Chapter 541 Go Home

It was at the foot of Agepsta Mountain.

It felt sad because the entire foot of the mountain was filled with white flowers. Many Watchmen were here to see off their comrades.

From the day they became Watchmen, they were ready to die at any time.

From the day they became Watchmen, no matter how old they were, they were giving everything for this world.

No one else knew about their things.

This battle was too heavy for Watchmen.

At the waist of the mountain, there were still some people cleaning up the battlefield. Some people were drinking alcohol on the mountain. They drank on their own while sprinkling it on the ground. and talking to themselves.

Some lost their comrades, brothers, or their loved ones.

This was war. This was the evil hidden in the beauty of the ordinary world.

Years of peace were because Watchmen were taking on the responsibilities of the world.

Many people were sitting in the mountains in the battle arena of the war, and the ground was full of falling flowers. A sense of sadness filled the entire mountainside.

At that time, Valery and the other members of Team 11762 walked into Blaine's tent at the foot of the mountain. Blaine and Zackary were sitting there. After seeing Valery and the others walk in, Blaine looked up and asked, "What happened to you?"

"We want to leave first," Valery said.

"Gerald is awake?" Blaine looked delighted. "Take me to see him."

"He is not awake. His body seems to be undergoing some changes. Most of the external injuries on his body have been completely healed, but he is still unconscious. I don't know what is going on either. This is the battlefield, and the medical conditions are not that good. I want to take Gerald back to Sacramento first. The environment there is much better, and the medical facilities are more perfect," Valery said.

Blaine thought for a moment and said, "That is not a problem. But how am I supposed to deal with the three guys who hurt Gerald?"

"Are they still unwilling to admit it now?" Carolyn asked.

"Yes. At that time, everyone was fighting on their own and didn't see clearly. The three said that I

was framing them. They admitted that they didn't try their best to fight, but they didn't admit that they had attacked Gerald. They falsely accused me of wanting to wipe out all the guys who were on the super level and were not Watchmen," Blaine said with a bitter smile. "As for the others, they also chose to stand on the three guys' side. I can just temporarily hold the three here."

"Shit. If not for the three, with Boss' reaction, he would definitely have reacted at that time. The three of them should die. In this kind of battlefield, they didn't try their best, and it caused at least hundreds of Watchmen to die. I think they will stab their teammates at the critical moment," Carolyn said. "No matter what, we have to keep them here. As for how to deal with them, let's talk about it after the boss wakes up."

Blaine frowned. Zackary, who was next to him, said with a smile, "No problem. When Gerald wakes up, ask him to go back to the headquarters. Speaking of which, even though he has been awake all this time, he has never returned to the headquarters once."

Carolyn nodded. "Okay."

"When are you going to leave?" Blaine asked.

"The sooner the better. Gerald's condition is not very good. I am worried that he will lose his memory like three years ago. Although I have awakened his memory for the first time. But if he

loses his memory again, it will be a little difficult for me to wake him up again in the same way," Valery said.

"Okay, I will prepare a vehicle for you immediately. Then you can go there," Valery sighed and said.

Valery and the others nodded. They returned to their tents and quickly tidied up the things. There was a box in Theo's hand.

It was the ashes of the captain who led Team 15436.

Claude and Valery went to the infirmary and carried Gerald to the car. Then the car slowly headed to the airport in the North.

"When I arrive in Sacramento, I won't go with you. I have to send the captain's ashes back, and then... I have to take care of the captain's parents. After that, I also want to go home and see my parents. I am afraid that I will never see them because I may die in the next battle," Theo said.

Carolyn looked at him and nodded. "Okay."

"When there is a mission, I will come back," Theo said.

Carolyn nodded. At that time, Claude looked at Belinda and said, "Belinda, I... want to take Aleen to see my parents. If possible, I want to get married to her."

Belinda looked at Claude with a light smile. Then she nodded and said, "That's fine. I will make the final call. I will allow Aleen to get married to you. When Gerald wakes up, you can have a wedding."

date.”

muttered, “Then I will go home to stay with my parents. I will also go and have a blind

“Okay,” Valery nodded and said. “What about you? Is there anywhere you want to go? Leave Gerald to me. I will take care of him. When he wakes up, I will inform you.”

Belinda was stunned. She looked outside the window and muttered, “Ever since I came out of Sin City, I seemed to have been following you on all sorts of missions. I haven’t gone out for a walk. If possible, I want to travel around when I go back.”

Milo waved his hand and said, “I will stay in Sacramento. I can be helpful here. I don’t have anywhere to go.”

Carolyn frowned. “I also plan to stay and keep Gerald company.”

They made their plans. The car staggered along the road. Along the way, there was a vast expanse. There were few people in the North.

Their cars would occasionally pass by Watchmen’s stations, and all Watchmen would run out to salute them.

Everyone knew that Gerald was the hero of this big battle.

Gold Elite Ghost was killed by Gerald.

Blaine had announced the departure of their car to the public. He wanted to tell everyone that Gerald had returned to Night Watch by announcing this.

Unknowingly, four hours passed in a flash. In the airport in the North, a plane slowly took off and headed toward Sacramento.

At the same time, at the underground casino in Washington....

In the conference room, nine people were sitting opposite each other. Dr. T was still sitting in the direction of the main seat. At that time, everyone had a trace of shock on their faces.

“Seriously? Gold Elite Ghost was chopped by that brat? Gerald?” The woman’s voice was somewhat hoarse. But this kind of hoarse feeling was pretended.

“Yes. It’s true. Blaine survived,” Dr. T said faintly. “Now that Gold Elite Ghost died, there should be quite a bit of time before the next Gold Elite Ghost comes. Watchmen won’t have too many changes. This means that my previous calculations were all wrong.

“I think some of the people present should be very happy. After all, you and Gerald have privately reached an agreement. You have gambled correctly on Gerald,” Dr. T said with a fake smile.

No one spoke. They were all wearing masks. No one knew what kind of expression was on their faces under the masks.

“So are we going to stop expanding?” A voice sounded.

“We still need to expand,” Dr. T shook his head and said. “I just received a call from Sin City.”

“What?” Everyone’s gazes turned to Dr. T.

“For some reason, Davis and Charles have reached an agreement. The people of Sin City will be able to enter and exit freely and connect to the outside world. There are already many people from Sin City returning on a ship,” Dr. T said with a smile.

Chapter 542 I’m Late

At Sacramento Airport, a plane quietly landed. It was low-key. After the plane landed, some people got off the plane hurriedly. After they got off the plane, they left directly. Some people carried Gerald, who was sleeping, and walked into a luxury car.

The members of Team 11762 temporarily parted here. They all went to do their own things. This was peace after the great war!

The car slowly drove out of the airport. Belinda did not leave immediately. She planned to stay in Sacramento for a few days first. If possible, she planned to leave after Gerald woke up!

The Gold Elite Ghost had been handled. For a short time, they would not have too many hard tasks to do. Moreover, Blaine and Zackary would not arrange any tasks for them for the time being.

So she had a lot of time to do what she wanted to do.

The car rushed to the Sacramento General Hospital. Carolyn sat in the car and looked at the city, where the traffic was heavy. A smile could not help but appear on her face.

“What’s wrong?” Valery asked.

“Nothing. Although it was a narrow escape, seeing that the world is still so peaceful, I have a strong sense of accomplishment.” Carolyn smiled.

At the same time, she reached out and touched the hair that had reached her shoulder. She smiled. and said, “I haven’t had my hair cut for a long time. My hair has already reached my shoulder.”

