

Soul Pets Bk2 1241

Chapter 1241: Refining Pool, Wolf Demon!

Refining Pool was a special basin that seemed like a massive meteorite crater.

The refining pool was very broad. There was a large group of wolf demons of decently high rank.

Combining Amber was an important treasure for these demons to breakthrough. Every night, the combining amber would absorb moonlight and xuan aura to make this entire pool into a xuan aura filled refining pool. All the demons quickly became stronger because of it.

Chu Mu felt that Combining Amber was a very important resource. Since he finally found a refining pool, there was no reason for him to only take a few pieces before leaving.

Devil tree battle soldier, Ghost monarch King, and Ning had mostly recuperated their stamina. When entering the refining pool, Chu Mu summoned the three to fight the grouped up demons.

The refining pool's wolf demons were all high class emperor rank or above. When these emperor ranks were gathered together and amounted to over a hundred many, even pseudo dominator rank organisms would get ripped to shreds.

In the entire refining process, the emperor rank demons alone numbered five hundred. When they noticed the intruder stealing Combining Amber that they treasured above their lives, they all let out frenzied roars and pounced over!!

Emperor ranked Demons weren't like the servants and warrior ranks, only able to run along the ground. These nimble demons were almost all capable of stepping through the air. When the five hundred demons all welled forth together, the quick figures darted through the skies in a confusing manner!

Ning casted an incantation. A fan shaped piece of ice quickly swept forth. The wolf demon charging at the front instantly went stiff as they pounced forth!

Twenty wolf demons were immediately sealed. The Ghost Monarch King lifted up its curved sword in a well timed fashion and slashed past them, instantly shattering the frozen demons.

Twenty was nothing to the five hundred demons. However, these wolf demons no longer charged up brashly and instead hid in the plants, waiting for an opportunity to near Ning.

These demons were very smart. They sent out twenty wolf demons to provoke Ghost Monarch King to leave Ning.

If an elemental world soul pet were completely exposed in front of demons, their chanting could easily be interrupted. That way, 30 wolf demons was probably enough to slowly defeat Ning.

Ghost monarch king and Ning had been fighting together for many years now. No matter how the twenty wolf demons taunted it, its sturdy body remained by ice air fairy's side. Any demon that tried to get near it would get slashed away!

Ghost Monarch King, Ning, and Qin were all flawless in their cooperation. Though there were so many wolf demons, as long as Ghost Monarch King could withstand it, their numbers would eventually dwindle down.

On the other side, the low class dominator rank devil tree battle soldier was doing much better.

Demons were easily restricted by plant world soul pets, and group battles were battle tree devil soldier's greatest strength!

Group lifeforce absorb, poison, sweeping roots, equipped with these tools, even one or two hundred demons charging devil tree battle soldier would be easily dealt with.

Fighting had continued from evening to midnight. Ning's mental strength was nearly spent. As a low class dominator rank, it had reached seventy percent of its training. After it reached eighty percent, Chu Mu would try to use the ice orb in the wind palace to strengthen Ning to middle class dominator rank.

Ghost monarch king was at sixty percent, but devil tree battle soldier was a killing monster and was at ninety percent already. If Chu Mu could get a fifth rank wood type xuan item, Chu Mu would go ahead and strengthen devil tree battle soldier already.

"Gugu!!!!!!!"

A terrifying roar came from a corner of the Refining Pool.

Once this call came, the battered wolf demons nearby all backed off.

"It finally appeared?" Chu Mu smiled.

This Refining Pool definitely had a dominator rank demon. With Chu Mu having killed so many wolf demons, there was no way this refining pool's owner could sit still.

Chu Mu looked up and gazed afar.

His silver eyes flashing, he found a wolf demon coming at extreme speeds from the darkness. Its first target was the fatigued Ning.

“Ghost Monarch, stop it.” Chu Mu gave a command.

The ghost monarch king stepped forth and slammed its sword down, creating a ghostly slash with a muddied glow!

The Refining Pool master seemed to want to mock Ghost Monarch King intentionally. It suddenly came to a stop, and waited until the sword was about to hit it before dodging.

“Sou~~”

The ghost sword’s power flashed past it but didn’t do any damage.

At this moment, the demon had already appeared by Ning’s side and extended its blood red claws!

If this claw landed on Ning, Ning would definitely die instantly. This refining pool’s master was clearly a middle class dominator rank demon!

Chu Mu furrowed his brows, and extended a palm towards the master wolf demon.

“Pa!!!!”

The Wolf Demon Master was already prepared to collect the rewards of battle when suddenly an invisible force slammed into its head and caused it to back up a few thousand meters.

The Wolf Demon was utterly dizzied and confused, not understanding what it got hit by.

“Ning, Ghost Monarch, you guys come back first.” Chu Mu cast an incantation. They were a little low in rank and weren’t this Wolf Demon’s match.

“Qin, you defeat it.” With an incantation, Chu Mu retracted Ning and Ghost Monarch before summoning binding wind spirit.

After Qin floated out, all the air nearby went still, and the atmosphere became very strange.

After the Wolf Demon Master noticed Qin, it realized what it was hit by. It bared its fangs and used its long tongue to lick off its claws.

Qin floated in the air, as every wolf demon nearby turned to look at it as well.

Qin glanced around at the emperor rank demons nearby and pointed a finger at them.

Immediately, the still air around became turbulent. Before the demons could make any preparation, a chaotic wind unfolded around Qin.

The five hundred demons nearby were all blown back. They desperately clawed at the ground to stay put but were still thrown into the skies.

“Huhuhuu!!!!!!!!!!”

A few hundred wolf demons were all tossed into the skies, getting ripped and smashed together. After a moment, they all fell back onto the ground one after another, losing the power to even stand back up.

Middle class dominator rank Qin truly had no trouble dealing with these demons. Devil Tree Battle Soldier, who already had a high efficiency, instantly lost its cool when it saw Qin defeat a few hundred demons with a single technique.

“Ao!!!” Devil Tree Battle Soldier roared at Qin, telling Qin to focus on the middle class dominator rank, and to not disturb its training.

“Qin~~~~” Qin let out a string of laughs.

Over a few hundred demons were crushed. Standing far away, the demon master’s gaze became even colder.

The demons’ ability to take hits weren’t that strong. Once the Wolf Demon Master noticed that binding wind spirit’s wind type techniques seemed even stronger than normal middle class dominator ranks, it knew it would be heavily injured if it was directly hit by any techniques.

The demon master became very cautious as it stared at Qin unwaveringly, as if it was against its greatest opponent.

It carefully moved forward, using its speed to dodge Qin's techniques.

Slowly, it neared the five kilometer radius of Qin. This range was but a step's distance to dominator rank soul pets. At this distance, this wolf demon master could easily give its enemies a killing blow.

Elemental world soul pets were restricted by demons to a certain degree because demons had techniques to interrupt channeling.

Once the demon master neared the five kilometer range, it noticed that Qin was still muttering an incantation so its gaze sharpened, sending out a mental wave!

The mental wave crashed into Qin's mind, causing Qin's chanting to slightly pause!

Taking this opportunity, the wolf demon master instantly dashed forward. It knew that in such a short moment, there was no way this wind type dominator rank could cast another technique in time.

Seeing the wolf demon master pounce forth immediately, Qin's spirited eyes flashed with mischief.

The incantation that seemed to stop started again. When the wolf demon master was merely a kilometer away from Qin, it finished Wind Obliteration!

“Qin!!!!!!”

With a long note, a violent storm pushed forth like a dragon straight towards the wolf demon master!

The wolf demon master’s eyes widened. Just as it was about to dodge it, its body was already thrown many thousands meters into the skies!

“Huhuhuhu!!!!!!”

The nearby wounded wolf demons all lifted their heads as they watched, dumbfounded, as their king was thrown into the skies helplessly.

"Old Li, go search for their home." Chu Mu didn't even bother looking up and said straight to Old Li.

With a demon’s resistances, getting hit by a technique of Qin’s meant it was mostly dead.

In reality, the moment the wolf demon attacked right after its mental attack, Chu Mu knew this wolf demon was doomed.

Mental interruption was useful to the vast majority of elemental world organisms, but Qin with its WInd Type Ancient Will will not get interrupted no matter what.

Furthermore, wind type Ancient Will meant its wind type destructive powers was double that of a similar rank wind type. If the wolf demon master didn't immediately die, it meant its life force was exceptional.

With the master dealt with, the little wolf demons naturally didn't dare stop them. Quickly, Old Li found all their Combining Ambers.

Combining Ambers of different ranks could combine into different xuan items. Chu Mu was just about to sort them when a wisp of soul floated up to Chu Mu. It was the white dressed and beautiful Princess Jin Rou.

Princess Jin Rou batted her eyelashes at Chu Mu and said, "here, I got the wood type xuan item you wanted."

Chu Mu stared blankly, not knowing how to react.

"You..... you ran into that group of wood demon kings' territory to steal this?" Chu Mu said with shock.

Little princess truly was brave. Chu Mu didn't plan on going to their territory, because even if he used all his strength, he probably couldn't get much out of it.

Yet, he never thought that little princess would run there herself and actually steal the wood type xuan item.

Seeing Chu Mu flabbergasted, Princess Jin Rou's smile became even wider. Extending a smooth, white hand, she handed the green wood crystal to Chu Mu and said, "Here, it's for you."

Chapter 1242: Advancement, Middle Remembrance Spirit Dominator

"How is that, aren't I awesome?" Princess Jin Rou attractive lips curled into a smile.

Wood Demon King's territory was observed by Chu Mu from the outside. The outer perimeter was similar to the wolf demons, making an army of high class emperor rank wood demons.

After around a hundred kilometers, there were dominator rank wood demons.

Dominator rank demons weren't exactly short on numbers either. Pseudo dominator, low class, middle class, even high class dominators. Chu Mu originally tried to enter slowly but found that the entire territory would get in motion when one corner is disturbed. Chu Mu wasn't sure whether he could clear out an entire wood demon king territory akin to an eighth level empire by himself.

This demon burial ground truly is full of treasures, but these treasures weren't easily taken. At least this wood demon king territory wasn't a place Chu Mu could enter at ease.

Thus, Chu Mu had to get rid of the ideas to take the fifth rank wood type xuan item.

Unexpectedly, however, the missing little princess came back full of smiles and handed over the wood type fifth rank xuan item right to Chu Mu!

"How did you get it?" Chu Mu was curious. The wood demon kings aren't easy to mess with. Even if Princess Jin Rou is a spectral state, it's hard to get such a heavily protected item.

“It doesn’t matter, I got it. Go strengthen your devil tree battle soldier.” Princess Jin Rou didn’t explain.

Chu Mu was still curious but Princess Jin Rou didn’t say, so he was helpless. It wasn’t like he could read minds.

Devil Tree Battle Soldier’s training was already 90%. Princess Jin Rou’s wood type xuan item had a very high quality too, of about 70%.

“If you fail, I’ll just go grab another.” Princess Jin Rou said full of smiles.

