Chapter 1161: Light Net, Imminent Great Catastrophe

Everyone looked at Chu Mu and their eyes would dart vigilantly occasionally through the ice room. They wanted to use their minds to communicate.

But Chu Mu shook his head and blinked at Ye Qingzi.

Ye Qingzi looked around her and said: “Chu Mu, you must’ve over thought it?”

“Just now Mo Xie indeed felt some strange movement. She should have felt wrong.” said Chu Mu.

”Mu Qingyi let out a slight sigh of relief and said: “You just scared me.”

As she spoke, someone suddenly walked in front outside the ice room.

The person who came was a woman. She walked down the ice crystal stairs and stood in front of everyone. After examining them, she said: “My father had me come to tell you that this district was sealed off. Apparently the Devil Souls fled to this area.”

The woman in front of them surprised Chu Mu a bit because she was the woman called Xiao Tan who was with Yong Chong earlier.

Chu Mu never expected her to be Xiao Leng’s daughter. It was good that he didn’t focus on her then, otherwise he may have accidentally killed her.

Bai Yu was also a bit surprised as he looked at her. But he maintained his silence.

After speaking, Xiao Tan turned around and left, leaving behind the four silent people.

“Mo Xie?” Chu Mu turned and looked at the small Mo Xie on his shoulder.

The small Mo Xie’s two silver eyes surveyed the ice room before she nodded at Chu Mu.

“It truly left.” Chu Mu let out a sigh of relief.

Mu Qingyi, Ye Qingzi and Bai Yu surveyed the surroundings, but still didn’t find anything. Then they asked: “What was that thing just now?”

“It should have been the Devil Soul Leader. It has left.” said Chu Mu.

“Devil Soul Leader? None of us could sense it, nor could we see it. Could the Devil Soul Leader be a dominator rank?” said Mu Qingyi.

Chu Mu nodded his head. The likelihood of this was very high.

Having remembered what Old Li said, dominator rank Devil Souls were equally famous as the five great undying legends. These creatures were extremely rare in this world and if one managed to obtain one of them, it would allow this person to arrogantly laugh and stand out.

“I wasn’t even able to see that fellow. If I was attacked, I wouldn’t even be able to retaliate.” Mu Qingyi was a bit worried.

That dominator rank Devil Soul definitely had extremely terrifying power. If it wasn’t for Mo Xie beside Chu Mu, nobody would have realized that the dominator rank Devil Soul was next to them just now.

“Chu Mu, do the people of the auction hall know of the dominator rank Devil Soul’s existence.” asked Ye Qingzi.

Ye Qingzi’s question reminded Chu Mu that General Peng had implied that the auction hall had experts. All of the Devil Souls they were watching over had escaped. But since they had been helped, they probably realized that an extremely strong Devil Soul had appeared.

An emperor rank Devil Soul had the value of nearly a middle class dominator xuan item. Thus, the value of a dominator rank Devil Soul, which was extremely rare, was even more self-evident.

“Let’s go out and look.” said Chu Mu.

.....

This city district had been completely shut off because the president had already learned that the dominator rank Devil Soul of this generation had appeared.

As for the fifty subordinates wearing blackish-brown clothing, they were dispersed throughout this district. They had placed deep-blue colored gems on the ground and were chanting incantations.

The deep-blue gems blossomed with pillars of light that flew to the horizon, reaching the clouds.

There were fifty hunters in blackish-brown clothing and fifty pillars of light. After the light reached the sky, countless paths of light began to split off and link together with the other 49 main pillars of light.

Each main pillar of light would split into 49 side-paths of light, covering the entire district in an interweaving net of light!

“What’s going on. Why is this place being sealed off!!” a dominator rank soul pet trainer yelled out in incomparable anger.

After speaking, this soul pet trainer attempted to charge at the sky with his beast type soul pet and break the net of light.

However, the moment the beast type dominator touched the net of light, countless lightning-light pillars of light appeared on the deep blue colored net of light, tightly binding the dominator rank creature!

Chu Mu also saw the beast type dominator easily suppressed from the Xiao Residence. The gorgeous net of light was indeed shocking and terrifying.

“It seems that the auction hall people know about the dominator rank Devil Soul’s existence, otherwise they wouldn’t have spent so much for this. This binding array costs an extremely hefty amount, but it will be difficult for that dominator rank Devil Soul to escape.” said Old Li.

“With how fast the auction hall people reacted, it seems like they knew that the Devil Souls would come.” said Mu Qingyi.

At this moment, Old Li’s eyes flashed and he seemed to have understood something. He said: “I think that it’s likely that the auction hall people knew about the dominator Devil soul from the beginning. They released information, enticing people to capture the emperor rank, monarch rank, and commander rank Devil Souls in order to gather them all into one city and then lure out the dominator rank Devil Soul.”

“Why couldn’t they have just gone out to surround the dominator Devil Soul? Why did they have to do this?” asked Chu Mu.

“In the wilderness, the dominator Devil Soul is impossible to catch. But if it is tricked into entering a human city and a trap is prepared, the chances of success will be much higher.” said Old Li.

“If the auction hall people are able to lay a trap when the dominator Devil Soul comes to save the other Devil Souls, why would they let it successfully save the other Devil Souls?” Mu Qingyi was a bit confused.

“I think that the auction hall was being crafty.” Ye Qingzi glanced at the little Devil Soul following beside her and continued, “They intentionally let the dominator rank Devil Soul save the other Devil Souls, causing them to become a burden for the dominator rank Devil Soul. This way, it will be even harder for the dominator rank Devil Soul to escape. Indeed, if the order to seal the city is given, even the smaller Devil Souls will have difficulty escaping.”

There was a net of light in the sky and a group of hunters on the ground engaging in a sweeping search. Most importantly, the size of net of light was continuously shrinking. This meant that the dominator Devil Souls' range of movement was growing increasingly small.

"These people are going from house to house in search." Old Li looked at the nearby house.

There was a hunter in that house. He was ostensibly searching the house and the people inside the house.

Many people inside were voicing discontent, but the auction hall's power was too large, especially since the fifty hunters were all dominator rank experts. Thus, these people could only swallow their anger.

"I don't know what kind of wrong medicine that fellow, Lin Li, ate. Not only did he seal this place, but he is also beginning a search." Xiao Leng slowly walked up and spoke very unhappily, "Each one of the blackish brown hunters is carrying a ring that can sense spectral creatures. Bai Yu, don't you have an emperor rank Devil Soul on you? Things will be a bit troublesome."

Chu Mu didn't think it would be a bit troublesome. Instead, it probably would be extremely troublesome.

The emperor rank Devil Soul in Bai Yu's hands was obtained after the bloody fight between Wen City and the devils. If it was discovered, Bai Yu's identity as the devil would likely be exposed. Yet, it just happened to be the case that the current auction hall people were engaging in a rigorous search. There probably would be no one who would escape their investigation. Moreover, Chu Mu believe that the auction hall president wouldn't skimp on his methods in order to obtain the dominator Devil Soul.

Chu Mu and Bai Yu had slaughtered a large group of Wen City dominator experts. Thus, their criminal charges were just as large. There had even appeared a number of warrants for arrests and bounties in various cities. If their identities were exposed, Wen City's experts would do everything to eliminate them.

"I just need to let the Devil Soul free, otherwise we won't be able to explain ourselves." said Bai Yu. 强抢。"

"Free it... that would just be letting the auction hall people reap a benefit for free. This is equivalent to a middle class dominator." Xiao Leng was stunned before continuing, "Don't worry, just say that you captured it. Worst comes to worst, you can just auction it off in their auction. I don't think he would dare steal it from you."

Bai Yu looked at Xiao Leng. He hesitated before ultimately using a mental voice to tell Xiao Leng about the true origins of this emperor rank Devil Soul.

After listening, Xiao Leng was stunned and looked with disbelief at Bai Yu!

Until now, Xiao Leng had believed that Bai Yu had found the emperor Devil Soul somewhere else in the mountain range. He never expected that the emperor Devil Soul in Bai Yu's hands was the one from the fight between the devils and Wen City's experts. Moreover, the silver devil person that had caused a huge stir was Bai Yu!

Bai Yu gave a rough account of how he had transformed into a devil and how Bai Jinrou had lost her soul awakening him. After Xiao Leng finished listening, he couldn't help but be moved. It was very hard to imagine what Bai Yu experienced after Xiao Leng left New Moon Land.

"Then... then we're in big trouble now." Xiao Leng came back to his senses and quickly realized those hunters had arrived at his place.

Bai Yu nodded his head. The only current method was to release the emperor rank Devil Soul. Otherwise, he truly would be unable to explain.

“Zi zi zi zi zi~~~~~”

Suddenly, countless lightning-like lights appeared on the net of light, releasing burning sounds.

Looking up, it was possible to see a human-shaped outline formed by the flickering lightning. The outline was slender and graceful, but the body was completely transparent. If it wasn't for the lightning forming an outline, nobody would have noticed a creature here!

“It's appeared! President, that Devil Soul has appeared!!!”

“It's over there! It wants to break out of the net of light to escape!” the hunters all let out cries.

When Chu Mu and the others finally saw the rough shape of that dominator rank Devil Soul, they were all shocked.

“Just... just now it was that thing that was next to us?” Bai Yu looked at it, entranced.

.....

On a tall building outside the city district, Lin Li rigidly stared at the place of lightning arcs.

I must obtain it. I must!!!” Lin Li looked at the outline in the nearby sky and his eyes were full of fervor.

In order to obtain this dominator rank Devil Soul, Lin Li had made extremely ample preparations and spent a huge amount of xuan item resources to create such a large net of light. Therefore, no matter what, he had to obtain this dominator Devil Soul!

Chapter 1162: Angry devil soul, Mental Tsunami

The dark brown hunters were like a group of trained panthers, instantly leaping into the air. All of their soul pets were different, but from their coordination, they seemed to capture soul pets together often.

Staring into the sky, an obese body slowly appeared by president Li Ling’s side. He patted Lin Li’s shoulder and said, “How’s my group of people? What does President Li think of their chances of escaping?”

This massive Wan Meng already smiled wide, her eyes staring directly at the inescapable city area.

“Hehe, forcing the devil soul to appear so early, Boss Wan’s subordinates truly are elite.” Lin Li also started laughing.

Able to force the dominator rank devil soul out meant they were very close to success. This devil soul was also clearly captured by the light net. Its chances of escaping were even smaller.

One had to know that the light net was received from Divine Sect. It was designed specially for Divine Sect to capture powerful organisms. If not for Wan Meng and Divine Sect’s tight connections, president lin couldn't find any effective way to capture this dominator rank devil soul.

Of course, the fifty dark brown hunters were also a group of elites from Divine Sect. The dominator rank devil soul was something Lin Li and Wan Meng didn't dare take for themselves. However, if they found it, captured it, and gave it to divine sect, their futures would definitely improve by leaps and bounds. To these two people in the merchant business, it was too important. Especially thinking about how realm masters and even border commanders would need to respect them, their eyes grew even brighter.

A dominator rank devil soul's appearance indeed could cause even the calmest person to feel a boiling passion.

The fifty dark brown hunters were all pseudo dominator rank experts. Their leader was clearly the strongest, riding a low class dominator rank towards where the dominator rank devil soul was captured.

