

Slaughter 1601

God of Slaughter

Chapter 1601: Survival of the fittest

Although Zi Yao and Shi Yan left that area, this isolated void still had other bloody fights happening in it.

At the location of the Water Power Upanishad Origin, Emperor Sea Shark was fusing with the crystal water drop. He had released his Soul Consciousness to try and merge with the Water Power Upanishad Origin. The murmuring sounds of the water inside that transparent water drop were pleasant to the ears.

If no one came to disturb him, Emperor Sea Shark would have a smooth progress, and he could make the Water Power Upanishad Origin the topmost Power Upanishad in his soul altar.

But, things would never turn as one wished...

After Yuan parted with Serene Prison and Rupert, he flew away in his human form, trying to search for the Water Power Upanishad Origin, and finally sensed its energy fluctuations one day.

Yuan immediately left everything aside to focus and use all of his power to find the water drop created by Water Power Upanishad Origin.

When he arrived, he realized that Emperor Sea Shark was there already, and the other had entered the Water Power Upanishad Origin already.

Yuan Zu's face was sinister, his eyes cold and ruthless. "Just a little warrior...Dare to vie for the Power Upanishad Origin with me! You don't want your life!"

While talking, clear water energy fluctuated from Yuan Zu's body.

His human body slowly changed into his real form, but it was thousands of times smaller. His acupuncture points released massive water balls, each of them fulgent and containing an entire immense sea. Shortly, the splashing sounds of water waves arose as Yuan Zu was covered inside a big water ball.

He turned into a massive, transparent water ball. With the power of water, he slowly bobbed toward the Water Power Upanishad Origin.

Just like Devour, at the moment Yuan was born, he got the seal of Water Power Upanishad imprinted in his soul. It wasn't wrong to say that he was a life that ascended from the water essence between the heaven and earth. He was the ancestor and the old sage of all Water Power Upanishads. Since the Absolute Beginning Era, he had never cultivated any other power.

He had dedicated his entire life to the Water Power Upanishad.

His body was now a water ball with the supple power of water twirling around. As soon as he got into the Water Power Upanishad Origin, it was like a drop of water entering the sea, without causing a single ripple. Instantly, he had gotten into the Water Power Upanishad Origin.

In the immense world of water, Yuan felt the thickest steam he had ever perceived. He felt as if he had returned to the state of puzzled consciousness before he was born...

At the same time, even though Emperor Sea Shark had gotten here earlier than Yuan, his body and blood couldn't be compared to Yuan's. As soon as Yuan got in, the strange power of the Water Power Upanishad Origin seemed to recognize a more suitable master. Unexpectedly, it ignored Emperor Sea Shark and came to Yuan.

Yuan's soul energy filled the Water Power Upanishad Origin. His terrifying Soul Consciousness eventually connected with the Power Upanishad Origin and spotted Emperor Sea Shark, immediately launching an attack!

Emperor Sea Shark was wounded severely in just a blink!

No matter it was realm, power, age, level of power Upanishad, or power of bloodline, Emperor Sea Shark couldn't compare with Yuan. As the two of them appeared at the same time in the Water Power Upanishad Origin, it seemed to have its own consciousness. It decided to choose Yuan, which spelled tragedy for Emperor Sea Shark!

...

On the other side, after Desolate had killed Hiro and gotten the Metal Power Upanishad Origin, his power had increased sharply. He continued to move, not lingering there any longer.

He moved to a place nearby without spending a lot of time checking the route. It was a flatland covered with thick dust and soil. The power of the great earth was emitted from it, covering the entire world.

After Desolate came here, he wore a calm face but his eyes were bright. "The Earth Power Upanishad Origin of the Five Elements...This place's the essence of earth. I will take this as the second Power Upanishad Origin..."

Swoosh! Swoosh!

Thick dust twirled, creating a natural cage and covering the flatland that ordinary souls or eyes couldn't see through.

Desolate now looked different.

Although he had just taken in the Metal Power Upanishad Origin not long ago, after a moment of staying here, his aura had already changed. Layers of dust diffused from him; shortly, he became like that flatland, dust and ashes covering his body along with the simple but heavy energy of earth.

His eyes pierced through the thick layer of dust to observe the flatland.

The gray-brown flatland didn't have a tuft of grass; dust and sand covered the entire land under the immense sky. The soul auras were reported to Desolate from two corners of the flatland...

Desolate checked carefully and roared like a dragon next while disappearing. In the next moment, the flatland of the Earth Power Upanishad Origin shook hard. It seemed like there was a dragon sleeping underground that had just been awakened, and it wanted to destroy everything hindering it.

In two different corners of the flatland stayed two aliens who had followed Sauron here. They looked as though they were made of sand and gravel, their skin of the same tone as the gray-brown flatland.

They were the two members of the Prosperous Earth Tribe at the First Sky of TA, cultivating the Earth power Upanishad.

The Prosperous Earth Tribe was similar to the Snow Tribe: all of their members cultivated only one Power Upanishad. It was in their fate since they were born. The members of the Prosperous Earth Tribe had absorbed the power of earth since they were in their mothers' wombs. When they were born, they had already had the Earth Power Upanishad.

On Empty Land and the vast sea of stars, the Prosperous Earth Tribe was the "Son of Earth" because they could move underground freely using the power of the great earth.

These two members of the Prosperous Earth Tribe had undergone so many difficulties to get here to obtain the Earth Power Upanishad Origin. However, they didn't have good luck as they encountered Desolate here...

Seeing the terrifying commotion deep in the ground of the flatland, they discolored in fright, but didn't have a clue...

While they were frightened, a wave of fierce energy arose from deep underground. The earth caved in furiously while two dragons roared and soared up. The dragons opened their mouths and swallowed the two in one attempt. Afterward, they returned to the ground through the cracks they had created, disappearing shortly.

Not long after that, as the two members of the Prosperous Earth Tribe were buried, the earthquake subsided.

Deep underground, Desolate was quietly urging his power to take the Earth Power Upanishad Origin.

...

Rupert, Serene Prison, Edgar, Zhen Ru, and Fan Dei Lei parted after they arrived in this area. When they bumped into the others, they were ready to fight.

Each of the Power Upanishad Origins was unique, and all the warriors in this place were trying their best to search for them. Whenever they found a suitable Power Upanishad Origin, they would observe first, because someone with the same power Upanishad could have had come before them.

No one could take it at ease.

Bloody battles happened regularly. To become the only one that possessed the Power Upanishad Origin, the principle of the Power Upanishad, they had to risk their lives to kill any rival.

Battles like that happened in every area which had a Power Upanishad Origin. They were fighting due to their greed the ultimate power Upanishad to death!

...

Parting from Zi Yao, Shi Yan left his clone, returning to the sea of life of the Life Power Upanishad Origin.

He had the method to get the Power Upanishad Origin. He believed that he could fuse with the sea of life this time to attain the ultimate supernatural powers of this power Upanishad.

As he was dashing fast, the Skyfall Star River suddenly sent him a magical vibe. He suddenly stopped, using his soul to feel and observe. After a while, his eyes brightened.

He then changed his direction abruptly.

After a long journey, he reached a brilliant, immense sea of stars. This place had the most sparkling stars seeming like the purest jade. All souls would be touched by watching this sight.

The Skyfall Star River shook hard as soon as Shi Yan got here and immediately turned into a chain of stars, emerging in front of him.

In his eyes, the suns, the moons, and the stars changed, making his eyes seem like they held two bright seas of stars.

Sensing the Star Power Upanishad Origin in that magnificent and yet mysterious sea of stars, Shi Yan felt his soul sinking as he was walking toward the area.

As soon as he was about to get there, a magical but powerful energy emitted from that beautiful galaxy
Sizzle! Sizzle!

His body sizzled as if it was burning, his soul turning hot. As he was frightened, he got it all of a sudden.

Shi Yan halted. He knew he had more than one Power Upanishad in his real body, which was the reason why he couldn't enter the Star Power Upanishad Origin yet. He needed to make a clone and extract his Star power Upanishad, imprinting it into that clone to get into the mysterious sea of stars. That was how he could get the Power Upanishad Origin.

As soon as he was about to split his body, power Upanishads, and soul, he spotted a familiar soul energy fluctuation.

Shi Yan was surprised. Pondering for a while, he shouted all of a sudden, "Fan De Lei!"

As they both cultivated Star power Upanishad, the resentment between Shi Yan and Fan De Lei was deep enough. He didn't expect that the other would come to this place and find the Star Power Upanishad Origin before him!

"Congregate!"

Countless stars flew out of his body, bringing his blood to congregate in front of him. Slowly, they became a clone which looked as though it was made up of broken asteroids.

In the next moment, he extracted a wisp of his soul, as well as a part of his Sea of Consciousness and soul pond, and sent them to the clone's head.

Shortly after, the clone had become a warrior cultivating Star power Upanishad, with starlight fall from his body. All of a sudden, he sank into that galaxy with a pair of star-like eyes.

Swish!

The Skyfall Star River became a jet of light, following the clone to the sea of stars.

As soon as he got in, Fan De Lei's aura became clear. He navigated, then laughed. "Fan De Lei! You don't have good luck!"

Deep in the sea of stars, a light dot slowly twisted, turning into Fan De Lei's shape.

As soon as Shi Yan's clone entered the galaxy, Fan De Lei felt him. Hearing Shi Yan's laughter, Fan De Lei was upset as he screamed indignantly with a pale face, "Shi Yan! You're such an everlasting ghost! Why do I meet you everywhere?"

"Behave and get lost! For you being a member of the Phantom Clan, I won't kill you," Shi Yan shouted coldly.

[God of Slaughter](#)

Chapter 1602: Evil clone!

Hovering between the five deep blue stars, Fan De Lei wore a cold face. Jets of light shot from his hands as he was gathering energy, waiting for Shi Yan. Bands of starlight poured from the five stars like streams, pouring into his chest.

He had been here for a long time, and had fused the energy of the Star Power Upanishad Origin, which had rocketed his god power and his body, making him quite intimidating!

His Soul Consciousness had been ameliorated as well. He had a wonderful feeling as if he was blending with this galaxy.

At the moment Shi Yan entered the sea of stars, he could see Shi Yan's energy, Sea of Consciousness, and even the soul pond clearly. He knew all of Shi Yan's clone's stats.

He was so surprised when he recognized that no matter it was Shi Yan's physique, God power, or soul, it wasn't really intimidating-Shi Yan wasn't as strong as the time he was in the Phantom Clan's territory.

Fan De Lei was discreetly frightened, but then got cheered up. He thought that Shi Yan had problems with his cultivation or was wounded in a battle.

He didn't know that it was just a clone.

Although Shi Yan's power was strong and his realm was high, after the first cloning in which he had divided his Devouring power Upanishad and the eight evil powers, his body was weakened. After this current cloning, he had spent his Star power Upanishad to the clone, and his overall power was reduced one more time. Of course, he wasn't as strong as he used to be.

Unfortunately, his real body couldn't intrude the Power Upanishad Origin, and could only watch from the outside.

"Compared to my imagination, you're much weaker. Excellent! My chance's coming..." Fan De Lei was so excited that his body quivered. He moved out of a group of stars while brilliant starlight sprinkled on him, entering his body and making him shining in a mysterious way.

Being a member of the Phantom Clan, he was really good-looking and carried a natural poise. Under the beautiful starlight, he floated while smiling charmingly.

"The Skyfall Star River belongs to me. I'd been searching the Cloud Mist Territory for so many years for it. Shouldn't you return the Skyfall Star River to its rightful owner?"