Most of the girls in Night Watch had short hair because they had to fight.

Carolyn was the same. However, she had been too busy during this period of time. They had moved around from time to time. They went to Gerald and went to Washington. Then, they went to Sin City, after which they returned and immediately headed to the North. She did not have much time for her own stuff!

Valery smiled. Looking at Gerald, who was lying down, she muttered, “I’m wondering how long it will take for him to wake up. This time, he has protected this world.”

Gerald, who had his eyes closed, pursed his lips in his mind!

He didn’t have many thoughts about protecting the world. All he wanted was to protect the people

around him.

He had swung his saber mostly because of Blaine.

He could hear everyone's conversation. He even felt that his listening had improved. He could hear many things, but what made him helpless was that he still could not open his eyes.

Gerald was not in a coma. His consciousness was clear, and he even felt that he was sober. It was just that he could not open his eyes and control his body. This situation made him very helpless. He also did not know how long this situation would last.

Even... Gerald once thought that he had become a vegetable.

But he had no choice, and the sounds of conversations around him kept ringing in his ears.

Soon, the car arrived near the hospital. Just as they got out of the car, Jolie came over.

Before they came to Sacramento, they had already contacted Jolie.

"Dr. Manning, what is Gerald's current situation? Is it serious?" Jolie asked with a face full of worry.

Hearing this, Gerald could not help but smile in his heart.

He still remembered when he just returned to Sacramento, and Jolie ignored him. And now she completely recognized him again.

"It's hard to say now. Let's get him into the ward first," Valery said.

Gerald was transferred to the VIP ward. After sitting down, Jolie looked at Gerald and asked, "Is Gerald seriously injured?"

"Yes, the most powerful enemy was dealt with by Gerald. He was also plotted against by others and suffered a serious injury. He has been in a coma all the time." Beside him, Carolyn explained, "But now the injuries on his body have mostly recovered. Somehow, he just hasn't woken up."

Jolie held Gerald's hand!

"By the way, don't tell his parents about this. Don't let them worry. I will cure Gerald," said Valery.

Jolie nodded and said, "OK! By the way, Carolyn, the Universe Group has been in trouble recently. Now Mr. Hanson can't make up his mind. I remember that you are also a shareholder of the Universe Group. Now that Gerald is unconscious, you may have to make the decision."

"What trouble?" asked Carolyn.

"Go to see Mr. Hanson when you are free. I don't think I can put it clearly," Jolie scratched her head and said.

Indeed, although she worked very hard in the company, she was not the higher-ups after all. She did not have much contact with them. She only learned some news from Mason at home.

“Okay, then I will go to the Universe Group another day.” Carolyn nodded.

Time passed. Another five days passed silently. Gerald still could not open his eyes. There were no signs of him waking up. This made Gerald extremely worried. He was worried that he would not be able to wake up completely.

Valery was worried too. She had used up all the modern instruments and medicines she could use!

But Gerald still didn't wake up!

Fortunately, she could feel that Gerald's bodily functions had completely recovered, including his Vital Energy. Not only had it completely recovered, but they could also feel that Gerald's Vital Energy seemed to have reached a higher level.

At the same time, in the North, large trucks shuttled through the land.

On one of the trucks, Jacob, Audrey, Erik, and Hazel looked around curiously.

“This is the North?” Jacob revealed a trace of curiosity.

“Yes, this is the main battlefield of Night Watch,” Jacob's instructor said. “But in the future, you probably won't have to stay in this place all year round. You will join Elite Team 11762. The Elite Team's combat style is relatively free, and now Team 11762 is the top team. This team will not have to participate in the battle until the critical moment!”

“We are not qualified to join Gerald's team yet, right?” Hazel asked with a frown.

“So I said ‘you will’!” Their instructor sat there and said with a smile, “When you reach the top level, you will join that team. This time, Erik and Jacob will directly join the team. Mr. Dominic said

So,”

“No!” Audrey's pretty face showed a trace of confusion. “It is reasonable if Erik joins the team. After all, Erik is indeed very strong and is one of the top five in the underground killer list. But Jacob is at the primary level!”

The instructor smiled bitterly and said, “I don't know what was going on. Anyway, Mr. Dominic said so. Jacob's situation seems to be a little special.”

Audrey and Hazel were both envious.

“You have to work hard too. If you reach the top level, you can join their team. When we got off the ship, we received news that Gerald was stronger than before. The top level is the threshold. If you don't quickly reach the top level, maybe after a while, the top level will not be qualified to join their team. The people on that team are all abnormally strong!”

Audrey nodded with a determined expression. “Give me another year. I will definitely catch up.”

As they talked, the truck slowly stopped. They looked outside. Outside were buildings. Someone was directing them to get out of the truck.

At the same time, on a truck in the front, Charles walked down from above. He looked around, and his eyes fell on the front. Then he walked in!

Soon, he walked into Blaine's office. He knelt down on one knee and thumped his chest with his right hand. "I'm sorry, I... I'm late!"

Chapter 543 Gerald Wakes Up

"I... I'm late!" Charles knelt on the ground. His eyes were filled with helplessness and sorrow.

He knew the losses of Night Watch in this battle, and he felt a sharp pain in his heart.

If he, the trump card of Night Watch, arrived here, the losses of this battle would be reduced to the lowest.

He could handle a Red Elite Ghost on his own, and he had other super experts, who could handle another Red Elite Ghost.

Charles had 5,000 members of the Elite Team here. If these people entered the battlefield, they could divide the battlefield and quickly deal with Blue Elite Ghosts. If they arrived, the losses of Night Watch would be greatly reduced!

But...

Charles failed to do this.

Zackary looked at Charles happily, then helped him up and said, "It wasn't your fault. None of us knew that it would go this way. I did not expect that Davis would choose that path in the end. I also did not expect him to develop such a terrifying Blood Lotus force in Sin City."

At this point, Zackary slowly let out a breath and said, "By the way, how did you guys get out?"

"I... I agreed to a request from Davis!" Charles let out a breath and said, "At that time, I was worried that you would not be able to defeat them, so I wanted to rush out so that I could arrive before the battle between you and Elite Ghosts. Thus, I promised Davis to remove the seal in Sin City. The people in Sin City... They can leave!"

"What?" Blaine raised his eyebrows.

Zackary's expression also changed slightly. Blaine looked at Charles and said, "Sin City has at least 100 thousand people from the underground world. With such a large group of people entering the ordinary world, do you know what kind of impact this will cause?"

Charles nodded and said, "I know, but at that time, I had no other choice. I wanted to use this trump card. I don't want to see Blaine die. It would be too much of a waste to use him to deal with a Gold Elite Ghost."

"Forget it!" Zackary smiled and said, "Blaine, we can't blame Charles for this matter. However, someone has to bear the responsibility for our losses this time. Other than some people who are not giving their best, the other reason is that you didn't arrive in time. The reason why you didn't arrive

in time was because of Davis!"

Zackary smiled slightly and said, "If these people come to the ordinary world and live a peaceful life, it's fine. I'll let bygones be bygones. If they dare to do anything bad, then since we were able to

send the people of the underground world to Sin City back then, we can do it this time. Moreover, at that time, Sin City will become a prison. As for the losses this time, Davis has to take this responsibility."

Saying this, he looked at Charles and said, "Go to Sacramento. Gerald is in Sacramento, but he is still in a coma. When Gerald wakes up, take Gerald with you to deal with Davis! He will be a scourge

sooner or later!"

Charles nodded and said, "I understand. I will be on my way. The trump card is already waiting outside, ready to be deployed at any time!"

