

## **Soul Pets Bk2 1251**

Chapter 1251: Void Life Armor, Defeating the Ocean Commander (2)

The Deep Sea Mammoth crawled out from the pile of rocks. The Thousand Wave Beast's charge had caved in a large part of its armor, and fresh blood was seeping out through the cracks.

Zhao De was so mad that he had lost all sense of reason. He couldn't believe that such a weak soul pet was still able to withstand his Deep Sea Mammoth's attack.

He gave the Deep Sea Mammoth another order and it ran even faster. In the wake of its charge appeared an extremely rapid wave.

As it stepped onto this wave, the Deep Sea Mammoth's speed grew increasingly fast!

Chao Lengchuan couldn't help but show a smile when he saw how crazy Zhao De had gotten.

The Thousand Wave Beast had double the defense now, meaning none of the Deep Sea Mammoth's attacks would be able to injure the Thousand Wave Beast. In fact, the more intense its attacks were, the stronger the recoil would be!

The Deep Sea Mammoth's speed had already reached a max. Its long hunting teeth locked onto the Thousand Wave Beast's vitals in an attempt to run straight through the Thousand Wave Beast!

“Keng!!!!!!!!!!!!!!!!!!!!!!”

Another loud metallic sound rang out. Under the protection of the void armor, the Thousand Wave Beast was pushed back a few steps.

However, the Deep Sea Mammoth suffered from intense recoil and its body was suddenly frozen in place.

“Ga!!!”

A crisp sound rang out and a crack appeared on its ostentatious white hunting teeth

From an initial small crack, it expanded to a crack that covered the entirety of two long hunting teeth. Finally, its hunting teeth abruptly shattered!

Not only were the teeth shattered, but the recoil power passed through the Deep Sea Mammoth’s entire skeleton, causing countless bones to shatter!

“Senior Ocean Commander’s Deep Sea Mammoth’s extremely sturdy hunting teeth have been shattered!!” an ocean general stared with shock and spoke in disbelief.

“What happened? What happened to Senior Ocean Commander’s Deep Sea Mammoth??” the navy members stared at the shattered hunting teeth and the paralyzed Deep Sea Mammoth.

The Deep Sea Mammoth let out a pained howl and its body heavily crashed to the ground.

The Thousand Wave Beast raised its enormous foot again and directly stomped down on the Deep Sea Mammoth’s body!

“Ga!!!”

The horrifying sound of bones shattering rang out, and the back of the Deep Sea Mammoth caved in!

“Beng!!!!!!!”

Another stomp. The power behind the Thousand Wave Beast’s large foot was enormous and even the Deep Sea Mammoth was unable to withstand the stomp!

From the back to the stomach and then to its four limbs, the Thousand Wave Beast kept stamping down. The paralyzed Deep Sea Mammoth, after having its joints shattered, found it difficult to free itself and could only howl in pain with every bone shattered.

This horrifying scene stunned the surrounding navy members!

Ocean Commander Zhao De’s two soul pets had been defeated, and had been trampled until their bones had been smashed!

Zhao De couldn’t summon any more soul pets. He could only watch with red eyes as the soul pet he was proud of was trampled to death.

As his veins were bulging, Zhao De roared at the navy members, giving them orders. He wanted them to save his soul pet.

However, when he looked around, he suddenly discovered that he was surrounded by corpses and a river of blood!

All of the other navy members were cowering far away. The only thing remaining was a ruined army.

Three thousand elites had collapsed in the blink of an eye. Everything was in chaos. Even if this was still considered a fight, in reality, it was a one sided slaughter.

The feathers of the wing type team in the air were dripping with blood and they were no longer in an order team. The corpses of ocean beasts had washed ashore, laying there like trash. The plant creature fortress was in even more disarray. It lost the fortified aura it previously possessed. The thousand emperor wild beasts had been single sidedly slaughtered by the increasingly strong Devil Tree Battle Soldier. They either died or fled.

Zhao De was stunned. He never expected that in such a short period of time, his elite three thousand legion would be annihilated...

He suddenly turned around and saw the enormous Thousand Wave Beast standing in front of him. Standing on top of the Thousand Wave Beast, Chao Lengchuan was looking down on him with a pair of cold eyes.

"I should be able to extract a lot of oil from your flesh!" Chao Lengchuan faintly pulled on his cheeks as he spoke.

The ruthlessness in his heart had erupted, and he felt cruel and arrogant.

The Thousand Wave Beast slowly raised its enormous foot, hovering it above Zhao De's head.

Zhao De had no soul pet that could fight against the Thousand Wave Beast anymore and the ocean generals around him had been annihilated.

The shadow of the enormous foot enveloped Zhao De, who looked up in fear with pale lips quivering.

He, who normally relied on his navy general status to commit evil, never expected that he would provoke a group of such terrifying people. It was only when his life was threatened that he began to regret. He regretted why he had intentions towards these people.

“Beng!!!!!!!!!!!!”

A loud sound rang out and the Thousand Wave Beast's enormous foot suddenly smashed down and Zhao De's fat body was instantly exploded. His innards, bloods and bone splattered around the Thousand Wave Beast's enormous foot!

This foot gave Zhao De no chance of surviving. His fat body was reduced to a puddle of flesh.

The remaining navy members all frighteningly saw their leader crushed. They weren't even able to stand steadily after seeing it and they all scrambled in different directions.

As if he couldn't get rid of the demon in his heart, Prince Chao was still ordering the Thousand Wave Beast to angrily stomp on Zhao De's corpse. He had to stomp his corpse until it was smash into meat sludge.

“Go die! Die for me!!”

The ruthlessness in Chao Lengchuan’s heart was growing increasingly strong, and his entire being seemed to enter a frenzied state.

Xia Zhixian realized something wasn’t right and hastily flew up to the Thousand Wave Beast’s head.

“Ok, ok. He’s already dead.” Xia Zhixian tried to stop Chao Lengchuan.

After a while, Chao Lengchuan’s mental state slowly returned to normal.

Seeing the puddle of flesh under the Thousand Wave Beast, Chao Lengchuan who had woken slightly from his stupor jumped from fright. The puddle he had been stomping on couldn’t be any more messy.

Chao Lengchuan took in a deep breath and glanced at the adjacent Xia Zhixian. His savage eyes gradually became warm. He stretched out his hand and tightly grabbed onto Xia Zhixian.

Xia Zhixian was faintly stunned. She never expected his emotions to be so intense because of this.

She was silently rebuking herself in her heart that she didn’t consider Chao Lengchuan’s feelings.

Chao Lengchuan greedily smelled the fragrance on Xia Zhixian. Two streams of hot tears rolled down from his eyes and he swore: “I know that you yearn for the outside world and I know that I am still weak in this world. However.... I will definitely... definitely become stronger! I definitely will!!”

“I will not let something like this happen again... definitely not.... Definitely not...”

Definitely not. Chao Lengchuan kept repeating these two words countless times.

Xia Zhixian could feel Chao Lengchuan’s hot tears falling onto her neck. In this instant, she didn’t know what to say, because she never thought Chao Legnchuan would express such deep feelings for her. At least before this event, she had believed Chao Lengchuan was someone who just lacked a woman who could help him.

But his words abruptly made her realize that this man who was younger than her and slightly naive, now considered her as his everything!

This made Xia Zhixian feel slightly ashamed because her decision to be with Chao Lengchuan at the beginning wasn’t because she genuinely liked him; in fact, she had intentions of even exploiting him.

With her nature, the men she was genuinely interested in were those that already controlled unparalleled power and authority; indeed, she never denied she was extremely ambitious.

Only now, her heart was touched.

Perhaps an immature man that was willing to give it his all for her was someone genuinely worth her cherishment. This was despite the fact he still hadn't reached the level she wanted and needed her worry, help and support...

.....

Chu Mu slowly floated down from the sky and stared at the two tightly hugging people.

In reality, Chu Mu was slightly suspicious of Xia Zhixian in the beginning, afraid that she would one day hurt the naive Chao Lengchuan.

Nonetheless, Chao Lengchuan was only lacking in experience; he wasn't stupid. He himself had already realized it. Perhaps his actions today had thawed Xia Zhixian's heart, but even if it hadn't, Chu Mu was confident that Chao Lengchuan would continue on his path to being an expert. There would ultimately be a day that even if Xia Zhixian flew away, he wouldn't hesitate to steal her back. He would do anything to get her back!

Princess Jinrou who was standing next to Chu Mu looked up at him. Her lustrous eyes looked like they were more moist now, and she was secretly wiping away a tear.

Chu Mu forced a smile as he looked at her and couldn't help but say: "What are you crying for?"

"I'm moved. Nobody treats me like this..." softly said Princess Jinrou.

"There is someone." Chu Mu raised his brows.

Princess Jinrou looked somewhat confusedly at Chu Mu, not understanding who Chu Mu was referring to.

Was there someone who treated her like that? Princess Jinrou began to question herself. Could it be that Chu Mu was referring to himself? He was willing to treat her like that? But this man already had someone else in his heart.

“Uncle Bai Yu.” blurted out Chu Mu.

Princess Jinrou rolled her eyes at Chu Mu. She couldn’t be bothered to continue speaking with him.

Chu Mu felt bewildered. Why was she looking at him like that? Did he say something wrong?

In his opinion, Bai Yu was a true father. What he did for his daughter made Chu Mu truly respect him.

.....

“Let’s hurry and leave this place. There were a few navy members that escaped and there’s still another navy leegion here. Those people aren’t easy to deal with.” Chu Mu spoke up towards Chao Lengchuan and Xia Zhixian who were still in an enamoured state.

The two of them unwillingly separated and Prince Chao embarrassedly said: “Then where are we going now?”

“We continue forward. We should be close to the inner island of the Demonic Burial Mound.” said Chu Mu.

The inner island of the Demonic Burial Mound...

Chu Mu could feel that Night was there!

There were numerous dominator ranks on the middle island, but very few of them challenged the inner island of the Demonic Burial Mound.

Night was one of them. One that had challenged and lost...

Chapter 1252: Precipice Fissure, Second Demonic Burial Mound!

The differentiation between the island ranks was visible as Chu Mu and the other gradually approached the second strength grade Demonic Burial Mound.

From far away, Chu Mu had seen an enormous and loft precipice!

It was impossible to see the scenery on top of the precipice. The precipice extended into the clouds and it was possible to imagine that the inner island of the Demonic Burial Mound was an island above the clouds - a genuine paradise.

The closer he got to the Second Demonic Burial Mound, the more Chu Mu's heart kept sinking. He knew Night wasn't far from him, but when he thought of his static state that resembled a being without any life force, he felt an increasingly distasteful taste.

“Young master, we can’t pass through this precipice to the inner island.” said Old Li.

“Why not?” asked Chu Mu.

“This precipice is extremely tall and the lowest ranked creatures that live on it are emperors. There are countless numbers of them. Aside from this, I just discovered that every 2000 meters we climb, a dominator rank creature will appear. The dominator rank creature will be around the middle or high class dominator rank.”

“Young master, a thousand emperors are capable of posing a threat to a high class dominator, let alone ten thousand... I just estimated that if we want to pass through this second precipice, we need to be at least of the immortal rank.” said Old Li.

“The immortal rank is the rank above the dominator rank?” asked Chu Mu.

“Yes, this rank has a lot of names, for example heavenly life rank, saint pilgrimage rank, approaching immortal rank, chronic ancient rank... the reason for heavenly rank is because a creature of this rank possesses the life force of the heavens, saint pilgrimage refers to the ruling status of this rank since they don’t command empires, but entire enormous soul pet dynasties.” said Old Li.

“Doesn’t immortal refer to undying?” asked Chu Mu.

