Chapter 201: I'm Your Elder Brother!

Shi Yubai went insane!

He put the blame on Shi Yan after the disaster in the quarry.

Shi Yan's behavior in the cave had irritated Shi Yubai, and now Shi Yan's attitude made him even more angrier, so he made up his mind to teach Shi Yan a lesson.

He Qingman, Sheng Yidan and the others were still mourning. It was too late when they realized that they needed to stop Shi Yubai from assaulting Shi Yan.

Just like a beast, Shi Yubai's body was covered with yellow light, meanwhile, golden light balls flew out from his hands.

These big golden ball contained great power.

Shi Yan's expression shifted.

Without further thinking, he triggered his Petrification Martial Spirit as well as the Dark Light Shield, and entered the Second Sky of Rampage.

Shi Yubai was at the Second Sky of Earth Realm, which was one level higher than Shi Yan; Shi Yan would be easily killed if he was not careful.

With qi gushing into his body, Shi Yan's look suddenly changed as a brutal and murderous smell pervaded around him.

Around Shi Yan, the smell rippled and formed a strong wave.

He Qingman and Sheng Yidan stopped crying, and looked to Shi Yan in surprise, shocked by him.

"Boom, boom, boom!"

One after another, golden balls kept striking to Shi Yan and exploded around him.

Shi Yan's Dark Light Shield broke at once as his body flew up into the air and he spurted a mouthful of blood.

Just by one strike, Shi Yan was wounded, his entails hurting severely.

Being one level higher than Shi Yan, Shi Yubai struck with all his strength. He wanted Shi Yan to die!

However, Shi Yan was not dead!

Shi Yan stood up after he landed on the ground, and he said firmly, "Shi Yubai, I won't forget it!"

"You will still remember me when you go to hell!"

Shi Yubai gritted, "We would have been safe if you didn't come to the Black Stone Island. We wouldn't have lost so much if it weren't for you!"

He put all the blame on Shi Yan, so he had an excuse to kill him.

Shi Yubai didn't stop, and his face turned red while his eyes showed yellow light.

More impressive power bursting in his body, Shi Yubai dashed like lightning towards Shi Yan again.

This time, he didn't use the golden light balls, but flew straight to Shi Yan, so that even Shi Yan couldn't see his trail clearly.

Since he was one level higher than Shi Yan, and he was using all his strength, their difference was rather obvious.

Shi Yan regretted that he didn't ask for Martial Skills from the Ice Cold Flame earlier. If he had mastered the Electric Shift and the Shadow shift, he could now teleport and avoid this strike.

Sadly, he was much slower than Shi Yubai, and couldn't even see Shi Yubai's trail clearly.

Since he wasn't able to predict Shi Yubai's abrupt attack, he couldn't construct the Gravitational Field in advance. And now it was too late.

He knew it was not clever to shun.

Endure it!

"Ouuuu!

Shi Yan bellowed and triggered all the negative energy in his body. He operated the Seal of Life and Death at once.

"Bang, bang, bang, bang, bang!"

The Seal of Life and Seal of Death occurred from his palms and connected---- the Seal of Life and Death was formed!

Seven hand prints flew out and struck toward Shi Yubai, its power was stronger than that of a Disaster Realm warrior exploding.

Shi Yubai realized how powerful the energy in the seal was, and without any hesitance, he froze the energy in his body.

A yellow light pillar shot out from his chest, which was dazzling in everybody's eyes.

The thick yellow light pillar struck on the Seal of Life and Death, and the clashing power grounded all of the black stones in that area.

In the small stones, Shi Yan's body flew out again, and then fell on the ground after moving in arc in the air.

Shi Yan's chest was bleeding heavily, and his face had turned pale.

As for Shi Yubai, although he hadn't fallen down, his body was shaking greatly.

His light pillar was so strong that even a warrior of the Second Sky of Earth Realm couldn't endure it.

Although he was covered by blood, Shi Yan shook and stood up again---- he was still alive!

“Stop!”

He Qingman yelled, “Shi Yubai, what the hell are you doing! You know it had nothing to do with him! What do you want? Don’t you know he is from the Yang Family?”

Shi Yubai’s face changed slightly.

Sheng Yidan was shocked too as he looked at He Qingman, “He is from the Yang Family?”

“He was a lost child of the Yang Family, and he came to the Endless Sea to see his family.” At that moment, He Qingman couldn’t hide Shi Yan’s identity. “If he is hurt, the Yang Family wouldn’t spare us! Shi Yubai, stop attacking him!”

“Humph! Here are all our people, so we can tell them he was killed by the demon dwellers. Even sister Nan, a Nirvana Realm Warrior was killed by them, not to mention a Disaster Realm warrior!”

Shi Yubai was literally insane. Regardless of He Qingman’s persuasion, he assaulted Shi Yan harder.

Shi Yubai flew to Shi Yan again, “Bastard, I must kill you, even if you are a Yang Family member! No one would revenge you if you died on this island.”

“Shi Yubai!” He Qingman yelled in anger, “Stop it now!”

Shi Yubai didn’t listen to her, instead, while she was yelling, he made up his mind to kill Shi Yan.

In the Evil Wonderland, everybody knew that Shi Yubai admired He Qingman.

He always tortured those who were close to He Qingman.

He even did that to his own people, let alone Shi Yan who was an outsider.

Especially, he was stricken by Shi Yan when in the cave.

At that moment, he decided to kill Shi Yan.

Seeing Shi Yubai rushing up, Shi Yan’s eyes turned cold, as he continued to refine the Seal of Life and Death.

“Boom!”

Shi Yan flew back, and his chest bones were all broken.

“Pooh!”

Unexpectedly, Shi Yubai spurted mouthful of blood as well.

Shi Yubai couldn’t endure the power of the Seal of Death and Life too.

Shi Yubai quivered.

He Qingman and Sheng Yidan were dumbstruck, as they looked at Shi Yan in unbelievable eyes.

Shi Yan was so tough!

Under Shi Yubai's concessive strikes, he survived!

Furthermore, his body was still stable, while Shi Yubai began to spit blood.

Their close performance baffled He Qingman and Sheng Yidan.

"Kid, It's not surprising that you are from the Yang Family. You are something!" Shi Yubai stared at Shi Yan in hatred, "If I don't kill you today, you will kill me someday! Thus I have to kill you now at all cost!"

"Shi Yubai, don't blame me if you continue!" He Qingman finally shouted and flew toward Shi Yubai.

He Qingman flew over and set her beautiful feet on the ground. When she wanted to fly again, she felt her feet were dragged by something.

He Qingman couldn't make a move.

Her expression changed, He Qingman looked around, "Brother, what're you doing?"

Everybody was puzzled and began to look around.

He Qingman never call anyone "brother" but one person.

Xie Kui!

"Brother, when did you come?" Sheng Yidan was joyful.

"Not for long. I heard that sister Nan died because of this guy, so I think he should die." A gloomy voice came from down the earth.

The mysterious guy seemed to be under the ground.

And the Evil Wonderland warriors got relieved when they heard Xie Kui came.

"Brother is reasonable." Shi Yubai laughed, and swaggered toward Shi Yan, "Let me see how long can you sustain?"

"Longer than you!"

A heroic voice came from the sky, and a Double-Headed Dragon appeared among the clouds.

A huge silver sword flew across the sky and dashed in this direction.

Among the silver light, the silver sword fell down and struck Shi Yubai into flesh paste.

The huge silver sword killed Shi Yubai at once, then struck into the earth three meters left to He Qingman.

The mountains and the earth shook at the same time.

A slim young man in white appeared from the earth with a rigid face. There's some blood beside his mouth as he looked at the double-headed dragon.

"Xiao Yan, welcome to the Kyara Sea." A strong man on the Double-Headed Dragon showed a broad smile to Shi Yan after he killed Shi Yubai.

“You are?” Shi Yan was confused.

“I’m your elder brother, Yang Mu.” The strong young man laughed and then looked to the Evil Wonderland warriors proudly, “In the Kyara Sea, us Yang Family is the master. This is our place. Whoever goes against the Yang Family must die!”

God of Slaughter

Chapter 202: Destroy the Mountain

On the mountain top.

The Evil Wonderland warriors looked pale, while Xie Kui popped up from the earth and looked at Yang Mu coldly, “How dare you kill him?”

“Why not?” Yang Mu laughed, jumping off from the Double-Headed Dragon and standing besides Shi Yan, and smiled to Shi Yan, “You ok?”

“I’m fine.” Shi Yan shook his head with a smile.

“The Third Stage?” Yang Mu was surprised, as his eyes wandered on Shi Yan’s chest.

The wound on Shi Yan’s chest was recovering slowly but at a visible speed.

“Yeah.” Shi Yan nodded.

“The Disaster Realm?” Yang Mu didn’t look at Xie Kui, but mumbled to himself, “It’s unreasonable.”

Since he has the Immortal Martial Spirit, Yang Mu knew it well. Generally, one needed to advance to the Earth Realm to get to the Third Stage of the Immortal Martial Spirit.

Shi Yan was merely at the Disaster Realm, but his Immortal Martial Spirit had already reached the Third Stage, which was rather abnormal.

“Yes, I’m at the Second Sky of Disaster Realm.” Shi Yan nodded again.

Yang Mu showed even more surprise in his eyes.

Those Evil Wonderland warriors including Xie Kui and He Qingman looked not at ease after Yang Mu showed up.

Sheng Yidan gazed at Shi Yan’s chest, and then showed a little bitterness. Shi Yan’s chest showed that he had the Immortal martial Spirit, so she knew now they had been all wrong; Shi Yan was a direct offspring of the Yang Family.

Shi Yubai was killed by Yang Mu, but the Evil Wonderland warriors didn’t dare to do anything although they were angry.

“You killed our people, I will tell it to the family head. We won’t spare you!” Xie Kui looked gloomy, as he wiped the blood on his mouth corner, “At this crucial moment, you killed your ally. I don’t think you still need our help.”

“Hmm.” Yang Mu sneered and shook his head, “Just tell your family head. Let’s see what will you do to us? You don’t rule the Evil Wonderland, if you leave the Demon Dwellers alone, you can expect more of them. Let’s see how will your Evil Wonderland fares?”

Xie Kui’s expression changed slightly.

The Demon Dwellers had entered the Kyara Sea. Although they hated the Yang Family most, it’s tough for them to shake the Yang Family.

On the contrary, the Evil Wonderland and the Xia Family were the target of the Demon Dwellers because they were weaker.

Even if the Evil Wonderland and the Xia Family didn’t attack the Demon Dwellers, the latter would still cause trouble with them.

Yang Mu smiled, took out a green pill, and handed it to Shi Yan, “How are you now?”

Shi Yan took the pill and swallowed it at once. He soon felt a warm sensation in his belly.

The pill was mildly taking effect on his chest.

This pill sped up the recovering of the wound as its power entangled the wound like slim strings.

“There are dozens of the Demon Dwellers on the Black Stone Island, including several experts at the Second Sky of Nirvana Realm. We entered the quarry and met the Demon Dwellers...” Shi Yan explained briefly.

“Demon Dwellers of the Second Sky of the Nirvana Realm?” Yang Mu was a little surprised, as he nodded his expression turning heavy, “It seems to be tough now. It’s out of expectation that Nirvana Realm Demon Dwellers appeared on this small island. They have made up their mind.”

