

Slumdog 821

Chapter 821 The Rising Price

“Arvin...” A trace of killing intent suddenly flashed through Gerald’s eyes!

The heads of the Four Ancient Families were naturally the kind of people who gave orders. This meant that the order to attack Earth was issued by these people. Countless people on Earth died because of this order.

Elite Ghosts came to the Earth, killing countless people,

Gerald took a look at Elton.

“Ladies and gentlemen!”

At this time, a pleasant voice was heard. Then, a graceful woman walked up to the stage. Gerald and the others looked at her, and they were stunned.

She was tall, and she wore a dazzling long dress. Her hair was tied up, and she looked like a noble lady.

She was mature, but at the same time, there was innocence in her eyes.

Most importantly, her perfect figure and appearance attracted everyone’s attention instantly.

“This is the most beautiful girl in the City of Phoenix. She’s Lisa Morrison!”

“I didn’t expect that she would show up at this auction. I once had the honor of attending her concert. I have never forgotten it.” People started to discuss.

Gerald also kept his gaze on Lisa. He could roughly guess that Lisa was like the singer on Earth.

As for her title of the City of Phoenix’s number one beauty, Gerald didn’t make any comments on that.

Lisa was indeed very outstanding and beautiful, but Gerald felt that Melany, who he met in the previous auction, was no less than Lisa.

Also, Gerald thought that Valery was even more beautiful than Lisa.

Just as Gerald was thinking this, he suddenly felt a sharp pain in his waist..

“What the hell...” Gerald felt pain and turned to look at Valery.

“If you look at her again, I will gouge your eyes out,” Valery said coldly.

Gerald’s tears were about to fall. He hurriedly said, “I only glanced at her for one moment.”

“Humph!” Valery snorted coldly.

Beside him, Claude and the others snickered.

At this moment, Lisa smiled and said, “Today there will be an auction in the City of Phoenix. Many people

show up here. I have seen several big shots. I am very honored!”

People were very quiet.

After a moment, Lisa whispered, “It seems that everyone is not coming for me. Without further ado, we’ll start

Today’s auction. As usual, here’s the first item of today’s auction, a Water Mushroom!

“Water Mushroom grows on the surface of the sea and is extremely rare. It is a rare medicinal material. The starting price is one million golorbs!” Lisa said calmly.

At the scene, someone immediately pressed the button on the chair and said lightly, “1.1 million golorbs!”

*1.2 million golorbs!”

*1.5 million golorbs!”

The auction price was rising.

However, when the price rose to 4.8 million golorbs, no one else continued to bid for it.

Although Water Mushroom was rare, it was not particularly valuable. It was not worth it if they kept adding

the price.

Gerald slowly pressed the button and then said calmly, “5 million golorbs!”

His voice resounded through the entire venue.

Some people glanced at Gerald and his friends, but they were wearing masks. Most people didn’t know who

they were.

But when Gerald called out the price of 5 million golorbs, no one else bid for it.

Beside him, Hector pouted and said, “Water Mushroom is much more expensive than before. It actually costs

5 million golorbs!”

However, there was still a hint of joy in his eyes. With Water Mushroom, Hector could find an opportunity to

cure his injuries. After the problem of his body was solved, he could completely regain his power.

Gerald sat there quietly. Many things were auctioned at the scene. Most of them were rare treasures, including some materials for refining weapons, powerful weapons, and so on.

In the middle of the process, a staff member directly brought Water Mushroom to Gerald. He handed it over to Gerald. Gerald paid and got Water Mushroom. Then he directly handed it to Hector.

Soon, the auction almost came to an end.

At this time, on the stage, Lisa smiled and said, "All the previous items in the auction were just appetizers. I know that all of you come here today for Thunder Saber!"

"The seller is a very mysterious person. He is urgently in need of money, so he sends Thunder Saber to us for auction!" Lisa paused with a smile and added, "Now, let's have a look at the famous Thunder Saber!"

Something slowly rose up above the stage. Soon, in a glass box, a saber surrounded by traces of lightning appeared on the stage.

The moment Thunder Saber appeared on the stage, people in the venue could not sit still.

On the entire planet, Thunder Saber was a top weapon. This was a weapon that every person in the level of Flame Decay coveted. Now, it was just placed on the stage.

"Is this... Thunder Saber?" Carolyn swallowed her saliva. There was a hint of desire in her tone.

Hector nodded. "Yes, this is Thunder Saber. In fact, I suspect that many of the weapons you brought out from Burial Ground are of high quality. However, after a long time, they might have been corroded. At the very least, Gerald's Dragon Saber and the ancient bronze sword are of high quality."

The saber and sword were very suitable for Gerald, and Gerald had no intention of changing them.

"If only I had money" Carolyn sighed.

Hector shook his head and said, "Don't even think about this. Although everyone is wearing masks, a treasure like Thunder Saber will cause lots of attention. Even if we win it, we won't be able to leave with it. Some people are willing to take risks for Thunder Saber in the black market.

"Only those who don't wear masks can safely bring it out." Hector sighed.

People who didn't wear masks had great power. No one would make a move on them easily because it was

dangerous

For example, if the Pierce family won Thunder Saber and the Four Ancient Families made a move on them in the black market, it meant that the Four Ancient Families were declaring war on the Pierce family.

If the Pierce family wanted to take revenge, they would have to give evidence.

This was also the reason why Benson wanted to invite experts to be his bodyguards.

When Thunder Saber showed up, almost everyone had a desire in their eyes.

If they could contribute the saber to the powerful higher-ups, they could get more support from these the power of these families in Havotune depended on the support of those big shots in

higher-ups, In fa

the three satellites.

The people on the three satellites were the true rulers of this world.

On the stage, Lisa looked at the people who kept their gazes on the saber. A smile also appeared on her face. Then, she said with a smile, "Next is the auction. Thunder Saber cannot be measured by money. However, since it is placed on the auction stage, there should naturally be a price. The starting price is 5 billion golorbs. Every increase of the bid must not be less than 500 million golorbs!"

"Now, the auction begins!"

After she finished her words, many people started to press the button. Then, a person in front stood up and said, "Hi everyone, I am the seventh prince of Solein Kingdom, Jeffrey Leacock. My family wants Thunder Saber. I hope you can do me a favor! I will bid 10 billion golorbs! If you want to compete, you should consider

the consequences!"

At this moment, Jeffrey directly revealed his identity, wanting to suppress others!

"Get the hell out of here! Jeffrey, I don't like you. If you have the guts, ask your family to come and kill us!" At

this time, a disdainful voice sounded, "20 billion golorbs!"

Obviously, the status of the royal family was useless.

Even though Jeffrey was a prince, there were still many people who were not scared of him.

"25 billion golorbs!"

*30 billion golorbs!"

The price continued to soar!

Gerald and the others who were sitting at the back were all astonished.

Chapter 822 I Want to Hit Him

They were crazy!

The purchasing power of golorb was actually quite good. The lower-class people only spent around 2,500 golorbs a month.

The volume of this planet was very large, and the population was much larger than Earth. The population of the City of Phoenix was already more than most countries on Earth.

However, the increase in the bidding price still shocked Gerald.

"Damn it, I really want to hit the rich!" Triston swallowed his saliva and added, "I suddenly realized that we are fucking poor!"

*No wonder costing 500 million golorbs to hire bodyguards seems to be nothing. We thought we would make a great fortune, but actually, the money is nothing to these people.” Claude could not help but sigh.

The auction hall was in an uproar. As the price continued to rise, more and more people gave up.

At this time, only six or seven people were still fighting for it. Elton was naturally the representative of the Four Ancient Families.

He kept bidding. So did Jeffrey, the seventh prince of Solein Kingdom.

The price continued to soar, quickly exceeding 100 billion golorbs.

Gerald’s gaze fell on Benson. Up until now, Benson still hadn’t made a bid.

“110 billion golorbs!” Elton gritted his teeth. This was already the limit that the Four Ancient Families could

endure!

Of course, the scale of the Four Ancient Families was far more than that. However, the operation of the Four Ancient Families required so much money. The establishment of Pioneer and its daily maintenance cost a lot of money. The City of Phoenix was very large. Their business could bring them a huge income every year. However, at the same time, they also spent a lot of money.

110 billion golorbs was the highest amount of money that they could take out right now. The other funds could not be used. If they used the funds, it would be very risky.

They were willing to spend 110 billion golorbs to get the support of the Archaic Tribe. They were reluctant to pay more than that.

Moreover, they thought that they could just send people to snatch it.

As Elton finished his words, Jeffrey sneered and said lightly, “115 billion golorbs!”

The rule was that the minimum increase of the bidding price should be no less than 500 million golorbs. But

in fact, this group of people’s increase in the bid was almost no less than 5 billion golorbs!

After Jeffrey said that, another voice rang out, saying, “120 billion golorbs.”

This was the person who had snorted at Jeffrey before.

From the conversations around him, Gerald had already guessed this person’s identity. He was from the Wilmot family of Monterey in Solein Kingdom.