Old Li stretched out a finger and shook it. He continued: “Immortal is immortal. Undying is undying. An immortal rank creature has an extremely long life span and unless something unexpected occurs, they will normally be able to live for several thousand or up to ten thousand years. “Heavenly life” is just an exaggerated nickname, but “immortal” is real. When they die, their bodies will not rot and after they are buried, they will chronically exist throughout time because there is no parasite in this world that can decompose their bodies.”

“Legends say that once an immortal rank creature dies, if a suitable place can be found to bury it, it can undergo an extremely long deep sleep of death and wake up after and live again. Is this true?” asked the adjacent Princess Jinrou.

“Then the so-called undying rank is the rank above the immortal rank?” asked Chu Mu.

Chu Mu hadn’t even touched the immortal rank yet. This rank was as high above him as the enormous and lofty Demonic Burial Mound in front of him. Even if he could admire it, it still exerted enormous pressure.

But as for how strong an immortal rank creature was, Chu Mu really wanted to know.

“Yes. The undying rank is essentially called the god rank. In human history and knowledge, only five creatures have reached this rank...”

“Hades, Yellow Spring, Inferno, Underworld, Limbo.” Chu MU slowly recited three names of the five undying legends.

Chu Mu had only known that these five undying legends were very strong. But now that he could compare them to a complete rank, Chu Mu became even more clear of how strong they were!

“Let’s not talk about something so far away. Chu Mu, your soul pet is in the second Demonic Burial Mound?” Xia Zhixian interrupted their conversation.

A demon had to be at least of the high class dominator rank in order to challenge the second Demonic Burial Mound. Moreover, from Old Li's words just now, it was impossible to pass through the second Demonic Burial Mound's precipice without reaching the immortal rank.

"Chu Mu, your Night has reached the high class dominator rank?" asked Princess Jinrou.

"Probably." Chu Mu nodded his head.

The resources in Demonic Burial Mound were enormous, and Night innately was a nomadic demon. Even if it hadn't snatched xuan items for itself, its strength would still be able to greatly increase.

And since Night had challenged the second Demonic Burial Mound, to a certain extent this meant the middle island's resources no longer satisfied its strength increase.

Chu Mu himself felt that it was inconceivable that Night would be able to enter this rank alone. Most importantly, it had probably been a period of time now since it had challenged the second Demonic Burial Mound. He himself hadn't reached the high class dominator rank yet then.

"Demonic Burial Mound is hell for demons, but it is also paradise for them. As long as they are able to survive, their strength will increase to an unbelievably extent..." said Old Li.

"But it clearly hasn't reached the immortal rank. Why did it challenge the second Demonic Burial Mound?" asked Princess Jinrou, confused.

"The king in its heart..." Chu Mu muttered to himself.

Princess Jinrou looked with confusion at Chu Mu. A trace of bitterness appeared on Chu Mu's face. He didn't say anything. Instead, he just stepped forwards towards the precipice.

"Chu Mu, the precipice is too dangerous at our current strengths." Sang Ying hastily called out to stop Chu Mu.

Just from hearing that there were tens of thousands of emperors and numerous dominators protecting the precipice, a trace of fear emerged in Sang Ying's heart towards this towering precipice. He obviously didn't have the courage to challenge it.

"It's not that it's impossible to cross this Demonic Burial Mound precipice. The lord of the island opened a path in the Demonic Burial Mound precipice to allow for creatures that aren't of the immortal rank to pass. However, this path is very difficult to find and it is also ridden with dangers. If you go, it is a path of nine deaths and one life." said Old Li.

But Chu Mu had already begun walking towards the Demonic Burial Mound precipice. The others had no choice but to follow him.

Chu Mu walked up to the base of the precipice and used his hands to feel the sturdy and cold rock.

"It's inside." slowly said Chu Mu.

"Inside. You're talking about inside this precipice?" asked Prince Chao.

"The rock is extremely sturdy and a dominator rank will only be able to smash a few small cracks on the rock." said Xia Zhixian.

“I’ll go in and look?” Princess Jinrou floated over and her spectral body slowly entered the sturdy rock.

However, after entering halfway, she was unable to enter further. It was like an object was stuck there that prevented specters from entering.

“There’s a barrier half a meter through the rock.” Princess Jinrou stepped out and spoke to everyone.

“This should be the path that permits creatures not of the immortal rank.” Old Li rubbed his beard and spoke.

Chu Mu looked at Mo Xie on his shoulders who understood Chu Mu’s intentions. She jumped off of his shoulders.

“Shua!! Shua!! Shua!! Shua!!”

Four blades of cold light flashed through the air and the small Mo Xie rapidly cut out a door shape in the thick rock.

Afterwards, Mo Xie blew with her mouth, shattering the door-shape rock.

The rock shattered to the ground and indeed, halfway through, there was a brown colored energy barrier blocking their sight.

“This barrier isn’t weak...” said Sang Ying.

Just then, Mo Xie walked forward up to the barrier and softly scratched with her claws.

“Sila”

The barrier was easily ripped apart like a brown colored paper. Mo Xie didn’t exert much strength.

Princess Jinrou, Chao Lengchuan, and Xia Zhixian were all used to this, but the adjacent Sang Ying’s mouth was opened wide with shock. He swallowed the words he was about to speak.

“Wu wu wu”

After ripping open the barrier, Mo Xie turned around to tell Chu Mu that the inside of the barrier was empty. There was a single pitch-black path that they could follow.

Chu Mu walked in and discovered the inside wasn’t a cave. Instead, it was a long fissure that was opened from outside the precipice to inside. The bottom of the fissure was the widest, while the top of the fissure was slowly closing in together.

This fissure extended to the depths of the precipice as if it was leading somewhere.

Chu Mu began to scout the inside, while the small Mo Xie, after completing her mission, jumped back onto Chu Mu's shoulders. Her tail wrapped around his neck and she narrowed her eyes as if she was about to go back to sleep.

Chu Mu looked at this small fellow that had climbed back up to go back to sleep. He bitterly laughed.

Chu Mu poked Mo Xie's forehead and said: "How lazy have you gotten. Don't sleep. Go in front and scout the path."

"Wu wu wu wu"

Mo Xie unwillingly jumped off. A purple flame emerged on her body as she depressedly walked in front.

"There are definitely strong creatures inside. When the time comes, it will be you who fights." added Chu Mu.

Mo Xie's silver eyes instantly lit up, and her steps were no longer as heavy. She lifted up her nine small tails and broke into a small run towards the depths of the precipice fissure.

"Chu Mu, your small house pet is really interesting." laughed Sang Ying.

"Small house pet?" next to him, Xia Zhixian turned to look at Sang Ying.

Sang Ying felt confused, and when he discovered that Prince Chao was also looking at him, he rubbed his forehead and said: “Did I say something wrong?”

A small house pet meant it didn’t have any fighting strength. These pets were mainly used as ornaments or were weak pets with special uses.

From when Sang Ying initially met Chu Mu, the small fellow had spent most of her time lying on his shoulders and sleeping. In the soul pet world, a small creature that looked harmless, domesticated, innocent, and adorable normally had no fighting strength. They would rely on their appearance to obtain the protection of even stronger creatures.

Sang Ying had never seen Chu Mu’s small fox fight, and thus believed Chu Mu had decided to raise a small house pet in his free time.

“The small house pet you’re talking about is the soul pet that completely oppressed Seventh Rank Realm Lord Li Xu.” said Prince Chao.

“You’re talking about the Nine Tailed Fox Noble?” Sang Ying was stunned.

Sang Ying remembered hearing that Chu Mu had an ultra strong Nine Tailed Fox Noble. In the independence fight, it had relied on its overwhelmingly superior attacks to defeat the seventh rank realm’s realm lord!

When he had just seen Mo Xie easily rip open the rock and barrier, Sang Ying mistakenly believed that the small fellow that spent most of her time sleeping on Chu Mu’s shoulder was a small house pet with a special ability. He never expected that this extremely delicate and adorable small fox was the Nine Tailed Fox Noble whose name had crazily spread through Cloud Realm!

Chapter 1253: Walk with Death, Corpse Type Burial Mound

The crack was very long. After travelling for a while, there was an empty space ahead.

Chu Mu guessed that they were entering around ten kilometers of the precipice. If they hadn't entered from the crack, the ten kilometers of rock was something a dominator rank organism couldn't possibly get through.

After entering the rock wall, Chu Mu started feeling Night get closer and closer.

The empty ground started going upwards. Mo Xie's purple flames lit up the cold walls aside, but the night was so silent only their footsteps could be heard.

"Why does it feel like there's nothing." Prince Chao felt it was too quiet and spoke.

"Let's use mental voice to communicate." Xia Zhixian's vigilance was rather strong.

This was the inner side of the precipice. If there are organisms with powerful hearing, their speech could be heard from hundreds of kilometers out.

Chu Mu didn't believe it's a completely safe place because where Mo Xie's fire lit up, there were some bones that clearly weren't low rank.

As the elevation slowly rose, there seemed to be a roundabout that brought them closer and closer to Night.

"There seems to be something above us." Sang Ying said with mental remembrance.

After passing the long, upwards, and roundabout terrain, the land ahead started opening up as if they entered an underground hall.

After entering the region, Chu Mu felt like the underground courtyard could be more accurately described as an underground burial mound because the space was filled with countless corpses.

Mo Xie's purple firelight shined through, causing the entire burial mound to shien purple.

The burial mound was massive, with nearly a five kilometer diameter. Humans feel very tiny.

Soul pet territory has many massive organisms, so five kilometer long wasn't a strange scene.

However, what confused Chu Mu was why the corpses on the ground were all rotten to different extents. Some were already fossilized, while some had barely lost their skin.....

"Huh, there's text here." Princess Jin Rou floated over to a plaque at the center of the place.

There was a ring around the rock that sank into the ground like a channel, flowing with black but unknown liquid.

Princess Jin Rou was pretty familiar with most ancient texts so, while she was deciphering it, she also translated the contents and read it out loud.

“Living creatures who enter here, walk with death!”

Prince Chao stuck his head over and said confused, “Walk with death? Why does this sound like something a crazy witch would say?”

“I translated it to our language as best I could.” Princess Jin Rou said.

“You two stop talking for a second.” Chu Mu said to them.

Princess Jin Rou was about to ask in confusion when her sharp senses suddenly caught something.

She caught herself from speaking and started looking around.

“Gezhi~~ Gezhi~~”

“Dong~~~ Dong~~~~”

“Kuang~~~~”

Some small sounds came from the silent burial mound!

Using Mo Xie's firelight, Princess Jin Rou suddenly noticed that the corpses and bones on the ground were moving!

Princess Jin Rou and Prince Chao's expressions immediately turned strange as they carefully leaped out of the rock area.

The places they passed by had corpses too, all of which were moving and letting out creaks from their incomplete joints.

Prince Chao jumped over the pile of moving bones and stood by Chu Mu again. Princess Jin Rou hid behind Chu Mu's back, her spirited eyes showing a slight bit of panic.

Chu Mu glanced at Princess Jin Rou and joked, "You're an undead too, why are you afraid?"

Princess Jin Rou gave him a stare and rolled her eyes. Why did this guy never know how to talk?

"The correct translation is probably 'battle with the undead', right" Chu Mu glanced at the corpses starting to reconstruct and asked.

Clearly, the moving corpses are all undead organisms that guard this burial ground and forbid other organisms from passing through.

Corpse type organisms have always been known to be disgusting and fierce. They live only in very special circumstances. The most powerful corpse type organism that Chu Mu ever encountered would probably be the Marsh Fish Devil back in Guangtong Swamp.

“Dinggggg~~~~~”

The sound of bones hitting the ground came. Just three thousand meters from where Chu Mu stood, a large group of bones started gathering towards one direction. From the feet, to the torso and chest and finally to the skull, slowly these bones created a stumbling bone dragon.

The bone dragon's body was wobbly, clearly losing some important parts of its skeleton. However, even so, this bone dragon seemed hard to deal with.

