

Soul Pets Bk2 1081

Chapter 1081: Dangerous Rank, Middle Class Dominator!

“Chi~~~~” a hole instantly appeared on Chu Mu’s silver shoulder. Although no blood spilled out, the devil flames there were extinguished.

“Young master, all of the Evil Good Queen’s attacks are poisonous!” Old Li’s mental voice drifted over from afar.

Chu Mu immediately controlled the devil flames to burn the devil blood flowers on his shoulder to ashes. He then used the devil flames to burn the poison spreading to other parts of his body.

Chu Mu had reacted very quickly, but the poison had left large visible ulcers on his shoulder!

Chu Mu’s face sank. This technique looked very simple, but if it struck a normal pseudo dominator, the dominator would probably decompose in a matter of seconds.

“Yi!!!!!!”

The Dead Dream saw Chu Mu receive the wound, and angrily let out a cry.

Dark purple lightning weaved about in the murky clouds above. There were over a hundred long snakes of lightning that didn’t disappear when they struck down from the sky; instead, they lingered around the Evil Good Queen, forming a light screen that enveloped her surroundings!

In between the light screen transmitted dead lightning. Each bolt of dead lightning would become stronger with every transmission, becoming even thicker and flying towards the Evil Good Queen.

The Evil Good Queen silently stood at the very center. When the countless enormous bolts of dead lightning attacked her, she waved her skirt, and a blood red lotus instantly blossomed under her feet.

The flower petals formed shields that covered her body and blocked the lightning's power on the outside.

The destructive properties of the dead lightning was more powerful than normal lightning. Moreover, it possessed the darkness attribute, making its penetration ability unordinary. Although the flower shield was initially able to block the dead lightning attack, the penetration ability was too strong, and the dead lightning finally broke through the flower shield.

When the Dead Dream saw that its technique had broken apart the Evil Good Queen's defense, its eyes showed signs of excitement. It immediately chanted an incantation, increasing the bombardment power of the dead lightning.

However, when Chu Mu saw the flower shield be continuously pierced, he gradually creased his eyebrows.

Suddenly, a waft of a fragrance came from behind him!!

Immediately after, graceful pieces of hair fluttered by and brushed Chu Mu's face.

Chu Mu's body trembled. How could he forget that this woman could also use spatial teleportation abilities? The inside of that flower shield was empty!

“Hahaha~~~~~” a spiritless and delicate laugh echoed in Chu Mu’s ear.

Just like when Chu Mu had used darkness to launch a sneak attack earlier, this woman had used the same thing back on him. While he was completely unaware, she had appeared behind him.

Chu Mu knew he wouldn’t be able to dodge in time. Instantly, he welled up all of the devil flames stored inside his body, forming a devil flame shield and covered himself with it.

The Evil Good Queen was standing not even a meter behind Chu Mu. Her long purple hair fluttered in front of her. She exuded an evil aura that made her seem even more terrifying.

Her long hair began to grow, transforming into supple and strong flower roots. They rapidly wrapped around Chu Mu’s neck, wrist and legs.

The flower roots abruptly tightened and tiny needles on the flowers pierced into Chu Mu’s body. A large amount of poison instantly broke through Chu Mu’s skin, seeping into his blood vessels.

These normal flower roots looked identical to fine strands of hair. However, Chu Mu was unable to break these supple and strong flower roots. Moreover, as the poison was injected, Chu Mu’s body was visibly paralyzed, making it even harder for him to exert strength!

The poison rapidly spread through Chu Mu’s whole body, making him completely paralyzed. Blood didn’t even flow anymore.

A black death flower imprint then appeared in the hands of the Evil Good Queen with long hair like a devil. She slapped it hard onto Chu Mu’s back!

Chu Mu's body had been infected by poison and the poison on his body had almost nearly all been extinguished, exposing his silver skin. The death flower imprint stuck itself to Chu Mu's skin.

“Ge ge ge~~~” the Evil Good Queen's evil laughter rang out again. She glanced to the side at the Dead Dream flying over. She suddenly retracted her supple and strong hair. Blood red lotus figures outlandishly emerged from where she stepped, and she rapidly retreated several kilometers away.

As the Evil Good Queen floated away, the Dead Dream's Dead Lightning pursued her for several kilometers. Ultimately, however, it wasn't even able to touch a corner of this woman's clothes. Thus, the Dead Dream could only quickly fly to Chu Mu and prevent Chu Mu from receiving another of the Evil Good Queen's attacks.

However, upon seeing the Dead Dream fly to Chu Mu's side, the Evil Good Queen revealed a treacherous smile. Her palms slowly opened. The dead flower imprint on her palm had suddenly disappeared!

“Hong!!!!!!”

The instant the flower imprint disappeared, the flower imprint pasted on Chu Mu's back terrifyingly exploded, ostensibly going to destroy Chu Mu's back!

The Dead Dream that planned on protecting Chu Mu was also hit by this technique and knocked flying. It let out a long mournful cry that reverberated through the sky.

The flower imprint's explosion, knocked Chu Mu from the sky to the ground. If he had blood, Chu Mu's back would definitely be mangled with flesh and blood right now!

Over half of the devil flames on his body had been instantly extinguished. Nonetheless, Chu Mu, who was used to the feeling of pain, quickly stood up from the wreckage and looked at the terrifying queen and her long fluttering hair.

This series of techniques had severely weakened Chu Mu. If not for the Dead Dream, he may have been instakilled by the Evil Good Queen!

A middle class dominator was indeed extremely terrifying!

“You still want to be my master with just this amount of ability? Why don’t you just devote your soul to me. Perhaps I can make you even stronger.” the Evil Good Queen’s piercing laughter rang out.

Chu Mu didn’t look up at her soul attracting eyes. Ten Thousand Flower Pupil’s effects still existed and he knew that if he looked at her, he would either be unable to look away from her eyes or his mind would collapse.

Presently, a sliver of resentment anger was boiling in his heart. This resentment anger was slowly becoming his power, making his devil flames slightly fresher.

However, Resentment Gathering didn’t have any genuine use due to its slow build up in power. Chu Mu no longer had much confidence in taking the Evil Good Queen’s next attack. Indeed, there was nearly an entire grade in difference between them.

Chu Mu tried his hardest to remain cool. Only, the Evil Good Queen wouldn’t give Chu Mu much time to think.

As her laughter was still reverberating, the Evil Good Queen closed her eyes. Her body transformed into countless flowers and she disappeared in the sky.

Chu Mu stood up and immediately controlled the space around him.

After controlling the space, he closed his eyes and forcibly used his soul remembrance to build a mental bridge with the Evil Good Queen.

There was a soul pact between Chu Mu and the Evil Good Queen. The construction of a mental bridge could allow Chu Mu to distinctly sense the location of the Evil Good Queen.

Obviously the Evil Good Queen wouldn't allow Chu Mu's soul remembrance to enter her soul. She quickly formed a mental restriction, blocking Chu Mu from using the soul pact to find her.

Chu Mu's soul remembrance was unable to penetrate as if it had struck a wall.

However, Chu Mu let out a smile.

He wanted the Evil good Queen to use this mental restriction because in the area of space he controlled, the moment a mental restriction appeared, an invisible barrier would appear in the space it happened. Chu Mu would be able to find where this happened!

“Spatial Windstorm!”

Chu Mu swept his hands, ripping open a space and forcibly dragging an other dimensional chaotic stream of air into this world!

At the same time, intense lightning bolts emerged on the Dead Dream's body, condensing on its 16 wings!

“Yi~~~~~”

The Dead Dream let out a cry. It beat its sixteen wings and sixteen power bolts of dead dream lightning pierced through the air, flying towards the targeted location by Chu Mu.

The technique release speed of lightning types was much faster than other types. Moreover, if the Dead Dream's lightning attribute first struck the Evil Good Queen before the spatial windstorm swept over, the damage would be even higher.

Of course, Chu Mu's knew the Evil Good Queen's defense was not that weak. In order to amplify his attribute advantage, when he dragged out the spatial windstorm, Chu Mu didn't spare any of his devil flames and let the spatial windstorm absorb all of it. This created an incomparably powerful devil flame windstorm!!

“Zi zi zi~~~~~”

When the Evil Good Queen had blocked Chu Mu's soul remembrance from finding her, she realized her location had been exposed. She was about to change locations when the Dead Dream's 16 bolts of dead lightning appeared in front of her!

Even if its dodging capabilities were stronger, she would be hard-pressed to dodge such an abrupt lightning type attack. She could only rapidly condense all of the flower petals around her and form a flower wall to block.

Yet, the power of a suddenly created flower wall was limited. The 16 bolts of dead lightning quickly pierced through, striking her body.

Upon being struck by the lightning, the Evil Good Queen's body lightly trembled. However, the subsequent devil flame windstorm made her realize that she was in trouble!

The fire type was still a counter to her. Although the Dead Dream's lightning attacks didn't genuinely injure her, they broke her protective shield. With the instant follow up of the devil flame windstorm, the Evil Good Queen could only use her body to face it!!

“Hu hu hu hu hu~~~~~”

There was both tearing power and devil flames burning. As the Evil Good Queen's skin was ripped open, bloody traces appeared on her snow-white skin.

Her soul was also struck by devil flames, making her face even paler.

.....

The windstorm slowly dissipated and the devil flames were gradually extinguished. Dozens of tiny wounds had appeared on the Evil Good Queen's body and fresh blood dyed her purple and slightly ragged skirt.

“Yes, you look a lot better now.” Chu Mu showed an evil smile while also mocking this arrogant Evil Good Queen.

Chu Mu felt she was better looking not because of what was revealed underneath the broken clothing, but because of the sparkling fresh blood.

Chapter 1082: Evil Good Illusion

Evil Good Queen had already retracted her easy and alluring smile, instead holding a stone cold face.

Evil Good Queen should be called face changing queen. Her expression changed so fast that even Chu Mu was astonished.

“Don’t be pleased. In ten seconds, you will die!” Evil Good Queen was showing emperor concubine Chu Xi’s attitude. The pride and anger was too easy to identify.

Chu Mu widened his smile. After becoming half devil, he didn’t know what pain was anymore. As long as the wound on his back weren’t lethal, he won’t feel pain. However, the Evil Good Queen clearly didn’t like getting hurt.

Evil Good Queen waved her hand, and immediately blood red petals floated onto her body. At the same time her purple robe fell down, her petals had created a noble and elegant flower armor that covered her alluring body.

The Evil Good Queen was already enchanting. With the red armor, she was even more flirtatious. Her original holy aura had completely disappeared with the purple robe, becoming a noble yet also licentious combination of beauty and danger.

Chu Mu, of course, didn't think that Evil Good Queen switched her outfit just to make her look better. Her flower armor was clearly extremely defensive. Actually harming her now will be very difficult.

Chu Mu didn't doubt at all Evil Good Queen's claim of having him killed within ten seconds. Chu Mu had already been hurt by the flower imprints and clearly his fighting strength fell. And now, Evil Good Queen's attacks won't leave any flaws for Chu Mu to catch again.

The incantation started and this time, Evil Good Queen was clearly angry.

The flower aura released, full of an evil aura that slowly shrouded the black skies.

Behind the Evil Good Queen a blood red and sacred blue shadow, becoming a massive blood red Evil Good flower!

The Evil Good Queen's petals were a curved crescent shape. Every arc was perfect, feeling as if hundreds of women have just started their most charming dance moves, all wearing red and blue clothes.

Originally, this was supposed to be a very beautiful flower, but for some reason it also gave off an extremely dangerous aura!

