

Slaughter 1591

God of Slaughter

Chapter 1591: Searching

In front of Shi Yan was the milky Life Sea, with the immense life energy rippling and churning. It was like a giant, throbbing heart that boiled his blood.

He winced in fear trying his best to subside the wiggling Life Ball in his tier of power Upanishads. In his soul altar, the crystal ball released powerful energy fluctuations. The Life Absolute Beginning Original Symbol was like a wild and bold dragon pulling the Life Ball out to enter the sea of life in front of him.

It seemed that the Absolute Beginning Original Symbol should be merged with the sea of life, bringing Shi Yan's Soul Consciousness, vitality, and body altogether.

Shi Yan didn't feel okay with it!

An instinctive fear churned in his heart. He was worried that all of his soul seals would be erased. This feeling came from deep in his inner world as a warning.

Swoosh! Swoosh! Swoosh!

Although he had tried his best to suppress it, the crystal ball—the essence of his Life Power Upanishad—had forcefully flown out of his soul altar, hovering three meters above his head.

The Absolute Beginning Original Symbol that represented Life in the ball was still swaying, trying to enter the sea of life in front of Shi Yan.

Boom!

His body seemed to be burning as the life energy burst out torrentially from his body. The immense and wild life energy didn't listen to his Power Upanishad anymore as it dragged his body together with the crystal ball and the Absolute Beginning Original Symbol toward the sea of life.

Thump! Thump! Thump!

In the sea of life, energy rippled thickly and exploded like loud drumbeats. The terrifying explosions sounded like thunderclaps in Shi Yan's Sea of Consciousness, shaking his soul altar tremendously. The Sea of Consciousness, soul pond; and the Star, Space, Devouring, and other Power Upanishads were shaken hard as if they were about to be shattered soon. The life energy was trying to expel them out of Shi Yan's Sea of Consciousness.

It was an extreme self-repulsion!

The Power Upanishad Origin inside that sea of life had the purest principle, that it didn't allow any other power Upanishads to stay in his soul altar. All other power Upanishads which weren't the Life Power Upanishad would be destroyed utterly when they got into the Life Sea.

As soon as he got it, Shi Yan was scared out of his wits. He urged all of his strength and even transformed into his Absolute Beginning body to suppress his body from entering the Life Sea. As he

roared, blood splashed out while he was trying to back off step by step and as far from that milky sea as possible.

The suns, moons, stars, and strange light fell from his eyes, turning into a sharp claw to grip the crystal ball, forcefully drawing it backward.

Returning to the soul altar!

Shi Yan didn't dare to linger. Just like an ancient, savage beast, he was roaring and backing off away from that Life Sea.

It was only until he couldn't feel that frantic energy in the sea that he exhaled in relief and shrank his body into human form. He sweated while looking at the sea of life with fear he didn't conceal.

He had gotten it...

If he wanted to fuse that sea of life and merge the Life Power Upanishad Origin into his soul altar, he needed to eliminate all the other power Upanishads he had cultivated. He must use the soul altar with only Life Power Upanishad in it to enter the sea of life to have a chance of getting it.

The Power Upanishad Origin only accepted the warriors with the purest Power Upanishad. For example, the sea of Life Power Upanishad would only acknowledge the expert who had dedicated his entire life in cultivating only the Life Power Upanishad.

Apparently, Shi Yan didn't meet the requirement.

To him, the Life power Upanishad was only a power Upanishad, one of many he had cultivated. It wasn't the sole power he had!

He had cultivated the Space, Star, Devouring, as well as the eight evil powers at the same time. Once he entered the sea of life, the marks of all other Power Upanishads would be obliterated at first. All the studies and memory he had accumulated over hundreds of years would be forcefully erased.

With only the Life power Upanishad in his body, he was qualified to fuse with the milky sea!

"Who's the motherf*cker that set up such damned rules? To the experts with many Power Upanishads, this land isn't an auspicious land...It's the land of disaster!" Shi Yan paled, cursing indignantly; but, he had no other way.

He couldn't abandon his Space, Star, Devouring, or the other Power Upanishads. Moreover, even if he did discard them, he still didn't have anything to ensure that he could successfully get the Life Power Upanishad Origin.

He would be just qualified to get the Life Power Upanishad Origin if he did that.

It was a huge price to pay!

That was why he hesitated, scolding and cursing the ones who had set up such rules. Looking at the sea of life, he clenched his jaw while pondering. After a while, he recognized that even with his knowledge and memory, he didn't know how to solve this problem, so he gave up.

"Well, just put it aside then. I need to check the others first. Then, I will decide." Pondering for a while, he got himself together, keeping a certain distance from that Life Sea. He began to use his Life and Soul Control Power Upanishads to create a clone with the Absolute Beginning blood as the body and a wisp of his soul.

Shortly after, by the time the life energy in his host body was weakened, he had created nine clones that connected directly with his body and soul.

As his thought flickered, the nine clones flew in nine different directions, trying to find a way to help him out of this difficult situation.

...

Edgar was following close after a shadow that was wandering around the empty space. After each hour, a shadow would come, landing near that shadow and leaving after less than a minute.

Edgar watched those shadows come and leave. He knew they were the soul clones of his ancestor, created by the Soul Control power Upanishad. Devour had poured energy into his clones to power them for a while. After they had consumed all the energy, they would return to him.

Those clones were just in the soul form and didn't have a flesh body, so their speed was really amazing. However, because of their soul form, they couldn't contain a lot of energy. That was why they had to return to him several times to obtain energy supplementation.

Shi Yan's nine clones were created by his Absolute Beginning blood, so they could contain a lot of energy. At the same time, they had the power to fight for a while. But, even though they didn't need to refill energy many times, they couldn't move too fast. Compared to Devour's soul clones, they had advantages and disadvantages.

At this moment, many soul clones were moving around Devour. He was like a departed ghost that didn't have a destination as he continually used the soul clones to search around. The areas he had passed were filled with his soul clones, so he had a large searching range. Keeping on like this, he would find the way to cope with the Power Upanishad Origin soon.

"Oh?"

Devour halted; Edgar could see his shadow move fast when he concentrated.

In a place very far from them, Emperor Sea Shark was standing on a massive water ball. He was urging his Soul Consciousness, using the Water power Upanishad to enter the Water Power Upanishad Origin. However, at this moment, a shadow emerged not far from him, opening a pair of spooky green eyes like a ghost.

Emperor Sea Shark changed his countenance. As he didn't know that it was Devour's clone, he thought it was the evil native creature from here. He didn't think much, immediately urging the power to attack the shadow.

Swish! Swish! Swish!

A tender water current shot out of his eyes like a ribbon. As soon as he shot this ribbon, he was struck by a resonance with the Water Power Upanishad Origin when he urged his Water Power Upanishad. Some magical power had blended with his water current, making it ever changing.

Sizzle!

A soul clone of Devour got hit and exploded into green bubbles, which sparkled like Devour's eyes. The eerie eyes scrutinized Emperor Sea Shark for a while and then flew backward.

Emperor Sea Shark felt a shiver sent down his spines when the spooky green bubbles gazed at him, as if an evil creature was watching him. Hesitating for a while, he stopped his work of fusing with the Water Power Upanishad Origin, hovering and waiting for the coming events, if any.

"Hmm!"

In another area, Devour-the black shadow-twisted for a while. Not long after that, a cluster of spooky green bubbles flew toward him from a far distance. When they came near him, the bubbles turned into jets of green light, entering his black shadow.

"Forefather, what did you just find?" asked Edgar in a low voice.

"That Emperor Sea Shark something is lucky enough. He has found the Water Power Upanishad Origin and is trying to get it. He smashed one of my hollow soul since it couldn't endure the power," Devour's voice was vague and low. "I have memorized him. Once I get my Power Upanishad Origin, I will swallow him."

"Do we need to notify Yuan?" asked Edgar as he was a little bewildered.

"No need. If he got the Power Upanishad Origin first, he would become very annoying," Devour stopped Edgar, talking coldly, "What we need to do now is to find my Power Upanishad Origin. It's much more important than anything else."

"Yes, I got it," Edgar nodded respectfully.

...

By the beautiful glacier, Mei Ji's graceful body turned crystal white, sparkling magnificently. She hesitated for a while to sense the initial commotion of the Ice power Upanishad in her soul, eventually deciding to enter the glacier, the magical land of Ice power Upanishad.

"We found it! We finally found it!"

Someone was cheering in a distance as two shadows came rushing shoulder to shoulder, both of them icy cold.

They were the two experts of the Snow Tribe Sauron had brought here with him. The Snow Tribe lived in the All-cold Snow Territory, and they all cultivated the Ice power Upanishad. These two members of the Snow Tribe were two white-headed men, wearing all-white clothes with fur.

After they parted from Sauron, they had wandered around to check, slowly reaching this place because of the density of the coldness.

As soon as they arrived, they found Mei Ji who looked like a statue of a Goddess made of ice. She was floating up to try and get into the glacier.

The brothers exchanged looks, then roared while turning into two ice dragons and bellowing as they stormed toward Mei Ji.

God of Slaughter

Chapter 1592: The battle on the glacier

The Snow Tribe lived in the All-cold Snow Territory, the coldest place in the Sea Domain of Nihility. The entire territory was frozen year-round.

The All-cold Snow Territory was the sources of strong, cold gusts blowing through the Sea Domain of Nihility for billions of years. It was bitterly cold and harsh; even the warriors cultivating Ice power Upanishad didn't dare to visit this place regularly. The Snow Tribe was born in the All-cold Snow Territory, so they were born immune to coldness, and were also geniuses in cultivating the Ice Power Upanishad.

Ten thousand years ago, a member of the Snow Tribe in All-cold Snow Territory had reached the Second Sky of Territory Ancestor Realm, immediately making the Snow Tribe famous.

He left the All-cold Snow Territory to visit the hustling-bustling lands around the Sea Domain of Nihility. Wherever he traveled, the world was frozen. He had brought many troubles to the other clans; eventually, he came to the Mysterious Sky Clan's territory and bumped into Han Tian, who cultivated the Fire Power Upanishad. Moreover, Han Tian hated the experts with Ice Power Upanishad a lot.

Although they didn't have any grudge against each other, they had an earth-shaking battle. After that battle ended, the man the entire All-cold Snow Territory had idolized as the God of the Snow Land was wounded severely. He returned to All-cold Snow Territory, and hadn't shown himself ever since.

That expert was called Xue Ye (- lit. snowy night), and was the pride of all members of the Snow Tribe. Right here, this pair of brothers from the Snow Tribe were his sons, Xue Yuan (- lit. snowfield) and Xue Feng (- lit. snowy zenith.).

That year, when Xue Ye battled Han Tian, he was wounded and had helped create Han Tian's fame. After he returned to All-cold Snow Territory, his territory was still burning. He knew he couldn't save his life; thus, he decided to divide his God power into two parts and send it to his sons. His power thus created two new Territory Ancestor Realm experts for the Snow Tribe.

Xue Yuan and Xue Feng at the First Sky of Territory Ancestor Realm were the new hope and pride of the Snow Tribe. They decided to follow Sauron with the hope of restoring the Snow Tribe's glory. They wanted to find Han Tian to take revenge. Coming through the Absolute Beginning Gateway, they wanted to find the Ice Power Upanishad Origin, which would push them to the higher realm on their path to the ultimate power.