“There's a tunnel over there. Let's not stay around for too long.” Xia Zhixian glanced at the bone dragon and said.

The same moment the bone dragon appeared, they were also getting surrounded by more and more corpse type organisms. They all shook their bodies and stared with their hollow eyes at the only living creatures around.

Corpse type organisms have a natural thirst for life, especially the corpses with missing body parts. Only eating living creatures could they satisfy the missing parts in their body.

Going from vacant to cruel and greedy, the corpses around Chu Mu started numbering in the thousands. Many of them were previously dominator rank organisms, so they were at least emperor rank now. The bone dragon at the exit was high class dominator rank.

“Mo Xie, open a path.” Chu Mu said to Mo Xie.

Mo Xie's body started burning purple as its powerful body opened up!

Purple flames came out from its hooves and the corpse organisms were forced onto the ground before they could even cast a single technique, falling back onto the ground as a group of scattered corpses.

“Wu~~~~~”

Nine tails suddenly swept over. The few hundred corpses in front of them were all swept away, falling like a storm far away.

“Chu Mu, your nine tail fox supreme truly is powerful.” Sang Ying looked at the waves of corpses and said enviously.

Those corpses are all emperor ranks, not any weaker than the navy people they met before. However, Chu Mu’s fox supreme didn’t even need to cast a technique. A single tail sweep was enough to kill a few hundred. If he had summoned it beforehand, the navy units probably would never be able to resist.

Prince Chao and Xia Zhixian also realized that Chu Mu’s Mo Xie seemed to be stronger again.

“Gezhi~~~~~”

As they spoke, the corpses that were swept away started shaking again, merging together into a perfect corpse.

“These things will gather again and can’t be killed. Don’t waste time here.” Chu Mu said.

Mo Xie stood ahead and opened the way. Even dominator rank corpses were swept away by Mo Xie and couldn’t get back up in a short time.

Corpses were spread everywhere. The five of them stepped over their corpses as they quickly went in front of the bone dragons.

The bone dragon’s body was thousand meter in length. Its large bony skull disappeared into the darkness above. One could only see a pair of terrifying eyes that looked down from above.

The bone dragon saw Mo Xie nearing and its eyes became more violent. Lifting up a bony claw up, it slammed it down heavily.

Mo Xie’s body wavered and easily dodged the bony dragon’s attack.

The bone dragon's strength was around high class dominator rank. Putting aside slow and clumsy corpse type organisms, even extremely fast high class dominator rank demons couldn’t touch Mo Xie.

Mo Xie slid outwards in a string of after images. No matter how the bone dragon attacked, he couldn’t touch Mo Xie. However, Mo Xie’s tail had already secretly grabbed onto the bony dragon’s body.

“Wuwu!!!!”

Mo Xie let out a long call, and her tail's power instantly powered up!

The nine tails clutched tight and the bone dragon's body was completely deformed!

Mo Xie swung its tail and its massive bones were swung onto the walls. The twisted bony dragons were swung to the side and collapsed into a pile of bones.

"This.... This is at least a high class dominator rank corpse!" Sang Ying saw Mo Xie so easily get rid of the bone dragon and exclaimed.

"Corpse type organisms are annoying because they can constantly reform their bodies. The dragon isn't dead." Old Li said.

Indeed, the pile of bones started shaking again, causing bones to be put together and its body reformed!

"Let's leave." Chu Mu had no interest in fighting these corpses so he brought Mo Xie and the others into the tunnel.

Not long after entering the tunnel, the dragon was completed. It angrily fit its head into the tunnel and watched them as they walked further away, its red eyes steaming as it clawed at the walls.

Prince Chao turned around and looked at the resentful bone dragon and said, "Though that was annoying, it wasn't too hard."

“It isn’t that easy. That was just the first obstacle. The demons that can’t even past the first obstacle become the corpses in there and become the first line of defence for the demon burial ground.” Chu Mu said.

“En, there are going to be even stronger organisms.” Xia Zhixian said.

.....

“What’s wrong?” Princess JIn Rou said in a low voice.

“Very close, I just feel like there was something wrong.” Chu Mu furrowed his brows.

“What’s wrong?” Princess Jin Rou asked.

“Soul pact, my seventh soul pact seems to be broken, but I think...” Chu Mu couldn’t explain the feeling and thought about it before speaking, “it’s like breaking a lotus but having threads still connected.”

Chapter 1254: Yellow Springs Road: Protector From Paramita

On the dark inner walls, a group of white armored men were methodically going up the inside’s slope.

They were around 5000 in number, all of which were solemn. Their eyes were constantly looking around with vigilance.

“Great leader, Zhao De’s incident.....” The great military counsel said in a low voice.

“Heng, that fellow was someone I’ve wanted to kick out for a while. Don’t think I, Xu Kuang, don’t know anything he does behind the scenes.” Great Leader Xu Kuang humphed. Turning around, he glanced at the remaining troops that escaped back.

Behind the great leader were two other leaders, one of which were female. Her attire was slightly revealing, only wearing a leather vest that covered her ample chest. Her tanned thin arms and navel were completely revealed.

Below that were skintight black leather pants. The pants were stretched tight around her legs and behind, fully revealing her attractive curves.

The female leader heard the military counselor and great leader Xu Kuang’s words, and simply laughed charmingly, “I’ve wanted to gouge out that Zhao De’s eyes for a while now, and keep them on my body so he could see as much as he wants.”

The military counselor Huang Mang saw the great leader and other leaders were all nonchalant about Zhao De’s death and was helpless to do anything about it.

He knew that Xu Kuang and Hai Qie were both seriously in question of Zhao De’s character, but no matter what, Zhao De was still a navy general. Though him dying doesn’t mean much, having three thousand elites dropping to only five or six hundred was a serious insult to the reputation of the third navy army. One had to know that on Wupan Continent, killing anyone in the Wupan Navy was a serious crime!

“Though our navy is powerful, there are countless lone experts in this world. Is Zhao De’s head filled with boobs? We lose nothing having lost a person like that, or else he might stay around and continue destroying our reputation.” Great leader Xu Kuang said with some viciousness. He paused and quelled his anger before continuing, “However, the other navy units are all part of my number three navy army unit. I will avenge their lives for them!”

“But, we don’t even know who they are.” Female leader Hai Qie said.

“They’re most likely headed towards the second demon burial ground. If we keep going at this pace, we’ll eventually meet them.” Great military leader Huang Mang said.

“How so?” Female leader Hai Qie asked, confused.

“Demon burial mound’s precipice are very large, with the inside completely made with hard rocks. The way we’re currently travelling has always been forward and upwards. The other precipice also travel in a similar trajectory. Its like how countless rivers all go to the ocean.” The military counselor Huang Mang said.

Huang Mang had gotten some information from the demon burial in the past from an old supreme. This was how he knew about this precipice in this second burial mound.

“The road we walk is just a small split? However, the protectors we’ve met so far all aren’t weak.” The other leader Tie Bing finally couldn’t help but speak.

“These are all small underlings. If we pass another burial mound, we’ll enter the second demon burial mound’s Yellow Spring Road. The Yellow Spring Road’s protectors are in the single digits, but they don’t care about the amount of people entering.” Huang Mang said.

“Yellow Spring Road?” Does this have anything to do with the legendary “Yellow Spring”? Can it be that the last protector is a Yellow Spring?” The female commander Hai Qie said, confused.

“We don’t know it too well. If there really is a Yellow Spring guarding the road, let’s just hope it hasn’t reached tenth phase.” The military counselor Huang Mang said.

The five undead legends were all immensely powerful. As long as they reached tenth phase, there are barely any creatures that can beat them in dominator rank!

“Military counselor, how many protectors are on the Yellow Spring Road, and how powerful are they?” The female leader asked.

“According to the records on a monument, the most ancient protectors of this road is the Paramita Flower Concubine, the water devil “Three Roads”, the water beast “Forgotten Creek”, and a real ‘Yellow Spring’.”

Leader Tie Bing laughed bitterly and said, “Real.... Real Yellow Spring.... Then this truly is our yellow spring road.”

“I was speaking about the most ancient protectors. It’s no longer those four organisms protecting it. However, our documents do originate from these four beasts.” The military counselor stroked his short beard.

“Then what is protecting it now?” Hai Qie was now immensely curious.

“Who knows? The protectors here get replaced by new protectors immediately when they are defeated or die. This is a rule of the island, but it shouldn’t surpass dominator rank.” The counselor Huang mang said.

“Ok, stop fear-mongering. No matter what is guarding it, we have to get the demon crown!” The great leader Xu Kuang said with no concern. “People behind, walk faster! I’m too benevolent to you in the past. If you don’t hurry up, I’ll double your training load when we get back!”

Hearing the great leader yell this, the long line of people behind really did get faster.

Seeing the effect, great leader Xu Kuang cursed. “These lazy bastards need a whipping!”

.....

The purple firelight lit up the front. However, what entered their vision was only cold and rigid rocks.

Slowly, the path got wider and wider, and before Chu Mu knew it they were faced with a flat road.

Both sides opened up. A massive underground waterfall flowed into a turbulent lake that flew past both sides of the road. Unknown flames stuck to the sides of the wall, numbering in the hundreds, but they still weren’t enough to light up the entire place.

Chu Mu looked around and noticed that, other than their road, this wider road has many sub branches that all lead here.

This underground tunnel remained on an upward trend. Though there was firelight up ahead, they could only see two to three kilometers up ahead. The rest was engulfed in darkness.

The five of them followed the now wider path down and slowly noticed a large shadow lumbering at the center of the road ahead!

The black figure was nearly a hundred meters tall, cold, arrogant!

As they came closer, they noticed that the black figure wasn't an organism but instead was a plaque set up in the middle of the road!

"Yellow Springs Road!"

Princess Jin Rou looked at the words and couldn't help but yelp.

"Just now it was "walk with the dead", now its Yellow Springs Road, can this path really be a path towards the underworld? Can it be that we're lost ghosts already?" Prince Chao said.

"Chu Mu, your soul pet really is good at running into places. How did it manage to get here?" Sang Ying's heart was slightly quivering as he said.

"Very close now...." Chu Mu muttered to himself.

After he spoke, Chu Mu stepped aside and passed right through the threatening big rock plaque and stepped into what truly felt like "walking with death".

Princess Jin Rou hugged her little ice fox and swiftly caught up, her spirited eyes gazing ahead.

As a spectral ghost herself, she could see further down. Everything here was very strange so she had to remain vigilant.

“There’s energy ahead.” Princess Jin Rou said.

Chu Mu didn’t stop walking but slowed down slightly.

Continuing up ahead, Chu Mu gradually heard sounds clashing accompanied with an occasional quaver of the cave itself.

“It’s probably some demon in this Yellow Springs Road.” Chu Mu guessed.

The sounds of battle got nearer and nearer, but just as they were about to arrive, another stone plaque appeared before them.

“Paramite!” Princess Jin Rou read out the words.

Prince Chao, Xia Zhixian, and Sang Ying’s expressions all became very strange. Everything here pointed directly towards death.....

“Ahead there isn’t just a single demon but instead a group of people.” Chu Mu said in a grave voice.

“Princess Jin Rou looked around the plaque and immediately noticed the large group of familiarly dressed people.

“Its the Wupan Navy!” Princess Jin Rou said with surprise.

Chu Mu furrowed her brows. “They should be the same people as the ones we met at the first demon burial mound, but these are stronger.”

“Then what do we do?” Sang Ying asked.

“Let’s watch first.” Chu Mu said.

The five of them hid well and slowly neared the region where the Paramita was.

Passing through the darkness, they found the Yellow Springs Road already covered by a large group of soul pets. They were like Zhao De’s navy, having many teams covering elements, wing type, beast type, plants, and water beasts.

