#### Chapter 241: Birdman

Shi Yan was surprised, knitting his brows and thinking.

Cu Bi slightly gritted her teeth and then coldly said, "If I let you free, will you find me and take revenge in the future? I have captured you and used your freedom to force you in catching the beasts for me. Will you hate me?"

"Hate you?" Shi Yan was astonished. He contemplated for a while before bursting into laughter, shaking his head. "Not that much of hatred. I am only a little discontented. If you treated me friendly at the beginning instead of threatening, I think I would still be happy to help you catch more Sound Beasts."

Cu Bi's eyes glowed, staring at Shi Yan without blinking, seemingly wanting to see through his real thought.

Shi Yan's eyes beamed out an innocent look; a faint smile appeared at the corner of his mouth. Under her gaze, he didn't seem to be startled. He shrugged and calmly said, "If you fraternize with me, we can become friends. Hmm, I am human, and you are pagan of the Demonic Sound Clan. Although it is the pagan race, it is ok for me."

"I am Cu Bi, Yi Cu Bi, glad to know you. I hope you can consider me a friend." Cu Bi thought for a while before comfortably stretching her white hand towards Shi Yan and sincerely saying, "Sorry for my rude behavior earlier. I hope that you can forget it. Now, we shall start over again."

"Shi Yan." Stretching his big hand and gently holding Yi Cu Bi's jade-like hand, Shi Yan gave out a broad smile. "That is very good."

"Thank you." Yi Cu Bi cheerfully said. "Without your help, I think those Child Devils would have devoured me. After a certain time, many Child Devils go out from the Sound Beast Mountain, considering pagans their preys. It is like when we hunt the Sound Beasts down, the Child Devils chase us, devouring us so that they can progress faster and stronger."

Shi Yan was frightened.

"The Child Devils are the Demonic Sound Clan's natural enemy. The Child Devils have been evolving non-stop, and thus they have become terrifying. They are not afraid of our clan's soul attacks and able to tear our bodies apart into pieces." Yi Cu Bi was still frightened. "Each time the Child Devils go out of the Sound Beast Mountain, the Demonic Sound Clan's people have to stay inside of the castle without daring to take one step outside. My father told me that the Child Devils and we both have been deported to this place. The people expelling us here have sent the Child Devils together with us because they were scared of the Demonic Sound Clan..."

"Argh, I did not know anything about the story of your Demonic Sound Clan before, I don't want to judge anything." Shi Yan was silent for a moment before speaking. "But I have no prejudice against the Demonic Sound Clan. I treat everyone the same way, either pagan race or humankind. If people treat me well, I will treat them the same way. If not, I will give them a hard time. It is my most basic human

behavior. Hmm, I know you also want to leave this place, that is also my purpose. Thus, I hope we can get along well together in the coming days to find out a way to get out of here".

"My father is one of the leaders of the Ancient City. The Demonic Sound Clan's people are very unfriendly with humankind; you probably recognized this already. When you are still here, I will treat you like a servant so that others will not pay attention to you. I hope you understand". Yi Cu Bi said with sincerity.

"I understand." Although Shi Yan did not like it, there wasn't anything else that he could do. Thus, he reluctantly nodded his head.

"One more thing, I hope that you use just a small part of the Heaven Flame's forces. It is better not to let other people of the Demonic Sound Clan see it; otherwise, I am afraid everyone will disturb you." Yi Cu Bi softly said, "To be honest, I had wanted to kill you earlier. Your ability to emit the Sun power is the Sound Beasts' disaster. It is also the same for our bodies; we cannot bear being burnt by the Sun power..."

Shi Yan's body was agitated.

"Do you understand how dangerous it is?"

Taking a deep breath, Shi Yan nodded his head and said, "I got it. If you do not restrict my soul, you are afraid that I can use the Heaven Flame to kill all of you. Is it right?"

Yi Cu Bi smiled agonizingly and nodded. "Yes, it is. So, if you let someone know about this power of yours, they will not hesitate to kill you right away. Because once you progress to the point where you are not afraid of our soul attack, your threat is even more terrible than that of the Wings Race. Anyway, this place does not have any particular icy weapons to prevent the Heaven Flame' attack. It is also the reason we have to return to our Ancestry Land. It has been said that there is a secret weapon in our Ancestry Land that can help the Demonic Sound Clan not be scared of the power of the burning fires nor the Child Devils' carnage".

"Hiss hiss hiss."

Flows of gray smoke flew out one after one from inside of the Sound Beast Mountain. When the gray aura flooded the area, many strange Sound Beasts stormed out from the mountain.

There was variety in the appearances of the beasts. Some were like Apes with two curved horns on their head, some were like Tigons, some were like the Scale Armour Beasts... A bunch of them had different shapes with furious icy auras on their bodies. They should be the Sound Beasts dwelled inside of the Sound Beast Mountain, also excellent resources for the cultivation of the Demonic Sound Clan's people.

"My god, so many Sound Beasts are coming out; the formation technique seems to have weakened a lot." Yi Cu Bi fearfully screamed out loud. "Not good! The commotions of those Sound Beasts are too big, and it will disturb the Wings Race for sure. Perhaps they are on the way here. No, I have to go back to inform my father about this."

"Those Sound Beasts do not dare to come here." Shi Yan faintly smiled, "Hmm, let me retrieve the Heaven Flame first. If the Heaven Flame's aura is still there, those Sound Beasts will not act recklessly. If

we want to hunt more sound beasts, we should pretend a little bit like this so that they will take the bait."

Clouds of burning fires turned into many flows of light going into the Blood Vein Ring from every corner and were retrieved by the Earth Flame. The burning fires' power on Shi Yan's body also went back into the Blood Vein Ring. His glowing red body quickly recovered and regained its normal state.

Not long after that, there were no burning fires around Shi Yan anymore.

A group of the Sound Beasts on the flank of the Sound Beast Mountain was strangely staring at Shi Yan, but they hesitated to move forward and seemed to know that it wasn't easy to bully Shi Yan.

Lightning struck down around the Sound Beast Mountain. It was unknown why the lightning appeared to get weaker; the giant-dragon-sized lightning now gradually became as small as an arm.

"The formation technique kept getting weaker!" Yi Cu Bi was very astonished. "Abnormal, really strange. Something strange is happening apparently. If not, the Sound Beast Mountain cannot be this weird."

"Shriek shriek shriek."

A shrieking sound echoed from the left of the Sound Beast Mountain. Not long after that, many black points appeared on the left of the Sound Beast Mountain.

"Birdman!"

Shi Yan squinted to have a careful look, and he suddenly screamed out in fear, "No, is this the Wings Race that you have described?"

A bunch of black points in a distance looked like humankind with wings. The differences between them and the others were the wings growing from their backs and a sturdy body shape.

Five guys of the Wings Race had wicked appearances, hooked nose, and cold eyes. They flapped their wings flying out from behind the Sound Beast Mountain towards Shi Yan's place very fast.

"They are the Wings Race's people." Yi Cu Bi nodded with her tightly knitted eyebrows. "Perhaps the commotions of the Sound Beasts have disturbed the Wings Race. Hmm, if even they got astounded, I think the people in the Ancient City might also know about this already; perhaps they are on their way to come here."

Five men of the Wings Race flapped their gray wings, quickly zooming to Shi Yan 's location.

In a short moment, the five men of the Wings Race arrived in front of Shi Yan. They stayed away in the distance, throwing a sharp glance at Shi Yan. Their cold eyes were even more freezing. One of the guys in the lead unfriendly looked at Shi Yan with a bitter smile and said, "Humankind, unexpectedly!" All of these five men of the Wings Race were at the Earth Realm; their gray wings emitted spiritual powers.

Their soul competency seemed feeble; even their spiritual power had not formed yet. They apparently couldn't confine Shi Yan's sea of consciousness in just a blink like Demonic Sound Clan had done.

However, the brain structure of the Wings Race was very special, and it seemed to be able to prevent the invasion of the spiritual powers like a soul isolator. Shi Yan's soul consciousness could not intrude into their brains.

Perhaps the reason that the Wings Race's people encountered difficulties in cultivating their soul power should be related to their particular brain structure. The particular brain structure gave them mighty protection forces that could resist the soul attack of the Demonic Sound Clan, but it also limited them from improving their soul cultivation.

"What about the humankind?" Shi Yan looked calm, dragging a smile out of the corner of his mouth.

Shi Yan was honestly obedient in front of the Demonic Sound Clan because they could confine and control his soul. However, the Wings Race was nothing to Shi Yan although they had a sturdy body and a strong protection against the soul attack, as well as being the enemy of the Demonic Sound Clan.

With the same Earth Realm cultivation base, without using the power of the Ice Cold Flame and the Earth Flame, Shi Yan was confident to be able to defeat those five guys.

"I hate humankind!" The man of the Wings Race forced a cold smile and then asked, "Answer me, how did you come here? How many of your fellows are there? If you don't tell me, I will let you know that venturing into the Wings Race's territory is a fearful thing."

"When did this place become the Wings Race's territory?" Yi Cu Bi coldly shouted.

"Hahaha, even the Ancient City of the Demonic Sound Clan belongs to the Wings Race's territory. Obviously, this place is not an exception." The guy looked arrogant.

"Are you Cu Bi? You wait and see. The Wings Race will conquer the Demonic Sound Clan soon. Up to this time, you will become my slave. I will favor you. I know the Demonic Sound Clan's body cannot bear such a strong sexual penetration. Don't worry, I will be very gentle with you and will not let you die."

Yi Cu Bi's body slightly shivered. She was lividly angry, looking at that guy with full of hatred.

"Birdman, your mouth stinks!" Shi Yan coldly shouted.

"Damn humankind, what did you call me?"

"Birdman!"

#### **Chapter 242: Totally wiped out**

The face of the Wings Race's man was malignant; his eyes shot out a cold ray of light. A flow of murderous aura slowly spread out from his gray wings all of a sudden. Gently flapping his wings, the man of the Wings Race deliberately moved towards Shi Yan. Sharp wind swords condensed and emitted dazzling splendid light on his way approaching Shi Yan. The wind power hidden inside those swords was very terrifying.

"Stupid humankind, I will make you wish that you would be better dead than alive. The one who insults Han Long doesn't dream to have an easy death."

When the Wings Race's man flapped his wings, each of the sharp wind swords shrieked and flew out, creating many glowing lights in the air flaring up and immediately disappearing.

The other two men of the Wings Race with cold, gloomy eyes were behind him, one on the left and one on the right. They were protecting the man in the middle.

The cultivation base of the three Wings Race's men was at the Earth Realm. The man on the lead named Han Long probably had the cultivation base which was one level higher than the other two, perhaps at the Second Sky of the Earth Realm. His body was very sturdy; his muscles contained vigorous power as if he would immediately turn into a javelin darting toward Shi Yan.

"Good. Come here." Under the attack of those sharp wind swords, Shi Yan beamed out a faint smile; his face didn't show any fear. He screamed out loud before slightly moving his body. His body easily avoided those wind swords as quickly as lightning.

"That's all you have?" Shi Yan didn't even urge the rampage nor the negative powers yet. "If you only have this, you are done."

"Han Long!" Yi Cu Bi's face slightly changed; her eyes were full of astonishment. "You are Han Long, the son of the Gray Wings Clan's leader?"