“.....” Chu Mu laughed helplessly. A place he didn’t dare go to was somewhere Princess Jin Rou could enter freely.

Putting away the wood type xuan item, Chu Mu started looking at the combining amber.

There were seven pieces in total, one fifth rank while the other six are fourth rank.

Ghost Monarch King’s Xuan Item needed a fourth rank combining amber while Zhan Ye needed a fifth rank. The remaining five fourth rank combining amber will be used for Chu Mu to give out as gifts or as exchange for xuan items when he gets back to the city.

.....

In the following two months, Chu Mu didn't stop moving forward, constantly switching soul pets as they moved forward.

The main soul pets fighting were Ghost Monarch, Ning, Devil Tree Battle Soldier, Qin, Zhan Ye, and Dead Dream.

Dead Dream's Xuan Items were nowhere to be found. Thankfully, Dead Dream had nothing to worry about.

Yet, Ghost Monarch, Ning, Devil Tree Battle Soldier, Zhan Ye- these soul pets had their xuan items already. After experiencing two months of nearly ceaseless battle, their training were almost all at Chu Mu's expectations.

Finding a safe place, Chu Mu planned on meditating and strengthening for half a month, boosting these four soul pets up a rank.

The reason there was half a month was because Chu Mu's current low class remembrance rank needs to use a large amount of soul power every time he strengthened a soul pet. After strengthening one, he would also have to rest a few days to replenish his soul power.

Under normal situations, the soul remembrance replenishing probably needed a few months alone. Only with the Demon Burial Grounds Xuan Aura could their soul power replenish very quickly!

Chu Mu first strengthened Ghost Monarch.

Ghost Monarch's training was already ninety percent. After the third rank rock type xuan item and second rank dark type soul crystal were combined with combining amber, an eighty percent quality low class dominator rank xuan item was made.

The success rate was very high. Adding on Chu Mu's caution, Ghost Monarch entered low class dominator rank without fail.

Slowly opening his eyes, what came into view was the bored Princess Jin Rou.

Princess Jin Rou hugged her little ice fox in her hands. Seeing Chu Mu open his eyes, she immediately smiled and asked, "Did you succeed?"

"En, Ghost Monarch was very successful, and is already low class dominator rank." Chu Mu nodded.

Currently, of all his soul pets, Ghost Monarch was the weakest. In fact, for the longest time, it was always the weakest, but Chu Mu never found the chance to make it stronger until now.

"Congratulations." Princess Jin Rou said.

"I'll continue to meditate and strengthen Ning the moment its soul remembrance is full." As Chu mu spoke, he added, "Won't you get bored staying here with me?"

Princess Jin Rou shook his head.

Her little ice fox was already ninth phase, around high class emperor rank. When she was bored, Princess Jin Rou naturally told her Immortal Ice Curse Demon Fox to go train as well. Or else, with how pampered it was, even if it got to dominator rank it wouldn't actually be that strong.

Chu Mu checked on Ghost Monarch's situation and continued to train.

His soul power replenished very quickly. After around three days, Chu Mu's soul power was full again.

This time, Chu Mu was about to strengthen Ning.

Ning was already low class dominator rank and was eighty percent done training.

Chu Mu's ice crystal from wind palace was a sixth rank xuan item. This xuan item when used as a fifth rank xuan item, its success rate is naturally near 100%

With an eighty percent rate of success, Chu Mu thought there was no way he could fail, right?

According to normal steps, one first has to check the energy within the xuan item and slowly extend your soul remembrance into it to bring it out and bring it to all parts of the soul pet's body evenly.....

In the entire process, Chu Mu's soul remembrance only had twenty percent left. Strengthening a middle class dominator rank as a low class spirit dominator truly took too much energy.

After finishing, Chu Mu's attention fell on Ice Air Fairy's body.

Ice Air Fairy's body slowly changed in transparency. Some of the pure ice became Ning's new skin.....

However, these changes didn't mean the strengthening was a success. Chu mu was staring intently at his aura.

After a long while, a strand of icy aura came out from within Ice Air Fairy's body.

"Success!" Chu Mu was happy as the aura changed. This was definitive proof that Ning succeeded in advancing!

He remembered back when he met Ning, and it was still just a warrior rank young soul pet, sitting at the bottom of the organism power pyramid.

Today, it was a middle class dominator rank, one truly fit to be called a king of ice type organisms!

This time, Chu Mu consumed quite a bit of energy and needed to train for six days before completely replenishing his soul remembrance.

After completing Ning's advancement, Chu Mu continued to strengthen devil tree battle soldier.

However, lady luck no longer smiled upon Chu Mu when he got to devil tree battle soldier and he failed utterly.

Devil Tree Battle Solider's training wasn't complete, and the wood type xuan item was perfect quality either.

"What happened, you're furrowing your brows, did you fail?" Princess Jin Rou came right before Chu Mu's face and asked.

"En, devil tree battle soldier failed in strengthening." Chu Mu said.

"Oh, then you just continue to meditate and recover your soul power, I'll go to the wood demon kings again." Princess Jin Rou said.

"Let me go with you." Chu Mu was slightly worried for Princess Jin Rou. After all, those wood demon kings are hard to mess with.

"No need, they can't catch Me." As they spoke, Princess Jin Rou floated out of his rock cave and went towards Wood Demon King.

Chu Mu couldn't even catch up so he could only sit back down and recover his soul power first.

After around two days, Princess Jin Rou decisively came back with another wood type spirit crystal.

Chu Mu was very curious as to how she got it.

Princess Jin Rou refused to speak.

“Then you should just take a bit more in case I fail again.” Chu Mu said.

“Don’t push it.” Princess Jin Rou said.

Princess Jin Rou didn’t dare to go for a third time anymore. The wood demon kings were absolutely outraged and started defending against her specifically.

This time, Princess Jin Rou’s wood type xuan item was even higher quality. The second time Chu Mu tried strengthening, his progress was much smoother.

This time, Chu Mu finally didn’t disappoint little princess and succeeded in entering middle class dominator rank.

When he entered middle class dominator rank, Chu Mu felt that his soul started wavering up and down.

Chu Mu immediately realized what was happening and quickly sat down to close his eyes.

The blue glow on his body started appearing and disappearing, surrounding Chu Mu.

Princess Jin Rou saw Chu Mu and also smiled with happiness, “You advanced!”

The glow went bright and dark occasionally, reflecting the movement in Chu Mu's soul .

Suddenly, after one complete darkening, Chu Mu felt that his soul remembrance gathered enough energy and became a massive wave that pushed straight through the bottleneck, pushing him to fourth remembrance spirit dominator!

Middle remembrance spirit dominator!

Chu Mu originally thought he needed to wait for Zhan Ye to at least reach middle class dominator rank before breaking through, yet he got through this barrier right after strengthening devil tree battle soldier!

Middle class dominator rank was very important for Chu Mu.

First, Chu Mu's half devil abilities would be at least high class dominator rank, possibly even stronger than that.

Similarly, the restriction on Mo Xie would be greatly weakened, and the power of hades would be more complete.

Little hidden dragon would also be able to eat souls to gain strength again with this increase in remembrance. If they had enough soul power, its strength may even reach top tier dominator rank!

Taking advantage of the opportunity, Chu Mu's power was immediately full. He immediately pulled out the combined fifth rank beast and bug type xuan item with a dark sub type and started strengthening Zhan Ye!

This status was ideal for strengthening soul pets. Even if Zhan Ye's training wasn't complete, Chu Mu dared to give it a try.

After middle remembrance spirit emperor, Chu Mu found controlling a fifth rank xuan item even more worth it, and the strengthening was extremely smooth!

.....

After a while, Chu Mu finally opened his eyes, a gleam of confidence flashing in his eyes.

"You successfully strengthened Zhan Ye too?" Princess Jin Rou asked.

"En." Chu Mu nodded.

This time, Chu Mu truly got much stronger!

In terms of power, he now had a low class dominator rank Ghost Monarch King and middle class dominator rank binding wind spirit, ice air fairy, dead dream, and devil tree battle soldier.

He also had things comparable to high class dominator rank like his half devil, little hidden dragon, Mo Xie, as well as the possibly even stronger Zhan Ye!

Chapter 1243: Encountering Ocean Commander Zhao De Again

“Chu Mu, Prince Chao and the others aren’t too far from us anymore.” said Princess Jinrou.

When Princess Jinrou followed Chu Mu, she left a mental imprint on Prince Chao. Due to the Demonic Burial Mound’s restriction barrier, Princess Jinrou was unable to feel it until Princes Chao and the others stepped onto the middle island. Now, she could feel their tracks.

“Ok ,let’s go convene with them.” Chu Mu nodded his head.

Princess Jinrou led the way and Chu Mu headed straight for Prince Chao and the others.

They were twenty thousand kilometers away from the others and if they flew, it wouldn’t take them long.

However, this place was the Demonic Burial Mound and not a normal area of land. Each territory was occupied by a powerful creature and passing straight through their territory wasn’t too realistic.

About three days later, Chu Mu was also able to sense Prince Chao and Sang Ying.

.....

In a forest next to a clear lake, Sang Ying sat there using the water to wash his wounds that were filled with filth.

Prince Chao sat on the side, his face entirely gloomy. He looked abnormally strange.

“Prince Chao, there’s no need to stay so strongly attached. There are women everywhere. When the day comes that you are able to control genuine power, there will be no women that can resist you.” Sang Ying turned around and spoke kind words.

Prince Chao’s face was still extremely unsightly. Thinking of Xia Zhixian throwing herself into that fatty’s body and Zhao De’s evil smile, he felt like his mind was going to explode!

Moreover, the words Xia Zhixian had said were undoubtedly harder to swallow than killing him!

“Let’s slaughter our way over!” Prince Chao grit his teeth.

As a man, he was most unwilling to tolerate watching his woman being stolen away. Even though he hated that pragmatic woman, he wanted to stick out his chest and stamp on that hateful Zhao De until he was meat paste. Then he would point at Xia Zhixian and tell her he wasn’t that weak!

“Prince Chao, calm down. Zhao De is stronger than any of us. He has two high class dominators. Your Thousand Wave Beast can reach the high class dominator rank through its special energy and my Water Whistle Devil is also barely a high class dominator. In other words, the two of us together can deal with Zhao De. But Zhao De still has 3000 people under him and there are a number of dominator ranks among them. The two of us probably won’t even be able to get near him before we’re exhausted by the others.” seriously said Sang Ying.

“But... But how can I swallow this!” Prince Chao’s eyes were bloodshot.

“You have to,” said Sang Ying.

Prince Chao's chest heaved. Swallowing this humiliation because he had to was easier said than done.

"Someone's coming." Sang Ying suddenly creased his brows.

Sang Ying turned vigilant. Could Zhao De have chased them here to get rid of them?

The two of them weren't weak so Zhao De would have to pay a hefty price to kill them. Zhao De had already obtained the woman he wanted so there should have been no need to kill them.

"Chu... Chu Mu!!" Sang Ying saw the man and woman riding on the black war tiger and immediately showed an expression of happiness.

