

## **Soul Pets Bk2 1511**

### Chapter 1511: New Moon Land Migration?

The incidents discussed on the second day were even more important. Almost every incident involved multiple borders.

Some terrifying hidden dangers had been suppressed for a long time and never announced until now.

For example, the Pingyun Thirty-six City in Wupan Continent had a constantly enlarging black hole beneath the city. Once the black hole swallowed the entire earth crust, this Thirty-six City would instantly vanish.

The population in that city could not be estimated. However, migrating the people in that city would be a big project that would be very exhausting on the army. This Thirt-six City was located next to a soul pet dynasty. Migrating them required a large army for protection.

Other than that, where should they settle the refugees from the city? Were those people really willing to give up all of their immovable properties and migrate into another city to start anew?

This is a problem left behind from a long time ago. They just could not find a proper solution.

Problems that could not be resolved during this meeting would be delayed for another twenty years, until the next Dual Earth Conference.

Other than the apocalyptic underground black hole, Zhengming Continent and Wupan Continent were not as peaceful as they looked on the surface.

The drying up of resources, natural disasters occurring after the Moon Tide, the potential danger of the approaching Solar Eclipse.

For these problems, those putting in effort for a resolution were mostly from Divine Sect, Demon Beast Palace, Xuan Gate Immortal School, Departed Spirit Palace and Elemental Clan these five major factions. Meanwhile, the two major dynasties were responsible for most problems related to borders. The other factions would only provide some help in any problem if possible.

Based on the handling of these problems, the position of these major factions within the human territories were fixed. Without them, these problems would not be resolved and would only worsen.

The discussion went on from morning to afternoon.

During this entire time, Liu Binglan remained feeling uneasy.

She had already related the huge threat of Ancient Flood Dragon Person to the two royalties. The two royalties also indicated that they knew more or less about it.

The conference on the second day would be the final conference. Until evening, the two royalties stated many potential dangers and also resolved many major events. However, they never mentioned about Ancient Flood Dragon Person in New Moon Land at all.

Putting this matter to the last would signify the importance of this matter to some extent.

However, the more important this matter became, the more danger Liu Binglan felt. As the actions they took were always based on the benefit of the entire human race, they almost never asked for the opinion of the involved!

“Alright, that’s how we will handle this matter. I hope every representative will abide by the promise during today’s conference. Us royalties will exercise our authority on those who broke their promises,” said Wupan Royalty’s Family Master.

After this Family Master finished his speech, Hidden Pupil Royalty’s Family Master Gu took over a document. It was clear that the next incident would be declared by him.

“Now we will discuss on the matter of New Moon Land’s Second Heaven Boundary Monument,” said Family Master Gu.

When Liu Binglan heard it, her heart sank.

This Family Master Gu was clearly against New Moon Land. Otherwise, why was he in charge of every matter related to New Moon Land?

“Based on description, there is a five-thousand-year old palace underneath the Second Heaven Boundary Monument. An Ancient Flood Dragon Person and its many subordinates laid in slumber within this palace. I’m holding the history document related to New Moon Land’s Second Heaven Boundary Monument. The document mentioned that this Ancient Flood Dragon Person is the Evil Son of Eternal Ocean. It is a cruel tyrant and once ruled Eternal Ocean. It also treated New Moon Land in the human continent as its territory. Countless creatures with high bloodline submitted to it and assisted it to carry out its ambition,” When Family Master Gu was reading out these facts, everyone’s gaze landed on Liu Binglan.

The hidden dangers they encountered before were all within the recent thousand years. Many ancient creatures left behind by the past created many horrifying disasters.

However, the representatives never expected a five-thousand-year old hidden danger left behind in New Moon Land! Furthermore, it was a cruel ocean tyrant which once ruled Eternal Ocean!

“The document stated that in the next Solar Eclipse, this Ancient Flood Dragon Person will awaken. This is an apocalyptic disaster that will severely affect the safety of mankind, because there was once a severe oceanic incident that happened in history. That incident almost swallowed half of Zhengming Continent,” said Family Master Gu.

This sentence instantly created a choppy ripple in the conference!

An incident that swallowed half of Zhengming Continent. That was truly the disaster of mankind. Just how powerful could that Ancient Flood Dragon Person be? It could actually affect both the Ocean Species and human race?

“Family Master Gu, does this Ancient Flood Dragon Person really exist?” asked Elemental Clan’s Peng Meng.

The other Family Masters nodded. They had lived for a very long time. They more or less knew about these super hidden dangers left behind in history. Even if Liu Binglan did not report it, they had to find a solution.

“How strong is this Ancient Flood Dragon Person?” asked Xuan Gate Immortal School’s Old Sect Master.

“We cannot estimate its strength at the moment. However, it has a general called Calamity Ocean Demon. It was once the East Ocean King five thousand years ago,” said Family Master Ning.

“Ocean Species East Ocean King?”

Many people were unfamiliar with Ocean Species civilization. Hidden Pupil Royalty’s Family Master Tao opened his eyes slightly and explained, “Calamity Ocean Demon should be almost as strong as me.”

Family Master Tao’s words silenced the entire venue!

Which one amongst the six royalty Family Masters was not a supreme ruler amongst the human leaders?

The people in the venue knew Family Master Tao was the undisputed strongest person in Hidden Pupil Royalty. That Calamity Ocean Demon could actually oppose such a royalty leader.....

Then, as the master of that Calamity Ocean Demon, just how strong could Ancient Flood Dragon Person be?

After hearing this news, Liu Binglan was also shocked speechless.

She had made sufficient mental preparation and thought of various methods to handle this danger. However, she had never expected that Ancient Flood Dragon Person to be this strong. Let alone New Moon Land, even the eight major factions and two royalties might not be able to handle that Ancient Flood Dragon Person!

“Isn’t Solar Eclipse happening soon? If this Ancient Flood Dragon Person does not return to Eternal Ocean and invades human territories, this will become a terrifying war!” said a few Border Lords with territories near New Moon Land.

“Certainly, the Ocean Species agent told us that a few of its subordinates have already awakened and madly expanding their forces. Once Ancient Flood Dragon Person awakens naturally, East Ocean of Ocean Species and the western region of human territories will be severely affected.”

The western region of Zhengming Continent and Wupan Continent would be affected. The expression of those Border Lords changed and they were unsure how to handle it.

“Then..... What should we do?” asked Guan City’s City Lord.

Family Master’s gaze swept across everyone and calmly spoke, “The final decision of us six Family Masters, Masters of the five major factions and the rulers of two Dynasties is: The regions that will be affected will migrate to the other regions. These regions include the actual site New Moon Land, affected territories He Border, Eternal Ocean Strait, Guan Border.....”

Family Master Gu calmly announced the names of those territories. The Border Lords whose territories were in the list had a grim expression. This was undoubtedly a nightmare to them. After all, migration was equivalent to abandoning their territories. They would be managed by the royalties and eight major factions afterwards.

Every territory held some private ownership property. Who would be willing to abandon such territories? They also had to organize a major migration for the entire population in the territory!

“Migration??” After Liu Binglan heard this decision, she felt thunder striking her head!

The battle against Soul Alliance finally let the three palaces gain control over New Moon Land.

It was immediately followed by the threat from Cloud Realm. New Moon Land emerged as an independent territory through countless hardships.

Next, New Moon Land rose up to fame amongst the new generation and gradually gained their own standing in Zhengming Continent.

New Moon Land continued to prosper, more and more people knew about New Moon Palace. More and more experts settled in New Moon Land to live, cultivate and travel.....

Liu Binglan watched over the development of New Moon Land. She also watched over countless people working and fighting for New Moon Land.

However, this simple 'migration' would make all the efforts New Moon Palace invested in reduce to nothing!

Abandoning territory, all population in New Moon Land had to be migrated.

Migration meant the entire New Moon Land population would become refugees. It meant that they would lose their sense of belonging. It meant countless people would face the breaking up of families. It meant countless people had to live under the roofs of others.....

New Moon Land already had almost no allies. Just where could the hundreds of millions of people migrate to?

Furthermore, the most precious thing about New Moon Land was its territory. The existence of forbidden regions allowed New Moon Land to gain a natural barrier. As long as they could keep the disasters in control, New Moon Land would be the most peaceful territory.

New Moon Land had thousands of years of history. It was not any inferior to those big border countries. Its culture, civilization and history had long taken shape.

New Moon Land possessed isolated spaces rarely seen in other places. There were more than ten of them, each isolated space was a huge treasure vault.

Soul Palace, Nightmare Palace, Soul Pet Palace, they existed with those isolated spaces as foundation. Once those isolated spaces were lost, what meaning was there for New Moon Palace to continue existing?

Every person had something worth protecting by betting their lives.

Other than Chu Mu whom Liu Binglan owed too much to, she was also willing to bet her life to protect this New Moon Palace which protected the citizens of New Moon Land!

Once New Moon Land ceased to exist, once New Moon Palace perished, it was no different from robbing her of her life!

Chapter 1512: New Moon Land, Racial Independence?

“After New Moon Land migrated, we will deploy armies from various factions to defend there. We will also arrange leaders, border lords, gate elders and other high rank experts to guard there in turn and wait for Solar Eclipse. New Moon Land’s isolated spaces will be temporarily managed by the

factions in their respective shifts. After all, this disaster requires an enormous amount of soul pet resources and Soul Items..... This is the decision, is there any objection?” said Family Master Gu slowly.

There was no more sound within the entire conference room by now. Liu Binglan was stunned by the news, while Madam Huo and the others who were eyeing on New Moon Land smiled after seeing Liu Binglan’s stunned expression.

They actually knew about the solution of the royalty beforehand. The reason they kept provoking Liu Binglan was also because they knew that New Moon Land would be ordered to migrate. Without the land, just how would New Moon Land oppose the major factions?

Meanwhile, the New Moon Land refugees had to live under the roof of others. Their treatment would be determined by the actual territory lords as well.

After losing the precious resource vault, they would need the assistance of their allies. Perhaps, their so-called allies would also change their attitude. After all, New Moon Land could no longer provide them with what they wanted.

After stimulating all the possible hardships New Moon Land might face, Liu Binglan felt her body going cold. She must not let this happen!

Hence, when Family Master Gu was asking if anyone objected, Liu Binglan stood up without hesitation.

She could tolerate the unreasonable expropriation of Northern Territory, but she would never agree to abandon the entire New Moon Land.

“Liu Binglan, are you objecting?” asked Family Master Gu after he saw Liu Binglan standing up.

“I’m not objecting. Rather, you people do not have the right to decide this matter,” Liu Binglan was already furious.

She had never been so furious before. What authority did the royalty have to expropriate a piece of territory? What authority did they have to rob away the territory of others? And they even seized all the isolated spaces as well!

Instead of saying they would be guarding New Moon Land to prevent Ancient Flood Dragon Person from invading into human territory, it sounded more like them robbing all the territorial resources of New Moon Land using Ancient Flood Dragon Person incident as a chance. They were even chasing the original owners of the territory to other places!

“Before the conference began, Family Master Ning already said that our objective is to consider the benefit of the entire human territory. For everything discussed during the conference, the involved territory owners can voice their opinions and objections. However, once the resolution goes through the conference, it will be strictly carried out,” said Family Master Gu with a stern tone.

“Female Supreme Liu, you also heard how powerful that Ancient Flood Dragon Person is. It can swallow half of our Zhengming Continent. Once it awakened, let alone New Moon Land, even the people in the nearby borders will also perish. If you don’t migrate, are you going to watch your citizens die meaninglessly?” said Elemental Clan’s Wind Faction Lord.

“It can’t be helped. Female Supreme Liu, let’s just migrate,” sigh He Border’s Border Lord.

He Border's Border Lord actually knew about this matter. He also went through days of struggle over the thought. However, no matter how he struggled, the royalty's order was already issued. What use was there to object?

The other Border Lords who were ordered to migrate also did not voice out. Their positions were even worse than the current New Moon Land. They naturally did not have the qualification to say anything more.

Of course, there were also those who objected. However, those objections help no real use at all.

