

## **Soul Pets Bk2 1211**

### Chapter 1211: The Dominant Flower Ancestor(2)

The flower maze slowly started shaking as the war beast and rock wing dragon started casting beast type techniques like crazy, leaving the dangerous yet beautiful maze in a mess.

Yet, while they were destroying the maze, their bodies were also slashed, poisoned, weakened, hypnotized, and bloodied.....

None of the negative effects had much of an effect on the two of them alone, but when they were all stacked together, it cut 20% off their power directly.

After getting out of the maze, Border Commander Wu Zhen was already very irritated.

Wu Zhen was a war monger. He had a special passion for pure and powerful soul pets. From what he saw, power was what could defeat all. That's why his soul pets were all beast type soul pets!

In this battle, yet, Wu Zhen felt as if all his soul pets couldn't use all of their strength. Random techniques here and there always made his soul pets' attacks feel like they were attacking an ocean. Though a lot of splash happens, the sea returns to its original state afterwards.

Plant world organisms had an advantage over beast type organisms in their restrictive abilities. Yu Suo controlling Evil Good Flower Queen was showing Chu Mu how to perfectly occupy the enemy, and cause their advantages to disappear while she wasted away at their strength through mental distraction, flower diagrams, restrictions, softening, poison, and more.

Chu Mu's soul pets were mostly going the power and force route as well. Even Evil Good Flower Queen was something Chu Mu felt was a very forceful soul pet.

With this battle, Yu Suo used many small techniques to reduce the rank gap and weaken her opponents. This caused Chu Mu to learn a lot.

Chu Mu was going to remain on his own power and force route, but at least Chu Mu knew that if he ever went against a plant world soul pet expert, he would at least be ready, and not be defenseless like Wu Zhen's poor soul pets.

“I'll step you into the ground!!!!!!”

Wu Zhen was getting increasingly impatient and roared.

At this time, Evil Good Immortal Concubine's blue lips curled into a smile!

An attractive but slightly cold laugh came. This time, the laugh was no longer charming and arousing, but instead full of mockery!

A bunch of blood red lotuses opened up in the sky, each flower beautiful and inviting to the eye.

However, at the center of all these flowers were poisonous teeth!

Devouring Flower!

War Beast relied on its steel armor and stampeded right through this sea of devouring flowers, trying to go towards the Evil good Immortal Concubine. The gust surrounding it became a forceful storm as it sped over swiftly. Wherever it went, the devouring flowers were ripped to shreds.

Evil Good Immortal Concubine's smile was still there. Her elegant vine arms lifted up and activated the entire devouring flower ocean, becoming a bunch of biting flower mouths!

The poisonous teeth were all exposed. Chu Mu looked at the glinting devouring flower mouths. He vaguely remembered that these poison teeth were the same as Zhan Ye's Ink Armor Spikes, being able to ignore defenses!

Wu Zhen was relying on the War Beast's powerful defense, yet these devouring flowers' teeth could easily bite through the armor. Before the War Besat could make it far, the storm near it was dispersed by the flowers, and its body was covered in countless flower mouths!!

“Gegegege~~~~~”

With the first bite, its iron skin was marred with deep gouges!

Following the first, the other devouring flowers started biting and tearing. The War Beast was already weakened and tired from before, so its defenses weren't as good as they were. Almost every bite of the devouring flowers could deal substantial damage to the War Beast.

The devouring flowers were beautiful as lilies, yet who would have expected that they gathered together to be this terrifying, able to bite the war beast bloody and expose even some of its bones!!

“Houhou!!!!!!!!!!”

War Beast's roar shattered all the devouring flowers but its body was already bloody like a few layers got taken off its body. It was a gruesome sight.

"Every bite of the devouring flower takes away a hundredth of the enemy's life force no matter how high your rank is. He lost around 20% of his life force. Adding on previous efforts, its battle strength isn't even half of its peak." Yu Suo said.

After War Beast's strength was weakened this much, Evil Good Queen didn't have to worry about its direct assault. After all, Evil Demon Concubine was also very violent!

The vine arm became two bloody red and poisonous whips. The whips danced in the air at high frequencies. Frighteningly, a casual whip from the devil whips on the ground was enough to leave a valley-like mark!

"Pa!!!!!!!!!"

The devil whip landed heavily on the rock wing dragon's body. Even the dragon's rock skin was whipped apart and its heavy body knocked back.

"Pa!!!!!!!!!"

Another hit came, the long devil whips like a dragon's tail whip. This hit caused the Rock Wing Dragon's chest armor to all come loose, revealing its rib cage!

With two whips, the rock wing dragon was already shaking, its eyes full of anger quickly becoming filled with newfound terror!!

Though they were both middle class dominator rank, the rock wing dragon was like a child in front of the Evil Good Flower, unable to even fight back amongst the whipping!

The high class dominator rank war beast wasn't faring much better than the Rock Wing Dragon. Its iron-like skin was already gone because of the devouring flowers. Though Evil Good Flower Queen's vine whips weren't quite high class dominator rank strength, it wasn't too far off!

“Pa!!!!!!”

The whip landed on the war beast this time, causing the war beast's back to split open with a bloody wound, frightening to all spectators!

“B-..... bite its devil whip!” Wu Zhen was red with frustration, nearly coming afire from anger.

The war beast was a high class dominator rank after all. Even while it was bloody and lost so much fighting strength, it could still turn around and bite the evil good flower queen's devil whip!

The war beast didn't snap it, but instead pulled at it and forcefully brought the Evil Good Immortal Concubine over!

Leaving the flower base, the Evil Good Immortal Concubine's Flower Demon King form was shown in front of everyone.

The sacred blue and red intercrossing skin, the vine-like long hair that gathered before her chest, the blue waist that ended with what looked like a robe but instead was countless vines gathered in a robe-like stem that obscured any form of legs.

Many people still enchanted by the immortal and concubine hallucinations were jolted awake. Seeing the half human being, no one had devious thoughts about it anymore, but they all went cold.

Who would have thought that the perfect woman they were imagining would suddenly become like this? If not for the war beast pulling it out, they may still be lost in the hallucinations.

Evil Good Demon Concubine flew through the sky and, when nearing war beast, its whips quickly fell to create two women-like arms.

However, at the palms of these arms were poisonous snake fangs!

Chu Mu fought with Evil Good Flower Queen before, and knew clearly that it was similar to his half devil form; it had the ability to fight up close well. With its defenses destroyed, the war beast pulling the evil good immortal concubine over was like pulling a bundle of thorns towards itself!

Indeed, the poisonous snake fangs bit deeply into the war beast's body before it could even launch its own attack!

“Houhou!!!”

The war beast roared painfully, and spurted out blood.

“Sila!!!!!!”

The fangs went even deeper and started tearing against the sides of the wounds, going straight for the war beast’s innards!!

Wu Zhen briefly was stunned before quickly realizing this attack was likely to end War Beast’s life!

“Yiao~~~~~”

At this time, the rock wing dragon appeared in time, and pushed the Evil Good Flower Queen off with a wing slap

The Evil Good Demon Concubine flew outwards, as the Evil Good Flower Base floated over to catch her.

She extended a demon arm and extended her snake-like tongue. Licking the blood off its claws seductively, another smile came onto her crimson lips.

Yet, this laugh was no longer charming the world. Instead, it raised the hackles on every spectator as their souls felt a strange coldness.

With blood continuously pouring out, War Beast was beyond bloodied and battered.

And feeling War Beast's life force swiftly deteriorating, Wu Zhen had to stomach all his anger and unwillingness and bring his soul pets back to cloud realm territory to get healed.

After Wu Zhen left, the only thing remaining in the sky was the flower petals of the Evil Good Demon Concubine. Her demonic, seductive, yet powerful aura caused all the onlookers to be shocked and couldn't calm down.

Everyone there, including Lu Yuqin and Cloud Gate old man, had never seen such a powerful yet strange flower type soul pet!

Flower type soul pets were split in two types, one type supportive and healing while the other devouring and poisonous. Though there are battle oriented flower type organisms, many soul pet trainers still regarded them as weak in real combat.

However, from this never seen flower type organism, they saw an astounding battle where it defeated two stronger organisms by itself!

It was hard to imagine this world had such a powerful flower type species!

Chapter 1212: Border Territory Expert!

The battle had ended for a long while, but he was still looking at shock at the sky.

The Cloud Gate old man's turbid eyes flickered with a strange color. He stared at the evil good demon concubine and seemed to remember something. Yet, he didn't say it out loud.

"Is that really the Evil Good Primogenitor's direct descendent?" muttered the Cloud Gate old man.

The Cloud Gate old man was very certain Chu Mu came from New Moon Land. But he didn't understand why such a powerful flower type creature would appear there!

Lu Yuqin was looking with shock at Chu Mu. Initially, she was like the Cloud Gate old man and thought that the flower type creature with two different auras was the direct descendent of the Evil Good Flower Primogenitor.

However, after the fight ended, she began to question this because, there ostensibly were no Evil Good Flower species this tyrannical among the Evil Good Flower's direct descendants.

"Even... even Border Commander Wu Zhen lost..."

"Border Commander Lost. Who on earth is this Chu Mu? Even Border Commander Wu Zhen couldn't beat him!" Those from outside the realm began to discuss amongst each other.

In this territory, those who were able to reach the middle class dominator rank were famous people. Yet, they had never heard of this person that was able to defeat Border Commander Wu Zhen!

"Did you see? Did you see? It's as I said, hahaha. He really did beat the Border Commander!!" Liao Yu excitedly shouted.

As for those youngsters who had said with certainty New Moon Land's people would lose to Border Commander Wu Zhen, they were also in shock. In their hearts, the Border Commander was already the strongest person. How would they have expected him to lose when fighting a mere third rank realm?

“Defeat!!”

When Lu Yuqin uttered these words, Li Xu and the other Cloud Realm realm lords faces were deathly ashen.

Border Commander Wu Zhen’s strength was at the pinnacle of Cloud Realm. Li Xu and Mu Zuoli represented the highest positions in Cloud Realm, but even if they were slightly stronger than Border Commander Wu Zhen, it would not be by much.

The strength Chu Mu exhibited was enough to defeat Wu Zhen. This meant that if they were to fight one on one, Chu Mu was capable of defeating any one of them here!

This amount of power was truly capable of threatening them!!

Li Xu, Wu Zhen, and Wan Meng had always believed the so-called King Chu of New Moon Land was just a man with strength that slightly surpassed his own realm, yet dared to act so brashly in Cloud Realm. They never expected the outcome to be like this!!

“Where on earth did this brat come from!” the defeated Wu Zhen grit his teeth. As the great commander of a million man army, he had unexpectedly lost to a no-name brat. How would his reputation be able to survive this?

“Did... did you or did you not investigate his background!!” Li Xu fiercely glared at his subordinates and angrily yelled at them.

“This... this little one did investigate. He really did come from New Moon Land. However, it’s said that the original ruler, Ling Chan, was also defeated by him...”

“Ling Chan? That man whose eye was dug out?” Li Xu thought of something. He seemed to remember Ling Chan finding him many years ago in hopes that he could recommend him to Border City.