Prince Chao raised his head. He saw Chu Mu and Princess Jinrou come over and his eyes finally showed some light. However, he quickly thought of something and lowered his head, so that he wouldn't feel as ashamed.

"What's the matter?" Chu Mu jumped off Zhan Ye and looked at Prince Chao who resembled a stray dog.

Prince Chao just sat there, head lowered, not saying anything.

"Ai, it's complicated." Sang Ying sighed. His voice got slightly softer as he continued, "When you and Young Lady Bai left, we continued into the depths of the island and passed through the

Demonic Burial Mound precipice and entered the middle island. We trained and collected xuan items there for a period of time before inadvertently encountering some wounded navy members who were left behind. Out of kindness, Xia Zhixian saved them. However, this quickly attracted Zhao De over.”

“Oh, Zhao De?” Chu MU raised his eyebrows.

Chu Mu remembered that when he stepped on the precipice, there were four to five thousand people underneath. Those people should have been from Wupan Navy. However, their composite strength was stronger than Zhao De’s legion.

“Yes. That fellow relied on his numbers to.... to steal Young Lady Xia away. He said that their navy needed this kind of support soul pet trainer that could lessen their wounds. You should know his true intentions. Zhao De is lecherous but also needs to consider his face as a navy commander.” said Sang Ying.

“Hmph, how was it Zhao De that stole her? She clearly ran into his arms. What a slut. I shouldn’t have trusted her!” Prince Chao stood up and righteously spoke.

“This...” for a moment, Sang Ying didn’t know what to say.

In reality, Xia Zhixian had indeed chosen to enter Zhao De’s faction when she saw the situation. She had even said hurtful words, otherwise Prince Chao wouldn’t be so upset over it.

“Are you sure Xia Zhixian threw herself to Zhao De’s side?” asked Chu Mu.

Prince Chao said angrily: “How could this be false? Do you really want me to repeat those mocking words she said to me?”

“Yes, repeat it.” Chu Mu nodded his head.

Prince Chao’s face was so angry his face flushed red. If he could beat Chu Mu, he would have bitten to death this man who was adding fuel to the fire right now!

“Prince Chao, I think you could have misunderstood her.” said Princess Jinrou.

“Misunderstood?! What was there to misunderstand?!” Prince Chao was speechless. Were Chu Mu and Bai Jinrou this unconsoling?

Seeing Prince Chao’s emotions in such a turbulent state, Princess Jinrou was rather helpless and she said: “Calm down first. When you emotions have calmed, I’ll explain it to you. You won’t listen to anything I say now.”

Princess Jinrou floated back to Chu Mu’s side and she muttered to him: “I thought that you were the dense one. Turns out there’s someone even more dense than you.”

Chu Mu rubbed his nose and felt puzzled. What did this have to do with him?

In Chu Mu’s opinion, Yu Suo was innately snobbish so as her underling, it was normal for Xia Zhixian to be the same?

Also, was he dense?

Qingzi often said that he was a wolf dressed in sheep's skin. His inner heart was incomparably evil.

.....

Mountain pass lake.

In the wilderness, places with water were always particularly dangerous because all ranked creatures would have to go there to drink water.

However, to the three thousand manned navy legion, this rule didn't apply to them. The moment they set up camp here, there would definitely be no powerful creature in a dozen kilometer radius around them that dared wander about.

When night came, the temperature turned cold. There were lights in the tents that brought a trace of warmth.

"Go, invite the Young Lady Xia over." inside the big tent, Zhao De's face was full of smiles.

As a navy commander, when everyone was watching, Zhao De couldn't do anything to Xia Zhixian. Indeed, the navy had rules and if someone reported him to big leader Xu Kuang, he would be in quite a bit of trouble.

However, when it was night time and everyone was resting, Zhao De could do whatever he wanted.

Normally, it was those two female servants that helped him warm the bed. Today, he wanted to try a new beautiful woman. Every time he thought of her charming and perky parts, he felt a rush of blood and impatience..

“Sir, Young Lady Xia is helping navy members with their wounds. There are a few members near death and if they aren’t healed...” a subordinate quickly reported.

Zhao De creased his brows. What did it matter if a few people died?

Although he was thinking this, Zhao De didn’t dare ignore the lives of his subordinates in front of them. He could only bear it.

“Senior Ocean Commander, there’s no need to be like this. How about you let us sisters serve you first.” said the rather charming female servant with a smile.

“Go go go, it has nothing to do with you.” Zhao De had no interest in these two women right now. His mind was filled with Xia Zhixian’s body.

.....

Inside the healing tent, Xia Zhixian was healing those navy members.

When Zhao De sent the third person in, Xia Zhixian felt a headache.

“This toad is truly annoying. I need to find some way to delay him and then find a time to slip away.” Xia Zhixian creased her brows and spoke.

Healing members was something Xia Zhixian was proficient at. While she chanted an incantation, she began to worry.

She was obviously worried about Chao Lengchuan. In her opinion, Prince Chao who was younger than her was like a stubborn younger brother. Even if they were lovers, she still felt a headache for him.

In her opinion, Prince Chao would have flown into a fit of rage this time.

However, Xia Zhixian was confused why that fellow didn't think about it from another perspective. If she hadn't complied with Zhao De then, how could the three of them have faced Zhao De and his 3000 subordinates?

“Young Lady Xia, you should be tired, right? Why don't you go rest.” suddenly, Zhao De's voice drifted in.

“Oh, I'm not tired. There are a few members that are waiting for my healing...” Xia Zhixian saw the intentions behind Zhao De, but faked a warm smile.

“That won't do. If we tire your body, how will you be able to deal with even more injured members in the future?” said Zhao De with a straight face.

Xia Zhixian could see Zhao De's character, and thought to herself that he had decided to bring her to bed tonight.

Xia Zhixian harrumphed to herself. Did this fellow really think he could obtain her body?

"Since you want to obtain me so badly, let's see if you have the life to enjoy it." a trace of killing intent surfaced in Xia Zhixian's heart.

After following the Empress Concubine for so long, her body was no longer the same as most women. Even if the other party was stronger than her, without her permission to obtain her body, they would die.

Chapter 1244: Chu Mu Alone is an Army!

"Report!" just as Zhao De thought he would be able to enjoy this beautiful woman, a navy member ran in.

"What is there to report?!" impatiently said Zhao De. He didn't plan on letting this investigation member continue.

"Sir... there's someone outside the navy camp asking for a person. He says he's here for Young Lady Xia." said the investigation member.

"Still unwilling to give up?" Zhao De harrumphed.

Xia Zhixian immediately creased her brows and said to herself, it wouldn't be Chao Lengchuan, that idiot, right?

If that man were to charge over and was captured, she could only do as Zhao De wanted. She was most afraid of Chao Lengchuan doing such a stupid thing.

“Hmph, bring me to go look.” Zhao De’s face was wretched as he spoke.

Xia Zhixian realized something and she hastily put on a smile: “It could be that my friends are worried about me. Sir Zhao, let me deal with it.”

“There’s no need.” Zhao De wasn’t stupid. He could see that Xia Zhixian had the intention of evading him. Since she was doing this, he could only use some lowly methods.

When Xia Zhixian saw Zhao De show a cold smile, her heart sank.

“That idiot!” Xia Zhixian cursed to herself.

Xia Zhixian quickly followed Zhao De. She didn’t want the situation to instantly reach a point of no return.

Zhao De put on an overcoat and brought some trusted aides outside the camp.

Once there, Zhao De saw three men and a spectral woman there.

When Zhao De had stopped Xia Zhixian earlier, he was confused why they seemed to be lacking a person. Now, the other man had appeared, and there was another absolutely beautiful specter next to him.

Zhao De had seen human specters before but he had never seen such a flawless beauty of a specter.

Unfortunately, specters couldn't be touched or felt. Otherwise, with his lecherous character, he would do anything to take her.

Xia Zhixian followed closely behind. When she saw Chu Mu and Princess Jinrou standing next to Prince Chao, she let out a slight sigh of relief.

Now that Chu Mu had come, this matter would be resolved much easier.

"Brat, have you come to give your life?" Zhao De tore off his fake smile and spoke with a dark tone.

"I've come to take your life!" Prince Chao's eyes were flying with sparks.

"Hahaha, take my life. With your ability?" Zhao De immediately laughed out loudly. He even turned around and looked at the group of soldiers behind him.

These soldiers followed him and laughed out loudly.

These subordinates brought by him were trusted aides and many of them had secretly done evil things.

As Zhao De laughed, his fat hand reached out to the side in attempt to grab Xia Zhixian's waist.

However, his hand grabbed air as Xia Zhixian's body rapidly scattered into pieces, transforming into countless flower petals that landed on the ground.

In the next instant, Xia Zhixian appeared near Chu Mu and the others. On her souldier was the shrunken Sky Butterfly Queen.

"Stop her!" Zhao De's eyes flashed with a trace of anger as he ordered his ten subordinates.

These ten navy generals instantly chanted an incantation, summoning their soul pets.

There were a total of ten dominators and they ferociously pounced at Xia Zhixian in an attempt to drag her back.

Prince Chao obviously wouldn't let these people harm her. The adjacent jungle suddenly split apart and a golden Thousand Wave Beast mightily jumped down from the air!

"Beng!!!!!!!"

One heavy step and a golden energy exploded. The ten low class dominators and pseudo dominator rank soul pets were all knocked flying. The nearby camp also began to violently shake.

Seeing their soul pets knocked flying, the ocean generals faintly showed mad expressions. They immediately chanted incantations, summoning a group of even stronger soul pets.

However, they were no longer as hasty as before. The middle class dominator rank Thousand Wave Beast was like an enormous mountain!

During the initial clash, Xia Zhixian returned with her Sky Butterfly Queen to the other four.

”Prince Chao glanced at Xia Zhixian and showed a rather ashamed expression. He spoke to apologize: “I...”

“It’s fine. Ever since that day I knew you were a troublesome person. I’ve prepared my heart already.” charmingly laughed Xia Zhixian.

Prince Chao let out a silly laugh.

“Prince Chao, there are things that have been stomped on by others. We’d best stomp on those people to retrieve those things.” Chu Mu smiled and spoke to Chao Lengchuan.

“Of course!” Prince Chao proudly laughed. He would not endure that humiliation. Now that Xia Zhixian had returned, he wouldn’t stand being looked down on by others and let his honor as a man be stomped on by others.

“Then I’ll leave Zhao De to you. I’ll deal with his subordinates.” Chu Mu patted his shoulder.

“Ok!” Prince Chao nodded his head.

Without other people interfering, Prince Chao had absolute confidence his full strength could beat Zhao De.

“Truly interesting. I initially planned on letting you barely live. But since you want to challenge our Wupan Navy, I can only pity that even your corpses won’t remain!” Zhao De cracked a huge contemptuous smile.

Challenging Wupan Navy?

Zhao De still had a legion of 3000 under him and the weakest of these members was a spirit emperor. With this elite legion, Zhao De didn’t even need to take action to crush them.

