

## **Soul Pets Bk2 1401**

### Chapter 1401: Immortal, Ghost King (2)

The blood that was sprayed out from the Bloodsucking Devil Bug contained an extremely corrosive property to it. If Qin or Ning were to touch even a droplet, then they would be immediately eroded into a puddle of pus.

Hence, Qin and Ning kept their distance from it. The Bloodsucking Devil Bug's techniques were focused on Dead Dream, so the both of them were relatively safe.

Dead Dream's evasive ability was superb. However, it was utterly meaningless before the blood rain. It could only helplessly unleash the Dead Lightning Shield to prevent the penetration from those corrosive blood droplets.

The corrosive blood was splashed onto the ground, but it did not disappear. The blood gathered by itself and it started creepily tracing the outline of long wriggling worms.

Blood wriggling worms slowly started appearing on the uneven ground, their numbers kept increasing.

The flooding blood wriggling worms were crawling towards Dead Dream. Those blood wriggling worms possessed a biting ability that ignored defense. Once a creature was swarmed by a group of such worms, there would be nothing of them left behind.

The blood wriggling worms were created from the blood rain. After Dead Dream was surrounded by those blood wriggling worms on all sides, it cried out and dispersed its black body as if a crowd of black Death Butterflies that had gathered before had suddenly scattered themselves!

Each Death Butterfly emitted a layer of lightning. Those blood wriggling worms would directly melt into a puddle of blood after coming into contact with said lightning.

There were around tens of thousands of blood wriggling worms, but there were also a lot of black Death Butterflies too!

In an instant, the entire pot valley was filled up with those menacing blood wriggling worms and the Death Butterflies. It looked like a war between races!

Qin and Ning could not inflict damage upon the Bloodsucking Devil Bug with their techniques, but it was easy for them to kill those worms. Each technique they unleashed could easily wipe out hundreds of those worms.

Gradually, the black Death Butterflies were gaining an advantage and the blood wriggling worms were slowly reducing.

The Bloodsucking Devil Bug raised an angry screech. It dragged its fat, disgusting body and slammed hard towards those Death Butterflies after rolling up into a meatball.

Tentacles swept around in all directions and the surrounding Death Butterflies were instantly shattered under the attack.

The remaining Death Butterflies flew towards one direction and rapidly started gathering back and merged into Dead Dream's body behind the Bloodsucking Devil Bug.

Each Death Butterfly was surrounded by lightning sparks. Dead Dream was wrapped in intense lightning after returning back to its original form!

“Yi!”

Dead Dream chirped loudly and the Dead Lightning around it shot out towards the Bloodsucking Devil Bug!

The Bloodsucking Devil Bug’s body was blasted open by this big attack, its blood and flesh were scattered all around.

The Bloodsucking Devil Bug turned around furiously. Several hundred tentacles on it extended out and rapidly entangled Dead Dream!

Its mouth that occupied around two third of its body was opened up. Its gullet was just like a huge cave, a foul gas surged out from within it.

The tentacles started pulling Dead Dream towards its mouth. Once it swallowed it down, the stomach juice's of this monster would definitely digest any creature in a short time.

Amongst insect type creatures, the fluid that was secreted by most of them could ignore defense. Let alone Dominators like Dead Dream, even pseudo Immortal rank creatures would not be able to survive after getting swallowed by them.

Hundreds of tentacles were entwined, the pulling force from the Bloodsucking Devil Bug was immense. Dead Dream was getting dragged closer and closer to that cave-like mouth.....

“Pssssh~!”

Countless Dead Butterflies were suddenly scattered and flew in all directions. The Bloodsucking Devil Bug’s tentacles could bind Dead Dream, but they could not bind those agile Dead Butterflies.

The Bloodsucking Devil Bug simply swallowed empty air. However, it seemed as if it was waiting for Dead Dream to scatter its body into the Dead Butterflies. Suddenly, those tentacles separated from its body and they rapidly entwined themselves in midair, weaving into a large poisonous tentacle net!

The tentacle net started pressing down and a large group of black Dead Butterflies were trapped within, unable to escape.

“Gugugu~!”

Taking a deep breath, the Bloodsucking Devil Bug was forcefully stuffing the tentacle net into its stomach. Those trapped Dead Butterflies had naturally become food for it.

The escaped Dead Butterflies regathered in the distance and had transformed back into Dead Dream’s original body. However, it was clear that Dead Dream had weakened as its Dead Lightning had turned dimmer.

Seeing the injured Dead Dream, the Bloodsucking Devil Bug made a sound that sounded similar to mockery. Its fat body descended from the sky and it continued attacking Dead Dream.

At that moment, Qin and Ning’s Blizzard Storm swept over and the Bloodsucking Devil Bug was tumbled over.

When it got up, it turned its huge mouth towards Qin and Ning furiously, as if it was going to eat them up sooner or later.

Dead Dream was able to take a breather for a short moment. It raised its head and chirped towards the dark clouds in the sky.

The dark clouds pressed down and blinding purplish black lightning started swimming around within the clouds.

Thunder bolts struck the Bloodsucking Devil Bug. Bright lightning flashed and scattered everywhere!

The Bloodsucking Devil Bug stopped on the spot and it simply let the Dead Lightning strike its body continuously.

Its skin continued changing shape, sometimes it was absorbing the energy from the lightning, and sometimes it was deflecting the lightning to its surroundings.

Dead Dream's attack was able to deal damage to the Bloodsucking Devil Bug to a certain extent at first, but after it had gotten one third of its Dead Butterflies devoured by it, its power had clearly weakened.

Bam!

Suddenly, a tentacle appeared and whipped Dead Dream directly.

Dead Dream was flung back heavily along the ground and only stopped after it slid all the way to the edge of the cultivation formation.

The Bloodsucking Devil Bug was a near Immortal rank creature after all. Its attack would deal significant damage to a Dominator rank.

Qin and Ning were anxious after they saw that Dead Dream was injured. They really wished to become Immortal rank and shred that meatball into pieces.

They did not stop unleashing a barrage of ice and gale, but the Bloodsucking Devil Bug simply continued approaching Dead Dream.

It opened its mouth again to swallow Dead Dream.

Dead Dream flapped its wings in an attempt to fly up, but its speed had significantly slowed down. Soon, its body was entangled by tentacles again.

“Guruguruguru~!” The Bloodsucking Devil Bug’s body wriggled in excitement.

It forcefully pulled Dead Dream down from the sky. Dead Dream did not dare to scatter into Dead Butterflies again, since a tentacle net would be waiting for it if it did try to scatter. That was no different from getting eaten by it.

The cultivation formation was less than one kilometer away from where Dead Dream was currently at.

Right now, Chu Mu was sitting in the cultivation formation and his soul remembrance was still inside Ghost King's mental world.

Dead Dream did not send any mental plead to Chu Mu, it had its pride to maintain. However, that did not mean that Chu Mu could not sense that its life was in danger.

Chu Mu did not open his eyes as he was in the final stretch. If he stopped right now, his soul would suffer from an intense recoil. This recoil would make him unable to recall Dead Dream in a short while.

Hence, he had to complete it no matter what.

“Pssssssh~!”

Once again, purplish black Dead Butterflies started scattering again. Dead Dream escaped from the entanglement of the tentacles.

Similarly, the Bloodsucking Devil Bug's tentacles were weaved into a net again and they shrouded a large area.

There were even less Dead Butterflies which could escape from the net this time. When Dead Dream gathered again, its body had considerably weakened.

In truth, Dead Dream was a creature that had the least probability of dying amongst Chu Mu's soul pets. It could transform into a million Dead Butterflies. As long as even one of them survived, it could become Dead Dream's main body.

No matter how strong the enemy was, or how horrible the technique was, it could not kill all the Dead Butterflies that were scattered in all directions.

However, the battle this time was different. Dead Dream had to buy enough time for Chu Mu. It didn't have the choice to escape, and had to properly attract the attention of the Bloodsucking Devil Bug instead.

Countless Dead Butterflies became food for the Bloodsucking Devil Bug once again. Dead Dream's current life force had probably decreased to less than one quarter of the original. If it scattered one more time, then it would reach the limit of its life.

The situation did not change at all. The Bloodsucking Devil Bug simply repeated the same process and had devoured a large number of Dead Butterflies. Dead Dream could not even transform back into its Phoenix form anymore. It remained as a purplish black Dead Butterfly and it wobbly flew towards Chu Mu.

The Bloodsucking Devil Bug did not intend on letting Dead Dream go and furiously chased after it with its wiggling body.

Dead Dream landed on Chu Mu's shoulder, and Chu Mu also opened his eyes right at that moment.

Chu Mu took a glance at the weakened Dead Dream which could only remain as a butterfly now and was emotional.

Even though Dead Dream would not die if there was still only one Dead Butterfly left alive, recovering back to its Phoenix form could take years.

Dead Dream had done its best. It fought against a near Immortal rank creature with a Dominator's strength and it had bought so much time.....

"Leave the rest to Ghost King," said Chu Mu as he lightly stroked Dead Dream's butterfly body.

Dead Dream nodded. Its black eyes were focused on the dark brown diagram underneath Chu Mu's feet!

From within the dark brown diagram, a tall figure covered in dark brown rock armor that looked as if steel it self had manifested emerged. The body inside that armor gave off an astonishing sense of power, exuding the special trait of the giant race to the maximum!

Wielding a curved sword, the monarch sword was the crystallization of Ghost King's power. This sword gave off a chilling and sharp aura!

"Monarch Ghost Transformation, attack!" ordered Chu Mu.

Ghost King's body expanded. If the Bloodsucking Devil Bug was a fat meatball, then Ghost King would be like an erected mountain. The monarch sword had also started stretching, extending almost longer than the three mountains around the pot valley!

One could imagine how shocking the scene would be if there was suddenly a curved sword that was almost as long as the three mountains wielded by a giant!

Grabbing hold of the sword with both hands, Ghost King raised the curved sword above its head. At that moment, the blood within the entire pot valley suddenly began boiling with rage!

The Bloodsucking Devil Bug raised its strength by digesting the energy from the blood. Meanwhile, ghost type creatures truly controlled the power of blood.

All the blood within the abyss suddenly shot up and turned into blood pillars, rapidly gathering onto Ghost King's monarch sword.

As the Ghost sword drank the blood, a dense killing intent swept the surroundings.

How terrifying would it be when that sword was swung down?

Chapter 1402: Guarded Twenty-five Days

Ghosts howled and spirits cried. The sky had already turned dark, when Ghost King unleashed its ghostly aura, the surroundings fell into complete darkness. Only the figure of a sharp sword stood tall like the mountains and bloody glints flashed!

Monarch sword was swung down cleanly towards the Bloodsucking Devil Bug!

The sword slash was extremely fast. One could only see a bloody sword flash as it split the sky and earth into two.

The Bloodsucking Devil Bug was poor at evasion. It could not dodge the attack no matter how it tried to wriggle its body out of the way after getting locked on by Ghost King.

The sword strike split the Bloodsucking Devil Bug's body right at the center and completely cut it into two!

The Bloodsucking Devil Bug's body was just like a blood bag. When it was split into two, the blood inside exploded into the sky!

Instant kill!

Ghost King's racial technique Monarch Ghost Transformation could double its overall power. In addition to the ghost type's energy absorption, the stacked up power on top of it could only have a terrifying effect!

The Bloodsucking Devil Bug had originally intended to drink all the blood in the pot valley, but it ended up dying inside there instead. Its own blood was flowing into the abyss and it filled up the dented ground.

Qin and Ning flew back to Chu Mu's side and stood next to Ghost King.

Ghost King still looked rather majestic after it lowered its sword, Qin and Ning were really envious of it.

