

Soul Pets Bk2 1201

Chapter 1201: Half Devil Bai Yu's Great Fight Against Wen City's City Lord (2)

Yong Guang chanted an incantation. His curly hair fluttered in the windless air and from his two eyes emerged two bolts of fierce lightning that interweaved in front of him. They rapidly formed purple bolts of lightning.

As Yong Guang chanted, the lightning chaotically came together, quickly creating a purple pattern.

The lightning dazzlingly flashed. Amidst the purple light, a tall and robust creature emerged.

“Hong hong hong hong~~~~~”

The lightning streaked in all directions, even striking the snowy white mountains where the bolts of lightning would explode and fill the air with a thick burning smell.

“Hua!!!!!!”

Suddenly, a fork of lightning cleaved down from the sky. The tall and robust creature summoned from the pattern stretched out a mighty arm and grabbed this fork of lightning!

The oppressive lightning should have been ungraspable, but when the creature's hand wrapped around it, there were no signs of struggle. It remained immobile in its hand before transforming with the surrounding smaller pieces of lightning wrapping around it into a lightning halberd!

Purple wriggling snakes of lightning accentuated its body. This was an innately malevolent and terrifying humanoid creature with the legs of an ox. It possessed powerful lightning power. The long halberd of lightning in its hand was both mighty and savage!

A purple bolt of lightning emerged from a lightning halo and the long halberd of lightning was lifted up by the half-ox beast. Instantly, a large number of thick lightning clouds covered the ten thousand kilometers of sky around them.

There were frightening bolts of lightning cleaving the snow on the mountains in the distance, instantly exploding and shattering the white snow and mountains!

“Hong!!!! Hong!!!!!!”

The lightning bolts were like roaming and savage dragons that circled Half Devil Bai Yu. Each roaming dragon of lightning was filled with destructive lightning power. Even if its tail were to lightly brush the lofty peak of a mountain, the entire mountain peak would shatter.

Bai Yu’s body was occasionally illusory and occasionally substantive. His long phantom body weaved through the roaming dragons of lightning in the sky. If he was unable to dodge them, he would use spatial power to destroy them.

“Zi zi zi~~~~~”

Not only did the lightning possess incredibly powerful destructive energy, but could also paralyze its foes. If struck by lightning, one’s bones would go limp from the lightning and it would be impossible to use techniques.

Although the powerful destructive lightning was unable to strike him as he weaved between them, the lightning arcs that extended from the dragons caused his body's movements to grow slower and slower.

As the lightning paralyzed his entire body, Bai Yu couldn't keep evading and forcibly destroyed all the bolts of lightning.

However, at the same time, Wen City's City Lord Yong Guang had chanted an incantation, summoning his second soul pet!

The Lightning Shackled Devil Ox's strength had definitely reached the middle class dominator rank, meaning it was a difficult opponent. Now that Yong Guang had summoned another soul pet, he was evidently giving no room for Bai Yu to breathe.

Yong Guang's second soul pet was also a middle class dominator. This was probably the basic level of power a sixth rank realm lord had to possess.

The second soul pet was an Abyss Beast. The tyrannical aura that emanated from its body could be felt. This was an emperor species Abyss Beast that was a level or two stronger than a normal middle class dominator!

“Hou hou!!!!!!!”

As the emperor species Abyss Beast charged through the air, even the sky seemed to tremble with every step.

Bai Yu's body was currently paralyzed by the lightning. The emperor species Abyss Beast turned into a meteor of pure collision force as it charged and slammed into Bai Yu.

Bai Yu had nowhere to dodge. His silver-white body was shot like a loosened arrow straight into the mountain range. He caused entire mountains to collapse when he crashed into them. The loud crashing sounds kept ringing out until he was way in the distance.

A pure beast type creature had extremely terrifying charging power. Many experts just witnessed this. That was over a hundred kilometers of mountains collapsing.

People wanted to know if the half devil, after being struck by attacks from two middle class dominators, could still stand.

Yong Guang emotionlessly stood between his two soul pets. His two eyes still carried anger in them.

He knew the half devil would not be defeated that easily. He didn't even hesitate to have his soul pets launch a follow-up attack.

The enormous lightning halberd commanded the lightning that filled the sky. It was like a monarch's banner commanding an army of thousands, ordering them to gather where it stood.

“Zi zi zi zi zi~~~~~”

The long streaks of lightning continued through the sky for countless kilometers. They squirmed like snakes and their ends congregated above the long halberd of lightning. As the Lightning Shackled Devil Ox let out a wild roar, all of the continuous chains of lightning left the commanding

lightning weapons. They transformed into layers of lightning waves that surged along the clouds towards the mountain range!!

“Hong hong hong hong hong!!!!!!”

Densely packed together, the lightning bolts struck the land of ice and snow, leaving it scattered and smashed and full of holes. In the destroyed mountains, silver devil flames had just reignited before being suppressed once again by the terrifying purple lightning!

The lightning emerged from the heavens and struck the ground, attacking from north, south, east and west. Each cleave of lightning nearly caused Bai Yu’s skin to erupt, and would shatter his bones!!

The berserk, devastating, savage, and countless bolts of lightning were like innumerable malevolent devil ghosts. Under this force, Bai Yu’s silver body was insignificantly weak. At any moment, he could be turned into a wisp of black smoke and disappear from this world.

Bai Yu gritted his teeth. He refused to let out a cry of pain.

He slowly opened one of his hands, where a wind cave was ripped open. It began to suck the bolts of lightning into another space.

The lightning was actually being absorbed by him, but there was too much lightning and some would still strike his body. The devil flames that covered his body were burning with great difficulty.

Everyone knew that the feeling of being tortured by lightning was difficult to bear. Even just spectating, they could feel their body's contort. It was difficult to imagine that this half devil would be able to survive this destructive power, let alone grit his teeth and persevere.

Far away, when the spectral Jinrou watched this scene, her eye sockets turned red.

She knew that to become a half devil, one's body had to suffer much more than a normal soul pet trainer. But watching Bai Yu suffer the attacks of two powerful middle class dominators, it was so cruel she refused to look on. She wanted to make Lu Yuqin stop the fight right now...

However, just as she was about to fly to Lu Yuqin, a familiar figure suddenly reached out to stop her.

Princess Jinrou couldn't be touched, but a hand had reached out to stop her.

This hand lightly brushed past her arm, but it was filled with an unopposable power.

Princess Jinrou turned around, and her sparkling gaze looked at this man.

This man shook his head at her and said: "Believe in your father. You should know that if you lose your soul again, the pain he will feel will be over a thousand times more painful than what he is suffering now."

A ripple of emotion surfaced in Princess Jinrou's heart. She stared at this man and muttered: "Chu Mu..."

Chapter 1202: Half Devil Bai Yu Battles Wen City City Master (2)

Chu Mu pulled Spectral Jin Rou back. At this time, Ye Wansheng, Liu Binglan, Prince Chao, Mu Qingyi, Elders, and the others all saw Chu Mu and smiled.

Everyone wanted to speak with Chu Mu, but his gaze was on the battlefield with Bai Yu. Everyone knew that now wasn't the right time.

In the rolling mountains, the purple thunder still blasted Bai Yu like crazy. Bai Yu's devil flames were almost completely extinguished.

However, Chu Mu noticed that even when he was constantly getting attacked by the Lightning Shackled Devil Ox and Pool Beast, his right hand remained open, absorbing the energy released in these techniques.

Just as everyone thought Bai Yu would lose all fighting strength after this string of assaults, Bai Yu's devil flames suddenly extinguished!

When they disappeared, everyone could see that frightening cracks have appeared all over his silver skin. Within these cracks, the darkness corroded lightning darted out from his body and went everywhere!

“Zizizizi!”

These rotten arcs easily disintegrated everything nearby into nothingness.

Bai Yu stood back up shakily. His head of white hair were all on their ends, as he was now a dark lightning crazed devil.

The constantly open right hand was tightly grasped now. Bits of even more powerful dark lightning energy leaked out from his fingers.

Reversal!

Bai Yu extended his hand and faced his palm towards Wen City City master Yong Guang.

A reversal storm suddenly came rushing out from his palm. The energy within it was the thunderous attacks he suffered. After being corroded by darkness, the destructive power was even greater!

The thunder rolled through similarly to Dead Dream's dead lightning. When they reached a maximum, these thunders actually became silent, causing the world to become quiet.

The heavenly mountains were originally full of light and had wide vision. The thunder clouds that appeared could only cover some of these mountains.

However, when Bai Yu returned the thunder, the world changed. The dark thunder dragons flew through, sending the world into a deathly stillness.

In the darkness, one could only see massive snakes of thunder flash by. Occasionally, the energy touched their main peak, causing everyone to shiver.

Yong Guang never expected that in his constant assaults, this devil man could absorb all the energy and reverse it all at once. This was enough to create lethal danger for him.

Yong Guang's face was pale, as he told his two soul pets to block in front of him, creating a shield.

However, thunder had powerful piercing effects. Though the two middle class dominator ranks were very powerful, they couldn't completely stop this thunder!

If one compared Bai Yu's previous treatment as getting constantly buffeted by river rapids, the energy he was now returned to Yong Guang was like a full dam finally breaking open, releasing a tidal wave of energy at once!

Yong Guang's soul pets were powerful, but they couldn't possibly stop this built up technique's destruction!

The thunder flashed past. Yong Guang's Pool Beast with no elemental resistances was the first to fall. Not only was it bloodied by the thunder, the corrosive effects were melting its bones, leaving it bloodied and useless.

Yong Guang cared for his soul pets. While blocking, he summoned Pool Beast back to his soul pet space and left the Lightning Shackled Devil Ox to defend.

At this time, the power was nearing an end. Yong Guang had faith that his lightning Shackled Devil Ox could block it all.

However, the moment after Yong Guang retracted his soul pet, this dark thunder devil man flashed through the sky towards them.

Bai Yu's hand was already completely rotten. His moving left arm became a vicious devil claw that ripped through the Lightning Shackled Devil Ox like five powerful scythes while it was still paralyzed.

Sila!!!!!!!

Five incredibly deep claw marks passed. The Devil Ox's thunder halberd became countless sections, as its skin was ripped apart deep within its bones.

The reversed dark lightning already degraded one's defense. With this attack, many middle class dominator ranks couldn't even make up for this, losing blood to Bai Yu.

After Bai Yu's claw entered, he grabbed onto Devil Ox's chest bones, and started pulling hard.

“Gezhi!!!!!!!!!!”

The chest bone was pulled out, covered in blood. The bloodied Bai Yu grabbed it in his claws and threw it away without regard.

This bloody scene caused countless people to suck a breath in. Such a vicious battle was hard to find, especially when the notorious half devil was one of the participants.

Yong Chong was also shocked by the frightening scene. He gazed at Bai Yu's eyes, and noticed that the only thing in his eyes were uninhibited violence and blood thirst. If Yong Guang forcefully told his Lightning Shackled Devil Ox to attack or gang up on him, he had faith he could kill this devil man. However, he knew that his own soul pets wouldn't be any better off either!

Bai Yu's nearly life-less assault caused Yong Guang to falter.