“Qingman, you mean the Nirvana Realm Demon Dwellers were found by him?” Xie Kui was listening to He Qingman’s explanation, causing him to frown.

He Qingman nodded slowly and explained in a low voice, “He has a certain treasure that helps him to detect the Demon Dwellers. He was the first to find the Demon Dwellers in the cave. It’s just that we didn’t pay attention to it. Sister Nan, Sister Nan...”

He Qingman’s voice shook again.

“The Demon Dwellers were first found by you?” Yang Mu’s hearing was great; he glanced at Shi Yan in surprise.

After seeing Shi Yan nodded, Yang Mu laughed and praised, “You are something! Haha! No wonder great grandpa said you are extraordinary. This time I came because great grandpa sent me here to take you back.”

Shi Yan beamed, “Just with the help of a treasure.”

The great grandpa was the head of the Yang Family, King Yang Qing.

He Qingman didn't show any surprise, but Xie Kui and Sheng Yidan's expression changed.

Especially for Sheng Yidan, he regretted a lot for not having noticed that Shi Yan was special.

Whoever drew King Yang Qing's attention must be something and would probably be an expert in the Endless Sea. If they knew of this earlier, they would have listened to Shi Yan and avoided the battle with the Demon Dwellers.

"Xiao Yan, let's go. After killing the Demon Dwellers, we will go back to the Immortal Island at once. You came from so far away. It's time for you to go home." Yang Mu whistled, and then the Double-Headed Dragon landed on the mountain top.

Yang Mu mounted to the Double-Headed Dragon, and then waved at Shi Yan, "Let's go."

Though confused, Shi Yan mounted the Double-Headed Dragon, and observed the Double-Headed Dragon as his eyes sparkled.

The Double-Headed Dragon was seven meters long, containing the power of Ice and flame in its two heads. The back of the dragon was as hard as iron, and its claws were sharp.

The Level Six demon beast, the Double-Headed Dragon, had two heads, and can spurt ice and flame. It's one of the most able demon beasts in the Yang Family.

Before Shi Yan came to the Endless Sea, Xiao Hanyi had told him that he could get a Double-Headed Dragon if he was acknowledged by the family head. Shi Yan remembered it, so when he saw the real Double-Headed Dragon, he was excited.

"Haha, stop looking at it. You will have your own mount." Yang Mu laughed, "Great grandpa had chosen a grumpy demon beast to test you. Prove that you can tame it."

"Not the Double-Headed Dragon?" Shi Yan was surprised.

"No, it's more frightening than the Double-Headed Dragon. Hehe, and great grandpa wants to test you with that demon beast. Xiao Yan, be prepared, and don't be frightened by it."

"Not the Double-Headed Dragon? Then what demon beast is that?"

"I will leave it for you to find it out yourself."

As they chatted, they mounted the Double-Headed Dragon, while Xie Kui, He Qingman and others looked at them, frowning with strange expressions.

"There are Nirvana Realm Demon Dwellers in the cave?" Xie Kui asked Sheng Yidan.

"Of course." Sheng Yidan nodded, "That's why sister Nan was killed."

Xie Kui nodded slightly, and sneered, "Let me see how will Yang Mu kill those the Demon Dwellers!"

"Yeah." He Qingman was confused too, "Yang Mu is able, but he is merely at the third Sky of Earth Realm, so he can't win against those Nirvana Realm Demon Dwellers."

“Let’s go!” Yang Mu laughed, urged the Double-Headed Dragon and flew to the quarry Shi Yan pointed at.

“B, brother.” Shi Yan was not used to calling someone brother, “Those Demon Dwellers are at the Nirvana Realm, can you really deal with it?”

“Don’t worry.” Yang Mu looked calm, “I will show you the Sky Bomb of the Yang Family. I have two Sky Bombs. To kill the Nirvana Realm Demon Dwellers with one of it is not a waste.”

The Sky Bomb?

Shi Yan knew Yang Mu was doing it for no reason.

Soon, sitting on the Double-Headed Dragon, Shi Yan and Yang Mu arrived above the quarry.

“Detect whether the Demon Dwellers are inside.” Yang Mu stood up on the Double-Headed Dragon, and then looked down at the quarry below him.

Shi Yan slowly nodded, took out the Soul Gathering Pearl, and began to percept.

A heavy smell of hatred came from deep within the quarry, and spirit waves approached as Shi Yan was searching.

Shi Yan’s expression changed as he withdrew the spirit power from the Soul Gathering Pearl, “It’s still here.”

“Then good.” Yang Mu laughed as his ring shone once and then a fist-like golden ball appeared in his palm.

Under Yang Mu’s control, that golden ball became golden light and struck the quarry.

“Bang, bang, bang!”

The power of a blast came from the quarry.

The Sky Bomb blast was so strong that it almost cracked the sky. Meanwhile, golden waves rippled in the sky.

Then, just in front of Shi Yan, the quarry exploded into ashes.

Among the golden light, the quarry crashed and was destroyed by the Sky Bomb in an instant.

Chapter 203: Arrival

The quarry where the Black Scale Tribe demon dwellers hid at was straight up blown to the ground by one Sky Bomb. Even the earth began to deeply sink in.

Shi Yan sat on the body of the double headed dragon. He was stunned as he was shocked by the frightening exploding power of the Sky Bomb.

One Sky Bomb destroyed an entire mountain. Such power was truly unheard of.

At this moment, he got a deeper understanding of the Yang family’s background.

“Alright, let’s go.” Yang Mu looked below for a moment, clapped his hands, and said leisurely: “Unless there is a strong Sky realm demon dweller, no one can escape from the Sky Bomb.”

Shi Yan stroked the Soul Gathering Pearl, and then spread out his mind power to probe around. Indeed, he could no longer sense a single trace of soul fluctuation.

All the Black Scale Tribe demons in the quarry should’ve been crushed by this one blow. No more traces of life came from the quarry.

While nodding, Shi Yan smiled: “This is quite a big movement.”

“Haha, that’s how the Sky Bomb is. Forging one Sky Bomb requires more than seventy precious materials. Many of these materials also come from the Demon Area and only us, the Yang family, can obtain those precious materials because we often wage war in the demon area. Even if we told the forging method of the Sky Bomb to other families, they won’t be able to gather all of the materials to make it.” Yang Mu said proudly.

“We’re returning to Immortal Island now?” Shi Yan pondered for a moment, and then asked: “Last time, I heard a Shura Blood Guard say that a Gate of Heaven from the Immortal Island region was at the peak of battling. How is the situation now?”

“Still fighting, but the aggressiveness of the attacks from the demon dwellers has lessened. They probably also cannot afford the losses.” Yang Mu’s expression suddenly darkened, “This time, the actions of the demon dwellers were indeed very strange. They risked their lives to come through the nodes in space, and to spread throughout every corner of the Kyara Sea. I wonder what their true intentions are.”

“How is Xia Xinyan?” Shi Yan hesitated for a moment, and then asked.

Yang Mu’s eyes flickered for a second, then he smiled wryly and said: “The reason why I came to find you, is also because of her. The master of the Xia family brought Xia Xinyan to Immortal Island, asking our Yang family to take responsibility. Aii, this thing is really hard to deal with. Back in the day, this situation happened to someone from the Xia family. It’s almost unsolvable; no methods can be found at all. But uncle Mo said you have a way. I don’t know if it’s true or not, but Great Grandpa seems to value you quite a lot. Since I was doing business around this area, I got his message telling me to escort you back to Immortal Island as soon as possible.”

Pausing for a moment, Yang Mu looked at Shi Yan with a strange expression, “Do you really have a way to solve Xia Xinyan’s problem?”

“Yes.” Shi Yan nodded.

Yang Mu’s eyes brightened, “Haha, if it’s really like that, then there should be no problem. What you don’t know is that that girl Xia Xinyan, is the treasure of the Xia family. She got into that kind of situation to save you causing all of the Xia family members to become furious; they came straight to the Immortal Island to cause trouble, forcing Great Grandpa to give an explanation.”

“Don’t worry, I’m sure I can awake her.”

“Alright.” Yang Mu didn’t continue asking for details. He rode the double headed dragon and made it speed up.

The double headed dragon was like an arrow that escaped its bow, shooting through the clouds above the Black Stone Island and moving into the distance.

On the Black Stone Island.

Xie Kui, He Qingman, and the rest stood above the mountain. From the distance, they looked at the quarry that was now blown to the ground; their expressions were inexplicably shocked.

“The Sky Bomb!” Xie Kui took in a deep breath, “Yang Mu used a single Sky Bomb and straight up destroyed that entire mountain! This is the end of this mission. Under the frightening power of the Sky Bomb, even a Nirvana realm demon dweller wouldn’t be able to survive. Yang Mu is sure willing to sacrifice a lot; he even brought out the Sky Bomb.”

He Qingman’s face was sullen as she sighed and said: “Our losses are so big this time...”

“Yang Mu, Shi Yan...” Xie Kui’s expression was dark and cold. He murmured under his breath: “I’ll remember you two.”

He Qingman glimpsed at Xie Kui, and felt even more worried inside. She knew Xie Kui’s personality. She knew that Xie Kui was the favored child of the Evil Wonderland, and that he was unusually malicious. Once he starts hating someone, he would never let it go easily.

“We should leave too.” Shen Yidan put up a mournful face, and stopped looking towards the sky. She blamed herself: “If we knew earlier that Shi Yan’s background was this big, then we would’ve definitely valued his words more. We wouldn’t have had such great losses. Aii...”

“Let’s go.” Xie Kui snorted coldly; his eyes were cold.

“When did you arrive at Black Stone Island?” On the double headed dragon, Shi Yan asked casually.

The appearances of Yang Mu and Xie Kui were both very sudden. There was no warning or sign; they just all suddenly appeared. This made Shi Yan very confused.

“I came earlier than Xie Kui did.” Yang Mu smilingly explained, “After I arrived above Black Stone Island, I didn’t know which was you at first. Then when I noticed you and Shi Yubai dueling, I finally knew you from their conversations. At that time I was going to get involved immediately, but I also wanted to see your capabilities. Thus, I just hid in the clouds and watched.”

“You only came over after Xie Kui?”

“Mmm hmm, when Xie Kui arrived at Black Stone Island, he didn’t appear immediately. Instead, he used his martial spirit to hide underground. After you and Shi Yubai dueled for a while, he finally sneaked towards you from underground. When I noticed his tracks, I already started to secretly prepare to intervene at any time...”

Yang Mu smilingly explained for a while, and then laughed: “But boy you are quite amazing! That Shi Yubai is a whole realm higher than you, but he couldn’t kill you with all of his strength. Up above, I was originally going to intervene immediately, but seeing that you were safe and sound, but out of curiosity I

just continued watching. I wanted to see how long you could hold up for. If it weren't for Xie Kui who couldn't help but intervene, I might have waited for even longer until that Shi Yubai attacked you once more, to see if you could've still held up."

Shi Yan smiled wryly, "I probably wouldn't be able to continue holding up."

"It's hard to say." Yang Mu revealed a thoughtful smile, "You think I wouldn't know that there are still unused powers inside your body? I've long heard that inside your body, there is still the Star Martial Spirit of the Three Gods Sect. Although you can't use that Star Martial Spirit against your enemy, but in crucial moments, it would still have no problem taking a fatal blow for you."

The Star Martial Spirit?

Shi Yan dazed. If Yang Mu hadn't mention it, he almost forgot that inside his body, there still existed the Star Martial Spirit.

