

Soul Pets Bk2 1441

Chapter 1441: Hunting Imprint Valley, Holy Light Unicorn!

Divine Sect's back mountain.

Ripples of spatial movement continuously transmitted from another dimension, causing the Divine Sect members defending the back mountain feel waves of indescribable panic.

Many creatures lived in Imprint Valley, especially powerful creatures. Before the world completely collapsed, they would certainly try their hardest to find an exit.

Therefore, there was no need to herd them at all. When the lives of creatures at the low class immortal rank and above were threatened, they would obviously escape along the only spatial passageway to Divine Sect's back mountain and walk right into the trap!

In order to obtain even more high ranking creatures, Sect Master Du gathered a large amount of energy crystals and experts to wait for them in the back mountain.

Escaping through shattered space consumed a huge amount of energy, so even if the creature was of the low class immortal rank or above, they would be drained by the time they escaped Imprint Valley through the spatial passageway. Once they appeared in the back mountain, they would be easily captured by Divine Sect's guards.

As for even stronger middle class immortals, the Divine Sect members would have to use a mass imprisonment. This was mobilized and chanted by ten spirit immortal rank members to form a powerful sealing formation.

Divine Sect's sealing formation was one of the important methods by which they became the arbitrator of the world. Even middle class immortal rank creatures would have difficulty escaping.

“What number?” Qin Guang stood to the side and coldly asked a question.

“The seventh.” the captain of the guard earnestly replied.

There were a total of seven Imprint Valley creatures that had escaped from the spatial passage. These seven creatures were around the low class immortal rank.

Normally, encountering an immortal rank creature in bewildering worlds or forbidden regions was extremely difficult. Who would have expected that seven low class immortal rank creatures would escape from a tiny Imprint Valley in such a short period of time. If Sect Lord Du hadn’t set up the trap beforehand, these seven immortal rank creatures would have brought much trouble to Divine Sect.

If one of them were to escape to the city, it would be difficult to suppress the disaster.

However, Sect Lord Du didn’t really want low class immortal rank creatures. Only middle class or high class immortal ranks would make him satisfied.

Qin Guang was Du Xian’s subordinate. His failure to bring him a Monument Tear was already a dereliction of his duty. Thus, if he failed again this time to capture the creatures that would satisfy Sect Lord Du, Qin Guang would not have a smooth path in the future.

“Ao wu...” suddenly, a terrifying roar rang out from the opened spatial pathway, that caused the surrounding space to crack!

In a normal dimensional plane, spatial cracks would be mended within a short period of time. However, these cracks caused enormous destruction. The abnormal mountains in Divine Sect's back mountain nearly blew apart from the roar!

"It's a big fish!" Qin Guang showed a pleased expression.

The wild aura from the roar illustrated that this was a middle class immortal rank creature!

In the human realm, there were only a few people with middle class immortal rank soul pets. Disregarding the influence held by gate masters, gate masters themselves were only around the middle class immortal rank strength!

And right now there was a middle class immortal rank creature running out. Why wouldn't one be moved?

Space didn't stop trembling. As Imprint Valley was destroyed, the spatial passageway became unsteady and shattered. That middle class immortal rank creature had evidently encountered numerous obstacles and was wantonly charging at the space in an attempt to break free from the destroyed world.

Unfortunately, it didn't know that at the end of the path awaited the culprits behind Imprint Valley's destruction.

"Ao wu... finally, the middle class immortal appeared. It's ostentatious horn was the first thing to charge out of the spatial door, followed by its sun colored mighty head!

When they saw its enormous and mighty head practically occupy the entire spatial door, the scalps of Divine Sect's guards went numb!

These guards were all elite members of Divine Sect, but they had never seen a middle class immortal rank creature like this. Its two golden and fiery eyes carried anger as it stared at them, making them feel as if their bodies weren't listening to them.

"Don't panic, prepare the formation!" loudly said Qin Guang.

"Senior Qin, this... this is a middle class immortal rank Holy Light Unicorn!!" the adjacent Snake Dragon Faction Eminence, Zeng Long, said with a pleased expression.

A middle class immortal rank Holy Light Unicorn. There were probably only a few high ranking holy beasts like this in the entire world. It was unexpected that Imprint Valley hid such a powerful soul pet within. It seemed that Sect Lord Du was going to strike it big!

Zeng Long knew very well that Sect Lord Du Xian had had an immortal teacher under him. This immortal teacher was an unconventional gambit. He didn't use natural treasures to refine xuan items or immortal items. Instead, he used living bodies to refine. Such a refinement method had to be considered superior to using natural treasures. The only unfortunate thing was that it required the killing of a live creature; additionally, it wasn't possible to find this many high ranking creatures everywhere. Nonetheless, Divine Sect's guards had obtained seven low class immortal rank creatures and now were about to obtain a middle class. Ignoring the fact whether they would be able to create a more powerful species fighting beast using blood exchange and mixing blood, purely from refining their bodies, they would be able to create a middle class immortal rank creature!

If they sent people to Imprint Valley to collect spirit treasures and creatures, they would both waste a huge amount of time while also losing a lot of people. Thus, Sect Lord Du just instantly destroyed the few remaining years of life left in Imprint Valley. He then just had to quietly wait here for those high ranking creatures to fall into the trap and he would obtain a huge number of high ranking creatures. There was no plan more perfect and profitable than this.

The Holy Light Unicorn was enormous. Its head managed to occupy the netier spatial door. It resembled an enormous beast stuck in the entrance of a mountain cave. It was strenuously wiggling its body and was going to shatter the mountain.

The spatial door was split apart under the Holy Light Unicorn's powerful strength. After a roar, its body abruptly shot forth. The scorching and dazzling light instantly illuminated Divine Sect's back mountain into a daylight-like brightness!

Divine Sect's guards frantically chanted incantations. Countless golden chains appeared under their feet. These chains were long like iron dragons. As the Holy Light Unicorn charged out, they quickly intertwined and binded the Holy Light Unicorn's four limbs!

The Holy Light Unicorn's body was covered by a holy light armor. It resembled a warrior born from the sun. Even with its four limbs bound, it was still able to move them.

"Wu Ao..." an angry roar rang out. Even if the back mountain was barriered off, the penetrating, terrifying roar still transmitted to Divine Mountain and Zhengming Main City!

"Ding ding ding dang dang dang..." the sealing chains violently collided, releasing metallic sounds.

The Holy Light Unicorn angrily struggled. These long iron dragons that were wrapping around it were shattered by its tyrannic strength and Divine Sect's guards maintaining the formation spat out blood.

"Senior, there are ten guards who have fainted." a Divine Sect Master Official hastily spoke to Qin Guang.

Qin Guang stared at the enormous Holy Light Unicorn, and his expression turned serious.

Middle class immortal rank creatures were indeed formidable. The previous seven creatures were taken under their control without any room to struggle. However, this Holy Light Unicorn was able to forcibly destroy the sealing chains. If it weren't for the numerous formations set up here, the guards probably would be quickly defeated.

“Have Discipline Palace take action.” Qin Guang ordered.

Discipline Palace was a famous faction in Divine Sect. They were chosen from immortal rank experts and only fought for Divine Sect as well as punished criminals. They were Divine SEct's most valiant law enforcement members.

After Qin Guang gave the order, a group of soul pet trainers wearing dark red garb immediately replaced the panicked Divine Sect guards.

Compared to the Divine Sect guards, the dark red discipline members were much more calm and collected. Clearly, they had been through occasions like this before.

The soul pet trainers chanted incantations and quickly, the long iron dragons flew once more into the air, forming numerous and intertwined chains...

The discipline members' soul pets were all the same. They were all Curse Imprint Spirits - the strongest sealing abilities among demons. Thus, even if Divine Sect's formation was unable to fully control the Holy Light Unicorn, then what about a group of immortal rank Curse Imprint Spirits added on top?

The group of Curse Imprint Spirits often worked together to form a formation. When they chanted an incantation, their sealing energy quickly converged together, transforming into an enormous seal that locked the Holy Light Unicorn.

“Wu Ao...” the Holy Light Unicorn wildly roared. Even being surrounded and exhausted by Divine Sect members, it had no intentions of submitting.

The holy beast stubbornly resisted the suppression. Its armor and skin was cracked by the powerful sealing power.

It trembled and swayed, but its body never collapsed!

“Attack!” Qin Guang raised both his hands and gave an order to Divine Sect’s elemental team.

Divine Sect’s elemental experts were standing further away. Once they obtained the order, the soul pets next to them chanted incantations.

The elemental team was mainly comprised of dominator ranks. The leaders of the team were immortal ranks, but on every mountain there was a team of at least 1000 elemental members.

When Qin Guang gave his order, the mountains surrounding the spatial door on the cliff were instantly illuminated by multi colored lights. The air was covered with a smell of destruction that was about to come due to the chanting from the countless dominator rank elementals.

Various colored lights illuminated the sky, lighting up the entire back mountain.

If one were to look down right now from the sky, he or she would be able to see the entirety of Divine Sect's back mountain as well as the numerous and closely packed Divine Sect members gathered

Chapter 1442: Doing Something Crazy

On the northern side of the city.

Sect Master Du Xian watched the back mountain from afar.

He knew that a single middle class immortal rank soul pet had been suppressed, and he couldn't help but faintly smile.

It was time to get rid of these two other human type creatures together. Even if they weren't willing to serve him, he could still refine the blood from their bodies and obtain a huge profit.

"Ao..." the Dragon Chief Devil Eagle stared at Chu Mu and the Evil Good Queen as it let out a dragon cry.

It was going to attack. Chu Mu knew that its strength wasn't inferior to the Chieftain's Deep Sea Demon. In a straight-up clash, they had no chance of winning.

The Evil Good Queen began to chant an incantation. Countless faintly discernible flower wads appeared beside her. These flower wads floated through the air and even if they came into contact with Chu Mu's devil flames, they weren't burned to crisps.

The flower wads formed a translucent flower formation around the Evil Good Queen, Chu Mu, Princess Jinrou, and the Martial Cloud Dragon.

“Come find me.” the Evil Good Queen let out a burst of coquettish laughter.

After speaking, a captivating red light flashed in the flower wads. All of the flower wads suddenly became substantive flower petals gracefully fluttered through the air and captivated people’s eyes.

As they drifted aimlessly through the air, Chu Mu and the Evil Good Queen mysteriously disappeared from their location. Princess Jinrou and the Martial Cloud Dragon on the ground also disappeared.

The flower petals continuously fell. At the end, the only thing left was an empty sky. The Dragon Chief Devil Eagle’s imposing pounce landed on thin air as it proceeded to aimlessly search for its enemies.

Sect Master Du and Gate Master Han showed shocked expressions. They never expected that Flower Queen to have such a strange technique.

“Did they escape using a dimensional space?” Gate Master Han planned on chasing.

But Sect Master Du shook his head. He hadn’t felt any spatial fluctuations. This was the flower type’s “substituting one thing for another”. However, from what Du Xian understood, the “substituting one thing for another” had a very short range. The fact that they instantly disappeared from his range of perception meant that this flower queen had previously set up a huge range “substituting one for another” formation here!

