Chapter 1551: Sweep Away Many Clans

Soul Clan's territory in Sea Domain of Nihility.

A brilliant light door suddenly emerged above the cities of the Soul Clan. After a while, that light door materialized. A man walked out of that door.

It was Shi Yan.

The energy he got from swallowing Neptune, Keith, and Oliver wasn't enough to reach the upper limit to break through again.

However, it was enough to refine another Absolute Beginning Original Symbol.

This Original Symbol formed an archaic symbol called "Shuttle," which was a heavenly gateway in his Space power Upanishad. It was an extreme, supernatural ability, a new cognition in Space power Upanishad.

With the "Shuttle," he could use his sharp sense to grasp the locations of so many territories. He could use his space energy to link to them and create a gateway that he could use freely.

He had used this newly-achieved supernatural ability to get to the Soul Clan's base deep in the Sea Domain of Nihility from Musing Rain Territory.

His purpose was simple: slaughter to take lives and soul altars of the Soul Clan warriors to feed his soul energy and increase his God power to enter Second Sky of Territory Ancestor Realm faster.

Shi Yan had discussed with Zi Yao about the Absolute Beginning Era and the Absolute Beginning Gateway for a long time. They tacitly understood that they had to increase their power to get to the entrance of the Absolute Beginning Gateway together.

The Absolute Beginning Gateway hid the ultimate secret of the earth and heaven at their very beginning. It had the deepest imprint of the Great Path. Rumors say that the way and the direction to cultivate after the Territory Ancestor Realm was behind that door.

According to the rumors, Absolute Beginning was the last realm after Territory Ancestor Realm. At that realm, the expert would have formidable powers that could create the universe from thin air using his imagination.

Absolute Beginning creatures had slaughtered each other to reach Absolute Beginning Realm. They wanted to take their ancestor's blood, which would eventually enable them to replace Absolute Beginning's role!

Unfortunately, the Absolute Beginning Era ended and no one ever made it to that step.

The new era had created Third Sky of Territory Ancestor Realm experts like Sauron. Yuan Zu had survived to seek for the Absolute Beginning Gateway. Desolate and Devour had awakened. It became more possible to open the Absolute Beginning Gateway. Parties were accumulating power to do that.

They had to improve their power quickly. They had to reach the peak realm to counter with any fierce change that could happen in any minute.

Thus, he had to do that at all costs!

The Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan were the four strongest races in this time. When he was in the Sea Domain of Nihilicity, they had chased him around to kill him. They never wanted to leave him alone. They wanted to kill him to take the Power Upanishad Symbol Tower.

Time flew quickly. It had been one hundred years and the four great clans were still strong. However, Shi Yan wasn't a weak warrior who they could bully.

Using lives of the four races in the Sea Domain of Nihilicity could help him accumulate energy quickly. It was his priority now.

The Soul Clan was his first stop!

Hovering above the territory of the Soul Clan, he quieted down for a long moment. All of a sudden, he roared and transformed to his Absolute Beginning body, the ferocious giant whose head touched the sky.

A terrifying energy that could smash the entire world emitted instantly and shadowed the heart of each Soul Clan warriors, hovering in each corner of the sky.

The massive black holes appeared above the territory of the Soul Clan like massive demon mouths. The energy that diffused from them was earth-destroying.

Soul Control, Death, Corrosion, and Dark power Upanishad appeared as the islands hovering in the sky of the Soul Clan. The islands created by white bones fumed the shattering energy as they arrayed in the world-destroying formation. Shi Yan stood among the islands and listened to the terrified screams of the Soul Clan warriors.

He roared and howled, "Neptune pursued me for the Power Upanishad Symbol Tower. The Soul Clan wanted my head with big rewards. Today, I'm here to see who can take the head off my neck!"

"Boom!"

Countless massive asteroids fell from the void. Tens of thousands of them like seething sea bombarded the Soul Clan's territory under the Star power Upanishad's control.

"Flaming meteors!"

The co-soul used the power Upanishad's ability and the heaven flame to cast an attack. Flames moved like a flowing river of red iron and fell from the sky.

"Destructive power!"

“Curtain of Darkness!”

“Desperate heart!”

Shi Yan screamed continuously. His evil energies were like earth-shattering tornadoes that stormed towards the Soul Clan’s territory.

Masses of darkness landed and swallowed all the lights. Under the power of despair, each member of the Soul Clan was so hopeless and fearful. They had no hope.

The Soul Clan had been haughtily swaggering around the Sea Domain of Nihilism and the other territories. They never thought that one day, a brute like Shi Yan could break the protection of the Soul Clan’s territory to massacre the Soul Clan warriors!

The eight great, evil powers, Space, Star, Fire, and Life were controlled smoothly and skillfully. Members of the Soul Clan fell one after another.

However, the members of the Soul Clan below King God Realm magically survived the savage, ruthless destruction.

Quite the contrary, the high-realm warriors were targets of this genocide. Warriors at Original God Realm, Ethereal God Realm, Incipient God Realm, and Immortal Realm were attacked by evil energies in the sky. Shi Yan’s red eyes gazed at them and they fell one after another.

Anyway, the low-realm warriors stopped providing a lot of energy to Shi Yan when they died.

Only the strongest warriors could supply energy that could help Shi Yan change in nature!

At this moment, Serene Prison of the Soul Clan wasn’t here. Neptune was dead. They still had another Territory Ancestor, but he had gone to Empty Land and left no Territory Ancestor to protect the clan.

The Soul Clan didn’t have the power to counterattack. They passively endure Shi Yan’s slaughter.

The current era had a long history of millions of years. The Seven Great Clans had to accumulate for a long time to get to their current foundation and power in this sea of stars.

No one dared to massacre people in the territories of the seven clans. Never before!

Today, it was the first time in history!

Just like a bloodthirsty demon, Shi Yan landed on the Soul Clan’s territories and deployed his bloody washing to the high-echelon members of the Soul Clan and swallow them in the end.

As the low-realm warriors were screaming horribly, Shi Yan’s slaughter lasted for several hours before he disappeared strangely.

The Black Demon Clan was next, followed by the Ancient Monster Clan and Devouring Clan. Shi Yan didn’t spare these three clans. He continued his genocide.

The situations in the other three clans were the same: Their strongest experts weren’t present when they attacked. Sauron had invited them to somewhere to discuss something discreetly. They didn’t know that their races were slaughtered bloodily.

Shi Yan had visited the Black Demon Clan and the Ancient Monster Clan, and killed tens of thousands of experts at Ethereal God Realm, Incipient God Realm, and Immortal Realm. Eventually, he went to Devouring Clan. In that dark world, he had slaughtered the members of the Devouring Clan and used the Devouring power Upanishad eating up each warrior.

The Devouring Clan's headquarters had a deep sea where a secret place was hidden. Devour was cultivating there.

Shi Yan slaughtering the Devouring Clan had awakened Devour. He was very furious, indeed. Devour raised a massive abyss to cover the land. However, as soon as he came, he found flashes from a light door. Shi Yan slowly disappeared through that door.

The land of the Devouring Clan was left with countless corpses, asteroids, and countless flaming holes.

Shortly after, Shi Yan damaged the Devouring Clan and used the supernatural ability of Space power Upanishad to leave before Devour came.

Devour roared and hissed crazily. Looking at the corpses of his fellows, his anger seemed to pierce through barriers and enter the depths of Shi Yan's soul.

"Wait for me to make the next breakthrough; you will be my target."

Shi Yan's soul energy came from nowhere and hovered in the void above the Devouring Clan and in Devour's mind.

In his black hole form, Devour felt Shi Yan's soul message, which enraged him furthermore. At this moment, he found that his resentment for Shi Yan had surpassed what he had for Desolate.

A light door emerged on the land of the Phantom Clan.

Shi Yan slowly walked out and went to the Phantom Clan's holy land. He appeared from thin air above this fairyland.

Releasing the Soul Consciousness, he found Mei Ji shortly after. After a thought, he appeared by Mei Ji's palace.

"Shi Yan!" Mei Ji was so happy.

"I'm here to make you an Absolute Beginning Original Symbol. This time, I got a big harvest. When I finish absorbing them, I can try to reach Second Sky of Territory Ancestor Realm. I think I can also refine one or two Original Symbols." Shi Yan told her his purpose directly. "Is Montecie here?"

"Sauron invited her somewhere. I heard that the strongest experts of the seven clans were invited by Sauron," Mei Ji explained, her eyes bright. "You said you got a big harvest. How was it? I heard that you had a big fight with Yuan Zu in Wavy River Star Area, but I don't know the details."

"Did you know that I've just been to the Soul Clan, Black Demon Clan, Devouring Clan, and Ancient Monster Clan?" Shi Yan grinned.

"No, I haven't received any news," Mei Ji shook her head.

“I think you will be busy soon when you receive information of the bloody massacre in their homelands. Although those areas didn’t gather all the members of the four clans, there is no doubt that most of their experts cultivated there. I’ve offended them all. Later on, it will be extremely deadly,” said Shi Yan without actual concern.

Mei Ji discolored in fear. “You... You had massacred the homelands of all four clans? Gosh! Did you do that?”

She couldn’t believe it.

“What they gave me, I will repay the same!” Shi Yan’s face was cold and heartless as he spoke indifferently. “It’s almost impossible for the top warriors of the four clans to kill me. I’m sure I won’t lose even if I have to fight alone. What is there to be afraid of? After I refine the energy I got this time, I will reach Second Sky of Territory Ancestor Realm. Hmm, Serene Prison, Beverly, and Edgar can’t kill me even if they join hands!”

His confidence left Mei Ji dumbstruck; she couldn’t get a hold of herself.

Chapter 1552: The Title of God of Slaughter!

Empty Land.

Inside a majestic, old city in Empty Land, the leading experts of the Soul Clan, Devouring Clan, Black Demon Clan, and Ancient Monster Clan were gathering.

Serene Prison of Soul Clan, Edgar of Devouring Clan, Rupert of Black Demon Clan, and Beverly of Ancient Monster Clan were the four of the Ten Great Territory Ancestors. In this infinite universe, they were the peerless, famous experts. With just a stomp, they could shake an entire star area.

At this moment, they were taking their apprentices and experts in their forces to Ancient Monster Clan’s city. They were discussing the missing case of Neptune and the others.

Neptune, Keith, Labitte, and Oliver were at First Sky of Territory Ancestor Realm, the members of their clans ranked right after them.

Neptune and the others went missing after they came to Wavy River Star Area to chase after Shi Yan, Zi Yao and Yuan Zu.

After that battle, the territory barrier of Wavy River Star Area was torn. The entire territory was shaken. At the same time, they got no information about Shi Yan, Zi Yao, and Yuan Zu. Everybody was amazed and tried to guess the details of that battle.

“Sauron is about to arrive at Empty Land. He invited us to go to the Absolute Beginning Gateway. The Power Upanishad Symbol Tower in Shi Yan’s hands is the key to opening the gateway. As long as we get the Power Upanishad Symbol Tower, I’m sure we can open the Absolute Beginning Gateway.”

Beverly of the Ancient Monster Clan was still mesmerizing. However, her eyes looked very cold. “It’s unbelievable that he has the Absolute Beginning blood and refined the Absolute Beginning body. He’s tougher to deal with now. I don’t know where he’s hiding. It’s not easy to find him.”

“After a while, Montecie and Hiro will come. I’m sure that they know Shi Yan’s location. We will ask them then.” Serene Prison smiled, his face relaxed.

“Would they tell us the truth?” snorted Edgar.

“Opening the Absolute Beginning Gateway benefits everyone. Montecie and Hiro aren’t exceptions. They would at least invite Shi Yan to go with them,” replied Serene Prison with a smile. “I know that Sauron has promoted something so Shi Yan could get the Absolute Beginning body. Don’t worry. He definitely has a plan.”