Smiling tenderly, he pointed at the divine weapon which was now in the form of a chain of stars, hovering above Shi Yan's head. Starlight suddenly sparkled on his palm, which made the lines in his palms seem like the trajectory of the stars. Slowly, a massive star map arose from his palm.

That star map had a part of mysterious energy from the Power Upanishad Origin. It was the energy he had exerted a lot of efforts to create lately.

The mysterious, immense star map arose as an illusion, slowly snatching toward the Skyfall Star River's star chain. The Absolute Beginning divine weapon that had fused with Shi Yan's soul shook hard. It seemed to want to join that star map, becoming part of the Star Power Upanishad Origin.

"Dare to vie with me?" Shi Yan was surprised. He scrutinized Fan De Lei, shaking his head with an indifferent sigh. "I had agreed with Montecie and Mei Ji that I wouldn't come and trouble you. Because you are a member of the Phantom Clan, for the growth of the clan, they had implored me not to kill you."

Pausing for a while, his eyes went cold. "You and Cantecie didn't have good fortune, indeed. It's your fate to... die! Devour swallowed Cantecie in his black hole form, who has turned into ashes. I watched her die...And you, I didn't want to attack you, but you wanted to stay and trouble me. I can only say sorry to Montecie and Mei Ji.

"Stop!"

While hissing, Shi Yan touched his glabella and a mass of stars emerged above his head, where the stars rolled and arrayed in the form of an imposing bear. The star bear was actually the power of constellation. It pounded its chest and roared, starlight sparking everywhere.

The sparking starlight beams created many fading shadows, entering the Skyfall Star River with Shi Yan's soul energy.

Although this clone had only a part of Shi Yan's God power, blood, power Upanishad, and soul, and it looked weak, it actually had the realm of the host body-the Third Sky of Territory Ancestor Realm!

Fan De Lei was only at the First Sky of Territory Ancestor Realm!

Perhaps the clone and Fan De Lei were equally strong, but in terms of the realm and the deep knowledge of Star power Upanishad, no matter how hard Fan De Lei tried, he would never catch up with Shi Yan.

The Skyfall Star River halted as Shi Yan called it!

The giant star bear roared and howled, passing the Skyfall Star River and furiously dashing toward Fan De Lei. In Fan De Lei's eyes, the sea of stars in front of him caved in as it was attacked by the angry roar. Shockwaves struck his soul altar instantly, leaving him mentally collapsed.

He then saw the stars in the sky fall, swallowing him entirely!

As this Star Power Upanishad Origin was really vast, and each planet in it had an immense power, Fan De Lei, at his realm, would need a lot of time to absorb this sea of stars.

Actually, he had found this place very early, but the fusion process wasn't smooth. He couldn't refine much star energy, anyway; he had just linked his soul with these five planets.

However, when Shi Yan began to use his Star power Upanishad and the Skyfall Star River to create the giant bear with the constellation power, the stars in the sky were like open eyes, all staring at him!

Just like that, millions of starlight beams congregated.

In this moment, Shi Yan had become the focus of the starlights. It seemed he had established a strong connection with each star in the sky!

Each Power Upanishad Origin had a core operation rule: it would proactively choose the fittest one to fuse with!

Creatures at high realm always had deep understanding of the Power Upanishad, which made them easy to get the approval from the Power Upanishad Origin. This situation was the same when Desolate got into Hiro's gold mountain, and Yuan got Emperor Sea Shark's water drop.

Desolate had a higher realm than Hiro. After so many years, his understanding of the Metal power Upanishad had become exquisite. As soon as he got in there, he got the power to expel Hiro!

Similarly, Yuan had dedicated his entire body to practice the Water Power Upanishad. He could be deemed the ancestor of Water Power Upanishad. As soon as he got into that water drop, the Water Power Upanishad Origin could feel the familiar aura, so it initially wanted to fuse with Yuan and evict Emperor Sea Shark, who had arrived there first.

The Power Upanishad Origin didn't care who came first. It only appreciated the high realm and profound and thorough knowledge of the Power Upanishad.

Desolate and Yuan came later, but with their deep knowledge of the Power Upanishad and the realm at the Peak of Territory Ancestor Realm, they could obtain the approval of the Power Upanishad Origin, making the Power Upanishad Origin choose them proactively.

And now, since Fan De Lei was only at the First Sky of Territory Ancestor Realm, although he was here for a long time, his fusion was very difficult.

All was because of his low realm...

Although he was just a clone with the Star power Upanishad, Shi Yan still had the Third Sky of Territory Ancestor Realm. Moreover, he came with a divine weapon with the star attribute. As soon as he urged the Star power Upanishad, the Star Power Upanishad Origin here was stimulated.

Starlight fell from the sky: the Star Power Upanishad Origin had a new decision.

...No doubt that Fan De Lei would be the poor, expelled one this time.

By the time he got a hold of himself from the star attack, he found the connection he had tried very hard to establish with the five planets was cut off.

The giant star bear came bellowing and roaring as it brutally tore his territory. The Skyfall Star River now had new star power, coming forcefully with the power that could erase the seal.

Fan De Lei lifted his head, his face ash-gray and hopeless. His spirit was defeated, and he didn't have anything to resist with. He was predestined to fail, all because of his low realm.

"AHHHH!"

...

A savage soul tornado arose and dashed through the tunnel of the Devouring Power Upanishad Origin. Devour had gathered his evil power, using his abundant soul energy to come.

BOOM!

The endless negative emotions and evil powers came in unceasing waves, washing his soul and body.

At that moment, the savage Devour halted, thrilled!

He had finally reached the part of the tunnel where negative energies hadn't been completely refined! It meant Shi Yan wasn't far from here!

Devour changed, turning into nine shadows which carried the Devouring power and the eight evil powers respectively. He relaxed and the nine shadows frantically took in the remnant of negative energies in the tunnel.

Meanwhile, Shi Yan's clone jutted his head out of a deeper section of the tunnel.

Devour had finally found Shi Yan. At this moment, this clone of Shi Yan that was focusing on taking in the evil energy opened his eyes. This evil clone had a pair of blood-red eyes, his face savage and crazy. Evil energy twirled around him unceasingly.

At first glance, Devour was shocked!

"Damn! How much evil energy has he absorbed?"

Shi Yan was now more terrifying than his host body, Devour thought. This evil clone of Shi Yan had entered the source of all evilness in this world. Seven hundred and twenty acupuncture points in his body had connected with all major territories in the world, which had gathered all the evil energies and thoughts in innumerable creatures living there.

Crazily taking in without a limit, this evil clone was filled with ruthless, hot-tempered, bloodthirsty, and intimidating feelings. The thick evil, murderous aura from him could represent all the negative thoughts and will of creatures in this world. He was now the God of Evil that had intimidated even Devour.

"I've been waiting for you for a long, long time..."

This evil body licked his lips heartlessly. From his crimson eyes, two trickles of blood dropped, which gave him a fearsome look!

The trickles of blood had a terrifying erosive power that immediately left two horrible wounds on his handsome, sculpted face. The two wounds were deep to his bone, making his face seem terrifying and savage.

"RRROOOAAAARRR!"

It seemed that all creatures in the world heard this destructive roar echo deep in their souls! All the evil energies in the dark tunnel rose, gathering on Shi Yan's clone.

At this moment, this clone was even more terrifying and intimidating than the real body!

Peerless intimidation!

God of Slaughter

Chapter 1603: Swallow each other

Looking at Shi Yan's evil clone in front of him, Devour felt regretful. No matter what, he could have never predicted that the other could be so fierce!

He felt that he shouldn't have let this evil clone reach the devouring black hole that early, which had given him the chance to absorb the thick evil, negative energies in this tunnel first.

At that moment, due to an unimaginable amount of negative energies the clone had taken in, his terrifying aura was much more intense than the real body's, giving Devour a terrible headache.

The endless negative energy gushed from every direction. Shi Yan's savage face slowly had a layer of dark air covering it, made up of the extremely evil energy. His crimson eyes gazed at Devour's shadows while the negative emotions gushed like water from a broken dam, hitting Devour's shadows torrentially.

"I acknowledge your achievement...You're really strong now. However, your Power Upanishad comes from me! Do you really think that you can use my power to destroy me?"

Devour's voice arose in the dark like shrieking ghosts and wailing souls, capable of raising goosebumps on people's skin.

There were nine shadows in total. As he was talking, eight of the shadows moved, surrounding one shadow in the center. Ripples of evil energies containing destruction, despair, darkness, and the other evils were released. The eight evil powers twisted together like a rope, creating a strong, pure, and of course, intimidating power.

The immense negative energy released by Shi Yan was hit by the rings of eight evil energies and got pushed aside, unable to reach the shadow in the center.

"I will show you my territory..." Devour smirked coldly.

Thick, black clouds emerged, revealing a territory of coldness, brute, frenzy, and isolation above his head.

That world changed slowly. The sky was dyed black as if someone had used ink to fill it while the ground was a bloody land. At first glimpse, the place was filled with gory dismembered bodies; death, destruction, despair, darkness, chaos, corpse Qi, and spooky ghost lanterns ruled this world, appearing in every corner...

As long as it was a creature with a pure heart, its soul would shatter after just a glance at that world.

It was the most terrifying territory in this world, the fountainhead of evil in Devour's inner world. He had guarded this place for years, not letting even the members of the Devouring Clan visit this place.

No creature was born in that world, and actually, it shouldn't even exist...

Even when Zi Yao faced Devour's territory, her soul quivered in fright. She had tried using her holy, purifying divine light to filter and clean that filthy, evil world, but didn't succeed.

Between the heaven and earth of this vast sea of stars, no creature could stand still in front of Devour's territory, no matter how strong it was.

Desolate was the God of War in the Absolute Beginning Era, the strongest warrior at that time. However, when even he faced Devour, he was afraid of the latter's territory. Desolate didn't have any means to ensure that his soul wouldn't be affected by it. Devour's territory could arise and magnify the evil in someone's heart, making him lose himself in that extreme world.

All creatures with a soul would have very complicated seven emotions and six desires, all having an evil facet of their existence. As long as they had even a wisp of evil thought, this territory could affect them easily.

And at this moment, Shi Yan's evil clone was in an extreme state. This clone carried Shi Yan's expectations with the imprint of Devouring power Upanishad and the eight evil powers. It also contained all of Shi Yan's evilness in his inner world. After a period of constantly taking in evil energy, this clone of Shi Yan could be now deemed as the vilest creature in this world!

Shi Yan didn't have even a wisp of humane disposition in his heart; this clone of his was purely evil. As he was watching Devour's territory, his mind wasn't affected at all. On the contrary, he laughed excitedly and loudly!

"The power I used couldn't affect you because we share the same origin. Similarly, how could your territory affect me?" Pounding his chest, Shi Yan pulled a ferocious face, grinning fiendishly. "I have no good thought in my heart. This body of mine is made of evilness in my inner world. I'm the devil!"

Devour's territory floated up from his head, flying toward Shi Yan.

In response, Shi Yan crackled heartlessly, touching his glabella. Instantly, a black hole emerged and turned into a massive vortex, spinning frantically.

"When you and I are fighting, the eight evil powers are of no use. Only the Devouring power Upanishad will decide the winner! You and I, one of us will be destroyed to complete the other. You swallow me or I will swallow you! It's the best way to fight between us!"

