Chapter 1531: Yuan Zu

The hunchbacked old man turned into a jet of light and followed close behind Zi Yao.

Gay of the White Bone Clan shouted and screamed continuously, "Yuan Zu! Yuan Zu!"

Yuan Zu was one of the Ten Great Territory Ancestors in the Sea Domain of Nihility. No one knew which race Yuan Zu was. He was really mysterious. Gay had heard about him from Hiro. However, when he talked about Yuan Zu, he stammered and sounded ambiguous as he had concealed a lot of secrets.

Gay was one of the Territory Ancestors who had lived for dozens of thousands of years, but he had never met Yuan Zu before. He knew that Yuan Zu was the very first Territory Ancestor who was famous a long, long time ago. When Sauron saw him, he had to greet him as if he was a junior.

Gay knew that Sauron was in the same echelon with Dracula and they were experts of the previous era. As Sauron considered himself a junior to Yuan Zu, Yuan Zu should be much older than him.

Gay used to think that there wasn't a man called Yuan Zu. Until now, he knew that this expert had always existed.

The old man Yuan Zu had disappeared with Zi Yao into a territory entrance in between dozens of entrances leading to different territories. This place was the favorite place on Empty Land. It attracted so many experts to come and explore the marvelous territories.

Tu Shi Qi and Ya Yun saw Forefather Dragon Lizard get taken away by Zi Yao. As they couldn't do anything, they were so worried.

They looked at Shi Yan with hope.

At this moment, Shi Yan had returned to his normal form. A brilliant galaxy hovered above his head. It was the resized Skyfall Star River.

He began to stare at Neptune and Keith.

Although Neptune and Keith were also at the Territory Ancestor Realm, Ferrell's deeds couldn't compare to theirs. Neptune and Keith were the key members of the Soul Clan and the Ancient Monster Clan. With their background, of course, Ferrell, who had always cultivated alone, couldn't resist.

Since Ferrell had joined the Ancient Monster Clan for a short time, he hadn't gained the official approval from the clan. Thus, he couldn't use the strong foundation of the Ancient Monster Clan to increase his power. Otherwise, Shi Yan couldn't have killed him easily like that.

Neptune and Keith were at First Sky of Territory Ancestor Realm and their powers troubled Shi Yan.

The Soul Bridge that connected to the deep and dark place in the Soul Clan could connect to billions of brutal souls to pressure Shi Yan.

The Pure Gold Spirit Ants also struck his Absolute Beginning body hard. Except for that, he didn't know what else Keith had to deal with him.

He had planned to smash Ferrell and then kill Neptune and Keith, and even Labitte. However, he recognized that it was impossible to do all things at once on Empty Land.

Zi Yao's real body had taken Forefather Dragon Lizard away. Shi Yan pondered and decided to give up on his desire to kill Neptune and Keith. After he had refined and absorbed Ferrell's energy, he was going to find some chances to attack Neptune and Keith individually.

Making up his mind, he looked at the territory entrance where Zi Yao had just disappeared. He turned into a jet of starlight and ran away.

"Go get him!"

Neptune, Keith, and Labitte agreed to pursue him as they had many experts here.

Gay of the White Bone Clan pondered and then said, "Yuan Zu is in there too!"

The ones who were about to move were awakened when they heard Gay's voice. They knew that they couldn't resist Absolute Beginning creatures even if they could get in there. They wouldn't receive anything good.

They halted and didn't dare to chase after the others. They decided to stay and wait on Empty Land.

Only the intimidating ones like Emperor Sea Shark had the guts to jump in there.

It was an immensely vast territory.

This territory was naturally formed with so many inhabited planets that totally contrasted to the Sea Domain of Nihilicity. The entire territory was filled with vitality and living auras that only a natural territory could have.

In the middle of the twinkling territory, on a dead star that was abandoned for billions of years, there was no tuft of grass on the ground under the gray sky.

Zi Yao's real body ascended and occupied almost the whole dead star. Although it was a big star, it couldn't support her giant body. Zi Yao had to wind around the planet.

Forefather Dragon Lizard was now a block of meat that was tied tightly by many giant snakes. Zi Yao's clone sat on the throne above the snake's head and smiled gracefully. "Little lizard. Be obedient. To give your Ancestor Lizard face, I only took your Absolute Beginning blood. I will save your life and soul. What do you think?"

Forefather Dragon Lizard struggled hard and tried to get rid of Zi Yao's bind. Unfortunately, no matter how hard he tried, he couldn't free himself.

When Zi Yao was about to suck Forefather Dragon Lizard's blood, the hunchbacked old man appeared like a ghost. He stood by Zi Yao and sighed, his eyes complicated. "Save Lizard a life..."

Zi Yao frowned and coldly looked at the old man who had followed her until here. She sneered disdainfully, "Who are you? You dare to mind my business?"

“Who I am is not important. It’s more important that there aren’t many creatures from the Absolute Beginning Era left. Although Dragon Lizard is the second generation, he still has Lizard’s blood in his veins. This small amount of essence can recover a small amount of your power. Is it necessary to erase Lizard’s last seed to recover a little amount of energy?”

“Lizard is gone. This man has a low realm and can’t promote to the power of the Absolute Beginning blood in his body. It’s not a waste to let me take it!”

“Sigh, you’re still the same. Still very stubborn. If so, I can only stop you here.”

The hunchbacked man smiled sourly. He shook his head and countless water currents shot toward Forefather Dragon Lizard. This sort of water was so slippery that it released Forefather Dragon Lizard from Zi Yao’s grip. Zi Yao’s beautiful face changed and screamed in fear, “Who are you?”

“Hui, long time no see. You don’t remember your old friend’s aura? It seems like your wounds are very terrible. Otherwise, you should have sensed my existence on Empty Land,” Yuan Zu smiled tenderly.

A mild but ancient aura emitted from him like a sprinkle that moisturized this dry planet. His energy brought comfort like a spring breeze to other creatures.

Zi Yao’s eyes shot terrifying lights. She studied Yuan Zu for a while and then smiled, “Oh, turns out it’s you, the coward who had run away from that Great War. You disappeared unknowingly. I didn’t expect that you would still be alive until now.”

“I am called Yuan Zu now, one of the oldest Territory Ancestors of the Sea Domain of Nihility. I exist in this form. I didn’t interfere with the changes of times. I didn’t join the war between the Seven Great Clans. I’m just a bystander, watching the ups and downs, and some interesting stories in this era.”

Yuan Zu smiled faintly. “Our time is over. We shouldn’t forcefully interfere with this time. Otherwise, we would destroy it altogether. I hope you guys stay mindful. Our time is over. Don’t bring catastrophes to this time.”

“It’s the mindset of a coward!” Zi Yao looked disdainful. “If this era can’t endure our power, it will be destroyed. A new era will replace it. New species will be created and they will be able to adapt to the harsher times. This universe transforms all the time during endless battles. Every creature and race needs a bloody baptism. That’s how they walk to the glory and to the ultimate end!”

She curled her lips, “In our time, I didn’t reach the glory or the ultimate end. However, my eternal goal will never change. As long as I’m not utterly gone, I will walk on this path forever. I think... Desolate and Devour are like me. They are still walking on that path too!”

“It’s not a two-way path! That path ended our time!” Yuan Zu hissed angrily.

“How do the world destruction and the end of Times matter to us? Life and death won’t stop because of us. Even if creatures in this era all die, as long as I live and enter the ultimate level, I can create many creatures. I can drive them to a new era. No one can stop me!” Zi Yao sibilated coldly.

“What are you guys talking about?” Shi Yan’s voice arose behind them. He stepped through spaces and approached Zi Yao and Yuan Zu. He looked at Yuan Zu, his face earnest. “I heard from Gay that you’re

Yuan Zu, the oldest Territory Ancestor. However, you have the smell of an Absolute Beginning creature. How should I address you?"

Yuan Zu eyed Shi Yan and smiled, "Up to you. It's a miracle that you can form an Absolute Beginning body in this era. However, you have to be careful. If Desolate goes out of his territory, he will find you first. At this moment, you're not his equal match."

"Thank you for reminding me. I know his threat exists. It also motivates me to be stronger." Shi Yan thanked him solemnly and then switched the topic. "You came to stop her. You've saved me from laborious work. I will stand and watch from here. Haha."

Then, he moved backward and left this barren planet to Zi Yao and Yuan Zu.

"He's called Yuan (*), a creature from Absolute Beginning Era. But he's a coward. He doesn't dare to face the truth. He treasures his life so much that he just goes with the flow. Although he's living well, his power has not gotten stronger. He's still weak like that year," smirked Zi Yao and looked at Yuan Zu.

"I'm a coward," Yuan Zu wasn't enraged as he spoke calmly, "However, this coward will stop you from killing Lizard's seed of life. I will also stop you from reaching the Absolute Beginning Gateway. I won't let you guys smash this era crazily like that."

Chapter 1532: Tranquil Mind

Shi Yan quietly watched the dispute between Yuan Zu and Zi Yao. He didn't join and just retreated.

With the supernatural abilities of Space power Upanishad at the Territory Ancestor Realm, he could move dozens of thousands of miles within one step. His body shrank into a small dot that the naked eye couldn't see.

As he had just killed Ferrell on Empty Land and taken his soul altar and God power, if he joined the battle, it would affect his refining process. Thus, he decided to stand and watch the fun.

Of course, he didn't stay idle...

His speck-sized body moved one round in the void and then headed toward Forefather Dragon Lizard. Because of Yuan Zu, Forefather Dragon Lizard was free. Shivering, he transformed into his humanoid form.

His body was iron-red as if he was made of burning iron. The ground under his feet cracked as it was roasted. Waves of heat expanded like vague mist.

This place was a massive continent in strange territory. Zi Yao's twelve-headed snake body had each head occupy a corner of the continent. Her massive body was like twelve mountain ranges filling this entire place.

Forefather Dragon Lizard in his human form was standing by a giant snake body. He was panic-stricken, though. As soon as he could move, he was about to pierce through the atmosphere to run away.

"Don't!"

Suddenly, Shi Yan's voice whispered in his ear.

Forefather Dragon Lizard was shaken. He looked around and found a tiny human that was a hundred times smaller than a normal adult standing on his shoulder.

It was Shi Yan.

"You... Why are you here?" Forefather Dragon Lizard was petrified. He didn't dare to move as he was afraid that he could accidentally break Shi Yan's minute body.

While he was on Empty Land, Shi Yan had turned into the giant body of the Absolute Beginning creature. At that time, he looked like a Giant Demon that touched the sky and tramped the ground. His brutal, savage aura permeated every corner of Empty Land.

And now, Shi Yan had shrunk billions of times and was like the size of a fly, which made Forefather Dragon Lizard instinctively think that he got hurt severely.

However, Forefather Dragon Lizard quickly knew he was wrong. Shi Yan's tiny body was like a grain of sand but the energy it bore could break the entire sky.

The energy stored inside his body, which was smaller than a fingernail, was more than that of ten thousand flood dragons of Heavenly Monster Tribe!

