

Soul Pets Bk2 1141

Chapter 1141: Large Hunt, Fight Between 100 Experts

Ye Wansheng and Prince Chao stared at them. This Evil Good Queen's techniques were too terrifying, to be able to instakill six pseudo dominators.

Without even having a chance to take action, Mu Qingyi looked on with vigilance, as always, at Yu Suo. For some reason, even if this woman had become Chu Mu's slave, she was still able to sense a dangerous aura from this woman. This dangerous woman could even trap Chu Mu in a state of eternal damnation. This was especially the case when she saw this woman's shocking display of power, easily instakilling six pseudo dominators.

As for Liao Yu, he was even more stunned. He never expected this big sis who looked like a fairy and was gorgeous like a snow lotus, would have such insane strength. Moreover, she didn't even blink an eye when killing people. Her cruel methods were completely the opposite of her beauty and temperament. He was even doubting whether he was seeing properly.

Chu Mu glanced at the distant mountain range. He could feel a violent energy wave from between the mountains. The power being exhibited there was probably from low class dominators.

"I'll go look first. You guys can come later." Chu Mu spoke to everyone behind him.

Including Mu Qingyi, the others hadn't reached the low class dominator rank yet. Chu Mu couldn't be certain how many experts were fighting in the mountain range. Recklessly letting them go there would definitely lead to danger. Therefore, he had to go scout it out first.

"Ok, be careful." Ye Qingzi nodded her head.

Chu Mu glanced at the small Mo Xie on his shoulder and said: "You stay here and protect them."

“Wu wu~~” the small Mo Xie lightly jumped off of Chu Mu’s shoulder, and into Ye Qingzi’s embrace. It shifted its body before returning to its enervated appearance. It just laid in Ye Qingzi’s embrace and slept.

Ye Qingzi stroked the small fellow’s ears. Looking at her adorable appearance, she couldn’t help but laugh: “How can she sleep so much?”

With Mo Xie with them, Chu Mu didn’t need to worry too much. He glanced at Yu Suo and hesitated. Ultimately, he said: “Follow me.”

Since there were still Devil Souls in the Mountain Range, recalling her to the soul pet space would waste quite a bit of soul power. Chu Mu’s soul power was also the energy and physical strength of his half devil transformation. Consuming too much of it would affect his fighting strength.

The Evil Good Queen had a rare opportunity to come out and take a breath of fresh air. There was a brimming smile on her face, but she looked very obedient as she followed closely beside Chu Mu.

However, as this woman left, she didn’t forget to throw a charming and smiling glance at Ye Wansheng, Prince Chao, and Liao Yu. It seemed like she was using her eyes to tell them something.

Despite her flirtatious and enchanting appearance, she also gave people a flawless and unblemished feeling; nobody had touched her before. Ye Wansheng, who had the worst focus of the three, was instantly captivated. Prince Chao was a bit better since he had personally witnessed the terrifying and cruel side of the Evil Good Queen. As for the childish Liao Yu, he probably had already forgotten about his “sister” who was the most beautiful in this world.

Seeing the expressions of these three men change, Yu Suo couldn't help but raise her captivating, pink lips. She was silently thinking that Chu Mu, this bastard, had a heart of stone that she couldn't move at all. The people beside him weren't saints, however. If she slowly built up dominance like this, one day she would be able to free herself!

Of course, the Evil Good Queen had a headache over the fact that the Evil Good Flower was perpetually locked by Chu Mu in his second soul pact. If she were to risk her life, she would be able to escape from Chu Mu's soul pet space. However, the only thing that would escape would be her human soul. Without the Evil Good Flower, her strength would be greatly diminished.

.....

Chu Mu stood between the Little Hidden Dragon's dragon horns and flew high up above the mountain range.

The Little Hidden Dragon's spectral attribute provided Chu Mu with excellent concealment. The state of the fight in the mountain range seemed to be a bit chaotic. If they were accidentally discovered, it was likely they would be pulled into the chaotic fight.

They passed through the long valley between two mountains where the cliffs on either side were jagged. Countless high ranking soul pets appeared between cliffs and the halo of techniques spun through the air and narrow valley. Waves of dangerous energy spilled out, dissuading others from approaching.

Chen Hua's group of people were probably weaker than the groups of people fighting in the mountain range. Among them were probably the underlings of Border Commander Wu Zhen, who Liao Yu had mentioned.

Border Commander Wu Zhen's underlings were all Border Generals. In order to obtain the title of a Border General, one had to at least possess a low class dominator rank. Chu Mu used his other pupil to sweep his eyes over the undulating mountains. He discovered approximately ten pulsating auras, meaning that there were about ten dominator soul pets!

Besides from this, there were other pulsating auras in other areas of the mountain range that were approximately near the dominator rank. These pulsating auras numbered even more. Chu Mu wasn't able to immediately figure out how many there were.

"Why are there so many experts gathered here?" Chu MU creased his brows.

The mountain range in front of him was expansive and would occasionally steeply rise to the clouds while at other times steeply dropping to form an enormous abyss valley. Among the undulating mountains, there were numerous dominator rank auras and even more high ranking emperor auras. Ostensibly with one glance, he could see ten or so high rank emperors flit through a corner of the mountain range.

"Young master, Devil Souls are very precious. To a certain extent, they also act as an opportunity for spirit emperors to step into the spirit dominator rank. Monarch rank Devil Souls are valued no less than a first rank xuan item, while an emperor rank is approximate to a third or fourth rank xuan item, which are capable of creating a low rank dominator. From the current situation, you can see that there is more than one Devil Soul." said Old Li.

The Devil Soul Chu Mu had just captured was a monarch rank. It was hard to believe that a monarch rank creature was equivalent to a dominator rank xuan item.

"What about a dominator rank Devil Soul?" Chu Mu was very curious as to why Old Li didn't tell him about dominator rank Devil Souls.

“Dominator rank Devil Souls are priceless treasures. They aren’t inferior to the Hades Purple Emperor that your little fox transformed into. The chances of them appearing are practically zero.” continued Old Li.

Chu Mu nodded his head. He urged the Little Hidden Dragon to continue flying to the depths of the mountain range, but he quickly discovered that in front of him, there seemed to be people lingering between the tall mountains.

“They seem to have surrounded a large mountain.” Chu Mu muttered to himself.

Chu Mu wanted to enter the mountain when he discovered that soul pet trainers were appearing from various directions. They were evenly distributed, resembling a noble hunting party that would use a group of servants to surround their prey and gradually close in and shrink the area around the prey.

“Devil Soul!!! Devil Soul!!!” suddenly, an excited male voice rang out from the nearby mountain stream.

“Split up and chase after it. You two go that way.” said a man that resembled the team leader.

Immediately after, Chu Mu saw a group of people watching over these two tall mountains split up and chase that Devil Soul.

Most of the mountain had been surrounded by a group of people approximately at the high emperor rank. The Devil Soul was probably at the center of the mountain. The moment the Devil Soul attempted to escape one direction, those people would be in charge of chasing it. Chen Hua’s group was definitely also a group that had pursued the Devil Soul beyond the mountains.

As these people watching over the mountain scattered, Chu Mu happened to be flying towards them. As for the Devil Soul they were chasing, it was flying towards Chu Mu, since Old Li had told Chu Mu that the good side of Yu Suo was like a flower that attracted bees. Therefore, he had to use his advantage to obtain the Devil Soul. It would be best to obtain an emperor rank Devil Soul!

Indeed, as Chu Mu flew straight towards the mountain, the spectral form Devil Soul shyly floated out from behind a rock.

As per usual, Yu Suo used a flower type petrify when the Devil Soul got close, instantly binding the Devil Soul. Then, Chu Mu chanted an incantation and recalled this Devil Soul into the soul capture ring. It was simple and easy. As for that group of people watching over this area just now, they were chasing in various directions. They didn't realize that this smart little Devil Soul had been hiding in its original spot, and had been conveniently picked up by Chu Mu.

Unfortunately, this small Devil Soul's species rank was only at the commander rank. It was much weaker than the monarch rank Devil Soul Chu Mu captured earlier.

"The value of a commander rank Devil Soul is about the same as a spirit item. It's not much use to someone at young master's rank. Young master should keep it to give to others." said Old Li.

Chu Mu nodded his head, and urged the Little Hidden Dragon to fly even deeper.

The inner portion of the mountain had been completely destroyed. As Chu Mu flew along, he saw potholes of scorched earth. Presumably, some experts had contested over a Devil Soul and fought a huge battle here.

After continuing forward some ways, Chu Mu saw four pseudo dominator rank creatures fighting. On two of the pseudo dominator rank creatures were the two people who had lead the way for them - Jia Heng and Li Qin.

“They got here even earlier.” Chu Mu never expected them to come.

The Moon Devil Colt’s body were full of a moonlight-like halo. They looked sparkling and pure. The person riding the Moon Devil Colt was Jia Heng and he relied on this demon soul pet’s agility to obtain a monarch rank Devil Soul.

Jia Heng and Li Qin only had one pseudo dominators each. However, the monarch rank devil soul’s value was equivalent to a xuan item, meaning there was a high chance they would be able to strength another soul pet to the dominator rank. To them, being able to obtain one was already an immense good fortune. Therefore, they didn’t dare be greedy, and immediately attempted to leave.

However, Devil Souls were not easily taken away. The two of them were quickly blocked by people from Wen City. These people were very direct and gave them two options: either leave the Devil Soul or leave the Devil Soul and their lives!

But how could they give up the thing they were protecting? The two of them risked their lives to fight.

However, the opposing party of two were clearly stronger. Not long after they started fighting, they were at a disadvantage. The two of them were continuously crushed by the opponent soul pets’ various techniques.

As the two of them were being crushed, Chu Mu happened to fly over. He was planning initially on taking a detour and leaving, when he happened to hear them mention they had a monarch rank Devil Soul.

A monarch rank Devil Soul was approximate to a first rank xuan item. Chu Mu suddenly felt that leaving like this would be too disloyal to his friends over there!

Chapter 1142: Emperor Rank Devil Soul Appeared!

Wen City was a sixth rank realm capital. It was the largest capital other than cloud realm capital. This devil soul

At this moment, the experts against Jia Heng and Li Qin were the incredibly famous two hunters from Wen City. They were called the Guang Tong Brothers. They often appeared in Guang Tong Bewildering World and knew everything in Guang Tong bewildering world well. That's how they got the title from other dominator rank experts.

Brother Guang Tong was chasing the monarch rank devil soul, and yet just happened to have Jia Heng and Li Qin capture it on the way.

Devil souls were unpredictable. Capturing one needed some luck. However, having their chased target getting taken was horrible and Guangtong Brothers couldn't just give it up.

What caused them to be happy was the two that appeared clearly hadn't entered dominator rank for long. Their strength and fighting experience were both mediocre and couldn't compare to the two old soul pet trainers that have been in this wild for so long.

"Looks like we're going to take a monarch rank devil soul and two heads!" The Guang Tong Brothers laughed cruelly.

They had done things like kill many times. Though Divine Sect had regulations against killing, under the influence of no proof and great reward, no one would follow those rules in the wilderness.

The blood licking demon dominator stared viciously at Jia Heng's Moon Devil Colt. They were both dominator rank demons, but the Guangtong Brother's demon dominators were much more aggressive than the Moon Devil Colt. The Moon Devil Colt was like a young pony that met a fierce wolf, only able to fend off attacks.