"This is your team!" Blaine said indifferently, "Watchman No. 1 is the one stripping us. I won't touch them. You can do what you want!"

Charles was stunned for a moment, then nodded and said, "Understood!"

As Charles spoke, he left the room and took two steps. He seemed to have thought of something and stopped to ask, "By the way, has Gerald really reached that level?"

"I don't know what method he used, but he has indeed reached that level in that slash. He was one step ahead of you!" Blaine said with a slight smile.

"Got it!" Charles walked out again, his expression returning to his usual indifference.

Gerald was lying on the bed and was bored. He felt as if a century had passed.

It would be fine if he was unconscious, but Gerald was not unconscious. He remained conscious the entire time, and he did not even need to sleep.

He had no way to communicate with others, so it was too boring.

He really wanted to talk to someone and eat something delicious, but he couldn't do anything. He had been lying in bed for more than ten days.

Belinda originally wanted to wait until he woke up, but when she saw that Gerald had no signs of waking up, she bought something and went to travel.

Milo would come to see Gerald every day, but most of the time he would find a place to drink.

Carolyn seemed to be very busy during this time. Gerald did not know the specific reason. It was likely that it had something to do with Universe Group.

Of course, no matter how busy Carolyn was, she would spend a certain amount of time every day visiting Gerald at the hospital.

Just like that, another ten days passed!

Unknowingly, more than twenty days had passed since the battle at Agepsta Mountain. During

these twenty-plus days, the pattern of Night Watch and the pattern of the underground world were quietly changing!

In Sacramento, the people in the underground world were moving more and more frequently.

Recently, Dennis had been very busy. There were not that many Watchmen stationed in Sacramento. During this period of time, there were some people who had died.

Of course, all of this happened underground. Even if some of them were exposed, they were made into criminal cases.

As November came, it was completely winter. However, the weather in Sacramento was quite good. This place was not very hot.

That night, in the room. Milo and Carolyn came to the ward as usual. Carolyn walked into the ward and looked at Gerald on the bed. She curled her lips and said, "Boss, why haven't you woken up yet? Something big has happened recently. Mr. Dominic came to Sacramento and has been waiting for you to wake up. The people in Sin City have begun to enter the ordinary world. Some people had grudges against others before and began to kill people after coming out! Some people came out with great difficulty and began to hide. By the way, Jacob and Erik are back. Blaine asked them to join our team..."

Carolyn told Gerald about the recent situation.

As Carolyn spoke, her expression suddenly changed slightly.

She saw Gerald's eyebrows suddenly twitch.

It wasn't just Carolyn who noticed it. Milo and Valery also noticed Gerald's expression at this time. They quickly looked over with a trace of excitement on their faces.

Carolyn, who was originally speaking, instantly fell silent. Her words seemed to be stuck in her throat as she stared fixedly at the bed.

On the bed, Gerald's eyelids trembled a few times, and at a certain time, he slowly opened his eyes.

In the room, everyone noticed that Gerald's gaze was a little dazed, and his face was also blank.

Gerald winked at the ceiling and then looked around!

Finally, his gaze fell on the other people in the ward in shock.

Then, Gerald spoke. He looked at them blankly and asked, "Who are you? Where am I..."

Chapter 544 Leandro's Troubles

As soon as Gerald finished speaking, the entire room fell silent once again.

Looking at Gerald's blank expression, Valery said gloomily, "Shit! As expected, the worst-case scenario has happened. He seems to have lost his memories again..."

Carolyn hurriedly came over and grabbed Gerald's hand. "Gerald, it's me. I'm Watchman No. 2. I'm Carolyn!"

Gerald struggled to pull his hand out of her hand and said, "Girl, I admit that you are very beautiful, but... I already have a wife. We should keep our distance."

"What?" This time, the people in the house were completely stunned.

Valery's eyes were wide open. She stared at Gerald with a trace of anger flashing in her eyes.

Carolyn was also extremely angry. She glared at Gerald and said, "Fine. Gerald, you don't remember us. You actually remember that Irene is your wife. I know, you just love that feeling, don't you?"

Gerald turned around and grabbed Valery's hand. "Honey, let's go home. I want to have a daughter. Let's make love!"

Valery was stunned. She looked at Gerald in shock. At this time, she noticed a smile flash across Gerald's lips.

Her face immediately turned red. She pushed Gerald away and scolded, "Don't be fooled by him. He pretended to have amnesia! He deliberately took advantage of me."

Carolyn was stunned. She looked at Gerald. At this time, Gerald also laughed.

"You!" Carolyn said speechlessly, "Since when did you enjoy such guilty pleasure?"

"When I was in a coma, didn't you say that I might lose my memory? I thought it was quite interesting, so I made a joke." Gerald coughed and said, "But Dr. Manning, do you really not want to make love with me?"

The blush on Valery's face disappeared and was replaced by a cold expression. She took out several big syringes and said, "I think your condition is not good yet. I should continue the treatment!"

Gerald's face changed. He quickly said, "I want to eat."

He had been fed nutrient fluids for the past twenty days and had not eaten anything.

"Can you get out of bed?" Valery asked.

"My body is fine, and my consciousness has always been clear. I could hear your conversation, but... I just couldn't open my eyes. My body seems to have changed. The strength of my Vital Energy has skipped a level, but I don't know what exactly the change is, but I think it should be a good thing."

"Okay!" Valery said. "Let's find a restaurant to eat something. It's also to celebrate Gerald's discharge!"

Gerald got up from the bed and changed his clothes. Then he turned to Carolyn and asked, "By the way, you just said that those people from Sin City came to the ordinary world. What happened?"

"Mr. Dominic was the reason. Wasn't he dragged into Sin City by Davis at that time? He was in a hurry to leave the city, so he reached an agreement with Davis. They allowed the people of Sin City agreement with Davis. They allowed the people of Sin City to come out. In fact, the people of Sin City didn't dare to

come out, because most of them were intimidated by Charles and his ace troop of Watchmen, which made Davis have no choice but to surrender. In addition, Davis needed time to develop his own forces, so naturally, they were not allowed to come out," Carolyn said. "Now that almost all the people of the Blood Lotus outside have died, the people recruited by Davis in Sin City are starting to appear again."

Gerald licked his lips and said, "Hey, this Blood Lotus is really growing."

Unexpectedly, after Franklin had been handled, Davis and Xavier turned up again.

Gerald pursed his lips and said, "What about Leandro? What kind of trouble did he encounter? With the strength of Universe Group, it shouldn't be a problem, right?"

"Universe Group... They did encounter some trouble. The matter of the Kenneth family itself made Universe Group a little restless. They had forcibly occupied a lot of the Kenneth family's businesses and invested a lot. They had also invested 1.6 billion dollars in Atlanta previously. They were short of cash flow. Recently, there has been a problem with a project in the South," Carolyn said. "It hasn't been solved yet. Then it caused the whole company to have some fluctuations. It was caused by the excessive investment of the industry chain."

"What project?" Gerald asked.

"It's about the development of a tourist attraction or something. In short, Leandro values this project very much and spent a lot of money on it. Now, it seems that the other side has taken his money and does not intend to give Leandro this project," Carolyn curled her lips and said.

"The South?" Gerald frowned and said, "What is the background of the other party?"

"I'm not aware!" Carolyn smiled bitterly and said, "We can't use Watchmen for this kind of thing. Now, so many Watchmen have been killed. In addition, many people from Sin City have come out to commit crimes. Watchmen are very busy."

