

## Soul Pets Bk2 1461

### Chapter 1461: New Moon Land's Hidden Danger

The light from the lamps was dusky, making the vision murky. Wanxiang City at night was abnormally bustling. The sounds of festivity clamored through the entire city.

Late at night, the city suddenly turned quiet. A bewildering haze covered the long streets. The wind at night blew on the purple petals that filled the street. Occasionally they would be swept into the air before slowly falling to the ground.

At the side of a water platform where the streets intersected, two men dressed in grey stood there speaking quietly with strange words.

“What’s it like?” asked one of the men.

“There are a thousand holy guards. Their average strength is at the dominator rank. New Moon Navy has 3000 people and 900 of them have dominator rank strength. Of the remaining 2000, reportedly many of them are near the dominator rank. Wanxiang City’s guards are 10 thousand and their strength is not inferior to a thousand dominator team. As for the nearby cities and Eastern Wild Forest strongholds, including Windy Rain City, Xiangrong City and Ling City, they all protect Wanxiang City within...” said the man wearing a dark cap and a long trenchcoat.

“Just tell me how many people I need to annihilate them.” coldly said the man.

“You must have ten thousand dominators.” said the man wrapped tightly in his clothes.

“Ok, go back to your place.” said the man.

The dark capped man nodded his head, turned, and left.

Not long after he left, a woman with fiery red hair and wearing a fiery red dress walked out. She walked up to the man.

“An army of ten thousand dominators? Hmph, what faction other than Divine Sect has an army that large.” harrumphed the fiery red woman.

“New Moon Land’s development speed is somewhat terrifying.” said the man.

“Indeed, from a nameless wilderness to a powerful independent territory. Adding on its occupation of the northern territory, the resources they will obtain will only grow. I don’t understand why these factions are willing to just watch New Moon Land continuously grow? Or perhaps New Moon Land is being controlled by some big shot behind the scenes.” said the fiery red woman.

“Madam Huo, we had best take our time before making this decision. New Moon Land seems like a tiny independent territory, but from the information, my attendant found out, New Moon Land is actually like a great figure. However, many other great figures haven’t discovered this.” said the man.

“Do you have a way?” said Madam Huo.

“Since they’re able to expand so quickly, they must occupy some gold mine. The development of a faction is tied to resources and territory. What we must do now is tell experts who easily get greedy about how strong New Moon Land is and that New Moon Land possesses ten large treasure-house-like independent spaces. Additionally, we must divulge their current strength. I think that there must be people who are moved by this. It is true that we cannot dispatch a ten thousand dominator rank

army, but if a few large factions are to combine their powers, who aside from Hidden Pupil Royalty and Beiming City in Zhengming Continent will be able to survive?” the man cracked a smile.

Madam Huo was stunned, but quickly understood his intention.

“I only want the Monument Tear.” said Madam Huo.

Wars occurred in various regions of Zhengming Continent, but those that could mobilize various large factions to create a ten thousand dominator army would have to be a huge scale campaign. Madam Huo never expected the man in front of her to be so ambitious.

“We’ll each take what we need. If Madam Huo has no objections to my plan, I would request for Elemental Sect to say a few things. It’ll probably be very easy for you to create a conflict over profits, conflicting views and hatred, right?” said the man.

“I can only represent Fire Sect. I don’t have much influence over the other sects,” said Madam Huo.

“No problem. There will always be a way. New Moon Land is genuinely a huge piece of fatty meat. It doesn’t matter if there’s conflict or not, there will always be someone who wants to take a bite out of it. Perhaps there are already people who think this way; only, nobody has shown themselves yet. How about I do the honors for this.” the man curved his lips.

Madam Huo looked at this somewhat crazy man and maintained her silence.

Obviously, this man had created this plan sometime ago. However, when had he started targeting New Moon Land?

Madam Huo couldn't help but feel worried. Could she have unknowingly fallen into their schemes?

.....

Late at night when people were quiet, the autumn wind lightly blew against the flower petals, causing them to ripple. Inside this quiet city, they slowly undulated.

After the festivities, everyone had gone to bed and slept very soundly.

As for the two people of the wedding, they had already entered the bridal room and were enjoying the night together.

Chu Mu had been with Ye Qingzi many times, but each time he would always admiringly fondle her.

The two of them tonight were full of emotions. No matter how tightly they held each other, how long and passionately they kissed, or how much they made love, they wouldn't tire. Nor would the love in their heart be fully expressed.

The room was quiet. The only thing that could be heard was the breathing of two people.

Right now, regardless of how much of a plot was brewing outside or how many enemies were eyeing them like a tiger watching its prey, Chu Mu's heart was peaceful.

He closed his eyes and tightly held onto Ye Qingzi. He liked her softness, her glossiness, her gracefulness and even more so her tranquility and ability to understand others.

After crazy demands, it was quiet tenderness and quiet talking.

“Did something happen?” Ye Qingzi stretched out her soft hands and likely stroked Chu Mu’s eyebrows.

“Ya.” Chu Mu originally wanted to shake his head, but ultimately nodded his head.

Ye Qingzi used her hand to softly scratch his eyebrows and quietly said: “A lot of people say that you never have a change in expression no matter the situation. It’s impossible to tell whether you’re happy, angry, sad, or joyful. But the truth is after getting to know you, they’ll discover that your eyebrows and eyes will easily betray your emotions.”

“But only you can examine my eyes and eyebrows so closely.” Chu Mu bitterly laughed. Chu Mu didn’t even know this. She could tell things from his eyebrows?

Speaking of which, Ye Qingzi was always able to tell when he had even the slightest change in his emotions. Perhaps his eyebrows and eyes truly did betray him.

“Only me?” Ye Qingzi blinked her eyes.

Chu Mu opened his mouth but ultimately felt that closing his mouth was the best option.

“What is it? After coming back from Imprint Valley, I felt that you seemed a bit besides yourself, like a child who didn’t feel safe,” said Ye Qingzi.

“Really?” Chu Mu raised his brows.

As a man with a male chauvinistic mentality, being called a child who didn’t feel safe was uncomfortable.

“Yes.” Ye Qingzi said very certainly.

Ye Qingzi knew that Chu Mu had his tired and exhausted side, but he would only show this side to her. During these times, Chu Mu would tightly hug onto her and then unload vigilance and peacefully sleep.

However, Ye Qingzi rarely saw Chu Mu’s weak side.

The tired and exhaustion was due to a long time of fighting, a long time of a stretched mental strength as well as bitter training. His body and mind needed rest.

Weakness was because the things he held closely in his heart had been broken and the things he supported in his heart had crumbled...

Chu Mu had a very steadfast personality and his belief never wavered. Therefore, Ye Qingzi rarely saw his weak side.

However, this time, Ye Qingzi saw it.

He was like a child who didn't feel safe and would hug onto her tightly, afraid of losing her. He grabbed onto her hand, unwilling to let go. He didn't stop kissing and after the warmth, would make passionate love...

Ye Qingzi knew that part of this was him being entranced with her appearance, but she didn't understand why he looked beside himself and lost.

Ye Qingzi didn't understand why she was like that. The weakness shouldn't belong to him. Ye Qingzi was very worried, but also didn't dare directly ask him. She just stayed by his side.

Someone like Chu Mu had beliefs like iron, but the moment they shattered, it was difficult to heal.

Fortunately, the wedding had comforted his heart, and Ye Qingzi felt that he was recovering. This was the only reason why she asked.

"Why do I feel like I can't hide anything from you." bitterly laughed Chu Mu.

He felt that he had hid things well and that his heart had calmed. But he ended up revealing everything he meant to hide. Perhaps in front of the person he was closest to, he never actually had intentions of hiding it. Involuntarily, he had exposed his wound because subconsciously believed that Ye Qingzi was a Spirit Master and not only could she heal his body but also his inner wound.

"You've never hidden anything from me. You even told me when you went to find another woman. If you don't tell me, I'll just treat it as if I never saw it." Ye Qingzi unhappily said.

Chu Mu felt a bit awkward, not knowing what to say.

When Ye Qingzi saw that Chu Mu wasn't saying anything, she quietly said: "I don't blame you. Jinrou was already in a very pitiful state and is afraid of when others see her. Only you can talk with her. Remember in the Battle of the Realm when we entered Immortal City together? I was never able to guess what she was thinking or what she wanted to do. However, I did feel that she wanted to ask for your help; only, when she saw you and I walking together, she ultimately didn't tell you about the matter regarding her father. She could only go herself to save her father."

Even Chu Mu was unable to discover these details because Chu Mu wasn't as meticulous as Ye Qingzi.

Thinking about it again, when they were in the Seventh Realm and happened to break through the realm with Princess Jinrou, perhaps she had sensed that someone wanted to harm her. Thus, she had come to ask him for help. However, she didn't know how to say it because she was with someone she wasn't familiar with.

And in the Ninth Realm's Immortal City, Princess Jinrou had taken the initiative to find Chu Mu, she had told him that she had a map of Immortal City.

This map probably prepared by her to find where her father was sealed. She had wanted to ask Chu Mu again for help, but unfortunately, she still was unable to say anything.

During that time, Chu Mu and Ye Qingzi were already together. Thus, Princess Jinrou had no reason to ask for another to help her with such a dangerous task.

Chapter 1462: An Urgent Letter

"Was this time because of your father?" probed Ye Qingzi.

Chu Mu opened his mouth and looked with shock at Ye Qingzi: “Are you a parasite in my stomach?”

“Watch what you say!” Ye Qingzi fiercely glared at him and explained, “You’ve said yourself that the only reason why you walk this path is because of your father. It was him that mapped out the soul pet blueprint for you and gave you your dedicated love for them. I would imagine his position in your heart is very high and you have a certain belief in him. I would also imagine that only him can make you suddenly lack a sense of direction.

Chu Mu nodded his head. When he was on Prison Island, he hadn’t forsaken his miserable and lowly life because he knew that if he died on this uninhabited island, his father whom had incomparable hopes in him, would feel hurt and despairing. Indeed, the amount of hope he placed in him could be seen from the expression he had when he learned his son lost his first soul and couldn’t become a soul pet trainer.