A flash of light passed. A lethal blow was poised to fly through the Moon Devil Colt. Jia heng's face went pale. He never would have expected his rash advance this time to have costed his life!

There was no time to dodge. Jia Heng's mind went blank. A ghost blue shadow suddenly appeared in front of him.

“Zi!!!!!!!!!!”

A lethal cold claw flashed past and fell on a ghostly blue body, creating metal screeches.

A light mark appeared on the ghost blue figure's dragon scales, and the demon's attack was instantly alleviated. When Jia Heng found that someone had saved his life, his heart was filled with an ecstatic joy of surviving death.

He lifted his head to see who had saved him but quickly his smile became strange, as if never expecting this person to be the savior.

“Aohou!!!!”

Little Hidden Dragon's body was surrounded by ghosts that created a massive ghost energy at Little Hidden Dragon's throat.

“Pu!!!!”

Little Hidden Dragon’s beam of ghosts was spewed towards the demon dominator rank of the Guangtong brothers. Even with a reaction, the demon was still hit by the dragon beam.

With a pained screech, the demon was hit from the skies into the mountain, falling far away at the feet of one far away.

“Who.... who are you!” Brother Guang Tong’s expression shifted, as he stared closely at the dragon that just exploded with low class dominator rank.

“Leave!” Chu Mu was too lazy to waste time with them and spat out a simple word.

The Guangtong Brothers stared with hatred at Chu Mu and Jia Heng. However, faced against a low class dominator rank dragon species, they didn’t dare to make mischief and ran away.

Jia Heng and Li Qing saw them run away, and immediately let out a breath. They had both seen death near them. If Chu Mu didn’t help immediately, they were probably dead in a pool of blood by now.

“You sure came just in time.” Li Qing was very helpful and passionate, showing a smile of gratitude.

Chu Mu never understood how to be polite. His gaze fell on Jia Heng and said, "I saved your life. Give over the ring now."

Both their faces stiffened. Jia Heng reacted quickly and said, "We're both doing something for city master Li, of course Chu Mu deserves the full credit, but putting it with us is the same as putting it with you."

"You want to die again?" Chu Mu gaze turned cold, and a killing intent edged into his voice.

Chu Mu changed very quickly. Whether it was the intimidating gaze or the evil aura emanating from his body, Jia Heng and Li Qin felt a shiver go down their spines!

This man was much scarier than the Guangtong Brothers!

Both of them realized simultaneously that the person that saved them was truly a man who could kill without skipping a beat. How dare they not obey after having just experienced death?

"Right away, right away..... Brother Chu, let's speak slowly. " Jia Heng didn't dare hesitate any longer, and took off the ring to give to Chu Mu.

Li Qin's face turned purple too. Though he was furious in his heart, he had already seen Chu Mu summon a low class dominator rank phoenix. Now that he was also riding a low class dominator rank dragon, they knew that he was many times stronger than the GuangTong Brothers.

Chu Mu took the soul capture ring and transferred it to his own, and very graciously gave back the empty soul capture ring to Jia Heng.

Jia Heng bitterly caught the ring thrown back, not sure if he should be thanking Chu Mu for returning the ring.

“You two better leave now. I won’t save you again.” Chu Mu said and rode his Little Hidden Dragon away.

Jia Heng and Li Qin were both looking at each other in dismay, and decided that after they went back to Wang City, they had to report back to Li City Master. This Chu Mu was truly egotistical and didn’t care about anyone. Not only did he throw them behind, he even stole from his own people!

Chu Mu had no good impression of them. Saving them was already giving City Master Li some face. As for stealing from them, that was normal. If it were with them, it was theirs. Only when he had it in his own hands was it truly his!

Chu Mu flew over a few large mountains, and still saw a chaotic scene before him. One could always see more groups finding traces of devil souls, while others fought over already captured devil souls. There were also a few roaming around like Chu Mu, trying to test their luck.

.....

Under the mountain spring, Guangtong Brother was healing his demon.

Even though only the edge of the dragon beam caught his demon, it was still pretty hurt. The Guangtong brothers were gritting their teeth. How did a low class dominator rank come out from nowhere. There aren’t young experts like that in Wang City as far as they remembered.

“It’s that man, he still dares to come!” Brother Guang Tong bit their teeth as they looked at the figure that flew through the sky.

“Go, report back to Boss Yong.”

GuanTong brothers came with another team from Wen City. This team was put together by many powerful experts in Wen city. Every person had low class dominator ranks while they were just subordinates, really.

The Guangtong Brothers didn’t dare go near Chu Mu. After he left and they saw his movement, they immediately flew towards a mountain range’s top.

At the tip of the mountain, four soul pet trainers stood at the edge and looked down upon these busy mountains, staring with their arrogant eyes as if waiting for something to appear.

“We reaped quite a profit this time!” Yong Chong, who stood at the center, smiled.

Yong Chong came by Wen City city master’s command to capture devil souls here in Guangtong Bewildering World. They had four people leading the team.

These three people all had power equivalent to Border Generals. Though they were interested in monarch rank devil souls as well, they knew that there definitely were emperor rank devil souls. The reason they weren’t immediately going into action was because they were waiting for the emperor rank to appear.

“En, I already have an emperor rank devil soul. Having one would already make this trip worth it. Border Commander Wu’s subordinates don’t have any yet, right?” Lin Pengfeng said aside Yong Chong.

Lin Pengfeng’s strength was the second of the four of them. The earliest emperor rank devil soul was captured thanks to his demon’s restriction powers.

Monarch rank devil souls have unpredictable routes. Emperor ranks were even harder to capture. Capturing it took some luck.

This time, when capturing devil souls, the ones that they were truly competing against were Border Commander Wu Zhen’s subordinates with Wu Zhen’s right hand man Wu Chi leading them. He was equivalent to Yong Chong in power. Yong Chong came a little earlier, so they were able to capture an emperor devil soul without others interfering. Or else, they would have had to fight over this first emperor rank devil soul as well.

“The guangtong brothers are back. They probably got the monarch rank devil soul, right?” Lin Pengfeng glanced down the mountain and said.

Yong Chong gazed at the two subordinates that came back, and saw their resentment and begrudging and guessed the outcome.

“You failed?” Yong Chong said faintly.

The Guangtong brothers were scared of Yong Chong. Seeing that he guessed their failure before they even spoke, they quickly kneeled down.

‘We originally got them but Wang City’s people suddenly came out of nowhere. We weren’t his match.’ Guangtong Brother described the previous scene again.

“Wang City? Wang City has such a powerful young expert?” Yong Chong looked at the other three and they all shook their head, saying they had never heard of such a young expert with a dragon species soul pet.

Just as they spoke, suddenly a woman riding a massive cloud bird fell from the skies and landed in front of them.

“It appeared on the west side.” The woman said calmly.

The four of them almost all showed joy and Yong Chong quickly said, “Lead the way!”

Before the Guangtong Brothers understood what was happening, the four experts already flew away towards the west with the woman leading the way.

“So we’re just going to have to swallow our prides with that monarch rank devil soul?” The Guangtong Brothers looked at each other but quickly realized something even more important!

Could it be that an emperor rank devil soul appeared?

Chapter 1143: Waiting for the Opportunity, Big and Little Devil Soul

Chu Mu continued to roam between the mountains and cliffs. He suddenly noticed a few powerful auras swiftly flying towards the west.

Often training outside, Chu Mu knew the basic rule that wherever experts gathered, there definitely was treasure. Sometimes, going with them to see the trouble was the best idea. After all, opportunities often passed right by you, but capturing a single one could give you a huge leap in power.

Interestingly, when Chu Mu went over, he saw the Guangtong Brothers following behind the five experts. Seeing their agitated expressions, they seemed to be chasing something.

Chu Mu waited a moment, and decisively followed them.

The route was obstructed, and they clearly wasn't stupid. They didn't want people like Chu Mu to come and disrupt their scenario. They already told Brother Guangtong to put down lines of defense to stop others from interfering.

Yong Chong and the others mainly stopped the scattered people without teams. They often appeared in twos or threes and had varying strengths. Devil souls were unpredictable in nature. If it accidentally fell in a random person's hands, Yong Chong and the others would have wasted their time.

Thus, the lines of defense had to be set up to stop randoms!

"These people are truly bullies. This Guangtong Bewildering World isn't Wen City's territory, what allows you to stop us from going forward?" A young hunter said extremely dissatisfied.

"Yes, if you have the power to tell your city master to make this Wen City Territory, we definitely won't take a single step in!"

All sorts of angry voices sounded near them. Chu Mu glanced over, and noticed many individual hunters starting arguments with Wen City's people, looking like they were about to start a great fight.

However, Wen City's people at least had 50 people. This time, they were poised to get the devil soul. Facing these teams with discipline, individuals and scattered hunters at most could argue a bit, but they didn't dare to actually fight. After all, they were all there for personal benefit. Even if they combined forces with Wen City, they were just a bunch of scattered individuals.

Wen City's lines of defense actually managed to cause good amounts of obstruction to Chu Mu as well. The people setting the perimeters had dominator rank experts. No matter how hidden Little Hidden Dragon was with its ghost type, it couldn't fly right by them.

In the end, Chu Mu used the shadows of the clouds and fog and used his dark type hiding and spatial transformations to jump past the Wen City lines of defense.

This was actually relatively dangerous because once Wen City found them, he would fall into Wen City's encirclement. Thankfully, Chu Mu was the only one going this time, so leaving should be easy for him.

Chu Mu wasn't hurried. He kept a distance from the stronger individuals and hid between the mountains using his control of dark type.

"We found it here, and created a surrounding with barriers. It probably hasn't left this region yet." The woman riding the massive cloud bird siad.

Yong Chong nodded satisfied, "Good job, Xiao Tan, I'll say a few good words for you once we're back in Wen City."

The woman called Xiao Tan was indifferent, her gaze like a still pond.

Seeing her like this, Yong Chong smiled and looked over at Lin Pengfeng, “We’ll have to see your demon’s performance again.”

Lin Pengfeng nodded! Of everyone there, Lin Pengfeng’s Aerial Listening Demon had the most perceptive senses. Any movement, including mental waves, could be detected by its special ears.. The reason why Wen City could capture so many devil souls was mainly due to Lin Pengfeng.

“Same as before, there’s around twenty mountains here. Let’s throw some tentative attacks to scare it from hiding.” Yong Chong said.

“Ah!!!!!!”

“Bengbeng!!!!!!”

Almost just as Yong Chong finished, a large sound came from the west.

Everyone looked over in confusion. The mountains were covered in a destructive wave of elemental eruptions, causing the sturdy mountains to break into countless shards!!

The power was intense, rendering the large mountain into rubble, leaving only an empty hole where it once stood.

“It’s Wu Chi, they started first!” Lin Pengfeng said.

Yong Chong humphed coldly, “Let’s start too!”

There were twenty mountains. The emperor rank devil soul must be within one of the twenty mountains. The most direct way to make it appear was to progressively destroy the mountains. The emperor rank devil soul had to appear!

After Wu Chi’s team destroyed two mountains, Yong Chong started their carpet bombing.

“Honglonglonglong!!!!”

“Bengbeng!!!!”