He quietly sensed for a moment. He realized that the Star Martial Spirit still continued to endlessly absorb star power, and had never stopped.

At his heart, there were spots of glittering starlight; they seemed to already have absorbed quite a lot of star power. The strength of that star power seemed to be just as vigorous as his Profound Qi at the moment.

Unfortunately, this extra power was still difficult for him to use.

"Dude, you are really something different. Our Yang family has fought with the Three Gods Sect for hundreds of years, but you were able to obtain the Star Martial Spirit. Hehe, if the Sun God of the Three Gods Sect knew that the Star Martial Spirit of the last Star God, fell upon you, I wonder what he would be thinking." Yang Mu exclaimed.

"Oh right, you said Great Grandpa prepared a demon beast for me. What exactly is that demon beast?" Shi Yan was more curious about this thing.

"Hehe, I'm not telling you." Yang Mu purposely hid the information.

"What level is it?"

"You'll know when you see it."

"Is it as strong as your level 6 double-headed dragon?"

"Stronger than mine! However, you have to be able to tame it." Yang Mu was bothered too much, and revealed some information in frustration, "That thing isn't from our dimension. It comes from the Demon Area; it's a strange hybrid that has the ability to continuously evolve!"

Shi Yan's eyes brightened.

"Don't get happy too soon! I don't think you can tame it." Yang Mu's expression was strange. He shook his head and said: "I don't know what Great Grandpa is thinking! How can he leave that thing for you to tame? You're only in the Disaster realm! Maybe with just one encounter, you will be killed by that thing."

“Big brother, we’re already returning to the Immortal Island and I’m still not familiar with the important figures in the Yang family. Uh, shouldn’t you introduce them to me a little?”

“Alright, I’ll roughly explain it to you and tell you about the people you definitely have to know...”

In the Yang family, there were four generations of people in total at the moment. Yang Qingdi was the head of the family as the first generation.

Below Yang Qingdi, there were three sons, separately known as Yang Feng, Yang Xiao, and Yang Lao. This was the second generation of the Yang family.

Among them, Yang Xiao was the father of Yang Hai. Nominally, he was also the grandfather of Shi Yan. Fifty years ago, he died in battle in the Fourth Demon Area.

Yang Feng and Yang Lao each had two sons. They were Yang Zhuo, Yang Niao, Yang Xiu, and Yang Qi; this was the third generation of the Yang family.

Under Yang Zhuo, there was Yang Mu and Yang Zhou. Yang Niao had one daughter, Yang Xue. Yang Xiu had one son, Yang Ke. Finally, Yang Qi had one daughter Yang Meng.

The five people, Yang Mu, Yang Zhou, Yang Xue, Yang Ke, and Yang Meng, were the fourth generation of the Yang family.

Of course, in the direct descendents of the Yang family, there wasn’t only these people. However, the rest of them, because they didn’t have the Yang family’s Immortal Martial Spirit inside their bodies, they weren’t included into this category.

The first generation, Yang Qingdi, was in the Spirit realm. Below him, the second generation’s Yang Feng and Yang Lao were both in the Sky realm. Even below that, the third generation’s Yang Zhuo, Yang Niao, Yang Xiu, and Yang Qi were almost all in the Nirvana realm. Then lastly, the fourth generation’s Yang Mu, Yang Zhou, Yang Xue, Yang Ke, and Yang Meng, were mostly in the Earth and Disaster realms.

In the four generations of the Yang family, between each of the generations, they seemed to only be one realm apart; it was very strange.

This also made Shi Yan very surprised. He couldn’t help but ask further. However, before he could ask, he got his answer from Yang Mu: “Before the Earth realm, there are the Elementary, Nascent, Human, and Disaster realms. These realms belong to normal warrior families, and can be a very long cultivation process. However, to our Yang family, these four realms are not hard to pass. The precious resources controlled by our Yang family can make the breakthrough of these four realms speed up by multiple times. As long as you have a determined will and outstanding talent, under the the catalyzing of our family’s precious treasures, you can quickly reach the third sky of Disaster realm in a matter of ten years.”

“However, starting from when you breakthrough to the Earth realm from the Disaster realm, if you want to keep reaching higher, you can no longer just rely on pills and elixirs. At that time, the breakthrough of realms will slow down. Just breaking through a small realm, might need more than ten years of time. That is why in our generation, most can quickly step into the Earth realm. But breakthroughs from that time on, will become slower and slower...”

“Is that so...” Shi Yan quietly nodded; he seemed to be enlightened by the information.

The two sat on top of the double headed dragon and chatted the whole way. They went towards the Immortal Island at great speed.

After more than ten days, under the directions of Yang Mu, Shi Yan, who was sitting on top of the double headed dragon, finally saw the legendary Immortal Island.

God of Slaughter

Chapter 204: The Yang Family

In the lingering mists and clouds, a vast and enormous island silently floated in the middle of the pure blue sea.

On the island stood many grand mountains that went straight through the clouds.

Looking down from the top, it could be seen that there were blocks of spirit farming fields everywhere on the island where countless precious medicinal ingredients were planted. Many rare and strange demon beasts and spirit beasts were domesticated and spread around all corners of the island.

Vigorous spirit energy continuously circulated on the island like streams of flowing water. The natural energies here were extremely filling; before landing on the island, even just sucking in a breath of air gave off a refreshing feeling and made people relax all over.

The island was extremely big; it might've been several times the size of the entire Merchant Union. It was not so much an island, but more like an entire piece of Mainland.

Sitting on top of the double headed dragon, Shi Yan looked into the distance and actually couldn't see the end. In his view, all he saw were endless mountains. On top of each mountain, there seemed to be the shadows of people.

“This is Immortal Island.” Yang Mu smiled, and then pointed at an area overflowing with demon energy behind him as he explained to Shi Yan: “Over there, there is a Gate of Heaven leading to the Fourth Demon Area. Our battles with the demon dwellers also happen in that area. Usually, even in the areas around the Immortal Island, there can possibly be demon dwellers wandering about. Recently, the demon dwellers have encountered quite a lot of losses too. They temporarily ceased fire, thus they didn't continue to make trouble.”

Shi Yan was surprised, he looked towards the direction Yang Mu was pointing at.

He could only see that in that area, there were overflowing amounts of demon energy fluctuating. The vigorous demon energy covered that place completely. Shi Yan looked closely, and then realized that he could see nothing at all.

“That place is temporarily covered by demon energy. Hmm, don’t waste your time to look through it because you won’t see anything.” Yang Mu smiled.

“Mmm Hmm... indeed, I can’t see anything.” While nodding, Shi Yan frowned: “In that area, are there still people stationed?”

Although he couldn’t see the situation there, Shi Yan could still vaguely sense that there were extremely fierce energy fluctuations. Based on his senses, there must’ve been countless numbers of strong warriors there, and there were definitely some top warriors from the Yang family hiding in there.

“Of course, uncle Mo and the rest are all guarding that area.” Yang Mu’s expression was slightly serious, “I received some news a while back saying that great grandpa went into the demon area again. Reportedly, great grandpa entered into the demon area this time to talk directly with the demon king Bu Xun.”

“Talking directly with the demon king?” Shi Yan was shocked.

Legend has it that the demon king Bo Xun was in the third sky of Spirit realm; he had already got one foot in the True God realm.

From Shi Yan’s understanding about the demon dwellers, he knew that demon dwellers of the same realm were much stronger than humans. Although Yang Qingdi’s reputation was widely known in the Endless Sea, he was still after all, only in the first sky of Spirit realm. If he were to really go face-to-face with the demon king Bo Xun, wouldn’t it be extremely dangerous and risky?

“Great grandpa is only in the first sky of Spirit realm, but he had all sorts of mysterious powers on him. If he dares to encounter the demon king Bu Xun, then he naturally has a full grasp on things.” Yang Mu smiled proudly, “Fifty years ago, when great grandpa was only in the third sky of Sky realm, he was already able to skip realms and kill a demon master who was under the command of the demon king. That demon king was in the first sky of Spirit realm at the time. Now that great grandpa stepped into the Spirit realm, his magical powers are even more far-reaching. Plus, the demon king Bu Xun is not in his best condition; if great grandpa were to really encounter him, it shouldn’t be hard for great grandpa come out unharmed.”

“The demon king Bu Xun is not in his best condition?” Shi Yan dazed for a moment, dumbfounded.

“Reportedly, a hundred years ago, Bu Xun got into some trouble when cultivating a demon skill, so he has been recovering in the Cave of Thousand Demons. In the past many years, he has only been using his three Skeletal Avatars to move outside; his true form had never left the Cave of Thousand Demons. This time, the reason why great grandpa went in the demon area should be for uncle Xiao. I wonder if he can bring uncle Xiao out alive.”

Once he heard Yang Mu mention Xiao Hanyi, Shi Yan’s face immediately became sullen. He sighed inwardly out of frustration.

“Don’t be too sad about the thing with uncle Xiao. Even if you weren’t there, that Bo Xun still would’ve went for uncle Xiao sooner or later. Last time in the demon area, uncle Xiao heavily wounded the youngest son of Bo Xun. At that time Bo Xun had spoken out, saying that he would teach uncle Xiao a

lesson. Even if uncle Xiao wasn't with you that time, he would still be attacked by Bo Xun." Yang Mu comforted him.

As the two talked, but the double headed dragon did not rest; it kept flying above the Immortal Island.

Below them were mountains that stood right up into the clouds with overflowing amounts of spirit energy, and tens of thousands of spirit farming fields beside them. Demon beasts were cultivated in many different areas; many Nascent and Human realm warriors rode all different types of demon beasts on the island, either flying in the air or sprinting on the ground. They were all extremely lively, and full of energy.

"On the Immortal Island, there are now nearly ten thousand warriors. However, many warriors are in the Nascent, Human, and Disaster realms. There are not many warriors above the Earth realm, only about a thousand of them. The warriors here, do not represent all of our Yang family's forces; our Yang family controls hundreds of islands. On those islands, there are also strong warriors from our family there..."

When they arrived on Immortal Island, Yang Mu started to explain to Shi Yan about the situation on the island again. He detailedly explained the current situation on the Immortal Island.

The Immortal Island was the holy land of the Kyara Sea, the headquarters of the Yang family.

In the entire Endless Sea, the Immortal Island was considered as a holy land for cultivation. The spirit energy on the island was vigorous; no matter what type of spirit medicinal plant was planted, it would be very easy for them to grow. Because of the vigorous spirit energy, any warrior that cultivated here would need much less effort to succeed. The Profound Qi gathering speed here was much faster than in other places.

The double headed dragon entered into the Immortal Island, flew for another half a day, and then finally landed in an area with the most concentrated spirit energy.

"Look down. That valley is the root of our Yang family." Yang Mu suddenly shouted lightly.

Shi Yan's expression shook as he lowered his head and looked closely.

In nine grand enormous mountains, there was an open flat field. On the flat field, there stood many majestic palaces. Those palaces were all built with different enormous solid green iron stones, white jade stones, and fire gold stones.

Under the sun, those rare stones gleamed and gave off bright lights.

Glancing towards them, the palaces below seemed to be covered in rainbow godly lights, making them look like a land of immortal beings.

"Look closely at those nine mountains." Yang Mu reminded.

Shi Yan dazed. He then looked towards a several thousand zhang (1 丈 is 10 feet) tall mountain; his eyes were focused.