Though he had endless hate, no amount of hate could convince him to lose his middle class dominator rank soul pet. That would cause him to become a fourth rank realm master.

Yong Guang's faltering caused devil Bai Yu to gain even more power to sweep through all the soul pets. Yong Guang could only summon other low class dominator ranks to protect Lightning Shackled Devil Ox and back off repeatedly.

Finally, Yong Guang returned to Lu Yuqin.

Lu Yuqin naturally saw that Yong Guang was already in mortal danger. Just as Bai Yu was about to rip through space to shred Yong Guang to bits, Lu Yuqin rode her Cloud Immortal Dragon Tail Phoenix in between them to separate the two.

Seeing Lu Yuqin intervene, Yong Guang let out a sigh of relief and quickly said his thanks with a body full of cold sweat. He then quickly returned to his faction.

Crazed devil Bai Yu was trapped by Lu Yuqin's fog diagram for a while. With Yong Guang already escaping, his violence slowly declined. However, his eyes remained full of fighting intent and arrogance.

From Yong Guang getting attacked by the reversal thunder to leaving, Bai Yu's second moving technique caused the battle to last for a very short amount of time. In this short moment, however, Bai Yu again showed the world his cruelty and bloodthirsty nature as a devil. After this fight, no one in cloud realm or the surrounding regions would dare to trouble him again!

“Trash!” Li Xu looked at Wen City master and roared in anger.

Originally, using this strategy, Li Xu was ready to have the battle end with Yong Guang. However, two of his experts have already fallen to the same person. This was a shame to the seventh rank cloud realm.

Li Xu had already decided that the Yong Guang was for sure a fourth rank realm master. In fact, one unhappy incident and Yong Guang would be forced to manage the slaves in New Moon ground!

Bai Yu’s victory again caused all of New Moon Ground’s spectators to cry out in joy. To be able to turn the situation around under such intense assault and win without giving the enemy a breather was spectacular.

The battle’s beginnings caused everyone to feel danger. Only now, with a sigh of relief and hearts still beating like crazy, did they cheer for half devil Bai Yu, truly the strongest half devil in New Moon Ground history!!

“You indeed have some tricks up your sleeve.” Cloud gate elder sat in the side, his wrinkly eyes always half closed. He showed some appreciation for Bai Yu’s increased strength.

Able to defeat two cloud ream experts, this half devil truly was amazing. It would definitely step into higher ranks in the future.

.....

Bai Yu's consecutive victories caused the atmosphere to get heated. Even the glaciers lost their biting cold edge.

At this time, Cloud Realm sent the third realm master.

What none of them expected was the third expert was the friendly, amicable, and seemingly benevolent Wang City city master Li Ziran!

Li Ziran maintained his gentle expression, as if he was going to discuss matters instead of fighting.

However, Chu Mu knew that this fellow was actually very treacherous. Otherwise, their identity wouldn't have been exposed to Li Xu.

"Let me." Liu Binglan glared at Bai Yu, signalling Bai Yu to switch out with her.

Bai Yu's wounds were very heavy and had caused him to lose all fighting strength. Winning two matches was already pushing the limits of himself.

"That old man is a sixth rank realm master. Li Xu putting him behind Yong Guang means Li Ziran is stronger than even Yong Guang....." Chu Mu said to Liu Binglan.

"En, I'll be careful." Liu Binglan nodded, not shifting her gaze.

Liu Binglan's actions caused great surprise to Chu Mu. He had already told Liu Binglan in the past that Li Ziran had at least two middle range dominator rank experts, yet her face didn't change in the slightest. Did she get stronger?

Liu Binglan seemed to see the confusion in Chu Mu's eyes and smiled, "I can't let you kids always take the burden, your mother is here too."

Liu Binglan had already made arrangements to substitute those on the field. However, Bai Yu didn't seem to want to leave.

"Is he trying to continue the battle?" Liu Binglan said in surprise.

Chu Mu looked at Bai Yu, and found that the flames were once again burning brightly and its body was strangely colored.

The rising flames on Bai Yu's body was already telling everyone that he was ready to fight the third challenger!!

Chapter 1203: Stopping the Kidnapping Before it Happens.

Li Xu's expression wasn't great. Not only did this devil man defeat two of his main generals, it even wanted to fight a third realm master. This was a belittlement of the cloud realm.

"Can Uncle Bai Yu really do this?" Prince Chao looked with deep worry.

Chu Mu also felt that Bai Yu was hard-pressed to continue. However, since he decided, Chu mu decided to believe Bai Yu's decision.

.....

Li Ziran kept his warm smile and stroked his beard.

He slowly casted an incantation. His uptight mannerisms seemed as if he weren't starting a life and death battle and was instead entering into a prestigious soul pet match.

Li Ziran summoned a middle class dominator rank that was around the same strength as Yong Guang's Thunder Shackled Devil Ox.

From Li Ziran's perspective, one soul pet was enough to defeat Bai Yu. He didn't summon any more.

Yet, at this moment, Bai Yu started an incantation.

Bai Yu's only soul pet was the Ice Pupil Unicorn. When fighting Ling Chan in Wanxiang City, the Ice Pupil Unicorn was already low class dominator rank. The Ice Unicorn was only more powerful now.

The shivering cold covered the entire ice mountain, buffeting them all. They also told everyone that it was an ice type middle class dominator rank.

Li Ziran was taken aback. He didn't realize that this devil man had a middle class dominator rank soul pet.

Considering that Bai Yu had very high fighting power too, Li Ziran had to cast an incantation to summon a second soul pet.

Li Ziran was more powerful than Yong Guang, a fact evident in the order they were sent into battle.

Mu Ruanen's words also confirmed this point. Wang City was a fifth rank realm. City Master Li Ziran was originally a sixth rank realm master but this person liked Wang City and requested to move over to become a realm master of Wang City.

The third person to battle had to be a fifth rank realm master. Li Ziran was a fifth rank realm master yet was even more powerful than sixth rank realm master Yong Guang. Chu Mu expected at least two middle class dominator ranks.

Indeed, Li Ziran summoned a second middle class dominator rank!

“Hou!!!!!!!!!!!!!!”

Ice Pupil Unicorn let out a roar of ice, and stepped through the blizzard towards Li Ziran's soul pets.

Li Ziran knew that Bai Yu didn't have much power anymore and summoned another soul pet to attack Bai Yu.

Bai Yu's devil flames could almost merge with the ice of the Ice Pupil Unicorn. The Ice Pupil Unicorn also didn't focus only on attacking. It would often back up near Bai Yu and combine ice with fire to block Li Ziran's attacks.

Bai Yu and Ice Pupil Unicorn worked together very well. A few times Li Ziran had the chance to defeat Bai Yu but were always thwarted by their well-coordinated defenses.

In this battle, Bai Yu didn't fight back much. He knew that he was heavily wounded and couldn't actually defeat Li Ziran. He only needed to waste Li Ziran's energy and his soul pets. This way, it could relieve a lot of pressure on Chu Mu and Liu Binglan.

This battle was far longer than the ones before. Li Ziran wasn't the type to attack aggressively and Bai Yu only defended, not attacking unless the perfect opportunity presented itself.

Going back and forth, even Li Xu was impatient, commanding Li Ziran to end the battle quicker.

Having already been wounded, Bai Yu naturally couldn't continue this. Just as Li Ziran started launching a massive assault, Bai Yu told the Ice Pupil Unicorn to stop the last attack and decisively casted Displacement Specter to drag his tired body onto the main island.

Li Ziran saw the devil man leave so cleanly and decisively that even his gentle face showed anger. Clearly, Bai Yu reached his goal of wasting energy.

Bai Yu and Ice Pupil Unicorn fell in front of everyone. The silver flames on Bai Yu slowly disappeared. and he became human again.

He looked over at Chu Mu and Liu Binglan and said, "I'll leave the rest up to you."

Bai Yu said this very sincerely. Chu Mu understood the determination of him and nodded seriously.

Spectral Jin Rou floated over to Bai Yu. Seeing her father tired beyond recognition and full of wounds, Bai Jinrou's eyes teared up. She subconsciously reached out to try to hold his hand.

However, her hands passed through Bai Yu's arm, touching nothing.....

Spectral Jinrou became more sad. Her father fought for her and was full of wounds, yet she couldn't even do something as simple as support his arm. This caused Jinrou to silently shed more tears.

"No worries, I'll be fine with a bit of rest." Bai Yu smiled and comforted her.

Ye Qingzi already had a bunch of medicine prepared. She was used to treating Chu Mu's wounds so she was very adept at treating half devils already. With her there, there wouldn't be any major problems.

Bai Yu went into the tent to rest with Ye Qingzi and Prince Chao helping him in. ye Qingzi first told bai Yu to relax his mind.

"Don't worry, Chu Mu won't let them take Jinrou away." Qingzi saw through what Bai Yu was worried about and comforted.

Bai Yu was indeed tired. He knew the moment he closed his eyes, he would pass out. However, realizing how important this battle was to her daughter's soul, he couldn't fully relax.

Ye Qingzi out of options could only use some hypnotizing methods to slowly calm Bai Yu's mind down. At least, Bai Yu's mind can get some rest first, which will help his body recover better.

After Bai Yu fell asleep, Ye Qingzi glanced at Yu Suo who was wearing a golden mask and said, "Can you give him a recovery spell first?"

Bai Yu was completely exhausted. Though this recovery spell won't do much for the wounds, it could let Bai Yu's body state get better and stimulate his body's own regeneration.

Yu Suo chanted an incantation to give Bai Yu a recovery spell and stood aside silently.

Ye Qingzi was very swift with the wound treatment. Very quickly, Bai Yu's wounds were all closed up. The only thing left was to wait for Bai Yu's mind to recover.

After completing this, Ye Qingzi glanced at the silent Yu Suo and asked, "Why don't you speak?"

Ye Qingzi needed Yu Suo's Evil Good Queen to nurture a lot of Xuan materials. Sometimes when she was crafting, Ye Qingzi would always tell Chu Mu to summon Yu Suo to help her. Usually, Yu Suo would always say some arrogant words. Even when Ye Qingzi felt uncomfortable because of it, she kept saying it.

However, ever since Chu Mu stepped into spirit dominator, Yu Suo said nothing.

Yu Suo glanced at Ye Qingzi and didn't remain silent obstinately. She replied coldly, "If I speak, most of the time it is to curse him. You like hearing that?"

Ye Qingzi shook her head. Words that cursed her husband weren't things she loved to hear. She just found it strange that Yu Suo used to try her best to not get thrown back into the soul pet space.

Yet now that Chu Mu let her stay outside, Ye Qingzi felt as if Yu Suo's hatred had only deepened.

From Ye Qingzi's perspective, they really didn't have any unresolvable grudge. There was no point to escalate it to a point of no return.

And, according to Ye Qingzi's understanding, soul pacts caused people and soul pets to naturally get closer. Yet, they remained this hateful, as if there was no room for a solution.

"What are you trying to say?" Yu Suo saw Ye Qingzi want to say something and asked back.

"I just feel like this isn't the best." Ye Qingzi said.