This beautiful yet evil Evil Good Queen slowly appeared behind Evil Good Queen, causing her two completely different qualities to be shown in even greater depth. When watching her, she was holy, noble, and elegant, but watching closer will also reveal an attracting and wanton smile.

The mental shadow of Ten Thousand Flower pupil had already disappeared, yet Chu Mu still didn't look at the woman only describable as bizarre. Her complicated qualities, both holy and demonic, had powerful mental attraction. The moment Chu Mu lost attention, his next moment of clarity would be waking up in the underworld.

“Release!!” Evil Good Queen gave a command.

The Evil Good Flower behind her suddenly scattered, each petal becoming a terrifying flower demon holding a dagger as they flew forwards.

Chu Mu was dazed because these flower demons were all women that Chu Mu had seen before!!

The flower demon ahead was Ye Qingzi. She had a flower petal body, yet her face and hair were identical to Ye Qingzi.

Behind Ye Qingzi were his mother Liu Binglan, Mu Qingyi, Princess Wan Ning, Pang Yue.....

These flower demons could take on their shapes as they flew towards Chu Mu with pitiful expressions.

Chu Mu paused. He knew very clearly that this was definitely just Evil Good Queen using his memory to create illusions, yet for some reason Chu Mu could only watch as they came close and ripped open his body using her long claws.

Chu Mu didn't think that Evil Good Queen's mental techniques would be this powerful. Even though he knew it was an illusion, he didn't have the courage to even fight.

Even scarier was, though Chu Mu was used to pain, every time these demons' claws flew through his body, he felt an unbearable pain that shot straight towards his heart.

Rather than pain, it was more like grief. It was as if his closest friends and family had betrayed him and caused mental and physical damage to him without any defenses.

"What damned technique is that?" Chu Mu bit his teeth. Even though he knew it was all fake, the pain was worse than having thousands of arrows pierce through him.

"I can't do this- any longer and I will die." Chu Mu knew this damage wasn't purely mental; it was one that damaged his soul too. He had to get rid of all these flower demons!

The closest people to him naturally caused the greatest mental damage.. Chu Mu glanced at the flower demon that was Ye Qingzi as well as Mu Qingyi aside her, and a flash of anger appeared.

Chanting an incantation, Chu Mu's hands conjured two devil flames that flew towards the Evil Good flower demons.

At this moment, the Evil Good flower demons no longer attacked Chu Mu and instead stood their confused, watching him with vacant and pleading looks

Chu Mu, of course, didn't fall for this mental trick again, fanning his devil flames to become stronger and stronger!

Chu Mu lifted his hands and were about to throw the flames at the two flower demons, wanting to destroy them once and for all in case he couldn't muster the courage to fight again.

The devil flames were already conjured and, with their defenses, Chu mu was sure they couldn't block the hit.

.....

In the sky, Ye Qingzi glanced confused and shocked at Chu Mu.

She didn't know what was wrong with Chu Mu, why he suddenly flew towards her and also revealed terrifying killing intent.

Seeing Chu Mu coming closer and closer, trying to kill her, Ye Qingzi's heart was nearly shattered. She could only watch as her loved one came with energy in his hands to kill her!

Yet, Chu Mu had no idea that the flower demon that he was about to destroy was the real Ye Qingzi. He had already released the energy to fly forth.

At this time, Chu Mu suddenly found that the flower demon in Ye Qingzi's form had a shimmer of pureness in her eyes. Seeing these familiar eyes, Chu Mu saw a single tear in Ye Qingzi's eyes.

This tear was familiar to Chu Mu; it was the monument tear that repaired Ye Qingzi's face. What surprised Chu Mu was how the false flower demon could even falsify the pure monument tear!

This sliver of hesitation caused Chu Mu's attack to halt.

Suddenly, Chu Mu realized something and quickly extinguished the devil flames in his palm!

All of Chu Mu's actions came to a halt. The determination disappeared, replaced with a face of guilt and shame as he watched the scared flower demon.

Ye Qingzi watched Chu Mu's killing intent slowly dissipate. Watching Chu Mu's shocked and ashamed face, the tear at her eyes fell.

Ye Qingzi couldn't possibly have dodged Chu Mu's attack. A second ago, Ye Qingzi thought she was dead for sure, yet Chu Mu retracted his hand at the last second.

Having such a close encounter with death, with the reaper being her most loved, this short process caused Ye Qingzi to shed a complicated tear.

Seeing Ye Qingzi's eyes slightly wet, Chu Mu finally completely escaped the illusion. Looking around, he suddenly found that all the demons were real. If he truly decided to kill all these flower demons, then the scene he would wake up to would truly destroy him!

He was this close to feeling true desolation!!

Chu Mu's heart palpitated loudly, feeling the lingering fear. No one in the world had a mental technique more terrifying than Evil Good Queen!

Mixing reality and illusion, Chu Mu realized that he nearly hurt his closest friends and family. An anger welled up in his heart as he slowly woke up!

Chu Mu's eyes instantly turned frigid as he stared at the Evil Good Queen with infinite hatred!

“Ao!!!!!!!”

“Hou!!!!!!!”

Zhan Ye and little Hidden Dragon, coming from the underground sacred palace, almost simultaneously felt Chu Mu's burning rage!

Little Hidden Dragon was ahead. Its soul powers pierced through the Evil Good Queen's Evil Good Flower, instantly shattering the Evil Good Flower.

Zhan Ye even pounced directly towards the Evil Good Queen, becoming a black battle axe that slashed towards the Evil Good Queen!!

The Evil Good Queen didn't dare to go directly against Chu Mu's two main soul pets. It quickly became a flower petal that spread outwards!

Little hidden dragon didn't give up, conjuring tens of thousands of souls to devour every petal!

Little hidden dragon's messy attack actually worked. One petal was attacked, and Evil Good Queen had to show her true form.

“Ao!!!!!!”

With another roar, little hidden dragon commanded all the ghouls to fly towards Evil Good Queen.

Evil Good Queen backed off frantically but her soul was still subject to the biting of the defense-ignoring attack. Suffering a soul wound, her face turned pale!

Chapter 1083: A Fierce Battle Comes

Evil Good Queen glanced evilly at Little Hidden Dragon, creating flowers beneath her feet that carried her backward.

Chu Mu didn't tell Little Hidden Dragon and Zhan Ye to go after her. After all, she was full of trickeries. A slight misstep, and Chu Mu or his soul pets could all get instantly killed. So, no matter how angry they were, Chu Mu had to remain calm.

Resentment again formed energy that burned as devil flames on Chu Mu's silver skin.

This resentment gathering was much stronger, replenishing Chu Mu's fighting strength.

Behind Chu Mu, Ye Qingzi summoned Bell Noise Concubine to heal the wounds on Chu Mu's back.

Chu Mu was higher rank now, so Ye Qingzi's healing couldn't heal him as quickly as before. However, the most important part about the healing was to stop the worsening effects of the wound so it could heal by itself.

Ye Qingzi needed enough time to heal Chu Mu's wounds well. Now, Ye Qingzi could only use the time Evil Good Queen retreated to heal Chu Mu as much as he could.

Chu Mu gazed back at Evil Good Queen who retreated back to the Wanxiang Altar and furrowed his brows.

With Evil Good Queen's cruel personality, there was no reason to let him go, yet why was she retreating?

Just as Chu Mu was wondering, another silver devil flame man swiftly flew over.

The silver half devil was Bai Yu. Watching him get nearer, Chu Mu was secretly surprised. He didn't think that Bai Yu also had the ability to become half devil at will, meaning there were two special half devils in the world now!

After becoming half devil, Bai Yu's quality was clearly changed, going from a steady and unfaltering nature to one that looked down upon the world.

"Ling Chan is heading back to Wanxiang Altar. I think it's to release his Slaughter Beast." Bai Yu said.

"Slaughter Beast?" Mu Qingyi paused, seeming to have heard of this organism.

"Slaughter Beast is Ling Chan's strongest main soul pet. At its peak, it could reach middle class dominator rank. The woman in the sealed tower set a strange diagram. It forcefully absorbs energy in the sealed tower and forces it into the slaughter beast's body to try to raise its strength some

more. Ling Chan has always been stuck at ninth remembrance spirit emperor. If its strength raises even further, he may enter spirit dominator rank.” Bai Yu said strictly.

“Spirit dominator.....” This was the first time Chu Mu had heard of the realm beyond spirit emperor called that. Almost no one mentioned this rank in human realm. This may be due to the reason barely anyone has reached spirit dominator rank in the past few thousand years.

“Soul pet trainers reaching spirit dominator ranks may cause the lower rank soul pet of his to instantly increase in strength. And, a soul pet trainer reaching spirit dominator rank can bring out potential in dominator rank soul pets, allowing them to learn new abilities or techniques.” Bai Yu continued.

“Spirit dominator rank has that effect?” Chu Mu was stunned, not realizing that spirit dominator rank was this special!

“Just now, I heard Liu Binglan could summon seven diagram sacred king right? No matter what, Ling Chan’s strength will become incredible. We can’t go to the sealed tower because it must have many traps there. What we have to do now is to gather all our dominator rank strengths before Ling Chan completes his breakthrough.” Bai Yu said.

Chu Mu nodded. “Let’s head to the sacred palace. The summoned seven diagram sacred kings need protection, so nothing can go wrong there.”

One Evil Good Queen was already hard to deal with. The reason she backed off definitely wasn’t because she couldn’t defeat him, but rather because she probably had a larger plot and didn’t want to waste too much energy here.

“Let’s leave.” Chu Mu glanced at Ye Qingzi and Mu Qingyi.

The two nodded and followed Chu Mu and Bai Yu towards Soul palace holy palace.

.....

The holy palace was incredibly sturdy. Even if it were destroyed any supreme title could chant an incantation and magic would put the palace back together.

At this moment in the holy palace, Prince chao and Liu BInglan were chanting the incantation to put back the summoning diagram in the palace.

The ancient stones floated about them, falling in certain places as if they had a life of their own. When they swirled around in the air, they slowly combined and stacked layer by layer onto the cracked sacred altar.

The holy altar was very damaged too now. Shattered rocks and powder unceasingly flew in and slowly stuck onto the cracked locations, melding into one undamaged piece.

“It’s complete!” Chao Lengchuan wiped the sweat on his forehead and smiled.

Liu Binglan nodded, and was just about to start an incantation when she saw Chu Mu, bai Yu, Ye Qingzi, and Mu Qingyi fly in from the hole in the roof.

And the moment they landed, a short legged raccoon came in front of them and watched them confidently.

“What’s up?” Liu Binglan asked uneasily.

“They went towards sealed tower and we didn't dare to chase.” Chu Mu said.

“The seven diagram sacred king needs massive amounts of soul power to summon. This way everyone can give some and complete it faster.” Old Li jumped onto the sacred altar and said.

“Right, the four heroes, Li Hong, Yi Jun, where did they all go?” Bai Yu questioned.

They all had dominator rank soul pets. Though they weren't threats to Chu Mu and Bai Yu, if they combined forces, they would definitely be suppressed.

“Li Hong was defeated by me. He should be going towards the outside of the city now.” Chao Lengchuan gritted his teeth, angry he couldn't kill that traitor.

“I killed Yi Jun's dominator rank demon. He shouldn't be a threat to us anymore.” Chu Mu said.

“Wu Kuang and Liang Yan both backed off to Wanxiang Altar.” Mu Qingyi said.

“Hero Chief Yuan Sui should be back to Wanxiang Altar too.” Liu Binglan said.

Old Li stroked his whiskers and said solemnly, “Looks like this will be a tough fight.”

“En, summon the seven diagram sacred kings.” bai Yu said.