This enormous mountain was wide and magnificent. The mountain was covered with all sorts of mysterious medicinal herbs. Under Shi Yan's view, he could clearly see the stream-like flows of spirit

energy. They seemed to be attracted by the enormous mountain, and actually gathered towards here from all directions of the Immortal Island while silently flowing into this mountain, as if they were supplying nutrients for the mountain.

His eyes shifted, and he then shockingly realized that it was the same for the other eight mountains.

The lingering spirit energy on the Immortal Island seemed to be attracted by these nine mountains. They gathered towards here endlessly, and then flowed into these mountains, nourishing these mountains.

Many caves appeared on the sides of the nine mountains. From inside those caves, there were occasionally a few figures that appeared. They seemed to be cultivating heavily inside the caves. After they came out, they seemed like they haven't adjusted to the sunlight for they all squinted their eyes and quietly frowned.

"These nine mountains can be said as the most precious place in our family. At the heart of the mountains, there are many magical things. The reason why our Yang family can be so mighty for so long is closely tied to these nine mountains." Yang Mu pointed out.

"Because of the spirit herbs on the mountain?" Shi Yan was surprised.

"Not only the spirit herbs." Yang Mu smiled, "You will know why very soon. I think later, you will enter into one of the mountains. You need to awaken Xia Xinyan first, and then naturally you will need to find a quiet cultivation spot. I can promise that in the entire Endless Sea, there won't be many places with a better cultivation environment than our place here."

Shi Yan was perplexed, but he didn't ask much.

"Let's go down and see our second grandpa. I think during this time, second grandpa must've been so annoyed by Xia Shenchuan from the Xia family that he's going to lose his patience soon." Yang Mu laughed as he rode the double headed dragon and flew straight down towards that grand palace below.

On the way, Shi Yan already knew that Yang Qingdi went to the demon area; his oldest son Yang Feng was not guarding at the entrance to the Gate of Heaven. On the Immortal Island, the current person in charge was the second son Yang Lao, also nominally counted as the second grandpa of Shi Yan.

Although Xia Shenchuan from the Xia family, was the current head of the Xia family, he was not in the same generation as Yang Qingdi. Instead, he was from the generation of Yang Feng and Yang Lao, and was only in the second sky of the Sky realm.

The previous head of the Xia family was also in the first sky of Spirit realm, but he encountered trouble with the Reincarnation Martial Spirit, and was often in the state of soul chaos and deliriousness.

Because of that, the last head of the Xia family had passed the spot of the head of the family to Xia Shenchuan early. He put all of his heart into cultivation, in an attempt to solve his occasional deliriousness.

Xia Shenchuan was the grandpa of Xia Xinyan, he had always treated Xia Xinyan like she was his most precious treasure. When he picked up Xia Xinyan from Firecloud Island, and was certain that Xia Xinyan's soul injuries were exactly the same as that person from back in the day, he was immediately enraged,

and directly brought Xia Xinyan to Immortal Island, determined to get an explanation from the Yang family.

At the time, after Yang Qingdi asked Mo Duanhun for details, he knew from Mo Duanhun that Shi Yan had a way to save Xia Xinyan, thus he let Xia Shenchuan stay on Immortal Island, and wait for Shi Yan to come and fix this trouble.

Although Xia Shenchuan was unsatisfied, but he couldn't talk back to Yang Qingdi, so he could only wait on the island like what Yang Qingdi told him.

Just like that, he waited for more than four months.

"Hello, young master Mu."

"Hello, young master Mu."

On Yang Mu's way, many warriors all respectfully nodded in greeting. None of these warriors were in low realms, most were in the Disaster, or Earth realms. Their presences were vigorous, and seemed to be much stronger than other warriors of the same realms.

Shi Yan followed behind Yang Mu, and stayed silent. He only quietly released his consciousness to sense around, and felt awed on the inside.

The warriors that appeared here, considered under the same realm, they were all much stronger than other warriors out there.

The spirits in their bodies were extremely outstanding, and their life forces were very vigorous. Even the meridians and flesh of their bodies were extraordinarily sturdy, their Profound Qi was also more refined and vigorous.

Shi Yan believed, that any of the human realm first sky warriors here, would be much stronger than a warrior of the same realm in the Merchant Union. In a fight with people of the same realms, a person here, could fight against two people out there!

The more he observed, the more Shi Yan was stunned. He became more and more expectant to see the capabilities of the Yang family.

Chapter 205: The Yang Family's Challenge

In the Yang family, next to a, cold, deep pool.

Shi Yan and Yang Mu stood quietly in the corner, and watched a delicate little figure inside the deep pool.

It was a fifteen or sixteen year-old little girl, her big eyes were unusually lively. She had long eyelashes and straight little nose, looking very cute and lovable.

At the moment, her delicate body sank inside the pool, she frowned, as her limbs kept shaking around.

In the clear pool water, with the movement of her limbs, four millstone-sized metal blocks raised enormous waves in the pool water. They made the pool water choppy with waves, and the movements were extremely big.

Shi Yan's face was filled with surprise. He stared at her wrists and ankles, and realized that there were shackles locked onto there. The shackles were connected to the four millstone-sized metal blocks.

The little girl floated and sank in the water pool, she struggled to stay afloat, and her entire body was drenched.

"Yang Meng is cultivating the Sky Phoenix Formula, this is a type of Spirit level martial skill. while cultivating, her limbs have to be attached with four thousand-jin metals (1斤=0.5 kg), and stay afloat in the water pool at the same time." Yang Mu stood next to Shi Yan, and explained quietly: "The Sky Phoenix Formula is a extremely magical martial skill, where once you succeed in cultivating it, you can form Profound Qi wings behind your back. Like the wings of a phoenix, they can directly make her suspend thousands of feet up in the air while being in the Earth realm."

Shi Yan was stunned.

Usually, only Sky realm masters, could suspend in mid-air, and had the power to take flight.

This girl was only in the first sky of the Earth realm, she still had quite a long journey to the Sky realm where she would be able to float in the air.

However, if she can achieve the magical effect of suspending in mid-air through the cultivation of the Sky Phoenix Formula, then she would be able to take all the advantages of flight when battling with people.

A martial skill that was able to make a Earth realm warrior obtain the flying ability of a Sky realm master, such a martial skill, could truly be called mysteriously magical.

Inside the deep pool.

Yang Meng clenched her teeth, her feet and legs kept kicking the pool water. Her body bobbed up and down, but never sank in the water pool.

Her body was attacked with four heavy objects weighing thousand jin, yet she could still keep her body from sinking in the water. This girl's performance, made Shi Yan secretly shocked.

With four thousand jin of heavy objects on one's body, usually a normal person wouldn't even be able to move. In the water, one would almost instantly sink into the bottom of the water, and never would have a chance of resurfacing.

This girl used some unknown secret method, and every time she kicked and paddled in the pool water, there was a wave of shocking energy that shot out. It formed into a special pushing force, making her delicate body shoot fiercely up to the surface of the pool for a while. When she continued to sink back

down, she would stir the power again, and continue to force herself to the surface of the pool, again and again.

“In our generation, Yang Meng is the youngest, she is our little sister. This girl doesn’t have much cunningness in her, but she is a delight to us all.” Yang Mu had a coddling smile on his lips, “We all like to spoil her a lot, she also never lets us down. This year she just turned sixteen, and she is already in the first sky of Earth realm.”

Sixteen years old, in the first sky of Earth realm!

Shi Yan kept smiling bitterly, he somewhat got a deeper insight on these freaks from the Yang family.

Xia Xinyan was the outstanding talent of the new generation of the Xia family, this year she was already twenty-six years old, but she was still in the first sky of Earth realm. That He Qingman, was a talent in which the Evil Wonderland put much focus into training her. She was twenty-four years old, and now was also only in the first sky of the Earth realm.

In comparison, Shi Yan slowly started to realize why the Yang family was the true master in the Kyara Sea.

In the Merchant Union, Beiming Ce could be counted as the most outstanding young talent. He was almost thirty years old, but still was only in the Disaster realm. Compared with Yang Meng here, the so called god-blessed talent Beiming Ce, was not even worth mentioning.

“Boom boom boom!”

Yang Meng suddenly exerted her strength and tried to fly in the water pool, at her back, bright light was forming. Wings that were formed by pure Profound Qi, quickly formed at a speed that was visible to the naked eye.

In a mere moment, behind Yang Meng’s back, Profound Qi wings appeared. She controlled the wings, and forcefully flapped them. Slowly floating to the surface of the pool water, her delicate little body soon got out of the surface of the water.

“Plop!”

Just when she flew about three meters away from the pool surface, Yang Meng’s face suddenly flashed with panic. Her power seemed to have ran out, and she fell straight into the pool.

“Alright, this is the end of the cultivation today.” On the side of the pool, Yang Lao frowned and shouted. His big hand grabbed in the air, and directly lifted Yang Meng out of the water pool.

“Crack! Crack!”

Once Yang Meng dropped to the ground, the shackled on her limbs automatically came off. She dejectedly sat on the floor, and said faintly: “Come on, why does it still not work? I was so close, why can I never step past this point?”

Yang Lao let out a chuckle, he shook his head and said: “You little girl, you’re sure greedy. You only cultivated for one and a half years, and you already want to finish cultivating this Sky Phoenix Formula. Is there such an easy thing in the world?”

“Grandpa, didn’t you say, that with my talent, I can successfully cultivate it really fast?” Yang Meng snorted, and pouted her lips: “Liar! You said I would be able to fly really soon, if after a little more time I still can’t fly, then I won’t cultivate this anymore. It’s so much trouble.”

Yang Lao’s face looked like there was nothing he could do.

“Meng, just cultivate this for half a year more, and I promise that you will be able to fly. Believe in your big brother, I am definitely more accurate than second grandpa. He’s old, it’s normal that he can misjudge things.” At this moment Yang Mu finally brought Shi Yan and walked this way, he laughed out loud.

“You brat.” Yang Lao threw a glare at Yang Mu, he was just about to curse out, but suddenly froze. He looked deeply at Shi Yan, and said: “Boy, you should be Shi Yan?”

Shi Yan smilingly nodded.

“Shi Yan?” Yang Meng suddenly jumped and stood up. She giggled softly: “Ha, you’re only in the Disaster realm, you’re not even as good as me. Now I’m not the worst one, haha.”

In the Yang family, because Yang Meng was the youngest, her level of cultivation was the weakest, and only in the first sky of Earth realm. Every time she would be mocked by Yang Mu and the rest. Now that she suddenly discovered that Shi Yan was only in the Disaster realm, she immediately felt more balanced inside. She clapped her hands together and smiled happily, pointing at Shi Yan said: “Hehe, you’re not even as strong as I am, let’s fight in the future. Don’t worry, I’ll hold back on you.”

The children of the Yang family don’t just cultivate endlessly. They often clashed together, and motivated each other, using real life fighting to gain experience.

Because of the existence of the Immortal Martial Spirit, the fights between Yang family children would not stop at a certain point., they often had situations where there was blood spilling. Yang Meng was the weakest; In these years, every time she fought with Yang Mu and the others, she never got hurt because they would hold back. However, she had never won either.

She had long heard the news about Shi Yan’s arrival. Now that she saw Shi Yan was here, and only in the Disaster realm, she immediately had the idea of getting some satisfaction through Shi Yan, and she immediately got happy.