Thus, on seeing the glacier, the appearance of the Ice Power Upanishad, that they were trying hard to find, they didn't think much and just stormed forward.

Xue Yuan and Xue Feng swayed, turning into two Icy Frost Snow Dragons. The bright silver dragons roared and shrilled in the world of ice, their giant dragon horns turning into a massive icicle and stabbing toward Mei Ji.

The sharp ice column had reached Mei Ji despite the distance while the cold power expanded, as if it wanted to freeze and crack the entire sky. As Mei Ji also cultivated Ice power Upanishad, she sensed the cold aura and hissed coldly, "Your realm isn't high enough!"

The void in front of Mei Ji's chest was frozen into an icy jade at a speed naked eyes could observe. The two ice columns created by the dragon horns forcefully stabbed at her, but could only hit the icy jade.

Crack! Crack!

The ice columns broke into pieces and the Icy Frost Snow Dragons screeched, as if they got hit hard.

Mei Ji's face was cold, her eyes sparkling in the world of howling snowy wind. "Members of the Snow Tribe, you guys are the geniuses cultivating the Ice Power Upanishad. No wonder why you guys could come here without an Original Symbol. Unfortunately, your realm isn't high enough. You dare to vie for the Ice Power Upanishad Origin? Are you dreaming?"

Crack! Crack!

The ice blocks on Mei Ji's body shattered, and the thousands of shattering ice shards turned into a tornado, swarming toward the two Icy Frost Snow Dragons.

Instantly, the silver body of the Ice Frost Snow Dragons had thousands of cuts on them. The pricking air got through the small cuts, stabbing into the two brothers' Sea of Consciousness.

The Ice Frost Snow Dragons exploded into painful shrieks as the snowflakes flew and congregated into their bodies. The two Snow Tribe warriors next reappeared with so many cuts on their body.

The white, cold air fumed from the cuts. The two brothers shivered even though they cultivated Ice power Upanishad; they felt so cold as if their souls were going numb.

"Brother, she... she is at the Second Sky of Territory Ancestor Realm," Xue Feng stuttered. Xue Yuan's face was cold. He pondered for a while and then said, "We should use the two parts of cold energy father left us."

"Brother!" Xue Feng screamed, his face changing.

"This is the only way to gain victory!"

Xue Yuan screeched while pounding on his chest. A cold light shot out of his heart, turning a crystal clear sword. The cold and sharp energy moving inside the sword made Xue Yuan numb.

Xue Feng was bewildered for a while. When he recognized that he couldn't stop his brother, he didn't hesitate anymore. From his heart, the same cold light shot out, strangely merging with Xue Yuan's light.

Crack! Crack!

The two swords had merged into one, turning even more dazzling. It then formed an ice dragon, thrusting toward Mei Ji.

Mei Ji focused on the incoming attack, her charming face turning stern. She could see that this ice dragon had several thousand Icy Frost Snow Dragon souls sealed in it!

The Icy Frost Snow Dragons were the halidoms of the Snow Tribe. It was a kind of strange beast living in the All-cold Snow Territory. They were really mighty, and they could swallow the cold air to cultivate. The Icy Frost Snow Dragon were the guardians of the Snow Tribe for many generations while living in the All-cold Snow Territory.

Xue Yuan and Xue Feng had received their father's cold power, which they had used to break through to the Territory Ancestor Realm. Afterward, they discovered the land where the souls of the Icy Frost Snow Dragon rested, and refined those souls into the two parts of cold energy they got.

Actually, they wanted to use the cold energy they inherited to deal with Han Tian. But at this moment, they had to use it for the Power Upanishad Origin.

Several thousand Icy Frost Snow Dragon souls contained the bone-chilling energy that was extremely terrifying and could be compared to the attack of an expert at the Third Sky of Territory Ancestor Realm. Mei Ji was at the Second Sky of Territory Ancestor Realm; seeing the ice dragon, she pondered for a short moment and realized that she couldn't resist it.

Mei Ji gritted her teeth, plunging directly to the glacier like an ice arrow.

"She...What does she want to do?" Xue Feng was surprised, screaming. Xue Yuan couldn't explain it either. He focused, getting a hold of himself. He sent more power to the dragon that had several thousand Icy Frost Snow Dragons sealed in it to chase Mei Ji further.

Strangely, Mei Ji's body fell into the glacier and she disappeared quietly like a water drop in the vast sea.

The ice dragon created by the Icy Frost Snow Dragon souls was still roaring and howling. However, it halted uncontrollably before it could reach the glacier.

The dragon shivered in fear as if it knew that as soon as it got to that glacier, the thousands of Icy Frost Snow Dragon souls would perish shortly.

"Brother, why is that?" Xue Feng screamed as he didn't get it. He poured more energy, but the ice dragon didn't listen to him.

"I don't know what is going on down there," Xue Yuan was also bewildered.

While they were still befuddled and hesitant, a clone of Shi Yan arrived, appearing above the glacier.

The nine clones departed from the host body could vaguely feel Mei Ji, Emperor Sea Shark, and Montecie. Those who had received an Original Symbol from Shi Yan would have a magical connection with the Power Upanishad Symbol Tower, which helped him locate Mei Ji and the others.

From that weak connection, when his nine clones flew away, they could travel the same routes Mei Ji and the others had chosen.

One of his clones had found Mei Ji. However, as soon as he arrived, the connection with her was cut off. He didn't see Mei Ji around this glacier, but he saw Xue Yuan and Xue Feng.

Similarly, Xue Yuan and Xue Feng saw him. After they retrieved the ice dragon, they found a stranger appearing here. As a result, they immediately became vigilant as Xue Yuan asked, "Who are you?"

He couldn't feel the cold aura from Shi Yan, so he knew that the latter didn't cultivate the same power Upanishad. He was really hostile to Shi Yan.

"Who are you?" Shi Yan was surprised.

"We're from the Snow Tribe. We're here to find the Icy Frost Snow Dragon Power Upanishad Origin. You don't cultivate the Ice power Upanishad. You've come to the wrong location. I hope we won't disturb the other's business," said Xue Yuan. He couldn't see through Shi Yan's cultivation base. Although it was just a clone, since Shi Yan had reached the Third Sky of Territory Ancestor Realm, his clones were strong enough. Thus, Xue Yuan didn't want to provoke more trouble.

"Who did you follow to get here?" Shi Yan got it shortly and he arched his brows. "Which group do you belong? Sauron's, Yuan Zu's, or Devouring Clan's?"

Xue Yuan changed his face immediately, "You, which group do you belong to?"

"The group that came first," Shi Yan grinned fiendishly.

"Who are you?" Xue Feng screamed in fear? "Are you Emperor Sea Shark or Forefather Dragon Lizard?"

Before they came here, Sauron had told them about Shi Yan's companions. Hearing that he was from the group that had arrived in this place first, the two brothers knew that the situation wasn't going well.

"You know a lot, don't you?" Shi Yan smiled, "I'm the one who has opened the Absolute Beginning Gateway...I'm Shi Yan. I guess you came with Sauron, right?" While pausing, his face turned cold and he shouted, "Where's Mei Ji? Before I got here, I could feel her aura around. Where's she now?"

Xue Yuan and Xue Feng were shocked as they instinctively backed off, their faces grimaced.

Shi Yan's name had been spread around the entire sea of stars. All warriors knew the meaning of his name: the most brutal God of Slaughter who had massacred the headquarters of the Soul Clan, Devouring Clan, Black Demon Clan, and Ancient Monster Clan. He had instigated the war between the Seven Great Clan. He had cast an eternal seal using two power Upanishads...

The description of Shi Yan flashed in their heads, making them feel bitter blame their bad luck.

"I ask you one more time...where is Mei Ji?" A malicious light sparked in Shi Yan's eyes as he became impatient, walking on the void toward the brothers while shouting.

Xue Yuan and Xue Feng exchanged looks, then shouted and urged the ice dragon that had sealed several thousand Icy Frost Snow Dragon souls. They wanted to try their best to resist.

[God of Slaughter](#)

Chapter 1593: Clones gather

The ice dragon with the Icy Frost Snow Dragon souls inside it moved while releasing the bone-chilling cold air, which was cold enough to freeze even the void.

Shi Yan squinted, his eyes filled with bright starlight and his face heavy.

This body was just a clone, and his real body wasn't here. Facing the ice dragon attack with the cold energy, he was a little afraid. Hence, he decided to dodge.

Rumble!

His hands made a cutting gesture and bands of brilliant galaxies emerged, filling up this patch of void. The magnificent star rivers weaved with each other into a marvelous star map.

Shi Yan's clone shrank into a tiny light dot that flashed twice and then disappeared into the star map.

The ice dragon fell into the star map when the crackling sounds of freezing void arose. The brilliant stars and weaving star rivers were frozen, and the spinning star map was halted.

Space and void, everything visible and invisible was frozen by the cold power of several thousand Icy Frost Snow Dragon souls inside the ice dragon. Everything looked like a mosquito trapped in amber forever, or the eternal self Shi Yan and Montecie had cast.

The star map with many star rivers crossing each other became frozen in crystal ice. Xue Yuan and Xue Feng exchanged looks, then swayed and flew toward the ice dragon that was hovering in the middle of the frozen star rivers.

"Where's he?" Xue Feng used his soul to check as a flow of cold air that seemed like frost tried to search for Shi Yan's body.

"It is rumored that this man has supernatural abilities, and that he has numerous Power Upanishads as well. Turns out he's not really bold." Xue Yuan frowned while shaking his head. "We can't trust rumors, you know? I thought he was tough. Seems like we've overestimated him."

"Haha, it has also proven our superb techniques." Xue Feng wore an arrogant face. "The cold energy by the Icy Frost Snow Dragon is even stronger than my father's full-force attack. Let alone Shi Yan, even Han Tian can't endure it!"

Xue Yuan nodded in agreement.

They had come from the All-cold Snow Territory that was thousands of miles away. Of course, they had some tricks. Otherwise, they wouldn't dare to confront Han Tian. They could come and follow Sauron because of the fierce Icy Frost Snow Dragon anyway.

"I think he's frozen in the star rivers!" Xue Feng confirmed. He looked at the crystal starlight underneath while snorting. "As long as we crush this star river, his body will be crushed too. Even if his soul isn't affected, his body will be destroyed!"

Xue Yuan's eyes brightened. "They say he has the Absolute Beginning body. So...he must have the Absolute Beginning blood in his body!"

Xue Feng became greedy, licking his lips as his eyes turned hot. "If we suck his blood, we can have the Absolute Beginning body too?"

"Theoretically indeed," Xue Yuan lowered his voice, his eyes also turning hot.

The brothers paused for a few seconds and then suddenly urged power at the same time. Deep in their eyes, numerous icicles, ice columns, and snowflakes twirled and roared like a frantic tornado, heading toward the frozen star rivers!

BOOM! BOOM! BOOM!

Earth-shaking explosions reverberated as starlight shot out of the star rivers together with pieces of ice. The star map created by the star rivers shattered in just a blink. A wave of immense and mysterious star energy rippled, creating more explosions.