"Then let's go to the South some other day. I haven't been there for a long time." Gerald smiled and said, "Take it as a vacation to relax. See if we can solve this matter by the way."

Carolyn curled her lips and said, "Well, we may be able to go, but I'm afraid you won't."

"What do you mean?" Gerald asked.

"Mr. Dominic has been waiting for you here for several days. This time, Night Watch suffered heavy losses because this trump card of Sin City was not involved in the battle. Blaine said that someone had to be responsible for this matter. As for the person responsible, it was naturally Davis." Carolyn smiled, "So Mr. Dominic is waiting for you. After you wake up, you have to go to Sin City with him to get rid of Davis."

"Blaine wants to start with Davis?" Gerald asked in surprise.

"Yes, it's just a pretense. Actually, I can roughly guess what Blaine is thinking. He wants to completely destroy the Blood Lotus before the next large-scale invasion of the Elite Ghosts, including the people from Sin City," Carolyn said.

Gerald's eyes moved slightly. "It is indeed time to do it. Besides, there should be a lot of bones in Blood Lotus' hands. These bones should be absorbed by super experts. Our strength should be able to improve a little.

"Forget it, let's eat first!" Gerald waved his hand and said.

Valery booked a restaurant. It was a relatively high-end restaurant in Sacramento. Right after Gerald and the others arrived, Jolie also joined them.

It was noon. They found a table in the hall of the restaurant and sat down. Gerald ordered a large table of dishes. When he gave the menu to the waiter, the waiter was dumbfounded.

"You've ordered so much. Can you eat them all?" the waiter was stunned and asked.

"Wow!" At this time, a strange voice sounded, "Isn't this Leandro's puppet? Not bad! Now you can go to such a high-class restaurant after working for a rich man like Leandro. Good for you!"

Gerald looked over and saw several familiar faces. The corners of his mouth curled up with a trace of disdain.

Chapter 545 Claude's Wedding Photos

Not far from them stood a few people that Gerald was familiar with.

The one in the center dyed his dreadlocks green. It was Ricky Kenneth.

Although Gerald had incurred great losses for the Kenneth family, the family was rich after all. Despite the great losses, as the previous richest family in Sacramento, they still had deep pockets. Ricky, as one of the sons, lived a good life.

Other members of the Kenneth family led miserable lives.

Back then, it was Ricky's elder brother, Cole, and his father, Holden, who had framed Gerald. They crimes. had been imprisoned, while Ricky was not charged with any

Deep down inside, Ricky hated Gerald.

In Ricky's opinion, Gerald had put aside his lineage and almost bankrupted the Kenneth family. Ricky's brother and father were imprisoned because of Gerald.

Ricky felt that Gerald was just a chess piece. The culprit was the Universe Group, which plotted. against the Kenneth family. Gerald was just a henchman of Leandro.

Ricky met Gerald in the restaurant and noticed that Gerald had a long face. Beside him were a few members of the Kenneth family. They were all young men in their twenties from the branch family.

Gerald looked at him with disdain and did not even bother to talk to him.

"Gerald, why are you so arrogant? You are a despicable follower of Leandro. Even if the Kenneth family is no longer in its prime, we are not to be messed with," Ricky sneered.

"I am relieved to see you so flustered," Gerald said, smiling coolly.

Gerald sneered silently.

It was Night Watch's mission to protect the world. But sometimes, Gerald was pissed off when he thought of scums like Holden and Cole.

Annoyed by his words, Ricky sneered and said, "So what? You have gone to great lengths to curry favor with the Cousy family. But they still look down on you. Doreen will not marry you. Let me tell you, she is already engaged."

Gerald's expression changed.

A quiet girl emerged in his mind. He and the girl were best friends in high school.

To Gerald's surprise, Doreen was engaged in just two or three months.

But Doreen was marriageable.

Noticing Gerald's subtle change, Ricky mistook it for sadness and continued to mock him, "I didn't lie to you. Even though Doreen thinks highly of you, her family looks down on you. In the end, you are dumped by her."

Valery and Carolyn sat opposite Gerald, with their backs facing Ricky.

Hearing what Ricky had said, Valery revealed a faint smile. Then, she turned around!

Ricky had never seen Carolyn before. The moment Valery turned around, Ricky was stunned for a moment. His eyes flashed with astonishment!

Valery was one of the most beautiful women Ricky had seen in his life.

Valery stood up, walked to Gerald, and sat next to him. She held Gerald's hand and questioned, "Honey, who is Doreen?"

Ricky's jaw almost dropped.

The way Valery addressed Gerald drove Ricky crazy.

Knowing what was on Valery's mind, Gerald cleared his throat and said, "Just a friend of mine. We have lost contact. I only love you. I mean it."

These words gave Gerald goosebumps.

Carolyn, who sat opposite him, could not help but shiver!

But Ricky was furious when he heard it.

After Doreen got married, Gerald found a new girlfriend who was even better-looking than Doreen.

Valery's temperament was too special.

Ricky's plan to make Gerald mad by telling him Doreen's marriage fell flat. But to Ricky's surprise, Gerald's new girlfriend was even better than Doreen. This gap made Ricky frustrated.

It suddenly dawned on Ricky that after Gerald's return to Sacramento, Ricky had never taken any advantage in their encounters. He also realized that Gerald was often surrounded by beauties, like Daphne or Valery.

"Let's go!" Ricky gritted his teeth in anger.

Having lost his appetite, Ricky left the restaurant with his men.

After Ricky left, Valery stood up.

Gerald cleared his throat. "Well, Dr. Manning, I can do anything for you just for you to call me honey again."

"Get lost!" Valery kicked his chair and sat down next to Carolyn.

The dishes that Gerald ordered were served. He began to gorge on the food.

"Slow it down. It's all yours!" Jolie said.

Gerald grinned. "You don't know how it feels to not go without eating any solid food for twenty days. I'm starving."

"Check the group!" Carolyn suddenly said excitedly.

ww

Surprised, Gerald took out his phone and checked the chatting group of Team 11762.

There were eight members in the group. Upon opening the chatting box, Gerald saw a bunch of wedding photos. The messages were sent by Claude!

"Damn it! Claude is so quick. He and Aleen already got engaged to Aleen," Gerald exclaimed when he saw the message.

There was a new message from Claude. "Aleen and I decided to get married. We will have a big party when Boss wakes up."

Carolyn smiled. Then she took out her phone to record a video of Gerald. "Your boss is awake. He is binge eating. I forgot to tell you!"

Gerald made a peace gesture to the camera.

Soon, the other members chimed in. Belinda took a photo at the seaside. She was on vacation.

Theo said excitedly, "Damn. Why didn't you inform us that Boss is awake? This is not an honest act!"

Theo's messages flooded in. "Damn it, I thought the most likely bachelor on our team was Claude. But he was the first

This is outrageous. Now the most likely bachelor in our team is ogeti

Milo.”

Sitting next to Gerald, Milo twitched his lips and texted back. “Get lost.”

Even if he was messaging, Milo didn’t want to type much.

Claude sent two smiley faces. “Since Boss is awake, I will set the wedding date three days later. I will make the reservation!”

“I will cut the crap. Claude, you are the first among us to get married. We will give you our full support. Just wait and see!” Theo texted.

Gerald added. “Your engagement will be grand enough!”

“Boss is a veteran. He got married years before us. Kristen messaged.

Gerald was speechless.

“I don’t care if it is grand. But all of you must be present! We will have a wedding in Hawaii. Just come over.” Claude requested.