The five thousand elites were constantly casting techniques at an extremely fast organism!

The organism was incredibly fast. Every time the emperor rank team’s attacks fell, it had already disappeared.

“Shua!!!!!!!!!!”

A dark glow flashed past along with a smear of blood!

In the beast team, three hundred beast type soul pets were all split into two, their bodies splitting cleanly in half!

Blood poured out into a tide that followed the slightly slanted Yellow Springs Road, morphing the road into a Yellow Springs River full of blood water!

“Such a powerful demon!!” Hiding far away, Chu Mu and the others were all shaken.

Chu Mu needs to cast his strongest Evil Burial Mound to kill two to three hundred emperors instantly, yet that demon dodged countless techniques and casually swiped its claws and achieved the same result!!

This is definitely past high class dominator rank!

“This is the protector of this section of Yellow Springs Road, known as “Paramita”. Only if we defeat it can we continue.” Princess Jin Rou said.

“Paramita!” Chu Mu said the title again as his eyes stared unmovingly at the figure darting through enemy ranks. His heart was roiling with waves of emotion!

Chapter 1255: Yellow Springs Path: Powerful Angry Horn Devil

Fresh blood had filled the Yellow Springs Path. The two waterfalls that formed rivers on either side of the cave were a striking blood red color!

In a short period of time, the navy legion's emperor army had lost 1000 members!

In the navy legion, Big Leader Xu Kuang, Leader Hai Qie, Leader Tie Bing, Military Adviser Huang Mang and three other lower status ocean commanders had extremely serious expressions.

"This is still just the first guardian!" said a lower status ocean commander with a stunned expression.

One fourth of the navy legion had already miserably perished. This loss had completely surpassed the predictions of the leaders. This emperor rank navy legion wasn't able to stand a single attack from Paramita!

"You three take action." Xu Kuang swept his eyes over the three lower status ocean commanders.

The three of them nodded their heads and instantly chanted incantations, summoning three high class dominators.

Once the three high class dominators entered the fight, the Paramita demon's slaughter was slowed.

Among the three high class dominators, one was a vine type. Vine types had stronger restriction abilities than wood types. The Paramita demon's black figure was forced back onto the bloody path and its azure eyes blossomed with a cold and savage glint.

When Paramita Demon came to a halt, Chu Mu who was far away finally saw the creature clearly.

This was a completely black soul pet, and it looked like a well-built and slender devil wolf.

On its head was a long horn and its forehead was surrounded by bloody red devil markings that looked particularly evil and demonic!

“Old Li, what creature is this?” Chu Mu had never seen this wolf-looking horned demon.

“It should be the Angry Horn Devil. Its species rank is near the top of demon species!” said Old Li.

“The Angry Horn Devil is one of the blood drinkers among demons. Blood drinkers are those that enjoy slaughter and drinking blood. In places where the aura of slaughter is heavier, their strength will increase. The navy legion clearly doesn’t know this as they sent out navy members to exhaust it. However, all this is doing is increasing the Angry Horn Devil’s vicious nature, making it harder to deal with.” continued Old Li.

As he spoke, the Angry Horn Devil launched another attack.

The Angry Horn Devil was extremely fast. Chu Mu had only seen this kind of speed from Mo Xie.

A black figure ripped open the blood red underground river, and its body ran along the rocky wall until it reached the very top of the Yellow Springs Path cave.

Angry Horn Devil’s four limbs firmly grabbed onto the rock at the top, and its pair of terrifying azure eyes glared at the high class dominator rank Slaughter Devil Tiger!

“Shua!!!!!!”

A cutting blade swiped down from the top. The high class dominator rank Slaughter Devil Tiger had just dodged, when a bloody wound that reached its bone appeared on its back!

“Pu chi~~~~~”

Fresh blood splurted out from its back!!

“Shua!!!!!!”

It was another cutting blade, but nobody was able to visibly see this second attack from the Angry Horn Devil!

“Pu chi~~~~~”

A second bloody mark appeared on the Slaughter Devil Tiger, and fresh blood splurted out again!

“Idiot, hurry up, and recall it!” Leader Hai Qie berated the adjacent lower status ocean commander!

This lower status ocean commander finally reacted, and hastily chanted an incantation, recalling the Slaughter Devil Tiger to its soul pet space.

At this moment, the dominator rank vine type's technique arrived too late.

Angry Horn Devil's reaction speed was extremely fast. Its body didn't need to move and it was mysteriously able to slide back very far away. An instant later, the techniques from a thousand elemental emperors terrifyingly exploded where Angry Horn Devil had just attacked Slaughter Devil Tiger and continued bombarding to where Angry Horn Devil was now.

Angry Horn Devil continued to slide back and the ripples from the elemental attack landed on its body, leaving small wounds. However, Angry Horn Devil was too fast and it was able to escape the technique coverage from over a thousand elemental emperors. The only thing it left was a small few wounds on its body.

Chu Mu saw the whole fight. Wasn't Angry Horn Devil's fighting instincts too strong?!

The navy legion's intentions were very clear just now. They wanted Slaughter Devil Tiger to take the Angry Horn Devil's attacks because this was the only chance the navy legion would have at locking down the Angry Horn Devil's location.

Angry Horn Devil had fallen for this, but from the moment it wounded the Slaughter Devil Tiger to when it dodged the Devil Vine and slid back from the group attack of the elemental emperors, it hadn't taken even the slightest pause. Its attack, dodge and retreat flowed as smooth as water. While part of this was attributed to its peak dominator rank strength, more of it was due to its sharp fighting instincts!

Chu Mu himself was a fighting madman, and he was very certain that this kind of fighting instinct could only be nurtured through much effort and revision. Even if this kind of a soul pet were to fight a same ranked creature, it would be able to overwhelmingly defeat its enemy.

While Chu Mu had sensed Angry Horn devil's sharp fighting instincts, Big Leader Xu Kuang, Leader Hai Qie, Leader Tie Bing and Military Adviser Huang Mang also realized this.

These four people that controlled 3rd Navy Legion were all looking in shock and disbelief at the Angry Horn Devil that was able to escape outside the range of the elemental bombardment. It was a while before they came back to their senses.

"The... the strength of Paramita is too terrifying!" said Ocean Commander Tie Bing, entranced.

The morale of the navy legion had suffered a severe blow. This was such a large legion with such concentrated attacks. Yet, despite the long amount of time that had elapsed, it had only managed to deal small wounds on the enemy. Most importantly, their ocean commander's Slaughter Devil Tiger had suffered a heavy injury and wouldn't be able to participate in the fight for a short while.

"What are you flustered for. Maintain formation!" angrily roared Big Leader Xu Kuang, "Don't be like a girl. If you die, you die. Eliminate the enemy first before you grieve the losses!"

Big Leader Xu Kuang indeed was an intimidating force in 3rd Navy Legion. His beratement roused all of the navy members with spirit.

"I'll ask about that sentence later. I'll deal with that creature now." Ocean Commander Hai Qie threw a glance at Big Leader Xu Kuang and narrowed her eyes.

"You have no part in this. I spend every day training them and have spent a huge amount of money investing in them. If they can't even deal with the first guardian, there will be nothing to pity even if they all die." coldly said Big Leader Xu Kuang.

Ocean Commander Hai Qie opened her mouth, wanting to say something. But when she saw Xu Kuang's eyes, she ultimately shut her mouth.

There were still three guardians up ahead and they were definitely stronger than the Angry Horn Devil. If they used all their strength here, the Yellow Springs Path would really become their yellow spring's path.

“Plant team move forward. Elemental team all release defensive techniques. Wing team remain in the air; if it doesn't leave the ground, don't attack...” Big Leader Xu Kuang replaced Military Adviser Huang Mang and began to command the legion.

Once Xu Kuang changed the formation, all of the plant type soul pets began to continuously launch attacks. They set up restrictions everywhere, not giving the Angry Horn Devil a chance to willfully pass through.

Once the elemental soul pets transformed into a full defensive state, the number of casualties greatly dropped. The Angry Horn Devil launched three or four consecutive attacks, and there were only about 300 emperors that died.

“Just keep exhausting it like this. It doesn't matter how many die... hmph, a group of useless things!” berated Xu Kuang.

Any demon would be very limited in group attack techniques no matter how strong it was. Once the entire navy legion adopted a defensive stance and began a war of attrition, the fight was no longer as lopsided as before.

“This navy legion big commander has a bit of brains. Although he will continue to suffer losses in this defensive state, a demon won’t be able to deal with the continuous exhausting no matter how strong it is.” softly evaluated Old Li.

The Angry Horn Devil didn’t stop attacking, but the defensive fortress created by the legion of three thousand remained abnormally sturdy. Each attack was only able to take away a hundred or so emperor lives!

After ten continuous attacks, the navy legeion’s emperor number had dropped to around 2500.

Meanwhile, the Angry Horn Devil’s wounds continued to compile. The poison and other negative effects from the plant creatures were taking effect, continuously slowing down its movements.

The Angry Horn Devil gradually lost its majesty from before, becoming weak.

“Ok, attack!” the big leader suddenly shouted out.

The formation rapidly shifted and in an instant, the wing type soul pets that were previously only harassing, all released techniques that shot towards the Angry Horn Devil.

The defensive state elemental creatures rapidly chanted incantations. Multicolored techniques descended en masse, causing the large cave to violently shake.

After the techniques bombarded the area, the beast type emperors angrily roared and pounced over while the plant world soul pets set up various restrictions.

While the navy legion's attacks became fierce, the Angry Horn Devil had had a large amount of physical strength exhausted, and its steps finally became disordered in the face of this sudden surge of attacks!

“Pai!!!!!!!!!!”

Devil King Vine's vines fiercely whipped the Angry Horn Devil, causing it to let out a mournful wail. Its body was heavily knocked back to the rock wall, leaving a bloody imprint!

The moment it rolled to the ground, the attacks from the elemental soul pets mercilessly descended. Angry Horn Devil's completely wounded body transformed into an illusory after-image that instantaneously disappeared from the ground.

“Hong hong hong hong~~~~~”

The elemental technique bombardment left holes upon holes in the rock wall and the technique was still continuing.

“All of you stop! Did you not see that it already fled?!” loudly yelled Xu Kuang.

The navy members' soul pets slowly stopped their techniques. When the smoke from the techniques dissipated, the navy members finally discovered that the demon truly had disappeared!

“Go and collect the corpses of your soul pets. If you aren't able to collect them, bury them next to the river. Since they're able to die in the second Demonic Burial Mound, they deserve the same honorable burial as the dominator rank demons on the island.” ordered Xu Kuang.

There weren't many navy members that collected the corpses of their soul pets. For one, it was practically impossible to find one's soul pet amongst the mass of corpses, and for another, Xu Kuang was correct in saying that it was an honor to die here.

After a moment of reorganization, the military adviser counted the number of casualties and softly said to Big Leader Xu Kuang and the other two leaders: "2479 emperor rank soul pets died this time. 39 high class dominator ranks and under no longer have the strength to fight, seven have died, one is severely wounded, and two have moderate wounds. There are also 400 navy members that died."

The two leaders' expressions turned grave and Hai Qie softly said: "This was just the first guardian, Paramita, and we lost half of our subordinate's fighting strength."

Ocean Leader Tie Bing nodded his head: "This was also the weakest guardian."

"We indeed slightly underestimated their power. It seems that I must request for external assistance." said Big Leader Xu Kuang.

All of the leaders of the legion looked confusedly at Big Leader Xu Kuang.

Only 3rd Navy Legion had come here. Where would they get external assistance from?

Big Leader Xu Kuang moved his eyes, and sharply stared at where Chu Mu, Princess Jinrou, Chao Lengchuan, Xia Zhixian and Sang Ying were hiding!