Massive mountains were progressively destroyed into sand under the dominator rank power, creating messy piles of rocks in their wake.

From far away, the individual hunters that saw the terrifying scene instantly lost all urge to fight and could only continue watching from their safe space afar. This power was too much for them to handle.

“Nong!!!!!”

A hundred meter long giant swung a massive rock axe down. With the axe fall, a ten thousand meter tall mountain was split open from the center, looking like the very sky split open!

The giant that casted this technique was Yong Chong's main soul pet Sky Axe Giant, the most offensive species of rock type giants!

After this attack split the mountain apart, spreading a shattering strength that created cracks through the rest of the mountain. With a shake from the Sky Axe Giant, the mountain split into countless rocks.

“Ning~~”

Just as the mountain shattered, a spirited lament came from an insignificant cave.

The cave had already shattered under the axe. Soon following, Yong Chong and Wu Chi both noticed a ghost float out from the cave. In a mere second after all the rocks collapsed, it disappeared.

“It really is an emperor rank devil soul!” Yong Chong and the other three lit up. Without any hesitation, they summoned their soul pets and chased after the devil soul.

Wu Chi wasn't slow either. In a moment, ten low class dominator rank organisms appeared and flew over the broken mountain.

In the cover of the shadow, a blinking demonic silver pupil slowly opened, and gazed at the group that chased over.

This man hidden deep in the dark was naturally Chu Mu. He wasn't worried about chasing after them. After all, there were ten low class dominator ranks and he definitely would have trouble if he actually fought.

"Young master, that emperor rank devil soul seemed to be top tier emperor rank. Its value is even higher than third rank xuan items." Old Li said.

Chu Mu nodded. After staying in place for a little longer, watching the ten people fly further away, he finally moved forward.

"Wait, stop!" Suddenly, Old Li let out a strange voice. Its raccoon eyes lit up as it stared at the shattered mountain.

"Chu Mu looked confused at Old Li and said, "What is it?"

"I, I think there is a devil soul! Young master don't appear first, let's wait a moment longer." Old Li pointed at the mountain.

Old Li's scent was extremely sensitive. The spirit and xuan sources they found in the past few months were almost all because of Old Li. Otherwise, the xuan they got from dominator rank soul cores were pitiful.

Chu Mu naturally believed Old Li's judgment and continued to hide under the shadows of a black cloud.

After another moment, the shattered mountains really flickered slightly, as a small devil soul glanced out tentatively, floating out further only after a very long time.

“Ning~~~”

The Little Devil Soul stood in place and looked towards where the top tier emperor rank devil soul went, and let out a complicated little murmur.

After a moment, the Little Devil Soul started flying opposite of where the previous devil soul went.

Chu Mu saw this and Old Li explained in a low voice, “Looks like the old devil soul went to attract all the attention first to let this little one escape. No wonder it kept escaping in one direction.”

“It’s also an emperor species rank devil soul.” Old Li added.

A top tier emperor rank devil soul already had a very developed mind. Yu Suo’s good intentions probably couldn’t trick it. However, this Little Devil Soul clearly wasn’t even tenth phase. When Yu Suo let out her aroma, Little Devil Soul turned over to look.

This Little Devil Soul was pretty smart. It didn’t run straight at them like the last two devil souls. Instead, it moved over very carefully and constantly let out mental waves to probe the situation.

“Come, little one.” Yu Suo waved her hand lightly. A sacred blue glow blossomed on her body, bringing out the holiness and beauty in her smile.

Chu Mu remained in the dark, silently watching Yu Suo’s performance.

However, Little Devil Soul was vigilant, taking small steps with long pauses. Being able to be this calm when faced against Yu Suo, it was clearly much smarter than the others.

Yu Suo saw Little Devil Soul's slow actions and smiled even gentler. However, when she noticed the Little Devil Soul no longer approaching, her smile slowly shifted from gentleness to darkness and arrogance!

With a casual wave, Yu Suo suddenly created two thin branches that quickly entangled Little Devil Soul. Without any reaction, it was tightly bound and pulled over.

“Heng, you forced me!!” Yu Suo said with disdain.

Chapter 1144: Silver Devil, Yellow Sparrow Behind

The little Devil Soul was only about the fifth phase. If they were unable to root it at such a close distance, this would be a huge blow to the flower type progenitor - the Evil Good Queen.

Chu Mu chanted an incantation, recalling the extremely unwilling the little Devil Soul into the soul pet space.

A fifth phase Devil Soul could be taken in since a child pet of this sort was suitable to sign a soul pact with. This way, the mental connection established would be even more sturdy.

Chu Mu was debating whether to give the little Devil Soul to Ye Qingzi. The higher Ye Qingzi's soul remembrance was, the better the xuan item she could concoct. If he gave it to her, perhaps it would have some special effect.

With the Evil Good Queen here, Chu Mu's three Devil Souls were like free profit. As for the even stronger Devil Soul, Chu Mu didn't plan on letting it go. Given that the sentiments between the big and little Devil Souls were so good, he couldn't just break them up, eh?

"Let's go. Follow them." Chu Mu patted the Little Hidden Dragon's dragon horns and spoke.

The Little Hidden Dragon's body was translucent as it flew between the mountains. It tried its best to prevent Yong Chong and the others from discovering it.

Of course, Chu Mu couldn't get too close. One or two of the people here seemed to be of the spirit dominator rank. Their perception abilities were definitely very high.

As Chu Mu followed closely, he quickly discovered that the two waves of humans had formed a circle and trapped the peak emperor Devil Soul in between the two mountains.

Yong Chong and Wu Chi's two teams seemed to have reached an agreement. Before they grabbed the Devil Soul into a soul pet space, they wouldn't attack each other. Thus, the big Devil Soul had fallen into a dangerous situation, since both parties were extremely strong.

Chu Mu watched from a distance. The formation of the two mountains created a rhombus shape, giving off an outstanding majesty as they towered among the group of mountains.

From his location, Chu Mu couldn't see the big Devil Soul, but from how the two groups were surrounding the area, the big Devil Soul had probably hid in between the two mountains, relying on a few obstructive things and its invisible movement to trick these people.

Unfortunately, these people were very smart. Each time an invisible figure flew by them, they would send two to three people to chase it while the others would stay there. Clearly, they had a lot of experience capturing Devil Souls.

Chu Mu saw from the distance that both parties were discussing something. Not long after, Yong Chong's group of five and Wu Chi's group of five began to close in on the area between the two mountains. This enclosement method practically left nowhere for the big Devil Soul to run.

There were ten low class dominators and 18 pseudo dominators, making a total of 28 dominators. Such a formation of soul pets was beautiful.

"There are too many enemies. Young master should stop while you've already reaped profits." said Old Li.

The chances of the big Devil Soul escaping were not high. Chu Mu wanted to take away both Devil Souls, but when he considered the numerous number of enemies, there indeed was no need to take a risk.

Not only were there five people in Yong Chong's group, there were 50 more experts on the outer perimeters who had pulled open the realm boundary. If they surrounded him, it would be immensely difficult to escape.

Moreover, if he were to steal the big Devil Soul, Wu Chi's side would probably also give chase. If that happened, he would truly be in a predicament.

Thus, Chu Mu decided to stop while he already made a profit, turning around to leave.

.....

“Over there!!!”

Suddenly, in the distance, Lin Pengfeng’s shout rang out!

Lin Pengfeng’s shout lit up the eyes of the other nine. After they all locked onto the Devil Souls’ location, they rushed forward.

Yong Chong fiercely glared at Lin Pengfeng, silently cursing to himself why this fellow couldn’t be calm. Wasn’t yelling it out like this was basically informing Wu Chi where the Devil Soul was?

“Ning~~~~~”

The Devil Soul was very smart. After continuously shifting between various fake locations, it outlandishly ran in the opposite direction at the moment everyone began to move towards one of its false locations. It didn’t turn back. It ran straight in one direction, because it knew that if it didn’t grasp this opportunity, it wouldn’t have another opportunity to escape!

“The other side!!”

This time, Lin Pengfeng was smart, and used a mental voice to tell his teammates that the Devil Soul had changed directions and was fleeing in the opposite direction.

Yong Chong was still the first one to react. He turned this feathered demon around and rushed first for the big Devil Soul.

“Hmph, the Devil Soul is ours again!” a smile rose on Yong Chong’s face.

The two eyed feathered demon’s speed was faster than the Devil Soul. When there was only a thousand meters between them, Yong Chong immediately ordered the two eyed feathered demon to use a wing type bind!

Feathers flew through the air, forming countless strange symbols, that wrapped around the Devil Soul.

The big Devil Soul’s reaction was very quick. It continuously changed locations, dodging the bind.

Normally, a low class dominator rank creature could easily bind an emperor rank creature. However, this Devil Soul was clearly special. Not only did it manage to trick dominator rank creatures, but it could also dodge a low class dominator rank creature’s techniques.

Yong Chong wasn’t worried. When the big Devil Soul dodged, his two eyed feathered demon closed the distance to 500 meters. At this distance, it didn’t matter how erratic the big Devil Soul’s movements were. Yong Chong could definitely capture it.

“Immortal Feather Shield!”

Yong Chong chanted the name of the technique. The two eyed feathered demon’s feathers began to drift through the air, rapidly forming pure white feather shields around the Devil Soul.

The feather shields were erected in all directions, easily blocking off the big Devil Soul's escape route. The only way it could move was towards Yong Chong and his two eyed feather demon.

"Still want to run? Obediently accept your fate!" loudly laughed Yong Chong. He immediately used his soul remembrance to suppress the Devil Soul's mind, preventing it from having another opportunity to escape.

Yong Chong's teammates were very smart. Seeing that Yong Chong pretty much had this in the bag, they turned around and immediately blocked off Wu Chi and the others. They absolutely could not let them disturb Yong Chong from obtaining this emperor Devil Soul!

"Yong Chong, there aren't many greedy people who meet a good end!" not far away, Wu Chi shouted out these words.

But why would Yong Chong have the time to pay attention to Wu Chi now? He immediately chanted an incantation, forcibly recalling the big Devil Soul into his soul capture ring.

There was nowhere left for the big Devil Soul to escape. With its mind suppressed, it would probably be captured by Yong Chong. Therefore, as he chanted an incantation, Yong Chong's eyes were full of excitement.

However, just at this moment, an even faster incantation outlandishly appeared. Just as Yong Chong's soul capture incantation was about to finish, he saw the big Devil Soul transform into a disorderly starlight that disappeared with a flash from the feather shields!

Yong Chong stared wide eyed in front of him. The duck in his possession had suddenly taken off. Moreover, this was completely without warning!

Yong Chong instantly erupted into a rage. His entire face was flushed red and when he dispersed his feather shield, he immediately saw a young man standing in front of him. On his finger was a soul capture ring faintly emitting a deep blue halo.

Yong Chong was stunned. He never expected an outsider to appear in this area where there were many people on guard. He angrily pointed at the man and said: "I'll give you one chance. Immediately give the ring to me!"

The youngish man, however, apathetically glanced over Yong Chong. His body was suddenly engulfed in silver devil flames and he was burned to ashes.

Yong Chong was stunned. When he returned to his senses, he discovered that the man burning in silver devil flames was already several kilometers away.

Yong Chong was planning on chasing, when he suddenly felt an invisible spatial wall obstructing him, preventing him from moving forward. This made Yong Chong even more mad.

