Chapter 231: Breakthrough

he Meteor Array.

In another account of the old array technique.

Yang Mu, Yang Xue, Yang Ke, Li Feng'er and other warriors of the Yang family, were all standing in the old array technique formation. This formation was quite similar to the one of Shi Yan, the only small difference was of the energy crystal around the array technique.

At this time, the energy crystal kept releasing a dazzling light.

The Yang Family's warriors then entered into the old array technique, following the time when the light was released and disappeared continuously.

Yang Mu's group followed Jian Hu Quan's method, each person of the Yang family used exactly this method to move forward when entering into the old array technique, hence, they were not affected by the special outer space meteorite.

According to Jian Hu Quan, this way led to the exit of the Meteor Array.

Thus, Jian Hu Quan had reminded every one of the Yang family to not hesitate in standing in the middle of the old array technique, or else they would have had been pushed out by the old array technique.

Quickly, all the warriors of the Yang family went through into the old array technique and disappeared from the Meteor Array. Each person, like when Shi Yan had just entered, could not have seen each other's back as it was not possible to see anything inside the Meteor Array. Upon entering the old array technique, everyone would be teleported in a blink, so no one was aware of one another's situation.

However, thanks to Jian Hu Quan's encouragement, they did not hesitate and entered the old Array technique right away. This was the reason why Shi Yan's warriors lost trace of Yang Mu's warriors in the Meteor Array.

Outside of the Meteor Array,

Cao Zhi Lan had beautiful, tender long legs with strange light flaring up in her eyes. The Soul Martial Spirit was controlled by her spirit, which then started to analyze the transformation of the Meteor Array. The Soul Martial Spirit then realized the miraculous movement of the Meteor Array.

All the people of Pan Zhe stood outside the Meteor Array. Not a single person dared enter.

Cao Zhi Lan who had been using the Soul Martial Spirit for a while, suddenly burst into laughter, slowly stood up, and then said, "With the Meteor Array, you can either go to the left or to the right. As long as you do not make a wrong move, the meteorites cannot attack you. Well, if you choose go on the left, move seven steps to the left, then five steps to the right, and vice versa. You can move to the right seven steps, then to the left five steps, and then you can get out of the Meteor Array."

"So, should we go to the left or to the right?"

Gu Ling Long knitted his brows and irritatingly said, "Inside the Meteor Array, there are two sure ways out, which may possibly lead to two different areas. Our target is the Yang family, so we should first figure out the direction of the Yang family, and only then will we be able to pursue them."

Cao Zhi Lan calmly asked, "How can we know the path that the Yang family had taken?"

Xie Kui's face darkened with a murderous look in his eyes, "Yang Mu is easy to deal with. If he isn't already dead, he will surely find a way for revenge. If we fight with the Yang family, we cannot let them have a single chance of survival, we simply cannot let anyone live! When Shi Yan and I had fought, I recognized that he had vigorous Flame power. I had just used my Soul Martial Spirit recently and discovered that there was a very strong movement of Flame power on the right."

Cao Zhi Lan faintly smiled, "Maybe Shi Yan is on the way out on the right. Yang Mu will not be separated from Shi Yan. If Shi Yan is there, the Yang family will be there too."

"Good, we'll follow the way on the right then." Pan Zhe nodded, and spoke to warriors of the Penglai Divine land who stood behind him, "Remember carefully of Miss Cao's words, once entering the Meteor Array, they were to first move to the right seven steps, then to left five steps, not daring to make a mistake."

"Ok, I'll lead" Cao Zhi Lan calmly entered first.

In the middle of the immense and oppressively hot desert.

A figure with their arms and legs up, like a dead squirrel, slowly breathing and exhaustively tired. Many different powers started to recover inside of his body and the negative emotions inside of the meridian silently scattered out.

The desert temperature was scorching, but there was no sun. The sky was vivid red, like the color of fresh blood

Looking around carefully, there were uneven dunes out there. There was no signs of life, no greenery, and no sound whatsoever.

A flaming power stream flew out from the ring, flying around flexibly in the heated desert. It seemed to signal something.

"This place makes me uncomfortable" A flow of cold flames from the Blood Vein Ring circulated around. "This strange atmosphere has scorching powers, the air blast seems to belong to the sun, but there is no sun, I do not know what is going on..."

"This is somewhere in the area of the Chasm Battlefield. Ugh. Strange indeed. The earth flame seems to like this place very much so. After coming here, he seems to be happy" Shi Yan replied.

He was kicked out by the old array technique, and fell down in this vast desert. He did not have any other old array technique.

His whole body was injured, he did not have anymore energy to explore this mysterious place. He then laid on the ground without moving, silently recovering. "Um, we cannot see the sun in this place, but there is still the intense power of the sun, very strange indeed."

The ice cold flame was musing for a while before it suddenly said, "This place is very suitable for your Refining Technique, you can rely on the mysterious power here, use the Earth flame to keep practicing the Refining Technique, this will help your body become stronger."

"Recover first then we will see." Shi Yan did not refuse and smiled miserably while looking up to the sky. He stopped talking to the ice cold flame, and focused on slowly recovering.

After taking the Refining pills, the power spread out and combined with his profound Qi. Without using too much energy, his profound Qi was getting stronger by the minute and the consumed Qi was replenished quickly.

Refining pills were a marvelous drug which restored profound Qi. Refining pills were treasured in the Endless Sea, only powerful warriors could take them whereas normal warriors did not have enough ability to be able to consume the Refining pills.

The therapeutic power of the ten Refining pills was enough for the profound Qi of a warrior at the Earth level stage to restore quickly. For Shi Yan, who had only the Disaster Realm peak, the effect of these ten refining pills was more than enough.

The profound Qi was silently concentrating, Shi Yan relaxed his mind, and started to realize the strange things that was happening inside of his body.

The injured body, was recovering rapidly under the effect of the Immortal Martial Spirit. Bones, which had been destroyed by the meteorites, were strengthened every minute; broken blood vessels were healed in a very short time.

A normal person would have needed a few days to recover, but he only needed a few minutes.

Inside his meridian channel, a flow of air quickly circulated and filtered the energy, which had been refined by the Mysterious Martial Spirit. So that it could be absorbed directly.

However, negative thoughts appeared, and silently disturbed Shi Yan's mind, pulling him down to the deep dark abyss.

This time, about ten warriors had died inside of the castle.

As a result of the death of the ten Earth level stage warriors, their energy was now being transferred into him. Negative feelings created from refining this energy was enough for him to lose his mind and go insane.

After slowly sensing for awhile, he realized that it was not easy to stay strong-minded. Shi Yan contemplated for a moment and decided to hide behind the dunes.

Places that he went, others could also find out. If Cao Zhi Lan's warriors came while he was refining the energy and got crazy, it simply would not be safe.

After spending some time recovering, his body was restored a little bit. He then released the Finger Gun. His ten fingers were then like ten sabers arising out of the sand, making way for him to get into the dune.

The Earth Flame flew around outside, it seemed to sense Shi Yan's intentions and stopped careening before his body disappeared behind the dune. Shi Yan, once again, immersed himself in the Blood Vein Ring.

Holding his breath, Shi Yan went ten meters inside the dune until his whole body was covered with sand and could not move any further, he then stopped.

Not long after that, the refining meridian channels reached to the key point of time. He finally could not resist the persistent negative thoughts and started losing his mind.

Deep down, ten meters inside the dune, Shi Yan was struggling with all the sand enveloping him, the pressure of the sand on him made it impossible to utter a single word.

The sand became a natural chain that temporarily binded him.

Shi Yan then lost his mind and wriggled about mindlessly. He could not think of using the Finger Gun to claw his way out...he only kept struggling inside of the dune, squirming about mindlessly.

A long time had passed.

Shi Yan's struggle weakened and he stopped yelling. All strange energy silently flew out from his meridian channels, spreading to every corner in his body.

Shi Yan gradually lost his perception and did not realize that his body had transformed. He unwittingly had let strange energy run inside of his body, pervading his arteries and bones.

Time had slowly passed.

Shi Yan suddenly woke up after a long time. He immediately realized that his exhausted body started to gain its full power back.

No matter if it was the profound Qi or his own body, both fully recovered to the max, and it couldn't be better.

"Oh?" The light of profound Qi on his belly kept condensing and shrinking. Although there was no one conducting it, the light of profound Qi was refining quickly.

Following the light of profound Qi, every corner of his body was acting like sponges, drawing on the profound Qi energy which was flowing out from the light.

Shi Yan's consciousness ran around his whole body inside out, his mind was suddenly omniscient.

Right after that, an exciting smile appeared on his face. He then started to relax his spirit and depended on the transformation to move the energy from the light of profound Qi to his body.

Harnessing the power from that energy, his arteries became sparkingly transparent, like a miraculous delicate jade.

His arteries were changing and gradually expanding whenever profound Qi flew in.

Expanding arteries helped profound Qi move faster inside of his body. Which meant that his capacity for profound Qi was much higher. His body movement was also even quicker.

The allobiosis of arteries was the best visual sign to see when the stages of Disaster had broken through to the Earth level stage.

God of Slaughter

Chapter 232: The Earth Realm

Inside the dune.

Shi Yan's entire body luminesced dazzlingly since his tendons and vessels had been overwhelmed with the bountiful Profound Qi which made his vessels sleek and smooth. As a result, the veins on his body were also developed, enlarged, and became much sturdier.

The running speed of the Profound Qi was getting faster while the flow of the Profound Qi kept moving nonstop then branched forth, pouring into the blinding rays of the Profound Qi light.

The Profound Qi's light on his belly was continually being depressed and refined as it had propelled the stored energy inside of that ray of light so that it kept on increasing, which was the result of that peculiar strength.

That fantastic strength was released from his meridians which had then promoted the miraculous effect of the Profound Qi light. Thanks to this mysterious effect, the Profound Qi light kept on being condensed and refined nonstop, and it didn't seem to stop even though it had already tripled in size.

As the vessels had been enlarged and hardened, Shi Yan's body seemed to be bloated, swarmed by heavy sensations of pain. However, the pain that ensued from the bloating was nothing compared to the hardship of the martial arts cultivation.

Shi Yan held his breath as he was initiating the realm of his meditative state while his entire body and mind were concentrating on the process in which the Profound Qi light was transforming his body.

"Ah!" said the Ice Cold Flame, as it suddenly sent out a message from the Blood Vein Ring, "Are you going to break through the Earth Realm?"

"Yes, that's right."

"Very good...very good..!" the Ice Cold Flame displayed a wicked tone, "You have already obtained another Flame. If you use the burning fires of the Earth Flame to temper your vessels during your cultivation, your vessels will be more tenacious and resilient. As long as you can withstand this arduous cultivation, the circulation speed of the Profound Qi in your vessels will be much stronger than that of the other ordinary Earth Realm warriors that have been trained with the same martial art techniques as you have, which naturally means that you will be quicker than them when performing such techniques, so... what do you think of this?"

Shi Yan's eyes had suddenly brightened up as he exclaimed, "Not a problem at all. I am connecting with the Earth Flame now. You don't have to do anything this time. Anyway, you are in the confinement area of the Blood Vein Ring, and the communication between the Earth Flame and me is no longer difficult as from before."

"That's good since I can't use my strength either way for now, so I will not be able to help you. Alright, after using the Earth Flame's power to temper your body, you still have to be on the alert and try not to

be too harsh because the Earth Flame is now equivalent to the Heaven Flame; its heating power can easily burn you down into ashes. Remember this carefully; you have to carry on just one step at a time.

“I got it.”

Shi Yan then moved his consciousness from the Ice Cold Flame toward the Ten Thousand Year Earth Flame’s direction in the Blood Vein Ring, sending a clear message that he wanted to ask for the support of its heating power to temper his body.

The Earth Flame could not send out a visual message, but it still displayed its excitement and joy. As soon as the Earth Flame showed its emotions, Shi Yan immediately realized that many scorching energy fibers had shot out from the Blood Vein Ring and were now running along his finger toward the vessels inside his body.

The torment from being burned by the burning fires had been spreading all over his body as his original face in being total comfort had now become fierce.

He gritted his teeth and took a deep breath before urging the power of the burning fires so that it was dispersing into the vessels in his body. Right after the Earth Flame’s burning fires had thoroughly penetrated into his vessels, the once bright translucent vessels were now turned into the brilliant colors of a fire crystal.

At the same time, when the Earth Flame’s burning forces had seeped into his body, a tiny trace of a black impurity which was instantly incinerated into ashes by the Earth Flame’s burning fires appeared in the vessels under the constant incineration Flame’s burning fires and was then expelled through his pores.

Absorbing a few impurities was inevitable when his vessels were developing, as the existence of impurities would have certainly affected the resilience and plasticity of his tendons and vessels. Normally, after having broken through the Earth Realm, the warriors would usually be so overwhelmed with joy that in the majority of time, they hadn’t noticed the appearance of the impurities as their vessels were being enlarged.

Even though they had known that the impurities would have also appeared while their vessels were being developed, they had no solutions to avoid it.

However, these peculiar body refinement martial arts techniques could have easily taken advantage of the Heaven Flame’s power to purify all the impurities that were left in Shi Yan’s body, as well as enhance his vessels’ resilience at the same time.

Anyway, body refinement martial arts techniques were originally used to temper magical weapons since each magical weapon needed to have gone through thousands of tempering and purification processes for the purities to be removed so that the weapons would dominate the battlefield without being defeated by superior weapons.

“Alright.” as the Earth Flame was pouring more and more scorching forces into his body, Shi Yan could feel that even his vessels would have burned down, so he hastily sent out a message to ask the Earth Flame to stop. Thus, the sweltering power of the burning fires from the Earth Flame was then silently ceased.

Releasing a long sigh, Shi Yan stopped thinking and then put his mind in the Ethereal Realm, sustained his restful mind, and suffered the pain from the heat's movement inside his vessels as he gritted his teeth while being on the alert.