Chapter 1256: Yellow Springs path: Second Defender, Three Roads

“All of you come out. It was such a bloody scene, yet you were able to stand still watching it!” Xu Kuang pointed at Chu Mu and the other and spoke with a calm tone.

When the reorganized navy members looked at where he was pointing, there were a few of the navy members whose faces instantly turned frightened when they saw these five people.

“It’s... it’s them... it’s them!”

“It’s them who killed Ocean Commander Zhao De... it... it’s them!!” a navy soldier hastily ran up to Xu Kuang and frantically spoke up.

The navy members were instantly restless and they stared at the five people hiding in the distance.

If they were able to annihilate the Zhao De’s 3000 members, these five people were strong. This was despite the fact that Zhao De’s 3000 members was weaker than their own legion.

“All of you shut up!” Xu Kuang’s single sentence shut up all the navy members.

Xu Kuang walked forwards towards Chu Mu and the others.

The two leaders, the military adviser, and the three lower status ocean commanders immediately followed behind him while the navy members resting on the Yellow Springs Path retreated to the sides.

“What have you come here for?” Big Leader Xu Kuang swept his gaze over the five people and spoke.

“I’ve come to find one of my soul pets that failed its challenge here.” Chu Mu didn’t hide his intentions.

“Oh, that’s good. Our interests don’t conflict. You will be our external help.” Big Leader Xu Kuang nodded his head.

“You want to work with us? Your navy members recognize us.” Chu Mu could understand the intention behind Big Leader Xu Kuang’s words.

Xu Kuang was very strong, and Chu Mu wasn’t entirely confident he could beat him. Moreover, the people behind Xu Kuang were also very strong. If they truly fought, there would certainly be losses.

When an adjacent low status ocean commander heard Chu Mu’s words, his face instantly turned angry and he said: “Ridiculous, you killed so many of our navy members and have already become a wanted criminal by our 3rd Navy Legion. Just wait for your death!”

“You, shut up!” Xu Kuang coldly swept his gaze over the lower status ocean commander.

The lower status ocean commander shivered, and didn’t dare say anything more.

"Everyone knows that I’ve been planning on killing Zhao De, that vermin, for a while. I don’t care about Zhao De’s death. However, you killed many of our navy members so I will have to receive compensation for that.” said Xu Kuang.

The navy members instantly began to discuss amongst each other when they heard the big leader's words.

Xu Kuang swept his eyes around him, and the navy members all lowered their heads, shutting up.

"I've received orders from the navy to obtain the demon crown on Yellow Springs Path. You also witnessed the fight just now. Paramita's strength was astonishingly powerful. Next up there is still Three Roads, Forgotten Creek, and the strongest Yellow Springs. I think that we need to cooperate. Otherwise, we will all be destroyed before we even reach Yellow Springs." said Big Leader Xu Kuang.

Xu Kuang stared at Chu Mu, as he knew he was the leader of the five people.

"Chu Mu, don't trust him. There's a high chance he could be tricking us and using this excuse to surround us to prevent us from escaping." said Prince Chao.

Chu Mu looked at Princess Jinrou.

Princess Jinrou understood Chu Mu's intentions, and she closed her eyes.

"This big leader isn't lying. However, it's difficult to say if he will change his decision later on." Princess Jinrou used a mental voice to say to Chu Mu.

"This is the token of authority from the ninth division's lord. As long as it's a Wupan Navy Member he or she cannot attack the holder of the token." an ocean colored token appeared in Xu Kuang's hands.

When they saw this token, the surrounding navy members all stared with wide eyes. Even the two leaders and the military adviser were stunned.

They never expected Xu Kuang to bring take out the token directly given to him by the ocean lord.

“Take it. You can return it to me once you defeat Yellow Springs.” Xu Kuang casually tossed the ocean colored token to Chu Mu.

As the ocean colored token flew through the air, several thousand pairs of eyes all followed it because any Wupan Navy member understood how important the token was. Yet, their big leader had just given it to five strangers who were even wanted criminals by the navy!

Chu Mu accepted the token while the adjacent Sang Ying immediately came over, and looked with excitement at the token.

“Chu Mu, this is the genuine Ocean Lord Token. Those that possess the token have authority a rank lower than an ocean lord. Not only will the navy members not dare attack you, but you can even order the navy members with it. This token doesn’t rely on status; all that matters is who holds it!” Sang Ying’s face was full of shock.

Chu Mu himself was very astonished. Wasn’t this big leader too assured? He had just casually given away such a precious item!

“If you take the token right now and turn around to leave, nobody here, including me, will dare to stop me. However, my big brother’s temper is very violent and hates people without any honor the

most. It doesn't matter if you flee to the ends of the earth, he will still find you to interrogate you and then take back the token." said Xu Kuang.

Chu Mu's eyes fell on Princess Jinrou who faintly nodded her head, indicating that Xu Kuang was speaking the truth.

"Big leader... isn't this too..." the adjacent Military Adviser Huang Mang wanted to cry.

Was there a big leader in this world more eccentric than Xu Kuang? Even if he gave them the token, what need was there to tell them that if they turned around and left right now, nobody would stop them!

On the other hand, leaders Hai Qie and Tie Bing didn't feel anything was strange. Their Boss Xu had always done these types of strange things.

The navy members were all speechless, especially those that were initially Zhao De's subordinates...

"Ok, let's have a pleasant cooperation." Chu Mu flipped over his hand and put the ocean lord rank token into his soul pet ring.

Xu Kuang nodded his head and continued: "Let's talk about this first. In this cooperation, you will take your things and I will take my things. This doesn't mean that your criminal charge has been expunged. Once you leave the island, you will still be wanted by my Wupan Navy!"

"That's fine." Chu Mu nodded his head.

All of the navy members wore strange expressions. They were about to cooperate with a group of people who committed a serious crime of killing a ocean commander and over 2000 navy members.

On Chu Mu's side, Prince Chao, Xia Zhixian and Sang Ying were all very bewildered. What difference was there between working with an enemy and walking into a tiger's den?

However, thinking about it again, the navy had a very eccentric big leader while Chu Mu himself wasn't someone who did things according to convention. There would always be shared topics between an abnormal person and another abnormal person.

Once Big Leader Xu Kuang recruited Chu Mu and the others into the navy, Xi Zhixian was very good at adjusting. She firstly summoned her soul pets and healed the wounded navy members.

Xi Zhixian's healing eased the atmosphere and Xu Kuang nodded his head, saying: "High ranking support soul pet trainers are nearly extinct. It's rare that you have one. We will have a better chance in the subsequent fights..."

The navy legion didn't even have a single dominator rank support soul pet trainer. Xia Zhixian's appearance meant that wounded dominator rank soul pets would be able to recover fighting strength in a short period of time, including the heavily wounded Slaughter Devil Tiger.

"We have to take action ourselves for the next 'Three Roads'. If we continue having the subordinates deal with it, we'll probably only be left with one boat full of people to take us back." said Ocean Commander Hai Qie.

"Brat, I heard from my underlings that it was you who killed Zhao De?" Xu Kuang didn't avoid the topic and questioned Chao Lengchuan.

Chao Lengchuan nodded his head. Since the opponent was so direct, didn't it make it embarrassing for him to admit it?

"Ocean Commander Yue and Ocean Commander Jiang, you will each lead ten ocean generals with Chao Lengchuan to be the vanguard. Leader Tie, watch the situation and if they are defeated too quickly, you will take action. Military Adviser, command the elemental team and once Leader Tie takes action, begin your attack." said Xu Kuang.

Having witnessed Paramita's strength, Xu Kuang didn't dare lower his guard. He planned on using dominator rank soul pets to probe out the enemy before adjusting the legion's strength.

Prince Chao didn't have any objections, and the other two lower status ocean commanders nodded their heads in acknowledgement.

With a support type trainer like Xi Zhixian around them, the navy members were able to recover much faster. Xu Kuang had the military adviser do a count before leading the navy legion onwards down the Yellow Springs Path.

After a long while, an enormous black shadow gradually appeared in the dusk ahead.

"It's the Three Roads Monument!" said the military adviser.

Xu Kuang looked at the black mass of people behind him and said: "Focus up. If any of your eyes move to Leader Hai Qie's butt, you might die in the next instant!"

Xu Kuang was clearly teasing with his words and if it were in normal circumstances, the navy members would feel the mood relax and break out into a laugh.

However, in such a terrifying place, there wasn't a single navy member who laughed.

Leader Hai Qie pursed her lips, inwardly berating Xu Kuang, this bastard, for not using another example.

Once past Three Roads Monument, Yellow Springs Path instantly darkened. Even the illumination from light type soul pets was unable to illuminate the path ahead.

Stepping past the monument meant they had entered the second guardian's territory. Princess Jinrou closed her eyes, afraid that everyone would be hit by a sneak attack from Three Roads.

Princess Jinrou quickly sensed a powerful life force. However, what surprised her was that this creature wasn't hiding. Instead, it was just standing right ahead of everyone on the Yellow Springs Path!

Its yellow eyes pierced the darkness and before anyone had discovered it, it was already watching for a long while this grand group of people had stepped onto the Yellow Springs Path.

Xu Kuang who was walking at the very front came to a sudden halt. His eyes stared like swords at the soul pet standing on the Yellow Springs Path. He was silently shocked that this demon's courage wasn't small!

Demons were innately creatures that mainly caught enemies off guard, launched sneak attacks and hid themselves. If a demon dared expose itself like this, it meant that the demon had enormous confidence in its strength!

“Three Roads!” Military Adviser Huang Mang stared at the second guardian.

The navy members all stared with eyes wide open, relying on the weak flames to see the creature.

However, the creature was enshrouded by a layer of shadow, preventing people from clearly seeing its full appearance.

A ghastly demonic aura swept forth, striking their faces, causing them to feel a sliver of cold!

This was Yellow Springs Path’s second guardian - Three Roads!

Chapter 1257: Yellow Spring Road: Shadow Beast, Darkness Reaper

Yue Navy General, Jiang General, and Chao Lengchuan started walking to the front of the team. They all summoned their high class dominator rank soul pets.

Yue Navy General had the vine type dominator - Devil’s hand.

Devil’s hand was two ranks higher than the devil vine with species rank emperor rank.

Navy General Jiang’s soul pet was a demon dominator rank - Dawn Demon, species rank of emperor rank.

Dawn Demon's body started glowing with a dawn like glow, lighting the way ahead.

However, the dark elements weren't that easy to disperse. At least Dawn Demon's glow itself couldn't completely scatter the darkness nearby.

Prince Chao's Thousand Wave Beast walked far ahead. As the armored beast, being the vanguard was necessary.

Thousand Wave Beast's size was many times that of Three Roads. However, no matter how the Thousand Wave Beast neared, the Three Road stood silent, and didn't move.

"Attack!" Chao Lengchuang gave his Thousand Wave Beast a command.

Thousand Wave Beast glowed gold, and its massive body started running down, becoming a golden pulverizing storm that made its way down the Yellow Spring Road!

Three Roads appeared then, its deep yellow eyes flashing!

It didn't make any action to dodge, instead heading straight towards the pulverizing storm!

The cyan shadow entered the storm and disappeared for a moment before appearing bizarrely right behind the cyan shadow!

“It appeared right behind the pulverizing storm!” Chao Lengchuan was stunned as they looked, confused, at the unharmed Three Roads.

The Pulverizing Storm was incredibly dense. The moment one entered, one would definitely get pulverized by the storm. There were no gaps!

Chao Lengchuan quickly told the Thousand Wave Beast to stop but Three Roads was too fast. It turned around and spewed out chaotic energy!

“Pu!!!!!!!!!!”

The chaotic energy fell on Thousand Wave Beast. Thousand Wave Beast’s massive body flew up the inclined Yellow Spring Road all the way into the darkness!

Chao Lengchuan was dazed. His Thousand Wave Beast was empowered by a defensive butterfly shield and life blessing. Yet, this Three Roads’ casual attack instantly heavily wounded Thousand Wave Beast. The strength difference was too big!