Although Northfell was affiliated with Solein Kingdom, it was a self-governing state. Moreover, Monterey was rich in weapons. The largest weapon manufacturer of Solein Kingdom was here. The Wilmot Family was super rich.

Jeffrey had a gloomy expression on his face. He gritted his teeth and said, “150 billion golorbs!”

The Wilmot family chuckled and pressed the button. "155 billion golorbs!"

He still raised the price by 5 billion golorbs!

This price had long broken the record of the auction in the black market. Moreover, this record was unlikely to be broken for a very long time in the future.

The competition had become a competition between Jeffrey and the Wilmot family. They kept adding money. and no one knew where their limits were.

Soon, the price reached 200 billion golorbs!

Jeffrey's face darkened.

As a member of the royal family, he did not expect that these aristocratic families would compete with him at

all.

"205 billion golorbs!" The Wilmot family spoke again, adding, "Your Highness, are you still going to bid for it?"

"Yes, why not!" Jeffrey sneered, "How dare you compete with us?"

"300 billion golorbs!" At this moment, a voice suddenly rang out.

"Holy shit!"

People were in an uproar..

Everyone looked in the direction of the voice, and so did Gerald. That person was in the front row. It was Benson!

200 billion golorbs seemed to almost reach the limit of the Leacock family and the Wilmot family. But Benson directly added 100 billion golorbs!

Seeing everyone's gaze fixed on him, Benson leaned against the chair and sat there, crossing his legs. He coughed and said, "Our family doesn't have any power, but we have money. You can just add the bidding.

price, don't save money for us."

"Fuck, why are his words so annoying?" Triston said.

"I want to give him a punch," Claude scolded.

Benson's words were very annoying.

But there was nothing they could do.

No one could afford it.

The moment Benson bid, Jeffrey and the Wilmot family all fell silent.

“No wonder his family was the richest family and the top one family in Solein Kingdom...” Hector sighed and added, “He is really rich.”

*300 billion golorbs...” Triston let out a breath and said.

Hector said, “The Pierce family controls the economics of the entire Solein Kingdom. There is even a saying that the reason why Jeffrey’s family became the current royal family is that the Pierce family didn’t want to be the royal family. If the Pierce family wants to, they can replace the Leacock family at any time. Some people even said that the Pierce family actually has the qualifications to live on the satellite. It is just that they are not willing to go.”

“Well, I don’t believe it. If they are really so awesome, why did they invite experts to protect them this time and only bring Flame Decayers with them? Benson could just bring thirty Flame Decayers with him. In that way, who dares to rob him? Flame Decayers will protect him,” Triston pouted and said.

“This is just a rumor.” Hector added with a smile, “But I agree that Benson is so arrogant.”

After a short period of gossiping, people fell into silence.

“Any more bid?”

“Any more?”

Lisa’s voice rang out. After a while, seeing that no one intended to bid, she decided, “300 billion golorbs! Sold! Thunder Blade will belong to Mr. Benson Pierce!”

After that, the auction was completely over!

Benson did not leave with his people. He sat there casually as if he was not worried at all.

Gerald glanced at him, then smiled and said, “Let’s go back. No matter what, we have to inform Jacob.”

They walked out of the black market. At this time, it was dusk: The entire auction lasted for an entire afternoon.

cabin. They took a taxi back to their residence. When they returned, Jacob was playing games in the game Gerald went over and kicked him. When Jacob took off his helmet, Gerald said, “Well, I’m afraid you will have

to live here alone for the next few days.”

“What!” Jacob hurriedly said, “Don’t do that. I’m a little scared.”

This was not a foreign country. This was a foreign planet. If he stayed here alone, he would be scared.

“How about this? contact Charles and ask him to come over here after work!” Gerald was indeed worried

about Jacob’s safety.

After leaving the City of Phoenix, Gerald could no longer contact Jacob.

“Alright, what are you guys going to do?” Jacob asked.

Triston said, "I took an order to protect someone. We planned to earn some money. You are so weak. Otherwise, we can take you with us."

Jacob asked, "For how long?"

"Maybe five or six days!" Gerald said.

"That's good"" Jacob nodded and added, "Alright, then I'll contact Charles myself. You guys, be careful."

After saying goodbye to Jacob, they took a taxi again and rushed to the address that Lexie sent.

What surprised Gerald and the others was that Lexie and Laylah's residence was not far from Gerald and the others. Lexie lived on the sixth floor of a tall building. There were only four houses on each floor. The area of every house was about 3 thousand square feet. The house must be expensive.

Gerald and the other five people arrived. Gerald knocked on the door, and Laylah ran over to open the door. Gerald and the other people walked in!

At this time, they found that Benson was already in the room. Besides the three Flame Decayers, there were two more people, a man and a woman. They were both outstanding Flame Decayers.

Chapter 823 Set Off

In the room, Benson sat on the sofa. Those Flame Decayers looked at Gerald and the others. The two new Flame Decayers frowned slightly and said, "They're so young."

Gerald and the others, including Hector, were not old.

The only one who looked slightly older was Hector. He wore a mask.

The woman looked at Gerald and the others, frowning. They're not even Flame Decayers! Mr. Pierce, you

should hire them!"

Benson frowned.

Lexie hurriedly walked over to Benson and said a few words. It could be seen that their relationship was quite

good.

After Benson heard this, he smiled and said, "It doesn't matter. If someone wants to kill us, it is impossible that the killers are all Flame Decayers. I believe there will be many killers in the level of peak Half-Step Flame Decay. So I think there is no problem."

They kept glaring at Gerald. The man looked at Gerald with interest and said, "You look so young. How old

are you?"

Gerald did not answer. Gerald looked at Benson and asked, "Would you like to pay first or pay after we finish

our mission?”

Benson smiled and said, “I can pay you now! Can we settle it together?”

“No problem!” Gerald said and handed the card over.

He was very honest. But he did not say much about Claude being only the level of Half-Step Flame Decay.

Gerald successfully got 1.4 billion golorbs.

“Is there anyone else?” Triston looked around and asked.

“Seven Flame Decayers. It is almost enough,” Benson explained patiently.

Gerald nodded. At this time, Laylah came over and said, “You will also have to take care of me!”

“Do you want to follow us?” Gerald frowned and asked, “Can’t you just go back alone?”

“I also want to earn some money!” Laylah showed a bright smile.

“You haven’t answered my husband’s question. How old are you?” At this time, the woman asked again.

“It’s impolite to ask about other people’s backgrounds!” Gerald looked up at the woman and said.

The woman pouted and said, “Mr. Pierce, the people you invited are all young people. I don’t think they have much combat experience! They will cause us trouble!”

Benson laughed and said, “Don’t worry. I believe in the people Lexie chose. How about this? Guys, get ready.

There will be two cars. The five of you will take the first car. We will take the second car with these young men. Is that okay?”

Benson said to Gerald and the others, “Let’s get to know each other better!”

At the same time, Benson took the initiative to introduce to Gerald and the others, “This is Angelo Shafto This is his wife, Alaina Pender!”

Then Benson pointed to an old man and said, “These are the members of my family. This is Mr. Peter. These two are Mr. Hugo and Mr. Johnny!”

Benson introduced the three Flame Decayers beside him. They were all members of the Pierce family!

Gerald and the others also self-introduced themselves. Their names were not famous in this world, so it did not matter if their names were exposed.

When Claude introduced himself, Angelo frowned. He glanced at Claude and said, “Your weapon... It seems to be a sniper rifle, right? You’re just a Half-Step Flame Decayer. If you use a sniper rifle as your weapon, how can you fight? I don’t think it’s a good choice.”

Benson frowned and said, “Mr. Shafto, they are the people I invited. I know what I’m doing. Just do what you

need to do!”

Angelo was unhappy!

And Benson’s actions made Gerald feel that Benson was not a superficial person.

Benson was not as arrogant as he was in the previous auction. But he was also tough sometimes. Gerald thought that Benson should be a capable person. As for Benson’s power, Gerald guessed that Benson was just a Half-Step Flame Decayer.

“Are we leaving now?” Gerald asked.

Benson nodded. “Yes! Get ready. Let’s go!”

The group of people went downstairs and sat in two separate cars. The car started. They were leaving the

City of Phoenix.

Just as Gerald and the others were about to leave, in a certain luxurious hotel in Phoenix City, Jeffrey was

sitting there with a gloomy expression.

“Your Highness, what should we do next? The spy just sent a message. Benson left with his people.” A group

of people sat around Jeffrey.

“How many experts does he have?” Jeffrey asked calmly.

A man replied, “Five Flame Decayers, and eight Half-Step Flame Decayers. The team is really strong!”

What they felt was that Gerald and the others had higher levels of power.

“How is the contact with the Wilmot family?” Jeffrey asked.

*They... are willing to take the risk and cooperate!” Another old man added, “But they have a requirement. If we get Thunder Saber, we need to pay them 200 billion golorbs!”