“Hawaii? Are you from Hawaii?” Gerald was stunned.

grow up

“Boss, you really hurt my feelings. I am from Hawaii. My parents went out to work. I didn’t in Hawaii, but my relatives are there. So I want to hold my wedding in Hawaii.” The message was

from Claude.

Gerald didn’t expect that. He had planned to go to Hawaii. Now he could take the opportunity to solve the issue faced by the Universe Group.

“We’ll be there tomorrow!” Gerald quickly responded.

Claude took another photo of him and Aleen. “Okay. It feels so good to be married!”

His message turned the Line group silent.

“Public display of affection.” Gerald shamed Claude. But the next moment, a smile crept onto his face.

Chapter 546 Won’t See Anyone From Universe Group

After dinner, Gerald looked at Carolyn and asked, “Where is Mr. Dominic? I will go meet him. I have to tell him that I need some more time. Only after the wedding will Mr. Dominic and I go to Sin City.”

Carolyn nodded. “Okay. Mr. Dominic brought Jacob and Erik back and wanted them to join our team. Erik is fine. His strength is acceptable as he is a top expert. But this Jacob is just at primary level and he is not talented.”

Gerald said with a smile, "Let them join. Jacob is smart. His value is not in his strength. Just look at Zackary. He has not reached the primary level, but he is the brain of Night Watch! Jacob is just like him."

"Okay, but Jacob has been with his family recently. Do you want to see him?" Carolyn asked.

Gerald shook his head. "No. Let him be with his family for a while. When I come back from Sin City, ask him to come back. We won't do any missions for the time being. Besides, Claude and Aleen have just got married. Give them some time for their honeymoon. At the very least, they can have a baby."

Valery grinned. "I will be the baby's godmother."

Gerald's eyes lit up as he said, "You already knew that I intended to be the godfather?"

"Get lost!" Valery glared at Gerald.

As they chatted, they walked out of the restaurant. Jolie said, "I won't go visit Mr. Dominic. I will ask for a leave and go to the South with you."

Gerald nodded. "Alright. Tell Leandro that I will find him when I am back."

Since Gerald was going to get Universe Group out of trouble, he had to get files from Leandro.

Jolie nodded. "Okay!"

After that, she got in the car and rushed to Universe Group. Gerald and the other four also drove to the base of Night Watch!

Those people in Sin City had been handled with the least disruption. Now that they had stable jobs, they did not cause any trouble. Some had their companies in the city and went back to doing business.

For the top experts like Malcolm, Valery would offer high positions with little work to do.

In other words, the group was like private soldiers financed by Team 11762.

Scar enjoyed a lot of leisure time thanks to the arrangement.

The base of Night Watch was returned to Dennis. However, Dennis did not stay in the base for long during this period. The residents of Sin City flooded into other cities. Some flocked into

Sacramento, leading to chaos. Therefore, Dennis was pretty busy.

However, thanks to the help from Lightbringers, Scar felt his pressure eased a lot.

When Gerald and his followers arrived at Night Watch, it was already three o'clock in the afternoon. Dennis was not in the base. A few people could be seen. After greeting them, Gerald found Charles in a building.

At the sight of Gerald, Charles put on a cheerful expression, stood up, and said, "Let's go!"

Gerald quickly said, "Please wait for a second, Mr. Dominic. Don't be in such a hurry. How about giving me five days? A team member is going to get married. I have to attend his wedding. He's my best friend."

Charles said with a frown, "We should get rid of Davis as soon as possible."

Gerald agreed, "I know. But going there alone to face so many people in the underground world of Sin City is risky. What if Davis mobilized a large group of people to kill us? If we are outnumbered, our lives are at their mercy. So we have to think twice before we leap!"

Charles said coolly, "They don't dare to attack us. But it doesn't matter if we push it back for five days. Since you need to attend a wedding, come to the Quadriety in Washington after you are done."

Gerald said, "Okay!"

Gerald was curious about what Charles had written in Kaven's letter. However, he suppressed the urge to ask seeing that Charles did not want to talk about it.

After leaving Night Watch, Gerald went to Universe Group's office and got some files that might come in handy. Gerald returned home at night.

Gerald had told his parents in advance that he was going back. So when he went home, dinner was ready.

The moment Gerald saw his parents, he finally realized what had happened.

He once again almost died.

After dinner, Gerald chatted with his parents for a while. Then he went back to his bedroom on the second floor and lay down on the reclining chair on the balcony.

He looked down at the neighborhood.

When Gerald lay down, he saw the man next door talking on the phone while walking the dog. Gerald overheard it. It seemed that the man was still on the phone with his mistress.

"The man is so scheming. It has been more than a month, but his wife knows nothing about it."

Gerald found it amusing.

At night, Yazmin asked Gerald to bring Audrey back home. Gerald could only agree and promise to take Audrey back when they celebrated the New Year.

Once again, Gerald had to ask Audrey to pretend to be her girlfriend. As Night Watch had few training missions during the New Year period, Gerald could give her a vacation and take her back home.

Three months after Audrey joined Night Watch, she had already advanced from the intermediate to the advanced level.

Gerald had not expected that Night Watch would accidentally recruit someone as talented and persevered as Audrey.

Audrey advanced as quickly as Gerald and Carolyn had once done. Now Audrey was already an adult. If she had joined Night Watch when she was a teenager, she would probably have advanced faster.

Gerald lay on the reclining chair, enjoying the rare peaceful moment. Gradually, he fell asleep on the balcony.

In a daze, he felt that someone put covers on him. Knowing it must be his family, Gerald did not open his eyes and stayed asleep.

When Gerald woke up, it was already the next morning.

Mason had gone out to work. Gerald went downstairs and told Yazmin while eating breakfast, "Mom, Mr. Hanson asked me to go on a business trip. This time, I will go to the South!"

Yazmin muttered, "Mr. Hanson is so hard on you. Why is it always you who go on business trips? Every time you come back, you only stay for one."

"Yeah. He is hard on me. But I don't have a choice, do I?" Gerald was gloating while talking to Yazmin.

"Well, but it is not all doom and gloom. Work hard and make more money. Save for your marriage and your wife. Don't splurge!" Yazmin nagged as most moms did.

"I know. I'm saving money!" Gerald said cheerfully.

Beside him, Jolie said, grinning, "I will go with Gerald. We will complete this project together."

Gerald put up Jolie's name in the project again.

Unlike Jolie, Mason often slacked off at work, whereas Jolie was young and driven. Therefore, Gerald planned to give the credit to her, so that she could get a promotion in Universe Group.

The five of them gathered at the Sacramento Airport. Two hours later, Gerald and his fellow teammates walked out of the airport in the South with suitcases.

Claude and Aleen were standing outside with two cars by the side.

"You're finally here. Theo has already arrived. I'll take you to the hotel!" Claude said, walking to them.

Gerald patted Claude on the shoulder. "You're quite amazing! I won't go to the hotel. I have to get something done first. When I'm done, I'll find you."

Claude became serious. "Are you on a mission again?"

"No. It's a business matter. You won't understand it." Gerald patted him on the shoulder.

"Come off it. You don't know better." Valery was blunt.

Gerald cleared his throat and dragged Jolie into another car. Claude handed the key to Gerald, who drove to his destination.

The destination was a company named Prosplin Group.

After an hour, the car stopped at a building in the most prosperous area of the South.

Gerald and Jolie walked into the building.

A beautiful receptionist at the front desk asked with a polite smile, "Who are you looking for?"

Jolie had folders in her arms. Gerald said calmly, "We are from the Universe Group. We have collaboration with you and want to see your president Mr. Barry!"

