

## **Soul Pets Bk2 1431**

### Chapter 1431: Mutual Destruction, Deranged Dark Sect

Everyone present had a Monument Tear so they had heard quite a bit about Monument Tears.

Dark Sect's Heaven Slaughter was a typical Monument Tear Individual. He gained massive power from the Monument Tear and killed all the immortal rank experts surrounding him. He created the shocking Northern Territory's incident, and became a terrifying Monument Tear Individual.

Qing Guang, Zeng Long, Luo Yi, Ji Gui all guessed that Dark Sect would likely intervene. However, even with their mental preparation, they didn't expect Dark Sect to send Heaven Slaughter.

After Dark Sect members appeared, Snake Dragon Faction, Divine Sect, and Wupan Navy all suddenly seemed to become allies. They all stared at the seven dark sect people.

Chu Mu and Princess Jin Rou were surrounded by four factions. Interestingly enough, when the Dark Sect people appeared, the four factions all ignored Princess Jin Rou and his presence.

Of course, Chu Mu didn't think that they would just let them leave. After all, their real objective was the Monument Tear and not a life or death battle in Imprint Valley.

"Kill them all." Heaven Slaughter glanced at the three factions and said a shocking statement.

Qing Guang, Zeng Long, Luo Yi, and Ji Gui all showed anger. This Dark Sect person was really too arrogant. From their perspective, any one of them four had the power to match him, yet he was completely ignoring all of them!

The five people behind Heaven Slaughter immediately walked out. Dark Sect people were usually fervent over dark type organisms. When these five chanted an incantation, a thick dark aura came forth.

In reality, this scent was liked by Chu Mu, full of dark elements and blood.

The next moment, five dark type soul pet diagrams appeared. From their aura, one could tell that Dark Sect's people were much stronger than the other three factions. No wonder Heaven Slaughter could say such rash words.

Divine Sect and Snake Dragon Faction naturally allied. Wupan Navy, on the other hand, didn't seem to understand what "the enemy of an enemy is my friend" meant and remained arrogantly alone.

However, Dark Sect's first target was Wupan Navy.

Wupan Navy had six people total, each with Ocean Lord title and immortal rank strength with Luo Yi and Ji Gui as head. When the five Dark Sect individuals killed their way over, the leader Luo Yi had to intervene. He knew that his subordinates couldn't defeat the five Dark Sect members of Heaven Slaughter.

Zen Long and Qing Guang glanced at each other. They were wondering whether they should help the Wupan Navy defeat the Dark Sect people.

However, with a deeper thought, Heaven Slaughter and the other female Dark Sect member hadn't attacked yet, so they kept to themselves.

“Heaven Slaughter, this region’s spatial support is very weak already. Telling your subordinates to attack will definitely make this region a death marsh. Do you want to die here too?” Zeng Long said angrily.

Dark Sect’s five members were quite powerful. Each technique they casted caused destruction to the space. Before the fight even finished, it was likely that the space would become a massive black hole.

Zeng Long’s words seemed to have reminded Heaven Slaughter of something. Heaven Slaughter’s eyes shined brighter and he replied in a very calm voice, “That would be perfect.”

“You maniac!!” Zeng Long’s face tattoos quivered.

If he had a death wish, he didn’t need to drag them along!

Zeng Long always thought he was an evil person that dared to do anything.

However, Dark Sect people were truly mad. They had a typical behavior, which was doing things that harmed both themselves and their enemies. Even if they died with their enemies, they would view it as a great victory. Against such a person in a world that could collapse at any time was giving these madmen the perfect environment to go crazy!

Dark Sect’s five people continued to fight the Wupan Navy. The energy explosions caused the space to shiver. One could clearly see all the places the spatial cracks reached, and that they were slowly expanding!

Dark Sect people ignored this scene. Their main purpose was to kill the Wupan Navy. This was the command their master Heaven Slaughter gave them!

Others could be let go, but Wupan Navy must die.

Dark Sect people were very vengeful. Wupan Navy Chieftain had attacked Heaven Slaughter before. After Heaven Slaughter got away barely, the only thing Heaven Slaughter was thinking of was how to exact revenge.

This Imprint Valley incident was the perfect chance. The scared Wupan Navy Chieftain didn't dare to enter the Imprint Valley himself, so he would just kill all his close subordinates!

The large black hole constantly pushed downwards. The spatial cracks on the ground started to expand as well, creating a larger spatial blackhole.

Seeing the black hole come near, Wupan Navy's people started turning pale. They started fighting more reservedly towards Dark Sect, because they were afraid their energy would speed up the death in this space.

"Chu Mu, what do we do?" Princess Jin Rou said worriedly.

The space started shaking even harder. If they continued this way and waited for the crack above them to connect with the cracks underneath them, the space will become a true void of death that no one will escape.

Chu Mu originally thought the collapse of the space would cause everyone to stop their fighting. Yet, the Dark Sect people appeared. More terrifying was that all the Dark Sect people were prepared to die along with the rest of them.

The appearance of Dark Sect members, to a certain extent, helped Chu Mu alleviate the pressure he was feeling from the other factions. However, them wanting to die with him was a bad turn of events.

“Leng Lou, what is wrong with your master, does he really want all of us to die?” Chu Mu used his mental voice to say to the fighting Leng Lou.

“Master, Wupan Navy people must die. Even if we all die, Heaven Slaughter wants the Wupan Navy dead. We can’t disobey it no matter what. However, all of us dying here may be an exaggeration. Master Heaven Slaughter knows the limits.” Leng Lou replied.

Leng Lou saying that reminded Chu Mu of the talk between the Navy Chieftain and Sect Master Du beforehand. Sect Master Du seemed to mention that the Imprint Valley had another exit, and also mentioned that Dark Sect likely had powerful other type soul pets.

In such an environment, Other type organisms become the key. Only they could survive in the endless black hole.

“This Heaven Slaughter wants to collapse this region and kill everyone. Then he’ll escape using his Other type soul pet.” Chu Mu said in a heavy voice to Princess Jin Rou.

“Space doesn’t have a clear effect on me. I can survive a while in a black hole. How about you?” Princess Jin Rou quickly asked.

“I should be fine, but I’m scared we can’t find an exit in a short amount of time.” Chu Mu said.

This was the third layer of sky. Spatial storms were incredibly strong here. Chu Mu had no confidence that he could stay in this chaos for too long. If he couldn’t find an exit quickly, he would still die in here.

“It feels like Dark Sect Heaven Slaughter doesn’t have that much hostility towards you.”

“En, I could tell. If you can’t tell as well, we can give the Monument Tear to him.” Chu Mu said.

Chu Mu didn’t care about the Monument Tear as much as the other Monument Tear Individuals. After all, the power he had wasn’t from the Monument Tear. Even if he didn’t have a Monument Tear, Chu Mu wouldn’t stay stagnant within Immortal Rank territory. He still had Ning Maner.

He knew to preserve himself; Chu Mu wasn’t an overly stubborn person.

“Let’s wait and see some more.” Princess Jin Rou felt that things weren’t as bad as they imagined.

Chu Mu nodded. While the battle hadn’t ended yet, Chu Mu tried to help his soul pets recover as much strength as possible.

“This madman, these madmen!!” Ji Gui said with anger.

The entire space was almost shattered. It's as if they were surrounded by an endless ocean. However, the lonely islands they were floating on were also gradually getting destroyed by these crazy men, leaving them no chance of survival!

Zeng Long and Qing Guang's expressions were becoming worse. They wanted to kill this group of Dark Sect people immediately.

However, they didn't dare to attack now. The moment they tried to, the space would just get destroyed even faster.

"Zeng Long, let's leave here!" Qing Guang finally couldn't stay any longer. The darkness got nearer, and no one could truly remain calm.

Zeng Long didn't want to die here. Seeing Qing Guang bring four divine sect members to escape along a narrow pathway, he bit down and brought his subordinates away too.

As he left, Zeng Long gave Chu Mu an evil glare and said, "If you're still alive, no matter where you are, I will take your life!"

Chu Mu saw him prepared to leave and found it funny. He retorted, "You can kill me right now if you want, I'll stand here and let you kill me."

"You think I won't?" Zeng Long immediately was furious. This kid was too infuriating!!

"Zeng Long, leave!" Qing Guang furrowed his brows. This time, he was the one stopping Zeng Long.

Zeng Long turned and left but comforted himself. Chu Mu would definitely die in Dark Sect people's hands. Even if he wasn't dead, he would be buried alongside Imprint Valley!

Divine Sect and Snake Dragon Faction had all left, causing Wupan Navy's people to be shaken.

They also wanted to leave this increasingly dangerous place. However, Dark Sect people weren't letting them go. Ji Gui was finally getting anxious. If he didn't intervene, all of his subordinates would die. However, if he did attack, Heaven Slaughter would definitely fight too. With both of their techniques, the space would only deteriorate faster. This was akin to speeding up his own death.

Chapter 1432: Shatter, Space Abyss

Finally, Ji Gui decided to strike.

He casted a technique and, unlike the other navy's water type soul pets, he summoned a giant filled with thunder!

Thunder Giant was a famous organism amongst giant species. After it appears, the thunder halberd in its hand swept forth, creating countless thunder arcs!

The lightning seemed to have its own life. They chased at dark sect members' soul pets closely. Anywhere the purple arcs passed would become nothingness.

Leng Lou was very close to Ji Gui. His Ghost Warrior was the first to get attacked by this thunder-its ghostly body getting cannoned away and nearly falling into a spatial crevice.

"Spatial cracks have suction. Don't stay there for long." Chu Mu reminded Leng Lou with his remembrance.

Leng Lou nodded, indeed feeling the drag from the spatial crack.

The Ghost Warrior stood back up. The Thunder Giant's attack left a large hole in his chest. However, this wound was no issue to a ghost type organism.

“Don't go in that direction, the space is about to collapse there!” Chu Mu looked at Leng Lou and reminded him again.

Leng Lou was dazed and told his Ghost Warrior to stop moving, carefully avoiding the unstable region ahead.

“Hong~~~~~”

Indeed, the moment Leng Lou circumvented that region, the space suddenly collapsed, falling into an endless abyss.

Leng Lou glanced at the space that had suddenly collapsed and was shocked.

If not for Chu Mu's reminder, he and his Ghost Warrior definitely would have stepped into that spatial abyss. Leng Lou didn't know what it was like within there, but he knew he was going to disappear from this world.

Leng Lou glanced at Chu Mu gratefully, but he still had some questions. How did this young master know the space would suddenly collapse? Spatial collapses and chaos thunders were always without

precursor. The young master sensing it beforehand meant he must have absolutely outstanding senses.