Shortly, the star river was crushed, disappearing away. All of the light rays, dots, and pieces of ice spread out in the endless void.

The two brothers focused on sensing, using their Soul Consciousness to check every minute energy fluctuation. They wanted to find Shi Yan's body to suck his Absolute Beginning blood and transform themselves.

However, even until the last beam vanished, they didn't find a wisp of Shi Yan's aura. Shi Yan had disappeared, as if he had never existed here. This strange situation raised an insecure feeling in the two brothers.

"Brother, this is not normal!" Xue Feng muttered, his eyes sparkling. Eventually, his gaze fell on the glacier not far from there. "Did he enter the Power Upanishad Origin just like that woman?"

Xue Yuan was surprised. "Could be!"

When they had joined hands to attack Mei Ji, she had plunged into the glacier that represented the Ice Power Upanishad Origin as soon as she realized that she couldn't defeat them. The ice dragon couldn't attack her, and now, Shi Yan had disappeared similarly. They naturally assumed that Shi Yan had entered glacier like Mei Ji when he saw the situation turn bad.

"Then what should we do?" Xue Feng was a little worried. "Sauron said that if we can obtain a Power Upanishad Origin, we will become the sole God of that Power Upanishad. We can even make rules! That woman has got in there. Should we hurry as well?"

"Do you know how to obtain the Power Upanishad Origin?" Xue Yuan shot him a look.

"I don't know."

"Then why are you hurried to get there?"

"But, but..."

"No buts! We just wait here to see if something's going to change!" Xue Yuan pulled himself together.

"Fusing with the Power Upanishad Origin isn't something easy. If that woman wants to take it, something strange will happen here. We just wait here to see that. When we find the chance, we will kill her!"

"Okay!"

The two brothers didn't want to act rashly. They hovered by the perpetual glacier, observing daily and noticing every small detail of the glacier.

The glacier was the Ice Power Upanishad Origin. The two brothers hovered silently, using their minds to observe. Gradually, they were surprised when they found their understanding of Ice power Upanishad getting more profound.

This finding thrilled them, and they got even more certain about their decision of not going over to the glacier. They sensed the cold energy moving inside the glacier and carefully seized the chance to learn more.

In the serene void, a drop of bright and clear blood was moving swiftly like a stunning ruby; Shi Yan's soul resided inside that drop. This drop of blood was Shi Yan's clone that had escaped the glacier area.

Xue Yuan's strange ice dragon had sealed thousands of Icy Frost Snow Dragons in it, all having a formidable power. It wasn't wise to take on the dragon with only a clone, so he decided to dodge the spear and find another clone nearby to fuse with.

Meanwhile, another clone approached him.

Swoosh!

This clone halted while flying and the drop of ruby blood came over to his chest, merging with his blood. After this fusion, his life energy fluctuation became twice as strong, his soul and energy enhanced greatly.

"Hm, still need a bit more. Two clones aren't enough. To be safer, I should get another clone..." Then, Shi Yan's clone went to another clone.

Two identical Shi Yan merged with each other like some illusions, becoming one.

The Shi Yan created by three clones had his life, soul, and aura increased sharply. This Shi Yan had a closer relationship with the host body, and he could even receive power from the host body through space.

"It's good now..."

Shi Yan's lips moved and he turned into an invisible flow of energy, shooting across ten thousand miles to reach the glacier.

"Brother, did you feel something... strange?" Xue Feng was sitting by the glacier. He opened his eyes and stopped comprehending the power. "Seems like the glacier's moving. It's slowly moving as if it has a life. Do you feel it?"

Xue Yuan changed his countenance as he turned to the glacier. "I got that feeling too."

In front of them, the perpetual glacier emitted a cold energy while moving. However, only the two of them who cultivated Ice Power Upanishad could sense such a minor motion. They thus sent their Soul Consciousness there to check and confirm as well.

“The glacier is shrinking...” All of a sudden, Xue Yuan jolted up. He hurried to float up in the void to observe as if he had spotted something terrifying.

“Gosh! What...What’s going on?” Xue Yuan screamed hoarsely.

They then saw the perpetual glacier shrink from two sides. From their position, they saw the glacier turn into a woman’s shape.

It was Mei Ji’s body!

“She...She’s attempting to take the Ice Power Upanishad Origin!” Xue Feng hovered in the air as he understood immediately, “We can’t let her get it at any cost!”

“Of course, we must stop her!” Xue Yuan’s face was cold. He immediately urged all of his power to break Mei Ji’s chance that happened once in a blue moon.

“He... He’s back!” Xue Feng staggered backward unconsciously when he saw a shadow emerge.

“Shi Yan!” Xue Yuan screamed.

Crack! Crack! Crack!

The two of them didn’t hesitate as they used the same trick to attack him. The cold light shot out of their bodies, creating the ice dragon.

This time, Shi Yan’s face was calm. He touched his glabella, and the Skyfall Star River shot out.

The entire sky was brilliant and dazzling in this dark and quiet place. The stars were shining like massive gemstone at the same time.

It was the same star map made of the weaving star rivers!

This star map was actually an Absolute Beginning divine weapon that had opened a bright territory with an immense space.

The ice dragon that sealed thousands of Icy Frost Snow Dragon souls in it released the cold, white mist. However, the star map was still moving as if it would never cease.

Quite the contrary, the starlight seeped into those dragon souls, greatly reducing their cold air.

“Stars burst!”

The stars that sparkled like gemstones exploded at the same time and the star map changed again. An entire starry sky was falling like a catastrophe that could annihilate the everlasting galaxy and everything in it!

With that, the ice dragon cracked!

Thousands of Icy Frost Snow Dragon souls got rid of the ice dragon, howling and roaring indignantly. They swarmed toward Xue Feng and Xue Yuan in the form of a backlash, biting and tearing them.

God of Slaughter

Chapter 1594: The road of fusion

Several thousand Icy Frost Snow Dragons gathered, roaring and screeching indignantly as they crazily bit and tore Xue Yuan and his brother.

The Icy Frost Snow Dragons appeared in the form of cold air currents. In this glacier area, the cold power of the Icy Frost Snow Dragons was bone-chilling. The Xue brothers shrilled and screamed in agony.

Shi Yan was quite surprised. Seeing the two brothers about to be torn apart, he didn't attack anymore.

"Aren't the Icy Frost Snow Dragons the holy beasts of the Snow Tribe? Why do they attack the two brothers from the Snow Tribe?" SY was skeptical

Burning sounds of fiery flames came from a far distance. As Shi Yan was still bewildered, Han Tian's loud laughter arose. He appeared in the shape of a burning man with red flames covering him entirely.

However, as soon as he came over to Shi Yan, the flames on his body subsided; and he returned to his human form.

"Snow Tribe?" Han Tian glanced at Xue Yuan and Xue Feng while talking. "No wonder why I felt Xue Ye's aura. I thought he hadn't died yet, which is why I hurried to come here. I wanted to fight him again, but here I have only two juniors."

"You couldn't find the Fire Power Upanishad Origin?" Shi Yan was surprised.

Han Tian nodded while wincing. "I've wandered around for a long time. Maybe I'm not lucky, as I haven't found anything. Sigh! I think I need to keep searching." Pausing for a while, his eyes brightened, "Oh, you're just a clone. Hey, how about you? With your ability, I think you must have found something, right?"

Shi Yan pulled a begrudging face. "I got trouble. I came here to see if I could find any solution."

"What happened to these two?" Han Tian pointed at the two Snow Tribe warriors, talking with hatred. "The Snow Tribe, since Xue Ye's time, has walked on the wrong path. They've made Xue Ye the God of the Snow Territory. Damn! These two brats look like him. The Icy Frost Snow Dragons will tear them to death. They deserve that!"

"Your resentment toward the Snow Tribe seems big!" Shi Yan sneered.

Han Tian's cold eyes were fixed on the two struggling Snow Tribe warriors as he said, "The Icy Frost Snow Dragons were the natives of the All-cold Snow Territory, living there before the Snow Tribe. I heard that the Snow Tribe was born by the Icy Frost Snow Dragon with a human woman. It's not wrong to say that the Icy Frost Snow Dragons were the ancestors of the Snow Tribe. Over the recent tens of thousands of years, the Icy Frost Snow Dragons in the All-cold Snow Territory have given up the best cultivating areas for the Snow Tribe. They even watched over the Snow Tribe members, teaching them how to use the power Upanishads and protecting them for many generations."

Han Tian's voice was cold and slow as he snorted, "Too bad the Snow Tribe didn't know how to repay the kindness they had been granted. To get stronger, they came to the place where the Icy Frost Snow

Dragon souls rested and sealed those poor souls to increase their strength. They've trespassed on their own ancestors! Everybody hates them!"

Listening to Han Tian, Shi Yan commented, "Yeah, utterly despicable!"

"That year, I didn't have any grudge against the Xue Ye, and when he traveled across the Mysterious Sky Clan's territory, he didn't do anything offensive. I troubled and challenged him because I saw the Icy Frost Snow Dragon souls sealed in his power. I know what he had done. Of course, I had to teach him a lesson!" Han Tian's face turned cold and harsh. "There was a time I fell into bedevilment while cultivating my Fire power Upanishad. The evil flame had intruded my heart and bones. I went to the All-cold Snow Territory to use the cold air to neutralize my poison blood. There, I met the Icy Frost Snow Dragons, who had helped me a lot. They were very friendly and pure beasts..."

He remembered the past and was still touched by the memories.

Shi Yan suddenly understood; the Icy Frost Snow Dragons had saved Han Tian's life. So, when he knew that his benefactors couldn't rest in peace and their children had mistreated them dishonorably, he got in a really bad mood. No wonder why Han Tian had attacked and beaten up the one who was hailed to be the God of the Snow Territory.

While they were talking, the Xue brothers were killed by several thousand Icy Frost Snow Dragon souls. After those soul-form Icy Frost Snow Dragons had killed the ones that had sealed them, they couldn't endure for a long time. Without the host, they lost their power, vanishing gradually.

"Seems like those Icy Frost Snow Dragons had a big grudge against those two. They knew they would vanish after their host died, but they still killed them." Shi Yan sighed emotionally.

Han Tian didn't answer him. He was standing with his head stooped to salute the Icy Frost Snow Dragons for one last time.

When all the Icy Frost Snow Dragons vanished, he sighed. At this moment, he finally noticed the glacier underneath, asking in surprise. "Oh wow! The glacier is shrinking. Oh hey, it looks like a woman body, isn't it?"

"Mei Ji's in there..." explained Shi Yan.

Han Tian changed his face, laughing. "This girl does have the luck God with her. She reached the Second Sky of Territory Ancestor only after several hundred years, and now, she has obtained the Ice Power Upanishad Origin. I'm sure we can't estimate her achievements in the future." He threw Shi Yan an ambiguous look. Apparently, he thought that Shi Yan had helped her to find this place and get the Ice Power Upanishad Origin.

"I didn't help her. She found it herself. I'm here to figure out how to fuse with the Power Upanishad Origin, so I want to find some clues," Shi Yan forced a smile and focused on watching.

Mei Ji knew a seducing technique, which was the innate supernatural ability of her Phantom Clan. Every woman of the clan was gifted with this ability, and it wasn't a power Upanishad. Mei Ji cultivated the Ice Power Upanishad, which she had progressed over her entire life.