On the other hand, Ghost King was rather humble. It scratched its head as it did not imagine that its attack would be so powerful and it would be able to kill the Bloodsucking Devil Bug in a single strike.

Seeing Ghost King becoming so powerful, Chu Mu also felt particularly relieved. Usually, Ghost King's rank was rather low amongst his soul pets and he could not summon it out in most of the fights. After it stepped into the Immortal rank, Ghost King had definitely become a part of his main force.

There were still about ten days left to guard. The soul pets left that Chu Mu could use were only Ghost King and Night. If another wave of assault like the second wave were to approach, then these two soul pets would be completely exhausted after that battle.

Chu Mu knew that he had to make preparations regarding that beforehand. After Ghost King had grown stronger, its control over the rock elements had become much more powerful. With a casual flick from its finger it could raise up a solid rock barrier at the pointed spot.

Barriers were getting erected in the area one after another and had completely turned the entire pot valley into a thick rock stronghold, making it look like a huge fort.

Standing at the summit of the mountain, Chu Mu felt a bit emotional after witnessing the entirety of this rock stronghold that stretched over five to six kilometers. Even if they were to encounter an army of a thousand Dominators, the army would probably be wiped out before they could break through to the middle layer of defense.

.....

The fact's testified themselves regarding the superb defensive prowess of Ghost King. In the next few days, the Imprint Valley creatures did not stop eyeing the cultivation formation at all.

However, before the absolute defense and thick stronghold walls, those creatures that were seeking the chance to break through had paid the price with their lives.

The dark brown ghost stone stronghold was completely dyed red, corpses were strewn all over the place.

On the thirteenth day, an army of a thousand Dominators had attacked. On the seventeenth day, five near Immortal rank creatures invaded the place. On the twenty third day, over two thousand Dominator rank creatures launched an assault. There were a few more skirmishes too in between the three significant waves of assaults. All of them had eventually turned into corpses.

The battle looked as if it had never stopped. After Ghost King and Night had completely exhausted themselves, Mo Xie and Devil Tree Battle Soldier returned to join the battle after they recovered their stamina to a certain extent.

Up to the twenty fifth day, until all of Chu Mu's soul pets were completely and utterly exhausted.

The rock stronghold was also on the verge of collapsing. Old Li was energetically running around the battlefield to collect the spoils of battle.

Chu Mu and his soul pets were too tired to move around and he could only watch Old Li as he reported the result of his findings.

Actually, if his soul pets could still fight on, then he did not really mind continuing the battle. The battles provided his soul pets with immense amounts of experience!

“Young master, it’s about time to wake them up. Although battles like these are fairly difficult to encounter again, the Immortal Aura that you missed will also not come back. It’s best for you to quickly cultivate and raise your own strength for now,” advised Old Li.

Chu Mu nodded. He used mental voice to call both Lin Mengling and Xia Yin.

Lin Mengling opened her eyes first and looked at Chu Mu with her clear eyes.

“Why does your complexion look so poor?” asked Lin Mengling.

Chu Mu laughed bitterly at her question. He had completely exhausted his soul power already. In the last battle, he even had to participate personally as a meat shield for his soul pets.

Chu Mu could not use his semi devil transformation. However, the defensive strength of his semi devil was still available. It was necessary for him to put up a defence against enemy attacks for his soul pets.

“Ah? What happened?!” When Lin Mengling looked around, her clear eyes were filled with utter astonishment.

The pot valley no longer looked like the original pot valley that they had seen at the start. Deep trenches, abyss' and cracks could be seen everywhere around them.

Some relatively intact pieces of earth had solid barriers erected in place. The barriers were dyed in blood and a few dry corpses also hung over them.

Blood color was painted over the entire area. Lin Mingling already possessed a rather strong tolerance towards such things, yet she still felt disgusted after seeing such a bloody battlefield.

This was not the pot valley, it instead looked like the ruins of a stronghold that had just experienced siege and slaughter.

“Brother Chu, just how many Imprint Valley creatures did you kill?” Xia Yin opened his eyes and he was also similarly shocked by the scene he saw.

When Xia Yin stood guard, he would periodically clean up the corpses from each wave of enemies.

Xia Yin had a corpse type soul pet, so cleaning up the corpses would also help to strengthen his soul pet. Hence, the pot valley remained relatively clean when Chu Mu had taken over.

However, after twenty five days had passed, this pot valley was no longer the same pot valley. Other than the cultivation formation patch which remained unchanged, they could only recognize a few spots that still looked intact.

“There were quite a number of enemies attacking. A Dominator army numbering around a thousand would often appear. You better prepare some defensive deployments beforehand when guarding,” Chu Mu reminded Lin Mengling before she took over unlike Xia Yin.

“An army of a thousand Dominators?” Lin Mengling was startled and turned to confirm with Xia Yin.

Xia Yin nodded, “This Imprint Valley has been sealed for a very long time, and it is currently in the Moon Tide stage. The creatures here have become overpopulated. Dominator rank creatures in this Imprint Valley are like slaves with the lowest standing. They will usually gather in large groups and march here intending to launch a suicidal attack.”

The normal world had a vast land. However, Dominator rank creatures could not be seen easily. One would usually have to venture into some high level Bewildering Worlds for that.

After Chu Mu had reached Dominator rank, he had to travel long distances to gain experience as he could not find suitable enemies.

However, it was a completely different story here in this Imprint Valley. Dominator rank creatures were at the bottom layer.

This was not due to the strength pyramid that was in this Imprint Valley being higher than the normal world, but rather due to the special environment present in this place. Most of the creatures here would normally live for several centuries, it would not be difficult to reach the Dominator rank in that case.

“Is that so? No wonder you two are swapping after lasting only for around just twenty days. I had thought that you two were slacking,” replied Lin Mengling.

“I did hold back a little. Brother Chu, you faced much more enemies than I did, so many corpses.....” Xia Yin took a glance around, his eyes were beaming.

“I have already absorbed plenty of Immortal Aura and will be able to advance after just a bit more. So, I will help you by guarding for a longer time,” affirmed Lin Mengling confidently with uplifted lips, revealing a trace of allure.

“Princess Lin is truly a generous lady with a large chest, I feel ashamed of myself,” said Xia Yin.

Lin Mengling glared at Xia Yin and pouted, “Where are you two looking at?”

Xia Yin was purposely teasing Lin Mengling, so his eyes also were naturally focused on her large chest. Chu Mu also followed on reflex, but was caught by Lin Mengling.

“I will go cultivate now.....” Chu Mu swiftly sat down on the cultivation formation.

He had already heard rumors before that this cherished pearl of the Divine Sect was actually a wicked devil. Anyone who had offended her would have to personally apologize on their knees, even if the other party was someone on Gate Master level.

Xia Yin immediately changed the topic, “Brother Chu, do you have any use for these corpses?”

“I have already taken away the valuable things on them,” said Chu Mu.

“What I need are the corpses,” said Xia Yin.

“I don’t need them.”

“My Gladiator Corpse requires these high rank corpses for refinement. After refining these corpses, my Gladiator Corpse may be able to advance in rank. Thank you for granting me this opportunity, Brother Chu,” Xia Yin did not show any reservation anymore.

Chu Mu was curious about Xia Yin’s Gladiator Corpse, so he intently watched how Xia Yin handled those corpses.

On the other hand, Lin Mengling had a strong dislike of such bloody scenes, and she hated the corpse type’s blood, corpse refinement. So she turned around and spoke, “You better hurry up, I don’t like the smell.”

“Give me one day,” Xia Yin was a little excited. He did not expect that the blood pool in those abyss would be piled up with corpses. His Gladiator Corpse might really be able to advance in rank after refining those corpses.

“No, if you don’t clean them up within half a day, I will purify them all,” refused Lin Mengling.

“Eh..... I will do my best!” Xia Yin could not help it. Lin Mengling’s Light’s Fury only had to unleash a few wide area Purification techniques, and those corpses and blood would instantly turn to gas and dissipate. That was no different from burning gold to Xia Yin.

Lin Mengling turned around as she did not want to watch the disgusting refinement process any further.

She secretly examined Chu Mu with an elated gaze and asked, “You’re able to kill so many Dominator rank creatures. Aren’t you rather strong?”

“So-so,” answered Chu Mu politely.

Lin Mengling’s beautiful eyes were staring at Chu Mu, as if trying to see through Chu Mu’s heart.....

Chu Mu could not understand the reason why she was staring at him and asked her, “Is there a problem?”

“I am more and more certain that you were the one who killed Han Erxing,” A beautiful smile bloomed on Lin Mengling’s face as she said this.

Chu Mu did not know what was hidden behind her smile, but he would never admit to committing this kind of deed. So he calmly replied, “I’m going to cultivate now.”

Chapter 1403: Whereabouts of the Limbo Flower

In the remote northeast was a barren Gobi. And beyond this was an endless desert.

Where the barren Gobi and desert bordered each other, towered a solitary and aloof Heaven Boundary Monument in a place that could only be described as desolate and uninhabited.

Nobody knew which number Heaven Boundary Monument this was. In fact, many humans didn’t even know of this Heaven Boundary Monument’s existence.

A youthful looking man with a head of white hair, dressed in a long robe but with aged eyes, stood underneath this Heaven Boundary Monument. His deep silver pupils were looking up at the monument...

The surrounding Gobi seemed to warp as a merciless sacrificial altar appeared in front of him.

The silver Nightmare had been summoned by the people of this world. And it was greedily walking towards a woman who was so beautiful it was difficult to describe.

Space seemed to warp again and the silver Nightmare turned and left. He left behind a soulless woman that laid, ice-cold, on the sacrificial altar. She never awoke again.

This scene remained in his mind. Even after transforming into a devil and being sealed in ice for 20 years, he never forgot...

Even while sleeping he would see it, and while pondering he would think about it. However, for some reason, this time it was so realistic. It was like the thing of the past had happened right in front of him. Despite knowing it was an illusion, his heart still surged with boundless anger!

Bai Yu's devilish character was stronger than Chu Mu's. The moment he descended into a state of slaughter, it was impossible to stop him.

Right now, the silver flames were burning as hatred and resentment flames around his heart. The sky was now mysteriously covered by a torrential devil aura that seemed like it was going to crush the Heaven Boundary Monument.

Suddenly, a wave of coldness spread from his palm.

All of Bai Yu's emotions were extinguished from this coldness. The memories and illusions in front of him also slowly dissipated. The scene in his eyes returned back to the Heaven Boundary Monument and the boundless Gobi desert.

“Did you just see things from the past?” a soft and beautiful voice spoke out.

Bai Yu nodded his head. He looked at Bai Jinrou’s face which was 70% similar to his wife’s and his heart calmed down. He showed a faintly gratified smile, and subconsciously wanted to stretch out his hand to stroke her cheek...

However, the hand stopped halfway and a wave of bitterness surged in his heart.

“This Heaven Boundary Monument allows me to see the past...” said Bai Yu.

“Oh? Isn’t this the same as Chu Mu? Could father also be a Monument Tear Individual?” said Princess Jinrou, astonished.

“I don’t know.” said Bai Yu.

Bai Yu didn’t have tears. While sealed in ice for twenty years, his tears had also been frozen over. His sorrow, hatred, and anger could only become an even deeper coldness within this layer of ice. Only warmth could thaw this layer of ice, and only then would there be tears.

“It’s written on top that the strongest species, because they violated Heaven’s will, were locked up by a layer of heavy species chains. These chains are carried on by their descendants and must exist for a thousand generations before they are able to completely atone for their sins.” softly said Princess Jinrou.

Bai Yu indistinctly felt as if he had heard this legend before. He thought awhile before saying: “It’s the Seven Sins Foxes.”

