to Cloud Mist Territory after he had left Desolate Territory and to tell him the secrets of Skyfall Star River under the sea of clouds.

Montecie followed his words.

However, she didn't know what would happen to Shi Yan.

“Shi Yan is the key. The Power Upanishad Symbol Tower that has fused with him is the key to the Absolute Beginning Gateway. If his realm isn’t high enough and his power isn’t strong enough, he can’t control this key. We need him to get stronger. A strong Shi Yan will trouble Desolate. Skyfall Star River will definitely fuse with him...”

Sauron smiled as if he could see every tiny thing in every corner of the universe. “It’s strange, though. I’ve cultivated Fate power Upanishad. I can see people’s pasts and vaguely catch their direction in the future. However, I have never caught his fate. This kid is really interesting!”

“He’s the key?” Montecie was surprised.

“To be exact, the Power Upanishad Symbol Tower is the key. Judy, Beverly, Edgar, and the Absolute Beginning creatures like Devour are trying their best to take that Power Upanishad Symbol Tower. They should know something, I assumed,” Sauron smiled. “There is more than Skyfall Star River under that sea of clouds. When he gets out, I think he will reach the Territory Ancestor Realm. Yes, please remember this. You must take him there. He must be there!”

Montecie pondered for a while and then nodded.

Sauron faded and disappeared, leaving no trace.

“Sigh, I don’t know what plan he has. Since when did he lay his eyes on Shi Yan?” Montecie mumbled after Sauron was gone, her eyes puzzled.

Deep inside the cloud sea.

The rapid currents wound around Fan De Lei’s body like squeezing snakes.

Fan De Lei’s body was filled with starlight. He was now a source of light, but his light was dim and cold while resisting the supple power of water. The starlight bands were like shuttles twirling around Emperor Sea Shark that smashed the clouds. Slowly, their arena moved deep inside the cloud sea.

Dalsa and Cilan were fighting against Minh Hao, Xuan He, and the others. Apparently, the Cloud warriors weren’t equal opponents for the experts from Grace Mainland.

Especially Audrey. Audrey had the Soul Refining Cauldron, an Absolute Beginning divine weapon. When her thoughts flickered, countless evil spirits and brutal souls that were like a thick cluster of dark clouds appeared and twisted into a strange formation that could distort souls and make warriors shiver and their soul altars tremble.

This battle lasted for several days. The Cloud Tribe warriors couldn’t endure it any longer. Many of them got hurt.

In the beginning, Quinn had controlled his High Priest Committee’s members and not let them join the battle. However, seeing his Cloud fellows fail, Quinn thought that they got the same enemy. As they were from the same race, they couldn’t just watch others kill their fellows.

Quinn ordered the High Priest Committee to engage in the battle. After that, the pressure the Cloud warriors had to bear was reduced.

However, after a while, they couldn't endure it. The Immortal Realm experts like Ming Hao, Xuan He, Frederick, DeCarlos, Lei Di, and Azure Dragon had experienced bloody wars. They were all brutal, evil experts. Not many warriors at the same level could parry with them.

When they showed their cruel deeds, the Cloud Tribe warriors couldn't resist and got beaten up.

As Quinn and Cilan saw the situation get worse, they quietly sent messages. The Cloud Tribe fellows living in Cloud Mist Territory and cultivating around gathered when they received the call. Most of them didn't have high realms. They just had some at Incipient God Realm, but they had already outnumbered the opponents.

Several thousand warriors had come.

After they arrived, they arrayed in a formation and moved through the clouds to create barriers, sealing and attacking the others.

The victory seemed to tilt towards them.

More Cloud Tribe warriors had arrived. Ming Hao, and Xuan He felt a little overwhelmed as they had to turn from massive attack to a small circle of defense.

"We got more than fifty wounded fellows and twenty were killed. Their realms weren't low. We can't underestimate those outsiders!" Cilan looked at her fellows whining and groaning on puddles of blood, her face chilled. A member of her tribe was hit by the Corrosion power Upanishad. His body was eroding and melting into a puddle of blood.

"I can't believe they've mastered the power of the Devouring Clan!" someone screamed in fear.

"Retreat! Do not come close to those eroding blood splashes!" Dalsa screamed. He knew how terrifying the Corrosion power Upanishad was. Low-realm warriors could be corroded to death if they got in contact with that deadly blood.

"Those damned outsiders! They have to pay a big price!" screamed the Cloud warriors.

"Kill them!"

"Kill them all!"

So many members of the Cloud Tribe were screaming. They came above the clouds, their eyes sinister.

Some of them were members of the Phantom Clan, Fan De Lei's subordinates. While Fan De Lei was fighting against Emperor Sea Shark, Fan Hui Nai commanded them.

Fan Hui Nai wore a red dress that was as beautiful as a blooming flower. She stood amongst the brawny men and giggled, "Your leader was swallowed by the sea of clouds. He's now in pieces inside that space barrier. Why do you need to be persistent? Is it necessary?"

She was talking to Ming Hao and Xuan He.

"Even if all of you are dead, he'll be alright." Xuan He said casually. When Shi Yan's body was sucked to the world underneath, he was sure that Shi Yan was alright because it was his own soul that had drawn his body away. It meant that Shi Yan's soul was intact and the space barriers didn't affect him.

“You’re so stubborn.” Fan Hui Nai shook her head and said to Dalsa, “Those outsiders seek death. Kill them then.”

“Kill!”

“Kill!”

The members of the Cloud Clan screamed. They swarmed over and used many different power Upanishads. The thick, heavy clouds came like mountains or rapid rivers and hit Ming Has and Xuan He.

The sea of clouds had become heavy rocks. Each member of the Cloud Tribe had released thick clouds, which were connected to each other and creating a massive net that heavily pounded down.

Boom! Boom! Boom!

A blood membrane in front of Xuan He was smashed. Xuan He’s faced reddened as he was hurt.

Sizzle! Sizzle! Sizzle!

Ming Hao’s soul clones were besieged inside those clouds and then they disappeared.

The Cloud Tribe had mobilized all the warriors of the clan to attack Ming Hao’s team crazily. Ming Hao and the others were outnumbered. They gradually got tired and hurt.

When Fan De Lei attacked the Cloud Tribe that year, although he was a Territory Ancestor Realm expert, he had to seize the chance when the Cloud Tribe was in a civil war to defeat them.

The Cloud Tribe could use the natural advantages of the sea of clouds to resist even Territory Ancestor Realm experts. Xuan He’s side didn’t have a Territory Ancestor Realm expert. The only expert in their team was fighting against Fan De Lei. As the warriors of the Cloud Clan torrentially came, the defense that Ming Hao, Xuan He, and the others had created slowly collapsed. They got hurt, eventually.

Suddenly, layers of space barriers cracked.

Thousands of lightsabers shot out from underneath. Cloud Tribe warriors around were slashed into pieces of flesh.

Swoosh! Swoosh! Swoosh!

Sharp space sabers shooting from the barrier explosion took a group of the Cloud Tribe warriors to hell.

The attacking formation of the Cloud Tribe broke. The sharp sabers had minced them.

The Cloud Tribe fellows screamed and ran away from this area. Quinn, Cilan, and Dalsa discolored and looked at the area where the sabers were shot.

They understood that it was an important area to enter the world under the sea of clouds. It was the magical land where Skyfall Star River had sunk.

Shi Yan had been sucked down there. And now, something strange was happening,. Did the barrier open now?

Inside the thick clusters of clouds, two red halos appeared. They were so massive. They concentrated and found two beads inside the halos. They were bloody pupils.

“Eyes! They are a pair of eyes!” shrieked a member of the Cloud Tribe. He was so panicked as he tried to flee.

Cilan and Quinn were scared out of their wits as they didn’t know what the horrible beast down there was. Just a pair of eyes and they were as big as bloody suns. How big was the body of this brutal beast?

Swoosh! Swoosh! Swoosh!

A thick murderous, cruel aura emitted from underneath the cloud sea with terrifying bearings. It seemed to be able to break the world and tear Cloud Mist Territory apart!

The soul altars of the members of the Cloud Tribe were shaking hard. Under such pressure, they were about to shatter.