Back then, Li Xu had no interest in New Moon Land, and didn’t understand this piece of territory. As for Ling Chan who had come from New Moon Land, Li Xu saw that he hadn’t even broken through to the spirit dominator rank and his composite strength was only near the middle class dominator rank. Ling Chan was already old so he couldn’t be of much use. Thus, recommending him to Border City’s Li Clan was not too realistic so he found an excuse not to.

“That’s right. This subordinate gave this area a search. He was expelled to New Moon Land 100 years ago and was only some insignificant fellow. However, he ended up obtaining numerous benefits in New Moon Land and reached the dominator rank. Nonetheless, he was killed a few years ago by Chu Mu, Chao Lengchuan, Mu Qingyi, Liu Binglan and Bai Yu... When that happened, Chu Mu’s strength was near Ling Chan’s. However, it’s said that he still has a purple flame soul pet which has heavenly strength. There have been people who have seen a single one of its tails knocking over ten dominator creatures flying...” hastily explained Li Xu’s subordinate.

All this information was obtained from the mouths of New Moon Land’s people so it wasn’t complete since there were no rumors about the Evil Good Queen in New Moon Land.

“Purple flame???” When the wounded Border Commander Wu Zhen heard this, his face turned extremely unsightly.

“Shouldn’t it be silver devil flames?” Li Xu looked at the silver devil flames on Chu Mu.

“Li Xu, didn’t I tell you not long ago about the purple flame creature in Wen City that defeated my Rock Wing Dragon?” Border Commander Wu Zhen’s face sank.

“Yes.” Li Xu nodded his head and said: “It’s that creature which rank you are still uncertain of, right?”

The moment he said this, Li Xu abruptly realized something, and he looked with shock at the hovering Chu Mu!

“Wu Zhen... you... you’re saying that when this brat fought against you in Wen City, he didn’t use his devil or devil flower concubine?” Li Xu cried out involuntarily.

Wu Zhen nodded his head and the flesh on his face twitched. He said: “When he ran amok in Wen City, he fought me with another soul pet. It was the one with purple flames!”

This man had another even stronger soul pet!!

When they fought in Wen City, the Rock Wing Dragon hadn’t been its opponent and Wu Zhen hadn’t even been able to clearly see what the soul pet looked like, nor what species it was!

“He... he still hasn’t taken out his full strength and managed to beat you?” blurted out Wan Meng who had trembled as he listened.

Wu Zhen fiercely glared at this fatty. He cursed to himself: would this fatty die if he didn’t say those words??

All of the realm lords heard Wan Meng. This included Li Ziran, Yong Guang, Li Changning, and even 46th City's City madam who was still cursing and swearing she would get revenge on Liu Binglan. They were all now looking at Chu Mu, somewhat doubtful that this young man from New Moon Land could have such terrifying strength.

"It seems that we've truly underestimated our opponent." a while later, Li Ziran softly sighed.

When he was in Wang City, Li Ziran didn't think the man he employed to find Devil Souls would be this strong!

"Hmph! There are still two fights. Even if he has another stronger soul pet he hasn't summoned yet, what does it matter? Don't tell me that the two of us cannot get rid of this brat!!" Just then, the tall and sturdily built man next to Li Xu coldly harrumphed.

"I didn't say we couldn't get rid of him. It's only that this brat truly is a bit..." Li Xu coughed.

Underestimated their opponent. This time, they had truly done just this. Perhaps if they had fought properly and honestly, this independence fight wouldn't be so close. Li Xu was secretly rejoicing over his despicability.

"Wu Zhen, your two soul pets rely on erupting with power. Against a flower type soul pet, they are obviously helpless. Of course, a high class dominator being defeated by a middle class dominator, moreover in a one against two, is truly a bit embarrassing." mocked the tall man next to Li Xu.

Border Commander Wu Zhen was normally not polite towards anyone. Nonetheless, when this man spoke to him, Wu Zhen could only restrain his flushed face. He didn't dare retort.

It wasn't that his strength was vastly inferior to this tall man. Instead, he was very afraid of his status.

"Li Xu, if you had to personally take action as a mighty seventh rank realm lord to deal with a third rank realm, you would become a laughing stock. I'll get rid of him!" the tall man stepped forward, walking to the edge of the glacier.

He first glanced at Lu Yuqin, and politely bowed before summoning a wing type soul pet to fly to the battlefield.

The wing type soul pet the man summoned was a Sunset Emperor Roc, a middle class dominator.

The aura of its strength was slightly weaker than Wu Zhen's Rock Wing Dragon, but it was much more agile than the Rock Wing Dragon.

The Sunset Emperor Roc opened its wings. It just happened to be approaching sunset and when the light from the sunset illuminated the glacier, the entire glacier world was dyed a golden yellow color. Its accentuated the Sunset Emperor Roc's majesty as it flew through the air. As for the man dressed in the yellow robe, riding on its back, the haughtiness he displayed was in full effect!!

This arrogant act was unrestrained. His dazzling light-blue eyes with a light purple luster carried the contempt of an elitist. Whether he was looking at enemies or his own people, including Realm Lord Li Xu, his eyes inevitably contained contempt!

"Who is this person? Why does it look like he's looking down on everyone here except for Lu Yuqin?" Ye Wansheng immediately asked the adjacent Mu General, Mu Zuoli.

“It’s not that it seems like it. He genuinely is looking down on everyone. This fellow has never looked another person eye to eye, at least when it comes to outside Border City.” said General Mu.

“Oh, he comes from Border City?”

A seventh rank realm, eighth rank realm, ninth rank realm, tenth rank realm, and then came Border Territory.

The number of experts in the seventh rank Cloud Realm were already like clouds let alone Border Territory that was four ranks higher than Cloud Realm!

Indeed, when one mentioned Border Territory and Border City, many people couldn’t help but subconsciously feel veneration.

“Cloud Realm belongs to Border Territory. Within Border Territory, a few of the larger families and powerful factions will delegate experts that they put much effort into cultivating to various large realms. After completing a few meritorious contributions, these experts will then be called back and be able to justifiably assume an important position. These people pretty much all have limitless futures in Border Territory and will easily achieve great success. Coming to the realms is similar to a brief tempering period of them, or in other words, a formality.” said general Mu.

“No wonder this fellow acts like he’s number one under the heavens. Hmph, wait until Chu Mu beats him so badly he’ll have to look for his teeth on the ground. We’ll see if he still acts arrogantly then.” said Ye Wansheng.

General Mu, however, forced a smile and said: “Guan Zhangming’s strength is definitely above Wu Zhen. If Chu Mu doesn’t have another stronger soul pet, this fight could actually end here.”

“Hehe, how are you certain that Chu Mu doesn’t have another soul pet?” laughed Ye Wansheng.

General Mu was stunned and looked astonishedly at Mu Qingyi who was next to him. He said: “Don’t tell me he has an even stronger soul pet?”

Mu Qingyi faintly smiled, but didn’t say anything.

Chapter 1213: Little Hidden Dragon, Dragon Roar Heavenly Mountain!

The Sunset Emperor Roc opened its wings, and its golden yellow feathers faintly trembled. Even without beating its wings, it was still able to remain stably in the air. There was no hint of trembling.

Standing on top, Guan Zhangming glanced at the Evil Good Demon Concubine before looking at Chu Mu.

He saw that Chu Mu was looking calm and couldn’t help but squint his eyes. The corners of his mouth rose into a strange smile and he said: “Do you think that my Sunset Emperor Rock is my strongest soul pet? You’re gravely mistaken!”

Chu Mu was a bit confused when he heard this. The Sunset Emperor Rock was probably about as strong as Wu Zhen’s Rock Wing Dragon. In his opinion, since this man whose face was written with “I’m very strong” was placed behind Wu Zhen, he was definitely stronger than Wu Zhen. Why would he think the Sunset Emperor Rock was his strongest soul pet?

Chu Mu was muttering to himself that this man had issues when Guan Zhangming chanted an incantation.

Chu Mu wasn't worried and didn't immediately attack. From how Guan Zhangming presented himself, he probably had a powerful soul pet that was deserving of his arrogance. Thus, he grew serious himself.

As the chanting imprints twined around, wind marks appeared next to Guan Zhangming and began to rotate.

The wind marks gradually transformed into fragmented pieces of a wind body under the soul pact halo. The fragmented pieces began to take the form of a creature with a scorpion's tail, a lion's body and a ram's head!

Its body was an indigo color and its skin was imprinted with strange wind charms. It looked both domineering and mysterious. Imperceptibly, small wind vortexes would appear and disappear around its body!

When this wind type creature's full body took shape, the airflow from the ten thousand mountains, heavenly mountain and vast snowy mountains all suddenly disappeared. There was no longer any wind in the world!

Before people managed to feel the lack of wind, the wind charms on the wind creature's body lit up and tornado after tornado appeared around it.

Although these tornadoes were small, they contained the entire airflow from the icy world!

In an instant, a violent wind bitingly swept through the sky, filling the air with snow!!

The world instantly was flipped from serenity to restlessness, filling the air in these ten thousand kilometers with a murky atmosphere!!

“Hu hu hu hu~~~~~”

The fierce wind roared in Chu Mu’s ears, causing the silver devil flames on Chu Mu’s body to dance in the wind. If the wind power were to blow on a lower ranked dominator rank creature, its body would probably be torn apart!

“This probably is a Three Form Wind Envoy, right?” Chu Mu looked at the elemental creature formed by three different creatures, and muttered to himself.

Three Form Wind Envoy had never been seen in New Moon Land and Chu Mu only knew of its existence after arriving in Cloud realm.

The wind the Three Form Wind Envoy controlled had three colors. One was a dark black color. This wind passed through the skin and entered the bones, infecting both the skeletal system and innards. Strong defense was incapable of stopping it.

One was a yellow color that pervaded the horizon. This wind contained binding and shackling energy. When this omnipresent yellow colored wind appeared, it meant that the entire sky and earth was under the control of the Three form Wind Envoy. Stronger soul pets would be incapable of escaping its absolute domain.

The last was a blood red wind. It could instantly destroy a creature’s body and shatter its life force. The wind would turn an even darker red color after this because, in all senses of the phrase, there would be a rain of blood!

“Brat, come and fight me. If I’m satisfied with the fight, perhaps I’ll leave you alive!” laughed Guan Zhangming.

His laughter darkened the sky. The blue sky that had just returned to a calm state was once more covered by thick black clouds that swallowed numerous of the towering mountain peaks.

As the corroding wind swept through, the whimpering sounds were like countless malicious spirits weeping and howling. Those that heard this felt their blood run cold.

Chu Mu could feel the onslaught of the corroding wind. He glanced at the Evil Good Demon Concubine. He didn’t have intentions of letting her continue fighting.

He chanted an incantation and recalled both the Evil Good Demon Concubine and Yu Suo hidden inside the flower throne to the soul pet space. Then, he once more chanted an incantation.

Inside the soul pact space, Little Hidden Dragon could no longer hold back the fighting spirit in his heart. Before Chu Mu’s incantation had even completed, he used a spectral technique to fly out.

The corroding wind’s effect on the Little Hidden Dragon’s sturdy body was like a squall of wind striking a rock wall. There was no effect.

Chu Mu knew the Little Hidden Dragon was eager to fight and warned it: “Don’t let the corroding wind enter your skin.”