"Family Master Gu, I don't really understand. Asking New Moon Land's citizens to migrate is one matter, why are you distributing the isolated space resources to other factions?" asked Lin Xian.

"Ancient Flood Dragon Person's fighting force is enormous. Once the war breaks out, our resources will be greatly exhausted. The exhaustion can only be replenished from those isolated spaces which are non-human territories," said Family Master Gu.

"Private territories belonged to individuals in the first place. Migrating or not depends on the ruler of the private territory. What do you think about this, Beiming City's City Lord?" Lin Xian's gaze fell onto Beiming City's City Lord Xia Yin.

Xia Yin took a glance at Lin Xian and thought to himself that this Lin Xian was clearly dragging him into this.

However, the resolution made by the royalty was certainly too unfair. It would be one thing if they ordered those governed borders to migrate. How could they order private territories to migrate? Private territories were not under the protection of any faction other than Divine Sect.

“Hmm, I am also of the opinion that this should be decided by private territory owners,” City Lord Xia Yin nodded.

Since both powerful private territory representatives indicated that they objected to this resolution, the other private territory lords naturally would not accept such a decision. After all, once there was an example of New Moon Land, they would be the ones to suffer in future if such things were to happen to their own territories. Now, they private territory owners must stand on the same side.

Private territory owners did not hold much weight in the entire conference. Even if He City and Beiming City objected, no objection could overturn the decision of those major factions and royalties.

“Start the vote,” Family Master Gu did not want to say anything further and immediately went through the voting process.

They did not need to see the result of the vote. It would surely be agreeing with the royalties taking up the majority.

Liu Binglan took a glance at Yu Suo. Yu Suo shook her head and indicated that she also could not do anything. This conspiracy had been planned for a very long time. When it suddenly broke out during this Dual Earth Conference, even she could not imagine such a big change.

Yu Suo’s intention would be to temporarily compromise. Since the Ancient Flood Dragon Person incident was indeed difficult to handle. Even if it was settled, New Moon Land would be in ruins.

Liu Binglan was unwilling to compromise. She would never hand over New Moon Land to those greedy major factions!

“The vote passed. New Moon Land must complete migration within two years. The locations to be migrated to can be discussed with the various major factions. Every faction must handle this properly,” said Family Master Gu calmly.

“No matter what your vote is, New Moon Land will not migrate!” said Liu Binglan with unshakable determination as she swept her gaze across the entire venue.

“You cannot be stubborn on this matter. We are protecting,” said Family Master Gu.

“New Moon Land has been independent from the start, we don’t need your protection,” said Liu Binglan.

“The two royalties protected all human territories. Independent? Unless you become independent from the human race,” snorted Madam Huo.

“Then it shall be done!” declared Liu Binglan without any hesitation!

Independent from the human race?

That was naturally a mockery and threat. In fact, such events did happen in history. Many territories unwilling to obey the two royalties and major factions chose complete independence. However, the result of such independence was to be subjugated by all major factions joining forces. They would recover this traitorous territory.

New Moon Land disagreed with the final decision of the two royalties and major factions. This was equivalent to becoming a complete betrayer. This would lead to subjugation!

“Liu Binglan, this independence isn’t territorial independence, but racial independence. First, racial independence itself is a threat to humans, because you do not belong to the human race acknowledged by us humans. Next, if you do not migrate, we cannot take proper measures against Ancient Flood Dragon Person. This will assist Ancient Flood Dragon’s tyranny. Hence, your New Moon Land’s stubborn behavior is the same as endangering the other Border Kingdoms.”

“Which means, if you want to acknowledge racial independence, then our Dual Earth Conference will then discuss on how to exterminate the danger you independent race will bring to us humans!”

Family Master Gu emphasized the severity of this issue, as if Liu Binglan would be antagonizing all major factions if she did not agree to migrate!

Which faction present would dare to take such an action?

Seeing the gloating expressions of those against New Moon Land, Liu Binglan’s fury reached a peak.

What those people wanted was for New Moon Land to be destroyed, so that they could snatch all the resources.

This was their conspiracy. They were in cahoots long ago and probably even bribed the royalty. They would be wiping out New Moon Land without any mercy!

If that was the case, there would be nothing to discuss!

Liu Binglan stood up, sweeping her gaze past all those greedy major factions and spoke, “You want to divide New Moon Land amongst yourselves?”

“Then just go ahead and send your armies!”

Finishing that line, Liu Binglan turned to leave without waiting for the conference to end.

New Moon Land had been independent since the start. There was no need to receive the management and protection from others. If they could not even defend their own territory, it would be meaningless for this territory to exist.

If they had to accept such tyrannical protection, it would be no different from getting annihilated!

Want to divide New Moon Land?

Want to occupy New Moon Land’s abundant resources?

Want to possess New Moon Land’s independent space?

Sure, come and get them!

Ancient Flood Dragon Person is not scary, what's scary are these greedy factions which use protecting the entire human race as a hypocritical reason!

Family Master Gu saw Liu Binglan actually leaving before everyone's eyes and immediately reprimanded, "Stop, do you think this is a place you can come and go as you like?"

The Dual Earth Conference was important and solemn. It would not allow anyone to leave halfway. This was the same as challenging the majesty of the royalties.

Liu Binglan's action would surely enrage the others.

Madam Huo saw Liu Binglan completely furious and revealed a smile.

Liu Binglan might not even have the chance to return to New Moon Land. The royalties always valued their reputation greatly.

Liu Binglan ignored Family Master Gu and left the room coolly, without any hesitation in her steps.

Family Master Gu's rage burned even greater as he saw Liu Binglan really left. Someone actually dared to ignore the majesty of the royalty!

Chapter 1513: Heaven Palace Really Exists?

"The voting is over, so isn't the conference over? I still have matters to attend to, goodbye," At that moment, City Lord Lin Xian stood up at a great timing and sloppily bowed to Family Master Gu.

After that, Lin Xian stepped away from his seat and walked towards the door.

His steps seemed to be a little hasty, as if he was chasing after Liu Binglan.

“Sigh, the conference went on for an entire day. Everyone is tired, let’s discuss tomorrow if there’s anything else?” City Lord Xia Yin also stood up.

Magistrate Xiao stood up right after Xia Yin, “Farewell.”

“This woman sure has quite a personality,” Ning Family Dynasty’s king laughed and slowly stood up.

He chose to leave at this moment not because of his thoughts on Liu Binglan’s personality. It was because Yu Suo used mental voice to tell him to end the conference earlier. Otherwise, Liu Binglan’s action might really cause her to be imprisoned in Dual Earth Mountain.

While Yu Suo told King Ning to help, she also directed her hidden chess pieces to follow these leaders to leave. This way, the royalties could not make a fuss.

Elemental Clan’s vice clan master Peng Meng was unsure what to do and asked, “Family Master Tao, this.....”

“It’s dismissed, there’s nothing else,” Family Master Tao stood up and politely helped Family Master Rong up.

Family Master Rong got up with the help and did not intend to discuss anything else.

When Family Master Gu saw such a scene, his face turned red with fury.

Those people were definitely intending to help Liu Binglan escape blame. If they did not leave, Family Master Gu would be able to pin a crime on Liu Binglan!!

“Never mind, our objective has been achieved. So be it,” At that moment, a mental voice was transmitted into Family Master Gu’s ears.

Family Master Gu took a glance at a young-looking man sitting on the leader seat and slightly nodded. He did not pursue this matter any further.

.....

After Chu Tianmang left the villa, he noticed a trace of starlight flying past above the mountain peak in the distance. It clearly showed that Liu Binglan flew towards there.

He chanted an incantation and summoned his wing-type soul pet to chase after her.

After passing the mountain peak and onto the summit of another mountain which was surrounded by clouds, Chu Tianmang saw Liu Binglan sitting at the edge of the steep cliff.

He was greatly shocked after seeing Liu Binglan’s action. She would not be thinking of ending her life, would she?

The two times against New Moon Land by the two royalties and various major factions were really too inhumane. Furthermore, when such a huge pressure fell onto Liu Binglan's shoulders, how would she handle it alone when nobody could help her?

Chu Tianmang watched her from afar and flew to her front without thinking much.

Liu Binglan raised her head slightly. When she saw it was City Lord Lin Xian, she hurriedly wiped her eyes to not let herself seem too feeble.

Chu Tianmang still saw her reddened eyes. He could tell the Dual Earth Conference this time was indeed too much of a blow to her. She also saw the ugly face of greediness from those factions.

"Are you alright?" Chu Tianmang jumped down from his soul pet and sat next to Liu Binglan.

Liu Binglan did not speak. Actually, she wanted to be alone for a while, but she could tell this city lord was showing concern for her, so she did not say anything.

If it was someone else, seeing her staying silent coldly like that would probably become awkward. Fortunately, Chu Tianmang knew she was originally like that. So he simply sat next to her and spoke whatever came to his mind. Otherwise, he would also remain quiet.

"The two royalties themselves have been wrapping around the human territories for countless years. This kind of sovereignty mindset had deeply taken root in their hearts before many territories appeared. Apart from major factions like Divine Sect which could ignore such a majestic attitude from the royalties, other factions had to take a compromising attitude. After all, the experts under their control numbered way too many," said Chu Tianmang calmly.

“If this happens to your He City? What are you going to do?” Liu Binglan finally spoke.

“Me?” That made Chu Tianmang feel a little awkward. He only used this identity of He City’s Vice City Lord for a short while, so he did not hold much feeling towards this private territory.

“Probably the same as you. Unfortunately, your New Moon Land does not have leader rank experts. If you have leader rank experts taking fort like our He City or Beiming City, those royalties and factions would not dare to be so arrogant,” said Chu Tianmang.

Liu Binglan became silent again.

As the cold wind on the mountain summit blew, she felt her head occasionally clearing up and occasionally turning into a mess.

She did not know whether her decision was right or wrong, she also did not know whether her reckless behavior would make the entire New Moon Land fall into a dead end.

She was thinking whether she should listen to Yu Suo and compromise temporarily. Then, they would reobtain the land once they became strong enough.

However, when would that be? The original New Moon Land citizens would be scattered all over the world. How should she call them and gather them again?

Would the Holy Region in the palace become a mess? Those bandits would never conduct maintenance to the Holy Region. They would only rob and snatch to their hearts’ content.

“Relax, no matter what your choice is, I will do my best to help you,” said Chu Tianmang in a serious tone as he tapped Liu Binglan’s shoulder.

“Thank you,” Liu Binglan felt a trace of warmth in her heart. Her helpless and isolated feeling also faded off slightly.

Liu Binglan noticed this He City’s Vice City Lord never took his eyes off her. That kind of gaze caused Liu Binglan to feel a little uncomfortable. She turned away her own gaze in panic.

Chu Tianmang did not shift away his gaze. No matter what, she was his wife. Seeing her in tears would not make him feel good. He wanted to hug her and console her, but it would be unsuitable.

After so many years, Chu Tianmang was unsure if she would still acknowledge that they were married couples. Worse still, if she saw him, she would surely carry some unpacifiable grudge.

Furthermore, Liu Binglan was already shouldering a heavy burden. Chu Tianmang did not dare to let her shoulder his portion of burden. Fortunately, this He City’s Vice City Lord identity allowed him to gain a chance to secretly get close to her and help her.

The two of them sat on the edge of the cliff. They did not exchange words much. They were both thinking about the heavy burden they shouldered respectively. They would occasionally converse a little to brighten up the mood albeit slightly.....

Meanwhile, another two people silently watched over them far away from that mountain summit.

One was a handsome man in snow white clothes, the other was a man with white fringes.

Xiao Xueang stood there and did not move forward for a long time.

He was too slow. He knew that if he wanted to open up the heart of that ice beauty, he had to appear at the moment she needed help the most. Unfortunately, he was too slow. Someone chased after her without any hesitation the moment she left. Xiao Xueang also wanted to do that, but that last trace of hesitation caused him to fail.

Seeing the two people sitting together on the mountain summit in the distance, Xiao Xueang thought over many things.

However, he was confused why that Hidden Pupil Royalty's Family Master Tao also chased after her. Furthermore, he was being so secretive that he did not want anyone else to know.