His soul pet was a dream demon. This leader was very smart, he knew that casting a dream realm technique in front of the dominator rank devil soul was useless. So, he instead kept casting mental disruption techniques to give the dominator rank devil soul pressure.

The devil soul was captured by the light net and, no matter how much it struggled, the vine like light arcs stayed on its body.

"Set up formation!" The leader saw that all the hunters gathered and gave a command.

The fifty dark brown hunters opened up into a strange formation. All their soul pets were demons, meaning they all knew mental techniques.

The dark brown shadows in the air became mere dots. The soul pets underneath them let out sharp screams, sending sound waves around that threatened to shatter peoples' eardrums.

The powerful mental blows came down from the skies, and to Chu Mu. Chu Mu looked up and looked utterly confused.

“That’s a diagram. By using many mental soul pets, it creates a massive mental diagram to reach the effects of controlling the enemy. This is a common strategy that divine sect uses to seal powerful organisms. Fifty dominator rank demons’ mental diagram is very powerful. Even middle class dominator ranks can’t withstand it. This devil soul leader is gonna have a hard time.” Old Li sighed.

Just as Old Li spoke, an even stronger mental wave came down from the skies. Looking up, people could even see major spatial ripples coming towards them, the twists in space depicting a massive yet mysterious demon diagram!

The demon diagram constantly leaked out massive waves of mental energy towards the rest of the city area.

The buildings, streets, gardens, and houses were all unharmed by this mental wave, but waves upon waves of people fell to the ground.

Even spirit dominator ranks couldn’t withstand such a degree of mental waves. Yet, these waves were only the excess energy leaking out of the mental demon diagram. If one was at the center, even dominator rank organisms’ minds would instantly shatter.

Chu Mu looked at this shocking mental diagram, and felt a new understanding of how powerful divine sect actually was dawn upon him.

“Wuwuwu!!!!!!!!!!”

In the sky, the completely transparent dominator rank devil soul let out a painful cry nearly identical to a shrill cry of a woman!

The dominator rank devil soul slowly showed its half transparent ghost body. Its eyes were hollow, angry, and pained as they stared at a certain direction.

“Ning!!!!”

Suddenly, dominator rank devil soul let out a bleak cry filled with utmost resentment!

With this call, a few dark brown hunters fell from the sky without reason, landing like sacks into the streets and courtyard.

“Continue!!” The leader’s eyes blinked but remained decisive. He knew clearly how powerful this dominator rank devil soul was. If they relaxed even a little moment, more people will definitely fall from the skies.

Furthermore, they all knew that the people who fell died immediately from their minds getting crushed by the dominator rank devil soul!

The cry was getting louder and louder. The entire city seemed to be able to hear it. Of the people walking along the city streets, some pedestrians looked up and gazed in that direction, their eyes changing strangely as they showed worry.

In fact, devil souls sometimes darted out of these pedestrians. These devil souls went angrily towards the area covered in the light net. However, before they could fly out very far, some people waiting in the dark had already caught them.

.....

“Quick, its mind is almost completely subdued by us.” Li Ling’s eyes turned even more zealous. He could feel the dominator rank devil soul getting weaker and weaker. It could no longer take the demon diagram’s torture.

“Don’t hurry it, wait a bit longer!” Wan Meng smiled his trademark oily smile. Though he was much better off than president Ling, his waving fingers betrayed him. Clearly, he was extremely excited too!

If he gave this dominator rank devil soul to divine sect, Wan Meng could definitely get another position in divine sect.

With this title, he was sure that the famous beauty of Cloud Realm, Li Xueheng, would be within his grasp. If she dared to act haughty in front of him again, he would just use the power he got in divine sect to exile her to a useless realm like New Moon Ground, Evil Seaside, or Savage Lands. Anyone woman with a brain would not want to get their entire family exiled to some random realm because of her.

The dominator rank devil soul was clearly getting weaker and weaker. The dark brown hunter’s mental demon diagram energy was also dropping. However, with the leader’s judgement, he was certain this devil soul couldn’t sustain until the demon diagram ran out of power.

The leader clearly wasn't as fervent as the two merchants. He calmly commanded all his members to remain in formation and to not make any mistakes.

"Leader, there's something abnormal on the east side." Another member quickly said.

The leader paused and glanced over to suddenly find a ghost flying swiftly towards them and into the demon diagram!

It was an emperor rank devil soul. Facing the mental waves that were pushing outwards, this emperor rank devil soul forced its way in and latched onto a dark brown hunter.

The hunter's body instantly turned grey, as if his soul was stolen and fell from the sky.

Quickly after, the devil soul flew towards another hunter, wanting to steal another soul. However, the emperor rank devil soul was in the end emperor rank. Without the element of surprise, it couldn't actually kill a dominator rank.

The dark brown hunter's reaction was very fast. Quickly leaving the demon diagram, he immediately commanded his demon to attack.

The demon devil soul was already deep in the demon diagram and light net. It had nowhere to dodge, and was hit by the demon, nearly disintegrating on the spot!

The powerful demon diagram's mental destruction wasn't something that an emperor rank devil soul could withstand. With any more attacks, the devil souls couldn't possibly live.....

“Careful of the formation!! Don’t mess it up!!!” The leader’s face changed and quickly yelled.

At this moment, the mentally tortured dominator rank devil soul’s tired eyes shot out with a glow of pure pain, anger, and hatred!

“Ning!!!!!!!”

“Ning!!!!!!!!!!!!!!”

Seeing his fellow species member die a martyr for it, the dominator rank devil soul let out two screams!

The two screams truly passed through the entire sixth rank realm city. Millions of people inside and outside the city could hear it. This emotion could pierce to the heart of one’s soul, causing everyone to feel shivers from the pure sadness within it!

A powerful mental tsunami rolled through the sky, this time solely caused by the dominator rank devil soul!

The ripples flew out from the devil soul dominator rank towards the entire demon diagram. The invisible energy seemed to send the rest of the world into silence as if the moment before destruction.

“Pu~~~~~”

“Pu~~~~~”

“Pu~~~~~”

Suddenly, blood mist flew out into the air. All the dark brown hunters spewed out blood!

What was scarier was that, every one of their demons started oozing brains and blood from every orifice on their head!

The brown shadows and their soul pets all fell from the skies one after another, landing with resounding thumps.

Not far away, Chu Mu could feel that all of them were already corpses before they even hit the ground!

About twenty or so hunters became corpses in the skies, and became mush when they landed!

Killing a whole array of demons instantly, this wasn't something that Wan Meng or Li Ling wanted to see at all. They stared in shock at the terrifying dominator rank, as its half transparent body slowly disappeared.....

“It.... it's escaping, the light net is still there, it can't truly run away, send someone after it!!” Wan Meng yelled out!!

Chapter 1163: Spectral Princess (1)

The spectral state devil soul disappeared!

The terrifying mental tsunami flew through and twenty or so pseudo dominator ranks' minds disappeared into smithereens, leaving only twenty corpses behind. The dominator ranks who lived in this area were all in shock!

The remaining twenty or so dark brown hunters no longer had the courage to continue the search. They all stood in place, watching their companions spit blood as they crumpled to the ground. The feeling of nearly dying wasn't so easy to get rid of!

Lin Li and Wan Meng's angry roars came from far away. They summoned the dark brown hunters to find the dominator rank devil soul.

"Listen, capturing the devil soul and cooperating with you is our mission, but don't act like you're our master and yell!" The leader looked coldly at the two merchants and said with his mental voice.

The leader's current mood was at a low. After all, the dead twenty or so dark brown hunters were all trained by him. Just seeing them die like that was like having his heart cut open. Yet, at this time, the two greedy merchants started yelling with a sharp voice!

Wan Meng and Lin Li's face turned darker. Their tone didn't dare to command again.

However, Wan Meng's reactions were much faster. He quickly spoke and said, "Leader Yan, first call your subordinates down and we can go get my mental medicine....."

“No need, they’re all dead. The light net is still there, and the devil soul has fought its dying breath while weak. Its situation was very poor. We will try to find it quickly.” Leader Yan said.

“Then thank you, thank you.” Wan Meng said in poor disguise.

Leader Yan knew they were being extremely fake, but the Tasks Divine Sect gave them had to be completed.

“The devil soul was heavily wounded and couldn't have escaped far, continue the search, don’t let go of a single hiding place!” Leader Yan said coldly to his subordinates.

“Leader, that.....then how about them?” A young member said with lingering fear as he looked at a corpse nearby.

“Without anyone finishing the mission, no one can have time to mourn!” Leader Yan said.

The others didn’t dare to speak and swiftly spread out, starting to use their rings to slowly search the premise.

.....

Chu Mu stood in place and stared at where the emperor rank devil soul shattered.

The emperor rank devil soul was the one in Bai Yu's soul capture space. He already released this devil soul, but no one expected it to dash so recklessly into the mental demon diagram and get crushed. This was indeed a heart wrenching and shocking scene.....

“Ning~~~~~”

Ye Qingzi's little devil soul let out a little girl-like cry. The big devil soul was its brother. To protect it, the big devil soul already used itself as bait to let little devil soul escape.

Yet this time, the big devil soul made another sacrifice, and ultimately didn't even have a corpse before disappearing into thin air.

Ye Qingzi wanted to hug the little devil soul, but Ye Qingzi couldn't touch it, so she could only crouch beside it and speak some comforting words.

Little devil soul's crying caused them all to feel slightly bad. No matter what, they had played a part in this tragedy.

“Wuwuwuwu~~~~~”

At this time, the little Mo Xie put her mouth near Chu Mu's ear and let out a quiet call, watching Xiao Residence.

Chu Mu paused and said, “You mean the devil soul escaped into the Xiao Residence?”

Bai Yu, Mu Qingyi Ye Qingzi, and the rest all were shocked. At this time, little Mo Xie stepped off of Chu Mu's shoulder and waved its nine fuzzy tails into Xiao Residence, as if to lead the way.

Everyone quickly followed up.

Before, it was Mo Xie that detected the devil soul was near them. Mo Xie shouldn't be wrong.

Her silver noble figure darted through the complicated walkways and quickly reached a white underground structure.

The four of them that followed showed even more shock because little Mo Xie brought them right to the ice room!

“Wuwuwu~~~”

Little Mo Xie turned around, and called once, before easily opening the thick gate to lead the path down the stairs and into the cold ice chamber.

Chu Mu and the rest all followed, quickly running into the ice chamber.

They didn't expect that the devil soul hid here. There were many places in the city probably more suitable to hide in.

The four of them entered the ice chamber. Other than ice crystals and cold air, there didn't seem to be much else, nor was there any sign of the dominator rank Devil Soul.

However, by little Mo Xie's behavior, they knew the dominator rank devil soul was hiding in there. Her sharp eyes were sweeping the surroundings keenly.

No one spoke as all their eyes gathered onto little Mo Xie. Little Mo Xie would walk around to a few different positions, especially places where the ice crystal showed reflections.

After a while, little Mo Xie didn't seem to find anything and could only jump back onto Chu Mu's shoulder, letting out a dissatisfied grunt.

Chu Mu rubbed her ears and said to the others, "Mo Xie thinks it's in the ice room but can't find where it is."