The black hole flew out of his glabella, looking exactly like the Devouring Power Upanishad Origin where they were staying in this dark void. While Devour pulled a dark face, Shi Yan urged his power again. Eight islands of the eight evil powers flew out, circling the black hole.

He had forced the tier of Power Upanishad in his soul altar, gathering all of the power to operate the black hole!

Swoosh! Swoosh! Swoosh!

The tremendous suction force filled each corner of the world as the flood of negative energy in this tunnel gushed torrentially.

"You're right...The result of the battle between us will end with either you or me dying. We're going to swallow each other. It's the best fighting method, indeed."

Devour recognized that his territory wasn't effective in the fight against Shi Yan.

Their power, Power Upanishad, and evil mind were almost the same. In this situation, using the eight evil powers to attack each other wasn't really effective on either of them, since the thicker negative energy couldn't affect their minds.

Only devouring could finish all of this, completely destroying one of them!

Devour's clones gathered, turning into a massive black hole. This black hole was identical with Shi Yan's, and even the eight gory islands spinning around looked alike!

"Come here!" Shi Yan roared crazily as the evil clone leaped up, then plunged into his black hole.

It was like the tongue of a black demon!

Hovering in the black hole, Shi Yan watched another black hole in front of him, feeling the energy emit from Devour. Shi Yan's clone suddenly shivered intensely as the extremely thick negative energy gushed from his acupuncture points, which enlarged the black hole significantly.

BOOM!

After his black hole had expanded, it attacked proactively! Explosions echoed when the black hole opened like the mouth of a demon, trying to swallow Devour's black hole.

In the next instant, Devour's black hole and the eight bloody islands were swallowed completely. The soul power, as well as the bloodthirsty and chaotic thoughts Devour had accumulated for billions of years erupted like a volcano!

Together, they expanded inside Shi Yan's massive black hole, which swelled up like an over-inflated balloon. Shi Yan immediately felt the evil, negative energy, which was more brutal, and felt like the most terrifying bomb in this world. It was about to detonate in his body, smashing his entire being!

Shi Yan discolored in fear as he immediately urged the Devouring power Upanishad to digest Devour's fierce power. However, as soon as he took action, he recognized a suction force that was enough to swallow the entire world rumblingly emerge from inside his body.

At this moment, he felt so strange, as if his body was being nibbled at from the inside.

It seemed that a hungry demon was just born inside him, which was greedily biting and chewing off his blood, flesh, internal organs, and bones. It wanted to eat him from the inside!

He suddenly understood one thing: the ones he had swallowed using the black hole while his Devouring power Upanishad was working had to experience the feelings he felt right now.

...The feeling of being eaten up little by little!

"Oh?"

Another strange feeling arose as his soul that made him joyful. It was the wonderful feeling when the Devouring power Upanishad was gathering energy!

His Devouring power Upanishad was frantically working to swallow everything. It felt like he had a big mouth that was enjoying delicious meals. It was a familiar, satisfying feeling, indeed!

He was also swallowing Devour!

His body was chewed off while his Devouring power Upanishad was taking in Devour's energy!

They were swallowing each other!

Shortly, Shi Yan realized that Devour was having the same experience and feeling he had just got. The other was in the same situation as his power was being digested!

The two of them were like two beasts biting and tearing each other to eat pieces of flesh they could take. They both had to bear wounds and refill their power at the same time!

This was the harshest battle of endurance!

"Oh good! Still good!"

As he understood, he wasn't tense anymore. He relaxed the burden in his mind, focusing his power, mind and soul to control the Devouring power Upanishad.

This battle would take a long time. Who would survive to control the origin of all evilness in this world with the Devouring Power Upanishad Origin? This battle would give the answer.

Shi Yan's clone's situation in this battle was different from the host body which had entered the Star Power Upanishad Origin. In this place, he was neither in a disadvantageous nor an advantageous situation...

The Devouring Power Upanishad Origin didn't favor either one of them. After Devour entered, it still didn't give up on Shi Yan completely, because the Devouring power Upanishad in this clone came from Devour, and was a genuine evil Power Upanishad. At the same time, he was at the Third Sky of Territory Ancestor Realm, which wasn't lower than Devour. This body was created by Shi Yan's Absolute Beginning blood, and it had all of Shi Yan's evil thoughts.

Moreover, Shi Yan's clone had come here earlier, which had given him time to collect a large amount of evil power and fill the gap with Devour.

No matter it was realm, power, bloodline, or understanding of the Power Upanishad, this clone wasn't less powerful than Devour. All of these had made the Devouring Power Upanishad Origin consider him at the same level with Devour. Thus, it didn't favor either of them.

This battle was of two equal powers!

God of Slaughter

Chapter 1604: Falsify destiny!

Deep in the cold darkness, a massive spider web made of gray filaments hovered quietly, a thick energy of fate emitting from it. The tiny gray filaments of the spiderweb seemed to connect to many souls, and this massive spiderweb was so large that it could cover the entire world. There were billions of gray fibers, such that people couldn't even count all of them.

At this moment, Sauron's Roulette of Fate was like a sucker sticking on the spiderweb where Sauron was sitting. With a calm face, he was urging the power of Fate.

Numerous filaments contracted from a long distance, slowly entering the Roulette of Fate and then Sauron's body through the roulette. The terrifying aura that could control fate and the weakness of people gushed out of Sauron.

"Chaos doesn't have a start...Life changes unpredictably..."

The melodious incantation that could seep into the souls arose from Sauron's body. Although he didn't open his mouth, the mysterious melody was echoing in his body, soul, and soul altar.

The Roulette of Fate under his feet moved continually, changing in silence. Sometimes, it was a thick book, which became a spiderweb that was connected to the fate of creatures in the next moment. At other times, it looked like a wheel...

Gradually, the Life Power Upanishad Origin shrunk into his body and soul altar; a long time later, the Roulette of Fate also disappeared into his body. Sauron slowly regained his consciousness, as if his wandering soul had finally come back to him.

He opened his eyes, which were bewildered. A long, long time later, he slowly regained the light in his eyes...

"Fate! Fate!"

The ear-piercing chanting arose from his soul altar while a thick scripture radiated a strange but magnificent light as it emerged in his tier of power Upanishad.

Sauron stepped on the Roulette of Fate, his eyes bright. He stood up with ease and a natural poise.

He flew away, traveling through many strange areas and finding many Power Upanishad Origins that weren't found yet. However, he acted as if he didn't see them, just searching for the life energy of living beings.

He came to a strange, dark place and bumped into Serene Prison of the Soul Clan, who was using his soul form to check this space, trying to locate something.

Sauron stopped, talking smilingly and tenderly, "Serene Prison, haven't you found the Soul Power Upanishad Origin yet?"

Swoosh!

Serene Prison's soul returned to his body, his slim but handsome face dark. "Precursor Sauron! I wonder if you have something to tell me as you're here?"

As they were one of the Ten Great Territory Ancestors, Serene Prison knew how fierce Sauron was. Serene Prison's teacher used to tell him that Sauron was the most intimidating character in this world who could absolve an entire era. Serene Prison's former teacher had reminded him to be very cautious and not belittle Sauron.

Since the last tens of thousands of years, Sauron had always stayed in the Endless Abyss, watching the Absolute Beginning Gateway. He didn't show up in the Sea Domain of Nihilicity regularly. Thus, the experts of the new generations often belittled him.

Only the characters like Serene Prison knew how bold Sauron was. No one of his stature dared to look down on him.

This time, as Serene Prison and Rupert had followed Yuan Zu to cultivate, they had discreetly guessed that Sauron was the ringleader of all the commotion in this shaken universe. They had assumed that Sauron was the cunning troublemaker behind all the chaos.

Thus, seeing Sauron, Serene Prison immediately became vigilant as if he was facing a great enemy.

"Seems like Yuan has told you something. Otherwise, you wouldn't be startled on seeing me..." Sauron smiled, talking seriously, "Anyway, it's really bad that you haven't found the Soul Power Upanishad Origin yet. It would be quite troublesome to grab your string of fate if you did. It's simple now..."

Serene Prison discolored.

Without much thinking, he hissed as countless brutal souls emerged above his head. Those brutal souls were like ferocious, giant Demogorgons, ancient beasts with unpredictably terrifying power.

The brutal souls roared and howled as they rumblingly dashed toward Sauron, showing their bloody mouths and sharp claws while trying to reach Sauron's head.

Sauron hovered still as he touched his forehead, causing that thick scripture to emerge.

As he held the book with both hands, the magical lines in his palms moved, linking up with the strings of fate inside that book. It was the Scriptures of Fate created by Sauron's power Upanishad and the Fate Power Upanishad Origin, which controlled the fates of all creatures in this world. Sauron could use it to pull or even cut off a warrior's fate!

"Serene Prison, the seventh Patriarch of the Soul Clan in this era...Gotcha."

Sauron flipped pages, causing many magical but complicated words to glow.

As soon as he said that, Serene Prison suddenly felt a tension in his soul. He had a terrible feeling as if he were a marionette that the other could control with the strings.

"The strings of fate are hidden in the soul of each creature to rule their fates. I'm the God of Fate. With these Scriptures of Fate, I'm able to judge and decide your fate and soul..."

Sauron murmured, his face calm with a smile.

All the brutal souls Serene Prison had released were pressed by an invisible hand. They roared and rumbled, but they couldn't reach Sauron anymore. Quite the contrary, Serene Prison screeched in pain, flying toward Sauron.

"By the name of the God of Fate, I change your fate!"

Sauron smiled tenderly, holding the scripture in one hand and the other hand lacing on Serene Prison's forehead. Many tiny lines emerged like the fibers of a spiderweb, entering Serene Prison's soul altar.

The spiderweb disappeared, and Serene Prison's soul altar was netted, which made him like a fish trapped in a net.

Sauron retracted his hands, the Scriptures of Fate disappearing into his glabella. At this moment, Serene Prison had a little mark of a spiderweb on his forehead as eyes changed continually. After a while, he calmed down, kneeling in front of Sauron respectfully. "Greetings, Master!"

Sauron smiled and nodded. Stepping on the Roulette of Fate, he took Serene Prison and left.

With the same method, he flew around, subduing the experts in this place. Han Tian, Montecie, Rupert, Dracula, and Forefather Dragon Lizard became the subordinates of the Roulette of Fate with a little mark of a spiderweb on their foreheads.

Their fates were forcefully changed!

After entering the Absolute Beginning Gateway, Sauron had found the Fate Power Upanishad Origin at his fastest speed. After fusing with it, he obtained the supernatural power to change fate, which was really intimidating. He traveled around, subduing the experts without a Power Upanishad Origin, making them his marionettes.

Han Tian, Serene Prison, Montecie, and Rupert were from the group of the Ten Great Territory Ancestor, and Forefather Dragon Lizard and Dracula were also bold beings. Sauron had subdued many warriors from other forces as well, soon becoming the strongest force in this area, controlling people's fates.

"Not enough! I need a stronger assistant. It's not easy to deal with Shi Yan. Desolate...I'm sure he has gotten some Power Upanishad Origins, so his string of fate will be tougher and more complicated to take. He's not easy, too. Seems like I have to find Devour and Yuan then..."

Sauron clasped his hands, standing on the Roulette of Fate while mumbling to himself. Behind him were Han Tian, Serene Prison, Montecie, and Rupert, who didn't have the ability to control their bodies with the spiderweb of fate tying their soul altars.

"I must move faster..."