"Do you like her?" asked Family Master Tao calmly as he looked at Xiao Xueang.

"Favorable impression," Xiao Xueang did not try to dodge the question.

Meeting with Liu Binglan was purely out of coincidence. It was at the Territory Institution, Xiao Xueang was personally handling a territorial conflict case.

At that time, he saw her. She was cold as ice, silent as water, beautiful as flower. At that moment, Xiao Xueang felt an indescribably feeling towards this woman.

Afterwards, Xiao Xueang often appeared in the Territory Institution.

Xiao Xueang was Divine Sect's Chief Magistrate. He was the most respectable expert amongst human leaders. There were not many amongst the human race who could fight evenly against him.

Unfortunately, becoming unparalleled in a certain aspect would mean a great deficit in another aspect. He actually did not really know how to pursue his feelings. Just like a while ago, he should have been the first to leave his seat after Liu Binglan left. However, he hesitated. He considered his role of representing Divine Sect, considered his identity as a Magistrate, considered many other things.....

Feelings could not be mixed too much into some matters in the first place, that would only defile the perfectness of the originally pure things. He admired He City's Vice City Lord for chasing after Liu Binglan without considering the consequences.

"Why are you here?" asked Magistrate Xiao as he looked at Family Master Tao.

Family Master Tao watched Liu Binglan from afar and sighed, "She should not have been in New Moon Land. She should be in my position and order others to make the hard choices instead of getting ordered like that."

Magistrate Xiao looked at Family Master Tao and was full of questions.

Family Master Tao continued after a long while, "She is a member of our royalty. You should have seen her eyes."

Magistrate Xiao was startled for a moment. He then recalled Liu Binglan's eyes were certainly very similar to Hidden Pupil Royalty. When he saw her for the first time, he actually thought she was a woman from Hidden Pupil Royalty.

"Is she your daughter?" asked Magistrate Xiao with a tone of disbelief.

Family Master Tao nodded slightly.

"Madam Qin and you were in love and had a daughter?" Magistrate Xiao then remembered a rumor related to the royalty long ago.

"Yes," Family Master Tao nodded again.

Family Master Tao believed Magistrate Xiao would not leak this information. Also, some things could not be hidden forever. The truth would eventually surface one day.

"Then, does Heaven Palace really exist??" asked Magistrate Xiao.

Family Master Tao looked at Xiao Xueang, then at Liu Binglan, and nodded after a long while, "It exists."

It exists!

Such a short line revealed such an astonishing secret! Xiao Xueang looked at Family Master Tao, his heart was in a violent turmoil.

The legendary Heaven Palace actually truly existed!

#### Chapter 1514: Subjugation Decision

Late night, Dual Earth Mountain appeared to be especially quiet.

Under the old tree of a lone yard, two men stood at the stone benches and conversed lightly while enjoying wine.

“The following matters should be quite simple, right?” said the man who looked younger.

“Since New Moon Land disobeyed the decision of us royalties, even if the people in that territory are all slaughtered, us royalties and Divine Sect will not care,” said Family Master Gu as he stroked his beard.

“How can I be so cruel?” The young man laughed.

“No, this is not cruelty. They are causing us trouble by being unwilling to migrate. Are they going to use their meager power to oppose Ancient Flood Dragon Person themselves? Laughable,” said Family Master Gu.

That young man held his wine cup and offered a toast to Family Master Gu, then gulped down the wine.

“Divine Sect’s Punishment palace is already willing to move. Elemental clan’s fire sect, wind sect and dark sect are interested in those isolated spaces. Someone from Departed Spirit Palace wants to join in, Demon Beast Palace’s Beast Sect surely won’t just watch the profits getting reaped. On Mu Family side, Mu Tuan’s bloodline mentioned that land originally belonged to them. Ning Family

Dynasty did not really make any move. It seems that King Ning does not know New Moon Land well. As for Navy..... Chieftain is most interested in this land,” said the young man.

“That’s your business. I’m only giving you a justification to do this,” Family Master Gu did not say anything more.

The two raised their cups and toasted again.

While the two conversed, they did not notice a figure completely blended into the darkness agility jumping away from the side.

This figure did not make any sound or spatial ripple. Even royalty’s Family Master Gu could not notice its existence.

The shadow left this yard, crossed through the darkness and flew towards a Mountain Peak Villa.

The lighting from the villa in the distance shone onto the old trees along the road. The tree shadow swayed along the wind.

This petite shadow agility jumped up the staircase all the way to the scenery viewing pavilion at the end of the road.

In the pavilion, Evil Good Queen with her face covered in veil looked into the distance. Her soft silk skirt fluttered in the wind. Her crimson long hair also seemed extraordinarily charming in the dark night.

That petite shadow lightly leaped up into Evil Good Queen's bosom.

Evil Good Queen held it in one hand and stroked its soft fur with her other hand.

"You're so reluctant when I asked you to help me gather intel," Evil Good Queen flicked its forehead with her finger.

Little Dark Death King yawned and leaned there with a bored and sleepy expression.

Evil Good Queen's evil and darkness energy really suited this Ten Thousand Years Immortal Dark Death King's appetite. It had been sealed for such a long time after all, so many parts of its body were already weakening. It had to keep absorbing evil and darkness enee to gradually recover to its peak state.

Dark Death King opened its mouth and cried out a few times, conveying the conversation it heard just now to Evil Good Queen.

After hearing it, Evil Good Queen continued stroking Dark Death King's fur and became loss in thoughts.

"Is this guy an underling of him?"

"But, New Moon Land is really in trouble this time."

“Hmph, it’s all because of that bastard Chu Mu, he messed up my plan,” muttered Evil Good Queen.

If not for Chu Mu sabotaging her rule over New Moon Land, according to her original plan, the current New Moon Land should not be inferior to Beiming City or He City.

New Moon Land was already full of danger. It would not be long before the various major factions joining forces and subjugating New Moon Land. Furthermore, they would be using the justification from the royalties. This caused New Moon Land to be in a situation where they would be invaded and yet could not ask for help.

Evil Good Queen’s intention was to let Liu Binglan compromise and temporarily migrate New Moon Land. Unfortunately, Liu Binglldid not listen. Although she never announced New Moon Land’s racial independence, she made New Moon Land to be in a situation that was similar to racial independence. She let those greedy factions gain a great excuse.

A war was inevitable!

If Liu Binglan refused to compromise, the final result would really be as that mastermind predicted. The various factions would join forces and subjugate New Moon Land. With New Moon Land’s current strength, it would be a total annihilation even if they had the territory advantage.

“Where did that Chu Mu run off to?” grumbled Evil Good Queen.

Chu Mu should have personally attended this conference. After all, he was the real king of New Moon Land, and his strength would guarantee his qualification to speak.

Yet Chu Mu was nowhere to be seen at such a crucial time. He made Liu Binglan face humiliation and pressure by herself. What a heartless man.

Evil Good Queen had to discuss the strategy with Chu Mu now.

The various factions would be joining forces to subjugate New Moon Land. This would be a disaster for New Moon Land. However, thinking about it from another perspective, if this subjugation ended in failure and they did not reap any profit, Evil Good Queen could rapidly spread her own forces into these factions.

Xuan Gate Immortal School's Gate Master could more or less be confirmed. In Divine Sect's Magistrate Palace, there were many of her forces deployed. Xiao Xueang and Old Sect Master Xiao were also leaning towards New Moon Land's side. Demon Beast Palace, Elemental Clan, Mu Family Dynasty, Ning Family Dynasty, as well as other large households and sects all had their forces infiltrated by her.

Those factions intending to subjugate New Moon Land were factions Yu Suo's Invisible Kingdom did not infiltrate. If they sent their army to war, Evil Good Queen could infiltrate those factions while their bases were empty.

However, the problem was that if New Moon Land was destroyed, this loss would be far greater than spreading out the influence of the Invisible Kingdom. After all, New Moon Land was the foundation of the Invisible Kingdom.

The more Evil Good Queen thought, the more frustrated she became. Things did not develop according to her plans. There was not much time left, Evil Good Queen's grudge worsened. If Chu Mu was around, she would scold Chu Mu even if she would be locked up.

After becoming Chu Mu's soul pet, the greatest harvest Evil Good Queen gained was to have learned how to discard her elegance and reservation, then scold others without caring about consequences. When she was still in Heaven Palace, she felt those vulgarities to be crude. Now, she seemed to feel those words were the best choice to vent her anger. The moment she saw Chu Mu's face, she would feel the urge to throw those vulgarities at him.

.....

As the matter was already settled, Dual Earth Conference was meaningless to Liu Binglan. In the morning of the next day, she brought New Moon Land's people and left Dual Earth Mountain.

Taking into consideration that the royalties might imprison Liu Binglan, Yu Suo sent a few experts to escort her departure.

However, when Yu Suo's subordinates reported back to her soon after, she was slightly surprised, "So many people protecting her in secret? Looks like she's not so lonely."

Yu Suo's subordinate reported that there were at least three groups of people protecting Liu Binglan's departure in the dark. At first, they assumed those people were intending to harm Liu Binglan. However, they noticed those people did not make a move until the end and strictly chased away other people with ulterior motives. They then confirmed that those people were also secretly protecting Liu Binglan like them.

With three groups of experts protecting Liu Binglan, Yu Suo did not need to worry about their safety anymore. She did not leave Dual Earth Mountain early. Her Guang Moon Palace was a neutral faction after all. Even if New Moon Land and the two royalties became enemies, she had to maintain her Guang Moon Palace's disguise. Only by doing so could deal a fatal blow to these people at the most crucial moment.

.....

At the end of the conference on the third day, they mentioned New Moon Land's betrayal as expected.

The six Family Masters reached a consensus that if New Moon Land did not migrate within a year, it would be treated as racial independence. Any faction would gain the right to subjugate New Moon Land.

This decision was unable to be taken back. After all, too many factions were after the resources in New Moon Land's isolated spaces.

A tiny territory was able to develop until it was on par with some middle rank Border Kingdoms in a few years, This was sufficient to prove a huge treasure vault was in New Moon Land.

Any faction would face a bottle neck in development as all the resources were occupied. Nobody would dare to occupy those that could not be occupied. With New Moon Land's sudden emergence, they would definitely make a move for their own benefits once there was a justification and enough factions joining forces!

Independent territories mostly voted opposition, Border Kingdom factions mostly forfeited. Major factions naturally voted approval. Xiao Xueang, Xuan Gate Immortal School's Old Sect Master voted for opposition. Unfortunately, they were only one of the leaders, not the absolute leader. Their opposition could not change the flow.

Seeing such a situation, Yu Suo did not let her thirty subordinates reveal themselves in the end.

Facing over two hundred factions in this Dual Earth Mountain, thirty votes could not change anything. The power she could grasp was still too meager.

.....

“Saintess Yu, since the conference is over, please follow me to Wupan,” After the conference, King Ning took the initiative to invite Yu Suo.

“Since the plague is still spreading in Wupan, I shall not delay any further. Let’s go,” Yu Suo nodded.

The royalty gave New Moon Land one year as the deadline for migration. Her trip to Wupan this time was a great chance to expand her forces. If she could hold more cards in her hands before the war broke out, it would definitely be better.

“Why are you always wearing a veil? Is it because your appearance is too beautiful or are there some inconveniences?” asked King Ning as he examined Yu Suo curiously.

“Personal habit,” answered Yu Suo.

“Then, can you take off your veil and allow me to see your face?” said King Ning jokingly.

Yu Suo smiled and did not answer. She also did not take off her veil, but she thought so in her mind: Perhaps there’s a shortcut to infiltrate into Ning Family Dynasty?

Flowers were beautiful and fragrant. Anybody would want to pluck flowers, be it a common nobody or high and mighty king.

However, nobody actually plucked Evil Good Flower. Those who wanted to pluck it submitted themselves under her.

Chapter 1515: Human Who Has Nothing Better To Do

Chu Mu knew nothing about the commotion in Dual Earth Mountain as he was in the ocean.

He was not aware that those participants in Dual Earth Conference would be targeting Liu Binglan, nor that New Moon Land would be facing an attack by those greedy major factions.

He was currently in the ocean, trying to complete his final soul pet target.