Jeffrey sneered and said, “200 billion golorbs is a huge number. But we can do that. Inform them to gather at the docking station and block their way. We need to stop them! This time, don’t leave a single one alive. If the Pierce family finds out that we were the ones who did it, it will be quite troublesome.”

“Yes!”

At Foliage Manor, Sauven and the others were sitting together. Sauven said indifferently, “I received the news. Benson has already set off.”

Elton frowned and said, “Are we really going to do it? Benson is from the Pierce family. If they find out the truth, the Pierce family will start a war against us. I’m afraid...”

“It’s Thunder Saber that is worth three billion golorbs!” Sauven slowly exhaled and added, “If we rob it, it means that we will be able to get around thirty more Pioneers. This risk is worth taking. Furthermore,

we can set up a trap! I just received news that Jeffrey and the Wilmot family have already headed to the aircraft station. They will definitely make a move!”

At the same time, one of the people in the crowd laughed sinisterly and said, “Lightchasers have already taken action. This time, they sent 5 members.”

“Five?” Giovanni’s expression changed. “Isn’t it too few?”

“That’s enough!” That person added with a smile, “Benson actually dared to hire guards in the City of Phoenix. He probably doesn’t know yet. But do you know who the other two Flame Decayers he hired?”

“Who?” Everyone looked at him.

“Angelo and Alaina. The man laughed.

Their expressions changed, and they all showed smiles as they said, “Then... We will definitely win the battle.”

“Inform them again. Remember to ask them to kill every one of them. Do not leave behind any evidence. We

can’t offend the Wilmot family or the Pierce family for now,” Sauven waved his hand and said.

“Understood!” Elton stood up and added, “I will give the order now.”

As the two hover cars moved along the City of Phoenix, something bad was about to happen.

The three parties were not the only ones who wanted to make a move on Benson.

The Pierce family was rich and powerful, but... It was worth taking a risk since the thing they wanted to rob

was Thunder Saber!

In the darkness of the night, the aircraft was rising. One after another, the hover cars continuously left the

city

On the hover car, Hector sat in the innermost area. He quietly swallowed Water Mushroom.

“Did you swallow it? Will it work?” Gerald frowned and asked.

Hector replied, “Yes. What I need to do now is to wait for it to heal my body. Maybe three to four hours. I’ll take a nap first. Wake me up if anything happens.”

There were nine people in this car. Benson sat on the sofa of the hover car and said to Lexie and Laylah, “Don’t get out again in the future. What’s so fun about the City of Phoenix? The Four Ancient Families are all

idiots.”

“I know what to do. Don’t worry about me,” Lexie said unhappily.

Benson was not angry. He smiled and said, "It is comfortable to stay here. I feel uncomfortable being with Mr. Peter and the other elders."

As he spoke, he exhaled and looked at the passing scenery outside the window. He added, "Actually, I don't really want you to come with me. This trip... is so dangerous. There are more than one or two families who want to kill me!"

"In a crisis, there is a chance to break through the level of Flame Decay, right?" Lexie said.

Gerald listened to their conversation and touched the two sabers on his back. He muttered in his heart, the Four Ancient Families, don't disappoint me. You have to come!

Chapter 824 Crisis

As Lexie guessed, the Four Ancient Families would take action. No one would give up such a treasure.

As long as they did not leave any traces, the Pierce family would not find out the truth or find a reason to

start a war!

The Four Ancient Families of the City of Phoenix were not afraid of the Pierce family. The Pierce family had no reason, so they naturally did not dare to start a war.

Gerald was willing to accept this mission. Other than earning a lot of golorbs, he also hoped that the Four Ancient Families would take action. At that time, they could think of a way to deal with some Flame Decayers of the Four Ancient Families.

When the top experts of the Four Ancient Families became fewer and fewer, they would be busy with their own affairs. Naturally, they did not have so much time to invade the earth.

Now, all sorts of things on the earth were emerging. The era of martial arts was approaching. There was adequate energy for cultivation. The cultivation method that had been buried for thousands of years appeared. Night Watch was becoming stronger!

Gerald sat there. Valery sat next to him. She snorted and said, "Gerald, good job. When did you get to know two beautiful girls?"

Cold sweat broke out on Gerald's forehead. He coughed and said, "We're just friends. Don't think too much."

"Is that so?" Valery looked at him indifferently and said, "I feel that there's some problem with your body after you have fought for a long time. When you come back, I have to give you special treatment."

Gerald wanted to cry!

On the other side, Triston was not afraid of Benson at all. Gerald did not have any respect for these people from the big families. He sat beside Benson and asked, "Dude, I heard that your family is a branch of the Archaic Tribe. There are two Superior Envoys from the Archaic Tribe in the City of Phoenix, right? Why don't

you ask them for help?"

Benson was stunned. Then, he curled his lips and said, "Don't believe these words. We are not a branch of the Archaic Tribe. We only have the same surname. There are many people with the same surname in this world."

"Is this fake?" Triston was stunned. "Then do you have the right to live on a satellite?"

Benson curled his lips and said, "This is definitely fake. If I can live on a satellite, I won't stay in this place. Don't think that big cities like the City of Phoenix and Rime City are safe. The cities will collapse when there

are beast attacks.

"Don't believe those rumors," Benson said, sighing.

Then, he smiled at Gerald and the others and said, "You guys seem to be about the same age as me. All of

you have reached the level of peak Half-Step Flame Decay. And he even reached the level of Flame Decay.

Which family are you geniuses from?"

"We... are not geniuses. We only look young because of some cultivation techniques." Triston muddled it

through.

There was indeed such a cultivation technique For example, Hector relied on such a technique to make him look young. In fact, he was already over a hundred years old.

When one reached the level of Flame Decay, he would live longer.

Of course, it didn't mean that one could stay young forever, but the cultivation technique would reduce the

speed of aging.

Benson did not doubt this. He knew that there was indeed such a cultivation technique

Lexie looked at Gerald with interest. She did not believe Triston's words. She felt that Gerald and the others were about the same age as her.

Of course, she did not speak it out.

She changed the topic and asked, "Benson, why did you only bring three Flame Decayers for this auction? There are so many Flame Decayers in your family. Why don't you bring them all and solve it in one go?"

"Hey, stop that!" Benson slowly let out a breath and said, "The Bull Mountain, about 60 miles away from Rime City, is unsafe these days. The people in the city are all worried about the beast's attack. They are in a panic and can't come at all, I came here to bid for Thunder Saber this time because I want to give it to someone as a gift and ask for help!"

“When did this happen? Wasn’t it still fine when we left?” Laylah asked in shock.

“Not long after you left. Actually, I don’t want you to come back with me this time,” Benson said with a sigh.

“Fortunately, I came back with you,” Laylah said worriedly. “I hope it’s all right!”

Gerald and the others had never experienced a beast attack, but this world was not safe. Humans did not occupy a dominant position. The beasts in this world were no weaker than Flame Decayers.

Humans developed technology and martial arts, but they still could not completely occupy this world.

As they talked, the car moved forward. A car in front led the way, and Gerald and the others chatted behind.

Benson was not as arrogant as people had imagined. They were quite congenial, and slowly, Benson became

familiar with Gerald and the others.

About four hours after they left the City of Phoenix, the car in front of them suddenly stopped. Then Gerald’s

hover car also stopped automatically.

“What’s the matter? Gerald’s expression changed slightly.

The cabin door opened, and a few people quickly jumped down from the car.

At this time, they were in desolate suburbs. In front of them, there were dozens of people standing together. There were more than a dozen hover cars lined up, blocking their way.

Gerald glanced at them, but did not find the people from the Four Ancient Families!

The Flame Decayers and Half-Step Flame Decayers had missions in Rho Guild. Gerald had remembered their appearances, but they were not there. This meant that these people who were blocking the way were not from the Four Ancient Families.

Benson followed him down from the hover car. Looking at the dozens of people blocking the way, he frowned

and said, “Trash!”

As he spoke, he walked forward!

Behind him, Gerald’s expression changed. He looked at Triston and the others behind him and said, “Take care of yourself. Don’t die in the battle. Claude... find a place for snipe with Valery!”

Claude nodded. “Got it!”

While they were talking, Claude and Valery quietly retreated.

The other side had about forty people, six of them at the level of Flame Decay. Other than that, the others were all above the level of Half-Step Flame Decay.

“The Satterlee family and the Oakley family in Jersey City, the Rieve family in Wisdom City, and Cloudlet Sect... You have joined hands, right?” Benson looked at them with a sneer and said, “Are you sure you want to provoke us?”

“Benson, the Pierce family is indeed very powerful, but now that Rime City is in chaos, you have three Flame Decayers... Well, you also found another two Flame Decayers, but so what? Thunder Saber is worth risking. If you die here, the outside can't get the news!” A woman stepped forward, licked her lips, and said, “Hand over what we want, and I will give you a quick death!”