After he left Prison Island, despite the numerous dangers, Chu Mu’s heart had soared because he could imagine the happiness Chu Tianmang would have when he saw that he had become a soul pet trainer again.

From the tiny Gangluo City, to the Jia City fight, to the struggle with Xia Guanghan, to the Great Chu Family, to his adventures outside of Western Kingdom, to Li City, to Tianxia City, to Wanxiang City, to Eastern Wild Forest, to when he left New Moon Land and entered the even more expansive Zhengming Continent, he had passed through numerous cities and territories...

Chu Mu had continued to move forwards and unknowingly, traveled a long way. He even experienced the life and death of transforming to a devil and awakening from it. But throughout all this, Chu Mu also carried with him the same mentality from when he left Prison Island. He wanted to see his father cry tears of joy.

However, when he watched his father from behind be buried alive in the collapsing Imprint Valley, Chu Mu felt the very thing he firmly held onto instantly crumbled.

Chu Mu was no longer a child, but when the thing he firmly believed in from his childhood years disappeared, it was an indescribable feeling. It was like the air he breathed in had frozen his innards.

It was a truly unbearable feeling.

Chu Mu found it difficult to say anything to Princess Jinrou or Liu Binglan. Only when he spoke to Ye Qingzi did he suddenly feel warmth inside.

Chu Mu had hoped that Princess Jinrou was right; that he managed to use his Strange Mane Demon to flee Imprint Valley.

But what if he didn't escape?

Chu Mu was afraid that he couldn't escape.

Chu Mu knew that there was no use in worrying. However, this was a person very important to him and most importantly, he had only entered the extremely dangerous spatial windstorm, faced the collapsing Imprint Realm, and met the Navy Chieftain's threat in order to save him.

Chu Tianmang was the person who erected Chu Mu's belief. He was also the family member he most revered and cared about. If he died because he saved him...

Each time Chu Mu thought of this, he would feel panicked towards the future. This was the same reason why Ye Qingzi said he looked beside himself.

Fortunately, Chu Mu had another pillar of support. That was Ye Qingzi. Thus, this wedding was very important to him.

Ye Qingzi didn't overly console him. Chu Mu was a very steadfast person and he would quickly recover because Chu Mu knew that there were many other people who he cared about beside him. The collapse of Imprint Realm wasn't the collapse of the world.

After the wedding, a sense of jubilation still lingered in Wanxiang City. The city was also still pervaded with a flowery fragrance.

It was early morning when a ray of sunlight shone from the east. It began to softly spread along the straight avenue in Wanxiang City.

This avenue led straight to the stairs of a palace, while the other end of the avenue led to the plains outside the city before slowly disappeared into the horizon.

There normally weren't many visitors. Sparse merchants would ride into Wanxiang City and occasionally a few soul pet trainers would leisurely ride on their soul pets.

Suddenly, a speeding figure appeared at the end of the path.

This was Devil Colt. Its legs practically didn't even touch the ground, and it looked like it was flying on the path. Everywhere it stepped would raise a dust storm!

It moved very quickly and after it passed through the great city's entrance, it flew straight for the palace. It finally stopped where the holy guards were stationed.

A military uniform male jumped off the Devil Colt and walked up to the captain of the holy guards.

"Please immediately give this to King Chu." the man said both solemnly and anxiously.

"We don't have this authority. We must first send it to the elders or senior elders before passing it to King Chu." said the holy guard.

"Then please be fast as possible. Something big is happening. Please ensure the elder or senior elder who looks at it treats it with importance." said the military uniform man.

"Ok." said the holy guard.

The holy guard made haste and delivered it into the palace.

There weren't many people in the elder's hall. Due to the wedding, most of the elders were treating it like a holiday and were taking a rare rest. They were doing the things they enjoyed.

"Is there something?" said a guest elder sitting in the elder hall.

The guest elder position was established later in New Moon Palace. They would be given to powerful experts who were willing to cooperate with New Moon Land but didn't like being tied down. They had the authority of most elders, but had the freedom to do as they pleased and could come and go.

The guest elder in the elder's hall was called Xue Bin. He was a wandering soul pet trainer and was an immortal rank expert.

"It's like this. An army member delivered an urgent letter, hoping to give it to King Chu. He said it was something important." earnestly said the holy guard.

"Give it to me," said Xue Bin.

Elder Xue Bin took the urgent correspondence and carefully looked at it. There was no expression on his face.

A moment later, he closed the urgent correspondence and said: "Ok, I'll deliver it to King Chu. That army member can go back at ease.

"Ok." the holy guard nodded his head and returned to his post.

After the holy guard left, Guest Elder Xue Bin coldly harrumphed and said: "It's a perfect opportunity to make him lose the popular sentiment. I never expected it to arrive so quickly."

After speaking, he summoned a palace lord and said: "Give this to King Chu."

The palace lord nodded his head. As he was planning on leaving, Guest Elder Xue Bi added: “King Chu was just newlywed and needs time to rest. Everyone needs rest so you can’t have King Chu do everything personally. Do you understand me?”

The palace lord was very smart. He understood the intentions of the guest elder’s words and earnestly nodded as he said: “Indeed, I’ll present it to King Chu in a few days.”

“Do as you will,” said Guest Elder Xue Bin.

At this point, the palace lord should understand what to do.

Chapter 1463: Ice City’s Disaster

The northern side of New Moon Land’s Snow City was a glacier land.

In the glacier was a city, known by Snow City’s people as Ice City.

Ice City was extremely refined. All of the buildings were built out of ice crystals. When sunlight shone on it, the entire city looked like an ice crystal empire.

Many people lived in this glacier, and it was a place where ice type soul pet trainers liked. They didn’t need to walk far and would enter the glacier bewildering world. In the glacier, they could find the ice type soul pets they were looking for.

However, on this day, the people in Ice City didn’t dare go in and train.

In fact, they didn't even have the courage to do so, because the glacier in the hundred meters area around Ice City had mysteriously fissured, reaching even Ice City itself.

Right now, outside the city, numerous soul pets had emerged from their glacier nests and were running aimlessly in all directions. The moment people left the city, it would be easy for them to be killed by these wild creatures.

Moreover, many normal citizens still lived in the city. Most of the strong soul pet trainers didn't leave, staying in these mysteriously turbulent times to protect the citizens of the city.

“Me!!!!!!!!!!!!!!”

Suddenly, a roar rang out from the extreme ice world.

The towering glaciers violently shook before suddenly collapsing, smashing into the icy ground.

The ground fissured apart, creating countless intersecting cracks. Some were as long as ten kilometers while others were as small as water channels. There were numerous and densely packed cracks that covered the ground.

The cracks appeared on the city's streets. A few houses were instantly torn apart, revealing deep dark abysses underneath. They frightened the civilians, forcing them to flee far away.

A few brave soul pet trainers stood on the edge of the cracks, looking down, but were unable to see the bottom!

“Heavens, what on earth was that cry just now?!” the citizens were palpitating with fear.

A single roar completely destroyed everything on the glacier land. How strong of an Iceberg Giant Beast was it?

“Will we all die here? There are wild glacier beasts are on the outside, while we’re trapped inside the city. The city is also continuously fissuring..” a ten or so year old child held onto his father and spoke with fear.

“Don’t worry, nothing will happen.” This father was a soul pet trainer, but he didn’t have the ability to take the child away from Ice City.

“No one panic. We’ve already sent an urgent letter to Snow City and Wanxiang City. Very soon there will be someone who saves us.” the city guards patrolled back and forth, both pacifying the citizens as well as patrolling the area to defend against wild creatures from invading the city.

The citizens were trapped in the city for nearly half a month. Within the half a month, numerous people attempted to exit the ice layer. However, they were unable to send messages out and they were forced back into the city. The situation was extremely distraught.

Most importantly, Snow City had already sent out a rescue team, but the rescue team was also now trapped in Ice City. They no longer made any rash moments and just waited for further news from Snow City.

The leader of Snow City’s rescue team was Zhuo Wan - a support soul pet trainer.

When she arrived here, she thought this was only a normal disaster. But when she saw the completely changed glacier land, her and her teammates finally realized that this wasn't as simple as a disaster.

Additionally, every so often they would hear the same roar.

The roar was like a devil king trapped somewhere that was about to break free. Each time it roared, it threw the glacier land into chaos. The cause of the panic had to be this Glacier Devil King.

The extreme strength of the Glacier Devil King could be felt. Zhuo Wan knew very clearly that this wasn't something a normal person could deal with. All she could do now was inform the danger here to Snow City and Wanxiang City and have Wanxiang City send experts and an army forth to save them. Otherwise, it would be difficult for the people in the city to survive.

"Young Lady Zhuo, the third urgent letter has been sent. One letter was sent to Snow City and two to Wanxiang City. I hope nothing unexpected happened to Qin Ying." said the vice leader.

"They're the strongest of us. If they aren't able to make their way out, the city will be in danger." said Zhuo Wan.

Zhuo Wan had someone send two urgent letters to Wanxiang City. This was just in case.

However, the people she sent were the strongest of their team. If something happened in Ice City, they wouldn't know what kind of force they would use to stop it.

"Meh!!!!!!!!!!!!!!!!!!!!!!"

The roars became more frequent. After this roar, the ice beasts outside Ice City became abnormally jumpy. The people patrolling in the air saw the surging avalanche in the distance, their faces changed!

“They’re attacking!!!”

This roar was like a sovereign’s order. Instantly, all of the creatures in the glacier world began to madly charge at Ice City. Their terrifying iron feet trampled over everything!!

“Prepare the defenses. We absolutely cannot let them enter the city!” ordered Zhuo Wan.

.....

Wanxiang City

It had already been almost a month since the wedding happened. Chu Mu hadn’t been anywhere during this time, and had spent it next to Ye Qingzi.

Yesterday evening was a rare occurrence where he wasn’t with her. Instead, he spent it in Ning Maner’s room.

Don’t misunderstand. Chu Mu was merely cultivating in her room.

Ning Maner's strength was slowly growing with her age. She had gathered a lot of immortal charm aura during the time Chu Mu was in Imprint Valley and used it to strengthen the Dead Dream, allowing it to enter another Nirvana Rebirth.