Water type Yellow Spring!

Chu Mu had always been stubborn. He agreed without any hesitation to help Yellow Spring —— Calamity shoulder the consequences of all its misdeeds.

However, he never expected this little Yellow Spring's misdeeds were so devastating. It was really hard to imagine how those Oceanic Species tolerated it all this while.

For the past few months, Chu Mu had been running around.

Night was left in Demonic Mound Heavenly Realm to rest, causing Chu Mu to always feel something missing as he acted, hindering his travel between the various Ocean Species.

Fortunately, with the assistance of the mermaid princess, Chu Mu managed to resolve two major incidents.

First, he found a new habitat for the shark race. He eliminated the natural predator of the shark race in that ocean region and found the resources necessary for their survival.

The shark race inhabited in East Ocean Deep Sea. Chu Mu had a hard time moving about as he could not swim. He could not believe he actually managed to resolve this matter.

A portion of the shallow sea subspecies of the shark race were guided by Chu Mu to Dark Sky Ocean.

Dark Sky Ocean actually had abundant resources, just that it was never cultivated.

After Chu Mu guided the Ice Demon Shark clan which preferred shallow sea to Dark Sky Ocean, they really liked the chilling ocean region. Ice Demon Shark's clan chief was glad to be the neighbour of New Moon Land. It used its shark fin to slap its scaled abdomen and told Chu Mu that New Moon Land would not need to worry about the safety of Dark Sky Ocean!

Ice Demon Shark clan was one of the clans amongst the Ocean Species with the best fighting strength. They had a large population and great strength. The only flaw was their short lifespan.

The stronger Ice Demon Sharks had to eat a crystal stone called Ocean Agate to extend their lifespan.

Little Yellow Spring —— Calamity ate all the Ocean Agates in storage, hence rapidly increasing the mortality rate of Ice Demon Shark clan.

Fortunately, Old Li's knowledge was very vast. It knew the source of this Ocean Agate. Chu Mu went back to New Moon Land to ask the wise elder scholars and soul pet trainers with plenty of travel experience to help find those Ocean Agates. They eventually found an even more abundant Ocean Agate source near the past Pirate Island in Dark Sky Ocean. This resolved the greatest problem of Ice Demon Shark clan.

Chu Mu obtained the friendship of Ice Demon Shark clan. This was very beneficial to New Moon Land. After all, if Dark Sky Ocean could be managed, New Moon Land's coastal region would become calmer and more peaceful.

Furthermore, Ice Demon Shark clan also mentioned that their young sharks would be willing to sign soul pact with strong human individuals. This also resolved a major problem of New Moon Land for the lack of water type soul pet resources. After all, even the weakest subspecies of Ice Demon Shark clan would be Emperor rank!

Other than that, Chu Mu also made amendments to the strongest Ocean Iguana Demon race which suffered the greatest damage in East Ocean.

The solution for shark race was rather clear, so it was not so difficult to take action.

However, Ocean Iguana Demon race's problem was a totally unsolvable problem.

Yellow Spring —— Calamity broke into Ocean Iguana Demon race's Holy Ocean Burial Ground and damaged the most glorious grave of the race.

This action was no different from destroying the holy faith altar of any big human household. There was no way to make amendments on this matter. Chu Mu could only let mermaid princess try her best to negotiate with Ocean Iguana Demon race's queen and find a way to amend.

Ocean Iguana Demon race's holy altar was actually a place to store Immortal rank Ocean Iguana Demon experts. After little Yellow Spring damaged the holy altar, the special arcane spring leaked out and those corpses were soaked in normal ocean water.

The corpses of Immortal rank creatures were indeed immortal. However, their corpses could only be preserved for a long time after reaching the peak of Immortal, and might even resurrect in specific environments.

Such cases actually happened to Ocean Iguana Demon race. The current Ocean Iguana Demon race's queen was an Immortal rank expert resurrected in the holy altar. Hence, Ocean Iguana Demon's holy altar held a really important meaning to Ocean Iguana Demon race. It was not only a place to show respect to the warriors of the race, it was also a place where miracles could occur.

Little Yellow Spring's action enraged the entire Ocean Iguana Demon race. The arcane spring which could ensure the preservation of corpses was also leaked dry.

Arcane spring was only owned by Ocean Iguana Demon race in the entire East Ocean. It was also extremely difficult to find an arcane spring in Eternal Ocean.

In the end, Chu Mu used the Immortal Spring Water from Immortal City as replacement.

The value of Immortal Spring Water was naturally needless to say. It not only would prevent corpses from rotting, it could also hasten the growth speed of soul pets.

In order to provide this Immortal Spring Water for Ocean Iguana Demon clan, the current Tianxia City's City Lord Mu Yuji cried for many days.

There was only that little bit of Immortal Spring Water collected over the years, King Chu took them all away at once!

King Chu was the still king of Tianxia City's Decade Throne. He should not bully Tianxia City like that. The Immortal Spring Water was supposed to be kept as the prize of the next Battle of the Realm.

However, when Chu Mu threw Soul Capture Rings to this City Lord and the City Lord realized the rings contained many young water type soul pets, he immediately became all smiles!

They were all water type soul pet infants with Dominant rank and above racial rank. Furthermore, their properties and talents were outstanding. It was already incredible to be able to capture one of such soul pets, King Chu gave him a total of 100 Soul Capture Rings!

100 Dominator rank soul pet infants?

If Immortal Spring Water was used to nurture, it would not take long to harvest 100 Dominator rank water type soul pets. If this were to be used as the prize for Battle of the Realm, just how crazy would those youths become??

The effect of Immortal Spring Water was similar to arcane spring. Furthermore, the mermaid race even refined Immortal Spring Water and extracted into Growth Spring Water and Anti-decay Spring Water.

Anti-decay Spring Water was already on par with arcane spring. Meanwhile, when Growth Spring Water was diluted, refined and concocted, it could be used as a catalyst to help the young generation of Ocean Iguana Demon race to grow.

Ocean Iguana Demon race was the strongest Ocean Species in East Ocean. However, their growth speed became very slow, much slower than other races. The Growth Spring Water extracted from Immortal Spring Water perfectly resolved this problem.

If Immortal City could provide more Immortal Spring Water, mermaid princess even wanted to disseminate this Growth Spring Water into the entire Ocean Species. Unfortunately, this Spring Water was limited. The pure Growth Spring Water could be reserved for those Ocean Species with great talents. Most other Ocean Species would still use the diluted Growth Spring Water.

Even the diluted Growth Spring Water could boost the growth speed of Ocean Iguana Demon race by thirty percent. This greatly improved the overall strength of the young Ocean Iguana Demon race.

Ocean Iguana Demon race was very satisfied with Chu Mu's amendment.

Not only was their holy altar repaired, he even let their entire race's growth speed improve. How could they not be satisfied? They still detested humans in the past, but Chu Mu became the only human they could accept.

While resolving these two incidents, Chu Mu kept training in the ocean region. He would often participate in the war between Ocean Species and Calamity Ocean Demon as part of his training.

.....

Speaking of which, Chu Mu had been staying with Ocean Species for a long time. If not for the weird appearance, Chu Mu might even believe he was also a member of Ocean Species.

When he strolled within the Ocean Species city normally, there were often Ocean Species leaders greeting him. Even Chu Mu himself could not imagine himself becoming so familiar with these Ocean Species despite being so quiet while interacting with other humans.

It was no wonder he became a half human. He had a special disposition towards non-human creatures.....

“Mr. Chu, our princess is inviting you over. She said she has a good news for you,” The young mermaid swam towards Chu Mu and told him with a smile.

This young mermaid was already not as shy as when he first saw her. She would often come to the island Chu Mu stayed at and ask him to tell her stories about humans.

On this point, the young mermaid was really similar to mermaid princess. These two who carried human bloodline were really interested in the mysterious human race. If the war against Calamity Ocean Demon was settled, they would be more than willing to pay a visit to New Moon Land.

Chu Mu had to repeat the same thing, it would be fine for them to visit New Moon Land, but they had to learn to wear clothes first!

Chu Mu went to the place he first met the mermaid princess and saw her holding a mermaid toddler with a motherly aura. She was humming a beautiful lullaby to let that cute mermaid toddler sleep.

When mermaid princess Lan Qie saw Chu Mu arrive, she passed the mermaid toddler to an Ocean Iguana Demon Guard.

She smiled gently yet alluringly.

“Yellow Spring Emperor knew about the deeds you have done. He really appreciates it,” said Lan Qie.

“Then, is it possible to take back the punishment?” asked Chu Mu in a hurry.

“Not yet, Ocean Iguana Demon race no longer holds a grudge, Demon Shark race is also willing not to pursue. However, the other races still need a justification. Out of your friendliness, Yellow Spring Emperor allows you to visit Yellow Spring Calamity in Exile Ocean. Once you appease the anger of the other races, Yellow Spring Emperor will retract its punishment. As for whether Yellow Spring Calamity is willing to become your soul pet or not, that will depend on its own choice,” said Lan Qie.

“Very well, where’s Exile Ocean?” asked Chu Mu.

Little Yellow Spring had its power sealed, so it was only around Emperor rank currently. Chu Mu was really worried it would be bullied in other ocean regions, or even get killed by some powerful ocean beasts.

“It’s not too far away, but Calamity Ocean Demon occupied that region not long ago. If you want to go, you need to be careful. Calamity Ocean Demon probably listed you into its blacklist now,” said Lan Qie.

Calamity Ocean Demon would definitely know Chu Mu by now. Chu Mu had killed many of its subordinates during the time he was in East Ocean. Calamity Ocean Demon also heard about a human who had nothing better to do interfering in the war between it and East Ocean. If they had a bounty system, Chu Mu's head would probably be worth a lot.

#### Chapter 1516: Exile Ocean

Exile Ocean was famous for being a dangerous ocean region. The weather in this ocean region was very strange. The tides did not follow any patterns. There would often be tsunamis, underwater volcano eruptions and thunderstorms.

This ocean region was unsuitable for living creatures, especially those young soul pets. Even with the protection from their parents, mortality rate was several times of other ocean regions.

Furthermore, there were usually savage creatures which would kill and devour the weak on sight living in such ocean regions. It resulted in Ocean Species unable to rule over this ocean region even now.

As such, this place became Exile Ocean. When there were individuals which never abided by the laws and committed grave sins, they would mostly be thrown into this Exile Ocean where there was no governance.

Speaking of which, Calamity Ocean Demon's ability was certainly outstanding. It was totally like an evil boss. It could even govern a barbarous place like Exile Ocean.

In fact, while Calamity Ocean Demon was fighting against East Ocean, it expanded its forces by constantly occupying such ocean regions. Its persuasive ability was really comparable to some human evil cults.

Exile Ocean was in the north of East Ocean. It was a little close to Northern Barren Insect Dynasty's territory.

If Chu Mu flew to there, it should take about ten days.

Without Night around, Chu Mu certainly felt tired running by himself. Even if his full speed was faster than Night, his stamina could not hold a candle to Night.

Recalling Elder Li's words, Chu Mu felt a little relieved. Elder Li's medicine would not only remove the corpsification of Night, it was also greatly beneficial to Night's wanderer bloodline. While Chu Mu was with Ocean Species, Elder Li would conduct training for Night in his place.

Heavenly Realm was the kingdom of Demon Species, Night would surely receive better training there than to run around with him in this ocean.

He could tell just how much of a headache this ocean was by looking at Mo Xie's condition. While it usually loved to nap on Chu Mu's shoulder, once they were at the ocean. It was resolute in sleeping in its soul pet space. It would refuse to come out if they were not on land. It had sleepy eyes the whole day and would cry and whimper like a spoiled girl when it was able to come out for a short while every day.

Chu Mu originally intended to let Mo Xie stay with Night in Demonic Mound to train. However, in that case, three soul pet slots would be occupied.

Evil Good Queen took up one slot all day round, Night took up one as it needed to train in Demonic Mound. If Mo Xie was also added, Chu Mu's summoning ability was going to be about the same as a Spirit Soldier despite being a Spirit Immortal. He could not afford to let that happen.