Heaven Slaughter saw Ji Gui attack. He seemed to have been waiting for this moment.

A Crown Horned Devil flew out from beside him. Everywhere it stepped on, a spatial crack appeared. One could tell that this was an incredibly powerful beast.

Crown Horned Devil's speed and power were very high. Its special horn glinted coldly and flashed through the Thunder giant!

The Thunder Giant's reactions were rather slow and couldn't dodge the Crown Horned Devil's attacks. Its sturdy body was pierced with a deep wound.

Seeing his Thunder Giant get wounded, Ji Gui's expression became grave.

Dark Sect Heaven Slaughter's strength was much stronger than he was in Northern Territory now. He knew clearly that at the time, his Thunder Giant was still somewhat stronger than this Crown Horned Devil.

The Crown Horned Devil didn't attack Ji Gui's Thunder Giant only. It seemed to know where the spatial nodes were, and with every technique, destroyed an important spatial node.

Space could be compared to a house. When normal techniques hit the house, it would only create a hole. However, if powerful techniques hit a spatial node, it was akin to destroying a pillar in the house. The entire house would collapse!

When battling before, Chu Mu always told his soul pets to be careful of these spatial nodes and to not hurt them.

Yet, now there was a madman breaking all the spatial nodes. On one hand, it proved that he definitely had an Other type soul pet. On the other hand, it meant that he wanted everyone here to die.

Chu Mu and Princess Jin Rou weren't too bad off. They more or less had some insurance.

However, all the navy people were ashen-faced. They knew clearly what it meant when all the spatial nodes were destroyed. Yet, the Dark Sect people were clinging onto them, not letting them escape.

“Wengwengweng~~~~~”

Space was becoming more and more unstable. After all the important nodes were shattered, the space started falling like crazy. Spatial whirlpools constantly dragged nearby objects in, even lifting the ground up and devouring it.

Both the navy and Dark Sect members didn't summon too many soul pets. Summoning too many soul pets would only make them more likely they were sucked into the black hole. Since the start of their battle, there were only a few pieces of space they could still stand on normally. Everything else was devoured by a massive black hole already.

The battlegrounds were getting tighter and tighter. An Ocean Lord wanted to use this narrowness to his advantage and create a tsunami to push the other two dark sect members into the spatial black holes.

However, he didn't expect the other two Dark Sect members to already have been plotting against him. When the water beast started a tide, the two Dark Sect members already shattered the space where the Ocean Lord was standing!

The tide he lifted was instantly swallowed by the space near him. Without anyone being able to react, this immortal rank Ocean Lord and his ocean beast were thrown into the spatial abyss.

"Save me!! Save me!!!!!!!!!!!" Everyone nearby could hear the desperate screams of this Ocean Lord.

Luo Yi reacted very swiftly. His octopus-like water devil extended its four long tentacles into the dark hole to grab the Ocean Lord and his soul pets.

The spatial black hole's pull was insane. Even with tentacles holding the Ocean Lord, he still kept on falling deeper within. One could also see the tentacles of the water devil straining and slowly breaking!

Luo Yi gritted his teeth and commanded his water devil to pull the Ocean Lord out. However, he slowly realized that the water devil not only couldn't pull the Ocean Lord out, but it was also starting to tilt towards the black hole, threatening to pull Luo Yi and his soul pets in as well.

"Luo Yi, let go, or else you'll be pulled in too!!" Ji Gui said in terror.

Luo Yi's face was even more twisted. Could he only watch as his subordinates were devoured by the black hole?

His water devil was starting to lose balance. To keep himself safe, Luo Yi had to let go of that Ocean Lord in the end.

Seeing the Ocean Lord become a dot in the black hole, Luo Yi's gaze fell back onto Heaven Slaughter. All his hatred was now on this man!

Chapter 1433: Burying the Navy Alive

Heaven Slaughter looked at Luo Yi and coldly laughed.

The Crown Horned Devil stopped attacking space, and its cold eyes focused on Luo Yi's Water Devil.

Suddenly, the Crown Horned Devil disappeared from its place. It quickly passed through a gulch-like sunken space and the single horn flashed with a cold light.

The cold light transformed into an abstruse sharp sword that pierced towards the Water Devil.

The Water Devil's mountain rampart ability was very weak. It brandished its tentacles in an attempt to knock away the Crown Horned Devil, but the single cold sword light was faster and it pierced the Water Devil's head.

“Pu chi!!!!”

Strange paste began to splurt out as a hole appeared in the Water Devil's head. It looked ghastly.

Luo Yi and the other navy members were stunned by this scene.

Luo Yi's Water Devil was very strong. They fully understood this. However, in front of the Crown Horned Devil, it couldn't even withstand a blow!

The Crown Horned Devil seemed to know that the Water Devil, as a water type elemental creature, wouldn't die even after its head was pierced. Thus, it used its crown horn to lift the Water Devil up into the air and fiercely throw it into a deep fissure next to it!

Luo Yi watched his soul pet be thrown into the death fissure and abruptly came back to his senses. He angrily said: "Don't think you'll get off easy! Die together!"

Suddenly, three long tentacles shot out from the fissure and rapidly wrapped around the Crown Horned Devil's body.

While Luo Yi's Water Devil was being devoured, its three tentacles were able to display astonishing pulling force as it dragged the Crown Horned Devil into the death zone.

It wasn't only Darkness Sect's people that would engage in mutual destruction. When Luo Yi saw that his favorite pet was going to die, he went a bit mad.

The woman standing next to Heaven Slaughter creased her brows, and hastily chanted an incantation.

However, Heaven Slaughter shook his head. He indicated that she didn't need to do anything.

“Shua!!!!”

Suddenly, three sharp blades appeared without warning, slashing where the tentacles were.

The long tentacles were easily cut by the sharp blade. After being sliced apart, the tentacles were quickly pulled back into the fissure, falling with the Water Devil itself into a place where there was no chance of survival!

The flesh on Luo Yi’s face violently twitched. This area clearly only had his Water Devil and the Crown Horned Devil. Where did the three sharp blades suddenly come from?!

The mutual destruction situation had become a situation where only his Water Devil had died. This pushed the anger in his heart to a maximum. Even while his soul was wounded, he forcibly chanted an incantation and summoned another soul pet.

.....

“Chu Mu, did you see it?” softly asked Princess Jinrou.

“I only saw a blurry shadow. It was extremely fast, and it’s adept at hiding in space,” said Chu Mu.

Chu Mu had been watching the fight between the Crown Horned Devil and the Water Devil. Just as he thought the former would be dragged by the latter into the deep abyss, a lanky and skinny creature suddenly jumped out from space and used its claws to rip apart the Water Devil’s tentacles.

After completing this attack, this spatial creature suddenly disappeared and hid itself in some corner of space. Even Chu Mu couldn't sense where it hid itself.

"As expected, he does have an other type soul pet. It was no wonder he dared to so wantonly break space," said Princess Jinrou.

Chu Mu didn't say anything, but his heart was a bit heavy.

Heaven Slaughter had yet to attack him, but that didn't mean they were friends. If he decided to destroy this area of space in one breath and bury both him and the navy, Chu Mu would have great difficulty in taking the Martial Cloud Dragon and breaking free of the chaos space.

Moreover, Chu Mu could see that the other type creature that had extended its hands in a flash was extremely strong. Chu Mu wasn't even sure if the Martial Cloud Dragon was its opponent.

"I had a feeling that there was something hiding around us. Could it have been that other type creature that just attacked?" asked Princess Jinrou.

"Ya. He probably doesn't want to let us flee." Chu Mu nodded his head as he rapidly tried to think of how to deal with this situation.

The Seven Sins Fox's Monument Tear was in his hands and obviously, these people were here for it. Its Monument Tear probably hid some great mystery.

Divine Sect and Snake Dragon Faction's people could leave, but if he tried to strut away, Darkness Sect's people would definitely stop him.

Most importantly, since Divine Sect's Qin Guang had left through the spatial passage, he would definitely dispatch countless Divine Sect members to defend Divine Sect's back mountain exits. The moment he exited, he would be taken away by Divine Sect's people.

"They suddenly stopped fighting," said Princess Jinrou.

Chu Mu glanced at the navy members and then at the Divine Sect members. He suddenly understood something and said: "They didn't stop fighting. Rather, they want to bury them alive."

The moment he finished speaking, all of Darkness Sect's people had their soul pets launch an attack at the navy. Their target wasn't the navy's soul pets, but instead the surrounding space!

"Hong hong hong hong hong!!!!!!"

A dark energy loudly exploded and piece after piece of space was peeled off. Deep fissures began to terrifyingly spread as black colored spatial holes appeared one after another.

The navy's members did everything they could to neutralize Darkness Sect's techniques. However, no matter how much they neutralized, this area of extremely weak space was no longer capable of supporting spatial unrest. Thus, the area the navy was standing on began to rapidly sink as mud, rocks, and mountains were all pulled into unknown chaos!

The area Chu Mu and Princess Jinrou were standing on was only lightly shaking. A few cracks managed to spread to them, but at least the ground they were standing on hadn't instantly collapsed into the chaos.

When they saw space swallow the navy members and their immortal rank soul pets, the feeling they got was like standing on the edge of a cliff and watching others fall off. As they watched their bodies slowly shrink before finally being devoured by darkness, it was unknown whether they hit the bottom of the abyss and were smashed to pieces, or if they had fallen into another unknown dimension...

Aside from Ocean Lord Ji Gui, who used powerful strength to break free of the spatial suction, Luo Yi and the other three Ocean Lords fell into the endless abyss of death as expected. They completely disappeared from this world.

As they fell, their faces that were full of fear made those who were watching feel trepidation. If it had been them that accidentally fell in, what would it be like?

Ji Gui stood at the edge of the spatial fissure, and his eyes seemed like they were spitting fire.

“Heaven Slaughter, you won’t be able to escape! Just wait for your death!!” angrily said Ji Gui.

After speaking, this Navy Ocean Lord turned around and flew towards Divine Sect’s back mountain exit.

Divine Sect’s back mountain exit was already covered by spatial fissures. Under normal circumstances, it was impossible to cross through; however, Ocean Lord Ji Gui ostensibly knew a bit about the spatial dao and wasn’t pulled into the fissures. He successfully managed to reach a safe zone.

“One managed to flee.” Young Lady Si watched Ji Gui gradually flee into the distance and spoke somewhat unhappily.

“No matter.” Heaven Slaughter seemed to have already guessed this would happen.

“What about them?” Young Lady Si pointed at Chu Mu and Princess Jinrou with somewhat cold eyes.

Darkness Sect’s people had a slaughtering temperament. This included Young Lady Si.