Chu Mu finished speaking and waited for everyone's opinions. However, to his surprise, none of the other three were looking at him, instead staring through him to the other side in shock!

Chu Mu turned around and the first thing that came into his vision was a silently sleeping beauty, but there was no sign of the devil soul.

Chu Mu looked at the others in confusion and asked, "What's wrong?"

"Do..... do you not see Princess Jinrou, she's....." Ye Qingzi pointed at her and said with a very low voice.

Chu Mu again turned around to gaze at Princess Jinrou.

Princess Jinrou was still laying there motionless, her bleakly beautiful body always causing a strange pang of heartache in Chu Mu.

Her hands were folded over her chest, the robe outlining her elegant figure. Her white neck was like that of a pure swan.....

Her hair seems to be longer now. Chu Mu remembered that the last time he saw her, her hair was down to her back, yet now it wasted her thighs.

All of this wasn't much different from what Chu Mu saw previously. However, what caused him to be speechless was that her black hair seemed to be changing, becoming half-transparent white threads!

The whiteness floated upwards, causing the already beautiful Princess Jinrou to look like a true angel born from the snow!

“This....this.....” Chu Mu stared.

This hair was very similar to a devil soul's hair. Why was Princess Jinrou showing signs of the devil soul, can it be.....

None of the four could peel their eyes away from Princess Jinrou because they finally knew where the devil soul was hiding!

“Old Li.... Old Li.... what’s happening?” Chu Mu said to the late arriver Old Li.

Old Li stared wide-eyed, also staring in disbelief at Princess Jinrou.

The hairs remained floating. Old Li looked at the scene for a while before finally saying something, “The devil soul is currently adhered to the little princess.”

Anyone could tell that the dominator rank devil soul was attached to the Princess Jinrou.

The real question was, why did the heavily wounded dominator rank devil soul adhere to Princess Jinrou’s body? Princess Jinrou wasn’t much different from the dead right now.

As they were all confused, the blue light blossomed and caused the place to look dreamy.

This glow was all too familiar to any soul pet trainer; it was the glow of a soul pact!

The glow was contained within little princess’s surroundings and slowly made a special symbol that fell onto the little princess’s forehead. Chu Mu and the others knew very well that this mark would sink through her skin and finally imprint itself on their soul. It was the mark of an undying bond between soul pet trainer and soul pet!!

“Soul pact, this dominator rank devil soul is signing a soul pact with the little princess!” Seeing this, Old Li couldn’t help but yelp!!

The heavily wounded dominator rank devil soul and the nearly dead little princess signing a pact, this scene caused them all to be too shocked to speak!

The ice room was so quiet they could hear each other's breathing. They all stared unmovingly at Princess Jinrou.

When the soul imprint finally fell on Princess Jinrou's body, the glow around her disappeared and this was when everyone noticed Princess Jinrou's eyelashes quiver.

Was she opening her eyes??

This caused all their hearts to lift in suspense. Bai Yu especially was affected. He could no longer control his emotions because he could feel that his daughter was being awakened!

Her eyelashes quivered and her eyes slowly opened. However, for some unknown reason, when Princess Jinrou opened her eyes, they could simultaneously see her eyes closed.

This was when she sat upright!

Princess Jinrou slowly propped her soft body up. However, what shocked Bai Yu, Chu Mu, and all the others was they could see through her half-transparent body that Princess Jinrou was still laying on the ice bed.

Specter!!

The one that propped itself up wasn't the revived Princess Jinrou but a specter that looked just like her!!

Chapter 1164: Spectral Princess (2)

The spectral princess' eyes were extremely bright, and with traces of confusion and puzzlement.

Although she was asleep, she was conscious of the fact that time was flowing. She also knew that it was presently many years since she had died.

She recognized Chu Mu and Ye Qingzi as well as her father, Bai Yu, who she hadn't managed to see last time.

Afterwards, she turned, and glanced at the body lying on the icy bed.

Obviously, she never expected that she would appear in a spectral form, and looked in shock after herself. It was a while before she turned her eyes away.

Her beautiful long hair was fluttering behind her and her translucent body was faintly shining in a spectral blue illusory light. The four people around her were all staring at her.

It was undeniable that Princess Jinrou possessed incomparable beauty. Everything about her would captivate anyone. Just as Ye Wansheng had said earlier, one glance and a person would be unable to forget. Her beauty was soft, without a trace of sharpness. She gave people a pleasant feeling. Even in comparison to Yu Suo, who was as beautiful as a demon, she was not the least bit inferior.

Moreover, in the spectral form, she was even more moving. She was exactly like a fairy that lived in dreams appeared in reality.

She was still at a loss. She extended her hand. Through her translucent and white hand, she could see the floor.

"I... I'm..." Princess Jinrou didn't know what had happened to herself, and she was clearly a bit scared and flustered.

"Jinrou..." Bai Yu couldn't help but yell out with rapture.

Princess Jinrou turned to look at Bai Yu. She was actually a bit unfamiliar with her father's appearance, but during her sleep, she could no longer count how many times her father had sighed and lonely muttered to himself.

"My daughter. I.... I am your father. I..." Bai Yu never expected that his daughter would awaken, and he was so emotional right now that he was somewhat speechless. He hadn't thought of what to say to her.

The Jinrou of Bai Yu's memories had been a lively and cute child. She would always want him to piggyback her as they soared through the skies on a wing type soul pet. Her laughter from back then was pleasant music to his ears.

But a single instance of being sealed in ice and 20 years had passed by in the blink of an eye. His daughter ended up turning out into an incomparable beauty. He truly had a lot he wanted to say, but was so choked up he was only able to walk forth and stretch out his arms to hug her.

Bai Yu tried to hug her, but his arms didn't actually touch Princess Jinrou's body. Instead, it was like his arms were passing through an image, ultimately turning him into hugging himself. Princess Jinrou just stood there and passed straight through Bai Yu's body...

Bai Yu didn't manage to touch anything. The feeling was exactly the same as his nightmares. Each time he wanted to hug her, she would mysteriously disappear. He could see her, but not touch her. Immediately after awakening, he would feel a wave of sadness in his heart.

But, different from his dreams, this time, Jinrou didn't disappear. She just stayed in her spectral form and hovered in place. Bai Yu didn't try and hug her again. Instead, he just stretched out his arm towards Princess Jinrou.

Princess Jinrou didn't know what had happened to her body and extended her hand to touch Bai Yu's hand.

However, the father and daughter were still unable to touch as Princess Jinrou's hand disappeared in Bai Yu's hand...

"What's going on! What is going on!!" painfully muttered Bai Yu. From a state of rapture to frustration was the most painful.

"I... what happened to me?" Princess Jinrou looked at herself. She could see her father, but not touch him. In fact, she found that she couldn't touch any substantive object.

"I know!" at this moment, Old Li suddenly yet out a strange yelp.

Everyone looked at Old Li, including the spectral form Princess Jinrou who was hovering in the air. She wanted to know what happened to her.

“It’s a spiritual revival! The emperor rank Devil Spirit was ultimately incapable of reviving the young princess’ soul, since her soul was near death. However, the dominator rank Devil Soul was able to imitate a copy of the soul, replacing the entirety of the young princess’ soul!” said Old Li.

”Chu Mu had no clue what Old Li meant by that and quickly asked: “Then this soul is...”

“What we call the soul refers to what links and sustains a creature’s memories, thoughts and ideas. Its existence must attach itself to a substance perfectly link in harmony. The young princess’ body is undamaged, and if her soul was able to awaken, she probably would have been able to completely revive.”

“However, her soul ended up leaving her body, meaning that she can only be considered a specter. This is a sign that appears after death. After that dominator rank Devil Soul signed a soul pact with the young princess, it molded a spectral life form of the young princess. The only difference between the soul and the specter is that the soul refers to a living being that it is in connection with; it is invisible. However, a specter is the manifestation of the soul after a living being’s death. It represents death.”

When Old Li would describe things, he would have many explanations. However, Chu Mu roughly understood what he meant. Currently, Princess Jinrou had transformed into a spectral princess!

“So you’re saying that my daughter is still not alive.” Bai Yu looked at the spectral form Princess Jinrou and was clearly very depressed.

“She isn’t. Revival isn’t that easy, especially when the Devil Soul innately is a specter itself. They cannot possess revival abilities. Nonetheless, there’s no reason to be so depressed. The young

princess is currently at most a free soul. If she is able to find Limbo, as the Evil Good Queen said, and with a soul and host body, revival will be even easier. Indeed, all Limbo has to do is assimilate the body and the specter which contains all of the soul's information. Then, the young princess will be completely revived. This is much better than not having a soul. The genuine meaning behind revival is defined by having a soul; otherwise, the only thing being revived would be a thoughtless body." said Old Li.

Princess Jinrou was also listening. She had indeed retained her memories and thoughts. Only, she didn't expect that everyone was searching for various methods of revival for her.

"What on earth happened. Why did I turn into a specter? Also, I feel that a soul pet has signed a soul pact with me." said Princess Jinrou.

Princess Jinrou was looking at Chu Mu. In reality, the person she was most familiar with here was Chu Mu, since she hadn't actually seen her father before.

TL: don't know if author is referring to not remembering her father or not seeing him when she revived him because he literally wrote about their interactions earlier in this chapter...

"That is a dominator rank Devil Soul..." promptly, Chu Mu gave a rough account of what had happened.

Princess Jinrou came to an understanding very quickly and a trace of distress flickered in her eyes. She softly muttered: "No wonder- I can feel its grieving."

"How... how is that Devil Soul?" hastily asked Old Li.

Princess Jinrou shook her head and said: “It seems to be very wounded, and is deep asleep in my soul pet space. When I woke up, it used a very weak voice to tell me to take it and flee this city.”

“This... this is slightly problematic. Currently, the entire district is surrounded and the blackish-brown hunters are searching each house one by one. I’m not sure if they will be able to find soul pets that have already signed a soul pact.” said Old Li.

As Old Li spoke, a loud order-like voice came from outside the ice room.

“Everyone in the Xiao residence, listen up. It doesn’t matter what your status is. Even if you’re a servant that feeds soul pets, everyone must come to the front courtyard and undergo our inspection!”

The voice reached the ice room and everyone inside creased their brows. They never expected the blackish brown hunters would arrive in the Xiao residence so soon. The princess’ current form was quite troublesome.

.....

.....

Outside the blue net of light, a man was standing there, looking with imposing eyes at Wan Meng and Lin Li inside the net of light.

This man was tall and powerful, giving people an oppressive feeling. Behind him was a robust and mighty Rock Wing Dragon which was even more domineering. With it standing on the main street,

the street seemed abnormally crowded. The tall buildings only managed to reach its stomach and all it had to do was open its wings and the entire district would probably be razed.

“Wu Zhen... Border Commander Wu Zhen... why... why did you come?” Lin Li looked at this unstoppable man and let out a dry laugh. He seemed slightly panicked.

The news of the dominator rank Devil Soul still hadn't been leaked yet by Lin Li. He was most afraid of Wu Zhen interfering.

However, what he was afraid of had come to fruition. Wu Zhen had appeared!