God of Slaughter

Chapter 1525: The World-destroying Might

The brutal, earth-shaking aura came unceasingly from underneath the cloud sea. Together with that horrible aura, a pair of red eyes that were like red suns emerged.

The warriors of the Cloud Tribe were shivering in great fear. They were running and trying to escape the thing under the sea of clouds. However, even though they wanted to run, their limbs were numb and their soul altars were sealed so they couldn’t urge their soul power.

The terrifying pressure in the soul permeated the place and expanded everywhere. Everybody was so chilled.

Even Ming Hao, Xuan He, and the others were frightened. They didn’t know what was happening and just watched the clouds in fear.

Layers of space barriers over there were torn apart. In the thick clouds and mist, they could see only a pair of red sun eyes, which contained brutal, bloodthirsty intents. Looking at those eyes, people would have been petrified.

The fearful, bloodthirsty, brutal, merciless, and despairing thoughts flooded everybody here through that pair of red pupils.

Low-realm warriors of the Cloud Tribe were overwhelmed by the negative energies that even the world had to fear. They cracked and they bled from holes on their faces. Many of them fell into bedevilment and their soul altars shattered!

“GGRRRRR!”

A roar came from underneath the sea of cloud that shook the entire sky. Each creature’s soul in Cloud Mist Territory shivered. They felt the fear that would have been felt if the world ended.

The members of the Cloud Tribe nearby kneeled and shivered. They didn’t have a fighting will anymore.

Xuan He, Ming Hao, and the others were quivering in fear too as they didn't know what the giant demon down there was. While they were still skeptical, layers of thick mist in the sea of cloud vanished. A giant creature tore the clouds and emerged.

It was something so big like a Giant Spirit!

That creature was covered in scaled armor. His head touched the sky while his feet stomped on the ground. Strange and ferocious spikes jutted from the shoulders, elbows, and knees. A gruesome, powerful pair of bone wings shadowed the entire world.

It was a horrible creature that could compare to Hui!

His pair of garnet eyes carried endless bloodthirsty, murderous intents. His giant body was as big as Grace Mainland. After that creature steadied his body, people knew that they were just a tiny ant compared to this giant.

"Oh my God! What is that terrifying creature?"

"How could a dreadful creature like that exist under the clouds?"

"Is it true that the Mighty Heaven wants to destroy the Cloud Tribe?"

"..."

Seeing the creature emerge, the Cloud Tribe warriors groaned in despair. Cilan and Dalsa were dumbstruck. They felt so helpless and dispirited.

Swish! Swish! Swish!

The sparkling stars emerged from the chest of that giant and became a brilliant galaxy in just a second. The dazzling, beautiful galaxy was mysterious and mesmerizing. Each of the stars in there had vigorous life energy fluctuations. Looking at that band of stars from below, people felt a terrifying pressure.

"Skyfall Star River! It's Skyfall Star River!"

"It's real. It was under the sea of clouds. Billions of years ago, it was in the sky of Cloud Mist Territory. After it had sunk into the sea of clouds, it has never emerged. Today, it finally came back to this world!"

"This brutal creature got it!"

While the members of the Cloud Tribe were screaming in panic, Skyfall Star River changed into a twinkling chain. That chain was made of stars and was millions of miles long. The Giant Spirit grabbed it in one hand, which made him look like the only God that ruled space. He swung the chain and made it the most terrifying weapon. He attacked the crowd of the Cloud Tribe in Cloud Mist Territory.

As the chain was flung away, layers of shining starlight sparkled and covered the experts of the Cloud Tribe.

Each warrior of the Cloud Tribe dissolved in the light as if they were made of water and not even a bit of bone was left.

The mad slaughter had begun. Cloud Tribe warriors ran away in fear. However, the chain was millions of miles long; it seemed to be able to pierce through the sky and earth, linking the past with the present. As the stars moved, the experts of the Cloud Tribe disappeared.

The experts of the Cloud Tribe like Cilan and Dalsa couldn't escape their fatal fate. In the light of the chain, they sparked like fireworks and vanished.

Quinn and his members of the High Priest Committee were scared out of their wits and they tried to run for their lives. Unfortunately, the shining chain suddenly parted like a giant dragon, transforming into millions of light beams that shot everywhere. After that, hordes of Cloud Mist Territory members were killed.

At the same time, Xuan He, Ming Hao, and the others stood still, but the light beams didn't attack them. Those light beams seemed to have their own consciousness. Every time they came close to Xuan He and Ming Hao, they changed their direction.

In the vast territory of Cloud Mist Territory, those shooting light beams were moving fast and taking lives from Cloud Mist Territory experts.

On the continents inside the territory, many experts could feel the changes in earth and heaven. They were curious to see what was going on. However, they weren't vigilant when a beam of starlight hit them and took their lives away.

Light beams moved around the entire Cloud Mist Territory in every corner of the continents or the sky. Those lights had killed only warriors with soul altars. As long as they emerged, the light beams notified and killed them on their own, following their Master's evil wish.

Only one place wasn't touched.

Grace Mainland was in the former location of the Cloud Tribe's holy land. Many experts there like Yang Tian Emperor could feel the great changes. They hovered in the sky of Grace Mainland to observe.

They could see the warriors around the continent killed by the lights. Although they were close to those light beams, the fatal beams had avoided them. Recognizing the strange situation, the members of Cloud Tribe around had hope.

They all came to Grace Mainland.

However, more light beams shot toward them before they could approach Grace Mainland. Right in front of Yang Tian Emperor, Fu Wei, Feng Han, and the others, they perished.

Jet black whirlpools appeared in the skies of the continents within Cloud Mist Territory. As soon as they emerged, they sucked crazily.

The soul altars and the God power from the deceased were guided into the black vortexes. Hovering by the horrible existence like the Giant Spirit were nine same black caves. They opened like giant mouths of beasts that swallowed the soul altars and the Essence from the dead warriors.

Xuan He, Frederick, and Ming Hao felt horrible as they didn't know what that giant creature was.

Until those vortexes emerged, Ming Hao was shocked. With divine light shooting out of his eyes, he screamed, "Shi Yan! That's Shi Yan!"

The experts who had received Bloodthirsty's inheritances understood it now. They all gazed at the jet black whirlpools.

It was a strange phenomenon created by the Devouring power Upanishad! Only the overlord with the Devouring power Upanishad could absorb the energy through the black vortexes in the sky.

The fierce, ferocious giant that had stirred up the entire Cloud Mist Territory was Shi Yan. There was no doubt!

When they looked at the savage eyes of that creature, they were more certain. At this moment, Shi Yan was sinking deep in his slaughter. His red eyes showed them that he was in an extreme condition. However, they knew he hadn't lost his mind yet. They knew that because the light beams didn't attack them even though they stood still.

"He... what happened to him?" Audrey's lips trembled as she watched the fierce Shi Yan attack the entire world. She was filled with doubt and curiosity.

"His body can compare to the body of Absolute Beginning creature. His life energy fluctuated powerfully. I've seen the same thing on Hui. Also, even Dragon Lizard, the second generation of Lizard, has a body that can't reach this level!" Azure Dragon, the Holy Ancestor of the Heavenly Monster Tribe had lived for one hundred thousand years. At this moment, his voice trembled. "If I'm not wrong, Shi Yan has transformed his body to the body of a real Absolute Beginning creature, just like Devour and Hui, the ones that have lived for billions of years. I wonder what happened to him down there..."

Azure Dragon startled everybody. The body of an Absolute Beginning creature! Only the real Absolute Beginning creatures could have a body like that, the legendary undying body!

Shi Yan had reached that level!

While they were talking, more and more Cloud Tribe fellows were killed. The chain that Skyfall Star River had created changed again. It was now a dazzling star map.

The star map emerged in the sky of Cloud Mist Territory. Beautiful stars began to fall from the star map. The experts of the Cloud Tribe bidding in the forest or underground were killed. Shortly after, the entire Cloud Mist Territory had to bear the most terrifying damage ever. Almost all the experts were massacred.

Boom!

The giant with the red eyes punched the void. As soon as his fist rose, lights in this entire world extinguished. The world sank into thick darkness.

