

Soul Pets Bk2 1281

Chapter 1281: Dark Island, Pirate Nest

“I almost forgot, the dark sky pirate head Hu Huang also participated.” Hai Qie suddenly remembered something and said to Chu Mu.

“Hu Huang?”

Chu Mu definitely had to search for Ning Maner. Since the pirates had some clues, Chu Mu naturally had to memorize this name.

Chu Mu comforted Hai Qie and said, “Don’t worry, this time New Moon Navy will definitely defeat these dark sky pirates!”

Hai Qie nodded heavily, “Thank you, I’ve waited for this day for too long!”

“You can go back to sleep, you can kill more pirates when you’re well rested.” Chu mu said.

“En.” After talking with Chu Mu, Hai Qie’s emotions were relieved. Before she left, her gaze fell on Chu Mu and she slightly smiled, asking Chu Mu, “You said that Bai Jinrou’s body is already dead but her spirit lives on. I can tell that she likes staying around you a lot.... Will you revive her no matter what?”

Chu Mu paused, not expecting Hai Qie to suddenly ask such a question. He laughed bitterly, “Revival isn’t an easy task. I’ll try my best.”

“I feel like if you put your mind to something, you would do it no matter what. Why say try your best? If you say try your best, then it probably isn’t your true intentions.” Hai Qie said.

Hai Qie had such a firm perception of Chu Mu’s personality because of Chu Mu’s actions in demon burial ground. He could run into the deadly demon burial mound for a soul pet that had already died. This wasn’t a mentality any normal person could have.

Chu Mu didn’t know how to reply to Hai Qie.

Doing something no matter what and trying his best indeed weren’t the same. If the person who lost her body was Ye Qingzi, Chu Mu would have replied no matter what without hesitation.....

“I don’t know either.” Chu Mu said helplessly.

“So you’re just like great leader Xu. You people aren’t afraid of powerful enemies but always love avoiding certain things.” A glimmer of loneliness flickered through Hai Qie’s eyes as she turned around. When she left, she was muttering to herself, “There’s people who always think that I entered the navy only to kill pirates.”

As Chu Mu watched Hai Qie leave, he also heard her bitter mutterings.

“Huhuhuhu~~~~~”

The sea wind blew over, leaving a salty breeze that messed chu Mu’s hair.

He laid against the railings and gazed into the ocean.

In the air, a floating pale flame slowly came down and fell in Chu Mu's palm, dancing around his fingertips. Whenever Chu Mu's thoughts were in a mess, he would always have a little flame in his hands like this.....

.....

The ocean slowly turned from blue to black, marking another night's advent. This ocean seems to always feel dark.

The tides reached high into the skies, nearly touching the low hanging clouds.

The clouds were dense without a single ray of light. The oppressive aura caused people to feel difficulty even in their breathing.

"We're near the dark island!" The scout leader riding his Ocean Eagle fell beside the command room and gave this news to Sang Ying.

"A few seemingly private boats appeared nearby." Another scout came down with his ocean eagle.

"Heng, probably some bandit's disguised boat. The boat is filled mostly with explorers that seem honest and frank, but in reality they probably have killed countless lives and have stolen the virginity of many women." Hai Qie humphed, her eyes making no attempt to disguise her hatred for pirates.

“Uh....” Sang Ying was just about to speak when Hai Qie’s interjection left him speechless.

“If they’re in disguise, let’s disguise ourselves as having made a mistake in navigation. Tell everyone to hide their auras well so they can’t tell our complete strength.” Yuan Sui said.

Continuing forward, there indeed were seemingly normal boats getting closer.

“Hey, where are you from? Those boats look really impressive!” From afar, a mental voice came from an orange boat.

Hearing them start a conversation directly, the experienced Sang Ying immediately smiled.

Sang Ying himself was an explorer before. Such communication he was the best at.

“Friend, we’re a ship from New Moon Ground. It’s our first time out of sea returning from Guan City to New Moon ground, but I think we messed up navigating. This sea really is annoying, the compass always seems to get messed up.” Sang Ying replied from afar.

In the disguised Pirate Ship

The pirate ship's captain is the dark island leader Zhuo Xiong and also the leader Zhuo Qing’s nephew. He heard long ago that the outer patrol teams heard news that a luxurious ship crew was heading their way so he came himself to check it out.

“New Moon Ground, what place is that, does anyone know?” Zhuo Xiong glanced over everyone and asked.

Zhuo Xiong wasn't your typical pirate, fierce looking and with a full beard. Just opposite, this person looked quite delicate and scholarly. He often succeeded in disguising as explorers on sea and entering luxurious ships and then taking over from the inside. Those familiar with him all knew that the man was just like their bigger leader Zhuo Qing. He was a wolf in sheep's skin. He wouldn't even skip a beat when killing people. No matter if it was kids, old people, women- he didn't discriminate. He also had terrifying fetishes!

“Leader, New Moon Ground- I know of it. It's the west most realm in Zhenming Continent. I heard before that it had went independent from its governing realm. It's actually pretty close to our island but because of the dark sky ocean beast's presence, we never went there before.” A person that keeps up with the news said.

“With this many ships, it doesn't look like its a small realm?” Zhuo Xiong rubbed his chin and said.

“This.... I don't know. Because its Zhengming Continent, I don't hear from them a lot. Maybe Old Zhong will know more.” The news pirate said.

Zhuo Xiong thought for a while and specially looked at the thirty shiny boats and had a plan.

“You few, go act friendly and lead the way for them. I'll go back to the island to ask about this. Don't make a mistake, this is a super big fish!” Zhuo Xiong said.

“Leader, you....” The vice captain called Yao Zhi immediately understood.

Everytime Zhuo Xiong's gaze flashed, someone was going to be unlucky. This time, Zhuo Xiong's eyes were filled with a glow. Even his face showed excitement.

"If anything goes wrong, I'll string you up on a stake and burn you!" Zhuo Xiong glared at his subordinates.

All the pirates shuddered. Zhuo Xiong's most perverted punishment was burning. He used a stake to skewer people from the throat down and then put them over a fire!

Chapter 1282: Each With Ulterior Motives

Zhuo Xiong summoned his feathered demon and shot straight into the black clouds towards Dark Island.

Zhuo Xiong's feathered demon was a middle class dominator and had recently been strengthened from a xuan item plundered from the city they slaughtered. The feeling of a middle class dominator rank soul pet was completely different. Even if he wasn't a pirate and lived in a realm city, he could still be a tyrant.

However, for Zhuo Xiong, a middle class dominator rank soul pet was not enough for the things he wanted. In order to increase his strength faster and to obtain more wealth, being a pirate was the best method.

Even if Dark Island was being covered by the dark clouds, Zhuo Xiong was extremely familiar with the path. In the middle of a huge group of clouds, he swooped down and an island only about 20 kilometers in perimeter suddenly appeared in the black sea.

The mountains of the island were undulating. The island looked no different from a deserted island, but on the inside of the mountain was hidden a small stronghold. The top of this small city was covered by black clouds and it was impossible to discover this small stronghold even after flying over top.

The small stronghold was home to egregious pirates that had terrorized all Crown Ocean ships for a generation! These pirates were all criminals and over half of them were wanted on Wupan Continent!

Zhuo Xiong passed through the mist and through the soul pet trainers defending the skies. He landed right at the center-most building.

“Leader Zhuo!”

When the pirates defending the front of the hall saw Zhuo Xiong land, they all saluted him very respectfully.

“I just tricked a few women to come here from Crown City. That girl from Ocean Sect which you said you wanted...” laughed a pirate to Zhuo Xiong.

Zhuo Xiong waved his hand and said: “I’m not interested right now. I have something I need to speak with big leader with.”

“Ai, what are you in a rush for. That girl is waiting for you right now. It’s not like the navy is coming.” said the pirate.

“If you say another word, I’ll cut your head off!” fiercely said Zhuo Xiong.

When the pirate saw that Zhuo Xiong was serious, his smile instantly froze. He didn’t dare say anything else.

Zhuo Xiong passed through the front hall. The system the pirates used was to a certain extent copied from the navy. Although they were a bunch of fish and dragons mixed together, fundamentally, they were very disciplined.

In the great hall, Zhuo Xiong instantly saw Big Leader Zhuo Qing sitting there. He was currently discussing with a few other pirate chieftains the next city to target, as well as what they would do if they had to evade the navy's pursuit.

"Big Leader, there's a group of luxurious ships in the nearby ocean region." Zhuo Xiong walked up and said.

Big Leader Zhuo Qing faintly creased his brows. He didn't like people rudely barging in and speaking nonsense.

"What luxurious ships?" coldly asked Zhuo Qing.

"They're boats from New Moon Land. All of their boats are dominator ranks and each boat is worth at least 500 xuan. Just in terms of the boats alone, they're worth a total of 15 thousand xuan. They also probably have a large amount of resources that they just purchased from Crown City. The waterline of their boats is extremely deep." said Zhuo Xiong.

"Boats worth 15 thousand xuan!" the eyes of the surrounding chieftains and leaders lit up.

This was definitely huge business for them. If they were able to gobble them all up, they could just flee right after plundering. Even if the navy came to chase them, it wasn't guaranteed they would be able to catch up. Indeed, these were dominator rank ships which were rather fast!

“What kind of people are on it?” Zhuo Qing’s expression was still calm.

“They are all New Moon Land crew members. They probably have a bit of strength, but we should be able to take them down.” said Zhuo Xiong.

“Does anyone have any information on New Moon Land? Give me the specific details.” Big Leader Zhuo Qing swept his eyes over the 13 chieftains sitting in the great hall.

“Big Leader, New Moon Land is a great place.” At this point, a pirate chieftain called Old Zhong slowly spoke up.

All of the pirate chieftains looked at him. Most of the pirates obtained their information from this Old Zhong.

“Didn’t I suggest before that we could go to the other side of Dark Ocean?” Chieftain Old Zhong spoke slowly. He would always pause after speaking a sentence.

“A few years ago New Moon Land was only a third rank realm. The path there was dangerous and the resources were limited. However, in the recent few years, New Moon Land was able to become independent from Jia Border and subsequently, multiple rich independent spaces with resources have appeared there. The very first soul pets that entered this independent area obtained enormous benefits. Currently, New Moon Land possesses an extremely rich piece of land. Mere description does not do it justice.”

“Continue.” Zhuo Qing quickly grew interested.

“Many people say that it is a land of gold because they are surrounded on all four sides by forbidden regions. The resources in these forbidden regions are quite ample. As long as one’s strength is enough, any soul pet trainer can obtain resources there. Added on those rich independent spaces....”

“How strong are they?” asked Big Leader Zhuo Qing.

As larger and organized pirates, they wouldn’t go and gnaw at any piece of meat. They had to ensure they could eat it. They would refuse to do anything which would cause them heavy losses.