The Little Hidden Dragon nodded its head. The scales on its body flashed with a cyan dragon light. The dragon light seemed to congeal, forming a cyan armor that protected its body.

With the dragon light armor defense, the corroding wind genuinely had no effect on the Little Hidden Dragon.

“Why is it not the purple flame soul pet?” Guan Zhangming creased his brows, and looked at Little Hidden Dragon.

Not only was Guan Zhangming surprised, but Li Xu, Wu Zhen and the others were extremely shocked!

Against the high class dominator rank Three Form Wind Envoy and the Sunset Emperor Roc with strength no less than the Rock Wing Dragon, he only summoned a middle class dominator rank Empyrean Cyan Hidden Dragon?

Empyrean Cyan Hidden Dragon’s species bloodline may be tyrannical, but Three Form Wind Envoy’s species rank was not low either. Moreover, with strength lacking by a class, did they really need to fight this round out?

”He probably wants to summon a few middle class dominator creatures to exhaust Guan Zhangming first.” said Wan Meng.

“Yes, that could be possible. However, this brat truly has many high ranking soul pets!” said Wu Zhen.

Not just anyone in Cloud Realm had a middle class dominator. The strength Chu Mu had displayed was enough to put him unquestionably at the top of experts.

“That’s strange. Why is Chu Mu letting the Little Hidden Dragon fight?” Mu Qingyi’s eyes were full of confusion.

Mu Qingyi was certain Chu Mu could only have Mo Xie fight in this circumstance. Mo Xie’s strength still was uncertain at this point and as night approached, Mo Xie would still have a chance of defeating the remaining two people.

However, to her surprise, Chu Mu had summoned the Little Hidden Dragon!

“Eh... what is Chu Mu up to? Is he playing with his opponents?” Prince Chao forced a smile.

Just now, General Mu had actually believed Chu Mu was going to summon an even stronger soul pet. Yet, he ended up only summoning a middle class dominator. It was possible to instantly see which side was stronger and weaker.

.....

Guan Zhangming thought the same as Wan Meng. Chu Mu wanted to use his soul pet to exhaust him and then delay until the final fight.

Guan Zhangming silently sneered. This brat had definitely underestimated his Three Form Wind Envoy’s explosive strength.

Guan Zhangming wouldn’t give his opponent the opportunity to exhaust him. He would instantly kill this Empyrean Cyan Hidden Dragon.

“Blood Wind! Rip it apart!!” ordered Guan Zhangming.

In the dark wind, a bloody wind suddenly appeared and began to rip about. Each stream of wind resembled a bloody several kilometer long blade in the hands of an executioner.

When these countless bloody blades began to dance in front of everyone’s eyes, these spectators subconsciously began to search for safe places to hide. Despite being several ten thousand kilometers away, they were afraid they would still be struck by these terrifying bloody windstreams.

The bloody blades struck closely one after the other. This technique was capable of instakilling a middle class dominator; Guan Zhangming evidently had no intentions of showing mercy.

The Little Hidden Dragon stood in place, and as the three or four bloody blades hacked at it, it suddenly opened its mouth that was filled with fierce teeth. In one bite, it bit these invisibly bloody wind blades!

“Hu~~~~~”

The three or four bloody wind blades fell apart with a single bite!!

Immediately after, a cyan and spectral blue light congealed on the Little Hidden Dragon’s dragon claw. It smashed into the bloody wind blades and a huge number of the bloody wind blades were rendered into harmless red breezes that blew in between the Little Hidden Dragon’s claws and by its arms.

As even more bloody wind blades attacked, the Little Hidden Dragon opened its large mouth again and a Dead Soul Dragon Cry roared out from deep in its throat!!

“Ao hou!!!!!!!!!!”

In the Dead Soul Dragon Cry, countless dead souls transformed into a magnificent army that galloped forth!

Wherever the dead soul tide passed, the blood colored wind blades would all dissipate!

The blood red windy sky was instantly turned into a fiendish chilly wind. What was ripped apart wasn't the Little Hidden Dragon's body, but rather the Three Form Wind Envoy's blood red wind technique!

The Little Hidden Dragon's roar contained the force of three attributes, completely revealing its aura and strength. Its imposing majesty shook the heaven and earth, causing a number of the spectators to pass out!!

“This... this dragon... this dragon is a high class dominator!!” Li Ziran involuntarily cried out!

Li Xu, Wu Zhen, Wan Meng, and the other realm lords were all dumbstruck. Their ears were still ringing from the Little Hidden Dragon's roar!

A high class dominator rank dragon!!!

Their guesses earlier had been instantly proved wrong. However, how could these Cloud Realm experts believe that this man, who came from New Moon Land, would have such powerful soul pets!

Indeed, only Wu Zhen, Mu Zuoli, Li Xu and Guan Zhangming from Cloud Realm had high class dominators!

Yet, this man had defeated Wu Zhen, summoned a high class dominator and most importantly, still had a mysterious purple flame soul pet. This meant that at least two of the four Cloud Realm experts had to be mobilized in order to fight against this man. Such strength was above everyone in Cloud Realm!

Did this soul pet trainer truly come from New Moon Land, a third rank realm??

“Ao hou!!!!!!!!!!”

Little Hidden Dragon gave a second dragon cry, stunning the crowd.

At this moment, Li Xu and the others came back to their senses and saw that the dragon had used a strange movement to approach the Three Form Wind Envoy and use a claw to smack it into the boundless icy snow ground!

A single confrontation, and they were already at a disadvantage. The experts from Cloud Realm were ashen-faced. It was no longer possible to describe their emotions.

“My god! Chu Mu is too heaven-defying! Six months ago, the Little Hidden Dragon was only between the low class dominator and middle class dominator rank. How did it suddenly become a high class dominator in the blink of an eye?!” Ye Wansheng couldn’t help but cry out.

Mu Qingyi, Prince Chao, Xu Daofeng, and even Ye Qingzi were stunned.

From the low class dominator rank to the high class dominator rank in six months. Was there any strength increase speed faster than this??

Moreover, this wasn’t at the warrior rank or commander rank. This was at the dominator rank!!

Chapter 1214: The Absolutely Frustrating Ghost Type

Guan Zhangming was green with anger. Already getting hit close up in the first exchange was a humiliation to his wind type Three Form Wind Envoy.

The three form Wind Envoy got up from the snow. Its wind rune scorpion tail started waving around. The entire snow mountain’s tunnels and valleys started filling with tumultuous storms. The storms caused the snow and valley’s ice to get lifted up. Some weaker mountains were even blown apart and shattered in the wind!

“En, another white wind?” Chu Mu teased.

The angry wind came at Little Hidden Dragon filled with rocks, glaciers, and snow. Little Hidden Dragon responded by opening up its cyan wings!

The wings shifted forward to create a powerful meat wing shield, blocking all the winds outside.

“Heng, is the Three Form Wind Envoy’s techniques really that easy to stop?” Guan Zhangming humphed.

The storm roared and blew continuously at the Little Hidden Dragon’s wing shield. At first, all the wind dissipated when it hit the Little Hidden Dragon’s body. However, as the wind continued to blow, Little Hidden Dragon’s body started showing signs of decay.

Corroding wind!

The wind did not corrode Little Hidden Dragon’s muscles and bones yet, but was affecting its skin!

The corrosion was getting worse and worse. If the corroding wind never ended, Little Hidden Dragon’s skin and armor would be gone. Following that, the muscles, blood, and bones would all disappear as well, leaving nothing but rotten bits behind!

“Enjoy this. My Three Form Wind Envoy could last an hour doing this. In an hour, you won’t even have the chance to collect the corpse of your dragon!” Guan Zhangming laughed arrogantly.

Chu Mu met quite some opponents in his life, many that were arrogant and self-centered.

However, this Guan Zhangming was not only arrogant, but also egotistical to the point of madness!

“Your Corroding wind, can it even corrode souls?” Chu Mu said.

“Souls? Of course not, but once your dragon’s body disappears, what use is the soul?” Guan Zhangming said.

“Oh.” Chu Mu nodded satisfied.

This Guan Zhangming really was straightforward.

Since it can’t corrode the soul, why was this gust any threat?

“Little Hidden Dragon, ghost fade!” Chu Mu gave the command.

Little Hidden Dragon’s body immediately glowed with a blue that was contained within its body.

Under the blue ghostly light, Little Hidden Dragon’s skin slowly became clear as if it were a shallow reflection in water. One could see the Little Hidden Dragon, but also see the bottom of the water.

After becoming ghost state, the powerful corrosive wind just started going right through Little Hidden Dragon and no longer posed a threat to Little Hidden Dragon.

The corrosive wind’s most terrifying property was its ability to corrode physical things. Now that Little Hidden Dragon had no real state, why did it matter how powerful the wind was?

“This.....this.... Your dragon!” Guan Zhangming saw Little Hidden Dragon’s change, and was dumbfounded.

Why did the empyrean cyan hidden dragon have a ghost type technique!

“If you thought Chu Mu’s dragon was just a normal hidden dragon, then you are very mistaken.”  
Prince Chao mimicked Guan Zhangming’s tone as he said that.

Everyone else nodded.

Guan Zhangming’s face slowly turned green. Remembering that there were ghostly winds before, he finally understood that this dragon had ghost type!!

The corroding winds couldn’t corrode souls. In ghost state, this dragon was completely immune to Three Form Wind Envoy!

“Ao!!!!!!!!!!”

Ghost state Little Hidden Dragon let out a roar!

Its body passed through the wild corrosive wind, its claw gathering hundred thousand souls along with a powerful dragon light that combined to create a darkening ghost blade that caused the entire world to darken.

“Shua!!!!!!!!!!”

The ghost blade flashed through with a hard angle. Three Form Wind Envoy dodged hurriedly, its long scorpion tail was still hit by the blade.

The Scorpion blade and the Three Form Wind Envoy's lion bottom snapped off. Very quickly, a bunch of violent ghosts came and devoured the tailbone.

Breaking the tail caused the Three Form Wind Envoy to be slightly unbalanced. The three winds surrounding it suddenly lost one shade, and its body started being shaky!

Seeing the black wind disappear, Chu Mu rubbed his chin and said, "So that's how it works. The scorpion tail did the corrosive winds. That means the lion body probably created the red winds, while the lamb head creates the yellow binding winds?"

Indeed, the wind envoy opened its mouth and the yellow binding wind suddenly became stronger!

"Break a tail of my soul pet, I'll get rid of all your soul pets!" Guan Zhangming roared in shame.

The yellow binding wind could affect the soul. Guan Zhangming was angry, and was forcefully strengthening the binding winds now!

The binding winds were like ribbons that surrounded Little Hidden Dragon. The wind's softness was something hard to struggle free of. Chu Mu simply told Little Hidden Dragon to remain as a ghost and use its spirituality to avoid the winds.

Dragon species usually didn't have much nimbleness but the ghost type perfectly alleviated that.

The ghost dragon's flight path was incredibly uneven. Sometimes the wings seemed like they were flapping forward yet the Little Hidden Dragon would fly backwards. Many times, even without flapping its wings, Little Hidden Dragon could move at extreme speeds in unpredictable fashions!

The yellow binding winds became denser, pushing Little Hidden Dragon to the bottom of the glacier.