“Such a huge ruckus, why would I not come? Since the two of you implemented an inescapable net in the city under my administration, why didn't either of you come say hi to me?” Wu Zhen cracked a toothy smile. His smile looked like it wasn't filled with good intent.

“President Lin was afraid of the Devil Souls escaping and dealing more damage to Wen City. Thus, he didn't manage to inform you before taking action. Border Commander Wu Zhen won't blame him, right?” laughed Wan Meng.

“Speaking of which, I happened to just hear a voice, and this voice was very abnormal.” Wu Zhen stroked his beard and narrowed his eyes to a slit.

“This...” President Lin's expression froze. He was wondering to himself whether this fellow knew that the dominator rank Devil Soul had appeared.

Wan Meng reacted very quickly and said: “Just now, we accidentally killed an emperor rank Devil Soul and that Devil Soul let out a miserable cry. Ai, an emperor rank Devil Soul... how unfortunate... unfortunate...”

“Ok, Fat Wan, don’t bother acting in front of me. I want a share of that dominator rank Devil Soul” harrumphed Border Commander Wu Zhen.

Wan Meng and Lin Li’s expressions turned somewhat ashen, as they looked at the overbearing Border Commander Wu Zhen...

This was Wu Zhen’s territory and if they fell out of favor here, he would only have to give one order and everyone here would be annihilated. Even if they relied on Divine Sect’s banner, it would probably be to no avail.

“Fine, but you must help us capture that Devil Soul. Also, you can’t let a fourth person know!” Wan Meng grit his teeth. Having another person to split the profits with was still better than not reaping any profits. Wan Meng was a smart businessman.

Chapter 1165: Fleeing the City

“Report!”

“Speak.”

“The female guest in the Xiao residence has an emperor rank Devil Soul child pet. She has already signed a soul pact with it.” said the blackish-brown hunter.

“Mhm, Xiao Leng surprisingly had a secret stash. Let’s go and look.” said Wan Meng.

Xiao Leng would currently be considered a businessman as well, so Wan Meng naturally recognized him.

Wu Zhen also walked with them to the Xiao residence. However, his enormous Rock Wing Dragon stayed where it was.

.....

In the front hall, Xiao Leng stood at the center, staring somewhat unsightly at the three people walking towards him.

Xiao Leng was extremely familiar with Wen City's Auction Hall President, Lin Li. Their relation couldn't be considered bad, but they also couldn't be called friends.

The fat Wan Meng was known throughout Cloud Realm and was Cloud Realm's Chamber of Commerce Vice President. Due to his past with Divine Sect, his authority was even higher than the Chamber's President. He was a crafty, sinister, fickle and extremely hypocritical fellow. He was extremely hard to deal with.

As for the person beside Wan Meng, that was who truly gave Xiao Leng a headache.

Border Commander Wu Zhen served the borders and was not restricted by any realm city lord. He had an enormous army filled with experts and most of the army was stationed in the city or in a stronghold.

Wu Zhen's army was stationed in Yan Tong Stronghold, however, Wu Zhen spent most of his time in Wen City. He was one of the most difficult people to deal with in Cloud Realm.

When this great border suppression commander appeared in his residence, it gave Xiao Leng quite a bit of pressure.

"Xiao Leng, one of my subordinates told me that you had an emperor rank Devil Soul here. I wonder who that would be?" asked Wan Meng.

"President Wan, that Devil Soul was obtained by them when they were training in Guang Tong Bewildering World. President Wan won't care about this, right?" said Xiao Leng.

"Of course we won't care about this. However, can I see this distinguished female guest?" said Lin Li.

Xiao Leng revealed an unsightly expression, and looked at Ye Qingzi who was sitting to the side.

Ye Qingzi chanted an incantation, summoning the little Devil Soul in the hall.

After the little Devil Soul appeared, the three of them revealed astonished expressions. They indeed never expected that the beautiful and young woman sitting to the side was the master of the little Devil Soul.

"It is my soul pet. Do you have any problems?" Ye Qingzi looked at the three of them, and calmly spoke.

“We don’t have any problems. We only want to know about the origins of this Devil Soul. You also know that our Auction Hall lost a group of Devil Souls that scattered through this city. We need to find them.” said President Lin.

“Was one of the Devil Souls you lost a Devil Soul child pet?” retorted Ye Qingzi.

“This... no... but according to what we know, the Devil Soul we are looking for wants to help the other emperor rank Devil Souls escape this city. I believe that it will appear here, and that it has a great connection with your emperor rank Devil Soul.” continued Lin Li.

“That’s your matter. If there’s nothing else, I will leave first.” said Ye Qingzi.

Ye Qingzi wasn’t waiting for them to agree. She brushed past the three of them and walked towards the Xiao Residence.

The three of them continued to follow Ye Qingzi with their eyes. From their expressions, slivers of jealousy could be seen.

The value of an emperor rank Devil Soul was nearly a middle class dominator and this woman was so young. Moreover, it was a child Devil Soul she had. How could they not be jealous?

“Xiao Leng, we’re going to continue looking. I hope you won’t make it hard for us.” said Lin Li.

“Do as you wish, but do not agitate my family.”

.....

Ye Qingzi left the front hall and after she saw that no one was following, she immediately returned to the ice room.

When she entered the ice room, Chu Mu, Bai Yu, Mu Qingyi and the Spectral Princess who was hovering around the ground were there.

“They are able to detect Devil Souls that have already signed a soul pact. They are currently going to continue searching the others in the Xiao residence. It will probably be hard for the princess to hide here.” said Ye Qingzi.

Since the dominator Devil soul had signed a soul pact with Princess Jinrou and had revived her in a spectral form that carried her memories and thoughts, they obviously could not let the dominator be stolen like this.

Initially it was only Lin Li and Wan Meng. Chu Mu and Bai Yu probably wouldn’t have much difficulty dealing with them. However, with the appearance of Border Commander Wu Zhen, this made the situation more troublesome. As a Border Commander, he was definitely very strong and Chu Mu didn’t have complete confidence in being able to beat him.

“What should we do now?” Mu Qingyi looked at Chu Mu.

Chu Mu didn’t have a good solution. He just looked at Ye Qingzi who pursed her lips and was still thinking.

“I’ve made it troublesome for everyone...” faintly said Princess Jinrou.

She didn’t realize that her awakening would bring everyone this much trouble and she was a bit ashamed.

“Hei, what are you guys doing here.... Waah, what on earth!!” suddenly, a familiar voice rang in.

“This... this...” the other voice was extremely astonished.

Chu Mu glanced at the two people who walked in and his eyes lit up.

"Weren't the two of you capturing Devil Souls outside the net of light? How did you guys enter?" immediately asked Mu Qingyi.

The two people were Ye Wansheng and Prince Chao. When they entered the ice room, they saw the spectral form Princess Jinrou and naturally were in slight disbelief.

“I know a bit about arrays; could you guys have forgotten? Eh... can someone tell me what happened here?” Ye Wansheng pointed to Princess Jinrou as he spoke.

“We’ll talk about this later. Right now we’re in trouble.” said Chu Mu.

Chu Mu didn’t continue chatting with Ye Wansheng. When this fellow spoke, he was like Old Li in that he would never stop. Of course, Ye Wansheng being able to pass through the net of light restriction made Chu Mu surprised, and was a piece of good news for everyone.

The most difficult problem for everyone was the net of light, but if they broke through the net of light, they would have a lot of area to move around in. The blackish brown hunters would be able to inspect the district's buildings one at a time, but they wouldn't be able to inspect every building in the city. Wen City was extremely immense and from the speed at which they could inspect, it would take them over a year to finish inspecting the city.

“Qingzi, Prince Chao, you guys stay in the Xiao residence. Wait for things to calm down first before we reconvene. Ye Wansheng, Qingyi, you guys come with me and Bai Yu to escape with the young princess out of the net of light.” said Chu Mu.

The blackish-brown hunters had already seen Ye Qingzi and if she suddenly disappeared and was caught breaking through the net, it would bring Xiao Leng quite a bit of trouble. Fortunately, Xiao Leng had told them that there was a secret passage in the ice room that would lead them to a nearby garden. They would first leave the Xiao residence so as to not implicate the Xiao family.

Bai Yu picked up Princess Jinrou's body and followed Chu Mu, Mu Qingyi and Ye Wansheng down the passage.

The Spectral Princess followed beside her father. Her beautiful eyes would occasionally examine her pale-faced self while occasionally sneaking glances at Bai Yu.

When Ye Qingzi confirmed that their rings were able to detect Devil Souls that had already been made soul pacts with, Chu Mu and the others had planned to leave through the underground passage so as to not start a fight in Xiao Leng's residence.

However, before they were able to find a way to break out of the net of light, they would be forced to move around the district after leaving the Xiao residence. However, they would eventually be found.

Fortunately, Ye Wansheng understood how to break arrays, and the net of light was no longer as threatening.

.....

“Xiao Leng, what are you using the ice room for?” Wu Zhen was full of interest as he looked at the ice room.

“I’ve put a few xuan items that require ice to be stored there. This prevents xuan energy from leaking,” responded Xiao Leng.

Wan Meng and Lin Li both understood this. An ice room wasn’t strange. Their ice rooms were much more luxurious than this.

“Then why is there a secret passage from this ice room?” continued asking Wu Zhen.

Xiao Leng wasn’t panicked and he said: “Everyone has a last resort. I’m sure that the few of you have secret passages from certain places in your residence. This is to avert the unexpected. The secret passage leads to a small garden. You can send people to go make sure.”

“This secret passage is a headache for us. If there was a Devil Soul hidden there,

and we sent people inside to check, it could use the secret passage to reach another place. This will waste much of our time.” said Lin Li.

“Whatever, the net of light is shrinking and eventually we’ll capture the Devil Soul.” said Wan Meng.

The net of light’s restriction range included the underground. It was unrealistic to escape the net of light from a secret passage.

.....

By the time the blackish-brown hunters had inspected the ice room, including the secret passage, Chu Mu and the others had already passed through the patrol of a few blackish-brown hunters and arrived at the edge of the net of light.

Wan Meng ostensibly had a lot of confidence in the net of light. Thus, he didn’t send anyone to guard the edges of the net of light. This made it easier for Ye Wansheng to break the array.

“This array is actually very strong. If the area wasn’t so large, I really wouldn’t have the confidence to break it. Of course, even if I manage to break it, it will only be a small gap.” said Ye Wansheng.

As he spoke, Ye Wansheng placed his hand on the net of light. Chu Mu found that this fellow had clearly touched the net of light, but hadn’t been bound by the light. This was different from when the Devil Soul had touched the net of light earlier.

Old Li was like a teacher who cleared up confusion. He knew that Chu Mu was confused and explained: “Not every part of an array has energy. The areas without energy are called eyes of the array and they normally appear where energy streams meet. They are similar to the peaceful area in the eye of a storm. The first thing to do when breaking an array is to find the eyes of the array.

“You old raccoon. You understand quite a bit, eh? However, I have a piece of bad news for everyone.” said Ye Wansheng.

“You can’t break it?” Bai Yu creased his brows.

“No. Breaking the array relies on a bit of luck, especially an extremely difficult array like this. Entering these types of array is easier than leaving. The area I pressed just now was the eye of the array. However, the moment I break open the eye of the array, it will set off a small wave. This small wave is similar to a magical signal that will let the person who set up the array that a gap has appeared.”