Mentioning Sauron, the experts looked unnatural. Sauron was at Third Sky of Territory Ancestor Realm. With a human body, it was really thrilling to know he could cultivate to such a level. It puzzled and somehow humiliated the ones who deemed themselves as the high-echelon races.

Sauron had initiated the Absolute Beginning Gateway thing. They had just followed him passively, which made the self-important experts like them feel awkward.

Swoosh!

A water current congregated right amid the four experts. As people were so surprised, the water current slowly shaped Yuan Zu’s body. This body was somehow between real and an illusion, which was like a bubble in the water that would break when someone touched it.

Seeing Yuan Zu’s body materialize, the others screamed, “Precursor Yuan Zu?”

Precursor Yuan Zu, what happened in the battle in Wavy River Star Area?” Serene Prison pulled himself together first. He pondered and then asked, his face stern.

Yuan Zu’s clone became clearer. He wore a tender, hypocritical face and sighed, “I can’t explain briefly. I can’t believe that Shi Yan has become so brutal. He joined hands with an Absolute Beginning creature and killed almost all the experts there. Neptune, Keith, Oliver, Labitte, Xiao Lie, and Jia Na... I’m afraid they couldn’t escape death.”

He pulled a sorrowful face, “I tried my best to stop them. Unfortunately, Hui is so powerful. Shi Yan’s power had increased frantically. I don’t know why. Moreover, Forefather Dragon Lizard was with them. I couldn’t resist the three of them and protect Neptune and the others at the same time. I had to run away.”

Yuan Zu, the main character of that battle, had appeared after a long time. He had distorted the truth and made up the details of the battle.

Serene Prison, Edgar, and the others shook their heads hard, their faces disbelieving.

Neptune, Keith, Oliver, and Labitte were all experts at First Sky of Territory Ancestor Realm. Shi Yan killed them all. It had ignited aflame of anger in them in just a split second.

Those four were elite warriors, the foundation and pillars of their clans. Their deaths were a great loss to their clans, which had reduced their focus massively. Shi Yan had challenged the four clans that were the real overlords of this sea of stars.

“Precursor Yuan Zu, are you sure that they were all dead?” Rupert asked in a low-pitched realm, his eyes sparkling with brutal light. He looked like a beast that was about to lose control.

“After Shi Yan reached the Territory Ancestor Realm, he needed a lot of energy to refill his God power. With the Devouring power Upanishad, he could do it quickly. To him, only the Territory Ancestors could help him increase his energy fast. He came to Empty Land and attacked Ferrell just to accumulate energy...”

Yuan Zu scanned through the crowd. He had thrown every sin on Shi Yan. He wanted to ignite the flame of anger from the four classes on Shi Yan. He wanted to instigate the experts to kill Shi Yan at any cost.

However, he was just doing extra work.

Because shortly after, the messengers of the four clans fluttered in with news.

“Chief! Big trouble! Our Soul Clan’s homeland was massacred. Several thousand fellows were killed. They were all at Ethereal God Realm, Incipient God Realm, and Immortal Realm!” reported a Soul Clan expert who was shivering.

Hearing him, all the experts standing here discolored in fear. They couldn’t believe what they had just heard.

The Soul Clan, one of the Seven Great Clans, were hunted to the last member right on their ancestral land. Who could be so fierce and brave?

“It’s Shi Yan! He’s transformed into a savage Gian. He used the Devouring power Upanishad to create dozens of black holes and swallow our fellows!” continued the messenger.

Serene Prison, Edgar, and Beverly paled. Yuan Zu was dumbstruck too.

Yuan Zu had hidden for years in this era and covered his identity and motivation. As he had reached Third Sky of Territory Ancestor Realm, he was much stronger than he used to be in the Absolute Beginning Era. However, he didn’t dare to provoke any race among the seven races as he was afraid of creating a situation that he couldn’t handle.

Unexpectedly, Shi Yan had acted unscrupulously. He didn’t care about the consequences or effects he could create. He had slaughtered the Soul Clan.

“Serene Prison, can you stay idle and forgive him as it has gone to this?” Beverly was having fun on the other’s misfortune.

“He has touched the Soul Clan. Maybe the other clans will bear the same disaster,” reminded Yuan Zu. “I think you guys should contact your clan to defend at all cost!”

His words reminded Beverly, Edgar, and Rupert. They didn’t hesitate a lot and immediately prepared to contact their clans.

However, as they were prepping, their subordinates waiting outside screamed and ran to them.

“Chief! Someone attacked our ancestral land! So many of us were killed!”

“Chief! Many... many members of our clan were slaughtered!”

“Shi Yan had slaughtered our territories!”

“...”

The members of the Ancient Monster Clan, Devouring Clan, and Black Demon Clan screamed, shivering and stammering from the news that they just received. Beverly, Edgar, and Rupert were outraged.

They couldn't exchange information about the Absolute Beginning Gateway anymore. The four profound-realm experts left Empty Land immediately and returned to their ancestral lands at their max speed.

The news about the genocides in the four clans was disclosed. Instantly, the entire universe was exploding. All races were startled.

The Soul Clan, Ancient Monster Clan, Devouring Clan, and Black Demon Clan had been the overlords in this world for tens of thousands of years. And now, their ancestral lands were intruded and their fellows were massacred. It had never happened in their history.

Everybody recognized that this world was about to change drastically.

Shi Yan's brutal name had spread to each territory so rapidly that no one could stop it. Everybody was scared. The most malicious ones thought that they couldn't be that sinister and fierce. The warriors of small forces that used to be bullied by those four clans danced and yelled cheerily.

The entire universe was shaken because of Shi Yan's mad retaliation. Within dozens of thousands of years, the one who was brave enough to provoke the four clans had never appeared.

And now, a God of Slaughter named Shi Yan was crazily killing the members of the four clans. Rumors also said that Neptune and Keith were dead and Shi Yan's slaughter still continued...

Shi Yan's title of “God of Slaughter” came to be known in every race and among billions of creatures at the fastest speed.

His brutal name had surpassed the Ten Great Territory Ancestors. He was the bringer of change in this era who could shift the general situation of this era.

A ruin with so many asteroids in a territory belonged to the Mysterious Sky Clan. Zi Yao was moving around and searching for the Absolute Beginning Blood Crystal and the Dark Energy Crystal. After Han Tian, Judy, and Dragon Lizard had taken her here, they waited for her outside.

Including this ruin, they had taken Zi Yao to seven vestiges and ruins. They were all places that the Mysterious Sky Clan had found after dozens of years. They assumed that they were the vestiges from Absolute Beginning Era. Every time they came, Zi Yao would get in there alone and she told them nothing about her harvest.

After a short time, she would get out of the place and ask Han Tian or Judy to take her to another vestige.

This place was one of the two last vestiges that the Mysterious Sky Clan knew. Han Tian and Judy had complicated thoughts as they silently waited for Zi Yao outside.

Suddenly, Judy frowned. A strange crystal was slowly spinning in her Sea of Consciousness.

Soul messages came from the crystal and hovered in Judy's Sea of Consciousness. At first, Judy didn't notice them. Shortly after, she got scared out of her wits. She couldn't help but scream, "Gosh!"

Han Tian and Forefather Dragon Lizard turned to look at her, their countenances puzzled.

After a long time, Judy checked the divine light inside the vestige and took a deep breath, her voice trembling, "You guys can't imagine what earth-shaking things Shi Yan had done after he bid us farewell!"

"What happened?" Han Tian was surprised.

Judy took a deep breath to stabilize her emotion. "After he left, he went to the ancestral lands of the Soul Clan, Black Demon Clan, Ancient Monster Clan, and Devouring Clan. As Serene Prison, Rupert, Edgar, and Beverly are on Empty Land, he seized the chance to massacre the warriors in their homelands. Those four clans don't have a Ethereal God Realm, Incipient God Realm, or Immortal Realm in their headquarters anymore!"

As Han Tian and Forefather Dragon Lizard were dumbstruck, Judy bitterly smiled. "It's our fortune that we came to the Heavenly Eye Clan personally to become Shi Yan and Zi Yao's alliance. Otherwise, our Mysterious Sky Clan would have become one of his targets! Gosh! He almost killed all the experts the Soul Clan, Black Demon Clan, Devouring clan, and Ancient Monster Clan have nourished for tens of thousands of years."

When Han Tian and Forefather Dragon Lizard listened to Judy, they felt frozen as if there was a cold air expanding from their hearts to every cell in their bodies.

Chapter 1553: The Great Race War

The title of God of Slaughter spread out in every territory in the vast sea of stars. During this time, the experts of every race told each other about a name: Shi Yan!

The Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan turned frantic. All the surviving experts were deployed with Serene Prison, Edgar, Beverly, and Rupert to seek for Shi Yan everywhere. The four clans had joined hands. They set big rewards for anyone who could disclose Shi Yan's location. They promised to gift an entire territory as a reward!

A whole natural territory!

The sea of stars became clamorous because of this!

Everybody knew the drastic catastrophe that had happened to the Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan. Shi Yan's homicidal mania and retaliation had enraged the experts of the four clans. At this moment, the Absolute Beginning Gateway wasn't attractive to them anymore. They crossed their hearts to crush Shi Yan into powder first!

Serene Prison, Edgar, Beverly, and Rupert wanted to force Montecie and Hiro to tell them Shi Yan's whereabouts and the planet that he had brought with him.

Thus, they didn't hesitate to declare war against the Phantom Clan and the White Bone Clan! If Montecie and Hiro didn't give them an answer that satisfied them, they would attack the two clans.

For the Absolute Beginning Gateway, Sauron had gathered the leading experts of those clans to discuss, but he couldn't calm the situation.

His words couldn't ease Serene Prison and the others' wrath. Thus, they had to pause the Absolute Beginning Gateway's affair.

Seeking for Shi Yan was the most urgent priority and the fixation in Serene Prison, Edgar, Beverly, and Rupert's hearts.

At the same time, Yuan Zu continuously showed himself and stated that he was with Serene Prison and the other three. He was on the same side with the four clans. They all wanted to kill Shi Yan.

The sea of stars that had been peaceful for years now stirred up. The members of the Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan began to depart to the territories of the Phantom Clan and the White Bone Clan. They were ready to war.

Montecie and Hiro got news of the horrible loss that the four clans had to bear. As they knew the others had lost so many experts, they weren't afraid of this alliance of the four clans. They also ordered their clans to prepare for the coming war.

Among the Seven Great Clans, the Mysterious Sky Clan didn't have a move because they couldn't contact Han Tian and Judy yet.

The Mysterious Sky Clan hadn't suffered from Shi Yan's slaughter. It had become a knot in Edgar's and Beverly's mind. They guessed that Han Tian and Judy had formed a secret agreement with Shi Yan.

And that actually happened.

The entire sea of stars was boiling because of Shi Yan's frenzied slaughter. All the races were hurrying to prepare for the coming war. They wanted to seize the chance to expand the territory.

As Serene Prison and Beverly had their fire of wrath burning harder, the atmosphere in many clans was very tense. The war would burst out in any minute.

Phantom Clan.

In a secret chamber situated deep underground, Shi Yan closed his eyes and breathed steadily. The unscrupulous aura like white mist fumed from his acupuncture points and filled the secret chamber.

Mei Ji was sitting next to her.

She was naked and sitting cross-legged next to Shi Yan. Her shining, creamy body was frosting and emitting a cold air that was chilly to the bone.

After a long time, Mei Ji woke up. Her bright eyes had filled with utter joy.

Deep in her soul altar, an Original Symbol hovered above a snowflake. It was a new Original Symbol that Shi Yan had refined for her.

