

## **Soul Pets Bk2 1411**

### Chapter 1411: Saving the Light King

It was night time. As he tossed and turned, Chu Mu was unable to fall asleep.

“Wu wu wu~~~~~” Mo Xie lay on the window sill. Her thoughts were probably the same as Chu Mu’s.

Whenever Chu Mu closed his eyes, he would see strange scenes. These scenes were scattered and had no sense of pattern behind them.

These were the Monument Tear’s memories. However, what were they telling him...

Inadvertently, Chu Mu thought of Imprint Valley’s imminent collapse. It seemed that the scattered Monument Tear memories in his head really did have something to do with the Seven Sins Fox. Each time he thought of the fact the Seven Sins Fox Light King could go extinct, an intense feeling surged in his heart.

“What’s wrong with me...” Chu Mu didn’t understand. Why had he been feeling very depressed lately? Perhaps the Demon Foxes really were related to the Heaven Boundary Monument and the species itself was something Monument Tear Individuals had to trace a source from.

“Mo Xie.” Chu Mu opened his eyes and looked at Mo Xie on the window sill with her eyes half-open.

Mo Xie opened her eyes. Her silver pupils seemed particularly resplendent in the dark night.

“Do you think we should take a trip to Imprint Valley?” asked Chu Mu.

“Wu~” Mo Xie immediately nodded her head.

As a Demon Fox herself, Mo Xie truly did care about the survival of her species. Moreover, the Seven Sins Fox Light king was a powerful opponent worthy of respect. Mo Xie hoped to be able to have a fight with it. If it were to go extinct from this world, that would be too unfortunate.

“But Imprint Valley is already closed. How could I get in there...” Chu Mu began to rack his brains.

The opening and closing of Imprint Valley was in Divine Sect’s hands. Moreover, it seemed that they couldn’t open it any time they wanted. Thus, Chu Mu had to go ask Yu Suo, since she probably understood Imprint Valley’s situation very well.

It was late at night when Chu Mu arrived at Guang Moon Palace. As luck would have it, the one who met Chu Mu was the Evil Good Queen. She was using the moonlight to cultivate a few puppet flowers in Guang Moon Palace’s courtyard.

The Evil Good Queen’s alluring character made Chu Mu feel very uncomfortable, so he got straight to the point with her.

The Evil Good Queen told him that the incantation was in Divine Sect’s hands. In the past when she entered Imprint Valley, she had been accompanied by Divine Sect members. If he wanted to enter, he would have to go through a Divine Sect member.

Thus, Chu Mu could only find Lin Mengling.

It was still late at night, but Chu Mu didn't care if Lin Mengling was asleep or not. Once he arrived at Divine Sect, he immediately went to Jade Room.

Lin Mengling seemed to be training. When she met Chu Mu in her pavilion, she was wearing a fine nightgown.

The nightgown was a moon white color and her fair skin and the curves of her delicate body were faintly discernible. Lin Mengling may not have realized this herself, since nobody would come see her this late at night.

“Chu Mu, you really have no standards. Why are you coming here at this time? If someone else were to see, they would think there was something between us.” Lin Mengling feigned anger coquettishly as she spoke. It seemed a bit flirtatious.

Chu Mu and Xia Yin both firmly believed Lin Mengling was a devil woman; therefore, he turned a blind eye to her intentional flirtatious display.

“Is Imprint Valley about to collapse?” Chu Mu got straight to the point.

Lin Mengling was stunned. She stopped smiling and slowly nodded her head.

“I want to enter Imprint Valley one more time.” earnestly said Chu Mu.

“Are you mad? That world may collapse at any moment. The spatial door that leads there is also extremely unstable. Why do you think they only let us train there for one year? It was because in one year, the spatial door to Imprint Valley would destabilize. After this lunar eclipse, it will be in

an unstable phase, and there's a chance that after you enter you will be unable to return." said Lin Mengling.

"I'll come back out very quickly." since Chu Mu had already made his decision, he was going to do it.

"It's not a problem of when you come out. Currently, Imprint Valley is completely closed. It cannot be opened again." earnestly said Lin Mengling.

"Don't you have an incantation?" said Chu Mu.

"Chu Mu, I know that you have special feelings for the Demon Fox species. But you already brought out those small Demon Foxes. You've done what you needed to do. That's enough. Do you really think that the Seven Sins Fox Light King didn't realize that its world was going to collapse?" said Lin Mengling.

Chu Mu was stunned. The scene of the Light King lying in the small cave abruptly in his head. The Light King had seemed like it was an old man waiting for death. Its eyes were filled with a muddy dim without a trace of hope.

Did it already know Imprint Valley would be destroyed?

But why didn't it leave? Didn't it know that it was the last Seven Sins Fox Light King?

Why didn't it try to survive? Perhaps its next generation wouldn't have to bear those heavy shackles.

“I can’t help you. Only magistrate Xiao can open the spatial door behind the mountain. However, I’m certain that Magistrate Xiao will not open the spatial door again. He must consider the safety of Zhengming Main City’s citizens. Who knows how large of a destructive storm the collapse of an independent space will cause?” said Lin Mengling.

.....

After leaving Divine Sect, Chu Mu seemed a bit preoccupied.

He was certain now that the Heaven Boundary Monument’s mystery had to do with the Seven Sins Fox. His current mood was fully a result of the imminent extinction of the Seven Sins Fox Light King

Chu Mu didn’t understand what was wrong. Normally, he would let nature take its course in these situations where he was powerless. However, this time he couldn’t let go. It was as if the moment the Seven Sins Fox Light King went extinct, he would be a criminal.

Chu Mu’s heart was a mess. He wanted to find someone to help him undo the problem gnawing at his heart. For a while, he didn’t know who to find. Both Liu Binglan and Ye Qingzi were in New Moon Land.

“Do I just return like this?” Chu Mu sat alone next to a pond.

The day when spring turned to summer was about to arrive. Presumably, Liu Binglan and Ye Qingzi had prepared a grand wedding. This was something worth being happy about. However, the collapse of Imprint Valley was covering Chu Mu’s heart in a heavy shadow...

“Wu wu~~~~”

Mo Xie lay depressed on Chu Mu’s shoulder. She clearly wanted to save the Light King.

Chu Mu looked at the calm pond and sunk into very deep thought.

Some amount of time later, the moon was hanging on the horizon, and it was even later at night.

Chu Mu was still sitting there like a statue. As his thoughts were flying, he didn’t notice a spectral blue colored clear soul appear behind him.

Beautiful long hair and a long white skirt from the waist flowing behind her. Her slim legs took careful steps. A pair of beautiful pupils that could intoxicate others flashed with a crafty glimmer...

She quietly floated up behind the statue and suddenly reached her two hands around Chu Mu’s neck. From behind, she tightly hugged him, wanting to give him a surprise.

However, her arms easily passed through Chu Mu’s body. She wasn’t actually able to hug Chu Mu.

Chu Mu didn’t feel the hug from the beautiful specter. It wasn’t until the small Mo Xie let out a humph sound that Chu Mu realized.

Chu Mu turned around and what met his eyes was a face so beautiful that it could make others forget their thoughts. Chu Mu was stunned for a few seconds...

“Jinrou, why... why are you here?” Chu Mu was both shocked and happy to see Princess Jinrou.

Princess Jinrou stood in front of Chu Mu. Her small mouth was pouting, as she looked like she was sulking.

“I’m a ghost so I have certain abilities, for example being able to haunt someone after my death!” unhappily said Princess Jinrou.

Chu Mu didn’t know how to respond.

“Just now when I hugged you, you were like a blockhead. How detestable.” Princess Jinrou feigned anger coquettishly.

Although specters couldn’t touch normal peoples’ bodies, Chu Mu’s perceptive abilities were very strong. There was no reason he shouldn’t be able to perceive it.

“Oh, I was thinking of something,” explained Chu Mu.

“What were you thinking of?” Princess Jinrou floated over to Chu Mu’s side. Her voice turned much softer because she could see that Chu Mu really was in a conundrum.

“You still haven’t told me why you’re here,” said Chu Mu.

“I followed my father to the north. An old grandfather told us that the Limbo Flower is in the hands of an Immortal Teacher. This eccentric immortal teacher seems to be secluded in Xuan Gate Immortal School, so I came with my father to Zhengming Main City.” Princess Jinrou wore a thin smile as she spoke.

“Such an Immortal Teacher exists in Xuan Gate Immortal School?” said Chu Mu.

Ye Qingzi had previously inquired to Old Madam Ying whether there was an immortal teacher with a revival method in Xuan Gate Immortal Sect. The answer she got was no. But then why did someone from the north say that such an immortal teacher existed in Xuan Gate Immortal Sect?

“I’m not sure either. Perhaps it could be Wupan Continent’s Xuan Gate Immortal Sect.” said Princess Jinrou.

“I’ll send someone to find out.” Chu Mu nodded his head.

“What’re you sitting here alone for? Is there something bothering you?” asked Princess Jinrou.

Chu Mu wanted to find someone to confide to. Bai Jinrou had come at the perfect time.

Promptly, Chu Mu recounted his experience in Imprint Valley to Princess Jinrou.

After listening to Chu Mu’s words, Princess Jinrou was shocked. It was a while before she said: “The Heaven Boundary Monuments said that the strongest creatures were the Seven Sins Fox Light

King and Dark King. Thus, this record on the northern side's Heaven Boundary Monument has been verified!"

"Really?" Chu Mu had only guessed this before. Now that Princess Jinrou gave a definitive answer, he had a bit of a realization.

If the Heaven Boundary Monuments were recounting the past of the Seven Sins Foxes, then as a Monument Tear Individual himself, he definitely needed to uncover the mystery behind the Seven Sins Fox's sin shackles.

His mood was probably affected by his identity as a Monument Tear Individual.

"Then Chu Mu, are you really going to enter Imprint Valley again?" asked Bai Jinrou.

"Don't you remember the Heaven Boundary Monument saying 'To those that have received favor, please return the favor'. Since the Heaven Boundary Monument has saved me once, I can't just let it die." earnestly said Chu Mu.

"I might be able to open the spatial door. However, I don't want you to take the risk..." quietly said Princess Jinrou.

It was a world that was on the verge of collapse. The mere thought of this was enough to make someone's heart tremble.

"Don't worry. I can control other type energy. Chaotic spatial streams don't always have an effect on me." said Chu Mu.

“I’ll accompany you.” said Princess Jinrou.

“That’s out of the question.”

“That’s out of the question?” Princess Jinrou harrumphed and said, “I’m a very forgetful woman and for some reason I always forget a few of the steps to opening a spatial door.”

“....” Chu Mu was speechless.

Chapter 1412: Imprint Valley’s Plot

On the second night, Chu Mu snuck into Divine Sect’s back mountain.

Divine Sect’s Divine Mountain and back mountain were heavily guarded. However, with Xu Daofeng leading the way, there weren’t any problems.

“That’s strange, why are there so many guards?” Xu Daofeng questioned.

After passing through a mountain range lingering with fog, a huge group of Divine Sect members suddenly appeared between the mountain pass and the sky. These people were wearing the same clothes and orderly standing there.

“What’s going on?” asked Chu Mu.

“I don’t know either. Normally there aren’t any guards in this area. However, it’s very strict for some reason today.” said Xu Daofeng.

“Are there other paths?” asked Princess Jinrou.

“Yes, but that place is the sect master’s forbidden ground. Disciples are not permitted to enter.” said Xu Daofeng.

“Are there guards there?” asked Chu Mu.

There were Divine Sect members guarding the valley and the sky. Their path was firmly sealed off. It was practically impossible to enter the back mountain’s Imprint Valley entrance their original way.

“There aren’t... however, with the sect master’s strength, he’ll probably even be able to detect a small mouse passing through his territory.” said Xu Daofeng.

“Let’s give it a try. Just tell me which way it is.” Chu Mu had confidence in his dark hiding abilities.

“That should work. You are, after all, an honored guest of our Divine Sect. Even if the vice sect master discovers you, you can just say that you were unfamiliar with this place and went the wrong way. He probably won’t be able to say anything.” said Xu Daofeng.

Xu Daofeng brought Chu Mu and Bai Jinrou to the sect master’s cultivation mountain. There were people also guarding that place, but it wasn’t as much as the entrance to Imprint Valley.