“Kenny Satterlee!” Peter took a step forward and said disdainfully, “How dare the Satterlee family have designs on us? Once this matter is settled, your family will be over!”

“Go!” Kenny snorted coldly!

Gerald exhaled. Beside him, Triston's and Carolyn's eyes shone!

They had not fought for some time. Because of Gerald's breakthrough in the battle, they had always believed that the battle was the best opportunity to break through the level of Flame Decay!

“Remember to only use one attribute later, or two at most. Dragon Bone cannot be exposed,” just as Gerald was about to step forward, Hector appeared beside Gerald and whispered.

Gerald nodded.

Chapter 825 Intimidation

The separation of attributes and using one attribute in the fight were mastered by Gerald.

Some people had two attributes when cultivating martial arts. But they were extremely rare. However, only the owner of Dragon Bone had more than two attributes.

Now, Gerald had five attributes!

Apart from the magma attribute, Ice attribute, air extraction attribute, and strengthening attribute, he got the wind attribute after killing Gael.

Gerald did not know what his limit was, but he felt that there was a limit to his ability to absorb other people's attributes.

While they were talking, the people in front of them rushed over.

“It will be a hard battle!” At this time, Peter shouted, “Everyone, we will remember your contribution!”

As soon as he finished speaking, a figure flashed past behind him. At the same time, a blue light appeared. Triston held the new saber in his hand. Facing twenty or so people, he was not afraid at all and directly

rushed forward!

Carolyn followed closely behind.

“What...” Benson was shocked. He did not expect these two to be so bold!

In a place further away, Valery and Claude stopped at a high place. Valery was guarding the surroundings. Claude, on the other hand, lit a cigarette and began to load the bullets!

This time, all the bullets he used were made of blue energy stones. He chuckled and said, "Today, I will kill a

Flame Decayer!"

After Valery looked around, she looked ahead with some worry!

When he saw Triston leading the charge towards the front, Claude looked at the scope. His expression changed, and he pulled the trigger!

On the front, a person on the other side sneered. "Someone at the level of peak Half-Step Flame Decay dares

to lead the charge. Go to hell!"

In the crowd, a person suddenly stepped forward. He punched straight at Triston. As he punched at Triston,

his arm suddenly changed as if it was covered by a strange metallic luster.

"Is it an attribute of strengthening the body?" Gerald was moved. He stepped forward and was about to stop

the other.

"Claude!"

At this moment, Triston's angry roar suddenly resounded.

The next moment, a blue light cut through the night sky. The blue bullet whistled and headed straight for the chest of the Flame Decayer!

The Flame Decayer moaned.

The Flame Decayer reacted quickly. In an instant, a metallic luster shone on his chest, but the bullet had flown to his chest and exploded.

Boom!

A terrifying blast of air instantly exploded.

That Flame Decayer was instantly blasted and spat out blood.

This compressed bullet was comparable to an attack of someone at the level of Flame Decay. The attack came suddenly, and the Flame Decayer didn't expect it. He was directly injured!

Triston leaped high into the air and roared from the sky, Trash, I will kill you all!"

He rushed into the crowd of people at the level of Half-Step Flame Decay without fear..

In the rear, Benson was dumbfounded. He said, "Awesome! What's going on with that sniper? He can hurt an expert at the level of Flame Decay!"

Lexie let out a breath and said, "I've told you. The people I've found are fierce. Each of them..."

As she said, she suddenly looked ahead. Triston rushed into the group of people at the level of Half-Step Flame Decay and waved his saber.

"He..." Lexie stopped talking!

Lexie felt that Triston was also very terrifying. He almost reached the level of Flame Decay.

They... are so mysterious! She murmured in her heart.

The battle broke out. After the first collision, Peter and the others did not hold back at all. They quickly rushed forward. Gerald and Hector had boundless Vital Energy in their bodies. They charged straight at the

other party's Flame Decayers!

"Why are there two more Fame Decayers!" Someone in the other party cried out in shock.

"Shit. Take care!" Someone shouted.

"It's too late!" Peter sneered. "Kill them all."

Gerald sneered. The ice attribute on his body suddenly burst out, and wherever he passed, Half-Step Flame Decayers screamed.

"Retreat! Retreat!" Someone was shouting loudly!

The enemy reacted quickly. When he saw the seven Flame Decayers on Benson's side, he knew that he was in trouble this time. He knew Peter's strength very well. This time, he only dared to come because he had many

Flame Decayers.

When he found there were only five Flame Decayers on the other side, he also felt that he could win the battle. After all, he had one more Flame Decayer and many experts at the level of peak Half-Step Flame

Decay.

He believed that he could deal with those Flame Decayers with his experts at the level of peak Half-Step Flame Decay.

Therefore, they decisively attacked. However, when Gerald and Hector released their auras, they knew that they were in big trouble, so they immediately chose to run away!

Whoosh!

Whoosh!

Whoosh!

Behind them, the bullets flew. At this time, Claude's bullets stopped them from retreating.

Triston held a saber in his hand, like a deity of war. He chased after them!

"Stop chasing!"

At this time, Peter shouted loudly.

The person in front of Gerald had been injured by Claude's bullet. Gerald and Hector surrounded him. This person was also the only one at the level of Flame Decay who did not escape.

At this time, he was firmly trapped on the ground by Gerald and Triston.

Triston's body recovered, and he had now completely reached the level of Flame Decay. However, he and Gerald had intentionally covered their strength, and he pretended that he had just reached the level of Flame

Decay.

However, the ice and flame attributes made the person they caught suffer great pain.

The others did not even look at him and directly ran away.

Under Peter's roar, Triston did not continue to pursue. He only frowned and said, "We are in the upper hand.

Why don't we slaughter them all?"

Peter smiled and said, "Our goal is to bring things back to Rime City. Since they have escaped, we don't need

to pursue them. Moreover, they are not the first to attack us. The Pierce family will deal with them in the

future."

Hearing this, Gerald, who was in the distance, frowned!

Peter didn't kill them but just repelled them.

Gerald didn't think so. What he wanted was to leave the people of the Four Ancient Families there!

Whoosh!

While he was talking, Peter suddenly moved. The terrifying aura on his body suddenly burst out, and in an instant, he arrived in front of the person who was surrounded by Gerald and Hector.

That person was already struggling to hold on under the encirclement of Gerald and Hector, but Peter's saber directly pierced through his throat!

"Be prepared to go ahead!" Peter pulled out his saber and slowly exhaled.

With that, he looked at Gerald and Hector.

To Peter's surprise, Gerald and Hector were calm, and they were not surprised by his movement.

This time, Peter actually wanted to Intimidate Gerald and the others and tell them how strong he was.

He was indeed very strong. At the very least, he was stronger than those at the level of Flame Decay who Gerald had dealt with. However, Gerald felt the strength of Peter's Vital Energy and felt that it was the same as his. Gerald had a 70 chance of winning Peter with his attributes and Dragon-Slaying Saber Skills.

Beside them, Harper and Alaina looked at each other with a hint of fear in their eyes.

Chapter 826 Betrayal and Desperation

Under the night, two hover cars continued to fly in the wilderness!

Originally, there were more than a dozen hover cars on the ground. Gerald and the others also intended to

steal one. However, Benson stopped them. Benson said that it was not good to have too many cars. It was possible that they would be located.

Gerald gave up on this idea.

Benson promised that when they arrived at Rime City, he could give Gerald and the others a hover car.

Gerald and the others were naturally extremely happy because they could save a large sum of money.

In fact, after participating in the auction in the City of Phoenix, Gerald and the others were a little shocked. Moreover, they needed money.

Half a year later, Gerald did not intend to return without anything. The difference between Earth and this world was not only in terms of martial arts but also in all aspects. Whether it was technology or anything else, there was a huge gap!

Gerald planned to bring a large number of things back, including books, high-tech products, hover cars, and

firearms...

Gerald had to spend a lot of money to buy these things, especially high-tech things. The cost was even higher.

Gerald planned to bring these things back to Earth for the researchers to use. This might bring Earth a huge technological revolution.

The car started again. The first attack was quietly resolved. When they showed their strength, the opponent

fled

At this time, in the car behind, Benson was praising Gerald and the others. "Gerald, I am going to make friends with you guys. I was worried before. Since you all look young, will you not have enough battle experience?"

“But I was thinking too much. He is simply like Superman. Just now, he chased after dozens of people to fight. This is amazing. Are you interested in becoming a guest of the Pierce family? Name any price!”

Benson

looked at them excitedly.

Benson and Lexie were at the level of peak Half-Step Flame Decay. However, compared to Triston, they lacked

practical experience. Gerald and his people all experienced a lot.

Their decisiveness, determination, and battle experience were excellent.

Triston smiled proudly. “It’s not a big deal!”

Gerald looked at Triston speechlessly.

At this time, Hector suddenly said, “Benson, how did you invite Angelo and Alaina?”

“Them?” Benson pondered for a moment and said, “It was Peter who invited them. They seemed to have entered the Chaos Ocean together and got to know each other. After coming here this time, Peter contacted them after the auction. They agreed.