Creating a soul hand, she fondled the Original Symbol represented her Ice power Upanishad and felt the supernatural ability "Frost" she just got. Under the effects of her Soul Consciousness, the wall and space in this secret chamber sounded of strange cracking noises. Shortly after, the entire world, including all matters and air froze and created a whole piece of crystal ice.

It was an ultimate supernatural power carved in her Original Symbol she had just got.

Previously, Shi Yan had quietly gone to the Phantom Clan without an eye noticing. He came to find her. They had crazy moments in this secret chamber. Then, he refined the energy and stabilized the negative emotions, using the Power Upanishad Symbol Tower to refine an Ice Original Symbol.

Mei Ji so thrilled when she got the Original Symbol. With this Original Symbol and the God power given by Shi Yan, her realm had reached the bottleneck. She needed a short time to accumulate and comprehend her new supernatural ability. Afterward, she could break through to Second Sky of Territory Ancestor Realm.

She couldn't even dream of this fast progress before. But now, she got it all.

Mei Ji didn't have time to think about Shi Yan's slaughter in the four clans. At this moment, she needed to fuse the Original Symbol with her soul altar to stabilize her power Upanishad. Then, she would have time to think about the other matters.

However, at this moment, she got messages from Montecie. Montecie had called her several times asking her to get out of the secret chamber.

With passion in her eyes, she beheld Shi Yan. She understood that he had harvested an enormous amount of energy and that he had just spent a small proportion on refining her an Original Symbol.

She knew that he needed more time to absorb all the energy. She believed that when he woke up, he would reach an unimaginable level.

Mei Ji stood up and looked at the ambiguous bruises and marks on her body embarrassedly. She put on proper clothes.

After a flash, she disappeared from the chamber and reappeared in the meeting hall that the Phantom Clan often used to discuss important matters.

As soon as she walked out, her face changed immediately. "What happened?"

There were many faces that she didn't often meet. They were the owners of different territories or the chiefs of clans dependent on the Phantom Clan. There weren't many times when they came to the headquarters of the Phantom Clan in hundreds or even thousands of years. Today, they all gathered and wore stern faces. Montecie, Cantecie, and Fan De Lei were also present. All of them looked solemn. Seeing her, Montecie sighed in relief and said, "You took a long cultivating session this time. Anyway, you got out on time, right before the war."

“War?” Mei Ji was puzzled, “What war?”

“The Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan want to declare war against the White Bone Clan and our Phantom Clan. Previously, we wouldn’t dare to fight against them. But today, it’s a good opportunity!” Montecie sneered, “Shi Yan had seized the chance when the leading experts of the four clans were away to massacre their lands. They had to bear a severe loss this time. The power of a single clan can’t be our enemy. Since Dracula and his wife are back, the White Bone Clan is more powerful, anyway. Our two clans can join hands. Our combined force can resist the other four clans.”

“Why is that?” Mei Ji didn’t understand the situation yet.

“They want us to hand over Shi Yan. They demand to know the coordinates of Cloud Mist Territory. They want to kill Shi Yan at any cost and destroy Cloud Mist Territory to avenge their fellows who Shi Yan killed.” Montecie wore a cold face. “Let alone the fact that I don’t know where Shi Yan is, even if I did know, I wouldn’t tell them. This war is interesting to me. It’s good to fight. Perhaps, after this war, the Phantom Clan will become the strongest leading clan in this entire sea of stars!”

“I had a premonition that both sides will have to bear losses in this war. I don’t agree with you,” said a beautiful, slim girl standing by Montecie. She frowned and continued in a gloomy voice, “We shouldn’t declare war against the four clans because of Shi Yan. It will decrease the power of our own clan and the four clans altogether. We’d better tell them Cloud Mist Territory’s location. Just let them battle against each other.”

She was Cantecie, another Second Sky of Territory Ancestor Realm, Montecie’s blood sister. In the Phantom Clan, she had a position as high as Montecie.

“I’m not jealous that Shi Yan had taken Cloud Mist Territory. However, I also think that we shouldn’t join this battle this early,” said Fan De Lei by Cantecie, his face sincere. “Once it starts, it will be hard to end it. If the seven clans are going to decline because of this battle, it will be good for no one.”

Pausing for a while, Fan De Lei looked at his fellows and those who were dependent on his clan, and said seriously, “It’s related to every clan. I think all of us here have the right to decide. We can use the number of territories as the number of votes. Let’s vote to see if we should fight or not. If more vote for no war, we will give up on the aliens in Cloud Mist Territory. I think the Soul Clan and the others only want Shi Yan’s fellows. They won’t attack Cloud Mist Territory itself.”

He, of course, chose Cantecie’s side. Everybody knew that he hated Shi Yan for shooving him out of Cloud Mist Territory and taking Skyfall Star River, which he thought should belong to him. However, he said the truth.

The owners of the other territories and the leaders of the dependent forces agreed with Fan De Lei’s suggestion. They wanted to vote to decide this. Montecie was filled with anger in this boisterous crowd. She had agreed with Hiro to join hands with them and fight against the four clans. If those people didn’t want to do that, she would lose her face as she had gone back on her words.

At this moment, she envied Hiro. The members of the White Bone Clan were always united. They didn’t take sides in discussing matters like this. After they made an agreement, the entire White Bone Clan had begun to prepare for the coming war.

And her Phantom Clan was still discussing noisily if they wanted to fight or not.

As the great army of the four clans was approaching, if they didn't prepare anything, they would fall into a passive situation.

"Shi Yan is here," Mei Ji suddenly said and pointed at the ground. "He's refining his energy in my secret chamber. Moreover, I got an Original Symbol from him. I'm not far away from Second Sky of Territory Ancestor Realm anymore. I have only one question. If you betray him, the Phantom Clan will become the next target. Our homeland will be trampled. Have you ever considered this consequence?"

Her words had shaken all the members of the Phantom Clan. The chiefs of the dependent clans couldn't help but look at the ground, their faces filled with deep fear. In this short period, Shi Yan's brutal name had spread far and wide. The God of Slaughter had terrified all races.

He dared to massacre the Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan to the last member. What else could he do in this world?

[God of Slaughter](#)

Chapter 1554: Zhen Ru

Mei Ji's words silenced all the warriors in the hall. The atmosphere was so quiet that they could even hear the clinking sound of a needle falling on the ground.

Those people came from different territories. Many of them were leading experts that controlled an entire area or dependent clans. They had power.

More or less, they got the news. They knew the reasons why the sea of stars boiled up and the wrath of the Soul Clan, Devouring Clan, Ancient Monster Clan, and Black Demon Clan.

Just like what Mei Ji had said, Shi Yan had slaughtered the ancestral lands of the four clans. What else did he dare not to do?

Montecie was pleased with the subduing effects provided by Shi Yan's title of God of Slaughter. She smiled and then nodded to Mei Ji. After that, she glanced at her sister Cantecie.

Cantecie wore a cold face. Her eyes didn't convey any significant emotion. Similarly, Fan De Lei didn't utter a word.

"I suggest that we prepare for the war while waiting for Shi Yan to wake up," said Montecie after a while. Her eyes with divine light raked through the crowd as she spoke calmly, "The four clans are all damaged badly. Shi Yan is their main target. We just need to say that we don't know anything. If they still want a battle, we aren't wrong in that case. Fighting isn't a big deal. Are we afraid of them?"

The group that had tilted on Fan De Lei and Cantecie now recognized that Shi Yan was the final villain.

They were frightened instantly as they were afraid that they would have to face Shi Yan's bloody revenge.

They weren't as strong as the four clans. They couldn't resist one wave of attack from Shi Yan. Perhaps, their entire race was going to go extinct because of Shi Yan's rage.

Thus, after weighing the pros and cons, they agreed with Montecie's plan.

—They were going to prepare for the war and observe the situation while waiting for Shi Yan to wake up.

They decided that way.

Inside Montecie's palace, her eyes were so bright as she asked excitedly, "Show me! Hurry!"

Mei Ji nodded and urged her soul energy. Right after that, her soul altar slowly emerged above her head. What Mei Ji cultivated was Ice power Upanishad, which made her soul altar spacial-looking. It was like a crystal glacier in a snowstorm.

A snowflake that represented her power Upanishad hovered in her soul altar. Above the snowflake was an Original Symbol with a vague cold air twirling around it, which had Mei Ji's Soul Consciousness. It was uncontrollably releasing magical power of Ice power Upanishad.

Feeling the cold energy and seeing all things in her palace get frozen, Montecie's eyes brightened and gave compliments. "What an excellent Original Symbol! An Original Symbol represents a supernatural ability. It seems like your Ice power Upanishad will become more condensed and profound."

"I didn't expect him to refine me an Original Symbol that fast," Mei Ji sounded embarrassed.

"Haha," Montecie had a good mood. "That kid has created a genocide in the four clans. He killed so many members of the four clans. Of course, he harvested an enormous amount of energy. I guessed he would change greatly, but I couldn't think that he was right in our Phantom Clan. It seems that Serene Prison's team has laid their eyes on me. It's their luck then."

"Grannie, do you really want to fight against the four clans?" Mei Ji's face turned serious.

It was true that Shi Yan's maniac massacre had damaged the four clans greatly. Many experts based on their homelands had lost their lives.

No matter what, they were the strong clans with their names known everywhere for tens of thousands of years. Their deep foundation couldn't be estimated. The Phantom Clan was slightly weaker than the other four clans.

Mei Ji understood that even if the Phantom Clan was attacked, despite their losses, their roots wouldn't be affected.

Because the combined forces from the big territories and the dependent clans was much stronger than the force guarding their headquarters.

Similarly, the Soul Clan, Devouring Clan, Black Demon Clan, and Ancient Monster Clan still had many experts living in other territories and important locations. They were loyal forces of the four clans. If they joined this war, they would become a heavy pressure toward the Phantom Clan and the White Bone Clan.

Montecie wasn't actually as calm as she showed. She understood that once the war burst out, both sides would have to bear significant losses, just like Cantecie and Fan De Lei had predicted.

"Did you think that only we would be worried and Serene Prison, Edgar, Beverly, and Rupert wouldn't be? Haha, you have to know that the Mysterious Sky Clan, the most cunning clan among the seven clans, hasn't picked their side yet. Moreover, this time, Shi Yan had spared the White Bone Clan, our Phantom Clan, and even the Mysterious Sky Clan. Do you know what that means?" Montecie's petite face was smiling, her eyes bright with wisdom.

Mei Ji's soft body slightly quivered. "You mean..."

"I'm sure that the Mysterious Sky Clan has a secret agreement with Shi Yan!" Montecie said affirmatively. "The Mysterious Sky Clan is stronger than us. If we join the White Bone Clan and the Mysterious Sky Clan, can you guess which side will have a greater chance to win?"

Mei Ji smiled charmingly. Her graceful body swayed like a flower in the breeze.

"When Shi Yan wakes up, we can contact the Mysterious Sky Clan through him. We will sign a secret treaty with them. When that happens, I wish the four clans will attack us. It's also a chance to change the situation of this sea of stars. I'm looking for it, though." Montecie squinted, her face eager.

"However, you have to keep an eye on Cantecie and Fan De Lei. You have to protect Shi Yan. I'm afraid that these two are having some conspiracy."

"They dare?" Mei Ji was surprised.

"I found Cantecie and Fan De Lei have a discreet connection with the members of the four clans. I hope they know the limit. Otherwise, hmm!" Montecie pulled a cold face, her eyes emitting murderous aura.

In another hidden land inside the Phantom Clan where Cantecie cultivated, Cantecie, Fan De Lei, and their subordinates gathered and discussed the matters that happened in the meeting hall today.

Fan De Lei's handsome face looked glum and discontented. "I don't know why she has to stick to that Shi Yan. Is it because he has the Power Upanishad Symbol Tower? If we join hands and kill him when he's cultivating, we will get the Power Upanishad Symbol Tower. Isn't that better for us?"

