

Soul Pets Bk2 1421

Chapter 1421: Calm Fox, Counterattack!

The vast maze had finally come to an end after going through risks after risks.

However, Lü Huo and Nü Huo were constantly tortured until exhaustion by the maze. Their soul pets were now even showing signs of fear after matching Night's gaze which could manifest various nightmares.

“What are you two doing?” In the sky, Feng Xu saw that the two of them have ended up in such a state despite only taking on one soul pet and roared out of frustration.

“Captain, this dream beast is really powerful.....” answered Lü Huo with a green face.

In the end, he could not find the second pattern of the maze. That meant that they had to carefully pass through those dark traps by exhausting a large amount of their stamina.

The dream beast had exhausted a vast amount of mental strength to deploy the maze. However, the end result was that the two opponents had paid an even greater price. It would be difficult for the two of them to fight it in the following battle.

“Can't the two of you handle it no matter how strong the opponent is?” shouted Feng Xu.

Feng Xu held plenty of advantage in his battle. His Burning Nine-Headed Bird was one whole level above the pseudo Immortal rank, it was certainly easier for it to handle that Fox Noble which had just reached pseudo Immortal rank recently. However, it was definitely not easy to defeat that agile Fox Noble.

Feng Xu took glances in Madam Huo's direction occasionally and noticed that her brows remained furrowed. It was obvious to anyone that she was extremely dissatisfied with the six of them for taking such a long time and yet being unable to finish off the opponent!

Madam Huo's expression had turned grim. On one hand, the Martial Cloud Dragon's strength was clearly above her expectations. Her Shadow Flame Beast was unable to gain an advantage in a one on one fight. She had no choice but to summon her other soul pets to have them gang up on the Martial Cloud Dragon in order to reduce the overall pressure.

However, that was all she could do at the moment. She did not dare to let herself get distracted right now and try to interfere with the battle going on at the other side. Otherwise, the Martial Cloud Dragon would easily destroy her soul pets if it grasped a fatal chance.

On the other hand, she had a deep frown because of Hexfire's poor performance. They were a really disappointing bunch as they were still unable to take down a single young soul pet trainer despite the fact that all six of them were working together!

The Monument Tear was in his hands. Madam Huo could leave immediately after obtaining it, there was no need for her to stubbornly fight against such a powerful Martial Cloud Dragon.

"You six, hurry up!" shouted Madam Huo impatiently.

While Madam Huo was shouting, the Martial Cloud Dragon also turned its head to check on Chu Mu's battle.

When it realized that this human also possessed impressive fighting strength and did not need its help despite facing six people, it was able to fully focus on the fire type soul pets before it which were stronger than the one's on Chu Mu's side.

The most troublesome foe was obviously that Shadow Flame Beast. That fellow had taken a few of its full power techniques, yet there was no signs of it weakening at all. It was certainly a troublesome opponent.

As for the other fire type soul pets, they were fighting completely dependent on the Shadow Flame Beast as the pillar. Without the Shadow Flame Beast, it was easy to kill all of them.

.....

Chu Mu took a glance at the sky. The battle between Mo Xie and Burning Nine-Headed Bird was taking place.

He could tell that Mo Xie was indeed in a disadvantageous situation currently. On one hand, there was the difference of one level in rank. On the other hand, the wing type Burning Nine-Headed Bird clearly held an advantage in aerial battles.

However, Chu Mu believed that it was only a temporary situation. Mo Xie was always able to remain calm and gain sharper observation ability while in a disadvantageous position. Once it grasped a chance, the opponent would never be able to salvage the situation anymore.

Feng Xu was clearly getting more and more impatient, probably because Madam Huo was exerting pressure on him. An opponent that had lost his calm would always show an opening. Mo Xie would soon be able to perform a beautiful comeback.

Chu Mu did not need to worry about Mo Xie's battle. Night was also able to gain a huge advantage despite facing two opponents by itself. The side Chu Mu was worried about the most was Little Hidden Dragon.

Little Hidden Dragon had just reached pseudo Immortal rank not long ago. Before Zhan Ye could boost its power, it had to face pincer attacks frequently.

Little Hidden Dragon had received quite a bit of injuries. Lan Huo and Li Huo were fairly experienced soul pet trainers. They possessed a certain level of judgement ability towards the ghost type's irregular movement patterns. They could always somehow deal some damage to Little Hidden Dragon. If Chu Mu did not use his Other Pupil to keep directing the battle and continued estimating the opponent's attack beforehand, then Little Hidden Dragon would have suffered from even greater injuries.

Zhan Ye also knew the reason why Little Hidden Dragon had suffered those injuries. After going through Broken Limb Rebirth twice, Zhan Ye had also started frequently using defense ignoring type techniques such as Ink Armor Spike to attack the Flame Lion and did its best to stall the Flame Lion.

The Flame Lion's body was punctured by the Ink Armor Spikes. Its defense also fell greatly due to the spreading of the dark corrosion from it.

That had caused Lan Huo to be anxious. He just could not finish off that Zhan Ye!

"Can't you just kill it in one blow already? That thing clearly has insect property, its recovery speed is very fast," grumbled Li Huo impatiently.

There had been many instances where they were about to kill that Spectral Dragon, but the fearless battle beast Mo Ye interrupted every time and they lost the chance.

“I know!” Lan Huo was also getting impatient. His temper was originally short-fused. Now that a Dominator rank creature was fooling around with him, he felt indescribably annoyed.

“I remember it now. This battle beast Mo Ye seems to have the ability to regenerate its body many times. Its strength would also get boosted every time,” said Li Huo.

Hexfire had only watched Chu Mu fight Tang Zhuo and they never saw his battle before that. They had heard about it from the spectators who were discussing Chu Mu’s soul pets.

“Say that earlier!” screamed Lan Huo.

Those who could reach Immortal rank must have gone through countless battles. They must have seen rare techniques like Broken Limb Rebirth before. Facing such types of creatures, the best choice of battle was to kill it in one go. They must never choose to leave it alone after incapacitating it.

If Lan Huo had known about that, then this battle beast Mo Ye would have been dead long ago. He had been wondering why it could return to battle normally again and again despite suffering heavy damage each time.

Unfortunately, after the second Broken Limb Rebirth, Zhan Ye’s life force and defensive ability had been strengthened manyfold. Lan Huo had lost the chance to kill Zhan Ye immediately, allowing Zhan Ye to boost its strength to paragon Dominator rank.

Zhan Ye’s properties were rather unique. If it reaches paragon Dominator, then its life force would be six times higher than most other paragon Dominators.

That meant that even if a full power attack from a pseudo Immortal rank creature might be able to kill a paragon Dominator, it would need to unleash six similarly powerful techniques if it wanted to kill Zhan Ye!

With such a great life force, the Flame Lion was unable to neglect Zhan Ye like it did before. Zhan Ye's Ink Armor Spike had become even more powerful now. If Zhan Ye continued to attack it like that, not only would the Flame Lion keep suffering more wounds and have its defense reduced to nothing, but the Spectral Dragon might also grasp the chance to tear off a large chunk of its skin and flesh.

"That thing is getting stronger," Lan Huo did not bother with that battle beast Mo Ye before. However, now when he was unable to kill it despite unleashing full power attacks at it consecutively, he finally realized that battle beast Mo Ye's strength was rapidly increasing.

Li Huo did not care about Lan Huo. His attention was solely focused on that Spectral Hidden Dragon.

In a one on one, Li Huo did not dare to get distracted. Although that Spectral Hidden Dragon was injured right now, Hidden Dragons possessed incredible recovery speed. He did not want the damage that they had dealt before to be wasted. Hence, he was fully focused on uncovering Little Hidden Dragon's position.

.....

"Wuwuwuwu!"

A powerful fox cry was heard from the sky. Purple flames bloomed into countless beautiful death flowers, forcefully suppressing the Burning Nine-Headed Bird's red flames.

The Burning Nine-Headed Bird was suppressed by the sudden force, even Feng Xu's face was filled with astonishment!

Just a moment ago, his Burning Nine-Headed Bird had unleashed a powerful sure kill technique to finish off the battle for good. However, he never imagined that the opponent would be completely prepared for it and had dodged that fatal attack. Then, it immediately flanked to the blind spot of his Burning Nine-Headed Bird.

Feng Xu did not care about such careless actions at first. However, once that Fox Noble had suddenly unleashed such a savage aura, he began to panic and hurriedly made his Burning Nine-Headed Bird take on a defensive stance.

Mo Xie's attacks were similar to an erupting volcano, constantly spitting out unstoppable fire pillars. Mo Xie's speed, power and the purple flames had synchronized to the extreme and it unleashed unrelenting attacks almost without any gaps on the Burning Nine-Headed Bird!

Techniques after techniques, the Burning Nine-Headed Bird was able to put up a defence in time. However, it did not possess the accurate dodging ability of Mo Xie, so it inevitably suffered damage from the attacks.

Once it was wounded, that spot would become the breakthrough point for Mo Xie, forcefully widening the wound!

Feng Xu was getting more and more panicked. He could clearly tell that if that Fox Noble continued such attacks for a few more turns, then his Burning Nine-Headed Bird would definitely end up gravely injured.

Without a choice left, he made his Burning Nine-Headed Bird use its final life saving technique to make an attempt to break free from this complete suppression.

However, what completely shocked Feng Xu was that the Fox Noble had even anticipated the moment when he would choose to use his life saving technique. It had actually started chanting a long incantation immediately and had locked onto the direction that his Burning Nine-Headed Bird would escape to!

Feng Xu knew the power of a technique with a long incantation. After merely escaping a short distance, he immediately felt that the air in the surroundings was burning hot and streaks of purple flames had started twisting the space!

Chapter 1422: Snake Dragon Faction Assaulting

Hades Hell!

A technique that combined purple flames, demonic illusion and beast power. It was extremely difficult for an enemy to break free from Mo Xie's Hades Hell. The enemy could only helplessly endure the burning heat from the surging flames!

The space was completely twisted. Feng Xu and his Burning Nine-Headed Bird seemed to have fallen into an endless abyss that was filled with purple flames. No matter which direction they ran to, an endless purple hell laid before them!

The Burning Nine-Headed Bird had nowhere to escape anymore. Streaks of rampaging flames pounced on it. The Burning Nine-Headed Bird was unable to endure such intense heat despite possessing fire property.

The Burning Nine-Headed Bird was desperately struggling while crying painfully. It recklessly tried to find the exit out of this hell. However, there was no exit in the Hades Hell, there was only an endless purple flame that burned crazily to the end of the world!

Feng Xu's face revealed the colour of fear over his astonishment. He could never have imagined that a careless mistake would land him in such a desperate situation.

Feng Xu was usually the one who had to evaluate the fighting strength of his opponent as he was the captain. This Hades Hell's continuous burning effect would eventually leave severe burns on his Burning Nine-Headed Bird. He did not have anything else left to oppose that Fox Noble in the following battle!

Feng Xu was getting more and more anxious. However, he still could not find a way out of this scary technique that contained the property of demonic illusion. He could only watch helplessly as his soul pet suffered.

Chu Mu watched the shocking hell flame enveloping the sky. His Mo Xie did not disappoint him as expected after all. Next, Mo Xie would definitely not give that Burning Nine-Headed Bird any chance to recover and would finish off the battle as quickly as possible!

Mo Xie's side had already been settled. On Little Hidden Dragon and Zhan Ye's side, he heard a quarrel erupting between Li Huo and Lan Huo.

After Zhan Ye executed its fourth Broken Limb Rebirth, its strength had approached pseudo Immortal rank. Now, no matter how powerful that Flame Lion's attacks were, Zhan Ye would be able to stand back up unscathed even after being hit.

