

Slaughter 1571

[God of Slaughter](#)

Chapter 1571: Brutal Battlefield

Volcano Cloud Sea.

Broken battleships, pieces of armor, weapons, corpses, and rocks filled the void.

Dazzling halos covered so many different-colored soul altars, icy crystals and lava ponds, and hovered around. Rare divine weapons soared like flying dragons. Battleships shot blinding light columns. So many territories that looked realistic emerged and created so many illusions.

This place had become the most dreadful meat-grinding field in this vast sea of stars. Corpses and broken limbs were everywhere. The soul altars collapsed massively.

The battle between the Soul Clan, Devouring Clan, Black Demon Clan, Ancient Monster Clan, and Mysterious Sky Clan, White Bone Clan, Zi Yao's subordinates, and Heavenly Craftsmen Clan was going on. Deep in the void, Yuan Zu's real body was fighting Zi Yao's snake body furiously in the surging black sea. The shockwaves from their combat seemed to tear the Sea Domain of Nihilicity as they could shatter the planets billions of miles away.

Whenever the shockwaves reached a territory entrance, the natural territory behind the entrance received a deadly calamity. Many clans living on the life stars were erased.

Amongst the Ten Great Territory Ancestors, Serene Prison, Han Tian, Rupert, Beverly, Edgar, Montecie, and Hiro were here. In addition to Yuan Zu, eight of them were present on this battlefield.

They didn't come to discuss the way to the Absolute Beginning Gateway but killing each other. They were fighting for something unclear with their best forces.

This battle had darkened the entire place. Suns and moons weren't shining. The galaxy was torn apart and the universe collapsed!

Billions of years ago, the Absolute Beginning Era had ended because of a battle, which had swept all Absolute Beginning creatures away.

Today, it was a battle where members of the seven clans that gathered participated. All the famous experts in this vast sea of stars were here. The Sea Domain of Nihilicity seemed to not be able to endure their battle for a long time. The Volcano Cloud Sea was gone. At this moment, it looked like ruins in a post-apocalypse scene. Volcanos jutted from the ground and became keen weapons in the hands of the Heavenly Craftsmen Clan.

The volcano that held the teleport formation became Tahm's weapon. It was burning furiously as he was using his Fire power Upanishad to attack the Soul Clan warriors closest to him.

While fighting, Tahm frowned at the massive volcano he was pulling.

Waves of space energy came from that mountain. He immediately knew that the formation in the middle of the volcano was re-activated.

Sizzle! Sizzle! Sizzle!

As the flames sparked around, a majestic body appeared on the mouth of the volcano and grinned. His hands pulled something and the void in front of him shattered.

Shattering together with that void were bodies and souls of several hundred Soul Clan warriors. They didn't have any means to counterattack. The Incipient God Realm experts became a paste of smashed flesh; their soul altars were sucked into a black spot in the glabella of the young man who had just appeared.

Tahm didn't know who he was. From that young man, he could feel a terrifying aura of the beasts in chaotic times. That aura bulged the veins on his temples.

It was an instinct fear arising deep in his soul.

"You... Who are you?" Tahm's scream sank in the furious battle. No one noticed his voice. He continuously moved backward and cut off the connection with the volcano.

"Don't be tense. I'm on your side," Shi Yan smiled as he was surprised. Then, he observed to assess the situation.

Han Tian, Judy, Montecie, Hiro, and Dracula were at Second Sky of Territory Ancestor Realm and they were battling Serene Prison, Edgar, Beverly, and Rupert respectively. Although they were all at Second Sky of Territory Ancestor Realm, their competences were different.

Han Tian faced Serene Prison, and Hiro faced Rupert. They were fighting equally. However, Judy and Dracula had to join hands to deal with Edgar because Judy wasn't one of the Ten Great Territory Ancestors. Dracula, the expert from previous generations, had just woken up for a short time but he hadn't recovered his power yet.

Montecie was fighting against Beverly and she was significantly weaker.

Montecie had consumed a lot of her God power and she was forced to disseminate her God power. She just had time to breathe before joining the new battle. They were at the same realm but she was hurt. Of course, she couldn't gain the upper hand in the battle against Beverly. She had tried her best to endure until now.

Those were the best battles besides the one between Zi Yao and Yuan Zu.

After that, the subordinates of each clan were fighting in a melee. Although Neptune, Oliver, and Labitte were dead, the four clans didn't have only them as Territory Ancestors. Those experts who Shi Yan didn't know were entangled with Gay, Xiao Lie, Jia Ni, and Tian Xie.

Forefather Dragon Lizard was the most prominent expert here. Although he had just entered First Sky of Territory Ancestor Realm not long ago, his power was incredible because of his Absolute Beginning blood.

He had shed blood from an Ancient Monster Clan expert at the same realm. That man was fighting against him with the monstrous body, which was a massive gold lion. However, he was nothing compared to Dragon Lizard's real body. His lion body was about to be dismembered soon.

The battles between Immortal Realm, Incipient God Realm, Ethereal God Realm and Original God Realm experts of different clans were also eye-catching. This kind of battle was actually a melee. Their battles stretched on a large area that Shi Yan couldn't see; it could have been as big as a territory.

However, this kind of low-level had more dead warriors. At first glance, corpses, fragments of battleships, broken armor and weapons were everywhere.

Observing the entire battlefield, Shi Yan grinned. The black holes flew out of his glabella, which were camouflaged with his space energy. They expanded and then turned invisible.

After Shi Yan told him that he was from the same side, Tahm had kept an eye on him. When he saw the massive black holes, he was shaken as he recognized Shi Yan's identity. When the black holes turned invisible, his eyes brightened and he checked around instinctively.

He knew that Shi Yan was fishing in troubled water. He was using the Devouring power Upanishad to collect energy from the battles. While the expert around were dying, the invisible black holes would collect an amazing amount of energy and bring Shi Yan great changes that he couldn't imagine.

"Montecie, you've mastered Time power Upanishad. Do you see the future of your Phantom Clan? The future of being extinct?" Beverly, the expert of the Ancient Monster Clan with a snake body, had a gloomy face. However, her eyes were as cold as swords stabbing Montecie's face.

More than nine hundred fist-sized drops of water lined up between her and Montecie. Each of the water drops had a world of water with undersea wonders and even creatures with a human torso and snake body like Beverly.

More than nine hundred crystal clear drops with an independent world inside each of them were connected directly to Beverly's territory.

Her soul energy could get over space restrictions to pour into those water drops and make the water world bright and colorful. Those water world slowly affected the real world. It was like the real world had slowly disappeared and become a part of her water world.

Montecie was frightened.

She thought she was trapped in one of those worlds as a vulnerable creature that was burned and living in Beverly's territory. Beverly could control her death or life and she could even erase her Soul Seal.

It was the intrusion of the territory to her soul altar!

As soon as this thought popped up in her head, the super water power seeped into the steam in her body. Slowly, she became transparent like water. With this tendency, she merged to the nearest water drop and became a creature that Beverly could kill when she pleased.

Beverly hovered in between so many water drops and used her territory to emit the soul energy to control the Water power Upanishad that could melt everything. She wanted to take Montecie into her territory, enslaving and imprisoning her.

She sneered continuously when she saw Montecie's puzzled eyes become blank. She told herself, "Soon, you will lose yourself. I'll take your soul and torture you until your last wisp of Soul Consciousness is shattered!"

“Use water to melt the earth and heaven?” Shi Yan’s smirking voice came all of a sudden.

Beverly was shaken hard. She turned around and found Shi Yan appear behind her like a ghost.

“If Montecie hadn’t lost a large amount of her power, how could you have gotten the upper hand?” Shi Yan raised his hand and pouted at the area where so many water drops were arrayed. A shooting star flew out from his fingertip. As soon as it entered the world of water, it transformed into Skyfall Star River, which was a piece of a bright galaxy with diamond-like stars. The starlight from this galaxy calmed people’s minds.

The worlds inside the water drops began to collapse strangely as the starlight of Skyfall Star River shone on them.

Montecie’s bewildered eyes turned bright. As soon as she recognized her situation, she bit the tip of her tongue and used her blood to wash the water power in her body. She also reversed time to the moment before she was bewitched.

She became mindful shortly.

“Shi Yan...” She stooped and called him softly. Apparently, she had exhaled in relief. “You’re not too late.”

“Do you still have enough power to use the Time Seal?” smiled Shi Yan.

Montecie’s eyes gained the light. “You meant the Great Seal Technique that can seal both time and space?”

Shi Yan nodded.

“Sure I have enough power to use,” Montecie confirmed.

“We should join hands and try,” Shi Yan turned to look at Beverly. Slowly, space ripples expanded from him, creating strange spaces, which looked as if they were created right from his body. His borderless space made the real world twisted as if it was about to be replaced by Shi Yan’s space.

Beverly saw the space expanding and felt the confining power, her face discolored.

At this moment, Montecie didn’t talk more. After urging her power Upanishad, so many rays of light that could reverse time appeared. She had paused the time right at this moment.

Beverly was frightened.

[God of Slaughter](#)

Chapter 1572: Eternal Seal!

Time could fix formless things like the soul, Consciousness, thought, and mind while space could seal entities like the body, blood, and even power. When Time and Space power Upanishad were urged at the same time, together they could seal both visible and invisible things!

It was a superb technique that DeCarlos and Ming Hao’s teacher had invented after Bloodthirsty defeated him. He had spent the rest of his life studying this technique. However, it was unfortunate that

he had cultivated only Space power Upanishad as he couldn't find any expert at the same realm with Time power Upanishad to test this marvelous technique.

After so many years on the seabed of the Sea of Annihilation, Montecie and Shi Yan had joined hands to cast the "Great Seal" technique, which had facilitated them to bring Grace Mainland and escape to Cloud Mist Territory.

At that time, Shi Yan's realm was too far behind what he had today and his understanding of Space power Upanishad wasn't profound enough.

Time flew fast and Shi Yan reached Second Sky of Territory Ancestor Realm. At this moment, his realm, power, and Upanishads weren't less than Montecie. Even Shi Yan and Montecie couldn't estimate how formidable their Great Seal Technique could be if they cast it right now.

Waves of space energy rippled from his body and expanded.

So many magical spaces were created like illusional images reflected in thousands of mirrors.

All of a sudden, the energy impact in this area paused. The warriors could even see the trajectories of many blue lightning strikes and shooting lights. At this moment, many corpses, masses of blood, and broken battleships that were moving around as the momentum of the battles attracted them froze.

From Shi Yan as the center, the space ripples reached hundreds of miles. All matters like clothes of blood, veins, cosmic dust, pieces of broken weapons that the naked eye could see were all fixed.

Except for Shi Yan and Montecie, only Beverly could move.

Beverly had a human torso and a snake body. She was panic-stricken when her voluptuous body crackled like a rusted machine trying to move.

She was so chilled as she tried to urge her power. Blood flowed in body massively like rolling waves as she tried to move her body.

As Shi Yan's Space Seal was cast, she felt her body get tied by invisible shackles that prevented her from moving her body.

Fortunately, because a lot of Montecie's God power was consumed, her Time power Upanishad couldn't catch up with Shi Yan's power right away.