“They thought of an escape path earlier.” Du Xian creased his brows. The Evil Good Queen’s coquettish tone and laughter was still ringing in his ears.

That was definitely a demon immortal rank woman. One look and he wouldn’t forget her. Du Xian believed that with his abilities, he would eventually be able to find them!

“Return to Divine Sect.” Du Xian didn’t hesitate and rode on his Dragon Chief Devil Eagle back to Divine Sect’s back mountain.

Du Xian knew that it would be difficult to keep behind those two other humans right now. He first had to retrieve those stronger creatures from Imprint Valley. When he amassed his strength, who would be able to escape his grasps?

Flower petals were covering his eyes. When the petals slid away, Chu Mu discovered that they were already standing in Guang Moon Palace.

Guang Moon Palace was obviously Yu Suo’s territory. This was a secret room inside. On the secret room were drawn dense and complex diagram lines and symbols. Nonetheless, they seemed to have an intricate and special connection between them. They possessed an unclear charm and magic.

“Du Xian’s strength is among the top in Zhengming Main City. It’s very unwise to fight him head-on right now.” the Evil Good Queen looked Chu Mu.

Chu Mu nodded his head. The black and white devil flames slowly faded as he returned to his original appearance.

“You just said you wanted to release a Ten Thousand Immortal?” asked Chu Mu.

"Yes." the Evil Good Queen nodded her head.

"What are you planning?" Chu Mu knew that the Evil Good Queen was definitely hiding many things from him.

"Although humans follow whatever a leader ranks say, the truth is that there's no genuine leader of humanity." the Evil Good Queen looked at Chu Mu.

"Why," asked Chu Mu.

"Regardless if it's Divine Sect, Elemental Sect, Demon Beast Palace, Wupan Navy, the Mu Family Dynasty, the Ning Family Dynasty, Xuan Gate Immortal Sect, Departed Spirit Palace or even Hidden Pupil Royalty, these faction's strongest people are called leaders. However, humanity itself doesn't have an actual leader because there has never been an undying expert who has appeared amongst humans. There has been no god rank expert either."

"No undying rank?" Chu Mu was stunned.

But carefully thinking about it, if there were an undying rank, why hadn't he heard of this person's name before. Indeed, if there was an undying rank, his or her life span would last ten thousand years or even longer.

"You probably already know of the five great undying legends, right? The truth is that the five great undying legends also represents the five most prosperous species." said the Evil Good Queen.

“These five most prosperous species are the demon species which is led by the Hades Fox Noble Purple Emperor.”

“The ocean species which is led by the Yellow Springs Water Emperor.”

“The ghost species which is led by the Inferno Underworld Emperor.”

“The beast species which is led by the Underworld Abyss Emperor. “

“And the flower species which is led by the Limbo Flower Emperor.”

This was the first time Chu Mu learned about the five great undying legends representing the five most prosperous species.

“There’s no human species.” Princess Jinrou noticed the important point and muttered to herself.

Princess Jinrou’s words were picked up by Chu Mu. There really wasn’t a human species among the five great species!

“Is it because there has never been an undying expert appear among humans?” Chu MU looked at the Evil Good Queen and spoke with a bit of astonishment.

“Yup.” the Evil Good Queen nodded her head and said: “The human species is very strong and is about the same as Eternal Ocean’s ocean species. Unfortunately, it doesn’t have a true legend.”

“Then you want to become the sixth undying legend?” Chu Mu raised his brows as he asked.

“Me?” the Evil Good Queen smiled as she shook her head, “I never thought of doing that. What I want isn’t to become undying. But of course, if I’m able to become an undying, I’ll be very close to what I want.

“Forget it. I don’t want to know what you want. What does any of what you’ve talked about have to do with the Ten Thousand Immortal under Imprint Valley?” said Chu Mu.

“Let me finish. I’m going to ask you a question first. When Imprint Valley was destroyed, what was your state of mind like?” asked the Evil Good Queen.

“I felt that all living things were insignificant.” Chu Mu responded shortly.

All living things were insignificant under the destruction of a world. Practically any form of power was eligible. Even a middle class immortal, high class immortal, or a stronger existence needed to escape to a safer space in order to survive.

“Then what if one day the world we lived in collapsed?” the Evil Good Queen’s eyes flashed.

Chu Mu and Princess Jinrou were both stunned. They looked at each other and didn’t know how to respond.

That was right. What if the world they lived in collapsed like Imprint Valley?

Where would they flee?

“Everything in this world has its own life span. This is impossible to prove because the life span of the world is longer than creatures. The only thing that can prove this is undying rank creatures... because they won’t perish with the world’s destruction. Only they can survive a world’s collapse.” said the Evil Good Queen.

Her words stirred intense waves in Chu Mu’s heart!

Did that mean that the world they lived in was going to face a crisis of collapse?

If their world really collapsed, would they ultimately end up like those pitiful creatures Imprint Valley, swallowed into a black hole of death without anywhere to run?

The undying rank. Was this the undying rank secret the leader ranks were madly chasing after?

“Our world is really going to collapse??” Princess Jinrou cautiously asked.

“I don’t know. It might or it might not.” said the Evil Good Queen.

Chu Mu didn’t dare continue this train of thought. The Evil Good Queen’s words were ostensibly a terrifying reality that would invoke fear in people.

“The truth is in the Monument Tears. No human has lived long enough to answer this question, but Monument Tears record the memories of creatures over multiple generations. What you have in your hands right now is the Seven Sins Fox Light King’s Monument Tear. It was a Monument Tear Individual that lived for a very long time. Examine its memories, and perhaps you’ll learn even more secrets.” said the Evil Good Queen.

Chu Mu was silent. The Seven Sins Fox Light King’s Monument Tear would contain a long story. A long time of solitude and endless training.

Chu Mu suddenly understood why the two Seven Sins Foxes had snuggled up against each other. Even the destruction of the world was unable to shake their hearts because losing all of their species members, family members and loved ones was no different from the world collapsing.

“The Seven Sins Fox Light King wasn’t an unparalleled existence before it bore the shackles of its sins. They had their own old enemy.” continued the Evil Good Queen, “This old enemy didn’t have to bear any shackles.”

“If it was able to become the old enemy of the Light Kings, wouldn’t it be very strong?” said Princess Jinrou.

“Probably. But we’ll soon be able to know exactly how strong.” the Evil Good Queen’s eyes flickered with an intelligent gleam.

Princess Jinrou immediately understood her intentions and said in shock, “You want to release it?”

“Yes. Imprint Valley is the Light King’s territory. Ten thousand years ago, they were driven out of the territory and ultimately sealed underneath Imprint Valley. They are sandwiched in the second layer of the sky’s chaotic space. During the last time I entered Imprint Valley, I incidentally

discovered that this fellow still survived. Therefore, I gave it the name: Ten Thousand Immortal.” said the Evil Good Queen.

Chu Mu glanced at the Princess Jinrou. This woman indeed didn’t use normal logic to think. He thought that the Evil Good Queen had wanted to obtain Imprint Valley’s strongest creature, the Seven Sins Fox. He didn’t expect that she actually wanted to obtain the Light King’s old enemy from ten thousand years ago that was sealed under Imprint Valley!

If it was able to become the Light King’s old enemy, it meant that it once was on the same level as the Light King. If such a creature were released, what kind of a disaster would the entire Zhengming Continent would be swept up in?

“Aren’t you in a bad mood? Then let’s do something crazy.” the Evil Good Queen walked up to Chu Mu until her bright red lips were practically pasted on his face.

The adjacent Princess Jinrou immediately stopped smiling. If this woman was going to talk, she should just talk. Why did she have to get so close to Chu Mu? How loathsome!

Chapter 1443: Imprint Valley Resentment Gathering!

Imprint Valley was in tatters, and countless lives were killed.

Within the endless chaos, there were always occasional spatial storms that could rip those organisms still managing to survive apart.

Spatial storms were massive. Even the largest of organisms seem small in comparison.

Within the turbid storms and flows, a lithe silver-haired organism was carefully walking forth. It had a man in tatters on its back, seemingly hurt.

“Can you find an exit?” Chu Tianmang asked Strange Mane Demon weakly.

It nodded without hesitation. It will find one no matter what!

Chu Tianmang knew Strange Mane Demon’s resolve and lightly caressed its mane.

The Strange Mane Demon had been with him for the longest. Though they were split for many years, they were still the closest.

In the fight with Chieftain, Strange Mane Demon didn’t disappoint Chu Tianmang. In its own territory, it used its spatial control to the maximum and allowed Chu Tianmang to lose the Chieftain in pursuit.

“He must be furious right now, right?” Chu Tianmang imagined the Navy Chieftain’s twisted eagle face and felt happier.

This was the second time Chieftain had attacked him. The first time, he managed to escape. This second time, he still escaped after fighting head-on. This was a heavy blow to a Leader Rank Expert’s pride.

“Bu~~~ Bu~~~~~”

Strange Mane Demon let out a call to tell Chu Tianmang something.

Chu Tianmang lowered his head and stared into the endless darkness!

“You’re saying there’s a strange diagram below us?” Chu Tianmang asked.

Strange Mane Demon nodded his head and let out a sound.

Chu Tianmang released his senses and found an incredibly dense collection of evil aura collected below!!

The evil aura included killing aura, death aura, resentment aura, anger auras.....

Chu Tianmang himself was a Dark Sect member and killed countless people. He could clearly distinguish between the different evils and found that resentment was at the forefront of the elements.

“Why is there so much resentment gathered here?” Chu Tianmang was surprised.

The entire Imprint Valley’s collapse would cause countless organisms to die. It was like a huge burial ground now, so resentment isn’t a strange thing to see.

However, the resentment should be spread evenly throughout instead of all gathering here and creating an outright massive resentment cloud!

“Is it because of that strange formation?” Chu Tianmang looked down and vaguely saw a diagram within the darkness and resentment.

It was this diagram that was gathering all the resentment.

But where did this diagram come from? Did it always exist in Imprint valley or did someone create it later?

“Bu~~~ Bu~~~~”

Strange Mane Demon let out a call once again to tell Chu Tianmang that under the strange diagram was a spatial hole. This hole could possibly lead them to the second layer of sky.

Chu Tianmang was overjoyed. They’ve been trapped in the chaos for some time now. His strange mane demon couldn’t stay in the chaos forever. If they didn’t find an exit, he definitely was going to perish here.

And finding the spatial hole was akin to chu Tianmang seeing the hope of living again.

However, Chu Tianmang didn’t dare to fly down right now. The massive diagram was absorbing all the resentment of the entire Imprint Valley. The souls and ghosts within the near solid resentment was enough to rip Chu Tianmang and his strange Mane Demon into pieces.

After watching quietly for a while, Chu Tianmang found that the resentment was getting stronger and stronger. If anyone could absorb all this energy, it would indubitably create a world-shattering resentment devil. It was hard to imagine who had the power to create such a terrifying diagram within Imprint Valley!

.....

To the west of the Divine Sect back mountains was a group of even more complicated mountains and valleys.

When the Divine Sect army stood guard in the back mountain, no one noticed that at this western mountain, another group of people appeared.