During those exchanges, Zhan Ye's Ink Armor Spikes had dealt a severe amount of damage to the Flame Lion. Even if Zhan Ye did not truly advance into pseudo Immortal rank, the Flame Lion would no longer be a threat to it!

After Zhan Ye's fighting strength was boosted, it did not only target Lan Huo's Flame Lion anymore. It would occasionally jump into Little Hidden Dragon's battle and help Little Hidden Dragon neutralize attacks from Li Huo's Fire Phantom Ape.

Little Hidden Dragon had to endure attacks from two enemies simultaneously at the start and had suffered quite a number of injuries in the process. Now that it had finally endured to the point where Zhan Ye was able to be boosted, it naturally took a step back and let Zhan Ye take the brunt of the attacks unleashed by the two fire type creatures.

Little Hidden Dragon also possessed insect property and had powerful regeneration ability. After it was able to take a breather, its injuries had rapidly started healing and it was able to gradually recover its strength.

Seeing the heavily injured Spectral Hidden Dragon recovering, Li Huo became even more vexed.

However, the battle was no longer in their control. Zhan Ye's savage and desperate attacks had forced them into a corner. Meanwhile, Little Hidden Dragon had also returned to the fray after it recovered some stamina and life force. Li Huo and Lan Huo began to fall into a panic, especially after seeing that Zhan Ye's strength was still increasing!

Such were the creatures with insect properties. Li Huo and Lan Huo had probably never imagined that they were going to be suppressed by two enemies whom they could have finished off immediately!

“Chu Mu, that group of people will arrive soon,” Princess Jin Rou flew back to Chu Mu from her battlefield and reminded him worriedly.

Princess Jin Rou was the first to finish her battle, her enemy was only a single person controlling a fire type elemental creature.

Chu Mu remembered that Princess Jin Rou was able to silence hundreds of elementals with a high pitched hymn. What use was an elemental soul pet if it could not perform an incantation in a battlefield?

Princess Jin Rou had clearly used that special mental voice to suppress that fire elemental in this battle. That Hexfire member was never able to unleash any high rank fire type techniques from the start, and was incapacitated due to mental damage.

Of course, even if he could unleash any high rank fire techniques, Princess Jin Rou did not really possess a materialized form, so fire type techniques could not really inflict any damage to her.

“Yeah, I can sense them too,” Chu Mu took a glance at the warmly glowing Monument Tear in his hand.

Another group of people arrived. There must be a Monument Tear Individual or a Fake Monument Tear Individual amongst them.

Chu Mu was unwilling to give up on the Seven Sins Fox Monument Tear in his hand. Thus, he would have to face a real battle between a Monument Tear Individual and a Fake Monument Tear Individual. He must not back off no matter how bloody it gets!

Chu Mu's soul pets knew that the current battle was only a warm up. In order to readily intercept the next group of even more powerful enemies, they could not waste too much time on Hexfire.

“Hui~!”

Night used Dark Dream Long Cry. The cry carried a powerful mental penetrating property and pierced right through the mental world of Lü Huo and Nü Huo's soul pets!

The two soul pets howled in pain after suffering from a mental blow and fell to the ground.

Lü Huo and Nü Huo no longer had the will to fight any longer. The non-stop nightmares had almost made them commit suicide.

They hurriedly chanted incantations to retrieve their soul pets back into the soul pet space. When they saw that Night's gaze on them, they recalled the creepy illusions in their minds and hurriedly ran away.

Night did not intend to let those two off easily. Its black pupils flashed and two black mental swords pierced straight through the heads of Lü Huo and Nü Huo.

The two continued to run for a few more steps, then spasmed uncontrollably after getting pierced by mental swords. They fell to the ground, unable to tell whether they were still alive or not.

“Lü Huo, Nü Huo!” Feng Xu saw the two fallen members and his eyes instantly turned bloodshot!

However, he was in danger himself.

Long tails were wrapped around the nine heads of his Burning Nine-Headed Bird. The fox tails kept strangling and pulling on them!

Pssh! Pssh! Pssh!

Three heads were directly torn off first. Three bloody gashes had opened up on the Burning Nine-Headed Bird's neck, blood flowing out profusely!

Feng Xu's eyes were immediately dyed red. However, the fourth and fifth heads were torn off soon after!

Pssh!

When the ninth head was finally torn off, the Burning Nine-Headed Bird was still recklessly flapping its wings in the sky, the nine gaps on the neck continued to bleed profusely. It was an extremely sickening sight!

Feng Xu was utterly stunned. The Burning Nine-Headed Bird was his life achievement. Killing his Burning Nine-Headed Bird so cruelly was no different from killing him and then torturing his corpse.

Lü Huo and Nü Huo had fallen, Feng Xu lost, and Lan Huo and Li Huo had also lost their fighting spirit. Right at that moment, Zhan Ye had grown even stronger under the effect of its Brave Stinging Heart!

Everyone else had already failed. The two of them reacted immediately and recalled their soul pets before they also died.

After that, the two of them quickly left the battlefield without hesitation.

Chu Mu had no room to pursue the two escapees right now. He would have to leave them alone if they wanted to escape, because he had to face yet another group of powerful people.

However, what surprised Chu Mu was that before Li Huo and Lan Huo could escape any further, two huge clusters of burning flames descended from the sky and landed squarely on them.

Booom!

The clusters of flames exploded and swallowed them up whole.

Within the flames, Chu Mu could clearly see the two people and the escaping soul pets instantly turning into ashes, completely wiped out!

It was definitely not done by Chu Mu. When Chu Mu raised his head to check, he saw the woman who was fighting against the Martial Cloud Dragon levitating alone in the sky and coldly watching the two vaporized Hexfire members.

“That woman is so cruel,” said Princess Jin Rou gloomily.

That woman even killed her own companion, she was not just simply cold-blooded.

Madam Huo turned around and then stared at Chu Mu. He could sense a trace of rage and grudge being directed towards him from that pair of ambitious and cold pupils!

“I will remember you. The item in your hands will be mine eventually!” fumed Madam Huo.

Loose fiery robes, fiery red hair, in addition to the powerful soul remembrance of a Spirit Immortal rank, that woman’s aura was truly an astonishing person.

Chu Mu knew that Madam Huo was indeed a very powerful opponent!

Madam Huo immediately left after finishing those words. She recalled her fire type soul pets back into her soul pet space and left behind an afterimage of a burning flame trail in the horizon as she left.

The flow was settled. Madam Huo had clearly suffered a disadvantage against the Martial Cloud Dragon. Otherwise, she would have attacked Chu Mu long ago. He could easily tell from her eyes that she was a woman who definitely will not give up until she achieves her objective.

There were many enemies this time, and Chu Mu was unable to clean them up completely.

More importantly, regardless of himself or the Martial Cloud Dragon, they really would not be able to keep the powerful Madam Huo from leaving.

Chu Mu raised his head and changed his focus in another direction.

At that moment, a few long dragons and serpents had gradually appeared in that direction. Their body sizes completely occupied a large patch of the sky and it looked very intimidating!

“It’s the people from the Snake Dragon Faction,” said Princess Jin Rou.

The Snake Dragon Faction was going to be stronger than Hexfire. At least, the Coiling Dragon Snake Formation that those snakes and dragons formed with Enforcer She in the lead could easily trap the Martial Cloud Dragon.

When Chu Mu encountered the Snake Dragon Faction in the past, he did not sense the existence of a Monument Tear Individual amongst them.

This time however, be it the Seven Sins Fox Monument Tear or his own Monument Tears, both were glowing warmly. This meant that there was either a Monument Tear Individual or a Fake Monument Tear Individual amongst them!

Regardless of which it was, the individual was without a doubt extremely powerful.

Seeing the dragons and snakes approaching from the sky, Chu Mu’s expression instantly turned stern.

Chapter 1423: Spatial Burial (1)

The Martial Cloud Dragon had similarly focused its attention on the approaching group of snakes and dragons in the distance.

The Martial Cloud Dragon held grudges. Seeing that those snakes and dragon were still daring enough to come after it, gusts of hurricanes started blowing out from its nose as it waited for those mixed blood mongrels to come to its doorstep.

“Let’s lure them to the front,” Chu Mu jumped onto Night and asked all of his soul pets as well as the Martial Cloud Dragon to follow him.

The dark element near the cultivation formation was denser. Chu Mu had many soul pets with darkness property. Borrowing the dark element in the environment would give them a little edge in the battle.

The back side of the sun was usually the dwelling space of the dark element. This region was always shrouded by dark clouds. Streaks of pale white lightning flashed regularly and reflected the tall mountains.

“You won’t get away!” In the distance, a fierce roar suddenly rang out!

The owner of the voice was Snake Dragon Faction’s Eminence Zeng Long. He was currently standing on the head of a golden snake dragon that was over several hundred meters long!

The golden snake dragon had a snake shaped head, but two long horns grew on the back of its head. Pieces of metal-like scales covered its entire body, as it radiated a dominant aura.

Behind the golden snake dragon, there were many other snake dragons of various different colours. Toxic Snake Dragon that was covered in toxin, Winged Snake Dragon with membrane wings, Fire Snake Dragon that held a fire pearl in its mouth, Venom Vine Snake Dragon whose body was made up of various kinds of vines entangling one another.....

Their long bodies were coiling around in the sky and on the ground, dragging over a long distance. Pairs of lantern-sized eyes reflected greedy and cruel glints. Just from the aura emitted by them, it was apparent to see that the Snake Dragon Faction was much stronger than Hexfire and Madam Huo.

“Chu Mu, are we going to fight against them?” asked Princess Jin Rou in a low volume.

The other side was really strong, especially the man that was riding on top of that golden snake dragon. His strength would definitely not fall short of Madam Huo who could oppose the Martial Cloud Dragon.

The Martial Cloud Dragon was really strong. However, it could only handle that Eminence on its own. Chu Mu and Princess Jin Rou would not be able to handle the remaining ten Snake Dragon Faction members on their own.

Chu Mu did not answer. He just continued leading his soul pets and the Martial Cloud Dragon towards a certain direction.

The Snake Dragon Faction were chasing closely right behind them, constantly shortening the distance. A green wind type snake dragon kept unleashing wind techniques to hinder Chu Mu's advance.

The chaotic air current certainly delayed Chu Mu's speed to a certain extent, but Chu Mu did not intend to run far away anyway.

“The space around here seems to be very fragile,” Princess Jin Rou said as she surveyed the surroundings.

“Yes, Jin Rou, can your ability break the space?” asked Chu Mu.

Princess Jin Rou shook her head and replied, “No, but I can transfer my power to you and boost your power.”

“The Imprint Valley’s restriction still effects me. I can only let White Devil do it, transfer the power to it,” said Chu Mu.

“Alright,” Princess Jin Rou understood what Chu Mu was intending to do. She nodded and asked again, “Will this also put us in danger?”

“Depends on our luck,” replied Chu Mu.

The darkness ahead became even denser. Thick dark clouds were causing the entire area to fall into complete darkness.

Perhaps due to the oppressive feeling from the darkness or the restlessness of the space, Princess Jin Rou clearly felt her breathing becoming difficult after entering this region.

Unusual chaotic wind swept across without warning, indicating that the surrounding space had already begun cracking and an abyss had started manifesting.....

“They’re here,” stated Princess Jin Rou nervously after she took a glance at the menacing snake dragon group.

Chu Mu nodded and rapidly chanted an incantation to summon White Devil.

In the fight against Hexfire, Little Hidden Dragon had suffered the greatest damage. Chu Mu recalled it and replaced it with White Devil.