“They’re very average. Truly very average. Besides a few of their leaders who are very strong, their composite strength is very weak because the people there are from an inferior species. They have extremely few dominators. The status of spirit emperors is very high there. However, they are rapidly developing and it probably won’t be long before they get strong. Indeed, the strength of their leaders cannot be underestimated. With them leading the way...” the pirate called Old Zhong obtained rather comprehensive information.

“Zhuo Xiong, around how many people do they have?” asked Big Leader Zhuo Qing.

“Each boat has around 100 people. So around 3000 in total. I’m unable to ascertain for the time being how strong they are. However, even Old Zhong said that it was originally a third rank realm. Even if it’s developing fast, they can’t be that strong. In my opinion, what they have now is a lot of money!” Zhuo Xiong impassionedly said.

Their mere boats were 15 thousand xuan. This was a significant amount of wealth.

Big Leader Zhuo Qing creased his brows. He thought for a while and hesitated, but he glanced at Old Zhong and said: “Since it’s an independent land, I think that if we were to completely take over New Moon Land...”

When Zhuo Qing said this, Zhuo Xiong was stunned. He silently said to himself that it was no wonder the leader was the leader. Leader thought of things much further than he himself did.

Indeed, given that New Moon Land was flowing with riches and had such low strength, why didn’t they just take over the place? Nobody was willing to stay a pirate for the rest of their lives. If they could obtain such a huge territory, they could be as tyrannical and abusive as those big realm lords!

“Big Leader, I would suggest that you don’t think about that.” Old Zhong shook his head.

“Why? The other chieftains didn’t understand.

“Ya, why can’t we? Our current strength is no inferior to an eighth rank realm. There’s also Big Leader Zhuo, a peak dominator rank expert. Why can’t we take over a tiny New Moon Land?” asked another young chieftain.

Pirate Chieftain Old Zhong bitterly laughed and explained: “First, New Moon Land has been independent for only a few years. Within the ten years, they are still under the protection of Divine Sect. Would you rather us provoke Wupan Navy or Divine Sect?”

“Second, I heard that there was a person watching over New Moon Land. This person is called Cloud Gate’s old man. Nobody knows his actual name but the rumors have it that he is a Border Lord rank expert.”

Pirate Old Zhong's words caused the pirate chieftains to suck in a breath of air.

A Border Lord expert!!

What exactly was a Border Lord?

A mere Border Lord was able to annihilate their entire pirate group until not even their dregs were left.

In the past when their Dark Ocean Pirates had encountered an annihilation calamity, it was because they had offended a Border Lord rank expert who nearly destroyed their entire crew. In fact, the Dark Ocean Pirates of then were much stronger than now.

"Why is there such a huge figure there?" Big Leader Zhuo Qing creased his brows.

"This subordinate doesn't know. At the end of the day, we really can't offend that old man. Also, there are a few leaders of New Moon Land who are extremely strong, especially their king. He alone in the independence fight was able to deal with three border commander rank experts by himself." said Old Zhong.

"What's his name?" asked the big leader.

"Chu Mu. He is called King Chu in New Moon Land. After he defeated three lower status Border Commanders, he said something very arrogant." responded Pirate Old Zhong.

“What did he say?” everyone immediately asked.

“It’s rumored he said this: ‘New Moon Land is Chu Mu’s territory. Without my permission, no one is allowed to enter this territory. This includes Cloud Realm’s Realm Lord, border territory lord, or Divine Sect High Official... you will be put to death!’” said Old Zhong.

Everyone immediately looked at each other. Even they, this crew of wild pirates, didn’t dare say these kinds of words.

“Realm Lord, border territory lord, Divine Sect High Official.... This fellow is quite arrogant. He merely defeated three lower status Border Commanders, yet dares say this. He truly doesn’t know how high the heavens are.” Big Leader Zhuo Qing sneered and a flicker of contempt flashed through his eyes.

“That’s right. Big Leader Zhuo, if you summon only one of your main pets, you’ll be able to easily defeat everything he has!!” Old Zhong smartly complimented Zhuo Qing.

“Even if he’s onboard, we’ll kill them all!”

Zhuo Xiong also vigorously nodded his head. His uncle, Zhuo Qing, used to be a high official in the navy and was an upper status ocean commander. A lower status commander with one or two high class dominator rank soul pets was on a completely different level than him.

“Since we can’t take over their territory, we’ll just eat up their boats. Such a huge piece of meat has floated over here. Why would we not want it?!” said a pirate chieftain.

“That’s right! With those 30 dominator rank ships, when attacking cities, we’ll come and go even faster. Perhaps even the navy won’t even be able to see our figure fleet past.” said a female pirate chieftain.

Chapter 1283: Beating Them At Their Own Game

Zhuo Qing stood up and looked over everyone. He said: “Given there are 3000 of them, they won’t be very weak. I don’t want to lose too many people. The navy is watching us too closely now.”

“Big leader, their course seems to have deviated. That’s the only reason why they arrived here. I already had a deputy general lead the way for them. You only need to give the word and I’ll immediately have the deputy general bring them onto the island. It will be like catching a turtle in a jar. They’ll be forced to obediently hand everything over to us and then we’ll feed them all to the ocean monsters. We’ll make it seem like the ocean monsters attacked them in groups and completely destroyed them. Even if New Moon Land knows we did it, I doubt they would send troops our way.” Zhuo Xiong had already thought of a solution.

When Zhuo Qing heard Zhuo Xiong’s idea, his eyes lit up. This nephew of his was growing increasingly proficient, unexpectedly coming up with a cover beforehand.

Zhuo Qing praisingly nodded his head and said in a resonant voice: “Ok, we’ll eat New Moon Land’s boats. Have all the brothers hide by the shore on the eastern side of the island. Zhuo Xiong, try and guide their boats as best as you can and don’t destroy their boats in the fighting. If they refuse to get off their ships, the brothers on the other two island can come over and surround them. Don’t let a single boat or ship get away!”

“Haha, it’s rare to have such huge fish deliver themselves to us here!” the female chieftain gracelessly laughed.

“Recently the navy has been watching us closely, so it’s been a long while since I’ve tasted blood. I hope the 3000 people from New Moon Land aren’t too soft so that I’ll actually enjoy the killing.” bloodthirstily laughed a gruff man with a huge beard.

The pirates in the hall wantonly and excitedly laughed. The atmosphere was full of insatiable greed.

.....

On the ocean on New Moon Navy's ships.

Sang Ying was maintaining his calm as he complained about the nasty side of the sea with those acting pirates.

These acting pirates were very experienced, and managed to seemingly inadvertently guide Sang Ying's course towards Dark Island.

"Leader Sang, look at the weather. It looks like there's going to be a storm soon. There are frequently ocean waves above the third dominator rank here and wherever the mist is swept off to, they will often appear." said the pirate deputy general with an anxious look on his face.

"I can see that." Sang Ying also looked like he had a headache.

"I often traverse this part of the ocean and I know of an island nearby. I often seek shelter there." said the pirate deputy as he continued to lay the bait.

"There's an island? That's great! We'll be heading to Crown City often in the future and two months of sea voyage is quite tormenting. If there's an island we can use to rest, that will be great!" Sang Ying immediately showed excitement.

Seeing Sang Ying's reaction, the pirate deputy general was elated!

The big fish had easily taken the bait!!

"Haha, being able to make friends with you, a mighty leader, is my honor. How about this. Although we need to go somewhere else, we still have a bit of time. We'll take you to the island so in the future, it'll be much easier for you to make the trip." the pirate deputy general suppressed the elation in his heart as he spoke to Sang Ying.

"That would be perfect. You really are a good friend. Our New Moon Land's doors will always be open to ocean adventurers like you." Sang Ying said with a face full of gratitude.

Sang Ying wasn't pretending to be gratified. He really was.

This pirate was taking the initiative to bring them onto their island!

Indeed, Sang Ying had just been racking his brains on what excuse to use to approach their island.

"They probably want to invite us into their boiling pot." Hai Qie used a mental voice to speak to everyone.

"Yes, if we're surrounded, we may be in a bit of trouble." said Chao Lengchuan.

There were definitely elemental teams among the pirate crew. If they were surrounded and suffered the bombardment of an elemental team, they would sustain heavy losses. And if they were to lose a large portion of their elite New Moon Navy to pirates, this wouldn't be worth it.

"I have a solution. We have a team specialized in our navy at covert movement. This team can not only do it in a forest, but also don't have a problem moving underwater. Since they're the ones inviting us in, their focus will be on surrounding us. I'll have the covert team leave our ship first and enter the island underwater. They'll find a place to hide on the island and wait for the fighting to start. Then, all they will do is focus the enemy's elemental team." said Hero Chief Yuan Sui.

"This is a good plan. Creating the covert team was really a wise decision." Chu Mu earnestly nodded his head.

"I'll lead this covert team." said Yuan Sui.

"Ok, I'll slow down our progression speed. Be careful when you guys covertly move. Don't touch any barrier traps." said Sang Ying.

"Don't worry." Yuan Sui nodded his head.

In the pirates' minds, there were only a few adventurer boats leading the New Moon Navy towards the Dark Ocean Island. They didn't realize that New Moon Navy was covering up 500 soul pet trainers that were riding on their water type soul pets slinking through underwater.

Without the pirates knowing, this group had separated from the ships and followed the ships' direction towards the island.

Because the ships intentionally slowed their speed, the team of 500 was able to see the island before them from underwater.

Yuan Sui guessed that the pirates would ambush them on the eastern entrance of the island because there was an inward caving gulf. The moment the boats entered the gulf, the route back out into the ocean would be sealed off and they would be completely surrounded.

The dark ocean's environment was quite horrid. While deep underwater, the force of the undercurrent was extremely strong. If one even slightly relaxed, he or she could be swept away by the undercurrent.

They progressed on an adjacent path, planning on coming ashore on another part of the eastern side of the island.

“Senior Hero Chief, there are many submerged reefs up ahead. That should be the ocean precipice. If there are people guarding that area, it will be a bit troublesome for us to get out of the water.” said a soul pet trainer from Windy Rain City.

This soul pet trainer had followed Yuan Sui for many years, including during the Soul Alliance period. He hadn't changed the way he addressed Yuan Sui. Perhaps in this young soul pet trainer's heart, Yuan Sui would forever be the unrivalled Hero Chief. It didn't matter that he had already entered the Palaces faction.

“You, you, and you. Go and check first. If there are any guards, get rid of them. If you don't have the absolute confidence in doing so, then immediately return.” Yuan Sui picked out three dominator rank experts and had them clear the path for them.

The three experts left first. Underwater where the vision was hazy, it was still possible to see them flit through the water like a sword fish's sword. They were moving extremely fast.