This group of people were sitting in a flat valley that seemed like the entrance to a volcano. All four sides were obstructed by barrier like mountains.

Where they sat, a massive diagram was drawn. This diagram had all sorts of strange symbols that seemed unrelated but somehow were connected.

Everyone in the diagram had their eyes closed as if in meditation.

Each one of them held a crystal full of energy and were using their remembrance to guide the energy into the diagram.

These special diagrams usually needed people to guide them because the diagrams couldn't absorb energy themselves. And, without energy, they couldn't function properly.

Aside the diagram, a tight robed woman with her hair braided up stood there. Though she didn't know what the diagram did, she knew that if the master told her to do it, she must have important use of it.

A blood red demon flower appeared beside the lady. The petals opened slowly to reveal an alluring woman and her mesmerizing scent.

Beside the demon flower, a sprout of black and white devil flames burned, creating a cold and handsome man.

“Master.” Lady Gao was slightly taken aback before quickly bowing down to her two masters.

“How is it going?” Evil Good Queen looked at the diagram and asked.

“Almost done, the concentration of fo resentment is very high!” Lady Gao replied.

Evil Good Queen nodded. Seeing Chu Mu’s questioning, she said to him with renewed vigor in her eyes, “This is the mother diagram of a set of two diagrams. This one is providing energy to the other diagram, which is a Resentment Gathering Diagram, able to absorb all the resentment in a certain region.

“The other one is in Imprint Valley?” Chu Mu quickly understood the Evil Good Queen’s intentions.

“Very smart.” Evil Good Queen praised flirtatiously and continued, “The death of Imprint Valley and its countless organisms creates an unimaginable amount of resentment. If we could collect it all.....”

“I’m starting to think you destroyed the Imprint Valley.” Chu Mu said.

Chu Mu knew that Evil Good Queen didn't do it. She was simply using Du Xian's ambition to reach her own goals. Even Sect Master Du Xian probably didn't expect him to be a piece used in the plans of a woman.

"My master, do you think I'm smart?" Evil Good Queen smiled.

"En." Chu Mu nodded. Chu Mu loved this plan because both him and Evil Good Queen viewed evil auras as their best nourishment!

Evil Good Queen blinked a few times in surprise.

She thought that with Chu Mu's disgust of her, he would reply with something along the lines of "treacherous" or "crafty". It's rare that this man agrees with her smarts.

Thinking about it closely, Evil Good Queen seemed to understand something and smiled slightly.

Chapter 1444: Roar that Transcends Dimensions!

Using the resentment of countless Imprint Valley organisms as energy for the flower soul diagram, even the Ten Thousand Immortal won't be able to escape from Yu Suo's control.

Using one's plan against themselves. Evil Good Queen's plan gave Chu Mu a place to vent his anger and irritation.

Once he was in a bad mood, his desire for destruction was higher. Chu Mu wouldn't mind the Evil Good Queen using the Ten Thousand Immortal to create some disasters for Divine Sect's Du Xian.

Evil Good Queen couldn't finish this mission by herself. Though she could use the flower soul diagram to control the Ten Thousand Immortal, if she couldn't create a spatial tunnel, it will ultimately be trapped in the collapsing chaotic space.

And only an other type organism was able to create a special tunnel in a well-secured space.

“As long as you use your spatial powers to create a path for it, rip a tiny crack in the space, and with its powers, it can transcend the dimensions.” Evil Good Queen said.

Chu Mu nodded. He knew what he had to do.

.....

In the back mountain of Divine Sect, even with all its barriers protecting it, the region still shook greatly. Even Zhengming Main City Guards entered an alert state to prevent accidents.

Thankfully, because of the hierarchy is Zhengming Main City, most of the people were experts and so no one was too scared. They had blind faith in Divine Sect. They felt that as long as Divine Sect was guarding it, Zhengming Main City was the safest place in the world.

The tidy ranks of Divine Sect Army kept their incredibly strict fighting style. Under their terrifying attacks, even the middle class immortal rank Holy Light Unicorn was subdued.

The Divine Sect army was split in units of thousand dominator ranks. Combining this power, it was enough to deal damage to middle class immortal rank. With the many thousand dominator rank

armies covering the nearby mountains, it was enough to cause a lethal blow to middle class immortal rank.

Holy Light Unicorn was restricted, and couldn't dodge at all. After sustaining countless elemental techniques, it finally fell over and collapsed, covered in wounds.

Soon after, more immortal rank Imprint Valley organism escaping fell into the trap. The powerful ones could create a commotion in the Divine Sect back mountain and fight against Divine Sect's army resiliently. The weaker ones were directly sealed and sent into Divine Sect's sacred tower.

Countless special soul pets and high blood lineage organisms were taken down.

The organisms controlled by Divine Sect was only a small portion of the powerful immortal rank organisms within the Valley. One could only imagine how powerful it would be if the entire Imprint Valley's organisms gathered together.

"Thirty low class immortal ranks, four middle class immortal ranks, one high class immortal rank...." Divine Sect Du Xian rubbed his beard and nodded in satisfaction.

The four middle class immortal rank were the Holy Light Unicorn, the Light Phoenix, Sky King Scorpion, and Fertile Imprint Beast. They were all naturally immortal rank organisms, making them similar to the level of Hades and Yellow Spring. These organisms were often impossible to find, yet they found four in this Imprint Valley Collapse. This caused the divine sect guards and officials to all be especially excited.

If they were young soul pets, it would be even better. A simple soul pact and they would have be immortal rank experts after raising it to tenth phase.

The high class immortal rank organism was even more impressive. It was the famous Crowned Sun Lord!!

Crowned Sun Lord was a light type organism with extremely powerful blood lineage. The entire human realm only has one person that owns a Crowned Sun Lord, and it was a mysterious wanderer.

Sun Lord is the representative of light type organisms. It was an elemental organism but had the shape of a beast. It looked like a mighty lion that was born from the flames of the sun. It was the bringer of flames, light, and sun!

The middle class immortal rank Holy Light Unicorn already caused much trouble for the entire army. This Crowned Sun Lord was even more dominant, almost destroying the Divine Sect back mountain along with all the barriers.

Once the barriers were gone, a high class immortal rank organism could easily wipe out the Divine Mountains!

Even with the entire Discipline Palace army here along with Magistrates and even Sect Master Du, the army still suffered great losses. Countless people fell down under the terror of the Crowned Sun Lord's attacks, losing their minds.

Seeing the heavy losses, Du Xian finally intervened.

On one hand, Du Xian had to subdue the Crowned Sun Lord, but on the other hand, he had to control the energy from reaching other areas of Divine Sect. Even a Sect Master couldn't control the situation easily and experts kept on dying.

Finally, Du Xin had to use a large amount of immortal rank gemstones and activated the strongest Divine Sect sealing diagram to finally subdue the Crowned Sun Lord's aura!

It was indeed powerful. It was like a shark gone berserk in the ocean. Though it was caught, it still created massive waves of power near it.

In its eyes, the Divine Sect's army was just a small fishing boat that had caught it. Anytime, a tide could capsize the boat and kill everyone in it.

After the Crowned Sun Lord's struggle, the entire back mountain of Divine Sect became a ruin and was flattened. The army was also in a scattered formation. The originally proud divine sect guards were also all like lost soldiers, losing their previously resolute morale.

It wasn't because the Divine Sect army had a weak resolve. The high class immortal rank organism was simply too much for them. When a shark was struggling in an ocean, minuscule fishing boats like them were simply too insignificant!

"We lost quite a few people, but it's still in an acceptable range." Gate Master Han watched as the magistrates and Discipline Palace people sealed the Crowned Sun Lord into the sacred tower and nodded.

Du Xian on the surface was warmly asking his soldiers about their wounds and caring. However, in reality, he was incredibly happy right now. He originally thought that capturing a middle class immortal rank was already a great harvest. However, he even got a high class immortal rank organism. The Crowned Sun Lord must have laid hidden for countless years. He had never noticed it and only found out that such a strong high class immortal rank existed when the world collapsed!

“The Crowned Sun Lord should be the strongest organism within Imprint Valley and we’ve caught it. Everything we’ve done before is worth it.” Du Xian said with mental voice to Gate Master Han.

“Sect Master Du is wise. We never would have been able to think of such a brilliant plan.” Gate Master Han flattered.

“I’m tired, you can handle the rest. There shouldn’t be many issues, right?” Du Xian said back.

Facing the Crowned Sun Lord cost him quite a bit of stamina. His Dragon Head Devil Eagle needed rest.

“Sect Master shouldn’t worry.” Gate Master Han nodded.

Sect Master Du Xian nodded, and stepped towards the training grounds.

However, just as he took a few steps, the Divine Sect Du Xian suddenly stopped in his steps and furrowed his brows.

“Sect Master, any other commands?” Gate Master Han said respectfully.

“There’s a strange aura.” Sect Master Du turned around and stared tightly at the tattered spatial door.

Because countless powerful organisms were coming out of the spatial door, it was already full of holes. It wouldn’t be long before the spatial door will collapse as well

The reason Sect Master Du stopped was because he felt a strange vibration in the spatial door. This vibration wasn't like a powerful organism coming through. It was more like an organism that excelled in space manipulation was creating an opening within.

“Me!!!!!!!!!!!!!!!!!!!!!!!!!!!!”

Suddenly, a roar shocked through the spatial tunnel-like millions of beasts pouncing forth!

The entire divine sect back mountain, the entire Zhengming Main City, the ground and all the skies around were filled with this roar!!

Outside the spatial door, the vigilant Divine Sect guards couldn't even put up a defense before they were sent flying by this roar along with their soul pets!

These elites were like insignificant ants that couldn't take a single hit. They were thrown into the sky and slammed into the barrier by this roar.

Blood sprayed everywhere. Even immortal rank soul pets were dizzied and started vomiting blood!

Gate Master Han was also dazed. When the roar reached him, he instantly turned pale.

What organism was this, able to cause a hundred Divine Sect elites to be heavily wounded with just a roar? One has to know that these hundred elites handled even the middle class immortal rank Light Phoenix!

The roar remained for a long time, sending the city into a strange silence.

The roar seemed to come from extremely far away, yet it pierced through countless dimensions and arrived at this fragile human dimension. Its power was heart shaking. Even without seeing its physical form, the thousands of elites guarding the back mountain felt immensely uneasy!

“This.... This is..... This....” Sect Master Du stood there dumbfounded, his eyes full of shock and disbelief

Able to create such emotions in a Leader Rank Expert, one could imagine how powerful the owner of this roar was!!

“Sect Master Du..... what organism is this?” Sect Master Du quickly asked.

Du Xian shook his head. Even the strongest Crowned Sun Lord was taken down by them. How could there be a stronger organism?

After a while, Du Xian clearly felt the spatial door slowly shattering. This was when his expression finally shifted completely and he quickly yelled to Gate Master Han, “Quick, go get Xiao Xueang and Sect Master Xiao!”

Gate Master Han was dazed, could it be that this roaring organism can’t be handled by even a leader rank expert like Du Xian?

“Wait, call Tang Ang, Immortal School Sect Master, to come as well, and be as fast as possible!!” Du Xian said with panicked anger.