“In other words, we can break through this net of light, but our locations will be immediately exposed. It’s hard to say whether we’ll be able to flee afterwards.”

Chapter 1166: Cloud Realm Protector, Rock Wing Dragon

“Of course, ripping open the diagram will take some time. I’m reasonably confident I can break through it before they get here. However, that time won’t be far from now.” Ye Wansheng said.

Ye Wansheng didn't immediately start, and instead looked at the others with an asking gaze.

Chu Mu instead glanced over at Mo Xie. Mo Xie shook her head, and gave out a helpless yelp.

Mo Xie’s claws were special enough to break through any barrier, so it technically could rip through this light net easily. However, this light net was special in that Mo Xie’s claws didn’t work on it. Clearly, it wasn’t anything normal.

Of course, Chu Mu could let Mo Xie attack the light net directly and rip it open with power.

This was something Mo Xie could do. Yet, if that were the case, they would still get revealed, and could even get restricted by the light net.

“Then let me begin, you start getting ready to battle.” Ye Wansheng said.

As he finished, Ye Wansheng was already completely devoted to the diagram. As Ye Wansheng was slowly breaking through it, one could see some of the blue light blink.

The main axis blinking naturally meant that the light net was being destroyed in this area. The dark brown hunters very quickly noticed the abnormality, and quickly reported it to Lin Li and Wan Meng.

Lin Li, Wan Meng, and Wu Zhen just came back from Xiao Residence when the dark brown hunters reported this to them.

Wan Meng’s eyebrows were knit together. The light net’s axis blinking definitely meant it was getting destroyed, and the only people who wanted to destroy it.....

“Everyone follow me!” Wan Meng naturally realized something, and said to the dark brown hunters by him.

The three of them rode their soul pets with ten dark brown hunters quickly towards the blinking.

.....

At the edge of the light net, Ye Wansehng was still studying it heavily. The light net was already showing cracks, but the cracks were at most enough for little Mo Xie to get through.

“They seem to be flying over, and will reach us in one minute.” From not far away, Old Li’s tiny feet ran at an extremely high pace back to them.

A minute was long, yet short. With the black hunter shadows appearing above the structure, they were slightly nervous. After all, with a dominator rank’s speed, this distance wasn’t much.

The dark brown shadow flew across the city sky. The one in the front was Lin Li, Wan Meng, and Wu Zhen. These three people were angry as they stared ahead. Clearly, these three authoritative people never expected that someone would be so daring as to openly go against them when they were searching. One had to know that the entire city was filled with many experts of merchant alliance and Wu Zhen’s people!

“You few, where do you want to escape to? Don’t touch what doesn’t belong to you in case you lose your life.” Wu Zhen was the first to appear.

“Wearing masks? There isn’t a need for that. No one ever escapes after openly disobeying us.” Wan Meng smiled oily and stared at them with ill intent.

The ten dark brown hunters’ rings all started glowing. There was no need to say it; the dominator rank devil soul was with them.

However, with only a thousand meters’ distance, a step away, Wan Meng wanted to see where they were escaping to.

Mu Qingyi saw them approach and glanced at Ye Wansheng who continued to rip open the formation, and couldn't help but be worried.

They weren't sure of Wan Meng and Lin Li's powers, but Border Commander Wu Zhen was incredibly powerful. If they really started fighting, they would definitely see casualties.

“Go!” Suddenly, Ye Wansheng yelled.

At this time, the light net showed a crack large enough for one person to pass through.

Ye Wansheng was at the front with Bai Yu and Spectral Jinrou following. Mu Qingyi also went through the light net to reach the spacious and empty street on the other side.

“Where are you trying to go!!” Wu Zheng roared in anger!

After they left, everyone was already at the edge of the light net. All the dark brown hunters, including Wu Zheng, started attacking the last leaver, Chu Mu!

Ten pseudo dominator ranks and one near middle class dominator rank blinked with techniques that became a formidable force that flew towards Chu Mu!

Chu Mu looked at Mu Qingyi reaching safety and turned around. He didn't show any fear towards the massive surge of energy approaching him.

On his shoulder, Mo Xie stepped on air, and stood ten meters above Chu Mu.

An angry purple flame suddenly roared forth, becoming a fire lotus that covered Chu Mu's overhead, creating a layer of protection.

As the energy fell, even Wu Zhen's vine Beast attack fell into this purple flame lotus.

The energy seemed to be devoured. The angry purple lotus remained standing, but everyone's attacks seemed to have disappeared after they landed onto the fire lotus, not even lifting a single ripple.

The angry purple flame lotus didn't last long. They slowly disappeared, yet the silver masked man was already outside of the light net, running far away, while riding the purple flamed nine tail organism along the street.

Wu Zhen's face turned serious as his eyes glared angrily!

The border commander clearly didn't expect the silver masked man to be this powerful. Not only did he block ten pseudo dominator rank attacks, even his vine beast's attack was easily remedied!

"Send down the command. Everyone block that masked man, we can't let them leave the city!!"
Wan Meng reacted swiftly, giving the command the moment they escaped.

To ensure the devil soul could be caught again, Wan Meng and Lin Li put down many experts in the city. No matter what power they used, they couldn't allow these masked people to escape, because the dominator rank devil soul was on them!

“They won’t be able to run!” Wu Zheng humphed and glanced in a different direction.

The direction was where General Wu came from. When he looked over, a massive structure on the street suddenly shook.

The rock structure opened up into a body, its powerful body giving massive pressure to everyone nearby.

The sudden opening of the wings caused all the buildings nearby to collapse. The rock covered thing wasn’t a building, but instead a sleeping Rock Wing Dragon!

The Rock Wing Dragon flapped its wings and instantly went into the air. Its eyes glared arrogantly at the escaping masked people.

“Yihou!!!!!!!!!!”

A sharp yet deep voice came from the rock wing dragon’s throat simultaneously, shaking the nearby area.

“Rock Wing Dragon!! It’s border commander Wu Zhen’s Rock Wing Dragon!!!!”

“Heavens, which idiot angered it, our entire city area will suffer for it!”

When everyone saw the massive shadow fly over, they instantly fell into panic. Everyone could tell that it was in an attacking state right now!

No one in all of Wen city hadn't heard of Wu Zhen's Rock Wing Dragon. At the time when GuangTong Bewildering World often wanted to reproduce and colonize their land, it was this Rock Wing Dragon that defended the fort in Guang Tong.

From then on, the cruel and violent soul pet empires had never been able to step into cloud realm!

Just how stupid was someone to anger a near deity level creature in cloud realm?

In center city area, in an elegant building, Wu Chi stood and gazed far at the flying rock wing dragon.

"Young master, that is old master's Rock Wing Dragon, something big must have happened." Wu Chi said.

Wu Xu sat beside them, talking with a young lady.

However, the young lady was already scared stiff because of the rock wing dragon's roar!

"Don't worry, it's just my father's Rock Wing Dragon." Wu Xu quickly comforted.

As he spoke, Wu Xu also stood up and gazed far out of the city at the Rock Wing Dragon.

“Young Master, let’s check it out.” Wu Chi said.

“The rock wing dragon is on the move, any problem could be solved.” Wu Xu said without much concern.

“We should still go.” Wu Chi insisted.

Wu Xu was slightly unwilling but didn’t dare continue to waste time there. He casted an incantation and flew towards the Rock WIng Dragon.

The city air didn’t allow anyone to fly; only dominator rank experts had this privilege.

Yet, Wu Xu and Wu Chi were surprised to see many figures flying in the skies. It felt as if all the dominator ranks in the city started moving!

“This many people, is Divine Sect’s wanted criminal in our city?” Wu Xu asked with surprise.

So many dominator rank experts appearing was a rare scene. Wu Xu and Wu Chi were full of questions as they wondered what had happened.

.....

In the wide streets, Ye Wansheng riding his multi-colored devil tiger was at the forefront.

Ye Wansheng heard the roar and felt a pressure coming from the side.

He turned over to see a massive shadow suddenly shroud their heads!

The massive and cruel rock head sat on top of the roof. A violent pair of eyes stared at them and Ye Wansheng's soul shook!

Ye Wansheng was now a dominator rank expert. However, in his mind, he had never found an enemy that he couldn't even begin to think about resisting.

This Rock Wing Dragon was clearly an unprecedentedly strong organism!!

Chapter 1167: Purple Emperor, Giant Tail under the Demon Cloud

The Rock Wing Dragon opened its wings and covered the entire street. Immediately, powerful pressure pushed down and caused Ye Wansheng to feel incredibly heavy.

"It's rock type's heavy shadow. Everyone run the other way." Old Li's short legs ran at the very front, darting into a clearly narrower alley.

Other than Ye Wansheng, the others clearly felt the pressure fall down. They all turned a different direction towards Old Li.

This alleyway was very long, seemingly endless. After running five hundred meters, the heavy shadow disappeared but Chu Mu and the others didn't stop. Instead, they continued to run towards the end of another city area.

At this time, the Rock Wing Dragon already reached the end of the alley. Its body couldn't fit into the alley. And, with the special rock structures, running straight in would cause great resistance to it.

The Rock Wing Dragon pushed its head in and had a deep look to confirm that they were running down. Suddenly, it took a big breath in.

“Yiao!!!!!!!!!!”

Rock Wing Dragon roared and instantly rocks started flying outwards. The entire thousand meter long alleyway was filled with terrifying rock type energy and flew towards them at incredible speeds.

Rock Wing Dragon's rank was very high. One technique could probably kill Ye Wansheng and Mu Qingyi's soul pets. Seeing the terrifying rock breath come, Mu Qingyi, and Ye Wansheng's faces turned pale.

Thankfully, Chu Mu and Bai Yu were always running at the front. When Bai Yu saw the rocks flying over, he opened his hands just in time to open a wind cave!

All the rock flew into Bai Yu's palm. However, the Rock Wing Dragon wasn't a normal middle class dominator rank. After Bai Yu absorbed all the energy, his palms started bulging with veins. Clearly, the technique's power was slightly beyond the wind cave's spatial capabilities.

“Reverse!”

Bai Yu grit his teeth and forcefully turned the power around.

“Huhuhuhu!!!!!!!!!!”

The sand roared through. Black rock energy blew through the deep alley. Even the most powerful buildings around were collapsed from the flying sands.

Rock Wing Dragon clearly didn’t think that they could throw the technique back. Rock breath with dark type energy hit his body. The Rock Wing Dragon’s body flew down the street, barely stabilizing its body after flying out a whole block.

After the rock wing dragon flew outwards, everyone stared wide-eyed.

In Wen City’s people’s hearts, Rock Wing Dragon was nearly invincible, but who would think that this rock wing dragon would push people off!

Rock Wing Dragon shook its body. Its powerful defense was only scratched, and wasn’t really damaged.

After getting hit back, the rock wing dragon became even crazier. With an opening of wings, its body flew upwards and went towards the end of the alley.

Chu Mu and the others ran down the long alley and had already reached another city area. The city area's roads lead all directions like a massive maze.

The area was very close to the region that needed to be searched. After everyone here was evacuated, it seemed very spacious.