“Bring them with us.” Heaven Slaughter glanced at Chu Mu and Princess Jinrou and indifferently spoke.

“Don’t kill them?” asked Young Lady Si.

“Don’t kill them.”

.....

The Martial Cloud Dragon had been through multiple fights. Its physical strength had been greatly consumed. It knew that these humans could find an exit out of Imprint Valley. Therefore, even if Chu Mu was being brought away, it still followed him.

Young Lady Si saw that an extremely mighty Martial Cloud Dragon was following and wanted to drive it away. However, since Heaven Slaughter didn’t say anything, she wouldn’t make it difficult for Chu Mu.

Chu Mu and Princess Jinrou were currently surrounded by five Darkness Sect members. If they so much as thought of fleeing, the five members would instantly take action.

“Why didn’t they seal our soul remembrance?” Princess Jinrou used a mental voice to communicate with Chu Mu.

“It means they may not have intentions of getting rid of us,” said Chu Mu.

Although Chu Mu didn’t understand why this Darkness Sect expert didn’t want to seal his soul remembrance, it meant that it was still possible to turn the situation around.

“Master, Senior Heaven Slaughter probably doesn’t have any harmful thoughts towards you. Don’t make any drastic actions.” Leng Lou used a mental voice to tell Chu Mu.

Chu Mu nodded his head. The moment he discovered that something wasn’t right, he would stake it all. He couldn’t let these Darkness Sect people manipulate him as they pleased.

“Senior, there’s a large fissure in front. There’s no way around it.” a scout flew back from afar and knelt with one knee in front of Heaven Slaughter.

Heaven Slaughter nodded his head. He didn’t say anything and had his subordinates continue to follow him forwards.

The scout didn’t leave. He joined the team and looked at Chu Mu as he asked Leng Lou: “He’s the person with the Seven Sins Fox Monument Tear?”

Leng Lou shook his head, indicating that he didn't know.

The Darkness Sect scout's question reminded Chu Mu that Heaven Slaughter was a Monument Tear Individual. He could definitely feel that he had the Monument Tear on his body, so why wasn't he telling him to hand it over?

If it were Chu Mu, after capturing an enemy, he would definitely first take the treasure from his hands.

He obviously knew that the Monument Tear was in his hands, but had no intentions of taking it; nor did his eyes have the greed the previous people had. Could it be that Northern Territory's slaughtering devil was a genuine Monument Tear Individual? Perhaps all he needed was a bit of knowledge of his Monument Tear.

"Perhaps this is the case." Chu Mu felt that this explanation made sense.

Of course, Chu Mu couldn't believe that he was completely safe either. Darkness Sect's people did strange things and were hard to predict. Perhaps they had let him live for another purpose.

Chu Mu continued to maintain his vigilance. If Heaven Slaughter harmed him, Chu Mu could only take Princess Jinrou and the Martial Cloud Dragon and jump into a spatial black hole. He would rely on his control of other type energy and break free from Darkness Sect's people before finding an exit.

Chapter 1434: Heaven and Earth Collapse

"Ao wu Ao wu~~~~~"

A plaintiff cry rang out from ahead. Once they passed this highland, what greeted their eyes was a basin.

A large group of Devil Wolves lived in the basin. These Devil Wolves were running as fast as they could and letting out panicked cries.

Their dark blue bodies weren't running in a particular direction. Instead, they were just madly running in different directions. From Chu Mu's angle, he could see a larger Noble Devil Wolf. It was holding a recently born small Devil Wolf in its mouth. Behind it was a group of mature but smaller in stature Devil Wolves.

All of these Devil Wolves were following the Noble Devil Wolf and running. However, the ground in front of them suddenly fissured and a terrifying abyss appeared right there.

It was impossible to jump over the spatial fissure because this was a bottomless spatial abyss. Jumping across would just be jumping into the abyss.

The Noble Devil Wolf abruptly came to a stop. The large group of Devil Wolves behind it also stopped and looked behind them.

Behind them was a continuously expanding black hole that was rapidly devouring everything as it kept approaching the group of Devil Wolves.

“Ao wu~~~~ Ao wu~~~~”

The Devil Wolves had no place to flee. They raised their heads and let out mournful cries at the dark sky.

“Hong hong hong~~~~”

Suddenly, the location they were standing collapsed. An enormous black hole, resembling the digestive tract of a monster, abruptly appeared. With one large bite, it swallowed the several hundred Devil Wolves into its stomach!

The Devil Wolf group had at least reached the dominator rank in strength. However, no matter how much they stepped on air or struggled, they would ultimately fall into the bottomless abyss... this was a horrifying scene that occurred right in front of Chu Mu.

Servant rank, commander rank, emperor rank, and immortal rank... the strength which every creature pursued was simply insignificant in a collapsing world. It was so insignificant that there was no room to even struggle.

There were countless powerful creatures that inhabited Imprint Valley, but the situation that had just occurred had happened to countless powerful creatures. These creatures had spent tens, hundreds or even thousands of years cultivating. Perhaps they were lacking a tiny step to reach the immortal rank, or maybe they had just stepped into the immortal rank. However, they were still met with ruin!

Chu Mu blankly watched the spatial abyss. It was a long time before he returned to his senses.

“Wu wu~ Wu wu wu wu~~~~”

Suddenly a weak voice rang out. In the pitch-black abyss, the small wolf that was just recently born, was thrown into the air. It was protected by a dark blue colored light and it was flying towards Chu Mu's group.

It was the infant wolf held in the Noble Devil Wolf's mouth. This small wolf probably wasn't even a month old. It hadn't even reached the first phase first stage. And if it wasn't protected by the dark blue colored light, it would have already been ripped apart by the merciless spatial airflow.

Princess Jinrou was the first to react. She flew past the six Darkness Sect members and flew into the terrifying abyss. She then used her remembrance to grab the infant wolf that had been thrown up from the abyss.

When Chu Mu saw Princess Jinrou do something so dangerous, he hastily went to save her.

However, when Darkness Sect's members saw Chu Mu's actions, they glared at Chu Mu as if they were going to kill Chu Mu on the spot.

After Princess Jinrou grabbed the infant wolf, her body fell into the spatial vortex's range.

Under normal circumstances, when a creature fell into a spatial vortex, they would inevitably be pulled into the black hole. Even pseudo immortal rank creatures couldn't break free, while low class immortal ranks could barely break out.

Princess Jinrou's strength came from the Devil Soul and her strength was very hard to accurately determine. Her spectral attribute caused the spatial suction force to be slightly weakened against her. After securing the small wolf, she slowly flew back to her original location.

As she flew, she was finally able to break free of the spatial vortex and floated back to Chu Mu's side.

Chu Mu took the small wolf from Princess Jinrou. He knew that Princess Jinrou needed to use remembrance to hold physical objects. Although the small wolf was very light, holding it like this would expend much mental energy.

"Young sister, are you not afraid of death?" Young Lady Si glanced at Princess Jinrou and spoke with a smile that wasn't a smile either.

"I am afraid." Princess Jinrou responded, but her eyes were on the small wolf Chu Mu was holding.

The small wolf hadn't even grown its teeth yet. It looked like a dark, blue-colored small dog. It mischievously flipped around in Chu Mu's arms and widened its small mouth into something that resembled a smile.

This small fellow ostensibly didn't understand that its father and family members had just disappeared from the world a second ago. It naively blinked its eyes and curiously looked at Chu Mu and Princess Jinrou.

Chu Mu stroked the small fellow's head. He retrieved a snack for Mo Xie from his spatial ring and gave the snack to it.

The Noble Devil Wolf had definitely seen them; therefore, as it was about to be devoured by the black hole, it threw its child towards them.

The Noble Devil Wolf didn't know that Chu Mu had actually killed many greedy Devil Wolves in Imprint Valley. However, as long as there was a bit of hope for survival, it was willing to do whatever it took.

It was possible to guess that the moment the Noble Devil Wolf fell into the black hole of death, its heart wasn't filled with a fear of death, but rather a hope that those humans would be able to accept the small wolf and take care of it...

"This is a high bloodline Sky Wolf. Do you wish to raise it?" Young Lady Si smiled as she spoke to Princess Jinrou.

Princess Jinrou didn't respond. In fact, whether it was a Heaven Wolf or the lowest ranking Hunting Wolf, after seeing the scene just now, she wouldn't be able to remain indifferent.

Heaven Slaughter turned around and glanced at the small wolf rolling around in Chu Mu's arms. His eyes both didn't seem to change at all, but also seemed to have a small ripple.

"Let's continue." Heaven Slaughter indifferently said. He didn't say anything towards Princess Jinrou's actions just now.

Heaven Slaughter walked at the very front. A very, very deep fissure appeared in front of him.

The fissure was about 2000 meters wide. Such a width was fatal to even immortal rank creatures. If one dropped into it, there was no chance of surviving.

Darkness Sect's members obviously saw the fissure, but with Heaven Slaughter walking at the front, what lay in front of them was no longer a terrifying spatial fissure, but merely a ditch that they could easily step over.

The fissure was already within view, but Heaven Slaughter still continued forward. Then, something strange happened. When the Crown Horned Devil he was riding on strode into the fissure, the originally shattered fissure slowly began to mend itself.

The spatial mending happened to occur right under Heaven Slaughter's Crown Horned Devil. It was like an icy path slowly condensing deep in an ocean that extended towards the other shore.

Heaven Slaughter's subordinates didn't realize their master had such a remarkable ability. They all watched with shock as Heaven Slaughter leisurely sauntered over the terrifying fissure.

"Every place I step on will recollapse after ten seconds." Heaven Slaughter didn't acknowledge their shock. Instead, he indifferently dropped this sentence.

Young Lady Si had always remained by Heaven Slaughter's side and was progressing with him. As for the other six Darkness Sect members, when they heard Heaven Slaughter's words, they hastily escorted Chu Mu, Princess Jinrou, and the Martial Cloud Dragon to follow.

Indeed, the mended path would disintegrate after ten seconds. It was like an icy path melting. If they were even a bit slow, there was a chance they could fall.

Currently, everyone was feeling like they were walking on a single log bridge over a bottomless abyss. However, the single log bridge didn't exist in front or behind. It was extremely frightening.

“What kind of strength is this? How can it mend space?” Princess Jinrou quietly said to Chu Mu.

“I’m not sure either.” Chu Mu himself was an other type. However, he had never realized that shattered space could be mended using strength.

Chu Mu was meticulously observing Heaven Slaughter’s feet. He indistinctly saw some outline. This outline was walking a bit ahead of the Crown Horned Devil. It looked as if space would mend itself wherever the Crown Horned Devil took a step. However, in reality, it was probably that outline using spatial mending as it moved.