Everyone nodded, and started to follow Liu Binglan’s commands, pouring their soul power into the holy altar to activate it.

.....

The entire Wanxiang Altar was filled with blood red plants. All the palaces were filled with endless Evil Good Flowers.

Standing at the center of the entire Wanxiang Altar was a blood smeared sword, silent yet striking!

At the tip of the entire palace, Wu Kuang and Lian Yan were both kneeling trembling with fear, not even having the courage to look up anymore.

Their heads were lowered, only able to see the royal and alluring queen’s petal-made dress and her exposed delicate feet.

Evil Good Queen didn’t even glance at the two as she said, “Not even able to handle two women, why do you exist?”

Wu Kuang and Lian Yan didn’t dare reply. They had never imagined emperor concubine Chu Xi to become so terrifying. When Evil Good Queen had first appeared, they immediately fell into illusions full of unscrupulous thoughts.

However, in their illusions, they never got to taste the alluring woman; instead, they got to experience true terror in the following illusion. It was a torture that they never wanted to experience again, and was the reason why they were so afraid in front of the evil good queen.

Hero Chief Yuan Sui was standing aside Evil Good Queen, slightly behind her. To Emperor Concubine Chu Xi's changes, hero chief Yuan Sui was similarly surprised. He had always thought that, no matter how many times he communicated with this woman, she was still veiled behind a mysterious guise. However, he never would have thought the woman was like this.

Alliance master Ling Chan looked at the two kneeling subordinates and was secretly laughing. Trying to have thoughts of her was no different from looking to die. Many times, even the very thought could make you pay dearly.

Ling Chan also loved beauties, especially ones as beautiful as Emperor Concubine. However, he knew which women never to touch.

Indeed, this woman wasn't someone to touch at all!

The ancestor of flower type, Evil Good Queen!

Even if this Evil Good Queen was just first phase first stage, having dirty thoughts about her would cause even a spirit dominator to die without knowing it.

Ling Chan didn't know where this woman came from or what goals she had. Ling Chan gave her position and power to satisfy her ambitions of domination, while she helped him enter spirit dominator rank. This mutual relationship was good enough!

“Hero chief, open the sealed tower.” Evil Good Queen said to Yuan Sui.

Yuan Sui nodded and didn’t say much, like usual. He simply walked to the center of the palace and started chanting.

“My little pet should be full from its feast.” Ling Chan smiled and glanced beneath wanxiang altar, “I’ll let it have its fun later, with so many people to kill!”

Yuan Sui didn’t take long to open the sealed tower. Very soon, the sealed tower’s spatial door became a light screen that fell down.

Evil Good Queen and Ling Chan both walked in without hesitation. This was when Yuan Sui said, “Mu Qingyi can close sealed tower. If they come,.....”

“They won’t be able to come near Wanxiang Altar.” Evil Good Queen’s eyes flashed with arrogance and continued on without pause.

Yuan Sui didn't say anymore and followed half a step behind.

Ling Chan seemed to notice this detail of Hero Chief Yuan Sui and furrowed his brows. However, he soon relaxed again, and paid it no attention.

From what Ling Chan saw, as long as he could become spirit dominator rank, even if these loyal subordinates died, it wouldn’t matter; he wasn’t staying around for long.

Chapter 1084: Evil Slaughter Beast

The Sealed Tower.

Long heavenly chains carried signs of age as they pierced the area between the sky and earth.

The heaven and earth was vast and boundless, but they seemed to perpetually be linked by these heavenly chains, giving others a feeling of heavy suppression.

The Sealed Tower had existed even longer than Immortal City. Above the levels of the Sealed Tower existed something else. Until now, nobody knew what creature laid at the very top level of the tower, or whether it was dead or alive.

Through the series of chains, the Evil Good Queen and Ling Chan flew to the bottom of the Sealed Tower of interweaving chains.

Countless chains were embedded in the Sealed Tower. Each chain locked a soul, so even if the seal was broken, it would still be difficult for the sealed soul pets to escape.

However, right now most of the chains on the Sealed Tower contained fine flower vines.

These flower vines were like arteries that sucked life force. They wrapped around each heavenly chain, extending to the ground at the bottom of the Sealed Tower, where there was a flower diagram composed of evil good flowers.

At the very center of the flower diagram was a malevolent beast exuding killing intent while lying there. It was still, but it looked like it could pounce out savagely at any moment. Even if its eyes were closed, the flesh all over its body emitted astonishing feelings of strength. It thus still had a terrifying sense of intimidation!

Hero Chief Yuan Sui, Son of Heaven Wu Kuang, and Hero Aide Lian Yan couldn't help but tremble when they saw this soul pet. Alliance Master Ling Chan's Slaughter Beast was indeed terrifying. When merely lying there, it seemed like it would rush over and take away their lives in the next instant.

But Alliance Master Ling Chan smiled. This soul pet was obviously his most proud work. Moreover, its stubborn, arrogant and bloodthirsty attitude was extremely tasteful to Ling Chan!

The Slaughter Beast in the flower array seemed to have sensed its master's arrival and slowly stood up.

“Huo!!!!”

This wild beast ostensibly didn't understand how to act reserved. The moment it opened its eyes, it let out an earth-shaking roar, causing the interweaving heavenly chains to clang and sway. They looked like they were going to break.

Wu Kuang and Lian Yan both retreated in fear. Their faces turned pale. This was the first time Lian Yan had seen Alliance Master's Slaughter Beast. He never expected that it would be this terrifying. This thing could probably heavily injure his Steel Eagle King with a single breath.

Wu Kuang was Ling Chan's disciple and had seen him quite often. However, each time he saw this Slaughter Beast, he would still tremble. Aside from Alliance Master Ling Chan, this Slaughter Beast wanted to kill everyone else. The aura of slaughter emanating from this creature's body was without any reservation!

In terms of aura, Ling Chan felt that his Slaughter Beast's strength had increased. However, it hadn't entered the rank he wanted it to.

Ling Chan's gaze fell on the Evil Good Queen. His eyes carried traces of suspicion and confusion.

The Evil Good Queen took a step forward and creased her brow, as she surveyed the surrounding diagram.

"What happened here?" the Evil Good Queen pointed at the artery-like flower vines.

There were over a hundred flower vines dangling down from the heavenly chains. Each flower vine was stealing the soul energy of the sealed soul pets in the steel chains. Then, the flower diagram would change the energy into the Slaughter Beast's requisite soul power, making its soul stronger.

However, it could be seen that a portion of the stealing soul flower vines had been broken. It seemed like it had been bitten apart by something.

There was ostensibly no creature in the Sealed Tower. If there were, they would still be sealed, while the Slaughter Beast could not bite off stealing soul flower vines that were feeding it energy.

Alliance Master Ling Chan's gaze fell on Yuan Sui. Only two people could open Sealed Tower. One was Mu Qingyi, and the other was Yuan Sui. Mu Qingyi naturally could not have entered the Sealed Tower just now. Thus, the only person who could have destroyed the stealing soul flower vine was Hero Chief Yuan Sui who had opened the Sealed Tower's spatial entrance.

"Whatever, this amount of energy is enough." the Evil Good Queen waved her hands, not bothering to pursue this matter.

The Evil Good Queen stepped forward slowly into the flower diagram. She stood quietly in front of this incomparably savage Slaughter Beast.

Ling Chan and Wu Kuang were both astonished, because the Slaughter Beast which was filled with hostility towards any creature was gradually calming down. There were even traces of fear in its eyes.

The good side of the Evil Good Queen could make a savage creature lose its vicious nature, turning it gentle and calm. On the other hand, her evil side could make a creature feel fear and terror. The Slaughter Beast calmed down because the Evil Good Queen's species rank was extremely high, her strength was stronger than its own and the flower array feeding it energy was implemented by the Evil Good Queen. Thus, imperceptibly, the Slaughter Beast's mind was confused by the Evil Good Queen.

The Evil Good Queen extended her hand. Without Alliance Master Ling Chan's orders, the Slaughter Beast prostrated itself and placed its forehead on the Evil Good Queen's palm.

The moment her hand and its forehead came in contact, the Evil Good Queen's long hair fluttered like a devil woman's. An extremely evil aura expanded in all directions, making it hard for the others to breathe.

“Dang!!!! Dang!!!! Dang!!!!!!!”

The interweaving chains violently shook, emitting ear-splitting droning noises.

“Hou hou!!!!”

“Ao ao ao ao ao!!!!”

“O!!!!!! O!!!!!!:

Abruptly, the entire Sealed Tower began to violently tremble. From the heavenly chains where the stealing soul flower vines were wrapped around, countless creatures’ souls began to roar!

These roars contained extreme pain and anger. There was also heart-trembling resentment!!

The Sealed Tower was innately a place where resentment aura was extremely thick. As over a hundred creatures from the higher parts of the Sealed Tower let out their roars, the sealed world seemed to transform into a terrifying hell!!

All of the anger, hatred, killing intent, jealousy, sorrow and helplessness became the seeds of evil. When this enormous resentment gathered together, it formed the most pure energy for the Evil Good Queen!

The Evil Good Queen’s long hair was dancing about. The flower array was rapidly emitting countless blood red flower petals that resembled long greedy lips that violently absorbed all of the resentment aura surging out of the Sealed Tower!!

The resentment was torrential. Once each blood red flower petal absorbed enough resentment aura, it would float down from the sky to the Evil Good Queen’s side and land in a node in the flower array.

“Huo!!!!!!”

"Huo!!!!!"

Suddenly, the Slaughter Beast abruptly stood up. It raised its arrogant and wild head, letting out an even more terrifying roar!!

Each flower petal that absorbed the resentment aura transformed into drops of evil energy that poured into the Slaughter Beast through the flower array.

As more and more resentment aura flower petals fell, the viscous nature emitting from the Slaughter Beast's body grew larger. The beast's skin began to rupture and what emerged from the rupture unexpectedly were ghastly white bones!

These bones transformed into extremely fierce and malevolent weapons. They appeared on the head, shoulders and on its joints!

The Slaughter Beast didn't originally have wings. But when the white bones grew out of its body, its back terrifyingly ripped apart and bones covered in fresh blood began to extend from its back!

Wing bones opened and densely packed thorny bones, resembling feathers, were covering the wings!

The Slaughter Beast was already an extremely savage and fierce creature among beast type creatures. Now with bone edges, blades, armor and wings, it looked even more visually shocking, fierce and savage. Looking at it would make one involuntarily tremble!

“Huo!!!!!!”

The Slaughter Beast abruptly let out a resentful and imposing roar. The roars from the Sealed Tower suddenly went quiet. There was no other soul pet more terrifying than this Slaughter Beast right now!

This time, Wu Kuang and Lian Yan with lower mental resilience sat down on the ground out of fear from its aura. Their own dominator rank creatures were equally as cowardly. They stood in place and couldn't help but incessantly tremble.

The Evil Good Queen calmly glanced at the two people who had lost their minds out of fear. Her mouth curved into a slightly sexy and arrogant smile. She said to the Alliance Master: “So, Alliance Master, are you satisfied with your new soul pet?”

Ling Chan looked at this extremely oppressive soul pet, and immediately let out loud laughter!

This was the true Slaughter Beast. A single look from it could make a dominator rank creature's mind collapse.

“Very good!! This is finally a true Slaughter Beast!!!” Alliance Master Ling Chan walked up to the Slaughter Beast and lovingly patted the bone horn from the Slaughter Beast that could pierce through anything as well as the ostentatious bone thorn wings!