"Hehe, if he threw you into a devil flame jail and tortured you for a few years, I promise you that your pitiful love would also disappear, let alone an emotionless banshee like me." Yu Suo said with disdain. She was disdainful about what Ye Qingzi said, and also about the laughable love between Chu Mu and Ye Qingzi.

Yu Suo saying this stopped any chance for Ye Qingzi to convince her.

While they spoke, Cu Mu walked back into the tent. He glanced at Bai Yu who was mostly fine and said, "He's good?"

Ye Qingzi shook her head, “The wounds are under control but his mind..... It may cause him to go full devil again. We have to tell him to control his emotions.”

Chu Mu nodded. This was something that Chu Mu saw. Bai Yu was nearly becoming a devil during the battle already. If his violence took over, he could become the secondary soul to white nightmare. Then, he would be a devil again.

After Chu Mu walked in, Yu Suo said nothing. Her entire person became as cold as a piece of ice that would cause frostbite on anyone near her.

“Is your protector nearby too?” Chu Mu looked at Yu Suo and asked.

Yu Suo was somewhat shocked but, wearing her mask, she remained cold and arrogant.

“You seem to have some mental connection with him. You're my soul pet so I can of course sense him. Even if you don't say anything, I know it. I'll go tell his position to divine sect people now.” Chu Mu said.

“You.... you wouldn't dare!” Yu Suo said angrily now.

Chu Mu humphed and said in an icy tone, “Don't think I don't know what you're telling Wan Chong to do. If you dare to do anything to Ye Qingzi or hurt even a strand of her hair, I will personally hunt you down to the ends of the earth and cut you into a million pieces!”

Chu Mu said this icily. Even Ye Qingzi aside could feel Chu Mu's uncontrollable violence in these words.

Yu Suo didn't expect Chu Mu to find out about her plans so far ahead. She was pushed back by Chu Mu's aura and turned pale.

"Get back in there and repent." Chu Mu's anger didn't stop there.

"Chu Mu, it's fine." Ye Qingzi quickly realized what happened and shook her head to Chu Mu to calm him down.

Ye Qingzi indeed didn't expect Yu Suo to tell someone to come lay ambush on her, making Darkness Sect use her as hostage while new Moon Ground and Cloud Realm fought.....

Chapter 1204: Star Supreme, Liu Binglan

Yu Suo gritted her teeth, but didn't dare say anything. She just looked with resentment at Princess Jinrou who was behind Chu Mu.

Chu Mu could indeed make an approximate guess of her inner world through the soul pact. However, the spiritual perception between her and Chu Mu would only allow him to understand what her emotions were. It could not reveal what she was thinking.

In fact, the only person who could guess her inner thoughts was the spectral Jinrou because she possessed the Devil Soul's mind reading ability. It was definitely her that had used her mind reading ability when she accompanied Bai Yu over just now. Yu Suo's attempt to capture Ye Qingzi had thus been exposed.

Chu Mu was going to chant an incantation to recall Yu Suo into his soul pet space.

The thing Chu Mu absolutely could not tolerate was harm to Ye Qingzi. He raised the temperature of his devil flames to their highest point. This time, the suffering Yu Suo would receive would be much more than in the past.

However, Ye Qingzi ultimately persuaded Chu Mu not to. She still needed Yu Suo's ability to help Bai Yu quell the evil thoughts in Bai Yu's mind. Chu Mu coldly harrumphed and ignored Yu Suo. He walked outside of the tent.

The anger in Chu Mu's heart slowly calmed. Yu Suo wanted to escape. This was normal. Chu Mu was certain she had thought of a way to escape, and he had even loosened his supervision of her. If she had the ability to escape, Chu Mu wouldn't think anything of it.

However, this woman had focused her plans onto Ye Qingzi, wanting Wan Chong to capture Ye Qingzi. This was something Chu Mu could not tolerate. If not for the fact he was about to fight an important battle, Chu Mu would have immediately severed their soul pact and eliminated this woman. Indeed, Chu Mu just now did have an intention to kill.

Princess Jinrou could see what Chu Mu was thinking and softly said: "She actually wasn't really going to harm Qingzi. She just wanted to use her to escape from you."

Ye Qingzi often used Yu Suo's flower progenitor's nurturing abilities to concoct xuan items. Thus, while Chu Mu would normally lock Yu Suo in his soul pet space, Ye Qingzi would occasionally have him summon her. This would prevent her from being tortured by the devil flames. Chu Mu knew that Ye Qingzi felt pity for Yu Suo and didn't wish for the hatred between the two of them to keep growing.

Chu Mu didn't care, however, if she intended harm. Chu Mu absolutely would not forgive her, and began thinking of when he should get rid of her so that something like this in the future would not happen.

Princess Jinrou knew that Chu Mu had made up his mind and sighed.

.....

After Chu Mu left, Yu Suo looked at Ye Qingzi and arrogantly said: "I don't need you to plead for my leniency!"

Since Chu Mu could sense Yu Suo's emotions, Yu Suo could also sense Chu Mu's emotions. When she had been suppressed by Chu Mu's aura just now, her face had gone pale because she had sensed his killing intent!

Chu Mu was going to kill her!

Yu Suo knew that it would likely occur after the independence fight happened. Her soul would be burned to a crisp in his soul pet space.

There was a sliver of fear in her heart. Yet, she pridefully refused to show this fear, nor did she need Ye Qingzi to plead for her behalf!

Ye Qingzi indifferently said: "You're looking too much into it. I really do need your mental technique to quell the disordered aura in Bai Yu's mind. I won't be merciful to people who try and harm myself or him."

"Hmph, living like this is full of humiliation anyways." despite the unresignedness in Yu Suo's heart, she refused to bow her head to Chu Mu.

“You seem to have many things you have not done yet...” said Ye Qingzi.

Yu Suo bit her lip until blood was about to spill out.

“Take this. When he calms down he probably won’t kill you.” Ye Qingzi gave a small crystal bottle to Yu Suo.

“I want to be free. The water type medicine you’ve given me over the past few years has allowed me to alleviate the pain from the soul devil flames. However, please understand that as long as I am enslaved, suffering from more devil flames or suffering from less devil flames is of no difference.” said Yu Suo.

Ye Qingzi saw that Yu Suo wouldn’t take the crystal bottle. She could see that Yu Suo’s patience of being enslaved had reached the limit.

A smear of blood seeped out of the corner of her lip. Yu Suo had completely bitten through her lip as if she had finally come to a conclusion.

She looked at Ye Qingzi. There was no longer her innate arrogance in her eyes. Instead, she said in a very sincere manner: “He’s willing to listen to you the most, right? I really have something important to do now. I can’t delay it. If I miss it, it will be the same thing as death. Have him release me. When I finish this task, I can give anything you want to you. Also, I can swear that I absolutely will not harm you or him!”

This was the first time Ye Qingzi seeing Yu Suo pleading with her so earnestly. There was no trace of deception or lies in her eyes.

Seeing blood flow out of Yu Suo's lips, Ye Qingzi believed that her words were real. However, the matter of Chu Mu letting Yu Suo go was probably outside of Ye Qingzi's scope of ability.

The hatred between the two of them existed even before Ye Qingzi knew Chu Mu. Moreover, it was a deep-seeded hatred. Ye Qingzi didn't think she would be able to convince him.

"I probably can't change his decision. You should know how big of an effect your defecting back then had on him. This effect on him is something that will continuously build as he grows older..."

"Then treat our conversation just now as if it never happened."

"I didn't say I have no way of solving this issue..." Ye Qingzi softly said to Yu Suo.

Ye Qingzi was only willing to help Yu Suo because she hoped that the hatred between Yu Suo and Chu Mu would decrease. This would prevent them from descending into a state where they fought each other until their last gasp. Ye Qingzi was thinking for Chu Mu's interests here.

Listening to her words, Yu Suo revealed an embarrassed expression.

But when she thought of the important task she had to complete, she realized could not be continuously constrained to Chu Mu, this bastard. Finally, with great difficulty, she nodded her head. She would do as Ye Qingzi said.

.....

The unending chain of mountains still gave off a feeling of magnificence despite being destroyed by dominator rank power.

Presently, Liu Binglan, dressed in a noble, snowy-white Chinese dress, rode on her soul pet - Star River - hovering above the snowy mountains.

She had a graceful figure and absolute beauty. The appearance of this cold beauty instantly lit up the eyes of the spectators from Cloud Realm. They never expected that New Moon Land would have such an incredible female spirit dominator!

As everyone was discussing, they couldn't help but exclaim in admiration at Liu Binglan's devastatingly beautiful appearance and cool and elegant - like a solitary star - temperament. They were exclaiming even more loudly about the soul pet she was riding. It surprisingly was one of the rarest other type soul pets: a star pet.

"This is the woman from Three Great Palaces called Female Supreme?" Li Xu rubbed his beard and looked with a peculiar gaze at Liu Binglan.

"That's right. It's said that she was the first person from New Moon Land to reach the spirit dominator rank. This woman is very low-key with her actions and is often cultivating behind closed doors. She even has her own independent cultivation space - an extremely special existence in New Moon Land." responded a person next to Li Xu.

"Independent cultivation space?" Li Xu was stunned. Independent cultivation spaces were not hidden rooms or an underground palace. Instead, they were abnormal dimensional spaces that didn't belong to conventional space. These independent spaces were innately difficult to find. Yet, this woman had occupied this independent space by herself, making it a cultivation space. This was not something a normal person could accomplish. There were even some border lords without their own independent cultivation spaces!

“Yes. This was something this subordinate heard when I infiltrated Three Great Palaces. This space could lead to some small world in the second layer of the sky.” said this person

Li Xu continued stroking his beard, but his eyes kept moving. He thought to himself: “It seems that New Moon Land’s most rich resource is the spatial door that connects to another layer of the sky!

Liu Binglan followed Bai Yu, as New Moon Land’s vice lord, to fight.

The person to follow on the other side was Li Ziran, who wore a warm smile.

Li Ziran squinted his eyes and examined Liu Binglan. Among soul pet trainers, women with such beauty and strength were few. Being able to see one was not easy.

Every person had a natural disposition to underestimate opponents, especially such an absolute, captivating beauty.

Li Ziran didn’t summon his third main pet. Instead, he used his two middle class dominators that were worn down by Bai Yu to fight Liu Binglan.

Soon, Li Ziran paid the price for underestimating his opponent!

Other type soul pets’ techniques were innately strange and difficult to defend. Star River’s attacks were even more strange and ever changing. From the very start, Star River, that had painstakingly trained to the middle class dominator rank, used a fierce attack. Li Ziran’s two soul pets were so suppressed they didn’t even have room to counterattack.

In a one versus two while also being a middle class dominator, Star River's figure was gorgeous. It ran like a shooting star, leaving Li Ziran's two soul pets exhausted trying to deal with it. Ultimately, before Li Ziran had even summoned his third main pet to save them, his two main soul pets, which over half of their initial energy had been exhausted by Bai Yu, had been defeated.

Star River's strength was evidently a level above a normal middle class dominator. Adding on its strange and ever changing techniques, even if Li Ziran summoned his third middle class dominator, it still would not be Star River's opponent in a one against one situation.