The look in Yang Lao’s eyes was deep, he stared at Shi Yan for a moment, then lightly nodded and smiled: “I heard that you are pretty good. Come come, let me see how good you are.”

Shi Yan was stunned.

“Very easy.” Yang Lao chuckled maliciously, four beams of bright light suddenly flew out of his palm. Those four beams of light abruptly sank into those four shackles, “Put on those shackles, and run around the pool five times. Haha, the second sky of Disaster realm, close enough, close enough.”

The shackles that came off of Yang Meng, suddenly flew up, and went to wrap around Shi Yan.

“Haha, little Yan, second Grandpa is testing you, don’t make him disappointed.” Yang Mu laughed, and clapped: “I believe you definitely can pass. Second grandpa, if little Yan can run five laps, what prize do you have for him?”

“Prize?” The smile on Yang Lao’s lips didn’t change, he nodded, “Of course there is a prize, if he runs five full laps, I will call the shots and give him three Nutrition Pills. Haha, isn’t this kid close with that girl from the Xia family? The Nutrition Pill sure has special effects for the Reincarnation Martial Spirit of the Xia family.

Shi Yan’s eyes suddenly brightened.

He listened to Xia Xinyan talk about the Nutrition Pill before, this was an elixir that could recover Profound Qi in a short period of time. Every time Xia Xinyan used her Reincarnation Martial Spirit, her body would be heavily damaged. In normal situations, she would need one to two months to recover. But if she had a Nutrition Pill, she would be able to recover overnight.

If Xia Xinyan had three more Nutrition Pills in her hand, then she would be able to use the Reincarnation Martial Spirit three more times, and would not worry about the counter damage.

Thinking about that, Shi Yan spread out his limbs and stood still. He cooperatively let those shackles lock onto his limbs, and his face was full of smiles.

“Didn’t know that you were a loverboy.” Yang Lao chuckled, “But, if you want my Nutrition Pills, it won’t be that easy. Not only do you have to run five full laps, I’m also timing you. I’ll give you five minutes, in five minutes you must finish, then I’ll give you the Nutrition Pills. If you drag this onto late at night, that doesn’t count.”

“Five minutes?” Yang Meng’s cute eyes blinked, “Grandpa, you’re so naughty. It’s so hard to get something from your hands. When I just stepped into the Earth realm, dragging these four big things, it still took me a minute to run one lap around the pool. He’s only in the second sky of Disaster realm.”

“Your great grandpa said it, this kid has excellent talents, his body is different from others.” Yang Lao’s eyes were gleaming with peculiar lights, he smiled: “Your great grandpa said, under the same realm, he is much stronger than you all. Hehe, if your great grandpa said that, then he has his reasons. I believe there has to be something different on this kid, I’ll wait and see.”

Shi Yan was secretly surprised.

Yang Qingdi had never met him, but he seemed to know everything about him. He even knew that his body was different from others.

Could it be, that Yang Qingdi really does know everything?

Shi Yan became more and more curious about this great grandpa that he had never met. He didn’t know exactly how many magical powers he had, such that he could predict his well-being with just three drops of Immortal Blood.

“Little Yan, stop thinking about random things now. Prepare to use all the strength you’ve got.” Yang Mu loves to see the world plunged into chaos, he laughed and said: “Remember, you only have five minutes. Don’t hide your power, it’s time to show it off.”

“Kid, Start!” Yang Lao lightly shouted.

Shi Yan hesitated no more, he roared, and abruptly stirred the negative energies.

God of Slaughter

Chapter 206: I Bet!

“Dong dong dong dong!”

Four disc-like irons rolled over the edge of the pool like tanks. On the hard ground of the pool side, gravels were swirling. The irons grinded everything in their paths, leaving four long deep ravines.

With 2000 kg heavy weights on his arms and ankles, Shi Yan’s body shrank slightly, which suddenly bursted with an extreme explosion.

The First Sky of Rampage.

Inside his meridians, negative energy boiled and filled his limbs, doubling his power at once.

The 2000 kg weight felt overwhelming when he dragged using his power, but it still couldn’t top him from moving forward.

As his strong body was running along the pond, the pond stirred with loud noise.

Although he was merely at the Second Sky of Disaster Realm, his body was incomparably strong. The Refine Skill of the Flame refined his body once again, so he could adapt to the impact of all sorts of energies and utilize his power better.

As his body became much stronger using the First Sky of Rampage; At that moment, the energy inside Shi Yan’s body equaled to that of an Earth Realm warrior!

Beside the pool, Yang Lao, Yang Mu, Yang Meng were all surprised, gazing at Shi Yan running with all effort.

This increase of energy in Shi Yan’s body was apparently out of their expectation. The three, who were in doubt, were now in shock.

It was very noisy here, so many Yang Family warriors came from other areas hearing the noise, as they watched Shi Yan’s stunning power.

Shi Yan had a rigid face. His strong muscles seemed to contain endless power. Everytime he dashed out he felt inexhaustible.

After he came out from the volcano’s core, this was the first time that he had bursted his power so smoothly. During his running, he felt every cell in his body come to life.

This was a huge shift in his body!

He clearly realized what benefit he got from that long period of ruthless training.

After his body was refined, his ribs and bones became much stronger, his limbs more agile, and his Profound Qi flew faster like a river.

Now he totally trusted the Ice Cold Flame!

Warriors in ancient times emphasized more on their body training than warrior nowadays. To them, the body was the essential basis of martial arts. So they spent more time on body training than Profound Qi refining.

Once the body reached a certain state, it delivered overwhelming power in battles

Among warriors at the same realm, those who possessed stronger body could easily beat those with weaker body.

Feeling the changes in his body, Shi Yan was so delighted that he made up his mind to refine his body as the key of his martial training.

“Bang, bang, bang!”

Like a chariot, Shi Yan dashed forward and made a big stir in the pond, while gravels flew up in the sky.

He was drowning in inner happiness, and already forgot his bet with Yang Lao. He merely wanted to feel the changes in his body and explore himself.

“Stop!”

Yang Lao yelled.

Shi Yan woke up abruptly, and looked at Yang Lao numbly, as his muscles was still shaking.

Yang Lao’s eyes shone with bright light, and he nodded slowly with a surprised smile, “Five minutes! Seven loops! You are a freak!”

“Haha! I know this guy is special!” Yang Mu burst into laughters, “Otherwise, great grandpa wouldn’t bother to orient his position with the Immortal Blood.”

Yang Meng blinked her adorable eyes, and babbled, “Hmm! Another monster! Why are there so many freaks in the Yang Family!”

Shi Yan was surprised.

Yang Lao smiled briefly, scanning those on-watching warriors, he announced, “This is a new member of Yang Family. My third brother Yang Xiao’s grandson, Shi Yan!”

“Young Master Yan!”

“Young Master Yan!”

“Young Master Yan!”

Those steady strong-built Yang warriors began to cry out.

These people were all at high realms, and were well-known in the Endless Sea. They obeyed the Yang Family not only for their history, but also for their every generation’s incredible ability.

These obstinate warriors served the Yang Family because of its great power.

They watched for a while, and acknowledged Shi Yan. At the Second Sky of Disaster Realm, with 2000 kg weights, he could run seven loops around the pond in merely five minutes!

That's literally unbelievable!

Shi Yan smiled. He hadn't triggered the Rampage to the Second Sky. He believe, if he pushed it to the Second Sky, his energy would surge twice and thus he could run at least ten rounds around the pond.

"You win, kid. Take the three Heaven pills." Yang Lao shook his head, smiling, "Kid, you won over me so soon. Hmm, I'm not a generous person. Be careful. I will let you suffer in later training."

Shi Yan gave a brief smile, and right away took the three pills, then grinned, "I'm not afraid of troubles."

"Yang blood does run in your body. You are something." Yang Lao praised with a smile, then looked away, "Now all get the F*** away! Got nothing to do?"

Those on-watching warriors then hurriedly left in embarrassment.

After those people left, Yang Lao frowned, and appeared a bit worried, "Xia Shenchuan is still at our home. He would stop training if you go back. He will chase up as soon as he heard you are here."

After a pause, Yang Lao gazed at him deeply, "Kid, be honest, can you really wake the gal Xia Xinyan? Don't be afraid, it's ok even if you can't. Xia Shenchuan won't do anything, except babbling for a while."

"It should be fine." Shi Yan pondered and replied with a serious face.

"No problem?" Yang Lao couldn't believe his ears, "Are you sure? You have to know, there was once another person who got the same disease as Xia Xinyan. The three powers in the Kyara sea tried everything to save her, but failed. Your great grandpa said, unless someone got a soul-related treasure that is suitable for her, or we can't do anything."

Shi Yan stunned, as he realized that King Yang Qing already knew he got the Soul Gathering Pearl.

"I'm sure." Nodding his head, Shi Yan said, "I promise I will wake her up. She fell asleep because she wanted to save me. Definitely I will wake her up."

Yang Lao stared at Shi Yan for a while, seeing Shi Yan as a reliable man, then he nodded, "Ok, I will send someone for Xia Shenchuan."

Soon, he ordered loudly, and one warrior walked away quickly to a great mountain.

"Do you need any help?" Yang Lao pondered, "There are all sorts of rare materials and medicines in the Yang family, just name it. Even if we don't have it, we can fetch it for you soon. Your great grandpa told us, we should assist you on this."

Shi Yan shook his head with a smile, "Nothing but a quiet secret room."

Yang Lao was stunned, after a thought, he told Yang Mu, "go to the No. One Mountain, and find a best crystal room."

"Ok." Yang Mu swaggered away.

“Your great grandpa is not at home this moment. And he took the Immortal Canon with him. After he’s back, you just have to drop one blood into the canon and then you are back home. Meanwhile, you will possess the Immortal Formula from the Immortal Canon.” Yang Lao thought for a while, “Wake up Xia Xinyan first until then.”

“Yeah, I know.”

“Yang Lao!” Before long, from a nearby mountain, a dash of bright light shot out, “I heard the kid Shi Yan has come back?” Xia Shenchuan’s angry voice came before he even approached.

A tall, thin, white-bearded old man with a feather cap suddenly stood still in front of Shi Yan, and he stared at Shi Yan, his eyes like torches, “You are Shi Yan?”

Shi Yan nodded with an embarrassed smile.

“Well, let me make it brief,” Xia Shenchuan grunted, “If you can’t wake Xinyan up, I won’t spare you. But if she wakes up, I will let you go. As long as she wakes up.”

“I will wake her up safe!” Shi Yan got serious, “I bet!”

“You do?”

“I do!”

Xia Shenchuan was a little surprised, as he couldn’t understand why Shi Yan was so confident. However, he was expecting for it now as he nodded, “Do it then.”

“Second grandpa, it’s all done.” Yang Mu shouted, standing on a cliff, “Xiao Yan, come over now.”

“Let’s go. Let me show you something.”

Yang Lao nodded with a smile, caught Shi Yan and flew out.

[God of Slaughter](#)

Chapter 207: Ancient Divine Blood

Inside the No. One divine mountain.

Deep inside the mountain, six shining Stone Rooms showed up in front of Shi Yan.

Each one of the Stone Rooms was made of complete crystals, containing dense divine auras which were flowing out from the crystal walls like brooks.

The Profound Crystal! The Top Profound Crystal!

The Profound Crystal was divided into Low-grade, Medium-grade, High and Top-grades. Top-grade Profound Crystals could only be found at the center of a crystal quarry.