Sauron calculated and drove the Roulette of Fate, holding the Scriptures of Fate in his hand and flying fast away. As long as he bumped into any warrior in his way, if they hadn't obtained a Power Upanishad Origin, he would make them his slaves instantly.

After a long time, Sauron's eyes brightened. The Roulette of Fate got to an area which had a massive, transparent drop of water in it.

Yuan's soul energy was powerful inside that water drop that was slowly shrinking. With this tendency, it would be fused shortly, becoming Yuan's supreme power.

Sauron's Roulette of Fate quietly lowered as the group of warriors behind him emitted the tremendous energy at the same time.

"Pretty close...Not too late! If you had obtained it, it would be much more laborious." Sauron looked at the water drop, his face happy. He was smiling while urging the power of Fate, flipping pages of the strange book. Eventually, he muttered, "Absolute Beginning Era, Water creature, Yuan..."

"Get out here!"

Sauron pointed at the last page of the scripture, and a strange light shot out of his finger. With that, the power that could detain creatures' fate shot out rumbly!

Sizzle!

Yuan inside a running water current was pulled out of the Water Power Upanishad Origin. As he was trying his best to absorb the Water Power Upanishad Origin, he was quite outraged, "Who? Who dares to disturb my fusion?"

"Confine his body," hissed Sauron.

Serene Prison, Rupert, Montecie, Han Tian, Dracula, and Forefather Dragon took action at the same time, urging their powers together. Flames filled the air together with brutal souls; time paused, and a cold tornado swept forward along with thick lava...

Many experts had joined hands to create a world-destroying energy to ambush Yuan, who had to create so many layers of water to stop their attacks.

"With competent servants, it's much easier. Otherwise, it'd be troublesome to control your fate..." Sauron chuckled. His hand slowly flipped to the last page of the book, holding and pulling a big gray string.

A twinge came from deep in his soul, and Yuan couldn't help but screech.

With that, the water barriers he had cast shattered instantly, and his giant body was confined with an earth-destroying power. Yuan's body exploded continually, leaving him with severe wounds.

"It's easier now."

Sauron nodded, pointing at Yuan. The latter was like a wooden marionette, flying toward him.

"You dare! You dare control me! Who do you think you are?" Yuan bellowed while struggling hard. His body flying toward Sauron was forced to stop by his powerful Soul Consciousness.

"Worthy of being one of the strongest Absolute Beginning creatures. Your string of fate's tough enough. Seems like you need more wounds," hissed Sauron. Then, Han Tian, Rupert, and Serene Prison tried

their best to attack Yuan. Different energies shadowed the place, and in just a blink, the other was wounded badly, his giant body revolving like a spinner.

"Why do you have to do that?" Sauron sighed and pulled one more time. This time, Yuan was bewildered, his soul altar constantly shaking, which hindered him from gathering his energy. Just like that, he was pulled toward the other.

God of Slaughter

Chapter 1605: Achieving supreme enlightenmen

The Roulette of Fate moved fast forward on the long journey. Sauron stepped on the roulette, clasping his hands behind his back, his face calm and cold.

Behind him was the group led by Absolute Beginning creature Yuan. Han Tian, Serene Prison, and Rupert all had a beautiful, exquisite mark of a spiderweb on their forehead, which was the seal that tied their souls!

Even an intimidating expert like Yuan couldn't escape Sauron's net of life. In this moment, he had become a slave, his soul altar detained.

At this moment, Sauron was stronger than ever!

Riding the Roulette of Fate, Sauron took Yuan, Serene Prison, and Han Tian to strike forward. Any creature bumped into him would be enslaved, their souls controlled.

He was almost invincible!

Almost at the same time, Desolate—the God of War—was moving across the void, taking in more Power Upanishad Origins. He was strengthening himself, trying to accumulate energy for the last brutal fight.

Meanwhile, Shi Yan was also trying his best.

His Evil clone was still devouring the Power Upanishad Origin, fighting against Devour in that dark tunnel. Their competition of energy, Power Upanishad, realm, and will had to produce a clear result.

At the same time, after the Star clone killed Fan De Lei, it had begun to fuse with the sea of stars, making it the most magical essence of his power.

Shi Yan's host body had left toward the sea of life at his max speed. Watching the area with rolling life energy and the condensed aura from the milky sea, he was struck.

"I'm back! This time, I want to take in the power of the Life Power Upanishad Origin!"

The blood in his body burned and drops of ruby blood oozed out of his pores. As his body shivered, his blood flew away like blood spirits.

Each drop of blood turned into a blood shadow, which then twisted and congregated into a Shi Yan. As soon as another clone was created, Shi Yan divided his tier of power Upanishads.

The Life seal emerged from his head in the shape of a crystal ball and moved toward the clone.

He did the same to the soul pond and the Soul Consciousness, which entered the clone through his eyes. Pondering for a while, he let out a low shout, and the co-soul with the Power Upanishad Symbol Tower flew out of his host body, entering the clone's head.

The co-soul was made of Shi Yan's soul and the Grace Mainland's Origin; this special soul had fused with the Power Upanishad Symbol Tower. After Shi Yan had divided and created two clones, he thought he had to use the co-soul this time to ensure the success rate of fusing with the Life Power Upanishad Origin.

Swoosh!

The co-soul fell on the clone's head and hovered above the new soul altar, along with an immense and thick life energy.

Shi Yan's host body and the Life clone exchanged looks, then the Life clone moved toward the sea of life without a second's wait. This time, it wasn't rejected, entering the sea of life in just a blink.

A magical feeling reflected in his mind, the feeling life fusing being so clear.

'It works!'

As the Life clone got the approval from the Life Power Upanishad Origin, vitality from everywhere continually rolled toward it from the sea of life. Shortly, the clone was given tonics that had strengthened its soul, bones, soul altar, and body wholly, which enhanced it greatly.

By the sea of life, Shi Yan's host body hovered as he quieted down his mind to sense and feel the harmony between the sea of life and his clone, feeling each step of the fusion.

"Unless there's a stronger creature with a better understanding of the Life Power Upanishad, no one can stop my fusion." Pondering for a while, Shi Yan smiled while muttering to himself, "Okay, only the Space power Upanishad's left..."

Then, his body urged the power of space to leave this place.

The Evil clone, the Star clone, and the Life clone were detached from Shi Yan's host body, and they had taken with them three-fourths of his energy, power Upanishads, and even blood. Currently, his host body had only one-fourth of the power he had in his peak condition. If he encountered a strong opponent, he wouldn't be able to win.

Fortunately, the host body kept the Space power Upanishad, the best power to use in case he had to run for his life! His body rippled with space energy while moving through the void in search of the Space Power Upanishad Origin to take this last essence power.

This search seemed to absorb all of his luck as it became gradually harsh. Even after an unknown but long time, he hadn't found the energy fluctuation of the Space Power Upanishad Origin. However, he wasn't really hurried, because the other three clones were having a steady progress.

As the Life Power Upanishad Origin and the Star Power Upanishad Origin were being taken in, the power of his host body was slowly increasing. Also because of the fusion, the Life clone also received benefits with the increase of realm and power understanding.

Slowly, the Evil clone gained a little advantage in the battle against Devour. As the other clones were getting stronger, the Evil clone got stronger as well, which made the chance of victory lean on his side.

The situation was favorable to him, which was why he wasn't hurried.

His clones were accumulating energy while his host body was searching for the Space Power Upanishad Origin. He finally got time to consider and reason the situation. Why had they come here? What was this place? What were the Absolute Beginning's mysteries?

He quieted down, keeping his soul clear and tranquil while wandering aimlessly.

Along the way, he luckily found a scorching ball with burning power of thousands of fire abilities— it was the Fire Power Upanishad Origin! He had also met a terrifying tornado that was moving around, howling and screaming past him.

It was the Wind Power Upanishad Origin. Unfortunately, Han Tian wasn't around, and he couldn't contact the other. Thus, he had to give it up.

Cantecie cultivated the Wind Power Upanishad as well, but she had perished already. No one could find that Wind Power Upanishad Origin anymore.

The appearance of the Fire Power Upanishad Origin and the Wind Power Upanishad Origin repeated in his head as he was trying to figure out where he was and why it had so many Power Upanishad Origins like this.

Staying pensive, he gradually forgot his target—the Space Power Upanishad Origin—as all of his body and mind had been absorbed into his thoughts.

After a long time, something flashed in his head one day. He was shaken while a magnificent light radiated from his eyes.

"I got it! I got it!" He couldn't help but scream, swinging his hands in thrill. The thick mist was clear; the smoke and clouds that covered his soul were swept away.

"This place's Absolute Beginning's tier of power Upanishads, and the vague, endless void is Absolute Beginning's territory. This place is Absolute Beginning's soul altar! Its Sea of Consciousness, tier of power Upanishads, and the host soul were made with the same method!" Shi Yan hissed, his eyes clear.

He had finally confirmed this!

Before Absolute Beginning disappeared, he had used its soul, body, and blood to create creatures. Desolate, Yuan, and Devour of the Absolute Beginning Era used to be parts of Absolute Beginning. Absolute Beginning understood the principle of all power Upanishads; he was the rule-maker in this universe. After he vanished, Desolate, Yuan, and Devour all had his memory of power Upanishads more or less.

That was why Yuan was born a Water creature, Devour got the Devouring and the eight evil power Upanishads, and Zi Yao had mastered the Divine Light...

Every creature in this world was created by Absolute Beginning. It was similar to how Desolate created the Immortal Demon Clan, Imperial Dark Tribe, Heavenly Monster Tribe, and the God Clan; and Devour had given birth to the Devouring Clan...

The vastly immense universe, the home of billions of creatures, was actually Desolate's territory. Because of his supreme power, his territory was endless, with millions of smaller territories inside.

The Absolute Beginning Gateway was the door to get out of that territory, and the Power Upanishad Symbol Tower was the key. Moving through the Absolute Beginning Gateway was actually leaving the territory Absolute Beginning had created for his tier of power Upanishads.

All the power Upanishads the creatures had cultivated came from the Power Upanishad Origin in Absolute Beginning's soul altar. If a warrior got a Power Upanishad Origin, he would become the one who could make a power Upanishad's principle, which was a God seal that would never fade!

This area was the tier of power Upanishads, the cradle of all power Upanishads, the world under the tier of territory in his soul altar. Then, what was underneath this tier?

The Sea of Consciousness!

"I'm sure there's another tier down there! The Sea of Consciousness will have the soul pond...Absolute Beginning's soul pond! Oh my God! What separates these two tiers? Space? The Space Power Upanishad Origin?"

Shi Yan was shaken as he observed the void underneath, his face changed.

Of course, the Power Upanishad Origin was so precious. But, if his assumptions were correct, deep in the void under his feet would be another tier, Absolute Beginning's Sea of Consciousness! The Sea of Consciousness would have the soul pond, which contained Absolute Beginning's purest soul energy, also the energy that could create souls and lives! It was the most mysterious energy in this world!

Absolute Beginning's soul pond!

A chain of thought ran through his head and he took a deep breath. As he believed in his assumption, he began to sink into the void underneath! He believed that something would be down there, and he wanted to check it out.

After his host soul had discharged the Star, Life, and Devouring power Upanishads; as well as the co-soul and the Power Upanishad Symbol Tower, it only had the Space power Upanishad, and the energy running in this body was also the strange space energy.

As soon as he had activated space energy, his body seemed to pierce through so many layers of spaces to plunge to the deepest area in this void, his speed being amazing.

Sinking! Sinking further with no return!

After an unknown time, perhaps a moment or a million years, his soul suddenly shook!