Princess Jinrou could fully hide her aura, so she scouted the way for Chu Mu. Chu Mu melded his body into the darkness and slowly passed through the cultivation mountain.

The mountain forest was pitch black. Only a few dark purple lamps illuminated the stairs up the mountain path.

On either side of the mountain path were sloped trees. As the wind blew against the trees, it was possible to faintly hear the sound of people talking in the forest.

“Jinrou, wait.” Chu Mu used a mental voice to tell Princess Jinrou to stop.

“What’s the matter?” Princess Jinrou looked at the people who were talking that Chu Mu was looking at in the forest.

“A Monument Tear Individual.” Chu Mu lowered his voice as he spoke.

The Monumen Tear had let out another warm light, meaning that a Monument Tear Individual was nearby!

Chu Mu surveyed his surroundings. He could only hear people talking in the trees, meaning that among these people talking was a Monument Tear Individual!!

This was the second time Chu Mu encountered a Monument Tear Individual. Moreover, the Monument Tear Individual clearly was a Divine Sect Member!

Perhaps the mission for all Monument Tear Individuals was the same. When Chu Mu sensed the Monument Tear Individual's presence, he suddenly wondered if they had also come to save the Light King and to find the secret behind the shackles carried by the Seven Sins Foxes?

“People from Divine Sect also infiltrated the place? Wasn’t the entrance heavily guarded by you guys?” the deep voice of a man rang out.

“My friend, there isn’t just one spatial entrance to an independent space. I think they found an expert proficient with other type creatures.” said another somewhat elderly voice.

“Really... issues always keep arising.” the deep voiced man grumbled.

“Haha, I heard my subordinates say that you went to kill someone not long ago, but that person managed to flee?” laughed the elderly voice.

The man seemed to be slightly annoyed by these words. His voice changed as he said: “Hmph, even if he got lucky, you should know that I don’t really care about people like that. There will always be people in this world with abilities like a rat that can sometimes even escape a lion...”

“Northern Territory Demon Person is indeed a disaster. It would be best to get rid of him.” said the old man.

Their conversation was heard by both Chu Mu and Princess Jinrou.

Perhaps these two people were overly confident, but they didn’t use a mental voice to communicate, nor did they use their perception to scour the surroundings to determine any irregular occurrence. In short, they were unable to discover Chu Mu and Jinrou.

“Chu Mu, who is Northern Territory Demon Person?” asked Princess Jinrou, confused.

“The leader behind Northern Territory’s incident.” Chu Mu gave a rough explanation of Northern Territory’s incident to Princess Jinrou.

“Oh? He killed that many people. Then is he very strong?” said Princess Jinrou.

Chu Mu nodded his head.

From the description of the incident, the slaughterer’s strength was probably extremely strong even among the immortal rank. He was able to slaughter that many immortal rank experts and even a territory’s soul pet dynasty until not a single remained.

However, what shocked Chu Mu even more was this deep voiced man.

“Who is that person talking? Why does he not even attach much importance to Northern Territory’s slaughtering devil?” asked Princess Jinrou.

From the conversation between these two men, it was possible to discern that the deep voiced man had probably fought the Northern Territory’s slaughtering devil and the latter had escaped. According to Chu Mu’s understanding, the only people who had this strength were leader rank people, since Northern Territory’s slaughtering devil was at least a Gate Master rank person.

“I’m not sure either. He probably is some leader. If he’s able to speak frankly with a Divine Sect Sect Master, his status definitely isn’t low.” said Chu Mu.

Chu Mu really wanted to know who he was, because he clearly had a Monument Tear on him!

“Are the subordinates you brought reliable? Don’t accidentally perish with that world.” said the old man.

“They are all the most outstanding ocean lords of my Wupan Navy. I believe in their strength!” said the deep voiced man.

“You pay attention to the matters of the sea, but you also do the same for matters on land. In the recent few years, the influence of you, the Great Chieftain, has been everywhere. Isn’t it better to be more low key so that you won’t be given a warning by Hidden Pupil Royalty?”

When he heard this, Chu Mu’s heart skipped a beat!

The person talking surprisingly was Wupan Navy’s highest Chieftain!!

When Chu Mu had entered Demonic Burial Mound, he had gotten to know Wupan Navy’s Xu Kuan. He was a high ranking navy officer worth respecting.

The navy division Xu Kuan was in charge of was Ninth Division’s 3rd Ship Legion. This meant that there were even more powerful navy officers above Xu Kuan.

Atop the navy chief was the commander of the Ninth Division, and above the commander was the chieftain!

Without a doubt, Wupan Navy's Chieftain was within humanity's top ten leader ranks. Chu Mu never expected the one talking in the forest was Wupan Navy's chieftain. He was a genuine supreme human expert!

"So it was him that participated in Quiet Forest's plundering..." Chu Mu's heart was in turmoil.

One person was Wupan Navy's Chieftain, while the other probably was a vice sect leader of Divine Sect. They were both magnate rank people that ostensibly transcended the power of the secular world. They had participated in Quiet Forest's evil, but who could punish them? They were the people that formulated humanity's decrees!

Chu Mu's breathing became rushed.

If these two magnate rank people discovered that he was eavesdropping, they probably wouldn't leave him alive, right?

"Besides Quiet Forest's matter where I personally appeared, I stood in the back for the other matters. Unless they pursue Quiet Forest's incident, even if Hidden Pupil Royalty ask me to meet them in warning, I won't necessarily have to give them face." said the man called the Great Chieftain.

"Once the solar eclipse arrives, the heaven and earth will change color. Who doesn't want to give themselves a way out? Ai, Quiet Forest's incident was a pity. We exposed too much and we failed to obtain any genuine benefit. Right now, there are many things we can't do in the open..." said the old man.

“Don’t worry, it will be fine in a little bit. Those people can’t just keep their hold on us forever. Speaking of which, the Xu Family brother I sent was killed. Did you get to the bottom of this yet? Who did it and who took away that girl?” asked the old man.

“Hmph, didn’t my people die as well? They were probably killed by the Messiah Tree and the protectors of the girl. The information my people sent back was that it was a devil person. My subordinates are spread out through every corner of the world. It won’t be long before we uncover this devil person!” said the chieftain.

“Go slowly about this matter. We’re currently being watched very closely, and before we’re 100 percent sure, we can’t make any rash actions. You coming to our Zhengming Main City this time truthfully isn’t something good.” said the vice sect leader.

“You set up such a huge plot and are about to close the net. Why would I not come and watch?” said Great Chieftain.

Their laughter rang out and grew further and further away. They were probably walking in another direction.

.....

“Chu Mu, why do I feel like they’re two old crafty foxes discussing a huge plot?” said Princess Jinrou.

“Yes, but what plot did that vice Sect Master set up? Does it have to do with Imprint Valley?” pondered Chu Mu.

From the conversation just now, after him, Xia Yin, and Lin Mengling left Imprint Valley, another group of people entered Imprint Valley. But what did these people enter to do?

“Are we still going to go in?” asked Princess Jinrou.

Chu Mu wouldn’t give up halfway. However, Chu Mu wondered if there was something Lin Mengling didn’t tell him.

Imprint Valley clearly hadn’t been fully closed off. Moreover, there was a group of unknown identity people continuously entering the valley. It was as if there was some treasure that would appear when Imprint Valley collapsed.

“Let’s go and take a look.” Chu Mu had to get to the bottom of this.

Of course, Chu Mu silently remembered these two people.

Since they were the human leaders that had participated in Quiet Forest’s evil and the immortal rank experts he had killed under the Messiah Tree were dispatched by them, they were enemies that he would have to face!

“Chu Mu, do you think we’ve accidentally stepped into some huge plot?” carefully asked Princess Jinrou.

”Chu Mu saw Princess Jinrou’s vigilant appearance and let out a relaxed smile as he said: “The only huge plot I accidentally stepped into was the one in Immortal City...”

“I don’t want to talk to you.” Princess Jinrou floated in front of him, leaving her beautiful and sexy figure from the back in front of Chu Mu.

Chapter 1413: When Enemies Meet, They Blaze with Hatred

Indeed, the Sect Master’s training grounds didn’t have a single guard.

Possibly no one could imagine that someone would run into a Sect Master’s territory.

Coming to the back mountain, the Imprint Valley didn’t have anyone in it to defend. This gave Chu Mu and Princess Jin Rou some convenience.

“Why are there no people guarding here?” Princess Jin Rou asked.

“If the space collapses, the turbulence will flow out of the tunnel and create mass destruction in this area. They don’t have anyone here possibly because of that.” Chu Mu said.

Without guards, Chu Mu and Princess Jin Rou walked straight up to the rock wall.

Princess Jin Rou knew the incantation. This incantation was gained from Heaven Boundary Monument’s sealed ancient texts. She even knew the incantations for all the other Sin Fox valley locations as well as their approximate distribution in the world.

“Someone is heading over, how much longer do you need?” Chu Mu asked.

Princess Jin Rou was still chanting an incantation. Her incantation was much longer than the one Xiao Xueang spoke. It was likely a generic incantation that was similar to a master key.

Princess Jin Rou didn't reply and continued reading. The rock surface slowly revealed some glowing marks that became brilliant diagrams.

Chu Mu glanced around vigilantly. The people were getting nearer. In fact, he could hear them talking already.

"It's rare that the mysterious elder Qin Guang would come to Divine Sect as a guest, why don't we take things slow?" A middle aged man's voice came.

"We don't have much time." The man named Qin Guang didn't seem to like talking.

"Speaking of which, what is in this Imprint Valley that deserves the visit of elder Qin Guang..... Huh, who's there!" The man roared as his eyes flashed!

Chu Mu was stunned. He didn't expect to get caught by Divine Sect people red handed. With a closer look, Chu Mu's face changed. He didn't expect the person to be him of all people!

"New Moon Land King Chu Mu, heng, I think we have something we need to resolve!" Gate Master Han recognized Chu Mu and started laughing coldly.

Chu Mu cursed his bad luck. How was it that he met Gate Master Han. This person already knew that Han Erxing was killed by him. However, because of Sect Master Xiao's restrictions, he didn't dare to do anything. This time, getting caught gave him an excuse to act.

“Weng~~~~” At this moment, the spatial door completed, creating a brilliant tunnel that headed straight towards another dimension.

Chu Mu didn’t want to start a fight with Gate Master Han at this time and quickly pulled Princess Jin Rou through the spatial tunnel.

“Where do you think you’re going!” When enemies meet, they blaze with hatred. Gate Master Han couldn't just let Chu Mu run away like this.

An incantation sounded, and a massive tiger created by light beams appeared. Its size was the same as the rock wall and its aura wasn’t weaker than the Martial Cloud Dragon. It was at least a low class immortal rank organism!

“Houhou!!!!”

The light tiger roared and slammed its claw towards the spatial tunnel!

Immediately, the massive energy flowed through the spatial tunnel, its spiralling energy nearing the swiftly escaping Chu Mu and Princess Jin Rou.

Chu Mu turned around to look at the turbid energy. Making a fist with his right hand, he slammed a silver energy back behind him!

“Beng~~~~~”

The space erupted as the light tiger's claw attack was scattered.

At the same time, the entire spatial tunnel was snapped into many pieces by the vibrations. Just when the Light Tiger wanted to chase after them, the spatial tunnel's collapse meant it could no longer be accessed for a short while.

In reality, even if the Light Tiger decided to come in, Chu Mu wasn't necessarily scared. In such a chaotic space, what organism could truly compete with an other type organism?

Passing through the spatial tunnel, Chu Mu and Princess Jin Rou safely arrived at the silent little valley.

Taking a breath, Bai Jinrou feigned anger, "Who was that, why did he look as if you killed his father the moment he met you?"

"He's a Gate Master of Divine Sect, I killed his eldest son." Chu Mu laughed bitterly.

"Ah?" Princess Jin Rou was just joking, but she didn't realize Chu Mu really had an irreconcilable act against him. Killing the eldest son was indeed not much different from killing the father.

"Let's run away quickly. Once the spatial tunnel recovers, he'll definitely send someone after us." Chu Mu said.

"En." Princess Jin Rou nodded.

.....

Outside the rock wall, Gate Master Han's face turned green and white.

"That young man, he's pretty powerful, huh?" Qin Guang gazed deep into the chaotic spatial tunnel and said lightly.

