Chapter 1541: Zi Yao is Born Again!

“It hurt, didn’t it?”

Neptune’s eyes brightened in desire. They came here because of the Absolute Beginning body. Right now, Shi Yan and Yuan were fighting; they couldn’t spend extra effort to pay attention to them. It was their rare chance that happened once in a blue moon.

“I haven’t seen it move. I guess it’s hurt from the previous battle.” Xiao Lie smiled excitedly.

Xiao Lie had a scarlet flame churn in his palm. Slowly, the flame grew as big as a millstone. Xiao Lie controlled it to hit one of the twelve snakes.

BOOM!

The flame exploded. The red flame burned the snake as if it had its own consciousness.

Boop! Boop! Boop!

The viscous flame expanded fast and covered a section of the snake’s body. Gradually, the snake smelled like something burning.

People focused on that snake and found it motionless. It didn’t twist its body or use energy to extinguish the flame.

Everyone’s eyes brightened.

They didn’t say more, grinning and dashing towards Hui’s clones. They wanted to seize the chance when the snakes were separated to drink Hui’s Absolute Beginning blood.

Neptune screamed and summoned so many brutal souls. Those souls then became the most savage beasts and aimed at a massive snake.

Each brutal soul was as big as a mountain. However, compared to the trunk of the snake, it was still pretty small.

The snake was like a long mountain range. But now, dozens of brutal souls were biting and tearing it. Neptune urged his power Upanishad and licked his lips greedily while increasing his energy. He wanted to prick through the snake’s natural armor.

Hui was an Absolute Beginning creature; its body was incomparably strong. Although it couldn’t save the soul, its natural defense wasn’t something that ordinary warriors could break.

Waves of rippling lights emerged from Hui’s body and dissolved Neptune’s power. The brutal souls were nibbling and tearing something like rubber. They couldn’t tear the snake’s skin to see and absorb its real flesh and blood.

Similarly, Jia Ni, Xiao Lie, and the others were using their powers to try to stab through the snake body to get into it.

They were restlessly increasing their energy and trying their best to break the skin.

Deep in Hui's soul...

The pocket-sized snakes had pierced through the world of brilliant lights and headed towards Zi Yao.

Zi Yao appeared as a part human and part snake. She had become the rightful master of this Divine Light Sea of Consciousness. She moved agilely. So many radiant beams were weaving on her face and her body. They became brilliant symbols that carried mysterious and powerful abilities.

"Return the host soul! I will set you free!"

The voices of eleven Huis sounded at the same time and became pure energy that hit Zi Yao's soul.

"I am you. And you are me. Why talk about freedom?" After Zi Yao got the host soul, her confidence was boosted. She seemed to transform into another person. At this moment, she was extremely beautiful and charming. She smiled with a bright face. She raised her hand and pointed at each snake. "You guys are just wisps of my Soul Consciousness. In my world, you can't struggle."

The snakes wanted to bargain more but they suddenly felt their bodies get attacked.

It was because Neptune, Xiao Lie, and Jia Ni began to attack their bodies and tried to dig into them to absorb the Absolute Beginning blood.

It scared the snakes. They noisily hissed at Zi Yao. They wanted to stop this bargaining and return to the body to kill the ones who dared to attack their bodies.

"Harrumph! Since you came here, don't think about leaving. Anyway, my body isn't under attack!"

Zi Yao's hands interlaced and created many magical seals and Absolute Beginning symbols, sealing the souls of the eleven snakes in this sea of bright light.

Since Neptune's group was afraid that Hui would risk its life to counterattack, they thought that they were wise enough to skip the host body.

Thus, Zi Yao's body wasn't attacked. She didn't worry about it. "Don't worry. Even if you individuals are destroyed, as long as I'm here, you can be revived. Haha. But I'm afraid you guys won't have decent living conditions when that happens. Well, you should follow me now. I will refine you and we will become one again..."

"NOOOOOOOOO!"

Eleven snakes hissed ear-piercingly and tried to wiggle hard.

However, right at that moment, Xiao Lie of the Heavenly Craftsman tribe had used his scorching flame to burn off the scale armor on a small section on the snake body. He conjured a gold lance and thrust the soft meat.

Puff!

The snake body was pierced through, exposing its blood and flesh.

Xiao Lie's eyes brightened. He laughed crazily and tried to get inside the snake.

At the same time, one of the eleven snakes panicked, its energy draining fast.

Zi Yao immediately changed seals. Countless magical seals fell on that snake and coiled it. Shortly after, she pulled it towards her snake body.

Strange noises of something dissolving arose. When she got one of her souls back, Zi Yao's power increased. She continued to use her power to pull another snake.

She pulled the snakes back to their positions and merged them all.

As the other snakes saw the situation turn wrong, they quit attacking her, turned around, and tried to run away. When Zi Yao was getting stronger, they couldn't decide what to do anymore.

Unfortunately, Zi Yao got so strong that they couldn't get rid of her.

The snake disappeared, one by one. Zi Yao erased their independent consciousness and gave them different consciousness.

— Her own consciousness.

The snakes were refined, tamed; they became parts of Zi Yao.

Shortly after, the tamed eleven snakes flew out of her body. This time, they all had Zi Yao's aura as their souls now had Zi Yao's soul imprint.

From now on, Hui no longer existed! Zi Yao was now the Absolute Beginning creature called Hui. She had everything that belonged to Hui!

The twelve silent snakes faced the sky and roared all of a sudden. The separate bodies moved and their tails merged with each other. Afterward, the twelve heads raised high in the sky as its massive body filled every corner of the continent.

Zi Yao in her human form stood on the main head and opened her eyes. She was shrouded in stunning halos. She looked at Xiao Lie and the others from her height and sneered.

"Court death yourself."

Cold, sparkling crystal lights fell from her head toward her clones.

Boom!

Xiao Lie, who had got in a section of the snake body, became the first target. The cold light hit him and extinguished his flame. He shivered in extreme cold.

"Spit it out!"

Zi Yao's face turned cold. She pointed at Xiao Lie. The bottles and jars on his body, which contained the blood and flesh he had just taken from the snake, exploded. The snake's blood and flesh flew back to the wounds on the snake's body as if they had consciousness.

Swoosh! Swoosh! Swoosh!

Zi Yao was enraged. She used her power and the twelve heads roared and hissed, releasing the bands of rainbows.

The rainbow fell like waterfalls and hit Neptune, Xiao Lie, and Jia Ni. Shortly after, in the sea of light where they were shrouded, they vanished.

Although Neptune, Xiao Lie, and Jia Ni had reached the Territory Ancestor Realm, Zi Yao had confined them in her world with one attempt.

Then, Zi Yao's eyes moved and fell on Yuan and Shi Yan not far from them. Her real body roared and twisted, moving to attack Yuan. Her human body smiled gently, "Yuan, my man alone can defeat you. If I join, do you think you can escape?"

Yuan was in his turtle form. His shell had so many cracks. Evidently, he was severely wounded.

Shi Yan's scaly armor also had cracks. He was bleeding too. In their battle, they had darkened the entire area and broken many planets nearby.

Hearing Zi Yao's laughter, Shi Yan shivered. He was so thrilled. He knew that Zi Yao had finally awakened with his efforts. She had completely replaced Hui. She was now an existence like him and she was even stronger than him!

Yuan still wanted to fight, but he understood what had happened when he heard Zi Yao's voice.

He bellowed and tried to retreat. Bobbing in the black ocean, he wanted to flee.

"Shi Yan, we should join hand to kill this coward," Zi Yao stood on the snake head as she spoke softly to Shi Yan, her eyes sentimental.

"Of course," Shi Yan faced the sky and laughed.

Yuan was frightened. He knew that he couldn't defeat Shi Yan and Zi Yao together. He had to run fast!

At this moment, the giant dragon tattoo on Shi Yan's body faded. The endless power he got was disappearing rapidly.

Ghost Hunter appeared in the soul pond inside Shi Yan's Sea of Consciousness. He said indifferently, "I don't want you to die in Yuan's hands. Neither you or Zi Yao can kill him. If Hui recovers fully, she will trouble me a lot. Wait for me. I will find you and merge my body with you! When that happens, no one in this era will be able to stop me!"

Ghost Hunter's image faded away. The giant dragon created by Dark Energy churning in the soul pond also disappeared.

When Desolate's power was taken back, Shi Yan's savage body shrank, his power reducing greatly.

Yuan seized the chance to run away. He turned into a water current and zoomed away quickly. Shortly after, he became a drop of water, disappearing. His aura vanished in this territory.

"Why did you let him run away?"

Zi Yao sat on the snake head. She moved to Shi Yan and asked skeptically.

“Er... I wasn’t really that strong...”

Shi Yan shook his head and gave her a forced smile. He knew that Desolate wouldn’t help him for no reason. He couldn’t let Shi Yan and Zi Yao kill Yuan to take more energy.

Chapter 1542: Disclose Feelings

Zi Yao was sitting on the fulgent, seven-colored crystal throne on the snake head. Her eyes were like precious gemstones, her smile a blooming flower. She was utterly beautiful.

Zi Yao was still herself, but her makings were more charming than previously. In Shi Yan’s eyes, no one could beat Zi Yao’s glamor now. Even Mei Ji was one level lower than her.

It was all thanks to Hui’s soul. She had gotten the soul of an Absolute Beginning creature and transformed completely.

She was wearing a violet dress, her eyes brighter than snow. She lazily leaned on her side on the crystal throne, giggling and talking to Shi Yan.

Shi Yan resized his massive body and stayed in his human form. He sat with Zi Yao on the crystal throne and explained to her with a forced smile that his rocketing energy was actually from Desolate.

“I thought I would perish soon. I had never expected to defeat its soul. I’m still scared.” Zi Yao beamed at Shi Yan and then bit her lower lip. She reached out to Shi Yan’s hand, pulling him close to her and then leaning against his torso.

“I thought it was only me with my affection. I thought that you didn’t have me in your eyes and that I didn’t have a room in your heart. Seeing you get stronger every day, I felt smaller. I thought you were getting further and further away from me. You become someone I could never touch...”

She murmured her feelings that she had been hiding for so many years. “I had given up because I thought I could never catch up with you. I couldn’t help you in anything and became a rope tying you down and keeping you from soaring up into your sky. I tried to follow you. I cultivated hard to improve my realm...”

She lifted her head and looked Shi Yan in his eyes. “But you’re too fast so it was hard to imagine. I could only open my eyes wide and helplessly watch you get stronger and stronger. No matter how hard I tried, I couldn’t shorten the distance between us. I hated myself at that time!”

Shi Yan didn’t know how to reply.

From the time they were in Raging Flame Star Area, he knew her feelings. But at that time, he had only Xia Xin Yan in his heart. And he only wanted to break through his realm and find a safe place for Grace Mainland which was about to run out of energy. He wanted to settle his family and friends who had trusted him wholeheartedly.

Thus, he had chosen to ignore Zi Yao's love. After entering Agate Star Area, he had continuously fought around. He never stopped in any place.

At that time, Zi Yao also had a better chance. Lin Xin had accepted her as her disciple. They hadn't met each other for many years and when they met again, they didn't spend time for each other because of Shi Yan's advancement.

When they met again, Zi Yao couldn't reach him. She was left far behind him and the distance between them was only getting longer.

Shi Yan thought that Zi Yao's image wasn't carved deeply in his heart. But when Hui occupied her and Zi Yao was enslaved, he finally knew that Zi Yao had a room in his heart, a place where he had imprinted her image that would never fade away.

"Today, for me, you didn't care about your life. You risked your life to help me resist it. Finally, I know you have something for me in your heart..."

Zi Yao suddenly had a bright smile that she couldn't conceal. It was because her bitter wait for so many years was now fruitful.

The giant body of the twelve-headed snake emerged as the sea water lowered. It occupied almost the entire continent. Countless pieces of broken stars were scattered around the snake. Also, so many massive pieces hovered in the void like giant specks in the galaxy, moving around the snake.

Except for the two of them, this area didn't have auras of any living beings.

They could show their feelings and enjoy a rare, private moment. On this strange continent in a foreign territory, they told each other their hidden emotions that they had kept for a long time...