"It's not that simple," Cantecie shook her head and said calmly, "You've fought with Shi Yan. You know how tough he is. He's mastered the Space power Upanishad. It's not easy to kill him."

"Then what should we do? Do we have to follow them?" Fan De Lei sounded reluctant.

"I'm still thinking," Cantecie frowned.

However, at this moment, a found-faced warrior standing by them suddenly guffawed strangely.

This fat warrior had many dreadlocks. With a closer look, those dreadlocks were actually finger-sized, green tentacles. They were dangling and moving peculiarly.

He was a member of the Heavenly Ox Tribe, a small tribe dependent on the Phantom Clan. Fan De Lei had conquered this tribe. Thus, they were under his command. After they left the meeting hall, he had followed Cantecie and Fan De Lei to this place. Listening to their discussion, he suddenly acted strangely.

As he was still laughing bizarrely, the fat man's body twisted as he was transfiguring. In less than one minute, he had become a graceful young girl around twenty years old. She wore a simple silver dress. Her aura, soul altar, and God power had changed as her appearance changed.

"Who are you?" Cantecie looked bewildered for the first time.

The aura on this girl gave her a dangerous feeling. The pressure in her soul told her that this girl wasn't normal.

"You don't know me, but your sister Montecie does. I killed this fatty of the Heavenly Ox Tribe and disguised as him to attend your Phantom Clan's meeting. I know your plan and what you and Fan De Lei are talking about." The graceful girl smiled and calmly looked at Cantecie. "I'm interested in your plan. I think we can cooperate. Find a chance to lure Mei Ji away; I will use Mei Ji's appearance to deal with Shi Yan."

Then, the girl transfigured again and turned into Mei Ji's appearance. Her makings, aura, body, and even the soul energy fluctuations matched. There was almost no flaw.

If Cantecie and Fan De Lei didn't see her transfiguration with their own eyes, they would have thought that she was Mei Ji; they couldn't differentiate between them.

"Excellent!" Cantecie's eyes sparkled strangely. She searched her memories. In the next second, she discolored in fear. "Zhen Ru! Zhen Ru of Myriad Shape Tribe, one of the Ten Great Territory Ancestors! It's you!"

Myriad Shape Tribe was just a weak tribe in this sea of stars. Members of this tribe could transfigure into any shape. The higher their realm was, the more magical their transfiguration could be. They could become any member of any race, with an identical body, soul, and aura.

This tribe wasn't really eye-catching. However, as soon as Zhen Ru appeared, she had made the reputation of the tribe known everywhere.

Although Zhen Ru was just like other members of Myriad Shape Tribe, her innate talents in using the supernatural power of the tribe to an amazing level helped her gain a lot of benefits. She had reached Territory Ancestor Realm. Eventually, together with Sauron and Yuan Zu, she had become one of the Ten Great Territory Ancestors who didn't come from the Seven Great Clans.

"If you know who I am, are you more confident?" Zhen Ru giggled in Mei Ji's shape. Her charming and sexy makings were identical to Mei Ji. The others couldn't spot the differences. "I know Fan De Lei is interested in Skyfall Star River and you want the Power Upanishad Symbol Tower. I can leave them to you as long as you help me."

Fan De Lei and Cantecie were moved.

"What do you want?" Cantecie sounded as calm as usual. She didn't show that she was convinced. "You wouldn't come here for nothing, would you? What do you want from Shi Yan?"

"Besides the Power Upanishad Symbol Tower and Skyfall Star River, everything else on Shi Yan will belong to me," Zhen Ru smiled beautifully. "Anyway, you just need to know that I'll bring you hope. This

is the Phantom Clan, your lair. If you help me with your best, my plan will succeed one hundred percent of the time. What do you think?"

Fan De Lei and Cantecie exchanged looks. They kept silent for a long time. After that, Cantecie said, "We need to discuss the details first. Yeah, we should talk more."

Shen Ru's smile became brighter when she heard that. She knew her business would succeed soon.

God of Slaughter

Chapter 1555: Ambush

In the cold, secret chamber, Mei Ji was restless but she didn't know why. She vaguely felt an invisible danger awaiting her.

It was her premonition.

She looked at Shi Yan who was sitting on an ice rock. Her exquisite brows furrowed, her face worried.

This time, it took Shi Yan a long time to refine the energy. Perhaps it was because he had taken in so many experts. The situation was getting worse and she had disclosed Shi Yan's whereabouts in the secret meeting of the Phantom Clan...

Pondering, she regretted that she had disclosed his whereabouts.

She was afraid of the external members, the chiefs of the clans dependent on the Phantom Clan. They might reveal Shi Yan's location.

If so, the experts like Serene Prison, Edgar, Beverly, and Rupert would come to the headquarters of the Phantom Clan with all of their forces. Destroying Shi Yan was their priority.

Jingle! Jingle!

The rushing bell jingling came from a rhombus crystal on her creamy neck. This crystal connected directly to the magical information crystal of the Phantom Clan's information center.

Her beautiful eyes looked discontent. She cursed something under her breath and then used her Soul Consciousness to connect to the Sound Stone.

A soul message bloomed in her head. Mei Ji's exquisite face turned serious. She hurried to set up layers of barriers and left the chamber.

She came to a strange room tiled with crystals. Looking at around a dozen beautiful girls moving between the crystals, her cold voice arose, "What happened? Didn't I ask you to report to Grannie directly if you got some problem? Why do you have to disturb me?"

"Grannie left several days ago. She went to an asteroid field to discuss with Hiro of the White Bone Clan," said a young girl, bowing slightly. "You also ordered us to report to you first if it's related to Cloud Mist Territory."

As Mei Ji heard that Montecie wasn't here, she didn't sound harsh anymore, "What happened?"

“The information about Cloud Mist Territory is disclosed. Many people know that Shi Yan and his family, friends are living in Cloud Mist Territory. And now, the warriors of the four clans have departed to Cloud Mist Territory. We’re worried that the territory will fall. Thus, we reported to you for a solution,” said the girl while shivering.

Mei Ji’s face turned cold. “Not many people know Shi Yan’s family stays in Cloud Mist Territory. It must be someone among us! Investigate! We must figure out who!”

“We also thought that it was from someone among us,” the girl shook like a leaf and lowered her voice. “I’m sure that there is a traitor. Otherwise, the information wouldn’t have spread out so quickly! Only our Phantom Clan has the capacity to send information to every corner of the universe shortly.”

Hearing her, Mei Ji was more outraged. She guessed that this could relate to Cantecie and Fan De Lei. She knew that it was the trap they had plotted against Shi Yan.

She had to solve this urgent matter!

At the same time, Zhen Ru in Mei Ji’s disguise quietly sneaked into Mei Ji’s secret chamber. Her bearings, aura, and soul energy fluctuation weren’t different from Mei Ji. Cantecie couldn’t distinguish her, either.

As the most excellent expert of Myriad Shape Tribe, Zhen Ru had cultivated the innate supernatural ability of her clan to an utterly high level. She could change her appearance into any creature with one flicker of her thoughts.

Mei Ji’s chamber was built right under her palace with icy layers of barriers. Once someone intruded, Mei Ji could feel it immediately.

Thus, Mei Ji could leave her room to go to the information center without too much concern.

She was confident that even Cantecie and Montecie couldn’t sneak through her sensitivity to break the barrier quietly to intrude Shi Yan’s chamber.

Unfortunately, it was Zhen Ru, the grandmaster of the disguising technique in this world.

Layers of icy barriers shone in cold lights. There were dozens of them. As soon as some other energy touched them, it would activate Mei Ji’s Soul Consciousness, which would alert Mei Ji shortly.

Zhen Ru in Mei Ji’s shape landed on the first icy barrier. A strange suction force came out from her body and absorbed the energy on the barrier. Right after, Zhen Ru’s body turned transparent like the barrier as she got the matched aura with the barrier.

It was like Zhen Ru became a barrier of this group or became a part of the barrier.

After turning into a crystal layer of ice, she landed on the barrier and slowly blended with it.

After a while, Zhen Ru disappeared. A light dot in the icy barrier slowly lowered and seeped through many layers...

It didn’t activate the barriers or touch Mei Ji’s Soul Consciousness. Of course, it didn’t alarm Mei Ji.

Using the same method, Zhen Ru turned into a light dot and seeped through each barrier until she reached the bottom.

So many icy dots congregated and turned into Mei Ji's shape.

She smiled and used her similar appearance and aura. Slowly, she moved gracefully towards the center of the chamber. Her charming eyes gazed at Shi Yan naturally.

"I'm back. They had a little trouble outside I had to solve." She smiled and talked to herself, "You've spent a lot of time to refine energy this time. The world out there is about to explode. The leaders of the four clans are aiming at the Phantom Clan and the White Bone Clan..."

She briefed the situation of the galaxy and then came to Shi Yan. Observing him for a while, she mumbled, "I hope you wake up soon."

Then, she stroked his cheeks and fondled the stubble on his face, her face passionate.

Even if Mei Ji was here herself, she would think that she was watching herself in the mirror. Zhen Ru's acting was simply superb. Her soul energy and her icy aura completely matched with Mei Ji.

Shi Yan sank into his energy refining process. As he smelled a familiar aura and coldness, he wasn't skeptical at all. He thought that it was Mei Ji.

"You rascal..."

Zhen Ru stooped and groaned as if she was aroused. Her ivory hands slowly slid downward towards Shi Yan's chest.

Strange light dots from her slim, pointy fingertips seeped into Shi Yan's skin. Those light dots were so tiny that the soul couldn't recognize it. Shi Yan was concentrating on refining the energy. He just felt a light chill on his skin, so he didn't mind it.

Zhen Ru mumbled, her hands wandering around Shi Yan's hunky torso and her eyes twinkling. Slowly, she stopped caressing him and sat right in front of him.

She just watched Shi Yan like that.

Time flew hurriedly.

After a while, Shi Yan's body shook abruptly as if he was enduring pain.

"Chirp! Chirp! Chirp!"

Small insects singing arose from his body. He could feel some tiny creatures slowly nibbling his flesh and blood. Those tiny creatures were also reproducing quickly in his veins and bones. Their tiny bodies slowly enlarged.

Waves of pain came from his entire body. He immediately recognized the danger.

Opening his eyes, Shi Yan was baffled as he looked at Mei Ji smiling in front of him. "Why? Why did you ambush me?"

“Because you’re such a lady’s man. I got the news that you have a fierce girlfriend called Zi Yao. That woman is an Absolute Beginning creature, right?” Zhen Ru used Mei Ji’s tone to talk. “Do you feel enough with her? Did you spare a spot in your heart for me? The worms I sent to your body could keep you on myself. You belong to me! Only me!”

“What the heck are you doing? Are you crazy?” Shi Yan’s face darkened. “My cultivation is at the critical moment! Do you want to kill me?”

He hadn’t recognized anything abnormal. He thought that she was actually Mei Ji.

The supernatural ability of the Myriad Shape Tribe was urged to the most exquisite level in Zhen Ru’s hands. Rumors weren’t wrong when they said that she could deceive even the most intimate partner.

Shi Yan couldn’t find anything different from the soul, aura, and her energy. Zhen Ru’s innate power was really superb.

Not many people knew that Zhen Ru’s power was so magical that she could even copy the other’s soul altar, power Upanishad, and even the Soul seal!

“I want to see Power Upanishad Symbol Tower and Skyfall Star River. Can you show me?” Zhen Ru suddenly begged softly. “Those little worms are just a little prank. They will disappear shortly after. I just wanted to use them to wake you up and tell you the current situation. There’s something you need to know. People know your family and friends are living in Cloud Mist Territory. I’m worried...”