Princess Jinrou was stunned. The story of the strongest species written on the Heaven Boundary Monument was the same as the Seven Sins Foxes. Could the strongest species be referring to the Seven Sins Foxes?!

“The legend of the Seven Sins Foxes only exists in our New Moon Land. This could be the result of other Monument Tear Individuals obtaining this information and creating a legend that they spread in order to find more clues about them. Can you see what else is written on top?” said Bai Yu.

“Ok.” Princess Jinrou nodded her head and her graceful figure floated even higher up on the Heaven Boundary Monument.

Not much later, Princess Jinrou floated back. She seemed to have discovered something and somewhat excitedly said: “The chains placed upon the Seven Sins Fox are distributed in the seven locations the Seven Sins Foxes used to inhabit. The Thunder Monarch Land exists in our New Moon Land’s northern forbidden region. Chu Mu told me that there really exists a Thunder Monarch there, as well as an enormous formation.”

“So they match. What about the other chains?” asked Bai Yu.

“One is in the Demonic Burial Mound. It’s the old habitat of the Seven Sins Fox Rock Emperor. That place should have a similar formation.”

“There’s also one in Zhengming Main City!” Princess Jinrou spoke extremely excitedly as if she had discovered a heaven-startling secret, “That place is the habitat of the Seven Sins Fox Light King!”

Seven Sins Fox Light King!

This was a creature that, despite bearing heavy criminal shackles, still had strength at the pseudo immortal and low class immortal realm!!

Without these shackles, the Seven Sins Fox Light King's species rank would probably be at the peak immortal rank!

The species ranks of the Five Great Undying Legends was only around the pseudo immortal or low immortal rank. However, the Seven Sins Fox Light Kings used to be peak immortal ranks. There probably was no bloodline in this world higher than the Seven Sins Fox Light Kings of the past!

"Where is it in Zhengming Main City?" Bai Yu began to ponder.

At the same time, Princess Jinrou opened up a long map scroll and began to find the habitat of the Seven Sins Fox Light King in Zhengming Main City.

"It's here, behind Divine Mountain." Princess Jinrou accurately found the location.

"There? There shouldn't be a formation like this that exists in Divine Sect, right?" said Bai Yu.

"It's definitely an independent space. The lightning valley at the northern extremes of our New Moon Land is also an independent space. Chu Mu's Dead Dream was also able to complete a Nirvana Rebirth." said Princess Jinrou.

“You couldn’t go five sentences without mentioning him...” Bai Yu sighed. Chu Mu and Ye Qingzi were already husband and wife. Yet, his daughter was still trying to throw herself in the mix.

Being exposed by her father like that, Princess Jinrou was blushing with embarrassment and didn’t know what to do or say.

“This place used to be a green forest. Within fifty years, it’s become a barren desert...” Bai Yu changed the topic.

His focus wasn’t on the strongest species, but rather the Limbo Flower.

The Limbo Flower had appeared here in this generation before. But when it appeared, this place was still a verdant paradise for plants. However, when the Limbo Flower disappeared, this place degenerated to this state.

“Let’s ask the locals. If we go east, there is a sand city. There must be someone who knows the reason why.” said Princess Jinrou.

.....

The sand city was an earthy yellow color. It wasn’t flourishing, nor was it destitute.

The walls of this city were very high. There were probably many rock type soul pet trainers in this city.

The height of the city walls meant that this place often encountered calamities. There were relatively few normal civilians in this city. Most were soul pet trainers.

Many people would wonder why soul pet trainers would still come to this remote city in such a barren land.

However, the more barren a place was, the higher the species ranks rock type creatures would be. If one's luck was good, there was a chance of obtaining rock crystals and high rank rock type child pets. Many soul pet trainers would come here to dig for gold; there was no place in this world that had a complete lack of gold.

After entering the sand city, the man and spectral woman combination attracted the gazes of numerous people. These people all discussed amongst each other when they saw the spectral state of Jinrou.

In the past, Princess Jinrou wasn't willing to appear in front of people, but she had slowly gotten used to it. Although the strange gazes people gave her would make her very uncomfortable, Princess Jinrou had to prepare herself for the worst case where she forever remained in a spectral state. If that happened, she couldn't keep dodging people...

Many people were amazed, but nobody came up to them.

Bai Yu stood there, emanating a cold aura. Even stupid people could see that he was an expert and was someone they couldn't provoke!

For things that happened a while ago in history, they naturally had to find an older person who had more experiences.

Before coming here, Bai Yu had made some preparations and found an old man who others had referred.

The old man lived in a house made completely out of golden sand. The house was situated towards the western side of the city. During sunset, when there was a twilight glow, the entire house would shimmer in a golden yellow color.

“Old man, my name is Bai Yu. I’ve come here to inquire about a few things.” Bai Yu saw an old man sitting there when he walked into the courtyard. Thus, he walked up and spoke.

The old man’s face was pale white and there were many wrinkles.

He turned around and glanced at Bai Yu. He then placed his attention on Princess Jinrou.

“What happened to this girl?” the old man pointed at Princess Jinrou and asked.

Bai Yu didn’t hide anything. He knew this old man was a reclusive expert. He gave a rough summary for the old man.

“If that’s the case, I would advise you to give up on this idea. You aren’t the first person to come here asking me for the whereabouts of the Limbo Flower. Many of these people were like you and wanted to revive their loved ones. I remember there was also another person who came here from New Moon Land in the past... ai, do you guys really believe that the Limbo Flower can truly revive those that have died?” asked the old man.

The old man's words were like needles that stabbed into Princess Jinrou's heart.

If the Limbo Flower could not allow her to recover to her original state, would she forever remain a specter?

"The revival method exists. Even if the Limbo Flower cannot achieve this, there must be a creature that can do this." Bai Yu remained unmoved.

"How stubborn." the old man shook his head. He could see that Bai Yu wasn't a person to give up before achieving his goal. He continued: "There really was a Limbo Flower here, but fifty years ago it was stolen away."

"Who stole it?" hastily asked Bai Yu.

What Bai Yu wanted now were clues!

"A soul pet trainer. He was an immortal teacher with extremely high medical abilities. However, he has another nickname: One Who Sees Death but Does Not Save." said the old man.

"Could you please tell me about this person." Bai Yu seriously and sincerely said.

"This person is very famous in Zhengming Continent. You just need to ask around and you'll find out about him. An immortal teacher with extremely high medical abilities; he has the nickname One Who Sees Death but Does Not Save. You must know that in order to increase his own strength, he was even willing to just watch his own son die..." said the old man.

Bai Yu's heart sank. He didn't expect there to be a person in this world who could be so cold-blooded and merciless.

"Go find him. His temper is strange and perhaps he will be willing to save your daughter. If I'm correct, he's currently in Xuan Gate's Immortal School." said the old man.

"Thank you." said Bai Yu.

"Old grandfather, you just said that there was a person who came to ask about the Limbo Flower from you? Who was that person?" curiously asked Princess Jinrou.

"A person who wanted to revive his son and his soul pets. Unfortunately, he didn't even have the souls of his son or soul pets. Such a death cannot be revived..."

Chapter 1404: Light Cloud, Light Phoenix Nest

Lin Mengling didn't like the smell emitted by corpses, nor did she like the smell of blood.

When she finished her defending rotation of thirty days, Chu Mu and Xia Yin discovered nothing around them when they opened their eyes. It was the complete opposite of the bloody battlefield Chu Mu had left behind.

"Younger Sister Mengling, leave some behind for me, eh." Xia Yin forced a smile.

"If you want to collect corpses, go to Departed Souls Palace." unhappily said Lin Mengling.

Lin Mengling's soul pets hadn't fully exhausted their physical strength. She was able to defend this place for 30 days mainly because Chu Mu had slaughtered too much before. This caused many species from refusing to rashly charge in. Thus, her defense was easier than both Xia Yin's and Chu Mu's.

After the three of them finished defending, the valley's cultivation formation was much more peaceful. In the subsequent amount of time, the three of them summoned a few soul pets each to defend the valley, and no Imprint Valley creatures ran in to kill themselves.

Cultivation from this point on became very smooth. Chu Mu's Night, Mo Xie, Ghost King, White Nightmare, and Little Hidden Dragon all reached the immortal rank. After being able to focus on absorbing immortal aura, at around the tenth month, Chu Mu began to rapidly surge towards the spirit immortal rank barrier.

The entire process was extremely unhindered. Then again, any ninth remembrance spirit dominator person with soul pets at not low ranks would be able to easily enter the spirit immortal rank after spending ten months being nurtured by immortal aura.

.....

When he opened his eyes, Chu Mu felt a stronger force circulating in his body. If it weren't for the Imprint Valley's restriction, Chu Mu would have instantly transformed into a half devil to see how much his strength had risen.

"You succeeded?" Xia Yin saw Chu Mu open his eyes in high spirits, and a smile rose on his face.

"Chu Mu nodded his head and said: "Yes, the spirit immortal rank!"

“How slow. The two of us have waited a long time for you.” said Lin Mengling, somewhat unhappily.

Both Xia Yin and Lin Mengling had broken through before Chu Mu did. But the two of them couldn't just leave Chu Mu, here so they waited for him.

“There's still one or two months before Imprint Valley's exit opens. Let's use the fact that our strength has greatly risen and explore Imprint Valley. Perhaps we'll end up with a pretty good harvest.” said Xia Yin.

Chu Mu also thought the same. Dead Dream was currently transforming into a pupa. It needed a long time to return to its original state. But if he could find the remnants of the Phoenix species, not only would it speed up the Dead Dream's recovery, but there was a chance that its strength could increase as well.

Additionally, Chu Mu remembered that Yu Suo said that there was an extremely powerful creature in Imprint Valley.

Yu Suo had already set up a Flower Soul Formation where the creature often frequented without it knowing. As long as Chu Mu was able to lure it into the Flower Soul Formation, Yu Suo would be able to control it.

Chu Mu's current soul pacts were extremely limited. The spirit dominator and spirit immortal ranks didn't increase the number of soul pacts or soul pets. In other words, every soul pet trainer could only have 15 soul pacts. Chu Mu couldn't just randomly sign a soul pact with a soul pet. Moreover, Yu Suo's Flower Soul Control was similar to a soul pact signing so even if Chu Mu couldn't randomly sign a soul pact, he couldn't just let a powerful soul pet go either...

“I want to find remnants of the Phoenix species,” said Chu Mu.

“Do you know where it’s located?” asked Lin Mengling.

Chu Mu nodded his head. Yu Suo had already explored Imprint Valley. Although Chu Mu didn’t know what she wanted to use Imprint Valley for, Chu mu didn’t need to care about this.

“Then let’s go together. I have nothing to do anyway.” said Xia Yin.

Xia Yin had come to Imprint Valley to search for rare magic stone materials. However, he didn’t know where magic stone materials were in Imprint Valley. Thus, he could only aimlessly search.

Lin Mengling seemed to have her own thing to do. However, she was very willing to go to the Phoenix species’ remnants because the place she wanted to go to was very close to it.

.....

There were numerous powerful creatures in Imprint Valley. Thus, the three of them refused to arrogantly fly in the air like the Martial Cloud Dragon.

As they traversed the dark grey land, they traveled for three days before a strange mountain range appeared in front of them.

The mountains in the range steeply rose off the ground like lofty towers.

As they passed through the mountains, the thick grey clouds suddenly dispersed and extremely bright beams of light could be seen intersecting between the lofty mountains, spilling on the grey land.

The dark and gloomy world had suddenly been illuminated by light. Thick beams of light filled the air, making Chu Mu a bit uncomfortable since he innately possessed the dark attribute.

“Could it be the light here that is restricting my power?” Chu Mu muttered to himself.