Time flew quietly...

Gradually, many strange battleships appeared in the dark sea of stars. Many warriors were moving around the battleships, their realms high.

Also, there were some warriors hovering directly in the void. They didn't use any battleship or war chariot.

The world-destroying battle in the corner of the territory had finally alerted the warriors in the far areas. The shockwaves from Shi Yan and Yuan's battle had torn the territory barriers, which attracted experts in the territory and adjacent territories to come and see.

Shi Yan and Zi Yao felt many creatures approaching. They stopped talking. Zi Yao changed her mind and a thick mist diffused, covering the space around them.

In the thick mist, the twelve snakes shrank in the world of beautiful rainbow bands.

That world slowly shrank until it became a light dot that disappeared into Zi Yao's pupil. She and Shi Yan stood up and released the Soul Consciousness to check around.

Shi Yan's soul expanded like invisible waves and reached an area where the others were gathering.

A group of warriors from different races and different realms appeared in his eyes. Most of them were explorers from Empty Land, a group of native warriors, and some from other nearby territories.

Among several thousand warriors, a figure caught Shi Yan's attention. His eyes brightened as he pulled Zi Yao's hand and said, "Let's go."

After that, Shi Yan and Zi Yao vanished as if they were smoke and mist.

Yvelines and some members of the Heavenly Eye Clan were in the crowd and watching the area where mist hovered.

He was taking some apprentices on a field trip to a corner of the Heavenly Eye Clan's territory. He was teaching them how to comprehend their power Upanishads when he found that the space barrier near them was smashed. Curiously, he took his students to the adjacent territory from the broken space barrier.

He knew this territory called Wavy River was right next to their Heavenly Eye Clan's Musing Rain Territory. There was a passage that linked Wavy River Territory and Musing Rain Territory. In fact, Yvelines, Masha, and Adams had gone through that passage to enter Empty Land and then the Sea of Annihilation.

From the shattered barrier spot, as soon as he got into Wavy River Territory, he felt the earth-shaking energy impact.

The commotion was billions of miles away from them, but they could still feel it clearly. Led by curiosity, he brought his apprentices to this place. They all wanted to see what had just happened to Wavy River Territory.

When they got to the place, they found that the area was covered in thick mist. They couldn't see anything inside that mist.

Many warriors had come earlier than Yvelines and his students. Many of them were famous experts of Wavy River Territory at the Immortal Realm. Those experts didn't dare to enter the mist. They were observing from a far distance.

Yvelines just watched from a distance too.

"Teacher, what could be the realms of the experts who had joined that battle?"

A member of the Heavenly Eye Clan who had only King God Realm cultivation base was very curious and eyeing the mist eagerly. "Why does no one dare to go in there and check?"

"You are stupid! Of course, they know that the battle at such a level isn't something that they can observe nearby. They have to stay far away to watch."

A pretty girl of the Heavenly Eye Clan glared at that young man and scolded.

"Sister, what kind of level are you talking about?" asked the young man excitedly.

The girl checked Yvelines standing next to them and then stuck her tongue out. She said cutely, “Of course, they are at a more terrifying realm than our master. Otherwise, our master wouldn’t just watch from here.”

She startled the young man. He said, “Our master has broken through to Second Sky of Immortal Realm. You meant the warriors inside the mist have higher realms? Peak of Immortal Realm?”

“Nonsense!” hissed the girl.

When Yvelines, Masha, and Adams had visited the Sea Domain of Nihilicity and befriended Shi Yan, they were at First Sky of Immortal Realm, just a step away from Second Sky.

After the tragical incident on the Dragon Lizard Star, Forefather Dragon Lizard had taught them something. Then, the Heavenly Eye Clan established a relationship with the Heavenly Sky Clan and became their dependent force. Yvelines, Adams, and Masha had received a lot of benefits. Yvelines had broken through to Second Sky of Immortal Realm shortly after.

Currently, Yvelines was famous in the Heavenly Eye Clan because he had helped the clan become a force under the Mysterious Sky Clan. His reputation in the Heavenly Eye Clan was high; even the Chief of the Heavenly Eye Clan had to respect him a lot.

Those juniors were Yvelines’ apprentices. In their eyes, Yvelines was the strongest expert and they had never met any existence at the Territory Ancestor Realm.

The Heavenly Eye Clan never had a Territory Ancestor. That’s why they were just a third-class race.

Unless their race had a Territory Ancestor, they could finally upgrade their class.

“Little Ya, Little Ye, you have to remember that my realm can be deemed as the top in our clan. However, in the Sea Domain of Nihilicity, it may not be worth mentioning.”

Yvelines looked at the two young warriors that he had expected a lot from and seriously, “At my realm, I can’t return alive if I fight the others in the Sea Domain of Nihilicity. That place has so many experts like clouds in the sky that you can’t count. Many forces are stronger than our clan. You shouldn’t relax and become lazy in your cultivation!”

Hearing him, Little Ya and Little Ye didn’t have more opinions and just nodded obediently.

Yvelines looked at them and sighed inwardly. “My competence is limited. Even if I teach you all that I know about power Upanishad, you can only become stronger than me. If you don’t have an excellent teacher, you will never have hope to reach the Territory Ancestor Realm...”

The biggest dream of his life was that the Heavenly Eye Clan would have a Territory Ancestor who could help the clan thrive and live better.

Although his generation couldn’t do that, he hoped that the next generation would achieve the dream that the entire Heavenly Eye Clan had desired. He knew that his two little students Little Ya and Little Ye were extraordinary. If they had a good teacher, they could have a chance to reach the Territory Ancestor Realm in the future.

However, a master at the Territory Ancestor Realm wasn't someone who would accept a small warrior from the Heavenly Eye Clan as his disciple. When Masha, Adams, and he had tried their best to help Shi Yan, they had a request for him: If Shi Yan reached the Territory Ancestor Realm one day, he would have to choose one member of the Heavenly Eye Clan as his disciple.

Masha, Adams, and Yvelines had spent time and efforts in the Sea Domain of Nihility to search for Shi Yan's information and whereabouts.

When they heard that Shi Yan disappeared in the Sea of Annihilation, they returned to Musing Rain Territory disappointed. They thought that the agreement they got with Shi Yan that year would never be implemented.

"Long time no see, Yvelines."

While he was sinking in his regret though, a familiar voice came to his ears. He was surprised at first. When he saw the one standing next to him, he was shocked. He shook and screamed.

"You... Why are you here?"

God of Slaughter

Chapter 1543: The Agreement in the Past

Yvelines's eyes brightened. He had never expected to see Shi Yan here. When Shi Yan disappeared mysteriously from the Sea of Annihilation, he guessed that Shi Yan had returned home. At that time, Masha, Adams, and he were extremely disappointed. They weren't in good moods when they returned to Musing Rain Territory.

After more than one hundred years, he was taking some apprentices for a field trip, which wasn't in the Sea Domain of Nihility. However, he met Shi Yan by chance. He felt so happy, indeed.

"You're here, unexpectedly!"

Yvelines's face brightened. He was moved and suddenly understood it. He looked at the mist and assumed, "You guys were attracted by that great commotion and came here from another territory? It's strange, indeed. The energy impact from this Wavy River Territory has shattered the territory barrier. Did it happen to your territory too?"

Shi Yan and Zi Yao exchanged looks and smiled. "Yeah, our territory is nearby. Since a corner of the territory wall is torn, we came to check it out. I didn't expect to meet you guys here."

Yvelines's eyes shot strange light. He looked at Shi Yan and Zi Yao as he was startled.

He couldn't recognize Shi Yan's and Zi Yao's realm!

"Is the Heavenly Eye Clan's territory nearby? I haven't seen Adams and Masha for a long time. If you don't mind, can you take me there to meet them?" Shi Yan pondered for a while and then said.

They were eye-catching here. After Yuan Zu had left, this area was going to become a buzzing place, especially when Labitte and Clark were killed, and Neptune, Xiao Lie, and Jia Ni were captured in Zi Yao's world of divine light. This place was about to attract experts at the level of the Ten Great Territory Ancestor Realm.

He had experienced a bloody battle with Yuan Zu where he had consumed a lot of energy. The energy from Labitte and the others' deaths was taken in, but he needed time to buffer the energy and refine it.

Similarly, Zi Yao needed time to steady herself and deal with Neptune, Xiao Lie, and Jia Ni.

The Heavenly Eye Clan's territory was going to be a good stop. Shi Yan had made up his mind.

"Haha, excellent! I think Adams and Masha will be happy when they meet you!"

Yvelines had wished that Shi Yan would come to their territory, so he agreed immediately. He rubbed his chin and contemplated, "You guys don't want to see more? That terrifying commotion had shattered even planets. I think there was a battle between Territory Ancestor Realm experts." He was still curious about what was hiding in the thick mist over there.

"If it's a battle at the Territory Ancestor Realm, we will court death ourselves if we get in there. We shouldn't get involved." Shi Yan gave a bitter smile.

Yvelines thought and then said, "Okay, we should go back through the hole on the barrier to our Musing Rain Territory."

"Master, who are they?" Little Ya's eyes brightened. Her line of sight switched from Shi Yan to Zi Yao and she said, "This jie-jie is so beautiful. I have never seen anyone more beautiful than her! So stunning!"

After Zi Yao had fused with Hui's soul and power, her halo couldn't be concealed. Her glamor could make even women praise her.

Little Ya and the young warriors of the Heavenly Eye Clan acted gingerly when they saw Zi Yao. They acted unnaturally as they both wanted to see her and avoid her eyes. Also, they were afraid that Shi Yan would be enraged too. All of this made them look awkward.

Zi Yao smiled elegantly when she heard Little Ya compliment her. "Girl, you're pretty too."

"Oh, she is..." Yvelines was surprised too. He thought, Not Audrey? Why did he change to another woman?

When he asked that, he saw Shi Yan startle and Zi Yao's eyes get bright. Zi Yao smiled and looked at Shi Yan as if she was waiting for him to give her a satisfied answer.

"You haven't confirmed yet?"

Yvelines was embarrassed as he thought he had asked a stupid question.

"Ah," Shi Yan gave a faint smile. He said nothing about their relationship. As Little Ye and the other men of the Heavenly Eye Clan were watching with envious eyes, he wrapped his arm around Zi Yao's delicate waist.

Zi Yao's eyes looked happy. She moved with the flow, leaning against his torso and feeling great. "I really like you, girl. Do you cultivate Fire power Upanishad? Take this little toy as a gift for you."

She walked to Little Ya gracefully. While the little girl of the Heavenly Eye Clan was surprised, she shoved a heart-shaped, red crystal into her hand.

The heart-shaped crystal had a dancing crimson flame with consciousness.

Little Ya's white hand fondled the crystal heart. Instantly, she felt her soul altar immerse in a sea of rolling fire. A pure flame directly seeped towards her God power Ancient Tree. She could hear the igniting sound when the red energy flooded in her like a rising tide.

"AH!"

Little Ya was frightened. She hastily threw the crystal heart away. Instantly, the red crystal heart emitted heat waves that filled the entire place and scared Yvelines, turning him pale.

Little Ya was young and she didn't have a wide knowledge. Yvelines, of course, understood how precious that heart-shaped crystal was.

He clumsily urged his power to cover that little red crystal. He checked it and became shocked. He looked at Zi Yao with fear and said respectfully. "This thing is too precious. Please take it back. Little Ya isn't worth receiving such a precious item."

The energy in this small crystal had frightened him. He didn't know what it was but he knew it was precious!

Zi Yao smiled and looked at Shi Yan.

Shi Yan knew that the precious treasure in Yvelines's eyes was just a plain item in Zi Yao's eyes. He grinned and said, "Take it for the girl. Of course, she can't absorb the energy in that crystal right away. However, it can accelerate her God power accumulating speed by ten times. Even when she reaches the Immortal Realm, she won't be able to absorb all the energy in it."

Hearing him, Yvelines's hand, which was holding the crystal heart, quivered.

Little Ya was bewildered. The other members of the Heavenly Eye Clan were also skeptical as they didn't know if Shi Yan told them the truth.

It was just a small crystal but the energy it stored could help Little Ya until she reached the Immortal Realm. Was it really that precious?