As Yuan Sui had anticipated, most of the pirates' attention had been placed on the eastern entrance to the island, waiting for New Moon Navy to enter. There were barely any guards on the other locations and they were easily disposed of by the three dominator ranks from New Moon Navy.

Yuan Sui's success in his covert operation was half due to his subordinates of the past. Among them, 20 used to be either Investigators or Scars. They were all very strong. As the overall strength of New Moon Land rose, so did their strength. Defeating the patrolling pirates was extremely easy.

"Leader Yuan, we've gotten rid of them. For the purpose of safety, we intentionally left one alive, but have controlled his mind. We're having him continue to communicate with the pirates." said an old subordinate, Ma Li.

Yuan Sui nodded his head. He didn't need to personally instruct them what to do with these small details

Many guarding teams or patrolling teams would make a report to their other team members every once in a while. These pirates were rather organized and disciplined so they would probably do the same. The moment someone assassinated some of the patrolling members, if there was no report, the higher ups would know something happened.

Thus, by intentionally leaving one alive and using him to communicate with the pirates, these pirates wouldn't be able to detect something abnormal.

Ten minutes later, the 500 people Yuan Sui was leading successfully managed to step foot on the island. They were hiding in a grey rainforest.

They were rather high up on the land and could see the entire situation in the gulf.

“To the southern side of the gulf is a team hiding in the thicket. They are rather close and should be the demon beast team. There’s about 2000 of them...” Yuan Sui could see the entire ambushing arrangement of the pirates.

“Most elemental teams will be protected behind the plant team. Therefore, on the western side, or behind the highland where they will enter the port, is probably where the elemental team is.

From the topography and formation, Yuan Sui was able to guess where the elemental team was. Yuan Sui had already sent Ma Li to scout and find the quickest route to reach that location without being detected.

“Leader, what is that group of squirming things on the beach on the northern side.?” said an ocean general.

Yuan Sui immediately looked over and indeed discovered things moving on the northern beach. If he didn't look carefully, he wouldn't have noticed them.

“A departed spirit team? These pirates have a group of departed spirit soul pet trainers?” Yuan Sui faintly creased his brows.

Departed spirits rarely appeared on New Moon Land and most soul pet trainers didn't like signing a soul pact with departed spirit soul pets. Therefore, Yuan Sui didn't know much about using departed spirit creatures or how to counter them.

As New Moon Land transformed, their preconceptions of departed spirit soul pet trainers also began to change.

Departed spirit soul pet trainers and soul pet trainers with departed spirits were two completely different things. The most unique thing about departed spirit soul pet trainers were that practically all of their soul pets were departed spirits. They normally understood how to refine and strengthen departed spirits. Yuan Sui had also heard many departed spirits had different strengthening methods than normal soul pets...

“There seem to be a lot of them. This group of creatures that will climb back up after being killed will pose quite a bit of a threat to our beast team.” Yuan Sui muttered to himself.

“Leader, with King Chu, Leader Chao and Leader Ye here, we probably don’t need to be afraid of those departed spirits.” said a navy member belonging to the Palaces.

Yuan Sui nodded his head. With the three of them here, they probably had a method of dealing with them.

Chapter 1284: new Moon Navy vs Dark Ocean Pirates

Dark Island’s east bay was silent. Nothing looked wrong when seen from afar, but even when they slowly entered the bay, it still seemed like a deserted island.

The disguised pirate ship was still leading the way for them while the new moon ground ships were following without hesitation.

“There are some tidal movements behind us, I think there are boats heading towards us from behind. They want to surround us at this bay.” Zen Bangyang reported.

“Tell the people behind not to look backwards. We have to act like we don’t know. Also, they probably will fight us after we get onto the island. We’ll do as they wish so we don’t ruin our ships.” Sang Ying said.

Hai Qie was rather accurate. He believed that even if they were surrounded, they should be able to kill their way out relatively easily.

On the ship, the vast majority of people had monarch rank soul pets out with an occasional emperor rank. This was to give the pirates a sense of false security that new moon navy was much weaker than they actually were.

The act was a success. The pirates guided the new moon navy off the boat and led them towards the island because there were many fruits on the island that could give them energy.

New Moon Navy’s members were also full of smiles. Since the pirates were hiding daggers with smiles, they of course had to treat them equally politely.

Thus, both the pirates and the navys seemed extremely nice to each other but were both thinking the same thought, “I’ll be damned if you come out of this alive this time!”

Leaving some people on the boats to manage them, the boats all anchored ashore. Two thousand people left the boats and started going on land.

“This looks like a pretty good place, maybe we can even set up a checkpoint city. Let’s go do some recon deeper in the island.” Sang Ying said with a face of serious consideration.

“Though the oceans are bad, the island itself is pretty nice.” The disguised pirate laughed and thought to himself, “Dumbass, we already have a small city here.”

As they laughed, the disguised pirates found an excuse to distance themselves slightly from the new moon navy.

At this time, everyone became more vigilant because it was obvious they were about to rip their disguises off!

“They’re going to run away.” Zen Bangyang looked at the figures scurrying away.

“No worries, we’ll continue to attract their attention. Yuan Sui and the others are already sneaking over.” Sang Ying said.

Two thousand people all held their incantations in their mouths, ready to summon their main soul pet at a moment’s notice.

“Hualalalala”

Suddenly, a powerful tide hit the edge of the bay. A densely packed group of boats came with the tide to lock off the entire bay!

The aura was like a group of fierce beasts all arriving at the shore, ready to rip apart the silver boats.

The tides came one after another, growing increasingly fierce. Combined with the imposing aura was also the roars of countless water type monsters the pirates summoned!

“Aoo!!”

A barbaric roar came from in front on the high ground!

Figures leaped down from the high ground, staring with wide, greedy smiles at the New Moon navy.

More and more people started showing up, nearing 10,000 in number, and near 30,000 soul pets with them. Immediately, the entire beach was filled with these people and soul pets. New Moon Ground's two thousand people looked miniscule in comparison!

“Its..... it's pirates!!” Zeng Bangyang yelled out, looking absolutely terrified.

Sang Ying glanced at Zeng Bangyang. This guy really was into the act!

After Zeng Bangyang's terrified yell, everyone else also started showing fear, as if they didn't expect it at all and started withdrawing themselves.

“Pirates, why are there pirates here?”

“We've fallen for their trap, this is a pirate nest!”

“Those liars, they convinced us to come here. We’re done for, there’s too many of them!”

Chu Mu turned around to look at the navy and noticed that they really were into the act. After all this frantic yelling, the pirates definitely would lower their guards even more.

“Hahahaha, you stupid Normal Human Subspecies, if you come for death yourself, you can’t blame me for being cruel.” Zhuo Xiong laughed.

In the high ground, a group of leaders stood around. They were all dressed rather luxuriously. If not for their cruel and greedy looks, it was hard to believe these well groomed were the ringleaders of a group of bloodthirsty pirates.

The leaders all suddenly split up to let a middle aged man in a large coat to pass through.

He looked over the surrounded new moon navy members and smiled, revealing a toothy yellow grin.

“New Moon Ground? I heard that’s a really rich place.” This extremely imposing great leader said calmly, “A group of lowly humans keeping such a rich ground. That’s a crime. I welcome you to I, Zhuo Qing’s, pirate island. You’re the first group of foreigners that have come, so I won’t leave a single one of you alive!!”

At those last words, Great Leader Zhuo Qing’s spirit remembrance pushed forth!

Zhuo Qing was clearly a high remembrance spirit dominator. When his spirit remembrance pushed forth, it was like a tidal wave!!

The normal navy all stepped back, secretly shocked at the strength of the middle aged man!

“This fellow was the old navy leader Zhuo Qing. he’s stronger than great leader Xu Kuang.” Hai Qie immediately reminded chu Mu.

Chu Mu nodded. He could feel the strength from this man.

“The ten or so people around him are all leader level pirates. The black clothed one is called Lin Kang, an official of Ocean Sect. After he was revealed to be dealing with pirates, he ran away and completely switched sides. He’s like a low ranking navy general in strength.

“The old woman that’s basically wearing nothing is called Chang Fei. She’s ranked third of all the pirates, has the strength of a medium ranking navy general.” Hai Qie continued to say everyone’s strengths.

Ye Wansheng glanced over and indeed saw an extremely revealed woman standing amongst their ranks. Her figure was indeed thin, but her figure really wasn’t great. Her skin was also tanned brown, so the descriptor of “old woman” wasn’t far off.

“Prince Chao, I’ll leave the female leader up to you.” Ye Wansheng said.

Chao Lengchuan nodded with a helpless laugh.

“Zhuo Qing’s right hand side, cold faced, that’s the original pirate leader with a bounty of 9000 xuan, called Su Guanluo. He’s an extremely crafty, powerful, and troublesome man!” Speaking of Su Guanluo, Hai Qie’s tone clearly was heavier. It was obvious this Su Guanluo was the pirate Hai Qie hated the most, the main mastermind behind the massacre of Wan City!

Hai Qie explained every leader briefly. Even those that Hai Qie had never seen herself, Hai Qie could guess who they were.

“Alright, let’s disguise ourselves a bit more and fight the moment Yuan Sui sends a flare.” Chu Mu nodded.

Yuan Sui was very key. Otherwise, if they were hit with the pirates’ elemental army, they may lose a lot of people.

The pirate army had 30,000 soul pets with an average rank of top tier monarch to pseudo emperor. This was much weaker than new moon navy. Adding on Chu Mu, Chao Lengchuan, Ye Wansheng, and Pang Yue, they had enough power to face them off with ease.

“Kill them!! Don’t leave a single one alive!!!!”

Zhuo Qing gave a command!

With one sentence, tens of thousands of bandits let out excited calls, commanding their soul pets to continue to near them!

On the ocean, a large group of ocean beasts came up from behind New Moon navy. They numbered at least ten thousand, showing the pirates resolve to leave no new moon navy out alive!

The sea water was rolling furiously, reaching hundreds of meters in height. At the tps of the waves, with green faces and sharp teeth, soul pets bared their maws and gleamed with greed, just like their masters.

Very quickly, the entire beach was filled with these scaled and lumpy creatures. These sea creatures all knew how to secrete a certain sticky substance that was slightly corrosive. One could see that they were intentionally spreading this secretion so the path of retreat was blocked off. Once they tried to escape, they would get caught by the sticky substance.

This sticky substance was created by an organism called Underwater Lizard Fish. They often gang up and kill weaker species in teh ocean.

At this time, the pirates were using them to create a lockdown. There were at least five thousand of these creatures, each around ten meters, that filled the beach. Their secretions caused the ships to get stuck!

The sticky substance was like liquid spider silk, spread messily yet densely over the bay. When they looked back, they couldn't even see the ocean.

Zeng Bangyang saw the disgusting creatures and furrowed his brows, "Leader, those things behind us don't look easy to deal with."