Both the half devil and Evil Good Queen possessed very strong evil characters. Thus, Chu Mu could feel a serious suppression on his strength when he stepped into this land where beams of light radiated in all directions.

The Dead Dream was a dark type creature and it would also feel uncomfortable here.

“Old Li, what’s going on here? The world was just dark and gloomy. Why is it suddenly filled with a dense light elemental attribute?” asked Chu Mu.

“Young master, this independent space should have been dominated by the light attribute. What you just saw was the wrong side of sunlight. An area in which the illuminating light is unable to cover. There will often be many dark type and evil type creatures living in this area where there is a gap in coverage.” said Old Li.

“Then isn’t the Phoenix species’ remnants here the remnants of a Light Phoenix? Dead Dream is a dark type Phoenix and should be unable to use a light type phoenix’s remnants to undergo Nirvana Rebirth, right?” asked Chu Mu.

“In the past the Dead Dream would have been unable to. However, I’m not too sure anymore. Dead Lightning is a completely new attribute, so the light type attribute won’t have powerful inhibiting effects on the Dead Dream. In other words, Dead Lightning and light aren’t severely exclusive to each other.” said Old Li.

“Ok, then let’s find the place first.”

Chu Mu didn’t like this place. His soul pets that were like Night, Zhan Ye and the Ghost King, also didn’t like this place. If they were to fight here, their powers would be seriously weakened.

However, Mo Xie was of the fire attribute which could be considered part of the same family as the light attribute. Thus, she comfortably lay on Chu Mu’s shoulder and enjoyed the warm illuminating light.

“What’s that in front of us?” Lin Mengling pointed at the horizon and spoke with some amazement.

Chu Mu lifted his head to look at the light clouds on the horizon.

The light clouds were emanating a milky white light. They were holy and bright, like a hovering light cycle paradise.

Underneath the light clouds towered numerous mountains that resembled pillars holding up the sky.

“That place should be the remnants of the Phoenix species,” said Chu Mu.

Yu Suo had directed Chu Mu in this direction. However, she didn't say that it was the remnants of a Light Phoenix. This was probably because she was afraid Chu Mu would have no interest in a light type Phoenix's remnants. She was always very clever about this.

"Yes, I see many Light Sparrows. Many Phoenix species habitats have Light Sparrows guarding them," said Xia Yin.

"Why can't I see them?" when Lin Mengling looked in the distance, she could only see the beautiful light clouds.

Chu Mu's vision in the dark was very good, but bright and beautiful sunlight felt a bit scorching to his eyes. Therefore, he definitely was unable to see the Light Sparrows.

"My vision is quite good. Let's go. If our luck is good, perhaps we'll obtain a Phoenix egg." laughed Xia Yin.

Phoenixes had a relatively high species rank. Moreover, the bloodline of most creatures in Imprint Valley were at a powerful level that was rarely seen. Therefore, there was a chance that the royal species living in this place was an ultra high rank Phoenix species that could be seen once in a hundred years.

The route there was a bit long. It took them about a day before the nests hovering in the clouds slowly came to view.

Light Sparrows ranging from over a hundred meters to only a few tens of meters in length circled around the nest in the clouds, letting out a series of crisp and pleasant noises.

These Light Sparrows all had very high ranks and because there were many of them, the three of them didn't want to be treated as enemies by the Light Sparrows and attacked.

"Chu Mu, your body is emitting an evil aura. If someone like you were to enter the nest of light, you'll definitely be driven out. Look at those Light Sparrows and how they're all vigilantly staring at you." Lin Mengling pointed at the Light Sparrows circling above their heads as she spoke.

"Indeed." Chu Mu forced a smile.

He innately had the dark attribute and adding on his excessive slaughter, an evil aura, a killing intent lingered around his body. Someone like him clearly was not suited to coming into contact with these pure and holy light type creatures, let alone coexist.

"Once we leave Imprint Valley, I'll definitely find out more about you. One glance and I know you aren't a good person," said Lin Mengling.

Lin Mengling's character was the exact opposite of Chu Mu's. Her life in Divine Sect had been enveloped by holy light and an immortal aura. Added on her bias towards light type creatures, she gave off an aura that contained the light element...

"I never said I was a good person." very honestly said Chu Mu.

"Then were you the one who killed Han Erxing?" Lin Mengling blinked her eyes as she moved her beautiful and white face in front of Chu Mu.

Chu Mu was somewhat speechless. He really couldn't tell if Divine Sect's pride was pure or crafty.

Even if she suspected him, why would she be directly questioning him? Any criminal with a hint of intelligence wouldn't admit to it, let alone Chu Mu who had often killed others.

"Young Sister Mengling, our Brother Chu here isn't someone moved by beauty. Using such a method to force a confession won't have any effect." smiled Xia Yin as he spoke.

Lin Mengling was a Vice Magistrate of Divine Sect. She had a job to find Han Erxing's killer.

Xia Yin and Chu Mu were both people shrouded by a layer of mystery. It was hard to determine if the two of them were lying or speaking the truth.

Lin Mengling had gotten acquainted with Xia Yin a bit earlier, and knew a bit of inside information about him. However, she knew nothing about Chu Mu.

Lin Mengling had also personally experienced the thirty-day defense and saw how many corpses lay there. She could thus guess that Chu Mu wasn't any weaker than them. She was very curious how someone from New Moon Land could reach this realm at such a young age.

Moreover, she was able to smell an extremely mysterious evil aura from his body. A normal human could not have this aura...

Chapter 1405: Upper Potential Fox, Seven Sins Fox Light King!

Chu Mu was unable to find a solution. How could he get into this Light Phoenix Nest? Killing his way in seemed unlikely. There were so many high-level Light Sparrows, there was bound to be one or two low/middle class immortal ranks. If that were the case, they won't be able to get out after they get in.

However, this also showed that the phoenix ruins were very special. They had to push Dead Dream in no matter what!

The higher the bloodline of an organism, the more well guarded their sacred grounds were.

Xia Yin shrugged his shoulders, showing that he was helpless here.

Lin Mengling looked at Chu Mu with interest, also not wanting to help. She just wanted to see how Chu Mu would enter the Light Phoenix Nest. If he accidentally revealed any special power, she could basically ascertain Han Erxing.

“How about you let your little fox try again?” Lin Mengling said with a laugh.

Chu Mu also had this thought. However, this wasn’t a hundred percent successful. If Mo Xie got trapped, Mo Xie would fall in danger.

"Let's walk around." Chu Mu couldn't figure out a good method in a moment.

The three of them passed from below the Light Phoenix Nest. The Light Sparrows circled above them, but seeing as they didn't attempt to fly upwards, they took no action too.

After the Light Phoenix Nest was a valley of complicated structure.

The valley was empty without any plants. The sun shone brightly, revealing gleaming rocks that appear like special crystals

“There should be quite a few light crystals near here.” Xia Yin said.

Many magical rocks, minerals, and crystals have the ability to absorb energy. With so much energy nearby and a few thousand years to absorb, the energy within these rocks could be comparable to spirit crystals.

One could call this place covered in gold.

The moment Chu Mu stepped into this Light Mountain Valley, he let Old Li out conveniently.

At such a resource rich place, there was no reason for Chu Mu to return empty-handed. One had to know that New Moon Land was a bottomless hole when it came to resources.

“Strange, why does this valley seem familiar?” Chu Mu muttered to himself.

Chu Mu temporarily gave up the Light Phoenix Nest. The valley they reached was the place Yu Suo wanted him to go to. Here, she had set up a flower soul diagram to wait for the powerful organism to enter the trap.

“There seems to be energy ahead.” Xia Yin pointed at the valley.

Chu Mu and Lin Mengling didn't feel anything. However, if they continued forward, there were weak spatial vibrations as well as stirring energy.

"Your vision is good, but how is your nose so good too?" Lin Mengling glanced at Xia Yin.

"What do you mean? Do you sense with your nose?" Xia Yin complained.

Chu Mu found it strange. Xia Yin seemed exceptional in both vision and senses. With the same soul remembrance, he could always seem to sense things before them.

"What do you mean what do I mean?" Lin Mengling retorted.

Xia Yin couldn't do much about the prideful Lin Mengling and stopped speaking, instead putting his attention on the energy waves.

The sun was incredible in that direction, sending gleaming rays outwards that caused Chu Mu to be unable to open his eyes.

Lin Mengling casted an incantation to create a light barrier for all three of them. Only then did their vision get better. They could finally see two figures fighting at lightning speeds within the valley!

The two figures were all incredibly quick. Even when Chu Mu cast Other Pupil, he couldn't see their actions completely. Scarier still, the power coming from the fight was insane. With the three of their powers at immortal rank, they still didn't dare get near lest they get hit by the energy waves.

“Xia Yin, can you see what they are? They’re so powerful!” Lin Mengling said.

“I know one’s a phoenix and one’s a demon fox. As for what species rank, I can’t tell, but anything able to reach this rank and is light type.....” Xia Yin’s vision was indeed superior.

“Light type phoenix, it has to be the Light Phoenix, right?” Lin Mengling said.

The Light Phoenix’s species rank should only be one rank lower than the legendary undead rank. It’s the same rank as the Martial Cloud Dragon, standing at the tip of the species rank pyramid!

In the normal world, one probably couldn’t find a Light Phoenix anywhere!

“This Light Phoenix isn’t any weaker than the Martial Cloud Dragon. However, what is that demon fox? It also seems to be light type.” Xia Yin gazed at the extremely nimble fox and fell into deep thought.

In Xia Yin’s memory, the demon fox species didn’t have any organism that could go even against an incredible creature like the Light phoenix. However, their aura and battle both seem to be incredibly even so far.

“Can it be....” Lin Mengling seemed to know something more and stared closely at the rapidly moving demon fox.

.....

The battle continued. Bright light type techniques filled the entire valley with flames. Even so far away, they could feel the sun burning down upon them.

This sun caused Chu Mu to be very uncomfortable, as if his skin was burning.

The light constantly blinked. Chu Mu could only see that, within the blinding sky and valley, two figures constantly met and separated, creating overwhelming power. If there were any other organisms in this battlefield, they would definitely get burnt up in the battle.

“Young master!!” Suddenly, Old Li leaped out from behind Chu Mu.

Chu Mu was shocked by this old man.

Old Li truly came back with a full load this time. When he ran over, he found the shocking light type organism battle and his cheeks started trembling with excitement.

“You came at the perfect time, what are they and why are they so powerful?” Chu Mu asked.

Either the Light Phoenix or the Demon Fox were opponents that Chu Mu didn’t think he could beat even with all his soul pets combined. If Yu Suo wanted him to lure one of them into his diagram, then Chu Mu would probably think Yu Suo was too naive. Her flower soul diagram couldn’t possibly control such an organism.

“Young master, don’t you understand?” Old Li said.

“Understand what?” Chu Mu was confused.

“It’s a Light King, a Light King!!” Old Li yelled.

Chu Mu suddenly realized!

Seven Sin Fox Light King!!

Upper Potential Fox, the strongest bloodline of demon foxes!!

Chapter 1406: Thunder Diagram, Light Diagram, Seven Sin Fox?

Seven Sin Fox Light King- Chu Mu still remembered the inner shock he experienced when Old Han told him the legend of the Seven Sin Fox.

The earliest time Chu Mu ever heard of the Seven Sin Fox was from his father.

At that moment, regardless of whether what Chu Tianmang said was true, the legend of the Seven Sin Fox gave Chu Mu endless room for imagination. He desperately wanted to know whether such a strong organism truly existed in this world.

Even after this many years, Chu Mu never forgot the Seven Sin Fox legend. And after Old Han told him about the differences between lower, middle, and upper potential foxes, he saw a middle potential fox on the Yellow Spring Road: Seven Sins Fox Rock Emperor. This again shows that the legends were true.