Also, if it was really that precious, why would she give it away easily like that?

Was it just a simple item in their eyes?

A series of doubts wound around the hearts of the Heavenly Eye Clan members. As they didn't have high echelons, they didn't dare to question the others. They just looked bewilderedly.

Yvelines pondered for a while and then received the crystal. He thanked Zi Yao so many times and then guided them towards the crack on the territory barrier.

Through the cracks on the territory barrier, Shi Yan and Zi Yao had entered the territory where the Heavenly Eye Clan dwelled. As soon as they got in there, the torn part on the territory barrier mended magically inside the space energy ripples.

Of course, the members of the Heavenly Eye Clan didn't know anything.

Musing Rain Territory wasn't really big. Shi Yan's Soul Consciousness reached out and covered half of the territory quickly. He had observed many life stars to know the generation situations of this territory.

"I'm taking you to the teleport formation to jump to our holy land. Masha and Adams are there!"

After Yvelines had received the flaming crystal, he was somehow afraid of Shi Yan and Zi Yao. He led them to the nearest teleport formation. Along the way, he was so gingerly.

He found that he couldn't see through Shi Yan. He wasn't confident to remind the man of the agreement they had made in the past.

He was afraid that Shi Yan would deny him.

Along the way, Little Ya and Little Ye had murmured with the other young warriors of the Heavenly Eye Clan. They were so curious about Shi Yan and Zi Yao as they made guesses about their realm and cultivation base.

Most of them thought that Shi Yan and Zi Yao were at First Sky of Immortal Realm. Little Ye made a risky guess: the two of them had reached Second Sky of Immortal Realm

Swoosh!

White halos expanded as the teleport formation was activated. It had teleported them through dozens of planets directly to the holy land of the Heavenly Eye Clan.

The Heavenly Eye Star looked like a realistic eye, though. It was the holy land of the Heavenly Eye Clan where generations of their race had dwelled, cultivated, and worshipped their ancestors.

The spirit Qi on this planet wasn't thin. The vast forest occupied three-fourths of the planet. The rest of the land had many lakes that were all crystal clear. The water in the lake was so fresh and clean that they could drink it directly.

Many cities, big and small, were situated in the forest. The warriors of the Heavenly Eye Clan were moving in and out, some of them flying in the sky.

There were seven big, crystal-like lakes in the Southwest part of this planet. It was the Heavenly Eye Clan's holy land where they made many big statues. The vertical eyes on the forehead of the statues all opened and released a five-colored divine light. Those were the statues of the former experts who had made a great contribution to the clan.

Shi Yan saw a new statue around ten meters made of some blue stone stood there. Surprisingly, it was Yvelines.

Many warriors of the Heavenly Eye Clan were standing at the foot of the statue, bowing to show their respect.

“Not bad, your fellows made you a statue,” Shi Yan teased him after landing.

“Ah, it’s embarrassing,” said Yvelines reluctantly.

“My teacher has helped our Heavenly Eye Clan establish the alliance with the Mysterious Sky Clan. It’s his merit that we can depend on the strong Mysterious Sky Clan. With his great contribution to the clan, our Chief and the elders agreed that he was qualified to receive the worshipping from our fellows.”

One of Yvelines’s apprentice explained, his face red. He had considered Yvelines his proud teacher for more than one hundred years.

Shi Yan just smiled and walked through the lines of statues as he thought that it was interesting.

Zi Yao walked shoulder by shoulder with him.

Yvelines became more embarrassed. More than anyone else, he knew that the Heavenly Eye Clan could depend on the Mysterious Sky Clan because Tu Shi Qi and Ya Yun had considered Shi Yan’s face. Otherwise, the Heavenly Eye Clan wasn’t eligible to become a clan under the Mysterious Sky Clan.

Chapter 1544: Dispel Doubts

The holy land of the Heavenly Eye Clan was situated in the middle of the seven crystal clear lakes where thick earth and heaven energy hovered. The giant statues were also temples that they used to worship. Those temples were tall and vast. Many elders of the Heavenly Eye Clan stayed there to cultivate.

The Chief of the Heavenly Eye Clan stayed in the biggest temple where he solved all the matters of the Heavenly Eye Clan.

Yvelines’s teacher used to be the Great Elder of the clan. He was gone in the battle with the experts from the adjacent territory. Yvelines, Masha, and Adams weren’t eligible to stay in the holy land and they weren’t the Elders of the clan.

Returning from the Sea Domain of Nihility, Yvelines had helped establish the alliance with the Mysterious Sky Clan.

With this great merit, Yvelines, Adams, and Mash had become the Elders of the Heavenly Eye Clan. They finally got their lots in those temples.

Yvelines was the senior and he had contributed greatly to the clan. After the Elders of the Heavenly Eye Clan had discussed, they had even built him his own temple.

Many fellows of the Heavenly Eye Clan considered Yvelines an important officer of the clan. The young warriors would visit and worship his statue regularly.

Yvelines’s apprentices also considered him their pride. Thus, when Shi Yan teased him, they couldn’t help but retort.

Shi Yan just smiled and asked Yvelines to lead the way. He strolled past the temples.

“The area in front of us is the center of the holy land. Without permission from the Chief, we can’t get in there. Please understand,” Yvelines halted and spoke embarrassedly. “Adams and Masha are inside the temple. I’m going there to call them to meet you personally.”

Shi Yan wasn’t interested in the holy land of the Heavenly Eye Clan at all. He went to the clan just to find a place to rest. He nodded when Yvelines told him to wait.

Yvelines told his disciples to wait outside. He walked alone to the temple. One hour later, he returned with Masha and Adams.

When Adams and Masha saw Shi Yan, they were so excited that they screamed from a distance. “On behalf of the fellows of the entire Heavenly Eye Clan, thank you for visiting us!”

Little Ya, Little Ye, and the other young fellows of the Heavenly Eye Clan were so surprised when they saw Adams treat Shi Yan humbly. Adams was always a proud expert.

Thank him on behalf of the Heavenly Eye Clan’s fellows?

They were bewildered as they didn’t know why the Heavenly Eye Clan had to be grateful to Shi Yan. They thought that Adams talked about big things, so they didn’t dig further.

There were so many members of the Heavenly Eye Clan gathering around the statues. They were talking boisterously. However, hearing the commotion over there, they couldn’t help but notice the group of warriors.

At first glance, they saw Yvelines, Adams and Masha. They were all surprised and excited, hurrying to approach him.

“Elder Yvelines! You are Elder Yvelines! Please bless me!”

“Elder Adams, Elder Masha! Holy moly! You came out of the temple. I’m so glad I met you here. Please show me the way to cultivate my power Upanishad!”

“Elder Yvelines!”

“ . . . ”

The boisterous, excited noises arose. The young fellows’ eyes brightened and they tried to get through the crowd to meet their idols.

Yvelines hurriedly spoke when he saw the situation turn wrong. “We’ll talk somewhere else!”

He rose his hand to grab. Bands of starlight turned into a fabric sheet and covered his disciples. Together with Masha and Adams, they disappeared.

Shi Yan flickered his mind and his figure faded away with Zi Yao.

When they reappeared, they were in a small ravine outside the temple area in the holy land. It was a quiet place with strong barriers outside where a lot of towers and buildings with elegant and interesting architecture were built.

Yvelines's teacher used to live here to cultivate. Sometimes, when Yvelines and the other two needed to discuss privately, they came here. It wasn't far from the holy land, though.

"Why did you come to our Heavenly Eye Clan this time?" As Forefather Dragon Lizard had given Masha an Immortal Pellet, she had entered the Immortal Realm. Similarly, she was now one of the Heavenly Eye Clan's elders. More than anyone else, she knew her today's attainment was all because of Shi Yan. Thus, she sounded more respectful to Shi Yan than Adams.

"I just passed by and I saw Yvelines. That's why I came to visit you guys," Shi Yan smiled.

"Hm, the Chief is busy treating the experts of the Fiery Phoenix Tribe. He's not free. After he's done, we will treat you well!" Yvelines pressed his voice.

"Fiery Phoenix Tribe?"

Zi Yao wore a strange face, her eyes interested as if she knew this race.

"The Fiery Phoenix Tribe is very famous in the Sea Domain of Nihility. The rumors say that it's similar to the Dragon Lizard Clan. They are the later generations of an Absolute Beginning creature. Anyway, the Fiery Phoenix Tribe is fiercer. The Fiery Phoenix Tribe has one Territory Ancestor. They are dependent on the Mysterious Sky Clan too but they are more powerful than our Heavenly Eye Clan.

Yvelines explained to Shi Yan, "The Fiery Phoenix Tribe's territory is pretty close to our Heavenly Eye Clan. After we followed the Mysterious Sky Clan, they told us to create a good relationship with the Fiery Phoenix Tribe. Our Heavenly Eye Clan and the other smaller races around here consider the Fiery Phoenix Tribe our master. We will do what they ask us to do."

Shi Yan was interested in neither the competition between the small clans nor the treat of the Heavenly Eye Clan's chief. He shook his head and waved his hands. "We don't want to bother your chief. We are just passing by for a while. I'm glad to see you guys again. We've traveled for a long time. We're really tired. If you don't mind, we want to stay there to cultivate for a while."

Masha was smart enough to understand. She hurriedly nodded, "Right, you should rest first. After you recover, we will come to see you."

Then, she grabbed her two seniors and took their juniors to leave.

"Why are you so hurried?" After leaving the ravine, Yvelines was a little discontent, rolling his eyes at his sister. "We made an agreement with him that year. I was afraid that he would forget it, so I was about to remind him. Why did you act hastily?"

"They want to have some private time. You idiots. You don't have good vision," smiled Masha.

Hearing her, Yvelines and Adams understood the situation. Since Shi Yan was still there, they shouldn't be hurried, though.

"Oh hey, the Fiery Phoenix Tribe experts came here again. What's the matter?" Yvelines wore a dark, complicated face.

The Heavenly Eye Clan and the Fiery Phoenix Tribe were similar; they were both dependent on the Mysterious Sky Clan. However, the Heavenly Eye Clan was a lot weaker than the Fiery Phoenix Tribe.

Thus, the Fiery Phoenix Tribe had deemed themselves as the leader of the territories around this area. It was true that the Fiery Phoenix Tribe had helped the Heavenly Eye Clan subdue the surrounding small races.

However, they didn't do that for nothing.

They had asked for many flaming crystal mines in the Heavenly Eye Clan's territory. The members of the Fiery Phoenix Tribe cultivated Fire power Upanishad, so they had already dug all the flaming crystal ores in their territory. They had asked most of the territories that were connected to the Fiery Phoenix Tribe for the flaming crystals too.

The Fiery Phoenix Tribe didn't have an alliance with the Heavenly Eye Clan before. However, since they were both dependent on the Mysterious Sky Clan and the Fiery Phoenix Tribe had helped the Heavenly Eye Clan threaten their enemies, they naturally used their tentacles to reach the Heavenly Eye Clan's territory and ask the Heavenly Eye Clan to offer them the mines full of ores.

This time, the experts of the Fiery Phoenix Tribe had come with many mine slaves. They were about to exploit their new mines.

"They didn't bring enough mine slaves. They want us to provide them with mine slaves to exploit the flaming crystals," said Adams with a forced smile.

"They've asked for too much. We've already given them mines and now, they want even the mine slaves. They haven't helped us much or fought against the others for us. They just yelled at those enemy forces. And they've asked too much," Yvelines snorted.

"We're both dependent on the Mysterious Sky Clan. They didn't mean harm to us. In this area, the Fiery Phoenix Tribe is the strongest clan. Sigh, we have no choice. They have a Territory Ancestor and their echelon in the Mysterious Sky Clan is also higher than us," sighed Adams.

"Forget it," Yvelines knew that they didn't have a choice. They had to be subtly patient.

Inside the ravine, after Yvelines and his people left, Shi Yan smiled faintly, "Well, talking about the Fiery Phoenix Tribe, your face looked strange. Do you know them?"

"After being in the Sea Domain of Nihility, I got more knowledge. The Fiery Phoenix Tribe? Hmm, I ate their ancestor," Zi Yao said casually.