The Devil Fire on White Devil's body was still in an interchanging state. Sometimes it was a savagery black, and sometimes it was a bewitching silver.

"Chu Mu, what happened to your White Devil?" Princess Jin Rou looked at the White Devil strangely.

Black represented Black Nightmare. Princess Jin Rou had once seen records about the Black Nightmare in ancient documents. It was the highest bloodline of Nightmares!

Black Nightmare only existed in legends and documents. Not a single person in Nightmare Palace, including the entire Zhengming Continent, had seen a real Black Nightmare before.

Princess Jin Rou came from Nightmare Palace, so she clearly knew what Black Nightmare meant in the entire Nightmare race. Seeing Chu Mu's White Devil occasionally changing into a Black Devil, she was obviously shocked!

"It devoured Black Nightmare's soul," replied Chu Mu flatly.

“Then..... doesn’t that mean that your White Devil has gained the power of Black Devil?” asked Princess Jin Rou.

“Something like that,” Chu Mu nodded.

In fact, other than Ning Maner who knew about the difference in Chu Mu’s half devilhalf transformation, nobody knew that Chu Mu was already a Dual Evil Devil.

Princess Jin Rou was really curious about it, but it was not the time to ask questions as the Snake Dragon Faction had already closed in.

Princess Jin Rou closed her eyes as she began chanting, then she put her palm softly on White Devil’s forehead.

White Devil stared at Princess Jin Rou in a daze. When a rush of special energy was transmitted into its body, it began absorbing it on instinct and converted the energy into its own power.

White Devil should be a little stronger than Night, it was very close to the low class Immortal rank. Once Princess Jin Rou transferred her Devil Soul power to White Devil, White Devil’s evil aura rapidly started boosting. The interchange between the black and the white flames became more erratic!

Soon, Princess Jin Rou completed the transfer, and her face had also turned a bit pale.

“I have transferred the Devil Soul power to White Devil and have also blessed it with Devil Soul Praise. The transferred energy can let your White Devil reach the low class Immortal rank before it

runs out. Devil Soul Praise is a gradual blessing technique, it has a certain probability of allowing White Devil to self evolve,” Princess Jin Rou smiled softly.

Seeing Princess Jin Rou’s body becoming faint, Chu Mu knew that she had used a powerful Devil Soul technique that would inflict harm on her own soul. Watching her weakened state, Chu Mu’s heart was filled with affection.....

“Take a rest, leave the rest to me,” comforted Chu Mu.

“Yeah.”

Power transfer was a process where a Devil Soul converted its own mental strength into energy to raise the power of other creatures temporarily.

Meanwhile, Devil Soul Praise was a permanent blessing technique, similar to Yu Suo’s Blessing Nectar. This not only would allow the soul pet to awaken some racial technique, but it was also possible to let the soul pet complete a self evolution.

White Devil was currently in possession of two bloodlines. It could also use a portion of Black Nightmare’s power. However, it did not gain all of its abilities. Princess Jin Rou noticed that point and added the Devil Soul Praise even if it meant exhausting her spiritual power. She hoped to let White Devil obtain an even greater strength.

“Martial Cloud Dragon, attack the spot that my soul pet attacks,” Chu Mu raised his head and told the Martial Cloud Dragon which was prepared to fight at any moment.

The Martial Cloud Dragon nodded in approval.

“Jiji~!” White Devil became a little overly excited after it received a great boost in power.

Chu Mu was quite satisfied with White Devil’s current increase in strength, it was at least twice as powerful in spatial control.

“Mo Xie, Night, Zhan Ye, all of you as well, attack the same spot that White Devil attacks,” said Chu Mu.

Mo Xie, Night and Zhan Ye also nodded and followed beside White Devil.

After everything was prepared, Chu Mu turned his gaze to the group of snake dragons behind them that covered the sky and land.

They were already very close to Chu Mu's position, he would soon be in their attacking range.

“White Devil, attack!” Chu Mu issued the order resolutely.

White Devil cracked a smile. Black Devil Flame turned into a long Spatial Blade in its hand!

The Spatial Blade flew out from White Devil’s hands and it shot straight towards the location of those snake dragons!

Whoosh!

The Spatial Blade swept past them and it left a horrifying spatial crack above the snake dragon group.

That attack caused many snake dragons to shrink down in fear as they sensed the formidable power behind that technique.

However, the Spatial Blade was severely off target. It would not hit them even if they did not try to dodge it.

“That brat is probably scared stiff of us. He can even miss despite us being such a huge target, hahaha,” The man riding on the Wind Snake Dragon laughed.

“Yeah, that scared me. I thought that I was going to meet my doom.”

Enforcer She’s chest heaved up and down while he stared furiously at Chu Mu and Martial Cloud Dragon.

She recognized Chu Mu. It was him who had ruined all her plans. Otherwise, she would have obtained that Martial Cloud Dragon hatchling a long time ago. She also would not have lost her subordinates!

“Eminence, it’s him!” said Enforcer She grudgingly.

Eminence Zeng Long's attention was not on Chu Mu, but on the Martial Cloud Dragon that exuded a powerful aura.

He could sense that the greatest threat towards him here was that Martial Cloud Dragon.

"They are attacking again, be careful with defense," reminded Enforcer She after seeing a few techniques coming towards them again.

Mo Xie's purple flames, Zhan Ye's Destruction Ray, Night's Demon Dream Strike, White Devil's Spatial Blade and Martial Cloud Dragon's powerful Dragon Flare.....

The five techniques flew towards the same spot and they exploded flashily above the Snake Dragon Faction.

"What's that brat doing? He wants to hit us with those techniques from so far away? He even missed by a fairly large margin."

Amongst the Snake Dragon Faction, some were feeling confused, while some mocked Chu Mu.

However, Eminence Zeng Long focused on the tattered space above him and vaguely sensed a trace of danger from it.

Suddenly, he realized something and turned pale instantly. He roared, "Quick! Leave this place! This region is about to collapse!"

Chapter 1424: Spatial Burial (2)

The space trembled violently. This world was already in the state of collapse. Once the spatial support was broken, that patch of space would be immediately destroyed.

Within the chaotic spatial fragments, chaos energy continuously blasted down like a streak of lightning, madly hitting the wind type snake dragon without any warning!

The soul pet trainer on top of it was unable to react at all and his green Wind Snake Dragon was instantly bisected!

The ten people from Snake Dragon Faction were taken aback. If that chaos lightning strike was shifted slightly, then it would have been them who might have died!

“Move! You don’t want to live anymore?” roared Zeng Long furiously.

After that, Zeng Long rode his golden snake dragon seriously and rapidly retreated to the back.

The golden snake dragon was the strongest amongst them, but Zeng Long did not presume that his golden snake dragon could resist against the terrifying destructive force that was generated by the spatial crack and the collapse!

The other nine Snake Dragon Faction members finally reacted and they also hurriedly rode their soul pets to escape from there!

However, the area that was affected by the spatial collapse was vast. The second chaos strike was shot horizontally into the group. The six members at the front were able to escape in time.

However, three of their members were intercepted and a huge spatial crack was formed in between them!

“Wanying!” A man who was riding on a Fire Snake Dragon saw his teammate getting separated and wanted to save her by bypassing the space crack.

Enforcer She shouted angrily, “Guang Ping, do you want to commit suicide? Can you still return if you were to go?”

The man called Guang Ping was startled for a moment. He looked past the terrifying spatial crack and saw that the space in that region was already falling off piece by piece. That scene was like a piece of the sky was falling off and the earth was dropping into a bottomless abyss, causing one’s head to go numb for a moment!

After a moment of hesitation, Guang Ping decided to give up on charging back.....

Pzzt!

Suddenly, a crack that was spreading out from the collapsed space zoomed past and went right through the body of a four winged snake dragon!

That four winged snake dragon was unable to react at all as the crack had spread in the direction of its long body. This had caused the four winged snake dragon that was over two hundred meters long to instantly disappear into the terrifying spatial crack, leaving only a lifeless head behind.....

Guang Ping and Enforcer She were left shocked once again. If that crack had spread out horizontally, then the both of them would have been bisected!

Guang Ping no longer had room to think about those other trapped teammates. He urged his own Fire Snake Dragon to escape as far away as possible.

The three Snake Dragon Faction members who were separated by the spatial crack were not dead yet. They were still desperately struggling to find an opening which would allow them to escape from this cracking space.

However, as the space was collapsing faster and faster, those deadly spatial cracks and the chaos lightning strikes were very dense now. Those phenomena without any signs would easily shred them and their soul pets into pieces.

Chunks of corpses were falling into the chaotic region, eventually getting swept away by the death swirl into some unknown place. A death this terrifying would probably not leave even a fragment of soul behind.....

In the distance, Princess Jin Rou watched the horrifying scene in utter astonishment. She was rendered speechless for a long time.

Chu Mu had also never imagined that the spatial collapse would create such a terrifying burial effect. Immortal rank creatures were truly so insignificant before this kind of regional collapse.

If the entire Imprint Valley collapsed, then what kind of disastrous scene would it be like?

Chu Mu could not imagine that at all.

“Let’s leave as well,” Princess Jin Rou was scared of the scene before her eyes. Recalling that this Imprint Valley would be collapsing just like that very soon as well, she began to panic.

Chu Mu did not intend to stay in this place for long. He was fairly knowledgeable about spatial structure. In space, there existed some important and fragile support nodes. Once those nodes were destroyed, the unstable space would also rapidly collapse. This collapsed space would constantly spread out as if a hole was opened up in a dam that was not really solid. This hole would keep spreading wider and wider over time due to the water pressure.....

Chu Mu’s act had successfully harmed and deterred the advance of the Snake Dragon Faction, but it was also extremely dangerous at the same time because he had sped up the destruction of this region in the Imprint Valley. If they could not leave the Imprint Valley within a short time, then they would also be buried here.

.....

“This place feels a lot better, I hate light after all,” a masked woman took off her mask as she said this.

The woman had white and supple skin. The moment she took off her mask, the other masked members who were exuding a chilling aura looked towards her unconsciously. Each of them had gotten bewitched by her beautiful face.

This was a sexy woman who possessed beauty, wildness and elegance simultaneously. The black tight suit she wore was unable to hide her alluring proportions.

The people that were standing around that woman were all cold-blooded and bloodthirsty existences. However, even though they seemed to be lusting after the woman, they still remained extremely respectful, afraid of offending that woman.

“Miss Si, just leave this kind of matter to us. We will definitely complete the mission,” assured the masked Leng Lou respectfully.

“Don’t you know that I love to see desperate fights?” Miss Si smiled flirtatiously.

Leng Lou no longer dared to say anything in return and stepped back after lowering his head once.

Miss Si did not mind Leng Lou anymore and took secret glances at another robust figure.

The surrounding men would always look at her with a gaze as if possessed. Miss Si never thought that it was offensive, in contrast, she felt that it was the proof of her charm.

However, only one man seemed indifferent.

True indifference did not need any form of disguise. Miss Si could tell from the gaze whether a man was really interested in her or not.

This powerful man called Tian Lu who was clearly the perpetrator of the mass murder event in the Northern land belonged to the type of people that showed indifference.

It was not the first time that Miss Si had interacted with Tian Lu. It could even be said that Miss Si had been watching that man slowly changing through competition, killing and conspiracies, and eventually reaching his current position and strength.

“I heard that a leader made a move on you?” asked Miss Si after walking next to Tian Lu.

“Yes,” Tian Lu wore a mask on his face and only revealed a pair of sharp and cold eyes.

“Is your soul alright?” asked Miss Si.