He had sensed the aura of the purest space energy!

In this moment, his feet felt a rigid ground. He stooped to see, his face switching to a thrilled countenance instantly. He couldn't help but laugh contentedly. "Indeed!"

Under his feet was a spacious mirror that didn't have an end. It filled every area of the void, separating the tier of power Upanishads and the Sea of Consciousness.

It was the Space Power Upanishad Origin in the shape of a colossal mirror!

The tier of power Upanishad was above the Sea of Consciousness, and that mirror separated them like the Absolute Beginning Gateway separated the world.

"Laborious searching isn't as good as thinking a little more. Time won't mistreat people with a resolute mind!" While laughing, Shi Yan released the pure space energy, slowly entering the bright mirror underneath and starting to fuse with the Space Power Upanishad Origin.

God of Slaughter

Chapter 1606: Swallow Devour!

As soon as Shi Yan's body understood the situation and Absolute Beginning's mysteries, his soul and spirit were sublimated!

At the same time, his realm seemed to increase as well!

Not only did the host body get the benefits, but the three clones had the same feeling as well when the inner realm had a new breakthrough.

The souls of the Star clone, Evil clone, and Life clone were shaken at the same time. The riddle about the realm that had troubled and puzzled them for a long time was now as clear as the sunlight. Their understanding of the realm was increased greatly.

At the same time, the three clones now had a better and deeper understanding of their Power Upanishads.

The Sea of Consciousness, the tier of Power Upanishads, territory, and host soul were the key elements of creating a soul altar. Every strong creature would have the soul altar built in this architecture. It went with the core rule of heaven and earth as the ancestor of this universe—Absolute Beginning—also had such a soul altar.

It was how the root of the Great Path looked like!

As the mist cleared, his realm was increased, and the fusion speed between the Star clone and the Life clone with the Power Upanishad Origins got faster.

Because of the host body, the clones also received great benefits. At the same time, the faster speed of the Life clone and the Star clone had also strengthened the host body...

It was a magical circle.

Similarly, his Evil clone had its realm and energy increased as the host body got a deep comprehension of power Upanishads, and the fusion speed of the Star clone and the Life clone got faster.

The Evil clone had already had a slight advantage, and now, it was even stronger because of these reasons!

With all this, the pressure on Devour was getting bigger. Gradually, he got panic-stricken as he had a premonition that all of his traces in this world would be soon erased.

In Absolute Beginning's tier of power Upanishads...

Sauron stepped on the Roulette of Fate, moving fast. He was trying hard to find Shi Yan's aura to locate and kill him.

No one understood Shi Yan's intimidation more than him. Sauron had guarded the Absolute Beginning Gateway for many years, and he had seen Shi Yan's soul pierce through the Absolute Beginning Gateway, getting deeper in the Sea Domain of Nihilism and crossing the Sea of Annihilation to enter Desolate Territory with his own eyes.

Shi Yan's appearance had triggered the commotions of the Absolute Beginning Gateway. Time flew by, Shi Yan was getting stronger every day. Eventually, he got the Power Upanishad Symbol Tower to open the Absolute Beginning Gateway.

It seemed like a string had connected Shi Yan to the Absolute Beginning Gateway, this tier of power Upanishads, and the Power Upanishad Symbol Tower that no one knew about.

And Sauron couldn't see that string!

Although Yuan, Zi Yao, Desolate, and Devour had a tough string of fate, he could still see and touch them. In this vast sea of stars, Shi Yan was an exception that he couldn't see through.

Until now, he couldn't confirm Shi Yan's origin. However, as the latter was getting stronger after every day, he knew that if he couldn't stop Shi Yan's growth, he wouldn't have a chance later on.

To Sauron, Desolate wasn't as tough to cope with as Shi Yan!

He was the sage who understood Shi Yan's threat the most. Thus, after he got the Fate Power Upanishad Origin and had gathered a strong force, he had made killing Shi Yan his top target.

While Sauron was searching for Shi Yan, Desolate had seized the chance to fuse with more Power Upanishad Origins.

Not many people knew that Desolate had mastered the Life Power Upanishad as well. Moreover, no one could beat him in using Life power Upanishad. Moreover, Shi Yan's Life power Upanishad came from Desolate's inheritance.

After taking in many Power Upanishad Origins, Desolate aimed at the sea of Life. Since he had the map of the tier of Power Upanishads, he got the precise location.

He was moving fast toward the sea of life.

In a remote corner of the tier of power Upanishad, Zi Yao's twelve-headed snake body was covered in a beautiful auspicious cluster of clouds tinged with sunset hues. Those clouds were strangely magnificent, with mysterious moving divine light.

It was Zi Yao's Power Upanishad, and she was fusing with it fast.

In another area, Mei Ji had completed her fusion with the Ice Power Upanishad Origin, and was now moving around to find Shi Yan and the others.

"Something's wrong..."

On the Roulette of Fate, Sauron frowned. He pulled himself together to observe the void underneath, his face stern.

"The barrier underneath seems to be cracked. Is that someone who knows the mysteries of this tier of power Upanishads, and Absolute Beginning's Sea of Consciousness underneath? Who is that? Devour or Desolate?"

Sauron became baffled and hesitant.

Sauron had guarded the Absolute Beginning Gateway and wandered around the Endless Abyss for years. With the power of Fate, he had soon understood the magical secrets in this area.

Getting through the Absolute Beginning Gateway, he knew the situation before Shi Yan. He knew that this place was Absolute Beginning's tier of power Upanishads and his Sea of Consciousness should be underneath. Being the sage of this era, he had spent efforts over tens of thousands of years for the Absolute Beginning Gateway's secret.

"No! Someone's trying to open the barrier between the two tiers!"

Sauron's face darkened. Taking a deep breath, he drove the Roulette of Fate toward the void underneath.

Almost at the same time, Desolate halted as he was heading toward the sea of life. Just like Sauron, he pulled a stern face.

"Unexpectedly, someone knows the path, trying to open the barrier between the two tiers. That barrier's of course the Space Power Upanishad Origin. If someone can find it fast, it must be Shi Yan! Ha!"

Desolate knew the reason, and he was more certain than Sauron that Shi Yan was the troublemaker down there!

"If he opens the barrier and enters the Sea of Consciousness to find that soul pond, it'll cause more troubles." Desolate pondered for a while and decided to give up the sea of life. He acted similar to Sauron as he turned and plunged to the endless void beneath.

Both Sauron and Desolate had a deep knowledge about this place. They had also guessed that the barrier separated the two places should be the Space Power Upanishad Origin. Feeling the tier of power Upanishads shaking, they made the same decision.

At this moment, Zi Yao was still taking in the Power Upanishad Origin, Mei Ji was searching for Shi Yan, and Shi Yan's three clones were fusing with the Power Upanishad Origins while his true body was trying hard to absorb the Space Power Upanishad Origin.

...

Inside the devouring black hole...

Shi Yan's Evil clone and Devour were trying to swallow each other. The two black holes wiggled, changing continually. As Shi Yan's host body and the two clones were getting stronger, this Evil clone had taken the upper hand. His corrosive power had increased, which had almost deactivated Devour's attack.

"Do not wiggle anymore. You and I are one. You will become a part of me...It's your destiny." Shi Yan's voice was like a sharp sword, continually thrusting into Devour's soul and messing up his resisting spirit. "You aren't stronger than me. Even if I, the clone, am destroyed, the Star clone and the Life clone still exist. You can't actually destroy me. I'm sure you can feel I'm getting stronger steadily. It's because my fusions are about to complete. You don't have any backup. How can you defeat me...?"

As he was stronger, he could spend his soul energy to affect Devour's soul verbally. He wanted to damage the latter's mental defenses.

"Give it up! Come blend with my soul, becoming part of me. It's how we can gather the Devouring power Upanishad and the eight evil power into one, making it the strongest power Upanishad in this world! I promise you, I will swallow your lifetime enemy Desolate. I will use the Devouring power Upanishad to kill him and fulfill the wish you've embraced for tens of thousands of years!"

"You can't defeat me!"

"You will be defeated and eradicated!"

"Don't struggle! Give up...Give up...!"

Shi Yan's voice reverberated in Devour's head like a giant hammer hitting his spirit to make him collapse mentally and give up his resistance. However, Shi Yan had belittled the strong will of the Absolute Beginning creatures. His mental attack had just weakened Devour's soul a little bit. But, he couldn't break Devour's inner world.

The two of them continued to swallow each other, entangling like two black clouds while flying toward the deepest area of the Devouring Power Upanishad Origin.

After an unknown time, there was no thick negative energy swarming toward them anymore. The pulling force the two had to endure disappeared all of a sudden.

They had just reached the Evil Heart, the fountainhead of the Devouring power Upanishad, the other end of the dark tunnel!

And it was actually a heart, a mountain-like, ink-black heart!

The palpitating heart had so many black holes that were all wiggling and devouring as if they could swallow all the evilness in the territories, using the evil thoughts from so many creatures as the energy to live!

Thump! Thump!

The black heart throbbed, and Shi Yan's soul and Devour's soul were shaken hard. As a result, the crazy battle between them was halted.

The black holes on the heart looked like bored holes, which somehow looked similar to Shi Yan's acupuncture points connecting to numerous territories and the evil thoughts of countless creatures. This black Evil Heart was the fountainhead of Devouring power Upanishad!

It was the evilness in Absolute Beginning's heart that he had condensed into an Evil Heart, the Origin of sins!

When Shi Yan's Evil clone saw that black hole, the Power Upanishad Symbol Tower in the head of the Life clone, which was pretty far from them, suddenly shot a beam of light!

That light beam crossed the space as if it could tear the devouring black hole to reach that black Evil Heart.

Thump! Thump! Thump! Thump!

The Evil Heart palpitated intensely and flew out as the light beam shone on it, heading toward the black hole Shi Yan's Evil clone had created. Afterward, it reached Shi Yan's Evil clone and got into its heart!

In that split second, the power of the Power Upanishad Origin that filled the entire tunnel flooded Shi Yan's heart completely.

Amidst an unimaginable agony, the Power Upanishad Origin shrank and got into his chest. At the same time, after a long time entangling with Shi Yan, Devour couldn't resist anymore. He was covered and pulled into the Evil Heart, staying inside Shi Yan's chest altogether.

At this moment, the Devouring Power Upanishad Origin was fusing with Shi Yan's Evil clone!

"AAAAGGGRRRRHHHH!"

A terrifying screeching came from Shi Yan's Evil clone. In Absolute Beginning's tier of power Upanishads, he was screaming painfully as if he was being tormented unceasingly. Thick black smoke fumed from his acupuncture points, slithering around him like venomous snakes and expanding.

All the experts staying in this tier of power Upanishads had their souls shivering at that moment.

[God of Slaughter](#)

Chapter 1607: Meet up

"Something's really bad has happened..."

Riding the Roulette of Fate, Sauron lifted his head to look at the endless void. An extreme insecure feeling churned in his soul as he felt a terrifying threat.

"It seems like some extremely formidable existence has just roared, which runs directly to a warrior's soul. This creature must be very intimidating!"

Yuan appeared in his human form, his white beard reaching his chest, and his face tender and calm. He didn't look different except for a little exquisite spiderweb mark on his forehead. He turned to Sauron, talking respectfully, "Yeah, something's not normal at all..."

"How about you guys?" hissed Sauron, his face stern.

"A strange pressure came up in my soul. It's very evil, very frightening..." said Serene Prison.