"Hard to deal with? Alright, I'll leave it to you. Don't let them get the chance to disgust me over here. The Underwater Lizard Fish are great at restricting our beast type soul pets.

“Leader Sang, my brethren and I will definitely not let it get that chance.” Zeng Bangyang swore.

Sang Ying nodded and no longer cared about the pirates behind him. He was here to get rid of all the pirates, the ones that filled the entirety of the rainforest and high ground ahead of him!

Chapter 1285: Absolute Wood Type Defense, Devil Tree Barrier

Among the twenty thousand soul pets, the beast world soul pets still took up a large percentage of them, numbering around 13,000. An especially large horned armored beast was at the front and leading the charge, sending rocks and sand skittering!

Their flashing armor was dazzling to the eye. In the large group of four to five meter beasts, there were always a few horned armored beasts that rampaged through, many times larger than its brethren. Its massive size and powerful armor showed off its strength!

In the high ground and forest, countless horned armor beasts ran over through the dust with deafening roars. Their iron hooves threatened to stomp through everything in its path!

“Longlonglong~~~~~”

Three thousand armored beasts! Their aura was massive and imposing!!!

“Breakthrough them!!” The leader Ling Kang was the main general of this horned beast army!

At this moment, this main general was riding a twenty meter long dominator rank horned beast. Compared to the four or five meter beasts around it, this high class dominator rank horned beast was like a giant amongst children!

In most Guanhai Cities, Ling Kang said that the three thousand horned beast army had broken through countless city's defenses and stomped on countless corpses. In front of them, there once was a seventh realm army dashed to pieces. That ransack was Lin Kang's most proud moment!

An army that could destroy even a seventh rank realm army should have no problem defeating a bunch of new moon ground navys. Maybe they would be mostly dead after one charge. The rest can just focus on cleaning up.

Thinking about the mush that would soon be beneath his feet, Ling Kang smiled cruelly!

“Longlonglong!!!!”

The horned beast got closer, reaching only five hundred meters away!

At this time, Ling Kang saw the new moon navy quickly cast incantations, bringing up countless colorful summoning diagrams in front of them.

“They're all dumbfounded, summoning a soul pet now is too late!” Ling Kang laughed in disdain and commanded his army to charge forth with no regard!

All sorts of soul pet glows appeared before the new moon navy as many soul pet appeared!

The new moon navy of course weren't unprepared. Though the navy members looked crowded, they were all standing in their respective spots. The first to summon a soul pet was naturally wood type and vine type soul pet trainers. Their jobs were to stop this wave of charges!

There were around five hundred wood and vine type soul pets all at emperor rank. Their branches, evil vines, and poison vines grew out within mere seconds, creating a massive plant fort in front of the navy members!

The castle width was only four hundred meters but the densely populated hard vine wood is the best at stopping charges.

The three thousand horned armored beasts were running with unstoppable momentum kicking up dust. But, this also meant that the beasts at the front couldn't possibly stop even after they saw this terrifying plant wall. The ones behind on the other hand weren't able to see because of the dust, so they kept charging by command!

The armored beasts dashed straight in. With their powerful defense and attack, they broke many roots, wood, and vines, breaking through a lot of the obstacles.

Very quickly, the plant castle was half destroyed!

Five hundred plant emperors' released plants were easily stronger than most rocks. These three thousand horned beasts instantly destroyed half of it, showing how powerful they were!

However, horned armored beasts' charge requires them to get through in one go or else they would lose power.

One could easily see that the horned beasts at the very front were hit by all kinds of wood daggers, bleeding vines, weakening poisons, and were completely bloodied. They no longer had the courage or pain tolerance to continue.

Yet, those behind continued to charge blindly. If they stopped now, they would definitely get trampled.

Unable to do anything else, the armored beasts up ahead continued their charge. However, with their defense severely weakened, dashing into the dangerous plant wall meant death by spikes, poison, blood loss, entanglement.....

The rolling dusts caused the situation to fall into chaos. The horned armored beasts were still charging from behind. This only sped up the death of the horned beasts ahead. And in no time, those at the back will also join the ones in front in death.

“Strange, why is the second half so hard to get through?” Ling Kang quickly noticed a problem as a high class dominator rank expert.

“These wood type energy crystals..... Why are they so high?” Ling Kang suddenly noticed!

The front half of the plant wall was very weak, but the latter half was truly a plant wall. With soul remembrance, Ling Kang could already see many corpses hanging from the intersecting plant walls!

“Everyone follow me! Don’t charge by yourself!!” Ling Kang realized the plants weren’t going to be as easily dealt with as he thought and used his mental voice to roar.

Very quickly, the dominator rank horned beasts all gathered behind Ling Kang. They charged at the front while lower level horned beasts ran behind. Ling Kang didn't believe these plant walls could stop these dominator ranks' charge!

This time, the charge was extremely successful. Very quickly, the plant wall was over three fourths toppled!

“A little more and we can render them all into mush!” Ling Kang roared, lifting up the blood lust in all pirates.

All the pirates riding horned beasts roared back and charged towards the last fourth of the plant wall!!

“Shua!! Shua!!! Shua!!!!!!”

Suddenly, the sounds of daggers through the air came!

Very soon after, a large group of horned beasts let out pained calls.

Ling Kang was momentarily confused. Looking around, he noticed that the plant fort still had many plant traps. At least three hundred emperor ranks fell into this trap, causing them to all die!

Instantly losing three hundred rank pirates, Lin Kang himself was full of shock too.

It was supposed to be easy to bully monarch ranks, but why could they block our charge simply with a plant fort?

“En~~~~~”

Just when Ling Kang was surprised, the ground below him suddenly opened up and countless python like roots came around his dominator rank soul pets' four limbs.

“Barbaric Path!” Ling Kang quickly reacted and gave his soul pet a command.

Dominator rank soul pets could easily walk in the air. While in the air, it continued its way. The roots that wrapped on its legs suddenly snapped after a strange energy was released back into the trap.

“Heng, I'll demolish you all!” Ling Quang was already fuming!

Turning around, he saw around 15 dominator rank horned beasts.

He also saw the emperor rank dand monarch rank teams that were probably stuck on the walls. A large disjoint happened between the team before and after the plant wall. This caused the blockage to be more successful.

“I'll lead people to enter them! Get that group of idiots to come with me!” Ling Kang was the first to lead, going personally into battle iwth fifteen dominator rank horns behind him.

Ling Kang's high class ominator rank horned beast was indeed powerful. Breaking the last fourth of the wall wasn't difficult. Adding on the power of five middle class, low class, and pseudo dominator ranks, they still created a large path!

“Die, gigantify!” Ling Kang roared and was the first to leap through the castle!

The twenty meter long dominator beast suddenly started growing!

Ling Kang was riding an Ironblood Rhinoceros. Originally, it was only twenty meters but it got even bigger as it ran, reaching a hundred meters!

This hundred meter long beast is massive. In humans’ eyes, it was like an armored mountain coming their way!

“Leader Ling is over there already, let’s charge!!” The fifteen dominator rank pirates yelled.

Ling Kang’s massive ironblood rhinoceros was a sign of the pirates’ charge. With such a powerful expert in front, what were they afraid of?

Thus, the horned beasts ahead also surged forward!

“Pupupu~~~~~”

Suddenly, something coming out of the dirt made strange sounds.

Just as the fifteen dominator rank pirates neared their leader Ling Kang, they found a dozen dragon-like vines extending from underground!

These vines all shot into the air around the Ironblood Rhinoceros and connected at the top, creating a massive cage that could fit the gigantified Ironblood Rhinoceros!!

Wood Flood Dragon Cauldron!!

After the charging ironblood rhinoceros was caught by this cage, its body suddenly came to a stop. No matter how powerful it was, it was completely restricted, stuck at the center of the jail. Making even a single step was near impossible!

The massive Wood Flood Dragon Cauldron not only captured Ling Kang's Ironblood Rhinoceros, it even blocked off the only part of the wooden fort that was broken through!

At this moment, a large group of pirates were stuck at the center of the plant fort. They also had to stop their charges. They seemed dumbfounded as they looked at the stuck Ironblood Rhinoceros!

Leader Ling Kang's gigantified ironblood rhinoceros was caught by a wood type technique! One had to know that the hundred meter beast at full force could level entire mountains with ease!

Chapter 1286: Demon Massacre, Not Even Leaving a Piece of Armor

"This... this is...." as he looked up at the intertwining large flood dragon cauldron, Leader Lin Kang was stunned!

Only a high class dominator rank wood type creature could possess this type of ability, and it wasn't a normal high class dominator rank!

Lin Kang looked over and among the countless plant soul pets found the powerful figure.

Astonishingly, it was a Devil Tree Battle Soldier with a species rank of warrior rank!

Pirate Leader Lin Kang rubbed his eyes, doubting his own vision. He was certain that warrior rank creatures couldn't cross into the dominator rank, let alone the high class dominator rank.

Behind Lin Kang, 15 dominator rank pirate chieftains had faces full of shock. They had never seen such a strong Devil Tree Battle Soldier. With its own power, it had managed to stop a group of horned beast dominators!

Although it was only a single Devil Tree Battle Soldier, it was like an uncrossable mountain. Its imposing majesty dissuaded the dominator, emperor and monarch horned beasts from stepping forwards.

“Annihilate them!” Sang Ying recovered from his shock, and hastily glanced at the elemental team behind him, giving them an order.

New Moon Navy's elemental team comprised 500 people. The average strength of this team was the middle class emperor rank, which was even more powerful than 3rd Ship Legion's elemental team!

A colorful and gorgeous array of incantations flickered in the elemental team. Incantations filled with destructive power quickly congealed and countless elements clashed together...

The halo of techniques rose into the air and they were dazzling like an exploding sun!

Every technique from the middle class emperors easily covered two to three kilometers. Presently, the majority of the 3000 horned beasts were within this two to three kilometer range in front of the New Moon Navy.

The halos illuminated the entire enormous gulf.

Balls of large flames scorchingly dropped from the sky and burned the fiery ocean into a hell.

Ice and wind merged together, reaping the lives of those weak horned beasts.

Lightning and rock terrifyingly smashed down, leaving holes in the ground where the smashed corpses of the horned beasts lay.

Hong hong hong hong hong”

Trembling sounds filled the island, and over ten thousand pirates were stunned by the instantaneous destructive force of New Moon Land.

From the highlands to the jungle, they were able to see 3000 charging horned beasts annihilated until almost none remained. A mangle of bloody and broken armor and mutilated corpses littered the ground. Mixed in were broken limbs, heads and innards...

These pirates had seen a bloody spectacle like this before, but now that it was happening to them, they were slightly frightened.

