

Soul Pets Bk2 1471

Chapter 1471: Devil Fire Trigram!

The different rescue teams were slowly gathering together from the different parts of the city. However, such large movement would easily attract an enormous population of iceberg monsters too.

Once the three thousand refugees regrouped, over ten thousand iceberg monsters had appeared in front of them!

A densely packed white monster tide could be seen approaching them in a glance. Their sharp claws dug deep into the frozen ground. Those solid-looking ice rocks were easily getting crushed by them.

Chaotic roars were echoing unceasingly. The terrifying noise greatly shook those weak refugees.

Furthermore, the most horrifying matter was not the monsters who were appearing in front of them. It was the large waves of monsters who were constantly approaching their direction.

The white iceberg monsters were advancing like a tsunami and were swallowing everything along the way. They had gradually approached from the outskirts of Ice City towards the outer city.

Once the second wave of monsters rushed into the city, the refugees in the outer and middle city would definitely not be able to survive any longer. Chu Mu had to transfer these three thousand refugees into the inner city as soon as possible.

.....

As the sun began to set, the remnant glow started spreading over the city that was full of ice shards.

Chu Mu stood silently on a wobbling ice lighthouse by himself and overlooked the countless iceberg monsters that were rushing about within the city.

Chu Mu turned back to take a glance at the three thousand refugees who were gradually making their way to him and slowly closed his eyes as he started chanting.

The incantation was really long. Once he reopened his eyes, black and silver flames were burning in his left and right pupils respectively.

Devil Fire shot out from his palms and was accurately thrown by Chu Mu into the monster-infested city before him.

Two clusters of flames with distinct colors flew high above the city and transformed into a trigram in midair!

It was half black and half silver. This Devil Fire Trigram was so huge that it easily covered the entire sky above the city. It looked as if dark clouds were looming over the city if people were to look at it from afar.

The Devil Fire Trigram began spinning rapidly. A destructive force that could annihilate the space along with the Devil Fire manifested from within the shrouded area. Next, a scene that astonished those three thousand refugees lay before them!

The countless iceberg monsters in front of them were instantly crushed into smithereens under the Devil Fire Trigram. It was as if something fragile made from sand was easily blown apart by a raging gale!

However, how could those iceberg monsters have been made of sand? They possessed robust physiques and a frost armor, as well as sharp claws.....

The white powder danced madly in the air just like a sandstorm. The refugees were unable to accept the reality that was happening before them and stood still utterly dumbfounded. Even those Spirit Dominators could not have imagined that Chu Mu could instantly annihilate dozens of thousands of iceberg monsters with a single move!

“Don’t stop, continue walking!” Chu Mu reminded those Spirit Dominators loudly.

The three thousand refugees snapped back to their senses after a long while and hurriedly followed after Chu Mu.

With dozens of thousands of iceberg monsters instantly annihilated, there would be no significant danger to them in the following journey. However, those who had witnessed that scene would never be able to forget it for the rest of their lives!

.....

The inner city was getting closer and closer. Chu Mu used his overwhelming strength to escort these three thousand refugees to the inner city safely.

There were many iceberg bird monsters in the vicinity of the inner city. Chu Mu called Ghost King over to escort these refugees into the city safely.

When the refugees realized that this mountain-like giant was also Chu Mu's soul pet, the refugees became even more respectful towards Chu Mu. After all, they could never have imagined that someone could stop millions of iceberg monsters all alone before Chu Mu arrived.

After taking in the three thousand refugees, City Lord Bing Li immediately arranged for a place for them to rest.

Those refugees had been trapped outside for around ten days. They were hungry, fatigued, scared and tormented. Now that they were finally rescued, they required a really good rest.

Many amongst those refugees could not even believe that they had really survived.

Zhuo Wan and the youth did not walk far. They noticed that before they had arrived, there were already quite a few batches of refugees in the city. The headcount was roughly numbered at about ten thousand.

Zhuo Wan knew that there were definitely far more than ten thousand people who were unable to escape in time. However, being able to rescue ten thousand people in such a situation could already be considered an impossible feat!

"Commander, thank you very much. I had thought that I would have met my end this time....."
Zhuo Wan bent her body and did a formal greeting.

The youth was nervous and did not know just how to express his gratitude. He could only stand quietly next to Zhuo Wan.

Only those who had a near-death experience could truly appreciate the preciousness of life!

“Take a rest,” said Chu Mu.

“Commander, I have a small request.....” whispered Zhuo Wan after she took a glance at the youth.

“What request?” asked Chu Mu.

Zhuo Wan walked next to Chu Mu and told him in a low volume, “His parents passed away in this disaster and now he has no place to go anymore. He is a strong-willed person and a talented soul pet trainer. I hope that Commander can keep him. He really admires and respects you, if you can take him in as your disciple.....”

“What’s his name?” asked Chu Mu.

“Tang Jun,” answered Zhuo Wan.

“I don’t take in disciples, but I can bring him to Wanxiang City. Holy Guard Chief Zhuo Nong should be interested,” Chu Mu nodded.

The Holy Guard was currently acknowledged as the strongest army of New Moon Land. Many young soul pet trainers set becoming a New Moon Land Holy Guard as their targets!

Being able to enter the Holy Guard trainee troop was similar to becoming a Holy Guard reserve. This was a huge leap in quality for a youth who had just become a soul pet trainer!

“Thank you, Commander..... Oh, it should be King Chu now!” Zhuo Wan’s pale face revealed a charming smile.

“Someone who can still laugh with a bloodied face is either a lunatic or a genius,” Chu Mu was rather interested in the mental state of this youth. Hopefully, he could grow up to become an expert in the new generation.

Zhuo Wan did not dare to bother Chu Mu any longer. She knew that Chu Mu surely had many more things to do with his current position.

Tang Jun was dumbfounded once again by this mind blowing news. New Moon Land’s holy Guard. In the past, he had always felt that getting into the city guard force would be impressive. He did not even dare to imagine getting into Snow City’s main force. He had never expected that he would be able to enter the Holy Guard army!

If he could get into the Holy Guard trainee group, then as long as he worked hard, he would be able to become a proud New Moon Land Holy Guard!

.....

“You must be tired,” Mu Qingyi strolled over and casually passed a few Ice Snow Fruits to Chu Mu.

“Will the inner city defenses be breached?” Chu Mu threw the thirst quenching fruits into his mouth and gulped them down immediately.

“So crude,” Mu Qingyi rolled her eyes after she saw Chu Mu’s actions. This Ice Snow Fruit was a specialty of Ice City. It was hard to come by, yet Chu Mu had swallowed it just like simple candy. What a waste.

“It’s secure, those monsters cannot breach the defenses for the moment. However, just defending passively like this won’t do. We cannot just migrate with hundreds of thousands of people,” said Mu Qingyi.

“You stay in the city, I will go into the ice mountains and check out just which monster has caused this monster flood,” said Chu Mu.

All disasters had a root cause. Chu Mu would naturally go and pull it out from the root!

“You’re going now?” asked Mu Qingyi.

“Yes, things will only get worse if we drag it out any longer,” Chu Mu nodded.

“You should go tomorrow. You have been running around the entire middle to the outer city today and did not get any time to rest at all,” Mu Qingyi expressed her concern.

“It’s fine,” Chu Mu still felt fine.

Mu Qingyi stared into Chu Mu's eyes quietly for quite a while before smiling, "Look at you, acting so cold-blooded and aloof, yet you're doing your best just to save them. In that case, just why did you threaten that city lord and her soldiers?"

Although Mu Qingyi was defending the city, she had been focused on Chu Mu the entire time. She could see that Chu Mu was rushing continuously in the city for the entire day and did not rest for even a moment.

Killing ten thousand people was just a matter of a single technique at Chu Mu's level. However, on the other hand, saving ten thousand people required him to keep running around the city for the entire day. The difference between the two was huge.

Chu Mu raised his brow and spoke, "I just went to tell them that I will save those whom I can save. Also, I'm wondering just why the news didn't reach me since it should have been an urgent letter. I have already reminded my subordinates to pay close attention to the news related to Snow City."

"Perhaps the problem lies in one of the command chains. After all, an urgent letter has to go through a few people before it reaches you," said Mu Qingyi.

Chu Mu made a note of this matter.

"That wave of monster will be reaching here pretty soon. I will leave Ghost King and Devil Tree here to assist you with the defense," said Chu Mu.

"Yeah, go ahead. I will protect them. Oh, City Lord Bing Li has also found her brother. She wants to express her gratitude to you personally, but is afraid that you may feel offended by her previous actions. So, she wants me to express her gratitude to you in her place," said Mu Qingyi.

“I’m not offended by her though. Just that I didn’t like the words that were said by her subordinates. I’m not a generous person after all,” replied Chu Mu.

“That’s true. Such a beautiful and pure girl is begging you like that, so how can you bear to get angry at her?” said Mu Qingyi with a sarcastic tone.

“Do I look like that kind of person?” Chu Mu smiled bitterly. For some reason, in the way that Mu Qingyi had phrased it, it made him seem like a person who got soft on beautiful women. Chu Mu had never really seen the face of that city lord clearly before.

“Not really, I hope you are though,” said Mu Qingyi gloomily.

Chu Mu pretended not to comprehend it. He jumped onto Night’s back and departed towards the ice mountains.

Chapter 1472: Ancient Flood Dragon Person’s Subordinate

In the night, after flying past the icy land, Chu Mu noticed that the atmosphere had gradually turned extremely cold.

The bellowing cold winds were so strong that they could cut the skin easily. Without any thick fur like those iceberg monsters and the birds, it would probably be impossible to endure living in such a terrible environment.

Such coldness was really abnormal, as New Moon Land could only be considered a third rank earth realm.

The strength of humanity was rapidly growing, but the soul pets that were inhabiting New Moon Land had no reason to instantly power up to suddenly match the strength of humanity.

There must be a mastermind behind this incident!

“Night, can you sense anything?” asked Chu Mu.

Night shook its head and simply headed towards a direction that it had judged was suspicious based on its instincts.

Many monsters were wandering on the land below them. He could occasionally see one or two Dominator rank iceberg monsters amongst them.

Those Dominator rank creatures could not have originally been from New Moon Land. They might have come from the Glacier Dynasty further up North. There was an enormous kingdom of ice type creatures there.

“Mo!”

Suddenly, an emperor-like roar resounded from deep within the pitch black ice mountains, causing the entire surroundings to tremble heavily.

After that terrifying roar echoed, the entire glacier seemed to have started boiling. Those iceberg monsters began running ahead crazily and excitedly!

“Houhouhou!”

“Gggrrrrr!”

The roaring of countless monsters were echoing throughout the glacier. Their consciousness seemed to be under the control of something as they left their habitat and began to invade the human territory!

“Young master, that is Battle Cry, an ancient racial technique,” Old Li’s voice drifted into Chu Mu’s ears.

“What’s its effect?” asked Chu Mu.

“Soul pets possessing such ability are usually the subspecies of the highest bloodline species within a race. They are born with the ability to rule and they possess the greatest power within the entire race. The other subspecies mostly live depending on them or they become able to utilize great strength through them..... Once such rulers use Battle Cry, it's practically the same as applying the Bloodthirsty Berserk Transformation to these subspecies. Furthermore, the effect from such Bloodthirsty Berserk Transformation will not disappear with time. It may even become a permanent strength boost as they continue with their invasion,” explained Old Li.

“No wonder those monsters have dared to invade the human territory,” Chu Mu began pondering.

If those monsters could obtain a permanent strength boost through killing, then they would definitely continue killing in order to obtain even greater strength. Since they could not kill their own species, they chose to invade the humans.