Chu Mu however never expected that, after this many years, he would meet the strongest of the Seven Sin Fox, the Light King!

Elegant figure, fast as light- the sacred and noble Light King constantly flickered in front of Chu Mu as it fought, connecting slowly with the imagery Chu Tianmang implanted in his head at a young age.....

“Too bad.... It’s truly unfortunate.” Old Li shook his head and sighed.

“What’s unfortunate?” Chu Mu asked questioningly.

“It still carries its species shackles. This is an Atoning Light King still.” Old Li said.

Sin Fox shackles needed a thousand generations to atone for. Just what did these foxes do to receive such a cruel punishment. Is this what people meant by ‘even the heavens get jealous’?

Without this shackle, the Upper Potential Fox Light King and Dark King were far stronger than the five undying legends. They were probably the strongest species!

Suddenly, a thought flashed through Chu Mu’s head.

“Is New Moon Land’s Heavenly Boundary Monument recording the Seven Sin Fox Legend?” Chu Mu wondered.

The fall of the strongest species. Was the Heavenly Boundary Monument pointing to the Seven Sin Fox’s former glory and its fall into crime?

However, what crime was the Seven Sin Fox atoning for? Who was punishing them? If they were the strongest species, they should be like gods. How could they even be punished?

Many questions came up in Chu Mu's head.

"Young master, you finally know the position of the five great Undying Legends, right?" Old Li's voice broke his train of thought.

"What do you mean?" Chu Mu didn't quite understand.

"Let's give an example. Little Mo Xie is the Undying Legend Hades. Its species rank should be perfect dominator rank, but its real strength is nearer to pseudo immortal or low class immortal rank."

"Yellow Spring, Inferno, Underworld, and Limbo are all higher species rank than Hades. The reason they are listed as the five Undying Legends is because the leader of all five species are indeed at the immortal rank. Also, the fighting strength of these species are the strongest in their rank without a doubt!"

"Seven Sin Fox Light King is also powerful, but sadly with a shackle, its strength is greatly weakened. If Mo Xie and it were the same rank, Hades would be slightly stronger." Old Li said.

"Five Undying Legends, Hades has the lowest species rank?" Chu Mu understood something from Old Li's words.

“En, from species rank, Hades probably is the lowest. Limbo and Underworld likely have high species ranks, possibly comparable to the unshackled Light King at high class or top tier immortal rank.” Old Li paused and added, “Of course, high species rank organisms mean they have a long growth period and often need special energy to grow.”

Old Li’s words reminded Chu Mu of the Evil Good Flower Queen.

Evil Good Flower Queen’s species rank was still an unknown to Chu Mu. However, that woman probably wasn’t any weaker than him in half devil form. Yet, it wasn’t even tenth phase yet.....

Its maturity was much slower than all other organisms.

Assuming it had a similar species rank to the Limbo Flower, Evil Good Queen was around low class immortal rank right now. Since it still wasn’t tenth phase, it meant its species rank was higher than Hades.

“In immortal rank, Hades, Yellow Spring, Underworld, Inferno, and Limbo are five representatives. Their leaders have stepped into Undying Rank before, so they are the immortal rank species with the most say. However, in reality, the immortal rank has organisms with bloodlines more powerful than Hades, Yellow Spring, and even Inferno. However, there aren’t many higher than Underworld or Limbo. The old Light King counts as one, but that was in the past. Needing to atone now, it probably couldn’t even beat a Hades of the same rank.” Old Li said.

Chu Mu nodded. When he heard of the five Undying Legends before, Chu Mu subconsciously equated them all.

“Old Li, then by your wisdom, can you rank all the organisms I’ve heard of or seen in order of bloodlines?” Chu Mu asked.

“By species rank..... I feel like the Messiah Tree is the highest. It represents the territory of god.”

“Going downwards, Seven Sin Fox Light King, Evil Good Queen, Ancient Flood Dragon Person, and Limbo are probably in the same realm.”

“After that is Underworld, Black Nightmare, Heaven Dragon King, Demon Ancestor, Light Phoenix.....”

“Below that is the realm of Inferno, which includes the Dark Death King, Gladiator Corpse Lord, and this Divine Sect girl’s Purple Sun Immortal Fairy.”

The Gladiator Corpse Lord was something Chu Mu had seen. It was the corpse that Xia Yin summoned.

Xia Yin was extremely low profile. He hid his Gladiator Corpse Lord’s aura very well. The first time Chu Mu saw it, he thought it was a normal corpse type organism. Only after Old Li reminded him did Chu Mu realize that this corpse type soul pet had a species rank higher than even Hades. Xia Yin’s Gladiator Corpse Lord wasn’t even tenth phase yet either.

Gladiator Corpse Lord’s growth was incredibly slow and needed to devour countless corpses in its growth. One can’t just see that Xia Yin seemed gentle. In reality, he definitely was a mass killer or else he couldn’t possibly sustain the growth of a Gladiator Corpse Lord!

As for Lin Mengling’s Purple Sun Immortal Fairy, Chu Mu had never seen before. However, Old Li probably noticed when Chu Mu was meditating and she was nearby.

Since its species rank was equivalent to Inferno, the Purple Sun Immortal Fairy was likely powerful too.

Old Li told Chu Mu that Lin Mengling's Purple Sun Immortal Fairy was in a similar spot as Chu Mu. The soul pet's rank was restricted by the owner's soul remembrance.

No wonder Lin Mengling wanted to step into immortal rank so quickly. If an organism like Purple Sun Immortal Fairy were constantly pressured, it may desert its owner.

Lin Mengling always said Chu Mu was hiding his strength. Yet, both Lin Mengling and Xia Yin were also scarily powerful.

"Afterwards, Yellow Spring and Hades are at a similar level. Other similar ones are little Princess's Devil Soul, the Martial Cloud Dragon, Shadow Beast, etc. There were a few more that could be tallied up, but young master will naturally get a better sense as time goes on and you meet more organisms." Old Li said.

Chu Mu laughed bitterly, "I always thought that Hades had the highest rank of all the Undying Legends."

"That isn't completely wrong. Because, of all the organisms with higher species rank like Light Phoenix, Black Nightmare, etc, none of them have ancestors that stepped into Undying Rank. Since the leader of Hades stepped into Undying Rank, it meant to a certain extent that the Hades race was stronger than many of those other organisms.

Chu Mu nodded. Bloodlines only determined natural born advantages. True strength relied on training. Chu Mu believed that with the right training method, even his ice air fairy and Devil Tree Battle Soldier could fight against the organisms that Old Li had just listed!

.....

“They finally aren’t fighting!” Lin Mengling said.

“So sad, I wanted to see which one was stronger.” Xia Yin sighed.

However, being able to see such an interesting battle between light types, the experience was worth reliving for a long time after.

After the two organisms fought, the Light Phoenix flew back towards the Cloud Phoenix Nest while the Seven Sin Fox Light King didn’t move, as if this light covered cove was its resting grounds.

The Seven Sin Fox Light King felt gazes upon it. It turned around and glanced over arrogantly but didn’t care about the three of them. Becoming a gleam of white light, it disappeared into the complicated mountains.

“Let’s follow it.” Lin Mengling immediately said.

“Why follow, are we ambushing it?” Xia Yin was confused.

“Don’t ask, just follow!” Lin Mengling gave Xia Yin a stare.

Xia Yin couldn't reply to that.. Seeing Lin Mengling chase after the Light King, he could only chase after with his own soul pet as well.

Chu Mu also wanted to see the Seven Sin Fox Light King resting grounds and followed the rolling mountains.

Going further, the land slowly became higher, as if extending towards a certain mountain peak.

The Seven Sin Fox Light King was extremely fast. The three of them lost their target very quickly and could only climb slowly based on the growing elevation.

Before they realized, they were in an extremely high place. Looking back at the rolling mountains, suddenly Chu Mu flashed back to an extremely similar image!

It was a valley full of thunder. From above, one could see a massive diagram. This diagram was completely made with rising mountains, split valleys, and meandering mountains. The magnificence alone was awe-worthy!

“Demon Realm Thunder Valley, I remember now!” Chu Mu suddenly realized!

Chu Mu still remembered the shocking diagram Chu Mu had seen high up in the Demon realm Lightning Valley!

This diagram was covered in thunder that splayed across the land. One could only see its full picture from very high!

What Chu Mu didn't expect was this Imprint Valley had a similar diagram covered in bright beams of light!

A Thunder Diagram, a Light Diagram.

Also, two Seven Sin Foxes, the Thunder Monarch and the Light King. What did this all mean??

Chapter 1407: Light King and the Small Demon Fox

He had numerous questions in his mind but was unable to find an answer. Chu Mu could only follow the Seven Sins Fox Light King in the direction it left.

The mountain peak was pretty much where Yu Suo had set up the Flower Soul Formation. Chu Mu could pretty much confirm the soul pet Yu Suo wanted him to capture was the Seven Sins Fox Light King.

"Could she have a method of undoing the Seven Sins Fox Light King's shackles?" Chu Mu asked himself.

The higher they went, the denser the light element became. Chu Mu had no choice but to recall the dark attributed Night back to its soul pet space and follow Mo Xie instead.

Eventually, the top of the mountain arrived in front of them.

The height of this mountain was the same as the phoenix remnants mountain in Lightning Valley's. Back then, it took Chu Mu and Mu Qingyi a long time to climb the mountain. However, now at the immortal rank, his current speed was incomparable to the past.

The top of the mountain looked like a highland on top of which hung a scorching sun which was even more intense than the sun in the outside world.

“Young master, this place is probably the third layer of the sky - not the third layer of the earth,” said Old Li.

“Yes, I feel the same way.” Chu Mu nodded his head.

The third layer of the sky was very close to the milky way in the sky. When Chu Mu saw the bright sun, he felt that it was within arms reach. Thus, the starry sky was probably not far above them, otherwise, why would the light element be so intense.

“It’s over there!” Lin Mengling pointed at the small cave on the mountain top.

The Seven Sins Fox Light King had exhausted a huge amount of physical energy during its fight with the Light Phoenix and it was now lying in the small cave, resting.

The Seven Sins Fox Light King’s build was somewhat similar to Mo Xie’s. It was slender and full of power. But when it quietly lay there, its body would have the gentle beauty of a woman’s curves. Its milky white fur only accentuated its grandeur and holiness.

The Light King seemed to sense the three of them and it half-opened its eyes, looking at them.

The Light King’s eyes had no hostility in them. Instead, there was more confusion and indifference. Thus, its indifferent gaze made people feel as if it was already used to being looked at by other creatures like this.

“Wu wu wu wu~~~~~”

Suddenly, a soft cry rang out from nearby. It sounded like a young girl searching for an adult.

A shy figure jumped out from behind a small rock not far away from Chu Mu. Its fur was furry, small and adorable. It waved its small tail and curiously looked at Chu Mu and the two others before suddenly breaking into a stride and fleeing to the Seven Sins Fox Light King’s side.

“It’s a small Seven Sins Fox Light King?” Lin Mengling cried out with a bit of excitement.

The Seven Sins Fox Light King was an extremely ideal soul pet for Lin Mengling. Especially after seeing the Light King and Light Phoenix’s fight, the vigorous figure passing under the light beams left a deep impression on Lin Mengling.

Chu Mu was also a bit surprised that there would be a small Light King here.

However, Chu Mu quickly discovered that this shy demon fox didn’t have a milky white color; instead, its body was a starry blue color.

“That’s not right. This is a Star Fox. A commander rank creature.” Xia Yin creased his brows as he spoke.