"Stupid humankind, you are dead." The man of the Wings Race did not care about Yi Cu Bi; he slowly took a deep breath, seeming to restrain his anger. "I will arrest you, bring you to the Gray Wings Clan and let you suffer the molesting hands of the Lewd Laughing Ape." The other two guys beside him burst into laughter with malicious faces after hearing that.

"You have a special taste I assume. Do you often do it with Lewd Ape?" Shi Yan with a strange face looked like he had just woken up from a long time of consciousness. He clapped his hands and laughed out loud. "You are right. Birdmen are also a hybrid delivered by animals. It is understandable if you do it with the Lewd Ape. I am just too surprised."

"Boom."

An explosion came out from behind the Wings Race's man called Han Long. The flapping speed was getting faster. Like an arrow shot out of a bow, Han Long flew straight towards Shi Yan with a cold face and a hateful look in his eyes.

In the howling wind, the two silver secret treasures on his hand emitted dazzling silver light which contained tremendous, unbreakable ferocious aura. At the same time, muscles on the body of the Wings Race's man expanded, and the mighty profound Qi inside his body also moved faster. Concurrently, Han Long had been irritated completely, determinedly launching one strike to kill Shi Yan.

Shi Yan's eyes slightly squinted. The flows of white-gray smoke slowly flew out from the pores of his entire body. In that mist of smoke, different negative feelings of despair, bloodshed, violence gathered behind him altogether.

A flow of cold, strange, viperous and resentful aura suddenly became denser and more intense. The white-gray smoke quickly converged and condensed into a terrible furious phantom.

The negative feelings condensed into an entity. Shi Yan had discovered this skillful attacking technique. He made use of the negative feelings floating around in the air, condensing into a phantom which was the mix of reality and illusion. As this phantom contained a lot of negative emotions, it was similar to giving it life.

After the phantom was created, not only did it bring out terrifyingly horrendous forces but it also contained various negative feelings to slaughter enemies, stirring up the enemies' mind and breaking their defensive forces so that the negative feelings could easily absorb into their mind.

"What is it?" As soon as seeing the phantom, the three guys of the Wings Race all screamed out at the same time.

Yi Cu Bi's face slightly changed. She silently moved backward, keeping a distance from the phantom.

The Demonic Sound Clan's soul was unique; Yi Cu Bi's soul competency was profound, and her power sense was thorough. At the moment that the phantom had appeared, she had immediately recognized a weird thing about this phantom. Although many malicious forces gathered inside its body, it also had a lot of emotional movements. This unusual creature with ferocious life was full of bloody murderous desire.

"Break." Shi Yan shouted out loud while lifting his two arms up in the air launching the dazzling Life and Death Seal.

Han Long's silver secret treasure like a giant claw also emitted the sharp silver light dashing towards Dan Yan like real sharp weapons.

However, as soon as Shi Yan launched the Life and Death Seal, the silver lights darting towards him broke into many silver points of light and vanished quickly.

The Life and Death Seal crushed that silver lights like cutting dry plant stems, and it then continued lunging straight towards Han Long's chest. Han Long's face changed dramatically; his sturdy body ceased in the air and quickly flew away. The tremendous, profound Qi gathered inside his body. He flapped his wings very fast; howling winds burst and formed a visible flow of whirlwind.

The Life and Death Seal kept dashing and piercing that whirlwind impetuously. Boisterous explosive sounds continually reverberated; that whirlwind went off completely and quickly disappeared.

"Kill him!" Han Long's eyes were like a poisonous snake, staring at Shi Yan. As soon as the whirlwind vanished, Han Long quickly stepped backward. The other two men of the Wings Race rapidly approached Shi Yan, one on the left, and one on the right. After having moved back to avoid the aftershocks of the Life and Death Seal's explosion, Han Long continued to dart toward Shi Yan, emitting a ferocious murderous aura.

"Shi Yan, he is the son of the Gray Wings Clan's leader. You, you..." Yi Cu Bi couldn't help but scream out loud trying to stop Shi Yan from fighting with him.

"Go!" Shi Yan didn't even bother to throw her a glance. He stretched his hand pointing to Han Long. The giant phantom hovering about behind him suddenly flew out, extending its giant claws, showing its fangs, approaching Han Long and sinking its fangs into him.

"Boom."

Many flows of glowing burning fires suddenly inflamed in his palms, wrapping around his fingers like a worm twisting.

"Let burn your feather first." Shi Yan swung his hand. A flame flew out from his hand, rolling toward the two men of the Wings Race who were heading to him.

"He is the son of the Gray Wings Clan's leader. Shi Yan, there is no use in killing him. Forget it. We should leave now." Di Cu Bi shouted.

"You moron, you cannot live!"

Under the phantom's attack, Han Long was still idiotic; he grinned and said, "Who insults me will have to wish to be dead than alive."

"Birdman is Birdman, limited intelligence." Shi Yan shook his head; his eyes were cold. When he flickered his consciousness, the phantom threw itself on Han Long and spread out its violent negative forces covering Han Long's body in a blink.

"Hiss hiss hiss."

A heart-rending scream rose up. The Heaven Flame had touched the two men of the Wings Race, the burning fires burned up the gray wings on their back. Both of them drearily shouted in panic; all of the forces on their bodies gradually disappeared.

"No trouble in the future if you all die!"

The intense burning fires like masses of clouds suddenly changed direction, flying towards the three men of the Wings Race. When Yi Cu Bi screamed out in fear, the Heaven Flame had already wrapped them up.

The phantom quietly returned next to Shi Yan and gradually vanished.

Being burned by the burning fires, the three men of the Wings Race didn't have a chance to scream. In just a few seconds, their bodies were burnt to ashes, dispersing with the wind. None of their spiritual auras remained.

Shi Yan was surprised. He closed his eyes to sense for a while before shaking his head regretfully, thinking that he should just use only a small part of the Heaven Flame to fight next time; otherwise, there would be nothing left for him to take.

Ashes of those men dispersed and vanished. Just like that, the three men of the Wings Race disappeared from Shi Yan's sight.

Yi Cu Bi's infatuating eyes were still full of panic. She horribly looked at the ashes scattering everywhere and suddenly felt chilled.

"Roar roar."

Inside the Sound Beast Mountain ahead, the Sound Beasts instantly howled altogether as soon as they saw the Heaven Flame. Many Sound Beasts had gone out of the Sound Beast Mountain before the

Heaven Flame's appearance. However, when the roars and howls reverberated, they all trembled and quickly ran back into the Sound Beast Mountain.

The high-level Sound Beasts could feel the destructive power of the Heaven flame. They roared and howled to call their descendants to avoid Shi Yan's Heaven Flame.

In a short time, all of the Sound Beasts had already retreated.

On the Sound Beasts' Mountain flank, the Sound Beasts with firm bodies displayed panic and horror looks, staring at Dan Yan from a distance. Apparently, those Sound Beasts were frightened as they knew the danger of the Heaven Flame.

"You, you killed Han Long. Why did you kill Han Long?" Yi Cu Bi mumbled with a confused face. She said in shock, "Han Long was the son of the Gray Wings Clan's leader. The Gray Wings Clan is one of the three branches of the Wings Race. The head of Gray Wings Clan has been very combative and always covered his men's weaknesses. When he finds out that Han Long has died, he definitely will get crazily mad."

"All three of them died, who will be the bearer of the bad news? No one."

Shi Yan smiled.

"That guy had wanted to kill me. Of course, I could not just let them kill me without doing anything. Their death was not too messy. Hmm, if I stay here, the Sound Beasts on the Sound Beast Mountain will not come out for this moment. Maybe we should move away and wait for the Sound Beasts to come down. We will then continue to kill them?"

"Hope so." Yi Cu Bi wasn't sure.

"The Wings Race have a pure soul cultivation. He will find out that Han Long has been dead, but he cannot know who has killed him. I hope he will not know the cause of Han Long's death. Otherwise, not only will you get trouble but also will our tribe have to suffer his anger."

"Swoosh swoosh swoosh."

The sound of flapping wings suddenly came up from a distance from behind the Sound Beast Mountain. This time, there were many flapping sounds in the air, which meant that many people of the Wings Race were coming.

"Go, quick!" Yi Cu Bi's face changed. She held Shi Yan and flew away, heading towards the Giant Stone Ancient City.

Chapter 243: Birdman

Shi Yan was surprised, knitting his brows and thinking.

Cu Bi slightly gritted her teeth and then coldly said, "If I let you free, will you find me and take revenge in the future? I have captured you and used your freedom to force you in catching the beasts for me. Will you hate me?"

“Shi Yan.” Stretching his big hand and gently holding Yi Cu Bi’s jade-like hand, Shi Yan gave out a broad smile. “That is very good.”

### God of Slaughter

#### **Chapter 244: Five Devils Condensation Refining**

In a big stone chamber with dim light.

Shi Yan held his breath and meditated. His eyes sparked a subtle electric light which looked splendidly bright in the dark stone room.

When his fingers gently fondled the Blood Vein Ring, his spirit was immersed in it. The world inside there gradually appeared within his mind.

As he spread out his mind, he felt that the Blood Vein Ring seemed endless, quiet, empty, and immense.

In this strange space, there were three particular areas; one was so cold that it could freeze one's marrow, one was sweltering and dazzling while the rest was unpredictably extraordinary.

The Ice Cold Flame, the Earth Flame, and the giant Fire Crystal Sword stayed in three separate areas, being tied up by the Blood Vein Ring inside of its anomalous space. Dubious gray hazes surrounded the Ice Cold Flame, preventing it from releasing the ice powers.

Even when Shi Yan's spirit called for it, the Ice Cold Flame had no strange reaction.

Opposite to the scorching dazzling light, the miraculous soul appeared clearer. After having obtained the sun power of the Sun Refined Spirit, the Earth Flame was going through a fast transformation; its soul gradually formed and had a self-controlled consciousness.

When Shi Yan's spirit concentrated on the other area, and his consciousness went through many layers of obstacles, he realized that the Earth Flame's area was full of burning fires and flooded with light and

terrifying heat. If it wasn't because of the Sun power that had tempered his body and soul nor the scorching Sun power inside his consciousness, his soul consciousness could have been burnt to ashes already.

The burning fires burst up, radiating dazzling light and releasing great heat as if it had to burn everything down completely.

"You... you come here..." Suddenly, a fragile stream of consciousness slowly went into Shi Yan's spirit from those fires.

In the dark stone chamber, Shi Yan's eyes shot out the electric light; his body slightly shivered. The Earth Flame sent out a complete message for the first time. It meant that its form would be shaped for real in a short period. It also meant that from now, it was able to communicate conveniently with him like the Ice Cold Flame.

"You, finally you can send out a clear message. That's superb. No need to rush; continue cultivating. You and I can have a real conversation soon." Shi Yan beamed out a smile from the corner of his mouth and gently fondled the Blood Vein Ring, sending out his message.

"I... I will quickly, can quickly transform to be like it..." The Earth Flame's voice was like a baby practicing to speak. Although it was not fluent, Shi Yan still could understand it.

"Good, I am waiting for that day."

Inside the Blood Vein Ring, the Earth Flame's spirit violently vibrated in the middle of the burning fires. When Shi Yan's spirit observed inside of the Blood Vein Ring, he could see each thin stream of burning fires twisted and condensed, weaving into a mysterious magnetic field.

Burning fire fibers like human brain nerves became the life source of the Earth Flame.

After having received Shi Yan's consciousness, the life of the Earth Flame twisted and refined faster through some miraculous ways.