“Bai Yu, Chu Mu, and Liu Binglan. It seems that they will become the first sacrificial pieces to my new Slaughter Beat!” malevolently laughed Alliance Master Ling Chan.

“Leave Chu Mu to me. You can slaughter the others.” the Evil Good Queen faintly laughed as she covered her mouth.

“Hahaha, although I really wish to personally kill that brat, since you have an interest in him, I feel that even if I leave him to you, it will definitely be much better than leaving him to me.” Alliance Master Ling Chan specifically added emphasis on “better”. In his opinion, this woman’s methods at making one wish for death were probably much better than his own.

The Evil Good Queen was still smiling. As she stared at the arrogant and egotistical Alliance Master Ling Chan, her charming eyes seemed to hide something even more complicated.

“However, my honorable Queen, my strength doesn’t seem to have broken through.” said Ling Chan.

The Evil Good Queen calmly smiled and said: “Haven’t I only taken half of the energy?”

“Half of the energy?” Ling Chan was stunned. He clearly didn’t understand the meaning behind these words.

“You’ve forgotten. This is only evil energy. The other half is coming from some people gathering it right now who think they are so smart.” said the Evil Good Queen.

For the Evil Good Queen, the evil energy’s source came from the Sealed Tower’s resentment aura. Then where did the good energy come from?

Alliance Master Ling Chan wasn’t stupid and quickly guessed what this other half of energy was...

“Hahaha, the Queen is indeed a Queen. This move of yours is too good for words!!” Alliance Master Ling Chan let out loud laughter in a flash of understanding!!

Chapter 1085: Good vs Evil, Source of Energy

There were no longer any normal residents left in Wanxiang City. The neutral factions had also left the city. Thus, this enormous city had become empty.

The city districts that belonged to the Three Great Palaces and Soul Alliance were now in ruins. The streets and buildings had been razed to the ground.

At night, the atmosphere was particularly clear and the stars were visible. It was a complete opposite scene from the ruined city below it.

When midnight arrived, two clear battlefields had appeared in the war. The western side of the city with the inner city as a stronghold - an area of ten kilometers - became the main area of war between the two armies.

The size of both armies was rather terrifying. There would be no stop to fighting for three days and nights unless numerous emperors or even dominator rank creatures joined the fray.

The two armies were at an irreconcilable point. The streets had run red with blood and corpses littered the ground. Techniques that covered the sky and earth washed over this city.

The other battlefield was located around Wanxiang Altar and the ten kilometer distance east of it. The fighting here was even more clustered and bitter. It was also where the Nightmare and Flower Demon Empires fought each other.

Of course, the high ranking emperors gradually shifted the fight from the middle city to the outer city and even outside the city. However, the main force of these two large empires was still centered east of Wanxiang Altar.

The size of these empires was so large that unless their kings had a final victor between them, the fight probably wouldn't end for 5 days!

In such a scale of war, the flames of war had burned through this enormous city. This was unprecedented in this city's several thousand year history.

As for who would win, nobody could tell right now.

.....

In the hazy and smoke-filled city, filth was flying through the air.

The only clean place on the entire battlefield was Soul Palace's Saint Palace.

The surroundings of the Saint Palace had already become ruins. Only the newly reconstructed Saint Altar was completely undamaged.

Presently, as Liu Binglan completed her incantation, the entire Saint Altar circulated with a gorgeous lustre.

The luster was reserved and slowly formed a beautiful light screen. Under the screen, seven extremely prominent star rays formed halos. In between the light rays was a hazy light screen.

The starlight rays flew to the horizon, passing through the dark and cold second layer of the sky. It reached the distant and unknown stars, linking up with seven dazzling stars.

Countless spells, symbols and patterns coiled around the light screen, quickly filling up the light screens formed by the seven principal star lines. According to Liu Binglan, when all of this energy reached the seven stars, the Seven Diagram Saint Kings would arrive.

Chu Mu raised his head and looked at the beautiful and mysterious light screens. When he saw the light screens reach the peak of the night sky gradually proceed further, Chu Mu was unable to see the end; nonetheless, he was still able to see it continuously grow thinner.

The seven resonating stars were only a small distance away from the light screen, yet the tiny light screen were unable to reach them as they continuously kept extending.

Chu Mu couldn't estimate how far away they were. The speed at which the light screens shot up was thousands if not tens of thousands of times faster than Chu Mu's top speed. At this speed, it should have been capable of reaching any place in the blink of an eye. Yet, the seven stars were still so far away from the light screens.

Finally, the light screen stopped extending. Chu Mu could feel the dazzling nature of the unknown cosmos and the seven stars.

Chu Mu really wanted to know what theory allowed the seven diagram summoning array to summon distant soul pets here. Therefore, he looked unmovingly at the seven stars.

Suddenly, light reflected off the seven stars and fell to the ground!

“The light reflecting off will land above Tianxia City’s Seven Great Saint Palaces’ Holy Region Door.” Old Li spoke up at a very timely moment.

Indeed, Chu Mu discovered that the light reflecting from the stars was heading west, as if it was going to land on Tianxia City’s land!

Chu Mu was stunned by the scene in front of him. The spatial summoning that transcended two domains was created through the stars and starlight. The starlight that reflected off created a stunning Star Course Bridge!

Other type energy was spatial power. The spatial energy Chu Mu controlled was dimensional space that existed under normal space. Most of his techniques were predicated on destroying and reconstructing the balance between these two spaces.

Chu Mu discovered that when Liu Binglan controlled spatial power, she was constructing two dimensions above normal space, which happened to be the second and third layer of the sky. It was completely the opposite as the space he controlled!

“Haha, young master, you seem to have realized something.” suddenly laughed Old Li.

“Could the world have been structured like this?” asked Chu Mu, somewhat absentmindedly.

“With normal space as the main fulcrum, above it are the two skies and below it are the two earths. Other type energy is predicated on being able to destroy and reconstruct the laws between these five

dimensions. The other type power young master possesses controls the spatial laws between normal space and the two lower earths. Her Majesty Female Supreme's Star River can control the two upper heavens' laws. This was also why Her Majesty Female Supreme decided to fight the Hero Chief's Unifying Wind Unicorn in the second layer of the sky when she realized she couldn't win." said Old Li.

Chu Mu indeed have never considered this. It was only now when he saw the spatial summoning scene that transcended dimensions did he abruptly come to an understanding.

"All special spaces, for example Three Great Palace's Holy Region, Immortal City, Sealed Tower and Snow City's Universe Ice Gates are all formed from the foundations of these four dimensions." said Old Li.

"Then you're saying that this world actually has a total of five layers?" asked Chu Mu, somewhat shocked.

Old Li shook his head: "Normal space is called the world of life because soul pets can only survive on this dimension. The other four worlds can only be inhabited by other type creatures. Of course, once other attributed creatures reach the dominator rank, they can also stay temporarily in the other four worlds. The special spaces of the Holy Regions, Immortal City and the Sealed Tower are located on other dimensions. They are nowhere near as vast as the world of life. They can only be considered derivative worlds. Nonetheless, one thing is certain. The resources in these derivative world are ample!"

Chu Mu was slightly dizzy from the explanation. The structure of the world clearly was not as simple as he had imagined.

"Young master, you'll slowly come to understand this. At least young master now understands that the Holy Regions and so-called other worlds didn't randomly appeared..." Old Li stroked his beard and glanced at the Seven Diagram Saint Kings that were nearly finished summoning.

Suddenly, Old Li creased his brows. He seemed to have discovered something that went wrong.

His face suddenly sunk and he glanced at the saint altar.

“Young master, we’re in trouble.” Old Li’s voice was low.

“What’s the matter?” Chu Mu knew that Old Li wouldn’t try and fear-monger during important times. He instantly turned serious.

“Look. Above the reflected starlight is also a hazy path of light falling onto the top of Wanxiang Altar.” Old Li pointed at the pitch black Wanxiang Altar in the distance.

Chu Mu used his soul remembrance to look. Indeed, as Old Li had said, there was a hazy path of light falling on Wanxiang Altar.

“What... what is that?” asked Chu Mu, full of confusion.

“All good, brave, merciful and kind characteristics, including happiness, forgiveness and warmth belong to “good”. At the complete opposite end of the spectrum sits the treachery, cowardness, merciless and nefarious characteristics of “evil”. This includes sorrow, cold-bloodedness, jealousy and violence...”

“Young master can transform the resentment aura inside yourself into your own strength through a technique called Resentment Gathering, right? Young master’s resentment aura originates from the hatred, anger, jealousy and other negative characteristics and emotions I just listed.”

“The terrifying part of the Evil Good Queen is that she can absorb the negative characteristics and emotions of all creatures, transforming it into her own power. Perhaps it will become energy to grow or evolve...”

“Therefore, if I haven’t guessed incorrectly, she is currently rapidly absorbing the evil energy inside the Sealed Tower, making it her own power. This also means that back when she had implemented the Tianxia City plot and awakened Half Devil Bai Yu who had an extreme amount of negative emotions, the goal was the same. It was no wonder that she was able to reach the dominator rank despite the Evil Good Queen’s growth and evolution speed being exceptionally slow.”

Old Li’s words allowed Chu Mu to instantly understand this woman’s complex intentions.

“So you’re saying that she constructed her appearance of a goddess, helping and providing for Wanxiang City’s people, in order to absorb good energy.” said Old Li.

“Yes, however, this energy is limited in actuality. Indeed, the strength of the people she helped is meager. The reason why I said we are in trouble is because this woman is also absorbing an extremely large amount of good energy right now.” Old Li glanced at the Seven Diagram Saint Kings that had practically finished summoning.

Old Li didn’t say it, but Chu Mu followed his gaze and instantly came to a realization.

Another shiver ran through Chu Mu’s body .Even his soul couldn’t help but lightly tremble.

Summoning the Seven Diagram Saint Kings was undoubtedly taking pity on and helping the Three Great Palaces which was about to reach destruction. This was an enormous amount of good energy.

Moreover, Soul Palace had always been an embodiment of good because its Seven Diagram Saint Pets each represented seven good characteristics. The Linyin Beast represented courage, the Xuan Zhen Beetle represented resilience, the Binding Wind Fairy represented gentleness, the Palm Dawn Concubine represented mercy and sympathy, the Immortal Ming Bird represented kindness and compassion, the Holy Stem Flower represented redemption and forgiveness and the Thousand Wave Beast represented honesty and divinity!

This meant that the moment the Seven Diagram Saint Pets were summoned, the incorporeal good energy would become the Evil Good Queen's power!!

Thinking of this, Chu Mu couldn't help but take in a breath. This woman's schemes were unstoppable!!!

Chapter 1086: Seven Sacred Kings Descend

"It's too late." Old Li shook his head.

Just when Chu Mu wanted to stop them, a radiant sacred light appeared in the starlight screen!

In the light, seven diagram sacred king's silhouette appeared, slowly solidifying within the countless incantations, runes, and diagrams.

Under the sacred altar screen, the first to appear was Lin Yin Beast, covered in dawnlight armor!

This brave beast was a horned beast of beast type. In advanced members of soul palace, almost all of them had a Lin Yin Beast!

Lin Yin Beast was massive and wild. Lin Yin Beast King's aura was even stronger. When it stepped forward, the sacred altar's stairs showed many cracks.

After Lin Yin Beast King appeared, the next to slowly solidify was Xuan Zhen Beetle King.

Xuan Zhen Beetle King seemed completely armored up. Sturdy, resilient, its aura was more reserved. It simply stood emotionlessly after it appeared.

From its aura, Chu Mu could tell that both the seven diagram sacred kings were all dominator rank!