If her Time Seal was cast at the same time, her soul, Soul Consciousness, and power Upanishad would be fixed too. At that time, she couldn't think or change her power Upanishads anymore. Also, her mobility was forced to stop. She would become a puppet that Shi Yan and Montecie could easily control.

She gritted her teeth and tried to back off.

She couldn't move fast. Usually, she could travel one thousand miles within a breath. And now, she was just an ordinary warrior who could use only her physical strength to back off helter-skelter.

Bright lights shot out from behind Montecie's neck like time that never came back.

At this moment, Montecie was very beautiful; she wasn't less attractive than Mei Ji. Moreover, she had a mature glamor that was rare in this world.

Although she used to be the most beautiful lady in this universe, she had used her Time power to bring herself back to twelve or thirteen years old to hide her utterly mesmerizing appearance. Many people had forgotten her beauty.

At this moment, due to her significant loss of God power, she couldn't rewind her time and she had to appear as if she was twenty-five or twenty-six years old. Her exquisite glamor finally came back to her.

Her hair was like a cascading waterfall of time. While her Time power Upanishad was urged, so many wisps of her soul power moved and seeped into Shi Yan's confining space. She was using time power to strengthen the seal.

She finally made it an eternal seal!

The light of Time controlled by her soul and power Upanishad seeped into the space Shi Yan had affected previously. In the next moment, that space slowly changed.

The empty space slowly materialized and turned into some substance like a massive block of amber, which was a peculiar form of space!

At the same time, Montecie's beautiful face blushed. She glanced at Shi Yan. A gleam of puzzled and shy expressions crossed her eyes.

When her Time power Upanishad entered that fixed space, it was like her soul got into Shi Yan's soul.

In that short moment, her soul and Shi Yan's soul began to blend with each other. They could feel each other's seven emotions and six desires. Montecie could feel Shi Yan's feeling and what he had experienced through his whole life.

It was a magical feeling that she couldn't describe!

Shi Yan had used his Space power to fix that section of the void. At his Second Sky of Territory Ancestor Realm, when his power was urged, his soul, God power, and Soul Consciousness stuck together like a shadow and a body. That's why the confining power of Space had his Soul Seal.

Previously, when his realm was still low and when he cooperated with Montecie to cast this Great Seal Technique, they hadn't formed a soul resonance. Thus, he didn't have any feeling at that time.

Similarly, Montecie hadn't felt anything at that time.

This time, it was different...

According to DeCarlos and Ming Hao's teacher, if the two who had similar realm and power cast this Great Seal together, their souls could blend with each other and create a consciousness resonance where they could reach a magical state of fusing into one in a short time.

Today, Shi Yan at Second Sky of Territory Ancestor Realm had a similar realm and power to Montecie. The strange feature they hadn't been able to trigger last time had finally happened.

When Time power Upanishad entered, it made the void visible and become like a pond of some liquid substance.

At the same time, Montecie's and Shi Yan's spirit, souls, and consciousness merged together for a short moment. However, it was enough to reach the marvelous effects of soul intercourse. The energy fluctuation from this soul intercourse was hundreds of times more passionate than real intimate activities between a man and a woman.

Shi Yan tried to keep himself together. He even used Space power Upanishad to freeze his face and stop himself from groaning from pleasure, which would embarrass himself in front of Montecie.

However, the magical stimulation from his soul came like unceasing waves. He felt relaxed and it was so wonderful that he couldn't resist.

Montecie had lived for tens of thousands of years. Although she was the most beautiful woman in this sea of stars, she had followed her faith for all of her life, which was to pursue power and the Phantom Clan's prosperity. She had never fallen for any man. In her long life, she had never had intimate times with any man and she had never thought about the romantic things between a man and a woman.

But today, while using the strange fusing technique of the Great Seal, her soul and Shi Yan's soul connected to each other magically. The resonance created by that fusion was thousands of times better than real sexual activity. She was sinking in the pool of desire constantly.

She didn't look at Shi Yan anymore and closed her eyes, her face blushing. Another beam of light shot out from her body and poured into the sealed space.

From her and Shi Yan as the center, the world seal that looked like a big block of amber expanded amazingly fast!

Beverly at Second Sky of Territory Ancestor Realm couldn't escape. The duet seal had fixed her. At this moment, she looked like a little snake trapped inside amber. Her fear was frozen on her face as she was retreating.

"Leave the space Montecie and I are covering at your fastest speed!"

At this moment, the Absolute Beginning blood in Shi Yan's body burned. He used his will of steel to send the message to Han Tian, Hiro, and Dracula to ask them to prepare.

It was because Shi Yan could feel that the soul intercourse between him and Montecie had promoted the Great Seal to the point that they might not be able to control it. The amber space had crazily expanded and sealed Beverly at her Second Sky of Territory Ancestor Realm. They couldn't estimate how big the area it could cover after it was done reaching.

Shi Yan had a terrifying feeling. Once the seal was finished, he couldn't dissolve it. The terrifying power of Time and Space made him restless too.

Han Tian's team was frightened when they received Shi Yan's message. They didn't care that they might fall into the lower hand in their battles but tried to spread Shi Yan's message to their subordinates.

Instantaneously, all members of the Mysterious Sky Clan, White Bone Clan, Heavenly Craftsmen Clans, and the God Clan who were fighting the Devouring Clan, Black Demon Clan, Ancient Monster Clan, and Sou Clan tried to retreat from the battle quickly, leaving as fast and far away from Montecie and Shi Yan as they could.

Swoosh! Swoosh! Swoosh!

Many warriors had run away. The battlefield became chaotic. The four clans under the furious attack didn't know what had happened. They exhaled in relief when the others suddenly ran away.

Shortly after, they recognized that an amber space was crazily swarming toward them and covering the entire world.

Thousands of fellows of the Soul Clan, Ancient Monster Clan, Devouring Clan, and Black Demon Clan were fixed. They were sealed here eternally by the Time and Space power Upanishad.

The experts at Ethereal God Realm, Incipient God Realm, Immortal God Realm and even Territory Ancestor Realm had become little worms inside the amber. Their souls, consciousness, thoughts, and soul altars froze altogether with their bodies. They were never going to get rid of it. They were going to stay like this forever.

From Montecie and Shi Yan as the center, an area extending billions of miles become like a massive lake with tens of thousands of members of the Devouring Clan, Black Demon Clan, Ancient Monster Clan, and Soul Clan sealed. They were all elite forces of the four clans, famous warriors in this sea of stars with some of them at the Territory Ancestor Realm.

At this moment, space was confined and time was paused. Every creature had fallen into deadly silence.

An eternal seal!

[God of Slaughter](#)

Chapter 1573: Create a Miracle!

Time and Space seemed to have paused at this moment.

An entire space in amber color was frozen and silenced. Tens of thousands of experts of the four clans were fixed. Their souls and body were nailed. It seemed like there was no power in this world that could rescue them.

The terrifying race war that should be so furious stopped strangely. The confrontation between the Ten Great Territory Ancestors ceased quietly.

At this moment, everyone gazed at that area, Shi Yan, and Montecie.

A fierce fear filled Dragon Lizard and the others' hearts, expanding to their bodies. They felt lucky that they had escaped one step earlier.

So many living warriors were like dragons or tigers a moment ago. Just in seconds, they became like fossils.

That area was like earth and heaven prison that had locked everything including creatures, bones, pieces of flesh, and fragments and put them into eternal silence. They were all frozen and couldn't move even a bit.

Including Beverly at Second Sky of Territory Ancestor Realm! "What happened? How could it be?" Looking at tens of thousands of frozen warriors, Hiro was bewildered. He sensed and changed his face in fear. "It's a powerful sealing technique. My Soul Consciousness couldn't seep into it! Gosh!"

"Time and Space have cast an eternal seal. The power at that level isn't something that we can understand." Dracula's eyes were glistening. His white bone body wiggled and crackled as if he wanted to do that to prove he was still able to move.

Tian Xie and the experts of the God Clan, Judy and Han Tian of the Mysterious Sky Clan were bewildered and skeptical.

They knew that they are lucky...

When Shi Yan's Soul Consciousness came, they could feel his tense and uneasy feeling. They decided to trust him and ask their fellows to leave at the fastest speed.

They didn't mind if their bodies got hurt.

What happened had proven their decision and their belief in Shi Yan. Most warriors of the Mysterious Sky Clan, White Bone clan, and Tian Xie's team had escaped. However, several thousand hesitant warriors were frozen together with the Devouring Clan.

Briefly, they had to bear a small loss that they could accept.

Serene Prison, Rupert, and Edgar couldn't accept this. Many experts in their forces were sealed. How could they continue this war?

They couldn't believe their eyes when they saw Beverly there. At Second Sky of Territory Ancestor Realm, she couldn't escape. How could that happen?

After dozens of seconds of silence, Edgar and Serene Prison showed resolute faces. Leaving Han Tian and the others, they headed towards that sealed space.

"Break!"

Edgar condensed his blood to create a massive bloody sword that carried his desperate and destructive will. That blood sword was ten thousand meters long like a silver river, slashing on that area.

Boom!

The blood sword that could halve an entire planet gashed that amber area and clashed like a loud explosion.

The bloody sword broke into pieces!

Lights in Edgar's eyes dimmed. He couldn't help but spurt blood. However, he restrained himself and tried not to vomit blood.

Serene Prison's face changed fast. Deep fear occupied his heart. He hesitated for a while before opening his mouth to release countless souls and ghosts. The ghosts weaved with each other into a thick mesh net and covered the amber space. He urged his energy to shake that space.

“Swoosh! Swoosh! Swoosh!”

So many wailing and screeching ghosts hovered in this piece of the universe. Serene Prison’s God power rolled like a river and poured into his ghosts.

However, he couldn’t sway that space or pull his fellows out of the amber trap.

Seeing Edgar and Serene Prison fail, Rupert didn’t try and just talked gloomily, “It seems like the three of us need to join hands...”

Serene Prison and Edgar were shaken as they thought that it was possible. They decided to join hands to try.

However, in this moment, two divine light columns shot out from that space. After they got out, they slowly turned into Shi Yan and Montecie.

They stood shoulder by shoulder, their faces complicated. They didn’t look at Serene Prison and Edgar but the solid, amber space. The strange light flared in their eyes and became more odd...

The solid, sealed space cast by their soul, power Upanishads, and God power could seal the entire world and imprison the experts forever. However, when they observed the space underneath, they had a strange feeling that they couldn’t explain. It felt like the world down there didn’t relate a bit to them.

Even if they wanted to get in there one more time, it seemed impossible.

Shi Yan pondered for a while and then turned into a space lightsaber. He wanted to get in there and rescue some members of the Mysterious Sky Clan and White Bone Clan.

Strange things happened. When he touched that space, it felt like a massive rubber ball. It bounced him back with a soft but powerful force.

He discolored in fear and turned to Montecie with a puzzled face.

Montecie also tried to use her Time energy to get in there. Similarly, she was sent back. She couldn’t intrude that amber space.

“What happened?” Judy quietly approached. She paused when she was dozens of meters away from the other two.

“We combined Time and Space power Upanishads to cast a seal. It works well, though. Anyway, its power was over our estimation. Even the two of us can’t get into that sealed area. It looks like space there was eternally sealed and no force can tear it.”