The sky was filled with the light of a sunrise. Elegant and grand. While everyone was still infuriatingly looking from star to star, Li Ziran had been defeated!

Li Ziran was one of the top ten people in Cloud realm. When everyone saw he was defeated, they seemed to have awakened from a dream. They all looked at the woman who was like a star goddess that rode on stars themselves.

If Liu Binglan used to be described as making others sigh because of her beauty, then now, when others looked at her, she commanded more respect of an expert!

"Chu Mu, how did Female Supreme suddenly become so strong!" said Mu Qingyi, slightly shocked.

Chu Mu was also looking with an expression of astonishment at Liu Binglan. He never expected that her power would jump. Even Li Ziran, a realm lord of a sixth rank realm, wasn't her opponent!

Chapter 1205: Starry Sky Summon, Six Dawn Master

Liu Binglan's cultivation level was innately much higher than normal people. Indeed, she possessed a bloodline of a higher rank than normal people. In the past, Alliance Master Ling Chan had imposed a soul restriction upon her for a long period of time, causing her cultivation to grow at an abnormally slow rate. Moreover, it would occasionally backlash and harm her soul.

The restriction Ling Chan imposed didn't completely seal off her cultivation. It merely inhibited it.

While she was inhibited, Liu Binglan didn't stop cultivating, making it seem like a dam was constructed onto her cultivation path. When this dam was removed, her cultivation surged forth like a flood and even she was unable to control it.

Now, Liu Binglan was a fourth remembrance spirit dominator, her remembrance increasing by one remembrance each year. Simultaneously, her soul pets had obtained numerous benefits and grown alongside her soul remembrance, all achieving breakthroughs.

While Chu Mu was bitterly training, Liu Binglan also didn't leave her Six Dawn Space. Today was the day she was showing the fruits of her labor.

After Li Ziran was defeated, Li Xu's expression was no longer as relaxed as before.

He had originally believed that by the sixth rank realm lord, Yong Guang, the third rank realm would have been on the brink of defeat. Yet, by the time Li Ziran was mobilized, both of the opponent's two vice realm lords had not been defeated yet. If others heard about this, they would be the laughing stock of the people.

"I'll deal with her. City Lord Li, you know that I hate these people the most." a tapered voice rang out.

Li Xu and Wu Zhen looked at the mature woman who spoke and they revealed a strange expression.

Li Xu hastily nodded his head and said: “Then I’ll have to trouble 46th City’s City Madam. However, I hope that you don’t overdo it. Master Official Lu is here...”

“Hahaha, City Lord Li, have you taken a liking to this female realm lord?” the tapered voice teasingly laughed.

Li Xu wore a serious expression: “I just don’t want Master Official Lu to be displeased. She probably doesn’t like those kinds of scenes.”

However, Wu Zhen laughed. He very frankly indicated he had taken a liking to that female realm lord. If new Moon Land became an enslaved nation, he would definitely find a way to take her away.

.....

“Who is that woman with a fat waist and small butt? Is she also a sixth rank realm lord?” Ye Wansheng stared at the mature woman flying to the battlefield.

Ye Wansheng’s description was rather apt. This woman was rather fat, but with slim legs. This made her butt proportionally small. A normal woman would have a slim waist and a larger butt. This woman was the opposite.

Moreover, it was impossible to deny that this woman was genuinely ugly. But it wasn’t just ugly. Her eyes were vicious and imposing. When younger women looked at her, they would feel uncomfortable as this woman’s eyes were filled with simmering anger and jealousy!

“She isn’t a realm lord. Instead, she is the City Madam of Cloud City’s 46th City. The “City Madam” is an honorable title for outstanding female soul pet trainers; they are powerful female soul pet trainers. I’ve met this woman before. Her temperament is just as sharp and unkind as her appearance. What’s terrifying is that I’ve heard she extremely loathes beautiful women.” said General Mu.

“That’s normal. Ugly women will always be jealous of beautiful women. Compared to Big Sister Female Supreme, she’s like a mud ball compared to a pearl.” said Ye Wansheng.

The city general shook his head and said: “She doesn’t only ordinarily loathe them. Instead, she loathes them to a morbidly sick extent. The number of beautiful women in Cloud City who have had their appearances ruined by her are not few. I think I remember that she was normal looking in the past. I don’t know why she became so ugly looking...”

“It doesn’t matter if she’s ugly or not, nor if she has a morbidly sick heart of jealousy. I’m curious why Li Xu let this woman fight even though we’re already at the last two realm lords. Why isn’t it Wu Zhen or Li Xu himself fighting?” asked Chu Mu.

General Mu and the others all looked at Chu Mu while Chu Mu looked at them, confused. Did he say something wrong?

“Chu Mu, don’t you know we need to fight seven enemies?” Ye Wansheng spoke first.

“Seven? Isn’t it five?” Chu Mu’s eyes were full of confusion.

A third rank realm lord, a fourth rank realm lord, a fifth rank realm lord, a sixth rank realm lord and a seven rank realm lord. Wasn’t that five?

“It’s not that simple. Besides the five realm lords, you also must defeat a Border Commander and a great general who protects the realm. The general who protects the realm is me, but unfortunately I’ve been temporarily been fired from my job. This job will probably go to someone I’m very familiar with.” said Mu Zuoli.

Chu Mu creased his brows. This fight was too unfair, right? If it were any other territory, how would it be able to self-determine itself? Even a higher ranking person would lose from having to fight so many rounds.

That being said, self-declaring a territory wasn’t something permitted. Instead, it had to be forced. Therefore, the conditions had to be practically impossible; Divine Sect’s arrangements were thus considered fair because without these limitations, Cloud Realm would just crush them with their army. What need then would there be for them to fight them on Heavenly Mountain?

“What’s the strength of the 46th City Madam?” Chu Mu didn’t expect five opponents to become seven. However, considering the circumstances, that wasn’t too horrible. At least Chu Mu felt that his mother hadn’t shown all her cards yet.

“She is ranked fourth in Cloud City and is slightly stronger than Li Ziran. I remember her having a soul pet near the high class dominator rank and two other middle class dominators.” said General Mu.

Ye Wansheng sucked in a breath. This ugly woman was surprisingly so terrifying!

As they were speaking, this City Madam chanted an incantation.

A series of dark colored leaves appeared under her feet. These leaves were also imbued with black flower petals. When the leaves flew through the air, it was possible to see a black flower ghost with long arms appear in the center of the interweaving black leaves.

White colored stamens blossom from the black flower ghost and compactly weave through the air...

In an instant, a large part of the blue sky was covered by the compact white stamens, forming an enormous white spiderweb above everyone!

The stamen spider web was still expanding and on it were also black piercing flower branches. With them added on, it gave the enormous flower spider web in the sky a terrifying and ghastly feeling!!

In the enormous stamen web, the black flower ghost was like a Blackwidow Spider. It bared its terrifying teeth and lay in its spiderweb!

The countless spectators all looked up with trepidation at the terrifying stamen spiderweb because they could feel that this spider flower ghost ostensibly viewed all creatures underneath its heavenly spider web as its prey!!

“What is that?!” Ye Wansheng was so shocked his mouth hung agape.

He had seen innumerable soul pets before, but this was the first time he had seen this demon that was a flower demon yet not a flower demon and also a spider yet not a spider. It gave off an extremely dangerous feeling!

“The Devil Spider Flower Ghost. It’s that woman’s favorite pet. Its strength is extremely close to the high class dominator rank. This monster is savage, terrifying and its entire body as well as the web is wrought with extreme poison. It is exceptionally difficult to deal with!’ said General Mu.

Liu Binglan had also never seen this monster before. and couldn’t help but crease her brows.

Liu Binglan’s Star River, after defeating Li Ziran’s soul pets, didn’t have much fighting strength remaining. However, this Spider Flower Demon was evidently a level stronger than Star River. Under these circumstances, there would probably be some difficulty in defeating this woman.

“Don’t look so miserable yet. I haven’t even finished summoning.” Cloud City’s City Madam mocked Liu Binglan. Her eyes did not hide her hostility and envy towards this cold beauty.

Chanting another incantation, the ugly City Madam summoned her second soul pet!

The soul pet pattern appeared under the City Madam’s feet and from the pattern, an enormous centipede with scarlet red eyes and a malevolent head crawled out!

Its rows of curved blade-like legs filled with poison appeared. They were so sharp they flickered with a terrifying cold light underneath the sun. They resembled rows of movable blades that would chop any creature that neared into meat paste.

Its enormous and long body crawled up onto the heavenly poison web. The shadow it cast underneath exuded enormous pressure on the countless spectators!

Imagine. An enormous ten thousand legged centipede lying above one’s head. Each piece of black armor was the size of a grown man and there were over a thousand pieces of armor on it!!

A single spider flower ghost lying on the heavenly web that covered the sky was already capable of making people shiver in fear. With the appearance of the ten thousand legged centipede, people felt their blood run cold and numerous people didn't even have the courage to look up.

The ten thousand legged centipede moved its legs at a rapid pace. The ten thousand legged centipede which was only able to move as it pleased underground could not freely move in the air due to the spider flower ghost's enormous web. It was the same now as an ugly and sinister flying dragon!

The ten thousand legged centipede's aura was slightly weaker than the spider flower ghost, but if Star River were to fight it one on one, Liu Binglan didn't think Star River would win.

Against such a strong opponent, Liu Binglan knew she had to use her full strength.

Promptly, Liu Binglan chanted an incantation.

In direct visual contrast to the City Madam's ghastly terror, Liu Binglan's summons were gentle and gorgeous. Her noble and graceful figure gave others a visually pleasant sight.

Quickly completing her incantation, Liu Binglan suddenly opened her eyes, and looked at the sky with her eyes emanating purple glossy stars.

The sky was currently covered by the white spiderwebs, but it was impossible to block the light from the stars.

It was a blue sky and dark blue colored starlight. Liu Binglan's hair fluttered in the air and the starlight shined down on her body while various ancient patterns and marks appeared around her.

It was like a starlit stage with countless small life forms of starlight that danced around her. Liu Binglan used her intentions to gather the small creatures of starlight, creating a beautiful star summoning array under the shining starlight!

Chu Mu's eyes lit up when he saw the starlight summoning array because when he had summoned the Saint Kings, it seemed to have been with this array.

However, from the gorgeous starlight emanating from the summoning array, the summons this time wouldn't be the Seven Diagram Saint Kings. Instead, it was the Six Dawn Masters that Chu Mu had only heard of!!

Chapter 1206: Star Sky Dust Spirit, Control the Stars

Six Dawn Masters. The soul pet that Liu Binglan summoned was the powerful Six Dawn Masters that had opened up Liu Binglan's personal training space. Now, Six Dawn Masters had signed a soul pact with Liu Binglan and became her soul pet!!

Beforehand, Chu Mu heard Liu Binglan. She was going to continue to train in Six Dawn Space for a while. At first, Chu Mu thought that was just an excuse for Liu Binglan to continue to protect three palaces. After all, other than going deeper in the sacred realms, new moon ground's resources were no longer enough for Liu Binglan to continue training.