Old Li kept running ahead, leading them through the city streets.

They didn't fly in the sky because they knew the city was filled with Merchant alliance and Wu Zhen's people. Flying into the sky was equivalent to exposing themselves to their vision. Only moving around in this massive city and losing the rock wing dragon's pursuit could they escape safely.

"Are you alright?" Chu Mu glanced at Bai Yu and asked.

Bai Yu's wind cave hand was basically useless now. The Rock Wing Dragon's technique was far stronger than he expected. Absorbing it was already a dangerous move. Throwing it back caused Bai Yu's hand to basically shatter. He no longer had the power to even lift it.

Bai Yu was already truly middle class dominator rank, so Chu Mu was shocked at just how powerful this rock wing dragon was.

"We can't fight it head on." Bai Yu said strictly.

Chu Mu nodded. The border commander Wu Zhen's power is the strongest they had ever seen. The rock wing dragon's brutality and power were already enough to inspire fear within anyone. No wonder everyone looked on in respect and fear when the border commander was mentioned.

“It’s here again.” Spectral Jinrou opened her eyes and gazed at the two structures in the sky.

After a moment, the blue was covered by the black body. A pair of angry eyes stared through them to see the escaping people.

“It’s senses are very powerful. Losing it in a short moment will be hard.” Chu Mu said.

“Wuwuwu~~~~~”

Mo Xie let out an excited call. After this long, Mo Xie finally seemed to find an opponent that she could fight against and was excited.

It was too bad. Even if Mo Xie could win against this rock wing dragon, Chu Mu didn’t plan on fighting it. One had to know that the entire city’s dominator rank experts were likely gathering where they were. Once they were surrounded, they may all die.

“You continue to run, I’ll lead the rock wing dragon away.” Chu Mu turned around and eyed the rock wing dragon before saying.

It kept on chasing based on its sense. Clearly, they were going to fall into an encirclement regardless and had to lead it away!

Bai Yu hesitated for a moment before finally nodding, “You be safe.”

Ye Wansheng and Mu Qingyi were both relatively relieved about Chu Mu. After all, with Mo Xie aside him, Chu Mu should be able to escape safely.

Spectral Jinrou turned around to look at Chu Mu right before leaving, her eyes glimmering with things she wanted to say.

Chu Mu turned back, and instead gazed at the formidable Rock Wing Dragon.

It flew in the sky and was used to being able to see everything. Yet, this city had many structures and complicated roads. Finding them within this maze wasn't an easy thing.

With its senses, it flew towards where they escaped and could slowly see them within his violent eyes.

The Rock Wing Dragon retracted its wings and dove down, becoming a meteor!

Yet, just as the rock wing dragon was about to catch up, suddenly a massive cloud with purple demon air appeared above it. This demon air created the shape of nine mountain-like tails that imprinted itself into Wen City's sky!

Strange demon winds started up and whistled through all streets of each city area. The demon cloud covered the sky and pushed down with pressure!

A mountain-like tail appeared in the demon cloud. The meteor that was the rock wing dragon was already above Ye Wansheng, Bai Yu, Mu Qingyi, and Spectral Jinrou's head. With a swipe of the tail, it slammed heavily into the Rock Wing Dragon.

The path of its fall instantly changed. It landed right in a group of rock sculptures and created a massive shockwave with its landing.

This attack was even more useful than bai Yu's reversed rocks. The Rock Wing Dragon was still buried in the structures. It heavily shook its head when it finally extracted itself, clearly dizzy from the tail.

"That was....." Not far away, Wan Meng and Lin Li stared at the demon cloud in fear.

They just happened to see the Rock Wing Dragon get slapped away. They had never seen such a powerful tail. The mountain tail was no different from a raging dragon!

More importantly, the tail organism clearly dizzied the rock wing dragon with a single attack!

The rock wing dragon may not be the largest in all of soul pets, but its weight is very exceptional. A single scale of its could potentially crush weaker emperor ranks. Such a rock wing dragon was a moving artillery cannon in the air that was also impregnable.

Just how powerful was the tail that it could slap this aerial artillery unit away?

"Border commander Jiang Tong, what is that?" Lin Li asked.

Wu Zhen's brows were furrowed. It was hard to believe that there was such a hidden expert in Wen City!

Thinking back to the silver masked man, Wu Zhen quickly thought to try to figure out the man's identity.

At such a rank, everyone was famous. The younger ones were usually just the abnormal geniuses.

However, no matter how he tried to match things, Wu Zhen couldn't figure out a genius that fit this silver mask man.

“Follow up.” Border Commander Wu Zhen wanted to know who this man was.

He leaped onto Rock Wing Dragon himself. On one of the streets, he noticed a purple flame that tended towards the rock wing dragon.

Rock wing dragon flapped its wings and flew along the rooftops. Some extra pieces on the roofs were expectedly slashed off by its wings.

Chu Mu sat on Mo Xie's back. Seeing the Rock Wing Dragon chase towards them, he immediately took a different direction than the one the rest of them escaped in.

Mo Xie ran extremely quickly. Chu Mu could only see vague scene changes around him. Even his other pupils couldn't see it clearly.

Behind him, he could occasionally hear loud explosions and rock storms starting!

Every technique fell behind Mo Xie. Even if it were in front of Mo Xie, she could dodge it in time. Looks like in terms of dodging and speed, Mo Xie was superior.

Chapter 1168: Slaughtering Out of the Surrounded City

The gorgeously burning purple tail dragged along the street to the end. Wu Zhen who was riding on the Rock Wing Dragon in the air still hadn't seen what this soul pet looked like. The only thing he could see was the astonishing long tail waving in front of him.

"It managed to completely dodge!" Wu Zhen's expression was unsightly.

Wu Zhen was one of the top ranked people in Cloud Realm, and there were very few people who could contend against him. But now, a mysteriously powerful soul pet trainer had appeared.

Most importantly, this fellow had even stolen the treasured dominator rank Devil Soul!

Even Wu Zhen wouldn't dare try and take a dominator Devil Soul all for himself, because he was afraid it would bring him trouble. Thus, the value of a dominator rank Devil Soul could be seen!

"What creature is it?!" Wu Zhen stared at the line of angry purple flames, and his heart kept sinking.

The purple colored creature's movements were very agile and despite chasing for a long while, the Rock Wing Dragon was only able to stay an equal distance apart. If he were to launch a huge area of effect attack, it would certainly deal enormous damage to the city and injure countless citizens.

"Yi Ao!!!!!"

The Rock Wing Dragon was slightly impatient. It opened its rock mouth, and spat out flying pieces of sand and rock!

The torrential stream of sand and rock filled the city district, smashing the plants on either side of the street.

A layer of yellow sand layered itself over the city district. The fine particles of sand possessed terrifying penetration abilities and no matter where Mo Xie ran, she would inevitably be hit by the sandy rock attack.

“Lord, what happened? What criminal is hiding in this district?” Wu Chi and Wu Xu flew from another side, asking what happened.

“Send a team here!” Wu Zhen said to Wu Chi.

Wu Chi and Wu Xu were stunned. Somewhat astonishedly they said: “Send a team? Isn’t that a bit...”

Wu Chi wanted to say that this was making a huge deal of a small matter, but his eyes suddenly picked up the crushed rock armor on the Rock Winged Dragon’s stomach!

Thus, his words came to a halt. A middle class dominator rank creature may not even be able to create such a wound on the Rock Wing Dragon. Thus, Wu Chi found it hard to believe that there was an existence in this city that could wound the Rock Wing Dragon.

“Sou sou sou~~~~~”

n the yellow sand, nine gorgeous angry purple figures shot out in all directions. In an instant, they arrived in a different district. This speed was unprecedented for Wu Chi and Wu Xu!

“That...” Wu Chi and Wu Xi were stunned.

“You still haven’t scrambled for me to deploy troops?!” Wu Zhen was slightly anxious as he spoke.

Wu Chi returned to his senses, and hastily urged his soul pet to fly towards the center of the city.

The team Wu Zhen was referring to were Border Soldiers and Border Generals temporarily resting in Wen City. Those who were of the Border rank were all dominator ranks. These Border Soldiers and Border Guards were under the command of Border Commander Wu Zhen and their purpose was to prevent the empires in Guang Tong Bewildering World from invading human borders.

Presently, Guang Tong Bewildering World was in a state of calm, so not many people were needed at Guang Tong Stronghold. Thus, a portion of the Border Soldiers and Border Generals were able to rest in nearby cities.

Wen City had a portion of these border defense experts. They were in charge of defending the Border Kingdom. Unless the circumstances were very special, they wouldn’t easily involve themselves in a fight.

Wu Zhen wanting to deploy them violated regulations to a certain extent, but whatever Wu Zhen said here went. Wu Chi thus had no intentions of disobeying.

Moreover, Wu Chi had just seen himself that the purple creature rushing through the district was extremely strong. This could be seen from the wound on the Rock Wing Dragon and its running speed.

In the labyrinth-like streets, Wu Zhen could no longer tell where that fellow had escaped to. Indeed, Mo Xie had transformed into nine of herself within the yellow sand.

These eight bodies weren't much different from Mo Xie's original body, while Mo Xie herself was running in the direction of Bai Yu and the others. The other eight clones were running in different directions. The flying sand and rocks released by Wu Zhen's Rock Wing Dragon happened to give Mo Xie a perfect cover for escaping.

.....

“Wu wu wu~~~~”

After running away, Mo Xie turned around and glanced at the somewhat stupid Rock Wing Dragon. She let out a bitter noise.

It had been a long, long time since Mo Xie had genuinely fought. With great difficulty, she encountered a creature that wasn't instakilled, thus inciting her love of fighting.

“Now isn't the time. Don't worry, there will be opportunities in the future.” said Chu Mu.

An expert of the Rock Wing Dragon's rank had appeared while they were still in Cloud Realm. This meant that there had to be even stronger people in the larger Border City. Mo Xie wouldn't need to

worry about not having opponents. When they arrived in a higher ranked city, there would definitely be stronger opponents waiting for her.

Passing through the incomparably complicated districts, Chu Mu gradually closed in on where Bai Yu and the others were.

When Mu Qingyi, Ye Wansheng, Bai Yu, and the spectral princess saw that Chu Mu had managed to safely catch up, they all let out slight sighs of relief.

The strength of the Rock Wing Dragon indeed surpassed their beliefs. The only middle class dominator rank among them, Bai Yu, was only able to barely keep up with it.

“I hope that fellow only has one Rock Wing Dragon.” said Ye Wansheng with trepidation.

Currently, they had temporarily freed themselves of being pursued, but those blackish-brown colored hunters were roaming around nearby since they knew they were hiding here.

They were still in between the middle and inner part of the city. There was still two-thirds of the city they had to break through. Thinking of the dominator rank experts that were flying through the air, their expressions turned extremely serious.

“It... it seems that we have been surrounded.” At this point, Spectral Jinrou spoke up.

After transforming into a specter, Princess Jinrou’s perceptive abilities were extremely strong. Moreover, to a certain extent, she was even able to determine what other people were thinking through their mental fluctuations. This ostensibly should have been the Devil Soul’s mind reading ability.

Spectral Jinrou's perceptive power covered a huge portion of the area, from the middle city to the inner city. There were many urgent thoughts happening in this area and these people were not weak.