The egotistical smiles of the chieftain pirates standing on the highlands froze. No one could laugh after watching the 3000 horned beasts on their side nearly annihilated.

Big Leader Zhuo Qing's expression turned ashen. His initial battle plan was to have the sturdy horned beasts charge at the New Moon Navy formation and after breaking through, New Moon Navy would be unable to muster up any defensive force. Then, the horned beasts could leave and the pirate elemental team could begin their bombardment!

The pirate's elemental team had 4000, and if they released techniques all at once, almost none of the 2000 New Moon Navy members would be left alive. After that, his other brothers could go and clean up the mess, turning the living members into corpses and delivering the killing blow to those half-dead. Then, they would be able to delightfully take the 30 dominator navy boats and the resources on them.

However, reality did not play out as expected. Firstly, their 3000 horned armored beasts spent a huge amount of effort to charge at the opposing 500 plant creature fortress and was left trapped alive in the plant forest. Right after that, they were bombarded by a retaliation wave, barely leaving any of them alive. The deaths were incomparably miserable!

"How... how did the New Moon Navy... suddenly become so incredible." said Chang Fei with a bit of disappointment.

The 3000 horned armored beasts was the greatest weapon the pirates used to attack cities. Without the horned armored beasts, it would be impossible for them to plunder a city.

"Stupid woman! Can you still not see? They were faking it! The plant fortress being able to block our 3000 horned beasts means their plant team is all at the emperor rank. Even scarier is the elemental team which has an average strength of the middle class emperor rank. The bombardment from 500 middle class emperor elemental soul pets... How are our pseudo dominator and peak monarch horned beasts supposed to survive?!" angrily yelled Pirate Old Zhong.

Old Zhong's yell abruptly awakened all of the chieftains.

The New Moon Navy was no group of pushovers. Instead, their fighting power was comparable to the navy!!

If Old Zhong could see it, as a formed high ranking navy official, Zhuo Qing could also see it.

The blood vessels in his face were bulging because he never expected that New Moon Land's navy were trying to trap his Dark Ocean Pirates!!

"Elemental team, bombard them!" Big Leader Zhuo Qing angrily roared at the elemental team behind them!

"Big... big leader, there are still a few of our brothers there." hastily warned Old Zhong.

Not all of the 3000 horned beasts had died. There were a few lucky survivors, especially among the dominator rank horned beasts. They carried heavy wounds and were escaping.

"What use is there in leaving those pieces of trash alive!" Big Leader Zhuo Qing sneered. He had no pity on the remaining pirates.

The moment the order was given, the 4000 elemental members began to chant in hiding.

The average strength of the 4000 elemental team was the pseudo emperor rank and the elemental destructive windstorm they could create would be able to deal a serious blow to New Moon Navy.

A gorgeous set of colors flashed through the sky and earth. All of these lights were like impending and bloody death to the remaining horned armored beast and New Moon Navy members.

However, just as they were chanting, dark-star like demon eyes suddenly flickered in the highland's jungle.

In the shadow of the jungle, phantoms were lightly moving forwards. They were currently in a stealth state and even in the ardent sunlight, it was only possible to see faint outlines moving by.

These figures were moving extremely fast. Even though they were still a ways away from the highland, they would be able to catch up to them before the elemental soul pets finished chanting!

To demons, an elemental soul pet was the easiest to assassinate when it was chanting an incantation!

The experienced Hero Chief Yuan Sui didn't move at all for a very long time until now. He continued chanting in the jungle until he heard Zhuo Qing's roar. He knew then that his opportunity to attack had arrived!

500 emperor demons. When all of the pirates had their attention on the beach of the gulf, they snuck around to behind when the pirate formation was without defense!

The 4000 elemental soul pets were concentrating on chanting. Even if they detected the cold intent behind them, they wouldn't be able to react in time!

Finally, the demons neared.

If a demon were to charge into a defenseless group of elementals, it would be like a wolf throwing itself into a group of sheep. This time, it wasn't only 1 demon, but 500 demons with ranks higher than the elementals!

"Interrupt their incantations!" Yuan Sui sensed that the majority of the pirates' elemental soul pets were about to finish their incantations and ordered the covert team.

The demons' mental abilities were ranged, and heavily relied on a rank advantage. Indeed, higher ranked demons would be able to use their abilities more effectively on lower ranked enemies.

The eyes of the 500 demons flashed and a mental force full of malice that accompanied the demonic light swept over the 4000 elemental soul pets like a tide.

"Weng weng"

The minds of the 4000 elementals were instantly thrown into chaos. At least 90% of their incantations were interrupted.

The halos from the techniques immediately dimmed and the 4000 elemental soul pets let out sharp cries and pained expressions!

The elemental pirates also suffered from the demon mental reverb. It was a long while before they recovered. By the time they protected their soul remembrances, they discovered that numerous grim reaper-like demons had suddenly appeared among their elemental team.

“Kill!”, Yuan Sui spat out a single word.

His old subordinate, Ma Li, led the way and flitted through the middle of the elemental team.

Regardless if it were red colored fire type creatures, brown colored rock type creatures, purple colored lightning type creatures or chaos wind type creatures, all sorts of creatures collapsed to the ground along its straight line.

Elemental soul pets didn't have any blood, but rock types would shatter, ice types would be reduced to dregs of ice and fire types would be left as ruined buds of flame. This was a more unpleasant scene to the pirates than one filled with blood because while elemental soul pets were mainstream, they were much more valuable than demon world creatures!!

A multitude of different colored corpses littered the ground. The demons Yuan Sui lead had become a genuine harvester of lives. Rows upon rows of elemental soul pets collapsed. The speed at which they were eliminated was extremely fast. How could these pirates have ever imagined their soul pets would be insta killed one after the other so miserably?

“What happened? Why aren't they attacking?!” Zhuo Qing's face was going green from anger.

He gave these criminals food and room to play. But when it mattered, their incantations were being released so slowly. If it weren't for New Moon Navy being completely surrounded, they would have all run away by now.

“Big leader, our elemental team was sneak attacked!” Old Zhong yelled out with a pale face.

Zhuo Qing was stunned and abruptly turned around. He finally discovered on the highlands that the elemental soul pets had been turned into corpses in a short period of time.

Zhuo Qing’s face instantly turned scarlet red. He was like a volcano that was about to erupt.

These New Moon Navy members had come prepared!!

Chapter 1287: Crushing, Sweeping Through

“Tell them to separate!” angrily roared Zhuo Qing.

It was extremely difficult to create an elemental pirate team. This setback made Zhuo Qing explode with rage.

The elemental soul pets began to separate and flee in different directions. Zhuo Qing angrily ordered a group of beast type soul pets to go assist and tear all the demons to shreds.

This group of beasts numbered around 2000. If they were to clash directly, even if the demons outranked the beasts, it would be extremely difficult for the demons to deal with them. Indeed, the demons’ defensive power and offensive strength were both much weaker than beast type creatures.

Yuan Sui’s commanding abilities were very proficient and when he saw a huge group of beast type pirates charging at them, he ordered: “Retreat to the highland jungle!”.

Yuan Sui had already instructed the navy members not to overzealously fight. Even if the enemy only had half its life left, once the order came, they would have to retreat without hesitation!

Indeed, once he gave the order, all of the demons turned directions and began to retreat in the direction they came from.

The speed of beasts couldn't keep up with demons. Soon, the 2000 beasts were left far behind.

"Old Zhong, take a group of people and chase them!" said Big Leader Zhuo Qing.

If a group of high ranking demons was hiding around them, their elemental soul pets would be ostensibly useless. It would be impossible for them to release any techniques.

Old Zhong nodded his head. He immediately chose stronger subordinates and brought a team of around 3000 soul pets to chase in the direction Yuan Sui had fled.

"Beast type legion, crush them!" Big Leader Zhuo Qing gave an order.

The person leading the beast type legion was the grim pirate Su Guanluo. Once he had the order, he immediately chanted an incantation and summoned a purple Large Devil Panther.

Lightning scorched the air as countless lightning bolts ostentatiously diffused through the area. Su Guanluo jumped onto his purple Large Devil Panther and led the charge right at the New Moon Navy.

The charging lightning of the Devil Panther was the trademark symbol of the beast type pirate legion's attack. Over 100 pirates chieftains let out loud cries and urged their beast type soul pets to closely follow behind Pirate Leader Su Guanluo!

There were nearly ten thousand creatures in this beast type legion. The ten thousand beasts charging down to the battlefield was much more striking than three thousand horned armor beasts.

At the very front of the wild beast charge was the Lightning Devil Panther, which was as fast as lightning.

When Hai Qie saw Su Guanluo's soul pet charge, her eyes instantly filled with rage and hatred.

It was this bloodthirsty and cruel pirate that had killed her father and mother. Even her two older brothers had miserably died in the hands of this pirate.

"I'll deal with him!" Hai Qie faintly trembled. This was the first time she truly faced Su Guanluo and now her strength was enough to contend with this executioner.

"Ye Wansheng, you and Hai Qie lead the defense against these beasts." said Chu Mu.

Ye Wansheng got serious and glanced at the navy members behind him.

New Moon Navy had a total of 800 beast type soul pets. This amount was not even a tenth of the pirates. However, New Moon Navy's composite strength was several times stronger than this group of ragtag pirates. Added on Ye Wansheng and Hai Qie, two high class dominator rank experts, it was possible for them to fight against ten times the amount of enemies.

“Try and keep the battle line where we can see.” Chu Mu instructed Hai Qie and Ye Wansheng.

Even if they had the advantage in this legion-style warfare, it was hard to avoid casualties.

Chu Mu didn't want too many casualties to occur when the New Moon Navy fought the pirates. If the situation wasn't looking good, Chu Mu would take action.

Chu Mu had in fact already taken action.

The reason why the New Moon Navy's formation hadn't been impacted yet was due to the Devil Tree Battle Soldier which was standing in front of the navy and acting as an impenetrable plant fortress. Even Pirate Lin Kang's Iron Blood Rhinoceros couldn't take a step past. This also gave the most safety to New Moon Navy's elemental soul pets, allowing them to use techniques without fear.

As the ten thousand beasts charged through, they suffered bombardments from elemental soul pets. Technique after technique rained down and by the time these beasts approached the area of battle, there only remained 8000.

In an instant, one fifth of the beast type legion had been lost. This thus demonstrated the terrifying power of 500 elementals at least of the emperor rank.

8000 against 800. The difference was huge.

Hai Qie didn't hold back. The hatred in her heart towards Su Guanluo made her want nothing more than to ground him into mince meat!

Three high class dominator rank soul pets were instantly summoned. She was riding on one of them and with a bit of momentum, charged straight at Su Guanluo who was at the very front with overbearing grievance.

Half a step behind, Ye Wansheng was stunned, thinking to himself that this female leader was even more brave and fierce than himself.