"Extremely repulsive!! Surround him!!" Yong Chong's mouth twitched. There was unexpectedly someone who, in his face, stole a Devil Soul worth no less than a fourth or even fifth rank xuan item!!

Yong Chong immediately called to his troops, having those guarding the perimeters to block off the escape route of the man burning in silver devil flames.

"Senior Yong, what's the matter? Did you obtain the Devil Soul?" Lin Pengfeng came up after and anxiously asked a question.

“Are you blind? Did you not see that devil steal it? You still aren’t chasing him for me?!” roared Yong Chong.

The moment Yong Chong finished speaking, Wu Chi whose appearance was feminine like a girl’s let out a low mocking laughter, as she seemed to have seen the scene of the Devil Soul being stolen: “Senior Yong, are we now neighbors who can’t agree to lose out to a third party?”

“We’re leaving first.” Wu Chi’s comrades calmly spoke before urging their soul pets to fly ahead of Yong Chong, leaving Yong Chong’s expression even more ashen.

The silver devil’s flying speed was extremely fast. It was at least one to two times faster than Wu Chi and Yong Chong’s people. It wasn’t much of a reality for them to catch up.

However, both parties’ troops were placed very well. Not long after, over a hundred soul pets appeared in the direction the silver devil was escaping!

There were twenty wing type creatures in the air. Most of them were feathered demons. Obviously, they were Yong Chong’s subordinates. The various species of feathered demons were all enormous, resembling black clouds that covered the blue sky.

In between the mountains, enormous beast type soul pets were like large sentries standing tall. There were at least fifty of them. The lowest rank of these beast type creatures was high class emperor rank, while there were about ten pseudo emperors. This formation was rather powerful.

Besides these soul pets, there were also numerous elemental creatures chanting incantations, ready at any moment for the enemy to appear.

With such an enormous formation of troops gathered, it was an incredibly terrifying force!!

.....

“What’s the matter? Could there be some sparrow behind me?” in the distance, Chu Mu who was now far away suddenly discovered that something strange had occurred.

From the huge mustering of forces, it seemed that some sparrow really had appeared.

Only, this sparrow was too impulsive!

Chu Mu hadn’t dared to steal the Devil Soul because of the surrounding deployment of both team’s troops. The moment he showed himself, he would definitely be surrounded. If someone tried to be the sparrow, the net would open and there would be no chance to escape!

Chapter 1145: Inescapable Net, Dominator Formation

As the inescapable net collapsed, the over 100 high ranking creatures formed an encirclement, stopping the silver devil.

Everyone knew that this silver devil had stolen a peak emperor rank Devil Soul, which had a very high value. If any one of them managed to obtain it, their strength would definitely take a leap. It didn’t matter if they were a low class dominator expert or even someone without a dominator, all of their eyes were currently covetously red. They would do anything to take this peak emperor rank Devil Soul.

On the towering mountain, amidst the white mist, a man burning with silver devil flames aloofly floated in place. He looked at the over 100 soul pets in front of him, before turning around and watching the ten low class dominators gradually catching up.

There was a wolf in front and a tiger behind. He was a rock in a hard place with nowhere to go.

“Friend, give the thing to me and I, Wu Chi, will use my reputation to ensure that you will be able to leave.” the person to first approach the silver devil was Wu Chi.

Wu Chi’s appearance was feminine and his tone made others feel calm. However, his tone was rather sincere. Any intelligent person would do as he said since it wasn’t worth it to lose one’s life over a treasure.

In truth, Wu Chi didn’t know either if the creature in front of him burning with silver devil flames was a human or soul pet. However, there were a myriad of oddities in this world. Thus, Wu Chi didn’t bother thinking about it now. His main priority was to obtain the Devil Soul.

The silver devil apathetically glanced at Wu Chi. In front of the two powerful soul pet formations, the silver devil’s heart was like a boulder. He was not influenced by their imposing grandeur.

He didn’t say anything. His two silver demonic eyes were cold and calm, vigilantly waiting for the fight to erupt.

Wu Chi glanced at Yong Chong and the others slowly catching up and he coldly harrumphed.

It seemed that he had to make a move first!

Wu Chi waved his hand and of the over 100 high rank soul pets, half of them obeyed Wu Chi. His order was obviously for them to attack.

Six of the 13 pseudo dominators were Aerial Listening Demons. However, their power levels were clearly lower than Lin Pengfeng's low class dominator rank Aerial Listening Demons. The reason why so many of them had the same species demon was because Border Commander Wu Zhen had a demon territory so practically all of his subordinates had an Aerial Listening Demon. Additionally, Border Commander Wu Zhen had specifically selected all experts with an Aerial Listening Demon to come here because they were most suitable to capturing Devil Souls which had strange movements.

Aerial Listening Demons looked like deep-blue colored cheetahs with flower patterns on their bodies. Their ears were pointed, they didn't have tails and their claws were extremely long. Aside from their incomparable listening abilities, Aerial Listening Demons had extremely powerful attacks.

After Wu Chi gave his order, the six pseudo dominator rank Aerial Listening Demons transformed into deep blue lights that took a few consecutive flashing aerial jumps. They all appeared in different locations around the silver devil.

Immediately after, four beast type pseudo dominator ranks leaped into the air. They let out waves of humming noises and savagely charged at the silver devil.

Behind the four beast type pseudo dominators were two wing type dominators. This was a total of 12 pseudo dominator rank creatures!

"Kill!" Wu Chi coldly yelled!

The six Aerial Listening Demons simultaneously transformed into deep-blue colored lights that disappeared from their places. In the next instant, sharp cold lights transformed into cold moon blades that slashed at the enemy from front, back, left and right. They came from six completely different locations, giving the enemy no room to dodge!

The soul pet trainers controlling the six Aerial Listening Demons evidently fought often with each other. When they encountered a troublesome opponent like this, they understood that coordinating soul pets was often more effective than just two soul pets giving each other strength.

The six blades flew through the air, and the blue sky was even chopped into countless pieces. The silver devil who was standing at the very center remained calm in the face of this imposing attack.

He was chanting an incantation, and when he finished the last syllable, nine silver devil flames quickly ignited around his body.

The nine devil flames formed enormous outlines of devil swords. These devil swords were mysterious and wondrous; faintly, ancient incantations and words could be seen engraved on them. Hidden within was some unknown power!

The Worldly Devil Sword Array began to spin and a boundless aura erupted in between the white clouds and mountain peak. The cold moon blade attacks from all four directions let out low-pitched clangs as they struck the devil swords.

As for the cold moon blades that attacked from underneath and above, they passed through the devil sword array. One pierced apart the mountain and the other broke through the clouds; yet, they didn't manage to hit their targets.

As the sword array spun, the devil flames grew more exuberant. After blocking the attack, the silver devil waved its finger. The nine Worldly Devil Swords whistled through the air and flew towards the six Aerial Listening Demons and three of the beast type dominators pouncing at him!

“Clang!!!!!!”

The first devil sword struck the fattest Aerial Listening Demon. The Aerial Listening Demon let out a miserable cry and was knocked flying by the devil sword before being impaled halfway up a distant mountain.

The mountain was several thousand meters tall, but the devil sword itself was equivalent in size to the mountain. When the sword impaled the fat Aerial Listening Demon, it was unknown if it was dead or alive; however, the might of the devil sword left a lasting impact on these people!

There were still eight more devil swords. Each devil sword struck each target as expected. Like that Aerial Listening Demon, these eight soul pets were impaled by the sword. It was unknown if they were dead or alive. Those with higher defensive abilities were barely able to block the attack, but spat out blood from this attack. As for the others, most of them were burned by the devil flames and their souls were injured.

This single technique had greatly and instantly dropped the morale of the twelve dominator rank creatures. It was unknown if three soul pets were dead or alive and six were injured. A single technique had dropped their fighting strength by 1/3rd. How could they still have the courage to charge forth?

The silver devil's strength instantly stunned all of the experts present. For a moment, nobody dared brashly charge forth. Those with covetous red eyes felt their hearts palpitate. It was fortunate that it wasn't them who had charged first. Otherwise, it was likely their only dominator rank soul pet would be instakilled.

Even pseudo dominator ranks weren't able to escape the fate of being instakilled. Those emperor rank experts consciously took a step back. Obviously, they no longer dared participate in this fight.

"What on earth is this fellow? How is he so strong? It's best if we attack together." said a pale-white faced young man next to Wu Chi.

This young man's face was so white it looked like there were no blood vessels in his face. It was so morbidly white that he gave off a sinister feeling. This man was called Wu Xu, and was the son of Border Commander Wu Zhen's first wife. As the team leader, Wu Chi was merely Border Commander Wu Zhen's subordinate.

"Young master, please don't be impatient. You absolutely cannot attack before we have a clear grasp on this devil's strength. If he is hiding his strength, it's likely that he could instantly explode with power and kill us." team leader Wu Chi's tone was gentle as he spoke.

"But our people have been killed. This is also a loss to us." said Wu Xu.

The Worldly Devil Sword Array just now had likely instakilled three pseudo dominators. Dominator rank experts couldn't be found everywhere. If they lost a few, they wouldn't be able to reobtain them.

"Young master, you need to understand that these people whose soul remembrance will forever be stuck at the ninth remembrance spirit emperor rank will never be able to surpass the low class dominator rank. It's necessary for these people to die when the time is right because the thing we need to obtain is equivalent to a middle class dominator." Wu Chi spoke to Wu Xu in a mental voice.

After speaking, Wu Chi's lips curved into a slight smile as he said; "Of course, cannon fodder cannot only be from our side. We ought to have some of Wu Chong's men die."

Wu Xu nodded his head as he quelled his impatience to obtain the Devil Soul.

“Senior Yong, that silver devil’s strength is unordinary. Let’s combine forces first and get rid of him. Then, we can consider who the Devil Soul belongs to. What do you think?” Wu Chi glanced at Yong Chong who had already caught up.

Yong Chong’s expression was still ashen. The Devil Soul just now had been his, but was ultimately stolen by this devil person. He, who was in a state of anger, wished nothing more than to instantly kill the devil person!

“Ok, let’s combine forces to get rid of him!” Yong Chong didn’t hesitate. They had come from Wen City so if they wanted to get rid of something, they ought to just get rid of it!

Yong Chong had many experts here with him. There were seven with dominator rank Dual Pupil Feathered Demons, two with a fire type dominator and rock type dominator and the Yan brother duo. That made for 11 pseudo dominator rank creatures.

Wen City was the city that obtained the most accurate Devil Soul information. Moreover, since they were a sixth rank realm city, aside from a few fifth rank realm cities that had the qualifications to contest with them, there were only a few people from other realms that had come.

This time, Wen City had sent two factions to capture Devil Souls. One faction was under the banner of Border Commander Wu Zhen. The other faction, which was Yong Chong’s, came under the orders of the city lord. Both teams had dispatched numerous experts in order to obtain more resources. All together, Wen City had mobilized about 40 pseudo dominator rank creatures. Among them, only 23 of them were currently encircling the devil while the others were probably with their soul pet trainers capturing Devil Souls elsewhere.

As for low class dominators, there were ten of them. They belonged to Yong Chong, Lin Pengfeng, Wu Chi, Wu Xu and others!

The formation here could definitely be described as terrifying!