Chapter 1445: The Creature That Controls Solar Eclipse

Gate Master Han was at a loss.

Xiao Xueang and Sect Master Xiao were both the two great leaders of Divine Sect. It was not that their strength had surpassed that of Vice Sect Master Du Xian, but they were definitely not inferior to him in any way.

Meanwhile, Tang Ang was similarly a leader rank character. In addition to Xuan Gate Immortal School’s old sect master, Du Xian had requested five leader rank experts to gather here this time.

Isn’t this a little exaggerated? Han Yan thought so in his mind.

The number of creatures that would require the leader rank individuals to make a move themselves are extremely limited. How can there be a creature that would actually require five leader rank experts to cooperate?

Han Yan had his own thoughts on this matter, but he still followed the intention of Vice Sect Master Du Xian regardless, personally going to invite Xiao Xueang and Sect Master Xiao. Meanwhile, he sent his subordinates to go and invite the others.

After Han Yan left, Vice Sect Master Du Xian’s expression turned grim instantly. He could sense that the other side of the spatial passage was rapidly exploding. Even the Crowned Sun Lord did not possess such crazy tyrannical strength. Just what kind of creature was being forced to show up from the Imprint Valley this time?

“Deploy the formation!” ordered Du Xian immediately.

There were a total of ten phalanxes present, consisting of a total ten thousand Divine Sect experts. Three phalanxes began chanting an incantation simultaneously and summoned out their standard Curse Demons.

The Curse Demon was an outstanding race known for its sealing ability amongst the demon type. After three thousand Dominator rank Curse Demons were summoned at the same time, countless pairs of deep blue eyes dotted the entire chaotic mountain, as if dazzling glitters had suddenly bloomed.

All of the Curse Demons began chanting simultaneously. Blue light rays shot into the sky. The sky transformed into a canvas and allowed those blue paint brushes to draw a huge diagram on it!

Light rays continuously criss crossed each other and a majestic blue barrier shrouded in the sky of the back mountains. The sharp lines and the light pillars were like threads and cages made for imprisonment, giving off an overwhelming pressure!

“Vice Sect Master, why are you deploying such a large formation? Is another creature on the level of that Crowned Sun Lord going to show up?” asked Qin Guang as he raised his head to watch the grand formation that was created by three thousand Curse Demons.

Du Xian did not answer him. While his expression was still grim, he was also very excited.

Du Xian could sense that there was a never encountered before powerful creature. It was clearly stronger than the Crowned Sun Lord, stronger than almost all the creatures that Du Xian had encountered before!

If he could obtain that creature, then nobody would be qualified enough to compete for the position of the Divine Sect's Great Sect Master with him anymore.

This was definitely going to be an unexpected yet exciting harvest. However, Du Xian also knew that this creature which could explode the spatial passage was extremely strong. He had to prepare the best defense against it!

Bam! Bam! Bam!

The space began trembling violently, some shards of the broken space swarmed out from the passage.

Nobody dared to stand close to the spatial passage anymore. They backed off to the surroundings in a hurry and stood outside the dark blue barrier.

The three thousand Curse Demon barrier had started shaking. Those serious-looking Divine Sect guards and the Discipline Palace members were holding their breath and staring intently at the spatial passage without blinking an eye.

The damage that the Crowned Sun Lord had caused had already left a deep impression within them. Now, an even stronger soul pet was going to be appearing before them, there was no way they could calm down knowing that.

Crack crack crack~!

Like cracks forming on the surface of a glacier, the surface of the spatial passage began cracking. Everyone knew that the soul pet was approaching!

Huhuhuhuhu!

Dark wind currents surged out crazily from the spatial passage, chilling cold gusts of wind blew past everyone's face. A soul-chilling coldness spread throughout their bodies.

It was dawn, the rising sun was showering the land with its light.

However, for some reason, the light was gradually dimming. The land was returning to darkness. When they raised their heads, they could see that the red rising sun slowly getting covered by darkness, gradually waning.

"So..... Solar Eclipse!" Qin Guang raised his head and stared at the sky in complete shock.

Moon Tide, Solar Eclipse, they were naturally the most significant interchanging laws in the world.

Moon Tide represented the revival of all creations. Once Moon Tide takes place, the entire soul pet world would be in a state of a rapid population boom.

Solar Eclipse represented the devastation and withering of all life. After Solar Eclipse takes place, plagues would spread rapidly and disasters would sweep the entire land. During the darkest periods, it might even be possible for all the races to go extinct.

Humans could deduce the pattern of the sun and the moon. They could accurately predict when the Solar Eclipse would occur. However, when the real Solar Eclipse suddenly occurs, when the bright day completely falls into darkness, nobody could endure the fear of the unknown!

More importantly, nobody could have expected that the Solar Eclipse would occur because of the arrival of a creature!

When the entire city fell into panic due to the endless darkness, the space at the back mountain of Divine Sect trembled violently!

Bam!

Finally, the spatial gate exploded!

An enormous black figure descended from it like a demon lord. Everyone at the scene did not dare to look away, but nobody could tell what the creature that had appeared was exactly!

The eyes that seemed to embody the deep dark night contained within them cruelty, rage and disdain similar to a ruler.

This was the natural aura of a lord and the dark tyranny that it was born with!

Its aura alone controlled the rising sun and devoured the light bit by bit. This tyrannical darkness turned the bright sun into a black plate allowing the darkness of death, fear and apocalypse to shroud the entire land!

The city had turned pitch black. Everyone in the back mountain of Divine Sect seemed to have lost their sense of sight. They could not see a trace of light within the dense darkness, let alone getting a glimpse of the outline of that creature!

“Don’t panic, maintain the barrier!” shouted Du Xian at everyone with his mental voice at that moment.

Darkness and the unknown were the easiest factors when it came to breaking a person’s mind. Although Du Xian reminded all the Divine Sect members using a loud voice, even he himself was stupefied despite being a human leader!

What kind of creature is this? How can it control the sun and change light into darkness at will?

Vice Sect Master Du Xian did not know that it was not only Zhengming Main City that had fallen into darkness, but rather countless cities on Zhengming Continent had also experienced the same thing!

.....

In a palace supported by chains on the Divine Mountain.

The Divine Mountain was constantly being bathed in holy radiance. However, once that creature descended, the holy radiance had completely disappeared. Only feeble light dots could be seen within the darkness now.

The Divine Sect Magistrate stood on the roof of the Divine Sect Palace alone. He wore a long white coat. When the dark wind blew over, his coat fluttered freely in the air.

He raised his head and gazed quietly at the darkness befalling this land.

“Is this fated, or simply a coincidence?” A woman’s voice muttered, soft and pleasing just like a tune.

Xiao Xueang looked to the side and stared at the woman in purple attire who had appeared unknowingly. Her actions were always unfathomable, even Xiao Xueang could not sense her.

“Perhaps both. Since the Solar Eclipse has arrived earlier, The Magistrate Palace is naturally prepared to fight,” replied Xiao Xueang with a stern tone.

“You truly regard the world as your responsibility. Disaster and plague will spread throughout the entire Zhengming Continent and Wupan Continent. No matter how powerful the Divine Sect is, just how many can you quell in the end?” said that woman.

“Until it all settles down,” said Xiao Xueang.

“Why are you trying to bear the consequences of the evil deeds done by others?” asked the woman.

“You Hidden Pupil Royalty don't want to bear the burden, so us Divine Sect will naturally be the one to bear it,” replied Xiao Xueang.

“But the Divine Sect is also conducting an evil deed. Isn’t this Imprint Valley disaster conspired by someone in the first place? If not for him destroying the Imprint Valley, how would the Solar Eclipse occur ahead of time?” said the purple-clothed woman.

Xiao Xueang did not answer. Divine Sect was not his alone. Divine Sect inherited the most noble will and possessed the most authoritative position. He believed that every person who entered the Divine Sect possessed a heart that was aligned to Divine Sect. However, human hearts would easily become twisted eventually. Du Xian was a respected powerful individual in the past. He had saved countless lives, but in the end he was unable to overcome the fear of death. Under the threat to his lifespan, he chose to fall into deprivation himself.

“This is a mini Solar Eclipse,” said the woman solemnly.

“I know,” Xiao Xueang nodded.

Mini Solar Eclipse was the sign indicating that the Solar Eclipse would be arriving soon. Just like smaller waves sweeping onto the shore before the arrival of a large wave, once the small Solar Eclipse occurred, it meant that the real Solar Eclipse would be arriving very soon.

Solar Eclipse was a natural law, it was unshakable. However, a mini Solar Eclipse could manifest due to the birth or descent of some creatures. What kind of creature could trigger a mini Solar Eclipse?

Perhaps, nobody could truly see the full appearance of that creature within this darkness!

“Be careful, it’s really strong. Even after being sealed for ten thousand years, it still possesses a bloodline that is one of the most battle hardened ones,” warned the woman.

Xiao Xueang nodded. This was a disaster that was caused by others, but as the highest Magistrate of Divine Sect, he had to make a move. Otherwise, once the Divine Sect was flattened, Zhengming Main City would also be doomed!

Perhaps because of possessing a natural born tenacious fighting spirit, Xiao Xueang did not feel fear when he was facing a darkness creature which could trigger a Solar Eclipse, instead he could only feel that his blood was madly boiling!

As the number one fighter of Divine Sect, Xiao Xueang could not remember just how many years it had been since he had last used his full strength in a fight!

The woman could not understand why Xiao Xueang would take responsibility for the entire Divine Sect or clean up the mess of others. Actually, Xiao Xueang didn't really mind using that as an excuse to fight.

He was not a hideous and evil person, he did not become depraved due to that desire. However, he was also not filled with a stubborn sense of justice, the only true stubbornness he possessed was his constantly burning fighting spirit!

And to allow his fighting spirit to feel satisfied, the best method was to extinguish any and all conflicts under the name of Divine Sect!

Chapter 1446: White Dragon, The Strongest Magistrate

Mu City.

“What’s going on here?” Tang Ang rode on a spectral type creature and quickly flew up into the sky above the city. He looked in the direction of the Divine Sect back mountain.

“I don’t know. I only followed the order to invite Lord Tang over, this is the intention of Vice Sect Master Du,” replied the Discipline member of Divine Sect.

Tang Ang was filled with suspicion. He more or less knew about Du Xian’s plan. However, he did not plan to participate in it. Although this Divine Sect Discipline member did not explain anything to him, he had already guessed that perhaps Du Xian had made a blunder at the Imprint Valley.

The Imprint Valley belonged to the third layer of heaven. There should have been many powerful ancient creatures hidden in there. A tiny blunder could bring forth a terrifying disaster to Zhengming City.

Right now, it was clear that an extremely powerful darkness creature had appeared from the Imprint Valley. Even the sun was being manipulated by the darkness, this was an utterly astonishing situation that nobody had witnessed before over the centuries.

.....

Divine Sect back mountain, three thousand Curse Demon barrier. This was one of the grandest diagram formations that the Divine Sect possessed. It had been many years since it had last been used.

Originally, Divine Sect members had nothing to worry about with this formation in place.

However, for some reason, the three thousand Curse Demon formation looked like a simple net that could break any moment, causing the Divine Sect members to shake with fear and panic.