"About how many people are there?" asked Chu Mu.

"About 50. If you add the people wearing Blackish-brown clothes, there are 70." said Spectral Jinrou.

"Is there any street we can take?" asked Chu Mu.

"Only the southeastern side has fewer people, but we will definitely run into them." said Spectral Jinrou.

Chu Mu glanced in the southeastern direction, and discovered that there were a few black dots circling the sky. Even higher up than them was further the aerial army of Wen City.

The aerial army's power presently wouldn't pose too much of a threat since they weren't planning on escaping through the sky.

Mu Qingyi, Ye Wansheng, Bai Yu and the Spectral Princess all looked at Chu Mu. Clearly, they wanted him to make the decision.

"Slaughter our way out." Chu Mu jumped onto Mo Xie's back.

“Isn’t this too risky?” said Bai Yu.

Bai Yu himself wasn’t afraid of risks, but he didn’t want Chu Mu, Mu Qingyi, and Ye Wansheng to take this risk for himself and Jinrou.

“Mo Xie should be able to deal with the Rock Wing Dragon. You guys need to be particularly careful of the people they deployed.” said Chu Mu.

The enemies they were facing were almost all dominator rank experts this time. They would have to fight them with their full strength.

Moreover, if non-Wen City dominator rank experts participated in this fight, it would be even more difficult for them to slaughter their way out. Chu Mu remembered that there were 100 of these dominator rank experts not from Wen City at the auction hall.

Bai Yu looked at Chu Mu who was at the very front and riding on Mo Xie. He felt a wave of appreciation in his heart.

.....

On the southeastern side of the middle city.

“Didn’t a Devil Soul just escape? Why are we making such a huge movement. Wu Chi, I won’t dwell on the fact that you brought a group of normal people to capture Devil Souls and ended up losing many of them, but how do you still have the face to run here and order us around?” a Border General Captain mockingly looked at Wu Chi.

Wu Chi's expression was ugly and he coldly said: "This was the Border Commander's order. You can try not obeying!"

"Oh? Border Commander Wu's orders?" Border General Captain Hu Lu raised his brows.

"Senior Border commander ordered you guys to implement a trapping arrangement in the middle city and intercept the silver masked fellow escaping from the inner city." said Wu Chi.

Captain Hu Lu nodded his head unhappily. Somewhat languidly, he dispersed his subordinates at various points in the middle city.

.....

"Report! There is a group of people aggressively charging in our direction. They are moving extremely fast!" a Border Soldier defending the southeastern side of the middle city knelt down in front of Captain Hu Lu and spoke.

"How could the enemies be so aggressive? I'm sure they are probably crawling to us all dejected." Hu Lu was still acting languidly.

He had a rare chance to rest. He didn't want to spend it here under these senseless orders. Moreover, this was something that Border Generals didn't have to do. As for those people Border Commander Wu Zhen wanted them to intercept, Hu Lu genuinely didn't pay much attention to them. Those in Wen City with strength were only so few.

“Captain... they seem to have arrived!” a few Border Soldiers simultaneously arrived in front of Hu Lu and spoke somewhat nervously.

“What are you so panicked for?!” Hu Lu saw these people were all wound up and yelled at them.

The Border Soldiers didn’t dare speak anymore. But their eyes were staring at the street where there were not many people walking. Faintly, they could feel the ground trembling.

Hu Lu gradually sensed a powerful aura coming from a nearby location. He slightly creased his brows.

Suddenly, a pillar of angry purple flames shot up nearby. The intense aura was like an enormous tide that struck down from the heavens!

The heat was even capable of drying skin to the point of splitting apart. The only thing that could be seen in the angry purple flames was an incomparably noble fox charging at extreme speed through the long avenue. It was charging right at Hu Lu and the other Border Generals and Border Soldiers!

The Border Generals and Border Soldiers had already deployed their soul pets. The ten pseudo dominator and low class dominator rank soul pets instantly showed expressions of fear and anxiety!

“Pai pai pai pai!!!!!!”

The enormous tails were like wild dragons launching a flying strike. As they danced around, the ten dominator rank soul pets were all knocked flying. None of them were able to stop the tails!!

The ten dominators were instantly knocked flying to god knows where. As for Captain Hu Lu and the Border Soldiers, none of them were attacked. They just stood there, stunned, looking with shock at the gorgeous fox noble that rushed past in front of them and the few people and a spectral woman who followed behind.

All this happened in a very short period of time, but Hu Lu and the others weren't even able to move a finger. It wasn't until the fox noble's aura gradually faded into the distance did these people instantly collapse on the ground, with sweat soaking their clothes.

Chapter 1169: One Fight to Determine the Winner, Mo Xie vs. Wing Dragon (1)

The Rock Wing Dragon's body was circling the sky. Its sharp eyes were coldly peering down on the city district.

"They are about to enter the middle city soon." Wan Meng and Lin Li followed behind Border Commander Wu Zhen and spoke somewhat anxiously.

The blackish-brown hunters were deployed through the middle city, but from the strength they just displayed, relying on solely the blackish-brown hunters to stop them wasn't a reality. Indeed, half of the hunters had been lost when they severely injured the Devil Soul Leader. Thus, they were incapable of using the mental demon array again.

A gorgeous angry purple colored cloud floated above the city. People felt as if they could almost touch it. The demon clouds represented the domain of the Hades Fox Noble Purple Emperor.

The demon clouds continuously pressed down to give its enemies a feeling of pressure while also blocking the view of creatures in the sky.

If a soul pet were to fly to a certain height, it would be able to look down at a huge portion of the city district and creatures with sharper eyes would be able to catch Chu Mu and the others.

Thus, these demon clouds were able to cloud the view from the sky!

Presently, Chu Mu and the group were slaughtering their way to the northeastern side of the middle city. In front of them were experts from the auction hall, blackish-brown hunters and Wu Zhen's subordinates. There were a total of 20 people, and as their group continued to move along, even more people would catch on to their trail and continuously gathered where they were.

Of the 20 experts, five were low class dominators. Bai Yu lead the way, but the five low class dominators could certainly pose a large obstacle to him. Aside from the five low class dominators, there were also 15 pseud dominators that could not be looked down upon.

Chu Mu stayed at the very back of the group, because the Rock Wing Dragon was no longer far away from them.

Wu Zhen wasn't that easy to confuse, and this fellow was hard to shake off.

If not for the Rock Wing Dragon's existence, Chu Mu would be able to take Mo Xie and sweep through the path in front of them. There would no need to be afraid of this.

“Yi ao!!!!!!!”

The Rock Wind Dragon ultimately discovered them. It suddenly opened its wings and glided down towards the southeastern side of the city.

At this moment, the twenty dominators also formed a circle around them, preventing them from passing advancing easily.

Chu Mu didn't continue to consider fleeing. Instead, he stared at the aggressive and overbearing Rock Wing Dragon and said to Mo Xie: "You can fight to your heart's content!"

"Wu wu wu wu!!!!!!!"

Mo Xie let out an excited cry. Its four paws burning with purple flames stepped into an air, leaving behind her a purple path as she launched herself right at Wu Zhen's Rock Wing Dragon!

The Rock Wing Dragon which had suffered blow earlier was slightly angry and humiliated. It had never lost in terms of strength before!

The Rock Wing Dragon began to beat its wings faster, causing its speed to reach the limit. It transformed into a rock of destruction that shot down from the sky.

Mo Xie continued to rush forward. However, she intelligently wouldn't face this fellow head on since it had the explosive rock type energy.

Just as she neared the Rock Wing Dragon, Mo Xie's body split into nine. These nine fox figures ran in different directions before suddenly changing direction. Their long tails rapidly intertwined around the Rock Wing Dragon, creating an enormous angry purple flame chain!

Nine Tail Chain!!

The nine fox nobles simultaneously tightened the tension in their tails. The rock of destruction smashed into the intersected chain of purple tails, gradually weakening the force exerted.

The Nine Tail Chain was extremely flexible. All the enormous energy did when it struck the tails was cause the intersecting Nine Tail Chain to tighten around the Rock Wing Dragon.

“Wu wu wu wu!!!!”

Mo Xie proudly lifted her head and let out a dominant cry. In an instant, her eight clones transformed into balls of angry purple meteors that shot towards the sky!

The eight meteor tails were reigning in the Rock Wing Dragon, the latter of which was relying on its body’s tonnage to forcibly pull the clones to the ground. However, the eight fox figures were not weak and managed to drag the Rock Wing Dragon up to the demon clouds.

Mo Xie wouldn’t relent. After dragging the Rock Wing Dragon to the demon clouds, Mo Xie’s original body suddenly disappeared. A pair of cold, threatening and proud silver eyes suddenly shone down from above the dense demon clouds!

Practically everyone in the city could see that pair of eyes. The demon clouds that filled the sky were no longer clustered together; instead, they were spinning around like a vortex!

.....

“Is.... Isn’t that the Rock Wing Dragon?!!” On top of the Xiao residence, Liao Yu looked with a face full of shock as he pointed at the distant sky.

Who didn't recognize the Rock Wing Dragon in Wen City? To the side, Xiao Wen didn't say anything for a long while.

Even if he couldn't see, he could guess that the people causing the ruckus in the city were Bai Yu and his group. What he couldn't believe was that Border Commander Wu Zhen's Rock Wing Dragon was participating in this fight.

He initially thought that Bai Yu and the others would be quickly captured, making him feel very nervous. However, he never expected that a creature that could fight against the Rock Wing Dragon had appeared in the city!

The sky seemed to be missing a piece as the demon clouds were sucked in like a current. At the very center of it all was the Rock Wing Dragon.

From this distance, the Rock Wing Dragon seemed like a black speck. However, those silver eyes were even larger than it and at such a close range and with such an imposing feeling, people didn't dare look at the pair of eyes shining above the demon clouds.

“Hu hu hu hu hu hu!!!!!!!!!!!!!!”

The eyes squinted and abruptly, the sky was burning in angry purple flames.

The flames covered the sky above Wen City so that not even a gap of sky could be seen. The scorching and piercing fire light illuminated the world into a fiery cauldron.

The shocking sky fire swept in from the distance to the vortex of clouds, intensely burning the Rock Wing Dragon.

The enormous tongues of flames danced around, the coiled bodies of these flame dragons swaying about. They were capable of even enshrouding the largest palace in the city in a flying fiery phoenix.

In the flames, the Rock Wing Dragon let out painful roars. Its thick rock skin was burned until the point of cracks.

As the rock armor was chipped off, the Rock Wing Dragon's body was left swaying from the onslaught of flames. It could no longer fly steadily and looked like it could fall at any moment out of the sky.

The miserable scene of the Rock Wing Dragon could be seen by everyone in the city. All of these people stared with wide eyes and disbelief.

The border guard god of Cloud Realm had moments when it had to retreat??

"Those eyes... what on earth is the owner of those eyes? Why is the Rock Wing Dragon not its opponent??" Liao Yu was stunned as he watched the Rock Wing Dragon.

To any young soul pet trainer in Wen City, the Rock Wing Dragon was an invincible existence that stood at the epitome of power. Nobody would forget the Rock Wing Dragon's single roar annihilating an enormous soul pet army. However, Liao Yu was witnessing this practically invincible Rock Wing Dragon suffer injuries. Its armor was burned off by a powerful and mysterious soul pet that they couldn't see.