"Don't know why I feel restless. I want to explode and vent my evil thoughts!" answered Rupert.

Han Tian, Montecie, and the others stooped, giving similar answers.

"Seems like Devour may have obtained the Devouring Power Upanishad Origin. Yeah, that's it! Only him with the Devouring Power Upanishad Origin can bring that horrible fear to every creature after his realm rockets," Sauron mumbled after a while. However, he didn't stop his journey toward the Space Power Upanishad Origin, as if Devour weren't as scary as Shi Yan.

Almost at the same time, Desolate halted midair. He lifted his head to look at the void, talking indifferently, "I wonder who has taken the Devouring Power Upanishad Origin...Devour or that kid..."

From that evil aura, he was sure that the Devouring Power Upanishad Origin had been taken. And, in this world, only Shi Yan and Devour were qualified to do that. No matter who got it, that person would be a very big threat to him.

But, Desolate and Sauron had made the same decision. They ignored that evil threat, persistently heading to the area that might have the space barrier.

...

By the sea of life, Mei Ji wore a long, silver dress, hovering in the void like the Goddess of Ice. Her eyes that could enchant any creature were like snow flowers, releasing a cold aura.

Standing by the sea of life for a long time, she didn't let out a word, just waiting for Shi Yan to fuse with the Power Upanishad Origin.

...

Zi Yao lazily opened her eyes inside an area with magnificent clouds, her face gorgeous as if she just had woken up from a beautiful dream. Bands of lights tinged with sunset hues suddenly wound around her graceful body like rainbows, forming a stunning dress. "I did it..."

Smiling gently, she turned into a jet of red-orange divine light, then flashed and disappeared.

After an unknown time, she reappeared in a world of a mysterious starry sky. Looking Shi Yan's body emerging in the sea of stars, she smiled. "Seems this Star clone will finish first. I should wait for a while."

...

Deep in the void, Shi Yan's Evil clone was shrieking and shrilling terrifyingly as he was falling deep to the bottom of the Power Upanishad Origin. The skin of this Evil clone had turned jet black as if he was poisoned severely.

His entire body was black, leaving a pair of savage eyes that were as red as blood. A thick murderous aura that couldn't disperse emitted from his body, which could instigate the devil in every creature's heart.

Thump! Thump! Thump!

The heart in his chest seemed to imprison a formidable demon that continually expanded. Beams of black air that naked eyes could see emitted from his chest, entering his bones, blood, and flesh; even his soul and brain.

He was digesting...

The evil energy that could destroy the world was bursting inside the Evil Clone, which was enough to terrify any powerful creature.

...

At the bottom of the tier of power Upanishads, the Space Power Upanishad Origin that looked like a colossal mirror now had so many fine cracks on it. The shining mirror shattered, crackling strangely as if there was a beast biting and swallowing the broken pieces to explode this layer from the inside.

Time flew hurriedly, and the immensely vast Space Power Upanishad Origin slowly shrank.

Swish!

The Roulette of Fate cut through the dark void, rumblingly arriving and hovering above the mirror Space Power Upanishad Origin.

Sauron, Yuan, Serene Prion, Montecie, and the others observed, their faces frightened.

"Tie the soul! Confine the Soul Consciousness!"

Sauron frowned, touching his glabella. With that, a magical light dot rippled right between his brows.

Han Tian, Montecie, Forefather Dragon Lizard, Dracula, the ones who knew Shi Yan, had their countenances changed instantly. They looked puzzled as if their intelligence and consciousness were confined so that they couldn't even think.

"It's his aura, the Space power Upanishad's aura! The person taking in the Space Power Upanishad Origin is Shi Yan!" Serene Prison was holding a dark green soul orb in his hands, using his mind to trigger its power. He quieted his mind to sense for a while.

Sauron nodded, talking faintly, "This Space Power Upanishad Origin separates two worlds. We're in Absolute Beginning's tier of power Upanishads, and below this tier is Absolute Beginning's Sea of Consciousness. If the mirror under our feet shatters, the two tiers will be linked. At this moment, Shi Yan's fusion has just begun. It'll take a while before the mirror shatters. Until that time, you should try your best to kill Shi Yan. Even if you die, you have to make his soul perish!"

Yuan, Serene Prison, and Rupert looked a little struggling when they heard his voice. It seemed they wanted to get rid of the shackles. However, after a short moment, their eyes turned deeply respectful to Sauron.

"We will obey your order, Master," they cried together.

"Now, we just wait," Sauron beamed.

Those who came first suddenly quieted down, jumping off the Roulette of Fate and scattering. They all focused on the mirror beneath.

The Power Upanishad Origin in the shape of a shining mirror seemed to not have an end. At this moment, the mirror had so many fine cracks, which then developed further, reaching far and wide as if it was about to shatter...

The rippling space energy became clear, but they seemed like layers of space being dissolved and melting.

Sauron always looked calm, but his eyes were sparkling strangely as he was actually excited.

He had been waiting for this moment for tens of thousands of years. After this layer shattered, he would kill Shi Yan and get the soul pond down there. Then, he would have the utmost power Upanishad and become the sole God in this world!

"Who's Sauron?"

All of a sudden, a rumbling but cold voice came from the void like billions of thunderclaps booming at the same time. Sauron was sinking in his joy, so he was bewildered for a moment when he heard that.

Yuan stooped and roared as he was suddenly tense. He had already urged the Water power Upanishad, and a drop of transparent water covered him entirely.

The Water Power Upanishad Origin Yuan had fused with was connected to all seas and rivers in the universe instantly. The power of water ran directly to his body, his power soaring in just a blink.

Yuan's tense nerves surprised the others Sauron had controlled, as they all knew how strong Yuan was. As even he was vigilant like that, they knew the one who was about to arrive here was even more intimidating!

"Desolate!"

While they were so astounded, Yuan shouted, gathering almost all of his power to resist the disaster that could come at any minute.

Han Tian, Montecie, Forefather Dragon Lizard, and Dracula had resisted Desolate's soul attack in defense of Cloud Mist Territory. As soon as they heard Desolate's voice, they instinctively urged their Power Upanishads to prepare to counter the incoming enemy.

All of a sudden, imposing gold mountains rumblingly and brutally fell together in the dark void like drill bits!

BOOM! BOOM! BOOM!

The tremendous power that could shatter the world and explode the void covered the entire sky.

BOOM!

A gold mountain hit Yuan's water drop and boomed like the end of the world. Yuan immediately transformed back to his true body. At the moment the water drop exploded, he used his thick turtle shell to parry the gold mountain.

Even so, Yuan's body was blown, falling on the space mirror uncontrollably.

Han Tian, Montecie, Dracula, and Forefather Dragon Lizard instinctively grouped. They used the fire to create a flaming dragon and time to slow the gold mountains; then, they used the burning lava to cast a barrier. That was how they stopped a horrible attack from a gold mountain.

Han Tian spurted a mouthful of blood as his face changed in fright. He couldn't help but cry, "So fierce!"

The restriction that had frozen his Soul Consciousness was broken after this attack, and he regained his sound mind instantly. However, his soul altar was still netted by the spiderweb of fate, so he couldn't escape Sauron's enslavement.

After he was bewildered for a while, he turned to Montecie, Dracula, and Forefather Dragon Lizard by him, and found that they didn't get hurt after that attack, their faces still looking baffled.

Crack! Crack!

Serene Prison and Rupert crackled as a sharp, giant mountain hit them, pressing them on the mirror, leaving their bodies almost collapsed. They discolored in fright, trying to urge their power to stop their bodies from shattering.

"Desolate! It's you!"

At the moment the giant gold mountain came to him, Sauron became mindful. Feeling the earth-shaking Metal power, he slightly changed his face.

The Roulette of Fate under his feet rose up all of a sudden. Shortly, billions of light rays moved around the roulette while billions of creatures in the world had a strange feeling as if a wisp of their souls was sucked away.

Boom!

The giant mountain hit the roulette but couldn't smash it. The Roulette of Fate trembled twice and then steadied above Sauron's head.

"You're Sauron. I have finally found you!"

Desolate's cold and overbearing voice came from the dark sky. Then, he appeared in their vision in the human form of Ghost Hunter, hovering above the others to observe them.

Sauron pulled a stern face, raising his head to look at Desolate as he nodded. "I finally get to meet you."

"Recently, you had peeped at Desolate Territory? What's your conspiracy?" Desolate's voice was cold.

"Just checking if you had woken up yet." Sauron pulled himself together quickly. A thick book flew out of his forehead, which he then held with both of his hands. While talking, his hands flipped the pages to the last page and found a familiar symbol before pressing it. He finally exhaled in relief, beaming, "I've been waiting for you for a long time, too."

God of Slaughter

Chapter 1608: Shake the entire world!

During the Absolute Beginning Era, Desolate was the strongest warrior whom everybody had acknowledged. He was so invincible that even Devour—the embodiment of evil—couldn't resist him. By now, Desolate had become an unbeatable legend.

Sauron was the expert of the new generation. Leading the Ten Great Territory Ancestors, he was a mysterious existence with the rare Fate Power Upanishad.

In the eyes of Han Tian and Serene Prison, Sauron was the strongest expert of this current era, the deepest existence they would never be able to estimate.

And today, Desolate and Sauron had finally met. The peerless expert of the old time and the peerless expert of the current time seemed to have some problem with each other!

Sauron held the book with one hand while the other hand traced the last page. With a smile, he said, "In this immensely infinite world, there's only one string of fate I can't touch. And you, even though you're invincible, you're not that person. As long as I can touch your string of fate, you can't defeat me!"

"Are you sure?" sneered Desolate while studying the other. "I want to try, indeed!"

"You can try," Sauron also smiled happily.

As he was laughing, the line of fate in his palm bloomed like a strange flower, pressing on the biggest and toughest string on the last page of the scripture.

Desolate's soul sounded like the pressed, tensive string while an agony he couldn't describe arose from his soul, expanding to his Sea of Consciousness and soul altar, intruding in his territory.

All the creatures, no matter they were warriors from the big races or the ordinary human beings and beasts in Desolate Territory, had a terrible migraine at that moment.

It was like Desolate's soul had pierced through the souls of every creature in Desolate Territory. Those creatures had to endure a migraine as Desolate was having one, and their souls would be destroyed if Desolate's soul was destroyed!

All the creatures now living on the Heavenly Rock Continent and in the Cloud Mist Territory deep in the Sea Domain of Nihilicity, like Carthew, Leona, Fei Lan, Blood Devil, Yang Tian Emperor, etc., had the magical mark in their souls because they were born in Desolate Territory, which caused the pain.

They didn't know what had happened.

Sauron pulled the gray string while smiling. "If I pull off this string, your soul won't be complete anymore. You will die. Do you believe me?"

Desolate had a gleam of fright that made him frown, rubbing the crown of his head instinctively. "The Fate Power Upanishad's really magical, especially now that you have the Fate Power Upanishad Origin, which helps you capture the string of fate of every creature. Not bad, you're fierce! Much more powerful than what I thought..."

As Sauron was laughing heartily, Desolate changed his tone of voice, "But, are you sure you can pull my string of fate off? If you could, why wouldn't you have it done earlier? After you got the Fate Power Upanishad Origin, you should have done that if you could have!"

Then, Desolate shouted and balled his fingers into fists before punching Sauron's Roulette of Fate.

As soon as Desolate's punch came, the power of Metal, the scorching heat of fire, and the toughness of great earth joined each other. His punch suddenly had a lush ancient tree with an immense life energy.

Boom!