He gradually relaxed and enlarged his vessels, receiving many streams of the Profound Qi that were massively flowing into his vessels like surging tides. After a while, his vessels had quietly absorbed a lot of the Profound Qi, which resulted in the decrease of the Profound Qi that were now moving inside the vessels.

The Profound Qi also blended with the peculiar strength that had been refined by that Mystery Martial Spirit. This strength seeped deeply into Shi Yan's vessels, amending and soothing his painfully cracked vessels a little bit.

He could clearly feel this peculiar strength's existence which seemed to make his vessels sturdy and resilient. As long as these mysterious forces ran inside his vessels, he could instantly have a miraculous fantasy that his vessels would never break.

The Mystery Martial Spirit was marvelous indeed.

Time quickly passed by.

After an unknown duration of time, his vessels had stopped enlarging. Since right now, they were like a fire crystal that flared up the heart-stirring glowing red light. When the power of the burning fires had gradually vanished, and the red light also faded away, his vessels were finally recovering, little by little, as they regained their normal state.

The Profound Qi halo on his belly shrank to the peach-like size, radiated sparkling light which contained powerful energy fluctuations.

After going through this refinement, the Profound Qi had been increased five times more than before.

Shi Yan's mind flickered as the Profound Qi was suddenly poured into his vessels, inducing the moving speed of the Profound Qi inside his vessels to be tripled so that the vessels' capacity for the Profound Qi had also increased significantly.

Shi Yan then comfortably released a Life Seal.

The handprint was sparkling with seven beams of lights because it was now big as a basin, compared with the normal palm-size from before. He suddenly launched the strike, zooming up above his head.

As soon as this Life Seal was released, it pierced through the ten-meter-tall dune above his head like a magical weapon, breaking the dune, opening up the glowing red sky outside.

The sky was as red as fire; the atmosphere was sweltering, and everything was the same as before.

Shi Yan beamed a faint smile as the vessels on his feet suddenly produced an explosive sound, and his body then instantly moved like lightning, soaring aloft.

Standing on the dune, bowing his head looking down at the sand crater, and Shi Yan saw that his illusory figure had gradually disappeared.

After breaking through the Earth Flame, the speed of his martial arts performance would be several times faster than before, and thus his strength must have also skyrocketed as well.

Previously, he hadn't been skillful in changing the phantoms. However, as he had just reached the Earth Realm, he could now arbitrarily perform it.

Looking up to the sky, Shi Yan gradually restrained his joy as he then searched inside the Blood Vein Ring for a while before taking out the Sound Stone, trying to make contact with Yang Mu's group.

However, there was no response after his voice had been transmitted into the Sound Stone. It seemed that the Sound Stone wasn't working anymore.

Shi Yan's face became grave while he tightly knitted his eyebrows. He then tried again to transmit his voice into the Sound Stone, hoping for a response to come out. Regretfully, it was unknown whether because of the situation or other reasons that the Sound Stone didn't have any reactions.

Eventually, Shi Yan had to accept that he had lost contact with the Yang family's people.

In the vast Chasm Battlefield, being an outsider as well as without the Sound Stone's intercourse, he had no way to find Yang Mu's group. In this immense desert, his soul consciousness couldn't detect any living fluctuations; there was no the sun nor the moon nor the stars. He couldn't find the direction to move forward, didn't know where the road ahead led.

Shi Yan suddenly felt a little unconscious.

A small crimson red flame was quietly flying out of the Blood Vein Ring, gathering on his chest, joyfully dancing and jumping.

"You're going out again?" Shi Yan forced a smile and temporarily forgot all about the unknown directions. He then used his soul consciousness to send out a message to ask with excitement, "So? Do you probably know the direction? Hmm, I still don't know which way to go. If you have any suggestion, I will follow you."

The Ten Thousand Year Earth Flame beautifully flickered in the air like a fire wizard and then concernedly retrieved most of its flame power to reduce the heat that Shi Yan was unlikely to endure.

After having received Shi Yan's message, the Ten Thousand Year Earth Flame didn't waste more time and proactively led the way.

Without the sun, the moon, and the stars, Shi Yan couldn't clearly identify the direction, though he just vaguely felt that the direction that the Earth Flame was heading towards was the hottest place in the desert.

"Ok. I am going with you." Shi Yan revealed a smile and nodded. He joyfully followed the Earth Flame, heading with it towards the direction that it was leading him without overthinking.

It was still early anyway and even if he had to stay in this Chasm Battlefield for three more years, temporarily losing his direction was not a terrible thing. Thus, he was not too anxious.

...

Under the red fire sky.

In this endless desert, many beams of light flashed up in different areas at the same time.

Besides Shi Yan, Cao Zhi Lan, Pan Zhe, Gu Ling Lung, Xie Kui, Qu Yan Qing, He Qing Man, and almost a hundred of the other warriors that had also arrived at this desert. Although they had entered that Ancient Formation as a group, for some reason, they had been transported to different areas.

Pan Zhe, Cao Zhi Lan and more than ten other warriors who didn't belong to the group of the two of them that had been moved to the same area. Meanwhile, Gu Ling Lung and Qu Yan Qing had been transferred to another totally different area. Meanwhile, Xie Kui and He Qing Man, who were always together, had appeared in two different but close areas; they then quickly found each other.

Many of the Earth Realm warriors, who had also been scattered in different areas of this immense desert, were mentally fatigued since they couldn't identify their coordinates because they didn't see the sun, the moon, or the stars.

Like Shi Yan, those who had arrived at this peculiar space couldn't use the Sound Stone to make contact with anyone. In this place, the sensing forces of the soul consciousness were dramatically weakened, and thus their sensing powers were also very feeble.

Therefore, once falling into this place as well as being unlikely to find other companions, when the warriors realized that both the Sound Stone and the sensing power was of no use, they were all in a daze like Shi Yan, without knowing any directions or where to go first in this boundless desert.

The feeling of losing their purposes had dispirited them severely.

After having arrived at this place, as those pursuers all realized that it was very hard to find their target as well as the way to go back, they all had a toneless look on their faces.

Chapter 233: Killable

"Miss Cao, your Spirit God Martial Spirit is always miraculous. Can you find out the location of Shi Yan and the Yang family from here?". On a dune, after having tried the Yin Jade as well as failing in releasing the spirit power, Pan Zhe dispiritedly asked Cao Zhi Lan in the end, setting his hope on this woman.

Cao Zhi Lan's eyebrows slightly slammed together. She closed her eyes and silently sensed around for a while before opening her eyes again and gently shaking her head. "I can only feel some special power fluctuations in a particular range. I think the Yang family's group has been out of the range right now, and thus I can't identify their direction".

"As what you said, staying here means that we all get lost?" Pan Zhe shook his head and burst out laughing. "This damn place doesn't even have the Transfer Formation to go back. Would we get stuck here forever?"

"I don't want it either." Cao Zhi Lan's face was indifferent. "Although we don't know how big this place is, we can continue searching around and probably find out some unusual things. The one who has created this place couldn't just leave no trace. Hmm, I need a little bit time".

"Being in the same place with Miss Cao is my honor". Pan Zhe eagerly said, his eyes slightly brightened.

Cao Zhi Lan did not reply and started searching for the unusual traces. A strange light flashed up again from between her beautiful eyes.

"Ge (Chinese way to call an older brother), what should we do now?". Both He Qing Man and Xie Kui were standing on a dune.

There were the other five Earth Real warriors of the Evil Wonderland surrounding them. These five warriors, together with the other two, were also lucky to be transferred to this place.

The five warriors were besieging He Qing Man and Xia Kui in silence, preventing the warriors of other groups from overhearing their conversation.

Xia Kui coldly harrumphed and replied with a somber face and cold eyes, "You ask me, and then I ask whom?"

"Ge, you weren't like that before." He Qing Man was a bit upset. Her beautiful face looked like she wanted to cry. "I remember that you have loved me a lot before. Why are you treating me like this now? Why?"

Xia Kui's look was cruel. "You don't know?"

"Not at all." Under Xia Kui's fierce gaze, He Qing Man. She was startled, timorously stepped back, but still tried to show her stoutness.

"When we had arrived the Sky Sea, you insistently refused to come here. Since then, I figured out your innermost feelings that you are not heartfully with our Evil Wonderland. However, I still did not expect that you could recklessly act like this! The fight between you and Yan Xue inside the Palace was just a game?". Xia Kui suddenly shouted after finishing his last sentence.

He Qing Man's soft body trembled. "Brother, you could recognize it?"

"Yes!" Xia Kui laughed coldly. "Not only did I realize it but I also knew that you did not even use the Martial Spirit. How much energy did you use? You think Cao Zhi Lan, Qu Yan Qing, and Pan Zhe are all stupid? They just don't want to be nosy. If this is spread out, your honor and the Evil Wonderland's reputation will be destroyed! I don't want people to say that we, the Evil Wonderland, still have any relation with the Yang family!"

"Ge, the relationship between Yang... Yang Xue and I have always been good; I could not kill him". He Qing Man shook her head; her eyes were red.

"This is war! You are not allowed to let your personal feelings disturb you!". Xia Kui's face was cruel and wicked. "You did not use all of your energy on the last shot to defeat Shi Yan. You and Yang Xue might be close, but this Shi Yan, how come you still could not defeat him? I doubt if I should continue having you with us. Will it be a wrong decision or not?"

He Qing Man gritted her teeth as she could not deny it.

"I can let go of what happened, pretending that I didn't see it. But if it happens again, don't blame me for being heartless". Xia Kui coldly continued. "Remember, the Evil Wonderland is involved in this war. From now on, every one of the Yang family is our mortal enemies. It will never change. You and I are

both outstanding warriors of the Evil Wonderland, everything we are doing now is for ourselves, do you understand?"

He Qing Man bowed her head and said nothing.

"You should think about it yourself. I've said what I should say; I hope you won't disappoint me next time. If it happens again, we are no more brother and sister, and I will be the first one who punishes you!". Xia Kui flipped his sleeves and left with a cold face. He considered the future of the Evil Wonderland to be his, catching and killing the Yang family were his compulsory oath.

Anyway, with the importance of the Evil Wonderland in the Kyara Sea, once the Yang family recovered its power and wanted to take revenge, the first ones they would kill were them.

A stream of the red burning fires drew a beautiful curve. The flames sparkled everywhere, that fire halo moved faster and faster.

Behind the red halo of firelight was a huge figure, which looked like a dead spirit and was as fast as lightning. He followed the halo of firelight and kept the distance of ten meters from that halo all the time.

While the Earth Flame was flying fast in the air, the supreme burning fire power uncontrollably spread out. Shi Yan also felt unbearable with that burning power.

The ten-meter distance was the maximum that Shi Yan could bear, the limit he could do.

If shortening the distance with the Earth Flame, that burning firepower would make him hardly breathe. Because the burning fires penetrated into the Profound Qi in his body, it proactively released the opposing forces to resist, which would consume a lot of his profound Qi and exhaust his body very fast.

Therefore, ten meters was the most suitable distance for him to break through to the Earth Realm. Shi Yan felt that the forces inside his body had gone through an earth-shaking transformation. This change was not simply an increase in the number of the forces but also an enhancement of his knowledge, his energy, his profound Qi. Everything had jumped to the new Realm.

He could now skillfully control his profound Qi. His soul consciousness seemed to be present in each flow of the Profound Qi. When his mind flickered, the Profound Qi from every vessel of his body would quickly spread out and transformed into a shape that he wanted.

The profound Qi stopped struggling and became easily controllable.

As long as his mind could imagine and his spirit could take control, the Profound Qi would be able to condense and transform into many marvelous desired forms immediately, no matter if they were birds, trees, nunchakus, weapons, etc... The bird which was created by the profound Qi could deliberately fly in the sky, plants and trees could be vivacious, weapons could be incredibly vigorous and firm. The Earth Realm was a process of clearly understanding the forces inside the body. In the beginning, the profound Qi was only one of many energies inside his body. Now, the Profound Qi became an expansion of his body, a part of his body, the core of the power, and also the holy spirit on which he could rely.

"Is it still far?". Shi Yan sent out the message while his body was quickly gliding on the sand. He suddenly stalled, took out some Refine Pills and swallowed them all. After this, he continued moving forward but

with the slower speed while both gliding and waiting for the pills' therapeutic effects to spread out all over his body.

In the Chasm Battlefield, Refine Pills were the simplest and the most efficient way to restore the profound Qi. Anyway, the Sky and Earth spiritual auras here were extremely diluted; it should take ten times longer to recover the Profound Qi here than in other areas. As soon as the Earth Flame realized Shi Yan's speed was decreasing, it also slowed down, transmitting its happiness and eagerness.

"Is it very fast?". Shi Yan stopped and released his soul consciousness to search around carefully.

His soul consciousness was like rippling waves which were hindered by this strange space. They could not move as comfortably as they were outside. The spreading speed of his soul consciousness was also slower several times; the covering range was also smaller dozens of times.

"Oh? There are traces of beings!". Suddenly, the ambiguous living vibrations appeared from the remote area where his soul consciousness was exploring. These vibrations evidently belonged to the Earth Realm warriors. Shi Yan's spirit was convulsive. His instinct told him that it was probably Yang Mu's group. Or even if it wasn't Yang Mu, as long as they are adventurers, he still could exchange information, asking them where he was and how to get out of here.

It was unknown how long and how far he had been following the Earth Flame in this area. He had doubts about this place and was lonely for so long. He wanted to talk to someone.

"You come back here first. Slow down a little bit. I will go over to see some people." Shi Yan sent out a message. The Earth Flame twisted involuntarily, and slowly got into the Blood Vein Ring afterward. The Earth Flame was the Heaven Flame which was incredibly powerful, but it still not evolutionary yet. Even if it finished the evolution, there were still many other existences that could dominate it. Otherwise, the Ice Cold Flame shouldn't have been imprisoned many times.

There were many miraculous precious treasures in this world which prevented the Heaven Flame from fleeing. For example, he could take advantage of the Soul Gathering Pearl to make the soul of that Demon Master separate from the body. There were also some other miraculous treasures which could capture and confine the Heaven Flames. Therefore, the Earth Flame was safe when staying inside the Blood Vein Ring.