Darkness had shrouded the world. That punch brought a desperate and destructive intent. His fist then emitted strange corrosive energy that flew extremely far distances and shattered halos of the stars. Darkness rose again and shadowed all of the lights.

Inside the halo over there, Fan De Lei's body cracked and sounded like he had a lot of internal explosions. Dark blood trickled from the corners of his mouth, his face pale. He looked at the

mysterious, bright star map afar and shivered. He knew Skyfall Star River now had an owner and he knew who its owner was.

Swoosh! Swoosh! Swoosh!

Rolling energy became waves with destructive, desperate, and chaotic energy that swarmed toward him.

Fan De Lei felt his chest get heavy and irritated when the aura with evil, negative energies filled him. He wanted to urge his Star power Upanishad, but the star map over there seemed to be able to change his energy. Fan De Lei discolored in fear. He retrieved power and shivered. Hesitating for a moment, he left Emperor Sea Shark and tried to run to the territory entrance.

Soon, he reached the territory entrance and left Cilan and even Fan Hui Nai behind. He had ignored his subordinates and ran helter-skelter.

Fan De Lei had run away, which also meant that no one could stop Shi Yan's massacre in Cloud Mist Territory. He had used the most merciless deeds to clean all the stubborn warriors of the Cloud Tribe to rule Cloud Mist Territory. The Cloud Tribe wouldn't rise again within the next ten thousand years.

God of Slaughter

Chapter 1526: Surpass Bloodthirsty!

Cloud Mist Territory.

In this natural territory, a great change had happened. The Cloud Tribe had managed this place for thousands of years. And today, it was brutally cleaned.

So many warriors of the Cloud Tribe were killed quickly. Even the ones hiding underground couldn't escape death.

The creatures on the continents lived in misery. The Cloud Tribe fellows screamed hopelessly, but no one could help them.

Dozens of black holes like open mouths of demons crazily swallowed energy and soul altars of the Cloud Tribe experts.

Fear and despair covered and lingered in each of the members of the Cloud Tribe. No matter how hard they tried, they couldn't change this deadly situation.

That year, when Fan De Lei commanded the experts of the Phantom Clan invading this land, he had shed blood on it. However, compared to this complete wash, it was just like a joke.

By the barrier between Cloud Territory and Mist Territory, Xuan He and Ming Hao lifted their heads to watch the sky and the giant creature. They saw the bright red eyes become slowly sober.

They all felt lucky for being able to see daylight after the thick mist went away.

Shi Yan had fallen into a mad slaughtering. They deeply felt this fear. While Shi Yan was cleaning the warriors of the Cloud Tribe, they didn't dare to act rashly as they were afraid that Shi Yan would accidentally kill them too.

They were lucky that Shi Yan still had his sound mind. The life-taking beams acted as if they didn't see them.

"He was so frantic!" Xuan He sighed and shook his head with emotion. "When I first saw him that year, I had never thought that he could reach today's height. He has the Territory Ancestor Realm and the Absolute Beginning creature's body. He has the Devouring power Upanishad and the eight great, evil power Upanishads. He even has Space, Star, and Life power Upanishads. He's the Son of Heaven, indeed!"

Ming Hao was also emotional.

When he first met Shi Yan, he didn't really appreciate him. He thought that Shi Yan was just luckier than others and that he would never reach Bloodthirsty's level.

At this moment, Shi Yan's competence and realm weren't less than Bloodthirsty; he had even surpassed him in some aspects!

For example, Shi Yan had the Absolute Beginning body and he had mastered the Star, Space, and Life power Upanishads. Bloodthirsty didn't have those fierce features.

Besides those, Shi Yan had the Power Upanishad Symbol Tower. And now, he got the Absolute Beginning divine weapon called Skyfall Star River!

As they were at Territory Ancestor Realm, Xuan He and Ming Hao secretly compared Shi Yan and Bloodthirsty in his peak condition. They suddenly had a feeling that if these two fought, Shi Yan would have a higher chance of winning.

In other words, Shi Yan had surpassed Bloodthirsty at his best condition!

They were totally convinced. Lifting their heads to observe Shi Yan, the unique demon, Ming Hao, Xuan He, and Frederick kneeled. At this moment, they were wholeheartedly subjected to Shi Yan. They knew that in the future, Shi Yan would advance further and not just simply stop at this realm.

In the future, Shi Yan would become the overlord of all galaxies. He would make all the races bow to his feet.

Near them, a group of warriors was shaking like leaves in the wind. They didn't dare to run or move.

They were the members of the Phantom Clan, including Fan Hui Nai, Fan De Lei's older sister. When the light shone on her, her soft body was chilled. Seeing the black holes in the void, she knew Shi Yan was that brutal demon. Filled with fear from seeing the familiar faces from the Cloud Tribe get killed, she slumped helplessly.

At this moment, all the soul altars in the sky were drawn into the black hole. Petrified, Fan Hui Nai and the members of the Phantom Clan couldn't speak. They were dumbstruck as they watched Shi Yan, the Giant Spirit.

Time flew silently.

Gradually, the souls and God power of the dead Cloud Tribe warriors were taken away by the black holes. Slowly, the jet black whirlpools scattered around Cloud Mist Territory gathered around Shi Yan like clusters of black clouds. They fused with each other and became a massive black hole. Eventually, it came to Shi Yan's body.

Shi Yan's massive Absolute Beginning body looked even bigger than a planet. Slowly, he shrank in the world of starlight. From a giant demon, he returned to the size of a normal human.

This process happened fast. Within around ten breaths, the giant demon disappeared and Shi Yan reappeared.

He didn't change a bit!

At first glance, people didn't recognize any chance. Only the existences like Ming Hao and Xuan He could feel the immense vitality in Shi Yan's body. The vigorous life energy fluctuations made them awe-struck.

After Shi Yan had returned to his old shape, his eyes were still closed. The sea of stars created by Skyfall Star River turned into a jet of light that fell from the sky and entered Shi Yan's Sea of Consciousness and then his soul altar through his head.

Xuan He and the others naturally gathered around him. Azure Dragon and DeCarlos had respect on their faces as they stayed quiet.

Further from them, Fan Hui Nai asked her fellows from the Phantom Clan to not act rashly and just watch the situation in silence.

After a while, Emperor Sea Shark flew toward them. With a complicated face, he steadied by Shi Yan and watched him and felt the earth-shaking life energy in his body. "He entered the Territory Ancestor Realm eventually. I've met many First Sky of Territory Ancestor Realm experts, but... I'm sure that no one can beat him. When his realm steadies and his God power condenses, he can challenge the characters at the level of Ten Great Territory Ancestors. He's incredible..." appraised Emperor Sea Shark.

When he first met Shi Yan on the seabed of the Sea of Annihilation, Shi Yan had a low realm. When he had to confront Ferrell and Neptune, he didn't have the power to resist.

After one hundred years, a relatively short period to the warriors like them, Shi Yan had amazingly entered the Territory Ancestor Realm. His power was thrilling for the others to hear. Emperor Sea Shark believed that Ferrell and Neptune couldn't be Shi Yan's match now. When Shi Yan's realm steadied and his God power condensed, experts like Ferrell and Neptune couldn't even run away if they faced him.

"Is that... him?" Audrey muttered as she couldn't believe her own eyes.

"Where's my brother?" Fan Hui Nai gingerly came, her beautiful face aghast. She asked Emperor Sea Shark, "Where is my brother? Where is Fan De Lei? Is he okay?"

At this moment, they finally noticed the Phantom Clan warriors.

Shi Yan had cleared up the Cloud Tribe, but he didn't hunt the Phantom Clan warriors to the last member. Apparently, he wanted to give Montecie face. Otherwise, Fan De Lei would have been killed already and the members of the Phantom Clan here wouldn't have been able to escape.

"Fan De Lei left through the territory entrance. He was frightened. He knew if he stayed, he would continue to be attacked by Shi Yan." Emperor Sea Shark frowned and then continued, "Shi Yan didn't kill you guys because he remembers Montecie's favor. He's giving your Phantom Clan face. Right, I think you can take your fellows and leave. I think he won't attack you guys."