Montecie resumed her natural poise. Pondering, she said sadly, “This forbidden technique is too bizarre. I didn’t expect it to be so fierce like that. The warriors captured inside will exist like that forever. Unless some force breaks that space, they will never be able to get out...”

“No seal is unbreakable!”

However, Yuan Zu’s low-pitched shout arose above their heads.

Boom!

Their soul altars were shaken. Then, the black sea emerged right before the massive Absolute Beginning body of Yuan Zu descended. The giant turtle was much bigger than several life stars, forcefully barging into the amber space. He wanted to smash it.

His real body was the Absolute Beginning creature called Yuan, a formidable existence at Third Sky of Territory Ancestor Realm. He had the highest realm in this vast sea of stars.

On earth and in heaven, in this dark, endless universe, and at the end of the mysterious abysses, only his peers like Devour, Desolate, and Zi Yao could compete against him. Except for those people, Sauron, the divine dragon whose tail they couldn't see, could also deal with him. Those experts were the ones who had walked to the end of their cultivating path to reach Third Sky of Territory Ancestor Realm.

Even in the Absolute Beginning Era, they were at the high echelon and not many people could resist them.

With his real body and the seething black sea covering it, this impact was extremely tremendous; it shook the entire world as if it could break an entire natural territory!

All the experts in this area were horror-struck. Even Rupert, Serene Prison, and Montecie had to change their faces as they moved backward.

Only Shi Yan wore a cold face and snorted. He hid in a space crack and watched Yuan's body bump into the space.

BOOM! BOOM! BOOM! BOOM!

Yuan in his giant turtle body had condensed the weight of so many territories in the sea of stars to savagely attack that amber space. The shockwaves from that impact had pressed on many experts. Blood streamed down from their seven natural facial holes. Rupert even felt his muscles shiver.

The solid void caused by Time and Space power Upanishad, the amber, sealed space didn't even have a scratch.

The warriors present here were all the strongest experts in this vast sea of stars. Whether they were from the same side or not, they were dumbstruck and their eyes were fixed on Shi Yan and Montecie.

Miracle! It was a miracle!

"Impossible! There's no space that I can't break! There's no seal that I can't tear!"

Yuan howled crazily like a beast at the last moment of its life. The giant turtle body shook hard and created waves of reaching energy, which discolored even the earth and heaven!

Pretty far from this area, because of his unceasing energy, many planets shattered and sank like tiny fireflies in the dark universe, disappearing to an unknown area. The territories under his seeping energy cracked and sent an apocalypse to the creatures living there.

"It's impossible!"

He was still launching more attacks and using both his energy and physical strength of the giant body to barge and tear this heavenly seal.

Unfortunately, all of his deeds were gone in vain. The area where Shi Yan's and Montecie's soul, power Upanishads, and God power had soaked had become an everlasting miracle of this world. It looked like when it was created when there was nothing in this world that could break or unseal it.

"The absolute time and space seals in their finest stage can even confine the world or an entire era and freeze billions of lives like insects inside amber. They will stay like that forever and nothing can change it..."

Deep in the void where clouds hovered, Zi Yao sat on the snake head, observing and sighing, "In our Absolute Beginning Era, no creature could merge time and space closely and magically like that. I can't believe people in this era could do it. It's lucky that you guys haven't reached Peak of Territory Ancestor Realm. Otherwise, not only this area but also the entire Sea Domain of Nihilism would have froze like this!"

Hearing her, all the experts looked disbelieving. They didn't know that when Time and Space powers were merged to the acme, they could seal the entire world!

"Yuan, you can't tear that space. I can't and neither can Desolate!" Zi Yao coldly looked at the giant turtle underneath and spoke indifferently, "Unless you can advance through the Territory Ancestor Realm to reach that level... Yeah, the Absolute Beginning Realm, you can use your thoughts to give birth to a whole new world. That's when you can unseal the eternal Time and Space Seal."

Her words silenced all the experts here. No one could retort. Yuan pulled himself together and mumbled, "It turns out that the rumor is correct..."

God of Slaughter

Chapter 1574: Ensure the victory

Most of the members of the Soul Clan, Devouring Clan, Black Demon Clan, and Ancient Monster Clan were sealed in that amber space. The battle with equal forces had lost its balance in just a blink of an eye. If this battle continued like this, it wasn't hard to imagine the result: the four clans' warriors would be erased!

Even Beverly, one of the Ten Great Territory Ancestors, the leader of the Ancient Monster Clan, was sealed there too. Without her, Edgar, Serene Prison, and Rupert would fall into a dangerous situation.

Slosh! Slosh!

The water murmured and Yuan inside the black water shrank rapidly. As the turtle was reducing its size, the black water was also sucked into its terrifying body little by little.

Shortly, Yuan disappeared, and Yuan Zu, its human clone, appeared on a river.

He lifted his head to look at the dim shadow of a snake in the sky, gazing at Zi Yao on the host snake with a dark and cold face while speaking, "We don't need to continue this war. We're leaving."

Edgar, Serene Prison, and Rupert wore a heavy face, wincing while checking their subordinates.

During this battle, their clans had to bear a significant loss. The ones in the seal were their key members. As they were frozen now, they would never be able to get rid of it.

Quite the contrary, Han Tian, Hiro, and the other members of their clans were stirred up by the powerful aura. They wanted to hunt the four clans to their last member. They were actually more eager in this battle.

This war wasn't in their control anymore. If they lingered, all of their fellows would have to bury their bodies here.

Edgar, Serene Prison, and Rupert nodded as they acknowledged their defeat. They wanted to leave this battlefield with Yuan Zu.

"It's not easy to leave." Hiro of the White Bone Clan was like a glowing sharp sword, locking the other three. Han Tian and Judy sneered simultaneously while gesturing. The Mysterious Sky Clan warriors gathered in response, their soul altars floating up into the sky while releasing an immense, endless energy.

"None of you has reached the Third Sky of Territory Ancestor Realm. Do you think you can stop me?" Yuan Zu snorted. The black river underneath him suddenly stretched deep into the Sea Domain of Nihilicity. The rolling stream emitted the marvelous fluctuations of the most fundamental Water power Upanishad. As soon as Edgar, Serene Prison, Rupert, and their subordinates stepped into the river, Yuan Zu's power protected them all.

That river elongated endlessly like a black band of fabric, then took the warriors except for Edgar, Rupert, and Yuan Zu, flowing away rapidly. Yuan Zu and the three experts stood on one end of the river, protecting the others.

Han Tian, Judy, Hiro, and Montecie felt Yuan Zu's terrifying aura from that water stream. They were a little shaken so they didn't take action but looked at Zi Yao in the sky and Shi Yan, who was not far from them...

Zi Yao sat neatly on her purple crystal throne, observing everything as she spoke indifferently, "Let him go."

Everybody turned to Shi Yan who grinned evilly, "Let them go..."

Han Tian and the others didn't talk more. With a cold face, they watched the enemies leave as no one stopped them. Shortly, the warriors of the four clans were delivered deep into the void by the black river. Yuan Zu and Serene Prison raked their eyes across the crowd before stepping on the river and flowing away.

After that river disappeared completely, Zi Yao's snake body shrank into a green light dot, disappearing into her glabella. Slowly, she descended from the void, her body gracefully pretty. "Yuan's pretty powerful. It didn't bear any damage from the last bloody battle of the Absolute Beginning Era. After so many years of accumulation, it's truly scary. It's really bad that it's not talented at all. Although it has mastered subtle conspiracy skills, it didn't spend efforts on cultivating and battling. Thus, even if it has a lot of energy, its realm isn't high enough..."

Zi Yao turned to look at the crowd. "If we don't force it too much, the threat won't be terrifying. When it feels its life threatened, it will burst out the energy it has accumulated over billions of years. At that time, except for the Territory Ancestor Realm experts, no one on our side would be able to stay alive."

Hearing her, Han Tian and the others turned embarrassed, their doubts vanishing.

“The Third Sky of Territory Ancestor Realm is the utmost realm in this world. At the same time, Yuan’s an Absolute Beginning creature. The energy it has can destroy dozens of territories. Once it bursts out, unless you are at the same realm, not many people can endure that,” Zi Yao said calmly.

The others nodded inwardly. They didn’t continue the topic as they recognized that they were just dizzy because of the sudden victory.

“The victory is ensured. Next, we must try our best to gain more benefits,” Zi Yao smiled, her bright eyes gazing at Shi Yan as she talked tenderly. “Shi Yan will take you to get the fruits of our victory. A Second Sky of Territory Ancestor Realm expert who cultivates Space power Upanishad is the nightmare of any enemy!”

Everybody couldn’t help but turn to look at him as well.

Shi Yan laughed, talking deliberately, “The entrance to the Soul Clan is open. The three territory souls Serene Prison has labored to breed for ten thousand years have been captured. The cultivating materials they have accumulated for tens of thousands of years should be cleared by now. Aimar and Mei Ji, I guess they are attacking the Black Demon Clan and Ancient Monster Clan now...”

Han Tian, Hiro, and Montecie were so happy that they couldn’t hold back their crazy laughter.

“Although Yuan Zu’s formidable, he hasn’t comprehended the Space power Upanishad. At their speed, even if they know their clans have been plundered, they can’t return in a short while.” Shi Yan’s face turned evilly cold. “But, I can deliver you to outside the Black Demon Clan and Ancient Monster Clan in just a blink of an eye. By the time they reach their homes, our business would be done already.”

Everybody had their eyes brightened on hearing that.

Meanwhile, Shi Yan closed his eyes and a dazzling space mirror flew out of his glabella, which then spun and reflected many different illusional spaces. Space light radiated from these spaces and slowly turned into three passages.

“They lead to the Black Demon Clan and Ancient Monster Clan. It depends on you guys to break the barriers out there,” said Shi Yan.

Han Tian, Hiro, and Montecie exchanged looks, then roared happily as they assigned their experts to head toward the two space passages. A large force of the Mysterious Sky Clan and White Bone Clan disappeared into the passages. After they moved through the passage, they could see Mei Ji and Emperor Sea Shark.

Shortly after, except for that amber sealed space, only Shi Yan and Zi Yao were left in the Volcano Cloud Sea.

“This spacetime seal is really fierce, as even Yuan couldn’t break it. As a matter of fact, I can’t break it either.” Zi Yao looked pensive as she observed the eternal seal. “It’s a miracle made by you and that little girl. The later generations will come and behold it.”

“Actually, I don’t think I can create another miracle like this,” Shi Yan frowned. “Besides God power and the resonance between the power Upanishads, rare encounters and destiny are required as well. I

believe Montecie has the same thought as me. We understand that we won't be able to create this sort of a miracle one more time."

"You're right! Many magical supernatural abilities need luck to be cast," Zi Yao nodded, changing the topic. "How much energy have you collected this time?"

Shi Yan didn't answer, just smiled and closed his eyes.

In this spacious battlefield, corpses were scattered everywhere while so many pieces of broken battleships hovered everywhere. Suddenly, seven devouring black holes emerged, revolving terribly with the immense and fierce energy that was mixed and polluted with negative energies and dregs.