The appearance of the Thousand Wave Beast obviously startled the entire camp.

The 3000 navy members gathered here in the shortest time possible and each one of them was accompanied by a soul pet. They were lined up in an orderly and trained manner behind Navy Commander Zhao De.

With the weakest of them being a spirit emperor, this was an enormous force to anyone from Wanxiang City.

The aura from 3000 emperor rank soul pets surged towards them. Mere breaths from this group created a violent storm mixing with the damp oceanic atmosphere.

Emperor rank soul pets innately had imposing auras. Although there were 3000 of them, they were just as majestic.

There were 200 Ghost Marking Large Snakes that when coiled around the mountain rampart's rocks, the rampart was unable to fit their entire body. When looking down at them, all that could be seen were their malevolent bodies wriggling about - quite the intense sight.

The average strength of these Ghost Marking Large Snakes was between the mid and high class emperor rank. Even a low class dominator may not have been able to defeat this many Ghost Marking Large Snakes.

On the edge of the lake and the spacious flat land, a group of colorful elemental emperors were orderly lined there like cannons. There were at least 500 of them. The aura created by these 500 elemental emperors was already tearing apart the surrounding space.

In the mountain pass's lake, enormous water beasts had their heads poking out. The water of the entire lake was tumultuously churning about. There were at least 500 of these water beasts. It was no wonder the lake water was overflowing and creating river-like streams that flowed down the mountain. Presumably, these water beasts had displaced most of the ocean's water with their bodies.

In the sky, black colored wings were flapping and rapidly interweaving.

In the camp, plant warriors formed a dense small forest that stood in front of the elemental legion.

Prince Chao had participated in Wanxiang City's war. The soul pets then were in the millions and the scene was so magnificent it was hard to describe.

Nonetheless, no matter how magnificent it was, compared to this 3000 emperor legion, it was like comparing a fully armed and powerful cavalry to a group of children that were just 100 times as many. They weren't in the same league!

"These... these are all of the the third legion's elite troops!" Sang Ying's face went white as he spoke.

Prince Chao never expected Zhao De's subordinates to be so strong.

"Brat, today I'm going to teach you a lesson. It doesn't matter how strong a single person is. In front of a genuine army, even the strongest expert is rendered insignificant." Zhao De glanced at the orderly spirit emperor legion behind him and proudly laughed.

Sang Ying's face sank as he looked at the powerful ocean legion.

Zhao De wasn't wrong. There were many people in this world stronger than Zhao De. However, there weren't many that could beat Zhao De's legion of 3000 elite troops. If it were the entire Wupan Navy, there was no one in the world who could fight against the entire Wupan Navy. In front of this massive faction, everyone's individual strength was truly insignificant!

"These people have offended Wupan Navy's commander and provoked the dignity of our Wupan Navy. Everyone listen to my order. Execute them on the spot!" Zhao De used his mental voice to cover everyone!

The moment his voice faded, various soul pets let out angry roars and it was like a large mine had exploded beside one's ear!

A chaotic stream of breaths whipped through the surrounding forest and in an instant, the jungle was completely destroyed. Astonishing and turbid wind dragons emerged from this and soared above the heads of Chu Mu and the others.

Prince Chao grit his teeth and turned around to glance at Xia Zhixian.

Xia Zhixian didn't say anything. She just calmly looked at the powerful army of Zhao De's underlings.

In terms of life experience, Chao Lengchuan was inferior to Xia Zhixian; however, he determinedly didn't want Xia Zhixian to think of him as soft. More importantly, he refused to allow Zhao De, this lecherous man, to remain living in this world!

Prince Chao took in a deep breath and dispelled the fear in his heart. He pushed forward his chest and faced Zhao De.

At this moment, a hand placed itself on Prince Chao's shoulder and heavily pressed down.

Prince Chao turned around and looked at Chu Mu whose eyes were also incomparably calm.

"Your only opponent is Zhao De. Don't disappoint me." Chu Mu seriously said to Prince Chao.

Prince Chao nodded his head and when he looked at Zhao De who was all smiles, the 3000 elite troops behind him were no longer there.

He knew that since Chu Mu had agreed to personally leave Zhao De for him to deal with, Chu Mu would not let anyone disturb him!

Prince Chao's eyes gradually returned from fluster to calm.

To Chao Lengchuan, with Chu Mu, alone, standing behind him, this was equivalent to an army!

.....

Chu Mu remained very calm from beginning to end. He swept his eyes over the army and slowly chanted an incantation.

Chu Mu summoned Little Hidden Dragon.

So many high rank souls- they would become Little Hidden Dragon's great feast!

Chapter 1245: Battle Against the Navy Legion!

Zhao De smiled with a yellow grin. He waved his hand and immediately the hundred meter long Ghost Marking Large Snakes dashed up and down the cliff. Their long body flipped through and immediately surrounded the five of them.

"Sisisisi"

The couple meter long snake spit its tongue out, and opened its mouth so its deep neck was visible.

Looking at the crisscrossed Ghost Marking Large Snakes, one could no longer tell where the head was and where the rest of its body was.

“Rip through them!!” The giant snake leader gave a command!

Immediately, hundreds of snakes pounced forth, their mouths full of teeth that could easily break even hundreds of layers of rocks!

Sang Ying saw the two hundred snakes pounce forth and their faces immediately started getting worried, swiftly chanting an incantation.

Chu Mu’s actions were slightly after than Sang Ying. With an incantation, the air around Princess Jin Rou, Sang Ying, Xia Zhixian, and Prince Chao became slightly rippled as an invisible space barrier appeared!

"Ga!!!! Ga!!!!!!!"

“Ga!!!!!!!”

A bite from its teeth, but the next moment, the Ghost Marking Large Snakes seemed to have hit the hardest material in the world. After one bite, its teeth were broken!

All the Ghost Marking Large Snakes were smashed. Their hard teeth scattered everywhere. Sang Ying was shocked mid incantation and didn’t know what had happened.

“Don’t stand too far from me.” Chu Mu said to the other four.

Sang Ying just realized the Chu Mu casted a technique. He had heard before that the King Chu of New Moon Ground was a half human. Seeing the casual technique able to block the massive emperor rank snakes aside, a sliver of hope came up in his heart.

“Little hidden dragon, collect their souls.” Chu Mu said to little hidden dragon.

Little hidden dragon was eager to eat. It stepped forth and didn’t even bother casting a technique. With a claw, the emperor rank snakes that lost their fangs were defenceless and killed in a hit.

“Beng!! Beng!! Beng!!!!!!”

The claws fell one by one, faster and faster. In a few seconds, the fifty or so Ghost Marking Large Snakes were rendered into mash. Their souls completely became little hidden dragon’s food, absorbed into its soul.

The high class dominator rank little hidden dragon against emperor ranks truly was no different from squishing ants.

“Attack together!” the giant snake team leader yelled.

With the command, the remaining hundred snakes were completely opened up. They either bit, wrangled, or slammed their bodies forward!

In the moment, all around Chu Mu were these giant snakes wreaking havoc around.

Little hidden dragon smiled wide, and looked at the beasts that were massive, but really no different from worms.

Ghosts surrounded little hidden dragon. It lifted up an energy filled dragon claw and slammed it towards the ground.

The entire ground suddenly went silent. The next moment, the rocky surface was washed over by a blue tide as a mist descended upon the suddenly appeared underworld river!

The ground became covered in ghostly blue river water. The water was ice cold but continued to bubble as if it were boiling.

“Ughwuuu!!!!!!”

In an instant, the ghostly cries and sharp voices immediately penetrated their ears and entered their minds, causing people to start being anxious.

As the underworld river started flowing, the writhing snakes suddenly became sluggish as if they were caught by something.

The controlled Ghost Marking Large Snakes didn’t even know what technique they were faced against but looking at the ghostly blue river, their hearts started shaking.

“What is this thing?” Giant snake leader said alarmed.

“Why is my Ghost Marking Large Snake not moving anymore!!” The navy soldier started staring at his Ghost Marking Large Snake.

“ Ghost claws, so many of them!!”

With this loud call, all the navy members realized that many ghost claws appeared to grab their snakes!

The stranger thing was these ghost claws weren’t really grabbing the snakes’ bodies. They seemed to be dragging something out of the snakes themselves.

“Soul Hooking Claw!!!” Ghost snake leader finally reacted and suddenly turned pale.

Chanting an incantation quickly, the leader tried to retract his pseudo dominator rank Ghost Marking Large Snake

However, the river in front of him interrupted the incantation. With many shrieks, countless soul hooking ghost claws extended from the river and forcefully dragged the snake back and into its body, pulling its soul out!!

There were over ten thousand hooking soul ghost claws. Almost every single snake was entangled by over a hundred claws. As these claws started ripping at them, the Ghost Marking Large Snake’s souls were ripped apart the moment they were dragged out!

The Soul Hooking claws had to grab a few souls before going back into the underworld, satisfied.

With the ten thousand Soul Hooking Claws, the Ghost Marking Large Snakes didn't even have a chance to resist before having their souls stolen and dragged into the river.

The Ghost Marking Large Snake were all frozen as they saw their soul pets ripped apart from the ghost claw.

In the last moment, the ghost river recovered its silence. The ghostly blue dead water slowly sank back into the ground, and disappeared in front of everyone's eyes.

The ground returned to normal and the terrifying ghost river was just like an illusion.

However, the hundred or so emperor rank Ghost Marking Large Snakes were all icy corpses now.

Death!

After the underground river passed with its Soul Hooking Claws, the hair raising scene left all the navy members pale faced.

A single technique killed over a hundred emperor rank organisms. How large of a skill difference was this!

After a long while, the navy members looked at the floor full of corpses, and no longer dared to send their soul pets forth.

“Why are you hesitating, go up. Elemental army blasted them!” Zhao De roared in anger!

The other members came back to their senses.

The five hundred different type elemental emperors started chanting.

The incantation started and filled the air with elements!

Blazing flames, cold storm, frenzied lightnings, roaring tides, biting winds, and rolling rocks.....

All the elemental technique dashed into the skies and caused the night to become a bright glow. However, under this color was terrifying destruction!

Five hundred elemental emperors casting together was a terrifying strength. Sang Ying, Xia Zhixian, and Prince Chao found it hard to even breath.

The hundred elemental emperors gathered together was no less than a high class dominator rank's full powered hit.

Chu Mu lifted his head and took a deep breath, opening up his palms!

Chu Mu's palm opened up and became hollow. The two black wind caves quickly rose up and made massive black holes beside the five of them!

The wind cave silently spun as if space were missing. Air constantly poured into the whirlpool.

The rain of techniques fell, creating elemental explosions that cause the space to shake with power.

However, the moment the energy fell on the black wind cave, it would get absorbed and disappear.

The Wind Cave spun and absorbed all the elemental techniques, expanding as it happened.

The spinning speed slowed down. Chu Mu knew that the moment the cave stopped spinning is when it can no longer absorb energy.