"She's fighting Yuan Zu. Moreover, her wounds haven't recovered yet. If we shrink our bodies to hide, she can't spot us easily while fighting!"

Shi Yan said deliberately and pointed at the void above his head. Deep in the sky that used to be gray, bands of rainbows had woven into a bright light curtain and shrouded the entire sky.

"She has sealed the sky deep up there. We should shrink our bodies to stay on this continent. While fighting, she can't notice or sense our location. You shouldn't wiggle. If your body touches the halo over there, it will expose your whereabouts. She can spot you that way."

Listening to him, Forefather Dragon Lizard understood. He abolished the thought of breaking the seal to run away. Learning from Shi Yan, he shrank his body and then hid in a scarlet mountain. From there, they could see a massive snake body that had elongated for thousands of miles.

It was one of Zi Yao's twelve bodies. The snake body was giant with natural patterns of seven-colored rings winding around the trunk, which was extremely beautiful.

Forefather Dragon Lizard observed those patterns with shining eyes and appraised, "The most perfect patterns. They are more exquisite than the natural formation. I assume they got marvelous effects, anyway."

As soon as he said that, it proved his assumption. The seven-colored patterns on the heavenly snake suddenly flew up like rainbow bands. The rainbows curled and moved up into the sky, weaving with each other and releasing a bright but bizarre halos.

The lights had cast a massive, colorful net. The rainbow lights inside that net changed and moved continuously without ceasing.

Shi Yan and Forefather Dragon Lizard eyed the rainbow lights in the sky. Lifting their heads, they found billions of rainbow bands above this continent. The rainbows connected and weaved with each other, creating a massive net to cover the entire planet. The energy that could smash the planet easily slowly generated.

“GGGGRRRRROOOORRRR!”

A roar that had broken the void came from pretty far away. Obviously, it was Yuan Zu’s aura, one of the Ten Great Territory Ancestors.

Shi Yan and Forefather Dragon Lizard exchanged fearful looks. Yuan Zu’s roar brought along a fierce aura from the Absolute Beginning Era that only the overlord creatures in that era could have!

Zi Yao was right. Yuan Zu was also one of the Absolute Beginning creatures!

Yuan Zu had exposed his real body and fought against the twelve-headed snake on this abandoned planet.

As he had forced Zi Yao to use the natural patterns on her body to create a divine light, Yuan Zu’s real body wasn’t small at all. Also, Yuan Zu’s real body had intimidation and power that weren’t less than Zi Yao.

“The battle between Absolute Beginning creatures were going to take a long time. If they were equally strong, it could take up to tens of thousands of years. Even if there’s a gap between their powers, this fight won’t end soon... We have a lot of time.” Shi Yan stopped watching them and sat neatly in front of Forefather Dragon Lizard. He said, “I need more time to stabilize. Help me watch for a while.”

“Aren’t you afraid that I will harm you?” Forefather Dragon Lizard squinted, his face surprised.

“If you wanted to hurt me, Emperor Sea Shark and I would have been in trouble when we were on the seabed of the Sea of Annihilation.” Shi Yan smiled relaxingly. He didn’t say more and just closed his eyes.

Forefather Dragon Lizard looked strange. He observed Shi Yan’s fierce soul energy fluctuations. Shi Yan’s God power was all retrieved. He knew Shi Yan had entered a magical state, which made his face more awkward.

There was a sort of man like that. Sincere trust was sometimes more powerful than thousands of words.

As Shi Yan trusted Forefather Dragon Lizard, he was touched and cautious. He then guarded Shi Yan to the best of his ability.

Forefather Dragon Lizard had only one thought in his head now: No matter what, he had to protect Shi Yan during this course.

Even if Zi Yao came now, he wouldn’t hesitate to stay even though he had to die. All was because of Shi Yan’s trust to him.

—————

“Did you get the location?” Neptune hissed irritably in a corner of a strange territory. He was sitting above a sea of brutal souls, his eyes bright in excitement.

Real Absolute Beginning creatures!

Zi Yao showing her real body had excited him and triggered his greed!

The Sea Domain of Nihilism had a saying that killing and swallowing the essence blood of an Absolute Beginning creature could help a warrior reach the Absolute Beginning creature's level and that warrior could actually become a true Absolute Beginning creature too!

Neptune, Keith, and many experts of the Empty Land had risked their lives to pursue Zi Yao to this place even though they knew how fierce she was. It was because she was an Absolute Beginning creature.

The entire body of the Absolute Beginning creatures was filled with treasures. Their essence blood was the best tonic to evolve the life form. Their bodies could be used to create the Absolute Beginning divine weapons. Their territories were marvelous, indeed. Also, their souls were great tonics to the soul pond...

If they could kill an Absolute Beginning creature, the treasures they could receive would be unimaginable. To forces like the Seven Great Clans, they were benefits that they could hardly describe.

There were many legends about Absolute Beginning creatures. These creatures were almost all destroyed during the Absolute Beginning Era. Each of them was very precious. The Absolute Beginning creatures were intimidating and savage. If they failed their hunt, they were treats to others. However, if they succeeded, their harvest was unimaginable!

High risks came with high benefits. Neptune and Keith were from the Seven Great Clan. They were all adventurers who weren't afraid of taking risks. Because of the Absolute Beginning creatures' bodies, they had joined hands and chased after the others from Empty Land.

"Don't rush. We will get them soon."

It was a man with two horns on his head, his gold eyes bright. He had a sharp, small needle on his palm that was covered in down. One end of the needle was emitting gold rays, which were continuously changing and searching for something.

That man was called Clark, a member of the Buffalo Horn Tribe from the Ancient Monster Clan. He was Keith's good brother at the Peak of Immortal Realm. As he got Dark Energy, he was just one step away from the Territory Ancestor Realm.

The needle in Clark's hand could feel the power from creature's blood. The stronger the creature was, the better sensitivity the needle had.

Suddenly, the needle stopped moving and pointed in a direction.

Clark's eyes brightened as he shouted, "I got it!"

Standing next to him were Neptune, Keith, and Oliver of the Black Demon Clan, and Labitte of the Devouring Clan.

Further from them hovered many experts with a high reputation like famous experts of the Sea of Annihilation like Emperor Sea Shark, Ferrell, and Ricardo. They weren't from the Seven Great Clan, but they were very famous in the Sea Domain of Nihilism.

Those warriors had profound realms and they were the lords of some big cities on Empty Land. Otherwise, they were leaders of some intimidating forces.

Even the experts from the Seven Great Clans like Neptune had to give them friendly faces. They didn't dare to be arrogant.

Xiao Lie of the Heavenly Craftsmen Clan was the oldest Grandmaster of the clan. The Heavenly Craftsmen Clan was the most famous clan on Empty Land and they were famous for their great weapon refining techniques. Xiao Lie had mastered Fire power Upanishad and he was the best blacksmith in the Sea Domain of Nihilicity. Rumors said that he had even accomplished creating an Absolute Beginning divine weapon!

As the noblest Grandmaster of the Heavenly Craftsman Clan, the experts from the Seven Great clans respected him. Even the characters like the Ten Great Territory Ancestors had to address him as "Grandmaster." Many experts of the Seven Great Clans owed him as he had helped them fix or upgrade their secret treasures.

Xiao Lie lived on Empty Land. He had secluded and forged divine weapons in this area in the hope of creating something that could ultimately satisfy him.

Knowing that some Absolute Beginning creatures would appear, the hermit that hadn't left his place for hundreds of years had finally emerged.

He also wanted the treasures from Absolute Beginning creatures. He hoped that he could use their skin or bones to create a fierce weapon and leave his best remark in this world, which would make everybody know he was the best blacksmith in this universe!

Chapter 1533: Restlessly Impatient

"Clark! Did you get them?"

Xiao Lie of the Heavenly Craftsmen Clan shouted from behind a magnetic field. Six or seven Territory Ancestor Realm experts stood behind him impatiently.

Clark looked a little embarrassed. His secret treasure trembled as if it couldn't accurately work when they came to this area.

"If you don't mind, let Grandmaster check it for you. If it's broken, he may help you fix it," suggested Jia Ni, her voice soft and her eyes deep.

Just like Xiao Lie, Jia Ni wasn't from the Seven Great Clans. However, she had a noble position. She was Judy's sworn sister.

Jia Ni was from Secret Pattern Tribe. In the Sea Domain of Nihilicity, although this tribe didn't have many members, most of them had high realms. Because of the relationship between Jia Ni and Judy, Secret Pattern Tribe and Mysterious Sky Clan had a good relationship. However, Secret Pattern Tribe wasn't dependent on Mysterious Sky Clan.

Jia Ni was slim and her round bosom was covered in beautiful armor. She left her arms, straight legs, and neck exposed. Mysterious and complicated patterns were spread all over her exposed skin. Those patterns were formed naturally like rivers, flowers, and fingerprints. All of them looked so beautiful.

Her picturesque face was filled with magical dark green and violet patterns that looked like real blooming flowers on her cheeks. Those patterns didn't affect her appearance but increase her strange beauty. However, such beauty wasn't something ordinary people could touch.

Jia Ni's eyes were deep as she sneered. While talking to Neptune and his peers, she sounded arrogant.

She was at First Sky of Territory Ancestor Realm and cultivating peculiar Secret Pattern techniques. She had been in this realm for many years as she had broken through earlier than Neptune and Keith. Even experts at Second Sky of Territory Ancestor Realm had to be wary of her.

"Clark, if your secret treasure is broken, you may ask Grandmaster Xiao Lie to check it for you," Neptune shouted when he saw that Clark couldn't find the right direction. He had become impatient.

"What's wrong with it?" frowned Keith from the Ancient Monster Clan.

Clark was also worried. As he had no other option around, he handed the needle to Xiao Lie and said, "Grandmaster, please handle it with care..."

Xiao Lie had a disheveled, flaming-red hair. He received the needle, a scorching flame shooting from his palm. That flame covered the needle and burnt it. Xiao Lie's face turned red as the flame reflected on it. He concentrated and showed his grandmaster's style.

His hands changed and created many magical flaming seals. Some looked like flowers, fruits, or even spirits. Those seals carried his life energy and were created with the flaming power.

Many seals were imprinted on the needle. The needle sizzled for a while before turning into a blazing gold thing.

The needle sounded loudly and then smoked, which smelled sour.

"This secret treasure has a lot of dregs from your body. It was contaminated. That's why the magnetic field could affect it easily." Xiao Lie's hands clapped and countless flaming seals disappeared into his palms. The needle turned into a beam of gold light and fell into Clark's hand. "If you don't have anything to do, don't play with it. Your hands sweat and your sweat has pollutants. The materials to refine this delicate Detective Spirit Needle are all precious. Due to its exquisite features, it can't endure dregs."

Clark of the Ancient Monster Clan was scolded but he still wore a servile face. He used the God power to create a hand to receive the needle. He checked it and became instantly thrilled, smiling continuously, "Thanks Grandmaster for teaching me."