For some reason, Liao Yu felt that those silver eyes shimmering with an angry purple lustre were familiar...

Prince Chao and Ye Qingzi were standing in the pavilion watching the distance. It had been a few years since Mo Xie had mutated into the Hades Fox Noble Purple Emperor. However, even now, they still didn't know what rank Mo Xie was at.

Ye Qingzi knew more about Chu Mu's Mo Xie, and each time Mo Xie mutated, she would instantly rise by a rank. When she fought against the Evil Good Queen, Mo Xie seemed to have risen a rank. However, Old Li had told them that Mo Xie could not have directly reached the peak dominator rank.

"Could she be a high class dominator?" Ye Qingzi muttered to herself. From her perspective of watching Mo Xie bully this Rock Wing Dragon, there was a high chance Mo Xie could have reached the high class dominator rank.

Xiao Leng looked at Prince Chao and Ye Qingzi. After hesitating a while, he finally asked in a low voice: "Is that silver eyed creature Chu Mu's soul pet?"

Xiao Leng could only guess, but he felt that the probability of this was extremely high. If Bai Yu had a soul pet like this, he wouldn't nearly lose his life when attempting to obtain an emperor rank Devil Soul. Thus, the only possibility was that young man who had strength Xiao Leng was unclear of.

Neither Prince Chao or Ye Qingzi responded. However, Xiao Leng could pretty much guess from their expression.

.....

“Wu wu wu wu~~~~~”

Mo Xie stepped down from the purple demon clouds in the sky. The Rock Wing Dragon also crashed to the ground. With its body completely cracked, the Rock Wing Dragon’s eyes were no longer filled with purely rage and savagery. Instead, it looked somewhat afraid and cautious when it looked at Mo Xie.

Mo Xie was the complete opposite. One or two techniques was not capable of satisfying her cravings to fight that she had built up for many years now. Fortunately, the Rock Wing Dragon was very durable so Mo Xie could release her techniques without restraint!

“Who on earth is that fellow?!” Border Commander Wu Zhen’s expression was incomparably gloomy. He stared fixedly at the man wearing a silver mask. His gaze seemed like it wanted to see through the mask and witness who this truly was.

“Senior Border Commander.... The Devil... the Devil has appeared again!!” Border General Wu Chi frantically ran over and stopped a distance away as he spoke to Wu Zhen.

Wu Zhen’s mouth twitched. It was the Devil again!!

Not long ago, the Devil had wantonly slaughtered his subordinates. Wu Zhen’s anger from this hadn’t disappeared yet. He never expected that the Devil would appear in Wen City.

“There are so many people. You can’t even catch a single Devil?!” Wu Zhen said very impatiently.

How did Wu Zhen have the mind to spare for the Devil right now? The Fox Noble in front of him was extremely strong. If he didn't go at it with all his strength, there was a chance he could fall here.

When Wu Chi saw the cracked armor of the Rock Wing Dragon, he realized that this undefeatable great Border Commander who had no trouble attacking anything had met a formidable opponent. He didn't say anything more and immediately entered the ranks of those surrounding the Devil.

Chapter 1170 One Battle For The Win, Mo Xie vs Wing Dragon (2)

“Wuwuwu~~~~”

Mo Xie landed lightly at the tip of a structure, and let out a taunting call to Rock Wing Dragon.

The demon cloud and angry purple flames still shrouded its body. Wu Zheng wanted to see these soul pets' real figure but only saw a general outline of it. And, by his recognition, there was only a few organisms with nine tails, all different from this purple fox supreme.

Rock Wing Dragon wasn't that easily defeated. Its rock scale armor protected its body and caused Mo Xie's flames to be unable to intrude.

Now that the rock wing dragon's outer skin had fallen, Wu Zhen would definitely have to be more careful.

“Yiao!!!!!!”

The rock wing dragon stood on the tower top and roared towards Mo Xie. Its wings suddenly opened and the nearby structures were lifted up by some mysterious force!

The entire street area, upwards to luxurious shops and down to courtyards, slowly floated up with the rock wing dragon's wing flaps and started revolving around it.

With the rock dragon's roars, all the rooms were slammed towards the high tower where Mo Xie was at!

The rock type shockwave was always very powerful. Mo Xie stepped on space and moved between the high speed rocks. Her figure was hard to capture as she dodged all attacks no matter how densely they came.

The structures occasionally crashed together in the sky, creating massive explosions of dirt, rocks, and shrapnel that covered the city area.

The Rock Wing Dragon still flapped its wings. Everything rock in the surroundings became its weapons that were hurtled towards Mo Xie.

All the structures that were used in the rock type techniques were a hundred fold heavier than their original weight. If any building hit, even dominator rank organisms would get smashed into meat.

"Are you trying to demolish the entire city?" Chu Mu looked at the buildings that constantly flew into the air and mocked.

There were over a hundred buildings in the air now. This terrifying scene caused everyone to go and hide in basements.

Yet, even in deep basements, the weight of the empowered buildings would cause heavy quakes through the ground and send dust flying, threatening to collapse underground rooms too.

Wu Zhen's face fell. No matter how the rock wing dragon controlled rocks, it couldn't hit the purple fox supreme. This caused a hint of impatience in Border Commander Wu Zhen.

"It's not time to get excited yet. You think my rock wing dragon only has this much power?" Wu Zhen humphed and gave rock wing dragon a command.

The rock wing dragon's cruel eyes suddenly flashed. This flash of light was grey, like a ghostly light from a corpse.

This grey gaze fell on Mo Xie. Though Mo Xie didn't know what the technique was, she felt danger and quickly leaped away from the ten meter tall broken water fountain she was near.

After dodging the technique, Chu Mu instinctively looked back, and found that when the grey gaze fell on the water fountain, the water suddenly stopped flowing.

The clean water quickly became muddied and slowly became mud. What normally was a crystal clear statue suddenly got covered in muddiness and hardened, becoming a rock statue.

Not only that, with the water fountain as center, the grey petrifying energy spread along the green granite floor, causing the street, trees, signs, houses..... To all turn into stone!

Though Mo Xie dodged the direct petrification, the spreading energy still quickly jumped from Mo Xie's feet onto her. Just as Mo Xie was about to leap away, her four feet were suddenly rooted as grey petrification energy went onto Mo Xie's silver body!

“Wuwuwu!!!!!!”

Mo Xie let out an angry call, and released all her purple flames to use her demon aura and flames to stop the petrification!

Chu Mu looked at Mo Xie’s limbs, and his eyebrows knit up.

Chu Mu had seen petrification before; it was one of Evil Good Queen’s techniques. However, the Evil Good Queen’s petrification petrified one’s soul, and was only useful on living beings. It was a mental technique that wasn't really rock type.

Yet, this rock wing dragon’s petrification could turn everything into rock, including flesh. As long as the energy spread, everything became brittle rock. That way, one attack or shockwave could shatter the petrified objects!

"Hahaha, let’s see how you dodge now! I’ll destroy your soul pet’s limbs first!” Wu Zhen laughed out.

The Rock Wing Dragon flapped its wings once, and sent a ripple of rock type energy outwards!

This rock type energy may not be very powerful in upright destruction but it had a terrifying effect which was it could shatter anything rock related!

“Beng!! Beng!!!! Beng!!!!”

Wherever the shockwave passed, everything petrified became powder. This caused even the dominator rank experts flying nearby to leave further away.

Houses were getting disintegrated as the storm swiftly approached Mo Xie.

Seeing everything become dust, Chu Mu's heart sank.

Mo Xie pulled her tail out at this moment. Right before the shattering energy reached her, she slammed her tail into the petrified ground around her and broke free of the terrifyingly strong rocks. Wrapping her tails around a high tower far away, she forcefully pulled her body out from the ground.

“Beng!!!!”

The shattering energy was right before her. The moment she left the ground, everything left behind was shattered. The limb-petrified Mo Xie barely escaped through the storm of powder using her tail.

The high tower stood over all the tidy rooms.

The nine silver tails came from up downwards and wrapped around the high tower, leaving a huge chunk behind on the streets.

“Wuwuwuwu!!!!!!”

Mo Xie let out a call and stood angrily on the building top.

The petrifying energy already slowly left her legs, but she barely escaped her limbs becoming the powder before her eyes.

“You have nowhere to dodge, I’ll make you and your buddies rocks!” Wu Zhen smiled and stared viciously.

The rock wing dragon’s body sank into a crouch, before suddenly pushing and darting into the air, opening up its wings!

Its grey eyes looked over the shattered city area as the petrification glow again appeared!

“Gezhi~~~~~”

The petrification energy quickly started spreading on the tower Mo Xie was on.

The fences at the foot of the tower became stone and slowly crept upwards, petrifying floor by floor.

Mo Xie knew how powerful this petrification was. She immediately leaped into the sky and didn’t touch any object.

However, this petrification energy wasn’t that simple. As long as the petrification was within range, even airborne objects could be petrified.

Mo Xie started running, as the petrifying energy was in close pursuit.

Chu Mu looked at the half devil Bai Yu fighting many dominator ranks far away, and his brows furrowed even more.

If this energy kept on spreading, Ye Wansheng, Mu Qingyi, and Bai Yu would all get petrified.

“Mo Xie, try seal break!” Chu Mu knew he couldn’t back off anymore, and said to Mo Xie.

Mo Xie nodded and her rapidly running body suddenly stood still in place.

The silver moon imprint on her head blossomed and a blinding moonlight quickly gathered on Mo Xie’s claws.

Seal break!

Mo Xie’s claws swung out, and the moonlight became five slashes of light, ripping through the air and ground to create long arcs that flew towards the petrification energy!

The petrification energy was mere hundred meters away. Yet, when it hit Mo Xie’s Moonlight Claws, the grey energy was immediately dissolved!

The light slowly spread with the five claw marks. Wherever the light reached, things petrified were quickly returned to their original form. It was like pouring water over a dirty surface, washing away dirt to return their original appearance.

“It’s effective!” Seeing this, Chu Mu’s eyes lit up.

Clearly, this rock wing dragon’s petrification was a seal type technique, a rock type seal that was rather rare.

“Wuwuwu~~~” Mo Xie let out an excited call too.

Since it was a sealing technique, Mo Xie was happy. Unless they were very far apart in seal power, no technique could stop Mo Xie!

After mutating so many times and getting a new species ability every time, Mo Xie had more flexibility and freedom in battling than any other organism.

Without the petrification, the rock wing dragon was just a thick skinned beast. Mo Xie could make sure she wasn’t even touched once in the battle.

“Wuwuwuu!!!!!!!”

Mo Xie lifted her head and called towards the moonlight.

Her forehead silver mark blossomed with even more light, as if a silver moon falling onto earth.

The beautiful glow filled the petrified room.

Everything covered in grey was cleaned by the pureset light. The green marble floors, white buildings, green trees.....

The petrification was all reverted to their original form, causing Wu Zhen's expression to sour. He was getting more and more confused at just what organism this was. Not only did it have so many types, it had overpowered techniques that could defeat his rock wing dragon's most powerful petrification!