More importantly, Calamity Ocean Demon put up bounty everywhere to eliminate the busybody Chu Mu. He was about to head to Exile Ocean this time, which was Calamity Ocean Demon's territory. If he did not have sufficient soul pet slots, he would also feel nervous.

"Big brother, are we visiting little Yellow Spring?" asked Ning Maner as she tilted her head.

"Yes, do you want to follow me or go back to New Moon Land?" asked Chu Mu.

Ning Maner had been following him all the time during this period. She ran around with Chu Mu amongst Ocean Species. The interesting thing was Ning Maner also took in an Ocean Lord as her protector. Chu Mu still could not tell the strength of that Ocean Lord, he heard from mermaid princess that it was an Ocean Lord with quite a story.

Ning Maner had a total of five protectors now. There was one wandering protector from Quiet Forest in Wupan Continent.

There was also a dragon race, but that he did not know where that dragon race was right now. Ning Maner said it should be at Myriad Heaven Dragon Abyss.

Then, it was the shadow protector which became Ning Maner's shadow, following her all the time —— Dark Emperor.

Dark Emperor carried on the dying wish of its master, He Cang. It silently guarded Ning Maner in her shadow.

Next was the newly recruited Ocean Lord. This was the famous lord of warriors in Ocean Species. It was much stronger than Chu Mu after his half devil transformation. This made Chu Mu really frustrated. He had to put in so much effort for little Yellow Spring. Yet Ning Maner just casually made contact with that Ocean Lord and took it to stroll around a few ocean regions, and this Ocean Lord was already willing to become her protector.....

The last one would be Chu Mu.

Chu Mu was different from the previous four protectors. He signed an equal soul pact with Ning Maner. He was also the first protector to sign a soul pact with her.

Rather than saying protector, it was more suitable to call him her guardian. After all, before Messiah Tree completely took shape, the responsibility of this guardian was much more important than the protector. Of course, once Ning Maner's ability matured, Chu Mu would obtain the greatest benefit.

.....

Chu Mu had seen chaotic ocean regions before. However, once he arrived at Exile Ocean and saw this murky ocean region, he felt a little helpless.

The ocean was dark blue in color, the water should be pure. Just like how humans liked cleanliness, Ocean Species similarly preferred the ocean to be clean. The water was like the air humans breathed.

If he had to describe just how dirty this Exile Ocean was, he could only compare it to a human city looming with dust and vile gas.

Be it the ocean surface or deep inside the ocean, there would be various things floating around. There were decomposing corpses, broken scales, poisonous seaweed, as well as kraken-like creatures which spat out ink-colored fluid.

Even the air above the ocean was shrouded in a weird smell. If any bird flew past, it would faint and fall into the ocean, adding another corpse trash into the dirty ocean.

In the region around East Ocean Coral City, the water did not contain any impurities. He could still see very far away after diving deep into the ocean.

However, in this Exile Ocean, Chu Mu honestly did not have the courage to dive down. It was no different from jumping into a mud pond.

“Little Yellow Spring is exiled into this place, it must be really pitiful,” said Ning Maner as she pinched her nose.

They could sympathize with the feeling of getting exiled from a beautiful, clean and luxurious city to this trash yard. Furthermore, they would not know if this dirty water was toxic or not. Creatures and plants living in such an environment were simply shaving away their lifespan.

“Big brother, where’s little Yellow Spring?” asked Ning Maner.

“Lan Qie said it was exiled to the Sea Obstinate Rock area in Exile Ocean. Let’s catch an Ocean Species to ask for the way,” said Chu Mu.

Chu Mu really had no courage to dive into this kind of ocean. He simply used his spatial ability to forcefully split the water under his feet into two!

The ocean was split apart by Chu Mu's Spatial Hand. The murky ocean slowly split open, creating an astonishing ravine.

The surrounding ocean soul pets were scared off by the ocean splitting open. Chu Mu used his soul remembrance to lock onto a single-horned sea snake.

"You'll do," Chu Mu's gaze flashed and forcefully targeted this escaping single-horned sea snake. He pulled it out from the murky ocean directly.

That single-horned sea snake kept hissing out of fear. However, no matter how it twisted its body, it could not break free from Chu Mu's Spatial Hand.

The single-horned sea snake actually had a large physique. It was at least over a hundred meters long. Chu Mu thought it was a tiny sea snake when it was still underwater. He never expected it to occupy such a large space after pulling it out. Chu Mu and Ning Maner looked like toddlers before this sea snake.

"Little sea snake, don't be scared. I want to ask you something," Ning Maner smiled gently towards the single-horned sea snake.

The single-horned sea snake probably felt frustrated. It had been in this Exile Ocean for over a hundred years. It had now reached the level of ruling over a portion of the ocean. Its strength also reached middle class Dominator rank.

It originally thought it could live as it liked, but it unfortunately ended up getting pulled out by someone like that. The grand Exile Ocean Evil Tyrant single-horned sea snake had to be obedient like a little earthworm.

“Do you know where Sea Obstinate Rock is? Is there a little Yellow Spring there?” asked Ning Maner.

The single-horned sea snake probably wanted to cry. These two humans split apart the ocean so exaggeratedly and caught it into the air, all that was just to ask for directions?

They could find out if they just randomly caught an adult ocean monster. Why did they have to catch a Dominator rank like it?

“Big brother, it said it knows, it’s probably around.....”

“Let it take us there,” said Chu Mu.

Ning Maner nodded and told the single-horned sea snake, “Little sea snake, please bring us there.”

.....

The pitiful Evil Tyrant sea snake became the mount of Chu Mu and Ning Maner like that.

Chu Mu and Ning Maner did not want to enter the ocean, so they made the single-horned sea snake swim on the ocean surface.

Ning Maner stood at the head of the single-horned sea snake. If not for the stench looming over the ocean, speeding above the ocean surface with this single-horned sea snake should probably feel great.

“Big brother, it said there was a locked creature at Sea Obstinate Rock, but it doesn’t know if that’s Yellow Spring.”

“Locked?” Chu Mu was confused. Did those royal ocean guards add a lock which restricted movement when they threw little Yellow Spring into this ocean region?

“Yes. A while ago, a Blood Eating Iron Whale is cleaning up the Sea Obstinate Rock area. They chased away all creatures living there. Little Yellow Spring was probably locked and could not move. So it fought against that whale. Not sure if that Blood Eating Iron Whale killed it or not.”

“Blood Eating Iron Whale is a ferocious species controlled by Calamity Ocean Demon. Calamity Ocean Demon should be starting to put order into this ocean region. Hopefully it is still safe,” said Chu Mu worriedly.

“Yeah, little Yellow Spring had so many layers of seals. It definitely won’t be a match against that big scary whale. Its body is locked up so it can’t even run away,” said Ning Maner gloomily.

Chapter 1517: Blood Eating Iron Whale Clan, To Be Exterminated

.....

Yellow Spring, Calamity!

This fellow was a calamity since its birth. It was hated by countless races in Eternal Ocean.

Now, the sinful Yellow Spring was exiled into this dirty ocean. If it was a creature with a matured mentality, it might be able to endure. However, to little Yellow Spring which was overly spoiled since young, this ocean region was like hell.

Food that was hard to swallow, water filled with stench, toxic ocean mosquitoes and bugs, as well as monsters exuding disgusting fluid.

It was so dirty little Yellow Spring did not want to stay in the ocean.

However, it had no choice but to endure all of that.

It was sealed by ten layers of restrictions, and its body was mercilessly shackled by chains. It could only move around within ten kilometers.

Regardless of being Immortal rank or Emperor rank, this ten kilometers of free movement was as tiny as a bathtub to Yellow Spring Calamity.

Yet there were plenty of dirty and lowly creatures squeezing in this tiny ocean region. They would often flaunt themselves in front of Yellow Spring by swimming around it where it could not reach. They would also whip up underwater torrents while it was sleeping. Some ferocious ones even attacked it directly!

Yellow Spring Calamity was extremely frustrated. It also felt furious and unfair. In the past, those small fries would be torn to shreds with a single slap of its claws. It would never be teased by them repeatedly like this.

Deep in the ocean, there were always murky objects sinking down. This feeling was like something constantly pulling it down.

Some rotten corpses drifted down near the place Yellow Spring Calamity slept.

Yellow Spring Calamity stayed in a cave within Sea Obstinate Rock region. Sea Obstinate Rock was a unique rock found in deep sea region. It was extremely solid and normal brute force could not break it.

The chain was tied on this Sea Obstinate Rock. With Yellow Spring's current strength, it could not destroy the rock.

Another point was that if it destroyed the Sea Obstinate Rock, its final safety zone would also be gone. As it currently only had Emperor rank strength, it had to hide from Dominator rank creatures often. Without the Sea Obstinate Rock as a natural shelter, it probably would have become the food of those ugly ocean monsters by now.

However, it could not keep hiding in the Sea Obstinate Rock forever. It was no different from being imprisoned.

Yellow Spring Calamity laid in the cave and flipped its tail.

Its tail would secrete a semi-fluid substance which could hasten healing when applied at the wounds.

A while ago, a group of Blood Eating Iron Whales suddenly appeared in this ocean region. This was a famous ferocious race within the ocean.

Normally, Yellow Spring Calamity would not be afraid of them. However, its strength was currently sealed and trapped in an unfamiliar region. So it had to hide inside the Sea Obstinate Rock cave and did not dare to go out.

Streaks of crimson figures quickly swam past nearby. Yellow Spring Calamity's eyes carefully watched those ferocious creatures.

It was starving right now. Let alone Spirit Aura, Xuan Aura or Immortal Aura, this ocean region was filled with rubbish. It would rather hold its breath than to let such dirty contents enter its body.

Without absorbing aura, it would naturally become hungry.

There was Blue Ocean Lotus outside this Sea Obstinate Rock cave. Yellow Spring Calamity found it barely edible. However, there were Blood Eating Iron Whales swimming around, so it did not dare to make a reckless move.

After waiting for a long while, it seemed that those Blood Eating Iron Whales finally left.

Little Yellow Spring extended its weakened senses and ascertained that there were no more Blood Eating Iron Whales around. Then, it slowly swam out and headed towards that Blue Ocean Lotus.

Guru guru~!

A cluster of air bubbles suddenly surged up from the darkness ahead. Yellow Spring Calamity cautiously hid into the ocean mud nearby.

Within the murky area ahead, Yellow Spring Calamity saw a vague whale figure covered in metal. It was none other than a Blood Eating Iron Whale!

Little Yellow Spring approached slightly and frustratedly realized that the Blood Eating Iron Whale was chewing on that Blue Ocean Lotus!

Yellow Spring Calamity had been exiled for such a long time and never had a proper meal, because the things there were too dirty.

It finally saw a Blue Ocean Lotus which it could fill its stomach with, only to see it getting wasted by this fat and clumsy Blood Eating Iron Whale. Its accumulated fury instantly turned into a rampaging tsunami!

“Ni! Ni!”

Yellow Spring Calamity cried out furiously. It could no longer hold back its arrogant temper due to hunger!

This lowly Blood Eating Iron Whale deserved to die!

When that Blood Eating Iron Whale heard the cry, it immediately turned around.

“Guru!” Blood Eating Iron Whale recognized this little Yellow Spring. When little Yellow Spring was actually charging towards it, it made a mocking laughter!

It opened its big mouth and shot out a crimson water pillar from its throat. The water pillar penetrated a few underwater coral rocks and aimed towards the direction little Yellow Spring was charging from.

Yellow Spring Calamity flipped its body agility and traced a curve around the straight cylindrical water pillar. It dodged the attack from that Blood Eating Iron Shark!

Yellow Spring Calamity’s finned claw carried a gust of water current. When it swung its finned claw, the surging water current transformed into a sharp sword and swept past the body of Blood Eating Iron Shark.

Pzzzt~!

Sharp metal scraping sound rang out.

This Ocean Sword Sharp Claw only left a claw mark on Blood Eating Iron Shark’s body. It did not even penetrate the defense!

Blood Eating Iron Whale’s defensive ability was one of the top amongst Ocean Species. Yellow Spring Calamity’s strength after getting sealed was actually not much different from this Blood Eating Iron Whale. However, this metal defense made Yellow Spring Calamity’s attack completely ineffective.