Then, the needle pointed to a direction.

It was the dead star where Shi Yan and Forefather Dragon Lizard were hiding.

That dead star was covered inside layers of gray mists. If they didn't look carefully, they could ignore it between so many clear and prominent stars.

Zi Yao's energy had concealed the star and made it seem like it was erased. Initially, She wanted to extract and swallow Forefather Dragon Lizard's essence blood, so she didn't want anybody to find this star.

Without Clark's needle, they were going to need a lot of time to find that dead star.

After confirming the location, Neptune, Xiao Lie, Jia Ni, and the warriors who weren't afraid of death surfed through the beautiful galaxy. Shortly after, they landed on that misty planet.

Entering the mist, their faces changed. Looking at the bands of dazzling lights above the planet underneath, they became solemn.

The world under the layers of mist was unexpectedly beautiful. Each of the light curtains made of the patterns on Zi Yao's real body was full of earth-breaking energy.

With their realms, they couldn't pierce through that massive light net to enter the continent underneath. They didn't know what was going on down there.

However, they could feel clearly two distinct soul threats from the dead star, which terrified them.

That soul-pressing feeling wasn't something that the light curtains could hinder. The experts at the Territory Ancestor Realm all felt intimidation from Yuan Zu and Zi Yao.

"I'm afraid two scary existences are fighting down there. Their fearful auras aren't less than the Ten Great Territory Ancestors..."

Jia Ni of the Secret Pattern Tribe looked bitter. She sighed and halted, not daring to move further.

Closing her eyes, the beautiful patterns on her left arm revived and wiggled strangely. She was using a secret technique, which used her patterns to explore the situation underneath.

People then all saw the green patterns on Jia Ni's left arm became a deep eye, which looked so magical. They knew that those eyes could see through everything.

The green eye looked like a tattoo on Jia Ni's creamy arm, which was realistic, indeed.

All of a sudden, a drop of crimson blood appeared on the corner of the eye!

Jia Ni was shaken hard. The blood-dripping eye shattered and returned to so many thick patterns. Then, they scattered on all over Jia Ni's left arm.

"Two... Two..."

Jia Ni stammered. Her voice suddenly turned sharp, her eyes mixed between fearful and excited.

"What?"

The others asked as they didn't have a clue. They demanded a clear explanation.

"Two of them! There are two Absolute Beginning creatures at the same level. They're fighting down there!" Jia Ni shouted, her voice strange. She was extremely excited and content that she didn't mind the trickle of blood on the corner of her mouth.

Actually, the drop of blood on her mouth was the one on the eyes tattooed on her left arm...

She had used blood to activate the secret technique to see the situation underneath the barrier. However, because of the two Absolute Beginning creatures, she had forgotten her pain.

Desire and greed had shrouded her and everybody here.

“Oh Gosh! Two Absolute Beginning creatures! It could take thousands or tens of thousands of years just to see one. But now, we’re about to see two!”

“They’re fighting! It’s a chance that happens only once in a blue moon!”

“Yeah! There’s no chance better than this! Haha. We shouldn’t rush. After they fight, we will get in there and harvest!”

“When luck comes, you can’t stop it! Hahaha!”

“Guys, let’s discuss. How should we share them?”

As they had chased after them from the Empty Land to his area, they were so enthusiastic, their faces blushed and their eyes greedy. They acted as if they had already killed the two Absolute Beginning creatures and they were about to share the treasures.

They were about to get a frenzy even when they hadn’t gotten through the mist yet. It showed the attractiveness of the Absolute Beginning creatures to the warriors.

“If so, Jia Ni got the first merit! She’s the powerful expert cultivating the marvelous secret pattern technique!” Xiao Lie laughed. He was content as if he had already seen a new Absolute Beginning divine weapon and his name was known to every people in later eras.

“Is Shi Yan one of the two Absolute Beginning creatures?” asked Neptune.

His words attracted people immediately. They all turned to Jia Ni and waited for her confirmation. They had vaguely guessed that Shi Yan wasn’t one of them. Since Shi Yan had just refined his Absolute Beginning body, he wasn’t a real Absolute Beginning creature.

However, he didn’t experience that ancient, destructive era, so he didn’t have the immense knowledge of an Absolute Beginning creature.

Without these features, he wasn’t a real Absolute Beginning creature. Shi Yan was just an expert who had cultivated his body to the level of Absolute Beginning creatures.

“No, not him. I’m sure he isn’t one of them!” Jia Ni confirmed. “Those two have archaic auras that only Absolute Beginning creatures have. Only creatures that have lived for billions of years could have such ancient auras. They are two real Absolute Beginning creatures!”

Listening to her, everybody rubbed their hands eagerly.

“Calm down! Don’t rush! Don’t rush!” Keith shouted to calm the others to not let their auras alert the Absolute Beginning creatures down there.

“Right. We should seize the chance when they haven’t finished their battle to discuss how to deal with them.” Neptune rubbed his chin, his eyes sinister as he sneered. “We should divide into two teams to deal with each of them. I suggest that Keith, Labitte and I form one team and you guys from Empty Land form the other team.”

“Not a problem!”

“Let’s do it!”

“Excellent!”

God of Slaughter

Chapter 1534: Move the Mountains and Overthrow the Seas

Two monsters were fighting fiercely on a strange planet in strange territory. Their extreme energy shook the continent continuously. So many ten-of-thousand-meter mountain ranges collapsed. Many seas and rivers were leveled.

Fortunately, this planet was abandoned. Otherwise, ordinary people couldn’t escape death. The Absolute Beginning creatures would accidentally kill them all.

A remote area of the continent.

Shi Yan woke up from the earth-shaking explosions. The first thing he saw was Forefather Dragon Lizard’s senile, vigilant face.

Forefather Dragon Lizard’s face was scarlet with a lot of wrinkles. It looked like an ancient turtle shell or the dry bark of a tree, which didn’t have any worth-mentioned feature.

At this moment, that wrinkled face was so solemn. Seeing Shi Yan open his eyes, he was happy. “Oh, you woke up.”

Shi Yan smiled, stood up, and said, “How long has it been? How is it going?”

“Not really long. It has been around several days. I don’t know how it is going because I don’t dare to leave this place.” Forefather Dragon Lizard exhaled in relief. “Lucky us. No one came here. Otherwise, I wouldn’t be at ease.”

Shi Yan didn’t answer him yet as he was busy observing his body’s conditions and soul altar. A deep light emerged in his pupils...

The God power Ancient Tree in his body now had a strong structure. Every branch of it was crystal clear with flowing God power. However, the top of the tree still had many misty branches; they hadn’t materialized yet. It meant that his God power wasn’t full.

Using his inner eye, he checked the Sea of Consciousness and the soul pond there.

Inside the bobbing Sea of Consciousness, the soul pond had expanded. Although it was trivial compared to the entire Sea of Consciousness, Shi Yan understood that Ferrell’s soul altar had increased his soul pond greatly with the Dark Energy he had swallowed.

The Territory Ancestor Realm was truly an Ultimate Realm!

He was happy as he complimented his realm. He had killed so many experts of the Cloud Tribe in Cloud Mist Territory. However, the energy he got wasn't as much as what he had gotten from swallowing Ferrell alone!

The energy from Ferrell alone was more than the energy from dozens of Immortal Realm experts and much more than the combined energy from several thousand Incipient God Realm experts!

However, his God power Ancient Tree and soul pond hadn't reached the upper limit to break through again. Sensing for a while, he understood that although Ferrell had provided him with a lot of energy, at the Territory Ancestor Realm, the amount of energy he needed to reach Second Sky was an astronomical figure.

With only the energy from Ferrell, he was still far from reaching his upper limit. He needed to swallow maybe three or five experts like Ferrell to fill his God power Ancient Tree and the soul pond.

Breaking through to the Territory Ancestor Realm wasn't similar to the previous realms. Except for filling the God power Ancient Tree and understanding the power Upanishads deeper, he needed a strong and abundant soul pond!

Soul energy was one of the important elements for the next breakthrough in Territory Ancestor Realm. As long as the God power Ancient Tree and the soul pond had accumulated energy to a specific level, in addition to new understandings of power Upanishads, he could advance again.

It was also the reason why there were so many experts at First Sky of Territory Ancestor Realm but not many experts at the Second Sky. It was because of the almost-eternal progress!

A normal Territory Ancestor would need tens of thousands of years to accumulate energy in his God power Ancient Tree to reach the limit.

"You've completely refined Ferrell?" Forefather Dragon Lizard saw Shi Yan stay quiet with bright eyes so he figured something out and asked skeptically.

Grinning, Shi Yan nodded. "Ferrell doesn't exist anymore."

"How about watching their battle now?" asked Forefather Dragon Lizard.

The battle on this continent had settled the earth, erupted volcanoes, and collapsed mountains. The commotion of moving the mountains and leveling the seas amazed Forefather Dragon Lizard a lot. As he had been guarding Shi Yan for several days, he had estimated that the battle was between two Absolute Beginning creatures from the commotions and tremors. He was so eager to see how majestic this battle was.

"Sure!"

Divine lights shot from Shi Yan's eyes.

Right after that, starlight bloomed from his body and turned him into a meteor that rocketed into the sky.

Staying extremely high in the sky, Shi Yan observed the area, his face becoming stern.

So many deep and rough abysses appeared on the ground, which were all massive and bottomless. From a further distance, so many mountains collapsed and seas were leveled. Zi Yao's true body, now twelve separated snakes, sometimes gathered. The twelve heads sprayed different divine lights, which then turned into strange energy rivers in the sky.

The heavenly rivers in the sky weaved with each other and filled the sky.

The massive twelve-headed snake sometimes separated and became independent snakes. Each of them was tens of thousands of miles long and moved like a mountain range on the continent.

Wherever they went, they left deep chasms and made thick lines on the ground.

Inside the circle made of the snakes was a giant, turtle-like creature. That creature had a thick shell on the back with mysterious turtle shell patterns. This giant turtle was the true body of Yuan Zu, one of the Absolute Beginning creatures, which was called Yuan.

The Holy Beast Black Tortoise of the Heavenly Monster Tribe was created with Yuan as the model. However, the Holy Beast Black Tortoise was nothing compared to Yuan's true body.

Beneath Yuan was the seething sea that he had created from his God power. The sea water there was mysteriously ink-black.

All of the twelve snakes was smaller than that giant turtle. Only when the twelve snakes combined could they relatively compare to that giant turtle.

In the sky, Shi Yan measured for a while and found that Yuan's body had occupied more than half of this planet. From Shi Yan's point of view, Yuan looked like a turtle lying on a table tennis racket. Shi Yan was amazed. He complimented that the Absolute Beginning creatures were so overbearing and their massive bodies were really terrifying.

Now he knew that his Absolute Beginning body was the smallest compared to Hui and Yuan.

Forefather Dragon Lizard's real body couldn't compare to them. Anyhow, Forefather Dragon Lizard was the second generation of Lizard, so his Absolute Beginning blood not pure enough. Thus, the power of his body couldn't reach the level of real Absolute Beginning creatures.