The following seven diagram sacred kings were clearly stronger than Xuanzhen Beetle King and Lin Yin Beast, which are the spiritual binding wind spirit and Immortal Ming Bird.

Binding Wind Spirit King and Immortal Ming Bird King appeared simultaneously in the glow. These sacred kings were both low class dominator rank. However, no one could feel a threatening aura around them. Instead, they only felt a familiar and amiable nature. Spirited, holy, the binding wind spirit king and Immortal Ming Bird King caused the turbid wind to settle somewhat and become cleaner.

Chu Mu was just surprised about Binding Wind Spirit King and Immortal Ming Bird King when a glow rippled outwards and shrouded everyone.

The glow was holy and gentle. Chu Mu could clearly feel his soul pets' wounds quickly recovering, especially the little hidden dragon, which had very powerful self healing abilities. In the glow, its wounds were mostly healed. Of course, Chu Mu and Zhan Ye have black sub types, so this light type healing didn't work for them.

Dawnlight Healing, this sacred beast must be the Pawn Dawn Concubine with powerful healing abilities. Chu Mu could feel that this Pawn Dawn Concubine was also low class dominator rank!

Ye Qingzi was still emperor rank, so with her soul art, her supporting effects could be useful for pseudo dominator rank organisms.

However, if she had to support low class dominator ranks, she was somewhat powerless. Even her healing was weaker due to the rank difference.

The appearance of the low class dominator rank Pawn Dawn Concubine indubitably meant all the soul pets' healing and wounds were guaranteed.

"The next to appear will be holy stem flower." Chu Mu thought to himself.

Everyone's thoughts were similar to Chu Mu's. Holy Stem Flower and Pawn Dawn Concubine both had very powerful healing abilities and weren't any weaker in fighting strength to wood and vine type soul pets. With Holy Stem Flower, they had better control over the group fight.

A silhouette slowly appeared. What confused people was this silhouette was clearly different from holy stem flower!

"It's Thousand Wave Beast King!" Prince Chao was the first to react!

Thousand Wave Beast King was clad in thick golden armor with a pair of rampant horns. It was holy, imposing, vast, and bold!

This sacred beast was stronger than any previous one. Its unique aura was perfectly displayed on it, having an incredibly intimidating power!

The Thousand Wave Beast King was massive, like a massive golden palace that stood in front of everyone. Its noble head lifted high like a true king, bidding all beasts to bow down.

“This Thousand Wave Beast is very close to middle class dominator rank!” Chu Mu said joy.

Originally, he thought the seven diagram sacred kings were only pseudo or low class dominator rank. Who would’ve thought that the Thousand Wave Beast was this powerful, No wonder alliance master was always afraid of soul palace!

Seeing the six sacred beasts appear, Prince Chao was clearly excited. His adoration for the sacred kings were near religious. Though he was dominator rank now, this belief was still deeply rooted.

Not only Chao Lengchuan was like this, Nightmare Palace elders, and other elders were like this too.

From far away, they could already see these six sacred kings. Lin Yin Beast’s dazzling armor, Xuanzhen Beetle’s blade, binding wind spirit’s wind field, pawn dawn concubine’s glow, and thousand wave beast’s towering body!

Seeing soul palace’s faith and belief, sacred king, descend during their battles of life and death, this was synonymous to people seeing a god descend to save them. Some older people were already in tears from the scene.

“We’re saved, our palace is saved.” Elder Liu said with a trembling voice.

The worried elders seemed to see hope when they glimpsed the starlight and holy light.

Soul palace’s strongest seven soul pets, seven diagram sacred palace, they finally arrived at this location of disaster to rebuild the new holy palaces!

The holy light of the seven diagram sacred pets radiated everywhere. The entire city could see them, especially the thousand wave beast king standing proudly at the center.

Three palace’s greatest reliance was these sacred kings. When the armies saw the sacred light, their fighting intent grew higher and reinvigorated cries sounded!!

“Seven diagram sacred kings appeared!! Seven diagram sacred kings appeared!!” Elder Teng leading the army yelled excitedly!!

All of three palace members seemed to be shrouded in holy light and gained stronger power. Their fighting spirit burned within their tired eyes, conjuring power that slashed right into the iron fortress and soul alliance army.

The situation seemed to have instantly turned around after the appearance of the seven diagram sacred king.

.....

From the sacred palace, Liu Binglan's eyes glanced over all six sacred kings but noticed Holy Stem Flower King didn't appear, so she turned to stare at the light screen.

"Female supreme, Evil Good Queen is the ancestor of flower types. Since Holy Stem Flower came from the Good Flower..... It probably won't appear." Old Li said quietly.

Indeed, the holy sacred starlight screen was disappearing and Holy Stem Flower King still didn't appear.

With Seven Diagram Sacred Kings now Six Diagram, Liu Binglan was somewhat disappointed.

"Adding on the two of them, we can sort of count it as eight." At this moment, Bai Yu chimed in.

The eighth diagram was white nightmare. However, Nightmare Ancestor had already been killed by Chu Mu. Chu Mu took over its role, and Bai Yu could fill in Holy Stem Sacred Flower's position, making eight sacred kings!

"Huo!!!!!!!!!"

"Huo!!!!!!!!!!!!!"

Suddenly, a city-trembling roar came from within Wanxiang Altar!!!

Resentment gathered, becoming rolling black clouds that covered the clean skies.

Chilling wind blew heavily. A shivering evil aura became a strange storm that engulfed the entire city. Even six diagram sacred king's holy aura was suppressed by it!!

A roar passed through the entire city and into every person's soul, causing everyone to shiver!!

Chu Mu gazed shocked at the Wanxiang Altar and suddenly found that, on the lone height of wanxiang city, a vicious evil beast stood proudly. Its frightening wings expanded completely and lifted up waves of evil air!!

Blood red eyes filled with cruelty and violence was staring down at the city's organisms!!

This thing was like a beast that came from hell. Its power was something Chu Mu had never seen before, and its evilness was enough to kill the world alone!!

Combining killing aura, resentment, evilness, and viciousness into one body, even the holy and mighty Thousand Wave Beast seemed tiny in comparison!!

No matter how intensely fighting they were before, the entire city's population seemed to go still. The terrifying evilness caused them to find it troubling to even move a finger!

Subduing billions of organisms at once, how shocking of an aura it had!

The thing that caused them to shake the most was, when they gazed at the hellish demon, they felt their own deaths nearing!!

Why fight each other when the entirety of wanxiang city will ultimately get slaughtered by it!!

.....

“That.....” Chu Mu gazed at the organism that climbed out of hell itself and his heart rumbled!

“Slaughter Beast, but not quite!” Even Bai Yu seemed to have been subdued by the organisms on Wanxiang Alar.

“It must be Evil Good Queen imbuing its evil energy into Alliance Master Ling Chan’s Slaughter Beast, increasing its strength. This is an evil Slaughter Beast that made by countless evil tendencies within sealed tower!!” Old Li immediately yelled out loud!

Evil Slaughter Beast!!

Bai Yu had some understanding of Ling Chan’s slaughter Beast. It was a near middle class dominator rank organism and was Ling Chan’s greatest reliance!

However, what they didn’t expect was that Slaughter Beast, after absorbing resentment and evil aura, had grown so much stronger and become this terrifying!!

The slaughter beast had already been battle hungry and violent. With this evil energy, it was like a devilspawn that came to humanity to cull it!

“Houhouhou!!!!!!!!!!”

The Thousand Wave Beast representing justice felt the terrifying evil and still didn't falter, roaring towards it!!

With the Thousand Wave Beast King's roar, the other five diagram sacred kings congregated and stared at this powerful enemy!

“Huo!!!!!!”

Evil Slaughter Beast's eyes immediately locked onto Sacred Palace. Jumping down unstoppably from Wanxiang Altar, it didn't even hesitate as it dived straight towards the six diagram sacred kings!!

Chapter 1087: Slaughterfest, Slaughter Beast

Evil Slaughter Beast emitted tsunamis of resentment aura as it ran. Within the resentment, one could vaguely see countless angered and bloody faces!

Its pair of unbelievably bony and spiky wings were like two bone scythes reaping lives. Opening up to two sides, the nightmare army on either side were slashed into two and the devil flames were instantly halved.

With such an evil beast approaching, all of their faces were grave.

The Thousand Wave Beast was still roaring. It stepped forth heavily and broke all ruins in front, running head on towards the evil slaughter beast!!

Evil beast and holy beast went against each other head on. The power of blood and resentment was incredibly powerful, instantly pushing down the golden aura coming from the Thousand Wave Beast. The Evil Slaughter Beast's forehead bone horn slammed into the Thousand Wave Beast's golden horn. Wailing came through and the evil aura pushed the Thousand Wave Beast back with absolute advantage!

“Beng!! Beng!! Beng!!!!!!”

Thousand Wave Beast's heavy steps caused the very ground to sink in. It backed all the way to the sacred palace before finally steadying itself. Blood started seeping out between its golden horn and forehead!

Thousand Wave Beast King was the head of seven diagram sacred king and was near middle class dominator rank. In the first clash, yet, it was already wounded!!

Everyone was shocked. This evil Slaughter Beast was even stronger than their imagination!

“Hahahah, I thought Seven Diagram Sacred King was supposed to be powerful, yet they aren't much! I will take your lives as Ling Chan today!!” Wanxiang Altar resonated with Ling Chan's egotistical laughter!”

The sound was incredibly piercing, causing everyone to feel disgusted and angry.

“Enjoy this slaughter fest!” Ling Chan rode the demon down wanxiang altar.

Beside Ling Chan, there were a few more soul pets that reached dominator rank- the healed Meteor Dragon and Fire God Servant!

And along with Ling Chan was also Hero Chief Yuan Sui who rode Unifying Wind Unicorn down, Son of Heaven Wu Kuang on Icy Death King's shoulders, and Steel Eagle King with Hero Aide Lian yan!

"Chu Mu, do your soul pets still have fighting strength?" Bai Yu said solemnly.

Chu Mu nodded. Ye Qingzi had went all out healing his soul pet over this past period, so though the recovery rate wasn't quite, he definitely didn't have a problem fighting Ling Chan's soul pets again.

"Ling Chan shouldn't have stepped into spirit dominator rank yet. Your ghost dragon should still fight the Meteor Dragon and Zhan Ye against the dominator rank demon. My Ice Pupil Unicorn will subdue the Fire God Servant." Bai Yu said.

"Wu Kuang and Lian Yan will be ours." Mu Qingyi glanced at Ye Qingzi and said.

"En, be careful, I think they got some evil powers too." Chu Mu said.

Bai Yu quickly glanced at Liu Binglan and Chao Lengchuan, "You fight Yuan Sui, if I'm correct, he has dominator rank soul pets other than Unifying Wind Unicorn."

Liu Binglan stared blankly. If Yuan Sui had other dominator rank soul pets, why did he not summon them in their battle? Was he waiting for the Six Dawn Space Masters, or was he going easy?

Liu Binglan had just used a lot of her soul power so summoning Six Dawn Space Masters wasn't possible yet. She had to wait for Ye Qingzi's soul power recovery medicine to slowly work before she could have enough soul power to summon.

Chao Lengchuan's Thousand Wave Beast was already wounded. Beating Li Hong cost him a lot too.

However, one could tell that Prince Chao and Thousand Wave Beast both still had fighting intent. As long as Ye Qingzi's healing technique somewhat took care of him, he could continue fighting!

In a moment, everyone immediately scattered. The most recovered Little Hidden Dragon was first ahead, glaring at Ling Chan's Meteor Dragon!

The Meteor Dragon had been beaten down by little hidden dragon before, but it's healed and seemed to be stronger now.