Surprised, the receptionist shook her head. "Mr. Barry has told us that he won't see anyone from the Universe Group. I am sorry, sir. I'm afraid you have to go back!"

Chapter 547 Let's Make a Bet

"I'm sorry. Mr. Barry said that she doesn't want to meet people from the Universe Group come," The receptionist said with a professional smile on her face.

Gerald frowned deeply.

He looked at Jolie. Jolie also shook his head blankly, not knowing what to do.

"If you have nothing else to say, please leave!" At this time, the receptionist said.

Gerald touched his nose and nodded. "Alright."

Then he and Jolie walked towards the door. At the same time, he took out the document and looked at it. After reading it, he frowned and said, "I don't seem to know much about these things."

He really did not know much about business matters. He was only in charge of negotiations this time.

Well, what he needed to do was to ask some friends for help.

Watchmen guarded this world. Similarly, people gave them a lot of feedback. Night Watch had lots of companies all over the world, and most of them were the leaders of the industries they were in. Here, Gerald also had many friends in the South.

He only knew that Universe Group had done a lot of work in advance, and the investment was quite large. Prosplin Group got the money and did not want to give this project to Universe Group.

Jolie said speechlessly, "There is a project of a tourist attraction here. Prosplin Group won the bid. At that time, Universe Group started their business in the South. So the two groups worked together on the project. The investment of the project is huge, and it should be worth billions of dollars. The current situation is that Prosplin Group becomes picky and finds some minor mistakes in the contract. They decided to stop cooperating with us. Universe Group has been working on the project. for several years."

When Gerald heard this, his expression changed slightly. Then he said, "Does this mean that Prosplin Group wants to get all the investment?"

"Yes!" Jolie became excited as he added, "And it seems that there is more than that. There are other companies involved in this matter. Now, Prosplin Group wants to stop cooperation with us and develop the project with other companies again."

Gerald licked his lips and said, "Well, they're cunning. Do you know the details of Prosplin Group?"

Jolie said, "Prosplin Group is also one of the top 500 companies in the country. In the South, it is one of the top companies. Its market value is about 25 billion dollars, which is about the same as the current Universe Group. But Prosplin Group works on a brick-and-mortar business, and it has gone public. Because of the suspension of the cooperation with Universe Group recently, the share price of Universe Group dropped. But Prosplin Group's share price has risen rapidly."

As they were talking, the receptionist came over and said with a smile, "Sir, please don't stand at the door of our company."

Gerald turned his head and looked at the receptionist. He said, "What? Are we in your way?"

"Mr. Barry will not meet you," Jolie said.

"Is that so?" Gerald touched his nose and added with a smile, "Miss, do you believe that in three minutes, Mr. Barry will get down here and beg me to go to his office?"

The receptionist was stunned for a moment, and then she said with disdain, "Really? Even Mr. Hanson of Universe Group can't do it."

"Fine. Then just wait." Gerald smiled and added, "Let's make a bet. In three minutes, your president will come down and beg me. If I am right, you need to kiss me."

"Humph!" The receptionist said with disdain, "What if you fail?"

"Then I will kiss you," Gerald said with a smile.

"Get lost!" The receptionist was speechless. "Leave here quickly! Otherwise, I will call the security guards over."

Gerald smiled slightly. He took out his phone, found Claude's number, and made a call.

"Boss, is everything settled?" Soon, Claude's voice was heard.

"No. Do you know Kolby? He's the chairman of Prosplin Group. I am in his company. He refuses to meet me."

Claude was stunned and said, "I know this person. I will find a way to contact him immediately!"

After that, Gerald hung up the phone and looked at the beauty. Then he said, "You can start the countdown."

The receptionist was stunned, and then she sneered, "Don't brag. Get out of here quickly. Guards, get them out!"

"Oh really!" Gerald waved his hand and added, "No need, I can leave now. But don't regret it later!"

"Hurry up and leave!" The receptionist obviously did not believe Gerald's words.

Gerald shrugged and said, "Let's go!"

Jolie was slightly stunned, but when she saw Gerald turn around and leave, she had no choice but to follow him. When they walked to the car, Gerald directly got in the car.

Jolie thought that Gerald would wait in the car, so she followed him directly into the car. However, she never expected that after getting in the car, Gerald directly started the car.

"You... Don't you wait for Kolby to come down?" Jolie said in shock.

Gerald smiled and said, "Although I don't know much about business matters, I know that we have and I

to take the initiative to negotiate. Claude said that he can help me deal with this person, believe him. I think that the one who should be anxious now is Kolby. So, just wait for him to come

he to us on his own initiative! He actually wants to take the money from Universe Group. Trust me, won't make it!"

At the entrance of Prosplin Group, the receptionist watched Gerald and Jolie leave, and she seemed to be disdainful. "Humph, such a jerk. He only wants to take advantage of girls in such an old-fashioned way. It is disgusting!"

She cursed.

Then she snorted and returned to her post.

Many of the beautiful receptionists were waiting to hook up with the higher-ups of the company or other rich people.

As soon as she returned to her post, she saw a middle-aged bald man running from the lift in a panic. He looked around and found that there was no one in the hall. He ran to the front desk and asked, "Did someone come to meet me just now? And was he stopped by you?"

The receptionist was stunned. A trace of uneasiness emerged from her heart. She was in a cold sweat. She said, "Someone did come to find you just now, but he said that he was from Universe Group. Then ... I asked him to leave."

"Universe Group? How could they find Mr. Hewlett? And Mr. Hewlett even said such words to me!" Kolby was anxious. He quickly looked around. "Where are they?"

"I asked him to go away just now." The receptionist was about to cry. She could tell that Kolby was a bit exasperated!

“What the hell?” Kolby was shocked. He pounded the front desk and glared at the receptionist. “I’ll deal with you after I get back!”

Chapter 548 The Reason

Kolby rushed out of the room. Obviously, he was not able to find Gerald.

He was anxious.

He was naturally not afraid of Universe Group. The headquarters of Universe Group was not in the South but in Sacramento. In the South, Universe Group was an outsider.

The cooperation with Prosplin Group was only a key point for Universe Group to open the Southern market.

This time, Kolby took advantage of the small mistakes of Universe Group. He even took the initiative to create some small mistakes and wanted to take the initial investment of Universe

Group.

He did not think that the people of Universe Group could do anything to him.

By the way, he also had some evidence that Universe Group had made some mistakes. He thought that Universe Group had no power in the South.

Therefore, Kolby was not scared of Universe Group at all. He thought that Leandro could only compromise.

However, just now, he received a phone call. It was a phone call from Conrad Hewlett, who had the highest status in the business industry in the South.

Conrad might not be the richest person in the South, but he was indeed the most respected person. Even the rise of Kolby’s group was closely related to Conrad. Most of the rich people showed their respect to Conrad.

On the phone, Conrad scolded Kolby, saying that Kolby was out of the line.

Kolby hurriedly ran down, but the receptionist told him that the person who came to find him was actually from Universe Group.

Kolby did not know why Leandro was able to contact Conrad. At this time, Kolby was helpless.

“Mr. Barry... It was you who gave the order. You said that you wouldn’t meet the people of Universe Group.” Kolby returned to the office building with a dark face. At this time, the receptionist

hurriedly took the initiative to say.

She knew that Kolby was so angry. If she did not take the initiative to say, Kolby would probably vent his anger on her.

When Kolby heard this, his face became even darker. He took a deep look at the receptionist and snorted. Then he turned and walked upstairs. At the same time, he took out his phone and made a phone call with respect.