Suddenly, that creature within the dense darkness started moving.

Its speed was extremely quick. Some people saw countless black shadows leaping around, and streaks of cold claw flashes slid throughout the three thousand Curse Demon barrier!

Pzzt!

Countless cracks spread out on the three thousand Curse Demon barrier. Next, intense dark energy started gushing out from the cracks!

The rampaging storm looked just like a tall wave, or a ten thousand beast stampede to be more accurate. The sound was deafening, and the darkness rushed through ferociously. The cracked barrier instantly turned tattered.

Dark wind currents, dark waves and dark rain hit the three thousand Curse Demons who were attempting to maintain the barrier.

The Curse Demons were as weak as seedlings in front of a storm, easily swept up into the sky.

Not a single one of the three thousand Curse Demons was spared. Each gust of the dark demonic wind and the rampaging dark current would sweep up dozens or hundreds of Curse Demons.

In the sky, those Curse Demons were getting dissolved mysteriously!

No blood dripped down at all, no corpse fell, the corrosion of darkness directly wiped them clean from the world!

Silence dominated the entire Divine Sect back mountain. Once the three thousand Curse Demon barrier disappeared, everyone was going to be directly exposed to that horrifying darkness creature. What was even more horrifying was that out of the three thousand Curse Demons, only less than a hundred had survived after that wave of dark energy swept past!

Nearly three thousand Dominator rank demons were killed in an instant. The empty space that opened up after the Curse Demons were wiped out looked utterly terrifying!

This group of Curse Demons played a key role when taking on the Crowned Sun Lord. However, they were too feeble before this darkness creature!

The entire Divine Sect army in the back mountain was frightened. The army's average strength was at Dominator rank. Only some generals and leaders were at Immortal rank. They realized that they were utterly insignificant before the truly powerful creatures, no matter how many of them there were, this was made clear after experiencing the power of the Crowned Sun Lord.

Right now, an even more powerful creature had appeared before them. The strongest barrier they had was easily torn apart, everyone had lost the most fundamental level of security of their lives!

"Vice Sect Master..... Vice Sect Master!" Qin Guang was so scared that he stuttered his words. Divine Sect's three thousand Curse Demon barrier had never failed before. They had even managed to take down a high class Immortal rank Crowned Sun Lord. However, who could have imagined that those three thousand Curse Demons would be killed this easily?

Since it could instantly kill three thousand Dominator rank demons, then its strength was definitely enough to wipe out any Immortal rank in this place. It would not be an exaggeration to say that if they could not contain this creature, then the entire Divine Mountain and Zhengming Main City could be flattened by it!

Du Xian gritted his teeth in frustration. He also had never imagined that the three thousand Curse Demon barrier would fail.

Now, Du Xian had no choice but to make a move. If he did not, then a single technique from that darkness creature falling directly into the Divine Sect army would lead to another terrifying disaster!

“Qin Guang, convey my order to everyone, tell them to activate the Divine Formation!” Du Xian knew the severity of this matter and hurriedly passed down the next order.

Qin Guang did not dare to treat this matter lightly either and rushed towards the Divine Mountain.

After ascending into the sky, Qin Guang kept looking back regularly, afraid of getting targeted by that pair of terrifying eyes.

He believed that if that creature wanted to kill him, then just a single technique from it could turn him into ashes!

Vice Sect Master Du Xian was growing anxious. Why hasn't that Xiao Xueang appeared yet, is he purposely letting my people die?

The people who were responsible for setting up the trap at this back mountain were all Du Xian's men. If there were too many casualties, then the Divine Sect would be dominated by Xiao Xueang and Sect Master Xiao.

Seeing that the creature about to charge into the army and begin a massacre, Du Xian could no longer sit back anymore. He rode his Dragon Head Devil Eagle to stall it first.

“Yi!”

Dragon Head Devil Eagle chirped to provoke it. Its powerful wings slid close to the ground and turned into a deathly blade, dancing rapidly within the darkness.

That darkness creature noticed the interference of Dragon Head Devil Eagle. A merciless pair of eyes filled with evil power gazed at Dragon Head Devil Eagle cruelly.

“Bam!”

A dark dragon zoomed out. No matter how flurry the Dragon Head Devil Eagle’s technique was, that dark dragon accurately whipped at Dragon Head Devil Eagle’s body. Dragon Head Devil Eagle’s death blade did not touch the opponent’s body and it was instead countered by that dark dragon!

Dragon Head Devil Eagle tumbled for a long distance before it was able to fix its stance. A large number of its dragon feathers were scattered everywhere along the way. This strike had clearly broken through Dragon Head Devil Eagle’s defenses!

Dragon Head Devil Eagle was a high class Immortal rank creature, it was a near invincible existence in the entire Zhengming Main City. People hardly had a chance to see the Dragon Head Devil Eagle truly attacking. Usually, just a chirp from it was enough to make the enemy kneel in submission.

One would not really know the true strength of Vice Sect Master Du Xian's Dragon Head Devil Eagle without staying in Divine Sect for a long time. However, before that Imprint Valley darkness creature, the Dragon Head Devil Eagle was completely suppressed. The difference in strength could be easily seen from the first clash itself!

Of course, it was not like Dragon Head Devil Eagle did not gain anything from that short clash. At least now Du Xian knew what creature it was that could control the sun!

"Vice Sect Master, the Light Seal Formation is ready," The Master Official of Discipline Palace immediately reported using mental voice.

"Trap it!" ordered Du Xian.

The moment the order was transmitted, holy light suddenly shone brightly within the Divine Sect army that was deployed in different positions. Beams of golden light pillars shot towards the sky into the darkness.

Countless blinking sigils and seals flashed brightly in between the light pillars. They were like light fairies as they danced around that darkness creature!

Light Imprisonment. This was a technique that most light type creatures could use. When thousands of light type creatures used Light Imprisonment simultaneously, the majestic light pillars, the lingering imprisonment sigils, the binding light rays and the various diagrams created a stunning Light Imprisonment Palace!

Golden light rays stood erect within the Imprisonment Palace in the darkness, shrouding everything above the head of that darkness creature!

The Imprisonment Palace descended, it looked as if a heavenly palace was slamming down from the sky and decisively sealing the evil of the world!

Holy light radiated brilliantly. The entire Zhengming Main City finally regained some brightness. Even the devoured sun was gradually peeling off the layer of shadow that covered it.

When facing darkness creatures, using light was the clearly the most effective option. Seeing the humongous Light Seal Formation finally suppressing that evil creature, the entire Divine Sect army and those leaders heaved a sigh of relief.

If the enemy that even their Vice Sect Master, who was the strongest person present, could not handle, were to charge straight into their army, then just how many people could have survived?

“White Dragon!”

Someone exclaimed and everyone looked up simultaneously. They suddenly realized that a fully grown white dragon swam past them and had majestically appeared in the sky!

The White Dragon was covered in scales, its long and robust body gave off a savage feeling.

On the ground, the Snake Dragon Faction's Eminence Zeng Long also raised his head and stared intently at that tyrannical White Dragon in utter shock.

White Dragon looked just like a snake dragon, but it was definitely not the same. It did not possess the allure and the feebleness of a snake dragon, it only possessed true unparalleled tyranny.

Compared to that White Dragon, Zeng Long's golden snake dragon was clearly way too insignificant!

"Magistrate Xiao is here!"

"Magistrate Xiao!"

Someone from the Divine Sect army suddenly called out Magistrate Xiao's name.

This was a form of glory, only one person enjoyed such respect within the entire Divine Sect. Be it from the faction of Du Xian or the other Vice Sect Masters, there was only one Magistrate in the eyes of the Divine Sect members, it was none other than Xiao Xueang!

Young, powerful, righteous, merciless, this was indeed a heroic character of Divine Sect!

The appearance of White Dragon had acted as a confidence booster to the collapsing Divine Sect army. Everyone knew that if Xiao Xueang made a move, then there would be no enemy that could not be defeated by him. Be it the Darkness Sect's infamous Holy Ghost, or Yellow Sky Beast, the roof of the world, they were all eventually defeated by the strongest Magistrate of Divine Sect!

Du Xian raised his head and looked at White Dragon that was drawing a wild curve in the sky, then he looked at his subordinates who were now worshipping that Magistrate over him, and some other emotions started manifesting within his heart.

Those people were his subordinates, they should clearly be worshipping him above anyone else. However, once Xiao Xueang appeared, those people seemed to have completely forgotten who the Vice Sect Master here was.

This feeling caused Du Xian to feel extremely annoyed. He had yet to age, he had not yet been disqualified by this era!

“One day, all of you will bow before me!” Du Xian looked at Xiao Xueang, with grudge and rage mixed within his eyes!

Chapter 1447: Seven Sins Fox, Dark Death King!

White Dragon had descended and the white-robed Xiao Xueang also landed in front of Vice Sect Master Du Xian.

The two of them clearly belonged to two completely different factions within the Divine Sect. Xiao Xueang knew about Du Xian’s ambitions, so they were never harmonious with each other.

However, the current matter involved the safety of the entire Divine Sect and Zhengming Main City as a whole. They had to work together to resolve this matter even if they were on poor terms with each other. Otherwise, nobody could guarantee whether that darkness creature would not lay waste to the Divine Sect.

“Do you know what that is?” asked Xiao Xueang after taking a glance at Du Xian.

There was no clue to prove that the destruction of the Imprint Valley was instigated by Du Xian. Du Xian’s official stance in making so many arrangements in the back mountain was in order to prevent powerful creatures from the Imprint Valley from invading into Zhengming Main City. Although many people knew that it was Du Xian’s conspiracy, they could not do anything against it. They could not simply let the Imprint Valley creatures rampage freely in the Divine Mountain and Zhengming Main City just because the Imprint Valley had already collapsed.

“I only caught a glimpse of it,” Du Xian already knew what creature it was, but he did not intend to tell Xiao Xueang, simply to cause trouble for Xiao Xueang.

Aren't you being worshipped by so many people? Let me see just how you handle this creature which can trigger a mini Solar Eclipse!

Xiao Xueang did not make his move right away. The Holy Light Palace had currently imprisoned that darkness creature. The longer it was imprisoned, the weaker it would become.

“The Imprint Valley is the territory of the Seven Sins Fox Light King, yet a creature which can trigger a mini Solar Eclipse has appeared from there. There should only be a few darkness type creatures which have such capability,” At that moment, a purple-robed woman who had come along with Xiao Xueang spoke up.

“Yes, it may be a Dark Devil Lord that had been hiding for an unknown number of years,” Xiao Xueang nodded.

The woman shook her head and corrected, “The Imprint Valley has existed for a long time. The sealed land had caused them to be unable to reproduce non-stop like us. The Dark Devil Lord is a darkness creature that had risen up to the spotlight in the last few millennia. Meanwhile, in actuality there is an even stronger darkness creature before the Dark Devil Lord.....”

When the woman reached this point, the earth suddenly started trembling. Everyone could clearly see that the palace that was generated by holy light had begun shaking violently!

Black particles started seeping out of the Imprisonment Palace, and another powerful dark energy swept out again!