“Can you deduce what creature it is?” asked Chu Mu.

“I can only say that it’s from an ancient ice type race. Many creatures with the Immortal rank bloodline possess such racial ruling ability. When young master becomes a half devil, your devil domain can also similarly raise the strength of the subspecies of the Nightmare race around you,” replied Old Li.

Chu Mu traveled in a hurry towards the source of that roar and noticed that the rank of the iceberg monsters was gradually increasing the closer he approached.

The continent was vast. As Chu Mu had gained more experience, his encounter with Dominator rank creatures had also become more frequent. After all, he had been visiting the high ranking Bewildering Worlds.

However, it was rare for him to encounter a Dominator rank creature during his travels. Even Emperor rank creatures were rarely seen in some places.

Considering the current situation of New Moon Land, high ranking creatures should only appear in some of the isolated spaces. Creatures within New Moon Land itself and the surrounding Forbidden Regions should hardly surpass the Dominator rank.

The stretch of land that Chu Mu was flying over belonged to New Moon Land’s North Ice Forbidden Region. It was already rare to see one or two Dominator rank creatures here, yet the place that Chu Mu had just flew past had over a hundred ice type Dominators present!

Chu Mu had seen over a thousand Dominators forming an army and showing up together in the Imprint Valley and was not really astonished about seeing a flood of Dominators. However, this place was not the third layer of the sky like Imprint Valley, it was New Moon Land. Having over a

hundred Dominator rank creatures appearing in such a small place was an extremely abnormal situation.

Furthermore, Chu Mu was unsure if there were even more iceberg monster armies further in.

Chu Mu shook his head with a sigh and wondered.

Why do strange things keep happening in New Moon Land after I have become the king?

Or is it that strange things always happen in New Moon Land, just that I did not encounter them before and they were settled by some unknown force.

“Why are there so many.....” Chu Mu frowned and finally stopped his advance in a large mountain.

Chu Mu possessed Immortal rank strength, so he obviously dared to fly within the glacier filled with monsters.

However, that did not mean that he was invincible. When he saw a vast Emperor and Dominator rank monster army in the mountain, he would not dare to step in any further!

“Young master, there are Immortal Rank creatures inside!” said Old Li.

Yes, Chu Mu sensed the existence of an Immortal rank. That chilling aura caused his hair to stiffen instantly!

Chu Mu could not believe that such a terrifying monster army was actually living in the North Ice Forbidden Region. No matter which border this monster army had flooded into, it would clearly turn into a blizzard disaster, let alone New Moon Land!

Chu Mu did not charge recklessly.

A thousand Dominator rank creatures unleashing their techniques at the same time was already enough to injure Chu Mu severely. The iceberg monster army currently inside this mountain had definitely exceeded the size of a thousand Dominators. There was also the presence of the Immortal rank, he would definitely be surrounded if he were to charge in recklessly.

“It’s abnormal, really abnormal!” said Old Li.

With Chu Mu’s current strength, there was no place in Zhengming Continent where he could not step into. He even had the confidence to pay a visit to the Glacier Dynasty.

However, he was actually forced to stop his advance in this North Ice Forbidden Region!

“Mo!”

The roar from that monster rang out loudly once again!

This time, Chu Mu could hear it clearly. The roar definitely came from the mountain right in front of him!

The blizzard swept directly towards him and forced him to take a few steps back.

Chu Mu deployed a spatial barrier in order to block the blizzard. As his gaze pierced sharply through the blizzard, he could vaguely see a humongous creature slowly moving within the mountain!

At first, Chu Mu had thought that it was the peak of a tall mountain. However, once he saw a pair of eyes, he realized that it was not a mountain, but a humongous ice beast that reached the clouds!

Its menacing eyes were filled with cruelty and a ruling ambition. It stared at Chu Mu who had invaded its territory with a glint of coldness and fury!

Opening its enormous mouth which was comparable in size to a cave, it roared out loudly again. The iceberg monsters all turned their gazes and focused on Chu Mu!

The densely packed blood red eyes on the land and the iceberg birds in the sky had immediately surrounded Chu Mu.

In an instant, the entire glacier rumbled heavily. The chilling killing intent had even frozen the air!

At that moment, Chu Mu finally sensed just how powerful that creature within this mountain was!

“Young master, this monster has a greater sensing ability than you, you have been discovered by it,” said Old Li.

“As if I need you to tell me that,” complained Chu Mu.

He could tell that this Glacier Troll Lord was clearly on par with him in strength. More importantly, its ice property would clearly suppress his ability. He could not gain a single advantage if they were to fight.

Furthermore, this Glacier Troll Lord had countless soldiers around it. Those iceberg monsters could completely exhaust Chu Mu even if the Glacier Troll Lord itself did not make a move.

Chu Mu immediately turned around and escaped without any hesitation.

Night's strides and his own spatial transfer had allowed him to escape before those iceberg monsters could fully surround him.

Glacier Troll Lord was certainly very powerful, but its speed was far inferior to Chu Mu. Chu Mu saw the humongous body chasing after him for a short distance and quickly giving up.

Creatures below the Immortal rank could have hardly stopped Chu Mu. Especially when there was cooperation between spatial property and dark property, Chu Mu and Night could hardly be tracked down. Hence, after a short while, the commotion in the Glacier land had slowly died down after Chu Mu and Night disappeared.

Those monsters were just like a camped army. They were reserving their strength for a better opportunity. After a brief commotion broke out when Chu Mu had invaded their camp, they returned back to normal.

Chu Mu noticed that those monsters did not chase after him and he felt worried instead.

The better the army was organized, the scarier it would become. Those iceberg monsters were clearly up to something bad.

“Young master, you have seen that creature before,” said Old Li.

“That Glacier Troll Lord?” asked Chu Mu.

“Yes, its name is Extreme Sky Ice Beast, an ancient creature of the elemental type ice giant race. I had pointed it out to you in the Wind Palace before,” reminded Old Li.

“Wind Palace? This thing came out from that Ancient Flood Dragon Person’s Wind Palace? Why don’t I have any impression then?” asked Chu Mu in shock.

“Its size was shrunken down back then, this is its original size,” explained Old Li.

“It’s really Ancient Flood Dragon Person..... Has it awakened?” Chu Mu’s heart sank.

“Ancient Flood Dragon Person should not have awakened yet, the true Solar Eclipse has not arrived after all. However, those petrified subordinates must have awakened. This Extreme Sky Ice Beast should be one of them,” said Old Li.

“A mere subordinate of Ancient Flood Dragon Person is already so strong,” said Chu Mu with a bitter expression.

“Ancient Flood Dragon Person’s subordinates are all famous creatures from its era, how can they not be strong? Have you forgotten that there is also a Seven Sins Fox Dark Death King sealed amongst those subordinates?” said Old Li.

Chapter 1473:

.....

After returning to Ice City, it looked as if the city had just experienced a crazy battle. Everywhere he looked was tattered and some of the soul pet trainers on night duty were busy repairing the city wall.

The corpses of those monsters were stacked up into a hill outside the inner city. The pile was really high and was exuding a really dense stench. People within Ice City did not dare to go and clean up outside the city. In the end they could only control special plants and convert those corpses into nutrients for their plant type soul pets.

This kind of digestion process was actually really slow. The corpses could not be completely cleaned up even after daybreak.

Chu Mu entered the city and immediately saw that City Lord Bing Li was personally taking command.

This woman had not been able to rest for many days now. Her face was filled with fatigue, and her feeble appearance seemed as if a strong gust could easily end up toppling her.

City Lord Bing Li noticed that a streak of dark light was entering the city. Once she saw that it was Chu Mu, she revealed a prudent smile on her face and approached him.

“King Chu,” City Lord Bing Li bent over a little and greeted Chu Mu respectfully.

“How’s the current state of the city?” asked Chu Mu.

“It’s temporarily stable. The iceberg monsters have retreated for now. There shouldn’t be a large scale assault from them within the next two to three days,” answered Bing Li.

With Chu Mu’s Ghost King and Devil Tree Battle Solder defending the stronghold, those iceberg creatures could hardly breach their near perfect defense. City Lord Bing Li had truly witnessed the strength of the Immortal rank!

“Does King Chu have any discovery on his end?” asked Bing Li as she knew that Chu Mu had gone deep into the mountains.

“The situation is very dire. There is an iceberg monster army dozens of times stronger than the one here. There’s also an Immortal rank Extreme Sky Ice Beast among them. We may have to give up on this city,” said Chu Mu directly.

“Give up?” Bing Li was at a loss for words.

She had grown up in this city since young. She had taken over the role of City Lord from her father after she had become stronger. She held special feelings towards this city. Asking her to give up this city was practically the same as separating her from her family.

Chu Mu could tell that Bing Li was really unwilling and spoke again, “After this matter is properly settled, I will send people to help you rebuild the Ice City. The average rank of the monsters within the glacier mountain is very high. This city’s defenses cannot stop their all out assault.”

“How powerful are they?” asked Bing Li out of curiosity.

“There should be over a thousand Dominator rank, around ten Immortal rank, and then the strongest Glacier Ruler leading them,” said Chu Mu.

Bing Li opened her mouth, but no words came out at all.

There were only around a maximum of forty Dominator rank experts in the entire Ice City right now. This was already the full strength of the city. To think that there were over a thousand Dominator rank creatures wandering around within the Glacier. If those Dominator rank creatures were to swarm towards them, then a tiny city like Ice City could not survive their stampede at all.

No matter how much Bing Li loved this city, she had to also consider the lives of those citizens who lived here.

“There are so many people in the city right now, how does King Chu intend to migrate them out of here?” asked Bing Li.

“I have already called over a large number of experts from Tianxia City, Snow City and Xiang Rong City. The New Moon Navy is also rushing towards this place as we speak. They will be in charge of transferring the people. Citizens from Ice City will be temporarily under the care of Snow City,” explained Chu Mu.

“What about those monsters?” After finding out that there were over a thousand Dominator rank creatures lurking deep inside the mountain, she felt even more anxious.

“I will clean them all up,” replied Chu Mu.

Chu Mu had always been training himself through battles. It would be difficult for them to resolve this disaster without Chu Mu personally participating in it. It was also a perfect opportunity for him to receive good training. After all, apart from the time when he was in Imprint Valley, it was really difficult for him to find a place with such a large scale Dominator rank army.

Of course, Chu Mu also knew that it was difficult for him to completely finish off such a large number of iceberg monsters all by himself. It was necessary to let the New Moon Navy sortie too.

New Moon Navy was not only proficient in naval warfare, the glacier warfare was also their expertise. With the New Moon Navy around, it would be easier for Chu Mu to clean them all up.

Considering his property being suppressed by Extreme Sky Ice Beast, he had intended to ask Martial Cloud Dragon for help.

Martial Cloud Dragon was also a battle maniac just like him. Recently, it had been living peacefully in Wanxiang City, but it would need to exercise a little occasionally.

.....

Chu Mu informed Mu Qingyi of his plans and immediately headed towards Wanxiang City to make a request to Martial Cloud Dragon.

It did not take him a long time to go from Ice City to Wanxiang City. Seeing that it was already late into the night when he reached, he did not want to disturb Martial Cloud Dragon and decided to return to his own residence to take a rest himself. He would set off again after recovering some of his stamina.

Right after Chu Mu entered his room, he heard delightful giggles from two girls.

“Big sister, don’t you think that big brother is a little dumb?” Ning Maner’s crispy voice could be heard clearly.

“Him? He’s not really dumb, he just knows how to pretend to be dumb,” replied Ye Qingzi with a confident tone.

“Why is he pretending to be dumb?” asked Ning Maner.