Shi Yan understood that Zi Yao was Hui's clone, a part of Hui's soul. But now, after she had swallowed Hui's soul, she had considered herself Hui. She got all the memories from the Absolute Beginning Era.

"The ancestor of the Fiery Phoenix Tribe was also an Absolute Beginning creature? Why did you eat it?" Shi Yan was curious.

Zi Yao pondered for a while and then said, "How much do you know about the Absolute Beginning Era? You have two of Desolate's soul clones, don't you?"

"Just the fragments of memories. I can't combine them. I know bits of things. I don't actually know that era's situation in detail," said Shi Yan begrudgingly.

Looking at him, Zi Yao beamed, “Then I should tell you the details. You should have a good grasp of it.”

Shi Yan smiled. He wanted to find a quiet place to talk to Zi Yao about that extinct epoch to erase the mist in his mind.

“It was a magical time where creatures had giant bodies. In that era, when the creatures were born, they already reached Ethereal God Realm. We didn’t need to cultivate like the current races from King God Realm to Ethereal God Realm. We started with Ethereal God Realm. We were lucky that the earth and heaven energy at that time was extremely thick. It was easy to cultivate and make fast progress.

“There was no territory in that era. The entire world was an infinite sea of stars with billions of planets. There was no space barrier. The sea of stars didn’t have a border. It could elongate forever. No one knew if it had ended. Until our era ended, no one ever found the end of the vast sea of stars.

“The earth and heaven could produce divine weapons in that area. Take your Skyfall Star River as an example. It was actually a piece of the sea of stars. It had slowly gained consciousness and soul energy. Chen (*) found it. He had refined for thousands of years and made it Skyfall Star River. Unfortunately, Chen had fallen in that war. The Skyfall Star River went missing. You’ve found it unexpectedly.”

Zi Yao told him the magnificent intimidation of that era.

“Why did you fight against each other? What was that war for?” Shi Yan squinted and asked seriously.

“To be stronger, of course.”

[God of Slaughter](#)

Chapter 1545: Absolute Beginning!

“In our time, there weren’t countless creatures like there are now. There were just several thousand of us and most of us didn’t have a high realm. However, in that era, the creatures were still much stronger than they are now!

“In that era, each piece of the sea of stars belonged to one creature. Each existence had its own territory. The territories of the weak ones got thin earth and heaven energy and poor natural resources. The experts claimed the best areas with rich resources. In the beginning, they would fight from time to time but it wouldn’t become a large scale war.

“They had lived like that for so many years. The powerful creatures had reached extremely high realms like Second or even Third Sky of Territory Ancestor Realm. Later on, all the experts were stuck at Third Sky of Territory Ancestor Realm. No one knew how to cultivate to advance further.

“All the intimidating creatures were trapped. They couldn’t break through again.

“After that, a rumor arose saying that the more Essence Blood of the Absolute Beginning creatures we gathered, the greater the chance that we could break the bottleneck to complete ourselves and enter the ultimate realm that no one knows.

“Some believed in it and began to kill the lower-realm creatures to take their blood to improve their own blood.

“Unexpectedly, it worked! That pioneer became significantly stronger. It began to slaughter the weaker creatures to complete its blood and get stronger!

“That trend expanded like a monstrous fire. No one could stop it in the vast sea of stars. All the Absolute Beginning creatures joined it to become stronger or to just defend themselves. They murdered each other. The strong sucked the blood of the weak and they could be killed by another stronger expert.

“The universe that had been calm for so many years shattered because of the constant battles for tens of thousands of years. So many planets broke. The world was destroyed. Races went extinct.

“The creatures that could survive were all the strongest. However, to enter the world behind the Territory Ancestor Realm, the competition hadn’t ended yet. And the result was that when the Absolute Beginning Era ended, most of the creatures were killed. The survivors were hurt severely and left in a long coma.

“Desolate, Devour, and Hui were wounded experts that had to sleep for a long time. When they woke up, it was another era.”

Zi Yao explained the cause of the Great War in her era. She didn’t talk about the details of the last, brutal battle. However, Shi Yan could imagine how horribly tremendous it was.

“All was because of a rumor?” Shi Yan was surprised.

“It was not a rumor. It was true. We’ve proven it. Absorbing the Absolute Beginning blood from others is how we can actually complete ourselves and evolve our life form to reach another height. If it wasn’t been true, there would have been no tragic fights like that. Our time wouldn’t have ended,” said Zi Yao.

“Is it true that they could absorb Absolute Beginning blood to transform?” Shi Yan was amazed.

“Rumor said that before the dawn of this earth and heaven there was only one dormant creature in the universe. It was called “Absolute Beginning.” No one knew what it actually was or how it was created. They said that it had created the world. It was the fountain of everything and the reason we have the world today.

“Legends say that after the world was created, it had used all the energy so it had fallen. Its body exploded into so many pieces that developed into Absolute Beginning creatures. The Absolute Beginning blood in our bodies is the pure blood from Absolute Beginning. We can absorb each other to slowly develop and become Absolute Beginning creatures. We guessed that if we got all the Absolute Beginning blood, we could become Absolute Beginning...”

“It’s absurd,” Shi Yan shook his head.

“No. It’s not absurd. I believe it’s real.” Zi Yao pulled a stern face and looked at Shi Yan deep in his eyes. “The Power Upanishad Symbol Tower you got is the key to opening the Absolute Beginning Gateway. When you open the Absolute Beginning Gateway, you can enter Absolute Beginning’s head and get the ultimate power Upanishad, the source and the beginning of creatures.”

Shi Yan was dazed. “The Power Upanishad Symbol Tower is the key to opening the Absolute Beginning Gateway? Is that true?”

“The Power Upanishad Symbol Tower was made of the piece of Absolute Beginning’s skull. It was really magical. Rumors said that only the Power Upanishad Symbol Tower could open the Absolute Beginning Gateway where there were the utmost powers,” Zi Yao didn’t sound like she was joking, “That’s why all creatures wanted to take the Power Upanishad Symbol Tower.”

“So the Absolute Beginning Gateway is real? Do you know where it is?” Shi Yan wore an awkward face.

“I do. In fact, our last battle had taken place right in front of the Absolute Beginning Gateway. Because the rumor also said that after we got enough Absolute Beginning blood, we could break the Gateway directly to enter Absolute Beginning’s skull. Unfortunately, Desolate was the strongest at that time, but he couldn’t reach it. The Power Upanishad Symbol Tower hadn’t been finished at that time. When the new era started, it was finished. It’s the key. If we got the Power Upanishad Symbol Tower at that time, we would have been able to open the Absolute Beginning Gateway!” cried Zi Yao.

Her explanation of the Absolute Beginning Era, the Power Upanishad Symbol Tower, and Absolute Beginning had opened a new door for Shi Yan and showing him the views of a totally contrasting era.

Zi Yao had helped him fill his incomplete memories. Finally, he got some knowledge and impressions of that era.

Absolute Beginning scripture and images had become clear in his co-soul.

They were the images of an earth-shaking war!

It was the bloody battle between Desolate and so many giant Absolute Beginning creatures. All of them were extremely brutal and gory!

Shi Yan closed his eyes and shivered. He was feeling the mind-shaking memory of the war. He wanted to feel the terrifying, ruthless intimidation, and more secrets of that era.

After a long time, he escaped those haunting images. With a heavy face, he couldn’t say a word.

“You believe me now?” asked Zi Yao.

After nodding, Shi Yan sighed emotionally, “Yeah, I do. You can’t fake memories. The battles that Desolate previously joined are deep in my head.”

Right in this ravine, Shi Yan and Zi Yao discussed the secrets of the Absolute Beginning Era and many legends of that time.

Until he felt the changes in his acupuncture points, he said, “I need to refine energy.”

Zi Yao smiled brightly, “I know you cultivate exotic power Upanishads. Yeah, you should take these people. Kill them to increase your power.”

The divine halos covered Neptune, Keith, Oliver, and some experts of the five clans and delivered them to Shi Yan.

Shi Yan grinned. He didn’t try to be polite and just grabbed Neptune and the others, pulling them into his territory. He then used the Devouring power Upanishad to swallow them all.

At the same time, Zi Yao used her Soul Consciousness, which was the seven-colored divine light to tie Jia Ni and Xiao Lie. “You guys aren’t members of the seven clans. Your blood is very suitable for my imprint. I will print my seal in your soul altar. If you cooperate, you may live. Otherwise, you will perish shortly!”

She didn’t even give Xiao Lie and Jia Ni the right to talk and just took them back into her world.

Shi Yan and Zi Yao used their energy to refine Neptune, Xiao Lie, Jia Ni, and the others in the ravine.

Temple, Heavenly Eye Clan’s holy land, outside the ravine.

Yvelines, Adams, and Masha united after several months.

“Oh wow, Little Ya, you’ve broken through to the new realm? Ethereal God Realm?” Masha cried in surprise and looked at Yvelines’s apprentice, her face puzzled.

Yvelines smiled, “I called you here also for that.”

“For Little Ya?”

“Yeah,” Yvelines nodded and said to Little Ya, “Show your uncle and aunt that red crystal.”

Little Ya carefully took out the flaming crystal that Zi Yao had gifted her and held it tight.

It’d been several months since she began to use this little crystal to gather God power. She had broken through to Ethereal God Realm.

Previously, Shi Yan said that the energy from the flaming crystal could increase her progress ten times. Also, it could be like that until the Immortal Realm.

She didn’t buy it. Little Ye thought the same and her teacher Yvelines was skeptical.

However, she believed it now. From that little flaming crystal, she could feel the endless energy!

“Here’s the crystal. Shi Yan’s woman gave it to me. The power inside is incredible!” Yvelines looked excited. “However, that’s not the most important thing about it. Little Ya, show them.”

Little Ya hurried to urge energy. The red-orange flame arose from her little palm. They could see a dancing flame inside the crystal, which then turned into a phoenix bathing in the fiery flame that looked so real! That phoenix raised its head and spread its wings, releasing extreme heat waves as if it wanted to get rid of the crystal!

Adams and Masha were bewildered. Adams was bewildered for a while and became shaken, “It’s similar to the totem of the Fiery Phoenix Tribe?”

“It’s the reason why I called you up,” Yvelines took a deep breath, his face serious. “Because it’s so similar to the holy totem of the Fiery Phoenix Tribe and it has terrifying energy. I’m doubtful. I want you to help me with this.”

“It’s...”

Masha and Adams exchanged looks. They didn’t know what happened.

However, at this moment, the Chief of the Heavenly Eye Clan was welcoming a group of Fiery Phoenix Tribe experts led by a senile old man. This expert was the pride of the Fiery Phoenix Tribe, the only Territory Ancestor!

The chest plate of his beautiful armor had the totem of a phoenix bathing in fire. As the Chief of the Heavenly Eye Clan respectfully received them, the old man screamed crazily as soon as he landed on the surface of the planet. He ditched everybody behind and headed directly to Yvelines's temple.

God of Slaughter

Chapter 1546: Fire Bathing Phoenix

"What happened with Patriarch Chauncey?"

A middle-aged man of the Fiery Phoenix Tribe looked surprised. He couldn't help but turn to Cornet, the Chief of the Heavenly Eye Clan, his eyes turning sharp. "What the heck is your Heavenly Eye Clan doing? What did you do to make the Patriarch like that?"

Cornet and the elders of the Heavenly Eye Clan were bewildered. They were anxious as they didn't know what was going on.

"If something trivial you did enraged Patriarch Chauncey... Hmm!" The voice of the Fiery Phoenix Tribe middle-aged man was threatening.

Cornet's changed his visage. He looked further and found that it was Yvelines's temple that Chauncey had aimed at. They were so frightened.

"Move! Let's see what's going on over there!"

The warriors of the Fiery Phoenix Tribe left Cornet's team behind. They turned into jets of lights and shot towards Yvelines's temple.

There were many young warriors of the Heavenly Eye Clan that came to worships the statues around. They saw the shooting flames fall on one of the temples. They were panic-stricken as they tried to see what had just happened.