Thus, she was qualified to obtain the Ice Power Upanishad Origin. When she entered the glacier, she wasn't boycotted as what happened to Shi Yan.

Obviously, Mei Ji was walking on the path of fusion. It was confirmed when they saw the glacier shrink and appear in the shape of a woman.

She was using the Power Upanishad Origin to refine her soul altar and body. As the glacier was shrinking, it indicated that the mysterious power of the Power Upanishad Origin's principle was transmitted and absorbed into her body, soul altar, and soul. Eventually, the glacier would disappear completely into her body.

At that time, Mei Ji would become the Goddess of Ice power Upanishad. She would become the rule-maker who understood all changes and abilities of the Ice power Upanishad.

It was possible to use the Power Upanishad Origin to advance further from the Territory Ancestor Realm as well!

Among the group of experts who had come here, Forefather Dragon Lizard hoped to restore his ancestor's bloodline; Han Tian wanted to search for something that could help him get through the Territory Ancestor Realm; and Montecie wanted to find all the mysteries and magic of Time...Each one of them had a clear goal.

Mei Ji wanted to join them at any cost, but she didn't embrace a major hope. She just wanted to accompany Shi Yan. And now, the woman without hope ended up having the best luck. She obtained the Ice Power Upanishad Origin, and became the first one walking on the path of fusion.

"You should continue your search for the Fire Power Upanishad Origin." Watching the glacier, Shi Yan said suddenly, "The two from the Snow Tribe had followed Sauron here. I'm sure Sauron won't bring only two experts from the Snow Tribe. Yuan and Devour are here as well. They must have someone cultivating the Fire Power Upanishad in their team. You'd better not let anyone find the Fire Power Upanishad Origin before you."

"Of course, I understand that! But I've been searching for a long time without a positive result. I feel I've used up all of my luck," said Han Tian.

"Normally, Ice and Fire are the opposite poles. If the Ice Power Upanishad Origin is here, I think the Fire Power Upanishad Origin isn't far away from here. You've been searching around in wrong directions for a long time, so you can exclude them. As you are here, I think it's likely for you to find the Fire Power Upanishad Origin around..." Shi Yan told him his logic, hearing which, Han Tian's eyes brightened. After several seconds, he nodded with a smile. "Sounds logical! I will follow this way. I hope I can harvest something with your luck."

"Yeah, I wish the best for you," Shi Yan smiled, watching Han Tian leave.

...

One of Shi Yan's clones was wandering aimlessly to find someone who was fusing with another Power Upanishad Origin. He hoped to see and find out the key to achieve the fusion.

After an unknown time, he felt a familiar aura from a strange location.

It was Zi Yao's aura, which had the pure, holy taste that only the scared divine light could have...

Right when he recognized Zi Yao, she had been searching for him for a long time, so she immediately sent him a message. "Get to my location. I found the Devouring Power Upanishad Origin!"

Shi Yan's clone was bewildered and then turned into a jet of light, zooming toward Zi Yao.

Zi Yao finally exhaled in relief beside the devouring black hole. She calmed down, watching the black hole and the eight evil powers while waiting for Shi Yan.

One particular day, Zi Yao suddenly felt heavy and uncomfortable. She focused, her eyes seemingly able to see through space.

A black shadow flashed and ran away fast.

It was Devour's hollow soul clones!

Zi Yao had known Devour for so many years. With that heavy feeling, she immediately got it. "Oh damn! He got me. It's tough this time!"

The black hole and the eight evil power Upanishads were the powers Devour had been cultivating for his entire life. He had spent his efforts to cultivate this malicious power, and was also the ancestor of all evil power Upanishads. If he got the Power Upanishad Origin, his strength would skyrocket!

At that time, let alone Shi Yan, even Desolate might not be his equal!

All creatures would face a disaster in this sea of stars as Devour would swallow them all. Aiming at building himself and the Devouring Clan, he could destroy the entire world.

"Devour has spotted me. You gather all of your power and come here with all clones and host body!" Zi Yao sent another message. She knew Shi Yan had the power and that it was just one of his clones right now. It was alright earlier, but Devour knew about the place now. So, she decided on it quickly, asking Shi Yan to gather his full force.

"Okay!" Shi Yan answered and his body and soul departed at the same time, moving fast toward Zi Yao.

[God of Slaughter](#)

Chapter 1595: Heaven never bars your way!

"Finally found it!"

The shadow that was Devour's clone twisted hard; he was really excited, indeed!

The hollow soul clones he had released returned to him like birds returning to the nest from everywhere, merging into his main shadow. With that, his aura became more evil, dark, and cold. As the hollow souls returned to him, his power was gathered as well.

Edgar followed him quietly. Seeing him scream excitedly, he was also stirred up, "Congratulations! Congratulations!"

“Muahaha! As long as I got the Power Upanishad Origin, I will become the fountainhead of all Devouring Power Upanishads in this world. At that time, Shi Yan won’t have a chance to fight me, and will be swallowed by me in just a wink!” Devour had a good mood right now. “After taking the Power Upanishad Origin and killing Desolate, I can break the barrier that we couldn’t in the Absolute Beginning Era. I will then have the eternal, ultimate realm. I will rebuild this world and make the Devouring Clan the strongest clan in this vast sea of stars!”

The vision he described made Edgar enthusiastic and excited.

“Hui is beside the devouring black hole, but we don’t need to worry because she doesn’t cultivate the Devouring power Upanishad. Even if she has the location, she can’t do anything.” Devour sneered. Bringing Edgar, he turned into a jet of black light, zooming toward Zi Yao.

At the same time, Shi Yan’s clones were flying toward the Devouring Power Upanishad Origin from different locations. Although he knew that he couldn’t fuse with it even if he could get there, he must get there as soon as possible.

...Because he couldn’t let Devour get the Devouring Power Upanishad Origin!

Once Devour got it, his realm and power would be increased by many times. The stronger Devour became, the lower the chance he would have of surviving. He had to stop the other!

Devour and Shi Yan’s clones were aiming at the same target, moving at their max speed while Zi Yao was waiting in silence.

Swoosh!

A strange energy fluctuation came. As Zi Yao was surprised, Shi Yan appeared, walking to her. “He hasn’t arrived yet, has he?”

Zi Yao exhaled in relief, smiling. “Not yet...You’re right on time! Yeah, what do you think? Do you want to get in there to take the Devouring Power Upanishad Origin first or wait for Devour to come and shoo him away before fusing?”

Then, Zi Yao furrowed her brows while hissing, “You...You’re just a clone?” She finally got it.

Shi Yan forced a smile, “Yeah, I’m just a clone. The host body’s pretty far from here. I’ve made several clones, and they’re all heading toward this place. But, I can’t gather all of them in just a short time. Moreover, even though the body and the clones are all here, I can’t take the Devouring Power Upanishad Origin.”

“Why?” Zi Yao was surprised.

“I found the Life Power Upanishad Origin, but I couldn’t take it even after trying many times ...” Shi Yan briefed her his own experience.

Zi Yao was disappointed. “So, the warriors with many Power Upanishads like you aren’t qualified to get even one Power Upanishad Origin? Among the Space, Star, Life, and Devouring power Upanishads, you can keep only one of them to get its Power Upanishad Origin? You...Which would you choose?”

Shi Yan felt begrudging. "I don't know what to choose. I haven't made up my mind yet. I want to consider and observe to find a way of obtaining the Power Upanishad Origin while keeping the other powers."

"Devour will arrive here shortly," Zi Yao knitted her brows, talking seriously, "As far as I understand him, he's not weaker than me in this trip. He had used the Devouring power Upanishad to create so many deadly calamities. He has recovered faster than me..."

"We should buy more time first to wait for my host body to come here," Shi Yan pondered.

The two of them didn't talk more, just watching the Devouring Power Upanishad Origin while waiting for Devour. Shi Yan's clone observed and sent a wisp of soul to that devouring black hole. He wanted to check its power.

At that moment, a terrifying suction force arose from the black hole. The strange, deadly, desperate, and frightening auras flooded his head. The soul in this clone of his was like a little boat in a stormy sea. It shook continually as it was being sucked into the black hole.

He became more frightened, not daring to test things out anymore and just watching from a far distance.

The jet-black devouring black hole spun furiously while the eight islands of the eight evil powers scattered and arrayed in an octagonal formation to protect the Devouring power Upanishad. It somehow looked like the formation in Shi Yan's soul altar, but they weren't identical. The formation over there seemed to follow some rule of the heaven and earth.

No matter how far the clones and the host body were, the wisps of soul could contact each other directly.

All the ideas the clones had could reach the host instantly despite the space and distance in between. At this moment, Shi Yan's real body, which was flying toward the area, could see the black hole through the eyes of the clones, and even observe the eight islands.

Every thought of the clones was sent immediately to the host body, making them have the same thought. He wanted to re-arrange the eight evil powers and the Devouring power Upanishad to look the same as the appearance of the Devouring Power Upanishad Origin!

As soon as that thought emerged, his soul altar released a wave of mysterious soul energy, which went from the Sea of Consciousness over to the tier of power Upanishads.

The tier of power Upanishads had all of his power Upanishads. The Devouring power Upanishad hovered above the eight islands that represented the eight evil powers just like one ruling the other eight.

It was different from what Shi Yan's clone saw.

His clone saw the eight islands of the eight powers spin closely around the black hole as if they were a whole. A magical connection linked them together, which followed some rule of this sort of a malicious power Upanishad.

As Shi Yan thought, the islands that represented the eight evil powers with their marks slowly moved up, revolving around the devouring black hole. Shi Yan's clone observed the Devouring Power Upanishad Origin while his host body began to re-arrange the islands...

Gradually, his eight islands were arrayed exactly like the appearance of the Devouring Power Upanishad Origin. When they were in their positions, they started revolving around it.

BOOM!

A vehement vibe came from the seals of the eight evil powers and the Devouring power Upanishad. It seemed that the Devouring power Upanishad and the eight powers had become one at that moment. They supported each other as the Devouring power being the major power and the other eight being the minor powers; they were actually one Power Upanishad.

Shi Yan suddenly understood everything, and the knots he had regarding the Devouring Power Upanishad, as well as the many difficult problems he found in his Power Upanishads, were now clear to him. He had understood the connection and support between the Devouring power Upanishad and the eight evil powers thoroughly.

The host body was on the way, but his power Upanishad had sublimated, his understanding of Devouring and the eight evil powers finally reaching a whole new level!

This was all because his clone had arrived at the Devouring Power Upanishad Origin area first. He had observed the arrangement of the Devouring power Upanishad and the eight evil powers, rearranging them in his soul. His simple simulation had granted him the marvel he couldn't describe, opening a whole new world of explanations of Power Upanishads.

As one went through, hundreds would follow!

He seemed to be enlightened. A flash came to him and he got a new and amazing idea, a new way!

If he imprinted the Life, Star, Space, and Devour to his different clones that would make one clone have only one power Upanishad, would he be able to get the Power Upanishad Origin like Mei Ji?

As soon as this thought emerged, he became excited while his soul was greatly enlightened! The difficulty that had troubled him was solved. His soul shivered in thrill, and he couldn't wait to try it.