What surprised Chu Mu was, in a few short years, she had already gotten this much stronger, and even signed a soul pact with the extremely powerful and special entity Six Dawn Master, making it her soul pet!

"Six Dawn Master, the real title is probably Star Sky Dust Spirit, right?" Old Li hopped out in time and said in a slow and exaggerated tone.

“Don’t flip through the encyclopedia, how would such an organism be on it.” Old Li glanced indignantly at the curious Pang Yue.

“The Star Sky Dust spirit is an organism from the third layer of the sky. The Six Star Space is also a small world in this third layer. Female supreme being able to get the recognition of it means that she has some unknown fate with this special Star Sky Dust Spirit as well as that Star River Bird Bird.....”

At the same time Old Li was explaining third level sky creatures, Divine Sect master official Lu Yuqin was staring at Liu Binglan’s summoning diagram. The surprise on her face was hard to hide!

Third level sky was something even top tier dominator ranks had trouble reaching. The Star Sky Dust Spirit was an organism that Lu Yuqin had seen on the divine sect murals before. She thought such an ancient and rare creature couldn’t possibly exist on this world anymore, yet this woman had it as a soul pet!

Now, Lu Yuqin had to reevaluate this forgotten New Moon Ground!

Star Sky Dust Spirit and Star River Bird Bird were both glowing with gentle starlight, beautiful, and luring people into infinite dreams of the light.

With these two special soul pets aside her, Liu Binglan seemed even more beautiful, noble, and special, as if a beauty straight out of a painting.

Not long ago, Liu Binglan was wondering- if they succeeded in being independent, how was she going to spread the word of three palaces to other realms?

Presumably, Liu Binglan didn't know, but the moment she summoned her starlight soul pets, her untaintable figure was seared into all spectators' minds. She probably would become famous very quickly.

"Beautiful but useless!! Hengheng, they aren't nearly as delicate and beautiful as my soul pets!" Lady Chen was jealous of pretty things, and was getting even more vicious.

She didn't care whether the Star Sky Dust Spirit was rare. It was just two Other type soul pets.

They would ultimately become food for her favorite soul pets. As for this show off woman, Lady Chen was going to put some even prettier graffiti on her face, maybe with the color of blood. With a command, on the sky spider web, Ten Thousand Feet Millipede wriggled forth, moving its sharp legs towards Liu Binglan's Star River Bird bird!

Star River Bird's dodging abilities are very strong. As the millipede moved around, Star River Bird quickly moved and left trails of stars in its wake.

Ten Thousand Feet Millipede was massive and could move anywhere in the air due to the sky web, but it lacked mobility. Many times, its massive attacks were easily and deftly avoided by Star River Bird.

Star River Bird had just participated in a great battle, and didn't have much power left. It wasn't directly attacking the millipede, instead constantly dodging and prolonging the battle.

Lady Cheng knew that Star River Bird was in a weak state, yet all her techniques were still dodged by it.

She glanced over at her Spider Flower Ghost, whose black eyes suddenly blinked blood red. Following that, the poisonous branches on the web extended outwards. Wherever the Star River Bird Bird flew, vines swiftly followed to obstruct her available space.

After restricting its flying ability, the millipede's power finally had its use. With a twist of its body, its steely tails slammed over from afar and landed on Star River Bird.

Star River Bird let out a roar and flew outwards, slamming onto the spider web.

The spider web was naturally extremely adhesive. Adding on the thin branches that would entangle any prey, Star River Bird Bird's body was immediately bound tighter and tighter despite its struggles!

Rows upon rows of white lines were put up in the sky. The millipede followed it and became a black blur that swiftly darted towards the Star River Bird bird, wanting to eat it whole.

Yet, just as the millipede neared Star River Bird, a wave of starlight suddenly washed over Star River Bird.

The slow expansion of the light created ripples. Not only did they tangle the poisonous web, it also caused the nearby space to become nothing.

The sky seemed to be missing a piece. The blue background showed a deep darkness where Star River Bird silently floated in. The glow on its body made it seem like a star.

“Qi~~~~~”

Standing by Liu Binglan, Star Sky Dust Spirit let out a call, its slender arms slowly opening along with the blue-black hole.

In the darkness, the Spider Flower Ghost's poison web territory couldn't remain. As people looked up, they slowly realized that the web was slowly being devoured by the pure blackness of the starlit sky territory.

Starry Sky Territory!

Starry Sky Territory even changed day to night, causing the massive starry sky to appear over heavenly mountain preemptively.

Under the glow of the starlight, the flower vines the spider flower ghost created all disintegrated.

In the starry skies, Star River Bird Bird's recovery greatly increased along with its strength. This was similar to Mo Xie's Moon Essence technique.

After recovering some stamina, Star River Bird flapped upwards and flew easily through the skies. The slowly wriggling millipede couldn't even touch a feather of it.

When Star River Bird again started fighting the millipede, the Star Sky Dust Spirit used its special pupils to control the formation of the stars far away!

Star Sky Dust Spirit's territory reflected the real starry sky. The sky everyone was looking at was the real third layer of sky.

Star Sky Dust Spirit was controlling the real stars, putting them into different orientations. Every single time it finished a constellation, it would create restrictive, explosive, or ripping effects.

Lady Chen had never gone against such a strange opponent. Facing these other type techniques flying in from infinite distances away, Lady Chen couldn't find any effective method to deal with it, and could only grit her teeth.

Though her Spider Flower Ghost was cruel and vicious, it could do nothing about these unpredictable Other type soul pets. Especially the powerful Six Dawn Master Star Sky Dust Spirit, whose star formation attacks were impossible to defend against.

If they were facing familiar soul pets, she could at least tell from its glow and movement what it was going to cast next. Yet, these constellations were hard to read and would always disrupt her Spider Flower Ghost every time it attempted to attack!

"Star Constellation!"

Liu Binglan spat out a name of a technique.

Star Sky Dust Spirit didn't need to chant an incantation, and only needed to arrange the stars.

Liu Binglan's command caused a few darker stars in the sky to start moving, creating a pyramid with the projected lights.

The lights fell upon the Spider Flower ghost's body. The pyramid light made it fall into a prison that couldn't be escaped from.

"Spatial Rip!" Liu Binglan gave another command.

The star sky dust spirit no longer controlled the stars this time. Instead, the region of the pyramid immediately cracked open with a massive rip!

The power to rip space was something Chu Mu and Bai Yu had as well. The Spatial Rip that Star Sky Dust Spirit casted here was similar to half devil's spatial storm technique. They were using the space's layers to bring in Other dimension storms to attack their opponents.

What was different was Star Sky Dust Spirit wasn't being brought into the normal space. Instead, it was forcefully sucking enemies into the spatial rip, into the chaotic, messy, and terrifying Other dimension to suffer endless storms!

"What... what did you do to my soul pet!!!" Lady Chen roared.

The Spider Flower Ghost had already disappeared in the pyramid as if it was exported to another world. Lady Chen no longer felt her mental connection with it.

Such a sudden change caused Lady Chen to lose her mind. Even now, she didn't know what this Star Sky Dust Spirit's other type technique did.

"I only threw it into the Other dimension full of storms. In the other dimension, even the most ordinary gust is like a dominator rank storm. The strength and weakness of the storms are

patternless. Your flower ghost might be laying in easy winds right now, or could be facing a storm even top tier dominator ranks can't handle." Liu Binglan looked emotionlessly at Lady Chen.

However, these emotionless words of Liu Binglan caused Lady Chen to shiver, as a sense of fear crept into her mind for the first time!!!

Chapter 1207: Second half Devil!

On the other side, Star River Bird's stamina was at its limits. Though Lady Chen was fearful, she didn't want to accept defeat. Gritting her teeth, she decided to use Star River Bird as a threat.

Liu Binglan noticed ahead of time, and told Star Sky Dust Spirit to cast a protective technique. After Star River Bird blocked a hit from the Ten Thousand Feet Millipede, she retracted Star River Bird decisively.

Without a chance to threaten her, Lady Chen immediately turned pale.

She only had two choices now. Either she could tell her millipede to continue to fight the Star Sky Dust Spirit, or she could immediately surrender and tell the woman to release her Spider Floewr Ghost.

"I..... I give up!" Finally, Lady Chen bit down and said begrudgingly.

Lu Yuqin quickly came out to stop the battle. At this time, Lady Chen saw Liu Binglan still hadn't released her soul pet from the Other dimension and roared, "Let go of my soul pet!"

Liu Binglan stared coldly at Lady Chen but ignored her roar. She floated away and back to New Moon Ground's side. As she left, Liu Binglan said lightly, "It's too late."

Spider Flower Ghost's luck wasn't that great. Adding on its lack of specialty in space techniques, it was torn apart right after the weak winds passed and moderate gusts came.

Liu Binglan saw Lady Chen was still hopeful, so she told Star Sky Dust Spirit to chant an incantation.

Star Sky Dust Spirit's eyes blinked and a spatial tear opened up. From the crack came black and torn flower petals. In the center of the petals was an absolutely torn corpse. Only from its color could one vaguely tell it was the spider flower ghost.

Lady Chen stood there blankly, the pain of the soul pact breaking making her face pale as a sheet. Her eyes were wide and bloodshot.

"You..... I'm going to kill you!" Lady Chen almost went crazy and rode his Ten Thousand Feet Millipede towards Liu Binglan.

Lu Yuqin furrowed her brows. The battle was over, yet Lady Chen attacked. This was clearly against the rules.

Lu Yuqin was just about to attack when Liu Binglan seemed to preemptively guess this vicious woman's moves.

The Star Sky Dust Spirit beside her had already completed a star diagram, radiating countless beam of starlight outwards.

Every beam had energy. Just as Lady Chen's Ten Thousand Feet Millipede neared, they were hit by the beams of energy and thrown back

“Beng!!!!!!”

Lady Chen and Ten Thousand Foot Millipede collapsed a snow peak before getting buried under the rocks.

Seeing the pathetic Lady Chen, cloud realm people all stared in disbelief.

One had to know that lady Chen was already at the top five in cloud realm. Such a character was undoubtedly undefeated in cloud realm peoples’ eyes.

Yet, she lost, losing to the female realm master of New Moon Ground!

Everyone’s eyes were no longer on the defeated Lady Chen, but instead on the undeniably powerful female realm master.

The world was a large place; there was always going to be many beautiful women. However, women with good appearances couldn’t truly enter soul pet trainers’ eyes. Power and ability were also measures of how outstanding a woman was!

Liu Binglan’s victory caused New Moon Ground’s countless people to feel even more respect and admiration for the female supreme.

In the long time before this, everyone thought that female supreme was around the same strength as the original hero chief. Yet, no one expected her true strength to be so much beyond that when faced against an even stronger opponent.

Being this powerful while remaining so low profile, it was truly rare to see such a thing in the soul pet world. In the moment, everyone started shouting “Female Supreme” in waves of cheering, and the outer realm people also started remembering this title.

Outer realms also had very outstanding women, and naturally created some female soul pet trainer ranks. Presumably, after this fight, female supreme Liu Binglan’s name would appear on all the realms’ rankings.