However, Little Hidden Dragon wasn't afraid of prolonged battles; its powerful life force and regeneration were its reliances for it to be undefeated!

Zhan Ye was fastest at recovering, but its strength slowly fell with the pause in fighting.

Zhan Ye's willpower was the strongest, however; even without broken limb rebirths, it won't be afraid of Ling Chan's demon whatsoever.

After Little Hidden Dragon, Zhan Ye pounced forward with raging fighting intent.

Seeing Chu Mu's Mo Ye still have fighting strength, Ling Chan looked on resentfully and commanded evil slaughter beast to kill Zhan Ye first!!

This Mo Ye caused the most shame to Ling Chan, so it was the soul pet he wanted dead the most!

Evil Slaughter Beast was surprisingly quick. Its body full of bones became soul reaving scythes as it ran over towards Zhan Ye!

With the current power differential, Zhan Ye would get instantly killed without a doubt!

However, Chu Mu, Bai Yu, Six Diagram Sacred kings were all staring at the evil slaughter beast carefully, so how would they let that happen?

Thousand Wave Beast was the first to react. Its large body wasn't slow at all. Its sturdy body stood in front of Zhan Ye and caused the thick armor to radiate a holy glow!

At the same time, Pawn Dawn Concubine's light became scale shields. These scale shields became a massive soft shield that draped over Thousand Wave Beast!

“Zizizizi!!!!!!”

The thousands of bone blades all landed on the Evil Slaughter Beast's Dawn Light Shield, letting out a piercing screech.

Palm Dawn Concubine was low class dominator rank. Its defensive techniques could only weaken the attack. With dominating strength, the Evil Slaughter Beast's attack broke through the Dawn Light Shield and fell upon Thousand Wave Beast's own armor!

Countless cracks appeared on the golden armor and blood dripped out from the Thousand Wave Beast's body, dripping onto the ground.

“Ao!!!!!”

Lin Yin Beast King and Xuanzhen Beetle King ran in from the sides as two tidal waves before the Evil Slaughter Beast could step back from its technique!

“Two pieces of trash, hahaha!” Ling Chan laughed out without restraint.

The Slaughter Beast opened its bony wings. Without even casting a technique, its wings swept towards its sides, slapping the Lin Yin Beast King and Xuanzhen Beetle King away. The two soul pets' thick armor didn't help them at all as countless bloody holes appeared on their bodies.

Chu Mu and Bai Yu glanced at the wounded two sacred kings and furrowed their brows.

Lin Yin Beast King and Xuanzhen Beetle King both weren't low class dominator rank. They were too far weaker than the Slaughter Beast. Even low class dominator ranks could be instantly killed by it.

“The only one able to block a technique from evil slaughter beast head on is Thousand Wave Beast. You, me, Immortal Ming bird, and Binding Wind Spirit can block one hit at most with Pawn Dawn

Concubine's Dawnlight Scale Armor. If the Evil Slaughter Beast's follow up hits, we will die for sure." Bai Yu quickly judged.

Chu Mu nodded. A slight misstep could cause their entire army to lose. If Holy Stem Flower was there, combined with Pawn Dawn Concubine's support, they should still have fighting strength. However, now it was Thousand Wave Beast fighting alone while the rest couldn't even get near easily.

"We can't get split up." Chu Mu's other pupils glinted.

Six diagrams and two nightmares had to stay together; once a single one falls, they will all die one after another!

"Houhou!!!!!!!!!!"

At this moment, Thousand Wave Beast angrily launched its counter attack. Lifting up its two front legs, its golden forelimbs slammed down towards the Evil Slaughter Beast's head, meaning to stamp the monster!

The Slaughter Beast was incredibly violent and didn't back off facing the Thousand Wave Beast, instead starting a similar stamp towards the space in front of it!!

"Beng!!!!!!"

"Beng!!!!!!"

The two stamps happened one after another in the space. The Thousand Wave Beast's stamp caused the Slaughter Beast to step many steps back.

However, the Slaughter Beast's stamp caused the Thousand Wave Beast to fly back, its golden armor showing even more cracks!

The two beast's strength differential was immediately obvious. Ling Chan glanced at the Thousand Wave Beast fly dozen kilometers back and laughed piercingly.

Evil Slaughter Beast's strength satisfied him well. He thought originally it would at most go even against this Thousand Wave Beast King, yet it was wounding it consistently!

"Start the slaughter! Don't let a single one go!" Ling Chan laughed maniacally.

Without Thousand Wave Beast, no soul pet could stop the attack of the Slaughter Beast! Killing them will be like squashing ants!

The other five Diagram Sacred Kings and two half devils of course won't just sit and wait for death. When Thousand Wave Beast was facing off, they completed all their incantations!

Chu Mu and Bai Yu both burned with silver devil flames at the same time, their evil aura lifting each other upwards.

Raising their hands up, eighteen Wordly Devil Swords appeared above them, filled with three different types!

The eighteen Wordly Devil Swords flew out first and slashed towards the Evil Slaughter Beast from all directions!!

“Jiang!! Jiang!!!! Jiang!!!!!!”

The eighteen Worldly Devil Swords slashed, pierced, and hacked at the Evil Slaughter Beast, creating sounds of metal screeching before all snapping!

The eighteen Devil Swords were imposing, yet it only left eighteen shallow marks on the Evil Slaughter Beast. It couldn't even break through its defense, let alone wound it.

“Are you tickling my soul pet?” Ling Chan’s mocking voice came again.

Chu Mu and Bai Yu’s hearts sank further. This Slaughter Beast’s defense was high as well. Even their strongest technique couldn’t directly deal damage to it. They had to find a way to weaken its defense or else their attacks truly will just be tickling it!!

Chapter 1088: White Nightmare Rank Advance!

Chu Mu and Bai Yu’s techniques, the Binding Wind Spirit King, Immortal Ming Bird King, Linyin Beast King, and Xuan Zhen Beetle King’s techniques simultaneously smashed down while enveloped in holy energy.

A violent golden storm came from the Binding Wind Spirit’s wind type techniques.

The Binding Wind Spirit King clearly possessed Wind Ancient Willpower. The wind type techniques used was twice as strong as the Unifying Wind Unicorn!

In the golden storm were feathers that resembled flying snow. The feathers were soft and seemingly possessed no damage capabilities; however, these feathers were purifying feathers. When the Evil Slaughter Beast entered the storm. These feathers were continuously melded, purifying the violence on its body.

The evil energy came from the negative emotions of the various creatures in the Sealed Tower. The purifying feather could purify these emotions and weaken some of the Slaughter Beast's strength.

Although this weakening was extremely limited, the Immortal Ming Bird's technique lit up the eyes of Chu Mu and Bai Yu.

Both the Linyin Beast King and Xuan Zhen Beast King began to use long ranged techniques. The previous technique forced back the Evil Slaughter Beast's attacking intentions.

The two great half devils and four saint kings' techniques also intimidated it to a certain extent. After the Evil Slaughter Beast charged up halfway, its movements came to a clear stagnation.

Relying on this moment, Chu Mu, Bai Yu and the five saint kings retreated, not giving it an opportunity to directly attack them.

“Huo!!!!!!!!!!”

The Evil Slaughter Beast hadn't killed a single life yet. Evidently, it was a bit irritable and angry, and it roared at this group of cowardly things.

“Hou hou hou hou!!!!”

The Thousand Wave Beast responded to the Evil Slaughter Beast’s roar.

The Palm Dawn Concubine’s healing rapidly healed the broken golden armor of the Thousand Wave Beast. The leader of the Seven Diagram Saint Kings clearly wouldn’t fall so easily!

The Thousand Wave Beast rushed over and the crisis was somewhat alleviated.

However, Chu Mu and Bai Yu both knew that the moment the Thousand Wave Beast was powerless to resist or if one of them made a mistake, they would be in extreme danger.

Ling Chan harrumphed and coldly swept her eyes over the Palm Dawn concubine. Palm Dawn Concubine’s rank was not low; its supporting abilities were extremely powerful. It could heal the Thousand Wave Beast’s injuries in such a short period of time. Thus, unless the Thousand Wave Beast King’s flesh was torn apart, the Evil Slaughter Beast would not be able to find an opportunity to kill.

“It seems that I need to pay a price. Get rid of one first!” said Ling Chan in his heart.

“Kill the weakest one first!” Ling Chan said to his Evil Slaughter Beast.

The Evil Slaughter Beast’s red eyes quickly locked onto the Palm Dawn Concubine. Its body transformed into a black hurricane, charging straight at the Palm Dawn Concubine.

The Thousand Wave Beast King instantly used its enormous body to block in front of the Evil Slaughter Beast's body and sent a holy light at the Evil Slaughter Beast!

The Evil Slaughter Beast spread its bone spike wings and beat it towards the Thousand Wave Beast King's holy light!

This time, the Evil Slaughter Beast didn't attack the Thousand Wave Beast. It charged like the wind, wrapped in a fiendish aura, past the the Thousand Wave Beast towards the Palm Dawn Concubine!

The Thousand Wave Beast didn't react slowly. It immediately turned around and chased. Its golden claws ripped at the Evil Slaughter Beast!

The Evil Slaughter beast didn't dodge, and continued to head straight at the Palm Dawn concubine.

"Sila!!!!!"

The Thousand Wave Beast King's attacks was capable of breaking open the Evil Slaughter Beast's defense. Its golden claws ripped open the Evil Slaughter Beast's back. A fresh bloody wound suddenly appeared!

The Evil Slaughter Beast angrily glanced at the Thousand Wave Beast, but ignored it. Its bone blade on its joint flickered with a cold light and it was about to launch an attack at the Palm Dawn Concubine!

The Palm Dawn Concubine's defense was nothing special. If it was directly attacked, it would definitely be heavily injured. This meant that even the Thousand Wave Beast would eventually be killed by the Evil Slaughter Beast.

“Protect the Palm Dawn Concubine.” Bai Yu’s body ignited with silver flames. After burning him to ashes, he instantly appeared next to the Palm Dawn Concubine.

Chanting an incantation, a wave of chaos appeared in the space in front of where bai Yu appeared, drawing the outline of a rhombus spatial wall.

Chu Mu didn’t teleport to beside the Palm Dawn concubine. Instead, he chanted an incantation, and a reversal space appeared in the path of the Slaughter Beast!

The reversal space was like a rapid flow of water. It could make still objects mysteriously move backwards and fast moving objects slow down. Moreover, the faster the creature, the more resistance there would be.

“Very good.” Bai Yu saw that the space Chu Mu created had strange effects, and immediately praised him.

The reversal airflow of the Binding Wind Spirit came to form. With the reversal space and airflow, the Slaughter Beast’s speed dropped at least by one half. While using other pupil, it was barely possible to see its movements now.

Bai Yu’s other pupils expanded. As he was planning on allying with the saint kings to beat the Slaughter Beast back, Bai Yu suddenly understood the Evil Slaughter beast’s strange movements!

“Not good!” Bai Yu silently cried out, and immediately stared at the Linyin Beast King.

Indeed, the Slaughter Beast's location it was charging towards was the Linyin Beast. After it had changed directions, its speed returned to its original level. Bai Yu wasn't able to see this creature's movements!

The Linyin Beast was planning on protecting the Palm Dawn Concubine, but when it saw the Evil Slaughter Beast full of bone blades charge at it, it knew that it was impossible to dodge. Thus it extended its claws and attacked the Evil Slaughter Beast!

The Evil Slaughter Beast also revealed its terrifying bone claws. Its red eyes flashed with a trace of disdain and cruelty!

“Shua!!!!!!!”