“If he doesn’t pretend to be dumb, then there will be many dumb girls like you who will end up liking him,” teased Ye Qingzi.

“When did I ever like him? He always makes such a stern face. He also often scolded me in the past and wouldn’t play with me. He even calls me a lass all the time! Big sister, help me buy some pretty and revealing clothes some day. Big brother will definitely peek at me secretly then.....” said Ning Maner.

“You little, what are you trying to do?”

“I’m just testing big brother’s faithfulness.”

“Is that how you plan to test him? If you present yourself before him like that, then be careful because he will really eat you one day. Don’t complain to me then, I can’t stop him if that happens,” said Ye Qingzi half jokingly.

Chu Mu could feel cold sweat dripping down his forehead after he heard that.

What the heck are these two women talking about? Ning Maner had been revealing her original mischievous personality more and more recently. However, she was indeed quite a beauty now, even Chu Mu did not dare to become overly intimate when interacting with her. Now she was even discussing with Ye Qingzi on how to seduce him!

Ye Qingzi’s words had left Chu Mu speechless, it somehow made him feel as if she was giving him free reign.

Of course, Chu Mu knew that was only a private joking conversation between Ye Qingzi and Ning Maner, he could not take it seriously after all. Furthermore, when those two women were together, they would turn into little devils and Chu Mu would always suffer plenty from them.

Chu Mu pushed open the door and slowly entered the room, pretending not to have any idea about their previous conversation.

“You’re back?” Ye Qingzi popped her head out from the thin blanket and softly spoke.

The thin blanket covered her body snugly. She should be lying sideways as her beautiful curve could be traced out by the blanket.

“Hmm? You’re still chatting at this hour?” asked Chu Mu.

“How does big brother know that I’m here? I even held my breath,” Ning Maner also popped her head out from under the blanket and revealed her adorable face.

“Go back to your own room,” Chu Mu told Ning Maner.

“No!” Ning Maner was resolute. She held onto Ye Qingzi tightly and seemed determined to stay the night.

“I will be leaving tomorrow morning, so you can sleep with your big sister tomorrow,” said Chu Mu.

“No, there are many rooms free in the house, big brother can just pick one of them to sleep,” Ning Maner stuck to Ye Qingzi and refused to leave.

Chu Mu’s expression darkened. This little girl can be just so annoying at times. Don’t you know that Ye Qingzi and I are a married couple? Why are you always coming here to disrupt me from getting intimate with her?

Ye Qingzi remained silent. Seeing that both sides were not intending to compromise, she giggled instead, “Why don’t we sleep together then? Chu Mu, you can sleep here?”

Saying so, Ye Qingzi shifted her body a little and left a space at the center of the bed for Chu Mu.

Chu Mu opened his mouth wide and looked at Ye Qingzi in utter disbelief.

What are her intentions? Is she openly allowing me to flirt with other women?

Although Ye Qingzi had silently allowed the matter with Princess Jin Rou to slide, Chu Mu felt that it was the bottom line for her already. Yet now she was leaving a space on the bed which allowed him to sleep between Ning Maner and her.....

Even the usually calm Chu Mu felt perplexed.

“Uh, I will just go sleep in another room,” Eventually, Chu Mu resisted the temptation and left.

Chu Mu realized that after marrying Qingzi, his female acquaintances had become stranger and stranger.

“Are you sure you don’t want to come?” Ye Qingzi raised her brows. Her sparkling beautiful eyes contained a trace of provocation within them.

“I don’t mind at all, what’s there for big brother to be worried about?” Ning Maner also added a dangerous line at this moment.

“I mind!” refused Chu Mu in a serious tone.

Who knows if these two are just setting up a trap for me?

Ye Qingzi might just instantly change her attitude after he got onto the bed, while Ning Maner shouts “I knew big brother had ulterior motives”. There was no need to intentionally jump into the trap set by those two little devils.

“Stop it, Maner, return to your room,” Ye Qingzi knew that Chu Mu was handling the matter in Ice City recently. She could tell from his mental state that he had recently been tiring himself out, so she stopped teasing him.

“What’s wrong with sleeping together? I can sleep at big sister’s side, and big brother can sleep at the corner,” pouted Ning Maner.

“Some wolves will still stretch their claws to the sheep even if their wives are watching,” said Ye Qingzi.

“That’s true,” Ning Maner nodded and got out of the bed slowly. She strolled towards Chu Mu with her bare feet and a semi-transparent sleepwear covering her.

Ning Maner closed the door after leaving the room and stopped teasing Chu Mu too.

After Ning Maner left, Chu Mu started undressing himself.

“Are you tired?” Ye Qingzi walked over and gently helped him undress.

“A little too many had died this time,” said Chu Mu.

“What’s wrong?” Ye Qingzi was startled.

“A creature from the Wind Palace has awakened. Qingzi, help me investigate something,” said Chu Mu.

“Alright.”

.....

Chu Mu had exhausted quite the amount of stamina in the Ice City incident. He was going to be taking on that Extreme Sky Ice Beast next, so he needed to recover his strength as much as possible.

There were hundreds of thousands of people in the inner city of Ice City, their lives could be considered to be placed entirely in Chu Mu’s hands. He had to make sure that they would be safe.

Chapter 1474: Massive Group Healing Technique

In the morning, Chu Mu briskly woke the huge Martial Cloud Dragon up.

Ye Qingzi was worried about Chu Mu taking on that Extreme Sky Ice Beast all by himself and decided to tag along.

The two of them rode on Martial Cloud Dragon and flew in a hurry towards North Ice.

Martial Cloud Dragon was indeed a battle maniac too. After Chu Mu had briefly explained the circumstances to it, it immediately prepared itself to fly as soon as possible and was raring to go.

Martial Cloud Dragon's speed was extremely fast. They had arrived at North Ice in a very short time.

Martial Cloud Dragon was higher ranked than even Ghost King. When this dark blue dragon slowly circled around the sky above Ice City, tens of thousands of people screamed in horrid astonishment. Never in their lives had they ever seen a dragon of such a high rank. They felt that the dark blue dragon could easily vaporize the entire city if it wanted to.

Martial Cloud Dragon did not enter the inner city. Instead, it landed within the middle city with its enormous body. Those iceberg monsters were just like mere white ants in front of it. The proud Martial Cloud Dragon felt that it was a waste of time to even bother with crushing them.

"If you're still sleepy, then you can take a nap here. We are still waiting for a batch of people to arrive," suggested Chu Mu to Martial Cloud Dragon.

Martial Cloud Dragon roughly understood Chu Mu's intentions, so it folded its wings and just laid down amongst the numerous iceberg monsters.

Those tiny creatures would be easily blown away by a simple snort from Martial Cloud Dragon. Once it had occupied the middle city, those iceberg monsters retreated hurriedly in fear.

As Chu Mu and Ye Qingzi flew to the inner city, Mu Qingyi was already waiting for them at the city tower.

“Qingzi, you’re also here,” Mu Qingyi smiled.

Mu Qingyi and Ye Qingzi were rather close, they would chat about everything when they were in Divine Sect.

The matter about her kissing Chu Mu on the corner of the lips on the wedding day was only known to herself and Chu Mu, but she felt a little nervous when she faced Ye Qingzi now. She was still feeling guilty towards Ye Qingzi.

“Yes. I believe that there are many wounded here,” said Ye Qingzi.

With Ye Qingzi around, as long as one did not die in an instant, it should not be a problem to save them.

Mu Qingyi immediately brought Ye Qingzi to the infirmary. Taking into account that the wounded people were not of high rank, Ye Qingzi asked Bing Li to gather the wounded people in one place.

Most of the wounded were the soldiers who were defending the city. They and their soul pets had suffered various damages of different levels.

As the city was currently in a closed off state, there was definitely a shortage of supply of medicines. The scarce number of support soul pet trainers naturally could not heal the over ten thousand wounded people.

Ye Qingzi had definitely brought sufficient medicine. After she passed on the spatial ring to an official, she asked those heavily wounded soul pet trainers and soul pets to gather around as she would personally heal them.

With her current strength, she obviously would not be healing them one by one. She had gathered them in order to use a group healing technique.

Bell Noise Concubine's petals opened and scattered around pink healing pollen. When the pollen seeped into their wounds, the wounds could be seen rapidly closing up right before their eyes.

There were at least ten thousand wounded soul pets present in the empty plaza. Ten thousand soul pets were being showered with the healing pollen and they were all recovering at an amazing speed!

Such a flashy group healing technique had utterly astonished those support soul pet trainers who could only heal their targets one by one!

There actually existed such a powerful healing technique in this world which could heal around ten thousand wounded soul pets in such a short time.

If one just tried to imagine such a powerful healing soul pet being stationed on the city wall and scattering the healing pollen once the damage accumulated, that would mean that the defending side would gain an infinite amount of fighting strength.

.....

“Whoooo~!”

A gust of wind was messing up Chu Mu's hair as he stood quietly on the city tower.

Chu Mu was waiting for a while now. A figure riding on the raging gales rapidly approached him from the horizon.

As the figure got closer to him, the raging gales turned out to be a Unifying Wind Unicorn. It was surrounded by its own unique storm, it was a gentle breeze when it was peaceful, and a ferocious hurricane when it was angry.

A bearded man sat on that Unifying Wind Unicorn's back. The man landed down next to Chu Mu and spoke, "King Chu, New Moon Navy has already set up camp at the outskirts of the city."

The bearded man was the Hero Chief Yuan Sui. After taking command of New Moon Navy, he had once again displayed his amazing leadership abilities. New Moon Navy had become the second strongest army in New Moon Land, and its name had spread high and wide within the Eternal Ocean Realm!

New Moon Navy was currently divided into the interior and the exterior. The interior was completely made up of Dominators, they were mostly nurtured from the palace.

With the constant excavation of the Nine Holy Regions, the supreme reign over Northern Territory and the support from Yu Suo's Invisible Kingdom, these three forces had rapidly boosted New Moon Palace's strength. They had bountiful resources and they could easily nurture countless Dominator rank experts.

At least, the core members of both the Holy Guard and the Navy had reached Dominator rank on average.

Chu Mu was growing stronger, and the entire New Moon Land was also rapidly growing stronger along with him. They even possessed some Immortal rank resources with them.

Chao Lengchuan, Ye Wansheng, Mu Qingyi and the others were sourcing for resources on their own on one hand, while New Moon Land was providing them with resources on the other hand.

Chu Mu's strength still remained in the lead, it was difficult for New Moon Land to provide resources for individuals on the level of Chu Mu. Furthermore, Ning Maner could now also be considered as Chu Mu's 'personal belonging'. As the successor of the Messiah Tree, she could ensure Chu Mu's strength maintaining its rapid growth.

"Rest for a day, we'll depart tomorrow morning," Chu Mu told Yuan Sui.

Yuan Sui nodded and rode his Unifying Wind Unicorn back to the camp.

In the entire New Moon Land, other than the New Moon Holy Guard, only the New Moon Navy would dare to set up camp at the outer city which was densely teeming with iceberg monsters.

.....

The inner city's situation was mostly stable. As there was probably going to be a fierce fight between the New Moon Navy and the iceberg monsters, Ye Qingzi would naturally be going with them as well. This could reduce the casualties to the minimum.

Martial Cloud Dragon opened the path in front of them while a thousand strong New Moon Navy followed right behind it.

The navy also wore bright silver armor, they could easily blend into the snow white glacier.

After crossing through large layers of ice mountains and glaciers, the number of iceberg monsters continued increasing and they had forced the New Moon Navy to start fighting before they could reach the Great Ice Mountain Range.