.....

The hidden power Liu Binglan had gave Chu Mu a great surprise.

Chu Mu didn’t want to let Liu Binglan continue fighting. The three people he was set to face now were definitely the strongest people within all of the cloud realm. Liu Binglan didn’t have much fighting strength left. If she went in with the attitude of wasting stamina, she could accidentally get killed.

Bai Yu and Liu Binglan helped him defeat four opponents together. That was enough!

“Be careful.” Liu Binglan said to Chu Mu.

Though Chu Mu had many hidden cards, Chu Mu had to face the three strongest people in Cloud Realm so Liu Binglan naturally was worried.

Chu Mu nodded and went just like Bai Yu to the mountain.

New Moon Ground's last realm master was battling. At once, everyone's eyes fell on Chu Mu.

Bai Yu and Liu Binglan's strengths brought tidal waves to all the spectators' hearts. They all wanted to know how good the third realm master was!

"Why is this realm master so young?" Spring Realm's female realm master looked curiously at Chu Mu.

"Lady Shao, I heard from everyone that you were new moon ground's King Chu, the real realm master and the strongest of them all!"

Spring Realm's Lady Shao immediately changed and looked back at Chu Mu carefully.

Liu Binglan and Bai Yu was already very exceptional. If this young men was above them.....

One has to know that the peak of most realms' young generation members were low class dominator rank. Occasionally, a few genius members could step into middle class dominator rank, but still could only reach middle class dominator rank.

However, from New Moon Ground's two sub realm masters' power, the white clothed man was definitely beyond middle calss dominator rank.

“Quick, quick..... that was the Chu Mu that I was talking about. He’s very powerful. Our cloud realm’s youngest generation top expert is nothing compared to him.” Liao Yu saw Chu Mu come out and started yelling excited.

“He look familiar..... is he really as powerful as you say so?” The girl said.

“I don’t believe you, however powerful he is, can he really be more powerful than Border Commander Wu Zhen. His following enemy is probably Border Commander Wu Zhen.”

At this time, everyone started guessing who the first opponent of New Moon Ground was.

When they saw the black armored man riding an angry Rock Wing Dragon into the battlefield, everyone was excited, “It’s Border Commander Wu Zhen!!”

Border Commander represented a position from the border territory and not one governed by the realm. However, Border Commanders had the duty of protecting thier own border territory, so every independence had to go past the border commander!

Border Commander Wu Zhen’s name was well known in all of cloud realm and even the nearby ones. Anyone who mentioned the name would show respect and admiration!

The Rock Wing Dragon was brutal. Though its size wasn’t as large as the Ten Thousand Feet Millipede, when it floated in the sky, it sitll gave off pressure as if it were a mountain.

“Kid, last time we didn’t finish fighting, this time we can finally see an end to this!” Border Commander Wu Zhen smiled.

Chu Mu glanced at the rock wing dragon and simply laughed, “Your Rock Wing Dragon seems just as fierce as usual, but why does it seem scared of me?”

“Nonsense!” Wu Zhen shouted and continued, “This time, I’ll smear all of you into meat sauce!”

“Yiao!!!!!!!!!!”

Rock Wing Dragon opened its mouth and roared terrifyingly, creating a dusty mist.

Chu Mu didn’t summon any soul pets. Not even little Mo Xie on his shoulder wanted to move.

Chu Mu looked at the rolling storms and smiled, instantly going from cold to demonic. Following the smile were silver devil flames that caused the smile to become permanent on Chu Mu’s face.

“Huhuhuhu”

The silver devil flames quickly burned over their body, the devilish aura causing all the rocks to be expelled outside.

Its lower body was like silver, the rampant devil flames dancing. The permanent smile raised hackles on peoples’ backs as Chu Mu became a half devil under everyones’ eyes!!

“Another..... Another half devil! This guy is also a half human!!!”

A second half devil appeared, causing everyone watching to be thrown into chaos.

Half human species were always an extremely special case in the natural world. Bai Yu becoming half devil already shocked many of them. Yet, who knew that New Moon Ground had two half devils. More terrifying was, this second half devil seemed even stronger than the first!

Lu Yuqin stared unmovingly at Chu Mu. No wonder she always felt that this man was somewhat inscrutable. He was the other half devil!

Li Xu stared sullen at Chu Mu. In reality, Li Xu had heard about the two half devils in new Moon Ground from his research, yet Li Xu never expected them to be this powerful!

“That’s..... That’s so cool! I never expected that Brother Chu could also turn half devil, that’s too cool!!” Liao Yu saw Chu Mu turn into the evil devil and started shaking with excitement.

Along with him, a bunch of other younger men were all staring wide eyed!

“You demon, you should never have existed on this world!” Wu Zhen humphed.

Chu Mu casually waved his hand and dismissed the remaining flying dust and rocks.

His silver eyes were fixed on Wu Zhen’s Rock Wing dragon. After stepping into spirit dominator rank and raising white devil’s strength, he hadn’t truly used half devil’s power yet.

This was perfect. He could use Wu Zhen's soul pets to test just how powerful his half devil was right now!!

Chapter 1208: High Class Dominator, War Beast!

Wu Zhen didn't summon other soul pets. Instead, he rode on his Rock Wing Dragon towards Chu Mu.

The Rock Wing Dragon's flying speed was very fast. Its rock body, hurtling at this speed that even caused sparks to fly as it brushed against the air, would have an extremely powerful impact force.

Chu Mu obviously could not let himself get hit by this. Thus, he chanted an incantation and quickly formed a reverse spatial flow in the air.

The reverse spatial flow caused space itself to move in the opposite direction as the creature, like a countercurrent in a river. It would continuously slow the enemy's speed.

When the Rock Wing Dragon fell into the spatial air flow, it grew increasingly tough for it to beat its wings, and its speed visibly dropped.

Wu Zhen sensed that the space around him wasn't normal, and immediately ordered the Rock Wing Dragon to change its flying direction, having it instead fly in an arc to hit Chu Mu.

A silver devil flame was ignited in both of Chu Mu's hands. He crossed his arms in front of his chest and took a half-bow. Instantly, a silver devil flame shield appeared in front of him.

The devil flame shield seemed to be purely formed by crystals. On the shield were engraved various strange symbols and marks as devil flames burned around it. It looked both ancient and sophisticated.

The devil flame shield was ancient yet sturdy while the Rock Wing Dragon relied on flying momentum to smash its dragon horn into the shield.

“Keng...” the devil flame shield violently trembled and countless cracks appeared on it. As the Rock Wing Dragon pushed forwards with its head, the entire shield disintegrated.

“Hpmh, nothing can stop the Rock Wing Dragon’s dragon horn. How could a mere fire type shield stop it!” Border Commander Wo Zhen arrogantly laughed and immediately ordered the Rock Wing Dragon to use its dragon horn to pierce Chu Mu’s body.

Chu Mu had been careless, and he hastily used his arms to stop the dragon horn that was going to pierce his chest.

A powerful force surged out of the dragon horn, causing Chu Mu’s body to slide back.

He was forced from the sky to the top of a mountain, before being pushed against the lofty mountain. However, the dragon horn’s power didn’t let up.

“Beng...” the Rock Wing Dragon used its dragon horn to slam into Chu Mu, burying him into the mountain peak and causing the mountain peak to shake; at any moment, it seemed like the mountain peak could collapse.

At this moment, the Rock Wing Dragon's eyes twinkled. The shattered pieces of rock from the icy snow mountain peak suddenly stopped falling; instead, they strangely hovered around the Rock Wing Dragon.

"Yi ao..." the Rock Wing Dragon gave an angry cry. It lifted its head and threw Chu Mu from the icy snow mountain peak into the clouds. Immediately after, the rocks controlled by the Rock Wing Dragon chased after him, fiercely smashing into Chu Mu.

As Chu Mu flew through the air, he reached out his hand and grabbed the air.

Force from his hand began to spread along a path in the air and crushed all of the enormous rocks flying at him into pieces.

The dust from the rocks scattered through the air. Chu Mu's single palm had smashed countless pieces of flying rocks when some of these rocks were as large as a small mountain. In an instant, the remaining dust pervaded the sky underneath the clouds, leaving everything in a haze and blocking everyone's field of view.

At this moment, the Rock Wing Dragon fixed its eyes on the sky, and its cruel eyes suddenly turned grey!

Petrify!

The Rock Wing Dragon used the petrify technique as it was looking into the sky.

Invisible petrifying force turned the dust into a slurry that rapidly smashed to the ground after being solidified.

Immediately after, the clouds themselves were petrified causing the water vapor in the clouds to turn to a grey color rock. The turbid layer floated heavily in the sky.

“This technique again!” Chu Mu looked around him, and found that the atmosphere around him was extremely turbid.

The turbid items were the petrified dust particles. When the dust completely enveloped him, he would turn into a statue.

Chu Mu took a step in the air and suddenly crossed in place.

The devil flames covering his body began to continuously expand as he crossed!

In an instant, Chu Mu had transformed into a devil storm tornado that rapidly flew out of the petrified area.

As the devil flame tornado span, it suddenly dropped down, turning into a devil flame drill that spiraled towards the Rock Wing Dragon’s back!

The Rock Wing Dragon was unable to dodge in time, and was pressed down to the ground by the devil flame drill. An enormous hole was opened up in its back.

Angrily, the Rock Wing Dragon immediately beat its wings to knock Chu Mu away. Chu Mu reacted even faster, however, and before the enormous wings struck him, he had already flown several thousand meters into the sky while quickly chanting an incantation.

The Rock Wing Dragon crawled out of the icy snow ground. When it saw Chu Mu above it, it met him straight-on!

The Rock Wing Dragon's sped up as it flew upwards. With its imposing grandeur, it resembled a ninth phase rock sword that was going to split apart the sky.

Chu Mu was still chanting. Just as the Rock Wing Dragon was under a hundred meters away from him, Chu Mu suddenly extended his right hand with darkness curling around it, and fiercely smashed his hand towards the Rock Wing Dragon.

The dark energy on his right hand was like 30 thousand catties. It rapidly transformed into an enormous black mound that enveloped the Rock Wing Dragon.

"Charge forth!" Wu Zhen seemed to have enormous confidence in the Rock Wing Dragon's charging force and wanted to smash the enormous black mound.

However, Wu Zhen had evidently underestimated the might of Chu Mu's Evil Mound!

Currently, Evil Mound was Chu Mu's strongest technique. If he had enough time to chant and this technique was fully released, it could probably even trap a high class dominator!

In the short period of time he had, Chu Mu was unable to use the full might of Evil Mound. However, it was still more than enough to deal with the Rock Wing Dragon that had yet to reach the high class dominator rank!

Indeed, when the Rock Wing Dragon's dragon horn struck the dark burial mound, it lost its unstoppable power, and its robust body came to a sudden halt midair.

Subsequently, the dark burial mound covered the Rock Wing Dragon's entire body, instantly suppressing it downwards, causing it to fall straight to the icy snow mountains!

"Hu hu hu hu hu...." the moment Evil Mound suppressed the Rock Wing Dragon, devil flames emerged from the ice around it. The height of the torrential devil flames reached several hundred meters high!