At this moment, the two Absolute Beginning creatures Hui and Yuan were battling each other with their real bodies and messing up the entire planet. After every rainbow band shot away, a new bottomless chasm was left on the ground. While Hui was moving around, she also settled the earth.

Yuan cultivated Water power Upanishad. His energy created immense seas. Slowly, the ground of the continent was covered with sea water. Yuan was moving inside the vast sea swiftly.

"This continent is about to be smashed. Do you want to destroy this entire territory?" Yuan Zu's voice thundered from Yuan's body.

Zi Yao's graceful figure appeared on the head of the snake. With a frosty visage, she said, "Let alone breaking this continent, I won't mind if I destroy the entire territory. I will make everyone standing in my way never be able to move again!"

Splish! Splish!

The massive divine light net on the sky snatched down and tried to tie Yuan Zu.

Sizzle! Sizzle! Sizzle!

World-destroying electricity crawled on the net made of rivers of divine light with the power of erasing soul energy. Strings of a massive net suddenly became agile, long snakes that could shoot pure soul energy.

The fierce soul energy could change variously. In some positions, it became crystals, lightning, or even the flames. Altogether, they created an Absolute Beginning, complex formation.

“You don’t regret using an enormous amount of energy to seal me!” Yuan Zu bellowed indignantly. His giant turtle body wiggled. The dark sea underneath seethed powerfully. The sea water rose up to the sky rapidly.

At the same time, a massive bubble sparkling with strange and hazy light came out of Yuan Zu’s mouth. Rapid currents burst out from the bubble, which was the most exquisite ability of Water power Upanishad.

All of a sudden, so many water currents like strings connecting darkness coiled around the bubble. Inside the bubble, Yuan’s soul was vaguely discernible. A high wave that shadowed the entire world burst out from the bubble. It was like all the sea water in this sea of stars had gushed from that bubble and flooded the entire continent.

The sea water was rising rapidly and covering the ground, sky, and even Zi Yao’s massive divine light net!

Shi Yan and Forefather Dragon Lizard were also drowning because of the furious sea water. Inside the ink-black water, they couldn’t see anything.

A halo emerged in front of Shi Yan. Yuan Zu’s human form appeared strangely. With a grave face, he asked, “You’re Shi Yan, right? Do you want to get Zi Yao back, the Zi Yao you know?”

Shi Yan was surprised.

“I can help you. But you have to help me too. I have a method that can help Zi Yao’s soul backfire and seize Hui’s soul and memories. She can replace Hui eventually. If it works, your Zi Yao will be back. Hui of the Absolute Beginning Era will become part of Zi Yao’s memories,” said Yuan Zu seriously.

“How can I trust you?” Shi Yan squinted and smiled coldly.

“You don’t need to trust me. You just need to trust the real Zi Yao. I will create a chance for you to talk to her directly. You should persuade her to struggle hard and use her will to affect Hui’s decisions and power Upanishads.”

Chapter 1535: Get Zi Yao Back!

In the dark sea water, Shi Yan was stimulated and his face was heavy and complicated.

Get the real Zi Yao back?

He was moved. He knew a little bit about the relationship between the host body and the clone body of Absolute Beginning creatures. However, he wasn't as familiar with such things as Yuan Zu was.

That year, when he saw Zi Yao become one with Hui and turn into someone he didn't know, he thought that he would never be able to find the real Zi Yao. After that, Hui had used Zi Yao's voice and affections to talk to him and try to mimic her. But more than anyone else, he understood that she wasn't the Zi Yao he knew.

He thought that he had lost Zi Yao forever.

And now, Yuan Zu told him that he could help him get back his Zi Yao. Moreover, Zi Yao could use her soul to replace Hui's host soul. Shi Yan was both excited and skeptical about this. He was suspicious that Yuan Zu could use him somehow.

However, this hope made his heart beat faster. He pondered for a while and then decided resolutely. Even if it was a trap, for Zi Yao, he must try!

If he denied this chance, he may never get another. He would never meet Zi Yao again!

"Alright!" Shi Yan hissed and lowered his voice. "If you can give me a chance to meet her to talk, I will trust you and your competence!"

"Wait for me." Yuan Zu was also resolute. He disappeared immediately.

Swoosh!

Forefather Dragon Lizard was brought to Shi Yan by a water current.

Inside the dark sea water, Shi Yan couldn't see him but he could use his soul to know. He understood that Yuan Zu moved Forefather Dragon Lizard here to show his willingness in this cooperation.

He was excited, frowning and waiting for Yuan Zu in the dark sea.

The sea had flooded the entire earth and sky of the planet and hid Yuan Zu's real body. The twelve snakes were there and continued to fight Hui.

Neptune and the others were hovering outside the atmosphere of the planet and planning to attack the creatures.

However, at this moment, they found that the entire planet had disappeared in an immense ocean that not only flooded the planet but also was expanding to several planets nearby!

In the vast territory, an ocean suddenly emerged and covered so many stars. It was still expanding and reaching the entire territory. It looked as if it wanted to turn this territory into an immense ocean. This power was so terrifying, indeed.

As Neptune and his peers were ready to attack, when they saw the horrible situation, they had to dodge and move towards the edge of the territory where the sea hadn't reached yet.

This situation had happened for dozens of days. During this time, many uninhabited stars around were swallowed. This area was desolate and remote with only dead stars. As Hui had come to this place with the plan of eating up Forefather Dragon Lizard, she didn't find a place with many life stars.

It was suitable for Yuan to maximize his power.

After dozens of days, the immense sea shrouded more than ten planets and filled one-fifth of this territory.

Shi Yan had waited for dozens of days under the dark sea. He could feel that the commotions of the battle between Hui and Yuan had never ceased. When the seawater rose, Yuan's power increased. When the sea water stopped expanding, it was Hui's turn to counterattack.

Shi Yan and Forefather Dragon Lizard stayed inside the ocean that Yuan Zu had created within the range of his Soul Consciousness.

They had discussed for a long time. Shi Yan wanted Forefather Dragon Lizard to leave, but Forefather Dragon Lizard didn't agree. He wanted to stay to watch the battle between Absolute Beginning creatures. He also wanted to help Shi Yan awaken Zi Yao and get her back, even though he didn't know who Zi Yao was.

"Follow me." Today, Yuan Zu reappeared. As soon as he emerged, this dark sea area become transparent. Shi Yan and Forefather Dragon Lizard could see through the water now.

A spiral tunnel was conjured behind Yuan Zu. He slowly retreated into the tunnel.

Shi Yan and Forefather Dragon Lizard followed him.

Through the tunnel, a light suddenly arose. Bands of rainbow weaved in front of them. A bright world under the sea came into their view.

The bodies of the twelve snakes were still in the sea and fighting Yuan Zu's real body. They were equally strong and it seemed like no side had gained the upper hand.

The battle between Absolute Beginning creatures would take a long time if their powers weren't too different. For example, the battle between Desolate and Devour had lasted for tens of thousands of years without a clear result.

Similarly, the battle between Hui and Yuan wasn't going to finish early if nothing unexpected happened. It could last until the end of an Era.

"I've used my Soul Bead to intrude her soul. I can subdue her host soul for a while. She can't control everything for the time being. You should call Zi Yao's soul to get out. I think Zi Yao's soul will tell you what to do." Yuan Zu appeared in his human form and said earnestly, "As soon as my Soul Bead comes out, I will have to face high dangers too. Please... pay attention. I don't want to be destroyed together with Hui. You guys must notice that as soon as my Soul Bead leaves, you shouldn't believe any word of hers!"

"Do it!" Shi Yan took a deep breath and shouted resolutely.

The big bubble Yuan had swallowed spurted out again. This time, his Soul Bead instantly divided into twelve parts and turned into twelve black streams that carried pure soul energy. Each of those streams was as powerful as the entire soul pond in Shi Yan's soul!

The twelve streams were created by the soul energy combined with his Soul Consciousness and power Upanishad's supernatural abilities. They suddenly intruded Hui's twelve heads like twelve jets of black lights.

The fierce battle stopped instantly.

Yuan's massive body and Hui's snake body froze momentarily. The battle between their bodies had switched to the most terrifying soul fight!

Shi Yan sensed for a while and he found that Hui's furious soul energy inside the twelve heads was suppressed as if twelve invisible hands were squeezing them.

It was just like Yuan Zu had said. He had used the Soul Bead to enter Hui's twelve soul clones to control them and prevented them from uniting the clones!

"Zi Yao! Zi Yao!" Shi Yan decided quickly. His body flashed and reappeared by the snake head with the magnificent throne. He began to call Zi Yao who was sitting motionlessly, her face blank. "I am Shi Yan! Wake up! Wake up!"

His chanting voice was like strange electricity that moved around Zi Yao.

Zi Yao's blank face slowly become puzzled like a dormant person that couldn't wake up immediately.

Shi Yan sounded hurried as he called her continuously.

Since Hui's twelve souls were subdued, Zi Yao looked as blank as a statue. Slowly, her eyes regained light. Shi Yan was excited and he hurriedly called her, "It's me! Zi Yao! It's me!"

Waves of light expanded from her eyes like sparks that set fire to an entire moor. Zi Yao's spirit recovered. Her eyes suddenly brightened and she screamed in panic. "Don't! Don't erase my memories! Please... Let me go!"

"It's me! It's me! Shi Yan is here!"

"Shi Yan? Zi Yao? Am I Zi Yao? I am Zi Yao!"

Zi Yao's body was shaken as if she got hit by lightning. She finally looked sober. With no hesitation, she jumped into Shi Yan's embrace and said in fear, "Get me out of here! I have to go far away! It controls my body and soul. I'm not me anymore. I can't control myself! Please! Take me out of here! Wake me up from this endless nightmare!"

"I will. I will. Trust me. I will take you out of your nightmare and give you a beautiful one!" Embracing her shivering figure, Shi Yan confirmed that she was the real Zi Yao!

"Shi Yan, that old man said that he couldn't seize much more time. He reminded that your woman knows how to do it. I think you can chat later..." Forefather Dragon Lizard reminded them timely as he saw Shi Yan's emotion burst out; he had lost his calm temper.

Shi Yan's face changed. He recognized the reality of the situation. He lowered his voice, "We don't have much time. I'll tell you the situation first. Someone is blocking Hui's soul from controlling you. However, he can't do it for a long time. You tell me. Can you use your soul to occupy its soul and replace it? Can you do that?"

"I'm not strong enough," Zi Yao shook her head continuously, "It's so strong. Stronger than any existence I know. I can feel its intimidation all the time. No creature can defeat it."

"Yes!" Shi Yan shouted, "Regardless of how strong it is, tell me what to do now!"

"She has twelve souls that connect to each other. The host soul is right here!" Zi Yao pointed at the massive snake head under the throne. "The host soul is the control center. As long as we attack the host soul, we will have a chance! If I can occupy its host soul, I can control the body with the endless power. Then, it'll be easier to fuse with the other clone souls. However, my soul is too weak. It's impossible to fuse with its soul. It can make my soul perish easily."