When such a huge amount of immortal charm aura poured into the Dead Dream, Chu Mu began to slowly guide it around, allowing the Dead Dream to transform the immortal charm aura into its own strength.

This took an entire night before the Dead Dream absorbed all of the immortal charm aura. Its body turned into a purple black lightning that jumped around in Chu Mu's soul pet space.

"Big brother, why did the little Dead Dream transform into a ball of lightning energy?"

Ning Maner expended a lot of mental energy to help Chu Mu's soul pet advance a rank. If it was only helping the Dead Dream rise from the perfect dominator to the immortal rank, this wouldn't be too difficult. What was difficult was helping the Dead Dream undergo a Nirvana Rebirth which was similar to a species mutation.

"This is probably the original physical form of the Phoenix species. It returns to its original form before being reconstructed," said Chu Mu.

"Oh, then will it become first phase first stage again once it's reborn?" said Ning Maner.

"Probably not this time."

Chu Mu also wasn't sure of the Dead Dream's state this time. He could only slowly wait for it to consume all of the energy. This probably wouldn't take that long.

“Take a rest. It’s been exhausting.” Chu Mu stroked Ning Maner’s pale cheeks and spoke with care.

“Ok.” Ning Maner nodded her head and revealed a beautiful smile as she said: “Big brother didn’t go back last night. Big sister must be jealous.”

“What’s good about eating vinegar from a little girl like you?” said Chu Mu.

“I’m not a little girl! If you call me a little girl again, I’ll tell big sister that you didn’t spend last night cultivating; instead, you kept getting into my bed and holding me as you slept.” Ning Maner was unhappy.

As she spoke, she pushed her chest forward, intentionally showing off her female assets.

Ning Maner was indeed very bewitching right now, whether it was her beautiful fairy-like face, her jade-like white skin or her exquisite and delicate figure.

“I’m cultivating!” Chu Mu’s face went black. What did this girl want? Why did she want to ruin his innocence?

“Hmph, let’s see who big sister believes.” threatened Ning Maner.

Chu Mu was speechless. Was this girl going to make it so he couldn’t fight back?

“Do you still dare to call me little girl?” Ning Maner saw Chu Mu’s expression and her smile became even more resplendent.

“Ok, you win.” Chu Mu came to a compromise.

Ning Maner smiled again. She seemed to think of something even more interesting as her eyes flashed with a joking glimmer.

She grabbed Chu Mu’s arm and pulled next to Chu Mu. A warm fragrance came from her as she softly said: “If big brother doesn’t call me little girl, how about in the future when you want to hold me as you sleep, I will tell big sister that you’re cultivating here.”

When Chu Mu heard this, his shameless face went red and he hastily fled Ning Maner’s room.

Ning Maner watched Chu Mu flee, and laughed until she couldn’t sit straight. She looked both beautiful and charming.

So it turned out her big brother, normally unmoved by force or words, was afraid of this. Now that she had a hold of his weakness, Ning Maner felt that the sunlight today was particularly bright and beautiful. She even felt less sleepy and tired.

.....

Ning Maner’s room was located in Chu Mu and Ye Qingzi’s residence. Chu Mu passed through a wooden corridor to his own room.

Ye Qingzi had just gotten up and looked rather indolent.

Ye Qingzi didn't like maids waiting upon her and making her presentable. There was no one else in the room.

Perhaps it was because Ning Maner was successful in her seduction just now, but when Chu Mu saw Ye Qingzi sit on the dressing table and softly comb her hair, he focused on her slender and shapely figure, and was instantly overcome with lust.

"Don't! It's light out already!" Ye Qingzi felt Chu Mu get up to mischief behind her and her face instantly went red.

"No, it's not." Chu Mu glanced outside the window and his black pupils faintly flashed.

For some reason, the bright sunlight began to slowly retreat and the residence gradually descended into darkness.

Because Chu Mu possessed the other type and dark type power, he only needed to think about making the residence lack sunlight compared to other places and he could easily do it.

"Bastard!" Ye Qingzi flirtatiously rolled her eyes at Chu Mu. She knew that the loss of sunlight was because of Chu Mu and she said: "Close the window first."

Ye Qingzi was a reserved person and there were some things that she would only show in a completely safe room. This beauty and charm could only be appreciated by Chu Mu, alone.

#### Chapter 1465: The Flood Dragon Person's Awakening?

In the afternoon when the sun was bright and beautiful, Chu Mu was resting in the courtyard reading a book, as per usual.

Mo Xie was looking on with her round and beady eyes as if she could understand the words in the book. She looked like she was reading the book at the same pace as Chu Mu.

Zhan Ye lay on the side, with half squinted eyes under the rays of the sun.

Its armor was a black color. No matter how much sunlight there was, the armor was still black.

On Zhan Ye's head was a deep blue colored small dragon. Its fat and chubby appearance was adorable.

This was the small Martial Cloud Dragon. After Chu Mu returned to New Moon Land, he brought both the Martial Cloud Dragon and the Martial Cloud Dragon baby to New Moon Land.

The Martial Cloud Dragon rather enjoyed Wanxiang City. Chu Mu constructed a dragon cave for the Martial Cloud Dragon at the highest point of Wanxiang Altar. He did it so that the Martial Cloud Dragon could help him protect Wanxiang City, and also so that it could watch over Sealed Tower.

Sealed Tower was currently the source of xuan energy for the entire Wanxiang City and thus was essentially Wanxiang City's energy support. With the powerful Martial Cloud Dragon watching over the Sealed Tower, it would be extremely safe.

The Martial Cloud Dragon baby really liked Mo Xie, because Mo Xie would always give it good things to eat.

As for the Demon Foxes taken out from Imprint Valley, they were released by Chu Mu into the forests on the outskirts of Wanxiang City.

Although these Demon Foxes didn't have very high species ranks, because their old living environment was the special Imprint Valley, their actual fighting strength was stronger than creatures of the same species rank. If young people went to the outskirt forests to train and happened to encounter them, they would have an advantage over their peers if they were able to sign a soul pact with them.

“Chu Mu, Chu Mu!”

Outside the courtyard, a person from far away could be heard shouting.

There were holy guards defending outside the courtyard, so people would not be permitted to enter without notifying him first.

However, the person coming was someone familiar and the holy guards didn't block him from entering.

“Teng Lang, what's the matter?” Chu Mu looked at the bold Teng Lang.

“What are you still sitting here for? Do you not know of the huge crisis that occurred?” said Teng Lang, somewhat anxiously.

“What huge crisis?” asked Chu Mu, confused.

“Snow City. A huge upheaval appeared in the Snow City area, destroying numerous cities in a night!” said Teng Lang.

Teng Lang himself had come from Snow City, and had a special connection with the city. Now that a huge crisis had occurred there, he was extremely anxious.

“Don’t worry, take your time and tell me what happened?” said Chu Mu.

“I... I don’t know either. That area was sealed off by my father using the army. Many, many people died. It seems to be a disaster, but also seems to be some creature awakening...” said Teng Lang.

“Senior Elder Teng can’t deal with it?” Chu Mu faintly creased his brows.

Disasters occurred all year round in New Moon Land. The vast majority of the disasters were dealt with by New Moon Palace sending members to deal with it. They couldn’t have Chu Mu dealing with these things.

On the one hand, New Moon Land’s strength was steadily increasing so these disasters could no longer pose a threat to New Moon Land. On the other, there was only one of Chu Mu, and he couldn’t attend to every big or little disaster in New Moon Land.

“If we could deal with it, we wouldn’t have come to you. There seems to be a very strong monster that exited Universe Ice Gates. I’m not sure what kind of monster it is, but it’s capable of controlling all of the icy snow land’s creatures. In fact, it even makes them stronger. The army stationed at Snow City isn’t enough. The ice and snow lands have 70 cities and we’re unable to attend to them all. Qingyi has already brought her subordinates and female disciples there, but Qingyi alone is unable to deal with it.” said Teng Lang.

“Universe Ice Gates...” Chu Mu indistinctly felt that something was wrong.

“Let’s go and look.” Chu Mu said with a bit of unease..

Chu Mu had nothing to do now and it wouldn’t take long to get to Snow City.

Promptly, Chu Mu chanted an incantation, recalling Zhan Ye into its soul pet space and summoned Night.

He jumped onto Night’s back and called over Ye Qingzi. Then, he rode on Night, transforming into a dark meteor. In an instant, it flew out of Wanxiang City towards Snow City.

.....

The mountains, forests and rivers were rapidly left behind Chu Mu. Night’s current strength was very close to the low class immortal rank. With its current speed, it didn’t even need half a day to make a round trip in New Moon Land.

They left in the afternoon and before the sun had set, Chu Mu appeared in Snow City.

The earth around Snow City was covered by white snow. On the shoveled pathways moved many people. There were New Moon Palace army members as well as mercenary teams. They were moving in a hurry.

Chu Mu flew straight to Snow City, and landed in Snow City Palace.

After entering Snow City Palace, Chu Mu walked up the long snowy white rug to enter and happened to see a familiar and beautiful figure.

This person standing in the hall was Mu Qingyi. When he thought of Mu Qingyi's sudden kiss on his wedding day, for a moment, Chu Mu didn't know how to face her.

Mu Qingyi also saw Chu Mu. Her eyes evaded his, and were somewhat panicked. She said: "What are you doing here?"

"Teng Lang said the situation here was serious." explained Chu Mu.

Mu Qingyi had come earlier than Chu Mu and understood more about the situation here. Thus, she told Chu Mu about what happened in the Snow City area.

"It began in the most northern Ice City and continued to Chang Qin City a hundred kilometers away from Snow City. Everywhere from Ice City to Chang Qin City suffered a certain amount of destruction and there are a few tens of thousands of deaths from each city. In total, there are probably a million people who have lost their lives in the disaster."

“Additionally, Ice City is an eighth rank kingdom city with nearly a million people inside. Right now, the city is surrounded by monsters and our army is unable to breakthrough. If this persists for another two or three days, the entire city will fall.” said Mu Qingyi.

Chu Mu was stunned. Ice City was a famous city in New Moon Land. The army strength and soul pet trainer numbers it had weren’t few. All together, there were nearly a million citizens. Yet, such a city was facing a crisis of destruction.