Hearing him, Fan Hui Nai said thanks and bowed to greet them.

"Later on, you two shouldn't come to Cloud Mist Territory anymore. Or else, no one can tell what will happen," Emperor Sea Shark said coldly.

Fan Hui Nai's beautiful eyes batted as she stuttered, "No! No! We won't dare!"

She had made up her mind. Even if she had to die, she would never come to Cloud Mist Territory or provoke Shi Yan ever again. The experts of the Cloud Tribe were all killed. Wasn't it a good lesson to them?

She had brought the beautiful people of the Phantom Clan, shivering while heading towards the territory entrance. They were afraid that Shi Yan would open his eyes and kill them in any second.

When they came to the territory entrance, they could exhale in relief. They took all the warriors watching the territory entrance with them and left Cloud Mist Territory.

Cloud Mist Territory no longer had a member of the Phantom Clan left and all the experts of the Cloud Tribe perished.

Of course, Cloud Mist Territory had many warriors from other races and forces including high-realm warriors. They also wanted to seize the chance and do something. However, when they realized that all the experts of the Cloud Tribe were massacred, they were scared out of their wits and discreetly left.

Some wise leaders of the other forces came to Grace Mainland to show Yang Tian Emperor, Fu Wei, and the others their good will. They never dared to provoke the warriors on Grace Mainland and they were going to submit a certain amount of cultivating materials to Grace Mainland every year.

They surrendered, but they knew things have changed. They understood that the master of Cloud Mist Territory was no longer Fan De Lei and the members of the Cloud Tribe.

The new master was the owner of Grace Mainland.

Three months passed by rapidly.

During the time, all the forces, big and small, had come to Grace Mainland to show their attitude and loyalty.

Without Fan De Lei and the experts of the Cloud Tribe, the entire Cloud Mist Territory was managed by the warriors of Grace Mainland. This territory had a new Master.

The Phantom Clan didn't send any hotshot to the place so the territory gradually quieted down.

Deep inside the sea of clouds, Shi Yan hovered still. He had sat there for three months.

Audrey, Yang Tian Emperor, Blood Devil, and Emperor Sea Shark guarded him and waited for him to steady his realm and wake up.

They all knew that Shi Yan needed time to refine his energy after the bloody genocide and his breakthrough to the Territory Ancestor Realm. He needed to quiet down his mind and strengthen his realm.

They were waiting for Shi Yan and protecting him in case someone tried to seize the chance to ambush him.

Today, after three months of staying silent, Shi Yan exhaled and woke up as people around were expecting him.

Opening his eyes, Shi Yan looked calm and relaxed as usual. It seemed like he didn't change a bit. Ming Hao and Xuan He didn't sense the powerful aura of a Territory Ancestor on his body. While they were still surprised, Shi Yan grinned and said, "Did we take over Cloud Mist Territory smoothly?"

Xuan He, Frederick and the others smiled and nodded to him. Then, they hurried to ask him about the situation under the sea of clouds.

At this moment, the space barrier by the sea of clouds had resumed its layers. No one knew what was under that thick layer of clouds. Of course, they didn't know what had happened to Shi Yan.

Shi Yan didn't want to explain and just smiled, "I got Skyfall Star River and entered the Territory Ancestor Realm. Montecie brought me here to give me a big encounter. Yeah, at this moment, Cloud Mist Territory is secure. You guys can stay here to cultivate. I need to go out for a while."

"Where are you going?" asked Audrey.

"When I was in the Sea of Annihilation, I got the worst from Ferrell, Ricardo, and Neptune. There are some due debts. Time to clean it up," Shi Yan said in a husky voice.

"I'm going with you," Emperor Sea Shark was startled as he screamed. "I got some debts I want to take back too!"

"No! You're staying here. Cloud Mist Territory needs to be protected by you. If you aren't here, I will be worried," said Shi Yan seriously.

"But..." Emperor Sea Shark was flustered.

"You just got the Original Symbol; you need more time to study it. Stay." Shi Yan's eyes scanned the crowd and he got up with a smile. He didn't mind the others and disappeared little by little under their gaze.

[God of Slaughter](#)

Chapter 1527: Retaliation Starts From You!

Empty Land, deep inside the Sea Domain of Nihility.

Pieces of broken stars and asteroids gathered and created an endless continent. Cities were built inland. Some were small with a population of tens of thousands of people, but some were big enough for hundreds of thousands of people to dwell in.

Dozens of thousands of years ago, this place was just a black void of space without a single rock.

A warrior had traveled to this area and found so many territory entrances that were like adjoining whirlpools on the seabed of the Sea of Annihilation.

He had spent dozens of years exploring those territory entrances. He found that each of them lead to a strange world.

Those territories had a lot of natural resources and strange races living and cultivating. Those were the lands that were full of earth and heaven energy and very suitable for warriors to cultivate in.

He told his friends about his findings. Gradually, more and more warriors went to explore those territories. They had established the bases by those territory entrances.

Some experts with supernatural powers had moved the asteroids and built cities. The hotshots were sent to guard their cities year-round.

After millions of years, many races had risen. The Seven Great Clans slowly became overwhelming. More and more warriors guided the broken pieces of the stars and massive asteroids to this area. They then built fortresses and cities. After a long time, broken stars and asteroids joined together and created a continent.

This continent didn't exist at first. Since it was created piece by piece, it was called Empty Land.

Empty Land had many territory entrances leading to different territories. Slowly, it became a crowded, lively area. Just like the Sea of Annihilation, it attracted the Seven Great Clans. They had all come and established their bases with elite forces.

Currents of people didn't cease in front of the territory entrances. They were exploiting ores and natural resources in those territories. Empty Land was their trading center where they exchanged their products for pellets or spirit stones to improve their powers.

After tens of thousands of years, the Empty City on Empty Land had become one of the biggest trading centers in the Sea Domain of Nihility. The Empty City was created by many smaller cities. It was very famous in the Sea Domain of Nihility and it attracted a lot of warriors.

A corner of Empty Land.

A massive, red rock was hovering and it was around ten times bigger than the Immortal Island. A spacious city was situated on that rock. From a distance, the city looked like a giant beast that was crouching and threatening people in their minds.

This city was one of the Ancient Monster Clan's cities. On Empty Land, the Ancient Monster Tribe didn't have just one city. Currently, this place was given to Ferrell. Many warriors of the Ancient Monster Tribe

cultivating lightning had come and become Ferrell's subordinates for a chance to learn the mysteries of Lightning and Thunder power Upanishad from him.

In the highest tower of the city, the ground was inlaid with blue crystals. Lightning flashed inside those crystals and made the warriors look like they were walking on lightning.

Ferrell was wearing precious garments, sitting on a massage chair and watching the city in front of him. In Empty City, those smaller cities belonged to different clans, including the Soul Clan, the Mysterious Sky Clan, the Devouring Clan, the Black Demon Clan, the Phantom Clan, and the White Bone Clan.

Six beautiful maids from different races wore flimsy clothes that exposed their white skin. They were holding fruit trays, smiling and serving Ferrell. A girl from the Arctic Fox Tribe who was about seventeen years old, had an oval face with picturesque brows, her eyes bright when she shoved her body onto Ferrell's chest. "Sir, when will you teach me the power Upanishad?"

This little girl was from the Arctic Fox Tribe, a dependent tribe of the Ancient Monster Tribe. She had cultivated Lightning and Thunder power Upanishad to the Incipient God Realm. When she heard that Ferrell had joined the Ancient Monster Tribe, she volunteered to serve him and use her beauty to exchange for knowledge of her power Upanishad. Ferrell liked her very much.

The other five girls were also from the tribes dependent on the Ancient Monster Tribe. They were all beautiful and cultivating Lightning power Upanishad. They had volunteered to serve Ferrell with the hope to perceive more knowledge of Lightning power Upanishad from him.

In the Sea Domain of Nihilicity, the competition was harsh. Many tribes dependent on the Ancient Monster Tribe were fighting in the dark. Among them, the Arctic Fox Tribe was a small and weak one. The women of this tribe were pretty, but they didn't have good innate talents or vigorous bodies. Usually, they came to depend on the stronger races.