Each thread of the fire stream of souls was like a lively animal, dancing inside of the magnetic field and emitting firepower that made people's souls trembled.

Shi Yan's mood was very good while he slowly retrieved his consciousness.

Although he could not communicate with the Ice Cold Flame, the Earth Flame's transformation made him very happy. With the current transforming speed, the Earth Flame would have a complete form in no time, turning into the Heaven Flame like the Ice Cold Flame.

After finishing this step, the Earth Flame would be considered the genuine Heaven Flame. Absorbing the sun power of the Sun Refined Spirit had apparently helped its transformation.

Inside the dark stone chamber, Shi Yan was sitting cross-legged and breathing regularly. He was in deep thought. A moment later, he sent his spirit into the Blood Vein Ring again to observe the huge sword's hilt in the Blood Vein Ring.

The gigantic sword was like a brilliant fire crystal. There were many closing evil eyes on the sword. The sword hilt had lost all its former splendid power since it had entered the Blood Vein Ring. It did not

release any special powers; the former attacking power that easily destroyed the others' souls also completely disappeared.

The gigantic sword hovered about in the Blood Vein Ring. It seemed to have turned to a regular big sword. Shi Yan's spirit observed for a while but still could not find anything special.

His consciousness could hardly connect with the sword. He wanted to take the gigantic sword's hilt out of the Blood Vein Ring to observe it carefully, but he realized that he could not do so.

Although he had worn the Blood Vein Ring on his finger, he still did not have a profound understanding about this ring nor command the Blood Vein Ring until now. He realized that he was always in a passive mode with the Blood Vein Ring and let the Blood Vein Ring lead him around by the nose. He didn't like this feeling but could do nothing.

A ray of light flashed up from a corner of the Blood Vein Ring. The light was not dazzling nor as glowing as the Earth Flame's light.

Shi Yan had wanted to retrieve his spirit out of the Blood Vein Ring before detecting the existence of the light as well as layer upon layer of forces of the formation technique from that light.

While being shocked, Shi Yan suddenly remembered that after having entered the Earth Realm, he hadn't continued to break the protection wall of the Blood Vein Ring.

Inside of the Blood Vein Ring had a peculiar memory soul. Both the Rampage Martial Technique and the Life and Death Seal came from the Blood Vein Ring. Every time the forces in his body increased to a specific level, he would receive a beneficial martial technique from the Blood Vein Ring.

After contemplating for a while, Shi Yan retrieved the spirit from the Blood Vein Ring. In the stone chamber, Shi Yan quietly hauled out the Refine Pill, swallowed it, and started to restore his profound Qi.

After regulating for a long time, until he felt his energy peaked, he suddenly launched powers.

The massive profound Qi like a flood breaking dikes poured into the Blood Vein Ring aggressively and became a powerful light beam. With its highest speed, it went straight to the hard protection wall inside of the Blood Vein Ring.

"Thud."

An echoing sound from inside of the Blood Vein Ring came out; the solid protection wall shattered into pieces all of a sudden.

A wave of memory with different symbols dispersed out from behind that protection wall like a surging tide, jumping into Shi Yan's sea of consciousness and becoming a memory engraving on his brain without being removed easily.

A bunch of strange symbols in his head congregated and formed a strange Heaven Formation. This formation could gather the negative feelings which were the Five Devils in the Sea of Mind.

The sea of consciousness churned up. These strange symbols slowly flew up in there, causing some abnormal changes.

At the same time, Shi Yan's body slightly trembled. The negative feelings from the meridians of his entire body started to be uncontrollable, spreading out vigorously and assembling in the sea of consciousness.

The soul consciousness gathering in the sea of consciousness was stirred up. Strange symbols from the Blood Vein Ring started to absorb the soul consciousness' forces in the sea of consciousness and engraved on Shi Yan's spirit.

Gradually, those symbols turned to be five tiny transparent figures whose appearances were exactly identical to Shi Yan's. Each of those dwarves was immersed in the sea of consciousness, absorbing the power in the sea of consciousness. Shi Yan's living aura gradually developed inside of the transparent dwarves as if they were given some Life Seal.

Inside the dark stone chamber, Shi Yan's eyes were sparkling like twinkling stars in the sky. Different uncontrollable negative feelings spread out and then flew towards the sea of consciousness very fast. Those flows of negative emotions rolled into the five transparent dwarves.

Despair, fear, bloodshed, greed, and resentment were five different kinds of feelings. Once they poured into the sea of consciousness, they immediately dispersed. The five feelings divided into five flows which were like separated long fibers going into each different transparent dwarf.

Shi Yan was sitting motionlessly and suffering everything passively.

After the five feelings of Despair, Fear, Bloodshed, Greed, and Resentment poured into these five transparent dwarves, the dwarves' appearances gradually transformed.

The skin of the dwarf with Despair became dark blue; his shoulders started to be covered with Pangolin' scales; two extra arms grew from underneath of his two original arms.

The dwarf absorbing Fear grew a peculiar sharp horn. His two eyes became a strange silver white.

The dwarf with Bloodshed had blazing red eyes, an angry face, and a long thin fang growing out from the two corners of his mouth.

The dwarf absorbing Greed closed his two legs while a tail grew behind him at his waist.

The eyes of the Resentment dwarf became deep blue and cold. The black veins wrapped its entire body; its nails were like sharp knives.

Different uncontrollable emotions flooded into the sea of consciousness and poured into the five dwarves. After that, the five dwarves slowly transformed, becoming more and more devilish with full of the wicked aura covering their bodies, making others' spirits frightened and panic.

Shi Yan did not know what had happened; he just could passively accept everything. He then gradually realized that although his living energy had been instilled into the five dwarves in the sea of consciousness, they became more and more different from him and almost identical with the phantom which he had condensed and refined by making use of the negative forces.

Shi Yan was frightened.

Devil of Despair, Devil of fear, Devil of bloodshed, Devil of greed, and the Devil of resentment.

The five dwarves' appearances became more and more ferocious. From each flow of his bobbing consciousness in the sea of consciousness, the ancient symbols appeared again, went into the five dwarves' bodies flaring up and then disappearing right away. It seemed to check and identify these five dwarves.

Those Devils were condensed and refined by the negative feelings.

Shi Yan's body was agitated. A stream of spirit light appeared in his head. For a moment, different kinds of profound Upanishads related to the formation technique of the Five Devils in the Sea of Mind started to respond from the five Dwarves. These Upanishads also poured into Shi Yan's head, becoming a part of his memory.

In a blink, Shi Yan seemed to master everything about these five Dwarves. He had found a way to control them and figured out exactly how to use them.

All kinds of negative feelings kept flowing out non-stop from inside the and quickly pouring into the five dwarves. After they had received the feelings of Despair, Bloodshed, Fear, Greed, and Resentment, the ferocious auras on their bodies were getting stronger and stronger that could violently intimidate others' spirits.

"Get out!" Shi Yan shouted out loud.

The five dwarves in the sea of consciousness instantly disappeared. Right after that, five illusory ten-meter-tall Devil images reappeared behind Shi Yan. These were the five Devils of Despair, Bloodshed, Fear, Greed, and Resentment in his sea of consciousness.

#### **Chapter 245: He is very special**

"Roam roam"

Outside the Giant Stone Ancient City, in a thick immense forest, growls of sound beasts resounded regularly.

A bunch of Demonic Sound Clan's people complacently stayed inside the city, did not dare to go out because they were afraid of being attack by the beasts outside.

In a past few days, sound beasts in Sound Beast Mountain all got out of the mountain because the control style had been weakened, which messed up everything around.

Among sound beasts, there were even demon children at the sixth or seventh level.

Demon child could be said to be the natural enemy of Demonic Sound Clan. Demon child's existence threatened each member of Demonic Sound Clan to the max, once hearing the bitter cry of the demon child, they felt frightened out of their wits immediately.

In the Giant Stone Ancient city, on the old dark gray lava rock wall, there were full of drawings of different beasts. Each radiant stone was encrusted into the wall, emitted sparkling lights.

This big city was covered by a powerful energy, this flow of energy always existed, just like big powerful waves strongly affected sound beasts.

The control style' shelter covered the ancient city, prevented all sound beast outside. Sound beasts only stayed outside howling, did not dare to invade the ancient city.

On the wall of ancient city.

Yi Tian Mo was wearing a blue tunic standing straight. His face was thoughtful looking out far away, together with the other two leaders Ya Meng, and Ka Ba of Demonic Sound Clan.

Yi Cu Bi and Ya Ji were behind the three leaders – Yi Tian Mo, Ya Meng, Ka Ba, they also seriously looked out.

Outside the city, sound beast's growls and shrieks resounded nonstop, dark yin hovered without dispersing. All kinds of sound beasts surrounded the ancient city waiting for something.

Three leaders standing on top of the castle frowned and discussed with a low tone, they did not seem optimistic.

"Cu Bi, where is the human warrior you have captured?" Ya Ji was holding some green pearls, stolidly asked.

Inside those pearls, there were light moving souls, the pearls collided to one another in his hand, often flashed out a little of strange soul energy.

"How is it related to you?" Yi Cu Bi knitted her brows slightly, did not want to answer him, turned back glancing at another girl nearby, and asked: "Xue Fei, your father is very familiar with sound beast mountain, your people often go to sound beast mountain recently. Do you know why the control style of the sound beast mountain has been weakened?"

Xue Fei is the sole daughter of the leader Ka Ba, with glowing snow-white skin, picturesque eyelashes, deep eyes, was also an exceptional pretty girl of Demonic Sound Clan.

"I don't know. The control style keeps getting weaker incomprehensibly. This time it is really strange. Many demon children have got out of the sound beast mountain, but they still lingered here without dispersing, eventually what do they want to do?" Xue Fei shook her head, showing that she did not know.

"Cu Bi, that human warrior is a little dangerous. You should exchange him to me". The pearls in Ya Ji's hand collided constantly, soul energy circulated inside those pearls.

"These Yin God Pearls have been refined from those warriors' souls by a secret method. They are very useful for our soul cultivation. If you give him to me, these Yin God pearls are yours".

"Ya Ji, since when do you become so generous?" Xue Fei was curious, opened her eyes and asked surprisingly? "Just because of one human warrior, you can exchange these pearls. Is he very special?"

"Warriors who I have captured came here to deal with that guy. Unexpectedly, he is not scared. He seems to have some secrets, humph, I think he is special."

Xue Fei noticed that Cu Bi did not want to exchange. She guessed Cu Bi might also know something special about Shi Yan, she wanted to clarify more. "Is it so Cu Bi? You have captured him for long, you should have realized something special about him?"

“There is nothing to discover”. Yi Cu Bi coldly said.

Ya Ji smiled, obviously did not believe her. “Let do this, you come to my place, I can let you choose five human warriors. I use those five warriors to exchange for that guy. What do you think?”

“Ya Ji, you are so annoying.”. Yi Cu Bi’s face was uncomfortable.

Ya Ji coldly snorted, his eyes became frigid, clearly unhappy.

“Roam roam”

At this moment, Sound beasts’ crazy howls resounded from far deep of the forest outside the ancient city.

“Swoosh swoosh”

A birdman with five or six-meter long gray wings being attacked by sound beasts flapped his wings shrieking and flying away.

Sound beasts surrounding aggressively attacked, but elder of Gray Wings Clan was not frightened, his body projected dazzling wind blades, which sound beasts had to ward off.