It was waiting to be filtered and refined into pure energy.

There were numerous broken pieces of souls from the Mysterious Sky Clan, White Bone Clan, and Heavenly Craftsmen Clan. As their souls exploded, those pieces were just bits of memory covered in energy, having no chance to revive.

"That's a part of the Mysterious Sky Clan and White Bone Clan's members. Although they're dead, it's not good to let Han Tian and Hiro see me absorb them. So, I have to wait for them to leave first," Shi Yan explained.

Zi Yao smiled and nodded. "Right, they were their fellows! Although they are dead, in the others' hearts, they should rest in peace. They think like that because their vision is narrow. After all, in this world, when the creatures die, their souls will vanish, becoming heaven and earth energy one more time..."

Seven black holes slowly turned into seven ink-black orbs, disappearing into his glabella.

His face twisted, taking a deep breath. "Not bad! I got a relatively big harvest this time. Seems like only bloody battles can facilitate my breakthrough faster."

"What you can do...Devour can as well. The great war has happened in this era, so it won't stay idle." Zi Yao looked gloomy, "After it returned to the Devouring Clan, its power is slowly recovering. The members of the Devouring Clan have captured creatures in the territories they control for it to swallow. If it recovers to a certain level, it won't be afraid of the experts of the seven clans. Then, it will leave the lair and swallow the vast sea of stars. I have a premonition that it would seize a chance and attack..."

"Of course, we will have a fight. My Devouring power Upanishad comes from it. Only refining it will make me the only expert who possesses the Devouring power Upanishad!" Shi Yan talked harshly.

"The light column from the Power Upanishad Symbol Tower is your key to victory!" Zi Yao's eyes brightened. "It's the light that helped you get rid of Zhen Ru's invasion. I heard that it's the light from Absolute Beginning's eyes when it awoke and opened its eyes for the first time. One of the main materials to build the Power Upanishad Symbol Tower is the Absolute Beginning Eye..."

Chapter 1575: Endless Abyss

Empty Land...

So many cities had their gates opened, but there was nobody inside. It seemed that this place had been covered in dust for ten thousand years.

Empty Land was one of the biggest markets of the Sea Domain of Nihilicity. Every year, millions of warriors from different clans settled here, and the number of visitors was uncountable. Every day, battleships came and went regularly.

However, at this moment, it seemed that the entire Empty Land was lifeless in deadly silence.

Deep in the sky, several black holes were shrinking. The bodies of so many experts were stuck in those black holes, disappearing altogether. There were numerous motionless battleships and war chariots hovering in the skies of Empty City. However, no beam of vitality was found.

Time flew fast...

One day, a battleship of the Potion and Tool Union came, anchoring above Empty city.

A man stood on the battleship, his arms crossed in front of his chest. He looked at the quiet cities, his face shocked, and then immediately reported the situation.

The news that millions of creatures living on Empty Land had disappeared mysteriously had been spread out fast. Everybody knew about it, and every clan was shaken hard in fright.

This universe was facing its most dangerous time, being shaken continually; this era could end soon.

...

Han Tian, Hiro, and Montecie were leading their subordinates to attack the homelands of the Black Demon Clan and Ancient Monster Clan. They were shelling on the barriers cast by the two clans for tens of thousands of years to barge in.

Many powerful clans dependent on the Mysterious Sky Clan, White Bone Clan, and Phantom Clan had received the information. They then immediately gathered to attack the surrounding territories.

For example, Masha and Yvelines of the Heavenly Eye Clan had received orders from Judy, which asked them to find a chance and intrude the Wavy River Star Area next to them or the Tuke Star Area, which was even nearer. These two star areas belonged to the Soul Clan.

Previously, they didn't dare to trespass others' lands. However, due to the war between the seven clans that had reduced the Soul Clan's might, the Heavenly Eye Clan had gathered their best force to fight. Finally, they had stepped on the path of conquering. They joined hands with some other small forces under the Mysterious Sky Clan to attack the surroundings clans.

The war between the seven clans wasn't exclusive to the seven clans themselves. Many dependent races and forces had joined this war as well.

In this vast sea of stars and the borderless Sea Domain of Nihilicity, many territories and races had begun their fights. The race war was filled with slaughter, genocide, conquering, as death reached every corner of the universe, blowing past almost every race!

This striking war had boiled up the sea of stars and the current era. So many life stars had collapsed; numerous territories were utterly destroyed; explosions happened everywhere.

Death, slaughter, genocide, and battles happened in every territory.

The vastly immense universe was shaken hard as countless warriors perished together with their homes.

...

It was an icy, dark area. Underneath it was an endless abyss, and above it was the gray void.

The suns, moons, and stars fell like a sprinkle through the gray void into this icy world. Many collapsed territories, which looked like burst-off balloons also fell from the sky into this world.

This place had clouds with many colors and bright mists. However, occupying the place were also numerous massive abysses. They were scattered amidst the sea of clouds, gathering in clusters and big masses, too numerous to count.

The suns, moons, and stars falling from the sky would enter those abysses. Even the massive, shattered territories sank, falling into all those abysses.

This place was called the Endless Abyss, the bottom of the universe, the lowest land under the Sea Domain of Nihilicity. Rumors said that no creature could affect this place.

When the world was cleared and the universe collapsed, the suns, moons, and stars would fall into the Endless Abyss.

At this moment, because of the horrible war in the sea of stars, many life stars had exploded and many territories were torn apart. The broken suns, moons, and stars fell unceasingly, piercing through perpetual darkness to reach this place and then sank into those lake-like massive abysses.

Countless abysses hovered in the misty sea of clouds, always cold and silent, without a wisp of energy from living creatures.

At that moment, a silhouette quietly emerged in this Endless Abyss.

He was a middle-aged human man with white hair draped around his shoulders. With a pair of abyss-like eyes, he looked somehow archaic. He was wearing a simple, bright silver robe, walking in the void above an abyss. Sometimes, he lifted his head to watch the suns and moons falling, mumbling to himself, "Almost! The conditions to open it will be soon met..."

He was Sauron, one of the Ten Great Territory Ancestors. He was from the Human Clan, the real master of the Potion and Tool Union. At the Third Sky of Territory Ancestor Realm, he was the peak existence of the current era!

He was walking in the void above the abysses, watching the suns, moons, and stars falling, feeling the death of countless creatures. With an indifferent face, he was talking to himself.

The surface of each abyss he had walked through slowly projected some mysterious but incredible images of the warriors dying and soul altars exploding. Those images seemed to be the memories of the planets when they fell into the abysses. In silence, they were telling him many things...

He rarely showed himself. During the last tens of thousands of years, he had settled here to observe the Absolute Beginning Gateway hidden in there. He was waiting and promoting the chances of opening it.

The Absolute Beginning Gateway hid inside the Endless Abyss. This place was a mysterious land that had always been sealed since the Absolute Beginning Era.

The Absolute Beginning creatures had paid with the end of their era, but none of them could break the Territory Ancestor Realm to enter the utmost eternal realm.

The closed Absolute Beginning Gateway didn't open at that time.

Sauron had stayed here and observed for tens of thousands of years, trying to find the way to open the Absolute Beginning Gateway. To do that, he had done everything he could!

Boop!

As he was walking above an abyss, it suddenly changed into a clear lake.

Inside the lake, a shadow slowly formed: it was Zhen Ru...

Zhen Ru was standing on a cold dead star in the Sea Domain of Nihilicity. The lake also showed many members of the Myriad Shape Tribe who wore sorrowful faces and groaned in agony for the deaths of their fellows.

"You deceived me! All of my efforts were smashed by the light from the Power Upanishad Symbol Tower. I had almost been killed there. Many of my fellows died to save me! I've sacrificed so many warriors for your plan. You must shoulder the responsibility for the loss of our clan!" Zhen Ru's cold voice pierced through the lake, coming from a deep place inside the universe to this Endless Abyss.

The shoulder-length-white-haired Sauron wore an unconcerned face, his voice cold, "It's your greed that has harmed you. I did remind you. I asked you to instigate Cantecie and Fan De Lei's resentments against Shi Yan and make them fight against each other. I had never told you to kill him. He was able to fuse with the Power Upanishad Symbol Tower. Do you think you can kill him?"

Without waiting for Zhen Ru to snap back, Sauron talked coldly, "I told Montecie to give him the Cloud Mist Territory so that he could have a chance of obtaining the Skyfall Star River, which helped him attain the Absolute Beginning body. I want him to live well! He's the most important step in my plan. As he's the key to open the Absolute Beginning Gateway, before the Gateway opens, he must live well!"

"Yuan Zu has provoked a war between the seven clans. Is it a part of your plan, too? The seven clans are fighting. The entire universe is in chaos. So many suns, moons, and stars are shattering. This absolutely prosperous time will come to an end because of this! Is that what you really want?" roared Zhen Ru.

"No era can last forever. The Absolute Beginning Era was extremely rich and powerful, but it disappeared in the long river of history... How could it not happen? In my eyes, the end of the Absolute Beginning Era didn't bring any benefit because that gateway never opened. If it requires the end of our era to open the Absolute Beginning Gateway, I think it will be worth it," said Sauron firmly.

"Devour is killing around the sea of stars, slaughtering the big territories to recover its energy. This sea of stars can't endure its swallowing campaign anymore. It's getting more intimidating. If it is fully recovered, do you think you can still control the general situation?" Zhen Ru hissed.

“It’s still in my hands. Even if Devour returns to its peak condition, as long as it doesn’t make the last step, it can’t enter the eternal, utmost realm. So, it’s still in my hands,” Sauron said calmly. Pausing for a while, he frowned for the first time, “Shi Yan is the only variable. Since I can’t hold his string of Fate, I will sweep him away first after he opens the Absolute Beginning Gateway.”

“Who is that Shi Yan? What has happened after all? Why couldn’t you grasp his string of fate? You can see Devour’s and Desolate’s, so how could you not see his?” Zhen Ru was surprised.

Sauron pondered for a long time and then said in a gloomy voice, “During the last tens of thousands of years, I’ve been here, guarding the Endless Abyss and observing the Absolute Beginning Gateway to check if it would change. However, after dozens of thousands of years, it hasn’t had any minor change. I was even about to give up once...”

Zhen Ru was so curious, listening to him. She wanted to know what had occurred.

“At the moment I was almost hopeless, on a day hundreds of years ago, a flow of soul light flew out of that Absolute Beginning Gateway! That flow of soul had pierced through the Endless Abyss and disregarded the space limits to enter Desolate Territory, landing on the Grace Mainland. That soul light...was Shi Yan’s host soul,” said Sauron.

“A soul flew out of the Absolute Beginning Gateway?” Zhen Ru was dumbstruck.

Sauron nodded. “After his soul flew away, the Absolute Beginning Gateway that stood still for tens of thousands of years began to change subtly...”

God of Slaughter

Chapter 1576: Establish the world

The Cloud Mist Territory was located deep inside a sea of clouds.

The Grace Mainland that came from the Desolate Territory hovered inside the thick clouds as bands of smokes and mists twirled around the planet like ribbons. Heaven and Earth energy moved like dragons in every corner of the continent.