"At this moment, its souls are controlled. You can try!" screamed Shi Yan.

"I'm scared..." Zi Yao shook her head continuously and shivered. She was deeply frightened. She wasn't brave enough to try to break that deep-to-bone fear.

"I will help you!"

Shi Yan pushed Zi Yao away and roared to activate the power from his blood. His body swelled up immediately. Within seconds, he had become a savage Giant with Skyfall Star River in his hands. As Zi Yao gawked and dropped her jaw, Skyfall Star River became a long chain.

He coiled the chain around Hui's main head and squeezed. His eyes were red when he shouted at Zi Yao, "Get in its soul!"

Chapter 1536: Turning Hostile

"Get into its soul!"

Shi Yan's ear-piercing scream hit this bright world. The space sounded like it was cracking. It seemed like the wall between earth and heaven exploded and created a crack.

Holding the chain made of Skyfall Star River, Shi Yan's ferocious, giant body was like a beast in its human form. His entire body was covered in rigid, scaly armor and his eyes were red. The ocean that had shrouded several stars here couldn't conceal his brutal, bloodthirsty aura. A vivid red blood column shot out from his head and broke the sea.

A group of warriors at First Sky of Territory Ancestor Realm including Neptune, Keith, Xiao Lie, and Jia Nie was hiding by a broken asteroid near that immense ocean. They were afraid that Yuan could find them if the water touched them.

Suddenly, a blood column shot up into the sky and sent the word-destroying aura everywhere. All the warriors in the territory were dumbstruck.

Labitte discolored and screamed, "Blood Soul Sea of the Death power Upanishad!"

"What about it?" Jia Nie's voice was cold.

"The Blood Soul Sea can subdue souls. It gathers negative energies and makes the souls of the creatures sink into bloodthirsty, crazy desires. That blood column is the pure, condensed Blood Soul Sea. It's really extreme. Normal people will have their minds distorted and sink into an endless nightmare of killing until they don't have a bit of energy left in them."

Labitte knew the formidable supernatural abilities of the Death power Upanishad. He added with a heavy voice, "Also, the moment you are sober is when you die. The negative energy from the Blood Soul Sea has already entered your soul altar and cut off your vitality at that point. Your soul will perish like that."

"Is that Shi Yan?" Jia Nie looked interested, her eyes bright. "I heard from Judy that he's a new prominent face in the Sea Domain of Nihilism recently. He's from some territory outside. Is he really fierce?"

As she was late, she didn't see Shi Yan fight and kill Ferrell. She hadn't seen his brutality. Thus, her understanding of Shi Yan was limited to Judy's description.

However, she thought that Judy had exaggerated Shi Yan's intimidation. She didn't think that a kid's name could spread out in one night by suppressing a famous expert of the Sea Domain of Nihilism.

After that, Jia Nie found Neptune, Keith, and Labitte darken their faces. She was more curious.

"You will see how bold he is." Labitte sighed bitterly but explained nothing.

Jia Nie smiled, her beautiful face surprised. "Oh, I do want to see how a kid gives you three a headache. He seems interesting. I hope he won't fail me."

Her exposed skin had so many mysterious patterns, which could change magically according to her moods.

"Get in!"

Deep in the immense ocean where the bright halo shone, Shi Yan used the stars to weave a chain to tie down Hui's main head. His eyes were red as he roared.

His red eyes looked so terrifying as the negative moods arose in his entire body and accumulated in his eyes. He gazed at Hui's spooky green eyes. The endless negative energies that naked eyes couldn't see gushed towards Hui.

He was using his distinct method to suppress Hui's soul and help Yuan resist against Hui.

He understood better than anybody that only when Zi Yao replaced Hui's Soul Consciousness to take its body and power did Zi Yao have a chance to survive.

Otherwise, wherever Zi Yao hid, even if she was in an extremely remote territory, Hui could still capture her or erase her soul within one second.

Even if he killed Hui, he couldn't change that result because Zi Yao was a part of Hui. If Hui died, Zi Yao would perish. Her Life Sea would vanish altogether!

It wasn't different from Desolate and the other creatures in Desolate Territory. If Desolate died utterly, all the creatures in Desolate Territory including Xia Xin Yan, Yang Tian Emperor, Audrey, Ming Hao, and Xuan He would die altogether. Their lives were given by Desolate with Desolate's soul imprint.

If Desolate died, none of them could escape a sudden death.

The only way was to bite back at Desolate and use his co-soul to refine Desolate. Shi Yan had to replace Desolate to untie this deadly consequences.

"He's right. It's your only chance. If you miss it, you will never have another chance to try."

Seeing Zi Yao in a daze when she saw Shi Yan's Absolute Beginning body, Forefather Dragon Lizard reminded her as he hadn't left yet. He looked at Zi Yao and said, "Both Yuan and Shi Yan are consuming a lot of energy because of you. They are facing a fatal danger. The more you hesitate, the more dangers Shi Yan will have to face."

He hit it!

"If I hesitate, Shi Yan will face more dangers?" Zi Yao discolored. She became extremely restless.

Forefather Dragon Lizard was moved. He said immediately, "Yeah, it's true. Your hesitation will make Shi Yan lose a lot of energy!"

He knew that Shi Yan could risk his life for hers and she would do the same for him. She finally got over her rooted fear of Hui!

"I got it!"

Zi Yao's eyes became resolute. She sat cross-legged on the throne and closed her eyes.

Her soul and Hui had a magical connection; she could use it to enter Hui's head without leaving her own body.

Feeling her soul energy subside, Forefather Dragon Lizard knew that she has taken action. She had entered Hui's head. For Shi Yan, she had ignored the fear in her soul and sank into that endless nightmare to engage in the most dangerous fight against Hui's soul.

"She's taking action!" screamed Forefather Dragon Lizard.

Shi Yan in his giant body shook hard when he heard Forefather Dragon Lizard scream. Fist-sized stars emerged from his body. Tens of thousands of those stars were created by the God power in his acupuncture points. The stars emitted an aura that could purify souls and bodies. They finally illuminated this dark sky.

Boom! Boom! Boom!

Tens of thousands of bright stars bloomed on the star chain. The starlight fell like a waterfall and hit Hui's main head. The star chain was like shackles that tied Hui's main head.

At the same time, the blood column on Shi Yan's head shrank, gathered with the red halos in his eyes and shot towards Hui's eyes.

His engagement had reduced Yuan's pressure. Previously, he couldn't even create a human form. When Shi Yan had used his Absolute Beginning body to risk his life with Hui, Yuan Zu reappeared by Yuan's head.

Yuan Zu smiled happily and screamed at Shi Yan. "Use the Power Upanishad Symbol Tower to subdue it! Place it on Hui's main head. When you use the energy of the Power Upanishad Symbol Tower, you can tie down its soul. Your woman can easily refine it then. Trust me! Use your Power Upanishad Symbol Tower to subdue it now!"

As Shi Yan was using the star chains to confine Hui's head, he didn't hesitate to release the Power Upanishad Symbol Tower when he heard Yuan Zu.

As soon as the Power Upanishad Symbol Tower was released, it became a formidable hundreds-of-level tower that hovered above the snake head.

Slowly moving, countless symbols on the tower wiggled and released a holy aura that could purify the world. Layers of light energy fell on Hui's main head. As the snake was struggling hard to get rid of the star shackle, it became weaker when the lights shrouded it.

Hui's soul seemed to be subdued too. It didn't wiggle a lot anymore!

Yuan's pressure was reduced greatly. Yuan Zu's vague body finally materialized.

"Yeah! That's it! Use the Power Upanishad Symbol Tower to subdue it; it won't be able to escape. Your woman will have the chance to absorb its soul. Let her replace it and take everything from it!" Yuan Zu smiled tenderly as he exhaled in relief.

His body flashed and Yuan Zu came to Forefather Dragon Lizard, smiling at him. "Well, you shouldn't stay here. You should have listened to him and left earlier."

Forefather Dragon Lizard was dumbstruck. "What do you mean?"

"It's really dangerous if you stay." While Yuan Zu was talking, the energy in his body churned.

Since Shi Yan was using his energy massively and even the Power Upanishad Symbol Tower to deal with Hui, Yuan Zu had extra energy to use now.

"What danger?" Forefather Dragon Lizard was bewildered. "You guys have subdued Hui. As long as its soul is taken, it won't be a threat anymore."

"You're in danger because of me. Haha." Yuan Zu's smiling face turned sinisterly strange. His aura suddenly turned dry and smelled like lava.

"Ancestor! My Ancestor's smell!" Forefather Dragon Lizard screamed in fear and bewilderment.

“Yeah. I ate your Ancestor Lizard. Let me take you to meet him.” Yuan Zu was still smiling tenderly but in Forefather Dragon Lizard’s eyes, he was extremely ominous.

God of Slaughter

Chapter 1537: Flawless Calculation

The sudden incident turned the situation worse. Shi Yan was shaken directly. He had almost failed to maintain his power. He exhaled to calm down and suppress Hui’s soul.

At the critical moment, Yuan had used the black water from his soul to subdue Hui.

However, at this moment, Shi Yan didn’t trust Yuan even a bit. He considered the old man an enemy tougher than Hui. His body and soul were extremely tense.

Yuan had concealed his sinister conspiracy from the beginning. His mercy in front of Hui, his tender and warm smile: all were fake!

His flawless calculation was made to create this current situation. He made Shi Yan consume his energy greatly and use both the SS and the Power Upanishad Symbol Tower to join hands with him to subdue Hui. He had instigated Zi Yao to resist Hui’s host soul.

He wanted to keep Shi Yan and Hui busy to carry out his plan without any disturbance. Attacking Forefather Dragon Lizard was just his first step!

“I can’t believe you killed my Ancestor!” Forefather Dragon Lizard was frightened. He figured it out quickly. He knew everything they had done was for Yuan’s malignant plans.

Instantly, Forefather Dragon Lizard roared. His lizard body swelled up at a speed that naked eyes could see. The skin of his lizard body was scorching red like red iron, his energy boiling formidably. He opened his massive mouth and gushed lava like a waterfall towards Yuan’s body.

“Unfortunately, you are only at First Sky of Territory Ancestor Realm. You’re far behind Lizard,” Yuan’s smile didn’t cease.

His human body distorted for a while and disappeared in front of the thick burning lava.

Yuan’s continent-like body that looked dormant suddenly moved. Dark sea water flooded over from everywhere and covered the lava stream from the giant lizard’s mouth. At the same time, Forefather Dragon Lizard’s power was locked. He couldn’t urge his energy anymore.

Forefather Dragon Lizard turned into his real body and roared in the immense ocean. Lava rolled torrentially in his body and created a big, blazing lava pond.

Inside the red lava pond, he roared angrily and used his power to resist the ink-black sea water, struggling hard to resist Yuan.

As the immense sea water swarmed over, the lava pond was forcefully reduced by an extremely harsh power.