Gate Master Han of course knew this as well. He knew his Light Tiger's strength well. The opponent being able to easily dissipate his attack and even break the spatial tunnel in the process meant Chu Mu had a strength far beyond even what was revealed at the Outstanding Experts Competition!

Gate Master Han was even more certain that his son Han Erxing was killed by Chu Mu, despite not seeing what soul pet had resolved his Light Tiger's attack.

"Elder Qin Guang, seeing as we've known each other for so long, can you help me with a small matter?" Gate Master Han said seriously.

"Gate Master Han currently holds heavy power within Divine Sect, what can you not accomplish?" Qin Guang said with interest.

"Since Elder wishes to enter Imprint Valley, then please help me kill that kid. If you bring back his head to me, I, Han Yan, will go all out on the matters you mentioned to me beforehand." Gate Master Han said.

How could he not attempt to avenge his lost son?

In Zhengming Main City, Sect Master Xiao and Magistrate Xiao were both protecting him and his New Moon Land. Han Yan couldn't find a chance.

But now that Chu Mu was running into imprint valley, if he were to die within it, who would even know?

"Since Gate Master Han asks for it, Qin Guang will naturally go all out as well." Qin Guang smiled slightly. However, in his mind he was secretly questioning this as well. What kind of hatred was between that young man and Gate Master Han, able to convince Gate Master Han to agree to his extremely stringent demands beforehand?

Qin Guang didn't ask about it. He wanted only for Gate Master Han to help him using his authority. If he could get that through killing one person, it was an easy decision.

"I have some subordinates who will enter Imprint Valley too, they can be commanded by you." Gate Master Han said.

"En, I will bring his head to you." Qin Guang nodded.

"Elder Qin's strength is something I, Han Yan, can trust." Gate Master Han said politely.

As he spoke, Gate Master Han glanced at the slowly recovering spatial tunnel. With an incantation, he reopened the spatial doors.

Gate Master Han called over three subordinates to enter the Imprint valley with Qin Guang. Only when the four people left did Gate Master Han's face slightly recover. He revealed a cruel smile, "You had a path to stay alive, yet you foolishly chose this path of death instead. I will bring your head as a sacrifice to my child!"

"Get some people, guard this exit!!" Gate Master Han waved his hand and commanded the divine sect disciples outside the valley.

The moment he spoke, a team of Divine Sect experts flew over and formed a rank in front of the rock wall!

.....

"The Imprint valley doors only open at a certain time. In a little longer, the Imprint Valley will close. The next time it opens will be in a year. In a year, the Imprint Valley will become complete chaos. We have to time it well so that even if we can't find Light King, we have to leave at a certain time." Princess Jin Rou warned Chu Mu seriously.

"En, I know." Chu Mu nodded back, equally serious.

It was very close to his wedding day. Chu Mu already gave up one chance to wed Ye Qingzi. He didn't want it to happen a second time.

After the valley, when they entered the third layer of the sky, Chu Mu's spatial senses alerted him that there were signs of spatial collapses already.

When space starts cracking and collapsing, the flow of air becomes strange.

The moment they stepped into the Imprint Valley, the spatial winds slammed into them. They had only left Imprint Valley recently, yet it seemed as if it were a whole different world now.

Chu Mu clearly remembered the route still. Chu Mu first brought Princess Jin Rou towards the cultivation diagrams.

“Jin Rou, help me detect two organisms.” Chu mu said to Princess Jin Rou.

Princess Jin Rou’s detection was probably the strongest on earth. Her devil spirit wasn’t low in rank anymore, giving her a detection far stronger than a Spirit Immortal like Chu Mu.

“Ok.” Princess Jin Rou closed her eyes and started sensing based on Chu Mu’s descriptions.

Chu Mu told Princess Jin Rou to look for the Martial Cloud Dragon and Martial Cloud Dragon baby.

Having spent a few months with them, even if it were mostly passed through uneventful cultivation and sleeping, Chu Mu still couldn’t bear to see the cute Martial Cloud Dragon disappear in Imprint Valley.

“Do you sense them?” Chu Mu asked.

“En, they’re in that direction.” Princess Jin Rou nodded and pointed towards the light valley.

“They’re there? Perfect, we don’t have to take a detour then.” Chu Mu smiled.

They didn’t have much time in Imprint Valley so Chu Mu was worried the Martial Cloud Dragon had run away to a distant place.

“But there seems to be more people there too.” Princess Jin Rou said.

“Let’s go see it first.” Chu Mu patted Night to tell it to speed up.

Night quickly accelerated, using the whistling winds to its advantage.

Chu Mu turned around to speak to Princess Jin Rou but found her arms around his waist, her face against his shoulder.

“What’s wrong?” Chu Mu asked.

“I found that I really enjoy this feeling of going on adventures with you. Let me tell you a secret. When you took me out of Jia City back then, I actually somewhat wished if you could fully abduct me.....” Princess Jin Rou smiled naively.

“I didn’t know I was that attractive.” Chu Mu nodded with thought.

“Shameless....” Princess Jin Rou rolled her eyes and continued, “At the time, my thought was that I would marry anyone who had the courage to take me away.”

“Alright.” Chu Mu laughed helplessly.

How could Chu Mu know that she was such a rebellious princess at the time?

Maybe, many people that seem unreachable but were restricted by many laws and customs actually have a heart of adventure.

Chapter 1414: Martial Cloud Dragon’s Advent

“Haha, we really are lucky, we met a Martial Cloud Dragon infant. No one contest this, this little Martial Cloud Dragon is mine!” A brash sound came from the woman’s voice.

The woman had ink colored hair with hair coiled like a snake. Her slightly yellowed face also had two snake tattoos.

She had a strange laugh, coupled with a stranger outfit.

“Hehe, I naturally won’t fight over it with Sister She. Sister She will get the most of it, and we can just get a little less. This Martial Cloud Dragon’s soul core, for example....” The other two men said.

These two men both had a snake tattoo on their head as well, but its colors were different from the female named She.

These two snake tattoo men both rode immortal rank soul pets. Behind them were four or five subordinates all strong as well that were fighting the Martial Cloud Dragon with Sister She.

Martial Cloud Dragon was annoyed and angry, with its dragon breath constantly shooting towards them!

“Houhou!!!!” Martial Cloud Dragon knew what they were thinking about and showed no mercy. The dragon breath landed on one of the four-winged dragons snake’s bodies, causing its skin to melt!

“My Snake Dragon!!” A soul pet trainer shouted!

Dragon breath was spewed onto the four-winged Snake Dragon. With a large shout, the Snake Dragon became a pile of bones in a few short seconds!

These snake tattoo people all drew a breath. They had no idea that this Martial Cloud Dragon would be this powerful, able to instantly kill a pseudo immortal rank four-winged Snake Dragon in one breath!

“Trash, keep formation!” The Sister She angrily yelled!

Their Snake Dragon faction had spent a long time to create an immortal rank member, yet it was killed without any effect against the Martial Cloud Dragon!

The other members of Snake Dragon Faction saw someone’s soul pet die painfully and no longer dared to go easy, quickly maintaining formation, lest they end up dying in the same way.

When the Snake Dragons ganged up, their long bodies created a coiling formation around the Martial Cloud Dragon. The snakes' poison on the Martial Cloud Dragon blue skin slowly corroded the armor layers.

The Martial Cloud Dragon flapped its wings and slammed its powerful body straight into the formation!

It wasn't successful, and was quickly slapped back by the Snake Dragon tails surrounding it. It quickly was met with a wave of biting and scratching!

The Snake Dragons' poison fangs couldn't bite through Martial Cloud Dragon's defense completely, but their poison was incredible.

As the poison stayed in its body for longer, any powerful organism would slowly be weakened. The Snake Dragon Faction planned to use this formation to trap the Martial Cloud Dragon and slowly weaken it.

The more strength the Martial Cloud Dragon showed, the more they all wanted the Martial Cloud Dragon infant. After all, their entire faction valued powerful dragons and snakes.

"Maintain formation, if anyone makes a mistake, I'll throw them into my Wa Snake's belly immediately!" That Lady She's sharp voice reminded everyone.

The others no longer dared to get distracted. Both the Martial Cloud Dragon and Enforcer She were characters that would kill without a second thought.

.....

Not far away, when Chu Mu and Princess Jin Rou arrived, the Martial Cloud Dragon was already trapped by the formation without escape. All the twisting bodies were hard to look at.

“What are these people?” Princess Jin Rou asked.

Looking at this group of people, Chu Mu fell into deep thought. Why was it that a large group of people entered right after they left? And why were they entering?

“They have snake marks on them so they likely are part of the high level faction Snake Dragon Faction of Demon Beast Palace.” Chu Mu recognized their backgrounds.

Demon Beast Palace had many factions within it, of which include Snake Dragon Faction, Horned Armored Faction, and Demon Feather Faction as the main factions. Downwards, another few thousand factions were split off. This was what Demon Beast Palace Xiao Xiao told Chu Mu. Wupan Continent and Zhengming Continent’s demon beast palace were both split like this. The fact that they all have snake tattoos means that their identity is more or less confirmed.

“Let me go help the Martial Cloud Dragon.” Chu Mu said.

“En, let me create some mental attacks that ruin their formation.” Princess Jin Rou said.

The two people split up their work. Chu Mu rode Night directly into the massive formation. While he flew, Chu Mu summoned the Ghost Monarch King!

“Ghost Monarch, Monarch Ghost Transformation, attack!”

As Night ran handsomely, aside Night appeared a column of rolling rocks that slammed straight towards the Snake Dragon Formation!

Within the rolling rock tide, a massive curved sword, large as a mountain, appeared first. After that, the pillar-like Ghost Monarch King’s rock body followed!

Ghost Monarch King appeared by Chu Mu and Night as a vanguard. A slash of its sword echoed through the skies!

With the slash, a Snake Dragon in the outer ring didn’t dodge in time, and had its skull slashed off!

“Beng!!!”

The massive skull, as large as a house, fell in front of Night, drenched in blood!

Night’s figure became a phantom that passed under the snake head!

Shattering Dream!

A cold glint passed through, piercing a Cyan Snake Dragon’s body.

The Cyan Snake Dragon's body shivered, its body falling away from the formation.

“Ao!!!!!”

Martial Cloud Dragon seized the opportunity and flapped its wings. It appeared right before the Cyan Snake Dragon and grabbed onto its tail!

Martial Cloud Dragon used its power to pull the cyan Snake Dragon right out of the formation. Its body was at least a hundred meters long, yet its body was now tightly grasped in Martial Cloud Dragon's hand like a rope. No matter how it struggled, it was dead!

“Aoao!!!!!!!”

The angry Martial Cloud Dragon ripped the cyan Snake Dragon aside. Immediately, it was ripped in two pieces, bleeding profusely from the center!!

The blood splattered everywhere, causing Snake Dragon Faction to be shocked!

“Ning!!!!!”

Suddenly, an incredibly powerful mental voice poured into the Snake Dragons and soul pet trainers' ears.

This sound was like a high pitched whine from a vocalist. It was beautiful and alluring, yet this sound that drowned out the world had terrifying killing intent. Those with weak mental strengths could even have their souls immediately pierced!

Soul pet trainer and Snake Dragons were shocked by this mental quake. Some of the soul pet trainers started bleeding from their ears, and the Snake Dragon Formation started falling into chaos.

Martial Cloud Dragon was powerful and dominant. If not for the formation, how would it get restricted by these Snake Dragons?

After the formation broke, Martial Cloud Dragon immediately became cruel, and slashed the Snake Dragons apart into flesh!

“Back off, back off!!” Enforcer She let out a shout.

This group of threatening Snake Dragons instantly scattered, no longer daring to compete against the powerful Martial Cloud Dragon.

Snake Dragon Faction’s people escaped pretty quickly. The Martial Cloud Dragon only chased for a small distance before they all disappeared.

There were four to five Snake Dragon corpses left on the ground. Old Li suddenly jumped out of Chu Mu’s soul pet space to claw out a soul crystal from one of the corpses.

“Young master, you’re lucky, there’s a soul crystal!” Old Li smiled and said.

These Snake Dragons were all near immortal rank or were pseudo immortal rank. Their soul crystals were extremely valuable already. When Chu Mu was protecting the cultivation diagram, he also met some immortal rank organisms. However, even after he killed them, he obtained no soul crystals. Yet, this time, after helping Martial Cloud Dragon, he managed to get one.