“Old Li, what creature is that?” when Chu Mu finally discovered it, he asked Old Li what it was.

“Young master, that is probably a Strange Mane Demon. It’s an extremely rare wing type creature. Although its species rank is only at the monarch rank, even now nobody understands what kind of abilities it possesses.” Old Li’s eyes were indeed discerning and merely from the outline he was able to determine what it was.

“Strange Mane Demon...” Chu Mu muttered to himself. He felt like he had heard of this creature somewhere before.

In order to make their travel more convenient, the Martial Cloud Dragon’s body had shrunk to about the size of a human.

The small Martial Cloud Dragon baby was still lying on its head and playing with the small Sky Wolf.

The Martial Cloud Dragon baby's favorite playmate was Mo Xie. However, while Mo Xie looked small and delicate, her intelligence wasn't that of a child's. Thus, the small Sky Wolf happened to fit the Martial Cloud Dragon's baby's liking. These two fellows didn't seem to know that the world had collapsed, and were continuing to happily play around.

The Martial Cloud Dragon's motherly instincts seemed to flow over as she was particularly considerate of the small wolf. When the two fellows grew exhausted from playing, she would take the small SKy Wolf and take care of it as well.

As they continued forwards, the Imprint Valley now was no longer the Imprint Valley Chu Mu had seen in the past.

Creatures were running in confusion, birds were panic flying in disorder, the heaven and earth had been destroyed and all creatures were in ruin. On their path, CHu Mu saw too many heart-trembling scenes.

He saw several tens of thousands of Light Sparrows be instantly devoured by a black hole - their feathers had poignantly drifted aimlessly. He saw two Blood Beasts lonely and helplessly standing at the peak of a mountain, surrounded by an ocean of death; no matter where they went, they could only wait for death. He saw a group of Tailed Demons that originally wanted to help save their species members ultimately themselves fall into an abyss... he even saw from afar the entire Light Valley formation disappeared from the earth. During that instant, the scene of the two milky white colored Seven Sins Foxes nestled against each other appeared in his mind... they were the highest bloodline creature in this world, but were unable to flee their destiny of being buried along with the world?

Chapter 1435: Unbelievably powerful, Chieftain!

The powerful light fell down, its white glow able to shine the entire Imprint Valley.

The sun itself was showing lapses. It was as if a white cloth were suddenly cut off and hung in the sky.....

Chu Mu lifted his head and looked afar. The entire Imprint valley was nearly collapsed, and things would only speed up from here on.

The path was no longer easy to walk. Occasionally, they had to walk over thin ledges with Dark Sect Heaven Slaughter. The feeling of walking the edge of death was incredibly scary. Even if they were immortal rank, they had to tiptoe around as if they were the weakest organisms alive.

Dark Sect people should know of the other spaces. The direction they were walking was clearly with intent. Dark Sect people didn't make things difficult for Chu Mu nor scare him in any way. Other than the fact that he was surrounded and kidnapped by the six Dark Sect members, Chu Mu felt as if they were part of the same group.

Lady Si was interested in Princess Jin Rou, and was curiously asking how she became a sad little ghost.

Princess Jin Rou couldn't tell whether Lady Si was being truly friendly or fake and so responded vaguely.

When beside Chu Mu, Princess Jin Rou often showed her more mischievous childish side. However, that was only when she was alone with Chu Mu. When talking with others, she was the mysterious ghost princess that kept to herself, avoiding most contact, and remaining relatively untalkative.....

Dark Sect's other men, including Chu Mu, were all untalkative. So, this entire way, the only sound was the two women's voices. They seemed polite and laughing often as if they were long lost sisters, yet in reality, they maintained their hostility.

"Master, we're almost at the exit." Leng Lou carefully used mental voice to communicate with Chu Mu.

Leng Lou was a Dark sect member but he wasn't really Heaven Slaughter's subordinate. He was actually loyal to Wan Chong, so in reality, he prioritized Chu Mu's command. If they really got into a battle, Leng Lou would stand by Chu Mu's side no matter what.

"Where?" Chu Mu asked.

"Behind that mountain." Leng Lou said.

Chu Mu glanced over and saw a rather well-preserved mountain.

This mountain was very normal. There was a pathway to the back of the mountain. Presumably, the exit to this space was at the end of this meandering mountain path.

Heaven Slaughter's soul pet has spatial recovery abilities, so even some hard to cross cracks weren't an issue for them.

Very soon, they reached the foot of the mountain. This was when the ground they had just stepped on started falling and disappeared into the darkness.

"If we were any later, the space exit itself may be devoured." Lady Si laughed and said.

The other Dark Sect members all looked behind themselves in lingering trepidation. This new collapsed crevice was massive and spanned at least ten kilometers. Heaven Slaughter's soul pet had a limited amount of stamina and couldn't fix that much broken space.

Heaven Slaughter still walked in front, walking straight towards the meandering valley.

Suddenly, a figure appeared in the hazy little path!

The figure laid against the rocks aside as if it waited for a long time. However, how did they not discover him immediately and only noticed when they saw him in person?

Heaven Slaughter furrowed his brows and signaled for everyone to stop.

His face became grave as he stared unblinkingly at the large figure on the rock.

“Who is that!!” Lady Si yelled angrily as she was shocked.

The hazy figure moved and slowly walked out of the valley path.

An eagle-like face slowly came into focus. Sharp eyes, hook nose, pointed chin, he was completely like an eagle. A cold, arrogant, yet sharp smile accompanied his self-confidence that seemed to look down upon everything.

Being watched by these eyes caused immense discomfort to them.

Everyone in Dark Sect acted as if they faced their greatest foe, staring unwaveringly at this man.

Chu Mu's expression was also grave. Though he couldn't feel any aura on the person, he was sure it was an expert. In fact, he was stronger than any person he'd ever met before. The arrogance in his eyes wasn't the pride many brash soul pet trainers have. It was just another aspect of his character, one that seems to come with being in a position of authority for a long time.

What kind of person could make pride a habit?

Dark Sect's eight people all had an aura of death around them. When Snake Dragon Faction, Wupan Navy, and Divine Sect's people had Chu Mu surrounded, this aura of death caused them to be fearful.

However, the death aura of the eight people combined still wasn't enough to cause any influence on the auraless man.

"Little girl, because of your old father, I'll show you some mercy. Get lost." The man glanced at Lady Si and said with a commanding tone.

Lady Si's entire face turned red. She was a member of the hated and infamous Dark Sect. However, who in the entire human realm didn't know she was the princess of Dark Sect? Even Divine Sect didn't dare to disrespect her in any way. No one dared to speak to her like this, not even her father!

"Kill him!" Lady Si pushed down the anger in her heart and said coldly to her subordinates.

No one dared to disobey her orders. The scout that had recently returned attacked first, becoming a cold glint on his Dark Roc.

Flashing past, he flew straight towards the man.

The man didn't even lift an eyelid. He casually waved his hand like waving a fly away.

The same time the man waved his hand, a deep blue organism jumped out from behind him.

This organism was incredibly fast. Everyone could only see a claw fly past the Dark Roc's flight path!

"Puchi!!!!!!!"

Blood sprayed outwards. The Dark Roc and the scout's body split in two, falling cruelly against the rock by the man, painting a pathetic blood rose on the stone surface!

Instant Kill!!

An instant kill without a single technique!!

Everyone sucked in a breath and stared in disbelief at the corpse.....

That scout wasn't any weaker than the other Dark Sect members, yet he was instantly made into a bloody corpse. This was all too frightening!

The anger on Lady Si's face disappeared, replaced with pure shock.

"Don't annoy me. Whenever I get annoyed, I want to kill people, especially those who annoy me."  
The man didn't even glance at the corpse from beginning to end.

That was an immortal rank corpse. However, it seemed so insignificant when it was dead at his feet.

At this moment, Heaven Slaughter stepped forwards slightly and said in a low voice to Lady Si,  
"You leave."

Lady Si was shocked. She saw Heaven Slaughter's eyes. From those eyes, she saw a calm and concentration that she had never seen before.

"I won't leave!" Lady Si bit her lip and said.

"He's the Chieftain," Heaven Slaughter said.

Lady Si went silent again, this time staring in disbelief at the eagle faced man!

Chieftain, the only chieftain in the world, the one that led the entire massive navy of Wupan!

Heaven Slaughter's whispers were heard by Chu Mu as well, causing tidal waves in his mental state!

In front of him was the Chieftain, a leader rank expert, a true master of humanity!

This was an enemy he had never faced before. From his ability to kill that Dark Sect scout without even casting a technique was enough to show this. In fact, how long could an organism like Martial Cloud Dragon stay alive for?

“Leave.” Heaven Slaughter said to Lady Si again, this time in an almost commanding tone.

Lady Si was stared shockingly at Heaven Slaughter. He knew that if the Chieftain wanted to kill her, no one present could truly escape.

Lady Si’s lips were nearly broken. She didn’t expect to see the Navy Chieftain here. And even more damned was that this Chieftain seemed to predict that they would leave from here and waited for them.

Finally, Lady Si decided to leave.

“I will avenge you, I will!” Lady Si said sincerely.

After saying that, Lady Si rode her soul pet away quickly towards the back of the mountain.

Chieftain stood there, and didn’t stop Lady Si from leaving.

“You guys leave too.” Heaven Slaughter didn’t turn around and said apathetically to Chu Mu and his subordinates behind him.

“Master, we want to stay to fight!” The rather skinny dark sect man stood forward.

We won’t leave either.” The other people stood forward behind Heaven Slaughter.

They knew that the enemy they faced this time was unprecedentedly powerful. However, even if they could all get killed without even a technique being cast, the six of their lives was enough to buy time for Heaven Slaughter.

“Dong~~~~~”

The Chieftain rapped his knuckle on the bloodied rock and smiled as if mocking prey. “Don’t get it wrong, I didn’t allow anyone else to leave. Someone will have to pay for my passed away subordinates.”

Heaven Slaughter’s heart sank. He originally meant for everyone to leave so maybe he could escape from the Chieftain using his Strange Mane Demon.

However, the Chieftain clearly didn’t mean to let any of them go.

“Kid, the Seven Sin fox Monument Tear is in your hands?” Chieftain’s gaze fell on Chu Mu’s body. That gaze was as if a king were looking down upon a peasant.

Chu Mu didn't reply.

"Bring it over, including the other monument tears you have." The Chieftain commanded lightly. In fact, almost every word he said sounded like a command. At his height, there was no point in speaking in an amiable tone.

"If we give it to you, can you let us leave?" Chu Mu pointed at Princess Jin Rou and Martial Cloud Dragon.