Magically, Shi Yan exhaled in relief as he thought that it was just a harmless prank. She just wanted to tell him the situation in Cloud Mist Territory. Waving his hands, he didn’t mind it. “You don’t need to worry about Cloud Mist Territory. Even if the four clans know the location, they can’t intrude.”

“Why?” Zhen Ru was surprised.

“Before I came here, I’d used the space energy to seal the entrance of Cloud Mist Territory. I’d also distorted its location too. Unless they have an expert cultivating Space power Upanishad at the same level, it won’t be simple to locate Cloud Mist Territory in this vast sea of stars.” Shi Yan was calm and at ease.

Before he came here, he had calculated everything. He knew that the four clans would come to take mad revenge. He had arranged everything.

As Zhen Ru was so surprised and skeptical, he gave a faint smile. “About Power Upanishad Symbol Tower and Skyfall Star River, if you want to see, I can show you. It’s not a big deal, is it?”

Then, he was about to urge his energy to take out Power Upanishad Symbol Tower and Skyfall Star River.

However, as soon as he wanted to take action, his face changed and screamed. “No! Those worms aren’t as simple as you said! AARRGGGHH!”

He couldn’t help but roar as if he had to endure unimaginable pain. His flesh and blood were nibbled and swallowed.

“Hmm!” Zhen Ru looked content. She shook her head disdainfully and sneered, “I thought you were bold. Is that all you got? I trapped you easily. Not interesting at all.”

God of Slaughter

Chapter 1556: Drink Blood and Eat Flesh

Mei Ji’s exquisite face could turn creatures crazy changed as she was laughing coldly.

Her white, water-like skin rippled. After a while, her appearance returned to Zhen Ru’s real shape.

Zhen Ru had slim brows and an elegant face. However, she wasn’t as charming as Mei Ji despite her extremely beautiful slim body. She was wearing a moonlight’s dress. Her whole appearance was like a serene white lotus that made her bearings completely different from Mei Ji.

Her narrow, long eyes had a cold disdain. “They rumored that you could resist Yuan Zu, which made me shiver in fear. I’ve spent a lot of efforts, but it turned out worse. You know that you didn’t even have any defense. You disappointed me.”

Her willowy body sat quietly in front of Shi Yan, her face confident and ease.

Shi Yan looked savage as his stocky body cracked strangely and showed his muscle fibers and veins, which looked so horrible.

So many gold light dots emerged from his blood and flesh with ear-piercing screeching.

“Pure Gold Spirit Ants! They are Pure Gold Spirit Ants!”

“Shi Yan panted, his face dark. He didn’t mind his torn skin and muscles and screamed, “Who is this despicable slut? Did I sleep with you or did I kill your entire family? Why did you have to use the Pure Gold Spirit Ants to ambush me? Are you so slutty that you want me to rape you?”

“Bastard! Shut up!”

Zhen Ru couldn’t stand his insults. She shouted and then placed a white finger on his glabella. A silver steel needle emerged from her fingertip, which had some fine patterns. However, it wiggled like a worm that made people numb.

A pungent smell fumed from the silver steel needles. Shi Yan felt a twinge in his brain. The soul pond in his soul altar was polluted immediately. He was shaken as he found it hard to urge his power Upanishad.

“My Pure Gold Spirit Ants are mutant after several generations. They are tougher than their ancestors in the Absolute Beginning Era. You shouldn’t dream about using your Devouring power Upanishad to eat them!” Zhen Ru was haughty. “Before I came here, I’d discussed with Edgar. We let the expert of the Devouring Clan attack the ants. I’m certain about the effects already. My Pure Gold Spirit Ants have been mutant for many generations,; the Devouring and Corrosion power Upanishads can do no harm to them. If you don’t believe me, you can try.”

While talking, the silver needle pierced through Shi Yan’s glabella.

Billions of silver electric currents bloomed in Shi Yan's brain and turned into arm-sized worms that fell into his Sea of Consciousness.

Those worms swarmed Shi Yan's Sea of Consciousness and released dirty things that made his Sea of Consciousness a muddy puddle. His soul pond got polluted slowly. All kind of power Upanishads were stagnant because of pollution.

Checking his body, he found that the Pure Gold Spirit Ants abnormal. This sort of ant was much bigger and they had fangs and horns. It seemed like they were a crossbreed between ants and some monstrous insects.

He urged Devouring power Upanishad but then, he found that after the Pure Gold Spirit Ants got into his blood, they got his blood aura so the Devouring power Upanishad ignored them.

If he used the Corrosion power Upanishad, unless he eroded his own body, he couldn't do anything to the ants.

He felt insecure!

Since he had come to this world, he had faced so many deadly situations. But this time was the toughest!

His God body and soul altar were attacked at the same time. After each minute, his power became more stagnant. If it continued this way, he would lose his resistance and the others could do anything to him.

"What do you want?" He tried to cut off the worried thoughts in his head as fast as he could. Trying to stay sober, he said with a dark countenance. "You want Power Upanishad Symbol Tower and Skyfall Star River? How did you know I'm here?"

"What do I want?" Zhen Ru licked the corners of her mouth. Her swift tongue glided between her lips, her face mesmerizing. However, her words were striking, "I want you. I want your blood and your bones! I think your blood will taste good. Perhaps it could help me unchain the restraint of Myriad Shape Tribe. It could transform this body of mine to another height."

"Drink my blood? Eat my flesh?" Shi Yan paled. He discreetly urged his power to stabilize his body and the soul while trying to talk nonsense to seize more time to break this situation. "Isn't Yuan Zu a better option? He's a real Absolute Beginning creature. If you can eat him and drink his blood, wouldn't it be easier to evolve?"

"I wanted to do that. However, Yuan Zu isn't easy to deal with. It's not easy to find him, either. Thus, I have to choose the second option. You will be my chance to break through again. Well, you shouldn't waste your breath. At your realm, you can't resist me. Even your incomplete Absolute Beginning body can't resist me!"

Zhen Ru looked disdainful. Apparently, she thought Shi Yan was easier to deal with. Also, what the rumor said about him was really bragging. At this moment, she evaluated that Shi Yan was far behind the experts of the previous generations like Yuan Zu.

Thus, as the world was shaking, she used the supernatural power of Myriad Shape Tribe to aim at Shi Yan.

“What are you waiting for?” Shi Yan sneered.

“I’m waiting for my little babies to control your body and Sea of Consciousness entirely. Then, I will eat you and drink your blood.” Zhen Ru squinted. An icy light shot out from her narrow eyes. She looked like a hungry wolf that was drooling for a delicious meal.

Shi Yan stayed silent. He closed his eyes and felt the Pure Gold Spirit Ants nibbling his body like silkworms eating mulberry leaves. As his soul altar, Sea of Consciousness, and the soul pond were polluted, his power Upanishads and supernatural abilities were stagnant.

He had tried many times to use the eight evil power Upanishads, the Life, Star, and even the flame power Upanishads to eliminate the aliens in his body, his soul.

Soon, he found that his power was ineffective to the Pure Gold Spirit Ants and the little worms in his soul.

These two species had the supernatural powers of Myriad Shape Tribe. Their aura and life energy matched with Shi Yan’s aura and soul energy fluctuation!

It was unbelievable!

For the time being, Shi Yan’s hands were tied.

Zhen Ru coldly watched him, but she didn’t do anything. She wanted to see if Shi Yan could resist the two terrifying alien creatures.

After several minutes, Shi Yan made his first decision!

Crack! Crack! Crack!

Strange cracking noises echoed around the icy chamber. Waves of space energy rippled. This was followed by the space in this room getting sealed.

Without a positive solution, Shi Yan sealed himself first and used the most powerful space seal technique to lock himself.

The halos reflected illusions of different spaces and emerged in front of Shi Yan. At first glance, it looked like Shi Yan had so many mirrors installed around him, which created a lot of images of him.

The seal covered the entire space: the large scale and Shi Yan himself, and the small scale. Zhen Ru recognized what he wanted to do.

He couldn’t use Time power Upanishad to stop the soul altar, so he had to stop the danger in his body first. The Space Seal could seal all matters including his own body!

“Once your soul altar is occupied, the Space Seal will be broken without any effort needed. I want to see it...” Zhen Ru mumbled.

As he used Space to seal the body, if she wanted to break the seal, she had to detonate the space barriers, which was going to be really loud. It would alert the members of the Phantom Clan and Montecie, and make her return as fast as possible.

She was always afraid of Montecie. She knew the power of Time. This time, she seized the chance when Montecie was away. She didn't want to fight Montecie.

She believed that the invisible creatures she had put in Shi Yan's brain could reproduce quickly and occupy his Sea of Consciousness and the soul pond. She wanted to control his soul altar first.

After the soul altar was fallen, Shi Yan's body was just a puppet without any ability to threaten her.

That's why she wasn't hurried.

Deep inside Shi Yan's head, just like Zhen Ru had guessed, so many worms were reproducing massively in his Sea of Consciousness. Through attacking his Sea of Consciousness, the worms ate his Soul Consciousness to grow further. They were about to launch their last attack to Shi Yan's soul altar.

The Sea of Consciousness and the soul pond were the foundation of the soul altar, similar to how the God power Ancient Tree was the source of energy for the body.

They were also the energy source to urge the power Upanishads in his soul altar. They kept him sober to develop the Territory. Once the Sea of Consciousness and soul pond fell, the warrior's soul altar was taken: His body would be controlled and his Soul Seal would be erased!

Shi Yan understood that the battle was taking place right in his Sea of Consciousness and the soul pond. He had to destroy or refine those reproducing creatures to have a chance to live!

As he was still mindful, he urged the soul power and tore a hole on his Territory above the soul altar.

In the brilliant galaxy-like territory, so many black holes were spinning to refine the energy taken in from his bloody massacre. His Territory was much more magical than others' Territories. It could connect acupuncture points. The energy in the acupuncture points wasn't refined yet, but he forced it to pour into the Territory.

That territory was like a whole new world that expanded as it received more energy!

The expanding territory had energy and more life stars. As his soul flickered and his power Upanishads were urged, the life stars had magnificent changes. They began to have mountains, rivers, cold glacier, lands of fire, lush forest, and isolated deserts...

The natural landscapes in different life stars were corresponding to many power Upanishads he cultivated.

However, they didn't have any creature...

The worms that were nibbling his Sea of Consciousness and soul pond jumped in joy when they saw the hole. Just like flies that smelled something stinky, they began to move to his territory.

Zhen Ru's eyes brightened as she thought that this battle would end quickly.

Chapter 1557: Desperate Straits!

Phantom Clan's Information Control Center.

It was a place with countless crystals inlaid on the walls of a spacious palace. The crystals were glowing in bright lights with sizzling electricity. They were used to receiving and transferring breaking news.

Those crystals connected to different lands and territories. From here, they could send a message to any location in the fastest way.

There were so many races in this vast sea of stars but only the Phantom Clan had the capacity to gather, sort, and distribute the information magically like that.

In the past tens of thousands of years, the Phantom Clan earned big profits only from selling information and intelligence.

Mei Ji wore a serious face and stood in front of a massive broken crystal. She directed all the searches about the Cloud Mist Territory in the sea of information.

Around a dozen young girls were moving around. All of them looked very busy.

Crack! Crack!

The closed bronze doors sprang open. Right when Mei Ji changed her face, many shadows appeared in the control center.

Cantecie led this team. Fan De Lei was her assistant. They took several handsome men of the Phantom Clan and blocked the entrance of the room. As Mei Ji and the others were baffled, those men at the Immortal Realm abruptly attacked and subdued all the young girls by Mei Ji.

The attackers were all at the Immortal Realm and they were strong men among the male population of the Phantom Clan. Most of the girls in this room didn't have high realms. They were controlled easily.

"Wanton! Do you want to betray your clan?"

Mei Ji hissed. An icy block of light boomed and turned into thousands of icicles moving around the room. They were deadly weapons attacking the ones who had the guts to attack the control center.