“Bug type and beast type, young master should bring them back to Ye Qingzi and Ning Maner. Then, Zhan Ye’s immortal rank issue will be solved.” Old Li said.

Chu Mu nodded and put away this unexpected fortune.

At this moment, Martial Cloud Dragon’s massive body fell right in front of Chu Mu. Its cyan scales were still dripping with Snake Dragon blood. This scene could cause most people to shiver.

“Dududu~~~~~”

Martial Cloud Dragon’s little baby was on Martial Cloud Dragon’s head. It clearly recognized Chu Mu, and started jumping with excitement.

The danger before didn’t affect little Martial Cloud Dragon at all. It was still like a little kid grabbing Mo Xie’s tail. Its two dragon fangs were exposed in the air, extremely cute.

Martial Cloud Dragon also recognized Chu Mu. If not for Chu Mu’s sudden appearance destroying the Snake Dragon formation, Martial Cloud Dragon may really have an issue escaping. Thus, its gaze at Chu Mu was much friendlier as well.

“Princess Jin Rou, can you tell it Imprint Valley is about to collapse, and ask if they’re willing to leave with us.” Chu Mu said to Princess Jin Rou.

“Alright.” Princess Jin Rou had the ability to read hearts, and also had the ability to communicate with soul pets.

She floated onto Martial Cloud Dragon’s head and lightly put a hand on its forehead to transfer Chu Mu’s message.

After a moment, Princess Jin Rou floated back to Chu Mu.

“What’s up?”

“Martial Cloud Dragon said that it also felt the spatial abnormalities and has been looking for a spatial tunnel out.” Princess Jin Rou said.

Martial Cloud Dragon had lived in this place for a very long time. It didn’t care whether it would perish with the world, but it had to plan ahead for little Martial Cloud Dragon.

This time, Chu Mu’s rescue made Martial Cloud Dragon trust Chu Mu to a certain extent.

“Alright, let it come with me and we can go look for the Light King now.” Chu Mu said.

The Martial Cloud Dragon was powerful. Normal immortal ranks weren’t really its match. With the Martial Cloud Dragon, even if Gate Master Han sent people after him, he would be relatively safe.

Chu Mu couldn't go half-devil in Imprint Valley, so the Martial Cloud Dragon was good insurance for him.

Chapter 1415: Darkness Sect, Heaven Slaughter

As they flew towards Light Valley, many Light Sparrows could be seen circling in the cloud layer in the sky. These Light Sparrows hadn't sensed the abnormality of the space, and were still going about their daily lives.

Chu Mu knew that he would not be treated favorably by light type creatures. Even if he said that the space would collapse, they wouldn't necessarily believe him. He glanced at the phoenix nest of clouds, and could only sigh as he went right past it.

"Jinrou, where we are currently is an enormous light formation. These rocks, ravines, fissures, and mountain peaks are the formation eye, the nodes, and the symbols of the formation." Chu Mu said to Princess Jinrou.

Princess Jinrou carefully observed her surroundings. She had a base of knowledge about formations. Although she wasn't like Yu Suo who could instantly create a formation, she was able to determine a few things from these markings.

"My range of vision is too narrow. I'll only be able to figure it out when I get higher up in the air," said Princess Jinrou.

They continued to ascend the tall mountain. Each time they got higher, Princess Jinrou would turn around to look at the formation valley.

She used her mental strength to make a mental image, and was able to draw out the formation shape.

The formation valley was like an enormous drawing splayed on the ground. From a high altitude, even several hundred meter tall mountains were but mere small needle points.

“That’s strange, it seems like some part of the formation has been destroyed.” Princess Jinrou creased her brows. She points at a part of the drawing and continued: “When you went to Wupan Continent, my father and I took a trip to Lightning Valley. The formation structure in Lightning Valley is similar to this formation. However, it’s more complete than this light formation. The seventh star formation eye has been destroyed and half of the half moon diagram has been erased. Additionally, a crucial energy link diagram, the long dragon diagram, has been destroyed...”

Chu Mu didn’t really understand what Princess Jinrou was saying. He could only blankly watch her and wait for her to continue explaining.

“If for instance, this was a sealing formation, the strength of the seal would only be one-tenth of its origin. If this was an energy formation, its power would not even be one-fifth of its origin. Thus, this light formation must be a deficient formation.” said Princess Jinrou.

They continued walking up the mountain. At the peak of the mountain, Chu Mu began walking towards the Light King’s cave.

Unfortunately, the Seven Sins Fox Light King was not on the peak. This made Chu Mu a bit worried.

Imprint Valley was vast, and if the Light King had run to a very far away location, Chu Mu would be unable to bring it out within this short period of time.

Jinrou, can you sense again to see if it's here," said Chu Mu.

Princess Jinrou's enormous sensing range expended a large amount of mental strength. Therefore, Chu Mu didn't want her to use it previously to sense the Light King.

"Ok." Princess Jinrou nodded her head. She slowly placed her two white hands in front of her breasts and closed her eyes.

Chu Mu silently waited. The adjacent Martial Cloud Dragon rubbed its head, not understanding what these two humans were doing.

"I can't sense it." Princess Jinrou opened her eyes.

Chu Mu's expression faintly sank. If she was unable to sense it, it was ostensibly impossible to find the Light King in Imprint Valley.

"My sensing method can cover the majority of Imprint Valley. The fact I can't sense it means that it's located in a place where there's a spatial restriction." Princess Jinrou pointed continuous and unending formation as she continued, "It's probably inside the formation."

"Ok, Martial Cloud Dragon, bring us over," said Chu Mu.

The Martial Cloud Dragon nodded its head. It spread its wings and waited for Chu Mu and Princess Jinrou to find a steady seat before it took off from the tall mountain peak and glided down.

The Martial Cloud Dragon didn't beat its wings at a fast rate. However, its wings were extremely powerful. The flying speed of this wing type overlord was displayed thoroughly as it quickly left the mountain peak in the horizon.

.....

.....

On a hundred meter tall mountain, a man with a dragon marking engraved into his face coldly stood there.

Behind him were four men. Their foreheads also had a dragon marking engraved. They stood there unmoving like four statues.

In front of them kneeled eight people. The leader of these eight people happened to be Enforcer She who had a snake marking engraved on her face. The remaining seven were kneeling with both knees. Their faces were pressed against the ground.

“Very good, very good. In order to obtain a single Martial Cloud Dragon child, you lost five Immortal Snake Dragons. You guys really made a profit!” the corners of the dragon marking man's mouth quivered.

The kneeling people were all afraid and uneasy. Their master was a devil who didn't blink when killing people. Who in the entire Demon Beast Palace didn't know of the name Zeng Long?

Snake Dragon Faction's Eminence and Demon Beast Palace's Enforcer Zongxi. People of these ranks had the power to crush the lives of tens of billions of people wherever they went. Even immortal rank experts had to lower their prideful heads in front of them.

"Eminence, we were initially almost about to catch it, but someone suddenly appeared and threw our formation into disarray." Enforcer She thought of an excuse.

Zeng Long narrowed his eyes. Suddenly, a golden poisonous snake shot out, instantly wrapping around Enforcer She's neck. She wasn't able to say a single word.

Enforcer She's face instantly turned red and veins began to bulge.

Her eyes were full of fear and imploring. She was imploring the Eminence to let her go.

"Hmph, I don't want to hear your excuses. If it wasn't because we lack people in Imprint Valley's fight, I would have already fed you people and your soul pets to my Golden Snake!" angrily said Zeng Long.

"Yes, yes. We will not let other issues keep arising." after Enforcer Shen caught her breath, she hastily replied.

"Once we finish what we must do, we will immediately leave. If anyone wishes to die with this world, I'll gladly help!" coldly said Zeng Long.

"Eminence, Divine Sect's people are already present." a dragon marking man behind Zeng Long said.

“Ok, let’s convene with them first.”

.....

The Martial Cloud Dragon landed heavily in the Light Valley formation. In this complex formation valley, it would be no easy task to find the Light King, especially since Princess Jinrou’s perception was restricted by the formation.

The reason why Chu Mu wanted the Martial Cloud Dragon to land here was because he saw a group of people. This group of people was dressed strangely. Their faces were all covered, and it was unknown what faction they belonged to.

These people seemed to have just entered Imprint Valley. From the direction they were walking, they probably hadn’t entered from Divine Sect’s back mountain.

Chu Mu wasn’t too nervous. He chanted an incantation, and a faint holy blue light appeared on his body.

“What is that? It’s so fragrant.” asked Princess Jinrou.

“It’s the Evil Good Beauty’s aura,” responded Chu Mu.

The fragrance wafted along with the wind towards the group of masked people who were moving very cautiously. Chu Mu quietly waited where he was for a while before a figure suddenly rapidly flew towards him.

When the Martial Cloud Dragon discovered a stranger approach, its eyes instantly turned savage and imposing. It wanted to slash the person coming with a claw.

The figure jumped with fright and hastily tried to dodge.

“Martial Cloud Dragon, don’t attack. It’s one of our own.” Chu Mu quickly called out to the Martial Cloud Dragon.

Although the Martial Cloud Dragon didn’t understand the human language, it roughly understood what Chu Mu was trying to convey. It slowly retracted its claw.

The stranger’s body was covered in sweat. How would it know that this master would have such a powerful dragon next to him. If he was a bit slower, he would have been instakilled here.

“Master.” the masked person fearfully walked up to Chu Mu and respectfully bowed.

“Your identity,” asked Chu Mu.

“This subordinate is Wan Chong’s direct subordinate - Leng Lou. I am in charge of Zhengming Main City’s assassination operations. I also gather information on the large factions. The information about the large factions entering Imprint Valley was something this subordinate learned of.” said the man called Leng Lou.

Leng Lou was a Darkness Sect member who served Wan Chong.

Wan Chong was the Darkness Sect Helm Lord in Cloud Realm City in the past. He was someone who had probably come from the same place as Yu Suo. After falling into darkness, he had met Yu Suo again and continued to serve her enormous Invisible Kingdom.

Wan Chong's position in the darkness had risen and he was no longer a mere Helm Lord.

"The person leading you into Imprint Valley is Wan Chong?" asked Chu Mu.

"Reporting to master, Senior Wan Chong is in the Southern Extreme territory. The person leading us nine people from Darkness Sect is Senior Heaven Slaughter." responded Leng Lou.

"Who is Heaven Slaughter?" Chu Mu continued to ask.

"Do you know of Northern Territory's incident?"

Chu Mu nodded his head.

"He was the cause of the incident there," said Leng Luo. Chu Mu was shocked.

The slaughtering devil had appeared in Imprint Valley!

The atrocity of the Northern Territory had spread throughout the entire Zhengming Continent.

“For what purpose is Heaven Slaughter bringing you here?” asked Chu Mu.

“We’re doing as Senior Heaven Slaughter wishes. The moment we encounter anyone from another faction, we are to kill him or her without exception. This matter could have something to do with Monument Tear Individuals, because there was news leaked that numerous Monument Tear Individuals used other methods to enter Imprint Valley; following this, Fake Monument Tear Individuals came...” said Leng Lou.

It indeed was related to Monument Tear Individuals. Perhaps the Monument Tears had used some method to warn nearby Monument Tear Individuals and had them enter Imprint Valley to save the Light King.

Clearly, it wasn’t only him who was worried about the Light king. The other Monument Tear Individuals had moved.

Moreover, the Fake Monument Tear Individuals that wanted to obtain Monument Tears had also learned of this information. Thus, they poured into Imprint Valley for the purpose of killing Monument Tear Individuals and obtaining Monument Tears from them...

“This place has become a contending ground!” Chu Mu let out a sigh.

Monument Tear perception was also restricted in Imprint Valley. Nobody knew who was a Monument Tear Individual or a Fake Monument Tear Individual. Thus, the situation would be even more chaotic.

“This subordinate must go back. If Senior Heaven Slaughter notices, this small one’s life will be in danger,” said Leng Lou.

“Ok, go back.” Chu Mu nodded his head.

Leng Lou looked a bit apprehensively at the Martial Cloud Dragon before transforming into a black shadow that quickly disappeared from in front of Chu Mu.

The moment Leng Lou left, the adjacent Princess Jinrou used her beautiful eyes to look confusedly at Chu Mu.

She didn’t understand why Chu Mu had relations with Darkness Sect people. Moreover, that man named Leng Lou had also called Chu Mu, “master”.