The Imprisonment Palace was a nigh unbreakable jail collectively created by two thousand soul pet trainers using Light Gemstones, soul remembrance and their light type soul pets. When the entire Imprisonment Palace shook, this darkness backlash had impacted all of the two thousand soul pet trainers and their light type soul pets.

“Tell them to stop now. This backlash will erode their minds directly!” The woman immediately told Du Xian.

“They can still hold up for a while longer,” replied Vice Sect Master Du Xian.

The palace was not completely destroyed yet. When facing such a powerful creature, the longer the imprisonment and weakening period lasted, the more advantage they would gain later.

“No, tell them to stop right now,” repeated the woman resolutely.

Du Xian hesitated for a moment, but still raised his hand to signal the Punishment Palace soul pet trainers to abandon the Imprisonment Palace.

Certainly, the soul pet trainers had already started feeling uncomfortable. The darkness aura had caused their breathing to become difficult and their minds to become hazy. If they continued suffering the darkness backlash, then they would soon turn into mindless husks.

“Huhuhuhuhu!”

The palace slowly vanished. Meanwhile, the dark energy rapidly started spreading out. Dense darkness shrouded everything in the surroundings again.

The feeling of falling back into the darkness after witnessing a trace of light was extremely depressing. Many soul pet trainers were severely weakened when this darkness domain shrouded the area once again.

A pair of glowing murderous eyes in the darkness were extremely eye-catching. Without anything restraining it, the surrounding Divine Sect army was like a patch of fragile wheat seedlings in front of it. It could easily reap them if it so wanted.

Fear assaulted everyone once again. Everyone could feel the inextinguishable rage of this darkness creature. The entire army took a step back unconsciously.

Perhaps due to its rage, that darkness creature no longer bothered to hide its body. The outline of its body could roughly be seen within the darkness, as well as a huge tail that coiled around a few mountains!

Its fur was darker than the dark night itself and fluttered freely within the dark wind currents. Its sharp claws landed on top of a mountain, perfectly covering the mountain surface. Its long and robust body stretched over a few mountains. The mountains were easily toppled by a light graze from it!

This was a huge Demon Fox, the overlord of Night Control!

“Dark Death King!” Xiao Xueang finally had a clear view of that creature. Even he who always remained calm could not help but be astonished at the sight!

Demon Fox Dark Death King, it was none other than the Seven Sins Fox Dark King!

Who would have imagined that the darkness creature that had ruled over the darkness and had triggered the mini Solar Eclipse would actually turn out to be the famous Seven Sins Fox! More importantly, this was a Dark Death King which did not carry any Sin Imprint on it!

Xiao Xueang had naturally heard about the story of Seven Sins Fox before. Vice Sect Master Du Xian was even more knowledgeable about it. He even knew that this Imprint Valley was once the territory of the Seven Sins Fox Light King.

However, it should be the Light King's territory, so why would a forgiven Seven Sins Fox Dark Death King appear here?

.....

Divine Sect west mountain range. Evil Good Queen hovered quietly in the dark sky. The surrounding flowers bloomed like a layer of mat, decorating the ground.

Chu Mu similarly hovered in the air. The black and white Devil Fire on his body had gradually started dissipating, it seemed that he had used his half devil power not long ago.

"They would never have imagined that a Dark Death King was sealed in this Imprint Valley ten thousand years ago. How about it, won't this, the archenemy of Light King be more suitable for your soul pet standard?" asked Evil Good Queen as she tilted her head to the side.

"I have Mo Xie already. However, I'm certainly surprised. Dark Death King is actually Seven Sins Fox Dark King. Looks like Dark King amongst Seven Sins Fox has never suffered from the race curse," Chu Mu replied as he looked at the huge dark demonic fox in the distance.

Chu Mu had never seen a forgiven Light King before, but even with the shackle, the power that was displayed by Light King had astonished him.

Light King's archenemy was Dark King, especially a Dark King free of any shackles. Its aura was definitely the strongest amongst the creatures that Chu Mu had encountered until now. He could even sense that Dark King was an existence that was on the same level as the Ancient Flood Dragon Person in the Wind Palace based on its horrifying aura!

Chu Mu remembered seeing a Dark Death King in the Wind Palace of the Ancient Flood Dragon Person before. As it was crouching on the ground and petrified at the time, he was unable to recognize its demonic fox physique.

Chu Mu knew that all those who were petrified in the Wind Palace were the subordinates of the Ancient Flood Dragon Person. However, that Dark Death King naturally could not really be compared to this Seven Sins Fox Dark Death King which could trigger a mini Solar Eclipse!

"It's not that the Seven Sins Fox Dark King did not get cursed, but that they possess the power of curse themselves. They are able to be exempt from this racial shackle to some extent. The other six of Seven Sins Fox were unable to leave much trace behind within this ten thousand years. Instead, Dark Death King has showed up in many places. For example, the Dark Devil Lord, which possesses the currently highest darkness type bloodline, is the offspring between Dark Death King and Evernight Queen," explained Evil Good Queen.

Chu Mu had heard Old Li mention the Dark Devil Lord's bloodline before. However, even that geezer did not know that Dark Death King was actually Seven Sins Fox Dark King.

As they continued their conversation, a phantom sped through the dark sky and rapidly approached the Divine Sect back mountain. Its ghostly aura lingered in the sky after it flew past.

Evil Good Queen took a glance at that spectral type creature and spoke, “Divine Sect invited quite a number of experts to take on my new pet this time.”

“Is that Tang Ang?” Chu Mu vaguely saw the silhouette of that person.

“Yes, that Ghost Lord is his main soul pet,” replied Evil Good Queen.

“Are you sure that you can control that Dark Death King?” asked Chu Mu.

After reaching Dark Death King’s level, no force in the world could bind them. Chu Mu even suspected whether the leader level experts that were gathered in the Divine Sect back mountain could really suppress this Dark Death King which was venting the grudge that had accumulated over the course of ten thousand years!

Evil Good Queen shook her head.

She did apply the Flower Soul Sigil on Dark Death King. However, just like how Chu Mu was unable to control her in the past, she also could not control the overwhelmingly powerful Dark Death King despite possessing a soul contract with it. Dark Death King would not be grateful to Evil Good Queen for releasing it.

“That’s why I need these bored leaders to help me discipline it. Only then will my little dark fox listen to me properly. I’m just worried that those leaders might be too weak and cannot help me suppress the arrogance of my new pet, getting trampled into submission by it instead.....” Evil Good Queen giggled. Chu Mu could tell that she was in a good mood.

Forming a soul contract with a darkness creature which could manipulate the sun and the moon, despite not being able to tame it for the time being, it was truly equivalent to her strength taking a qualitative leap. There was no way she would not be in a good mood.

Furthermore, a flashy show was about to begin soon. It was rare to be able to witness a battle where many leader level experts cooperated. They were usually acting high and mighty, Evil Good Queen was very arrogant herself. She could not accept other people talking arrogantly to her. So it was now time for her to take some interest from those leaders!

Evil Good Queen could not truly control the powerful Dark Death King, but she could still influence its mind to some extent through the soul contract. After all, Evil Good Queen had used all the evil energy in the entire Imprint Valley as the power source of her Flower Soul Formation.

This influence of the mind could not achieve the effect of an order, but it was easy to make Dark Death King focus its rage on a certain person. For example, letting Dark Death King prioritize the Vice Sect Master Du Xian who acted overly smart.

Chapter 1448: Three Leaders Vs Dark Death King (1)

Rage Ghost Lord, the important soul pet that had allowed Tang Ang to become a human leader.

This soul pet was covered all over with a layer of bloody skin. It had a menacing skull and bone wings. It looked rather insignificant after mixing into the Divine Sect army.

Ghost fire burned calmly on Rage Ghost Lord's body, the pale blue color of the flame exuded the stench of a rotten corpse.

Tang Ang was not a member of the Departed Spirit Palace, but he was famous for his spectral type creature. When he appeared in front of the Divine Sect army, Vice Sect Master Du Xian and Gate Master Han Yan both sighed in relief at the same time.

There were a total of three leader level experts now, this gave both of them greater confidence in taking on that Seven Sins Fox Dark Death King.

Seven Sins Fox Dark Death King was truly enormous, those tall mountains were simply like lumps of hills before it.

It took a step forward and its claw pressed onto the ground. The aura generated was so ferocious that no creature dared to approach it.

Its eyes immediately focused on White Dragon and Rage Ghost Lord. In its eyes, the densely packed army of soul pets were nothing but mere insects. There was no need to really care about them.

What it had to be really wary of were the three creatures which dared to stand tall before it, namely White Dragon, Dragon Head Devil Eagle and Rage Ghost Lord!

White Dragon levitated silently in midair and coiled its body around. One would not be able to see its entire figure in a single glance.

Dragon Head Devil Eagle remained hovering around in the air. Its wide feathered wings kept sprinkling down thin feathers as it glided. Those feathers transformed into eagles. As the eagles kept increasing in number, they followed the flying trail left behind by Dragon Head Devil Eagle, eyeing the Seven Sins Fox Dark Death King on the ground.

Meanwhile, Rage Ghost Lord was similarly huge in size. This specter remained stoic as it stood before Dark Death King.

Dark Death King raised its head slightly. Its eyes were nailed onto White Dragon as it could tell that White Dragon was going to be the greatest threat to it.

However, as if it heard some muttering mixed in the wind, Dark Death King suddenly jerked its head and fixed its eyes on Dragon Head Devil Eagle that was even higher in the sky!

Suddenly, Dark Death King moved. Its robust body leaped high into the air. It simply ignored White Dragon and crazily pounced towards Dragon Head Devil Eagle!

Darkness was Dark Death King's weapon. The black clouds and the night shade suddenly pressed down heavily due to Dark Death King's manipulation. It was as if a huge black palm was pressing Dragon Head Devil Eagle towards the ground.

“Yi! Yi!”

The eagles that were formed from Dragon Head Devil Eagle's feathers started panicking and kept crying desperately.

Looking through the darkness, one could see that those eagles were getting crushed to powder by the black palm. They were constantly changed back into tattered feathers as they fell down along with some black powder.

Dragon Head Devil Eagle immediately became alone once again. Furthermore, Dark Death King rapidly kept charging towards it as if there existed an irreconcilable grudge between them!

Vice Sect Master Du Xian was feeling even more irritated. It was clear that Xiao Xueang's White Dragon was a more threatening foe, yet Dark Death King just kept aiming at his soul pet. Was it

because they had fought once before? However, the result was his Dragon Head Devil Eagle getting slapped away.

Dark Death King was truly ferocious, it simply ignored White Dragon despite White Dragon chasing closely right after it.

Dragon Head Devil Eagle was a wing type creature. It should have an advantage of flight in the sky, but the dense darkness was after all Seven Sins Fox Dark Death King's domain. In this domain, Dark Death King could move freely to any place with ease. In addition to its demon property, Dark Death King's speed was even faster than Dragon Head Devil Eagle's flying speed.

"Vice Sect Master Du, you can't avoid it forever. If we don't limit it to this region, then its power will surely destroy the city!" Xiao Xueang rode on his White Dragon and reminded Du Xian with mental voice.