The valley in the icy mountains was instantly filled with dazzling and frightening devil flames. The originally snow white world somehow became even more pale white. It resembled a flaming hell used to punish dead souls.

In the evil mound, the Rock Wing Dragon, as well as Wu Zhen who was trapped with it, experienced the most intense flames in the devil flame sea. Wu Zhen's face was a pale white, and he was in so much pain his face began to contort!

"Repulsive brat! I'm going to smash you to a pulp!!" Wu Zhen angrily roared from the evil mound.

Wu Zhen roared like a wild beast, and even managed to extinguish some of the devil flames with his roar.

From the location where the devil flames were extinguished, a beast type pattern suddenly appeared!

Chu Mu didn't expect that Wu Zhen would be able to summon a soul pet while he was being burned by soul devil flames.

In the soul pact pattern, a wild beast covered in steel-like armor appeared. This steel beast was very similar to Alliance Master Ling Chan's Slaughter Beast. The only thing different was that the Slaughter Beast's body was covered into bone weapons, while this beast was covered in steel that others were unable to look directly at.

"Hou hou..." the steel beast angrily roared and charged its body filled with ice-cold force into the evil mound.

The evil mound began to peel off as the two powerful and large soul pets attacked it. Finally, it transformed into wisps of smoke that dispersed into the air.

The evil mound disappeared, but the devil flames remained. Nonetheless, Evil Mound's effects were to concentrate the devil flame sea's burning inside Evil Mound. The moment it disappeared, the devil flames, since they were spread over such a large range, would lack genuine soul burning effects.

"Beng!! Beng!!!!!!"

The large steel foot stamped down and the devil flame sea was extinguished from the steel armored beast, radiating outwards.

“It’s... it’s the War Beast!!”

“War Beast? Border Commander Wu Zhen also has a War Beast?”

When people saw the steel beast, they opened their eyes wide as if they were afraid they were going to miss something.

“Wasn’t Border Commander Wu Zhen’s strongest soul pet the Rock Wing Dragon?” people began to ask.

However, the inquirer was quickly laughed at by others.

“War Beast...” Chu Mu floated in the air and stared at the distant creature with an aura much more powerful than the Rock Wing Tiger!

There were also no breeds of the War Beast in New Moon Land. Even in Cloud Realm, there were only a few War Beasts. The strongest War Beast was naturally Wu Zhen’s.

Normally when Border Commander Wu Zhen protected Guang Tong Stronghold, he would have the Rock Wing Tiger fight since the enemies there that didn’t require him to use his a stronger soul pet.

However, the War Beast was Wu Zhen’s iconic soul pet that garnered him his supreme status and far-reaching fame. Now that he had summoned this soul pet, he was clearly going to use his full strength!

The appearance of the War Beast made the faces of every New Moon Land citizen grave.

The Rock Wing Dragon's strength was near the high class dominator rank. The War Beast was even stronger, meaning it was a genuine high class dominator!

A high class dominator rank War Beast! This single soul pet was probably capable of sweeping through everything. If the third last opponent Chu Mu had to face was this powerful, did he have much of a chance of winning this independence fight?

"High class dominator... Chu Mu has to have Mo Xie fight. But the latter two people definitely will not be weaker than Border Commander Wu Zhen. If Chu Mu has Mo Xie fight so early, will he be able to last till the end?" said Prince Chao, worriedly.

Liu Binglan creased her brows. A high class dominator was probably already the strongest person in a seventh rank realm...

When Mu Qingyi first saw the City Madam and Li Ziran's strength, she guessed that Border Commander Wu Zhen probably wasn't as simple as she had thought.

Indeed, a high class dominator rank had appeared!

.....

"Brat, last time my War Beast was resting in Guang Tong Stronghold, so I didn't summon it. Don't think that last time because I let you run that I was actually afraid of you. Now that my strongest soul pet has returned, do you think you'll be able to survive?" Border Commander Wu Zhen pointed at Chu Mu and loudly shouted out.

In the face of Wu Zhen's provocation, a smile rose on Chu Mu's face and he said: "Do you really think that in Wen City, I showed my full strength?"

Chapter 1209: Flower Immortal, Flower Progenitor? Evil Good Flower Queen!

Wu Zhen was stunned. In his opinion, this brat being able to fight against the Rock Wing Dragon was the limit of his strength. He didn't expect he would have an even stronger soul pet.

Chu Mu glanced at the War Beast, and slowly chanted an incantation.

From the chanted soul pact, blood red and deep blue flower petals gradually appeared. These flower petals were like dainty dancing fairies that interweaved in front of Chu Mu. They spiritedly and quickly formed a holy blue and captivating red flower petaled evil good flower.

The evil good flower aloofly stood in the middle of the air, like a empress's throne that emanated a dignified aura.

The evil good flower's petals slowly blossomed and a gentle and alluring fragrance wafted into the noses of the spectators.

There were two fragrances mixed in. One was a good kind which was tame and captivating. It was like a tender and quiet woman standing next to a person; subconsciously, it would make this person relax and appreciate the fragrance.

The other fragrance was an evil kind. It was a strong fragrance that would stimulate the desires in one's heart. It was like an attractive woman showing off her figure in front of a person. The seduction was hard to resist and subconsciously, one's heart would be controlled.

The two fragrances could not be simultaneously smelled. If one's heart was filled with grievances, anger, jealousy, cruelty or arrogance, the fragrance they smelled would be the seductive one. On the other hand, if their heart was pure, their character honest, upright or generous, they would smell the tender fragrance...

The wonderful fragrance wafted into every person's nose, leaving them either infatuated or doopey. In an instant, everyone seemed like devils staring at the evil good flower that was blossoming, petal by petal.

As for those that couldn't smell the fragrance, they also saw different versions of the Evil Good Queen. Some would see an irreproachable and unblemished flower fairy while others would see a curvy and exposed demoness.

Right now everyone was looking at the Evil Good Queen. Even Border Commander Wu Zhen was somewhat stunned.

Most of the people present hadn't seen this flower type soul pet before!

"Is... Is this a flower fairy? It's too beautiful!" a few people with upstanding characters muttered.

The flower fairy they saw was elegant yet breathtaking. This was a beauty people could not bear to blemish. The only thing they wanted to do was protect it to the best of their abilities.

"What flower fairy? It's clearly a flower concubine!" the person that said this naturally saw an extremely alluring evil type flower.

The evil type flower was also so beautiful it could make one's heart ache. The enticement of its naked body was capable of causing the evil thoughts in one's head to rapidly expand. Yet, this flower concubine was arrogant and aloof. Even though it was within reach, it gave these people a feeling of unapproachability. But this only further added to their heartache.

Whether it was a flower fairy or flower concubine, the spectators were deeply divided and there were even a few whose faces were flushed with anger while arguing.

When Lu Yuqin discovered the strange phenomenon occurring, she seemed to have thought of something and her face was gradually filled with a shocked expression. She muttered: "Could this be the direct descendant of the flower primogenitor?"

The flower primogenitor was the Evil Good Queen, but it should have already vanished from this world. Even if it did still exist, it could not become the soul pet of a human. Thus, Lu Yuqin thought that this was the direct descendant of the flower type primogenitor.

"I thought that Chu Mu had summoned the Evil Good Queen. Yet, he merely summoned the Evil Good flower..." spat out Prince Chao.

Next to him, Ye Wansheng stared fixedly at the Evil Good Flower. His saliva was about to drip to the ground as he said: "Prince Chao, do you see a fairy or a..."

"Obviously a fairy!" said Prince Chao, but his face quickly turned red!

At the same moment, Prince Chao suddenly smelled a similar fragrance that gradually grew closer and closer, causing his heart to ripple.

Turning around, Prince Chao saw Yu Suo, wearing a golden mask and with purple and red hair down to her butt, walk over.

She stood at the edge of the battlefield and stared at the Evil Good Flower Queen in the sky.

The surrounding Liu Binglan, Mu Qingyi, Prince Chao, Ye Wansheng and the others that knew about the Evil Good Queen, were all stunned. This was the first time they had seen Chu Mu summon Yu Suo and the Evil Good Flower Queen separately. Comparing the two of them, the fairy/concubine on the Evil Good Flower Queen was very similar to Yu Suo.

Yu Suo lightly bit her lips. Since Chu Mu had only summoned the Evil Good Flower to fight, to a certain extent this meant that Chu Mu planned on eliminating her soul and then taming the Evil Good Flower Queen!

.....

“What is this!” Wu Zhen fiercely shook his head and woke himself up from the allure.

He wasn’t stupid, and knew that he had definitely just been affected by the flower type creature’s mental charm. After awakening, he immediately went to protect his mind.

However, the Evil Good Flower Queen was innately pure beauty and charm. Even without using techniques, its effects would still exist. It didn’t matter if one protected his mind or not. One couldn’t help but always fall into an intoxicated state.

Why would Chu Mu explain this to him? Although the Evil Good Flower Queen hadn’t reached the high class dominator rank, the abilities it possessed weren’t so simple!

Wu Zhen discovered that even after protecting his soul his mind would still run amok. Nonetheless, he ordered his War Beast to just kill the strange demonic flower. Once it was killed, it would not be able to bewitch his mind!

The high class dominator War Beast erupted with an extremely terrifying power. Divine Sect's members warned the spectators that they should combine forces to create a barrier. Otherwise, they would likely be struck by the shockwaves from the War Beast's technique.

Indeed, the War Beast took a powerful trample forwards. The boundless snow mountains seemed like they were all going to collapse. The energy continued to proliferate until it reached an area they couldn't see.

The center of the trample force was directed to the Evil Good Flower Queen. The throne of the Evil Good Flower Queen transformed into a grand dress and the purple stamen transformed into elegant hair.

The Evil Good Flower Queen quickly morphed into something similar to Yu Suo. The only difference was that its skin was not composed of human skin, but rather flower petals.

When the trample force shattered the air and launched over, the Evil Good Flower Queen threw open its flower petal dress. The dress transformed into a two-colored fan.

When the firm and fierce force smashed into the soft flower petal fan, it was continuously bounced back. Gradually, it lost its aura of smashing everything to pieces and this force that could originally level mountains, was ultimately reduced to a gale that blew past the Evil Good Flower Queen.

“What technique is this!” Wu Zhen furrowed his brows.

The high class dominator War Beast was known for its power and fierceness. Its techniques were like violent tsunamis: they were unstoppable. Yet, against a large fan of flower petals, it was reduced to a calm stream of wind that had no effect.

Border Commander Wu Zhen had experienced many fights, but he was genuinely left at a loss against this primogenitor flower type creature.

“Rock Wing Dragon, petrify it!” ordered Wu Zhen.

The Rock Wing Dragon’s eyes instantly turned grey and a petrifying force shot through the air towards the Evil Good Flower Queen.

The petrifying force turned the petals winding around the Evil Good Flower Queen into stone petals. Each one of them dropped off the Evil Good Queen.

The Evil Good Flower Queen stretched out its slender arm and lightly tapped the air with its finger. A holy blue flower bud instantly appeared in the air. Layer upon layer began to shed off the flower bud and the blue flower petals that separated from the flower were twinkling and sparkling. When they dissolved into the air, they purified the tyrannical petrifying ability.