“He’s Yu Suo’s subordinate’s subordinate. Currently, the faction we have in the open in Zhengming Continent is New Moon Land’s faction; in the darkness, we have the kingdom Yu Suo controls. They mutually help each other and their rate of development will greatly increase.” explained Chu Mu.

“You are the king of New Moon Land, and you are also the master of Invisible Kingdom. Then doesn’t that mean you’re the hidden big shot behind the scenes in Zhengming Continent?”

Chu Mu shook his head and said: “Compared to those large factions, New Moon Land and Invisible Kingdom are still too weak. Look at Demon Beast Palace; a single faction of theirs controls that many immortal rank experts.”

The Charm of Soul Pets

Chapter 1416: The Sealed Light King

Without knowing where the Light King was, they could only aimlessly search the Formation Valley.

Many creatures lived in the light formation. Along the way, they were often able to see unusual eyes hiding behind cracks in rocks and rocks, sneakily examining the people walking through Light Valley.

Martial Cloud Dragon was following next to Chu Mu so the normal creatures didn't dare find trouble for Chu Mu.

"Chu Mu, there are a lot of corpses ahead." Princess Jinrou sensed something and spoke to Chu Mu.

They traveled for about five or six kilometers and indeed they were greeted by soul pet corpses strewn in a disarray over the ground.

Chu Mu briefly examined these corpses and discovered that many of them had received light type attacks.

However, there were a few corpses that were exceptionally strange. Their bodies were split into two, but there was nothing on their wounds...

"It's like spatial force ripped them apart." Chu Mu muttered to himself.

The dead soul pet body he was examining was probably close to an immortal rank. If it had been instakilled by spatial force, this meant the spatial force was extremely powerful.

Other type creatures were probably the most rarely seen amongst all soul pets. He could pretty much ascertain that the corpses around him were killed by a creature that wielded spatial force that was extremely strong.

“Chu Mu, hurry and look!” Princess Jinrou suddenly pointed at the horizon.

Chu Mu looked up and discovered a shocking chaotic fissures appear in the air!

The mysterious split of space exposed chaotic things. It was abstruse, unknown and from far away, it was possible to see nearby creature sucked into the fissure!

The chaotic area in the third layer of the sky was filled with extremely powerful spatial storms. Even as an other type soul pet himself, Chu Mu didn't dare rashly try going, let alone other attributed soul pets.

The moment one was sucked into the ripped open space, there was no chance of surviving!

Chu Mu took in a deep breath. The appearance of the fissure was completely without warning, like a lightning bolt smashing down from a clear sky. If these fissures became frequent and concentrated together...

No creature would be able to survive here!

This fissure was enough to demonstrate that the world was unstable. Chu Mu was genuinely afraid that if something like this suddenly appeared on top of his head, he wouldn't be able to dodge it.

As he looked at the shocking fissure hanging in the horizon, a milky white figure suddenly flashed by the fissure, leaving a long light track through the air.

“It’s the Light King!” Chu Mu immediately recognized it.

“Martial Cloud Dragon. Bring us and chase after it.” Chu Mu hastily said to the Martial Cloud Dragon.

The Martial Cloud Dragon nodded its head and abruptly spread its wings. It took flight in the valley. The towering rocks in front of it were like bubbles that it couldn’t even be bothered to dodge as it just tyrannically flew right through.

The Martial Cloud Dragon baby seemed to really enjoy the display of force and let out incessant excited cries.

The Martial Cloud Dragon’s aerial speed could be considered absolute. Soon, it neared the Seven Sins Fox Light King.

The Seven Sins Fox Light King didn’t realize that there was someone following it. It stepped on a beam of light as it landed in a ground fissure.

The ground fissure took the form of a canyon. At the bottom of the canyon boiled red magma. The Sven Sins Fox Light King stepped on space as it rushed through the magma river valley.

At the end of the valley, the Seven Sins Fox Light King suddenly stopped and used its claws to fiercely smash the top of the magma river valley.

The entire piece of land instantly split apart and the surging magma roared under the might of its claws. It shot up into the sky and spewed into a gorgeous magma rain!

“Wu wu wu wu!!!!!!”

The Seven Sins Fox Light King let out another attack. Its immortal rank strength was capable of destroying the heaven and earth. If it weren't for the composition of the formation valley being special, this area would have already been reduced to spatial ruins.

“Chu Mu, it's destroying the formation diagram!” Princess Jinrou watched the Light King's actions from afar and spoke to Chu Mu.

Chu Mu didn't know why the Light King was doing this, but his top priority was to bring the Light King out.

The Martial Cloud Dragon flew towards the Light King, which finally sensed a powerful creature flying over. Its sharp eyes stared at the Martial Cloud Dragon.

“Wu wu~~~” the small Mo Xie let out a cry, informing the Light King that the Martial Cloud Dragon was a friend.

After the Seven Sins Fox Light King saw Chu Mu and Mo Xie, its hostility slightly waned.

“Mo Xie, tell it to leave with us,” said Chu Mu.

Mo Xie nodded her head. She jumped off the Martial Cloud Dragon's back, jumped up next to the Seven Sins Fox Light King and cried out.

The Seven Sins Fox Light King raised its head. It stared at the spatial fissure that had just mysteriously appeared.

A moment later, the Seven Sins Fox Light King shook its head, and said something to Mo Xie.

"It's unwilling to leave?" Chu Mu asked, slightly astonished.

"Wu wu wu~~~~" Mo Xie let out a cry.

"Let me communicate with it." Princess Jinrou flew in front of the Seven Sins Fox Light King and lightly placed her hands on its forehead.

However, the Seven Sins Fox Light King didn't plan on communicating that much with Princess Jinrou. It suddenly transformed into a beam of light that shot into the enormous rift as it continued to use its strength smash the rift.

Its claws that shone with intense holy light smashed down one time after the other. The Seven Sins Fox Light King seemingly didn't take a break as it attacked the ground. It was like it wanted to completely destroy this place.

“Chu Mu, this place is an energy link belt of the formation. The place the Light King is attacking is the formation eye.” said Princess Jinrou.

“Could the prior destruction of the light formation have been caused by it?” asked Chu Mu.

“Perhaps... this light formation is the shackles of their Seven Sins Fox. If it can destroy all seven formations, perhaps they may be able to break free of their fate.” said Princess Jinrou.

“Imprint Valley is about to be destroyed. The formation will probably disappear along with it, right?” said Chu Mu.

“That seems to be the case...” Princess Jinrou nodded her head. For a moment, she was unable to guess the Light King’s intentions.

“Ao!!!!!!!”

Suddenly, the Martial Cloud Dragon let out an angry roar. It abruptly spread its wings and gave a sweep. It swept Chu Mu, Princess Jinrou, Mo Xie and the Martial Cloud Dragon baby away in one blow.

Chu Mu still didn’t understand what had happened when a spatial fissure suddenly emerged without warning. It appeared right where they were previously standing.

The Martial Cloud Dragon’s reaction speed was very fast. After sweeping away Chu Mu and the others, it flapped its wings and slid back a long distance. The spatial fissure, resembling an enormous thunderbolt, that suddenly appeared, was hanging in front of the Martial Cloud Dragon.

Both Chu Mu and Princess Jinrou sucked in a breath of air. The spatial fissure energy had been too sudden. Even Chu Mu hadn't sensed it.

If they were struck by it, the consequences would have been unthinkable.

"This place is going to collapse." Princess Jinrou uneasily said.

Chu Mu glanced at the extremely obstinate Light King which actions were completely incomprehensible...

Princess Jinrou looked at Chu Mu's worrying expression and softly guessed: "Is there something else sealed in the formation valley?"

"Wu wu wu wu wu wu!!!!!!!"

The Seven Sins Fox Light King turned around and glanced at the spatial fissure. Instantly, it let out a mournful cry.

Its attacks became even more fierce. Clearly, it was extremely anxious and angry!

"Long long long long~~~~~"

Ardent light shot in four directions, transforming into enormous swords that smashed at the formation. The formation violently shook once more and densely packed cracks began to spread like spiderwebs.

After destroying the rift below it, the Seven Sins Fox Light King immediately used its claws to forcibly rip apart the surface of the earth. Instantly, gorgeous pillars of magma shot up.

“Wu wu wu wu!!!!!!”

Suddenly, a cry rang out from the depths of ground!

The fox cry was rather weak and impatient. It seemed like it was telling the Seven Sins Fox Light King to leave.

After hearing the cry, the Seven Sins Fox Light King seemed to have become a madman as it used its light force imbued claws to frantically rip at the formation.

There visibly was an extremely powerful barrier at the center of the formation. After attacking the formation, the Seven Sins Fox Light King would suffer backlash, leaving numerous wounds on its body.

“There really is a sealed demon fox. Could it be another Seven Sins Fox Light King?” said Princess Jinrou, pleasantly surprised.

Chu Mu was stunned. From the cry just now, he was able to determine that the Demon Fox underneath the surface of the formation was probably a high bloodline creature. Given that the Seven Sins Fox Light King was doing everything it could to save the Demon Fox that was sealed,

despite the world being destroyed, meant that the sealed creature was very likely another Seven Sins Fox Light King!

“Mo Xie, help it undo the barrier.” Chu Mu hastily told Mo Xie.

Mo Xie’s body was engulfed in purple flames as it quickly transformed into a Hades Fox Noble.

The silver moon mark on Mo Xie’s forehead shone. Mo Xie’s strength wasn’t as high as the Seven Sins Fox Light King, but her species technique was an outstanding barrier weapon!

Its claws descended, transforming into a gorgeous silver moon claw blade. The blade landed on the light type barrier and cracks instantly appeared on the barrier.

Once cracks appeared, ripping it apart was much easier. The Seven Sins Fox Light King glanced gratefully at Mo Xie before frantically concentrating all of the surrounding light energy into its claws.

The dazzling light valley mysteriously went dim as all of the light energy became power for the Seven Sins Fox Light King’s claw that poured into the thick barrier!

After the barrier let out a crisp sound, it cracked apart. The Seven Sins Fox Light King didn’t hesitate and dug its way into the sealing formation.

“Let’s follow,” said Chu Mu.

The Martial Cloud Dragon beat its wings and shrunk its body as it brought Chu Mu and Princess Jinrou into the sealing formation.

The interior of the sealing formation was pitch black, and what existed was a dense darkness element.

In the darkness, Chu Mu saw the Seven Sins Fox Light King madly charging in a direction.

Chu Mu looked over and immediately saw another milky white-colored, noble Demon Fox weakly lying in the darkness...

When the milky white-colored, noble Demon Fox saw the Seven Sins Fox Light King, it immediately stood up. It wanted to run over to the Seven Sins Fox Light King, but its body was forcibly being held in place.

“Ding ding ding~~~~”

The sound of manacles and leg-irons being pulled on rang out. Despite the milky white-colored, noble Demon Fox’s excitement, it was unable to move its body at all.

Chapter 1417: Sins Fox Monument Tear Individual

Long, thick and solid black chains extended into the boundless darkness.

They shackled the Seven Sins Fox Light King along its four limbs and neck respectively. Black lightning-like energy flashed between the chains and it restrained its power.

After the spatial formation was peeled off, such a scene was laid bare before them. Chu Mu stared at that milky white fox, unable to fathom just how long it had been since it was imprisoned there.

Seven Sins Fox King ran towards that milky white fox and they intimately touched each other as if they were lovers who had been separated from each other for a long time.

“Cling clang~!”

The regular clashing of the chains sounded terrible. Seven Sins Fox Light King ran behind the milky white fox and it tried to use its claws and teeth desperately to shatter the dark chains.

However, no matter how powerful it was, the chains were so solid that not even a crack could be formed on it.

“Wuwuwu~!” cried the milky white fox, as if it was telling Light King not to waste its strength on itself anymore.

The dark chains were extremely hard. Techniques that were unleashed by Light King could not damage it at all. The Martial Cloud Dragon had also tried to tear the chains apart, but the chains still showed no signs of breaking.

“Young master, this sealed fox should have reached the high class Immortal rank,” At that moment, Old Li's voice suddenly came out.

“It's a forgiven Light King?” Chu Mu was surprised.

Old Li shook his head, “It should have cultivated to this rank by itself.”

Forgiven Light King, that meant that the female Seven Sins Fox Light King before them was a creature that had reached peak Immortal or a higher rank!