The warriors from Desolate Territory like Yang Tian Emperor, Shi Jian, Long Zhu, Carthew, and many other characters from different forces stayed here to cultivate their bodies and soul, comprehending power Upanishads and improving their God power Ancient Tree to reach the higher realms.

Many of them had their realms broken through quickly. As they had access to abundant Heaven and Earth energy here, their progress was steadily fast.

Today, three tunnels made of space ripples got through the territory from unknown areas, all appearing above the Grace Mainland.

The three tunnels pierced through the territory entrance, falling like a galaxy. Many warriors on the Grace Mainland were startled, floating up and gathering by the entrance of the three tunnels.

Shortly after, silhouettes began to fly out of the tunnels. Emperor Sea Shark, Ming Hao, Xuan He, Audrey, Azure Dragon, DeCarlos, and Frederick brought their warriors home. They all smiled, talking cheerily and loudly from the three tunnels.

The three tunnels were connected to the territories of the Soul Clan, Black Demon Clan, and Ancient Monster Clan respectively. Representing the forces in the Cloud Mist Territory, they had obtained a major harvest from the headquarters of the three great clans, which were the cultivating materials the three clans had collected and accumulated over tens of thousands of years.

“We don’t need to worry about cultivating materials even after ten thousand years. Let alone our Grace Mainland, even if we had warriors from ten Grace Mainlands, we’re sure we could satisfy their needs of cultivation resources.” Ming Hao’s cold face wore a sincere smile.

Under the furious attacks of Han Tian, Hiro, and Montecie, the Black Demon and Ancient Monster Clan’s ancestral lands had fallen. Experts of the Mysterious Sky Clan, White Bone Clan, Phantom Clan, and the Grace Mainland had swarmed toward them like hungry wolves, plundering all properties and precious assets.

From now on, the warriors on the Grace Mainland didn’t need to worry about their pellets, tools, armors, books of power Upanishads, and other cultivation aids. There were no doubts that they could reach high realms eventually.

A large amount of cultivation materials were transported through the three tunnels from the Soul Clan, Black Demon Clan, and Ancient Monster Clan. The warriors on the Grace Mainland were so excited when they found out about the spoils they obtained, and everybody soon became busy.

“Bring them all to the Endless Sea. We will arrange later. Everyone will get their share. Even your later generations will have the best cultivation materials. I’m sure we can use them for the next ten thousand years!” Ming Hao screamed. Under his arrangement, the cultivation materials from the three clans were stacked up like mountains. The experts then levitated them and transported them to the Endless Sea.

At the same time, things happened the same in the Mysterious Sky Clan, White Bone Clan, and Phantom Clan.

Through the space tunnels, the White Bone Clan, Mysterious Sky Clan, and Phantom Clan had also attained a great harvest. They gathered the spoils they obtained and transported them to their territories.

The Soul Clan, Black Demon Clan, and Ancient Monster Clan’s properties were cleared, and the guards in their headquarters were all killed. When Serene Prison and Rupert came home, what awaited them would be the three large ruins.

...

Staying hidden in a world between the Phantom Clan and White Bone Clan was a mysterious territory entrance which led to Cloud Mist Territory.

At this moment, Shi Yan was sitting cross-legged in that empty void. Starlight bloomed and sprinkled from his body. The Skyfall Star River was activated shortly as it moved and overflowed like a stream of starlight, heading to a deep place.

Pieces of free asteroids and broken planets around him were attracted by his Star power Upanishad, gathering from far away.

Gradually, the empty area was packed with asteroids that slowly piled upon each other. Pairs of giant hands made of stars twisted and squeezed them, creating a massive planet.

This planet had the broken pieces of asteroids and planets as the foundation. At first, it was tiny, but the continent began to enlarge as Shi Yan poured more energy.

After an unknown time, along with his uncontrollably increasing energy, that planet was now ten times bigger than the Grace Mainland, and it was more colossal than the Dragon Lizard Star.

The massive continent hovered in the void, gradually transforming into a magical land like the ancestral land of the Phantom Clan or the White Bone Clan. Heaven and Earth energy gathered, becoming as thick as a fog that never dispersed.

Time flew by, and finally, the new continent had been established. Receiving his message, a group of experts living on the Grace Mainland like Emperor Sea Shark, Xuan He, and Ming Hao flew toward him from the secret entrance.

They began to build cities and palaces on this new planet, plant spirit herbs, arrange formations, dig up channels to guide the outer space flood to make seas and rivers. They even piled up the rocks to create high mountains and urged the Wood power Upanishad to grow forests...

Slowly, the new continent grew vigorously, now having mountains, rivers, lakes, and murmuring energy. It even had jungles and volcanoes, all things suitable for the warriors to live and cultivate in.

The new continent had become a magical land which could be compared to the ancestral lands of the Phantom Clan, White Bone Clan, and Mysterious Sky Clan in the Sea Domain of Nihilicity. It gathered many experts of the Grace Mainland who stayed there to survive and cultivate, gathering energy from outer space to expand the land further, making it formidable.

The low-realm warriors at Original God Realm, King God Realm, or lower realms stayed on the Grace Mainland in the Cloud Mist Territory. They continued to cultivate and advance their power in that closed but safe environment.

The new continent was situated in the Sea Domain of Nihilicity, right at the entrance to Cloud Mist Territory. At the same time, the Cloud Mist Territory was an independent territory, which was sealed and pretty safe.

In a corner of the new continent, which was considered a forbidden place, was a strange desert with yellow, flying sand. It was quiet and burning hot. Deep in the desert was a vacuum where a majestic man was sitting.

He had been sitting there for so many years.

One day, the Territory Ancestors, including Montecie, Mei Ji, Hiro, Han Tian, Judy, Forefather Dragon Lizard, and Dracula appeared in the sky. They observed the new land, their eyes radiating strange lights.

Thirty years ago, this place was just an empty space with rare rocks and broken planets. It used to be isolated and cold. But after thirty years, a planet had emerged with thick Heaven and Earth energy, mountains and rivers. Everything was growing lushly; many cities were built where warriors lived and cultivated.

It had become a magical land like the Empty Land. Someone had created it from nothing by squeezing asteroids and planets together.

“Get down there,” Hiro looked at that area deep inside the desert. The others nodded, then turned into jets of light, zooming toward that area.

In the control center of this new continent, Ming Hao, who was at the Territory Ancestor Realm, suddenly frowned. He turned into a shadow, walking out of the fortress and hovering in the void of the planet.

“Experts from the White Bone Clan, the Phantom Clan, and Mysterious Sky Clan...” Emperor Sea Shark’s voice came from another city. “Dismiss the light protection. They have come to find Shi Yan.”

Ming Hao nodded in response.

An invisible cage that protected the entire planet vanished slowly. The planet looked like an egg that had its shell peeled off as the outermost protection was dismissed.

Han Tian slowly nodded. “They’re doing great! They’ve done a lot of excellent work with so many Heaven and Earth treasures from the Soul Clan, Black Demon Clan, and Ancient Monster Clan. This protection formation isn’t weaker than the one the Soul Clan used to have.”

“The Soul Clan, Black Demon Clan, and Ancient Monster Clan have declined, and they’re rising. They’re now the strongest force in this vast sea of stars.” Hiro watched the cities underneath and felt the intimidating auras inside as he said, “After several hundred years, they will be as strong as our three clans. With Shi Yan and that woman, nothing is impossible for them.”

Thirty years later, Montecie hadn’t been able to reverse time to appear in her little girl body. The wounds she had to bear from the previous battle weren’t recovered fully. She squinted, observing the still figure in the desert while feeling complicated.

While talking, they landed like meteors or rainbows at the center of the desert, gathering by Shi Yan.

Shi Yan was sitting motionlessly in the vacuum area. He was right in front of them, but Han Tian, Hiro, and Montecie couldn’t feel his soul signals. It was as if he wasn’t there. The strange feeling shook them as they knew that his realm had advanced further.

“Cough! Cough!”

Hiro looked at him and coughed, his eyes yearning.

Everybody scrutinized him, waiting for him to wake up. No one made any noise.

A long time later, that vacuum area slowly disappeared. Yellow sand flew everywhere, covering his body. At this moment, he opened his eyes, which looked misty and puzzled. After a while, his eyes regained focus; it seemed he had traveled through times and space, so he couldn’t locate himself yet.

They didn’t talk much, just watched and waited for him.

After fifteen minutes, he regained his sound mind, his eyes turning deep and bright as he smiled, “You’ve come early.”

After saying that, he touched his forehead, causing two dazzling Absolute Beginning symbols to fly out. The two Absolute Beginning symbols had thick Time and Metal auras. "I promised you to refine an Absolute Beginning Original Symbol. Here you are. Take them."

The Time Original Symbol turned into a jet of light, entering Montecie's eyes.

Montecie's mesmerizing appearance slowly changed as the time reversed. She got shorter, her cascading hair shrank into her head, and her ample bosom turned smaller...

After dozens of seconds, Montecie had returned to her twelve-year-old little girl appearance. At the same time, her attainment in power Upanishad had increased.

Hiro with the Metal Original Symbol was like a sharp sword that could break the sky, carrying an invincible aura with his keen power. He was so thrilled that he could say nothing but 'Thank you!'

God of Slaughter

Chapter 1577: Prevailing trend

Shi Yan stood up, his long, black hair reaching his waist. He had a majestic body like a mountain accompanying his sculpted face, filled with an attractive masculine beauty. He grinned, asking. "How's the prevailing trend of this vast sea of stars?"

"Just quieted down," Mei Ji looked at him, her beautiful eyes fascinated. She chuckled and explained, "The war between seven clans has stirred up the entire sea of stars. The smaller clans dependent on the seven clans are also fighting. Death has cast its shadow on every territory as warriors are attacking each other in almost every life star."

Everybody was emotional because of the brutal war in the universe. They didn't interfere, just letting Mei Ji continue her explanation.

"We, the Mysterious Sky Clan, the White Bone Clan, and you guys cleared the lairs of the Soul Clan, Black Demon Clan, and Ancient Monster Clan. We've shared the properties they had accumulated over tens of thousands of years. After Rupert and Serene Prison came back to their ruined homelands, they went crazy. They gathered their forces in the other territories to fight against us.

"Too bad for them. At first, you massacred their clans and sealed a large number of their elite force in the Volcano Cloud Sea. Thus, they didn't have enough forces. The Soul Clan, Black Demon Clan, and Ancient Monster Clan were defeated constantly. Eventually, Serene Prison and Rupert knew that they didn't have the strength to reverse the situation. They took their remaining members and hid away. Even the Phantom Clan doesn't know where they are."

"So, you guys have shared the territories and star areas the Soul Clan, Ancient Monster Clan, and Black Demon Clan controlled?" Shi Yan squinted, looking at Han Tian, Hiro, and Montecie.

Han Tian laughed and didn't deny. "You guys took a large amount of cultivation materials from the Soul Clan, Black Demon Clan, and Ancient Monster Clan. We didn't ask for a bigger share. You guys got the right to choose first. At that time, we did say that we had to get more benefits later."

Hiro added timely, "Your foundation isn't big enough, and you don't have a large population either. Even if you placed your hands on those territories, you wouldn't be able to keep them."