A bloody path was being rapidly laid down as the New Moon Navy continued their advance through the glacier. It was an extremely eye-catching sight under the sun.

New Moon Navy maintained their advancement speed towards the Great Ice Mountain Range. Corpses of iceberg monsters were left behind and they paved out a bloody road.

Chapter 1475: New Moon Navy's Bravery!

The glacier was extremely cold. Snow had begun falling without them noticing.

The blue sky had gradually disappeared, replaced by the chaotic gusts of wind and the falling snow.

The sound of the bellowing wind was all that one could hear. Broken ice spikes were occasionally mixed in with the snow and slid past one's body, deeply stabbing themselves into the ice rocks nearby!

After climbing over a snow mountain plain, the scenery displayed before everyone had caused the entire New Moon Navy to instantly draw in a sharp breath!

Within the uneven glacier, countless pairs of red eyes were sparkling eerily on the land that had become blurry due to the raging wind. Those were the eyes of the iceberg monsters. Those savage monsters who seemed to have sensed the humans invading into their territories. They furiously stared at a spot with their bloodshot eyes.

“Yine~! Yine~!”

Sharp screeches from the iceberg monster birds could be clearly heard from the sky. They kept flapping their wings and the fallen feathers turned into snow.

This snowstorm was probably the handiwork of those monster birds. The New Moon Navy could not even detect them before those creatures had already begun hovering above them.

Chu Mu had not expected those iceberg monsters to be waiting in anticipation of their arrival. He took a glance at his New Moon Navy and ordered them, “Prepare for battle!”

Everyone started chanting and quickly summoned their soul pets.

Over a thousand Dominator rank creatures were occupying this snow mountain plain. Their composed aura blocked the falling snow and it generated a special defensive field around them!

“What’s that?” A Navy captain pointed at two glowing caves in the direction they were currently facing.

The two caves were located on the huge mountain range that New Moon Navy was heading towards right now, they were giving off a creepy feeling.

Suddenly, those two glowing caves moved slightly. In the hazy snowstorm, they could clearly see that the huge mountain range had suddenly shifted one step forward!

The humongous size of that thing occupied their entire view. It was walking directly towards them!

That was no mountain range, but a humongous ice beast. Those glowing caves were in reality its eyes!

Extreme Sky Ice Beast!

Martial Cloud Dragon's body could be considered to be enormous compared to most creatures, but there was still quite a difference in front the mountain-sized Extreme Sky Ice Beast!

"My goodness, what is that monster?"

New Moon Navy members were clearly astonished by the scene before them!

They had ventured into countless ocean realms in the Eternal Ocean before and had seen all kinds of marine creatures already. However, they had never seen a sea monster as big as this ice beast!

Extreme Sky Ice Beast belonged to the giant race. Its back was densely covered by a thick layer of ice shell armor. Its thick legs were just like mountain pillars. Its massive claws were hanging halfway down. Its plump body was equal in size to a connected mountain range. When it moved, it

would push all the glaciers, ice mountains and ice rocks along its path and create a terrifying avalanche!

There were also countless other Dominator rank iceberg monsters around the feet of Extreme Sky Ice Beast!

Each of those iceberg monsters had reached over a hundred meters in size. However, compared to Extreme Sky Ice Beast, they appeared to be just rubbles that were scattered along with the mountain!

“Mo!”

Extreme Sky Ice Beast opened its enormous mouth at that moment, and it could be seen that the opening could even swallow half of the sky!

Its roar spread fiercely through the snowstorm and turned into a towering avalanche!

The New Moon Navy members had witnessed towering waves before, but they had never seen a towering avalanche. The latter was definitely many times more terrifying than the former.

“Martial Cloud Dragon and I will be the ones taking on that Extreme Sky Ice Beast. All of you need to quickly kill those other Dominator rank iceberg monsters and monster birds!” Chu Mu stood in front of the entire army all by himself and instructed the New Moon Navy.

Hero Chief Yuan Sui nodded. A being on the level of Extreme Sky Ice Beast was not something that the Navy could handle. What they could do instead was to stop those Dominator iceberg monster

army and the monster birds from interfering with the battle between King Chu and that super monster.

“Qingzi, support them,” Chu Mu told Ye Qingzi who was next to him.

New Moon Navy was one of the core powers of New Moon Land. This battle against Extreme Sky Ice Beast was not really advantageous towards them, and it could even be said that they are evenly matched. New Moon Navy would surely end up suffering from a great number of casualties in a prolonged battle. Chu Mu had to preserve the strength of this army as much as possible.

With Ye Qingzi around, she could reduce the number of casualties of New Moon Navy to the minimum. As long as they could remain alive, their fighting strength would also not diminish.

“Don’t worry,” Ye Qingzi nodded.

Ye Qingzi wore a long snow white feather robe. After Chu Mu had issued the order, New Moon Navy took up a battle formation with Ye Qingzi as the center.

New Moon Navy’s armor was silver in color, which further emphasized Ye Qingzi’s alluring figure within the snow. When she chanted an incantation to get her Ice Fire Demon Concubine to add an ice armor buff on everyone, her calm and elegant figure fully portrayed the aura of a battle queen!

Every member who often participated in battles knew very well the true importance of a support soul pet trainer. They had to properly protect the support soul pet trainer well in order to last longer and perform better in the battle.

After Ye Qingzi applied the ice armor buff on everyone, the overall defensive strength of those one thousand plus Dominator rank creatures had increased by at least thirty percent. That had allowed many Dominator rank creatures with weak defenses to be directly on par with those bloodshot iceberg monsters.

Ye Qingzi's summon was not over yet though. After Bell Noise Concubine appeared, she began chanting once again!

"This is healing petal, it will continuously keep scattering over you. If your soul pets get injured, then try to head towards places with more petals to take shelter. The petals will then automatically heal your soul pets," Ye Qingzi used her mental voice to remind the New Moon Navy members.

They raised their heads and noticed that it was no longer snowing in this plain. The snow flakes had changed into those healing petals before they knew it. It covered a really wide area. If their soul pets could be healed simply by just getting showered with enough petals according to what Ye Qingzi had said, then it meant that they could receive healing at any moment during the battle.

The two group techniques had clearly built up the confidence of the New Moon Navy members, their fighting spirit had also severely intensified!

"Come, let me shower in blood today!"

The Navy captain yelled and stared at those charging iceberg monsters with intense fervor!

He was a rather famous battle maniac within the New Moon Navy. He had been wandering between various oceanic realms by himself since young and had made bloodthirstiness his habit. After joining New Moon Navy, he had finally obtained a better stage to perform and had rapidly grown within a short period of time.

Many members of the New Moon Navy had made a soul contract with Devil Soul. Their own racial rank no longer hindered their own cultivation. They could cultivate even faster than those higher rank races in the other borders. They were truly the elites of New Moon Land and they all possessed fearless hot-bloodedness within them!

Their king was fighting against a humongous beast, so how could they themselves achieve nothing?

The captain took the lead and charged fearlessly towards an iceberg monster with steel-like ice armor while riding on top of his Water Shadow Fighting Devil!

Yuan Sui watched the captain charge out and slightly frowned.

The number of iceberg monsters was far larger than their own. In this situation, it would be best for them to maintain a tight formation and intercept the enemies that infiltrated within the formation.

However, on second thought, remaining so passive like that was not really a good thing either. There had to be some charging attacks with the momentum in order to influence the entire army. This bloodthirsty brat was the best candidate for that. Yuan Sui decided to just let him perform and influence the momentum of the entire New Moon Navy along with that.

“Queen, please help me keep an eye on him. He is a talented and strong-willed soul pet trainer after all,” Yuan Sui spoke to Ye Qingzi.

Ye Qingzi nodded. Simply charging out like that captain just did naturally held great risk. As the sole support soul pet trainer in the battlefield, such members had to be carefully taken note of, or they would easily end up getting torn to shreds by those iceberg monsters.

The battle was ignited in just an instant. The first spark was the clash between that steel ice armor monster and the captain.

People with similar personalities would easily end up grouped into the same team. Even the timid people would have their hidden courage set ablaze if they were lead by such a fearless captain.

The other teams maintained their navy formation tightly, while the berserk team and all of its members were following right behind their captain and kept charging fearlessly towards the monsters raging around the formation!

In a short moment, the blood had spectacularly dyed this entire white plain into red. This hundred-men berserk team was even more ferocious than those iceberg monsters!

It was the first time that Ye Qingzi had met these New Moon Navy members. She knew that this army was recruited by Chu Mu himself in the recent years. It was difficult to imagine that an army that was formed in such a short time could possess such a great fighting strength!

The berserk team was extraordinarily ferocious. It was unknown whether they simply held absolute confidence towards their Queen's healing ability or they were originally such a reckless team. They would often risk their lives in order to finish off a high class Dominator monster.

Ye Qingzi did not disappoint the berserk team either. Iceberg monsters fell one after another before them, there were many Dominator rank monsters amongst the corpses too. However, not a single member or soul pet from the berserk team had died. They were all saved by Ye Qingzi.

There were many occasions where all of them believed that their soul pets would surely die. However, Ye Qingzi's healing had pulled them back to life each time, it was just like resurrection!

New Moon Navy members were all strong-willed in the first place. After witnessing Ye Qingzi's miraculous healing ability, their fighting spirit had swelled even higher!

If they could be saved even after getting chopped into two to three sections, then just what was there for them to worry about? They could kill to their heart's content!

Chapter 1476: Vs Extreme Sky Ice Beast

While the smell of blood stimulated New Moon Navy's killing intent, it also enraged those iceberg monsters. Their already bloodshot eyes became even more bloodshot. Ice and snow became sharp projectiles under their control and kept peppering New Moon Navy.

Frost aura shrouded the area and stiffened the movements of the navy force, as well as making them brittle. Many soul pets were shattered into pieces after receiving a slap from those iceberg monsters.

As the wounded members kept increasing, Ye Qingzi summoned all five soul pets and did not stop her healing for a single moment. What she had to do was to save the lives of those New Moon Navy members to the best of her ability!

On the other side, the blizzard disaster stretched far wider. This was an Immortal rank battlefield. Chu Mu and Martial Cloud Dragon were surrounded by ten Immortal rank iceberg monsters. Extreme Sky Ice Beast relied on its humongous body to keep manipulating the hail to pelt Chu Mu and Martial Cloud Dragon.

"Martial Cloud Dragon, you take it on first. I will clean up this place," Chu Mu told Martial Cloud Dragon.

Martial Cloud Dragon nodded and suddenly spread its wings!

The iceberg monster birds hovering above them was knocked away by Martial Cloud Dragon as it took flight. Martial Cloud Dragon was the true ruler of the skies, those feeble monster birds were unqualified to hover above it!

Martial Cloud Dragon flew up into the hailing sky. It flapped its wings rapidly and generated revolving air currents around its wings!

“Huhuhuhuhu~!”

A dark blue hurricane manifested in front of Martial Cloud Dragon. The falling hail was swept into that dark blue hurricane!

“Ao!”

Martial Cloud Dragon roared proudly. The dark blue hurricane mixed with crushed hail twisted its path towards Extreme Sky Ice Beast!

Extreme Sky Ice Beast remained still and simply allowed the hurricane to whip onto its body.

The thick ice covering its body was shattered by the hurricane. After the ice fell off, the skin of this Extreme Sky Ice Beast was revealed!

Its skin looked like frozen rock. It looked no different from most glaciers. However, there were sharp ice spikes towering on its thick ice shell armor!

Compared to the human body size, those ice spikes were like sharp mountains. Such ice spikes were densely lined up on its back. One could imagine how terrifying it would be when it executed a charge!