His clones were made of his Absolute Beginning blood as the body and wisps of his souls as the brain. If he could send them parts of his Sea of Consciousness and soul power, his clones wouldn't be much different from his host body. However, the host body would be stronger than the clones.

They were still only one person in nature!

Could he take any Power Upanishad Origin then?

As soon as this door opened to him, he finally saw hope. He thought that this possibility had a high rate of success, which cheered him up.

Meanwhile, all the clones gathered and moved forward.

A clone flew toward him from a distance, then they flew shoulder by shoulder toward the Devouring Power Upanishad Origin. The two Shi Yans turned around to face each other as the host body's eyes sparkled with a dark but wise light.

The Devouring power Upanishad and the eight islands of the eight evil powers flew out of the host body's head, bringing a part of the Sea of Consciousness and the soul power to the clone.

As if magic, there was nothing hindering the process. The marks of the Devouring power Upanishad and the eight evil powers were imprinted directly into the clone's head without any rejection.

Shi Yan was shaken hard because his first attempt had been unexpectedly smooth!

"Open the door, open acupuncture points..."

Mumbling to himself, the acupuncture points of the clone suddenly emitted the strange energy fluctuation. As soon as it emerged, both Shi Yan himself and the clone were shaken hard.

He had a magical feeling he couldn't describe!

The acupuncture points of the host body and the clone resonated, and the host body's territory was even copied. It slowly hovered above the clone's head like an illusion.

Separating a part of his Sea of Consciousness and the soul power, making the Devouring power Upanishad and the eight evil powers as the main power in the tier of power Upanishad, with the upper level having the wisp of soul...

What else made it different from the host body?

It was another self of his!

"Hahahaha!" The host body and the clone laughed at the same time, which was joyful and excited. He was around 80% sure he would be able to fuse with a Power Upanishad Origin now!

[God of Slaughter](#)

Chapter 1596: One idea to give birth to the world

Bands of five-colored rainbows extended in this place, illuminating the tranquil and dark area shortly, making it beautifully bright. Layers of lights blended together into a scene as beautiful as a fairyland.

Zi Yao wore a long, rosy dress, sitting upright on the precious crystal throne while looking far into the distance.

After a long, long time, Devour came with Edgar in the form of a shadow. He stopped by the rainbow band and looked at Zi Yao while speaking coldly. "Do you really want to stop me?"

Zi Yao was surprised. "If it's not to stop you, why would I have to arrange such a great formation? What's interesting in doing that?"

"I heard that you're called Zi Yao now. It's ridiculous that the soul clone could swallow the host soul," Devour smirked coldly. "It's a big joke for everybody that a soul clone could seize the control of an Absolute Beginning body."

“Haha,” Zi Yao didn’t quarrel with him, sniggering. “Your Devouring Power Upanishad Origin’s right behind my back. If you want to get it, you have to pass my challenge.”

“Where’s he?” Devour looked around.

“I’m here,” Shi Yan’s voice arose from a band of bright gold light. Afterward, his clone showed up right in front of Devour. “What do you want to find me for?”

Seeing Shi Yan, both Devour and Edgar were startled.

Devour scrutinized Shi Yan for a while, then exhaled discreetly, “Just a clone...Yeah, I know it. If your body was here, you would have obtained the Devouring Power Upanishad Origin right away. You wouldn’t just stand here and babble with me...”

Then, Devour moved toward the sky filled with lights.

Edgar’s eyes were cold and dark while his green skin exuded a cold, Yin aura. His venomous snake eyes sparkled maliciously. “Shi Yan, your clone will die here.”

The green energy rolled in his eyes, turning into a massive drill. The soul energy drill shot out of his eyes, but it looked so real as it was darting toward Shi Yan’s clone.

Devour moved and his shadow changed into some alien creature that looked like a giant octopus with green, slimy tentacles. They looked like flood dragons when they hit on Zi Yao’s auspicious five-colored protective light.

Boom! Boom! Boom!

The five-colored light cage shook hard while Zi Yao’s gorgeous face slowly changed amidst the shooting lights. At that moment, a purple light abruptly burst off.

Boom!

The twelve heavenly snakes appeared with Zi Yao sitting on a snakehead, smiling brightly and charmingly. “Seems like you got some major harvests in the Empty Land and Sea of Annihilation. You’ve recovered by 80%...You’re too annoying!”

The massive snakes crawled around the empty space as electric rainbows weaved together, filling the entire place while creating a sea of divine light. The holy, pure energy expanded torrentially, attempting to cover Devour’s real body entirely.

Devour roared, causing eight gory islands similar to Shi Yan’s Power Upanishad to rise above his head. The devouring black hole emerged in the middle of the circle created by the eight evil islands while an evil, dark, and cold energy emitted out, dyeing the entire world blood red.

The blood bridges that connected the eight islands to the black hole were built, and the islands and the black hole became one. Together, they emitted the dark, despairing, and destructive auras, as if they wanted to obliterate the entire world; burning every creature into ashes. This kind of a negative and malignant energy fluctuation could eradicate any form of matter!

“If Desolate weren’t too powerful that year, the Absolute Beginning Era would have ended earlier in your hands. The meaning of your existence is to kill and destroy everything. You’re the embodiment of evil in this world. But you failed...You failed like me. We heard nothing from you for almost another era...”

Zi Yao’s face turned cold. While talking, her rainbow bands weaved across the sky, creating a massive net that could seal the space and entrap the cosmos.

The massive light net slowly lowered, tying down Devour’s body. The two creatures who used to swagger in Absolute Beginning Era, and had joined hands to resist Desolate, were facing each other in the new era after so many years. Right now, they were standing on two opposite sides, trying to kill each other.

If this battle happened outside, it would destroy the entire world, killing billions of creatures. It would turn many territories into nothingness.

This place was the most mysterious land in this universe. It didn’t have the sky, the earth, or any creatures. It didn’t actually have “space.” The battle taken place in this empty place wouldn’t cause destruction to the real world out there that couldn’t be recovered from.

The battle between the two giant creatures would create a lot of formidable energy shockwaves, which would expand fast and far away.

“Your clone will die facing me, and the host body will be weakened if the clone dies. So, I guess I will kill your clone first!” Edgar smirked coldly, urging his power.

Edgar was the expert with the highest realm in the Devouring Clan. He was Pu Tai’s father; his Soul Control and Death power Upanishads Qa even more intimidating than Ming Hao and Xuan He’s. He was one of the Ten Great Territory Ancestors, one of the strongest existences in this world.

BOOM! BOOM! BOOM! BOOM!

Earth-shaking explosions arose from Edgar’s body as the world around him immediately sank into darkness. He urged the Dark power Upanishad to shadow all lights in this area. Zi Yao’s divine light couldn’t pierce through Edgar’s.

With that, Edgar disappeared while the darkness expanded like a sea of black clouds, reaching Shi Yan’s clone.

“It’s true that the clone has only a part of the host body’s strength. But, if the host body’s strong enough, the clone can make the enemy kneel in fear!” Shi Yan sneered, spurting a bright sea of stars from his mouth.

It was a galaxy with strange but bright lights, high mountains and long rivers on the planets. Many creatures were moving and working. Spring, summer, autumn, and winter took turns to visit the planets.

It seemed to be a real territory, a world filled with life, a space that could confine any creature!

Darkness arrived, and the realistic territory slowly sank into it. Hiding in his darkness, Edgar was stunned when he observed that world. He saw a lake on a planet with a lot of fishes. Some fishermen were catching the fishes; he could feel thick vitality from those fishermen.

It was real Life energy!

Edgar was terrified.

The territory he was staying in seemed not to be an illusion. Shi Yan had used his power to create it, which made it no different from the world out there in nature.

Since when could Shi Yan's powers create the heaven and earth, the real space? He could even create creatures!

How could someone at the Second Sky of Territory Ancestor Realm reach such level?

Doubts washed over continuously as Edgar was shaken. He suddenly understood Shi Yan's real realm – Third Sky of Territory Ancestor Realm!

Shi Yan had reached the Third Sky of Territory Ancestor Realm! He had broken through to the realm where he could use his power to create space, and create any creature with only his thought!

Shi Yan was at the Third Sky of Territory Ancestor Realm. Although he was just a clone here, Edgar couldn't look down on him anymore!

He knew why Shi Yan said that!

If the host body were at a certain level, the clone would be so terrifying that it could make the enemy shiver in fear.

"Reap!" However, at this moment, Shi Yan's voice arose across every planet in this vigorous universe.

The heaven and earth changed, and the brilliant lights in the skies retreated.

Dazzling starlights were retrieved into the planets, which shortly turned into dead stars. The entire world had turned cold and deadly silent, without a wisp of living energy!

Edgar was dumbstruck. As he looked over at the lake, there were no fishes swimming any longer, and the fishermen on the lake were now white skeletons. The wind blew past them, and their decayed bones turned into dust, vanishing in the air.

Edgar was shaken hard. He was lost in this world as Shi Yan's power Upanishads had deluded him. His soul was shocked by the world created with Star, Space, Life, Devouring, and the eight evil power Upanishads. His darkness vanished slowly, exposing himself.

He frowned, thinking about the principle in the heaven and earth, and the ultimate ability of Power Upanishads.

When would it be the last moment?

He got lost in Shi Yan's world...

Bands of rainbows moved like seven-colored snakes, entering Devour's swallowing area and attacking the crazy, desperate, and dark world. Devour had a special territory, which was the most horrifying place in this universe.

Because it was too extreme, after creating the Devouring clan, Devour had left them to live and cultivate in the Sea Domain of Nihility rather than let the creatures he had made with his blood and flesh live in his territory.

His territory used devouring, destruction, despair, darkness, corrosion, chaos, and death as the foundation. The Devouring power Upanishad and the eight evil powers were the main themes of that world, making it several times more horrible than the eternal desolation.

That world was the origin of every evil deed in his inner world!

Destroying that territory was also destroying all of Devour's evil powers, which also meant Devour's utter destruction.

Zi Yao was about to use the purest divine light to filter and clean that terrifying territory and destroy Devour's source of evilness, breaking his heart and defeating his realm!

"Right on time!"

At that moment, another Shi Yan appeared, but it was also a clone. After this clone arrived, it smiled and turned into a drop of blood, entering the clone that was fighting Edgar.

Time flew fast; after a while, Shi Yan's host body and clone that got imprinted with the Devouring power Upanishad and the eight evil powers finally arrived.

The host body grinned strangely, waving at the clone that was fighting Edgar. This clone then merged with the host body.

The host body faced the sky and roared, turning into a giant Demogorgon while dashing toward Devour.

The clone that got the Devouring power Upanishad imprint took a deep breath. With a resolute face, he stepped toward the Devouring Power Upanishad Origin.

He wanted to test his idea. He wanted to take the Devouring Power Upanishad Origin and control all evil powers in this world!

[God of Slaughter](#)

Chapter 1597: Swallow everything!

Edgar was lost in the world of illusions, finding the ultimate power Upanishad.

Shi Yan's host body grinned, swelling up to become a giant that could be compared with Zi Yao and Devour.

At the same time, his clone was approaching the Devouring Power Upanishad Origin, trying to fuse with the supreme core of Devouring power Upanishad. He would then be able to control the source of this evil power!