"No," The Chieftain said.

Chu Mu turned to Heaven Slaughter and said, "We're allies now."

Chapter 1436: Chieftain's Death Sign

Heaven Slaughter looked at Chu Mu and said nothing.

The Chieftain instead let out a snort. They planned on ganging up on him?

Even if their numbers could go up manyfold, he probably wouldn't take them seriously. These kids don't seem to know the difference between normal immortal ranks and leader rank experts.

However, that was fine. They would naturally understand it on the way to hell. Some people never understand their insignificance until they're dead or near death.

Chieftain didn't care if Chu Mu and Heaven Slaughter joined forces. It was like two ants standing together; to him, it was just a matter of a single step to eliminate both still.

Chieftain stepped forward and looked calmly at the dark blue demon beside him.

That dark blue demon let out a glow like a pearl, and turned icy cold with killing intent.

This was an incredibly powerful demon. Every step it took emanated a powerful spatial black hole that devoured its way forward with nowhere to dodge.

Dark Sect's six people all stood beside Heaven Slaughter. Their soul pets were all summoned already, the same dark type soul pets that had fought the navy before.

These dark type soul pets all stared nervously at the Deep Sea Demon.

This Deep Sea Demon's species was unknown, but it had incredibly smooth, deep blue skin.

Its claws were similar to most long clawed demons. However, its elbow region had a fan shaped fin. This fin glinted with a terrifying sharpness. Countless organisms must have been dispatched using this tool.

"Boss, you leave. You gave us our lives, so now's the time to return the favor." The thick-browed dark sect man said to Heaven Slaughter.

All four of them were determined. Facing an unbeatable foe, they didn't step a single step back.

Of the six Dark Sect people, the scout was already dead. Leng Lou wasn't Heaven Slaughter's direct subordinate. The reason he entered was merely because he knew Imprint Valley relatively well. However, the other four were all Heaven Slaughter's subordinates, people who were willing to sacrifice their lives just to buy time for their master.

Heaven Slaughter's expression didn't even change. He nodded and turned to look at Chu Mu, "You guys follow up."

Heaven Slaughter rode his Crown Horned Devil to avoid the Chieftain's impediment and went straight for the exit.

Heaven Slaughter didn't travel through normal space. Instead, his Strange Mane Demon created a small path through the chaotic space. In the pitch black black hole, his Crown Horned Devil travelled across this path rapidly.

Chu Mu immediately brought Princess Jin Rou and Martial Cloud Dragon along, while Leng Lou followed quickly behind.

Princess Jin Rou glanced at the four Dark Sect members beside them. She had always heard tales of how Dark Sect people were cold blooded and emotionless. However, the determination on these four Dark Sect members caused Princess Jin Rou to believe that Dark Sect may not be like the rumors. At least, to people they were served, they were extremely loyal and didn't even have fear of death.

Anywhere they passed, the path broke. Chieftain immediately rode his Deep Sea Demon in pursuit.

However, the four dark sect members were very clever. They knew their opponent was powerful and that their soul pets couldn't hit the demon at all. So instead, their techniques all slammed into the space to break all the space behind Heaven Slaughter.

At the Chieftain's level, he may not get devoured by the black holes. However, he also couldn't walk through this chaotic space as if it were nothing.

With the collapse of the space, the Chieftain's brows furrowed and he humphed, "If you want to die, I'll satisfy that wish. Go be loyal to your master in the underworld."

The moment he finished speaking, his demon attacked the four Dark Sect members!

The four Dark Sect members merely felt something flash in front of their eyes. In the same moment, the Deep Sea Demon and the leader's figures disappeared completely from their vision. Their speed was absolutely astonishing!

.....

"Ah!!!!!!!!!!"

A shrill scream came from behind them. The space was in utter darkness. Even if Chu Mu turned around, he wouldn't be able to discern what had happened.

"They're all dead." Princess Jin Rou retracted her senses and said sadly.

The four Dark Sect members were all immortal rank. Of the trillions upon trillions of humans in Zhengming Continent, only a few stepped into immortal rank. Every immortal rank expert had an absolutely shocking past, even if they were dark sect members.

However, they trained their entire lives to reach such a level and still couldn't delay the enemy for more than a few seconds. This wasn't because they were useless; The enemy was just truly too powerful. They were facing the true tip of the world. Any action of these leader rank experts could affect the entire future of the human race!!

Dark Sect Heaven Slaughter was still running ahead. He didn't say a single thing. He didn't even look back at his loyal subordinates.

They weren't afraid of dying because they had nothing to be worried about in life. Their lives were given by him. He was the reason they continued to live. If he died, they would have decided to commit suicide as well.

Thus, he never once turned around. This was their fate.

At the same time, Heaven Slaughter circumvented the Chieftain, he told his Strange Mane Demon to constantly create spatial cracks to prevent the Chieftain's pursuit.

The four Dark Sect members were indeed meaningless in front of the Chieftain. However, they still managed to create a hope for survival. As long as they could reach the exit before the Chieftain, they had a chance.

"He's here." Princess Jin Rou warned.

Chu Mu turned around to see the Chieftain stepping straight across the endless abyss and was swiftly approaching them!

The abyss and dark hole both had a very strong pulling force that could impede the Chieftain. The abyss couldn't completely pull the Chieftain in, however. Chu Mu could hardly believe that this person was truly this powerful, able to even defend the deadly black hole's energy.

The entire Imprint Valley had countless people unable to escape the fate of being devoured. Yet, this navy beast was standing above the spatial black hole. This power caused Chu Mu's heart to palpitate.

Facing the Chieftain's pressure, Heaven Slaughter was very calm. He still continued forth without turning around.

Finally, Chu Mu saw the twisted spatial door at the end of the path. It glowed with a special gleam that seemed endless, but pointed to a new space.

Chu Mu saw Lady Si. She still hadn't left yet, instead waiting for something along the Spatial Door.

When Lady Si saw Heaven Slaughter come over, she immediately smiled. However, when a deep blue figure appeared not far behind Heaven Slaughter, Lady Si turned pale again.

"Faster, faster!!" Lady Si yelled.

Lady Si was standing on normal space. Beside her were five soul pets. Clearly, she summoned them all.

These soul pets all held incantations in their mouths. With a single command, their techniques would all completely cast.

Lady Si was doing this so that the moment Heaven Slaughter reached a safe place, she would destroy the space between Heaven Slaughter and the Chieftain, not giving him the chance to continue his pursuit.

Behind them, Chieftain also saw Lady Si and her soul pets and furrowed his brows.

If he knew Lady Si would do this, he would have just killed the woman earlier and buried them all here.

“Don’t leave!” Chieftain roared and gave a command to his Deep Sea Demon!

The demon let out a guttural roar. Its pearl-like eyes shined with a deep blue glow, creating a water screen that became a powerful seal circulating with the shadows of the Water Totem Snake. (some powerful ancient Chinese mythical beast)

The Water Totem Snake twirled within the darkness and created a massive prison capturing them.

Seeing the opponent create a complete seal in the broken space, Lady Si’s heart was in even greater shock.

The terrifying seal started twisting under the powerful pull of the spatial black hole. However, this didn’t break the seal’s completeness at all.

“Don’t stop, continue running, the seal will be weakened by the black hole!” Heaven Slaughter shouted towards Chu Mu strictly.

Chu Mu didn’t mean to stop at all. Martial Cloud Dragon was already running at its top speed. Chu Mu could even see Martial Cloud Dragon’s wings starting to tear because of the black hole.

However, to survive, Martial Cloud Dragon endured the pain of its wings being torn off and flew against the pressure.

Just as Heaven Slaughter said, if the seal were in normal space, they couldn’t possibly escape.

However, this spatial black hole helped them here. The seal was severely twisted by the time it landed and they escaped through this twisted portion.

“Not good!” Just as Chu Mu was happy about their escape, Heaven Slaughter ahead suddenly turned around, pale faced.

Chu Mu was dazed as suddenly he heard a heart freezing whistling past his ear!

“Huhuhu~~~~~”

A spatial turbulence broke through between Chu Mu and Tian Lu, becoming a terrifying spatial storm!

Chu Mu's face went pale. The spatial black hole weakened the seal, but also sent over this terrifying spatial storm.

This spatial storm wasn't lethal to Chu Mu, but the Chieftain could still easily catch up to him now!

In the moment of life or death, Chu Mu really didn't expect a spatial storm to become his demise. Seeing the storm form and looking back at the Chieftain more powerful than the black hole, Chu Mu was suddenly overtaken by the fear of death.

The Dark Sect people didn't fear death because they had nothing to worry about in life.

What about Chu Mu? Did he have things to stay alive for?

He promised White Three to bring its soul to the peak of Nightmares. He promised Ye Qingzi to marry her at the day summer and spring meto make up for their incomplete wedding.....

Chu Mu bit his lips hard. Since he couldn't run away, he won't give up and let fate take him. The chaotic space was his territory. Chu Mu could have a fight even if it was against a Leader Rank Expert!

White and black devil flames darted up almost immediately. The Imprint Valley's collapse caused the restrictions to slowly deteriorate too. Chu Mu could become a half devil now.....

Chapter 1437: Only Slaughter in his Eyes!

Devil flames were ignited. Regardless of how powerful the black hole's suction force was, it was impossible to cause the devil flames to flicker.

As his body gradually transformed into a devil, Chu Mu turned around. Despite knowing that this was such a powerful enemy, Chu Mu still had to land a blow on the Chieftain's domain.

The Chieftain was behind them, and he wasn't in a good mood because he never expected that he would let Darkness Sect's Heaven Slaughter flee once again.

Ever since he sat on the Chieftain's seat, there had never been a person who managed to escape his grasps twice!

"Hmph, it's also fine if I can obtain the Monument Tear." the Chieftain glanced at Chu Mu who no longer had a path to flee and consoled himself.

However, the Chieftain had noticed the strange transformation occurring on Chu Mu.

.....

Imprint Valley's broken restriction even created a positive effect for Chu Mu. His current devil transformation was like a butterfly breaking out from a pupa. It required the energy-restricted by the pupa to be opened.

As he watched the terrifying Chieftain grow closer and closer, Chu Mu grew a bit nervous. The devil flames covering his body began to unceasingly pour outwards.

Suddenly, a strange element appeared around Chu Mu. Immediately after, his surroundings suddenly warped in the chaotic space!

When Chu Mu transformed into a half devil, he was full of perception of the other type element.

Currently, the chaotic space around him that was mysteriously warping was actually an other type elemental Strange Warp. Chu Mu's Displacement Specter originated from this kind of other type elemental Strange Warp.

However, he hadn't chanted anything; why was the other type element around him warping? Where was it going to take him?