Shi Yan nodded, waving his hand, "Never mind, we know our competence! Yeah, at this moment, they're not capable of gaining more. Continue, how about the Devouring Clan?"

Hearing that, the people pulled a stern face.

"Among the four clans, the Devouring Clan bore the least damage. While we were fighting in Volcano Cloud Sea, Devour didn't stay idle. He had furiously swallowed billions of creatures on Empty Land, which is now a dead area. No creature survived there."

Mei Ji's face was cold. "Its madness hadn't stopped there. It went to the Sea of Annihilation, covering the place. So many races and creatures in the Sea of Annihilation were cleared in the same manner. The Sea of Annihilation now deserves its name, totally annihilated."

Mentioning the Absolute Beginning creature Devour, they didn't have a relaxed countenance. Hiro and Han Tian also put on a solemn face as they considered Devour a great danger.

"After slaughtering the Empty Land and the Sea of Annihilation, Devour quieted down. We got the news that it's staying in the Devouring Clan's territory. It hasn't shown up after dozens of years," said Mei Ji.

Shi Yan nodded, "It's like me. After a frantic devouring time, we need to refine the energy and discharge the dregs. Otherwise, our soul would collapse, which would reduce our realm. I'm sure it has been refining energy during recent years. When it wakes up, it will be even more terrifying."

Everybody had a heavy face as they were listening to him.

"Anyway, the Devouring Clan doesn't have a relaxed life. Families and friends of the victims Devour had killed in Empty Land and the Sea of Annihilation are billions, scattered in many big territories in this sea of stars. They've gathered and attacked the Devouring Clan several times."

Mei Ji smiled coldly. "We did join their operations secretly. We've hit the Devouring Clan hard and left them with a lot of heavy damages. They learned experience from the Soul Clan, Ancient Monster Clan, and Black Demon Clan, and have run away. We don't know where they are hiding right now."

"It's because Devour needs time to recover. It couldn't take action during the riots. Otherwise, you guys couldn't have forced them to retreat and seclude easily like that," Shi Yan furrowed his brows while talking, "When it has recovered, of course, it will raise the storm again. At that time, not many existences can subdue it..."

Everybody sank into a silence.

After several fierce battles, they knew how formidable the Absolute Beginning creatures like Devour, Yuan Zu, and Zi Yao were. They recognized that the Absolute Beginning creatures at the Third Sky of Territory Ancestor Realm were almost invincible.

They also understood that because of Yuan Zu, the Soul Clan, Black Demon Clan, and Ancient Monster Clan could hide away and they couldn't find them in this dark outer space. Only Yuan Zu had the power and was cunning enough to conceal the three entire clans.

“Where is she?” Mei Ji asked all of a sudden, but she didn’t look at Shi Yan. Everybody was surprised, watching the latter. Of course, Shi Yan knew who they were talking about...

Zi Yao had disappeared mysteriously for thirty years. Although the Phantom Clan had an excellent intelligence system, such that they had ears and eyes in every corner of the universe, they had never spotted her. It actually scared them too.

Zi Yao was the Absolute Beginning creature called Hui, and her intimidation had been carved deep in their minds. Montecie, Hiro, and Han Tian thought that Zi Yao was the pillar, the existence that could resist Devour and Yuan Zu. They had to care about her ability to determine their direction in the future.

They knew that no one in this dark universe could know about her condition besides Shi Yan!

“Just like Devour, she’s trying her best to recover her energy. I have never asked or searched for her whereabouts,” Shi Yan gave them a vague answer.

“Another one...Desolate...How is it doing?” Han Tian pondered, his face respectful and scared. “Recently, he hasn’t made any move. Desolate Territory has disappeared. Judy and I got through the Sea of Annihilation to get to the entrance. We wanted to intrude Desolate Territory to see. However, behind that entrance was just an endless void, as the Desolate Territory was gone.”

Judy looked frightened. “Rumors say that he was the God of War in the Absolute Beginning Era. He used to be the peerless expert of that time. His movement’s important to us as well. Only you can feel his existence. How is he now?”

Everybody glued their eyes on Shi Yan.

Shi Yan winced. After a while, he shook his head and said, “I don’t know. I can’t feel his existence. As his power has recovered, I’ve gradually lost the connection with him. It seems like he has vanished from my soul sensing. But, the pressure he gives me stays all the time!”

Taking a deep breath, Shi Yan hissed, “He must be getting stronger. I’m sure I will have a chance to win in the battle with Yuan Zu, but still, his pressure exists deep in my soul like a perpetual shadow. The only thing I can confirm is that...he’s much more dangerous than Yuan Zu now!”

Everybody was shaken hard. They looked disbelievingly as a shadow began to cast over their hearts.

Desolate—the God of War—was the strongest Absolute Beginning creature at the Peak of Territory Ancestor Realm, just one step away from the utmost realm. Hui and Devour had joined hands to attack him, but they didn’t win. The final battle of Absolute Beginning Era had ended with the dormancy of the three, which also announced the end of their era.

“It’s good that you come here today. It could be a good chance to find Desolate,” Shi Yan said after a while, his face earnest.

“What?” Han Tian didn’t get it.

“Follow me to Cloud Mist Territory. Help me cover that entire natural territory. I want to merge the Grace Mainland into my Absolute Beginning body!” Shi Yan hissed. Then, he didn’t wait for Han Tian’s team to show their extreme fear as flows of souls flew out of his head, which looked identical to him.

They glided fast above the new continent, which was called Heavenly Rock, finding Xuan He, Ming Hao, Emperor Sea Shark, Audrey, DeCarlos, and the others to send his message.

Shortly, a hidden entrance opened up.

Emperor Sea Shark, Ming Hao, and Xuan He moved to that territory entrance, going to the Grace Mainland inside Cloud Mist Territory. Billions of warriors and ordinary people living on the Grace Mainland received the order to relocate. The warriors at the King God Realm had to move to the Heavenly Rock Continent in Sea Domain of Nihilicity, while ordinary people and warriors under the King God Realm were relocated to the life stars around the Cloud Mist Territory.

Deep in the thick mist of the Cloud Mist Territory, Shi Yan hovered like a God observing the Grace Mainland and the leaders like Emperor Sea Shark, Xuan He, and Ming Hao controlling the warriors and ordinary people to move to different planets. Gradually, creatures on the Grace Mainland were delivered away. Shi Yan's Soul Consciousness stretched like billions of tentacles to check every corner of the Grace Mainland in case they had missed some creatures or humans.

Many massive cities, palaces, and buildings made of giant rock were plucked by the supernatural ability of the warriors. They floated up, moving to different continents.

Thirty years ago, Shi Yan had attracted the asteroids and broken planets to create the Heavenly Rock Continent. It was the new home for the warriors from the Grace Mainland.

The Grace Mainland was one of Desolate's parts, a big part for that matter. Shi Yan could feel that he could take and merge that body part into his Absolute Beginning body, making it a part of his.

For one-fifth of Desolate's body, he had planned over so many years...And today, the time had finally come!

[God of Slaughter](#)

Chapter 1578: Head to the Holy Land

The eternal sealed area created by Shi Yan and Montecie, Volcano Cloud Sea.

Many warriors were scattered outside the amber sealed area. Some were discharging dregs in their bodies while others were trying to learn the power Upanishads. Also, there were visitors traveling to this place just to watch the experts of the four clans who were sealed like fossils inside the amber.

This place had become a wonder of the Sea Domain of Nihilicity, a miracle that attracted many experts to come and behold!

Inside that eternal seal, Beverly was beautiful with her snake body. She was really outstanding in the middle of tens of thousands other warriors. People came, watching and pointing at her. "She's Beverly, one of the Ten Great Territory Ancestors. She was the master of the Ancient Demon Clan. Too bad that she has been sealed here for more than thirty years."

This land could seal one of the Ten Great Territory Ancestors; of course, it attracted a lot of eyes. Except for that, this place had more magical features...

At first, when someone cultivated outside, they found that time seemed to go slower. Although they felt that they had been there and cultivated for one hundred years, only a little more than ten years passed in reality.

Around the eternal seal area, time flew disorderly and it seemed to be slightly held.

To some people that didn't have long life spans, this place was the best place to cultivate. They could spend a dozen years to exchange for one hundred years of accumulating energy and comprehending their realm. What was better than this?

That's why many warriors around couldn't help but gather around the outer edge of this sealed area to cultivate. It was how they saved their time.

The seal was so vast and the peripheral area seemed almost endless. Thus, even if tens of thousands of warriors were cultivating here at the same time, they wouldn't disturb each other.

Especially for the warriors cultivating Time and Space power Upanishads, they didn't mind the long distance to come to this place. They had crossed many territories to come here as if it was the best pilgrimage in their lives.

To them, this place was a real holy land!

This magical land was created by the power of Time and Space and it casted an eternal seal. It could guide them and provide them with a place to observe and learn the mysteries of Time and Space power Upanishads.

Many men and women cultivating Space and Time power Upanishads came as they knew Shi Yan and Montecie had magically cast this wonder by combining their power Upanishads. During their cultivation, many of them had become husbands and wives. It had somehow become a romantic legend.

In a remote corner, a man shrouded in a jet black robe was standing. He hovered like a ghost. The hood of his robe concealed his face. From a distance, he was watching the sealed area. Observing Beverly for a while, he stooped and sighed.

After a long time, another figure came. He looked imposing with thick demon Qi meandering around his body, which also hid his appearance.

He came to the ghost in a black robe and hissed, "Brother Serene Prison."

The thick demon Qi dispersed and it revealed Rupert's handsome but severe face. He looked at Beverly, his face complicated.

The man put back the hood on his head. He was Serene Prison. Deep in his dark eyes, a flame of anger burned. "We've been fighting for thirty years. We are worn out. After the Ancient Demon Clan lost Beverly, it was divided. They don't have the power to resist anymore. Our two clans have been defeated continuously. We're dispirited..."

"All is because of this seal. It confines our elite force. If not, how could we be so pathetic like this?" Rupert said with a dark face.

"I've been here for three years and I've tried so many ways. I even sent my soul to the seal..."

Serene Prison wore an ashen face as he shook his head and said desperately, "It's so evil. That seal prevents even the soul. My Soul Consciousness couldn't intrude. Sigh, if we can't break this seal, our elite force can't get out. We will have to live like turtles. We won't dare to fight Han Tian and Hiro."

"They'd killed millions of our warriors in our homelands. They plundered all the properties we accumulated for tens of thousands of years!" Rupert's eyes had a spooky flame of wrath as he spoke through his gritted teeth. "I must take revenge on them! The glory of our Black Demon Clan, the faith that we have held high for tens of thousands of years, can't be erased in my hands!"

"The Soul Clan will not decline in my hands, either!" Serene Prison hissed.

Slosh! Slosh! Slosh!

Sloshing water arose when a black stream zoomed in from a far distance. A figure slowly materialized in the black water. It was Yuan Zu in his human form. He came to Serene Prison and Rupert, and said, "Don't worry. Your clans won't decline. As long as you can reach Third Sky of Territory Ancestor Realm, we can overturn everything in just a blink of an eye!"

"... Third Sky of Territory Ancestor Realm? Sigh, that's easier said than done," Serene Prison wore a bitter face.