Under pressure of sound beasts, this elder of Gray Wings Clan still dared to enter the ancient city of Demonic Sound Clan, walking arrogantly.

The control style’s shelter on ancient city’s walls of Demonic Sound Clan shrank strangely when his figure appeared, let him enter the ancient city freely.

“Duo Long-ge [1], what brings you here?”. Ya Meng’ head was full of white hair, held his head up to the sky laughing, clasping his hands towards Gray Wings Clan’s master in a distance. “We are discussing if we should visit Gray Wings Clan, unexpectedly Duo Long-ge already come here first, that is very good”.

Yi Tian Mo’s ashy gray eyes flashed up worried, secretly glanced at Yi Cu Bi signaling.

Yi Cu Bi was talking to Ya Ji, Xue Fei, suddenly her eyes changed strangely, nodded her head slightly without letting anyone notice, spoke to Xue Fei, Ya Ji: “I have something to do, I should go now”.

Upon her words, without waiting for Ya Ji’s, Xue Fei’s reaction, her subtle body gently swayed and disappeared in a blink.

The master of Gray Wings Clan – Duo Long’s eyes was murderous, stared at Ya Meng, Yi Tian Mo, Ka Ba shouting: “I’ve heard you have captured some human beings?”

“That’s right”. Ya Meng’s face looked astonished. “Previously, some human beings appeared in the forest near here without any known reasons. They have been captured and confined. Why do Duo Long-ge also pay attention to these human beings? Why your Gray Wings Clan also want to use humankind’s soul to cultivate something?”

“Bring out all those warriors here, I want to look for someone”. Duo Long’s eyes were like a ferocious poisonous snake, extremely malignant. “Han Long my son, has been killed by a human being. I want to crush his bones into ashes, make him suffer all painful tortures”.

“What!”. Ya Meng, Ka Ba, Yi Tian Mo could not help yelling, their faces were extremely frightened.

“Ok, I know what to do”. Ya Meng nodded his head, understood this was important, turned to Ya Ji, said: “Bring all human warriors here.

Ya Ji bent his body leaving quickly”.

“Yi Tian Mo, I have heard you’ve also captured one human warrior. Should you also...?”. Ya Meng looked at Yi Tian Mo

“Yi Feng, you go back and bring that human out here”. Yi Tian Mo did not say too much, looked towards the guy not far from him, commanded. Yi Feng also quickly left.

“Duo Long-ge, does Gray Wings Clan area over there also have sound beasts everywhere?”. Ka Ba suddenly asked.

“Only your area is serious. Sound beasts’ levels are very low in our area, easily to be wiped out”. Duo Long’s face was cold, it seemed he did not want to talk about anything before taking his revenge.

Ka Ba wanted to ask something, but seeing his cold face, he smirked and stopped asking.

Ya Meng, Yi Tian Mo did not say anything more, waited silently with strange faces.

Not long after.

Ya Ji and other guys of Demonic Sound Clan used some beasts to pull along a big cage with Cao Zhi Lan, Pan Zhe and others inside.

Cao Zhi Lan, Gu Ling Long, Pan Zhe, Qi Yang Qing sat at a corner of the cage, their faces changed constantly, quietly observed Demonic Sound Clan and Duo Long of Gray Wings Clan, worrying.

In these few days, their men had been taken away one by one and disappeared completely.

They also understood Ya Ji’s people had already killed those men who had been taken away. Although Cao Zhi Lan did not dare to use Spiritual Martial soul, she still vaguely knew those men’s souls had been extracted from their bodies, refined into special cultivation medicine for Demonic Sound Clan.

After Cao Zhi Lan released her discovery, all others were full of despair, started to regret entering the abyss Battlefield to kill Ying Mu, Shi Yan, not letting it go, everything...

Duo Long’s eyes were resentful, he cast his eyes over and over, shaking his head nonstop.

A deep blue-green crystal ball suddenly emerged in Duo Long’s palm, Duo Long slightly flipped his hand, each green light circle irradiated from the crystal ball.

In the middle of green lights, Shi Yan’s appearance like an illusion upside down in the water gradually appeared.

“Shi Yan”. Cao Zhi Lan, Pan Zhe, Gu Ling Long, Qu Yan Qing, those who were kept inside the cage, had full of fear in their eyes and shaken spirits, immediately knew who Duo Long was looking for, the one who put them into this desperate situation.

“That’s him”. Ya Ji also shouted.

“Who?”. Duo Long clenched his teeth.

“The guy who has been captured by Cu Bi, I used to meet him before”. Facing Duo Long’s cold eyes, Ya Ji did not dare to lie, quickly said: “He is a little special, those people who I have captured came to this place because of pursuing him. Many people united still could not kill him”.

“Yi Tian Mo”. Duo Long’s body suddenly projected very sharp energy, he shouted and screamed out angrily. “Hurry to bring that guy to me!”

In Yi Tian Mo’s ashy gray eyes, each ashy gray line emerged clearer, a strange flow of soul exploded in his head in sudden, profound Qi quickly gathered in his body running rapidly through his veins, he was ready to deal with Duo Long.

“I have already told Yi Feng to bring him out”. Yi Tien Mo took precautions, his face was cold, said: “He would be brought here in no time, Duo Long, you should not be too agitated”.

“Ok, I hope your man can bring that guy here, otherwise, don’t blame me not to have mercy”. Duo Long’s eyes were wide open, he slowly nodded his head.

### God of Slaughter

#### **Chapter 246: History repeated**

On the wall of the ancient city, Duo Long’s body was full of murderous pressure, his eyes contained maximum resentment, waiting quietly.

Three people Ka Ba, Ya Meng, and Yi Tian Mo stayed beside cautiously, did not say anything.

Many people of Demonic Sound Clan did not even breathe hard, stood straight, did not dare to look at Duo Long.

General strength of Wings Race was more powerful than Demonic Sound Clan. Recently, when fighting with Wings Race, if it was not because of the internal conflict inside Wings Race, Demonic sound Clan might have had been conquered already.

Wings Race’s build was strong, profound Qi was large and powerful, plus they were not afraid of the invasion from Demonic Sound Clan’s soul, they have a gifted advantage when fighting with Demonic Sound Clan.

Duo Long was the master of Gray Wings Clan. Although Gray Wings Clan’ strength was not as strong as Black Wings Clan and White Wings Clan, they were very combative. Gray Wings Clan of Duo Long was the main force who exhorted Demonic Sound Clan’s enslavement.

Therefore, Duo Long of Gray Wings Clan was hated the most by Demonic Sound Clan’s people, also made them frightened the most.

Duo Long coming here was a shake for three people Ka Ba, Ya Meng, Yi Tian Mo. For the rest of Demonic Sound Clan, Duo Long could be considered a deadly murderer, didn’t know what he would bring up.

In the cage.

Cao Zhi Lan's eyes were transparent, sweeping Duo Long's body one time, quietly stared at the crystal ball in Duo Long's Hand, astonished.

She did not know what guilt Shi Yan had done to Duo Long after all, but looking at Duo Long's face, she was afraid that Shi Yan would receive bad news more than good news this time.

It was indeed not a just game this time.

Cao Zhi Lan reluctantly sighed inside. She had hoped that Shi Yan could attack Demonic Sound Clan so that she had a chance to escape the soul confinement of Demonic Sound Clan. But Duo Long coming here caused Da Yan to become a target for everyone. Now everyone considered him a thorn in their eyes. After all, what did he do?

Cao Zhi Lan could imagine soon Shi Yan would be brought in being confined, suffered painful tortures by Duo Long so much that he would rather be dead than alive, and would be dead before them.

Qu Yan Qing, Pan Zhe were in the cage also had the same thought.

Suddenly, Yi Feng's figure appeared from a far distance.

Not even having arrived the place, Yi Feng screamed out: "Great Commander, that guy has escaped. Don't know when he has left the city, he should be outside of the city already".

"What!". Yi Tian Mo couldn't help but scream.

"Which direction?". Duo Long shouted stridently.

"Over there". Yi Feng pointed towards outside the city.

"Yi Tian Mo, hope it was not you who did it. Wait until I arrest him, I will question him". Duo Long's body plunged furiously in the air. "If I know you did it, don't blame me for having no mercy".

Upon his words, Duo Long quickly flew out.

Ya Meng, Ka Ba, Yi Tian Mo and other high-level warriors of Demonic Sound Clan all astonished for a while, flew towards Duo Long's direction to another wall.

On another wall of the ancient city.

Ya Meng, Ka Ba, Yi Tian Mo, Ya Ji and Demonic Sound Clan's people looked ahead in a distance with strange faces.

Each flock of sound beasts surrounded that area in the forest, a sixth level demon child kept shrieking, seemed to gather more sound beats.

Counting up, there were not less than a thousand of sound beasts, which was extremely dense like a cloud of mosquitos gathering.

Behind a large number of sound beasts, dazzling lights were emitted. Looking from far, it was possible to see many high-level warriors of Wings Race with long wings fighting with sound beats aggressively.

A flow of red burning fire like a lightning zoomed towards the numerous sound beasts.

Closely following the red burning fire was Duo Long, who was full of wind blades stirring in the air with his wide-open eyes and his teeth shown, held his head up to the sky laughing.

“Burning fire is really strong! That guy is the one whom you have captured?”. Ka Ba stared at burning fire’s figure, carefully observed for a while, his face suddenly changed. “That’s not right! Burning, this burning fire is not the ordinary one. It’s not. This... this is heaven flame! This is heaven flame! Yi Tian Mo, you did well.”

Yi Tian Mo’s eyes flared up bright lights, his body slightly swayed a while, miserably said: “I did not know...”

“You didn’t know?”. Ya Meng’s face was suspicious. “That guy’s body has your soul confinement seal. If you put the control style on his body, how could you not know the secrets on his body? Yi Tian Mo, you are really not scared of playing with fire, which would burn you to death in the end? You yourself are the leader, you didn’t know the danger of heaven flame to our whole clan?”

“I really didn’t know this moron could have heaven flame.”. Yi Tian Mo shook his head. “But don’t worry, Duo Long has gone there. Not to bother about this moron having heaven flame or not, he cannot hide from Duo Long’s deadly strike. Things are turning out to be like this, no need to be worried too much”.

When Yi Tian Mo was talking, Cu Bi’s body reappeared quietly below the wall of the ancient city.

“You still claim it was not related to you?”. Ka Ba’s face was cold. “Perhaps you even already knew that moron had killed Duo Long’s son, if not, you would not have let Cu Bi free him. Yi Tian Mo, do you know what you are doing? When Duo Long arrests that moron and interrogates him, even after killing him, he still can hunt you down to take revenge. You know Duo Long’s personality well, why did you do that?”

“I don’t know what you are talking about”. Yi Tian Mo’s face was still unchanged. “Even if Duo Long really wants to find me to take revenge, it’s not related to you. Why do you care so much?”

“Very good”. Ka Ba’s face was cold, towards Yi Tian Mo nodding his head, suddenly seemed to understand something, burst into laughter. “I understood, I did understand now. Yi Tian Mo, Yi Tian Mo. It turns out you already had some intention for us. Ha ha, heaven flame is Demonic Sound Clan’s nemesis. You want to use that guy to control me and Ya Meng? Finally, I understood”.