“Why didn’t anyone tell me about such a huge event?” said Chu Mu.

This matter concerned an eighth rank realm city and a crisis that affected a huge part of a kingdom. Chu Mu didn’t understand why it took so long for him to find out. If he had immediately been informed, he would be able to resolve the matter in one trip. He wouldn’t have to wait for 70 or so cities, big or small, to descend into the crisis as well.

“They were blockaded, and it was difficult for them to get news out. Moreover, the explosion of turmoil was extremely fast. Our army wasn’t even able to react in time.” said Senior Elder Teng.

“Chu Mu, let’s take a trip to Ice City.” Mu Qingyi was worried about the safety of the people there.

Mu Qingyi had a few Divine Sect members as subordinates. These subordinates had been split up and sent to cities more heavily affected.

The seven stronger female disciples in her Heavenly Concubine palace were also in charge of those cities. However, she clearly lacked subordinates and needed to rely on New Moon Palace’s support.

The army's movement speed would definitely be slow while an immortal rank expert's mobility was comparatively strong. However, immortal rank experts had things they were in charge of. Thus, it was impossible to summon New Moon Land's immortal rank experts in one go.

"Ok." Chu Mu nodded his head and glanced at Senior Elder Teng, "Senior Elder, have someone send a few experts from Tianxia City and Soul City. Ensure that each city has 200 dominator ranks and 500 emperor ranks stationed there."

"King Chu, isn't such huge large mobilization excessive?" said Senior Elder Teng.

There were a total of 70 cities affected. Chu Mu's order was dispatching 1400 dominator rank experts and 35 thousand emperor rank experts!

This was a huge force. Although New Moon Land was small, but it had never mobilized such an army formation at once.

"This is just to be prepared. Also, I don't think this matter is quite so simple." said Chu Mu, seriously.

"Yes." Senior Elder Teng also had such a premonition since this matter had arrived suddenly and savagely.

Seeing that Senior Elder Teng was about to give the order, Chu Mu still felt it wasn't enough. He retrieved a token from his spatial ring and handed it over to Senior Elder Teng, saying: "Have New Moon Navy send a team over."

"New Moon Navy?" Senior Elder Teng was stunned.

New Moon Navy was New Moon Land's most valiant group of troops, outside of the King's Holy Guards. The average strength of the inner navy members was the middle class dominator rank!

An army with the average strength at the middle class dominator rank in Zhengming Main City could only be mobilized by a few older big sects.

Chu Mu had just summoned 1400 dominator ranks and 35 thousand emperor ranks. This was already a huge helping hand. Did he really have to also mobilize New Moon Navy?

"Yes, their assistance speed will be much faster." said Chu Mu.

"This... the navy is settled in Eternal Ocean. Will something happen in Eternal Ocean if we send them over here?" said Senior Elder Teng.

"No. Eternal Ocean is, after all, under the control of Wupan Navy." said Chu Mu.

Senior Elder Teng didn't say anything further. Since Chu Mu had given the order, he would do as said. Moreover, with New Moon Navy mobilized, the turmoil would probably be pacified very quickly.

Senior Elder Teng was in charge of this area, so why would he hope to watch these people stuck in a terrible situation?

After Senior Elder Teng left, Mu Qingyi looked at Chu Mu and asked: "Did you sense something?"

Chu Mu nodded his head and said: “Do you remember the Ice Palace under the Universe Ice Gates?”

“I remember.” Mu Qingyi ostensibly also remembered the feverish kiss with Chu Mu in Universe Ice Gates and for a moment, didn’t dare look at Chu Mu’s eyes.

“There were two paths in the wind cave. One led to the Ice Palace. We didn’t enter the other, but that one leads to a wind palace. I went in once.” said Chu Mu.

“Is it the place you said has the Ancient Flood Dragon Person?” asked Mu Qingyi.

“Yes. The icy snow area is very close to the wind palace. Perhaps the Ancient Flood Dragon Person has awakened.” Chu Mu creased his brows as he spoke.

“Ancient Flood Dragon Person... can we deal with it?” Mu Qingyi said, somewhat worried.

Chu Mu shook his head. If the Ancient Flood Dragon Person had truly awakened, Chu Mu would probably be helpless against it.

Given that it was a creature called the Son of Eternal Ocean, its abilities were definitely supreme. The entirety of New Moon Land would descend into its darkest period.

Chu Mu could only hope that this matter had nothing to do with the Ancient Flood Dragon Person’s awakening. Indeed, his current strength was incapable of fighting the Ancient Flood Dragon Person.

## Chapter 1466: Disaster, Monsters Throughout the Glacier

Mu Qingyi and Chu Mu's flying speeds were both fast. It didn't take them long to reach Ice City from Snow City.

The army was unable to enter Ice City because this area of icy snow land was occupied by ice type creatures. Both the air and sky were difficult to traverse.

Mu Qingyi currently was at the immortal rank. Furthermore, Ye Wansheng and Prince Chao hadn't neglected their cultivation either and had entered the immortal rank.

Chu Mu led the way, but their cultivation hadn't fallen behind too much.

Moreover, New Moon Land didn't lack resources now. As the cornerstones of New Moon Land, if they needed immortal items, New Moon Land would naturally provide it to them first.

As they flew across the glacier land, they looked down and could see countless creatures moving about on the white land.

These creatures seemed to be an army under someone's command. They formed a blockade that delineated their territory and prevented humans from entering!

The northern side of Snow City had a glacier land and even further north from there was the North Ice Forbidden Region.

Ice type tribes, empires, and dynasties all existed in this forbidden region. This disaster had definitely mobilized the soul pet army of the North Ice Forbidden Region's dynasties. Otherwise, with New Moon Land's current strength, 70 of its cities wouldn't have instantly fallen.

On their way, they saw a few cities, and Mu Qingyi wanted to fly down and help them. However, when she considered Ice City's situation, which was in even more of a crisis, the two of them couldn't delay. They flew straight to Ice City.

Ice City was situated at the foot of a glacier mountain range. The glacier mountain range was a bewildering world and was connected with the glacier forbidden region. The glacier mountain range seemed to be the entrance the glacier dynasty used to pour in. Ice City acted as a necessary stronghold. The fact it hadn't been razed when a dynasty rank disaster broke out was already a miracle.

"Why are there so many Ice Mountain Monsters!" Mu Qingyi rode on her Ice Tiger and looked down with shock below.

The white colored land was densely packed with snow white-furred Ice Mountain Monsters. They covered the glacier mountain range, the glacier plains and those with wings even occupied the low altitude levels of the sky.

These monsters engulfed the endless glacier land. The single city in turmoil, under the besiegement of these ice mountain monsters, seems particularly insignificant.

It was difficult to imagine that Ice City would be able to survive until now with such a terrifying glacier disaster.

Mu Qingyi was concerned about the safety of the citizens and she urged the Ice Tiger to immediately land.

Chu Mu followed closely behind. The ice mountain monstrous birds circling the sky wanted to block Chu Mu and Mu Qingyi, but the Ice Tiger's roar caused them to scatter in fright. They no longer dared block them.

After passing through the cloud of gathered ice mountain monstrous birds, Mu Qingyi was able to fully see Ice City.

Mu Qingyi had come to this city before. She remembered that its buildings were built from ice crystals and even the streets were lined with glossy ice. While walking down the street, it was like entering an ice crystal kingdom.

However, the refined ice crystal city was now changed beyond recognition.

Destroyed buildings, vestiges from fighting, and corpses of both humans and soul pets dripping with blood could be found everywhere.

The outer part of the city and middle part of the city were filled with destruction. The ice mountain monsters with their tusks and claws had passed through the ruin straight towards the city's final defensive line. They were greedy and savage, like a pack of hungry wolves. They formed groups and there were numerous amounts of them.

The outer city and middle city no longer existed. By looking at the destruction and rivers of blood, it was possible to imagine how cruel the fight had been!

Countless city guard bodies were half-buried under the ice while numerous courses had been bitten in half by the glacier monsters. Occasionally it was possible to see a soul pet trainer running out from a destroyed building. However, the tides of ice mountain monsters would eat him up within a few seconds until not even his bones remained...

In the destroyed middle and outer cities, there were only a few scattered humans hiding in the ruins or in the pile of monsters. They were unable to retreat in time or save those trapped.

Their eyes were peering out from cracks as they held their breath and surveyed the outside situation. Every time they saw groups of three or four white-colored monsters walk next to them, they would stop breathing, afraid that these monsters would dig them out to eat.

“I... I just saw two soul pet trainers.” an extremely weak voice came out from the ruins.

“Were they surrounded?” asked a middle-aged man in panic.

“Let them hide here. Those monsters are still nearby.” a woman’s voice rang out.

“They seem to have been surrounded, but also not... Big Sister Zhuo Wan, they flew away...” a weak voice said.

“Flew away?” the middle-aged man was stunned. He finally realized that these two people were definitely extremely strong soul pet trainers. Otherwise, they wouldn’t be able to fly through the city filled with monsters.

“Were you able to clearly see who they were?” hastily asked Zhuo Wan.

“No, but they seem to be a man and woman. The man is riding on a black colored Dream Beast while the woman is riding on a White Tiger. They’re flying in the direction of the inner city.” said the weak young man.

Zhuo Wan was silent. Those two people were definitely strong and were here to help.

However, why were there only two?

There were over a million monsters occupying the city. Even if they were strong, they wouldn't be able to delay the destruction of the inner city. Moreover, the people dispersed through the ruins of the inner and outer city could only hide here and wait to die.

If a dominator rank or above monster were to walk past here, their perception abilities would be able to detect the aura of a human; that would spell their death as the monsters would eat them alive.

"Ai, Zhuo Wan, why are you so foolish. It would have been better if you and the team retreated to the inner city. It's better than being trapped here with us old and weak people." said an old woman as she sighed.

Zhuo Wan didn't say anything. She was a support soul pet trainer and was normally in charge of healing and army logistics.

When the monsters invaded, Zhuo Wan could have left, but she couldn't bear to watch the old men and children be crushed by the monsters.

Many, many people had died in this period of time. Of the rescue team she brought, there currently only remained her and a few dominator rank experts. The others had lost their lives defending the outer and middle city.