After the Earth Flame had gone inside the Blood Vein ring, Shi Yan retrieved his soul consciousness that he had released. He then followed the guiding direction of his soul consciousness and kept moving toward the target.

After half an hour, Shi Yan quickly moved behind a dune all of a sudden. He extruded his head out of the dune while squinting and looking toward some people in the distance who were approaching to where he was now.

Shi Yan could easily see people coming from behind the dune. However, as the distance was far and he only extruded his head out, it is hard to see things. Shi Yan was not hasty and still kept waiting.

Finally, he recognized a beautiful figure in a firing-red armor among those people. Although he couldn't see her appearance, he was confident that prominent appealing body was He Qing Man.

After having realized He Qing Man, Shi Yan fixed his eyes on the other people behind her. He then recognized Xie Kui according to his old memory.

After attentively watching for a long time as well as releasing his soul consciousness once again, he could identify Cao Zhi Lan, Pan Zhe, Gu Ling Long, Qu Yan Qing, those who were the famous outstanding warriors on the combat list. They did not accompany Xie Kui's group.

His soul consciousness was like the Heaven eyes which helped him gradually realize the real abilities of that group of people. Shi Yan slowly retracted his head, activated the Finger Gun to bury himself under the dune. He slowed down his breaths and started to hide all of his body's auras.

There were total eleven Earth Realm warriors including Xie Kui and He Qing Man and no Third Sky of the Earth Realm warrior. I can kill them!

The sky above the endlessly immense desert was red. It was sweltering.

A line of eleven warriors was slowly moving in the scorching desert. Xie Kui was leading while He Qing Man lagged far behind from him.

The warriors of the Evil Wonderland gathered around Xie Kui, ignoring He Qing Man. As they seemed to know who was going to be the future Master of the Evil Wonderland, they decided to follow Xie Kui after the dispute between Xie Kui and He Qing Man without making any attempts in mediating the conflict between Xie Kui and He Qing Man.

He Qing Man with her appealing body was far behind alone. Her gorgeous face looked worried.

"Remember, in the fight with the Yangs this time, if He Qing Man continues not using her full power, you guys can detain her so that she won't be our encumbrance." While leading with a cold and gloomy face, Xie Kui lowered his voice commanding the following warriors of the Evil Wonderland.

"Yes, sir!". They nodded and quietly looked at He Qing Man far behind with meaningful eyes.

He Qing Man's beautiful eyes had a dull look. She apparently knew that her fellows kept their watchful eyes on her, but she couldn't do anything. At this time, she regretted not leaving the Chasm Battlefield and returning to the Kyara Sea sooner. She did not want to be part of this anymore.

However, no one could find a way back. Going back alone without being sure about the direction was dumb.

Although she was in a dead-end situation and knew that Xie Kui and his fellows wouldn't be nice to her, she had no choice but follow them.

A patrol of eleven warriors was moving forward to a dune. Five warriors of the Evil Wonderland were closely following Xie Kui and considered Xie Kui's command as their mission.

The other warriors who belonged to the Penglai Divine Land and the Heaven Lake Divine Land did not talk too much either. They silently followed Xie Kui, hoping that Xie Kui would help them find their other fellows and a way to get out of this devilish desert.

"Boom boom."

Suddenly, a big explosive sound came up from the dune in front of them.

"Swoosh swoosh swoosh."

A screeching tornado suddenly appeared and quickly approached them. Golden-sand engulfed the entire sky, six massive whirls completely covered this area. No one could see anything in this thick golden-sand mist.

A warrior was pulled into the howling tornado and was twisted by the golden-sand without being able to move.

"Who is it?". Xie Kui shouted. A small long snow sword instantly emerged from his wrist.

The hilt of this sword suddenly generated a dazzling yellow halo. As soon as Xie Kui launched a slash, many different points of light spread out from the inside that dazzling golden halo, forming a beautiful curve, going into the dune in front of him.

"Bang!"

A figure emerged from the dune all of a sudden and quickly dashed towards Xie Kui, crossing those yellow lights.

"Shi Yan!" Xie Kui's face slightly changed. He suddenly burst out laughing coldly and said, "It's good that you are here! I was worried I could not find you! You voluntarily come out; you really want to die!"

Right after finishing his words, Xie Kui's body slightly leaped up, retreated into the dune and disappeared without a trace.

After Xie Kui's disappearance, another warrior was tightly tied up by the tornado that was formed by the Gravitational Field in the desert. The convoluted force in this field did not allow that warrior to move. He could only scream out from the inside of that tornado while the profound Qi speed in his body was getting slower as well.

The screech of the howling wind came up. He Qing Man, who lagged far behind, also lunged towards Shi Yan like a strong wind.

There were full of complicated emotions in He Qing Man's eyes. However, she wasn't hesitant to launch the attacks toward Shi Yan. As soon as her appealing body leaped up, many sharp wind blades plunged out and created strange screechy sounds in the air.

At the same time, Xie Kui extruded his head out of the dune where he was hiding. His snow sword discharged a dazzling yellow streak of light.

An earth dragon made of golden sand suddenly flew out from the dune. Many golden sand walls also extruded next to Shi Yan.

"Shi Yan, my Martial Spirit can control soils and sand. Killing you here is as easy as turning my hand over." Xie Kui coldly smiled and continued, "You should have died sooner! Who are you to have Xin Yan's attention? Only I who is the future master of the Evil Wonderland deserve to have a beautiful lady like Xin Yan! You don't deserve her!".

Shi Yan was standing motionlessly with a cold face in the middle of the golden-sand. His look was cold-hearted.

He Qing Man's wind blades darted towards Shi Yan, striking his face. However, he kept standing motionlessly.

After all of the wind blades had pierced through Shi Yan's body, He Qing Man realized that they had shot his shadow only.

Xie Kui's eyes shrank with fear. He recognized that his golden-sand Earth Dragon, together with those walls, had made Shi Yan's shadow to be the attacking target. The real Shi Yan had already stayed away to avoid the attack.

"I wanted to fight with Xie Kui only, right inside this dune. You should not be involved".

After Shi Yan raised his eyebrows and flickered his consciousness, an invisible Gravitational Field swept over from his right and instantly detained He Qing Man's sexy body.

At the same time, another Gravitational Field silently approached Xie Kui and also tightly tied him up all of a sudden without giving him time to take precautions.

"Ah."

Activating the Electric Shift, Shi Yan plunged to Xie Kui as fast as the lightning.

"As soon as my legs touch the ground, this thing of yours doesn't affect me." Xie Kui frigidly laughed while his body went back into the dune again in a blink, escaping from the confinement of the Gravitational Field.

Xie Kui had two kinds of Martial Arts: The Tree Spiritual Martial and the Earth Spiritual Martial. As long as his two legs remained on the ground, he could comfortably hide inside the earth. It was not easy to defeat him except that one was capable of killing him after one strike only.

Although Xie Kui had already disappeared into the sand, his voice still came up from underneath, "Shi Yan, I will cut your head off, I will keep it until I see Xin Yan again. I will take your head and give it to her. Is it interesting?"

Shi Yan was standing on the dune with an ignorant face while quietly urging his negative forces.

Right after the three big demon mirages which were condensed by the negative forces suddenly appeared, they immediately dashed towards the warriors who had been tied up by the tornados.

Shi Yan stood still on the spot, closed his eyes, seeming to wait for something.

Out of Shi Yan's expectation, Xie Kui didn't care to save his fellows who had been in the confinement of the Gravitational Field. Instead, he still stayed hidden inside the dune and quickly moved to Shi Yan's feet in silence.

A cruel smile beamed out from the corner of his mouth. A harsh light flashed up and instantly disappeared in his eyes.

No matter how Xie Kui could imagine, he would never believe that Shi Yan had successfully formed the sea of consciousness. In a particular range, no living movements could escape from the vision of his soul consciousness.

Xie Kui kept himself completely hidden inside the dune without exposing any part of his body. Therefore, it wasn't easy for Shi Yan to catch and kill him although Shi Yan could identify his location. However, if Xie Kui wanted to attack Shi Yan, he had to expose himself, and this was a good chance for Shi Yan.

"Boom boom boom."

A big sound reverberated right under Shi Yan's feet. A bunch of earth clubs emerged from underneath the sand. Shi Yan's body kept swaying and swinging in the middle of those earth clubs and then suddenly cast out toward one direction.

Inside the dune, Xie Kui quickly moved to the place where Shi Yan would land and patiently awaited. As soon as Shi Yan descended, he would instantly burst through the sand and launch one single powerful strike to kill him.

While Shi Yan was still in the air, many energetic seals, one after one, were condensed and released from between his two hands. The Life Seals and Death Seals had already stacked over each other even before his feet touched the ground.

The Life and Death Seal pounded straight down on the ground.

"Boom."

A terrified explosive sound came up from the place where Shi Yan was going to land. When the explosion resounded, a figure was knocked straight out from inside the dune; even that snow sword was also struck away that figure's hand by the great Life and Death Seal.

After Shi Yan had landed, he stretched out his hands grabbing the hilt of Xie Kui's sword and then activated the Electric Shift dashing towards Xie Kui like an electrical current.

The corners of Xie Kui's mouth were full of blood. After having been hit by one full-power strike of the Life and Death Seal, his body was injured. If there wasn't the protection of the earth armor, his body's system should have had completely crushed into ashes by this Life and Death Seal.

Seeing Shi Yan approaching as fast as the lightning, Xie Kui hurriedly used his old trick going back inside the dune.

As soon as one of his feet touched the ground, Shi Yan quickly glided over and lifted his left foot stepping on Xie Kui's right foot. Xie Kui felt extremely painful on his right foot before he was about to disappear underneath the sand.

Although he still tried to hide into the sand, he now realized that the sword had pierced through his other foot.

"Run? You still want to run?". Shi Yan's eyes looked cruel, and his face was brutal. He was staring at Xie Kui while coldly laughing.

"You! You!". Xie Kui's face dramatically changed. Shi Yan was still firmly stepping on his left foot. The sword pierced through Shi Yan's left foot first and then through Xie Kui's right foot. Their left and right feet both stuck together.

To prevent Xie Kui from hiding into the sand, Shi Yan had daringly speared the sword through his right foot.

"Boom boom."

As their feet had been pierced through together, Xie Kui and Shi Yan were now in the face-to-face position. The forces inside their bodies furiously churned up, and their martial techniques were ready to be launched. A drastic fight was about to happen.

With one foot being tightly speared through, the other foot being heavily stepped on by Shi Yan's foot, Xie Kui had no way to make any moves.

At the same time, Shi Yan's Petrification Martial Spirit started to be activated. Shi Yan's entire body became as hard as iron, the Second Sky of Rampage appeared once again, the number of forces inside his body was doubled just in a blink.

"Boom."

Energetic Seals violently exploded between Shi Yan and Xie Kui. Faint yellow lights emitted around Xie Kui's body while his two hands formed an invisible Seal which created miraculous rippling waves outside his chest to protect himself from Shi Yan's attack.

"Cut my head off?". Shi Yan displayed his fierce look while freely releasing the tremendous power of the Second Sky of Rampage. The Life Seals and Death Seals were constantly striking Xie Kui's chest and destroying all of Xie Kui's opposing forces.

Shi Yan's Petrification Martial Spirit, his Refinement Body, and his body's sturdiness were some things that Xie Kui could have never acquired.

In the Second Sky of Rampage state, the forces that Shi Yan could gather was far more than that inside Xie Kui's body. Therefore, in the frontal fight like this, Xie Kui was the only one who was crushed and destroyed as he had no remaining defensive power.

"Explode!" Shi Yan crazily shouted, the Life Seals and Death Seals stacked up and struck Xie Kui's head altogether.

Xie Kui's head exploded after this strike. Skull and blood scattered everywhere. He died right away.

Chapter 234: Defeat you!

The sky above the endlessly immense desert was red. It was sweltering.

A line of eleven warriors was slowly moving in the scorching desert. Xie Kui was leading while He Qing Man lagged far behind from him.

The warriors of the Evil Wonderland gathered around Xie Kui, ignoring He Qing Man. As they seemed to know who was going to be the future Master of the Evil Wonderland, they decided to follow Xie Kui after the dispute between Xie Kui and He Qing Man without making any attempts in mediating the conflict between Xie Kui and He Qing Man.

He Qing Man with her appealing body was far behind alone. Her gorgeous face looked worried.

"Remember, in the fight with the Yangs this time, if He Qing Man continues not using her full power, you guys can detain her so that she won't be our encumbrance." While leading with a cold and gloomy face, Xie Kui lowered his voice commanding the following warriors of the Evil Wonderland.

Chapter 235: Today is better than before.

When Xie Kui's head exploded, a flock of warriors inside those tornados was also swallowed up and devoured by the three demon mirages.

After gathering the negative feelings, the three demon mirages inside the Gravitational Field could submerge those Earth Realm warriors in the craziness after only one strike and then easily took their lives.

The ability of these Earth Realm warriors of the Kyara Sea was no exceptional. They did not have the Martial Spirits nor secret weapons nor peculiar defensive forces, and the Gravitational Field was also confining them. They were just like a chamois waiting for being butchered.

Xie Kui's soft body without the head fell. A stream of spiritual power flowed out and went into Shi Yan's meridians.

"Swoosh."

While one of his hands grabbed the big snow-white sword and drew it out from his foot, Shi Yan looked at Xie Kui's body without the head and cruelly said with a sarcastic tone, "You dared to fight hand-to-hand with me. You deserve to have a terrible death like this!"

With the Petrification Martial Spirit and the Immortal Martial Spirit continually being practiced and tempered, the sturdiness of Shi Yan's body was not something that other warriors could ever imagine. None of the same level warriors could defeat Shi Yan in a hand-to-hand fight.

With the effect of the Immortal Martial Spirit, his pierced foot started recovering little by little.

Shi Yan urged the Electric Shift again. He went into the tornados, standing inside them. His Mystery Martial Spirit absorbed all the spiritual powers which were massively flowing out from the dead warriors' corpses.