A fist-like Top-grade Profound Crystal was quite rare in the Endless Sea, valuing equal to a Soul Level treasure!

But inside the divine mountains, the six Stone Rooms were all made of complete Profound Crystal!

Appalling!

Shi Yan's eyes were shining with marvel. He was gazing at the six Profound Crystal Stone Room in awe. Dense natural aura kept diffusing out from the crystal walls. Just after one smell of it, Shi Yan felt his Profound Qi grow heavier.

"OMG!" Shi Yan was astounded.

"In the nine divine mountains, there are fifty four Stone Rooms made up of complete Profound Crystal for the Yang Family members to train in." Yang Mu looked proud, giggling, "The nine mountains form a natural pattern that gathers the auras between the earth and the sky. They are the miracles of the Endless Sea after thousands of years of cultivation. We fought for hundreds years and killed numerous people to obtain the nine Divine Mountains!"

"Training in the Stone Room for one day equals to one year of training outside!" Yang Lao beamed, "Every generation of Yang Family protects the divine mountains, for they help us produce experts faster! As long as we own the nine divine mountains, the Yang Family will hold the dominant position in the Endless Sea! After a hundred or a thousand years, we Yang Family will still dominate the Endless Sea!"

Shi Yan nodded slightly.

To train inside a Stone Room made of Profound Crystal, one didn't need to concentrate his profound Qi. Instead, all one has to do is to breathe the divine aura here, refine it, and then one's profound Qi would become much denser.

The profound Qi he could gather in a day equaled that of a man training for one year.

At that moment, Shi Yan finally knew why the Yang Family members cultivated to the Disaster and Earth Realm so easily.

At Elementary, Nascent and Human Realms, one's progress was directly correlated to the speed of which one can concentrate his Profound Qi. As long as one's profound Qi was dense enough, it was easy to advance to another realm.

With the unique Profound Crystal walled Stone Room, Yang Family warriors found it easy to breakthrough from Elementary, Nascent and Human Realms; they could cross over the three realms easily.

However, common warriors needed great effort to concentrate Profound Qi and to train little by little for ten or more years to reach Human Realm. And finally, after their consciousness was strengthened, then they could reach Disaster Realm.

Yang Family warriors cultivated ten times faster than others!

Although Disaster, Earth and Nirvana Realms demanded a lot on one's mind and wisdom, with enough Profound Qi, one's consciousness could breakthrough.

Which meant that after the Disaster Realm, Yang Family warriors took great advantages in concentrating their Profound Qi!

In the fifty four Stone Rooms in the nine divine mountains, fifty four warriors could quickly concentrate their Profound Qi, and being further accompanied with all sorts of secret treasures of Yang Family, even they would find it hard to slow down their path.

“The nine divine mountains are the essence of our Yang Family.” Yang Lao smiled, “The nine divine mountains formed a natural pattern and absorbed the auras between the sky and the earth. There is always inexhaustible auras in the Stone Rooms.”

“Xiao Yan, if only you had come back years earlier! You would now be higher than the Second Sky of Disaster Realm.” Yang Mu giggled, “But it’s not too late. You, kid, are lucky and not too far behind. If you train hard, it will be easy for you to advance to another Realm with all sorts of treasures in the Yang family.”

“Where’s Xia Xinyan?” Shi Yan took a deep breath, held his mood, and then asked frowning.

“Inside there.” Yang Mu smiled, “That gal normally wouldn’t be allowed inside the room if were not for being the exception; only direct offsprings and core ministers of the Yang Family are allowed to enter the Stone Rooms.”

Xia Shenchuan was beyond the divine mountain, and he couldn’t enter it either. As the master of the Xia Family, he knew the law of the Yang Family; the divine mountains was the forbidden area.

“Kid, go wake up Xia Xinyan now. Don’t worry, we will deliver meals for you everyday, including glossy ganoderma, demon beast meat, and all sorts of great food, to make sure that you get enough nutrition.” Yang Lao smiled.

Shi Yan nodded, “Then I will enter now.”

“Go now. The Stone Rooms are a forbidden area for others, but to us, they are merely rooms for training. Leave everything behind you. Send messages through that pipe, and we will arrange everything for you.” Yang Lao introduced.

Shi Yan felt that he was meticulously taken care of.

Here, the Yang Family provided him the best place for practice.

He could get whatever he wanted here. All he needed to do was to concentrate on training instead of on other, trivial things. Looking at the shining Stone Room, Shi Yan knew why the Yang Family was so powerful.

Under Yang Lao and Yang Mu’s gaze, Shi Yan slowly walked into one of the crystal-walled Stone Room. At once, the door was closed from outside.

Inside the crystal-walled Stone Room, the auras were flowing like a river even in the air. One could smell and see it.

Without doing anything, he could feel his Profound Qi was increasing little by little. It really is, an optimal place for practice.

The Stone Room was not quite spacious—about 20 square meters. At its centre sat a crystal stone bed on which Xia Xinyan, in white clothing, was lying on her back.

There were vague life fluctuations on her body and white light was shining on her delicate smooth face. Long eyelashes covered her clear eyes. Inside her perfect body, wisps of Profound Qi were flowing in disorder.

Without any consciousness, Xia Xinyan looked like a dead body even though she was still breathing. She didn't know that Shi Yan was beside her.

His consciousness silently flew into the Blood Vein Ring.

"Seven days ago, you said that we could absorb the soul power in the Soul Gathering Pearl." Shi Yan injected his spirit into the Blood Vein Ring, "Now I have time to absorb the soul power. You said the soul power can wake her up. Tell me what to do."

"Huh? It's so strange here!" The Ice Cold Flame's message rippled out from the Blood Vein ring slowly, "Although my power is sealed by the ring, I can still feel the dense natural energy here. It is the best place for you human warriors to train in. You are a lucky dog. How did you find it here?"

"None of your business." Shi Yan frowned, "Tell me, what do I do to wake her up?"

"Very simple."

The Ice Cold Flame didn't hesitate, "Just wipe away the white vein on the Soul Gathering Pearl, put both your fingers on it, and then you can feel pure soul power from it. Hmm, this woman has lost her consciousness, so you have to wrap the soul power with your spirit power, and then inject it into her mind, nourishing her soul. Don't worry, it is easy to absorb the pure soul power. Her remaining soul will soon gather once it is nourished by the soul power."

The Ice Cold Flame elaborated it to Shi Yan.

Then it became disappointed, "I was sealed by the damn ring; I don't think I can still get my share of the soul power now. Remember our deal, you should keep my part for me."

"Got it." Shi Yan's mouth quivered.

"Oh, by the way, you can drop one blood drop to the Soul Gathering Pearl, causing the soul power delivered to the woman to have your smell. After she has gathered her soul, she will have your smell inside her. Wherever she is, you will know the exact position."

"It does no harm to her?"

"Not at all."

"Good."

Shi Yan nodded, and then nibbled his finger tip until a drop of crimson blood fell onto the Soul Gathering Pearl.

Shining Black Light gushed out from the Soul Gathering Pearl. In an instant, the black light wrapped Shi Yan all over.

Meanwhile, the water-like auras in the crystal-walled Stone Room gushed toward the Soul Gathering Pearl crazily.

“Ah! Your, your blood! How could it be!” The Ice Cold Flame sent a surprised message in haste, “This, this is ancient divine blood!”

God of Slaughter

Chapter 208: Magic Effects of Divine Blood

Ancient Divine Blood!

The message from Ice Cold Flame made Shi Yan stunned. He stood there at a loss of what to do for a while.

In the stone chamber adorned with crystal wall, rich auras crazily swarmed into the Soul Gathering Pearl continuously. Gradually, the Soul Gathering Pearl became sparkling and crystal-clear, revolving on Shi Yan’s palm. A plume of visible crystal light, which could be observed with naked eye, revealed on the pearl surface little by little.

When a third of auras in the stone chamber disappeared into the Soul Gathering Pearl, the drop of Shi Yan’s blood became too weak to perceive.

Not until this moment did the auras in the stone chamber stopped flowing.

Everything returned back to normal, except the glittering Soul Gathering Pearl. As so many auras went into soul Gathering Pearl, it seemed wonderful changes happened on it. Its surface texture became more close-grained.

“What is Ancient Divine Blood?”

“I don’t know either.” Ice Cold Flame delivered messages after a short silence, “The Extreme Refining Skill you practice was from a nutty blacksmith. I got the information of Ancient Divine Blood from him as well. He obtained a page of an ancient incomplete book. It says in ancient times, there were three prime God Kings whose blood had special effects. The blood of three God Kings had different infinite magical effects, which was called Divine Blood. The blacksmith had no idea about the specific effect of the their Divine Blood. But what he knew was once the divine blood falls into treasures and weapons, it would immediately cause mutations. A common one is driving the auras around and let them crazily get into the treasures and weapons.”

“The descendants of the Three God Kings, as long as they have the Divine Blood Inheritance, would have the similar magic effects. Once Soul Gathering Pearl has been refined by Earth Fire, the souls in it would form a pure soul power, what makes Soul Gathering Pearl loses the ability to absorb souls and becomes a container for spirit power.

“However, as you entered a drop of blood, the internal structure of Soul Gathering Pearl seemed quietly change, after it absorbed the Natural Auras. Soul Gathering Pearl showed signs of reviving now. Unfortunately, your blood is not pure. Only the essential blood can be called Divine Blood. If the Soul Gathering Pearl absorbs the genuine Divine Blood, it will be able to completely recover according to its characteristics.”

"If you refine your blood into the Divine Blood, you can integrate your blood into the treasures and weapons according to the ancient incomplete book from the blacksmith. It can make any damaged treasures and weapons recover. Your Divine Blood can repair any treasures and weapons. Once you refine your blood into the Divine Blood, you can make Soul Gathering Pearl regain its ability of absorbing souls..."

The Ice Cold Flame explained slowly, and instilled in Shi Yan the knowledge of Ancient Divine Blood it knew.

Shi Yan was dazed for a while, staring blankly at the Soul Gathering Pearl in his hand with a strange expression.

Immortal Martial Spirit!

The Ancient Divine Blood should belong to Immortal Martial Spirit. And Immortal Martial Spirit could recover the human body. It was said when refine to the most esoteric realm, Immortal Martial Spirit can recover the human body and come to life with merely one drop of essential blood.

Obviously, the abnormality of the divine blood in the body was related to Immortal Martial Spirit.

But it was beyond his imagination that the blood could actually repair all the treasures and weapons, and let the useless ones regain their effectiveness.

This was rather a miraculous special effect.

In Grace Mainland, most warriors who were born with a silver spoon have all kinds of treasures and weapons in their hands.

Treasures and weapons are the lifeblood of warriors. When people engaged in battles, treasures and weapons may get damaged in bombardments and collisions. And then lose their effectiveness.

Once treasures and weapons turned into junks, even the best blacksmiths can hardly get them repaired but forge new ones.

When his blood was refined into essential blood, he can inject it into treasures and weapons with arcane methods, which could made them recover in a short time. The effect like this is very extraordinary.

Immortal blood! Immortal blood!

Shi Yan's eyes suddenly lighted up. He recalled that Emperor Yangqing had entered a drop of essential blood into Yanghai's body, and even after several decades he could still get Yanghai's location through that drop of immortal blood. Some time ago, Emperor Yangqing used three drops of immortal blood to calculate Shi Yan's life and death, and then let Mo Duanhun come to Clouds Island to find him.