Perhaps the War Beast’s techniques were somewhat threatening to the Evil Good Flower Queen that had yet to reach the high class dominator rank. Yet, even if the Rock Wing Dragon was the same rank as the Evil Good Flower Queen, their strength levels were not on the same level.

Chu Mu could clearly feel that the Evil Good Flower Queen was much stronger than the Rock Wing Dragon. Seeing that the Evil Good Flower Queen had nullified the petrification ability, Chu Mu couldn't help but smile and give it an order.

“Petrify it!”

The petrification ability was not something only the Rock Wing Dragon had!

The Evil Good Flower Queen quickly chanted an incantation. The moment its eyes opened, a grey evil good flower was instantly imprinted on its pupils.

Simultaneously, underneath the Rock Wing Dragon's feet, a grey evil good flower rapidly blossomed!

The Rock Wing Dragon's body was quickly turned into a grey color. Its body was innately composed of rock, but when its mind was turned to rock, it would be rendered into a statue without any life force!

“What technique is this!” anger was faintly creeping on Border Commander Wu Zhen's face.

After the Rock Wing Dragon's mind was petrified, it stopped moving. Even its eyes lost all glimmer of light. All that was needed was a slightly strong technique to hit the Rock Wing Dragon and its body would probably explode like a statue.

Chu Mu was extremely satisfied with the Evil Good Queen's ability. Against the Rock Wing Dragon that was the same rank as it, the Evil Good Queen could easily nullify its techniques. Concurrently, the Rock Wing Dragon was unable to withstand the Evil Good Queen's mental petrification!

Spatial Explosion!

Chu Mu took advantage of the opportunity. A spatial force congealed in his palm before he threw it at the petrified Rock Wing Dragon.

Under normal circumstances, Spatial Explosion would have only been able to leave a few ruptured wounds at most on the Rock Wing Dragon. However, while mentally petrified, this technique would definitely explode it into several pieces!

Border Commander Wu Zhen also realized this. He hastily had the War Beast leap in front of the Rock Wing Dragon, using its steel body to block Chu Mu's technique.

The War Beast's defensive powers were rather astonishing. When Chu Mu's Spatial explosion exploded on its body, it didn't even leave a mark on its steel body.

"Hmph, if you haven't reached the high class dominator, it's impossible for you to fight against me. I'd like to see how many of my War Beast's attacks your flower type soul pet can nullify!" coldly sneered Border Commander Wu Zhen.

The War Beast's steel body suddenly sped up and charged at a rapid speed towards Chu Mu.

The enormous force of impact shattered the devil flame shield condensed in front of Chu Mu and caused his body to slide back several kilometers.

Over half of the devil flames on his chest were instantly extinguished. This high class dominator rank War Beast indeed had terrifying strength. It forced Chu Mu to be extra careful when facing it.

Chapter 1210: The Dominant Flower Ancestor (1)

Evil Good Queen's mental petrification wasn't very useful against the War Beast. Wu Zhen realized the strangeness of the flower type organism, but he just gave up and started launching forceful assaults on the evil good flower queen.

The advantage in rank meant that he knew Evil Good Queen couldn't block too many attacks from his soul pets.

The War Beast stamped through the air, the unstoppable aura like a massive iron mountain pushing forth.

The evil good queen was in a disadvantage due to its rank. One had to say that Wu Zhen's straight forward strategy was working. After a few Iron Charges, Evil Good Flower Queen was pushed back multiple times. Even with techniques, it was getting forced back.

War Beast pushed forth and forced Chu Mu to fly by the Evil Good Flower Queen to help her stop the War Beast's attacks.

However, at this time, Chu Mu suddenly felt a mental ripple from his first soul.

Chu Mu slightly furrowed his brows and was just about to investigate it when the War Beast hit him with an iron assault, causing Chu Mu to fly out and become nearly paralyzed with the aftershock.

"Heng, let's see how you help the flower demon now!" Wu Zhen humphed and commanded the rock wing dragon to occupy Chu Mu.

Evil Good Flower Queen's defenses weren't weak. Chu Mu wasn't afraid that the War Beast could break through their defense so quickly.

Chu Mu stopped in the sky, and stared at Evil Good Queen.

At this time, Evil Good Flower Queen's petals were spreading and created a flower screen in the sky to cover up Evil Good Flower Queen.

At the same time, Evil Good Queen's eyes suddenly blossomed with an evil and gentle glow split between the left and right eye.

Evil Good Flower Queen's skin changed, and the petals changed color to become crystalline and pale.

The sacred blue petals covered the Evil Good Flower Queen's face, creating a sacred blue mask that covered her slowly humanizing face.

The head of vines slowly became blood red and started floating with the gust. Sacred blue and blood red was no longer mixing, instead becoming a pure crimson over the entire person.

Now, if they saw the Evil Good Flower Queen, they could no longer see the flower angel's appearance. Only the arrogant queen remained atop a frozen mountain shrouded with flowers, her duo colored pupils staring down at everyone.

Evil Good Queen!

Chu Mu looked at Yu Suo who combined with Evil Good Queen and furrowed her brows.

Evil Good Flower Queen was the secondary soul of the queen. The main soul was Yu Suo. Yu Suo combining souls wasn't something that needed Chu Mu's permission.

However, she was becoming Evil Good Queen by herself. However, Chu Mu wasn't sure if she was trying to escape right now.

Looking at her Chu Mu was going to cast an incantation immediately the moment she tried to escape, closing her in a soul pet space.

"Want to escape?" Chu Mu said with her mental voice.

"You don't know how to use Evil Good Queen's techniques." Evil Good queen looked at Chu Mu with disdain.

Chu Mu laughed coldly. Though he didn't know why the woman suddenly wanted to fight, since she wanted to display Evil Good Queen's true skill, he would let her command it.

Chu Mu indeed didn't know Evil Good Flower Queen well. Chu Mu knew that in Wanxiang City, Evil Good Queen was middle class dominator rank and could easily defeat the middle class dominator rank Slaughter Beast. This meant that Evil Good Flower Queen had the ability to defeat ranks above itself.

It was this reason that Chu Mu summoned Evil Good Queen alone to fight the high class dominator rank war beast. Sadly, Chu Mu discovered that the Evil Good Flower was indeed stronger than the same rank Rock Wing Dragon but could not defeat the War Beast.

“I don’t need Evil Good Flower Queen’s power to defeat it.” Yu Suo was still arrogant, wanting to prove to Chu Mu just how poor his ability to lead was.

As she spoke, the crimson allure slowly disappeared and the Evil Good Flower Queen’s appearance.

Evil Good Flower Queen and Evil Good Queen had a fundamental difference. Evil Good Flower was on a massive flower base, which Evil Good Queen’s main body, evil good demon, also called Evil Good Immortal Concubine.

Evil Good Immortal Concubine was only similar to humans in terms of figure. Its skin, hair, pupils, and arm were all flower demon status. Adding on the hallucinatory effects, it caused people to see the flower immortal and flower concubine.

After becoming an Evil Good Queen, the figure was actually just Yu Suo herself, except more attractive.

Yu Suo didn’t want to expose herself in front of everyone so, before the flower screen disappeared, she immediately hid her human appearance within the Evil Good Flower Queen and used only its powers.

“Hengheng, just some techniques to trick the eye. Watch me step right through it!” Wu Zhen yelled.

War Beast again started a wild charge towards the Evil Good Flower.

Without Chu Mu even giving a command, the flower demon on top the flower already released a string of charming laughs.

The laugh floated into Wu Zhen's ear, and caused Wu Zhen to momentarily lose focus, going from telling War Beasts most powerful War Slaughter Technique to strangely change because of this laugh.

The War Slaughter became a normal charge. The Evil Good Flower's blue and red flowers seemed to go back to being a bud that was ready to blossom again.

War Charge was the technique War Beast was most adept at. This powerful slam was enough to shatter Chu Mu's bones.

However, when this charge landed on the soft Evil Good Flower, it seemed to lose all its power, as if a soft wind caressing the flower.

This was the softening effect of flower type techniques, the perfect counter to direct assaults. It was this softness that dissolved the energy of the charge layer by layer. This was the same effect as when Chu Mu told Evil Good Flower to cast Fan Shaped Flower.

However, Yu Suo had a more complete understanding of Evil Good Queen. Not only could she completely alleviate the war beast's charge, she even absorbed the energy into the stems of the flower. After the charge ended, the flowers clearly were more colorful!

"This is absorption similar to my wind cave?" Chu Mu said with his mind.

Before Yu Suo died, Chu Mu had to make sure he understood evil good flower queen's techniques better.

"This energy absorption can increase my strength briefly. As long as they constantly attack while charmed, the energy will be absorbed. This is the perfect attack for organisms stronger than it." Yu Suo said.

"Attack while charmed?" Chu Mu wasn't too sure what it meant. Attacks were attacks, what did it mean to attack while charmed?

Just as Chu Mu was questioning it, Evil Good Flower Concubine again let out a string of laughs.

When the laughter got to Wu Zhen and War Beast, Chu Mu found that Wu Zhen's original command to cast shattering teeth became another charge.

Though the war beast's war charge seemed unstoppable still, it would always get softened and the energy absorbed, causing evil good flower concubine to become even more brightly colored and demonic!

"That's why." The second attack, Chu Mu understood.

"When there's a gap in rank, the mental techniques won't have much of an effect on higher rank organisms. Using mental petrify is not realistic but one can use mental suggestions to slightly change their attack patterns. These charging and shockwave beast type techniques was useless against Evil Good Queen and can even get absorbed." Yu Suo explained calmly.

Chu Mu nodded, and saw that Evil Good Queen was beast type organisms' counters.

However, thinking back, if Mo Xie simply had beast type energy, he might have lost against this flower type ancestor back in wanxiang City.

Three consecutive times- Wu Zhen's War Beast started a pure assault that became the Evil Good Flower Queen's power.

At this time, Evil Good Flower Concubine's vines were very long now. These flower vines weaved together to create a flower maze in the sky!

Flower Maze!

The flower vine created a maze charged by the evil good flower's energy swiftly made the sky into their flower type realm.

The flower type territory was similar to the web of the spider flower ghost, but anyone could tell that this flower maze was far more dominant than it. One could also see vague symbols created within the flower vines that hid a certain power, causing one to feel like escape was impossible.

"This is the flower type diagram, blindness, confusion, disturbance, and entrapment. It's perfect to deal with these brainless beings." Yu Suo said.

Yu Suo's cold voice was filled with disdain for the war beast. Of course, Chu Mu still could hear some unwillingness. Clearly, she didn't want to tell Chu Mu that but had to say for some reason.

The blue sky was already covered in the complicated maze, trapping Wu Zhen's rock wing dragon and war beast. People could only hear two beasts roaring and struggling.

“The diagram has poisonous flowers, weakening flowers, sleeping powder, blood sucking stems..... The longer they stay in there, the more they get weakened. If he stays for a whole minute, his strength will at least drop by 20%.” Yu Suo continued.