While, high class Immortal rank creatures were near invincible existences in the domain of the living. At least, even in this Imprint Valley where powerful creatures were abundant, Chu Mu had never encountered a high class Immortal rank before.

“If it is a high class Immortal rank Light King and yet it was unable to break the chains, then it’s definitely impossible for us.....” pondered Chu Mu.

“That’s true. And this seal is also not the core node of this Light Formation Valley. At the core node, regardless of the seal or the energy formation, there would definitely be an even stronger barrier and restriction present. It would be impossible for us to break in,” responded Old Li.

“Then, is there any method we can use to break the chains now?” asked Chu Mu.

If that female Light King could not escape, then Seven Sins Fox Light King would definitely not leave. These two Light Kings would end up perishing along with the Imprint Valley.

“None,” Old Li shook his head.

Dark chains were not really barriers. Mo Xie’s Seal Break would not work, Chu Mu was also helpless in front of it.

Seven Sins Fox Light King kept trying. After an unknown amount of time, it also became tired after exhausting its strength. In the end, it could only cry sorrowfully and return to the side of that milky white fox.

The two Light Kings leaned against each other and simply entwined their tails.

“Wuwuwu~!” The milky white fox kissed the Seven Sins Fox Light King’s eye as if trying to persuade it.

However, Seven Sins Fox Light King was very stubborn. It just laid there without budging an inch. It was unwilling to leave it no matter how much the milky white fox tried to persuade it.

“Young master, let’s go. Since this is their choice, then there’s no reason for us to force it,” said Old Li slowly.

If a living being chose its own death or had lost its meaning to live, it would be nothing but a living corpse even if they managed to save it.

Seven Sins Fox Light King’s power was currently being suppressed. However, they still had a rather long lifespan. They had lived in this Imprint Valley for countless years, and were separated from each other for countless years. When the fox race reached the end of their life, when their entire habitat reached the end, perishing along with this world was truly the best ending to them.

Chu Mu asked Light King one last time whether it was willing to leave along with him.

Seven Sins Fox Light King did not answer, but instead used its unshakable determination to tell Chu Mu that it would not leave this place.

“Wuwu~!” At that moment, the milky white fox suddenly cried softly, requesting Chu Mu to approach it.

Chu Mu approached the milky white fox in confusion, and he saw a tear droplet flowing out from the milky white fox’s eye.

After that tear fell down, it rapidly turned into a tear crystal. The crystal sparkled and it seemed to be hiding something within it.

“Wuwuwuwu~!” The milky white fox held out the tear crystal to Chu Mu, telling him to take it.

“Monument Tear?” Chu Mu was startled as he watched the milky white fox holding the Monument Tear.

“Young master, it is a Monument Tear Individual!” shouted Old Li in astonishment.

“Monument Tear Individual?” Chu Mu was even more confused now.

This female Seven Sins Fox Light King is actually a Monument Tear Individual?

“The Heaven Boundary Monument does not only choose humans. Some creatures with unique experiences can also be chosen by it,” said Princess Jin Rou.

Chu Mu remembered the ancient beast soul that had guided him to the Demonic Burial Mound. That was also a soul pet, but it was the previous generation of Monument Tear Individual. However, Chu Mu could still not understand why the female Seven Sins Fox Light King would be sealed away in this place if it was a Monument Tear Individual.

In a certain sense, that female Seven Sins Fox Light King should have been traveling in the normal world for a long time and it should have only entered Imprint Valley later on. It was then sealed here for some unknown reason.

He had many questions that he wanted answers to in his heart. However, since that milky white fox had given him its Monument Tear, then he would be able to experience its memories to a certain extent through this Monument Tear.

“Wuwuwu~!” The milky white fox cried towards Chu Mu, as if it was trying to tell him something.

“It said that the tear crystal also contained some energy, and you can use it,” explained Princess Jin Rou.

Chu Mu nodded, “Ask it for the reason why it was sealed here.”

Princess Jin Rou softly touched the female fox’s forehead to communicate with it mentally.

Princess Jin Rou’s expression gradually started changing, she seemed to have gotten angry.

“Wuwuwu~!” The milky white fox cried again to tell Chu Mu’s group to leave this place.

“Young master, let’s leave this place now. The area that will be the first to collapse is this place. If we don’t leave now, then we will really be in danger,” urged Old Li.

Right now, Chu Mu could already sense the peculiarity of the space outside. He took one last glance at the two Light Kings who refused to leave and sighed to himself. After jumping onto the Martial Cloud Dragon’s back, Princess Jin Rou followed behind him. However, he could tell that she was depressed and felt sympathy towards the two Seven Sins Fox Light Kings who could only wait for their deaths quietly.

The Martial Cloud Dragon flapped its wings and it flew towards the crack of the seal. Princess Jin Rou kept turning back to look at the two Light Kings that were grooming each other’s fur.

Any sense of nervousness or fear towards the collapse of the world could not be seen in their eyes.....

“Chu Mu, if there is reincarnation, then do you think that they will be together again?” asked Princess Jin Rou softly.

“Probably. It would best if they don’t have to carry such a shackle in their next incarnation.....” answered Chu Mu solemnly.

The higher the bloodline, the lesser the population. The two Seven Sins Fox Light Kings had finally met each other after they were alone for an unknown amount of time.....

Perhaps, those two were the last two Light Kings in the world.

.....

After they left the seal, Chu Mu was feeling depressed despite the burning sun shining above.

He was still holding on to that female Light King's Monument Tear, and he carefully stored it in another vessel.

Chu Mu could look at the memory in the tear crystal right now if he wanted to, but it was definitely not the time for that. While they had entered that seal, chaotic cracks of various sizes were crawling all over the surroundings like centipedes!

This area was on the brink of collapse. The Martial Cloud Dragon flapped its wings and it rapidly flew away from this Light Formation Valley.....

.....

On a mountain summit, Qin Guang stood at the edge and overlooked this Imprint Valley world that was shining with a golden light.

A horrifying crack appeared in the sky. Those were signs that a world was collapsing. Bizarre spatial storms, ruthless spatial cracks, overwhelming pressure as if the sky was suddenly pressing down.....

Qin Guang slowly raised his hand. A tiny sparkling droplet on top of his hand was unleashing a trace of warmth.

“It has finally appeared, it sure took us a long time!” Qin Guang raised the corner of his lips, his eyes beaming fervently!

“Follow me, let’s go and meet the creature that once possessed the highest rank bloodline!” declared Qin Guang after he took a glance at the Divine Sect experts behind him.

“Understood!”

A group of wing type creatures mainly possessing light property flew up, turning into a dazzling trail of light as it shot towards a certain direction!

.....

At the edge of the Light Formation Valley, Zeng Long suddenly raised his hand and signalled everyone to stop.

“That way!” ordered Zeng Long to his subordinates after he pointed in a certain direction.

“Lord, aren’t we supposed to regroup with the Divine Sect faction?” asked Enforcer She.

“That’s right, they are also going that way,” Zeng Long grinned.

Fake Monument Tear Individual, Zeng Long could not remember how long it had been since he got involved in the fight for Monument Tears.

Many years ago, he was only an insignificant member of the Demon Beast Palace. However, the current position he held was close to a Gate Master. After having experienced the ecstasy of ruling over the lives of others, Zeng Long's fervor towards collecting Monument Tears became even more maddened.

He would first sense the location of any Monument Tear Individual that appeared, then he would obtain the immense energy that was hidden within the Monument Tears from those pitiful people!

This time, if he could obtain yet another Monument Tear, then he would not be far off from becoming a Gate Master in Demon Beast Palace!

"Those who had treated me inhumanly in the past, I will do the same to you after I finally become a Gate Master!" Zeng Long looked towards the direction where the Monument Tear pointed and curved up the corner of his lips cruelly!

His ambition would keep growing exponentially, but Zeng Long simply let it grow. As long as he could obtain more Monument Tears, what was there to fear in this world no matter how big his ambition became?

Chapter 1418: The Tyrannical Martial Cloud Dragon

.....

"We're in trouble," Chu Mu frowned as he focused his attention on the tear crystal in the vessel.

That tear crystal had started releasing a warm and gentle glow. The warm glow condensed into a beam from a few places as it pointed to different directions.

“What’s wrong?” asked Princess Jin Rou.

“Those people seem to be after this tear crystal. They are rushing right towards us, we may soon be surrounded,” said Chu Mu.

“Isn’t there a restriction in this place? Why can they sense this tear crystal?” asked Princess Jin Rou.

“I don’t know either. Perhaps this tear crystal from Seven Sins Fox Sky King is special,” replied Chu Mu.

In restricted zones, some items with unique sensing ability would lose their function, like the rings held by Chu Mu and Ye Qingzi. In some of the strong restricted zones, it might even directly break the connection between the soul pet trainers and their soul pets.

Chu Mu naturally was not willing to give up this precious Fox King tear crystal. He told the Martial Cloud Dragon, “We may encounter many enemies.”

“Ao~!”

The Martial Cloud Dragon admired martial prowess over all else. It used its roar to tell Chu Mu that it was glad to help him.

“Great, let’s fly towards the back of the sun then,” Chu Mu pointed in a direction.

The Martial Cloud Dragon’s flying speed was extremely fast. Those pursuers might not be able to catch up to Chu Mu for a while.

“Chu Mu, if we were to leave from the exit of Divine Sect, would we get surrounded by that enemy of yours?” asked Princess Jin Rou worriedly.

“So be it then, we don’t really have any other choice right now. We can only return from the path that we came in from. Hopefully, Old Sect Master Xiao can arrive there in time. Otherwise, we might have to break through by force,” said Chu Mu.

Chu Mu’s current identity had become rather important. Even if those people from Divine Sect wanted to execute him, they would have to consider whether the factions that were allied with New Moon Land and were controlled by the Invisible Kingdom would agree.

Of course, Chu Mu still had to avoid falling into the hands of Gate Master Han no matter what. That guy might just kill him without any hesitation if he got a chance.

“Chu Mu, there seems to be someone in front of us,” said Princess Jin Rou after she opened her eyes.

Chu Mu’s heart sank instantly. Fox King’s Monument Tear did not point out that there was a Monument Tear Individual ahead.

Coming into this Imprint Valley despite not being a Monument Tear Individual, that meant that the other party had come specifically for the power of the Monument Tear. He did not know just from where those people had obtained this intel!

As there were pursuers behind them, Chu Mu naturally also could not turn back.

The Martial Cloud Dragon flapped its wings and it continued flying forward. Soon, a few burning figures appeared from the mountains ahead.

Deep red flames were raging, dazzling fiery tails dragged a long trail as they charged towards them.

Those fiery figures seemed to have received some sort of order. Their flying speed was not particularly fast, but they created a formation in midair.

“They are going to intercept us,” said Princess Jin Rou.

Chu Mu’s expression turned solemn. He scanned those fiery figures and realized that those people were definitely strong.

The people who had entered the Imprint Valley this time had almost all reached the Immortal rank. The legend of Monument Tears were only passed around amongst those in the Immortal rank domain. Those people had probably been seeking this mysterious item for a very long time.

The Martial Cloud Dragon did not slow down at all. It flapped its wings even faster as it generated hurricanes with the chaotic air currents around it, adhering to its wings.

“A creature is flying towards us!” Within the mountain, a soul pet trainer that was riding on a Burning Nine-Headed Bird shouted.

The six soul pet trainers instantly became alert and focused on the approaching dragon.

The flames spread out in the sky and it turned into an intensely burning diagram. The diagram looked similar to a shield with various patterns carved onto it as it floated in midair!

The shield was spread out across a large area and it completely sealed the flying path of the Martial Cloud Dragon.

“Feng Xu, can you identify what that is clearly?” asked a soul pet trainer in red robes.

The soul pet trainer called Feng Xu was the one who was riding on the Burning Nine-Headed Bird. He was the one in charge of scouting in the team.

He focused on the blue dot in the sky far away, but he could not see its figure clearly even after using his soul remembrance.

“What are you scared of? With the six of us cooperating, is there any creature that we can’t take on in this world?” said a soul pet trainer riding on a Flame Lion.

“True. The six of us have experienced plenty of this world, what can this small Imprint Valley amount to?” commented a younger man frivolously.

Hexfire, this was a team with a great reputation in Zhengming Continent. The six people did not serve any faction, but were people whom the Elemental Clan wanted to build a good relationship with.