Obviously, Emperor Yangqing had known how to refine the immortal blood and the magical effect of the immortal blood.

Since thinking about this, Shi Yan recollected himself. He glanced down at Soul Gathering Pearl, and communicated with Ice Cold Flame: "Got it. Now I begin to drive pure soul power in Soul Gathering Pearl to Xia Yinyan's soul. Well, final confirmation. There will be nothing wrong with one extra drop of my blood in Soul Gathering Pearl, right?"

“Sure!”

Shi Yan put his mind at ease finally.

Looking at the beauty in the bed, Shi Yan’s eyes showed his sorrow. He gently helped her up, and get on the stone bed at the same time, sitting cross-legged face to face with her.

With Soul Gathering Pearl in one hand, Shi Yan reached out the other and held her slim cold hand, placing it on Soul Gathering Pearl.

Slowly closing his eyes, Shi Yan held his breath and concentrated his mind, then put a wisp of consciousness into Soul Gathering Pearl.

The soul power babbled, like streams flowed gently in Soul Gathering Pearl. As soon as he put his consciousness into Soul Gathering Pearl, immediately he got a wonderful feeling, as if the soul power inside became his blood, the blood that can easily be controlled...

According to the method Ice Cold Flame said, he let his consciousness lead the soul power in Soul Gathering Pearl and tried to pull it out of the pearl.

There was no difficulty. Under the guidance of his mental consciousness, a wisp of pure soul power, like a brand new bright filament, was taken out from Soul Gathering Pearl without stagnation, and quietly dived into the Xia Xinyan’ cold palm.

Cheerfully, Shi Yan led this wisp of pure soul power to the brain area of Xia Xinyan's with his consciousness slowly.

This wisp of soul power went along the meridian line of her arms, passed through her white slender neck, paused for a while and then went into her brain area.

Boom!

When Shi Yan’s consciousness went into her brain area, Shi Yan had a quake in mind. Dimly, he felt himself fell into a soul battleground.

A variety of quick and forceful soul powers suddenly emerged in large numbers from her mind sea, full of hostility, and unexpectedly appeared like want to kill the wisp of Shi Yan’s consciousness.

Shi Yan’s facial expression did not changed. He had heard of the situation such as this from Ice Cold Flame.

He took back his consciousness from the mind sea of Xia xinyan’s with lightning-fast speed.

Nevertheless, the pure soul power which led by his consciousness, had easily got into Xia xinyan’s mind sea, owing to the guidance of his consciousness before.

A strong soul wave came from Xia xinyan’s brain area all of a sudden. The soul wave was overwhelming with extremely violent rage, like a soul storm which can get any souls killed for a second.

Calm and unhurried, Shi Yan hold Soul Gathering Pearl tightly and opened his mind to make his consciousness into an emptying situation.

At this moment, Shi Yan's soul seemed to be invisible. The soul storm from Xia Xinyan raged in the stone chamber for a while, and gradually subsided.

When Shi Yan could not detect any abnormalities, he refined another wisp of spiritual consciousness into Soul Gathering Pearl by the same way, to bring out more soul power and bring into the Xia Xinyan's brain zone.

Every time his consciousness fell into her brain zone, from her body, would immediately come the violent soul storm from her body with instinctual conflict emotions.

And at this time, Shi Yan would not be fight it head-on. He would hide all the consciousness rapidly, even his own soul breath, in accordance with the method from Ice Cold Flame.

Until her soul counterattack disappeared, Shi Yan began to bring out more soul powers and lead into her brain zone again.

Shi Yan was not impatient, little by little, again and again.

Gradually, he found that along with the constant injection of the soul power, the soul counterattack from Xia Xinyan, had begun to reduce by degrees.

A delighted smile appeared on his face quietly. He knew that this method from Ice Cold Flame worked.

With the injection of those pure soul powers, those scattered fragments of Xia Xinyan's consciousness had been gathered slowly. Xia Xinyan seemed to have a weak self-consciousness, and seemed to know her situation gradually.

Feeling relieved, Shi Yan didn't dare to hesitate, he pulled out more pure soul powers into Xia Xinyan's mind sea.

Time flied imperceptibly.

Finally one day, when Shi Yan took a wisp of soul power into her brain zone, but did not perceive her soul counterattacks. She did not instinctively let her soul power break out and make attacks on Shi Yan.

As the soul power was taken in, Xia Xinyan's consciousness showed signs of waking up.

Meanwhile, her slender white hand that put on Soul Gathering Pearl unexpectedly grew a weak absorption power...

Shi Yan clearly felt that there was a soul power in Soul Gathering Pear. It flew out initiatively and slowly toward Xia Xinyan's arm, led by something.

Shi Yan suddenly opened his eyes.

In front him, the beauty with Rosy cheek, was breathing evenly. Although she still tightly knitted her eyebrows, but at least she had expressions.

-- She subconsciously absorbed the useful power for her soul recovery.

Shi Yan immediately came to this conclusion.

In this way, he could rest assured, knowing that the soul power that went into Xia Xinyan's brain zone these days had begun to play its due role.

"Done" Ice Cold flame sent the message over initiatively "From now on, she has learned how to absorb the soul power inside Soul Gathering Pear on her own. You don't need to guide her any more. Well, you can finally work on your own business. Now, I will tell you how to get consciousness mutation and turn it into Soul consciousness through the absorption of the soul power. Then you can gather Soul consciousness to form your Sea of Consciousness."

Shi Yan's eyes suddenly lit up.

Chapter 209 Forming the Sea of Consciousness

Sponsored by: Fafa

In the mountains of the Yang family.

Shi Yan and Xia Xinyan were sitting cross-legged face to face. Between them, the Soul Gathering Pearl was sending out Martial Spirit. Pure power of the soul flew along their arms, necks, to their brains.

In Soul Gathering Pearl, the water-like power of the soul was reducing.

Time flew. Suddenly, half of a year had passed.

Shi Yan held his breath, as his forehead started shining.

Strong soul fluctuations came from his brain, and then slowly started spreading through the entire stone chamber.

It's the crucial moment.

According to Ice Cold Flame's saying, he had been absorbing the power of the Soul Gathering Pearl for half a year. With the injecting power of the soul, he felt himself full of spirit power. His spiritual sensitivity could even cover a radius of hundred miles.

While injecting Soul power, his spirit power grew several times, not reducing in speed until today.

His spirit power increased by an extreme amount. Shi Yan never stopped focusing on condensing his spirit power. He combined a thousand strings of spirit power into one. In his brain, the spirit power was like hundreds of thousands of thin strings. Under the control of his mind, these hundreds of thousands of spirit strings combined by one thousand.

On this day, the spirit power in his mind had coalesced into several hundreds of strings after re-organizing.

Under his control, several hundred strings of spirit power were injected into the soul stigma. Those strong spirit power went into a sudden contraction.

Shi Yan clearly saw the sudden changes of the spirit power in his brain.

The spirit power was flashing. Inside it, were his life experiences.

Drowning his mind into one part of his spirit power, secretly scrutinizing, just like watching a movie, he could find the scene of his past.

The past seemed to be replayed.

Those spirit power deeply imprinted in his life experience, and seemed to be a microcosm of his life.

In this process, his soul seemed to have sublimated, indulging in the spirit power.

At one moment.

Lightning jumped out from the spirit power. The spirit power gradually became unclear.

A strange energy fluctuation began to overflow from it. A mysterious change was happening quietly.

Shi Yan suddenly felt like he owned countless eyes! He seemed to have more souls!

Wonderful feelings came into the heart. Before he realized it, the spirit power suddenly combined together.

In his brain, wisps of Profound Qi power gradually formed a Sea of Consciousness!

The Sea of Consciousness!

In his brain, wisps of Soul consciousness combined, and then became a Sea of Consciousness about one square meter in size.

He could see the little Sea of Consciousness and strong fluctuations in his mind. Among the Sea of Consciousness, his memories had deeply imprinted.

Between the changes of mind, he could see every experience of his past life!

As long as he wanted to see it, the Sea of Consciousness would become a screen, showing his past clearly.

In the Sea of Consciousness, it has all his life as if was his soul sublimation!

Gradually, his brain is no longer continued shining. Everything seemed to return to normal.

Unknowingly, the Soul Gathering Pearl had stopped blinking and lost the soul power.

The clear soul power formed by thousands of souls had went out after their absorption.

Suddenly, Shi Yan opened his eyes.

When his mind blinked, the Sea of Consciousness formed a strange wave. The soul spirit quickly spread in all directions.

Wherever the Soul consciousness passed, the mountains, the grass, demon beasts, palaces, a lot of Yang warriors, all kinds of scenes, occurred in Sea of Consciousness.

The small Sea of Consciousness divided into numerous images. Each image corresponded to a outside world scene.

Shi Yan was stunned with a strange expression on his face.

Such a moment of the soul release and the Sea of Consciousness gave him a very wonderful understanding.

The soul that he released was like intangible cameras or satellites that recorded all the scenes. Everything was revealed on it like on a screen.

With a weird smile, Shi Yan was sitting on the stone bed with his eyes shining.

After the formation of his Sea of Consciousness, the martial practice had a magical effect, going against his expectation.

He knew that the Nirvana Realm warriors could sense the surroundings. However, he felt that their feeling did not have such clarity.

However, now he also had the Sea of Consciousness and Soul consciousness. He was in an inexplicably happy mood.

He believed that his present ability could make him god in the world where he was born.

He stood still in his place, but he could still see everything miles away.

That was not all!

The Sea of Consciousness changed again, and then suddenly attacked the crystal wall.

In the air, the aura of the world formed into white mist. Obviously it was under attack by some invisible force. In the faint white mist, there was a vacuum from which a bunch of power suddenly shot out.

“Puff!”

This wave of Soul consciousness impact fell on top of that crystal wall, and the crystal wall conveyed a sound of clash.

A glint of happiness flashed across Shi Yan’s eyes.

As expected.

Since the Soul consciousness had formed, he could now directly attack the enemy’s soul.

Soul consciousness was different from spirit power. Although it was invisible, it can still operate strong soul attacks.

It could be soft as hair and hard as a steel needle. It had direct destructive power to the soul!

Shi Yan sat on the stone bed with smiles, using the power of Soul consciousness and Sea of Consciousness to gain insight into the changes again and again.

“Congratulations, you formed the Sea of Consciousness.” The Ice Cold Flame sent the message from the ring, “However, you seem to have used all the power of the soul of Soul Gathering Pearl. What about the share you promised me?”

Shi Yan smiled bitterly, "I am sorry. When I was in practice, I forgot about this. The power of souls ran out while I wasn't conscious of the fact. Hum! You said, I do not have to use much power of the soul, but why did I end up using all of it?"

Ice Cold Flame thought for a moment, "You have great potential. But you used more soul power than I imagined; you absorbed 60 percent of the soul power. Now, your sea of consciousness has expanded greatly. You do not only have the Sea of Consciousness, but also have a strong Soul consciousness because you absorbed 60 percent. And, your girl's level is higher than you. Her mind is quite strange and since she absorbed 40 percent, I lost a lot. "

"Well, you said my blood can make the Soul Gathering Pearl absorb souls again?" Shi Yan also felt a little embarrassed, "Once the Soul Gathering Pearl is restored, I will continue to gather more soul power. Next time, I will share some power of the soul to you. Is that ok?"