She knew very well how strong leader level existences were. Once people like them offend a leader level existence, there was almost no chance of survival.

“No, he’s too arrogant,” replied Tian Lu flatly.

Recalling the situation of that day, Tian Lu’s gaze finally showed some change.

It was the first time that he had encountered such a powerful opponent since the day he became a soul pet trainer. That opponent was so strong that he felt that he would not be able to surpass them no matter how long he trained. It made any power feel insignificant before that opponent.

Wupan Chief. This was a powerful leader that made countless people both fear and respect them. Only by reaching such a level could one truly grasp the world in their palms. Authority, factions and resources were only add-ons to them in the end. They were a group of people who had already reached the peak in strength, and were seeking true immortality!

However, such people usually were really arrogant. Tian Lu had made use of that trait to escape.

Being able to escape from a leader level person was enough to leave countless Immortal rank experts astonished. Tian Lu should be glad about it.

However, he was not really a passive type of person.

Since the other party had wanted to kill him, he would also not let that leader have a good time. He had entered the Imprint Valley this time not only for the Monument Tears that were possessed by others, but it was also to take the head of the subordinate that leader had sent. He could not kill Wupan Navy Chief, but it should not be a problem for him to kill his subordinate.

“Rest assured, I will ask my father to take revenge for you,” stated Miss Si in a serious tone.

“Is it necessary?” asked Tian Lu.

“It is, you were almost killed by him!” A trace of anger flashed across Miss Si’s eyes.

Tian Lu did not say anything anymore. He would settle his own business himself, there was no need to alert the huge figure of the Darkness World. Also he did not want to owe any favors to this woman who held a rather special identity in Darkness Sect.

“Whooooo~!”

Raging wind swept past. A completely black creature suddenly descended from the sky and landed right next to Miss Su and Tian Lu.

A masked man jumped down from the back of that creature. He half knelt and respectfully reported to Tian Lu “Lord Divine Sect’s Qin Guang Wupan Navy’s Jigui are already close to the youth who has obtained the Monument Tear. Should we make our move now?”

“Not yet, what about Snake Dragon Faction and Fire Sect?” questioned Tian Lu.

“Fire Sect has already been defeated. Snake Dragon Sect seems to have also fallen for a trap and has lost many members,” reported that Darkness Sect scout.

Miss Si raised her brows and spoke with a little interest, “That youth seems quite capable. Madam Hou and Zeng Long are not weak people, to be able to repel them..... Why haven’t I heard of such a person before?”

“Have you found out who that person is?” asked Tian Lu.

“No, there is a powerful Martial Cloud Dragon next to that person. So, I cannot keep up with their speed,” answered the Darkness Sect scout.

“Do you know which sect or faction he belongs to?”

“There’s no record. It seems that he is a soul pet trainer who had broken into the Imprint Valley by himself.”

Tian Lu nodded and waved his hand to signal the scout to continue scouting for intel.

“What do you intend to do?” asked Miss Si.

“Let them fight one another for a while longer,” replied Tian Lu plainly.

Chapter 1425: Vs Snake Dragon Faction (1)

.....

“The Snake Dragon Faction is chasing us again,” Princess Jin Rou opened her eyes and reported her observations to Chu Mu.

The other groups of people behind them were quite clever. They did not try to encircle Chu Mu at all, but instead rushed to the entrance leading to Divine Sect with their fastest speed, directly sealing off Chu Mu’s escape route. Then, they were slowly beginning to surround Chu Mu.

Although this would delay their encounter with Chu Mu, it had guaranteed that Chu Mu would not be able to escape anymore.

A battle was inevitable. Since he could not leave, then he had to fight.

Chu Mu did not head towards the Divine Sect entrance anymore, but instead waited on the spot for those Snake Dragon Faction members to catch up.

Soon, a group of snake dragons appeared from a distance releasing thunderous roars!

Taking the lead was that golden snake dragon. Its majestic figure swam proudly in the sky, and its merciless and menacing aura was truly awe-inspiring.

Dragon race loved fighting battles, the Martial Cloud Dragon was a classic example of a battlemanic species amongst the dragon race. When it saw that the golden snake dragon flying towards here, its eyes instantly became fervent and proud.

In its eyes, the snake dragons were just a bunch of mixed blood species. Their cowardly and despicable fighting methods were enough to deem them unqualified to possess the bloodline of the fighting expert dragon race!

Hence, when it saw that the golden snake dragon was showing off, its temper had gradually turned foul. Its sharp claws were ready to tear apart the body of that cowardly race at any moment!

Chu Mu knew that the Martial Cloud Dragon was angry after seeing that stance.

The Snake Dragon Faction had attempted to trap it with the Coiling Dragon Snake Formation and had tried to snatch its offspring previously. It was going to settle the score all together right now!

There were a total of six snake dragons. However, once they approached them, the entire sky seemed to have been occupied by their long winding bodies!

Above the golden snake dragon, Zeng Long wore a golden armor, and his eyes were furiously glaring at Chu Mu.

“Do you know the fate of those people who had once offended me?” Zeng Long’s face was full of dragon tattoos, and his appearance when he was angry looked bizarrely menacing!

Chu Mu raised his head and plainly answered, “Sorry, I have never heard of you before.”

Chu Mu had actually heard about the Snake Dragon Faction before, but he really did not know who Zeng Long was.

He had only reached Immortal rank not that long ago, so he had rather limited knowledge about the Immortal rank individuals.

However, he could tell that Zeng Long should be on the same level as Madam Huo, definitely not a simple small fry.

“You sabotaged our Coiling Dragon Snake Formation and also killed so many of us using despicable methods. I’m definitely going to let you taste the most painful thing in this world before you die!” shouted Enforcer She with a twisted expression.

Enforcer She had brought many people for this trap with her, but only three people were left now. The deaths of the others were all related to Chu Mu!

The entire Snake Dragon Faction only had a limited number of Immortal rank experts. So many people had died in this trip to the Imprint Valley, Enforcer She could no longer explain herself to the Gate Master!

“Let me kill him personally!” Guang Ping yelled full of anger.

The female member who had died in the collapsed space had some relationship with him. They were about to become a couple soon, but she ended up getting buried in the collapsed space. Guang Ping could not let go of this grudge no matter what.

Seeing Guang Ping's furious stance, Princess Jin Rou whispered to Chu Mu, "You broke them up."

"It's him who watched her die," Chu Mu did not feel guilty at all. An enemy was an enemy, regardless of the relationship shared amongst the enemies.

Furthermore, Chu Mu had also seen the situation clearly. If Guang Ping had made a detour back, then that female soul pet trainer might have been able to survive.

"True. Then, if I'm also swept into the spatial crack, will you also turn and run away like that guy?" asked Princess Jin Rou on purpose.

"No, I'm different from him," replied Chu Mu calmly.

The flirtatious conversation between Chu Mu and Princess Jin Rou had completely enraged Guang Ping, because it was indeed true that he did not even try to save that female soul pet trainer out of sheer concern for his own safety.....

"I..... I'm going to kill you!" Guang Ping rode his Fire Snake Dragon and recklessly charged towards Chu Mu!

"Fool, get back here!" roared Zeng Long.

Guang Ping had already completely lost his sanity, he did not even listen to his Eminence. He just rode his Fire Snake Dragon alone and charged crazily towards Chu Mu.

Seeing Guang Ping approaching, Chu Mu and Princess Jin Rou both smiled.

“White Devil, kill him!” ordered Chu Mu coldly.

White Devil was standing silently behind Chu Mu and had almost overlapped with his shadow.

When the Fire Snake Dragon appeared right before Chu Mu, White Devil suddenly moved in front of him. A pair of claws that were wrapped in color changing Devil Fire easily stabbed through the Fire Snake Dragon’s chin and penetrated right through!

Guang Ping and the Fire Snake Dragon were unable to react at all. White Devil’s claws had instantly pierced the brain of the Fire Snake Dragon!

Black flames started spreading wildly, rapidly squeezing into the Fire Snake Dragon’s soul. Although the Fire Snake Dragon possessed fire property, it was a little insignificant before the intensity of the black Devil Fire.

The Fire Snake Dragon desperately struggled in midair. Its appearance suggesting that it wanted to cry out for help but could not due to its chin getting penetrated had caused the other Snake Dragon Faction members to feel a sudden chill!

“You can go to her now,” said Chu Mu coldly as he stared at Guang Ping sharply.

“Huhuhuhuhu~!”

The black Devil Fire burned throughout the Fire Snake Dragon’s body and soul, rapidly spreading onto Guang Ping too. Once the rampaging Guang Ping was wrapped by the fire, he fell into extreme terror.

“Ah!”

A pained scream rang out. Guang Ping was swallowed by black flame. His body and soul had suffered from intensely burning flames and had rapidly turned to ashes!

The duration of the entire process lasted only for a few seconds. The other Snake Dragon Faction members were utterly shocked. They could never have imagined that the young man before them actually possessed such a terrifying strength!

“Black..... Black Nightmare.....” Zeng Long’s mouth twitched involuntarily.

He had only seen the Black Nightmare which possessed supreme bloodline only once in the Tundra Territory. The overwhelming power that it possessed had left a deep impression in him.

It was hard to imagine that anyone in this world could actually subdue such an evil and savage creature.

However, a Black Nightmare was standing right before him. Furthermore, it was a soul pet of that young soul pet trainer. This caused Zeng Long's expression to turn stern.

“As expected of a Monument Tear Individual, there will always be astonishing aspects about them,” Zeng Long took a deep breath to calm himself down. He stared at Chu Mu again and continued, “However, you Monument Tear Individuals are all just sacrifices in the end for me to step into the Undying realm.”

Chapter 1426: Vs Snake Dragon Faction (2)

Zeng Long's arrogant tone had caused Chu Mu to feel immense displeasure.

Does he not see the Martial Cloud Dragon that is just beside me?

The Martial Cloud Dragon was already way stronger than his golden snake dragon. Even if it had the assistance from his other soul pets, he would only be fighting on equal terms against it.

In the meantime, Chu Mu would have also finished off his five subordinates.

Although the people from Snake Dragon Faction were indeed stronger than Hexfire, the low class Immortal rank White Devil was easily enough to take them all out!

“Ao~!”

The Martial Cloud Dragon proudly stepped up and used its enormous body to stand in between Chu Mu and the golden snake dragon. This stance clearly declared to Zeng Long that he had to defeat it first before taking on Chu Mu.

Zeng Long was a very arrogant person, but the Martial Cloud Dragon was still a creature that he had to be wary of.

Air currents that were on par with tornadoes kept getting blown out from the Martial Cloud Dragon's nose. Rows of sharp dragon teeth also peeped out from its huge mouth.

Before Zeng Long could say anything arrogant to raise their morale, the Martial Cloud Dragon had already gone forward and swung a strike with its claw on him to slap him right back into reality.

Zeng Long didn't dare to clash head on with the Martial Cloud Dragon. He stepped back in irritation and glanced at his five subordinates, then shouted, "Finish off that brat!"

Enforcer She was holding a grudge towards Chu Mu from the bottom of her heart and wanted to lynch him to death on the spot. However, after seeing Guang Ping getting easily taken out by that Black Nightmare in a mere few seconds, she harbored some fear against it.

"Surround him!" Enforcer She did not step up herself and instead ordered the other four.

The remaining four Snake Dragon Faction members were Zeng Long's subordinates. So, Enforcer She did not really have any right to order them.

The four looked at Enforcer She in disdain, clearly unsatisfied with that woman ordering them around.

However, they did not plan to slack off as Eminence Zeng Long had already issued the order. They had to execute the order given to them as soon as possible!