Its white claws and bone claw joints simultaneously slashed across. The Evil Slaughter Beast's attacks were clearly faster than the Linyin Beast. The moment the Linyin Beast extended its claws, its claws were shattered under the Evil Slaughter Beast's claws!!

The Linyin Beast wasn't able to let out a miserably cry before the Evil Slaughter Bone claw joints terrifyingly swept across. The Linyin Beast's chest was ripped open and fresh blood spewed out!!

“O~~~~~”

The Linyin Beast miserably cried out. Its bloodied body fell to the ground and a wound was opened from its chest to its stomach. It seemed to have been flipped inside out!

As its life force rapidly slipped away, the Palm Dawn Concubine used healing techniques. However, the Linyin Beast king's blood had already formed a pool and dense evil aura which was taking away his soul!

Everyone was stunned. The Linying Beast King had been killed in one attack!!

A coldness passed through their bodies as they watched Linyin Beast King no longer moving in the pool of blood. As they looked at the Evil Slaughter Beast licking the blood off its claws, everyone felt their hearts shiver!

Dead. The Linying Beast was killed just like this.

Everyone had witnessed this instance and the horror and shock was hard to describe!

When Three Great Palaces' members, which had received a huge morale boost due to the Seven Diagram Saint Kings' appearance, saw their saint king die, a gloom of death shrouded over them.

Too terrifying!! That Evil Slaughter Beast was too terrifying!! It instakilled the Linyin Beast King?!!

“Qi~~~~~”

The Palm Dawn Concubine's healing techniques continuously descended on the Linyin Beast as it let out sounds of tragedy.

However, the Linyin Beast ultimately did not stand up.

When the other five Diagram Saint Kings saw this scene, their eyes turned red with anger!

“Hahaha, truly stupid. Such a simple trick was not seen through!” Ling Chan’s ear-piercing laughter untimely rang out. Those who heard it felt a wave of anger.

Chu Mu’s silver body faintly trembled. His two fists clenched up.

They were already extremely careful, yet the Linyin Beast was still killed. Hearing Ling Chan’s arrogant laugh and watching the cold-blooded Evil Slaughter Beast, the anger in Chu Mu’s heart was seemingly going to ignite his entire body!

However, the Evil Slaughter Beast’s strength was too powerful. Chu Mu didn’t know how to defeat it!

Anger and unwillingness. Watching the dying Linyin Beast, the resentment in Chu Mu’s heart grew thicker and thicker. His heart seemed to long for strength!

When his negative emotions reached their limit, resentment aura would transform it into the half devil’s strength!

In this instant, Chu Mu could feel some power circulating all over his body!

“Nie!!!!!!”

However, suddenly, the White Nightmare's cry reverberated in Chu Mu's mind. This cry was full of resentment aura and the half devil's soul began to grow angry. An unwillingness in his heart began to grow!

"This... this is..." Chu Mu was stunned!

He could feel a strength entering himself. This strength was no longer just temporary strength created by resentment aura. Rather, it was a genuine increase in strength!

"The White Nightmare advanced a rank!" Chu Mu suddenly understood!

The White Nightmare became a genuine dominator rank!!

This increase in strength was undoubtedly a help in Chu Mu's hour of need. As the White Nightmare's strength rose, so did Chu Mu's!!

An even deeper silver colored devil flame burned on Chu Mu. The tongues of flame danced in the air and an imposing evil aura coiled up behind Chu Mu. it was like a pair of evil wings being unfurled!

The anger in Chu Mu's heart had yet to quell. His eyes stared at the Evil Slaughter Beast and he waved his two hands!

Evil aura wings composed of the dark and other attribute formed two evil wing blades. Left and right intersected and instantly, he flew a dozen kilometers, surging at the Evil Slaughter Beast!

“You’ve come to tickle it again?” Ling Chan saw that Chu Mu voluntarily launched an attack and immediately laughed.

The arrogant Slaughter Beast ignored Chu Mu’s attack and allowed the two evil wing blades to sweep across it.

“Shua!!! Shua!!!!”

Two evil wing blades carrying dark corrosion and spatial tearing swept across, ripping open the Slaughter Beast’s tough skin. Two deep black scars appeared on the Evil Slaughter Beast.

“Huo~~~~~”

The Evil Slaughter Beast let out a howl. Its malevolent body was ripped open and knocked flying by the evil wing blade!

The Evil Slaughter Beast’s body was knocked into countless ruins in the city before finally landing in a long gulch. Watching the Evil Slaughter Beast knocked flying, Bai Yu’s expression was full of shock: Chu Mu surprisingly had broken through at this moment!

His attack had visibly dealt great damage to the Evil Slaughter Beast!

Chapter 1089: Evil Mound, Dark Imprisonment

Seeing his Evil Slaughter Beast knocked flying, the smile on Ling Chan's face went somewhat rigid.

He glanced at Chu Mu, and discovered that the half devil aura on him had grown stronger. The silver devil flames were also more profound. He couldn't help but coldly harrumph.

This brat had unexpectedly increased his rank at this moment. His White Nightmare truly understood its master's heart, eh.

However, Ling Chan didn't believe that Chu Mu's increase in strength would change the battle situation- he still wouldn't be as strong as the Thousand Wave Beast King, whose powerful armor and life force allowed it to fight against his Evil Slaughter Beast. The half devil Chu Mu may not even be able to put up a fight. Most importantly, the half devil had the dark attribute, meaning that the Palm Dawn Concubine could not heal him.

After running through this in his mind, Ling Chan couldn't help but laugh. At worst, he would just spend a bit more time to slowly get rid of them!

“Huo!!!!!!”

The Evil Slaughter Beast's angry roar rang out from afar. Its fiendish killing aura transformed into a black cloud that covered its surroundings!

A pair of blood red eyes stared at Chu Mu. The Slaughter Beast's anger had completely shifted to Chu Mu.

Chu Mu wasn't afraid of it right now. If the Evil Slaughter Beast wanted to kill Chu Mu in one attack, it was impossible.

"Chu Mu, we will protect you as much as possible. You are in charge of making it spill blood!" said Bai Yu.

The Thousand Wave Beast's armor and defense were strong, but its attacks could not deal enough damage to the Evil Slaughter Beast.

Presently Chu Mu's strength increase was enough to allow him to rip open the Evil Slaughter Beast's tough skin. Thus it would be up to Chu Mu to kill this Evil Slaughter Beast.

"Ok, but you guys need to be particularly careful." Chu Mu nodded his head. The death of the Linyin Beast was ultimately due to their negligence. This definitely couldn't happen a second time!

As they discussed this, the Evil Slaughter Beast had already swept up fiendish killing intent and charged over from afar!

It was extremely fast and in the blink of an eye, the fiendish killing aura was like a black ocean wave that covered the sky and earth!

Its black bone pierce wings turned enormous under the black evil aura. The ghastly white bone wings swept across and, from afar, it looked like a force that could rip apart the earth into a huge canyon had attacked.

It was still the Thousand Wave Beast that courageously attacked first. It appeared in front of all the diagram saint beasts. Its enormous golden body transformed into a golden tai mountain, protecting the diagram saint beasts behind it.

When the extreme image force neared, Chu Mu discovered that it was the Evil Slaughter Beast's bone wings that had flown over!

“Dang!!!!”

The bone wings were like white bone blades filled with spikes, as they heavily slashed onto the Thousand Wave Beast King's Tai Mountain.

The Thousand Wave Beast violently trembled. Its golden armor was easily pierced, and a huge chunk of fresh blood and flesh was ripped away by the terrifying bone wings.

Blood flew everywhere. The Thousand Wave Beast grit its teeth. It didn't let out a painful cry. Instead, its eyes blossomed with a scorching hot golden light that shot towards the Evil Slaughter Beast in the fiendish killing aura!

The Evil Slaughter Beast didn't dodge. Its eyes narrowed, and the surrounding sordid aura condensed to form a defense that kept the Thousand Wave Beast's luminous light at bay!

After the golden light dispelled a bit of this filth, it gradually grew dimmer and disappeared into the thick black clouds.

The moment the golden light flashed, Chu Mu discovered that the Evil Slaughter Beast's other bone pierce wing was no longer on its body.

“There’s still another bone wing!” Chu Mu immediately warned the other saint kings.

“We’ll deal with it.” Bai Yu had already detected the trajectory of the other bone wing and responded to Chu Mu.

Chu Mu nodded his head. He closed his eyes and chanted an incantation.

As Chu Mu prepared his technique, a ghastly white bone wing that split space in two appeared in the hazy sky above him. It terrifyingly slashed towards the seven diagrams!!

The bone wing was terrifyingly mighty. As it slashed down, the entire district turned into two halves. Even the flower demons and Nightmares fighting in the distance that were along its trajectory were destroyed by its energy!

If the seven diagrams didn’t mount a sufficient defense, such an attack would probably wipe them all out.

Fortunately, Bai Yu had already used other pupil to sense it. The other five saint kings simultaneously used defensive techniques to block it.

“Weng!!!!!!”

Chu Mu who was chanting an incantation when he suddenly heard a terrifying trembling noise above his head. However, Chu Mu didn't look up. His incantation was still chanting and the devil flames on his body continuously swayed faster!

Finally, Chu Mu opened his eyes and they gleamed with an even more evil lustre!

The devil flames burned his body and his silver body transformed into a fiery star that scattered.

Above the torrential fiendish killing aura, the silver body of Chu Mu quietly appeared in the night sky. He stared coldly down at the malevolent monster from hell!

The Evil Slaughter Beast seemed to have discovered Chu Mu. It raised its head and savagely stared at the half devil that had suddenly appeared above it.

A black energy had at some point coiled around his right hand. His final incantation was coldly chanted and the technique's name came out:

“Evil Mound!”

Chu Mu used the dark energy on his right hand to smash at the Evil Slaughter Beast on the ground!

The Evil Slaughter Beast had already taken evasive maneuvers, but didn't realize that when Chu Mu appeared above its head, a dark prison had appeared below his feet.

The dark prison took the form of a circle, and its diameter of ten kilometers managed to perfectly confine the Evil Slaughter Beast. There were a total of 100 layers of the dark prison.

The Evil Slaughter Beast was unable to move and it could feel the enormous dark energy weighing down from above. Ultimately, it could only adopt a defensive position!

In the skies, Chu Mu's technique fell straight down. The dark energy was like an ice-cold and solemn burial mound!!

When the burial mound fell from the sky and noiselessly fell on the Evil Slaughter Beast, the Evil Slaughter Beast was instantly covered by the dark energy!

“Hu hu hu hu hu hu hu!!!!!!!”

The moment the evil mound landed, silver white devil flames terrifyingly arose from the middle of the mound!

The devil flames that had suddenly appeared perfectly enveloped the outermost ring of the prison. The entire dark prison ring transformed into a devil flame ring.

At the very center of the ten kilometers of silver devil flames was a silent black mound. This technique could completely imprison the Evil Slaughter Beast, and it could visibly be seen that the entire burning power of the devil flame sea could pour into the evil mound through the prison ring on the ground.

In other words, the imprisoned Evil Slaughter Beast was continuously being assailed by the burning devil flames!

“Huo!!!!!!”

The burning devil flames could ignore defenses, and the Evil Slaughter Beast was incomparably pained by this. It let out a savage roar derangedly and charged into the dark burial mound!

Chapter 1090: Defeat Slaughter Beast, Defeat Ling Chan

“Huo!!!!!!”

Evil Slaughter Beast was furious. The spirit devil flames’ burn caused it great pain, making it double its efforts at breaking the dark burial mound!

“Pu!”