They were the representatives of the adventure teams. They had stepped into regions that nobody had set foot in before, killed powerful individuals that seemed invincible to others. The six of them were not really outstanding amongst the Immortal rank on their own, but the six of them could become a significant threat towards many powerful Immortal rank individuals as they always acted together.

Within the Immortal rank, most people were usually alone. Rarely would anyone who was used to acting alone maintain teamwork with others like Hexfire.

“Huhuhuhuhu~!”

The raging wind was approaching fast from the distance and the burning fire became a little slanted due to overbearing wind pressure.

At this distance, the six members could clearly see the identity of the approaching creature.

That figure was becoming larger and larger, to the point that it could truly swallow the entire sky within this region. A pair of huge membranous wings shrouded everything!

“This..... This is.....” Hexfire opened their eyes wide in shock. They would have never imagined that a dragon would appear before them. Furthermore, this was a high class bloodline dragon clad in dark blue armor —— Martial Cloud Dragon!

The Martial Cloud Dragon's tyrannical body would astonish anybody. Hexfire had gone to many places and had seen various dragons before. However, it was rare to see a creature with an extremely high class bloodline like the Martial Cloud Dragon.

“Aaoo!”

The Martial Cloud Dragon opened its mouth and unleashed a dragon breath towards the shield made up of flames!

The dragon breath thoroughly destroyed everything in its path. The deafening roar made Hexfire feel as if their heads was going to burst.

“My goodness, it's..... it's a Martial Cloud Dragon!” The soul pet trainer called Feng Xu screamed in utter shock.

His Burning Nine-Headed Bird was already enormous, but it looked just like a pitiful chick compared to the Martial Cloud Dragon as it flew past, small and weak. The Martial Cloud Dragon could easily slap his Burning Nine-Headed Bird into the ground with a casual swing of its claw if it wanted.

“Bam!”

The Martial Cloud Dragon slammed directly into the fire shield formation created by Hexfire using simple brute force. The entire formation instantly shattered. Those lingering flames scattered away and it no longer hindered the movement of the Martial Cloud Dragon.

Feng Xu got up from the ground in an unsightly manner. His Burning Nine-Headed Bird had fainted from the crash and could not take to the sky for a while.

“Block them!” shouted Feng Xu.

After seeing their fire shield formation getting shattered so easily, the other five had spaced out for a moment. Only after the Martial Cloud Dragon had flown a fair distance away did they snap back to reality and ordered their soul pets to unleash their techniques.

Flame Lion was the fastest to react. This robust lion looked like a fat four-legged insect before the Martial Cloud Dragon. The explosive fireball that it blasted out hit the Martial Cloud Dragon’s wing.

The Martial Cloud Dragon’s wings were even tougher than its body. A technique from an Immortal rank Flame Lion could only leave a simple black dot on its wings.

Other flame techniques followed right behind and landed in front of the Martial Cloud Dragon. The Martial Cloud Dragon took an emergency break in the air and swung its claw towards the fire type creatures that were chasing behind.

The dark blue dragon claw generated a fierce crushing force as it spread through the space rapidly.

The Flame Lion and two other fire type Immortals wanted to pursue it, but they immediately dodged to the side after seeing the terrifying crushing force that was approaching them.

“What are you all so scared of?” Feng Xu was enraged.

All three people stepped back. Nobody dared to charge forward anymore, even though any one of them would have been able to keep the Martial Cloud Dragon here by unleashing a fire mountain.

“That’s easy for you to say, but none of us can endure the power behind that technique!” The soul pet trainer riding the Flame Lion also shouted back angrily.

Didn’t your Burning Nine-Headed Bird get slapped away by a simple swing of its claw? That Martial Cloud Dragon did not even use any technique that time.

That claw strike just now was clearly a charged attack. If any of us get hit by it directly, we would either die or suffer heavy injuries. How can we not dodge it?

“Watch out, its attack has not ended yet!” Another member shouted to warn the others.

“Ao~!”

A shredding hurricane was spat out by the Martial Cloud Dragon. The hurricane connected with the clouds and the earth, sweeping over an even larger area. There was no room for them to dodge at all.

The surrounding flames were pulled into the shredding hurricane. The moment those fire type soul pets were within range, they were also pulled in.

When Chu Mu saw those fire type soul pet trainers getting restrained, he was also astonished.

The Martial Cloud Dragon was indeed tyrannical. Those pseudo Immortal rank creatures were like children before it.

Choosing to be peaceful towards the Martial Cloud Dragon in the cultivation formation was indeed a wise choice. He, Xia Yin and Lin Mengling might not have been able to defeat this Martial Cloud Dragon even if they cooperated back then.

“Let’s go, leave them alone,” Chu Mu knew that there were still many pursuers behind. If they were stalled by the six people here, then the pursuers would catch up.

The Martial Cloud Dragon nodded and continued flying forward.

.....

The chaotic hurricane lasted for a long time. When Hexfire recovered, the Martial Cloud Dragon had already flown a long distance away from them.

“That Martial Cloud Dragon is so scary!” said one member fearfully.

Feng Xu stared at the Martial Cloud Dragon and clenched his teeth in frustration.

At that moment, a charming figure suddenly appeared before Feng Xu.

Feng Xu was startled for a moment. He did not sense that person approach at all.

“Madam, we tried our best.....” reported Feng Xu immediately.

The woman wearing a loose silk robe looked chilling and prestigious. She raised her head to take a glance at the blue figure in the distance and snorted, “Six trashes.”

Chapter 1419: Vs Hexfire!

Fiery red loose silk robe, fiery red long hair, smooth white skin, and yet exuding an aura that made others dare not approach. When such a woman looked down on them while she stood above a Shadow Flame Beast, even the most arrogant person would not dare to rebut her after being scolded and could only lower his head helplessly.

The Shadow Flame Beast took a step forward. It did not take to the sky, but instead ran on the ground rapidly.

The places where its four limbs stepped over were charred, the air was ignited and the effect rapidly spread out.

Madam Huo ran at the fore front, while the Hexfire obediently followed behind her. They used some unknown technique and created a burning path ahead of them. They could run at a very amazing speed within the flames, even the pseudo Immortal rank soul pets of Hexfire were not inferior in speed compared to Madam Huo’s Shadow Flame Beast.

.....

“They’re coming, the flame beast at the front is exuding a really powerful aura,” reported Princess Jin Rou worriedly after taking a glance at the land lit by flames behind them.

Enemies from other places were also approaching from further behind them. The Martial Cloud Dragon could not continue flying in a straight line, or they would end up being sandwiched easily.

If they took a diagonal route, then the fire type soul pet trainers would easily be able to catch up, as they had clearly guessed that Chu Mu's group was heading towards the back of the sun.

"Jin Rou, how far away is the first batch?" asked Chu Mu after he took a glance behind.

"With our current route and speed, they will catch up in twenty minutes. They are really fast, it's probably because they are using a formation flight," replied Princess Jin Rou.

Wing type soul pets of the same species could be used to arrange a formation. By controlling and guiding the air currents around them, their flying speed would become much faster.

It would not work if they were to continue like this. Once the Martial Cloud Dragon was caught up after ten minutes, they would have to face two continuous waves of attacks soon after that.

"Let's finish off those fire type soul pet trainers first then," stated Chu Mu.

Taking on the pursuers one by one was far better than simply getting sandwiched. Chu Mu asked the Martial Cloud Dragon to stop and turn around to face those seven fire type soul pet trainers.

The Martial Cloud Dragon landed. Its powerful hind limbs stomped on the ground loudly and caused a great tremor.

It turned around and pulled up a mountain that was over a few thousand meters tall from the ground, then hurled it towards those fire type soul pet trainers!

The scene of a mountain that was a few thousand meters tall gliding fast along the ground was truly astonishing, shards of rock were scattered all around the spots it passed through.

The Shadow Flame Beast did not jump or dodge after it saw a mountain sweeping towards it along the ground. It did not slow down its pace at all and created a rapidly spinning clump of fire around its body, attempting to directly drill through the mountain as it charged right through!

Bam!

The mountain was easily smashed into two by the spinning clump of fire. The other fire type soul pets followed behind it through the opened up path.

The six people behind Madam Huo turned pale with fright after they saw a mountain gliding towards them. However, Madam Huo maintained her calm. Her eyes focused on the Martial Cloud Dragon that had suddenly stopped, a trace of doubt flashing across her eyes. However, she snorted right afterwards, "You're asking for it!"

Madam Huo took the lead. Although the Shadow Flame Beast was not as large as the Martial Cloud Dragon, the threatening flames around it made it look extremely dangerous.

The Martial Cloud Dragon's dark blue eyes looked down at the Shadow Flame Beast from above. The air that was blown out from its nose turned into chaotic hurricanes. It seemed that this Martial Cloud Dragon was particularly interested in having a bout against the Shadow Flame Beast that did not lose to it in aura.

“Martial Cloud Dragon, you will take it on. I will handle the other six,” Chu Mu jumped down from the Martial Cloud Dragon’s back.

The Martial Cloud Dragon nodded. It did not like to defend passively anyway. When it saw the Shadow Flame Beast charging towards it without slowing down at all, it simply opened up its legs and charged towards the Shadow Flame Beast too while leaving deep footprints on the ground!

The flames on the Shadow Flame Beast rumbled and exploded when the two figures clashed.

The Martial Cloud Dragon did not mind getting burns from the flame. Its brute strength was far greater than the Shadow Flame Beast. After they clashed, the Shadow Flame Beast was pushed back a long distance, and the flames wrapping around it were also completely extinguished.

Madam Huo lost her balance and took a moment to stabilize herself. Her brows furrowed as the power displayed by that Martial Cloud Dragon had surprised her.

“This is a wild Martial Cloud Dragon,” Madam Huo immediately made this judgement and turned her gaze to look at Chu Mu.

She did not know why a wild Martial Cloud Dragon was helping that young man, but she was almost certain that the Light King’s Monument Tear was in the young man’s possession.

Madam Huo was not really a Monument Tear Individual, the only objective she had when she came here was to find out the entrance to the Blazing Realm.

Madam Huo knew that the Seven Sins Fox Light King had once entered the Blazing Realm in the past and it had obtained a Monument Tear in there. Hence, as long as she obtained the Monument Tear of that Seven Sins Fox, she would know the method of entering the Blazing Realm and find the Immortal Fire Meteor that the Seven Sins Fox had hid inside that realm.

Of course, the Monument Tear itself was also a rare Immortal item in this world, so Madam Huo did not mind keeping that as well.

“You six, catch that kid. If you cannot even accomplish that, then you should just get buried along with this ruined world!” Madam Huo coldly glared at Hexfire.

“Madam, please rest assured. We are no match for the Martial Cloud Dragon, but this kid is definitely a piece of cake,” Feng Xu immediately appealed.

Madam Huo nodded. Seeing the Martial Cloud Dragon approaching her, she could no longer get distracted and fully focused on fighting it.

.....

Feng Xu immediately surrounded Chu Mu along with his other five team members.

Feng Xu could tell that Chu Mu was really young. A person at that age would clearly be no match against old time soul pet trainers like them.

“Brat, don’t touch things that don’t belong to you. If you hand over the item right now, the Madam may let you live,” said Feng Xu after he took a glance at Chu Mu.

“That brat looks really familiar,” said the female soul pet trainer amongst the six.

That female soul pet trainer wore a rather revealing robe, using seductiveness to hide her common looks. Princess Jin Rou wondered, that woman still needs to put on so much makeup even after coming into the Imprint Valley?

“Isn’t he Chu Mu, the champion of the Outstanding Expert Competition?” Lan Huo from Hexfire recognized Chu Mu as he was also at the main spectator seat at the time.

“Oh, so he was one of those who were chosen to cultivate in Imprint Valley. Didn’t the three already leave from this place after the passage was opened a while ago? Why didn’t he leave then?” questioned Li Huo.

Chu Mu did not expect that he had become rather famous and was already recognized.

However, so be it then. This battle could not be avoided anyway. He immediately summoned Little Hidden Dragon and Zhan Ye to take on those six people.

“How ignorant!” Feng Xu sneered, “The Outstanding Expert Competition is just like playing house to people who have stepped into Immortal rank a long time ago like us!”

“Finish him off quickly, or Madam Huo will blame us again,” reminded Li Huo.