All four of them rode on their snake dragons. Snake dragons of different properties and colors were rapidly flying around Chu Mu.

“Hissss~!”

Snake dragons spat out their blood red forked tongues. Their large eyes were locked onto Chu Mu’s soul pets.

The four of them clearly knew the power of White Devil and so they focused their attention on it, yet they were hesitant to make a move.

On the ground, Zhan Ye was not as patient as them. Its Brave Stinging Heart and Ancient Power Awakening would gradually fade away if it were to wait any longer. So it must fight!

Zhan Ye chose a six-winged snake dragon as its opponent and pounced towards it first!

The six-winged snake dragon coiled around in the air and was over a hundred times larger than Zhan Ye. When it saw Zhan Ye pouncing towards its direction, it purposely lured Zhan Ye further up into the sky.

The six-winged snake dragon with wing property would gain plenty of advantage in a fight in the air.

Zhan Ye simply stepped into the air and ignored the little tricks that the enemy used.

“Grrrr!”

Zhan Ye roared and shot its Dark Destruction Ray towards the six-winged snake dragon.

The large size of the six-winged snake dragon meant that it would not be agile enough to doge it. The Dark Destruction Ray blasted flat onto its body and knocked it far away.

“I’m going to swallow your soul pet whole!” cursed the soul pet trainer.

After that, the six-winged snake dragon stabilized itself and opened its huge mouth wide in an attempt to swallow Zhan Ye whole.

The armor on Zhan Ye’s body showed some changes. Instantly, sharp spikes sprouted over its entire body!

The six-winged snake dragon’s bite force was truly astonishing. It could easily crush most other armored creatures. However, when it bit down on the spike-armored Zhan Ye, its mouth ended up bleeding profusely and it cried out in pain!

Zhan Ye was not going to give the six-winged snake dragon any chance to swallow it whole. After it punctured the mouth of the six-winged snake dragon, it immediately escaped the range of its bite. It hopped over onto the long back of the six-winged snake dragon, its claws dug rather deep into the scales of its body, tearing a gruesome bloody cut on its back!

The six-winged snake dragon twisted its body violently and tried to fling Zhan Ye off its body. It suddenly did a big sweep after Zhan Ye had lost balance, its tail heavily whipping on Zhan Ye's body, denting a large chunk of Zhan Ye's armor!

Zhan Ye crashed into a mountain rubble. It climbed out of the rubble immediately and looked at its dented armor, but did not really mind it. This level of injury was nothing to it.

The six-winged snake dragon was not really a weakling, it should be one level higher than a normal pseudo Immortal. Zhan Ye loved to face enemies that were stronger than itself, only in that way could it raise its strength even faster!

Chu Mu only took a glance at Zhan Ye who was filled with fighting spirit. He did not really need to worry about Zhan Ye too much. Even if there was one more snake dragon, they might not be able to triumph over Zhan Ye which could still continue raising its fighting strength.

Out of the remaining four people, the woman with a snake tattoo on her face should be the strongest. He could tell that the Toxic Snake Dragon that was full of toxin on its entire body that she rode should be at low class Immortal rank. It was also her who had trapped the Martial Cloud Dragon in the Coiling Dragon Snake Formation with the cooperation of her subordinates before.

"White Devil, you take on her Toxic Snake Dragon," ordered Chu Mu.

White Devil made a crescent smile. After receiving Chu Mu's order, the arrogant White Devil simply ignored the other snake dragons and flew directly towards the Toxic Snake Dragon.

In an instant, White Devil triggered black Devil Fire and had it spread out all over on the black ground. The black Devil Fire that spread out looked like it was providing White Devil with an advantage similar to a domain. In this Devil Fire domain, Enforcer She's Toxic Snake Dragon would be constantly suffering the burns from the Devil Fire.

Enforcer She did not back off this time though. Despite hearing about the fearsomeness of Black Nightmare before, she did not believe that she could not match this Black Nightmare which had forcefully boosted its strength using some unknown method.

Chu Mu noticed that Enforcer She was attempting to fight against White Devil alone and revealed a cunning smile.

That woman seems to have forgotten that this place was the Imprint Valley. The dark element and the instability of space allowed White Devil which had the Other main property and a dark sub property to gain an absolute environmental advantage here.

White Devil's fighting method was particularly savage. It honestly did not seem to know the concept of defense. Facing the enormous Toxic Snake Dragon, White Devil kept recklessly unleashing technique after technique, not giving the Toxic Snake Dragon even a single moment to relax.

Not long after the battle started, Enforcer She had noticed that the environment favored that Black Nightmare and it would be stronger here than her Toxic Snake Dragon. Furthermore, the toxin from her Toxic Snake Dragon would not really work on creatures like White Devil.

Enforcer She chanted an incantation. She had more than one Immortal rank soul pet with her. Soon, a Seven-Headed Blood Snake appeared in front of her!

Its body was blood red in color. Blood was constantly seeping out of its skin and it dripped down.

The seven heads caused this Blood Snake to look even more menacing. Their necks twisted and entangled with one another, making it seem as if seven different snakes were entangled together and had fused their bodies.

Seven-Headed Blood Snake was similarly an Immortal rank creature. Its aura seemed to also be stronger than a normal pseudo Immortal rank creature.

After the Seven-Headed Blood Snake showed up from the diagram, its seven heads immediately spat out snake fluid at the same time and they sprayed it onto White Devil.

White Devil tried to ignore it at first, but after noticing that the snake fluid was able to extinguish the Devil Fire on its body, it realized that this snake fluid was extremely dangerous. It hurriedly used spatial power to create a layer of protection around its body to ward off the snake fluid.

“Night, go help White Devil,” ordered Chu Mu.

Night had preserved most of its fighting strength in the last battle. After seeing that Enforcer She had summoned another soul pet, he naturally was not going to let White Devil take on two enemies by itself.

“Nie!”

When White Devil saw Night appearing in its battlefield, it cried out in dissatisfaction, as if it was determined to take on two enemies by itself.

White Devil was very arrogant. It did not want Night to participate in its fight. Its black and silver interchanging body bravely stood tall in between the Toxic Snake Dragon and Seven-Headed Blood Snake, with black and silver energy rapidly interchanging in its palms!

“Never mind, let it handle this on its own. Night, you take on the rest,” said Chu Mu.

Night nodded and immediately ignored the reckless White Devil. It casually strolled down from the sky and stood right in front of an Earth Snake Dragon which had a dragon body but with a long snake neck and a snake head.

Night chose it as its opponent because it was the strongest amongst the remaining three snake dragons. After going through a rich experience in the Demonic Burial Mound, the battle maniac factor within Night was completely stimulated!

“Two snake dragons remaining now,” Princess Jin Rou took a glance at Chu Mu.

Only Mo Xie had not joined in the battle now. Mo Xie had fought a rather tough battle against the Burning Nine-Headed Bird before and had not recovered yet from that. It would be difficult for it to take on two enemies by itself.

“Mo Xie, exhaust their stamina first, then let Ghost King take them on,” ordered Chu Mu.

Mo Xie nodded in reply. Purple flames instantly enveloped its entire body. It transformed into Hades Fox Noble as it ran towards the enemies.

It was too difficult for Mo Xie to take on two enemies by itself in its current condition. So, it cleverly chose to conduct guerilla warfare instead. It kept leaping in between the two clumsy snake dragons, rarely clashing against them in a bout of power.

After Mo Xie had exhausted the enemies to some extent, Chu Mu decisively recalled Mo Xie and summoned Ghost King next.

“Monarch Ghost Transformation, attack!”

After Ghost King manifested, the curved sword in its hand was instantly enveloped by a thick layer of ghost fire!

Its huge sword looked like a mountain. Once Ghost King’s gigantic body stood tall in front of the two snake dragons, the two snake dragons immediately looked a lot smaller.

One swing of the sword, and the two snake dragons which had attempted to attack Chu Mu were instantly swept away like rubbish, heavily crashing into the ground!

Chapter 1427: The Cunning Golden Snake Dragon

The two snake dragons slowly got up from the ground as they trembled. When they were facing most of their enemies, the snake dragons would usually use their enormous bodies to compete in a match of strength.

However, before the Ghost King, that method could no longer work. Furthermore, the two snake dragons really did not know what to do when they were facing a rock giant.

Their toxins were useless against rock type creatures. If they used their sharp teeth to bite, then they had to consider if their teeth would shatter instead. If they were to wrap around it, then it might be able to just tear them apart with its immense strength.

Ghost King did not bother with using any complicated method to take on the enemy. It just simply kept swinging its sword towards the two snake dragons.

Snake dragons usually liked to employ various different methods in their fights. They would occasionally fly into the sky and would attempt to suppress Ghost King from there since it had trouble taking the air.

Once the snake dragons swam into the sky, Ghost King certainly seemed to be unable to exert its full power. However, the snake dragons were also close-range combat creatures. Their long-range techniques were clearly nothing in front of Ghost King's robust body. Ghost King just kept up its solid defense and did not try to chase after the snake dragons after they escaped into the air. Neither side could really do anything and they just glared at each other.

"What are you two doing!?" In the distance, Zeng Long noticed that two of his subordinates were fighting so passively while he was busy fighting against the Martial Cloud Dragon and roared in an annoyed tone.

"Lord, this giant race is truly troublesome....."

"Enough nonsense, finish off that kid right now!" Zeng Long did not bother to listen to their excuses and scolded them in return.

The snake tattoos on their faces started bending like earthworms as their expression also turned bitter soon after. Rock type creatures were famous for their defense, even more so for the giant race amongst the rock type. Some common tactics that the snake dragons used were completely ineffective before the giant race.

The two of them did not dare to defy Zeng Long any more and forced themselves to descend a little towards the ground.

Ghost King's body was as tall as a mountain. Once the two snake dragons lowered their height a little, it immediately welcomed them happily with its curved sword.

The snake dragons managed to dodge with some effort. They flung their long tails and whipped them heavily onto Ghost King's body.

Ghost King was currently in offensive mode, but its defense was originally terrifyingly high. Such attacks from the snake dragons would usually have been fatal, but they were utterly ineffective against the Ghost King!

The curved sword was instantly swung down, a deep sword trail was distinctly carved into the sky, accompanied by the chilling ghost fire. The green Poison Snake Dragon suffered a deep fatal cut from that attack and its green blood sprayed out.

"When did your Ghost King become so strong?" Princess Jin Rou looked up at Ghost King with excitement.

Ghost King was currently facing off against two snake dragons. Previously, Mo Xie was still having a hard time taking on a single snake dragon. However, once Ghost King appeared, it did not even unleash any flashy techniques or use some complicated battle tactics, yet it was able to easily suppress the two snake dragons like two little snakes.

In truth, Chu Mu also did not know that the giant race was the bane of the snake dragon race. Snake dragons were cunning and despicable, their attacks were usually poisonous. However, before the giant race which had absolute defense and also immense strength, all of their tactics were simply like jokes and became utterly ineffective.

.....

The golden snake dragon swam very fast in the sky. It left behind a trail in the path it travelled on, forming a golden diagram. This diagram possessed the power to restrain. When the Martial Cloud Dragon passed through it, the diagram immediately rooted the Martial Cloud Dragon on the spot.

“Ao~!”

The Martial Cloud Dragon roared and tried to use brute force to struggle out of the creepy golden restrain.

Zeng Long simply sneered, and changed focus onto Chu Mu instead.

The Martial Cloud Dragon was really strong, and he would not be able to defeat it in a short time.

After realizing that, Zeng Long no longer wanted to waste any time on the Martial Cloud Dragon. Hence, he purposely used a little trick to temporarily restrain the Martial Cloud Dragon in the Golden Snake Diagram.