Each girl of the Arctic Fox Tribe would choose to depend on the experts of the Ancient Monster Tribe. They used their beauty to earn favors and increase their competence.

It was an easy method somehow.

"No need to hurry. After the meeting, I will rest and then teach you." Ferrell squinted, his big hands rubbing her round rear end. He was looking at a city far in front of him and was suspicious.

After they had failed in the Sea of Annihilation, Edgar, Beverly, and Judy didn't give up. They had talked for a long time.

Of course, Ferrell wasn't qualified to join the meeting. He didn't know what Edgar, Beverly, and Judy had discussed. He just knew that it was related to Sauron, one of the Ten Great Territory Ancestors.

After that, Beverly sent Ferrell and Keith to Empty Land and asked them to stay and wait for Beverly.

Neptune and Oliver didn't return to their clans. They came to Empty Land too. They said that they needed to join an important meeting.

The three Second Sky of Territory Ancestor Realm experts Beverly, Edgar, and Judy didn't go to Empty Land. The others didn't know where they went.

Ferrell had been waiting for a long time. He had asked Keith several times to see if Beverly was back. Keith told him not to hurry and that Beverly would come soon, so he should be patient.

Meanwhile, Ferrell had used the Ancient Monster Tribe's channels to check the territory where Shi Yan and Emperor Sea Shark went. Slowly, he discovered some clues. Ferrell had discreetly contacted Neptune and Keith. After they had located the territory, they were going to join hands to kill Shi Yan, the potential danger.

"Sir Ferrell, here comes the prisoner." A dark voice came from a long corridor behind him. A savage member of the Ancient Monster Tribe came and held out a Phantom woman in his hand. The woman was around thirty years old, her beautiful face gory.

Two sharp lances were pierced through her limbs to shackle her and stop her from moving.

She had bloodstains all over her body. Apparently, she was tortured. The brutal Ancient Monster Tribe warrior held her hair and raised her in front of Ferrell. The poor woman's eyes were filled with resentment. She said through gritted teeth, "My fellows will never forgive you. Madam Montecie will kill you."

She was Kelan, a member of the Phantom Clan. She was responsible for collecting information in Empty Land. Three days ago, she was kidnapped while buying cultivating materials.

"In which territory?" Ferrell wore a cold face. Looking at the poor figure of the woman, he just laughed, "Montecie? She killed my mount and cleared my base on the seabed of the Sea of Annihilation. Because of her, I'm going to kill your Phantom Clan! You should know that I finished all of your fellows on the island in the Sea of Annihilation. But I'm living well, aren't I?"

"You won't stay content for long!" Kelan shouted and wiggled. Electricity ran through the lances and reached her heart.

The cuts on her body cracked open and she bled terribly.

"Haha, Sir Reed, you're so cruel. You scare us." The girls by Ferrell covered their mouths and giggled. However, they looked excited as if they really wanted to see the bloody scene.

"She knows the location. I haven't wormed the name of the territory out of her yet. I think you can do that easily, Sir..." the Ancient Monster Tribe warrior grinned fiendishly.

He was Reed and he was cultivating Lightning power Upanishad to Second Sky of Immortal Realm. He had become Ferrell's subordinate.

"Yeah, it's not difficult." Ferrell pushed the Arctic Fox girl with the pretty face away. He placed one hand on Kelan's head. Electric beams shot out from his hand and moved toward Kelan's soul altar like snakes to search through her memories.

Blood ran from Kelan's eyes, nostrils, and mouth. The electric beams had damaged her soul terribly. After Ferrell was done searching, her soul was going to perish or break, making her a person without memories.

Reed stood indifferently. He was teasing the girls of the Ancient Monster Tribe and watching Kelan convulse painfully. Her life energy fluctuated weakly.

Kelan's skin dimmed and horribly paled. She looked like a corpse.

The beautiful Ancient Monster Tribe girls were disgusted by her. They moved away as they were afraid that Kelan's blood would stain them when her body exploded.

Sizzle! Sizzle! Sizzle!

Strange electric beams emerged by Reed. Space began to ripple. Reed changed his visage and retreated instinctively.

A silhouette appeared in so many ripples and became visible.

"Shi Yan!" Ferrell was shaken as if he saw ghosts in daylight. Looking at that man, he grinned fiendishly, "Good timing! I was worried that I wouldn't find you. Hahaha! God is helping me haha. The Power Upanishad Symbol Tower is predestined to be mine!"

As soon as Ferrell's laughter arose, the members of the Ancient Monster Tribe from every corner in the city gathered. Shadows of experts came and besieged the one who had just used the Space power Upanishad here.

After the warriors from hundreds of meters around gathered, the ripples ceased. Shi Yan emerged. He checked Ferrell and saw that Kelan was nearly dead. He wore a cold face as he said, "Ferrell, my slaughter will start with you!"

God of Slaughter

Chapter 1528: Trample!

"Shi Yan! You dare to come to Empty Land! You court death yourself! Haha, I will get your Power Upanishad Symbol Tower and refine a Lightning Original Symbol!"

Ferrell faced the sky and roared. His roar turned into blazing lightning winding around the city and activating barriers and restriction for defense.

This city of the Ancient Monster Tribe was bestowed to Ferrell by Beverly. Ferrell had strengthened it with his lightning power. At this moment, the entire city walls were filled with terrifying electricity. Each stone had the power of lightning. As he was bellowing, the city seemed to become a massive lightning beast in the earth-shaking thunder.

"AAARRGGGHHHH! KILL HIM!"

"Help our Master kill him!"

Hundreds of warriors of the Ancient Monster Tribe controlled the lightning, and surfed on the electric river, roaring and advancing.

All of them were members of the Ancient Monster Tribe under Ferrell's commands. They all cultivated Lightning power Upanishad. This city was changed by Ferrell, which was pretty suitable for them to stay and cultivate their power. In this place, a Third Sky of Incipient God Realm expert could have the power of a First Sky of Immortal Realm expert.

Boom! Boom! Rumble! Rumble!

Massive dark green lightning balls appeared with flashes. They shot out of the wall by Shi Yan and aimed at his chest.

The overbearing lightning and thunder power struck Shi Yan's body. The python-like electricity moved and nibbled inside him, attempting to smash his frame and pounding him into a dough or even ashes.

"Haha, I don't need to labor to find you. Thanks for saving me time and effort." Ferrell was excited and smiling. He stood imposingly like the only God in charge of Lightning and Thunder in this world. The entire lightning strikes and thunderclaps in the city followed his commands.

Boop! Boop! Boop! Boop!

Sounds of popping beans arose from Shi Yan's body. He was slightly shivering, but his face was strangely calm.

"Ferrell, you've made no progress. You think you can swagger around with your First Sky of Territory Ancestor Realm?" Shi Yan looked calm and casual. He moved and a brutal aura shot like a light column into the sky. Instantly, his body grew scale armor and bizarre spikes.

As all the members of the Ancient Monster Tribe were screaming, Shi Yan changed earth-shakingly. He swelled up into a fearsome giant whose head touched the sky and feet trampled the ground. The giant had eyes that were like red suns. His thick murderous aura made people in the cities nearby shiver and discolor.

"Break!"

The giant's hands ripped the city of the Ancient Monster Tribe as if they could actually tear the entire sky. His towering body was several times bigger than this city. He was using both hands and feet to crush the entire city quickly.

The weaving lightning and thunderclaps were like little mosquitoes that couldn't endure one attack. They couldn't even scratch him.

Ferrell looked at Shi Yan, the Giant from the ruins of his city. It was the first time he felt fear.

"Absolute Beginning body! Territory Ancestor Realm!"

He mumbled. Finally, he knew it wasn't his impetuous youth that made Shi Yan come here alone! Shi Yan was sure about his victory!

"Galaxy covers the sky! Sun and moon rotate!"

Roars that shook the sky arose from deep inside the clouds. The brilliant stars emerged one after another and created a vast galaxy. The suns, moons, and stars twirled. The scorching lights and cold beams shot together with meteors.

The Ancient Monster Tribe warriors vomited blood when they saw the mysterious galaxy.

Crack! Crack! Crack!