Lin Mengling was stunned and finally discovered that the color of the small fox was different. After looking closely, this wasn't a Seven Sins Fox Light King, but instead a commander rank Star Fox that could be found wherever in a few bewildering worlds.

Lin Mengling's face was instantly full of disappointment.

This small Star Fox jumped next to the Seven Sins Fox Light King and nestled its body into the circle of the Seven Sins Fox Light King's tail. It looked like it was searching for the safest and warmest bed. It comfortably lay there and fell into a deep sleep.

"What's going on? Why is a Seven Sins Fox Light King living with a Star Fox?" asked Xia Yin, confused.

As part of the same species, demon foxes could reproduce with each other. However, it was extremely nonsensical that a Seven Sins Fox Light King with the bloodline of an immortal rank, would live with a commander rank Star Fox.

Chu Mu was also very confused. He had seen mixed breed creatures form a soul pet family before. However, a tiny Star Fox with only commander rank strength, living in Imprint Valley which was littered with dominator rank creatures, was as weak as a piece of dust.

"Wu wu wu wu~~~"

"Wu wu wu~~~~~"

Suddenly, another two weak and soft cries rang out.

From somewhere else, two small foxes jumped out from behind rocks.

These two foxes had large eyes that glimmered when they blinked. Their pitiful appearances couldn't help but make one want to run up and kiss them.

Their bodies were a moon-white color and they had three small tails.

They were a bit more brave than the Star Fox and they curiously ran a few circles around the three humans.

When the two three tails foxes arrived next to Chu Mu, Xia Yin, and Lin Mengling, the Seven Sins Fox Light King immediately opened its eyes. It stared unmovingly at the three of them and it seemed like it could pounce at them at any moment!

The Seven Sins Fox Light King gave a low cry and only then did the two brave three-tailed foxes jump over next to the Seven Sins Fox Light King.

Like the Star Fox, these two small foxes found a comfortable spot and used the Light King's milky white fur as a quilt as they rested against its body.

"Those are Moonlight Three Tailed Foxes." Xia Yin's expression was a bit strange.

Moonlight Three Tailed Foxes had even lower ranks. They were warrior rank demon foxes....

“What’s going on with these small demon foxes? Could it be that they didn’t realize they found the wrong mother?” said Lin Mengling.

Whether it was the Moonlight Three Tailed Foxes or the Star Fox, their bloodline had no relation at all with the Seven Sins Fox Light King. In fact, the Seven Sins Fox Light King was a creature with the highest bloodline among demon foxes and perhaps even in the soul pet world; on the other hand, the Moonlight Three Tailed Foxes and Star Fox belonged to the lowest level of creatures. Warrior rank creatures would never be able to even enter the dominator rank!

“Wu wu wu~~~~~”

“Wu wu wu wu~~~~~”

Suddenly, another set of soft and weak cries rang out from different locations.

Three furry creatures jumped out from behind rocks. These three small foxes had even lower phases and stages. They were even smaller than Mo Xie in her Pitiful Appearance. They looked like infants that just learned how to walk.

They unsteadily walked to where the Seven Sins Fox Light King was, and occasionally would playfully bite their companions’ tails and roll around on the ground.

“These are Six Tailed Foxes, commander rank creatures...” Xia Yin was stunned as he spoke.

The three Six Tailed Foxes were extremely small and fragile. A single gust of wind could have blown them over.

Immortal rank fights would often occur in Imprint Valley. If their techniques that could span hundreds of kilometers were to engulf this area, these small creatures would definitely fail to survive.

“Wu wu wu~~~”

“Wu~~~”

Delicate cries continued to appear.

Those delicate and soft creatures appeared again from behind rocks. Some were brave and others were afraid. However, they ultimately all gathered next to the Seven Sins Fox Light King.

When Chu Mu and the two others had arrived at the mountain top, they intentionally used soul remembrance to sense this place; however, they were unable to sense the existence of these small demon foxes.

This wasn't because their perception was too weak; rather, these small demon foxes were too weak and small. Their auras were completely negligible.

In total, there were 20 small demon foxes gathered around the Seven Sins Fox Light King.

Star Foxes, Moonlight Foxes, Moonlight Three Tailed Foxes, Six Tailed Foxes, Nine-Tailed Foxes, Cloud Foxes, Cursed Ice Foxes, Blazing Sun Fox...

All of them were different subspecies of demon foxes. The lowest of their species rank was at the servant rank while the highest was merely a monarch rank.

At Chu Mu's current realm, creatures of the monarch rank and under were considered very weak.

Furthermore, this place was Imprint Valley and the third layer of the sky. The average bloodline of creatures that lived here was at the emperor rank, while the average strength was at the dominator rank.

Although bloodline wasn't everything, given an equal environment and resources, low rank bloodline creatures had to spend much more effort than high rank bloodline creatures to reach the same level.

When he saw this group of small demon foxes of the monarch rank and under, Chu Mu couldn't help but think of a question: How would they survive in this merciless and powerful Imprint Valley?

What were their chances of survival? One in a thousand or one in ten thousand?

"Wu wu wu wu~~~~~"

As Chu Mu worried for these low ranked bloodline small demon foxes, the small demon foxes were completely unaware of the danger to their lives. They surrounded the Seven Sins Fox Light King and silently lay beside it, sleeping. Some were naughty and were climbing up and down the Light King's body; two of the braver, small Moonlight Foxes even climbed up to the Light King's head where they playfully fought each other.

“My heavens, do these two small Moonlight Foxes not know whose head they’re being reckless on? That’s a Seven Sins Fox Light King! It used to be the creature with the highest bloodline! Even if its bloodline is now only at the immortal rank, it’s simply at a completely different level than these small creatures!” Lin Mengling finally couldn’t help but yell out.

Lin Mengling knew of the Seven Sins Fox’s legend, and she had a deep understanding of the Seven Sins Fox Light King’s past glory.

However, when she saw the scene in front of her which was completely different from her imagination, the shock she felt was even more intense than the fight between the Light King and Light Phoenix!

The Seven Sins Fox Light King lay unmoving there. Despite the small demon foxes making a disturbance next to it, it still only half squinted its eyes and vigilantly rested there. It could be seen that it was a bit exhausted after the fight with the Light Phoenix.

Lin Mengling didn’t understand. Why would a Seven Sins Fox Light King with such a proud bloodline tolerate these small demon foxes, ignorant of their own abilities, causing a disturbance beside it.

“Wu wu wu~~~”

The small Star Fox that appeared first seemed to have discovered something on the Light King’s body and used its small claw to slowly part away the Seven sins Fox Light King’s milky white fur.

However, underneath the milky white fur wasn’t the Light King’s skin, but instead a deep wound. Clearly, it was from the prior fight.

The Seven Sins Fox Light King didn't seem to feel pain. These mischievous small demon foxes had often bumped into its wounds, but it maintained its resting state.

The small Star Fox stretched out its tongue and lightly licked the wound.

When it got a scratch or had an accident, it only needed to use its tongue to lick the wound for a while and the wound would quickly heal. Therefore, the small Star Fox felt that this would probably speed up the Light King's recovery.

However, this method had no effect on the Light King.

Even a dominator rank creature's healing technique wouldn't necessarily be able to heal a wound of a creature at the Light King's rank, let alone a small Star Fox's very first healing method.

Chapter 1408: Demon Fox Species, Extinct

“Wu wu~~~”

Mo Xie jumped off of Chu Mu's shoulder and then ran over to the group of small Demon Foxes to join in on the fun.

Mo Xie had a silver-colored body and a faintly discernible angry purple-colored flame always lingered on her nine tails. She was comparatively stood out in this group of low species rank small Demon Foxes.

After Mo Xie walked over, these small Demon Foxes all curiously and adorably stared at Mo Xie. They didn't recognize Mo Xie, and didn't know what kind of species Demon Fox she was.

The Light King slowly opened its eyes and looked at Mo Xie who was staring back at it. Its apathetic eyes circulated with something.

A moment later, it closed its eyes again and ignored Mo Xie's intrusion.

Mo Xie used the Demon Fox language to communicate with these small soul pets. The small Demon Foxes jabbered back, and didn't stop letting out cries that made Mo Xie's head spin.

A while later, Mo Xie finally understood. She waved her claws at the small Demon Foxes and returned to Chu Mu's shoulder. She then told Chu Mu about what she found out.

"What did they say?" Lin Mengling quickly asked Chu Mu. She was obviously very curious.

Chu Mu was earnestly listening to Mo Xie's account.

"Those small Demon Foxes said that they are all orphans. They aren't sure where their mothers and fathers went. They've always been taken care of by the Light King," said Chu Mu.

"Why is the Light King taking care of them? They have no blood relation..." Lin Mengling proceeded to ask.

"I'm not sure. These small Demon Foxes all treat the Light King as their elder. They live on this mountain and the Light King has never let them leave," said Chu Mu.

“Wu wu wu~~~” Mo Xie let out a cry. She told Chu Mu that a few adult Demon Foxes had left, but ultimately never returned...

The fact they never returned meant they died. These Demon Foxes with monarch rank bloodlines and under were still extremely weak even if they were an adult in Imprint Valley. They simply didn't have the ability to protect themselves.

“I saw in Divine Sect's historical records that at the very beginning, Imprint Valley was the Seven Sins Fox Light King's territory. The other high bloodline species, including the Martial Cloud Dragon, Light Phoenix and Immortal Sparrow, all lived under it,” said Lin Mengling.

“This should have been over ten thousand years ago. All species have chances of declining,” said Xia Yin.

Chu Mu turned to look at the enormous light formation sprawling over the earth. He sank into thought.

"Young master, if the Light King of the past lived here and additionally brought about glory, there would definitely have been numerous other Demon Fox subspecies following it in Imprint Valley..."

After the Seven Sins Fox was shackled by fate, it would have declined. Once it declined, other creatures would rise. The Demon Fox species was no longer the lord of this place..."

“The rise of any powerful species is accompanied by merciless slaughter. The high bloodline Demon Foxes would have been slaughtered by the rising soul pets - for example the Celestial Mountain Curse Demon Fox, the Raging Flame Nine Tail Inferno Fox, the Flame Monarch, the Rock Rock Emperor, the Ice Fox Emperor and the other Demon Foxes at the monarch, emperor or

dominator rank. None of these Demon Foxes would be able to obtain protection and would have to face immortal rank predators. Their extinction in this territory is only a matter of time.”

“The moment the monarch, emperor and dominator rank Demon Foxes go extinct, the remaining commander, warrior and servant rank Demon Foxes, for example, the Star Fox, Three Tailed Fox, Cloud Fox and Nine-Tailed Fox, will slowly die out as well...”

“Thus, over ten thousand years, only these scattered low ranking demon foes remain. This is the current situation in front of young master: a group of low ranking Demon Foxes living with an extremely high bloodline Demon Fox...”

“Indeed, how could they not live together? Only these few Demon Foxes remain in the entire Imprint Valley.” sighed Old Li.

Species extinction!

Old Li had always imparted Chu Mu with species theories.

In the past, Chu Mu had believed these holistic concepts of life were too far removed from him. His singular actions couldn't affect an era of several ten thousand years or a species' fate spanning through several ten thousand years.

However, when Chu Mu saw the lonely fox king living together with these extremely low rank Demon Fox orphans, an indescribable feeling of bitterness surged in his heart.

The scene in front of him was comforting because it resembled a lonely mother protecting these children with no homes of their own.

However, it also meant that the Demon Fox species had reached its end!

If a species wanted to survive in a territory, it had to have two things. Adequate strength and strong enough survival abilities.

The strength would frighten enemies and ensure they would have a foothold in this territory.

As for strong survival abilities, this referred to the ability to evade natural enemies and a perception of danger.