"Edgar!" Devour bellowed, his voice the tsunami reverberating in this world.

With that, Edgar seemed to get hit as his body shook hard like he was electrocuted. The puzzled countenance disappeared from his face, and after he regained his sound mind, he knew his new task immediately.

“STOP!”

Numerous blood-dripping hands appeared in the void, shadowing the entire space like blood clouds. It was the Death Seal created by the Death power.

Dozens of Death Seals became clusters of rolling clouds, rumblingly attacked Shi Yan's clone.

Waves of blood came as if they could move the mountains and level the seas. Shi Yan's clone felt suffocated; he halted, turning to face the mountain-like bloody hands falling from the sky.

“Fireflies competing with the full moon? Death and Life Seals!”

Shi Yan's clone crossed his hands. His left hand controlled the death power, and his right hand held the power of life cycle. The two opposite power Upanishads, Death and Life, merged together in the void, forming a massive hand seal of Death and Life powers.

That hand seal seemed to be the real lord of Death and Life that could control both the powers harmoniously. Billions of creatures in this world were born and died; every mystery of their lives seemed to be hidden in this hand seal.

The magical event appeared, and the bloody hands dimmed when they encountered the massive Death and Life hand seal. The power of Death Edgar cast was affected. From tangible objects, they faded before vanishing completely, leaving nothing behind.

Just like a thick smoke that was washed away by the wind, they didn't leave even a single trace.

Swoosh!

A wave of strange energy rippled from the Death and Life Seal, eventually turning into a flow of immense vitality and entering Shi Yan's host body.

The Life power Upanishad the clone had just used seemed to be discarded from the body. The clone had just restored its absolute evil, cold, and dark bearings.

The clone continued to step toward the Devouring Power Upanishad Origin. He didn't bat an eye on Edgar as if the latter was invisible.

As Edgar was outraged, a finger with a crazily tremendous power pressed on him from above: it was Shi Yan's host body's finger. It carried the power of ten thousand soldiers as it used only the physical strength to press Edgar.

Edgar only had a normal body, while Shi Yan's host body's finger was like a mountain. Edgar gawked at the mountain-like finger falling down on him, feeling the world around him suddenly being sealed.

The massive Death and Life Seal that had vanished seemed to create some invisible restriction that confined his soul. It froze him, making him watch the mountain pressing down on him without being able to move.

“Get your body smashed.”

Shi Yan bellowed like thunderclaps in the sky. Just when his voice resounded, the finger touched Edgar. With that, the latter’s body burst up, his bones and flesh smashed, blood splashing everywhere...

“Edgar!”

Devour’s angry roar echoed as Edgar’s body turned into a jet of blood light, rolling pieces of the bloody mess of flesh and broken bones with his soul altar flying toward Devour’s absolute darkness.

“Don’t worry! As long as I’m here, you can be revived!” Devour sucked and swallowed Edgar’s soul altar and body. All of a sudden, tentacles furiously coiled Shi Yan like dragons.

The agile, twisting tentacles came with demonic faces on the suckers that could dizzy people.

One of those tentacles twisted and changed, magically becoming a spooky green shadow. That gloomy shadow flashed in the middle of the furious fight and then disappeared.

When it reappeared, it had crossed Zi Yao and Shi Yan already, quietly approaching Shi Yan’s clone that was heading toward the Power Upanishad Origin.

“Hmm?” Shi Yan’s clone was a little surprised, turning around to look.

The spooky green shadow that seemed like a green light curtain suddenly snatched him. A combined energy that could distort his Soul Consciousness, destroy his soul altar, and put him in despair attacked Shi Yan’s head instantly.

“Devour’s clone! His body created by Soul Control Power Upanishad!” Shi Yan got it immediately as he sneered and touched his glabella.

From between his brows, a small vortex emerged, and then eight islands which represented eight evil power Upanishads arose, spinning around it in a strange trajectory.

The eight evil powers including Soul Control, Death, Dark, Destruction, Despair, Corrosion, Chaos, and Corpse Qi surrounded the Devouring power Upanishad, and had become one!

A strange evil power that could control all the auras of the eight evil powers had turned into a phantom of a vague Demogorgon. The phantom flashed and swooped like the most malicious creature that had just been born. The aura that could twist the universe and destroy stars gushed out, which was potent enough to freeze the void.

The Demogorgon phantom created by the eight evil powers had bloodshot eyes. When it saw the green light coming, it thrust its arms into the air to pull and tear it!

Its momentum was enough to tear even the sky!

The sound of fabric being torn arose clearly as the green light curtain was torn apart. The body of the eerie green shadow was ruptured altogether.

Devour’s clone was torn apart, and his soul was pulled out of the body!

“Eight evil powers have combined! You could combine the power Upanishads! It’s impossible!” Devour screamed and bellowed as if he had lost his mind. The tentacles in the void acted like dragons trying to wreck this empty space.

Zi Yao’s heavenly twelve-headed snake and Shi Yan’s Absolute Beginning body roared at the same time, urging their powers. Shortly after, meteors rained down fierily and masses of brilliant but mysterious stars gathered. Overbearing space sabers attempted to slash the entire space while light balls with torrential Life energy in them exploded...

The earth-shaking impact burst out. Zi Yao and Shi Yan were trying their best to resist Devour and stop his evil power.

After tearing Devour’s clone, Shi Yan’s clone didn’t hurry to leave. He stood there for a while to see if more trouble would come. After a while, he found that although Devour was roaring furiously, he couldn’t exert more effort to attack Shi Yan’s clone as Zi Yao and Shi Yan were attacking him.

Furthermore, the surroundings didn’t have any sign of strong experts that could come here in a short time. After pondering, Shi Yan continued his progress and continued to walk toward the Devouring Power Upanishad Origin.

Shi Yan’s clone suddenly released nine malicious auras of the Devouring, Soul Control, Death, Dark, Destruction, Despair, Corrosion, and Corpse Qi. The energy constantly fluctuated, making him seem terrifyingly fearsome and his aura completely formidable.

However, when the Devouring Power Upanishad Origin sensed similar energy fluctuations, it became quiet.

The black vortex of the Devouring Power Upanishad Origin was like a deep and malicious eye gazing at Shi Yan.

The eight islands stopped moving, but still kept releasing the auras of the Devouring, Soul Control, Death, Dark, Destruction, Despair, Corrosion, and Corpse Qi, which were magically resonating with Shi Yan’s energies.

Shi Yan was greatly shocked by this development!

Seeing the minor changes of the Devouring Power Upanishad Origin, his confidence grew as his method was confirmed. The Devouring Power Upanishad Origin didn’t reject him, which meant he was now qualified, and the Power Upanishad Origin had accepted him. His clone could get in there!

Shi Yan calmly moved toward the Devouring Power Upanishad Origin. He was just a little away from it...

All of a sudden, a tender but irresistible power came from the Devouring Power Upanishad Origin!

Shi Yan’s clone levitated, entering the Devouring Power Upanishad Origin shortly and simply. He flashed in the middle of the black vortex and then disappeared.

The Devouring Power Upanishad Origin had swallowed him!

BOOM!

Billions of negative and complicated emotions rolled furiously, flooding his head; forcefully storming his Sea of Consciousness, soul pond, soul altar, territory, and his soul; reaching further into his bones, acupuncture points, internal organs, blood, and flesh.

Inside the absolute darkness, he spun continually as if he was walking to the source of evil in this world, heading to the center of the cosmos.

It seemed that the negative energy of all creatures in the world, their fears, despair, killings, brutality, destruction, lewdness, and all kinds of evilness hiding deep in their hearts were present here. The evilness from the inner worlds of every creature in this universe burst out at this moment, swarming toward Shi Yan and drowning him!

“Swallow! Swallow! Swallow the entire world! Swallow everything! Matters, nothingness, planets, consciousness, thoughts, ideas, emotions! All of them!” His heart strictly followed the core instruction of the Devouring power Upanishad.

Feeling the evil ideas of so many creatures, he instinctively urged the Devouring power Upanishad. Emotions, thoughts, and evil desires seemed to flow endlessly from every corner, every territory in this cosmos, plodding his acupuncture points!

At this moment, the seven hundred and twenty acupuncture points seemed to connect to seven hundred and twenty different territories. The desperate, fearful, lustful, destructive, brutal, slaughtering, and resentful sentiments of billions of creatures in different territories were guided as Shi Yan was using the Devouring power Upanishad to suck them into his territory, hiding them in his body!

He felt his soul, body, and mind sinking in agony, which wasn't something an ordinary creature could endure. The horrible negative emotions had almost cracked Shi Yan's soul. He had almost become the vilest Demogorgon in this world as the negative emotions flooded him.

“Come! Come! All of you! Come to me!”

He thundered angrily under the attack of countless evil thoughts. Eventually, he relaxed his body and soul, and opened his Sea of Consciousness and acupuncture points, frantically urging the Devouring power Upanishad!

Chapter 1598: Divine weapon!

Desolate was moving in the void in Ghost Hunter's form. He didn't need to group like the others as he had clear directions!

In the Absolute Beginning Era, many creatures knew that Desolate had two marvelous divine weapons, one of which was the Life Soul Tree that could create lives and new species. It had the power of the Creator with which Desolate could use his God power to create new and different races.

The Heavenly Monster Tribe, Immortal Demon Clan, God clan, Imperial Dark Tribe, Giant Clan, Dark Spirit Clan, and the other races that existed in Desolate Territory were created by his soul power. The Life Soul Tree was the most-desired secret treasure for the experts with Life Power Upanishad. Of course, Desolate had mastered the Life Power Upanishad.

Except for the Life Soul Tree, he had another divine weapon called the Power Upanishad Original Seal.

That Power Upanishad Original Seal was the place Shi Yan's and Audrey's souls had visited when they had fused with the heaven flames. It was also a wonderful land inside Desolate Territory where magical Power Upanishads were stored that the warriors could use their souls to learn.

The Power Upanishad Original Seal had many power Upanishads, from the five elements to gravity, space, life, stars, etc. Except for the Devouring power Upanishad and the eight evil powers, the Power Upanishad Original Seal had the marks of all Power Upanishads!

No one knew how Desolate got those two Absolute Beginning divine weapons or how to refine them. No matter what, their power had shaken the entire Absolute Beginning Era!

Today, Desolate recognized that his Power Upanishad Original Seal had a special connection with this space. His Power Upanishad Original Seal seemed to be the map of this strange world. It emitted magical energy fluctuations which had the same frequencies as different Power Upanishad Origins in this world!

Using the Power Upanishad Original Seal, he could navigate the power Upanishads that the Power Upanishad Original Seal had.

While the others were wandering around blindly, he had the right directions, and he could choose which Power Upanishad Origin he wanted to fuse with.

He found a Power Upanishad Origin nearest to him that he wanted to take: it was the Metal Power Upanishad Origin.

In this vast sea of stars, most of the creatures decided to cultivate only one Power Upanishad. Not many people had the same cultivating path like Shi Yan, who cultivated many Power Upanishads at the same time.

Desolate belonged to this group; as a matter of fact, he had cultivated even more Power Upanishads than Shi Yan!