"Oh f*ck! It's the members of the Fiery Phoenix Tribe again!" someone cursed indignantly. "My family has three abundant flaming crystal mines. They robbed us without a proper explanation. Those Fiery Phoenix Tribe clansmen are all hot-tempered. They often mess things up in our territory. They're such a pain in the ass!"

"Let alone you guys, we are in the same situation. What else can we do? The Fiery Phoenix Tribe is so powerful. Chauncey's at the Territory Ancestor Realm. In the Mysterious Sky Clan's point of view, they are heavier than us. Of course, we can't compete with them. We have to endure."

"Sigh, we have to be patient all the time. Those members of the Fiery Phoenix Tribe are too haughty. They've claimed our mines and even asked us to find the mine slaves for them. If it continues that way, it will be even worse than before!"

“The Fiery Phoenix Tribe got it done on their own. I think the Mysterious Sky Clan didn’t know that. If we can report it to the key members of the Mysterious Sky Clan, I think we can subside the Fiery Phoenix Tribe’s effects.”

“There is no use. The Mysterious Sky Clan will only consider the Fiery Phoenix Tribe’s voice. They don’t care about us. They have the Territory Ancestor so the Mysterious Sky Clan has to give them face. What do we have? Ah, it’s unimaginable that we can be dependent on the Mysterious Sky Clan. What could we ask for me?”

“ . . . ”

Many members of the Fiery Phoenix Tribe turned into jets of flames and landed on the holy land. Seeing them, the warriors of the Mysterious Sky Clan cursed under their breath.

“Dirty mouths!”

Right at this moment came a smirk from a member of the Fiery Phoenix Tribe from a jet of fire.

The red-orange flames like fireballs fell from the sky and exploded right in the middle of the clamoring crowd. The young warriors of the Heavenly Eye Clan were charred and wounded.

“Damn! They dare to attack us right in our holy land!”

The members of the Heavenly Eye Clan couldn’t help but scream and roar. The disciples of the big elders wanted to counterattack. At this moment, Corner, the Chief of the Heavenly Eye Clan, landed and rolled his eyes at them.

They then shut their mouths and stopped acting rashly in front of the chief. However, their outrageous eyes were still fixed on one Fiery Phoenix Tribe warrior, a haughty young man at the Incipient God Realm and with long, red hair. He was Chauncey’s apprentice called Hong Fei who belonged to the aristocratic class of the Fiery Phoenix Tribe.

Hong Fei hovered in the air and looked down on the young warriors of the Heavenly Eye Clan while smirking.

After Corner came to Hong Fei, he shouted at his fellows and smiled to calm Hong Fei down.

Hong Fei laughed loudly and swung his hands. He didn’t even give Corner face, walking directly to the temple Chauncey had landed. He ditched Corner at his spot.

Cornet’s face turned from pale to white as he tried to suppress his anger. He rolled his eyes at his fellows and left hurriedly.

The members of the Heavenly Eye Clan under Hong Fei’s attack were so outraged. They felt so humiliated. Hong Fei disdaining their Chief made them more irritated than when their bodies got hurt.

He was looking down on their entire race!

Shortly after, Cornet and the elders of the Heavenly Eye Clan, Hong Fei and the warriors of the Fiery Phoenix Tribe had gathered by Yvelines’s temple.

At this moment, Chauncey's eyes were so hot. He was holding a flaming crystal with both hands, his body shaking in excitement.

The Elders of the Heavenly Eye Clan including Yvelines, Masha, and Adams grimaced. They looked at Chauncey indignantly.

"Master, it's mine..."

Little Ya mumbled and rolled her eyes at Chauncey of the Fiery Phoenix Tribe. "This old man doesn't know what's right or wrong. He didn't say anything and just snatched my thing. Why is he so arrogant?"

Chauncey had suddenly landed in front of Yvelines, Masha, and Adams and snatched the flaming crystal gifted by Zi Yao. Then, he ignored the questions from Yvelines's team and remained completely absorbed in the fire bathing phoenix inside the crystal. He didn't even bat his eyes at Yvelines's team.

Hong Fei and the members of the Fiery Phoenix Tribe saw Chauncey hold the flaming crystal with both hands and mumble to himself.

Hong Fei was bewildered at first. But then, the dancing phoenix inside the flaming crystal had dazed him. He stammered, "It's... it's our Ancestor's totem. It's a large piece of a broken soul altar. My gosh! How could it be?! How could it be?!"

At this moment, all the members of the Fiery Phoenix Tribe were frightened. The fire energy on their bodies became uncontrollable.

Chauncey woke up from his excitement. He clutched the flaming crystal and took a deep breath to calm down his restless mind. He then asked Yvelines, "Where did you get this flaming crystal?"

He didn't sound like he wanted to return the thing. He wanted to take it and find out its source.

If Yvelines's team didn't give him a satisfied answer, he would kill them all for the totem of his ancestor.

If Yvelines got the crystal from an illegitimate source!

Swish! Swish! Swish!

The scorching heat increased in the entire temple. Chauncey became a massive fireball. In this moment, the fiery phoenix on his garment was revived. It was slowly gathering energy.

As Chauncey was gazing at Yvelines, he felt horror-struck as if Chauncey would burn him into ashes in just a blink of an eye.

Cornet was frightened. He screamed continuously, "Yvelines! Do not conceal. Do not conceal anything. You tell him all that you know. We are all dependent on the Mysterious Sky Clan; as long as we make ourselves clear, I'm sure precursor Chauncey won't trouble us!"

He was scared so he had to mention the Mysterious Sky Clan. He hoped that Chauncey would give the Mysterious Sky Clan face and not act rashly.

"Don't worry. If you tell the truth, I won't trouble you," Chauncey squinted. "But if you hide anything, haha. Even the Mysterious Sky Clan won't be able to stop me from finishing you! This flaming crystal is a

piece of our Ancestor's broken soul altar. It's our legendary sacred item! We must know where you got it!"

Yvelines was shaken hard. He considered and then said, "It was from a friend's wife. She gifted it to my student. We didn't know that this flaming crystal was related to your Ancestor. We didn't know anything."

"Of course, you knew nothing. Otherwise, you wouldn't have dared to take it out. Haha, I didn't want to go to your Heavenly Eye Clan. I didn't expect to get such a big harvest!" Chauncey laughed contentedly, fire winding around his body. He didn't linger and just spoke resolutely, "Where is the one who gave you this crystal? Tell me the truth. I won't trouble you. Otherwise, you know what will happen to you. Hmm!"

"Spit it out!" Cornet was so restless as if he had a flame burning his heart. He was afraid that Chauncey would spray his flame of anger at the entire Heavenly Eye Clan. Seeing Yvelines hesitate, he urged, "You don't want to put our clan in danger, do you? Yvelines, for your teacher's sake, tell us the truth!"

"Hong Fei, barricade the Heavenly Eye Clan's holy land. Now!" Chauncey ordered and frowned.

The warriors of the Fiery Phoenix Tribe scattered immediately, turning into bands of fire and hovering about the holy land of the Heavenly Eye Clan.

Most of them were at profound realms with at least six or seven experts at the Immortal Realm. They instantly set up a scorching sea of fire above the Heavenly Eye Clan's holy land!

The fiery band temporarily sealed the Heavenly Eye Clan's holy land entirely.

No outsider could get in there. At the same time, the elders inside the holy land couldn't get out unless they tore that flaming barrier.

The members of the Heavenly Eye Clan surrounding the holy land were frightened. They hastily sent information to their families and told them that the experts of the Fiery Phoenix Tribe had intruded on their holy land.

Instantly, all the families and forces in the Heavenly Eye Clan were shaken. The experts then gathered at their max speed. They had to risk their lives to protect the glory of the holy land!

They understood that they couldn't resist the Fiery Phoenix Tribe, so they tried to contact the Mysterious Sky Clan.

Too bad for them, the Sound Stone that could contact the Mysterious Sky Clan was inside the holy land. As their holy land was sealed, they couldn't contact the Mysterious Sky Clan.

The holy land of the Heavenly Eye Clan.

Hong Fei and the experts of the Fiery Phoenix Tribe left and returned quickly. Hong Fei grinned, "Master, we have control of the Sound Stone connecting to the Mysterious Sky Clan. They can't report anything to Mysterious Sky Clan."

This man had followed Chauncey for years. He understood his teacher well. He understood his teacher's idea from just a wink.

"Well done!" Chauncey nodded. As he knew the situation was under control and the Heavenly Eye Clan couldn't wiggle, he turned to Yvelines one more time. A dim flame arose in his eyes. "Now, tell me. Where did you get this flaming crystal?"

[God of Slaughter](#)

Chapter 1547: Court Death

Chauncey led the members of the Fiery Phoenix Tribe to the small ravine near the Heavenly Eye Clan's holy land. Cornet and the experts of the Heavenly Eye Clan couldn't avoid this. They had to come as Chauncey had requested them.

More than one hundred warriors at high realms gathered outside the ravine where Yvelines, Adams, and Masha's late teacher used to live. When they got there, Yvelines looked grimaced. He was so reluctant and just stood still.

He didn't want to disclose Shi Yan and Zi Yao's spot, but he didn't have a choice. He couldn't pay the price of his race's destruction to protect Shi Yan and Zi Yao.

Chauncey also said that he had only wanted to know the flaming crystal's identity. He didn't want to kill her.

Yvelines could only think positively. After he took them here, he planned to get in there and talk to Shi Yan and Zi Yao first. However, after walking one step towards the ravine, he was shaken hard.

A tender but irresistible force like a river drowned him and pushed him away!

Even though he was at Second Sky of Immortal Realm!

Yvelines couldn't believe it. He'd tried several times but couldn't get through it. Reluctantly, he backed off dispiritedly and shook his head. "The barrier outside the ravine is modified. I can't get in there."

"Precursor Chauncey, please take a look?" asked Cornet.

"Okay, let me break the barrier," sneered the only Territory Ancestor of the Fiery Phoenix Tribe, striding towards the ravine.

Boom!

A massive fiery phoenix flew out of the sea of fire above Chauncey's head. That fiery phoenix was made of pure energy and Soul Consciousness from Chauncey. It used his blood and it was created by the secret technique of Fire power Upanishad. It could burn everything into ashes.

Boom! Boom!

The fiery phoenix released its furious flames and burned the barriers, which created loud noises. Chauncey wore a calm and relaxed face, waiting for the barrier to melt down. After that, he was going to storm into the ravine.

Everybody waited with different visages.

The members of the Fiery Phoenix Tribe wore haughty faces. They didn't really consider the Heavenly Eye Clan worth anything. Thus, they thought that the Heavenly Eye Clan's friends wouldn't be fierce.

They thought that they could get into the ravine soon.

Yvelines and the others were restless and insecure. They were fearful as they didn't know what to tell Shi Yan when they met.

Time flew quietly.

After one hour, Patriarch Chauncey of the Fiery Phoenix Tribe looked stern.

As that fiery phoenix was burning for more than one hour, regardless of what kind of barrier it was, it should have melted already. However, he recognized that the barrier didn't look like it consumed all the energy to resist the heat.

Chauncey felt that something was wrong. He vaguely guessed that the warriors behind the barrier were also at the Territory Ancestor Realm too.

Only if they were at the Territory Ancestor Realm, Chauncey couldn't burn all the energy of the barrier shortly. When this thought came to him, he became cautious.

A moment later, the flame was still burning, but Chauncey had lost his patience. A beautiful woman walked through the flaming barrier.

It was a beautiful woman whose face was filled with bizarre but pretty tattoos. She wore a cold face and she had a mark of a cyan snake on her forehead. As soon as she emerged, Chauncey was frightened. He couldn't help but scream, "Jia Ni, how could it be you?"

The sea of fire retreated. Jia Ni of the Secret Pattern Tribe walked to Chauncey, her face cold and her eyes showing a murderous aura. "Chauncey, what are you doing here? Will it be interesting to start a battle here?"

Jia Ni and Judy of the Mysterious Sky Clan were sworn sisters but the Secret Pattern Tribe wasn't dependent on the Mysterious Sky Clan. In the Sea Domain of Nihilism, the Secret Pattern Tribe was really powerful; it was just behind the Seven Great Clans and it was much stronger than the Fiery Phoenix Tribe. Similarly, Jia Ni was more intimidating than Chauncey, whether they were talking about power or echelons.