Guan Zhangming laughed at this point, "Let's see where you can escape. Are you going to escape by breaking through the hundreds of kilometers of ice?"

The binding wind was coming from all directions. At this point, Little Hidden Dragon couldn't escape no matter how good its flight technique was.

The next moment, the deep yellow binding wind came over and Little Hidden Dragon, seemingly unable to escape, let out a whimper.

However, when the binding winds were about to catch Little Hidden Dragon, it suddenly turned around and darted back into the ice!

Darting into the ice didn't mean smashing into it. The ice had a mirror-like effect making it Little Hidden Dragon's safest haven. Ghost type organisms could enter such mirror-like spaces without any problem.

"Huhuhu"

The binding wind's destruction wasn't that strong. All of it landed on the thick glacier, and lost direction because its target had disappeared into the glacier!

"Ghost image!" Guan Zhangming's face turned green as he bit down. How could he forget that ability of ghost organisms!

Unless Guan Zhangming shattered all the glaciers, there was no way the binding wind could touch Little Hidden Dragon!

Little Hidden Dragon's ghost type was causing Guan Zhangming to go crazy. Spectators also felt the frustration of a wind type organism against a ghost type organism!

"Rip it apart!!!"

Guan Zhangming had lost his mind to anger, and simply started casting the most powerful red ripping winds!

The red lion mane started dancing, as visible gusts of red wind became cruel devil claws!

Red slashes flew through the sky, raking through the ground and creating countless deep gouges. The wind were like red devils that extended their powerful claws to rip everything in sight into pieces!!

"Hua!!!!!"

The winds flew through and the glacial plains ripped open. A thirty meter long tear appeared in the glaciers.

“Hua!!! Hua!!!! Hua!!!!!”

Soon following, many more red ripping winds dived in and the glaciers were shattered. The frightening scene caused even the far away spectators to jump in fear!

Guan Zhangming was crazy. His Three Form Wind Envoy’s red ripping winds had no attack direction and seemed to be devoted purely to destruction!

Anywhere that a mirror could appear was visited by the winds.

Yet, this was a glacial world. Flat surfaces were everywhere. Since all the glaciers were interconnected, it was like an underwater world that Little Hidden Dragon could easily traverse at ease!

The battle went from heavenly mountain down to the other mountain ranges, to the glacial plains, and more. The near thousand kilometers of battle wreckage caused everyone to understand the true destructive force of wind type techniques at a high level.

At this time, near half of the glaciers in a thousand kilometer stretch was shattered.

Yet outside the thousand kilometer range, soul pet trainers’ visions were no longer clear enough to see the battle. People could only see that Little Hidden Dragon was finally forced out of the mirror world and was fighting the Envoy in the air. Occasionally, the red winds ravaged the land, but other times ghostly figures covered the skies!

The mountains shook and the sky changed. After a while, the two powerful high class dominator rank organisms pulled closer again.

“Hey, they’re slowly fighting their way back!” A spectator noticed.

The winds and ghostly light constantly bumped. Even now, no one knew what the battle was like. After all, the three form wind envoy had a beast’s body, and so its close combat wasn’t weak!

As they got closer, people could already see their battle form.

This was because the battle wasn’t unconsciously being brought back. Clearly, the Three Form Wind Envoy was stumbling around and getting hit back by Little Hidden Dragon one technique after another!

Chapter 1215: Final Battle

“Lost.....lost again??”

The realm masters were numb at this point.

At this point, the Three Form Wind Envoy was full of wounds. Its once mighty mane was now tattered. Adding on its broken tail, it no longer was the dominating wind controller a few moments ago.

The Three Form Wind Envoy was breathing heavily. Guan Zhangming glanced at the Sunset Emperor Roc and noticed that it was weak under the devil flames of the half devil as well. Guan Zhangming’s expression was unbelievably dark.

He had put down the word in front of all the spectators, yet he was now in such a pathetic state. Guan Zhangming's arrogance from his border city was nowhere to be seen.

"You're just lucky you had ghost type. If you didn't perfectly counter me, how could you beat me?" Guan Zhangming was ashamed and finally managed to utter some words.

"Losing is losing, why do you have so many excuses!" Chu Mu humphed.

Guan Zhangming gritted his teeth. With Chu Mu provoking him like that, he considered continuing fighting.

Thankfully, Lu Yuqin appeared quickly and announced the end of the battle to save Guan Zhangming. If they continued fighting, Guan Zhangming's Three Form Wind Envoy was definitely going to become a soul within little hidden dragon's body!

"Cloud Realm, lost!"

Lu Yuqin announced the end of this battle with an emotionless face.

Though Lu Yuqin had no expression on her face, her heart wasn't completely calm. After all, the strength that Chu Mu displayed completely surpassed all expectations!

Cloud Realm again was defeated, which was expected by many of them at this point.

Wind type against ghost type already meant this battle was pretty much lost. However, before they knew it, New Moon Ground who no one favored had won six matches already!

This meant that with one more battle, New Moon Ground will permanently be independent from Cloud Realm and become the first territory in the past centuries to ever go independent!!!

There was no large gap to overcome between the two anymore. In fact, the controllers of Cloud Realm already feel Chu Mu nearing their necks with a cut throat blade, giving them huge feelings of danger!!

“It’s the last battle, if New Moon Ground wins, New Moon Ground will become independent from Cloud Realm and be protected by Divine Sect.” Lu Yuqin specially emphasized.

This emphasis created pressure for many of the Cloud Realm rulers!

“Realm Master Li has to fight now, right!”

“In the battle, though the Ghost Hidden Dragon defeated Three Form Wind Envoy, Ghost Hidden Dragon doesn’t have much strength left. Realm Master Li should be able to handle things quickly if he fights.”

“En, Realm master Li isn’t any weaker than Border Commander Wu Zhen or General Guan. Though New Moon Ground had such an expert appear, independence still isn’t easy.”

“Realm master Li won’t lose!” Someone from Cloud Realm yelled.

Someone yelling this was already indicative of their unease.

At least, in the previous battles, no one even thought of the question of whether he would lose or not because everyone knew that New Moon Ground couldn't possibly defeat a seventh rank realm master.

However, after the battles, the Cloud Realm people's hearts were panicking. The two others that weren't much weaker than Realm Master Li, Wu Zhen and Guan Zhangming, had already lost. This meant that if Li Xu went first, he would have been defeated already!

"Hehe, these people truly have the face to say that. From how I see it, even if Li Xu won, Cloud Realm had already lost all its face. They sent nearly the seven strongest person in their entire realm, yet they barely won. If this news got out, countless people would fall to the floor in laughter!" People in other realms started speaking too.

One could say that, up until now, the situation was getting more and more out of control. In fact, many outer realm people were subconsciously supporting New Moon Ground now, hoping it could find independence!

"Li Xu, is the last fight going to be you?" Lu Yuqin eyed Li Xu and asked.

Li Xu was already full of worry. Though others may think Chu Mu's fighting strength was nearly finished, he would easily win for one more person.

But, Li Xu heard from Wu Zhen that there was a purple flame soul pet he owned that was also powerful!

However, if Chu Mu used Ghost Hidden Dragon to waste some of his strength and then summoned the purple flame soul pet, there was a very good chance he would lose!

“Looks like I should use some soul pets to waste his energy!” Li Xu made the decision.

Li Xu looked at Lu Yuqin respectfully and chanted an incantation to summon a wing type soul pet into the battle.

Li Xu never stopped chanting once he entered the battlefield. He summoned three middle class dominator rank soul pets at once!

The three middle class dominator ranks were wing type White Crowned Four Eyed Bird, Aerial listening Demon, and Fierce Bone Beast, all beast type.

Li Xu didn't summon his strongest soul pet at once, causing everyone to understand his plans.

“This Li Xu really isn't ashamed, and wants to wear away at Chu Mu.” General Mu already started swearing.

Border Commander Wu Zhen, Guan Zhangming, two high class dominator rank experts had gone before him, yet as a seventh rank realm master he didn't directly attack and instead summoned other soul pets to waste away at his stamina. Such actions were truly shameful. General Mu was confused at how such a coward ended up being a realm master.

“Grandfather, don’t get worked up, Chu Mu should have a good chance.” Mu Qingyi saw Mu Zuoli starting to swear a little too loud and called him back.

“Have a good chance? That Ghost Hidden Dragon doesn’t have much power left. With three middle class dominator ranks wasting its stamina, it definitely won’t be able to fight anymore. What else can Chu Mu use to fight against the high class dominator rank of Li Xu?” General Mu said.

General Mu was very adamant and stood completely on New Moon Ground’s side. If not for Li Xu using near illegal tactics to switch realm masters around, they may really have won with their own strength. General Mu had already been seeing Chu Mu in a brand new light, so naturally he got worked up!

“Mr. Mu, Chu Mu hasn’t even summoned his strongest soul pet, don’t act as if we’re going to lose for sure!” Ye Wansheng said.

Mu Zuoli immediately stared wide eyed and in shock!

That powerful Ghost Hidden Dragon wasn’t even his strongest soul pet! This kid, just how many near high class dominator rank soul pets did he have?

Chapter 1216: Nine Tailed Hades Purple Emperor!

Little Hidden Dragon’s self-healing abilities were very strong. Against three middle class dominators, the Little Hidden Dragon would perhaps still be able to fight.

Li Xu was particularly careful since this was the last round. His three soul pets were also fighting in a rather conservative style, aiming to primarily exhaust the opponent.

Li Xu’s cautiousness made the people from outside New Moon Land feel humiliated, but this conservative style was indeed a bit troublesome for Chu Mu.

Li Xu's control over his soul pets was extremely adept, and his usage of techniques was clearly much more proficient than Guan Zhangming. From what Chu Mu could see, if soul pets of the same rank were to fight, Li Xu would definitely beat Guan Zhangming.

"Little Hidden Dragon, return." chanting an incantation, Chu Mu ultimately recalled the Little Hidden Dragon.

Since Li Xu was being so careful, Chu Mu would just stimulate things then!

Although Li Xu's three middle class dominators had exhausted almost all of the Little Hidden Dragon's remaining fighting strength, his three dominators weren't in a better state.

When Li Xu saw Chu Mu recall the Little Hidden Dragon, he also recalled his three middle class dominators to their soul pet space.

So far, this fight had only been probing, exhausting, and warming up. What came next was probably a true contest between high class dominators!

Chanting an incantation, a soul pact halo appeared on Li Xu's body.

Different from most soul pet trainer's soul pact halos, Li Xu's soul pact halo shot imposingly in all directions. Each beam of light was like a sword striking out.

The only type of soul pet with such a dazzling soul pet halo had to be a light type soul pet.

Chu Mu wasn't worried. He stood from afar and silently looked at the soul pet Li Xu summoned.

The halo was like swords that were ostentatious and domineering. Its back, neck and head were all formed by different length swords. The mighty aura it emitted and imposing majesty prevented people from looking directly at it let alone approach it!

There were not many light type creatures in New Moon Land. The representatives of the beast type and light type combination creature was the Linyin Beast and Thousand Wave Beast.

Compared to them, the creature Li Xu had summoned was similar, and its body was draped in armor.