Ya Meng’s face changed, also slowly nodded his head. “So, that’s it. Yi Tian Mo, Yi Tian Mo, your plan sounds very good. Regretfully, Duo Long came here and ruined it. You definitely did not think Duo Long could know who has killed his son, that’s how your plan went wrong”.

“You guys surely have the gift of speculation”. Yi Tian Mo shook his head, his face unchanged.

“You will regret”. Ka Ba smiled faintly.

Ya Meng’s face was also frigid, obviously extremely discontented with what Yi Tian Mo had done, seemed secretly to have some forethought to deal with Yi Tian Mo.

A flow of burning fire spread out from his body, Shi Yan turned to be a rocket, accelerated towards sound beasts gathering area.

After Yi Cu Bi told Shi Yan that Duo Long had come, Shi Yan harrumphed, ran out of the city with the speed of light.

When he had killed Han Long, because he had wanted to prevent the opponent's father from knowing it, he had also killed the other two warriors who accompanied Han Long, killed all three of them. He had thought the enemy would have not found out if he had cleaned up everything. But he was wrong.

So, he could only hide.

He knew his advantage, he had heaven flame, he was not afraid of sound beasts. Therefore, the place where sound beasts gathered was the place for him to hide.

Sound Beast Mountain.

He knew from Cu Bi there was a large strong shelter in Sound Beast Mountain. This shelter was isolated from Sound Beast Mountain. Even the three leaders of Wings Race could not remove the shelter. Inside Sound Beast Mountain, there were full of sound beasts, the world yin was really strong, except sound beasts, ordinary people's power would decrease if passing by.

He only needed to arrive Sound Beast Mountain, with heaven flame inside his body, he was not afraid of sound beasts' attack. Heaven flame could burn everything, perhaps even the shelter in the mountain could also be destroyed. Sound Beast Mountain was dangerous for other people, but it was the place which saved him from Duo Long's pursuit.

Boiling burning fire in his body, Shi Yan urged electric shift, his body like a flashing light, quickly dashed towards the place sound beasts gathering.

Almost a thousand of sound beasts gathering over there surrounded more than ten people of Black Wings Clan and White Wings Clan. Among those sound beasts, there were some at the sixth or seventh level, yin was emitted everywhere from these sound beasts, creating a layer of gray cloud that could be seen.

Shi Yan was like a rocket, shot straight towards those Sound Beast that were gathering there.

Each flow of yin was like black rolling cloud moving. The yin hit his face, Shi Yan inhaled a deep breath, quickly felt more comfortable, his mind became extremely conscious.

His eyes were full of surprise, carefully perceiving for a while, Shi Yan's body slightly shivered, his face was full of joy.

Three meridians on his chest created a yin whirlpool which quietly circulated. The yin whirlpool's movement was clearly related to the nearby yin. When the yin whirlpool moved, his body started to actively absorb gathering yin.

At the same time, a whirl quietly formed on top of his head. Right at the time that whirl appeared, it immediately projected a violent power.

The nearby yin like a gray cloud was gravitated by the whirl, all became the supplement for the whirl, made it bigger and bigger.

Mysterious yin spell!

This special martial technique came from The Three Gods Sect, it was useful to take the concentrated world yin. If using mysterious yin spell in a heavy yin area, it would automatically form a whirl absorbing the world yin of that area and turned to Yin God Pearl inside yin whirlpool.

That year in Yin Exhaustion Land, he had used mysterious yin spell to resist yin air, when unintentionally urging mysterious yin spell, he had absorbed completely the world yin in Yin Exhaustion Land.

That scene was still very clear. Currently seeing the transformation of yin whirlpool, a whirl formed on top of his head, Shi Yan suddenly felt it could happen again.

He hovered still in the air, burning fire hovered inside his body, but there was a whirl refined by yin flying on top of his head, the center of the whirl emitted powerful gravity, aggressively gathered yin from everywhere.

This area, more than one thousand of sound beasts had already recognized some strange changes in the world, staring at Shi Yan resentfully.

From the wall of the ancient city far away, three people Ka Ba, Ya Meng, Yi Tian Mo also could not believe what was happening, looked towards Shi Yan's place with eyes and mouth open.

### God of Slaughter

#### **Chapter 247: Bad things turned out to be good**

"Yin Qi Condensation Refining, Yin Condensation Formed Power. What is happening?"

"I don't know. However, that guy is obviously a human being, how can he have the ability like the one of Sound Beast to gather yin for cultivation? Furthermore, his yin gathering speed is even several times faster than Sound Beasts."

"Humankind cannot have these powers. Even Demonic Sound Clan cannot aggregate yin power that fast. Our bodies cannot suffer that much yin power! After all, who is that guy?"

The three leaders of Demonic Sound Clan all got frightened with their astounded eyes wide open. They confusingly discussed together.

At the place where Sound Beasts were gathering, a middle-aged man of Black Wings Clan with black wings and a peculiar outward appearance was standing shoulder to shoulder with a beautiful elderly lady of White Wings Clan who had snow-white wings. From a distance, they were looking at Shi Yan whose body was immersing in burning fire. A yin whirl emerged on top of his head.

"Di Shan, the thing emitted from that guy's body is truly the Heaven Flame?" The beautiful elderly lady with snow-white wings had a soft melodious voice.

"It is the Heaven Flame!" Di Shan, the patriarch [1] of Black Wings Clan replied, a strange light lit up in his peculiar eyes. "First, the control style has weakened, now there appears a guy who possesses Heaven Flame. Perhaps we can get out of this place this time. Yu Rou, we have to prevent that combative Duo Long. I have recognized this human lad has Heaven Flame. According to Duo Long, he should be the one who has killed Han Long."

"Yeah, we have to deter him, we cannot let anything happen with this little rascal." Yu Rou, the matriarch [2] of White Wings Clan slightly nodded her head.

Di Shan, the patriarch of the Black Wings Clan and Yu Rou, the matriarch of the White Wings Clan discussed with each other before quickly leaving.

Many high-level warriors of Black Wings Clan and White Wings Clan were currently dealing with Sound Beasts' siege at the same place where Di Shan and Yu Rou had just left. However, it was not too difficult for them to defeat those beasts.

The number of high-level warriors of Black Wings Clan and White Wings Clan was much more than that of Gray Wings Clan. They were all outstanding experienced warriors, bravely coming here from behind the Sound Beast Mountain. Their capability in fighting with Sound Beast was extremely tremendous.

Even though they encountered the attack of Sound Beasts, as well as had no support from Yu Rou and Di Shan, they were still very composed.

Ka Ba of Demonic Sound Clan with a contemplating face seemed to consider very carefully before saying, "We need to go over there to see. This little rascal is very special, maybe he is the key for us to get out of this damn place. That's right, this guy cannot be dead. If he dies, perhaps we will never be able to get out."

After Shi Yan had released Heaven Flame and implemented the Black Formula to gather Heaven and Earth's yin, Ya Meng's attitude changed dramatically; he started to defend Shi Yan's life.

"You aren't afraid of the danger of Heaven Flame to our whole tribe now, are you?" Yi Tian Mo secretly smiled.

"This guy's cultivation is only in the earth realm, we can still control him. Wait until we get out of this sh\*tty place, we will handle him." Ka Ba coldly said.

"Isn't it so?" Yi Tian Mo smiled. "I know, everyone is curious about the way he gathers yin. Anyway, we, Demonic Sound Clan, have a big connection with yin. If we can have his method of yin condensation, it is indeed an outstanding improvement for our tribe."

"Uh, this is an important thing of our tribe." Ka Ba said with a low tone.

"So, what are we waiting for? We should go now. If Dou Long kills him, we will have nothing." Ya Meng excitedly shouted, and quickly flew out. He was not even scared of Demon child's threat.

"Yi Feng, Cu Bi, you two stay here, absolutely don't leave the ancient city at any cost." Yi Tian Mo bowed his head reminded them, then followed others.

Burning fire hovered around Shi Yan's body; Heaven and Earth yin revolved above his head. The yin whirl was dozens of times bigger than before just in a short time.

At this moment, that whirl turned out to be an ordinary one. The yin compacted in the air like a giant gray dragon twisting while quickly absorbing Heaven and Earth's yin nearby.

More and more Heaven and Earth's yin came and condensed. Heaven Flame on Shi Yan's body was also affected by the yin power. The burning fire inside his body gradually disappeared.

While the yin power had fully covered the place, Shi Yan's body was still surrounded by a twirling dense gray yin layer.

It seemed that Sound Beasts intended to storm towards him as his body had been heavier and motionless.

Shi Yan's body quietly hovered in the air. While his body was rapidly pulled up along with the whirl on top of his head, it suddenly ceased one hundred meters above the ground.

He could not control the yin whirl which had just formed. At the moment, Duo Long, the patriarch of the Gray Wings Clan was still chasing him. Shi Yan wanted to get out of his current state, but he realized the abnormal change of the Yin Swirls inside his body had been no longer under his control.

Damn the Three Gods Sect!

Shi Yan could not help but curse. The Black Formula and the Star Martial Spirit of the Three Gods Sect both had attributes which were not controlled by him.

At this critical point of time, the anomaly of the Black Formula and the Star Martial Spirit of the Three Gods Sect could put him in an everlasting perdition.

Like this time.

At this critical time, when Duo Long was chasing behind, he was still motionless because of the anomaly of the Black Formula. His body was locked tightly in the air. In a short moment when Duo Long arrived, he could easily kill him.

The anomaly of Black Formula would strike him dead.

Being still in the air, he helplessly tried to stop the Yin Swirls. Regardless of life or death, Heaven and Earth's yin on top of his head was still rolling in. Each sensible flow of the yin power gathered in the center of the Yin Swirls first before slowly pouring into meridians. The three small Yin Pearls inside the Yin Swirls quickly formed.

As soon as the three Yin Pearls formed, they rapidly fell into meridians. The icy yin power started to stir in meridians rapidly, which made the speed of the Yin Swirls' circulation and the whirl on top of his head even faster.

Shi Yan did not know whether to laugh or cry. Heaven and Earth's yin in this place was much denser than that in the Yin Exhaustion Land.

In such a short time, the three Yin Pearls had been formed inside of his meridians. If Duo Long was not chasing him behind, he would have felt that the current change was really good. It was so fortunate to make the Black Formula absorb yin from everywhere.

However, Duo Long's pursuit made him impossibly excited. Regardless of how much yin he gathered this time, once Duo Long arrived, the only option left for him was to die.

According to Yi Cu Bi, Duo Long was at the peak of the Sky Realm. It was totally true to say that one of his legs had stepped to the profound God Realm with Black Profound Magical Power.

Those with that level could have easily killed him. When facing the one with several levels higher than him, gathering more or less yin was not really of much use at this point in time.

As he quietly sensed Heaven and Earth's yin gathering, Shi Yan could not do anything but wait for Duo Long's arrival.

"Boom"

As soon as Duo Long jumped to a gray cloud layer of yin, he was struck out by two black-white wavy circles.

Duo Long's body shook constantly. Being attacked by the two waving circles, he kept being pushed backward. He was set back a hundred meters before standing steadily on the ground.

"Di Shan! Yu Rou!" Duo Long was livid with rage, shouted towards a direction.

"Why did you stop me?" No one also knew that Ka Ba, Ya Meng, Yi Tian Mo had also quietly appeared there, hundreds of meters behind Duo Long. All of them frowned, looking towards Duo Long.