"Your chance is right in front of you. I have news from Sauron. He said that the Absolute Beginning Gateway is changing more. It's about to open. During our Absolute Beginning Era, it never had any commotion. It holds the last riddle of earth and heaven. We tried everything but we couldn't open it that year. But now, it's obvious that the gateway is about to open..."

Rupert and Serene Prison's eyes brightened when they heard that.

Belonging to the most prominent group in this universe, they had chances to talk to Sauron. Of course, they knew the meaning of the Absolute Beginning Gateway. Actually, if the seven clans didn't have that war, they would have been preparing to enter that door.

"The Absolute Beginning Gateway can change everything. It can reverse your bad situations!" Seeing that they were moved, Yuan Zu tried to entice them. "Your remaining fellows are safe now. I've hidden them away. Come with me to the Absolute Beginning Gateway to slaughter Shi Yan's team. As long as we win the battle at the Absolute Beginning Gateway, you guys can determine the future of this universe!"

"What does Sauron think?" Rupert asked all of a sudden.

Serene Prison also pulled a stern face. "Yeah, what is his attitude?"

"I'm not sure, actually. Anyway, I think that because Sauron planned this for thousands of years, he must have accurate calculations." Yuan Zu stooped to watch the sea of clouds under his feet. "I always feel that the chaos in our universe is instigated by Sauron. Although this man is from the Human Clan, he's very smart. I can say that he's the strongest expert of this era. I can't see him through. He has his conspiracy, but no one can scheme the Absolute Beginning Gateway! As long as you agree to help me,

I'm sure your Soul Clan and Black Demon Clan will become the strongest clan in this world in the future!"

"Who will come to the Absolute Beginning Gateway besides us?" asked Serene Prison.

"Of course, Edgar and the Devouring Clan will join this. Recently, Devour has created so many calamities in Empty Land and the Sea of Annihilation to recover his power. He's preparing to go to the Absolute Beginning Gateway. They will be a part of this." Yuan Zu's eyes flared with evil lights. "Han Tian, Montecie, Hiro, Shi Yan, and ZY will form a party. They're the key. Since Shi Yan has the Power Upanishad Symbol Tower, Sauron will try every means he has to lure him there..."

Pausing for a while, Yuan Zu said, "Sauron and Zhen Ru have joined hands discreetly. This time, after Myriad Shape Tribe got damaged badly, they've retreated. Zhen Ru, of course, is on Sauron's side. As the one who planned all of these, Sauron is guarding the Absolute Beginning Gateway. They are the most formidable party because Sauron knows a lot of things about the Absolute Beginning Gateway."

"And who else?" asked Rupert.

Yuan Zu quieted down. After a long time, he wore a respectful face and said, "I'm sure Desolate won't miss it. That year, he even used his intimidating power to attack the Absolute Beginning Gateway directly! If he hadn't failed and got hurt severely, Hui and Devour couldn't have dismembered him and sent him into a coma like that."

"Is Desolate that fierce?" Serene Prison was frightened.

Yuan Zu pulled a sour face and sighed, "He can be much more terrifying than you think. Each era has its peerless warrior. Sauron of your era is a peak existence. He's invincible. In my time, Desolate was the sort of existence like Sauron... He's an invincible legend. All the creatures in my time had to live in his shadow..."

"If we let him recover fully, I don't know who can fight him. At that time, he'll be the biggest variable. Sigh, even though I know he was dormant in Desolate Territory, I didn't dare to get there and fuse with him..."

Rupert and Serene Prison exchanged looks. They understood that Yuan Zu had an instinctive fear for Desolate, which made their hearts heavier because they hadn't thought about Desolate much.

"If we can save Beverly, we will have a greater chance. Do you have any strategy?" Serene Prison looked at Yuan Zu.

"Before you came, I've tried many times. It would be a miracle if we break this Time and Space Seal," Yuan Zu shook his head reluctantly, "If I could, I would have done it already. We should have seized time when we could to prepare for the battle at the Absolute Beginning Gateway."

"What do we need to prepare?" Serene Prison was surprised.

"In the Absolute Beginning Era, I didn't join the last battle. I was hiding at that time. It's the only Absolute Beginning land that has been preserved perfectly until now! I've hidden it. No one knows where it is. It still has some good things from the Absolute Beginning Era that you can use to enhance your power," smiled Yuan Zu.

Serene Prison's and Rupert's eyes brightened.

"Follow me! Before Sauron contacts me, we must accumulate energy for the last battle!" Yuan Zu stepped on the black river and headed towards the dark void. "You guys shouldn't think too much about your clan in a harsh condition. You should know this: As soon as we can harvest something in the Absolute Beginning Gateway, it will be much more than what we used to have!"

God of Slaughter

Chapter 1579: Smelting

Flows of terrifying aura emitted from Cloud Mist Territory hovered in the air and shook every soul in this territory.

Many people were relocated to Heavenly Rock Continent or the other life stars around from the former holy land of Cloud Tribe. The experts like Ming Hao, Xuan He, Emperor Sea Shark, Sha Zhao, Shang Chen, and the others were working unceasingly to help their fellows moving out of this place.

In the misty sea of clouds, Hiro, Han Tian, Judy, and Montecie were watching Grace Mainland and discussing in low voices.

On Grace Mainland, Shi Yan was like an ancient Demogorgon as he appeared in his Absolute Beginning body. The fierce, overbearing aura that was emitted made every creature shiver in fear.

Shi Yan's Absolute Beginning body was like a massive shadow cast over Grace Mainland that covered all the light from the sky.

His body was like a colossal mountain. The suns, moons, and stars sparkled in his eyes, which were deep and twinkling like the immense universe. His iron-like body was covered in thick scale armor, which was naturally connected to his skins and flesh. Bone spikes grew from his bones like so many sharp swords and flashed coldly.

"What an amazing Absolute Beginning body! The immense quantity of his Blood Qi has shaken everyone's soul," said Gay of the White Bone Clan as he was eyeing Shi Yan's body.

"It's the real Absolute Beginning body. Sigh, I'm far behind this..." Forefather Dragon Lizard sounded emotional.

When the last group of mortals left the place, Ming Hao, Xuan He, and Frederick sent the soul message to Shi Yan and reported to him that no creature was left on Grace Mainland.

Many cities, countries, and mountains of pellets and materials were teleported away from Grace Mainland by the experts' supernatural abilities.

At this moment, Grace Mainland was vast with forests and rivers scattered like blood veins everywhere. However, there was no creature and no sign of a country or life.

However, looking at this life star, no one would have thought that it was barren as they all felt the immense and vigorous energy on this planet. The energy fluctuations here were so powerful.

All warriors of Cloud Mist Territory were arranged to stay pretty far away from this area; they couldn't see Shi Yan's giant figure.

While I'm melting Grace Mainland, you guys seal the entire territory. Don't let any Soul Consciousness intrude," Shi Yan hovered above the continent, his voice like thunderclaps.

Hiro, Han Tian, and the others nodded.

Shi Yan didn't say more.

Swoosh! Swoosh! Swoosh! Swoosh!

His beautiful, colossal soul altar arose from his head like an unfolding roll of picture.

Underneath the borderless Sea of Consciousness emitted the energy that could cover the entire world. The soul pond in the center wasn't small anymore, the crystal clear soul energy murmuring.

The tier of power Upanishad was above the Sea of Consciousness with the Space Imprint that was like a prism. The Star Imprint was like a galaxy, the Life Imprint was like a Light Ball, and the Devouring Imprint was like a black hole. The eight evil powers appeared as the eight islands...

The space above that tier was a chaotic area, which was Shi Yan's territory.

That territory seemed to be concealed by a block of blurry air, which hindered people from seeing what was inside. However, when they used their souls to sense, they felt an infinitely mysterious feeling as if their souls had just touched a window to another universe. They felt that they had sensed the magical power of creation.

Everybody exchanged looks. They couldn't hide the fear on their faces. They knew Shi Yan's territory was magical with endless secrets.

The two identical souls, which looked like Shi Yan's real body, hovered above the chaotic territory. They were like twins. The soul mist emitted from them and gathered by the chaotic territory.

Among the two souls, the host soul looked blurry and it had the same shade with the turbulent territory. The Power Upanishad Symbol Tower floated above the co-soul and slowly moved as if it would never cease. It was strange to the eyes, indeed.

As the experts were watching him, Shi Yan closed his eyes. However, his host soul's eyes still opened. The light in his eyes shot like meteors toward Grace Mainland.

All of a sudden, a five-colored sea of flames emerged from under the co-soul. That sea of flames had auras of the flames from the Origin. It expanded and flew out of the soul altar, aimed at Grace Mainland.

BOOM!

Shortly after, the entire Grace Mainland was covered in the five-colored flame sea. The auras of the heaven flames merged with Shi Yan's soul energy and Soul Consciousness, shrouding the entire continent.

Magically, the heaven flames were burning Grace Mainland. However, they didn't burn the forest, crack the ground, or dry the seas. Although it was so scorching that Judy, Han Tian, and the others could feel the terrifying heat, it didn't destroy the natural landscapes of the continent.

The sea of flames had turned Grace Mainland into a massive, burning globe. The horrible flames shot out everywhere and burned the void.

The surrounding temperature rocketed. DeCarlos, Adeles, and the other low-realm experts couldn't resist the heat waves. They had to move backward and hover far from the scene.

"Seal the territory!" Shi Yan's soul message filled the entire territory and made all the experts in this place receive it.

Han Tian, Hiro, and Montecie exchanged looks. They immediately took action, strengthening all the territory barriers and concealing the territory entirely. No wisp of Soul Consciousness could intrude this territory.

"You're a little wanton. If you want to refine Desolate's clone, you should tell me first." Right when they were about to take action, Zi Yao's voice came from deep in the sea of clouds underneath. "You're lucky that I got it when you started. Yeah, I'm here to help. Even if Desolate knows what you want to do now, he can't affect you."

Everybody was stunned and they all looked at the clouds under their feet.

Zi Yao, who had disappeared for years, slowly emerged from Mist Territory underneath. She was still dazzlingly gorgeous. At this moment, the light in her eyes was so terrifying.

During the recent ten years, she had cultivated ascetically in Mist Territory under Cloud Mist Territory. Cloud Mist Territory was formed by Cloud Territory and Mist Territory. The layers of clouds supported Cloud Territory while the continent down there was Mist Territory.

Walking out from Mist Territory, Zi Yao gave a faint smile as the snake mark on her forehead vibrated strangely.

Shortly after, billions of seven-colored divine light bands turned into countless snakes with consciousness expanding to the entire territory and guarding every barrier.

The entire Cloud Mist Territory had become brilliant with so many colors. It looked like millions of fireworks exploded at the same time. The scene was so beautiful that it made people feel they were dreaming.

Seven-colored halos appeared and covered the entire territory, sinking each planet of this territory in rainbow bands and auspicious clouds. It was strikingly marvelous, indeed.

Just like a miracle!

Han Tian, Hiro, Montecie, and the others could feel the changes of the territory and the intimidating energy released by Zi Yao alone. They were all frightened.

Soon, they recognized that after thirty years staying silent, Zi Yao was much stronger than she used to be in the battle against Yuan Zu in Volcano Cloud Sea.