So many icicles turned into pure white starlight. The temperature in this room dropped fast. All the crystals were frosted.

Except for Fan De Lei and Cantecie, the hair of the other warriors in this room was frosted, their bodies frozen. Mei Ji was outraged, her powers freezing the entire place.

Crack! Crack! Crack!

The cracking sounds from broken bones rose goosebumps on people's skin. The Phantom Clan men by Cantecie and Fan De Lei were chilled. They couldn't even stand firm.

Cantecie's eyes were like sharp blades. She shouted, "Wanton! You dare to attack me. You don't respect your senior!"

Swoosh! Swoosh! Swoosh!

Horrible wind howled from her slender body like furious tornadoes. Slowly, gray tornadoes emerged in her pupils.

Mei Ji changed her visage. When she saw Cantecie, she knew that this woman was about to attack her. "Our enemies are watching us like a tiger watching its prey. Why do you want to instigate a civil war? You don't want to keep our clan peaceful?"

"It's not me who rose the civil war. It's my good sister! And you, Mei Ji!" Cantecie raised her hand. A tornado emerged from her palm and released a power that could tear the world. That tornado aimed at Mei Ji and grabbed her like a heavenly hand. "It's you who intruded Cloud Mist Territory and attacked Fan De Lei. Moreover, I'm doing good things for the Phantom Clan. I won't let my sister's ambition drive the Phantom Clan to an endless war!"

She sneered, "As long as we control Shi Yan, the coming war between the seven clans will be solved easily. Our clan will be safe. We don't have to sacrifice thousands of members to the universe. We don't want to see them turn into cosmic dust..."

"Grannie won't forgive you!" Mei Ji hissed through her gritted teeth.

The wind howling in the tornado became louder. Mei Ji was inside the tornado and she found hundreds of smaller tornadoes revolving inside this tornado. They were bestial mouths that bit her.

Cantecie was at Second Sky of Territory Ancestor Realm, one of the strongest experts of the Phantom Clan. Mei Ji couldn't resist her when she attacked with her best.

"Montecie?" Cantecie wore a smirking face. "She can't protect herself. I'm not sure if she could return safely. Even if she returns, she will be badly wounded. What should I be afraid of? Mei Ji, I won't kill you. I promised Fan De Lei to give you to him. For the time being, I will subdue you and let you see how my good sister ends. I will also make you watch how that bastard Shi Yan walks to his destruction!"

"You dare to plot against Grannie!" Mei Ji screamed ear-piercingly.

"She attacked me. Why shouldn't I take revenge?" Cantecie increased her power and spoke to Fan De Lei. "I know you love her, but you can't touch her now. She's prey to my sister and that Shi Yan. Before we get the results from both sides, you have to watch her well."

Deep in Fan De Lei was a passionate fire. At this moment, his affection for Mei Ji was revealed. He nodded and took a deep breath with an evil face. "I know the limit."

"Good then," replied Cantecie.

A corner in the Sea Domain of Nihilicity.

Nine dead stars like beehives hovering by themselves in the void. There were so many caves on the dead stars, which made them look like giant beehives. From a distance, those nine stars had formed half a circle, which seemed to be something mysterious.

The nine dead stars weren't intact. Some were cracked and chipped. As they were here and arrayed altogether, it seemed like some experts had arranged them with his supernatural power.

This area was called Deadly Silence, a corner of the Sea Domain of Nihilicity, which wasn't far from the Phantom Clan and the White Bone Clan. Moreover, it was extremely remote and no warrior had traveled here for several thousand years. It was almost an abandoned area.

The meeting between Montecie and the White Bone Clan was scheduled and located in this area. Montecie and Hiro had finished their plan. They were about to join forces and resist the four clans. They had even shared the locations and territories after the war. Everything was regulated and signed.

Around a dozen battleships were anchored on a dead star. Each of them was as big as half of the Endless Sea carrying so many materials and tens of thousands of warriors.

They were just part of Phantom Clan's force.

They accompanied Montecie and scattered around to explore and get information of the four clans' league.

Montecie was on one of those battleships to direct her subordinates. After that, she asked them to leave and take actions as planned.

She still stayed in the Deadly Silence corner to control the situation at the prepping stage. She planned to return to the Phantom Clan's headquarters after locating the four clans' forces.

It had been ten days. In the beginning, her guards reported daily.

However, lately, the ones who went out for patrol duty all lost connection. No one had returned to report the newest situation.

The danger descended on Deadly Silence corner as they weren't vigilant!

A big boat created by the monstrous dragon skeleton came with clusters of black clouds. A flag with drawings of monsters bowing rose in the wind. Beverly of the Ancient Monster Clan appeared under the flag, her face dark and sinister.

A massive war chariot made of tens of thousands of souls slowly emerged from another direction. Countless shadows moved under the war chariots as if they had just escaped from the Nine Serenity Hell. Serene Prison of the Soul Clan stood arrogantly, his bearings fierce.

Montecie was frightened. She turned around to look. Her petite but agile body shook hard!

In thick demon flames, Rupert's majestic body was partially visible. Tens of thousands of Black Demon Clan warriors stood behind him. Instantly, the bloodthirsty and combative aura expanded.

The warriors of the Devouring Clan had spooky green skin. They formed in different blocks according to their power Upanishad. Edgar took them and rode on strange islands that diffused deadly energy.

Boom! Boom! Boom!

When the four clans appeared, the crystals on the chest of some experts by Montecie exploded and their chests shattered.

A beautiful Phantom Clan woman's ample bosom flattened like a mountain that got cut off. Blood streamed from her body horribly.

What had just exploded was the sound stone connected to the warriors that had left to collect information. Unless they were dead and someone had touched the sound stone, those crystals wouldn't have exploded like that.

"Montecie, look!"

Beverly of the Ancient Monster Clan wore a cold face. She pointed at the side of the dragon skeleton battleship. The black clouds moved away and revealed the blood-dripping heads.

They were the members of the Phantom Clan who had gone earlier! They were all beheaded!

The entire Phantom Clan's blood boiled instantly. A resentment that was deep to the bone appeared in their eyes.

"The genocide Shi Yan has started in our four clans is much bigger than your contemporary damage. If you dare to protect such a maniac, you will accept a bloody price!" said Beverly crazily.

"Montecie, if you want to leave, we won't stop you. However, I'm sure that none of your subordinates will survive," Serene Prison crossed his arms in front of his chest and spoke haughtily. "As long as you stay here, I can promise you that you and your people will be safe."

"I want to know how you could find this place." Montecie tried to suppress her desire to kill. Her eyes were like blades stabbing Serene Prison's face.

Serene Prison didn't answer. He turned to Beverly, Rupert, and Edgar. The others regarded him as they knew that it was safe now.

"Then you should see this."

Serene Prison sneered. The ghosts slowly congregated above his head and created vague images. Those images changed continuously and projected the situation inside the icy chamber...

Inside the secret chamber, Shi Yan was using the Space Seal to lock his body. Zhen Ru appeared with her real shape.

"Zhen Ru of the Myriad Shape Tribe!" Montecie gritted her teeth and hissed.

Zhen Ru nodded to her gently, "Long time no see, Montecie. Oh no, we just met, right in your palace when Mei Ji told everybody there Shi Yan's location. You just didn't know that I was there. Anyway, Shi Yan is subdued. He will lose his resistance soon. Mei Ji, your apprentice is controlled by her good sister. Right now, she controls the entire Phantom Clan. You can't do anything even if you get back there."

Montecie's small face paled.

Chapter 1558: Rampage to Break the Challenge!

Zhen Ru skeptically observed Shi Yan who didn't have an energy fluctuation of a living creature. Although Shi Yan was sitting right in front of her, she had a strange feeling that he was very far away.

Waves of space energy rippled and separated her and Shi Yan. She suddenly found that the strange worms she had sent to Shi Yan's Sea of Consciousness slowly lost the connection with her.

At first, she thought it was the magnificent power of the Space power Upanishad and the barrier and seal had hindered her Soul Consciousness.

However, as time flew, she became restless.

She had an insecure feeling and she didn't know why. She found that something was wrong and the situation was getting out of her control.

Deep in Shi Yan's soul altar...

It was a vast sea of stars or a brand new universe with thick life energy hovering above Shi Yan's Sea of Consciousness. This universe had so many stars and each star had thick earth and heaven energy. Together, they had created a bright but mysterious, magnificent picture.

In a corner of that bright starry sky, the arm-sized worms were chewing off a massive planet.

Strangely, the pollutants the worms produced could affect this territory too.

Shi Yan's host soul was the master of that territory. Because of the intruded Sea of Consciousness, his soul power and Soul Consciousness were controlled. It seemed like he couldn't manage his territory anymore.

A bright star was polluted and nibbled. Shortly after, those worms reproduced fast. Their population was now an enormous number.

The situation turned more deadly!

All of a sudden, a dazzling light shot out and thrust into that territory!

Shi Yan's territory changed amazingly after that!

He had slaughtered the experts of the four clans to refine the pure energy. At first, wisps of energy scattered in every corner of the territory. However, at this moment, all of them began to gather as if they received the same call. Wisps of energy turned into jets of bright light and merged with that column of light.

That light column seemed to have a magical life. Shortly after, it became so fierce that it changed the situation of his territory.

Boom!

The strong light powerfully shot over, covered the worms and the entire chipped planet. Inside the powerful light, those worms weren't killed. They twisted and transformed.

At the same time, a Soul Seal detached from Shi Yan's host soul.

Strange things happened within that light. The worms Zhen Ru had released were transforming into creatures!

They had transformed into a group of little people with Shi Yan's imprint. They had spikes and scale armor covered their bodies.

Although they looked different, they all had the same strength. From a closer look, they looked eighty percent similar to Shi Yan in his Absolute Beginning body.

They were a new species!

The seal that Zhen Ru had left in their lives were erased shortly.

The strong light shot from the territory and shone in his Sea of Consciousness. Billions of worms in the Sea of consciousness were like ice under water. They were dissolved in just a blink of an eye.

The creatures polluting Shi Yan's soul altar were obliterated within a split second.

Boom!

The fierce light from Shi Yan's territory exploded and sent countless light dots to his territory and through Shi Yan's acupuncture points, overflowing his sealed body from the acupuncture points.

The mutant Pure Gold Spirit Ant spread in every corner of his body and the contaminants in his Sea of Consciousness were burned into ashes.

Sizzle! Sizzle!

Shi Yan's body fumed thick smokes as if he was burned. His stiff body twitched in the smoke.

Zhen Ru's soft body staggered. She had to back off continuously. The frigid ice of the secret chamber boomed and cracked. The entire secret chamber was collapsed.

She was terrified, her calm and confident face vanishing. She realized that she had lost connection with the creatures she had bred and nurtured for a long time.

She had fed Pure Gold Spirit Ants and the strange worms with her blood and aura. Thus, they had Myriad Shape Tribe's supernatural abilities.

The rare creatures that could resist even the Devouring power Upanishad were all unknowingly dead. As their master, she was damaged badly. She now knew that she shouldn't disdain Shi Yan.

Boop! Boop! Boop!

Waves of space energy exploded. The sharp space blades pierced through the area and cut off the entire land.

The palaces above the chamber collapsed grumblingly. Many members of the Phantom Clan screamed and ran away. Looking at the deep hole in the ground, they yelled in panic.

"Slut! Die!"

Countless starlight beams congregated in thick smoke. A brilliant galaxy emerged above Shi Yan's head.

Shi Yan didn't turn into his Absolute Beginning body yet. He pointed at Zhen Ru at a corner of the collapsed space. The eight islands of the eight evil power Upanishads stormed toward Zhen Ru in the

rolling blood sea. At the same time, Shi Yan's severely wounded body healed with thick life energy. The cracks on his body mended and recovered shortly.