“What? Is there any problem?” Benson asked.

Hector shook his head and said, “It’s good that you trust them. There is no problem.”

Benson nodded and continued to chat with Triston. The two really hit it off.

Gerald frowned and asked, “What’s wrong? Are there any problems with these two? Do you know them?”

“No.” Hector shook his head and said, “However, there is indeed a large family with the surname Shafto in the City of Phoenix. When I was here, the Shafto family was considered a subordinate family of the Ingram family. They practically followed the lead of the Four Ancient Families.”

“Oh? You suspect that Angelo is from the Shafto family?” Gerald asked in surprise.

“I can’t rule out this possibility. However, since Peter asked them to come over and they have a friendship, there should be no problem. I hope I am overthinking it,” said Hector.

Gerald frowned!

Gerald thought, if Hector was right, when we met the people from the Four Ancient Families, these two people would suddenly attack and suddenly hurt someone. Then... things would be difficult to deal with.

The car moved forward for a while. About half an hour later, they entered an extremely empty place nearby. Taking advantage of the night, Gerald looked outside. This place was a bit strange. There were some huge stones around them. Their cars were moving in the middle of the stone walls.

Although the ground was uneven, the hover car’s performance to reduce shock was amazing.

Boom!

All of a sudden, a roar rang out from the front of the car. Two huge rocks rolled down from the cliff!

They directly cut off the road ahead!

Buzz...

The sound of the brakes rang out. Gerald and the others hurriedly used their Vital Energy to sit down steadily.

“Again?” Triston’s expression suddenly changed.

The car stopped, and they hurriedly jumped off the car.

On the cliffs on both sides, some people appeared. What shocked Gerald and the others was that there were six at the level of Flame Decay among them. In addition, there were two Purple Pioneers!

This meant that there were eight at the level of Flame Decay.

The Purple Pioneers might not be as good as one at the level of Flame Decay, but it was not a big problem for a Purple Pioneer to fight with someone at the level of Flame Decay!

In addition, there were dozens of people above the level of Half-Step Flame Decay and more than ten Gold

Elite Ghosts!

“We’re in big trouble this time!” Triston let out a breath and put away his previous smiling expression.

Gerald’s expression was also extremely solemn. This scale...

“People from the Four Ancient Families!” Gerald slowly let out a breath, and his eyes revealed a trace of killing intent

Yes, this time, the people lying in ambush in this place were the people of the Four Ancient Families.

Peter’s expression was grave. He jumped out of the car and looked around. His eyes fell on the six people at the level of Flame Decay. Then, Peter said loudly, “Evan, are you the leader this time?”

“Peter, it should have been a long time since we fought. I wonder if you have improved over the years. I, a member of the Lightchaser, will personally send you to hell. The Four Ancient Families still think highly of you, right?” Above, a man who did not look tall but was extremely sturdy stood on it.

There were five people beside him. On the backs of these six people, they were all carrying a blue Nebula!

Only the people from the Four Ancient Families would be able to create such a sword style. This was also one of the Four Ancient Families’ identity symbols.

Peter said with an angry expression, “What? Are the Four Ancient Families of the City of Phoenix determined to be the enemy of the Pierce family and fight to the death? I think the royal family should be very happy to

see such a situation.”

“The Pierce family is indeed very strong, but so what? You migrated to the City of Phoenix on a large scale. Would we be afraid? Moreover... if all of you died in this place today, who would know?” Evan took off the Nebula and said with a smile, “Coming to the City of Phoenix to bid for such a treasure, you don’t think that

you can return to Rime City safely, do you?”

Peter was angry!

While they were talking, no one noticed that six people were looking up. There were traces of anger and resentment in their eyes!

“Everyone!” Peter slowly exhaled and said, “Please help Mr. Benson leave this place. We will handle the rest of

the thing!”

“Three of you want to stop six people at the level of Flame Decay and two Purple Pioneers?” Evan sneered

and said, “Peter, you think too highly of yourself!”

“Go!” as he spoke, Evan roared!

Gerald and the others quickly became alert!

But above, no one made a move at this time.

“Pfft!”

At this moment, Angelo, who had been standing behind Peter, suddenly shook his wrist. A long sword flew and instantly pierced Peter’s chest!

“Peter!”

“Mr. Pierce!”

Shocked voices suddenly rang out. The expressions of Gerald and Hector suddenly changed!

Angelo pulled out his long sword. Alaina and he released their Vital Energy at the same time and jumped to

both sides.

“You!” Benson looked at them with a gloomy face and said, “You...”

“Peter! We are friends, but... Angelo smiled and said, “But I’m sorry, we have to obey the Four Ancient Families in the City of Phoenix. The Four Ancient Families also promised that if we get Thunder Saber, they will give us 10 billion golorbs as a reward. The money you give is a little less!”

Benson was angry. He rushed in front of Peter.

“Benson! I... I’m sorry!” Peter cried. He knew that this time, they might be in trouble!

“If you don’t want him to die, put him in the car immediately!” At this time, a slightly cold voice sounded in their ears.

Benson turned around and found that the person who spoke was Valery.

“Valery is a doctor with excellent medical skills!” Gerald stood up and said indifferently.

Then, Gerald looked at the remaining two people from the Pierce family and said, “You two have to fight with

Angelo and Alaina. Is there a problem?”

The two people’s expressions changed slightly. “You still want to fight?”

“What can we do if we don’t fight? The four directions of us are surrounded. Can we escape?” Gerald asked.

The two said, “We can stall them!”

Benson looked at Gerald, then gritted his teeth and said, “Gerald, you can run. This time, I am sorry.”

Gerald ignored Benson. Gerald raised his head and looked up. He smiled slightly and said, “The people from

the Four Ancient Families ... all deserve to die.”

“You still want to resist? Attack! Don’t even think about leaving a single person alive!” Evan roared from high

up in the sky!

Bang!

As his voice fell, a gunshot suddenly rang out!

Claude opened fire. His target was a Purple Elite Ghost high up in the sky!

“Kill them!” Gerald glanced at Hector and roared. Gerald jumped up, and his sword was instantly unsheathed.

Chapter 827 Devote Ourselves

Tens of thousands of miles away from the City of Phoenix, there was a strange stone forest here. The stone forest was naturally formed. If such a landscape was placed on Earth, it would attract a large number of people to watch!

But in this place, there was no sign of human habitation. It was a barren land!

At this time, under the stone forest, the sound of an explosion resounded!

Two hover cars were parked in the canyon below the stone forest. In one of the hover cars, Valery opened her box at this time. There were all kinds of surgical instruments inside!

These were all brought over from Earth.

It was true that the medical skills of Earth were incomparable to that of this world, but Valery's medical skills

were still the best.

Peter's chest had been stabbed, but he was at the level of Flame Decay. So, he had a certain level of healing ability. Valery immediately chose to perform the surgery for Peter in the chaos of battle!

Beside the car, Triston stood with a spear. On the right, Carolyn shouted at Benson, "Lend me the saber you

bought."

Benson reacted. Without any hesitation, he threw the saber to Carolyn. The two of them stood at the front,

one on the left and one on the right.

Lexie and Laylah looked nervous.

Their combat experience was not that rich. Previously, when they attacked the members of the Four Ancient

Families, it was also an assassination. They had quietly dealt with their opponents. They had never experienced such a life-and-death battle!

Above them, Gold Elite Ghosts and Purple Elite Ghosts were moving. Their target was their side. The six people at the level of Flame Decay from the Four Ancient Families pounced toward Gerald and Charles.

Laylah and Lexie had a trace of fear on their faces, but their hands holding weapons were still firm.

They looked at Carolyn. They were also women. Lexie and Laylah did not see any fear on Carolyn's face or

eyes.

The people Gerald brought over were not afraid at all. They even carried a trace of excitement and anger.

Laylah and Lexie did not know why they were like this, but when they saw their confidence, they felt much more at ease for some reason.

"I'm sorry, Lexie, Laylah. I was the one who cause the trouble. I should have persisted and should not have brought you along." Benson threw the saber to Carolyn and looked at Lexie at the same time.

"Don't say such depressing things!" Beside the car, Claude's sniper rifle was supported on the other side. At this time, he was very calm. His eyes were facing the scope. He lit a cigarette and said, "Who knows who will kill who!"

“They... have eight people at the level of Flame Decay and two Purple Elite Ghosts. I...” Benson gritted his teeth and said.

“What the hell are you afraid of!” Triston stood in front. “I’ll kill as many people as I could, even if that means I have to die. Claude, cover Carolyn and me.”

Claude nodded. “I won’t let Purple Elite Ghosts get close to you!”

“For every being who is breathing!” Triston pointed his spear at the sky.

“We devote ourselves to the future we want!

“We shall never give up!”

A few of them shouted in unison.

Gerald, who had rushed out from the front, also muttered in a low voice.

This slogan would always give them courage.