“Zi~~~~”

Without giving Chu Mu too much time to think, the space Chu Mu, Princess Jinrou, and the Martial Cloud Dragon were in suddenly warped!

The three of them mysteriously disappeared from where they were as they were forcibly transferred by some spatial force.

The scene before their eyes went blank. It seemed both like a long amount of time, but also like the blink of an eye before their vision returned to normal. The only difference was that Chu Mu was no longer in a spatial windstorm. Instead, he was now mysteriously standing in the safe area where Young Lady Si was!

Spatial Exchange!

Chu Mu had been forcibly spatially exchanged to a safe location!

The terrifying spatial windstorm was growing increasingly big. Through the chaotic energy, Chu Mu could see that the cold and large figure originally standing in front of him was now in the spatial windstorm.

That was Heaven Slaughter!

Chu Mu was currently standing where Heaven Slaughter just was - right in front of the safe location. On the other hand, Heaven Slaughter's location was now in the death zone where he just was.

Chu Mu was stunned. He looked inconceivably at the masked man.

He had used his Strange Mane Demon to Spatial Exchange. He had saved Chu Mu, but thrown himself into a realm of inevitable death.

Why? Why did he do it?

He was a stranger, and someone who probably was an enemy. Why would he use his own life to save him? Chu Mu was in deep bewilderment and shock.

The spatial windstorm grew stronger and stronger, sweeping Heaven Slaughter's body up. However, the terrifying Navy Chieftain was growing closer, and he no longer had anywhere to flee.

He seemed to know that he was going to die as Heaven Slaughter, struggling in the windstorm, looked over at Chu Mu.

Heaven Slaughter's black pupils had never had any trace of movement or emotions in them during the entire time Chu Mu had seen him. Only now did his eyes move and it seemed to express everything he had hidden in his heart...

Chu Mu could clearly see his eyes. He was unable to understand the meaning contained in his eyes, but the gaze looked extremely familiar to something he recently saw.

.....

He saw those eyes when the Devil Wolf father had saved the infant wolf as it was falling into the bottomless abyss...

The heaven had fallen and earth had collapsed. It was both silent, yet noisy. This world was going to be destroyed.

As he stood on the edge of the collapsing cliff, Chu Mu blankly looked at the man. His throat seemed to be blocked by something.

.....

Sun was shining bright. Although spatial vibrations didn't stop transmitting from another dimension, the place he currently stood upon was calm.

Chu Mu's gaze was at a loss as he looked at the beautiful mountains in front of him. His head was filled with dark heaven and sky scenes from Imprint Valley, as well as that final gaze.

"Why... why did he save you?!" Young Lady Si angrily grabbed onto Chu Mu's collar as she yelled at him.

Young Lady Si had already thrown off her veil, revealing an astoundingly beautiful face. She fiercely gripped Chu Mu. In her opinion, Chu Mu had basically killed Heaven Slaughter because the latter had used Spatial Exchange to throw himself into the death zone.

Chu Mu didn't resist. From the moment he escaped through the spatial passage from the collapsing Imprint Valley, he looked like he had lost his soul. His eyes didn't contain a trace of vigor in them.

Princess Jinrou looked at Chu Mu's soulless appearance. It was the same expression Chu Mu had when he found out Night had died. However, this time, it was even more apparent. His black eyes were no longer focusing, and he looked like an empty, walking corpse.

Princess Jinrou didn't understand why Heaven Slaughter had saved them, nor why Chu Mu was suddenly like this. Was Darkness Sect's Heaven Slaughter a very important person to him?

"Tell me!!!" Young Lady Si yelled at Chu Mu.

Young Lady Si's voice made Chu Mu come back to his senses. He glanced at Young Lady Si and slowly said: "He's my father."

Young Lady Si was stunned and she looked blankly at Chu Mu and his face.

She was able to see a resemblance of Chu Mu's face with Heaven Slaughter's. If Chu Mu hadn't said anything, she wouldn't have paid attention. But when she carefully looked, she shockingly discovered that the two of them really had resemblance!

When Princess Jinrou heard Chu Mu's words, she fell into shock, and it was a while before she came back to her senses.

Princess Jinrou was about to say something to console Chu Mu when she suddenly detected something. She examined her surroundings with a bit of panic.

"Chu Mu, there's a group of people coming. They seem to be coming for us," said Princess Jinrou.

Chu Mu looked around him. Indeed, he found a few people in between the mountains.

Since the Navy Chieftain knew of another exit, he probably had sent people to defend this place just in case.

As these people grew closer and closer, the leader of them looked familiar. When he flew in front of the three of them, Chu Mu was finally able to clearly see his face. He was the Fake Monument Tear Individual Gu Xisha!

Gu Xisha had a malevolent face, and a pair of greedy eyes that resembled a wolf. His group of subordinates were all riding on fierce beasts and they numbered over 50. In an instant, they surrounded Chu Mu's group.

“Tch, we finally meet again. It seems that my guess before was right. You really are a Monument Tear Individual.” Gu Xisha looked at Chu Mu with a big smile. He looked extremely pleased.

Chu Mu looked at Gu Xisha, then at his 50 subordinates.

Half of them were Xuan Gate people and the other half were Wupan Navy people.

“This person should be the renowned Young Lady Si, right?” Hehe, since I can’t see your Darkness Sect’s Heaven Slaughter, I presume he’s died at the hands of our Great Chieftain, right?” laughed Gu Xisha.

“It was you who had the Chieftain kill him!” Young Lady Si spoke with abnormal amounts of anger.

“So what if that’s true?” Gu Xisha had an arrogant expression.

Young Lady Xi clenched her fists and her arms faintly trembled. It was possible to see how mad she currently was!

But Young Lady Si wasn’t the only person who was clenching her fists. There was also Chu Mu who stood by the side and was extremely miserable. Furthermore, nobody noticed that his body was currently split into two different colors.

His right side was an evil and demonic silver color, while the left side was a wild and devastating black color. The two devil flames were distinctly split, like two evil devils standing with their backs to each other!

Chu Mu was in a horrible state of mind. He had longed for the day he saw his father. And when he finally did, it was the last time he did so. The heart-wrenching pain put him in a nearly mad state.

When a person's emotions reached their peak, they always had to vent it.

This place wasn't Imprint Valley. There were no restrictions. What he wanted the most was to kill!!

"Chu Mu..." Princess Jinrou could understand Chu Mu's current state of mind. However, when she saw Chu Mu show two devil sides, her eyes were full of shock.

An enormous killing intent transformed into a storm, accompanied by a low pressure and whirling black cloud layer that instantly covered the beautiful mountain range.

A bone-chilling cold arrived and a savage devil flame swept through. It mirrored the dividing line under Chu Mu's feet. Half of the earth was covered by a silver color, while the other half was a black color that extended to the horizon!

Dual devil person!

Chu Mu's pupils had completely changed. Right now, everyone, including Gu Xisha, felt an unknown fear. This fear made their souls incessantly tremble. This was a horrifying devil that they didn't dare even look directly at!

"What... what... what kind of monster are you!" when Gu Xisha looked at Chu Mu's devil transformation, his face was full of shock.

Gu Xisha had never encountered such a powerful creature aside from the enormous pressure he felt from the Chieftain. Chu Mu's power didn't come from an incomparable aura; instead, it was an unprecedented evil, bloodthirstiness, and madness. It made one feel as if the vilest creature in the world was here!!

Someone had transformed into a devil, causing violent anger to become torrential devil flames that filled the sky and earth!

This place wasn't Imprint Valley. There was no powerful restriction. Who would be able to stop Chu Mu?

Chu Mu had followed the path his father had personally guided him on. He had continued walking forwards and even if the path was bumpy, he never stopped. Nobody could understand the position Chu Tianmang occupied in Chu Mu's heart; therefore, nobody could understand Chu Mu's current state of mind!

Right now, the only thing in Chu Mu's eyes was slaughter!

Any enemy he saw had to die!!

Chapter 1438: The Old Enemy of Monument Tear Individuals

The sky collapsed and earth fell in. The entire world was a deathly quiet, but the horrifying sinking and collapsing could be seen.

The destruction of a world was like this. A myriad of creatures would be decimated. All other power was insignificant in the face of this destructive wave.

Amidst the chaotic windstorm, a masked figure rode on his soul pet, the Strange Mane Demon. His eyes looked somewhat blankly at the completely destroyed world.

He didn't regret his previous action because this was something every father ought to do.

Moreover, he owed his child too, too much.

"I really can't think why... I really can't think why." the Chieftain arrogantly stood in the spatial windstorm and sharply stared at Heaven Slaughter. His tone was filled with traces of mockery and teasing, "Darkness Sect's Heaven Slaughter who kills people like flies, and is known to be cold and callous did something so surprising as this. I really am curious who that brat is to you. Who is he to use your own life to exchange for his?"

"He is my son." Chu Tianmang coldly stared at the powerful Chieftain.

The exit had already collapsed. Chu Tianmang had to find another path. He didn't know if there was another exit out of Imprint Valley, but he wouldn't give up here.

Unlike other life forms that were swallowed by the spatial black hole, he was different. He had the Strange Mane Demon. The Strange Mane Demon was born out of chaos and it could wander other type dimensions.

"Your son? Hahaha, interesting. Truly too interesting. I heard before that Darkness Sect's Heaven Slaughter had a wife and child, but was a person who moved alone. I figured it was because of your Monument Tear Individual status that you didn't dare have too much contact with them, right?" the Chieftain looked like he sighed as he continued, "Monument Tear Individuals are destined to be lonely because every one of them must take on the most miserable fight. Of course, that is unless you're able to climb up to my position and have the ability to intimidate all Fake Monument Tear

Individuals. Otherwise, the moment the news of your family is leaked, they won't be able to live more than a few days."

Chu Tianmang didn't respond, but the Chieftain was speaking the truth.

The burden Monument Tear Individuals carried was too much. He knew this from a long time ago. Back then, Alliance Master Ling Chan had learned information about Monument Tear Individuals from somewhere and refused to let him go.

Thus, Chu Tianmang had reached a compromise. He chose to forsake his heavy responsibility and live a normal life in a tiny city.

However, fate was cruel. He had no choice but to rejoin the soul pet trainer path and fight against it!

He left New Moon Land, but was met with even stronger enemies. He came into possession of even stronger strength, but also carried an even heavier mission. He knew Chu Mu hadn't died, and had become the representative king of New Moon Land's people. He had shed tears of happiness, but he could only watch from afar.

It wasn't that he was unwilling to see them. Instead, before he had the strength to protect him and her, he would not bring his own disaster and enemies to them.