As Skyfall Star River covered them, their soul altars cracked without any signs. Then, their soul altars shattered and became ashes.

“Run!”

“Run for your life!”

The high-realm warriors of the Ancient Monster Tribe screamed ear-piercingly and tried to leave as fast as they could.

Boom! Boom! Boom!

As soon as they wanted to leave, they found an invisible barrier that was a thick space wall blocking their exit.

Space energy rippled like waves and sealed the entire area.

Unless they had reached the Territory Ancestor Realm, no one could break that space seal. They were fixed at their spots.

“Sir Ferrell, help us!”

“Please help us!”

The six beautiful girls of the Ancient Monster Tribe cultivating Lightning power Upanishad had to move and duck all the time. They were flustered and disheveled as they tried to break the wall to run away. However, at their realms, they didn't have any hope.

The pretty girl that had laughed at Kelan was pathetic. She begged Ferrell to protect her.

“Shi Yan! If you attack me, you will have to face the entire Ancient Monster Tribe! You won't have a decent end!”

Ferrell roared. Lightning balls shelled from his territory. They moved in the sky and swelled into big continents with winding electricity. Altogether, they barged into Shi Yan's Absolute Beginning body.

The continents with the Essence of Lightning power Upanishad were intimidating and they were the nemesis of creatures in soul form. If Audrey was here, her brutal souls and ghosts from the Soul Refining Cauldron would burn to ashes.

Anyway, Shi Yan wasn't afraid. He used his body to receive the attack from the lightning continents.

“Come!”

Shi Yan was now a fearsome giant with a pair of mountain-like legs. He trampled the continents and smashed them into pieces.

Skyfall Star River hovered above his head. While his thoughts changed, it became a constellation of a massive bear. It was the star energy from Skyfall Star River. The giant bear roared, its voice echoing through Empty Land. Many warriors were shaken hard.

The giant beard made of stars pounded its chest and stomped its feet, turning into a jet of light that aimed at the lightning balls above Ferrell's head.

BOOM! BOOM! BOOM!

The earth-destroying explosions arose above Ferrell's head. All the lightning balls that contained Ferrell's pure Dark Energy exploded at once.

"The fortress of the Ancient Monster Tribe is in a war!"

"Absolute Beginning creature! It's an Absolute Beginning creature!"

"Gosh! What's going on?"

Warriors in different cities of different forces could feel the commotion of the great battle. After being dazed, the warriors who thought they were strong enough began to head to that area.

Many people who knew Shi Yan like Tu Shi Qi and his wife Ya Yun, Dragon Lizard, the White Bone Clan warriors and the Black Demon Clan warriors gathered on Empty Land and waited to join an important meeting. No one had ever imagined such a furious and destructive battle could happen on Empty Land. They were attracted and went to that area.

"It's a real Absolute Beginning creature! A real Absolute Beginning creature!" Forefather Dragon Lizard closed his eyes to sense for a while. He suddenly hissed in excitement. The energy fluctuated from that giant made him feel shame.

Only the real Absolute Beginning creatures could have such powerful bodies with extreme energy!

"Oh? Why do I feel like it's familiar?" Looking at the changing sky and feeling the aura of the sealing space, Ya Yun batted her eyelashes. After a while, she screamed hoarsely, "It's Shi Yan! It's Shi Yan's aura!"

Hearing her, Forefather Dragon Lizard and Tu Shi Qi were frightened. Looking at the giant whose head touching the sky, they felt that it was so unreal.

"Endless Darkness!"

Thick darkness expanded and covered Ferrell and the members of the Ancient Monster Tribe. Two figures stood imposingly in the dark. They were Shi Yan and the giant beard created by the stars. The giant beard was sparkling beautifully while roaring and stomping the ground. It had smashed the ruins of the city into stone powder.

The warriors of the Ancient Monster Tribe down there were crushed into bloody dough shortly after!

The darkness was filled with destructive, desperate, and corrosive energy. Slowly, Shi Yan's giant figure disappeared in the dark, leaving only the giant bear with a starlight chain in its paws. It was crazily chasing Ferrell and smashing his Thunder and Lightning Territory.

The warriors of the Ancient Monster Tribe and the six women who had exchanged their beauty for power Upanishads didn't have anything left.

Standing in between puddles of crushed bloody flesh, Kelan of the Phantom Clan regained some spirit. She looked at the young man and her puzzled eyes slowly brightened. "You... You are Shi Yan, Madam Mei Ji's man?"

Kelan suddenly found vitality filling her dying body. Her blurry consciousness slowly resumed. She was bewildered for a while. When she understood it, she kneeled and sobbed, "Thank you for saving my life. Kelan will never forget your grace."

"You shouldn't stay here. I'm going to take you away to somewhere safe first." Shi Yan nodded. In the thick darkness, he opened a bright passage and took Kelan out of here.

After Kelan had left, Shi Yan was like the spirit in the night and snorting. Suddenly, he had become thousands of himself like the sea of people filling the thick darkness. It was the ability of the Soul Control power Upanishad.

Ferrell was chased after by the giant bear and suddenly felt a chill. He saw many powerful shadows using different power Upanishads including Space, Star, Death, Life, Destruction, Despair, Corrosion, Chaos, and more. To make matters worse, they were coming towards him.

In this moment, Ferrell was petrified. He felt like several thousand Territory Ancestor Realm experts were attacking him at the same time. He had almost collapsed.

Those shadows had intimidating life energy with immense soul magnetic fields. At Ferrell's realm, he knew they were real experts and not just illusions.

The power Upanishads they were using were all powerful and mysterious with strong lethality. Ferrell felt helpless and powerless.

"Ferrell, you are going to die here today!"

Thousands of people were screaming at the same time from everywhere and hitting Ferrell deep in his soul. He was more restlessly insecure.

[God of Slaughter](#)

Chapter 1529: Dreadful Might Fills the Sky!

After reaching the Territory Ancestor Realm, Shi Yan's harvest was beyond what others estimated!

He had especially formed an Absolute Beginning body, the most powerful body in the universe that only Absolute Beginning creatures had. Within a split second, he could swell up to be as giant as a whole planet or shrink into his human form. The power inside the Absolute Beginning body was much more intimidating than the Seven Great Clans in the Sea Domain of Nihility.

Even the experts of the Ancient Monster Clan or the Black Demon Clan who were famous with gifted, vigorous bodies couldn't compare to the Absolute Beginning body.

He had mastered around ten power Upanishads with two souls and he even got the Power Upanishad Symbol Tower and Skyfall Star River. When he used his best powers, the ordinary Territory Ancestors couldn't match him.

Even Forefather Dragon Lizard would be defeated if he faced Shi Yan, despite reaching the Territory Ancestor Realm.

It was obvious from his face while he was watching Shi Yan in a distance.

In Cloud Mist Territory, Shi Yan had broken through to the Territory Ancestor Realm and cleaned up the Cloud Tribe's experts. He had taken in their God power and refined their soul altars. He thought he could refine an Absolute Beginning Original Symbol or increase his God power.

However, it didn't happen that way. After he had reached the Territory Ancestor Realm, he recognized that the gap between the Territory Ancestor Realm experts and the Immortal Realm experts was too vast to cross.

When he was still at the Peak of Immortal Realm, the energy he harvested when he slaughtered the others could be used to increase his God power or refine his body.

However, after he had transformed his body into the Absolute Beginning body and reached the Territory Ancestor Realm, he found that his need of God power was too enormous. The energy he got after killing all the experts of the Cloud Tribe couldn't increase his energy a lot.

He calculated for a while. The energy he had taken in had increased his God power by around twenty percent. It was still far away from brimming.

He suddenly recognized that after he got the Absolute Beginning body and reached the Territory Ancestor Realm, if he wanted to be stronger, he had to aim for the other Territory Ancestors!

Only killing the Territory Ancestors would help him accumulate energy fast to increase his God power and refine his body!

Desolate's threat was like a shadow shrouding his heart that hadn't dispersed yet. At this moment, he still felt helpless if he had to face Desolate. Desolate was getting stronger every day at an amazing speed.

Thus, his eyes gazed at Ferrell. He had to hunt Territory Ancestors to become stronger. It was how he could reach Second Sky of Territory Ancestor Realm early!