When Chu Mu had considered stealing the big Devil Soul, the number of people had been part of his consideration. If there wasn't the little Devil Soul, Chu Mu may have been willing to take the risk. Chu Mu himself was near the middle class dominator rank and even if there were many enemies, he could just have Yu Suo transform into the Evil Good Queen. If that wasn't enough, Chu Mu still had Mo Xie. Chu Mu still didn't know what rank Mo Xie was at.

However, since he already had the little Devil Soul, Chu Mu felt that there was no need to greed for the big Devil Soul.

Chu Mu himself was low key. Thus, he was surprised when there was someone else who so brazenly attempted to steal from the over 100 experts.

After hesitating a while, Chu Mu decided to take a look since there was someone else disrupting things. Perhaps the fortune goddess was on his side. Indeed, his fortune goddess probably wasn't that bad, eh?

Chapter 1146: Fighting Alone, Crazy Devil Bai Yu (1)

The scattered feathers floated down in the sky. Every feather demon's size was massive, casting cloud-like shadows down.

The Feather Demons and Aerial Listening Demon simultaneously attacked the Silver Devil Man, setting down iron-like feathers that left thousands of holes in the mountain range.

The Silver Devil Man's head created a burning crown that incinerated all the feathers.

However, soon after, two violent beast type dominator ranks had neared them and created a shattering energy that landed heavily on the Silver Devil Man's body.

The Silver Devil Man's defense was powerful, and didn't get damaged. However, the two beast type dominator ranks caused it to no longer be able to support the devil flame crown defense.

The simultaneous attack of seven pseudo dominator rank feather demons was already stronger than a low class dominator rank attack. These attacks landed chaotically onto the Silver Devil Man. However, a sudden burst of devil flames appeared on the Silver Devil Man's body. At the same time he grasped his hand, silver devil flames filled the skies!!

Where the devil flames flew past, the storm like feathers all disappeared into ashes. Even the seven dominator rank feather demons flew panically towards where there aren't flames while letting out frantic cries.

The seven feather demons were rather fast at reacting, and didn't cause any real damage. However, the soul pets' attacks that followed stopped the Silver Devil Man from casting more techniques to chase after the escaping feather demons.

"It's about time, let's join in!" Yong Chong glanced at Wu Chi and said.

After some resting, Yong Chong and Wu Chi could roughly tell what the Silver Devil Man's strength was. Clearly, this Silver Devil Man was near middle class dominator or has even reached it.

This strength caused Yong Chong and Wu Chi to feel shocked. After all, middle class dominator rank expert was very few even in Wen City.

Middle class dominator rank was enough to instantly kill low class dominator ranks. Wu Chi's caution was very necessary. If they had joined haphazardly, a sudden outburst could instantly kill them.

Twenty three pseudo dominator rank surround couldn't give much pressure to Silver Devil Man, but it was also very difficult to escape twenty three pseudo dominator ranks' attacks. This was why Wu Chi and Yong Chi thought that they were near or equal middle class dominator rank.

Yong Chong was the first to be unable to hold back because he still held some anger. After all, the devil soul was almost his before this Silver Devil Man stole it!

"Friends, I know you can understand what we say. You're indeed powerful and deserve our respect. However, we have so many people. If we put our lives on the line, you'll die for sure. Might as well leave the ring behind, and you can leave safely, how's that?" Wu Chi didn't attack and instead spoke first.

Silver Devil Man looked around, and found that other than the twenty pseudo dominator ranks already surrounding them, the ten low class dominator rank experts also entered the range, clearly wanting to enter battle.

"I knew that the devil soul may not end in my hands today, but I can tell you that anyone who tries to steal it will definitely also not be the one to get it!" Silver Devil Man's heavy yet cold voice went into everyone's hands.

This sentence was very obvious. Even if he gave up his life, he would kill until the last moment, and was going to kill as many as possible.

The Silver Devil Man's words immediately angered Wu Chi. This was the second time he tried to convince it nicely, yet this Silver Devil Man still didn't take his offer. If this is the case, he was going to get rid of it even at the cost of losing people!

"Yong Chong, let's join hands and defeat him!" Wu Chi said.

Yong Chong nodded and rode directly towards Dual Pupil Feathered Demon into the pseudo dominator feather demon team.

Low class dominator rank Dual Pupil Feathered Demon was slightly larger than the other feather demons. Under its lead, the seven feather demons no longer scattered out and instead coiled up in different positions around the Silver Devil Man, completely blocking the Silver Devil Man's escape route.

Lin Pengfeng also rode his Aerial Listening Demon around the sides of the Silver Devil Man to find the best opportunity to strike. The other three low class dominator rank soul pet trainers attacked under Yong Chong's command.

Three low class dominator ranks combined could cause decent threat to middle class dominator ranks, let alone after Yong Chong's three members truck, Wu Chi and Wu Xu's three people also attacked!

At the same time, six low class dominator ranks started techniques!!

A fire type lotus fell over Silver Devil Man's head, blossoming countless flames that lit the sky red!

Wing type slashes flew through that seemed to cut the sky. Everywhere it passed, the space ripped, let alone the organism bodies.

Wu Xu's Duan Beng Beast's power quickly followed the fire lotus, slamming into the Silver Devil Man like waves of a tide.

The other three attacks slammed together to form an energy explosion that pulled out an Other dimension spatial storm that demolished the Silver Devil Man.

At the center of all these techniques, the Silver Devil Man gritted his teeth and constantly switched positions to find the weakest spot. However, even if he controlled space, it wasn't any use. Even space was shattered. He could only dodge based off instinct and his senses!

The storm of energy destroyed everything nearby. The closer emperor rank soul pet trainers saw the damage, and all backed further away.

“Huhuhu~~~~~”

The messy winds roared in his ears. The Silver Devil Man's seemingly young face showed a hint of pain.

Six low class dominator ranks and twenty pseudo dominator ranks. Even after stepping into middle class dominator rank, it was still hard to deal with. His body was trembling from damage.

His devil flames turned lighter. The Silver Devil Man actually didn't feel much pain. What he was pained about wasn't even how he was going to die under these peoples' attacks. Instead, it was that after so many years, he still couldn't wake her up.

She wasn't even a spirit emperor when she gave up her young life to awaken his ice sealed self.

And, with all his power as a dominator rank, with all his half devil abilities that looked down upon the world, he still couldn't wake her up. It caused him the utmost shame!!

Now that he finally found a way to awaken the soul, he couldn't bring it back.

The immortal spring water's protection was almost over. If he couldn't wake her up again, she may go to sleep permanently. As a father, how could he watch as his beautiful and young daughter passed away like that?

Half Devil Bai Yu's pupils changed in this anger. Similarly silver, his pupils had the beginnings of a strange emotion, similar to a loss of sentience into madness!

“Houhou!!!!”

Half Devil Bai Yu let out a roar!

His entire person was like a demon. The human shaped hands became cruel claws that grabbed a feather demon and ripped it apart violently!

“Sila!!!!!!!!!!!!!!”

The feather demon along with the soul pet trainer on it were ripped in half by the Half Devil Bai Yu. Its blood and feathers fell in a scattered fashion around the crazed demon.....

Chapter 1147: Fighting Alone, Crazed Devil Bai Yu (2)

Resentment gathered. The scene of ripping open the pseudo dominator rank with only two hands fell into everyone’s eyes. The bloodiness and cruelty immediately shocked everyone.

“What’s the panic for, don’t spread out, a few more attacks and he’ll die for sure!” Yong Chong said angrily.

With a large shout, the other six feather demons no longer backed off.

“Whoever kills him will be given a monarch rank devil soul!” Wu Chi was even smarter, using a heavy reward to reward courage.

After both of the leaders said their statements, they brought their team back around this vicious silver devil man, and their soul pets starting to gather techniques.

With ten low class dominator ranks leading the way, the pseudo dominator rank experts felt their safety was secured and so the heavy reward brought everyone to become illogical!

Ten low class dominator ranks put together well was very near two middle class dominator ranks. This power was more than enough to take down the devil man. However, with how vicious the devil man seemed, taking him down would have casualties for sure.

The more alert they were, the lower their collaboration. This gave the devil man a lot of time to breathe.

Yong Chong's Dual Pupil Feather Demon was above the devil man creating waves of black feather shadows. These feathers created a massive black wing that fell on the silver devil man.

The silver devil man's body was pressed down a few thousand meters before silver flames blasted upwards, and its claws became a fist!

“Sila!!!!”

Two Shattering Sky Imprints appeared without any precursor and flew through the black wing, ripping this wing type technique into splinters!

Yong Chong humphed and looked over at Lin Pengfeng.

Lin Pengfeng's low class dominator rank Aerial Listening Demon was always hiding in the air. Its eyes were like a hunter's, staring at the devil man's every move.

Just as the devil man was pushed down, the hidden Aerial Listening Demon suddenly darted forward, its mouth full of teeth becoming a lethal bite covered in demon aura!

“Ka!!”

The bite went straight for the devil man's lethals, its neck.

Fighting demons couldn't do drawn out fights and wild hand-to-hand combats like beast type organisms. However, if the demon attacked, it definitely was the moment where the enemy showed a flaw, and could die in one hit.

Yong Chong and Lin Pengfeng collaborated well. They used the black wing to distract the devil man and push it near where the Aerial Listening Demon was hiding, and then told everyone to attack it at once. Without allowing the devil man to even be aware of danger, Lin Pengfeng's Aerial Listening Demon then attacked!

This was nearly impossible to dodge!

The crazed white Bai Yu again was attacked by all the soul pets. His body was already lightly shaking. With the quick follow up attack from the Aerial Listening Demon, devil man Bai Yu felt death nearing!

Annoyance, pain, anger, regret, and sadness all got mashed together as Bai Yu's thoughts and sentience was slowly overtaken by the devil in his mind!

The subordinate soul was a white nightmare. However, once it took the main position, Bai Yu was no longer a half devil, but instead a devil!

A devil's mind was permanently in endless pain. This torture causes a devil to lose the ability to think or have logic. Only battle and killing could reduce this pain!

When the only thing in one's very being was battling, this was when the half devil was the scariest. When death was a relief, battle awareness would reach a peak!

Its silver pupils slowly blinked. Bai Yu turned around. At this moment, Aerial Listening Demon's poisonous teeth were already on its neck.

However, in the eyes of Bai Yu, it was incredibly slow!

Sticking its right claw out, the devilized Bai Yu didn't dodge but instead stabbed his claw down the aerial listening demon's mouth!

Obliterating Heart!!!

Sticking down the throat, Bai Yu's hand went straight through the aerial listening demon's veins and bones, grabbing the aerial listening demon's heart and ripping it out!!!

“Wuwuwu~~~~”

The moment the aerial listening demon bit down, its body shuddered. The poisonous fangs fell on Bai Yu's throat, but it only left a shallow bite mark before it could no longer close down any further!

A black heart was held in Bai Yu's hand. The dozens of people nearby and even the hundreds far away could see this harrowing scene!

“Beng!!!”

Grasping its claws, the heart burst open into various fluids that seeped down from between the silver fingers.

At that instant, everyone felt a twitch in their chest, as if it was their hearts that were shattered.

Instantly killed!

Low class dominator rank Aerial Listening Demon was instantly killed!

The devil's actions once again shocked everyone. The chaotic battlefield fell silent.