"And you too!" Recognizing the intention of those three people, Duo Long turned his around, looking at them, and coldly said, "You want to stop me as well?"

"If you want to kill that little rascal, three of us will unite to stop you." Ya Meng nodded his head replying.

"You dare to confront me!" Duo Long raised his head up to the sky laughing frigidly. He fiercely said. "Mess with Gray Wings Clan, did you consider the consequences yet?"

"Enough, Duo Long!" Di Shan's voice suddenly rose up together with a black lightning. Di Shan flapped his wings and appeared in front of Duo Long in a blink of an eye.

Yu Rou gently flew there like a feather, appearing behind Di Shan. She unhappily looked at Duo Long and said, "Duo Long, calm down, let's talk. Three of them have good intentions. They are here also because of our two tribes, don't misunderstand them."

Di Shan and Yu Rou, one on the left, one on the right, blocked Duo Long's way.

Duo Long's expression changed nonstop. When facing the three people of Ka Ba's group, he could howl or shout to intimidate them.

But, facing Di Shan and Yu Rou, he did not have any of the same determination.

The strength of Black Wings Clan and White Wings Clan were both stronger than that of Gray Wings Clan. The personal capability of Di Shan and Yu Rou were also one level higher than his.

Di Shan was wicked, Yu Rou was insidious. Duo Long understood well their advantages. Him alone, being against any one of them was not a smart move, not to mention these two people were already on the same side.

Ka Ba, Ya Meng, Yi Tian Mo would obviously stick together. With their unity, he could not be careless.

"Why do you protect that little rascal?" Duo Long clenched his teeth and asked while gradually getting calmer.

“He can bring us out of here. Heaven Flame in his body could completely burn out the control style of the Sound Beast Mountain. As you have known, inside the Sound Beast Mountain, there should be a way for us to get out of this place.”

Di Shan smiled and spoke to Duo Long, “That little rascal will die, but not now. Wait until we find out a way to get out of here, then you can freely handle that little rascal. But before that, you are not allowed to harm him.”

“You all have the same thoughts?” Duo Long looked around.

Yu Rou, Ka Ba, Ya Meng, Yi Tian Mo all nodded. Everyone accepted what Di Shan had just said.

“OK, I won’t touch him, temporarily, hope your judgment is correct.” Duo Long said with a wistful face after contemplating for a while. Under the pressure of those five people, he could do nothing but agree with them. He nodded and said, “I leave you this place, I will come back to Gray Wings Clan. If there is any change, let me know. One more thing, you have to give me that little rascal later. I want him alive!

“Hmm, I can do it.” Di Shan calmly said.

Duo Long said no more, and left with an annoying face, disappearing out of sight in no time.

“I think we can now go see that little rascal. He is a lovely human being, he brings us a bright light of hope to be out of this place.” Yu Rou smiled mesmerizingly.

“Hmm, I know the danger of Heaven Flame to your Demonic Sound Clan, but I hope you would accept the situation, and should not do anything wrong. Otherwise, don’t blame me for having no mercy.”

The face of Ka Ba, Ya Meng, Yi Tian Mo changed. Under Yu Rou’s glare, they all nodded, showing their obedience.

“If we all have agreed with it, let’s go over there.” After finishing the sentence, Di Shan immediately rushed to Shi Yan’s location that was entirely covered by yin. The others closely followed him with full of curiosity about what Shi Yan had done to that area, and how it had turned out.

### **Chapter 248: Casually Response**

Masses of black clouds hovered around without dispersing. These clouds were formed by the nearby Sound Beasts’ yin.

Sound Beasts running out from Sound Beast Mountain brought heavy yin along with them. Sound Beasts’ bodies also contained yin; indeed, yin was the power resource of Sound Beasts, which was the most basic source allowing them to survive.

The whirl which originated from Shi Yan had powerful gravitation. The whirl’s horrendous existence made yin on those Sound Beasts’ bodies fly out, then merge back to the center of the whirl, turning to yin power, slowly absorbing into his body, and finally becoming Yin Pearls on his chest.

The Black Formula was awesome. It unexpectedly had a terrifying power to take in the yin from the surrounding Sound Beasts.

In the middle of the black cloud layer, the big whirl circulated on top of Shi Yan's head was getting bigger and bigger. The gravitation also increased violently.

A lot of yin gathering here rolled into the whirl, turned into pure yin power pouring into the center of the Yin Swirl.

More than one thousand Sound Beasts nearby were showing their fear and insecurities. Even Sound Beasts at the sixth level could not control yin outside of their bodies, and helplessly watched yin crazily fly towards Shi Yan. Thus, those Sound Beasts started to be frightened.

A few of high-level Sound Beasts wanted to jump into Shi Yan, who was collecting yin, and quickly kill him. However, as soon as the high-level Sound Beasts came closer to Shi Yan, they realized that there was powerful Heaven flame inside of his body.

Heaven flame was the nemesis of all Sound Beasts. Although they were in a long distance away far from him, they could sense the scorching Heaven flame on Shi Yan's body, which was enough to incinerate them.

Being terrified by the Heaven flame, Sound Beasts, which had previously wanted to jump into Shi Yan to kill him, instantly moved backward without any hesitation.

Not long after that, another flock of Sound Beasts even sped up, storming towards into Shi Yan. They eventually drew back chaotically.

In the air, Sound Beasts growled and howled like devils; they were getting aroused by something. They ignored the Wings Race's pagans and did not dare to come any closer to Shi Yan. They all quickly flew back towards Sound Beast Mountain.

Sound Beasts which were just coming close to Shi Yan immediately realized that yin inside of their bodies did not want to be under control, instead, it spread out violently, rapidly and quietly gathered towards the whirl on top of Shi Yan's head.

Those Sound Beasts had an insecure feeling. They knew that if they stayed here, their yin would be constantly drained.

Therefore, nearly a thousand of Sound Beasts had already run away.

Just right after Sound Beasts had fled, Heaven and Earth's yin coming from those Sound Beasts segregated less and less, until it stopped. The big whirl hovering above Shi Yan's head started slowing down while there was less and less yin pouring in, it gradually disappeared afterward.

The thick black clouds slowly faded and gradually vanished.

Shi Yan's body also started to fall down slowly. Without black clouds, without having reached the natural Sky Realm, he could not maintain the arrogant standing pose in the air and finally fell down into the thick forest.

"Thud"

His body fell down and the whirl above his head disappeared without leaving a trace. The yin power hidden inside Yin Pearls was horrendous, which made his entire body feel very fresh and comfortable.

The Yin Swirl on his chest seemed to be affected by those Yin Pearls and increased its efficiency. The refining speed was also enhanced.

Finally, after the Yin Swirl had refined all of the yin energies, it slowly stopped.

Shi Yan opened his eyes, and could not help but scream, then said with a low tone, "What do you want?"

Besides him, the eyes of three men, Ka Ba, Ya Meng, and Yi Tian Mo flashed up a strange light with full of suspicion. Di Shan of Black Wings Clan and Yu Rou of White Wings Clan looked at him interestingly, nodded their heads after seeing him awake.

"Little rascal, your body has Heaven Flame? Do you know how to use Heaven Flame?" Yu Rou, the matriarch of White Wings Clan, looked very beautiful with her smile. Her moderate and melodious voice could make others feel pleasant.

Di Shan squinted slightly; his squinted eyes seemed to see right through Shi Yan. When Di Shan's eyes moved, he felt uncomfortable. There seemed a strange energy that inaudibly went into his body, observing everything inside of him.

Shi Yan felt frozen inside, he did not know the other's intentions. He could not help but look towards Yi Tian Mo.

During this short moment, he and Yi Tian Mo exchanged some information. Even his soul was somehow controlled by Yi Tian Mo. Previously, Yi Cu Bi had already informed him of Duo Long's arrival, which should be Yi Tian Mo's idea. Later, he got to know that Yi Tian Mo actually did not want him to die just yet.

Therefore, he wanted to find out some useful information from Yi Tian Mo's expression.

"You'd be better answering honestly, this is regarding you, whether to be alive or dead."

Yi Tian Mo secretly nodded his head, and calmly said, "This is Yu Rou, the matriarch of White Wings Clan. This is Di Shan of Black Wings Clan. The strength of these two clans is much more comparable to the one of Gray Wings Clan. Thanks to their help, you were able to get away from Duo Long this time."

Shi Yan was frightened and silently stood up, clasped his hands towards Di Shan and Yu Rou, and respectfully said, "Thank you."

"No need to be grateful, little rascal, you have not answered my question." Beautiful Yu Rou slightly smiled.

Shi Yan calmly glared at her, fear appeared on his face. This Yu Rou lady had a very beautiful look, snow-white skin, an appealing build. In addition, she had remarkably snow-white wings. That amazing look could have strongly mesmerized other people. When she revealed her charming smile, her body radiated modesty which no men could resist.

Shi Yan was not an exception. He kept staring at Yu Rou, his eyes changed from lucid to passionate. He gradually felt close to Yu Rou, he felt that she was very trustworthy. She was worthy enough for him to share all of his secrets inside of him, she would definitely not harm him...

The sea of consciousness woke up surging.

Five dwarves in the sea of consciousness seemed to move quietly, poured five miraculous emotions into his sea of consciousness, and slowly recovered his consciousness.

His eyes returned to be lucid, Shi Yan startled out of the enchantment of Yu Rou, sweating all over his body as if he just went through an earth-shaking battle.

Really strong!

Shi Yan was frightened and really panicked. He did not dare to look at Yu Rou any longer and submissively bowed his head.

Her smile could make others unconscious, even Shi Yan, who considered himself to have a strong consciousness, almost disclosed everything. That enchantment was extremely terrifying.

Without the five dwarves' movements in the sea of consciousness, and having been gently interrogated by Yu Rou, perhaps he would have had divulged all of his secrets, including the Mystery Martial Spirit.

"Da jie [1], you should not use this ploy, I cannot stand it." Shi Yan bowed his head, miserably smiling. "I have cultivated a specific martial technique, if you keep on doing it several times more, I am afraid I will not be able to stand it any longer. I will be frightened to death. Uh, by that time, despite whatever you want to know from me, I will have no more energy to disclose anything of use to you."

Yu Rou's beautiful eyes rolled a few circles, then slightly laughed, slowly nodded her head and said, "Interesting guy, you still could wake up. Your consciousness is very strong, it was beyond my expectations. Your conquering Heaven Flame is understandable."

"Heaven Flame and I are friends, friendship, it is not a conquest like you said. After all, what do you want from me, could you please elaborate?"

With the glares of five top-class warriors, Shi Yan knew it was useless to fight back, so he extremely cooperated with them.

"Very simple, go and observe Sound Beast Mountain, use Heaven Flame inside of your body to remove the shelter in Sound Beast Mountain." Di Shan of Black Wings Clan clearly said.

"I will do what you've said. But once I remove the shelter of Sound Beast Mountain, is it the death sentence for me? I know Duo Long will definitely not forgive me, and neither will you." Shi Yan fearlessly pointed out towards Ya Meng and Ka Ba.

"We have to make this clear. By that time, will you kill me?"

"Little rascal, you worry too much." Ya Meng harrumphed coldly. "If you do not cooperate now, I can kill you right now."

"Ok, could you start now?" Shi Yan smiled, shrugged and said, "If I have to die sooner or later, why would I need to help you. Hmm, you can kill me now, that'd be better for me."