"Shi Yan, is that you?" Forefather Dragon Lizard's voice arose from afar.

Forefather Dragon Lizard was in his human form. With a stern face and uncertain voice, he asked, "You... How did you get the Absolute Beginning body? Gosh! You... You've reached this height! Fierce!"

He was talking to the darkness because even his power couldn't pierce through Shi Yan's endless darkness to see his real body.

In the thick darkness, different kinds of energy fused together and became a giant shadow holding Skyfall Star River in his hand. The stars in the sky were moving around and creating a mysterious and gloomy atmosphere that covered the entire place. Inside that pitch-black area, many shadows were combining their power Upanishads and giving Ferrell a lot of pressure.

The earth-shaking thunder reverberated in that dark area together with Ferrell's crying.

Apparently, Ferrell was in a passive position. He was beaten up!

Silhouettes shot away from cities on Empty Land like meteors.

One of them looked so prominent. She was wearing a seven-colored dress that decorated her mesmerizing contours. Bands of divine light from outer space emitted behind her like weaving rainbows. They looked like a pair of massive, rainbow wings on her back. While she was flying in the sky, her enormous aura had scared many warriors away.

“Who’s that? What a powerful aura!”

“I’ve never seen her before. She doesn’t look like a member of the Seven Great Clans, does she?”

“She has an extraordinary aura. Her power Upanishad... Er, we’ve never seen before. Is she an outsider?”

“I don’t know.”

While the woman was tearing the void to come, her energy had bumped into many warriors of Empty Land and sent them away.

They looked mesmerized as they discussed boisterously to know the woman’s identity.

She was like a beautiful bright pearl. The light rippling from her eyes had stunned people. Between so many fluttering bands of rainbows, she landed by Forefather Dragon Lizard, Tu Shi Qi, and Ya Yun. The woman smiled casually and nodded to Forefather Dragon Lizard with a smile, “Your blood smells so good...”

Forefather Dragon Lizard was bewildered. He was shocked and pointed at the woman while he stammered, “You... You are... You are also a precursor from the Absolute Beginning Era?”

“Little lizard, you have keen eyes. Yeah, it seems that the bloodline you got from your Ancestor is thick enough.” That woman was Zi Yao. She smiled at Forefather Dragon Lizard, her eyes icy cold. “It should taste good. It seems that you can help recover my energy a lot.”

Swoosh! Swoosh! Swoosh!

Rainbow bands that had stretched thousands of miles shot from behind Zi Yao and winded Forefather Dragon Lizard.

Forefather Dragon Lizard changed his visage and roared. He transformed into his real body: a giant lizard. He roared and howled, lava gushing from his body and shooting towards those rainbow bands.

The rainbow bands were actually outer space streamers with lives and intellect. As Zi Yao’s power Upanishad changed, they arrayed into a beautiful, bright formation. The brilliant rainbow bands weaved and Forefather Dragon Lizard’s lava disappeared magically.

Tu Shi Qi and Ya Yun grimaced and yelled. They wanted to use their power Upanishads to release Forefather Dragon Lizard from Zi Yao’s restraint.

After Shi Yan had taken his fellows to Cloud Mist Territory, Zi Yao had gotten out of the space basin to recover her power!

Forefather Dragon Lizard had Lizard’s blood in his body, which was a great tonic to Zi Yao now! Recently, as her power was partly recovered, Zi Yao wasn’t afraid of Forefather Dragon Lizard; he had just reached

First Sky of Territory Ancestor Realm. She hid in a corner of Empty Land and waited for a chance. When she saw Forefather Dragon Lizard, she stepped out and didn't want to show mercy.

"Little lizard, your Ancestor wasn't my equal match that year. Do you think you are?" Zi Yao smiled gently.

Massive rainbow bands changed into ferocious snakes, which were hundreds of miles long and hovering in the sky. Vaguely, Zi Yao's true body emerged with an earth-destroying aura shrouding the entire Empty Land.

The warriors who came because of Shi Yan felt horror-struck. They lifted their heads to watch the sky instinctively. They then saw an Absolute Beginning creature in the shape of a twelve-headed snake. The soul-pressing aura made many warriors slump and shiver.

Under the terrifying intimidation of the Absolute Beginning creature, they were petrified and couldn't think about fighting.

Until now, the warriors in the Sea Domain of Nihility were searching for the Absolute Beginning creatures. They hoped that they could kill them to reach the Territory Ancestor Realm. They could eat the Absolute Beginning creatures to transform their bodies and improve their life magnetic field.

They thought that it was a long time since the Absolute Beginning Era ended. Thus, if the Absolute Beginning creatures were still alive, they must be feeble. Obviously, they thought that the Absolute Beginning creatures were just strong beasts that they could hunt easily.

Today, Shi Yan had swelled up to reach the size of an Absolute Beginning creature and trampled the Ancient Monster Clan's city, killing their warriors.

And then, Zi Yao appeared as she was attracted by Forefather Dragon Lizard's flesh. She was hovering in the sky of Empty Land and showing her a world-destroying power. All the warriors were shaken. They finally knew that the heroes in that era weren't people they could provoke.

Bands of rainbows had become a massive heavenly snake which then coiled around Forefather Dragon Lizard's true body.

Under that terrifying attack, Tu Shi Qi and Ya Yun were blown away more than one hundred miles. As they hadn't reached the Territory Ancestor Realm, they weren't qualified to join that battle.

Forefather Dragon Lizard, the giant lizard, was roaring and howling. A world of lava was created around a scorching lava pond. The explosive power of many volcanos erupted and shook the entire place. Lava was sent everywhere. Forefather Dragon Lizard howled and resisted Zi Yao's rainbow shackles.

"Little lizard, give up. Give me your Ancestor's bloodline. I can recover greatly with it. Don't wiggle. There's no use," Zi Yao smiled casually.

Above her, her real body of a twelve-headed snake shadowed the entire Empty Land and gave the warriors here the intimidation of Absolute Beginning creatures.

"RRRROOOOAAAARRR!"

Suddenly, the giant that had disappeared into his darkness reappeared!

His body was covered in scaly armor and sharp spikes; the pair of bone wings on his shoulder was as wide as two continents. His fingers looked like they could break everything when they grabbed Ferrell.

When people looked at them, they saw Ferrell transform into his monster body of the Ancient Monster Clan. He looked like a small seal trapped in a massive anchor. The sharp claws had torn him apart.

Ferrell's monster body was like a small mountain, but he was just a chicken compared to that giant.

BOOM! BOOM! BOOM!

Lightning balls exploded inside Ferrell's body as he shrank. The giant ripped his body.

Shi Yan grinned and lifted his head to look at Zi Yao's twelve-headed snake body, which was as big as his. He shouted, "Forefather Dragon Lizard is my friend. Stay away from him!"

Zi Yao hovered in the sky above the massive lizard. Hearing him, her eyes turned cold but her smile didn't cease. "You heartless man. You don't even want to give me a little lizard. You don't have any affection for me, do you?"

Then, her eyes changed and showed her endless passion for him, drilling into his eyes charmingly, "In Raging Flame Star Area, we had been through a lot of ups and downs. I followed you to Agate Star Area. I've been waiting for you for so many years to receive this? If I can't take this little lizard to recover, Desolate will kill me soon. Are you that heartless to see me die?"

At this moment, she sounded like the real Zi Yao.

[God of Slaughter](#)

Chapter 1530: Pure Gold Spirit Ant

Zi Yao looked emotionally sincere. Her eyes were like rippling lights and her voice was touching.

She was so surprised, though. She could never estimate that Shi Yan had refined the Absolute Beginning body after a short course of dozens of years being away from Desolate Territory.

It meant that Shi Yan's body's evolution wasn't less than theirs. It meant that Shi Yan could reach the ultimate undying level of life.

She couldn't consider Shi Yan, a piece on her chessboard, as a trivial character. Today, she knew Shi Yan matters. She finally considered Shi Yan an equal existence like Desolate and Devour.

Thus, she made use of the knot of love between Shi Yan and her clone to mess his mind up.