“Will we die here?” asked the weak young man.

He was someone who had just stepped onto the soul pet path not long ago. His family was made up of soul pet trainers and their strength was in the middle of the pack in Ice City. However, they were unable to escape the misfortune of the monster invasion.

The young man had watched the Ice Mountain Monsters kill them while he was hiding in the ruins. In that moment, he had yearned for boundless strength to kill these cruel monsters and save the people who had shouted for their lives before ultimately being dragged off.

However, he had failed to do so. He couldn't even beat a single ice mountain monsters let alone over a million monsters.

“Someone will come save us.” Zhuo Wan rubbed the young man's head and earnestly said, “There's still a long way for you to walk on your cultivation path. You will enjoy the happiness from your strength rising one step at a time as you slowly become an expert.”

“Ok.” the young man repeatedly nodded his head.

.....

Chu Mu and Mu Qingyi flew into the inner city.

Mu Qingyi was in a terrible state of mind. She could sense that many people were trapped in the middle and outer city.

She wanted to save them, but when she saw the inner city fort which was almost about to be engulfed by monsters, she had no choice but to temporarily forget about saving them. She had to first help defend the inner city. The moment the inner city was broken through, more people would die.

“Don’t worry, they will be fine.” Chu Mu patted Mu Qingyi’s shoulder as he consoled her.

“Ya.” Mu Qingyi nodded her head.

Chu Mu had the strength to obliterate a large area. However, he couldn’t just release this strength in the middle and outer city because there were many survivors scattered there. He had to save them all first before he could use a large range technique to kill the monsters.

Currently, the priority job was to help the inner city repel the surging monsters outside the defensive fort.

“Devil Tree Battle Soldier!”

Chu Mu chanted an incantation and flew to the fort as he summoned the Devil Tree Battle Soldier.

The fort was composed of a city wall, sentry mounds, elemental towers, an ice barrier, and a plant barrier. Once he summoned the Devil Tree Battle Soldier, he immediately ordered it to add a layer of roots onto the entire fort.

The plant barrier was about to be ripped apart, but once the Devil Tree Battle Soldier added its plant barrier, it immediately filled in the ripped open spaces and repelled the monsters once again.

The city wall was protecting the inner city. Several tens of thousands of soul pet trainers stood orderly on the city wall. There were also many people in the sentry mounds and elemental towers. Altogether, there were about 100 thousand people. However, by looking at their equipment and their soul pets, their strength was very uneven.

There were many ice type monsters that advanced wave upon wave. The first wave had 100 thousand alone, not including the ice mountain birds soaring in the sky.

“Ghost King!”

Chu Mu chanted an incarnation, summoning the absolute defense Ghost King!

The Ghost King’s body was incomparably tall and sturdy. Standing outside the inner city’s wall, it resembled an enormous mountain barrier that repelled all of the ice mountain monsters.

“Heavens, what is that?!”

A mountain had abruptly stood up. The stunning scene was witnessed by all of Ice City’s city guards. The enormous curved sword in its hands was even more imposing and tyrannical. With a single swing of its sword, how many ice mountain monsters would it be able to annihilate?

“It’s a Ghost King! I’ve seen this creature before, but why is this Ghost King so huge?!”

Inside Ice City, everyone was alarmed because the number of monsters was several times the number of soul pet trainers. The monsters were also stronger.

However, for some reason, with this mountain-like Ghost King standing in front of them, everyone felt much more steadfast!

This was the aura of an immortal rank Giant species!

Chapter 1467: Ice City, City Lord Bing Li

A thick ghost aura coiled around the blade of the enormous sword!!

“Nong!!!” following a roar, the terrifying enormous sword in the Ghost King’s hands smashed to the ground.

The curved sword was extremely wide, while the area around the sword was filled with ghost aura. As the sword moved down, a crushing force descended right upon the clusters of ice mountain monsters!

“Hong!!!!!”

Bloody meat flew through the air. After the curved sword landed, three or four thousand Ice Mountain Monsters were instantly crushed into meat paste. Moreover, the sword aura and ghost aura that proliferated from where the sword landed terrifyingly engulfed the area, obliterating these Ice Mountain Monsters!

This sword had probably instakilled over ten thousand Ice Mountain Monsters. An empty space appeared in the mass of monsters where the sword had fallen. This empty space was filled with bloody corpses.

The Ghost King's sword left the soldiers and soul pet trainers defending the city wall dumbfounded.

There were many experts in Ice City that had reached the dominator rank. However, even their soul pets' full strength attack which could annihilate a thousand ice mountain monsters would already make people feel like they were invincible. Thus, who would imagine that somebody in this world could annihilate ten thousand enemies with a single sword in this world?!

"Is this really the Ghost King??"

"I heard in my travels on the outside that above the dominator rank is the immortal rank. Could this be the immortal rank?!"

"Yes. If Ice City had one or two of these creatures defending, they would be able to deal with a million of the ice mountain monsters!"

Just as Ice City's people were feeling panicked and hopeless, the Ghost King appeared like a god. Its astonishing sword was a hope of survival that everyone could see!

Chu Mu and Mu Qingyi landed in the inner city. The two of them stood at an elevated location and Mu Qingyi used a metal voice to say: "Who is the city lord? I am Mu Qingyi. I need to understand Ice City's current situation."

"Who is Mu Qingyi?" asked a young general, confused.

"You don't know War Goddess Mu Qingyi? I didn't realize it was her who came!"

Mu Qingyi's fame was extremely high in New Moon Land, only second to Chu Mu. In the past few years, the sudden changes that had occurred had something to do with her. Her status amongst the citizens was the extremely revered and adored war goddess. The Heavenly Concubine Palace she had established had also often appeared in cities that were affected by disasters to help alleviate the disaster.

Mu Qingyi's arrival now caused those who knew of her to immediately sigh in relief.

However, they were still afraid. There were over a million Ice Mountain Monsters through the glacier lands. Additionally, there were countless monsters roaming outside the city. Could Mu Qingyi alone help them all repel these monsters?

Ice City's City Lord was a woman who looked very young. Her skin was snow-white like an icy snow sculpture. She looked pure and beautiful.

This young female City Lord quickly flew to the city tower and gave Mu Qingyi a simple bow.

Mu Qingyi could see that this young female City Lord's complexion was haggard. Presumably, this disaster had taken a heavy toll on her mind and spirit.

However, she was still able to preserve the city under this disaster, and Mu Qingyi could also see that around half of the citizens were in the inner city. Clearly, this female City Lord had given her all to protect this city.

"How many defending army members are in the city?" asked Mu Qingyi.

“50 thousand members from the army as well as another 50 thousand formed by inner city soul pet trainers. While they may be a bit disorderly in terms of dispatching, but there is no lack of experts among them.” said the female city lord.

“How many dominator rank experts are there?” asked Mu Qingyi.

“Including me, there are only 40.” responded the female city lord.

“40?” Mu Qingyi faintly creased her brows.

Just now when she flew over with Chu Mu, both of them had sensed that there were many Ice Mountain Monsters of the dominator rank. These dominator rank Ice Mountain Monsters could cause fatal damage to the city’s defense. If they didn’t have corresponding dominator rank members to face them, the city’s defense would quickly be destroyed.

“We sent an urgent correspondence 20 days ago to Wanxiang City. I estimate that they should have received it half a month ago. We even had someone send it directly to King Chu.” the female City Lord said as she looked at Mu Qingyi.

The female city lord was called Bing Li and she carried grievances in her heart.

She had anticipated the outbreak of the disaster and even anticipated that it would be a severe situation. Thus, she sent an urgent request for assistance to Wanxiang City and even had someone personally give it to King Chu, because she felt that probably only King Chu had the strength to resolve this matter in New Moon Land.

However, it had been a long time since, and not a word back had come.

Snow City's army strength was limited and this disaster was at the dynasty rank. Snow City didn't have enough strength to protect Ice City.

She was dissatisfied because she had sent the urgent correspondence and even guessed that it would be delivered after the wedding. Why wasn't it seen as important?

Even if it was a wedding between the king and queen and King Chu couldn't personally come, why didn't they send someone to defend this place? Could the king just ignore the lives or death of his own citizens because of his wedding?

The grievance had been harbored inside Bing Li for many days because she had watched the citizens of her city die day after day.

"Are you blaming others?" Mu Qingyi was able to easily recognize Bing Li's tone.

"I don't dare." Bing Li lowered her head and didn't say anything. However, her cold eyes were telling Chu Mu that she had a lot of grievance inside her heart.

"Yes, but so what?!" a few general behind Bing Li couldn't help but speak out at this moment.

These generals' eyes were bloodshot. It was unknown how many days it had been since they had rested.

They knew the city lord was unwilling to criticize the lack of organization of these leaders. However, they couldn't hold back their temper.

"We sent the urgent correspondence 20 days ago. We didn't hear a reply at all after delivering it to Wanxiang City. 20 days ago, the glacier was still fissuring and there weren't this many ice mountain monsters."

"That's right, if Wanxiang City had placed importance on this matter earlier and sent experts to come defend, not this many people would have died. Did people get too drunk and disoriented from drinking too much at the wedding and ignore the lives and deaths of us people who live in a faraway place?" a few of the generals spoke up indignantly.

Bing Li glared at these generals and gestured at them to shut up.

Even if they had these emotions in their heart, they didn't need to say it out loud. At least when an expert at the level of Mu Qingyi had personally arrived, they didn't have the qualifications to say it.

"He is King Chu. If you have anything you're dissatisfied with, just tell him." Mu Qingyi pointed at Chu Mu next to her and calmly spoke.

City Lord Bing Li and the generals were stunned. They looked with disbelief at Chu Mu who hadn't said anything.

They were dissatisfied inside, sad for the people who had died and angry at Wanxiang City's inaction. However, they never expected that King Chu would personally stand in front of them!

Chu Mu had come together with Mu Qingyi. He hadn't said anything because he wanted them to subconsciously think he was Mu Qingyi's subordinate....

"This subordinate deserves to die." Bing Li and the generals hastily knelt down.

Their words just now were obviously offending a king. There were things that could be said to his face and behind his back. But these were two completely different things. The words behind his back could be resentful, but if they were said to his face, that would be a disgraceful crime worthy of death!