"Hmm, you know how to negotiate. You are smart." Yu Rou sickly laughed, he thought for a minute before speaking to Di Shan, "If this little rascal can remove the shelter, let spare his life. It is worth it."

Our two tribes have tried so much to get out of here, we have already sacrificed a lot. He is our only chance, if he can really help us fulfill our wish, I personally desire to spare his life. How about you?"

Di Shan squinted, slowly nodded his head after considering, "Ok"

"Clap clap clap"

Yu Rou clapped her hands while glancing at Shi Yan. She burst into laughter and said, "Little rascal, you don't need to worry anymore. If you can really remove the shelter, Di Shan and I will spare your life."

"How about them?" Shi Yan looked towards Ya Meng and Ka Ba.

"We said we would spare your life, you will not die!" Di Shan coldly shouted, looking at Ya Meng and Ka Ba, and said, "Is it so?"

Ya Meng and Ka Ba, the two leaders of Demonic Sound Clan, under the pressure from Di Shan and Yu Rou, reluctantly nodded without saying a word although they were very angry.

"Now go, I will bring you to Sound Beast Mountain." Yu Rou of White Wings Clan did not say anything further, stretched her hand grabbing Shi Yan's shoulder, flapped her wings and flew away. They had already flown a few thousand meters in just a blink, towards Sound Beast Mountain.

Di Shan closed his eyes gradually, his figure slowly disappeared.

"What should we do?" After Di Shan and Yu Rou had left, Ka Ba's face became gloomy. He looked towards Ya Meng, then Yi Tian Mo. "That little rascal has Heaven Flame, once he grows up, he will obviously be a dangerous threat for our Demonic Sound Clan."

"Di Shan and Yu Rou are on the same side now, but three of us can also unite with Duo Long. Wait until the shelter is destroyed, together with Duo Long, killing that little rascal will not be difficult." Ya Meng cruelly said.

Ka Ba was astonished for a while, then said with a grin, "That's right. Together with Duo Long, we will not be afraid of Yu Rou and Di Shan."

"Let's go see if that little rascal can really destroy the shelter or not." Yi Tian Mo said nothing with an indifferent face. He seemed to have another plan.

#### **Chapter 249: Transformation of the sea of consciousness**

Sound Beast Mountain.

In the Sound Beast Heaven, scorching flames gathered and created many heated fireballs that were violently flowing into a big mountain cave.

At the cave entrance, it was full of peculiar cold yin energies which were constantly condensing and refining. Once Heaven Flame poured in, these peculiar yin energies would be incinerated. From that burning, the sound "boom boom" as well as the fainted yin aura came up together.

Near Sound Beast Mountain, thunder and lightning were striking fiercely and violently. Lightning like Spiritual Snakes plunged down from the sky, hitting the mountain.

Shi Yan stood not far from the cave entrance, he was using Heaven Flame's power to destroy the shelter inside of the cave.

Sound Beasts which were flying out promptly flew back into Sound Beasts Mountain as soon as they saw Shi Yan. No beasts dared venture out afterward.

Shi Yan had not only the power to absorb their yin but also the power to use Heaven Flame to burn them, which absolutely scared them out of their wit.

Even high-level Sound Beasts also recognized the energy of their nemesis Shi Yan. They did not dare to get closer to him and were afraid of being burnt to death. Shi Yan's special gravitation technique could destroy all the yin that they had arduously refined.

Shi Yan's existence was not only the nemesis of Demonic Sound Clan but also of Sound Beasts.

Many flows of Heaven Flames advanced outwards into the cave. Shi Yan could realize that the shelter at the cave entrance was like billions of durable filaments that twisted tightly together. Though it was partly destroyed by the projected Heaven Flame in such a short time.

However, before the shelter was completely broken apart, there was a lot of power surging into the cave to regenerate itself. The damaged areas would be regenerated before the shelter could totally be destroyed.

He also tried the other cave openings but the results were all the same.

Caves in Sound Beast Mountain were like beehives, they seemed to have a special connection. Once the shelter of one cave was intruded, the power of the other caves would swarm quickly, uniting to defend the attack.

Heaven Flame could burn everything, including different kinds of shelters and Restriction Spell. Theoretically, Heaven Flame could have imploded the shelters, opening up the entrance to the caves.

However, even though he had already tried many different alternatives, Shi Yan realized that the shelters' solidity was totally beyond his imagination.

Once he used Heaven Flame's all-out power, thunder and lightning would strike down from the sky. Therefore, he reluctantly had to spare some of his energies to shield himself from it. As the result, he could not concentrate all of his powers to destroy the shelter.

"Phewww"

After breathing lightly, gradually retrieving the emitted burning fire, and fondling the Blood Vein Ring, Shi Yan sent out his sense to the ten-thousand-year Earth Flame, "Power, Can I not thrust out more burning fire power?"

"Possible, but you may not be able to withstand it. One more thing, I am at the point of critical transformation, it is not a suitable time to project the power constantly. Maybe with a little more time, it will be possible. Wait until I can really refine more essential forces, maybe then, will I be able to help you more." The information coming from Earth Flame was a little chaotic and interrupted. It was telling Shi Yan its current disposition.

“Boom”

A lightning violently struck down. Shi Yan moved in a blink, immediately stopped connecting with Earth Flame. He hesitated for a while before trying to use Black Formula again.

Yin Swirls at the three meridians on his chest were being affected by Yin Pearls and they started to slowly revolve.

Numerous caves nearby dispersed out plenty of yin flows from inside of it, which rapidly gathered into the whirlwind on top of Shi Yan’s head. It then turned to yin power in his body, they were then completely refined by three Yin Swirls.

Meanwhile, the power of the shelter in this cave weakened a little after he had used Black Formula.

Yin Swirls revolved, Shi Yan’s sea of consciousness rose up in strong waves. The five devils in the sea of consciousness were also under way. Five flows of emotions gradually changed his feelings, pulling along negative energies from meridians throughout his whole body.

Shi Yan entered the first stage breakthrough of rampage in the blink of an eye.

Negative energies in his whole body hovered undispersed. The gravitation of the whirlwind on top of his head created by Black Formula suddenly increased tremendously when Shi Yan entered the rampage status.

From numerous caves of Sound Beast Mountain, Sound Beasts constantly send out frightening howls and growls. They seemed to sense that something was horribly wrong. After shelters started to be insecure, Sound Beasts ear-splittingly shrieked,

“Waa waa”, “creak creak”, “howl howl”

Waves of sounds like a monstrous tide abruptly resounded from a group of the mountain caves. Those waves of sound became chaotic noises causing the anomaly of Sound Beast Mountain.

Suddenly, lightning hovering above Sound Beast Mountain like a gigantic dragon struck down from the sky.

At the same time, a few special howls of Sound Beasts created a terrifying soul attack; an invisible impulsive eye of the soul went into Shi Yan’s sea of consciousness instantaneously.

The five devils in the sea of consciousness became abnormally hasty. Being attacked by the souls, the five devils gathered all negative energies inside of Shi Yan to form its counter attack.

“Boom”

A big long lightning abruptly struck down behind Shi Yan. Lightning energy alike a filament, a part of which invaded his sea of consciousness.

The pain crawled throughout his whole body in an instant.

A while later, after the pain had spread out, Yin Swirls also stopped moving, the whirl on top of his head then vanished.

The sea of consciousness was really painful, the five devils flew around, showing their fangs and claws, and dispersed all kinds of negative feelings. It seemed to obliterate Shi Yan's consciousness, making him go insane.

Shi Yan clenched his teeth, quickly ceased in moving the rampage. Seeing the lightning strike down from the sky, he had to rapidly retreat, running down crossing Sound Beast Mountain in one breath.

The sea of consciousness rose up in big waves, the five devils inside were the leaders. Being invaded by lightning and struck by the soul attack of Sound Beasts, the five devils highly became uncontrollable. Shi Yan's spiritual consciousness gradually lost the control over the five devils, nearly falling inwards into permanent insanity.

When having cultivated this devil spell, Shi Yan had known that he always had to take control over the five devils. If not, once the five devils got out from under the control of his soul, he would become a crazy murderous devil, it was very hard to awake from it.

If it happened, the five devils in the sea of consciousness would replace his soul, his consciousness would disappear little by little.

They and the Star Martial Soul together absorbed a lot of negative energies, emitted plenty of negative powers which made him insane. Actually, his consciousness in being attacked by the negative energies would be able to recover gradually after his meridians could refine those energies.

Once the five devils controlled his spirit and replaced his soul, he would possibly end up in everlasting perdition, he would never ever awake again.

Repressing the sea of consciousness's anomalous condition, Shi Yan ran down in a single breath to the foot of Sound Beast Mountain. He then saw that Ka Ba, Di Shan, and Yu Rou were already there.

"Only a little bit more. I can feel that if you use a bit more powerful energy, and more of the refined Heaven Flame, you will be able to breakthrough that shelter." Di Shan closed his eye, then suddenly opened them. "Only a little more, why did you retreat?"

"I was counter-attacked, if I had not withdrawn, I would not have ever had a chance to attack the shelter again." Shi Yan slightly clenched his teeth, breathing heavily, his eyes lit up a fierce light. He seemed not to be scared of the pressure from the five top-class warriors, and said in a low tone, "You should have a solution, if not, once I am struck dead by the counter attack, I cannot help you whatsoever at all. I can assure that if you give me a little more time, I can definitely break that shelter."

Yi Tian Mo's face slightly changed and said, "His soul is strange, the frequency of its vibration is extremely furious. Inside his sea of consciousness, it seems as if it is going to explode soon...?"

"The sea, the sea of consciousness." Di Shan and Yu Rou could not help but scream, looking at Yi Tian Mo astonishingly.

Wings Race's knowledge and sense of soul were of far less than of Demonic Sound Clan's. Di Shan and Yu Rou had not known that Shi Yan already had the sea of consciousness. Therefore, after hearing what Yi Tian Mo had just said, they were immediately frightened.

“Ah, little rascal, we did not know you have the sea of consciousness.” Ka Ba and Ya Meng had not carefully observed Shi Yan’s brain area, now with Yi Tian Mo’s reminder, the both of them released their soul power to explore, promptly realizing that Shi Yan’s sea of consciousness was at the Nirvana Realm.

“This little rascal, is he only at the Earth Realm?” Yu Rou rubbed her forehead, bewilderedly saying.

“That’s right. I also don’t know how he could have possessed the sea of consciousness, but it is really the sea of consciousness. Currently, inside of it, there are five kinds of strange souls with different attributes; moreover, they are conflicting with one another. It is starting to affect his sea of consciousness. It can even implode his sea of consciousness.” Yi Tian Mo said with a low tone. “He cannot die.”

Di Shan’s face changed, and coldly said, “Little rascal, what should we do to help you, in not to be counter-attacked.”

“Females.” Shi Yan’s eyes gradually turned red, breathing hard, said, “I need females to cooperate, as soon as possible, give me the three human females that Ya Meng had captured and confined. These three ladies can help me avoid the counter attack, once I recover, I can definitely break the shelters in a few days.

“Only females?” Di Shan bewildered. “That simple?”

Shi Yan nodded his head.

Yu Rou’s face turned red with watery eyes, slightly smiled, and said, “I don’t know what kind of wicked technique this little rascal has cultivated. Hehe. You are also a lustful little guy. Hmm, if it is about females, then it’s easy. Ya Meng, let’s go to your place, ask your son Ya Ji to bring him three human females. Do you have any problem with that?”