Suddenly, the bony horns passed through the dark burial ground. The entire burial ground showed signs of dissipating and the devil flame ocean shook!!

“Pu!!”

Another sound, and Evil Slaughterer Beast’s bone spikes pierced through dark burial mound. With a deafening roar, Evil Slaughter Beast suddenly broke through the entire restriction!

With the Dark Burial Mound getting destroyed, the Evil Slaughter Beast’s claws started ripping frenziedly to break the dark restrictions on it!

Once the Evil Mound disappeared, the devil flame ocean was meaningless. With a few stomps of its feet, the Evil Slaughter Beast extinguished the entire devil flame ocean. Its two eyes flickered with the most terrifying cruelty, gazing at Chu Mu who hurt its soul.

Chu Mu didn't expect to kill this Evil Slaughter Beast with a single technique. Seeing this hellish creature stare at him viciously, Chu Mu remained calm and without fear.

The Evil Slaughter Beast became a deadly weapon, as it charged straight towards Chu Mu.

Chu Mu's other Pupils flickered. With an increase in strength, he could, to a certain extent, see Evil Slaughter Beast's actions.

The Evil Slaughter Beast's claws extended, causing the entire night to be covered by the bone claw. Seeing the claw land, Chu Mu cast Devil Phantom to dodge very barely between the massive claws.

When it came to dodging, Chu Mu was much better than Thousand Wave Beast.

Evil Slaughter Beast's attacks didn't hit Chu Mu, yet it suddenly turned around and whipped its tail over!

Its bony tail went forth like a cruel dragon and swiped past half the sky.

This time, Chu Mu could just barely dodge.

Just when Chu Mu was about to conjure a flame shield, Immortal Ming Bird and Binding Wind Spirit both appeared, becoming a feather and wind shield to protect Chu Mu.

“Pa!!!!”

The feather shield and wind shield were easily scattered, and both the kings fell from the skies.

Chu Mu glanced at these two sacred kings who were injured for him and was touched.

On the ground, Bai Yu casted a “pausing space in time technique” to slow the fall of the two sacred kings. He also immediately casted spatial switch to move them beside Pawn Dawn Concubine.

Pawn Dawn Concubine’s light type healing incantations started, and the gentleness bathed the two sacred kings.

The Evil Slaughter Beast had almost snapped all their bones. The Pawn Dawn Concubine casted a bone healing spell to help them.

Two Sacred Kings had just accepted the Pawn Dawn Concubine’s healing, and felt much better. With Pawn Dawn Concubine’s healing abilities, they should have healed bones soon.

"You continue to attack!" Bai Yu glanced at Chu Mu and said to him.

Chu Mu nodded, and closed his eyes again to start the next technique’s chant!

Evil Slaughter Beast already knew Chu Mu's power and didn't dare to let him cast a technique anymore. Roaring out, he shattered space and made its way to Chu Mu, swearing to swallow Chu Mu!

Chu Mu closed his eyes, not even looking at the evil Slaughter Beast, while silver devil flames danced around his body!

It wasn't that Chu Mu wasn't afraid of Evil Slaughter Beast's technique; He simply believed Bai Yu and the other five sacred kings would ensure he didn't get hit!

Halfway through his incantation, Chu Mu heard the sound of a body being ripped apart, as well as blood.

Waves of powerful energy always pointed at him, sourced from Slaughter Beast's anger, but every time the energy neared, there would be a body in front of him that alleviated it.

Chu Mu didn't know whether the one protecting him was the powerful Thousand Wave Beast or the easily killed Xuanzhen Beetle. Chu Mu knew the only thing he could do was finish to finish the incantation as fast as possible!

Finally, the long chant was finished. Chu Mu opened his eyes to see Bai Yu, also in silver devil flames, standing before him with a large hole in his chest, clearly heavily wounded.

Chu Mu sucked in a breath, and his eyes locked onto the cruel Slaughter Beast!

Casting Devil Phantom, Chu Mu darted straight towards the Slaughter Beast, becoming a silver comet parallel to the horizon!

The silver comet moved five kilometers, before suddenly coming to a standstill beside the Slaughter Beast.

Making claws with both his hands, massive amounts of energy was gathered upon Chu Mu's hands. The moment he paused, his body leaned forward and his claws stabbed into its body like a sword!

Having both hands rip towards each side, Chu Mu went into a crazed state, wanting to rip the evil slaughter beast right in half!

Chu Mu's palms combined all the energy of his types: Dark type corrosion, Spatial ripping, and devil flame's burn. Chu Mu's attack also landed right where it was previously hit, so no matter how powerful slaughter beast's defense was, it couldn't block it!

"Silia!!!!!!"

Chu Mu's devil claw ripped crazily towards each side. The Evil Slaughter Beast's skin and muscles were already being ripped out. The crazy Chu Mu wanted to rip even the bones of the Slaughter Beast!

Evil Slaughter Beast's painful roar caused its joints to suddenly lengthen and stab heavily into Chu Mu's body, piercing many parts of Chu Mu.

The bone blades' pain wasn't any weaker than piercing the soul. Chu Mu's entire face twisted with pain.

However, he didn't let go This pain only caused Chu Mu to become even crazier. The devil within him was perfectly shown in this instant!

“URAGHH~~~~” Chu Mu roared and completely extended his arms, pushing the purest ripping power into this Evil Slaughter Beast's inner bones!

“Gazhi!!!!!”

A frightening crunch sounded out as all of the Slaughter Beast's chest and hip bones were shattered. All of its bone daggers retracted as well!!

The dark red rip continued to damage the Evil Slaughter Beast's Body. The Evil Slaughter Beast's body tilted sideways, and flew out against the ground, leaving a smear of blood along its wake.

Laying far away, the Evil Slaughter Beast twitched and struggled for a while before being able to slowly stand up.

Its muscles were already dangling out of its wounds. Evil Slaughter Beast was still shaky when it stood up, its face sunken in anger and pain.

Seeing this Slaughter Beast still able to stand up despite having ripped ribs and hip bones, Chu Mu furrowed his brow.

“Huo!!!!!!”

The Evil Slaughter Beast finally straightened its body, and let out a bloody roar!

Blood continued to seep out of its wound as it roared, but even so, the devilspawn refused to stay down!

“It’s already heavily wounded. Leave the rest to us.” Bai Yu clutched his chest as he floated aside Chu Mu.

Chu Mu glanced at Bai Yu and the other five sacred kings.

Five Sacred King, other than Pawn Dawn Concubine, were all heavily wounded. And because it had been constantly casting powerful healing, Pawn Dawn Concubine was in a mentally lacking state, and had to heal before continuing to heal.

Though this attack greatly wounded evil slaughter beast, to ensure his technique was casted safety, the five sacred kings and Bai Yu paid a heavy price.

Chu Mu finally nodded. It wasn’t that he didn’t want to deliver the last blow, but he was too wounded.

When he forcefully ripped open the Evil Slaughter Beast’s body, at least ten bone spikes pierced through Chu Mu’s Body. The ten shocking holes were still in Chu Mu’s body as devil flames slowly extinguished on Chu Mu.

Slowly, the flames were no longer visible on Chu Mu. His silver body slowly recovered its human state.

“Yi!!!!!!!”

A dark purple Dead Dream fell from the sky and landed beside Chu Mu.

With the fight coming, Chu Mu told Dead Dream to stay by Ye Qingzi’s side. Only with her safe could Chu Mu fight without worry.

And now, standing on Dead Dream’s back was Ye Qingzi who was supporting Mu Qingyi. Ye Qingzi fell beside Chu Mu. Looking at Chu Mu no longer even having the power to maintain half devil, her eyes became red.

Ten blood holes remained on his body, bleeding profusely. Ye Qingzi didn’t dare wait and quickly casted spells to stop Chu Mu’s bleeding.

Chu Mu becoming human caused Ye Qingzi’s healing to become even stronger. However, Ye Qingzi knew that not only Chu Mu was injured- White Nightmare most likely wouldn’t be able to fight. In the battle with Evil Good Queen, Chu Mu and White Nightmare was already heavily injured. Now they had to face the stronger Slaughter Beast, pushing them to their limits.

Ye Qingi could only wish for her spirit abilities to be stronger so she could stop the bleeding quicker.

Yet, the bone spikes were truly powerful, enough to keep Chu Mu bleeding and continue to lose him life. Even now, Ye Qingzi couldn’t completely stop the wounds.

Chu Mu laid weakly against a slanted rock and smiled when he saw Ye Qingzi who was worried sick with reddened eyes.

Ye Qingzi was near tears yet this fellow still had the interest to laugh. Was it the right time?

“If you continue like this, you will die. If you can’t win we can run!” Ye Qingzi truly only cared about Chu Mu. As for who won the war, that wasn’t important to her anymore.

“How would I die? If I’m in your hands I can’t die for sure.” Chu Mu said with a straight face.

“There’s always people I can’t save.” Ye Qingzi said bitterly.

“Other than me, right?” Chu Mu smiled, but looked more like a grimace.

Ye Qingzi stared blankly. Seeing his pale smile, she didn’t know how to reply in the moment.

Finally, Ye Qingzi nodded heavily, “En!”

Chu Mu extended a hand to touch Ye Qingzi’s cheek, telling her to stop worrying.

Ye Qingzi slowly calmed down and no longer talked. She focused instead on healing Chu Mu completely, yet her eyes were still slightly wet.

Chu Mu's gaze fell back onto the battle afar. Slaughter Beast was already heavily wounded, so the angry five sacred kings and Bai Yu both had absolute advantage.

Chu Mu glanced at Ling Chan, and saw his face twitch again.

Seeing Ling Chan about to lose completely, Chu Mu smiled.

Before, Alliance Master was like a god, standing at a peak he couldn't even look upon without risking his life.

Yet now? Every powerful person had a day where they would get defeated. Ling Chan's day was today, where Chu Mu claimed victory.

Though he was full of wounds, he managed to defeat Ling Chan. His only disappointment was how his father didn't get to see this.

Many times, Chu Mu was like a pure kid, wanting recognition for his achievements.....

.....

Finally, Ye Qingzi stopped all of Chu Mu's bleeding and slowly replenished his life force.

“Chu Mu, there’s still an Evil Good Qyeen that absorbed two types of energy.....” Ye Qingzi didn’t mention escaping anymore, instead reminding quietly.

Originally, Ye Qingzi felt that Chu Mu was fighting this crazily because of the accumulated anger within his heart. Yet the grimace-like smile that Chu Mu showed made Ye Qingzi understand that he knew what he was doing.

Though Ye Qingzi didn’t know why Chu Mu smiled right after defeating the Slaughter Beast, Ye Qingzi trusted that Chu Mu didn’t do it all for naught, let alone let his obstinance would lose everyone their lives.

His eyes grew firm again and he said, “I know, I’m waiting for her!”

Chu Mu lifted his head, and watched the Wanxiang Altar.

Others may not have noticed, but Chu Mu could clearly feel a cold, apathetic, and proud pair of eyes watching the fight.

She stood there like a true empire’s queen, watching down at their battle. The final victor was always her, because she would always appear in the last moment. Even Alliance Master Ling Chan became her pawn without knowing!

Chu Mu glanced over, and the queen met the gaze, smiling mockingly.

“What, saying goodbye for good with your little wife?” A mocking voice came into Chu Mu’s mental world.

“Getting hurt so much by a rabid dog with some evil aura, what makes you think you can defeat me?” Evil Good Queen laughed.

To this, Chu Mu didn’t mind.

If she felt good about it, let her be. Soon she would know that he was her nightmare, the devil that shattered her dreams without fail!