"Three things. First, I didn't receive your urgent correspondence. As for why, I will find out why when I go back."

"Second, summon those 40 dominator rank experts."

"Third, the status of king wasn't bestowed by you, nor was it bestowed by me. I'm a very cold-blooded person and only care about the lives and deaths of those I care about. I've never asked for anything from your land. Don't think that protecting you is my duty."

Chu Mu's words were very cold. Even if he wasn't standing at a tall location, he still had an arrogant and overlooking attitude.

When these generals heard Chu Mu finish the three things, their faces went pale. Their lips were trembling and didn't dare say anything.

Female City Lord Bing Li hastily knelt down and prostrated her body almost fully onto the ground. She pleadingly said: “Apologies, we should not have offended you. Please help save our Ice City’s citizens.”

City Lord Bing Li knew that this time she had faintly angered the king. She saw that it was taking him a while to respond, but didn’t dare look at his ice-cold eyes. She hastily said: “If you are willing to resolve our city’s crisis, I will be willing to be your servant.”

The generals behind her were instantly stunned when they heard this.

Wasn’t City Lord Bing Li effectively gifting herself to this young king?

“How many survivors remain in the middle and outer cities?” Chu Mu didn’t argue with them.

Bing Li slightly raised her head and softly said: “They are scattered among the monster pack. We are unable to even defend the inner city right now so we don’t dare send people out to save them.”

“I’ll leave the Ghost King and Devil Tree Battle Soldier in the inner city to help defend. Mu Qingyi will also personally participate in the fight. With the 50 thousand army members and 50 thousand other soul pet trainers working together to defend, the inner city’s safety probably won’t be a problem. I will go and save those survivors in the middle and outer city.” said Chu Mu.

Bing Li felt a wave of ecstasy when she heard this.

Her younger brother had fallen into the monster pack, but as the City Lord, she didn’t dare put the lives of the entire city’s citizens in danger. Therefore, she didn’t send anyone out to save him. This was the main reason why she had grievances in her heart.

She knew that even if help arrived, her little brother would have died amidst the monster pack because nobody dared to save someone from the monsters.

However, now that King Chu was going to personally save people, with his absolute strength, he would be able to move as he pleased through the monsters. When she thought of the fact that her brother could be saved, her heart was filled with thankfulness and she repeatedly kowtowed in thanks.

“Call over those 40 dominator ranks.” Chu Mu waved his hand. Having a snow-white and pure woman was a bit inhumane.

“Yes, Bing Li will go and do that!” Bing Li stood up and hastily sent people to summon those dominator rank experts.

The generals behind Bing Li didn’t dare say anything. Chu Mu’s aura just now had suppressed them to the point where they almost stopped breathing. This was the first time they felt that someone could be so terrifying just from saying something!

Chapter 1468: Saving People from a Million Monsters

After the City Lord and the generals left, Mu Qingyi glanced at the stern Chu Mu. She softly asked: “Are you angry?”

Just now, Chu Mu had been slightly scary. At least to people who had never met Chu Mu before, he only needed to have a slightly imposing tone, and their minds wouldn’t be able to bear it. Indeed, the soul remembrance of a spirit immortal rank was too strong compared to these normal soul pet trainers.

“No.” Chu Mu shook his head.

Chu Mu couldn't be bothered to get mad at them. He was mad at the fact that they thought they were entitled to criticize his and Ye Qingzi's wedding.

In Chu Mu's eyes, even if all of New Moon Land's people died, as long as this didn't include the people he cared about, he would still hold a wedding on a river of blood.

From the beginning, Chu Mu had a clear identity. He was a cultivator. He became the king because other people viewed him as such. He was willing to protect New Moon Land because the people he cared about were willing to protect New Moon Land.

He never considered himself a savior. In fact, he carried a killing aura even heavier than some evil people. If New Moon Land's people wanted to view him as a kind king, they were bound to be disappointed.

"I almost thought you weren't going to save the people here, even after seeing them in danger," said Mu Qingyi as she continued, "Speaking of which, even if you don't think that saving them is your job, don't say that. You're the king after all and such words will hurt people."

Mu Qingyi knew that a king didn't need to apologize.

"I'm a very genuine person, and people should understand my style," said Chu Mu.

"You really are a strange person." Mu Qingyi had a kind heart, but wouldn't demand Chu Mu to have one too.

“I’m an eccentric.” corrected Chu Mu.

“Try and save those people trapped in the outer and inner city as best as you can. Consider it as helping me. Didn’t you say that you only care about saving those who you care about? Then am I part of this group of people?” Mu Qingyi glanced at Chu Mu and asked the question in a very serious and proper manner.

“Sure,” once again, Chu Mu remembered the sudden kiss by Mu Qingyi. His eyes couldn’t help but flicker towards Mu Qingyi’s moist lips. He felt weak in his heart and quickly averted his gaze.

“Yes means yes, and no means no. Then what is “sure”?” Mu Qingyi didn’t let him get away with that answer.

Chu Mu was stunned. What was up with Mu Qingyi today? In the past, she would avoid these questions. Why was she being so direct, recently?

Chu Mu was a married man, and didn’t know how to respond when being questioned by a woman about ambiguous feelings.

“Oh, oh, they’ve come. I’m going to save people.” Chu Mu decisively changed the topic.

Mu Qingyi pouted her lips. Both elegantly and coldly she said: “And you said you were a genuine person?”

Chu Mu acted as if he didn’t hear her, and flew from the city tower to the wide city wall.

Bing Li brought a total of 30 people, not 40 which she had said. These people looked tired. The defensive fight had probably exhausted much of their strength.

When these dominator rank experts saw Chu Mu, their exhausted eyes immediately lit up and they respectfully gave a simple bow to him.

“King Chu, that Ghost King is your soul pet, right?” said a young spirit dominator who looked about the same age as Chu Mu. It was possible to sense the respect and reverence he had towards Chu Mu.

The Ghost King stood high and mightily. Its aura was able to suppress the ice mountain monsters until they couldn’t move forwards. It was as if a single soul pet was capable of protecting a city. There was nobody who wouldn’t envy such strength.

“With it here, the city will definitely be safe.” said another spirit dominator.

“We’re going to battle the Ice Mountain Monster Army. There will be danger. Everyone prepare yourself.” Chu Mu said to the dominator rank experts.

“With King Chu leading the way, what do we have to be afraid of?!” said the young soul pet trainer that spoke first.

“That’s right. We’re not afraid. No matter what comes, we won’t be afraid.” the others showed no expression of fear.

Most people who were able to reach the dominator rank had gone through many tempering experiences of life and death. Perhaps saving people from a monster pack was a method of training to help them breakthrough.

“City Lord Bing Li, stay here in the city, and help Mu Qingyi defend the city.” Chu Mu glanced at City Lord Bing Li.

Bing Li wanted to go out and save people because her younger brother was trapped in the middle city. However, since King Chu didn’t want her to go, she obviously wouldn’t leave without his permission. Currently, the inner city was overpopulated and people were feeling uneasy. As the city lord, there were many things she had to do.

Defending the city and charging into the monster pack to save people were two completely different things. Defending the city required, at least, a barrier, a fortress, a city wall and multiple defensive measures like plants when clashing with ice mountain monsters. Unless the defenses were broken through, the casualties wouldn’t be excessive.

On the other hand, saving people from groups of monsters was an extremely risky task because every person would be surrounded by countless ice mountain monsters. Without absolute strength, it would be impossible to brashly charge in.

This was also why Chu Mu only chose the dominator rank experts for this.

Under the city wall, thirty four dominator rank experts followed Chu Mu into the chaotic middle city.

The middle city was nearly reduced to ruins. Occasionally, a few buildings would teeter as Ice Mountain Monsters would climb on them.

In the sky, countless Ice Mountain Birds circled around, letting out unpleasant shouts that were ear-piercing and sharp.

“Let’s split up and move. Each of you choose a certain number of people to save according to your strength. Once you reach your limit, it doesn’t matter how many people are trapped in the same place, you must return to the inner city and send those people back to a safe place first.” Chu Mu instructed everyone.

Saving people was harder than killing people, because after every dominator rank expert saved someone, they would have to take these people who weren’t that strong through the ruined middle city where Ice Mountain Monsters roamed. They would have to avoid the huge wave of ice mountain monsters attempting to attack the inner city and return to the inner city themselves.

The people who weren’t strong would ultimately be a burden and may accidentally drag the dominator experts down. Therefore, among the 40 dominator experts, it was imaginable that there were some people who didn’t dare attempt such a dangerous task.

“The moment any of you are surrounded, immediately send a signal to me. I will get there as soon as possible.” Chu Mu continued to speak.

Everyone nodded their heads. With a powerful immortal rank expert like Chu Mu acting as a safeguard, they would have more confidence going to save these people.

The 30 dominator rank experts split up and moved. They rode on their soul pet trainers and nimbly sped through the ruined city. Using their perception, they searched for the survivors hiding.

There were many corpses in the middle city. The remnants of the streets and houses were filled with flowing blood on the icy ground. It dyed the white-colored icy city into a gaudy red color.

Many of the ice mountain monsters roaming the middle city were using their noses to continuously smell the area. They were ostensibly aware that this enormous city was hiding many humans. In their eyes, these humans were but mere puny and tasty rabbits. They only needed to find them and they would have a tasty meal.

Every once in a while, from some corner of the city, miserable cries would ring out.

Obviously, some person who wasn't hiding well enough was discovered and had become prey for these Ice Mountain Monsters.

Every time the other people hiding in the ruins heard the miserable cries, they would feel their hairs rise because they didn't know when such a tragedy would befall upon them.

They knew that they would die, but they didn't have the courage to end their own lives. Yet, who was willing to have their precious body ripped apart by the monsters' claws and then bitten into...

"Big Sister Zhuo Wan, I saw the man riding the black Dream Beast again." said the weak young man with excitement.

"He's definitely an expert sent from Wanxiang City to help!" Zhuo Wan's eyes lit up and she felt much more relieved.