Wind cave only absorbed around two thirds when Chu Mu's hands started grasping together.

Chu Mu glanced at Princess Jin Rou and she nodded, using her eyes to tell Chu Mu that the remaining energy could be blocked by her.

Princess Jin Rou closed her eyes and her hair started flowing upwards.

The powerful mental energy became an invisible protection that protected them all. The remainder of the energy hit her mental protection.

“Will it be hard?” Chu Mu asked worriedly.

Princess Jin Rou shook her head. This attack was much weaker than the tsunami last time, so this was something she could easily deal with.

The last flame fell, only burning the rocks beneath the five peoples’ feet.

One had to know that the five hundred elemental emperors’ destruction could rarely leave anything alive in a few hundred kilometer radius. Yet now, the only thing destroyed was a small patch of dirt under their feet.

“These.... These people are so powerful!!” Elemental army leader stared wide and spat out after a while.

The other elemental navy members were all staring at each other in shock as well. This attack did absolutely nothing.

Chu Mu glanced at the couple thousand navy members and smiled devilishly.

Energy constantly leaked from its fingers. Presumably, after the elemental energy was infected with darkness, it would be eager to destroy!

Chu Mu's palms reopened. This time, the wind caves appeared again but reversed!

A dark elemental storm flew out of the wind cave, creating darkness flames, lightnings, hail, wind, and meteors.... These elemental techniques were mashed together and created a thick destructive energy tide towards the elemental emperors!!

Such a dark tide pushing forth caused Sang Ying to go wide eyed beside Chu Mu.

Sang Ying's incantation was still at his lips because he suddenly realized that as long as Chu Mu was here, nothing else seemed to matter. This was especially true when he forcefully pushed the five hundred emperor rank elemental techniques.....

Just how powerful was he?

Chapter 1246 Sweeping through Zhao De's Navy Legion (1)

The black wolves flew past Zhao De's head like a dark massive beast.

Chu Mu's target was the elemental soul pets. If the five hundred elemental emperors continuously attacked, it could cause decent trouble for him.

Darkness swept through, causing the elemental emperor navy people to all stop breathing and quickly command their soul pets to put up defenses.

This navy was clearly well trained. Just as these weak elemental teams were about to get hit, the plant teams quickly grew a massive dense forest in front.

The black elements slammed into the elemental forest, causing it to start rotting from the outside in.

The plant forest continued to get eaten, bringing the corroding darkness energy to the plant world soul pets.

The plant world soul pets were good defensive measures, but they couldn't be completely saved from this wave of energy. Very quickly, a hundred plant world soul pets' bodies were overwhelmed by the dark energy, tearing an opening in the densely packed forest and throwing it into chaos.

The reversed energy was around fifty percent stronger than the absorbed energy. Chu Mu absorbed around three hundred emperor ranks' simultaneous attacks. Adding on the fifty percent increase in strength, it was near 500 elemental emperors' attacks.

Five hundred elemental emperors' non-stop barrage could cause any plant world emperors' life to become smithereens.

Rotten roots, broken branches, shattered wood, and scattered vines.....

There were nearly four hundred plant world organisms, but with one reversal from Chu Mu, at least a hundred died. A third of the defensive forest had collapsed because of it!

The plant world emperors' soul pet trainers were all ashen-faced. With three more attacks, their entire army will be deleted.

“Attack, don't stop!!” Zhao De's navy generals all started yelling.

“Ocean beast team, go and collapse on them! Land beast team, stomp over them!! Aerial team, attack, what are you all waiting for?” Zhao De commanded angrily.

In the massive lake, the lake water started rolling and boiling.

At the same time, a roaring waterfall came down from the clouds, creating bands of tides that circulated through the skies and assaulted them.

The elemental team again started chanting. With the plant world barrier protecting them, the elemental soul pets could very safely chant incantations.

Colorful elemental glows popped up, its energy full of death!

The beast type organisms had always taken a mainstream spot in human soul pet trainers. Over a thousand beasts darted out from their barracks with a single command from Zhao De!

Over a thousand emperor rank beasts trampling everything in their paths was a frightening scene to see!

The thousand emperor ranks was a power enough to defeat even high class dominator ranks, so Chu Mu couldn't afford to underestimate the enemy.

“I'll restrict the elemental emperors, you deal with the wild beasts.” Princess Jin Rou said to Chu Mu.

After speaking, Princess Jin Rou closed her eyes, her long eyelashes lightly trembling.

Her smooth hands fell on her chest as her body slowly glowed a ghostly blue.

Starting the incantation, a string of beautiful notes came out of her mouth, seeming like an unknown song that had a special magic around it.

No matter how powerful the plant world barrier was, it couldn't stop a mental wave of music. This melodic tune fell into the ears of the elemental emperors.

Chanting incantations needed concentration, but whenever these elemental emperors tried to chant, they would instinctively get drawn to the tunes, losing their focus along with their spells.

The original destructive storm of energy that was brewing slowly dissipated with the tunes. All the elemental soul pet trainers looked at each other, not knowing what just happened.

"Its Disruptive Devil Song!" Elemental team leader furrowed his brows.

The Disruptive Devil Song came from the sirens of the sea, often known as mermaids. They were the greatest counter of elemental soul pets because any note that came from their mouths could easily break incantations.

Elemental soul pets that couldn't chant incantations were mere displays. Elemental members hated meeting these organisms.

However, what confused them was why a female specter had such special abilities.

“Continue to chant, focus!” The vice navy general was still relatively calm and said to the elemental world soul pets.

All the elemental soul pets started their incantations again, but with the tunes around them, their incantations were always getting interrupted. The occasional technique couldn’t do anything to the dominator rank Chu Mu and others.

“Silence!”

Princess Jin Rou let out a light humph. Opening her eyes, her musical tones suddenly became a high and shrill note!

This high note entered the elemental soul pets’ minds and, this time, the elemental emperors couldn’t even utter a single syllable anymore, let alone a full incantation!

Elemental soul pets that couldn’t chant were meaningless, meaning the five hundred strong army was rendered useless!

After the two techniques, Princess Jin Rou glanced over at Chu Mu and said, “They probably won’t find a way to get rid of the silence, you don’t have to worry about these elemental soul pets anymore.

Chu Mu nodded. Truthfully, Chu Mu didn’t know that Princess Jin Rou’s devil soul had this many powerful techniques. Any elemental soul pet would have to respect princess Jin Rou in the future.

“Long!!!!!!!!!!”

The ground started shaking as the thousand emperor rank beasts neared. These fully armored armored and horned beasts were at the front. Their charge could probably pave a mountain flat in an instant.

”Beng!!!!!!!!”

A hundred beasts slammed into the spatial screen put around Chu Mu.

Chu Mu’s spatial barrier were cracked up. One more charge, and it would definitely shatter.

With an incantation, Chu Mu swift summoned his devil tree battle soldier.

After the devil tree battle soldier appeared, its long arms became two massive whips that slashed aside!

A hundred armored beasts were instantly sent flying, but this attack couldn’t really do much damage to them.

“Devil tree battle soldier, stop them from welling up.” Chu Mu said.

At the same time, little hidden dragon had flown into the skies to fight with the five hundred wing type emperor ranks. A soul pet trainer needed a strong protection like devil tree battle soldier, or else once demons started getting through, though they may not threaten their lives, they could get extremely tedious to deal with.

“Ao!!!!!!”

Devil tree battle soldier’s roots dashed out from underground and swiftly created a root castle around the five of them.

Devil tree battle soldier was currently middle class dominator rank. However, if it were high class dominator rank, its root castle’s strength probably wouldn’t be any weaker than the one created by all five hundred plant emperors.

“Let me strengthen your devil tree battle soldier.” At this time, Xia Zhixian spoke.

Xia Zhixian’s Sky Butterfly Queen remained in a light state. It fluttered its wings onto Devil Tree Battle Soldier and started emitting many special pollens that floated into Devil Tree Battle Soldier’s nose.

“Berserking Powder, increases your devil tree battle soldier’s strength by around forty percent, but it’ll be very tired after this battle.” Xia Zhixian said.

After speaking, Xia Zhixian’s Sky Butterfly Queen’s thin wings continued to shake, dropping countless petal shaped butterfly wings. These petal butterfly wings quickly interlaced around devil tree to create a suit of armor.

“Butterfly Wing Scale, it doubles your devil tree battle soldier’s defense.” Xia Zhixian said.

“Lifeforce Blessing, doubles your devil tree battle soldier’s life force.”

After, Xia Zhixian summoned a Poisonous Lichen.

“Poison and spikes allow you to ignore defenses.” Xia Zhixian continued.

“En, your devil tree battle soldier also has life force absorb....” Xia Zhixian, speaking to herself, summoned a blood demon flower emperor.

The blood demon flower emperor swiftly cast an incantation and gave devil tree battle soldier a blood red technique that swiftly caused its eyes to go bloodshot.

“What is this?” Chu Mu asked.

"Life Transfer. It can move blood and life force into Devil Tree Battle Soldier’s strength and temporarily increase its power. The more life force and blood it sucks, the stronger your devil tree battle soldier will get. It can at most double your devil tree battle soldier’s strength given that its strength and mind holds.” Xia Zhixian quickly explained.

Xia Zhixian gave devil tree battle soldier a myriad of statuses. Adding them all together, devil tree battle soldier was probably high class dominator rank in power!

Going from middle to high class was a significant leap. Especially for devil tree battle soldier, if the group fighting master devil tree battle soldier became high class dominator, why would it fear the hundreds and thousands of emperors?

“Ao!!!!!!”

The devil tree battle soldier became incredible under these statuses. Standing before them all, it seemed to block off the entire army by itself!

When the recovered armored beasts charged forth again and hit the devil tree battle soldier’s arm, a few dozen were swept very far away and incapacitated this time.

Countless root traps with poison and spikes were even more dangerous. Any emperor rank that fell into the traps and remained for over five seconds would never get out alive again.

The devil tree battle soldier’s attack wasn’t high but its battle stamina was the longest of all of Chu Mu’s soul pets. Able to instantly kill fifty soul pets was ridiculous already. Being able to cast multiple techniques at once, Chu Mu was seriously wondering whether the thousand beast type soul pets could even withstand devil tree battle soldier’s onslaught.

“You live up to the name of strongest soul pet supporter of new moon ground.” Chu Mu remarked with a sigh.

Xia Zhixian has gotten much stronger from before, and this supportive skill was truly strong, boosting devil tree battle soldier a full rank.

The life transfer technique also means that devil tree battle soldier would only get stronger as the battle continued!

Chapter 1247: Sweeping through Zhao De's Navy Legion (2)

The Devil Tree Battle Soldier was able to face over a thousand mad beasts. Moreover, with Xia Zhixian helping next to it, the over thousand emperor rank mad beasts might not even be able to injure Chu Mu and the others.

Watching wave after wave of emperor rank mad beasts fall in front of him and the blood flow, Chu Mu couldn't help but show a bloodthirsty smile.