The experts of Empty Land felt the shockwaves from the impact of earth and heaven energy and saw the giant creatures in the sky. They hurried to gather.

There were the peak existences of the Seven Great Clans like Keith of the Ancient Monster Clan, Labitte of the Devouring Clan, and Neptune of the Soul Clan...

They all got the news and they were gathering in Empty Land to attend a secret summit.

There were also many warriors who didn't belong to the Seven Great Clans. They were the famous experts living for a long time on Empty Land. Also, many of them weren't weaker than Emperor Sea Shark as they were at First Sky of Territory Ancestor Realm.

An old man with a hunch back holding a bone staff was standing and shaking in the crowd. He had a wrinkled face accompanied by a long, gray beard that touched the ground. His brown eyes were moving swiftly as he gazed at Zi Yao's graceful body. Vague, strange lights shot out from his eyes.

The hunch-backed man wasn't eye-catching in the crowd; he didn't have an earth-shaking aura. However, when Zi Yao released rainbow bands to bind Forefather Dragon Lizard's giant lizard body, the shockwaves had wobbled a lot of warriors. The old man with the bone staff stood still as if he was rooted there.

Not far from him, Gay of the White Bone Clan had just arrived and noticed that old man. He felt familiar as he remembered someone had told him about this old man. Gay frowned and tried to search his memories.

"I don't remember the old love?" Shi Yan urged his giant body and stood on Empty Land like a giant Demon conquering the entire world. His voice thundered, "Let alone that you're not Zi Yao. Even if you are, I won't let you eat Dragon Lizard!"

The ferocious Giant stretched his body, the two wings that were like continents opened!

Crack! Crack!

Layers of spaces emerged on the wings and created many tiles, each tile a different space. Hundreds of small tiles merged into a massive cube that was radiating dazzlingly and filling with chaotic and unpredictable space energy.

Each side of that massive cube had different spaces where there were many sparkling planets. Those planets had mountains, lakes, rocks, and many plants that weren't different from a real world.

The world created of many spaces suddenly appeared and merged with a real world under Zi Yao's heavenly twelve-headed snake, separating Zi Yao's true body and clone.

Forefather Dragon Lizard couldn't even lift his face under the pressure from Zi Yao. Suddenly, he roared and got rid of her restraint.

Zi Yao hovered above the giant lizard, her flowery cheeks cold. She snorted and then said, "You control a lot of things."

"Shi Yan! You dare to kill Ferrell of my clan! The Ancient Monster Clan won't let you leave Empty Land alive!" Keith was like an ant that yelled at Shi Yan's giant body, his voice reverberating the entire Empty land.

Neptune was bobbing between his brutal souls. He sneered and floated up to face Shi Yan. "Absolute Beginning body, Territory Ancestor Realm. Haha, if I kill you and eat you, perhaps I can have an Absolute Beginning body too!"

Neptune became greedy.

“You don’t want to live anymore.”

Shi Yan’s ear-piercing smirk echoed. A vast and brilliant galaxy appeared as his two hands pulled the void. Diamond-like stars moved and showed the most beautiful and mysterious area of the universe.

All of a sudden, Skyfall Star River became a massive net that could shroud the entire world aiming at Neptune and Keith of the Ancient Monster Clan.

“Stars move. Suns and moons shuttle!”

An ancient, low-pitched voice ran directly in people’s Sea of Consciousness. The starlight rays moved and weaved with each other like a big hammock. The suns, moons, and stars released their lights with high heat. Together, their blinding halos filled this entire world.

Neptune and Keith, the two Territory Ancestors sneered and urged their power Upanishads when Skyfall Star River fell upon them.

“Soul Bridge!”

Billions of ghosts and brutal souls gathered and created a bridge, which reached endlessly to the deep area of the Soul Clan to wake up the brutal souls that the Soul Clan had nourished. The restless crying and screeching came from the other end of the soul bridge. The soul-destroying sounds of billions of crying souls had been transmitted through the Soul Bridge.

Pufft! Pufft! Pufft!

Dozens of experts at the Incipient God Realm and Immortal Realm near Neptune vomited blood and trembled hard. They turned as pale as white paper.

That soul-destroying sound wasn’t aimed at them. They were innocent victims.

Shi Yan bore the attack. His giant body wobbled. The soul-destroying sounds were like sharp lances hitting his soul altar and hurting it shortly.

At the same time, Keith of the Ancient Monster Clan sneered and held a shell that was made of neither gold nor jade. Cold light dots sparkled inside the shell when some rumbling noises arose. So many tiny insects that even naked eyes couldn’t see flew out. Billions of them had pierced through Skyfall Star River and attacked Shi Yan’s giant body.

“Pure God Spirit Ants!”

Zi Yao screamed in panic. Her true body in the void quietly disappeared.

The Pure Gold Spirit Ants had existed since the Absolute Beginning Era. This kind of insect was so terrifying even to Absolute Beginning creatures. They were so minute that eyes couldn’t see them and there were billions of them with a horrible reproduction rate. They just needed blood and flesh to create their next generation within seconds!

One thousand Pure Gold Spirit Ants could create several later generations in one minute with the body of an Incipient God Realm expert as its food source. They could become billions quickly!

To the creatures with giant bodies, the Pure God Spirit Ants were more powerful. This sort of ant was their nemesis, indeed.

As Keith knew Shi Yan had the Absolute Beginning body and killed Ferrell, he must have prepared something before he attacked him. The Pure Gold Spirit Ants were an instant-kill attack that Keith had spent hundreds of years to find. He had labored to breed them to this massive scale.

It was his secret weapon specialized for Absolute Beginning creatures. He hoped that he could use those ants to suck the Absolute Beginning creatures' blood and energy. Seeing Shi Yan and Zi Yao, the desire in his heart burned him. He immediately used the Pure Gold Spirit Ants to achieve what he had dreamed of for so many years.

As soon as the Pure Gold Spirit Ants were released, the rhythmical chirping sounds reverberated everywhere. Shi Yan discolored.

His co-soul felt insecure. He immediately recognized that those ants were lethal to his giant body.

As people were gazing at him, his body shrank rapidly. After each second, he got dozens of times smaller. After seven seconds, he had returned to his normal size.

At this moment, the Pure Gold Spirit Ants were swarming like gold sand and trying to suck his body's energy.

As the others were gazing at him, Shi Yan's acupuncture points diffused white mist and smoke. As soon as the mist permeated the area, an extremely sour smell arose. The ants that people couldn't see with their naked eyes screeched in fear and tried to retreat.

Boop! Boop! Boop! Boop!

Low but thick breaking sounds echoed as the ants eroded and melted.

Keith's face changed greatly. He couldn't help but shout at Labitte, "How did he get the Corrosion power Upanishad?"

Not far from them, Labitte of the Devouring Clan looked dark. "He used Devouring power Upanishad to swallow and refine my clan's Young Master. He got all the power Upanishads that our Young Master had."

Hearing him, the warriors in this area discolored. Pu Tai of the Devouring Clan was very famous. He was predicted to be the most outstanding young expert of the new generation in the Sea Domain of Nihilism and was much more talented than Mei Ji and the others. Pu Tai had disappeared mysteriously, puzzling many other warriors. Now, from Labitte, they knew that Pu Tai was killed by Shi Yan.

Shi Yan's intimidation had grown further!

"Little lizard! Come to mama!" Zi Yao's laughter arose again.

The giant body of the twelve-headed snake that had just disappeared suddenly reappeared by Forefather Dragon Lizard. As Shi Yan was fighting against Keith and Neptune, the snakes wound and squeezed Forefather Dragon Lizard's body, dragging him towards a territory entrance.

Zi Yao's beautiful clone was sitting on the gold throne above one of the snake heads. She looked contented.

"After I get his blood and recovered my power, I will find you, naughty little boy!"

Swoosh!

A shadow shot rapidly like a lightning strike cutting through the darkness at Zi Yao.

Gay of the White Bone Clan discolored in fear. He recognized that the one who had just zoomed away was the hunk backed old man standing near him.

Gay tried to squeeze his brain to search for the old man's identity. After a flash, he got it and screamed, "Yuan Zu, one of the Ten Great Territory Ancestors!"