The Gravitational Field which was confining He Qing Man shrank all of sudden. As the golden-sand had blocked her vision, she didn't know what had happened. Thus, as soon as she saw Shi Yan, she instantly launched the attacks again.

"Enough!" Shi Yan frowned and shouted. "Everyone is dead. You still want to fight?"

"Everyone is dead?" He Qing Man's beautiful eyes were confused. "Where is my brother? You are not capable of defeating him. His Realm is higher than yours; he can also easily hide into the sand. You are not his opponent."

"Are you talking about Xie Kui?". Shi Yan pointed at the body without the head into the distance. "He is over there. Except for you and me, there is no one alive here".

He Qing Man was frightened. Her prominent body quickly flew to Xie Kui's body.

"Ah!" He Qing Man terrifyingly screamed out loud with fear.

She dazedly stood beside Xie Kui's corpse, covering her mouth, her beautiful eyes were full of sadness. She lowered her voice and said, "He is dead, everyone is dead. The future hope of the Evil Wonderland, the pride of being the future master of the next generation has gone just like this..."

He Qing Man was stunned as if she was facing a fatal attack. She mumbled to herself with her shocked face.

Shi Yan wasn't in a hurry to leave yet. Instead, he stood motionlessly, releasing his soul consciousness to sense the living movements around.

Shi Yan didn't know that Xie Kui and He Qing Man had separated from Cao Zhi Lan before arriving here. He had thought that Cao Zhi Lan's fellows were nearby. In this fight, Shi Yan had killed everyone except for He Qing Man, but he had also consumed a lot of his power. Although he was still in the Second Sky of Rampage state, he would quickly exhaust when the counter-attack spread out.

If Cao Zhi Lan was nearby, he had to immediately retreat as he couldn't continue fighting with his current status.

He closed his eyes, released his soul consciousness and silently sensed around for a while. After being certain that there were no living movements, he felt assured and slowly walked to He Qing Man.

"Where are other people?"

"Who?". He Qing Man lifted her head up, bewilderedly looked at Shi Yan with a dark face.

"Where are Cao Zhi Lan and Pan Zhe?". Shi Yan asked again.

"I don't know." He Qing Man shook her head. "We were pushed out from that Ancient Formation and were separated. You are the first one we met since then."

Shi Yan contemplated for a while before calmly speaking, "Ok, I know. See you again next time."

"You, where are you going?". He Qing Man shouted.

"I don't know." Shi Yan stopped for a while, looking at her. "Our standpoints are conflicting. You better return to the Kyara Sea. Being alone in the Chasm Battlefield is very dangerous".

"You've killed my brother; I have to avenge him." He Qing Man sighed. "You've killed him; you can also take my life. Shi Yan, I couldn't imagine how come your power could have improved that much in such a short time. I remember that when you were in the Black Rock Island, your cultivation base was only the Second Sky of the Disaster Realm. If Yang Mu didn't save you that time, maybe you...."

Shi Yan contemplated without saying a word.

"All of them are dead. I am the only one surviving. Tell me, what others would say when they see me later?". He Qing Man revealed a sad smile.

Shi Yan shook his head and released a sigh, "You should not go to the Chasm Battlefield."

"I did not want to go there either." He Qing Man gently shook her head and reluctantly said, "It was my Master's command. If I didn't go, it meant I didn't obey the order. Not only would I have troubles but the He family would also be involved".

"Hmm, you stand in between, it was not easy." Shi Yan's face was astounded. "Maybe Yan Mu's fellows are not here. Perhaps I am alone in this place. Your group of pursuers might be on the way to come here. Currently, no one knows the way out of this immense desert or no clues of where to search. Hmm, we still should separate soon. If others find you being with me at the same place, I am afraid it is not good for you."

"Even if they don't see you and me at the same location, it is still uncomfortable to face them." He Qing Man miserably smiled. "When we were outside the palace, Cao Zhi Lan and Pan Zhe already recognized the fake fight between Yang Xue and me. If my brother and my fellows were still alive, they would have said nothing. But now I am alone; I don't know how those guys will treat me."

Shi Yan knitted his brows in silence.

He suddenly said after a while, "Anyway, because you and they are allies, they may provoke you, but they will not kill you. Don't worry, having regard for Yang Xue and Xin Yan, I will not harm you if I see you next time. I need to go now. Take care of yourself." After speaking, Shi Yan turned around and quickly left without letting Ha Qing Man have a chance to say anything more.

After Shi Yan had absorbed all of the powers of total eleven warriors including Xie Kui, his meridians currently started refining, and powerful negative feelings also started spreading out. Perhaps he would be immersed in the craziness and lose his consciousness again.

Once losing his consciousness, he only had two options, either finding a woman to give vent or binding himself and suffering the pain alone.

The relationship among He Qing Man, Yang Xue, and Xia XinYan was superb. Because of Yang Xue, He Qing Man had been mistrusted and already sacrificed a lot. Shi Yan couldn't consider her the target to whom he would give vent.

Moreover, as He Qing Man belonged to the Evil Wonderland, he could not completely trust her. He couldn't let himself be unconscious next to that lady. Very dangerous.

Leaving He Qing Man, Shi Yan quickly moved towards the hottest direction in the desert as fast as the lightning.

While moving forward in the desert, he could apparently feel that the pain on his foot was fading away, and the wound was healing little by little.

Inside his meridians, the spiritual Qi of Xie Kui's fellows was refining rapidly, different kinds of negative feelings started spreading out. Shi Yan was trying to restrain himself.

It was unknown whether because he was entering the Earth Realm or because his nerves were getting stronger that the negative feelings which were spreading out from his meridians still didn't drive him crazy yet. It was still bearable.

Except for the heavy breaths, the reddened face, and a little pain on his head, the negative feelings did not pull him into the endlessly deep abyss nor made him unconscious this time.

A long time after that.

Familiar peculiar forces spread out from inside his meridians. 720 meridians in his entire body altogether released the energy that eased his mind. With this energy moving inside the body, he felt comfortably warm as if he was soaking in a hot spring.

This time, the Petrification Martial Spirit and the Immortal Martial Spirit didn't take those peculiar forces. Instead, all of those forces torrentially poured into his heart.

The Star Martial Spirit!

Shi Yan's pupils shrank. He couldn't help but curse and immediately used his mind to control these peculiar forces' intention in changing the direction.

Regretfully, before he could do something, his heart had already released a powerful attraction force to absorb the strange powers completely.

He suddenly stopped.

Gritting his teeth, Shi Yan silently sensed his body for a while. He then discovered that even though more and more star lights appeared in his heart, there wasn't any transformation occurring. The Star Martial Spirit in his heart couldn't gather the Star powers, and he didn't know how to urge the Star Martial Spirit either. Thus, the peculiar forces pouring into his heart was such a waste.

Anyway, before he could obtain the controlling method related to the Star Martial Spirit of the Three Gods Sect, the Star Martial Spirit was helpless in increasing his forces.

"Whoosh."

After seeing no one beside Shi Yan, the Earth Flame flew out from the Blood Vein Ring again without Shi Yan's command.

Turning into a dazzling flame, the Earth Flame started leading the way, eagerly flying toward the hottest direction in this desert.

Shi Yan reluctantly followed it.

He had no target nor direction to seek in this desert. Therefore, following the Earth Flame was not a bad choice anyway. The Earth Flame might lead to an unknown way out. Perhaps the area that excited the Earth Flame could have something which also surprised him.

With this thought in his mind, Shi Yan followed the Earth Flame in silence although he didn't know what was awaiting him.

Time quickly passed.

He didn't know how long he had been following the Earth Flame in this desert, but he had already taken the Refine Pills three times because of his profound Qi being dried up. He had used all of his Profound Qi in moving in this desert, and he also had to replenish it three times. Shi Yan guessed he could have been going around in this desert for more than half a month.

This strange place had neither the Sun nor the Moon nor the Star nor the darkness, except for the glowing red sky.

After a long journey, he had shortened the distance between him and the hottest point. The Earth Flame was getting more excited; Shi Yan could even feel its soul shivering.

However, Shi Yan was getting weaker.

The closer he got to the hottest point, the more uncomfortable he could feel. Under the terrifying heat, even though the Heaven Flames had tempered his body, he still had to use more of his profound Qi to resist.

After having kept running like this for another while, when he nearly couldn't sustain anymore, the Earth Flame joyfully shouted eventually. Shi Yan saw the place for which the Earth Flame had been longing.

Translator: wuxia dream Editor: wuxia dream

A significant angular meteorite plugged in the desert.

That meteorite was generating beautiful lights. The whole object was glowing red, emitting terrifying Sun's burning fires. The sunlight was too robust and dazzling that people could hardly open their eyes.

The meteorite was like a small mountain. The majority of it was buried deep inside the dune, and only one-third of it exposed.

Blinding red light was discharging from the meteorite, and its scorching fire power engulfed the entire area. The water inside Shi Yan's body had evaporated a lot.

If an ordinary person came here, that person would be burnt and quickly become a desiccated corpse in only around one hour.

Although Shi Yan had gone through the annealing process of the Earth Flame many times, he still could feel the severe pressure which made him hardly breathe when facing this terrifying heating power of this meteorite.

There was a mysterious movement coming out from inside the meteorite. While watching the meteorite from a distance, Shi Yan immediately felt that his sea of consciousness was agitated nonstop. As he was affected by the strange power inside the meteorite, he was nearly unable to control himself, heading into that meteorite.

Shi Yan believed that once he came closer to the meteorite, as soon as his body slightly touched the burning fires next to the meteorite, he would immediately turn into ashes.

Not to mention the Earth Realm warriors, even the body of a God Realm master was not sure to remain intact under that meteorite's burning fires.

Shi Yan did not dare to take a risk, he just silently watched the huge meteorite from a distance.

The Thousand Year Earth Flame had soon flown out. When he was still startled, the Earth Flame headed towards the meteorite and disappeared into it.

Shi Yan was surprised. When he tried to contact with the Earth Flame, he realized that once he released his soul consciousness, the meteorite instantly emitted a terrifying power that violently stirred up his sea of consciousness, forcing him to retreat.

"How come?" The Ice Cold Flame's message from the Blood Vein Ring suddenly came out. It had been a long time since the Ice Cold Flame had communicated with him. As soon as it appeared, it shot out a series of icy power.

The icy power quickly surged up in Shi Yan's body, spreading out to every corner of his body. Under the effect of the icy power, Shi Yan's emotion and reckless body soon stabilized. "Oh? You can release powers?"

"Yeah, this devilish ring knows you are in trouble, so it has loosened its restraint a little bit." The Ice Cold Flame replied and kept silent again. It was seemingly releasing its spiritual power to observe around.

Not long after that, the Ice Cold Flame sent out a surprising feeling. "The Sun Refined Spirit."

"What?" Shi Yan was astonished. "What did you say?"

"That red meteorite is the Sun Refined Spirit from the center of the Sun. It is the precious Heat of the universe", The Ice Cold Flame explained. "The Sun Refined Spirit can only be found in the center of the Sun. It is the core firepower of the Sun. As you have practiced some Heating Techniques, if you can have the Sun Refined Spirit, your power will increase immensely."

"Is it useful for the Thousand Year Earth Flame?"

"Not only useful! This Sun Refined Spirit is enough for it to have a quick breakthrough to a soul completion and a strong fire power which is not less than mine. Once the Earth Flame absorbed the Sun Refined Spirit and fused with its burning fires, its living form will immediately change".

Shi Yan was panicked. "What? Anything else?"

The Ice Cold Flame hesitated a bit before continuing, "There seems to be something hidden inside the Sun Refined Spirit. It has an extremely violent vibration which was as strong as the powerful soul attack of a God Realm master."

"There is something inside?" Shi Yan got surprised with his eyes and mouth wide opened. "The Sun Refined Spirit is obviously from the Sun in the sky. How come there is something inside? Would it come from the Sun?"

"It is not necessary from the Sun." The Ice Cold Flame contemplated for a while. "According to the legend, warriors who reach the True God Realm can be considered Gods. They have a superpower that can destroy the earth. Their bodies can break all the restraints in the world and fly out to the sky. It means the True God Realm warriors can go to the Sun..."

"Go to the Sun?" Shi Yan's eyes brightened. "According to you, although the thing inside the Sun Refined Spirit is not from the Sun, it is still in the hands of the True God Realm warriors?"

"Yes, that's what I meant."

Shi Yan didn't say anything more.

From a hundred meters far away, staring at that Sun Refined Spirit which was releasing dazzling burning fires and feeling his eyes hurt, Shi Yan slowly closed his eyes and mumbled to himself, "Is it impossible to come closer...?!"

Although the Earth Flame had tempered his body and there was a lot of burning fires' power of the Earth Flame inside his body, he still hardly endured the scorching Sun Refined Flames surrounding the Sun Refined Spirit.

From a hundred meters away from the Sun Refined Spirit, he could feel his body blistering hot already. If he reached the Sun Refined Spirit, perhaps he would be burnt to ashes.

"Do you want to come closer?" The Ice Cold Flame seemed to know his intention and asked. "With your ability alone, you are unable to come closer. However, with my help, it is still possible..."

"What are you waiting for then?" Shi Yan quietly shouted. Right after that, he could immediately feel the freezing icy power. Under the icy power, his body got frozen in just a blink.

A solid ice spread out his entire body. It was like an ice armor wrapping him around.

Under the ice shield's protection, Shi Yan realized that the heat from the Sun Refined Spirit had disappeared. He didn't have the feeling that his body was burning anymore.

"Thump thump thump."

With the ice armor, Shi Yan was more daring, moving step by step towards the Sun Refined Spirit. However, he still didn't dare to go too fast.

Fifty meters

Thirty meters

Twenty meters

Ten meters, Shi Yan suddenly stopped.

From ten meters away, a bunch of scorching Sun Refined Flames flew around the Sun Refined Spirit without dispersing.

The Sun Refined Spirit was very close to him now. If he moved a little more, he could reach it; however, but he didn't know what was going to happen.