“Gurugugu~!” Blood Eating Iron Whale opened its big mouth and made a strange laughing sound.

Obviously, this whale was mocking at Yellow Spring’s feeble attack.

“Aoru!”

Suddenly, Blood Eating Iron Shark raised its head and made a long shout in this ocean region!

“Aoru!”

Soon after, similar sounding response actually came from afar.

Yellow Spring Calamity hurriedly extended its senses and realized strange fluctuation occurring in the ocean far away!

This fluctuation was very violent. It was clear that a large group of creatures were rapidly swimming towards here!

It was a group of Blood Eating Iron Whales!

Those creatures did not swim far away yet!

Little Yellow Spring was already having trouble taking on this single Blood Eating Iron Whale, let alone a group of them.

Yellow Spring Calamity would not use its life as a joke. It could not care about its food getting wasted. It hurriedly swam towards the Sea Obstinate Rock area. Only there could guarantee its safety.

.....

“Gugugugugugu~!”

Strange ripples appeared on the ocean surface.

In the distance, waves rose up for no reason. One could see some huge iron fin tails slapping the ocean water within the waves!

“Hiissss~!”

Single-horned sea snake made a scared hissing sound. It did not dare to swim forward anymore.

The ocean region ahead was completely occupied by Blood Eating Iron Whales. Even though the single-horned sea snake was a tyrant in one ocean region, it could not take on such a large group of Blood Eating Iron Whales. Would it not be suicidal to swim over there?

“Hiissss~!”

Single-horned sea snake was resolute in not swimming over there. Chu Mu sensed something amiss. He did not think too much and told Ning Maner, "Wait on this ocean surface, I will go down to take a look."

"I also want to go," Ning Maner's action was even faster than Chu Mu. She jumped into the dirty ocean without even changing her clothes.

Chu Mu hurriedly chanted an incantation to apply a layer of spatial protection for Ning Maner in order to prevent her from getting drenched in stinky water.

Meanwhile, Chu Mu himself was the same as usual. He directly used spatial ability to isolate the water and dove into the ocean.

The water kept getting separated by Chu Mu, then closed up again behind him.

Robust figures appeared one after another around Chu Mu. Those figures appeared to be crimson and filled with power. They could whip up a rampaging wave as they swam, appearing to be really tyrannical.

Chu Mu noticed these Blood Eating Iron Whales were gathering towards a certain direction. He had a bad feeling about this and hurriedly accelerated.

Finally, deep in the ocean, Chu Mu saw a large group of Blood Eating Iron Whales.

These whales were surrounding a Flood Dragon Unicorn-like creature which was covered in green scales. They were slamming that creature with their terrifying bodies.

“It’s little Yellow Spring!” exclaimed Ning Maner.

There were about fifty Blood Eating Iron Whales. They occupied a large volume of space in the ocean. Their swimming speed was very fast, the dangerous power behind that swimming charge shattered the seabed rocks into pieces.

Little Yellow Spring was very agile in the water, but it could not handle the encirclement of so many Blood Eating Iron Whales. It was already covered in bruises and was clearly very slow.

The surrounding Blood Eating Iron Whales seemed interested in teasing little Yellow Spring. They did not kill it immediately, but kept slamming the water and rocks around little Yellow Spring, causing it to tumble around.

“Ni~!”

Yellow Spring Calamity made a miserable cry. It kept swimming towards the Sea Obstinate Rock without giving up.

However, when it swam into the Sea Obstinate Rock area, the chain tied on its body was exposed outside.

The Blood Eating Iron Whale which ate the Blue Ocean Lotus bit onto the chain and forcefully pulled Yellow Spring Calamity out from the Sea Obstinate Rock area.

Bam! Bam!

Yellow Spring Calamity's body was forcefully pulled out like that. Its body also kept slamming onto the Sea Obstinate Rocks, causing it to spit out a mouthful of blood.

Yellow Spring, the strongest race in the entire Eternal Ocean.

However, just how many battle-loving races were willing to acknowledge the ruling position of Yellow Spring?

Blood Eating Iron Whale was a race that was filled with jealousy and rage. When they saw an abandoned Yellow Spring appearing in this ocean region, they would do everything they could to humiliate it!

And this scene was seen by Chu Mu.

His pair of black and silver heterochromatic eyes instantly became bloodshot!

If those Blood Eating Iron Whales just killed little Yellow Spring, Chu Mu would not be so angry. After all, it had committed too many misdeeds. Getting exiled into such an ocean region with its power sealed could easily get it killed.

However, this group of Blood Eating Iron Whales used such a cruel way to torture little Yellow Spring despite having the ability to kill it. He could easily tell from the bruises on Yellow Spring Calamity's body that those Blood Eating Iron Whales had been repeating this process over and over!

From the start, Chu Mu had determined Yellow Spring Calamity to be his soul pet!

He allowed his soul pet to die nobly in a battle, but would never allow anyone humiliating and torturing his soul pet like that!

Blood Eating Iron Whale clan, to be exterminated!

Chapter 1518: Meeting the Calamity Ocean Demons

Chanting an incantation, Chu Mu summoned the Ice Air Fairy.

Ning had reached the low class dominator rank and in the ocean, ice type creatures were no less formidable than water type creatures!

“Ning, freeze them to pieces!” Chu Mu ordered Ning.

Ning moved through the ocean water and wherever it went, millions of tiny ice particles spread and pursued the Blood Eating Iron Whales!

“Ge zhi ge zhi ge zhi~~~~~”

The icy cold rapidly proliferated in threads like soft muslin through the ocean water.

The ice muslin was filled with a desolate killing aura, and no matter how sturdy the Blood Eating Iron Whales' bodies were, the moment they were touched by them, they were unable to stop the imposing ice muslin from wrapping around them!!

The ice muslin was soft, but they were fatal icy wrangling killing objects that had terrifying transmission capabilities.

Once they were wrapped by the icy muslin, the Blood Eating Iron Whales would be quickly imprisoned in icy cold. Then, as the muslin pulled on their flesh, the Blood Eating Iron Whales would instantly be reduced to a pile of ice shards, flesh flying everywhere. Additionally, once a Blood Eating Iron Whale perished, the icy muslin would quickly fly to another nearby Blood Eating Iron Whale.

A dozen desolate icy pieces of muslin swam through the ocean water as they transmitted. Everywhere they went, frozen pieces of meat would splinter. These Blood Eating Iron Whales didn't even have the strength to resist and they died one after another.

“Beng!!!! Beng!!!! Beng!!!!!!”

The Blood Eating Iron Whales were rather large and after being continuously frozen and shattered, the deep ocean was immediately filled with crushed pieces of their corpses!

As the ocean water moved, the frozen pieces of flesh danced along with it before settling to the bottom of the ocean...

The fifty or sixty Blood Eating Iron Whales that were circling the small Yellow Springs earlier and making fun of it and smashing into it had instantly been reduced to fragments of ice. The scene was extremely cruel and bloody.

“O lu!!!! O lu!!!!!!!!!!!!!!”

In the distance, a few large figures were moving over.

That was another group of Blood Eating Iron Whales, and there were even more of them.

However, despite wanting to check out the situation, when they saw the fifty or sixty Blood Eating Iron Whales instantly slaughtered, they no longer had the courage to swim forwards.

The pieces of corpses slowly sank around Chu Mu. He coldly glanced over at the large group of restless Blood Eating Iron Whales in the distance!

There were three or four thousand Blood Eating Iron Whales in this ocean region. Fifty or sixty Blood Eating Iron Whales wasn't enough to quell the anger inside Chu Mu!

The Blood Eating Iron Whales were the lackey species of the Calamity Ocean Demon. Since they had angered him, Chu Mu didn't plan on letting them go.

The Exile Ocean was already filled with corpses. Adding another three or four thousand more was nothing!

Chu Mu didn't stop for a second as he brought Ning straight to the large group of Blood Eating Iron Whales.

The Blood Eating Iron Whales' closely-knit group formed an iron city. It moved, stopped, and could rush ahead. Their icy steel bodies were filled with limitless power!

However, it didn't matter how many there were. How could the number of Calamity Ocean Demon lackey species Chu Mu had slaughtered be few in this period of time?

“Ling~~~~”

The Ice Air Fairy could feel the anger inside Chu Mu. And in the ocean, only it was able to fight as it pleased. In order to reach the middle class immortal rank, the tempering the Ice Air Fairy had undergone during this time had filled its body with an icy aura brimming with killing intent.

Chu Mu gave the order, and the Ice Air Fairy chanted an incantation. The surrounding ocean water began to condense and freeze as several tens of thousands of deep ocean icy arrows formed around it.

“Shua shua shua shua shua~~~~~”

The tens of thousands of icy arrows shot through the bottom of the ocean, forming speeding trajectories.

The icy arrows pierced through the large group of Blood Eating Iron Whales. Instantly, a smear of red blood began to fill the turbid ocean water!

“O lu!!!!!!!!!!”

“O lu!!!!!!”

The Blood Eating Iron Whales let out miserable cries as the blood began to spill faster and faster. In an instant, all of the Blood Eating Iron Whales were swimming in a blood color ocean.

The Blood Eating Iron Whales’ bodies were filled with holes, and many of them had been pierced to the point where their bodies collapsed into pieces of mincemeat, innards, and snapped bones.

After suffering Chu Mu’s attack, the Blood Eating Iron Whales were extremely angry. The Blood Eating Iron Whales hiding in the back that were unscathed let out earsplitting roars and began their angry offensive.

“Long long long long~~~~~”

When the several thousand Blood Eating Iron Whales swam together, it caused the rocks on the ocean floor and ocean to violently shake as if the area had been slammed into.

Undercurrents violently surged through the area. The majestic and closely packed group of Blood Eating Iron Whales formed an enormous creature that touched the ocean surface and reached the bottom of the ocean. This enormous creature rapidly charged at Chu Mu!

The Blood Eating Iron Whales were innately extremely strong creatures amongst the ocean species. Once they grouped together and charged forth, anywhere they went would inevitably sweep up a disastrous storm where no creature could survive.

Chu Mu stood there, unmoving.

Chanting an incantation, Chu Mu's black and silver pupils respectively flickered with an imposing glare. The glare formed two bolts of lightning that intersected in front of him. As it split apart the ocean water, it tore the charging Blood Eating Iron Whales in front of him to pieces!

The Blood Eating Iron Whales's defenses were difficult to break through for dominator ranks. However, for the immortal rank Chu Mu, the skin of these Blood Eating Iron Whales was but a mere layer of thicker paper!

The spatial glare continuously flew through the water, crisscrossing. Any Blood Eating Iron Whale in its path would be ripped apart, fresh blood once again being spilled.

.....

While Chu Mu fought the Blood Eating Iron Whale, Ning Maner swam up to the wounded small Yellow Spring, Calamity.

The Yellow Spring's wounds were very heavy as it laid half of its body on a piece of rock. Blood couldn't stop spilling from its wounds.

Blood was even seeping out from its mouth.

The small Yellow Spring's eyes were half-closed and it looked like it was going to sleep.

It really was in a very weak state. It had been a long time since it had eaten, causing its body's basic abilities to visibly drop. Moreover, the water in this area was slightly poisonous, continuously corroding its life force. Adding on the group attack from the Blood Eating Iron Whales, it didn't even have the strength to swim.

Ning Maner stretched out her hand and rubbed the small Yellow Spring's forehead. She used her soul remembrance to sense its life force.

"Why is it so weak?!" Ning Maner cried out.

The small Yellow Spring's life force was too weak. So weak to the point that it was on the brink of death. If it wasn't saved now, it would definitely die.

"Big brother, don't fight right now. The small Yellow Springs is nearly at its end." Ning Maner hastily called out to Chu Mu.

Chu Mu's heart shook, and he glanced at the next advancing wave of Blood Eating Iron Whales.

Gritting his teeth, Chu Mu chanted an incantation and summoned the Little Hidden Dragon in front of him.

"The two of you continue killing. Don't let a single one go!" Chu Mu instructed Ning Maner and the Little Hidden Dragon.