“No, not at all.” Ya Meng bewildered, glancing at Shi Yan wickedly.

“Take him.” Di Shan nodded with Yu Rou and flapped his black wings, his figure gradually disappeared.

“Little rascal, if you can break that shelter, don’t even mention of three human girls, even girls of Demonic Sound Clan or Wings Race, if you desire them, I can give them all to you and you can do whatever as you wish.” Yu Rou smiled slightly.

“We do not lack beautiful extraordinary girls, amorous girls of Demonic Sound Clan, you can enjoy them to the fullest extent that you are capable of.”

Bringing Shi Yan, Yu Rou teleported, on and off in the sky, and came close to the giant stone ancient city.

Shi Yan’s eyes had turned totally red, his breath was getting heavier, he could smell the orchid fragrance from Yu Rou’s small hand grabbing him. He could not help but imagine wickedly.

In the middle of the air, Shi Yan raised up his head, looking at the beautiful lady with snow-white skin, nobly charming, his eyes gradually became enchanted.

### [God of Slaughter](#)

#### **Chapter 250: What is there to be scared of?**

In the thick forest, Yu Rou, with her soft and flexible body like the lightning in the air, gently flapped her snow-white wings, flashed up then vanished.

“Little rascal...” As Yu Rou bowed her head to glance at Shi Yan with a strange look, she shook her head reluctantly and accelerated.

While being dragged along by Yu Rou, Shi Yan’s breath was heavy, his pupils were bloodshot with full of blood veins like a bloodthirsty beast with a murderous look, which could scare others out of their wit.

Yu Rou was the matriarch of White Wings Clan. Although her soul cultivation could not be considered high and profound, her knowledge of special forces was much more profound compared to that of the Demonic Sound Clan’s leaders.

She quietly released a stream of profound Qi to explore the nerves and vessels inside of Shi Yan’s body. Her pupils suddenly trembled, her eyes lit up a splendid light.

“Impossible...” Yu Rou was really frightened, mumbling something. She again released many streams of profound Qi, gathered all of her spirits together to understand the strange condition of Shi Yan’s body.

Each stream of profound Qi went searching, which was as if thin filaments moved in and out of Shi Yan’s veins. They carefully explored his nerves, veins, bones, and intricate systems inside of Shi Yan’s body. Then, they responded in detail to Yu Rou. As the result, she could somehow see through everything in Shi Yan’s body.

Not long after that, the eyes of the matriarch of the White Wings Clan flashed on and off again. She looked at Shi Yan in a daze.

“Little rascal, are you really a human warrior?” Yu Rou suddenly asked with a serious face after contemplating for a while. Her voice was like the lightning which penetrated Shi Yan’s head violently and made his ambiguous consciousness become lucid.

In his sea of consciousness, the five devils were still stirring up. As plenty of negative emotions spread out from the inside of the five devils’ bodies and rolled into the sea of consciousness, Shi Yan’s sea of consciousness transformed silently and affected his mind slowly.

When his mind became a bit more lucid, Shi Yan raised his head, looking at the heart-touching beautiful lady of the White Wings Clan. Because of the mesmerizing fragrance from her body, he could not help but react, his breathing became heavier.

“Why do you ask me about this?” Shi Yan constantly inhaled many times to control his feelings, frowned and asked in a low tone.

“Humankind’s body cannot be that sturdy; your nerves and veins are firm and large. It seems that you have cultivated for a very long time. There are no impurities inside of your body. Each cell within your body is very lively, contains a terrifying implosion. You do not even need to use any profound Qi. The power from your body is not that less of a normal Disaster Realm warrior. Are you really a human being?” Yu Rou’s face was really strange. She paused for a while and then continued, “As far as I know, to my knowledge, even the mighty bodies of demon tribe’s warriors at the same level could not compare with yours. At the same Earth Realm level, the bodies of the Wings Race’s outstanding warriors are still not as good as yours. What did you do to attain it after all? With your sturdy body, the Earth

Realm, together with the sea of consciousness, this soul accomplishment is indeed extraordinary. How did you..."

Yu Rou was terrified. While exploring Shi Yan's body, she found out his special soul and his mysterious sturdy body accidentally. Once this peculiarly talented man grew up, it was impossible to imagine the possible levels that he would be able to reach.

She started to feel regretful in promising to spare his life after this newfound knowledge.

"Suffering such tough cultivations, and weaving in and out through life and death can make you become like this." Shi Yan repressed messing feelings in his sea of consciousness, slightly clenched his teeth, breathed heavily and urged, "Do not waste more of the others' time. Quickly bring me to the giant stone ancient city over there. I am afraid that I cannot withstand it any longer."

"Damn you little rascal, what a low-class guy."

Yu Rou burst out laughing, shaking her head, and reluctantly said, "Forget it, wait until we solve the counter attack problem, then I will interrogate you."

Upon her words, Yu Rou promptly urged the power from her body, bringing Shi Yan to the Giant Ancient Stone City of the Demonic Sound Clan.

However, at this time, a strong flow of soul vibrations dispelled out from Shi Yan's body. This flow was extremely fierce; it spread out all over his body in a blink and attacked Yu Rou unexpectedly

The five emotions of despair, fear, bloodshed, greed, and resentment turned into a flow of vibrating souls, covering the matriarch of the White Wings Clan in a very short time.

The Five Devils in the Sea of Mind was a strange martial technique from the Blood Vein Ring. It was created by the combination of the negative emotions that dispersed outwards from Shi Yan's meridians and his Spiritual Seal in the sea of consciousness. It had not only a part of his consciousness but also the tremendous soul power. While Shi Yan was talking to Yu Rou, a crazy idea of killing Yu Rou sprang to his mind uncontrollably.

This idea came up in the sea of consciousness that led to the action of the Five Devils in the Sea of Mind. The Five Devils in the sea of consciousness had already been restless. They now suddenly became disordered, considered Yu Rou as a target, and attacked Yu Rou.

"Soul attack..." Yu Rou calmly smiled, and slightly shook her head. "To our Wings Race, the soul attack is the stupidest move that one could make."

The five emotions of despair, fear, bloodshed, greed, and resentment turned into a subtle beam of souls twisting towards Yu Rou quickly, wanted to affect Yu Rou's mind, and put her under the control of these emotions to become a puppet of the Five Devils.

"Still very bad..." Yu Rou stood motionless while the five kinds of emotions went into her head. She whistled slightly all in sudden.

Melodious whistle hovered around the forest; it was like a sharp sword that cut through the soul filaments, wiped out the souls which were emitted by the Five Devils completely.

Quickly, the soul attack that was projected by the Five Devils was thoroughly obliterated by the whistle without leaving any traces.

As soon as Shi Yan's eyes were a little more lucid, he shouted, "Let go of me!"

"Why?" Ru You sickly smiled, "Now, aren't you in a hurry to find girls anymore?"

"Let me go, let me stabilize first. Because you've already cut those souls, I could escape from the soul counter attack of the sea of consciousness successfully. Give me a little more time, I can recover soon."

"As you wish." Yu Rou slightly smiled then let go of him.

Shi Yan's body rolled in the air, his face changed tragically. He urged his profound Qi quickly; his eyes scanned around looking for any branches that he could land on.

The matriarch of the White Wings Clan was hundreds of meters above in the sky. She let go of Shi Yan as he wished, without worrying whether if he would die from his fall or not.

"You dared to implement the soul attack upon me, you are brave..." Yu Rou hovered in the air flapping her snow-white wings. A cold light flashed on and off from her eyes.

"Crackle crackle! Rustle rustle!"

After constantly breaking more than ten branches which were as big as a muscular man's arm, Shi Yan's painful body stabilized little by little. In the midst of the ancient tree's leaves, he raised his head, looking at the mesmerizingly beautiful lady in the sky, shouted with anger, "Did you really want me to fall down to my death?"

"No."

Her snow-white wings swayed, her mesmerizing straight legs shot a few kicks before descending slowly. She laughed and said, "Aren't you alright?"

A strange, hard-to-see light projected from her flapping wings.

"Crackle crackle"

The branch on which Shi Yan was lying down broke again. He continued to fall down after struggling to stabilize himself from the first fall. His entire body was shaken in extreme pain.

"Oh, why did you fall again?" Yu Rou gently landed with an encouraging smile. "It's not bad, you fell down from up high above and did not die. Little rascal, your body is really sturdy. Not bad, not bad. I like men with vigorous bodies."

"So, do you want to give it a try? I am good at everything. I can guarantee that you will be satisfied at the ultimate." Shi Yan said as he gnashed his teeth and gums.

Yu Rou's watery eyes flashed up a cold light. She said calmly, "I myself want to see as well, if you could do so, do you dare to come closer?"

As being the matriarch of the White Wings Clan her strength and rigidity would not be dominated by her beauty. Until now, there was no one who dared to tease and play with her like this. She became angry, but a strange feeling of excitement also appeared at the same time.

“What’s not to dare?” Shi Yan asked with a cold face. He stood up, rubbed his ass, warmed up a little bit then approached straight to Yu Rou.

Yu Rou’s snow-white wings on her back retracted quietly. At this moment, the matriarch of the White Wings Clan was a little nervous. Her eyes lit up a strange light, calmly stared at Shi Yan who was coming step by step. Her body projected solemnity and power, which could have been only found from the top-class warriors. Her body had tremendous power which was enough to backlash and kill Shi Yan. The power slowly dispersed and covered her whole body.

Before, when she exposed her solemnity and impetuosity, male warriors had to be well-behaved and felt ashamed in front of her. They did not even dare to look at her, let alone express their lusts to her.

Even lustful Duo Long had to be well-behaved. He never dared to expose his lust to her directly.

She also assumed that Shi Yan was not an exception.

When he was approaching step by step, Shi Yan’s face was innocent as if he did not know what was about to happen. He kept walking underneath her violent waves of power without any hesitation.

While Yu Rou still remained leisurely, anxiety lit up in her eyes suddenly. She coldly looked at the big, strong man coming towards her, and felt startled weirdly.

But at this moment, a satiric smile appeared at the corners of Shi Yan’s mouth. He stopped ten meters away from Yu Rou, looked at her attentively, and said, “Are you scared?”

“Am I scared?” Yu Rou felt disgraced, coldly laughed, puffed out her big breasts, and said, “I am standing here. If you really dare, come and touch me.”

A big flow of vibrating power like a whirlwind emerged behind her. The violent and brutal power kept emitting terrifying energy.

This was what she was scared of, Shi Yan!

“I don’t even know what I should be scared of.”

Shi Yan burst into maniacal laughter and urged the Electric Shift to advance towards the matriarch of the White Wings Clan in just a blink. His big hands stretched out and placed themselves on those big firm breasts of hers without any fear of death.

After groping and rubbing her breasts strongly for a good while, he shouted before really enjoying this wonderful feeling, “If you kill me, your tribe will never be able to leave this place. Only I can help you and your tribe get out of here.”

He clearly knew that the Wings Race and the Demonic Sound Clan wanted to get out of this place as soon as possible. They would not regret anything to leave this place. Therefore, regardless of how angry the matriarch of the White Wings Clan really was, he believed once he mentioned about this, she would be always vigilant.

While his hands pressed and massaged her breasts deliberately, he shouted all in sudden without daring to enjoy more of the feelings that were aroused from fondling her big, voluptuous breasts.