Du Xian's expression was really bitter. What Xiao Xueang said was reasonable, but his Dragon Head Devil Eagle was easily being swept away by Dark Death King's tail in an initiative attack. Now it was clear that fox was clearly after his life. If he did not dodge, then he would not be able to endure the attacks from that crazy demonic fox!

Seeing Dark Death King getting closer and closer, Du Xian felt that a black mountain was crashing towards him and he actually began to panic. Ever since he became a leader, he had never experienced such emotions.

"Wu Ao!"

Seven Sins Fox Dark Death King's cry was in reality more tyrannical than the other Sins Fox. Although it possessed the bloodline of a demon, it was filled with the wildness of a savage beast. It did not really behave like an agile demonic fox, but like an unstoppable black lion!

Seven Sins Fox Dark Death King had the ability to run through the air, it was getting closer and closer to Dragon Head Devil Eagle. Suddenly, a gust of black wind was shot out from Seven Sins Fox Dark King's mouth. The black wind transformed into a hurricane and obstructed the dodging route of Dragon Head Devil Eagle.

Seeing the black hurricane barricading its surroundings, Du Xian became even more panicked. It would be difficult for him to avoid it now even if he could.

Forced into a corner, Du Xian could only grit his teeth in frustration and order his Dragon Head Devil Eagle to clash head on with Seven Sins Fox Dark Death King!

Spreading its wings wide, Dragon Head Devil Eagle suddenly accelerated. Its body turned into a flat triangular sword that could sever space itself and slashed towards Seven Sins Fox Dark Death King's head!

Seven Sins Dark Death King did not slow down either. It did not raise its claw, nor did it chant any incantation. It simply ran forward wildly. As it ran, one could clearly see that the dark air was getting pushed forward by it, the pushed air turned into a revolving shield with a curved surface in front of it!

Demonic fox's claws were their sharpest weapon. However, this Dark Death King seemed to not even bother using its claws to attack, and intended to directly charge straight ahead like a horned beast!

Vroom!

The surroundings trembled heavily. Xiao Xueang saw Seven Sins Dark Death King charging straight ahead right after ascending into the sky. Du Xian's Dragon Head Devil Eagle was toppled over with ease. Xiao Xueang could even hear a horrifying bone crushing sound coming from Dragon Head Devil Eagle's body.

Dragon Head Devil Eagle got knocked back far away and it almost crashed directly into the ground. When it stabilized itself, its wing were slightly slanted, clearly from the clash just now.

In the second clash, Dragon Head Devil Eagle was injured yet again. This greatly shook the confidence of the Divine Sect members.

Even the Vice Sect Master whom they usually worshipped and respected like a god was no match against that darkness creature. They themselves would be even more insignificant before it!

Dark Death King was extremely angry towards Dragon Head Devil Eagle and seemed to be unwilling to stop at all until it thoroughly killed that Dragon Head Devil Eagle. Xiao Xueang's White Dragon attacked Seven Sins Fox Dark Death King a few times, yet Seven Sins Fox Dark Death King simply ignored him. After it shook off White Dragon, it would gather the surrounding dark energy to crash into the wounded Dragon Head Devil Eagle again!

Dragon Head Devil Eagle saw Seven Sins Fox Dark Death King charging towards it once again and desperately flapped its wings despite its injury, trying its best to avoid that crazy nemesis!

Rorororo!

Darkness element rumbled in the sea of dark clouds. No matter where Dragon Head Devil Eagle flew towards, the path would be completely swallowed by the dark rumbling clouds!

The dark rumbling clouds contained terrifying dark corrosion effect. It was not as sharp as claws, but it could easily penetrate the enemy's defense. It did not pack much of an impact, but it could easily destroy the enemy's organs!

The corrosive clouds floated past it. One could clearly see Dragon Head Devil Eagle's feathers rapidly blackening from coming into contact.

After reaching Dragon Head Devil Eagle's level, its feathers possessed even greater defensive power than some armored creatures. However, before the rumbling dark clouds, these high class Immortal rank feathers were no different from the common soft feathers found everywhere, they were easily corroded.

Dragon Head Devil Eagle's feathers were similar to Dead Dream's feathers and they could transform into eagles. At the same time, they were also Dragon Head Devil Eagle's life force. The only difference was that Dragon Head Devil Eagle could not separate its body directly like Dead Dream does.

When its feathers were corroded, it was equivalent to its life force being corroded along with it. Furthermore, Dark Death King's rumbling dark clouds corrosion was very fast. If Dragon Head Devil Eagle could not escape from the range of this technique, then it would soon change from a majestic Dragon Head Devil Eagle into a Dragon Head Vulcan.

"Magistrate Xiao, help me!" shouted Du Xian clearly panicking.

White Dragon flipped its body and crossed right through the rumbling dark clouds.

Soon, White Dragon arrived in front of Du Xian. It connected its head and tail after going around Dragon Head Devil Eagle and became a beautiful white dragon ring.

After the dragon ring took shape, an even bigger Soul Shadow descended from the sky and turned into a white Soul Shadow defense!

“Ao!”

White Dragon howled. The rumbling dark clouds within the dragon ring were vaporized instantly.

The sea of black clouds in the sky flowed rapidly like sea currents. However, only the area that was within the dragon ring was clear and did not suffer from any corrosion.

After being protected by White Dragon, Du Xian finally heaved a sigh of relief.

He took a look at his Dragon Head Devil Eagle and realized that over half of its feathers had fallen already. Bald skin had even started appearing in various parts!

After so many years, when had his Dragon Head Devil Eagle been humiliated so much?

“How is it, Vice Sect Master Du?” asked Xiao Xueang plainly after taking a glance Du Xian.

“I’m saved, thank you for helping me in time, Magistrate Xiao,” replied Du Xian.

Du Xian disliked Xiao Xueang, but he had to admit that Xiao Xueang was truly unparalleled in the entire Divine Sect. While he was unable to do anything against Dark Death King, Xiao Xueang still seemed to be very confident.

“It’s really strong,” stated Xiao Xueang with a stern expression as he intently watched that demonic fox in the darkness.

“Yes,” Du Xian could not say much more. After all, this disaster was caused by him. If he was unable to handle this matter properly and it results in the entire Zhengming Main City suffering heavy losses, then it would greatly tarnish his reputation too.

Du Xian could treat the citizens of Zhengming Main City as not humans, but as he was still a Vice Sect Master of Divine Sect, he had the obligation to protect them!

Xiao Xueang looked at Rage Ghost Lord flying up from below and spoke, “Tang Ang’s spectral type creature should have a more advantageous position in this battle. The three of us will join hands to suppress it. Tell the Discipline Palace to continue preparations for the formation.”

Chapter 1449: Three Leaders Vs Dark Death King (2)

With Xiao Xueang’s White Dragon as the head, Tang Ang’s Rage Ghost Lord and Du Xian’s Dragon Head Devil Eagle took the two flanks.

Dark Death King ceased its rampaging temper on this rare occasion and faced the three leaders together.

Ten thousand years Immortal. It had been sealed away for way too long. Once it saw the outside world again, it could not hold back the maddening wildness overflowing from its heart.

If had finally broken free from a hellish seal, yet these people surrounded it and tried to restrain it again. In its eyes, anyone who tried to restrain its freedom was an enemy!

Dark Death King's eyes were chilling and furious. The dense dark grudges that were emitting from its body covered the entire sky!

Suddenly, Dark Death King disappeared. It was so fast that the naked eyes could not catch its movement!

Thick darkness lingered around the three leaders. They used their soul remembrance to sense the surrounding movement cautiously. Dark Death King's figure was nowhere to be found within the thick darkness, yet it felt as if Dark Death King was hiding anywhere within the pieces of darkness.

A pair of sharp eyes opened within the darkness. The eyes were looking down, they looked down at White Dragon, Rage Ghost Lord and Dragon Head Devil Eagle. They looked down at the entire continent. It was just like a demon lord waking up in the dark night and quietly standing tall above a black continent!

“Wu Ao!”

Suddenly, a fox cry broke the silence of the dark night!

On the ground, those Discipline Palace members were busy completing a long incantation. When that cry rang out, all of them suddenly felt dizzy. Next, groups of soul pet trainers and their soul pets within the phalanxes suddenly fell down and lost consciousness!

A noisy commotion broke out within the army on the ground. The three leaders in the sky covered their ears immediately and used soul remembrance to guard their mental worlds.

However, their mental worlds still ended up experiencing a sharp screech, causing them to lose their sensation and hearing abilities.

“Watch out, it’s going to counterattack!” reminded Xiao Xueang.

Unfortunately, Tang Ang and Du Xian had their hearing affected and could not hear what Xiao Xueang had said. They only saw him riding his majestic White Dragon as it soared up!

White Dragon seemed to have locked onto Dark Death King’s position and immediately began spreading extreme cold wherever it flew!

The cold air began to freeze the space. White Dragon swiftly sped past Dark Death King, instantly freezing the dark clouds into big chunks of glacier!

The glacier was thick and sharp. The darkness was unable to block the glacier’s attack.

Soon, the glacier began to rapidly spread out from the sky above the Divine Sect back mountain. Not long after, even Zhengming Main City’s sky was covered by a huge glacier and it stayed parallel to the ground!

White Dragon flew even faster than before within the glacier. It freely manipulated the glacier that covered the entire sky and kept attacking Dark Death King!

A huge black silhouette could be seen agilely dashing about within the frozen sky. It was extremely fast. Be it the spreading coldness, the icicles falling from above or the ice flakes that were blooming like roses which could pierce anything, none of them was able to touch a strand of its fur.

While it was dashing, a clear black trail could be seen criss crossing between the glacier. When Dark Death King passed through Dragon Head Devil Eagle's flank, the black trails seemed to have been completed, forming a dark shadow diagram in the glacier sky!

The dark shadow diagram completely enveloped White Dragon, Rage Ghost Lord and Dragon Head Devil Eagle. Countless dark fox silhouettes dashed about everywhere within the diagram, making it seem as if thousands of dark foxes were running around.

Each dark fox silhouette worked as a restraint. Those fox silhouettes were moving around rapidly in a densely packed fashion, eventually forming a huge fox silhouette. The huge fox silhouette was reflected in the sky and it imprisoned the three Immortal rank soul pets within the formation!

Dark Death King was a creature that held grudges. They had tried to imprison it using the Holy Light Palace just a while ago. Then Dark Death King would also let them have a taste of its own imprisonment ability and let them know that darkness was the true epitome in imprisonment!

The dark fox diagram was not over yet with that. It slowly descended from the sky.

This descent was not really fast, but it looked as if a chunk of the black sky was suddenly falling and there was no escape from it!

The dark fox diagram approached closer and closer to the ground.

Chu Mu who was standing on the western mountain only then realized just how big that dark fox diagram truly was. It was comparable to the size of the entire Zhengming Main City!

Even after reaching Immortal rank, Chu Mu had never seen such a large imprisonment technique before. If it fell onto Zhengming City, then was the entire city going to be imprisoned?

Within the fox diagram, White Dragon and Dragon Head Devil Eagle were greatly restricted by the effect of that powerful restraint.

If the Divine Sect army was also imprisoned, then their lives would be completely in that demonic fox's control!