Yuan's human clone disappeared and reappeared quietly by Shi Yan's savage body by Hui's snake head. He was still smiling and looking at the hot-tempered Shi Yan and his blood-red eyes. He spoke casually, "You better not stop me from attacking Dragon Lizard. As long as you're distracted, Hui will erase that little girl's soul. She will never recover."

Shi Yan wanted to share his power to attack. Hearing Yuan, he pulled himself together immediately.

He knew that Yuan was speaking the truth. He could feel Zi Yao inside Hui's soul and she was struggling pretty hard against Hui. At first, Zi Yao had the upper hand and she almost got the soul. However, when Yuan attacked Dragon Lizard, he had retreated part of his power.

Yuan's suppression on Hui's soul weakened, which made Zi Yao lose her advantage. They were in equal positions now. If he did what Yuan did and spared part of his energy to fight Yuan, Zi Yao would be erased shortly after.

Hui would never forgive Zi Yao for her backfire. As long as the others ceased the attack, it would destroy Zi Yao, the hidden danger, right away!

The situation changed because Yuan had reduced his energy at Hui. He had planned everything precisely and created this desired situation.

Shi Yan needed to boost his energy without any distraction. He had to suppress Hui and ensure that it wouldn't counterattack. Yuan made use of Zi Yao's soul struggling against Hui's host soul to make time for himself to attack Dragon Lizard.

Even though Shi Yan knew his plan, he couldn't do anything. Even though Hui knew that, its hands were tied too.

Because Shi Yan, Zi Yao, and Hui were controlling each other, if any of them got distracted, that person would be erased shortly.

"Shi Yan, it's not that I've noticed you for only one or two days. I collected information about you since you got the Power Upanishad Symbol Tower. Haha, you don't know that I even went to Desolate Territory because of you. Aren't you curious why I've noticed you so early?"

Yuan's real body was eroding Dragon Lizard's lava pond. At the same time, his human clone was chatting with Shi Yan relaxedly.

—Actually, he was mumbling alone. At this moment, Shi Yan couldn't talk to him; he could only listen to him passively.

"Because you're different from anyone else!" Yuan's smile finally ceased. "Sauron told me that he couldn't see your string of fate when he observed you! Every creature has a string of fate! The members of the Seven Great Clans have it. Ordinary humans have it and even Absolute Beginning creatures like us have one! But you don't have any string of fate!"

Yuan's face turned dark and sinister, his voice cold. "I'm very curious. Who are you after all? Or what is your soul, your real body? You have Desolate's clone souls and the black hole of Devour. I can't imagine it. Your existence has broken rules of this world! Everything you've done, your power Upanishad, and your breakthrough haven't been following common logic!"

Pausing for a long time, Yuan's look drilled into Shi Yan as he hissed, "What are you, after all?"

Shi Yan's Soul Consciousness had fused with extreme negative energies. Using his soul energy as the guide and the Blood Soul Sea as the container, it entered the outer layer of Hui's soul, which blurred Hui's consciousness and restrained its mobility.

It was the reason why he couldn't talk to Yuan.

Still, he could hear all of what Yuan had been suspicious about. No string of fate, continuously breaking the rules of Nature... It seemed like his existence didn't follow any rule in this world...

It was Shi Yan's definition in Yuan's head!

He vaguely guessed that all of these were because of Shi Yan's special soul.

— He came from another universe. Because his soul wasn't born in this world, he wasn't bound to any rule and he didn't meet any restriction in developing himself!

Of course, it was just Sauron's presumption. He didn't know if it was true and he didn't have any means to prove it to Yuan!

Yuan's eyes were cold and dark. He observed Shi Yan for a while and then said, "I will know the reason. Soon."

Then, he stopped minding Shi Yan and gathered energy to hit the lava pond created by Dragon Lizard's power. He used the black sea water to hit the weak spots of Dragon Lizard's defense.

"GRRROOOAAARRR!"

An indignant roar shaking the sky came from Shi Yan. The void above his head shattered into pieces. Since the cracks in the sky emerged, Yuan's black ocean ran away. The sea level in the void lowered.

It was Shi Yan's counterattack.

"No use. Let alone you can't use all of your power now. Even if you are at your best condition, you will lose from fighting me." Yuan's mocking voice arose from every direction. "You think you are Desolate, the God of War from the Absolute Beginning Era? Unless that man has recovered fully, you alone can't change the current situation."

Then, he urged his power. The space Shi Yan had shattered mended magically. The sea water that had lowered was increasing rapidly once again.

However, he didn't know that because of the lowering water level, the Power Upanishad Symbol Tower above Hui's head had emerged and so did Shi Yan's giant head.

Neptune and the others hiding far from them didn't mind Shi Yan's head. They only saw the Power Upanishad Symbol Tower!

Many of them knew the Power Upanishad Symbol Tower was related closely to the Absolute Beginning Gateway. And of course, they knew that the Power Upanishad Symbol Tower could produce the Absolute Beginning Original Symbol. When the Power Upanishad Symbol Tower emerged, they couldn't control their greed. They made up their mind soon after.

— They decided to join the battle!

Swoosh! Swoosh! Swoosh!

Shadows moved like lightning strikes and crossed the dark sky, spaces, and the black ocean.

“Power Upanishad Symbol Tower!”

At this moment, Jia Ni of the Secret Pattern Tribe arched her brows, her beautiful face bright with amazing lights.

They saw the Power Upanishad Symbol Tower swayed slightly in the black sea and released the soul-soul-subduing power.

Underneath the Power Upanishad Symbol Tower, because of Shi Yan’s Star power Upanishad, countless beautiful lights emerged, which gave them a partial view of the twelve-headed snake. However, Yuan’s body was in a deeper place and they couldn’t see him attack Forefather Dragon Lizard.

“I want that Power Upanishad Symbol Tower!”

Neptune shouted and rode his clouds of billions of brutal souls, barging towards the Power Upanishad Symbol Tower.

As Yuan was devouring Forefather Dragon Lizard, he got enraged when he saw some Territory Ancestors go above his head to vie for the Power Upanishad Symbol Tower. He roared, “Get lost! All of you!”

He knew that the Power Upanishad Symbol Tower was the key to subdue Hui’s soul. Once the Power Upanishad Symbol Tower got a problem, Hui could get rid of it shortly after and erase Zi Yao’s soul. Then, it would furiously retaliate against him.

He had to maintain the current situation. No one was allowed to break this balanced situation. He could not let Shi Yan, Zi Yao, or Hui escape.

Thus, he had to take action now!

God of Slaughter

Chapter 1538: Savage Yuan

Yuan had instigated Shi Yan to make him persuade Zi Yao to fight back against Hui. He had planned very carefully since he knew that Hui wasn’t weaker than him.

Zi Yao’s soul attacking Hui affected Hui greatly. So did the power of the Power Upanishad Symbol Tower.

Shi Yan’s pressure could only help in subduing Hui.

Among Hui, Zi Yao, and Shi Yan, Hui was the biggest threat to Yuan. Yuan had planned a lot of things to subdue Hui. That’s how he could achieve what he wanted.

Neptune’s team came to rob the Power Upanishad Symbol Tower. They would help Hui escape, which would ruin his entire plan.

Of course, he couldn't allow them!

"Go away! As far as possible!"

Yuan Zu's real body still pressured Forefather Dragon Lizard. The giant turtle moved over and pulled the ocean in the galaxy with it, using the black water to cover the scorching lava pond.

Dragon Lizard had to struggle harder.

However, at this moment, Yuan Zu's power was divided as he had to use his human clone to attack Neptune and his peers.

Thundering indignantly, Yuan Zu pointed at Neptune. Filled with pitch black water, the ocean roared. Waves rolled up into the sky and smashed torrentially at Neptune. Neptune's clouds made of many ghosts and brutal souls dispersed when the water hit them.

Pufft!

Neptune vomited blood, his face aghast. He retreated instinctively. Dozens of brutal souls became animals like a giant elephant, ape, and a savage bear that pounded on their chests outrageously. They shielded Neptune from the furious waves.

The Power Upanishad Symbol Tower continued to move. Neptune was pushed back before he could reach it.

"Yuan Zu! It's Yuan Zu, one of the Ten Great Territory Ancestors!"

Keith, Xiao Lie, Jia Ni, and Labitte landed by Neptune. Keith was so frightened as he told the others Yuan Zu's identity.

"He's Yuan Zu, the oldest expert among the Ten Great Territory Ancestors. Unbelievable! He's an Absolute Beginning creature! It's striking news!" Jia Ni's peculiar patterns on her face glowed in green and purple lights. Her deep eyes also had a lot of exquisite patterns. At this moment, they looked lively as they were moving strangely.

It was the sign that she was urging her power.

Xiao Lie, Keith, and Labitte were filled with fear. When they looked at Yuan Zu, their faces turned awkward.

It was unexpected that Yuan Zu was an Absolute Beginning creature!

If they didn't see it with their own eyes, they would never have believed that Yuan Zu, the oldest Territory Ancestor in the Sea Domain of Nihilicity, was actually a terrifying creature from Absolute Beginning Era!

"If you know who I am, why don't you get out of here fast?" Yuan Zu had pulled off his disguise and showed he merciless face of an Absolute Beginning creature. "Let alone you guys, even if Han Tian, Beverly, and Serene Prison were here, they wouldn't dare to mess with my business. Go back to where you came from! Or else, don't blame me!"

Hearing him, everybody turned grave.

Yuan Zu was like Sauron. They weren't members of the Seven Great Clans. Among the Ten Great Territory Ancestor, they were the most mysterious and unpredictable ones.

This was especially the case for Yuan Zu as he didn't show up for several thousand years. Moreover, the warriors presented here all knew how fierce Yuan Zu was from the experts in their clans.

They understood that if they fought him alone, they couldn't match against him.

Even if they joined hands, they weren't so sure that they could fight Yuan Zu. Thus, at this moment, they were very hesitant. They watched the Power Upanishad Symbol Tower but didn't dare to act rashly.

"I will count to ten. After that, I will kill all who dare to stay!" Yuan Zu stayed silent for a few seconds and then counted loudly. "One... Two... Three..."

He didn't have time to waste here.

As Shi Yan's Power Upanishad Symbol Tower was subduing Hui together with Shi Yan's power and his power, Hui was controlled for the time being. Zi Yao seized the chance to gather and conquer Hui's Soul Consciousness. If Zi Yao could fuse with Hui's host soul, she was going to become very formidable.

She would replace Hui and become Yuan's biggest threat. He had to finish those disturbers soon.

While he was still counting, Neptune and the others were restlessly hesitant. They were trying to reason and calculate. They eyed the Power Upanishad Symbol Tower and the marvelous powers of the Absolute Beginning creatures. They didn't want to leave.

"Ten!"

While they were still hesitating, Yuan Zu counted Ten. His eyes turned malicious. Right after that, Forefather Dragon Lizard's giant body suddenly roared earth-shakingly.