Martial Cloud Dragon's hurricane only unveiled the accumulated snow on its back. Extreme Sky Ice Beast's body was completely exposed right now. Its aura and menacing characteristics could easily crush a person's mind.

“Mo~!”

Extreme Sky Ice Beast roared furiously. After sleeping for several thousand years, it almost forgot how fighting felt like!

Rage and grudge accumulated over thousands of years in its humongous body. It was unwilling to serve under someone else. After awakening, it wanted to take back everything in the Ice Snow world. It wanted to make Ice Snow rule over the entire world!

This land originally had two third of its area covered in ice. Beautiful glacier scenery could be seen everywhere, as well as its comfortable chilling temperature.

However, after it slept, the land completely changed.

The stinging sunlight that caused it to feel frustrated, annoying green plants covering the land, even the wind carried hot air. How could it be called the world without ice and snow? How could it breathe without the coldness in the wind?

The land after several thousand years caused Extreme Sky Ice Beast to feel frustrated and angry. Furthermore, this land which originally belonged to it fell into the hands of those tiny humans. Their cities were built everywhere, while its Ice Snow race could only live in this tiny North Ice Forbidden Region!

This was intolerable. When the Ice Snow race ruled in prosperity, those humans were only renters of the lowest class. How could they occupy this land and become the master?

It kept roaring to tell those humans that it would take back its territory!

Extreme Sky Ice Beast possessed high intelligence. It could tell those humans before it were the current rulers of this territory.

As long as they were killed, taking back the land was just a matter of time. Ice and snow would eventually cover the entire land!

Its red and cave-like eyes stared furiously at Martial Cloud Dragon which dared to challenge its authority. After getting petrified for thousands of years, Extreme Sky Ice Beast's fighting spirit did not cool down at all. Rather, what it desired the most was a battle right now!

It raised its huge ice claw and swiped down. A claw condensed from snow hit Martial Cloud Dragon.

Martial Cloud Dragon was slammed to the ground by that claw. The frozen ground made a big dent and a large number of iceberg monsters fell into the cracks radiated from the impact!

The rampaging Extreme Sky Ice Beast did not finish its attack. It raised its other limb and made a grasping motion with its claw.

Cold light condensed at its claw and the surrounding ice and snow instantly became a long spear!

The spear looked like a pillar that connected the sky and ground. The tip could not be seen with naked eyes.

As Extreme Sky Ice Beast roared again, it threw this towering spear towards the depression made by Martial Cloud Dragon's crash!

Boom!

The ground cracked up as the towering ice spear touched the ground. Astonishing amount of blood splashed out from the depression. It was unknown if it was Martial Cloud Dragon getting stabbed or those iceberg monsters getting crushed.

Extreme Sky Ice Beast did not end it there. It raised its head and changed an ancient Ice Snow incantation!

In the sky, ice mountains crashed to the ground one after another. Extreme Sky Ice Beast did not give Martial Cloud Dragon any chance to crawl out from the crater and clearly intended to kill it!

As those ice mountains crashed into the ground, the ground was further dented. The seawater from the Ice Sea far away somehow reached here and splashed out as an ice spring. Icy raindrops also rained down from the sky.

On the adjacent battlefield, Chu Mu took a glance at the battle between Extreme Sky Ice Beast and Martial Cloud Dragon worriedly.

He saw a blue figure leaping out from the messy glacier and used its sharp dragon horn to forcefully knock Extreme Sky Ice Beast away!

After knocking Extreme Sky Ice Beast away, Martial Cloud Dragon immediately flew up and maintained a distance from Extreme Sky Ice Beast.

Chu Mu was able to see the blood flowing out from Martial Cloud Dragon's back from his position.

He had witnessed Martial Cloud Dragon's strength. In the Imprint Valley, even Eminence and Gate Masters might not be a match for it.

What shocked Chu Mu was that Extreme Sky Ice Beast was even more tyrannical than Martial Cloud Dragon. It already wounded Martial Cloud Dragon not long after the battle started.

"Zhan Ye, Night, Little Hidden Dragon, Ghost King, take care of them," Chu Mu summoned these four soul pets.

Other than Extreme Sky Ice Beast, there were ten Immortal rank iceberg monsters. They clearly came from the Ice Snow Dynasty. Now that Martial Cloud Dragon was in disadvantage, Chu Mu had to provide assistance earlier than expected.

The Immortal rank iceberg monsters could only be left to those four.

Night's strength was approaching low class Immortal rank. After this battle, Chu Mu could let Ning Maner assist Night to strengthen itself and evolve.

Zhan Ye's initial strength was not great. However, it could similarly exhibit low class Immortal rank strength later on. Facing two to three Immortal rank Iceberg monsters was not a problem.

Little Hidden Dragon required battles the most. It had to keep devouring souls.

Ghost King possessed property advantage. Rock type facing ice type was similar to ice type facing fire type, creating a perfect property suppression. After this battle, Ghost King would obtain plenty of benefits again!

.....

Chu Mu was confident towards his soul pets. They would fare well even in a 4 vs 10 situation. Furthermore, Ye Qingzi was supporting New Moon Navy on the plain not far away. If his soul pets encountered any danger, she would surely take care of them.

After sending his soul pets off to battle, Chu Mu flew into the sky and headed towards the humongous Extreme Sky Ice Beast.

Compared to Martial Cloud Dragon and Extreme Sky Ice Beast, Chu Mu could be considered to be as tiny as a speck of dust.

Devil Fire burned around Chu Mu's body, splitting clearly in black and silver!

Chu Mu's Devil Fire did not burn brightly as it seemed to be the effect of the glacier environment. The Devil Fire Domain also could not spread out in this glacier.

Chu Mu made an estimation himself. In this extremely cold environment, his strength was suppressed by at least thirty percent. In addition, Extreme Sky Ice Beast was a pure ice type elemental creature, it was really a headache for Mu who possessed fire property.

“Huhu~!”

A black and a white Devil Fire dragon crossed over in mid air and hit Extreme Sky Ice Beast's head!

Two types of Devil Fire exploded and blasted Extreme Sky Ice Beast's head, causing ice chunks to fall off!

“Mo!”

Extreme Sky Ice Beast shook its head and glared at Chu Mu angrily for attacking it.

Chu Mu flew back a little and dodged an ice axe thrown by that monster!

“Young master, the damage Devil Fire can cause is insignificant,” said Old Li.

Those two Devil Fire dragons were not any inferior to a full power strike from Martial Cloud Dragon. However, Extreme Sky Ice Beast was completely unharmed despite hitting its head. It was partly due to its solid defense, partly due to the severe property suppression!

“Extreme Sky Ice Beast’s property belongs to extreme cold. Fire type techniques are almost ineffective towards it,” supplemented Old Li.

This was the reason why Chu Mu called for Martial Cloud Dragon. Due to the severe property suppression, this battle would be a real pain without Martial Cloud Dragon helping.

Chapter 1477: Massive Ice Body, Vanquishing Heaven Imprint!

Immunity?

Chu Mu had never seen any creature possessing immunity.

Immunity meant a certain property was completely ineffective. Chu Mu had only seen such ability in documents, but had never seen any creature completely immune towards a property attack, especially when both are of the same rank.

Chu Mu’s black Devil Fire could generate extreme burning effects, while silver Devil Fire would burn away the enemy’s soul, causing the opponent’s soul to be in a weakening and painful state.

Since this Extreme Sky Ice Beast was immune to all fire type, Chu Mu's fire technique was completely meaningless against it.

As such, Chu Mu reined in his black and silver Devil Fire. He would use his other property and darkness property to fight it.

"Young master, its defense is also very solid..Its at least one to two times thicker than Martial Cloud Dragon's dragon scales," said Old Li.

High ranking ice type species relied on their superior bloodline and hardly had any weakness. Just like this Extreme Sky Ice Beast, not only was it completely immune towards fire type techniques, it actually possessed a terrifying defensive strength comparable to rock type creatures despite being an elemental type. Martial Cloud Dragon could only barely break its armor after using its sharp dragon horn to crash into its body.

"Worldly Dark Devil Sword!"

Chu Mu maintained a distance from Extreme Sky Ice Beast. He raised up his palms and the surrounding darkness immediately condensed into dark devil swords!

Dark devil sword was a derivation from Worldly Devil Sword Array. Taking into consideration that Devil Fire could not harm Extreme Sky Ice Beast, Chu Mu did not enhance this technique with Devil Fire, but poured in pure darkness instead!

Darkness techniques always ignored defense. It could also be said that darkness property was the bane of such thick-skinned creatures.

Many dark devil swords levitated around Chu Mu. They were completely black, exuding a merciless aura and creepy sword imprint!

Those dark devil swords flew out under Chu Mu's control and shot straight towards Extreme Sky Ice Beast!

Extreme Sky Ice Beast possessed such a humongous body. Chu Mu did not even need to aim to hit it.

Pssh! Pssh! Pssh!

The dark devil swords stabbed into Extreme Sky Ice Beast's chest and abdomen. The sword body buried all the way into its armor.

One could see a ring of black corrosive power spreading out from the spots those devil swords stabbed into. The spreading speed from over a dozen dark devil swords was extremely fast. They instantly corroded the ice armor at Extreme Sky Ice Beast's chest and abdomen into black color, as if it was poisoned.

Martial Cloud Dragon cleverly grasped this chance and flapped its wings strongly, turning into a blue flash!

Pzzzzt~!

Martial Cloud Dragon grazed past Extreme Sky Ice Beast. It stretched out its sharp claws and slashed past. Sharp metallic screeching noises rang out as its claws scratched the ice armor!

“Ao!”

After the sweeping claw, Martial Cloud Dragon made a sharp turn and whipped its long, hammer-like tail onto Extreme Sky Ice Beast’s body!

This tail whip landed on the claw scratch area. Many cracks could be seen on the armor around Extreme Sky Ice Beast’s chest and abdomen. Those cracks were spreading out from the claw scratch!

Martial Cloud Dragon’s attack was also tyrannical. Once Chu Mu’s darkness power generated a corrosive effect on Extreme Sky Ice Beast’s armor, this two hit combo completely cracked up Extreme Sky Ice Beast’s armor and revealed its real skin. Chu Mu could even see Extreme Sky Ice Beast’s bones changing shape. That proved just how powerful that tail strike was!

Martial Cloud Dragon dealt a heavy blow on Extreme Sky Ice Beast. Chu Mu targeted the weakened spot and transformed his palm into a devil claw.

He threw a palm strike in mid air, and the spatial devil claw shot straight towards Extreme Sky Ice Beast’s abdomen.

While the target was its abdomen, Extreme Sky Ice Beast’s abdomen was completely like a huge screen of mountains. Chu Mu’s spatial devil claw already had a wide striking range, yet it seemed lacking in power after hitting its abdomen!

Chu Mu chanted again. The incantation this time was a little long. The accumulated spatial power split apart the space!

A horn-shaped spatial blade flew out. One could vaguely see countless spatial blades rapidly spinning within that horn shape!

Pzzzzt!

Metallic cutting sound rang out again. The spatial severance shredded Extreme Sky Ice Beast's skin. Its skin finally broke apart and revealed ice pillar-like bones within its body!

"Young master, go in!" shouted Old Li.

"What go in?" asked Chu Mu in confusion.

"Go into its body. Extreme Sky Ice Beast has an extraordinary life force. Even if your attacks can defeat it, you can't prevent it from escaping. So, the best way to kill it is to get into its body to completely destroy its crystalized heart and soul core. Otherwise, it is an invincible monster within this glacier!" explained Old Li.