"You should not come closer. That is enough." The Ice Cold Flame warned him. "Close your eyes as well. You will be blind if you keep staring at it for a long time".

Shi Yan stammered in fear and hurried to close his eyes. From the distance of ten meters, he wanted to release his soul consciousness to communicate with the Earth Flame again.

"If you don't want to be attacked by the Sun Refined Spirit, you better not release the soul consciousness. Once your soul consciousness is released, the thing inside that will immediately realize and attack it. I've also recognized that the forces discharging from inside the Sun Refined Spirit can damage your soul much more terribly than I can. In other words, you are not able to resist it."

Shi Yan immediately stopped releasing his soul consciousness after being warned by the Ice Cold Flame.

"So, what should we do now?"

"We can do nothing except for waiting for the Earth Flame. Only the Earth Flame is not affected by the Sun Refined Spirit. The Earth Flame's living form is unique. Since it dares to go closer, it is probably not afraid of the thing inside. Hmm, wait for the Earth Flame to come back or until it proactively contacts you. Except for that, don't do anything."

As Shi Yan could do nothing, he closed his eyes, standing motionlessly ten meters away from the Sun Refined Spirit and waiting. He did not dare to release his soul consciousness either, only used his body to feel the scorching Sun power from the Sun Refined Spirit.

"Oh?" Many streams of burning Sun power from inside the Sun Refined Spirit were rolling towards Shi Yan. Seeming to be under the control of something, they quietly went into Shi Yan's chest and poured into Shi Yan's heart.

After having received the Sun power, his heart suddenly projected a red light. The star lights above his heart started brightening little by little and seemed to begin moving around above his heart as if it was some miraculous unpredictable formation that was completely out of Shi Yan's expectation.

"This, is this?" The Ice Cold Flame was extremely astonished. The icy power inside The Blood Vein Ring became weakened.

Many sun powers went into Shi Yan's chest and quickly poured into Shi Yan's heart, which might result in some transformation inside his heart. The burning fires' power was getting more intense while his heart was able to receive more and more burning fires' powers, becoming incredibly dazzling.

Blinding sun lights from Shi Yan's heart were suddenly shot out. Shi Yan instantly became a light generator; his entire body generated many powerful lights.

“What’s happening?” The Ice Cold Flame didn’t seem to understand anything. It hurriedly communicated with Shi Yan. “Why, why can your heart absorb sun lights? The Star Martial Spirit, I got it! The sun is also a star. The sun power is also considered as the power of stars. It should be it.”

While the sun power kept rolling into his heart, Shi Yan felt as if he was soaking in a boiling oil pot. This kind of pain was indescribable.

That was why he couldn’t even communicate with the Ice Cold Flame. He could only passively suffer the pain, letting the sun power flow into his heart.

A bunch of mysterious whirls appeared on his chest at this moment. This peculiar Black Formula belonged to the Three Gods Sect and started activating.

The existence of these three whirls attracted more and more sun powers. They kept pouring into his heart with the speed that was getting crazily faster and faster.

“Boom!” His body suddenly burst into flame. The scorching Solar Refined Flame started burning inside his body.

The Ice Cold Flame hardly communicated with Shi Yan. It knew that if it let the sun powers burn Shi Yan to ashes, Shi Yan’s soul would never be liberated, and it would obviously deadly vanish in the end.

If Shi Yan died, the Blood Vein Ring would have no master anymore. Thus, it would be confined forever which was not the result that the Ice Cold Flame wanted to see.

The Heaven icy power was getting denser and suddenly spread out from the Blood Vein Ring.

The Ice Cold Flame quickly released its power. It didn’t regret to use the billion-year-trained icy power to help Shi Yan resist the Solar Refined Flame inside his body. Thanks to a right amount of the icy power that had absorbed into Shi Yan’s body, the Solar Refined Flames have immediately neutralized afterward.

One of Shi Yan’s eyes shot out the burning fires, and the other projected the icy power. His entire body entered an extremely strange state.

Chapter 237: An extraordinary treasure

The Sun Refined Spirit inside the dune continuously shot out stronger sun powers. Some aura seemed to be drawing the Solar Refined Flames, creating a state of chaos.

Ten meters away from the Sun Refined Spirit, the flames were wrapping around a big and sturdy body which was enduring the terrifying fight between the sun power and the icy power.

At this moment, the burning strength of the Solar Refined Flame and the icy power of the Ice Cold Flame were battling inside his body, causing his body to fall into the Flame Ice Collision state. His body changed from being freezingly chilled to uncomfortable burning just in a second.

His sea of consciousness also became chaotic. A lot of negative feelings from his meridians spread out uncontrollably.

Shi Yan did not know what was going on; he could only passively suffer everything.

The struggle between the Solar Refined Flame and the Ice Cold Flame was still taking place inside his body. While these two powers continued attacking each other, his heart was still absorbing the sun powers from the Sun Refined Spirit.

Shi Yan's sea of consciousness was a little chaotic; his conscious also became ambiguous. Shi Yan gradually slipped into the unconsciousness without knowing who he was.

Meanwhile, the negative feelings also started diffusing inside his body. Different kinds of negative feelings became rebellious, stirring up in his head, making him almost lose himself.

Under the red clouds.

A big figure with full of burning fires and two red eyes raised his head up to the sky and roared out loud as if he wanted to destroy the universe.

Horrible scream hovered around the desert and could be heard from more than ten miles away.

"Who is screaming?"

In the desert, a line of warriors was lurching aimlessly. They all looked extremely exhausted.

A girl with an elegant body was leading this group. Her eyebrows suddenly slammed together while she quickly turned around and looked toward the direction of the scream. After a while, she shouted out loud, "Gu xiao mei (Chinese way to call a younger sister), I think the guy who is screaming should be your enemy". Cao Zhi Lan's beautiful face was very strange.

This group was Cao Zhi Lan, Pan Zhe, Gu Ling Long, and Qu Yan Qing. In the beginning, they had separated, but they had found each other again during the time going around in the desert.

After having seen each other again, they voluntarily gathered and stayed together in this desert to search for the Yang family's warriors. However, no matter how hard they had searched, how many times Cao Zhi Lan had used her Spirit God Martial Spirit, they were still like the blinds in this desert, impossible to find a way out.

Currently, even Cao Zhi Lan was also a little unconscious.

While they were all exhausted and didn't know what to do, they suddenly heard a terrifying scream. Cao Zhi Lan's sharp sense power could immediately identify the person from that scream; thus, they instantly became excited again.

"Hahaha, we finally identify the target." Gu Ling Lung urged, "What are we waiting for then? We should kill him right away".

Pan Zhe smiled, nodded his head, and said, "We have been walking for a long time and been in this desert for almost half a year. Hmm, the sooner we kill the Yangs, the sooner we can get out of here."

"Get out of here soon?" Cao Zhi Lan laughed and glanced at Pan Zhe. "I don't know what miraculous solution do you have to get us out of here?"

"I think that guy is the key point. He should be the first one who came here; he probably knows the way out". Pan Zhe scratched his head, embarrassedly said with a faint smile, "It is not right. Isn't it that we already have Miss Cao. I believe that relying on Miss Cao's Spirit God Martial Spirit, we will certainly find out the way to get out of this desert sooner or later."

"I don't believe so." Cao Zhi Lan shook her head, her face became serious. "Shi Yan's direction is scorching. I don't think everyone can adapt to that hot temperature. If I want to go there, I have to use my secret treasure. You yourselves should carefully consider it."

Everyone's face changed immediately.

After a short pause, Gu Ling Lung and other people slightly nodded their heads and then turned around to remind their fellows to be careful and not to freely move forward to avoid being killed by the hot burning fires.

After having assigned their fellows, Pan Zhe, Gu Ling Long, Qu Yan Qing caught up with Cao Zhi Lan and quickly moved towards Shi Yan's direction.

After a while, the four people of Cao Zhi Lan, Gu Ling Long, Qu Yan Qing, and Pan Zhe appeared at the distance of five hundred meters away from the Sun Refined Spirit. From five hundred meters away, because of the great and dazzling sunlight of the Sun Refined Spirit, the four of them could neither see Shi Yan nor know what was going on over there.

The other warriors did not dare to follow them anymore.

Under the scorching power of the sun, even some Third Sky of the Earth Realm warriors could not stand the heat and stopped far away.

The reason that the four people of Cao Zhi Lan, Gu Ling Long, Qu Yan Qing, and Pan Zhe dared to come closer was that they were the outstanding future Masters in the Endless Sea. Not only had they cultivated the special martial techniques but they also had many secret treasures. Thanks to those secret treasures and the Mystery Martial Spirit, they were able to stand the heat at the distance of five hundred meters from the Sun Refined Spirit.

However, even though they had brought some treasure weapons, they could only watch from a distance of five hundred meters because their bodies had not been tempered by the Heaven Flames. Shi Yan, on the contrary, could stand in the distance of one hundred meters from the Sun Refined Spirit and be not worried to be burnt by the Sun Refined Flame even without the support of the Ice Cold Flame's icy power.

"I cannot open my eyes!". Gu Ling Long screamed out loud in fear. "What is that place after all? It was like a small dazzling sun. I can't see anything, don't dare to look either."

"Don't open your eyes." Cao Zhi Lan couldn't help shouting. "This, this can only be the Sun Refined Spirit. The Sun Refined Spirit in the center of the sun. Ordinary eyes will be blind if looking at that sunlight".

"The Sun Refined Spirit!". Pan Zhe panicked. "If the Three Gods Sect's people come here, will they be crazily excited to see the Sun Refined Spirit?"

"Regretfully, the Three Gods Sect is busy fighting with the Dark Dwellers right now. They didn't join us to fight with the Yang family this time. Hmm, this is their mistake. If the Three Gods Sect's warriors came here with their Sun Martial Spirits, and they found out the Sun Refined Spirit here, their Sun Martial Spirits would have reached to the terrifying level." Qu Yan Qing slowly closed her eyes, being unable to stand the heat anymore.

Cao Zhi Lan did not utter a word. She just silently released her Spirit God Martial Spirit, wanting to explore the situation over there.

However, as soon as she released her Spirit God Martial Spirit, she immediately realized that the Sun Refined Spirit launched a strong flow of soul vibration, forming a great soul attack chasing Cao Zhi Lan's Spirit God Martial Spirit and going into her head.

"Ptui." Cao Zhi Lan could help but spit a mouthful blood. Her beautiful body strenuously moved backward a few steps. She shouted with her red face, "Do not release any spiritual power. There is something strange inside the Sun Refined Spirit."

"Ptui."

"Ptui"

Pan Zhe and Gu Ling Long also spat out a mouthful blood, staggeringly stepped backward with clumsy faces.

Qu Yan Qing was panic, retreating her power timely.

Just one second late, Pan Zhe and Gu Ling Long already got severely injured. As soon as they had released the spiritual forces, the strange thing inside the Sun Refined Spirit had instantly attacked them.

"Be careful! Do not release any of your spiritual powers at all cost. Do not continuously open your eyes. Only peep at it and immediately close your eyes to avoid being blinded by the sunlight". Cao Zhi Lan hastened to remind them.

"Not good!". Qu Yan Qing screamed out all of a sudden.

"What happens?". Pan Zhe quickly asked.

"Shi... Shi Yan is coming!" Qu Yan Qing stepped backward with fear. "His body is full of burning fires as well as some strange icy power. What did happen after all?"

"What?" Cao Zhi Lan was terrified. She couldn't help but open her eyes.

In their sight, the dazzling sunlight shone on a powerful and imposing figure who were quickly approaching them. That figure's body shot out two kinds of red burning fires and dark blue burning fires. The red burning fires were scalding while the dark blue burning fires were freezing. These two types of burning fires spread out all over the body, seeming still to be in a drastic fight.

However, he looked very comfortable with those two kinds of fires around his body. He was dashing towards other people like lightning; his speed was getting faster and faster.

Nobody knew why a bunch of these Sun Refined Flames seemed to be attracted to his body. Although he was lunging very quickly, these flames still closely followed him.

The earth-shaking burning fires' power came up as if it had to burn the whole world into ashes. Until the moment that the two eyes were painful, Cao Zhi Lan realized that she could not stand it anymore. She quickly turned around without hesitation, fleeing with the highest speed.

"Retreat!"

Pan Zhe had been waiting for her to say something, but he realized Cao Zhi Lan had already disappeared in a blink.

His handsome face slightly changed. He did not dare to say further and staggeringly followed Cao Zhi Lan, trying to escape from this place.

Qu Yan Qing and Gu Ling Long still wanted to stay and fight. However, as seeing Cao Zhi Lan who ranked at the top of the combat list running away, they felt unsafe and also quickly followed he and Pan Zhe.

"Porch."

At the same time, a two-meter-long, half-meter-wide red sword like a burning flame suddenly flew out from inside the Sun Refined Spirit.

There were full of ancient symbols on this giant glowing red sword. There was also a red eye on the blade. As soon as the sword flew out, the red eye quickly projected devilish red lights.

A malicious spiritual vibration instantly spread out from the red sword. This brutal vibration was like a deadly tornado wiping out all the beings as if it wanted to deprive all of the being lives.

That huge figure was crazily chasing after Cao Zhi Lan and Pan Zhe. When the sword spread out the malicious spiritual vibration, Shi Yan suddenly stopped, his eyes became bewildered.

It was unknown when the Blood Vein Ring on his finger had shot out the red light which matched the bloody color of the light radiating from the sword. They were surprisingly alike.

Chapter 238: Absorption

In the middle of the desert, the devilish spiritual vibration spread out everywhere from the Gigantic Sword, like surging waves massively rolling towards Pan Zhe and others.

The Sun Refined Flames of the Sun Refined Spirit also burned up vigorously as soon as the Gigantic Sword flew out.

A bunch of burning fires flew out from the Sun Refined Spirit. The color of the burning fires was the same with that of the red sky, making this sweltering desert even uncomfortably hotter.