The power of Life power Upanishad was built on the foundation of the Immortal Demon Blood. He could use Life power Upanishad to regrow his bones, veins, and even blood. At the ultimate level, his energy would never run out and his body was undying.

"You dared to destroy my Pure Gold Spirit Ants! Even if I can't drink your blood, I have to destroy you!"

Zhen Ru's slender body retreated like a willow catkin. After a flash, she disappears out of the collapsed space and moved to the outside of the Phantom Clan.

"You dare to cause trouble in the Phantom Clan. You don't treasure your life, do you? I want to see how Montecie kills you!" Shi Yan laughed savagely.

Turning into a jet of starlight, he left the icy chamber to the Phantom Clan's vast territory.

Strangely, Shi Yan realized that there weren't many Phantom Clan fellows in this area. The Phantom Clan fellows scattered away. They didn't look like they wanted to attack Zhen Ru.

He thought that something was wrong.

"Montecie? She can't help you. I control the Phantom Clan now!" Cantecie's voice arose from a palace far from him. As her voice subsided, she appeared by Shi Yan and Zhen Ru inside a twisted tornado. "Fan De Lei is imprisoning your Mei Ji. Oh, I forgot to tell you that Fan De Lei has a deep love with Mei Ji. He doesn't mind that she's been with you for a long time."

Hearing her, Shi Yan became restless and hot-tempered. Flows of murderous aura fumed from him like dragon blood, his eyes bloodshot.

The eight gory islands soared furiously from the ground and attacked Cantecie and Zhen Ru. The Death, Soul Control, Destruction, and more released torrential evil auras under his evil energy urge. The negative energies bombarded their souls and ran directly into Zhen Ru's and Cantecie's head!

"Boom! Boom! Boom!"

The bloody islands barged into the tornadoes. Cantecie's eyes shot magical light and used her power Upanishad to resist.

Zhen Ru disappeared ghostly as if she had already left. However, her aura remained at the site.

She used Myriad Shape Tribe's innate abilities to hide nearby. She had camouflaged her soul, body, and aura, which was going to be very hard to distinguish her.

The eight islands were the source of power Upanishad inheritances in the Bloodthirsty Force's holy land. Pu Tai had refined them. When Shi Yan swallowed Pu Tai, he got them all. They had become a wonder in his territory.

These eight towers of inheritance could produce power that wasn't less than a divine weapon in cooperation with the evil power Upanishad.

Also, after he had killed so many members of the four clans, he got a lot of energy together with negative emotions accumulated in his acupuncture points. At this moment, all of the negative energies in his acupuncture points were activated and overflowing to the eight islands. Shortly, the islands' energy rocketed; they could destroy real matters and erode people's soul.

They became superb!

Cantecie used the tornadoes from her Wind power Upanishad to resist the eight islands. At Second Sky of Territory Ancestor Realm, she wasn't in a disadvantageous situation.

However, countless wisps of negative energies had intruded, bringing resentful, desperate, fearful, restless, and bloodthirsty feelings to attack her soul altar. She couldn't stand them. She had to use the soul energy in the soul pond to create a defense, stopping the attack that was aimed at her soul.

Thus, she didn't gain the upper hand, either.

"So powerful! I'm afraid this is the power of Second Sky of Territory Ancestor Realm!" Cantecie was startled. She pulled herself together and used her soul to sense. Soon, she found that the aura on Shi Yan's body was so marvelous that she couldn't measure how strong he actually was.

"He's stuck at the challenge to enter Second Sky of Territory Ancestor Realm! It's strange. In this circumstance, people would try to break through rather than join a battle. And he's currently fighting against us; he can break through in any minute! Damn! My creatures helped him evolve his territory!"

Zhen Ru's worried screaming came to Cantecie's soul, which shook her hard.

Was he breaking through now?

She contemplated, her eyes drilling into Shi Yan. Then, she suddenly got it. She knew that Zhen Ru was correct. She couldn't know his realm because he was in the middle of his progress to enter Second Sky of Territory Ancestor Realm from First Sky. In this stage, his realm wasn't stable.

"You lure him. I'm going to hit him fatally!" Zhen Ru's voice arose in Cantecie's head one again. "Provoke him! Make him lose his mind. Make him restless and hot-tempered. He will fall into bedevilment. Let alone breaking through, he will explode!"

Cantecie's eyes brightened. She sighed as Zhen Ru's plan was so sinister. "Fan De Lei is confining Mei Ji. I asked him not to act rashly. You have Skyfall Star River, which should belong to him. His rage can blind him. I'm not sure if he does something immortal."

Cantecie knew Fan De Lei didn't dare to act rashly. However, if it was to enrage Shi Yan, she had to say so.

"RRRROOOAARR!"

Shi Yan completely exploded. He swelled up into his giant Absolute Beginning body. A towering giant appeared and stomped on a palace.

"Get out!" The entire world was filled with his earth-shaking bellow.

Sizzle! Sizzle! Sizzle!

Starlight bloomed in that palace. Meteors shot everywhere. Fan De Lei had to sway out of the place helter-skelter. Now, he looked at Cantecie with hidden resentment.

God of Slaughter

Chapter 1559: Dogfight

Fan De Lei was gory, his handsome face like a broken watermelon dripping dirty juice.

The starlight dots twirled around his body like fireflies, creating a light curtain. Numerous bands of starlight emitted from the broken palaces. At this moment, they were torn into powder, moving along with the twisting winds as the power of wind howled furiously.

Cantecie's cage was broken and Mei Ji was revealed, looking unharmed.

Fan De Lei shot Cantecie a look; he was furious, but he didn't show it. Anyway, he didn't mind his disheveled condition. As he touched his labella, hundreds of star nuclei flew out. They were all crystal clear, which were refined perfectly from the essence of the life star. Each of the star nuclei were quenched thousands of times, giving them an intimidating power.

Hundreds of star nuclei arrayed like a miniature universe. They shrank and covered Fan De Lei's body directly, turning into a set of dazzling star armor.

At first glance, Fan De Lei seemed to have a crystal twirling around his body. The immense star energy gathered, creating a new barrier to confine Mei Ji.

After one furious strike from Shi Yan, Mei Ji's confinement was loosened a little bit, but got tightened one more time now.

Shi Yan had transformed into his Absolute Beginning body, becoming a towering giant. He stood on the land of the Phantom Clan like a mountain piercing through the sky. Many Phantom Clan fellows were screaming, running away as fast as they could.

"You should die...all of you!"

The void was filled with Shi Yan's bestial howling as the inheritance towers crazily barged and bumped into Cantecie's horrible tornadoes.

Sizzle! Sizzle! Sizzle!

Lightning strikes meandered like giant dragons. With a closer look, one could realize that those lightning strikes were actually space slits that could tear everything!

Massive lightning bolts weaved with each other and the entire sky was torn into pieces. It was like an exploding frozen lake, revealing so many terrifying cracks.

An endless desolate aura came from the space slits that led to unknown locations. It seemed that those areas didn't have a single beam of energy or any creature visiting there in billions of years. As long as a warrior got in there accidentally, they would have to endure the infinite loneliness. Their hope would be consumed soon, and when their energy was consumed up one day, they would destroy themselves.

When the warriors of the Phantom Clan saw the space shattering, they were all petrified.

As those lightning strikes moved around, the beautiful palaces turned into powder, disappearing into the slits. The fairyland territory of the Phantom Clan was now a ruin, and it would transform into a horrible hell soon.

Fan De Lei and Cantecie were frightened. They didn't think that Shi Yan could be so fierce and evil. When he turned into the Absolute Beginning body, he had also become the most brutal demon who didn't care about any lives.

At this moment, they suddenly recognized what catastrophe Shi Yan had brought to the Devouring Clan, the Soul Clan, Ancient Monster Clan, and Black Demon Clan!

They finally understood why the Serene Prison and the others had sworn to kill him at any cost.

"Don't! My fellows are innocent!"

While Shi Yan was crazily showing his power in an attempt to slaughter, Mei Ji didn't mind the silver star chains coiling her as she screamed at Shi Yan in the void.

Many members of the Phantom Clan were persuaded to work with Cantecie and Fan De Lei, convinced to support the two. However, most members of this group didn't want to join the war between the seven clans. As Cantecie and Fan De Lei had deluded and deceived them, they gradually accepted the plan.

However, at this moment, seeing Mei Ji in confinement to protect them, the soft spot in their hearts was touched.

"Mei Ji is a member of our clan! No matter what, unchain her first!"

"Fan De Lei! Release her!"

"We won't allow a civil war! Never!"

...

For the time being, the Phantom Clan fellows screamed and yelled to protect Mei Ji.

They were screaming while walking out of every corner to call for the members of the Phantom Clan. A large group of warriors had ignored Fan De Lei's guards to storm toward him, trying to help Mei Ji get rid of the confinement.

The sudden incident made Cantecie pale and Fan De Lei get startled. They recognized that they hadn't conquered the people's minds yet. In the Phantom Clan, they didn't have the supreme power, and they would never be able to convince their fellows.

"Madam Mei Ji! I'm coming to save you!"

A young man of the Phantom Clan at the Incipient God Realm had stormed forward without fearing of Fan De Lei's defending halos.

Swoosh! Swoosh! Swoosh!

Hundreds of light beams shot toward the young man and pierced him into a beehive, his body exploding on the spot.

“Don’t come close! We will kill anyone!” said a loyal subordinate of Fan De Lei as he ordered several hundred warriors to scream while protecting Fan De Lei well.

“Duke! You killed a fella! You will be punished by the clan’s rules!”

“Kill him!”

“Make him pay for his sin!”

“Damn you Duke! You killed my brother! I’m going to kill you!”

The members of the Phantom Clan cried and moved toward Duke. As they urged their energies, the sky above their heads was filled with so many bright incipient extents. Some looked dark like the evil abyss; some were like the ranges of volcanos, and even the endless desert...depending on their power Upanishads.

Crack! Crack!

A space lightning shot toward the barriers Fan De Lei’s subordinates had cast. With that, many layers were cut through while energy sparked everywhere.

Their defense was broken!

“Fan De Lei! Watch Mei Ji!”

When Cantecie saw the strange situation, she decided fast, screaming and disappearing instantly. A massive, fearful tornado appeared at her spot; it was tens of thousands of meters tall, as if it could connect earth and heaven while twirling massively and frighteningly.

Inside the tornado, Cantecie’s voice arose, “Shi Yan, do you think that you can swagger in our Phantom Clan’s territory? I’m going to show you the real power of the Second Sky of Territory Ancestor Realm!”

The tornado that connected the ground and the sky roared brutally, twisting toward Shi Yan’s Absolute Beginning body.

Instantly, a sandstorm arose amidst the thunderbolts and twisted space while beams of light shot over from outer space. This doomsday scene shook everybody, and the low-realm warriors shivered in despair. They didn’t know what to do in this apocalypse.

“Boop! Boop! Boop!”

All of a sudden, a blood energy column shot out of each of Shi Yan’s acupuncture points.

Those blood columns were made of negative energy, filled with furious, destructive energy. There were seven hundred and twenty blood columns from seven hundred and twenty acupuncture points in Shi Yan’s body. Shortly, they turned into seven hundred and twenty massive blood dragons, each of whom was more than ten thousand meters long, stinking with a murderous aura.

Seven hundred and twenty dragons hissed and roared, barging into the tornado.

BOOM! BOOM! BOOM!

The blood dragons twisted and attacked the tornado frantically, striking Cantecie inside!

Actually, the void couldn't endure this pressure. This furious battle would destroy earth and heaven here. Unexpectedly, so many light dots in the sea of stars were occupied discreetly.

Deep in the void, Shi Yan's eyes were like two gory planets as maniacal emotions continued to rise in his pupils.