"What does it matter if help comes. They will only be able to protect the inner city. Us people will definitely die. Nobody will come save us. Even if an elemental army comes from Wanxiang City, they may use their elemental destruction to destroy the enemies as fast as possible; some of that may land on us and eradicate us along with the monsters." said a trapped middle-aged man.

After the middle-aged man finished speaking, the young man's eyes dimmed. He looked at the adjacent wounded and exhausted Zhuo Wan as he softly said: "Big Sister Zhuo Wan, is that right?"

Zhuo Wan remained silent. She couldn't refute this possibility.

Sending more people to save these scattered citizens would only lead to more deaths. Unless the ice mountain monsters retreated first, even if help came, a single explosion capable of hitting them would annihilate them along with these ice mountain monsters.

The young man saw that Zhuo Wan wasn't saying anything and was able to guess as much. For a while, he stopped peering outside.

He gloomily sat against the wall that was full of ashe. He looked at the many wounded people next to him. For a moment, the destroyed cave of people were silent.

"I wonder who the man riding on the black Dream Beast is. He's able to ride through the million Ice Mountain Monsters as he pleases." muttered the young man.

"Riding in between the monster pack?" Zhuo Wan was stunned.

"Not riding in between. He's simply walking in the air. For some reason, no matter the Ice Mountain Monster on the ground or Ice Mountain Bird in the sky, none of them dare approach him." said the young man.

“Hmph, how is that possible? There are a million Ice Mountain Monsters and even their spit is able to drown people to death. How can they not attack the person you’re speaking of?” said the middle-aged man.

But it’s the truth! Those monsters don’t dare attack him! I saw him pass right through!” the young man was unhappy.

He had personally witnessed it. Could he have been wrong?!

“How can such a powerful person exist in this world? You’re definitely hallucinating.” said the middle-aged man.

“If you don’t believe me, you can go look. If I tricked you, I’ll go out right now and feed myself to these monsters!” said the young man somewhat angrily.

This middle-aged man was always so pessimistic, making everyone feel as if there was no hope of surviving. Obviously, this young man was unhappy.

Chapter 1469: The Person Ignored by the Ice Mountain Monsters

A person able to pass through the million savage Ice Mountain Monsters?

Even Zhuo Wan was unable to imagine that. She knew that there were many, many experts in this world. However, she had personally witnessed a city be reduced to ruins by a million Ice Mountain Monsters, and countless somewhat famous soul pet trainers miserably die when surrounded by monsters.

She could understand what a million Ice Mountain Monsters meant. However, she was unable to understand how strong a person had to be in order to move as they pleased through these monsters.

When the middle aged man peered through the crack to the outside, Chu Mu had already disappeared from this area. He then spoke a few words that made everyone feel hopeless.

The young man looked peeved. He sat there and looked rigidly at the outside. He believed that the man riding on the black Dream Beast just now would appear again.

Indeed, not long after, he saw that incredibly revering figure appear again. However, what shocked the young man was that this figure was bringing a group of wounded people away as he flew straight across the sky.

The young man wondered if he was hallucinating and quickly rubbed his eyes.

There really were wounded people, about 50 of them. The man riding on the black Dream Beast was bringing 50 wounded survivors towards the inner city.

The scene quickly disappeared because they were moving too fast.

The young man knew that even if he said it, these people wouldn't believe him. Thus, he just kept watch there.

That man riding on the black Dream Beast was definitely here to save people. Once he returned this group of people to the inner city, he would come back. If he waited for him here, and had other people come and look, they would believe that someone was coming to save them.

.....

Zhuo Wan was very tired. She closed her eyes and rested there, silently sleeping.

She knew she would die, but didn't regret it. This was her choice. She only hoped that the young man next to her would be able to escape. He was a soul pet trainer with a lot of talent.

The middle aged man was only a normal business man. He didn't want to die, but was also very pessimistic. The feeling of waiting for death was a form of torture and suffering.

The others also trapped here were feeling down. They weren't saying anything, and were no different from dead.

“Over here!! We're here!!!”

Suddenly, the young man let out a throat-ripping roar that startled everyone trapped here.

His excited roar was like he saw someone coming to save him.

But didn't he know that roaring like that would attract all of the Ice Mountain Monsters here?

They knew they would die, but they didn't want to die now, especially when they thought of those terrifying cries of misery earlier.

“Brat, are you crazy?!!” the middle aged man was greatly angered.

Zhuo Wan was also startled by the young man’s cry. She hastily covered his mouth and said: “Don’t yell!”

“There’s... there’s someone here to save us...” said the young man.

“Even if someone is here to save us, you can’t yell. You’ll put the people here to save us in a predicament!” sternly said Zhuo Wan.

By yelling, the nearby Ice Mountain Monsters would come and surround them. This would add difficulty for the rescue team.

The young man was stunned. He didn’t think about this. He, in hopes of surviving, had really hoped these rescuers would know he was there.

“We’re dead because of you!!” the middle aged businessman haggardly sat on the ground.

Their final hope of surviving had been crushed by the young man’s yell.

“Hou hou hou!!!!!”

“Ao wu!! Ao wu!!!!!!!”

Indeed, the nearby Ice Mountain Monsters heard the human yell. Like clouds, they frantically rushed over here. The unstable ruins they were in began to continuously shake as dust fell.

Everyone cowered in fear, holding their mouths as tears streamed down from their eyes.

They had struggled on their deathbeds for so long so when death actually arrived, it easily managed to break their mentals.

“Beng!!!”

An ice colored claw broke through at the top of the ruins, sweeping the half-collapsed roof away. Everyone hiding in the stone room was fully exposed under the sky.

The middle aged businessman raised his head and suddenly saw an extremely enormous face. This face covered the entirety of his head. Its mouth was full of sharp teeth and it looked terrifying.

Zhuo Wan also looked up. When she saw the enormous Ice Mountain Monster, her heart violently beat.

It was a dominator rank Ice Mountain Monster!

This time, it was truly a disaster they would have trouble escaping from. Zhuo Wan closed her eyes and faintly sighed. She stopped any resistance because she knew that a dominator rank Ice Mountain Monster, even without using techniques, could crush these people to pieces, let alone the nearby hundreds if not thousands of Ice Mountain Monsters continuously gathering here.

When the young man saw the monster, his mind went blank, and he forgot to think.

He was able to see a few powerful monsters walk across or fly across in the past through the crack. However, he never expected that when these monsters were so close to him, he wasn't even able to breathe. He couldn't even move a finger.

In front of such a malevolent and terrifying monster, who could survive? Its savage eyes had no trace of mercy. The only thing there was terrifying slaughter!

The young man blankly watched the malevolent head. He saw the monster raise its claws as it was going to crush everyone here into meat paste.

However, for some reason, the speed at which the monster raised its claws was very slow.

After a while, the claw still hadn't smashed down. The stunned young man suddenly discovered a bloody line appearing on the head of the monster that made him so afraid he couldn't breathe.

The bloody line appeared right where the monster's brain was and continued down the monster's face and split its sharp teeth before extending to a place the young man couldn't see.

The monster froze as the bloody line was slowly splitting from its head. A geyser of blood spurted out!!

The blood spilled everywhere, splashing on the young man's face, instantly covering his face in blood.

His eyes were still and unmoving as he watched the monster's skull split and its body separate into two halves!

The others had already fainted, believing that the blood had come from those beside them. They were covering their eyes and cowering in place as their bodies trembled.

Zhuo Wan was still covering her eyes. She had smelled the blood and knew someone could have died. However, she didn't hear any miserable cries.

A while later, Zhuo Wan didn't feel like she had been killed.

"Have I already died?" Zhuo Wan opened her eyes and wanted to see what happened.

Suddenly, she discovered she was still in the same place. Around her, many people had fainted while others were cowering and trembling.

In the ruins, the only person standing was the young man.

The young man was covered in blood and looked striking.

Zhuo Wan's first reaction was that the young man had been killed. But when she took a closer look, she found he was still alive and was merely standing there, covered in a pile of blood.

“What happened?” Zhuo Wan looked at the young man with amazement.

“The monster is dead. The monster was killed!” the young man turned around and his face, covered with blood, cracked a smile. He looked very strange.

Zhuo Wan raised her head and indeed saw half the head dangling above the ruins. From the head continuously poured blood. Clearly, it had been chopped in half by something.

“How was it killed?” Zhuo Wan was baffled.

The young man was still smiling and used his finger to point at a hole opened up in the side of the ruins.

The hole was just big enough for a person to enter. When Zhuo Wan turned around, she discovered a man wearing black garb slowly entering the ruins.

The young man was handsome and cold. Most importantly, he had a calm that no one else present had. It was as if the several hundred Ice Mountain Monsters nearby were like air to him. There was no trace of panic on his face.

The man walked straight in and glanced at the young man with the bloody face. He calmly asked: “Was it you who just yelled?”

“It was me.” the young man hastily nodded his head. A light flashed from his eyes.

The young man knew that the man in front of him was the person who had passed through the million monsters as he willed. He never expected to actually be able to see him, to be able to see, in his opinion, the strongest person in the world!

“Ok, take those people and come with me.” Chu Mu nodded his head and spoke to the young man.

The young man immediately supported Zhuo Wan whose lower leg was injured. At this moment, the others began to open their eyes. They all looked with disbelief at the black-clothed man who had mysteriously appeared.

“Outside... there are thousands of Ice Mountain Monsters outside. If we go out, we’ll be eaten.” the middle-aged businessman finally woke up and looked somewhat uneasily at Chu Mu.

Chu Mu indifferently glanced at these survivors and said: “You can make your choice. If you want to follow me, then come.”

There was already a huge wave of Ice Mountain Monsters rushing here. By the time these monsters arrived, Chu Mu wouldn’t be able to save people from the outer and middle city because it would be like trying to find a piece of grass amidst the surging waves in an ocean.

With only limited time, Chu Mu could only save as many as he could. He didn’t have time to explain as much to this group of people all with different personalities.

“You have one minute. I’ll wait outside,” said Chu Mu.

After speaking, he left the ruins.

There were a dozen people in the ruins. Chu Mu wouldn't waste time advising them to follow him. There were more people in the city who wished to live. He would rather save those people, rather than these cowards who were hiding in the ruins and didn't even have the courage to take a risk.