Ice Cold Flame was also helpless, "All right, that's it. I hope you remember our agreement. That's all."

Shi Yan nodded and agreed immediately.

"Your woman, she's going to wake up ..." The Ice Cold Flame said.

Shi Yan felt happy and immediately stopped the communication with the Ice Cold Flame, and then looked at Xia Xinyan.

Her eyebrows slightly wrinkled as her long eyelashes slightly shook and her lips gently parted; she seemed to be waking up from the dream.

Shi Yan looked focused, even a little nervous.

Gradually, the soul of Xia Xinyan fluctuated, and then restored smoothly, causing her delicate face to become ruddy.

Even at this moment, she was still elegant with a sternly inviolable elegance.

Shi Yan was looking at this beauty with soft eyes and a smiling mouth.

After a long time, Xia Xinyan gently opened her eyes. Her bright eyes shone like the star, deep like the sea, while quietly staring at Shi Yan.

"It's nice to see you again." Her mouth curled an elegant curvature as she said softly with a smile.

"Xinyan, you are fine." Shi Yan took a deep breath. His face was rippling gentle smiles as he jumped down from the stone bed, reached out his hand, and then said, "Now walk. Carefully make sure that there is nothing wrong. Tell me if you feel something is wrong."

Xia Xinyan smiled, shook her head gently, but still obediently put her hand out to Shi Yan, letting him pull her down from the stone bed.

The perfect body walked a few steps in the stone room gracefully. With a smile on her beautiful face, she softly said, "I'm okay. I have also advanced into the Second Sky of Earth Realm."

Shi Yan stunned at first, then immediately greeted, "Congratulations."

Xia Xinyan nodded, "Our bet still works. Before you beat me, hehe, be quiet." Then she withdrew her hand held by Shi Yan. She raised her eyebrows slightly, and then provoked him, "You have to work hard! If not, I will not promise you anything."

"Don't worry. I won't keep you waiting." Shi Yan grinned with a confident face, "I will become better than you soon!"

"Bragging." Xia Xinyan smiled, "Don't brag. Prove it as soon as possible."

"I will."

God of Slaughter

Chapter 210: You're really something

When Shi Yan and Xia Xinyan came out from the cave, many warriors from Yang family were surprised and their faces show their excitement.

The news about the relationship between Shi Yan and Xia Xinyan had already been spread out these days.

Many old warriors from the Yang family knew that there is someone from the Xia family who has the same symptoms as Xia Xinyan, at that time the head of the big three families in Kyara sea who gathered their wisdom failed to wake up that Xia warrior and resulted the warrior died in advance.

After Xia Shenchuan brought Xia Xinyan to the Immortal island, he made trouble a few times, so the warriors from Yang family all knew that Xia Xinyan, the pride from the Xia family new generation also suffered from the same symptoms and probably is difficult to wake up

And now, Shi Yan and Xia Xinyan came out side by side, which made everyone surprised and speechless

The problem that even can't be solved by the head from the big three families, now was solved by Shi Yan, which no one knows what method he used to make Xia Xinyan wake up ?

There are huge doubts in everyone minds and they looked sluggish at Shi Yan

Soon, Yang Lao and Xia Shenchuan received the message and rushed over, gathering at Shi Yan side.

Xia Shenchuan couldn't believe his own eyes, after staring at Xia Xinyan for a long time, his body gently trembling for a long time, and he nodded: "Good... good... finally you woke up"

"Grandpa" Xia Xinyan smiled, said: "I'm fine, yeah, I have broken through into the second sky of Earth realm."

"What?"

Xia Shenchuan shocked again and immediately used his spirit power to examine Xia Xinyan body, then he smiled and nodded: "Good, good girl, I knew that you will be showered with blessings once you escape this disaster, Hahahaha."

"Brother Xia, now you are satisfied right ?" Yang Lao smiled: "Now you won't force this kid to take responsibility right ? Hehehe!"

"Hahaha" Xia Shenchuan smiled and nodded, his eyes looked at Shi Yan: "Brat, you're really something, the problem that even your great-grandfather can't solve was solved by you, good good, next time, if our family encounters this kind of trouble again, looks like we need your help to solve it, hahaha, good good!"

Shi Yan stunned, shooked his head and said: "Don't! this time was merely luck, and also my secret treasure already gone, if there is a similar situation in next time, I also can't do anything"

"No no, you definitely can solve it" Xian Shenchuan laughed "As long as you tell us the method, no matter what kind of secret treasure, the Xia family will re-refine it"

"Some of the secret treasure can't be refined out, which existent was naturally." Shi Yan looks helpless "anyway, if there is similar situation in the next time, don't rely on me, I also can't solve it"

"You brat " Xia Xinyan glared at him, seems like a little angry "Why you always make an excuse ?"

"This time was merely luck" Shi Yan smiled", "It's not like I don't want to help, in fact, the secret treasure that I have already can't be used again"

"Forget it" Xia Shenchuan waved his hand, and said: "We, the Xia family shouldn't be so unfortunate. After going back, I will tell them to don't let something like this happen again. Xinyan, you just entered the second sky of the Earth realm, so you need to return, there is some martial skill that you need to learn as soon as possible, otherwise it may be bad for you"

His word made Shi Yan and Xia Xinyan startled.

"If I have known this earlier, I would have stayed in the stone room for some time." In the face of Xia Shenchuan, Shi Yan blinked at Xia Xinyan, "You say?"

Xia Xinyan cheeks became red, and dropped head down without saying anything

"Hoo! " Yang Lo poked and laughed, as he looks very excited

Yang Mu, Yang Meng, and the others Yang family were also staring at those two, with a strange expression

Xia Shenchuan froze for a moment, and then his eyes were like a lighting, looking at Shi Yan and Xia Xinyan, then he suddenly calm down

In the Kyara Sea, Xia Xinyan was famous for her eyesight, she never put anyone who in same age with her in her eyes, and in her heart, there was only Xia family and cultivation.

Over the years, the men who pursuit Xia Xinyan were from of every corner in the Kyara sea, even the genius young men in the other sea also covered Xia Xinyan's beauty and often wandered to the Xia family just to get a glance of Xia Xinyan and catch her attention.

However, no matter who, and no matter how outstanding he was, Xia Xinyan never thought about them.

Even the leader of the new generations from the Evil Wonderland, Xie Kui, admired her for many years but there was never a slightest progress, which made him very unhappy.

In the Kyara sea, Xia Xinyan can be described as a misty cloud mountain, which can't be climbed, and only can be looked up from afar by the young men.

Even Yang Ke and the others from Yang family were also obsessed with Xia Xinyan for some time but didn't receive any attention, and at last, they gave up.

Now, because the words from Shi Yan, the beauty face became blushed, which surprised everyone.

"Ahem ahem!" Xia Shenchuan coughed, although he was slightly upset, but because Shi Yan helped her granddaughter to wake up, so he didn't show it, and only said: "Ah, since the problem is solved, then we will leave now, come on"

"Wait a minute" Shi yan suddenly slightly shouted

"Brat, don't push your luck!" Xia Shenchuan said, "Although you save her, but don't think you can have something between you two, my granddaughter is going to inherit the chair of the head of Xia family in the future, so there will be no chance of an affair, even if she is going to marry, the groom has to bear my family surname and the surname of baby born in the future also Xia."

Xia Xinyan blushed face slowly faded, and in her eyes, there is a trace of sadness and sorrow

From childhood, she was taught to don't have an affair, in the future, she was going to inherit the chair of the Xia family head, even if she was going to have children, it will be arranged by the Xia family, and the groom needs to bear Xia surname.

Because of this, she never thinks about love affair in the Kyara sea

Because she knows that her future isn't up to her to decide it

"Hmph! " Yang Lao snorted, he was upset but didn't say anything

Shi Yan also frowned, his eyes gradually became gloomy, and from Xia Xinyan expression, he saw the helplessness and nothing can be done about her destiny.

At this time, he knew that everything he said will be ignored, not only it won't change Xia Shenchuan original intention, instead it will only leave a bad impression in Xia Shenchuan heart, but also will let Xia Xinyan having a difficult time, and may even affect the long friendly relations between Xia family and Yang family.

He knew that if he wants to get Xia Xinyan, there is only one way, one day, he, Shi Yan will prove his ability and can take over the Xia family

So the entire Xia family can only overlook him

After took a deep breath, Shi Yan face became normal and lightly smiled, then he took out three nutrition pills that he won from Yang Lao, stepped forward to pass it to her, softly said : "These are three nutrition pills, next time if you are forced to use the reincarnation martial spirit, these nutrition pills can protect you for three times"

Xia Xinyan was a little happy as her bright eyes moved, and secretly looked at Xia Shenchuan.

Xia Shenchuan looking at the sky, his mouth was slightly pulled a bit and he looked indifferent, but he didn't stop her to accept those three nutrition pills.

In the entire Kyara sea, only Yang family can refine this nutrition pill, even in the Yang family, this nutrition pill was very rare, only the direct descendants from Yang family and Shura King have the qualification to hold it, the nutrition pill have an extremely good effect on the reincarnation martial spirit which Xia Shenchuan also knew.

If replaced with another pill, maybe Xia Shenchuan will scold and stop her. However, for nutrition pill, this was difficult to do so.

"Thank you" Xia Xinyan was tacit, she can glimpse an approval from Xia Shenchuan expression, and then receive it and softly thanks.

"Take care." Shi yan looked at her deeply, softly said : "Remember our promise"

Xia Xinyan face became blushed again, and bowed her head, softly said : "Yes"

"Let's go" Xia Shenchuan was upset again, he didn't want her granddaughter to be too close with Shi Yan, slightly snorting, and flew up as he held Xia Xinyan and then turned into a light, and rushed into the clouds

"Brat, you are really something" Yang Loa smiled and patted on Shi Yan's shoulder, "If you really can get that girl, then that old ghost Xia will definitely cry with tearless grief, hahaha, good good, you have my old style"

"Xiao Yanzi, this!" Yang Mu threw a thumb as he was amazed too: "Xia Xinyan, this girl, in Kyara sea, she is like a goddess, many people covet her beauty, but she never blushed in front of anyone; You brat, you are really great, no wonder the great grandpa think highly of you."

"Brother Yan, I support you!" Yang Meng also cheered, smiled: "Sister Xia is so beautiful, she is the most beautiful scenery in our Kyara sea, this kind of beauty should be subdued by us. Hahaha, brother Ke and the others were disappointing, at that time, I also despised them. I didn't expect that brother Yan is so great, you just came here, and already hooked sister Xia, you are really great"

"Hooked?" Shi yan smiled, and shook his head: "You little girl, stop talking nonsense, I was using my charm to conquer her"

"It was same, anyway, the result is you guys can be together, hehe" Yang Meng laughed, and she appeared more and more like Shi Yan.

The warriors from the Yang family on the side also exposed an admiring expression, when they looked at Shi Yan as if to be able to get Xia Xinyan heart was greater than wake up Xia Xinyan by using the soul gathering pearl.

Shi yan stunned, he didn't think that Xia Xinyan was like an inaccessible cloud mountain in Kyara sea, the affair between him and Xia Xinyan meant that the cloud mountain already laid down a ladder to let him climb onto the peak

"Brat, follow me, I will take you to see the demon beast that your great grandfather wanted you to tame" Yang Lao suddenly shouted.

Shi Yan startled.