Chief Cornet of the Heavenly Eye Clan was frightened too. He had never met Jia Ni but he knew her name. He knew that she was a fierce warrior with a noble position. Seeing Jia Ni walk out of the ravine, Cornet was both happy and frightened. He continuously gave Yvelines signals to ask him to clear the situation.

Yvelines and his disciples were dumbstruck and gawking.

They remembered clearly that they had brought Shi Yan and Zi Yao into the ravine. How come Jia Ni walked out from there?

Yvelines pondered for a while. Suddenly, his face changed as he shouted, "What did you do to Shi Yan?" He looked at Jia Ni furiously as he thought that Jia Ni had killed Shi Yan and Zi Yao in the ravine. Yvelines was so regretful that he blamed himself for that incident.

Jia Ni oddly looked at Yvelines. She curled her lips but said nothing.

"Jia Ni, I shouldn't ask anything, but this flaming crystal is very important. I want to know the details." Hesitating for a while, Chauncey proactively became humble. He didn't sound arrogant anymore.

He didn't dare to strut around. "If you know the situation, please tell me. Did you kill the other two?"

After Yvelines screamed his question, Chauncey "understood" the situation. He knew Shi Yan's name. He thought that Jia Ni had chased Shi Yan until she came here. He thought that because she walked out alone, she might have killed Shi Yan and the other.

No matter what, Jia Ni was famous due to her Territory Ancestor Realm. Perhaps, her competence was one level higher than his.

Jia Ni looked at Chauncey and said, "For Judy's sake, I suggest that you give back the flaming crystal to that little girl and take your team out of Musing Rain Territory as quickly as possible. You shouldn't concern yourself with that crystal anymore."

Hearing her, all the members of the Fiery Phoenix Tribe discolored in fear.

Chauncey's face gradually darkened as he snorted, "Jia Ni, I humbled myself. You shouldn't disdain me. Do you think I'm afraid of you? Even if we have to fight, I'm not scared. You think you can kill me?"

As they were both at the Territory Ancestor Realm and Chauncey was slightly weaker, he didn't think that Jia Ni could defeat him. He thought that Jia Ni deliberately threatened him, which had enraged him.

"You think I'm threatening you?"

Jia Ni smiled. The cyan snake mark on her forehead twitched strangely.

"You mean we're good?" snorted Chauncey.

Jia Ni didn't want to explain further. She turned to look at the ravine behind her as she said, "The barrier is lifted. If you want to get in, I won't stop you. I just hope that you can think clearly whether you want to get in there or not."

"Why wouldn't I?" Chauncey was confident. He urged his Fire power Upanishad and became a flaming man, strolling towards the ravine.

Many members of the Fiery Phoenix Tribe and the Heavenly Eye Clan curiously watched him. They tried to guess what Jia Ni meant as they didn't know the situation.

"What did you do to Shi Yan?" Yvelines shouted at Jia Ni.

Jia Ni glanced at him, her face bitter. "What could I do to him?"

Yvelines was surprised and screamed, "You're at First Sky of Territory Ancestor Realm. How could you not do anything to him? Is he stronger than you?"

As people were very surprised, Chauncey walked into the ravine and Jia Ni stayed outside.

The members of the Fiery Phoenix Tribe and the Heavenly Eye Clan found that it was very strange. They tried to look through the cliff and listen to any commotion from there.

Inside the ravine, Shi Yan was still cultivating, his eyes closed. Zi Yao opened her eyes and watched Chauncey, a big cluster of fire, come. She smiled gently and squinted to assess him. She nodded tenderly, "At the Territory Ancestor Realm. You already activated the Absolute Beginning blood. You have some value, though."

Chauncey wore a cold face. "You're the one who gave my Ancestor's piece of broken soul altar away? Where did you get that?"

"Where?" Zi Yao smiled as bright as sunshine. "Of course, from your Ancestor. I killed your Ancestor and took its Absolute Beginning blood and everything else. Yeah, it's simple like that. So, how did I get it, you say?"

Hearing her, Chauncey was scared out of his wits. He observed Zi Yao and found snakes moving and twisting inside her eyes.

An extremely terrifying aura diffused and filled the entire ravine.

"Gosh!"

Chauncey screeched inside the ravine. He finally recognized how fierce the beautiful woman standing in front of him was.

He believed Zi Yao immediately.

The Absolute Beginning creature that had killed and eaten up his Ancestor was right here!

In this instant shock, he knew that Jia Ni had offered him a good suggestion. He regretted deeply that he shouldn't enter this gorge. He shouldn't court death himself.

Unfortunately, at that moment, the ravine was sealed one more time. He didn't have a chance to escape his fate.

"That small amount of Absolute Beginning blood can recover my power a bit. So, you're going to die." Zi Yao smiled. She conjured billions of dazzling divine light and turned into snakes that coiled Chauncey and pulled him to her world of divine light.

People outside the ravine heard Chauncey screech terrifyingly and slowly subside. Everybody shivered and stayed put.

All of them, including the members of the Fiery Phoenix Tribe, Hong Fei, Chauncey's apprentice, and even the Chief of the Heavenly Eye Clan didn't move.

A warrior that could kill Chauncey easily was someone they could never imagine. What kind of peerless demon was hiding in that ravine?

“Swoosh!”

The flaming crystal flew out of the ravine and hovered in front of Little Ya.

“Kid, I gave you this. It belongs to you. Next time, don’t let people snatch it from you,” Zi Yao’s light laughter came from the ravine. She then changed the topic, “Jia Ni, kill all the Fiery Phoenix Tribe warriors out there for me. We don’t want them to babble about this.”

“No problem, Master,” replied Jia Ni.

As the entire Heavenly Eye Clan was surprised and the Fiery Phoenix Tribe warriors were fearful, she slowly took action and erased the souls of Hong Fei and the Fiery Phoenix Tribe warriors who had visited the Heavenly Eye Clan this time. One after another, they were all killed.

God of Slaughter

Chapter 1548: Great Shock

Cornet and the Heavenly Eye Clan fellows watched Jia Ni kill the others in horror. In several minutes, she had finished murdering Hong Fei and the warriors of the Fiery Phoenix Tribe.

All the members of the Heavenly Eye Clan gathered in this area kept their mouths shut. No one dared to make a sound.

The Fiery Phoenix Tribe was an extremely large force among the forces under the Mysterious Sky Clan’s protection. Compared to the Heavenly Eye Clan, they were much more tremendous.

However, even though they were a powerful force, Chauncey at the Territory Ancestor Realm was killed quickly and met the same result as his fellows.

This shocked the entire Heavenly Eye Clan!

Cornet and Yvelines were filled with fear. They shivered when they looked at the ravine.

They all heard Zi Yao’s advice and Jia Ni address her as “Master.” Zi Yao was Jia Ni’s master?

As Jia Ni was the strongest expert of the Secret Pattern Tribe and Judy’s best friend, her reputation was well-known in the entire Sea Domain of Nihilicity. Her realm was high, her identity was noble, and she was even stronger than Chauncey. She now had a Master?

Who could become her master?

Cornet looked at Yvelines with the hope of receiving an explanation from him. Yvelines just gave a bitter smile and shook his head.

“Gosh. Chauncey and the members of the Fiery Phoenix Tribe were all killed here. We... What should we do? Once the experts of the Mysterious Sky Clan find out about this, they won’t forgive us,” sighed an elder of the Heavenly Eye Clan. He thought the sky was about to fall on their heads.

Cornet maliciously threw him a glance to signal him to shut up. Then, he stood with Yvelines by Jia Ni and looked at her.

The corpses of the Fiery Phoenix Tribe warriors hadn't cooled yet. Jia Ni stood by those corpses and wore a cold and sinister smile. "You guys can tell Judy or Han Tian that I killed Chauncey and the Fiery Phoenix Tribe warriors. Judy and Han Tian can come find me to talk."

The Heavenly Eye Clan was shaken because of her words.

Han Tian? Judy?

They were the two Territory Ancestor of the Mysterious Sky Clan, the characters with top power. After they became a dependent force of the Mysterious Sky Clan, they didn't have a chance to see these two Territory Ancestors. The high-echelon experts of the Mysterious Sky Clan that Cornet used to meet were Tu Shi Qi and Ya Yun.

They thought that Judy and Han Tian were at the peak of the pyramid, the legendary existences that they couldn't meet.

"My Master said that they wanted to stay here for a while. Yeah, if you can contact the Mysterious Sky Clan, you can tell Judy and Han Tian about this and ask them to come here," Jia Ni said with a cold, natural face. "If they know, they will come personally. Don't worry. They won't trouble your Heavenly Eye Clan."

Then, Jia Ni left. She pierced through the barrier sealing the ravine and disappeared.

"Yvelines, you... how do you know those fierce experts? Why didn't you tell us earlier?" said Cornet through his gritted teeth.

The elders of the Heavenly Eye Clan gathered and asked Yvelines, Adams, and Masha. They wanted to know Shi Yan's and Zi Yao's identity and the real situation.

Little Ya held the flaming crystal. She was stimulated but she didn't know the reason. She looked at the ravine and said thanks from the bottom of her heart.

Now she knew how precious this little crystal was. Even the Patriarch Chauncey had come for it. She was thrilled as she got such a treasure.

"Chief! The fire seal the Fiery Phoenix Tribe had set up is broken!"

A young man of the Heavenly Eye Clan ran to them excitedly to tell them the updated situation.

Cornet nodded, pondered, and spoke to Yvelines, "Contact the Mysterious Sky Clan and tell them the details. I hope, I hope it what Jia Ni had said will happen and the Mysterious Sky Clan won't blame us."

Everybody felt safe unknowingly. Jia Ni was strong enough to talk to Han Tian and Judy. Moreover, her mysterious "Master" could make Han Tian and Judy neglect Chauncey's death, which prevented them from punishing the Heavenly Eye Clan.

Inside the ravine, Shi Yan still closed his eyes to cultivate to filter and refine Neptune's and the others' soul altars and energy.

At this moment, the Power Upanishad Symbol Tower was moving deep inside his soul. Waves of fierce energy emitted from the tower.

So many mysterious Absolute Beginning symbols were glowing on that Power Upanishad Symbol Tower. Shi Yan was using energy taken from Neptune and the others to refine a new Original Symbol.

Thus, it took him more time for this cultivation session.

Beautiful Zi Yao was sitting on seven-colored crystal throne and using her power to refine Chauncey. At this moment, she opened her eyes to look at Jia Ni and say. "Well done."

Jia Ni bowed to her slightly, her face sour. "Thank you for your compliment, Master."

Squinting, Zi Yao said indifferently, "You feel discontent as you have to serve me even though you have the Territory Ancestor Realm, don't you? Hmm, before I lost my power, I was at Third Sky of Territory Ancestor. I was about to reach the ultimate realm. It's good for your power Upanishad comprehension to follow me. You have to know that: I could have given you to Shi Yan so he could have swallowed you and Xiao Lie altogether."

Jia Ni changed her visage and screamed. "Please forgive me, Master!"

"Serve me well and I won't mistreat you. I will teach you the real power of your power Upanishad. I will help your Secret Incantation technique advance," said Zi Yao calmly.

"You know Secret Incantation too?" Jia Ni's eyes brightened.

"The mysterious incantations in the world share some features. The Secret Incantation is also a technique involving curses and incantations. The Secret Incantation uses your natural drawings on your body as the conductor. It's awesome, isn't it?" Zi Yao smiled coldly, "My body also has natural patterns that are more powerful and mysterious than yours. Thus, my knowledge of incantations is better than yours, for sure."

Jia Ni was moved and she asked respectfully, "Master, please teach me."

"Yeah, it sounds nice to my ears." Zi Yao nodded. "I kept you and Xiao Lie because your blood is suitable for me to carve my soul imprint. It's your opportunity. Don't think of it as a bad accident. Neptune had the worst accident.

"I understood," Jia Ni replied happily.

Mysterious Sky Clan.

Forefather Dragon Lizard dashed to a mountain that pierced through the sky. He steadied in the hall of an imposing palace and hissed, "Dragon Lizard, ask to see Forefather Han Tian!"