Of course, there was an exception to this. The creature could be weak, but their reproductive abilities had to be strong and they had to be suited to surviving in various environments.

The Light King of this era was being restricted by the shackles of sins. Its strength was far weaker than the past. It was no longer the strongest creature in Imprint Valley.

Most importantly, the Light King had no followers. If it were like the Light Phoenix, which had countless Light Sparrows to defend its nest, things would be different. However, the Light King was alone. and it alone could not support the survival of a species.

If things were to continue like this, probably within one or two hundred years, the demons foxes would completely disappear from Imprint Valley because they would be unable to survive alone here.

“The moment the strongest bloodline subspecies declines, the other subspecies of the species will also be affected. Young master is currently witnessing a case of bloody and cruel reality...” Old Li could see that Chu Mu understood the cause of the scene in front of him.

“This place is an independent space. In our world, the Demon Fox species probably wouldn’t be as miserable, right?” asked Chu Mu.

Old Li nodded his head: “Hades is the representative of the Demon Fox species and in the past, there were legends of an undying rank. In Imprint Valley, the Demon Fox Species has declined due to the Seven Sins Fox Light King’s shackles. However, in the regular world, the Hades Fox Noble has already led the Demon Fox species to the peak.”

Chu Mu’s heavy mood eased as he listened to Old Li’s words.

Perhaps the story the Monument Tears told was the reason behind the Seven Sins Fox. When he heard about the extinction of the Demon Fox species in Imprint Valley, Chu Mu felt that the Demon Fox species had disappeared from the entire world. The indescribable seriousness of this was even somewhat unimaginable to Chu Mu.

“Do the Heaven Boundary Monuments tell the story of the Seven Sins Foxes being sealed? Once we undo the Heaven Boundary Monuments’ mystery, will we undo the Seven Sins Fox’s shackles?” asked Chu Mu.

“Perhaps. I feel that the Heaven Boundary Monument is trying to tell people something. Its purpose is probably the same as the Messiah Tree. It exists for the survival of all living things... Unfortunately, the last Messiah Tree has gone extinct. I don’t know what danger the disappearance of the Messiah Trees will bring.” Old Li gave his opinion.

“There will be danger?” asked Chu Mu, confused.

“Definitely. The Messiah Trees were similar to the existence of a god. They were a selfless offering to the world of life. Numerous ancient species’ survivals were linked to the Messiah Tree’s aura. Once the Messiah Tree died, it would cause numerous ancient species to die along with it. Moreover, a few evil species that were suppressed by the Messiah Tree would rise. Perhaps the root of disease, the Plague King, will be able to sweep through the world... these things may not appear in just one or two years. However, in a hundred or a thousand years, the veiled accumulation of these things will suddenly erupt and a calamity of that scale will be extremely terrifying!” said Old Li.

“For example, take the Ancient Flood Dragon Person. This supremely powerful creature has lain dormant for a long time, but wasn’t it a problem left behind from another era?”

Chu Mu felt that Old Li made a lot of sense. He also thought of what Ning Maner had told him before. Often when one was weak, one was only able to see the surface of things when they looked at something. However, when this person reached certain heights and was able to look down on things, they would discover that things were no longer as simple as they seemed. Everything had a connection to karma.

“Mo Xie, go and ask the Light King whether it’s willing to let you take the small Demon Foxes away. Imprint Valley is no longer a place they can survive in. It will be better if we can take them to New Moon Land. Otherwise, they will be unable to escape their fate of death.” Chu Mu said to Mo Xie on his shoulder.

Regardless if these small Demon Foxes were to sign a soul pact with humans or live on their own in New Moon Land, it was still better than becoming prey for creatures in Imprint Valley. Although Chu Mu couldn’t be sure that they would be able to survive once they were brought to New Moon Land, it was much better than living in this place of inevitable death.

Mo Xie nodded her head and jumped in front of the Light King as she spoke with the Light King.

The Light King finally had a slight reaction. It lifted its head a little bit and stared at Chu Mu...

It was possible to see that the Light King actually cared about these small Demon Foxes. It would be best if they could be freed from this horrible environment. However, the Light King had no reason to trust a human...

Mo Xie was talking with the Light King while Lin Mengling and Xia Yin were full of curiosity. Why would Chu Mu want to help these small Demon Foxes?

"I really couldn't tell that you had such a benevolent heart." said Lin Mengling.

Same." Xia Yin nodded his head.

Chu Mu had slaughtered countless beings and often, he had no concept of pity in his heart. However, for some reason, when he saw this comforting, yet reflective and sad, scene, he felt that he should do something.

Moreover, when he saw these Demon Foxes, it was like seeing Mo Xie back on Nightmare Island. Mo Xie had lived in the lowest level of the environment and if he hadn't brought her out, there was a chance she could have met her end while still a Moonlight Fox.

Chu Mu was the same as well. If he hadn't met Mo Xie, he may have lost himself among the millions and millions of other lives and disappeared without a trace...

Chapter 1409: Devil Girl Lin Mengling

Mo Xie convinced the Light King finally. The Light King spoke to the little demon foxes to tell them to leave with Chu Mu.

The little demon fox were all reluctant. However, when the Light King told them that the outside world was even more interesting and fun, the little demon foxes all believed it and jumped into Chu Mu's soul capture space willingly.

Chu Mu wanted to tell Mo Xie to convince Light King to leave as well. Though the resources were plentiful here, it wasn't suited for a fallen species to survive. Also, no matter how many resources there were, it couldn't disperse loneliness.

The Light King didn't mean to leave at all. It stayed in its simple cave as its eyes returned to its previous indifference.

Seven Sin Fox Light King's gaze made it seem like an old man slowly waiting for death by itself. Chu Mu didn't understand why it so adamantly wanted to remain here. Was there something worth protecting?

Chu Mu respected the powerful organism but was also sad about Seven Sin Fox Light King's negativity.

After bringing away the little demon fox, the three no longer stayed at the top of the hill. Seven Sin Fox Light King may have gotten used to the life up there, or maybe it still adamantly believed that the Imprint Valley was his territory. But, if it didn't want to leave, Chu Mu couldn't force it to.

Chu Mu especially looked around for the flower soul formation that Yu Suo supposedly set up. In reality, rather than letting the Seven Sin Fox Light King live in its own sorry world, Chu Mu instead wished for it to become Yu Suo's soul pet. At least Yu Suo had a wild ambition that would push the Seven Sin Fox Light King to pursue greater things.

Sadly, Chu Mu couldn't find the formation at all.

The phoenix ruins was still inaccessible because of the abundance of Light Sparrows. Adding on the Light Phoenix within it, Chu Mu didn't dare try to enter without half devil form.

And with the type disadvantage, Dead Dream may not even be able to complete a nirvana within. If Dead Dream accidentally underwent a devolving, Chu Mu would have nothing but tears for his efforts.

With Ning Maner on their side, Chu Mu didn't worry too much about Dead Dream's rank. Once they were back in New Moon Land, Ning Maner's immortal aura should be enough to give Dead Dream a similar opportunity to a nirvana.

Afterward, the three of them walked around in the rest of Imprint Valley. Xia Yin luckily found the devil stones he needed. Lin Mengling seemingly did nothing, but also seemed to have completed what she wanted to do. She left by herself once, but Chu Mu had no idea what she came into Imprint Valley for.

"This woman, where did she set the Flower Soul formation up?" Chu Mu muttered.

The imprint valley was almost closed, yet Chu Mu still never found the flower soul formation.

Chu Mu truly wanted the Seven Sin Fox Light King to leave the Imprint Valley. However, other than the flower soul formation, what else could he use to change its mind? It's not like he could beat it.

Yet, Chu Mu went to the place Yu Suo pointed out multiple times but couldn't find the diagram. This couldn't be his fault.

“Let’s leave, there are many treasures in here, but I always feel strangely repressed when staying in here for too long.” Xia Yin said.

“I have the same feeling.” Lin Mengling nodded.

“I’ve been uncomfortable all over.” Chu Mu added.

The light element in Imprint Valley was too thick. For dark organisms like Chu Mu, this was like torture. When they were on the other side of the formation, he didn’t feel it much. However, once he entered further into Imprint Valley, it felt as if he were being scorched under a blazing sun in a desert.

Because there weren’t many plants in Imprint Valley, the air indeed wasn’t good for humans to stay around for long. After they stepped out of the valley, the repressed feeling was immediately blown away by the fresh air and beautiful foggy forest.

Breathing in the fresh air greedily, their bodies seemed washed over anew, losing the last bit of stale air.

Chu Mu often entered independent spaces. He could clearly feel the major difference between the air in independent spaces and the normal world. In total, the normal world was simply much better suited for all life.

The Imprint Valley was in the back mountain of Divine Sect. At such a close range, Lin Mengling decided to fly right back.

“You two, come with me to Divine Sect for a while. Our divine sect’s Goddess Pool is very good for expelling bad substances and is good for one’s body.” Lin Mengling smiled and said to Xia Yin and Chu Mu.

“Great, I’ve long heard that the Goddess Pool can strengthen one’s lifespan. There’s no reason for me to refuse.” Xia Yin immediately nodded.

“And you?” Lin Mengling asked Chu Mu.

Chu Mu originally wanted to go right back to the palaces. New Moon Land’s palace in Zhengming Main Continent must have finished by now.

Seeing Chu Mu hesitate, Lin Mengling gave him a glare, “What, you’re afraid I’ll capture you, sentence, and torture you?”

“Alright, I’ll go.” Chu Mu laughed bitterly.

Lin Mengling was basically sure that Chu Mu killed Han Erxing now. However, the three of them got closer in their time in Imprint Valley. Chu Mu was curious. If Lin Mengling truly found evidence, would she still capture him? He always had a feeling that the woman wasn’t very bothered by Han Erxing’s death.

After not too long, a group of Divine Sect disciples on Snow Cloud Cranes came over.

The snow cloud cranes were snow white. The disciples were also dressed in complete white. This team of escorts all lined up in one row. They noticed that most of them were female disciples filled with purity, elegance, and beauty, dazzling all onlookers.

These female disciples all came to Lin Mengling and saluted. Seeing that all of them were highly beautiful, both Chu Mu and Xia Yin's eyes lit up.

Watching these fifty female disciples escort Lin Mengling through Zhengming Main City must be a real sight to see!

"Should I build myself a beauty escort like this one?" Xia Yin rubbed his chin and started wondering.

His Beiming City was filled with talent and beauty too. As the king, he probably wouldn't have any trouble creating a team like that. The only problem was, where would he go to look for women as powerful and beautiful as this group from Divine Sect?

"Though I'm a woman, I don't like ugly girls either. Are you two more willing to be my guest at my dwelling now?" Lin Mengling laughed and said straightforwardly.

"Of course, of course." Xia Yin immediately nodded.

Chu Mu couldn't say much either. The group of beauties was truly good scenery. Even as a proper man, there was no reason to be upset about being surrounded by beauties.

This was Chu Mu's third time at Divine Sect now. The Divine Sect was like a wonderland, its magnificence and grandeur still shocking Chu Mu.

Lin Mengling's residence was a white jade building. It was intricate and elegant with many ponds and pavilions to adorn it. Compared to the cold walls and tiles of a palace structure, it indeed seemed much greater. Those that lived here for a long time may feel themselves turning to become like immortal goddesses.

"Yi Yun, Nan Lan, find a few beautiful sisters and bring these two guests to the Goddess Pool. Tell the chefs to prepare a feast, and also go to the old immortal teacher to get some good alcohol." Lin Mengling said to her close servants when she arrived.

In Imprint Valley, Chu Mu and Xia Yin felt that Lin Mengling wasn't much different from the average woman. Though she was slightly bossy, she never was unreasonable. Though prideful, she wasn't hard to get close to.