Gerald leaped high into the air, and above Dragon Saber in his hand, his Vital Energy flourished, and the ice

attribute suddenly swept out.

“Ice Vital Energy?” Up above, Evan sneered and then jumped down. Evan looked at Gerald with disdain and said, “Young man, you reach the level of Flame Decay at such a young age. Unfortunately, why did you become Benson’s bodyguard?”

At the same time, Evan pounced down, the other five seemed to have agreed. They moved towards Hector at

the same time!

“Get over here!” Gerald’s Vital Energy expanded and spread out, engulfing the other two people.

“Arrogant. You even want to fight against three?” Evan sneered.

“Today... I will kill all of you!” Gerald sneered. His Vital Energy surged out and surged on the Dragon Saber in

his hand. Gerald chopped down!

Layers of frost began to cover the ground.

“Is that so? Do you know why we chose to fight here? Because this is our home ground!” Evan sneered, and

the ground began to tremble. The roots and stone pillars suddenly rose and headed straight for Gerald!

“Earth attribute?” Gerald was shocked.

“You guys surround him. The three of us will kill this kid first.” Evan said to the other two. “The three brothers.

of the Ingram family, and that masked guy are your target. Once I’m done with him, come and deal with him

immediately!”

The battle suddenly started!

On the other side, when they finished their slogan, Triston and Carolyn suddenly rushed out. Facing dozens of

people at the level of Half-Step Flame Decay and Gold Elite Ghosts, they didn’t feel fear!

Bang!

The blue bullet drew a blue ray of light in the night, passed through the stone forest, and suddenly hit a Purple Elite Ghost that was jumping down.

Boom!

The speed of the Purple Elite Ghost was extremely fast, but it was still hit.

Claude shot the Purple Elite Ghost. A terrifying energy erupted. The Purple Elite Ghost that was rushing down was directly sent flying back, ruthlessly smashing into the distant stone forest. Immediately after, its body released a purple light!

The purple Elite Ghost... self-destructed!

“What!”

Some people were shocked.

Including Benson, Lexie, and the others, they all looked at Claude in horror!

Snipers were useless in this world. Only when they were exploring, they could use these firearms to kill some beasts. However, in a battle between people at the level of Half-Step Flame Decay, snipers were less important because everyone was fast. It was hard to shoot!

Before this, Claude had already injured a person at the level of Flame Decay with a single bullet, but this time, he had directly crushed a Purple Elite Ghost.

“This... What is this!” Benson was stunned.

Boom!

In the next instant, Benson saw Carolyn and Triston rush into the crowd of people at the level of Flame Decay and the level of Half-Step Flame Decay.

They were clearly at the level of peak Flame Decay and the level of peak Half-Step Flame Decay. However, Benson felt that the strength of Triston and Carolyn was amazing.

Benson felt that in a real battle, he probably wouldn't even be able to receive a single blow from Triston!

This was especially so for Triston. After charging in, Triston almost didn't defend himself. Triston was fighting like a madman. Triston instantly sent two people flying and was stabbed in the back. However, Triston seemed to be fine. He turned around and glared at the person. Then, Triston directly pierced his opponent with his spear.

"Skyward Strike!"

Right at this moment, an angry roar resounded. Immediately after, Benson turned around and looked towards

the battle among people at the level of Flame Decay.

Gerald was fighting with three people at the same time. Gerald was suppressed. Yes, he was completely suppressed.

But at a certain point in time, a dragon-shaped shadow suddenly appeared in the sky behind Gerald. The shadow opened its eyes and then its head suddenly rose.

At this moment, something that shocked everyone appeared on Gerald's body.

A strong wind suddenly appeared around Gerald, and the stone forest instantly flew up.

At the same time, an aura that was as hot as magma floated over and melted those stone pillars. On the other side, a layer of ice suddenly formed on the ground.

Three attributes instantly exploded!

The violent change made Evan and the other two completely unable to react. Gerald suddenly used the Dragon-Slaying Saber Skills and went straight for one of them!

Under the darkness of the night, the three satellites in the sky were the moons of their world, shining with a yellow luster. The moment Gerald's move appeared, the moonlight seemed to have been split open.

The saber light shined. That people's strength was average. After Gerald's air extraction attribute, his body slightly stagnated. It was too late to make any movements. Gerald's saber light appeared and split him into

-two!

Half of his body was burned to ashes, leaving only the bones falling, while the other half was frozen into ice!

Gerald instantly killed one person at the level of Flame Decay!

Chapter 828 Magma Strike

The moment the battle began!

On the side of the Four Ancient Families, a Purple Elite Ghost killed himself, and a Flame Decayer was instantly killed!

At this moment, all the people in the entire stone forest were completely shocked.

The people of the Four Ancient Families did not expect that a sniper rifle could kill a Purple Elite Ghost, forcing the Purple Elite Ghost to self-destruct. They also did not expect that... Gerald would kill a Flame Decayer in seconds under the encirclement of three Flame Decayers!

“Ice attribute, magma attribute, and temporary air extraction attribute!” In front of him, a person shouted, “Boss, this guy is the one who killed Rafael and Gael!”

Evan’s face also completely darkened.

He stared fixedly at Gerald and said, “All our effort is worth it. We always thought that it was three people who killed Rafael and Gael, but we didn’t expect it to be you alone. You have more than three attributes. No, now you have also gained Gael’s wind attribute. You own the Dragon Bone!”

“So what?” Gerald stood on the top of the stone pillar, giving out his Vital Energy.

Evan licked his lips and said, “Today you will definitely die! However, before you die, I would like to ask you why you want to attack the people of the Four Ancient Families!”

Gerald had the Dragon Bone, and it was clear that it had not been known by the Four Ancient Families. They were not very sure about the attack on Earth. They had always suspected that they would not be able to attack after a long time. After all, according to the news that had been sent back before, Earth was a primitive society with no existence at the level of Flame Decay.

What they didn’t know was that even though they had increased their force twice in a row and even sent out

Lightchasers, all of them had actually been wiped out on Earth.

It was precisely because they had been wiped out that the news had not been sent back.

As for the experts on Earth, apart from Blaine, none of the Four Ancient Families had any information about

them.

After all, before that, Blaine was the only one they were afraid of.

“Why don’t you have a guess?” Gerald grinned. He slightly raised Dragon Saber in his hand and pointed at

Evan. He grinned and said, “Sooner or later, the Four Ancient Families will be destroyed in my hands. Not a

single one will be spared!”

“Just you? You will die today!” Evan sneered.

“What?”

At this time, his eyes suddenly turned to the other side. In that direction, the terrifying flames on Hector seemed to be burning. His aura was constantly rising and rising.

The mask on his face was knocked off by the three people surrounding him. It was divided into two halves and fell down toward the stone forest below.

Hector's face was exposed.

"Hector!"

"Hector!"

"You are from that place!" Evan was shocked.

When he saw the terrifying Vital Energy surging from Hector, he was suddenly shocked. "The supreme level! You actually reached the supreme level!"

Flames surrounded Hector. Endless resentment surged out from his eyes. He looked at the three Flame Decayers of the Ingram family around him, then looked at Evan. He muttered, "I came back after escaping for hundreds of years. I came back!"

Gerald also looked at him in shock. He knew that after Hector's body was completely restored, Hector's strength would indeed be very strong. However, Gerald had never thought that Hector would be so strong to

such a degree.

His entire body was burning with raging flames. This was Hector's attribute.

His Vital Energy had completely surpassed his own level.

Between the Flame Decayers, the difference in strength existed, but Gerald had never heard of the division of the supreme level. This was something that even Hector himself didn't seem to know, so he had never

mentioned it to Gerald and the others.

There was no doubt that the strength absolutely surpassed the level of Flame Decay.

"Boss, should we retreat?" A trace of fear appeared on the faces of the three people from the Ingram family.

"Retreat?" Hector's gaze was sharp. He said indifferently. "Can you all retreat? All the things that the Ingram family and the Four Ancient Families have taken from me, I will take them back. The Four Ancient Families

will be destroyed by my hands. Today, I will use your blood to announce my return!"

Buzz!

A buzzing sound rang out, and a terrifying heat wave suddenly swept out. Its attribute instantly wrapped around the three Flame Decayers of the Ingram family!

“Ah!”

“Ah!”

“Ah!”

Three screams instantly resounded in the sky.

“Gerald, keep them here. None of them can escape. Once someone escapes, we will be in trouble,”
Hector

shouted at Gerald.

Gerald knew it even if Hector did not mention it. Gerald slowly let out a breath. He looked at Evan and said,

“Death Storm!”

Boom!

Gerald’s aura continued to rise at this moment.

“This is...” Evan was extremely shocked!

There was a Flame Decayer at the supreme level and also an expert whose strength was infinitely close to that of the supreme level who had suddenly erupted. Moreover, this person had Dragon Bones on his body and many attributes. At this moment, Gerald’s aura had completely surpassed Evan’s.

He knew that this battle would probably be a hard one.