After his half devil strength had risen, Chu Mu had never actually tried it out. Even after the few techniques just now, Chu Mu was still unable to determine his full strength.

"Sang Ying, those water beasts will pose a bit of trouble to me. I'll leave them to you." Chu Mu said to Sang Ying.

Sang Ying had more water type soul pets and was an expert with a high class dominator rank expert. With this strength, dealing with this water beast legion shouldn't be a problem.

The fight was so chaotic and it was their side that had the advantage. As a solo traveller, Sang Ying had often been bullied by larger factions. Now that there was an opportunity to wipe out an entire ship legion, Sang Ying felt extremely excited inside.

"Don't worry, I won't let even a drop of water hit you!" Sang Ying slapped his chest as he spoke.

As he spoke, the two water type soul pets next to Sang Ying began to chant incantations.

Chu Mu nodded his head, and the silver devil flames on his body rapidly burned his entire body.

In an instant, an ice cold aura from the devil flames proliferated in all directions. The enormous aura forced the nearby wild beast emperors to prostrate themselves; none of them dared move.

“Wa!” when the adjacent Sang Ying saw the silver and evil devil flames wrap Chu Mu’s body, he couldn’t help but cry out.

This was the first time he saw a half devil. When he had entered New Moon Land, he had heard many rumours of the devil people. Today seeing a devil person standing in front of him, he couldn’t help but feel much astonishment!

An other human type was an incomparably mysterious species. They were humans but also weren’t. They also possessed powerful strength that could dominate everything!

The ostentatious and coarse silver devil flames accentuated the tall and arrogant body like an evil king from another world.

Sang Ying’s view of Chu Mu had completely changed over the time he had known him.

“Heavens... what is that. A flaming devil?” the navy members let out shocked cries when they saw the silver devil flames.

Silver devil flames, the body of a human and peculiar evil eyes. This was a creature they had never seen before. When its evil aura struck them, it was like it was announcing their death. It couldn’t help but make a mysterious fear arise in their hearts.

"What are you afraid of. We have so many water beasts. How can we be afraid of a fire type creature?" berated the assistant ocean commander.

All of the water beasts had locked onto Chu Mu and as Chu Mu's flames began to proliferate, the water beasts wanted to extinguish his flames.

"Hmph, are these things treating me, their grandfather Sang, as if I don't exist?!" heroically roared Sang Ying.

Sang Ying's two water type soul pets also created a torrential and enormous wave that washed over the water beast squad. Sang Ying then had his soul pets push the wave up, and violently clash with the opposing side's water type techniques in midair!

"Hua hua~~~~~"

The force of impact from the wave was dispelled and it transformed into a downpour throughout the sky.

The silver devil flames continued to burn on the ground. The scattered drops of rain obviously couldn't extinguish the devil flames and as Chu Mu controlled the silver devil flames, they surged forth even more savagely!

There were also bug, demon, corpse, and ghost type creatures in the navy. These creatures weren't as orderly as the other teams, but they also had powers that couldn't be neglected. There were about 500 of them and Chu Mu's target was these emperors of mixed attributes.

Ghost and corpse types innately feared fire, especially fire that could directly burn their souls.

Chu Mu controlled the flames and continuously exploded the devil flames. Not only did the powerful force explode the dead soul soul pets into pieces, but even knocked the weaker demons flying far away.

Hu hu hu hu!!!!!!!”

After a series of devil flame explosion techniques, there were at least 90 corpses left there. Moreover, the effects of the devil flames continued to burn on these soul pets.

Chu Mu looked at the destruction he caused and said to himself: “The power from the devil flame explosions is comparable to the Little Hidden Dragon’s techniques now!”

“Good. Then it’s time to try the Worldly Devil Sword Array!” as he spoke, Chu Mu chanted another incantation.

Chu Mu floated in the sky, otherwise the surrounding space would be unable to contain the enormous Worldly Devil Sword Array.

Blade after blade of shrunken Worldly Devil Swords appeared. As Chu Mu pointed, these swords would rush straight towards the mixed legion.

The Worldly Devil Sword Array was much stronger than the devil flame explosions and the terrifying enormous worldly swords were pierced into mountains, the earth and lakes. There were at least 130 enemies killed and many others heavily injured!

Chu Mu was pretty satisfied with the power of the Worldly Devil Sword Array. This attack was probably capable of threatening some normal high class dominators.

After Chu Mu's two sets of techniques, the navy legion began to tremble from fright.

Most of the navy legion relied on safety in numbers. Even if the enemy was somewhat stronger than their ocean commander, they would still be able to easily defeat that enemy.

However, the enemies they were facing this time all had high class dominator strength. Especially that tyrannical devil which had caused the casualties of 200 people with just two techniques.

The navy members all had expressions of fear while the hovering Chu Mu wore a smile.

"There's still a technique I haven't tried. Don't be hasty." Chu Mu slowly said.

Chu Mu was going to use his current strongest technique - Devil Flame Evil Mound!

A black energy began to coil in his palm. After Chu Mu added a spatial protection to himself, he chanted an incantation under everyone's stares.

When the black energy of death began to appear, Zhao De's expression turned extremely unsightly. He was able to feel that the destructive power of Chu Mu's subsequent technique would be extremely terrifying!

Zhao De could no longer remain calm. He chanted an incantation, summoning his dominator rank soul pet in an attempt to stop Chu Mu from releasing his technique.

“Hou hou hou!!!!!!!!!!!!!!”

Suddenly, the golden colored Thousand Wave Beast stepped forward and proudly raised its chest and head.

Prince Chao nimbly jumped onto the Thousand Wave Beast’s head and looking down at Zhao De, solemnly said: “Your opponent is me!”

“Hmph, just relying on this middle class dominator rank soul pet? Aren’t you overestimating yourself?” sneered Zhao De.

Zhao De ignored Prince Chao, and focused on stopping Chu Mu.

However, Prince Chao coldly smiled and chanted an incantation.

As the leader of the seven great saint beasts, how could the Thousand Wave Beast be as simple as it looked? When it erupted with its full strength, why would Prince Chao not dare fight against Zhao De!?!

Chapter 1248: One Step Produces Dignity, One Step Produces Grandeur (1)

A golden body, golden armor, a golden horn, and golden claws. The Thousand Wave Beast’s strength abruptly rose under the pressure of the two high class dominator auras. Its muscular body continuously shone with a holy golden light.

Zhao De's two high class dominators were a Deep Sea Mammoth and a Ten Winged Heavenly Devil Insect!

Deep Sea Mammoth was enormous, and not inferior to the Thousand Wave Beast. Its long hunting teeth were bared and the horn on its head was even more fierce than other horned beasts!

The Ten Winged Heavenly Devil Insect was something New Moon Land people were extremely familiar with. However, high class dominator rank Heavenly Devil Insects were extremely rare.

In Zhao De's opinion, his Deep Sea Mammoth would be enough to deal with Chao Lengchuan's Thousand Wave Beast.

Therefore, Zhao De immediately ordered his Ten Winged Heavenly Devil Insect towards Chu Mu. With its speed, it would be able to reach Chu Mu within a second and stop his incantation.

When Prince Chao saw the Ten Winged Heavenly Devil Insect fly over, he instantly ordered his Thousand Wave Beast.

The Thousand Wave Beast took a step in the air, and a golden energy of light emerged in the depths of its throat. It spat the energy at the Ten Winged Heavenly Devil Insect.

The scalding golden energy exploded when it neared the Heavenly Devil Insect and like magma, it burned the Ten Winged Heavenly Devil Insect's skin. The angry Ten Winged Heavenly Devil Insect's red eyes span around and it gave a deathly glare at Chao Lengchuan's Thousand Wave Beast.

Chao Lengchuan's delay allowed Chu Mu's incantation to finish.

The black energy coiling in his hands suddenly shot towards the ground. In an instant, a black tide surged up around Chu Mu, gathering around the black energy created by Chu Mu.

While Chu Mu was chanting there were over 100 emperors attempting to stop him around him. However, the attacks of these emperors were unable to break Chu Mu's spatial barrier in the short period of time. As the black tide surged, the emperors were like pieces of grass flying in the wind, being thrown around the air.

As the black energy descended, it transformed into a stunning evil burial mound that used the black tide to suck in the over hundred emperors. Then, it firmly covered the ground and locked the over hundred mixed species emperors!

“Beng... the evil burial mound smashed to the ground, causing the island to tremble. Terrifying flames began to roar, instantly sweeping through the area.

The torrential flames occupied the entire battlefield, striking the thousand wild beasts and the hidden demons on the battlefield. Their pained cries rang together through the air.

Numerous soul pets were struck by the devil flames and their souls were severely burned. As for the two hundred emperors covered by the evil burial mound, they had no chance at living. The temperature of the devil flames inside the evil burial mound were at least 5 times higher, which meant even some dominator rank creatures weren't able to bear it.

Two hundred mixed species soul pets were instantly annihilated, and at least 3000 emperors suffered different degree burns. When the navy members looked at the evil burial mound standing alone in front of them, their bodies were petrified.

“Such... such a destructive force. It’s even more terrifying than a high class dominator!” Sang Ying’s face was full of shock.

He remembered that the rumors said the devil person’s strength was only about the middle class dominator rank. But the technique Chu Mu had exhibited was no inferior to a high class dominator. Moreover, with this continuous burning devil flame, how many emperors would be able to persist?

“This man’s strength rose again.” Xia Zhixian was silently shocked.

From the initial wind cave to the evil burial mound, the destructive force of these techniques sufficiently indicated that Chu Mu had entered the high class dominator rank. Moreover, the feeling was that he was actually quite a bit stronger than high class dominators.

When Prince Chao saw the power exhibited by Chu Mu, he felt his blood boil. These past few years he had spent chasing Chu Mu’s footsteps. Although the difference between them had always remained large, he firmly refused to remain a spectator in future fights. Thus, he had to exhibit all of his grandeur.

“Thousand Wave Beast, trample on that ten winged thing!” ordered Prince Chao.

The Thousand Wave Beast took a series of majestic steps in the sky and, relying on the Ten Winged Heavenly Devil Insect flying low through the air, took a hard step down on it.

Even though the step never struck the Ten Winged Heavenly Devil Insect, the downwards force still caused the Ten Winged Heavenly Devil Insect to smash to the ground.

“Beng!!!!!!”

The Ten Winged Heavenly Devil Insect was smashed to the ground in front of Ocean Commander Zhao De.

Watching the continuous slaughter of his navy members, Zhao De's face was ashen.

He glared at Prince Chao and in an angry and cold voice, said: "I'll slaughter you first!"

As he spoke, Zhao De gave his Deep Sea Mammoth an order.

The Deep Sea Mammoth was a genuine giant ocean beast. When it moved, its body would create layers of raging waves under its body, as if it was stepping on a wave to attack.

The Thousand Wave Beast had already landed on the ground and when it saw the Deep Sea Mammoth violently charge over, it raised its golden horn and transformed into Mt. Tai, standing its ground.