Zhen Ru had disturbed him while he was at the most critical moment to refine the energy. He had to endure the backlash to fight forcefully against Zhen Ru and Cantecie. Moreover, Cantecie had provoked him badly, which had finally pushed him into bedevilment.

At this moment, he was fighting against Cantecie while trying to control the turbulent energy in his body and soul altar. He needed to keep a sound mind.

The soul altar and the acupuncture points had many negative emotions in them, which were growing fast. They were like the dregs that wanted to seize the chance to wreak havoc in his soul and body.

The Power Upanishad Symbol Tower shot a magical light column that shone upon his territory and Sea of Consciousness, eliminating Zhen Ru's two kinds of evil creatures.

But, the Power Upanishad Symbol Tower didn't retrieve the light yet, still shining brightly! In his territory, a new species was generated as the strong light shone about. They were created with his soul seal and blood as the foundation, and the worms as the bodies.

His territory now finally had creatures, a sign of another advancement in his realm! However, at this moment, the new residents of his territory were affected by the negative emotions and soul energy, turning evil and destructive!

It was a sign of his unstable realm!

He had to spend more efforts to control those creatures, which were about to evolve in an uncontrollable path. He wanted them to evolve in his way.

Deep in the void. Shi Yan shivered and he turned to check his abdomen.

At this moment, he was standing in this world in his Absolute Beginning body, his size now even bigger than a majestic mountain on this planet. However, a small light dot was stabbing into his lower abdomen like a sharp needle!

It was Zhen Ru!

He didn't expect that Zhen Ru would attack him at this moment. She had aimed at his lower abdomen where his God power Ancient Tree was situated. She wanted to destroy his source of energy!

"Good!"

Shi Yan suddenly grinned and his massive body shrank all of a sudden. While shrinking, a black hole flew out of his mouth that turned into a small dot before flashing and disappearing.

A black dot quietly flashed like a black pawn right at his lower abdomen, shortly swallowing the little light dot.

Swoosh! Swoosh!

The fierce swallowing power arose from that black dot like the mouth of a demon with unlimited greed, seemingly wanting to swallow the entire world.

Zhen Ru discolored. "You do know the Devouring Power Upanishad! But if you want to swallow, I will let you eat your full!"

Several thousand secret treasures exploded, turning into thunder mines and lightning balls that exploded continually while aiming at Shi Yan's devouring black hole. "Edgar taught me this!"

Rumble! Rumble! Rumble!

Constant explosions arose from the black hole, which eventually shattered. Shi Yan felt a twinge in his soul, his face aghast.

God of Slaughter

Chapter 1560: The Second Sky of Territory Ancestor Realm!

"You think I didn't prepare anything? Naive! Before I came here, I studied you with Edgar and Yuan Zu, and I know your secrets. Except for the fact that we don't know where your soul comes from, we know about your power Upanishads, body level, and even that marvelous soul altar!"

Zhen Ru wore a cold face, urging the Myriad Shape Tribe's innate supernatural ability. She had turned into a small light dot like a firefly, sticking on Shi Yan's lower abdomen.

The devouring black hole was shattered by the explosion of so many mines and the resultant shockwaves. Previously, it was filled with dregs of heaven and earth, but now, it finally shattered under the fierce explosions.

Zhen Ru seized the chance and stabbed at Shi Yan's God power Ancient Tree!

A cold light appeared in the world of Shi Yan's God power Ancient Tree like a lightning strike across the world. In this center of power, the fountainhead of energy, Zhen Ru had created numerous lightning strikes, using a terrifying destructive power to attack the branches of the God power Ancient Tree!

Crack! Crack! Crack!

Crystal branches filled with pure energy were broken and a large amount of energy gushed out, no longer under Shi Yan's control.

Almost at the same time, Cantecie got the message from Zhen Ru's soul as well. She instantly grabbed the chance to expand her tornado. That tornado became a massive smoke column that reached the void. Shi Yan's soul was vaguely seen at the head of the blood dragons.

It was the magical abilities of the Soul Control Power Upanishad and the negative energy. However, at this moment, they were stirred into shattering by the hundred-meters wide wind blades. The blood dragons didn't have more energy to supplement, so they collapsed slowly.

Boom!

The first blood dragon exploded, turning into a blood mist. Meanwhile, the tornado spun rapidly, refining it bit by bit.

Inside the massive tornado, Cantecie was cheered up. Hundreds of smaller tornadoes hovered by her like the spinning bird nests. Controlled by profound technique, they continued to attack the blood dragons.

Slowly, the blood dragons were killed, turning into blood mist and vanishing. The negative emotions those dragons had carried also dispersed.

Cantecie's eyes sparkled. Her lips curled coldly, her ample bosom shivering as she stood up. Countless tornadoes beside her body screamed; she was like a Goddess of Wind who brought harsh gusts to this world to destroy Shi Yan.

Just as Shi Yan's God power Ancient Tree was damaged by Zhen Ru, Cantecie's threat had come soon after. He had to face the enemies inside and outside, and his situation was really perilous.

From a distance, Mei Ji turned saw a world-tearing tornado emerge as Shi Yan's savage body shrank. Her charming face turned resolute and cruel. "Fan De Lei, I'll risk my life with you! If you want to die with me, just try to stop me. I do want to see if you have such powers!"

Sizzle! Sizzle!

A cold white mist emitted from Mei Ji's graceful body as she turned into a beautiful icy woman amidst the ice.

Her entire body was now a beautiful ice crystal. She looked like an exquisite ice sculpture God had created in the bitter winter, which was arrogant, ruthless, and cold. Nobody dared to look at her!

At that moment, Fan De Lei's star seal was broken instantly while a magical Absolute Beginning Original Symbol arose above Mei Ji's head. It released a terrifying coldness that froze the entire world. With her as the center, the surroundings were frozen at a speed naked eyes could observe!

"Crack! Crack! Crack!"

The roof of the palace suddenly grew crystal columns, and the entire palace slowly became a massive, majestic ice palace. Even the tiles on the ground were frozen. Beautiful snowflakes fell from the void, each of them carrying Mei Ji's resolution!

Heaven and Earth were frozen, making this world a snowy, frosty white world.

Mei Ji was truly the Goddess of Ice. As Fan De Lei paled in fright, she said coldly, "I used to consider you my senior, but from now on, you and I are arch enemies! Because of your own desire, you betrayed your own kind! You're the Phantom Clan's traitor! On behalf of Grannie, I announce that you are exiled from the Phantom Clan!"

Hearing her, Fan De Lei turned ashen, his lips shivering. However, Mei Ji didn't know if it was because he was enraged or chilled.

"Madam Mei Ji!"

"Madam Mei Ji!"

"You got rid of him!"

The Phantom Clan fellows screamed and cheered. However, they also yelled and booed at Fan De Lei angrily.

"Crack! Crack! Crack!"

Mei Ji used her ice body, soaring up into the sky and heading toward Cantecie. Her ice sculpture-like body looked beautiful but gloomy in the void; wherever she passed, space cracks were closed because of freezing up.

Fan De Lei checked and found that the icy energy from Mei Ji was utterly terrifying! Even if he risked his life with her, he couldn't endure it. The attack would be strikingly unimaginable!

Mei Ji was truly risking her life!

For Shi Yan, Mei Ji had unexpectedly risked her life. She didn't care about death, using all of her power.

Her resolute action was like an icy arrow thrusting into Fan De Lei's chest, who felt more agitated than being attacked physically. Seeing Mei Ji glide past him to reach Cantecie, he gritted his teeth as he poured his anger on Cantecie.

He thought that if Cantecie hadn't forced him, the relationship between him and Mei Ji wouldn't have turned worse. He also hated Cantecie for trying to make Shi Yan throw his anger on him, who ended up attacking him so savagely.

"Die! All of you should die!"

Clenching his jaw, Fan De Lei looked frightfully sinister. He shouted at Cantecie and Mei Ji as if he hated that he couldn't kill them both.

"Mei Ji! You! Are you crazy?" Cantecie was on her way to kill Shi Yan when she recognized that her surroundings were now a world of snow. She saw Mei Ji turn into an ice statue, burning her vitality to urge all of her power. The cold energy had frozen the entire place, including the space cracks!

This power made Cantecie discolor in fear.

Mei Ji didn't say anything, just gazing at Cantecie while furiously urging her Ice power Upanishad. Countless ice mountain grew from the land, turning into several-thousand-meters-long swords that aimed at the latter.

The place was covered with a terrible snowstorm, covering Cantecie. The entire world was vague and hazy amidst the white snow. Added with Cantecie's howling tornadoes, this territory had become so maliciously harsh. The members of the Phantom Clan had their vision blurred in this world of snow and storm, only able to hear some earth-shaking explosions and nothing else.

But, they all knew that Mei Ji was only at the First Sky of Territory Ancestor Realm. Of course, she wasn't an equal match for Cantecie. They also knew that with each passing minute Mei Ji acted persistently, she was one minute closer to her death.

"Madam Mei Ji..."

Many young men of the Phantom Clan called Mei Ji's name while sobbing, their faces twisted in agony. They faced the sky, looking at Shi Yan. Behind the terrifying snowstorm, Shi Yan had returned to his normal shape, his face distorting as if he was struggling against his inner demons. He didn't look like he was aware of the surroundings.

"For you, this woman doesn't care about her life, burning her vitality. I'm so surprised, though!" Zhen Ru's voice arose from his lower abdomen. "Hmm, if she hadn't stopped Cantecie, you would have died already. But, what's it good for? How long can she stop Cantecie for? She courts death!"

Boom! Boom! Boom!

Zhen Ru was destroying many branches of Shi Yan's God power Ancient Tree, pieces of crystals and energy scattered everywhere.

At that instant, a dazzling light shot out of the Power Upanishad Symbol Tower, emerging in Shi Yan's Sea of Consciousness. That light pierced through the void, gliding across many spaces before it entered his lower abdomen, where was situated the magical world of his God power Ancient Tree.

Unimaginable!

The strong light acted as if it contained Shi Yan's Soul Consciousness, hitting Zhen Ru precisely. In this endless sea of stars, no race, creature, planet, or divine weapon could resist this light. As soon as the light pierced through Zhen Ru, she was left with a massive hole in her chest!

It was like a sword had stabbed into a thin sheet of paper. Zhen Ru's chest was pierced through easily and smoothly.

"This...This light...aura...My goodness!"

Zhen Ru clutched her chest in fear inside Shi Yan's God power Ancient Tree. However, as soon as she touched that light, her fingers were cut off. She screeched in agony, trying to back off to get rid of that light. "I finally know why my Pure Gold Spirit Ants perished..."

Trying her best to urge the power Upanishads and ignore the hole in her chest, she slowly faded away like a faint cloud in the sunshine, vanishing completely.

Pure, refined energy gushed from Shi Yan's acupuncture points like seven hundred and twenty streams connecting with the God power Ancient. The torrential, unceasing energy soon healed the damaged God power Ancient Tree.

Shortly, the broken branches were re-growing fast.

Receiving the immense God power, the God power Ancient Tree recovered and started growing magically.

The growing God power Ancient Tree was the most significant appearance of another breakthrough! At the First Sky of Territory Ancestor Realm, Shi Yan had broken the most challenging bottleneck!

Boom!

Shi Yan's soul altar was shaking while his Sea of Consciousness twirled fiercely. Amidst the lightning strikes, his Soul Consciousness began to condense. The soul pond in the Sea of Consciousness was boiling strangely as the black hole in the territory was dripping Original Soul Energy Fluid into the pond.

The Original Soul Energy Fluid was refined after a hard process. As his realm was improved, his refining speed was accelerated ten times!

Shortly, the energy he had swallowed recently was refined thoroughly into the purest energy in his God power Ancient Tree, Sea of Consciousness, and the soul pond.