Chanting an incantation, purple lightning bolts instantly emerged around Ye Wansheng.

These purple lightning bolts formed an enormous lightning totem in front of him that shot up in the sky and seemed like it was going to touch the oppressive black clouds.

Sky-cleaving lightning bolts suddenly appeared. They hung between the heaven and earth and the purple color bent lightning bolts resembled purple deity giants!

Dense smatterings of lightning appeared in the dark clouds, intersecting around this godly figure and transforming into destructive swords that swung down towards the island.

Chu Mu looked up, and saw the soul pet Ye Wansheng had summoned. He showed an expression of shock on his face.

Only the Empress Heavenly Thunder Snake could have this type of a body. Its eyes were like cold stars that hung high up and contemptuously stared down at the tiny creatures on the ground like insects!

“Empress... Empress Heavenly Thunder Snake!” the hearts of the New Moon Navy members jumped when they saw the Empress Heavenly Thunder Snake.

The aura released by the high class dominator rank Empress Heavenly Thunder Snake was capable of influencing the entire battlefield. Regardless if it were the arrogant and rampant pirates, or it were New Moon Navy, both sides felt the contemptuous tyrannical aura of the Empress Heavenly Thunder Snake!

“Hong hong hong hong hong!!!!!!!!!!”

Each bolt of heavenly lightning that resembled swords of judgement managed to instakill a dozen pirate beasts. Under the Empress Heavenly Thunder Snake’s control, the dense smattering lightning instantly annihilated the 500 wild beasts charging at the very front.

Su Guanluo’s charging had slowed down slightly and the Empress Heavenly Thunder Snake’s figure was enshrouding him. Although it wasn’t attacking his Devil Panther, it exerted a large amount of pressure on him!

“They had a soul pet of this rank?!” Su Guanluo creased his brows and turned serious.

With the Empress Heavenly Thunder Snake’s destructive power, it wouldn’t be long before the 8000 wild beasts were annihilated. Someone had to stop this Empress Heavenly Thunder Snake.

Su Guanluo chanted an incantation and summoned his stronger main pet - a Evil Eye Ghost Bird!

The Evil Eye Ghost Bird beat its wings as its body was covered by a large ball of death energy.

As it flew into the sky, the ghostly aura on its body was shaken off!

The miasmic aura was capable of confusing the vision and perception of enemies. Su Guanluo didn't believe the enemy would continue to recklessly release techniques when they were unable to see.

Indeed, the appearance of the Evil Eye Ghost Bird was able to curb the Empress Heavenly Thunder Snake's might. Ye Wansheng immediately let out a loud curse!

"I'll deal with that Evil Eye Ghost Bird." Hai Qie hadn't lost herself in the hatred that was covering her eyes. She could see that Ye Wansheng's Empress Heavenly Thunder Snake was an absolute destroyer in a group fight. She had to let his Empress Heavenly Thunder Snake release its obliteration lightning in order to raise the morale of the navy members.

Ye Wansheng nodded his head and glanced at the navy members behind him. Seeing that they had already summoned their soul pets, he used a mental voice to say to them: "Don't leave the 2 kilometer range of my Empress Heavenly Thunder Snake!"

In terms of size, there was probably no creature in this world that could compare to the Empress Heavenly Thunder Snake. Its body was as large as a mountain peak and a casual flippin over of its body was capable of crushing a huge number of emperors and monarchs to death.

The navy members were extremely organized and they formed a formation around the Empress Heavenly Thunder Snake, waiting for the pirate legion to arrive.

"Ao ao~~~~~"

A dragon roared. Ye Wansheng was extremely familiar with this iconic roar. It was definitely Chu Mu's Spectral Hidden Dragon!

"Chu Mu, you're going to collect souls?" Ye Wansheng used a mental voice to ask from afar.

After the beautiful performance of the Spectral Hidden Dragon in the independence fight, Ye Wansheng learned of its secret.

"Yes. The Little Hidden Dragon's soul has grown to about 70%. After eating a few more high rank souls, it will probably be able to reach 100%." said Chu Mu.

The Little Hidden Dragon's peak dominator rank strength was nearly there so Chu Mu had no reason to let off the souls of these pirates.

Chu Mu's Little Hidden Dragon was even more violent than Ye Wansheng's Empress Heavenly Thunder Snake. Moreover, it could disappear and appear unpredictably. By the time it reaped over 1000 souls, these pirates may not even discover a terrifying devouring souls dragon in the chaotic fight!

Sang Ying, Chao Lengchuan, Pang Yue, Zeng Bang, and the others all had their attention of the thousands of pirate beasts behind. The enemies behind had no very powerful chieftain or leader. Although there were a lot of enemies, with the four of them there, it would be easy for them to deal with. Indeed, the average strength of those pirates behind was only at the peak monarch rank. Any dominator rank technique would be able to cause a mass of deaths.

On the side of New Moon Navy, the number of dominator rank experts clearly surpassed the pirates, especially experts of the high class dominator rank and above.

Dominator rank creatures were killing machines in a group fight. The start of the fight was still chaotic, but after a while, it was possible to visibly see the pirate's side be crushed!

Chapter 1288: Facing the Pirate Leader Zhuo Qing

The pirates couldn't sit still anymore. No matter what, they didn't expect the situation to become like this when they had them outnumbered over ten times!

Now, New Moon Navy was fighting back to back like fierce tigers. No matter how many people they had or how powerful their assaults were, they couldn't break their formation. The scarier thing was the New Moon Navy had truly too many high class dominator rank soul pets!

The pirate leaders that Hai Qie mentioned were the only people with high class dominator rank soul pets of the pirates. Added together, it was four to five.

Looking back at New Moon Navy, Chu Mu himself already had two high class dominator ranks. Little hidden dragon was frenziedly devouring souls in the beast type army while the devil tree battle soldier stood in the new moon navy creating a flawless defense. Even dominator ranks couldn't get near New Moon Navy!

In a group battle, the devil tree battle soldier could be much more effective than its own rank entails. After getting the wood xuan leaf, it had an attacking power near that of a top tier dominator rank. Adding on its natural advantage in large groups, one could say without exaggerating that the devil tree battle soldier was like a top tier dominator rank soul pet guarding the New Moon Navy. He could kill however many that come his way!

Other than Chu Mu's two high class dominator ranks, Chao Lengchuan also summoned two high class dominator ranks, his thousand wave baest and Lin Yin beast. These two beasts were stampeding through the lower rank backlines of the pirates. Sometimes, even without casting techniques, simply slamming their way through the ranks was enough to kill a large amount of people.

Following that were Ye Wansheng's high class dominator rank soul pet.

A bold Empress Heavenly Thunder Snake destroyed countless pirates' inner defenses. There was also a Multi Colored Devil Tiger hiding within the chaos instantly killing any soul pet under middle class dominator rank, causing the leader rank pirates to not even dare show their faces.

After Sang Ying made his way through demon burial mound, he also had two high class dominators. Hai Qie also had three high class dominator rank soul pets.

Added together, New Moon Navy had 11 high class dominator ranks. Even if five were occupied by the leaders of pirates, the six on the battlefield were demolishing their ranks!

Not only that, but the pirates' elemental soul pets were constantly occupied by the experienced Yuan Sui, while the New Moon Navy's elemental soul pets could constantly barrage the enemy. Their destruction was sometimes even scarier than high class dominator ranks.

"They..... How do they have so many high class dominator ranks!" Female leader Chang Fei said with a face full of shock.

The great leader Zhuo Qing's face was incredibly grave. From the enemy's strength, he could tell that they didn't come by mistake but definitely came to kill them all!

"Leader Zhuo, those demons are too sneaky, I...." Old Zhong came back defeated, saying with a face of resentment.

The old pirate Zhong had just brought 2000 soul pets towards Yuan Sui's demon team. However, after entering the forest, his people were killed one by one until only 1000 remained. At that point, the pirate Old Zhong no longer dared to continue the chase because at a certain breaking point, the demons would be able to clean the rest of them up!

Zhuo Qing's face was already utterly black. He stared angrily at Old Zhong, "Didn't you say this group of New Moon Ground people was very weak? Why are they showing the strength of a Wupan Navy?"

"This.... I...." Old Zhong couldn't give an answer.

Even he didn't know why the new moon navy people were this powerful!!

Every member had emperor rank soul pets, they had a full demon team, plant team, elemental army, beast type army, aerial army. It was hard to imagine that a third rank realm that had barely developed for a few years could have this many spirit emperors!!

Zhuo Qing humphed, causing Old Zhong's body to turn cold with fear!

He could feel Zhuo King's killing intent!

The great leader Zhou Qing could no longer sit still. The enemy's army was already much stronger than the pirates. Adding on all the high class dominator ranks sweeping through, he wouldn't have many pirates left if he waited any longer.

The great leader Zhuo Qing chanted an incantation and summoned his main soul pet first.

The main soul pet he summoned was a Calamity Spider Emperor. Its eight legs were scarily sunken into the rocky ground. Any casual swipe could probably split open countless people!

From its aura, one could tell that it was definitely top tier dominator rank!

The Calamity Spider Emperor stepped forth and walked right through the battlefield. No technique could leave even a scratch on its body.

The calamity spider emperor climbed all the way to the sandy beach with Zhuo Qing on its back.

“Who’s your leader, do you dare to come and fight me?” Great leader Zhuo Qing roared. His high remembrance spirit dominator power instantly covered the entire battlefield with his voice!

The pirates’ morales were at an all time low. Zhuo Qing had to bring it back up, or his subordinates will all be cleaned up!

Under this aura, he could clearly feel that all pirates were reinvigorated as if given some status technique!

It was simple why this was the case. All of the pirates still continued to fight because they believed in their great leader’s strength. They knew that as long as the great leader Zhuo Qing fought, the situation would flip around!

Morale was incredibly important in group battles. The pirates were already slightly scared from all the deaths. If the great leader Zhuo Qing was beaten here, they would disperse into scared masses and the battle would quickly end with clean up!

Chu Mu glanced over the battlefield. Up until now, the losses weren't huge. However, Chu Mu wasn't sure if something could happen to change this. In the end, there still were a lot of pirates. Though they could use the high class dominator rank advantage to kill a lot initially, they inevitably will have losses.

New Moon Navy had just been created. If they lost even a third of their people, it would be a great loss. Chu Mu felt he had to control the losses at a minimum and defeat them all in one go!

The best way to do this was to kill their great leader Zhuo Qing!

Since Zhuo Qing already called for a challenge, why wouldn't Chu Mu dare to fight? In fact, even if great leader Zhuo Qing didn't come, Chu Mu was about to go, find him, and kill him!

Chu Mu didn't retract the little hidden dragon and devil tree battle soldier and told them to continue fighting. Instead, he summoned Night and went towards the great leader Zhuo Qing.