The navy behind them were all wide eyed with shock. High class dominator rank was impossible to defeat. Thousand Wave Beast defeated their general Zhao De just not long ago. Yet why was it now near death after one mere exchange?!

Chu Mu, Princess Jin Rou, Xia Zhixian, and Sang Ying all knew the technique that Thousand Wave Beast had just learned. They knew that Thousand Wave Beast couldn’t last long.

The great leader Xu Kuang, leader Hai Qie, leader Tie Bing, and military counselor Huang Mang were also shocked. The three roads’ offense was much stronger than the Angry Horn Devil!

“Leader Tie, attack!” Xu Kuang said decisively.

With even the thousand wave beast so easily beat, the Devil’s hand and Dawn Demon would instantly die!

Leader Tie nodded and swiftly chanted an incantation to immediately start a double summon.

Leader Tie’s body immediately had two new soul pets accompany him. One was a Steel Lion while the other was an Inferno Demon!

The inferno demon and Nightmare species were all similar. The Inferno Demon was closer to flame control and didn’t have any other typing. It was a pure fire type organism.

Inferno Devil’s status was similar to Leader Tie, its body burning with flames!

The Steel Lion was beast type with rock subtype. Its “Steel” wasn’t truly steel but an extreme of rock crystals!

Rock crystals are the strongest in defense. Undoubtedly, the steel lions’ defense was even above the Thousand Wave Beast.

Leader Tie chose to summon the Steel Lion because he thought he needed to have at least one soul pet that could withstand its attacks.

The Leader attacked at once, as twenty generals summoned their dominator rank soul pets as well. A total of twenty middle to low class dominator ranks came out, the equivalent of two high class dominator ranks.

This way, including Thousand Wave Beast, there were seven high class dominator ranks!

Three Roads and Angry Horn Devil were somewhat different. Like a beast type organism, it faced its opponent head on. Its calm, proud yellow eyes showed no fear and no retreat!

The leader Yue's Devil Hand attacked first. A total of four vine type techniques came, Devil Entangle, Devil Blood Whip, Devil Poison Teeth, and Devil Python Vine!

The four techniques appeared simultaneously. Vines quickly flipped through the air, yet the Three Roads' black figure seemed to simply be taking a stroll as it easily dodged the devil hand's attacks.

Steel Lion sped up, its thick claws surrounded with a metal whirlwind!

One claw fell, and its sound was like ten thousand hammers falling!

The three roads stood in place. Facing the Steel Lion's metal claws, it didn't move at all.

Suddenly, just as the metal claws were about to hit Three Roads, its body was shrouded by a shadow that morphed it into a shadow that flew up against the ground!

“Hong!!!!!!”

At the same time, the inferno evil and the other dominator rain soul pets techniques fell chaotically right behind the metal claw attack!

Rumbling sounds echoed through the yellow spring road as the chaotic energy lingered in the air.

After a long while, the energy slowly dissipated.

Chu Mu’s gaze didn’t leave the shadow’s position. After the energy dispersed, they were shocked to find the shadow still in place!

Very soon, Three roads’ body slowly appeared in the shadow. There were only two small scratches on its body!

“What.... What technique is this?” Leader Tie Bing was shocked.

It had just gotten two high class dominator ranks and twenty middle to low class dominator ranks’ attacks. Usually, with a demon’s defenses, not dodging means it definitely gets wounded. However, all they saw were unremarkable scratch marks that weren’t even bleeding!!

Xu Kuang’s eyes were staring at Three Roads but didn’t speak.

Three Roads' strength again went beyond Xu Kuang's estimates. One had to know that with this many dominator rank soul pets' added together, it was much stronger than a normal top tier dominator rank.

"Young master, if I'm right, this Three Roads is a Shadow beast with three types: Demon, Dark, and Beast. From its attack and dodging patterns, I think dark and beast are its main types, while demon is just its subtype. Multi type organisms find it extremely hard to get stronger and often get stuck at a low rank or die early on. However, of the millions of multi type organisms, there would always be one who can reach a higher level. And once this organism appears, just how hard they are to deal with is something young master should know very well." Old Li said.

Chu Mu naturally knew that. Zhan Ye, Mo Xie, little Hidden Dragon, and Dead Dream were all double main type soul pets. They were completely invincible in battle within their own rank, and always challenged beyond their ranks.

For example, little hidden dragon's real rank wasn't even high class dominator rank but its three main types allow it to defeat high class dominator ranks already!

"Young master, you should be happy that it itself hasn't gotten to top tier dominator rank. Or else, with its types, it is probably undefeated within dominator rank." Old Li said.

However, even if its just a high class dominator rank, its double main type and one sub type makes it much stronger than normal top tier dominator ranks!

"Military counselor, attack!" Xu Kuang furrowed his brows and said to Huang Mang.

He nodded and started commanding the remaining two thousand emperor ranks to join the battle.

The two thousand emperor ranks had great destructive power, especially the elemental army. If they could hit the shadow beast directly, it may get moderately wounded.

The trainers of the dominator rank soul pets were all very smart. They only focused on restricting the shadow beast's movement while the elemental army barraged it. After three or four waves, they finally achieved some results and drew blood!

“Protect the elemental team!” Xu Kuang yelled.

The plant castle was stacked up while the beast emperors were also protecting the elemental army in the center. Xu Kuang knew clearly that the elemental army will get most of the shadow beast's attention because they're causing it threat already!

Indeed, the shadow beast cast aside the dominator ranks' siege and started dashing through the darkness mysteriously!

The beast emperor team was basically a decoration to the shadow beast. Of the thousand beast type emperors, not one actually attacked the shadow beast.

The plant castle was densely packed, but the shadow beast with the power of darkness meant no matter how strong the plants' restrictions were, they were useless!

The military counselor Huang Mang went pale. He had already put everything in his control onto defending the elemental army, yet it was still so easily breached!

The great leader Xu Kuang's face lightly quivered. His lips tightened and he was about to cast an incantation!

Anyone knew that if the shadow beast entered into the elemental army, all of their lives could be reaped like a scythe through wheat!

Huang Mang and Hai Qie's gaze both fell on Xu Kuang, because only if he intervened could they stop the shadow beast.

However, Huang Mang and Hai Qie both noticed that he stopped casting half way, turned around with gritted teeth and closed his eyes.

As a military counselor, Huang Mang knew clearly why Xu Kuang did it. His gaze slightly lost focus before immediately using his mental voice to yell out a command, "All elemental army units, retract your soul pets, quick!"

The soul pet trainers swiftly started chanting retraction incantations to save their soul pets.

However, with the speed at which the spirit emperors could chant, the top tier dominator rank shadow beast had enough time to leisurely go back and forth through their ranks many times!

Chapter 1258: Yellow Springs Road: No Exit, Berserk Corpse Army

Death shrouded them, causing hundreds and hundreds of elemental soul pets to get cut in half. The darkness energy entered their bodies and directly corroded them into black water!

All kinds of fairies and elemental demons' shrieks filled the Yellow Spring Road. The seven hundred elemental soul pets were almost instantly halved. Only a hundred or so were truly retracted. The remaining two to three hundred were limited by darkness energy. Even if the soul pet trainers casted their retraction spell, they couldn't retract their soul pets.

The shadow beast darted between elements. Everywhere it passed, there were no survivors. These dominator rank soul pets on the other side couldn't cast a technique because its techniques could cause the most direct damage to the elemental emperors.

The group of navies were all pale faced, the terror of the shadow beast embedded deep in their hearts!!

The elemental soul pets started scattering. However, there were less than two hundred that got away. Only then did the dominator rank soul pets again surround the shadow beast to pressure it further!

The shadow beast was inflicted with moderate wounds but compared to the elemental team completely collapsing, the final loss will be the navy's!

The elemental team was always the core of an army. Their powerful elemental techniques could cause great threat even to advanced organisms. However, once they couldn't be grouped up, they were useless.

The third navy's elemental team was basically gone!

The battle continued. Many dominator rank organisms held their breaths as they stared at the shadow beast.

They constantly attacked and also worried that the shadow beast would jump into the emperor army and cause destruction to all the other teams.

“Beng!!!!”

Shadow beast had beast type and its power was equally strong. After the Steel Lion was sent flying, its body full of armor was fully corroded and it looked like a rotting corpse.

Xia Zhixian quickly cast an incantation to help her soul pet heal the steel lion and remove the dark corrosion. After a bout of healing, they finally saved the steel lion’s life.

However, the steel lion was defeated, meaning the rest of the dominator rank team was heavily hit. After not too long, of the twenty dominator rank soul pet, six were killed and ten were heavily wounded!

Luckily, Thousand Wave Beast’s Void Armor stabilized the situation. With the effect of Void Armor and many other beast type emperors’ support, the shadow beast’s wounds were slowly affecting its battle.

“Army attack!” Military counselor Huang Mang seized the opportunity and immediately sent out the beast type emperor ranks and wing type emperor ranks to weaken the shadow beast.

This weakening was, in reality, just trading countless emperor rank soul pets’ lives for the stamina and health of the shadow beast.

Blood again flowed down the yellow spring road, its thick blood scent bothering to the nose.

Wave after wave of emperor ranks were killed, their corpses strewn across the bloody river like litter.

This bitter scene caused even Chu Mu to shift his expression. His gaze fell back onto the great leader Xu Kuang.

Even though the navy's soul pets were heavily killed, the great leader Xu Kuang still wasn't going to join the battle. In fact, he didn't even let Hai Qie attack.

Xu Kuang wasn't doing this because he was naturally cruel, nor was it because he viewed soul pets' lives as dirt. Instead, as the highest leader, he had to save his energy for the last obstacle, especially on this Yellow Springs Road where they could easily die. It may be the case that if he summoned an extra soul pet here, it was very likely that they would lose later on down the road. That would mean that not only the navy's soul pets die, the navy themselves were likely all going to die as well!

Furthermore, Chu Mu could see that the navy units weren't angry or grumbling because of the leader's apathy. As subordinates, they knew they had to use their lives to build the way forward for their leader. If every small mishap required the leader to intervene, what use were they?

"This is an army with a soul." Sang Ying said in a low voice.

Sang Ying knew clearly that Zhao De's army completely collapsed when faced against Chu Mu and Prince Chao, not even daring to fight.

Yet, the navy units that Xu Kuang had, though they knew they were facing certain death, still went forth courageously. There were no complaints from soul pets, nor trainers.

This scene reminded Chu Mu of when he killed his way into the soul alliance's Wan Xiang City alone, with people around him dying one by one, using their lives and blood to pave the way for him.....

If there were corrupted troops, then there must be righteous, courageous troops. These people that once were his enemies was garnering Chu Mu's respect!

Two thousand emperors fighting each other, leaving less than a thousand in the end was indubitably a huge loss.

These thousands of lives gave the dominator rank soul pets a breather and also wasted the shadow beast's fighting strength.....

“Hou!!!!!!!!!!”

Thousand Wave Beast roared, causing the yellow spring road to shake as it sent a violent gust of golden energy towards the shadow beast.

Shadow beast's deep yellow eyes stared at Thousand Wave Beast. If it went all out, it definitely could defeat the thousand wave beast's void armor and kill it.

However, after that attack, it would also face the lethal attack of many dominator rank organisms!

The shadow beast's hesitation caused it to move a step too slow. The golden energy that Thousand Wave Beast shot caused the shadow beast lost its balance!

“Very well! Everyone directly attack!” Xu Kuang immediately commanded everyone.

Almost no soul pet could stand up against the shadow beast. The Thousand Wave Beast charged up so courageously and caused an imbalance in shadow beast. Only because of this could the dominator rank soul pet’s techniques hit the imbalanced shadow beast.