Old Li held some knowledge about Extreme Sky Ice Beast. This creature would not die due to its armor getting shattered. More importantly, this creature could absorb coldness to amend the broken parts of its armor. It would become a stalemate at this rate!

Chu Mu turned around and took a glance at New Moon Navy.

New Moon Navy still maintained its formation. However, iceberg monsters were everywhere around them. As long as Extreme Sky Ice Beast remained alive, those iceberg monsters would keep charging. New Moon Navy could not possibly kill all of them!

After a slight hesitation, Chu Mu decided to take the risk. He executed Displacement Specter while a big wound opened up on Extreme Sky Ice Beast's body and forcefully flew inside.

This wound was like a cave on an ice mountain to Chu Mu. Once he flew to the entrance of the cave, he could feel trembling coldness!

This coldness was not something normal creatures could endure. Chu Mu was almost forced back by such bone-chilling coldness.

Chu Mu slammed himself into the body of Extreme Sky Ice Beast after gritting his teeth!

It was as if he entered a complicated deep cave. Bones strewn all over the place. Those bones connected together like stalactites, forming into a maze-like network and spread deep into Extreme Sky Ice Beast's body.

"Cunning human!"

A thunderous voice echoed within Extreme Sky Ice Beast's body. This soundwave reverberated within Chu Mu's head and almost shattered Chu Mu's mind!

Chu Mu hurriedly applied a spatial barrier to himself and insulated that shockwave.

After the voice gradually faded away, Chu Mu suddenly realized a problem!

This Extreme Sky Ice Beast could talk!

And it spoke human language!

Chu Mu spaced out for a long time and could not understand why this Extreme Sky Ice Beast could speak human language.

“Young master, many superior race creatures have their own civilizations. Just like some humans are well versed in the language of other races, some creatures also understand human language. However, not many soul pets learned the human language. This Extreme Sky Ice Beast should have quite a story to its past,” said Old Li.

Old Li did not seem to count itself in when it explained, as it was also a soul pet which could speak human language.

Chu Mu was quite surprised. However, he could not show mercy just because this Extreme Sky Ice Beast could speak human language!

“Vanquishing Heaven Imprint!”

Chu Mu pushed up one hand and unleashed a spatial tearing technique directly inside Extreme Sky Ice Beast’s body!

Vanquishing Heaven Imprint was not a pure spatial technique, but a technique that added the destructive property of darkness. This was a black nightmare technique even stronger than Shattering Heaven Imprint!

After Chu Mu raised his palm upwards, streaks of horrifying vanquishing scars appeared inside Extreme Sky Ice Beast's body!

The vanquishing scars tore through Extreme Sky Ice Beast's bones. Those bones were shattered and fell down above Chu Mu's head!

“Mo!”

Extreme Sky Ice Beast let out a pained roar!

It felt as if razor blades twisted and churned inside its skeletal structure. Even elemental creatures without the concept of organs could not bear with such pain.

“I'm going to seal you in ice!”

Extreme Sky Ice Beast roared out human language, but the voice sounded like thunder exploding next to Chu Mu's ears!

The maddened beast's eyes became blood red. It endured the crushing pain of its bones and opened its cave-like enormous mouth to draw in cold air!

“Huhuhuhuhuhu!”

Raging wind gushed within its pitch-black body. The interior of Extreme Sky Ice Beast's body was already extremely cold. Now that even more cold air gushed in, thick layers of frost began accumulating on Chu Mu's body.

"Young master, don't be greedy. This place isn't a place you can stay for long," Old Li immediately reminded Chu Mu.

Chu Mu knew it was time to run without the need for Old Li to tell him!

If he was really frozen inside this Extreme Sky Ice Beast's body, he would not be able to escape as long as it did not die.

The space itself was almost frozen by cold air. Chu Mu could not teleport outside.

Within the pitch-black area, only one spot leaked out light. That was the wound Chu Mu and Martial Cloud Dragon created by joining forces. Chu Mu executed his phantom-like footwork and flew towards the light.

"Wuwuwuwu!" The chilling air gushed and Chu Mu's skin began to freeze.

Once a fire type creature was frozen by such bone-chilling coldness, it would be extremely harmful towards the body. At the same time, Chu Mu could also feel his soul getting invaded by ice toxin!

Chapter 1478: Darkness Gate, Crow Swarm Assault!

Suddenly, the light that was shining ahead of him got covered by a huge palm. The original brightness had instantly disappeared.

“It’s trying to seal me inside!” Chu Mu saw that Extreme Sky Ice Beast had actually used its own hand to block the wound and cursed it inside his mind.

It did not really want Chu Mu to enter inside itself at first, but now it did not want Chu Mu to leave.

The coldness inside was getting more and more intense as time passed. The ice toxin was also infiltrating into Chu Mu’s soul. The Devil Fire within Chu Mu’s body was also rapidly diminishing.

If his soul was frozen, then it would really be very fatal for him. Chu Mu tried to use his spatial technique to directly tear open Extreme Sky Ice Beast’s body.

However, the defensive ability within Extreme Sky Ice Beast’s body was similarly rock solid. Chu Mu could only leave scratch marks on the surface and could not really crush it no matter what he tried.

Extreme Sky Ice Beast was also enduring the intense pain from getting wounded from the inside while it constantly poured the cold air into its body.

As long as it could freeze this damned human inside, that little thing would only end up like a parasite in its body. It would definitely not be affected by something this insignificant.

In fact, according to its body proportion, Chu Mu realized that he was even smaller than those Ice Worms in Extreme Sky Ice Beast’s stomach. Furthermore, those parasites that were inside Extreme Sky Ice Beast did not seem to be weak at all.

Of course, Chu Mu could clearly not be bothered with that right now. He had to quickly think of a way to leave this Extreme Sky Ice Beast's body.

The ice toxin had already infiltrated halfway into Chu Mu's soul. Chu Mu took a glance at the spot where he hit. It seemed that he required much more power than that to break through.

Bam!

Just when Chu Mu was feeling troubled, a pair of dragon horns suddenly drilled violently right through that crack!

The dragon horns cleanly pierced through Extreme Sky Ice Beast's skin and left a big hole on it.

Chu Mu was surprised when he saw that and hurriedly escaped from that hole.

“Mo~!”

Extreme Sky Ice Beast howled in pain. Its humongous body violently trembled.

After Chu Mu flew out of Extreme Sky Ice Beast, he turned around and immediately threw a dark spatial ball towards it!

The dark spatial ball flew straight into Extreme Sky Ice Beast's body and exploded violently after wedging into its bone network. The explosion generated a terrifying destructive shockwave within its body!

Extreme Sky Ice Beast's bones kept getting shattered. It looked as if an ice cave had collapsed and everything was becoming a mess!

Extreme Sky Ice Beast's body violently shook. A muffled shout came from its mouth. Even the air that it breathed out carried a darkness energy within.

It swung its arms in mad fury and attacked randomly in all directions. The glacier became a mess and countless sharp ice spikes fell from all over the sky!

Chu Mu and Martial Cloud Dragon immediately took some distance from Extreme Sky Ice Beast. Extreme Sky Ice Beast was currently rampaging, they did not need to confront it!

After taking some distance from it, Chu Mu suddenly felt a burning light shining on his back.

The heated sensation calmly seeped into his body from his back, and it slowly entered his soul. The coldness in his body and his soul had gradually dissipated, causing Chu Mu to feel a comfortable warmth soon after.

Chu Mu turned around and looked through the snowing sky. He saw Ye Qingzi smiling towards him from far away.

Above Ye Qingzi, a creature that looked just like a sun hung quietly in the sky. The heat that melted the coldness in him also came from that creature.

Chu Mu knew that it was Ardent Yang Pupil, Ye Qingzi's strongest support soul pet right now.

Ardent Yang Pupil had not only dissipated the coldness in Chu Mu's body, it had also left behind a hidden flame burning in his body. This temperature generated a sustained shield effect and also warded off the surrounding coldness.

Chu Mu's strength had fallen by a margin due to the environmental suppression. The shine from this Ardent Yang Pupil had managed to negate this suppression. Chu Mu had finally managed to regain his normal strength.

It had been a while since Chu Mu had paid attention to Ye Qingzi's cultivation level. He had never expected her Ardent Yang Pupil to attain this level of strength. If it was a battle in a different situation, then the Flaming Shine could even boost Chu Mu's strength by a good margin. The effect of this support type was very obvious.

.....

Extreme Sky Ice Beast had suffered from heavy damage this time, Chu Mu and Martial Cloud Dragon quickly performed another joint attack.

They still used the same tactic of corroding the armor using darkness property, then unleashing heavy attacks right after. After a few clashes, Extreme Sky Ice Beast was riddled with wounds and holes. Especially on its abdomen region, they could easily see the shattered bone structures within the gaping holes.

Extreme Sky Ice Beast had also learned from their attack pattern. It no longer attacked straightforwardly. It kept using its shell armor on its back to defend against Martial Cloud Dragon and Chu Mu's techniques!

They had to admit that the shell armor on Extreme Sky Ice Beast's back was several times thicker than the armor around its chest and abdomen. No matter how Chu Mu used the darkness corrosion, he was unable to weaken the thick armor on its back. Any attack that landed on this shell armor could hardly deal any damage at all to Extreme Sky Ice Beast.

Once the Extreme Sky Ice Beast saw Martial Cloud Dragon and Chu Mu executing a highly destructive technique, it would immediately lie on the ground and would use the shell armor on its back to protect its body. All attacks became ineffective against it.

"Is it rock type or ice type!?" Chu Mu felt a little helpless against the armor.

Ice type creatures certainly were proficient in defense. However, a defense like this Extreme Sky Ice Beast where its ice shell would clearly not break no matter how they attacked was really a headache to them!

"Giant races are all like that, especially a high bloodline giant race. Other than not being as agile as the beast type creatures, they have gained many properties of the beast race, as well as the defensive strength slightly inferior to the rock type. This fellow would be a classic example of the strongest giant race," explained Old Li.

Chu Mu's Ghost King was a giant race of the rock type. Its defensive strength was so solid that it might not get hurt even from the attacks from million iceberg monsters. However, that was in the end still inferior to the defensive strength of this Extreme Sky Ice Beast. If Ghost King could reach Extreme Sky Ice Beast's level of defense, then it would clearly become unparalleled in the entire Zhengming Continent.

This Extreme Sky Ice Beast was the most troublesome opponent that Chu Mu had encountered. Remembering that this was only a subordinate of the Ancient Flood Dragon Person, a foreboding danger loomed in his mind.

If Extreme Sky Ice Beast was already this powerful, then just how powerful would the Ancient Flood Dragon Person be?

“Qingzi, can your Ardent Yang Pupil melt these ice?” asked Chu Mu quickly with his mental voice.

“No, the ice there is too thick. The ice crystal rank is also rather high, my Ardent Yang Pupil can only melt a portion of the ice body,” replied Ye Qingzi.

“Then melt as much as possible,” said Chu Mu resolutely.

“Alright.”

Ye Qingzi nodded and took a glance at her Ardent Yang Pupil.

Ardent Yang Pupil hung high in the sky and started to spread its fervent light all around!

Within the light, there seemed to be some roots stretching out from the center of Ardent Yang Pupil and drilling into the frozen land.

Ardent Yang Pupil was a plant type creature. Plant type creatures had poor fighting strength overall, but they were masters at domain creation. When the Burning Ray and the Burning Roots spread across the glacier, white water vapor could be clearly seen rising from the thick ice.

The ice slowly had melted. The dazzling light had not only added a layer of heat in this glacier region, but it had also made all the iceberg monsters in the surrounding feel an uncomfortable shine!