The armor of Li Xu's light beast emitted countless sword halos, making it seem like most of its armor was sharp weapons!

"Sword Light Beast. A light type high rank armored beast..." Chu Mu looked at the soul pet Li Xu had summoned and muttered to himself.

There were no variations of the Sword Light Beast in New Moon Land. Chu Mu had seen the picture of the Sword Light Beast in a library in Cloud Realm.

The Sword Light Beast in real life was much more mighty and imposing than the picture. Its light swords that resembled armor, fur and external bones accentuated the unstoppable aura that beast type soul pets needed to its fullest!

Just a moment ago, there were many people questioning the cowering Li Xu. But when he summoned the Sword Light Beast, these people shut their mouths.

A high class dominator!

This was a genuine high class dominator rank Sword Light Beast!

As the lord of a realm, Li Xu was nowhere near as arrogant as Guan Zhangming or as reckless as Wu Zhen. Especially since the fight had reached the last round, Li Xu had to put 100% of his focus in.

He stared at Chu Mu and also didn't impatiently order the Sword Light Beast to attack. Instead he waited for Chu Mu's summon.

He knew that Chu Mu still had one more soul pet!

Since the opponent had shown his cards, Chu Mu obviously had to use his full strength.

He glanced at the small Mo Xie on his shoulders who very awarely jumped off.

Unknowingly, the fight had already entered nighttime. A thin ray of moonlight shone down from the horizon onto the glacier ground, reaching Chu Mu.

The small Mo Xie gracefully jumped to the moonlight and walked along the moonlight. Her unblemished silver fur seemed even more majestic under the immersion of the moonlight.

“Wu wu wu wu...” Mo Xie lifted her head, and gave a howl towards the moon shining from the horizon.

A moon-shaped imprint on her forehead faintly flickered, as if it was absorbing the moonlight.

Simultaneously, under her feet, four balls of angry purple flame were quietly ignited.

The flames slowly rose, finally engulfing Mo Xie’s body and tails completely in angry purple flames.

The flames silently burned under the moonlight as they gradually proliferated!

The clear sky had at some point been covered by a thick layer of demonic clouds. Only, the ray of moonlight remained clear.

“It’s the tail... that’s the tail!!” At this moment, a few people began to shout among the spectators.

“So you also saw it in Wen City!” the soul pet trainers from Wen City lifted their heads and looked fixedly at the demonic clouds in the sky.

The demonic clouds were endless and covered the night sky. But from the moonlight of the silver moon, it was possible to see the silhouette of the winding tails that resembled mountain ranges!

There were a total of nine tails. The silhouette of these nine stunning tails had been suspended in the air above Wen City; there was probably no person who forgot the beautiful yet heart-trembling scene!

The dark night and demonic clouds outlined the silhouette of a creature. But nobody had seen this creature before!

“Wu wu wu wu wu...” a spirited cry rang out from the angry purple flames. In an instant, the demonic clouds in the sky transformed into a vortex that rapidly whirled downwards into the ball of angry purple flames!

The purple flames began to dance and the nine wild dragon-like tails were extended.

They seemed to touch the stars, whip the earth and twist around like a mountain peak.... When the nine tails that were full of majesty genuinely appeared, the beauty and shock they brought left countless people dumbstruck!

“This... this soul pet... is stronger than last time!” said Wu Zhen with astonishment!!

Wu Zhen’s Rock Wing Dragon had been barely able to fight it last time, but from the aura of this soul pet this time, Rock Wing Dragon was somewhat insignificant in front of it.

Under the accentuation from the angry purple flames, the silver fur fluttered in the air like a noble wearing a silver colored windbreaker. After transforming into the Hades Fox Noble Purple Emperor, Mo Xie’s noble aura was fully displayed. Regardless if it was the boundless earth, the biting cold glaciers or the countless creatures in between the heaven and earth, they all seemed to be crushed under the four feet of angry purple flames!

After transforming, Mo Xie's aura dominated everyone, including the two strongest people present - Lu Yuqin and Cloud Gate's old man.

Cloud Gate's old man had the most experience. His two eyes that were hazy with ice and snow were opened so wide they couldn't get any wider. His eyes seemed like they were going to fly out of their sockets!

"Purple flames, the body of a fox, silver fur..." Cloud Gate's old man muttered like he had gone mad as he looked at Mo Xie. Suddenly, he seemed to have found something wrong and looked at the beautiful long tails. With a face full of shock he cried out: "The tails! Why are there nine tails?!!"

On New Moon Land's side, Old Li heard Cloud Gate old man's strange cry and couldn't help but profoundly laugh.

"Old Li, why is he crying out like that?" Ye Qingzi glanced at Cloud Gate's old man, and confusedly asked Old Li a question.

"That old man definitely knows of the five undying legends. The description of Hades is: purple flames, the body of a fox, silver fur and a meandering tail. A normal Hades will only have one meandering tail. But Chu Mu's Mo Xie is a soul pet that has continuously mutated. Through each mutation, she inherits her the species techniques. Mo Xie's nine tails were carried on from when she was a Royal Flamed Nine Tail Inferno Fox. No matter how much that old man racks his brains, he won't understand why Mo Xie has nine tails, yet is clearly Hades." said Old Li.

Indeed, Cloud Gate's old man was at a loss over this problem!

As for Lu Yuqin, she had only heard of the five undying legends so she wasn't aware of the tail problem.

Regardless of how calm and cool Lu Yuqin's nature was, in the face of a young soul pet trainer with one of the five undying legendary rank soul pets, she was incapable of remaining calm!

The value of a dominator rank Devil Soul was indeed extremely high and even neared the five undying legends. However, the Devil Souls ultimately were not suited to fighting. If she had to choose between them, she would definitely choose the five undying legendary rank creatures!

Not long ago, Lu Yuqin had been immersed in figuring out the Evil Good Demoness Concubine's true species and rank. However, before she managed to figure it out, Chu Mu summoned an even more shocking soul pet. Indeed, although the five undying legendary creatures existed in this world, it was practically impossible for a human to sign a soul pact with them!

Lu Yuqin couldn't understand how a young man from New Moon Land had a Hades Purple Emperor!!

In Divine Sect, there had been one outstanding talent in the past who had signed a soul pact with one. However, that was only temporary because the species rank of the five undying legendary creatures was extremely high. They may sign soul pact with humans, but would not become a human's soul pet. They would use humans as a cultivation springboard, and when their strength reached a higher level, they could not devote themselves to the human and instead would continue forward into even higher realms.

Lu Yuqin had seen the spirited and adorable small fox on Chu Mu's shoulder before, and she remembered that Chu Mu still hadn't entered the spirit dominator rank then.

If the small fox was Hades, then the weakest strength of Hades was a peak dominator. With such an enormous power discrepancy between soul pet and soul pet trainer, why didn't Hades just leave??

.....

The five undying legendary creatures could sign soul pacts with humans, and there had been people who had done this. However, even including Lu Yuqin's extremely revered elder, that had only been temporary...

Obviously Lu Yuqin wouldn't know that Mo Xie hadn't been the powerful undying legendary Hades from birth.

Back then, she was merely a Silver Moon Fox at the lowest level in the world. Even if she reached the tenth phase, as a servant rank creature, all of her bones would be broken by a single breath from any creature here.

From the lowest level to the undying Hades today. Mo Xie hadn't left Chu Mu's side through every step of her growth. This was a interdependent relationship that didn't need to be justified. Even without the restrictions of a soul pact, the relationship would still exist. What need was there to discuss whether she would leave or stay?

Not every Hades cold-heartedly wanted to reach the very pinnacle of the soul pet world.

Nor could every soul pet trainer maintain steadfast loyalty even when a soul pet was weak and small.

Chapter 1217: Mo Xie, Having a Enjoyable Fight!

What soul pet was this?

Li Xu sifted through the memories of all soul pets in his brain, but couldn't find anything similar to the purple flamed fox noble in front of him.

Feeling the domineering aura that looked down on every creature under the heaven, Li Xu felt mysteriously flustered inside.

He was unable to discern this soul pet's rank, but he was certain that the fox noble was definitely no lower than a high class dominator!

While the Sword Light Beast mighty and majestic, under the demonic aura of the fox noble, the light halos it emitted were dimmer!

"Li Xu, from today on, New Moon Land will be independent from your Cloud Realm!" Chu Mu coldly looked at Li Xu and spoke in an iron voice.

"Who on earth are you!" the flesh on Li Xu's face faintly trembled.

This was another high class dominator. Was this brat going to sweep through all of Cloud Realm's experts today?

"New Moon Land, Chu Mu." coldly sneered Chu Mu.

Chu Mu didn't waste more time. The battle had reached this point, and it was time to end it!

The purple flames on Mo Xie's body surged around following her control. Occasionally, they would soar into the sky like a phoenix and other times they would roam the earth like wild dragons!

Li Xu glanced at his Sword Light Beast. His soul pet was also a high class dominator while the opponent was a mere young soul pet trainer. In terms of understanding of fights, Li Xu furthermore had absolute confidence that he was more experienced than his opponent!

Even if he was one or two levels weaker than the opponent, let alone at the same level, Li Xu would rarely lose!

"Don't act like you've already won. Do you really think you can beat me?" said Li Xu.

As he spoke, the Sword Light Beast charged into the night sky. Its body emitting dazzling sword lights ostentatiously dazzled in all directions!

The halo of light pierced the curtain of night and towards the charging Mo Xie.

The sword lights were very packed together and from the layman's eyes, it was as if the entire night sky was occupied by the sword lights. However, in those insignificant-looking shadows, it was always possible to find Mo Xie. Relying on her acute perception and dodging abilities, Mo Xie quickly moved through the chaotic swords. All people could see was a ball of purple flames moving amidst the numerous and chaotic sword lights!

"It's dodging abilities are so strong!" Li Xu was stunned.

Despite how packed and numerous the sword lights were that there were almost no gaps, the Fox Noble Purple Emperor was still able to dodge. To a certain extent, this meant that normal techniques were probably incapable of striking the Nine Tailed Fox Noble!

But since its dodging abilities were so strong, this meant that its defensive abilities were nothing special!

After determining this, Li Xu chose to have the Sword Light Beast pull away.

The Sword Light Beast's movement speed was not slow. After a dazzle, it slid over ten meters away.

A light incantation quickly surfaced on the Sword Light Beast's armor, quickly forming a large punishment sword in front of it!

The punishment sword was incomparably large and after condensing, it rapidly shot forth, emitting a sharp whistle between the heaven and earth!

Mo Xie saw the Sword Light Beast retreat, and subconsciously believed that it wanted to adopt defensive measures. But when Mo Xie arrived in front of it, what met her was an enormous punishment sword. She could not dodge at that point.

Raising her tails, Mo Xie didn't slow down. Her nine tails kept extending, and when the punishment sword flew at her, her tails formed a nine tail fan that was as large as a mountain wall!

The punishment sword stabbed into the nine tailed fan, and its power was instantly reduced by over half. Moreover, just when Li Xu believed that it could at last pierced through one of the opponent's tails, Mo Xie's tails suddenly turned soft and dispersed like a cloud!

When the nine tailed fan disappeared, the punishment sword continued to fly at Chu Mu.

When the enormous sword was right in front of her, Mo Xie suddenly extended a claw and struck the punishment sword!