The two heavyweight beasts clashed together. The waves of water created by the Deep Sea Mammoth struck the Thousand Wave Beast and its long hunting teeth collided with the Thousand Wave Beast's horn!

"Keng..." a piercing metallic sound rang out.

The two enormous mountain-like bodies violently trembled, shaking the earth. The nearby emperors were all knocked flying. It was like there was no point in existing.

“It became stronger? Whatever, it’s going to die anyways!” Zhao De could sense that Prince Chao’s Thousand Wave Beast had gotten significantly stronger and it was now capable of fighting against high class dominator ranks.

Zhao De had two high class dominators, so he had no need for worry. He just needed to berserkly press the assault.

When the Thousand Wave Beast and Deep Sea Mammoth collided, the Ten Winged Heavenly Devil Insect flew to the air. As its ten wings beat at a high frequency, they emitted a piercing droning noise.

“Weng weng weng weng weng...” suddenly, black insects began to continuously pour out of the Ten Winged Heavenly Devil Insect’s wings. These black insects were extremely small, but their number kept increasing. In an instant, a huge swirl of black smoke had appeared around the Ten Winged Heavenly Devil Insect.

Flesh eating insects!

These small insects formed an important part of the Ten Winged Heavenly Devil Insect’s body. They were the Ten Winged Insect’s bloody mouths and they would rapidly devour the enemy and then take the devoured blood and flesh into the Ten Winged Heavenly Devil Insect’s stomach.

As the black mass of flesh eating insects flew down, they relied on the fact the Thousand Wave Beast was in a clash with the Deep Sea Mammoth’s ocean to land on its body. Then, through the cracks in its armor, they entered its body.

“Ao....” feeling its flesh gnawed at, the Thousand Wave Beast let out a pained howl.

The Deep Sea Mammoth also seized the opportunity. It lifted its front limbs and stamped on the the ground. Instantly, a torrential wave struck the Thousand Wave Beast, knocking the Thousand Wave Beast to the ground.

“Fighting one versus two is too difficult. Let me help you.” Xia Zhixian saw that Chao Lengchuan’s soul pets were wounded and couldn’t really stand watching it continue like this.

“No need, I can deal with it!” Prince Chao solemnly shook his head and ordered the Thousand Wave Beast to stand up.

Xia Zhixian wanted to convince him otherwise, but when she saw Prince Chao’s focus on the fight, she ultimately dispelled this idea.

There were some fights that could not be avoided, even if one was against a stronger opponent. To the current Prince Chao, losing this fight was better than not fighting, or receiving someone else’s help.

The flesh-eating insects’ harassment made it very difficult for the Thousand Wave Beast to fully use its limbs to attack.

However, the Ten Winged Heavenly Devil Insects would just fly back to a safe height and attack the Thousand Wave Beast again when it would clash with the Deep Sea Mammoth and didn’t have much strength to spare.

“In terms of strength and techniques, my Thousand Wave Beast isn’t much superior to the Deep Sea Mammoth. It’s practically impossible for me to defeat it first. I need to get rid of that pesky mosquito first.” Prince Chao thought to himself.

Compared to Zhao De’s two soul pets, the Thousand Wave Beast’s biggest advantage was its ability to resist attacks.

Prince Chao’s Thousand Wave Beast didn’t have outstanding strength and its species techniques were the same as the vast majority of Thousand Wave Beasts. Its speciality lay in its constitution where it was capable of withstanding twice the number of attacks than same ranked Thousand Wave Beasts could.

However, stronger defense, withstanding abilities and endurance would not allow the Thousand Wave Beast to deal with two same ranked enemies alone.

Prince Chao was extremely focused on the fight. He was thinking how he could reverse his passive state.

“Patience and calm. There will definitely be an opportunity.” Prince Chao told himself.

In the sky, Chu Mu wiped through the 500 mixed emperors until everything was in a disarray.

If these emperors were no longer in an orderly team, they would not be able to pose much treat to a dominator rank creature.

After annihilating his enemies, Chu Mu looked down and focused on Prince Chao’s fight.

In a one against two, the fight quickly became a unilateral suppression. Prince Chao's Thousand Wave Beast was stuck in a passive defensive state and flesh was mangled from the flesh eating insects gradually eating away through its armor. If it was hit head on by one of the Deep Sea Mammoth's hunting teeth attacks, the Thousand Wave Beast would suffer a heavy injury.

Zhao De was an experienced soul pet trainer and he had found the locations where the Thousand Wave Beast's defenses had given way. Indeed, one of the hunting teeth suddenly flew forth and pierced the flesh on the back of the Thousand Wave Beast.

"Meh..." the Deep Sea Mammoth forcefully pulled back and a hole was opened up in the Thousand Wave Beast's back, fresh blood frighteningly spurting out.

When Chu Mu, Princess Jinrou and Xia Zhixian saw this, they sucked in a breath of cold air. After this attack, it would be hard for the Thousand Wave Beast to turn the situation around.

The Deep Sea Mammoth abruptly flung itself forward and threw the Thousand Wave Beast's enormous body into the air.

In the air, the high class dominator rank Ten Winged Heavenly Devil Insect was waiting!

The edges of the Ten Winged Heavenly Devil Insect's wings were sharp bone spikes. These bone spikes were specialized at dealing with heavily armoured creatures like the Thousand Wave Beast. In the eyes of the Ten Winged Heavenly Devil Insect, there was no highly armored defense as its wings were heavy armor shredding machines!

Chu Mu wasn't far away and he could see the Thousand Wave Beast thrown into the air, blood flying everywhere.

Chu Mu had to take action. Perhaps the Ten Winged Heavenly Devil Insect's defensive abilities weren't anything special, but its instantaneous explosive offensive power was capable of killing a creature of the same rank. The Thousand Wave Beast would be shredded after being thrown into the air and it was hard to say if it would be able to survive.

Chapter 1249: One Step Produces Dignity, One Step Produces Grandeur (2)

Chu Mu specially glanced over at Prince Chao

Suddenly, Chu Mu noticed Chao Lengchuan's eyes weren't filled with fear or panic but instead sported a faint gleam!

Chu Mu's incantation paused slightly. He didn't know why Prince Chao had such immense confidence even with his Thousand Wave Beast in danger.

Chu Mu's incantation suddenly stopped as he stared deeply at the Thousand Wave Beast in the sky.

Ten sharp bone blades were already on the side of Thousand Wave Beast when the ten winged Heavenly Devil Insect started flying over at a terrifying speed. This speed could cause its cutting power to the max!

This speed was very fast already. Under normal circumstances, a beast type organism couldn't possibly capture it.

Prince Chao stared unblinkingly at the Ten Winged Heavenly Devil Insect. His soul remembrance didn't leave the sky for a single moment.

He knew clearly how dangerous the situation was. However, the more dangerous it was, the less he could allow himself to make an error in judgment because this could mean his Thousand Wave Beast dying!

Finally, the cutting Ten Winged Heavenly Devil Insect!

Zhao De smiled cruelly, and waited for blood and flesh to fall before him in the sky.

Xia Zhixian knew she didn't have time to save it either now. She slowly closed her eyes and didn't dare to look at the bloody scene that was soon to come.

Chao Lengchuan's expression was unchanging. Just as Thousand Wave Beast was about to get cut, Chao Lengchuan's eyes flashed and gave a command to Thousand Wave Beast.

"Blood Refinement!"

The blood that sprayed everywhere was already all over the ten winged heavenly devil insect. With a command from Prince Chao, the blood lost suddenly started burning, becoming a lava that could seemingly penetrate everything, burning through the Ten Winged Heavenly Devil Insect and Deep Sea Mammoth's skin!

The Deep Sea Mammoth let out a pained roar while the Ten Winged Heavenly Devil Insect cutting started shaking!

"Shattering Step!" Chao Lengchuan gave Thousand Wave Beast a command.

In the air, the unsteady Thousand Wave Beast suddenly flipped over and stepped down with all four hooves in the space half a length above its original position.

The bloodied Thousand Wave Beast was glowing bright gold under the effect of Blood Refinement, piercing heavenly devil insect's skin and throwing off all its senses.

The Ten Winged Heavenly Devil Insect could no longer see the Thousand Wave Beast, but its speed wasn't any slower. After all, sprinting so far, it couldn't possibly slow down now.

Just as the ten winged heavenly devil insect flew into where the Thousand Wave Beast's original position, the Thousand Wave Beast's body changed into a shattering hammer that slammed onto the ten winged heavenly devil insect's body!!

“Ga!!!”

With a crisp crack, the hair raising sounds of bones snapping travelled to everyone's ears.

In the sky, the Ten Winged Heavenly Devil Insect's body was almost deformed!!

The thousand wave beast became the massive golden sky shattering hammer and slammed down, pinning the ten winged heavenly devil insect into the ground!

“Honghonghong..... Golden hammer slammed into the ground and created a massive crater. People even saw a ten winged heavenly devil insect's bone wings splinter outwards and land near the edges of the hole.

The battleground suddenly went silent. No matter if it was Chu Mu, Princess Jin Rou, Xia Zhixian, or Sang Ying, even the navys and generals stared in awe at the crater created by the thousand wave beast.

In the hole, the thousand wave beast was bloodied but under its feet was a high class dominator rank ten winged heavenly devil insect!

The ten winged heavenly devil insect's bones were permanently morphed. Many places on its body were completely flattened, its flattened organs mixing with its blood as it was squeezed out of its wounds. None of its ten wings were still complete. Even if it weren't snapped off completely, they were no longer useable.

The thousand wave beast's attack was a lethal blow to the ten winged heavenly devil insect. It was trapped firmly beneath the Thousand Wave Beast's massive hooves, only able to struggle furiously against the pressure.

Bug type organisms' life force truly were powerful. If it were a demon or elemental world organism, such an attack would be immediate death!

"Navy.... Boss Navy General's Ten Winged Heavenly Devil Insect has been defeated!"

"In a two versus one situation too....."

The navy commanders around were all staring wide eyed!

The army's general was the entire army's soul. Once he was defeated, then the morale of the entire army will fall.

This battle had already shaken the navy to their core. Now that even their leader Zhao De's soul pet was defeated, the navy had no courage left to continue!

"Gezhi....." Suddenly, a string of bones snapping sounded again.

Coming back to his senses, the navy found that the Thousand Wave Beast's massive hooves were grinding the already heavily injured Ten Winged Heavenly Devil Insect. Its body was already deformed, but with this extra pressure, its bones were shattered even further!

Thousand Wave Beast's actions of mashing its enemy's bones slowly reflected Prince Chao's mind completely. He did this only because his hatred towards his enemy was at a peak!

The Ten Winged Heavenly Devil Insect kept howling in pain as its bones were being continuously crushed. The crushing sound alone was already chilling. One could only imagine just how much pain the heavenly devil insect was facing.

The more pain it was for his opponents, the better Prince Chao could relieve his resentment!

Chao Lengchuan's amor for Xia Zhixian wasn't something developed only in the recent year. Way back when Xia Zhixian became Xiangrong city's city master, Chao Lengchuan already found her impossible to forget.