The restrain could only last for a few seconds. However, it was enough time for Zeng Long to finish off Chu Mu who possessed the Monument Tear!

The golden snake dragon dove straight down, turning into a streak of golden lightning and it split open the dark sky.

All of Chu Mu's soul pets were busy fighting against other snake dragons. Zeng Long reached the ground without any hindrance and instantly approached Chu Mu.

“Ao!”

The Martial Cloud Dragon saw that the enemy playing dirty and it became even more furious. A blue dragon force filled its entire body and it forcefully shattered the golden diagram!

After breaking free from it, the Martial Cloud Dragon immediately closed up its wings and performed a free fall to chase after the golden snake dragon.

Zeng Long took a glance at the Martial Cloud Dragon and sneered at it.

The Martial Cloud Dragon would not be able to make it in time with such a distance between them.

“Do you really think that I will keep getting caught up by that stupid dragon? You need to use your brain a little to achieve your objective!” mocked Zeng Long as he got closer to Chu Mu.

As Zeng Long was talking, his golden snake dragon opened its mouth and bit down decisively towards Chu Mu and Princess Jin Rou.

The golden snake dragon's gullet was really deep, it looked as if a spatial black hole was approaching them.

Princess Jin Rou was already in a spectral state, so that attack was clearly ineffective against her. She instead looked at Chu Mu with worry and intended to chant an incantation to resist the attack for Chu Mu.

Chu Mu raised his head and was unexpectedly calm while in front of the huge snake mouth.

The stench that was coming from the golden snake dragon's mouth spread towards him. Darkness filled his sight completely, he could only see its red forked tongue and its wriggling gullet.

Princess Jin Rou became even more anxious. She could resist some attacks with her mental technique. However, this golden snake dragon's rank was too high for her, so she was unsure if she could properly block it.

However, right before she was about to start chanting, black Devil Fire slowly ignited from the ground beneath them.

The Devil Fire did not spread too quickly. After it gradually covered the bodies of Chu Mu and Princess Jin Rou, their bodies appeared to have been burned into ashes, and blown away by the air the golden snake dragon exhaled.

"Sia!" The golden snake dragon bit down thoroughly, swallowing the black flame and a large chunk of the rock on the ground along with it.

Its snake body twisted and it rapidly ascended after sliding for a while, flying towards a mountain.

The golden snake dragon circled around the mountain for a while, as its long body was coiled on top of the mountain. After raising its head, its tail was right at the middle of the mountain.

“Hahahaha!” laughed Zeng Long from on top of the golden snake dragon’s head.

The Monument Tear is mine now, both Seven Sins Fox Light King’s and this kid’s. What a great harvest. Although a few of my men died in the end, it doesn’t matter. Nobody can stop me from becoming a Gate Master now!

“Eminence Zeng is truly incredible as expected.....” Enforcer She was still present at the battlefield. She clearly witnessed the scene of the golden snake dragon swallowing Chu Mu and that female spectre whole, so she hurriedly flattered Zeng Long.

At the moment, Zeng Long really wanted to be praised by others. In a few seconds, his golden snake dragon would start digesting Chu Mu. Meanwhile, the Monument Tears would also become nutrients for his snake dragon. What he needed to do right now was to find a quiet place to wait for his golden snake dragon to complete the digestion.

In the distance, a cluster of black Devil Fire suddenly appeared out of nowhere. Two figures slowly emerged within the fire, they were none other than Chu Mu and Princess Jin Rou.

Princess Jin Rou still maintained the motion of beginning her chanting. When she noticed that she was safe, she looked at Chu Mu with both surprise and confusion.

Zeng Long’s laughter came from the mountain from far away. Chu Mu saw that the arrogant fool had gone so crazy already and seemed to have found it funny.

“E..... Eminence.....” The other members of the Snake Dragon Faction saw Chu Mu appearing from within the black fire and hurriedly notified Zeng Long.

Zeng Long had certainly become a little too overjoyed, he only reacted after his subordinates called out to him a few times.

When he saw Chu Mu standing far away completely unscathed, his laughing figure instantly petrified. That appearance was as strange as it could become.

Zeng Long clearly remembers that Chu Mu had no other soul pets left around him, so he should not have been able to dodge the golden snake dragon’s bite. He should have been in the stomach of the snake dragon, so there was no way that he could stand there unscathed!

“How’s the taste of the soil?” mocked Chu Mu from far away.

Zeng Long’s expression became even worse, the dragon tattoos that covered his face were twisting like centipedes.

He never imagined that he would be fooled by that brat. He no longer cared how Chu Mu was able to escape from his golden snake dragon’s attack, he simple rode on his golden snake dragon and pounced towards Chu Mu once again.

“Ao!”

The Martial Cloud Dragon appeared before the golden snake dragon right at that moment. It was tricked by that cunning foe once before, so it was really angry right now. Hot air blew out from its nose like a volcano eruption!

Seeing the Martial Cloud Dragon, Zeng Long became even more irritated. He gritted his teeth and ordered his golden snake dragon to avoid the Martial Cloud Dragon's attack.

The Martial Cloud Dragon did not let the golden snake dragon go this time though. It kept slapping down its huge claws at it. The golden snake dragon became dizzy after getting slapped and it almost crashed into the ground a few times.

"Chu Mu, isn't your White Devil still fighting? So how can you still use the ability of Nightmare?" asked Princess Jin Rou after she saw that the battle was turning to their favor.

"I possess the source of its power, so I can still perform some of its evasive or defensive techniques. Actually, I would have been fine even if it bit me," explained Chu Mu briefly.

Chu Mu was not a Half Human, he controlled the power instead. In fact, White Devil was just a subordinate soul. If he summoned White Devil, then he would not be able to use a lot of techniques. However, that did not mean that he was a normal human being.

Furthermore, Chu Mu doubted whether that golden snake dragon could really inflict any damage on him. Chu Mu's physique was different from normal people. His defensive strength was at the level of his half devil transformation. Otherwise, he would not dare to block the techniques of the enemies for his soul pets.

Chapter 1428: Fatal Zone, Spatial Black Hole

"Chu Mu, more people are coming," reported Princess Jin Rou as she focused in another direction.

Chu Mu did not know how many Monument Tear Individuals or Fake Monument Tear Individuals had appeared in this Imprint Valley. However, all of them seemed to be stronger than him. He really had no idea how he was going to handle them without the Martial Cloud Dragon.

Chu Mu took a glance into the distance. He was not that far away from the Divine Sect entrance, but a group of people were approaching him from that direction, and he would be surrounded very soon.

Do I really have to give up on this Monument Tear?

Recalling the two Seven Sins Fox who were leaning on each other and were quietly waiting for their death, Chu Mu felt that it would be a sacrilege if he were to hand over this Monument Tear to those greedy people.

Zeng Long's subordinates were not weak at all. Despite Chu Mu gaining some advantage against them, it was not really an easy matter to finish them off in a short time.

Boom~!

A thunderous explosion rang out, the sky that was covered in dense dark clouds suddenly began to collapse!

This looked as if a black mirror had suddenly shattered, revealing the deep lightless chaos behind it. The lightless chaos stirred and sucked in the surrounding light rays, clouds and particles!

After the collapse started, an intense spatial swirl appeared below the collapsed region. That was the place where Night was fighting against a snake dragon.

Night was faster in its reaction and it immediately escaped from the battle area after sensing a strange fluctuation in space. It ran back to Chu Mu.

On the other hand, that snake dragon was slower in both its reaction and speed. When the soul pet trainer sensed the instability of space, the suction force of the swirl had already enveloped his snake dragon.

That snake dragon ignored it at first and maintained its speed as it chased after Night.

“Why is it so slow?” wondered the soul pet trainer with a dragon tattoo on his face.

It felt as if his snake dragon was being dragged by something from behind and had difficulty moving.

“Su Qing, behind you!” Suddenly, Enforcer She shouted.

The soul pet trainer called Su Qing thought that the Night Dream Beast had appeared again and so he hurriedly turned his snake dragon around to spit out a mouthful of snake fluid.

After the snake fluid flew out though, it was immediately sucked into the expanding black hole. When Su Qing realized that there was an endless darkness and abyssal-like chaos behind him, his face instantly paled in fear and he urged his snake dragon to speed up.

His snake dragon was already moving at the fastest speed possible. There was a powerful spatial swirl around the black hole. This swirl would pull in any matter around it. It would be almost impossible to break free from the pull unless one was fast enough.

The black hole kept expanding, so the suction force of the spatial swirl also kept strengthening too. The snake dragon's speed was getting slower and slower. Eventually, it looked as if its tail was tied onto something and it could no longer move forward.

The people who were fighting on the ground also broke out of their battle to watch the change happening in the sky.

“Save..... Save me, you guys..... someone come save me!” Su Qing lost all color on his face. The spatial black hole behind him was like the gullet of a monster, it would be the end for him if he were to get swallowed by it!

Everyone else was on the ground. When a spatial black hole of such a large size suddenly appeared above them, even if they had reached Immortal rank, no one was brave enough to willingly approach that gate of hell. Nobody dared to fly near that region, including Zeng Long.

Su Qing and his soul pet were in a situation as if they had fallen into a swamp, they would slowly continue to sink if nobody pulled them out.

Gradually, Su Qing and his snake dragon were getting pulled further in. The snake dragon's tail sank into the dark region of emptiness.

The snake dragon did not feel any pain at all. However, everyone could tell from the way it was desperately twisting its body that it was completely in a panic.

Su Qing was still shouting desperately for help. His voice was getting further and further away.

The black hole had suddenly appeared in the sky. A two hundred meter long snake dragon was slowly getting sucked into the black hole. Snake dragons were already considered huge. However, when one was slowly getting swallowed by the black hole, it looked as if a little worm was falling into an abyss.

In the end, Su Qing and his snake dragon were both completely swallowed up by the black hole. The black hole and the spatial swirl were still expanding. Those tall mountains began to shake violently. Suddenly, loud cracking sounds rang out everywhere and those mountains were literally pulled out of the ground. Everyone watched as a large chunk of the mountain got sucked into the air and sank into the black hole.

As the spatial swirl expanded more and more, some of the smaller rocks on the ground started floating up and were getting sucked into the black hole.

This scene was truly mind blowing. This merciless devouring was a real natural disaster. What could an Immortal rank creature do against it? In the end, it still got sucked by the black hole into an unknown death world without any chance to struggle at all.

Zeng Long and the remaining few Snake Dragon Faction members were a little spaced out. They had just watched one of their members getting swallowed up by the black hole. Nobody dared to go to rescue him. It was not because they were cold-blooded and selfish, but that they knew that they might also get sucked into the black hole if they went.

“This Imprint Valley’s collapsing state is getting more and more severe,” said Princess Jin Rou warily as she looked at the black hole in the sky.

Chu Mu nodded and looked in the direction of the exit worriedly.

That place better not collapse too, or we would really be buried in this Imprint Valley.

The Snake Dragon Faction members took a long time to snap back to reality. They seemed to have been too astonished by the phenomenon of the spatial collapse. They had already lost their fighting spirit as they knew that they would only end up dead here if they did not leave soon.

Meanwhile, Eminence Zeng Long was even more furious now. He had brought a group of Immortal rank experts from his Snake Dragon Faction into this Imprint Valley for the sake of obtaining the Monument Tear. If he went back empty-handed, then his position as the Eminence might not be safe any longer after having lost so many of his subordinates!

All of his rage was pointed towards Chu Mu, and he glared at Chu Mu with vicious eyes.

This time, he directly ignored the interception from the Martial Cloud Dragon and flew straight towards Chu Mu.