Cao Zhi Lan, Pan Zhe, Gu Ling Long, Qu Yan Qing were outstanding talents of the new generation of the Endless Sea. They now looked extremely miserable, staying far away from the Sun Refined Spirit, wishing that they would have never come here.

At the farther place, other warriors didn't dare to get closer to the Sun Refined Spirit. Instead, they stayed in the distance, watching the burning flames engulfing the entire sky and the cruel spiritual vibration diffusing everywhere. They were scared of out their wits and didn't dare to take any further steps although they still wanted to know what was going on over there.

However, after a while, they couldn't help but watchfully walk to that area as they were so curious.

After only one hundred of steps, they saw Cao Zhi Lan quickly approaching with a serious face.

"Run! NOW!" Cao Zhi Lan's face darkened, she quietly shouted without explaining. She urgently passed these fellows and continued dashing forwards.

The three people of Pan Zhe, Gu Ling Long, Qu Yan Qing lagged behind. Until when they saw other warriors, they also shouted out loud, telling them to leave this place immediately and not allowing anyone to stay.

The warriors did not know what was happening. However, seeing their leaders that miserable, they hurriedly followed Pan Zhe's group, leaving this place as fast as they could without thinking too much about what was happening.

Close to the Sun Refined Spirit, a bunch of burning fires flew out and covered the entire sky like a group of heavy fire clouds collapsing.

The red Gigantic Sword was hovering around in the air, emitting devilish spiritual vibrations. The blinking red eye on the Gigantic Sword discharged a strange red light.

At this moment, the blinking red eye on the Gigantic Sword seemed to be staring at a direction.

Below the Gigantic Sword, Shi Yan's eyes were red while his mind was not clear. He raised his head looking at the two-meter-long, half-a-meter-wide Gigantic Sword with wild eyes.

The Blood Vein Ring on his finger also turned into a powerful bloody light which was exactly similar to the red light on the Gigantic Sword's handle.

As soon as the blinding deadly light exploded and shot out from inside the Blood Vein Ring, the power of the Ice Cold Flame was confined.

The moment when the Blood Vein Ring emitted the dazzling bloody lights, the Gigantic Sword hovering about in the sky flew towards Shi Yan, seeming to either discover a target or be attracted by something.

Shi Yan's face was confused as he didn't appear to know what had happened. He instinctively lifted up the Bloody Vein Ring on his finger. A strange, beautiful, bloody light emitted from inside the Blood Vein Ring, covering the entire sky as if blood had dyed the sky with its glowing color.

At the same time, the negative feelings inside Shi Yan's body impetuously rolled into the Blood Vein Ring like surging tides. After having received those negative emotions, the Blood Vein Ring suddenly spread out a powerful spiritual vibration.

The red Gigantic Sword turned into a sparkling light, flying straight to the Blood Vein Ring. In a moment, it disappeared inside the Blood Vein Ring without leaving a trace.

Shi Yan's unconscious mind suddenly became vigilant. Different negative feelings messing around in his sea of consciousness instantly disappeared. The Sun power from the Sun Refined Spirit continued boiling and torrentially rolling in his heart, making his heart sparkling as if there were thousands of stars twinkling. A halo of burning fires was inflaming.

His body was in extreme pain as if the heated flames were burning it. The icy power of the Ice Cold Flame was like a cold-water stream comforting his body, easing off his pain a little bit.

In the middle of the desert, although Shi Yan was standing at the distance of more than one thousand meters from the Sun Refined Spirit, he still could feel that the sun power of the Sun Refined Spirit was getting more powerful.

Turning his head around and looking at the Sun Refined Spirit from afar, Shi Yan could feel that after a short time of the transformation, the scorching sunlight of the Sun Refined Spirit from the center of the sun was also gradually getting gloomier.

The sun power and the Sun Refined Flames inside the Sun Refined Spirit were drying up quickly as Shi Yan, and the Earth Flame had consumed them a lot. Their strength had drained out more than half just after a short time.

The massive outer meteorite discharged the sunlight which was less dazzling than before.

Shi Yan knitted the brows as he didn't know what was happening.

However, he still vaguely remembered that some people were coming here, that he quickly moved towards them from the Sun Refined Spirit, seeming to pursue someone.

After hesitating a little bit, he released and diffused his soul consciousness to see if there were any great living vibrations.

One, two, three.

Inside his sea of consciousness, he could easily sense that more than ten warriors were only two miles away from him, running away from this place as fast as they could.

Shi Yan was surprised and startled a little bit. He didn't know why those people avoided him, nor did he have the intention of chasing them. After thinking for a while, he turned around and ran towards the Sun Refined Spirit.

"Why are we running away?" After a long while, Gu Ling Long suddenly stopped, turning her head looking toward the red sky behind, knitting her eyebrows, speaking. "That guy is Shi Yan. Do we need to run?"

Cao Zhi Lan shook her head and said, "Shi Yan? We are running away not because of Shi Yan, but it is because of the appearance of that Gigantic Sword. It is the one we are escaping from".

"That Gigantic Sword ...". Gu Ling Long didn't seem to understand; her small face was a little odd. "The moment when that Gigantic Sword appeared, my god swords transmitted a strong warning urging me to leave. Is that Gigantic Sword dangerous?"

"It's hard to say how dangerous it is." Cao Zhi Lan said with a serious voice. "However, that Gigantic Sword can easily kill us all. That sword's devilish power alone can crush our souls entirely".

Everyone was shocked with their eyes and mouths wide open.

"That dangerous?". Pan Zhe quietly clicked his tongue. "If so, that Gigantic Sword is a Sacred Level Secret Treasure."

"At least, it is Sacred Level!" Qu Yan Qing also nodded her head. "The devilish spirit vibration of that Gigantic Sword is frightening. From a far distance, I almost lost my consciousness of running away. If I did not have the secret treasure from my Master, I would have died there. The eye on the Gigantic Sword has a fascinating power indeed. It also has a life".

The faces of Pan Zhe's fellows slightly changed.

Qu Yan Qing's words made them remember the eye on the Gigantic Sword. That eye in the sky discharged bloody red lights like a bunch of demons. It made people feel extremely deadly dangerous, scared the future masters of the Endless Sea out of their wits without daring to fight back.

"What should we do now?". Gu Ling Long asked. "Shi Yan is certainly over there. We can't come closer to him, nor do we know the Gigantic Sword belongs to whom. Do you think if there is anybody else in this place?"

"Temporarily, I will use my martial spirit to see if the burning fires are still there or not. When there is no more danger, we can go there. Hmm, Shi Yan cannot frighten us. If he still survives by that time, he is not our opponent". Cao Zhi Lan assured her fellows.

Everyone nodded.

Many strange lights flared up in Shi Yan's eyes. He walked to the Sun Refined Spirit with a surprise.

"How come a Gigantic Sword appears inside this ring. It is surely a real object. How could the ring hold this evil thing?". The Ice Cold Flame's message from the Blood Vein Ring came up. "I have taken a look at the structure of this ring. Logically, the place in this ring is not supposed to contain an object. How can it store this peculiar sword?"

"I think this sword's hilt has something related to my ring."

"Why do you say that?"

"I don't know the reason, I hazily assumed it. The Blood Vein Ring's and this sword's auras are very similar. Especially strange bloody symbols on the hilt are very similar to the one on the ring. Maybe the ring and that sword have been created by the same person." Shi Yan soothed the Blood Vein Ring with a strange face.

He sent his spirit into the Blood Vein Ring and was able to see an open space inside it. The sword hilt was silently hovering about in this devilish bloody red space without having any auras.

The earth-shaking wicked spirit vibration on the Gigantic Sword had disappeared without leaving any traces.

Relaxing his mind, Shi Yan tried to sense the vibrating power of this sword's hilt but got nothing. He couldn't find anything on the sword no matter how hard he tried to connect with it.

If he hadn't seen the strange power of this sword, he would have had felt it was just an ordinary sword, and nothing could be miraculous.

It was hard to either connect with the Gigantic Sword or sense any spirit vibration. This Gigantic Sword seemed to get stuck in the Blood Vein Ring and thus withdrew all dazzling lights. It turned from a God sword to an ordinary sword, losing its earth-shaking strength and power.

"Swoosh swoosh swoosh."

A strange squeak came up from inside the Sun Refined Spirit.

Shi Yan suddenly stopped, observing the Sun Refined Spirit from ten meters away, feeling the sun power inside the Sun Refined Spirit.

The sun powers massively emitted from inside the Sun Refined Spirit, absorbing into his body and then running to his heart.

It was unknown why and how his body seemed to gradually adapt to the scorching sun powers after that earth-shaking transformation.

When the sun powers poured into his body, his body no longer generated the Sun Refined Flames nor the burning fires that made his body burn up.

It seemed that his body had been transformed to adapt with the Sun Refined Flames and get along well with the Star Martial Spirit.

Chapter 239: The Sound Beast Mountain

"Your people? The demeanor on the old man's face did not change. He seriously sat still, slightly knitting his eyebrows, curiously looking at Shi Yan. "Have those people come here together with you?"

Shi Yan shook his head and said, "Not with me, but I know them. They are my enemies, and they have been chasing me here since I was in the outside world. Hmm, I'm their target."

"Is their hatred of you that much?" Cu Bi was curious. "Hundreds of warriors have been chasing after you here to kill you. After all, what did you do?"

Shi Yan forced a miserable smile, "Nothing..."

"No matter what their target was, everyone had to act moderately in the Demonic Sound Clan's territory." The old man frowned and said, "Yi Feng, go arrest them now. Bring some people with you. Don't let them escape."

A skinny guy at the Nirvana Realm nodded his head indicating his obedience and quickly left.

"OK, let's continue where we left off." The old man calmly took one sip of tea. "The outside world, what is the situation now? What is the name of your area? Is there anything special there?"

"The outside world?"

"Uh."

"I came here from the Endless Sea through the Heaven gate at the Sky Sea. At the Endless Sea, many different forces of humankind warriors have been competing to dominate the areas with full of resources." After contemplating for a while, Shi Yan explained the senior man of the Demonic Sound Clan a little of what he knew about the Endless Sea.

The old man listened to Shi Yan without saying anything.

"Father, the Endless Sea doesn't seem to be our ancient land?" After thinking for a while, she couldn't help but speak up.

"No, it is not our ancient land. But don't worry. When we reach the outside world, we will find our ancient land." The elder nodded his head. "If those humankind warriors can come here, it means that the formation technique has recently eased off a little bit. Hmm, it's time to talk to the Wings Race."

"The Wings Race has always been looking for a way to get out of here, but they are not friendly with us. They even have attacked us recently. Father, you want to make contact with the Wings Race?" Cu Bi didn't seem to agree with him. "The Wings Race has evil intentions; they want to get out of here and conquer the outside world. Once they leave this place, it would not be a good thing for the outside world."

"After a few years of recuperating, the Wings Race's strength has improved a lot. The reason we have been deported here is that we had cooperated with the Wings Race. I know the Wings Race's bad ambition, but with the Demonic Sound Clan's ability alone, I am afraid we cannot leave here." The senior man convinced the girl. "Only if the two tribes can cooperate can we get out of here. Otherwise, we may be trapped here forever. Don't worry. Before talking to the Wings Race, I will ask other leaders for more information. If everything is fine, I will contact the Wings Race."

Shi Yan still kept silent but was surprised.

According to the conversation between the old man and the girl named Cu Bi, he knew that besides the Demonic Sound Clan, there was also another tribe called the Wings Race. These two big tribes might have been from the Neolithic Age, and no one knew the reason that had led to their deportation and confinement here.

The Demonic Sound Clan and the Wings Race should have belonged to the Grace Mainland before. Moreover, the ability of these two tribes should be very mighty. Although they had been deported here for many years, they still preserve the intention of breaking out to go back to the Grace Mainland, their ancient land.

As the formation technique in the soul consciousness had been deactivated, Shi Yan could inaudibly observe around now, realizing that inside of the hall, there were more than ten Nirvana Realm and the Sky Realm warriors. The senior man's cultivation base should be at the God Realm.

The senior man seemed to be one of the leaders of the Demonic Sound Clan. According to him, there were also other leaders. If they also had the same cultivation base as he did, the Demonic Sound Clan's strength could easily defeat any forces of the Endless Sea.

The Demonic Sound Clan was terrifying already, but they seemed to be very cautious when talking about the Wings Race. The Wings Race's strength appeared to be even stronger than the Demonic Sound Clan's.

If this was the truth, once the Demonic Sound Clan and the Wings Race cooperated to escape from this place, going to the Endless Sea, he couldn't imagine what problem they would bring to the Endless Sea.

"You want to go back to the Grace Mainland?" As different thoughts kept popping up in his mind, Shi Yan suddenly came up with an idea and spoke up.

"That is right. We don't want to live here. We hope to go back to our Ancestry Land. It has been almost ten thousand years since we had been deported. We want to know how our Ancestry Land looks like; we don't originally belong to this place." Cu Bi's eyes were clear and anxious. "Our Ancestry Land, we miss our Ancestry Land. There were the three Gods of the Sun, the Moon, and the Star, big oceans, the scenes that we have never seen before."

"The Endless Sea is not peaceful at this time. It may be not a good time to go back there now." Shi Yan said with a low voice.

"Tell me more?" The old man said with a serious face.

"Because the Demon Dwellers of the Fourth Demon Area and the Dark Dwellers of the Netherworld may invade the Endless Sea. Once they arrive the Endless Sea, it should be a disaster for all the tribes living there. If you go back this time, you will face the Demon Dwellers and the Dark Dwellers." After thinking for a while, Shi Yan decided to tell them about the current situation. He didn't know anything about the Demonic Sound Clan or the Wings Race, nor was he sure that if the return of these two tribes to the Endless Sea was a good or bad thing for the Endless Sea. Telling them about the Demon Dwellers and the Dark Dwellers. She Yan wanted to see their attitude.

"The Demon Dwellers and the Dark Dwellers..."

When the old man heard of these two pagan tribes, his face changed dramatically. He suddenly said after a while, "No worries. We only want to go back to our Ancestry Land. We will not stay in the Endless Sea for long, nor will we get into any troubles with them."