The battlefield was incredibly chaotic. Almost every second, techniques flew through the air. However, to Night, it was all just air!

Easily traversing the battlefield, Chu Mu told Night to hide its aura when he slowly approached Zhuo Qing on the sandy beach.

"You're the New Moon leader? Dare you give a name?" Zhuo Qing stared sharply at Chu Mu, who came up.

Zhuo Qing picked this sandy beach because it was on the side of the battlefield and actually was closer to the pirates' headquarters. What Zhuo Qing was slightly shocked by was the enemy general dared to come up himself. This courage caused Zhuo Qing to be slightly uneasy.

"Chu Mu." Chu Mu said calmly.

"Chu Mu?" Zhuo Qing furrowed his brows, feeling like he heard it from somewhere before.

"Great leader, its the new moon ground king that Old Zhong mentioned before." Chang Fei behind him quickly reminded.

Zhuo Qing realized then. So the leader figures of New Moon Ground were all on this boat, no wonder they were this powerful!

"New Moon Ground King Chu, what an honor." Great leader Zhuo Qing smiled strangely.

Chu Mu looked at the suddenly changed Zhuo Qing, and no longer knew what kind of trick he was trying to play.

Just as Chu Mu was confused, suddenly the great leader Zhuo Qing used his mental remembrance to speak. After listening to it, Chu Mu couldn't help but find it funny.

"King Chu, I won't beat around the bush. Your navy is very strong, comparable to even Wupan Navy. However, we Dark Ocean Pirates are many in number. If we continue to fight, even if you win, you will lose most of your people. Such a lose lose situation isn't something either of us want." Great leader Zhuo Qing said in a more mild tone.

“Lose lose, you overestimate yourselves.” Chu Mu wasn’t in a hurry, so he wanted to see what Zhuo Qing could offer.

“Alright, even if you can win, so what? The dark ocean pirates cover the entirety of the Guan Ocean and reach the hundred thousands in total. We have four hundred thousand soul pets. This time you found our headquarters and can clean us up. Give me a few years, though, and I can recreate the same group of people. Then, the dark ocean pirates will be a frequent visitor of New Moon Ground.” Great leader Zhuo Qing said.

“Oh? Then what do you want instead?” Chu Mu said with his mental voice.

“You come here either for bounties or treasures. I can give you 30,000 xuan for you to leave now. I can also guarantee you that we will never come to New Moon Ground. We can even stop other pirates from going.” Zhuo Qing said.

Zhuo Qing’s words caused Chu Mu to be surprised. Speaking truthfully, Chu Mu didn’t imagine the vicious pirate leader could actually give such a suggestion of peace even after he killed so many opponents.

Maybe this was the way of survival for pirates. They backed off from the strong and bullied the weak.

“Your head has 30,000 xuan. The ten leaders together have another 20,000 xuan. With the rest added together, there’s much more than 6,000. Adding on the storage in their nest, it should amount to 10,000 xuan. Which do you think I would pick?” Chu Mu teased.

Zhuo Qing’s face was black already, but it was distorted at this point!

Clearly, Chu Mu didn't care about him, even saying he wanted Zhuo Qing's head!

"Heng, clueless fool. I just didn't want my subordinates to die. In front of Zhuo Qing, you, the New Moon Ground King, is trash!" Zhuo Qing instantly switched expressions as killing intent poured out of him!

Chapter 1289: Ruthless Corpse General

He wanted to tell Chu Mu to leave with just 30,000 xuan?

If not for the pirate prices this high, why would Chu Mu, a top tier dominator rank soul pet trainer, come and waste time with these petty thieves?

Chu Mu wanted both the bounties on their heads and the resources in their base. Though New Moon Ground was rich, if they wanted to develop it, they needed to pour in an endless amount of money. If they didn't rake in more money, how would new moon ground become a powerful nation?

30,000 xuan bounty was definitely the price of a top tier dominator rank. Chu Mu looked at the Calamity Spider Emperor that suddenly released its aura, and his gaze became cold and concentrated!

Once upon a time in Immortal City, Chu Mu had met a Calamity spider Emperor. At the time, unable to become half devil, Chu Mu's heart was palpitating vigorously at every encounter. Maybe it was because of that that Chu Mu had a special hatred towards the species!

The great pirate leader Zhuo Qing gave an angry command, and the massive Calamity Spider Emperor immediately swung its scythe-like legs, creating a hundred blades of shock waves!

“Shua!!! Shua!!! Shua!!!!!!”

Waves ripped through the ground, powerful enough to reach the oceans and split it apart as well!

Night's eyes were just as concentrated as Chu Mu. The effect of Sharp Eyes caused Night to clearly see all the paths of the shockwaves.

Night was extremely confident in its ability to dodge attacks. Even if these attacks were twice as dense, it dared to run around right under the calamity spider emperor!

The long figures it dragged out caused people to get confused. Zhuo Qing was slightly stunned. He had not seen any organism that dared to run around right under his calamity spider emperor's legs!

What caused Zhuo Qing to be surprised was, it was completely unharmed too!

Chang Fei standing behind Zhuo Qing was also surprised. Many times, Chang Fei saw all of Zhuo Qing's opponents die the moment he attacked!

“Shattering Dream!”

Chu Mu said a technique.

Dodging an enemy technique right in their face had a great benefit, which was an immediate counter attack!

Night's figure suddenly disappeared in place. A black light flew right through the Calamity Spider Emperor at incredible speeds!

In a moment, Night appeared behind Calamity Spider Emperor, creating a piercing line of power that flew right through the Calamity Spider Emperor's eyes!

“Zhizhi!!!!!!”

Calamity Spider Emperor immediately let out a screech!

The Calamity Spider Emperor didn't need its eyes to sense its surroundings, but such a piercing blow was definitely an extremely deep wound. From what Chu Mu remembered, its eyes could cast techniques!

The Calamity Spider Emperor jumped around angrily, its body slamming the ground. A muddy wave lifted up on the beach.

Chu Mu had no reason to clash with this Calamity Spider Emperor and decisively pulled away from the calamity spider emperor!

The puss from the spider's eyes came out and fell stickily on the ground. It took awhile for the Calamity Spider Emperor to calm down. Its legs' hairs detected where Night was and locked on angrily!

The Calamity Spider Emperor opened its fanged mouth and spat out white spider silk!

Its spider silk was incredibly powerful. A slight touch could slow down one's movements. If completely covered, any beast type organism would be helpless.

The spider silk's range was large, giving no chance for Night to dodge.

The sticky silk came over. Chu Mu's palms were already burning with flames. He knew that Night would have a hard time dodging it.

However, Night's actions were faster than Chu Mu. Its figure suddenly created a special demon shadow that was completely dark, creating a shroud around Night!

“Hui!!!!”

Night let out a call and the shadow created a massive dark storm that spun with Night at the center, immediately sweeping all the silk away.

Seeing Night this powerful, Chu Mu quickly retracted the devil flame in his hands. Clearly, he worried too much. In the time spent in demon burial mound, Night had gained many powerful techniques. For example, the demon shadow seemed similar to an ancient beast soul!

Night was incredibly adept at controlling the energy already, able to switch between offense and defense easily!

Indeed, the dark demon shadow again appeared by Night just like a powerful ghost that followed it around.

This time, Night cast the demon shadow for offense purposes!

Still, the most powerful shattering dream attack with demon shadow, Night was casting the signature ability that made it the king of second demon burial mound!

Its body again disappeared, its dark shadow almost teleporting as it passed through the Calamity Spider Emperor!

“Pu~~~~~”

Putrid blood spewed out of the Calamity Spider Emperor from the massive hole on its body!

Standing on his Calamity Spider Emperor, Zhuo Qing was dazed. As a high remembrance spirit dominator, he couldn't even see the soul pet's actions, let alone how his soul pet was instantly wounded this hard!

The Calamity Spider Emperor again started twisting its body around, but its blood continued to spray out like a storm, covering the beach!

“This dream beast..... This dream beast!” Zhuo Qing's pupils dilated. His top tier dominator rank Calamity Spider Emperor was like a kid in front of it, not on the same level!

Everyone from new moon and the pirates were watching this battle. Everyone thought it was going to be a very contentious battle. After all, both sides were sending their strongest people to compete.

However, let alone the pirates who viewed Zhuo Qing as their belief, even New Moon navy didn't believe that their king could heavily injure the enemy leader so quickly!

In reality, even Chu Mu was surprised. He didn't realize Zhuo Qing was this easily beaten.

Of course, this also showed that Night indeed was an incredibly scary presence. Even similar rank opponents were like children in its eyes.

With a higher acknowledgment of Night's power, Chu Mu felt like it was necessary for Night to use a group dream realm later. There were too many pirates, so continuing the fight would be bad for their navy.

After getting hit once, Zhuo Qing was like a frightened bird. Calamity Spider Emperor pushed off Night and quickly darted into the ground, not daring to show its head.

One more attack and it was probably dead!

Seeing the Calamity Spider Emperor run away, New Moon Navy's morale instantly rose!

The great leader losing in a few rounds clearly exemplified how powerful their king was!!

The pirates, on the other hand, couldn't come back to their senses.

If their great leader Zhuo Qing was easily beaten, why would they continue fighting and waste their lives?

Once they lost their battle intent, the pirates' cowardice, selfishness, and weakness showed completely, and the battle started becoming one sided once more!

At the same time, Yuan Sui's five hundred demons appeared at the back of the island!

These demons were untraceable yet appear at the perfect times. Just as the fighting intents collapsed, they appeared and started harvesting the pirates like a scythe through wheat!

The difference between navies and pirates were there. No matter how much order pirates had, they were in the end a group of selfish people. Once their leader was defeated, they were meaningless.

The five hundred demons of Yuan Sui killed their way through the ranks and quickly reconvened with the other navy.

After reconvening, Yuan Sui specially used his mental voice to remind Chu Mu.

"King Chu, there's an undead army at the sand beach, be careful!"

Chu Mu glanced over at the sandy beach. No wonder he felt uncomfortable when he stepped on it. There were a group of undead creatures.

How would Zhuo Qing, the old navy general, be taht easy to defeat?

With the Calamity Spider Emperor's species technique, Zhuo Qing appeared on the sandy beach again.

Eyeing the clearly defeated pirates, his face became grave!

"A group of lifeless scum!" Zhuo Qing humphed.

He didn't take over the pirates for long. Though he instilled some discipline in them, it couldn't compare to actual troops.

Might as well let those scum die. After all, he said the pirates were plentiful in numbers. For massive gains, reconstructing the pirates won't take long.

He could let the people under him die. Zhuo Qing wouldn't have any compassion for them.

However, the shame brought by the man in front of him was something Zhuo Qing couldn't stand. No matter what, he had to kill him first!