Hexfire did not put the champion of the young generation in their eyes at all. They did not even get into a formation, and Lan Huo simply charged towards Chu Mu first while riding on his Flame Lion.

“Zhan Ye, it’s yours,” Chu Mu told Zhan Ye.

Zhan Ye roared excitedly and charged towards the Immortal rank Flame Lion after it accelerated all of a sudden.

“I heard that your Dream Beast is quite strong. Won’t it be the perfect opponent for my Burning Nine-Headed Bird?” Feng Xu rode on his Burning Nine-Headed Bird and hovered above Chu Mu, sealing his escape route in the sky.

“Mo Xie, you handle it,” Chu Mu told Mo Xie.

“Wuwuwuwu~!”

Mo Xie leapt off from Chu Mu’s shoulder and purple flames rapidly ignited around it as it stepped in midair.

Demonic cloud-like tails suddenly manifested in the sky. Feng Xu did not notice it at first and was frustrated when he realised that Chu Mu did not use his strongest soul pet to fight him.

Feng Xu was the leader of Hexfire, so he hated being underestimated the most!

“I will vanquish one of your souls first then!” cursed Feng Xu. He ordered his Burning Nine-Headed Bird to take on a proper stance in order to finish off Mo Xie in a single strike.

After Mo Xie transformed into the Hades Fox Noble in midair, it had a long trail of phantoms dragged behind it. Fox shadows were rapidly crossing through the demonic clouds. Dozens of tails had tumbled around Burning Nine-Headed Bird.

Despite having nine heads, Burning Nine-Headed Bird could not tell which one was the real Mo Xie. It could only cluelessly spit out magma pillars towards every phantom!

Chu Mu raised his head and saw that Mo Xie was toying around with Burning Nine-Headed Bird. He no longer paid attention on that side as he believed in Mo Xie's strength, and he chanted an incarnation instead.

"Has no one ever taught you that a soul pet trainer should not easily go about revealing his location?" A fiery blue Flame Lion suddenly appeared. Lan Huo looked down at Chu Mu from above the Flame Lion and smugly declared Chu Mu's death.

After reaching their level, every soul pet trainer would be fairly cautious of their location. It was rare for soul pet trainers to make a mistake of getting attacked by the enemy soul pet directly.

The place where Chu Mu stood at was not a well hidden spot, the experienced Lan Huo grasped this chance and had intended to end this battle immediately.

Chu Mu raised his head slightly and took a glance at Lan Huo calmly.

His did not stop chanting, and his body slid back creepily.

After easily dodging the attack from the Flame Lion, Little Hidden Dragon slapped the Flame Lion away at the right timing. Due to its soul devour ability, the Flame Lion's flames had also dimmed a little.

Lan Huo opened his eyes wide in shock. He could not understand how a mortal soul pet trainer was able to dodge his soul pet's attack.

Meanwhile, Chu Mu had completed his incantation and had summoned Night.

"Night, you take those two on," Chu Mu believed in Night's strength and let it take on two enemies by itself.

Night did not say anything. It quietly stood in front of Chu Mu, coldly focusing on the female soul pet trainer and another fire element Immortal.

"Leave the last one to me," said Princess Jin Rou.

"Won't it be dangerous?" Chu Mu was still worried about the safety of Princess Jin Rou, since the enemy was an Immortal rank.

"Relax," replied Princess Jin Rou confidently. The current her was in very high spirits, giving off the vibes of a spirit queen!

Chapter 1420: Darkness Maze, Dream Rules

Zhan Ye's initial combat strength was not that great. After Lan Huo's Flame Lion had knocked away Zhan Ye, it obtained the chance to attack Chu Mu directly again.

Chu Mu took a glance at Zhan Ye. The reason why he had summoned it so early on was because he took into consideration the battles that would follow. If he could let Zhan Ye increase its strength to its peak sooner, then he would stand a greater chance of obtaining victory in the following battles.

“Huhu~!”

Zhan Ye got up again. As it was knocked away, Little Hidden Dragon had to face two Immortal rank opponents alone. This was difficult on Little Hidden Dragon as it had just reached pseudo Immortal rank a while ago.

“It’s still not dead yet?” Lan Huo swept a hateful glance at Zhan Ye.

It was just a Dominator rank soul pet, an insignificant fighting force in this Immortal rank battle. Lan Huo did not treat it seriously at all and decided to give it a fatal blow since it did not die from the last attack!

Zhan Ye’s initial speed was not that quick, so it naturally was not able to dodge a technique from an Immortal rank. It could only try its best to protect its vital parts when the opponent attacked it.

Intense heat rumbled and directly blasted Zhan Ye away again.

Lan Huo smirked and immediately turned his attention to Little Hidden Dragon, cooperating with his teammate to launch multiple attacks.

Hexfire had worked together for many years. Their combined fighting strength was much greater than their individual fighting strength.

“Ao!”

Little Hidden Dragon knew that it had to endure the pressure from the two enemies before Zhan Ye could raise its strength. Fortunately, its ghost property showed great effect when dodging enemy attacks and stalling for time, hence it would not be finished off quickly by its enemies.

Zhan Ye was also raising its strength constantly as the battle progressed. Although Hexfire had recognized Chu Mu, they seemed to have only watched the final match and did not know that Chu Mu's Zhan Ye could keep raising its strength.

Increasing its strength without the enemy knowing was the best situation possible for Zhan Ye. Because, in order to defeat the six enemies, Zhan Ye would be a crucial breakthrough point when both sides were similar in terms of fighting strength.

Night continued slipping through the attacks from its two enemies calmly. The crossover between realistic dream and illusion made the two soul pets unable to properly distinguish the position of the real Night.

Zhan Ye was already at the back of the sun. The dark element here was denser than normal. Fire type was slightly suppressed by dark type here, the advantage of the environment neutralized the suppression.

Furthermore, the denser the darkness element in the surroundings were, the more effective the dreams that Night could create were.

A tail of fluttering white feathers crossed through the darkness. The places that it passed by had strangely changed.....

Like an ink painting spreading out in the air, the environment that the two fire type creatures were in had suddenly changed. They had suddenly fallen into a bizarre darkness maze.

“Hmph, cheap tricks. You won’t fool me with this,” Lü Huo calmly scanned the illusion surrounding him.

Hexfire had been to many places, they had also encountered plenty of demon type creatures before. They were confident in their abilities in seeing through this kind of dream technique easily. Especially for Lü Huo who was rather proficient in soul remembrance. His knowledge regarding demon type creatures was fairly insightful. He could often judge the reality of the techniques through instinct alone.

“We seem to have been trapped by this dream maze,” said the female member.

“Relax, I will break it soon,” replied Lü Huo with confidence.

His eyes began flickering. Pale blue light sharply scanned the complicated darkness maze around him.

The maze was created by using chaotic torrents, darkness films, rampaging dark currents and messy black gales. A demon that truly possessed the power of darkness could generate those types of energy at will. However, it would not be able to unleash so much dark energy to create such a huge maze.

Hence, most of the energy that was in the darkness maze was actually fake. As long as they just passed through the fake area, it would naturally dissipate on its own.

“Follow me,” Lü Huo revealed a grin as if he was certain of the direction to take.

Lü Huo’s soul pet was a Green Flame Demon Queen covered in green flames. Green Flame Demon Queen bravely stepped into a dark torrent under Lü Huo’s order and did not use any defensive technique at all.

As expected, that dark torrent that looked menacing at first, as if one would be torn to shreds if they were to step on it. However, once it was actually touched, it suddenly dissipated on its own.

That was clearly an illusion.

Nü Huo saw that Lü Huo was able to determine the fake energy so easily and followed behind him in relief.

“This should be real, stay away from it,” Lü Huo pointed towards a dark gale energy that was rapidly spinning not far away from them.

Lü Huo ordered his soul pet to unleash a probing technique towards that dark gale!

“Huhuhuhuhu~!”

Raging gale howled crazily, the power of darkness within stung their skin. That was a cluster of real energy.

Lü Huo's accurate judgement had let Nü Huo grow more confident in him, her gaze towards Lü Huo also showed something different now.

Lü Huo raised the corner of his lips. He was not the most handsome amongst Hexfire, and nor was he the strongest. However, that did not mean that he was not interested in the sole female member of Hexfire. In order to display his deep understanding towards demon type soul pets so that he could gain greater favor from Nü Huo, Lü Huo continued, "This kind of large scale dream technique greatly exhausts mental strength. If it does not cause direct effect to the opponent, then the exhausted demon is basically useless in the following battles. This dream beast's dream is quite decent, but it can only deceive young and inexperienced brats like Tang Ang in the end....."

Lü Huo appeared to be very confident in himself, showing his deep understanding towards demon type creatures.

"This dark torrent is also fake too....." Lü Huo ordered his Green Flame Demon Queen to step into a dark torrent again. However, before he was able to finish, his expression suddenly changed and he immediately shouted, "Ah, no!"

Lü Huo was able to accurately distinguish between real and fake from the start. So, Nü Huo stepped into the dark torrent while putting her trust in him. When Lü Huo shouted in panic, she and her elemental soul pet had already stepped into the dark energy!

"Huhuhuhu!"

The powerful suction force pulled both Lü Huo and Nü Huo into the torrent. Sharp blade-like winds of darkness swept past and they fiercely tore at their soul pets and their bodies!

The dark torrent stirred at a high frequency. Lü Huo and Nü Huo desperately struggled against it as if they were drowning, but they could not escape from the suction and tearing force of the dark torrent as they had not put up their defenses in time.

The rapid revolution had caused the two of them to be in a dizzy state. When the dark torrent's energy eventually dissipated in a while, their clothes were already torn to shreds and bloody cuts were everywhere on their bodies.

Lü Huo's situation was still better. As a man, he had short hair, and it did not really matter if his clothes were torn or not. Getting bloody all over the body also would not be that horrible for him.

On the other hand, Nü Huo had worn a revealing robe. Her hair was completely in a mess, her tattered clothes revealed large patches of her bloody skin riddled with cuts. She was almost naked and looked extremely ugly. Her appearance was like a female ghost that had just crawled out of a dried well. (TL note: Sadako does have beautiful versions.)

Nü checked her appearance and became utterly furious!

She was not furious towards Night, but instead towards Lü Huo!

It was because of his confidence that she did not think to waste any stamina to deploy elemental defense before stepping into the dark torrent. In the end, he made a wrong judgement and yet he stepped in boldly like that!

Lü Huo was also extremely furious now. He could not understand just how did that fake dark torrent possess such terrifying offensive energy.

The darkness maze did not disappear after they had fallen into a dark torrent. The vast darkness maze still had many real and fake clusters of energy in it. Unless they had the confidence to destroy the maze from within, they still had to follow the rules of the dream that a demon type creature created.

“Didn’t you say that one was a fake!?” Nü Huo could not hold back her fury.

Lü Huo’s face had also turned green and he hurriedly explained, “In normal situations, there is usually a pattern to distinguish between the real and fake energy in a dream. You can judge the other energy clusters after finding out that pattern..... Unless this dream beast has already reached the realm where it can stack two dreams. In this case, I need to find the second pattern.....”

“I don’t want to listen to your nonsense. Don’t let me step into such a place again!” shouted Nü Huo furiously.

Dual dream stacking was already the peak level illusion of the demon type creatures. Unless one could directly shatter the dream, they would only be able to break through by finding the pattern.

Dual dream stacking meant that there would be two patterns. Whether a cluster of energy was real or fake had to be checked and judged by using the two patterns simultaneously. This was a great challenge for a soul pet trainer’s experience and sensitivity.

Lü Huo was actually really well versed regarding demon type creatures. Normal people would not even know how to handle such real or fake dreams. However, he had never imagined that the darkness maze that dream beast unleashed would actually be a dual dream stacking.

He had found the first pattern, but what about the second?

At least he had not found it yet.....

If he could not find the pattern, then he could only bash through. There were many dark traps laid in this maze. If they were to probe each trap with a defensive technique, then they would most definitely be exhausted by the time they got out.

In the distance, Chu Mu's gaze pierced right through the complicated dream maze.

Before reuniting with Night, Chu Mu would also have been helpless if he had encountered such a dual dream stacking technique before.

Recalling Lü Huo's confidence and the blunder he committed after that, Chu Mu also felt a little funny. That would be the result of belittling Night which had reached the top amongst the billions of powerful demons in the Demonic Burial Mound!