When the Little Hidden Dragon saw such a huge wave of prey rushing over, it immediately let out an excited howl.

The spectral attribute Little Hidden Dragon was able to fight underwater. Thus, Chu Mu only had the Little Hidden Dragon and Ning that could fight underwater.

Upon consideration of the small Yellow Spring's life, Chu Mu didn't dare waste any more time with the detestable Blood Eating Iron Whales. He hastily swam over to the small Yellow Springs.

Ning Maner's place hadn't left the small Yellow Spring's forehead. She was using her immortal aura to replenish the requisite energy and nutrients in its body.

However, the wounds on the small Yellow Spring's body were too many and too heavy. Without being an immortal teacher, it was unable to heal its wounds.

Chu Mu didn't hesitate and hastily grabbed the Life Fruit Ye Qingzi had prepared for him from his spatial ring.

The Life Fruit was personally refined by Ye Qingzi by gathering many life force items. Directly taking it would allow one to recover some life force.

Chu Mu immediately took out all of his Life Fruits and said to the small Yellow Springs: "Hurry and eat them."

"Ni~~~ Ni~~~~~" the small Yellow Springs, Calamity, lifted its eyelid and looked exhaustedly at Chu Mu.

Chu Mu remembered the first time when he saw Yellow Springs, its pair of large eyes were incomparably pure, exactly like a child. However, its eyes were now drooping, and its pupils were filled with exhaustion, pain and grievance.

The small Yellow Spring's pitiful cry as well as its dim eyes made Chu Mu's heartache. It should have been the pride of Eternal Ocean, but it was now in a dirty ocean region being made fun of by a group of Blood Eating Iron Whales that only picked on those weaker than them.

"You'll get better," Chu Mu fed Life Fruit after Life Fruit to the small Yellow Springs.

It was a bit strenuous for the small Yellow Springs to swallow because its eating passage was filled with blood. If the Life Fruits were unable to dissolve into its body, they wouldn't have much effect.

Chu Mu instantly grew extremely anxious. If Ye Qingzi was here, things would be fine as she would be able to help the small Yellow Springs recover as fast as possible.

However, neither him nor Ning Maner knew how to heal. Most of the medicine they brought could be used on wounds, but they were hardly of effect when near the brink of death.

The small Yellow Spring's life force aura was still extremely weak. It felt like if a slightly strong undercurrent were to hit its body, it would close its eyes forever.

"Big brother, let's bring it to big sister or even the Mermaid Princess," said Ning Maner.

"We won't make it." Chu Mu shook his head.

Regardless if it was returning to Wanxiang City or Mermaid Princess Lan Qie, they needed a few days. The small Yellow Spring's strength had been severely sealed, and its life force was exceptionally weak. It would already be a miracle if it could last another day.

When on the brink of death, it meant that a soul pet's wounds would continue worsening and its life force continually deteriorating. Purely relying on medicine would at most buy it some time. Only by having a soul teacher heal it and help it escape the brink of death could the soul pet use medicine to slowly recover.

"Young master, the only thing that will work is Life Providence Grass. North of Exile Ocean has Life Providence Grass at the depths of the water. However, the Mermaid Princess also said that that place is the headquarters of the Calamity Ocean Demons..." Old Li's voice rang out.

"Can I make it in time?" asked Chu Mu.

"You can make it. However, the Calamity Ocean Demons have ordered for your arrest through the entire ocean region. If you go to their headquarters, they'll treat you with great hospitality," said Old Li.

Treat him with great hospitality...

Then he would just have to be treated with great hospitality! Chu Mu couldn't care less right now!

What did it matter if he met the Calamity Ocean Demon!

Chapter 1519: Calamity Seabed City Staking Its All

The Calamity Ocean Demon was once the Eternal Ocean Eastern Ocean's most savage overlord. During its era of rule, its Dark Eastern Ocean, cruel and bloody reign forced the species in the Eastern Ocean to obediently follow its commands.

The evil lord of Eternal Ocean should have disappeared from this world 5000 years ago and should have only left behind a few terrifying historical stories for the old tortoise species to talk about.

However, this evil lord from history had appeared once again!

Within a short few months, six of the 36 great Ocean species of Eastern Ocean had been unified. They formed a very tenacious ocean faction in Eastern Ocean's Coral City, Exile Ocean, New Moon Land and the Yellow Sea. They were also continuously expanding.

If it weren't for the current Eastern Ocean Shark King having sensed the ambition of this evil fellow in time, it probably would have swallowed up even more great species in Eastern Ocean.

Although the Calamity Ocean Demon was the number one general under the Ancient Flood Dragon Person, its strength was at the peak of Eternal Ocean. Its influence on the Ocean species was like a fear-inducing flag and it could gather all ambitious ocean creatures together within a short period of time...

Eastern Ocean's ruler had fought countless battles with the Calamity Ocean Demon's army. However, for some reason, the Calamity Ocean Demon's was endless and unkillable. There would always be some species that unfathomably decided to join their group and commit evils.

In the past, the center of these four ocean regions was an area rich in resources. It was a surprise that the Calamity Ocean Demon's brain didn't oxidize after sleeping for several thousand years, but it even knew to first occupy the most important resource holy land in Eastern Ocean. This guaranteed its expansion.

Chu Mu didn't know whether he was tied to the Life Providence Grass by fate. Night needed it for its corpse removal immortal item, Princess Jinrou needed it for her resurrection medicine and now Yellow Springs needed it as well.

He had tried to take the long way around, but ended up having to go and get the Life Providence Grass himself. While he flew to the Calamity Ocean Demon's territory, Chu Mu vowed to himself that if he had the chance, he would definitely grab a few more of these. Who knew if he would need this treasure next.

Chu Mu flew in the sky. He didn't think that the Calamity Ocean Demon had extended its claws to the sky.

Indeed, there was nothing in the skies above the ocean region the Calamity Ocean Demon was ruling over. However, as he flew through the sky, he was able to see a few groups of silhouettes rapidly swimming underwater every once in a while. Although they were swimming very deep underwater, their powerful movement through the water caused the ocean's surface to split into countless long and deep water scars.

"These things are much stronger than the Calamity Ocean Demon's army in the outer ocean region." Chu Mu watched the turbulent ocean and muttered to himself.

"Young master, safety is most important. This Calamity Ocean Demon really isn't someone good to provoke." said Old Li.

The small Yellow Springs was on the brink of death so Chu Mu didn't think too much about it. If he didn't try, how would he know if those Ocean Iguana Generals in the Calamity Ocean Demon's territory were that terrifying?

Chu Mu found a place where there were no ocean demons patrolling and entered the ocean alone.

Chu Mu had left Ning Maner in Exile Ocean to take care of the small Yellow Springs. It would be much easier for him to move alone.

Even underwater, Chu Mu could use Displacement Specter to leap through space. However, the distance he could leap was reduced due to the water's interference.

Moreover, when the space would warp, the water would also visibly change. Thus, the location of his Displacement Specter would be easily detected.

After arriving underwater, Chu Mu was particularly careful. He used the shadows in the ocean to dodge the swimming ocean demons.

This region was under the control of the Azure Ocean Iguanas. These azure colored Ocean Iguana Demons could be seen everywhere holding their water form weapons as they patrolled.

The Azure Ocean Iguanas was a subspecies of the Ocean Iguana Demons. Their innate nature was savage and bloodthirsty. It was said that many Azure Ocean Iguana leaders would mercilessly kill younger members so that they wouldn't be able to surpass their status.

Such actions were very immoral in the Ocean species and were spurned. Thus, the Azure Ocean Iguanas were not liked.

The Calamity Ocean Demon grabbed onto this opportunity and recruited the Azure Ocean Iguanas into its army where slaughter was rampant.

The Azure Ocean Iguanas were innately barbarous and they preferred a leader like the Calamity Ocean Demon which encouraged the strong eating the weak. Therefore, the entire subspecies joined the Calamity Ocean Demon's banner, becoming the Eastern Ocean's greatest enemy.

Chu Mu had stayed in the Ocean species now for some time and understood many things about the species.

Towards a proud and arrogant species like the Azure Ocean Iguanas, if he didn't crush them until they had no dignity left, they wouldn't obediently listen to him. Chu Mu was thus bewildered as to why the Azure Ocean Iguanas were not among the species the small Yellow Springs had damaged.

The Azure Ocean Iguanas had a very acute sense of smell and they could sense extremely minute water movements. Their azure eyes would then lock onto that area of abnormality.

As Chu Mu traveled in the water, he used a spatial barrier to isolate himself from the water. While he moved, he was very careful to not suddenly cause water movement. But this made his movements very difficult.

"If this was on land, I could kill a few of them without even being noticed!" Chu Mu silently cursed.

Being underwater was too limiting on his movements.

If they were on land, a few thousand of these ranked Azure Ocean Iguanas wouldn't be able to detect Chu Mu, who was adept at concealment. However, he was now stopped because of a few hundred patrolling Azure Ocean Iguanas.

“O lu~~~~~”

Suddenly, an enormous creature swam in front of Chu Mu.

Chu Mu looked over, and astonishingly discovered that it was a Blood Eating Iron Whale.

This Blood Eating Iron Whale was too large. From its aura, it was probably at the pseudo immortal rank!

Chu Mu had completely slaughtered that group of Blood Eating Iron Whales in Exile Ocean. He didn't expect one to have escaped that net. If it weren't because he was afraid of startling that group of Azure Ocean Iguanas, Chu Mu would have jumped out and crushed that Blood Eating Iron Whale to death!

The Blood Eating Iron Whale swam across and the group of Azure Ocean Iguanas immediately followed it. This gave Chu Mu an opportunity to continue sneaking in.

The Ocean Calamity Demon's headquarters was located at the bottom of the ocean. From the bottom of the ocean to the ocean's surface was covered with the Calamity Ocean Demon's lackeys and pawns. It really would be difficult for Chu Mu to reach the bottom of the ocean and sneak into the deep sea trench that was full of protection.

Fortunately, his darkness attribute wasn't greatly limited. Otherwise, he would have difficulty moving even a single step in the ocean region.

As he continued downwards, Chu Mu gradually discovered that the army size of the Calamity Ocean Demon had was very large.

There were over 20 thousand Azure Ocean Iguanas on the outer patrol and their average strength was between the emperor and dominator ranks. The strength of this 20 thousand Azure Ocean Iguana army was equivalent to a thousand manned dominator rank army.

And as he approached Cave City at the bottom of the ocean, he could find dominator rank ocean monsters everywhere. Chu Mu didn't count them, but he was able to guess there were about 4000!

Presumably, these 4000 dominator rank ocean monsters were all the elite troops of the Calamity Ocean Demon.

Besides just this, there were many immortal rank ocean monsters and demons. Chu Mu was able to sense that among the tangled and complex web of caves at the bottom of the ocean were some that emitted powerful auras that would make one shiver. In fact, when Chu Mu passed by one, he felt as if there were eyes watching him.

Chu Mu didn't dare linger in this terrifying and deep ocean bottom city. He moved around the heavily guarded areas and continued moving to the even deeper trench.

However, there were an even larger number of Azure Ocean Iguanas in the trench, giving Chu Mu a huge headache. Occasionally, there were also large Blood Eating Iron Whales blocking Chu Mu's path with their fat bodies.

"Young master, there's not much time." Old Li warned Chu Mu.

Chu Mu glanced at the ocean trench filled with moving monster figures. He grit his teeth and said: "I can only slaughter my way through!"

"You can't do that. Next to us is the Calamity Ocean Demon's nest. In a few minutes, a few thousand dominator rank ocean monsters will surround this place as well as over a hundred immortal rank creatures. If you disturb the Calamity Ocean Demon, perhaps it may personally come out and young master won't be able to leave." said Old Li.

"It's unlikely to be that bad. Also, that fellow might not be in the ocean floor city." said Chu Mu.

Time was urgent and Chu Mu couldn't spend long thinking. He immediately emerged from the shadows in the depth of the ocean.

The moment he appeared, his hand transformed into a spatial blade that instantly cleaved the Blood Eating Iron Whale, blocking his view and path, in half!