The receptionist was stunned!

Kolby's actions just now undoubtedly proved that what Gerald said before was not bragging

If she really made a bet with Gerald just now, Gerald would win.

Thinking of this, she couldn't help but look outside. Naturally, Gerald wasn't there.

Gerald drove to attend Claude's wedding. On the way, Gerald's phone rang. He saw an unknown number.

"Hello!" Gerald smiled and answered the phone. "Who are you looking for?"

"Excuse me, is it Mr. Kenneth?" A low voice came from the phone. "I am Kolby from Prosplin Group."

"Oh. You don't want to meet anyone from Universe Group, right?" Gerald smiled. Then he asked, "What's up?"

Kolby had the urge to curse. He thought, you were the one who came to find me!

Kolby quickly said, "That was a misunderstanding. The receptionist made a mistake. I have already fired her. May I ask why did you come to meet me?"

Gerald touched his nose and cursed in his heart. Then, he said lightly, "Actually, it's nothing. Now that you know that I came to find you on behalf of Universe Group, you should know my purpose. You actually want to privately take possession of the investment. You are quite bold."

Kolby smiled bitterly and said, "This..... Mr. Kenneth, this is indeed my fault. I will return all the initial investment of Universe Group to you. Can you please forgive me?"

"Return it to us?" Gerald chuckled and said, "If I didn't come to find you, if I didn't ask someone for help, you would have taken the money, right? Do you think it can be settled so easily?"

Kolby paused for a moment, and then quickly asked, "Then I..."

Gerald said lightly, "Let me tell you what we want. Since there is an agreement, it is unreasonable for you to break the agreement for some random reason. This project must be taken down by our group and the price must be lower than before."

Kolby was stunned. He was silent for a long time before he said, "Mr. Kenneth, I will compensate you with some more money. Do you think it is okay? We have already signed a contract with other companies. There is no way to give the project to you."

"I don't care. I have already told you about my request. As for whether you will do it or not, it is your problem. Since you have done the wrong thing first, you must bear the consequences. We won't take responsibility. Think about it yourself. I will stay here for about three days," Gerald said

lightly.

He was about to hang up the phone.

At this time, Kolby hurriedly said, "Mr. Kenneth, in fact, Mr. Hanson and I used to be very good friends. The reason why I broke the agreement this time is also that I have a hard time!"

"Oh?" Gerald's expression changed. "Tell me,

what trouble do you have?"

"I..." Kolby smiled bitterly and added, "The scenic spot is actually an island very close to the South. Universe Group and my company have already developed half of it. But not long ago, a person found me. He seemed to own a foreign company. They used the lives of my whole family as a threat. They offered a price of 4 billion dollars and asked me to give him the development rights of this island."

"Your whole family?" Gerald frowned and asked, "Why didn't you call the police?"

"I... Mr. Kenneth, I'm just a businessman. There is no need to cause so much trouble. As for those people, I even suspect that they are not human. They are too terrifying. I personally saw one of them smash the table in my office in front of me! I do not dare to provoke them. In addition, the price is also very tempting. That is why I compromised."

"What?" Gerald touched his nose and said, "Then show me their information."

"Mr. Kenneth, I advise you not to provoke these people. I have no choice," Kolby gritted his teeth and said.

"I will decide after reading their information. Give me the information about their company and those people," Gerald said calmly.

"Alright!" Kolby nodded.

Gerald hung up the phone.

"What's going on?" Jolie did not quite understand.

Gerald let out a long breath and smiled, "If I'm not mistaken, those people are from Sin City. Moreover, to be able to offer such a price, I'm afraid that only people with high status in Sin City can

do it."

Chapter 549 Trouble

As he spoke, he frowned deeply!

This was the reason why the people in Sin City shouldn't appear at ordinary times. These people weren't law-abiding, and their combat strength was something that ordinary people couldn't resist

at all.

To do business with them depended on one's strength.

"They... Aren't they forbidden to come out?" Jolie's expression changed slightly.

The impression that Sin City left on Jolie was not that good. The shadow in her heart came from Sin City. She knew what kind of city it was and what the people in that city were like. Therefore, when Gerald said this, she instinctively felt a little scared.

In her opinion, most people in Sin City killed people fiercely.

These people came to the ordinary world and posed a great threat to ordinary people.

"Don't worry. Night Watch will drive them out." Gerald smiled. "But I didn't expect the Universe Group to be also affected by these people. I will wait until I get the information and see who it is. This is not a problem."

Jolie nodded and said, "Yes!"

"When you return to Sacramento, other than going to work, try not to go out as much as possible. And tell my parents to stay at home." Gerald smiled and said, "I will ask Dr. Manning and the others. to go to the neighborhood and live closer to you."

After Claude's wedding was over, Gerald had to go to Sin City. It would take some time for him to return. During the time when he was away, he was still worried about the safety of his parents.

Jolie nodded obediently and said, "Understood!"

Gerald nodded!

As the car drove on, he soon received a piece of information on the new company and their legal person on his phone.

The name of the legal person was Leonel Ellison. Gerald did not know this person. After arriving at the hotel, he sent all the information about Leonel to Scar and asked him to go to Sin City to investigate Leonel.

Then, he and Jolie checked in separately!

When he returned to his room and put down his things, his phone rang.

He picked up his phone and saw that it was a call from Scar. Gerald asked, "Do you know who it is?"

"I don't know who Leonel is, but I do know someone among the names you sent over. The one called Landyn Harmon is from the Southern District of Sin City, and he is the leader of a few powerful forces in the Southern District." The voice of Scar came through the phone.

"The leader of the top forces in the Southern District?" Gerald asked in surprise.

Gerald rarely dealt with people in the Southern District of Sin City, and the Holy Lord of the Southern District was also a very low-key person.

Gerald frowned and said, "The name of the leader of the top forces in the Southern District isn't the first one. This force is interesting." Gerald touched his chin and said, "Okay, I got it."

"By the way, there are still two days left before Claude's wedding, right? I will come over to have fun then!" Scar hurriedly said.

"Sure!" Gerald smiled and said, "Didn't he invite you?"

"He did." Scar grinned and said, "But I need your permission. I am very tired because I have to lead more than a thousand people in Sin City!"

"Tsk tsk..." Gerald spat out a few words and then hung up the phone!

After hanging up the phone, he touched his chin!

For some reason, he felt that what happened to the Universe Group was not that simple, but he didn't bother to think too much about it.

In Sin City, it was impossible for someone to be above the level of Davis, and even if it was Davis, Gerald was confident that he could defeat him.

After the battle at Agepsta Mountain, Gerald could feel the transformation of his body. He didn't even know how strong he was now. Perhaps he would only be able to test it out when he faced the Gold Elite Ghost again, or perhaps he could fight with Blaine!

However, Blaine could only slash once, and it was impossible for Gerald to fight him.

However, he was certain that he was definitely above the level of Davis. So no matter who it was, he was confident in dealing with this matter.

They had come to the ordinary world in such a way, which broke the rules. As a Watchman, Gerald had to teach them a lesson.

After confirming it, Gerald took out his phone and called Kolby. After the call was connected, he said faintly, "You can ask Leonel to come out and talk. I will meet him tomorrow."

Kolby was silent for a long time, then smiled bitterly, and nodded. "Alright! I will contact him now. What time?"

"At noon," Gerald said with a smile.

The day after tomorrow was Claude's wedding. Gerald planned to solve the problem at noon tomorrow. At night, he would prepare for the wedding with Claude.