His fist hit the Roulette of Fate, and the four powers of Metal, Life, Earth, and Fire burst off at the same time, creating a horrible impact that shook the Roulette of Fate continually. The roulette screeched while retreating back to underneath Sauron as if it was scared.

At the moment the Roulette of Fate was hit hard, Sauron's chest dented as well. It seemed that his body also received a hard attack as blood trickled down the corners of his mouth, his face pale.

"Show me if you can pull it off." Desolate retreated after launching a punch. The life tree grew from his stomach, thriving fast with luxuriant branches and leaves, creating a natural armor and covering him entirely. "I haven't used my body to attack you, and you've been wounded already. Your human body's too fragile. Do you think you're qualified to talk to me?"

Desolate pulled a cold face, his peerless, overbearing aura emitting wildly. "I have swaggered for an entire era. What kind of character I haven't seen? You're at a high realm, and your power Upanishad is very special. Unfortunately, your body's too weak. It's your biggest weakness! It's just sleep-talking if you want to use the human body to fight me."

Then, Desolate touched his glabella, and a cyan lightning ball soared up, bringing with it the world-shattering power of the extreme lightning aura to bombard Sauron.

That lightning ball could break the soul will, so if it hit Sauron's soul altar, his Sea of Consciousness, soul pond, and host soul would perish instantly. Nothing of his would remain in this world.

"I didn't attack you after I got the Fate Power Upanishad Origin because I knew it wasn't enough." Seeing the lightning ball, Sauron shouted, his face calm, "All of you, parry it! Using your best power to attack his true body. I have his string of fate here!"

Then, Sauron condensed all of his power. The Roulette of Fate under his feet suddenly shrank into an exquisite ring, which then slid on his index finger. At this moment, his finger was the finger of God that could turn the spiderweb of fate, pulling Desolate's fate!

Boom!

Shortly, a tying force came over to Desolate's soul like billions of invisible tentacles and shackles that nothing could resist. Desolate's magical and formidable abilities were stagnant in this moment, and he couldn't use all of his power anymore.

The experts like Yuan, Han Tian, Serene Prison, Rupert, Montecie, Dracula, and Forefather Dragon Lizard had turned into outraged beasts that weren't afraid of death. Under Sauron's order, they all stormed toward Desolate.

Yuan had returned to his true form, and Forefather Dragon Lizard did the same. Serene Prison had released all of his brutal souls, and Han Tian had become a fire giant.

This group of experts had paid by burning their vitality and soul to urge their power to the acme. In this moment, the power they were showing could eliminate an entire territory in just a blink of an eye, which was enough to make the Sea Domain of Nihilism shatter again. This was truly a heaven-destroying power!

"AAAARRRRGGGGHHHH!"

Desolate suddenly roared angrily as blood splashed about. He struggled fiercely and transformed to his Absolute Beginning dragon body. Branches of the tree grew from the gaps between his scale armor with thick vitality. The life ancient tree grew by his dragon horns, rooted deep into his body and bones.

A brutal aura shot to the sky, bursting as if it was real matter. Yuan and the others, who were dashing toward Desolate, got slower as if they were entangled with tens of thousands of dragons.

However, at this moment, Yuan, Han Tian, Serene Prison, Rupert, and the others had urged their powers to the utmost; burning their souls and vitality to create the most frantic, rumbling power; and hitting the giant dragon with it.

Yuan had drained the water of the oceans in the entire universe to condense water drops as heavy as billions of mountains. The water power inside those water drops created a world of water, pressing on the dragons.

Han Tian was now a fire giant. As he was roaring, flows of fiery lights with his Soul Consciousness were burning while he was hovering above Desolate.

Serene Prison's brutal souls he had refined for tens of thousands of years appeared in the shapes of the ancient demogorgons, hissing and shrieking while tearing Desolate's body.

Yuan, Han Tian, Serene Prison, and Rupert were burning their souls and vitality to cast the strongest attacks, which were as strong as the power of an enraged expert at the Third Sky of Territory Ancestor Realm. As they were joining hands, Desolate, who couldn't gather all of his power because of the restraint on his soul, roared and bellowed as bleeding wounds appeared on his body.

"I didn't attack you right after I got the Fate Power Upanishad Origin because I knew if you resisted me with your full force, I wouldn't be able to cut your string of fate." Sauron held the thick Scriptures of Fate, the finger wearing the Roulette of Fate touching a massive string that was like a dragon. "That's why I didn't do anything, and started with Serene Prison. I've enslaved the experts, including Yuan. I even gave him time to absorb the Water Power Upanishad Origin. I've prepared for a long time so that they will help me trouble your body while I'm working on your soul..."

Sauron laughed, "Like now, both your soul and body are under attack. As long as you lose on one front, you will die shortly. I do want to see if you're strong enough to resist all the experts in this universe!"

Yuan, Han Tian, Serene Prison, Rupert, Montecie, Dracula, and Forefather Dragon Lizard were, just like Sauron had mentioned, peerless experts and the most intimidating creatures in the sea of stars. Added with Sauron, the expert who controlled Fate, this force was incredible, indeed!

What Desolate was facing was the attack of all the strongest experts in this vast sea of stars physically and mentally. On top of that, Sauron didn't care about the lives of Yuan, Han Tian, or anyone else; he had made them burn their lives to attack Desolate's body. This sort of a fearless attack could create unimaginable effects.

Sauron and Desolate had come here because of Shi Yan, and considered him their biggest threat. But now, because of some old grudge, they fought each other as soon as they met.

This was the fiercest battle, though!

"Well, it's not that I haven't used my power to resist the experts of an entire era!" Desolate's roar in his Absolute Beginning dragon form was enough to sweep away the cosmos. "I could counter the strong creatures that could control the world back then, and I still can in this era!"

As he was roaring terrifyingly, Desolate's giant dragon body wiggled and twisted hard. In his splashing blood, wonders were created by so many different power Upanishads in the form of lightning balls, fireballs, storms, icicles, and divine lights. All of them shot out of the gap between his scales with his blood. The abundant energy that could shatter the experts joined and created an impact that could obliterate this universe.

It was a bizarre shockwave!

Han Tian, Serene Prison, Rupert, Forefather Dragon Lizard, and even Yuan felt petrified as though they had a barbarian dragon from the ancient times gazing at them, preparing to tear them apart. The experts shrieked as they were blasted away. Their bodies cracked, filled with exhaustion.

"You have so many soldiers, but only Yuan has a worthy competence. If you could enslave Hui and Devour, perhaps I couldn't have resisted you. But, it's not enough to use them to trouble me!" Desolate shouted angrily while lifting his dragon head, as a life star emerged from the life tree by his horn.

At first glance, that life star was Desolate Continent. As soon as Desolate Continent materialized, Desolate shouted, and the planet fell rumblingly.

An immense life energy locked on Sauron; that life star's target was him!

As Sauron had peeped at Desolate Territory for so many years, he knew what that planet meant. It was the formidable weapon Desolate had created after so many years of staying dormant! Seeing the life star rolling toward him, Sauron was frightened, fumbling with the Scriptures of Fate.

[God of Slaughter](#)

Chapter 1609: Space's broken! Shi Yan gets out!

By the time the Absolute Beginning Era ended, Desolate had been wounded so severely that he had to stay dormant, his body dismembered. Staying in Desolate Continent, his host soul had slept for quite a long time.

While sleeping, as he had made Desolate continent his resting place, it had been affected by his consciousness. Slowly, it became a refined divine weapon, a supernatural one!

It had become a lethal weapon with his power Upanishads and Life Seal! The Desolate Continent fell from the sky with an energy fluctuation that made Sauron shiver like a leaf.

At that moment, his face changed greatly. As he shouted, his finger placed on the gray string cracked: his bone was broken!

The ring slid out of the finger, falling on the rough, gray string.

BOOM!

Desolate's ancient dragon body had an explosion in the head as if an earthquake had just taken place there. His host soul was struck hard, which made him dizzy.

Deep in his eyes, complicated dragon scaled patterns arose, which looked like a net that had tied his soul altar down.

He couldn't gather more energy to pump to Desolate Continent to maintain its attack. However, the Desolate Continent was still falling like a massive iron ball, falling toward Sauron with an unceasing momentum.

Sauron's human body was even smaller than an ant compared to the Desolate Continent. As he was busy suppressing Desolate's string of fate, he didn't duck the falling Desolate Continent, which was like a mass of clouds that could swallow the entire world.

At this moment, Desolate's string of fate was pressed, but Sauron couldn't dodge the attack anymore...

Seeing the disaster falling on his head, Sauron pressed another finger on another string on the same page of the scriptures, hissing, "Take it for me!"

"AAAARRRGGGHHH!"

The giant Absolute Beginning body of Yuan had been blown far away because of Desolate's previous shockwave. While he hadn't had the time to recover, his soul was struck. While shrieking, he couldn't resist the forced command. He brought his shell, which was bigger and tougher than Desolate Continent, dashing toward the falling Desolate Continent.

BOOM!

Desolate Continent fell, furiously colliding with Yuan's turtle shell. Lights of colliding energy rippled that naked eyes could see. They expanded and shot everywhere, making the void explode continually.

Yuan screeched again, his voice shaking the void. His giant turtle body balled as the head and limbs retracted into the shell. Yuan's shell that looked like a vast continent had a clear dent while he quivered continually, as he was wounded horribly.

Sauron's countenance didn't change, but he actually exhaled in relief. Yuan had shielded one attack for him with the price of his self being hurt badly.

Anyway, Sauron didn't care about Yuan, Han Tian, and the others even if they were to be struck to death. To him, as long as he was safe, he could sacrifice anybody. At the moment Yuan was shrieking and shivering, Sauron quietly left the area covered by Desolate Continent with the scripture in his hands.

"Hit him harder!"

Sauron sent another order while running away. Han Tian, Rupert, and the others were struck away by Desolate's energy shockwave. However, they couldn't control their soul altars. Seeming like gory marionettes, they were burning their lives like moths heading toward a flame as they stormed toward Desolate, regardless of their lives once again.

Blood dripped down their bodies; Han Tian's body was burning not only on his skin, but in his blood and bones. His vitality was draining and weakening fast...

Rupert and Serene Prison were in the same condition...

They were paying with their lives, trying to stop Desolate no matter what!

Sauron, under Desolate's frightening threat, looked like a maniac with his red eyes. All the tricks he had prepared for Shi Yan were applied on Desolate now.

"He's actually an intrepid and ambitious person!"

Desolate's eyes suddenly projected on the Desolate Continent, and the continent that had fallen on Yuan's turtle shell looked as if it had just received more energy, floating up instantly. While Sauron and Yuan didn't have the time to parry, it pounded again, hitting Yuan's shell hard.

The continent built on Yuan's shell was completely shattered, and Yuan's body was hurt tremendously. His hovering body couldn't stand Desolate Continent's hammering, falling directly onto the space mirror along with a terrifying screeching and crying.

Crack! Crack! Crack!

The space mirror already had many cracks on it, and it was broken this time as it couldn't stand the impact. Yuan's massive body immediately got through the mirror, falling into the dark area that no one knew.

"It's broken!"

"He went through!"

"The two tiers are connected!"

Serene Prison, Han Tian, and Rupert screamed. As their souls were controlled, they couldn't go against Sauron's orders, but their cognition still worked. While attacking Desolate, they noticed the changes in the surroundings.

Sauron and Desolate were baffled for a while because of that incident, turning their focus on that space mirror.