The Martial Cloud Dragon's claw blocked the path of the golden snake dragon. The golden snake dragon did not make any attempt to dodge at all and it simply allowed the dragon claw to tear its skin off.

Zeng Long ignored the flowing blood. The golden snake dragon jerked heavily and shook off the Martial Cloud Dragon's claws, then it flew straight towards Chu Mu once again.

The golden snake dragon was very fast. Its body reflected a golden glow as it shot towards Chu Mu like a huge ballista!

Immortal rank's tremendous power could easily damage the stability of space. The space along the path it took was damaged to some extent when Zeng Long flew over it with such crazy speed. A long and deep tear had appeared in the path that Zeng Long's golden snake dragon flew through.

In normal situations, the tear would repair itself in a short time. However, the Imprint Valley was currently in a severe state of collapse. Once a spatial tear appeared, then not only would it not be repaired, the tear would instead worsen!

"Lord Eminence!" shouted Enforcer She when she saw that the tear was opening up further and further and it became a crack!

The crack kept expanding and had transformed into another black hole. The surrounding rocks were sucked in instantly.

Zeng Long turned around and saw that a crack-shaped spatial black hole was tailing right behind his golden snake dragon. His expression changed immediately.

Right away, Zeng Long ordered his golden snake dragon to slow down, not daring to damage the fragile space any further.

Zeng Long's golden snake dragon was strong indeed. However, what could it really do before a collapsing space? Only death awaited it.

After slowing down, the crack no longer trailed behind it. However, the torn space behind was still expanding. The suction force was also spreading out bit by bit.

“I advise you to stop with your reckless actions. If you create another spatial black hole or two, then this entire region will lose all support and immediately collapse. A spatial black hole of over thousands of kilometers would open. Do you think any of us can survive that?” criticized Chu Mu with a frown as he looked at Zeng Long who was already before him.

“Hmph, it’s you who will be the one dying!” Zeng Long ignored Chu Mu’s words and ordered his golden snake dragon to attack.

The golden snake dragon’s body suddenly bloomed out with a golden light. Its long body shot out countless pythons made up of light rays. Those pythons wriggled fiercely in the air and on the ground, swarming towards Chu Mu.

“White Devil,” Chu Mu issued an order to White Devil.

White Devil understood Chu Mu’s intention clearly. It casually swung at the space in front of it. A bright tear appeared right in front of Chu Mu.

There was no need for White Devil to guide the spatial storm. Once a tear appeared in the space, the tear itself rapidly expanded and the powerful spatial swirl sucked in all of those light pythons.

Just a moment ago, there were thousands of light pythons swarming in. And now after a few seconds, all of them were sucked into this normal tear.

All the tears in space were in the process of worsening. Before anyone realized, the biggest black hole in the sky was already pressing down on them. Chu Mu traced along the black hole and realized that the region of space behind it was already completely swallowed up. It was possible that this black hole had extended from the spatial collapse that he had created before.

At the same time, this also meant that the entire region of space from the back of the sun to this dark land had already become a spatial black hole. It had become the fatal zone that even Immortal rank creatures could not survive in.

The powerful suction force of the swirl approached them. Zeng Long raised his head and saw that the tears and cracks that he and Chu Mu had made were gradually connecting to the largest black hole in the sky. The collapsing speed was accelerating even further.

By now, Zeng Long had no choice but to be wary. If he created another crack or two, then it might really end up as what Chu Mu said. A black hole of over thousands of kilometers would manifest itself and then nobody could escape anymore!

Chapter 1429: Don't Be Impulsive!

"You lots, don't do anything reckless now!" Zeng Long turned around, and yelled towards Enforcer She and his subordinates.

Enforcer She and his subordinates naturally did not dare to make any form of movement. The huge black hole above them and the two spatial cracks were rapidly connecting. The direction it was spreading was not towards them though.

If they were to unleash any techniques and destabilize the space around them, then that black hole and the cracks might turn around towards them. They would not dare to conduct such suicidal acts no matter how dumb they were.

The black hole was still expanding further. The path that was leading towards the Light Valley had already been completely devoured. Only the path that was leading towards the Divine Sect's entrance was barely safe for now.

The longer they stayed here, the more dangerous it would be for them. Chu Mu would not want to be buried here, but he also could not leave this place as there was a group of people flying towards him from that very safe direction.

Chu Mu looked afar and realized that the person leading them looked familiar.

After the person approached closer to him, Chu Mu immediately frowned.

Isn't that the middle-aged man who was walking along with Gate Master Han? Based on the attire of those people behind him, they should be Divine Sect members. They're either Han Yan's subordinates or that Sect Master Du's.

Not far away, Qin Guang also narrowed his eyes and examined Chu Mu who was standing next to the Martial Cloud Dragon.

He was honestly surprised. He had entered the Imprint Valley this time in order to obtain the Seven Sins Fox's Monument Tear. He knew that the seal would be removed when this Imprint Valley enters a state of collapse. However, he had never expected that the Seven Sins Fox's Monument Tear would be in Chu Mu's hands.....

It was truly perfect. He just had to kill Chu Mu and then he could accomplish both his goals.

Soon, Qin Guang's gaze turned to Zeng Long who rode on a golden snake dragon.

Zeng Long was rather famous in the Immortal rank community. That ugly dragon tattoo-filled face made it rather difficult not to remember him.

“He’s rather quick, hopefully it hasn’t fallen into his hands yet,” mumbled Qin Guang.

Divine Sect and Demon Beast Palace were quite friendly to each other. If the item fell into Zeng Long’s hands, then Qin Guang would end up harming the relationship between the two factions if he tried to snatch it from Zeng Long forcefully.

Of course, if it had really ended up in Zeng Long’s hands, then Qin Guang would definitely rob it from him. Compared to the value of the Monument Tears, that fake friendship was nothing. Qin Guang believed that if the situation was reversed, then Zeng Long would definitely do the same thing.

Qin Guang did not bring many people with him, there were only four others.

These four Divine Sect members were not exactly weak. Their attire made Chu Mu recall the Divine Sect guard who protected Han Erxing.

“Lord Qin, perfect timing!” Zeng Long’s eyes brightened after he saw Qin Guang.

The Divine Sect had plenty of Soul Devices. They could easily generate a net made of energy through energy transfer. It would easily be able to bind powerful enemies without the need to fight them. Zeng Long believed that Qin Guang must have brought such kind of Soul Devices with him. Otherwise, it would be very difficult to take on that powerful Seven Sins Fox.

“Eminence Zeng was probably hoping that I would come a little later,” said Qin Guang with a meaningful look on his face.

“Not at all.....” Zeng Long truly meant what he said.

The black hole above everyone was gradually getting closer and closer. Zeng Long no longer dared to use any techniques or it might end up luring the black hole closer to him. After all, the power of an Immortal rank could easily destroy space.

He did want to shatter the space around Chu Mu and the Martial Cloud Dragon, but if Chu Mu fell into the spatial black hole, then that Monument Tear would also be gone as well.

He could not kill Chu Mu, nor could he avoid a fight, yet he could definitely not let Chu Mu get sucked into the black hole. He was really at a loss at the moment. When he saw Qin Guang’s arrival, he was truly happy.

Qin Guang had also noticed the slowly expanding black hole in the sky.

The black hole had already devoured one fourth of the sky. The huge void and the boundless darkness made one’s scalp go numb.

Qin Guang knew what Chu Mu was capable of, but what use was it before the Divine Sect’s binding barrier?

Qin Guang silently signalled the four members behind him. The four Divine Sect guards rode their soul pets decisively to occupy the four corners around Chu Mu.

The four of them started chanting simultaneously. Using their wind type soul pets as medium, creepy air currents gradually started manifesting all around. They looked like soft ribbons, as they gently weaved around Chu Mu.

The number of wind ribbons slowly increased. They weaved very fast into a binding cassock and wrapped around the Martial Cloud Dragon.

The Martial Cloud Dragon at first attempted to break free from the binding using brute force. However, its stamina had depleted to some extent due to the continuous battles. This wind cassock was soft in property and so it could not be broken with pure strength alone.

Soon, the Martial Cloud Dragon's body was completely wrapped up by the wind cassock. The Martial Cloud Dragon felt that its body was getting entangled in a sticky spider web. Although it could still move, there was always a kind of restricting force which prevented it from completely stretching itself.

The wind cassock did not end there. The second wind cassock flew out next and it immediately wrapped around Chu Mu's Zhan Ye.

Zhan Ye's current strength was really close to a low class Immortal rank. Qin Guang sensed that this battle beast Mo Ye possessed some level of threat and immediately decided to bind it first.

Zhan Ye could not struggle out of it either. The creepy wind cassock did not really possess a powerful restraining effect, but it was also very difficult to avoid it. The strands of wind kept fluttering around them, soft and intangible. Any sort of physical force could not forcefully dissipate it.

After a few incantations, Qin Guang and his subordinates had also applied the wind cassocks on Chu Mu and his other soul pets, restraining Chu Mu's movement too.

Zeng Long seeing Qin Guang easily incapacitating the enemy that had given him a headache and he was immediately overjoyed. He spoke to Qin Guang, “As expected of senior Qin Guang, just some random incantations and this brat can’t do a thing already.”

“Just some random incantations? This is our Divine Sect’s Binding Cassock. It requires the cooperation from four top-notch Soul Devices and it expends Immortal rank soul crystals. Just the energy exhausted by those few Binding Cassocks is enough to create many Immortal rank creatures,” explained Qin Guang with a serious expression.

Zeng Long had informed Qin Guang regarding the spatial collapse situation using mental voice before already, so Qin Guang knew that he could not use force this time. Hence, he ordered his subordinates to bind Chu Mu without any hesitation in order to avoid any accidents.

The energy that was exhausted from the Binding Cassock was immense. Qin Guang would never be willing to use it normally. If not for the fact that he knew that the Monument Tear was with Chu Mu, he would rather attack Chu Mu personally than to expend those few wind type soul crystals.

“Hand over the item now,” Qin Guang walked towards Chu Mu and spoke in an ordering tone.

Qin Guang was able to bind Chu Mu’s soul pets with a few incantations, this had really surprised Chu Mu. It was no wonder that the Divine Sect could always maintain the most authoritative position in society. With such Soul Devices and Binding Technique, nobody would dare to make a racket before them. Qin Guang and his subordinates might not really be stronger than the Snake Dragon Faction, but if Chu Mu had encountered them first, then he might not even have had a chance to fight and would have lost immediately.

“Hand it over now!” Qin Guang saw that Chu Mu was ignoring him and emphasized his tone!

As a Divine Sect member, Qin Guang did not like to kill people. However, that did not mean that he really would not kill people.

Qin Guang had intended to push this brat into the spatial black hole after he obtained the item. Then, he would be able to finish both of his missions.

Chu Mu calmly chanted the incantation to recall Ghost King into his soul pet space, then quickly chanted again to summon Mo Xie.

“Desperate struggle!” snorted Qin Guang impatiently.

Qin Guang signalled his subordinates once again. He was going to obtain the Monument Tear soon, so he did not really mind exhausting some more energy.

The four Divine Sect guards and their soul pets chanted the incantation once again. Soon, the wind cassock made of many soft strands of wind slowly descended.

The wind cassock appeared to be slow, but it had a really strong adherence effect. No matter how great the soul pet was at dodging, it definitely could not avoid the strands of wind that filled the surroundings.

Seeing the wind cassock falling down, Mo Xie did not attempt to dodge at all. Silver glint glowed on its claws and it rapidly swung its claw before the wind cassock could bind it!

A crescent light ray swept out from it and it cleanly tore the wind cassock into two.