However, at the time, Chao Lengchuan was still a young soul pet trainer that stood only at the forefront of his age. Even as a soul palace prince, he was nothing compared to the strongest female soul pet trainer in the realm.

Afterward, when Soul Alliance became enemies with three palace, Prince Chao was always secretly stressed about his opposing standpoint to her. Even when he captured her alive in the battle at Xiangrong City, he didn't dare show any affection because of the greater picture.

Thankfully, at the time, Prince Chao's heart was still completely with three palaces.

As the soul alliance was destroyed and three palace rose up, Prince Chao started getting more in contact with Xia Zhixian after she was let off lightly. Only after New Moon Ground gained independence and he went towards Thousand wave Sacred realm together with Xia Zhixian did their relationship finally skyrocket as he wished. It even convinced Prince Chao to recover the play-boy attitudes he had almost gotten from Ye Wansheng and treat her wholeheartedly. After all, Prince Chao's greatest wish was to marry her ever since he was young.

Everyone had a person they had affection for at the bottom of their hearts. At one point, they may be so far they can't be touched.

In the future someday, they may walk back together. This type of relationship was the hardest to find.

The more worried and caring the man is, the more likely he will become extreme and lose all sense of logic. Thus, seeing Xia Zhixian willingly run to Zhao De, the feeling was no different from having his heart shattered!

At that time, Prince Chao bit down, near tears, and swore that he would squash Zhao De into meat!

Except, Chao Lengchuan didn't expect this moment to come so quickly!

Now Zhao De's proud navy was destroyed by his most trusted friend, Chu Mu, and his high class dominator rank soul pet ten winged heavenly devil insect was under his thousand wave beast's feet. To Chao Lengchuan, merely mashing its bones was not enough to release his anger. He had to stomp on Zhao De!

“Beng!!!”

Suddenly, Thousand Wave Beast's forelegs stepped down on its head!

Its skull splattered out from under Thousand Wave Beast's feet and smattered onto the rock layers!

After its head was shattered, it marked the death of the Ten Winged Heavenly Devil Insect.

This step redeemed Chao Lengchuan's dignity and created Chao Lengchuan's grandeur!

Zhao De's face went pale, as his chubby face shook with pain!

A high class dominator rank soul pet died like this. The symbol of identity like that was important to Zhao De, a soul pet trainer trying hard to climb out of Wu Pan Army, yet it was now shattered by that kid!!

Zhao De's eyes were already burning, and his body was shaking.

To Zhao De, this abuse of authority was normal for a navy general. Stealing women wasn't something he hasn't done before. Those that had been disrespected by him were plenty in number. However, not many could truly overthrow him, so these women could only take it without complaint while their men don't even dare speak up!

Yet today, he truly failed. Because of a woman, he lost a high class dominator rank soul pet and even lost half of his three thousand elites. This was absolute disrespect to a proud general like him!

"Go!! What are you waiting for, kill him, whoever kills him I'll give him the title of sub commander!!" Zhao De yelled out loud.

As the saying goes, a hefty sum always brings out courage. However, with someone even Zhao De couldn't deal with, how would these commanders or soldiers do anything?

Army commanders were the most important thing. In the chaos, there were still twenty commanders and soldiers that gathered together with a dominator rank level army, and they surrounded Prince Chao.

A total of three middle class dominator ranks, seven lower class dominator ranks, and ten pseudo dominator ranks. This energy was more or less equivalent to a high class dominator rank!

They stared very carefully at Chao Lengchuan, and yet no one dared to go up and attack first.

Chao Lengchuan's gaze was fixed on Zhao De, as if the general and navy were completely like air.

It wasn't like Chao Lengchuan was so powerful he could ignore their presence. It was because someone had said his only opponent is Zhao De!

“Beng!!!!”

Just then, a similarly ghostly blue hidden dragon fell heavily beside Thousand Wave Beast.

Its big mouth opened, baring its dragon fangs. Little hidden dragon turned its head and gazed at the twenty dominator rank organisms.

Before, little hidden dragon was always in the air fighting.

The middle class dominator rank organisms very quickly was dispersed. Having not had its fill, little hidden dragon stared with its massive eyes greedily at the new dominator rank souls it had discovered!

Emperor rank souls took too long to stack up. He had eaten four hundred and only gained 10% of his soul's growth. Little hidden dragon had three main types so he needed to eat 300% to reach top tier dominator rank.

Yet the faster way was definitely dominator rank organisms' souls. The dominant rank organism in front of it could raise its soul by around 20%, much stronger than any of those emperor ranks!

Chapter 1250 Void Life Armor, Defeating the Ocean Commander (1)

Blood dripped on the ground, burning through the ground.

Prince Chao looked at little hidden dragon's Chu Mu. He believed that little hidden dragon could deal with Zhao De's dominator rank subordinates, so the only thing left was Zhao De's Deep Sea Mammoth!

Zhao De was already a volcano ready to burst. He finally let out a furious roar, and gave a command to his Deep Sea Mammoth!

Deep Sea Mammoth started running and wave after wave started welling up from nearby. These sea waves pushed it slowly into the skies.

“Moooooo!!!!”

Deep Sea Mammoth let out a roar and started a tsunami attack at the tips of the waves!

From above the clouds, a waterfall-esque tide cascaded down. On the ground, feet after feet of tides rolled over!

The army, mountain, and slope were immediately devoured by the super tsunami. Many navy units that hadn't escaped in time were also rolled into this disaster.

Prince Chao lifted his head, and saw the massive tides that were already touching the clouds.

This tsunami was split into thirteen layers. When the first layer hit Thousand Wave Beast, its body only wavered slightly.

When the second wave hit, Thousand Wave Beast's body was pushed a few steps back.

By the third wave, Thousand Wave Beast's old wounds started festering under the waves' influence.

When the fourth wave hit, Thousand Wave Beast clearly couldn't stand steadily anymore.

Water was the least aggressive type of all elements, but when water created tsunamis of this scale and consistently batter its opponents, it wouldn't take long before a soul pet wouldn't even have the power to stand up. Even without a wound, it would lose all of its fighting strength.

The Deep Sea Mammoth was like this. Facing such a water type attack, Thousand Wave Beast couldn't even dodge it. It could only take it directly.

However, after ten waves of tsunamis, Thousand Wave Beast's body was already completely worn out from the water.

The thirteen tsunamis had almost crushed everything in the hundred kilometers around.

The tides continued down the islands' geography out into the ocean. In a valley still filled with water, the Thousand wave Beast laid there tiredly, breathing heavily.

Its skin and armor were completely rotten now, looking like a massive, bloated corpse that had been in the water for too long, losing its previously golden and intimidating aura.

“I’ve killed too many soul pets of this rank. You really thought you could match me? Continue dreaming!!” Zhao De looked at the tired Thousand Wave Beast and said coldly.

Just as he spoke, the Thousand Wave Beast suddenly shook itself off, throwing off the broken wood on its body.

Its body was still shaky, but it slowly extended its forelimbs to prop its head and chest up.

Slowly and tiringly, Thousand Wave Beast still managed to stand up. Its golden pupils were filled with weariness, but it still stared ferociously at the Deep Sea Mammoth!

Seeing his Thousand Wave Beast stand up determinedly even under such circumstances, and remembering how it was just as determined back when they were fighting Li Hong’s Nine Winged Dragon Snake, Chao Lengchuan was deeply moved.

Many soul pet trainers knew that only when a soul pet trainer’s determination was unmovable could a soul pet also gain a similar mindset. However, there weren’t many soul pet trainers who could actually achieve this.

“Hou!!!!!!”

Thousand Wave Beast’s body was still lightly shaking, but despite all this, it lifted its head and chest, and let out a roar towards the Deep Sea Mammoth again!

Deep Sea Mammoth rolled up another tide towards the Thousand Wave Beast after getting taunted.

Thousand Wave Beast suddenly stood still, and a golden aura appeared on its body.

This golden aura covered the thousand wave beast created an energy shield over Thousand Wave Beast.

At this time, Deep Sea Mammoth ran on large waves over, but Thousand Wave Beast stood in place, sturdy as a mountain!

“Hua!!!!!!!”

The waves slammed into Thousand Wave Beast, instantly devouring its massive body.

However, Thousand Wave Beast remained standing, not shaking in the slightest as it let the waves slam into it!

Deep Sea Mammoth clearly had a follow up attack. After the wave passed over, Its massive body charged towards the Thousand Wave Beast and continued to use its powerful long tusks!

“Jiang!!!”

Its tusks slammed into Thousand Wave Beast’s body and seemed to run into a thick metal mountain. The Thousand Wave Beast’s body shook, but the Deep Sea Mammoth’s tusks started bleeding. Not only did it not hurt the Thousand Wave Beast, it instead hurt itself.

Chao De was momentarily stunned before shouting out, “What is this technique!”

Thousand Wave Beast’s wounds were already deeply wounded. There was no way it could use even more than thirty percent of its power. Its stamina should also be depleted after suffering thirteen tsunamis. Under such a situation, any one of Deep Sea Mammoth’s techniques should be lethal, yet why did it instead hurt itself?

Thousand Wave Beast’s energy armor was shattered already. While the Deep Sea Mammoth was hurt by recoil, Thousand Wave Beast suddenly charged at the weakest stomach area of the Deep Sea Mammoth and sent it flying.

This charge caused the Thousand Wave Beast to fall back onto the ground, but the Deep Sea mammoth slid out at least ten kilometers before barely stopping.

“This should be Thousand Wave Beast’s rare species technique Void Armor, right? So Prince Chao’s Thousand Wave Beast has this technique. Why haven’t I ever seen him use it in the past?” Chu Mu in the air muttered to himself.

Void armor was a species technique of Thousand Wave Beast. It was something Chu Mu saw while reading the archives in soul palace.

It was a technique that can be used when the Thousand Wave Beast’s life is very low. Using its determined spirit, it creates a defense double the strength of its normal light armor!

Thousand Wave Beast was already an organism with incredibly high defense. With an armor twice the strength of its normal light type aura, it could basically ignore any same rank organism’s attack. It’s the perfect technique for Thousand wave Beasts.

“Void armor..... this..... This void armor..... This is Thousand Wave Beast’s void armor.....”
Chao lengchuan stared blankly at the golden energy around his Thousand Wave Beast and was stuttering!

Comprehension!

Chao Lengchuan never expected that his Thousand Wave Beast would suddenly learn the strongest species technique at such a moment!!

“Prince Chao, the void armor doesn’t last long, use the chance well.” Chu Mu saw Prince Chao get overexcited and quickly reminded him.

Chu Mu was confused as to why Chao Lengchuan had never used it before. It turned out the Thousand Wave Beast had just learned it.

Only when facing stronger opponents and constantly going beyond its limits can a soul pet release its full potential. At this moment, Chao Lengchuan’s Thousand Wave Beast was using all its potential to battle!

Chao Lengchuan was warned by Chu Mu and quickly quelled his excitement.

The battle hadn’t finished yet. He must use this short void armor duration well!!