With his soul pact broken, Lin Pengfeng stared blankly as his Aerial Listening Demon fell from the skies and into the valley. His entire person was like a pathetic dog, as he went towards the mountains.

A soul pact breaking meant that his soul broke. Lin Pengfeng didn't seem to believe this reality, and wanted to go save his soul pet.

However, his actions exposed him directly to the kill-hungry devil!

With a slight wave of his hand, the devil man Bai Yu lit up a silver devil flame that was strangely piercing.

This devil flame was like a wisp, following tightly behind Lin Peng as they both entered the dark valley.

“Ah!!! Ahhh!!!!!!!!!!”

A moment later, everyone heard Lin Pengfeng’s shrieks of pain. A pale white devil flame that darted up from the valley proved that Lin Pengfeng was quickly burnt away in the valley.

Seeing the flame in the valley, Yong Chong’s face turned steely.

Lin Pengfeng’s actions weren’t logical. Going down like that alone, it was no different from suicide. Yong Chong couldn’t save him even if he tried.

Losing a low class dominator rank along with its soul pet trainer, Yong Chong already couldn’t report this well to Wen City City Master.

It looked like they had to get this large devil soul no matter what, or else they would suffer even greater punishments!

“Everyone gather up, don’t attack alone!” Yong Chong couldn’t let more people die and gathered everyone.

Wu Chi felt as if he had been bitten by a snake. He no longer dared to attack haphazardly, and started employing an attrition strategy.

Everyone started playing it slow, but the devil man Bai Yu remained crazed. As long as it got near a group of soul pets, it would take away a life even at the cost of injury!

To the devil man, the pain from the wounds was far lower than the pleasure from killing. Bai Yu's body slowly started getting littered with wounds. These wounds caused his body to be incredibly dark. Only its eyes remained burning bright with hatred, cruelty, slaughter, and a hint of the regret and apologies it felt deep down.

Blood fell through his fingers. Another low class dominator rank died under his hands. Blood covered its silver body, making it into a bloody devil.

The burning devil flames slowly became shallow, as if a gust of wind could blow it out. However, everytime Yong Chong and Wu Chi felt like this fellow was almost out of energy, his devil claw would start ripping in front of everyone. After a third low class dominator rank was ripped up by him, no one dared to go up to him.

The killed dominator ranks added together was probably equivalent of a middle class dominator rank now. This time was a huge loss to Wen City. As the Devil Man had said before, the devil soul may not end up with him, but he definitely wasn't going to give it up to anyone who dared to come forth. Anyone who had come up to fight for it had already had their corpses deposited into the valley below!

Yong Chi and Wu Chi were already secretly regretting it. If they knew how cruel and powerful this devil man was, they would rather let the devil man go and not lose this many dominator ranks.

Now, they were already caught in the situation because if they didn't get the big devil soul, their loss was impossible to recuperate.

“Huhuhuhu~~~~~”

Devil flames slowly dimmed away. Its silver body was slowly fading away.

A body of blood, hair white with blood, a young face that looked incredibly old.

Already at his maximum, bai yu's half devil status automatically disappeared. His white nightmare entered a deep slumber, leaving only the human form of Bai Yu still hovering in the air, surrounded by dominator rank experts.

"It.....it doesn't seem to have much fighting strength left." Wu Xu said excitedly.

"Young master, wait a bit longer.!" Wu Chi quickly stopped Wu Xu who tried to run forth to steal the devil soul.

Yong Chi also didn't want to immediately go forth, and just stared at the devil man who was slowly becoming into a young yet seemingly aged man.

Three low class dominator ranks died under its devil flames and devil claws while the ten pseudo dominator ranks died too. Killing this many dominators while being surrounded, devil man gave them a very large mental scar. Even if it seemed to be at its limit, no one dared to go forth.

For a full five minutes, everyone gathered around Bai Yu and waited five more minutes. Only when they were certain it was truly out of fighting strength did Yong Chi and Wu Chi finally head forth.

"En? His soul capture ring!!!"

Suddenly, Yong Chi let out a strangled cry.

With this cry, everyone's attention turned to Bai Yu's hand only to find that the only thing there was a spatial ring but no soul capture ring.

"He may have thrown it into his spatial ring, take him down first!" Wu Chi was slightly calmer.

Yet, at this moment, the tattered and weary Bai Yu strenuously let out a pale smile.

Having earned this much time, it was enough for Ice Pupil Unicorn to get away, right?

Chapter 1148: Two Devils in this World

This was enough for Bai Yu.

He was confident that even if his soul pact ruptured, the Ice Pupil Unicorn would be able to take the soul capture ring with the big Devil Soul away.

He closed his eyes. He was a person that should have already died. He never had expectations to live longer. He even wished to have continued hibernating in the glacier, asleep forever. This was, he wouldn't have to suffer every night when he closed his eyes when his mind would flash with the scene in front of the ice seal; the unbearable heart wrenching pain.

However, he was afraid to open his eyes because each time he awoke, he would see a heart-ripping scene.

Dead was the best form of release. He didn't wish for her to use her youthful life to awaken him, only to be left as an empty person.

"Kill him first!" Yong Chong angrily yelled.

The Dual Pupil Feather Demon transformed into a two-winged black sword that flew straight at Bai Yu's head.

Bai Yu couldn't dodge this sword. He didn't have much energy left.

The black sword carried Yong Chong's torrential rage. It was aiming to split Bai Yu's head in half.

However, there was a person who couldn't just watch Bai Yu be killed by them. Practically the instant the black sword was about to strike, a silver devil flame shield quickly formed above Bai Yu's head. When the black sword struck the silver shield, the devil flame shield didn't move an inch. It could not be cut through!

Yong Chong jumped with fright at the appearance of the silver devil shield. He mistakenly believed that this silver devil was faking weakness. Thus, when his attack failed, like a bird startled from the twang of a bow, he anxiously retreated back to the feather demon formation.

When he made it back, he finally discovered that the devil flame shield hadn't been used by the man covered in wounds. Instead, it was another young man quickly flying from the east.

This man was riding on a spectral blue and translucent dragon. His eyes were emitting a silver that matched the devil person and the remnants of silver devil flames were gradually subsiding from his palm.

The spectral dragon quickly floated up to the devil riddled in wounds. The young man jumped off the spectral dragon, and hovered in front of the spent Bai Yu.

“Chu Mu!” Bai Yu opened his eyes. In front of him was the person who had also transformed into a devil like him!

Bai Yu felt guilty towards Chu Mu because Chu Mu’s state had been forced. Chu Mu should have been able to easily control his half devil strength when he was swallowed up, but it was due to the Tianxia City fight that he was forced to transform into a devil.

It was fortunate that he had a lucky encounter that awoke his soul. Otherwise, Bai Yu wouldn’t have known how to face this venerable young soul pet trainer.

“I’ve come late.” Chu Mu felt somewhat apologetic. If he had known that the ‘sparrow’ was Bai Yu, he would have taken action. He wouldn’t have delayed this long, nearly costing Bai Yu his life.

Chu Mu could see very far, and saw Bai Yu from a long distance away. If it wasn’t for Yong Chong, Wu Chi, and the others fearing Bai Yu’s savagery and intentionally waiting five minutes, Chu Mu wouldn’t have been able to make it.

“It would have been best if you came later.” bitterly said Bai Yu.

He had already prepared to die, but Chu Mu ended up appearing just in time.

Logically speaking, he shouldn't have appeared here. Yet, he did, and had done so right when his life was about to end. Bai Yu suddenly felt that his destiny was too bizarre. There were multiple times when he should have died, but ended up living.

"Can the Devil Soul awaken Jinrou?" asked Chu Mu.

The only reason Bai Yu had for coming here to steal the Devil Soul was Bai Jinrou's life.

"I don't know." said Bai Yu.

Even now, Bai Yu still didn't know if there was a xuan item that could bring a person back to life. Nonetheless, he had to try. The Devil Soul was Bai Yu's last hope. Indeed, the Immortal Spring Water had a time limit and he didn't have more time to find other xuan items.

Bai Jinrou had sacrificed her own soul to awaken Bai Yu and save him. Now, Bai Yu was going to use his own life to awaken Bai Jinrou. Although this trade of lives was a bit absurd and laughable, only Chu Mu, who had personally witnessed it all, could understand what kind of emotions lay between them.

"You had to try. Take a rest. I'll deal with things here." said Chu Mu. As he spoke, his eyes coldly glanced over the group around him.

Yong Chong and Wu Chi were extremely afraid by Chu Mu's appearance, since they discovered that a layer of faintly discernible silver devil flames was wrapped around his body. The intensity of the flames wasn't much inferior to the devil that had just wantonly slaughtered. If they had equivalent power, they would probably die here.

“Be careful. These people aren’t weak.” Bai Yu reminded Chu Mu. After speaking, he sat up in the air and closed his eyes.

Chu Mu nodded his head. Bai Yu’s strength had already broken through the middle class dominator rank. There was a chance that Bai Yu himself had entered the spirit dominator rank. Chu Mu himself was still a little ways away from the middle class dominator rank. Facing seven low class dominators and 13 pseudo dominators alone would definitely be difficult.

“Yu Suo, help heal Bai Yu.” Chu Mu glanced at Yu Suo on the Little Hidden Dragon’s back and spoke.

Yu Suo complied with his request. The golden mask on her face hid her features of absolute beauty that could charm every living being.

She floated off the Little Hidden Dragon’s back. With a wave of her hand, she created countless flower petals that were as soft as water. These petals carried an intense fragrance as they revolved around Bai Yu.

Bai Yu opened his eyes and glanced at the Evil Good Queen that had nearly brought an enormous calamity to New Moon Land. He then closed his eyes and slowly absorbed the healing petal Yu Suo used into his body. As his life force was replenished, his wounds stopped bleeding.

One life force recovery, one wound recovery, and one physical strength recovery. Three holy blue colored halos descended upon Bai Yu’s body. His wound riddled body seemed to have come alive after bathing in the halos for a moment. His body once more ignited with silver devil flames.

Seeing that Bai Yu’s fighting strength was recovering, Yong Chong, Wu Chi and the others were even more anxious. They were hesitating, and they didn’t attack.

But if they didn't attack, they wouldn't be able to take back the losses they suffered earlier. The two factions sent from Wen City could only look at each other and discuss whether to continue fighting.

Whether they would fight or not was not solely determined by Wu Chi and Yong Chong. Chu Mu was presently suppressing the emotions in his heart, especially the emotions from when he saw Bai Yu close his eyes. Chu Mu felt that there was something stuck in his throat and suppressing the emotions would prevent him from spitting it out.

Chu Mu had seen Half Devil Bai Yu awaken from the Dormant World and let out a heart wrenching roar as he carried the frail corpse. He had also seen him close his eyes just now, as if he was going to be liberated...

There were two devils in this world. One was Bai Yu, and one was Chu Mu. The only person who could understand the complex silver eyes of Bai Yu was Chu Mu.

Chu Mu didn't want to talk now. His silver hands transformed into silver devil claws, and his two evil eyes blossomed with a silver demonic light. He looked at the surrounding people as if they were dead people.

Standing next to Chu Mu, Yu Suo could feel the anger in Chu Mu's heart. This anger was transforming into an evil energy.

The energy poured into the Evil Good Flower Queen, the evil energy unexpectedly raising the Evil Good Flower Queen by a stage!