“Roar!”

Right at this moment, an imposing aura suddenly rose up from below.

The besieged Carolyn suddenly let out a long howl towards the sky. Her voice was like the cry of a phoenix at

this moment.

Boom!

Under the night sky, flames suddenly appeared in the void and gathered into a bird which abruptly spread its

wings!

The phoenix soared!

A terrifying aura and pressure began to rise and emerge from Carolyn.

“She broke through!” Evan was stunned!

An expert at the level of peak Half-Step Flame Decay was broken through to the level of Flame Decay in a

battle!

His scalp was on the verge of exploding.

If he still had the desire to fight just now, then at this moment, he completely gave up on this idea.

“Retreat! Retreat!” he shouted loudly.

“It’s too late!” Gerald shouted coldly. He stepped down, and the stone pillar he stepped on instantly cracked.

At the same time, he shouted coldly, “Sweeping Strike!”

Whoosh!

The ancient bronze sword released a dazzling luster, enlarging Gerald’s Vital Energy to a certain extent. It

went straight for another Flame Decayer. The ancient bronze sword circled around. The Flame Decayer should have just reached the level of Flame Decay and was facing Gerald’s attack. He resisted for a moment

and was instantly enveloped by Vital Energy.

The threat of the four attributes was not something he could resist. His body exploded in an instant, and his

body fell to the ground.

Evan suddenly waved the sword. His attribute was the same as the female Flame Decayer on Earth. The metal attribute was extremely sharp. He slashed at Gerald, and at the same time, he quickly retreated!

Below, another Purple Elite Ghost rose up and caught Evan. Evan took to the air. At this moment, he planned to escape directly.

Whether it was Gerald or Hector, this kind of Flame Decayer was not someone ordinary could resist. In this battle, they were bound to lose!

He had planted two spies and thought that it would be easy to win.

However, this time, they got something. The people of Earth had come to Havotune and were taking revenge on the people of the Four Ancient Families. The appearance of the Dragon Bone and Hector reaching the supreme level, every piece of news was much more important than the Thunder Saber.

Moreover... there was a woman below who had broken through to the level of Flame Decay. Her totem was a phoenix, and this was the owner of a Phoenix Bone!

A dragon and a phoenix appeared.

Yes, Carolyn had made a breakthrough. In the battle, she had broken through to the level of Flame Decay.

Her attribute was, as expected, flames! Moreover, her flames were clearly stronger than Hector's flames. Wherever they passed, those Half-Step Flame Decayers would not be able to resist.

Evan wanted to leave and bring back the news!

Below, Benson, Lexie, and the others were very shocked,

From this battle until now, their mission was to protect Claude, but up until now, they hadn't made a move at all. All of these people were blocked by Gerald and the other three people with a sniper.

No matter what, they never imagined that Gerald and the others were actually powerful to such a degree.

Dragon Bones! Phoenix Bones! The supreme level of Flame Decay!

What kind of fucking freaks were they?

"Magma Strike!"

Right at this moment, an angry roar suddenly resounded in the sky.

Gerald gathered all the Vital Energy in his body and suddenly waved his saber. Magma emerged, carrying

Vital Energy and illuminating the entire stone forest. It swept up into the sky.

Chapter 829 Team Wiped Out

Boom!

In the sky, the black smoke exploded. Following that, a Purple Elite Ghost that had been rising into the sky began to fall toward the ground while emitting black smoke.

Apart from that, there was also a skeleton that glowed with a white luster that fell from the sky.

Evan's body was directly burnt to ashes, leaving only his Bone of Eternity behind as he fell from the sky to the

ground.

Evan!

The captain of the three Lightchasers teams of the Four Ancient Families has fallen!

"Lexie!" Benson swallowed his saliva and said, "Where did you get to know this group of perverts?"

Lexie shook her head blankly!

It was an accident that she knew Gerald.

She knew that Gerald was very powerful and might be at the level of Flame Decay.

However, she did not expect that Gerald's group would be so strong.

One against three, all the enemies were killed by Flame Decayers.

Gerald was not at the supreme level, but he had displayed combat strength comparable to the supreme level.

On the other side, the other two experts of the Pierce family were holding back Angelo and Alaina. Angelo

and Alaina had intense fear on their faces.

They were going crazy!

They were spies planted in Benson's team. They thought that this operation would be quiet and that they would not make any mistakes. Benson and the others would definitely die.

In the future, they would gain the trust of the Four Ancient Families in the City of Phoenix. The status of the Shafto family would also rise, and they might even become the fifth Ancient Families in the City of Phoenix in

the future.

However... the group of people they looked down on displayed terrifying combat strength.

This made the two of them almost go crazy!

"What to do now?" Cold sweat kept appearing on their foreheads. They really wanted to escape, but they were

tightly entangled. The most important thing was that Angelo saw Gerald with endless cold eyes looking at

him!

Carolyn, who had broken through to the level of Flame Decay, had a special cover. Everywhere she passed, almost one saber was cut. The level of Half-Step Flame Decay and the level of peak Flame Decay were

completely unable to stop him.

Gold Elite Ghost continued to self-destruct!

Crush!

The next battle was completely in the form of a crushing force.

Carolyn and Triston cooperated with Claude and quickly dealt with experts below the level of Flame Decay. Then, Carolyn charged directly at Alaina. She had hated Alaina for a long time.

She roared, "Uncle Benson, step back. Leave this woman to me!"

She had broken through to the level of Flame Decay and wanted to test her true strength.

In fact, the moment the phoenix flame ignited, Gerald could feel that although Carolyn had just reached the level of Flame Decay, she was much stronger than the ordinary Flame Decayer. The moment she stepped

forward, Alaina was instantly suppressed by her.

A few minutes later, Triston stood in the stone forest with a blue spear in his hand. The last person at the

level of peak Half-Step Flame Decay fell down.

“Why didn’t I break through?” He frowned and looked at Carolyn with envy.

His back had been cut twice, and it was bleeding. However, he did not feel anything.

Not far ahead, two figures smashed into the ground one after another. Angelo and Alaina finally could not

hold on and were heavily injured.

At the same time, on the other side, two skeletons also fell down. At the same time, a figure was stuck by

Hector and pressed down from above, ruthlessly pressing down on the ground.

Boom!

That person spat out a mouthful of blood. He looked at Hector in shock and said, “Hector, please spare me!”

Hector stared at him with hatred in his eyes. “How can I spare you? Camel, back then, I started from a branch. family and you were a direct descendant. Both you and I broke through to the super level. I thought I would be valued by the family, but you bastard tricked me. My energy core was crippled and I was imprisoned. I cultivated again in prison and escaped for a hundred years! Everything I had was given to me by you, the Ingram family, and the Four Ancient Families!”

“Hector, I’ll take you back. If the family finds out that you are so powerful now, they will definitely put you in an important position.” Camel said with a face full of blood.

“Now?” Hector stared at him and said, “It’s too late. Three of the Ingram family’s members have died. Six of the Four Ancient Families have died, and two Purple Elite Ghosts, too. Tell me, how painful would you feel?”

“Let me tell you, this is just the beginning!” Hector gritted his teeth, and a terrifying hatred shot out from his eyes. “Don’t worry, they will meet you in hell soon. None of the people from the Four Ancient Families will be able to escape!”

As they spoke, flames exploded, instantly engulfing the other three people.

At this time, only Angelo and Alaina were left on the ground.

The two of them were covered in blood, and their faces were filled with grief and despair.

Gerald looked at them.

“Angelo, I don’t want to die!” Alaina looked at Angelo and pleaded.

Angelo gritted his teeth as he looked at Gerald and asked, "Although I know that it is unlikely, I hope that you can release my wife. I guarantee that she will keep her mouth shut. My Shafto Family can also be at your

service."

"Who likes trash like you!" Benson said disdainfully. "Do you think we will let you go?"

As he spoke, he walked in front of the two of them!

At this time, the car moved slightly and Valery jumped out of the car.

Benson hurriedly asked, "How is Peter?"

"He saved his life for now. However, his heart has been injured. It is only by relying on his power of the level of Flame Decay that he is able to protect his heart. Thus, I am afraid that I do not know how long he will be able to last," Valery said.

'Just keep his breath." Benson said, "If he has a breath, we can save him. Damn, the Shafto Family, the Four

Ancient Families!"

Benson stared at Angelo below and said, "The Shafto Family should be ready to be wiped out. It seems that our family has been too low-key recently, so trash dares to attack us."

When Benson heard that, his expression changed drastically. He still wanted to say something, but Benson said indifferently, "Let's do it directly!"

Hugo nodded, then directly slashed with his saber. Angelo died!

"How about this woman?" Johnny asked.

"Her?" Benson sneered, "Crippled her cultivation and threw her to..."

"Kill her!" At this time, Gerald said slowly.

"Then kill her!" Benson nodded, and then Johnny did not hold back anymore. He slashed Alaina in the throat.