His major power Upanishads included the Five Elements – Metal, Wood, Water, Fire, and Earth—Life, and Light. Although he had cultivated many Power Upanishads at the same time, he had reached the Third Sky of Territory Ancestor Realm, which showed his innate talent and competence.

This was the reason why Desolate was titled the God of War during Absolute Beginning Era. Compared to the experts at the same realm, Desolate had more Power Upanishads, and had the upper hand in fighting. It wasn't anything mysterious.

He had exerted his efforts hundreds or thousands of times more than the others to reach the Peak of Territory Ancestor Realm. Naturally, he was much stronger than the ones cultivating only one Power Upanishad!

Desolate got the correct direction, which had facilitated him much better than the Original Symbol Shi Yan had gifted Mei Ji, Emperor Sea Shark, and Montecie. The others could only feel the Power Upanishad Origin when they arrived in a certain range, but Desolate didn't need to do that...

No matter where he was, he could find the right Power Upanishad Origin he wanted. He could even see the distance between him and the Power Upanishad Origin.

First, he came to the Metal Power Upanishad Origin.

Hiro had come to this place earlier than him, and he was fusing with the Power Upanishad Origin, which was the gold mountain!

After Hiro got into the gold mountain, it had become a gold giant hovering in the void. The terrifying, immense aura from the giant shot in the void.

“Someone got here earlier than me...” When Desolate saw the gold giant, he was surprised. Watching for a while, he said indifferently, “Too bad you’ve not finished yet and it has just started. So, you can only blame your poor destiny...”

Desolate watched the mountain that was holding Hiro, screaming all of a sudden. His body swelled up, transforming into his Absolute Beginning body, which was a brutal giant dragon!

As his body was transforming, he urged the Metal power Upanishad. The gold light shrouded him, making him look as if he was molded out of gold. The scales, horns, and claws on his body all turned gold; Desolate had become a gold dragon that was billions of miles long, and the pure Metal Power Upanishad filled him.

Although he had cultivated a lot of Power Upanishads, he didn’t need to make clones to fuse with a Power Upanishad Origin like Shi Yan had done. He used the giant body of the gold dragon coiling around the gold giant – the giant in Hiro’s shape!

BOOM!

An unimaginably colossal dragon squeezed around a gold giant. Desolate’s terrifying body twisted, and gold light waves rippled from the gold giant, which were the flustered, pure soul energy from Hiro!

A dazzling gold halo emerged above the giant’s head, which was Hiro’s soul. At this moment, the gold halo was swaying hard as if it could burst off at any minute.

“You don’t deserve the Metal Power Upanishad Origin,” Desolate sneered coldly.

Sizzle! Sizzle! Sizzle!

Golden electric beams shot out from every part of the gold giant and congregated into Hiro’s real body.

Hiro was taking in the Metal Power Upanishad Origin, but he was forcefully expelled from the Power Upanishad Origin!

At this moment, Hiro’s crystal bone body emitted a bright golden light, which made him look like a gold skeleton. His eyes rolled as he asked coldly, “Who are you?”

“You should know about me,” Desolate said indifferently.

All of a sudden, a wave of horrible soul attack swarmed toward Hiro like a storm. A familiar feeling churned in his heart as Hiro discolored in fright. He couldn’t help but shout, “Desolate! You are Desolate, the God of War!”

Hiro had joined the defending battle in Cloud Mist Territory where Desolate had attacked them. This frightening pressure that could suffocate people was familiar to him, and he would never forget it!

"Your fortune isn't really good that you met me before you finished taking in the Power Upanishad Origin. It's your bad luck!" Desolate said the truth. "If you had gotten it, it wouldn't be easy to kill you for me. However, it's effortless to finish you now."

Then, Desolate roared, his vigorous life energy filling the void and exploding.

A tree grew on Hiro's gold chest: it was a sapling of the Life Soul Tree. That sapling had been there since Hiro was expelled from the Metal Power Upanishad Origin...

Desolate urged the Life power Upanishad, and the little tree thrived frantically. The small branches pierced through Hiro's gold skeleton like sharp swords!

Boop! Boop!

Hiro's gold body shattered just like a gold crystal statue and fell on the ground. He was fragmented terrifyingly.

[God of Slaughter](#)

Chapter 1599: The originator of all evils

Hiro's gold body shattered and his soul altar got rid of the body, trying to run away from this place.

"You can't leave!"

Desolate's cold and harsh voice came from the dragon's head, and the fearsome, gold dragon horn pierced through Hiro's soul altar precisely.

Boom!

The furious electricity current that could kill a soul emitted from the dragon horn. Hiro's soul altar connected to the Sea of Consciousness, territory, soul pond, and host soul was coiled by the electric current that became a net, pulling Hiro's soul altar backward.

Hiro's magical soul altar was forcefully pulled and shoved into the sparkling gold mountain.

"I don't cultivate the Devouring power Upanishad, so I can't absorb your body and soul. Anyway, you're at the Second Sky of Territory Ancestor Realm, a famous expert in this era, so I shouldn't waste your soul energy and God power. I will let you merge with the Power Upanishad Origin, then I will swallow it. At least, I can get your soul energy from it..."

Hiro's soul altar turned into a gold light shooting toward the gold mountain while Desolate gold eyes sparkled happily. All of a sudden, he roared and opened the bloody mouth to breathe in.

The Metal Power Upanishad Origin turned into a gold water current that Desolate drew into his stomach like a whale sucking water.

He had swallowed an entire gold mountain!

Layers of gold energy materialized, forming massive waves like gold clouds on the giant gold dragon. From a distance, Desolate looked as if he was covered with a tier of rolling gold clouds. The extremely sharp metal air flows shot as if they could slash the sky.

Hiro had become the first unfortunate one to be killed by Desolate.

And he was just the first one!

Desolate had the map of this place. After he got the Metal Power Upanishad Origin, he moved, checking each of his Power Upanishads. Starting from Hiro, his slaughter had begun.

...

Deep in the dark and quiet void, three giant creatures were entangling and attacking each other. Pieces of a galaxy emerged, stars falling like rain. The Death, Despair, Space, and Life impacted constantly and earth-shakingly. This battle seemed capable of burying an entire world.

It was the battle between Shi Yan, Zi Yao, and Devour.

Devour, the one who controlled the evil power Upanishads in the Absolute Beginning Era, had swaggered overbearingly for an entire era. He had mastered the Devouring Power Upanishad and the eight evil powers. When his era ended, he was still an existence atop the others. He was the undying legend—the ancestor of the Devouring clan, one of the Seven Great Clans—who had created so many miracles.

Bloodthirsty used to be the overlord of Desolate Territory, and now, Shi Yan was a new rising star. Both of them were famous because of Devour's Power Upanishad anyhow.

The Devouring power Upanishad was the topmost evil and overbearing power in this world, the source of all evils. He had brought evils to this world and imparted them to the others, creating horrible legends.

Devour was deemed to be the ancestor of all evil creatures. In the Absolute Beginning Era, he was one of the most terrifying characters.

However, at this moment, the vilest creature in the world was facing the most difficult battle in his everlasting life.

Joining this battle were Zi Yao, who used to be his partner, and Shi Yan, who had been famous with his Devouring Power Upanishad. He was the new generation of experts with a part of his Power Upanishad!

Devour roared and howled crazily in the rolling darkness that covered the void to the point where people couldn't see their own fingers. The earth-shaking energy with negative emotions burst and expanded to the end of the void like a shattering territory.

Devour had thrown himself into a frenzy of rage!

The evil energies he was releasing were unceasing. Low-realm warriors would have their souls torn apart, becoming bloodthirsty ghosts and beasts that worshipped him as their lord, if they came near.

However, at this moment, only Zi Yao and Shi Yan were here.

Zi Yao's twelve-headed snake body was emitting seven-colored crystalline lights, making her seem like the most exquisite masterpiece. She was so stunning that she could make people dizzy while looking at her.

So many layers of lights expanded in waves like the most magnificent clouds. It looked like a seven-colored sea now having points of phosphorescence.

The holy light and pure aura filled every corner, stopping all evils outside.

Zi Yao wasn't attacked by the sea of negative emotions and energy. She was twisting her giant body, using the divine light bands to tie Devour, making his moves and energy stagnant.

Shi Yan had turned into a savage giant who looked as though he was made of reinforced concrete. The dragon scales covered his body with strange spikes, and a pair of bone wings opened behind his back. He looked indeed like a demonic ancestor. In his eyes, suns, moons, and stars sparkled at the same time; they seemed to host the two seas of stars. His mysterious aura wasn't any less intense than Zi Yao's.

Holding the chain made of the Skyfall Star River, he grinned fiendishly, not minding the rising negative sea at all. Gritting his teeth, he urged his power to tear Devour's true body.

Meanwhile, Devour's dragon-like tentacles slashed on Shi Yan's body, carrying the evil powers of Death, Destruction, Despair, Corrosion, etc. With Devour's Soul Consciousness, they formed into the extreme abilities of each evil power.

Shi Yan's Absolute Beginning body with Desolate's part just felt a scratching pain as the tentacles whipped him. His internal organs and skeleton weren't affected at all.

Anyway, he wasn't passive enough to just endure the attack. The chain made by the Skyfall Star River shook and hundreds of stars flew like rolling rocks along with the terrifying aura, bombarding Devour.

The Star, Space, and Life were rare Power Upanishads, and they all had their own supernatural abilities. Shi Yan was using them skillfully to face Devour's Devouring power Upanishad and the eight evil powers. Moreover, Zi Yao was around, joining him with her Divine Light Power Upanishad.

Facing the two of them, Devour roared and screamed continually but couldn't get rid of them. Gradually, he knew it wasn't going right.

The Devouring Power Upanishad Origin wasn't far from him. After Shi Yan's clone was swallowed, he felt every origin of evilness in this world was connected to the Devouring Power Upanishad Origin. Many kinds of malicious energies from the inner worlds of billions of creatures in different territories seemed to find the right vent to gush into the Power Upanishad Origin.

Devour didn't understand the Power Upanishad Origin. However, since the moment he was born, the Devouring power Upanishad and the eight evil powers were imprinted in his head. He was the creature that was born by the evil powers. That was how he got a vague connection with the Devouring Power Upanishad Origin.

At this moment, he had a bad feeling as if the treasure predestined for him was getting far away. This feeling came deep in his soul, and became stronger with each passing moment, making his soul shiver in fear. He had to risk his life to change this situation.

"AARRGGHHHH!"

The roaring that shattered the dome of the sky came from Devour. The tentacles he had released were all retrieved, and endless black clouds exploded while rumbling.

The rolling darkness expanded endlessly, covering Devour completely.

The thick darkness changed, turning into a jet black tunnel. It was Devour's devouring black hole in its finest and highest form!

Devour used his body and soul energy to urge his core Power Upanishad to create the most terrifying form of his Devouring ability.

A horrible aura that could cover all creatures and souls in the world came from the black hole. In this moment, both Shi Yan and Zi Yao had become extremely gingerly. They exchanged looks and paid more attention on protecting their soul altars.

Their soul altars were swaying hard, trying to get rid of their control and fly out of their heads.

The Devouring power Upanishad's best ability was to swallow the soul altars and refine the energy from the soul and Sea of Consciousness the others had accumulated over millions of years.

Zi Yao and Shi Yan knew this feature well.