Monument Tear Individuals were lonely. Chu Tianmang understood much more about Monument Tears than Chu Mu. He also knew that the secret hidden in the Heaven Boundary Monuments was both enormous and made one shiver in fear. He thought he ought to regain his dignity and pursue strength in order to break these terrifying bonds. However, he now found that the bonds were growing tighter and tighter to the point he was unable to breathe.

“He is a Monument Tear Individual and you are a Monument Tear Individual. When the two of you reach a certain height, you will no longer be father and son. Instead, you will be fated enemies. Frankly speaking, I’m even looking forward to such an interesting scene and I really do want to let you go. Then, I’ll be able to see the bloody fight between two Monument Tear Individuals... unfortunately, judging from your behaviour just now, I’m certain that you’d rather die than have something happen to him. This way, there’s a chance he could become the last Monument Tear Individual... but the last Monument Tear Individual... when you learned he was a Monument Tear Individual, you must have felt very despairing.” the Chieftain stroked his chin.

Chu Tianmang didn’t say anything. He was very similar to Chu Mu in this regard. While others were mocking and teasing him, he didn’t enjoy arguing back.

The Chieftain still wore a smile. Probably only leader rank people were able to maintain such calm in a shattered space.

“There’s no need to feel despair. After all, the final outcome will be me killing the both of you.” the Chieftain stopped smiling and his gaze turned incomparably sharp as if it was going to pierce another person’s heart!

Chu Tianmang narrowed his gaze and using a disdainful voice, he said: “Do you really think you’ll be able to kill me?”

“Hmm, do you think you’ll be able to escape from my grasp twice?” sneered the Chieftain.

“In our world, it would be extremely difficult for me to escape a second time from your grasp. However, here, you aren’t my equal. This is my domain!” Chu Tianmang’s eyes were completely different now as a radiance blossomed from them.

A strange vortex instantly glowed on the Strange Mane Demon he was riding on. The vortex came from the spatial windstorm's violent rotation. In the chaos, it was faintly possible to see a devil figure attached to the Strange Mane Demon's back!

This was a collapsed world. This was a zone of spatial chaos, while also being a domain filled with the other type element. This was a place where powerful other type soul pets would be absolute dominators!!

“Let me see your skills.”

The Chieftain loudly laughed and without fear, he fought with the Strange Mane Demon above the black hole. The aura that dominated everything seemed to be telling Chu Tianmang that even if he was in his domain, it didn't matter. He was still going to defeat you!

.....

Princess Jinrou had known Chu Mu for quite a long time. However, she had never seen Chu Mu with such heavy killing intent. In fact, she couldn't believe that the person controlling two devil flames was the Chu Mu she knew. The current him was a devil king that ignored any and all kinds of life forms!

Chu Mu's eyes were as cold as a thousand year old glacier, but also angry like an erupting volcano. He stretched out his hands and grabbed the air. Instantly, two navy members riding on water monsters were grabbed by his devil claws.

His two hands suddenly pushed forth and his hands seemed to enter the void and directly into the hearts of the two navy members standing at the very front!

Dark red flowed out of the two navy member's chests, dying their clothes red.

“Pu!!!!”

Suddenly, two bloody holes appeared in these two navy members' bodies. Their hearts mysteriously disappeared and landed in Chu Mu's hands. Then, they were mercilessly crushed. Blood and heart fluids seeped between Chu Mu's fingers.

Everyone present was extremely frightened by this scene. Even Gu Xisha was stunned.

Those two navy members were Ocean Lord titled experts. At a minimum, they possessed pseudo immortal rank soul pets. However, a casual claw from this mad devil had instantly crushed their hearts. Such strength was too terrifying.

Young Lady Si was filled with incomparable shock as she looked at Chu Mu. A moment ago he was a quiet and cold human. How had he suddenly transformed into a mad devil that could crush human hearts? What on earth was this young man?!!

Chapter 1439: Devil Man, Flower Woman, Half Humans Appear! (1)

Devil flames darted up everywhere, covering the skies. This mountain valley wasn't too far from Zhengming Main City. Those standing at a high elevation could look over and see devil flames thickly gathering along the ground, continuing for countless kilometers.

At the same time that the black and silver devil flames lifted upwards, a group of people turned into ashes.

Chu Mu didn't cast any technique, but his devil flame territory alone seemed to be able to reject weak organisms like dominator ranks. All dominator ranks disappeared into ashes under this territory!

These organisms, when gathered together, could potentially create a formation that blocked immortal rank organisms. However, they couldn't stand the terrifying burn of the devil flames!

Of the fifty enemies, instantly more than half died. The remaining ten or so people stared in terror at Chu Mu, especially when they saw the blood of human hearts still dripping from his hand.

Gu Xisha was the strongest man present. Seeing that most of his subordinates were killed instantly, Gu Xisha was filled with anger.

He didn't care what was in front of him. The powerful allure of Monument Tear meant he couldn't possibly let Chu Mu leave. Even if everyone died on his side, as long as he could get the Monument Tear, it was a win in his books!

"Kill him!!" Gu Xisha commanded angrily.

Gu Xisha had ten immortal rank people behind him. However, even with Gu Xisha's command, they may not dare to attack.

This caused Gu Xisha to become even angrier. He started chanting an incantation to summon his soul pets. He must get the Monument Tear!

.....

Divine Sect back mountain

“What’s happening on the north side?” A man wearing a golden coat stood on the sacred tower of Divine Sect and watched the upwelling of evil aura.

The evil aura continued to spread. Zhengming Main City wasn’t large, and the evil aura had already reached a fourth of the city.

“Sect Master Du, Gu Xisha and the others are guarding there. They must have gotten into a fight with the Dark Sect people.” Gate Master Han said standing aside.

“I know about that. I wanted to know what that is.” Sect Master Du pointed at the rolling devil flames at the horizon and the evil aura that was covering the city.

“This.....” Han Yan couldn’t answer.

He knew that this was an aura and territory released by some powerful organism. However, this was the first time he had seen such an impressive scene of silver and black devil flames splitting the world in two. He couldn’t judge what organism this was.

“There aren’t any potential slip-ups here, right?” Sect Master Du said to Han Yan.

“No, everything is well arranged. Once any rare high bloodline organism comes out, our all-encompassing net will capture them and mold them to our use.” Gate Master Han replied respectfully.

“En, then hand this to my subordinates, and let’s go check it out.” Sect Master Du pointed at the devil flames and said.

Gate Master nodded and chanted an incantation to summon his Light Tiger.

Sect Master Du merely summoned a Dragon Head Devil Eagle. With an imposing dragon skull and the powerful body of an eagle, it gleamed with a golden, noble glow!

Gate Master Han saw Sect Master Du take off with the golden figure. Looking back at his Light Tiger that suddenly felt weaker, he felt a wave of jealousy.

In Divine Sect, the difference between Gate Master and Sub Sect Master was only one step apart. However, Gate Master Han knew that unless he had a true miraculous encounter, he would never make the step to the next level.

Gate Master Han rode on the Light Tiger into the air to follow the Dragon Head Devil Eagle.

.....

Guang Moon Palace

Lady Gao stepped rather hurriedly towards a bed chamber.

“Things aren’t good, Divine Sect Sect Master Du and Gate Master Han are also going there.” Lady Gao said.

Evil Good Queen laid lazily on a large chair. Her eyes seemed half-closed, as if she were taking a nap. However, when Lady Gao mentioned Sect Master Du and Gate Master Han, her expression noticeably shifted.

“I’ll let you carry through with the plan.” Evil Good Flower Queen said to Lady Gao.

“Saintess, you’re going to....” Lady Gao said questioningly.

“Perfect, I need to use his power.” Evil Good Flower Queen slowly propped herself up. The thin blanket covering her jade-like skin fell down, revealing an alluring yet forbidden view.

Lady Gao didn’t dare to look. Even as a woman, she felt that seeing the Saintess’s body was sacrilegious.

Evil Good Flower Queen put on a long robe to cover her absolutely alluring curves and tiptoed past Lady Gao.

.....

Sect Master Du and Gate Master Han didn’t bring anyone northwards because they knew that Gu Xisha was waiting for potential escaping Dark Sect members there.

Sect Master Du actually wanted to stay in the back mountain of Divine Sect to see the powerful organisms escaping from Imprint Valley fall into his carefully planned trap. However, seeing the rolling devil flames from the north, Sect Master Du's mind was enraptured by the thought of a world-shattering devil!!

It was a Black Nightmare!!

Sect Master Du felt the aura of a Black Nightmare, an organism of highest lineage within the Nightmare territory. It was also the organism with the highest evil aura in the world!

Only at Sect Master Du's level did he realize what a rare high lineage organism truly meant.

He knew Imprint Valley had many powerful organisms, but Sect Master Du didn't imagine that an organism like Black Nightmare would also exist.

Now, as long as he captured a single Black Nightmare, Sect Master Du felt that all of his planning these past few years would be worth it!!

"Strange, why are there silver devil flames?" Sect Master Du slowly saw the black and white split devil flames land.

The devil flames were clearly split yet also joined tightly. This wasn't a Silver and Black Nightmare separately releasing their flames. It seemed to come from one organism.

"Such powerful devil aura!" Gate master Han was shocked.

From far away, he only felt the intimidating magnitude of the devil aura. Only when he truly stepped in did the heat of the flames and the cold of the darkness bring some panic to Gate Master Han.

Suddenly, a devil shadow leaped upwards and stepped arrogantly through the sky.

The devil's body was bizarre, with half of it being silver and half of it being black. Both halves were covered in devil flames.

In his hand, he had a struggling and terrified man clutched. Clearly, with a single thought, the devil man could casually kill the man in his hands!

Gate Master Han first saw the black and white split devil shadows. He was too busy being surprised at what this organism was when he suddenly realized with shocked that the man in the devil man's hand was the famous Gu Xisha of Xuan Gate!!

Black devil flames went down the devil man's arm and into Gu Xisha's body. He painfully writhed but couldn't stop the invasion of black devil flames.

The black devil flames were incredibly dominant. It instantly burnt away all of Gu Xisha's skin, then muscles, then organs and finally bones.....

Within seconds, the overpowering devil flames burnt Gu Xisha into ashes!!

This scene fell right into the eyes of Sect Master Du. he felt a shiver go through his body.

Sect Master Du wasn't interested in Gu Xisha's death at all. He was instead shocked at seeing the black and white dual evil devil man.

What.... What is this? Is this a Black Nightmare or a White Nightmare? Sect Master Du's eyes were completely shocked by this sight. He had lived countless years, yet he had never seen such a rampantly evil organism!!

.....

Chu Mu slowly turned around, instantly seeing Gate master Han and the older middle-aged man not far aside.