Ardent Yang Pupil's spreading speed was not too fast. Those iceberg monsters which held supremacy in the extreme cold did not care about such heat in the beginning.

However, as the battle continued, the ice had melted unknowingly unknowingly and the temperature had also gradually risen. It had slowly started affecting the strength of those iceberg monsters.

In the glacier, the iceberg monsters were clearly strengthened in proportion to the coldness in the air. However, as the temperature continued rising, their strength was severely weakened. This weakening applied to the entire group. Even Extreme Sky Ice Beast was weakened without the advantage of the environment.

The further Ye Qingzi's Ardent Yang Pupil's domain spread, the better it could take control of the environment. The glacier had gradually started melting, the rivers and the lakes could be seen appearing everywhere.

Extreme Sky Ice Beast detested heat the most. When its perfect glacier world was melted into water right before its eyes, it became extremely furious!

“Mo!”

Extreme Ice Beast opened its mouth and immediately spat out a chilling wind that quickly swept across the entire glacier world!

Any place that was swept up by the chilling wind had rapidly frozen once again. The falling snow suppressed the light of Ardent Yang Pupil.....

Ardent Yang Pupil could not compete against the power of Extreme Sky Ice Beast after all. A breath from Extreme Sky Ice Beast had easily lowered the temperature again and made the environment even colder than it was before!

Chu Mu and Martial Cloud Dragon were impatiently waiting for this breath attack from Extreme Sky Ice Beast.

Chu Mu began chanting first and a darkness gate appeared in front of him.

The darkness gate opened and clusters of dark feathered clouds swarmed out from within!

The apocalyptical crows flapped their wings ominously and charged out from the darkness gate, flying straight towards Extreme Sky Ice Beast's body!

Those dark crows did not possess any real offensive property. Their targets were instead the wounds on Extreme Sky Ice Beast's body. Once a dark crow squeezes into a wound, any graze or simple scratch would be magnified infinitely!

The crows that were manifested from the darkness energy had formed into crowds. They were as tiny as mosquitoes in Extreme Sky Ice Beast's eyes. However, they were able to freely infest its wounds and they kept corroding its ice-colored skin into complete black. Its wounds were also rapidly tearing open. It appeared as if this crowd of hungry crows were clearly feasting on Extreme Sky Ice Beast's skin and flesh.

Martial Cloud Dragon cooperated rather well with Chu Mu. When Chu Mu unleashed the darkness gate, Martial Cloud Dragon also gathered its power on its dark blue membrane wings!

Once the darkness corrosion reached a suitable state, Martial Cloud Dragon glowed blue and its entire body turned into a blue winged blade, slashing quickly towards Extreme Sky Ice Beast with extreme speed!

Clang!

This slash decisively cut open Extreme Sky Cloud Beast's abdomen and severed its solid pelvic bones all the way until its ice shell armor on its back.

This slash bent Extreme Sky Ice Beast's body, and the humongous mountain-like body slowly slid down and collapsed!

Chapter 1479: Middle Class Immortal Rank Ice Type Soul Crystal

Dual Evil Dark Burial!

Chu Mu had completed yet another incantation. A huge evil mound suddenly appeared on the body of Extreme Sky Ice Beast!

Black and white flashes were clearly distinguished. Devil Fire shot up and the huge mound quickly shrouded the entire body of Extreme Sky Ice Beast!

“Huhuhuhuhu~!”

Dual Evil Devil Fire swept fast across the glacier. Extreme Sky Ice Beast itself could negate fire type abilities, but it did not mean that those other iceberg monsters could also withstand the Devil Fire.

Devil Fire spread out in a flash and burned tens of thousands of iceberg monsters into cinders.

At the center of that evil mound, the bustling Devil Fire was rapidly burning the fallen Extreme Sky Ice Beast's body.

The fallen Extreme Sky Ice Beast was no longer immune to the fire. The Devil Fire within the evil mound imprisonment was several times more intense than the normal Devil Fire, the two types of Devil Fires were burning intensely!

Extremely pained and angry roars of the Extreme Sky Ice Beast could be vividly heard from within the dual evil dark mound. The bisected monster had not died yet. It desperately struggled with all its might and raised one ice wave after another!

Chu Mu's Devil Fire could not really damage it significantly, but the evil mound's imprisonment was sufficient enough to trap it. It would never be able to escape in such a situation!

In the distance, the New Moon Navy members were also utterly tired after enduring a harsh battle.

Iceberg monsters were no longer as ferocious as before, so they had finally obtained a moment to take a breather.

Meanwhile, ahead of them, on the icy horizon, a huge dark mound was pressing down on the ground and had suppressed that humongous ice beast.

Such an astonishing scene had mesmerized all of the New Moon Navy members. It was difficult to imagine that such extraordinary power had come from a single person.

After Extreme Sky Ice Beast was suppressed, the ferocity of the iceberg monsters was also suddenly dispelled. They no longer dared to charge in recklessly and fight without a care for their lives.

The intense power and ferocity of those iceberg monsters had partly come from Extreme Sky Ice Beast. Once it was imprisoned, their strength would also naturally be severely weakened. Furthermore, most of the iceberg monsters could sense that their Glacier Emperor was rapidly losing its life force.

Bam!

Suddenly, the huge dual evil dark mound exploded loudly!

Countless shards shot out just like meteors, igniting the entire glacier on fire.

Extreme Sky Ice Beast's body inside the evil mound was literally blasted into several pieces by that terrifying dark explosion. Pieces of its body were scattered all over the place!

A chunk of the Extreme Sky Ice Beast's flesh was similar in size to a huge frozen rock. When those chunks of flesh were blasted into the sky and fell back down everywhere, a scene just like ice meteors showering down the glacier was displayed before them and it riddled the entire glacier full of craters.

What was even more terrifying was that the Extreme Sky Ice Beast's head was rolling towards the New Moon Navy and it had almost crushing them underneath. It left a deep glacier valley right next to them!

Half of its body still remained at the original spot. It still wobbled and trudged forward, clearly unwilling to fall down.

Its thick and solid shell armor still remained on its back, and there was not even a scratch on it.

As if unwilling to die, despite having its top half literally blown into pieces by the darkness energy, it was still desperately moving forward!

Bam! Bam! Bam!

Every step the Extreme Sky Ice Beast took would easily extinguish the clusters of flames burning on the ground at its feet.

This was the glacier world that belonged to it. It was not going to allow any flame to burn on its territory even after its death!

Seeing that monster with only the lower section of its body still stomping around in a lively manner, the New Moon Navy members drew a sharp breath.

Perhaps only the king of New Moon Land could take on such a ridiculous monster.

Boooooom~!

Eventually, Extreme Sky Ice Beast fell.

Just like a mountain collapsing after losing its support, its body was no longer solid, and it turned into snow flakes and rumbled in all directions.

All the remaining Devil Fire was extinguished by the spreading snow. After the humongous monster turned into a lifeless pile of snow, the entire world seemed to have suddenly quietened down. There was no longer any commotion at all.

The eyes of those iceberg monsters gradually returned to a normal color. Many of the iceberg monsters even shrank in size. It was clear that the boost that they had obtained from Extreme Sky Ice Beast had disappeared along with its death.

Without the ruler, these iceberg monsters from the North Ice Dynasty had returned to being just a crowd of mob level monsters and they hurriedly began escaping towards the North.

Chu Mu did not give orders to pursue. The North Ice Dynasty's existence was crucial to New Moon Land. Once the North Ice Dynasty disappears, the other dynasties within the forbidden region might swarm in and cause even greater turmoil to New Moon Land.

“Ao~!”

Martial Cloud Dragon stepped on the remains of Extreme Sky Ice Beast and roared proudly after raising its head high.

After it defeats a powerful foe, Martial Cloud Dragon would always roar wildly just like that!

However, Chu Mu could tell that Martial Cloud Dragon was also severely injured this time.

Large patches of its dragon scales had clearly shattered. The wound on its back was also still bleeding. Various parts of its body had suffered from frostbite and ice toxin of various degrees.

After it roared, Martial Cloud Dragon laid down on the ground meekly and started panting lightly.

Chu Mu did not really get much injured himself. One was because his devil transformation had greatly boosted his strength, the clumsy Extreme Sky Ice Beast would definitely not be able to hit him when he was like that. The other was because Martial Cloud Dragon had taken the brunt of Extreme Sky Ice Beast's attacks throughout the battle.

"Are you alright?" Ye Qingzi flew over and asked Chu Mu worriedly.

"Heal Martial Cloud Dragon first," replied Chu Mu.

Ye Qingzi nodded. Letting her Ardent Yang Pupil heal the ice damage was the most suitable choice here.

The New Moon Navy began resting as they sat around Chu Mu. Some members with relatively better conditions immediately began cleaning the battlefield.

Corpses being strewn all over the place meant treasures all over the place. Those iceberg monsters were not really low in rank. This battle was also a great profit for the New Moon Navy. Not only did they improve their strength, but they could also harvest plenty of soul crystals and soul cores now.

“Young master! There’s something good there!”

Suddenly, Old Li’s voice came from the pile of snow.

Chu Mu’s eyes brightened instantly. Old Li naturally would not be interested in those iceberg monsters. It was rummaging through the Extreme Sky Ice Beast’s remains.

For a monster at Extreme Sky Ice Beast’s level, if there was something, then it would definitely be an Immortal item!

“Show it to me,” Chu Mu reached Old Li’s spot in a hurry.

The skinny Old Li dragged out a sparkling ice crystal from the pile of snow. This ice crystal was as transparent as a normal crystal, yet it radiated just like a jade. The icy hue that it released remained lingering within a certain distance. It seemed as if it was accumulating an enormous amount of energy and was not planning on dissipating anytime soon.

“What is this?” asked Chu Mu.

“Soul crystal!” replied Old Li excitedly.

Chu Mu was surprised for a moment. This ice crystal had already reached the size of an adult male. Chu Mu had never seen such a large soul crystal before!

Amongst all the soul pets, regardless of their size, the soul crystals and soul cores were usually the same size as a human heart. Chu Mu had never really seen a soul crystal the size of a man before!

“These ice type creature soul crystals with millennia of lifespan are usually like this. The energy dwelling within is also extremely large. If the young master makes good use of this soul crystal, then your Ice Air Fairy can easily take a leap in quality!” explained Old Li.

“What class is this Immortal soul crystal at?” asked Chu Mu.

“I can’t really tell at the moment. This Extreme Sky Ice Beast is a middle class Immortal rank, its soul crystal should also naturally be at the middle class Immortal rank,” said Old Li.

Middle class Immortal rank!

Only those Gate Master level existences within the human territories possessed middle class Immortal rank creatures. This was just how difficult it was to find the resources of the middle class Immortal rank.

To think that Extreme Sky Ice Beast’s death had gifted Chu Mu such a huge present, it made his heartbeat flutter!

“Young master’s Ice Air Fairy has not reached the Immortal rank yet. You cannot use this soul crystal on it for now. The energy inside can overload your Ice Air Fairy,” said Old Li.

“Yeah,” Chu Mu nodded.

Just for this middle class Immortal rank ice type soul crystal, Chu Mu now had to go to the North Ice Dynasty to train and raise the rank of his Ice Air Fairy.

Furthermore, the North Ice Dynasty had invaded his territory due to the Extreme Sky Ice Beast awakening. As the king, should he not repay this favor in kind?

.....

On the other side, the battle of Zhan Ye, Little Hidden Dragon, Night and Ghost King had also come to a conclusion along with Extreme Sky Ice Beast’s death.

Amongst the four soul pets, Little Hidden Dragon was the most excited of all. It flapped its wings happily and landed on Chu Mu’s shoulder, showing off something just like a child.