After being weakened by the nine tailed fan, the punishment sword was incapable of withstanding Mo Xie's claw strikes. It was instantly shattered into fragments of light that slipped through Mo Xie's long hairs of fur.

After shattering the opponent's technique, Mo Xie still didn't slow down. Her body suddenly transformed into a bolt of lightning that followed a patternless movement!

“Sou sou sou sou”

Moving sometimes left and sometimes right, Mo Xie seemed to be instantly teleporting. Simultaneously, it looked like three purple bodies appearing in the sky. This was the pinnacle of speed!

Li Xu's brows furrowed as he stared at Mo Xie. He wanted to use soul remembrance to determine where the opponent was going to finally strike, so he would be able to make ample preparations.

However, when he discovered that the Fox Noble would leave a cold light in between each remnant of her figure every time she changed locations, Li Xu abruptly realized that the opponent wasn't searching for an angle of attack, but instead forming an array!

“Nine Tail Chain!” Chu Mu slowly spat the name of the technique out.

Simultaneously, a purple flame suddenly ignited on the path Mo Xie was moving on. The burning shape of the flames happened to be chains that interweaved in midair!

The purple flame chains were enormous and sturdy. When they were stretched taught, they had all locked onto the Sword Light Beast.

The Sword Light Beast reacted very quickly and continuously stepped through the air and changed locations. It tried to escape the sealing range of the Nine Tail Chain.

Li Xu’s face turned grave. If he had determined a bit earlier that the opponent had this sealing technique, he obviously wouldn’t have fallen into the countless intertwining chains. Now, the Sword Light Beast’s dodging was a bit hurried.

Seeing that two of the purple flame chains were about to wrap around the Sword Light Beast, Li Xu’s heart clenched and he hastily gave an order:

“Light Doppelganger!!”

The Sword Light Beast’s body instantly flickered with a halo of light. The light halo began to split layer by layer and rapidly formed increasingly deep five light figures. Each light figure was somewhat similar to the Sword Light Beast.

The five light figures with different shades of brightness were confusing and the two chains were unable to wrap around the Sword Light Beast’s realm body, allowing it to escape this calamity.

After escaping NIne Tail Chain's sealing, there was a bit of sweat on Li Xu's forehead. Unconsciously, he felt that the opponent's soul pet wasn't as simple as a high class dominator. Regardless if it were attacks, explosive force, speed or defense, this Fox Noble was slightly stronger than his Sword Light Beast.

"Pai!!!!!!!!!!!"

Just as Li Xu was inwardly shocked, an enormous tail hidden in the demonic clouds suddenly struck forth like a wild dragon. It swooped down terrifyingly from the clouds and struck the back of the Sword Light Beast.

Being struck caused the sword lights piercing outwards on the Sword Light Beast's back to snap off. Even its armor was caved in, and fresh blood began to leak out!

The sudden attack left the Sword Light Beast teetering in the sky. Before it could stabilize itself, a ball of dazzling fire light ignited above the demonic clouds.

"Hu Hu!!!!!!!!!!!"

It was again above the demonic clouds. The two enormous purple flame meteors that seemed to come from above the sky sped diagonally through the night sky. The gorgeous trajectory left those who saw it dumbstruck!

The two balls of flaming meteors that came from beyond the heavens hurtled towards the Sword Light Beast. Just when it stabilized itself, the two powerful flaming heavenly meteors arrived in front of it. When it lifted its head, the Sword Light Beast's field of view was completely covered by the dazzling purple flames. At this visual suppression range, the Sword Light Beast didn't know how to dodge them!

“Hou hou!!!!!!”

The Sword Light Beast gave a roar, and the halos of light on its body interweaved above its head and in front of it. It was just barely able to create a light halo defense.

The purple flaming meteors from above the sky smashed down, instantly engulfing the Sword Light Beast’s light halo defense. This included the Sword Light Beast’s imposing body which seemed abnormally tiny in comparison to the purple flaming meteors.

“Xiu!!!! Xiu!!!!!!”

When the meteors near the ground, people finally realized how enormous the two purple balls of flame were. Even though they were over a hundred kilometers away, they felt that they were very close. Even the mountain range in front of Heavenly Mountain was incapable of containing the meteors!

“Hong hong hong!!!!!!!!!!”

The flaming clouds from beyond the sky smashed the Sword Light Beast into the glacier earth. Instantly, the icy snow world was transformed into a purple hell. Scorching flame lights prevented people from opening their eyes.

The flames were endless and when everyone’s vision slightly recovered, they discovered that in the boundless flaming hell, the Fox Noble that possessed powerful strength lifted its meandering long tails and flew through the hell. Its techniques landed one after the other on the Light Sword beast.

From the start, when the Sword Light Beast was struck by a tail, it seemed to be constantly on the passive defense. All of the techniques it used were to buy it opportunities to catch a bit of its breath.

However, the power of the Fox Noble surpassed everyone's imaginations. Its techniques were continuously released and added on the high frequency attacks of the nine tails, the Sword Light Beast was unable to actually catch its breath for a very long time.

Seeing his Sword Light Beast reduced to such a passive state, Li Xu's face was ashen.

He hatefully threw a glare at Wu Zhen. He remembered Wu Zhen telling him that this purple flame soul pet was probably only slightly stronger than his Rock Wing Dragon. At most it was a high class dominator.

However, from the series of explosive attacks just now, this Fox Noble was evidently a level stronger than the high class dominator rank!

Added on the power and unknown factor of its techniques, for a moment, Li Xu couldn't find any opportunity to breakthrough and counterattack.

"How... how is this Fox Noble this strong! I remember that in Wen City..." Border Commander Wu Zhen was stunned.

With the fighting strength it currently displayed, the Rock Wing Dragon probably wouldn't last a few minutes before being completely destroyed. Wu Zhen was silently wondering why this brat hadn't displayed his full strength back then.

.....

Neither Li Xu or Wu Zhen knew that Mo Xie's Hades Fox Noble's genuine strength had increased and been released as Chu Mu's soul remembrance increased.

Chu Mu had entered the spirit remembrance rank over half a year ago. Thus, Mo Xie's strength had been released a bit more and added on the illumination from tonight's moonlight, Moon Essence's effect increased Mo Xie's strength by a level. Obviously, her fighting strength would be terrifying.

Chu Mu knew that Mo Xie who hadn't had an opponent for a long while now was overflowing with fighting intent. Therefore, today Chu Mu didn't have Mo Xie restrain herself in any way. He would let her release her strength as much as she wanted and have an enjoyable fight!

Chapter 1218: Fire Wave, Destroying the Glaciers!

Fox Shadow split into nine, each clone not any weaker than a middle class dominator rank!

Mo Xie's clones didn't have many of Mo Xie's techniques, but their sharp claws were enough to rip an enemy into shreds.

The foxes dashed around swiftly between the angry flames. Li Xu could no longer tell which was the real fox supreme. Under such a situation, Li Xu could no longer tell which was real and which was fake. Such a situation, Li Xu could only tell Sword Light Beast to take on a defensive state.

The Sword Light Beast was an armored beast, so its defense was one of the stronger ones. Or else, if it were any other high class dominator rank, it would have been heavily wounded under this assault!

The sword lights criss crossed, and the light tightly wrapped around the Sword Light Beast's body. The moment Mo Xie's clone came, the Sword Light Beast's body. Once a clone of Mo Xie comes, the Sword Light Beast's body would create a rack of swords that stopped the attacks.

The fox figures had nine shadows that attacked, each from a different angle. Li Xu was highly focused in case he made a slight error in judgement.

After the seventh fox figure attack, Li Xu slightly let out a breath. The swords' defense still had a third, enough to block the last two fox hits!

"Sou!!!!!"

When the eighth fox shadow appeared, it came from the side of the Sword Light Beast.

Li Xi immediately commanded Sword Light Beast to put up a sword on the side. Yet, when the fox shadow neared, Li Xu suddenly felt an extremely strong energy come at them!

"This..... This one isn't a clone!" Li Xu yelled out.

The remaining third of the defense was enough to block the two figures' attacks, but when the real hades purple emperor was before it, the defenses were meager.

When Li Xu told the Sword Light Beast to dodge aside, it was a little too late.

The purple claws flew through the sky like a comet, landing sharply on the Sword Light Beast.

The claws slashed aside the Sword Light Beast, the thick armor finally shattering in this moment. Blood spewed out like crazy!

In the cold glacial ground, five massive ravines appeared!

The Sword Light Beast fell into these ravines while it still bled, constantly leaking blood into the ice hole.

Standing up shakily, the Sword Light Beast clawed its way out of the cracks and stared furiously at the purple fox emperor in the sky.

“Houhouhou!!!!!!”

The Sword Light Beast roared and a glow shot outwards, lighting up the surroundings like daylight.

Suddenly, the Sword Light Beast’s glow again gathered within itself, and became a beam that shot straight into the demon clouds above.

“Hua!!!!!!”

The light blew up in the demon clouds, expelling all the demon clouds and creating a dazzling gleam in the air!

Within the light, one could vaguely see a massive light sword fly over in a spiral!

“Houuuu!!!!!!!!!!!!”

With another roar, the light in the massive light sword tilted and whistled down in the night!

Mo Xie looked at the light sword. When it neared her, she simply slightly shifted her body to dodge the blade. The missed blade stabbed into the messy mountain, its height comparable to a mountain!

“Hu!! Hu!!! Hu!!!!”

Following that one, many more light swords whistled down.

Many organisms had techniques that rained down from the sky densely: Fire rain, icicle showers, rock rain..... however, those were nothing compared to the light blades because each of these light blades were the size of mountains. Even from far away, they seemed shocking in size.

The light swords flew through the sky, and were too dense and large to allow Mo Xie to continue dodging.

She lifted her legs up and, every time she swept them, it created a powerful shattering force that rendered the light swords into scattered light.

However, the light blades were indeed plentiful. Defending against it would only waste more time and stamina.

Wasting this time naturally gave Sword Light Beast some chance to breathe!

Mo Xie, of course, couldn't let Sword Light Beast have his way.

“Wuwuwu~~~~” Mo Xie let out a long roar. The nine tails became massive mountain-sized dragons as they came over, starting to churn frenziedly.

As the churning got faster, the space surrounding the tails became more and more unstable, threatening to collapse.

Very quick, the nine tails created a powerful shattering force that was swung outwards with a flick, creating a shattering whirlpool towards the light swords' source.

Wherever the shattering whirlpool passed, the falling light swords became scattered light. At last, even the light collection wasn't spared, and the light scattered into streams of energy under the tearing force, falling from the sky and disappearing.

Li Xu looked upwards and glanced slightly dejectedly at the scattered light.

Li Xu told Sword Light Beast to cast the sword light cloud not to do a lot of damage to them, but instead to waste time so Sword Light Beast could make some adjustments. After all, after the series of attacks, the Sword Light Beast had many wounds already.

He never expected the sword light cloud to be shattered so quickly. Seeing the powerful fox supreme again launch itself over, Li Xu was angry, but had to admit that it was indeed powerful!

Mo Xie's figure was still hard to catch. Before the Sword Light Beast could put up any defenses, it was struck again by a claw!