They all knew that mirror was the shape of the Space Power Upanishad Origin, also being the barrier separating the tier of Power Upanishads and the Sea of Consciousness, the Power Upanishad Origin Shi Yan was fusing with. As the mirror was broken, Yuan and Desolate Continent had fallen through, and the barrier between the two tiers was gone. It meant that they could directly plunge into the next tier!

Sauron's finger that was pressing Desolate's string of fate relaxed for a while as he wanted to spend part of his power to cope with the incident.

Desolate did the same, blowing as if he was shooing flies. Serene Prison, Han Tian, and Rupert were blown away from Desolate's body as if they were in a crazy storm.

"Shi Yan! He has not gotten out yet!" Desolate looked at the hole that had just broken open on the space mirror while screaming. His scream rolled up deadly lightning balls, shelling through that hole like a meteor shower.

"AAAAGGGRRRRHHHH!"

All of a sudden, Yuan's fearful and outraged howl came through the hole. He sounded like he was having the worst nightmare of his life. He reacted even more terrifyingly than the time Desolate had pounded on him. His roaring and howling were of a beast who was in the most hopeless situation, which rose the hair on the back of people's napes.

"What's happened?"

Everyone had this thought as they pulled themselves together and observed. Desolate and Sauron stopped fighting, looking down skeptically as they didn't know what kind of torment Yuan had to endure down there.

"Get out here!"

Desolate hovered for seconds, then impatiently swung his dragon claw into the void.

Desolate Continent was like a massive, iron ball that went through the broken hole of the mirror, returning to the tier of power Upanishads where the others were staying. Without waiting for the others to react, Desolate snorted, "I do want to see what the heck you are doing there!"

The Desolate Continent pounded one more time!

This time, it didn't aim at Sauron, but the cracked space mirror. A horrible noise that could shatter the soul sounded: the space mirror had almost completely collapsed.

Countless broken space shards shattered and scattered around like sharp swords or broken glass, as a tremendously large cave appeared underneath.

Those space shards with the aura of the Power Upanishad Origin were like sharp space sabers that could twist and change their own trajectory, shooting toward the dark void.

Swish! Swish! Swish!

Noises of sharp objects thrusting into flesh arose underneath, together with Yuan's earth-shaking shrill.

Because the mirror was broken, people's vision wasn't hindered anymore. They stooped and became dazed.

They finally saw Yuan's giant body, which was covered in broken space pieces. Yuan was stabbed, his flesh and blood mashing. It looked like he had just undergone the ten-thousand-blade punishment.

There were so many deep wounds on his body that people could even see his bones. His blood streamed like rivers from his wounds!

After that, they recognized those blood rivers were running down to Yuan's stomach. As they were so bewildered, they changed their angle of view to see what was underneath Yuan's belly...

"Oh my God! That's Shi Yan! Shi Yan's tearing Yuan's body to eat him!"

Serene Prison of the Soul Clan was scared beyond his wits, his face pale.

Previously, Yuan's shell had hindered their eyes so they couldn't see anything. But this time when they changed their angle, they saw the real situation.

Shi Yan's Absolute Beginning body was hovering by Yuan's stomach. He was covered in scale armor; savage spikes jutted out of his elbows, knees, and shoulders like rows of sharp swords, revealing his coldness and sharpness. They carried the power of the Space Power Upanishad Origin that could cut everything!

Shi Yan was like a towering giant whose fingernails were as sharp and cold as sabers. At this moment, his ten fingernail-sabers were thrusting deep into Yuan's stomach, tearing a big hole so he could eat his flesh and drink his blood!

This image was too bloody and cruel to see!

"He...He's eating Yuan!"

"My goodness! Is he crazy?"

"Too cruel, too bloody! He seized the chance when Yuan got hurt to attack. He's eating Yuan alive!"

Everybody could see this scene as they paled and shivers were sent down their spines. They all looked aghast, with a deep fearful countenance.

At this moment, Shi Yan was like a demon, a flesh-eating demon in their eyes!

Sauron wasn't an exception. He changed his face and smacked his tongue discreetly.

Desolate was the only one who didn't look different. He looked at people with his mocking eyes, snorting.

"It's not worth being surprised. His Devouring clone isn't here. If he wants to take Yuan's power, he can only suck his blood. That's how he's getting stronger. In our time, we all did that. I ate them or they would have eaten me. But until now, I've always been the eater!"

"Did you think Yuan has never done this? He has Lizard's smell, which means he ate Lizard! And now, as he's being eaten, he knows the pain and fear as well. Seems like he hasn't changed his cowardice a bit even though he has lived for another era."

[God of Slaughter](#)

Chapter 1610: Insufficient

The battles between the Absolute Beginning creatures were really brutal and bloody, since it was like how wild beasts used their teeth and claws to clash, bumping and banging into each other with their flesh and blood!

The creatures in the current era didn't see the Absolute Beginning creatures very often. As they didn't live in that time, they could never imagine how savagely bloody those battles were. Thus, seeing Shi Yan in his Absolute Beginning body and using his teeth and fingernails to tear and eat Yuan's flesh, everybody was petrified.

They were so scared that their souls shivered!

Only Desolate thought that it wasn't a problem. In his eyes, a real battle between the Absolute Beginning creatures should be like that!

"AAAAAAGGRRRRHHH!"

Yuan's screech was piercing, and could even reach people's bones and numb their scalp. Absolute Beginning blood still streamed terrifyingly from his body, carrying the immense, magical energy.

That power could transform the Absolute Beginning body and make up for the errors during evolution!

Actually, the Absolute Beginning creatures like Yuan, Desolate, Hui, and Devour hadn't had their current degree of body development during the primitive time. They had transformed their bodies and quenched their bones step by step after each breakthrough, and after taking in the blood of the other creatures. Eventually, their bodies had become powerfully tenacious like right now.

They had almost reached the utmost development of the creature's form!

Blurp! Blurp!

Shi Yan in his Absolute Beginning form was crazily drinking the blood from Yuan. As soon as that essence blood entered his stomach and merged with his blood, it seemed to fill and mend the flaws in his cells, veins, marrow, and the entire body, promoting his body to a higher form of life.

Rumors said that if a creature was strong enough to get all of the essence blood from all Absolute Beginning creatures, that one could resume Absolute Beginning's appearance!

That creature could appear in the world in Absolute Beginning's ultimate and perfect shape!

Unfortunately, until now, no one had ever succeeded in that. Desolate had the greatest chance, but Hui and Devour had joined hands to disturb him. He had failed when he was almost there; afterward, he had sunk into a long, long slumber.

Swallowing the condensed blood with even some broken blood veins, Shi Yan's body began to change significantly. His saber-mountain-like spikes had grown further, which were so thick and sharp that they could tear even the void.

Previously, Shi Yan was hiding in the Space Power Upanishad Origin to calmly absorb the Space Power Upanishad Origin, focusing wholeheartedly. He didn't notice that Desolate and Sauron had arrived until they began to fight each other terrifyingly. He got a vague feeling at that time, but he didn't think much, just trying his best to absorb the Space Power Upanishad Origin.

When Desolate shattered the space mirror and Yuan fell after the Desolate Continent hit him hard, Shi Yan woke up, recognizing an amazing encounter!

As Sauron was confining Yuan's soul altar, he could only use his turtle shell to defend. Since he was used to shield attacks continually, he was wounded severely. At the moment he fell, he was the weakest, because his soul was tied and he couldn't urge all of his power.

Being given this opportunity, he immediately stopped the fusion with Space Power Upanishad Origin and transformed into his Absolute Beginning body to hit Yuan from underneath!

The most vulnerable spot in Yuan's body was his belly. As he wasn't vigilant, he was pierced through, bleeding terribly.

Yuan was like an unguarded feast in front of his hungry eyes that invited him to tear and swallow!

Shi Yan, of course, wasn't polite. He dug in immediately, making Yuan screech in agony. Since the latter's soul altar was controlled, he couldn't gather all of his power to get rid of the former.

Desolate had summoned the Desolate Continent, which then smashed the cracked space mirror. Since those broken pieces had a subtle connection with Shi Yan earlier, he had made them sharp knives that cut more open wounds on Yuan's body to bring out more blood.

"Free the soul!"

As Sauron saw the situation, his face changed, gathering and changing his power to release Yuan.

Swish!

Just like an invisible rope that had been cut off, Yuan's restriction was lifted instantly!

"Shi Yan! I want to eat you alive! I want to chew you off!"

Yuan's roaring and grunting arose, rolling around as he was struggling hard; his gushing blood now ran backward into his body. Amidst the torrential, splashing sounds of seawater waves, a heavy energy exploded in his body. Countless clear water drops bombarded on Shi Yan, pushing him downward.

He had finally escaped Shi Yan's cannibal attack.

"Thank you!"

Blood dripped from Shi Yan's mouth, giving him a gruesome appearance, especially when he grinned fiendishly. He sank, proactively lengthening the distance from Yuan.

Sauron looked stern as soon as he saw Shi Yan, his hand hurriedly flipping through the pages as he was trying to search for the latter's string of fate. However, even though they weren't far away from each other, he couldn't find Shi Yan's string. Sauron stooped to watch and asked in an odd voice, "I'm really curious. Where are you from after all?"

"I want you to die!"

At this moment, Yuan was totally maniacal. He roared, trying to plunge and kill Shi Yan.

"Some words for you...Control your dog! I suppose we should join hands to cope with Desolate first. He's strong enough to slaughter all of us. I think you've just tasted his ferocity." Shi Yan bared his teeth in a smile, lifting his head to watch the space mirror that hadn't shattered completely.

BOOM!

The massive mirror under people's feet was completely shattered, sending many broken pieces away.

Billions of space fragments turned into space sabers, slashing at Desolate. At the same time, Shi Yan shouted, "Sauron! If you want to live, you have to deal with Desolate with me! When he dies, you and I can continue our fight!"

Sauron wore a calm face. Taking a deep breath, he hissed, "I have the same idea!"

He was considering Shi Yan as his primary target. However, seeing Desolate's intimidation, he changed his mind, turning his spear toward Desolate!

It was because he didn't feel the power from Shi Yan's body that could scare him out of his wits, and he assumed that Devour had eaten Shi Yan's Devouring clone.

He thought that at this moment, Desolate was more threatening than Shi Yan. As long as they joined hands and killed Desolate, he was confident that Yuan, Han Tian, Serene Prison, and himself were enough to kill Shi Yan!

"Get back to Desolate! Kill him!" cried Sauron.

Serene Prison, Han Tian, Rupert, Montecie, and Dracula didn't have another choice as their souls were restrained. They lifted their heads and moved forward, continuing to burn their lives and souls to attack Desolate. They had promoted all of their powers as if they wanted to kill themselves altogether with Desolate.

And this time, they were aided by the sharp pieces of broken space everywhere above their heads! They were the sharpest weapons in this world!

At the same time, Yuan was strong-armed as well, so he had to turn and attack Desolate, moving forward regardless of his life.

Poor Yuan couldn't even take revenge for Shi Yan's bloody attack since Sauron had forced him to join Shi Yan and kill Desolate.

"Hahaha! You're really smart! Sauron, you're truly Sauron!" laughed Shi Yan.

"You only have the Space power Upanishad, and you haven't finished taking in the Space Power Upanishad Origin. Do you really think you can be the key and finish everything?"

Desolate pulled a harsh and cold face. Looking at energy attacks, seals, and bunches of lights filling the sky, he was indifferent and fearless.

"Kill me? You're insufficient!"