"Shua!!!!!"

Chu Mu passed in between the two halves of the Blood Eating Iron Whale. His body transformed into a meteorite arrow that rapidly burst through the obstruction force of the water as aimed for the depths of the trench.

"Kui!!!!!! Kui!!!!!!!"

A group of ten Azure Ocean Iguanas alarmingly discovered the invader and immediately let out extremely sharp cries!

This shout could be heard through the entire ocean floor city, let alone the trench.

Chu Mu passed by the front of these ten Azure Ocean Iguanas. The chaotic ocean currents around him transformed into a terrifying twisting blade force that chopped the ten Azure Ocean Iguanas into pieces.

Chu Mu's strength was restricted underwater, but how could these tiny shrimps stop his tyrannical power?!

As Chu Mu dived down, the chaotic streams around him grew stronger and wider. The ocean water in the trench formed an enormous deep ocean vortex from his rapid diving and followed next to him.

Any creature that obstructed Chu Mu's path, regardless if it was an enormous Blood Eating Iron Whale, or an agile and savage Azure Ocean Iguana, everything was ground to pieces or thrown against the wall on either side of the trench, causing their innards to break!

Chu Mu's frantic charge was unstoppable and he dived straight from the edge of the trench to the bottom. All of the corpses and blood he swept up mushed together before terrifyingly proliferating!

“Kui Kui!!!!!! Kui!!!!!!! Kui!!!!!!!”

Nearby in the ocean trench, a sharp cry rang out!

Chu Mu turned around and looked above him. He immediately discovered that a mass of azure monsters were swimming down from the top of the trench as if they were going to fill up the entire trench!

“So fast!” Chu Mu jumped with fright. These monsters were too vigilant. It was as if they were already here to lay a trap.

“Old Li, hurry up and find the Life Providence Grass. If you don’t find it in three minutes, we’ll all die here.” Chu Mu said to Old Li.

“Young master, don’t play with our lives like this! What are we going to do now!” Old Li was speechless.

“Don’t talk nonsense. Hurry and find it!”

Chapter 1520: Ocean Infant Formation, Over a Hundred Soul Pet Eggs

Three minutes was enough time for these Azure Ocean Iguanas to fill the entire exit of the trench.

Chu Mu looked up, and could no longer see the ocean area above him. A mass of azure scales covered the area atop and various green poisonous liquids were dropping down from above.

“Old Li, have you found it?!” Chu Mu didn’t have any other option and could only keep swimming deeper into the trench. He was hoping that Old Li would be able to find the Life Providence Grass quicker.

“Young master, there’s one located in the deep point over there. But if we keep going down, our exit will be completely blocked off!” said Old Li.

Chu Mu looked where Old Li was pointing, and discovered that ocean water was flowing into that place.

If the ocean water was flowing in a part of the deep ocean trench, it meant that this part of the trench had a cave that led downwards somewhere else. Chu Mu was thus unexpectedly surprised and didn't hesitate to keep going down into the deep ocean trench.

Various kinds of underwater plants were growing at the depths of the trench. There were also many energy magic stones lying here. Chu Mu felt that since it had taken him much difficulty to reach the nest of the Calamity Ocean Demon, he couldn't just bring away a single Life Providence Grass.

He continued to move downwards, using spatial force to take the xuan and immortal items, as well as the magic stones, mixed in the sludge or embedded between rocks.

This didn't take him much time and soon, he filled up a spatial ring. He didn't know whether the things he inside were any good. He would only have the thought of looking at them once he escaped this place.

As he continued to move downwards, Chu Mu immediately smelled a dense immortal aura in the ocean water. This meant that there was definitely treasure even lower down.

Indeed, while moving down, he discovered numerous pearls flickering with bright light.

"Young master, I have the Life Providence Grass. There's still a trench tunnel here that's very hidden. It seems to lead somewhere else," said Old Li.

Chu Mu saw that Old Li had obtained Life Providence Grass and thus hastily put those shimmering water pearls into his spatial ring.

These pearls were definitely immortal items. He didn't have time to see how many immortal items he had. But he had obtained other benefits on top of the Life Providence Grass. As long as he could escape, this would be considered a successful risk.

The trench tunnel seemed to go below the ground of the ocean. Chu Mu didn't know where it was leading to, but no matter how terrible it was, it wouldn't be any worse than the mass of fiendish Azure Ocean Iguanas behind him.

The trench tunnel was very long and at the very end appeared a pitch-black ocean floor cave.

He didn't know if the cave was naturally formed or the Ocean species had dug its way in, but the cave at this end of the tunnel was full of the trench's aura!

Spirit, xuan, and immortal aura was mixed in here as well as various ocean floor magic stones. This all provided attribute energy. When Chu Mu swam here, he felt as if he was standing in a cultivation formation. It was like his soul would strengthen from the energy surging at him from all directions!

"Could... could this be the Ocean species' Ocean Infant Formation?" Old Li immediately saw the use of this special cave.

"What is an Ocean Infant Formation?" asked Chu Mu.

"Look. Isn't there a soul pet egg placed at every location in the cave?" said Old Li.

Chu Mu looked around and indeed discovered several soul pet eggs placed throughout the cave. These soul pet eggs were definitely ocean creatures and they were placed in a patterned formation. It resembled a conch with a mouth that continuously absorbed the various energy gathered here!

“Many ocean creatures can absorb aura while in egg form. The more they absorb, the stronger they will be when they hatch and they will always greatly surpass other species members. The rank of these soul pet eggs is not low. The weakest is a dominator rank. This is definitely how the Calamity Ocean Demon plans on using the ocean treasure basin’s resources to create a group of completely loyal ocean generals!” said Old Li.

Chu Mu looked around. There were 100 soul pet eggs in the cave. Just as Old Li had said, the weakest was a dominator rank.

This meant their innate species rank was the dominator rank. Once they absorbed the natural ocean treasure region’s aura, they would innately be superior to many other creatures. Once they matured, they would easily be able to look down on the vast majority of creatures. They would form an extremely powerful elite troop force!

He had no choice but to admit that the Calamity Ocean Demon was greatly focused on development. It had surprisingly gathered the high bloodline soul pet eggs it had plundered from various species and put them here to specially raise them!

Perhaps these soul pet eggs that had yet to hatch were useless right now. But in ten or twenty years, they would form a group of incomparably loyal subordinates with extremely powerful destructive force!

“Eh, they aren’t chasing us in.” Old Li looked somewhat surprised as he watched the ocean floor tunnel.

There were actually many similar tunnels around the cave that led here. These tunnels all led to different locations in the trench. This clearly was the energy core of the entire Ocean Infant Formation.

Interestingly, Chu Mu had slaughtered his way in and when he reached the inside of the Ocean Infant Formation, those Azure Ocean Iguanas didn't dare chase him inside. They were only able to wait outside the ocean floor tunnels.

"Haha, they are worried about the safety of these soul pet eggs." Old Li seemed to have discovered something and immediately laughed.

These soul pet eggs were extremely fragile, and couldn't withstand much movement. If these Azure Ocean Iguanas charged in and fought with Chu Mu here, they would shatter these precious soul pet eggs.

Only they knew how vital these soul pet eggs were to the Calamity Ocean Demon!

"If these soul pet eggs are so precious, why didn't the Calamity Ocean Demon send a powerful guard to defend this place?" Chu Mu didn't understand.

"Young master, you really have no common sense!" said Old Li with disdain as he said: "The Ocean Infant Formation is similar to a cultivation formation. If he sends a powerful ocean demon to defend this place, this powerful ocean demon will absorb all of the energy here for itself. The soul pet eggs won't obtain a single benefit. There are a ton of guards outside the trench, but there are no ocean demons within the range of the formation. Otherwise, the resources will be stolen by those ocean demons that understand better how to absorb the energy."

Chu Mu nodded his head and roughly understood the reason.

“Young master, will your spatial ring fit these?” suddenly asked Old Li.

“Ya, go and look for a good way out. I’ll immediately go over.” Chu Mu cracked a smile.

Old Li had short legs and arms, but his ability to swim in the water was incredible. He quickly began to probe out the different tunnels in the cave.

“Young master, this tunnel has fewer enemies.” Old Li came back after probing.

Chu Mu had already taken away all of the soul pet eggs in the cave.

Chu Mu quickly moved along the tunnel Old Li had pointed to and left the Ocean Infant Formation.

But the reality was, it didn’t matter which way Chu Mu left; the outside would be heavily surrounded and a terrifying aura was gathered outside the Ocean Infant Formation. The moment Chu Mu swam out, he would be crushed to pieces by the Azure Ocean Iguanas!

Indeed, the moment he exited the ocean floor tunnel, he was surrounded not by water, but instead Azure Ocean Iguanas that were packed so tightly together that there wasn’t a crack of space between them!

“Kui kui kui!!!!!! Kui kui!!! Kui!!!!!!!”

“Kui kui kui!!!!!!”

When the Azure Ocean Iguanas saw Chu Mu swim out, their azure eyes instantly sparkled like stars around Chu Mu. Their gazes were full of killing intent and it made Chu mu feel as if his heart had been pierced a myriad of times!

If he were on land, perhaps Chu Mu would still dare fight this Azure Ocean Iguana army. However, in the ocean, he wouldn't last more than a few minutes. A few consecutive waves of attacks could kill him.

However, Chu Mu wasn't worried.

In fact, when he swam out of the tunnel, he wasn't hurried or impatient. He held multiple soul pet eggs and rapidly rotated them around him.

Chu Mu knew that these Azure Ocean Iguanas viewed these soul pet eggs as extremely important. Thus, he leisurely revolved the soul pet eggs around them. Even without speaking the Ocean species language, his intention was very clear: if you dare attack me, these eggs will all be destroyed!

Chu Mu flicked a finger and one of the soul pet eggs instantly shot through the ocean water towards a nearby rock!

Chu Mu added a spatial barrier layer of protection onto the soul pet egg. This meant when it shot through the water, it wouldn't crack from the water force against it. However, the moment it collided with a physical object, it would immediately shatter!

When the Azure Ocean Iguanas saw Chu Mu's action, their lizard faces turned ashen. One of the close near-dominator rank Ocean Iguana Demons hastily rushed out to save it.

Once Chu Mu saw that Azure Ocean Iguana's movement, he faintly smiled and he began to flick his fingers rapidly!

In an instant, over a hundred soul pet eggs shot in completely different directions!

At the speed they were going, average strength Azure Ocean Iguanas were unable to stop them. Therefore, even if the Azure Ocean Iguanas practically covered the entire trench, they needed the peak dominator rank and above Azure Ocean Iguanas to catch the eggs.

Chu Mu shot these soul pet eggs in different directions and even added a spatial leap to them. In an instant, the extremely high ranked Azure Ocean Iguanas were running in a panic in all different directions to catch these soul pet eggs.

After scattering the hundred strongest Azure Ocean Iguanas, Chu Mu didn't hesitate. His body transformed into a dark star sword that shot straight forwards and broke through the heavy encirclement of the Azure Ocean Iguanas!

Without the immortal rank and peak dominator rank Azure Ocean Iguanas blocking him, Chu Mu was like a hot knife through butter. He instantly shot through the Azure Ocean Iguanas and broke out of the trench.

"Young master, how could you throw those eggs away?" Old Li felt heartache as he watched those soul pet eggs return to the Azure Ocean Iguanas.

“Then do you have a better method to escape?” retorted Chu Mu.

“No.”

Chu Mu turned around and looked at those Azure Ocean Iguana generals that thought they were protecting the soul pet eggs. His mouth drew itself into a smile as he said: “The Mermaid Princess wasn’t wrong... those Azure Ocean Iguanas really are stupid. Those soul pet eggs are from the previous ocean battle I fought that I just happened to pick up. I planned on using them to expand New Moon Navy.”

Old Li was stunned, and discovered that Chu Mu was wearing another more resplendent spatial ring on his finger!

This was an amazing trick. Of the hundred nurtured soul pet eggs, the weakest was a pseudo dominator rank while the strongest was an immortal rank! These were the young pet resources the Calamity Ocean Demon had obtained from invading numerous Ocean species!

This was a huge profit!