"Okay!" On the other end of the line, Kolby agreed!

After hanging up the phone, Gerald stretched and walked out of the room. Claude and the others were already waiting on the first floor. Claude planned to take Gerald and the others to see his house.

When they arrived at the hall on the first floor, Gerald found that they were a little serious.

Gerald approached and frowned. "What's wrong?"

"I'll tell you in the car!" Valery sighed.

They walked out of the hotel, got into the car, and headed toward Claude's house. Meanwhile, Gerald was also listening to Valery.

"The Elite Ghosts have appeared outside the North." Valery let out a sigh and said, "There was one in Atlanta. They found Elite Ghosts in Europe, north Australia, and many other places too. However, they are all Blue Elite Ghosts!"

When he heard this, Gerald's expression changed drastically.

Before, the Elite Ghosts had landed in the North. Most of the ordinary people in the North had been Elite evacuated. As long as the Watchmen were stationed in the North and there were not many Ghosts, they would be easy to control.

But now that the Elite Ghosts had landed outside the North, it was worrisome. Because there were a large number of ordinary people, once the Elite Ghosts entered the place where the crowd gathered, they would cause great damage.

"Is the loss massive?" Gerald asked with a sigh.

"The loss was not very big. The places they landed were not places where the crowd gathered. The Dark Net also received the news in advance, so they quickly controlled it. But after the Gold Elite Ghost landed, these ordinary Elite Ghosts began to land outside the North. This will be very tricky."

Valery slowly exhaled.

"I understand!" Gerald said, "I'm afraid the existence of the Elite Ghosts can't be hidden from ordinary people. What are Blaine's opinions?"

"Now, Night Watch has had an emergency meeting. A large number of people from Sin City have come to ordinary cities. We have many problems to solve!" Valery sighed.

"Davis... should die!" Gerald looked out of the car window and muttered.

Chapter 550 Help You Find a Wedding Host

Davis asked a large number of people from Sin City to leave that place, giving Night Watch a lot of pressure. Watchmen were now facing internal and external problems. There were too many people coming out of Sin City, and it seemed that the Elite Ghosts had landed all over the world due to the Gold Elite Ghost!

"Last time, a large group of Elite Ghosts had stayed low. They were probably doing this. Now they've started to land all over the world. The pressure on Night Watch is really great." Valery sighed and said, "I'm afraid that we won't have much time left. In the next period of time, the Dark Net will be completely activated. We may also have to accept missions at any time."

“Yes!” Gerald nodded and said, “We should stay together. When we return to Sacramento, you should bring Jacob with us and make him familiar with our actions. He is quite smart. Give him some time, and he will adapt to it. His ideas might be very helpful in the future.”

Valery nodded. Slowly, they also arrived at their destination.

Claude’s wedding was not so high-profile. The place he chose was a hotel in the suburbs of the South. It was a place on a farm. Of course, it covered a large area.

The hotel was rented by them. When Gerald and the others arrived, Gerald saw Claude’s parents busy inside. They were so happy that they could not stop smiling.

Gerald and the others stopped at the door. He patted Claude on the shoulder and said, “Ah, you have fulfilled your parents’ wish!”

Aleen showed a shy smile.

“By the way!” Gerald asked, “Have you found your groomsman and bridesmaid?”

Claude nodded and said, “You guys, of course. You and Theo should be my groomsmen. Milo is too old for that. It’s not suitable for him to be a groomsman. He will be our witness.”

“Fuck!” Milo, who rarely spoke, could not help but curse, “I don’t want to!”

The witness needed to give a speech. Milo was a man of few words. It was so hard for him to be at witness.

Claude coughed and said, “I know. Aunt Belinda should be the witness. She’s qualified in terms of age and prestige.”

Belinda didn’t know what to say.

Since she had slowly gotten used to the ridicule of Gerald and the others, she did not get mad and only nodded her head.

Then, Claude smiled at Valery and Carolyn and said, “Dr. Manning, Carolyn, you should be our bridesmaid!”

Carolyn’s eyes lit up. “Speaking of this, I have never attended a wedding in my life. I’ll learn more about it online!”

She used to stay in Night Watch and occasionally attended the weddings of Watchmen, but most of the weddings were simple. They were completely different from weddings in ordinary cities.

“What about the host? Have you found a wedding host?” Gerald asked.

Claude was stunned for a moment, then shook his head blankly, and said, “No! I forgot it!”

Gerald was shocked. He thought for a moment and suddenly said, “I know a star host, but I am afraid that she will steal the show if she comes. She seems to be quite popular recently.”

He was talking about Adriana.

“Oh, Boss, you’ve started dating female stars now? Impressive!” Theo said, “Why don’t you introduce some to me?”

“Get lost!” Gerald curled his lips and said, “If you need her, I can invite her over.”

“Then please do it!” Claude nodded and said, “If we have a star host, it will be impressive.” Gerald nodded, then took out his phone, found Adriana’s phone number, and dialed it.

Soon, on the other end of the line, Adriana’s slightly excited voice sounded. “Hello, Gerald!”

Gerald coughed and said, “Hey, what’s up?”

“I must say thank you. After I acted in the show funded by the Universe Group, I signed a contract with an agency under the Universe Group. They are quite nice to me. I’m becoming more popular.” Adriana’s tone was a little excited. After a while, she thought of something and said, “What’s wrong? Is there something you want me to do?”

“Ahem!” Gerald was a little embarrassed.

After all, he had not contacted Adriana before, and now he was asking for help.

But he still smiled and said, “Here’s the thing. My friend is going to get married. But he hasn’t found a host yet. If you have time, can you be the host of the wedding?”

“Sure!” Adriana quickly said, “When I was still unknown, I would do some jobs like this. I’m a professional. When will the wedding be held?”

“The wedding will be held the day after tomorrow. For the rehearsal, you might have to come tomorrow.” Gerald coughed and said, “Sorry. It’s a bit abrupt!”

“It’s okay. I’ll put aside other work! Send me the address!” Adriana said.

Gerald nodded. After hanging up the phone, he found that there was something wrong with the way they looked at him. The expressions of Claude and the others were significant.

And the eyes of Valery were a little cold.

“Just an ordinary friend. I saved her once before,” Gerald said.

“Don’t explain unless you’re trying to keep some secrets. I think you just have a guilty conscience!” Theo said, “Dr. Manning, if I were you, I would definitely dump such a man. Do you like me?”

“I think you are crazy. Do you need my help?” Valery glanced coldly at Theo!

As they talked, Claude’s parents noticed them and walked out.

Claude’s father came over, looked at them, and asked, “Claude, are they your comrade-in-arms?”

Since Claude was going to get married and was away from home all year round, he told his parents that he had entered a secret organization to protect the country, but he could not announce it to the public, including his parents!

His parents thought that he had gone to the army, but when they saw Gerald and the others, they became suspicious again.

He felt that Gerald and the others did not seem to have received professional training.

“Salute!” At this time, Gerald suddenly said softly.

Thud!

In an instant, they all stood in a line with straight bodies. Then, they bowed to Claude’s parents and said, “Hello, Mr. Caldwell, Mrs. Caldwell!”

They were Watchmen, so naturally, they were very professional in this aspect.

When Claude’s parents saw the uniform movements of Gerald and the others, their eyes could not help but reveal a trace of amazement. Then, they smiled and said, “Nice to meet you!”

Beside them, Claude heaved a slight sigh of relief!

At night, Adriana put aside her work and rushed directly to the South. Then they began to rehearse for the wedding overnight.