BOOM!

A loud explosion came from the mountain peak, which shook the big mountain. After a while, Han Tian walked out from one of those majestic palaces. He smiled cheerfully, his face glowing in good health.

“Congratulations. Finally, you’ve reached the Territory Ancestor Realm. It seems that you’ve cultivated hard.”

Then, seeing Forefather Dragon Lizard, Han Tian’s face darkened. “You got hurt?”

He saw dry bloodstains on Forefather Dragon Lizard’s body and felt his strange conditions.

“Yuan Zu almost killed me,” Forefather Dragon Lizard had dark eyes. “Right in Wavy River Star Area. Yuan Zu is an Absolute Beginning creature called Yuan. He has an extremely profound realm and he is utterly cunning and sinister...”

Forefather Dragon Lizard briefed the situation. “As I found it dangerous to stay there, I had to run away. I don’t know what happened afterward.”

“Yuan Zu...”

Han Tian pulled a stern face. Taking a deep breath, he said, “He’s the oldest among us. Many of us have guessed that he’s from the previous era, but we weren’t so sure. Turns out it’s so...”

Han Tian and Dragon Lizard discussed some secrets of that battle. Then, Han Tian ordered his subordinates to gather information. He wanted to know what had happened in Wavy River Star Area.

Shortly after, Judy returned. She came to see Han Tian and Dragon Lizard with a serious countenance.

“I come with breaking news,” Judy talked to Han Tian, Dragon Lizard, and some important officers of the Mysterious Sky Clan. “Yuan Zu and Shi Yan fought in Wavy River Star Area. They had almost reduced the entire territory to dust. They had cracked many territory barriers there. Yuan Zu ran away. Shi Yan and his woman disappeared. Neptune, Xiao Lie, and Jia Ni went missing. No one knows where they are.”

“Shi Yan and Yuan Zu had a great fight?” Han Tian couldn’t understand it. “He could fight Yuan Zu? Yuan Zu is at Third Sky of Territory Ancestor Realm!”

“It’s true. I don’t understand why Shi Yan suddenly became so fierce,” said Judy with a forced smile.

“Strange. It’s really strange. It should be something else. Unfortunately, all the participants are missing. We don’t know the actual situation,” Han Tian got a headache.

While they were bewildered, Tu Shi Qi and Ya Yun came quickly. Tu Shi Qi flew fast and shouted from a distance, his face strangely worried. “The Heavenly Eye Clan sent important news!”

“Heavenly Eye Clan?” Han Tian looked puzzled.

“A small race that depends on us. Tu Shi Qi wanted to give Shi Yan face so we’ve accepted them. At this moment, the Fiery Phoenix Tribe controls them. We rarely ask about their situations,” said an elder.

Since he knew that Han Tian wouldn’t mind a small clan like the Heavenly Eye Clan, he had to provide more details.

“What’s the news?” Judy asked coldly.

“Shi Yan and Jia Ni are in Musing Rain Star Area of the Heavenly Eye Clan. They’re in the holy land of the Heavenly Eye Clan. And the woman is called Zi Yao. She killed Chauncey and Jia Ni killed the members of

the Fiery Phoenix Tribe who paid the Heavenly Eye Clan a visit. Jia Ni told the Heavenly Eye Clan to tell us that she wants to meet Forefather Han Tian and Judy in Heavenly Eye Clan's land."

Tu Shi Qi panted and told Han Tian and Judy the information he had just got.

Han Tian and Judy exchanged looks. They nodded and then said in unison, "Good!"

Immediately, they wanted to go to the Heavenly Eye Clan.

"I also want to go there," said Forefather Dragon Lizard.

"Yeah, we should go together. We will use the teleport formation leading to the Heavenly Eye Clan. Although it will consume a lot of energy to cross the star areas, it's just energy. We shouldn't care about energy too much." Judy was resolute. While talking, she headed towards the teleport formation.

At Second Sky of Territory Ancestor Realm, as long as they knew the direction, it wasn't difficult to teleport through star areas.

Han Tian, Dragon Lizard, Tu Shi Qi and his wife followed her. They had teleported altogether with a group of experts to the Heavenly Eye Clan's land.

Chapter 1549: Muster a Large Force

"How is it? How is it?"

Cornet was so worried. He stood by the massive Sound Stone together with many elders. When he saw Yvelines send the message, he felt his heart beat faster.

"So many members of the Fiery Phoenix Tribe died here including Patriarch Chauncey. I don't know how they will deal with this," sighed an elder worriedly.

The Heavenly Eye Clan's elders were restlessly anxious. They guessed that the Mysterious Sky Clan would be enraged and obliterate the entire Heavenly Eye Clan.

To the Mysterious Sky Clan, the Fiery Phoenix Tribe was more important than their Heavenly Eye Clan. They believed that the Mysterious Sky Clan would appreciate the Fiery Phoenix Tribe more than their clan.

Patriarch Chauncey represented a strong force among the forces under the Mysterious Sky Clan. Would the Mysterious Sky Clan stay idle after their expert was killed?

"We got their reply. Tu Shi Qi got the message. He had to ask for Han Tian and Judy's direction. The two great Territory Ancestors are in the clan. We should expect bad news." Yvelines became restless like them as he didn't know how the Mysterious Sky Clan would react.

"Senior, will we be hunted to the last member because of this? If that happens, we will be the greatest sinners in our clan." Masha paled. She was panic-stricken as she envisioned the worst situation.

“No, I don’t think so. It won’t happen...”

Yvelines comforted her as if he actually comforted himself.

“I hope nothing will happen. I hope Jia Ni can bring us luck. As she and Judy are sworn sisters, they should have a good relationship,” said Cornet.

Everybody waited restlessly.

After a while, the Sound Stone flashed as it received messages. Yvelines connected to the stone and his visage changed. “Go to the teleport formation! Forefather Han Tian and Judy will come to our star directly! They may take the elders of the Mysterious Sky Clan with them too!”

Hearing him, the entire Heavenly Eye Clan was horror-struck.

Han Tian and Judy were the strongest existences in this entire sea of stars. They were the most powerful experts of the Mysterious Sky Clan among the Seven Great Clan. Even the Mysterious Sky Clan members couldn’t have many chances to see them. And today, they had mustered a large force to come to the Heavenly Eye Clan for what?

At this moment, they couldn’t really think; they just moved towards the teleport formation that linked the Heavenly Eye Clan and the Mysterious Sky Clan.

Generally, every race that came to be dependent on the Mysterious Sky Clan had to sign the treaty, which regulated that they had to establish the teleport formation to the Heavenly Eye Clan. However, it was a one-way formation.

The Mysterious Sky Clan could use the formation to enter the dependent race’s territory, but the dependent race couldn’t enter the Mysterious Sky Clan’s land through that formation.

It was the gap between their position and power. In the Sea Domain of Nihilicity, this operation was acceptable.

Shortly after, the experts of the Heavenly Eye Clan gathered by that teleport formation to welcome Judy and Han Tian of the Mysterious Sky Clan. They watched the formation, their faces complicated and anxious. They were afraid that Han Tian and Judy would massacre their clan as soon as they arrived.

However, they understood that if Han Tian and Judy had such a plan, no matter how hard they tried, they were still going to be hunted to the last member.

The Heavenly Eye Clan didn’t have an expert strong enough to resist Judy and Han Tian. No one could battle even one of them.

They could only receive their punishment.

The teleport formation was powered by piles of divine crystals. After they had arrived for a while, a terrifying power that could tear the voice emitted from the formation.

That fierce power terrified them all. They instinctively moved away from that formation.

All of a sudden, dazzling halos radiated from the teleport formation. As the Heavenly Eye Clan warriors were dazzled, the experts walked out one after another from the formation.

Cornet tried to suppress the pain in his eyes and yelled, "Welcome Forefather Han Tian and Judy!"

"Welcome!"

"Welcome!"

The members of the Heavenly Eye Clan shouted together and showed their most humble faces with the hope of making a good impression to the others.

The halos slowly vanished and left Han Tian, Judy, and Dragon Lizard. Han Tian scanned through the entire members of the Heavenly Eye Clan and shook his head inwardly.

There was no member of the Heavenly Eye Clan that could catch his attention.

Then, he stopped at Little Ya and closed his eyes to sense for a while. "You have a good gemstone. It contains tremendous fire energy. Kid, you got lucky."

Just like Chauncey, Han Tian also cultivated Fire power Upanishad. He had a good knowledge and keen eyes on some special treasures in fire class. The flaming crystal that Zi Yao had given away was the only thing he thought was valuable.

Except for that, the entire Heavenly Eye Clan didn't have anything or anyone worth his attention.

A simple compliment from Han Tian made all eyes of the Heavenly Eye Clan fix on Little Ya.

That flaming crystal again?

Everybody wore strange faces. Chauncey had threatened them because of that crystal. And now, as soon as Forefather Han Tian came, the first thing he talked about was also about that crystal. How precious was it actually?

"Precursor Chauncey and the members of the Fiery Phoenix Tribe died because of that flaming crystal..."

Cornet didn't dare to conceal anything. He explained the incident in detail. He didn't dare to miss even the small things. He hoped that his sincerity would make Han Tian's team show mercy.

Han Tian and the others had their eyes brighten as they listened to Cornet. Sometimes, they shot meaningful looks to Little Ya.

After a while, Han Tian grinned and said, "I think I know the reason."

He shot Forefather Dragon Lizard a look.

Forefather Dragon Lizard nodded and said, "Her coup was successful. At this moment, she's one of the Absolute Beginning creatures. This girlfriend of Shi Yan is much stronger than Yuan Zu that year..."

He was one of the witnesses of the battle between Zi Yao and Hui, but he didn't know the result. And now, he knew Zi Yao had succeeded from Cornet's information. Her soul clone had replaced the host soul and absorbed all of Hui's memories and power.

"No wonder Chauncey died. As he messed with the one he shouldn't have, he had to face his consequences."

Han Tian laughed loudly as if he didn't think Chauncey's death mattered. Hearing him, the Heavenly Eye Clan members' edgy nerves were relaxed.

Only Forefather Dragon Lizard understood that currently, Shi Yan and Zi Yao were much more important than Chauncey. As long as Han Tian and Judy weren't foolish, they weren't going to challenge Shi Yan and Zi Yao to sink in endless trouble.

Previously, when Forefather Dragon Lizard and Shi Yan met in the Sea of Annihilation and Ferrell had reported it to Judy, Judy had shown that the Mysterious Sky Clan wasn't really concerned about Ling Mei. At that time, Judy had said that she hoped Forefather Dragon Lizard would befriend with Shi Yan.

Forefather Dragon Lizard wasn't dumb. He knew what the Mysterious Sky Clan wanted.

"It has been a long time since I last met Jia Ni. It's good to see her and chat for a while." Judy smiled friendly and walked directly towards that ravine.

Finally, Yvelines and the other two could exhale in relief. As they saw Han Tian and Judy's attitudes, they could confirm that they wouldn't take revenge on the Heavenly Eye Clan or kill them all.

Right after that, Cornet and the members of the Heavenly Eye Clan used their most respectful manners to lead Han Tian, Judy, and the others to the gorge.

On the way, Han Tian and Judy had used their souls to discuss for a while. They came to an agreement at the end.

The ravine's entrance.

Xiao Lie of the Heavenly Craftsmen Clan and Jia Ni of the Secret Pattern Tribe were there. The two of them had the snake mark on their foreheads. They didn't change their countenances when they saw Han Tian and Judy come personally.

Seeing the snake totem on Xiao Lie's and Jia Ni's foreheads, Han Tian and Judy understood the situation. They didn't dare to act haughty. Judy smiled gently from a distance. "Jia Ni, why are you here? Oh Grandmaster Xiao Lie, you're here too. It's really interesting."

"Judy, you're getting younger. Well, I think you've made up your mind on this," Jia Ni smiled at her and said, "You, Han Tian, and Dragon Lizard get in there. The others stay outside. There's something that the juniors shouldn't know. What do you think?"

"No problem," Judy beamed and said, "Only I, Han Tian, and Dragon Lizard will go in. The others should stay outside. No one is allowed to say a word about things in the Heavenly Eye Clan this time."