The Hades Fox supreme purple emperor's claw wasn't a normal ripping claw. This claw also had a shattering energy that got rid of the meager amounts of armor on its body and also shattered the glacial ground in a ten kilometer radius!

The glacier became ice dust that instantly pervaded the skies, as if a blizzard had struck them.

Powdered snow drifted towards further locations, buffeting the spectators' faces, just as sharp as ever.

The powdered snow completely covered everyone's vision. Higher remembrance people could vaguely see that deep within the flying snow, an angry purple flame started burning!

The light was fuzzy and unclear but one could vaguely tell it was a fire type diagram.

When everyone lifted their heads, they noticed that in the sky, another inverse flame totem was matching the one on the ground!

“Wuwuwuwu!!!!!!!!!!”

Suddenly, in between the dark sky and silent glacier, a heart trembling call pierced through the mist!

“Longlonglong!!!!!!”

Shattering and rumbling soon followed the cry. Everyone stared wide eyed to notice that, on the angry purple flame totem in the sky, a creature large enough to cover nearly half the sky appeared!

This organism was completely made from angry purple flames, creating the shape of the fox supreme’s powerful and lithe body!

The fire fox supreme jumped out from the bottom of the sky diagram. Everyone saw it run upside down along the diagram that connected the heavens to the earth.

The heavens and earth should’ve been hundreds of thousands of miles apart, yet the fox supreme seemed to near the ground in a few mere steps!

Suddenly, the fox slammed into the ground without pause, using its flaming body to cause the ground diagram to be even brighter!!

The purple flame energy exploded over the ground. People from afar could see a tsunami of flames ripple outwards from the center of the diagram!

The flames’ power could even stretch a few thousand meters back. This was something that was meaningless to dodge even if they jumped into the skies.

The brilliant flames pushed against the horizon towards the heavenly mountain range, seeming about to destroy the entire mountain range.

The flames imprinted on everyone's faces. They stared in shock, fear, and dumbfoundness as they saw the flames devour the ice plains and mountains.....

Yet, they didn't stop there. The powerful flames were at the feet of the mountains and were about to reach the main peak without pause. Feeling the heat on their faces, the spectators suddenly realized that the flames were about to devour them all!

“Barrier!! Everyone create a barrier together!!” The Spring Realm realm master yelled in fear!

“Summon defensive soul pets!!!”

“Ah!!!” It spread incredibly fast. Some people already let out screams from being unable to handle the heat.

The hundreds of thousands of people instantly fell into chaos. Compared to the flames, these people were just a few black dots in the unstoppable tide, easily being devoured.

Lu Yuqin, as the main judge, was at the center of the battle, and was too far to come back to save them from the flames.

The spectators were all soul pet trainers. In reality, if they all summoned their soul pets, they could easily block the edges of this flame technique. Yet, because there were a few hundred thousand of them, there were always a few weak ones that would instantly evaporate from the slightest touch of

the flames because they were weaker. Adding on spreading chaos within the crowd, the situation only got worse.

When the flames came, it was like a disaster. Many people could feel death near them!

“Heng! Can’t believe you're making old me help!”

Just as the flames were climbing the feet of the mountain, the cloud gate old man suddenly humphed. His old body suddenly seemed taller as he flew towards the massive flame wave alone.

The old mans’ body was like a grain of sand in front of a tsunami, yet when the flames neared the old man, an ice beast suddenly appeared beside him!

The ice beast let out a roar and sent a ripple of coldness outwards!

The temperature suddenly fell as the ice sealing power turned on the flames!

The flames rolled forward slightly more due to momentum but the rampant aura was stopped and ice slowly froze it over!

The shocking purple was swiftly covered over by ice, and the temperature nearby finally fell a few degrees.....

Chapter 1219: Independent Land, Those Who Violate Us Will Be Killed!

The burning purple hurt their eyes. People didn’t dare open them in a long while.

After a countless amount of time, bits of coldness spread over. When they reopened their eyes, the terrifying flames were only the last remaining inklings of flames.

The melted ground was now coated in a thick layer of ice. The angry purple wave was completely calmed. Even so, the people were still in fear because, under the flames, any of them and their soul pets were small.

“Thank you for helping, elder.” Lu Yuqin rode her cloud immortal dragon tail phoenix over to the cloud gate elder and said politely.

“Just a slight effort. Thankfully, the Hades’ strength is somewhat suppressed. If it completely releases its Hades flames, the casualties were even worse.” Cloud gate elder said.

Lu Yuqin nodded, and glanced over at the battlefield afar.

“You don’t have to look for anything. Sword Light Beast couldn’t possibly stop a blow like that. Li Xu lost. Check if the sword light beast is still alive or not. Don’t make the feud too deep.

Lu Yuqin saluted simply, and brought her cloud immortal dragon tail phoenix towards Li Xu.

The glacier was utterly destroyed. Li Xu stood dumbly in the center, his pupils having lost their focus.

This time, the sword light beast was laying not far from him. Its body was burnt wide with flames, and one could already see the burnt flesh in it.

The sword light beast painfully struggled and constantly howled.

Li Xu didn't even dare to summon it back, because the sword light beast was still in flames. If he brought the soul pet back to his space, even his soul would burn up.

Just as Li Xu was about to lose his mind, Lu Yuqin had got there. She told her cloud immortal dragon tail phoenix to blow the flames off of sword light beast, and summoned another light type soul pet to give it a light type healing.

Seeing Lu Yuqin's actions, Li Xu finally realized that he was still alive, and quickly went forth to give Sword Light Beast medicine.

Though it lived, it only had half a life left, and couldn't possibly fight more.

After a while, Li Xu brought the dying sword light beast back to cloud realm territory and, following that was Chu Mu, along with his shocking purple flame fox supreme.

The glacial world was silent now. Everyone looked at the victorious Chu Mu and the defeated Li Xu. He knew nothing else to compare his own emotions to.

Defeated!

Cloud realm's last realm master Li Xu was defeated!!

A total of seven battles- Cloud Realm sent nearly the seven strongest people in their entire realm yet they still lost. Anyone could see that in the last battle New Moon Ground won with an overwhelming advantage that was clean, yet also unexpected.

“Win!!! Hahahah, we won!!!”

In the silence, someone’s voice suddenly sounded with a powerful and inspiring power.

Following that, New Moon Ground's people all went wild!

Territorial Independence!

This was probably the first time in a few hundred years that a territory went independent. Whether it was the past or the future, New Moon Ground would be the first.

Seeing everyone cheering around them, Liu Binglan smiled.

This battle probably caused everyone to know about New Moon Ground. Liu Binglan was already planning on spreading their faction towards the nearby realms. This battle was the best beginning of the expansion of three palaces!!

Ye Wansheng, Mu Qingyi, Prince Chao, Shen Mo, Shen Lang, and a few others were also all smiling broadly.

They believed in Chu Mu's strength, and trusted that they could win but they never thought the victory would come so easily and cleanly!

.....

Chu Mu stayed in the air, and looked at Li Xu frantically trying to heal his sword light beast.

At this time, all experts of cloud realm looked at Chu Mu with a different expression now. They knew clearly that the man before them needed the three strongest people of cloud realm to come together to be defeated.

Chu Mu didn't focus solely on Cloud Realm. He hovered above the New Moon Ground faction and cloud realm faction. At this time, his outstanding nature was easy to see from all.

Fighting three cloud realm experts in a row was enough to prove his strength!

"From today on, New Moon Ground is I, Chu Mu's, own territory! Without my permission, no matter if you are a cloud realm master, some border commander, or a high official of Divine Sect.....you will die!" Chu Mu used his mental voice to say to the hundreds of thousands of people.

Chu Mu, of course, said it in front of everyone, meaning that more than a few hundred thousand would hear this. Because, in no time at all, the realms and kingdoms nearby would all spread the warning outwards!

Chu Mu's words were scathing. Though the cloud realm lost experts were angry, they didn't dare directly go against it.

Lu Yuqin heard this, and furrowed her brows because Chu Mu lumped Divine Sect members into this as well.

Divine Sect was the utmost organization in all of human realm. Anyone in the territory had to treat them like their most honorable guest. Did this New Moon Ground want to stop Divine Sect as well?

Lu Yuqin was calm in disposition and just acted like Chu Mu didn't know the rules and didn't mind. She thereafter announced their independence and said they were protected by Divine Sect. Without Divine Sect's permission, they weren't allowed to start a war against New Moon Ground. Dominator rank experts need permission to even enter this territory or else its seen as an intrusion where Divine Sect members had a duty to capture them!

Personal territories and realms had a fundamental difference, especially ones that are affirmed by Divine Sect. This wasn't something that could easily be ignored!

"One can only put hope on others."

After the battle failed, Lu Yuqin knew that she couldn't take the dominator rank devil soul anymore.

In reality, Lu Yuqin knew clearly that the dominator rank devil soul wasn't something that could be easily asked for. Many times, they would rather self destruct than sign a soul pact with an owner that didn't fit them. Since the girl could sign a soul pact with the dominator rank devil soul, she must be different in some fashion. Maybe stealing it would instead cause her to gain bad karma.

.....

“Old man, I couldn’t tell that you were such an expert. You remember our bet before?” Ye Wansheng smiled with ill intent.

Cloud gate elders had no choice. He originally just wanted cloud realm experts to get rid of this young man’s attitude and then he would clean up afterwards. Yet, he never expected New Moon Ground to have such an abnormally powerful young man, actually beating all of cloud realm.

“Ai, I watched their gate for my whole life. Helping you guard New Moon Ground isn’t a big deal.” Cloud gate elder said.

The old man protecting cloud gate was equal to protecting New Moon Ground. What was different was, New Moon Ground’s future powerful enemies weren’t something the old man could ignore anymore.

Chu Mu naturally could tell that the old man was extremely powerful. If he was willing to stay in New Moon Ground, Chu Mu wouldn't have as many worries leaving.

“Speaking of which, old man, were you some incredible character back when? Why is even Lu Yuqin so polite towards you?” Ye Wansheng added.

“What incredible character, I’m just a lost fighter. Kid, stop asking around.” Cloud gate old man sighed.

As he spoke, cloud gate elder looked at Chu Mu and hesitated before saying, “You remind me of a person.”

Chu Mu didn’t know who the old man was referring to.

As the man spoke, Liu Binglan slightly reacted but furrowed his brows, “Is he called Chu Tianmang?”

“Should be.” Cloud gate elder asked Chu Mu, “You two are father and son right?”

Chu Mu’s eyes lit up immediately.

“Don’t look at me like that, I only observed him for a bit. If I didn’t guess wrong, he should be in Darkness Sect now. Darkness Sect is indeed a place to grow swiftly but one could easily lose direction. I felt that his heart was firm as steel but he continues in a wrong direction!” Cloud gate elder’s voice became low so Lu Yuqin wouldn’t hear.

“Wrong direction.....” Chu Mu muttered.

His own path leader was his father Chu Tianmang, which was the right direction in Chu Mu’s heart: the constant push towards the path of soul pets. Could it be that his leader was actually walking the wrong way....

“Or maybe he realized but his determination leads him continuously along the road. A few years back, he wanted to come back to New Moon Ground. With his strength, he could have easily swept through all of New Moon Ground. I was just worried he would bring things not belonging to New Moon Ground back so I stopped him from entering.” Cloud gate elder said.