Zhuo Qing's face was veiny with anger. The Calamity Spider Emperor's wounds were already slowly healing.

The bug type organism's life force was very powerful. If it didn't die in one go, it could easily recover back to full strength.

Of course, Zhuo Qing knew it was hard to rely on the calamity spider emperor. Compared to the dream beast, it wasn't even on the same level!

Zhuo Qing chanted an incantation. It's been a while since he summoned this soul pet to fight!

Death came from around Zhuo Qing, bringing a wailing wind that ravaged the sandy beach!

This region was instantly changed into a fiendish land. Zhuo Qing stood on Calamity Spider Emperor's body and started laughing like an evil ghost king!

"Chu Mu, that's Zhuo Qing's Ruthless Corpse General!" From afar, Hai Qie felt the aura and immediately reminded Chu Mu.

"Our navy doesn't allow such an organism that grows with killing. Zhuo Qing was always hiding this corpse type soul pet. When his identity as a pirate was revealed, it was this Ruthless Corpse General that killed three of the enforcers!"

Hai Qie specially reminded Chu Mu to let him know this Ruthless Corpse General was much stronger than the Calamity Spider Emperor!

Chapter 1290: Unparalleled Departed Spirit Leader!

The Ruthless Corpse General had a tall and sturdy body. Its ashen black skin had a few ulcers which seeped with poisonous pus.

The corpse aura grew increasingly dense, already turning the atmosphere of the sandy beach into a ball of miasmic aura. Amidst the miasmic aura, it was possible to see things digging through the sand. They happened to be rotten claws stretching out of the earth!

There were many corpses on the sand.

Under the miasmic aura, these corpses began to wriggle and let out unpleasant sounds of joints creaking.

A corpse wind blew through and corpses began to climb up on the beach. They shakingly swayed their heads and blankly surveyed their surroundings.

Their vacuous eyes looked a bit disgusting and the moment they smelled a creature, their eyes would instantly emit a green light!

In an instant, four or five thousand corpses had crawled up on the beach.

These corpses were emitting nauseating stench and had rapacious and starved eyes that made people feel uncomfortable.

“Do you know why I lured you here?” Big Leader Zhuo Qing malevolently laughed.

This sandy beach was the execution ground of the pirates. There were numerous corpses strewn here and most of them had been killed by the Ruthless Corpse General.

The creatures killed by the Ruthless Corpse General would slowly turn into zombies which would all be of the pseudo dominator rank. With four or five thousand of them, if each corpse took a bite, they would be able to bite Chu Mu's Dream Beast into bones!

"Don't let it run!" Big Leader Zhuo Qing gave an order.

The Ruthless Corpse General's body was the largest. It let out a prideful cry. Instantly, the four or five thousand corpses surrounded Chu Mu and released rotten zombie breath all over them.

With so many corpses and packed so tightly together, the onlookers felt their scalps tingle.

Pang Yue hated corpse type creatures the most and when she saw these disgusting things, her face went pale.

"Chu Mu... Chu Mu has been surrounded. We need to help him." hastily said Pang Yue.

Pang Yue herself refused to go given the number of corpses there. Even New Moon Navy's members would have a hard time reaching that place.

But nobody responded to Pang Yue's cry. She hastily used a mental voice to speak to Prince Chao: "Chu Mu is in trouble. Hurry and bring some people to help him!"

Chao Lengchuan looked at Chu Mu in the distance who was surrounded by a large group of corpses. He nodded his head and was planning on going to help Chu Mu when the adjacent Sang Ying yelled at him to stop.

“Chao Lengchuan where are you going? There is still a group of dominator rank pirates here that aren’t easy to deal with.” said Sang Ying.

“I’m going to help Chu Mu.” said Chao Lengchuan.

“Have you gone stupid?” disdainfully said Sang Ying.

Chao Lengchuan was stunned by this remark, but he abruptly realized why he had said this.

The Night Thunder Dream Beast had been the leader of a large corpse army of several tens of thousands. The departed spirits Big Leader Zhuo Qing had summoned weren’t even a tenth of that large corpse army.

Indeed, when they were on Yellow Springs Path, Yellow Springs only needed to stand in front of the large corpse army and managed to fear them into retreat. Chao Lengchuan still vividly remembered that scene.

“I really may have gone stupid.” Chao Lengchuan mocked himself. Thus, he turned around and ignored what was happening to Chu Mu. He continued to chase after the other pirates.

Pang Yue saw that Chao Lengchuan had suddenly ran off and Sang Ying wasn’t going to help Chu Mu. This made her extremely anxious.

Chu Mu was alone and without help now. Eventually he would be swallowed up by the group of zombies. There was even the peak dominator rank Ruthless Corpse General among this group of zombies.

Pang Yue felt the situation wasn't good, so she gritted her teeth and urged her soul pet to charge towards the sandy beach.

The terror of the zombies far surpassed her imagination, especially when she saw the puss seep out of their ulcers...

Pang Yue was a support soul pet trainer and specialized in healing horrific wounds. However, for some reason, she had an uncontrollable fear towards moving corpses.

The ulcerated faces were right in front of her and Pang Yue charged on her low class dominator rank Single Horned War Deer into the disgusting corpse army.

Suddenly, the corpses turned into a pile of mush and washed away in front of Pang Yue like a river.

When Pang Yue saw this, she felt like her stomach was violently churning. This was definitely the most disgusting thing she had seen before.

A huge number of corpses fell into the river of pus and as the number increased, Pang Yue's face lost its color from fright, and she added a cleansing technique to herself to expel the thick, nauseating smell.

Pang Yue wandered through the corpses and swore to herself that if she didn't see Chu Mu, she would immediately leave. Those corpses that had turned into mush and pus were too disgusting. They were so disgusting she was getting goosebumps all over her body!

Finally, Pang Yue found Chu Mu standing at the center of a clean area not doing anything.

There wasn't a single zombie within a hundred meters of Chu Mu. For some reason, each time a corpse tried to step within this distance of Chu Mu, it would instantly become mincemeat.

Pang Yue closed her eyes and charged up to Chu Mu!

She had intended to come here and help the alone and helpless Chu Mu. Yet when she finally stopped next to Chu Mu, she discovered she was having issues standing without trembling.

When Chu Mu saw Pang Yue charge over, he forced a smile.

Was this woman being brave or doing something ridiculous? What was the point in charging here if she couldn't even stand straight!

"Are... are you ok?" Pang Yue subconsciously asked.

"I should be asking you this. What did you charge here for?" said Chu Mu.

"Obviously to help you!" Pang Yue glared at him. She had mustered up a lot of courage to charge here and this man was treating her like she was unnecessary.

"Eh, didn't Chao Lengchuan tell you that my soul pet isn't afraid of departed spirits?" said Chu Mu.

Pang Yue shook her head, as she surveyed the mass of corpses around them.

Although the scene was still bloody and disgusting, Pang Yue suddenly discovered that all of the zombie underlings of the Ruthless Corpse General had for some reason all festered and collapsed. Their rate of death was extremely fast!

As she looked, she was faintly able to see a white tail rapidly sweep across the zombie army. Everywhere it went, not a single zombie was able to stop it before the zombie was rendered into a pile of mincemeat!

As for the enormous Ruthless Corpse General, it was unable to catch its rapid moving figure. Every time this enormous corpse used a technique, it would end up smashing its own zombie underlings.

“Is... is that your Night Thunder Dream Beast?” Pang Yue covered her mouth in shock.

Chu Mu nodded his head. Pang Yue was indeed unnecessary here. Even if there were forty or fifty thousand corpses here, let alone four or five thousand, Night would still dare fight them!

Demons were ultimately limited in group killing techniques and destroying one zombie at a time would take a long time.

After eliminating over a thousand departed spirits, Night suddenly appeared in front of Chu Mu. Its black eyes suddenly flickered with an evil glint.

The blood marks from its snout to its neck suddenly flashed with an ominous glint. These corpse markings on Night's body were the indicator of it transforming into a departed spirit. After it was resurrected, it was still able to control the power that could intimidate departed spirit creatures.

Its black eyes twinkled and the blood devil marks lit up. This power filled Night's dream horn and began to proliferate from the horn like dream ripples!

The sandy beach which was initially covered by the miasmic aura now looked like a dream realm filled with dense fog.

When the waves from Night's dream horn finished rippling, the surrounding area suddenly became deathly quiet!

There wasn't a single sound. The entire world had gone quiet. Even the greedy and disgusting zombies weren't letting out unpleasant noises anymore.

"What... what happened?" Pang Yue broke out into a cold sweat. She didn't understand why everything had become silent.

Chu Mu was standing beside her. Aside from him, all of the living creatures and departed spirits had fallen into the Dream Trap Night had set up. The Dream Trap would always be established upon a realistic background, preventing creatures from differentiating genuine reality from false reality.

"It's Night's dream." explained Chu Mu.

Night's dream. Nobody knew how large the range of this dream was. In other words, nobody knew if they had fallen into the dream.

Although this state didn't last very long, Pang Yue felt like a long time had passed.

Finally, the strange dream fog dissipated and the noise of the surroundings entered her ears again.

Her sight became clear again and the group of terrifying zombies was still surrounding them.

“Attack!!! All of you attack those soul pet trainers!! Kill them for me!!!” Zhuo Qing's angry roar reverberated through the area.

Pang Yue looked up and instantly saw Zhuo Qing standing on the shoulder of the Ruthless Corpse General.

Zhuo Qing was currently in a fit of rage and ordering the zombies to attack Chu Mu because for some reason, the three thousand remaining corpses had stopped moving for a few seconds just now!

“Ewu!!!!!!”

The Ruthless Corpse General let out another unpleasant howl, ordering the zombies around it.

However, the 3000 zombies with blank eyes just stood in place with no intentions of moving.

“Attack, you damned corpses!!” Big Leader Zhuo Qing was still howling.

The Ruthless Corpse General was also roaring, but it seemed to have lost control over all its departed spirits as they weren't listening to its orders.

“Hui!!!!”

Just then, Night suddenly pridefully raised its heads and let out a cry at the departed spirits.

This cry was like a ruler's order. In an instant, the 3000 zombies let out a terrifying howl. Their green eyes were all locked onto Zhuo Qing's Ruthless Corpse General.

In the next instant, all of the zombies surrounded the Ruthless Corpse General like a tide and began to berserkly bite at its body!

“Chu Mu... your... your Dream Beast can control departed spirits?” Pang Yue looked full of shock at Night, which was commanding the departed spirits.

The Ruthless Corpse General's position among departed spirits was at most like a general of four or five thousand departed spirits, while Night had climbed up to the position of leader of several tens of thousands of corpses when it was on Demonic Burial Mound. In terms of position among departed spirits, Night was countless times higher than the Ruthless Corpse General!

And this honor had taken the form of the blood mark imprinted on its face and neck!