Their battle had finally come to the critical moment. If they were careless for even a moment, their soul altars would be sucked by the black hole. At that time, they wouldn't be lucky enough to keep even a wisp of soul.

Swoosh! Swoosh! Swoosh!

The devouring power came from that black hole and expanded far away, not only in this area.

"Ugh!"

A figure with a cold face was walking around. All of a sudden, she felt her soul terrified. As she wasn't vigilant, her soul altar suddenly flew out of her head uncontrollably.

Cantecie's soul altar had flown away!

After less than ten minutes, Cantecie's soul altar came intact in Shi Yan's and Zi Yao's vision. Cantecie's host soul sat on the stormy territory; she was petrified when she saw Shi Yan and Zi Yao in their real forms.

"No! No!"

Suddenly, she saw the black hole, immediately knowing what was going on in this place. She screamed pathetically while the host soul sent out messages, looking at Shi Yan yearningly and begging him to save her.

Unfortunately, Shi Yan didn't have any reaction. Seeing Cantecie in her unexpected misfortune caused by Devour's black hole, he wasn't worried, but happy. A strange light sparkled in his eyes.

"Whenever the Devouring power Upanishad absorbs the soul altars, it will need a little time to refine the energy. The soul altar of stronger experts will need a longer time to refine. Although Devour's the ancestor of this Devouring Power Upanishad, he can't fix this flaw. When Cantecie's soul is swallowed, he will need time to refine her energy. Once he finishes the refining process, his energy will rocket. At that time, he'll be harder to deal with. We have to seize this chance and hit him hard!"

Soon, Shi Yan was moved. Seeing Cantecie wiggling hopelessly as she was drawn to the black hole, he immediately sent Zi Yao a message.

In this world, Zi Yao was one of a few people who knew the characteristics of the Devouring power Upanishad. As soon as she got it, she nodded.

"Save me! Please save me! I'm begging you! I'm a member of the Phantom Clan. I'm Montecie's blood sister. Please, for their sake, please save me!"

Seeing the black hole right in front of her, Cantecie's host soul wiggled hard, trying to send the last message.

Shi Yan wore a cold face as if he didn't see anything.

God of Slaughter

Chapter 1600: Racing against time!

Cantecie's soul's screeching echoed in Zi Yao's and Shi Yan's head, but they decided to ignore it.

Cantecie's soul altar floated like a big bobbing cloud, eventually sucked into that black hole and disappearing completely.

At this moment, Shi Yan's eyes brightened as he focused on that jet black vortex. Wisps of soul energy moved like swift ropes, thrusting around the black hole.

Swoosh! Swoosh! Swoosh!

The black hole emitted a howling wind like a massive, chewing mouth. As Cantecie cultivated the Wind Power Upanishad, her soul altar had the form of a tornado bringing up loud hissing sounds.

The black hole revolved crazily, swallowing Cantecie's soul altar. Afterward, the suction force weakened significantly.

'It's time!'

The galaxy in Shi Yan's eyes brightened as the Skyfall Star River in his hand shivered! The brilliant, diamond-like stars spun around, turning into space spears that carried a thick life energy. Together, they darted majestically toward the black hole.

"ROAR!"

Shi Yan roared while storming forward like the most savage demonic ancestor, his fingernails sharp as cold sabers.

Crack! Crack!

Space energy congregated into a massive space saber in his hand, looking like a saw. The cold, sharp space lances twisted the void as though they wanted to break this world.

The heartbeat thumped like drumbeats; listening carefully, it sounded like roaring dragons or rolling, grumbling noises of thousands of horses running together. His bearing was enough to swallow the entire world!

In this moment, Shi Yan's Star, Space, and Life Power Upanishads were urged together. The energy in his Absolute Beginning blood and body burst out at the same time as if he wasn't afraid of death, and he hit the black hole immediately. As the black hole had weakened and the diamonds were barring it, Shi Yan threw out a punch.

His punch came like an avalanche with a thick life energy, shooting starlight and a space splitting power!

Rumble! BOOM!

After his punch reached the black hole, it shook hard and the suction force disappeared!

Facing the sky and grinning, Shi Yan looked like a giant monster who depended on physical strength alone. The Absolute Beginning blood boiled in his body, burning his vitality as he was using his top powers of the Space, Star, and Life to attack the black hole.

Meanwhile, Zi Yao didn't miss a beat either.

At the moment Shi Yan moved, her seven-colored jade-like snake body suddenly diverged into twelve jets of light, like twelve meteors crossing the eternal universe, shelling the black hole.

An earth-shaking energy emitted from the black hole. At this moment, the void here twisted visibly as if the space couldn't take it anymore.

Pfffft!

The black hole looked like a pressed rubber ball that had already been deformed; it couldn't endure such a powerful attack. After a strange noise, the black hole shattered into billions of shadows, scattering in different directions.

Each black shadow had Devour's aura, dark and sinister.

"Muahahahaha!"

Billions of shadows sneered coldly and maliciously. As Shi Yan and Zi Yao felt strange, a shadow entered the Devouring Power Upanishad Origin not far from them.

After the black hole dispersed, the shadows shot out disorderedly. However, right now, they seemed to find their resting place as they crazily stormed toward the Power Upanishad Origin, jumping into it one by one.

"I've risked my life to endure that attack. It hurts, but I finally have the chance to get into the Devouring Power Upanishad Origin. With your clone's power, how can you resist me? After I've fused with the Devouring Power Upanishad Origin, I will eat your clone to reunite my Devouring power Upanishad. In this world, in this vast sea of stars, who can defeat me then?"

Devour's dark laughter came from the shadows as they swarmed toward the Power Upanishad Origin like a murder of crows.

The black hole took them all in.

Shi Yan paled, and Zi Yao screamed in fear, "Not good! He's tricked us! It's gonna be very bad!"

Devour urged all of his power to create the black hole that could swallow and absorb all creatures, pulling Cantecie's soul altar. Shi Yan had assumed that after Devour had swallowed Cantecie, he must need time to refine her energy, which would leave his body defenseless for a while.

Shi Yan and Zi Yao understood this disadvantage of the Devouring power Upanishad. They thought that they had gotten this chance to hit him hard while he was refining Cantecie.

And they actually did that.

Unfortunately, after taking in Cantecie's soul altar, Devour had just pretended to refine her. He didn't use the Devouring power Upanishad to take her energy in hurriedly.

Quite the contrary, he had gathered all of his strength, waiting for Shi Yan and Zi Yao to attack him. He endured that attack and seized the chance while the other two didn't notice the Power Upanishad Origin to divide his soul into millions of wisps using the Soul Control power Upanishad. Then, all of his soul clones dashed toward the Devouring Power Upanishad Origin at their fastest speed.

Currently, all clones of his had entered the Devouring Power Upanishad Origin, and he could reunite his real body there.

Devour was the ancestor of evil power Upanishads, and he was born with the seals of Devouring and the eight evil powers. He had cultivated this Power Upanishad for billions of years and studied it to the utmost level. At his realm and power, he wouldn't worry when he got into the Devouring Power Upanishad Origin and vied for it with Shi Yan's clone.

"If Devour gets the Devouring Power Upanishad Origin and swallows your clone, he will have the ultimate Devouring power Upanishad. In this world, I'm afraid not many people can defeat him then." Zi Yao pulled a stern face. "If Desolate has to face him without a Power Upanishad Origin, I'm not sure even he can win. And I, as I spent time to watch out here, haven't found my suitable Power Upanishad Origin yet. I know I can't defeat him. It's...getting very dangerous!"

Shi Yan's eyes were dark and ruthless. While Zi Yao was talking, his Absolute Beginning body shrank, returning to his human form.

He had to force himself to stay mindful. After a while, his eyes brightened up. "It's not that we don't have a chance! After receiving our hit, his soul and power were hurt. My soul clone got into the Devouring Power Upanishad Origin first, so it's the upper hand now. I think it's not sure that we will be completely defeated."

Taking a deep breath, he shouted, "I don't need you to help me here. You should go find your suitable Power Upanishad Origin. My real body won't stay here for a long time. My soul clone will try its best to cope with him. Although we can't win, I will try to slow his fusion process. My real body will come to the

sea of life over there, and I will take the Life Power Upanishad Origin. When I get it, and even if the clone fails, I'll be strong enough to fight him once!"

As they couldn't do anything here, their situation wouldn't be good if they both continued to linger.

They would be better splitting up and making themselves stronger before Devour could obtain the Devouring Power Upanishad Origin. If they got the suitable Power Upanishad Origin, even if Devour succeeded to kill Shi Yan's clone, Shi Yan still had a chance to overturn the situation.

It was their wisest decision!

Zi Yao wasn't dumb. Listening to Shi Yan, she nodded and left resolutely, not lingering for even a second.

Shi Yan got a hold of himself and connected with the clone, finding that the latter was still running toward the source of endless evil darkness inside the Devouring Power Upanishad Origin. Devour hadn't caught him yet. However, at this moment, so many evil auras and sinister ideas from the inner worlds of countless creatures in the territories still rolled toward his clone.

This clone of his was drowned in fierce energy, and it was getting stronger after each second!

It was not that his clone couldn't battle Devour for even a second!

Pondering for a while, Shi Yan's real body decided to leave toward the sea of life at his max speed. He decided to divide into two flows to take action.

Zi Yao and Shi Yan had left, but his clone stayed inside the Devouring Power Upanishad Origin, falling into the perpetual darkness. While falling, the clone's acupuncture points opened, connecting to different territories to gather all the evilness into his body.

His clone soul followed his wish, urging the Devouring power Upanishad, frantically and taking in everything.

He could feel his clone, his soul, his soul altar, and the eight evil powers showing their strengths!

The Devouring Power Upanishad Origin was like an endless black hole that could connect all territories in this cosmos to the source of evil. After Shi Yan had gotten in there, he was rolled with the flow inside a tunnel. From that moment, the evil thoughts of countless creatures had begun to cover him, hitting his soul and body deeply.

However, after he was pulled deeper into the tunnel, all the evil energies and negative emotions disappeared wherever he passed.

He had absorbed them into his body and soul.

This tunnel seemed not to have an end, and he had just traveled a short distance. However, there was no energy left to be absorbed in the areas he had already passed...

The ink-black shadows had come and congregated into one entity at the entrance of the tunnel: it was Devour. As soon as he got in, he tried his best to urge the Devouring Power Upanishad and swallow all the negative emotions and evil thoughts of creatures in other territories. It was how he strengthened himself, entering the core of evilness.

However, he was dumbstruck as he found not even a single beam of energy he could absorb in this entrance.

Devour wasn't dumb, and he even had pieces of vague memory about this place. He hovered for a while and he got the reason shortly after.

"NOOOO!"

Devour screamed ear-piercingly, thrusting deeper through the dark tunnel as fast as he could.

He understood that every second he lingered here, Shi Yan's clone was taking more energy to become stronger. The further Shi Yan got in this tunnel, the more energy he could take from the Devouring Power Upanishad Origin, and would be tougher to cope with.

If he let Shi Yan get to the deepest area inside the Devouring Power Upanishad Origin—the core of evil—to refine the Devouring Power Upanishad Origin, everything would be too late!

Devour had to move as fast as he could!