Sound waves came from the ocean, which exploded the water continuously. A tornado rose and reached the sky like waves of terrifying soul energy attacking Neptune's team.

Yuan's giant turtle body left Dragon Lizard alone for a while and approached Neptune and the others in the sea water.

"Dragon Lizard has Lizard's essence blood. After reaching the Territory Ancestor Realm, he's stronger than all of you! With the power I used to subdue him, I can beat you up easily!"

Yuan Zu's face was so cold as he urged his energy. Currents of energy shot from his territory and became water arrows, blades, and spears. There were billions of them and all were made of pure soul energy. People all saw each of his thoughts become a massive water drop.

Each of those water drops contained pure soul energy, which could turn the lake into an ocean and create water blades or waterfalls. He could conjure any state of water and turn them into perfect, lethal weapons. Neptune's team felt a lot of pressure.

"You fireflies want to compete with the bright moon? Want to die?"

Yuan Zu sneered. The clear water drops turned into soft, amber crystals that then shrouded Clark of the Ancient Monster Clan instantly.

Clark was now a mosquito trapped in glass. He couldn't move even a bit.

Sizzle! Sizzle! Sizzle!

The strange sizzling sounds of something melting arose from Clark's body. Inside that amber, Clark at the Peak of Immortal Realm was the first to get killed.

Yuan Zu continued to gather his power. Each of his water drops enlarged to one mu. With pure energy, they covered Neptune's team. Three Immortal Realm experts followed Clark shortly. The water melted them to death.

Neptune, Xiao Lie, Labitte, Keith, and Jia Ni were sealed inside the clear water drops where they were attacked by the rapid currents and the water pressure.

Neptune and the others discolored in fear as they found that their God power was running out fast. Xiao Lie and Labitte broke their bones and their bodies were reaching the limit.

"Only at First Sky of Territory Ancestor Realm and you dare dream for the Power Upanishad Symbol Tower? You don't know your competence."

Yuan Zu sneered. His entire human clone had so many beads of water.

From his eyes, streams shot towards those water drops and hit Neptune and the others. Their bodies made cracking noises that prevented them from using their power Upanishads.

At this moment, Neptune's team deeply understood how different their strength was from Yuan Zu's.

Yuan Zu's power was divided into three parts: One part was subduing Hui, another part kept Forefather Dragon Lizard from counterattacking, and the third part was to stop these Territory Ancestors and to kill some Immortal Realm experts. Everybody felt chilled when they saw his deeds.

"When I want to slaughter in this immense galaxy, who can stop me?"

Yuan Zu's voice was cold and merciless. A water drop emerged on the fingertip of his human clone. That water drop had a miniature of Yuan, which was billions of times smaller. The patterns on the turtle shell suddenly glowed altogether.

It was a magical territory on the turtle shell. The continent in that territory had thick earth and heaven aura with mountains, rivers, seas, forests, cities, billions of creatures, and many strong warriors.

Although it was shrunk billions of times and was just an illusion, people still gawked in surprise.

Not far from them, a world also emerged on the shell of Yuan's giant turtle body. It was also illusory, but people could see so many cities and countries with living beings. With a closer look, they could even see the warriors in those cities fighting against each other!

Those creatures had turtle shells on their back. They looked like humans with turtle shells. Apparently, they were the species that Yuan had created with his body as the model.

Old legends said that Yuan, the Absolute Beginning creature, was born with a continent on its back!

The continent had billions of lives living and growing; they didn't know that they were living, cultivating, getting married, and living the other aspects of life on the shell of a giant turtle. Slowly, they became stronger together with Yuan.

Then one day, Yuan woke up and ate billions of lives living on the continent on its back. That's how it got wisdom and became an Absolute Beginning creature. Then, it continued to create more living beings and let them live on its shell.

Rumors said that Yuan raised those creatures as if he was growing herbs and pellets that benefited him greatly.

Those creatures lived like crops. One crop lasted for dozens of thousands of years. It was like Yuan was growing herbs or vegetables. Once they grew fully, Yuan ate them to increase his power and intelligence.

— It was how this creature got stronger and wiser. The longer he lived, the more crops he could harvest. He became much stronger.

This time, it looked like the human-tonic of his current crop hadn't ripened yet. However, Yuan had used a lot of energy already and he couldn't wait any longer. He began to swallow the tonic, the living beings that are measured by billions.

Swoosh!

Yuan's dragon head lifted and opened its mouth wide to the continent.

Sea water suddenly rose and covered the entire vast continent where dozens of countries, hundreds of cities, billions of creatures and countless experts were hosted.

Yuan opened its mouth. The water flooding the continent washed all the creatures away. While they were screaming pathetically and desperately, Yuan had sucked the sea water with all the creatures into its mouth.

Chapter 1539: Borrow Power!

The sea water drew every living being on Yuan's shell to its stomach!

No matter how hard they tried to wiggle or scream desperately, they couldn't change the fact that it was the end of their world. No one could escape.

Many of them were really powerful at the Immortal Realm!

After more than ten thousand years, they had slowly cultivated to understand the power of Nature and accumulate energy. As they were about to break through to Territory Ancestor Realm, their wings finally broke. The apocalypse had finally come!

Before that, they had already felt the pressure in their souls and their realms go stagnant.

In the dark, a giant beast was watching them and holding them in its claws. They weren't going to be able to escape!

They were like Xuan He, Ming Hao, or the God Lord. They were existences at high realms. However, their fates were more tragic than warriors in Desolate Territory. There was not a troublemaker like Shi Yan in their territory. Thus, their ends were predestined right before they were born.

Yuan acted similarly to the way Desolate destroyed the experts in Desolate Territory. He had increased his power from the deaths of all creatures.

Those who were lucky enough to see Yuan swallow the world felt clearly that as the creatures disappeared into Yuan's mouth, both Yuan Zu and the real body's power increased massively!

"RRROOOAARRRR!"

Swallowing billions of lives, Yuan roared and hit Dragon Lizard in the seething sea. High waves swarmed and covered the entire giant lizard inside the lava pond by Shi Yan.

Yuan's real body showed its brutality. With newly supplemented energy, it roared and showed its massive mouths full of fangs like rows of sharp blades.

Sizzle!

It bit the tail of the giant lizard and forcefully yanked it. The tail was pulled off the lizard's body.

Blood gushed like a river. Yuan opened its mouth wide and chewed off the giant lizard tail. Blood and pieces of meat splashed from the dragon-like mouth.

Dragon Lizard rolled in the sea in agony and fear. He couldn't endure it anymore.

"So delicious. It's an Absolute Beginning creature's blood. You low races will never know it."

Yuan's human form looked infatuated. The strength in his body rocketed. He turned to Labitte of the Devouring Clan and said, "You'll die first."

Rumble! Rumble!

The water drop covering Labitte exploded earth-shakingly. As people watched, the water drop was dyed blood red when Labitte exploded tragically.

After swallowing all the creatures he had cultivated on his shell, Yuan's real body and human clone's power rocketed. The turtle body began to bite and swallow Forefather Dragon Lizard while the human clone showed its fangs to Neptune's group.

Yuan's power was divided into three parts, but it was still overpowering the others. His boldness and brutality had shaken the entire sky.

Shi Yan was trying hard to subdue Hui's soul and power. He was tightening the chain made of Skyfall Star River to shackle Hui's main head. He felt Zi Yao and Hui struggle equally. And now, Yuan's malicious deeds had ignited a flame in his heart.

He couldn't draw his hands back!

If he released his restraint, Zi Yao's soul was going to perish shortly. Hui was going to wake up and fight Yuan furiously. Or it was going to kill him first.

If he didn't release his restraint, he could only maintain the current situation. He had tried to attract Neptune's group here to share his pressure as he thought that they could threaten Yuan.

However, he had underestimated Yuan's intimidation. When Yuan showed his fangs, Shi Yan could feel a deep fear since he had never seen such world-destroying strength from Hui and Devour.

It seemed like Yuan didn't join the war in Absolute Beginning Era. He had preserved his power without a single wound. After many crops, he had harvested the creatures in his territory to increase his power steadily. After billions of years, in this era, Yuan had become a strange but invincible existence.

Shi Yan didn't know who in this world could resist Yuan's brutal prowess.

Montecie? Hiro? Dracula?

Let alone the fact that they weren't here, even if they were here, would they be able to stop Yuan's terrifying massacre?

Honestly, Shi Yan didn't think it was possible. Yuan was too fierce and formidable!

Many ideas flashed in his head as he was trying to figure out a way to win in this current situation. As soon as he wanted to give up, a heavy pressure came from his co-soul, which was deep in his inner world.

This pressure came from Desolate, the Absolute Beginning creature titled as the God of War in Absolute Beginning Era! He was a fierce existence that could subdue Hui and Devour!

Yes! Desolate!

An electric beam flashed in Shi Yan's head. He suddenly got it. Desolate was the only way to break out of this losing situation.

He got two parts of Desolate's soul. If he died, Yuan could take them all. They would strengthen Yuan massively. It wasn't something that Desolate wanted to see!

Until now, he always felt Desolate's existence. Moreover, Desolate often sent the Soul Consciousness through star areas to find him.

Every time, he would cut off the connection with Desolate to hide. He was so afraid that Desolate would figure out where he was.

Shi Yan understood that as Desolate's strength increased continuously, he was going to come and find him one day.

Thus, within this time, he had tried his best to increase his power. Killing Ferrell was his first step. Everything he had done was to deal with the potential danger called Desolate!

In this moment, Shi Yan, the one who had always rebelled against Desolate, proactively contacted Desolate for the first time!

All of a sudden, the soul pond in his Sea of Consciousness rippled. With the co-soul as the bridge, Shi Yan's soul had pierced through endless spaces to reach Desolate Territory!

A wisp of soul energy pierced through Desolate Territory's entrance and entered deeper into the territory.

As Desolate's Soul Consciousness had covered the entire Desolate Territory, he immediately recognized this wisp of a soul. He connected to Shi Yan immediately...

The soul pond inside Shi Yan's Sea of Consciousness became as bright as a mirror which showed a massive planet inside Desolate Territory. Deep inside the planet, a massive dragon was lying. The scales on its entire body was gold and it was lying like an endless mountain range to the end of the continent.

On the dragon's head, Ghost Hunter appeared, his face solemn and cold and his eyes ancient.

He appeared in the mirror in Shi Yan's soul pond.

"What a surprise! You've been hiding for a long time and today, you contacted me deliberately." Ghost Hunter's voice was cold and it pierced through many territories and endless space, resounding in Shi Yan's Sea of Consciousness.

"I'm going to be brief. Yuan, one of the Absolute Beginning creatures is right here..."

Shi Yan didn't try to cover anything up with his words. He spoke in the simplest way possible to describe the incidents. Then, he said, "If I die, my body and soul will be taken by Yuan. I know Absolute Beginning creatures can get each other's power from drinking blood and eating flesh. You don't want to see your soul get devoured by Yuan, do you?"