Yu Suo was extremely shocked. The Evil Good Flower Queen's growth speed was extremely slow. Each stage advancement was exceptionally difficult to come by. She never expected that Chu Mu's

evil energy could allow the Evil Good Flower Queen to grow so quickly. This was much more ample than evil good energy from wars or saving people.

Yu Suo had planned to awaken Bai Yu back then in order to create evil energy. She was confident that there was nothing more evil in this world than a devil.

However, Yu Suo had forgotten that Chu Mu himself was a devil. His evil energy was extremely beneficial for the Evil Good Flower Queen's growth!

Yu Suo's mood instantly improved. As long as she could quickly grow the Evil Good Flower Queen, Chu Mu's soul pact and seal would be unable to bind the Evil Good Flower Queen. Her own strength had increased. Thus, after transforming into the Evil Good Flower Queen, even if she couldn't beat that repulsive fox, it probably wouldn't be an issue for her to escape!

Yu Suo was silently rejoicing. She saw that Chu MU had directed his resentment towards the surrounding people. In order to reap as much of Chu Mu's slaughtering evil energy, Yu Suo decided to become an obedient female servant and said in a soft and pandering voice: "Master, can I use techniques?"

"Chu Mu couldn't be bothered to look at her. He indifferently said: "Up to you."

After speaking, Chu Mu disappeared from his spot. His devil claws ripped through the air and he grabbed at the closest feathered demon from the air.

The feathered demon's throat seemed to have been grabbed by an invisible large hand. It did its utmost to beat its wings and escape.

“Ga!!”

Chu Mu wrung his hands. The pseudo dominator feathered demon didn't even have the ability to resist and its neck was snapped by Chu Mu. Its master that was riding on it fell straight to the mountain!

Chu Mu had attacked very quickly. Wu Chi, Yong Chong and the others were still hesitating. By the time they reacted, Chu Mu had already instakilled one of their feathered demon dominators slightly ahead of the others!

Another dominator rank creature had fallen. Yong Chong could feel his heart bleed. Just now, the capable subordinate who had fought under him, Lin Pengfeng had died in the fight. If he was unable to capture the big Devil Soul, the loss to Wen City would be too big!

With his heart beating like a drum, Yong Chong no longer wished to fight. Especially since the soul capture ring ostensibly wasn't on the silver devil.

However, whether they would fight or not was no longer to be decided by Yong Chong and Wu Chi. Chu Mu, whose heart was filled with evil thoughts, had transformed into a silver half devil. Following behind him, the berserk devil Bai Yu was also going to continue killing!

A single Bai Yu already filled their hearts with fear. Now that a second devil had appeared, this had essentially destroyed the confidence of these dominator rank experts.

“Combine forces! Wu Chi, what are you just standing there for? Both of us might die here!” loudly yelled Yong Chong as he directed his words to Wu Chi!

Wu Chi's expression was abnormally unsightly. As he looked at Chu Mu, whose savagery was not inferior to Bai Yu's, he grit his teeth. No matter what, he had to eliminate these two monster devils!!

This time, Wu Chi truly didn't try pulling any schemes. Combining forces, they had all of the low class dominators surround Chu Mu. They also issued a call to gather, gathering all of the dominator rank experts spread through the mountain here!

There were at least 17 more pseudo dominator rank experts in the mountains. Only by gathering all of their forces could they reduce the chance of loss to the lowest!

Chapter 1149: Devil Nightmare

The silver devil flames were particularly dazzling. Clouds of fire covered the sky and an imposing feeling caused them to feel they were situated in a devil flame hell.

Chu Mu violently released the devil flame ocean domain. The silver flames illuminated his body, making him seem even more evil and haughty.

A devil flame dragon flew through the air, spinning around Chu Mu, in the control of one of his hands!

He lifted his hand and instantly, the devil flames transformed into silver flying dragons in the air that domineeringly and brashly whistled through!

“Yi~~~~~ yi~~~~~”

The feathered demons flying in the air were dominated by the devil flames. Now with the devil flame flying dragons, the chased feathered demons let out panicked cries. They rapidly beat their wings and fled in different directions.

Their black feathers scattered in a disorderly manner. If they even slightly touched the devil flames, they would be burnt to ashes.

As the formation of feathered demons were forced to disperse, the three remaining Aerial Listening Demons seemed to have found an opportunity to attack. Their gem-like eyes released a savage glint in the skies.

Their bodies hidden in the silver fire light, the Aerial Listening demons were practically invisible. Quietly, they approached Chu Mu, waiting for Chu Mu to release the devil flame dragons around him before launching an attack.

After driving away the feathered demons, Chu Mu's attention fell on the remaining seven low class dominators. Clearly, this group was the hardest to deal with.

It wasn't that Chu Mu didn't notice the Aerial Listening Demons. Instead, he couldn't be bothered to pay attention to them.

However, the Aerial Listening Demons couldn't tell that Chu Mu couldn't be bothered with them. When the last flying dragon flew by, burning the feathers of a feathered demon to crisps, the three Aerial Listening Demons appeared and their leopard-like bodies quickly pounced!

Yet, Chu Mu still didn't pay attention to them. The eyes of Yu Suo, who was standing beside Chu Mu, lit up and a captivating red lustre flickered in her charming eyes.

The captivating red carried traces of evil and seduction. As her eyes flashed, an identical flash appeared in the eyes of the three Aerial Listening Demons.

She casually flung back her long purple hair, and a fragrant pollen proliferated through the air. Like a fog, it covered the three Aerial Listening Demons.

“Flower Soul Control!”

Yu Suo read out the name of the technique. A faint sliver of craftiness appeared in her proud and charming eyes.

Flower Soul Control took control of one’s mind first before the pollen hypnotized the host’s body. Then, she would have full control. Even in her human state, Yu Suo was still able to control at most ten pseudo dominators. This was more than enough to control three Aerial Listening Demons.

“Go. Get rid of those two elemental soul pets.” Yu Suo gave an order and two of the Aerial Listening Demons under her control launched attacks at the distant fire type dominator and rock type dominator.

These two elemental soul pets did not expect the Aerial listening Demons to attack them. Caught completely off guard, they were instakilled by the two Aerial Listening Demon.

At this moment, Yu Suo intentionally glanced at Chu Mu. Discovering that Chu Mu was already fighting those low class dominators, the craftiness in her eyes grew more profound. She chanted another long incantation, using it on the three Aerial Listening Demon.

This Aerial Listening Demon transformed into a runaway feral horse that wildly charged in one direction. It quickly separated itself from this area and charged in a direction Yu Suo was pointing at.

Seeing that the Aerial Listening Demon was far away, a sinister smile emerged on Yu Suo's captivating red lips.

"If I capture it, I should be able to free myself from that fellow's control. Hmph. Bastard Chu. You want to use devil flames to torture me? This Queen has a million more torture methods than you!"

After speaking, Yu Suo quickly chanted an incantation, adding a flower armor on Chu Mu's Spectral Dragon, raising its defensive stats.

Before emancipating herself and becoming the master, Yu Suo had to hide her arrogance and resentment and obediently and understandingly eliminate Chu Mu's vigilance. This way, she would have more of an opportunity to come out and move around and implement her plan for Cloud Realm.

After Yu Suo added the flower armor, the low class dominator rank Little Hidden Dragon was capable of fighting one versus two. It had already locked onto Yong Chong's Dual Pupil Feathered Demon. Without needing Chu Mu's orders, it beat its wings and launched itself at the Dual Pupil Feathered Demon!

The Little Hidden Dragon's innate defensive abilities were very strong. With the addition of the flower armor, Yong Chong's feathered demon's techniques weren't able to break through the Little Hidden Dragon's defenses. Yong Chong had no choice but to retreat behind his team and reconvene with the pseudo dominators gradually coming to support.

Yong Chong and Wu Chi both gave gathering orders, gathering the other dominator rank experts here. Presently, Yong Chong's feathered demon team had been increased to ten members!

However, Yong Chong never expected that in the face of one low class dominator rank feathered demon and nine pseudo dominator rank feathered demons, this crazy Empyrean Cyan Hidden Dragon still dared to charge forth. It looked like it absolutely had to kill him!

“Block it!!” Yong Chong angrily and humiliatedly roared.

Nine feathered demons beat their wings, forming a big black cloud above the Little hidden Dragon. Their piercing thunderous cries rang out in the sky.

The Little Hidden Dragon beat its wings and flew straight at the cloud. It proudly roared against the piercing cries. It was like a powerful heavenly hammer was smashing against fierce thunder swords!

Chu Mu felt somewhat surprised towards the Little Hidden Dragon’s craziness of facing ten feathered demons alone. However, when he saw that Yu Suo had added flower armor to it, he felt much less anxious.

The Little Hidden Dragon’s strength was of the low class dominator rank and would beat Yong Chong’s Dual Pupil Feathered Demon if they fought one vs one. With nine other feathered demons, the Little Hidden Dragon couldn’t deal with them all. Nonetheless, the addition of the flower armor greatly increased its defensive abilities. Thus, even if it couldn’t beat them all, its powerful defensive abilities and spectral ghost movements would allow it to hinder them for a period of time without trouble.

Leaving the remaining pseudo dominator ranks to Yu Suo to deal with was more than enough. Thus, Chu Mu would only have to deal with the six low class dominator ranks.

Chu Mu knew that he couldn’t face six low class dominator ranks alone. Indeed, he hadn’t become a middle class dominator yet.

Promptly, he chanted an incantation, and summoned Zhan Ye, which had risen in rank recently.

“You deal with the Wild Python Winged Beast and the Hissing Sky Flying Lion.” Chu Mu arranged the fight for Zhan Ye.

“Hou hou!!!!” Zhan Ye roared back in response with high fighting spirit.

Its black body rapidly pounced forth and it targeted the Wild Python Winged Beast and Hissing Sky Flying Lion. It took the initiative to attack.

When the two low class dominators saw that the opponent was unexpectedly using a pseudo dominator to deal with them, two low class dominators, they couldn't help but sneer.

“Wang Changfeng, Huang Tong, immediately kill it!” ordered Wu Chi.

Wang Changfeng and Huang Tong nodded their heads. Dealing with a single pseudo dominator was much easier than dealing with that terrifying devil person.

When Chu Mu saw those two maliciously smile, he coldly laughed.

His silver devil claws transformed into sword-like blades. As he vertically swiped his arms down, a ten kilometer Evil Behead broke through the sky. The enormous cloud bird circling the sky reacted extremely quickly, transforming into a cloud.

Chu Mu's Evil Behead strike seemed to chop a cloud, but didn't actually deal any damage to the cloud bird.

However, Chu Mu's goal was to force the cloud bird, which understood how to look for weaknesses, to retreat.

Neither Wu Chi nor Wu Xu were weak. After countless clashes, they were certain that the second silver devil hadn't reached the middle class dominator rank in strength.

As long as it wasn't a middle class dominator rank, dealing with it probably wouldn't be too difficult. Wu Chi and Wu Xu didn't restrain themselves and urged their soul pets to slaughter it.

Behind them, Yong Chong had broken free of the Little Hidden Dragon's fight and joined them. But even while facing five low class dominator ranks, Chu Mu's fighting style was still extremely violent and wild.