Gate Master Han's strength didn't worry Chu Mu. However, the man beside him caused Chu Mu to become vigilant. After all, the Dragon Head Devil Eagle's aura was very powerful!

They were still a distance away, staring at him from afar.

Chu Mu didn't leave. The single life of Gu Xisha wasn't enough to rid Chu Mu of all his resentment!

Just then, a mesmerizing aroma floated over. Beside Chu Mu, a blood-red flower plate slowly blossomed, creating an equally evil but dangerously seductive aura.

The blood-red flower plate was like a throne that floated aside Chu Mu. When the flowers blossomed, a devilishly pretty woman appeared standing, her blood-red hair flowing with the wind.

Disappointingly, her face was covered in a golden mask, covering her dazzling beauty.

Sect Master Du and Gate Master Han were instantly absorbed by this devilish body, their hearts even more shocked!

These were two devils, one male, one female, releasing a power that was enough to cause all living organisms to fear!!

“Half humans! They must be half humans!!” Sect Master Du finally realized and stared unblinkingly at both Chu Mu and Evil Good Queen!

Only half-humans could have such a shape. They were similar to humans in figure but have the blood of powerful creatures, wielding their power!!

Sect Master Du had seen other Other type organisms before, but none as perfect and powerful as these two!

He was now sure that this male half human had the blood of black and white nightmares running through him, while the queen had a powerful flower type’s blood!!

The mood in Sect Master Du’s eyes slowly switched from shock to one of zeal. He spent countless years to destroy Imprint Valley just so he could get the organism of highest blood lineage!

Yet, the half humans in front of him right now had the strongest blood lineage that he was looking for! No one knew better than him how powerful half humans were!!

Devil Man, Flower Woman!

Though they were covered in evil aura, who could say they weren't the most perfect organisms in this world?

Chapter 1440: Devil Man, Flower Woman, Half Humans Appear! (2)

"You're in a bad mood?" Evil Good Flower Queen asked Chu Mu.

With the existence of a soul pact, Evil Good Queen could feel Chu Mu's emotions. The anger was boiling forth, pushing him towards insanity.

Evil Good Queen glanced below here. There was quite a bit of ash and bloody corpses. She also saw the scene of Chu Mu killing Gu Xisha.

This was Evil Good Flower Queen's first time seeing Chu Mu become half devil in a while. The black white devil flames indeed were a strong visual shock. It was as if a devil god from another dimension had descended upon this world, one that didn't fit in but was nevertheless madly arrogant.

Chu Mu didn't reply to Evil Good Queen. However, Evil Good Queen simply went through their soul pact and read through Chu Mu's memories.

Evil Good Queen checked incredibly quickly. However, before Chu Mu could resist or get angry, she already got what she wanted.

“That’s why.” Evil Good Queen retracted her alluring smile and pointed at Sect Master Du, “I didn’t tell you before, but the reason Imprint Valley collapsed was because of him.”

Chu Mu glanced at Evil Good Queen to wait for her to continue.

“This fellow’s habit is collecting the blood essence of powerful organisms with high blood lineages and then injecting this blood essence into another species to create the perfect soul pet. There are quite a few powerful and strong lineage organisms in Imprint Valley, so he started destroying the spatial structure long ago....” Evil Good Queen said.

Evil Good Queen entered Zhengming Main City, Imprint Valley had already been wasted for many years.

It wasn’t deteriorating for no reason. Sect Master Du was forcefully destroying it.

Evil Good Queen entered Imprint Valley many times and noticed this long ago. However, she at first didn’t know who was destroying Imprint Valley. Or rather, she didn’t know who stole the initiative from her to do something with the Imprint valley.

Sect Master Du heard Evil Good Queen’s words. Most half humans were no different from humans. In fact, Sect Master Du knew clearly that half humans were usually humans, too.

He knew that they lived similar lives as humans, but he didn’t expect it to know of his plans of destroying IMprint valley.

Sect Master Du stared at Evil Good Queen and carefully gazed at it.

The Flower Queen able to appear here in such a short time meant that it was definitely in Zhengming Main City. Sect Master Du tried to guess from this woman's aura and characteristics just who it could be.

Sadly, Sect master Du scoured his memories but still couldn't find anyone even close to similar to this evil beauty.

"You really know quite a bit." Sect Master Du smiled. "However, you should know that my interest for you two far exceeds the Imprint Valley organisms. Bringing you two out, is it just my luck?"

Sect Master Du had a very righteous appearance with a sturdy nose and thick brows. When he laughs, it also emanates a sense of justice. If someone saw his current zeal, who would expect that Sect Master Du, a person at the tip of the human world, had such a greedy side?

Human leaders were no longer wavered by money or power. Their power was also at a peak. No one would believe that a Divine Sect Sub Sect Master would create a plot to destroy a world just to collect more high blood lineages.

Of course, he did far more than that. The sacred blood of the Messiah Tree was hidden in his basement as well.

The only time the righteous Divine Sect chose to comply was when they decided not to hunt down the criminals in Quiet Forest. This was one because it related many leader rank experts, but also because the Vice Sect Master Du Xian was also a participant. As Vice Sect Master, the only person able to judge him was himself!

Du Xian never thought those actions were against Divine Sect. In fact, he always thought he was doing the best he could. The human realm needs an Undying rank expert. They needed the highest belief to unify the scattered human race.

Divine Sect wasn't a belief of humanity; it was only a judgment. Du Xian has been an arbiter for hundreds of years. Evil people who have died by his hands were in the tens of thousands. He had also stopped countless calamities.

However, he was tired. He was tired of this constant struggle, tired of trying to stop the endless criminals and evil-doers, tired of these humans who easily fell down a faulty path.

He wanted to become a unifying faith, just as how the Five Great Undying Legends were like gods within their species. Only at a rank like that can he use his power to create commandments for humanity. Only then can the continuation of humans be well structured. He would also become the sole leader and bring humanity through an unprecedented golden age!

His thoughts were insane, but he had a chance of success because he was already one of the leaders of humanity. He was one of the four sect masters of Divine Sect, and he had the horn of the Empyrean Dragon that represented divine rights. He had the blood of the father of the world, Messiah Tree. He had half of the Hidden Pupil Royalty's support. He also had countless high ranking organisms within Imprint Valley as his pawns!

Du Xian knew that many people were suspicious when he had destroyed Imprint Valley. Even some inner members of Divine Sect had this suspicion.

Yet, how could they guess that the destruction of Imprint Valley was just one part of his plan? Even if someone found out, who could stop him?

“If you two are willing to be loyal to me, everything you want, I can give you.” Du Xian pointed to Chu Mu and Evil Good Queen and said.

Humans could never step into Undying rank, but how about special lineage half-humans?

Du Xian felt that Half Humans could likely be a breakthrough!

Evil Good Queen looked at Du Xian with interest. She knew what Du Xian was thinking about because Evil Good Queen saw the same ambition and zeal in his eyes as her own heart. This man didn’t want to just be the highest arbiter of Divine Sect. He wanted to rule the human race.

“Sorry, but I am loyal to someone else already.” Evil Good Queen’s voice suddenly became soft and seductive, her beautiful eyes flashing with a mysterious glint. One couldn’t tell if she was telling the truth or lying.

“Who? Who are you loyal to?” Du Xian was slightly sensitive. Knowing that these two half humans already were loyal to someone, he immediately roared.

Evil Good Queen extended a thin finger at Chu Mu and said, “Can’t you tell that I’m just a small flower slave that he can control however he wants?”

Du Xuan’s face twitched. This Flower Queen was trying to mock him!

However, Du Xian’s eyes fell on Chu Mu.

Black and white, the devil man with two colored flames indeed had the power to match its unwordly pride. Even in all species, he was a king that no one could match.

Du Xian retracted his anger. He didn't care at all about telling his wild ambitions to these two half-humans.....

Chu Mu also gazed at Du Xian, his anger welling up even stronger!

He was the criminal of Quiet Forest. This anger already caused Chu Mu to be infuriated with this man.

Only having seen the cruelty of Quiet Forest, having seen Ning Maner's heart-wrenching cries, witnessed countless protectors giving up their lives in protection, only then could one truly understand just how heartless and unforgivable the criminals of Quiet Forest were!

And Imprint Valley too. Chu Mu always thought that Imprint Valley fell because the world couldn't handle its own energy. When he saw the Seven Sin Fox Light King hugging and waiting for death, Chu Mu could only choose to leave silently.

Skies fell, all organisms died. Chu Mu has killed countless lives in his time, but even he couldn't help quell the tidal waves going through his heart when he saw entire species disappear into a black hole!!

The poor little demon foxes that were under the Light King's care.

The Martial Cloud Dragon and its baby that were willing to fight for him just for a chance to escape.

The never leaving Seven Sin Fox Light King. Every time he thought of its calm gaze as it embraced death, Chu Mu's heart seized up.

The male devil wolf that threw its wolfling to a stranger human right before it died, as well as his father who did the exact same thing without even saying a word to him.....

Just for a person's own desires and craze, millions of Imprint Valley species had to die with this other world. Thinking back, how shocking was that!

And the mastermind of all this was standing before him without any consequence, bragging about his achievements and ambitions.

In fact, he was trying to invite him to join his despicable ranks!

Even if this man were killed ten thousand times, it wouldn't be a shame!

All his killing intent locked onto Du Xian at once. Chu Mu had never wanted to kill someone as much as this moment. Or rather, this person wasn't fit to be called "someone" even!!

"What, you want to kill me?" Du Xian felt the palpable killing intent from Chu mu.

He wasn't afraid. Who was he?

He was the Divine Sect Vice Sect Master, one who stood above trillions of humans. He had power and a position that surmounted everyone. He wouldn't be afraid of this dual evil devil man that wasn't even mature!

"You're powerful and have potential, but you aren't my match right now." Du Xian said calmly.

Evil Good Queen glanced at Chu Mu and his killing intent. Du Xian was speaking the truth. Chu Mu couldn't beat a leader rank expert right now.

However, Evil Good Queen also believed that Du Xian would have a hard time trying to kill the two of them.

Since she dared to appear here, she naturally had a plan.

"Do you want to see him explosively angry?" Evil Good Flower Queen whispered to Chu Mu.

"Just tell me what to do." Chu Mu hadn't lost his reason yet.

"Doesn't he want the strongest soul pet in Imprint Valley? We can help him and release the strongest organism in Imprint Valley." Evil Good Queen smiled mischievously.

"What organism?" Chu Mu asked.

“A Berserker King sealed between the third and second layer of the sky, its called Ten Thousand Year Immortal, or Ten Thousand Immortal!”