“Something not belonging to New Moon Ground?” Chu Mu was even more confused now..

“Darkness Sect! If he wanted to enter Darkness Sect, all of his whereabouts would be controlled by Darkness Sect elders- New Moon Ground isn't as simple as you think. Once Darkness Sect enters, the place will no longer be an untainted land. Your territory is independent now, but Darkness Sect never follows rules. You must be careful in the future. because New Moon Ground will slowly get attention from others.” Cloud gate elder said.

.....

“He territory - cloud realm - New Moon Ground....”

“Now it should be He Realm - New Moon Ground, without the cloud realm before it, right?” Xu Daofeng took out a pen, and changed the territorial belonging in the territorial courts.

Truthfully, Xu Daofeng didn’t expect Chu Mu to truly succeed. Even he just wanted to stall time to find another way.

“No, since its an independent territory, New Moon Ground doesn’t even belong to He Territory. It should be “Zhengming Continent, Double Monument Ground - New Moon Ground.” Lu Yuqin corrected Xu Daofeng as a teacher.

Xu Daofeng paused and asked, “Tenth and ninth monument..... so New Moon Ground is the double monument land!”

Lu Yuqin nodded and didn’t say any more.

Chapter 1220: New Moon Land’s Hidden Treasure

.....

“Change names? There’s no need, right? Just continue calling it New Moon Land. It’s the most fitting since our territory is the shape of a new moon.” Chu Mu shook his head, and refused the senior elder’s senseless suggestions.

Presently, Chu Mu had the greatest contributions towards New Moon Land, and was New Moon Land’s undisputed king. The senior elders wanted to change New Moon Land to Chu Land in order to show reverence to Chu Mu.

Chu Mu felt no need for this. Although his surname was pleasant to look at and pleasant on the ears, New Moon Land was indeed more fitting for this territory.

In terms of these major political affairs, Chu Mu didn’t have any interest in participating in them. He left them for Liu Binglan, Nightmare Emperor Jiang, Senior Elder Shen, and Senior Elder Pang.

Liu Binglan wanted to utilize New Moon Land’s recent independence to spread its fame to various large realms and plant the flags of the palaces in other people’s territories.

Now that New Moon Land was a private territory, it was under the protection of Divine Sect. it was also overseen by experts, so it was a safe territory. However, New Moon Land could not remain sealed off from the outside world like the past. It had to continue developing. In order to do so, they needed to step outside of this territory to learn, interact, and trade with others.

“Chu Mu, I’ve walked through a large part of the Holy Regions, and the resources inside are much larger than I remember. There are even a few places I dare not enter.” Liu Binglan looked at the somewhat listless Chu Mu.

She knew that Chu Mu wasn’t particularly interested in these affairs, but since this concerned New Moon Land’s future development, Chu Mu had to participate.

“That’s a good thing.” Chu Mu nodded his head.

If a territory wanted to become prosperous, it was inextricably tied to a high rank bewildering world. If the Holy Regions held by Three Great Palaces were all high ranking bewildering worlds, then Three Great Palaces was essentially in control of a massive treasure house.

Moreover, as the strength of New Moon Land’s people increased, those lands of treasure that had yet to be encountered by humans would inevitably be dug out. This would increase New Moon Land’s strength as a whole again, creating a positive cycle.

Of course, the most important thing was that New Moon Land had to have a strengthening interim period.

Liu Binglan indicated that the Holy Regions had distinct rank levels.

First, those that wanted to probe these territories had to be at least of the dominator rank. However, due to the lack of dominator rank experts in New Moon Land, it would be difficult to find those that surpassed the low class dominator rank.

The low class dominator rank was a rank threshold that precluded New Moon Land’s people from exploring the depths of the Holy Regions.

If they could enable more people to cross this threshold, thus having more people to enter the depths of the Holy Regions, these depths in the Holy Regions would become a genuine hidden treasure. The experts that went to explore would have a very high chance of obtaining xuan items since in the past several thousand years, the depths of the Holy Regions had never been explored.

As far as everyone knew, this was a virgin land that was bound to have plentiful resources. This was the best catalyst for developing the entire territory!

Of course, experts needed to clear the way for the Holy Regions, and the only people with this strength were Chu Mu, Mu Qingyi, Prince Chao, Ye Qingzi and Liu Binglan - this new generation of experts.

Unfortunately, aside from Liu Binglan, all of the others had unconfined and unrestrained hearts.

“Mother-in-law, the Holy Regions are too big, and there are so many Holy Regions. There are only a few of us dominator ranks. Exploring them one at a time isn’t very practical. I feel that it would be more optimal for us to open our doors to experts from outside the realm instead of being unable to obtain the enormous hidden treasures at all...” Ye Qingzi saw that everyone was brooding over this as she promptly spoke up.

“Opening our doors to outsiders? How is this possible? If they take the objects away, what will we do? In the recent period of time, I’ve been looking for books from beyond our territory to compare. I’ve discovered that their bewildering worlds with “plentiful resources” isn’t even one tenth of our Holy Regions. How can their bewildering world be considered rich? If it weren’t for us lacking experts...” Senior Elder Xiao was the first to refuse this.

Liu Binglan was a bit baffled by Ye Qingzi’s words, but she didn’t immediately refute her. Instead, she looked at her, wanting her to continue explaining.

“I’ll give an example. We currently have nine dragon caves full of treasures. With our strength, it is impossible for us to get rid of the dragons guarding the caves, leaving us with only the small resources at the edges of the dragon cave. Instead of preventing anyone from obtaining the treasures inside the dragon cave, it’s better to allow foreign experts to come and help us get rid of the dragon cave’s guarding dragon. Then, we can share the treasures inside. Although we won’t obtain all of the resources, at least we will have a portion of the resources. These resources can be used to

nurture our own experts... if we do this, we will be able to break the impasse we're at..." said Ye Qingzi.

Everyone came to a sudden realization after Ye Qingzi's explanation. They felt this was feasible, but a few people still creased their brows because they didn't want to share the treasure with everyone.

Ye Qingzi saw that there were a few old people who weren't particularly willing and faintly smiled, continuing: "If you think about it from another perspective, it should be easier to accept. We can view this as employing a few experts to explore the Holy Regions and have them explore the Holy Regions for us. We'll be giving them rather high wages, but the ultimately profiteers will still be us."

Holy Region only had one exit, and when Chu Mu entered the Holy Regions back then, he hadn't even been permitted to bring in spatial rings of soul capture rings. Moreover, once he exited the Holy Regions, he had to be searched. This would prevent the problem of selfish hoarding.

"Yes, we can try this method." nodded Liu Binglan.

Just as Ye Qingzi had said, defending property until one's death was not as optimal as opening it up and sharing it with everyone.

"Also, we can also use this opportunity to recruit experts to join our palaces. For those that join our faction, we can for example lower the taxes on them. I'm sure that a few soul pet trainers pursuing the soul pet path will be willing to join us." said Ye Qingzi.

A few of the senior elders nodded their heads, feeling that this could create a positive cycle.

“Haha, us folks are truly growing more stubborn and closed-minded. Thankfully, Soul Teacher Ye was here to wake us up...” laughed Senior Elder Pang.

Ye Qingzi’s method was accepted. In the forthcoming period of time, Liu Binglan would send a few people outside of their territory to establish palaces and lure experts with intentions of exploring the Holy Regions...

If experts were frequently coming through New Moon Land, this would naturally drive the composite strength of New Moon Land.

Of course, there was an even more important point. The Devil Souls had been residing now in Nightmare Holy Region for a long period of time now, and with Chu Mu and the other’s current relations with the Devil Soul species, they could have a few emperor Devil Souls sign soul pacts with experts that emerged from New Moon Land. This way, they could breakthrough the species restriction impasse. In 20 or 30 years, many dominator rank experts would probably emerge in New Moon Land!

.....

Chu Mu truly had no interest in the matter of development, and couldn’t suggest any good ideas.

When he returned to his palace courtyard, Chu Mu looked at the adjacent Ye Qingzi and couldn’t help but crack a silly smile and say: “I really didn’t know that you’re able to see things from a macro perspective. How about I abdicate from my position, and you become the Queen? Let’s have our Queen Ye lead New Moon Land on a prosperous path.”

“This was actually the plan of your slave...” said Ye Qingzi.

Ye Qingzi often needed Yu Suo's nurturing when concocting medicines, and would occasionally strike up a conversation with her. This queen that genuinely wanted to rule New Moon Land was very far-sighted. She had already made preparations for many of the current problems and matters New Moon Land encountered.

"Just as I said. How could you think of these things?" Chu Mu suddenly understood and nodded his head.

If this was Yu Suo's plan, then it wasn't strange. This woman probably actually did want to develop New Moon Land, using it as her cornerstone for expanding into even vaster territories.

Ye Qingzi glared at Chu Mu and unhappily said: "So you're saying I'm too dumb to come up with this suggestion?"

"Eh... yes!" Chu Mu cracked a toothy smile.

This man still dared nod his head!

Ye Qingzi bared her teeth and, like a small wild cat brandishing its fangs and claws, wanted to teach Chu Mu, this bastard, a lesson.

Chu Mu had just wanted to tease her, but Ye Qingzi had dragged him into the tiger's den!

Chu Mu gave a laugh and counterattacked in time, managing to pin her down first.

As Ye Qingzi was pinned down by Chu Mu, she knew what he wanted to do. Her eyes showed a trace of bashfulness, but she bit her small red lip, and looked like she would firmly resist because of what Chu Mu had just said.

Chu Mu didn't care, however, and taking advantage of the fact no one was around, would warm up first with Ye Qingzi.

Chu Mu planted his wolf mouth on Ye Qingzi's lips, but Ye Qingzi pursed her small mouth, not giving Chu Mu the chance.

She was still standing up against his actions!

However, that didn't really matter. Ye Qingzi's attractive parts weren't limited to her soft lips and small tongue. Chu Mu began to kiss Ye Qingzi's chin and white neck.

Ye Qingzi's face instantly flushed red. This was still the courtyard, and if they kept fooling around and were seen by a servant, she would feel so embarrassed she would feel like dying.

Ye Qingzi's fighting back was of no use. She begrudgingly gave a final request to at least go back to their room.

.....

.....

It had almost been half a year Chu Mu had spent training. Added on the matters after the territorial independence, it had been a while since he had gotten intimate with Ye Qingzi. Thus, this time lasted a long while.

When the aroma of love faded, Ye Qingzi's beautiful face was flushed red and she asked Chu Mu a very adorable question.

Chu Mu gave a pensive thought before ultimately answering: "Either a boy or girl is good."

The problem of having a child wasn't easy to talk about. He had been with Ye Qingzi for many years now, and had had many experiences in the bedroom. Ye Qingzi also didn't try to not have a child. Thus, they should have had good news by now, but nothing had happened so far.

This made Chu Mu remember that Old Li seemed to have once said that higher ranked humans had restrictive reproductive abilities. Their chances of success were relatively low.

Nonetheless, it really wasn't that significant that the chances of success were low. All they had to do was do it more frequently, and the problem would be solved! There were some things Chu Mu enjoyed and never got tired of.