"The Demon Dwellers and the Dark Dwellers. Father, what is the origin of these two pagan tribes?" Cu Bi asked with curiosity.

"I will tell you later." The old man shook his head and explained nothing more. However, his ashy-gray eyes flared up the complicated light; it seemed that the names of Demon Dwellers and Dark Dwellers had called up something. A subtle smile beamed out from the corner of his mouth; his face looked very strange.

As the old man stopped asking questions, Shi Yan also kept silent and secretly released his soul consciousness to observe outside the hall, wanting to leave this place.

However, the lava stone in this hall seemed to have the mighty power that prevented his soul consciousness from going through it. His soul consciousness encountered a big hindrance when it was on the way flying out.

Shi Yan reluctantly gave up and quietly looked at the old man.

Yi Feng came back after having left for a while. After kowtowing, he respectfully said, "Great Master, we were a little bit late. Ya Meng has arrested all of the human warriors."

"Ya Meng." The senior man raised his eyebrows and calmly said, "I am afraid those people are done. Several human warriors came here and killed Ya Meng's son a few years ago. Although he tortured those guys for long periods, his animosity against human warriors never ends. As he has arrested many warriors this time, he might have enough to play with for a long time."

A strange light flared up and instantly disappeared in Shi Yan's eyes.

"You should be jubilant because Ya Meng has arrested your enemies while you are here." He coldly looked at Shi Yan. "Our prejudice towards the humankind is not as profound as Ya Meng's. I will not treat you bad as long as you honestly cooperate with me. Not only can I let you free but also give you some things that you cannot find from the outside world."

"I will do my best." Shi Yan smiled and said. "I don't want to die; I only want to live well. However, my strength is limited; I am not sure if I can be much of help."

"There is an intense burning fires' movement inside your body. Can you use that burning fire power?" The senior man suddenly said.

"The burning fires has tempered my body, and that is how I have the power of the burning fires. I think I can use a part of it, but I am not confident it will be as much as you expect."

"Cu Bi, you and he go to the Sound Beast Mountain to see if you can catch more of the Sound Beasts' heads with the burning fires' power in his body." After thinking for a while, the old man looked at his daughter and assigned a mission for her. "As Ka Ba's people often wandered around the Sound Beast Mountain recently, the Sound Beasts do not dare to take risks to expose themselves. I don't know if we can get more of them."

Cu Bi mumbled to herself, and then slowly walked towards Shi Yan, throwing a sharp glance at him, speaking, "Outsider, follow me. If you can help me catch some Sound Beasts' heads, maybe I will feel better and let you free."

Shi Yan knitted his eyebrows. Under the scrutinized look of the old man, he said nothing, bowing his head and following Cu Bi to go outside.

After crossing a very long corridor, Shi Yan saw the bright sky again eventually.

He was standing on a pile of stones near a five-hundred-meter-high architectural building. In his view, there were many other ten-meter-high ancient stone structures nearby. In a further distance, another two mighty five-hundred-meter-high imposing ancient structures like the immeasurably magnificent and splendid mountains in the sky that could stir people's eyesight. This place was a Great Ancient Stone City.

Among these structures, the lowest one was tens of meters high, covering thousands of square meters; the biggest one was similar to the one he was standing on, which was hundreds of meters high and

covered about tens of thousands square meters. It was even bigger than the biggest one he had seen in the outside world, and it was unknown how it had been built.

In this Giant Stone Ancient City, everyone in the Demonic Sound Clan looked very pale with their miasmatic spirits and unusual physical strength. They seemed to be very light and not to be restricted by the limit of Realms. Even the Earth Realm or the Nirvana Realm warriors could freely fly around in the city. It was very strange.

A dense mist gray-white fog covered the entire Ancient City. There should be some formation technique inside that mist to protect the City.

The dense sky and earth spiritual aura overflow every corner of the City. Although the Sky and Earth aura here was not as good as the one in the Immortal Island, it was still superb compared with other places of the Endless Sea and enough for the warriors to use for their cultivation.

"Shi Yan." A voice suddenly came up from a distance. That was Cao Zhi Lan's voice.

Shi Yan's face slightly changed. He looked toward the direction where the voice resounded. In the distance, he saw a big wooden cage being pulled up to the sky by some strange beasts' heads.

These beasts had small thin wings like a layer of flesh. Their bodies had adamant miasmatic power which was somehow similar to that of the Demonic Sound Clan's pagans.

The beasts spread their five or six-meter-wide wings like Falcons; their entire bodies were turquoise and had moving lights.

The top of the wooden cage, which had pulled up by the beasts, was fully covered by creepers. Those vines like spiritual snakes wrapped around the wooden cage, radiating a green ray of light and creating a miraculous constraint binding the wooden cage.

Inside the wooden cage, Cao Zhi Lan, Qu Yan Qing, Gu Ling Long, Pan Zhe, and a flock of other warriors were all restricted by a formation technique. They all looked like slaves with dark faces in a cage. They seemed to suffer a lot of torture that they became honestly obedient without daring to resist.

Some guys with gloomy, pale faces in dark green armors were riding those beasts, gathering and discussing with each other in a low tone.

Some of them turned their heads around, coldly glancing at Cao Zhi Lan when they heard her scream. She looked towards Shi Yan's direction with a slight happiness in her eyes.

Those guys pulled up the wooden cage away, seemingly wanting to change the direction. Cao Zhi Lan's Spirit God Martial Spirit was unique; it was not affected by the formation technique and thus quickly realized the living vibration from Shi Yan's body as soon as he had gone out of the imposing architectural structure. That was why she couldn't help but scream.

In a distance of one hundred meters, Shi Yan knitted his eyebrows, looking at Cao Zhi Lan, Pan Zhe, Qu Yan Qing, and other warriors who were being confined like livestock. He couldn't help but release a sigh, feeling pity for them.

Although Cao Zhi Lan and the others were his opponents, they all came here from the outside world. However, Ya Meng has captured and confined them like livestock and would soon torture them to death. He could not feel good looking at them.

"Cu Bi, you have captured this human being?" A guy of the Demonic Sound Clan who was in the lead suddenly raised his hand signaling the beasts to stop. He then gently flew over, hovering about in the air while coldly looking at Shi Yan.

Cu Bi slightly frowned and then calmly said, "Ya Ji, you are quick. You have captured those outsiders just in a short while. Hmm, if I knew that there were more than one person, you wouldn't have been able to reap such a big spoil."

The guy dragged a strange smile out of his mouth and said, "I was just lucky. While I was wandering outside, I detected these outsiders and easily captured them. Hahaha, the cultivation base of some of them are not bad, but their souls are too weak compared to mine."

"Ah." Cu Bi quickly said, "Regarding souls, the Demonic Sound Clan has the God-given advantage. Those aliens obviously cannot be compared to us. If you have already captured them, you should leave soon. Why do you need to waste your time with me?"

"How can talking to you be a waste of time?" Ya Ji smiled. As seeing no reaction from Cu Bi, he pointed to Shi Yan and said, "I am also interested in that guy. Cu Bi, say a price, I pay her to take him. What do you think?"

While Ya Ji was talking, his strange eyes fixed on Shi Yan's body.

A flow of miraculous soul vibration like a thin fiber of soul explored and went into Shi Yan's head, intruding his sea of consciousness, taking the secret life in his mind.

Shi Yan's face changed dramatically. When he was about to gather his forces to resist this soul vibration, another flow of soul vibration like a cold wind zoomed over, quickly covering his head.

Ya Ji's soul power was instantly wiped out completely, disappearing from his head without leaving a trace.

"This guy belongs to me. Without my consent, no one can touch his soul." Cu Bi's clear, cold voice rose up; she displeasingly stared at Ya Ji. "You can torture those in the cage however you want, but you are not allowed to touch mine. Otherwise, don't blame me for treating you badly."

"I can bargain." Ya Ji forced a smile. "I will pay you a very good price for this guy. Is it ok?"

"You have already captured many warriors, why do you still want him?" Cu Bi felt a bit strange when listening to what he said. "You already have many, why him?"

"Hahaha, I see it's useful." Ya Ji thought for a while and said. "Cu Bi, if you are interested in humankind warriors, we can exchange. Hmm, those warriors over there, except the three ladies, I can trade anyone of the rest, even two of them. What do you think?"

"Why must you have him?" Cu Bi was surprised, confusingly looking at Ya Ji and then at Shi Yan. "Is he special?"

"Very special."

Ya Ji nodded his head. "So, do you want to exchange or not?"

"No!" Cu Bi harrumphed. She thought for a while before grabbing Shi Yan's shoulder, flying away and speaking at the same time, "This guy is useful, I do not want to give him to you now. Wait until I feel that he is not useful anymore, then I might sell him to you".

"Cu Bi, be careful, he is very dangerous." Ya Ji warned her from a distance.

"Dangerous?" Cu Bi uttered a word with despise, coldly glancing at Shi Yan. She continued, "You should better be honestly obedient. Otherwise, I will make your soul disappear in a second. Maybe you don't know yet, but it's not hard for the Demonic Sound Clan to ruin your humankind."

"Yeah, I know your soul competency went beyond that of the human warriors." Shi Yan's face remained unchanged. "Your physical strength is very unusual, and the brain is also peculiar. They are very suitable for soul cultivation. Hmm, your soul is very powerful, it can be compared with the one of the Sky Realm warrior, but your body, on the contrary, is not as strong as a human Sky Realm warrior. However, you still can use your powerful soul to dominate and easily destroy my sea of consciousness. Isn't that so?"

Shi Yan didn't say anything since he got out of the Ancient City with Yi Cu Bi, but it didn't mean that he knew nothing.

He had been quietly observing the Demonic Sound Clan for a while, realizing that all of the Demonic Sound Clan's people were very powerful. Regarding soul cultivation, the Demonic Sound Clan's people were much stronger than many of the humankind warriors. Their knowledge of soul was much more profound than that of the humankind warriors. However, because of their particular physical structure, they looked very feeble. Not to mention Shi Yan's body, their bodies were much weaker than those of the ordinary humankind warriors.

Not only this, the profound Qi in their bodies were also peculiar. Their Profound Qi did not converge in one place; it spread out everywhere inside the body. The nerves and veins were also fragile and narrow, preventing them from receiving too much of the profound Qi.

After observing in silence for a while, Shi Yan realized that the intensity of the woman's soul had reached the Sky Realm, and her subtle body contained a lot of profound Qi. However, her Profound Qi could not be more than his because of her weak body and narrow veins. Her body strength should also be limited. If she did not rely on the God-given soul advantage, she might have been unable to defeat an ordinary Earth Realm warrior.

Thanks to the strong strength of the sea of consciousness, Shi Yan gradually understood everything.

"You, you can see through many things in such a short time?" Cu Bi was terrified; a shocking look appeared on her face. She gazed at Shi Yan for a moment and then said, "I should have placed more soul formation techniques on you."

"Don't; I am very savvy. I know that your soul power is very vigorous. If I do something wrong, you can easily recognize it in this short distance. You can use your soul to kill me easily before I can do anything. Therefore, I will not do anything stupid, so you should not waste too much of your power. Don't worry; I will try my best for you." Shi Yan quickly shouted.

"You have such a sweet mouth." Cu Bi's beautiful eyes stared at Shi Yan and firmly nodded her head. "You are very smart, smarter than many of the Demonic Sound Clan's people. Moreover, although you are only at Earth Realm, you've already possessed the sea of consciousness. You are not bad at all. You should have some secrets; otherwise, Ya Ji shouldn't be interested in you like this."

After taking a big breath of air, Cu Bi said, "Maybe, I should analyze your soul, seizing everything inside of your head to know everything hidden there. There is nothing you can hide; I will know all your secrets. Although this might get me seriously injured, I am still really excited about doing it."

Shi Yan slightly shivered; his eyes shot out a cold ray of light. He seemed to be ready to risk his life.

"I already knew that you are very cunning. Hmm, don't think you can take anything from me. Right now, I just don't want to kill you yet. If you dare to do anything stupid, you will know the consequence." Cu Bi's face coldly darkened, but a hesitating look appeared on her face. "If you can help me catch the sound beasts at the fifth or sixth level, I will set you free. Otherwise, I will detain you and give you to Ya Ji."

"Sound Beasts? Aren't they beasts?"

"The Sound Beasts are one kind of beasts. They only live in the Sound Beast Mountain where the miasmatic aura is incredibly dense. The Sound Beasts are made from Yin; their Demons Crystal Pearls also have the icy yin trait. They are very useful for us. Our cultivation will be prosperous if we can have these Demons Crystal Pearls. The Sound Beast Mountain has the "Ancient Thunder Formation" which discharged lightning. The Sound Beasts do not have any big problem if being hit by lightning. The Demonic Sound Clan, on the other hand, is naturally afraid of lightning so we cannot go any further into the Sound Beast Mountain, except that we can only stay outside the mountain and catch the Sound Beasts that venture out."

"How is it useful with my help?"

"The Sound Beasts' trait is icy Yin, and their souls are also unique. It is not easy for the Demonic Sound Clan to use our soul advantage to deal with them. To catch them, we also need to make use of the direct attacking weapons. However, once the Sound Beasts cannot win, they will quickly retrieve and hide inside of the Sound Beast Mountain. Thus, we cannot do anything. The Sound Beasts had one weakness, they are afraid of the burning fires. If you can use the burning fires, it is easier to catch them. Of course, we have to see if your burning fires are useful or not. Weak burning fires cannot affect the Sound Beasts."

"Ok, I understand. I will help you arrest the Sound Beasts. Hmm, our deal is ten of the fifth or sixth level Sound Beasts. Is it ok?"

"If you can help me capture ten of the fifth or sixth level sound beasts, I will set you free. If you can capture more, I can buy them at a reasonable price. Hmm, the Demons Crystal Pearls of the Sound Beasts are very treasurable. You can use them to exchange for any essential things that you want."

"Can I exchange for slaves?"

"Anything."