The members of the Mysterious Sky Clan following them here pulled stern faces as they seriously memorized what Judy said.

Right after that, as the warriors of the Mysterious Sky Clan and the Heavenly Eye Clan were dazed, Han Tian, Dragon Lizard, and Judy followed Xiao Lie, Jia Ni to the ravine.

Inside the ravine, Shi Yan, who had his eyes closed for a long time, opened his eyes and got up with a faint smile. "Greetings, precursor Han Tian and precursor Judy. I have something that I want to tell you. That's why I asked you to come here. Please don't mind that."

"I used to talk to your teacher. He had stayed in the Sea Domain of Nihilism for a while before returning to Desolate Territory. I couldn't believe that he was gone. However, he raised a formidable apprentice like you. Yeah, he's worthy of his reputation as Bloodthirsty," Han Tian guffawed and said straightforwardly, "You shouldn't mind my good-for-nothing junior Ling Mei. I hope it won't be a knot between us."

"It won't," Shi Yan shook his head calmly, "It has been a long time."

"Oh, how about this lady?" Judy observed Zi Yao. Hesitating for a while, she spoke with a junior etiquette, "It's our honor to meet the expert of the previous generation. I'm really glad."

Zi Yao smiled and gave her a slight nod. "You, little girl, do know how to talk sweetly."

"I know you're very interested in the Power Upanishad Symbol Tower. I won't fish in troubled waters. Yeah, if you gather enough energy or materials, I can help you refine an Original Symbol." Shi Yan was frank and direct. "Of course, I won't do it for free. I will ask you to help me with something."

When he mentioned the Original Symbol. Han Tian and Forefather Dragon Lizard's eyes brightened.

They all looked eager and waited for Shi Yan to state his conditions. Forefather Dragon Lizard said directly, "Even without the Original Symbol, I'm always willing to help you. If it wasn't for you, I would have died in Wavy River territory."

Then, he shot Zi Yao a fearful look.

"You know it's not me. You don't have to be afraid of me anymore," smiled Zi Yao.

Dragon Lizard nodded, "I understand. However, it's carved deep in my mind. When I see you, I haven't gotten used to it yet."

[God of Slaughter](#)

Chapter 1550: A New Original Symbol!

"What's are your conditions?"

Judy pulled a stern face and calmly looked at Shi Yan, waiting for his requests.

The Absolute Beginning Original Symbol was extremely important to experts at their realm!

An Original Symbol could help them see the most essence of their power Upanishad and provide them with a supernatural ability. Having an Original Symbol helped them enter a brand new realm.

Whether it was Judy or Han Tian, they had a big desire for the Original Symbol. As Shi Yan agreed to offer conditions with them, they considered it as a positive sign already.

Because Shi Yan had more choices, he could choose the White Bone Clan, the Phantom Clan, or other races.

However, they didn't have more choices. Only Shi Yan had the Power Upanishad Symbol Tower. Moreover, with his and Zi Yao's current competence, they couldn't rob them.

Thus, they had to negotiate with him.

Shi Yan gave Zi Yao a look. She smiled, nodded, and said to Judy, "The condition is to help me find the Absolute Beginning Blood Crystal and the Dark Energy Crystal. I think you know these two kinds of crystals. The Mysterious Sky Clan should have some, I assume. Or you at least know where to find them."

Listening to her, Han Tian and Judy looked surprised. It seemed like it was a hard matter for them.

They of course knew the Absolute Beginning Blood Crystal and the Dark Energy Crystal. They also knew how rare the crystals were. Judy and Han Tian had a few of them that they didn't dare to use.

The Absolute Beginning Blood Crystal and the Dark Energy Crystal had special effects on Zi Yao. They could recover her power.

Before Zi Yao got hurt, she was at the Peak of Territory Ancestor Realm. Just like Devour and Desolate, they were pretty close to the ultimate realm. However, after the tragic war in the Absolute Beginning Era, Zi Yao, Devour, and Desolate got wounded severely. They had to stay dormant to recover.

If Shi Yan hadn't disturbed her and awakened her in the chaotic space basin, she would have needed dozens of thousands of years to accumulate her energy to the level she once had that year.

The Absolute Beginning creatures needed a lot of time to absorb earth and heaven energy to recover.

This process would have taken ten to dozens of thousands of years. If the wounds were serious, it could take millions of years.

Apparently, Zi Yao couldn't wait for such a long period because Desolate was awakened. Also, Yuan Zu was still alive. Devour was using the Devouring Clan to recover himself.

If the Absolute Beginning creatures wanted to recover quickly, they had a shortcut, which was to find the Absolute Beginning Blood Crystal and the Dark Energy Crystal.

Both the Absolute Beginning Blood Crystal and the Dark Energy Crystal weren't made naturally. They were extremely rare and of course, very precious.

The Absolute Beginning Blood Crystal was actually the blood crystallization. After the Absolute Beginning creatures died and shed blood, their blood accumulated. After so many years with earth and heaven energy supplement, the crystals would be slowly produced.

The Absolute Beginning Blood Crystal was crystallized from Absolute Beginning creature's blood and a large amount of energy. It could recover the wounded Absolute Beginning creatures fast and regrow their blood and flesh.

The Dark Energy Crystal was a strange crystal created from broken soul altars of warriors at the Territory Ancestor Realm. If their soul ponds weren't destroyed after a long time, it would crystallize. The Dark Energy Crystal was used to advance the soul energy of the experts at Territory Ancestor Realm.

The Absolute Beginning Blood Crystal improved the body and the Dark Energy Crystal increased the soul energy. They were the precious and most effective treasures to help Zi Yao recover quickly.

Both of them weren't naturally made. They were really valuable to the Seven Great Clans. Han Tian and Judy had used an enormous amount force of the Mysterious Sky Clan to search and accumulate a small amount. However, they didn't dare to use them.

They wanted to use it for the new Territory Ancestors, the foundation of the Mysterious Sky Clan's future.

If Zi Yao asked for something else, they would have agreed immediately. However, to the Absolute Beginning Blood Crystal and the Dark Energy Crystal, they became hesitant.

The Original Symbol, the Absolute Beginning Blood Crystal, and the Dark Energy Crystal... the former could advance their power Upanishads and the latter could create more chances for their later generation. They had to weigh them hard to make a decision.

"I know the Mysterious Sky Clan knows many vestiges of the Absolute Beginning Era. Okay, tell me the locations. I'll go there to check myself," said Zi Yao.

Battles happened almost everywhere in the Absolute Beginning Era. Many creatures were killed. Perhaps, the Absolute Beginning Blood Crystal and the Dark Energy Crystal were somewhere. After a long time, the battlefields had drifted to other corners of the universe. Zi Yao didn't know where to find them. Perhaps, only strong forces like the Seven Great Clans could know.

"No problem. We do know a lot of Absolute Beginning vestiges. Many of them have terrifying seals and barriers that we don't dare to intrude. We can show you the way," Judy said immediately. "We will take you guys there to see."

"Not us. Only her." Shi Yan smiled, "I have something more important to do."

Pondering for a while, he said, "There's a shortcut to refine an Original Symbol. If you can find enough strong creatures for me to kill and swallow its energy, I can use the abundant energy to refine an Original Symbol. For example, after Neptune, Keith, and Labitte were killed, I made a Space Original Symbol..."

Han Tian and Judy were shaken. "Neptune and the others were killed? You killed them?"

Neptune, Keith, and Oliver were the Territory Ancestors of the Seven Clans. In each clan, they were extremely strong. As they disappeared mysteriously, the Soul Clan, the Ancient Monster Clan, the Black Demon Clan, and the Devouring Clan couldn't be safe.

Previously, Han Tian and Judy were bewildered about this. They tried to guess where the others had gone.

And now, Shi Yan just exposed the truth. They knew that the others were killed and became Shi Yan's new Original Symbol, another chance to help Shi Yan understand his power Upanishad better. How could they not be scared?

Shi Yan smiled at Zi Yao as the others were looking at him with frightened eyes. "As we've discussed, we'll part now. You go with Han Tian and Judy to find the Absolute Beginning Blood Crystal and the Dark Energy Crystal. I... am going to increase my power. Oh, right, I promised the Heavenly Eye Clan that once

I reach the Territory Ancestor Realm, I will take a member of the Heavenly Eye Clan as my disciple. I don't have enough time to do that. You help me with this. Let Xiao Lie and Jia Ni do it on behalf of me..."

He smiled and noted Zi Yao.

While talking, he urged his Space power Upanishad. The Space power Upanishad appeared like a mirror with a brilliant door. It was the supernatural ability called "Shuttle"!

Swish! Swish! Swish!

Billions of space light rays congregated in front of him and became a territory gateway. This gateway could lead to different territories, facilitating him to travel easily between big territories.

From now on, in this infinite sea of stars, the Sea Domain of Nihilicity and the major territories weren't a significant distance in his eyes.

He could create space doors and move between territories easily. He could appear in every corner of the Sea Domain of Nihilicity.

As Han Tian and Judy were watching him, he smiled and walked through the door. Finally, he disappeared from the Musing Rain territory of the Heavenly Eye Clan.

"He's not far from Second Sky of Territory Ancestor Realm. The power and aura he has just shown aren't less than a normal Second Sky of Territory Ancestor Realm." He watched Shi Yan disappear into the light gateway, his face terrified. "His realm isn't lower than Bloodthirsty that year. Perhaps, he's even stronger than Bloodthirsty in some aspects."

"Bloodthirsty?" Zi Yao sneered, "He was a fierce warrior. It's just bad that he couldn't refine an Absolute Beginning body. He was just cannon fodder in the war between Devour and Desolate. Because of the soul restriction, he could never reach Shi Yan's height."

She thought that Shi Yan today had already surpassed Bloodthirsty.

"Xiao Lie, Jia Ni, you two can choose a disciple each and teach them carefully," she asked faintly.

The strange, cyan snake on Xiao Lie's of the Heavenly Craftsmen Clan and Jia Ni of the Secret Pattern Tribe glowed. They bowed and showed their willingness.

Judy contemplated for a while and then sent a soul message to the area outside the ravine.

Outside the ravine, Tu Shi Qi and Ya Yun of the Mysterious Sky Clan were startled. Ya Yun had strange light in her eyes as she walked to Cornet. "The higher authority agrees that your Heavenly Eye Clan will become the closet race to the Mysterious Sky Clan. You will replace the position of the Fiery Phoenix Tribe. From now on, you can contact the Mysterious Sky Clan directly. Here, it's your token. You can go to the Mysterious Sky Clan's headquarters and visit the library to read the secret books about power Upanishads. You can also ask and learn from our elders."

She handed him an ancient-style token.

Cornet held the token and continuously thanked her. He was so excited that he shivered.

Yvelines and Adams understood that Han Tian and Judy must have had some agreement with Shi Yan inside that ravine. Because of Shi Yan and Zi Yao, the Mysterious Sky Clan had upgraded the Heavenly Eye Clan's echelon.

That small token meant that the Heavenly Eye Clan would become a core member of the Mysterious Sky Clan. From now on, the members of the Heavenly Eye Clan could talk directly to the Mysterious Sky Clan and visit them to learn strong power Upanishads of the Mysterious Sky Clan. They could even ask the elders to teach them. Just a moment ago, all of these favors were unimaginable to them.

The Heavenly Eye Clan would thrive with this foundation. In the next ten thousand years, the Heavenly Eye Clan would grow quickly and continuously.

"I am Xiao Lie. I'm searching for a disciple among the fellows of the Heavenly Eye Clan. On behalf of Shi Yan, I will teach that fellow to fulfill Shi Yan's promise to your clan."

"You can't cultivate my power Upanishad but I have a great enough understanding of power Upanishads to teach you guys. I will choose one disciple too. I will teach you the essence of powers," said Jia Ni.

They walked out of the ravine and stood in front of the Mysterious Sky Clan and the Heavenly Eye Clan to find a suitable apprentice.

Yvelines, Adams, and Masha were thrilled. They kneeled down and bowed towards the ravine to show their gratitude to Shi Yan.

Unfortunately, they didn't know that Shi Yan had left the ravine and disappeared from this territory.