Dual Pupil Feathered Demons had rather powerful aerial fighting capabilities. Since Yong Chong had run here, Chu Mu obviously had to pay more attention to him.

It could be said that in Yong Chong's fight just now, Chu Mu had used both Spatial Quicksand and Spatial Explosion. Thus, Yong Chong had fled to Wu Chi, Wu Xu, Shang Jiazhen and Xiao Tan in an extremely miserable manner.

Chu Mu's casting speed was extremely fast. The five of them were about to attack when Chu Mu raised an arm, forming a spatial barrier, blocking their line of sight.

The spatial barrier's appearance allowed Chu Mu to practically disappear in the air. The techniques of the five people were only able to fly towards the location where Chu Mu was.

After a wave of distortion, the spatial barrier shattered. The overlaying of five techniques made the combined might no weaker than a middle class dominator's technique. They believed that even if the devil managed to dodge, it would still be hit by the proliferating energy.

Creatures with strange movements made people the most uneasy. When the wave of energy reached these five people, a sliver of coldness that seeped into their bones and soul was contained in the wave.

Xiao Tan looked at the disorderly area, but didn't discover any traces of the devil. He was the first to crease his brows, and order his cloud bird to dodge in a certain direction.

The other four didn't react slow either. When the coldness struck them, they all dispersed in different directions, only daring to look back when they were several kilometers away.

"Hu hu hu!!!!!!!!!!"

A pillar of silver devil flames outlandishly emerged where the five of them had just previously been. That evil devil was carrying a smell of death, and its long devil claws were flickering with a cold light since they had yet to taste blood!

The five of them simultaneously wiped off their sweat. If Xiao Tan hadn't warned them, one of them would definitely have had their hearts ripped out by that monstrous fellow.

However, for some reason, even though they were able to react in time, the cold feeling was still lingering around them.

“Not good, hurry and dodge!” Wu Chi let out a strange cry.

The moment he finished speaking, an enormous darkness aura surged out of the vortex-like black clouds above him. As Chu Mu pushed his hand down, a black sinister tomb descended from the sky burning in devil flames.

The sinister tomb was enormous and heavily suppressed down on the location Shan Jiazhen was fleeing. Him and his soul pet were instantly covered by the sinister tomb!

“Weng!!!!!!”

The sound of a death knell rang out. The sinister tomb that descended from the sky had suppressed Shang Jiazhen all the way to the mountains. He was instantly pushed down into the level mountains. A terrifying fire perilously shot out, igniting the mountains several tens of meters around it. It was a gorgeous yet frightening scene!!!

Chapter 1150: Demon Lock, Dismembering Corpses

The evil mound fell. Shang Family Village and his soul pets were dead for sure.

The black burial ground subdued four other people. Their eyes opened wide. They had never seen such a shocking and evil ability.

Silver devil flames' flame light fell on their faces, causing them to be increasingly pale. They looked, slightly terrified at Chu Mu.

Another low class dominator rank and its soul pet trainer died together. This meant that they had lost four low class dominator ranks already. A kingdom capital had a limited amount of dominator ranks. Originally, the large amount of devil souls should have given a great boost in strength to Wen City's experts, yet he didn't think that the two devil men would cause them to lose this much!

Now that they may not even be able to get the devil souls to replenish their loss of dominator ranks, Yong Chi and Wu Chi's mood was at an all time low, completely opposite of how they felt when they had just gotten the devil soul.

Chu Mu breathed hard, but slowly adjusted it back to normal. The Evil Mound usually needed a long time to prepare. Though Chu Mu had already started it beforehand, swiftly finishing such an energy-intensive technique in a short time still needed some rest.

Thankfully, Yong Chi and Wu Chi were all subdued by the technique and didn't attack Chu Mu at once. Or else, Chu Mu had to take considerable damage too.

Using a large amount of energy to immediately kill a low class dominator rank, the following battle would be much easier. Chu Mu's attention was all on Yong Chi's Dual Pupil Feather Demon.

Yong Chi was the first to notice that Chu Mu was weakened. After realizing, he immediately started a wing meteor, creating countless small meteors that fell from the skies.

Chu Mu's breathing was adjusted already. As the tiny meteors flew through the skies, his body quickly burned away. In a moment, he disappeared into ashes that scattered amongst the falling meteors.

Beforehand, when fighting Bai Yu, he had learned of the strange control a devil man had with space. The moment his body disappeared, he could easily appear behind someone and crush their heart without them realizing it!

Chu Mu didn't go on the offense this time. His silver body floated ten kilometers out and glanced arrogantly at the frightened crowd.

Seeing Wu Chi back off they finally realized that not attacking immediately was a foolish decision. Now that they missed the opportunity, hurting him again would be incredibly hard.

Wu Chi glanced over at Wang Changfeng and Huang Tong. When they noticed that the two of them were still fighting the Mo Ye, he was furious.

"What are you two doing? Why haven't you killed that Mo Ye yet?" Wu Chi yelled out furiously!!

"Yes.....yes, it's already heavily wounded, one more hit and it'll die!" Wang Changfeng replied.

"Almost? Are you trying to wait until we're all dead?" Wu Chi yelled.

Two low class dominator ranks using that much time against a pseudo dominator rank, could the two be any more trash?

Wang Changfeng and Huangtong didn't dare to reply. Gritting their teeth, they transferred all their anger onto Zhan Ye.

"This damned thing, we'll kill it this time for sure!" Wang Changfeng said angrily.

Hissing Sky Flying Lion flapped its wings. Larger and more imposing than the Thunder Sword Winged Lion, this specimen became a large brown mountain that fell on Zhan Ye's body, releasing countless beams of light that blew up like granite!

Zhan Ye seemed to be heavily wounded but in reality, with its life force, it was only moderately wounded.

The Hissing Sky Flying Lion's techniques weren't dodgeable. Zhan Ye could only protect its head and take the hit with its armor.

The armor was shattered even more thoroughly, seeping blood through its cracks.

However, every single battle it had ever been in led to Zhan Ye being in a wounded state. After a while, these wounds were no longer really wounds!

“Houhouhou!!!!”

Zhan Ye let out an angered roar. All the wounds started seeping bug liquid. These liquids when smeared evenly over its wounds quickly let its wounds heal up.

After a moment, its armor again gleamed with a light and Zhan Ye's fighting intent reached a new height!

Seeing Zhan Ye complete its broken limb rebirth, Wang Changfeng and Huang Tong both opened their eyes wide.

When they were fighting before, they could feel that the Mo Ye's life force was far stronger than a normal pseudo dominator rank. Killing it was a large hassle. Little did they know, it also knew broken limb rebirth. This means that they had to spend even more time to kill it again!

The two of them glanced at Wu Chi. Presumably, if they wasted any more time, Wu Chi will probably come and kill the two of them himself.

Wu Chi had no attention left to spare for them. An unknown and deadly space storm was pulled out from another world and was flying towards them.

“Huhuhuhu~~~~~”

The silver storm wreaked havoc on all it passed. Wu Chi and Wu Xu both fell into the storm and sustained a terrifying ripping power that also brought them further away.

Yong Chong and Xiao Tan saw them fall into the spatial storm, and told Cloud Bird and Dual Pupil Feather Demon to both cast their wing type restriction techniques on them while Chu Mu was still recovering from the recent incantation!

The white feathers and black feathers surrounded Chu Mu. They looked like ancient marks and symbols that hid special magic.

The white restriction was on the inside, while the black was on the outside. The two restrictions hit Chu Mu at the same time. Chu Mu's actions of controlling the spatial storm was instantly stopped.

Chu Mu's spatial storm was enough to throw the two of them two to three hundred kilometers out. Though it couldn't kill them completely, it could split the four low class dominator ranks apart. That way, Chu Mu could take them down one by one.

Clearly, Yong Chong and Xiao Tan both realized this and went to stop him, restricting him from controlling the storm.

The restricted Chu Mu's body couldn't move. It felt like his body was wrapped up in an unbreakable metal skin.

The restriction succeeding was the best chance to attack. Yong Chong and Xiao Yan started chanting an incantation without worry, all attempting to start a long incantation to give Chu Mu a killing blow.

The feather demons were mostly single pupiled, each of them hiding a feather species' ancient power. When their pupils were flashing with a chaotic light, it was time for them to take off their seal and cast their feather species demon power!

The Dual Pupil Feather Demon had double this power. Yong Chong's feather demon was currently spinning. With a loud call, the two pupils shot out two forks of orange lightning to two sides of Chu Mu!

Orange lightning connected onto Chu Mu's arm, ankle, and neck, tightly binding Chu Mu's body.

The shackles that extended out from the chains went up and down into the unknown heights of the skies and the ground!

Like this, Chu Mu's silver body was stuck between the skies and the ground, each chain frenziedly pulling, attempting to rip Chu Mu's head, arms, and legs off!

Before Chu Mu could even break open the two previous seals, the feather demon's attacking restriction became even worse

"This is the heavenly ground demon lock. The pulling power is sourced from the restricted organism. Countless people don't know just how powerful they are, but this heavenly ground demon lock could satisfy them. Now you can have a very powerful and painful recognition of your true power!" Yogn Chong started laughing.

This Heavenly Ground Demon Lock was something he saved for the perfect opportunity!

Restriction, seals, and binding advanced organisms were very unlikely, but once it happened, the technique definitely will show its effect.

Beforehand, the devil man used its bare claws to rip open many pseudo dominator rank organisms, meaning its power was very great. If this power fell upon his body, even if it didn't immediately dismember him, it could break a few bones!

Chu Mu had just shattered the cloud bird's restriction. Escaping before the seal started pulling was impossible. Chu Mu glanced at Yong Chong, who was laughing in delight, and felt his heart sink slightly. After all, the demon lock's power was equivalent to his.

"Ge!!!!"

While thinking, the two orange thunder like demon chains shivered and pulled taut, pulling Chu Mu's arms, legs, and skulls!

Chu Mu's body seemed to be elongated with the force, his bones already letting out creaks under the pressure!

This time, Chu Mu truly felt the strength of the power when it fell upon him.

However, Chu Mu had also withstood attacks stronger than him. At least, evil slaughter beast's pure power was much stronger than Chu Mu.

With the restriction and dragging, Chu Mu felt his bones were breaking. He gritted his teeth as he thought of an idea of breaking it.

From not too far away, Evil Good Queen Yu Suo stood arrogantly amongst the pseudo dominator ranks. Those levels of opponents didn't even arouse her interest. She simply controlled half, and told them to fight each other.

She glanced over at the restricted Chu Mu, and was wondering whether to help him or not.

In reality, if Chu Mu had died, the soul pact would break, and Yu Suo would regain her freedom. However, the Evil Good Queen still was in his soul pet space. If Chu Mu died, so would Evil Good Queen. Let alone, Yu Suo believed those useless idiots couldn't really kill him. To reduce Chu Mu's vigilance towards her, Yu Suo still decided to help him.

Yu Suo started an incantation and made petals to break Chu Mu's demon chains.

However, before her incarnation could finish, she noticed Chu Mu's devil flames fade away!

"He's not too dumb." Yu Suo mumbled.

Yu Suo said Chu Mu was smart, because Chu Mu was reverting to human form.

The power of pulling came from the restricted organism itself. If Chu Mu were in human status, without any offensive power, the chains couldn't possibly damage his incredibly sturdy body.