Xu Kuang knew this move was extremely dangerous by Thousand Wave Beast so he yelled out with praise!

Leader Tie Bing, General Jiang, and the other generals and soldiers all saw this mistake and commanded their soul pets to attack!

These navy members were all well experienced fighters. Their soul pets connected their techniques very well. The moment the thousand wave beast’s slam ended, a dozen techniques went towards the shadow beast!

A dozen dominator rank techniques’ mixed together. Whether they mixed harmoniously or not, they created destructive energy regardless.

“Come back!” Chao Lengchuan knew his mission was done and immediately chant and incantation to retract it.

The power covers too wide of a range. The Thousand Wave Beast can’t be spared so Chao Lengchuan retracted his soul pets well.

“Honghonghong~~~~~”

Immediately, the sound of vibrations echoed through yellow spring road. The entire cave seemed about to collapse. As this energy spread, the rocks above constantly fell.

The shadow beast became a shadow, but with this many dominator ranks attacking, even the space couldn't be spared; shadows were all shattered.

The shadow beast's body was pushed out, its black skin heavily rotting. One could already see the bones in its body.

“Huhuhu~~~~~”

The technique storm created a storm that dissipated after a long while.

The people gazed at the chaotic yellow spring road. In the dark corner, the shadow beast was fallen in a blood pool staring begrudgingly at everyone!

Even if it was so wounded it couldn't even stand up, they could still feel the powerful animosity in its body!

“Let me kill it and avenge my Devil's Hand!” Navy General Yue said!

Devil's Hand was killed by shadow beasts and his emotions couldn't be calmed down!

Those members that had their soul pets killed were also furious. This shadow beast was wounded with the hundreds of lives from their army. They had to use this shadow beast's life and blood to commemorate those who died in combat!

“What happened, where did the shadow beast go?”

“Who.... it ran away?”

“Quick, catch it, don't let it leave!!”

The navy members all started yelling and running down the yellow spring road.

The Shadow Beast disappeared. Just as they all dashed forward, the shadow beast suddenly disappeared. The navy members didn't see it get up and leave, but it simply disappeared, leaving only a puddle of blood behind.

Xu Kuang furrowed his brows and glanced over at Chu Mu to see his eyes turn a strange shade of silver.

Chu Mu retracted his gaze and said in a low voice, “An organism just saved it, and it was even faster than the shadow beast.”

Xu Kuang also saw the shadow and so he turned towards the navy and yelled a command, “Get the hell back, you think we haven't had enough death yet? You want to go onto Forgotten Roads' territory and die?”

With Xu Kuang's roar, all the chasing members went stock still, and ended up coming back begrudgingly.

"Military counselor, tally up the casualties. The rest of you, tend to your non-dead soul pets." Xu Kuang said.

The navy members all sat down. This was when Xia Zhixian told her soul pet to put down a flower sea. All organisms on the sea of flowers would recover faster. The only downside was Xia Zhixian used quite a bit of her soul pet's stamina to cast it.

"What's that sound?" Suddenly, the great leader turned around to look at the tunnel they came from.

Everyone else heard the sound too. In a moment, no one moved or spoke.

"Longlonglong~~~ Dongdongdong~~~~~"

Slowly the sound came closer from afar and quickly neared.

The Yellow Spring Road and cave started shaking. The shaking got harder and harder, as if a massive army was passing under them, or like a massive tide slamming into them.

"Let me go see." Chu Mu felt something was off and said.

Chu Mu flew down the path towards Paramita and Princess Jin Rou immediately followed.

“Longlongnog~~ Dongdongdong~~~~~”

The large sounds got closer and closer. Chu Mu could already feel a certain rotten aura hitting his face!

Closer now. Chu Mu looked down the yellow spring road. Though it was darkness, Chu Mu felt a large group of creatures moving!

A terrifying scent assaulted his nose. Chu Mu felt as if he were standing on the edge of a massive disaster!

“Heavens!!” Princess Jin Rou suddenly yelped!

“What is it?” darkness blocked Chu Mu’s vision.

“Corpse type army..... So.... so many!!”

“They.... They’re covering the entire yellow spring road!!”

Chu Mu’s heart went cold!

They had no path to retreat now!!

Chapter 1259: Yellow Springs Path, Forgotten River, Middle Potential Forgiven Fox!

“Are they moving fast?” asked Chu Mu.

“No, they’re not. It’s going to take them about an hour before they reach where we are, and two hours before they reach the navy.” said Princess Jinrou.

Chu Mu’s heart sank. The corpse army was so far, yet the terrifying corpse aura already pervaded the area, making it hard to breathe. The size and strength of this corpse army was not something they could contend against.

“Let’s leave.” said Chu Mu.

“Yes.”

After returning to Three Roads, the navy members were all resting.

“What happened?” inquired Big Leader Xu Kuang.

“It’s a large corpse army that is swallowing the path we’ve taken.” Chu Mu’s voice sank as he spoke.

Xu Kuang’s face changed, and his first reaction was the same. Their path of retreat had been sealed off.

“It will take them around 2 hours to reach us. With our current strength, it’s impossible to fight the enormous corpse type army.” said Chu Mu.

Princess Jinrou had already told Chu Mu that there were several tens of thousands of emperors in the corpse tide rushing at them. Besides the emperors, there were a few hundreds of thousands of monarchs. In the face of such a magnificent corpse army, everyone here would be devoured clean.

It was even more impossible to slaughter their way out. Corpse type creatures didn’t have any true conception of death. Upon being killed, they would be able to heal whether they had suffered the blow from within a short period of time. Indeed, the corpse army was the most difficult thing to deal with!

When Xu Kuang heard the news, he was silent for a long while, and he swept his eyes over the four thousand or so navy members.

There were 4000 navy members, but only 1000 with fighting strength left. Xu Kuang could tolerate the complete annihilation of the navy members’ soul pets, but he would not let the soul pet trainers die here.

“All navy members, listen to my command. Forge onwards!” suddenly, Big Leader Xu Kuang gave an order.

All of the navy members stood up, but much confusion could be seen on their faces. They didn’t understand why the big leader wouldn’t wait for them to tend to their wounds before moving onwards.

“Big leader, the soldiers haven’t recovered yet...” said Military Adviser Huang Mang.

“The path behind us is being swallowed up by a large corpse army. They will reach this place in under two hours. We no longer have time to rest. Continue moving forwards!” said Big Leader Xu Kuang, very solemnly.

Big Leader Xu Kuang’s words caused an uproar among the navy members.

“Let’s slaughter our way back!” angrily said an ocean general.

“The corpse type army can resurrect itself. Even if we crush them into the ground, they will endlessly climb right back up. If there are more than ten thousand in the army, there’s no chance we will be able to slaughter our way back.” said Military Adviser Huang Mang.

"Then... then will we die here?"

The navy members began to restlessly discuss amongst each other. All of them frightenedly looked at the path they took, faintly feeling the scent of corpses wafting over.

“What are you frightened for? Can those corpses move faster than us? I will kill whoever dares look back first!” angrily said Big Leader XU Kuang.

“That’s right. Although there are still two guardians left, our ocean leaders and big leader have yet to fight. We will definitely be able to safely cross Yellow Springs Path.” said a navy member captain.

“That’s right, we’ll be able to pass through!” said another navy member.

After a moment of panic, all of the navy members continued forward. Although many of their main fighting soul pets had perished, these navy members had other soul pets they could ride on. The speed of their progression forwards wasn’t too affected.

“Big Leader, if we aren’t able to rest and recuperate, the upcoming Forgotten River will be difficult!” softly said Military Adviser Huang Mang.

“How much of our fighting strength do we have left?’ asked Big Leader Xu Kuang.

“None of our dominator rank navy members are able to participate in fights anymore. Thus, the ocean leaders and yourself must take action in the upcoming fights. The remaining 1000 navy members only have beast type or plant world soul pets. But they won’t be very effective towards creatures of this rank.” said Military Adviser Huang Mang.

Big Leader Xu Kuang’s expression became extremely serious. The appearance of the large corpse army meant that they had gotten caught up in a land of death. No matter what, they had to continue forwards. But Xu Kuang knew himself that there was a chance that all these people could die in Forgotten River and it would be practically impossible to deal with the final Yellow Spring.

“Let’s continue moving forwards before we talk about it.” said Xu Kuang.

Huang Mang didn’t talk about it anymore. Fortunately, Xu Kuang had yet to still take action, otherwise the navy members wouldn’t have any confidence to continue. The moment the navy morale fell, it would only be a matter of time before the whole army fell.

The frenzy of corpses behind them continued to devour

Not long later, an enormous black monument appeared on the Yellow Springs Path. On top was written the ancient words - Forgotten River Path!

“Forgotten River, Third Guardian!”

When they raised their heads and looked at the black stone monument, there was a mysterious feeling of suppression that deterred people from proceeding!

“Hmph, what bravado!” Big Leader Xu Kuang harrumphed and stepped forward. He walked around the stone monument towards the Forgotten River region.

The navy members all focused 120%. The slaughter by the Shadow Beast had formed shadow of fear in their hearts. Now that they would have to face a creature even stronger than the Shadow Beast, it would be lying to say they weren’t scared.

Big Leader Xu Kuang walked at the very front with Leader Hai Qie right behind him. All of the navy members were not slow in their steps and they walked onto the dusky Yellow Springs Road path.

“Find where it is.” Chu Mu glanced at the adjacent Princess Jinrou.

Princess Jinrou nodded her head. She closed her eyes and released her perception.

In the next instant, Princess Jinrou turned around and stared in shock at the very top of the Forgotten River monument!

“It’s on top!” Princess Jinrou pointed at the Forgotten River Monument behind them.

Princess Jinrou’s voice caused the navy members to shiver. When they turned around, they abruptly discovered a slender creature lying on the black Forgotten River MOnument.

A pair of brown eyes was arrogantly looking down at them!

It was lying on the edge of the stone monument with its long tail hanging down while languidly swinging about. It was as if the appearance of this many invaders would give it more pleasure!

Suddenly, Forgotten River, that was lying there resting, stood up. It jumped right off the hundred meter tall stone monument and landed right in the middle of the navy legion.

The moment it jumped down, all of the navy members seemed to be frozen. It was difficult to even lift a finger as cold sweat rolled down their necks. This was especially the case for members near Forgotten River; their hearts were about to stop!

A creature of this rank was like the arrival of a death god to these navy members.

Big Leader Xu Kuang, Leader Hai Qie and Leader Tie Bing focused their attention on Forgotten River that landed in the midst of the navy members. The Forgotten River would probably be able to instantly kill over a thousand of the navy members who didn’t have any fighting strength!

Yellow Springs Path was so silent it was possible to hear the sound of water flowing. Four thousand eyes were staring at Forgotten River, watching it slowly walk by the navy members.

Its deep brown eyes stayed level. It was like the emperor rank navy members around it were like air!

Everyone could feel Forgotten River's contempt!

It couldn't be bothered to attack these weak navy members!

Forgotten River walked by the navy members, one step at a time towards Xu Kuang, Hai Qie, Chu Mu, Chao Lengchuan and the others.

Its pair of deep brown eyes sized up these people before slowly walking right up to them.

Forgotten River walked up 100 meters away from Chu Mu before turning around. Its eyes carried faint provocation intent. It was telling them they could attack it whenever they wanted to.

Xu Kuang let out a sigh of relief, rejoicing for the lucky escape of his navy members. However, Forgotten River's arrogant contempt made him feel angry.

Chu Mu stared at Forgotten River and when he saw it, his eyes widened!

Forgotten River's body was slender, beautiful and full of power. Its deep brown fur grandly fluttered in the wind. Its long tails were dragging on the ground, yet they accentuated its nobility and pride.

“Chu.... Chu Mu, Forgotten River...” the adjacent Princes Chao stared in amazement at Chu Mu.