Eight Flame Decays, all the attacking Gold Elite Ghosts, Purple Elite Ghosts, and Half-step Flame Decayers,

all wiped!

This time, the Four Ancient Families suffered a great loss.

At this time, a feeling of weakness came from Gerald's body. Even now, after using the Death Storm, the weakness still existed.

Valery looked at Gerald and frowned. "Why did you use Death Storm again?"

"I have to!" Gerald let out a breath and said, "I'll be fine after resting for a while."

At this time, Benson raised his fist and punched himself in the chest. Hugo and Johnny behind him also raised their fists. Then, the three of them bowed to Gerald and the others and said, "Thank you, Gerald. I express my greatest gratitude to you. From today onwards, you are my most loyal friend of the Pierce family in Rime City."

Gerald was stunned!

Benson continued, "If you run into trouble in the future, just contact them. The Pierce family will do everything in their power to help you!"

"Can you promise me that?" Hector asked with a frown.

"Although I am frivolous, I am also the future successor of the Pierce family." Benson smiled.

Gerald frowned. He looked at Benson and said, "Can you all forget everything you saw today?" Other than the few of you, do not mention anything else!"

"That's for sure." Benson let out a breath and said, "The owner of the Dragon Bone and the owner of the Phoenix Bone, these matters are too important. You are our benefactor, and we will never repay kindness with enmity. Even the closest people, we will not reveal a word."

Gerald frowned slightly. He looked at Hector, and Hector's eyes were also flickering.

Chapter 830 Grim Reaper

This group of people came to this world with many missions. If they could not expose some of their secrets, they would try their best to hide them.

This world was too powerful. There were a large number of Bones of Eternity such as Dragon Bones and Phoenix Bones on Earth. These were all things that people coveted.

Now that they were exposed, Benson and the others knew about their secrets!

Fortunately, they did not say anything about Earth.

Gerald and Hector looked at each other, thinking about whether they should kill them or not!

There was a certain killing intent in Hector's eyes, while Gerald frowned slightly.

Gerald thought, no matter what, we have no enmity with the Pierce family. We even have some friendships with Lexie and Laylah. Killing the innocent is not something that Night Watch should do.

Gerald slowly let out a breath and said, "I beg everyone again. No matter what, don't tell anyone about our

secrets."

"Of course," Benson hurriedly said, "Let's hurry up and set off. I'm worried that Jeffrey and his people will also

want to attack us."

Gerald nodded and said, "Alright, let's get in the car first."

Hugo went to put the corpses into the first hover car. Gerald and the others still entered the second hover car.

When Benson left, he thought for a moment, then took out a knife and carved some words on a stone pillar: "Four Ancient Families of the City of Phoenix, I, Benson, will remember this! There is a long way to go!"

The hover car rose into the air and circled the ground that had already been messed up by the battle. Then, the hover car landed on the ground again and continued to rush in the direction of Rime City!

The hover car moved forward.

On the other side, a motorcycle passed through the mountain and headed straight for the stone forest.

This person was one of Jeffrey's people. They were also lying in ambush on the road that Gerald and the others had to pass through. However, they were not in the direction of the stone forest. Instead, they were about 12 miles away from the stone forest. The battle here attracted their attention, so they sent people to

investigate.

At this distance of 12 miles, the phone could be used.

"Your Highness, I have arrived." The huge motorcycle stopped. On the motorcycle, a person jumped down. Looking at the scene in the stone forest, he couldn't help but swallow his saliva.

"What's going on?" Jeffrey's voice came from his ears.

"I'll show you the scene here. You... look at it yourself. I think we have to stop this plan." The person on the motorcycle let out a long breath.

As he spoke, he pressed a button on the phone. The camera on the phone lit up. Even at the night, it captured the painting and transformed it to Jeffrey's side, including the words that Benson carved on the stone pillar.

After a short silence, Jeffrey fell silent and said, "Does it mean that... the people from the Four Ancient Families made a move? And they failed?"

"It is highly likely that." The person on the motorcycle said, "From the remains of the two Purple Elite Ghosts, I felt more than a dozen kinds of special attributes. This is the result of the attack of more than a dozen experts at the level of Flame Decay. I suspect that... Benson might have people at the supreme level of

Flame Decay."

"Are

are we going to let them take the Thunder Saber away safely?" Jeffrey scolded.

"Your Highness, calm down. The Pierce family will soon face big troubles." The person on the motorcycle was silent for a while and said, "They control too much economy and have already caused the leaders to be

dissatisfied. This time, let them go!”

“Have all the people at the level of Flame Decay from Four Ancient Families died?” Jeffrey calmed down and

asked.

“We still don’t know the situation! We didn’t find any survivors. They might have been killed here.” The man on the motorcycle sighed and said, “I am coming back now. Let’s go back first!”

“OK!” Jeffrey signed.

At this time, Gerald and the others did not know that because of the annihilation of the Four Ancient Families’ people, Jeffrey’s people did not dare to continue to attack them. They had avoided the attack along

the way. At this time, the hover car was walking on the ground.

Benson looked at Gerald and the others differently, with a look of admiration.

Of course, Benson was born into the Pierce family. Facing one at the supreme level, Benson would not feel

inferior. Moreover, he could be considered to be talented.

Triston was cursing while sitting in the car. Valery was helping him bandage his wounds.

Laylah sat next to Triston and asked, “Don’t you feel pain? I saw that you were slashed twice. You didn’t even

blink.”

This small injury is nothing.” Triston curled his lips and said, “I don’t know how many times I am about to die. I have seen the Grim Reaper several times, but he is afraid of me and does not dare to ask me to stay.”

“What is the Grim Reaper?” Laylah frowned and asked.

Their culture was different from that of Earth. Grim Reaper did not exist in their culture.

“Grim Reaper is the person who is in charge of people’s death and life,” Triston said.

Laylah was still confused and said, “If someone dies, will anyone still control him or her?”

Chanter 820 Grim Reaper

“That’s not important!” Triston looked at Carolyn with a helpless expression and said enviously, “Why? Why did you break through? I wasn’t able to break through, but you reached the level of Flame Decay before me!”

“The difference in talent!” Carolyn said Indifferently. She would occasionally use her Vital Energy to form a flame with her fingers and sway it in front of Triston.

“What difference? You and Gerald are both 28 years old I am only 25 years old. I am three years younger than you. Do you think I can’t break through in three years? My talent is stronger than yours!” Triston said

disdainfully.

After he finished speaking, the carriage fell silent.

Gerald, Carolyn, and the others frowned.

They had deliberately concealed their age.

As for Lexie, Laylah, Benson, and the others, they all looked at Gerald and his people in shock.

Lexie knew that Gerald was young, but she estimated that Gerald was definitely in his thirties. It was just that because of his cultivation, he did not look too old.

However, it turned out that Gerald was only 28!

One at the quasi-supreme level of Flame Decay at the age of twenty-eight with Dragon Bone was not inferior to one at the supreme level.

Both of them felt that their heads seemed to be a little dizzy.

Lexie was close to thirty years old, and because the time was different. Lexie was much older than Gerald

old. and the others. In terms of time on Earth, Lexie was probably over thirty years

However, because their strength had reached the level of Half-Step Flame Decay. They looked young

However, the youngest Laylah was already 26 years old, one year older than Triston! However... she had only just reached the level of Half-Step Flame Decay.

They were the geniuses of the younger generation in Rime City. If nothing unexpected happened, they would reach the level of Flame Decay in the future.

However, compared to Gerald and the others, the three suddenly realized that they were nothing.

“You ... monsters!” After being stunned for a while, Benson covered his face and cried out in grief.

It had to be said that Benson’s EQ was very high. With such a sorrowful cry, the awkward atmosphere was

instantly broken.

The group of people was also chatting very well. Along the way, they rushed towards Rime City.

The night quietly passed. The second half of the night was not too dangerous.

In fact, for them, the most dangerous thing was on this first night. If someone wanted to ambush them, they

would choose the first night to attack.

So when the first night passed, most of the people relaxed a lot. After a night of noise, the carriage slowly quieted down the next day. Gerald and the others were taking a nap, leaving only one person to guard. If an accident happened, everyone would wake up immediately!

Gerald and the others were rushing towards Rime City.

Foliage Manor, the outskirts of the City of Phoenix.

A hover car rushed into the villa at an extremely fast speed. In the villa, a person went straight to the hall of

the villa.

He ignored his image and suddenly pushed open the door of the hall.

Inside the hall, all the higher-ups of the Four Ancient Families were present. Sauven looked at the person who came and felt a little uneasy, but he said, "Why are you in such a hurry? Where are Evan and the others?"

"... I didn't find it. All the people in the stone forest died. The third group of Lightchaser, including Angelo and Alaina, are all dead." At the same time, he projected the words carved by Benson in front of him.

"The Four Ancient Families of the City of Phoenix, I, Benson, will remember this. There is a long way to go"

Seeing this scene, the higher-ups of the Four Ancient Families instantly fell into silence.