"Good, maybe I will use some Demons Crystal Pearls of the Sound Beasts to exchange for some female slaves." Shi Yan thought about Cao Zhi Lan, Gu Ling Long, and Qu Yan Qing, the three ladies who were being confined by Ya Ji.

"Rotten." Seeing the lust in Shi Yan's eyes, Cu Bi couldn't help but curse. "Human beings, no one is good indeed! My father was right."

"I assume that the Demonic Sound Clan's people have a strong prejudice against human beings?"

"Humankind is cruel. If it were not because of humankind, we wouldn't have been deported to this place. Hmm, because of you, we all could not return to our Ancestry Land, being forced to stay here forever where there aren't the three Gods of the Sun, the Moon, and the Star." Cu Bi coldly said.

"Why were you deported to this place? They wouldn't do it without any reasons."

"Shut up!" Cu Bi jangled. Her beautiful face suddenly sharpened.

Shi Yan got surprised and said no more. He was afraid that Cu Bi would not be able to control herself and take actions with him.

After having got out of the Giant Stone Ancient City and crossing the extensive forest for a long time, a mighty, ten-thousand-meter high mountain struck his eyes.

The mighty imposing mountain dominated the skyline; masses of white clouds hovered around in the middle of the mountain flank. The mountain peak pierced straight up into the sky. Each striking lightning like a giant dragon minced around the giant mountain, discharging powerful electric streams.

On the giant mountain, ancient trees and deep black caves intensely scattered around the mountain cliffs. Many big Sound Beasts appeared, howling from the inside of the caves. The howls had a strange, powerful energy that terrified people.

When these howls reverberated, the vibrations churned up in Shi Yan's sea of consciousness; his soul consciousness was not stable either.

"The Sky and Earth aura gathered and created the Sound Beasts. Their soul is also very particular. Thus, their howls can badly hurt the ordinary warriors. However, you don't seem to be affected by the howls; you are no an ordinary person indeed. Hmm, so I don't need to worry too much. Sending the soul protection forces to your head has decreased my energy." Cu Bi soon relaxed her vigilance.

She and Shi Yan were standing shoulder-to-shoulder on a big long branch of an ancient tree. He raised her head looking toward the Sound Beast Mountain in front of them and asked, "What is the level of the strongest Sound Beast of the Sound Beast Mountain?" Shi Yan looked ahead. As his sea of consciousness was agitated, and he couldn't release soul consciousness, it was hard for him to recognize the real strength of all the Sound Beasts in the Sound Beast Mountain.

"The strongest Sound Beast..." Cu Bi shook her head. "Because of lightning, the Demonic Sound Clan cannot intrude inside, so we don't know what is the level of the strongest Sound Beast is. Hmm, the Wings Race used to invade the Sound Beast Mountain, but none of them have ever got out alive."

"You and the Wings Race have always been fighting?"

"Almost. The Wings Race people live just behind the Sound Beast Mountain. They consider themselves to be the true lords of this land; they want to rule the Demonic Sound Clan. In recent years, the Wings Race' strength has been stronger than ours. If it isn't because that the Wings Race people have conflicts with each other, we should have become their slaves." Cu Bi dispiritedly replied.

"The Wings Race!" Shi Yan thought for a moment. "You have God-given soul advantages, and you can easily destroy our souls, but you cannot deal with the Wings Race?"

"The Wings Race is more dangerous than humankind. No human being can compare with their solid physical body. Although the Wings Race's soul is not as good as the humankind's, they still have many ways to protect their soul from being violated. Humankind absolutely cannot compare with them." Cu Bi coldly said.

"Oa oa, Boohoo boohoo"

A strange noise like a baby crying came out from one cave on the Sound Beast Mountain.

When that peculiar crying resounded, inside of that crave instantly emitted many flows of the gray yin aura. This gray miasmatic aura spread out violently and quickly, covering the entire small area in just a blink.

A bunch of large figures was dancing in the middle of the gray aura, coming down the Sound Beast Mountain together with the gray aura, walking towards an icy lake in the distance.

"Child Devil."

Cu Bi's face changed dramatically. Her subtle body slightly shivered while she was staring at the place where the gray aura gathered. She said in fear, "This thing shouldn't appear at this time of the year. Is the defensive formation weakening? Irrational, really irrational! No, we might have to cancel our plan now."

Turning around, Cu Bi hold Shi Yan with one hand and hurriedly said, "We should leave now. Forget this time; I have to inform my clan about the Child Devil!"

"Are you sure we will be able to escape." Shi Yan's eyes slightly changed while he pointed toward something ahead. "That thing seems to have detected us already. They started changing the direction?!"

"What?" Cu Bi shouted in panic; her white face got chalky.

Chapter 240: Everything has its conqueror

Each long skinny figure zoomed through the gray miasmatic aura, quickly descending as if they wanted to wrap and tie Shi Yan and Cu Bi up tightly.

Many long thin figures appeared more and more clearly inside that fuzzy aura. They were a particular kind of beasts with a human child face, a dreary pale look, and a mouth full of fangs. This creature was three meters tall with a sturdy body, a white child-like face, and long fangs. It looked terribly scary.

The Child Devil's body projected a powerful miasmatic yin aura. The soul of this creature was unique. There seemed to have a particular layer of flesh in their brain to prevent any soul attacks. Their

movement was very fast. With a slight sway, they were in the air plunging more than ten zhangs already (1 zhang is equivalent to 3.33 meters).

Three Child Devils appeared in a short moment, showing their fangs and claws, closely approaching Shi Yan and Cu Bi below.

Although Cu Bi's soul could be as powerful as a Sky Realm warrior's, it was still hard for her to release the soul attacks when facing with the Child Devils. Thus, she could do nothing but grab Shi Yan, hurriedly leaving this place.

"We cannot leave. Your speed is fast but apparently not as fast as those strange beasts." Shi Yan stood motionlessly, seeming to be unexpectedly conscious. According to him, although those Child Devils were powerful, they still had their weaknesses. Although the icy yin aura on their bodies was very mighty, and their living power was very powerful, they should be at the fifth or sixth level at most, just equivalent to the Earth Realm or Nirvana Realm warriors. Shi Yan was not afraid of the beasts at the level.

"Boohoooooo."

The three Child Devils cried out like babies. Their white fangs quickly became sharper and longer; red blood flowed out from the corners of their mouths. That looked terribly horrible.

"Child Devils are not afraid of the Demonic Sound Clan's souls. They are our mortal enemy. When they are out, we have to hide inside of the Ancient City." Cu Bi's face was not rubicund but turning to white pale.

The three Child Devils had already been not far from him, separating and besieging Shi Yan and Cu Bi.

The Child Devils were flying around, dragging flows of bleary smoke. Their speed was extremely fast, even Shi Yan's eyes could not follow their figures. He could only rely on his soul consciousness to identify their direction.

Perhaps because the three demon children could have realized the strong burning fires inside Shi Yan, they hadn't killed Shi Yan and Cu Bi yet, only besieging them and seeming to wait for something.

Cu Bi was scared of the gaze of the deep blue eyes of the three Child Devils; her beautiful face was full of fear. Her behavior now was entirely different from the way she had treated Shi Yan earlier. She started being terrified.

"Don't worry. Have you forgotten why you and I come here? These three Child Devils should be the Sound Beasts at the fifth level. The Demonic Sound Clan cannot deal with them, but I can." Shi Yan's eyes were cold. He didn't seem to be frightened when facing these three Child Devils.

"Leave them to me."

"Shriek shriek." Three Child Devils kept shrieking and crying nonstop. Some responding sounds sometimes reverberated from a cave somewhere on the Sound Beast Mountain not far from their current place.

"They are calling for more Sound Beasts to come." Cu Bi suddenly felt unsafe. "The defensive formation around the Sound Beast Mountain is decreasing. I feel that a major upheaval is going to happen. No, we

have to go back to the Ancient City immediately. The city has all kinds of the defensive formations that can prevent the Sound Beasts from intruding."

"I want to finish my promise earlier." Shi Yan frowned. "Don't use any soul attacks on me. I take actions now."

Upon these words, Shi Yan immediately communicated with the Earth Flame in the Blood Vein Ring.

Many flows of the burning fires quickly spread out from the Blood Vein Ring and instantly rolled into Shi Yan's body. After a moment, Shi Yan's body became blazing red; inflaming formidably.

As the Earth Flame had devoured the sun power of the Sun Refined Spirit, it had quickly evolved. Its intelligence had recently increased, its burning fires were stronger than what Shi Yan had expected. It had almost gained enough power to be able to compete with the icy power of the Ice Cold Flame.

Having been burnt by the sun flames, Shi Yan's body had miraculously transformed, being able to receive more power of the Earth Flame. All the nerves and veins in his body completely absorbed this power from the Earth Flame. He felt warmer and less painful than when his system had been burnt.

His consciousness slightly flickered. Flames suddenly flew out from Shi Yan's body, instantly gathering and turning into fire clouds expanding next to Shi Yan. Each group of fire clouds contained Shi Yan's consciousness, quickly dashing toward the three Child Devils and wrapping them.

"Screech screech screech."

Three Child Devils made strange ear-piercing shrieks. Seeing the burning fires coming, they hastily ran away with fear in their dark blue eyes.

"Stay." Shi Yan shouted while his spirits had some transformations again.

The fire clouds abruptly exploded, turning into countless fire points of light covering the entire area. The fire points of light were intense and dense like drizzling rain, covering every corner of this area. After the explosion, the number of the fire points of light had compensated for their moderate power, leaving the three Child Devils with no place to hide.

"Sizzle sizzle sizzle."

White smoke instantly rose up as soon as the fire points of light hit the three Child Devils' bodies. The fire points of light were like the strongest acid in the world, rotting their bodies in a blink because their bodies were made of the icy miasmatic aura. As soon as the fire points of light touched the Child Devils, they eroded the Child Devils' bodies creating big holes immediately.

Those fire points of light of the Earth Flame conquered these Child Devils' bodies. The fire points of light scattered everywhere in the sky. The three Child Devils cried out terribly while their bodies smoked. Thus, their movements were also getting much slower.

"The Demons Crystal Pearls of these three Child Devils are robust enough?" Shi Yan turned his head towards Cu Bi and asked. She avoided his look and moved further away from him. She nodded and responded him with the shock remaining on her face. "They are all solid!"

The Heaven Flame! That is the forces of the Heaven Flame! Confusion waves surged up in Cu Bi's mind; her clear eyes looked fearful. She started to be scared of Shi Yan. She knew how dangerous the Child Devils were. Although they were one kind of the Sound Beasts, they were immune from the burning fires. As they were not scared of being hit by the ordinary burning fires, they kept attacking and slaughtering the Demonic Sound Clan's people.

However, Shi Yan's fire points of light could erode the Child Devils' bodies once the fires touched them and almost crushed them to ashes. What kind of forces was this?

Only the nemesis of the Sound Beasts in the legend, the power of the Heaven Flame, was capable of destroying them.

Cu Bi had never seen the Heaven Flame. She learned from her father the legend about the Heaven Flame conquering the Sound Beasts. The scorching Heaven Flame was the genuine terrifying conqueror of the Sound Beasts.

To the Demonic Sound Clan, wasn't this the most frightening thing?

The Demonic Sound Clan's physical bodies had the icy miasmatic trait. Although their souls were very powerful, once the scorching Heaven Flame touched them, the result was not better than what the Sound Beasts had to suffer.

In other words, if the fire points of light from Shi Yan's body hit on her body, she would quickly erode like those Child Devils. The miasmatic aura on the Demonic Sound Clan's body could not prevent it from being burnt by the Heaven Flame.

If the Demonic Sound Clan did not have the God-given advantage of souls, and if Shi Yan was not afraid of the Demonic Sound Clan's confinement, he alone, together with that Heaven Flame's power in his body, could lay down the law and rule the root in the Ancient City. He could even take advantage of the Heaven Flame's power to slaughter the whole Demonic Sound Clan.

Except if the Demonic Sound Clan had an icy secret treasure, they could use it to resist the Heaven Flame's attack. Other than that, their bodies would evaporate like steam under the Heaven Flame's power.

Cu Bi felt chilled to the bone.

When Yi Cu Bi saw Shi Yan control the power of the Earth Flame to burn the three Child Devils, making them shrieking terribly, her eyes flared up a strange ray of light. A thought came up in her mind.

Should she kill him right now?

Her eyes kept flickering. She felt that killing Shi Yan now was the best decision. Otherwise, if Shi Yan could find out a way to not be afraid of the Demonic Sound Clan's soul attacks, his existence would be a nightmare for the Demonic Sound Clan.

"Very simple." When her mind was still in chaos with many thoughts, Shi Yan had already handled the three Child Devils; three Blue Demons Crystal Pearls were hovering about in the air. His Profound Qi then quickly pulled down the three Demons Crystal Pearls into his hand.

"Here, three Demons Crystal Pearls for you. Hmm, don't worry. I will find enough Demons Crystal Pearls." Shi Yan forced a smile. When he saw Cu Bi's panic face, he said, "This world is very mysterious. The Demonic Sound Clan with the profound soul competency can easily kill me, but the Child Devils are your nemesis who can easily tear you down into pieces. Meanwhile, I am the nemesis of the Child Devils, using the burning fires' power to kill them quickly. Everything has its conqueror. Isn't that the law of nature?"

Cu Bi's face was confused. She stretched out her hand to take the three Blue Demons Crystal Pearls and said, "These three Demons Crystal Pearls of the Child Devils are more valuable than the ones of the other Sound Beasts. The Child Devils contain miasmatic yin aura and spirits which are very useful for our cultivation. If relying only on the Demonic Sound Clan's strength alone, there is no way to collect the Demons Crystal Pearls. Only the Wings Race can hunt the Child Devils down. They will use the Demons Crystal Pearls of the Child Devils to exchange for some valuable things of the Demonic Sound Clan..."

"I will find enough Demons Crystal Pearls for you." Shi Yan slightly knitted his eyebrows. "You only need to keep your promise. Hmm, being confined is not something fun and comfortable, but I am a man of my words."

"Do you hate us?" Cu Bi quickly asked.