However, the moment she returned to Divine Sect, this pearl of the Divine Sect showed her other side, generous and noble. It almost felt like they were two people.

Chu Mu wasn't sure whether Lin Mengling was always like this or did the snow-white female disciples play a role too. However, he felt like this woman was suddenly different now, separate from the "princess" that sometimes swore in Imprint Valley.

"Lady, Master Official, Gate Master, and the Magistrates are all waiting..." The woman called Yi Yun said.

"Tell them to come tomorrow, just say I'm tired." Lin Mengling said.

"Yes." Yi Yun saluted and went to dismiss those people.

“Lady usually takes a long time to bath. Please wait here, and someone will bring you to the Goddess Pool. If you have any requests, tell them and they will satisfy you.” Nan Lan saluted and said gently.

“Any request at all?” Xia Yin lifted an eyebrow, his intentions evident.

Lin Mengling’s residence was almost filled with women all in snow white clothing. They were all beautiful and had great figures. This caused the normally calm Xia Yin to become restless.

Speaking of which, whoever married Lin Menglin would likely get this entire house full of women along with her too.

Nan Lan blushed slightly and lowered her head, “Yes.”

Getting a confirmation, Xia Yin immediately winked at Chu Mu.

After not too long, they were brought to the Goddess Pool.

The showering process was complicated and Chu Mu didn’t understand, so he simply followed what the women said.

Luckily, there wasn’t any light element in the pool. Instead, it was a pure water medication bath. This healing caused Chu Mu’s skin to slowly heal from the burning of Imprint Valley’s light.

.....

Lin Mengling indeed took a long time to shower. Chu Mu and Xia Yin waited at the feast table for a long time before they finally saw Lin Mengling come in a new outfit.

Like an angel with pure skin, the showered Lin Mengling looked breathtaking.

“You two, are you satisfied with the service of the sisters at Goddess Pool?” Lin Mengling sat down and asked with a smile.

Chu Mu and Xia Yin both smiled very difficultly, “Of course, of course.”

Seeing Chu Mu and Xia Yin’s stiff expressions, Lin Mengling suddenly started laughing even harder.

This laughter broke through all of her previous impressions of being noble and generous. Chu Mu wouldn’t even be surprised if two horns sprouted from her head and she revealed herself to be a devil!

The reason Lin Mengling laughed was because she guessed what the two men were thinking. So, when she asked for servants, she especially emphasized “beautiful sisters”.

Having served her for many years, Yi Yun and Nan Lan naturally understood this and instead arranged for a few obese and average middle-aged women to help their bathing process.

Xia Yin was originally excited but after seeing the faces and figures, he had lost all interest and started cursing Lin Mengling in his heart.

Chu Mu was better off since he didn't have much thoughts to begin with. However, the prank still left him feeling uncomfortable!

Chapter 1410: Spatial Collapse

After they were pranked in the showers, Xia Yin and Chu Mu were extremely careful when eating dinner in case she did anything.

Thankfully, the food had no issues. The plentiful dinner was rather enjoyable, since there was nothing good to eat in Imprint Valley.

“Chu Mu, I prepared some treats for the little demon foxes as well. You can let them out here.” Lin Mengling said.

Chu Mu nodded, and opened his soul capture ring.

All the little demon foxes were over third phase. When the small cute fellows all jumped out and let out cute calls, everyone wanted to give them a hug.

Lan Nan brought the little demon foxes over to the side. When the other servants saw these cute little critters, their eyes all lit up. After getting permission from Lin Mengling, they each picked one to hug and feed.

Imprint Valley resources were plentiful, but those were resources purely to increase energy. The little demon foxes still needed a large amount of normal food to replenish their energy.

Furthermore, the little demon foxes probably hadn't ever even eaten much food and usually used energy to fill their stomachs. The first time they had this human treat, they were all wagging their tails in excitement, causing everyone that was feeding them to be overjoyed.

"Chu Mu, why don't you give these little ones to me. There's a lot of viewing gardens in Divine Sect. Many people will feed them, and they can live a peaceful life." Lin Mengling looked at the cute foxes and grew a liking towards them.

Chu Mu shook his head and said seriously, "They aren't soul pets meant for viewing."

Lin Mengling paused and was slightly upset at Chu Mu's rejection, but she soon understood what he meant.

They weren't soul pets meant for viewing. Regardless of the monarch rank Nine Tail Inferno Fox or the servant rank Moonlight Fox, they were all fighting soul pets. They weren't domesticated animals meant for viewing. The demon fox species in Imprint Valley only had these foxes left. Seven Sin Fox Light King definitely didn't want to see the remaining demon foxes become soul pets raised in a zoo for others to watch. He wants them to live on powerfully, and continue the bloodline of the Imprint Valley Demon Foxes, even if the highest bloodline there was only monarch rank.

Domestication was an insult to the battle-hungry demon fox species!

"Yi, why aren't you eating it but hiding it?" Yi Yun hugged a little Starlight Fox and asked questioningly.

"Wuwu~~~" After the little fox ate its fill, it started hiding food, a motion that confused Yi Yun.

Little Starlight Fox hid a small lollipop. It bit open the lollipop and hid it in its tail. This was similar to how Mo Xie hid her food.

After hiding it well, the little starlight fox jumped in front of Chu Mu and called a few times.

Chu Mu couldn't understand, so he told Mo Xie to translate.

After hearing it, Chu Mu was touched.

Suddenly, Chu Mu started feeling that taking these little demon foxes away from the Light King was a mistake.....

“What did it say?” Lin Mengling asked.

“It said it was bringing it for Light King.” Chu Mu said.

Lin Mengling's emotions changed. She wanted to open her mouth to say something, but decided to stay silent.

.....

After leaving Divine Sect, Chu Mu returned to New Moon Palace.

New Moon Palace was Shen Mo's responsibility. Bai Shaoye was guarding as well.

Shen Mo wasn't particularly outstanding in power, but was extremely proficient in management. Under his guidance, New Moon Palace has developed greatly in Zhengming Main City.

Shen Mo originally managed Nightmare Palace. Now that he was guarding such a large environment, being able to fend off the stress and pressure was impressive.

Bai Shaoye was in charge of the experts that were joining New Moon Palace. Bai Shaoye was famous in the immortal rank. Adding on Yu Suo's hidden support, Bai Shaoye was on the rise.

Bai Shaoye was a smart person and was trustworthy. After Chu Mu came to the palace, Shen Mo and Bai Shaoye quickly hurried over.

"King Chu, from your looks, you must have gotten stronger again!" Bai Shaoye smiled.

"It wasn't bad, what's the situation like with Xuan Gate?" Chu Mu asked.

Bai Shaoye probably could do something within a year, right?

"On the outside, Lu Fengnan still holds all power, but in reality, Shang Zuo can already compete against him. Though they can't represent the standpoint of higher rank people, the general picture of Xuan Gate is now theirs to control. We just have to see who wins now." Bai Shaoye said.

Chu Mu nodded and pulled out a light magic stone and said to him, “You have a light type soul pet right? Here, have this.”

Bai Shaoye was shocked. When he took over the light magic stone, his face was full of shock, “This..... This is a light type immortal stone!”

This was enough to create a light type immortal rank soul pet. Bai Shaoye never expected King Chu to give him such a valuable item immediately!

One has to know that even DivineSsect, Xuan Gate, Elemental Sect, Demon Beast Palace, and the others saw immortal rank items as treasures, and wouldn’t easily give them away.....

Getting an immortal item was an incomprehensibly difficult task. Though Bai Shaoye was at the immortal rank himself, finding another immortal rank item was incredibly difficult. His Light Imprint Beast has been stuck in perfect dominator rank for countless years and he hadn’t found a good immortal item to strengthen it. Yet, now he was getting his most desired light type immortal item as a gift from the young King Chu.

“Bai Shaoye is but a rogue soul pet trainer, yet I received such a large gift from King Chu.....” Bai Shaoye quickly kneeled down in thanks, too excited to know what else to say.

“As an immortal rank, being willing to help New Moon Land is truly not an easy thing to do. I naturally can’t treat you poorly.” Chu Mu told him to stand back up.

“If King Chu has any commands, Bai Shaoye is willing to do anything.” Bai Shaoye said.

.....

After Bai Shaoye left, Shen Mo took a while to recover from his shock too.

Seeing Shen Mo's dazed expression, Chu Mu laughed, "If you had a light type soul pet at perfect dominator rank, I would give you one too."

Shen Mo shook his head and laughed helplessly, "I've been training less and have been falling behind. However, Chu Mu, giving away such an expensive immortal item just like that....."

It wasn't that New Moon Land couldn't afford the loss of an immortal item. However, they were still extremely limited, and weren't given out unless core members reached a certain power.

"Bai Shaoye is worthy of it." Chu Mu told people to look into Bai Shaoye's background long ago. He was a typical expert that was ostracized by all the large factions. These people were just missing attention. One light type immortal stone in exchange for the complete loyalty of an immortal rank expert was a rather good deal.

Of course, the main reason was because Chu Mu had a large amount of Xuan and immortal light type items. These were all things that Old Li had gathered in Light Valley. Old Li entering the Imprint Valley was like entering a treasure chest; there were just too many treasures that he smelled!

Chu Mu had three light type immortal items. He gave one to Bai Shaoye, while he planned to give one to Liu Binglan, and then he would put the last one in New Moon Land's resources storage. Anyone in their inner circle could take it if they needed it. After all, Chu Mu had no need for it.

“Chu Mu, we’ve been outstanding in the past year. and have been starting to get restricted by factions and borders, independent territories, and clans. Though these powers are much weaker than the larger factions, they can still impede our development greatly, and they are almost unanimously choosing to do so.....” Shen Mo told Chu Mu the general situation.

“What’s the most effective way around it?” Chu Mu asked.

“Experts. Our New Moon Land experts are too few. These factions all have an expert that could match a Gate Master. They dare to taunt and impede us because of this power. If New Moon Land had a person with similar power to a Gate Master, they definitely don’t dare to continue this.

“En, I know now.” Chu Mu nodded.

“Also, Lu Fengnan recently had some actions that may cause some issues for New Moon Land.” Shen Mo said.

Lu Fengnan had actions?

Chu Mu wanted to get rid of him. Since he was coming voluntarily, it was the best case.

.....

Not long after Chu Mu sat in New Moon Land, the veiled and aromatic Yu Suo appeared mysteriously.

Shen Mo knew his place and backed off. Such a woman could cause trouble with a few looks. Shen Mo was still vigilant around her even now.

“You’ve gotten quite some goods, able to give away an immortal item just like that.” Yu Suo said first.

“I couldn’t find your Flower Soul Diagram.” Chu Mu said.

“It’s fine.” Yu Suo said, but her lips curled up as if something more joyous had happened.

“Did you want to capture the Seven Sin Fox Light King?” Chu Mu asked.

“En, it is unfortunate that the Seven Sin Fox Light King bloodline is disappearing from this world.” Yu Suo said.

“Disappear? What do you mean?” chu Mu asked.

“Did Lin Mengling not tell you?”

“Tell me what?”

Yu Suo looked at Chu Mu and slowly said, “The Imprint Valley space is collapsing.”

Spatial collapse meant the destruction of all life within. Almost no organism could withstand the constant destruction of the spatial turbulence!

Hearing this message, Chu Mu felt as if he were thunderstruck and went still.

Spatial collapse, organism extinction!

Chu Mu thought back to the Martial Cloud Dragon that had just been born, as well as the Seven Sin Fox Light King that was enduring loneliness right now.....

He also thought about the group of infant demon foxes. If he hadn't brought them out, they probably would have disappeared alongside the space as well!