XI Zhixian, Sang Ying and Princess Jinrou were all staring at Chu Mu. Or more precisely, they were looking at the small Mo Xie on Chu Mu's shoulder in shock!

They were doing this because the third guardian, Forgotten River, of Yellow Springs Path in front of them was very similar to Mo Xie of the past!

Demon fox species!!

Forgotten River was a demon fox species creature!

It was a body created by the perfect combination of strength and speed. It had charming and noble fur, with a trademark fox tail!

This was a deep brown colored demon fox!

“Young... young master! A Seven Sins Fox!!” Old Li's voice suddenly cried out!

Seven Great Sins Foxes, a Forgiven Fox!!

Being covered in noble deep brown colored fur represented this Sin Fox's attribute!

Chu Mu's heart was in billows when he looked at Forgotten River.

He remembered when Old Han had told him of the legends about the Seven Sins Foxes.

Seven Sins Foxes were split into upper potential, middle potential and lower potential foxes!

Lower potential foxes were the Sins Fox Inferno Monarch, Sins Fox Wind Monarch and Sins Fox Thunder Monarch

Middle potential foxes were the Sins Fox Water Emperor, Sins Fox Rock Emperor and Sins Fox Ice Emperor

Middle potential foxes were perfect emperors with strength comparable to pseudo dominators. If they were able to undo their sins and be completely forgiven, their power would rise to the peak dominator rank!

Indeed, Chu Mu was extremely shocked because a middle potential fox had appeared on Yellow Springs Path and it was a Seven Sins Fox Emperor that was already forgiven!

A Seven Sins Fox Rock Emperor!

Chapter 1260: Yellow Springs Path, Hades Fox Noble vs Forgiven Fox Rock Emperor

“You recognize this creature?” Xu Kuang glanced at Chu Mu.

“Yes. A seven Sins Fox Rock Emperor. Once it undoes its sealed curse, it will become extremely terrifying.

The Shadow Beast just now had two main attribute and one secondary attribute while this middle potential Fox Fock Emperor was a three main attribute creature. Purely in terms of attributes, Forgotten River was stronger than Three Roads. Moreover, in terms of aura, this fellow’s rank could likely be even higher!

“We don’t have much time. We must get rid of Forgotten River and Yellow Spring as fast as possible.” said Big Leader Xu Kuang.

As he spoke, Xu Kuang stepped forward and began to chant.

Obviously the big leader of the 3rd Ship Legion was going to personally fight.

However, before Xu Kuang had finished his chant, Chu Mu had suddenly stepped in front of him.

“Brat, what are you doing?” Xu Kuang asked, confused.

“I’ll do it.” Chu Mu simply and calmly spoke.

The legend of the Seven Sins Fox had always lingered in Chu Mu's mind, and he wanted to witness an even stronger Sins Fox.

Now that a Forgiven Sins Middle Potential Fox had appeared on Yellow Springs Path, the shock had ignited Chu Mu's intense fighting spirit!

"Can you? This fox demon is a peak dominator and its stronger than the Shadow Beast!" said Military Adviser Huang Mang.

Leader Hai Qie and Leader Tie Bing were currently staring at Chu Mu. They were astonished that Chu Mu still had the guts to fight such a powerful peak dominator!

"Ok, you can be the vanguard!" Xu Kuang nodded his head.

Xu Kuang could see that Chu Mu was probably stronger than his two leaders. With him as the vanguard, it probably wouldn't require too much effort to win this fight.

Chu Mu shook his head and said: "This is my fight. I don't need other people to interfere."

Chu Mu's words stunned all of the navy members. This man didn't want the big leader to interfere. How arrogant was he?!

"Don't joke around. There's a huge group of corpses behind us and if we want to live, we must listen to the big leader's commands!" Military Adviser Huang Mang said, somewhat angrily. He couldn't believe there was someone trying to do his own selfish thing at this time!

Xu Kuang also looked somewhat astonishedly at Chu Mu. He truly questioned whether Chu Mu had the strength to fight alone against the Seven Sins Fox Rock Emperor. For himself, even if he summoned all of his main pets, he couldn't say he had a 100% chance of winning.

"Your people and our navy are in this together. It's best if you do as big leader wishes. If something wrong happens, we'll all be buried here." said Leader Hai Qie.

Hai Qie obviously considered the fact that Chu Mu wasn't weak. In order to pass through the last two guardians, they would have to borrow the strength of Chu Mu and the others. Otherwise, even if they weren't devoured by the large corpse army, they would be slaughtered by Forgotten River and Yellow Spring.

"Leave your strength to deal with Yellow Spring." Chu Mu turned around and said.

It wasn't that Chu Mu wasn't thinking of the big picture. Instead, looking at it from the current situation, he had to take action now. If he waited until Yellow Spring, Chu Mu didn't have much confidence in winning.

Hai Qie, Tie Bing, and Huang Mang all wanted to say something more, but Big Leader Xu Kuang waved his hand and said: "Let him be. We'll deal with Yellow Spring".

With Xu Kuang saying it, the others didn't dare speak anymore about it. However, their expressions wore very deep doubt.

"I'll help with your fight?" Xia Zhixian said to Chu Mu.

Chu Mu shook his head and said: “Your support techniques won’t be of much use to my soul pets.”

Xi Zhixian was stunned. A moment later, she realized why and didn’t say anything more.

Chu Mu stepped forward. Forgotten River had a proud heart and it squinted at everyone, very patiently waiting for these humans to send experts to fight it.

Chu Mu walked up in front of Forgotten River while the eyes of Mo Xie on his shoulder ignited with angry purple flames.

Mo Xie jumped off of Chu Mu’s shoulders. She bounced off the ground and lightly walked a little away.

The angry purple flames on her body suddenly shot up, completely covering her small body.

The heat from the flames instantly covered the entire dark cave. A wild demonic aura, beast wave and fire breath simultaneously engulfed the area!!

Astonishing long tails unfurled from the purple flames. They were as majestic as dragons and they quickly occupied the incomparably spacious Yellow Springs Path!

The navy members all stared with wide eyes at the beautiful long tails that extend. They all took steps back.

A violent flame was lit underneath four feet. A coarse and domineering, yet beautiful body filled with absolute strength; there was also long and striking tails as well as wantonly fluttering silver fur...

The moment Mo Xie transformed into the Hades Fox Noble, the half squinting eyes of Forgotten River instantly changed. From its original calm and contempt, it slowly changed to a solemn and serious expression!

“It’s... it’s a peak... peak dominator!!!” Military Adviser Huang Mang was the first to cry out.

With three types of attributes released, Mo Xie’s aura was capable of threatening peak dominator rank creatures.

Big Leader Xu Kuang was stunned. He had thought Chu Mu’s strength to only be slightly stronger than his two leaders. But he didn’t think he had reached the peak dominator rank. This forced Xu Kuang to have no choice but to re-evaluate Chu Mu.

As for those navy members that were originally Zhao De’s subordinates and may have wanted Chu Mu and his group to be punished, when they saw Chu Mu summon another even stronger soul pet, this thought completely vanished from their hearts. Indeed, even the big leaders of their navy only had one or two peak dominator rank soul pets!

Wu wu wu wu~~~~~”

Mo Xie’s body had grown. She was also a demon fox, but the surging momentum from her nine tails was more domineering and tyrannical than the Seven Sins Fox Emperor!

Angry purple flames jumped in her silver eyes. After mutating to the Hades Fox Noble, it had been a long time since Mo Xie had encountered a creature that could truly ignite her fighting intent. Therefore, when Forgotten River had appeared, Chu Mu had sensed a powerful desire to fight from Mo Xie.

This Seven Sins Fox Rock Emperor was her opponent and nobody was allowed to interfere.

Strictly speaking, if the middle potential fox wasn't sealed, its rank could be very close to Hades.

If it was an unforgiven Seven Sins Fox Rock Emperor, Mo Xie wouldn't have any interest. However, since the opponent was a forgiven middle potential fox, Mo Xie obviously wanted to fight.

“Wu wu wu~~~~~”

The Seven Sins Fox Rock Emperor's eyes looked on Mo Xie as a great opponent. As another demon fox, Forgotten River knew that the opponent's species rank was even higher than its own. Thus, against a stronger opponent also with three main attributes, the Seven Sins Fox Rock Emperor didn't dare underestimate its opponent even if its blood lineage was higher.

Mo Xie narrowed her gaze. Her front limbs suddenly stepped forward and her silver body instantly disappeared, leaving a purple flaming afterimage where she was.

“Sou~~~~~ sou~~~~~”

The dozen continuous change of locations seemed to occur in only a second. She was so fast it was impossible to see her clearly.

Chu Mu's other pupils could no longer follow Mo Xie's speed. He had to fully concentrate and use his mental connection with Mo Xie in order to determine her movements.

"How fast!" Xu Kuang couldn't help but show shock.

This speed was no slower than Three Roads. The navy legion's defense system was practically non-existence to creatures of this speed.

Thus, it was possible to imagine how devastating it would be if this purple fox noble were to charge into their navy camp.

"Su~~~~~ su~~~~~"

After Mo Xie's movements, the Seven Sins Fox Rock Emperor also disappeared on Yellow Springs Path. For a moment, the two fox demons seemed to be invisible. All of the navy members were at a loss.

"Shua!!!!!!"

Strange sharp blades suddenly appeared, creating sparks and a piercing sound from their crossing. Everyone's eyes hastily moved to the location of the sound, but all they could see were the afterimages of flames and an outline of sand!

"Shua!!!!!!"

Another confrontation. However, this confrontation had moved to the adjacent waterfall on Yellow Springs Path. The flowing water in the waterfall was split apart and two claw marks that were so deep their ends could not be seen appeared on the rock wall that was practically impossible to break through

Dominator ranks could only leave very shallow marks on the Second Demonic Burial Mound's rock wall. However, the two claw marks were able to completely rip apart the rock. If Forgotten Dream had just swept through the navy members just now, it was unknown how many thousand of them would have been instantly cut into two halves.

While everyone was still shocked by the claw, a tail suddenly appeared!

This enormous tail swept through half of Yellow Springs Path. The thousands of navy members all wanted to dodge in fright, but the tail ended up passing by them before they could react as it fiercely swung at a location.

“Shua!!!!!!”

There was nothing at that location, yet the Seven Sins Fox Rock Emperor happened to appear there. Clearly, Mo Xie had used Chu Mu's other pupils to see Forgotten River's route of movement.

The Seven Sins Fox Rock Emperor reacted extremely quickly and the coiling sand around its body instantly concentrated in front of its body, forming a sturdy armored defense.

Mo Xie's tail left a long purple scorch mark and deep gulch on Yellow Springs Path. However, at the end of the scorch trail and gulch, the Seven Sins Fox Rock Emperor safely and soundly stood there. The sandy armor slowly loosened from its body...

"What powerful defense." Chu Mu creased his brows.

After Mo Xie had transformed into Hades, although her tail attack wasn't her strongest, there were rarely creatures that could withstand her tail. Yet, the Seven Sins Fox Rock Emperor didn't even have a wound after taking Mo Xie's tail head on!

"Beast and demon dual attributes are very hard to deal with. Added on the main rock attribute and its strength and pure power will be even more terrifying. This Seven Sins Fox Rock Emperor simply has no weaknesses..." said Hai Qie.

"Chu Mu's fox noble also seems to have three main attributes. The fire attribute leans towards offense, especially destructive force." said Xu Kuang.

Watching the fight, Xu Kuang estimated his chances of winning if he were to face the Seven Sins Fox Rock Emperor.

He had no choice but to admit that both of the foxes were very strong. Compared to the Paramita Angry Horned Devil and the Three Road Shadow Beast, the foxes were stronger. Indeed, the strength, techniques and attributes of the Hades Fox Noble and Rock Emperor were both superior to the two former soul pets.