"Yuan? That sinister coward? It had to walk around to avoid standing in my way. He didn't dare to join that war. I didn't think that he would dare to swagger in this era. It seems like you don't have true experts in this era. Otherwise, how could that despicable bastard rise wind and rain here?"

Ghost Hunter sneered and harshly told Shi Yan Yuan's shameful past in the Absolute Beginning Era. Apparently, he didn't appreciate Yuan a lot.

"Times have changed. After that Great War, the Absolute Beginning Era ended. Many of you guys died or got wounded. Only he was safe and sound. He got Lizard's blood and he accumulated energy for billions of years. He's invincible now."

Shi Yan was hurried, his Soul Consciousness yelling furiously. "I don't have much time. If you don't want to lose your souls, you have to tell me how to defeat it!"

"All of your souls, body, and power Upanishads belong to me! Only me! No one else can touch you!" Ghost Hunter thundered outrageously. "You just need to stop subduing Hui so she can wake up. Join hands with Hui and you can beat Yuan up. Why do you need to find me?"

"If I could let Zi Yao go, I would have it done earlier. Why would I need to find you?!" sneered Shi Yan.

"You have a woman's heart!" Ghost Hunter snorted. Pondering for a while, he said, "What do you want?"

“I want to defeat Yuan!”

“Use your power!”

“Will you give me power?”

“My soul and your co-soul are actually one. I can lend you my power for a while. After that, I will retrieve my energy that doesn’t belong to you.”

“Then what are you waiting for?”

“Why do I have to help you?”

“If you don’t help me, your soul will be eaten by Yuan.”

“I can kill it and get back the souls that belong to me. Yuan was just a small character. How can it be my enemy?!”

“Then we don’t need to negotiate anything.”

“Unless you agree to one thing.”

“What’s that?”

“When Sauron goes to you, show me his appearance and aura. This man has challenged me many times and pried outside my territory. I want to know his soul aura!”

“He will find me?”

“I’m sure!”

“Okay, I agree.”

Shi Yan agreed with him. Right after that, abundant energy was sent to his soul pond through space!

The dragon-like mass of energy emerged from the soul pond and hovered above his immense Sea of Consciousness.

That energy was several times stronger than his own. As it had Desolate’s soul print, Shi Yan’s co-soul could control it. Shortly after, a wild aura that could wreak the entire territory gushed from him and covered the entire Sea Domain of Nihilicity too.

His savage Absolute Beginning body grew further!

Dragon spikes jutted out of his skin and appeared on his chest, arms, and waist. With a glance, he was like a giant, spiky dragon!

[God of Slaughter](#)

Chapter 1540: Fearfully Barbarian

Shi Yan’s power rocketed instantly but he didn’t attack Yuan yet. He maintained his previous position. Holding the star chain, he restrained Hui’s main head.

Deep in his eyes, blood-red energy gushed crazily and hit Hui deep in its Sea of Consciousness! That sort of energy had created soul pressure. Finally, the balance that Yuan had laboriously created was broken!

Zi Yao used her absolute advantage to counterattack Hui's soul and use her soul to swallow Hui's host soul!

Hui's Sea of Consciousness had become a world filled with bands of dazzling light. The sparkling halos rippled like light waves in the sea at every corner.

Deep inside the brilliant sea of light was a magnificent, hovering, seven-colored soul altar. It was Hui's soul altar with the blinding Divine Light power Upanishad, a territory, and a pocket-sized snake soul, which was Hui's host soul.

At this moment, the dark green snake was affected by the black water and a red halo. It looked so helpless.

Zi Yao's graceful soul turned into a bunch of purple light and coiled around the little green snake.

The little snake struggled hard. The snake body was slowly vanishing in the purple light. Quite the contrary, the purple light grew bigger and brighter at a speed that naked eyes could see. It was filled with energy!

That small snake was Hui's host soul. While Zi Yao was backfiring it, she had taken a lot of mysterious images in its memories.

Zi Yao's aura was completely similar to a snake; it wasn't a problem to migrate the memories. It was as easy as water pulling the boat.

Shi Yan's ferocious, savage body observed and found that the struggling snake suddenly quieted down. He knew that they had gotten over the dangerous phrase. Zi Yao now had Hui's host soul.

From now on, Hui's time was over. Zi Yao was about to replace it and control this Absolute Beginning body!

Yuan's energy was divided into three flows to control Dragon Lizard, Shi Yan, Zi Yao, and Neptune's group. He had controlled the situation. Right at this moment, Yuan suddenly bellowed at the void. He crazily shared a greater part of his Soul Consciousness to subdue Zi Yao!

He didn't want Hui to wake up or Zi Yao to take Hui's soul. The changed situation threatened him. He had to retrieve the energy he used to fight Forefather Dragon Lizard and Neptune to help Hui counterattack Shi Yan and Zi Yao.

Swoosh! Swoosh! Swoosh!

He immediately retrieved his soul energy sent to the other snakes. After his restraint was gone, the other eleven soul clones of Hui hurried to attack Zi Yao.

The soul clones turned into small snakes, emerged in Hui's soul, and furiously attacked Zi Yao!

However, after Zi Yao had taken in Hui's host soul, she had also obtained its memories and powers. She was no longer the weak warrior that Hui could bully!

She had Hui's powers!

Zi Yao suddenly transformed into a human with a snake body from the purple light. She urged her power Upanishad in Hui's Sea of Consciousness. Shortly after, she steadied herself in this world of divine light. She could pull and control them all!

Bands of dazzling light crossed over this inner world and attacked the little snakes.

In this world, she was the only protagonist. Shi Yan's Soul Consciousness in there also felt her intimidation.

Yuan was still roaring wildly. When Zi Yao got Hui's host soul, his soul had tried to get in there. However, he was stopped outside by the divine light. He couldn't intrude Zi Yao's Sea of Consciousness to overturn the situation.

At the same time, Shi Yan recognized that Zi Yao was fighting the eleven clones in her Sea of Consciousness. He knew that he didn't need to help her anymore.

He retrieved his Soul Consciousness and power. His formidable, giant body shook.

The giant dragon tattoo on his body suddenly moved. The world-destroying energy furiously diffused from him!

"Crack! Crack! Crack!"

The immense sea created by Yuan energy exploded and collapsed fast. It seemed like the ocean created by Water power Upanishad couldn't resist such a power.

The current water level of the sea was now at Shi Yan's waist. At first glance, it looked like he was standing in the middle of a small, shallow pond where a giant turtle that wasn't bigger than him was swimming.

"Heavenly stars move!"

Shi Yan shouted. Skyfall Star River changed in the void and turned into thousands of bright stars. Each star revolved and created a dazzling light curtain. The light curtain created hundreds of strange, ancient formations, seals, and barriers, falling like waterfalls.

All were aimed at Yuan's giant turtle body!

"Space confines!"

Space energy rippled. Wherever the space ripples went, the void froze. The giant turtle paused!

Boom!

Shi Yan ballooned like a Demogorgon that descended to this world while terrifying energy was emitting from him. He trodded on the giant turtle shell. The giant dragon tattoo on his body suddenly revived. The dragon opened the mouth as if it was smiling and moved towards the giant turtle!

"Desolate! You dipped your nose in my business!"

Yuan Zu's human clone looked frightened for the first time. The giant turtle retracted into the shell.

The world on the turtle shell was put into a deep place in his territory. All the patterns on the turtle shell glowed and turned black.

THUMP!

Shi Yan's stamp sounded like a hammer hitting a bronze drum. Yuan's turtle shell made the sound of an earth-shaking explosion.

The giant dragon tattoo hit the patterns on the turtle shell and cracked it. Yuan screamed in agony.

"I will risk my life with you!"

Yuan Zu screamed and then ignored Neptune's group, entering his real body. Yuan's turtle body's energy rocketed once more. The scattered energy all united.

Rumble! Rumble! Rumble!

Crack! Crack! Crack!

A Demogorgon whose head touched the void and feet trodded the darkness was fighting a giant turtle in the surging sea. They were using their power Upanishads to attack each other and their massive body to tear and bite each other.

Neptune, Xiao Lie, Jia Ni, and the others were released since Yuan had retrieved his power. Dragon Lizard lost his tail but he was saved when he was close to dying. Just like Neptune and the others, he was dazedly watching the two terrifying creatures entangling and biting each other.

"Is he really Shi Yan?"

Jia Ni's patterned face showed her fear. She lifted her head to look at Shi Yan whose little toe was as big as a mountain. She was filled with fear.

"Yes. That's him..." Neptune sounded bitter.

"I heard that you had almost killed him on the seabed of the Sea of Annihilation. I want to know if the rumors were true or not. You... you can defeat him?" Xiao Lie of Heavenly Craftsman Tribe asked frankly. He looked at Neptune skeptically and asked impolitely, "You think you can kill him now? Did you lose your mind while cultivating?"

Neptune looked embarrassed but he didn't snap back.

Jia Ni of Secret Pattern Tribe had strange lights in her eyes as she complimented, "Yeah, he's the one who has claimed Mei Ji's heart. I didn't know why the most beautiful flower of the Phantom Clan has fallen in love with an anonymous person. But now, I get it."

She didn't conceal her compliments. "What a hunk! Let alone Mei Ji, I think as long as you are a woman, your heart will pound hard as you watch this fight."

"I think you should leave hurriedly."

However, at this moment, Forefather Dragon Lizard's voice arose. He floated from the seething ocean, his body gory and his face exhausted.

“You’re severely wounded,” said Xiao Lie.

“I won’t die yet. But if I stay here, I’m not sure about that.” Forefather Dragon Lizard pulled a cold face as he looked at the corpses of Labitte and Clark. “Whether it’s Shi Yan or Yuan Zu, when one becomes victorious, he will kill you all.”

“Which side did you choose?” Jia Ni was interested.

She didn’t even bat her eyes at Clark and Labitte. Apparently, she was that sort of heartless person.

“Side?” Forefather Dragon Lizard wore a strange face. He lifted his head to look at the overbearing Shi Yan in the void. He was scared.

He knew that Absolute Beginning creatures could eat each other to increase its power. As he got Lizard’s blood, he wondered if Shi Yan who had fallen into his bloody slaughtering desire would lose his mind and kill all the creatures here.

“Forget it. I don’t care about you. I have to get out of here!”

Pondering, he didn’t dare to take risks. As he felt that Shi Yan’s condition was not right, he didn’t want to stay. After talking to Neptune and the others, he dragged his bloody body away.

The battle between Shi Yan and Yuan continued. The giant and the turtle were hitting each other hard in the dark ocean. The shockwaves from their exploding energy broke many life stars around. This strange territory was about to collapse because of their battle!

Shi Yan alone couldn’t resist Yuan. However, after Desolate lent him energy, he could maintain an equal fight with Yuan.

Neptune’s team didn’t want to leave when they saw the two battling hard against each other. They hid in the dark and observed.

“Oh! That big snake isn’t moving anymore, is it?” Neptune was surprised and something flashed in his head. “This is our chance!”

The others checked and found that the twelve snakes of Hui stopped moving. Their eyes were also closed.