The entire wind cassock was a mini sealing formation. Once it was destroyed, the remaining energy would also no longer be maintained. Soon, the wind cassock dissolved into turbulent wind currents and dissipated completely.

Qin Guang and the four Divine Sect guards opened their eyes wide in shock.

They naturally knew the binding strength of the wind cassock as even the powerful Martial Cloud Dragon was unable to break free from it. However, this Fox Noble had easily torn through this wind cassock which was weaved by using a large amount of soul crystal energy.....

After Mo Xie broke the wind cassock, it swept its claw towards the Martial Cloud Dragon.

Silver crescent light ray flew past and the wind cassock fell off from the Martial Cloud Dragon too. After regaining its freedom, the Martial Cloud Dragon immediately roared furiously. It glared angrily at the four Divine Sect guards.

The four Divine Sect guards turned pale instantly. The Martial Cloud Dragon was far stronger than them. If the wind cassock could not restrain it, then they were doomed!

Mo Xie rapidly dashed around and freed the other soul pets. After regaining their freedom, the soul pets returned to Chu Mu in order to avoid getting trapped by the enemy's schemes again.

"This....." Zeng Long saw that the opponent had easily broken free from the restrain and intended to stop it. However, the Martial Cloud Dragon raised its claw and threatened to tear this region of space if they dared to approach any closer!

The Martial Cloud Dragon's power was unfathomable. If it really swung its claw, then it would definitely generate a terrifying spatial black hole. If that happened, then nobody could escape!

On the other side, Qin Guang's expression darkened immediately!

My soul crystals, these wind cassocks used Immortal rank soul crystals! They got easily neutralized by that brat!

"Brat, I'm going to kill you!" shouted Qin Guang angrily and was ready to ride on his soul pet to attack Chu Mu.

"Lord Qin, please don't be impulsive!" persuaded Zeng Long as he noticed the situation worsening.

"Senior Qin!"

Everyone else changed their expressions. They really wanted those Divine Sect guards to apply a wind cassock on Qin Guang and restrain this old bastard who might end up killing everyone!

Princess Jin Rou and Chu Mu stood on the opposite side, unable to hold back their laughter after seeing this bunch of people panicking.

Chapter 1430: Darkness Sect, Heaven Slaughter

"Yo, it's sure bustling here!"

Suddenly, a joking voice interrupted them.

Nobody had noticed the intruder and they all turned towards the source of the voice.

Four snow white figures had appeared unknowingly. They walked out from the rugged mountain rubbles. The person who was walking at the fore front had a confident smile on his face.

They had to admit that the guy possessed a rather handsome face.

There were few people who could possess such a handsome appearance after reaching the Immortal rank. When this Navy Ocean Lord who held the title of a handsome prince in Wupan Continent walked over confidently, his eyes swept past everyone and eventually stopped on Princess Jin Rou.

Princess Jin Rou maintained a slightly levitated position from the ground. The levitated height was the same height as the high heels worn by women. Her breathtaking appearance and unique spectral aura had immediately caught the attention of this Ocean Lord Luo Yi.

The others had actually noticed Princess Jin Rou's unique specter identity. However, they were too focused on the Monument Tear and did not care about that female specter.

When Princess Jin Rou noticed this sudden intruder staring at her cunningly, she immediately showed a displeased expression on her face.

Even as a specter, Princess Jin Rou clearly disliked a guy who was obviously the antagonist and was also really full of himself to be able to stare at her so greedily.

"Chu Mu, that man in white clothes with something on his face is really annoying. His tone also sounds really uncomfortable," whispered Princess Jin Rou as she put her mouth near Chu Mu's ear.

Princess Jin Rou was actually correct. Ocean Lord Luo Yi did apply something on his face in order to retain his handsome looks. As for the tone, honestly speaking, even Qin Guang and Zeng Long felt uncomfortable of it.

“Wupan Navy Seventh Ocean Lord Luo Yi, Fourth Ocean Lord Ji Gui..... Interesting. Even the Wupan Navy has come all the way to our Zhengming City to reap profits. Don’t tell me that the Wupan Continent has already become so devastated that you have no place to stay anymore?” sneered Zeng Long.

“We were just passing by. We heard that there’s something good in the Imprint Valley, so we’re just coming to take a look,” replied Luo Yi.

Luo Yi and Ji Gui were quite famous amongst the Immortal rank. Ocean Lord Luo Yi had often interacted with the experts in Zhengming Continent. There were even rumors within the circle that Luo Yi cared about beauty even more than he did about women. Although he did look charming, his behavior really appeared too feminine to others. That caused many manly experts to feel cringed when they interacted with him. Fortunately, Luo Yi was still straight, or else many people would have clearly avoided him.

Meanwhile, Ji Gui was the exact opposite of Luo Yi. Ji Gui was extremely ugly and looked like a wild beast standing on two feet with a human face. Such a person just happened to be best friends with Luo Yi. This was also a partnership between two extremely powerful individuals within the Wupan Navy.....

Chu Mu realized that these people more or less knew one another. This meant that they were all outstanding individuals within the Immortal rank. Especially Qin Guang, Zeng Long, Luo Yi and Ji Gui, any of these four possessed the strength to fight the Martial Cloud Dragon head on. If the four of them joined hands against him, then he might truly not even be able to put up any resistance.

“This kid is also a Monument Tear Individual, right?” Luo Yi reluctantly moved his gaze away from Princess Jin Rou and stared at Chu Mu next.

“No, Gate Master Han holds a grudge against him, I’m just coming here to kill him along the way,” replied Qin Guang plainly.

Zeng Long was dumbfounded. Qin Guang’s ability to lie with his eyes open was really impressive.

“Senior Qin, there’s no need to be like this. We all came here to this Imprint Valley at the risk of our lives. There’s no benefit in fighting amongst ourselves. How about this? Let’s split the Monument Tear into three shares and leave peacefully after taking one each?” suggested Luo Yi.

“Hmph, you just come here and blabber a few words, and yet you want to obtain a share? Luo Yi, you’re really too full of yourself,” snorted Zeng Long.

“Oh?” Luo Yi raised his brows and declared, “Then it’s up to each of our abilities!”

After saying thus, Luo Yi’s aura immediately changed.

A wave of water suddenly swept up from behind him. A water devil’s figure manifested from within the wave. That monster was extremely fast. In an instant, it had already reached in front of Chu Mu along with the wave.

Chu Mu did not expect the attack to come so soon and hurriedly dodged the attack.

Chu Mu did not know exactly what that water devil in the wave was. However, based on the aura that it exuded, this water devil was definitely not inferior to the Martial Cloud Dragon!

The people who entered the Imprint Valley this time were no weaklings. Chu Mu was currently surrounded by this group of powerful individuals and was truly at a loss on what to do. He was hesitating whether he should give up the Seven Sin Fox's Monument Tear or not.

The Martial Cloud Dragon remained standing firm in front of Chu Mu. Seeing the water devil coming, it immediately stepped forward to block the attack for Chu Mu.

However, before that water devil got near the Martial Cloud Dragon, a beautiful beast with a single crown horn on its head suddenly leaped in between them.

This Crown Horned Beast stomped the ground violently and splattered a wave of rampaging energy!

The energy blasted viciously in between the Martial Cloud Dragon and the water devil. The Martial Cloud Dragon's enormous body was forced back a few steps, while that water devil was also flung back and it landed right in front of Luo Yi.

After failing the first attempt, Luo Yi seemed to be really annoyed now. He swept across everyone to check who had interrupted him.

Zeng Long and Qin Guang glanced at each other. The two of them would definitely ally with each other in this situation. They did intend to make a move, but they were too slow to do so.

As for their subordinates? That would be even more impossible. Who possessed the strength to knock back both the Martial Cloud Dragon and Luo Yi's water devil?

"It has really turned into a battle royale now," Chu Mu was the first to discover another group of people approaching. He turned his gaze and stared towards the darkness near the black hole.

Beneath the shadow of darkness, a group of masked people gradually walked out, each of them exuding a dense killing aura.

Killing aura was something that everyone possessed after they reached the Immortal rank. However, that group of people possessed really dense killing aura. Princess Jin Rou could even see faint traces of ghost aura around them as she was a specter!

If they appeared individually, then it would not have garnered such attention. Anyone who had reached this level would be stained in blood after all!

However, when they appeared as a group, that dense killing aura swept over and stung everyone's skin, intimidating everyone.

After that group of people appeared, Zeng Long, Qin Guang, Luo Yi and Ji Gui frowned immediately.

That group of people was probably an opponent that they did not wish to see the most. Regardless of the Divine Sect, Elemental Clan, Soul Pet Palace, Xuan Gate Immortal School or Wupan Navy, once things get complicated, they would normally split the loot evenly in respect of everyone's faction.

However, there was a certain group of people without any morality at all. They would obtain anything they wanted even if it meant putting their lives on the line for it. They would kill the people they wanted to kill no matter how great the faction behind the target was. The restraint and relationship network between factions was nothing to them!

They were the Darkness Sect!

A group of selfish, murderous, rule breaking human scum!

Divine Sect used such words to describe them. Most of the time, Divine Sect never even treated the members of Darkness Sect as human beings because that group of people were naturally classified as wild beasts or monsters within their minds. They would kill anything alive, just like devils who would slaughter anyone to satisfy their twisted desires!

As a high ranking Divine Sect member, Qin Guang's expression became as twisted as it could be. His face was twitching crazily and carried immense rage!

"This group of scum!" cursed Qin Guang.

There were a total of seven masked people. One of them could easily be identified from his gaze. That was Leng Lou who had reported the situation to Chu Mu before.

Darkness Sect and Divine Sect were archenemies after all. They also had a rather poor relationship with other sects too. Most sects were dying to get rid of them. They certainly killed people without hesitation, but the members of Darkness Sect were also clearly just a group of people who would do anything to pursue power. The difference between them and those righteous sects like Divine Sect, Elemental Clan or Xuan Gate Immortal School was that the Darkness Sect members were not afraid of exposing their identities when they broke social rules and committed slaughter. Meanwhile, those righteous sect members would do anything to cover up their hideous acts.

Of course, there were still some truly righteous factions. At least the people from those factions that Chu Mu was acquainted with were not all that greedy.

“Heaven Slaughter, didn’t you intend to let them bite one another for a while longer? Why are we showing up so soon? If they cooperate with each other to take us on, then we will also be in a disadvantageous situation,” asked Miss Si with a low volume while she wore a mask over her face after she approached Heaven Slaughter who stood at the front most.

Heaven Slaughter also wore a mask on his face and she could not see his expression. That Crown Horned Beast was obviously his soul pet. Right now, this beast was standing proudly in the middle of the battlefield. It did not show any signs of fear when facing off against many powerful Immortal rank soul pets in the surroundings.

“He’s not a Fake Monument Tear Individual,” replied Heaven Slaughter plainly.

“He? You mean that young man?” Miss Si took a glance at Chu Mu in surprise.

There were truly not that many real Monument Tear Individuals in this world. Instead, Fake Monument Tear Individuals roamed all over the world. This had severely obstructed the communication between real Monument Tear Individuals to some extent.

“Yes,” Heaven Slaughter nodded.

Zeng Long’s dragon tattoos trembled slightly and he sneered, “There’s no need to hide your face. Crown Horned Beast, Northern Slaughter’s main culprit. We know that you are the crazy killer Heaven Slaughter!”

“He’s Darkness Sect’s Heaven Slaughter!” Luo Yi and Ji Gui stared at the emotionless man standing at the front of the seven Darkness Sect members in utter shock.

He was the crazy killer from the Northern Incident!