Chu Mu examined it closely and noticed a little change on Little Hidden Dragon’s scales. He could vaguely see a thin layer of spectral effect, forming a special protection on them.

“How many Immortal rank souls did you devour?” asked Chu Mu.

“Shashasha~!” Little Hidden Dragon stretched out its chubby paw and straightened out three claws.

Chu Mu found it hilarious as he looked at its cute gesture. Since when did it learn how to count like a human?

Three Immortal rank souls were really a great form of nutrition for Little Hidden Dragon. It would not be long before its main soul advances into the Immortal rank.

Little Hidden Dragon possessed three main properties. Spectral Dragon was already at Immortal rank. If Empyrean Cyan Hidden Dragon soul also advances into Immortal rank, then its overall strength would be even greater than a low class Immortal rank!

Night always took the lead. In this battle, its training experience had definitely maxed out. After going back, he would have to let Ning Maner strengthen Night with the Immortal charm aura. Night would also fundamentally become a low class Immortal rank.

Meanwhile, Ice Air Fairy had already gained a middle class Immortal rank Immortal Item. After Chu Mu trains it for a period of time in the North Ice Dynasty, he could nurture a middle class Immortal rank soul pet. If more subordinates of the Ancient Flood Dragon Person awakened, then it would be much easier to handle.

Of course, Chu Mu would also pay sufficient attention to the awakening of the Ancient Flood Dragon Person. If that guy awakened, then only Seven Sins Fox Dark Death King could possibly oppose it.

Unfortunately, Seven Sins Fox Dark Death King could not be controlled by him or Yu Suo. Yu Suo was currently treating it like a celebrity. It was already impressive that she could prevent it from running away. It was impossible to make it fight for them for now.

However, he wondered just what rank that Dark Death King under the Ancient Flood Dragon Person was.

If that Dark Death King also possessed similar strength to the Imprint Valley's Ten Thousand year Immortal —— Dark Death King, then he clearly had to reevaluate Ancient Flood Dragon Person's strength!

Chapter 1480: Night, Entering the Low Class Dominator Rank!

They brought New Moon Navy back to Ice City.

Many monsters were still roaming near Ice City. These monsters didn't seem to know that the inner Ice Mountain had completely collapsed. Thus, as low rank monsters, they were blindly and ignorantly roaming nearby.

The glacier land occupied a lot of land, so it wasn't too realistic to deploy troops in hopes of eradicating all of the monsters. Now that Chu Mu had already defeated the core of the monsters, they lacked a leader. Thus, the low ranking monsters would gradually disappear later.

In the time it took for them to gradually disappear, Ice City would be uninhabitable. Therefore, when he returned Chu Mu had to move these people to the safer Snow City. When these monsters completely disappeared, they could once more rebuild Ice City.

With New Moon Navy leading the way, they would probably be able to successfully migrate the citizens. However, the migration of a few ten thousand people was still an enormous migration.

.....

Ice City suffered the heaviest destruction, but after Chu Mu mobilized the troops, this area of seventy cities had gone back to peace, and no longer suffered casualties.

New Moon Navy and many experienced soul pet trainers frequently moved on the glacier land, systematically eradicating the remaining Ice Mountain Monsters.

About half a month later, the icy region finally returned to its usual tranquility. The various cities in the area began reconstruction as they gradually went back to normal.

The outbreak of the disaster had been too sudden. When considering that one of the Ancient Flood Dragon Person's subjects had awakened, Chu Mu sent a few people to monitor any movement in the Wind Palace. This would prevent another horrifying disaster from appearing.

This disaster was a clear indication to Chu Mu that the Ancient Flood Dragon Person's presence was growing closer. If he didn't have the strength to defeat it before it awakened, New Moon Land would no longer exist, no matter how prosperous it was!

.....

After returning to New Moon Land, Chu Mu focused on training.

On a certain day, Chu Mu called Ning Maner over and had him accompany him as he cultivated.

Ning Maner was a girl who just liked having fun. If she diligently cultivated, her nurturing abilities would easily be able to create more immortal rank soul pets.

Often times when Chu Mu pulled this girl over to cultivate, she would pout and bitterly say: “Big brother is so boring. You cultivate all day and never play with me.”

When Chu Mu had returned this time, the Extreme Sky Ice Beast’s appearance made Chu Mu feel threatened. Therefore, he made Ning Maner stop playing around and accompany him to cultivate for a period of time.

“That’s strange, why aren’t you complaining today?” Chu Mu discovered that Ning Maner was obediently accompanying him, and was astonished.

“I heard from Big Brother Teng Lang that many people had been killed by monsters in this disaster,” said Ning Maner faintly.

“Yes, there were serious casualties.” Chu Mu nodded his head.

When he thought about this, he felt helpless. The disaster had broken out too suddenly. Also, very strangely, why didn’t he receive the urgent correspondence?

Ning Maner had a good and honest personality. Thus, the disaster made her feel bad. She wanted to do something about this disaster, but what she could accomplish was limited. Only by diligently training and helping Chu Mu raise his strength could these chaotic events be pacified.

Therefore, she didn’t try and procrastinate when Chu Mu made her cultivate this time as she obediently followed him.

“Big brother, can these kinds of disasters not happen in the future?” softly asked Ning Maner.

“That’s hard to say.” Chu Mu himself didn’t know.

There were still many high bloodline creatures in the wind palace that hadn’t awakened. This time, merely a single Extreme Sky Ice Beast had brought Snow City’s area such a serious disaster. If a stronger creature appeared, how much destruction would it create?

“Will big brother protect New Moon Land?” asked Ning Maner.

“I’ll try my best.” Chu Mu forced a smile.

Chu Mu didn’t even know how strong the Ancient Flood Dragon Person was.

“I like New Moon Land and the people here. I don’t want them to get hurt or die.” softly said Ning Maner, “Aunt Liu is working really hard and big brother is diligently cultivating. Big sister is also not stopping as he learns even higher immortal methods. The others are all increasing their strength. Everyone is protecting New Moon Land and working hard for it. I also need to do something for New Moon Land.”

Chu Mu patted her wavy hair. He felt somewhat gratified.

It seemed that this disaster had made Ning Maner grow up. She was no longer only searching for other people’s protection. Instead, she wanted to protect others.

But wasn’t the Messiah Tree the same? It had many protectors, but it also protected countless species and continuously proliferating organisms.

Perhaps Ning Maner was weak now, and could only provide a bit of immortal aura to Chu Mu. however, increasing his strength was equivalent to protecting New Moon Land. When Ning Maner became stronger, she wouldn't only be able to protect the tiny New Moon Land. She might even be able to protect the entire Zhengming Continent or even all of humanity...

Ning Maner being willing to focus on cultivation was a huge boon to Chu Mu. Indeed, she had practically become his exclusive aide as she provided all of her immortal aura to him. Chu Mu only needed to raise training percentage and his soul pets would be able to rise ranks even quicker.

Cultivation couldn't rely solely on quiet cultivation; fighting was also a necessary part of Chu Mu's cultivation.

Chu Mu planned on going to Northern Ice Forbidden Region next to train. Ning Maner would go with him, thus raising Chu Mu's cultivation speed by manifold!

That night, Ning Maner sat concentrated next to Chu Mu, helping Chu Mu's Night increase in strength.

Ning Maner's immortal aura was different from the majority of soul crystals and other immortal items. With Ning Maner, Chu Mu didn't need to guide the immortal aura. All he needed to do was keep accepting the immortal energy transferred from Ning Maner and then direct it into his soul pets' bodies.

Without guiding, it was still practically impossible to fail.

One aspect of a soul pet rising a rank relied on the soul pet itself breaking through and training. When it reached the rising rank process, it would use the impetus from immortal items to successfully rise a rank.

However, if its cultivation wasn't enough and it hadn't reached the conditions to rise in rank and used the help of not very effective immortal items, this would lead to a failure to rise in rank.

This problem didn't exist with Ning Maner's immortal aura.

If, for example, the soul pet's cultivation was not enough, Ning Maner's immortal aura would have a nurturing effect that would make up for this inadequacy. It was equivalent to directly increasing the soul pet's training percentage.

Once the making up was complete, the remaining immortal aura would continue to nurture and help the soul pet breakthrough!

Ning Maner was probably the only one in this world with such a nurturing effect. It was no wonder those leaders were frantically trying to fight over her. With such a unique existence, increasing their strength would only become a matter of time. This was crucial as there were numerous immortal rank bottlenecks, especially the last one to the undying rank.

Monument Tears were uncertain and vague. Whether they could help humans enter the undying rank had always been a mystery. On the other hand, the Messiah Tree, in theory, was very likely to help humans enter the immortal rank. Therefore, those leader rank experts that longed to become the god of their species would go crazy over this.

.....

Ning Maner slowly poured the immortal aura into Night's body. Night cultivation had reached a very high percentage so Ning Maner just needed to use her immortal aura as a helping hand to aid Night in successfully breaking through.

As the immortal aura continuously increased, the breakthrough wave in Night's mind kept growing higher and thicker. Chu Mu was able to use his soul remembrance to feel that Night's breakthrough wave was almost higher than the cultivation threshold required for the low class immortal rank.

A dark energy engulfed the courtyard. This courtyard had been specifically built according to Chu Mu's requirements and could withstand a very strong energy blow. Otherwise, the courtyard would have already been repeatedly rebuilt with someone like Chu Mu, who would break through the immortal rank every few days. In fact, it could cause the entire New Moon Palace to shake.

It was late at night, and the darkness kept growing thicker and thicker. Wanxiang City's lamps weren't even able to illuminate anything. The entire Wanxiang City was covered by a dark haze. It was impossible to see past one's fingers.

There were many experts stationed in Wanxiang City. When they felt the phenomenon, they jumped up onto their roofs and cautiously stared at the location from where the darkness aura was coming.

"Which fellow's soul pet is breaking through." in a dark residence, Cloud Gate Elder was wearing an overcoat, and sleepily stared at the center of the city.

In the next door courtyard, Yu Bo walked out and also stared in the direction of New Moon Palace.

"It's where that brat Chu Mu is, right? Another one of his soul pets is breaking through. From the aura it's emitting, it should be the low class immortal rank!" Yu Bo spoke with Cloud Gate Elder from the other side of the wall.

“This brat’s cultivation speed is extremely fast. I remember last time he was in the inner city, his Night Thunder Dream Beast had entered the immortal rank. But this time it’s already at the low class immortal rank.” said Cloud Gate Elder.

“That’s nothing. Did you not see the Martial Cloud Dragon that brat brought back?” said Yu Bo.

“How could I miss it? That dragon made me jump in fright when it entered the city!”

“Right? A middle class immortal rank Martial Cloud Dragon. I wonder where Chu Mu managed to trick one from. It’s even willing to help us protect Sealed Tower. Calling Wanxiang City a place of hidden dragons and crouching tigers doesn’t even do it justice now,” said Yu Bo.

“AI, I’m sure in a few years us old fellows won’t be of any use.”

“That’s not the case. Indeed, don’t you feel that the outside is a bit too peaceful?” said Yu Bo.

“Outside? Are you referring to Zhengming Continent?”

“Yes. New Moon Land’s development is too fast. It’s unbelievably fast. It would be strange if those factions were indifferent to this. From my understanding of them, they shouldn’t be this quiet.”

“I don’t pay attention to foreign matters. Perhaps they’ve been restricted by your people over there?”

“Hidden Pupil Royalty won’t pay attention to this. Moreover, I don’t believe that nobody in the family is feeling at ease with New Moon Land’s rate of growth.”