When Chu Mu walked outside the ruins, the first person to follow him out was the young man whose face was full of blood as well as Zhuo Wan, who he was supporting.

Zhuo Wan walked out of the ruins and could feel the piercing sunlight. She used her hands to block it.

But when she got used to the light from the sun again, she terrifyingly discovered that around the familiar-looking black clothed man were throngs of corpses!

The corpses were sprinkled on the ground and within a certain radius, there was no living creature. Even the dominator rank Ice Mountain Monster's enormous body had been reduced to a corpse that was half prostrated on the ruins!

Chapter 1470: Opening The Path For Three Thousand Refugees!

The youth and Zhuo Wan looked at their surroundings in complete shock. Thunderous roars of monsters were echoing all around them just a moment ago, yet those monsters had already turned into corpses in such a short time. Just how did the man before them achieve such a feat?

"Mister, did you kill all of them?" asked the youth.

"Yes," Chu Mu nodded.

The youth became engrossed in his own thoughts. He was already astonished enough when he had personally witnessed a Dominator rank Iceberg monster getting killed right before him, now he was seeing those ferocious Iceberg monsters scattered around as lifeless corpses.....

Was that not the sort of power that he truly desired? The power to be able to easily kill those ferocious monsters.

The youth wanted to know just how he could reach the level of the man who stood before him.

Zhuo Wan kept examining Chu Mu closely, because she thought that he looked really familiar. After a while, she tried asking, "Are you Commander?"

Commander? Chu Mu had already forgotten that he had that rank. He took a glance at Zhuo Wan again, his stern face finally revealed a smile, "It's you."

"Commander, is it really you?" Zhuo Wan became even more elated from the confirmation.

During the time she was in Snow City, she remembered that a man called Chu Fangchen had once been their army's commander. Zhuo Wan had also encountered him in the library there. After Snow City had won in the battle against Soul Alliance, she had also had a brief conversation with this talented and handsome youth during the victory banquet.

However, for some reason, he had suddenly disappeared. Then, Zhuo Wan had never seen him again.

Zhuo Wan did not know that Chu Fangchen was Chu Mu, the King of New Moon Land. When Chu Mu had appeared at the rubble, she felt a sense of familiarity from him. However, his demeanor gave off a cold feeling, so Zhuo Wan did not dare to ask him carelessly.

“Shouldn’t you be at Snow City?” asked Chu Mu.

“Sister Zhuo Wan is one of the earliest reinforcements that arrived to our Ice City. In order to save us, she was unable to retreat in time when the monsters started flooding in, hence she also ended up trapped in here along with us,” answered the youth.

Chu Mu knew that Zhuo Wan was a support soul pet trainer. Most support soul pet trainers had a kind heart. This was something that was both respectable and acknowledged.

As they conversed, people continued walking out of the rubble. They were willing to grasp onto this small chance of survival.

Chu Mu took a rough count of the people. There were ten people, twelve including Zhuo Wan and this youth.

“Follow me,” said Chu Mu.

He did not wait there any longer and immediately brought the twelve people on the way towards the inner city.

“Relax, Commander Chu is a very powerful soul pet trainer. He will definitely bring us to the inner city safely,” Zhuo Wan consoled the ten people who followed behind her.

Zhuo Wan did not know any of Chu Mu's achievements after he left Snow City. She could calm those refugees down by calling him commander.

After walking for a short while, a bright flame suddenly bloomed in the sky. This cluster of flame had dyed that patch of sky crimson and then it gradually faded away.

Chu Mu looked at that cluster of flame and frowned shortly after.

This was the signal that Chu Mu had agreed upon with those Spirit Dominators who were participating in the rescue. It was obvious that a soul pet trainer was trapped in that direction.

Chu Mu instantly changed the direction he was heading towards the source of the signal.

"What's going on? Aren't we heading to the inner city?" asked a wounded young soul pet trainer.

Zhuo Wan also looked at Chu Mu in perplexion.

"A Spirit Dominator is trapped there, I'm going to save him now," explained Chu Mu.

"No way, it's already difficult for just us to escape, and we still have to save others?" complained the other refugees.

Chu Mu took a glance at Zhuo Wan and spoke, “All of you can follow this direction. There aren’t that many iceberg monsters along the way. There, you can regroup with the other refugees.”

“You aren’t going to protect us?” That young soul pet trainer opened his eyes wide in surprise.

Letting them go by themselves?

That was no different from asking them to straight up commit suicide. They could only take on ten iceberg monsters or so at most. However, there were currently over thousands of those iceberg monsters outside the middle city.

Chu Mu did not answer. After he told Zhuo Wan the route, he immediately disappeared.

Once Chu Mu really left, everyone was dumbfounded. They could not decide whether to advance or just stay still.

“It’s not only the few of us who were trapped, let’s follow his words,” Zhuo Wan did not want the refugees to lose their confidence and immediately led the way.

“Miss, are you sure that you can bring us to the inner city all by yourself?” asked an elderly.

Zhuo Wan nodded without the slightest hesitation, “He was once the strongest person amongst the young generation of our Soul Palace. Even the young master of Soul Palace was no match for him. Young master Teng has already become a high class or peak Dominator now, so he must have grown even stronger.”

There were a few soul pet trainers amongst the refugees, they naturally understood what the concept of a Dominator meant. They also knew just how powerful a young master of Soul Palace was.

Once Zhuo Wan had said that, the refugees calmed down instantly and followed the direction that Chu Mu had pointed out.

As expected, not many iceberg monsters had shown up along that path. As long as they avoided the monsters, they would not encounter any threatening danger.

The group travelled fairly quickly. After a while, they could see silhouettes of people behind some ruined streets.

Zhuo Wan was a kindhearted person. If she encounters other refugees along the way, then she would definitely extend a helping hand to them. Gradually, the team had increased from twelve people to about twenty people.

Soon, a black figure appeared before them.

Chu Mu was really fast. They did not even notice when Chu Mu had appeared.

Chu Mu escorted them for a section of the journey. There were many iceberg monsters appearing along this stretch of the path. If Chu Mu did not escort them, then they would have surely died there.

Night led the way for them. Its aura enveloped this region and those iceberg monsters avoided it and did not dare to come close.

Those twenty refugees were surprised after they saw such a scene. With such a powerful individual helping them, their chances of survival had become even greater.

Chu Mu led the twenty refugees in order to regroup with the Spirit Dominator who had sent the signal.

That Spirit Dominator was leading a group of fifty refugees. There were even some who could not even treat their wounds properly. The scent of blood had attracted many iceberg monsters to them as they moved and hence they were now surrounded.

Luckily, Chu Mu had arrived in time. Otherwise, those fifty refugees would have ended up dead.

“Isn’t that Li Yue who is fairly famous in our Ice City? So General Li Yue has also come to save us!” said the young soul pet trainer in surprise after he saw that Spirit Dominator.

Li Yue was quite popular in Ice City, thinking that he was one of the top individuals in Ice City!

“Yeah, commander sir, you should have told us that you were General Li Yue’s subordinate. We would not have been so scared along the way then,” said those refugees.

The twenty refugees that Chu Mu had brought regrouped with Li Yue’s fifty refugees. The refugee group was now composed of seventy people. Chu Mu felt that this would greatly increase the difficulty for Li Yue, but there was no other choice left now.

Furthermore, there should still be another Spirit Dominator nearby. He should also have around forty people with him. This would make them a group of hundred in total. The size was too large and it would easily be detected by the iceberg monsters.

“King Chu, we need you to escort us this time,” Li Yue saluted and requested with an embarrassed expression.

Li Yue had thought that he could bring those fifty people back, but had almost ended up letting all of them die. Hence, he felt somewhat guilty.

“I will clear the iceberg monsters ahead. You lead them and follow behind me. Bring along any refugees you see along the way, but do not stop. Send the signal again if you encounter any danger,” Chu Mu instructed Li Yue.

Chu Mu would clear a path for those refugees. Then, Li Yue and the other Spirit Dominator would lead these hundred refugees and follow behind. He could not stay around those refugees all the time. After all, Chu Mu had to care about over thirty Spirit Dominators who were spread out throughout the middle city. Even if he was fast, it would still consume too much of his time if he went back and forth amongst those Spirit Dominators.

Li Yue immediately nodded. With an Immortal rank expert opening the path for them, it would certainly be very safe.

Chu Mu disappeared from the group once again. Li Yue only felt as if his sight had blurred for a moment and he had already lost sight of Chu Mu. Seeing that streak of light, Li Yue also felt somewhat envious.

“General Li Yue, why are you saluting him? Isn’t he your subordinate?” asked the wounded young soul pet trainer.

Li Yue glared at that young soul pet trainer, “Don’t speak such nonsense. I don’t even qualify to be his subordinate! He is the strongest person that I have ever met! He alone is opening up the path for over thirty of us Spirit Dominators in order to rescue the refugees. Without him, we can’t even get through this mess, let alone reaching the inner city!”

The refugees who were brought by Chu Mu were dumbfounded.

Opening the path for over thirty Spirit Dominators all alone, just what kind of concept was that?

One rescue team would generally have about a hundred refugees. Over thirty rescue teams meant that there would be over three thousand refugees. Ice City experts like Li Yue were only escorting the refugees. While he alone was opening up the path for the rescue teams that were spread all over the city. Just how powerful did he have to be in order to achieve that?

Zhuo Wan and the youth had assumed that Chu Mu was only rescuing their little group, but they had never imagined that he was actually managing three thousand refugees all by himself. No wonder the first thing that he told the refugees when he entered the rubble was “Follow me or not is your own choice.”

He did not have time to explain himself and he also did not have to waste time for a group of cowards. If he wasted even one minute in one place, then the refugees in another place might be annihilated.

“Sister Zhuo Wan, does this mean that we have a chance to survive?” asked the youth.

Someone much stronger than General Li Yue had shown up to rescue them. It would not matter how many iceberg monsters were blocking their way now.

“Yes,” Zhuo Wan nodded.

He had changed from an outstanding youth who determined the battle of Snow City to a lord who could now freely move within millions of monsters.

It had been so many years before she knew it. She really wanted to know just what kind of events he had encountered and experienced to allow him to grow to his current state!