"I know you won't stay idle down there. You can take action to help me in any minute. It seems like your power is almost recovered," Shi Yan grinned and watched Zi Yao floating up. "If you weren't here, I wouldn't dare to do it so early. I would have waited until I reached Third Sky of Territory Ancestor realm to refine this clone of Desolate."

"Then why didn't you wait a little more? If you reach Third Sky of Territory Ancestor Realm, even without me here, you can successfully melt his clone. It will reduce the risk to the lowest level," said Zi Yao with a frown.

"He won't give me much more time..."

Shi Yan pondered for a while, his eyes like a moving galaxy. He looked in a direction, his eyes piercing through all space barriers to reach the mysterious area. "I can't feel his whereabouts, but the pressure he puts on me never subsided. I think he prepared well. He will come to me soon. I don't have much time left..."

Hearing him, Zi Yao put on a stern face. She knew how bold Desolate was more than anyone else. Thus, she understood Shi Yan's worries.

"Alright, do it now. We will join hands. I think we can stop his furious attack." Zi Yao didn't dare to linger. "As he wasn't here yet, he should have something he was afraid of. You should seize the chance and refine his body. If you can take this energy, when you face him, you will have the power to counter..."

Her face turned solemn. She took a deep breath and then asked Hiro, Han Tian, and Montecie, "Listen, go and guard the big barriers of this territory. Follow my lead to strengthen the barrier. Don't act alone. Otherwise, we can't promote and use your power to the acme."

"Hiro, you go East. Using the Metal power to increase the thickness of the barrier. Use the metal rocks of the three continents around to create a metal wall!"

"Han Tian, go South. It's a burning area with so many volcanos. It's suitable for your power to be maximized there. Remember to gather all of your energy to control the surrounding flames and create a sea of fire. Whenever you spot a wisp of intruding Soul Consciousness, tell me immediately. Don't attack it!"

"..."

Zi Yao wasn't trying to be polite. She ordered Hiro, Han Tian, Montecie, Judy, Forefather Dragon Lizard, Gay, Dracula, and Mei Ji to guard different locations where there might be not enough defense. They had to use their different powers to strengthen the defense.

To prevent Desolate's interruption, she was more cautious than ever. She didn't look at ease as when she faced Yuan Zu.

Han Tian's group trusted her competence. No one offended her assignment. All acted as they were told. They immediately dashed away to different areas as she assigned them to use their energy to guide the natural forces and strengthen the barrier.

After a while, Zi Yao turned to Shi Yan and hissed, "You can start now!"

God of Slaughter

Chapter 1580: Soul attack!

Billions of five-colored flames moved with their own consciousness outside the Grace Mainland. The Grace Mainland was now a massive burning globe that was pulled out of the holy land of the Cloud Tribe. The warriors around could see it clearly.

Many warriors from different clans were watching the event from very far away. Still, they could feel the heat and the changing of their territory.

The weather in Cloud Mist Territory was a little cool like the perpetual autumn. It never felt as hot as a normal summer here.

At this moment, as the massive fireball was hung up, the temperature of the entire territory rose. The warriors living in this territory felt like they were living on a sunny day.

They used their soul to sense and then float up in the sky to observe.

They saw a massive fireball float up from the Cloud Tribe's holy land. It continuously radiated dazzling light and scorching heat. It naturally attracted many experts.

Right after that, they saw the seven-colored divine light cover the entire Cloud Mist Territory. The area was blooming beautifully and brilliantly.

They recognized that this territory changed greatly. Many people proactively gathered by Ming Hao and Xuan He. They wanted to know what was going on over there.

Swoosh! Swoosh! Swoosh!

Billions of magnificent lights shot out from Zi Yao's graceful body and zoomed everywhere. Those bands of light locked the entire sky as if they were an extremely large net in the sky. No warrior or creature could intrude this area.

As Grace Mainland was still rising, the flames burned more fiercely. Shi Yan let his soul altar emerge, both of his souls gazing at the continent.

"Break!"

Shi Yan's host soul sent a thought that connected to his Absolute Beginning body and created a giant cross saber. That sharp saber then dashed toward Grace Mainland.

Crack! Crack! Crack!

Grace Mainland crackled fiercely. The giant fireball was torn apart and it released immense, thick energy.

However, at this moment, Shi Yan's co-soul suddenly flew up and turned into a jet of light that entered the big crack on the continent to reach its nucleus. Shi Yan's soul altar returned to his head. The savage Absolute Beginning body suddenly had furious and intimidating energy. His muscles bulged like mountains. Suns, moons, and stars moved in his eyes and energy gathered on his hands.

It looked like he was holding a brilliant galaxy in his hands with so many twinkling stars. The mysterious, complicated starlight fell on the burning globe right after that.

Boom! Boom! Boom!

Waves of energy rippled. Shi Yan's giant Absolute Beginning body grew bigger. He was now even more terrifying than the suns or moons.

His colossal body suddenly lay down deep in the sea of clouds. His hands gestured and guided so many galaxies. The starlight materialized into chains and shackled Grace Mainland, pulling it toward his chest.

The onlookers then pulled themselves together to watch the event, their faces in disbelief. Many low-realm, shallow warriors couldn't help but scream.

Grace Mainland was now on Shi Yan's chest like a fire rubber ball. Compared to his body, it was so small that Shi Yan could hold it. It looked like he was holding a burning ball, which was really incredible to the eyes.

While the others were watching him in fear, Shi Yan used both hands to clutch that burning planet. The surging energy in his body was like a flood breaking the dam that frantically gushed into the center of the planet.

Although the continent was burning, the water in the Endless Sea didn't evaporate. From an extinct volcano in the Heavenly Monster Mountain Range, the Origin's magical energy emerged. Shi Yan's co-soul flew and got in there to enter the deepest location of the planet to explore the place contained the Origin...

The core of Grace Mainland was a wonderful land with dazzling starlight and thick earth and heaven energy.

This place had so many mountains connected to each other as if they didn't have an end...

That long mountain range suddenly began to move unknowingly. At first glance, it was like a dragon lying on the ground. At this moment, the dragon was wiggling frighteningly.

That unceasing mountain range became lively like a living creature or a part of a giant creature that was still dormant. Because of the massive change on the surface of the planet and the heavenly flames' stimulation, this body part awakened. It began to twist as its instinct was to unite with the body.

It was like the case of Zi Yao's snakes. No matter how long they slept or wherever they were, when they woke up, their instinct was to guide them back to Zi Yao, the master.

It was a basic instinct that no one could erase.

At this moment, the mountain range twisted and wiggled, trying to escape this area to unite with the host body.

Swish!

All of a sudden, Shi Yan's co-soul appeared. He watched the extremely long mountain range and released the energy of the Origin. This sort of energy made Desolate's part feel familiar. The wiggling part slowly calmed down.

At the same time, by the barriers of Cloud Mist Territory, earth-destroying energy barged in. The angry roar from the dawn of this world crossed the borderless spaces to hit on that space barrier.

BOOM!

Hiro of the White Bone Clan had cast a metal sea right there after gathering the metal energy from the three adjacent planets. He had created a barrier outside the territory wall. At this moment, as his barrier was impacted, a massive flow of energy from the wild beast violently hit the barrier and sent Hiro away.

Hiro's bone body was as beautiful as crystal, flawless white gems. However, after that attack, his magnificent jade-like body had so many hair-lined cracks!

He discolored in fear and watched the metal sea bewildered. He was horror-struck, indeed.

"He got it!"

Right at this moment, Zi Yao screamed as if she was facing her arch enemy. Billions of light bands shot from her body and turned into beautiful cotton clouds covering Hiro. Rivers of divine lights flew towards and supported Hero to deal with Desolate's attack.

All the experts gathered in Cloud Mist Territory including Montecie, Han Tian, Judy, Dragon Lizard, Mei Ji, and Gay discolored, their faces extremely stern.

They saw the cracks on Hiro's body!

Among the seven clans, the White Bone Clan had a tenacious body that was actually extreme; it was the closest to the Absolute Beginning body. Hiro was at Second Sky of Territory Ancestor Realm, but his body was cracked after just a hit.

How intimidating and fierce was it?

"We're so many spaces away and he doesn't know Space power Upanishad. I'm sure he can't appear here with his body. However, he can track down the coordinates of his soul clones. He can use his soul power, Soul Consciousness, and God power to barge into the territory space barrier. He won't allow Shi Yan to melt his body. He'll attack us furiously. Get yourself together! We must try our best to defend!" screamed Zi Yao.

Billions of rainbow bands shot out from her eyes and reached where Hiro was protecting to mend it.

Rumble! Rumble!

Another wave of brutal impact shelled on that barrier and deformed it like when a hammer pounded on a rubber ball.

Without the divine light energy strengthening and mending the barrier, that territory barrier was going to break shortly, which would allow Desolate's Soul Consciousness and soul energy to enter Cloud Mist Territory and kill Shi Yan.

Zi Yao turned into a jet of divine light and tried her best to protect that section of the barrier. She released so many bands of divine lights to resist Desolate's power.

As Han Tian and the others saw the situation, they hurried to go there and help Zi Yao.

Zi Yao yelled hastily, "Protect your spots! Do not leave your positions. He's using Dark Energy to attack. He can aim at any section of the territory barrier. Take care of your section. Do not come here!"

Her voice woke them up. They didn't dare to leave their spots but gathered their God power and released their best abilities to create and strengthen their barriers.

Hiro getting hit hard made them not look down on Desolate any more. Although his body wasn't here, he had used his Soul power to attack Hiro. Hiro's body almost exploded. Desolate's competence was beyond Yuan Zu!

Thump! Thump!

Forefather Dragon Lizard's heart beat frantically. He drove the lava from a volcano underneath. Sending his Soul Consciousness to the lava, he made it a burning barrier to improve his section of the barrier.

From his Ancestor Lizard's memories, he knew about Desolate's power vaguely. He didn't dare to relax, anyway. He had accumulated all energy to resist Desolate's impact.

All of a sudden, his body shook hard. He looked at the space barrier by him and felt like he was watching a strange sea with many power Upanishads moving around...

It was a sea with so many jets of light weaving with each other. If Shi Yan was here, he would have known that it was the fountainhead of power Upanishads. He had to use the heaven flames as the key to enter a long time ago. At this moment, that fountainhead of power Upanishads appeared in the void and attracted Forefather Dragon Lizard.

Forefather Dragon's consciousness became blurry as his soul was about to be sucked and attracted to that fountainhead to search the ultimate features of power Upanishads.

"Don't get in there!"

However, at this moment, Audrey's cold voice arose, which was like a sharp sword that thrust into Forefather Dragon Lizard's head.

He felt a twinge in his nerves that made him sober instantly. He was frightened as he knew that his soul was intruded. He had almost destroyed himself.

Boom! Boom! Boom!

Three horrible impacts came from the space barrier. Three flows of furious energy broke the lava barrier. Although they were subsided getting through the burning barrier, they still made their way to hit Dragon Lizard.

Just like Hiro, Forefather Dragon Lizard was like a rubber ball kicked far away. He rolled toward the deep clouds and bled terribly.