"Tang Ang, is your Rage Ghost Lord also unable to move?" Xiao Xueang asked Tang Ang using mental voice.

"Give me a little more time," said Tang Ang in a serious tone.

Spectral type creatures possessed some immunity against imprisonment techniques. In addition to that, spectral type belonged to the same branch as dark type. Tang Ang's Rage Ghost Lord had the highest chance of breaking free from the imprisonment amongst them.

In the past, Tang Ang had never treated any imprisonment technique seriously. After all, even Divine Sect's light type imprisonment could not trap his Rage Ghost Lord. However, that Dark Death King's strength was truly beyond tyrannical. His Rage Ghost Lord was also trapped in that group imprisonment technique and could not struggle free in a short time.

“Hurry up,” Du Xian was worried about the army guards and Discipline Palace members that he had put plenty of effort into raising. Seeing many phalanxes unable to do anything against the falling imprisonment, he was getting very anxious.

Tang Ang did not answer. At that moment, Rage Ghost Lord’s bone wings suddenly vibrated lightly.

Next, Rage Ghost Lord seemed to have grasped a weak point in the imprisonment. Its claw then tore a big gap in the dark fox diagram and it escaped smoothly from that gap.

Up above the black clouds, Dark Death King stood there solemnly. Its gaze looked a little surprised as it did not truly expect that ugly old ghost lord to be able to break free from its imprisonment.

After all, during its era, no creature could have broken free from its imprisonment!

The era was changing, there would always be even more stronger creatures appearing. There would also be some creatures that possessed specialized or unique techniques. As one could see clearly, that Rage Ghost Lord possessed an extremely high resistance against imprisonment, binding or sealing type techniques. Otherwise, it would not be able to escape the imprisonment even faster than White Dragon at its rank.

“Tang Ang’s Rage Ghost Lord is certainly a little troublesome,” In the southern mountain, Evil Good Queen frowned after she saw Rage Ghost Lord escaping.

“Soon, more and more experts will show up. Can it kill Du Xian’s Dragon Head Devil Eagle?” asked Chu Mu.

“I don’t know. That geezer is really too cowardly. He always hid behind Xiao Xueang,” said Evil Good Queen.

As she spoke, she closed her eyes again and transmitted her will to Dark Death King.

Dark Death King wanted to get rid of Rage Ghost Lord as Rage Ghost Lord was able to escape from its imprisonment. It really disliked such a creature existing in the world.

However, when that will was transmitted, its rage-filled eyes turned to Dragon Head Devil Eagle once again.

Dragon Head Devil Eagle was currently imprisoned. There was clearly no way it could dodge any attack.

“Wu Ao~!”

Dark Death King cried and stepped down from the black clouds, charging straight towards Dragon Head Devil Eagle.

At that moment, Rage Ghost Lord approached directly from the front and tore at Dark Death King with its long bloody claws.

Dark Death King did not try to dodge, as if killing Dragon Head Devil Eagle was its sole purpose. It simply ignored Rage Ghost Lord’s attacks and accelerated further!

Pzzt!

The claws that ignored defense tore open Dark Death King's flank. A long bloody cut was extremely eye-catching on its black body.

However, the wounded Dark Death King did not show any reaction and simply passed through Rage Ghost Lord. Then, it stomped down heavily towards Dragon Head Devil Eagle which was pinned onto the ground!

Boom!

The ground was shattered by Dark Death King's stomp. The shards of darkness became tiny meteors and scattered in all directions. They drilled through the ground, pierced through the mountains or shot through the sky!

The immense force was directed towards Dragon Head Devil Eagle. Dragon Head Devil Eagle was unable to move after it was imprisoned and could only let the shards of darkness helplessly pierce through it!

Bloody holes opened up everywhere on its body. Each shard dug deep into its skin. Blood was flowing out profusely and the scarce feathers were scattered around.

After Dragon Head Devil Eagle suffered that hit, it was riddled with wounds.

If not for Rage Ghost Lord coming down from the sky and intercepting the maddened Dark Death King in time, then Dragon Head Devil Eagle would probably not have survived.

“Vice Sect Master, are you alright?” Xiao Xueang’s White Dragon finally broke free from that powerful imprisonment and immediately flew next to Dragon Head Devil Eagle.

Dragon Head Devil Eagle was still imprisoned by the darkness. After suffering a heavy wound, it was unable to break free anymore. Du Xian could not even recall it into his soul pet space and could only watch his soul pet bleed helplessly.

“I’m still fine,” replied Du Xian with difficulty.

He took a glance at that crazy Dark Death King and was really furious.

This damned demonic fox, White Dragon is clearly stronger, so why doesn’t it fight White Dragon and continue going after my Dragon Head Devil Eagle? What grudge does it have against me?

Du Xian obviously would not know that Dark Death King was currently being influenced by Chu Mu’s rage to some extent. Dark Death King might not hold a grudge against Du Xian personally, but Chu Mu did hold a deep grudge against him!

Chapter 1450: A Hundred Immortal Rank Expert

After the shards of darkness were shot out, those phalanxes had also suffered from severe casualties.

Those shards of darkness had easily taken away the lives of those Divine Sect members and their soul pets with just a light graze. The Divine Sect members were still unable to set up an effective protection barrier. Without the support of a barrier, they were utterly unable to defend against the effect of Dark Death King’s techniques.

Blood flowed within the Divine Sect back mountain. It should have been a perfect harvest, but it had turned into a massacre due to the appearance of Dark Death King.

In addition to the three thousand soul pet trainers with Curse Demons, almost half of the ten thousand Dominator rank army of Divine Sect was already lost.

The army was extremely feeble before it, especially when there was no barrier in place to protect them. They might have been able to damage Dark Death King to a certain extent after they combined their techniques, but a counterattack from Dark Death King would have made them pay an even heavier price then!

Seeing the army suffering from so much damage, Du Xian's rage had also deepened further. He took a glance at the flinching Qin Guang and Han Yan, then shouted angrily at them, "What are you spacing out for? Gather the Immortal rank and above members fast!"

"We..... We have already gathered them, but Magistrate Xiao said not to make a move hastily," replied Han Yan with a submissive tone.

Han Yan was a respected expert in the entire Zhengming City. However, before a battle of such a level, he did not even have the courage to summon his soul pet.

Before the number of Immortal rank members reached a certain amount, the middle class and low class Immortal rank people like them would only end up insta-killed if they participated. Their situation might be even worse than the Divine Sect army.

"Am I the Sect Master or is he? Are they going to watch my Dragon Head Devil Eagle die before they decide to make a move?" roared Du Xian angrily.

Du Xian's Dragon Head Devil Eagle was clearly being targeted by Dark Death King. If Dark Death King charged again without caring about anything else, then his Dragon Head Devil Eagle would really not be able to be saved anymore. After all, Rage Ghost Lord and White Dragon might not really be able to stop Dark Death King's attack.

Han Yan knew that Du Xian was already angry and did not dare to hesitate anymore. He immediately issued the order and let all the Immortal rank experts summon their soul pets simultaneously!

The number of Immortal rank members that Han Yan had summoned was one hundred. They were all Master Officials of Divine Sect: Discipline Official, Vice Magistrate, Vice Gate Masters, etc. No matter where they went, they could easily resolve any problem with their strength. They might not even have the need to deal with the problems personally as they had many elite subordinates under them.

This time however, a hundred Immortal rank experts had gathered around Han Yan, yet Han Yan could not feel any confidence. He took a glance at Qin Guang and urged Qin Guang to act alongside him.

Qin Guang was originally Du Xian's subordinate, so he naturally did not dare to disobey Du Xian.

After Han Yan's order was issued, those Divine Sect Immortal rank members had snapped back from the astonishment of the battle and they all began chanting.

When did Divine Sect ever have the need to dispatch an army of ten thousand and a hundred Immortal rank experts before?

Once a hundred Immortal rank creatures were summoned and dotted the sky, the intimidating aura they emanated made one unable to look directly at them!

How many people could truly witness a hundred Immortal rank creatures appearing at the same place?

High above in the sky, Xiao Xueang looked down after forcing Dark Death King into an aerial battle and realized that many Immortal rank creatures were appearing beneath them.

He could recognize most of those creatures as they were the core pillars of Divine Sect.

Xiao Xueang had hesitated to let them participate earlier because he was worried that in this battle against Dark Death King, those members might end up suffering from heavy casualties. After all, before Dark Death King, apart from White Dragon, Rage Ghost Lord and Dragon Head Devil Eagle, no other Immortal rank creature could resist the power of even a single attack!

“Be really careful!” reminded Xiao Xueang.

Xiao Xueang really did not want the core pillars of Divine Sect suffering due to any accidents. However, there was no other choice left now. If they could not suppress that Dark Death King, then nobody could estimate just what would happen afterwards.

The hundred Immortal rank creatures did not charge in immediately. They maintained some distance in order to protect Du Xian from getting attacked by Dark Death King again, as well as ensuring Dark Death King’s energy would not harm the Divine Sect army again.

The army had finally completed their combined technique. Six thousand Dominator rank creatures had performed an elemental attack simultaneously when Xiao Xueang's White Dragon froze Dark Death King in place!

The dazzling light element attack filled the sky. It was difficult to imagine any creature being able to survive from a bombardment by such a terrifying amount of energy. Even the space was shattered and turned into a patch of rampaging chaos!

A huge void had opened up in the sky due to the elemental bombardment. The void was not repaired even after a long time had passed. Meanwhile, Dark Death King was within that void. A dark armor covered its entire body without any gap. Regardless of the elemental bombardment or the tearing and devouring of the chaos, it just quietly stood there like a majestic sky fortress, unflinching regardless of the arrow-like elemental bombardment hitting it squarely!

Be it Rage Ghost Lord or White Dragon, they had to evade the bombardment by the six thousand elemental Dominators in order to avoid getting hurt as collateral from that force. They were unable to defend against such a bombardment with pure defense like Dark Death King!

"What an incredible defensive strength," On the western mountain, Chu Mu looked at Dark Death King soloing Divine Sect in astonishment.

The world's strongest merely amounted to just that much. The ten thousand year Immortal Dark Death King showed Chu Mu an entirely different level of strength. Despite facing the most authoritative Divine Sect, it still remained arrogant!

"Don't forget, it belongs to us," Evil Good Queen looked delighted. The wisdom, confidence and that natural born seductiveness of hers had allowed her to fully display her queen's aura in scheming.

Right now, who could have thought that this overwhelmingly powerful Dark Death King that could fight against the entire Divine Sect by itself had been released by Saintess Yu who was worshipped by countless people?

Even the cunning Du Xian could not have imagined when he had executed his plan, that there would be someone behind him quietly waiting for it.

Honestly speaking, Chu Mu somewhat admired this woman's scheming ability.

With her current strength, she might not have been able to affect leader rank individuals on her own. However, through the countless grudges of the living creatures in the Imprint Valley, she had obtained an enormous amount of evil energy and had successfully used her Flower Soul Formation to manipulate that ten thousand years Immortal Dark Death King which desired liberation.

If she could manipulate Dark Death King properly in future, then just how would those leaders be able to oppose her kingdom?
